

§ 625.5 Application procedures.

(a) *Sign-up process.* As funds are available, the Chief will solicit project proposals from the State Conservationist. The State Conservationist may consult with other agencies at the State, Federal, and local levels to develop proposals. The State Conservationist will submit the proposal(s) to the Chief for funding selection. Upon selection for funding, the State Conservationist will issue a public sign-up notice which will announce and explain the rationale for decisions based on the following information:

- (1) The geographic scope of the sign-up;
- (2) Any additional program eligibility criteria that are not specifically listed in this part;
- (3) Any additional requirements that participants must include in their HFRP applications that are not specifically identified in this part;
- (4) Information on the priority order of enrollment for funding;
- (5) An estimate of the total funds NRCS expects to obligate during a given sign-up; and
- (6) The schedule for the sign-up process, including the deadline(s) for applying.

(b) *Application for participation.* To apply for enrollment through an easement, 30-year contract, or 10-year cost-share agreement, a landowner must submit an application for participation in the HFRP during an announced period for such sign-up.

(c) *Preliminary agency actions.* By filing an application for participation, the applicant consents to an NRCS representative entering upon the land for purposes of determining land eligibility, and for other activities that are necessary or desirable for NRCS to make offers of enrollment. The applicant is entitled to accompany an NRCS representative on any site visits.

(d) *Voluntary reduction in compensation.* In order to enhance the probability of enrollment in HFRP, an applicant may voluntarily offer to accept a lesser payment than is being offered by NRCS. Such offer and subsequent payments may not be less than those rates set forth in § 625.8 and § 625.10 of this part.

§ 625.6 Establishing priority for enrollment in HFRP.

(a) *Ranking considerations.* Based on the specific criteria set forth in a sign-up announcement and the applications for participation, NRCS, in coordination FWS and NMFS, may consider the following factors to rank properties:

- (1) Estimated conservation benefit to habitat required by threatened or endangered species listed under section 4 of the ESA;
- (2) Estimated conservation benefit to habitat required by species not listed as endangered or threatened under section 4 of the ESA but that are candidates for such listing, State-listed species, or species identified by the Chief for special consideration for funding;
- (3) Estimated improvement of biological diversity, if enrolled;
- (4) Potential for increased capability of carbon sequestration, if enrolled;
- (5) Availability of contribution of non-Federal funds;
- (6) Significance of forest ecosystem functions and values;
- (7) Estimated cost-effectiveness of the particular restoration cost-share agreement, contract, or easement, and associated HFRP restoration plan; and
- (8) Other factors identified in a HFRP sign-up notice.

(b) NRCS may place higher priority on certain forest ecosystems based regions of the State or multi-State area where restoration of forestland may better achieve NRCS programmatic and sign-up goals and objectives.

(c) Notwithstanding any limitation of this part, NRCS may enroll eligible lands at any time in order to encompass project areas subject to multiple land ownership or otherwise to achieve program objectives. Similarly, NRCS may, at any time, exclude otherwise eligible lands if the participation of the adjacent landowners is essential to the successful restoration of the forest ecosystem and those adjacent landowners are unwilling to participate.

(d) If available funds are insufficient to accept the highest ranked application, and the applicant is not interested in reducing the acres offered to match available funding, NRCS may select a lower ranked application that can be fully funded. In cases where
