§ 94.20

contamination or commingling of the meat with products not eligible for importation into the United States;

- (2) The animals did not test positive for and were not suspect for a transmissible spongiform encephalopathy;
- (3) The animals have not resided in a flock or herd that has been diagnosed with BSE; and
- (4) The animals' movement is not restricted within Canada as a result of exposure to a transmissible spongiform encephalopathy.
- (e) Meat or dressed carcasses of hunterharvested wild sheep, goats, or other ruminants other than cervids. The meat or dressed carcass (eviscerated and the head is removed) is derived from a wild sheep, goat, or other ruminant other than a cervid and meets the following conditions:
- (1) The meat or dressed carcass is derived from an animal that has been legally harvested in the wild, as verified by proof such as a hunting license, tag, or the equivalent that the hunter must show to the United States Customs and Border Protection official; and
- (2) The animal from which the meat is derived was harvested within a jurisdiction specified by the Administrator for which the game and wildlife service of the jurisdiction has informed the Administrator either that the jurisdiction conducts no type of game feeding program, or has complied with, and continues to comply with, a ruminant feed ban equivalent to the requirements established by the U.S. Food and Drug Administration at 21 CFR 589.2000.
- (f) Gelatin other than that allowed importation under $\S 94.18(c)$. The gelatin is derived from:
- (1) The bones of bovines subject to a ruminant feed ban equivalent to the requirements established by the U.S. Food and Drug Administration at 21 CFR 589.2000 and from which SRMs were removed, and the gelatin has not been commingled with materials ineligible for entry into the United States; or
- (2) The hides of bovines, and the gelatin has not been commingled with materials ineligible for entry into the United States.
- (g) Ports. All products to be brought into the United States under this sec-

tion must, if arriving at a land border port, arrive at one of the following ports: Eastport, ID; Houlton, ME; Detroit (Ambassador Bridge), Port Huron, and Sault St. Marie, MI; International Falls, MN; Sweetgrass, MT; Alexandria Bay, Buffalo (Lewiston Bridge and Peace Bridge), and Champlain, NY; Pembina and Portal, ND; Derby Line and Highgate Springs, VT; and Blaine (Pacific Highway and Cargo Ops), Lynden, Oroville, and Sumas (Cargo), WA.

[70 FR 550, Jan. 4, 2005, as amended at 70 FR 12113, Mar. 11, 2005; 72 FR 53378, Sept. 18, 2007; 73 FR 3384, Jan. 18, 2008]

§ 94.20 Gelatin derived from horses or swine, or from ruminants that have not been in any region where bovine spongiform encephalopathy exists.

Gelatin derived from horses or swine, or from ruminants that have not been in any region listed in §94.18(a) of this part, must be accompanied at the time of importation into the United States by an official certificate issued by a veterinarian employed by the national government of the region of origin. The official certificate must state the species of animal from which the gelatin is derived and, if the gelatin is derived from ruminants, certify that the gelatin is not derived from ruminants that have been in any region listed in §94.18(a).

(Approved by the Office of Management and Budget under control number 0579–0015)

§ 94.21 [Reserved]

§94.22 Restrictions on importation of beef from Uruguay.

Notwithstanding any other provisions of this part, fresh (chilled or frozen) beef from Uruguay may be exported to the United States under the following conditions:

- (a) The meat is beef from bovines that have been born, raised, and slaughtered in Uruguay.
- (b) Foot-and-mouth disease has not been diagnosed in Uruguay within the previous 12 months.
