

identified receiving premises that contain only swine that have completed their interstate movement within a single swine production system and of all swine on those premises must be conducted in accordance with State regulations. The plan must also describe the recordkeeping system of the swine production system. The plan will not be valid unless it is signed by an official of each swine production system identified in the plan, the swine production system accredited veterinarian(s), an APHIS representative, and the State animal health official from each State in which the swine production system has premises. In the plan, the swine production system must acknowledge that it has been informed of and has notified the managers of all its premises listed in the plan that any failure of the participants in the swine production system to abide by the provisions of the plan and the applicable provisions of this part and part 85 of this chapter constitutes a basis for the cancellation of the swine production health plan, as well as other administrative or criminal sanctions, as appropriate.

*Swine production system.* A swine production enterprise that consists of multiple sites of production; *i.e.*, sow herds, nursery herds, and growing or finishing herds, but not including slaughter plants or livestock markets, that are connected by ownership or contractual relationships, between which swine move while remaining under the control of a single owner or a group of contractually connected owners.

*Swine production system accredited veterinarian.* An accredited veterinarian who is named in a swine production health plan for a premises within a swine production system and who performs inspection of such premises and animals and other duties related to the movement of swine in a swine production system.

*Tick infested.* Infested with the ticks *Boophilus annulatus* (*Margaropus annulatus*), *Boophilus microplus*, or *Rhipicephalus evertsi evertsi*.

*United States.* All of the States.

*United States Department of Agriculture backtag.* A backtag issued by

APHIS that provides unique identification for each animal.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 71.1, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at [www.fdsys.gov](http://www.fdsys.gov).

**§ 71.2 Secretary to issue rule governing quarantine and interstate movement of diseased animals, including poultry.**

When the Secretary of Agriculture shall determine the fact that poultry or other animals in any State, Territory, or the District of Columbia are affected with any contagious, infectious, or communicable disease of livestock or poultry for which, in his opinion, a quarantine should be established or that other basis for a quarantine exists, notice will be given of that fact, and a rule will be issued accordingly, placing in quarantine such State, Territory, or the District of Columbia, or specified portion thereof. This rule will either absolutely forbid the interstate movement of the quarantined animals from the quarantined area or will indicate the regulations under which interstate movements may be made.

[34 FR 15641, Oct. 9, 1969]

**§ 71.3 Interstate movement of diseased animals and poultry generally prohibited.**

(a) Animals or poultry affected with any of the following diseases, which are endemic to the United States: Equine piroplasmiasis, bovine piroplasmiasis or splenic fever, scabies in cattle, pseudorabies, acute swine erysipelas, tuberculosis, Johne's disease, brucellosis, scrapie, bluetongue, anthrax, chlamydiosis, and Newcastle disease, or any other communicable disease which is endemic to the United States, or which are cattle fever tick infested, shall not be moved interstate.

(b) Animals or poultry affected with any of the following diseases, not known to exist in the United States: foot-and-mouth disease, rinderpest, African swine fever, classical swine fever, Teschen disease, contagious bovine pleuropneumonia, European fowl pest, dourine, contagious equine metritis, vesicular exanthema, screwworms and
