Mendelevium–258
Neptunium–235
Polonium–208
Polonium–209
Polonium–210
Radium–223

(5)(i) For americium–241, exports under the general license to a country listed in §110.29 must not exceed \(3.7 \times 10^{-2}\) TBq (one curie) per shipment.

(ii) For americium–241, exports under the general license to a country listed in §110.29 that exceed \(3.7 \times 10^{-2}\) TBq (one curie) per shipment, must be contained in industrial process control equipment or petroleum exploration equipment in quantities not exceeding \(0.60\) TBq (16 curies) per device and not exceeding \(7.4\) TBq/calendar year (200 curies/calendar year) to any one country.

(iii) All exports of americium are subject to the reporting requirements listed in §110.54(b).

(6) For neptunium–235 and –237, exports under the general license must not exceed one gram for individual shipment and must not exceed a cumulative total of 10 grams per calendar year to any one country. All exports of neptunium are subject to the reporting requirements listed in §110.54(b).

(7) For polonium–210, exports under the general license, when contained in static eliminators, must not exceed \(3.7\) TBq (100 curies) per individual shipment.

(8)(i) For tritium in any dispersed form (e.g., luminescent light sources and paint, accelerator targets, calibration standards, labeled compounds), exports under the general license must not exceed \(0.37\) TBq (10 curies (1.03 milligrams)) per item, not to exceed \(37\) TBq (1,000 curies (103 milligrams)) per shipment, or \(370\) TBq (10,000 curies (1.03 grams)) per calendar year to any one country.

(ii) For tritium in any dispersed form (e.g., luminescent light sources and paint, accelerator targets, calibration standards, labeled compounds), exports under the general license must not exceed \(1.48\) TBq (40 curies (4.12 milligrams)) per item, not to exceed \(37\) TBq (1,000 curies (103 milligrams)) per shipment or \(370\) TBq (10,000 curies (1.03 grams)) per calendar year to any one country.

(iii) For tritium in luminescent safety devices installed in an aircraft, exports under the general license must not exceed \(1.48\) TBq (40 curies (4.12 milligrams)) per item.

(iv) The general license in this section does not authorize the export of tritium for recovery or recycle purposes.

(b) [Reserved]

[75 FR 44088, July 28, 2010]

§ 110.24 General license for the export of deuterium.

(a) A general license is issued to any person to export to any country not listed in §110.28 or §110.29 deuterium in individual shipments of 10 kilograms or less (50 kilograms of heavy water). No person may export more than 200 kilograms (1,000 kilograms of heavy water) per calendar year to any one country.

(b) A general license is issued to any person to export to any country listed in §110.29 deuterium in individual shipments of 1 kilogram or less (5 kilograms of heavy water). No person may export more than 5 kilograms (25 kilograms of heavy water) per calendar year to any one country.

[75 FR 44088, July 28, 2010]

§ 110.25 [Reserved]

§ 110.26 General license for the export of nuclear reactor components.

(a) A general license is issued to any person to export to a destination listed in paragraph (b) of this section any nuclear reactor component of U.S. origin described in paragraphs (5) through (9) of Appendix A to this part if—
§ 110.27 General license for imports.

(a) Except as provided in paragraphs (b) and (c) of this section, a general license is issued to any person to import byproduct, source, or special nuclear material if the U.S. consignee is authorized to receive and possess the material under the relevant NRC or Agreement State regulations.

(b) The general license in paragraph (a) of this section does not authorize the import of more than 100 kilograms per shipment of source and/or special nuclear material in the form of irradiated fuel.

(c) Paragraph (a) of this section does not authorize the import under a general license of radioactive waste.

(d) A person importing formula quantities of strategic special nuclear material (as defined in §73.2 of this chapter) under this general license shall provide the notifications required by §73.27 and §73.72 of this chapter.

(e) A general license is issued to any person to import the major components of a utilization facility as defined in §110.2 for end-use at a utilization facility licensed by the Commission.

(f) Importers of radioactive material listed in appendix P to this part must provide the notifications required by §110.50.

§ 110.28 Embargoed destinations.

Cuba
Iran
Iraq
North Korea
Syria
Sudan

§ 110.29 Restricted destinations.

Afghanistan
Andorra
Angola
Burma (Myanmar)
Djibouti
India
Israel
Libya
Pakistan

NOTE TO §110.26: U.S. Origin includes components produced or finished in the United States, even with non-U.S. content unless the foreign content is obligated by supplier government conditions, such as a prior consent for retransfer condition.
