

Agricultural Marketing Service, USDA

§ 981.59

does not act as agent for the Board in the disposition of reserve almonds shall be subject to the applicable inspection and certification requirements prescribed by the Board pursuant to § 981.67.

[41 FR 26853, June 30, 1976]

§ 981.54 Payment to handlers for services rendered.

The Board may pay handlers for necessary services rendered by them in connection with almonds eventually disposed of directly by the Board as reserve including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other services in accordance with such schedule of payments and under such conditions as may be established by the Secretary after recommendation of the Board.

§ 981.55 Interhandler transfers.

(a) Any handler may, upon notice to and under the supervision and direction of the Board, transfer almonds or reserve credits to another handler. Any such transfers shall be accounted for in such manner that the reserve obligation and assessments on the combined transactions of the participating handlers shall be fully met and such reserve withholding obligation and assessments may be divided between such handlers in accordance with their arrangements subject to approval of the Board.

(b) When salable and reserve percentages are in effect, any handler may transfer reserve withholding obligation to other handlers. Terms and conditions implementing this provision must be recommended by the Board and approved by the Secretary.

[35 FR 11372, July 16, 1970, as amended at 61 FR 32921, June 26, 1996]

§ 981.56 Assistance of Board in accounting for reserve.

The Board, on written request, may assist handlers in accounting for their reserve obligations and may aid any handler in acquiring almonds to meet any deficiency in his reserve.

§ 981.57 Application of salable and reserve percentages after end of crop year.

The salable and reserve percentages established for any crop year shall continue in effect with respect to all almonds for which the reserve obligation has not been previously met, which are received for his own account or handled by any handler after the end of such crop year and before salable and reserve percentages are established for the succeeding crop year. After such percentages are established for the new crop year, the withholding requirements for all such almonds theretofore received for his own account or handled during that crop year shall be adjusted to the newly established percentages.

§ 981.59 Adjustment upon increase of salable percentage.

(a) Upon any increase in the salable percentage and corresponding decrease in the reserve percentage, the reserve obligation of each handler for the entire crop year to the effective date of such action shall be computed in accordance with such revised salable and reserve percentages. From the reserve almonds that may have been withheld by him and not yet disposed of, any handler authorized to act and acting as agent of the Board in disposing of reserve pursuant to § 981.66 shall be permitted to select, under the supervision and direction of the Control Board, the particular reserve almonds to be restored to his salable percentage, and such restoration shall be deemed to fulfill the obligation of the Board with respect to such increase.

(b) In the case of handlers who have not been authorized to dispose of their own reserves, and handlers who have terminated their agencies to dispose of their own reserves, prior to an increase in the salable percentage, insofar as practicable each such handler shall be permitted to select almonds from his own reserve to be restored to his salable quantity. In the event there are not sufficient reserve almonds held by the Board at the time the salable percentage is increased, to make full restoration, as represented by the increase in the salable percentage, to all such handlers, the restoration to the salable quantities of the respective

§ 981.60

handlers shall be pro rata on the basis of certified kernel weight poundage of reserve contributed by said handlers during the crop year to the date of increase of the salable percentage: *Provided*, That restoration shall be made in a manner that will result, to the extent practicable, in a comparable percentage of reserve disposition for each such handler and that no handler shall receive almonds in excess of his contribution. Such restoration to the salable quantity shall be deemed to fulfill the obligation of the Board with respect to the increase in the salable percentage.

§ 981.60 Determination of kernel weight.

(a) *Almonds for which settlement is made on kernel weight.* All lots of almonds, whether shelled or unshelled, for which settlement is made on the basis of kernel weight shall be included in the total kernel weight for any handler at the settlement weight.

(b) *Almonds for which settlement is made on unshelled weight.* The settlement weight for unshelled almonds shall be determined on the basis of representative samples of unshelled almonds reduced to shelled weight.

[35 FR 11372, July 16, 1970, as amended at 61 FR 32921, June 26, 1996]

§ 981.61 Redetermination of kernel weight.

The Board, on the basis of reports by handlers, shall redetermine the kernel weight of almonds received by each handler for his own account during each crop year through each of the following dates: December 31, March 31, and June 30. Such redetermined kernel weight for each handler shall be the basis for computing his reserve obligation for the crop year through such dates, except that adjustment shall be made for almonds on which the obligation has been assumed by another handler. The redetermined kernel weight of each handler's receipts, as of any date during the crop year, shall be his carryover as of that date plus the weight of almonds delivered or used in products minus the carryover at the beginning of the crop year, the weight on which another handler has assumed the obligations, and the weight deliv-

ered to exempt outlets. Weights used in such computations for various classifications of almonds shall be:

(a) For unshelled almonds, the kernelweight based on representative samples reduced to shelled weight;

(b) For shelled almonds, the net weight; and

(c) For shelled almonds used in production of almond products, the net weight of such almonds.

[41 FR 26853, June 30, 1976, as amended at 61 FR 32921, June 26, 1996]

DISPOSITION OF RESERVE

§ 981.65 Prohibition on the use or disposition of reserve almonds.

Except as provided in §§ 981.66 and 981.67, almonds that are withheld as reserve pursuant to the requirements of § 981.50 or are creditable in satisfaction of a reserve withholding obligation thereunder, shall not be used or disposed of by any handler or any other person.

§ 981.66 Conditions governing disposition of reserve.

(a) *General.* The Board shall have power and authority to sell or dispose of any and all reserve almonds withheld upon the best terms and at the highest return obtainable consistent with the ultimate complete disposition of reserve, subject to all conditions of this section.

(b) *Exclusion from salable normal trade channels.* No reserve almonds shall be sold in the United States, Puerto Rico, and the Canal Zone other than to governmental agencies or to charitable institutions for charitable purposes, except for diversion into almond oil, almond butter, poultry or animal feed, or into other channels which the Board finds are noncompetitive with existing normal markets for almonds, and with proper safeguards in each case to prevent such almonds thereafter entering the channels of trade in such normal markets.

(c) *Disposition after December 31.* Any reserve almonds remaining unsold as of December 31 shall be disposed of by the Board as soon as practicable through the most readily available reserve outlets. The date of December 31 herein specified may be extended to a later
