U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA’s official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist’s designee. Any person using NARA’s official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0–16 ISBN prefix is for U.S. Government Printing Office Official Editions only. The Superintendent of Documents of the U.S. Government Printing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 12 CFR 220.1 refers to title 12, part 220, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16..............................as of January 1
- Title 17 through Title 27..............................as of April 1
- Title 28 through Title 41..............................as of July 1
- Title 42 through Title 50..............................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2013), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a "List of CFR Sections Affected" is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

"[RESERVED]" TERMINOLOGY

The term "[Reserved]" is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a "[Reserved]" location at any time. Occasionally "[Reserved]" is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.
An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-741-6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail fedreg.info@nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Printing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via www.ofr.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Printing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, ContactCenter@gpo.gov.

CHARLES A. BARTH,
Director,
Office of the Federal Register.
January 1, 2013.
Title 12—Banks and Banking is composed of nine volumes. The parts in these volumes are arranged in the following order: Parts 1–199, 200–219, 220–229, 230–299, 300–499, 500–599, 600–899, 900–1099, and part 1100-end. The first volume containing parts 1–199 is comprised of chapter I—Comptroller of the Currency, Department of the Treasury. The second, third and fourth volumes containing parts 200–299 are comprised of chapter II—Federal Reserve System. The fifth volume containing parts 300–499 is comprised of chapter III—Federal Deposit Insurance Corporation and chapter IV—Export-Import Bank of the United States. The sixth volume containing parts 500–599 is comprised of chapter V—Office of Thrift Supervision, Department of the Treasury. The seventh volume containing parts 600–899 is comprised of chapter VI—Farm Credit Administration, chapter VII—National Credit Union Administration, and chapter VIII—Federal Financing Bank. The eighth volume containing parts 900–1099 is comprised of chapter IX—Federal Housing Finance Board and chapter X—Bureau of Consumer Financial Protection. The ninth volume containing part 1100-end is comprised of chapter XI—Federal Financial Institutions Examination Council, chapter XII—Federal Housing Finance Agency, chapter XIII—Financial Stability Oversight Council, chapter XIV—Farm Credit System Insurance Corporation, chapter XV—Department of the Treasury, chapter XVI—Office of Financial Research, Department of the Treasury, chapter XVII—Office of Federal Housing Enterprise Oversight, Department of Housing and Urban Development and chapter XVIII—Community Development Financial Institutions Fund, Department of the Treasury. The contents of these volumes represent all of the current regulations codified under this title of the CFR as of January 1, 2013.

For this volume, Jonn Lilyea was Chief Editor. The Code of Federal Regulations publication program is under the direction of Michael L. White, assisted by Ann Worley.

PART 220—CREDIT BY BROKERS AND DEALERS (REGULATION T)

Sec. 220.1 Authority, purpose, and scope.
220.2 Definitions.
220.3 General provisions.
220.4 Margin account.
220.5 Special memorandum account.
220.6 Good faith account.
220.7 Broker-dealer credit account.
220.8 Cash account.
220.9 Clearance of securities, options, and futures.
220.10 Borrowing and lending securities.
220.11 Requirements for the list of marginable OTC stocks and the list of foreign margin stocks.
220.12 Supplement: margin requirements.

INTERPRETATIONS
220.101 Transactions of customers who are brokers or dealers.
220.102 [Reserved]
220.103 Borrowing of securities.
220.104 [Reserved]
220.105 Ninety-day rule in special cash account.
220.106–220.107 [Reserved]
220.108 International Bank Securities.
220.109 [Reserved]
220.110 Assistance by Federal credit union to its members.
220.111 Arranging for extensions of credit to be made by a bank.
220.112 [Reserved]
220.113 Necessity for prompt payment and delivery in special cash accounts.
220.114–220.116 [Reserved]
220.117 Exception to 90-day rule in special cash account.
220.118 Time of payment for mutual fund shares purchased in a special cash account.
220.119 Applicability of margin requirements to credit extended to corporation in connection with retirement of stock.
220.120 [Reserved]
220.121 Applicability of margin requirements to joint account between two creditors.
220.122 "Deep in the money put and call options" as extensions of credit.
220.123 Partial delayed issue contracts covering nonconvertible bonds.
220.124 Installment sale of tax-shelter programs as "arranging" for credit.
220.125–220.126 [Reserved]
220.127 Independent broker/dealers arranging credit in connection with the sale of insurance premium funding programs.

§ 220.1 Authority, purpose, and scope.
(a) Authority and purpose. Regulation T (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Securities Exchange Act of 1934 (the Act) (15 U.S.C.78a et seq.). Its principal purpose is to regulate extensions of credit by brokers and dealers; it also covers related transactions within the Board’s authority under the Act. It imposes, among other obligations, initial margin requirements and payment rules on certain securities transactions.

(b) Scope. (1) This part provides a margin account and four special purpose accounts in which to record all financial relations between a customer and a creditor. Any transaction not specifically permitted in a special purpose account shall be recorded in a margin account.

(2) This part does not preclude any exchange, national securities association, or creditor from imposing additional requirements or taking action for its own protection.

(3) This part does not apply to:
(i) Financial relations between a customer and a creditor to the extent that they comply with a portfolio margining system under rules approved or amended by the SEC;

(ii) Credit extended by a creditor based on a good faith determination that the borrower is an exempted borrower;

220.128 Treatment of simultaneous long and short positions in the same margin account when put or call options or combinations thereof on such stock are also outstanding in the account.
§ 220.2

(iii) Financial relations between a customer and a broker or dealer registered only under section 15C of the Act; and

(iv) Financial relations between a foreign branch of a creditor and a foreign person involving foreign securities.

[Reg. T, 63 FR 2820, Jan. 16, 1998]

§ 220.2 Definitions.

The terms used in this part have the meanings given them in section 3(a) of the Act or as defined in this section as follows:

Affiliated corporation means a corporation of which all the common stock is owned directly or indirectly by the firm or general partners and employees of the firm, or by the corporation or holders of the controlling stock and employees of the corporation, and the affiliation has been approved by the creditor’s examining authority.

Cash equivalent means securities issued or guaranteed by the United States or its agencies, negotiable bank certificates of deposit, bankers acceptances issued by banking institutions in the United States and payable in the United States, or money market mutual funds.

Covered option transaction means any transaction involving options or warrants in which the customer’s risk is limited and all elements of the transaction are subject to contemporaneous exercise if:

(1) The amount at risk is held in the account in cash, cash equivalents, or via an escrow receipt; and

(2) The transaction is eligible for the cash account by the rules of the registered national securities exchange authorized to trade the option or warrant or by the rules of the creditor’s examining authority in the case of an unregistered option, provided that all such rules have been approved or amended by the SEC.

Credit balance means the cash amount due the customer in a margin account after debiting amounts transferred to the special memorandum account.

Creditor means any broker or dealer (as defined in sections 3(a)(4) and 3(a)(5) of the Act), any member of a national securities exchange, or any person associated with a broker or dealer (as defined in section 3(a)(18) of the Act), except for business entities controlling or under common control with the creditor.

Current market value of:

(1) A security means:

(i) Throughout the day of the purchase or sale of a security, the security’s total cost of purchase or the net proceeds of its sale including any commissions charged; or

(ii) At any other time, the closing sale price of the security on the preceding business day, as shown by any regularly published reporting or quotation service. If there is no closing sale price, the creditor may use any reasonable estimate of the market value of the security as of the close of business on the preceding business day.

(2) Any other collateral means a value determined by any reasonable method.

Customer excludes an exempted borrower and includes:

(1) Any person or persons acting jointly:

(i) To or for whom a creditor extends, arranges, or maintains any credit; or

(ii) Who would be considered a customer of the creditor according to the ordinary usage of the trade;

(2) Any partner in a firm who would be considered a customer of the firm absent the partnership relationship; and

(3) Any joint venture in which a creditor participates and which would be considered a customer of the creditor if the creditor were not a participant.

Debit balance means the cash amount owed to the creditor in a margin account after debiting amounts transferred to the special memorandum account.

Delivery against payment, Payment against delivery, or a C.O.D. transaction refers to an arrangement under which a creditor and a customer agree that the creditor will deliver to, or accept from, the customer, or the customer’s agent, a security against full payment of the purchase price.

Equity means the total current market value of security positions held in the margin account plus any credit balance less the debit balance in the margin account.
Escrow agreement means any agreement issued in connection with a call or put option under which a bank or any person designated as a control location under paragraph (c) of SEC Rule 15c3–3 (17 CFR 240.15c3–3(c)), holding the underlying asset or required cash or cash equivalents, is obligated to deliver to the creditor (in the case of a call option) or accept from the creditor (in the case of a put option) the underlying asset or required cash or cash equivalent against payment of the exercise price upon exercise of the call or put.

Examining authority means:
(1) The national securities exchange or national securities association of which a creditor is a member; or
(2) If a member of more than one self-regulatory organization, the organization designated by the SEC as the examining authority for the creditor.

Exempted borrower means a member of a national securities exchange or a registered broker or dealer, a substantial portion of whose business consists of transactions with persons other than brokers or dealers, and includes a borrower who:
(1) Maintains at least 1000 active accounts on an annual basis for persons other than brokers, dealers, and persons associated with a broker or dealer;
(2) Earns at least $10 million in gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer; or
(3) Earns at least 10 percent of its gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer.

Exempted securities mutual fund means any security issued by an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), provided the company has at least 95 percent of its assets continuously invested in exempted securities (as defined in section 3(a)(12) of the Act).

Foreign margin stock means a foreign security that is an equity security that:
(1) Appears on the Board’s periodically published List of Foreign Margin Stocks; or
(2) Is deemed to have a “ready market” under SEC Rule 15c3-1 (17 CFR 240.15c3-1) or a “no-action” position issued thereunder.

Foreign person means a person other than a United States person as defined in section 7(f) of the Act.

Foreign security means a security issued in a jurisdiction other than the United States.

Good faith with respect to:
(1) Margin means the amount of margin which a creditor would require in exercising sound credit judgment;
(2) Making a determination or accepting a statement concerning a borrower means that the creditor is alert to the circumstances surrounding the credit, and if in possession of information that would cause a prudent person not to make the determination or accept the notice or certification without inquiry, investigates and is satisfied that it is correct.

Margin call means a demand by a creditor to a customer for a deposit of additional cash or securities to eliminate or reduce a margin deficiency as required under this part.

Margin deficiency means the amount by which the required margin exceeds the equity in the margin account.

Margin equity security means a margin security that is an equity security (as defined in section 3(a)(11) of the Act).

Margin excess means the amount by which the equity in the margin account exceeds the required margin. When the margin excess is represented by securities, the current value of the securities is subject to the percentages set forth in §220.12 (the Supplement).

Margin security means:
(1) Any security registered or having unlisted trading privileges on a national securities exchange;
(2) After January 1, 1999, any security listed on the Nasdaq Stock Market;
(3) Any non-equity security;
(4) Any security issued by either an open-end investment company or unit investment trust which is registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8);
(5) Any foreign margin stock;
(6) Any debt security convertible into a margin security;
(7) Until January 1, 1999, any OTC margin stock; or
(8) Until January 1, 1999, any OTC security designated as qualified for trading in the national market system under a designation plan approved by the Securities and Exchange Commission (NMS security).

Money market mutual fund means any security issued by an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8) that is considered a money market fund under SEC Rule 2a-7 (17 CFR 270.2a-7).

Non-equity security means a security that is not an equity security (as defined in section 3(a)(11) of the Act).

Nonexempted security means any security other than an exempted security (as defined in section 3(a)(12) of the Act).

OTC margin stock means any equity security traded over the counter that the Board has determined has the degree of national investor interest, the depth and breadth of market, the availability of information respecting the security and its issuer, and the character and permanence of the issuer to warrant being treated like an equity security traded on a national securities exchange. An OTC stock is not considered to be an OTC margin stock unless it appears on the Board's periodically published list of OTC margin stocks.

Payment period means the number of business days in the standard securities settlement cycle in the United States, as defined in paragraph (a) of SEC Rule 15c6-1 (17 CFR 240.15c6-1(a)), plus two business days.

Purpose credit means credit for the purpose of:
(1) Buying, carrying, or trading in securities; or
(2) Buying or carrying any part of an investment contract security which shall be deemed credit for the purpose of buying or carrying the entire security.

Short call or short put means a call option or a put option that is issued, endorsed, or guaranteed in or for an account.

(1) A short call that is not cash-settled obligates the customer to sell the underlying asset at the exercise price upon receipt of a valid exercise notice or as otherwise required by the option contract.
(2) A short put that is not cash-settled obligates the customer to purchase the underlying asset at the exercise price upon receipt of a valid exercise notice or as otherwise required by the option contract.
(3) A short call or a short put that is cash-settled obligates the customer to pay the holder of an in the money long put or long call who has, or has been deemed to have, exercised the option the cash difference between the exercise price and the current assigned value of the option as established by the option contract.

Underlying asset means:
(1) The security or other asset that will be delivered upon exercise of an option; or
(2) In the case of a cash-settled option, the securities or other assets which comprise the index or other measure from which the option's value is derived.

§ 220.3 General provisions.

(a) Records. The creditor shall maintain a record for each account showing the full details of all transactions.

(b) Separation of accounts—(1) In general. The requirements of one account may not be met by considering items in any other account. If withdrawals of cash or securities are permitted under this part, written entries shall be made when cash or securities are used for purposes of meeting requirements in another account.
(2) Exceptions. Notwithstanding paragraph (b)(1) of this section:
(i) For purposes of calculating the required margin for a security in a margin account, assets held in the good faith account pursuant to § 220.6(e)(1)(i) or (ii) may serve in lieu of margin;
(ii) Transfers may be effected between the margin account and the special memorandum account pursuant to §§ 220.4 and 220.5.

(c) Maintenance of credit. Except as prohibited by this part, any credit initially extended in compliance with this part may be maintained regardless of:
(1) Reductions in the customer’s equity resulting from changes in market prices;
(2) Any security in an account ceasing to be margin or exempted; or
(3) Any change in the margin requirements prescribed under this part.
(d) Guarantee of accounts. No guarantee of a customer’s account shall be given any effect for purposes of this part.
(e) Receipt of funds or securities. (1) A creditor, acting in good faith, may accept as immediate payment:
   (i) Cash or any check, draft, or order payable on presentation; or
   (ii) Any security with sight draft attached.
   (2) A creditor may treat a security, check, or draft as received upon written notification from another creditor that the specified security, check, or draft has been sent.
   (3) Upon notification that a check, draft, or order has been dishonored or when securities have not been received within a reasonable time, the creditor shall take the action required by this part when payment or securities are not received on time.
(4) To temporarily finance a customer’s receipt of securities pursuant to an employee benefit plan registered on SEC Form S-8 or the withholding taxes for an employee stock award plan, a creditor may accept, in lieu of the securities, a properly executed exercise notice, where applicable, and instructions to the issuer to deliver the stock to the creditor. Prior to acceptance, the creditor must verify that the issuer will deliver the securities promptly and the customer must designate the account into which the securities are to be deposited.
(f) Exchange of securities. (1) To enable a customer to participate in an offer to exchange securities which is made to all holders of an issue of securities, a creditor may accept for exchange any securities held in a margin account, without regard to the other provisions of this part, provided the consideration received is deposited into the account.
   (2) If a nonmargin, nonexempted security is acquired in exchange for a margin security, its retention, withdrawal, or sale within 60 days following its acquisition shall be treated as if the security is a margin security.
(g) Arranging for loans by others. A creditor may arrange for the extension or maintenance of credit to or for any customer by any person, provided the creditor does not willfully arrange credit that violates parts 221 or 224 of this chapter.
(h) Innocent mistakes. If any failure to comply with this part results from a mistake made in good faith in executing a transaction or calculating the amount of margin, the creditor shall not be deemed in violation of this part if, promptly after the discovery of the mistake, the creditor takes appropriate corrective action.
(i) Foreign currency. (1) Freely convertible foreign currency may be treated at its U.S. dollar equivalent, provided the currency is marked-to-market daily.
   (2) A creditor may extend credit denominated in any freely convertible foreign currency.
(j) Exempted borrowers. (1) A member of a national securities exchange or a registered broker or dealer that has been in existence for less than one year may meet the definition of exempted borrower based on a six-month period.
   (2) Once a member of a national securities exchange or registered broker or dealer ceases to qualify as an exempted borrower, it shall notify its lender of this fact before obtaining additional credit. Any new extensions of credit to such a borrower, including rollovers, renewals, and additional draws on existing lines of credit, are subject to the provisions of this part.

[Reg. T, 63 FR 2822, Jan. 16, 1998]

§ 220.4 Margin account.

(a) Margin transactions. (1) All transactions not specifically authorized for inclusion in another account shall be recorded in the margin account.
   (2) A creditor may establish separate margin accounts for the same person to:
      (i) Clear transactions for other creditors where the transactions are introduced to the clearing creditor by separate creditors; or
      (ii) Clear transactions through other creditors if the transactions are cleared by separate creditors; or
(iii) Provide one or more accounts over which the creditor or a third party investment adviser has investment discretion.

(b) Required margin—(1) Applicability. The required margin for each long or short position in securities is set forth in §220.12 (the Supplement) and is subject to the following exceptions and special provisions.

(2) Short sale against the box. A short sale “against the box” shall be treated as a long sale for the purpose of computing the equity and the required margin.

(3) When-issued securities. The required margin on a net long or net short commitment in a when-issued security is the margin that would be required if the security were an issued margin security, plus any unrealized loss on the commitment or less any unrealized gain.

(4) Stock used as cover. (i) When a short position held in the account serves in lieu of the required margin for a short put, the amount prescribed by paragraph (b)(1) of this section as the amount to be added to the required margin in respect of short sales shall be increased by any unrealized loss on the position.

(ii) When a security held in the account serves in lieu of the required margin for a short call, the security shall be valued at no greater than the exercise price of the short call.

(5) Accounts of partners. If a partner of the creditor has a margin account with the creditor, the creditor shall disregard the partner’s financial relations with the firm (as shown in the partner’s capital and ordinary drawing accounts) in calculating the margin or equity of the partner’s margin account.

(6) Contribution to joint venture. If a margin account is the account of a joint venture in which the creditor participates, any interest of the creditor in the joint account in excess of the interest which the creditor would have on the basis of its right to share in the profits shall be treated as an extension of credit to the joint account and shall be margined as such.

(7) Transfer of accounts. (i) A margin account that is transferred from one creditor to another may be treated as if it had been maintained by the transferee from the date of its origin, if the transferee accepts, in good faith, a signed statement of the transferor (or, if that is not practicable, of the customer), that any margin call issued under this part has been satisfied.

(ii) A margin account that is transferred from one customer to another as part of a transaction, not undertaken to avoid the requirements of this part, may be treated as if it had been maintained for the transferee from the date of its origin, if the creditor accepts in good faith and keeps with the transferee a signed statement of the transferor describing the circumstances for the transfer.

(8) Sound credit judgment. In exercising sound credit judgment to determine the margin required in good faith pursuant to §220.12 (the Supplement), the creditor shall make its determination for a specified security position without regard to the customer’s other assets or securities positions held in connection with unrelated transactions.

(c) When additional margin is required—(1) Computing deficiency. All transactions on the same day shall be combined to determine whether additional margin is required by the creditor. For the purpose of computing equity in an account, security positions are established or eliminated and a credit or debit created on the trade date of a security transaction. Additional margin is required on any day when the day’s transactions create or increase a margin deficiency in the account and shall be for the amount of the margin deficiency so created or increased.

(2) Satisfaction of deficiency. The additional required margin may be satisfied by a transfer from the special memorandum account or by a deposit of cash, margin securities, exempted securities, or any combination thereof.

(3) Time limits. (i) A margin call shall be satisfied within one payment period after the margin deficiency was created or increased.

(ii) The payment period may be extended for one or more limited periods upon application by the creditor to its examining authority unless the examining authority believes that the creditor is not acting in good faith or that...
the creditor has not sufficiently determined that exceptional circumstances warrant such action. Applications shall be filed and acted upon prior to the end of the payment period or the expiration of any subsequent extension.

(4) Satisfaction restriction. Any transaction, position, or deposit that is used to satisfy one requirement under this part shall be unavailable to satisfy any other requirement.

(d) Liquidation in lieu of deposit. If any margin call is not met in full within the required time, the creditor shall liquidate securities sufficient to meet the margin call or to eliminate any margin deficiency existing on the day such liquidation is required, whichever is less. If the margin deficiency created or increased is $1000 or less, no action need be taken by the creditor.

(e) Withdrawals of cash or securities.
(1) Cash or securities may be withdrawn from an account, except if:
   (i) Additional cash or securities are required to be deposited into the account for a transaction on the same or a previous day; or
   (ii) The withdrawal, together with other transactions, deposits, and withdrawals on the same day, would create or increase a margin deficiency.
(2) Margin excess may be withdrawn or may be transferred to the special memorandum account (§220.5) by making a single entry to that account which will represent a debit to the margin account and a credit to the special memorandum account.
(3) If a creditor does not receive a distribution of cash or securities which is payable with respect to any security in a margin account on the day it is payable and withdrawal would not be permitted under this paragraph (e), a withdrawal transaction shall be deemed to have occurred on the day the distribution is payable.

(f) Interest, service charges, etc. (1) Without regard to the other provisions of this section, the creditor, in its usual practice, may debit the following items to a margin account if they are considered in calculating the balance of such account:
   (i) Interest charged on credit maintained in the margin account;
   (ii) Premiums on securities borrowed in connection with short sales or to effect delivery;
   (iii) Dividends, interest, or other distributions due on borrowed securities;
   (iv) Communication or shipping charges with respect to transactions in the margin account; and
   (v) Any other service charges which the creditor may impose.
(2) A creditor may permit interest, dividends, or other distributions credited to a margin account to be withdrawn from the account if:
   (i) The withdrawal does not create or increase a margin deficiency in the account; or
   (ii) The current market value of any securities withdrawn does not exceed 10 percent of the current market value of the security with respect to which they were distributed.

[Reg. T, 63 FR 2823, Jan. 16, 1998]

§ 220.5 Special memorandum account.

(a) A special memorandum account (SMA) may be maintained in conjunction with a margin account. A single entry amount may be used to represent both a credit to the SMA and a debit to the margin account. A transfer between the two accounts may be effected by an increase or reduction in the entry. When computing the equity in a margin account, the single entry amount shall be considered as a debit in the margin account. A payment to the customer or on the customer’s behalf or a transfer to any of the customer’s other accounts from the SMA reduces the single entry amount.

(b) The SMA may contain the following entries:
   (1) Dividend and interest payments;
   (2) Cash not required by this part, including cash deposited to meet a maintenance margin call or to meet any requirement of a self-regulatory organization that is not imposed by this part;
   (3) Proceeds of a sale of securities or cash no longer required on any expired or liquidated security position that may be withdrawn under §220.4(e); and
   (4) Margin excess transferred from the margin account under §220.4(e)(2).

[Reg. T, 63 FR 2824, Jan. 16, 1998]
§ 220.6 Good faith account.

In a good faith account, a creditor may effect or finance customer transactions in accordance with the following provisions:

(a) Securities entitled to good faith margin—(1) Permissible transactions. A creditor may effect and finance transactions involving the buying, carrying, or trading of any security entitled to “good faith” margin as set forth in §220.12 (the Supplement).

(2) Required margin. The required margin is set forth in §220.12 (the Supplement).

(3) Satisfaction of margin. Required margin may be satisfied by a transfer from the special memorandum account or by a deposit of cash, securities entitled to “good faith” margin as set forth in §220.12 (the Supplement), any other asset that is not a security, or any combination thereof. An asset that is not a security shall have a margin value determined by the creditor in good faith.

(b) Arbitrage. A creditor may effect and finance for any customer bona fide arbitrage transactions. For the purpose of this section, the term “bona fide arbitrage” means:

(1) A purchase or sale of a security in one market together with an offsetting sale or purchase of the same security in a different market at as nearly the same time as practicable for the purpose of taking advantage of a difference in prices in the two markets; or

(2) A purchase of a security which is, without restriction other than the payment of money, exchangeable or convertible within 90 calendar days of the purchase into a second security together with an offsetting sale of the second security at or about the same time, for the purpose of taking advantage of a concurrent disparity in the prices of the two securities.

(c) “Prime broker” transactions. A creditor may effect transactions for a customer as part of a “prime broker” arrangement in conformity with SEC guidelines.

(d) Credit to ESOPs. A creditor may extend and maintain credit to employee stock ownership plans without regard to the other provisions of this part.

(e) Nonpurpose credit. (1) A creditor may:

(i) Effect and carry transactions in commodities;

(ii) Effect and carry transactions in foreign exchange;

(iii) Extend and maintain secured or unsecured nonpurpose credit, subject to the requirements of paragraph (e)(2) of this section.

(2) Every extension of credit, except as provided in paragraphs (e)(1)(i) and (e)(1)(ii) of this section, shall be deemed to be purpose credit unless, prior to extending the credit, the creditor accepts in good faith from the customer a written statement that it is not purpose credit. The statement shall conform to the requirements established by the Board.

[Reg. T, 63 FR 2824, Jan. 16, 1998]

§ 220.7 Broker-dealer credit account.

(a) Requirements. In a broker-dealer credit account, a creditor may effect or finance transactions in accordance with the following provisions.

(b) Purchase or sale of security against full payment. A creditor may purchase any security from or sell any security to another creditor or person regulated by a foreign securities authority under a good faith agreement to promptly deliver the security against full payment of the purchase price.

(c) Joint back office. A creditor may effect or finance transactions of any of its owners if the creditor is a clearing and servicing broker or dealer owned jointly or individually by other creditors.

(d) Capital contribution. A creditor may extend and maintain credit to any partner or stockholder of the creditor for the purpose of making a capital contribution to, or purchasing stock of, the creditor, affiliated corporation or another creditor.

(e) Emergency and subordinated credit. A creditor may extend and maintain, with the approval of the appropriate examining authority:

(1) Credit to meet the emergency needs of any creditor; or

(2) Subordinated credit to another creditor for capital purposes, if the other creditor:

(i) Is an affiliated corporation or would not be considered a customer of
the lender apart from the subordinated loan; or
(ii) Will not use the proceeds of the loan to increase the amount of dealing in securities for the account of the creditor, its firm or corporation or an affiliated corporation.

(f) Omnibus credit (1) A creditor may effect and finance transactions for a broker or dealer who is registered with the SEC under section 15 of the Act and who gives the creditor written notice that:
(i) All securities will be for the account of customers of the broker or dealer; and
(ii) Any short sales effected will be short sales made on behalf of the customers of the broker or dealer other than partners.
(2) The written notice required by paragraph (f)(1) of this section shall conform to any SEC rule on the hypothecation of customers’ securities by brokers or dealers.

(g) Special purpose credit. A creditor may extend the following types of credit with good faith margin:
(1) Credit to finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid upon completion of the transaction.
(2) Credit to finance securities in transit or surrendered for transfer, if the credit is to be repaid upon completion of the transaction.
(3) Credit to enable a broker or dealer to pay for securities, if the credit is to be repaid on the same day it is extended.
(4) Credit to an exempted borrower.
(5) Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as a market maker or specialist.
(6) Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as an underwriter.

§ 220.8 Cash account.

(a) Permissible transactions. In a cash account, a creditor, may:
(1) Buy for or sell to any customer any security or other asset if:
(i) There are sufficient funds in the account; or
(ii) The creditor accepts in good faith the customer’s agreement that the customer will promptly make full cash payment for the security or asset before selling it and does not contemplate selling it prior to making such payment;
(2) Buy from or sell for any customer any security or other asset if:
(i) The security is held in the account; or
(ii) The creditor accepts in good faith the customer’s statement that the security is owned by the customer or the customer’s principal, and that it will be promptly deposited in the account;
(3) Issue, endorse, or guarantee, or sell an option for any customer as part of a covered option transaction; and
(4) Use an escrow agreement in lieu of the cash, cash equivalents or underlying asset position if:
(i) In the case of a short call or a short put, the creditor is advised by the customer that the required securities, assets or cash are held by a person authorized to issue an escrow agreement and the creditor independently verifies that the appropriate escrow agreement will be delivered by the person promptly; or
(ii) In the case of a call issued, endorsed, guaranteed, or sold on the same day the underlying asset is purchased in the account and the underlying asset is to be delivered to a person authorized to issue an escrow agreement, the creditor verifies that the appropriate escrow agreement will be delivered by the person promptly.

(b) Time periods for payment; cancellation or liquidation—(1) Full cash payment. A creditor shall obtain full cash payment for customer purchases:
(i) Within one payment period of the date:
(A) Any nonexempted security was purchased;
(B) Any when-issued security was made available by the issuer for delivery to purchasers;
(C) Any “when distributed” security was distributed under a published plan;
(D) A security owned by the customer has matured or has been redeemed and a new refunding security of the same issuer has been purchased by the customer, provided:
§ 220.9 Clearance of securities, options, and futures.

(a) Credit for clearance of securities. The provisions of this part shall not apply to the extension or maintenance of any credit that is not for more than one day if it is incidental to the clearance of transactions in securities directly between members of a national securities exchange or association or through any clearing agency registered with the SEC.

(b) Deposit of securities with a clearing agency. The provisions of this part shall not apply to the deposit of securities with an option or futures clearing agency for the purpose of meeting the deposit requirements of the agency if:

(1) The clearing agency:

(1) The customer purchased the new security no more than 35 calendar days prior to the date of maturity or redemption of the old security;
(2) The customer is entitled to the proceeds of the redemption; and
(3) The delayed payment does not exceed 103 percent of the proceeds of the old security.

(ii) In the case of the purchase of a foreign security, within one payment period of the trade date or within one day after the date on which settlement is required to occur by the rules of the foreign securities market, provided this period does not exceed the maximum time permitted by this part for delivery against payment transactions.

(2) Delivery against payment. If a creditor purchases for or sells to a customer a security in a delivery against payment transaction, the creditor shall have up to 35 calendar days to obtain payment if delivery of the security is delayed due to the mechanics of the transaction and is not related to the customer’s willingness or ability to pay.

(3) Shipment of securities, extension. If any shipment of securities is incidental to consummation of a transaction, a creditor may extend the payment period by the number of days required for shipment, but not by more than one additional payment period.

(4) Cancellation; liquidation; minimum amount. A creditor shall promptly cancel or otherwise liquidate a transaction or any part of a transaction for which the customer has not made full cash payment within the required time. A creditor may, at its option, disregard any sum due from the customer not exceeding $1000.

(c) 90 day freeze. (1) If a nonexempted security in the account is sold or delivered to another broker or dealer without having been previously paid for in full by the customer, the privilege of delaying payment beyond the trade date shall be withdrawn for 90 calendar days following the date of sale of the security. Cancellation of the transaction other than to correct an error shall constitute a sale.

(2) The 90 day freeze shall not apply if:

(i) Within the period specified in paragraph (b)(1) of this section, full payment is received or any check or draft in payment has cleared and the proceeds from the sale are not withdrawn prior to such payment or check clearance; or
(ii) The purchased security was delivered to another broker or dealer for deposit in a cash account which holds sufficient funds to pay for the security. The creditor may rely on a written statement accepted in good faith from the other broker or dealer that sufficient funds are held in the other cash account.

(d) Extension of time periods; transfers.

(1) Unless the creditor’s examining authority believes that the creditor is not acting in good faith or that the creditor has not sufficiently determined that exceptional circumstances warrant such action, it may upon application by the creditor:

(i) Extend any period specified in paragraph (b) of this section;
(ii) Authorize transfer to another account of any transaction involving the purchase of a margin or exempted security; or
(iii) Grant a waiver from the 90 day freeze.

(2) Applications shall be filed and acted upon prior to the end of the payment period, or in the case of the purchase of a foreign security within the period specified in paragraph (b)(1)(ii) of this section, or the expiration of any subsequent extension.

[Reg. T, 63 FR 2825, Jan. 16, 1998]
Federal Reserve System § 220.11

(i) Issues, guarantees performance on, or clears transactions in, any security (including options on any security, certificate of deposit, securities index or foreign currency); or

(ii) Guarantees performance of contracts for the purchase or sale of a commodity for future delivery or options on such contracts;

(2) The clearing agency is registered with the Securities and Exchange Commission or is the clearing agency for a contract market regulated by the Commodity Futures Trading Commission; and

(3) The deposit consists of any margin security and complies with the rules of the clearing agency that have been approved by the Securities and Exchange Commission or the Commodity Futures Trading Commission.

[Reg. T, 63 FR 2826, Jan. 16, 1998]

§ 220.10 Borrowing and lending securities.

(a) Without regard to the other provisions of this part, a creditor may borrow or lend securities for the purpose of making delivery of the securities in the case of short sales, failure to receive securities required to be delivered, or other similar situations. If a creditor reasonably anticipates a short sale or fail transaction, such borrowing may be made up to one standard settlement cycle in advance of trade date.

(b) A creditor may lend foreign securities to a foreign person (or borrow such securities for the purpose of re-lending them to a foreign person) for any purpose lawful in the country in which they are to be used.

(c) A creditor that is an exempted borrower may borrow securities without regard to the other provisions of this part and a creditor may borrow securities from an exempted borrower without regard to the other provisions of this part.

[Reg. T, 63 FR 2826, Jan. 16, 1998]

§ 220.11 Requirements for the list of marginable OTC stocks and the list of foreign margin stocks.

(a) Requirements for inclusion on the list of marginable OTC stocks. Except as provided in paragraph (f) of this section, OTC margin stock shall meet the following requirements:

(1) Four or more dealers stand willing to, and do in fact, make a market in such stock and regularly submit bona fide bids and offers to an automated quotations system for their own accounts;

(2) The minimum average bid price of such stock, as determined by the Board, is at least $5 per share;

(3) The stock is registered under section 12 of the Act, is issued by an insurance company subject to section 12(g)(2)(G) of the Act, is issued by a closed-end investment management company subject to registration pursuant to section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), is an American Depository Receipt (ADR) of a foreign issuer whose securities are registered under section 12 of the Act, or is a stock of an issuer required to file reports under section 15(d) of the Act;

(4) Daily quotations for both bid and asked prices for the stock are continuously available to the general public;

(5) The stock has been publicly traded for at least six months;

(6) The issuer has at least $4 million of capital, surplus, and undivided profits;

(7) There are 400,000 or more shares of such stock outstanding in addition to shares held beneficially by officers, directors or beneficial owners of more than 10 percent of the stock;

(8) There are 1,200 or more holders of record, as defined in SEC Rule 12g5-1 (17 CFR 240.12g5-1), of the stock who are not officers, directors or beneficial owners of 10 percent or more of the stock, or the average daily trading volume of such stock as determined by the Board, is at least 500 shares; and

(9) The issuer or a predecessor in interest has been in existence for at least three years.

(b) Requirements for continued inclusion on the list of marginable OTC stocks. Except as provided in paragraph (f) of this section, OTC margin stock shall meet the following requirements:

(1) Three or more dealers stand willing to, and do in fact, make a market in such stock and regularly submit
bona fide bids and offers to an automated quotations system for their own accounts;

(2) The minimum average bid price of such stocks, as determined by the Board, is at least $2 per share;

(3) The stock is registered as specified in paragraph (a)(3) of this section;

(4) Daily quotations for both bid and asked prices for the stock are continuously available to the general public;

(5) The issuer has at least $1 million of capital, surplus, and undivided profits;

(6) There are 300,000 or more shares of such stock outstanding in addition to shares held beneficially by officers, directors, or beneficial owners of more than 10 percent of the stock; and

(7) There continue to be 800 or more holders of record, as defined in SEC Rule 12g5–1 (17 CFR 240.12g5–1), of the stock who are not officers, directors, or beneficial owners of 10 percent or more of the stock, or the average daily trading volume of such stock, as determined by the Board, is at least 300 shares.

(c) Requirements for inclusion on the list of foreign margin stocks. Except as provided in paragraph (f) of this section, a foreign security shall meet the following requirements before being placed on the List of Foreign Margin Stocks:

(1) The security is an equity security that is listed for trading on or through the facilities of a foreign securities exchange or a recognized foreign securities market and has been trading on such exchange or market for at least six months;

(2) Daily quotations for both bid and asked or last sale prices for the security provided by the foreign securities exchange or foreign securities market on which the security is traded are continuously available to creditors in the United States pursuant to an electronic quotation system;

(3) The aggregate market value of shares, the ownership of which is unrestricted, is not less than $1 billion;

(4) The average weekly trading volume of such security during the preceding six months is either at least 200,000 shares or $1 million; and

(5) The issuer or a predecessor in interest has been in existence for at least five years.

(d) Requirements for continued inclusion on the list of foreign margin stocks. Except as provided in paragraph (f) of this section, a foreign security shall meet the following requirements to remain on the List of Foreign Margin Stocks:

(1) The security continues to meet the requirements specified in paragraphs (c) (1) and (2) of this section;

(2) The aggregate market value of shares, the ownership of which is unrestricted, is not less than $500 million; and

(3) The average weekly trading volume of such security during the preceding six months is either at least 100,000 shares or $500,000.

(e) Removal from the list. The Board shall periodically remove from the lists any stock that:

(1) Ceases to exist or of which the issuer ceases to exist; or

(2) No longer substantially meets the provisions of paragraphs (b) or (d) of this section or the definition of OTC margin stock.

(f) Discretionary authority of Board. Without regard to other paragraphs of this section, the Board may add to, or omit or remove from the list of marginable OTC stocks and the list of foreign margin stocks an equity security, if in the judgment of the Board, such action is necessary or appropriate in the public interest.

(g) Unlawful representations. It shall be unlawful for any creditor to make, or cause to be made, any representation to the effect that the inclusion of a security on the list of marginable OTC stocks or the list of foreign margin stocks an equity security, if in the judgment of the Board, such action is necessary or appropriate in the public interest.

§ 220.11  
12 CFR Ch. II (1–1–13 Edition)
§ 220.12 Supplement: margin requirements.

The required margin for each security position held in a margin account shall be as follows:

(a) Margin equity security, except for an exempted security, money market mutual fund or exempted securities mutual fund, warrant on a securities index or foreign currency or a long position in an option: 50 percent of the current market value of the security or the percentage set by the regulatory authority where the trade occurs, whichever is greater.

(b) Exempted security, non-equity security, money market mutual fund or exempted securities mutual fund: The margin required by the creditor in good faith or the percentage set by the regulatory authority where the trade occurs, whichever is greater.

(c) Short sale of a nonexempted security, except for a non-equity security:

(1) 150 percent of the current market value of the security; or

(2) 100 percent of the current market value if a security exchangeable or convertible within 90 calendar days without restriction other than the payment of money into the security sold short is held in the account, provided that any long call to be used as margin in connection with a short sale of the underlying security is an American-style option issued by a registered clearing corporation and listed or traded on a registered national securities exchange with an exercise price that does not exceed the price at which the underlying security was sold short.

(d) Short sale of an exempted security or non-equity security: 100 percent of the current market value of the security plus the margin required by the creditor in good faith.

(e) Nonmargin, nonexempted equity security: 100 percent of the current market value.

(f) Put or call on a security, certificate of deposit, securities index or foreign currency, or a warrant on a securities index or foreign currency:

(1) In the case of puts and calls issued by a registered clearing corporation and listed or traded on a registered national securities exchange or a registered securities association and registered warrants on a securities index or foreign currency, the amount, or other position specified by the rules of the registered national securities exchange or the registered securities association authorized to trade the option or warrant, provided that all such rules have been approved or amended by the SEC; or

(2) In the case of all other puts and calls, the amount, or other position, specified by the maintenance rules of the creditor’s examining authority.

[Reg. T, 63 FR 2827, Jan. 16, 1998]

INTERPRETATIONS

§ 220.101 Transactions of customers who are brokers or dealers.

The Board has recently considered certain questions regarding transactions of customers who are brokers or dealers.

(a) The first question was whether delivery and payment under § 220.4(f)(3) must be exactly simultaneous (such as in sight draft shipments), or whether it is sufficient if the broker-dealer customer, “as promptly as practicable in accordance with the ordinary usage of the trade,” mails or otherwise delivers to the creditor a check in settlement of the transaction, the check being accompanied by instructions for transfer or delivery of the security. The Board ruled that the latter method of setting the transaction is permissible.

(b) The second question was, in effect, whether the limitations of § 220.4(c)(8) apply to the account of a customer who is himself a broker or dealer. The answer is that the provision applies to any “special cash account,” regardless of the type of customer.

(c) The third question was, in effect, whether a purchase and a sale of an unissued security under § 220.4(f)(3) may be offset against each other, or whether each must be settled separately by what would amount to delivery of the security to settle one transaction and its redelivery to settle the other. The answer is that it is permissible to offset the transactions against each other without physical delivery and redelivery of the security.

§ 220.102 [Reserved]

§ 220.103 Borrowing of securities.

(a) The Board of Governors has been asked for a ruling as to whether § 220.6(h), which deals with borrowing and lending of securities, applies to a borrower of securities if the lender is a private individual, as contrasted with a member of a national securities exchange or a broker or dealer.

(b) Section 220.6(h) does not require that the lender of the securities in such a case be a member of a national securities exchange or a broker or dealer. Therefore, a borrowing of securities may be able to qualify under the provision even though the lender is a private individual, and this is true whether the security is registered on a national securities exchange or is unregistered. In borrowing securities from a private individual under § 220.6(h), however, it becomes especially important to bear in mind two limitations that are contained in the section.

(c) The first limitation is that the section applies only if the broker borrows the securities for the purpose specified in the provision, that is, “for the purpose of making delivery of such securities in the case of short sales, failure to receive securities he is required to deliver, or other similar cases”. The present language of the provision does not require that the delivery for which the securities are borrowed must be on a transaction which the borrower has himself made, either as agent or as principal; he may borrow under the provision in order to relend to someone else for the latter person to make such a delivery. However, the borrowing must be related to an actual delivery of the type specified—a delivery in connection with a specific transaction that has already occurred or is in immediate prospect. The provision does not authorize a broker to borrow securities (or make the related deposit) merely in order that he or some other broker may have the securities “on hand” or may anticipate some need that may or may not arise in the future.

(d) The ruling in the 1940 Federal Reserve Bulletin, at page 647, is an example of a borrowing which, on the facts as given, did not meet the requirement. There, the broker wished to borrow stocks with the understanding that he “would offer to lend this stock in the ‘loan crowd’ on a national securities exchange.” There was no assurance that the stocks would be used for the purpose specified in § 220.6(h); they might be, or they might merely be held idle while the person lending the stocks had the use of the funds deposited against them. The ruling held in effect that since the borrowing could not qualify under § 220.6(h) it must comply with other applicable provisions of the regulation.

(e) The second requirement is that the deposit of cash against the borrowed securities must be “bona fide.” This requirement naturally cannot be spelled out in detail, but it requires at least that the purpose of the broker in making the deposit should be to obtain the securities for the specified purpose, and that he should not use the arrangement as a means of accommodating a customer who is seeking to obtain more funds than he could get in a general account.

(f) The Board recognizes that even with these requirements there is still some possibility that the provision may be misapplied. The Board is reluctant to impose additional burdens on legitimate transactions by tightening the provision. If there should be evidence of abuses developing under the provision, however, it would become necessary to consider making it more restricted.

[12 FR 5278, Aug. 2, 1947]

§ 220.104 [Reserved]

§ 220.105 Ninety-day rule in special cash account.

(a) Section 220.4(c)(8) places a limitation on a special cash account if a security other than an exempted security has been purchased in the account and “without having been previously paid for in full by the customer * * * has been * * * delivered out to any broker or dealer.” The limitation is that during the succeeding 90 days the customer may not purchase a security in the account other than an exempted security unless funds sufficient for the purpose are held in the account. In other words, the privilege of delayed
payment in such an account is withdrawn during the 90-day period.

(b) The Board recently considered a question as to whether the following situation makes an account subject to the 90-day disqualification: A customer purchases registered security ABC in a special cash account. The broker executes the order in good faith as a bona fide cash transaction, expecting to obtain full cash payment promptly. The next day, the customer sells registered security XYZ in the account, promising to deposit it promptly in the account. The proceeds of the sale are equal to or greater than the cost of security ABC. After both sale and purchase have been made, the customer requests the broker to deliver security ABC to a different broker, to receive security XYZ from that broker at about the same time, and to settle with the other broker—such settlement to be made either by paying the cost of security XYZ to the other broker and receiving from him the cost of security ABC, or by merely settling any difference between these amounts.

(c) The Board expressed the view that the account becomes subject to the 90-day disqualification in § 220.4(c)(8). In the instant case, unlike that described at 1940 Federal Reserve Bulletin 772, the security sold is not held in the account and is not to be deposited in it unconditionally. It is to be obtained only against the delivery to the other broker of the security which had been purchased. Hence payment can not be said to have been made prior to such delivery; the purchased security has been delivered out to a broker without previously having been paid for in full, and the account becomes subject to the 90-day disqualification.

[13 FR 2368, May 1, 1948]

§ 220.106–220.107 [Reserved]

§ 220.108 International Bank Securities.

(a) Section 2 of the Act of June 29, 1949 (Pub. L. 142—81st Congress), amended the Bretton Woods Agreements Act by adding a new section numbered 15 providing, in part, that—

Any securities issued by International Bank for Reconstruction and Development (including any guaranty by the bank, whether or not limited in scope), and any securities guaranteed by the bank as to both principal and interest, shall be deemed to be exempted securities within the meaning of paragraph (a)(12) of section 3 of the [Securities Exchange] Act of June 6, 1934, as amended (15 U.S.C. 78c). * * *

(b) In response to inquiries with respect to the applicability of the margin requirements of this part to securities issued or guaranteed by the International Bank for Reconstruction and Development, the Board has replied that, as a result of this enactment, securities issued by the Bank are now classified as exempted securities under § 220.2(e). Such securities are now in the same category under this part as are United States Government, State and municipal bonds. Accordingly, the specific percentage limitations prescribed by this part with respect to maximum loan value and margin requirements are no longer applicable thereto.

[14 FR 5505, Sept. 7, 1949]

§ 220.109 [Reserved]

§ 220.110 Assistance by Federal credit union to its members.

(a) An inquiry was presented recently concerning the application of this part or part 221 of this subchapter, to a plan proposed by a Federal credit union to aid its members in purchasing stock of a corporation whose subsidiary apparently was the employer of all the credit union’s members.

(b) From the information submitted, the plan appeared to contemplate that the Federal credit union would accept orders from its members for registered common stock of the parent corporation in multiples of 5 shares; that whenever orders had been so received for a total of 100 shares, the credit union, as agent for such members, would execute the orders through a brokerage firm with membership on a national securities exchange; that the brokerage firm would deliver certificates for the stock, registered in the names of the individual purchasers, to the credit union against payment by the credit union; that the credit union would prorate the total amount so paid, including the brokerage fee,
§ 220.111 Arranging for extensions of credit to be made by a bank.

(a) The Board has recently had occasion to express opinions regarding the requirements which apply when a person subject to this part (for convenience, called here simply a broker) arranges for a bank to extend credit.

(b) The matter is treated generally in §220.7(a) and is also subject to the general rule of law that any person who aids or abets a violation of law by another is himself guilty of a violation. It may be stated as a general principle that any person who arranges for credit to be extended by someone else has a responsibility so to conduct his activities as not to be a participant in a violation of this part, which applies to brokers or part 221 of this subchapter, which applies to banks.

(c) More specifically, in arranging an extension of credit that may be subject to part 221 of this subchapter, a broker must act in good faith and, therefore, must question the accuracy of any non-purpose statement (i.e., a statement that the loan is not for the purpose of transacting a business in securities through the medium of a broker or dealer firm solely because of its activities as contemplated by the proposal in question. The Board stated that the part rather clearly would not apply if there appeared to be nothing other than loans by the credit union to its members to finance purchases made directly by them of stock of the parent corporation of the employer of the member-borrowers. The additional fact that the credit union, as agent, would purchase such stock for its members (even though all such purchases might not be financed by credit union loans) was not viewed by the Board as sufficient to make the regulation applicable where, as from the facts presented, it did not appear that the credit union in any case was to make any charge or receive any compensation for assisting in such purchases or that the credit union otherwise was engaged in securities activities. However, the Board stated that matters of this kind must be examined closely for any variations that might suggest the inapplicability of the foregoing.

[18 FR 4592, Aug. 5, 1953]
§ 220.113 Necessity for prompt payment and delivery in special cash accounts.

(a) The Board of Governors recently received an inquiry concerning whether purchases of securities by certain municipal employees' retirement or pension systems on the basis of arrangements for delayed delivery and payment, might properly be effected by a creditor subject to this part in a special cash account under §220.4(c).

(b) It appears that in a typical case the supervisors of the retirement system meet only once or twice each month, at which times decisions are made to purchase any securities wished to be acquired for the system. Although the securities are available for prompt delivery by the broker-dealer firm selected to effect the system's purchase, it is arranged in advance with the firm that the system will not accept delivery and pay for the securities before some date more than seven business days after the date on which the securities are purchased. Apparently, such an arrangement is occasioned by the monthly or semimonthly meetings of the system's supervisors.

It was indicated that a retirement system of this kind may be supervised by officials who administer it as an incidental part of their regular duties, and that meetings requiring joint action by two or more supervisors may be necessary under the system's rules and procedures to authorize issuance of checks in payment for the securities purchased. It was indicated also that the purchases do not involve exempted securities, securities of the kind covered by §220.4(c)(3), or any shipment of securities as described in §220.4(c).

(c) This part provides that a creditor subject thereto may not effect for a customer a purchase in a special cash account under §220.4(c) unless the use of the account meets the limitations of §220.4(a) and the purchase constitutes a "bona fide cash transaction" which complies with the eligibility requirements of §220.4(c)(1)(i). One such requirement is that the purchase be made "in reliance upon an agreement accepted by the creditor (broker-dealer) in good faith" that the customer

§ 220.112 [Reserved]
will “promptly make full cash payment for the security, if funds sufficient for the purpose are not already in the account; and, subject to certain exceptions, §220.4(c)(2) provides that the creditor shall promptly cancel or liquidate the transaction if payment is not made by the customer within seven business days after the date of purchase. As indicated in the Board’s interpretation at 1940 Federal Reserve Bulletin 1172, a necessary part of the customer’s undertaking pursuant to §220.4(c)(1)(i) is that he “should have the necessary means of payment readily available when he purchases a security in the special cash account. He should expect to pay for it immediately or in any event within the period (of not more than a very few days) that is as long as is usually required to carry through the ordinary securities transaction.”

(d) The arrangements for delayed delivery and payment in the case presented clearly would be inconsistent with the requirement of §220.4(c)(1)(i) that the purchase be made in reliance upon an agreement accepted by the creditor in good faith that the customer will “promptly” make full cash payment for the security. Accordingly, the Board said that transactions of the kind in question would not qualify as a “bona fide cash transaction” and, therefore, could not properly be effected in a special cash account, unless the arrangements for delayed delivery and payment in the case presented to the Board and outlined above could not be regarded as having agreed to make full cash payment “promptly”. Furthermore, such arrangements clearly would be inconsistent with the requirement of §220.4(c)(5) that the creditor “deliver the security promptly to the customer”.

(f) Section 220.4(c)(5) was discussed in the Board’s published interpretation, referred to above, which states that “it is not the purpose of (§220.4 (c)(5)) to allow additional time to customers for making payment. The ‘prompt delivery’ described in (§220.4 (c)(5)) is delivery which is to be made as soon as the broker or dealer can reasonably make it in view of the mechanics of the securities business and the bona fide usages of the trade. The provision merely recognizes the fact that in certain circumstances it is an established bona fide practice in the trade to obtain payment against delivery of the security to the customer, and the further fact that the mechanics of the trade, unrelated to the customer’s readiness to pay, may sometimes delay such delivery to the customer”.

(g) In the case presented, it appears that the only reason for the delay is related solely to the customer’s readiness to pay and is in no way attributable to the mechanics of the securities business. Accordingly, it is the Board’s view that the exception in §220.4(c)(5) should not be regarded as permitting the transactions in question to be effected in a special cash account.

§ 220.114 Exception to 90-day rule in special cash account.

(a) The Board of Governors has recently interpreted certain of the provisions of §220.4(c)(8), with respect to the withdrawal of proceeds of a sale of stock in a “special cash account” when the stock has been sold out of the account prior to payment for its purchase.

(b) The specific factual situation presented may be summarized as follows:

[22 FR 5964, July 27, 1957]
Customer purchased stock in a special cash account with a member firm on Day 1. On Day 3 customer sold the same stock at a profit. On Day 8 customer delivered his check for the cost of the purchase to the creditor (member firm). On Day 9 the creditor mailed to the customer a check for the proceeds of the sale.

(c) Section 220.4(c)(8) prohibits a creditor, as a general rule, from effecting a purchase of a security in a customer’s special cash account if any security has been purchased in that account during the preceding 90 days and has then been sold in the account or delivered out to any broker or dealer without having been previously paid for in full by the customer. One exception to this general rule reads as follows:

* * * The creditor may disregard for the purposes of this subparagraph (§ 220.4(c)(8)) a sale without prior payment provided full cash payment is received within the period described by subparagraph (2) of this paragraph (seven days after the date of purchase) and the customer has not withdrawn the proceeds of such payment (and also final payment of any check received in that connection) is received. * * *

(d) Final payment of customer’s check: (1) The first question is: When is the creditor to be regarded as having received “final payment of any check received” in connection with the purchase?

(2) The clear purpose of § 220.4(c)(8) is to prevent the use of the proceeds of sale of a stock by a customer to pay for its purchase—i.e., to prevent him from trading on the creditor’s funds by being able to deposit the sale proceeds prior to presentment of his own check to the drawee bank. Thus, when a customer undertakes to pay for a purchase by check, that check does not constitute payment for the purchase, within the language and intent of the above-quoted exception in § 220.4(c)(8), until it has been honored by the drawee bank, indicating the sufficiency of his account to pay the check.

(3) The phrase “final payment of any check” is interpreted as above notwithstanding § 220.6(f), which provides that:

For the purposes of this part (Regulation T), a creditor may, at his option (1) treat the receipt in good faith of any check or draft drawn on a bank which in the ordinary course of business is payable on presentation, * * * as receipt of payment of the amount of such check, draft or order; * * *

This is a general provision substantially the same as language found in section 4(f) of Regulation T as originally promulgated in 1934. The language of the subject exception to the 90-day rule of § 220.4(c)(8), i.e., the exception based expressly on final “payment of any check,” was added to the regulation in 1949 by an amendment directed at a specific type of situation. Because the exception is a special, more recent provision, and because § 220.6(f), if controlling, would permit the exception to undermine, to some extent, the effectiveness of the 90-day rule, sound principles of construction require that the phrase “final payment of any check” be given its literal and intended effect.

(4) There is no fixed period of time from the moment of receipt by the payee, or of deposit, within which it is certain that any check will be paid by the drawee bank. Therefore, in the rare case where the operation of the subject exception to § 220.4(c)(8) is necessary to avoid application of the 90-day rule, a creditor should ascertain (from his bank of deposit or otherwise) the fact of payment of a customer’s check given for the purchase. Having so determined the day of final payment, the creditor can permit withdrawal on any subsequent day.

(e) Mailing as “withdrawal”: (1) Also presented is the question whether the mailing to the customer of the creditor’s check for the sale proceeds constitutes a withdrawal of such proceeds by the customer at the time of mailing so that, if the check for sale proceeds is mailed on or before the day on which the customer’s check for the purchase is finally paid, the 90-day rule applies. It may be that a check mailed one day will not ordinarily be received by the customer until the next. The Board is of the view, however, that when the check for sale proceeds is issued and released into the mails, the proceeds are to be regarded as withdrawn by the customer; a more liberal interpretation would open a way for circumvention. Accordingly, the creditor’s check should not be mailed nor the sale proceeds otherwise released to
§ 220.118 Time of payment for mutual fund shares purchased in a special cash account.

(a) The Board has recently considered the question whether, in connection with the purchase of mutual fund shares in a “special cash account” under the provisions of this part 220, the 7-day period with respect to liquidation for nonpayment is that described in §220.4(c)(2) or that described in §220.4(c)(3).

(b) Section 220.4(c)(2) provides as follows:

In case a customer purchases a security (other than an exempted security) in the special cash account and does not make full cash payment for the security within 7 days after the date on which the security is so purchased, the creditor shall, except as provided in subparagraphs (3)–(7) of this paragraph, promptly cancel or otherwise liquidate the transaction or the unsettled portion thereof.

Section 220.4(c)(3), one of the exceptions referred to, provides in relevant part as follows:

If the security when so purchased is an unissued security, the period applicable to the transaction under subparagraph (2) of this paragraph shall be 7 days after the date on which the security is made available by the issuer for delivery to purchasers.

(c) In the case presented, the shares of the mutual fund (open-end investment company) are technically not issued at the time they are sold by the underwriter and distributor. Several days may elapse from the date of sale before a certificate can be delivered by the transfer agent. The specific inquiry to the Board was, in effect, whether the 7-day period after which a purchase transaction must be liquidated or cancelled for nonpayment should run, in the case of mutual fund shares, from the time when a certificate for the purchased shares is available for delivery to the purchaser, instead of from the date of the purchase.

(d) Under the general rule of §220.4(c)(2) that is applicable to purchases of outstanding securities, the 7-day period runs from the date of purchase without regard to the time required for the mechanical acts of transfer of ownership and delivery of a certificate. This rule is based on the principles governing the use of special cash accounts in accordance with which, in the absence of special circumstances, payment is to be made promptly upon the purchase of securities.

(e) The purpose of §220.4(c)(3) is to recognize the fact that, when an issue of securities is to be issued at some fixed future date, a security that is a part of such issue can be purchased on a “when-issued” basis and that payment may reasonably be delayed until after such date of issue, subject to other basic conditions for transactions in a special cash account. Thus, unissued securities should be regarded as “made available for delivery to purchasers” on the date when they are substantially as available as outstanding securities are available upon purchase, and this would ordinarily be the designated date of issuance or, in the case of a stock dividend, the “payment date”. In any case, the time required for the mechanics of transfer and delivery of a certificate is not material under §220.4(c)(3) any more than it is under §220.4(c)(2).

(f) Mutual fund shares are essentially available upon purchase to the same extent as outstanding securities. The mechanics of their issuance and of the delivery of certificates are not significantly different from the mechanics of transfer and delivery of certificates for shares of outstanding securities, and the issuance of mutual fund shares is not a future event in a sense that would warrant the extension of the time for payment beyond that afforded in the case of outstanding securities. Consequently, the Board has concluded that a purchase of mutual fund shares
Federal Reserve System

§ 220.119

is not a purchase of an “unissued security” to which § 220.4(c)(3) applies, but is a transaction to which § 220.4(c)(2) applies.

[27 FR 10885, Nov. 8, 1962]

§ 220.119 Applicability of margin requirements to credit extended to corporation in connection with retirement of stock.

(a) The Board of Governors has been asked whether part 220 was violated when a dealer in securities transferred to a corporation 4,161 shares of the stock of such corporation for a consideration of $33,288, of which only 10 percent was paid in cash.

(b) If the transaction was of a kind that must be included in the corporation’s “general account” with the dealer (§ 220.3), it would involve an excessive extension of credit in violation of § 220.3 (b)(1). However, the transaction would be permissible if the transaction came within the scope of § 220.4(f)(8), which permits a “creditor” (such as the dealer) to “Extend and maintain credit to or for any customer without collateral or on any collateral whatever for any purpose other than purchasing or carrying or trading in securities.” Accordingly, the crucial question is whether the corporation, in this transaction, was “purchasing” the 4,161 shares of its stock, within the meaning of that term as used in this part.

(c) Upon first examination, it might seem apparent that the transaction was a purchase by the corporation. From the viewpoint of the dealer the transaction was a sale, and ordinarily, at least a sale by one party connotes a purchase by the other. Furthermore, other indicia of a sale/purchase transaction were present, such as a transfer of property for a pecuniary consideration. However, when the underlying objectives of the margin regulations are considered, it appears that they do not encompass a transaction of this nature, where securities are transferred on credit to the issuer thereof for the purpose of retirement.

(d) Section 7(a) of the Securities Exchange Act of 1934 requires the Board of Governors to prescribe margin regulations “For the purpose of preventing the excessive use of credit for the purchase or carrying of securities.” Accordingly, the provisions of this part are not intended to prevent the use of credit where the transaction will not have the effect of increasing the volume of credit in the securities markets.

(e) It appears that the instant transaction would have no such effect. When the transaction was completed, the equity interest of the dealer was transferred into a dollar-obligation interest; in lieu of its status as a stockholder of the corporation, the dealer became a creditor of that corporation. The corporation did not become the owner of any securities acquired through the use of credit; its outstanding stock was simply reduced by 4,161 shares.

(f) The meaning of “sale” and “purchase” in the Securities Exchange Act has been considered by the Federal courts in a series of decisions dealing with corporate “insiders” profits under section 16(b) of that Act. Although the statutory purpose sought to be effectuated in those cases is quite different from the purpose of the margin regulations, the decisions in question support the propriety of not regarding a transaction as a “purchase” where this accords with the probable legislative intent, even though, literally, the statutory definition seems to include the particular transaction. See Roberts v. Eaton (CA 2 1954) 212 F. 2d 82, and cases and other authorities there cited. The governing principle, of course, is to effectuate the purpose embodied in the statutory or regulatory provision being interpreted, even where that purpose may conflict with the literal words. U.S. v. Amer. Trucking Ass’ns, 310 U.S. 534, 543 (1940); 2 Sutherland, Statutory Construction (3d ed. 1943) ch. 45.

(g) There can be little doubt that an extension of credit to a corporation to enable it to retire debt securities would not be for the purpose of “purchasing ** securities” and therefore would come within § 220.4(f)(8), regardless of whether the retirement was obligatory (e.g., at maturity) or was a voluntary “call” by the issuer. This is true, it is difficult to see any valid distinction, for this purpose, between (1) voluntary retirement of an indebtedness security and (2) voluntary retirement of an equity security.
(h) For the reasons indicated above, it is the opinion of the Board of Governors that the extension of credit here involved is not of the kind which the margin requirements are intended to regulate and that the transaction described does not involve an unlawful extension of credit as far as this part is concerned.

(i) The foregoing interpretation relates, of course, only to cases of the type described. It should not be regarded as governing any other situations; for example, the interpretation does not deal with cases where securities are being transferred to someone other than the issuer, or to the issuer for a purpose other than immediate retirement. Whether the margin requirements are inapplicable to any such situations would depend upon the relevant facts of actual cases presented.

[27 FR 12346, Dec. 13, 1962]

§ 220.120 [Reserved]

§ 220.121 Applicability of margin requirements to joint account between two creditors.

(a) The Board has recently been asked whether extensions of credit in a joint account between two brokerage firms, a member of a national securities exchange (“Firm X”) and a member of the National Association of Securities Dealers (“Firm Y”) are subject to the margin requirements of this part (Regulation T). It is understood that similar joint accounts are not uncommon, and it appears that the margin requirements of the regulation are not consistently applied to extensions of credit in the accounts.

(b) When the account in question was opened, Firm Y deposited $5,000 with Firm X and has made no further deposit in the account, except for the monthly settlement described below. Both firms have the privilege of buying and selling specified securities in the account, but it appears that Firm X initiates most of the transactions therein. Trading volume may run from half a million to a million dollars a month. Firm X carries the “official” ledger of the account and sends Firm Y a monthly statement with a complete record of all transactions effected during the month. Settlement is then made in accordance with the agreement between the two firms, which provides that profits and losses shall be shared equally on a fifty-fifty basis. However, all transactions are confirmed and reconfirmed between the two on a daily basis.

(c) Section 220.3(a) provides that

All financial relations between a creditor and a customer, whether recorded in one record or in more than one record, shall be included in and be deemed to be part of the customer’s general account with the creditor. * * *

and § 220.2(c) defines the term “customer” to include

* * * any person, or any group of persons acting jointly. * * * to or for whom a creditor is extending or maintaining any credit * * *

In the course of a normal month’s operations, both Firm X and Firm Y are at one time or another extending credit to the joint account, since both make purchases for the account that are not “settled” until the month’s end. Consequently, the account would be a “customer” within the above definition.

(d) Section 220.6(b) provides, with respect to the account of a joint adventure in which a creditor participates, that

* * * the adjusted debit balance of the account shall include, in addition to the items specified in §220.3(d), any amount by which the creditor’s contribution to the joint adventure exceeds the contribution which he would have made if he had contributed merely in proportion to his right to share in the profits of the joint adventure.

In addition, the final paragraph of §220.2(c) states that the definition of “customer”

* * * includes any joint adventure in which a creditor participates and which would be considered a customer of the creditor if the creditor were not a participant.

(e) The above provisions clearly evince the Board’s intent that the regulation shall cover trading accounts in which a creditor participates. If additional confirmation were needed, it is supplied by the fact that the Board found it needful specifically to exempt from ordinary margin requirements...
Federal Reserve System

§ 220.122

credit extended to certain joint accounts in which a creditor participates. These include the account in which transactions of odd-lot dealers may be financed under §220.4(f)(4), and the specialist’s account under §220.4(g). Accordingly, the Board concluded that the joint account between Firm X and Firm Y is a “customer” within the meaning of the regulation, and that extensions of credit in the account are subject to margin requirements.

[31 FR 7169, May 17, 1966]

§ 220.122 “Deep in the money put and call options” as extensions of credit.

(a) The Board of Governors has been asked to determine whether the business of selling instruments described as “deep in the money put and call options” would involve an extension of credit for the purposes of the Board’s regulations governing margin requirements for securities transactions. Most of such options would be of the “call” type, such as the following proposal that was presented to the Board for its consideration:

If X stock is selling at $100 per share, the customer would pay about $3,250 for a contract to purchase 100 shares of X at $70 per share within a 30-day period. The contract would be guaranteed by an exchange member, as are standard “puts” and “calls”. When the contract is made with the customer, the seller, who will also be the writer of the contract, will immediately purchase 100 shares of X at $100 per share through the guarantor member firm in a margin account. If the customer exercises the option, the shares will be delivered to him; if the option is not exercised, the writer will sell the shares in the margin account to close out the transaction. As a practical matter, it is anticipated that the customer will exercise the option in almost every case.

(b) An ordinary “put” is an option given to a person to sell to the writer of the put a specified amount of securities at a stated price within a certain time. A “call” is an option given to a person to buy from the writer a specified amount of securities at a stated price within a certain time. To be freely saleable, options must be indorsed, or guaranteed, by a member firm of the exchange on which the security is registered. The guarantor charges a fee for this service.

(c) The option embodied in the normal put or call is exercisable either at the market price of the security at the time the option is written, or some “points away” from the market. The price of a normal option is modest by comparison with the margin required to take a position. Writers of normal options are persons who are satisfied with the current price of a security, and are prepared to purchase or sell at that price, with the small profit provided by the fee. Moreover, since a large proportion of all options are never exercised, a person who customarily writes normal options can anticipate that the fee would be clear profit in many cases, and he will not be obligated to buy or sell the stock in question.

(d) The stock exchanges require that the writer of an option deposit and maintain in his margin account with the indorser 30 percent of the current market price in the case of a call (unless he has a long position in the stock) and 25 percent in the case of a put (unless he has a short position in the stock). Many indorsing firms in fact require larger deposits. Under §220.3(a) of Regulation T, all financial relations between a broker and his customer must be included in the customer’s general account, unless specifically eligible for one of the special accounts authorized by §220.4. Accordingly, the writer, as a customer of the member firm, must make a deposit, which is included in his general account.

(e) In order to prevent the deposit from being available against other margin purchases, and in effect counted twice, §220.3(d)(5) requires that in computing the customer’s adjusted debit balance, there shall be included “the amount of any margin customarily required by the creditor in connection with his endorsement or guarantee of any put, call, or other option”. No other margin deposit is required in connection with a normal put or call option under Regulation T.

(f) Turning to the “deep in the money” proposed option contract described above, the price paid by the buyer can be divided into (1) a deposit of 30 percent of the current market
value of the stock, and (2) an additional fixed charge, or fee. To the extent that the price of the stock rose during the 30 ensuing days the proposed instrument would produce results similar to those in the case of an ordinary profitable call, and the contract right would be exercised. But even if the price fell, unlike the situation with a normal option, the buyer would still be virtually certain to exercise his right to purchase before it expired, in order to minimize his loss. The result would be that the buyer would not have a genuine choice whether or not to buy. Rather, the instrument would have made it possible for him, in effect, to purchase stock as of the time the contract was written by depositing 30 percent of the stock's current market price.

(g) It was suggested that the proposed contract is not unusual, since there are examples of ordinary options selling at up to 28 percent of current market value. However, such examples are of options running for 12 months, and reflect expectations of changes in the price of the stock over that period. The 30-day contracts discussed above are not comparable to such 12-month options, because instances of true expectations of price changes of this magnitude over a 30-day period would be exceedingly rare. And a contract that does not reflect such true expectations of price change, plus a reasonable fee for the services of the writer, is not an option in the accepted meaning of the term.

(h) Because of the virtual certainty that the contract right would be exercised under the proposal described above, the writer would buy the stock in a margin account with an indorsing firm immediately on writing the contract. The indorsing firm would extend credit in the amount of 20 percent of the current market price of the stock, the maximum permitted by the current §220.8 (supplement to Regulation T). The writer would deposit the 30 percent supplied by the buyer, and furnish the remaining 50 percent out of his own working capital. His account with the indorsing firm would thus be appropriately margined.

(i) As to the buyer, however, the writer would function as a broker. In effect, he would purchase the stock for the account, or use, of the buyer, on what might be described as a deferred payment arrangement. Like an ordinary broker, the writer of the contract described above would put up funds to pay for the difference between the price of securities the customer wished to purchase and the customer's own contribution. His only risk would be that the price of the securities would decline in excess of the customer's contribution. True, he would be locked in, and could not liquidate the customer's collateral for 30 days even if the market price should fall in excess of 30 percent, but the risk of such a decline is extremely slight.

(j) Like any other broker who extends credit in a margin account, the writer who was in the business of writing and selling such a contract would be satisfied with a fixed predetermined amount of return on his venture, since he would realize only the fee charged. Unlike a writer of ordinary puts and calls, he would not receive a substantial part of his income from fees on unexercised contract rights. The similarity of his activities to those of a broker, and the dissimilarity to a writer of ordinary options, would be underscored by the fact that his fee would be a fixed predetermined amount of return similar to an interest charge, rather than a fee arrived at individually for each transaction according to the volatility of the stock and other individual considerations.

(k) The buyer's general account with the writer would in effect reflect a debit for the purchase price of the stock and, on the credit side, a deposit of cash in the amount of 30 percent of that price, plus an extension of credit for the remaining 70 percent, rather than the maximum permissible 20 percent.

(l) For the reasons stated above, the Board concluded that the proposed contracts would involve extensions of credit by the writer as broker in an amount exceeding that permitted by the current supplement to Regulation T. Accordingly, the writing of such contracts by a brokerage firm is presently prohibited by such regulation, and any brokerage firm that endorses such a contract would be arranging for
credit in an amount greater than the firm itself could extend, a practice that is prohibited by § 220.7(a).

[35 FR 3280, Feb. 21, 1970]

§ 220.123 Partial delayed issue contracts covering nonconvertible bonds.

(a) During recent years, it has become customary for portions of new issues of nonconvertible bonds and preferred stocks to be sold subject to partial delayed issue contracts, which have customarily been referred to in the industry as “delayed delivery” contracts, and the Board of Governors has been asked for its views as to whether such transactions involve any violations of the Board’s margin regulations.

(b) The practice of issuing a portion of a debt (or equivalent) security issue at a date subsequent to the main underwriting has arisen where market conditions made it difficult or impossible, in a number of instances, to place an entire issue simultaneously. In instances of this kind, institutional investors (e.g., insurance companies or pension funds) whose cash flow is such that they expect to have funds available some months in the future, have been willing to subscribe to a portion, to be issued to them at a future date. The issuer has been willing to agree to issue the securities in two or more stages because it did not immediately need the proceeds to be realized from the deferred portion, because it could not raise funds on better terms, or because it preferred to have a certain portion of the issue taken down by an investor of this type.

(c) In the case of such a delayed issue contract, the underwriter is authorized to solicit from institutional customers offers to purchase from the issuer, pursuant to contracts of the kind described above, and the agreement becomes binding at the underwriters’ closing, subject to specified conditions. When securities are issued pursuant to the agreement, the purchase price includes accrued interest or dividends, and until they are issued to it, the purchaser does not, in the case of bonds, have rights under the trust indenture, or, in the case of preferred stocks, voting rights.

(d) Securities sold pursuant to such arrangements are high quality debt issues (or their equivalent). The purchasers buy with a view to investment and do not resell or otherwise dispose of the contract prior to its completion. Delayed issue arrangements are not acceptable to issuers unless a substantial portion of an issue, not less than 10 percent, is involved.

(e) Sections 3(a) (13) and (14) of the Securities Exchange Act of 1934 provide that an agreement to purchase is equivalent to a purchase, and an agreement to sell to a sale. The Board has hitherto expressed the view that credit is extended at the time when there is a firm agreement to extend such credit (1968 Federal Reserve Bulletin 328; 12 CFR 207.101; ¶ 6800 Published Interpretations of the Board of Governors). Accordingly, in instances of the kind described above, the issuer may be regarded as extending credit to the institutional purchaser at the time of the underwriters’ closing, when the obligations of both become fixed.

(f) Section 220.7(a) of the Board’s Regulation T (12 CFR 220.7(a)), with an exception not applicable here, forbids a creditor subject to that regulation to arrange for credit on terms on which the creditor could not itself extend the credit. Sections 220.4(c) (1) and (2) (12 CFR 220.4(c) (1) and (2)) provide that a creditor may not sell securities to a customer except in good faith reliance upon an agreement that the customer will promptly, and in no event in more than 7 full business days, make full cash payment for the securities. Since the underwriters in question are creditors subject to the regulation, unless some specific exception applies, they are forbidden to arrange for the credit described above. This result follows because payment is not made until more than 7 full business days have passed from the time the credit is extended.

(g) However, § 220.4(c)(3) provides that:

If the security when so purchased is an unissued security, the period applicable to the transaction under subparagraph (2) of this paragraph shall be 7 days after the date on which the security is made available by the issuer for delivery to purchasers.
(h) In interpreting § 220.4(c)(3), the Board has stated that the purpose of the provision:

* * * is to recognize the fact that, when an issue of securities is to be issued at some future fixed date, a security that is part of such issue can be purchased on a “when-issued” basis and that payment may reasonably be delayed until after such date of issue, subject to other basic conditions for transactions in a special cash account. (1962 Federal Reserve Bulletin 1427; 12 CFR 220.118; ¶ 5996, Published Interpretations of the Board of Governors.)

In that situation, the Board distinguished the case of mutual fund shares, which technically are not issued until the certificate can be delivered by the transfer agent. The Board held that mutual fund shares must be regarded as issued at the time of purchase because they are:

* * * essentially available upon purchase to the same extent as outstanding securities. The mechanics of their issuance and of the delivery of certificates are not significantly different from the mechanics of transfer and delivery of certificates for shares of outstanding securities, and the issuance of mutual fund shares is not a future event in the sense that would warrant the extension of the time for payment beyond that afforded in the case of outstanding securities. (ibid.)

The issuance of debt securities subject to delayed issue contracts, by contrast with that of mutual fund shares, which are in a status of continual underwriting, is a specific single event taking place at a future date fixed by the issuer with a view to its need for funds and the availability of those funds under current market conditions.

(i) For the reasons stated above the Board concluded that the nonconvertible debt and preferred stock subject to delayed issue contracts of the kind described above should not be regarded as having been issued until delivered, pursuant to the agreement, to the institutional purchaser. This interpretation does not apply, of course, to fact situations different from that described in this section.

[36 FR 2777, Feb. 10, 1971]
(d) In the case of credit for the purpose of purchasing or carrying securities (purpose credit), § 220.8 of the regulation (the Supplement to Regulation T) does not permit any loan value to be given securities that are not registered on a national securities exchange, included on the Board’s OTC Margin List, or exempted by statute from the regulation.

(e) The courts have consistently held investment programs such as those described above to be “securities” for purpose of both the Securities Act of 1933 and the Securities Exchange Act of 1934. The courts have also held that the two statutes are to be construed together. Tax-shelter programs, accordingly, are securities for purposes of Regulation T. They also are not registered on a national securities exchange, included on the Board’s OTC Margin List, or exempted by statute from the regulation.

(f) Accordingly, the Board concludes that the sale by a broker/dealer of tax-shelter programs containing a provision that payment for the program may be made in installments would constitute “arranging” for the extension of credit to purchase or carry securities in violation of the prohibitions of §§ 220.7(a) and 220.8 of Regulation T.

§ 220.125–220.126 [Reserved]

§ 220.127 Independent broker/dealers arranging credit in connection with the sale of insurance premium funding programs.

(a) The Board’s September 5, 1972, clarifying amendment to § 220.4(k) set forth that creditors who arrange credit for the acquisition of mutual fund shares and insurance are also permitted to sell mutual fund shares without insurance under the provisions of the special cash account. It should be understood, of course, that such account provides a relatively short credit period of up to 7 business days even with so-called cash transactions. This amendment was in accordance with the Board’s understanding in 1969, when the insurance premium funding provisions were adopted in § 220.4(k), that firms engaged in a general securities business would not also be engaged in the sale and arranging of credit in connection with such insurance premium funding programs.

(b) The 1972 amendment eliminated from § 220.4(k) the requirement that, to be eligible for the provisions of the section, a creditor had to be the issuer, or a subsidiary or affiliate of the issuer, of programs which combine the acquisition of both mutual fund shares and insurance. Thus the amendment permits an independent broker/dealer to sell such a program and to arrange for financing in that connection. In reaching such decision, the Board again relied upon the earlier understanding that independent broker/dealers who would sell such programs would not be engaged in transacting a general securities business.

(c) In response to a specific view recently expressed, the Board agrees that under Regulation T:

* * * a broker/dealer dealing in special insurance premium funding products can only extend credit in connection with such products or in connection with the sale of shares of registered investment companies under the cash accounts * * * (and) cannot engage in the general securities business or sell any securities other than shares * * * (in) registered investment companies through a cash account or any other manner involving the extension of credit.

(d) There is a way, of course, as has been indicated, that an independent broker/dealer might be able to sell other than shares of registered investment companies without creating any conflict with the regulation. Such sales could be executed on a “funds on hand” basis and in the case of payment by check, would have to include the collection of such check. It is understood from industry sources, however, that few if any independent broker/dealers engage solely in a “funds on hand” type of operation.

§ 220.128 Treatment of simultaneous long and short positions in the same margin account when put or call options or combinations thereof on such stock are also outstanding in the account.

(a) The Board was recently asked whether under Regulation T, “Credit by Brokers and Dealers” (12 CFR part
§ 220.128

220. If there are simultaneous long and short positions in the same security in the same margin account (often referred to as a short sale “against the box”), such positions may be used to supply the place of the deposit of margin ordinarily required in connection with the guarantee by a creditor of a put or call option or combination thereof on such stock.

(b) The applicable provisions of regulation T are § 220.3(d)(3) and (5) and § 220.3(g)(4) and (5) which provide as follows:

(d) * * * the adjusted debit balance of a general account * * * shall be calculated by taking the sum of the following items:

* * * * * *

(3) The current market value of any securities (other than unissued securities) sold short in the general account plus, for each security (other than an exempted security), such amount as the board shall prescribe from time to time in § 220.8(d) (the supplement to regulation T) as the margin required for such short sales, except that such amount so prescribed in such § 220.8(d) need not be included when there are held in the general account * * * the same securities or securities exchangeable or convertible within 90 calendar days, without restriction other than the payment of money, into such securities sold short;

* * * * * *

(5) The amount of any margin customarily required by the creditor in connection with his endorsement or guarantee of any put, call, or other option;

* * * * * *

(g) * * * (4) Any transaction which serves to meet the requirements of paragraph (e) of this section or otherwise serves to permit any offsetting transaction in an account shall, to that extent, be unavailable to permit any other transaction in such account.

(f) For the purposes of this part (regulation T), if a security has maximum loan value under paragraph (c)(1) of this section in a general account, or under § 220.4(j) in a special convertible debt security account, a sale of the same security (even though not the same certificate) in such account shall be deemed to be a long sale and shall not be deemed to be or treated as a short sale.

(c) Rule 431 of the New York Stock Exchange requires that a creditor obtain a minimum deposit of 25 percent of the current market value of the optioned stock in connection with his issuance or guarantee of a put, and at least 30 percent in the case of a call (and that such position be “marked to the market”), but permits a short position in the stock to serve in lieu of the required deposit in the case of a put and a long position to serve in the case of a call. Thus, where the appropriate position is held in an account, that position may serve as the margin required by § 220.3(d)(5).

(d) In a short sale “against the box,” however, the customer is both long and short the same security. He may have established either position, properly margined, prior to taking the other, or he may have deposited fully paid securities in his margin account on the same day he makes a short sale of such securities. In either case, he will have directed his broker to borrow securities elsewhere in order to make delivery on the short sale rather than using his long position for this purpose (see also 17 CFR 240.3b-3).

(e) Generally speaking, a customer makes a short sale “against the box” for tax reasons. Regulation T, however, provides in § 220.3(g) that the two positions must be “netted out” for the purposes of the calculations required by the regulation. Thus, the board concludes that neither position would be available to serve as the deposit of margin required in connection with the endorsement by the creditor of an option.

(f) A similar conclusion obtains under § 220.3(d)(3). That section provides, in essence, that the margin otherwise required in connection with a short sale need not be included in the account if the customer has in the account a long position in the same security. In § 220.3(g)(4), however, it is provided that “[A]ny transaction which * * * serves to permit any offsetting transaction in an account shall, to that extent, be unavailable to permit any other transaction in such account.” Thus, if a customer has, for example, a long position in a security and that long position has been used to supply the margin required in connection with
§ 220.131 Application of the arranging section to broker-dealer activities under SEC Rule 144A.

(a) The Board has been asked whether the purchase by a broker-dealer of debt securities for resale in reliance on Rule 144A of the Securities and Exchange Commission (17 CFR 230.144A) may be considered an arranging of credit permitted as an "investment banking service" under §220.13(a) of Regulation T.

(b) SEC Rule 144A provides a safe harbor exemption from the registration requirements of the Securities Act of 1933 for resales of restricted securities to qualified institutional buyers, as defined in the rule. In general, a qualified institutional buyer is an institutional investor that in the aggregate owns and invests on a discretionary basis at least $100 million in securities of issuers that are not affiliated with the buyer. Registered broker-dealers need only own and invest on a discretionary basis at least $10 million of securities in order to purchase as principal under the rule. Section 4(2) of the Securities Act of 1933 provides an exemption from the registration requirements for transactions by an issuer not involving any public offering. Securities acquired in a transaction under section 4(2) cannot be resold without registration under the Act or an exemption therefrom. Rule 144A provides a safe harbor exemption for resales of such securities. Accordingly, broker-dealers that previously acted only as agents in intermediating between issuers and purchasers of privately-placed securities, due to the lack of such a safe harbor, may now purchase privately-placed securities from issuers as principal and resell such securities to "qualified institutional buyers" under Rule 144A.

(c) The Board has consistently treated the purchase of a privately-placed debt security as an extension of credit subject to the margin regulations. If the issuer uses the proceeds to buy securities, the purchase of the privately-placed debt security by a creditor represents an extension of "purpose credit" to the issuer. Section 7(c) of the Securities Exchange Act of 1934 prohibits the extension of purpose credit by a creditor if the credit is unsecured, secured by collateral other than securities, or secured by any security (other than an exempted security) in contravention of Federal Reserve regulations. If a debt security sold pursuant to Rule 144A represents purpose credit and is not properly collateralized by securities, the statute and Regulation T can be viewed as preventing the broker-dealer from taking the security into inventory in spite of the fact that the broker-dealer intends to immediately resell the debt security.

(d) Under §220.13 of Regulation T, a creditor may arrange credit it cannot itself extend if the arrangement is an "investment banking service" and the credit does not violate Regulations G and U. Investment banking services are defined to include, but not be limited to, "underwritings, private placements, and advice and other services in connection with exchange offers, mergers, or acquisitions, except for..."
underwritings that involve the public distribution of an equity security with installment or other deferred-payment provisions.” To comply with Regulations G and U where the proceeds of debt securities sold under Rule 144A may be used to purchase or carry margin stock and the debt securities are secured in whole or in part, directly or indirectly by margin stock (see 12 CFR 207.2(f), 207.112, and 221.2(g)), the margin requirements of the regulations must be met.

(e) The SEC’s objective in adopting Rule 144A is to achieve “a more liquid and efficient institutional resale market for unregistered securities.” To further this objective, the Board believes it is appropriate for Regulation T purposes to characterize the participation of broker-dealers in this unique and limited market as an “investment banking service.” The Board is therefore of the view that the purchase by a creditor of debt securities for resale pursuant to SEC Rule 144A may be considered an investment banking service under the arranging section of Regulation T. The market-making activities of broker-dealers who hold themselves out to other institutions as willing to buy and sell Rule 144A securities on a regular and continuous basis may also be considered an arranging of credit permissible under §220.13(a) of Regulation T.

[Reg. T, 55 FR 29566, July 20, 1990]

§220.132 Credit to brokers and dealers.

For text of this interpretation, see §221.125 of this subchapter.

PART 221—CREDIT BY BANKS AND PERSONS OTHER THAN BROKERS OR DEALERS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCK (REGULATION U)

Sec.
221.1 Authority, purpose, and scope.
221.2 Definitions.
221.3 General requirements.
221.4 Employee stock option, purchase, and ownership plans.
221.5 Special purpose loans to brokers and dealers.
221.6 Exempted transactions.
221.7 Supplement: Maximum loan value of margin stock and other collateral.

INTERPRETATIONS
221.101 Determination and effect of purpose of loan.
221.102 Application to committed credit where funds are disbursed thereafter.
221.103 Loans to brokers or dealers.
221.104 Federal credit unions.
221.105 Arranging for extensions of credit to be made by a bank.
221.106 Reliance in “good faith” on statement of purpose of loan.
221.107 Arranging loan to purchase open-end investment company shares.
221.108 Effect of registration of stock subsequent to making of loan.
221.109 Loan to open-end investment company.
221.110 Questions arising under this part.
221.111 Contribution to joint venture as extension of credit when the contribution is disproportionate to the contributor’s share in the venture’s profits or losses.
221.112 Loans by bank in capacity as trustee.
221.113 Loan which is secured indirectly by stock.
221.114 Bank loans to purchase stock of American Telephone and Telegraph Company under Employees’ Stock Plan.
221.115 Accepting a purpose statement through the mail without benefit of face-to-face interview.
221.116 Bank loans to replenish working capital used to purchase mutual fund shares.
221.117 When bank in “good faith” has not relied on stock as collateral.
221.118 Bank arranging for extension of credit by corporation.
221.119 Applicability of plan-lender provisions to financing of stock options and stock purchase rights qualified or restricted under Internal Revenue Code.
221.120 Allocation of stock collateral to purpose and nonpurpose credits to same customer.
221.121 Extension of credit in certain stock option and stock purchase plans.
221.122 Applicability of margin requirements to credit in connection with Insurance Premium Funding Programs.
221.123 Combined credit for exercising employee stock options and paying income taxes incurred as a result of such exercise.
221.124 Purchase of debt securities to finance corporate takeovers.
221.125 Credit to brokers and dealers.

AUTHORITY: 15 U.S.C. 78c, 78g, 78q, and 78w.
§ 221.1 Authority, purpose, and scope.

(a) Authority. Regulation U (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Securities Exchange Act of 1934 (the Act) (15 U.S.C. 78a et seq.).

(b) Purpose and scope. (1) This part imposes credit restrictions upon persons other than brokers or dealers (hereinafter lenders) that extend credit for the purpose of buying or carrying margin stock if the credit is secured directly or indirectly by margin stock. Lenders include “banks” (as defined in §221.2) and other persons who are required to register with the Board under §221.3(b). Lenders may not extend more than the maximum loan value of the collateral securing such credit, as set by the Board in §221.7 (the Supplement).

(2) This part does not apply to clearing agencies regulated by the Securities and Exchange Commission or the Commodity Futures Trading Commission that accept deposits of margin stock in connection with:

(i) The issuance of, or guarantee of, or the clearance of transactions in, any security (including options on any security, certificate of deposit, securities index or foreign currency); or

(ii) The guarantee of contracts for the purchase or sale of a commodity for future delivery or options on such contracts.

(3) This part does not apply to credit extended to an exempted borrower.

(c) Availability of forms. The forms referenced in this part are available from the Federal Reserve Banks.

§ 221.2 Definitions.

The terms used in this part have the meanings given them in section 3(a) of the Act or as defined in this section as follows:

Affiliate means:

(1) For banks:

(i) Any bank holding company of which a bank is a subsidiary within the meaning of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841(d));

(ii) Any other subsidiary of such bank holding company; and

(iii) Any other corporation, business trust, association, or other similar organization that is an affiliate as defined in section 2(b) of the Banking Act of 1933 (12 U.S.C. 221a(c));

(2) For nonbank lenders, affiliate means any person who, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with the lender.

Bank—(1) Bank. Has the meaning given to it in section 3(a)(6) of the Act (15 U.S.C. 78c(a)(6)) and includes:

(i) Any subsidiary of a bank;

(ii) Any corporation organized under section 25(a) of the Federal Reserve Act (12 U.S.C. 611); and

(iii) Any agency or branch of a foreign bank located within the United States.

(2) Bank does not include:

(i) Any savings and loan association;

(ii) Any credit union;

(iii) Any lending institution that is an instrumentality or agency of the United States; or

(iv) Any member of a national securities exchange.

Carrying credit is credit that enables a customer to maintain, reduce, or retire indebtedness originally incurred to purchase a security that is currently a margin stock.

Current market value of:

(1) A security means:

(i) If quotations are available, the closing sale price of the security on the preceding business day, as appearing on any regularly published reporting or quotation service; or

(ii) If there is no closing sale price, the lender may use any reasonable estimate of the market value of the security as of the close of business on the preceding business day; or

(iii) If the credit is used to finance the purchase of the security, the total cost of purchase, which may include any commissions charged.

(2) Any other collateral means a value determined by any reasonable method.

Customer excludes an exempted borrower and includes any person or persons acting jointly, to or for whom a lender extends or maintains credit.
Examining authority means:
(1) The national securities exchange or national securities association of which a broker or dealer is a member;
or
(2) If a member of more than one self-regulatory organization, the organization designated by the Securities and Exchange Commission as the examining authority for the broker or dealer.

Exempted borrower means a member of a national securities exchange or a registered broker or dealer, a substantial portion of whose business consists of transactions with persons other than brokers or dealers, and includes a borrower who:
(1) Maintains at least 1000 active accounts on an annual basis for persons other than brokers, dealers, and persons associated with a broker or dealer;
(2) Earns at least $10 million in gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker or dealer;
(3) Earns at least 10 percent of its gross revenues on an annual basis from transactions with persons other than brokers, dealers, and persons associated with a broker-dealer.

Good faith with respect to:
(1) The loan value of collateral means that amount (not exceeding 100 percent of the current market value of the collateral) which a lender, exercising sound credit judgment, would lend, without regard to the customer’s other assets held as collateral in connection with unrelated transactions.
(2) Making a determination or accepting a statement concerning a borrower means that the lender or its duly authorized representative is alert to the circumstances surrounding the credit, and if in possession of information that would cause a prudent person not to make the determination or accept the notice or certification without inquiry, investigates and is satisfied that it is correct;

In the ordinary course of business means occurring or reasonably expected to occur in carrying out or furthering any business purpose, or in the case of an individual, in the course of any activity for profit or the management or preservation of property.

Indirectly secured. (1) Includes any arrangement with the customer under which:
(i) The customer’s right or ability to sell, pledge, or otherwise dispose of margin stock owned by the customer is in any way restricted while the credit remains outstanding; or
(ii) The exercise of such right is or may be cause for accelerating the maturity of the credit.
(2) Does not include such an arrangement if:
(i) After applying the proceeds of the credit, not more than 25 percent of the value (as determined by any reasonable method) of the assets subject to the arrangement is represented by margin stock;
(ii) It is a lending arrangement that permits accelerating the maturity of the credit as a result of a default or renegotiation of another credit to the customer by another lender that is not an affiliate of the lender;
(iii) The lender holds the margin stock only in the capacity of custodian, depository, or trustee, or under similar circumstances, and, in good faith, has not relied upon the margin stock as collateral; or
(iv) The lender, in good faith, has not relied upon the margin stock as collateral in extending or maintaining the particular credit.

Lender means:
(1) Any bank; or
(2) Any person subject to the registration requirements of this part.

Margin stock means:
(1) Any equity security registered or having unlisted trading privileges on a national securities exchange;
(2) Any OTC security designated as qualified for trading in the National Market System under a designation plan approved by the Securities and Exchange Commission (NMS security);
(3) Any debt security convertible into a margin stock or carrying a warrant or right to subscribe to or purchase a margin stock;
(4) Any warrant or right to subscribe to or purchase a margin stock; or
(5) Any security issued by an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), other than:
Federal Reserve System

§ 221.3

(i) A company licensed under the Small Business Investment Company Act of 1958, as amended (15 U.S.C. 661); or

(ii) A company which has at least 95 percent of its assets continuously invested in exempted securities (as defined in 15 U.S.C. 78c(a)(12)); or

(iii) A company which issues face-amount certificates as defined in 15 U.S.C. 80a–2(a)(15), but only with respect of such securities; or

(iv) A company which is considered a money market fund under SEC Rule 2a–7 (17 CFR 270.2a–7).

Maximum loan value is the percentage of current market value assigned by the Board under § 221.7 (the Supplement) to specified types of collateral. The maximum loan value of margin stock is stated as a percentage of its current market value. Puts, calls and combinations thereof that do not qualify as margin stock have no loan value. All other collateral has good faith loan value.

Nonbank lender means any person subject to the registration requirements of this part.

Purpose credit is any credit for the purpose, whether immediate, incidental, or ultimate, of buying or carrying margin stock.

§ 221.3 General requirements.

(a) Extending, maintaining, and arranging credit—(1) Extending credit. No lender, except a plan-lender, as defined in § 221.4(a), shall extend any purpose credit, secured directly or indirectly by margin stock, in an amount that exceeds the maximum loan value of the collateral securing the credit.

(2) Maintaining credit. A lender may continue to maintain any credit initially extended in compliance with this part, regardless of:

(i) Reduction in the customer’s equity resulting from change in market prices;

(ii) Change in the maximum loan value prescribed by this part; or

(iii) Change in the status of the security (from nonmargin to margin) securing an existing purpose credit.

(3) Arranging credit. No lender may arrange for the extension or maintenance of any purpose credit, except upon the same terms and conditions under which the lender itself may extend or maintain purpose credit under this part.

(b) Registration of nonbank lenders; termination of registration; annual report—(1) Registration. Every person other than a person subject to part 230 of this chapter or a bank who, in the ordinary course of business, extends or maintains credit secured, directly or indirectly, by any margin stock shall register on Federal Reserve Form FR G–1 (OMB control number 7100–0011) within 30 days after the end of any calendar quarter during which:

(i) The amount of credit extended equals $200,000 or more; or

(ii) The amount of credit outstanding at any time during that calendar quarter equals $500,000 or more.

(2) Deregistration. A registered nonbank lender may apply to terminate its registration, by filing Federal Reserve Form FR G–2 (OMB control number 7100–0011), if the lender has not, during the preceding six calendar months, had more than $200,000 of such credit outstanding. Registration shall be deemed terminated when the application is approved by the Board.

(3) Annual report. Every registered nonbank lender shall, within 30 days following June 30 of every year, file Form FR G–4 (OMB control number 7100–0011).

(4) Where to register and file applications and reports. Registration statements, applications to terminate registration, and annual reports shall be filed with the Federal Reserve Bank of the district in which the principal office of the lender is located.

(c) Purpose statement—(1) General rule—(i) Banks. Except for credit extended under paragraph (c)(2) of this section, whenever a bank extends credit secured directly or indirectly by any margin stock, in an amount exceeding $100,000, the bank shall require its customer to execute Form FR U–1 (OMB No. 7100–0115), which shall be signed and accepted by a duly authorized officer of the bank acting in good faith.

(ii) Nonbank lenders. Except for credit extended under paragraph (c)(2) of this section or § 221.4, whenever a nonbank lender extends credit secured directly or indirectly by any margin stock, the
nonbank lender shall require its customer to execute Form FR G–3 (OMB control number 7100–0018), which shall be signed and accepted by a duly authorized representative of the nonbank lender acting in good faith.

(2) Purpose statement for revolving-credit or multiple-draw agreements or financing of securities purchases on a payment-against-delivery basis—(i) Banks. If a bank extends credit, secured directly or indirectly by any margin stock, in an amount exceeding $100,000, under a revolving-credit or other multiple-draw agreement, Form FR U–1 must be executed at the time the credit arrangement is originally established and must be amended as described in paragraph (c)(2)(iv) of this section for each disbursement if all of the collateral for the agreement is not pledged at the time the agreement is originally established.

(ii) Nonbank lenders. If a nonbank lender extends credit, secured directly or indirectly by any margin stock, under a revolving-credit or other multiple-draw agreement, Form FR G–3 must be executed at the time the credit arrangement is originally established and must be amended as described in paragraph (c)(2)(iv) of this section for each disbursement if all of the collateral for the agreement is not pledged at the time the agreement is originally established.

(iii) Collateral. If a purpose statement executed at the time the credit arrangement is initially made indicates that the purpose is to purchase or carry margin stock, the credit will be deemed in compliance with this part if:

(A) The maximum loan value of the collateral at least equals the aggregate amount of funds actually disbursed; or

(B) At the end of any day on which credit is extended under the agreement, the lender calls for additional collateral sufficient to bring the credit into compliance with §221.7 (the Supplement).

(iv) Amendment of purpose statement. For any purpose credit disbursed under the agreement, the lender shall obtain and attach to the executed Form FR U–1 or FR G–3 a current list of collateral which adequately supports all credit extended under the agreement.

(d) Single credit rule. (1) All purpose credit extended to a customer shall be treated as a single credit, and all the collateral securing such credit shall be considered in determining whether or not the credit complies with this part, except that syndicated loans need not be aggregated with other unrelated purpose credit extended by the same lender.

(2) A lender that has extended purpose credit secured by margin stock may not subsequently extend unsecured purpose credit to the same customer unless the combined credit does not exceed the maximum loan value of the collateral securing the prior credit.

(3) If a lender extended unsecured purpose credit to a customer prior to the extension of purpose credit secured by margin stock, the credits shall be combined and treated as a single credit solely for the purposes of the withdrawal and substitution provision of paragraph (f) of this section.

(4) If a lender extends purpose credit secured by any margin stock and nonpurpose credit to the same customer, the lender shall treat the credits as two separate loans and may not rely upon the required collateral securing the purpose credit for the nonpurpose credit.

(e) Exempted borrowers. (1) An exempted borrower that has been in existence for less than one year may meet the definition of exempted borrower based on a six-month period.

(2) Once a member of a national securities exchange or registered broker or dealer ceases to qualify as an exempted borrower, it shall notify its lenders of this fact. Any new extensions of credit to such a borrower, including rollovers, renewals, and additional draws on existing lines of credit, are subject to the provisions of this part.

(f) Withdrawals and substitutions. (1) A lender may permit any withdrawal or substitution of cash or collateral by the customer if the withdrawal or substitution would not:

(i) Cause the credit to exceed the maximum loan value of the collateral; or

(ii) Increase the amount by which the credit exceeds the maximum loan value of the collateral.
(2) For purposes of this section, the maximum loan value of the collateral on the day of the withdrawal or substitution shall be used.

(g) Exchange offers. To enable a customer to participate in a reorganization, recapitalization or exchange offer that is made to holders of an issue of margin stock, a lender may permit substitution of the securities received. A nonmargin, nonexempted security acquired in exchange for a margin stock shall be treated as if it is margin stock for a period of 60 days following the exchange.

(h) Renewals and extensions of maturity. A renewal or extension of maturity of a credit need not be considered a new extension of credit if the amount of the credit is increased only by the addition of interest, service charges, or taxes with respect to the credit.

(i) Transfers of credit. (1) A transfer of a credit between customers or between lenders shall not be considered a new extension of credit if:

(i) The original credit was extended by a lender in compliance with this part or by a lender subject to part 207 of this chapter in effect prior to April 1, 1996. (See part 207 appearing in the 12 CFR parts 200 to 219 edition revised as of January 1, 1997), in a manner that would have complied with this part;

(ii) The transfer is not made to evade this part;

(iii) The amount of credit is not increased; and

(iv) The collateral for the credit is not changed.

(2) Any transfer between customers at the same lender shall be accompanied by a statement by the transferor customer describing the circumstances giving rise to the transfer and shall be accepted and signed by a representative of the lender acting in good faith. The lender shall keep such statement with its records of the transferee account.

(3) When a transfer is made between lenders, the transferee shall obtain a copy of the Form FR U-1 or Form FR G-3 originally filed with the transferor and retain the copy with its records of the transferee account. If no form was originally filed with the transferor, the transferee may accept in good faith a statement from the transferor describing the purpose of the loan and the collateral securing it.

(j) Action for lender’s protection. Nothing in this part shall require a bank to waive or forego any lien or prevent a bank from taking any action it deems necessary in good faith for its protection.

(k) Mistakes in good faith. A mistake in good faith in connection with the extension or maintenance of credit shall not be a violation of this part.

§ 221.4 Employee stock option, purchase, and ownership plans.

(a) Plan-lender; eligible plan. (1) Plan-lender means any corporation, including a wholly-owned subsidiary, or a lender that is a thrift organization whose membership is limited to employees and former employees of the corporation, its subsidiaries or affiliates) that extends or maintains credit to finance the acquisition of margin stock of the corporation, its subsidiaries or affiliates under an eligible plan.

(2) Eligible plan. An eligible plan means any employee stock option, purchase, or ownership plan adopted by a corporation and approved by its stockholders that provides for the purchase of margin stock of the corporation, its subsidiaries, or affiliates.

(b) Credit to exercise rights under or finance an eligible plan. (1) If a plan-lender extends or maintains credit under an eligible plan, any margin stock that directly or indirectly secured that credit shall have good faith loan value.

(2) Credit extended under this section shall be treated separately from credit extended under any other section of this part except §221.3(b)(1) and (b)(3).

(c) Credit to ESOPs. A nonbank lender may extend and maintain purpose credit without regard to the provisions of this section, except for §221.3(b)(1) and (b)(3), if such credit is extended to an employee stock ownership plan (ESOP) qualified under section 401 of the Internal Revenue Code, as amended (26 U.S.C. 401).
§ 221.5 Special purpose loans to brokers and dealers.

(a) Special purpose loans. A lender may extend and maintain purpose credit to brokers and dealers without regard to the limitations set forth in §§ 221.3 and 221.7, if the credit is for any of the specific purposes and meets the conditions set forth in paragraph (c) of this section.

(b) Written notice. Prior to extending credit for more than a day under this section, the lender shall obtain and accept in good faith a written notice or certification from the borrower as to the purposes of the loan. The written notice or certification shall be evidence of continued eligibility for the special credit provisions until the borrower notifies the lender that it is no longer eligible or the lender has information that would cause a reasonable person to question whether the credit is being used for the purpose specified.

(c) Types of special purpose credit. The types of credit that may be extended and maintained on a good faith basis are as follows:

1. Hypothecation loans. Credit secured by hypothecated customer securities that, according to written notice received from the broker or dealer, may be hypothecated by the broker or dealer under Securities and Exchange Commission (SEC) rules.

2. Temporary advances in payment-against-delivery transactions. Credit to finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid upon completion of the transaction.

3. Loans for securities in transit or transfer. Credit to finance securities in transit or surrendered for transfer, if the credit is to be repaid upon completion of the transaction.

4. Intra-day loans. Credit to enable a broker or dealer to pay for securities, if the credit is to be repaid on the same day it is extended.

5. Arbitrage loans. Credit to finance proprietary or customer bona fide arbitrage transactions. For the purpose of this section bona fide arbitrage means:

   (i) Purchase or sale of a security in one market, together with an offsetting sale or purchase of the same security in a different market at nearly the same time as practicable, for the purpose of taking advantage of a difference in prices in the two markets; or
   (ii) Purchase of a security that is, without restriction other than the payment of money, exchangeable or convertible within 90 calendar days of the purchase into a second security, together with an offsetting sale of the second security at or about the same time, for the purpose of taking advantage of a concurrent disparity in the price of the two securities.

6. Market maker and specialist loans. Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as a market maker or specialist.

7. Underwriter loans. Credit to a member of a national securities exchange or registered broker or dealer to finance its activities as an underwriter.

8. Emergency loans. Credit that is essential to meet emergency needs of the broker-dealer business arising from exceptional circumstances.

9. Capital contribution loans. Capital contribution loans include:

   (i) Credit that Board has exempted by order upon a finding that the exemption is necessary or appropriate in the public interest or for the protection of investors, provided the Securities Investor Protection Corporation certifies to the Board that the exemption is appropriate; or
   (ii) Credit to a customer for the purpose of making a subordinated loan or capital contribution to a broker or dealer in conformity with the SEC's net capital rules and the rules of the broker's or dealer's examining authority, provided:

      (A) The customer reduces the credit by the amount of any reduction in the loan or contribution to the broker or dealer; and
      (B) The credit is not used to purchase securities issued by the broker or dealer in a public distribution.

10. Credit to clearing brokers or dealers. Credit to a member of a national securities exchange or registered broker or dealer whose nonproprietary business is limited to financing and carrying the accounts of registered market makers.
§ 221.6 Exempted transactions.

A bank may extend and maintain purpose credit without regard to the provisions of this part if such credit is extended:

(a) To any bank;
(b) To any foreign banking institution;
(c) Outside the United States;
(d) To an employee stock ownership plan (ESOP) qualified under section 401 of the Internal Revenue Code (26 U.S.C. 401);
(e) To any plan lender as defined in §221.4(a) to finance an eligible plan as defined in §221.4(b), provided the bank has no recourse to any securities purchased pursuant to the plan;
(f) To any customer, other than a broker or dealer, to temporarily finance the purchase or sale of securities for prompt delivery, if the credit is to be repaid in the ordinary course of business upon completion of the transaction and is not extended to enable the customer to pay for securities purchased in an account subject to part 220 of this chapter;
(g) Against securities in transit, if the credit is not extended to enable the customer to pay for securities purchased in an account subject to part 220 of this chapter; or
(h) To enable a customer to meet emergency expenses not reasonably foreseeable, and if the extension of credit is supported by a statement executed by the customer and accepted and signed by an officer of the bank acting in good faith. For this purpose, emergency expenses include expenses arising from circumstances such as the death or disability of the customer, or some other change in circumstances involving extreme hardship, not reasonably foreseeable at the time the credit was extended. The opportunity to realize monetary gain or to avoid loss is not a “change in circumstances” for this purpose.

§ 221.7 Supplement: Maximum loan value of margin stock and other collateral.

(a) Maximum loan value of margin stock. The maximum loan value of any margin stock is fifty per cent of its current market value.

(b) Maximum loan value of nonmargin stock and all other collateral. The maximum loan value of nonmargin stock and all other collateral except puts, calls, or combinations thereof is their good faith loan value.

(c) Maximum loan value of options. Except for options that qualify as margin stock, puts, calls, and combinations thereof have no loan value.

INTERPRETATIONS

§ 221.101 Determination and effect of purpose of loan.

(a) Under this part the original purpose of a loan is controlling. In other words, if a loan originally is not for the purpose of purchasing or carrying margin stock, changes in the collateral for the loan do not change its exempted character.

(b) However, a so-called increase in the loan is necessarily on an entirely different basis. So far as the purpose of the credit is concerned, it is a new loan, and the question of whether or not it is subject to this part must be determined accordingly.

(c) Certain facts should also be mentioned regarding the determination of the purpose of a loan. Section 221.3(c) provides in that whenever a lender is required to have its customer execute a “Statement of Purpose for an Extension of Credit Secured by Margin Stock,” the statement must be accepted by the lender “acting in good faith.” The requirement of “good faith” is of vital importance here. Its application will necessarily vary with the facts of the particular case, but it is clear that the bank must be alert to the circumstances surrounding the loan. For example, if the loan is to be made to a customer who is not a broker or dealer in securities, but such a broker or dealer is to deliver margin stock to secure the loan or is to receive the proceeds of the loan, the bank would be put on notice that the loan would probably be subject to this part. It could not accept in good faith a statement to the contrary without obtaining a reliable and satisfactory explanation of the situation.

(d) Furthermore, the purpose of a loan means just that. It cannot be altered by some temporary application of
§ 221.102 Application to committed credit where funds are disbursed thereafter.

The Board has concluded that the date a commitment to extend credit becomes binding should be regarded as the date when the credit is extended, since:

(a) On that date the parties should be aware of law and facts surrounding the transaction; and

(b) Generally, the date of contract is controlling for purposes of margin regulations and Federal securities law, regardless of the delivery of cash or securities.

§ 221.103 Loans to brokers or dealers.

Questions have arisen as to the adequacy of statements received by lending banks under §221.3(c), “Purpose Statement,” in the case of loans to brokers or dealers secured by margin stock where the proceeds of the loans are to be used to finance customer transactions involving the purchasing or carrying of margin stock. While some such loans may qualify for exemption under §§221.1(b)(2), 221.4, 221.5 or 221.6, unless they do qualify for such an exemption they are subject to this part. For example, if a loan so secured is made to a broker to furnish cash working capital for the conduct of his brokerage business (i.e., for purchasing and carrying securities for the account of customers), the maximum loan value prescribed in §221.7 (the Supplement) would be applicable unless the loan should be of a kind exempted under this part. This result would not be affected by the fact that the margin stock given as security for the loan was or included margin stock owned by the brokerage firm. In view of the foregoing, the statement referred to in §221.3(c) which the lending bank must accept in good faith in determining the purpose of the loan would be inadequate if the form of statement accepted or used by the bank failed to call for answers which would indicate whether or not the loan was of the kind discussed elsewhere in this section.

§ 221.104 Federal credit unions.

For text of the interpretation on Federal credit unions, see 12 CFR 220.110.

§ 221.105 Arranging for extensions of credit to be made by a bank.

For text of the interpretation on Arranging for extensions of credit to be made by a bank, see 12 CFR 220.111.

§ 221.106 Reliance in “good faith” on statement of purpose of loan.

(a) Certain situations have arisen from time to time under this part wherein it appeared doubtful that, in the circumstances, the lending banks may have been entitled to rely upon the statements accepted by them in determining whether the purposes of certain loans were such as to cause the loans to be not subject to the part.

(b) The use by a lending bank of a statement in determining the purpose of a particular loan is, of course, provided for by §221.3(c). However, under that paragraph a lending bank may accept such statement only if it is “acting in good faith.” As the Board stated in the interpretation contained in §221.101, the “requirement of ‘good faith’ is of vital importance”; and, to fulfill such requirement, “it is clear that the bank must be alert to the circumstances surrounding the loan.”

(c) Obviously, such a statement would not be accepted by the bank in “good faith” if at the time the loan was made the bank had knowledge, from any source, of facts or circumstances which were contrary to the natural purport of the statement, or which were sufficient reasonably to put the bank on notice of the questionable reliability or completeness of the statement.

(d) Furthermore, the same requirement of “good faith” is to be applied whether the statement accepted by the bank is signed by the borrower or by an officer of the bank. In either case, “good faith” requires the exercise of special diligence in any instance in which the borrower is not personally...
§ 221.108 Effect of registration of stock subsequent to making of loan.

(a) The Board recently was asked whether a loan by a bank to enable the borrower to purchase a newly issued nonmargin stock during the initial over-the-counter trading period prior to the stock becoming registered (listed) on a national securities exchange would be subject to this part. The Board replied that, until such stock qualifies as margin stock, this would not be applicable to such a loan.

(b) The Board has now been asked what the position of the lending bank would be under this part if, after the date on which the stock should become registered, such bank continued to hold a loan of the kind just described. It is assumed that the loan was in an amount greater than the maximum loan value for the collateral specified in this part.

(c) If the stock should become registered, the loan would then be for the purpose of purchasing or carrying margin stock. The purpose of a loan therefore, should not be determined upon a narrow analysis of the immediate use to which the proceeds of the loan are put. Accordingly, a bank acting in “good faith” should carefully scrutinize cases in which there is any indication that the borrower is concealing the true purpose of the loan, and there would be reason for special vigilance if margin stock is substituted for bonds or nonmargin stock soon after the loan is made, or on more than one occasion.

(g) Similarly, the fact that a loan made on the borrower’s signature only, for example, becomes secured by margin stock shortly after the disbursement of the loan usually would afford reasonable grounds for questioning the bank’s apparent reliance upon merely a statement that the purpose of the loan was not to purchase or carry margin stock.

(h) The examples in this section are, of course, by no means exhaustive. They simply illustrate the fundamental fact that no statement accepted by a lender is of any value for the purpose of this part unless the lender accepting the statement is “acting in good faith”, and that “good faith” requires, among other things, reasonable diligence to learn the truth.

§ 221.107 Arranging loan to purchase open-end investment company shares.

For text of the interpretation on Arranging loan to purchase open-end investment company shares, see 12 CFR 220.112.
margin stock, the loan would be subject to this part in exactly the same way, for example, as a loan subject to this part that became under-margined because of a decline in the current market value of the loan collateral or because of a decrease by the Board in the maximum loan value of the loan collateral.

§ 221.109 Loan to open-end investment company.

In response to a question regarding a possible loan by a bank to an open-end investment company that customarily purchases stocks registered on a national securities exchange, the Board stated that in view of the general nature and operations of such a company, any loan by a bank to such a company should be presumed to be subject to this part as a loan for the purpose of purchasing or carrying margin stock. This would not be altered by the fact that the open-end company had used, or proposed to use, its own funds or proceeds of the loan to redeem some of its own shares, since mere application of the proceeds of a loan to some other use cannot prevent the ultimate purpose of a loan from being to purchase or carry registered stocks.

§ 221.110 Questions arising under this part.

(a) This part governs “any purpose credit” extended by a lender “secured directly or indirectly by margin stock” and defines “purpose credit” as “any credit for the purpose, whether immediate, incidental, or ultimate, of buying or carrying margin stock,” with certain exceptions, and provides that the maximum loan value of such margin stock shall be a fixed percentage “of its current market value.”

(b) The Board of Governors has had occasion to consider the application of the language in paragraph (a) of this section to the two following questions:

(1) Loan secured by stock. First, is a loan to purchase or carry margin stock subject to this part where made in unsecured form, if margin stock is subsequently deposited as security with the lender, and surrounding circumstances indicate that the parties originally contemplated that the loan should be so secured? The Board answered that in a case of this kind, the loan would be subject to this part, for the following reasons:

(i) The Board has long held, in the closely related purpose area, that the original purpose of a loan should not be determined upon a narrow analysis of the technical circumstances under which a loan is made. Instead, the fundamental purpose of the loan is considered to be controlling. Indeed, “the fact that a loan made on the borrower’s signature only, for example, becomes secured by registered stock shortly after the disbursement of the loan” affords reasonable grounds for questioning whether the bank was entitled to rely upon the borrower’s statement to the purpose of the loan. 1953 Fed. Res. Bull. 951 (See, § 221.106).

(ii) Where security is involved, standards of interpretation should be equally searching. If, for example, the original agreement between borrower and lender contemplated that the loan should be secured by margin stock, and such stock is in fact delivered to the bank when available, the transaction must be regarded as fundamentally a secured loan. This view is strengthened by the fact that this part applies to a loan “secured directly or indirectly by margin stock.”

(2) Loan to acquire controlling shares. The second question is whether this part governs a margin stock-secured loan made for the business purpose of purchasing a controlling interest in a corporation, or whether such a loan would be exempt on the ground that this part is directed solely toward purchases of stock for speculative or investment purposes. The Board answered that a margin stock-secured loan for the purpose of purchasing or carrying margin stock is subject to this part, regardless of the reason for which the purchase is made.

(ii) The answer is required, in the Board’s view, since the language of this part is explicitly inclusive, covering “any purpose credit, secured directly or indirectly by margin stock.” Moreover, the withdrawal in 1945 of the original section 2(e) of this part, which exempted “any loan for the purpose of purchasing a stock from or through a person who is not a member of a national securities exchange . . .” plainly
implies that transactions of the sort described are now subject to the general prohibition of §221.3(a).

§ 221.111 Contribution to joint venture as extension of credit when the contribution is disproportionate to the contributor's share in the venture's profits or losses.

(a) The Board considered the question whether a joint venture, structured so that the amount of capital contribution to the venture would be disproportionate to the right of participation in profits or losses, constitutes an “extension of credit” for the purpose of this part.

(b) An individual and a corporation plan to establish a joint venture to engage in the business of buying and selling securities, including margin stock. The individual would contribute 20 percent of the capital and receive 80 percent of the profits or losses; the corporate share would be the reverse. In computing profits or losses, each participant would first receive interest at the rate of 8 percent on his respective capital contribution. Although purchases and sales would be mutually agreed upon, the corporation could liquidate the joint portfolio if the individual’s share of the losses equaled or exceeded his 20 percent contribution to the venture. The corporation would hold the securities, and upon termination of the venture, the assets would first be applied to repayment of capital contributions.

(c) In general, the relationship of joint venture is created when two or more persons combine their money, property, or time in the conduct of some particular line of trade or some particular business and agree to share jointly, or in proportion to capital contributed, the profits and losses of the undertaking.

(d) The incidents of the joint venture described in paragraph (b) of this section, however, closely parallel those of an extension of margin credit, with the corporation as lender and the individual as borrower. The corporation supplies 80 percent of the purchase price of securities in exchange for a net return of 8 percent of the amount advanced plus 20 percent of any gain. Like a lender of securities credit, the corporation is insulated against loss by retaining the right to liquidate the collateral before the securities decline in price below the amount of its contribution. Conversely, the individual—like a customer who borrows to purchase securities—puts up only 20 percent of their cost, is entitled to the principal portion of any appreciation in their value, bears the principal risk of loss should that value decline, and does not stand to gain or lose except through a change in value of the securities purchased.

(e) The Board is of the opinion that where the right of an individual to share in profits and losses of such a joint venture is disproportionate to his contribution to the venture:

(1) The joint venture involves an extension of credit by the corporation to the individual;

(2) The extension of credit is to purchase or carry margin stock, and is collateralized by such margin stock; and

(3) If the corporation is not a broker or dealer subject to Regulation T (12 CFR part 220), the credit is of the kind described by §221.3(a).

§ 221.112 Loans by bank in capacity as trustee.

(a) The Board’s advice has been requested whether a bank’s activities in connection with the administration of an employees’ savings plan are subject to this part.

(b) Under the plan, any regular, full-time employee may participate by authorizing the sponsoring company to deduct a percentage of his salary and wages and transmit the same to the bank as trustee. Voluntary contributions by the company are allocated among the participants. A participant may direct that funds held for him be invested by the trustee in insurance, annuity contracts, Series E Bonds, or in one or more of three specified securities which are listed on a stock exchange. Loans to purchase the stocks may be made to participants from funds of the trust, subject to approval of the administrative committee, which is composed of five participants, and of the trustee. The bank’s right to approve is said to be restricted to the
§ 221.113 Loan which is secured indirectly by stock.

(a) A question has been presented to the Board as to whether a loan by a bank to a mutual investment fund is “secured * * * indirectly by margin stock” within the meaning of §221.3(a), so that the loan should be treated as subject to this part.

(b) Briefly, the facts are as follows. Fund X, an open-end investment company, entered into a loan agreement with Bank Y, which was (and still is) custodian of the securities which comprise the portfolio of Fund X. The agreement includes the following terms, which are material to the question before the Board:

1. Fund X agrees to have an “asset coverage” (as defined in the agreements) of 400 percent of all its borrowings, including the proposed borrowing, at the time when it takes down any part of the loan.

2. Fund X agrees to maintain an “asset coverage” of at least 300 percent of its borrowings at all times.

3. Fund X agrees not to amend its custody agreement with Bank Y, or to substitute another custodian without Bank Y’s consent.

4. Fund X agrees not to mortgage, pledge, or otherwise encumber any of its assets elsewhere than with Bank Y.

(c) In §221.109 the Board stated that because of “the general nature and operations of such a company”, any “loan by a bank to an open-end investment company that customarily purchases margin stock * * * should be presumed to be subject to this part as a loan for the purpose of purchasing or carrying margin stock” (purpose credit). The Board’s interpretation went on to say that: “this would not be altered by the fact that the open-end company had used, or proposed to use, its own funds or proceeds of the loan to redeem some of its own shares * * *.”

(d) Accordingly, the loan by Bank Y to Fund X was and is a “purpose credit”. However, a loan by a bank is not subject to this part unless: it is a purpose credit; and it is “secured directly or indirectly by margin stock”. In the present case, the loan is not “secured directly” by stock in the ordinary sense, since the portfolio of Fund X is not pledged to secure the credit from Bank Y. But the word “indirectly” must signify some form of security arrangement other than the “direct” security which arises from the ordinary “transaction that gives recourse against a particular chattel or land or against a third party on an obligation” described in the American Law Institute’s Restatement of the Law of Security, page 1. Otherwise the word “indirectly” would be superfluous, and a regulation, like a statute, must be construed if possible to give meaning to every word.
(e) The Board has indicated its view that any arrangement under which margin stock is more readily available as security to the lending bank than to other creditors of the borrower may amount to indirect security within the meaning of this part. In an interpretation published at §221.110 it stated: “The Board has long held, in the * * * purpose area, that the original purpose of a loan should not be determined upon a narrow analysis of the technical circumstances under which a loan is made * * * Where security is involved, standards of interpretation should be equally searching.” In its pamphlet issued for the benefit and guidance of banks and bank examiners, entitled “Questions and Answers Illustrating Application of Regulation U”, the Board said: “In determining whether a loan is “indirectly” secured, it should be borne in mind that the reason the Board has thus far refrained * * * from regulating loans not secured by stock has been to simplify operations under the regulation. This objective of simplifying operations does not apply to loans in which arrangements are made to retain the substance of stock collateral while sacrificing only the form”.

(f) A wide variety of arrangements as to collateral can be made between bank and borrower which will serve, to some extent, to protect the interest of the bank in seeing that the loan is repaid, without giving the bank a conventional direct “security” interest in the collateral. Among such arrangements which have come to the Board’s attention are the following:

(1) The borrower may deposit margin stock in the custody of the bank. An arrangement of this kind may not, it is true, place the bank in the position of a secured creditor in case of bankruptcy, or even of conflicting claims, but it is likely effectively to strengthen the bank’s position. The definition of indirectly secured in §221.2, which provides that a loan is not indirectly secured if the lender “holds the margin stock only in the capacity of custodian, depositary or trustee, or under similar circumstances, and, in good faith has not relied upon the margin stock as collateral,” does not exempt a deposit of this kind from the impact of the regulation unless it is clear that the bank “has not relied” upon the margin stock deposited with it.

(2) A borrower may not deposit his margin stock with the bank, but agree not to pledge or encumber his assets elsewhere while the loan is outstanding. Such an agreement may be difficult to police, yet it serves to some extent to protect the interest of the bank if only because the future credit standing and business reputation of the borrower will depend upon his keeping his word. If the assets covered by such an agreement include margin stock, then, the credit is “indirectly secured” by the margin stock within the meaning of this part.

(3) The borrower may deposit margin stock with a third party who agrees to hold the stock until the loan has been paid off. Here, even though the parties may purport to provide that the stock is not “security” for the loan (for example, by agreeing that the stock may not be sold and the proceeds applied to the debt if the borrower fails to pay), the mere fact that the stock is out of the borrower’s control for the duration of the loan serves to some extent to protect the bank.

(g) The three instances described in paragraph (f) of this section are merely illustrative. Other methods, or combinations of methods, may serve a similar purpose. The conclusion that any given arrangement makes a credit “indirectly secured” by margin stock may, but need not, be reinforced by facts such as that the stock in question was purchased with proceeds of the loan, that the lender suggests or insists upon the arrangement, or that the loan would probably be subject to criticism by supervisory authorities were it not for the protective arrangement.

(h) Accordingly, the Board concludes that the loan by Bank Y to Fund X is indirectly secured by the portfolio of the fund and must be treated by the bank as a regulated loan.

§ 221.114 Bank loans to purchase stock of American Telephone and Telegraph Company under Employees’ Stock Plan.

(a) The Board of Governors interpreted this part in connection with proposed loans by a bank to persons who are purchasing shares of stock of
§ 221.115 Accepting a purpose statement through the mail without benefit of face-to-face interview.

(a) The Board has been asked whether the acceptance of a purpose statement submitted through the mail by a lender subject to the provisions of this part will meet the good faith requirement of §221.3(c). Section 221.3(c) states that in connection with any credit secured by collateral which includes any margin stock, a nonbank lender must obtain a purpose statement executed by the borrower and accepted by the lender in good faith. Such acceptance requires that the lender be alert to the circumstances surrounding the credit and if further information suggests inquiry, he must investigate and be satisfied that the statement is truthful.

(b) The lender is a subsidiary of a holding company which also has another subsidiary which serves as underwriter and investment advisor to various mutual funds. The sole business of the lender will be to make “non-purpose” consumer loans to shareholders of the mutual funds, such loans to be collateralized by the fund shares. Most mutual funds shares are margin stock for purposes of this part. Solicitation and acceptance of these consumer loans will be done principally through the mail and the lender wishes to obtain the required purpose statement by mail rather than by a face-to-face interview. Personal interviews are not practicable for the lender because shareholders of the funds are scattered throughout the country. In order to
provide the same safeguards inherent in face-to-face interviews, the lender has developed certain procedures designed to satisfy the good faith acceptance requirement of this part.

(c) The purpose statement will be supplemented with several additional questions relevant to the prospective borrower’s investment activities such as purchases of any security within the last 6 months, dollar amount, and obligations to purchase or pay for previous purchases; present plans to purchase securities in the near future, participations in securities purchase plans, list of unpaid debts, and present income level. Some questions have been modified to facilitate understanding but no questions have been deleted. If additional inquiry is indicated by the answers on the form, a loan officer of the lender will interview the borrower by telephone to make sure the loan is “non-purpose”. Whenever the loan exceeds the “maximum loan value” of the collateral for a regulated loan, a telephone interview will be done as a matter of course.

(d) One of the stated purposes of Regulation X (12 CFR part 224) was to prevent the infusion of unregulated credit into the securities markets by borrowers falsely certifying the purpose of a loan. The Board is of the view that the existence of Regulation X (12 CFR part 224), which makes the borrower liable for willful violations of the margin regulations, will allow a lender subject to this part to meet the good faith acceptance requirement of §221.3(c) without a face-to-face interview if the lender adopts a program, such as the one described in paragraph (c) of this section, which requires additional detailed information from the borrower and proper procedures are instituted to verify the truth of the information received. Lenders intending to embark on a similar program should discuss proposed plans with their district Federal Reserve Bank. Lenders may have existing or future loans with the prospective customers which could complicate the efforts to determine the true purpose of the loan.

§221.116 Bank loans to replenish working capital used to purchase mutual fund shares.

(a) In a situation considered by the Board of Governors, a business concern (X) proposed to purchase mutual fund shares, from time to time, with proceeds from its accounts receivable, then pledge the shares with a bank in order to secure working capital. The bank was prepared to lend amounts equal to 70 percent of the current value of the shares as they were purchased by X. If the loans were subject to this part, only 50 percent of the current market value of the shares could be lent.

(b) The immediate purpose of the loans would be to replenish X’s working capital. However, as time went on, X would be acquiring mutual fund shares at a cost that would exceed the net earnings it would normally have accumulated, and would become indebted to the lending bank in an amount approximately 70 percent of the prices of said shares.

(c) The Board held that the loans were for the purpose of purchasing the shares, and therefore subject to the limitations prescribed by this part. As pointed out in §221.114 with respect to a similar program for putting a high proportion of cash income into stock, the borrowing against the margin stock to meet needs for which the cash would otherwise have been required, a contrary conclusion could largely defeat the basic purpose of the margin regulations.

(d) Also considered was an alternative proposal under which X would deposit proceeds from accounts receivable in a time account for 1 year, before using those funds to purchase mutual fund shares. The Board held that this procedure would not change the situation in any significant way. Once the arrangement was established, the proceeds would be flowing into the time account at the same time that similar amounts were released to purchase the shares, and over any extended period of time the result would be the same. Accordingly, the Board concluded that bank loans made under the alternative proposal would similarly be subject to this part.
§ 221.117 When bank in “good faith” has not relied on stock as collateral.

(a) The Board has received questions regarding the circumstances in which an extension or maintenance of credit will not be deemed to be “indirectly secured” by stock as indicated by the phrase, “if the lender, in good faith, has not relied upon the margin stock as collateral,” contained in paragraph (2)(iv) of the definition of indirectly secured in § 221.2.

(b) In response, the Board noted that in amending this portion of the regulation in 1968 it was indicated that one of the purposes of the change was to make clear that the definition of indirectly secured does not apply to certain routine negative covenants in loan agreements. Also, while the question of whether or not a bank has relied upon particular stock as collateral is necessarily a question of fact to be determined in each case in the light of all relevant circumstances, some indication that the bank had not relied upon stock as collateral would seem to be afforded by such circumstances as the fact that:

1. The bank had obtained a reasonably current financial statement of the borrower and this statement could reasonably support the loan; and

2. The loan was not payable on demand or because of fluctuations in market value of the stock, but instead was payable on one or more fixed maturities which were typical of maturities applied by the bank to loans otherwise similar except for not involving any possible question of stock collateral.

§ 221.118 Bank arranging for extension of credit by corporation.

(a) The Board considered the questions whether:

1. The guaranty by a corporation of an “unsecured” bank loan to exercise an option to purchase stock of the corporation is an “extension of credit” for the purpose of this part;

2. Such a guaranty is given “in the ordinary course of business” of the corporation, as defined in § 221.2; and

3. The bank involved took part in arranging for such credit on better terms than it could extend under the provisions of this part.

(b) The Board understood that any officer or employee included under the corporation’s stock option plan who wished to exercise his option could obtain a loan for the purchase price of the stock by executing an unsecured note to the bank. The corporation would issue to the bank a guaranty of the loan and hold the purchased shares as collateral to secure it against loss on the guaranty. Stock of the corporation is registered on a national securities exchange and therefore qualifies as “margin stock” under this part.

(c) A nonbank lender is subject to the registration and other requirements of this part if, in the ordinary course of his business, he extends credit on collateral that includes any margin stock in the amount of $200,000 or more in any calendar quarter, or has such credit outstanding in any calendar quarter in the amount of $500,000 or more. The Board understood that the corporation in question had sufficient guaranties outstanding during the applicable calendar quarter to meet the dollar thresholds for registration.

(d) In the Board’s judgment a person who guarantees a loan, and thereby becomes liable for the amount of the loan in the event the borrower should default, is lending his credit to the borrower. In the circumstances described, such a lending of credit must be considered an “extension of credit” under this part in order to prevent circumvention of the regulation’s limitation on the amount of credit that can be extended on the security of margin stock.

(e) Under § 221.2, the term in the ordinary course of business means “occurring or reasonably expected to occur in carrying out or furthering any business purpose.” In general, stock option plans are designed to provide a company’s employees with a proprietary interest in the company in the form of ownership of the company’s stock. Such plans increase the company’s ability to attract and retain able personnel and, accordingly, promote the interest of the company and its stockholders, while at the same time providing the company’s employees with additional incentive to work toward
the company’s future success. An arrangement whereby participating employees may finance the exercise of their options through an unsecured bank loan guaranteed by the company, thereby facilitating the employees’ acquisition of company stock, is likewise designed to promote the company’s interest and is, therefore, in furtherance of a business purpose.

(f) For the reasons indicated, the Board concluded that under the circumstances described a guaranty by the corporation constitutes credit extended in the ordinary course of business under this part, that the corporation is required to register pursuant to §221.3(b), and that such guaranties may not be given in excess of the maximum loan value of the collateral pledged to secure the guaranty.

(g) Section 221.3(a)(3) provides that “no lender may arrange for the extension or maintenance of any purpose credit, except upon the same terms and conditions on which the lender itself may extend or maintain purpose credit under this part”. Since the Board concluded that the giving of a guaranty by the corporation to secure the loan described above constitutes an extension of credit, and since the use of a guaranty in the manner described could not be effectuated without the concurrence of the bank involved, the Board further concluded that the fact that option and credit are provided for in separate documents is immaterial. It should be emphasized that the Board does not express any view on the preferability of qualified as opposed to nonqualified options; its role is merely to prevent excessive credit in this area.

(c) Section 221.4(a) provides that a plan-lender may include a wholly-owned subsidiary of the issuer of the collateral (taking as a whole, corporate groups including subsidiaries and affiliates). This clarifies the Board’s intent that, to qualify for special treatment under that section, the lender must stand in a special employer-employee relationship with the borrower, and a special relationship of issuer with regard to the collateral. The fact that the Board, for convenience and practical reasons, permitted the employing corporation to act through a subsidiary or other entity should not be interpreted to mean the Board intended the lender to be other than an entity whose overriding interests were coextensive with the issuer. An independent corporation, with independent interests was never intended, regardless of form, to be at the base of exempt stock-plan lending.

$\text{§}221.120$ Allocation of stock collateral to purpose and nonpurpose credits to same customer.

(a) A bank proposes to extend two credits (Credits A and B) to its customer. Although the two credits are proposed to be extended at the same time, each would be evidenced by a separate agreement. Credit A would be extended for the purpose of providing the customer with working capital (nonpurpose credit), collateralized by margin stock. Credit B would be extended for the purpose of purchasing or carrying margin stock (purpose credit), without collateral or on collateral other than stock.

(b) This part allows a bank to extend purpose and nonpurpose credits simultaneously or successively to the same customer. This rule is expressed in §221.3(d)(4) which provides in substance that for any nonpurpose credit to the same customer, the lender shall in good faith require as much collateral...
not already identified to the customer’s purpose credit as the lender would require if it held neither the purpose loan nor the identified collateral. This rule in §221.3(d)(4) also takes into account that the lender would not necessarily be required to hold collateral for the nonpurpose credit if, consistent with good banking practices, it would normally make this kind of nonpurpose loan without collateral.

(c) The Board views §221.3(d)(4), when read in conjunction with §221.3(c) and (f), as requiring that whenever a lender extends two credits to the same customer, one a purpose credit and the other nonpurpose, any margin stock collateral must first be identified with and attributed to the purpose loan by taking into account the maximum loan value of such collateral as prescribed in §221.7 (the Supplement).

(d) The Board is further of the opinion that under the foregoing circumstances Credit B would be indirectly secured by stock, despite the fact that there would be separate loan agreements for both credits. This conclusion flows from the circumstance that the lender would hold in its possession stock collateral to which it would have access with respect to Credit B, despite any ostensible allocation of such collateral to Credit A.

§221.121 Extension of credit in certain stock option and stock purchase plans.

Questions have been raised as to whether certain stock option and stock purchase plans involve extensions of credit subject to this part when the participant is free to cancel his participation at any time prior to full payment, but in the event of cancellation the participant remains liable for damages. It thus appears that the participant has the opportunity to gain and bears the risk of loss from the time the transaction is executed and payment is deferred. In some cases brought to the Board’s attention damages are related to the market price of the stock, but in others, there may be no such relationship. In either of these circumstances, it is the Board’s view that such plans involve extensions of credit. Accordingly, where the security being purchased is a margin security and the credit is secured, directly or indirectly, by any margin security, the creditor must register and the credit must conform with either the regular margin requirements of §221.3(a) or the special “plan-lender” provisions set forth in §221.4, whichever is applicable. This assumes, of course, that the amount of credit extended is such that the creditor is subject to the registration requirements of §221.3(b).

§221.122 Applicability of margin requirements to credit in connection with Insurance Premium Funding Programs.

(a) The Board has been asked numerous questions regarding purpose credit in connection with insurance premium funding programs. The inquiries are included in a set of guidelines in the format of questions and answers. (The guidelines are available pursuant to the Board’s Rules Regarding Availability of Information, 12 CFR part 261.) A glossary of terms customarily used in connection with insurance premium funding credit activities is included in the guidelines. Under a typical insurance premium funding program, a borrower acquires mutual fund shares for cash, or takes fund shares which he already owns, and then uses the loan value (currently 50 percent as set by the Board) to buy insurance. Usually, a funding company (the issuer) will sell both the fund shares and the insurance through either independent broker/dealers or subsidiaries or affiliates of the issuer. A typical plan may run for 10 or 15 years with annual insurance premiums due. To illustrate, assuming an annual insurance premium of $300, the participant is required to put up mutual fund shares equivalent to 250 percent of the premium or $600 ($600 × 50 percent loan value equals $300 the amount of the insurance premium which is also the amount of the credit extended).

(b) The guidelines referenced in paragraph (a) of this section also:

(1) Clarify an earlier 1969 Board interpretation to show that the public offering price of mutual fund shares (which includes the front load, or sales commission) may be used as a measure of their current market value when the shares serve as collateral on a purpose
credit throughout the day of the purchase of the fund shares; and
(2) Relax a 1965 Board position in connection with accepting purpose statements by mail.
(c) It is the Board’s view that when it is clearly established that a purpose statement supports a purpose credit then such statement executed by the borrower may be accepted by mail, provided it is received and also executed by the lender before the credit is extended.

§ 221.123 Combined credit for exercising employee stock options and paying income taxes incurred as a result of such exercise.

(a) Section 221.4(a) and (b), which provides special treatment for credit extended under employee stock option plans, was designed to encourage their use in recognition of their value in giving an employee a proprietary interest in the business. Taking a position that might discourage the exercise of options because of tax complications would conflict with the purpose of § 221.4(a) and (b).

(b) Accordingly, the Board has concluded that the combined loans for the exercise of the option and the payment of the taxes in connection therewith under plans complying with § 221.4(a)(2) may be regarded as purpose credit within the meaning of § 221.2.

§ 221.124 Purchase of debt securities to finance corporate takeovers.

(a) Petitions have been filed with the Board raising questions as to whether the margin requirements in this part apply to two types of corporate acquisitions in which debt securities are issued to finance the acquisition of margin stock of a target company.

(b) In the first situation, the acquiring company, Company A, controls a shell corporation that would make a tender offer for the stock of Company B, which is margin stock (as defined in § 221.2). The shell corporation has virtually no operations, has no significant business function other than to acquire and hold the stock of Company B, and has substantially no assets other than the margin stock to be acquired. To finance the tender offer, the shell corporation would issue debt securities which, by their terms, would be unsecured. If the tender offer is successful, the shell corporation would seek to merge with Company B. However, the tender offer seeks to acquire fewer shares of Company B than is necessary under state law to effect a short form merger with Company B, which could be consummated without the approval of shareholders or the board of directors of Company B.

(c) The purchase of the debt securities issued by the shell corporation to finance the acquisition clearly involves purpose credit (as defined in § 221.2). In addition, such debt securities would be purchased only by sophisticated investors in very large minimum denominations, so that the purchasers may be lenders for purposes of this part. See § 221.3(b). Since the debt securities contain no direct security agreement involving the margin stock, applicability of the lending restrictions of this part turns on whether the arrangement constitutes an extension of credit that is secured indirectly by margin stock.

(d) As the Board has recognized, indirect security can encompass a wide variety of arrangements between lenders and borrowers with respect to margin stock collateral that serve to protect the lenders’ interest in assuring that a credit is repaid where the lenders do not have a conventional direct security interest in the collateral. See § 221.124. However, credit is not “indirectly secured” by margin stock if the lender in good faith has not relied on the margin stock as collateral extending or maintaining credit. See § 221.2.

(e) The Board is of the view that, in the situation described in paragraph (b) of this section, the debt securities would be presumed to be indirectly secured by the margin stock to be acquired by the shell acquisition vehicle. The staff has previously expressed the view that nominally unsecured credit extended to an investment company, a substantial portion of whose assets consist of margin stock, is indirectly secured by the margin stock. See Federal Reserve Regulatory Service 5–917.12. (See 12 CFR 261.10(f) for information on how to obtain Board publications.) This opinion notes that the investment company has substantially no assets other than margin stock to
support indebtedness and thus credit could not be extended to such a company in good faith without reliance on the margin stock as collateral.

(f) The Board believes that this rationale applies to the debt securities issued by the shell corporation described in paragraph (b) of this section. At the time the debt securities are issued, the shell corporation has substantially no assets to support the credit other than the margin stock that it has acquired or intends to acquire and has no significant business function other than to hold the stock of the target company in order to facilitate the acquisition. Moreover, it is possible that the shell may hold the margin stock for a significant and indefinite period of time, if defensive measures by the target prevent consummation of the acquisition. Because of the difficulty in predicting the outcome of a contested takeover at the time that credit is committed to the shell corporation, the Board believes that the purchasers of the debt securities could not, in good faith, lend without reliance on the margin stock as collateral. The presumption that the debt securities are indirectly secured by margin stock would not apply if there is specific evidence that lenders could in good faith rely on assets other than margin stock as collateral, such as a guaranty of the debt securities by the shell corporation’s parent company or another company that has substantial non-margin stock assets or cash flow. This presumption would also not apply if there is a merger agreement between the acquiring and target companies entered into at the time the commitment is made to purchase the debt securities or in any event before loan funds are advanced. In addition, the presumption would not apply if the obligation of the purchasers of the debt securities to advance funds to the shell corporation is contingent on the shell’s acquisition of the minimum number of shares necessary under applicable state law to effect a merger between the acquiring and target companies without the approval of either the shareholders or directors of the target company. In these two situations where the merger will take place promptly, the Board believes the lenders could reasonably be presumed to be relying on the assets of the target for repayment.

(g) In addition, the Board is of the view that the debt securities described in paragraph (b) of this section are indirectly secured by margin stock because there is a practical restriction on the ability of the shell corporation to dispose of the margin stock of the target company. Indirectly secured is defined in §221.2 to include any arrangement under which the customer’s right or ability to sell, pledge, or otherwise dispose of margin stock owned by the customer is in any way restricted while the credit remains outstanding. The purchasers of the debt securities issued by a shell corporation to finance a takeover attempt clearly understand that the shell corporation intends to acquire the margin stock of the target company in order to effect the acquisition of that company. This understanding represents a practical restriction on the ability of the shell corporation to dispose of the target’s margin stock and to acquire other assets with the proceeds of the credit.

(h) In the second situation, Company C, an operating company with substantial assets or cash flow, seeks to acquire Company D, which is significantly larger than Company C. Company C establishes a shell corporation that together with Company C makes a tender offer for the shares of Company D, which is margin stock. To finance the tender offer, the shell corporation would obtain a bank loan that complies with the margin lending restrictions of this part and Company C would issue debt securities that would not be directly secured by any margin stock. The Board is of the opinion that these debt securities should not be presumed to be indirectly secured by the margin stock of Company D, since, as an operating business, Company C has substantial assets or cash flow without regard to the margin stock of Company D. Any presumption would not be appropriate because the purchasers of the debt securities may be relying on assets other than margin stock of Company D for repayment of the credit.
§ 221.125 Credit to brokers and dealers.

(a) The National Securities Markets Improvement Act of 1996 (Pub. L. 104–290, 110 Stat. 3416) restricts the Board’s margin authority by repealing section 8(a) of the Securities Exchange Act of 1934 (the Exchange Act) and amending section 7 of the Exchange Act (15 U.S.C. 78g) to exclude the borrowing by a member of a national securities exchange or a registered broker or dealer “a substantial portion of whose business consists of transactions with persons other than brokers or dealers” and borrowing by a member of a national securities exchange or a registered broker or dealer to finance its activities as a market maker or an underwriter. Notwithstanding this exclusion, the Board may impose such rules and regulations if it determines they are “necessary or appropriate in the public interest or for the protection of investors.”

(b) The Board has not found that it is necessary or appropriate in the public interest or for the protection of investors to impose rules and regulations regarding loans to brokers and dealers covered by the National Securities Markets Improvement Act of 1996.
Subpart A—General Provisions

§ 222.1 Purpose, scope, and effective dates.

(a) Purpose. The purpose of this part is to implement the Fair Credit Reporting Act. This part generally applies to persons that obtain and use information about consumers to determine the consumer’s eligibility for products, services, or employment, share such information among affiliates, and furnish information to consumer reporting agencies.

(b) Scope.

(1) [Reserved]

(2) Institutions covered. (i) Except as otherwise provided in this part, the regulations in this part apply to banks that are members of the Federal Reserve System (other than national banks) and their respective operating subsidiaries that are not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1844(c)(5)), branches and Agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.), and bank holding companies and affiliates of such holding companies, but do not apply to affiliates of bank holding companies that are depository institutions regulated by another federal banking agency or to consumer reporting agencies.

(ii) For purposes of appendix B to this part, financial institutions as defined in section 509 of the Gramm-Leach-Bliley Act (12 U.S.C. 6809), may use the model notices in appendix B to this part to comply with the notice requirement in section 623(a)(7) of the Fair Credit Reporting Act (15 U.S.C. 1681s-2(a)(7)).

(3) Effective dates. The applicable provisions of the Fair and Accurate Credit Transactions Act of 2003 (FACT Act), Pub. L. 108–159, 117 Stat. 1952, shall be effective in accordance with the following schedule:

(i) Provisions effective December 31, 2003. (1) Sections 151(a)(2), 212(e), 214(c), 311(b), and 711, concerning the relation to state laws; and

(ii) Each of the provisions of the FACT Act that authorizes an agency to issue a regulation or to take other action to implement the applicable provision of the FACT Act or the applicable provision of the Fair Credit Reporting Act, as amended by the FACT Act, but only with respect to that agency’s authority to propose and adopt the implementing regulation or to take such other action.

(i) Section 111, concerning the definitions;

(ii) Section 156, concerning the statute of limitations;

(iii) Sections 312(d), (e), and (f), concerning the furnisher liability exception, liability and enforcement, and rule of construction, respectively;

(iv) Section 313(a), concerning action regarding complaints;

(v) Section 611, concerning communications for certain employee investigations; and

(vi) Section 811, concerning clerical amendments.

(i) Section 112, concerning fraud alerts and active duty alerts;

(ii) Section 114, concerning procedures for the identification of possible instances of identity theft;

(iii) Section 115, concerning truncation of the social security number in a consumer report;

(iv) Section 151(a)(1), concerning the summary of rights of identity theft victims;

(v) Section 152, concerning blocking of information resulting from identity theft;

(vi) Section 153, concerning the coordination of identity theft complaint investigations;

(vii) Section 154, concerning the prevention of repollution of consumer reports;
(viii) Section 155, concerning notice by debt collectors with respect to fraudulent information;
(ix) Section 211(c), concerning a summary of rights of consumers;
(x) Section 212(a)–(d), concerning the disclosure of credit scores;
(xi) Section 213(c), concerning enhanced disclosure of the means available to opt out of prescreened lists;
(xii) Section 217(a), concerning the duty to provide notice to a consumer;
(xiii) Section 311(a), concerning the risk-based pricing notice;
(xiv) Section 312(a)–(c), concerning procedures to enhance the accuracy and integrity of information furnished to consumer reporting agencies;
(xv) Section 314, concerning improved disclosure of the results of reinvestigation;
(xvi) Section 315, concerning reconciling addresses;
(xvii) Section 316, concerning notice of dispute through reseller; and
(xviii) Section 317, concerning the duty to conduct a reasonable reinvestigation.

§ 222.3 Definitions.

For purposes of this part, unless explicitly stated otherwise:
(a) Act means the Fair Credit Reporting Act (15 U.S.C. 1681 et seq.).
(b) Affiliate means any company that is related by common ownership or common corporate control with another company.
(c) [Reserved]
(d) Company means any corporation, limited liability company, business trust, general or limited partnership, association, or similar organization.
(e) Consumer means an individual.
(f)–(h) [Reserved]
(i) Common ownership or common corporate control means a relationship between two companies under which:
(1) One company has, with respect to the other company:
(ii) Ownership, control, or power to vote 25 percent or more of the outstanding shares of any class of voting security of a company, directly or indirectly, or acting through one or more other persons;
(iii) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of a company; or
(iv) The power to exercise, directly or indirectly, a controlling influence over the management or policies of a company, as the Board determines; or
(2) Any other person has, with respect to both companies, a relationship described in paragraphs (i)(1)(i) through (i)(1)(iii) of this section.
(j) [Reserved]
(k) Medical information means:
(1) Information or data, whether oral or recorded, in any form or medium, created by or derived from a health care provider or the consumer, that relates to:
(i) The past, present, or future physical, mental, or behavioral health or condition of an individual;
(ii) The provision of health care to an individual; or
(iii) The payment for the provision of health care to an individual.
(2) The term does not include:
(i) The age or gender of a consumer;
(ii) Demographic information about the consumer, including a consumer’s residence address or e-mail address;
(iii) Any other information about a consumer that does not relate to the physical, mental, or behavioral health or condition of a consumer, including the existence or value of any insurance policy; or
(iv) Information that does not identify a specific consumer.
(l) Person means any individual, partnership, corporation, trust, estate cooperative, association, government or governmental subdivision or agency, or other entity.

(Reg. V, 70 FR 70678, Nov. 22, 2005, as amended at 72 FR 63756, Nov. 9, 2007)
§ 222.20 Coverage and definitions.

(a) Coverage. Subpart C of this part applies to member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries that are not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1844(c)(5)), branches and Agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) Definitions. For purposes of this subpart:

(1) Clear and conspicuous. The term "clear and conspicuous" means reasonably understandable and designed to call attention to the nature and significance of the information presented.

(2) Concise—(i) In general. The term "concise" means a reasonably brief expression or statement.

(ii) Combination with other required disclosures. A notice required by this subpart may be concise even if it is combined with other disclosures required or authorized by federal or state law.

(3) Eligibility information. The term "eligibility information" means any information the communication of which would be a consumer report if the exclusions from the definition of "consumer report" in section 603(d)(2)(A) of the Act did not apply. Eligibility information does not include aggregate or blind data that does not contain personal identifiers such as account numbers, names, or addresses.

(4) Pre-existing business relationship—(i) In general. The term "pre-existing business relationship" means a relationship between a person, or a person's licensed agent, and a consumer based on—

(A) A financial contract between the person and the consumer which is in force on the date on which the consumer is sent a solicitation covered by this subpart;

(B) The purchase, rental, or lease by the consumer of the person's goods or services, or a financial transaction (including holding an active account or a policy in force or having another continuing relationship) between the consumer and the person, during the 18-month period immediately preceding the date on which the consumer is sent a solicitation covered by this subpart; or

(C) An inquiry or application by the consumer regarding a product or service offered by that person during the three-month period immediately preceding the date on which the consumer is sent a solicitation covered by this subpart.

(ii) Examples of pre-existing business relationships. (A) If a consumer has a time deposit account, such as a certificate of deposit, at a depository institution that is currently in force, the depository institution has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services.

(B) If a consumer obtained a certificate of deposit from a depository institution, but did not renew the certificate at maturity, the depository institution has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services for 18 months after the date of maturity of the certificate of deposit.

(C) If a consumer obtains a mortgage, the mortgage lender has a pre-existing business relationship with the consumer. If the mortgage lender sells the consumer's entire loan to an investor, the mortgage lender has a pre-existing business relationship with the consumer and can use eligibility information it receives from its affiliates to make solicitations to the consumer about its products or services for 18 months after the date it sells the loan, and the investor has a pre-existing
business relationship with the consumer upon purchasing the loan. If, however, the mortgage lender sells a fractional interest in the consumer’s loan to an investor but also retains an ownership interest in the loan, the mortgage lender continues to have a pre-existing business relationship with the consumer, but the investor does not have a pre-existing business relationship with the consumer. If the mortgage lender retains ownership of the loan, but sells ownership of the servicing rights to the consumer’s loan, the mortgage lender continues to have a pre-existing business relationship with the consumer. The purchaser of the servicing rights also has a pre-existing business relationship with the consumer as of the date it purchases ownership of the servicing rights, but only if it collects payments from or otherwise deals directly with the consumer on a continuing basis. 

(D) If a consumer applies to a depository institution for a product or service that it offers, but does not obtain a product or service from or enter into a financial contract or transaction with the institution, the depository institution has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services for three months after the date of the application.

(E) If a consumer makes a telephone inquiry to a depository institution about its products or services and provides contact information to the institution, but does not obtain a product or service from or enter into a financial contract or transaction with the institution, the depository institution has a pre-existing business relationship with the consumer and can therefore use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services for three months after the date of the inquiry.

(iii) Examples where no pre-existing business relationship is created. (A) If a consumer makes a telephone call to a centralized call center for a group of affiliated companies to inquire about the consumer’s existing account at a depository institution, the call does not constitute an inquiry to any affiliate other than the depository institution that holds the consumer’s account and does not establish a pre-existing business relationship between the consumer and any affiliate of the account-holding depository institution.

(B) If a consumer who has a deposit account with a depository institution makes a telephone call to an affiliate of the institution to ask about the affiliate’s retail locations and hours, but does not make an inquiry about the affiliate’s products or services, the call does not constitute an inquiry and does not establish a pre-existing business relationship between the consumer and the affiliate. Also, the affiliate’s capture of the consumer’s telephone number does not constitute an inquiry and does not establish a pre-existing business relationship between the consumer and the affiliate.
(C) If a consumer makes a telephone call to a depository institution in response to an advertisement that offers a free promotional item to consumers who call a toll-free number, but the advertisement does not indicate that the depository institution's products or services will be marketed to consumers who call in response, the call does not create a pre-existing business relationship between the consumer and the depository institution because the consumer has not made an inquiry about a product or service offered by the institution, but has merely responded to an offer for a free promotional item.

(5) Solicitation—(i) In general. The term “solicitation” means the marketing of a product or service initiated by a person to a particular consumer that is—
(A) Based on eligibility information communicated to that person by its affiliate as described in this subpart; and
(B) Intended to encourage the consumer to purchase or obtain such product or service.

(ii) Exclusion of marketing directed at the general public. A solicitation does not include marketing communications that are directed at the general public. For example, television, general circulation magazine, and billboard advertisements do not constitute solicitations, even if those communications are intended to encourage consumers to purchase products and services from the person initiating the communications.

(iii) Examples of solicitations. A solicitation would include, for example, a telemarketing call, direct mail, e-mail, or other form of marketing communication directed to a particular consumer that is based on eligibility information received from an affiliate.

(6) You means a person described in paragraph (a) of this section.

§ 222.21 Affiliate marketing opt-out and exceptions.

(a) Initial notice and opt-out requirement—(1) In general. You may not use eligibility information about a consumer that you receive from an affiliate to make a solicitation for marketing purposes to the consumer, unless—

(i) It is clearly and conspicuously disclosed to the consumer in writing or, if the consumer agrees, electronically, in a concise notice that you may use eligibility information about that consumer received from an affiliate to make solicitations for marketing purposes to the consumer;

(ii) The consumer is provided a reasonable opportunity and a reasonable and simple method to “opt out,” or prohibit you from using eligibility information to make solicitations for marketing purposes to the consumer; and

(iii) The consumer has not opted out.

(2) Example. A consumer has a homeowner’s insurance policy with an insurance company. The insurance company furnishes eligibility information about the consumer to its affiliated depository institution. Based on that eligibility information, the depository institution wants to make a solicitation to the consumer about its home equity loan products. The depository institution does not have a pre-existing business relationship with the consumer and none of the other exceptions apply. The depository institution is prohibited from using eligibility information received from its insurance affiliate to make solicitations to the consumer about its home equity loan products unless the consumer is given a notice and opportunity to opt out and the consumer does not opt out.

(3) Affiliates who may provide the notice. The notice required by this paragraph must be provided:

(i) By an affiliate that has or has previously had a pre-existing business relationship with the consumer; or

(ii) As part of a joint notice from two or more members of an affiliated group of companies, provided that at least one of the affiliates on the joint notice has or has previously had a pre-existing business relationship with the consumer.

(b) Making solicitations—(1) In general. For purposes of this subpart, you make a solicitation for marketing purposes if—

(i) You receive eligibility information from an affiliate;

(ii) You use that eligibility information to do one or more of the following:
(A) Identify the consumer or type of consumer to receive a solicitation;
(B) Establish criteria used to select the consumer to receive a solicitation; or
(C) Decide which of your products or services to market to the consumer or tailor your solicitation to that consumer; and
(iii) As a result of your use of the eligibility information, the consumer is provided a solicitation.
(2) Receiving eligibility information from an affiliate, including through a common database. You may receive eligibility information from an affiliate in various ways, including when the affiliate places that information into a common database that you may access.
(3) Receipt or use of eligibility information by your service provider. Except as provided in paragraph (b)(5) of this section, you receive or use an affiliate's eligibility information if a service provider acting on your behalf (whether an affiliate or a nonaffiliated third party) receives or uses an affiliate's eligibility information in the manner described in paragraphs (b)(1)(i) or (b)(1)(ii) of this section. All relevant facts and circumstances will determine whether a person is acting as your service provider when it receives or uses an affiliate's eligibility information in connection with marketing your products and services.
(4) Use by an affiliate of its own eligibility information. Unless you have used eligibility information that you receive from an affiliate in the manner described in paragraph (b)(1)(i) or (b)(1)(ii) of this section, you do not make a solicitation subject to this subpart if your affiliate:
(i) Uses its own eligibility information that it obtained in connection with a pre-existing business relationship it has or had with the consumer to market your products or services to the consumer; or
(ii) Directs its service provider to use the affiliate's own eligibility information that it obtained in connection with a pre-existing business relationship it has or had with the consumer to market your products or services to the consumer, and you do not communicate directly with the service provider regarding that use.
(5) Use of eligibility information by a service provider—(i) In general. You do not make a solicitation subject to Subpart C of this part if a service provider (including an affiliated or third-party service provider that maintains or accesses a common database that you may access) receives eligibility information from your affiliate that your affiliate obtained in connection with a pre-existing business relationship it has or had with the consumer and uses that eligibility information to market your products or services to the consumer, so long as—
(A) Your affiliate controls access to and use of its eligibility information by the service provider (including the right to establish the specific terms and conditions under which the service provider may use such information to market your products or services);
(B) Your affiliate establishes specific terms and conditions under which the service provider may access and use the affiliate's eligibility information to market your products and services (or those of affiliates generally) to the consumer, such as the identity of the affiliated companies whose products or services may be marketed to the consumer by the service provider, the types of products or services of affiliated companies that may be marketed, and the number of times the consumer may receive marketing materials, and periodically evaluates the service provider's compliance with those terms and conditions;
(C) Your affiliate requires the service provider to implement reasonable policies and procedures designed to ensure that the service provider uses the affiliate's eligibility information in accordance with the terms and conditions established by the affiliate relating to the marketing of your products or services;
(D) Your affiliate is identified on or with the marketing materials provided to the consumer; and
(E) You do not directly use your affiliate's eligibility information in the manner described in paragraph (b)(1)(ii) of this section.
(ii) Writing requirements. (A) The requirements of paragraphs (b)(5)(i)(A) and (C) of this section must be set forth in a written agreement between your affiliate and the service provider; and
(B) The specific terms and conditions established by your affiliate as provided in paragraph (b)(5)(i)(B) of this section must be set forth in writing.

(6) Examples of making solicitations. (i) A consumer has a deposit account with a depository institution, which is affiliated with an insurance company. The insurance company receives eligibility information about the consumer from the depository institution. The insurance company uses that eligibility information to identify the consumer to receive a solicitation about insurance products, and, as a result, the insurance company provides a solicitation to the consumer about its insurance products. Pursuant to paragraph (b)(1) of this section, the insurance company has made a solicitation to the consumer.

(ii) The same facts as in the example in paragraph (b)(6)(i) of this section, except that after using the eligibility information to identify the consumer to receive a solicitation about insurance products, the insurance company asks the depository institution to send the solicitation to the consumer and the depository institution does so. Pursuant to paragraph (b)(1) of this section, the insurance company has made a solicitation to the consumer.

(iii) The same facts as in the example in paragraph (b)(6)(i) of this section, except that after using the eligibility information to identify the consumer to receive a solicitation about insurance products, the insurance company asks the depository institution to send the solicitation to the consumer and the depository institution does so. Pursuant to paragraph (b)(1) of this section, the insurance company has made a solicitation to the consumer.

(iv) The same facts as in the example in paragraph (b)(6)(iii) of this section, except that the depository institution provides the insurance company’s criteria to the depository institution’s service provider and directs the service provider to use the depository institution’s eligibility information to identify depository institution consumers who meet the criteria and to send the insurance company’s marketing materials to those consumers. The insurance company does not communicate directly with the service provider regarding the use of the depository institution’s information to market its products to the depository institution’s consumers. Pursuant to paragraph (b)(4)(ii) of this section, the insurance company has not made a solicitation to the consumer.

(v) An affiliated group of companies includes a depository institution, an insurance company, and a service provider. Each affiliate in the group places information about its consumers into a common database. The service provider has access to all information in the common database. The depository institution controls access to and use of its eligibility information by the service provider. This control is set forth in a written agreement between the depository institution and the service provider. The written agreement also requires the service provider to establish reasonable policies and procedures designed to ensure that the service provider uses the depository institution’s eligibility information in accordance with specific terms and conditions established by the depository institution company to determine which consumers should receive the insurance company’s marketing materials and sends marketing materials about the insurance company’s products to those consumers. Even though the insurance company has received eligibility information through the common database as provided in paragraph (b)(2) of this section, it did not use that information to identify consumers or establish selection criteria; instead, the depository institution used its own eligibility information. Therefore, pursuant to paragraph (b)(4)(i) of this section, the insurance company has not made a solicitation to the consumer.
relating to the marketing of the products and services of all affiliates, including the insurance company. In a separate written communication, the depository institution specifies the terms and conditions under which the service provider may use the depository institution’s eligibility information to market the insurance company’s products and services to the depository institution’s consumers. The specific terms and conditions are: A list of affiliated companies (including the insurance company) whose products or services may be marketed to the depository institution’s consumers by the service provider; the specific products or types of products that may be marketed to the depository institution’s consumers by the service provider; the categories of eligibility information that may be used by the service provider in marketing products or services to the depository institution’s consumers; the types or categories of the depository institution’s consumers to whom the service provider may market products or services of depository institution affiliates; the number and/or types of marketing communications that the service provider may send to the depository institution’s consumers; and the length of time during which the service provider may market the products or services of the depository institution’s affiliates to its consumers. The depository institution periodically evaluates the service provider’s compliance with these terms and conditions. The insurance company asks the service provider to market insurance products to certain consumers who have deposit accounts with the depository institution. Without using the depository institution’s eligibility information, the insurance company develops selection criteria and provides those criteria, marketing materials, and related instructions to the service provider. The service provider uses the depository institution’s eligibility information from the common database to identify the depository institution’s consumers to whom insurance products will be marketed. When the insurance company’s marketing materials are provided to the identified consumers, the name of the depository institution is displayed on the insurance marketing materials, an introductory letter that accompanies the marketing materials, an account statement that accompanies the marketing materials, or the envelope containing the marketing materials. The requirements of paragraph (b)(5) of this section have been satisfied, and the insurance company has not made a solicitation to the consumer.

(vi) The same facts as in the example in paragraph (b)(6)(v) of this section, except that the terms and conditions permit the service provider to use the depository institution’s eligibility information to market the products and services of other affiliates to the depository institution’s consumers whenever the service provider deems it appropriate to do so. The service provider uses the depository institution’s eligibility information in accordance with the discretion afforded to it by the terms and conditions. Because the terms and conditions are not specific, the requirements of paragraph (b)(5) of this section have not been satisfied.

(c) Exceptions. The provisions of this subpart do not apply to you if you use eligibility information that you receive from an affiliate:

(1) To make a solicitation for marketing purposes to a consumer with whom you have a pre-existing business relationship;
(2) To facilitate communications to an individual for whose benefit you provide employee benefit or other services pursuant to a contract with an employer related to and arising out of the current employment relationship or status of the individual as a participant or beneficiary of an employee benefit plan;
(3) To perform services on behalf of an affiliate, except that this subparagraph shall not be construed as permitting you to send solicitations on behalf of an affiliate if the affiliate would not be permitted to send the solicitation as a result of the election of the consumer to opt out under this subpart;
(4) In response to a communication about your products or services initiated by the consumer;
(5) In response to an authorization or request by the consumer to receive solicitations; or
(6) If your compliance with this subpart would prevent you from complying with any provision of State insurance laws pertaining to unfair discrimination in any State in which you are lawfully doing business.

(d) Examples of exceptions—(1) Example of the pre-existing business relationship exception. A consumer has a deposit account with a depository institution. The consumer also has a relationship with the depository institution's securities affiliate for management of the consumer's securities portfolio. The depository institution receives eligibility information about the consumer from its securities affiliate and uses that information to make a solicitation to the consumer about the depository institution's wealth management services. The depository institution may make this solicitation even if the consumer has not been given a notice and opportunity to opt out because the depository institution has a pre-existing business relationship with the consumer.

(2) Examples of service provider exception. (i) A consumer has an insurance policy issued by an insurance company. The insurance company furnishes eligibility information about the consumer to its affiliated depository institution. Based on that eligibility information, the depository institution wants to make a solicitation to the consumer about its deposit products. The depository institution does not have a pre-existing business relationship with the consumer and none of the other exceptions in paragraph (c) of this section apply. The consumer has been given an opt-out notice and has elected to opt out of receiving such solicitations. The depository institution asks a service provider to send the solicitation to the consumer on its behalf. The service provider may not send the solicitation on behalf of the depository institution because, as a result of the consumer's not opting out, the depository institution is permitted to make the solicitation.

(2) Examples of service provider exception. (ii) The same facts as in paragraph (d)(2)(i) of this section, except the consumer has been given an opt-out notice, but has not elected to opt out. The depository institution asks a service provider to send the solicitation to the consumer on its behalf. The service provider may send the solicitation on behalf of the depository institution because, as a result of the consumer's not opting out, the depository institution is permitted to make the solicitation.

(3) Examples of consumer-initiated communications. (i) A consumer who has a deposit account with a depository institution initiates a communication with the depository institution's credit card affiliate to request information about a credit card. The credit card affiliate may use eligibility information about the consumer it obtains from the depository institution or any other affiliate to make solicitations regarding credit card products in response to the consumer-initiated communication.

(ii) A consumer who has a deposit account with a depository institution contacts the institution to request information about how to save and invest for a child's college education without specifying the type of product in which the consumer may be interested. Information about a range of different products or services offered by the depository institution and one or more affiliates of the institution may be responsive to that communication. Such products or services may include the following: Mutual funds offered by the institution's mutual fund affiliate; section 529 plans offered by the institution, its mutual fund affiliate, or another securities affiliate; or trust services offered by a different financial institution in the affiliated group. Any affiliate offering investment products or services that would be responsive to the consumer's request for information about saving and investing for a child's college education may use eligibility information to make solicitations to the consumer in response to this communication.

(iii) A credit card issuer makes a marketing call to the consumer without using eligibility information received from an affiliate. The issuer leaves a voice-mail message that invites the consumer to call a toll-free number to apply for the issuer's credit card. If the consumer calls the toll-free number to inquire about the credit card, the call is a consumer-initiated communication about a product or service and the credit card issuer may
now use eligibility information it receives from its affiliates to make solicitations to the consumer.

(iv) A consumer calls a depository institution to ask about retail locations and hours, but does not request information about products or services. The institution may not use eligibility information it receives from an affiliate to make solicitations to the consumer about its products or services because the consumer-initiated communication does not relate to the depository institution’s products or services. Thus, the use of eligibility information received from an affiliate would not be responsive to the communication and the exception does not apply.

(v) A consumer calls a depository institution to ask about retail locations and hours. The customer service representative asks the consumer if there is a particular product or service about which the consumer is seeking information. The consumer responds that the consumer wants to stop in and find out about certificates of deposit. The customer service representative offers to provide that information by telephone and mail additional information and application materials to the consumer. The consumer agrees and provides contact information for receipt of the materials to be mailed. The depository institution may use eligibility information it receives from an affiliate to make solicitations to the consumer about certificates of deposit because such solicitations would respond to the consumer-initiated communication about products or services.

(e) Relation to affiliate-sharing notice and opt-out. Nothing in this subpart limits the responsibility of a person to comply with the notice and opt-out provisions of section 603(d)(2)(A)(iii) of the Act where applicable.

§ 222.22 Scope and duration of opt-out.

(a) Scope of opt-out—(1) In general. Except as otherwise provided in this section, the consumer’s election to opt out prohibits any affiliate covered by the opt-out notice from using eligibility information received from another affiliate as described in the notice to make solicitations to the consumer.

(2) Continuing relationship—(i) In general. If the consumer establishes a continuing relationship with you or your affiliate, an opt-out notice may apply to eligibility information obtained in connection with—

(A) A single continuing relationship or multiple continuing relationships that the consumer establishes with you or your affiliates, including continuing relationships established subsequent to delivery of the opt-out notice, so long
§ 222.22  

as the notice adequately describes the continuing relationships covered by the opt-out; or

(B) Any other transaction between the consumer and you or your affiliates as described in the notice.

(ii) Examples of continuing relationships. A consumer has a continuing relationship with you or your affiliate if the consumer—

(A) Opens a deposit or investment account with you or your affiliate;

(B) Obtains a loan for which you or your affiliate owns the servicing rights;

(C) Purchases an insurance product from you or your affiliate;

(D) Holds an investment product through you or your affiliate, such as when you act or your affiliate acts as a custodian for securities or for assets in an individual retirement arrangement;

(E) Enters into an agreement or understanding with you or your affiliate whereby you or your affiliate undertakes to arrange or broker a home mortgage loan for the consumer;

(F) Enters into a lease of personal property with you or your affiliate; or

(G) Obtains financial, investment, or economic advisory services from you or your affiliate for a fee.

(3) No continuing relationship—(i) In general. If there is no continuing relationship between a consumer and you or your affiliate, and you or your affiliate obtain eligibility information about a consumer in connection with a transaction with the consumer, such as when you act or your affiliate acts as a custodian for securities or for assets in an individual retirement arrangement; or

(ii) Examples of isolated transactions. An isolated transaction occurs if—

(A) The consumer uses your or your affiliate's ATM to withdraw cash from an account at another financial institution; or

(B) You or your affiliate sells the consumer a cashier's check or money order, airline tickets, travel insurance, or traveler's checks in isolated transactions.

(4) Menu of alternatives. A consumer may be given the opportunity to choose from a menu of alternatives when electing to prohibit solicitations, such as by electing to prohibit solicitations from certain types of affiliates covered by the opt-out notice but not other types of affiliates covered by the notice, electing to prohibit solicitations based on certain types of eligibility information but not other types of eligibility information, or electing to prohibit solicitations by certain methods of delivery but not other methods of delivery. However, one of the alternatives must allow the consumer to prohibit all solicitations from all of the affiliates that are covered by the notice.

(5) Special rule for a notice following termination of all continuing relationships—(i) In general. A consumer must be given a new opt-out notice if, after all continuing relationships with you or your affiliate(s) are terminated, the consumer subsequently establishes another continuing relationship with you or your affiliate(s) and the consumer's eligibility information is to be used to make a solicitation. The new opt-out notice must apply, at a minimum, to eligibility information obtained in connection with the new continuing relationship. Consistent with paragraph (b) of this section, the consumer's decision not to opt out after receiving the new opt-out notice would not override a prior opt-out election by the consumer that applies to eligibility information obtained in connection with a terminated relationship, regardless of whether the new opt-out notice applies to eligibility information obtained in connection with the terminated relationship.

(ii) Example. A consumer has a checking account with a depository institution that is part of an affiliated group. The consumer closes the checking account. One year after closing the checking account, the consumer opens a savings account with the same depository institution. The consumer must be given a new notice and opportunity to opt out before the depository institution's affiliates may make solicitations to the consumer using eligibility information obtained by the depository institution in connection with the new savings account relationship, regardless of whether the consumer opted out.
in connection with the checking account.

(b) Duration of opt-out. The election of a consumer to opt out must be effective for a period of at least five years (the “opt-out period”) beginning when the consumer’s opt-out election is received and implemented, unless the consumer subsequently revokes the opt-out in writing or, if the consumer agrees, electronically. An opt-out period of more than five years may be established, including an opt-out period that does not expire unless revoked by the consumer.

(c) Time of opt-out. A consumer may opt out at any time.

§ 222.23 Contents of opt-out notice; consolidated and equivalent notices.

(a) Contents of opt-out notice—(1) In general. A notice must be clear, conspicuous, and concise, and must accurately disclose:

(i) The name of the affiliate(s) providing the notice. If the notice is provided jointly by multiple affiliates and each affiliate shares a common name, such as “ABC,” then the notice may indicate that it is being provided by multiple companies in the ABC group or family of companies, for example, by stating that the notice is provided by “all of the ABC companies,” “the ABC banking, credit card, insurance, and securities companies,” or by listing the name of each affiliate providing the notice. But if the affiliates covered by the notice do not all share a common name, then the notice must either separately identify each covered affiliate by name or identify each of the common names used by those affiliates, for example, by stating that the notice applies to “all of the ABC and XYZ companies” or to “the ABC banking and credit card companies and the XYZ insurance companies”;

(ii) A general description of the types of eligibility information that may be used to make solicitations to the consumer;

(iv) That the consumer may elect to limit the use of eligibility information to make solicitations to the consumer;

(v) That the consumer’s election will apply for the specified period of time stated in the notice and, if applicable, that the consumer will be allowed to renew the election once that period expires;

(vi) If the notice is provided to consumers who may have previously opted out, such as if a notice is provided to consumers annually, that the consumer who has chosen to limit solicitations does not need to act again until the consumer receives a renewal notice; and

(vii) A reasonable and simple method for the consumer to opt out.

(ii) A list of the affiliates or types of affiliates whose use of eligibility information is covered by the notice, which may include companies that become affiliates after the notice is provided to the consumer. If each affiliate covered by the notice shares a common name, such as “ABC,” then the notice may indicate that it applies to multiple companies with the ABC name or multiple companies in the ABC group or family of companies, for example, by stating that the notice is provided by “all of the ABC companies,” “the ABC banking, credit card, insurance, and securities companies.” or by listing the name of each affiliate providing the notice. But if the affiliates covered by the notice do not all share a common name, then the notice must either separately identify each covered affiliate by name or identify each of the common names used by those affiliates, for example, by stating that the notice applies to “all of the ABC and XYZ companies” or to “the ABC banking and credit card companies and the XYZ insurance companies”;

(iii) A general description of the types of eligibility information that may be used to make solicitations to the consumer;

(iv) That the consumer may elect to limit the use of eligibility information to make solicitations to the consumer;

(v) That the consumer’s election will apply for the specified period of time stated in the notice and, if applicable, that the consumer will be allowed to renew the election once that period expires;

(vi) If the notice is provided to consumers who may have previously opted out, such as if a notice is provided to consumers annually, that the consumer who has chosen to limit solicitations does not need to act again until the consumer receives a renewal notice; and

(vii) A reasonable and simple method for the consumer to opt out.
§ 222.24 Reasonable opportunity to opt out.

(a) In general. You must not use eligibility information about a consumer that you receive from an affiliate to make a solicitation to the consumer about your products or services, unless the consumer is provided a reasonable opportunity to opt out, as required by § 222.21(a)(1)(ii) of this part.

(b) Examples of a reasonable opportunity to opt out. The consumer is given a reasonable opportunity to opt out if:

(1) By mail. The opt-out notice is mailed to the consumer. The consumer is given 30 days from the date the notice is mailed to elect to opt out by any reasonable means.

(2) By electronic means. (i) The opt-out notice is provided electronically to the consumer, such as by posting the notice at an Internet Web site at which the consumer has obtained a product or service. The consumer acknowledges receipt of the electronic notice. The consumer is given 30 days after the date the consumer acknowledges receipt to elect to opt out by any reasonable means.

(ii) The opt-out notice is provided to the consumer by e-mail where the consumer has agreed to receive disclosures by e-mail from the person sending the notice. The consumer is given 30 days after the e-mail is sent to elect to opt out by any reasonable means.

(3) At the time of an electronic transaction. The opt-out notice is provided to the consumer at the time of an electronic transaction, such as a transaction conducted on an Internet Web site. The consumer is required to decide, as a necessary part of proceeding with the transaction, whether to opt out before completing the transaction. There is a simple process that the consumer may use to opt out at that time using the same mechanism through which the transaction is conducted.

(4) At the time of an in-person transaction. The opt-out notice is provided to the consumer in writing at the time of an in-person transaction. The consumer is required to decide, as a necessary part of proceeding with the transaction, whether to opt out before completing the transaction, and is not permitted to complete the transaction without making a choice. There is a simple process that the consumer may use during the course of the in-person transaction to opt out, such as completing a form that requires consumers to write a “yes” or “no” to indicate their opt-out preference or that requires the consumer to check one of two blank check boxes—one that allows consumers to indicate that they want to opt out and one that allows consumers to indicate that they do not want to opt out.

(5) By including in a privacy notice. The opt-out notice is included in a Gramm-Leach-Bliley Act privacy notice. The consumer is allowed to exercise the opt-out within a reasonable period of time and in the same manner as the opt-out under that privacy notice.
§ 222.25 Reasonable and simple methods of opting out.

(a) In general. You must not use eligibility information about a consumer that you receive from an affiliate to make a solicitation to the consumer about your products or services, unless the consumer is provided a reasonable and simple method to opt out, as required by § 222.21(a)(1)(i) of this part.

(b) Examples—

(1) Reasonable and simple opt-out methods. Reasonable and simple methods for exercising the opt-out right include—

(i) Designating a check-off box in a prominent position on the opt-out form;

(ii) Including a reply form and a self-addressed envelope together with the opt-out notice;

(iii) Providing an electronic means to opt out, such as a form that can be electronically mailed or processed at an Internet Web site, if the consumer agrees to the electronic delivery of information;

(iv) Providing a toll-free telephone number that consumers may call to opt out; or

(v) Allowing consumers to exercise all of their opt-out rights described in a consolidated opt-out notice that includes the privacy opt-out under the Gramm-Leach-Bliley Act, 15 U.S.C. 6801 et seq., the affiliate sharing opt-out under the Act, and the affiliate marketing opt-out under the Act, by a single method, such as by calling a single toll-free telephone number.

(2) Opt-out methods that are not reasonable and simple. Reasonable and simple methods for exercising an opt-out right do not include—

(i) Requiring the consumer to write his or her own letter;

(ii) Requiring the consumer to call or write to obtain a form for opting out, rather than including the form with the opt-out notice;

(iii) Requiring the consumer who receives the opt-out notice in electronic form only, such as through posting at an Internet Web site, to opt out solely by paper mail or by visiting a different Web site without providing a link to that site.

(c) Specific opt-out means. Each consumer must be required to opt out through a specific means, as long as that means is reasonable and simple for that consumer.

§ 222.26 Delivery of opt-out notices.

(a) In general. The opt-out notice must be provided so that each consumer can reasonably be expected to receive actual notice. For opt-out notices provided electronically, the notice may be provided in compliance with either the electronic disclosure provisions in this subpart or the provisions in section 101 of the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. 7001 et seq.

(b) Examples of reasonable expectation of actual notice. A consumer may reasonably be expected to receive actual notice if the affiliate providing the notice:

(1) Hand-delivers a printed copy of the notice to the consumer;

(2) Mails a printed copy of the notice to the last known mailing address of the consumer;

(3) Provides a notice by e-mail to a consumer who has agreed to receive electronic disclosures by e-mail from the affiliate providing the notice; or

(4) Posts the notice on the Internet Web site at which the consumer obtained a product or service electronically and requires the consumer to acknowledge receipt of the notice.

(c) Examples of no reasonable expectation of actual notice. A consumer may not reasonably be expected to receive actual notice if the affiliate providing the notice:

(1) Only posts the notice on a sign in a branch or office or generally publishes the notice in a newspaper;

(2) Sends the notice via e-mail to a consumer who has not agreed to receive electronic disclosures by e-mail from the affiliate providing the notice; or

(3) Posts the notice on an Internet Web site without requiring the consumer to acknowledge receipt of the notice.

§ 222.27 Renewal of opt-out.

(a) Renewal notice and opt-out requirement—

(1) In general. After the opt-out period expires, you may not make solicitations based on eligibility information you receive from an affiliate to a
§ 222.27

consumer who previously opted out, unless:

(i) The consumer has been given a renewal notice that complies with the requirements of this section and §§222.24 through 222.26 of this part, and a reasonable opportunity and a reasonable and simple method to renew the opt-out, and the consumer does not renew the opt-out; or

(ii) An exception in §222.21(c) of this part applies.

(2) Renewal period. Each opt-out renewal must be effective for a period of at least five years as provided in §222.22(b) of this part.

(3) Affiliates who may provide the notice. The notice required by this paragraph must be provided:

(i) By the affiliate that provided the previous opt-out notice, or its successor; or

(ii) As part of a joint renewal notice from two or more members of an affiliated group of companies, or their successors, that jointly provided the previous opt-out notice.

(b) Contents of renewal notice. The renewal notice must be clear, conspicuous, and concise, and must accurately disclose:

(1) The name of the affiliate(s) providing the notice. If the notice is provided jointly by multiple affiliates and each affiliate shares a common name, such as “ABC,” then the notice may indicate that it is being provided by multiple companies with the ABC name or multiple companies in the ABC group or family of companies, for example, by stating that the notice is provided by “all of the ABC companies,” “the ABC banking, credit card, insurance, and securities companies,” or by listing the name of each affiliate providing the notice. But if the affiliates covered by the notice do not all share a common name, then the notice must either separately identify each covered affiliate by name or identify each of the common names used by those affiliates, for example, by stating that the notice applies to “all of the ABC and XYZ companies” or to “the ABC banking and credit card companies and the XYZ insurance companies”;

(2) A general description of the types of eligibility information that may be used to make solicitations to the consumer;

(3) That the consumer previously elected to limit the use of certain information to make solicitations to the consumer;

(4) That the consumer’s election has expired or is about to expire;

(5) That the consumer may elect to renew the consumer’s previous election;

(7) If applicable, that the consumer’s election to renew will apply for the specified period of time stated in the notice and that the consumer will be allowed to renew the election once that period expires; and

(8) A reasonable and simple method for the consumer to opt out.

(c) Timing of the renewal notice—(1) In general. A renewal notice may be provided to the consumer either—

(i) A reasonable period of time before the expiration of the opt-out period; or

(ii) Any time after the expiration of the opt-out period but before solicitations that would have been prohibited by the expired opt-out are made to the consumer.

(2) Combination with annual privacy notice. If you provide an annual privacy
notice under the Gramm-Leach-Bliley Act, 15 U.S.C. 6801 et seq., providing a renewal notice with the last annual privacy notice provided to the consumer before expiration of the opt-out period is a reasonable period of time before expiration of the opt-out in all cases.

(d) No effect on opt-out period. An opt-out period may not be shortened by sending a renewal notice to the consumer before expiration of the opt-out period, even if the consumer does not renew the opt-out.

§ 222.30 Obtaining or using medical information in connection with a determination of eligibility for credit.

(a) Scope. This section applies to any of the following that participates as a creditor in a transaction—

(i) A bank that is a member of the Federal Reserve System (other than national banks) and its subsidiaries;

(ii) A branch or Agency of a foreign bank (other than Federal branches, Federal Agencies, and insured State branches of foreign banks) and its subsidiaries;

(iii) A commercial lending company owned or controlled by foreign banks;

(iv) An organization operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.);

(v) A bank holding company and an affiliate of such holding company (other than depository institutions and consumer reporting agencies); or

(2) Any other person that participates as a creditor in a transaction involving a person described in paragraph (a)(1) of this section.

(b) General prohibition on obtaining or using medical information. (1) In general. A creditor may not obtain or use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit, except as provided in this section.

(2) Definitions. (i) Credit has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(ii) Creditor has the same meaning as in section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 1691a.

(iii) Eligibility, or continued eligibility, for credit means the consumer’s qualification or fitness to receive, or continue to receive, credit, including the terms on which credit is offered. The term does not include:

(A) Any determination of the consumer’s qualification or fitness for employment, insurance (other than a credit insurance product), or other non-credit products or services;

(B) Authorizing, processing, or documenting a payment or transaction on behalf of the consumer in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit; or

(C) Maintaining or servicing the consumer’s account in a manner that does not involve a determination of the consumer’s eligibility, or continued eligibility, for credit.

(c) Rule of construction for obtaining and using unsolicited medical information—(1) In general. A creditor does not obtain medical information in violation of the prohibition if it receives medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit without specifically requesting medical information.

(2) Use of unsolicited medical information. A creditor that receives unsolicited medical information in the manner described in paragraph (c)(1) of this...
section may use that information in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit to the extent the creditor can rely on at least one of the exceptions in §222.30(d) or (e).

(3) Examples. A creditor does not obtain medical information in violation of the prohibition if, for example:

(i) In response to a general question regarding a consumer’s debts or expenses, the creditor receives information that the consumer owes a debt to a hospital.

(ii) In a conversation with the creditor’s loan officer, the consumer informs the creditor that the consumer has a particular medical condition.

(iii) In connection with a consumer’s application for an extension of credit, the creditor requests a consumer report from a consumer reporting agency and receives medical information in the consumer report furnished by the agency even though the creditor did not specifically request medical information from the consumer reporting agency.

(d) Financial information exception for obtaining and using medical information—(1) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit so long as:

(i) The information is the type of information routinely used in making credit eligibility determinations, such as information relating to debts, expenses, income, benefits, assets, collateral, or the purpose of the loan, including the use of proceeds;

(ii) The creditor uses the medical information in a manner and to an extent that is no less favorable than it would use comparable information that is not medical information in a credit transaction; and

(iii) The creditor does not take the consumer’s physical, mental, or behavioral health, condition or history, type of treatment, or prognosis into account as part of any such determination.

(2) Examples. (i) Examples of the types of information routinely used in making credit eligibility determinations. Paragraph (d)(1)(i) of this section permits a creditor, for example, to obtain and use information about:

(A) The dollar amount, repayment terms, repayment history, and similar information regarding medical debts to calculate, measure, or verify the repayment ability of the consumer, the use of proceeds, or the terms for granting credit;

(B) The value, condition, and lien status of a medical device that may serve as collateral to secure a loan;

(C) The dollar amount and continued eligibility for disability income, workers’ compensation income, or other benefits related to health or a medical condition that is relied on as a source of repayment; or

(D) The identity of creditors to whom outstanding medical debts are owed in connection with an application for credit, including but not limited to, a transaction involving the consolidation of medical debts.

(ii) Examples of uses of medical information consistent with the exception. (A) A consumer includes on an application for credit information about two $20,000 debts. One debt is to a hospital; the other debt is to a retailer. The creditor contacts the hospital and the retailer to verify the amount and payment status of the debts. The creditor learns that both debts are more than 90 days past due. Any two debts of this size that are more than 90 days past due would disqualify the consumer under the creditor’s established underwriting criteria. The creditor denies the application on the basis that the consumer has a poor repayment history on outstanding debts. The creditor has used medical information in a manner and to an extent no less favorable than it would use comparable non-medical information.

(B) A consumer indicates on an application for a $200,000 mortgage loan that she receives $15,000 in long-term disability income each year from her former employer and has no other income. Annual income of $15,000, regardless of source, would not be sufficient to support the requested amount of credit. The creditor denies the application on the basis that the projected debt-to-income ratio of the consumer does not meet the creditor’s underwriting criteria. The creditor has used
medical information in a manner and to an extent that is no less favorable than it would use comparable non-medical information.

(C) A consumer includes on an application for a $10,000 home equity loan that he has a $50,000 debt to a medical facility that specializes in treating a potentially terminal disease. The creditor contacts the medical facility to verify the debt and obtain the repayment history and current status of the loan. The creditor learns that the debt is current. The applicant meets the income and other requirements of the creditor’s underwriting guidelines. The creditor grants the application. The creditor has used medical information in accordance with the exception.

(iii) Examples of uses of medical information inconsistent with the exception.
(A) A consumer applies for $25,000 of credit and includes on the application information about a $50,000 debt to a hospital. The creditor contacts the hospital to verify the amount and repayment status of the debt, and learns that the debt is current and that the consumer has no delinquencies in her repayment history. If the existing debt were instead owed to a retail department store, the creditor would approve the application and extend credit based on the amount and repayment history of the outstanding debt. The creditor, however, denies the application because the consumer is indebted to a hospital. The creditor has used medical information, here the identity of the medical creditor, in a manner and to an extent that is less favorable than it would use comparable non-medical information.

(B) A consumer meets with a loan officer of a creditor to apply for a mortgage loan. While filling out the loan application, the consumer informs the loan officer orally that she has a potentially terminal disease. The consumer meets the creditor’s established requirements for the requested mortgage loan. The loan officer recommends to the credit committee that credit be extended to the consumer only if the consumer obtains a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party. The credit committee agrees with the loan officer’s recommendation. The loan officer informs the consumer that the consumer must obtain a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party to qualify for the loan. The consumer obtains one of these products and the creditor approves the loan. The creditor has used medical information in a manner inconsistent with the exception by taking into account the consumer’s physical, mental, or behavioral health, condition, or history, type of treatment, or prognosis as part of a determination of eligibility or continued eligibility for credit.

(C) A consumer who has an apparent medical condition, such as a consumer who uses a wheelchair or an oxygen tank, meets with a loan officer to apply for a home equity loan. The consumer meets the creditor’s established requirements for the requested home equity loan and the creditor typically does not require consumers to obtain a debt cancellation contract, debt suspension agreement, or credit insurance product in connection with such loans. However, based on the consumer’s apparent medical condition, the loan officer recommends to the credit committee that credit be extended to the consumer only if the consumer obtains a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party. The credit committee agrees with the loan officer’s recommendation. The loan officer informs the consumer that the consumer must obtain a debt cancellation contract, debt suspension agreement, or credit insurance product from a nonaffiliated third party to qualify for the loan. The consumer obtains one of these products and the creditor approves the loan. The creditor has used medical information in a manner inconsistent with the exception by taking into account the consumer’s physical, mental, or behavioral health, condition, or history, type of treatment, or prognosis in setting conditions on the consumer’s eligibility for credit.

(e) Specific exceptions for obtaining and using medical information—(1) In general. A creditor may obtain and use medical information pertaining to a consumer in connection with any determination of the consumer’s eligibility, or continued eligibility, for credit—

(i) To determine whether the use of a power of attorney or legal representative that is triggered by a medical condition or event is necessary and appropriate or whether the consumer has the
§ 222.30

(2) Example of determining eligibility for a special credit program or credit assistance program. A not-for-profit organization establishes a credit assistance program pursuant to a written plan that is designed to assist disabled veterans in purchasing homes by subsidizing the down payment for the home purchase mortgage loans of qualifying veterans. The organization works through mortgage lenders and requires mortgage lenders to obtain medical information about the disability of any consumer that seeks to qualify for the program, use that information to verify the consumer’s eligibility for the program, and forward that information to the organization. A consumer who is a veteran applies to a creditor for a home purchase mortgage loan. The creditor informs the consumer about the credit assistance program for disabled veterans and the consumer seeks to qualify for the program. Assuming that the program complies with all applicable law, including applicable fair lending laws, the creditor may obtain and use medical information about the medical condition and disability, if any, of the consumer to determine whether the consumer qualifies for the credit assistance program.

(3) Examples of verifying the medical purpose of the loan or the use of proceeds.

(i) If a consumer applies for $10,000 of credit for the purpose of financing vision correction surgery, the creditor may verify with the surgeon that the procedure will be performed. If the surgeon reports that surgery will not be performed on the consumer, the creditor may use that medical information to deny the consumer’s application for credit, because the loan would not be used for the stated purpose.

(ii) If a consumer applies for $10,000 of credit for the purpose of financing cosmetic surgery, the creditor may confirm the cost of the procedure with the surgeon. If the surgeon reports that the cost of the procedure is $5,000, the creditor may use that medical information to offer the consumer only $5,000 of credit.

(iii) A creditor has an established medical loan program for financing particular elective surgical procedures.
The creditor receives a loan application from a consumer requesting $10,000 of credit under the established loan program for an elective surgical procedure. The consumer indicates on the application that the purpose of the loan is to finance an elective surgical procedure not eligible for funding under the guidelines of the established loan program. The creditor may deny the consumer’s application because the purpose of the loan is not for a particular procedure funded by the established loan program.

(4) Examples of obtaining and using medical information at the request of the consumer. (i) If a consumer applies for a loan and specifically requests that the creditor consider the consumer’s medical disability at the relevant time as an explanation for adverse payment history information in his credit report, the creditor may consider such medical information in evaluating the consumer’s willingness and ability to repay the requested loan to accommodate the consumer’s particular circumstances, consistent with safe and sound practices. The creditor may also decline to consider such medical information to accommodate the consumer, but may evaluate the consumer’s application in accordance with its otherwise applicable underwriting criteria. The creditor may not deny the consumer’s application or otherwise treat the consumer less favorably because the consumer specifically requested a medical accommodation, if the creditor would have extended the credit or treated the consumer more favorably under the creditor’s otherwise applicable underwriting criteria.

(ii) If a consumer applies for a loan by telephone and explains that his income has been and will continue to be interrupted on account of a medical condition and that he expects to repay the loan by liquidating assets, the creditor may, but is not required to, evaluate the application using the sale of assets as the primary source of repayment, consistent with safe and sound practices, provided that the creditor documents the consumer’s request by recording the oral conversation or making a notation of the request in the consumer’s file.

(iii) If a consumer applies for a loan and the application form provides a space where the consumer may provide any other information or special circumstances, whether medical or non-medical, that the consumer would like the creditor to consider in evaluating the consumer’s application, the creditor may use medical information provided by the consumer in that space on that application to accommodate the consumer’s application for credit, consistent with safe and sound practices, or may disregard that information.

(iv) If a consumer specifically requests that the creditor use medical information in determining the consumer’s eligibility, or continued eligibility, for credit and provides the creditor with medical information for that purpose, and the creditor determines that it needs additional information regarding the consumer’s circumstances, the creditor may request, obtain, and use additional medical information about the consumer as necessary to verify the information provided by the consumer or to determine whether to make an accommodation for the consumer. The consumer may decline to provide additional information, withdraw the request for an accommodation, and have the application considered under the creditor’s otherwise applicable underwriting criteria.

(v) If a consumer completes and signs a credit application that is not for medical purpose credit and the application contains boilerplate language that routinely requests medical information from the consumer or that indicates that by applying for credit the consumer authorizes or consents to the creditor obtaining and using medical information in connection with a determination of the consumer’s eligibility, or continued eligibility, for credit, the consumer has not specifically requested that the creditor obtain and use medical information to accommodate the consumer’s particular circumstances.

(5) Example of a forbearance practice or program. After an appropriate safety and soundness review, a creditor institutes a program that allows consumers who are or will be hospitalized to defer payments as needed for up to three months, without penalty, if the credit
§ 222.31 Limits on redisclosure of information.

(a) Scope. This section applies to banks that are members of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.), and bank holding companies and affiliates of such holding companies (other than depository institutions and consumer reporting agencies).

(b) Limits on redisclosure. If a person described in paragraph (a) of this section receives medical information about a consumer from a consumer reporting agency or its affiliate, the person must not disclose that information to any other person, except as necessary to carry out the purpose for which the information was initially disclosed, or as otherwise permitted by statute, regulation, or order.

§ 222.32 Sharing medical information with affiliates.

(a) Scope. This section applies to banks that are members of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) In general. The exclusions from the term “consumer report” in section 603(d)(2) of the Act that allow the sharing of information with affiliates do not apply to a person described in paragraph (a) of this section if that person communicates to an affiliate:

(1) Medical information;

(2) An individualized list or description based on the payment transactions of the consumer for medical products or services; or

(3) An aggregate list of identified consumers based on payment transactions for medical products or services.

(c) Exceptions. A person described in paragraph (a) of this section may rely on the exclusions from the term “consumer report” in section 603(d)(2) of the Act to communicate the information in paragraph (b) of this section to an affiliate:

(1) In connection with the business of insurance or annuities (including the activities described in section 18B of the model Privacy of Consumer Financial and Health Information Regulation issued by the National Association of Insurance Commissioners, as in effect on January 1, 2003);

(2) For any purpose permitted without authorization under the regulations promulgated by the Department of Health and Human Services pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA);

(3) For any purpose referred to in section 1179 of HIPAA;

(4) For any purpose described in section 502(e) of the Gramm-Leach-Bliley Act.
Federal Reserve System § 222.42

(5) In connection with a determination of the consumer's eligibility, or continued eligibility, for credit consistent with §222.30 of this part; or
(6) As otherwise permitted by order of the Board.

Subpart E—Duties of Furnishers of Information

SOURCE: 74 FR 31514, July 1, 2009, unless otherwise noted.

§ 222.40 Scope.

Subpart E of this part applies to member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries that are not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1844(c)(5)), branches and Agencies of foreign banks (other than Federal branches, Federal Agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

§ 222.41 Definitions.

For purposes of this subpart and appendix E of this part, the following definitions apply:

(a) Accuracy means that information that a furnisher provides to a consumer reporting agency about an account or other relationship with the consumer correctly:
(1) Reflects the terms of and liability for the account or other relationship;
(2) Reflects the consumer’s performance and other conduct with respect to the account or other relationship; and
(3) Identifies the appropriate consumer.

(b) Direct dispute means a dispute submitted directly to a furnisher (including a furnisher that is a debt collector) by a consumer concerning the accuracy of any information contained in a consumer report and pertaining to an account or other relationship that the furnisher has or had with the consumer.

(c) Furnisher means an entity that furnishes information relating to consumers to one or more consumer reporting agencies for inclusion in a consumer report. An entity is not a furnisher when it:
(1) Provides information to a consumer reporting agency solely to obtain a consumer report in accordance with sections 604(a) and (f) of the Fair Credit Reporting Act;
(2) Is acting as a “consumer reporting agency” as defined in section 603(f) of the Fair Credit Reporting Act;
(3) Is a consumer to whom the furnished information pertains; or
(4) Is a neighbor, friend, or associate of the consumer, or another individual with whom the consumer is acquainted or who may have knowledge about the consumer, and who provides information about the consumer’s character, general reputation, personal characteristics, or mode of living in response to a specific request from a consumer reporting agency.

(d) Identity theft has the same meaning as in 16 CFR 603.2(a).

(e) Integrity means that information that a furnisher provides to a consumer reporting agency about an account or other relationship with the consumer:
(1) Is substantiated by the furnisher’s records at the time it is furnished;
(2) Is furnished in a form and manner that is designed to minimize the likelihood that the information may be incorrectly reflected in a consumer report; and
(3) Includes the information in the furnisher’s possession about the account or other relationship that the Board has:
(i) Determined that the absence of which would likely be materially misleading in evaluating a consumer’s creditworthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living; and
(ii) Listed in section I.(b)(2)(iii) of appendix E of this part.

§ 222.42 Reasonable policies and procedures concerning the accuracy and integrity of furnished information.

(a) Policies and procedures. Each furnisher must establish and implement reasonable written policies and procedures regarding the accuracy and integrity of the information relating to
§ 222.43 Direct disputes.

(a) General rule. Except as otherwise provided in this section, a furnisher must conduct a reasonable investigation of a direct dispute if it relates to:

(1) The consumer’s liability for a credit account or other debt with the furnisher, such as direct disputes relating to whether there is or has been identity theft or fraud against the consumer, whether there is individual or joint liability on an account, or whether the consumer is an authorized user of a credit account;

(2) The terms of a credit account or other debt with the furnisher, such as direct disputes relating to the type of account, principal balance, scheduled payment amount on an account, or the amount of the credit limit on an open-end account;

(3) The consumer’s performance or other conduct concerning an account or other relationship with the furnisher, such as direct disputes relating to the current payment status, high balance, date a payment was made, the amount of a payment made, or the date an account was opened or closed; or

(4) Any other information contained in a consumer report regarding an account or other relationship with the furnisher that bears on the consumer’s creditworthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living.

(b) Exceptions. The requirements of paragraph (a) of this section do not apply to a furnisher if:

(1) The direct dispute relates to:

(i) The consumer’s identifying information (other than a direct dispute relating to a consumer’s liability for a credit account or other debt with the furnisher, as provided in paragraph (a)(1) of this section) such as name(s), date of birth, Social Security number, telephone number(s), or address(es);

(ii) The identity of past or present employers;

(iii) Inquiries or requests for a consumer report;

(iv) Information derived from public records, such as judgments, bankruptcies, liens, and other legal matters (unless provided by a furnisher with an account or other relationship with the consumer);

(v) Information related to fraud alerts or active duty alerts; or

(vi) Information provided to a consumer reporting agency by another furnisher; or

(2) The furnisher has a reasonable belief that the direct dispute is submitted by, is prepared on behalf of the consumer by, or is submitted on a form supplied to the consumer by, a credit repair organization, as defined in 15 U.S.C. 1679a(3), or an entity that would be a credit repair organization, but for 15 U.S.C. 1679a(3)(B)(i).

(c) Direct dispute address. A furnisher is required to investigate a direct dispute only if a consumer submits a dispute notice to the furnisher at:

(1) The address of a furnisher provided by a furnisher and set forth on a consumer report relating to the consumer;

(2) An address clearly and conspicuously specified by the furnisher for submitting direct disputes that is provided to the consumer in writing or electronically (if the consumer has agreed to the electronic delivery of information from the furnisher); or

(3) Any business address of the furnisher if the furnisher has not so specified and provided an address for submitting direct disputes under paragraphs (c)(1) or (2) of this section.

(d) Direct dispute notice contents. A dispute notice must include:

(1) Sufficient information to identify the account or other relationship that
(2) The specific information that the consumer is disputing and an explanation of the basis for the dispute; and

(3) All supporting documentation or other information reasonably required by the furnisher to substantiate the basis of the dispute. This documentation may include, for example: a copy of the relevant portion of the consumer report that contains the allegedly inaccurate information; a police report; a fraud or identity theft affidavit; a court order; or account statements.

(e) Duty of furnisher after receiving a direct dispute notice. After receiving a dispute notice from a consumer pursuant to paragraphs (c) and (d) of this section, the furnisher must:

(1) Conduct a reasonable investigation with respect to the disputed information;

(2) Review all relevant information provided by the consumer with the dispute notice;

(3) Complete its investigation of the dispute and report the results of the investigation to the consumer before the expiration of the period under section 611(a)(1) of the Fair Credit Reporting Act (15 U.S.C. 1681i(a)(1)) within which a consumer reporting agency would be required to complete its action if the consumer had elected to dispute the information under that section; and

(4) If the investigation finds that the information reported was inaccurate, promptly notify each consumer reporting agency to which the furnisher provided inaccurate information of that determination and provide to the consumer reporting agency any correction to that information that is necessary to make the information provided by the furnisher accurate.

(f) Frivolous or irrelevant disputes. (1) A furnisher is not required to investigate a direct dispute if the furnisher has reasonably determined that the dispute is frivolous or irrelevant. A dispute qualifies as frivolous or irrelevant if:

(i) The consumer did not provide sufficient information to investigate the disputed information as required by paragraph (d) of this section;

(ii) The direct dispute is substantially the same as a dispute previously submitted by or on behalf of the consumer, either directly to the furnisher or through a consumer reporting agency, with respect to which the furnisher has already satisfied the applicable requirements of the Act or this section provided, however, that a direct dispute is not substantially the same as a dispute previously submitted if the dispute includes information listed in paragraph (d) of this section that had not previously been provided to the furnisher; or

(iii) The furnisher is not required to investigate the direct dispute because one or more of the exceptions listed in paragraph (b) of this section applies.

(2) Notice of determination. Upon making a determination that a dispute is frivolous or irrelevant, the furnisher must notify the consumer of the determination not later than five business days after making the determination, by mail or, if authorized by the consumer for that purpose, by any other means available to the furnisher.

(3) Contents of notice of determination that a dispute is frivolous or irrelevant. A notice of determination that a dispute is frivolous or irrelevant must include the reasons for such determination and identify any information required to investigate the disputed information, which notice may consist of a standardized form describing the general nature of such information.
otherwise provides credit to the consumer on material terms that are materially less favorable than the most favorable material terms available to a substantial proportion of consumers from or through that person.

(2) Business credit excluded. This subpart does not apply to an application for, or a grant, extension, or other provision of, credit to a consumer or to any other applicant primarily for a business purpose.

(b) Relation to Federal Trade Commission rules. These rules are substantively identical to the Federal Trade Commission’s (Commission’s) risk-based pricing rules in 16 CFR 640. Both rules apply to the covered person described in paragraph (a) of this section. Compliance with either the Board’s rules or the Commission’s rules satisfies the requirements of the statute (15 U.S.C. 1681m(h)).

(c) Enforcement. The provisions of this subpart will be enforced in accordance with the enforcement authority set forth in sections 621(a) and (b) of the FCRA.

§ 222.71 Definitions.

For purposes of this subpart, the following definitions apply:

(a) Adverse action has the same meaning as in 15 U.S.C. 1681a(k)(1)(A).

(b) Annual percentage rate has the same meaning as in 12 CFR 226.6(b)(2)(i), excluding any temporary initial rate that is lower than the rate that will apply after the temporary rate expires, any penalty rate that will apply upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, and any fixed annual percentage rate option for a home equity line of credit;

(ii) In the case of a credit card (other than a credit card that is used to access a home equity line of credit or a charge card), the annual percentage rate required to be disclosed under 12 CFR 226.6(b)(2)(i) that applies to purchases (“purchase annual percentage rate”) and no other annual percentage rate, or in the case of a credit card that has no purchase annual percentage rate, the annual percentage rate that varies based on information in a consumer report and that has the most significant financial impact on consumers;

(ii) In the case of closed-end credit, the annual percentage rate required to be disclosed under 12 CFR 226.17(c) and 226.18(e); and

(iii) In the case of credit for which there is no annual percentage rate, the financial term that varies based on information in a consumer report and that has the most significant financial impact on consumers, such as a deposit required in connection with credit extended by a telephone company or utility or an annual membership fee for a charge card.

(h) Credit has the same meaning as in 15 U.S.C. 1681a(r)(5).

(i) Credit card has the same meaning as in 15 U.S.C. 1681a(r)(2).

(k) Credit card issuer has the same meaning as in 15 U.S.C. 1681a(r)(1)(A).

(l) Credit score has the same meaning as in 15 U.S.C. 1681g(f)(2)(A).

(m) Firm offer of credit has the same meaning as in 15 U.S.C. 1681a(l).

(n) Material terms means—

(1) (i) Except as otherwise provided in paragraphs (n)(1)(ii) and (n)(3) of this section, in the case of credit extended under an open-end credit plan, the annual percentage rate required to be disclosed under 12 CFR 226.6(a)(1)(ii) or 12 CFR 226.6(b)(2)(i), excluding any temporary initial rate that is lower than the rate that will apply after the temporary rate expires, any penalty rate that will apply upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, and any fixed annual percentage rate option for a home equity line of credit;

(ii) In the case of a credit card (other than a credit card that is used to access a home equity line of credit or a charge card), the annual percentage rate required to be disclosed under 12 CFR 226.6(b)(2)(i) that applies to purchases (“purchase annual percentage rate”) and no other annual percentage rate, or in the case of a credit card that has no purchase annual percentage rate, the annual percentage rate that varies based on information in a consumer report and that has the most significant financial impact on consumers;

(2) In the case of closed-end credit, the annual percentage rate required to be disclosed under 12 CFR 226.17(c) and 226.18(e); and

(3) In the case of credit for which there is no annual percentage rate, the financial term that varies based on information in a consumer report and that has the most significant financial impact on consumers, such as a deposit required in connection with credit extended by a telephone company or utility or an annual membership fee for a charge card.

(o) Materially less favorable means, when applied to material terms, that the terms granted, extended, or otherwise provided to a consumer differ from the terms granted, extended, or otherwise provided to another consumer from or through the same person such that the cost of credit to the first consumer would be significantly greater than the cost of credit granted, extended, or otherwise provided to the consumer.
other consumer. For purposes of this definition, factors relevant to determining the significance of a difference in cost include the type of credit product, the term of the credit extension, if any, and the extent of the difference between the material terms granted, extended, or otherwise provided to the two consumers.

(p) Open-end credit plan has the same meaning as in 15 U.S.C. 1602(i), as interpreted by the Board of Governors of the Federal Reserve System in Regulation Z (12 CFR part 226) and the Official Staff Commentary to Regulation Z (Supplement I to 12 CFR Part 226).

(q) Person has the same meaning as in 15 U.S.C. 1681a(b).

§ 222.72 General requirements for risk-based pricing notices.

(a) In general. Except as otherwise provided in this subpart, a person must provide to a consumer a notice ("risk-based pricing notice") in the form and manner required by this subpart if the person both—

(1) Uses a consumer report in connection with an application for, or a grant, extension, or other provision of, credit to that consumer that is primarily for personal, family, or household purposes; and

(2) Based in whole or in part on the consumer report, grants, extends, or otherwise provides credit to that consumer on material terms that are materially less favorable than the most favorable material terms available to a substantial proportion of consumers from or through that person.

(b) Determining which consumers must receive a notice. A person may determine whether paragraph (a) of this section applies by directly comparing the material terms offered to each consumer and the material terms offered to other consumers for a specific type of credit product. For purposes of this section, a "specific type of credit product" means one or more credit products with similar features that are designed for similar purposes. Examples of a specific type of credit product include student loans, unsecured credit cards, secured credit cards, new automobile loans, used automobile loans, fixed-rate mortgage loans, and variable-rate mortgage loans. As an alternative to making this direct comparison, a person may make the determination by using one of the following methods:

(1) Credit score proxy method—(i) In general. A person that sets the material terms of credit granted, extended, or otherwise provided to a consumer, based in whole or in part on a credit score, may comply with the requirements of paragraph (a) of this section by—

(A) Determining the credit score (hereafter referred to as the "cutoff score") that represents the point at which approximately 40 percent of the consumers to whom it grants, extends, or provides credit have higher credit scores and approximately 60 percent of the consumers to whom it grants, extends, or provides credit have lower credit scores; and

(B) Providing a risk-based pricing notice to each consumer to whom it grants, extends, or provides credit whose credit score is lower than the cutoff score.

(ii) Alternative to the 40/60 cutoff score determination. In the case of credit that has been granted, extended, or provided on the most favorable material terms to more than 40 percent of consumers, a person may, at its option, set its cutoff score at a point at which the approximate percentage of consumers who historically have been granted, extended, or provided credit on material terms other than the most favorable terms would receive risk-based pricing notices under this section.

(iii) Determining the cutoff score—(A) Sampling approach. A person that currently uses risk-based pricing with respect to the credit products it offers must calculate the cutoff score by considering the credit scores of all or a representative sample of the consumers to whom it has granted, extended, or provided credit for a specific type of credit product.

(B) Secondary source approach in limited circumstances. A person that is a new entrant into the credit business, introduces new credit products, or starts to use risk-based pricing with respect to the credit products it currently offers may initially determine the cutoff score based on information
derived from appropriate market research or relevant third-party sources for a specific type of credit product, such as research or data from companies that develop credit scores. A person that acquires a credit portfolio as a result of a merger or acquisition may determine the cutoff score based on information from the party which it acquired, with which it merged, or from which it acquired the portfolio.

(C) Recalculation of cutoff scores. A person using the credit score proxy method must recalculate its cutoff score(s) no less than every two years in the manner described in paragraph (b)(1)(iii)(A) of this section. A person using the credit score proxy method using market research, third-party data, or information from a party which it acquired, with which it merged, or from which it acquired the portfolio as permitted by paragraph (b)(1)(iii)(B) of this section generally must calculate a cutoff score(s) based on the scores of its own consumers in the manner described in paragraph (b)(1)(iii)(A) of this section within one year after it begins using a cutoff score derived from market research, third-party data, or information from a party which it acquired, with which it merged, or from which it acquired the portfolio. If such a person does not grant, extend, or provide credit to new consumers during that one-year period such that it lacks sufficient data with which to recalculate a cutoff score based on the credit scores of its own consumers, the person may continue to use a cutoff score derived from market research, third-party data, or information from a party which it acquired, with which it merged, or from which it acquired the portfolio as provided in paragraph (b)(1)(iii)(B) until it obtains sufficient data on which to base the recalculation. However, the person must recalculate its cutoff score(s) in the manner described in paragraph (b)(1)(iii)(A) of this section within two years, if it has granted, extended, or provided credit to some new consumers during that two-year period.

(D) Use of two or more credit scores. A person that generally uses two or more credit scores in setting the material terms of credit granted, extended, or provided to a consumer must determine the cutoff score using the same method the person uses to evaluate multiple scores when making credit decisions. These evaluation methods may include, but are not limited to, selecting the low, median, high, most recent, or average credit score of each consumer to whom it grants, extends, or provides credit. If a person that uses two or more credit scores does not consistently use the same method for evaluating multiple credit scores (e.g., if the person sometimes chooses the median score and other times calculates the average score), the person must determine the cutoff score using a reasonable means. In such cases, use of any one of the methods that the person regularly uses or the average credit score of each consumer to whom it grants, extends, or provides credit is deemed to be a reasonable means of calculating the cutoff score.

(iv) Credit score not available. For purposes of this section, a person using the credit score proxy method who grants, extends, or provides credit to a consumer for whom a credit score is not available must assume that the consumer receives credit on material terms that are materially less favorable than the most favorable credit terms offered to a substantial proportion of consumers from or through that person and must provide a risk-based pricing notice to the consumer.

(v) Examples. (A) A credit card issuer engages in risk-based pricing and the annual percentage rates it offers to consumers are based in whole or in part on a credit score. The credit card issuer takes a representative sample of the credit scores of consumers to whom it issued credit cards within the preceding three months. The credit card issuer determines that approximately 40 percent of the sampled consumers have a credit score at or above 720 (on a scale of 350 to 850) and approximately 60 percent of the sampled consumers have a credit score below 720. Thus, the card issuer selects 720 as its cutoff score. A consumer applies to the credit card issuer for a credit card. The card issuer obtains a credit score for the consumer. The consumer’s credit score is 700. Since the consumer’s 700 credit score falls below the 720 cutoff score, the credit card issuer must provide a
risk-based pricing notice to the consumer.

(B) A credit card issuer engages in risk-based pricing, and the annual percentage rates it offers to consumers are based in whole or in part on a credit score. The credit card issuer takes a representative sample of the consumers to whom it issued credit cards over the preceding six months. The credit card issuer determines that approximately 80 percent of the sampled consumers received credit at its lowest annual percentage rate, and 20 percent received credit at a higher annual percentage rate. Approximately 80 percent of the sampled consumers have a credit score at or above 750 (on a scale of 350 to 850), and 20 percent have a credit score below 750. Thus, the card issuer selects 750 as its cutoff score. A consumer applies to the credit card issuer for a credit card. The card issuer obtains a credit score for the consumer. The consumer's credit score is 740. Since the consumer's 740 credit score falls below the 750 cutoff score, the credit card issuer must provide a risk-based pricing notice to the consumer.

(C) An auto lender engages in risk-based pricing, obtains credit scores from one of the nationwide consumer reporting agencies, and uses the credit score proxy method to determine which consumers must receive a risk-based pricing notice. A consumer applies to the auto lender for credit to finance the purchase of an automobile. A credit score about that consumer is not available from the consumer reporting agency from which the lender obtains credit scores. The lender nevertheless grants, extends, or provides credit to the consumer. The lender must provide a risk-based pricing notice to the consumer.

(2) Tiered pricing method—(i) In general. A person that sets the material terms of credit granted, extended, or provided to a consumer by placing the consumer within one of a discrete number of pricing tiers for a specific type of credit product, based in whole or in part on a consumer report, may comply with the requirements of paragraph (a) of this section by providing a risk-based pricing notice to each consumer who is not placed within the top pricing tier or tiers, as described below.

(ii) Four or fewer pricing tiers. If a person using the tiered pricing method has four or fewer pricing tiers, the person complies with the requirements of paragraph (a) of this section by providing a risk-based pricing notice to each consumer to whom it grants, extends, or provides credit who does not qualify for the top tier (that is, the lowest-priced tier). For example, a person that uses a tiered pricing structure with annual percentage rates of 8, 10, 12, and 14 percent would provide the risk-based pricing notice to each consumer to whom it grants, extends, or provides credit at annual percentage rates of 10, 12, and 14 percent.

(iii) Five or more pricing tiers. If a person using the tiered pricing method has five or more pricing tiers, the person complies with the requirements of paragraph (a) of this section by providing a risk-based pricing notice to each consumer to whom it grants, extends, or provides credit who does not qualify for the top two tiers (that is, the two lowest-priced tiers) and any other tier that, together with the top tiers, comprise no less than the top 30 percent but no more than the top 40 percent of the total number of tiers. Each consumer placed within the remaining tiers must receive a risk-based pricing notice. For example, if a person has nine pricing tiers, the top three tiers (that is, the three lowest-priced tiers) comprise no less than the top 30 percent but no more than the top 40 percent of the tiers. Therefore, a person using this method would provide a risk-based pricing notice to each consumer to whom it grants, extends, or provides credit who is placed within the bottom six tiers.

(c) Application to credit card issuers—(1) In general. A credit card issuer subject to the requirements of paragraph (a) of this section may use one of the methods set forth in paragraph (b) of this section to identify consumers to whom it must provide a risk-based pricing notice. Alternatively, a credit card issuer may satisfy its obligations under paragraph (a) of this section by providing a risk-based pricing notice to a consumer when—

(i) A consumer applies for a credit card either in connection with an application program, such as a direct-
mail offer or a take-one application, or in response to a solicitation under 12 CFR 226.5a, and more than a single possible purchase annual percentage rate may apply under the program or solicitation; and

(ii) Based in whole or in part on a consumer report, the credit card issuer provides a credit card to the consumer with an annual percentage rate referenced in §222.71(n)(1)(ii) that is greater than the lowest annual percentage rate referenced in §222.71(n)(1)(ii) available in connection with the application or solicitation.

(2) No requirement to compare different offers. A credit card issuer is not subject to the requirements of paragraph (a) of this section and is not required to provide a risk-based pricing notice to a consumer if—

(i) The consumer applies for a credit card for which the card issuer provides a single annual percentage rate referenced in §222.71(n)(1)(ii), excluding a temporary initial rate that is lower than the rate that will apply after the temporary rate expires and a penalty rate that will apply upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit; or

(ii) The credit card issuer offers the consumer the lowest annual percentage rate referenced in §222.71(n)(1)(ii) available under the credit card offer for which the consumer applied, even if a lower annual percentage rate referenced in §222.71(n)(1)(ii) is available under a different credit card offer issued by the card issuer.

(3) Examples. (i) A credit card issuer sends a solicitation to the consumer that discloses several possible purchase annual percentage rates that may apply, such as 10, 12, or 14 percent, or a range of purchase annual percentage rates from 10 to 14 percent. The consumer applies for a credit card in response to the solicitation. The card issuer provides a credit card to the consumer with a purchase annual percentage rate of 12 percent based in whole or in part on a consumer report. Unless an exception applies under §222.74, the card issuer may satisfy its obligations under paragraph (a) of this section by providing a risk-based pricing notice to the consumer because the consumer received credit at a purchase annual percentage rate greater than the lowest purchase annual percentage rate available under that solicitation.

(ii) The same facts as in the example in paragraph (c)(3)(i) of this section, except that the card issuer provides a credit card to the consumer at a purchase annual percentage rate of 10 percent. The card issuer is not required to provide a risk-based pricing notice to the consumer even if, under a different credit card solicitation, that consumer or other consumers might qualify for a purchase annual percentage rate of 8 percent.

(d) Account review—(1) In general. Except as otherwise provided in this subpart, a person is subject to the requirements of paragraph (a) of this section and must provide a risk-based pricing notice to a consumer in the form and manner required by this subpart if the person—

(i) Uses a consumer report in connection with a review of credit that has been extended to the consumer; and

(ii) Based in whole or in part on the consumer report, increases the annual percentage rate (the annual percentage rate referenced in §222.71(n)(1)(ii) in the case of a credit card).

(2) Example. A credit card issuer periodically obtains consumer reports for the purpose of reviewing the terms of credit it has extended to consumers in connection with credit cards. As a result of this review, the credit card issuer increases the purchase annual percentage rate applicable to a consumer’s credit card based in whole or in part on information in a consumer report. The credit card issuer is subject to the requirements of paragraph (a) of this section and must provide a risk-based pricing notice to the consumer.

§222.73 Content, form, and timing of risk-based pricing notices.

(a) Content of the notice—(1) In general. The risk-based pricing notice required by §222.72(a) or (c) must include:

(i) A statement that a consumer report (or credit report) includes information about the consumer’s credit history and the type of information included in that history;
(2) Account review. The risk-based pricing notice required by §222.72(d) must include:

(i) A statement that a consumer report (or credit report) includes information about the consumer’s credit history and the type of information included in that credit history;

(ii) A statement that the person has conducted a review of the account using information from a consumer report;

(iii) A statement that as a result of the review, the annual percentage rate on the account has been increased based on information from a consumer report;

(iv) A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the report;

(v) The identity of each consumer reporting agency that furnished a consumer report used in the account review;

(vi) A statement that federal law gives the consumer the right to obtain a copy of a consumer report from the consumer reporting agency or agencies identified in the notice without charge for 60 days after receipt of the notice;

(vii) A statement informing the consumer how to obtain a consumer report from the consumer reporting agency or agencies identified in the notice and providing contact information (including a toll-free telephone number, where applicable) specified by the consumer reporting agency or agencies;

(viii) A statement directing consumers to the Web sites of the Federal Reserve Board and Federal Trade Commission to obtain more information about consumer reports; and

(ix) If a credit score of the consumer whose extension of credit is under review is used in increasing the annual percentage rate:

(A) A statement that a credit score is a number that takes into account information in a consumer report, that the consumer’s credit score was used to set the terms of credit offered, and that a credit score can change over time to reflect changes in the consumer’s credit history;

(B) The credit score used by the person making the credit decision;

(C) The range of possible credit scores under the model used to generate the credit score;

(D) All of the key factors that adversely affected the credit score, which shall not exceed four key factors, except that if one of the key factors is the number of enquiries made with respect to the consumer report, the number of key factors shall not exceed five;

(E) The date on which the credit score was created; and

(F) The name of the consumer reporting agency or other person that provided the credit score.
(A) A statement that a credit score is a number that takes into account information in a consumer report, that the consumer’s credit score was used to set the terms of credit offered, and that a credit score can change over time to reflect changes in the consumer’s credit history;

(B) The credit score used by the person in making the credit decision;

(C) The range of possible credit scores under the model used to generate the credit score;

(D) All of the key factors that adversely affected the credit score, which shall not exceed four key factors, except that if one of the key factors is the number of enquiries made with respect to the consumer report, the number of key factors shall not exceed five;

(E) The date on which the credit score was created; and

(F) The name of the consumer reporting agency or other person that provided the credit score.

(b) Form of the notice—(1) In general. The risk-based pricing notice required by §222.72(a), (c), or (d) must be:

(i) Clear and conspicuous; and

(ii) Provided to the consumer in oral, written, or electronic form.

(2) Model forms. Model forms of the risk-based pricing notice required by §222.72(a) and (c) are contained in Appendices H–1 and H–6 of this part. Appropriate use of Model Form H–1 or H–6 is deemed to comply with the requirements of §222.72(a) and (c). Model forms of the risk-based pricing notice required by §222.72(d) are contained in Appendices H–2 and H–7 of this part. Appropriate use of Model Form H–2 or H–7 is deemed to comply with the requirements of §222.72(d). Use of the model forms is optional.

(c) Timing—(1) General. Except as provided in paragraph (c)(3) of this section, a risk-based pricing notice must be provided to the consumer—

(i) In the case of a grant, extension, or other provision of closed-end credit, before consummation of the transaction, but not earlier than the time the decision to approve an application for, or a grant, extension, or other provision of, credit, is communicated to the consumer by the person required to provide the notice;

(ii) In the case of credit granted, extended, or provided under an open-end credit plan, before the first transaction is made under the plan, but not earlier than the time the decision to approve an application for, or a grant, extension, or other provision of, credit, is communicated to the consumer by the person required to provide the notice; or

(iii) In the case of a review of credit that has been extended to the consumer, at the time the decision to increase the annual percentage rate (annual percentage rate referenced in §§222.71(n)(1)(ii) in the case of a credit card) based on a consumer report is communicated to the consumer by the person required to provide the notice, or if no notice of the increase in the annual percentage rate is provided to the consumer prior to the effective date of the change in the annual percentage rate (to the extent permitted by law), no later than five days after the effective date of the change in the annual percentage rate.
§ 222.74 Exceptions.

(a) Application for specific terms—(1) In general. A person is not required to provide a risk-based pricing notice to the consumer under §222.72(a) or (c) if the consumer applies for specific material terms and is granted those terms, unless those terms were specified by the person using a consumer report after the consumer applied for or requested credit and after the person obtained the consumer report. For purposes of this section, “specific material terms” means a single material term, or set of material terms, such as an annual percentage rate of 10 percent, and not a range of alternatives, such as an annual percentage rate that may be 8, 10, or 12 percent, or between 8 and 12 percent.

(2) Example. A consumer receives a firm offer of credit from a credit card issuer. The terms of the firm offer are based in whole or in part on information from a consumer report that the credit card issuer obtained under the FCRA’s firm offer of credit provisions. The solicitation offers the consumer a credit card with a single purchase annual percentage rate of 12 percent. The consumer applies for and receives a credit card with an annual percentage rate of 12 percent. Other customers
§ 222.74

with the same credit card have a purchase annual percentage rate of 10 percent. The exception applies because the consumer applied for specific material terms and was granted those terms. Although the credit card issuer specified the annual percentage rate in the firm offer of credit based in whole or in part on a consumer report, the credit card issuer specified that material term before, not after, the consumer applied for or requested credit.

(b) Adverse action notice. A person is not required to provide a risk-based pricing notice to the consumer under § 222.72(a), (c), or (d) if the person provides an adverse action notice to the consumer under section 615(a) of the FCRA.

(c) Prescreened solicitations—(1) In general. A person is not required to provide a risk-based pricing notice to the consumer under § 222.72(a) or (c) if the person:

(i) Obtains a consumer report that is a prescreened list as described in section 604(c)(2) of the FCRA; and

(ii) Uses the consumer report for the purpose of making a firm offer of credit to the consumer.

(2) More favorable material terms. This exception applies to any firm offer of credit offered by a person to a consumer, even if the person makes other firm offers of credit to other consumers on more favorable material terms.

(3) Example. A credit card issuer obtains two prescreened lists from a consumer reporting agency. One list includes consumers with high credit scores. The other list includes consumers with low credit scores. The issuer mails a firm offer of credit to the high credit score consumers with a single purchase annual percentage rate of 10 percent. The issuer also mails a firm offer of credit to the low credit score consumers with a single purchase annual percentage rate of 14 percent. The credit card issuer is not required to provide a risk-based pricing notice to a consumer under § 222.72(a) or (c) if:

(i) The consumer requests from the person an extension of credit that is or will be secured by one to four units of residential real property; and

(ii) The person provides to each consumer described in paragraph (d)(1)(i) of this section a notice that contains the following—

(A) A statement that a consumer report (or credit report) is a record of the consumer’s credit history and includes information about whether the consumer pays his or her obligations on time and how much the consumer owes to creditors;

(B) A statement that a credit score is a number that takes into account information in a consumer report and that a credit score can change over time to reflect changes in the consumer’s credit history;

(C) A statement that the consumer’s credit score can affect whether the consumer can obtain credit and what the cost of that credit will be;

(D) The information required to be disclosed to the consumer pursuant to section 609(g) of the FCRA;

(E) The distribution of credit scores among consumers who are scored under the same scoring model that is used to generate the consumer’s credit score using the same scale as that of the credit score that is provided to the consumer, presented in the form of a bar graph containing a minimum of six bars that illustrates the percentage of consumers with credit scores within the range of scores reflected in each bar or by other clear and readily understandable graphical means, or a clear and readily understandable statement informing the consumer how his or her credit score compares to the scores of other consumers. Use of a graph or statement obtained from the person providing the credit score that meets the requirements of this paragraph (d)(1)(i)(E) is deemed to comply with this requirement;

(F) A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the report.

(d) Loans secured by residential real property—credit score disclosure. (1) In general. A person is not required to provide a risk-based pricing notice to a consumer under § 222.72(a) or (c) if:

(i) The consumer requests from the person an extension of credit that is or will be secured by one to four units of residential real property; and

(ii) The person provides to each consumer described in paragraph (d)(1)(i) of this section a notice that contains the following—

(A) A statement that a consumer report (or credit report) is a record of the consumer’s credit history and includes information about whether the consumer pays his or her obligations on time and how much the consumer owes to creditors;

(B) A statement that a credit score is a number that takes into account information in a consumer report and that a credit score can change over time to reflect changes in the consumer’s credit history;

(C) A statement that the consumer’s credit score can affect whether the consumer can obtain credit and what the cost of that credit will be;

(D) The information required to be disclosed to the consumer pursuant to section 609(g) of the FCRA;

(E) The distribution of credit scores among consumers who are scored under the same scoring model that is used to generate the consumer’s credit score using the same scale as that of the credit score that is provided to the consumer, presented in the form of a bar graph containing a minimum of six bars that illustrates the percentage of consumers with credit scores within the range of scores reflected in each bar or by other clear and readily understandable graphical means, or a clear and readily understandable statement informing the consumer how his or her credit score compares to the scores of other consumers. Use of a graph or statement obtained from the person providing the credit score that meets the requirements of this paragraph (d)(1)(i)(E) is deemed to comply with this requirement;

(F) A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the report;
(G) A statement that federal law gives the consumer the right to obtain copies of his or her consumer reports directly from the consumer reporting agencies, including a free report from each of the nationwide consumer reporting agencies once during any 12-month period;

(H) Contact information for the centralized source from which consumers may obtain their free annual consumer reports; and

(I) A statement directing consumers to the Web sites of the Federal Reserve Board and Federal Trade Commission to obtain more information about consumer reports.

(2) Form of the notice. The notice described in paragraph (d)(1)(ii) of this section must be:

(i) Clear and conspicuous;

(ii) Provided on or with the notice required by section 609(g) of the FCRA;

(iii) Segregated from other information provided to the consumer, except for the notice required by section 609(g) of the FCRA; and

(iv) Provided to the consumer in writing and in a form that the consumer may keep.

(3) Timing. The notice described in paragraph (d)(1)(ii) of this section must be provided to the consumer at the time the disclosure required by section 609(g) of the FCRA is provided to the consumer, but in any event at or before consummation in the case of closed-end credit or before the first transaction is made under an open-end credit plan.

(4) Multiple credit scores—(i) In General. When a person obtains two or more credit scores from consumer reporting agencies and uses one of those credit scores in setting the material terms of credit granted, extended, or otherwise provided to a consumer, for example, by using the low, middle, high, or most recent score, the notice described in paragraph (d)(1)(ii) of this section must include that credit score and the other information required by that paragraph. When a person obtains two or more credit scores from consumer reporting agencies and uses multiple credit scores in setting the material terms of credit granted, extended, or otherwise provided to a consumer, for example, by computing the average of all the credit scores obtained, the notice described in paragraph (d)(1)(ii) of this section must include one of those credit scores and the other information required by that paragraph. The notice may, at the person’s option, include more than one credit score, along with the additional information specified in paragraph (d)(1)(ii) of this section for each credit score disclosed.

(ii) Examples. (A) A person that uses consumer reports to set the material terms of mortgage credit granted, extended, or provided to consumers regularly requests credit scores from several consumer reporting agencies and uses the low score when determining the material terms it will offer to the consumer. That person must disclose the low score in the notice described in paragraph (d)(1)(ii) of this section.

(B) A person that uses consumer reports to set the material terms of mortgage credit granted, extended, or provided to consumers regularly requests credit scores from several consumer reporting agencies, each of which it uses in an underwriting program in order to determine the material terms it will offer to the consumer. That person may choose one of these scores to include in the notice described in paragraph (d)(1)(ii) of this section.

(5) Model form. A model form of the notice described in paragraph (d)(1)(ii) of this section consolidated with the notice required by section 609(g) of the FCRA is contained in Appendix H–3 of this part. Appropriate use of Model Form H–3 is deemed to comply with the requirements of §222.74(d). Use of the model form is optional.

(e) Other extensions of credit—credit score disclosure—(1) In general. A person is not required to provide a risk-based pricing notice to a consumer under §222.72(a) or (c) if:

(i) The consumer requests from the person an extension of credit other than credit that is or will be secured by one to four units of residential real property; and

(ii) The person provides to each consumer described in paragraph (e)(1)(i) of this section a notice that contains the following—

(A) A statement that a consumer report (or credit report) is a record of the
§ 222.74 12 CFR Ch. II (1–1–13 Edition)

consumer's credit history and includes information about whether the consumer pays his or her obligations on time and how much the consumer owes to creditors;

(B) A statement that a credit score is a number that takes into account information in a consumer report and that a credit score can change over time to reflect changes in the consumer's credit history;

(C) A statement that the consumer's credit score can affect whether the consumer can obtain credit and what the cost of that credit will be;

(D) The current credit score of the consumer or the most recent credit score of the consumer that was previously calculated by the consumer reporting agency for a purpose related to the extension of credit;

(E) The range of possible credit scores under the model used to generate the credit score;

(F) The distribution of credit scores among consumers who are scored under the same scoring model that is used to generate the consumer's credit score using the same scale as that of the credit score that is provided to the consumer, presented in the form of a bar graph containing a minimum of six bars that illustrates the percentage of consumers with credit scores within the range of scores reflected in each bar, or by other clear and readily understandable graphical means, or a clear and readily understandable statement informing the consumer how his or her credit score compares to the scores of other consumers. Use of a graph or statement obtained from the person providing the credit score that meets the requirements of this paragraph (e)(1)(ii)(F) is deemed to comply with this requirement;

(G) The date on which the credit score was created;

(H) The name of the consumer reporting agency or other person that provided the credit score;

(I) A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the report;

(J) A statement that federal law gives the consumer the right to obtain copies of his or her consumer reports directly from the consumer reporting agencies, including a free report from each of the nationwide consumer reporting agencies once during any 12-month period;

(K) Contact information for the centralized source from which consumers may obtain their free annual consumer reports; and

(L) A statement directing consumers to the web sites of the Federal Reserve Board and Federal Trade Commission to obtain more information about consumer reports.

(2) Form of the notice. The notice described in paragraph (e)(1)(ii) of this section must be:

(i) Clear and conspicuous;

(ii) Segregated from other information provided to the consumer; and

(iii) Provided to the consumer in writing and in a form that the consumer may keep.

(3) Timing. The notice described in paragraph (e)(1)(ii) of this section must be provided to the consumer as soon as reasonably practicable after the credit score has been obtained, but in any event at or before consummation in the case of closed-end credit or before the first transaction is made under an open-end credit plan.

(4) Multiple credit scores—(i) In General. When a person obtains two or more credit scores from consumer reporting agencies and uses one of those credit scores in setting the material terms of credit granted, extended, or otherwise provided to a consumer, for example, by using the low, middle, high, or most recent score, the notice described in paragraph (e)(1)(ii) of this section must include that credit score and the other information required by that paragraph. When a person obtains two or more credit scores from consumer reporting agencies and uses multiple credit scores in setting the material terms of credit granted, extended, or otherwise provided to a consumer, for example, by computing the average of all the credit scores obtained, the notice described in paragraph (e)(1)(ii) of this section must include one of those credit scores and the other information required by that paragraph. The notice may, at the person's option, include more than one credit score,
Federal Reserve System

§ 222.74

along with the additional information specified in paragraph (e)(1)(ii) of this section for each credit score disclosed.

(ii) Examples. The manner in which multiple credit scores are to be disclosed under this section are substantially identical to the manner set forth in the examples contained in paragraph (d)(4)(ii) of this section.

(5) Model form. A model form of the notice described in paragraph (e)(1)(ii) of this section is contained in Appendix H-4 of this part. Appropriate use of Model Form H-4 is deemed to comply with the requirements of § 222.74(e). Use of the model form is optional.

(f) Credit score not available—(1) In general. A person is not required to provide a risk-based pricing notice to a consumer under § 222.72(a) or (c) if the person:

(i) Regularly obtains credit scores from a consumer reporting agency and provides credit score disclosures to consumers in accordance with paragraphs (d) or (e) of this section, but a credit score is not available from the consumer reporting agency from which the person regularly obtains credit scores for a consumer to whom the person grants, extends, or provides credit;

(ii) Does not obtain a credit score from another consumer reporting agency in connection with granting, extending, or providing credit to the consumer; and

(iii) Provides to the consumer a notice that contains the following—

(A) A statement that a consumer report (or credit report) includes information about the consumer’s credit history and the type of information included in that history;

(B) A statement that a credit score is a number that takes into account information in a consumer report and that a credit score can change over time in response to changes in the consumer’s credit history;

(C) A statement that credit scores are important because consumers with higher credit scores generally obtain more favorable credit terms;

(D) A statement that not having a credit score can affect whether the consumer can obtain credit and what the cost of that credit will be;

(E) A statement that a credit score about the consumer was not available from a consumer reporting agency, which must be identified by name, generally due to insufficient information regarding the consumer’s credit history;

(F) A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the consumer report;

(G) A statement that federal law gives the consumer the right to obtain copies of his or her consumer reports directly from the consumer reporting agencies, including a free consumer report from each of the nationwide consumer reporting agencies once during any 12-month period;

(H) The contact information for the centralized source from which consumers may obtain their free annual consumer reports; and

(1) A statement directing consumers to the web sites of the Federal Reserve Board and Federal Trade Commission to obtain more information about consumer reports.

(2) Example. A person that uses consumer reports to set the material terms of non-mortgage credit granted, extended, or provided to consumers regularly requests credit scores from a particular consumer reporting agency and provides those credit scores and additional information to consumers to satisfy the requirements of paragraph (e) of this section. That consumer reporting agency provides to the person a consumer report on a particular consumer that contains one trade line, but does not provide the person with a credit score on that consumer. If the person does not obtain a credit score from another consumer reporting agency and, based in whole or in part on information in a consumer report, grants, extends, or provides credit to the consumer, the person may provide the notice described in paragraph (f)(1)(iii) of this section. If, however, the person obtains a credit score from another consumer reporting agency, the person may not rely upon the exception in paragraph (f) of this section, but may satisfy the requirements of paragraph (e) of this section.
§ 222.75 Rules of construction.

For purposes of this subpart, the following rules of construction apply:

(a) One notice per credit extension. A consumer is entitled to no more than one risk-based pricing notice under § 222.72(a) or (c), or one notice under § 222.74(d), (e), or (f), for each grant, extension, or other provision of credit. Notwithstanding the foregoing, even if a consumer has previously received a risk-based pricing notice in connection with a grant, extension, or other provision of credit, another risk-based pricing notice is required if the conditions set forth in § 222.72(d) have been met.

(b) Multi-party transactions—(1) Initial creditor. The person to whom a credit obligation is initially payable must provide the risk-based pricing notice described in § 222.72(a) or (c), or satisfy the requirements for and provide the notice required under one of the exceptions in § 222.74(d), (e), or (f), even if that person immediately assigns the credit agreement to a third party and is not the source of funding for the credit.

(2) Purchasers or assignees. A purchaser or assignee of a credit contract with a consumer is not subject to the requirements of this subpart and is not required to provide the risk-based pricing notice described in § 222.72(a) or (c), or satisfy the requirements for and provide the notice required under one of the exceptions in § 222.74(d), (e), or (f).

(c) Multiple consumers—(1) Risk-based pricing notices. In a transaction involving two or more consumers who are granted, extended, or otherwise provided credit, a person must provide a notice to each consumer to satisfy the requirements of § 222.72(h). Whether the consumers have the same address or not, the person must provide a separate notice to each consumer if a notice includes a credit score(s). Each separate notice that includes a credit score(s) must contain only the credit score(s) of the consumer to whom the notice is provided, and not the credit score(s) of the other consumer. If the

(2) Form of the notice. The notice described in paragraph (f)(1)(iii) of this section must be:

(i) Clear and conspicuous;

(ii) Segregated from other information provided to the consumer; and

(iii) Provided to the consumer in writing and in a form that the consumer may keep.

(4) Timing. The notice described in paragraph (f)(1)(iii) of this section must be provided to the consumer as soon as reasonably practicable after the person has requested the credit score, but in any event not later than consummation of a transaction in the case of closed-end credit or when the first transaction is made under an open-end credit plan.

(5) Model form. A model form of the notice described in paragraph (f)(1)(iii) of this section is contained in Appendix H-5 of this part. Appropriate use of Model Form H-5 is deemed to comply with the requirements of § 222.74(f). Use of the model form is optional.
consumers have the same address, and
the notice does not include a credit
score(s), a person may satisfy the re-
quirements by providing a single notice
addressed to both consumers.

(2) Credit score disclosure notices. In a
transaction involving two or more con-
sumers who are granted, extended, or
otherwise provided credit, a person
must provide a separate notice to each
consumer to satisfy the exceptions in
§222.74(d), (e), or (f). Whether the con-
sumers have the same address or not,
the person must provide a separate no-
tice to each consumer. Each separate
notice must contain only the credit
score(s) of the consumer to whom the
notice is provided, and not the credit
score(s) of the other consumer.

(3) Examples. (i) Two consumers joint-
ly apply for credit with a creditor. The
creditor obtains credit scores on both
consumers. Based in part on the credit
scores, the creditor grants credit to the
consumers on material terms that are
materially less favorable than the most
favorable terms available to other con-
sumers from the creditor. The creditor
provides risk-based pricing notices to
satisfy its obligations under this sub-
part. The creditor must provide a sepa-
rate risk-based pricing notice to each
consumer whether the consumers have
the same address or not. Each risk-
based pricing notice must contain only
the credit score(s) of the consumer to
whom the notice is provided.

(ii) Two consumers jointly apply for
credit with a creditor. The two con-
sumers reside at the same address. The
creditor obtains credit scores on each
of the two consumer applicants. The
creditor grants credit to the con-
sumers. The creditor provides credit
score disclosure notices to satisfy its ob-
ligations under this subpart. Even
though the two consumers reside at
the same address, the creditor must
provide a separate credit score disclo-
sure notice to each of the consumers. Each
notice must contain only the credit
score of the consumer to whom the
notice is provided.

§222.82 Duties of users regarding ad-
dress discrepancies.

(a) Scope. This section applies to a
user of consumer reports (user) that re-
ceives a notice of address discrepancy
from a consumer reporting agency de-
scribed in 15 U.S.C. 1681a(p), and that is
a member bank of the Federal Reserve
System (other than a national bank)
and its respective operating subsidi-
daries, a branch or agency of a foreign
bank (other than a Federal branch, Fed-
eral agency, or insured State
branch of a foreign bank), commercial
lending company owned or controlled
by a foreign bank, and an organization
operating under section 25 or 25A of the
Federal Reserve Act (12 U.S.C. 601 et
seq., and 611 et seq.).

(b) Definition. For purposes of this
section, a notice of address discrepancy
means a notice sent to a user by a con-
sumer reporting agency described in 15
U.S.C. 1681a(p) pursuant to 15 U.S.C.
1681c(h)(1), that informs the user of a
substantial difference between the ad-
dress for the consumer that the user
provided to request the consumer re-
port and the address(es) in the agency’s
file for the consumer.

(c) Reasonable belief.—(1) Requirement
to form a reasonable belief. A user must
develop and implement reasonable poli-
cies and procedures designed to enable
the user to form a reasonable belief
that a consumer report relates to the
consumer about whom it has requested
the report, when the user receives a no-
tice of address discrepancy.

(2) Examples of reasonable policies and
procedures. (i) Comparing the infor-
mation in the consumer report provided
by the consumer reporting agency with
information the user:

(A) Obtains and uses to verify
the consumer’s identity in accordance
with the requirements of the Customer
Identification Program (CIP) rules imple-
menting 31 U.S.C. 5318(1) (31 CFR
103.121);
(B) Maintains in its own records, such as applications, change of address notifications, other customer account records, or retained CIP documentation; or
(C) Obtains from third-party sources; or
(ii) Verifying the information in the consumer report provided by the consumer reporting agency with the consumer.
(d) Consumer’s address—(1) Requirement to furnish consumer’s address to a consumer reporting agency. A user must develop and implement reasonable policies and procedures for furnishing an address for the consumer that the user has reasonably confirmed is accurate to the consumer reporting agency described in 15 U.S.C. 1681a(p) from whom it received the notice of address discrepancy when the user:
(i) Can form a reasonable belief that the consumer report relates to the consumer about whom the user requested the report;
(ii) Establishes a continuing relationship with the consumer; and
(iii) Regularly and in the ordinary course of business furnishes information to the consumer reporting agency from which the notice of address discrepancy relating to the consumer was obtained.
(2) Examples of confirmation methods. The user may reasonably confirm an address is accurate by:
(i) Verifying the address with the consumer about whom it has requested the report;
(ii) Reviewing its own records to verify the address of the consumer;
(iii) Verifying the address through third-party sources; or
(iv) Using other reasonable means.
(3) Timing. The policies and procedures developed in accordance with paragraph (d)(1) of this section must provide that the user will furnish the consumer's address that the user has reasonably confirmed is accurate to the consumer reporting agency described in 15 U.S.C. 1681a(p) as part of the information it regularly furnishes for the reporting period in which it establishes a relationship with the consumer.

§ 222.90 Duties regarding the detection, prevention, and mitigation of identity theft.

(a) Scope. This section applies to financial institutions and creditors that are member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal agencies and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., 611 et seq.).
(b) In general. You must properly dispose of any consumer information that you maintain or otherwise possess in accordance with the Interagency Guidelines Establishing Information Security Standards, as required under sections 208.3(d) (Regulation H), 211.5(l) and 211.24(i) (Regulation K) of this chapter, to the extent that you are covered by the scope of the Guidelines.
(c) Rule of construction. Nothing in this section shall be construed to:
(1) Require you to maintain or destroy any record pertaining to a consumer that is not imposed under any other law; or
(2) Alter or affect any requirement imposed under any other provision of law to maintain or destroy such a record.

Subpart J—Identity Theft Red Flags

SOURCE: Reg. V, 72 FR 63758, Nov. 9, 2007, unless otherwise noted.

§ 222.83 Disposal of consumer information.

(a) Definitions as used in this section.
(1) You means member banks of the Federal Reserve System (other than national banks) and their respective operating subsidiaries, branches and agencies of foreign banks (other than Federal branches, Federal agencies and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., 611 et seq.).

(Reg. V, 72 FR 6756, Nov. 9, 2007, as amended at 74 FR 22642, May 14, 2009)
controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq., and 611 et seq.).

(b) Definitions. For purposes of this section and appendix J, the following definitions apply:

(1) Account means a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purposes. Account includes:
   (i) An extension of credit, such as the purchase of property or services involving a deferred payment; and
   (ii) A deposit account.

(2) The term board of directors includes:
   (i) In the case of a branch or agency of a foreign bank, the managing official in charge of the branch or agency; and
   (ii) In the case of any other creditor that does not have a board of directors, a designated employee at the level of senior management.

(3) Covered account means:
   (i) An account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account; and
   (ii) Any other account that the financial institution or creditor offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation risks.

(4) Credit has the same meaning as in 15 U.S.C. 1681a(r)(5).

(5) Creditor has the same meaning as in 15 U.S.C. 1681a(r)(5), and includes lenders such as banks, finance companies, automobile dealers, mortgage brokers, utility companies, and telecommunications companies.

(6) Customer means a person that has a covered account with a financial institution or creditor.

(7) Financial institution has the same meaning as in 15 U.S.C. 1681a(t).

(8) Identity theft has the same meaning as in 16 CFR 603.2(a).

(9) Red Flag means a pattern, practice, or specific activity that indicates the possible existence of identity theft.

(10) Service provider means a person that provides a service directly to the financial institution or creditor.

(c) Periodic Identification of Covered Accounts. Each financial institution or creditor must periodically determine whether it offers or maintains covered accounts. As a part of this determination, a financial institution or creditor must conduct a risk assessment to determine whether it offers or maintains covered accounts described in paragraph (b)(3)(ii) of this section, taking into consideration:

   (1) The methods it provides to open its accounts;
   (2) The methods it provides to access its accounts; and
   (3) Its previous experiences with identity theft.

(d) Establishment of an Identity Theft Prevention Program—(1) Program requirement. Each financial institution or creditor that offers or maintains one or more covered accounts must develop and implement a written Identity Theft Prevention Program (Program) that is designed to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or any existing covered account. The Program must be appropriate to the size and complexity of the financial institution or creditor and the nature and scope of its activities.

   (2) Elements of the Program. The Program must include reasonable policies and procedures to:

      (i) Identify relevant Red Flags for the covered accounts that the financial institution or creditor offers or maintains and incorporate those Red Flags into its Program;
      (ii) Detect Red Flags that have been incorporated into the Program of the financial institution or creditor;
      (iii) Respond appropriately to any Red Flags that are detected pursuant to paragraph (d)(2)(ii) of this section to prevent and mitigate identity theft; and

      (iv) Comply with any applicable federal, state, and local laws, regulations, orders, or guidelines related to the prevention and mitigation of identity theft.
(iv) Ensure the Program (including the Red Flags determined to be relevant) is updated periodically, to reflect changes in risks to customers and to the safety and soundness of the financial institution or creditor from identity theft.

(e) Administration of the Program. Each financial institution or creditor that is required to implement a Program must provide for the continued administration of the Program and must:

(1) Obtain approval of the initial written Program from either its board of directors or an appropriate committee of the board of directors;
(2) Involve the board of directors, an appropriate committee thereof, or a designated employee at the level of senior management in the oversight, development, implementation and administration of the Program;
(3) Train staff, as necessary, to effectively implement the Program; and
(4) Exercise appropriate and effective oversight of service provider arrangements.

(f) Guidelines. Each financial institution or creditor that is required to implement a Program must consider the guidelines in appendix J of this part and include in its Program those guidelines that are appropriate.

§ 222.91 Duties of card issuers regarding changes of address.

(a) Scope. This section applies to a person described in §222.90(a) that issues a debit or credit card (card issuer).

(b) Definitions. For purposes of this section:

(1) Cardholder means a consumer who has been issued a credit or debit card.
(2) Clear and conspicuous means reasonably understandable and designed to call attention to the nature and significance of the information presented.

(c) Address validation requirements. A card issuer must establish and implement reasonable policies and procedures to assess the validity of a change of address if it receives notification of a change of address for a consumer’s debit or credit card account and, within a short period of time afterwards (during at least the first 30 days after it receives such notification), the card issuer receives a request for an additional or replacement card for the same account. Under these circumstances, the card issuer may not issue an additional or replacement card, until, in accordance with its reasonable policies and procedures and for the purpose of assessing the validity of the change of address, the card issuer:

(1)(i) Notifies the cardholder of the request:
(A) At the cardholder’s former address; or
(B) By any other means of communication that the card issuer and the cardholder have previously agreed to use; and
(ii) Provides to the cardholder a reasonable means of promptly reporting incorrect address changes; or
(2) Otherwise assesses the validity of the change of address in accordance with the policies and procedures the card issuer has established pursuant to §222.90 of this part.

(d) Alternative timing of address validation. A card issuer may satisfy the requirements of paragraph (c) of this section if it validates an address pursuant to the methods in paragraph (c)(1) or (c)(2) of this section when it receives an address change notification, before it receives a request for an additional or replacement card.

(e) Form of notice. Any written or electronic notice that the card issuer provides under this paragraph must be clear and conspicuous and provided separately from its regular correspondence with the cardholder.

APPENDIX A TO PART 222 [RESERVED]

APPENDIX B TO PART 222—MODEL NOTICES OF FURNISHING NEGATIVE INFORMATION

a. Although use of the model notices is not required, a financial institution that is subject to section 623(a)(7) of the FCRA shall be deemed to be in compliance with the notice requirement in section 623(a)(7) of the FCRA if the institution properly uses the model notices in this appendix (as applicable).

b. A financial institution may use Model Notice B-1 if the institution provides the notice prior to furnishing negative information to a nationwide consumer reporting agency.
APPENDIX C TO PART 222—MODEL FORMS FOR OPT-OUT NOTICES

a. Although use of the model forms is not required, use of the model forms in this appendix (as applicable) complies with the requirement in section 624 of the Act for clear, conspicuous, and concise notices.

b. Certain changes may be made to the language or format of the model forms without losing the protection from liability afforded by use of the model forms. These changes may not be so extensive as to affect the substance, clarity, or meaningful sequence of the language in the model forms. Persons making such extensive revisions will lose the safe harbor that this appendix provides. Acceptable changes include, for example:

1. Rearranging the order of the references to “your income,” “your account history,” and “your credit score.”

2. Substituting other types of information for “income,” “account history,” or “credit score” for accuracy, such as “payment history,” “credit history,” “payoff status,” or “claims history.”

3. Substituting a clearer and more accurate description of the affiliates providing or covered by the notice for phrases such as “the [ABC] group of companies,” including without limitation a statement that the entity providing the notice recently purchased the consumer’s account.

4. Substituting other types of affiliates covered by the notice for “credit card,” “insurance,” or “securities” affiliates.

5. Omitting items that are not accurate or applicable. For example, if a person does not limit the duration of the opt-out period, the notice may omit information about the renewal notice.

6. Adding a statement informing consumers how much time they have to opt out before shared eligibility information may be used to make solicitations to them.

7. Adding a statement that the consumer may exercise the right to opt out at any time.

8. Adding the following statement, if accurate: “If you previously opted out, you do not need to do so again.”

9. Providing a place on the form for the consumer to fill in identifying information, such as his or her name and address.

10. Adding disclosures regarding the treatment of opt-outs by joint consumers to comply with §222.23(a)(2) of this part.

C-1 Model Form for Initial Opt-out Notice (Single-Affiliate Notice)

C-2 Model Form for Initial Opt-out Notice (Joint Notice)

C-3 Model Form for Renewal Notice (Single-Affiliate Notice)

C-4 Model Form for Renewal Notice (Joint Notice)

C-5 Model Form for Voluntary “No Marketing” Notice

C-6 Model Form for Voluntary “No Marketing” Notice

C-1—Model Form for Initial Opt-out Notice (Single-Affiliate Notice) [Your Choice To Limit Marketing][Marketing Opt-out]

• [Name of Affiliate] is providing this notice.

• [Optional: Federal law gives you the right to limit some but not all marketing from our affiliates. Federal law also requires us to give you this notice to tell you about your choice to limit marketing from our affiliates.]

• You may limit our affiliates in the [ABC] group of companies, such as our [credit card, insurance, and securities] affiliates, from marketing their products or services to you based on your personal information that we
collect and share with them. This information includes your [income], your [account history with us], and your [credit score].

• Your choice to limit marketing offers from our affiliates will apply [until you tell us to change your choice] [(for x years from when you tell us your choice)] [for at least 5 years from when you tell us your choice]. [Include if the opt-out period expires.] Once that period expires, you will receive a renewal notice that will allow you to continue to limit marketing offers from our affiliates for [another x years] [at least another 5 years].

• [Include, if applicable, in a subsequent notice, including an annual notice, for consumers who may have previously opted out.] If you have already made a choice to limit marketing offers from our affiliates, you do not need to act again until you receive the renewal notice.

To limit marketing offers, contact us [include all that apply]:

• By telephone: 1-877-####-####
• On the Web: www.---.com
• By mail: Check the box and complete the form below, and send the form to:
[Company name]
[Company address]

Do not allow your affiliates to use my personal information to market to me.

Do not market to me.

APPENDIX D TO PART 222 [RESERVED]

APPENDIX E TO PART 222—INTERAGENCY GUIDELINES CONCERNING THE ACCURACY AND INTEGRITY OF INFORMATION FURNISHED TO CONSUMER REPORTING AGENCIES

The Board encourages voluntary furnishing of information to consumer reporting agencies. Section 222.42 of this part requires each furnisher to establish and implement reasonable written policies and procedures concerning the accuracy and integrity of the information it furnishes to consumer reporting agencies. Under §222.42(b) of this part, a furnisher must consider the guidelines set forth below in developing its policies and procedures. In establishing these policies and procedures, a furnisher may include any of its existing policies and procedures that are relevant and appropriate. Section 222.42(c) requires each furnisher to review its policies and procedures periodically and update them as necessary to ensure their continued effectiveness.

(a) Nature and Scope. Section 222.42(a) of this part requires that a furnisher’s policies and procedures be appropriate to the nature, size, complexity, and scope of the furnisher’s activities. In developing its policies and procedures, a furnisher should consider, for example:

- The types of business activities in which the furnisher engages;
- The nature and frequency of the information the furnisher provides to consumer reporting agencies; and
- The technology used by the furnisher to furnish information to consumer reporting agencies.

(b) Objectives. A furnisher’s policies and procedures should be reasonably designed to promote the following objectives:

- To furnish information about accounts or other relationships with a consumer that is accurate, such that the furnished information:
  - Identifies the appropriate consumer;
  - Reflects the terms of and liability for those accounts or other relationships; and
  - Reflects the consumer’s performance and other conduct with respect to the account or other relationship;
- To furnish information about accounts or other relationships with a consumer that has integrity, such that the furnished information:
  - Is substantiated by the furnisher’s records at the time it is furnished;
  - Is furnished in a form and manner that is designed to minimize the likelihood that the information may be incorrectly reflected in a consumer report; thus, the furnished information should:
    - Include appropriate identifying information about the consumer to whom it pertains; and
    - Be furnished in a standardized and clearly understandable form and manner and with a date specifying the time period to which the information pertains; and
  - Includes the credit limit, if applicable and in the furnisher’s possession;
- To conduct reasonable investigations of consumer disputes and take appropriate actions based on the outcome of such investigations; and
- To update the information it furnishes as necessary to reflect the current status of the consumer’s account or other relationship, including, for example:
  - Any transfer of an account (e.g., by sale or assignment for collection) to a third party; and
  - Any cure of the consumer’s failure to abide by the terms of the account or other relationship.
II. ESTABLISHING AND IMPLEMENTING POLICIES AND PROCEDURES

In establishing and implementing its policies and procedures, a furnisher should:

(a) Identify practices or activities of the furnisher that can compromise the accuracy or integrity of information furnished to consumer reporting agencies, such as by:

(1) Reviewing its existing practices and activities, including the technological means and other methods it uses to furnish information to consumer reporting agencies and the frequency and timing of its furnishing of information;

(2) Reviewing its historical records relating to accuracy or integrity or to disputes; reviewing other information relating to the accuracy or integrity of information provided by the furnisher to consumer reporting agencies; and considering the types of errors, omissions, or other problems that may have affected the accuracy or integrity of information it has furnished about consumers to consumer reporting agencies;

(3) Considering any feedback received from consumer reporting agencies, consumers, or other appropriate parties;

(4) Obtaining feedback from the furnisher’s staff; and

(5) Considering the potential impact of the furnisher’s policies and procedures on consumers.

(b) Evaluate the effectiveness of existing policies and procedures of the furnisher regarding the accuracy and integrity of information furnished to consumer reporting agencies; consider whether new, additional, or different policies and procedures are necessary; and consider whether implementation of existing policies and procedures should be modified to enhance the accuracy and integrity of information about consumers furnished to consumer reporting agencies.

(c) Evaluate the effectiveness of specific methods (including technological means) the furnisher uses to provide information to consumer reporting agencies; how those methods may affect the accuracy and integrity of the information it provides to consumer reporting agencies; and whether new, additional, or different methods (including technological means) should be used to provide information to consumer reporting agencies to enhance the accuracy and integrity of that information.

III. SPECIFIC COMPONENTS OF POLICIES AND PROCEDURES

In developing its policies and procedures, a furnisher should address the following, as appropriate:

(a) Establishing and implementing a system for furnishing information about consumers to consumer reporting agencies that is appropriate to the nature, size, complexity, and scope of the furnisher’s business operations.

(b) Using standard data reporting formats and standard procedures for compiling and furnishing data, where feasible, such as the electronic transmission of information about consumers to consumer reporting agencies.

(c) Maintaining records for a reasonable period of time, not less than any applicable recordkeeping requirement, in order to substantiate the accuracy of any information about consumers it furnishes that is subject to a direct dispute.

(d) Establishing and implementing appropriate internal controls regarding the accuracy and integrity of information about consumers furnished to consumer reporting agencies, such as by implementing standard procedures and verifying random samples of information provided to consumer reporting agencies.

(e) Training staff that participates in activities related to the furnishing of information about consumers to consumer reporting agencies to implement the policies and procedures.

(f) Providing for appropriate and effective oversight of relevant service providers whose activities may affect the accuracy or integrity of information about consumers furnished to consumer reporting agencies, such as by implementing standard procedures and verifying random samples of information provided to consumer reporting agencies.

(g) Furnishing information about consumers to consumer reporting agencies following mergers, portfolio acquisitions or sales, or other acquisitions or transfers of accounts or other obligations in a manner that prevents re-aging of information, duplicative reporting, or other problems that may similarly affect the accuracy or integrity of the information furnished.

(h) Deleting, updating, and correcting information in the furnisher’s records, as appropriate, to avoid furnishing inaccurate information.

(i) Conducting reasonable investigations of disputes.

(j) Designing technological and other means of communication with consumer reporting agencies to prevent duplicative reporting of accounts, erroneous association of information with the wrong consumer(s), and other occurrences that may compromise the accuracy or integrity of information provided to consumer reporting agencies.

(k) Providing consumer reporting agencies with sufficient identifying information in the furnisher’s possession about each consumer about whom information is furnished to enable the consumer reporting agency properly to identify the consumer.

(l) Conducting a periodic evaluation of its own practices, consumer reporting agency practices of which the furnisher is aware, investigations of disputed information, corrections of inaccurate information, means of
APPENDIX H TO PART 222—APPENDIX H—
MODEL FORMS FOR RISK-BASED
PRICING AND CREDIT SCORE DISCLOSURE EXCEPTION NOTICES

1. This appendix contains four model forms for risk-based pricing notices and three model forms for use in connection with the credit score disclosure exceptions. Each of the model forms is designated for use in a particular set of circumstances as indicated by the title of that model form.

2. Model form H–1 is for use in complying with the general risk-based pricing notice requirements in Sec. 222.72 if a credit score is not used in increasing the annual percentage rate. Model form H–2 is for risk-based pricing notices given in connection with account review if a credit score is not used in increasing the annual percentage rate. Model form H–3 is for use in connection with the credit score disclosure exception for loans secured by residential real property. Model form H–4 is for use in connection with the credit score disclosure exception for loans that are not secured by residential real property. Model form H–5 is for use in connection with the credit score disclosure exception for loans where credit score is not available. Model form H–6 is for use in complying with the general risk-based pricing notice requirements in Sec. 222.72 if a credit score is used in setting the material terms of credit. Model form H–7 is for use in connection with account review if a credit score is used in increasing the annual percentage rate. All forms contained in this appendix are models; their use is optional.

3. A person may change the forms by rearranging the format or by making technical modifications to the language of the forms, in each case without modifying the substance of the disclosures. Any such rearrangement or modification of the language of the model forms may not be so extensive as to materially affect the substance, clarity, comprehensibility, or meaningful sequence of the forms. Persons making revisions with that effect will lose the benefit of the safe harbor for appropriate use of Appendix H model forms. A person is not required to conduct consumer testing when rearranging the format of the model forms.

a. Acceptable changes include, for example
   i. Corrections or updates to telephone numbers, mailing addresses, or Web site addresses that may change over time.
   ii. The addition of graphics or icons, such as the person’s corporate logo.
   iii. Alteration of the shading or color contained in the model forms.
   iv. Use of a different form of graphical presentation to depict the distribution of credit scores.
   v. Substitution of the words “credit” and “creditor” or “finance” and “finance company” for the terms “loan” and “lender.”
   vi. Including pre-printed lists of the sources of consumer reports or consumer reporting agencies in a “check-the-box” format.
   vii. Including the name of the consumer, transaction identification numbers, a date, and other information that will assist in identifying the transaction to which the form pertains.
   viii. Including the name of an agent, such as an auto dealer or other party, when providing the “Name of the Entity Providing the Notice.”

b. Unacceptable changes include, for example
   i. Providing model forms on register receipts or interspersed with other disclosures.
   ii. Eliminating empty lines and extra spaces between sentences within the same section.
   iii. Optional language in model forms H–6 and H–7 may be used to direct the consumer to the entity (which may be a consumer reporting agency or the creditor itself, for a proprietary score that meets the definition of a credit score) that provided the credit score for any questions about the credit score, along with the entity’s contact information. Creditors may use or not use the additional language without losing the safe harbor, since the language is optional.

H–1 Model form for risk-based pricing notice.

H–2 Model form for account review risk-based pricing notice.

H–3 Model form for credit score disclosure exception for credit secured by one to four units of residential real property.

H–4 Model form for credit score disclosure exception for loans not secured by residential real property.

H–5 Model form for credit score disclosure exception for loans where credit score is not available.

H–6 Model form for risk-based pricing notice with credit score information.

H–7 Model form for account review risk-based pricing notice with credit score information.

Notice to the Home Loan Applicant

In connection with your application for a home loan, the lender must disclose to you the score that a consumer reporting agency distributed to users and the lender used in connection with your home loan, and the key factors affecting your credit scores.

The credit score is a computer generated summary calculated at the time of the request and based on information that a consumer reporting agency or lender has on file. The scores are based on data about your credit history and payment patterns. Credit scores are important because they are used to assist the lender in determining whether you will obtain a loan. They may also be used to determine what interest rate you may be offered on the mortgage. Credit scores can change over time, depending on your conduct, how your credit history and payment patterns change, and how credit scoring technologies change.

Because the score is based on information in your credit history, it is very important that you review the credit-related information that is being furnished to make sure it is accurate. Credit records may vary from one company to another.

If you have questions about your credit score or the credit information that is furnished to you, contact the consumer reporting agency at the address and telephone number provided with this notice, or contact the lender, if the lender developed or generated the credit score. The consumer reporting agency plays no part in the decision to take any action on the loan application and is unable to provide you with specific reasons for the decision on a loan application.

If you have questions concerning the terms of the loan, contact the lender.

Appendix J to Part 222—Interagency Guidelines on Identity Theft Detection, Prevention, and Mitigation

Section 222.90 of this part requires each financial institution and creditor that offers or maintains one or more covered accounts, as defined in §222.90(b)(3) of this part, to develop and provide for the continued administration of a written Program to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or any existing covered account. These guidelines are intended to assist financial institutions and creditors in the formulation and maintenance of a Program that satisfies the requirements of §222.90 of this part.

I. The Program

In designing its Program, a financial institution or creditor may incorporate, as appropriate, its existing policies, procedures, and other arrangements that control reasonably foreseeable risks to customers or to the safety and soundness of the financial institution or creditor from identity theft.

II. Identifying Relevant Red Flags

(a) Risk Factors. A financial institution or creditor should consider the following factors in identifying relevant Red Flags for covered accounts:

1. The types of covered accounts it offers or maintains;
2. The methods it provides to open its covered accounts;
3. The methods it provides to access its covered accounts; and
4. Its previous experiences with identity theft.

(b) Sources of Red Flags. Financial institutions and creditors should incorporate relevant Red Flags from sources such as:

1. Incidents of identity theft that the financial institution or creditor has experienced;
2. Methods of identity theft that the financial institution or creditor has identified that reflect changes in identity theft risks; and
3. Applicable supervisory guidance.

(c) Categories of Red Flags. The Program should include relevant Red Flags from the...
following categories, as appropriate. Examples of Red Flags from each of these categories are appended as Supplement A to this appendix J.

(1) Alerts, notifications, or other warnings received from consumer reporting agencies or service providers, such as fraud detection services;

(2) The presentation of suspicious documents;

(3) The presentation of suspicious personal identifying information, such as a suspicious address change;

(4) The unusual use of, or other suspicious activity related to, a covered account; and

(5) Notice from customers, victims of identity theft, law enforcement authorities, or other persons regarding possible identity theft in connection with covered accounts held by the financial institution or creditor.

III. Detecting Red Flags

The Program’s policies and procedures should address the detection of Red Flags in connection with the opening of covered accounts and existing covered accounts, such as by:

(a) Obtaining identifying information about, and verifying the identity of, a person opening a covered account, for example, using the policies and procedures regarding identification and verification set forth in the Customer Identification Program rules implementing 31 U.S.C. 5318(l) (31 CFR 103.121); and

(b) Authenticating customers, monitoring transactions, and verifying the validity of change of address requests, in the case of existing covered accounts.

IV. Preventing and Mitigating Identity Theft

The Program’s policies and procedures should provide for appropriate responses to the Red Flags the financial institution or creditor has detected that are commensurate with the degree of risk posed. In determining an appropriate response, a financial institution or creditor should consider aggravating factors that may heighten the risk of identity theft, such as a data security incident that results in unauthorized access to a customer’s account records held by the financial institution, creditor, or third party, or notice that a customer has provided information related to a covered account held by the financial institution or creditor to someone fraudulently claiming to represent the financial institution or creditor or to a fraudulent website. Appropriate responses may include the following:

(a) Monitoring a covered account for evidence of identity theft;

(b) Contacting the customer;

(c) Changing any passwords, security codes, or other security devices that permit access to a covered account;

(d) Reopening a covered account with a new account number;

(e) Not opening a new covered account;

(f) Closing an existing covered account;

(g) Not attempting to collect on a covered account or not selling a covered account to a debt collector;

(h) Notifying law enforcement; or

(i) Determining that no response is warranted under the particular circumstances.

V. Updating the Program

Financial institutions and creditors should update the Program (including the Red Flags determined to be relevant) periodically, to reflect changes in risks to customers or to the safety and soundness of the financial institution or creditor from identity theft, based on factors such as:

(a) The experiences of the financial institution or creditor with identity theft;

(b) Changes in methods of identity theft;

(c) Changes in methods to detect, prevent, and mitigate identity theft;

(d) Changes in the types of accounts that the financial institution or creditor offers or maintains; and

(e) Changes in the business arrangements of the financial institution or creditor, including mergers, acquisitions, alliances, joint ventures, and service provider arrangements.

VI. Methods for Administering the Program

(a) Oversight of Program. Oversight by the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management should include:

(1) Assigning specific responsibility for the Program’s implementation;

(2) Reviewing reports prepared by staff regarding compliance by the financial institution or creditor with §222.90 of this part; and

(3) Approving material changes to the Program as necessary to address changing identity theft risks.

(b) Reports. (1) In general. Staff of the financial institution or creditor responsible for development, implementation, and administration of its Program should report to the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management, at least annually, on compliance by the financial institution or creditor with §222.90 of this part.

(2) Contents of report. The report should address material matters related to the Program and evaluate issues such as: the effectiveness of the policies and procedures of the financial institution or creditor in addressing the risk of identity theft in connection with the opening of covered accounts and with respect to existing covered accounts; service provider arrangements; significant
incidents involving identity theft and management’s response; and recommendations for material changes to the Program.

(c) Oversight of service provider arrangements. Whenever a financial institution or creditor engages a service provider to perform an activity in connection with one or more covered accounts the financial institution or creditor should take steps to ensure that the activity of the service provider is conducted in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of identity theft. For example, a financial institution or creditor could require the service provider by contract to have policies and procedures to detect relevant Red Flags that may arise in the performance of the service provider’s activities, and either report the Red Flags to the financial institution or creditor, or to take appropriate steps to prevent or mitigate identity theft.

VII. Other Applicable Legal Requirements

Financial institutions and creditors should be mindful of other related legal requirements that may be applicable, such as:

(a) For financial institutions and creditors that are subject to 31 U.S.C. 5318(g), filing a Suspicious Activity Report in accordance with applicable law and regulation;

(b) Implementing any requirements under 15 U.S.C. 1681c-1(h) regarding the circumstances under which credit may be extended when the financial institution or creditor detects a fraud or active duty alert;

(c) Implementing any requirements for furnishers of information to consumer reporting agencies under 15 U.S.C. 1681a-2, for example, to correct or update inaccurate or incomplete information, and to not report information that the furnisher has reasonable cause to believe is inaccurate; and

(d) Complying with the prohibitions in 15 U.S.C. 1681m on the sale, transfer, and placement for collection of certain debts resulting from identity theft.

Supplement A to Appendix J

In addition to incorporating Red Flags from the sources recommended in section II.b. of the Guidelines in appendix J of this part, each financial institution or creditor may consider incorporating into its Program, whether singly or in combination, Red Flags from the following illustrative examples in connection with covered accounts:

Alerts, Notifications or Warnings from a Consumer Reporting Agency

1. A fraud or active duty alert is included with a consumer report.

2. A consumer reporting agency provides a notice of credit freeze in response to a request for a consumer report.

3. A consumer reporting agency provides a notice of address discrepancy, as defined in §222.82(b) of this part.

4. A consumer report indicates a pattern of activity that is inconsistent with the history and usual pattern of activity of an applicant or customer, such as:
   a. A recent and significant increase in the volume of inquiries;
   b. An unusual number of recently established credit relationships;
   c. A material change in the use of credit, especially with respect to recently established credit relationships; or
   d. An account that was closed for cause or identified for abuse of account privileges by a financial institution or creditor.

Suspicious Documents

5. Documents provided for identification appear to have been altered or forged.

6. The photograph or physical description on the identification is not consistent with the appearance of the applicant or customer presenting the identification.

7. Other information on the identification is not consistent with information provided by the person opening a new covered account or customer presenting the identification.

8. Other information on the identification is not consistent with readily accessible information that is on file with the financial institution or creditor, such as a signature card or a recent check.

9. An application appears to have been altered or forged, or gives the appearance of having been destroyed and reassembled.

Suspicious Personal Identifying Information

10. Personal identifying information provided is inconsistent when compared against external information sources used by the financial institution or creditor. For example:
   a. The address does not match any address in the consumer report; or
   b. The Social Security Number (SSN) has not been issued, or is listed on the Social Security Administration’s Death Master File.

11. Personal identifying information provided by the customer is not consistent with other personal identifying information provided by the customer. For example, there is a lack of correlation between the SSN range and date of birth.

12. Personal identifying information provided is associated with known fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:
   a. The address on an application is the same as the address provided on a fraudulent application; or
   b. The phone number on an application is the same as the number provided on a fraudulent application.
13. Personal identifying information provided is of a type commonly associated with fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:
   a. The address on an application is fictitious, a mail drop, or a prison; or
   b. The phone number is invalid, or is associated with a pager or answering service.
14. The SSN provided is the same as that submitted by other persons opening an account or other customers.
15. The address or telephone number provided is the same as or similar to the address or telephone number submitted by an unusually large number of other persons opening accounts or by other customers.
16. The person opening the covered account or the customer fails to provide all required personal identifying information on an application or in response to notification that the application is incomplete.
17. Personal identifying information provided is not consistent with personal identifying information that is on file with the financial institution or creditor.
18. For financial institutions and creditors that use challenge questions, the person opening the covered account or the customer cannot provide authenticating information beyond that which generally would be available from a wallet or consumer report.

Unusual Use of, or Suspicious Activity Related to, the Covered Account

19. Shortly following the notice of a change of address for a covered account, the institution or creditor receives a request for a new, additional, or replacement card or a cell phone, or for the addition of authorized users on the account.
20. A new revolving credit account is used in a manner commonly associated with known patterns of fraud. For example:
   a. The majority of available credit is used for cash advances or merchandise that is easily convertible to cash (e.g., electronics equipment or jewelry); or
   b. The customer fails to make the first payment or makes an initial payment but no subsequent payments.
21. A covered account is used in a manner that is not consistent with established patterns of activity on the account. There is, for example:
   a. Nonpayment when there is no history of late or missed payments;
   b. A material increase in the use of available credit;
   c. A material change in purchasing or spending patterns;
   d. A material change in electronic fund transfer patterns in connection with a deposit account; or
   e. A material change in telephone call patterns in connection with a cellular phone account.
22. A covered account that has been inactive for a reasonably lengthy period of time is used (taking into consideration the type of account, the expected pattern of usage and other relevant factors).
23. Mail sent to the customer is returned repeatedly as undeliverable although transactions continue to be conducted in connection with the customer’s covered account.
24. The financial institution or creditor is notified that the customer is not receiving paper account statements.
25. The financial institution or creditor is notified of unauthorized charges or transactions in connection with a customer’s covered account.

Notice from Customers, Victims of Identity Theft, Law Enforcement Authorities, or Other Persons Regarding Possible Identity Theft

26. The financial institution or creditor is notified by a customer, a victim of identity theft, a law enforcement authority, or any other person that it has opened a fraudulent account for a person engaged in identity theft.

(Reg. V, 72 FR 63758, Nov. 9, 2007, as amended at 74 FR 22842, May 14, 2009)

PART 223—TRANSACTIONS BETWEEN MEMBER BANKS AND THEIR AFFILIATES (REGULATION W)

Subpart A—Introduction and Definitions

Sec. 223.1 Authority, purpose, and scope.
223.2 What is an “affiliate” for purposes of sections 23A and 23B and this part?
223.3 What are the meanings of the other terms used in sections 23A and 23B and this part?

Subpart B—General Provisions of Section 23A

223.11 What is the maximum amount of covered transactions that a member bank may enter into with any single affiliate?
223.12 What is the maximum amount of covered transactions that a member bank may enter into with all affiliates?
223.13 What safety and soundness requirement applies to covered transactions?
223.14 What are the collateral requirements for a credit transaction with an affiliate?
223.15 May a member bank purchase a low-quality asset from an affiliate?
223.16 What transactions by a member bank with any person are treated as transactions with an affiliate?
Subpart C—Valuation and Timing Principles Under Section 23A

223.21 What valuation and timing principles apply to credit transactions?
223.22 What valuation and timing principles apply to asset purchases?
223.23 What valuation and timing principles apply to purchases of and investments in securities issued by an affiliate?
223.24 What valuation principles apply to extensions of credit secured by affiliate securities?

Subpart D—Other Requirements Under Section 23A

223.31 How does section 23A apply to a member bank's acquisition of an affiliate that becomes an operating subsidiary of the member bank after the acquisition?
223.32 What rules apply to financial subsidiaries of a member bank?
223.33 What rules apply to derivative transactions?

Subpart E—Exemptions from the Provisions of Section 23A

223.41 What covered transactions are exempt from the quantitative limits and collateral requirements?
223.42 What covered transactions are exempt from the quantitative limits, collateral requirements, and low-quality asset prohibition?
223.43 What are the standards under which the Board may grant additional exemptions from the requirements of section 23A?

Subpart F—General Provisions of Section 23B

223.51 What is the market terms requirement of section 23B?
223.52 What transactions with affiliates or others must comply with section 23B's market terms requirement?
223.53 What asset purchases are prohibited by section 23B?
223.54 What advertisements and statements are prohibited by section 23B?
223.55 What are the standards under which the Board may grant exemptions from the requirements of section 23B?
223.56 What transactions are exempt from the market-terms requirement of section 23B?

Subpart G—Application of Sections 23A and 23B to U.S. Branches and Agencies of Foreign Banks

223.61 How do sections 23A and 23B apply to U.S. branches and agencies of foreign banks?
§ 223.2 What is an “affiliate” for purposes of sections 23A and 23B and this part?

(a) For purposes of this part and except as provided in paragraphs (b) and (c) of this section, “affiliate” with respect to a member bank means:

(1) Parent companies. Any company that controls the member bank;

(2) Companies under common control by a parent company. Any company, including any subsidiary of the member bank, that is controlled by a company that controls the member bank;

(3) Companies under other common control. Any company, including any subsidiary of the member bank, that is controlled, directly or indirectly, by trust or otherwise, by or for the benefit of shareholders who beneficially or otherwise control, directly or indirectly, the member bank or any company that controls the member bank;

(4) Companies with interlocking directorates. Any company in which a majority of its directors, trustees, or general partners (or individuals exercising similar functions) constitute a majority of the persons holding any such office with the member bank or any company that controls the member bank;

(5) Sponsored and advised companies. Any company, including a real estate investment trust, that is sponsored and advised on a contractual basis by the member bank or an affiliate of the member bank;

(6) Investment companies. (i) Any investment company for which the member bank or any affiliate of the member bank serves as an investment adviser, as defined in section 2(a)(20) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(20)); and

(ii) Any other investment fund for which the member bank or any affiliate of the member bank serves as an investment advisor, if the member bank and its affiliates own or control in the aggregate more than 5 percent of any class of voting securities or of the equity capital of the fund;

(7) Depository institution subsidiaries. A depository institution that is a subsidiary of the member bank;

(8) Financial subsidiaries. A financial subsidiary of the member bank;

(9) Companies held under merchant banking or insurance company investment authority—(i) In general. Any company in which a holding company of the member bank owns or controls, directly or indirectly, or acting through one or more other persons, 15 percent or more of the equity capital pursuant to section 4(k)(4)(H) or (I) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H) or (I)).

(ii) General exemption. A company will not be an affiliate under paragraph (a)(9)(i) of this section if the holding company presents information to the Board that demonstrates, to the Board’s satisfaction, that the holding company does not control the company.

(iii) Specific exemptions. A company also will not be an affiliate under paragraph (a)(9)(i) of this section if:

(A) No director, officer, or employee of the holding company serves as a director, trustee, or general partner (or individuals exercising similar functions) of the company;

(B) A person that is not affiliated or associated with the holding company owns or controls a greater percentage of the equity capital of the company than is owned or controlled by the holding company, and no more than one officer or employee of the holding company serves as a director or trustee (or individual exercising similar functions) of the company; or

(C) A person that is not affiliated or associated with the holding company owns or controls more than 50 percent of the voting shares of the company, and officers and employees of the holding company do not constitute a majority of the directors or trustees (or individuals exercising similar functions) of the company.

(iv) Application of rule to private equity funds. A holding company will not be deemed to own or control the equity capital of a company for purposes of paragraph (a)(9)(i) of this section solely by virtue of an investment made by the
holding company in a private equity fund (as defined in the merchant banking subpart of the Board's Regulation Y (12 CFR 225.173(a))) that owns or controls the equity capital of the company unless the holding company controls the private equity fund under 12 CFR 225.173(d)(4).

(v) **Definition.** For purposes of this paragraph (a)(9), “holding company” with respect to a member bank means a company that controls the member bank, or a company that is controlled by shareholders that control the member bank, and all subsidiaries of the company (including any depository institution that is a subsidiary of the company).

(10) **Partnerships associated with the member bank or an affiliate.** Any partnership for which the member bank or any affiliate of the member bank causes any director, officer, or employee of the member bank or affiliate to serve as a general partner;

(11) **Subsidiaries of affiliates.** Any subsidiary of a company described in paragraphs (a)(1) through (10) of this section; and

(12) **Other companies.** Any company that the Board determines by regulation or order, or that the appropriate Federal banking agency for the member bank determines by order, to have a relationship with the member bank, or any affiliate of the member bank, such that covered transactions by the member bank with that company may be affected by the relationship to the detriment of the member bank.

(b) “Affiliate” with respect to a member bank does not include:

(1) **Subsidiaries.** Any company that is a subsidiary of the member bank, unless the company is:

(i) A depository institution;

(ii) A financial subsidiary;

(iii) Directly controlled by:

(A) One or more affiliates (other than depository institution affiliates) of the member bank; or

(B) A shareholder that controls the member bank or a group of shareholders that together control the member bank;

(iv) An employee stock option plan, trust, or similar organization that exists for the benefit of the shareholders, partners, members, or employees of the member bank or any of its affiliates; or

(v) Any other company determined to be an affiliate under paragraph (a)(12) of this section;

(2) **Bank premises.** Any company engaged solely in holding the premises of the member bank;

(3) **Safe deposit.** Any company engaged solely in conducting a safe deposit business;

(4) **Government securities.** Any company engaged solely in holding obligations of the United States or its agencies or obligations fully guaranteed by the United States or its agencies as to principal and interest; and

(5) **Companies held DPC.** Any company where control results from the exercise of rights arising out of a bona fide debt previously contracted. This exclusion from the definition of “affiliate” applies only for the period of time specifically authorized under applicable State or Federal law or regulation or, in the absence of such law or regulation, for a period of two years from the date of the exercise of such rights. The Board may authorize, upon application and for good cause shown, extensions of time for not more than one year at a time, but such extensions in the aggregate will not exceed three years.

(c) For purposes of subpart F (implementing section 23B), “affiliate” with respect to a member bank also does not include any depository institution.

§ 223.3 What are the meanings of the other terms used in sections 23A and 23B and this part?

For purposes of this part:

(a) **Aggregate amount of covered transactions** means the amount of the covered transaction about to be engaged in added to the current amount of all outstanding covered transactions.

(b) **Appropriate Federal banking agency** with respect to a member bank or other depository institution has the same meaning as in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(c) “**Bank holding company**” has the same meaning as in 12 CFR 225.2.
§ 223.3 12 CFR Ch. II (1–1–13 Edition)

(d) “Capital stock and surplus” means the sum of:

(1) A member bank’s tier 1 and tier 2 capital under the risk-based capital guidelines of the appropriate Federal banking agency, based on the member bank’s most recent consolidated Report of Condition and Income filed under 12 U.S.C. 1817(a)(3);

(2) The balance of a member bank’s allowance for loan and lease losses not included in its tier 2 capital under the risk-based capital guidelines of the appropriate Federal banking agency, based on the member bank’s most recent consolidated Report of Condition and Income filed under 12 U.S.C. 1817(a)(3); and

(3) The amount of any investment by a member bank in a financial subsidiary that counts as a covered transaction and is required to be deducted from the member bank’s capital for regulatory capital purposes.

(e) Carrying value with respect to a security means (unless otherwise provided) the value of the security on the financial statements of the member bank, determined in accordance with GAAP.

(f) Company means a corporation, partnership, limited liability company, business trust, association, or similar organization and, unless specifically excluded, includes a member bank and a depository institution.

(g) Control—(1) In general. “Control” by a company or shareholder over another company means that:

(i) The company or shareholder, directly or indirectly, or acting through one or more other persons, owns, controls, or has power to vote 25 percent or more of any class of voting securities of the other company;

(ii) The company or shareholder controls in any manner the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the other company; or

(iii) The Board determines, after notice and opportunity for hearing, that the company or shareholder, directly or indirectly, exercises a controlling influence over the management or policies of the other company.

(2) Ownership or control of shares as fiduciary. Notwithstanding any other provision of this regulation, no company will be deemed to control another company by virtue of its ownership or control of shares in a fiduciary capacity, except as provided in paragraph (a)(3) of §223.2 or if the company owning or controlling the shares is a business trust.

(3) Ownership or control of securities by subsidiary. A company controls securities, assets, or other ownership interests owned or controlled, directly or indirectly, by any subsidiary (including a subsidiary depository institution) of the company.

(4) Ownership or control of convertible instruments. A company or shareholder that owns or controls instruments (including options or warrants) that are convertible or exercisable, at the option of the holder or owner, into securities, controls the securities, unless the company or shareholder presents information to the Board that demonstrates, to the Board’s satisfaction, that the company or shareholder should not be deemed to control the securities.

(5) Ownership or control of nonvoting securities. A company or shareholder that owns or controls 25 percent or more of the equity capital of another company controls the other company, unless the company or shareholder presents information to the Board that demonstrates, to the Board’s satisfaction, that the company or shareholder does not control the other company.

(h) Covered transaction with respect to an affiliate means:

(1) An extension of credit to the affiliate;

(2) A purchase of, or an investment in, a security issued by the affiliate;

(3) A purchase of an asset from the affiliate, including an asset subject to recourse or an agreement to repurchase, except such purchases of real and personal property as may be specifically exempted by the Board by order or regulation;

(4) The acceptance of a security issued by the affiliate as collateral for an extension of credit to any person or company; and

(5) The issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of
credit, on behalf of the affiliate, a confirmation of a letter of credit issued by the affiliate, and a cross-affiliate netting arrangement.

(i) **Credit transaction** with an affiliate means:

(1) An extension of credit to the affiliate;

(2) An issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit, on behalf of the affiliate and a confirmation of a letter of credit issued by the affiliate; and

(3) A cross-affiliate netting arrangement.

(j) **Cross-affiliate netting arrangement** means an arrangement among a member bank, one or more affiliates of the member bank, and one or more nonaffiliates of the member bank in which:

(1) A nonaffiliate is permitted to deduct any obligations of an affiliate of the member bank to the nonaffiliate when settling the nonaffiliate’s obligations to the member bank; or

(2) The member bank is permitted or required to add any obligations of its affiliate to a nonaffiliate when determining the member bank’s obligations to the nonaffiliate.

(k) **“Depository institution”** means, unless otherwise noted, an insured depository institution (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)), but does not include any branch of a foreign bank. For purposes of this definition, an operating subsidiary of a depository institution is treated as part of the depository institution.

(l) **“Derivative transaction”** means any derivative contract listed in sections III.E.1.a. through d. of appendix A to 12 CFR part 225 and any similar derivative contract, including a credit derivative contract.

(m) **“Eligible affiliated mutual fund securities”** has the meaning specified in paragraph (c)(2) of §223.24.

(n) **“Equity capital”** means:

(1) With respect to a corporation, preferred stock, common stock, capital surplus, retained earnings, and accumulated other comprehensive income, less treasury stock, plus any other account that constitutes equity of the corporation; and

(2) With respect to a partnership, limited liability company, or other company, equity accounts similar to those described in paragraph (n)(1) of this section.

(o) **“Extension of credit”** to an affiliate means the making or renewal of a loan, the granting of a line of credit, or the extending of credit in any manner whatsoever, including on an intraday basis, to an affiliate. An extension of credit to an affiliate includes, without limitation:

(1) An advance to an affiliate by means of an overdraft, cash item, or otherwise;

(2) A sale of Federal funds to an affiliate;

(3) A lease that is the functional equivalent of an extension of credit to an affiliate;

(4) An acquisition by purchase, discount, exchange, or otherwise of a note or other obligation, including commercial paper or other debt securities, of an affiliate;

(5) Any increase in the amount of, extension of the maturity of, or adjustment to the interest rate term or other material term of, an extension of credit to an affiliate; and

(6) Any other similar transaction as a result of which an affiliate becomes obligated to pay money (or its equivalent).

(p) **“Financial subsidiary”**

(1) **In general.** Except as provided in paragraph (p)(2) of this section, the term “financial subsidiary” means any subsidiary of a member bank that:

(i) Engages, directly or indirectly, in any activity that national banks are not permitted to engage in directly or that is conducted under terms and conditions that differ from those that govern the conduct of such activity by national banks; and

(ii) Is not a subsidiary that a national bank is specifically authorized to own or control by the express terms of a Federal statute (other than 12 U.S.C. 24a), and not by implication or interpretation.

(2) **Exceptions.** “Financial subsidiary” does not include:

(i) A subsidiary of a member bank that is considered a financial subsidiary under paragraph (p)(1) of this section solely because the subsidiary
engages in the sale of insurance as agent or broker in a manner that is not permitted for national banks; and

(ii) A subsidiary of a State bank (other than a subsidiary described in section 46(a) of the Federal Deposit Insurance Act (12 U.S.C. 1831w(a))) that is considered a financial subsidiary under paragraph (p)(1) of this section solely because the subsidiary engages in one or more of the following activities:

(A) An activity that the State bank may engage in directly under applicable Federal and State law and that is conducted under the same terms and conditions that govern the conduct of the activity by the State bank; and

(B) An activity that the subsidiary was authorized by applicable Federal and State law to engage in prior to December 12, 2002, and that was lawfully engaged in by the subsidiary on that date.

(3) Subsidiaries of financial subsidiaries. If a company is a financial subsidiary under paragraphs (p)(1) and (p)(2) of this section, any subsidiary of such a company is also a financial subsidiary.

(q) “Foreign bank” and an “agency,” “branch,” or “commercial lending company” of a foreign bank have the same meanings as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(r) “GAAP” means U.S. generally accepted accounting principles.

(s) “General purpose credit card” has the meaning specified in paragraph (c)(4)(ii) of §223.16.

(t) In contemplation. A transaction between a member bank and a nonaffiliate is presumed to be “in contemplation” of the nonaffiliate becoming an affiliate of the member bank if the member bank enters into the transaction with the nonaffiliate after the execution of, or commencement of negotiations designed to result in, an agreement under the terms of which the nonaffiliate would become an affiliate.

(u) “Intraday extension of credit” has the meaning specified in paragraph (l)(2) of §223.42.

(v) “Low-quality asset” means:

(1) An asset (including a security) classified as “substandard,” “doubtful,” or “loss,” or treated as “special mention” or “other transfer risk problems,” either in the most recent report of examination or inspection of an affiliate prepared by either a Federal or State supervisory agency or in any internal classification system used by the member bank or the affiliate (including an asset that receives a rating that is substantially equivalent to “classified” or “special mention” in the internal system of the member bank or affiliate);

(2) An asset in a nonaccrual status;

(3) An asset on which principal or interest payments are more than thirty days past due;

(4) An asset whose terms have been renegotiated or compromised due to the deteriorating financial condition of the obligor; and

(5) An asset acquired through foreclosure, repossession, or otherwise in satisfaction of a debt previously contracted, if the asset has not yet been reviewed in an examination or inspection.

(w) “Member bank” means any national bank, State bank, banking association, or trust company that is a member of the Federal Reserve System. For purposes of this definition, an operating subsidiary of a member bank is treated as part of the member bank.

(x) “Municipal securities” has the same meaning as in section 3(a)(29) of the Securities Exchange Act of 1934 (17 U.S.C. 78c(a)(29)).

(y) “Nonaffiliate” with respect to a member bank means any person that is not an affiliate of the member bank.

(z) “Obligations of, or fully guaranteed as to principal and interest by, the United States or its agencies” includes those obligations listed in 12 CFR 201.108(b) and any additional obligations as determined by the Board. The term does not include Federal Housing Administration or Veterans Administration loans.

(aa) “Operating subsidiary” with respect to a member bank or other depository institution means any subsidiary of the member bank or depository institution other than a subsidiary described in paragraphs (b)(1)(i) through (v) of §223.2.

(bb) “Person” means an individual, company, trust, joint venture, pool,
syndicate, sole proprietorship, unincorporated organization, or any other form of entity.

(cc) “Principal underwriter” has the meaning specified in paragraph (c)(1) of §223.53.

(dd) “Purchase of an asset” by a member bank from an affiliate means the acquisition by a member bank of an asset from an affiliate in exchange for cash or any other consideration, including an assumption of liabilities. The merger of an affiliate into a member bank is a purchase of assets by the member bank from an affiliate if the member bank assumes any liabilities of the affiliate or pays any other form of consideration in the transaction.

(ee) Riskless principal. A company is "acting exclusively as a riskless principal" if, after receiving an order to buy (or sell) a security from a customer, the company purchases (or sells) the security in the secondary market for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(ff) “Securities” means stocks, bonds, debentures, notes, or similar obligations (including commercial paper).

(gg) “Securities affiliate” with respect to a member bank means:

1. An affiliate of the member bank that is registered with the Securities and Exchange Commission as a broker or dealer; or
2. Any other securities broker or dealer affiliate of a member bank that is approved by the Board.

(hh) “State bank” has the same meaning as in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(ii) “Subsidiary” with respect to a specified company means a company that is controlled by the specified company.

(jj) “Voting securities” has the same meaning as in 12 CFR 225.2.

(kk) “Well capitalized” has the same meaning as in 12 CFR 225.2 and, in the case of any holding company that is not a bank holding company, “well capitalized” means that the holding company has and maintains at least the capital levels required for a bank holding company to be well capitalized under 12 CFR 225.2.

(ll) “Well managed” has the same meaning as in 12 CFR 225.2.

§ 223.14 What are the collateral requirements for a credit transaction with an affiliate?

(a) Collateral required for extensions of credit and certain other covered transactions. A member bank must ensure that each of its credit transactions with an affiliate is secured by the amount of collateral required by paragraph (b) of this section at the time of the transaction.

(b) Amount of collateral required—(1) The rule. A credit transaction described in paragraph (a) of this section must be secured by collateral having a market value equal to at least:

(i) 100 percent of the amount of the transaction, if the collateral is:

(A) Obligations of the United States or its agencies;
§ 223.14

(B) Obligations fully guaranteed by the United States or its agencies as to principal and interest;

(C) Notes, drafts, bills of exchange, or bankers’ acceptances that are eligible for rediscount or purchase by a Federal Reserve Bank; or

(D) A segregated, earmarked deposit account with the member bank that is for the sole purpose of securing credit transactions between the member bank and its affiliates and is identified as such;

(ii) 110 percent of the amount of the transaction, if the collateral is obligations of any State or political subdivision of any State;

(iii) 120 percent of the amount of the transaction, if the collateral is other debt instruments, including loans and other receivables; or

(iv) 130 percent of the amount of the transaction, if the collateral is stock, leases, or other real or personal property.

(2) Example. A member bank makes a $1,000 loan to an affiliate. The affiliate posts as collateral for the loan $500 in U.S. Treasury securities, $480 in corporate debt securities, and $130 in real estate. The loan satisfies the collateral requirements of this section because $500 of the loan is 100 percent secured by obligations of the United States, $400 of the loan is 120 percent secured by debt instruments, and $100 of the loan is 130 percent secured by real estate.

(c) Ineligible collateral. The following items are not eligible collateral for purposes of this section:

(1) Low-quality assets;

(2) Securities issued by any affiliate;

(3) Equity securities issued by the member bank and debt securities issued by the member bank that represent regulatory capital of the member bank;

(4) Intangible assets (including servicing assets), unless specifically approved by the Board; and

(5) Guarantees, letters of credit, and other similar instruments.

(d) Perfection and priority requirements for collateral—(1) Perfection. A member bank must maintain a security interest in collateral required by this section that is perfected and enforceable under applicable law, including in the event of default resulting from bankruptcy, insolvency, liquidation, or similar circumstances.

(2) Priority. A member bank either must obtain a first priority security interest in collateral required by this section or must deduct from the value of collateral obtained by the member bank the lesser of:

(i) The amount of any security interest in the collateral that is senior to that of the member bank; or

(ii) The amount of any credit secured by the collateral that is senior to that of the member bank.

(3) Example. A member bank makes a $2,000 loan to an affiliate. The affiliate grants the member bank a second priority security interest in a piece of real estate valued at $3,000. Another institution that previously lent $1,000 to the affiliate has a first priority security interest in the entire parcel of real estate. This transaction is not in compliance with the collateral requirements of this section. Due to the existence of the prior third-party lien on the real estate, the effective value of the real estate collateral for the member bank for purposes of this section is only $2,000 — $600 less than the amount of real estate collateral required by this section for the transaction ($2,000 × 130 percent = $2,600).

(e) Replacement requirement for retired or amortized collateral. A member bank must ensure that any required collateral that subsequently is retired or amortized is replaced with additional eligible collateral as needed to keep the percentage of the collateral value relative to the amount of the outstanding credit transaction equal to the minimum percentage required at the inception of the transaction.

(f) Inapplicability of the collateral requirements to certain transactions. The collateral requirements of this section do not apply to the following transactions.

(1) Acceptances. An acceptance that already is fully secured either by attached documents or by other property that is involved in the transaction and has an ascertainable market value.

(2) The unused portion of certain extensions of credit. The unused portion of an extension of credit to an affiliate as long as the member bank does not have
any legal obligation to advance additional funds under the extension of credit until the affiliate provides the amount of collateral required by paragraph (b) of this section with respect to the entire used portion (including the amount of the requested advance) of the extension of credit.

(3) Purchases of affiliate debt securities in the secondary market. The purchase of a debt security issued by an affiliate as long as the member bank purchases the debt security from a nonaffiliate in a bona fide secondary market transaction.

§ 223.15 May a member bank purchase a low-quality asset from an affiliate?

(a) In general. A member bank may not purchase a low-quality asset from an affiliate unless, pursuant to an independent credit evaluation, the member bank had committed itself to purchase the asset before the time the asset was acquired by the affiliate.

(b) Exemption for renewals of loan participations involving problem loans. The prohibition contained in paragraph (a) of this section does not apply to the renewal of, or extension of additional credit with respect to, a member bank’s participation in a loan to a nonaffiliate that was originated by an affiliate if:

(1) The loan was not a low-quality asset at the time the member bank purchased its participation;

(2) The renewal or extension of additional credit is approved, as necessary to protect the participating member bank’s investment by enhancing the ultimate collection of the original indebtedness, by the board of directors of the participating member bank or, if the originating affiliate is a depository institution, by:

(i) An executive committee of the board of directors of the participating member bank; or

(ii) One or more senior management officials of the participating member bank, if:

(A) The board of directors of the member bank approves standards for the member bank’s renewals or extensions of additional credit described in this paragraph (b), based on the determination set forth in paragraph (b)(2) of this section;

(B) Each renewal or extension of additional credit described in this paragraph (b) meets the standards; and

(C) The board of directors of the member bank periodically reviews renewals and extensions of additional credit described in this paragraph (b) to ensure that they meet the standards and periodically reviews the standards to ensure that they continue to meet the criterion set forth in paragraph (b)(2) of this section;

(3) The participating member bank’s share of the renewal or extension of additional credit does not exceed its proportional share of the original transaction by more than 5 percent, unless the member bank obtains the prior written approval of its appropriate Federal banking agency; and

(4) The participating member bank provides its appropriate Federal banking agency with written notice of the renewal or extension of additional credit not later than 20 days after consummation.

§ 223.16 What transactions by a member bank with any person are treated as transactions with an affiliate?

(a) In general. A member bank must treat any of its transactions with any person as a transaction with an affiliate to the extent that the proceeds of the transaction are used for the benefit of, or transferred to, an affiliate.

(b) Certain agency transactions. (1) Except to the extent described in paragraph (b)(2) of this section, an extension of credit by a member bank to a nonaffiliate is not treated as an extension of credit to an affiliate under paragraph (a) of this section if:

(i) The proceeds of the extension of credit are used to purchase an asset through an affiliate of the member bank, and the affiliate is acting exclusively as an agent or broker in the transaction; and

(ii) The asset purchased by the nonaffiliate is not issued, underwritten, or sold as principal by any affiliate of the member bank.

(2) The interpretation set forth in paragraph (b)(1) of this section does not apply to the extent of any agency fee,
§223.16  12 CFR Ch. II (1–1–13 Edition)

brokerage commission, or other compensation received by an affiliate from the proceeds of the extension of credit. The receipt of such compensation may qualify, however, for the exemption contained in paragraph (c)(2) of this section.

(c) Exemptions. Notwithstanding paragraph (a) of this section, the following transactions are not subject to the quantitative limits of §§223.11 and 223.12 or the collateral requirements of §223.14. The transactions are, however, subject to the safety and soundness requirement of §223.13 and the market terms requirement and other provisions of subpart F (implementing section 23B).

(1) Certain riskless principal transactions. An extension of credit by a member bank to a nonaffiliate, if:
   (i) The proceeds of the extension of credit are used to purchase a security through a securities affiliate of the member bank, and the securities affiliate is acting exclusively as a riskless principal in the transaction;
   (ii) The security purchased by the nonaffiliate is not issued, underwritten, or sold as principal (other than as riskless principal) by any affiliate of the member bank; and
   (iii) Any riskless principal mark-up or other compensation received by the securities affiliate from the proceeds of the extension of credit meets the market terms standard set forth in paragraph (c)(2) of this section.

(2) Brokerage commissions, agency fees, and riskless principal mark-ups. An affiliate’s retention of a portion of the proceeds of an extension of credit described in paragraph (b) or (c)(1) of this section as a brokerage commission, agency fee, or riskless principal mark-up, if that commission, fee, or mark-up is substantially the same as, or lower than, those prevailing at the same time for comparable transactions with or involving other nonaffiliates, in accordance with the market terms requirement of §223.51.

(3) Preexisting lines of credit. An extension of credit by a member bank to a nonaffiliate, if:
   (i) The proceeds of the extension of credit are used to purchase a security from or through a securities affiliate of the member bank; and
   (ii) The extension of credit is made pursuant to, and consistent with any conditions imposed in, a preexisting line of credit that was not established in contemplation of the purchase of securities from or through an affiliate of the member bank.

(4) General purpose credit card transactions.
   (i) In general. An extension of credit by a member bank to a nonaffiliate, if:
      (A) The proceeds of the extension of credit are used by the nonaffiliate to purchase a product or service from an affiliate of the member bank; and
      (B) The extension of credit is made pursuant to, and consistent with any conditions imposed in, a general purpose credit card issued by the member bank to the nonaffiliate.
   (ii) Definition. “General purpose credit card” means a credit card issued by a member bank that is widely accepted by merchants that are not affiliates of the member bank for the purchase of products or services, if:
      (A) Less than 25 percent of the total value of products and services purchased with the card by all cardholders are purchases of products and services from one or more affiliates of the member bank;
      (B) All affiliates of the member bank would be permissible for a financial holding company (as defined in 12 U.S.C. 1841) under section 4 of the Bank Holding Company Act (12 U.S.C. 1843), and the member bank has no reason to believe that 25 percent or more of the total value of products and services purchased with the card by all cardholders are or would be purchases of products and services from one or more affiliates of the member bank; or
      (C) The member bank presents information to the Board that demonstrates, to the Board’s satisfaction, that less than 25 percent of the total value of products and services purchased with the card by all cardholders are or would be purchases of products and services from one or more affiliates of the member bank.
   (iii) Calculating compliance. To determine whether a credit card qualifies as a general purpose credit card under the standard set forth in paragraph (c)(4)(ii)(A) of this section, a member bank must compute compliance on a
monthly basis, based on cardholder purchases that were financed by the credit card during the preceding 12 calendar months. If a credit card has qualified as a general purpose credit card for 3 consecutive months but then ceases to qualify in the following month, the member bank may continue to treat the credit card as a general purpose credit card for such month and three additional months (or such longer period as may be permitted by the Board).

(iv) Example of calculating compliance with the 25 percent test. A member bank seeks to qualify a credit card as a general purpose credit card under paragraph (c)(4)(ii)(A) of this section. The member bank assesses its compliance under paragraph (c)(4)(iii) of this section on the 15th day of every month (for the preceding 12 calendar months). The credit card qualifies as a general purpose credit card for at least three consecutive months. On June 15, 2005, however, the member bank determines that, for the 12-calender-month period from June 1, 2004, through May 31, 2005, 27 percent of the total value of products and services purchased with the card by all cardholders were purchases of products and services from an affiliate of the member bank. Unless the credit card returns to compliance with the 25 percent limit by the 12-calender-month period ending August 31, 2005, the card will cease to qualify as a general purpose credit card as of September 1, 2005. Any outstanding extensions of credit under the credit card that were used to purchase products or services from an affiliate of the member bank would become covered transactions at such time.

Subpart C—Valuation and Timing Principles Under Section 23A

§ 223.21 What valuation and timing principles apply to credit transactions?

(a) Valuation—(1) Initial valuation. Except as provided in paragraph (a)(2) or (3) of this section, a credit transaction with an affiliate initially must be valued at the greater of:

(i) The principal amount of the transaction;

(ii) The amount owed by the affiliate to the member bank under the transaction; or

(iii) The sum of:

(A) The amount provided to, or on behalf of, the affiliate in the transaction; and

(B) Any additional amount that the member bank could be required to provide to, or on behalf of, the affiliate under the terms of the transaction.

(2) Initial valuation of certain acquisitions of a credit transaction. If a member bank acquires from a nonaffiliate a credit transaction with an affiliate, the covered transaction initially must be valued at the sum of:

(i) The total amount of consideration given (including liabilities assumed) by the member bank in exchange for the credit transaction; and

(ii) Any additional amount that the member bank could be required to provide to, or on behalf of, the affiliate under the terms of the transaction.

(3) Debt securities. The valuation principles of paragraphs (a)(1) and (2) of this section do not apply to a member bank’s purchase of or investment in a debt security issued by an affiliate, which is governed by §223.23.

(4) Examples. The following are examples of how to value a member bank’s credit transactions with an affiliate.

(i) Term loan. A member bank makes a loan to an affiliate that has a principal amount of $100. The affiliate pays $2 in up-front fees to the member bank, and the affiliate receives net loan proceeds of $98. The member bank must initially value the covered transaction at $100.

(ii) Revolving credit. A member bank establishes a $300 revolving credit facility for an affiliate. The affiliate has drawn down $100 under the facility. The member bank must value the covered transaction at $300 throughout the life of the facility.

(iii) Guarantee. A member bank has issued a guarantee to a nonaffiliate on behalf of an affiliate under which the member bank would be obligated to pay the nonaffiliate $500 if the affiliate defaults on an issuance of debt securities. The member bank must value the guarantee at $500 throughout the life of the guarantee.
§ 223.22 What valuation and timing principles apply to asset purchases?

(a) Valuation—(1) In general. Except as provided in paragraph (a)(2) of this section, a purchase of an asset by a member bank from an affiliate must be valued initially at the total amount of consideration given (including any such credit transaction with the nonaffiliate) would not exceed the quantitative limits of §223.11 or 223.12 at the time the nonaffiliate becomes an affiliate; and

(B) The credit transaction complies with the collateral requirements of §223.14 at the time the nonaffiliate becomes an affiliate.

(iii) Example. A member bank with capital stock and surplus of $1,000 and no outstanding covered transactions makes a $120 unsecured loan to a nonaffiliate. The member bank does not make the loan in contemplation of the nonaffiliate becoming an affiliate. Nine months later, the member bank’s holding company purchases all the stock of the nonaffiliate, thereby making the nonaffiliate an affiliate of the member bank. The member bank is not in violation of the quantitative limits of §223.11 or 223.12 at the time of the stock acquisition. The member bank is, however, prohibited from engaging in any additional covered transactions with the new affiliate at least until such time as the value of the loan transaction falls below 10 percent of the member bank’s capital stock and surplus. In addition, the member bank must bring the loan into compliance with the collateral requirements of §223.14 promptly after the stock acquisition.

§ 223.22 What valuation and timing principles apply to asset purchases?

(a) Valuation—(1) In general. Except as provided in paragraph (a)(2) of this section, a purchase of an asset by a member bank from an affiliate must be valued initially at the total amount of consideration given (including any such credit transaction with the nonaffiliate) would not exceed the quantitative limits of §223.11 or 223.12 at the time the nonaffiliate becomes an affiliate; and

(B) The credit transaction complies with the collateral requirements of §223.14 at the time the nonaffiliate becomes an affiliate.

(iii) Example. A member bank with capital stock and surplus of $1,000 and no outstanding covered transactions makes a $120 unsecured loan to a nonaffiliate. The member bank does not make the loan in contemplation of the nonaffiliate becoming an affiliate. Nine months later, the member bank’s holding company purchases all the stock of the nonaffiliate, thereby making the nonaffiliate an affiliate of the member bank. The member bank is not in violation of the quantitative limits of §223.11 or 223.12 at the time of the stock acquisition. The member bank is, however, prohibited from engaging in any additional covered transactions with the new affiliate at least until such time as the value of the loan transaction falls below 10 percent of the member bank’s capital stock and surplus. In addition, the member bank must bring the loan into compliance with the collateral requirements of §223.14 promptly after the stock acquisition.

§ 223.22 What valuation and timing principles apply to asset purchases?

(a) Valuation—(1) In general. Except as provided in paragraph (a)(2) of this section, a purchase of an asset by a member bank from an affiliate must be valued initially at the total amount of consideration given (including any such credit transaction with the nonaffiliate) would not exceed the quantitative limits of §223.11 or 223.12 at the time the nonaffiliate becomes an affiliate; and

(B) The credit transaction complies with the collateral requirements of §223.14 at the time the nonaffiliate becomes an affiliate.

(iii) Example. A member bank with capital stock and surplus of $1,000 and no outstanding covered transactions makes a $120 unsecured loan to a nonaffiliate. The member bank does not make the loan in contemplation of the nonaffiliate becoming an affiliate. Nine months later, the member bank’s holding company purchases all the stock of the nonaffiliate, thereby making the nonaffiliate an affiliate of the member bank. The member bank is not in violation of the quantitative limits of §223.11 or 223.12 at the time of the stock acquisition. The member bank is, however, prohibited from engaging in any additional covered transactions with the new affiliate at least until such time as the value of the loan transaction falls below 10 percent of the member bank’s capital stock and surplus. In addition, the member bank must bring the loan into compliance with the collateral requirements of §223.14 promptly after the stock acquisition.
the covered transaction after the pur-
chase may be reduced to reflect amor-
tization or depreciation of the asset, to
the extent that such reductions are
consistent with GAAP.

(2) Exceptions. (1) Purchase of an exten-
sion of credit to an affiliate. A purchase
from an affiliate of an extension of
credit to an affiliate must be valued in
accordance with §223.21, unless the
note or obligation evidencing the ex-
tension of credit is a security issued by
an affiliate (in which case the trans-
action must be valued in accordance
with §223.23).

(ii) Purchase of a security issued by an
affiliate. A purchase from an affiliate of
a security issued by an affiliate must
be valued in accordance with §223.23.

(iii) Transfer of a subsidiary. A trans-
ferral to a member bank of securities
issued by an affiliate that is treated as
a purchase of assets from an affiliate
under §223.31 must be valued in accord-
ance with paragraph (b) of §223.31.

(iv) Purchase of a line of credit. A pur-
chase from an affiliate of a line of cred-
it, revolving credit facility, or other
similar credit arrangement for a non-
affiliate must be valued initially at the
total amount of consideration given by
the member bank in exchange for the
asset plus any additional amount that
the member bank could be required to
provide to the borrower under the
terms of the credit arrangement.

(b) Timing—(1) In general. A purchase
of an asset from an affiliate remains a
covered transaction for as long as the member bank holds
the asset.

(2) Asset purchases by a member bank
from a nonaffiliate in contemplation of
the nonaffiliate becoming an affiliate of
the member bank. If a member bank pur-
chases an asset from a nonaffiliate in
contemplation of the nonaffiliate be-
coming an affiliate of the member
bank, the asset purchase becomes a
covered transaction at the time that
the nonaffiliate becomes an affiliate of
the member bank. In addition, the member bank must ensure that the ag-
gregate amount of the member bank’s
covered transactions (including any
such transaction with the nonaffiliate)
would not exceed the quantitative lim-
its of §§223.11 or 223.12 at the time the
nonaffiliate becomes an affiliate.

(c) Examples. The following are exam-
pies of how to value a member bank’s
purchase of an asset from an affiliate.

(1) Cash purchase of assets. A member
bank purchases a pool of loans from an
affiliate for $10 million. The member
bank initially must value the covered
transaction at $10 million. Going for-
ward, if the borrowers repay $6 million
of the principal amount of the loans,
the member bank may value the cov-
ered transaction at $4 million.

(2) Purchase of assets through an as-
sumption of liabilities. An affiliate of a
member bank contributes real property
with a fair market value of $200,000 to
the member bank. The member bank
pays the affiliate no cash for the prop-
erty, but assumes a $50,000 mortgage on
the property. The member bank has en-
gaged in a covered transaction with the
affiliate and initially must value the
transaction at $50,000. Going forward, if
the member bank retains the real prop-
erty but pays off the mortgage, the
member bank must continue to value
the covered transaction at $50,000. If
the member bank, however, sells the
real property, the transaction ceases to
be a covered transaction at the time of
the sale (regardless of the status of the
mortgage).

§223.23 What valuation and timing
principles apply to purchases of
and investments in securities
issued by an affiliate?

(a) Valuation—(1) In general. Except
as provided in paragraph (b) of §223.32
with respect to financial subsidiaries, a
member bank’s purchase of or invest-
ment in a security issued by an affili-
ate must be valued at the greater of:

(i) The total amount of consideration
given (including liabilities assumed) by
the member bank in exchange for the
security, reduced to reflect amortiza-
tion of the security to the extent con-
sistent with GAAP; or

(ii) The carrying value of the secur-
ity.

(2) Examples. The following are exam-
pies of how to value a member bank’s
purchase of or investment in securities
issued by an affiliate (other than a fi-
nancial subsidiary of the member
bank).

(i) Purchase of the debt securities of an
affiliate. The parent holding company...
§ 223.24 What valuation principles apply to extensions of credit secured by affiliate securities?

(a) Valuation of extensions of credit secured exclusively by affiliate securities. An extension of credit by a member bank to a nonaffiliate secured exclusively by securities issued by an affiliate of the member bank must be valued at the lesser of:

(1) The total value of the extension of credit; or

(2) The fair market value of the securities issued by an affiliate that are pledged as collateral, if the member bank verifies that such securities meet the market quotation standard contained in paragraph (e) of §223.42 or the standards set forth in paragraphs (f)(1) and (5) of §223.42.

(b) Valuation of extensions of credit secured by affiliate securities and other collateral. An extension of credit by a member bank to a nonaffiliate secured in part by securities issued by an affiliate of the member bank and in part by nonaffiliate collateral must be valued at the lesser of:

(1) The total value of the extension of credit less the fair market value of the nonaffiliate collateral; or

(2) The fair market value of the securities issued by an affiliate that are pledged as collateral, if the member bank verifies that such securities meet the market quotation standard contained in paragraph (e) of §223.42 or the standards set forth in paragraphs (f)(1) and (5) of §223.42.

(c) Exclusion of eligible affiliated mutual fund securities—(1) The exclusion. Eligible affiliated mutual fund securities are not considered to be securities issued by an affiliate, and are instead considered to be nonaffiliate collateral, for purposes of paragraphs (a) and (b) of this section, unless the member bank knows or has reason to know that the proceeds of the extension of credit will be used to purchase the eligible affiliated mutual fund securities collateral or will otherwise be used for the benefit of or transferred to an affiliate of the member bank.

(2) Definition. “Eligible affiliated mutual fund securities” with respect to a member bank are securities issued by an affiliate of the member bank that is...
an open-end investment company registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.), if:

(i) The securities issued by the investment company:

(A) Meet the market quotation standard contained in paragraph (e) of § 223.42;

(B) Meet the standards set forth in paragraphs (f)(1) and (5) of § 223.42; or

(C) Have closing prices that are made public through a mutual fund “supermarket” website maintained by an unaffiliated securities broker-dealer or mutual fund distributor; and

(ii) The member bank and its affiliates do not own or control in the aggregate more than 5 percent of any class of voting securities or of the equity capital of the investment company (excluding securities held by the member bank or an affiliate in good faith in a fiduciary capacity, unless the member bank or affiliate holds the securities for the benefit of the member bank or affiliate, or the shareholders, employees, or subsidiaries of the member bank or affiliate).

(3) Example. A member bank proposes to lend $100 to a nonaffiliate secured exclusively by eligible affiliated mutual fund securities. The member bank knows that the nonaffiliate intends to use all the loan proceeds to purchase the eligible affiliated mutual fund securities that would serve as collateral for the loan. Under the attribution rule in § 223.16, the member bank must treat the loan to the nonaffiliate as a loan to an affiliate, and, because securities issued by an affiliate are ineligible collateral under § 223.14, the loan would not be in compliance with § 223.14.

Subpart D—Other Requirements

Under Section 23A

§ 223.31 How does section 23A apply to a member bank’s acquisition of an affiliate that becomes an operating subsidiary of the member bank after the acquisition?

(a) Certain acquisitions by a member bank of securities issued by an affiliate are treated as a purchase of assets from an affiliate. A member bank’s acquisition of a security issued by a company that was an affiliate of the member bank before the acquisition is treated as a purchase of assets from an affiliate, if:

(1) As a result of the transaction, the company becomes an operating subsidiary of the member bank; and

(2) The company has liabilities, or the member bank gives cash or any other consideration in exchange for the security.

(b) Valuation—(1) Initial valuation. A transaction described in paragraph (a) of this section must be valued initially at the greater of:

(i) The sum of:

(A) The total amount of consideration given by the member bank in exchange for the security; and

(B) The total liabilities of the company whose security has been acquired by the member bank, as of the time of the acquisition; or

(ii) The total value of all covered transactions (as computed under this part) acquired by the member bank as a result of the security acquisition.

(2) Ongoing valuation. The value of a transaction described in paragraph (a) of this section may be reduced after the initial transfer to reflect:

(i) Amortization or depreciation of the assets of the transferred company, to the extent that such reductions are consistent with GAAP; and

(ii) Sales of the assets of the transferred company.

(c) Valuation example. The parent holding company of a member bank contributes between 25 and 100 percent of the voting shares of a mortgage company to the member bank. The parent holding company retains no shares of the mortgage company. The member bank gives no consideration in exchange for the transferred shares. The mortgage company has total assets of $300,000 and total liabilities of $100,000. The mortgage company’s assets do not include any loans to an affiliate of the member bank or any other asset that would represent a separate covered transaction for the member bank upon consummation of the share transfer. As a result of the transaction, the mortgage company becomes an operating subsidiary of the member bank. The transaction is treated as a purchase of the assets of the mortgage company by
the member bank from an affiliate under paragraph (a) of this section. The member bank initially must value the transaction at $100,000, the total amount of the liabilities of the mortgage company. Going forward, if the member bank pays off the liabilities, the member bank must continue to value the covered transaction at $100,000. If the member bank, however, sells $15,000 of the transferred assets of the mortgage company or if $15,000 of the transferred assets amortize, the member bank may value the covered transaction at $85,000.

(d) Exemption for step transactions. A transaction described in paragraph (a) of this section is exempt from the requirements of this regulation (other than the safety and soundness requirement of §223.13 and the market terms requirement of §223.51) if:

1. The member bank acquires the securities issued by the transferred company within one business day (or such longer period, up to three months, as may be permitted by the member bank’s appropriate Federal banking agency) after the company becomes an affiliate of the member bank;
2. The member bank acquires all the securities of the transferred company that were transferred in connection with the transaction that made the company an affiliate of the member bank;
3. The business and financial condition (including the asset quality and liabilities) of the transferred company does not materially change from the time the company becomes an affiliate of the member bank and the time the member bank acquires the securities issued by the company; and
4. At or before the time that the transferred company becomes an affiliate of the member bank, the member bank notifies its appropriate Federal banking agency and the Board of the member bank’s intent to acquire the company.

(e) Example of step transaction. A bank holding company acquires 100 percent of the shares of an unaffiliated leasing company. At that time, the subsidiary member bank of the holding company transfers all of the shares of the leasing company to the member bank. No material change in the business or financial condition of the leasing company occurs between the time of the holding company’s acquisition and the member bank’s acquisition. The leasing company has liabilities. The leasing company becomes an operating subsidiary of the member bank at the time of the transfer. This transfer by the holding company to the member bank, although deemed an asset purchase by the member bank from an affiliate under paragraph (a) of this section, would qualify for the exemption in paragraph (d) of this section.

§ 223.32 What rules apply to financial subsidiaries of a member bank?

(a) Exemption from the 10 percent limit for covered transactions between a member bank and a single financial subsidiary. The 10 percent quantitative limit contained in §223.11 does not apply with respect to covered transactions between a member bank and a financial subsidiary of the member bank. The 20 percent quantitative limit contained in §223.12 does apply to such transactions.

(b) Valuation of purchases of or investments in the securities of a financial subsidiary—(1) General rule. A member bank’s purchase of or investment in a security issued by a financial subsidiary of the member bank must be valued at the greater of:

(i) The total amount of consideration given (including liabilities assumed) by the member bank in exchange for the security, reduced to reflect amortization of the security to the extent consistent with GAAP; and

(ii) The carrying value of the security (adjusted so as not to reflect the member bank’s pro rata portion of any earnings retained or losses incurred by the financial subsidiary after the member bank’s acquisition of the security).

(2) Carrying value of an investment in a consolidated financial subsidiary. If a financial subsidiary is consolidated with its parent member bank under GAAP, the carrying value of the member bank’s investment in securities issued...
by the financial subsidiary shall be equal to the carrying value of the securities on parent-only financial statements of the member bank, determined in accordance with GAAP (adjusted so as not to reflect the member bank’s pro rata portion of any earnings retained or losses incurred by the financial subsidiary after the member bank’s acquisition of the securities).

(3) Examples of the valuation of purchases of and investments in the securities of a financial subsidiary. The following are examples of how a member bank must value its purchase of or investment in securities issued by a financial subsidiary of the member bank. Each example involves a securities underwriter that becomes a financial subsidiary of the member bank after the transactions described below.

(i) Initial valuation. (A) Direct acquisition by a member bank. A member bank pays $500 to acquire 100 percent of the shares of a securities underwriter. The initial carrying value of the shares on the member bank’s parent-only GAAP financial statements is $500. The member bank initially must value the investment at $500.

(B) Contribution of a financial subsidiary to a member bank. The parent holding company of a member bank acquires 100 percent of the shares of a securities underwriter in a transaction valued at $500, and immediately contributes the shares to the member bank. The member bank gives no consideration in exchange for the shares. The member bank initially must value the investment at the carrying value of the shares on the member bank’s parent-only GAAP financial statements is $500. The member bank initially must value the investment at $500.

(ii) Carrying value not adjusted for earnings and losses of the financial subsidiary. A member bank and its parent holding company engage in the transaction described in paragraph (b)(3)(i)(B) of this section, and the member bank initially values the investment at $500. In the following year, the securities underwriter earns $25 in profit, which is added to its retained earnings. The member bank’s carrying value of the shares of the underwriter is not adjusted for purposes of this part, and the member bank must continue to value the investment at $500. If, however, the member bank contributes $100 of additional capital to the securities underwriter, the member bank must value the aggregate investment at $600.

(c) Treatment of an affiliate’s investments in, and extensions of credit to, a financial subsidiary of a member bank—(1) Investments. Any purchase of, or investment in, the securities of a financial subsidiary of a member bank by an affiliate of the member bank is treated as a purchase of or investment in such securities by the member bank.

(2) Extensions of credit that are treated as regulatory capital of the financial subsidiary. Any extension of credit to a financial subsidiary of a member bank by an affiliate of the member bank is treated as an extension of credit by the member bank to the financial subsidiary if the extension of credit is treated as capital of the financial subsidiary under any Federal or State law, regulation, or interpretation applicable to the subsidiary.

(3) Other extensions of credit. Any other extension of credit to a financial subsidiary of a member bank by an affiliate of the member bank will be treated as an extension of credit by the member bank to the financial subsidiary, if the Board determines, by regulation or order, that such treatment is necessary or appropriate to prevent evasions of the Federal Reserve Act or the Gramm-Leach-Bliley Act.

§ 223.33 What rules apply to derivative transactions?

(a) Market terms requirement. Derivative transactions between a member bank and its affiliates (other than depository institutions) are subject to the market terms requirement of §223.51.

(b) Policies and procedures. A member bank must establish and maintain policies and procedures reasonably designed to manage the credit exposure arising from its derivative transactions with affiliates in a safe and sound manner. The policies and procedures must at a minimum provide for:

(1) Monitoring and controlling the credit exposure arising at any one time
from the member bank’s derivative transactions with each affiliate and all affiliates in the aggregate (through, among other things, imposing appropriate credit limits, mark-to-market requirements, and collateral requirements); and

(2) Ensuring that the member bank’s derivative transactions with affiliates comply with the market terms requirement of §223.51.

(3) Credit derivatives. A credit derivative between a member bank and a nonaffiliate in which the member bank provides credit protection to the nonaffiliate with respect to an obligation of an affiliate of the member bank is a guarantee by a member bank on behalf of an affiliate for purposes of this regulation. Such derivatives would include:

(1) An agreement under which the member bank, in exchange for a fee, agrees to compensate the nonaffiliate for any default of the underlying obligation of the affiliate; and

(2) An agreement under which the member bank, in exchange for payments based on the total return of the underlying obligation of the affiliate, agrees to pay the nonaffiliate a spread over funding costs plus any depreciation in the value of the underlying obligation of the affiliate.

Subpart E—Exemptions from the Provisions of Section 23A

§ 223.41 What covered transactions are exempt from the quantitative limits and collateral requirements?

The following transactions are not subject to the quantitative limits of §§223.11 and 223.12 or the collateral requirements of §223.14. The transactions are, however, subject to the safety and soundness requirement of §223.13 and the prohibition on the purchase of a low-quality asset of §223.15.

(a) Parent institution/subsidiary institution transactions. Transactions with a depository institution if the member bank controls 80 percent or more of the voting securities of the depository institution or the depository institution controls 80 percent or more of the voting securities of the member bank.

(b) Transactions between a member bank and a depository institution owned by the same holding company. Trans-
§ 223.42 What covered transactions are exempt from the quantitative limits, collateral requirements, and low-quality asset prohibition?

The following transactions are not subject to the quantitative limits of §§223.11 and 223.12, the collateral requirements of §223.14, or the prohibition on the purchase of a low-quality asset of §223.15. The transactions are, however, subject to the safety and soundness requirement of §223.13.

(a) Making correspondent banking deposits. Making a deposit in an affiliated depository institution (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)) or affiliated foreign bank that represents an ongoing, working balance maintained in the ordinary course of correspondent business.

(b) Giving credit for uncollected items. Giving immediate credit to an affiliate for uncollected items received in the ordinary course of business.

(c) Transactions secured by cash or U.S. government securities—(1) In general. Engaging in a credit transaction with an affiliate to the extent that the transaction is and remains secured by:

(i) Obligations of the United States or its agencies;

(ii) Obligations fully guaranteed by the United States or its agencies as to principal and interest; or

(iii) A segregated, earmarked deposit account with the member bank that is for the sole purpose of securing credit transactions between the member bank and its affiliates and is identified as such.

(2) Example. A member bank makes a $100 non-amortizing term loan to an affiliate secured by U.S. Treasury securities with a market value of $50 and real estate with a market value of $75. The value of the covered transaction is $50. If the market value of the U.S. Treasury securities falls to $45 during the life of the loan, the value of the covered transaction would increase to $55.

(d) Purchasing securities of a servicing affiliate. Purchasing a security issued by any company engaged solely in providing services described in section 4(c)(1) of the Bank Holding Company Act (12 U.S.C. 1843(c)(1)).

(e) Purchasing certain liquid assets. Purchasing an asset having a readily identifiable and publicly available market quotation and purchased at or below the asset’s current market quotation. An asset has a readily identifiable and publicly available market quotation if the asset’s price is quoted routinely in a widely disseminated publication that is readily available to the general public.

(f) Purchasing certain marketable securities. Purchasing a security from a securities affiliate, if:

(1) The security has a “ready market,” as defined in 17 CFR 240.15c3–1(c)(11)(i);

(2) The security is eligible for a State member bank to purchase directly, subject to the same terms and conditions that govern the investment activities of a State member bank, and the member bank records the transaction as a purchase of a security for purposes of its Call Report, consistent with the requirements for a State member bank.

(3) The security is not a low-quality asset;

(4) The member bank does not purchase the security during an underwriting, or within 30 days of an underwriting, if an affiliate is an underwriter of the security, unless the security is purchased as part of an issue of obligations of, or obligations fully guaranteed as to principal and interest by, the United States or its agencies;
§ 223.42 12 CFR Ch. II (1–1–13 Edition)

(5) The security’s price is quoted routinely on an unaffiliated electronic service that provides indicative data from real-time financial networks, provided that:

(i) The price paid by the member bank is at or below the current market quotation for the security; and

(ii) The size of the transaction executed by the member bank does not cast material doubt on the appropriateness of relying on the current market quotation for the security; and

(6) The member bank maintains, for a period of two years, records and supporting information that are sufficient to enable the appropriate Federal banking agency to ensure the member bank’s compliance with the terms of this exemption.

(g) Purchasing municipal securities. Purchasing a municipal security from a securities affiliate if:

(1) The security is rated by a nationally recognized statistical rating organization or is part of an issue of securities that does not exceed $25 million;

(2) The security is eligible for purchase by a State member bank, subject to the same terms and conditions that govern the investment activities of a State member bank, and the member bank records the transaction as a purchase of a security for purposes of its Call Report, consistent with the requirements for a State member bank; and

(3)(i) The security’s price is quoted routinely on an unaffiliated electronic service that provides indicative data from real-time financial networks, provided that:

(A) The price paid by the member bank is at or below the current market quotation for the security; and

(B) The size of the transaction executed by the member bank does not cast material doubt on the appropriateness of relying on the current market quotation for the security; or

(ii) The price paid for the security can be verified by reference to two or more actual, current price quotes from unaffiliated broker-dealers on the exact security to be purchased or a security comparable to the security to be purchased, where:

(A) The price quotes obtained from the unaffiliated broker-dealers are based on a transaction similar in size to the transaction that is actually executed; and

(B) The price paid is no higher than the average of the price quotes; or

(iii) The price paid for the security can be verified by reference to the written summary provided by the syndicate manager to syndicate members that discloses the aggregate par values and prices of all bonds sold from the syndicate account, if the member bank:

(A) Purchases the municipal security during the underwriting period at a price that is at or below that indicated in the summary; and

(B) Obtains a copy of the summary from its securities affiliate and retains the summary for three years.

(h) Purchasing an extension of credit subject to a repurchase agreement. Purchasing from an affiliate an extension of credit that was originated by the member bank and sold to the affiliate subject to a repurchase agreement or with recourse.

(i) Asset purchases by a newly formed member bank. The purchase of an asset from an affiliate by a newly formed member bank, if the appropriate Federal banking agency for the member bank has approved the asset purchase in writing in connection with its review of the formation of the member bank.

(j) Transactions approved under the Bank Merger Act. Any merger or consolidation between a member bank and an affiliated depository institution or U.S. branch or agency of a foreign bank, or any acquisition of assets or assumption of deposit liabilities by a member bank from an affiliated depository institution or U.S. branch or agency of a foreign bank, if the transaction has been approved by the responsible Federal banking agency pursuant to the Bank Merger Act (12 U.S.C. 1828(c)).

(k) Purchasing an extension of credit from an affiliate. Purchasing from an affiliate, on a nonrecourse basis, an extension of credit, if:

(1) The extension of credit was originated by the affiliate;

(2) The member bank makes an independent evaluation of the creditworthiness of the borrower before the affiliate makes or commits to make the extension of credit;
(3) The member bank commits to purchase the extension of credit before the affiliate makes or commits to make the extension of credit;

(4) The member bank does not make a blanket advance commitment to purchase extensions of credit from the affiliate; and

(5) The dollar amount of the extension of credit, when aggregated with the dollar amount of all other extensions of credit purchased from the affiliate during the preceding 12 calendar months by the member bank and its depository institution affiliates, does not represent more than 50 percent (or such lower percent as is imposed by the member bank’s appropriate Federal banking agency) of the dollar amount of extensions of credit originated by the affiliate during the preceding 12 calendar months.

(l) Intraday extensions of credit—(1) In general. An intraday extension of credit to an affiliate, if the member bank:

(i) Has established and maintains policies and procedures reasonably designed to manage the credit exposure arising from the member bank’s intraday extensions of credit to affiliates in a safe and sound manner, including policies and procedures for:

(A) Monitoring and controlling the credit exposure arising at any one time from the member bank’s intraday extensions of credit to each affiliate and all affiliates in the aggregate; and

(B) Ensuring that any intraday extension of credit by the member bank to an affiliate complies with the market terms requirement of §223.51;

(ii) Has no reason to believe that the affiliate will have difficulty repaying the extension of credit in accordance with its terms; and

(iii) Ceases to treat any such extension of credit (regardless of jurisdiction) as an intraday extension of credit at the end of the member bank’s business day in the United States.

(2) Definition. Intraday extension of credit by a member bank to an affiliate means an extension of credit by a member bank to an affiliate that the member bank expects to be repaid, sold, or terminated, or to qualify for a complete exemption under this regulation, by the end of its business day in the United States.

(m) Riskless principal transactions. Purchasing a security from a securities affiliate of the member bank if:

(1) The member bank or the securities affiliate is acting exclusively as a riskless principal in the transaction; and

(2) The security purchased is not issued, underwritten, or sold as principal (other than as riskless principal) by any affiliate of the member bank.

(n) Securities financing transactions. (1) From September 15, 2008, until October 30, 2009 (unless further extended by the Board), securities financing transactions with an affiliate, if:

(i) The security or other asset financed by the member bank in the transaction is of a type that the affiliate financed in the U.S. tri-party repurchase agreement market at any time during the week of September 8–12, 2008;

(ii) The transaction is marked to market daily and subject to daily margin-maintenance requirements, and the member bank is at least as over-collateralized in the transaction as the affiliate’s clearing bank was over-collateralized in comparable transactions with the affiliate in the U.S. tri-party repurchase agreement market on September 12, 2008;

(iii) The aggregate risk profile of the securities financing transactions under this exemption is no greater than the aggregate risk profile of the securities financing transactions of the affiliate in the U.S. tri-party repurchase agreement market on September 12, 2008;

(iv) The member bank’s top-tier holding company guarantees the obligations of the affiliate under the securities financing transactions (or provides other security to the bank that is acceptable to the Board); and

(v) The member bank has not been specifically informed by the Board, after consultation with the member bank’s appropriate Federal banking agency, that the member bank may not use this exemption.

(2) For purposes of this exemption:

(i) Securities financing transaction means:

(A) A purchase by a member bank from an affiliate of a security or other asset, subject to an agreement by the
§ 223.43 What are the standards under which the Board may grant additional exemptions from the requirements of section 23A?

(a) The standards. The Board may, at its discretion, by regulation or order, exempt transactions or relationships from the requirements of section 23A and subparts B, C, and D of this part if it finds such exemptions to be in the public interest and consistent with the purposes of section 23A.

(b) Procedure. A member bank may request an exemption from the requirements of section 23A and subparts B, C, and D of this part by submitting a written request to the General Counsel of the Board. Such a request must:

1. Describe in detail the transaction or relationship for which the member bank seeks exemption;
2. Explain why the Board should exempt the transaction or relationship; and
3. Explain how the exemption would be in the public interest and consistent with the purposes of section 23A.

Subpart F—General Provisions of Section 23B

§ 223.51 What is the market terms requirement of section 23B?

A member bank may not engage in a transaction described in §223.52 unless the transaction is:

(a) On terms and under circumstances, including credit standards, that are substantially the same, or at least as favorable to the member bank, as those prevailing at the time for comparable transactions with or involving nonaffiliates; or

(b) In the absence of comparable transactions, on terms and under circumstances, including credit standards, that in good faith would be offered to, or would apply to, nonaffiliates.

§ 223.52 What transactions with affiliates or others must comply with section 23B’s market terms requirement?

(a) The market terms requirement of §223.51 applies to the following transactions:

1. Any covered transaction with an affiliate, unless the transaction is exempt under paragraphs (a) through (c) of §223.41 or paragraphs (a) through (e) or (h) through (j) of §223.42.

2. The sale of a security or other asset to an affiliate, including an asset subject to an agreement to repurchase;

3. The payment of money or the furnishing of a service to an affiliate under contract, lease, or otherwise;

4. Any transaction in which an affiliate acts as an agent or broker or receives a fee for its services to the member bank or to any other person; and

5. Any transaction or series of transactions with a nonaffiliate, if an affiliate:

1. Has a financial interest in the nonaffiliate; or
§ 223.54 What advertisements and statements are prohibited by section 23B?

(a) In general. A member bank and its affiliates may not publish any advertisement or enter into any agreement stating or suggesting that the member bank will in any way be responsible for the obligations of its affiliates.

(b) Guarantees, acceptances, letters of credit, and cross-affiliate netting arrangements subject to section 23A. Paragraph (a) of this section does not prohibit a member bank from:

(1) Issuing a guarantee, acceptance, or letter of credit on behalf of an affiliate, confirming a letter of credit

(ii) Is a participant in the transaction or series of transactions.

(b) For the purpose of this section, any transaction by a member bank with any person will be deemed to be a transaction with an affiliate of the member bank if any of the proceeds of the transaction are used for the benefit of, or transferred to, the affiliate.

§ 223.53 What asset purchases are prohibited by section 23B?

(a) Fiduciary purchases of assets from an affiliate. A member bank may not purchase as fiduciary any security or other asset from any affiliate unless the purchase is permitted:

(1) Under the instrument creating the fiduciary relationship;

(2) By court order; or

(3) By law of the jurisdiction governing the fiduciary relationship.

(b) Purchase of a security underwritten by an affiliate. A member bank, whether acting as principal or fiduciary, may not knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security if a principal underwriter of that security is an affiliate of the member bank.

(2) Paragraph (b)(1) of this section does not apply if the purchase or acquisition of the security has been approved, before the security is initially offered for sale to the public, by a majority of the directors of the member bank based on a determination that the purchase is a sound investment for the member bank, or for the person on whose behalf the member bank is acting as fiduciary, as the case may be, irrespective of the fact that an affiliate of the member bank is a principal underwriter of the security.

(3) The approval requirement of paragraph (b)(2) of this section may be met if:

(i) A majority of the directors of the member bank approves standards for the member bank’s acquisitions of securities described in paragraph (b)(1) of this section, based on the determination set forth in paragraph (b)(2) of this section;

(ii) Each acquisition described in paragraph (b)(1) of this section meets the standards; and

(iii) A majority of the directors of the member bank periodically reviews acquisitions described in paragraph (b)(1) of this section to ensure that they meet the standards and periodically reviews the standards to ensure that they continue to meet the criterion set forth in paragraph (b)(2) of this section.

(4) A U.S. branch, agency, or commercial lending company of a foreign bank may comply with paragraphs (b)(2) and (b)(3) of this section by obtaining the approvals and reviews required by paragraphs (b)(2) and (b)(3) from either:

(i) A majority of the directors of the foreign bank; or

(ii) A majority of the senior executive officers of the foreign bank.

(c) Special definitions. For purposes of this section:

(1) “Principal underwriter” means any underwriter who, in connection with a primary distribution of securities:

(i) Is in privity of contract with the issuer or an affiliated person of the issuer;

(ii) Acting alone or in concert with one or more other persons, initiates or directs the formation of an underwriting syndicate; or

(iii) Is allowed a rate of gross commission, spread, or other profit greater than the rate allowed another underwriter participating in the distribution.

(2) “Security” has the same meaning as in section 3(a)(10) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(10)).
issued by an affiliate, or entering into a cross-affiliate netting arrangement, to the extent such transaction satisfies the quantitative limits of §§ 223.11 and 223.12 and the collateral requirements of § 223.14, and is otherwise permitted under this regulation; or
(2) Making reference to such a guarantee, acceptance, letter of credit, or cross-affiliate netting arrangement if otherwise required by law.

§ 223.55 What are the standards under which the Board may grant exemptions from the requirements of section 23B?
The Board may prescribe regulations to exempt transactions or relationships from the requirements of section 23B and subpart F of this part if it finds such exemptions to be in the public interest and consistent with the purposes of section 23B.

§ 223.56 What transactions are exempt from the market-terms requirement of section 23B?
The following transactions are exempt from the market-terms requirement of § 223.51.
(a) Purchases of certain asset-backed commercial paper. Purchases of asset-backed commercial paper from an affiliated SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7), if the member bank:
   (1) Purchases the asset-backed commercial paper on or after September 19, 2008;
   (2) Pledges the asset-backed commercial paper to a Federal Reserve Bank to secure financing from the asset-backed commercial paper lending facility (AMLF) established by the Board on September 19, 2008; and
   (3) Has not been specifically informed by the Board, after consultation with the member bank’s appropriate Federal banking agency, that the member bank may not use this exemption.
   (b) [Reserved]
[Reg. W, 74 FR 6228, Feb. 6, 2009]

Subpart G—Application of Sections 23A and 23B to U.S. Branches and Agencies of Foreign Banks

§ 223.61 How do sections 23A and 23B apply to U.S. branches and agencies of foreign banks?
(a) Applicability of sections 23A and 23B to foreign banks engaged in underwriting insurance, underwriting or dealing in securities, merchant banking, or insurance company investment in the United States. Except as provided in this subpart, sections 23A and 23B of the Federal Reserve Act and the provisions of this regulation apply to each U.S. branch, agency, or commercial lending company of a foreign bank in the same manner and to the same extent as if the branch, agency, or commercial lending company were a member bank.
(b) Affiliate defined. For purposes of this subpart, any company that would be an affiliate of a U.S. branch, agency, or commercial lending company of a foreign bank if such branch, agency, or commercial lending company were a member bank is an affiliate of the branch, agency, or commercial lending company if the company also is:
   (1) Directly engaged in the United States in any of the following activities:
      (i) Insurance underwriting pursuant to section 4(k)(4)(B) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(B));
      (ii) Securities underwriting, dealing, or market making pursuant to section 4(k)(4)(E) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(E));
      (iii) Merchant banking activities pursuant to section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)) (but only to the extent that the proceeds of the transaction are used for the purpose of funding the affiliate’s merchant banking activities);
      (iv) Insurance company investment activities pursuant to section 4(k)(4)(I) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(I)); or
      (v) Any other activity designated by the Board;
Federal Reserve System

§ 223.72 Transactions with affiliates.

(a) Scope. (1) This subpart implements section 11(a) of the Home Owners’ Loan Act (12 U.S.C. 1468(a)). Section 11(a) applies sections 23A and 23B of the FRA (12 U.S.C. 371c and 371c-1) to every savings association in the same manner and to the same extent as if the association were a member bank; prohibits certain types of transactions with affiliates; and authorizes the Board to impose additional restrictions on a savings association’s transactions with affiliates.
(2) For the purposes of this subpart, “savings association” is defined at section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813), and also includes any savings bank or any cooperative bank that is a savings association under 12 U.S.C. 1467a(1). A non-affiliate subsidiary of a savings association is treated as part of the savings association. For purposes of this subpart, a “non-affiliate subsidiary” is a subsidiary of a savings association other than a subsidiary described at 12 CFR 223.2(b)(1)(i), and (b)(1)(iii) through (v).

(b) Sections 23A and 23B of the FRA. A savings association must comply with sections 23A and 23B of the Federal Reserve Act and this part as if it were a member bank, except as described in the following chart.

(c) Additional prohibitions and restrictions. A savings association must comply with the additional prohibitions and restrictions in this paragraph (c). Except as described in paragraph (b) of this section, the definitions in this part apply to these additional prohibitions and restrictions.

(1) Loans and extensions of credit. (i) A savings association may not make a loan or other extension of credit to an affiliate, unless the affiliate is solely engaged in the activities described at 12 U.S.C. 1467a(c)(2)(F)(1), as defined in §238.54 of Regulation LL (12 CFR 238.54). A loan or extension of credit to a third party is not prohibited merely because proceeds of the transaction are used for the benefit of, or are transferred to, an affiliate.

(ii) If the Board determines that a particular transaction is, in substance, a loan or extension of credit to an affiliate that is engaged in activities other than those described at 12 U.S.C. 1467a(c)(2)(F)(1), as defined in §238.54 of Regulation LL (12 CFR 238.54), or the Board has other supervisory concerns.
Federal Reserve System § 224.2

concerning the transaction, the Board may inform the savings association that the transaction is prohibited under this paragraph (c)(1), and require the savings association to divest the loan, unwind the transaction, or take other appropriate action.

(2) Purchases or investments in securities. A savings association may not purchase or invest in securities issued by any affiliate other than with respect to shares of a subsidiary. For the purposes of this paragraph (c)(2), subsidiary includes a bank and a savings association.

PART 224—BORROWERS OF SECURITIES CREDIT (REGULATION X)

Sec.
224.1 Authority, purpose, and scope.
224.2 Definitions.
224.3 Margin regulations to be applied by nonexempted borrowers.

EDITORIAL NOTE: See the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov, for FR citations to Part 224 OTC Margin Stocks changes.

§ 224.1 Authority, purpose, and scope.

(a) Authority and purpose. Regulation X (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) under the Securities Exchange Act of 1934, as amended (the Act) (15 U.S.C. 78 et seq.). This part implements section 7(f) of the Act (15 U.S.C. 78g(f)), the purpose of which is to require that credit obtained within or outside the United States complies with the limitations of the Board’s Margin Regulations T and U (12 CFR parts 220 and 221, respectively).

(b) Scope and exemptions. The Act and this part apply the Board’s margin regulations to United States persons and foreign persons controlled by or acting on behalf of or in conjunction with United States persons (hereinafter borrowers), who obtain credit outside the United States to purchase or carry United States securities, or within the United States to purchase or carry any securities (both types of credit are hereinafter referred to as purpose credit). The following borrowers are exempt from the Act and this part:

(1) Any borrower who obtains purpose credit within the United States, unless the borrower willfully causes the credit to be extended in contravention of Regulations T or U.

(2) Any borrower whose permanent residence is outside the United States and who does not obtain or have outstanding, during any calendar year, a total of more than $100,000 in purpose credit obtained outside the United States; and

(3) Any borrower who is exempt by Order upon terms and conditions set by the Board.

§ 224.2 Definitions.

The terms used in this part have the meanings given to them in sections 3(a) and 7(f) of the Act, and in Regulations T and U. Section 7(f) of the Act contains the following definitions:

(a) United States person includes a person which is organized or exists under the laws of any State or, in the case of a natural person, a citizen or resident of the United States; a domestic estate; or a trust in which one or more of the foregoing persons has a cumulative direct or indirect beneficial interest in excess of 50 per centum of the value of the trust.

(b) United States security means a security (other than an exempted security) issued by a person incorporated under the laws of any State or, in the case of a natural person, a citizen or resident of the United States; a domestic estate; or a trust in which one or more of the foregoing persons has a cumulative direct or indirect beneficial interest in excess of 50 per centum of the value of the trust.

(c) Foreign person controlled by a United States person includes any noncorporate entity in which United States persons directly or indirectly have more than a 50 per centum beneficial interest, and any corporation in which one or more United States persons, directly or indirectly, own stock possessing more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or
§ 224.3 Margin regulations to be applied by nonexempted borrowers.

(a) Credit transactions outside the United States. No borrower shall obtain purpose credit from outside the United States unless it conforms to the following margin regulations:

(1) Regulation T (12 CFR part 220) if the credit is obtained from a foreign branch of a broker-dealer;

(2) Regulation U (12 CFR part 221), as it applies to banks, if the credit is obtained from a foreign branch of a bank, except for the requirement of a purpose statement (12 CFR 221.3(c)(1)(i) and (c)(2)(i)); and

(3) Regulation U (12 CFR part 221), as it applies to nonbank lenders, if the credit is obtained from any other lender outside the United States, except for the requirement of a purpose statement (12 CFR 221.3(c)(1)(ii) and (c)(2)(ii)).

(b) Credit transactions within the United States. Any borrower who willfully causes credit to be extended in contravention of Regulations T and U (12 CFR parts 220 and 221), and who, therefore, is not exempted by § 224.1(b)(1), must conform the credit to the margin regulation that applies to the lender.

225.101 Bank holding company’s subsidiary banks owning shares of nonbanking companies.
225.102 Bank holding company indirectly owning nonbanking company through subsidiaries.
225.103 Bank holding company acquiring stock by dividends, stock splits or exercise of rights.
225.104 “Services” under section 4(c)(1) of Bank Holding Company Act.
225.107 Acquisition of stock in small business investment company.
225.109 “Services” under section 4(c)(1) of Bank Holding Company Act.
225.111 Limit on investment by bank holding company system in stock of small business investment companies.
225.112 Indirect control of small business concern through convertible debentures held by small business investment company.
225.113 Services under section 4(a) of Bank Holding Company Act.
225.115 Applicability of Bank Service Corporation Act in certain bank holding company situations.
225.118 Computer services for customers of subsidiary banks.
225.121 Acquisition of Edge corporation affiliate by State member banks of registered bank holding company.
225.122 Bank holding company ownership of mortgage companies.
225.123 Activities closely related to banking.
225.124 Foreign bank holding companies.
225.125 Investment adviser activities.
225.126 Activities not closely related to banking.
225.127 Investment in corporations or projects designed primarily to promote community welfare.
225.128 Activities closely related to banking.
225.130 Issuance and sale of short-term debt obligations by bank holding companies.
225.131 Activities closely related to banking.
225.132 Acquisition of assets.
225.133 Computation of amount invested in foreign corporations under general consent procedures.
225.136 Utilization of foreign subsidiaries to sell long-term debt obligations in foreign markets and to transfer the proceeds to their United States parent(s) for domestic purposes.
225.137 Acquisitions of shares pursuant to section 4(c)(6) of the Bank Holding Company Act.
225.138 Statement of policy concerning divestitures by bank holding companies.
225.139 Presumption of continued control under section (2)(g)(3) of the Bank Holding Company Act.
225.140 Disposition of property acquired in satisfaction of debts previously contracted.
§ 225.1 Authority, purpose, and scope.

(b) Purpose. The principal purposes of this part are to:

(1) Regulate the acquisition of control of banks by companies and individuals;

§ 225.1

(2) Define and regulate the nonbanking activities in which bank holding companies and foreign banking organizations with United States operations may engage; and

(3) Set forth the procedures for securing approval for these transactions and activities.

(c) Scope—(1) Subpart A contains general provisions and definitions of terms used in this regulation.

(2) Subpart B governs acquisitions of bank or bank holding company securities and assets by bank holding companies or by any company that will become a bank holding company as a result of the acquisition.

(3) Subpart C defines and regulates the nonbanking activities in which bank holding companies and foreign banking organizations may engage directly or through a subsidiary. The Board’s Regulation K governs certain nonbanking activities conducted by foreign banking organizations and certain foreign activities conducted by bank holding companies (12 CFR part 211, International Banking Operations).

(4) Subpart D specifies situations in which a company is presumed to control voting securities or to have the power to exercise a controlling influence over the management or policies of a bank or other company; sets forth the procedures for making a control determination; and provides rules governing the effectiveness of divestitures by bank holding companies.

(5) Subpart E governs changes in bank control resulting from the acquisition by individuals or companies (other than bank holding companies) of voting securities of a bank holding company or state member bank of the Federal Reserve System.

(6) Subpart F specifies the limitations that govern companies that control so-called nonbank banks and the activities of nonbank banks.

(7) Subpart G prescribes minimum standards that apply to the performance of real estate appraisals and identifies transactions that require state certified appraisers.

(8) Subpart H identifies the circumstances when written notice must be provided to the Board prior to the appointment of a director or senior officer of a bank holding company and establishes procedures for obtaining the required Board approval.

(9) Subpart I establishes the procedure by which a bank holding company may elect to become a financial holding company, enumerates the consequences if a financial holding company ceases to meet a requirement applicable to a financial holding company, lists the activities in which a financial holding company may engage, establishes the procedure by which a person may request the Board to authorize additional activities as financial in nature or incidental thereto, and establishes the procedure by which a financial holding company may seek approval to engage in an activity that is complementary to a financial activity.

(10) Subpart J governs the conduct of merchant banking investment activities by financial holding companies as permitted under section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)).

(11) Subpart K governs the period of time that firms subject to section 13 of the Bank Holding Company Act (12 U.S.C. 1851) have to bring their activities, investments and relationships into compliance with the requirements of such section.

(12) Appendix B contains the Board’s Capital Adequacy Guidelines for measuring leverage for bank holding companies and state member banks.

(13) Appendix C contains the Board’s policy statement governing small bank holding companies.

(14) Appendix D contains the Board’s Capital Adequacy Guidelines for measuring tier 1 leverage for bank holding companies.

(15) Appendix E contains the Board’s Capital Adequacy Guidelines for measuring market risk of bank holding companies.

§ 225.2 Definitions.

Except as modified in this regulation or unless the context otherwise requires, the terms used in this regulation have the same meaning as set forth in the relevant statutes.

(a) Affiliate means any company that controls, is controlled by, or is under common control with, another company.

(b)(1) Bank means:

(i) An insured bank as defined in section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)); or

(ii) An institution organized under the laws of the United States which both:

(A) Accepts demand deposits or deposits that the depositor may withdraw by check or similar means for payment to third parties or others; and

(B) Is engaged in the business of making commercial loans.

(2) Bank does not include those institutions qualifying under the exceptions listed in section 2(c)(2) of the BHC Act (12 U.S.C. 1841(c)(2)).

(c)(1) Bank holding company means any company (including a bank) that has direct or indirect control of a bank, other than control that results from the ownership or control of:

(i) Voting securities held in good faith in a fiduciary capacity (other than as provided in paragraphs (e)(2)(ii) and (iii) of this section) without sole discretionary voting authority, or as otherwise exempted under section 2(a)(5)(A) of the BHC Act;

(ii) Voting securities acquired and held only for a reasonable period of time in connection with the underwriting of securities, as provided in section 2(a)(5)(B) of the BHC Act;

(iii) Voting rights to voting securities acquired for the sole purpose and in the course of participating in a proxy solicitation, as provided in section 2(a)(5)(C) of the BHC Act;

(iv) Voting securities acquired in satisfaction of debts previously contracted in good faith, as provided in section 2(a)(5)(D) of the BHC Act, if the securities are divested within two years of acquisition (or such later period as the Board may permit by order); or

(v) Voting securities of certain institutions owned by a thrift institution or a trust company, as provided in sections 2(a)(5)(E) and (F) of the BHC Act.

(2) Except for the purposes of §225.4(b) of this subpart and subpart E of this part, or as otherwise provided in this regulation, bank holding company includes a foreign banking organization. For the purposes of subpart B of this part, bank holding company includes a foreign banking organization only if it owns or controls a bank in the United States.

(d)(1) Company includes any bank, corporation, general or limited partnership, association or similar organization, business trust, or any other trust unless by its terms it must terminate either within 25 years, or within 21 years and 10 months after the death of individuals living on the effective date of the trust.

(2) Company does not include any organization, the majority of the voting securities of which are owned by the United States or any state.

(3) Testamentary trusts exempt. Unless the Board finds that the trust is being operated as a business trust or company, a trust is presumed not to be a company if the trust:

(i) Terminates within 21 years and 10 months after the death of grantors or beneficiaries of the trust living on the effective date of the trust or within 25 years;

(ii) Is a testamentary or inter vivos trust established by an individual or individuals for the benefit of natural persons (or trusts for the benefit of natural persons who are related by blood, marriage or adoption);

(iii) Contains only assets previously owned by the individual or individuals who established the trust;

(iv) Is not a Massachusetts business trust; and

(v) Does not issue shares, certificates, or any other evidence of ownership.

(4) Qualified limited partnerships exempt. Company does not include a qualified limited partnership, as defined in section 2(o)(10) of the BHC Act.

(e)(1) Control of a bank or other company means (except for the purposes of subpart E of this part):

(i) Ownership, control, or power to vote 25 percent or more of the outstanding shares of any class of voting
securities of the bank or other company, directly or indirectly or acting through one or more other persons;
(ii) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the bank or other company;
(iii) The power to exercise, directly or indirectly, a controlling influence over the management or policies of the bank or other company, as determined by the Board after notice and opportunity for hearing in accordance with §225.31 of subpart D of this part; or
(iv) Conditioning in any manner the transfer of 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company upon the transfer of 25 percent or more of the outstanding shares of any class of voting securities of another bank or other company.
(2) A bank or other company is deemed to control voting securities or assets owned, controlled, or held, directly or indirectly:
(i) By any subsidiary of the bank or other company;
(ii) In a fiduciary capacity (including by pension and profit-sharing trusts) for the benefit of the shareholders, members, or employees (or individuals serving in similar capacities) of the bank or other company or any of its subsidiaries; or
(iii) In a fiduciary capacity for the benefit of the bank or other company or any of its subsidiaries.
(f) Foreign banking organization and qualifying foreign banking organization have the same meanings as provided in §211.21(n) and §211.23 of the Board's Regulation K (12 CFR 211.21(n) and 211.23).
(g) Insured depository institution includes an insured bank as defined in section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)) and a savings association.
(h) Lead insured depository institution means the largest insured depository institution controlled by the bank holding company as of the quarter ending immediately prior to the proposed filing, based on a comparison of the average total risk-weighted assets controlled during the previous 12-month period by each insured depository institution subsidiary of the holding company.
(i) Management official means any officer, director (including honorary or advisory directors), partner, or trustee of a bank or other company, or any employee of the bank or other company with policy-making functions.
(j) Nonbank bank means any institution that:
(1) Became a bank as a result of enactment of the Competitive Equality Amendments of 1987 (Pub. L. 100–86), on the date of enactment (August 10, 1987); and
(2) Was not controlled by a bank holding company on the day before the enactment of the Competitive Equality Amendments of 1987 (August 9, 1987).
(k) Outstanding shares means any voting securities, but does not include securities owned by the United States or by a company wholly owned by the United States.
(l) Person includes an individual, bank, corporation, partnership, trust, association, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, or any other form of entity.
(m) Savings association means:
(1) Any federal savings association or federal savings bank;
(2) Any building and loan association, savings and loan association, home- stead association, or cooperative bank if such association or cooperative bank is a member of the Savings Association Insurance Fund; and
(3) Any savings bank or cooperative that is deemed by the director of the Office of Thrift Supervision to be a savings association under section 10(l) of the Home Owners Loan Act.
(n) Shareholder—(1) Controlling shareholder means a person that owns or controls, directly or indirectly, 25 percent or more of any class of voting securities of a bank or other company.
(2) Principal shareholder means a person that owns or controls, directly or indirectly, 10 percent or more of any class of voting securities of a bank or other company, or any person that the Board determines has the power, directly or indirectly, to exercise a controlling influence over the management or policies of a bank or other company.
(o) Subsidiary means a bank or other company that is controlled by another company, and refers to a direct or indirect subsidiary of a bank holding company. An indirect subsidiary is a bank or other company that is controlled by a subsidiary of the bank holding company.

(p) United States means the United States and includes any state of the United States, the District of Columbia, any territory of the United States, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

(q)(1) Voting securities means shares of common or preferred stock, general or limited partnership shares or interests, or similar interests if the shares or interest, by statute, charter, or in any manner, entitle the holder:
   (i) To vote for or to select directors, trustees, or partners (or persons exercising similar functions of the issuing company); or
   (ii) To vote on or to direct the conduct of the operations or other significant policies of the issuing company.

(2) Nonvoting shares. Preferred shares, limited partnership shares or interests, or similar interests are not voting securities if:
   (i) Any voting rights associated with the shares or interest are limited solely to the type customarily provided by statute with regard to matters that would significantly and adversely affect the rights or preference of the security or other interest, such as the issuance of additional amounts or classes of senior securities, the modification of the terms of the security or interest, the dissolution of the issuing company, or the payment of dividends by the issuing company when preferred dividends are in arrears;
   (ii) The shares or interest represent an essentially passive investment or financing device and do not otherwise provide the holder with control over the issuing company; and
   (iii) The shares or interest do not entitle the holder, by statute, charter, or in any manner, to select or to vote for the selection of directors, trustees, or partners (or persons exercising similar functions) of the issuing company.

(3) Class of voting shares. Shares of stock issued by a single issuer are deemed to be the same class of voting shares, regardless of differences in dividend rights or liquidation preference, if the shares are voted together as a single class on all matters for which the shares have voting rights other than matters described in paragraph (o)(2)(i) of this section that affect solely the rights or preferences of the shares.

(r) Well-capitalized—(1) Bank holding company. In the case of a bank holding company, well-capitalized means that:
   (i) On a consolidated basis, the bank holding company maintains a total risk-based capital ratio of 10.0 percent or greater, as defined in appendix A of this part;
   (ii) On a consolidated basis, the bank holding company maintains a Tier 1 risk-based capital ratio of 6.0 percent or greater, as defined in appendix A of this part; and
   (iii) The bank holding company is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the Board to meet and maintain a specific capital level for any capital measure.

(2) Insured and uninsured depository institution—(i) Insured depository institution. In the case of an insured depository institution, “well capitalized” means that the institution has and maintains at least the capital levels required to be well capitalized under the capital adequacy regulations or guidelines applicable to the institution that have been adopted by the appropriate Federal banking agency for the institution under section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o).

(ii) Uninsured depository institution. In the case of a depository institution the deposits of which are not insured by the Federal Deposit Insurance Corporation, “well capitalized” means that the institution has and maintains at least the capital levels required for an insured depository institution to be well capitalized.
Federal Reserve System

§ 225.3

(3) Foreign banks—(i) Standards applied. For purposes of determining whether a foreign banking organization qualifies under paragraph (r)(1) of this section:

(A) A foreign banking organization whose home country supervisor, as defined in §211.21 of the Board’s Regulation K (12 CFR 211.21), has adopted capital standards consistent in all respects with the Capital Accord of the Basle Committee on Banking Supervision (Basle Accord) may calculate its capital ratios under the home country standard; and

(B) A foreign banking organization whose home country supervisor has not adopted capital standards consistent in all respects with the Basle Accord shall obtain a determination from the Board that its capital is equivalent to the capital that would be required of a U.S. banking organization under paragraph (r)(1) of this section.

(ii) Branches and agencies. For purposes of determining, under paragraph (r)(1) of this section, whether a branch or agency of a foreign banking organization is well-capitalized, the branch or agency shall be deemed to have the same capital ratios as the foreign banking organization.

(s) Well managed—(1) In general. Except as otherwise provided in this part, a company or depository institution is well managed if:

(A) At least a satisfactory composite rating; and

(B) At least a satisfactory rating for management, if such rating is given.

(ii) Branches and agencies. For purposes of determining, under paragraph (r)(1) of this section, whether a branch or agency of a foreign banking organization is well-capitalized, the branch or agency shall be deemed to have the same capital ratios as the foreign banking organization.

(t) Depository institution. For purposes of this part, the term “depository institution” has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

§ 225.3 Administration.

(a) Delegation of authority. Designated Board members and officers and the Federal Reserve Banks are authorized by the Board to exercise various functions prescribed in this regulation and in the Board’s Rules Regarding Delegation of Authority (12 CFR part 265) and the Board’s Rules of Procedure (12 CFR part 262).
§ 225.4 Corporate practices.

(a) Bank holding company policy and operations. (1) A bank holding company shall serve as a source of financial and managerial strength to its subsidiary banks and shall not conduct its operations in an unsafe or unsound manner.

(2) Whenever the Board believes an activity of a bank holding company or control of a nonbank subsidiary (other than a nonbank subsidiary of a bank) constitutes a serious risk to the financial safety, soundness, or stability of a subsidiary of the bank holding company and is inconsistent with sound banking principles or the purposes of the BHC Act or the Financial Institutions Supervisory Act of 1966, as amended (12 U.S.C. 1818(b) et seq.), the Board may require the bank holding company to terminate the activity or to terminate control of the subsidiary, as provided in section 5(e) of the BHC Act.

(b) Purchase or redemption by bank holding company of its own securities—

(1) Filing notice. Except as provided in paragraph (b)(6) of this section, a bank holding company shall give the Board prior written notice before purchasing or redeeming its equity securities if the gross consideration for the purchase or redemption, when aggregated with the net consideration paid by the company for all such purchases or redemptions during the preceding 12 months, is equal to 10 percent or more of the company’s consolidated net worth. For the purposes of this section, “net consideration” is the gross consideration paid by the company for all of its equity securities purchased or redeemed during the period minus the gross consideration received for all of its equity securities sold during the period.

(2) Contents of notice. Any notice under this section shall be filed with the appropriate Reserve Bank and shall contain the following information:

(i) The purpose of the transaction, a description of the securities to be purchased or redeemed, the total number of each class outstanding, the gross consideration to be paid, and the terms and sources of funding for the transaction;

(ii) A description of all equity securities redeemed within the preceding 12 months, the net consideration paid, and the terms of any debt incurred in connection with those transactions; and

(iii) (A) If the bank holding company has consolidated assets of $500 million or more, consolidated pro forma risk-based capital and leverage ratio calculations for the bank holding company as of the most recent quarter, and, if the redemption is to be debt funded, a parent-only pro forma balance sheet as of the most recent quarter; or

(B) If the bank holding company has consolidated assets of less than $500 million, a pro forma parent-only balance sheet as of the most recent quarter, and, if the redemption is to be debt funded, one-year income statement and cash flow projections.

(3) Acting on notice. Within 15 calendar days of receipt of a notice under
this section, the appropriate Reserve Bank shall either approve the trans-
action proposed in the notice or refer the notice to the Board for decision. If
the notice is referred to the Board for decision, the Board shall act on the no-
notice within 30 calendar days after the Reserve Bank receives the notice.

(4) Factors considered in acting on notice. (i) The Board may disapprove a
proposed purchase or redemption if it finds that the proposal would con-
stitute an unsafe or unsound practice, or would violate any law, regulation,
Board order, directive, or any condition imposed by, or written agreement
with, the Board.

(ii) In determining whether a proposal constitutes an unsafe or unsound
practice, the Board shall consider whether the bank holding company’s
financial condition, after giving effect to the proposed purchase or redemp-
tion, meets the financial standards ap-
plied by the Board under section 3 of
the BHC Act, including the Board’s
Capital Adequacy Guidelines (appendix
A of this part) and the Board’s Policy
Statement for Small Bank Holding
Companies (appendix C of this part).

(5) Disapproval and hearing. (i) The
Board shall notify the bank holding
company in writing of the reasons for a
disapproval of any proposed
purchase or redemption. Within 10 cal-
endar days of receipt of a notice of dis-
approval by the Board, the bank holding
company may submit a written re-
quest for a hearing.

(ii) The Board shall order a hearing
within 10 calendar days of receipt of the request if it finds that material
facts are in dispute, or if it otherwise
appears appropriate. Any hearing con-
ducted under this paragraph shall be
held in accordance with the Board’s
Rules of Practice for Formal Hearings
(12 CFR part 263).

(iii) At the conclusion of the hearing,
the Board shall by order approve or dis-
approve the proposed purchase or re-
demption on the basis of the record of
the hearing.

(6) Exception for well-capitalized bank
holding companies. A bank holding com-
pany is not required to obtain prior
Board approval for the redemption or
purchase of its equity securities under
this section provided:

(i) Both before and immediately after
the redemption, the bank holding com-
pany is well-capitalized;

(ii) The bank holding company is
well-managed; and

(iii) The bank holding company is not
the subject of any unresolved supervi-
sory issues.

(7) Exception for certain bank holding
companies. This section 225.4(b) shall
not apply to any bank holding company
that is subject to §225.8 of Regu-
lation Y (12 CFR 225.8).

(c) Deposit insurance. Every bank that
is a bank holding company or a sub-
idiary of a bank holding company shall obtain Federal Deposit Insurance
and shall remain an insured bank as de-
defined in section 3(h) of the Federal De-
posit Insurance Act (12 U.S.C. 1813(h)).

(d) Acting as transfer agent or clearing
agent. A bank holding company or any
nonbanking subsidiary that is a “bank,” as defined in section 3(a)(5) of
the Securities Exchange Act of 1934 (15
U.S.C. 78c(a)(6)), and that is a transfer
agent of securities, a clearing agency,
or a participant in a clearing agency
(as those terms are defined in section
3(a) of the Securities Exchange Act (15
U.S.C. 78c(a)), shall be subject to
§§208.31–208.33 of the Board’s Regula-
tion H (12 CFR 208.31–208.33) as if it
were a state member bank.

(e) Reporting requirement for credit se-
cured by certain bank holding company
stock. Each executive officer or director of a bank holding company the shares
of which are not publicly traded shall
report annually to the board of direc-
tors of the bank holding company the
outstanding amount of any credit that
was extended to the executive officer
or director and that is secured by
shares of the bank holding company.

For purposes of this paragraph, the
terms “executive officer” and “direc-
tor” shall have the meaning given in
§215.2 of Regulation O (12 CFR 215.2).

(f) Suspicious activity report. A bank
holding company or any nonbank sub-
propriety thereof, or a foreign bank that
is subject to the BHC Act or any
nonbank subsidiary of such foreign
bank operating in the United States,
shall file a suspicious activity report in
accordance with the provisions of
§208.62 of the Board’s Regulation H (12
CFR 208.62).
(g) Requirements for financial holding companies engaged in securities underwriting, dealing, or market-making activities. 

(1) Any intra-day extension of credit by a bank or thrift, or U.S. branch or agency of a foreign bank to an affiliated company engaged in underwriting, dealing in, or making a market in securities pursuant to section 4(k)(4)(E) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(E)) must be on market terms consistent with section 23B of the Federal Reserve Act (12 U.S.C. 371c–1).

(2) A foreign bank that is or is treated as a financial holding company under this part shall ensure that:

(i) Any extension of credit by any U.S. branch or agency of such foreign bank to an affiliated company engaged in underwriting, dealing in, or making a market in securities pursuant to section 4(k)(4)(E) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(E)), conforms to sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1) as if the branch or agency were a member bank;

(ii) Any purchase by any U.S. branch or agency of such foreign bank, as principal or fiduciary, of securities for which a securities affiliate described in paragraph (g)(2)(i) of this section is a principal underwriter conforms to sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1) as if the branch or agency were a member bank;

(iii) Its U.S. branches and agencies not advertise or suggest that they are responsible for the obligations of a securities affiliate described in paragraph (g)(2)(i) of this section, consistent with section 23B(c) of the Federal Reserve Act (12 U.S.C. 371c–1(c)) as if the branches or agencies were member banks.

§ 225.5 Registration, reports, and inspections.

(a) Registration of bank holding companies. Each company shall register within 180 days after becoming a bank holding company by furnishing information in the manner and form prescribed by the Board. A company that receives the Board’s prior approval under subpart B of this part to become a bank holding company may complete this registration requirement through submission of its first annual report to the Board as required by paragraph (b) of this section.

(b) Reports of bank holding companies. Each bank holding company shall furnish, in the manner and form prescribed by the Board, an annual report of the company’s operations for the fiscal year in which it becomes a bank holding company, and for each fiscal year during which it remains a bank holding company. Additional information and reports shall be furnished as the Board may require.

(c) Examinations and inspections. The Board may examine or inspect any bank holding company and each of its subsidiaries and prepare a report of their operations and activities. With respect to a foreign banking organization, the Board may also examine any branch or agency of a foreign bank in any state of the United States and may examine or inspect each of the organization’s subsidiaries in the United States and prepare reports of their operations and activities. The Board shall rely, as far as possible, on the reports of examination made by the primary federal or state supervisor of the subsidiary bank of the bank holding company or of the branch or agency of the foreign bank.

§ 225.6 Penalties for violations.

(a) Criminal and civil penalties. (1) Section 8 of the BHC Act provides criminal penalties for willful violation, and civil...
penalties for violation, by any company or individual, of the BHC Act or any regulation or order issued under it, or for making a false entry in any book, report, or statement of a bank holding company.

(2) Civil money penalty assessments for violations of the BHC Act shall be made in accordance with subpart C of the Board’s Rules of Practice for Hearings (12 CFR part 263, subpart C). For any willful violation of the Bank Control Act or any regulation or order issued under it, the Board may assess a civil penalty as provided in 12 U.S.C. 1817(j)(15).

(b) Cease-and-desist proceedings. For any violation of the BHC Act, the Bank Control Act, this regulation, or any order or notice issued thereunder, the Board may institute a cease-and-desist proceeding in accordance with the Financial Institutions Supervisory Act of 1966, as amended (12 U.S.C. 1818(b) et seq.).

§ 225.7 Exceptions to tying restrictions.

(a) Purpose. This section establishes exceptions to the anti-tying restrictions of section 106 of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971, 1972(1)). These exceptions are in addition to those in section 106. The section also restricts tying of electronic benefit transfer services by bank holding companies and their nonbank subsidiaries.

(b) Exceptions to statute. Subject to the limitations of paragraph (c) of this section, a bank may:

1. Extension to affiliates of statutory exceptions preserving traditional banking relationships. Extend credit, lease or sell property of any kind, or furnish any service, or fix or vary the consideration for any of the foregoing, on the condition or requirement that a customer:

   (i) Obtain a loan, discount, deposit, or trust service from an affiliate of the bank;

   (ii) Provide to an affiliate of the bank some additional credit, property, or service that the bank could require to be provided to itself pursuant to section 106(b)(1)(C) of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1972(1)(C)).

2. Safe harbor for combined-balance discounts. Vary the consideration for any product or package of products based on a customer’s maintaining a combined minimum balance in certain products specified by the bank (eligible products), if:

   (i) The bank offers deposits, and all such deposits are eligible products; and

   (ii) Balances in deposits count at least as much as nondeposit products toward the minimum balance.

3. Safe harbor for foreign transactions. Engage in any transaction with a customer if that customer is:

   (i) A corporation, business, or other person (other than an individual) that:

      (A) Is incorporated, chartered, or otherwise organized outside the United States; and

      (B) Has its principal place of business outside the United States; or

   (ii) An individual who is a citizen of a foreign country and is not resident in the United States.

(c) Limitations on exceptions. Any exception granted pursuant to this section shall terminate upon a finding by the Board that the arrangement is resulting in anti-competitive practices. The eligibility of a bank to operate under any exception granted pursuant to this section shall terminate upon a finding by the Board that its exercise of this authority is resulting in anti-competitive practices.

(d) Extension of statute to electronic benefit transfer services. A bank holding company or nonbank subsidiary of a bank holding company that provides electronic benefit transfer services shall be subject to the anti-tying restrictions applicable to such services set forth in section 7(i)(11) of the Food Stamp Act of 1977 (7 U.S.C. 2016(i)(11)).

(e) For purposes of this section, bank has the meaning given that term in section 106(a) of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971), but shall also include a United States branch, agency, or commercial lending company subsidiary of a foreign bank that is subject to section 106 pursuant to section 8(d) of the International Banking Act of 1978 (12 U.S.C. 3106(d)), and any company made subject to section 106 by section 4(f)(9) or 4(h) of the BHC Act.
§ 225.8 Capital planning.

(a) Purpose. This section establishes capital planning and prior notice and approval requirements for capital distributions by certain bank holding companies.

(b) Scope and effective date. (1) This section applies to every top-tier bank holding company domiciled in the United States:

(i) With total consolidated assets greater than or equal to $50 billion computed on the basis of the average of the company’s total consolidated assets over the previous four calendar quarters, as reflected on the bank holding company’s consolidated financial statement for bank holding companies (FR Y–9C (the calculation shall be effective as of the due date of the bank holding company’s most recent FR Y–9C required to be filed under 12 CFR 225.5(b))); or

(ii) That is subject to this section, in whole or in part, by order of the Board based on the institution’s size, level of complexity, risk profile, scope of operations, or financial condition.

(2) Beginning on December 30, 2011, the provisions of this section shall apply to any bank holding company that is subject to this section pursuant to paragraph (b)(1) of this section, provided that:

(i) Until July 21, 2015, this section will not apply to any bank holding company subsidiary of a foreign banking organization that is currently relying on Supervision and Regulation Letter SR 01–01 issued by the Board (as in effect on May 19, 2010); and

(ii) A bank holding company that becomes subject to this section pursuant to paragraph (b)(1)(i) of this section after the 5th of January of a calendar year shall not be subject to the requirements of paragraphs (d)(1)(ii), (d)(4), and (f)(1)(iii) of this section until January 1 of the next calendar year.

(3) Nothing in this section shall limit the authority of the Federal Reserve to issue a capital directive or take any other supervisory or enforcement action, including action to address unsafe or unsound practices or conditions or violations of law.

(c) Definitions. For purposes of this section, the following definitions apply:

(1) Capital action means any issuance of a debt or equity capital instrument, any capital distribution, and any similar action that the Federal Reserve determines could impact a bank holding company’s consolidated capital.

(2) Capital distribution means a redemption or repurchase of any debt or equity capital instrument, a payment of common or preferred stock dividends, a payment that may be temporarily or permanently suspended by the issuer on any instrument that is eligible for inclusion in the numerator of any minimum regulatory capital ratio, and any similar transaction that the Federal Reserve determines to be in substance a distribution of capital.

(3) Capital plan means a written presentation of a bank holding company’s capital planning strategies and capital adequacy process that includes the mandatory elements set forth in paragraph (d)(2) of this section.

(4) Capital policy means a bank holding company’s written assessment of the principles and guidelines used for capital planning, capital issuance, usage and distributions, including internal capital goals; the quantitative or qualitative guidelines for dividend and stock repurchases; the strategies for addressing potential capital shortfalls; and the internal governance procedures around capital policy principles and guidelines.

(5) Minimum regulatory capital ratio means any minimum regulatory capital ratio that the Federal Reserve may require of a bank holding company, by regulation or order, including the bank holding company’s leverage ratio and tier 1 and total risk-based capital ratios as calculated under Appendices A, D, E, and G to this part (12 CFR part 225), or any successor regulation.

(6) Planning horizon means the period of at least nine quarters, beginning with the quarter preceding the quarter in which the bank holding company submits its capital plan, over which the relevant projections extend.

(7) Tier 1 capital has the same meaning as under Appendix A to this part or any successor regulation.

(8) Tier 1 common capital means tier 1 capital less the non-common elements of tier 1 capital, including perpetual
Federal Reserve System § 225.8

preferred stock and related surplus, minority interest in subsidiaries, trust preferred securities and mandatory convertible preferred securities.

(9) **Tier 1 common ratio** means the ratio of a bank holding company’s tier 1 common capital to total risk-weighted assets. This definition will remain in effect until the Board adopts an alternative tier 1 common ratio definition as a minimum regulatory capital ratio.

(10) **Total risk-weighted assets** has the same meaning as under Appendices A, E, and G to this part, or any successor regulation.

(d) **General requirements**—(1) **Annual capital planning.** (i) A bank holding company must develop and maintain a capital plan.

(ii) A bank holding company must submit its complete capital plan to the appropriate Reserve Bank and the Board each year by the 5th of January, or such later date as directed by the Board or the appropriate Reserve Bank, after consultation with the Board.

(iii) The bank holding company’s board of directors or a designated committee thereof must at least annually and prior to submission of the capital plan under paragraph (d)(1)(ii) of this section:

(A) Review the robustness of the bank holding company’s process for assessing capital adequacy,

(B) Ensure that any deficiencies in the bank holding company’s process for assessing capital adequacy are appropriately remedied; and

(C) Approve the bank holding company’s capital plan.

(2) **Mandatory elements of capital plan.** A capital plan must contain at least the following elements:

(i) An assessment of the expected uses and sources of capital over the planning horizon that reflects the bank holding company’s size, complexity, risk profile, and scope of operations, assuming both expected and stressful conditions, including:

(A) Estimates of projected revenues, losses, reserves, and pro forma capital levels, including any minimum regulatory capital ratios (for example, leverage, tier 1 risk-based, and total risk-based capital ratios) and any additional capital measures deemed relevant by the bank holding company, over the planning horizon under expected conditions and under a range of stressed scenarios, including any scenarios provided by the Federal Reserve and at least one stressed scenario developed by the bank holding company appropriate to its business model and portfolios;

(B) A calculation of the pro forma tier 1 common ratio over the planning horizon under expected conditions and under a range of stressed scenarios and discussion of how the company will maintain a pro forma tier 1 common ratio above 5 percent under expected conditions and the stressed scenarios required under paragraphs (d)(2)(i)(A) and (ii) of this section;

(C) A discussion of the results of any stress test required by law or regulation, and an explanation of how the capital plan takes these results into account; and

(D) A description of all planned capital actions over the planning horizon.

(ii) A detailed description of the bank holding company’s process for assessing capital adequacy, including:

(A) A discussion of how the bank holding company will, under expected and stressful conditions, maintain capital commensurate with its risks, maintain capital above the minimum regulatory capital ratios and above a tier 1 common ratio of 5 percent, and serve as a source of strength to its subsidiary depository institutions;

(B) A discussion of how the bank holding company will, under expected and stressful conditions, maintain sufficient capital to continue its operations by maintaining ready access to funding, meeting its obligations to creditors and other counterparties, and continuing to serve as a credit intermediary;

(iii) The bank holding company’s capital policy; and

(iv) A discussion of any expected changes to the bank holding company’s business plan that are likely to have a material impact on the firm’s capital adequacy or liquidity.

(3) **Data collection.** Upon the request of the Board or appropriate Reserve Bank, the bank holding company shall provide the Federal Reserve with information regarding—
§ 225.8

(i) The bank holding company’s financial condition, including its capital;
(ii) The bank holding company’s structure;
(iii) Amount and risk characteristics of the bank holding company’s on- and off-balance sheet exposures, including exposures within the bank holding company’s trading account, other trading-related exposures (such as counterparty-credit risk exposures) or other items sensitive to changes in market factors, including, as appropriate, information about the sensitivity of positions to changes in market rates and prices;
(iv) The bank holding company’s relevant policies and procedures, including risk management policies and procedures;
(v) The bank holding company’s liquidity profile and management; and
(vi) Any other relevant qualitative or quantitative information requested by the Board or the appropriate Reserve Bank to facilitate review of the bank holding company’s capital plan under this section.

(4) Re-submission of a capital plan. (i) A bank holding company must update and re-submit its capital plan to the appropriate Reserve Bank within 30 calendar days of the occurrence of one of the following events:
(A) The bank holding company determines there has been or will be a material change in the bank holding company’s risk profile, financial condition, or corporate structure since the bank holding company adopted the capital plan;
(B) The Board or the appropriate Reserve Bank objects to the capital plan; or
(C) The Board or the appropriate Reserve Bank, after consultation with the Board, directs the bank holding company in writing to revise and resubmit its capital plan for any of the following reasons:
(1) The capital plan is incomplete or the capital plan, or the bank holding company’s internal capital adequacy process, contains material weaknesses;
(2) There has been or will likely be a material change in the bank holding company’s risk profile (including a material change in its business strategy or any risk exposure), financial condition, or corporate structure;
(3) The stressed scenario(s) developed by the bank holding company is not appropriate to its business model and portfolios, or changes in financial markets or the macro-economic outlook that could have a material impact on a bank holding company’s risk profile and financial condition require the use of updated scenarios; or
(4) The capital plan or the condition of the bank holding company raise any of the issues described in paragraph (e)(2)(ii) of this section.
(ii) The Board or the appropriate Reserve Bank, after consultation with the Board, may, at its discretion, extend the 30-day period in paragraph (d)(4)(i) of this section for up to an additional 60 calendar days.
(iii) Any updated capital plan must satisfy all the requirements of this section; however, a bank holding company may continue to rely on information submitted as part of a previously submitted capital plan to the extent that the information remains accurate and appropriate.

(e) Review of capital plans by the Federal Reserve—(1) Considerations and inputs. (i) The Board or the appropriate Reserve Bank, after consultation with the Board, will consider the following factors in reviewing a bank holding company’s capital plan:
(A) The comprehensiveness of the capital plan, including the extent to which the analysis underlying the capital plan captures and addresses potential risks stemming from activities across the firm and the company’s capital policy;
(B) The reasonableness of the bank holding company’s assumptions and analysis underlying the capital plan and its methodologies for reviewing the robustness of its capital adequacy process; and
(C) The bank holding company’s ability to maintain capital above each minimum regulatory capital ratio and above a tier 1 common ratio of 5 percent on a pro forma basis under expected and stressful conditions throughout the planning horizon, including but not limited to any stressed scenarios required under paragraphs (d)(2)(i)(A) and (ii) of this section.
(ii) The Board or the appropriate Reserve Bank, after consultation with the Board, will also consider the following information in reviewing a bank holding company’s capital plan:

(A) Relevant supervisory information about the bank holding company and its subsidiaries;

(B) The bank holding company’s regulatory and financial reports, as well as supporting data that would allow for an analysis of the bank holding company’s loss, revenue, and reserve projections;

(C) As applicable, the Federal Reserve’s own pro forma estimates of the firm’s potential losses, revenues, reserves, and resulting capital adequacy under expected and stressful conditions, including but not limited to any stressed scenarios required under paragraphs (d)(2)(i)(A) and (ii) of this section, as well as the results of any stress tests conducted by the bank holding company or the Federal Reserve; and

(D) Other information requested or required by the appropriate Reserve Bank or the Board, as well as any other information relevant, or related, to the bank holding company’s capital adequacy.

(2) Federal Reserve action on a capital plan. (i) The Board or the appropriate Reserve Bank, after consultation with the Board, will object, in whole or in part, to the capital plan or provide the bank holding company with a notice of non-objection to the capital plan:

(A) By March 31 of the calendar year in which a capital plan was submitted pursuant to paragraph (d)(1)(ii) of this section, and

(B) By the date that is 75 calendar days after the date on which a capital plan was resubmitted pursuant to paragraph (d)(4) of this section.

(ii) The Board or the appropriate Reserve Bank, after consultation with the Board, may object to a capital plan if it determines that:

(A) The bank holding company has material unresolved supervisory issues, including but not limited to issues associated with its capital adequacy process;

(B) The assumptions and analysis underlying the bank holding company’s capital plan, or the bank holding company’s methodologies for reviewing the robustness of its capital adequacy process, are not reasonable or appropriate;

(C) The bank holding company has not demonstrated an ability to maintain capital above each minimum regulatory capital ratio and above a tier 1 common ratio of 5 percent, on a pro forma basis under expected and stressful conditions throughout the planning horizon; or

(D) The bank holding company’s capital planning process or proposed capital distributions otherwise constitute an unsafe or unsound practice, or would violate any law, regulation, Board order, directive, or any condition imposed by, or written agreement with, the Board. In determining whether a capital plan or any proposed capital distribution would constitute an unsafe or unsound practice, the appropriate Reserve Bank would consider whether the bank holding company is and would remain in sound financial condition after giving effect to the capital plan and all proposed capital distributions.

(iii) The Board or the appropriate Reserve Bank, after consultation with the Board, will notify the bank holding company in writing of the reasons for a decision to object to a capital plan.

(iv) If the Board or the appropriate Reserve Bank, after consultation with the Board, objects to a capital plan and until such time as the Board or the appropriate Reserve Bank, after consultation with the Board, issues a non-objection to the bank holding company’s capital plan, the bank holding company may not make any capital distribution, other than those capital distributions with respect to which the Board or the appropriate Reserve Bank has indicated in writing its non-objection.

(3) Request for reconsideration or hearing. Within 10 calendar days of receipt of a notice of objection to a capital plan by the Board or the appropriate Reserve Bank:

(i) A bank holding company may submit a written request to the Board requesting reconsideration of the objection, including an explanation of why reconsideration should be granted. Within 10 calendar days of receipt of the bank holding company’s request, the Board will notify the company of
its decision to affirm or withdraw the objection to the bank holding company's capital plan or a specific capital distribution; or

(ii) As an alternative to paragraph (e)(3)(i) of this section, a bank holding company may submit a written request to the Board for a hearing. Any hearing shall follow the procedures described in paragraph (f)(5)(ii)–(iii) of this section.

(f) Approval requirements for certain capital actions—(1) Circumstances requiring approval. Notwithstanding a notice of non-objection under paragraph (e)(2)(i) of this section a bank holding company may not make a capital distribution under the following circumstances, unless it receives approval from the Board or appropriate Reserve Bank pursuant to paragraph (f)(4) of this section:

(i) After giving effect to the capital distribution, the bank holding company would not meet a minimum regulatory capital ratio or a tier 1 common ratio of at least 5 percent;

(ii) The Board or the appropriate Reserve Bank, after consultation with the Board, notifies the company in writing that the Federal Reserve has determined that the capital distribution would result in a material adverse change to the organization's capital or liquidity structure or that the company's earnings were materially underperforming projections;

(iii) Except as provided in paragraph (f)(2) of this section, the dollar amount of the capital distribution will exceed the amount described in the capital plan for which a non-objection was issued under this section; or

(iv) The capital distribution would occur after the occurrence of an event requiring resubmission under paragraphs (d)(4)(A) and (C) of this section and before the Federal Reserve acted on the resubmitted capital plan.

(2) Exception for well capitalized bank holding companies. (i) A bank holding company may make a capital distribution for which the dollar amount exceeds the amount described in the capital plan for which a non-objection was issued under this section if the following conditions are satisfied:

(A) The bank holding company is, and after the capital distribution would remain, well capitalized as defined in §225.2(r) of Regulation Y (12 CFR 225.2(r));

(B) The bank holding company's performance and capital levels are, and after the capital distribution would remain, consistent with its projections under expected conditions as set forth in its capital plan under paragraph (d)(2)(i) of this section;

(C) The annual aggregate dollar amount of all capital distributions (beginning on April 1 of a calendar year and ending on March 31 of the following calendar year) would not exceed the total amounts described in the company's capital plan for which the bank holding company received a notice of non-objection by more than 1.00 percent multiplied by the bank holding company's tier 1 capital, as reported to the Federal Reserve on the bank holding company's first quarter FR Y–9C;

(D) The bank holding company provides the appropriate Reserve Bank with notice 15 calendar days prior to a capital distribution that includes the elements described in paragraph (f)(3) of this section; and

(E) The Board or the appropriate Reserve Bank, after consultation with the Board, does not object to the transaction proposed in the notice. In determining whether to object to the proposed transaction, the Board or the appropriate Reserve Bank, after consultation with the Board, shall apply the criteria described in paragraph (f)(4)(iv) of this section.

(ii) The exception in this paragraph (f)(2) shall not apply if the Board or the appropriate Reserve Bank notifies the bank holding company in writing that it may not take advantage of this exception.

(3) Contents of request. (i) A request for a capital distribution under this section shall be filed with the appropriate Reserve Bank and the Board and shall contain the following information:

(A) The bank holding company's current capital plan or an attestation that there have been no changes to the capital plan since it was last submitted to the Federal Reserve;

(B) The purpose of the transaction;

(C) A description of the capital distribution, including for redemptions or repurchases of securities, the gross...
consideration to be paid and the terms and sources of funding for the transaction, and for dividends, the amount of the dividend(s); and

(D) Any additional information requested by the Board or the appropriate Reserve Bank (which may include, among other things, an assessment of the bank holding company’s capital adequacy under a revised stress scenario provided by the Federal Reserve, a revised capital plan, and supporting data).

(ii) Any request submitted with respect to a capital distribution described in paragraph (f)(1)(i) of this section shall also include a plan for restoring the bank holding company’s capital to an amount above a minimum level within 30 days and a rationale for why the capital distribution would be appropriate.

(4) Approval of certain capital distributions. (i) A bank holding company must obtain approval from the Board or the appropriate Reserve Bank, after consultation with the Board, before making a capital distribution described in paragraph (f)(1) of this section.

(ii) A request for a capital distribution under this section must be filed with the appropriate Reserve Bank and contain all the information set forth in paragraph (f)(3) of this section.

(iii) The Board or the appropriate Reserve Bank, after consultation with the Board, will act on a request under this paragraph within 30 calendar days after the receipt of a complete request under paragraph (f)(4)(ii) of this section. The Board or the appropriate Reserve Bank may, at any time, request additional information that it believes is necessary for its decision.

(iv) In acting on a request under this paragraph, the Board or appropriate Reserve Bank will apply the considerations and principles in paragraph (e) of this section. In addition, the Board or the appropriate Reserve Bank may disapprove the transaction if the bank holding company does not provide all of the information required to be submitted under paragraphs (f)(3) and (f)(5)(iii) of this section.

(5) Disapproval and hearing. (i) The Board or the appropriate Reserve Bank in writing of the reasons for a decision to disapprove any proposed capital distribution. Within 10 calendar days after receipt of a disapproval by the Board, the bank holding company may submit a written request for a hearing.

(ii) The Board will order a hearing within 10 calendar days of receipt of the request if it finds that material facts are in dispute, or if it otherwise appears appropriate. Any hearing conducted under this paragraph shall be held in accordance with the Board’s Rules of Practice for Formal Hearings (12 CFR part 263).

(iii) At the conclusion of the hearing, the Board will by order approve or disapprove the proposed capital distribution on the basis of the record of the hearing.

[76 FR 74644, Dec. 1, 2011]

Subpart B—Acquisition of Bank Securities or Assets

§ 225.11 Transactions requiring Board approval.

The following transactions require the Board’s prior approval under section 3 of the Bank Holding Company Act except as exempted under §225.12 or as otherwise covered by §225.17 of this subpart:

(a) Formation of bank holding company. Any action that causes a bank or other company to become a bank holding company.

(b) Acquisition of subsidiary bank. Any action that causes a bank to become a subsidiary of a bank holding company.

(c) Acquisition of control of bank or bank holding company securities. (1) The acquisition by a bank holding company of direct or indirect ownership or control of any voting securities of a bank or bank holding company, if the acquisition results in the company’s control of more than 5 percent of the outstanding shares of any class of voting securities of the bank or bank holding company.

(2) An acquisition includes the purchase of additional securities through the exercise of preemptive rights, but does not include securities received in a stock dividend or stock split that
§ 225.12 Transactions not requiring Board approval.

The following transactions do not require the Board’s approval under § 225.11 of this subpart:

(a) Acquisition of securities in fiduciary capacity. The acquisition by a bank or other company (other than a trust that is a company) of control of voting securities of a bank or bank holding company in good faith in a fiduciary capacity, unless:

(1) The acquiring bank or other company has sole discretionary authority to vote the securities and retains this authority for more than two years; or

(2) The acquisition is for the benefit of the acquiring bank or other company, or its shareholders, employees, or subsidiaries.

(b) Acquisition of securities in satisfaction of debts previously contracted. The acquisition by a bank or other company of control of voting securities of a bank or bank holding company in the regular course of securing or collecting a debt previously contracted in good faith, if the acquiring bank or other company divests the securities within two years of acquisition. The Board or Reserve Bank may grant requests for up to three one-year extensions.

(c) Acquisition of securities by bank holding company with majority control. The acquisition by a bank holding company of additional voting securities of a bank or bank holding company if more than 50 percent of the outstanding voting securities of the bank or bank holding company is lawfully controlled by the acquiring bank holding company prior to the acquisition.

(d) Acquisition involving bank mergers and internal corporate reorganizations—

(1) Transactions subject to Bank Merger Act. The merger or consolidation of a subsidiary bank of a bank holding company with another bank, or the purchase of assets by the subsidiary bank, or a similar transaction involving subsidiary banks of a bank holding company, if the transaction requires the prior approval of a federal supervisory agency under the Bank Merger Act (12 U.S.C. 1828(c)) and does not involve the acquisition of shares of a bank. This exception does not include:

(i) The merger of a nonsubsidiary bank and a nonoperating subsidiary bank formed by a company for the purpose of acquiring the nonsubsidiary bank; or

(ii) Any transaction requiring the Board’s prior approval under § 225.11(e) of this subpart.

The Board may require an application under this subpart if it determines that the merger or consolidation would have a significant adverse impact on the financial condition of the bank holding company, or otherwise requires approval under section 3 of the BHC Act.

(2) Certain acquisitions subject to Bank Merger Act. The acquisition by a bank holding company of shares of a bank or company controlling a bank with the bank holding company, if the transaction is part of the merger or consolidation of the bank with a subsidiary bank (other than a nonoperating subsidiary bank) of the acquiring bank holding company, or is part of the purchase of substantially all of the assets of the bank by a subsidiary bank (other than a nonoperating subsidiary bank) of the acquiring bank holding company, and if:

(1) The bank merger, consolidation, or asset purchase occurs simultaneously with the acquisition of the shares of the bank or bank holding company;
company or the merger of holding companies, and the bank is not operated by the acquiring bank holding company as a separate entity other than as the survivor of the merger, consolidation, or asset purchase;

(ii) The transaction requires the prior approval of a federal supervisory agency under the Bank Merger Act (12 U.S.C. 1828(c));

(iii) The transaction does not involve the acquisition of any nonbank company that would require prior approval under section 4 of the BHC Act (12 U.S.C. 1843);

(iv) Both before and after the transaction, the acquiring bank holding company meets the Board’s Capital Adequacy Guidelines (appendices A, B, C, D, and E of this part);

(v) At least 10 days prior to the transaction, the acquiring bank holding company has provided to the Reserve Bank written notice of the transaction that contains:

(A) A copy of the filing made to the appropriate federal banking agency under the Bank Merger Act; and

(B) A description of the holding company’s involvement in the transaction, the purchase price, and the source of funding for the purchase price; and

(vi) Prior to expiration of the period provided in paragraph (d)(2)(v) of this section, the Reserve Bank has not informed the bank holding company that an application under §225.11 is required.

(3) Internal corporate reorganizations.

(i) Subject to paragraph (d)(3)(ii) of this section, any of the following transactions performed in the United States by a bank holding company:

(A) The merger of holding companies that are subsidiaries of the bank holding company;

(B) The formation of a subsidiary holding company;

(C) The transfer of control or ownership of a subsidiary bank or a subsidiary holding company between one subsidiary holding company and another subsidiary holding company or the bank holding company.

1In the case of a transaction that results in the formation or designation of a new bank holding company, the new bank holding company must complete the registration requirements described in §225.5.

(ii) A transaction described in paragraph (d)(3)(i) of this section qualifies for this exception if:

(A) The transaction represents solely a corporate reorganization involving companies and insured depository institutions that, both preceding and following the transaction, are lawfully controlled and operated by the bank holding company;

(B) The transaction does not involve the acquisition of additional voting shares of an insured depository institution that, prior to the transaction, was less than majority owned by the bank holding company;

(C) The bank holding company is not organized in mutual form; and

(D) Both before and after the transaction, the bank holding company meets the Board’s Capital Adequacy Guidelines (appendices A, B, C, D, and E of this part).

(e) Holding securities in escrow. The holding of any voting securities of a bank or bank holding company in an escrow arrangement for the benefit of an applicant pending the Board’s action on an application for approval of the proposed acquisition, if title to the securities and the voting rights remain with the seller and payment for the securities has not been made to the seller.

(f) Acquisition of foreign banking organization. The acquisition of a foreign banking organization where the foreign banking organization does not directly or indirectly own or control a bank in the United States, unless the acquisition is also by a foreign banking organization and otherwise subject to §225.11(f) of this subpart.

§225.13 Factors considered in acting on bank acquisition proposals.

(a) Factors requiring denial. As specified in section 3(c) of the BHC Act, the Board may not approve any application under this subpart if:

(1) The transaction would result in a monopoly or would further any combination or conspiracy to monopolize, or to attempt to monopolize, the business of banking in any part of the United States;

(2) The effect of the transaction may be substantially to lessen competition in any section of the country, tend to
§ 225.14 Expedited action for certain bank acquisitions by well-run bank holding companies.

(a) Filing of notice—(1) Information required and public notice. As an alternative to the procedure provided in §225.15, a bank holding company that meets the requirements of paragraph (c) of this section may satisfy the prior approval requirements of §225.11 in connection with the acquisition of shares, assets or control of a bank, or a merger or consolidation between bank holding companies, by providing the appropriate Reserve Bank with a written notice containing the following:

(i) A certification that all of the criteria in paragraph (c) of this section are met;

(ii) A description of the transaction that includes identification of the companies and insured depository institutions involved in the transaction.

(b) Other factors. In deciding applications under this subpart, the Board also considers the following factors with respect to the applicant, its subsidiaries, any banks related to the applicant through common ownership or management, and the bank or banks to be acquired:

(1) Financial condition. Their financial condition and future prospects, including whether current and projected capital positions and levels of indebtedness conform to standards and policies established by the Board.

(2) Managerial resources. The competence, experience, and integrity of the officers, directors, and principal shareholders of the applicant, its subsidiaries, and the banks and bank holding companies concerned; their record of compliance with laws and regulations; and the record of the applicant and its affiliates of fulfilling any commitments to, and any conditions imposed by, the Board in connection with prior applications.

(3) Convenience and needs of community. The convenience and needs of the communities to be served, including the record of performance under the Community Reinvestment Act of 1977 (12 U.S.C. 2901 et seq.) and regulations issued thereunder, including the Board’s Regulation BB (12 CFR part 228).

(c) Interstate transactions. The Board may approve any application or notice under this subpart by a bank holding company to acquire control of all or substantially all of the assets of a bank located in a state other than the home state of the bank holding company, without regard to whether the transaction is prohibited under the law of any state, if the transaction complies with the requirements of section 3(d) of the BHC Act (12 U.S.C. 1842(d)).

(d) Conditional approvals. The Board may impose conditions on any approval, including conditions to address competitive, financial, managerial, safety and soundness, convenience and needs, compliance or other concerns, to ensure that approval is consistent with the relevant statutory factors and other provisions of the BHC Act.

Issued under 12 U.S.C. 1842. Subpart D—Regulation BB.
§ 225.14

Identification of each banking market affected by the transaction;

(iii) A description of the effect of the transaction on the convenience and needs of the communities to be served and of the actions being taken by the bank holding company to improve the CRA performance of any insured depository institution subsidiary that does not have at least a satisfactory CRA performance rating at the time of the transaction;

(iv) Evidence that notice of the proposal has been published in accordance with §225.16(b)(1);

(v)(A) If the bank holding company has consolidated assets of $500 million or more, an abbreviated consolidated pro forma balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, consolidated pro forma risk-based capital ratios for the acquiring bank holding company as of the most recent quarter, and a description of the purchase price and the terms and sources of funding for the transaction;

(B) If the bank holding company has consolidated assets of less than $500 million, a pro forma parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, and a description of the purchase price, the terms and sources of funding for the transaction, and the sources and schedule for retiring any debt incurred in the transaction;

(vi) If the bank holding company has consolidated assets of less than $300 million, a list of and biographical information regarding any directors or senior executive officers of the resulting bank holding company that are not directors or senior executive officers of the acquiring bank holding company or of a company or institution to be acquired;

(vii) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis; and

(viii) The market indexes for each relevant banking market reflecting the pro forma effect of the transaction.

(2) Waiver of unnecessary information. The Reserve Bank may reduce the information requirements in paragraph (a)(1)(v) through (viii) of this section as appropriate.

(b)(1) Action on proposals under this section. The Board or the appropriate Reserve Bank shall act on a proposal submitted under this section or notify the bank holding company that the transaction is subject to the procedure in §225.15 within 5 business days after the close of the public comment period. The Board and the Reserve Bank shall not approve any proposal under this section prior to the third business day following the close of the public comment period, unless an emergency exists that requires expedited or immediate action. The Board may extend the period for action under this section for up to 5 business days.

(2) Acceptance of notice in event expedited procedure not available. In the event that the Board or the Reserve Bank determines after the filing of a notice under this section that a bank holding company may not use the procedure in this section and must file an application under §225.15, the application shall be deemed accepted for purposes of §225.15 as of the date that the notice was filed under this section.

(c) Criteria for use of expedited procedure. The procedure in this section is available only if:

(1) Well-capitalized organization—(i) Bank holding company. Both at the time of and immediately after the proposed transaction, the acquiring bank holding company is well-capitalized;

(ii) Insured depository institutions. Both at the time of and immediately after the proposed transaction:

(A) The lead insured depository institution of the acquiring bank holding company is well-capitalized;

(B) Well-capitalized insured depository institutions control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the acquiring bank holding company; and

(6) A of the Bank Control Act (12 U.S.C. 1817(j)(6)(A)), as well as any financial or other information requested by the Reserve Bank under §225.16.
(C) No insured depository institution controlled by the acquiring bank holding company is undercapitalized;

(2) Well managed organization—(i) Satisfactory examination ratings. At the time of the transaction, the acquiring bank holding company, its lead insured depository institution, and insured depository institutions that control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the holding company are well managed and have received at least a satisfactory rating for compliance at their most recent examination if such rating was given;

(ii) No poorly managed institutions. No insured depository institution controlled by the acquiring bank holding company has received 1 of the 2 lowest composite ratings at the later of the institution’s most recent examination or subsequent review by the appropriate federal banking agency for the institution;

(iii) Recently acquired institutions excluded. Any insured depository institution that has been acquired by the bank holding company during the 12-month period preceding the date on which written notice is filed under paragraph (a) of this section may be excluded for purposes of paragraph (c)(2)(ii) of this section if:

(A) The bank holding company has developed a plan acceptable to the appropriate federal banking agency for the institution to restore the capital and management of the institution;

and

(B) All insured depository institutions excluded under this paragraph represent, in the aggregate, less than 10 percent of the aggregate total risk-weighted assets of all insured depository institutions controlled by the bank holding company;

(3) Convenience and needs criteria—(i) Effect on the community. The record indicates that the proposed transaction would meet the convenience and needs of the community standard in the BHC Act; and

(ii) Established CRA performance record. At the time of the transaction, the lead insured depository institution of the acquiring bank holding company and insured depository institutions that control at least 80 percent of the total risk-weighted assets of insured institutions controlled by the holding company have received a satisfactory or better composite rating at the most recent examination under the Community Reinvestment Act;

(4) Public comment. No comment that is timely and substantive as provided in §225.16 is received by the Board or the appropriate Reserve Bank other than a comment that supports approval of the proposal;

(5) Competitive criteria—(i) Competitive screen. Without regard to any divestitures proposed by the acquiring bank holding company, the acquisition does not cause:

(A) Insured depository institutions controlled by the acquiring bank holding company to control in excess of 35 percent of market deposits in any relevant banking market; or

(B) The Herfindahl-Hirschman index to increase by more than 200 points in any relevant banking market with a post-acquisition index of at least 1800; and

(ii) Department of Justice. The Department of Justice has not indicated to the Board that consummation of the transaction is likely to have a significantly adverse effect on competition in any relevant banking market;

(6) Size of acquisition—(i) In general—

(A) Limited Growth. Except as provided in paragraph (c)(6)(ii) of this section, the sum of the aggregate risk-weighted assets of all insured depository institutions to be acquired in the proposal and the aggregate risk-weighted assets acquired by the acquiring bank holding company in all other qualifying transactions does not exceed 35 percent of the consolidated risk-weighted assets of the acquiring bank holding company. For purposes of this paragraph other qualifying transactions means any transaction approved under this section or §225.23 during the 12 months prior to filing the notice under this section; and

(B) Individual size limitation. The total risk-weighted assets to be acquired do not exceed $7.5 billion;

(ii) Small bank holding companies. Paragraph (c)(6)(i)(A) of this section shall not apply if, immediately following consummation of the proposed transaction, the consolidated risk-weighted assets of the acquiring bank
holding company are less than $300 million;

(7) Supervisory actions. During the 12-month period ending on the date on which the bank holding company proposes to consummate the proposed transaction, no formal administrative order, including a written agreement, cease and desist order, capital directive, prompt corrective action directive, asset maintenance agreement, or other formal enforcement action, is or was outstanding against the bank holding company or any insured depository institution subsidiary of the holding company, and no formal administrative enforcement proceeding involving any such enforcement action, order, or directive is or was pending;

(8) Interstate acquisitions. Board approval of the transaction is not prohibited under section 3(d) of the BHC Act;

(9) Other supervisory considerations. Board approval of the transaction is not prohibited under the informational sufficiency or comprehensive home country supervision standards set forth in section 3(c)(3) of the BHC Act; and

(10) Notification. The acquiring bank holding company has not been notified by the Board, in its discretion, prior to the expiration of the period in paragraph (b)(1) of this section that an application under § 225.15 is required in order to permit closer review of any financial, managerial, competitive, convenience and needs or other matter related to the factors that must be considered under this part.

(d) Comment by primary banking supervisor—(1) Notice. Upon receipt of a notice under this section, the appropriate Reserve Bank shall promptly furnish notice of the proposal and a copy of the information filed pursuant to paragraph (a) of this section to the primary banking supervisor of the insured depository institutions to be acquired.

(2) Comment period. The primary banking supervisor shall have 30 calendar days (or such shorter time as agreed to by the primary banking supervisor) from the date of the letter giving notice in which to submit its views and recommendations to the Board.

(3) Action subject to supervisor’s comment. Action by the Board or the Reserve Bank on a proposal under this section is subject to the condition that the primary banking supervisor not recommend in writing to the Board disapproval of the proposal prior to the expiration of the comment period described in paragraph (d)(2) of this section. In such event, any approval given under this section shall be revoked and, if required by section 3(b) of the BHC Act, the Board shall order a hearing on the proposal.

(4) Emergencies. Notwithstanding paragraphs (d)(2) and (d)(3) of this section, the Board may provide the primary banking supervisor with 10 calendardays’ notice of a proposal under this section if the Board finds that an emergency exists requiring expeditious action, and may act during the notice period or without providing notice to the primary banking supervisor if the Board finds that it must act immediately to prevent probable failure.

(5) Primary banking supervisor. For purposes of this section and § 225.15(b), the primary banking supervisor for an institution is:

(i) The Office of the Comptroller of the Currency, in the case of a national banking association or District bank;

(ii) The appropriate supervisory authority for the State in which the bank is chartered, in the case of a State bank;

(iii) The Director of the Office of Thrift Supervision, in the case of a savings association.

(e) Branches and agencies of foreign banking organizations. For purposes of this section, a U.S. branch or agency of a foreign banking organization shall be considered to be an insured depository institution. A U.S. branch or agency of a foreign banking organization shall be subject to paragraph (c)(3)(ii) of this section only to the extent it is insured by the Federal Deposit Insurance Corporation in accordance with section 6 of the International Banking Act of 1978 (12 U.S.C. 3104).

§ 225.15 Procedures for other bank acquisition proposals.

(a) Filing application. Except as provided in § 225.14, an application for the
§ 225.16 Board’s prior approval under this subpart shall be governed by the provisions of this section and shall be filed with the appropriate Reserve Bank on the designated form.

(b) Notice to primary banking supervisor. Upon receipt of an application under this subpart, the Reserve Bank shall promptly furnish notice and a copy of the application to the primary banking supervisor of each bank to be acquired. The primary supervisor shall have 30 calendar days from the date of the letter giving notice in which to submit its views and recommendations to the Board.

(c) Accepting application for processing. Within 7 calendar days after the Reserve Bank receives an application under this section, the Reserve Bank shall accept it for processing as of the date the application was filed or return the application if it is substantially incomplete. Upon accepting an application, the Reserve Bank shall immediately send copies to the Board. The Reserve Bank or the Board may request additional information necessary to complete the record of an application at any time after accepting the application for processing.

(d) Action on applications—(1) Action under delegated authority. The Reserve Bank shall approve an application under this section within 30 calendar days after the acceptance date for the application, unless the Reserve Bank, upon notice to the applicant, refers the application to the Board for decision because action under delegated authority is not appropriate.

(2) Board action. The Board shall act on an application under this subpart that is referred to it for decision within 60 calendar days after the acceptance date for the application, unless the Board notifies the applicant that the 60-day period is being extended for a specified period and states the reasons for the extension. In no event may the extension exceed the 91-day period provided in § 225.16(f). The Board may, at any time, request additional information that it believes is necessary for its decision.

§ 225.16 Public notice, comments, hearings, and other provisions governing applications and notices.

(a) In general. The provisions of this section apply to all notices and applications filed under § 225.14 and § 225.15.

(b) Public notice—(1) Newspaper publication—(i) Location of publication. In the case of each notice or application submitted under § 225.14 or § 225.15, the applicant shall publish a notice in a newspaper of general circulation, in the form and at the locations specified in § 262.3 of the Rules of Procedure (12 CFR 262.3);

(ii) Contents of notice. A newspaper notice under this paragraph shall provide an opportunity for interested persons to comment on the proposal for a period of at least 30 calendar days;

(iii) Timing of publication. Each newspaper notice published in connection with a proposal under this paragraph shall be published no more than 15 calendar days before and no later than 7 calendar days following the date that a notice or application is filed with the appropriate Reserve Bank.

(2) Federal Register notice. (i) Publication by Board. Upon receipt of a notice or application under § 225.14 or § 225.15, the Board shall promptly publish notice of the proposal in the Federal Register and shall provide an opportunity for interested persons to comment on the proposal for a period of no more than 30 days;

(ii) Request for advance publication. A bank holding company may request that, during the 15-day period prior to filing a notice or application under § 225.14 or § 225.15, the Board publish notice of a proposal in the Federal Register. A request for advance Federal Register publication shall be made in writing to the appropriate Reserve Bank and shall contain the identifying information prescribed by the Board for Federal Register publication;

(3) Waiver or shortening of notice. The Board may waive or shorten the required notice periods under this section if the Board determines that an emergency exists requiring expeditious action on the proposal, or if the Board finds that immediate action is necessary to prevent the probable failure of an insured depository institution.
Federal Reserve System § 225.16

(c) Public comment—(1) Timely comments. Interested persons may submit information and comments regarding a proposal filed under this subpart. A comment shall be considered timely for purposes of this subpart if the comment, together with all supplemental information, is submitted in writing in accordance with the Board’s Rules of Procedure and received by the Board or the appropriate Reserve Bank prior to the expiration of the latest public comment period provided in paragraph (b) of this section.

(2) Extension of comment period—(i) In general. The Board may, in its discretion, extend the public comment period regarding any proposal submitted under this subpart.

(ii) Requests in connection with obtaining application or notice. In the event that an interested person has requested a copy of a notice or application submitted under this subpart, the Board may, in its discretion and based on the facts and circumstances, grant such person an extension of the comment period for up to 15 calendar days.

(iii) Joint requests by interested person and acquiring company. The Board will grant a joint request by an interested person and the acquiring bank holding company for an extension of the comment period for a reasonable period for a purpose related to the statutory factors the Board must consider under this subpart.

(3) Substantive comment. A comment will be considered substantive for purposes of this subpart unless it involves individual complaints, or raises frivolous, previously-considered or wholly unsubstantiated claims or irrelevant issues.

(d) Notice to Attorney General. The Board or Reserve Bank shall immediately notify the United States Attorney General of approval of any notice or application under §225.14 or §225.15.

(e) Hearings. As provided in section 3(b) of the BHC Act, the Board shall order a hearing on any application or notice under §225.15 if the Board receives from the primary supervisor of the bank to be acquired, within the 30-day period specified in §225.15(b), a written recommendation of disapproval of an application. The Board may order a formal or informal hearing or other proceeding on the application or notice, as provided in §262.3(i)(2) of the Board’s Rules of Procedure. Any request for a hearing (other than from the primary supervisor) shall comply with §262.3(e) of the Rules of Procedure (12 CFR 262.3(e)).

(f) Approval through failure to act—(1) Ninety-one day rule. An application or notice under §225.14 or §225.15 shall be deemed approved if the Board fails to act on the application or notice within 91 calendar days after the date of submission to the Board of the complete record on the application. For this purpose, the Board acts when it issues an order stating that the Board has approved or denied the application or notice, reflecting the votes of the members of the Board, and indicating that a statement of the reasons for the decision will follow promptly.

(2) Complete record. For the purpose of computing the commencement of the 91-day period, the record is complete on the latest of:

(i) The date of receipt by the Board of an application or notice that has been accepted by the Reserve Bank;

(ii) The last day provided in any notice for receipt of comments and hearing requests on the application or notice;

(iii) The date of receipt by the Board of the last relevant material regarding the application or notice that is needed for the Board’s decision, if the material is received from a source outside of the Federal Reserve System; or

(iv) The date of completion of any hearing or other proceeding.

(g) Exceptions to notice and hearing requirements—(1) Probable bank failure. If the Board finds it must act immediately on an application or notice in order to prevent the probable failure of a bank or bank holding company, the Board may modify or dispense with the notice and hearing requirements of this section.

(2) Emergency. If the Board finds that, although immediate action on an application or notice is not necessary, an emergency exists requiring expeditious action, the Board shall provide the primary supervisor 10 days to submit its recommendation. The Board may act
§ 225.17 Notice procedure for one-bank holding company formations.

(a) Transactions that qualify under this section. An acquisition by a company of control of a bank may be consummated 30 days after providing notice to the appropriate Reserve Bank in accordance with paragraph (b) of this section, provided that all of the following conditions are met:

(1) The shareholder or shareholders who control at least 67 percent of the shares of the bank will control, immediately after the reorganization, at least 67 percent of the shares of the holding company in substantially the same proportion, except for changes in shareholders' interests resulting from the exercise of dissenting shareholders' rights under state or federal law; 3

(2) No shareholder, or group of shareholders acting in concert, will, following the reorganization, own or control 10 percent or more of any class of voting shares of the bank holding company, unless that shareholder or group of shareholders was authorized, after review under the Change in Bank Control Act of 1978 (12 U.S.C. 1817(j)) by the appropriate federal banking agency for the bank, to own or control 10 percent or more of any class of voting shares of the bank; 4

(3) The bank is adequately capitalized (as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o));

(4) The bank received at least a composite “satisfactory” rating at its most recent examination, in the event that the bank was examined;

(5) At the time of the reorganization, neither the bank nor any of its officers, directors, or principal shareholders is involved in any unresolved supervisory or enforcement matters with any appropriate federal banking agency;

(6) The company demonstrates that any debt that it incurs at the time of the reorganization, and the proposed means of retiring this debt, will not place undue burden on the holding company or its subsidiary on a pro forma basis; 5

(7) The holding company will not, as a result of the reorganization, acquire control of any additional bank or engage in any activities other than those of managing and controlling banks; and

(8) During this period, neither the appropriate Reserve Bank nor the Board objected to the proposal or required the

---

3A shareholder of a bank in reorganization will be considered to have the same proportional interest in the holding company if the shareholder interest increases, on a pro rata basis, as a result of either the redemption of shares from dissenting shareholders by the bank or bank holding company, or the acquisition of shares of dissenting shareholders by the remaining shareholders.

4This procedure is not available in cases in which the exercise of dissenting shareholders’ rights would cause a company that is not a bank holding company (other than the company in formation) to be required to register as a bank holding company. This procedure also is not available for the formation of a bank holding company organized in mutual form.

5For a banking organization with consolidated assets, on a pro forma basis, of less than $500 million (other than a banking organization that will control a de novo bank), this requirement is satisfied if the proposal complies with the Board’s Small Bank Holding Company Policy Statement (appendix C of this part).
filing of an application under § 225.15 of this subpart.

(b) Contents of notice. A notice filed under this paragraph shall include:

(1) Certification by the notificant's board of directors that the requirements of 12 U.S.C. 1842(a)(C) and this section are met by the proposal;

(2) A list identifying all principal shareholders of the bank prior to the reorganization and of the holding company following the reorganization, and specifying the percentage of shares held by each principal shareholder in the bank and proposed to be held in the new holding company;

(3) A description of the resulting management of the proposed bank holding company and its subsidiary bank, including:

(i) Biographical information regarding any senior officers and directors of the resulting bank holding company who were not senior officers or directors of the bank prior to the reorganization; and

(ii) A detailed history of the involvement of any officer, director, or principal shareholder of the resulting bank holding company in any administrative or criminal proceeding;

(4) Pro forma financial statements for the holding company, and a description of the amount, source, and terms of debt, if any, that the bank holding company proposes to incur, and information regarding the sources and timing for debt service and retirement.

(c) Acknowledgment of notice. Within 7 calendar days following receipt of a notice under this section, the Reserve Bank shall provide the notificant with a written acknowledgment of receipt of the notice. This written acknowledgment shall indicate that the transaction described in the notice may be consummated on the 30th calendar day after the date of receipt of the notice if the Reserve Bank or the Board has not objected to the proposal during that time.

(d) Application required upon objection. The Reserve Bank or the Board may object to a proposal during the notice period by providing the bank holding company with a written acknowledgment of the reasons for the objection. In such case, the bank holding company may file an application for prior approval of the proposal pursuant to § 225.15 of this subpart.

Subpart C—Nonbanking Activities and Acquisitions by Bank Holding Companies

§ 225.21 Prohibited nonbanking activities and acquisitions; exempt bank holding companies.

(a) Prohibited nonbanking activities and acquisitions. Except as provided in § 225.22 of this subpart, a bank holding company or a subsidiary may not engage in, or acquire or control, directly or indirectly, voting securities or assets of a company engaged in, any activity other than:

(1) Banking or managing or controlling banks and other subsidiaries authorized under the BHC Act; and

(2) An activity that the Board determines to be so closely related to banking, or managing or controlling banks as to be a proper incident thereto, including any incidental activities that are necessary to carry on such an activity, if the bank holding company has obtained the prior approval of the Board for that activity in accordance with the requirements of this regulation.

(b) Exempt bank holding companies. The following bank holding companies are exempt from the provisions of this subpart:

(1) Family-owned companies. Any company that is a “company covered in 1970” (as defined in section 2(b) of the BHC Act), more than 85 percent of the voting securities of which was collectively owned on June 30, 1968, and continuously thereafter, by members of the same family (or their spouses) who are lineal descendants of common ancestors.

(2) Labor, agricultural, and horticultural organizations. Any company that was on January 4, 1977, both a
bank holding company and a labor, agricultural, or horticultural organization exempt from taxation under section 501 of the Internal Revenue Code (26 U.S.C. 501(c)).

(3) Companies granted hardship exemption. Any bank holding company that has controlled only one bank since before July 1, 1968, and that has been granted an exemption by the Board under section 4(d) of the BHC Act, subject to any conditions imposed by the Board.

(4) Companies granted exemption on other grounds. Any company that acquired control of a bank before December 10, 1982, without the Board’s prior approval under section 3 of the BHC Act, on the basis of a narrow interpretation of the term demand deposit or commercial loan, if the Board has determined that:

(i) Coverage of the company as a bank holding company under this subpart would be unfair or represent an unreasonable hardship; and

(ii) Exclusion of the company from coverage under this part is consistent with the purposes of the BHC Act and section 106 of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1971, 1972(1)).

The provisions of §225.4 of subpart A of this part do not apply to a company exempt under this paragraph.

§ 225.22 Exempt nonbanking activities and acquisitions.

(a) Certain de novo activities. A bank holding company may, either directly or indirectly, engage de novo in any nonbanking activity listed in §225.28(b) (other than operation of an insured depository institution) without obtaining the Board’s prior approval if the bank holding company:

(1) Meets the requirements of paragraphs (c) (1), (2), and (6) of §225.23;

(2) Conducts the activity in compliance with all Board orders and regulations governing the activity; and

(3) Within 10 business days after commencing the activity, provides written notice to the appropriate Reserve Bank describing the activity, identifying the company or companies engaged in the activity, and certifying that the activity will be conducted in accordance with the Board’s orders and regulations and that the bank holding company meets the requirements of paragraphs (c) (1), (2), and (6) of §225.23.

(b) Servicing activities. A bank holding company may, without the Board’s prior approval under this subpart, furnish services to or perform services for, or establish or acquire a company that engages solely in servicing activities for:

(1) The bank holding company or its subsidiaries in connection with their activities as authorized by law, including services that are necessary to fulfill commitments entered into by the subsidiaries with third parties, if the bank holding company or servicing company complies with the Board’s published interpretations and does not act as principal in dealing with third parties; and

(2) The internal operations of the bank holding company or its subsidiaries. Services for the internal operations of the bank holding company or its subsidiaries include, but are not limited to:

(i) Accounting, auditing, and appraising;

(ii) Advertising and public relations;

(iii) Data processing and data transmission services, data bases, or facilities;

(iv) Personnel services;

(v) Courier services;

(vi) Holding or operating property used wholly or substantially by a subsidiary in its operations or for its future use;

(vii) Liquidating property acquired from a subsidiary;

(viii) Liquidating property acquired from any sources either prior to May 9, 1956, or the date on which the company became a bank holding company, whichever is later; and

(ix) Selling, purchasing, or underwriting insurance, such as blanket bond insurance, group insurance for employees, and property and casualty insurance.

(c) Safe deposit business. A bank holding company or nonbank subsidiary may, without the Board’s prior approval, conduct a safe deposit business, or acquire voting securities of a company that conducts such a business.

(d) Nonbanking acquisitions not requiring prior Board approval. The Board’s
prior approval is not required under this subpart for the following acquisitions:

(1) **DPC acquisitions.** (i) Voting securities or assets, acquired by foreclosure or otherwise, in the ordinary course of collecting a debt previously contracted (DPC property) in good faith, if the DPC property is divested within two years of acquisition.

(ii) The Board may, upon request, extend this two-year period for up to three additional years. The Board may permit additional extensions for up to 5 years (for a total of 10 years), for shares, real estate or other assets where the holding company demonstrates that each extension would not be detrimental to the public interest and either the bank holding company has made good faith attempts to dispose of such shares, real estate or other assets or disposal of the shares, real estate or other assets during the initial period would have been detrimental to the company.

(iii) Transfers of DPC property within the bank holding company system do not extend any period for divestiture of the property.

(2) **Securities or assets required to be divested by subsidiary.** Voting securities or assets required to be divested by a subsidiary at the request of an examining federal or state authority (except by the Board under the BHC Act or this regulation), if the bank holding company divests the securities or assets within two years from the date acquired from the subsidiary.

(3) **Fiduciary investments.** Voting securities or assets acquired by a bank or other company (other than a trust that is a company) in good faith in a fiduciary capacity, if the voting securities or assets are:

(i) Held in the ordinary course of business; and

(ii) Not acquired for the benefit of the company or its shareholders, employees, or subsidiaries.

(4) **Securities eligible for investment by national bank.** Voting securities of the kinds and amounts explicitly eligible by federal statute (other than section 4 of the Bank Service Corporation Act, 12 U.S.C. 1864) for investment by a national bank, and voting securities acquired prior to June 30, 1971, in reliance on section 4(c)(5) of the BHC Act and interpretations of the Comptroller of the Currency under section 5136 of the Revised Statutes (12 U.S.C. 24(7)).

(5) **Securities or property representing 5 percent or less of a company.** Voting securities of a company or property that, in the aggregate, represent 5 percent or less of the outstanding shares of any class of voting securities of a company, or that represent a 5 percent interest or less in the property, subject to the provisions of 12 CFR 225.137.

(6) **Securities of investment company.** Voting securities of an investment company that is solely engaged in investing in securities and that does not own or control more than 5 percent of the outstanding shares of any class of voting securities of any company.

(7) **Assets acquired in ordinary course of business.** Assets of a company acquired in the ordinary course of business, subject to the provisions of 12 CFR 225.132, if the assets relate to activities in which the acquiring company has previously received Board approval under this regulation to engage.

(8) **Asset acquisitions by lending company or industrial bank.** Assets of an office(s) of a company, all or substantially all of which relate to making, acquiring, or servicing loans if:

(i) The acquiring company has previously received Board approval under this regulation or is not required to obtain prior Board approval under this regulation to engage in lending activities or industrial banking activities;

(ii) The assets acquired during any 12-month period do not represent more than 50 percent of the risk-weighted assets (on a consolidated basis) of the acquiring lending company or industrial bank, or more than $100 million, whichever amount is less;

(iii) The assets acquired do not represent more than 50 percent of the selling company’s consolidated assets that are devoted to lending activities or industrial banking business;

(iv) The acquiring company notifies the Reserve Bank of the acquisition within 30 days after the acquisition; and

(v) The acquiring company, after giving effect to the transaction, meets the Board’s Capital Adequacy Guidelines (appendix A of this part), and the
Board has not previously notified the acquiring company that it may not acquire assets under the exemption in this paragraph.

(e) Acquisition of securities by subsidiary banks—(1) National bank. A national bank or its subsidiary may, without the Board’s approval under this subpart, acquire or retain securities on the basis of section 4(c)(5) of the BHC Act in accordance with the regulations of the Comptroller of the Currency.

(2) State bank. A state-chartered bank or its subsidiary may, insofar as federal law is concerned, and without the Board’s prior approval under this subpart:

(i) Acquire or retain securities, on the basis of section 4(c)(5) of the BHC Act, of the kinds and amounts explicitly eligible by federal statute for investment by a national bank; or

(ii) Acquire or retain all (but, except for directors’ qualifying shares, not less than all) of the securities of a company that engages solely in activities in which the parent bank may engage, at locations at which the bank may engage in the activity, and subject to the same limitations as if the bank were engaging in the activity directly.

(f) Activities and securities of new bank holding companies. A company that becomes a bank holding company may, for a period of two years, engage in nonbanking activities and control voting securities or assets of a nonbank subsidiary, if the bank holding company engaged in such activities or controlled such voting securities or assets on the date it became a bank holding company. The Board may grant requests for up to three one-year extensions of the two-year period.

(g) Grandfathered activities and securities. Unless the Board orders divestiture or termination under section 4(a)(2) of the BHC Act, a “company covered in 1970,” as defined in section 2(b) of the BHC Act, may:

(1) Retain voting securities or assets and engage in activities that it has lawfully held or engaged in continuously since June 30, 1968; and

(2) Acquire voting securities of any newly formed company to engage in such activities.

(h) Securities or activities exempt under Regulation K. A bank holding company may acquire voting securities or assets and engage in activities as authorized in Regulation K (12 CFR part 211).

§ 225.23 Expedited action for certain nonbanking proposals by well-run bank holding companies.

(a) Filing of notice—(1) Information required. A bank holding company that meets the requirements of paragraph (c) of this section may satisfy the notice requirement of this subpart in connection with the acquisition of voting securities or assets of a company engaged in nonbanking activities that the Board has permitted by order or regulation (other than an insured depository institution), or a proposal to engage de novo, either directly or indirectly, in a nonbanking activity that the Board has permitted by order or by regulation, by providing the appropriate Reserve Bank with a written notice containing the following:

(i) A certification that all of the criteria in paragraph (c) of this section are met;

(ii) A description of the transaction that includes identification of the companies involved in the transaction, the activities to be conducted, and a commitment to conduct the proposed activities in conformity with the Board’s regulations and orders governing the conduct of the proposed activity;

(iii) If the proposal involves an acquisition of a going concern:

(A) If the bank holding company has consolidated assets of $500 million or more, an abbreviated consolidated pro forma balance sheet for the acquiring bank holding company as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, consolidated pro forma risk-based capital ratios for the acquiring bank holding company as of the most recent quarter, a description of

1A bank holding company may acquire voting securities or assets of a savings association or other insured depository institution that is not a bank by using the procedures in §225.14 of subpart B if the bank holding company and the proposal qualify under that section as if the savings association or other institution were a bank for purposes of that section.
the purchase price and the terms and sources of funding for the transaction, and the total revenue and net income of the company to be acquired;

(B) If the bank holding company has consolidated assets of less than $500 million, a pro forma parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction, a description of the purchase price and the terms and sources of funding for the transaction and the sources and schedule for retiring any debt incurred in the transaction, and the total assets, off-balance sheet items, revenue and net income of the company to be acquired;

(C) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis;

(iv) Identification of the geographic markets in which competition would be affected by the proposal, a description of the effect of the proposal on competition in the relevant markets, a list of the major competitors in that market in the proposed activity if the affected market is local in nature, and, if requested, the market indexes for the relevant market; and

(v) A description of the public benefits that can reasonably be expected to result from the transaction.

(2) Waiver of unnecessary information. The Reserve Bank may reduce the information requirements in paragraphs (a)(1)(iii) and (iv) of this section as appropriate.

(b)(1) Action on proposals under this section. The Board or the appropriate Reserve Bank shall act on a proposal submitted under this section, or notify the bank holding company that the transaction is subject to the procedure in §225.24, within 12 business days following the filing of all of the information required in paragraph (a) of this section.

(2) Acceptance of notice if expedited procedure not available. If the Board or the Reserve Bank determines, after the filing of a notice under this section, that a bank holding company may not use the procedure in this section and must file a notice under §225.24, the notice shall be deemed accepted for purposes of §225.24 as of the date that the notice was filed under this section.

(c) Criteria for use of expedited procedure. The procedure in this section is available only if:

(1) Well-capitalized organization—(i) Bank holding company. Both at the time of and immediately after the proposed transaction, the acquiring bank holding company is well-capitalized;

(ii) Insured depository institutions. Both at the time of and immediately after the transaction:

(A) The lead insured depository institution of the acquiring bank holding company is well-capitalized;

(B) Well-capitalized insured depository institutions control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the acquiring bank holding company; and

(C) No insured depository institution controlled by the acquiring bank holding company is undercapitalized;

(2) Well managed organization—(i) Satisfactory examination ratings. At the time of the transaction, the acquiring bank holding company, its lead insured depository institution, and insured depository institutions that control at least 80 percent of the total risk-weighted assets of insured depository institutions controlled by the holding company are well managed and have received at least a satisfactory rating for compliance at their most recent examination if such rating was given;

(ii) No poorly managed institutions. No insured depository institution controlled by the acquiring bank holding company has received 1 of the 2 lowest composite ratings at the later of the institution’s most recent examination or subsequent review by the appropriate federal banking agency for the institution.

(iii) Recently acquired institutions excluded. Any insured depository institution that has been acquired by the bank holding company during the 12-month period preceding the date on which written notice is filed under paragraph (a) of this section may be excluded for purposes of paragraph (c)(2)(ii) of this section if:
§ 225.24 Procedures for other non-banking proposals.

(a) Notice required for nonbanking activities. Except as provided in §225.22 and §225.23, a notice for the Board's
prior approval under §225.21(a) to engage in or acquire a company engaged in a nonbanking activity shall be filed by a bank holding company (including a company seeking to become a bank holding company) with the appropriate Reserve Bank in accordance with this section and the Board’s Rules of Procedure (12 CFR 262.3).

(1) Engaging de novo in listed activities. A bank holding company seeking to commence or to engage de novo, either directly or through a subsidiary, in a nonbanking activity listed in §225.28 shall file a notice containing a description of the activities to be conducted and the identity of the company that will conduct the activity.

(2) Acquiring company engaged in listed activities. A bank holding company seeking to acquire or control voting securities or assets of a company engaged in a nonbanking activity listed in §225.28 shall file a notice containing the following:
   (i) A description of the proposal, including a description of each proposed activity, and the effect of the proposal on competition among entities engaging in each proposed activity in each relevant market with relevant market indexes;
   (ii) The identity of any entity involved in the proposal, and, if the notificant proposes to conduct the activity through an existing subsidiary, a description of the existing activities of the subsidiary;
   (iii) A statement of the public benefits that can reasonably be expected to result from the proposal;
   (iv) If the bank holding company has consolidated assets of $150 million or more:
      (A) Parent company and consolidated pro forma balance sheets for the acquiring bank holding company as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction;
      (B) Consolidated pro forma risk-based capital and leverage ratio calculations for the acquiring bank holding company as of the most recent quarter; and
      (C) A description of the purchase price and the terms and sources of funding for the transaction;
   (v) If the bank holding company has consolidated assets of less than $150 million:
      (A) A pro forma parent-only balance sheet as of the most recent quarter showing credit and debit adjustments that reflect the proposed transaction; and
      (B) A description of the purchase price and the terms and sources of funding for the transaction and, if the transaction is debt funded, one-year income statement and cash flow projections for the parent company, the sources and schedule for retiring any debt incurred in the transaction;
   (vi) For each insured depository institution whose Tier 1 capital, total capital, total assets or risk-weighted assets change as a result of the transaction, the total risk-weighted assets, total assets, Tier 1 capital and total capital of the institution on a pro forma basis; and
   (vii) A description of the management expertise, internal controls and risk management systems that will be utilized in the conduct of the proposed activities; and
   (viii) A copy of the purchase agreements, and balance sheet and income statements for the most recent quarter and year-end for any company to be acquired.

(b) Notice provided to Board. The Reserve Bank shall immediately send to the Board a copy of any notice received under paragraphs (a)(2) or (a)(3) of this section.

(c) Notice to public—(1) Listed activities and activities approved by order—(i) In a case involving an activity listed in §225.28 or previously approved by the Board by order, the Reserve Bank shall notify the Board for publication in the Federal Register immediately upon receipt by the Reserve Bank of:
   (A) A notice under this section; or
   (B) A written request that notice of a proposal under this section or §225.23 be published in the Federal Register. Such a request may request that Federal Register publication occur up to 15 calendar days prior to submission of a notice under this subpart.
   (ii) The Federal Register notice published under this paragraph shall invite public comment on the proposal, generally for a period of 15 days.
(2) New activities—(i) In general. In the case of a notice under this subpart involving an activity that is not listed in § 225.28 and that has not been previously approved by the Board by order, the Board shall send notice of the proposal to the Federal Register for publication, unless the Board determines that the notificant has not demonstrated that the activity is so closely related to banking or to managing or controlling banks as to be a proper incident thereto. The Federal Register notice shall invite public comment on the proposal for a reasonable period of time, generally for 30 days.

(ii) Time for publication. The Board shall send the notice required under this paragraph to the Federal Register within 10 business days of acceptance by the Reserve Bank. The Board may extend the 10-day period for an additional 30 calendar days upon notice to the notificant. In the event notice of a proposal is not published for comment, the Board shall inform the notificant of the reasons for the decision.

(d) Action on notices—(1) Reserve Bank action—(i) In general. Within 30 calendar days after receipt by the Reserve Bank of a notice filed pursuant to paragraphs (a)(1) or (a)(2) of this section, the Reserve Banks shall:

(A) Approve the notice; or

(B) Refer the notice to the Board for decision because action under delegated authority is not appropriate.

(ii) Return of incomplete notice. Within 7 calendar days of receipt, the Reserve Bank may return any notice as informationally incomplete that does not contain all of the information required by this subpart. The return of such a notice shall be deemed action on the notice.

(iii) Notice of action. The Reserve Bank shall promptly notify the bank holding company of any action or referral under this paragraph.

(iv) Close of public comment period. The Reserve Bank shall not approve any notice under this paragraph (d)(1) of this section prior to the third business day after the close of the public comment period, unless an emergency exists that requires expedited or immediate action.

(2) Board action; internal schedule. The Board seeks to act on every notice referred to it for decision within 60 days of the date that the notice is filed with the Reserve Bank. If the Board is unable to act within this period, the Board shall notify the notificant and explain the reasons and the date by which the Board expects to act.

(3)(i) Required time limit for System action. The Board or the Reserve Bank shall act on any notice under this section within 60 days after the submission of a complete notice.

(ii) Extension of required period for action (A) In general. The Board may extend the 60-day period required for Board action under paragraph (d)(3)(i) of this section for an additional 30 days upon notice to the notificant.

(B) Unlisted activities. If a notice involves a proposal to engage in an activity that is not listed in § 225.28, the Board may extend the period required for Board action under paragraph (d)(3)(i) of this section for an additional 90 days. This 90-day extension is in addition to the 30-day extension period provided in paragraph (d)(3)(ii)(A) of this section. The Board shall notify the notificant that the notice period has been extended and explain the reasons for the extension.

(4) Requests for additional information. The Board or the Reserve Bank may modify the information requirements under this section or at any time request any additional information that either believes is needed for a decision on any notice under this section.

(5) Tolling of period. The Board or the Reserve Bank may at any time extend or toll the time period for action on a notice for any period with the consent of the notificant.

Board shall order a hearing only if there are disputed issues of material
fact that cannot be resolved in some other manner.

(3) Extension of period for hearing. The Board may extend the time for action
on any notice for such time as is reasonably necessary to conduct a hearing
and evaluate the hearing record. Such extension shall not exceed 91 calendar
days after the date of submission to the Board of the complete record on
the notice. The procedures for computation of the 91-day rule as set forth
in §225.16(f) apply to notices under this subpart that involve hearings.

(b) Approval through failure to act. (1) Except as provided in paragraph (a) of
this section or §225.24(d)(5), a notice under this subpart shall be deemed to
be approved at the conclusion of the period that begins on the date the com-
plete notice is received by the Reserve Bank or the Board and that ends 60 cal-
endar days plus any applicable extension and tolling period thereafter.

(2) Complete notice. For purposes of
paragraph (b)(1) of this section, a no-
tice shall be deemed complete at such
time as it contains all information re-
quired by this subpart and all other in-
formation requested by the Board or
the Reserve Bank.

(c) Notice to expand or alter non-
banking activities—(1) De novo expan-
sion. A notice under this subpart is re-
quired to open a new office or to form
a subsidiary to engage in, or to relo-
cate an existing office engaged in, a
nonbanking activity that the Board
has previously approved for the bank
holding company under this regulation,
only if:

(i) The Board’s prior approval was
limited geographically;

(ii) The activity is to be conducted in
a country outside of the United States and the bank holding company has not
previously received prior Board ap-
proval under this regulation to engage
in the activity in that country; or

(iii) The Board or appropriate Re-
serve Bank has notified the company
that a notice under this subpart is re-
quired.

(2) Activities outside United States. With respect to activities to be en-
gaged in outside the United States that
require approval under this subpart,
the procedures of this section apply
only to activities to be engaged in di-
rectly by a bank holding company that
is not a qualifying foreign banking or-
ganization, or by a nonbank subsidi-
ary of a bank holding company approved
under this subpart. Regulation K (12
CFR part 211) governs other inter-
national operations of bank holding
companies.

(3) Alteration of nonbanking activity. Unless otherwise permitted by the
Board, a notice under this subpart is
required to alter a nonbanking activity
in any material respect from that con-
sidered by the Board in acting on the
application or notice to engage in the
activity.

(d) Emergency savings association ac-
quisions. In the case of a notice to ac-
quire a savings association, the Board
may modify or dispense with the public
notice and hearing requirements of this
subpart if the Board finds that an
emergency exists that requires the
Board to act immediately and the pri-
mary federal regulator of the institu-
tion concurs.

§ 225.26 Factors considered in acting
on nonbanking proposals.

(a) In general. In evaluating a notice
under §225.23 or §225.24, the Board shall
consider whether the notificant’s per-
formance of the activities can reason-
ably be expected to produce benefits to
the public (such as greater conven-
ience, increased competition, and gains
in efficiency) that outweigh possible
adverse effects (such as undue con-
centration of resources, decreased or
unfair competition, conflicts of inter-
est, and unsound banking practices).

(b) Financial and managerial resources.
Consideration of the factors in para-
graph (a) of this section includes an
evaluation of the financial and mana-
gerial resources of the notificant, in-
cluding its subsidiaries and any com-
pany to be acquired, the effect of the
proposed transaction on those re-
sources, and the management exper-
tise, internal control and risk-manage-
ment systems, and capital of the entity
conducting the activity.

(c) Competitive effect of de novo pro-
posals. Unless the record demonstrates

otherwise, the commencement or expansion of a nonbanking activity de novo is presumed to result in benefits to the public through increased competition.

(d) Denial for lack of information. The Board may deny any notice submitted under this subpart if the notificant neglects, fails, or refuses to furnish all information required by the Board.

(e) Conditional approvals. The Board may impose conditions on any approval, including conditions to address permissibility, financial, managerial, safety and soundness, competitive, compliance, conflicts of interest, or other concerns to ensure that approval is consistent with the relevant statutory factors and other provisions of the BHC Act.

§ 225.27 Procedures for determining scope of nonbanking activities.

(a) Advisory opinions regarding scope of previously approved nonbanking activities—(1) Request for advisory opinion. Any person may submit a request to the Board for an advisory opinion regarding the scope of any permissible nonbanking activity. The request shall be submitted in writing to the Board and shall identify the proposed parameters of the activity, or describe the service or product that will be provided, and contain an explanation supporting an interpretation regarding the scope of the permissible nonbanking activity.

(2) Response to request. The Board shall provide an advisory opinion within 45 days of receiving a written request under this paragraph.

(b) Request for determination. Any request for a Board determination that an activity is so closely related to banking or managing or controlling banks as to be a proper incident thereto, shall be submitted to the Board in writing, and shall contain evidence that the proposed activity is so closely related to banking or managing or controlling banks as to be a proper incident thereto.

(c) Publication. The Board shall publish in the Federal Register notice that it is considering the permissibility of a new activity and invite public comment for a period of at least 30 calendar days. In the case of a request submitted under paragraph (b) of this section, the Board may determine not to publish notice of the request if the Board determines that the requester has provided no reasonable basis for a determination that the activity is so closely related to banking, or managing or controlling banks as to be a proper incident thereto, and notifies the requester of the determination.

(d) Comments and hearing requests. Any comment and any request for a hearing regarding a proposal under this section shall comply with the provisions of §262.3(e) of the Board’s Rules of Procedure (12 CFR 262.3(e)).

§ 225.28 List of permissible nonbanking activities.

(a) Closely related nonbanking activities. The activities listed in paragraph (b) of this section are so closely related to banking or managing or controlling banks as to be a proper incident thereto, and may be engaged in by a bank holding company or its subsidiary in accordance with the requirements of this regulation.

(b) Activities determined by regulation to be permissible—(1) Extending credit and servicing loans. Making, acquiring, brokering, or servicing loans or other extensions of credit (including factoring, issuing letters of credit and accepting drafts) for the company’s account or for the account of others.

(2) Activities related to extending credit. Any activity usual in connection with making, acquiring, brokering or servicing loans or other extensions of credit (including factoring, issuing letters of credit and accepting drafts) for the company’s account or for the account of others.

(3) Activities related to extending credit—(1) Real estate and personal property appraising. Performing appraisals of real estate and tangible and intangible personal property, including securities.
(ii) Arranging commercial real estate equity financing. Acting as intermediary for the financing of commercial or industrial income-producing real estate by arranging for the transfer of the title, control, and risk of such a real estate project to one or more investors, if the bank holding company and its affiliates do not have an interest in, or participate in managing or developing, a real estate project for which it arranges equity financing, and do not promote or sponsor the development of the property.

(iii) Check-guaranty services. Authorizing a subscribing merchant to accept personal checks tendered by the merchant’s customers in payment for goods and services, and purchasing from the merchant validly authorized checks that are subsequently dishonored.

(iv) Collection agency services. Collecting overdue accounts receivable, either retail or commercial.

(v) Credit bureau services. Maintaining information related to the credit history of consumers and providing the information to a credit grantor who is considering a borrower’s application for credit or who has extended credit to the borrower.

(vi) Asset management, servicing, and collection activities. Engaging under contract with a third party in asset management, servicing, and collection of assets of a type that an insured depository institution may originate and own, if the company does not engage in real property management or real estate brokerage services as part of these services.

(vii) Acquiring debt in default. Acquiring debt that is in default at the time of acquisition, if the company:

(A) Divests shares or assets securing debt in default that are not permissible investments for bank holding companies, within the time period required for divestiture of property acquired in satisfaction of a debt previously contracted under §225.12(b);³

(B) Stands only in the position of a creditor and does not purchase equity of obligors of debt in default (other than equity that may be collateral for such debt); and

(C) Does not acquire debt in default secured by shares of a bank or bank holding company.

(viii) Real estate settlement servicing. Providing real estate settlement services.⁴

(3) Leasing personal or real property. Leasing personal or real property or acting as agent, broker, or adviser in leasing such property if:

(i) The lease is on a nonoperating basis;⁵

(ii) The initial term of the lease is at least 90 days;

(iii) In the case of leases involving real property:

(A) At the inception of the initial lease, the effect of the transaction will yield a return that will compensate the lessor for not less than the lessor’s full investment in the property plus the estimated total cost of financing the property over the term of the lease from rental payments, estimated tax

²For this purpose, the divestiture period for property begins on the date that the debt is acquired, regardless of when legal title to the property is acquired.

¹For purposes of this section, real estate settlement services do not include providing title insurance as principal, agent, or broker.

The requirement that the lease be on a nonoperating basis means that the bank holding company may not, directly or indirectly, engage in operating, servicing, maintaining, or repairing leased property during the lease term. For purposes of the leasing of automobiles, the requirement that the lease be on a nonoperating basis means that the bank holding company may not, directly or indirectly: (1) Provide servicing, repair, or maintenance of the leased vehicle during the lease term; (2) purchase parts and accessories in bulk or for an individual vehicle after the lessee has taken delivery of the vehicle; (3) provide the loan of an automobile during servicing of the leased vehicle; (4) purchase insurance for the lessee; or (5) provide for the renewal of the vehicle’s license merely as a service to the lessee where the lessee could renew the license without authorization from the lessor. The bank holding company may arrange for a third party to provide these services or products.

³Asset management services include acting as agent in the liquidation or sale of loans and collateral for loans, including real estate and other assets acquired through foreclosure or in satisfaction of debts previously contracted.

¹¹
(A) Feasibility studies do not include assisting management with the planning or marketing for a given project or providing general operational or management advice.

(iv) Providing information, statistical forecasting, and advice with respect to any transaction in foreign exchange, swaps, and similar transactions, commodities, and any forward contract, option, future, option on a future, and similar instruments;

(v) Providing educational courses, and instructional materials to consumers on individual financial management matters; and

(vi) Providing tax-planning and tax-preparation services to any person.

(7) Agency transactional services for customer investments—(i) Securities brokerage. Providing securities brokerage services (including securities clearing and/or securities execution services on an exchange), whether alone or in combination with investment advisory services, and incidental activities (including related securities credit activities and custodial services), if the securities brokerage services are restricted to buying and selling securities solely as agent for the account of customers and do not include securities underwriting or dealing.

(ii) Riskless principal transactions. Buying and selling in the secondary market all types of securities on the order of customers as a “riskless principal” to the extent of engaging in a transaction in which the company, after receiving an order to buy (or sell) a security from a customer, purchases (or sells) the security for its own account to offset a contemporaneous sale to (or purchase from) the customer. This does not include:

(A) Selling bank-ineligible securities7 at the order of a customer that is the issuer of the securities, or selling bank-ineligible securities in any transaction where the company has a contractual agreement to place the securities as agent of the issuer; or

(B) Acting as a riskless principal in any transaction involving a bank-ineligible security for which the company

6Feasibility studies do not include assisting management with the planning or marketing for a given project or providing general operational or management advice.

7A bank-ineligible security is any security that a State member bank is not permitted to underwrite or deal in under 12 U.S.C. 24 and 335.
Federal Reserve System § 225.28

or any of its affiliates acts as underwriter (during the period of the underwriting or for 30 days thereafter) or dealer.8

(iii) Private placement services. Acting as agent for the private placement of securities in accordance with the requirements of the Securities Act of 1933 (1933 Act) and the rules of the Securities and Exchange Commission, if the company engaged in the activity does not purchase or repurchase for its own account the securities being placed, or hold in inventory unsold portions of issues of these securities.

(iv) Futures commission merchant. Acting as a futures commission merchant (FCM) for unaffiliated persons in the execution, clearance, or execution and clearance of any futures contract and option on a futures contract traded on an exchange in the United States or abroad if:

(A) The activity is conducted through a separately incorporated subsidiary of the bank holding company, which may engage in activities other than FCM activities (including, but not limited to, permissible advisory and trading activities); and

(B) The parent bank holding company does not provide a guarantee or otherwise become liable to the exchange or clearing association other than for those trades conducted by the subsidiary for its own account or for the account of any affiliate.

(v) Other transactional services. Providing to customers as agent transactional services with respect to swaps and similar transactions, any transaction described in paragraph (b)(8) of this section, any transaction that is permissible for a state member bank, and any other transaction involving a forward contract, option, futures, op-

8A company or its affiliates may not enter quotes for specific bank-ineligible securities in any dealer quotation system in connection with the company’s riskless principal transactions; except that the company or its affiliates may enter “bid” or “ask” quotations, or publish “offering wanted” or “bid wanted” notices on trading systems other than NASDAQ or an exchange, if the company or its affiliate does not enter price quotations on different sides of the market for a particular security during any two-day period.

9A bank-ineligible security is any security that a state member bank is not permitted to underwrite or deal in under 12 U.S.C. 24 and 335.
based on an asset for which futures contracts or options on futures contracts have been approved for trading on a U.S. contract market by the Commodity Futures Trading Commission, and the company—

(i) Makes every reasonable effort to avoid taking or making delivery of the asset underlying the contract; or

(ii) Receives and instantaneously transfers title to the underlying asset, by operation of contract and without taking or making physical delivery of the asset.

(C) Forward contracts, options, futures, options on futures, swaps, and similar contracts, whether traded on exchanges or not, based on an index of a rate, a price, or the value of any financial asset, nonfinancial asset, or group of assets, if the contract requires cash settlement.

(iii) Buying and selling bullion, and related activities. Buying, selling and storing bars, rounds, bullion, and coins of gold, silver, platinum, palladium, copper, and any other metal approved by the Board, for the company’s own account and the account of others, and providing incidental services such as arranging for storage, safe custody, assaying, and shipment.

(9) Management consulting and counseling activities—(i) Management consulting. (A) Providing management consulting advice: 11

(B) A company conducting management consulting activities under this subparagraph and any affiliate of such company may not:

1. Own or control, directly or indirectly, more than 5 percent of the voting securities of the client institution; and

2. Allow a management official, as defined in 12 CFR 212.2(b), of the company or any of its affiliates to serve as a management official of the client institution, except where such interlocking relationship is permitted pursuant to an exemption granted under 12 CFR 212.4(b) or otherwise permitted by the Board.

(C) A company conducting management consulting activities may provide management consulting services to customers not described in paragraph (b)(9)(1)(A) of this section or regarding matters not described in paragraph (b)(9)(1)(A)(2) of this section, if the total annual revenue derived from those management consulting services does not exceed 30 percent of the company’s total annual revenue derived from management consulting activities.

(ii) Employee benefits consulting services. Providing consulting services to employee benefit, compensation and insurance plans, including designing plans, assisting in the implementation of plans, providing administrative services to plans, and developing employee communication programs for plans.

(iii) Career counseling services. Providing career counseling services to: 2

(A) A financial organization 12 and individuals currently employed by, or recently displaced from, a financial organization;

11 This reference does not include acting as a dealer in options based on indices of bank-ineligible securities when the options are traded on securities exchanges. These options are securities for purposes of the federal securities laws and bank-ineligible securities for purposes of section 20 of the Glass-Steagall Act, 12 U.S.C. 337. Similarly, this reference does not include acting as a dealer in any other instrument that is a bank-ineligible security for purposes of section 20. A bank holding company may deal in these instruments in accordance with the Board’s orders on dealing in bank-ineligible securities.

12 Financial organization refers to insured depository institution holding companies and their subsidiaries, other than nonbanking affiliates of diversified savings and loan holding companies that engage in activities not permissible under section 4(c)(6)
(B) Individuals who are seeking employment at a financial organization; and

(C) Individuals who are currently employed in or who seek positions in the finance, accounting, and audit departments of any company.

(10) Support services—(1) Courier services. Providing courier services for:

(A) Checks, commercial papers, documents, and written instruments (excluding currency or bearer-type negotiable instruments) that are exchanged among banks and financial institutions; and

(B) Audit and accounting media of a banking or financial nature and other business records and documents used in processing such media.

(ii) Printing and selling MICR-encoded items. Printing and selling checks and related documents, including corporate image checks, cash tickets, voucher checks, deposit slips, savings withdrawal packages, and other forms that require Magnetic Ink Character Recognition (MICR) encoding.

(11) Insurance agency and underwriting—(1) Credit insurance. Acting as principal, agent, or broker for insurance (including home mortgage redemption insurance) that is:

(A) Directly related to an extension of credit by the bank holding company or any of its subsidiaries; and

(B) Limited to ensuring the repayment of the outstanding balance due on the extension of credit in the event of the death, disability, or involuntary unemployment of the debtor.

(ii) Finance company subsidiary. Acting as agent or broker for insurance directly related to an extension of credit by a finance company that is a subsidiary of a bank holding company, if:

(A) The insurance is limited to ensuring repayment of the outstanding balance on such extension of credit in the event of loss or damage to any property used as collateral for the extension of credit; and

(B) The extension of credit is not more than $10,000, or $25,000 if it is to finance the purchase of a residential manufactured home and the credit is secured by the home; and

(C) The applicant commits to notify borrowers in writing that:

(1) They are not required to purchase such insurance from the applicant;

(2) Such insurance does not insure any interest of the borrower in the collateral; and

(3) The applicant will accept more comprehensive property insurance in place of such single-interest insurance.

(iii) Insurance in small towns. Engaging in any insurance agency activity in a place where the bank holding company or a subsidiary of the bank holding company has a lending office and that:

(A) Has a population not exceeding 5,000 (as shown in the preceding decennial census); or

(B) Has inadequate insurance agency facilities, as determined by the Board, after notice and opportunity for hearing.

(iv) Insurance-agency activities conducted on May 1, 1982. Engaging in any specific insurance-agency activity if the bank holding company, or subsidiary conducting the specific activity, conducted such activity on May 1, 1982,
1862, or received Board approval to conduct such activity on or before May 1, 1982. A bank holding company or subsidiary engaging in a specific insurance agency activity under this clause may:

(A) Engage in such specific insurance agency activity only at locations:

(1) In the state in which the bank holding company has its principal place of business (as defined in 12 U.S.C. 1842(d));

(2) In any state or states immediately adjacent to such state; and

(3) In any state in which the specific insurance-agency activity was conducted (or was approved to be conducted) by such bank holding company or subsidiary thereof or by any other subsidiary of such bank holding company on May 1, 1982; and

(B) Provide other insurance coverages that may become available after May 1, 1982, so long as those coverages insure against the types of risks as (or are otherwise functionally equivalent to) coverages sold or approved to be sold on May 1, 1982, by the bank holding company or subsidiary.

(v) Supervision of retail insurance agents. Supervising on behalf of insurance underwriters the activities of retail insurance agents who sell:

(A) Fidelity insurance and property and casualty insurance on the real and personal property used in the operations of the bank holding company or its subsidiaries; and

(B) Group insurance that protects the employees of the bank holding company or its subsidiaries.

(vi) Small bank holding companies. Engaging in any insurance-agency activity if the bank holding company has total consolidated assets of $50 million or less. A bank holding company performing insurance-agency activities under this paragraph may not engage in the sale of life insurance or annu-

18For the purposes of this paragraph, activities engaged in on May 1, 1982, include activities carried on subsequently as the result of an application to engage in such activities pending before the Board on May 1, 1982, and approved subsequently by the Board or as the result of the acquisition by such company pursuant to a binding written contract entered into on or before May 1, 1982, of another company engaged in such activities at the time of the acquisition.

12 CFR Ch. II (1–1–13 Edition)
(ii) A company conducting data processing, data storage, and data transmission activities may conduct data processing, data storage, and data transmission activities not described in paragraph (b)(14)(i) of this section if the total annual revenue derived from those activities does not exceed 49 percent of the company’s total annual revenues derived from data processing, data storage and data transmission activities.

Subpart D—Control and Divestiture Proceedings

§ 225.31 Control proceedings.

(a) Preliminary determination of control. (1) The Board may issue a preliminary determination of control under the procedures set forth in this section in any case in which:

(i) Any of the presumptions of control set forth in paragraph (d) of this section is present; or

(ii) It otherwise appears that a company has the power to exercise a controlling influence over the management or policies of a bank or other company.

(2) If the Board makes a preliminary determination of control under this section, the Board shall send notice to the controlling company containing a statement of the facts upon which the preliminary determination is based.

(b) Response to preliminary determination of control. Within 30 calendar days of issuance by the Board of a preliminary determination of control or such longer period permitted by the Board, the company against whom the determination has been made shall:

(1) Submit for the Board’s approval a specific plan for the prompt termination of the control relationship;

(2) File an application under subpart B or C of this regulation to retain the control relationship; or

(3) Contest the preliminary determination by filing a response, setting forth the facts and circumstances in support of its position that no control exists, and, if desired, requesting a hearing or other proceeding.

(c) Hearing and final determination. (1) The Board shall order a formal hearing or other appropriate proceeding upon the request of a company that contests a preliminary determination that the company has the power to exercise a controlling influence over the management or policies of a bank or other company, if the Board finds that material facts are in dispute. The Board may also in its discretion order a formal hearing or other proceeding with respect to a preliminary determination that the company controls voting securities of the bank or other company under the presumptions in paragraph (d)(1) of this section.

(2) At a hearing or other proceeding, any applicable presumptions established by paragraph (d) of this section shall be considered in accordance with the Federal Rules of Evidence and the Board’s Rules of Practice for Formal Hearings (12 CFR part 263).

(3) After considering the submissions of the company and other evidence, including the record of any hearing or other proceeding, the Board shall issue a final order determining whether the company controls voting securities, or has the power to exercise a controlling influence over the management or policies of a bank or other company. If a control relationship is found, the Board may direct the company to terminate the control relationship or to file an application for the Board’s approval to retain the control relationship under subpart B or C of this regulation.

(d) Rebuttable presumptions of control. The following rebuttable presumptions shall be used in any proceeding under this section:

(1) Control of voting securities—(i) Securities convertible into voting securities. A company that owns, controls, or holds securities that are immediately convertible, at the option of the holder or owner, into voting securities of a bank or other company, controls the voting securities.

(ii) Option or restriction on voting securities. A company that enters into an agreement or understanding under which the rights of a holder of voting securities of a bank or other company are restricted in any manner controls the securities. This presumption does
§ 225.41 Transactions requiring prior notice.

(a) Prior notice requirement. Any person acting directly or indirectly, or through or in concert with one or more persons, shall give the Board 60 days’ written notice, as specified in §225.43 of this subpart, before acquiring control of a state member bank or bank holding company, unless the acquisition is exempt under §225.42.

(b) Definitions. For purposes of this subpart:

(1) Acquisition includes a purchase, assignment, transfer, or pledge of voting securities, or an increase in percentage ownership of a state member

Subpart E—Change in Bank Control

bank or a bank holding company resulting from a redemption of voting securities.

(2) Acting in concert includes knowing participation in a joint activity or parallel action towards a common goal of acquiring control of a state member bank or bank holding company whether or not pursuant to an express agreement.

(3) Immediate family includes a person’s father, mother, stepfather, stepmother, brother, sister, stepbrother, stepsister, son, daughter, stepson, stepdaughter, grandparent, grandchild, grandparent, father-in-law, mother-in-law, brother-in-law, sister-in-law, son-in-law, daughter-in-law, the spouse of any of the foregoing, and the person’s spouse.

(c) Acquisitions requiring prior notice—

(1) Acquisition of control. The acquisition of voting securities of a state member bank or bank holding company constitutes the acquisition of control under the Bank Control Act, requiring prior notice to the Board, if, immediately after the transaction, the acquiring person (or persons acting in concert) will own, control, or hold with power to vote 25 percent or more of any class of voting securities of the institution.

(2) Rebuttable presumption of control. The Board presumes that an acquisition of voting securities of a state member bank or bank holding company constitutes the acquisition of control under the Bank Control Act, requiring prior notice to the Board, if, immediately after the transaction, the acquiring person (or persons acting in concert) will own, control, or hold with power to vote 10 percent or more of any class of voting securities of the institution, and if:

(i) The institution has registered securities under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l); or

(ii) No other person will own, control, or hold the power to vote a greater percentage of that class of voting securities immediately after the transaction.1

(d) Rebuttable presumption of concerted action. The following persons shall be presumed to be acting in concert for purposes of this subpart:

(1) A company and any controlling shareholder, partner, trustee, or management official of the company, if both the company and the person own voting securities of the state member bank or bank holding company;

(2) An individual and the individual’s immediate family;

(3) Companies under common control;

(4) Persons that are parties to any agreement, contract, understanding, relationship, or other arrangement, whether written or otherwise, regarding the acquisition, voting, or transfer of control of voting securities of a state member bank or bank holding company, other than through a revocable proxy as described in §225.42(a)(5) of this subpart;

(5) Persons that have made, or propose to make, a joint filing under sections 13 or 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78n), and the rules promulgated thereunder by the Securities and Exchange Commission; and

(6) A person and any trust for which the person serves as trustee.

(e) Acquisitions of loans in default. The Board presumes an acquisition of a loan in default that is secured by voting securities of a state member bank or bank holding company to be an acquisition of the underlying securities for purposes of this section.

(f) Other transactions. Transactions other than those set forth in paragraph (c) of this section resulting in a person’s control of less than 25 percent of a class of voting securities of a state member bank or bank holding company are not deemed by the Board to constitute control for purposes of the Bank Control Act.

(g) Rebuttal of presumptions. Prior notice to the Board is not required for any acquisition of voting securities under the presumption of control set forth in this section, if the Board finds that the acquisition will not result in control. The Board shall afford any

1If two or more persons, not acting in concert, each propose to acquire simultaneously equal percentages of 10 percent or more of a class of voting securities of the state member bank or bank holding company, each person must file prior notice to the Board.
person seeking to rebut a presumption in this section an opportunity to present views in writing or, if appropriate, orally before its designated representatives at an informal conference.

§ 225.42 Transactions not requiring prior notice.

(a) Exempt transactions. The following transactions do not require notice to the Board under this subpart:

1. Existing control relationships. The acquisition of additional voting securities of a state member bank or bank holding company by a person who:
   (i) Continuously since March 9, 1979 (or since the institution commenced business, if later), held power to vote 25 percent or more of any class of voting securities of the institution; or
   (ii) Is presumed, under §225.41(c)(2) of this subpart, to have controlled the institution continuously since March 9, 1979 (or since the institution commenced business, if later), held power to vote 25 percent or more of any class of voting securities of the institution; or

2. Increase of previously authorized acquisitions. Unless the Board or the Reserve Bank otherwise provides in writing, the acquisition of additional shares of a class of voting securities of a state member bank or bank holding company by any person (or persons acting in concert) who has lawfully acquired and maintained control of the institution (for purposes of §225.41(c) of this subpart), after complying with the procedures and receiving approval to acquire voting securities of the institution under this subpart, or in connection with an application approved under section 3 of the BHC Act (12 U.S.C. 1842; §225.11 of subpart B of this part) or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1829(c));

3. Acquisitions subject to approval under BHC Act or Bank Merger Act. Any acquisition of voting securities subject to approval under section 3 of the BHC Act (12 U.S.C. 1842; §225.11 of subpart B of this part), or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1829(c));

4. Transactions exempt under BHC Act. Any transaction described in sections 2(a)(5), 3(a)(A), or 3(a)(B) of the BHC Act (12 U.S.C. 1841(a)(5), 1842(a)(A), and 1842(a)(B)), by a person described in those provisions;

5. Proxy solicitation. The acquisition of the power to vote securities of a state member bank or bank holding company through receipt of a revocable proxy in connection with a proxy solicitation for the purposes of conducting business at a regular or special meeting of the institution, if the proxy terminates within a reasonable period after the meeting;

6. Stock dividends. The receipt of voting securities of a state member bank or bank holding company through a stock dividend or stock split if the proportional interest of the recipient in the institution remains substantially the same; and

7. Acquisition of foreign banking organization. The acquisition of voting securities of a qualifying foreign banking organization. (This exemption does not extend to the reports and information required under paragraphs 9, 10, and 12 of the Bank Control Act (12 U.S.C. 1817(j) (9), (10), and (12)) and §225.44 of this subpart.)

(b) Prior notice exemption. (1) The following acquisitions of voting securities of a state member bank or bank holding company, which would otherwise require prior notice under this subpart, are not subject to the prior notice requirements if the acquiring person notifies the appropriate Reserve Bank within 90 calendar days after the acquisition and provides any relevant information requested by the Reserve Bank:

   (i) Acquisition of voting securities through inheritance;
   (ii) Acquisition of voting securities as a bona fide gift; and
   (iii) Acquisition of voting securities in satisfaction of a debt previously contracted (DPC) in good faith.

(2) The following acquisitions of voting securities of a state member bank or bank holding company, which would otherwise require prior notice under this subpart, are not subject to the prior notice requirements if the acquiring person does not reasonably have advance knowledge of the transaction,
and provides the written notice required under section 225.43 to the appropriate Reserve Bank within 90 calendar days after the transaction occurs:

(i) Acquisition of voting securities resulting from a redemption of voting securities by the issuing bank or bank holding company; and

(ii) Acquisition of voting securities as a result of actions (including the sale of securities) by any third party that is not within the control of the acquiror.

(3) Nothing in paragraphs (b)(1) or (b)(2) of this section limits the authority of the Board to disapprove a notice pursuant to §225.43(h) of this subpart.

§ 225.43 Procedures for filing, processing, publishing, and acting on notices.

(a) Filing notice. (1) A notice required under this subpart shall be filed with the appropriate Reserve Bank and shall contain all the information required by paragraph 6 of the Bank Control Act (12 U.S.C. 1817(j)(6)), or prescribed in the designated Board form.

(2) The Board may waive any of the informational requirements of the notice if the Board determines that it is in the public interest.

(3) A notificant shall notify the appropriate Reserve Bank or the Board immediately of any material changes in a notice submitted to the Reserve Bank, including changes in financial or other conditions.

(4) When the acquiring person is an individual, or group of individuals acting in concert, the requirement to provide personal financial data may be satisfied by a current statement of assets and liabilities and an income summary, as required in the designated Board form, together with a statement of any material changes since the date of the statement or summary. The Reserve Bank or the Board, nevertheless, may request additional information, if appropriate.

(b) Acceptance of notice. The 60-day notice period specified in §225.41 of this subpart begins on the date of receipt of a complete notice. The Reserve Bank shall notify the person or persons submitting a notice under this subpart in writing of the date the notice is or was complete and thereby accepted for processing. The Reserve Bank or the Board may request additional relevant information at any time after the date of acceptance.

(c) Publication. (1) Newspaper Announcement. Any person(s) filing a notice under this subpart shall publish, in a form prescribed by the Board, an announcement soliciting public comment on the proposed acquisition. The announcement shall be published in a newspaper of general circulation in the community in which the head office of the state member bank to be acquired is located or, in the case of a proposed acquisition of a bank holding company, in the community in which its head office is located and in the community in which the head office of each of its subsidiary banks is located. The announcement shall be published no earlier than 15 calendar days before the filing of the notice with the appropriate Reserve Bank and no later than 10 calendar days after the filing date; and the publisher’s affidavit of a publication shall be provided to the appropriate Reserve Bank.

(2) Contents of newspaper announcement. The newspaper announcement shall state:

(i) The name of each person identified in the notice as a proposed acquiror of the bank or bank holding company;

(ii) The name of the bank or bank holding company to be acquired, including the name of each of the bank holding company’s subsidiary banks; and

(iii) A statement that interested persons may submit comments on the notice to the Board or the appropriate Reserve Bank for a period of 20 days, or such shorter period as may be provided, pursuant to paragraph (c)(5) of this section.

(3) Federal Register announcement. The Board shall, upon filing of a notice under this subpart, publish announcement in the Federal Register of receipt of the notice. The Federal Register announcement shall contain the information required under paragraphs (c)(2)(i) and (c)(2)(ii) of this section and a statement that interested persons may submit comments on the proposed acquisition for a period of 15 calendar
§225.43 12 CFR Ch. II (1–1–13 Edition)

days, or such shorter period as may be provided, pursuant to paragraph (c)(5) of this section. The Board may waive publication in the Federal Register, if the Board determines that such action is appropriate.

(4) Delay of publication. The Board may permit delay in the publication required under paragraphs (c)(1) and (c)(3) of this section if the Board determines, for good cause shown, that it is in the public interest to grant such delay. Requests for delay of publication may be submitted to the appropriate Reserve Bank.

(5) Shortening or waiving notice. The Board may shorten or waive the public comment or newspaper publication requirements of this paragraph, or act on a notice before the expiration of a public comment period, if it determines in writing that an emergency exists, or that disclosure of the notice, solicitation of public comment, or delay until expiration of the public comment period would seriously threaten the safety or soundness of the bank or bank holding company to be acquired.

(6) Consideration of public comments. In acting upon a notice filed under this subpart, the Board shall consider all public comments received in writing within the period specified in the newspaper or Federal Register announcement, whichever is later. At the Board’s option, comments received after this period may, but need not, be considered.

(7) Standing. No person (other than the acquiring person) who submits comments or information on a notice filed under this subpart shall thereby become a party to the proceeding or acquire any standing or right to participate in the Board’s consideration of the notice or to appeal or otherwise contest the notice or the Board’s action regarding the notice.

(d) Time period for Board action—(1) Consummation of acquisition—(i) The notificant(s) may consummate the proposed transaction before the expiration of the 60-day period if the Board notifies the notificant(s) in writing of the Board’s intention not to disapprove the acquisition.

(2) Extensions of time period. (i) The Board may extend the 60-day period in paragraph (d)(1) of this section for an additional 30 days by notifying the acquiring person(s).

(ii) The Board may further extend the period during which it may disapprove a notice for two additional periods of not more than 45 days each, if the Board determines that:

(A) Any acquiring person has not furnished all the information required under paragraph (a) of this section;

(B) Any material information submitted is substantially inaccurate;

(C) The Board is unable to complete the investigation of an acquiring person because of inadequate cooperation or delay by that person; or

(D) Additional time is needed to investigate and determine that no acquiring person has a record of failing to comply with the requirements of the Bank Secrecy Act, subchapter II of Chapter 53 of Title 31, United States Code.

(iii) If the Board extends the time period under this paragraph, it shall notify the acquiring person(s) of the reasons therefor and shall include a statement of the information, if any, deemed incomplete or inaccurate.

(e) Advice to bank supervisory agencies. (1) Upon accepting a notice relating to acquisition of securities of a state member bank, the Reserve Bank shall send a copy of the notice to the appropriate state bank supervisor, which shall have 30 calendar days from the date the notice is sent in which to submit its views and recommendations to the Board. The Reserve Bank also shall send a copy of any notice to the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision.

(2) If the Board finds that it must act immediately in order to prevent the probable failure of the bank or bank holding company involved, the Board may dispense with or modify the requirements for notice to the state supervisor.
(f) **Investigation and report.** (1) After receiving a notice under this subpart, the Board or the appropriate Reserve Bank shall conduct an investigation of the competence, experience, integrity, and financial ability of each person by and for whom an acquisition is to be made. The Board shall also make an independent determination of the accuracy and completeness of any information required to be contained in a notice under paragraph (a) of this section. In investigating any notice accepted under this subpart, the Board or Reserve Bank may solicit information or views from any person, including any bank or bank holding company involved in the notice, and any appropriate state, federal, or foreign governmental authority.

(2) The Board or the appropriate Reserve Bank shall prepare a written report of its investigation, which shall contain, at a minimum, a summary of the results of the investigation.

(g) **Factors considered in acting on notices.** In reviewing a notice filed under this subpart, the Board shall consider the information in the record, the views and recommendations of the appropriate bank supervisor, and any other relevant information obtained during any investigation of the notice.

(h) **Disapproval and hearing—**

(1) **Disapproval of notice.** The Board may disapprove an acquisition if it finds adverse effects with respect to any of the factors set forth in paragraph 7 of the Bank Control Act (12 U.S.C. 1817(j)(7)) (i.e., competitive, financial, managerial, banking, or incompleteness of information).

(2) **Disapproval notification.** Within three days after its decision to issue a notice of intent to disapprove any proposed acquisition, the Board shall notify the acquiring person in writing of the reasons for the action.

(3) **Hearing.** Within 10 calendar days of receipt of the notice of the Board’s intent to disapprove, the acquiring person may submit a written request for a hearing. Any hearing conducted under this paragraph shall be in accordance with the Rules of Practice for Formal Hearings (12 CFR part 263). At the conclusion of the hearing, the Board shall, by order, approve or disapprove the proposed acquisition on the basis of the record of the hearing. If the acquiring person does not request a hearing, the notice of intent to disapprove becomes final and unappealable.

§ 225.44 Reporting of stock loans.

(a) **Requirements.** (1) Any foreign bank or affiliate of a foreign bank that has credit outstanding to any person or group of persons, in the aggregate, which is secured, directly or indirectly, by 25 percent or more of any class of voting securities of a state member bank, shall file a consolidated report with the appropriate Reserve Bank for the state member bank.

(2) The foreign bank or its affiliate also shall file a copy of the report with its appropriate Federal banking agency.

(3) Any shares of the state member bank held by the foreign bank or any affiliate of the foreign bank as principal must be included in the calculation of the number of shares in which the foreign bank or its affiliate has a security interest for purposes of paragraph (a) of this section.

(b) **Definitions.** For purposes of paragraph (a) of this section:

(1) **Foreign bank** shall have the same meaning as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(2) **Credit outstanding** includes any loan or extension of credit; the issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit; and any other type of transaction that extends credit or financing to the person or group of persons.

(3) **Group of persons** includes any number of persons that the foreign bank or any affiliate of a foreign bank has reason to believe:

(i) Are acting together, in concert, or with one another to acquire or control shares of the same insured depository institution, including an acquisition of shares of the same depository institution at approximately the same time under substantially the same terms; or

(ii) Have made, or propose to make, a joint filing under section 13 or 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78n), and the rules promulgated thereunder by the Securities and Exchange Commission regarding
ownership of the shares of the same insured depository institution.

(c) Exceptions. Compliance with paragraph (a) of this section is not required if:

(1) The person or group of persons referred to in that paragraph has disclosed the amount borrowed and the security interest therein to the Board or appropriate Reserve Bank in connection with a notice filed under §225.41 of this subpart, or another application filed with the Board or Reserve Bank as a substitute for a notice under §225.41 of this subpart, including an application filed under section 3 of the BHC Act (12 U.S.C. 1842) or section 18(c) of the Federal Deposit Insurance Act (Bank Merger Act, 12 U.S.C. 1828(c)), or an application for membership in the Federal Reserve System; or

(2) The transaction involves a person or group of persons that has been the owner or owners of record of the stock for a period of one year or more; or, if the transaction involves stock issued by a newly chartered bank, before the bank is opened for business.

(d) Report requirements. (1) The consolidated report shall indicate the number and percentage of shares securing each applicable extension of credit, the identity of the borrower, and the number of shares held as principal by the foreign bank and any affiliate thereof.

(2) A foreign bank, or any affiliate of a foreign bank, shall file the consolidated report in writing within 30 days of the date on which the foreign bank or affiliate first believes that the security for any outstanding credit consists of 25 percent or more of any class of voting securities of a state member bank.

(e) Other reporting requirements. A foreign bank, or any affiliate thereof, that is supervised by the System and is required to report credit outstanding that is secured by the shares of an insured depository institution to another Federal banking agency also shall file a copy of the report with the appropriate Reserve Bank.

Subpart F—Limitations on Nonbank Banks

§ 225.52 Limitation on overdrafts.

(a) Definitions. For purposes of this section—

(1) Account means a reserve account, clearing account, or deposit account as defined in the Board’s Regulation D (12 CFR 204.2(a)(1)(i)), that is maintained at a Federal Reserve Bank or nonbank bank.

(2) Cash item means (i) a check other than a check classified as a noncash item; or (ii) any other item payable on demand and collectible at par that the Federal Reserve Bank of the district in which the item is payable is willing to accept as a cash item.

(3) Discount window loan means any credit extended by a Federal Reserve Bank to a nonbank bank or industrial bank pursuant to the provisions of the Board’s Regulation A (12 CFR part 201).

(4) Industrial bank means an institution as defined in section 2(c)(2)(H) of the BHC Act (12 U.S.C. 1841(c)(2)(H)).

(5) Noncash item means an item handled by a Reserve Bank as a noncash item under the Reserve Bank’s “Collection of Noncash Items Operating Circular” (e.g., a maturing bankers’ acceptance or a maturing security, or a demand item, such as a check, with special instructions or an item that has not been preprinted or post-encoded).

(6) Other nonelectronic transactions include all other transactions not included as funds transfers, book-entry securities transfers, cash items, noncash items, automated clearing house transactions, net settlement entries, and discount window loans (e.g., original issue of securities or redemption of securities).

(7) An overdraft in an account occurs whenever the Federal Reserve Bank, nonbank bank, or industrial bank holding an account posts a transaction to the account of the nonbank bank, industrial bank, or affiliate that exceeds the aggregate balance of the accounts of the nonbank bank, industrial bank, or affiliate, as determined by the posting rules set forth in paragraphs (d) and (e) of this section and continues until the aggregate balance of the account is zero or greater.
Federal Reserve System

§ 225.52

(b) Transfer item means an item as defined in subpart B of Regulation J (12 CFR 210.25 et seq).

(b) Restriction on overdrafts—(1) Affiliates. Neither a nonbank bank nor an industrial bank shall permit any affiliate to incur any overdraft in its account with the nonbank bank or industrial bank.

(2) Nonbank banks or industrial banks. (i) No nonbank bank or industrial bank shall incur any overdraft in its account at a Federal Reserve Bank on behalf of an affiliate.

(ii) An overdraft by a nonbank bank or industrial bank in its account at a Federal Reserve Bank shall be deemed to be on behalf of an affiliate whenever:

(A) A nonbank bank or industrial bank holds an account for an affiliate from which third-party payments can be made; and

(B) When the posting of an affiliate’s transaction to the nonbank bank’s or industrial bank’s account at a Reserve Bank creates an overdraft in its account at a Federal Reserve Bank or increases the amount of an existing overdraft in its account at a Federal Reserve Bank.

(c) Permissible overdrafts. The following are permissible overdrafts not subject to paragraph (b) of this section:

(1) Inadvertent error. An overdraft in its account by a nonbank bank or its affiliate, or an industrial bank or its affiliate, that results from an inadvertent computer error or inadvertent accounting error, that was not reasonably foreseeable or could not have been prevented through the maintenance of procedures reasonably adopted by the nonbank bank or affiliate to avoid such overdraft; and

(2) Fully secured primary dealer affiliate overdrafts. (i) An overdraft incurred by an affiliate of a nonbank bank, which affiliate is recognized as a primary dealer by the Federal Reserve Bank of New York, in the affiliate’s account at the nonbank bank, or an overdraft incurred by a nonbank bank on behalf of its primary dealer affiliate in the nonbank bank’s account at a Federal Reserve Bank; provided: the overdraft is fully secured by bonds, notes, or other obligations which are direct obligations of the United States or on which the principal and interest are fully guaranteed by the United States or by securities and obligations eligible for settlement on the Federal Reserve book-entry system.

(ii) An overdraft by a nonbank bank in its account at a Federal Reserve Bank that is on behalf of a primary dealer affiliate is fully secured when that portion of its overdraft at the Federal Reserve Bank that corresponds to the transaction posted for an affiliate that caused or increased the nonbank bank’s overdraft is fully secured in accordance with paragraph (c)(2)(iii) of this section.

(iii) An overdraft is fully secured under paragraph (c)(2)(i) when the nonbank bank can demonstrate that the overdraft is secured, at all times, by a perfected security interest in specific, identified obligations described in paragraph (c)(2)(ii) with a market value that, in the judgment of the Reserve Bank holding the nonbank bank’s account, is sufficiently in excess of the amount of the overdraft to provide a margin of protection in a volatile market or in the event the securities need to be liquidated quickly.

(d) Posting by Federal Reserve Banks. For purposes of determining the balance of an account under this section, payments and transfers by nonbank banks and industrial banks processed by the Federal Reserve Banks shall be considered posted to their accounts at Federal Reserve Banks as follows:

(1) Funds transfers. Transfer items shall be posted:

(i) To the transferor’s account at the time the transfer is actually made by the transferor’s Federal Reserve Bank; and

(ii) To the transferee’s account at the time the transferee’s Reserve Bank sends the transfer item or sends or telephones the advice of credit for the item to the transferee, whichever occurs first.

(2) Book-entry securities transfers against payment. A book-entry securities transfer against payment shall be posted: (i) to the transferor’s account at the time the entry is made by the transferor’s Reserve Bank; and (ii) to the transferee’s account at the time the entry is made by the transferee’s Reserve Bank.
§ 225.52  Discount window loans. Credit for a
discount window loan shall be posted
to the account of a nonbank bank or
industrial bank at the close of business
on the day that it is made or such ear-
lier time as may be specifically agreed
to by the Federal Reserve Bank and the
nonbank bank under the terms of the
loan. Debit for repayment of a dis-
count window loan shall be posted to
the account of the nonbank bank or
industrial bank as of the close of busi-
ness on the day of maturity of the loan
or such earlier time as may be agreed
to by the Federal Reserve Bank and
the nonbank bank or required by the
Federal Reserve Bank under the terms
of the loan.

(4) Other transactions. Total aggregate
credits for automated clearing house
transfers, cash items, noncash items,
etnet settlement entries, and other non-
electronic transactions shall be posted
to the account of a nonbank bank or
industrial bank as of the opening of
business on settlement day. Total ag-
gregate debits for these transactions
and entries shall be posted to the ac-
count of a nonbank bank or industrial
bank as of the close of business on set-
tlement day.

(e) Posting by nonbank banks and in-
dustrial banks. For purposes of deter-
mining the balance of an affiliate’s ac-
count under this section, payments and
transfers through an affiliate’s account
at a nonbank bank or industrial bank
shall be posted as follows:

(1) Funds transfers. (i) Fedwire trans-
erfer items shall be posted:

(A) To the transferor affiliate’s ac-
count no later than the time the trans-
fer is actually made by the transferor’s
Federal Reserve Bank; and

(B) To the transferee affiliate’s ac-
count no earlier than the time the
transfer item, or sends or telephones
the advice of credit for the item to the
transferee, whichever occurs first.

(ii) For funds transfers not sent or re-
ceived through Federal Reserve Banks,
debits shall be posted to the transferor
affiliate’s account no later than the
time the nonbank bank or industrial
bank becomes obligated on the trans-
fer. Credits shall not be posted to the
transferee affiliate’s account before the
nonbank bank or industrial bank has
received actually and finally collected
funds for the transfer.

(ii) Book-entry securities transfers
against payment. (i) A book-entry secur-
ities transfer against payment shall be posted:

(A) To the transferor affiliate’s ac-
count not earlier than the time the entry is made by the transferor’s Re-
serve Bank; and

(B) To the transferee affiliate’s ac-
count not later than the time the entry is made by the transferee’s Reserve
Bank.

(ii) For book-entry securities trans-
ers against payment that are not sent
or received through Federal Reserve
Banks, entries shall be posted:

(A) To the buyer-affiliate’s account
not later than the time the nonbank
bank or industrial bank becomes obli-
gated on the transfer; and

(B) To the seller-affiliate’s account
not before the nonbank bank or indus-
trial bank has received actually and fi-
nally collected funds for the transfer.

(3) Other transactions—(i) Credits. Ex-
cept as otherwise provided in this para-
graph, credits for cash items, noncash
items, ACH transfers, net settlement
entries, and all other nonelectronic
transactions shall be posted to an af-
fiiliate’s account on the day of the
transaction (i.e., settlement day for
ACH transactions or the day of credit
for check transactions), but no earlier
than the Federal Reserve Bank’s open-
ing of business on that day. Credit for
cash items that are required by federal
or state statute or regulation to be
made available to the depositor for
withdrawal prior to the posting time
set forth in the preceding paragraph
shall be posted as of the required avail-
ability time.

(ii) Debits. Debits for cash items,
noncash items, ACH transfers, net set-
tlement entries, and all other nonelectric
transactions shall be posted to an affi-
iliate’s account on the day of the
transaction (e.g., settlement day for
ACH transactions or the day of pre-
sentment for check transactions), but
no later than the Federal Reserve
Bank’s close of business on that day. If
a check drawn on an affiliate’s account
or an ACH debit transfer received by an
affiliate is returned timely by the
Federal Reserve System

§ 225.62

nonbank bank or industrial bank in accordance with applicable law and agreements, no entry need to be posted to the affiliate’s account for such item.

Subpart G—Appraisal Standards for Federally Related Transactions

SOURCE: Reg. Y, 55 FR 27771, July 5, 1990, unless otherwise noted.

§ 225.61 Authority, purpose, and scope.

(b) Purpose and scope. (1) Title XI provides protection for federal financial and public policy interests in real estate related transactions by requiring real estate appraisals used in connection with federally related transactions to be performed in writing, in accordance with uniform standards, by appraisers whose competency has been demonstrated and whose professional conduct will be subject to effective supervision. This subpart implements the requirements of title XI, and applies to all federally related transactions entered into by the Board or by institutions regulated by the Board (regulated institutions).

(2) This subpart:

(i) Identifies which real estate-related financial transactions require the services of an appraiser;

(ii) Prescribes which categories of federally related transactions shall be appraised by a State certified appraiser and which by a State licensed appraiser; and

(iii) Prescribes minimum standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of the Board.

§ 225.62 Definitions.

(a) Appraisal means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market value of an adequately described property as of a specific date(s), supported by the presentation and analysis of relevant market information.

(b) Appraisal Foundation means the Appraisal Foundation established on November 30, 1987, as a not-for-profit corporation under the laws of Illinois.

(c) Appraisal Subcommittee means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

(d) Business loan means a loan or extension of credit to any corporation, general or limited partnership, business trust, joint venture, pool, syndicate, sole proprietorship, or other business entity.

(e) Complex 1-to-4 family residential property appraisal means one in which the property to be appraised, the form of ownership, or market conditions are atypical.

(f) Federally related transaction means any real estate-related financial transaction entered into on or after August 9, 1990, that:

1. The Board or any regulated institution engages in or contracts for; and

2. Requires the services of an appraiser.

(g) Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;

2. Both parties are well informed or well advised, and acting in what they consider their own best interests;

3. A reasonable time is allowed for exposure in the open market;

4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
(h) Real estate or real property means an identified parcel or tract of land, with improvements, and includes easements, rights of way, undivided or future interests, or similar rights in a tract of land, but does not include mineral rights, timber rights, growing crops, water rights, or similar interests severable from the land when the transaction does not involve the associated parcel or tract of land.

(i) Real estate-related financial transaction means any transaction involving:

1. The sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof; or

2. The refinancing of real property or interests in real property; or

3. The use of real property or interests in property as security for a loan or investment, including mortgage-backed securities.

(j) State certified appraiser means any individual who has satisfied the requirements for certification in a State or territory whose criteria for certification as a real estate appraiser currently meet or exceed the minimum criteria for certification issued by the Appraiser Qualifications Board of the Appraisal Foundation. No individual shall be a State certified appraiser unless such individual has achieved a passing grade upon a suitable examination administered by a State or territory that is consistent with and equivalent to the Uniform State Certification Examination issued or endorsed by the Appraiser Qualifications Board of the Appraisal Foundation. In addition, the Appraisal Subcommittee must not have issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI of FIRREA. The Board may, from time to time, impose additional qualification criteria for certified appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

(k) State licensed appraiser means any individual who has satisfied the requirements for licensing in a State or territory where the licensing procedures comply with title XI of FIRREA and where the Appraisal Subcommittee has not issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI. The Board may, from time to time, impose additional qualification criteria for licensed appraisers performing appraisals in connection with federally related transactions within the Board’s jurisdiction.

(l) Tract development means a project of five units or more that is constructed or is to be constructed as a single development.

(m) Transaction value means:

1. For loans or other extensions of credit, the amount of the loan or extension of credit;

2. For sales, leases, purchases, and investments in or exchanges of real property, the market value of the real property interest involved; and

3. For the pooling of loans or interests in real property for resale or purchase, the amount of the loan or the market value of the real property calculated with respect to each such loan or interest in real property.

§ 225.63 Appraisals required; transactions requiring a State certified or licensed appraiser.

(a) Appraisals required. An appraisal performed by a State certified or licensed appraiser is required for all real estate-related financial transactions except those in which:

1. The transaction value is $250,000 or less;

2. A lien on real estate has been taken as collateral in an abundance of caution;

3. The transaction is not secured by real estate;

4. A lien on real estate has been taken for purposes other than the real estate’s value;

5. The transaction is a business loan that:

   1. Has a transaction value of $1 million or less; and
   2. Is not dependent on the sale of, or rental income derived from, real estate as the primary source of repayment;

6. A lease of real estate is entered into, unless the lease is the economic equivalent of a purchase or sale of the leased real estate;
(7) The transaction involves an existing extension of credit at the lending institution, provided that:
   (i) There has been no obvious and material change in market conditions or physical aspects of the property that threatens the adequacy of the institution’s real estate collateral protection after the transaction, even with the advancement of new monies; or
   (ii) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs;
(8) The transaction involves the purchase, sale, investment in, exchange of, or extension of credit secured by, a loan or interest in a loan, pooled loans, or interests in real property, including mortgaged-backed securities, and each loan or interest in a loan, pooled loan, or real property interest met Board regulatory requirements for appraisals at the time of origination;
(9) The transaction is wholly or partially insured or guaranteed by a United States government agency or United States government sponsored agency;
(10) The transaction either:
   (i) Qualifies for sale to a United States government agency or United States government sponsored agency; or
   (ii) Involves a residential real estate transaction in which the appraisal conforms to the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation appraisal standards applicable to that category of real estate;
(11) The regulated institution is acting in a fiduciary capacity and is not required to obtain an appraisal under other law;
(12) The transaction involves underwriting or dealing in mortgage-backed securities; or
(13) The Board determines that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of the institution.
   (b) Evaluations required. For a transaction that does not require the services of a State certified or licensed appraiser under paragraph (a)(1), (a)(5) or (a)(7) of this section, the institution shall obtain an appropriate evaluation of real property collateral that is consistent with safe and sound banking practices.
   (c) Appraisals to address safety and soundness concerns. The Board reserves the right to require an appraisal under this subpart whenever the agency believes it is necessary to address safety and soundness concerns.
   (d) Transactions requiring a State certified appraiser—(1) All transactions of $1,000,000 or more. All federally related transactions having a transaction value of $1,000,000 or more shall require an appraisal prepared by a State certified appraiser.
   (2) Nonresidential transactions of $250,000 or more. All federally related transactions having a transaction value of $250,000 or more, other than those involving appraisals of 1-to-4 family residential properties, shall require an appraisal prepared by a State certified appraiser.
   (3) Complex residential transactions of $250,000 or more. All complex 1-to-4 family residential property appraisals rendered in connection with federally related transactions shall require a State certified appraiser if the transaction value is $250,000 or more. A regulated institution may presume that appraisals of 1-to-4 family residential properties are not complex, unless the institution has readily available information that a given appraisal will be complex. The regulated institution shall be responsible for making the final determination of whether the appraisal is complex. If during the course of the appraisal a licensed appraiser identifies factors that would result in the property, form of ownership, or market conditions being considered atypical, then either:
      (i) The regulated institution may ask the licensed appraiser to complete the appraisal and have a certified appraiser approve and co-sign the appraisal; or
      (ii) The institution may engage a certified appraiser to complete the appraisal.
   (e) Transactions requiring either a State certified or licensed appraiser. All appraisals for federally related transactions not requiring the services of a
§ 225.64 Minimum appraisal standards.

For federally related transactions, all appraisals shall, at a minimum:

(a) Conform to generally accepted appraisal standards as evidenced by the Uniform Standards of Professional Appraisal Practice promulgated by the Appraisal Standards Board of the Appraisal Foundation, 1029 Vermont Ave., NW., Washington, DC 20005, unless principles of safe and sound banking require compliance with stricter standards;

(b) Be written and contain sufficient information and analysis to support the institution’s decision to engage in the transaction;

(c) Analyze and report appropriate deductions and discounts for proposed construction or renovation, partially leased buildings, non-market lease terms, and tract developments with unsold units;

(d) Be based upon the definition of market value as set forth in this subpart; and

(e) Be performed by State licensed or certified appraisers in accordance with requirements set forth in this subpart.

§ 225.65 Appraiser independence.

(a) **Staff appraisers.** If an appraisal is prepared by a staff appraiser, that appraiser must be independent of the lending, investment, and collection functions and not involved, except as an appraiser, in the federally related transaction, and have no direct or indirect interest, financial or otherwise, in the property. If the only qualified persons available to perform an appraisal are involved in the lending, investment, or collection functions of the regulated institution, the regulated institution shall take appropriate steps to ensure that the appraisers exercise independent judgment and that the appraisal is adequate. Such steps include, but are not limited to, prohibiting an individual from performing appraisals in connection with federally related transactions in which the appraiser is otherwise involved and prohibiting directors and officers from participating in any vote or approval involving assets on which they performed an appraisal.

(b) **Fee appraisers.** (1) If an appraisal is prepared by a fee appraiser, the appraiser shall be engaged directly by the regulated institution or its agent, and have no direct or indirect interest, financial or otherwise, in the property or the transaction.

(2) A regulated institution also may accept an appraisal that was prepared by an appraiser engaged directly by another financial services institution, if:

(i) The appraiser has no direct or indirect interest, financial or otherwise, in the property or the transaction; and

(ii) The regulated institution determines that the appraisal conforms to the requirements of this subpart and is otherwise acceptable.

§ 225.66 Professional association membership; competency.

(a) **Membership in appraisal organizations.** A State certified appraiser or a State licensed appraiser may not be excluded from consideration for an assignment for a federally related transaction solely by virtue of membership or lack of membership in any particular appraisal organization.

(b) **Competency.** All staff and fee appraisers performing appraisals in connection with federally related transactions must be State certified or licensed, as appropriate. However, a State certified or licensed appraiser may not be considered competent solely by virtue of being certified or licensed. Any determination of competency shall be based upon the individual’s experience and educational background as they relate to the particular appraisal assignment for which he or she is being considered.

§ 225.67 Enforcement.

Institutions and institution-affiliated parties, including staff appraisers and fee appraisers, may be subject to removal and/or prohibition orders, cease and desist orders, and the imposition of

Civil money penalties pursuant to the Federal Deposit Insurance Act, 12 U.S.C 1811 et seq., as amended, or other applicable law.

Subpart H—Notice of Addition or Change of Directors and Senior Executive Officers

§ 225.71 Definitions.

(a) Director means a person who serves on the board of directors of a regulated institution, except that this term does not include an advisory director who:

(1) Is not elected by the shareholders of the regulated institution;

(2) Is not authorized to vote on any matters before the board of directors or any committee thereof;

(3) Solely provides general policy advice to the board of directors and any committee thereof; and

(4) Has not been identified by the Board or Reserve Bank as a person who performs the functions of a director for purposes of this subpart.

(b) Regulated institution means a state member bank or a bank holding company.

(c) Senior executive officer means a person who holds the title or, without regard to title, salary, or compensation, performs the function of one or more of the following positions: president, chief executive officer, chief operating officer, chief financial officer, chief lending officer, or chief investment officer. Senior executive officer also includes any other person identified by the Board or Reserve Bank, whether or not hired as an employee, with significant influence over, or who participates in, major policymaking decisions of the regulated institution.

(d) Troubled condition for a regulated institution means an institution that:

(1) Has a composite rating, as determined in its most recent report of examination or inspection, of 4 or 5 under the Uniform Financial Institutions Rating System or under the Federal Reserve Bank Holding Company Rating System;

(2) Is subject to a cease-and-desist order or formal written agreement that requires action to improve the financial condition of the institution, unless otherwise informed in writing by the Board or Reserve Bank; or

(3) Is informed in writing by the Board or Reserve Bank that it is in troubled condition for purposes of the requirements of this subpart on the basis of the institution’s most recent report of condition or report of examination or inspection, or other information available to the Board or Reserve Bank.

§ 225.72 Director and officer appointments; prior notice requirement.

(a) Prior notice by regulated institution. A regulated institution shall give the Board 30 days’ written notice, as specified in §225.73, before adding or replacing any member of its board of directors, employing any person as a senior executive officer of the institution, or changing the responsibilities of any senior executive officer so that the person would assume a different senior executive officer position, if:

(1) The regulated institution is not in compliance with all minimum capital requirements applicable to the institution as determined on the basis of the institution’s most recent report of condition or report of examination or inspection;

(2) The regulated institution is in troubled condition; or

(3) The Board determines, in connection with its review of a capital restoration plan required under section 38 of the Federal Deposit Insurance Act or subpart B of the Board’s Regulation H, or otherwise, that such notice is appropriate.

(b) Prior notice by individual. The prior notice required by paragraph (a) of this section may be provided by an individual seeking election to the board of directors of a regulated institution.

§ 225.73 Procedures for filing, processing, and acting on notices; standards for disapproval; waiver of notice.

(a) Filing notice—(1) Content. The notice required in §225.72 shall be filed with the appropriate Reserve Bank and shall contain:
§ 225.73

(i) The information required by paragraph 6(A) of the Change in Bank Control Act (12 U.S.C. 1817(j)(6)(A)) as may be prescribed in the designated Board form;

(ii) Additional information consistent with the Federal Financial Institutions Examination Council's Joint Statement of Guidelines on Conducting Background Checks and Change in Control Investigations, as set forth in the designated Board form; and

(iii) Such other information as may be required by the Board or Reserve Bank.

(2) Modification. The Reserve Bank may modify or accept other information in place of the requirements of § 225.73(a)(1) for a notice filed under this subpart.

(3) Acceptance and processing of notice. The 30-day notice period specified in § 225.72 shall begin on the date all information required to be submitted by the notificant pursuant to § 225.73(a)(1) is received by the appropriate Reserve Bank. The Reserve Bank shall notify the regulated institution or individual submitting the notice of the date on which all required information is received and the notice is accepted for processing, and of the date on which the 30-day notice period will expire. The Board or Reserve Bank may extend the 30-day notice period for an additional period of not more than 60 days by notifying the regulated institution or individual filing the notice that the period has been extended and stating the reason for not processing the notice within the 30-day notice period.

(b) Commencement of service—(1) At expiration of period. A proposed director or senior executive officer may begin service after the end of the 30-day period and any extension as provided under paragraph (a)(3) of this section, unless the Board or Reserve Bank disapproves the notice before the end of the period.

(2) Prior to expiration of period. A proposed director or senior executive officer may begin service before the end of the 30-day period and any extension as provided under paragraph (a)(3) of this section, if the Board or the Reserve Bank notifies in writing the regulated institution or individual submitting the notice of the Board's or Reserve Bank's intention not to disapprove the notice.

(c) Notice of disapproval. The Board or Reserve Bank shall disapprove a notice under § 225.72 if the Board or Reserve Bank finds that the competence, experience, character, or integrity of the individual with respect to whom the notice is submitted indicates that it would not be in the best interests of the depositors of the regulated institution or in the best interests of the public to permit the individual to be employed by, or associated with, the regulated institution. The notice of disapproval shall contain a statement of the basis for disapproval and shall be sent to the regulated institution and the disapproved individual.

(d) Appeal of a notice of disapproval. (1) A disapproved individual or a regulated institution that has submitted a notice that is disapproved under this section may appeal the disapproval to the Board within 15 days of the effective date of the notice of disapproval. An appeal shall be in writing and explain the reasons for the appeal and include all facts, documents, and arguments that the appealing party wishes to be considered in the appeal, and state whether the appealing party is requesting an informal hearing.

(2) Written notice of the final decision of the Board shall be sent to the appealing party within 60 days of the receipt of an appeal, unless the appealing party's request for an informal hearing is granted.

(3) The disapproved individual may not serve as a director or senior executive officer of the state member bank or bank holding company while the appeal is pending.

(e) Informal hearing. (1) An individual or regulated institution whose notice under this section has been disapproved may request an informal hearing on the notice. A request for an informal hearing shall be in writing and shall be submitted within 15 days of a notice of disapproval. The Board may, in its sole discretion, order an informal hearing if the Board finds that oral argument is appropriate or necessary to resolve disputes regarding material issues of fact.

(2) An informal hearing shall be held within 30 days of a request, if granted,
Federal Reserve System

§ 225.82 How does a bank holding company elect to become a financial holding company?

(a) Filing requirement. A bank holding company may elect to become a financial holding company by filing a written declaration with the appropriate Reserve Bank. A declaration by a bank holding company to become a financial holding company must be submitted to the Board of Governors within 30 days of the filing of the declaration. The declaration must include the following information:

(1) The name and address of the bank holding company.

(2) The name and address of the regulated institution.

(3) The name and address of the commercial lending company.

(4) The name and address of the wholesale U.S. branches or agencies.

(5) The name and address of the foreign banks.

(6) The name and address of the foreign bank holding companies.

(7) The name and address of the foreign bank subsidiaries.

(b) Approval process. Upon receipt of the declaration, the Board of Governors shall review the declaration to determine whether it meets the requirements of § 225.81. If the declaration meets the requirements, the Board of Governors shall approve the declaration within 30 days of receipt. If the declaration does not meet the requirements, the Board of Governors shall reject the declaration within 30 days of receipt.

(c) Effect of approval. Upon approval of the declaration, the bank holding company becomes a financial holding company and is subject to the provisions of §§ 225.83, 225.84, 225.93, and 225.94.
holding company is considered to be filed on the date that all information required by paragraph (b) of this section is received by the appropriate Reserve Bank.

(b) Contents of declaration. To be deemed complete, a declaration must:

(1) State that the bank holding company elects to be a financial holding company;

(2) Provide the name and head office address of the bank holding company and of each depository institution controlled by the bank holding company;

(3) Certify that each depository institution controlled by the bank holding company is well capitalized as of the date the bank holding company submits its declaration;

(4) Provide the capital ratios as of the close of the previous quarter for all relevant capital measures, as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o), for each depository institution controlled by the company on the date the company submits its declaration; and

(5) Certify that each depository institution controlled by the company is well managed as of the date the company submits its declaration.

(c) Effectiveness of election. An election by a bank holding company to become a financial holding company shall not be effective if, during the period provided in paragraph (e) of this section, the Board finds that, as of the date the declaration was filed with the appropriate Reserve Bank:

(1) Any insured depository institution controlled by the bank holding company (except an institution excluded under paragraph (d) of this section) has not achieved at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the institution’s most recent examination; or

(2) Any depository institution controlled by the bank holding company is not both well capitalized and well managed.

(d) Consideration of the CRA performance of a recently acquired insured depository institution. Except as provided in paragraph (f) of this section, an insured depository institution will be excluded for purposes of the review of the Community Reinvestment Act rating provisions of paragraph (c)(1) of this section if:

(1) The bank holding company acquired the insured depository institution during the 12-month period preceding the filing of an election under paragraph (a) of this section;

(2) The bank holding company has submitted an affirmative plan to the appropriate Federal banking agency for the institution to take actions necessary for the institution to achieve at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the next examination of the institution; and

(3) The appropriate Federal banking agency for the institution has accepted the plan described in paragraph (d)(2) of this section.

(e) Effective date of election—(1) In general. An election filed by a bank holding company under paragraph (a) of this section is effective on the 31st calendar day after the date that a complete declaration was filed with the appropriate Reserve Bank, unless the Board notifies the bank holding company prior to that time that the election is ineffective.

(2) Earlier notification that an election is effective. The Board or the appropriate Reserve Bank may notify a bank holding company that its election to become a financial holding company is effective prior to the 31st day after the date that a complete declaration was filed with the appropriate Reserve Bank. Such a notification must be in writing.

(f) Requests to become a financial holding company submitted as part of an application to become a bank holding company—(1) In general. A company that is not a bank holding company and has applied for the Board’s approval to become a bank holding company under section 3(a)(1) of the BHC Act (12 U.S.C. 1842(a)(1)) may as part of that application submit a request to become a financial holding company.

(2) Contents of request. A request to become a financial holding company submitted as part of an application to become a bank holding company must:

(i) State that the company seeks to become a financial holding company on
§ 225.83 What are the consequences of failing to continue to meet applicable capital and management requirements?

(a) Notice by the Board. If the Board finds that a financial holding company controls any depository institution that is not well capitalized or well managed, the Board will notify the company in writing that it is not in compliance with the applicable requirements for a financial holding company and identify the area(s) of noncompliance. The Board may provide this notice at any time before or after receiving notice from the financial holding company under paragraph (b) of this section.

(b) Notification by a financial holding company required—(1) Notice to Board. A financial holding company must notify the Board in writing within 15 calendar days of becoming aware that any depository institution controlled by the company has ceased to be well capitalized or well managed. This notification must identify the depository institution involved and the area(s) of noncompliance.

(ii) Well capitalized. A company becomes aware that a depository institution it controls is no longer well capitalized upon the occurrence of any material event that would change the category assigned to the institution for purposes of section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o). See 12 CFR 6.3(b)–(c), 208.42(b)–(c), and 325.102(b)–(c).

(ii) Well managed. A company becomes aware that a depository institution it controls is no longer well managed at the time the depository institution receives written notice from the appropriate Federal or state banking agency that either its composite rating or its rating for management is not at least satisfactory.

(c) Execution of agreement acceptable to the Board—(1) Agreement required; time period. Within 45 days after receiving a
§ 225.84

What are the consequences of failing to maintain a satisfactory or better rating under the Community Reinvestment Act at all insured depository institution subsidiaries?

(a) Limitations on activities—(1) In general. Upon receiving a notice regarding performance under the Community Reinvestment Act in accordance with paragraph (a)(2) of this section, a financial holding company may not:
   (i) Commence any additional activity under section 4(k) or 4(n) of the BHC Act (12 U.S.C. 1843(k) or (n)); or
   (ii) Directly or indirectly acquire control, including all or substantially all of the assets, of a company engaged in any activity under section 4(k) or 4(n) of the BHC Act (12 U.S.C. 1843(k) or (n)).

(2) Notification. A financial holding company receives notice for purposes of this paragraph at the time that the appropriate Federal banking agency for any insured depository institution controlled by the company or the Board provides notice to the institution or company that the institution has received a rating of “needs to improve record or meeting community credit needs” or “substantial noncompliance in meeting community credit needs” in the institution’s most recent examination under the Community Reinvestment Act.

(b) Exceptions for certain activities—(1) Continuation of investment activities. The
§ 225.85  Is notice to or approval from the Board required prior to engaging in a financial activity?

(a) No prior approval required generally—(1) In general. A financial holding company and any subsidiary (other than a depository institution or subsidiary of a depository institution) of the financial holding company may engage in any activity listed in §225.86, or acquire shares or control of a company engaged exclusively in activities listed in §225.86, without providing prior notice to or obtaining prior approval from the Board unless required under paragraph (c) of this section.

(2) Acquisitions by a financial holding company of a company engaged in other permissible activities. In addition to the activities listed in §225.86, a company acquired or to be acquired by a financial holding company under paragraph (a)(1) of this section may engage in activities otherwise permissible for a financial holding company under this part in accordance with any applicable notice, approval, or other requirement.

(3) Acquisition by a financial holding company of a company engaged in limited nonfinancial activities—(1) Mixed acquisitions generally permitted. A financial holding company may under this subpart acquire more than 5 percent of the outstanding shares of any class of voting securities or control of a company that is not engaged exclusively in activities that are financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) of the BHC Act (12 U.S.C. 1843(c)) if:

(A) The company to be acquired is substantially engaged in activities that are financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) of the BHC Act (12 U.S.C. 1843(c));

(B) The financial holding company complies with the notice requirements of §225.87, if applicable; and

(C) The company conforms, terminates, or divests, within 2 years of the date the financial holding company acquires shares or control of the company, all activities that are not financial in nature, incidental to a financial activity, or otherwise permissible for the financial holding company under section 4(c) (12 U.S.C. 1843(c)) of the BHC Act.

(b) Notice to or approval from the Board required under paragraph (a) of this section does not prevent a financial holding company from continuing to make investments in the ordinary course of conducting merchant banking activities under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)) or insurance company investment activities under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) if:

(i) The financial holding company lawfully was a financial holding company and commenced the merchant banking activity under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)) or the insurance company investment activity under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) prior to the time that an insured depository institution controlled by the financial holding company received a rating below “satisfactory record of meeting community credit needs” under the Community Reinvestment Act; and

(ii) The Board has not, in the exercise of its supervisory authority, advised the financial holding company that these activities must be restricted.

(2) Activities that are closely related to banking. The prohibition in paragraph (a) of this section does not prevent a financial holding company from commencing any additional activity or acquiring control of a company engaged in any activity under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)) or the insurance company investment activity under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)) prior to the time that an insured depository institution controlled by the financial holding company received a rating below “satisfactory record of meeting community credit needs” under the Community Reinvestment Act; and

(3) Duration of prohibitions. The prohibitions described in paragraph (a) of this section shall continue in effect until such time as each insured depository institution controlled by the financial holding company has achieved at least a rating of “satisfactory record of meeting community credit needs” under the Community Reinvestment Act at the most recent examination of the institution.
activities permissible for a financial holding company for purposes of paragraph (a)(3)(A) of this section if at least 85 percent of the company’s consolidated total annual gross revenues is derived from and at least 85 percent of the company’s consolidated total assets is attributable to the conduct of activities that are financial in nature, incidental to a financial activity, or otherwise permissible for a financial holding company under section 4(c) of the BHC Act (12 U.S.C. 1843(c)).

(b) Locations in which a financial holding company may conduct financial activities. A financial holding company may conduct any activity listed in §225.86 at any location in the United States or at any location outside of the United States subject to the laws of the jurisdiction in which the activity is conducted.

(c) Circumstances under which prior notice to the Board is required—(1) Acquisition of more than 5 percent of the shares of a savings association. A financial holding company must obtain Board approval in accordance with section 4(j) of the BHC Act (12 U.S.C. 1843(j)) and either §225.14 or §225.24, as appropriate, prior to acquiring control or more than 5 percent of the outstanding shares of any class of voting securities of a savings association or of a company that owns, operates, or controls a savings association.

(2) Supervisory actions. The Board may, if appropriate in the exercise of its supervisory or other authority, including under §225.82(g) or §225.83(d) or other relevant authority, require a financial holding company to provide notice to or obtain approval from the Board prior to engaging in any activity or acquiring shares or control of any company.

§225.86 What activities are permissible for any financial holding company?
The following activities are financial in nature or incidental to a financial activity:

(a) Activities determined to be closely related to banking. (1) Any activity that the Board had determined by regulation prior to November 12, 1999, to be so closely related to banking as to be a proper incident thereto, subject to the terms and conditions contained in this part, unless modified by the Board. These activities are listed in §225.28.

(2) Any activity that the Board had determined by an order that was in effect on November 12, 1999, to be so closely related to banking as to be a proper incident thereto, subject to the terms and conditions contained in this part and those in the authorizing orders. These activities are:

(i) Providing administrative and other services to mutual funds (Societe Generale, 84 Federal Reserve Bulletin 680 (1998));

(iii) Acting as a certification authority for digital signatures and authenticating the identity of persons conducting financial and nonfinancial transactions (Bayerische Hypo- und Vereinsbank AG, et al., 86 Federal Reserve Bulletin 56 (2000));

(iv) Providing employment histories to third parties for use in making credit decisions and to depository institutions and their affiliates for use in the ordinary course of business (Norwest Corporation, 81 Federal Reserve Bulletin 732 (1995));

(vi) In connection with offering banking services, providing notary public services, selling postage stamps and postage-paid envelopes, providing vehicle registration services, and selling public transportation tickets and tokens (Popular, Inc., 84 Federal Reserve Bulletin 481 (1998)); and

(vii) Real estate title abstracting (The First National Company, 81 Federal Reserve Bulletin 806 (1995)).

(b) Activities determined to be usual in connection with the transaction of banking abroad. Any activity that the Board had determined by regulation in effect on November 11, 1999, to be usual in connection with the transaction of banking or other financial operations abroad (see §211.5(d) of this chapter), subject to the terms and conditions in...
225.86

part 211 and Board interpretations in effect on that date regarding the scope and conduct of the activity. In addition to the activities listed in paragraphs (a) and (c) of this section, these activities are:

(1) Providing management consulting services, including to any person with respect to nonfinancial matters, so long as the management consulting services are advisory and do not allow the financial holding company to control the person to which the services are provided;

(2) Operating a travel agency in connection with financial services offered by the financial holding company or others; and

(3) Organizing, sponsoring, and managing a mutual fund, so long as:

(i) The fund does not exercise managerial control over the entities in which the fund invests; and

(ii) The financial holding company reduces its ownership in the fund, if any, to less than 25 percent of the equity of the fund within one year of sponsoring the fund or such additional period as the Board permits.

(c) Activities permitted under section 4(k)(4) of the BHC Act (12 U.S.C. 1843(k)(4)). Any activity defined to be financial in nature under sections 4(k)(4)(A) through (E), (H) and (I) of the BHC Act (12 U.S.C. 1843(k)(4)(A) through (E), (H) and (I)).

(d) Activities determined to be financial in nature or incidental to financial activities by the Board—(1) Acting as a finder—Acting as a finder in bringing together one or more buyers and sellers of any product or service for transactions that the parties themselves negotiate and consummate.

(i) What is the scope of finder activities? Acting as a finder includes providing any or all of the following services through any means—

(A) Identifying potential parties, making inquiries as to interest, introducing and referring potential parties to each other, and arranging contacts between and meetings of interested parties;

(B) Conveying between interested parties expressions of interest, bids, offers, orders and confirmations relating to a transaction; and

(C) Transmitting information concerning products and services to potential parties in connection with the activities described in paragraphs (d)(1)(i)(A) and (B) of this section.

(ii) What are some examples of finder services? The following are examples of the services that may be provided by a finder when done in accordance with paragraphs (d)(1)(i)(iii) and (iv) of this section. These examples are not exclusive.

(A) Hosting an electronic marketplace on the financial holding company’s Internet web site by providing hypertext or similar links to the web sites of third party buyers or sellers.

(B) Hosting on the financial holding company’s servers the Internet web site of—

(i) A buyer (or seller) that provides information concerning the buyer (or seller) and the products or services it seeks to buy (or sell) and allows sellers (or buyers) to submit expressions of interest, bids, offers, orders and confirmations relating to such products or services; or

(ii) A government or government agency that provides information concerning the services or benefits made available by the government or government agency, assists persons in completing applications to receive such services or benefits from the government or agency, and allows persons to transmit their applications for services or benefits to the government or agency.

(C) Operating an Internet web site that allows multiple buyers and sellers to exchange information concerning the products and services that they are willing to purchase or sell, locate potential counterparties for transactions, aggregate orders for goods or services with those made by other parties, and enter into transactions between themselves.

(D) Operating a telephone call center that provides permissible finder services.

(iii) What limitations are applicable to a financial holding company acting as a finder? (A) A finder may act only as an intermediary between a buyer and a seller.

(B) A finder may not bind any buyer or seller to the terms of a specific
transaction or negotiate the terms of a specific transaction on behalf of a buyer or seller, except that a finder may—

(1) Arrange for buyers to receive preferred terms from sellers so long as the terms are not negotiated as part of any individual transaction, are provided generally to customers or broad categories of customers, and are made available by the seller (and not by the financial holding company); and

(2) Establish rules of general applicability governing the use and operation of the finder service, including rules that—

(i) Govern the submission of bids and offers by buyers and sellers that use the finder service and the circumstances under which the finder service will match bids and offers submitted by buyers and sellers; and

(ii) Govern the manner in which buyers and sellers may bind themselves to the terms of a specific transaction.

(C) A finder may not—

(1) Take title to or acquire or hold an ownership interest in any product or service offered or sold through the finder service;

(2) Provide distribution services for physical products or services offered or sold through the finder service;

(3) Own or operate any real or personal property that is used for the purpose of manufacturing, storing, transporting, or assembling physical products offered or sold by third parties; or

(4) Own or operate any real or personal property that serves as a physical location for the physical purchase, sale or distribution of products or services offered or sold by third parties.

(D) A finder may not engage in any activity that would require the company to register or obtain a license as a real estate agent or broker under applicable law.

(iv) What disclosures are required? A finder must distinguish the products and services offered by the financial holding company from those offered by a third party through the finder service.

(2) [Reserved]

(e) Activities permitted under section 4(k)(3) of the Bank Holding Company Act (12 U.S.C. 1843(k)(3)). (1) The following types of activities are financial in nature or incidental to a financial activity when conducted pursuant to a determination by the Board under paragraph (e)(2) of this section:

(i) Lending, exchanging, transferring, investing for others, or safeguarding financial assets other than money or securities;

(ii) Providing any device or other instrumentality for transferring money or other financial assets; and

(iii) Arranging, effecting, or facilitating financial transactions for the account of third parties.

(2) Review of specific activities—(i) Is a specific request required? A financial holding company that wishes to engage on the basis of paragraph (e)(1) of this section in an activity that is not otherwise permissible for a financial holding company must obtain a determination from the Board that the activity is permitted under paragraph (e)(1).

(ii) Consultation with the Secretary of the Treasury. After receiving a request under this section, the Board will provide the Secretary of the Treasury with a copy of the request and consult with the Secretary in accordance with section 4(k)(2)(A) of the Bank Holding Company Act (12 U.S.C. 1843(k)(2)(A)).

(iii) Board action on requests. After consultation with the Secretary, the Board will promptly make a written determination regarding whether the specific activity described in the request is included in an activity category listed in paragraph (e)(1) of this section and is therefore either financial in nature or incidental to a financial activity.

(3) What factors will the Board consider? In evaluating a request made under this section, the Board will take into account the factors listed in section 4(k)(3) of the BHC Act (12 U.S.C. 1843(k)(3)) that it must consider when determining whether an activity is financial in nature or incidental to a financial activity.

(4) What information must the request contain? Any request by a financial holding company under this section must be in writing and must:

(i) Identify and define the activity for which the determination is sought, specifically describing what the activity would involve and how the activity would be conducted; and
(i) Provide information supporting the requested determination, including information regarding how the proposed activity falls into one of the categories listed in paragraph (e)(1) of this section, and any other information required by the Board concerning the proposed activity.

§ 225.87 Is notice to the Board required after engaging in a financial activity?

(a) Post-transaction notice generally required to engage in a financial activity. A financial holding company that commences an activity or acquires shares of a company engaged in an activity listed in § 225.86 must notify the appropriate Reserve Bank in writing within 30 calendar days after commencing the activity or consummating the acquisition by using the appropriate form.

(b) Cases in which notice to the Board is not required—(1) Acquisitions that do not involve control of a company. A notice under paragraph (a) of this section is not required in connection with the acquisition of shares of a company if, following the acquisition, the financial holding company does not control the company.

(2) No additional notice required to engage de novo in an activity for which a financial holding company already has provided notice. After a financial holding company provides the appropriate Reserve Bank with notice that the company is engaged in an activity listed in § 225.86, a financial holding company may, unless otherwise notified by the Board, commence the activity de novo through any subsidiary that the financial holding company is authorized to control without providing additional notice under paragraph (a) of this section.

(3) Conduct of certain investment activities. Unless required by paragraph (b)(4) of this section, a financial holding company is not required to provide notice under paragraph (a) of this section of any individual acquisition of shares of a company as part of the conduct by a financial holding company of securities underwriting, dealing, or market making activities as described in section 4(k)(4)(E) of the BHC Act (12 U.S.C. 1843(k)(4)(E)), merchant banking activities conducted pursuant to section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)), or insurance company investment activities conducted pursuant to section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)), if the financial holding company has not previously notified the Board under paragraph (a) of this section that the company has commenced the relevant securities, merchant banking, or insurance company investment activities, as relevant.

(4) Notice of large merchant banking or insurance company investments. Notwithstanding paragraph (b)(1) or (b)(3) of this section, a financial holding company must provide notice under paragraph (a) of the section if:

(i) As part of a merchant banking activity conducted under section 4(k)(4)(H) of the BHC Act (12 U.S.C. 1843(k)(4)(H)), the financial holding company acquires more than 5 percent of the shares, assets, or ownership interests of any company at a total cost that exceeds the lesser of 5 percent of the financial holding company’s Tier 1 capital or $200 million;

(ii) As part of an insurance company investment activity conducted under section 4(k)(4)(I) of the BHC Act (12 U.S.C. 1843(k)(4)(I)), the financial holding company acquires more than 5 percent of the shares, assets, or ownership interests of any company at a total cost that exceeds the lesser of 5 percent of the financial holding company’s Tier 1 capital or $200 million; or

(iii) The Board in the exercise of its supervisory authority notifies the financial holding company that a notice is necessary.

§ 225.88 How to request the Board to determine that an activity is financial in nature or incidental to a financial activity?

(a) Requests regarding activities that may be financial in nature or incidental to a financial activity. A financial holding company or other interested party may request a determination from the Board that an activity not listed in § 225.86 is financial in nature or incidental to a financial activity.
(b) Required information. A request submitted under this section must be in writing and must:

(1) Identify and define the activity for which the determination is sought, specifically describing what the activity would involve and how the activity would be conducted;

(2) Explain in detail why the activity should be considered financial in nature or incidental to a financial activity; and

(3) Provide information supporting the requested determination and any other information required by the Board concerning the proposed activity.

c) Board procedures for reviewing requests—(1) Consultation with the Secretary of the Treasury. Upon receipt of the request, the Board will provide the Secretary of the Treasury a copy of the request and consult with the Secretary in accordance with section 4(k)(2)(A) of the BHC Act (12 U.S.C. 1843(k)(2)(A)).

(2) Public notice. The Board may, as appropriate and after consultation with the Secretary, publish a description of the proposal in the FEDERAL REGISTER with a request for public comment.

d) Board action. The Board will endeavor to make a decision on any request filed under paragraph (a) of this section within 60 calendar days following the completion of both the consultative process described in paragraph (c)(1) of this section and the public comment period, if any.

e) Advisory opinions regarding scope of financial activities—(1) Written request. A financial holding company or other interested party may request an advisory opinion from the Board about whether a specific proposed activity falls within the scope of an activity listed in §225.86 as financial in nature or incidental to a financial activity. The request must be submitted in writing and must contain:

(i) A detailed description of the particular activity in which the company proposes to engage or the product or service the company proposes to provide;

(ii) An explanation supporting an interpretation regarding the scope of the permissible financial activity; and

(iii) Any additional information requested by the Board regarding the activity.

(2) Board response. The Board will provide an advisory opinion within 45 calendar days of receiving a complete written request under paragraph (e)(1) of this section.

§225.89 How to request approval to engage in an activity that is complementary to a financial activity?

(a) Prior Board approval is required. A financial holding company that seeks to engage in or acquire more than 5 percent of the outstanding shares of any class of voting securities of a company engaged in an activity that the financial holding company believes is complementary to a financial activity must obtain prior approval from the Board in accordance with section 4(j) of the BHC Act (12 U.S.C. 1843(j)). The notice must be in writing and must:

(1) Identify and define the proposed complementary activity, specifically describing what the activity would involve and how the activity would be conducted;

(2) Identify the financial activity for which the proposed activity would be complementary and provide detailed information sufficient to support a finding that the proposed activity should be considered complementary to the identified financial activity;

(3) Describe the scope and relative size of the proposed activity, as measured by the percentage of the projected financial holding company revenues expected to be derived from and assets associated with conducting the activity;

(4) Discuss the risks that conducting the activity may reasonably be expected to pose to the safety and soundness of the subsidiary depository institutions of the financial holding company and to the financial system generally;

(5) Describe the potential adverse effects, including potential conflicts of interest, decreased or unfair competition, or other risks, that conducting the activity could raise, and explain the measures the financial holding company proposes to take to address those potential effects;
(6) Describe the potential benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that the proposal reasonably can be expected to produce; and

(7) Provide any information about the financial and managerial resources of the financial holding company and any other information requested by the Board.

(b) Factors for consideration by the Board. In evaluating a notice to engage in a complementary activity, the Board must consider whether:

(1) The proposed activity is complementary to a financial activity;

(2) The proposed activity would pose a substantial risk to the safety or soundness of depository institutions or the financial system generally; and

(3) The proposal could be expected to produce benefits to the public that outweigh possible adverse effects.

(c) Board action. The Board will inform the financial holding company in writing of the Board’s determination regarding the proposed activity within the period described in section 4(j) of the BHC Act (12 U.S.C. 1843(j)).

§ 225.90 What are the requirements for a foreign bank to be treated as a financial holding company?

(a) Foreign banks as financial holding companies. A foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States, and any company that owns or controls such a foreign bank, will be treated as a financial holding company if:

(1) The foreign bank, any other foreign bank that maintains a U.S. branch, agency, or commercial lending company in the United States, and any company that owns or controls such a foreign bank, will be treated as a financial holding company if:

(1)(i) Its home country supervisor, as defined in §211.21 of the Board’s Regulation K (12 CFR 211.21), has adopted risk-based capital standards consistent with the Capital Accord of the Basel Committee on Banking Supervision (Basel Accord);

(ii) The foreign bank maintains a Tier 1 capital to total risk-based assets ratio of 6 percent and a total capital to total risk-based assets ratio of 10 percent, as calculated under its home country standard; and

(iii) The foreign bank’s capital is comparable to the capital required for a U.S. bank owned by a financial holding company; or

(2) The foreign bank has obtained a determination from the Board under §225.91(c) that the foreign bank’s capital is otherwise comparable to the capital that would be required of a U.S. bank owned by a financial holding company.

(c) Standards for “well capitalized.” A foreign bank will be considered “well capitalized” if:

(1) Its home country supervisor, as defined in §211.21 of the Board’s Regulation K (12 CFR 211.21), has adopted risk-based capital standards consistent with the Capital Accord of the Basel Committee on Banking Supervision (Basel Accord);

(2) The foreign bank has obtained a determination from the Board under §225.91(c) that the foreign bank’s capital is otherwise comparable to the capital that would be required of a U.S. bank owned by a financial holding company.

(3) The management of the foreign bank meets standards comparable to those required of a U.S. bank owned by a financial holding company.

§ 225.91 How may a foreign bank elect to be treated as a financial holding company?

(a) Filing requirement. A foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States, or a company that owns or controls such a foreign bank, may elect to be treated as a financial holding company by filing a written declaration with the appropriate Reserve Bank.

(b) Contents of declaration. The declaration must:
§ 225.92  How does an election by a foreign bank become effective?

(a) In general. An election described in §225.91 is effective on the 31st day after the date that an election was received by the appropriate Federal Reserve Bank, unless the Board notifies the foreign bank or company prior to that time that:

1. The election is ineffective; or
2. The period is extended with the consent of the foreign bank or company making the election.

(b) Earlier notification that an election is effective. The Board or the appropriate Federal Reserve Bank may notify a foreign bank or company that its election to be treated as a financial holding company is effective prior to the 31st day after the election was filed if the election to be treated as a financial holding company is effective prior to the 31st day after the election was filed with the appropriate Federal Reserve Bank. Such notification must be in writing.

(c) Under what circumstances will the Board find an election to be ineffective? An election to be treated as a financial holding company shall not be effective if, during the period provided in paragraph (a) of this section, the Board finds that:

1. The foreign bank certificant, or any foreign bank that operates a branch or agency or owns or controls a commercial lending company in the United States and is controlled by a foreign bank or company certificant, is not both well capitalized and well managed;
2. Any U.S. insured depository institution subsidiary of the foreign bank or company (except an institution excluded under paragraph (d) of this section) or any U.S. branch of a foreign bank that is insured by the Federal Deposit Insurance Corporation has not achieved at least a rating of “satisfactory record of meeting community needs” under the Community Reinvestment Act at the institution’s most recent examination;
3. Any U.S. depository institution subsidiary of the foreign bank or company is not both well capitalized and well managed; or

§ 225.92  How does an election by a foreign bank become effective?

1. State that the foreign bank or the company elects to be treated as a financial holding company;
2. Provide the risk-based capital ratios and amount of Tier 1 capital and total assets of the foreign bank, and of each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, as of the close of the most recent quarter and as of the close of the most recent audited reporting period;
3. Certify that the foreign bank, and each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, meets the standards of well capitalized set out in §225.90(b)(1)(i) and (ii) or §225.90(b)(2) as of the date the foreign bank or company files its election;
4. Certify that the foreign bank, and each foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, is well managed as defined in §225.90(c)(1) as of the date the foreign bank or company files its election;
5. Certify that all U.S. depository institution subsidiaries of the foreign bank or company are well capitalized and well managed as of the date the foreign bank or company files its election; and
6. Provide the capital ratios for all relevant capital measures (as defined in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831(o))) as of the close of the previous quarter for each U.S. depository institution subsidiary of the foreign bank or company.

(c) Pre-clearance process. Before filing an election to be treated as a financial holding company, a foreign bank or company may file a request for review of its qualifications to be treated as a financial holding company. The Board will endeavor to make a determination on such requests within 30 days of receipt. A foreign bank that has not been found, or that is chartered in a country where no bank from that country has been found, by the Board under the Bank Holding Company Act or the International Banking Act to be subject to comprehensive supervision or regulation on a consolidated basis by its home country supervisor is required to use this process.
§ 225.93 What are the consequences of a foreign bank failing to continue to meet applicable capital and management requirements?

(a) Notice by the Board. If a foreign bank or company has made an effective election to be treated as a financial holding company under this subpart and the Board finds that the foreign bank, any foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, or any U.S. depository institution subsidiary controlled by the foreign bank or company, ceases to be well capitalized or well managed, the Board will notify the foreign bank and company, if any, in writing that it is not in compliance with the applicable requirement(s) for a financial holding company and identify the areas of noncompliance.

(b) Notification by a financial holding company required—(1) Notice to Board. Promptly upon becoming aware that the foreign bank, any foreign bank that maintains a U.S. branch, agency, or commercial lending company and is controlled by the foreign bank or company, or any U.S. depository institution subsidiary of the foreign bank or company, has ceased to be well capitalized or well managed, the foreign bank and company, if any, must notify the Board and identify the area of noncompliance.

(2) Triggering events for notice to the Board—(i) Well capitalized. A foreign bank becomes aware that it is no longer well capitalized at the time that the foreign bank or company is required to file a report of condition (or similar supervisory report) with its home country supervisor or the appropriate Federal Reserve Bank that indicates that the foreign bank no longer meets the well capitalized standards.

(ii) Well managed. A foreign bank becomes aware that it is no longer well managed at the time that the foreign bank receives written notice from the appropriate Federal Reserve Bank that the composite rating of its U.S. branch, agency, and commercial lending company operations is not at least satisfactory.

(c) Execution of agreement acceptable to the Board—(1) Agreement required; time period. Within 45 days after receiving a
notice under paragraph (a) of this section, the foreign bank or company must execute an agreement acceptable to the Board to comply with all applicable capital and management requirements.

(2) Extension of time for executing agreement. Upon request by the foreign bank or company, the Board may extend the 45-day period under paragraph (c)(1) of this section if the Board determines that granting additional time is appropriate under the circumstances. A request by a foreign bank or company for additional time must include an explanation of why an extension is necessary.

(3) Agreement requirements. An agreement required by paragraph (c)(1) of this section to correct a capital or management deficiency must:

(i) Explain the specific actions that the foreign bank or company will take to correct all areas of noncompliance;

(ii) Provide a schedule within which each action will be taken;

(iii) Provide any other information that the Board may require; and

(iv) Be acceptable to the Board.

(d) Limitations during period of noncompliance—Until the Board determines that a foreign bank or company has corrected the conditions described in a notice under paragraph (a) of this section:

(1) The Board may impose any limitations or conditions on the conduct or the U.S. activities of the foreign bank or company or any of its affiliates as the Board finds to be appropriate and consistent with the purposes of the Bank Holding Company Act; and

(2) The foreign bank or company and its affiliates may not commence any additional activity in the United States or acquire control or shares of any company under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1843(k)) without prior approval from the Board.

(e) Consequences of failure to correct conditions within 180 days—(1) Termination of Offices and Divestiture. If a foreign bank or company does not correct the conditions described in a notice under paragraph (a) of this section within 180 days of the notice or such additional time as the Board may permit, the Board may order the foreign bank or company to terminate the foreign bank’s U.S. branches and agencies and divest any commercial lending companies owned or controlled by the foreign bank or company. Such divestiture must be done in accordance with the terms and conditions established by the Board.

(f) Alternative method of complying with a divestiture order. A foreign bank or company may comply with an order issued under paragraph (e)(1) of this section by ceasing to engage (both directly and through any subsidiary that is not a depository institution or a subsidiary of a depository institution) in any activity that may be conducted only under section 4(k), (n), or (o) of the BHC Act (12 U.S.C. 1843(k), (n) and (o)). The termination of activities must be completed within the time period referred to in paragraph (e)(1) of this section and subject to terms and conditions acceptable to the Board.

(f) Consultation with Other Agencies. In taking any action under this section, the Board will consult with the relevant Federal and state regulatory authorities and the appropriate home country supervisor(s) of the foreign bank.

§ 225.94 What are the consequences of an insured branch or depository institution failing to maintain a satisfactory or better rating under the Community Reinvestment Act?

(a) Insured branch as an “insured depository institution.” A U.S. branch of a foreign bank that is insured by the Federal Deposit Insurance Corporation shall be treated as an “insured depository institution” for purposes of § 225.84.

(b) Applicability. The provisions of § 225.84, with the modifications contained in this section, shall apply to a foreign bank that operates an insured branch referred to in paragraph (a) of this section or an insured depository institution in the United States, and any company that owns or controls such a foreign bank, that has made an effective election under § 225.92 in the same manner and to the same extent as they apply to a financial holding company.
§ 225.101 Bank holding company’s subsidiary banks owning shares of nonbanking companies.

(a) The Board’s opinion has been requested on the following related matters under the Bank Holding Company Act of 1956.

(b) The question is raised as to whether shares in a nonbanking company which were acquired by a banking subsidiary of the bank holding company many years ago when their acquisition was lawful and are now held as investments, and which do not include more than 5 percent of the outstanding voting securities of such nonbanking company and do not have a value greater than 5 percent of the value of the bank holding company’s total assets, are exempted from the divestment requirements of the Act by the provisions of section 4(c)(5) of the Act.

(c) In the Board’s opinion, this exemption is as applicable to such shares when held by a banking subsidiary of a bank holding company as when held directly by the bank holding company itself. While the exemption specifically refers only to shares held or acquired by the bank holding company, the prohibition of the Act against retention of nonbanking interests applies to indirect as well as direct ownership of shares of a nonbanking company, and, in the absence of a clear mandate to the contrary, any exception to this prohibition should be given equal breadth with the prohibition. Any other interpretation would lead to unwarranted results.

(d) Although certain of the other exemptions in section 4(c) of the Act specifically refer to shares held or acquired by banking subsidiaries, an analysis of those exemptions suggests that such specific reference to banking subsidiaries was for the purpose of excluding nonbanking subsidiaries from such exemptions, rather than for the purpose of providing an inclusionary emphasis on banking subsidiaries.

(e) It should be noted that the Board’s view as to this question should not be interpreted as meaning that each banking subsidiary could own up to 5 percent of the stock of the same nonbanking organization. In the

(f) Secondly, question is raised as to whether shares in a nonbanking company acquired in satisfaction of debts previously contracted (d.p.c.) by a banking subsidiary of the bank holding company may be retained if such shares meet the conditions contained in section 4(c)(5) as to value and amount, notwithstanding the requirement of section 4(c)(2) that shares acquired d.p.c. be disposed of within two years after the date of their acquisition or the date of the Act, whichever is later. In the Board’s opinion, the 5 percent exemption provided by section 4(c)(5) covers any shares, including shares acquired d.p.c., that meet the conditions set forth in that exemption, and, consequently, d.p.c. shares held by a banking subsidiary of a bank holding company which meet such conditions are not subject to the two-year disposition requirement prescribed by section 4(c)(2), although any such shares would, of course, continue to be subject to such requirement for disposition as may be prescribed by provisions of any applicable banking laws or by the appropriate bank supervisory authorities.

(g) Finally, question is raised as to whether shares held by banking subsidiaries of the bank holding company in companies holding bank premises of such subsidiaries are exempted from the divestment requirements by section 4(c)(1) of the Act. It is the Board’s view that section 4(c)(1), exempting shares owned or acquired by a bank holding company in any company engaged solely in holding or operating properties used wholly or substantially by any subsidiary bank, is to be read and interpreted, like section 4(c)(5), as applying to shares owned indirectly by a bank holding company through a banking subsidiary as well as to shares held directly by the bank holding company. A contrary interpretation would impair the right that member banks controlled by bank holding companies would otherwise have to invest, subject to the limitations of section 24A of the
§ 225.102 Bank holding company indirectly owning nonbanking company through subsidiaries.

(a) The Board of Governors has been requested for an opinion regarding the exemptions contained in section 4(c)(5) of the Bank Holding Company Act of 1956. It is stated that Y Company is an investment company which is not a bank holding company and which is not engaged in any business other than investing in securities, which securities do not include more than 5 percent of the outstanding voting securities of any company and do not include any asset having a value greater than 5 percent of the value of the total assets of X Corporation, a bank holding company. It is stated that direct ownership by X Corporation of voting shares of Y Company would be exempt by reason of section 4(c)(5) from the prohibition of section 4 of the Act against ownership by bank holding companies of nonbanking assets.

(b) It was asked whether it makes any difference that the shares of Y Company are not owned directly by X Corporation but instead are owned through Subsidiaries A and B. X Corporation owns all the voting shares of Subsidiary A, which owns one-half of the voting shares of Subsidiary B. Subsidiaries A and B each own one-third of the voting shares of Y Company.

(c) Section 4(c)(5) is divided into two parts. The first part exempts the ownership of securities of nonbanking companies when the securities do not include more than 5 percent of the voting securities of the nonbanking company and do not have a value greater than 5 percent of the value of the total assets of the bank holding company. The second part exempts the ownership of securities of an investment company which is not a bank holding company and is not engaged in any business other than investing in securities, provided the securities held by the invest-

§ 225.103 Bank holding company acquiring stock by dividends, stock splits or exercise of rights.

(a) The Board of Governors has been asked whether a bank holding company may receive bank stock dividends or participate in bank stock splits without the Board’s prior approval, and whether such a company may exercise, without the Board’s prior approval, rights to subscribe to new stock issued by banks in which the holding company already owns stock.

(b) Neither a stock dividend nor a stock split results in any change in a stockholder’s proportional interest in the issuing company or any increase in the assets of that company. Such a transaction would have no effect upon the extent of a holding company’s control of the bank involved; and none of the five factors required by the Bank Holding Company Act to be considered...
by the Board in approving a stock acquisition would seem to have any application. In view of the objectives and purposes of the act, the word “acquire” would not seem reasonably to include transactions of this kind.

(c) On the other hand, the exercise by a bank holding company of the right to subscribe to an issue of additional stock of a bank could result in an increase in the holding company’s proportional interest in the bank. The holding company would voluntarily pay additional funds for the extra shares and would “acquire” the additional stock even under a narrow meaning of that term. Moreover, the exercise of such rights would cause the assets of the issuing company to be increased and in a sense, therefore, the “size or extent” of the bank holding company system would be expanded.

(d) In the circumstances, it is the Board’s opinion that receipt of bank stock by means of a stock dividend or stock split, assuming no change in the class of stock, does not require the Board’s prior approval under the act, but that purchase of bank stock by a bank holding company through the exercise of rights does require the Board’s prior approval, unless one of the exceptions set forth in section 3(a) is applicable.

[22 FR 7461, Sept. 19, 1957. Redesignated at 36 FR 21666, Nov. 12, 1971]

§ 225.104 “Services” under section 4(c)(1) of Bank Holding Company Act.

(a) Section 4(c)(1) of the Bank Holding Company Act, among other things, exempts from the nonbanking divestment requirements of section 4(a) of the Act shares of a company engaged “solely in the business of furnishing services to or performing services for” its bank holding company or subsidiary banks thereof.

(b) The Board of Governors has had occasion to express opinions as to whether this section of law applies to the following two sets of facts:

(1) In the first case, Corporation X, a nonbanking subsidiary of a bank holding company (Holding Company A), was engaged in the business of purchasing installment paper suitable for investment by banking subsidiaries of Holding Company A. All installment paper purchased by Corporation X was sold by it to a bank which is a subsidiary of Holding Company A, without recourse, at a price equal to the cost of the installment paper to Corporation X, and with compensation to the latter based on the earnings from such paper remaining after certain reserves, expenses and charges. The subsidiary bank sold participations in such installment paper to the other affiliated banks of Holding Company A which desired to participate. Purchases by Corporation X consisted mainly of paper insured under Title I of the National Housing Act and, in addition, Corporation X purchased time payment contracts covering sales of appliances by dealers under contractual arrangements with utilities, as well as paper covering home improvements which was not insured. Pursuant to certain service agreements, Corporation X made all collections, enforced guaranties, filed claims under Title I insurance and performed other services for the affiliated banks. Also Corporation X rendered to banking subsidiaries of Holding Company A various accounting, statistical and advisory services such as payroll, life insurance and budget loan installment account.

(2) In the second case, Corporation Y, a nonbanking subsidiary of a bank holding company (Holding Company B, which was also a bank), solicited business on behalf of Holding Company B from dealers, throughout several adjoining or contiguous States, who made time sales and desired to convert their time sales paper into cash; but Corporation Y made no loans or purchases of sales contracts and did not discount or advance money for time sales obligations. Corporation Y investigated credit standings of purchasers obligated on time sale contracts to be acquired by Holding Company B. Corporation Y received from dealers the papers offered by them and inspected such papers to see that they were in order, and transmitted to Holding Company B for its determination to purchase, including, in some cases, issuance of drafts in favor of dealers in order to facilitate their prompt receipt
of payment for installment paper purchased by Holding Company B. Corporation Y made collections of delinquent paper or delinquent installments, which sometimes involved repossession and resale of the automobile or other property which secured the paper. Also, upon request of purchasers obligated on paper held by Holding Company B, Corporation Y transmitted installment payments to Holding Company B. Holding Company B reimbursed Corporation Y for its actual costs and expenses in performing the services mentioned above, including the salaries and wages of all Corporation Y officers and employees.

(c) While the term “services” is sometimes used in a broad and general sense, the legislative history of the Bank Holding Company Act indicates that in section 4(c)(1) the word was meant to be somewhat more limited in its application. An early version of the bill specifically exempted companies engaged in serving the bank holding company and its subsidiary banks in “auditing, appraising, investment counseling”. The statute as finally enacted does not expressly mention any specific type of servicing activity for exemption. In recommending the change, the Senate Banking and Currency Committee stated that the types of services contemplated are “in the fields of advertising, public relations, developing new business, organizations, operations, preparing tax returns, personnel, and many others”, which indicates that latitude should be given to the range of activities contemplated by this section beyond those specifically set forth in the early draft of the bill. (84th Cong., 2d Sess., Senate Report 1095, Part 2, p. 3.) It nevertheless seems evident that Congress intended such services to be types of activities generally comparable to those mentioned above from the early draft (“auditing, appraising, investment counseling”) and in the excerpt from the Committee Report on the later bill (“advertising, public relations, developing new business, organization, operations, preparing tax returns, personnel, and many others”). This legislative history and the context in which the term “services” is used in section 4(c)(1) seem to suggest that the term was in general intended to refer to servicing operations which a bank could carry on itself, but which the bank or its holding company chooses to have done through another organization. Moreover, the report of the Senate Banking and Currency Committee indicated that the types of servicing permitted under section 4(c)(1) are to be distinguished from activities of a “‘financial, fiduciary, or insurance nature’, such as those which might be considered for possible exemption under section 4(c)(6) of the Act.

(d) With respect to the first set of facts, the Board expressed the opinion that certain of the activities of Corporation X, such as the accounting, statistical and advisory services referred to above, may be within the range of servicing activities contemplated by section 4(c)(1), but that this would not appear to be the case with the main activity of Corporation X, which was the purchase of installment paper and the resale of such paper at cost, without recourse, to banking subsidiaries of Holding Company A. This latter and basic activity of Corporation X appeared to involve essentially a financial relationship between it and the banking subsidiaries of Holding Company A and appeared beyond the category of servicing exemptions contemplated by section 4(c)(1) of the Act. Accordingly, it was the Board’s view that Corporation X could not be regarded as qualifying under section 4(c)(1) as a company engaged “solely in the business of furnishing services to or performing services for” Holding Company A or subsidiary banks thereof.

(e) With respect to the second set of facts, the Board expressed the opinion that some of the activities engaged in by Corporation Y were clearly within the range of servicing activities contemplated by section 4(c)(1). There was some question as to whether or not some of the other activities of Corporation Y mentioned above could meet the test, but on balance, it seemed that all such activities probably were activities in which Holding Company B, which as already indicated was a bank, could itself engage, at the present locations of Corporation Y, without being engaged in the operation of bank
branches at those locations. In the circumstances, while the question was not free from doubt, the Board expressed the opinion that the activities of Corporation Y were those of a company engaged "solely in the business of furnishing services to or performing services for" Holding Company B within the meaning of section 4(c)(1) of the Act, and that, accordingly, the control by Holding Company B of shares in Corporation Y was exempted under that section.

[23 FR 2675, May 23, 1958. Redesignated at 36 FR 21666, Nov. 12, 1971]

§ 225.107 Acquisition of stock in small business investment company.

(a) A registered bank holding company requested an opinion by the Board of Governors with respect to whether that company and its banking subsidiaries may acquire stock in a small business investment company organized pursuant to the Small Business Investment Act of 1958.

(b) It is understood that the bank holding company and its subsidiary banks propose to organize and subscribe for stock in a small business investment company which would be chartered pursuant to the Small Business Investment Act of 1958 which provides for long-term credit and equity financing for small business concerns.

(c) Section 302(b) of the Small Business Investment Act authorizes national banks, as well as other member banks and nonmember insured banks to the extent permitted by applicable State law, to invest capital in small business investment companies not exceeding one percent of the capital and surplus of such banks. Section 4(c)(4) of the Bank Holding Company Act exempts from the prohibitions of section 4 of the Act "shares which are of the kinds and amounts eligible for investment by National banking associations under the provisions of section 5136 of the Revised Statutes". Section 5136 of the Revised Statutes (paragraph "Seventh") in turn provides, in part, as follows:

Except as hereinafter provided or otherwise permitted by law nothing herein contained shall authorize the purchase by the association for its own account of any shares of stock of any corporation.

Since the shares of a small business investment company are of a kind and amount expressly made eligible for investment by a national bank under the Small Business Investment Act of 1958, it follows, therefore, that the ownership or control of such shares by a bank holding company would be exempt from the prohibitions of section 4 of the Bank Holding Company Act by virtue of the provisions of section 4(c)(4) of that Act. Accordingly, the ownership or control of such shares by the bank holding company would be exempt from the prohibitions of section 4 of the Bank Holding Company Act.

(d) An additional question is presented, however, as to whether section 6 of the Bank Holding Company Act prohibits banking subsidiaries of the bank holding company from purchasing stock in a small business investment company where the latter is a "subsidiary" under that Act.

(e) Section 6(a)(1) of the Act makes it unlawful for a bank to invest any of its funds in the capital stock of any other subsidiary of the bank holding company. However, section 6(a)(1) was, in effect, amended by section 302(b) of the Small Business Investment Act (15 U.S.C. 682) as amended by the Act of June 11, 1960 (Pub. L. 86–502) so as to nullify this prohibition when the "subsidiary" is a small business investment company.

(f) Accordingly, section 6 of the Bank Holding Company Act does not prohibit banking subsidiaries of the bank holding company from purchasing stock in a small business investment company organized pursuant to the Small Business Investment Act of 1958, where that company is or will be a subsidiary of the bank holding company.

§ 225.109 "Services" under section 4(c)(1) of Bank Holding Company Act.

(a) The Board of Governors has been requested by a bank holding company for an interpretation under section 4(c)(1) of the Bank Holding Company Act which, among other things, exempts from the nonbanking divestment requirements of section 4(a) of the Act, shares of a company engaged "solely in
the business of furnishing services to or performing services for” its bank holding company or subsidiary banks thereof.

(b) It is understood that a non-banking subsidiary of the holding company engages in writing comprehensive automobile insurance (fire, theft, and collision) which is sold only to customers of a subsidiary bank of the holding company in connection with the bank’s retail installment loans; that when payment is made on a loan secured by a lien on a motor vehicle, renewal policies are not issued by the insurance company; and that the insurance company receives the usual agency commissions on all comprehensive automobile insurance written for customers of the bank.

(c) It is also understood that the insurance company writes credit life insurance for the benefit of the bank and its installment-loan customers; that each insured debtor is covered for an amount equal to the unpaid balance of his note to the bank, not to exceed $5,000; that as the note is reduced by regular monthly payments, the amount of insurance is correspondingly reduced so that at all times the debtor is insured for the unpaid balance of his note to the bank; and that this credit life insurance is written only at the request of, and solely for, the bank’s borrowing customers. It is further understood that the insurance company engages in no other activity.

(d) As indicated in §225.104 (23 FR 2675), the term “services,” while sometimes used in a broad and general sense, appears to be somewhat more limited in its application in section 4(c)(1) of the Bank Holding Company Act. Unlike an early version of the Senate bill (S. 2577, before amendment), the act as finally enacted does not expressly mention any type of servicing activity for exemption. The legislative history of the Act, however, as indicated in the relevant portion of the record of the Senate Banking and Currency Committee on amended S. 2577 (84th Cong., 2d Sess., Senate Report 1095, Part 2, p. 3) makes it evident that Congress had in mind the exemption of services comparable to the types of activities mentioned expressly in the early Senate bill (“auditing, appraising, investment counseling”) and in the Committee Report on the later bill (“advertising, public relations, developing new business, organization, operations, preparing tax returns, personnel, and many others”). Furthermore, this Committee Report expressly stated that the provision of section 4(c)(1) with respect to “furnishing services to or performing services for” was not intended to supplant the exemption contained under section 4 (c)(6) of the Act.

(e) The only activity of the insurance company (writing comprehensive automobile insurance and credit life insurance) appears to involve an insurance relationship between it and a banking subsidiary of the holding company which the legislative history clearly indicates does not come within the meaning of the phrase “furnishing services to or performing services for” a bank holding company or its banking subsidiaries.

(f) Accordingly, it is the Board’s view that the insurance company could not be regarded as qualifying as a company engaged “solely in the business of furnishing services to or performing services for” the bank holding company or banks with respect to which the latter is a bank holding company.

§ 225.111 Limit on investment by bank holding company system in stock of small business investment companies.

(a) Under the provisions of section 4(c)(5) of the Bank Holding Company Act, as amended (12 U.S.C. 1843), a bank holding company may acquire shares of nonbank companies “which are of the kinds and amounts eligible for investment” by national banks. Pursuant to section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)), as amended by Title II of the Small Business Act Amendments of 1967 (Pub. L. 90–104, 81 Stat. 268, 270), a national bank may invest in stock of small business investment companies (SBICs) subject to certain restrictions.
§ 225.112 Indirect control of small business concern through convertible debentures held by small business investment company.

(a) A question has been raised concerning the applicability of provisions of the Bank Holding Company Act of 1956 to the acquisition by a bank holding company of stock of a small business investment company ("SBIC") organized pursuant to the Small Business Investment Act of 1958 ("SBI Act").

(b) As indicated in the interpretation of the Board (§ 225.107) published at 23 FR 7813, it is the Board's opinion that, since stock of an SBIC is eligible for purchase by national banks and since section 4(c)(4) of the Holding Company Act exempts stock eligible for investment by national banks from the prohibitions of section 4 of that Act, a bank holding company may lawfully acquire stock in such an SBIC.

(c) However, section 304 of the SBI Act provides that debentures of a small business concern purchased by a small business investment company may be converted at the option of such company into stock of the small business concern. The question therefore arises as to whether, in the event of such conversion, the parent bank holding company would be regarded as having acquired "direct or indirect ownership or control" of stock of the small business concern in violation of section 4(a) of the Holding Company Act.

(d) The Small Business Investment Act clearly contemplates that one of the primary purposes of that Act was to enable SBICs to provide needed equity capital to small business concerns through the purchase of debentures convertible into stock. Thus, to the extent that a stockholder in an SBIC might acquire indirect control of stock of a small business concern, such control appears to be a natural and contemplated incident of ownership of stock of the SBIC. The Office of the Comptroller of the Currency has informally indicated concurrence with this interpretation insofar as it affects investments by national banks in stock of an SBIC.

(e) Since the exception as to stock eligible for investment by national banks...
§ 225.113 Services under section 4(a) of Bank Holding Company Act.

(a) The Board of Governors has been requested for an opinion as to whether the performance of certain functions by a bank holding company for four banks of which it owns less than 25 percent of the voting shares is in violation of section 4(a) of the Bank Holding Company Act.

(b) It is claimed that the holding company is engaged in "managing" four nonsubsidiary banks, for which services it receives "management fees." Specifically, the company engages in the following activities for the four nonsubsidiary banks: (1) Establishment and supervision of loaning policies; (2) direction of the purchase and sale of investment securities; (3) selection and training of officer personnel; (4) establishment and enforcement of operating policies; and (5) general supervision over all policies and practices.

(c) The question raised is whether these activities are prohibited by section 4(a)(2) of the Bank Holding Company Act, which permits a bank holding company to engage in only three categories of business: (1) Banking; (2) managing or controlling banks; and (3) furnishing services to or performing services for any bank of which the holding company owns or controls 25 percent or more of the voting shares.

(d) Clearly, the activities of the company with respect to the four nonsubsidiary banks do not constitute "banking." With respect to the business of "managing or controlling" banks, it is the Board's view that such business, within the purview of section 4(a)(2), is essentially the exercise of a broad governing influence of the sort usually exercised by bank stockholders, as distinguished from direct or active participation in the establishment or carrying out of particular policies or operations. The latter kinds of activities fall within the third category of businesses in which a bank holding company is permitted to engage. In the Board's view, the activities enumerated above fall in substantial part within that third category.

(e) Section 4(a)(2), like all other sections of the Holding Company Act, must be interpreted in the light of all of its provisions, as well as in the light of other sections of the Act. The expression "managing * * * banks," if it could be taken by itself, might appear to include activities of the sort enumerated. However, such an interpretation of those words would virtually nullify the last portion of section 4(a)(2), which permits a holding company to furnish services to or perform services for "any bank of which it owns or controls 25 per centum or more of the voting shares."

(f) Since Congress explicitly authorized the performance of services for banks that are at least 25 percent owned by a holding company, it obviously intended that the holding company should not perform services for banks in which it owns less than 25 percent of the voting shares. However, if the second category—"managing or controlling banks"—were interpreted to permit the holding company to perform services for any bank, including a bank in which it held less than 25 percent of the stock (or no stock whatsoever), the last clause of section 4(a)(2) would be meaningless.

(g) It is principally for this reason—that is, to give effective meaning to the final clause of section 4(a)(2)—that the Board interprets "managing or controlling banks" in that provision as referring to the exercise of a stockholder's management or control of banks, rather than direct and active participation in their operations. To repeat, such active participation in operations falls within the third category ("furnishing services to or performing..."
services for any bank”) and consequently may be engaged in only with respect to banks in which the holding company “owns or controls 25 per centum or more of the voting shares.”

(h) Accordingly, it is the Board’s conclusion that, in performing the services enumerated, the bank holding company is “furnishing services to or performing services for” the four banks referred to. Under the Act such furnishing or performing of services is permissible only if the holding company owns or controls 25 percent of the voting shares of each bank receiving such services, and, since the company owns less than 25 percent of the voting shares of these banks, it follows that these activities are prohibited by section 4(a)(2).

(i) While this conclusion is required, in the Board’s opinion, by the language of the statute, it may be noted further that any other conclusion would make it possible for bank holding company or any other corporation, through arrangements for the “managing” of banks in the manner here involved, to acquire effective control of banks without acquiring bank stocks and thus to evade the underlying objectives of section 3 of the Act.

§ 225.115 Applicability of Bank Service Corporation Act in certain bank holding company situations.

(a) Questions have been presented to the Board of Governors regarding the applicability of the recently enacted Bank Service Corporation Act (Pub. L. 87–856, approved October 23, 1962) in cases involving service corporations that are subsidiaries of bank holding companies under the Bank Holding Company Act of 1956. In addition to being charged with the administration of the latter Act, the Board is named in the Bank Service Corporation Act as the Federal supervisory agency with respect to the performance of bank services for State member banks.

(b) Holding company-owned corporation serving only subsidiary banks. (1) One question is whether the Bank Service Corporation Act is applicable in the case of a corporation, wholly owned by a bank holding company, which is engaged in performing “bank services”, as defined in section 1(b) of the Act, exclusively for subsidiary banks of the holding company.

(2) Except as noted below with respect to section 5 thereof, the Bank Service Corporation Act is not applicable in this case. This is true because none of the stock of the corporation performing the services is owned by any bank and the corporation, therefore, is not a “bank service corporation” as defined in section 1(c) of the Act. A corporation cannot meet that definition unless part of its stock is owned by two or more banks. The situation clearly is unaffected by section 2(b) of the Act which permits a corporation that fell within the definition initially to continue to function as a bank service corporation although subsequently only one of the banks remains as a stockholder in the corporation.

(3) However, although it is not a bank service corporation, the corporation in question and each of the banks for which it performs bank services are subject to section 5 of the Bank Service Corporation Act. That section, which requires the furnishing of certain assurances to the appropriate Federal supervisory agency in connection with the performance of bank services for a bank, is applicable whether such services are performed by a bank service corporation or by others.

(4) Section 4(a)(1) of the Bank Holding Company Act prohibits the acquisition by a bank holding company of “direct or indirect ownership or control” of shares of a nonbanking company, subject to certain exceptions. Section 4(c)(1) of the Act exempts from section 4(a)(1) shares of a company engaged “solely in the business of furnishing services to or performing services for” its bank holding company or subsidiary banks thereof. Assuming that the bank services performed by the corporation in question are “services” of the kinds contemplated by section 4(c)(1) of the Bank Holding Company Act (as would be true, for example, of the electronic data processing of deposit accounts), the holding company’s ownership of the corporation’s shares in the situation described above clearly is permissible under that section of the Act.
(c) Bank service corporation owned by holding company subsidiaries and serving also other banks. (1) The other question concerns the applicability of the Bank Service Corporation Act and the Bank Holding Company Act in the case of a corporation, all the stock of which is owned either by a bank holding company and its subsidiary banks together or by the subsidiary banks alone, which is engaged in performing "bank services", as defined in section 1(b) of the Bank Service Corporation Act, for the subsidiary banks and for other banks, as well.

(2) In contrast to the situation under paragraph (b) of this section, the corporation in this case is a "bank service corporation" within the meaning of section 1(c) of the Bank Service Corporation Act because of the ownership by each of the subsidiary banks of a part of the corporation's stock. This stock ownership is one of the important facts differentiating this case from the first one. Being a bank service corporation, the corporation in question is subject to section 3 of the Act concerning applications to bank service corporations by competitive banks for bank services, and to section 4 forbidding a bank service corporation from engaging in any activity other than the performance of bank services for banks. Section 5, mentioned previously and relating to "assurances", also is applicable in this case.

(3) The other important difference between this case and the situation in paragraph (b) of this section is that here the bank service corporation performs services for nonsubsidiary banks, as well as for subsidiary banks. This is permissible because section 2(a) of the Bank Service Corporation Act, which authorizes any two or more banks to invest limited amounts in a bank service corporation, removes all limitations and prohibitions of Federal law exclusively relating to banks that otherwise would prevent any such investment. From the legislative history of section 2(a), it is clear that section 6 of the Bank Holding Company Act is among the limitations and prohibitions so removed. But for such removal, section 6(a)(1) of that Act would make it unlawful for any of the subsidiary banks of the bank holding company in question to own stock in the bank service corporation subsidiary of the holding company, as the exemption in section 6(b)(1) would not apply because of the servicing by the bank service corporation of nonsubsidiary banks.

(4) Because the bank service corporation referred to in the question is serving banks other than the subsidiary banks, the bank holding company is not exempt under section 4(c)(1) of the Bank Holding Company Act from the prohibition of acquisition of nonbanking interests in section 4(a)(1) of that Act. The bank holding company, however, is entitled to the benefit of the exemption in section 4(c)(4) of the Act. That section exempts from section 4(a) "shares which are of the kinds and amounts eligible for investment by National banking associations under the provisions of section 5136 of the Revised Statutes". Section 5136 provides, in part, that: "Except as hereinafter provided or otherwise permitted by law, nothing herein contained shall authorize the purchase by the association for its own account of any shares of stock of any corporation." As the provisions of section 2(a) of the Bank Service Corporation Act and its legislative history make it clear that shares of a bank service corporation are of a kind eligible for investment by national banks under section 5136, it follows that the direct or indirect ownership on control of such shares by a bank holding company are permissible within the amount limitation discussed in paragraph (d) of this section.

(d) Limit on investment by bank holding company system in stock of bank service corporation.

(1) In the situation presented by paragraph (c) the bank holding company clearly owns or controls, directly or indirectly, all of the stock of the bank service corporation. The remaining question, therefore, is whether the total direct and indirect investment of the bank holding company in the bank service corporation exceeds the amount permissible under the Bank Holding Company Act.

(2) The effect of sections 4(a)(1) and 4(c)(4) of the Bank Holding Company Act is to limit the amount of shares of a bank service corporation that a bank holding company may own or control, directly or indirectly, to the amount
eligible for investment by a national bank, as previously indicated. Under section 2(a) of the Bank Service Corporation Act, the amount of shares of a bank service corporation eligible for investment by a national bank may not exceed "10 per centum [of the bank's] * * * paid-in and unimpaired capital and unimpaired surplus".

(3) The Board's view is that this aspect of the matter should be determined in accordance with the principles set forth in §225.111, as revised (27 FR 12671), involving the application of sections 4(a)(1) and 4(c)(4) of the Bank Holding Company Act in the light of section 302(b) of the Small Business Investment Act limiting the amount eligible for investment by a national bank in the shares of a small business investment company to two percent of the bank's "capital and surplus".

(4) Except for the differences in the percentage figures, the investment limitation in section 302(b) of the Small Business Investment Act is essentially the same as the investment limitation in section 2(a) of the Bank Service Corporation Act since, as an accounting matter and for the purposes under consideration, "capital and surplus" may be regarded as equivalent in meaning to "paid-in and unimpaired capital and unimpaired surplus." Accordingly, the maximum permissible investment by a bank holding company system in the stock of a bank service corporation should be determined in accordance with the formula prescribed in §225.111.

§ 225.118 Computer services for customers of subsidiary banks.

(a) The question has been presented to the Board of Governors whether a wholly-owned nonbanking subsidiary ("service company") of a bank holding company, which is now exempt from the prohibitions of section 4 of the Bank Holding Company Act of 1956 ("the Act") because its sole business is the providing of services for the holding company and the latter's subsidiary banks, would lose its exempt status if it should provide data processing services for customers of the subsidiary banks.

(b) The Board understood from the facts presented that the service company owns a computer which it utilizes to furnish data processing services for the subsidiary banks of its parent holding company. Customers of these banks have requested that the banks provide for them computerized billing, accounting, and financial records maintenance services. The banks wish to utilize the computer services of the service company in providing these and other services of a similar nature. It is proposed that, in each instance where a subsidiary bank undertakes to provide such services, the bank will enter into a contract directly with the customer and then arrange to have the service company perform the services for it, the bank. In no case will the service company provide services for anyone other than its affiliated banks. Moreover, it will not hold itself out as, nor will its parent corporation or affiliated banks represent it to be, authorized or willing to provide services for others.

(c) Section 4(c)(1) of the Act permits a holding company to own shares in "any company engaged solely * * * in the business of furnishing services to or performing services for such holding company and banks with respect to which it is a bank holding company * * *." The Board has ruled heretofore that the term "services" as used in section 4(c)(1) is to be read as relating to those services (excluding "closely related" activities of "a financial, fiduciary, or insurance nature" within the meaning of section 4(c)(6)) which a bank itself can provide for its customers (§225.104). A determination as to whether a particular service may legitimately be rendered or performed by a bank for its customers must be made in the light of applicable Federal or State statutory or regulatory provisions. In the case of a State-chartered bank, the laws of the State in which the bank operates, together with any interpretations thereunder rendered by appropriate bank authorities, would govern the right of the bank to provide a particular service. In the case of a national bank, a similar determination would require reference to provisions of Federal law relating to the establishment and operation of national banks,
§ 225.121 Acquisition of Edge corporation affiliate by State member banks of registered bank holding company.

(a) The Board has been asked whether it is permissible for the commercial banking affiliates of a bank holding company registered under the Bank Holding Company Act of 1956, as amended, to acquire and hold the shares of the holding company's Edge corporation subsidiary organized under section 25(a) of the Federal Reserve Act.

(b) Under section 4 of the Bank Holding Company Act (12 U.S.C. 1843), a Bank holding company ownership of mortgage companies.

(a) The Board of Governors recently considered whether a bank holding may acquire, either directly or through a subsidiary, the stock of a so-called "mortgage company" that would be operated on the following basis: The company would solicit mortgage loans on behalf of a bank in the holding company system, assemble credit information, make property inspections and appraisals, and secure title information. The company would also participate in the preparation of applications for mortgage loans, which it would submit, together with recommendations with respect to action thereon, to the bank, which alone would decide whether to make any or all of the loans requested. The company would in addition solicit investors to purchase mortgage loans from the bank and would seek to have such investors contract with the bank for the servicing of such loans.

(b) Under section 4 of the Bank Holding Company Act (12 U.S.C. 1843), a
bank holding company is generally prohibited from acquiring “direct or indirect ownership” of stock of nonbanking corporations. The two exceptions principally involved in the question presented are with respect to (1) stock that is eligible for investment by a national bank (section 4(c)(5) of the Act) and (2) shares of a company “furnishing services to or performing services for such bank holding company or its banking subsidiaries” (section 4(c)(1)(C) of the Act).

(c) The Board has previously indicated its view that a national bank is forbidden by the so-called “stock-purchase prohibition” of paragraph “Seventh” of section 5136 of the Revised Statutes (12 U.S.C. 24) to purchase “for its own account * * * any shares of stock of any corporation” except (1) to the extent permitted by specific provisions of Federal law or (2) as comprised within the concept of “such incidental powers as shall be necessary to carry on the business of banking” referred to in the first sentence of said paragraph “Seventh”. There is no specific statutory provision authorizing a national bank to purchase stock in a mortgage company, and in the Board’s view such purchase may not properly be regarded as authorized under the “incidental powers” clause. (See 1966 Federal Reserve Bulletin 1151; 12 CFR 208.119.) Accordingly, a bank holding company may not acquire stock in a mortgage company on the basis of the section 4(c)(3) exemption.

(d) However, the Board does not believe that such conclusion prejudices consideration of the question whether such a company is within the section 4(c)(1)(C) “servicing exemption”. The basic purpose of section 4 of the Act is to confine a bank holding company’s activities to the management and control of banks. In determining whether an activity in which a bank could itself engage is within the servicing exemption, the question is simply whether such activity may appropriately be considered as “furnishing services to or performing services for” a bank.

(e) As indicated in the Board’s interpretation published in the 1958 Federal Reserve Bulletin at page 431 (12 CFR 225.104), the legislative history of the servicing exemption indicates that it includes the following activities: “auditing, appraising, investment counseling” and “advertising, public relations, developing new business, organization, operations, preparing tax returns, and personnel”. The legislative history further indicates that some other activities also are within the scope of the exemption. However, the types of servicing permitted under such exemption must be distinguished from activities of a “financial fiduciary, or insurance nature”, such as those that might be considered for possible exemption under section 4(c)(8) of the Act.

(f) In considering the interrelation of these exemptions in the light of the purpose of the prohibition against bank holding company interests in nonbanking organizations, the Board has concluded that the appropriate test for determining whether a mortgage company may be considered as within the servicing exemption is whether the company will perform as principal any banking activities—such as receiving deposits, paying checks, extending credit, conducting a trust department, and the like. In other words, if the mortgage company is to act merely as an adjunct to a bank for the purpose of facilitating the banks operations, the company may appropriately be considered as within the scope of the servicing exemption.1

(g) On this basis the Board concluded that, insofar as the Bank Holding Company Act is concerned, a bank holding company may acquire, either directly or through a subsidiary, the stock of a mortgage company whose functions are as described in the question presented. On the other hand, in the Board’s view, a bank holding company may not acquire, on the basis of the servicing exemption, a mortgage company whose...
§ 225.123 Activities closely related to banking.

(a) Effective June 15, 1971, the Board of Governors has amended §225.4(a) of Regulation Y to implement its regulatory authority under section 4(c)(8) of the Bank Holding Company Act. In some respects activities determined by the Board to be closely related to banking are described in general terms that will require interpretation from time to time. The Board’s views on some questions that have arisen are set forth below.

(b) Section 225.4(a) states that a company whose ownership by a bank holding company is authorized on the basis of that section may engage solely in specified activities. That limitation refers only to activities the authority for which depends on section 4(c)(8) of the Act. It does not prevent a holding company from establishing one subsidiary to engage, for example, in activities specified in §225.4(a) and also in activities that fall within the scope of section 4(c)(1)(C) of the Act—the “servicing” exemption.

(c) The amendments to §225.4(a) do not apply to restrict the activities of a company previously approved by the Board on the basis of section 4(c)(8) of the Act. Activities of a company authorized on the basis of section 4(c)(8) either before the 1970 Amendments or pursuant to the amended §225.4(a) may be shifted in a corporate reorganization to another company within the holding company system without complying with the procedures of §225.4(b), as long as all the activities of such company are permissible under one of the exemptions in section 4 of the Act.

(d) Under the procedures in §225.4(a)(c), a holding company that wishes to change the location at which it engages in activities authorized pursuant to §225.4(a) must publish notice in a newspaper of general circulation in the community to be served. The Board does not regard minor changes in location as within the coverage of that requirement. A move from one site to another within a 1-mile radius would constitute such a minor change if the new site is in the same State.

(e) Data processing. In providing packaged data processing and transmission services for banking, financial and economic data for installation on the premises of the customer, as authorized by §225.4(a)(8)(ii), a bank holding company should limit its activities to providing facilities that perform banking functions, such as check collection, or other similar functions for customers that are depository or other similar institutions, such as mortgage companies. In addition, the Board regards the following as incidental activities necessary to carry on the permissible activities in this area:

(1) Providing excess capacity, not limited to the processing or transmission of banking, financial or economic data on data processing or transmission equipment or facilities used in connection with permissible data processing and data transmission activities, where:

(A) Equipment is not purchased solely for the purpose of creating excess capacity;

(B) Hardware is not offered in connection therewith; and

(C) Facilities for the use of the excess capacity do not include the provision of any software, other than systems software (including language), network communications support, and the operating personnel and documentation necessary for the maintenance and use of these facilities.

(2) Providing by-products of permissible data processing and data transmission activities, where not designed, or appreciably enhanced, for the purpose of marketability.

(3) Furnishing any data processing service upon request of a customer if such data processing service is not otherwise reasonably available in the relevant market area; and

In order to eliminate or reduce to an insignificant degree any possibility of
unfair competition where services, facilities, by-products or excess capacity are provided by a bank holding company’s nonbank subsidiary or related entity, the entity providing the services, facilities, by-products and/or excess capacity should have separate books and financial statements, and should provide these books and statements to any new or renewal customer requesting financial data. Consolidated or other financial statements of the bank holding company should not be provided unless specifically requested by the customer.

(Interprets and applies 12 U.S.C. 1843 (c)(8))

§ 225.124 Foreign bank holding companies.

(a) Effective December 1, 1971, the Board of Governors has added a new §225.4(g) to Regulation Y implementing its authority under section 4(c)(9) of the Bank Holding Company Act. The Board’s views on some questions that have arisen in connection with the meaning of terms used in §225.4(g) are set forth in paragraphs (b) through (g) of this section.

(b) The term “activities” refers to nonbanking activities and does not include the banking activities that foreign banks conduct in the United States through branches or agencies licensed under the banking laws of any State of the United States or the District of Columbia.

(c) A company (including a bank holding company) will not be deemed to be engaged in “activities” in the United States merely because it exports (or imports) products to (or from) the United States, or furnishes services or finances goods or services in the United States, from locations outside the United States. A company is engaged in “activities” in the United States if it owns, leases, maintains, operates, or controls any of the following types of facilities in the United States:

(1) A factory,
(2) A wholesale distributor or purchasing agency,
(3) A distribution center,
(4) A retail sales or service outlet,
(5) A network of franchised dealers,
(6) A financing agency, or
(7) Similar facility for the manufacture, distribution, purchasing, furnishing, or financing of goods or services locally in the United States.

A company will not be considered to be engaged in “activities” in the United States if its products are sold to independent importers, or are distributed through independent warehouses, that are not controlled or franchised by it.

(d) In the Board’s opinion, section 4(a)(2) of the Bank Holding Company Act applies to ownership or control of shares of stock as an investment and does not apply to ownership or control of shares of stock in the capacity of an underwriter or dealer in securities. Underwriting or dealing in shares of stock are nonbanking activities prohibited to bank holding companies by section 4(a)(2) of the Act, unless otherwise exempted. Under §225.4(g) of Regulation Y, foreign bank holding companies are exempt from the prohibitions of section 4 of the Act with respect to their activities outside the United States; thus foreign bank holding companies may underwrite or deal in shares of stock (including shares of United States issuers) to be distributed outside the United States, provided that shares so acquired are disposed of within a reasonable time.

(e) A foreign bank holding company does not “indirectly” own voting shares by reason of the ownership or control of such voting shares by any company in which it has a noncontrolling interest in such company is accompanied by other arrangements that, in the Board’s judgment, result in control of such shares by the bank holding company. A foreign bank holding company may, however, “indirectly” control such voting shares if its noncontrolling interest in such company is accompanied by other arrangements that, in the Board’s judgment, result in control of such shares by the bank holding company. The Board has made one exception to this general approach. A foreign bank holding company will be considered to indirectly own or control voting shares of a bank if that bank holding company acquires more than 5 percent of any class of voting shares of another bank holding company. A bank holding company may make such an acquisition only with prior approval of the Board.
(f) A company is “indirectly” engaged in activities in the United States if any of its subsidiaries (whether or not incorporated under the laws of this country) is engaged in such activities. A company is not “indirectly” engaged in activities in the United States by reason of a noncontrolling interest in a company engaged in such activities.

(g) Under the foregoing rules, a foreign bank holding company may have a noncontrolling interest in a foreign company that has a U.S. subsidiary (but is not engaged in the securities business in the United States) if more than half of the foreign company’s consolidated assets and revenues are located and derived outside the United States. For the purpose of such determination, the assets and revenues of the United States subsidiary would be counted among the consolidated assets and revenues of the foreign company to the extent required or permitted by generally accepted accounting principles in the United States. The foreign bank holding company would not, however, be permitted to “indirectly” control voting shares of the said U.S. subsidiary, as might be the case if there are other arrangements accompanying its noncontrolling interest in the foreign parent company that, in the Board’s judgment, result in control of such shares by the bank holding company.

(Interprets and applies 12 U.S.C. 1843 (a) (1), (2), and (c)(9))

§ 225.125 Investment adviser activities.

(a) Effective February 1, 1972, the Board of Governors amended §225.4(a) of Regulation Y to add “serving as investment adviser, as defined in section 2(a)(20) of the Investment Company Act of 1940, to an investment company registered under that Act” to the list of activities it has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. During the course of the Board’s consideration of this amendment several questions arose as to the scope of such activity, particularly in view of certain restrictions imposed by sections 16, 20, 21, and 32 of the Banking Act of 1933 (12 U.S.C. 24, 377, 378, 78) (sometimes referred to hereinafter as the “Glass-Steagall Act provisions”) and the U.S. Supreme Court’s decision in Investment Company Institute v. Camp, 401 U.S. 617 (1971). The Board’s views with respect to some of these questions are set forth below.

(b) It is clear from the legislative history of the Bank Holding Company Act Amendments of 1970 (84 Stat. 1760) that the Glass-Steagall Act provisions were not intended to be affected thereby. Accordingly, the Board regards the Glass-Steagall Act provisions and the Board’s prior interpretations thereof as applicable to a holding company’s activities as an investment adviser. Consistently with the spirit and purpose of the Glass-Steagall Act, this interpretation applies to all bank holding companies registered under the Bank Holding Company Act irrespective of whether they have subsidiaries that are member banks.

(c) Under §225.4(a)(5), as amended, bank holding companies (which term, as used herein, includes both their bank and nonbank subsidiaries) may, in accordance with the provisions of §225.4 (b), act as investment advisers to various types of investment companies, such as “open-end” investment companies (commonly referred to as “mutual funds”) and “closed-end” investment companies. Briefly, a mutual fund is an investment company which, typically, is continuously engaged in the issuance of its shares and stands ready at any time to redeem the securities as to which it is the issuer; a closed-end investment company typically does not issue shares after its initial organization except at infrequent intervals and does not stand ready to redeem its shares.

(d) The Board intends that a bank holding company may exercise all functions that are permitted to be exercised by an “investment adviser” under the Investment Company Act of 1940, except to the extent limited by the Glass-Steagall Act provisions, as described, in part, hereinafter.

(e) The Board recognizes that presently most mutual funds are organized, sponsored and managed by investment advisers with which they are affiliated
and that their securities are distributed to the public by such affiliated investment advisers, or subsidiaries or affiliates thereof. However, the Board believes that (1) The Glass-Steagall Act provisions do not permit a bank holding company to perform all such functions, and (2) It is not necessary for a bank holding company to perform all such functions in order to engage effectively in the described activity.

(f) In the Board’s opinion, the Glass-Steagall Act provisions, as interpreted by the U.S. Supreme Court, forbid a bank holding company to sponsor, organize, or control a mutual fund. However, the Board does not believe that such restrictions apply to closed-end investment companies as long as such companies are not primarily or frequently engaged in the issuance, sale, and distribution of securities. A bank holding company should not act as investment adviser to an investment company that has a name similar to the name of the holding company or any of its subsidiary banks, unless the prospectus of the investment company contains the disclosures required in paragraph (h) of this section. In no case should a bank holding company act as investment adviser to an investment company that has either the same name as the name of the holding company or any of its subsidiary banks, or a name that contains the word “bank.”

(g) In view of the potential conflicts of interests that may exist, a bank holding company and its bank and nonbank subsidiaries should not purchase in their sole discretion, in a fiduciary capacity (including as managing agent), securities of any investment company for which the bank holding company acts as investment adviser unless, the purchase is specifically authorized by the terms of the instrument creating the fiduciary relationship, by court order, or by the law of the jurisdiction under which the trust is administered.

(h) Under section 20 of the Glass-Steagall Act, a member bank is prohibited from being affiliated with a company that directly, or through a subsidiary, engages principally in the issue, flotation, underwriting, public sale, or distribution of securities. A bank holding company or its nonbank subsidiary may not engage, directly or indirectly, in the underwriting, public sale or distribution of securities of any investment company for which the holding company or any nonbank subsidiary provides investment advice except in compliance with the terms of section 20, and only after obtaining the Board’s approval under section 4 of the Bank Holding Company Act and subject to the limitations and disclosures required by the Board in those cases. The Board has determined, however, that the conduct of securities brokerage activities by a bank holding company or its nonbank subsidiaries, when conducted individually or in combination with investment advisory activities, is not deemed to be the underwriting, public sale, or distribution of securities prohibited by the Glass-Steagall Act, and the U.S. Supreme Court has upheld that determination. See Securities Industry Ass’n v. Board of Governors, 468 U.S. 207 (1984); see also Securities Industry Ass’n v. Board of Governors, 821 F.2d 810 (D.C. Cir. 1987), cert. denied, 484 U.S. 1005 (1988). Accordingly, the Board believes that a bank holding company or any of its nonbank subsidiaries that has been authorized by the Board under the Bank Holding Company Act to conduct securities brokerage activities (either separately or in combination with investment advisory activities) may act as agent, upon the order and for the account of customers of the holding company or its nonbank subsidiary, to purchase or sell shares of an investment company for which the bank holding company or any of its subsidiaries acts as an investment adviser. In addition, a bank holding company or any of its nonbank subsidiaries that has been authorized by the Board under the Bank Holding Company Act to provide investment advice to third parties generally (either separately or in combination with securities brokerage services) may provide investment advice to customers with respect to the purchase or sale of shares of an investment company for which the holding company or any of its subsidiaries acts as an investment adviser. In the event that a bank holding company or any of its nonbank subsidiaries provides brokerage or investment advisory services (either separately or in combination)
to customers in the situations described above, at the time the service is provided the bank holding company should instruct its officers and employees to caution customers to read the prospectus of the investment company before investing and must advise customers in writing that the investment company’s shares are not insured by the Federal Deposit Insurance Corporation, and are not deposits, obligations of, or endorsed or guaranteed in any way by, any bank, unless that happens to be the case. The holding company or nonbank subsidiary must also disclose in writing to the customer the role of the company or affiliate as adviser to the investment company. These disclosures may be made orally so long as written disclosure is provided to the customer immediately thereafter. To the extent that a bank owned by a bank holding company engages in providing advisory or brokerage services to bank customers in connection with an investment company advised by the bank holding company or a nonbank affiliate, but is not required by the bank’s primary regulator to make disclosures comparable to the disclosures required to be made by bank holding companies providing such services, the bank holding company should require its subsidiary bank to make disclosures comparable to the disclosures required to be made by a bank holding company that provides such advisory or brokerage services.

(i) Acting in such capacities as registrar agent, or custodian for an investment company is not a selling activity and is permitted under §225.4(a)(4) of Regulation Y. However, in view of potential conflicts of interests, a bank holding company which acts both as custodian and investment adviser for an investment company should exercise care to maintain at a minimal level demand deposit accounts of the investment company which are placed with a bank affiliate and should not invest cash funds of the investment company in time deposit accounts (including certificates of deposit) of any bank affiliate.

§ 225.126 Activities not closely related to banking.

Pursuant to section 4(c)(8) of the Bank Holding Company Act and §225.4(a) of Regulation Y, the Board of Governors has determined that the following activities are not so closely related to banking or managing or controlling banks as to be a proper incident thereto:

(a) Insurance premium funding—that is, the combined sale of mutual funds and insurance;

(b) Underwriting life insurance that is not sold in connection with a credit transaction by a bank holding company, or a subsidiary thereof.

(e) Real estate syndication.

§ 225.127 Investment in corporations or projects designed primarily to promote community welfare.

(a) Under §225.25(b)(6) of Regulation Y, a bank holding company may, in accordance with the provisions of §225.23, engage in “making equity and debt investments in corporations or projects designed primarily to promote community welfare, such as the economic rehabilitation and development of low-income areas.” The Board included that activity among those the Board has determined to be so closely related to banking or managing or controlling banks as be a proper incident thereto, in order to permit bank holding companies to fulfill their civic responsibilities. As indicated hereinafter in this interpretation, the Board intends §225.25(b)(6) to enable bank holding companies to take an active role in the quest for solutions to the Nation’s social problems. Although the interpretation primarily focuses on low- and moderate-income housing, it is not intended to limit projects under §225.25(b)(6) to that area. Other investments primarily designed to promote
Federal Reserve System § 225.127

community welfare are considered permissible, but have not been defined in order to provide bank holding companies flexibility in approaching community problems. For example, bank holding companies may utilize this flexibility to provide new and creative approaches to the promotion of employment opportunities for low-income persons. Bank holding companies possess a unique combination of financial and managerial resources making them particularly suited for a meaningful and substantial role in remedying our social ills. Section 225.25(b)(6) is intended to provide an opportunity for them to assume such a role.

(b) Under the authority of §225.25(b)(6), a bank holding company may invest in community development corporations established pursuant to Federal or State law. A bank holding company may also participate in other civic projects, such as a municipal parking facility sponsored by a local civic organization as a means to promote greater public use of the community’s facilities.

(c) Within the category of permissible investments under §225.25(b)(6) are investments in projects to construct or rehabilitate multifamily low- or moderate-income housing with respect to which a mortgage is insured under section 221(d)(3), 221(d)(4), or 236 of the National Housing Act (12 U.S.C. 170l) and investments in projects to construct or rehabilitate low- or moderate-income housing which is financed or assisted by direct loan, tax abatement, or insurance under provisions of State or local law, similar to the aforementioned Federal programs, provided that, with respect to all such projects the owner is, by statute, regulation, or regulatory authority, limited as to the rate of return on his investment in the project, as to rentals or occupancy charges for units in the project, and in such other respects as would be a “limited dividend corporation” (as defined by the Secretary of Housing and Urban Development).

(d) Investments in other projects that may be considered to be designed primarily to promote community welfare include but are not limited to: (1) Projects for the construction or rehabilitation of housing for the benefit of persons of low- or moderate-income, (2) projects for the construction or rehabilitation of ancillary local commercial facilities necessary to provide goods or services principally to persons residing in low- or moderate-income housing, and (3) projects designed explicitly to create improved job opportunities for low- or moderate-income groups (for example, minority equity investments, on a temporary basis, in small or medium-sized locally-controlled businesses in low-income urban or other economically depressed areas). In the case of de novo projects, the copy of the notice with respect to such other projects which is to be furnished to Reserve Banks in accordance with the provisions of §225.23 should be accompanied by a memorandum which demonstrates that such projects meet the objectives of §225.25(b)(6).

(e) Investments in corporations or projects organized to build or rehabilitate high-income housing, or commercial, office, or industrial facilities that are not designed explicitly to create improved job opportunities for low-income persons shall be presumed not to be designed primarily to promote community welfare, unless there is substantial evidence to the contrary, even though to some extent the investment may benefit the community.

(f) Section 6 of the Depository Institutions Disaster Relief Act of 1992 permits state member banks (12 U.S.C. 338a) and national banks (12 U.S.C. 24 (Eleventh)) to invest in the stock of community development corporations that are designed primarily to promote the public welfare of low- and moderate-income communities and persons in the areas of housing, services and employment. The Board and the Office of the Comptroller of the Currency have adopted rules that permit state member banks and national banks to make certain investments without prior approval. The Board believes that these rules are consistent with the Board’s interpretation of, and decisions regarding, the scope of community welfare activities permissible for bank holding companies. Accordingly, approval received by a bank holding company to conduct activities designed to promote the community welfare under section 4(c)(8) of the Bank Holding
Company Act (12 U.S.C. 1843(c)(8)) and §225.25(b)(6) of the Board’s Regulation Y (12 CFR 225.25(b)(6)) includes approval to engage, either directly or through a subsidiary, in the following activities, up to five percent of the bank holding company’s total consolidated capital stock and surplus, without additional Board or Reserve Bank approval:

(1) Invest in and provide financing to a corporation or project or class of corporations or projects that the Board previously has determined is a public welfare project pursuant to paragraph 23 of section 9 of the Federal Reserve Act (12 U.S.C. 338a);

(2) Invest in and provide financing to a corporation or project that the Office of the Comptroller of the Currency previously has determined, by order or regulation, is a public welfare investment pursuant to section 5136 of the Revised Statutes (12 U.S.C. 24 (Eleventh));

(3) Invest in and provide financing to a community development financial institution pursuant to section 103(5) of the Community Development Banking and Financial Institutions Act of 1994 (12 U.S.C. 4702(5));

(4) Invest in, provide financing to, develop, rehabilitate, manage, sell, and rent residential property if a majority of the units will be occupied by low- and moderate-income persons or if the property is a “qualified low-income building” as defined in section 42(c)(2) of the Internal Revenue Code (26 U.S.C. 42(c)(2));

(5) Invest in, provide financing to, develop, rehabilitate, manage, sell, and rent nonresidential real property or other assets located in a low- or moderate-income area provided the property is used primarily for low- and moderate-income persons;

(6) Invest in and provide financing to one or more small businesses located in a low- or moderate-income area to stimulate economic development;

(7) Invest in, provide financing to, develop, and otherwise assist job training or placement facilities or programs designed primarily for low- and moderate-income persons;

(8) Invest in and provide financing to an entity located in a low- or moderate-income area if that entity creates long-term employment opportunities, a majority of which (based on full time equivalent positions) will be held by low- and moderate-income persons; and

(9) Provide technical assistance, credit counseling, research, and program development assistance to low- and moderate-income persons, small businesses, or nonprofit corporations to help achieve community development.

(g) For purposes of paragraph (f) of this section, low- and moderate-income persons or areas means individuals and communities whose incomes do not exceed 80 percent of the median income of the area involved, as determined by the U.S. Department of Housing and Urban Development. Small businesses are businesses that are smaller than the maximum size eligibility standards established by the Small Business Administration (SBA) for the Small Business Investment Company and Development Company Programs or the SBA section 7A loan program; and specifically include those businesses that are majority-owned by members of minority groups or by women.

(h) For purposes of paragraph (f) of this section, five percent of the total consolidated capital stock and surplus of a bank holding company includes its total investment in projects described in paragraph (f) of this section, when aggregated with similar types of investments made by depository institutions controlled by the bank holding company. The term total consolidated capital stock and surplus of the bank holding company means total equity capital and the allowance for loan and lease losses. For bank holding companies that file the FR Y-9C (Consolidated Financial Statements for Bank Holding Companies), these items are readily ascertained from Schedule HC—Consolidated Balance Sheet (total equity capital (line 27h) and allowance for loan and lease losses (line 4b)). For bank holding companies filing the FR Y-SP (Parent Company Only Financial Statements for Small Bank Holding Companies), the allowance for loan and lease losses (line 4b)). For bank holding companies filing the FR Y-SP, an approximation of these items is ascertained from the Balance Sheet (total equity capital (line 14e)).
§ 225.129 Activities closely related to banking.

Courier activities. The Board’s amendment of §225.4(a), which adds courier services to the list of closely related activities is intended to permit holding companies to transport time critical materials of limited intrinsic value of the types utilized by banks and bank-related firms in performing their business activities. Such transportation activities are of particular importance in the check clearing process of the banking system, but are also important to the performance of other activities, including the processing of financially-related economic data. The authority is not intended to permit holding companies to engage generally in the provision of transportation services.

During the course of the Board’s proceedings pertaining to courier services, objections were made that courier activities were not a proper incident to banking because of the possibility that holding companies would or had engaged in unfair competitive practices. The Board believes that adherence to the following principles will eliminate or reduce to an insignificant degree any possibility of unfair competition:

a. A holding company courier subsidiary established under section 4(c)(8) should be a separate, independent corporate entity, not merely a servicing arm of a bank.

b. As such, the subsidiary should exist as a separate, profit-oriented operation and should not be subsidized by the holding company system.

c. Services performed should be explicitly priced, and shall not be paid for indirectly, for example, on the basis of imputed earnings on deposits maintained at or of loan arrangements with subsidiaries of the holding company. Concern has also been expressed that bank-affiliated courier services will be utilized to gain a competitive advantage over firms competing with other holding company affiliates. To reduce the possibility that courier affiliates might be so employed, the Board will impose the following third condition:

2. The courier subsidiary shall, when requested by any bank or any data processing firm providing financially-related data processing services which firm competes with a banking or data processing subsidiary of Applicant, furnish comparable service at comparable rates, unless compliance with such request would be beyond the courier subsidiary’s practical capacity. In this regard, the courier subsidiary should make known to the public its minimum rate schedule for services and its general pricing policies thereto. The courier subsidiary is also expected to maintain for a reasonable period of time (not less than two years) each request denied with the reasons for such denial.

§ 225.130 Issuance and sale of short-term debt obligations by bank holding companies.

For text of interpretation, see §250.221 of this chapter.

§ 225.131 Activities closely related to banking.

(a) Bank management consulting advice. The Board’s amendment of §225.4(a), which adds bank management consulting advice to the list of closely related activities, described in general terms the nature of such activity. This
§ 225.132 Acquisition of assets.

(a) From time to time questions have arisen as to whether and under what circumstances a bank holding company engaged in nonbank activities, directly or indirectly through a subsidiary, pursuant to section 4(c)(8) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1843(c)(3)), may acquire the assets and employees of another company, without first obtaining Board approval pursuant to section 4(c)(8) and the Board’s Regulation Y (12 CFR 225.4(b)).

(b) In determining whether Board approval is required in connection with the acquisition of assets, it is necessary to determine (a) whether the acquisition is made in the ordinary course of business1 or (b) whether it constitutes the acquisition, in whole or in part, of a going concern.2

(c) The following examples illustrate transactions where prior Board approval will generally be required:

1. The transaction involves the acquisition of all or substantially all of the assets of a company, or a subsidiary, division, department or office thereof.

2. The transaction involves the acquisition of less than “substantially all” of the assets of a company, or a subsidiary, division, department or office thereof, the operations of which are being terminated or substantially

Section 225.4(c)(3) of the Board’s Regulation Y (12 CFR 225.4(c)(3)) generally prohibits a bank holding company or its subsidiary engaged in activities pursuant to authority or section 4(c)(8) of the Act from being a party to any merger “or acquisition of assets other than in the ordinary course of business” without prior Board approval.

1 In accordance with the provisions of section 4(c)(8) of the Act and § 225.4(b) of Regulation Y, the acquisition of a going concern requires prior Board approval.
discontinued by the seller, but such asset acquisition is significant in relation to the size of the same line of nonbank activity of the holding company (e.g., consumer finance mortgage banking, data processing). For purposes of this interpretation, an acquisition would generally be presumed to be significant if the book value of the nonbank assets being acquired exceeds 50 percent of the book value of the nonbank assets of the holding company or nonbank subsidiary comprising the same line of activity.

(3) The transaction involves the acquisition of assets for resale and the sale of such assets is not a normal business activity of the acquiring holding company.

(4) The transaction involves the acquisition of the assets of a company, or a subsidiary, division, department or office thereof, and a major purpose of the transaction is to hire some of the seller’s principal employees who are expert, skilled and experienced in the business of the company being acquired.

(d) In some cases it may be difficult, due to the wide variety of circumstances involving possible acquisition of assets, to determine whether such acquisitions require prior Board approval. Bank holding companies are encouraged to contact their local Reserve Bank for guidance where doubt exists as to whether such an acquisition is in the ordinary course of business or an acquisition, in whole or in part, of a going concern.

§ 225.133 Computation of amount invested in foreign corporations under general consent procedures.

For text of this interpretation, see §211.111 of this subchapter.

[40 FR 43196, Sept. 19, 1975]

(a) In connection with a recent application to become a bank holding company, the Board considered a situation in which shares of a bank were acquired and then placed in escrow by the applicant prior to the Board’s approval of the application. The facts indicated that the applicant company had incurred debt for the purpose of acquiring bank shares and immediately after the purchase the shares were transferred to an unaffiliated escrow agent with instructions to retain possession of the shares pending Board action on the company’s application to become a bank holding company. The escrow agreement provided that, if the application were approved by the Board, the escrow agent was to return the shares to the applicant company; and, if the application were denied, the escrow agent was to deliver the shares to the applicant company’s shareholders upon their assumption of debt originally incurred by the applicant in the acquisition of the bank shares. In addition, the escrow agreement provided that, while the shares were held in escrow, the applicant could not exercise voting or any other ownership rights with respect to those shares.

(b) On the basis of the above facts, the Board concluded that the company had violated the prior approval provisions of section 3 of the Bank Holding Company Act ("Act") at the time that it made the initial acquisition of bank shares and that, for purposes of the Act, the company continued to control those shares in violation of the Act. In view of these findings, individuals and bank holding companies should not enter into escrow arrangements of the type described herein, or any similar arrangement, without securing the prior approval of the Board, since such action could constitute a violation of the Act.

(c) While the above represents the Board’s conclusion with respect to the particular escrow arrangement involved in the proposal presented, the Board does not believe that the use of an escrow arrangement would always result in a violation of the Act. For example, it appears that a transaction whereby bank shares are placed in escrow pending Board action on an application would not involve a violation of the Act so long as title to such shares remains with the seller during the pendency of the application; there are no other indicia that the applicant controls the shares held in escrow; and, in
§ 225.136 Utilization of foreign subsidiaries to sell long-term debt obligations in foreign markets and to transfer the proceeds to their United States parent(s) for domestic purposes.

For text of this interpretation, see § 211.112 of this subchapter.

[42 FR 752, Jan. 4, 1977]

§ 225.137 Acquisitions of shares pursuant to section 4(c)(6) of the Bank Holding Company Act.

(a) The Board has received a request for an interpretation of section 4(c)(6) of the Bank Holding Company Act ("Act") in connection with a proposal under which a number of bank holding companies would purchase interests in an insurance company to be formed for the purpose of underwriting or reinsuring credit life and credit accident and health insurance sold in connection with extensions of credit by the stockholder bank holding companies and their affiliates.

(b) Each participating holding company would own no more than 5 percent of the outstanding voting shares of the company. However, the investment of each holding company would be represented by a separate class of voting security, so that each stockholder would own 100 percent of its respective class. The participating companies would execute a formal "Agreement Among Stockholders" under which each would agree to use its best efforts at all times to direct or recommend to customers and clients the placement of their life, accident and health insurance directly or indirectly with the company. Such credit-related insurance placed with the company would be identified in the records of the company as having been originated by the respective stockholder. A separate capital account would be maintained for each stockholder consisting of the original capital contribution increased or decreased from time to time by the net profit or loss resulting from the insurance business attributable to each stockholder. Thus, each stockholder would receive a return on its investment based upon the claims experience and profitability of the insurance business that it had itself generated. Dividends declared by the board of directors of the company would be payable to each stockholder only out of the earned surplus reflected in the respective stockholder's capital account.

(c) It has been requested that the Board issue an interpretation that section 4(c)(6) of the Act provides an exemption under which participating bank holding companies may acquire such interests in the company without prior approval of the Board.

(d) On the basis of a careful review of the documents submitted, in light of the purposes and provisions of the Act, the Board has concluded that section 4(c)(6) of the Act is inapplicable to this proposal and that a bank holding company must obtain the approval of the Board before participating in such a proposal in the manner described. The Board's conclusion is based upon the following considerations:

(1) Section 2(a)(2)(A) of the Act provides that a company is deemed to have control over a second company if it owns or controls "25 per centum or more of any class of voting securities" of the second company. In the case presented, the stock interest of each participant would be evidenced by a different class of stock and each would accordingly, own 100 percent of a class of voting securities of the company. Thus, each of the stockholders would be deemed to "control" the company and prior Board approval would be required.

1It should be noted that every Board Order granting approval under section 4(c)(6) of the Act contains the following paragraph:

"This determination is subject . . . to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof."
for each stockholder’s acquisition of stock in the company.

The Board believes that this application of section 2(a)(2)(A) of the Act is particularly appropriate on the facts presented here. The company is, in practical effect, a conglomerate of separate business ventures each owned 100 percent by a stockholder the value of whose economic interest in the company is determined by reference to the profits and losses attributable to its respective class of stock. Furthermore, it is the Board’s opinion that this application of section 2(a)(2)(A) is not inconsistent with section 4(c)(6). Even assuming that section (4)(c)(6) is intended to refer to all outstanding voting shares, and not merely the outstanding shares of a particular class of securities, section 4(c)(6) must be viewed as permitting ownership of 5 percent of a company’s voting stock only when that ownership does not constitute “control” as otherwise defined in the Act. For example, it is entirely possible that a company could exercise a controlling influence over the management and policies of a second company, and thus “control” that company under the Act’s definitions, even though it held less than 5 percent of the voting stock of the second company. To view section 4(c)(6) as an unqualified exemption for holdings of less than 5 percent would thus create a serious gap in the coverage of the Act.

(2) The Board believes that section 4(c)(6) should properly be interpreted as creating an exemption from the general prohibitions in section 4 on ownership of stock in nonbank companies only for passive investments amounting to not more than 5 percent of a company’s outstanding stock, and that the exemption was not intended to allow a group of holding companies, through concerted action, to engage in an activity as entrepreneurs. Section 4 of the Act, of course, prohibits not only owning stock in nonbank companies, but engaging in activities other than banking or those activities permitted by the Board under section 4(c)(8) as being closely related to banking. Thus, if a holding company may be deemed to be engaging in an activity through the medium of a company in which it owns less than 5 percent of the voting stock it may nevertheless require Board approval, despite the section 4(c)(6) exemption.

(e) To accept the argument that section 4(c)(6) is an unqualified grant of permission to a bank holding company to own 5 percent of the shares of any nonbanking company irrespective of the nature or extent of the holding company’s participation in the affairs of the nonbanking company would, in the Board’s view, create the potential for serious and widespread evasion of the Act’s controls over nonbanking activities. Such a construction would allow a group of 20 bank holding companies—or even a single bank holding company and one or more nonbank companies—to engage in entrepreneurial joint ventures in businesses prohibited to bank holding companies, a result the Board believes to be contrary to the intent of Congress.

(f) In this proposal, each of the participating stockholders must be viewed as engaging in the business of insurance underwriting. Each stockholder would agree to channel to the company the insurance business it generates, and the value of the interest of each stockholder would be determined by reference to the profitability of the business generated by that stockholder itself. There is no sharing or pooling among stockholders of underwriting risks assumed by the company, and profit or loss from investments is allocated on the basis of each bank holding company’s allocable underwriting profit or loss. The interest of each stockholder is thus clearly that of an entrepreneur rather than that of an investor.

(g) Accordingly, on the basis of the factual situation before the Board, and for the reasons summarized above, the Board has concluded that section 4(c)(6) of the Act cannot be interpreted to exempt the ownership of 5 percent of the voting stock of a company under the circumstances described, and that a bank holding company wishing to become a stockholder in a company under this proposal would be required to obtain the Board’s approval to do so.

§ 225.138 Statement of policy concerning divestitures by bank holding companies.

(a) From time to time the Board of Governors receives requests from companies subject to the Bank Holding Company Act, or other laws administered by the Board, to extend time periods specified either by statute or by Board order for the divestiture of assets held or activities engaged in by such companies. Such divestiture requirements may arise in a number of ways. For example, divestiture may be ordered by the Board in connection with an acquisition found to have been made in violation of law. In other cases the divestiture may be pursuant to a statutory requirement imposed at the time and amendment to the Act was adopted, or it may be required as a result of a foreclosure upon collateral held by the company or a bank subsidiary in connection with a debt previously contracted in good faith. Certain divestiture periods may be extended in the discretion of the Board, but in other cases the Board may be without statutory authority, or may have only limited authority, to extend a specified divestiture period.

(b) In the past, divestitures have taken many different forms, and the Board has followed a variety of procedures in enforcing divestiture requirements. Because divestitures may occur under widely disparate factual circumstances, and because such forced dispositions may have the potential for causing a serious adverse economic impact upon the divesting company, the Board believes it is important to maintain a large measure of flexibility in dealing with divestitures. For these reasons, there can be no fixed rule as to the type of divestiture that will be appropriate in all situations. For example, where divestiture has been ordered to terminate a control relationship created or maintained in violation of the Act, it may be necessary to impose conditions that will assure that the unlawful relationship has been fully terminated and that it will not arise in the future. In other circumstances, however, less stringent conditions may be appropriate.

1) Avoidance of delays in divestitures. Where a specific time period has been fixed for accomplishing divestiture, the affected company should endeavor and should be encouraged to complete the divestiture as early as possible during the specific period. There will generally be substantial advantages to divesting companies in taking steps to plan for and accomplish divestitures well before the end of the divestiture period. For example, delays may impair the ability of the company to realize full value for the divested assets, for as the end of the divestiture period approaches the “forced sale” aspect of the divestiture may lead potential buyers to withhold firm offers and to bargain for lower prices. In addition, because some prospective purchasers may themselves require regulatory approval to acquire the divested property, delay by the divesting company may—by leaving insufficient time to obtain such approvals—have the effect of narrowing the range of prospective purchases. Thus, delay in planning for divestiture may increase the likelihood that the company will seek an extension of the time for divestiture if difficulty is encountered in securing a purchaser, and in certain situations, of course, the Board may be without statutory authority to grant extensions.

2) Submissions and approval of divestiture plans. When a divestiture requirement is imposed, the company affected should generally be asked to submit a divestiture plan promptly for review and approval by the Reserve Bank or the Board. Such a requirement may be imposed pursuant to the Board’s authority under section 5(b) of the Bank Holding Company Act to issue such orders as may be necessary to enable the Board to administer and carry out the purposes of the Act and prevent evasions thereof. A divestiture plan should be as specific as possible, and should indicate the manner in which divestiture will be accomplished—for example, by a bulk sale of the assets to a third party, by “spinoff” or distribution of shares to the shareholders of the divesting company, or by termination of prohibited activities. In addition, the plan should specify the steps the company expects to take in effecting the divestiture and assuring its completeness, and should indicate the time schedule for taking such steps. In
appropriate circumstances, the divestiture plan should make provision for assuring that “controlling influence” relationships, such as management or financial interlocks, will not continue to exist.

(3) Periodic progress reports. A company subject to a divestiture requirement should generally be required to submit regular periodic reports detailing the steps it has taken to effect divestiture. Such a requirement may be imposed pursuant to the Board’s authority under section 5(b) of the Bank Holding Company Act, referred to above, as well as its authority under section 5(c) of the Act to require reports for the purpose of keeping the Board informed as to whether the Act and Board regulations and order thereunder are being complied with. Reports should set forth in detail such matters as the identities of potential buyers who have been approached by the company, the dates of discussions with potential buyers and the identities of the individuals involved in such discussions, the terms of any offers received, and the reasons for rejecting any offers. In addition, the reports should indicate whether the company has employed brokers, investment bankers or others to assist in the divestiture, or its reasons for not doing so, and should describe other efforts by the company to seek out possible purchasers. The purpose of requiring such reports is to insure that substantial and good faith efforts being made by the company to satisfy its divestiture obligations. The frequency of such reports may vary depending upon the nature of the divestiture and the period specified for divestiture. However, such reports should generally not be required less frequently than every three months, and may in appropriate cases be required on a monthly or even more frequent basis. Progress reports as well as divestiture plans should be afforded confidential treatment.

(4) Extensions of divestiture periods. Certain divestiture periods—such as December 31, 1980 deadline for divestitures required by the 1970 Amendments to the Bank Holding Company Act—are not extendable. In such cases it is imperative that divestiture be accomplished in a timely manner. In certain other cases, the Board may have discretion to extend a statutorily prescribed divestiture period within specified limits. For example, under section 4(c)(2) of the Act the Board may extend for three one-year periods the two-year period in which a bank subsidiary of a holding company is otherwise required to divest shares acquired in satisfaction of a debt previously contracted in good faith. In such cases, however, when the permissible extensions expire the Board no longer has discretion to grant further extensions. In still other cases, where a divestiture period is prescribed by the Board, in the exercise of its regulatory judgment, the Board may have broader discretion to grant extensions. Where extensions of specified divestiture periods are permitted by law, extensions should not be granted except under compelling circumstances. Neither unfavorable market conditions, nor the possibility that the company may incur some loss, should alone be viewed as constituting such circumstances—particularly if the company has failed to take earlier steps to accomplish a divestiture under more favorable circumstances. Normally, a request for an extension will not be considered unless the company has established that it has made substantial and continued good faith efforts to accomplish the divestiture within the prescribed period. Furthermore, requests for extensions of divestiture periods must be made sufficiently in advance of the expiration of the prescribed period both to enable the Board to consider the request in an orderly manner and to enable the company to effect a timely divestiture in the event the request for extension is denied. Companies subject to divestiture requirements should be aware that a failure to accomplish a divestiture within the prescribed period may in and of itself be viewed as a separate violation of the Act.

(5) Use of trustees. In appropriate cases a company subject to a divestiture requirement may be required to place the assets subject to divestiture with an independent trustee under instructions to accomplish a sale by a specified date, by public auction if necessary. Such a trustee may be given the responsibility for exercising the
§ 225.139 Voting rights with respect to shares being divested. The use of such a trustee may be particularly appropriate where the divestiture is intended to terminate a control relationship established or maintained in violation of law, or where the divesting company has demonstrated an inability or unwillingness to take timely steps to effect a divestiture.

(6) Presumptions of control. Bank holding companies contemplating a divestiture should be mindful of section 2(g)(3) of the Bank Holding Company Act, which creates a presumption of continued control over the transferred assets where the transferee is indebted to the transferor, or where certain interlocks exist, as well as §225.2 of Regulation Y, which sets forth certain additional control presumptions. Where one of these presumptions has arisen with respect to divested assets, the divestiture will not be considered as complete until the presumption has been overcome. It should be understood that the inquiry into the termination of control relationships is not limited by the statutory and regulatory presumptions of control, and that the Board may conclude that a control relationship still exists even though the presumptions do not apply.

(7) Role of the Reserve Banks. The Reserve Banks have a responsibility for supervising and enforcing divestitures. Specifically, in coordination with Board staff they should review divestiture plans to assure that proposed divestitures will result in the termination of control relationships and will not create unsafe or unsound conditions in any bank or bank holding company: they should monitor periodic progress reports to assure that timely steps are being taken to effect divestitures; and they should prompt companies to take such steps when it appears that progress is not being made. Where Reserve Banks have delegated authority to extend divestiture periods, that authority should be exercised consistently with this policy statement.

§ 225.139 Presumption of continued control under section 2(g)(3) of the Bank Holding Company Act.

(a) Section 2(g)(3) of the Bank Holding Company Act (the “Act”) establishes a statutory presumption that where certain specified relationships exist between a transferor and transferee of shares, the transferor (if it is a bank holding company, or a company that would be such but for the transfer) continues to own or control indirectly the transferred shares. This presumption arises by operation of law, as of the date of the transfer, without the need for any order or determination by the Board. Operation of the presumption may be terminated only by the issuance of a Board determination, after opportunity for hearing, “that the transferor is not in fact capable of controlling the transferee.”

(b) The purpose of section 2(g)(3) is to provide the Board an opportunity to assess the effectiveness of divestitures in certain situations in which there may be a risk that the divestiture will not result in the complete termination of a control relationship. By presuming control to continue as a matter of law, section 2(g)(3) operates to allow the effectiveness of the divestiture to be assessed before the divesting company is permitted to act on the assumption that the divestiture is complete. Thus, for example, if a holding company divests its banking interest under circumstances where the presumption of continued control arises, the divesting company must continue to consider itself bound by the Act until an appropriate order is entered by the Board dispelling the presumption. Section 2(g)(3) does not establish a substantive rule that invalidates transfers to which it applies, and in a great many cases the Board has acted favorably on applications to have the presumption dispelled. It merely provides a procedural opportunity for Board consideration of the effect of such transfers in advance.

[42 FR 10969, Feb. 25, 1977]
Federal Reserve System

§ 225.139

of their being deemed effective. Whether or not the statutory presumption arises, the substantive test for assessing the effectiveness of a divestiture is the same—that is, the Board must be assured that all control relationships between the transferor and the transferred property have been terminated and will not be reestablished.³

(c) In the course of administering section 2(g)(3) the Board has had several occasions to consider the scope of that section. In addition, questions have been raised by and with the Board’s staff as to coverage of the section. Accordingly, the Board believes it would be useful to set forth the following interpretations of section 2(g)(3):

(1) The terms transferor and transferee, as used in section 2(g)(3), include parents and subsidiaries of each. Thus, for example, where a transferee is indebted to a subsidiary of the transferor, or where a specified interlocking relationship exists between the transferor or transferee and a subsidiary of the other (or between subsidiaries of each), the presumption arises. Similarly, if a parent of the transferee is indebted to a parent of the transferor, the presumption arises. The presumption of continued control also arises where an interlock or debt relationship is retained between the divesting company and the company being divested, since the divested company will be or may be viewed as a subsidiary of the transferee or group of transferees.

(2) The terms officers, directors, and trustees, as used in section 2(g)(3), include persons performing functions normally associated with such positions (including general partners in a partnership and limited partners having a right to participate in the management of the affairs of the partnership) as well as persons holding such positions in an advisory or honorary capacity. The presumption arises not only where the transferee or transferred company has an officer, director or trustee in common with the transferor, but where the transferee himself holds such a position with the transferor.⁴ It should be noted that where a transfer takes the form of a pro-rata distribution, or spin-off, of shares to a company’s shareholders, officers and directors of the transferee company are likely to receive a portion of such shares. The presumption of continued control would, of course, attach to any shares transferred to officers and directors of the divesting company, whether by spinoff or outright sale. However, the presumption will be of legal significance—and will thus require an application under section 2(g)(3)—only where the total number of shares subject to the presumption exceeds one of the applicable thresholds in the Act. For example, where officers and directors of a one-bank holding company receive in the aggregate 25 percent or more of the stock of a bank subsidiary being divested by the holding company, the holding company would be presumed to continue to control the divested bank. In such a case it would be necessary for the divesting company to demonstrate that it no longer controls either the divested bank or the officer/director transferees. However, if officers and directors were to receive in the aggregate less than 25 percent of the bank’s stock (and no other shares were subject to the presumption), section 2(g)(3) would not have the legal effect of presuming continued control of

³It should be noted, however, that the Board will require termination of any interlocking management relationships between the divesting company and the transferee or the divested company as a precondition of finding that a divestiture is complete. Similarly, the retention of an economic interest in the divested company that would create an incentive for the divesting company to attempt to influence the management of the divested company will preclude a finding that the divestiture is complete. (See the Board’s Order in the matter of “International Bank”, 1977 Federal Reserve Bulletin 1106, 1113.)

⁴It has been suggested that the words in common with in section 2(g)(3) evidence an intent to make the presumption applicable only where the transferee is a company having an interlock with the transferor. Such an interpretation would, in the Board’s view, create an unwarranted gap in the coverage of section 2(g)(3). Furthermore, because the presumption clearly arises where the transferee is an individual who is indebted to the transferor such an interpretation would result in an illogical internal inconsistency in the statute.
the bank.5 In the case of a divestiture of nonbank shares, an application under section 2(g)(3) would be required whenever officers and directors of the divesting company received in the aggregate more than 5 percent of the shares of the company being divested.

(3) Although section 2(g)(3) refers to transfers of shares it is not, in the Board’s view, limited to disposition of corporate stock. General or limited partnership interests, for example, are included within the term shares. Furthermore, the transfer of all or substantially all of the assets of a company, or the transfer of such a significant volume of assets that the transfer may in effect constitute the disposition of a separate activity of the company, is deemed by the Board to involve a transfer of shares of that company.

(4) The term indebtedness giving rise to the presumption of continued control under section 2(g)(3) of the Act is not limited to debt incurred in connection with the transfer; it includes any debt outstanding at the time of transfer from the transferee to the transferor or its subsidiaries. However, the Board believes that not every kind of indebtedness was within the contemplation of the Congress when section 2(g)(3) was adopted. Routine business credit of limited amounts and loans for personal or household purposes are generally not the kinds of indebtedness that, standing alone, support a presumption that the creditor is able to control the debtor. Accordingly, the Board does not regard the presumption of section 2(g)(3) as applicable to the following categories of credit, provided the extensions of credit are not secured by the transferred property and are made in the ordinary course of business of the transferor (or its subsidiary) that is regularly engaged in the business of extending credit:

(i) Consumer credit extended for personal or household use to an individual transferee; (ii) student loans made for the education of the individual transferee or a spouse or child of the transferee; (iii) a home mortgage loan made to an individual transferee for the purchase of a residence for the individual’s personal use and secured by the residence; and (iv) loans made to companies (as defined in section 2(b) of the Act) in an aggregate amount not exceeding ten per cent of the total purchase price (or if not sold, the fair market value) of the transferred property. The amounts and terms of the preceding categories of credit should not differ substantially from similar credit extended in comparable circumstances to others who are not transferees. It should be understood that, while the statutory presumption in situations involving these categories of credit may not apply, the Board is not precluded in any case from examining the facts of a particular transfer and finding that the divestiture of control was ineffective based on the facts of record.

(d) Section 2(g)(3) provides that a Board determination that a transferor is not in fact capable of controlling a transferee shall be made after opportunity for hearing. It has been the Board’s routine practice since 1966 to publish notice in the FEDERAL REGISTER of applications filed under section 2(g)(3) and to offer interested parties an opportunity for a hearing. Virtually without exception no comments have been submitted on such applications by parties other than the applicant and, with the exception of one case in which the request was later withdrawn, no hearings have been requested in such cases. Because the Board believes that the hearing provision in section 2(g)(3) was intended as a protection for applicants who are seeking to have the presumption overcome by a Board order, a hearing would not be of use where an application is to be granted. In light of the experience indicating that the publication of FEDERAL REGISTER notice of such applications has not served a useful purpose, the Board has decided to alter its procedures in such cases. In the future, FEDERAL REGISTER notice of section 2(g)(3) applications will be published only in cases in which the Board’s General Counsel, acting under delegated authority, has determined not to grant

5Of course, the fact that section 2(g)(3) would not operate to presume continued control would not necessarily mean that control had in fact been terminated if control could be exercised through other means.
§ 225.140 Disposition of property acquired in satisfaction of debts previously contracted.

(a) The Board recently considered the permissibility, under section 4 of the Bank Holding Company Act, of a subsidiary of a bank holding company acquiring and holding assets acquired in satisfaction of a debt previously contracted in good faith (a "dpc" acquisition). In the situation presented, a lending subsidiary of a bank holding company made a "dpc" acquisition of assets and transferred them to a wholly-owned subsidiary of the bank holding company for the purpose of effecting an orderly divestiture. The question presented was whether such "dpc" assets could be held indefinitely by a bank holding company subsidiary as incidental to its permissible lending activity.

(b) While the Board believes that "dpc" acquisitions may be regarded as normal, necessary and incidental to the business of lending, the Board does not believe that the holding of assets acquired "dpc" without any time restrictions is appropriate from the standpoint of prudent banking and in light of the prohibitions in section 4 of the Act against engaging in nonbank activities. If a nonbanking subsidiary of a bank holding company were permitted, either directly or through a subsidiary, to hold "dpc" assets of substantial amount over an extended period of time, the holding of such property could result in an unsafe or unsound banking practice or in the holding company engaging in an impermissible activity in connection with the assets, rather than liquidating them.

(c) The Board notes that section 4(c)(2) of the Bank Holding Company Act provides an exemption from the prohibitions of section 4 of the Act for bank holding company subsidiaries to acquire shares "dpc". It also provides that such "dpc" shares may be held for a period of two years, subject to the Board’s authority to grant three one-year extensions up to a maximum of five years. Viewed in light of the Congressional policy evidenced by section 4(c)(2), the Board believes that a lending subsidiary of a bank holding company or the holding company itself, should be permitted, as an incident to permissible lending activities, to make acquisitions of "dpc" assets. Consistent with the principles underlying the provisions of section 4(c)(2) of the Act and as a matter of prudent banking practice, such assets may be held for no longer than five years from the date of acquisition. Within the divestiture period it is expected that the company will make good faith efforts to dispose of "dpc" shares or assets at the earliest practicable date. While no specific authorization is necessary to hold such assets for the five-year period, after two years from the date of acquisition of such assets, the holding company should report annually on its efforts to accomplish divestiture to its Reserve Bank. The Reserve Bank will monitor the efforts of the company to effect an orderly divestiture, and may order divestiture before the end of the five-year period if supervisory concerns warrant such action.

(d) The Board recognizes that there are instances where a company may encounter particular difficulty in attempting to effect an orderly divestiture of "dpc" real estate holdings within the divestiture period, notwithstanding its persistent good faith efforts to dispose of such property. In the Depository Institutions Deregulation

6It should be noted that in the event a third party should take exception to a Board order under section 2(g)(3) finding that control had been terminated, any rights such party might have would not be prejudiced by the order. If such party brought facts to the Board’s attention indicating that control had not been terminated the Board would have ample authority to revoke its order and take necessary remedial action.

Orders issued under section 2(g)(3) are published in the Federal Reserve “Bulletin.”
and Monetary Control Act of 1980, (Pub. L. 96–221) Congress, recognizing that real estate possesses unusual characteristics, amended the National Banking Act to permit national banks to hold real estate for five years and for an additional five-year period subject to certain conditions. Consistent with the policy underlying the recent Congressional enactment, and as a matter of supervisory policy, a bank holding company may be permitted to hold real estate acquired “dpc” beyond the initial five-year period provided that the value of the real estate on the books of the company has been written down to fair market value, the carrying costs are not significant in relation to the overall financial position of the company, and the company has made good faith efforts to effect divestiture. Companies holding real estate for this extended period are expected to make active efforts to dispose of it, and should keep the Reserve Bank advised on a regular basis concerning their ongoing efforts. Fair market value should be derived from appraisals, comparable sales or some other reasonable method. In any case, “dpc” real estate would not be permitted to be held beyond 10 years from the date of its acquisition.

(e) With respect to the transfer by a subsidiary of other “dpc” shares or assets to another company in the holding company system, including a section 4(c)(1)(D) liquidating subsidiary, or to the holding company itself, such transfers would not alter the original divestiture period applicable to such shares or assets at the time of their acquisition. Moreover, to ensure that assets are not carried at inflated values for extended periods of time, the Board expects, in the case of all such intracompany transfers, that the shares or assets will be transferred at a value no greater than the fair market value at the time of transfer and that the transfer will be made in a normal arms-length transaction.

(f) With regard to “dpc” assets acquired by a banking subsidiary of a holding company, so long as the assets continue to be held by the bank itself, the Board will regard them as being solely within the regulatory authority of the primary supervisor of the bank.

(45 FR 49905, July 28, 1980)

§ 225.141 Operations subsidiaries of a bank holding company.

In orders approving the retention by a bank holding company of a 4(c)(8) subsidiary, the Board has stated that it would permit, without any specific regulatory approval, the formation of a wholly owned subsidiary of an approved 4(c)(8) company to engage in activities that such a company could itself engage in directly through a division or department. (Northwestern Financial Corporation, 65 Federal Reserve Bulletin 566 (1979).) Section 4(a)(2) of the Act provides generally that a bank holding company may engage directly in the business of managing and controlling banks and permissible nonbank activities, and in furnishing services directly to its subsidiaries. Even though section 4 of the Act generally prohibits the acquisition of shares of nonbanking organizations, the Board does not believe that such prohibition should apply to the formation by a holding company of a wholly-owned subsidiary to engage in activities that it could engage in directly. Accordingly, as a general matter, the Board will permit without any regulatory approval a bank holding company to form a wholly-owned subsidiary to perform servicing activities for subsidiaries that the holding company itself could perform directly through a department or a division. The Board believes that permitting this type of subsidiary is not inconsistent with the nonbanking prohibitions of section 4 of the Act, and is consistent with the authority in section 4(c)(1)(C) of the Act, which permits a bank holding company, without regulatory approval, to form a subsidiary to perform services for its banking subsidiaries. The Board notes, however, that a servicing subsidiary established by a bank holding company in reliance on this interpretation will be an affiliate of the
Federal Reserve System

§ 225.142 Statement of policy concerning bank holding companies engaging in futures, forward and options contracts on U.S. Government and agency securities and money market instruments.

(a) Purpose of financial contract positions. In supervising the activities of bank holding companies, the Board has adopted and continues to follow the principle that bank holding companies should serve as a source of strength for their subsidiary banks. Accordingly, the Board believes that any positions that bank holding companies or their nonbank subsidiaries take in financial contracts should reduce risk exposure, that is, not be speculative.

(b) Establishment of prudent written policies, appropriate limitations and internal controls and audit programs. If the parent organization or nonbank subsidiary is taking or intends to take positions in financial contracts, that company's board of directors should approve prudent written policies and establish appropriate limitations to ensure that financial contract activities are performed in a safe and sound manner with levels of activity reasonably related to the organization's business needs and capacity to fulfill obligations. In addition, internal controls and internal audit programs to monitor such activity should be established. The board of directors, a duly authorized committee thereof or the internal auditors should review periodically (at least monthly) all financial contract positions to insure conformity with such policies and limits. In order to determine the company's exposure, all open positions should be reviewed and market values determined at least monthly, or more often, depending on volume and magnitude of positions.

(c) Formulating policies and recording financial contracts. In formulating its policies and procedures, the parent holding company may consider the interest rate exposure of its nonbank subsidiaries, but not that of its bank subsidiaries. As a matter of policy, the Board believes that any financial contracts executed to reduce the interest rate exposure of a bank affiliate of a holding company should be reflected on the books and records of the bank affiliate (to the extent required by the bank policy statements), rather than on the books and records of the parent company. If a bank has an interest rate exposure that management believes requires hedging with financial contracts, the bank should be the direct beneficiary of any effort to reduce that exposure. The Board also believes that final responsibility for financial contract transactions for the account of each affiliated bank should reside with the management of that bank.

(d) Accounting. The joint bank policy statements of March 12, 1980 include accounting guidelines for banks that engage in financial contract activities. Since the Financial Accounting Standards Board is presently considering accounting standards for contract activities, no specific accounting requirements for financial contracts entered into by parent bank holding companies and nonbank subsidiaries are being mandated at this time. The Board expects to review further developments in this area.

(e) Board to monitor bank holding company transactions in financial contracts. The Board intends to monitor closely bank holding company transactions in financial contracts to ensure that any such activity is consistent with maintaining a safe and sound banking system. In any cases where bank holding companies are found to be engaging in speculative practices, the Board is prepared to institute appropriate action under the Financial Institutions Supervisory Act of 1966, as amended.

(f) Federal Reserve Bank notification. Bank holding companies should furnish written notification to their District Federal Reserve Bank within 10 days after financial contract activities are begun by the parent or a nonbank subsidiary. Holding companies in which the parent or a nonbank subsidiary currently engage in financial contract

VerDate Mar<15>2010 15:36 Feb 22, 2013 Jkt 229037 PO 00000 Frm 00259 Fmt 8010 Sfmt 8010 Q:\12\12V3.TXT ofr150 PsN: PC150
§ 225.143 Policy statement on non-voting equity investments by bank holding companies.

(a) Introduction. (1) In recent months, a number of bank holding companies have made substantial equity investments in a bank or bank holding company (the “acquiree”) located in states other than the home state of the investing company through acquisition of preferred stock or nonvoting common shares of the acquiree. Because of the evident interest in these types of investments and because they raise substantial questions under the Bank Holding Company Act (the “Act”), the Board believes it is appropriate to provide guidance regarding the consistency of such arrangements with the Act.

(2) This statement sets out the Board’s concerns with these investments, the considerations the Board will take into account in determining whether the investments are consistent with the Act, and the general scope of arrangements to be avoided by bank holding companies. The Board recognizes that the complexity of legitimate business arrangements precludes rigid rules designed to cover all situations and that decisions regarding the existence or absence of control in any particular case must take into account the effect of the combination of provisions and covenants in the agreement as a whole and the particular facts and circumstances of each case. Nevertheless, the Board believes that the factors outlined in this statement provide a framework for guiding bank holding companies in complying with the requirements of the Act.

(b) Statutory and regulatory provisions. (1) Under section 3(a) of the Act, a bank holding company may not acquire direct or indirect ownership or control of more than 5 per cent of the voting shares of a bank without the Board’s prior approval. (12 U.S.C. 1842(a)(3)). In addition, this section of the Act provides that a bank holding company may not, without the Board’s prior approval, acquire control of a bank: That is, in the words of the statute, “for any action to be taken that causes a bank to become a subsidiary of a bank holding company.” (12 U.S.C. 1842(a)(2)). Under the Act, a bank is a subsidiary of a bank holding company if:

(i) The company directly or indirectly owns, controls, or holds with power to vote 25 per cent or more of the voting shares of the bank;

(ii) The company controls in any manner the election of a majority of the board of directors of the bank; or

(iii) The Board determines, after notice and opportunity for hearing, that the company has the power, directly or indirectly, to exercise a controlling influence over the management or policies of the bank. (12 U.S.C. 1841(d)).

(2) In intrastate situations, the Board may approve bank holding company acquisitions of additional banking subsidiaries. However, where the acquiree is located outside the home state of the investing bank holding company, section 3(d) of the Act prevents the Board from approving any application that will permit a bank holding company to “acquire, directly or indirectly, any voting shares of, interest in, or all or substantially all of the assets of any additional bank.” (12 U.S.C. 1842(d)(1)).

(c) Review of agreements. (1) In apparent expectation of statutory changes that might make interstate banking permissible, bank holding companies have sought to make substantial equity investments in other bank holding companies across state lines, but without obtaining more than 5 per cent of the voting shares or control of the acquiree. These investments involve a combination of the following arrangements:

(i) Options on, warrants for, or rights to convert nonvoting shares into substantial blocks of voting securities of the acquiree bank holding company or its subsidiary bank(s);

(ii) Merger or asset acquisition agreements with the out-of-state bank or bank holding company that are to be consummated in the event interstate banking is permitted;
(iii) Provisions that limit or restrict major policies, operations or decisions of the acquiree; and

(iv) Provisions that make acquisition of the acquiree or its subsidiary bank(s) by a third party either impossible or economically impracticable.

The various warrants, options, and rights are not exercisable by the investing bank holding company unless interstate banking is permitted, but may be transferred by the investor either immediately or after the passage of a period of time or upon the occurrence of certain events.

(2) After a careful review of a number of these agreements, the Board believes that investments in nonvoting stock, absent other arrangements, can be consistent with the Act. Some of the agreements reviewed appear consistent with the Act since they are limited to investments of relatively moderate size in nonvoting equity that may become voting equity only if interstate banking is authorized.

(3) However, other agreements reviewed by the Board raise substantial problems of consistency with the control provisions of the Act because the investors, uncertain whether or when interstate banking may be authorized, have evidently sought to assure the soundness of their investments, prevent takeovers by others, and allow for sale of their options, warrants, or rights to a person of the investor’s choice in the event a third party obtains control of the acquiree or the investor otherwise becomes dissatisfied with its investment. Since the Act excludes the investors from protecting their investments through ownership or use of voting shares or other exercise of control, the investors have substituted contractual agreements for rights normally achieved through voting shares.

(4) For example, various covenants in certain of the agreements seek to assure the continuing soundness of the investment by substantially limiting the discretion of the acquiree’s management over major policies and decisions, including restrictions on entering into new banking activities without the investor’s approval and requirements for extensive consultations with the investor on financial matters. By their terms, these covenants suggest control by the investing company over the management and policies of the acquiree.

(5) Similarly, certain of the agreements deprive the acquiree bank holding company, by covenant or because of an option, of the right to sell, transfer, or encumber a majority or all of the voting shares of its subsidiary bank(s) with the aim of maintaining the integrity of the investment and preventing takeovers by others. These long-term restrictions on voting shares fall within the presumption in the Board’s Regulation Y that attributes control of shares to any company that enters into any agreement placing long-term restrictions on the rights of a holder of voting securities. (12 CFR 225.2(b)(4)).

(6) Finally, investors wish to reserve the right to sell their options, warrants or rights to a person of their choice to prevent being locked into what may become an unwanted investment. The Board has taken the position that the ability to control the ultimate disposition of voting shares to a person of the investor’s choice and to secure the economic benefits therefrom indicates control of the shares under the Act. Moreover, the ability to transfer rights to large blocks of voting shares, even if nonvoting in the hands of the investing company, may result in such a substantial position of leverage over the management of the acquiree as to involve a structure that inevitably results in control prohibited by the Act.

(d) Provisions that avoid control. (1) In the context of any particular agreement, provisions of the type described above may be acceptable if combined with other provisions that serve to preclude control. The Board believes that such agreements will not be consistent with the Act unless provisions are included that will preserve management’s discretion over the policies and decisions of the acquiree and avoid control of voting shares.

(2) As a first step towards avoiding control, covenants in any agreement
should leave management free to conduct banking and permissible non-banking activities. Another step to avoid control is the right of the acquiree to “call” the equity investment and options or warrants to assure that covenants that may become inhibiting can be avoided by the acquiree. This right makes such investments or agreements more like a loan in which the borrower has a right to escape covenants and avoid the lender’s influence by prepaying the loan.

(3) A measure to avoid problems of control arising through the investor’s control over the ultimate disposition of rights to substantial amounts of voting shares of the acquiree would be a provision granting the acquiree a right of first refusal before warrants, options or other rights may be sold and requiring a public and dispersed distribution of these rights if the right of first refusal is not exercised.

(4) In this connection, the Board believes that agreements that involve rights to less than 25 percent of the voting shares, with a requirement for a dispersed public distribution in the event of sale, have a much greater prospect of achieving consistency with the Act than agreements involving a greater percentage. This guideline is drawn by analogy from the provision in the Act that ownership of 25 percent or more of the voting securities of a bank constitutes control of the bank.

(5) The Board expects that one effect of this guideline would be to hold down the size of the nonvoting equity investment by the investing company relative to the acquiree’s total equity, thus avoiding the potential for control because the investor holds a very large proportion of the acquiree’s total equity. Observance of the 25 percent guideline will also make provisions in agreements providing for a right of first refusal or a public and widely dispersed offering of rights to the acquiree’s shares more practical and realistic.

(6) Finally, certain arrangements should clearly be avoided regardless of other provisions in the agreement that are designed to avoid control. These are:

(i) Agreements that enable the investing bank holding company (or its designee) to direct in any manner the voting of more than 5 per cent of the voting shares of the acquiree;

(ii) Agreements whereby the investing company has the right to direct the acquiree’s use of the proceeds of an equity investment by the investing company to effect certain actions, such as the purchase and redemption of the acquiree’s voting shares; and

(iii) The acquisition of more than 5 per cent of the voting shares of the acquiree that “simultaneously” with their acquisition by the investing company become nonvoting shares, remain nonvoting shares while held by the investor, and revert to voting shares when transferred to a third party.

(e) Review by the Board. This statement does not constitute the exclusive scope of the Board’s concerns, nor are the considerations with respect to control outlined in this statement an exhaustive catalog of permissible or impermissible arrangements. The Board has instructed its staff to review agreements of the kind discussed in this statement and to bring to the Board’s attention those that raise problems of consistency with the Act. In this regard, companies are requested to notify the Board of the terms of such proposed merger or asset acquisition agreements or nonvoting equity investments prior to their execution or consummation.

[47 FR 30966, July 16, 1982]
§ 225.145

1987, controlled a nonbank bank (an institution that became a bank as a result of enactment of CEBA) and that was not a bank holding company on August 9, 1987, to retain its nonbank bank and not be treated as a bank holding company for purposes of the BHC Act if the company and its subsidiary nonbank bank observe certain limitations imposed by CEBA. Certain of these limitations are codified in section 4(f)(3) of the BHC Act and generally restrict nonbank banks from commencing new activities or certain cross-marketing activities with affiliates after March 5, 1987, or permitting overdrafts for affiliates or incurring overdrafts on behalf of affiliates at a Federal Reserve Bank. 12 U.S.C. 1843(f)(3). The Board’s views regarding the meaning and scope of these limitations are set forth below and in provisions of the Board’s Regulation Y (12 CFR 225.52).

(b) Congressional findings. (1) At the outset, the Board notes that the scope and application of the Act’s limitations on nonbank banks must be guided by the Congressional findings set out in section 4(f)(3) of the BHC Act. Congress was aware that these nonbank banks had been acquired by companies that engage in a wide range of nonbanking activities, such as retailing and general securities activities that are forbidden to bank holding companies under section 4 of the BHC Act. Congress found that nonbank banks controlled by grandfathered nonbanking companies may, because of their relationships with affiliates, be involved in conflicts of interest, concentration of resources, or other effects adverse to bank safety and soundness. Congress also found that nonbank banks may be able to compete unfairly against banks controlled by bank holding companies by combining banking services with financial services not permissible for bank holding companies. Section 4(f)(3) states that the purpose of the nonbank bank limitations is to minimize any such potential adverse effects or inequities by restricting the activities of nonbank banks until further Congressional action in the area of bank powers could be undertaken. Similarly, the Senate Report accompanying CEBA states that the restrictions CEBA places on nonbank banks “will help prevent existing nonbank banks from changing their basic character * * * while Congress considers proposals for comprehensive legislation; from drastically eroding the separation of banking and commerce; and from increasing the potential for unfair competition, conflicts of interest, undue concentration of resources, and other adverse effects.” S. Rep. No. 100–19, 100th Cong., 1st Sess. 12 (1987). See also H. Rep. No. 100–261, 100th Cong., 1st Sess. 124 (1987) (the “Conference Report”).

(2) Thus, Congress explicitly recognized in the statute itself that nonbanking companies controlling grandfathered nonbank banks, which include the many of the nation’s largest commercial and financial organizations, were being accorded a significant competitive advantage that could not be matched by bank holding companies because of the general prohibition against nonbanking activities in section 4 of the BHC Act. Congress recognized that this inequality in regulatory approach could inflict serious competitive harm on regulated bank holding companies as the grandfathered entities sought to exploit potential synergies between banking and commercial products and services. See Conference Report at 125–126. The basic and stated purpose of the restrictions on grandfathered nonbank banks is to minimize these potential anticompetitive effects.

12 U.S.C. 1843(f). Such a company is treated as a bank holding company, however, for purposes of the anti-tying provisions in section 106 of the BHC Act Amendments of 1970 (12 U.S.C. 1843(f)). The company is also subject to certain examination and enforcement provisions to assure compliance with CEBA.

2CEBA also prohibits, with certain limited exceptions, a company controlling a grandfathered nonbank bank from acquiring control of an additional bank or thrift institution or acquiring, directly or indirectly after March 5, 1987, more than 5 percent of the assets or shares of a bank or thrift institution. 12 U.S.C. 1843(f)(2).
(3) The Board believes that the specific CEBA limitations should be implemented in light of these Congressional findings and the legislative intent reflected in the plain meaning of the terms used in the statute. In those instances when the language of the statute did not provide clear guidance, legislative materials and the Congressional intent manifested in the overall statutory structure were considered. The Board also notes that prior precedent requires that grandfather exceptions in the BHC Act, such as the nonbank bank limitations and particularly the exceptions thereto, are to be interpreted narrowly in order to ensure the proper implementation of Congressional intent.3

(c) Activity limitation—(1) Scope of activity. (i) The first limitation established under section 4(f)(3) provides that a nonbank bank shall not “engage in any activity in which such bank was not lawfully engaged as of March 5, 1987.” The term activity as used in this provision of CEBA is not defined. The structure and placement of the CEBA activity restriction within section 4 of the BHC Act and its legislative history do, however, provide direction as to certain transactions that Congress intended to treat as separate activities, thereby providing guidance as to the meaning Congress intended to ascribe to the term generally. First, it is clear that the term activity was not meant to refer to banking as a single activity. To the contrary, the term must be viewed as distinguishing between deposit taking and lending activities and treating demand deposit-taking as a separate activity from general deposit-taking and commercial lending as separate from the general lending category.

(ii) Under the activity limitation, a nonbank bank may engage only in activities in which it was “lawfully engaged” as of March 5, 1987. As of that date, a nonbank bank could not have been engaged in both demand deposit-taking and commercial lending activity without placing it and its parent

holding company in violation of the BHC Act. Thus, under the activity limitations, a nonbank bank could not after March 5, 1987, commence the demand deposit-taking or commercial lending activity that it did not conduct as of March 5, 1987. The debates and Senate and Conference Reports on CEBA confirm that Congress intended the activity limitation to prevent a grandfathered nonbank bank from converting itself into a full-service bank by both offering demand deposits and engaging in the business of making commercial loans.4 Thus, these types of transactions provide a clear guide as to the type of banking transactions that would constitute activities under CEBA and the degree of specificity intended by Congress in interpreting that term.

(iii) It is also clear that the activity limitation was not intended simply to prevent a nonbank bank from both accepting demand deposits and making commercial loans; it has a broader scope and purpose. If Congress had meant the term to refer to just these two activities, it would have used the restriction it used in another section of CEBA dealing with nonbank banks owned by bank holding companies which has this result, i.e., the nonbank bank could not engage in any activity that would have caused it to become a bank under the prior bank definition in the Act. See 12 U.S.C. 1843(g)(1)(A). Indeed, an earlier version of CEBA under consideration by the Senate Banking Committee contained such a provision for nonbank banks owned by commercial holding companies, which was deleted in favor of the broader activity limitation actually enacted. Committee Print No. 1, (Feb. 17, 1987). In this regard, both the Senate Report and Conference Report refer to demand deposit-taking and commercial lending as examples of activities that could be affected by the activity limitation, not

---

4Cf., Spokane & Inland Empire Railroad Co. v. United States, 211 U.S. 344, 350 (1915).
Federal Reserve System § 225.145

as the sole activities to be limited by the provision.5

(iv) Finally, additional guidance as to the meaning of the term activity is provided by the statutory context in which the term appears. The activity limitation is contained in section 4 of the BHC Act, which regulates the investments and activities of bank holding companies and their nonbank subsidiaries. The Board believes it reasonable to conclude that by placing the CEBA activity limitation in section 4 of the BHC Act, Congress meant that Board and judicial decisions regarding the meaning of the term activity in that section be looked to for guidance. This is particularly appropriate given the fact that grandfathered nonbank banks, whether owned by bank holding companies or unregulated holding companies, were treated as nonbank companies and not banks before enactment of CEBA.

(v) This interpretation of the term activity draws support from comments by Senator Proxmire during the Senate’s consideration of the provision that the term was not intended to apply “on a product-by-product, customer-by-customer basis.” 133 Cong. Rec. S4664–5 (daily ed. March 27, 1987). This is the same manner in which the Board has interpreted the term activity in the nonbanking provision of section 4 as referring to generic categories of activities, not to discrete products and services.

(vi) Accordingly, consistent with the terms and purposes of the legislation and the Congressional intent to minimize unfair competition and the other adverse effects set out in the CEBA findings, the Board concludes that the term activity as used in section 4(f)(3) means any line of banking or nonbanking business. This definition does not, however, envision a product-by-product approach to the activity limitation. The Board believes it would be helpful to describe the application of the activity limitation in the context of the following major categories of activities: deposit-taking, lending, trust, and other activities engaged in by banks.

255

(2) Deposit-taking activities. (i) With respect to deposit-taking, the Board believes that the activity limitation in section 4(f)(3) generally refers to three types of activity: demand deposit-taking; non-demand deposit-taking with a third party payment capability; and time and savings deposit-taking without third party payment powers. As previously discussed, it is clear from the terms and intent of CEBA that the activity limitation would prevent, and was designed to prevent, nonbank banks that prior to the enactment of CEBA had refrained from accepting demand deposits in order to avoid coverage as a bank under the BHC Act, from starting to take these deposits after enactment of CEBA and thus becoming full-service banks. Accordingly, CEBA requires that the taking of demand deposits be treated as a separate activity.

(ii) The Board also considers non-demand deposits withdrawable by check or other similar means for payment to third parties or others to constitute a separate line of business for purposes of applying the activity limitation. In this regard, the Board has previously recognized that this line of business constitutes a permissible but separate activity under section 4 of the BHC Act. Furthermore, the offering of accounts with transaction capability requires different expertise and systems than non-transaction deposit-taking and represented a distinct new activity that traditionally separated banks from thrift and similar institutions.

(iii) Support for this view may also be found in the House Banking Committee report on proposed legislation prior to CEBA that contained a similar prohibition on new activities for nonbank banks. In discussing the activity limitation, the report recognized a distinction between demand deposits and accounts with transaction capability and those without transaction capability:

With respect to deposits, the Committee recognizes that it is legitimate for an institution currently involved in offering demand deposits or other third party transaction accounts to make use of new technologies that are in the process of replacing the existing check-based, paper payment system. Again, however, the Committee does not believe

(iv) Finally, this distinction between demand and nondemand checkable accounts and accounts not subject to withdrawal by check was specifically recognized by Congress in the redefinition of the term bank in CEBA to include an institution that takes demand deposits or “deposits that the depositor may withdraw by check or other means for payment to third parties or others” as well as in various exemptions from that definition for trust companies, credit card banks, and certain industrial banks. 

(v) Thus, an institution that as of March 5, 1987, offered only time and savings accounts that were not withdrawable by check for payment to third parties could not thereafter begin offering accounts with transaction capability, for example, NOW accounts or other types of transaction accounts.

(3) Lending. As noted, the CEBA activity limitation does not treat lending as a single activity; it clearly distinguishes between commercial and other types of lending. This distinction is also reflected in the definition of bank in the BHC Act in effect both prior to and after enactment of CEBA as well as in various of the exceptions from this definition. In addition, commercial lending is a specialized form of lending involving different techniques and analysis from other types of lending. Based upon these factors, the Board would view commercial lending as a separate and distinct activity for purposes of the activity limitation in section 4(f)(3). The Board’s decisions under section 4 of the BHC Act have not generally differentiated between types of commercial lending, and thus the Board would view commercial lending as a single activity for purposes of CEBA. Thus, a nonbank bank that made commercial loans as of March 5, 1987, could make any type of commercial loan thereafter.

(i) Commercial lending. For purposes of the activity limitation, a commercial loan is defined in accordance with the Supreme Court’s decision in Board of Governors v. Dimension Financial Corporation, 474 U.S. 361 (1986), as a direct loan to a business customer for the purpose of providing funds for that customer’s business. In this regard, the Board notes that whether a particular transaction is a commercial loan must be determined not from the face of the instrument, but from the application of the definition of commercial loan in the Dimension decision to that transaction. Thus, certain transactions of the type mentioned in the Board’s ruling at issue in Dimension and in the Senate and Conference Reports in the CEBA legislation would be commercial loans if they meet the test for commercial loans established in Dimension. Under this test, a commercial loan would not include, for example, an open-market investment in a commercial entity that does not involve a borrower-lender relationship or negotiation of credit terms, such as a money market transaction.

(ii) Other lending. Based upon the guidance in the Act as to the degree of specificity required in applying the activity limitation with respect to lending, the Board believes that, in addition to commercial lending, there are three other types of lending activities: consumer mortgage lending, consumer credit card lending, and other consumer lending. For example, these activities are, in many cases, conducted by specialized institutions, such as mortgage companies and credit card institutions, or through separate organizational structures within an institution, particularly in the case of mortgage lending. Additionally, the Board’s decisions under section 4 of the Act have recognized mortgage banking and credit card lending as separate activities for bank holding companies.
In this area, section 4 of the Act does not treat all insurance agency activities as a single activity. Thus, for example, the Act treats the sale of credit-related life, accident and health insurance as a separate activity from general insurance agency activities. See 12 U.S.C. 1848(c)(8).

9In this area, section 4 of the Act does not treat all insurance agency activities as a single activity. Thus, for example, the Act...
§ 225.145  12 CFR Ch. II (1–1–13 Edition)

bank definition in the Act, the nonbank bank could not recommence that activity after enactment of CEBA.

(d) Cross-marketing limitation—(1) In general. Section 4(f)(3) also limits cross-marketing activities by nonbank banks and their affiliates. Under this provision, a nonbank bank may not offer or market a product or service of an affiliate unless the product or service may be offered by bank holding companies generally under section 4(c)(8) of the BHC Act. In addition, a nonbank bank may not permit any of its products or services to be offered or marketed by or through a nonbank affiliate unless the affiliate engages only in activities permissible for a bank holding company under section 4(c)(8). These limitations are subject to an exception for products or services that were being so offered or marketed as of March 5, 1987, but only in the same manner in which they were being offered or marketed as of that date.

(2) Examples of impermissible cross-marketing. The Conference Report illustrates the application of this limitation to the following two covered transactions: (i) products and services of an affiliate that bank holding companies may not offer under the BHC Act, and (ii) products and services of the nonbank bank. In the first case, the restrictions would prohibit, for example, a company from marketing life insurance or automotive supplies through its affiliate nonbank bank because these products are not generally permissible under the BHC Act. Conference Report at 126. In the second case, a nonbank bank may not permit its products or services to be offered or marketed through a life insurance affiliate or automobile parts retailer because these affiliates engage in activities prohibited under the BHC Act. Id.

(3) Permissible cross-marketing. On the other hand, a nonbank bank could offer to its customers consumer loans from an affiliated mortgage banking or consumer finance company. These affiliates could likewise offer their customers the nonbank bank’s products or services provided the affiliates engaged only in activities permitted for bank holding companies under the closely-related-to-banking standard of section 4(c)(8) of the BHC Act. If the affiliate is engaged in both permissible and impermissible activities within the meaning of section 4(c)(8) of the BHC Act, however, the affiliate could not offer or market the nonbank bank’s products or services.

(4) Product approach to cross-marketing restriction. (i) Unlike the activity restrictions, the cross-marketing restrictions of CEBA apply by their terms to individual products and services. Thus, an affiliate of a nonbank bank that was engaged in activities that are not permissible for bank holding companies and that was marketing a particular product or service of a nonbank bank on the grandfather date could continue to market that product and, as discussed below, could change the terms and conditions of the loan. The nonbank affiliate could not, however, begin to offer or market another product or service of the nonbank bank.

(ii) The Board believes that the term product or service must be interpreted in light of its accepted ordinary commercial usage. In some instances, commercial usage has identified a group of products so closely related that they constitute a product line (e.g., certificates of deposit) simply represent a difference in the terms of the product. This approach is consistent with the treatment in CEBA’s legislative history of certificates of deposit as a product line rather than each particular type of CD as a separate product.

(iii) In the area of consumer lending, the Board believes the following provide examples of different consumer loan products: mortgage loans to finance the purchase of the borrower’s

11 During the Senate debates on CEBA, Senator Proxmire in response to a statement from Senator Cranston that the joint-marketing restrictions do not lock into place the specific terms or conditions of the particular grandfathered product or service, stated: That is correct. For example, if a nonbank bank was jointly marketing on March 5, 1987, a 3 year, $5,000 certificate of deposit, this bill would not prohibit offering in the same manner a 1 year, $2,000 certificate of deposit with a different interest rate. 133 Cong. Rec. S3859 (daily ed. March 26, 1987).
Federal Reserve System § 225.145

259

certificate of deposit through an affiliate under the exemption could offer a one-year $2,000 certificate of deposit with a different interest rate after the grandfather date. See footnote 11 above. Modifications that alter the type of product, however, are not permitted. Thus, a nonbank bank that marketed through affiliates on March 5, 1987, only certificates of deposit could not commence marketing MMDA’s or NOW accounts after the grandfather date.

(ii) General changes in the character of the product or service as the result of market or technological innovation are similarly permitted to the extent that they do not transform a grandfathered product into a new product. Thus, an unsecured line of credit could not be modified to include a lien on the borrower’s residence without becoming a new product.

(6) Meaning of offer or market. In the Board’s opinion, the terms offer or market in the cross-marketing restrictions refer to the presentation to a customer of an institution’s products or service through any type of program, including telemarketing, advertising brochures, direct mailing, personal solicitation, customer referrals, or joint-marketing agreements or presentations. An institution must have offered or actually marketed the product or service on March 5 or shortly before that date (as discussed above) to qualify for the grandfather privilege. Thus, if the cross-marketing program was in the planning stage on March 5, 1987, the program would not qualify for grandfather treatment under CEBA.

(7) Limitations on cross-marketing to in the same manner. (i) The cross-marketing restriction in section 4(f)(3) contains a grandfather provision that permits products or services that would otherwise be prohibited from being offered or marketed under the provision to continue to be offered or marketed by a particular entity if the products or services were being offered or marketed as of March 5, 1987, but “only in the same manner in which they were being offered or marketed as of that date.” Thus, to qualify for the grandfather provision, the manner of offering or marketing the otherwise prohibited product or service must remain the same as on the grandfather date.

12In this regard, the Supreme Court in United States v. Philadelphia National Bank, noted that “the principal banking products are of course various types of credit, for example: unsecured personal and business loans, mortgage loans, loans secured by securities or accounts receivable, automobile installment and consumer goods, installment loans, tuition financing, bank credit cards, revolving credit funds.” 374 U.S. 321, 326 n.5 (1963).
(ii) In interpreting this provision, the Board notes that Congress designed the joint-marketing restrictions to prevent the significant risk to the public posed by the conduct of such activities by insured banks affiliated with companies engaged in general commerce, to ensure objectivity in the credit-granting process and to “minimize the unfair competitive advantage that grandfathered commercial companies owning nonbank banks might otherwise engage over regulated bank holding companies and our competing commercial companies that have no subsidiary bank.” Conference Report at 125–126. The Board believes that determinations regarding the manner of cross-marketing of a particular product or service may best be accomplished by applying the limitation to the particular facts in each case consistent with the stated purpose of this provision of CEBA and the general principle that grandfather restrictions and exceptions to general prohibitions must be narrowly construed in order to prevent the exception from nullifying the rule. Essentially, as in the scope of the term “product or service”, the guiding principle of Congressional intent with respect to this term is to permit only the continuation of the specific types of cross-marketing activity that were undertaken as of March 5, 1987.

(b) Eligibility for cross-marketing grandfather exemption. The Conference Report also clarifies that entitlement to an exemption to continue to cross-market products and services otherwise prohibited by the statute applies only to the specific company that was engaged in the activity as of March 5, 1987. Conference Report at 126. Thus, an affiliate that was not engaged in cross-marketing products or services as of the grandfather date may not commence these activities under the exemption even if such activities were being conducted by another affiliate. Id.; see also S. Rep. No. 100–19 at 33–34.

(c) Eligibility for grandfathered nonbank bank status. In reviewing the reports required by CEBA, the Board notes that a number of institutions that had not commenced business operations on August 10, 1987, the date of enactment of CEBA, claimed grandfathered privileges under section 4(f)(3) of CEBA. To qualify for grandfather privileges under section 4(f)(3), the institution must have “become a bank as a result of the enactment of [CEBA]” and must have been controlled by a nonbanking company on March 5, 1987. 12 U.S.C. 1843(f)(1)(A). An institution that did not have FDIC insurance on August 10, 1987, and that did not accept demand deposits or transaction accounts or engage in the business of commercial lending on that date, would not have become a bank as a result of enactment of CEBA. Thus, institutions that had not commenced operations on August 10, 1987, could not qualify for grandfather privileges under section 4(f)(3) of CEBA. This view is supported by the activity limitations of section 4(f)(3), which, as noted, limit the activities of grandfathered nonbank banks to those in which they were lawfully engaged as of March 5, 1987. A nonbank bank that had not commenced conducting business activities on March 5, 1987, could not after enactment of CEBA engage in any activities under this provision.

Subpart J—Merchant Banking Investments

§ 225.170 What type of investments are permitted by this subpart, and under what conditions may they be made?

(a) What types of investments are permitted by this subpart? Section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)) and this subpart authorize a financial holding company, directly or indirectly and as principal or on behalf of one or more persons, to acquire or control any amount of shares, assets or ownership interests of a company or other entity that is engaged in any activity not otherwise authorized for the financial holding company under section 4 of the Bank Holding Company Act. For purposes of this subpart, shares, assets or ownership interests acquired or controlled under section 4(k)(4)(H) and this subpart are
§ 225.171 What are the limitations on managing or operating a portfolio company held as a merchant banking investment?

(a) May a financial holding company routinely manage or operate a portfolio company? Except as permitted in paragraph (e) of this section, a financial holding company may not routinely manage or operate any portfolio company.

(b) When does a financial holding company routinely manage or operate a company?—

(1) Examples of routine management or operation—

(i) Executive officer interlocks at the portfolio company. A financial holding company routinely manages or operates a portfolio company if any director, officer or employee of the financial holding company serves as or has the responsibilities of an executive officer of the portfolio company.

(ii) Interlocks by executive officers of the financial holding company. (A) Prohibition. A financial holding company

(1) Securities affiliate. The financial holding company is or has an affiliate that is registered under the Securities Exchange Act of 1934 (15 U.S.C. 78c, 78o, 78o–4) as:

(i) A broker or dealer; or

(ii) A municipal securities dealer, including a separately identifiable department or division of a bank that is registered as a municipal securities dealer.

(2) Insurance affiliate with an investment adviser affiliate. The financial holding company controls:

(A) An insurance company that is predominantly engaged in underwriting life, accident and health, or property and casualty insurance (other than credit-related insurance), or providing and issuing annuities; and

(i) A company that:

(B) Provides investment advice to an insurance company.
§ 225.171  12 CFR Ch. II (1–1–13 Edition)

routinely manages or operates a portfolio company if any executive officer of the financial holding company serves as or has the responsibilities of an officer or employee of the portfolio company.

(B) Definition. For purposes of paragraph (b)(1)(ii)(A) of this section, the term “financial holding company” includes the financial holding company and only the following subsidiaries of the financial holding company:

(1) A securities broker or dealer registered under the Securities Exchange Act of 1934;
(2) A depository institution;
(3) An affiliate that engages in merchant banking activities under this subpart or insurance company investment activities under section 4(k)(4)(I) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(I));
(4) A small business investment company (as defined in section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) controlled by the financial holding company or by any depository institution controlled by the financial holding company; and
(5) Any other affiliate that engages in significant equity investment activities that are subject to a special capital charge under the capital adequacy rules or guidelines of the Board.

(iii) Covenants regarding ordinary course of business. A financial holding company routinely manages or operates a portfolio company if any covenant or other contractual arrangement exists between the financial holding company and the portfolio company that would restrict the portfolio company’s ability to make routine business decisions, such as entering into transactions in the ordinary course of business or hiring officers or employees other than executive officers.

(2) Presumptions of routine management or operation. A financial holding company is presumed to routinely manage or operate a portfolio company if:

(i) Any director, officer, or employee of the financial holding company serves as or has the responsibilities of an officer (other than an executive officer) or employee of the portfolio company; or
(ii) Any officer or employee of the portfolio company is supervised by any director, officer, or employee of the financial holding company (other than in that individual’s capacity as a director of the portfolio company).

(c) How may a financial holding company rebut a presumption that it is routinely managing or operating a portfolio company? A financial holding company may rebut a presumption that it is routinely managing or operating a portfolio company under paragraph (b)(2) of this section by presenting information to the Board demonstrating to the Board’s satisfaction that the financial holding company is not routinely managing or operating the portfolio company.

(d) What arrangements do not involve routinely managing or operating a portfolio company?—(1) Director representation at portfolio companies. A financial holding company may select any or all of the directors of a portfolio company or have one or more of its directors, officers, or employees serve as directors of a portfolio company if:

(i) The portfolio company employs officers and employees responsible for routinely managing and operating the company; and
(ii) The financial holding company does not routinely manage or operate the portfolio company, except as permitted in paragraph (e) of this section.

(2) Covenants or other provisions regarding extraordinary events. A financial holding company may, by virtue of covenants or other written agreements with a portfolio company, restrict the ability of the portfolio company, or require the portfolio company to consult with or obtain the approval of the financial holding company, to take actions outside of the ordinary course of the business of the portfolio company. Examples of the types of actions that may be subject to these types of covenants or agreements include, but are not limited to, the following:

(i) The acquisition of significant assets or control of another company by the portfolio company or any of its subsidiaries;
(ii) Removal or selection of an independent accountant or auditor or investment banker by the portfolio company;

(iii) Any director, officer, or employee of the financial holding company serves as or has the responsibilities of an officer (other than an executive officer) or employee of the portfolio company; or

(iv) Any officer or employee of the portfolio company is supervised by any director, officer, or employee of the financial holding company (other than in that individual’s capacity as a director of the portfolio company).
Federal Reserve System § 225.171

(iii) Significant changes to the business plan or accounting methods or policies of the portfolio company;

(iv) Removal or replacement of any or all of the executive officers of the portfolio company;

(v) The redemption, authorization or issuance of any equity or debt securities (including options, warrants or convertible shares) of the portfolio company or any borrowing by the portfolio company outside of the ordinary course of business;

(vi) The amendment of the articles of incorporation or by-laws (or similar governing documents) of the portfolio company; and

(vii) The sale, merger, consolidation, spin-off, recapitalization, liquidation, dissolution or sale of substantially all of the assets of the portfolio company or any of its significant subsidiaries.

(3) Providing advisory and underwriting services to, and having consultations with, a portfolio company. A financial holding company may:

(i) Provide financial, investment and management consulting advice to a portfolio company in a manner consistent with and subject to any restrictions on such activities contained in §§225.28(b)(6) or 225.86(b)(1) of this part (12 CFR 225.28(b)(6) and 225.86(b)(1));

(ii) Provide assistance to a portfolio company in connection with the underwriting or private placement of its securities, including acting as the underwriter or placement agent for such securities; and

(iii) Meet with the officers or employees of a portfolio company to monitor or provide advice with respect to the portfolio company’s performance or activities.

(e) When may a financial holding company routinely manage or operate a portfolio company?—(1) Special circumstances required. A financial holding company may routinely manage or operate a portfolio company only when intervention by the financial holding company is necessary or required to obtain a reasonable return on the financial holding company’s investment in the portfolio company upon resale or other disposition of the investment, such as to avoid or address a significant operating loss or in connection with a loss of senior management at the portfolio company.

(2) Duration Limited. A financial holding company may routinely manage or operate a portfolio company only for the period of time as may be necessary to address the cause of the financial holding company’s involvement, to obtain suitable alternative management arrangements, to dispose of the investment, or to otherwise obtain a reasonable return upon the resale or disposition of the investment.

(3) Notice required for extended involvement. A financial holding company may not routinely manage or operate a portfolio company for a period greater than nine months without prior written notice to the Board.

(4) Documentation required. A financial holding company may not routinely manage or operate a portfolio company for a period greater than nine months without prior written notice to the Board.

(f) May a depository institution or its subsidiary routinely manage or operate a portfolio company?—(1) In general. A depository institution and a subsidiary of a depository institution may not routinely manage or operate a portfolio company in which an affiliated company owns or controls an interest under this subpart.

(2) Definition applying provisions governing routine management or operation. For purposes of this section other than paragraph (e) and for purposes of §225.173(d), a financial holding company includes a depository institution controlled by the financial holding company and a subsidiary of such a depository institution.

(3) Exception for certain subsidiaries of depository institutions. For purposes of paragraph (e) of this section, a financial holding company includes a financial subsidiary held in accordance with section 5136A of the Revised Statutes (12 U.S.C. 24a) or section 46 of the Federal Deposit Insurance Act (12 U.S.C. 1831w), and a subsidiary that is a small business investment company and that is held in accordance with the Small Business Investment Act (15 U.S.C. 661 et seq.), and such a subsidiary may, in accordance with the limitations set forth in this section, routinely manage or operate a portfolio company in
§ 225.172 What are the holding periods permitted for merchant banking investments?

(a) Must investments be made for resale?
A financial holding company may own or control shares, assets and ownership interests pursuant to this subpart only for a period of time to enable the sale or disposition thereof on a reasonable basis consistent with the financial viability of the financial holding company’s merchant banking investment activities.

(b) What period of time is generally permitted for holding merchant banking investments?—

(1) In general. Except as provided in this section or § 225.173, a financial holding company may not, directly or indirectly, own, control or hold any share, asset or ownership interest pursuant to this subpart for a period that exceeds 10 years.

(2) Ownership interests acquired from or transferred to companies held under this subpart. For purposes of paragraph (b)(1) of this section, shares, assets or ownership interests—

(i) Acquired by a financial holding company from a company in which the financial holding company held an interest under this subpart will be considered to have been acquired by the financial holding company on the date that the share, asset or ownership interest was acquired by the company; and

(ii) Acquired by a company from a financial holding company will be considered to have been acquired by the company on the date that the share, asset or ownership interest was acquired by the financial holding company if—

(A) The financial holding company held the share, asset, or ownership interest under this subpart; and

(B) The financial holding company holds an interest in the acquiring company under this subpart.

(3) Interests previously held by a financial holding company under limited authority. For purposes of paragraph (b)(1) of this section, any shares, assets, or ownership interests previously owned or controlled, directly or indirectly, by a financial holding company under any other provision of the Federal banking laws that imposes a limited holding period will if acquired under this subpart be considered to have been acquired by the financial holding company under this subpart on the date the financial holding company first acquired ownership or control of the shares, assets or ownership interests under such other provision of law. For purposes of this paragraph (b)(3), a financial holding company includes a depository institution controlled by the financial holding company and any subsidiary of such a depository institution.

(4) Approval required to hold interests held in excess of time limit. A financial holding company may seek Board approval to own, control or hold shares, assets or ownership interests of a company under this subpart for a period that exceeds the period specified in paragraph (b)(1) of this section. A request for approval must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for the request, including information that addresses the factors in paragraph (b)(5) of this section; and

(iii) Explain the financial holding company’s plan for divesting the shares, assets or ownership interests.

(5) Factors governing Board determinations. In reviewing any proposal under paragraph (b)(4) of this section, the Board may consider all the facts and circumstances related to the investment, including:

(i) The cost to the financial holding company of disposing of the investment within the applicable period;

(ii) The total exposure of the financial holding company to the company and the risks that disposing of the investment may pose to the financial holding company;

(iii) Market conditions;

(iv) The nature of the portfolio company’s business;

(v) The extent and history of involvement by the financial holding company in the management and operations of the company; and

(vi) The average holding period of the financial holding company’s merchant banking investments.
(6) Restrictions applicable to investments held beyond time period. A financial holding company that directly or indirectly owns, controls or holds any share, asset or ownership interest of a company under this subpart for a total period that exceeds the period specified in paragraph (b)(1) of this section must—

(i) For purposes of determining the financial holding company’s regulatory capital, apply to the financial holding company’s adjusted carrying value of such shares, assets, or ownership interests a capital charge determined by the Board that must be:

(A) Higher than the maximum marginal Tier 1 capital charge applicable under the Board’s capital adequacy rules or guidelines (see 12 CFR 225 appendix A) to merchant banking investments held by that financial holding company; and

(B) In no event less than 25 percent of the adjusted carrying value of the investment; and

(ii) Abide by any other restrictions that the Board may impose in connection with granting approval under paragraph (b)(4) of this section.

§ 225.173 How are investments in private equity funds treated under this subpart?

(a) What is a private equity fund? For purposes of this subpart, a “private equity fund” is any company that:

(1) Is formed for the purpose of and is engaged exclusively in the business of investing in shares, assets, and ownership interests of financial and nonfinancial companies for resale or other disposition;

(2) Is not an operating company;

(3) No more than 25 percent of the total equity of which is held, owned or controlled, directly or indirectly, by the financial holding company and its directors, officers, employees and principal shareholders;

(4) Has a maximum term of not more than 15 years; and

(5) Is not formed or operated for the purpose of making investments inconsistent with the authority granted under section 4(k)(4)(H) of the Bank Holding Company Act (12 U.S.C. 1843(k)(4)(H)) or evading the limitations governing merchant banking investments contained in this subpart.

(b) What form may a private equity fund take? A private equity fund may be a corporation, partnership, limited liability company or other type of company that issues ownership interests in any form.

(c) What is the holding period permitted for interests in private equity funds?—(1) In general. A financial holding company may own, control or hold any interest in a private equity fund under this subpart and any interest in a portfolio company that is owned or controlled by a private equity fund in which the financial holding company owns or controls any interest under this subpart for the duration of the fund, up to a maximum of 15 years.

(2) Request to hold interest for longer period. A financial holding company may seek Board approval to own, control or hold an interest in or held through a private equity fund for a period longer than the duration of the fund in accordance with §225.172(b) of this subpart.

(3) Application of rules. The rules described in §225.172(b)(2) and (3) governing holding periods of interests acquired, transferred or previously held by a financial holding company apply to interests in, held through, or acquired from a private equity fund.

(d) How do the restrictions on routine management and operation apply to private equity funds and investments held through a private equity fund?—(1) Portfolio companies held through a private equity fund. A financial holding company may not routinely manage or operate a portfolio company that is owned or controlled by a private equity fund in which the financial holding company owns or controls any interest under this subpart, except as permitted under §225.171(e).

(2) Private equity funds controlled by a financial holding company. A private equity fund that is controlled by a financial holding company may not routinely manage or operate a portfolio company, except as permitted under §225.171(e).

(3) Private equity funds that are not controlled by a financial holding company. A private equity fund may routinely manage or operate a portfolio
§ 225.174 What aggregate thresholds apply to merchant banking investments?

(a) In general. A financial holding company may not, without Board approval, directly or indirectly acquire any additional shares, assets or ownership interests under this subpart or make any additional capital contribution to any company the shares, assets or ownership interests of which are held by the financial holding company under this subpart if the aggregate carrying value of all merchant banking investments held by the financial holding company under this subpart exceeds:

(1) 30 percent of the Tier 1 capital of the financial holding company; or

(2) After excluding interests in private equity funds, 20 percent of the Tier 1 capital of the financial holding company.

(b) How do these thresholds apply to a private equity fund? Paragraph (a) of this section applies to any interest in a company held by a private equity fund or to any interest held by a person that is not affiliated with the financial holding company.

(c) How long do these thresholds remain in effect? This § 225.174 shall cease to be effective on the date that a final rule issued by the Board that specifically addresses the appropriate regulatory capital treatment of merchant banking investments becomes effective.

§ 225.175 What risk management, record keeping and reporting policies are required to make merchant banking investments?

(a) What internal controls and records are necessary?—(1) General. A financial holding company, including a private equity fund controlled by a financial holding company, that makes investments under this subpart must establish and maintain policies, procedures, records and systems reasonably designed to conduct, monitor and manage such investment activities and the risks associated with such investment activities in a safe and sound manner, including policies, procedures, records and systems reasonably designed to:

(i) Monitor and assess the carrying value, market value and performance of each investment and the aggregate portfolio;

(ii) Identify and manage the market, credit, concentration and other risks associated with such investments;

(iii) Identify, monitor and assess the terms, amounts and risks arising from transactions and relationships (including contingent fees or contingent interests) with each company in which the financial holding company holds an interest under this subpart;

(iv) Ensure the maintenance of corporate separateness between the financial holding company and each company in which the financial holding company holds an interest under this subpart;

(v) Ensure compliance with this part and any other provisions of law governing transactions and relationships.
with companies in which the financial holding company holds an interest under this subpart (e.g., fiduciary principles or sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1), if applicable).

(2) Availability of records. A financial holding company must make the policies, procedures and records required by paragraph (a)(1) of this section available to the Board or the appropriate Reserve Bank upon request.

(b) What periodic reports must be filed? A financial holding company must provide reports to the appropriate Reserve Bank in such format and at such times as the Board may prescribe.

(c) Is notice required for the acquisition of companies?—(1) Fulfillment of statutory notice requirement. Except as required in paragraph (c)(2) of this section, no post-acquisition notice under section 4(k)(6) of the Bank Holding Company Act (12 U.S.C. 1843(k)(6)) is required by a financial holding company in connection with an investment made under this subpart if the financial holding company has previously filed a notice under §225.87 indicating that it had commenced merchant banking investment activities under this subpart.

(2) Notice of large individual investments. A financial holding company must provide written notice to the Board on the appropriate form within 30 days after acquiring more than 5 percent of the voting shares, assets or ownership interests of any company under this subpart, including an interest in a private equity fund, at a total cost to the financial holding company that exceeds the lesser of 5 percent of the Tier 1 capital of the financial holding company or $200 million.

§225.176 How do the statutory cross marketing and sections 23A and B limitations apply to merchant banking investments?

(a) Are cross marketing activities prohibited?—(1) In general. A depository institution, including a subsidiary of a depository institution, controlled by a financial holding company may not:

(i) Offer or market, directly or through any arrangement, any product or service of any company if more than 5 percent of the company’s voting shares, assets or ownership interests are owned or controlled by the financial holding company pursuant to this subpart; or

(ii) Allow any product or service of the depository institution, including any product or service of a subsidiary of the depository institution, to be offered or marketed, directly or through any arrangement, by or through any company described in paragraph (a)(1)(i) of this section.

(2) How are certain subsidiaries treated? For purposes of paragraph (a)(1) of this section, a subsidiary of a depository institution does not include a financial subsidiary held in accordance with section 5136A of the Revised Statutes (12 U.S.C. 24a) or section 46 of the Federal Deposit Insurance Act (12 U.S.C. 1831w), any company held by a company owned in accordance with section 25 or 25A of the Federal Reserve Act (12 U.S.C. 601 et seq.; 12 U.S.C. 611 et seq.), or any company held by a small business investment company owned in accordance with the Small Business Investment Act of 1958 (15 U.S.C. 661 et seq.).

(3) How do the cross marketing restrictions apply to private equity funds? The restriction contained in paragraph (a)(1) of this section does not apply to:

(i) Portfolio companies held by a private equity fund that the financial holding company does not control; or

(ii) The sale, offer or marketing of any interest in a private equity fund, whether or not controlled by the financial holding company.

(b) When are companies held under section 4(k)(4)(H) affiliates under sections 23A and B?—(1) Rebuttable presumption of control. The following rebuttable presumption of control shall apply for purposes of sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1): if a financial holding company directly or indirectly owns or controls more than 15 percent of the total equity of a company pursuant to this subpart, the company shall be presumed to be an affiliate of any member bank that is affiliated with the financial holding company.

(2) Request to rebut presumption. A financial holding company may rebut
this presumption by providing information acceptable to the Board demonstrating that the financial holding company does not control the company.

(3) Presumptions that control does not exist. Absent evidence to the contrary, the presumption in paragraph (b)(1) of this section will be considered to have been rebutted without Board approval under paragraph (b)(2) of this section if any one of the following requirements are met:

(i) No officer, director or employee of the financial holding company serves as a director, trustee, or general partner (or individual exercising similar functions) of the company;

(ii) A person that is not affiliated or associated with the financial holding company owns or controls a greater percentage of the equity capital of the portfolio company than the amount owned or controlled by the financial holding company, and no more than one officer or employee of the holding company serves as a director or trustee (or individual exercising similar functions) of the company;

(iii) A person that is not affiliated or associated with the financial holding company owns or controls more than 50 percent of the voting shares of the portfolio company, and officers and employees of the holding company do not constitute a majority of the directors or trustees (or individuals exercising similar functions) of the company.

(4) Convertible instruments. For purposes of paragraph (b)(1) of this section, equity capital includes options, warrants and any other instrument convertible into equity capital.

(5) Application of presumption to private equity funds. A financial holding company will not be presumed to own or control the equity capital of a company for purposes of paragraph (b)(1) of this section solely by virtue of an investment made by the financial holding company in a private equity fund that owns or controls the equity capital of the company unless the financial holding company controls the private equity fund as described in §225.173(d)(4).

(6) Application of sections 23A and 23B to U.S. branches and agencies of foreign banks. Sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c, 371c–1) shall apply to all covered transactions between each U.S. branch and agency of a foreign bank that acquires or controls, or that is affiliated with a company that acquires or controls, merchant banking investments and—

(i) Any portfolio company that the foreign bank or affiliated company controls or is presumed to control under paragraph (b)(1) of this section; and

(ii) Any company that the foreign bank or affiliated company controls or is presumed to control under paragraph (b)(1) of this section if the company is engaged in acquiring or controlling merchant banking investments and the proceeds of the covered transaction are used for the purpose of funding the company’s merchant banking investment activities.

§225.177 Definitions.

(a) What do references to a financial holding company include?—(1) Except as otherwise expressly provided, the term “financial holding company” as used in this subpart means the financial holding company and all of its subsidiaries, including a private equity fund or other fund controlled by the financial holding company.

(2) Except as otherwise expressly provided, the term “financial holding company” does not include a depository institution or subsidiary of a depository institution or any portfolio company controlled directly or indirectly by the financial holding company.

(b) What do references to a depository institution include? For purposes of this subpart, the term “depository institution” includes a U.S. branch or agency of a foreign bank.

(c) What is a portfolio company? A portfolio company is any company or entity:

(1) That is engaged in any activity not authorized for the financial holding company under section 4 of the Bank Holding Company Act (12 U.S.C. 1843); and

(2) Any shares, assets or ownership interests of which are held, owned or controlled directly or indirectly by the financial holding company pursuant to
this subpart, including through a private equity fund that the financial holding company controls.

(d) **Who are the executive officers of a company?**—

(1) An executive officer of a company is any person who participates or has the authority to participate (other than in the capacity as a director) in major policymaking functions of the company, whether or not the officer has an official title, the title designates the officer as an assistant, or the officer serves without salary or other compensation.

(2) The term "executive officer" does not include—

(i) Any person, including a person with an official title, who may exercise a certain measure of discretion in the performance of his duties, including the discretion to make decisions in the ordinary course of the company's business, but who does not participate in the determination of major policies of the company and whose decisions are limited by policy standards fixed by senior management of the company; or

(ii) Any person who is excluded from participating (other than in the capacity of a director) in major policymaking functions of the company by resolution of the board of directors or by the bylaws of the company and who does not in fact participate in such policymaking functions.

**CONDITIONS TO ORDERS**

**Subpart K—Proprietary Trading and Relationships With Hedge Funds and Private Equity Funds**

_SOURCE: 76 FR 8275, Feb. 14, 2011, unless otherwise noted._

§ 225.180 **Definitions.**

For purposes of this subpart:

(a) **Banking entity** means—

(1) Any insured depository institution;

(2) Any company that controls an insured depository institution;

(3) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978; and

(4) Any affiliate or subsidiary of any of the foregoing entities.

(b) **Hedge fund and private equity fund** mean an issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.), but for section 3(c)(1) or 3(c)(7) of that Act, or such similar funds as the appropriate Federal banking agencies, the Securities and Exchange Commission, and the Commodity Futures Trading Commission may, by rule, as provided in section 13(b)(2) of the Bank Holding Company Act (12 U.S.C. 1851(b)(2)), determine.

(c) **Insured depository institution** has the same meaning as given that term in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813), except that for purposes of this subpart the term shall not include an institution that functions solely in a trust or fiduciary capacity if—

(1) All or substantially all of the deposits of such institution are in trust funds and are received in a bona fide fiduciary capacity;

(2) No deposits of such institution which are insured by the Federal Deposit Insurance Corporation are offered or marketed by or through an affiliate of such institution;

(3) Such institution does not accept demand deposits or deposits that the depositor may withdraw by check or similar means for payment to third parties or others or make commercial loans; and

(4) Such institution does not—

(i) Obtain payment or payment related services from any Federal Reserve bank, including any service referred to in section 11A of the Federal Reserve Act (12 U.S.C. 248a); or

(ii) Exercise discount or borrowing privileges pursuant to section 19(b)(7) of the Federal Reserve Act (12 U.S.C. 416(b)(7)).

(d) **Nonbank financial company supervised by the Board** means a nonbank financial company supervised by the Board of Governors, as defined in section 102 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (12 U.S.C. 5311).

(e) **Board** means the Board of Governors of the Federal Reserve System.

(f) **Illiquid fund** means a hedge fund or private equity fund that:

(1) As of May 1, 2010—
§ 225.181 Conformance Period for Banking Entities Engaged in Prohibited Proprietary Trading or Private Fund Activities.

(a) Conformance Period—(1) In general. Except as provided in paragraph (b)(2) or (3) of this section, a banking entity shall bring its activities and investments into compliance with the requirements of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart no later than 2 years after the earlier of:

(i) July 21, 2012; or
(2) New banking entities.—A company that was not a banking entity, or a subsidiary or affiliate of a banking entity, as of July 21, 2010, and becomes a banking entity, or a subsidiary or affiliate of a banking entity, after that date shall bring its activities and investments into compliance with the requirements of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart before the later of—

(i) The conformance date determined in accordance with paragraph (a)(1) of this section; or

(ii) Two years after the date on which the company becomes a banking entity or a subsidiary or affiliate of a banking entity.

(3) Extended conformance period. The Board may extend the two-year period under paragraph (a)(1) or (2) of this section by not more than three separate one-year periods, if, in the judgment of the Board, each such one-year extension is consistent with the purposes of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart and would not be detrimental to the public interest.

(b) Illiquid funds—(1) Extended transition period. The Board may further extend the period provided by paragraph (a) of this section during which a banking entity may acquire or retain an equity, partnership, or other ownership interest in, or otherwise provide additional capital to, a private equity fund or hedge fund if—

(i) The fund is an illiquid fund; and

(ii) The acquisition or retention of such interest, or provision of additional capital, is necessary to fulfill a contractual obligation of the banking entity that was in effect on May 1, 2010.

(2) Duration limited. The Board may grant a banking entity only one extension under paragraph (b)(1) of this section and such extension—

(i) May not exceed 5 years beyond any conformance period granted under paragraph (a)(3) of this section; and

(ii) Shall terminate automatically on the date during any such extension on which the banking entity is no longer under a contractual obligation described in paragraph (b)(1)(ii).

(3) Contractual obligation. For purposes of this paragraph (b)—

(i) A banking entity has a contractual obligation to take or retain an equity, partnership, or other ownership interest in an illiquid fund if the banking entity is prohibited from redeeming all of its equity, partnership, or other ownership interests in the fund, and from selling or otherwise transferring all such ownership interests to a person that is not an affiliate of the banking entity—

(A) Under the terms of the banking entity’s equity, partnership, or other ownership interest in the fund or the banking entity’s other contractual arrangements with the fund or unaffiliated investors in the fund; or

(B) If the banking entity is the sponsor of the fund, under the terms of a written representation made by the banking entity in the fund’s offering materials distributed to potential investors;

(ii) A banking entity has a contractual obligation to provide additional capital to an illiquid fund if the banking entity is required to provide additional capital to such fund—

(A) Under the terms of its equity, partnership or other ownership interest in the fund or the banking entity’s other contractual arrangements with the fund or unaffiliated investors in the fund; or

(B) If the banking entity is the sponsor of the fund, under the terms of a written representation made by the banking entity in the fund’s offering materials distributed to potential investors; and

(iii) A banking entity shall be considered to have a contractual obligation for purposes of paragraph (b)(3)(i) or (ii) of this section only if—

(A) The obligation may not be terminated by the banking entity or any of its subsidiaries or affiliates under the terms of its agreement with the fund; and

(B) In the case of an obligation that may be terminated with the consent of other persons, the banking entity and its subsidiaries and affiliates have used their reasonable best efforts to obtain
§225.181 Approval Required to Hold Interests in Excess of Time Limit

The conformance period in paragraph (a) of this section may be extended in accordance with paragraph (a)(3) or (b) of this section only with the approval of the Board. A banking entity that seeks the Board’s approval for an extension of the conformance period under paragraph (a)(3) or for an extended transition period under paragraph (b)(1) must—

(1) Submit a request in writing to the Board at least 180 days prior to the expiration of the applicable time period;

(2) Provide the reasons why the banking entity believes the extension should be granted, including information that addresses the factors in paragraph (d)(1) of this section; and

(3) Provide a detailed explanation of the banking entity’s plan for divesting or conforming the activity or investment(s).

(d) Factors governing Board determinations—(1) Extension requests generally. In reviewing any application by a specific company for an extension under paragraph (a)(3) or (b)(1) of this section, the Board may consider all the facts and circumstances related to the activity, investment, or fund, including, to the extent relevant—

(i) Whether the activity or investment—

(A) Involves or results in material conflicts of interest between the banking entity and its clients, customers or counterparties;

(B) Would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(C) Would pose a threat to the safety and soundness of the banking entity; or

(D) Would pose a threat to the financial stability of the United States;

(ii) Market conditions;

(iii) The nature of the activity or investment;

(iv) The date that the banking entity’s contractual obligation to make or retain an investment in the fund was incurred and when it expires;

(v) The contractual terms governing the banking entity’s interest in the fund;

(vi) The degree of control held by the banking entity over investment decisions of the fund;

(vii) The types of assets held by the fund, including whether any assets that were illiquid when first acquired by the fund have become liquid assets, such as, for example, because any statutory, regulatory, or contractual restrictions on the offer, sale, or transfer of such assets have expired;

(viii) The date on which the fund is expected to wind up its activities and liquidate, or its investments may be redeemed or sold;

(ix) The total exposure of the banking entity to the activity or investment and the risks that disposing of, or maintaining, the investment or activity may pose to the banking entity or the financial stability of the United States;

(x) The cost to the banking entity of divesting or disposing of the activity or investment within the applicable period;

(xi) Whether the divestiture or conformance of the activity or investment would involve or result in a material conflict of interest between the banking entity and unaffiliated clients, customers or counterparties to which it owes a duty;

(xii) The banking entity’s prior efforts to divest or conform the activity or investment(s), including, with respect to an illiquid fund, the extent to which the banking entity has made efforts to terminate or obtain a waiver of its contractual obligation to take or retain an equity, partnership, or other ownership interest in, or provide additional capital to, the illiquid fund; and

(xiii) Any other factor that the Board believes appropriate.

(2) Timing of Board review. The Board will seek to act on any request for an extension under paragraph (a)(3) or (b)(1) of this section no later than 90 calendar days after the receipt of a complete record with respect to such request.

(3) Consultation. In the case of a banking entity that is primarily supervised by another Federal banking agency, the Securities and Exchange Commission, or the Commodity Futures Trading Commission, the Board will consult with such agency prior to the
approval of a request by the banking entity for an extension under paragraph (a)(3) or (b)(1) of this section.

(e) Authority to impose restrictions on activities or investments during any extension period—(1) In general. The Board may impose such conditions on any extension approved under paragraph (a)(3) or (b)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart.

(2) Consultation. In the case of a banking entity that is primarily supervised by another Federal banking agency, the Securities and Exchange Commission, or the Commodity Futures Trading Commission, the Board will consult with such agency prior to imposing conditions on the approval of a request by the banking entity for an extension under paragraph (a)(3) or (b)(1) of this section.

§ 225.182 Conformance Period for Nonbank Financial Companies Supervised by the Board Engaged in Proprietary Trading or Private Fund Activities.

(a) Divestiture Requirement. A nonbank financial company supervised by the Board shall come into compliance with all applicable requirements of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart, including any capital requirements or quantitative limitations adopted thereunder and applicable to the company, not later than 2 years after the date the company becomes a nonbank financial company supervised by the Board.

(b) Extensions. The Board may, by rule or order, extend the two-year period under paragraph (a) by not more than three separate one-year periods, if, in the judgment of the Board, each such one-year extension is consistent with the purposes of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart and would not be detrimental to the public interest.

(c) Approval Required to Hold Interests in Excess of Time Limit. A nonbank financial company supervised by the Board that seeks the Board’s approval for an extension of the conformance period under paragraph (b) of this section must—

(1) Submit a request in writing to the Board at least 180 days prior to the expiration of the applicable time period;

(2) Provide the reasons why the nonbank financial company supervised by the Board believes the extension should be granted; and

(3) Provide a detailed explanation of the company’s plan for conforming the activity or investment(s) to any applicable requirements established under section 13(a)(2) or (f)(4) of the Bank Holding Company Act (12 U.S.C. 1851(a)(2) and (f)(4)).

(d) Factors governing Board determinations—(1) In general. In reviewing any application for an extension under paragraph (b) of this section, the Board may consider all the facts and circumstances related to the nonbank financial company and the request including, to the extent determined relevant by the Board, the factors described in §225.181(d)(1).

(2) Timing. The Board will seek to act on any request for an extension under paragraph (b) of this section no later than 90 calendar days after the receipt of a complete record with respect to such request.

(f) Authority to impose restrictions on activities or investments during any extension period. The Board may impose conditions on any extension approved under paragraph (b) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the nonbank financial company or the financial stability of the United States, address material conflicts of interest or other unsound practices, or otherwise further the purposes of section 13 of the Bank Holding Company Act (12 U.S.C. 1851) and this subpart.

Subpart L—Conditions to Orders

SOURCE: 76 FR 8275, Feb. 14, 2011, unless otherwise noted.
§ 225.200 Conditions to Board's section 20 orders.

(a) Introduction. Under section 20 of the Glass-Steagall Act (12 U.S.C. 377) and section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)), a nonbank subsidiary of a bank holding company may to a limited extent underwrite and deal in securities for which underwriting and dealing by a member bank is prohibited. Pursuant to the Securities Act of 1933 and the Securities Exchange Act of 1934, these so-called section 20 subsidiaries are required to register with the SEC as broker-dealers and are subject to all the financial reporting, anti-fraud and financial responsibility rules applicable to broker-dealers. In addition, transactions between insured depository institutions and their section 20 affiliates are restricted by sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1). The Board expects a section 20 subsidiary, like any other subsidiary of a bank holding company, to be operated prudently. Doing so would include observing corporate formalities (such as the maintenance of separate accounting and corporate records), and instituting appropriate risk management, including independent trading and exposure limits consistent with parent company guidelines.

(b) Conditions. As a condition of each order approving establishment of a section 20 subsidiary, a bank holding company shall comply with the following conditions.

(1) Capital. (i) A bank holding company shall maintain adequate capital on a fully consolidated basis. If operating a section 20 authorized to underwrite and deal in all types of debt and equity securities, a bank holding company shall maintain strong capital on a fully consolidated basis.

(ii) In the event that a bank or thrift affiliate of a section 20 subsidiary shall become less than well capitalized (as defined in section 38 of the Federal Deposit Insurance Act, 12 U.S.C. 1831o), and the bank holding company shall fail to restore it promptly to the well capitalized level, the Board may, in its discretion, impose the funding, credit extension and credit enhancement firewalls contained in its 1989 order allowing underwriting and dealing in bank-ineligible securities, or order the bank holding company to divest the section 20 subsidiary.

(iii) A foreign bank that operates a branch or agency in the United States shall maintain strong capital on a fully consolidated basis at levels above the minimum levels required by the Basle Capital Accord. In the event that the Board determines that the foreign bank's capital has fallen below these levels and the foreign bank fails to restore its capital position promptly, the Board may, in its discretion, reimpose the funding, credit extension and credit enhancement firewalls contained in its 1990 order allowing foreign banks to underwrite and deal in bank-ineligible securities, or order the foreign bank to divest the section 20 subsidiary.

(2) Internal controls. (i) Each bank holding company or foreign bank shall cause its subsidiary banks, thrifts, branches or agencies to adopt policies and procedures, including appropriate limits on exposure, to govern their participation in transactions underwritten or arranged by a section 20 affiliate. Doing so would include observing corporate formalities (such as the maintenance of separate accounting and corporate records), and instituting appropriate risk management, including independent trading and exposure limits consistent with parent company guidelines.

(ii) Each bank holding company or foreign bank shall ensure that an independent and thorough credit evaluation has been undertaken in connection with participation by a bank, thrift, or branch or agency in such transactions, and that adequate documentation of that evaluation is maintained for review by examiners of the appropriate federal banking agency and the Federal Reserve.

(3) Interlocks restriction. (i) Directors, officers or employees of a bank or thrift subsidiary of a bank holding company, or a bank or thrift subsidiary or branch or agency of a foreign bank, shall not serve as a majority of the
board of directors or the chief executive officer of an affiliated section 20 subsidiary.

(ii) Directors, officers or employees of a section 20 subsidiary shall not serve as a majority of the board of directors or the chief executive officer of an affiliated bank or thrift subsidiary or branch or agency, except that the manager of a branch or agency may act as a director of the underwriting subsidiary.

(iii) For purposes of this standard, the manager of a branch or agency of a foreign bank generally will be considered to be the chief executive officer of the branch or agency.

(4) Customer disclosure—(i) Disclosure to section 20 customers. A section 20 subsidiary shall provide, in writing, to each of its retail customers, at the time an investment account is opened, the same minimum disclosures, and obtain the same customer acknowledgment, described in the Interagency Statement on Retail Sales of Non-deposit Investment Products (Statement) as applicable in such situations. These disclosures must be provided regardless of whether the section 20 subsidiary is itself engaged in activities through arrangements with a bank that is covered by the Statement.

(ii) Disclosures accompanying investment advice. A director, officer, or employee of a bank, thrift, branch or agency may not express an opinion on the value or the advisability of the purchase or the sale of a bank-ineligible security that he or she knows is being underwritten or dealt in by a section 20 affiliate unless he or she notifies the customer of the affiliate’s role.

(5) Intra-day credit. Any intra-day extension of credit to a section 20 subsidiary by an affiliated bank, thrift, branch or agency shall be on market terms consistent with section 23B of the Federal Reserve Act.

(6) Restriction on funding purchases of securities during underwriting period. No bank, thrift, branch or agency shall knowingly extend credit to a customer secured by, or for the purpose of purchasing, any bank-ineligible security that a section 20 affiliate is underwriting or has underwritten within the past 30 days, unless:

(i) The extension of credit is made pursuant to, and consistent with any conditions imposed in a preexisting line of credit that was not established in contemplation of the underwriting; or

(ii) The extension of credit is made in connection with clearing transactions for the section 20 affiliate.

(7) Reporting requirement. (i) Each bank holding company or foreign bank shall submit quarterly to the appropriate Federal Reserve Bank any FOCUS report filed with the NASD or other self-regulatory organizations, and any information required by the Board to monitor compliance with these operating standards and section 20 of the Glass-Steagall Act, on forms provided by the Board.

(ii) In the event that a section 20 subsidiary is required to furnish notice concerning its capitalization to the Securities and Exchange Commission pursuant to 17 CFR 240.17a–11, a copy of the notice shall be filed concurrently with the appropriate Federal Reserve Bank.

(8) Foreign banks. A foreign bank shall ensure that any extension of credit by its branch or agency to a section 20 affiliate, and any purchase by such branch or agency, as principal or fiduciary, of securities for which a section 20 affiliate is a principal underwriter, conforms to sections 23A and 23B of the Federal Reserve Act, and that its branches and agencies not advertise or suggest that they are responsible for the obligations of a section 20 affiliate, consistent with section 23B(c) of the Federal Reserve Act.

APPENDIX A TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES: RISK-BASED MEASURE

I. OVERVIEW

The Board of Governors of the Federal Reserve System has adopted a risk-based capital measure to assist in the assessment of
The capital adequacy of bank holding companies (banking organizations). The principal objectives of this measure are to: (i) Make regulatory capital requirements more sensitive to differences in risk profiles among banking organizations; (ii) factor off-balance sheet exposures into the assessment of capital adequacy; (iii) minimize disincentives to holding liquid, low-risk assets; and (iv) achieve greater consistency in the evaluation of the capital adequacy of major banking organizations throughout the world.2

The risk-based capital guidelines include both a definition of capital and a framework for calculating weighted risk assets by assigning assets and off-balance sheet items to broad risk categories. An institution’s risk-based capital ratio is calculated by dividing its qualifying capital (the numerator of the ratio) by its weighted risk assets (the denominator).3 The definition of qualifying capital is outlined below in section II, and the procedures for calculating weighted risk assets are discussed in section III. Attachment I illustrates a sample calculation of weighted risk assets and the risk-based capital ratio.

In addition, when certain organizations that engage in trading activities calculate their risk-based capital ratio under this appendix A, they must also refer to appendix E of this part, which incorporates capital charges for certain market risks into the risk-based capital ratio. When calculating their risk-based capital ratio under this appendix A, such organizations are required to refer to appendix E of this part for supplemental rules to determine qualifying and excess capital, calculate risk-weighted assets, calculate market risk equivalent assets, and calculate risk-based capital ratios adjusted for market risk.

The risk-based capital guidelines also establish a schedule for achieving a minimum supervisory standard for the ratio of qualifying capital to weighted risk assets and provide for transitional arrangements during a phase-in period to facilitate adoption and implementation of the measure at the end of 1992. These interim standards and transitional arrangements are set forth in section IV.

The risk-based guidelines apply on a consolidated basis to any bank holding company with consolidated assets of $500 million or more. The risk-based guidelines also apply on a consolidated basis to any bank holding company with consolidated assets of less than $500 million if the holding company (i) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) conducts significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; (iii) has a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission (SEC); The Federal Reserve may apply the risk-based guidelines at its discretion to any bank holding company, regardless of asset size, if such action is warranted for supervisory purposes.4

The risk-based guidelines are to be used in the inspection and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. Thus, in considering an application filed by a bank holding company, the Federal Reserve will take into account the organization’s risk-based capital ratio, the reasonableness of its capital plans, and the degree of progress it has demonstrated toward meeting the interim and final risk-based capital standards. The risk-based capital ratio focuses principally on broad categories of credit risk, although the framework for assigning assets and off-balance sheet items to risk categories does incorporate elements of transfer risk, as well as limited instances of interest rate and market risk. The risk-based ratio does not, however, incorporate other factors that can affect an organization’s financial condition. These factors include overall interest rate exposure; liquidity, funding and market risks; the quality and level of earnings; investment or loan portfolio concentrations; the quality of loans and investments; the effectiveness of loan and investment policies; and management’s ability to monitor and control financial and operating risks.

---

1 Supervisory ratios that relate capital to total assets for bank holding companies are outlined in appendices B and D of this part.

2 The risk-based capital measure is based upon a framework developed jointly by supervisory authorities from the countries represented on the Basle Committee on Banking Regulations and Supervisory Practices (Basle Supervisors’ Committee) and endorsed by the Group of Ten Central Bank Governors. The framework is described in a paper prepared by the BSC entitled “International Convergence of Capital Measurement,” July 1988.

3 Banking organizations will initially be expected to utilize period-end amounts in calculating their risk-based capital ratios. When necessary and appropriate, ratios based on average balances may also be calculated on a case-by-case basis. Moreover, to the extent banking organizations have data on average balances that can be used to calculate risk-based ratios, the Federal Reserve will take such data into account.

4 [Reserved]
In addition to evaluating capital ratios, an overall assessment of capital adequacy must take account of these other factors, including, in particular, the level and severity of problem assets. For this reason, the final supervisory judgment on an organization’s capital adequacy may differ significantly from conclusions that might be drawn solely from the level of the organization’s risk-based capital ratio.

The risk-based capital guidelines establish minimum ratios of capital to weighted risk assets. In light of the considerations just discussed, banking organizations generally are expected to operate well above the minimum risk-based ratios. In particular, banking organizations contemplating significant expansion proposals are expected to maintain strong capital levels substantially above the minimum ratios and should not allow significant diminution of financial strength below these strong levels to fund their expansion plans. Institutions with high or inordinate levels of risk are also expected to operate above minimum capital standards. In all cases, institutions should hold capital commensurate with the level and nature of the risks to which they are exposed. Banking organizations that do not meet the minimum risk-based standard, or that are otherwise considered to be inadequately capitalized, are expected to develop and implement plans acceptable to the Federal Reserve for achieving adequate levels of capital within a reasonable period of time.

The Board will monitor the implementation and effect of these guidelines in relation to domestic and international developments in the banking industry. When necessary and appropriate, the Board will consider the need to modify the guidelines in light of any significant changes in the economy, financial markets, banking practices, or other relevant factors.

The Federal Reserve may determine whether, and to what extent, any instrument that does not fit wholly within the terms of a capital element set forth below, or that does not have the characteristics or the ability to absorb losses commensurate with the capital treatment specified below, will qualify as an element of tier 1 or tier 2 capital. In making such a determination, the Federal Reserve will consider the similarity of the instrument to instruments explicitly addressed in the guidelines; the ability of the instrument to absorb losses, particularly while the organization operates as a going concern; the maturity and redemption features of the instrument; and other relevant terms and factors.

(iii) The redemption of capital instruments before stated maturity could have a significant impact on an organization’s overall capital structure. Consequently, an organization should consult with the Federal Reserve before redeeming any equity or other capital instrument included in tier 1 or tier 2 capital prior to stated maturity if such redemption could have a material effect on the level or composition of the organization’s capital base. Such consultation generally would not be necessary when the instrument is to be redeemed with the proceeds of, or replaced by, a like amount of a capital instrument that is of equal or higher quality with regard to terms and maturity and the Federal Reserve considers the organization’s capital position to be fully sufficient.

A. The Definition and Components of Qualifying Capital

1. Tier 1 capital. Tier 1 capital generally is defined as the sum of core capital elements less any amounts of goodwill, other intangible assets, interest-only strips receivables, deferred tax assets, nonfinancial equity investments, and other items that are required to be deducted in accordance with section II.B. of this appendix. Tier 1 capital must
represent at least 50 percent of qualifying total capital.

a. Core capital elements (tier 1 capital elements). The elements qualifying for inclusion in the tier 1 component of a banking organization’s qualifying total capital are:

i. Qualifying common stockholders’ equity;

ii. Qualifying noncumulative perpetual preferred stock, including related surplus, and senior perpetual preferred stock issued to the United States Department of the Treasury (Treasury) under the Troubled Asset Relief Program (TARP), established by the Emergency Economic Stabilization Act of 2008 (EESA), Division A of Public Law 110–343 (which for purposes of this appendix shall be considered qualifying noncumulative perpetual preferred stock), including related surplus;

iii. Minority interest related to qualifying common or noncumulative perpetual preferred stock directly issued by a consolidated U.S. depository institution or foreign bank subsidiary (Class A minority interest); and

iv. Restricted core capital elements. The aggregate of these items is limited within tier 1 capital as set forth in section II.A.1.b. of this appendix. These elements are defined to include:

1. Qualifying cumulative perpetual preferred stock (including related surplus);

2. Minority interest related to qualifying cumulative perpetual preferred stock directly issued by a consolidated U.S. depository institution or foreign bank subsidiary (Class B minority interest);

3. Minority interest related to qualifying common stockholders’ equity or perpetual preferred stock issued by a consolidated subsidiary that is neither a U.S. depository institution nor a foreign bank (Class C minority interest);

4. Qualifying trust preferred securities; and

5. Subordinated debentures issued prior to October 4, 2010, to the Treasury under the TARP (TARP Subordinated Securities) established by the EESA by a bank holding company that has made a valid election to be taxed under Subchapter S of Chapter I of the U.S. Internal Revenue Code (S-Corp BHC) or by a bank holding company organized in mutual form (Mutual BHC).

b. Limits on restricted core capital elements—

i. Limits. (1) The aggregate amount of restricted core capital elements that may be included in the tier 1 capital of a banking organization must not exceed 25 percent of the sum of all core capital elements, including restricted core capital elements, net of goodwill less any associated deferred tax liability. Stated differently, the aggregate amount of restricted core capital elements is limited to one-third of the sum of core capital elements, excluding restricted core capital elements, net of goodwill less any associated deferred tax liability. Notwithstanding the foregoing, the full amount of TARP Subordinated Securities issued by an S-Corp BHC or Mutual BHC may be included in its tier 1 capital, provided that the banking organization must include the TARP Subordinated Securities in restricted core capital elements for the purposes of determining the aggregate amount of other restricted core capital elements that may be included in tier 1 capital in accordance with this section.

(2) In addition, the aggregate amount of restricted core capital elements (other than qualifying mandatory convertible preferred securities) that may be included in the tier 1 capital of an internationally active banking organization must not exceed 15 percent of the sum of all core capital elements, including restricted core capital elements, net of goodwill less any associated deferred tax liability.

(3) Amounts of restricted core capital elements in excess of this limit generally may be included in tier 2 capital. The excess amounts of restricted core capital elements that are in the form of Class C minority interest and qualifying trust preferred securities are subject to further limitation within tier 2 capital in accordance with section II.A.2.d.iv. of this appendix. A banking organization may attribute excess amounts of qualifying cumulative perpetual preferred stock or to Class B minority interest, and second to qualifying trust preferred securities or to Class C minority interest, which are subject to a tier 2 sublimit.

ii. Transition.

(1) The quantitative limits for restricted core capital elements set forth in sections

Qualifying mandatory convertible preferred securities generally consist of the joint issuance by a bank holding company to investors of trust preferred securities and a forward purchase contract, which the investors fully collateralize with the securities, that obligates the investors to purchase a fixed amount of the bank holding company’s common stock, generally in three years. A bank holding company wishing to issue mandatorily convertible preferred securities and include them in tier 1 capital must consult with the Federal Reserve prior to issuance to ensure that the securities’ terms are consistent with tier 1 capital treatment.

For this purpose, an internationally active banking organization is a banking organization that (1) as of its most recent year-end FR Y–9C reports total consolidated assets equal to $250 billion or more or (2) on a consolidated basis, reports total on-balance-sheet foreign exposure of $10 billion or more on its filings of the most recent year-end FFIEC 009 Country Exposure Report.
II.A.1.b.i. and II.A.2.d.i.v. of this appendix become effective on March 31, 2011. Prior to that time, a banking organization with restricted core capital elements in amounts that cause it to exceed these limits must consult with the Federal Reserve on a plan for ensuring that the banking organization is not unduly relying on these elements in its capital structure. For elements that reduce such reliance to ensure that the organization complies with these limits as of March 31, 2011.

(2) Until March 31, 2011, the aggregate amount of qualifying cumulative perpetual preferred stock (including related surplus) and qualifying trust preferred securities that a banking organization may include in tier 1 capital is limited to 25 percent of the sum of the following core capital elements: qualifying common stockholders’ equity, Qualifying noncumulative and cumulative perpetual preferred stock (including related surplus), qualifying minority interest in the equity accounts of consolidated subsidiaries, and qualifying trust preferred securities. Amounts of qualifying cumulative perpetual preferred stock (including related surplus) and qualifying trust preferred securities in excess of this limit may be included in tier 2 capital.

(3) Until March 31, 2011, internationally active banking organizations generally are expected to limit the amount of qualifying cumulative perpetual preferred stock (including related surplus) and qualifying trust preferred securities included in tier 1 capital to 15 percent of the sum of core capital elements set forth in section II.A.1.b.i.ii. of this appendix.

c. Definitions and requirements for core capital elements—i. Qualifying common stockholders’ equity.

(1) Definition. Qualifying common stockholders’ equity is limited to common stock; related surplus; and retained earnings, including capital reserves and adjustments for the cumulative effect of foreign currency translation, net of any treasury stock, less net unrealized holding losses on available-for-sale equity securities with readily determinable fair values. For this purpose, net unrealized holding gains on such equity securities and net unrealized holding gains (losses) on available-for-sale debt securities are not included in qualifying common stockholders’ equity.

(2) Restrictions on terms and features. A capital instrument that has a stated maturity date or that has a preference with regard to liquidation or the payment of dividends is not deemed to be a component of qualifying common stockholders’ equity, regardless of whether or not it is called common equity. Terms or features that grant other preferences also may call into question whether the capital instrument would be deemed to be qualifying common stockholders’ equity. Features that require, or provide significant incentives for, the issuer to redeem the instrument for cash or cash equivalents will render the instrument ineligible as a component of qualifying common stockholders’ equity.

(3) Reliance on voting common stockholders’ equity. Although section II.A.1. of this appendix allows for the inclusion of elements other than common stockholders’ equity within tier 1 capital, voting common stockholders’ equity, which is the most desirable capital element from a supervisory standpoint, generally should be the dominant element within tier 1 capital. Thus, banking organizations should avoid over-reliance on preferred stock and nonvoting elements within tier 1 capital. Such nonvoting elements can include portions of common stockholders’ equity where, for example, a banking organization has a class of nonvoting common equity, or a class of voting common equity that has substantially fewer voting rights per share than another class of voting common equity. Where a banking organization relies excessively on nonvoting elements within tier 1 capital, the Federal Reserve generally will require the banking organization to allocate a portion of the nonvoting elements to tier 2 capital.

ii. Qualifying perpetual preferred stock.

(1) Qualifying requirements. Perpetual preferred stock qualifying for inclusion in tier 1 capital has no maturity date and cannot be redeemed at the option of the holder. Perpetual preferred stock will qualify for inclusion in tier 1 capital only if it can absorb losses while the issuer operates as a going concern.

(2) Restrictions on terms and features. Perpetual preferred stock included in tier 1 capital may not have any provisions restricting the banking organization’s ability or legal right to defer or waive dividends, other than provisions requiring prior or concurrent deferral or waiver of payments on more junior instruments, which the Federal Reserve generally expects in such instruments consistent with the notion that the most junior capital elements should absorb losses first. Dividend deferrals or waivers for preferred stock, which the Federal Reserve expects will occur either voluntarily or at its discretion when an organization is in a weakened condition, must not be subject to arrangements that would diminish the ability of the deferral to shore up the banking organization’s resources. Any perpetual preferred stock with a feature permitting redemption at the option of the issuer may qualify as tier 1 capital only if the redemption is subject to prior approval of the Federal Reserve. Features that require, or create significant incentives for the issuer to redeem the instrument for cash or cash equivalents will render the instrument ineligible for inclusion in tier 1 capital. For example, perpetual preferred stock that has a credit-sensitive
dividend feature—that is, a dividend rate that is reset periodically based, in whole or in part, on the banking organization’s current credit standing—generally does not qualify for inclusion in tier 1 capital.7 Similarly, perpetual preferred stock that has a dividend rate step-up or a market value conversion feature—that is, a feature whereby the holder must or can convert the preferred stock into common stock at the market price prevailing at the time of conversion—generally does not qualify for inclusion in tier 1 capital.

(3) Noncumulative and cumulative features. Perpetual preferred stock that is noncumulative generally may not permit the accumulation or payment of unpaid dividends in any form, including in the form of common stock. Perpetual preferred stock that provides for the accumulation or future payment of unpaid dividends is deemed to be cumulative, regardless of whether or not it is called noncumulative.

iii. Qualifying minority interest. Minority interest in the common and preferred stockholders’ equity accounts of a consolidated subsidiary (minority interest) represents stockholders’ equity associated with common or preferred equity instruments issued by a banking organization’s consolidated subsidiary that are held by investors other than the banking organization. Minority interest is included in tier 1 capital because, as a general rule, it represents equity that is freely available to absorb losses in the issuing subsidiary. Nonetheless, minority interest typically is not available to absorb losses in the banking organization as a whole, a feature that is a particular concern when the minority interest is issued by a subsidiary that is neither a U.S. depository institution nor a foreign bank. For this reason, this appendix distinguishes among three types of qualifying minority interest. Class A minority interest is minority interest related to qualifying common and noncumulative perpetual preferred equity instruments issued directly (that is, not through a subsidiary) by a consolidated U.S. depository institution8 or foreign bank9 subsidiary of a banking organization. Class B minority interest is minority interest related to qualifying cumulative perpetual preferred equity instruments issued directly by a consolidated U.S. depository institution or foreign bank subsidiary of a banking organization. Class C minority interest is minority interest related to qualifying common or perpetual preferred stock issued by a banking organization’s consolidated subsidiary that is neither a U.S. depository institution nor a foreign bank. Class C minority interest is eligible for inclusion in tier 1 capital as a restricted core capital element subject to the limitations set forth in section II.A.1.b.i. of this appendix, but is not subject to a tier 2 sub-limit. Class C minority interest is minority interest related to qualifying common or perpetual preferred stock issued by a banking organization’s consolidated subsidiary that is neither a U.S. depository institution nor a foreign bank.

iv. Qualifying trust preferred securities.

(1) A banking organization that wishes to issue trust preferred securities and include them in tier 1 capital must first consult with

7Traditional floating-rate or adjustable-rate perpetual preferred stock (that is, perpetual preferred stock in which the dividend rate is not affected by the issuer’s credit standing or financial condition but is adjusted periodically in relation to an independent index based solely on general market interest rates), however, generally qualifies for inclusion in tier 1 capital provided all other requirements are met.

8Notwithstanding this provision, senior perpetual preferred stock issued to the Treasury under the TARP, established by the TEDS, may be included in tier 1 capital.

9For this purpose, a foreign bank is defined as an institution that engages in the business of banking; is recognized as a bank by the bank supervisory or monetary authorities of the country of its organization or principal banking operations; receives deposits to a substantial extent in the regular course of business; and has the power to accept demand deposits.

U.S. depository institutions are defined to include branches (foreign and domestic) of federally insured banks and depository institutions chartered and headquartered in the 50 states of the United States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. The definition encompasses banks, mutual or stock savings banks, savings or building and loan associations, cooperative banks, credit unions, and international banking facilities of domestic banks.

10For this purpose, a foreign bank is defined as an institution that engages in the business of banking; is recognized as a bank by the bank supervisory or monetary authorities of the country of its organization or principal banking operations; receives deposits to a substantial extent in the regular course of business; and has the power to accept demand deposits.
the Federal Reserve. Trust preferred securities are defined as undated preferred securities issued by a trust or similar entity sponsored (but generally not consolidated) by a banking organization that is the sole common equity holder of the trust. Qualifying trust preferred securities must allow for dividends to be deferred for at least twenty consecutive quarters without an event of default, unless an event of default leading to acceleration permitted under section II.A.1.c.iv.(2) has occurred. The required notification period for a declaration of deferral must be reasonably short, no more than 15 business days prior to the payment date. Qualifying trust preferred securities are otherwise subject to the same restrictions on terms and features as qualifying perpetual preferred stock under section II.A.1.c.ii.(2) of this appendix.

(2) The sole asset of the trust must be a junior subordinated note issued by the sponsoring banking organization that has a minimum maturity of thirty years, is subordinate with regard to both liquidation and priority of periodic payments to all senior and subordinated debt of the sponsoring banking organization (other than other junior subordinated notes underlying trust preferred securities). Otherwise the terms of a junior subordinated note must mirror those of the preferred securities issued by the trust. The note must comply with section II.A.2.d. of this appendix and the Federal Reserve's subordinated debt policy statement set forth in 12 CFR 250.166 except that the note may provide for an event of default and the acceleration of principal and accrued interest upon (a) nonpayment of interest for 20 or more consecutive quarters or (b) termination of the trust without redemption of the trust preferred securities, distribution of the notes to investors, or assumption of the obligation by a successor to the banking organization.

(3) In the last five years before the maturity of the note, the outstanding amount of the associated trust preferred securities is excluded from tier 1 capital and included in tier 2 capital, where the trust preferred securities are subject to the amortization provisions and quantitative restrictions set forth in sections II.A.2.d.iii. and iv. of this appendix as if the trust preferred securities were limited-life preferred stock.

2. Supplementary capital elements (tier 2 capital elements). The tier 2 component of an institution's qualifying capital may consist of the following items that are defined as supplementary capital elements:

(i) Allowance for loan and lease losses (subject to limitations discussed below);
(ii) Perpetual preferred stock and related surplus (subject to conditions discussed below);
(iii) Hybrid capital instruments (as defined below), perpetual debt, and mandatory convertible debt securities;
(iv) Term subordinated debt and intermediate-term preferred stock, including related surplus (subject to limitations discussed below);
(v) Unrealized holding gains on equity securities (subject to limitations discussed in section II.A.2.e. of this appendix).

The maximum amount of tier 2 capital that may be included in an institution's qualifying total capital is limited to 100 percent of tier 1 capital (net of goodwill, other

12 Under generally accepted accounting principles, the trust issuing the preferred securities generally is not consolidated on the banking organization's balance sheet; rather the underlying subordinated note is recorded as a liability on the organization's balance sheet. Only the amount of the trust preferred securities issued, which generally is equal to the amount of the underlying subordinated note less the amount of the sponsoring banking organization's common equity investment in the trust (which is recorded as an asset on the banking organization's consolidated balance sheet), may be included in tier 1 capital. Because this calculation method effectively deducts the banking organization's common stock investment in the trust in computing the numerator of the capital ratio, the common equity investment in the trust should be excluded from the calculation of risk-weighted assets in accordance with footnote 17 of this appendix. Where a banking organization has issued trust preferred securities as part of a pooled issuance, the organization generally must not buy back a security issued from the pool. Where a banking organization does hold such a security (for example, as a result of an acquisition of another banking organization), the amount of the trust preferred securities includable in regulatory capital must, consistent with section II.(i) of this appendix, be

12 Trust preferred securities issued before April 15, 2005, generally would be includable in tier 1 capital despite noncompliance with sections II.A.1.c.iv. or II.A.2.d. of this appendix or 12 CFR 250.166 provided the noncomplying terms of the instrument (i) have been commonly used by banking organizations, (ii) do not provide an unreasonably high degree of protection to the holder in circumstances other than bankruptcy of the banking organization, and (iii) do not effectively allow a holder in due course of the note to stand ahead of senior or subordinated debt holders in the event of bankruptcy of the banking organization.
intangible assets, interest-only strips receivables and nonfinancial equity investments that are required to be deducted in accordance with section II.B. of this appendix A).

The elements of supplementary capital are discussed in greater detail below.

a. Allowance for loan and lease losses. Allowances for loan and lease losses are reserves that have been established through a charge against earnings to absorb future losses on loans or lease financing receivables. Allowances for loan and lease losses exclude "allocated transfer risk reserves."13 and reserves created against identified losses.

During the transition period, the risk-based capital guidelines provide for reducing the amount of the allowance that may be included in an institution's total capital. Initially, it is unlimited. However, by year-end 1990, the amount of the allowance for loan and lease losses that will qualify as capital will be limited to 1.5 percent of an institution's weighted risk assets. By the end of the transition period, the amount of the allowance qualifying for inclusion in Tier 2 capital may not exceed 1.25 percent of weighted risk assets.14

b. Perpetual preferred stock. Perpetual preferred stock (and related surplus) that meets the requirements set forth in section II.A.1.c.ii.(1) of this appendix is eligible for inclusion in tier 2 capital without limit.15

c. Hybrid capital instruments, perpetual debt, and mandatory convertible debt securities. Hybrid capital instruments include instruments that are essentially permanent in nature and that have certain characteristics of both equity and debt. Such instruments may be included in Tier 2 without limit. The general criteria hybrid capital instruments must meet in order to qualify for inclusion in Tier 2 capital are listed below:

1. The instrument must be unsecured; fully paid-up and subordinated to general creditors. If issued by a bank, it must also be subordinated to claims or depositors.

2. The instrument must not be redeemable at the option of the holder prior to maturity, except with the prior approval of the Federal Reserve. (Consistent with the Board's criteria for perpetual debt and mandatory convertible securities, this requirement implies that holders of such instruments may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.)

3. The instrument must be available to participate in losses while the issuer is operating as a going concern. (Term subordinated debt would not meet this requirement.) To satisfy this requirement, the instrument must convert to common or perpetual preferred stock in the event that the accumulated losses exceed the sum of the retained earnings and capital surplus accounts of the issuer.

4. The instrument must provide the option for the issuer to defer interest payments if:
   a) the issuer does not report a profit in the preceding annual period (defined as combined profits for the most recent four quarters), and b) the issuer eliminates cash dividends on common and preferred stock.

Perpetual debt and mandatory convertible debt securities that meet the criteria set forth in 12 CFR part 225, appendix B, also qualify as unlimited elements of Tier 2 capital for bank holding companies.

d. Subordinated debt and intermediate-term preferred stock—1. Five-year minimum maturity. Subordinated debt and intermediate-term preferred stock must have an original weighted average maturity of at least five years to qualify as tier 2 capital. If the holder has the option to require the issuer to redeem, repay, or repurchase the instrument prior to the original stated maturity, maturity would be defined, for risk-based capital purposes, as the earliest possible date on which the holder can put the instrument back to the issuing banking organization. In the last five years before the maturity of the stock, it must be treated as limited-life preferred stock, subject to the amortization provisions and quantitative restrictions set forth in sections II.A.2.d.iii. and iv. of this appendix.
must comply with the Federal Reserve’s subordinated debt policy statement set forth in 12 CFR 250.166. Accordingly, such subordinated debt must meet the following requirements:

1. The subordinated debt must be unsecured.
2. The subordinated debt must clearly state on its face that it is not a deposit and is not insured by a Federal agency.
3. The subordinated debt must not have credit-sensitive features or other provisions that are inconsistent with safe and sound banking practice.
4. Subordinated debt issued by a subsidiary U.S. depository institution or foreign bank, bank holding company must be subordinated in right of payment to the claims of all the institution’s general creditors and depositors, and generally must not contain provisions permitting debt holders to accelerate payment of principal or interest upon the occurrence of any event other than receivership of the institution. Subordinated debt issued by a bank holding company or its subsidiaries that are neither U.S. depository institutions nor foreign banks must be subordinated to all senior indebtedness of the issuer; that is, the debt must be subordinated at a minimum to all borrowed money, similar obligations arising from off-balance sheet guarantees and direct credit substitutes, and obligations associated with derivative products such as interest rate and foreign exchange contracts, commodity contracts, and similar arrangements. Subordinated debt issued by a bank holding company or any of its subsidiaries that is not a U.S. depository institution or foreign bank must not contain provisions permitting debt holders to accelerate the payment of principal or interest upon the occurrence of any event other than the bankruptcy of the bank holding company or the receivership of a major subsidiary depository institution. Thus, a provision permitting acceleration in the event that any other affiliate of the bank holding company issuer enters into bankruptcy or receivership makes the instrument ineligible for inclusion in tier 2 capital.

iii. Discounting in last five years. A limited-life capital instrument approaches maturity, it begins to take on characteristics of a short-term obligation. For this reason, the outstanding amount of term subordinated debt and limited-life preferred stock eligible for inclusion in tier 2 capital is reduced, or discounted, as these instruments approach maturity: one-fifth of the outstanding amount is excluded each year during the instrument’s last five years before maturity. When remaining maturity is less than one year, the instrument is excluded from tier 2 capital.

iv. Limits. The aggregate amount of term subordinated debt (excluding mandatory convertible debt) and limited-life preferred stock as well as, beginning March 31, 2011, qualifying trust preferred securities and Class C minority interest in excess of the limits set forth in section II.A.1.b.i. of this appendix that may be included in tier 2 capital is limited to 50 percent of tier 1 capital (net of goodwill and other intangible assets required to be deducted in accordance with section II.B.1.b. of this appendix). Amounts of these instruments in excess of this limit, although not included in tier 2 capital, will be taken into account by the Federal Reserve in its overall assessment of a banking organization’s funding and financial condition.

e. Unrealized gains on equity securities and unrealized gains (losses) on other assets. Up to 45 percent of pretax net unrealized holding gains (that is, the excess, if any, of the fair value over historical cost) on available-for-sale equity securities with readily determinable fair values may be included in supplementary capital. However, the Federal Reserve may exclude a portion of these unrealized gains from Tier 2 capital if the Federal Reserve determines that the equity securities are not prudently valued. Unrealized gains (losses) on other types of assets, such as bank premises and available-for-sale debt securities, are not included in supplementary capital, but the Federal Reserve may take these unrealized gains (losses) into account as additional factors when assessing an institution’s overall capital adequacy.

f. Revaluation reserves. i. Such reserves reflect the formal balance sheet restatement or revaluation for capital purposes of asset carrying values to reflect current market values. The Federal Reserve generally has not included unrealized asset appreciation in capital ratio calculations, although it has long taken such values into account as a separate factor in assessing the overall financial strength of a banking organization.

ii. Consistent with long-standing supervisory practice, the excess of market values
over-book values for assets held by bank holding companies will generally not be recognized in supplementary capital or in the calculation of the risk-based capital ratio. However, all bank holding companies are encouraged to disclose their equivalent of premises (building) and security revaluation reserves. The Federal Reserve will consider any appreciation, as well as any depreciation, in specific asset values as additional considerations in assessing overall capital strength and financial condition.

B. Deductions from Capital and Other Adjustments

Certain assets are deducted from an organization’s capital for the purpose of calculating the risk-based capital ratio. These assets include:

(i) (a) Goodwill—deducted from the sum of core capital elements.
(b) Certain identifiable intangible assets, that is, intangible assets other than goodwill—deducted from the sum of core capital elements in accordance with section II.B.1.b. of this appendix.
(c) Certain credit-enhancing interest-only strips receivables—deducted from the sum of core capital elements in accordance with sections II.B.1.c. through e. of this appendix.
(ii) Investments in banking and finance subsidiaries that are not consolidated for accounting or supervisory purposes, and investments in other designated subsidiaries or associated companies at the discretion of the Federal Reserve—deducted from total capital components (as described in greater detail below).
(iii) Reciprocal holdings of capital instruments of banking organizations—deducted from total capital components.
(iv) Deferred tax assets—portions are deducted from the sum of core capital elements in accordance with section II.B.4. of this appendix.
(v) Nonfinancial equity investments—portions are deducted from the sum of core capital elements in accordance with section II.B.5 of this appendix.

1. Goodwill and other intangible assets—
(a) Goodwill. Goodwill is an intangible asset that represents the excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed. Goodwill is deducted from the sum of core capital elements in determining tier 1 capital.
(b) Other intangible assets. 1. All servicing assets, including servicing assets on assets other than mortgages (i.e., nonmortgage servicing assets), are included in this appendix as identifiable intangible assets. The only types of identifiable intangible assets that may be included in, that is, not deducted from, an organization’s capital are readily marketable mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships. The total amount of these assets that may be included in capital is subject to the limitations described below in sections II.B.1.d. and e. of this appendix.
(ii) The treatment of identifiable intangible assets set forth in this section generally will be used in the calculation of a bank holding company’s capital ratios for supervisory and applications purposes. However, in making an overall assessment of a bank holding company’s capital adequacy for applications purposes, the Board may, if it deems appropriate, take into account the quality and composition of an organization’s capital, together with the quality and value of its tangible and intangible assets.
(c) Credit-enhancing interest-only strips receivables (I/Os). Credit-enhancing I/Os are on-balance sheet assets that, in form or in substance, represent a contractual right to receive some or all of the interest due on transferred assets and expose the bank holding company to credit risk directly or indirectly associated with transferred assets that exceeds a pro rata share of the bank holding company’s claim on the assets, whether through subordination provisions or other credit enhancement techniques. Such I/Os, whether purchased or retained, including other similar “spread” assets, may be included in, that is, not deducted from, a bank holding company’s capital subject to the limitations described below in sections II.B.1.d. and e. of this appendix.
(ii) Both purchased and retained credit-enhancing I/Os, on a non-tax adjusted basis, are included in the total amount that is used for purposes of determining whether a bank holding company exceeds the tier 1 limitations described below in this section. In determining whether an I/O or other types of spread assets serve as a credit enhancement, the Federal Reserve will look to the economic substance of the transaction.
(d) Fair value limitation. The amount of mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships that a bank holding company may include in capital shall be the lesser of 90 percent of their fair value, as determined in accordance with section II.B.1.f. of this appendix, or 100 percent of their book value, as adjusted for capital purposes in accordance with the instructions to the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C Report). The amount of credit-enhancing I/Os that a bank holding company may include in capital shall be its fair value. If both the application of the limits on mortgage servicing assets,
nonmortgage servicing assets, and purchased credit card relationships and the adjustment of the balance sheet amount for these assets would result in an amount being deducted from capital, the bank holding company would deduct only the greater of the two amounts from its core capital elements in determining tier 1 capital.

e. Tier 1 capital limitation. I. The total amount of mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships that may be included in capital, in the aggregate, cannot exceed 100 percent of tier 1 capital. Nonmortgage servicing assets and purchased credit card relationships are subject, in the aggregate, to a separate sublimit of 25 percent of tier 1 capital. In addition, the total amount of credit-enhancing I/Os (both purchased and retained) that may be included in capital cannot exceed 25 percent of tier 1 capital. 18

II. For purposes of calculating these limitations on mortgage servicing assets, nonmortgage servicing assets, purchased credit card relationships, and credit-enhancing I/Os, tier 1 capital is defined as the sum of core capital elements, net of goodwill, and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships, but prior to the deduction of any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing I/Os (both purchased and retained), any disallowed deferred tax assets, and any nonfinancial equity investments.

III. Bank holding companies may elect to deduct goodwill, disallowed mortgage servicing assets, disallowed nonmortgage servicing assets, disallowed credit-enhancing I/Os (both purchased and retained), any disallowed deferred tax assets, any nonfinancial equity investments, and any other instruments that are deemed to be capital in the particular subsidiary.

III. Bank holding companies may elect to deduct goodwill, disallowed mortgage servicing assets, disallowed nonmortgage servicing assets, and disallowed credit-enhancing I/Os (both purchased and retained) on a basis that is net of any associated deferred tax liability. Deferred tax liabilities netted in this manner cannot also be netted against deferred tax assets when determining the amount of deferred tax assets that are dependent upon future taxable income.

Important: The text above is a legal document and should be reviewed by a legal professional for its accuracy and applicability. The text has been formatted for readability and comprehension, but may not reflect the exact wording of the original document.

Footnotes:

18 Amounts of servicing assets, purchased credit card relationships, and credit-enhancing I/Os (both retained and purchased) in excess of the capital, as well as all other identifiable intangible assets, including core deposit intangibles and favorable leaseholds, are to be deducted from a bank holding company’s capital elements in determining tier 1 capital. However, identifiable intangible assets (other than mortgage servicing assets and purchased credit card relationships) acquired on or before February 19, 1992, generally will not be deducted from capital for supervisory purposes, although they will continue to be deducted for applications purposes.

19 For this purpose, a banking and finance subsidiary generally is defined as any company engaged in banking or finance in which the parent institution holds directly or indirectly more than 50 percent of the outstanding voting stock, which is otherwise controlled or capable of being controlled by the parent institution. For purposes of this section, the definition of banking and finance subsidiary does not include a trust or any other special purpose entity used to issue trust preferred securities.

20 An exception to this deduction would be made in the case of shares acquired in the regular course of securing or collecting a debt previously contracted in good faith. The requirements for consolidation are spelled out in the instructions to the FR Y–9C Report.
Advances (that is, loans, extensions of credit, guarantees, commitments, or any other forms of credit exposure) to the subsidiary that are not deemed to be capital will generally not be deducted from an organization’s capital. Rather, such advances generally will be included in the parent banking organization’s consolidated assets and be assigned to the 100 percent risk category, unless such obligations are backed by recognized collateral or guarantees, in which case they will be assigned to the risk category appropriate to such collateral or guarantees. These advances may, however, also be deducted from the consolidated parent banking organization’s capital if, in the judgment of the Federal Reserve, the risks stemming from such advances are comparable to the risks associated with capital investments or if the advances involve other risk factors that warrant such an adjustment to capital for supervisory purposes. These other factors could include, for example, the absence of collateral support.

Inasmuch as the assets of unconsolidated banking and finance subsidiaries are not fully reflected in a banking organization’s consolidated total assets, such assets may be viewed as the equivalent of off-balance sheet exposures since the operations of an unconsolidated subsidiary could expose the parent organization and its affiliates to considerable risk. For this reason, it is generally appropriate to view the capital resources invested in these unconsolidated entities as primarily supporting the risks inherent in these off-balance sheet assets, and not generally available to support risks or absorb losses elsewhere in the organization.

b. Other subsidiaries and investments. The deduction of investments, regardless of whether they are made by the parent bank holding company or by its direct or indirect subsidiaries, from a consolidated banking organization’s capital will also be applied in the case of any subsidiaries, that, while consolidated for accounting purposes, are not consolidated for certain specified supervisory or regulatory purposes, such as to facilitate functional regulation. For this purpose, aggregate capital investments (that is, the sum of any equity or debt instruments that are deemed to be capital) in these subsidiaries will be deducted from the consolidated parent banking organization’s total capital components.

Investments in unconsolidated subsidiaries will be deducted from both Tier 1 and Tier 2 capital. As a general rule, one-half (50 percent) of the aggregate amount of capital investments will be deducted from the bank holding company’s Tier 1 capital and one-half (50 percent) from its Tier 2 capital. However, the Federal Reserve may, on a case-by-case basis, deduct a proportionately greater amount from Tier 1 if the risks associated with the subsidiary so warrant. If the amount deductible from Tier 2 capital exceeds actual Tier 2 capital, the excess would be deducted from Tier 1 capital. Bank holding companies’ risk-based capital ratios, net of these deductions, must exceed the minimum standards set forth in section IV.

In assessing the overall capital adequacy of a banking organization, the Federal Reserve may also consider the organization’s fully consolidated capital position.

If the subsidiary’s assets are consolidated with the parent banking organization for financial reporting purposes, this adjustment will involve excluding the subsidiary’s assets on a line-by-line basis from the consolidated parent organization’s assets. The parent banking organization’s capital ratio will then be calculated on a consolidated basis with the exception that the assets of the excluded subsidiary will not be consolidated with the remainder of the parent banking organization.
Federal Reserve System

The Federal Reserve will not automatically deduct investments in other unconsolidated subsidiaries or investments in joint ventures and associated companies.24 Nonetheless, the resources invested in these entities, like investments in unconsolidated banking and finance subsidiaries, support assets not consolidated with the rest of the banking organization’s activities and, therefore, may not be generally available to support additional leverage or absorb losses elsewhere in the banking organization. Moreover, experience has shown that banking organizations stand behind the losses of affiliated institutions, such as joint ventures and associated companies, in order to protect the reputation of the organization as a whole. In some cases, this has led to losses that have exceeded the investments in such organizations.

For this reason, the Federal Reserve will monitor the level and nature of such investments for individual banking organizations and may, on a case-by-case basis, deduct such investments from total capital components, apply an appropriate risk-weighted capital charge against the organization’s proportionate share of the assets of its associated companies, require a line-by-line consolidation of the entity (in the event that the parent’s control over the entity makes it the functional equivalent of a subsidiary), or otherwise require the organization to operate with a risk-based capital ratio above the minimum.

In considering the appropriateness of such adjustments or actions, the Federal Reserve will generally take into account whether:

(1) The parent banking organization has significant influence over the financial or managerial policies or operations of the subsidiary, joint venture, or associated company;
(2) The banking organization is the largest investor in the affiliated company; or
(3) Other circumstances prevail that appear to closely tie the activities of the affiliated company to the parent banking organization.

3. Reciprocal holdings of banking organizations’ capital instruments. Reciprocal holdings of banking organizations’ capital instruments (that is, instruments that qualify as Tier 1 or Tier 2 capital) will be deducted from an organization’s total capital components for the purpose of determining the numerator of the risk-based capital ratio.

Reciprocal holdings are cross-holdings resulting from formal or informal arrangements in which two or more banking organizations swap, exchange, or otherwise agree to hold each other’s capital instruments. Generally, deductions will be limited to intentional cross-holdings. At present, the Board does not intend to require banking organizations to deduct non-reciprocal holdings of such capital instruments.25

4. Deferred-tax assets. a. The amount of deferred-tax assets that is dependent upon future taxable income, net of the valuation allowance for deferred-tax assets, that may be included in, that is, not deducted from, a bank holding company’s capital may not exceed the lesser of:

i. The amount of these deferred-tax assets that the bank holding company is expected to realize within one year of the calendar quarter-end date, based on its projections of future taxable income for that year,26 or
ii. 10 percent of tier 1 capital.

24The definition of such entities is contained in the instructions to the Consolidated Financial Statements for Bank Holding Companies. Under regulatory reporting procedures, associated companies and joint ventures generally are defined as companies in which the banking organization owns 20 to 50 percent of the voting stock.

25Deductions of holdings of capital securities also would not be made in the case of interstate “stake out” investments that comply with the Board’s Policy Statement on Nonvoting Equity Investments, 12 CFR 225.143 (Federal Reserve Regulatory Service 4–172.1; 68 Federal Reserve Bulletin 413 (1982)). In addition, holdings of capital instruments issued by other banking organizations but taken in satisfaction of debts previously contracted would be exempt from any deduction from capital. The Board intends to monitor nonreciprocal holdings of other banking organizations’ capital instruments and to provide information on such holdings to the Baile Supervisors’ Committee as called for under the Baile capital framework.

26To determine the amount of expected deferred-tax assets realizable in the next 12 months, an institution should assume that all existing temporary differences fully reverse as of the report date. Projected future taxable income should not include net operating loss carry-forwards to be used during that year or the amount of existing temporary differences a bank holding company expects to reverse within the year. Such projections should include the estimated effect of tax-planning strategies that the organization expects to implement to realize net operating losses or tax-credit carry-forwards that would otherwise expire during the year. Institutions do not have to prepare a new 12-month projection each quarter. Rather, on interim report dates, institutions may use the future-taxable income projections for their current fiscal year, adjusted for any significant changes that have occurred or are expected to occur.
b. The reported amount of deferred-tax assets, net of any valuation allowance for deferred-tax assets, in excess of the lesser of these two amounts is to be deducted from a banking organization’s core capital elements in determining tier 1 capital. For purposes of calculating the 10 percent limitation, tier 1 capital is defined as the sum of core capital elements, net of goodwill and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships, but prior to the deduction of any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing I/Os, any disallowed deferred-tax assets, and any nonfinancial equity investments. There generally is no limit in tier 1 capital on the amount of deferred-tax assets that can be realized from taxes paid in prior carry-back years or from future reversals of existing taxable temporary differences.

5. Nonfinancial equity investments—A. General. A bank holding company must deduct from its core capital elements the sum of the appropriate percentages (as determined below) of the adjusted carrying value of all nonfinancial equity investments held by the parent bank holding company or by its direct or indirect subsidiaries. For purposes of this section H.R.5, investments held by a bank holding company include all investments held directly or indirectly by the bank holding company or any of its subsidiaries.

b. Scope of nonfinancial equity investments. A nonfinancial equity investment means any equity investment held by the bank holding company; under the merchant banking authority of section 4(k)(4)(H) of the BHCA Act and subpart J of the Board’s Regulation Y (12 CFR 225.175 et seq.); under section 4(c)(6) or 4(c)(7) of BHCA Act in a nonfinancial company or in a company that makes investments in nonfinancial companies; in a nonfinancial company through a small business investment company (SBIC) under section 332(b) of the Small Business Investment Act of 1958; or in a nonfinancial company under the portfolio investment provisions of the Board’s Regulation K (12 CFR 211.6(c)(3)); or in a nonfinancial company under section 24 of the Federal Deposit Insurance Act (other than section 24(f)).

An equity investment made under section 332(b) of the Small Business Investment Act of 1958 in an SBIC that is not consolidated with the parent banking organization is treated as a nonfinancial equity investment.

See 12 U.S.C. 1843(c)(6), (c)(7) and (k)(4)(H); 15 U.S.C. 1682(b); 12 CFR 211.5(b)(1)(iii); and 12 U.S.C. 1831a. In a case in which the Board of Directors of the FDIC, an entity that engages in any activity that has not been determined to be financial in nature or incidental to financial activities under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1843(k)), the bank holding company must deduct from its core capital elements the sum of the appropriate percentages, as set forth in Table 1, of the adjusted carrying value of all nonfinancial equity investments held by the bank holding company. The amount of the percentage deduction increases as the aggregate amount of nonfinancial equity investments held by the bank holding company increases as a percentage of the bank holding company’s Tier 1 capital.

| TABLE 1—DEDUCTION FOR NONFINANCIAL EQUITY INVESTMENTS |
|----------------------------------|--------------------------|
| Aggregate adjusted carrying value of all nonfinancial equity investments held directly or indirectly by the bank holding company (as a percentage of the Tier 1 capital of the parent banking organization) | Deduction from Core Capital Elements (as a percentage of the adjusted carrying value of the investment) |
| Aggregate adjusted carrying value of all nonfinancial equity investments held directly or indirectly by the bank holding company (as a percentage of the Tier 1 capital of the parent banking organization) | Deduction from Core Capital Elements (as a percentage of the adjusted carrying value of the investment) |
| Less than 15 percent | 8 percent. |
| 15 percent to 24.99 percent | 12 percent. |
| 25 percent and above | 25 percent. |

For purposes of calculating the adjusted carrying value of nonfinancial equity investments as a percentage of Tier 1 capital, Tier 1 capital is defined as the sum of core capital elements net of goodwill and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships, but prior to the deduction for any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing I/Os (both purchased and retained), any disallowed deferred tax assets, and any nonfinancial equity investments.

ii. These deductions are applied on a marginal basis to the portions of the adjusted carrying value of nonfinancial equity investments that fall within the specified ranges of the parent holding company’s Tier 1 capital. For example, if the adjusted carrying value of all nonfinancial equity investments held by a bank holding company equals 20 percent of the Tier 1 capital of the bank holding company, then the amount of the deduction would be 8 percent of the adjusted carrying value of all investments up to 15 percent of the company’s Tier 1 capital, and 12 percent acting directly in exceptional cases and after a review of the proposed activity, has permitted a lesser capital deduction for an investment approved by the Board of Directors under section 24 of the Federal Deposit Insurance Act, such deduction shall also apply to the consolidated bank holding company capital calculation so long as the bank’s investments under section 24 and SBIC investments represent, in the aggregate, less than 15 percent of the Tier 1 capital of the bank.
of the adjusted carrying value of all investments in excess of 15 percent of the company’s Tier 1 capital.

iii. The total adjusted carrying value of any nonfinancial equity investment that is subject to deduction under this paragraph is excluded from the bank holding company’s risk-weighted assets for purposes of computing the denominator of the company’s risk-based capital ratio.

iv. As noted in section I, this appendix establishes minimum risk-based capital ratios and banking organizations are at all times expected to maintain capital commensurate with the level and nature of the risks to which they are exposed. The risk to a banking organization from nonfinancial equity investments increases with its concentration in such investments and strong capital levels above the minimum requirements are particularly important when a banking organization has a high degree of concentration in nonfinancial equity investments (e.g., in excess of 50 percent of Tier 1 capital). The Federal Reserve intends to monitor banking organizations and apply heightened supervision to equity investment activities as appropriate, including where the banking organization has a high degree of concentration in nonfinancial equity investments, to ensure that each organization maintains capital levels that are appropriate in light of its equity investment activities. The Federal Reserve also reserves authority to impose a higher capital charge in any case where the circumstances, such as the level of risk of the particular investment or portfolio of investments, the risk management systems of the banking organization, or other information, indicate that a higher minimum capital requirement is appropriate.

d. SBIC investments. 1. No deduction is required for nonfinancial equity investments that are held by a bank holding company through one or more SBICs that are consolidated with the bank holding company or in one or more SBICs that are not consolidated with the bank holding company to the extent that all such investments, in the aggregate, do not exceed 15 percent of the aggregate of the bank holding company’s pro rata interests in the Tier 1 capital of its subsidiary banks. Any nonfinancial equity investment that is held through or in an SBIC and is not required to be deducted from Tier 1 capital under this section II.B.5.d. will be assigned a 100 percent risk-weight and included in the parent holding company’s consolidated risk-weighted assets.

ii. To the extent the adjusted carrying value of all nonfinancial equity investments that a bank holding company holds through one or more SBICs that are consolidated with the bank holding company or in one or more SBICs that are not consolidated with the bank holding company exceeds, in the aggregate, 15 percent of the aggregate Tier 1 capital of the company’s subsidiary banks, the appropriate percentage of such amounts (as set forth in Table 1) must be deducted from the bank holding company’s core capital elements. In addition, the aggregate adjusted carrying value of all nonfinancial equity investments held through a consolidated SBIC and in a non-consolidated SBIC (including any investments for which no deduction is required) must be included in determining, for purposes of Table 1, the total amount of nonfinancial equity investments held by the bank holding company in relation to its Tier 1 capital.

e. Transition provisions. No deduction under this section II.B.5 is required to be made with respect to the adjusted carrying value of any nonfinancial equity investment (or portion of such an investment) that was made by the bank holding company prior to March 13, 2000, or that was made after such

---

For example, if 8 percent of the adjusted carrying value of a nonfinancial equity investment is deducted from Tier 1 capital, the entire adjusted carrying value of the investment will be excluded from risk-weighted assets in calculating the denominator for the risk-based capital ratio.

---

If a bank holding company has an investment in an SBIC that is consolidated for accounting purposes but that is not wholly owned by the bank holding company, the adjusted carrying value of the bank holding company’s nonfinancial equity investments through the SBIC is equal to the holding company’s proportionate share of the adjusted carrying value of the SBIC’s equity investments in nonfinancial companies. The remainder of the SBIC’s adjusted carrying value (i.e., the minority interest holders’ proportionate share) is excluded from the risk-weighted assets of the bank holding company. If a bank holding company has an investment in a SBIC that is not consolidated for accounting purposes and has current information that identifies the percentage of the SBIC’s assets that are equity investments in nonfinancial companies, the bank holding company may reduce the adjusted carrying value of its investment in the SBIC proportionately to reflect the percentage of the adjusted carrying value of the SBIC’s assets that are not equity investments in nonfinancial companies. If a bank holding company reduces the adjusted carrying value of its investment in a non-consolidated SBIC to reflect financial investments of the SBIC, the amount of the adjustment will be risk weighted at 100 percent and included in the bank’s risk-weighted assets.
date pursuant to a binding written commitment entered into by the bank holding company prior to March 13, 2000, provided that in either case the bank holding company has continuously held the investment since the relevant investment date. For purposes of this section II.B.5.e., a nonfinancial equity investment made prior to March 13, 2000, includes any shares or other interests received by the bank holding company through a stock split or stock dividend on an investment made prior to March 13, 2000, provided the bank holding company provides no consideration for the shares or interests received and the transaction does not materialize increase the bank holding company’s proportional interest in the company. The exercise on or after March 13, 2000, of options or warrants acquired prior to March 13, 2000, is not considered to be an investment made prior to March 13, 2000. If the bank holding company provides any consideration for the shares or interests received upon exercise of the options or warrants, any nonfinancial equity investment (or portion thereof) that is not required to be deducted from Tier 1 capital under this section II.B.5.e. must be included in determining the total amount of nonfinancial equity investments held by the bank holding company in relation to its Tier 1 capital for purposes of Table 1. In addition, any nonfinancial equity investment (or portion thereof) that is not required to be deducted from Tier 1 capital under this section II.B.5.e. will be assigned a 100-percent risk weight and included in the bank holding company’s consolidated risk-weighted assets.

1. Adjusted carrying value. For purposes of this section II.B.5., the “adjusted carrying value” of investments is the aggregate value at which the investments are carried on the balance sheet of the consolidated bank holding company reduced by any unrealized gains on those investments that are reflected in such carrying value but excluded from the bank holding company’s Tier 1 capital and associated deferred tax liabilities. For example, for investments held as available-for-sale (AFS), the adjusted carrying value of the investments would be the aggregate carrying value of the investments (as reflected on the consolidated balance sheet of the bank holding company) less any unrealized gains on those investments that are included in other comprehensive income and not reflected in Tier 1 capital, and associated deferred tax liabilities.

ii. As discussed above with respect to consolidated SBCIs, some equity investments may be in companies that are consolidated for accounting purposes. For investments in a nonfinancial company that is consolidated for accounting purposes under generally accepted accounting principles, the parent banking organization’s adjusted carrying value of the investment is determined under the equity method of accounting (net of any intangibles associated with the investment that are deducted from the consolidated bank holding company’s core capital in accordance with section II.B.1 of this appendix). Even though the assets of the nonfinancial company are consolidated for accounting purposes, these assets (as well as the credit equivalent amounts of the company’s off-balance sheet items) should be excluded from the banking organization’s risk-weighted assets for regulatory capital purposes.

g. Equity investments. For purposes of this section II.B.5, an equity investment means any equity instrument (including common stock, preferred stock, partnership interests, interests in limited liability companies,

32 Unrealized gains on AFS investments may be included in supplementary capital to the extent permitted under section II.A.2.e of this appendix A. In addition, the unrealized losses on AFS equity investments are deducted from Tier 1 capital in accordance with section II.A.1.a of this appendix A.
Federal Reserve System

Pt. 225, App. A

Components Minimum requirements

CORE CAPITAL (Tier 1) Must equal or exceed 4% of weighted-risk assets.
Common stockholders’ equity No limit.
Qualifying noncumulative perpetual preferred stock Limited to 25% of the sum of common stock, qualifying perpetual stock, and minority interests. Organizations should avoid using minority interests to introduce elements not otherwise qualifying for tier 1 capital.
Qualifying cumulative perpetual preferred stock
Minority interest in equity accounts of consolidated subsidiaries.
Less: Goodwill, other intangible assets, credit-enhancing interest-only strips and nonfinancial equity investments required to be deducted from capital
SUPPLEMENTARY CAPITAL (Tier 2) Total of tier 2 is limited to 100% of tier 1. 2
Allowance for loan and lease losses Limited to 1.25% of weighted-risk assets. 2
Perpetual preferred stock No limit within tier 2.
Subordinated debt and intermediate-term preferred stock Limited to 50% of tier 1.2 Amortized for capital purposes as they approach maturity.
Subordinated debt and intermediate-term preferred stock (original weighted average maturity of 5 years or more).
Revaluation reserves (equity and building) No limit
DEDUCTIONS (from sum of tier 1 and tier 2) As a general rule, one-half of the aggregate investments will be deducted from tier 1 capital and one-half from tier 2 capital. 2
Investments in unconsolidated subsidiaries
Reciprocal holdings of banking organizations’ capital securities
Other deductions (such as other subsidiaries or joint ventures) as determined by supervisory authority.
TOTAL CAPITAL (tier 1 + tier 2 – deductions) Must equal or exceed 8% of weighted-risk assets.

1 Requirements for the deduction of other intangible assets and residual interests are set forth in section II.B.3. of this appendix. An investment in any other instrument (including subordinated debt) may be treated as an equity investment if, in the judgment of the Federal Reserve, the instrument is the functional equivalent of equity or exposes the state member bank to essentially the same risks as an equity instrument.

ATTACHMENT II—SUMMARY OF DEFINITION OF QUALIFYING CAPITAL FOR BANK HOLDING COMPANIES

[Using the Year-End 1992 Standard]

A. Procedures

Assets and credit equivalent amounts of off-balance sheet items of bank holding companies are assigned to one of several broad risk categories, according to the obligor, or, if relevant, the guarantor or the nature of the collateral. The aggregate dollar value of the amount in each category is then multiplied by the weight risk associated with that category. The resulting weighted values from each of the risk categories are added together, and this sum is the banking organization’s total weighted risk assets that comprise the denominator of the risk-based capital ratio. Attachment I provides a sample calculation.

Risk weights for all off-balance sheet items are determined by a two-step process. First, the “credit equivalent amount” of off-balance sheet items is determined, in most cases, by multiplying the off-balance sheet items by a credit conversion factor. Second, the credit equivalent amount is treated like any balance sheet asset and generally is assigned to the appropriate risk category according to the obligor, or, if relevant, the guarantor or the nature of the collateral.

In general, if a particular item qualifies for placement in more than one risk category, it is assigned to the category that has the lowest risk weight. A holding of a U.S. municipal revenue bond that is fully guaranteed by a U.S. bank, for example, would be assigned the 20 percent risk weight appropriate to claims guaranteed by U.S. banks, rather
than the 50 percent risk weight appropriate to U.S. municipal revenue bonds.34

The Federal Reserve will, on a case-by-case basis, determine the appropriate risk weight for any asset or credit equivalent amount of an off-balance sheet item that does not fit wholly within the terms of one of the risk weight categories set forth below or that imposes risks on a banking organization that are incommensurate with the risk weight otherwise specified below for the asset or off-balance sheet item. In addition, the Federal Reserve will, on a case-by-case basis, determine the appropriate credit conversion factor for any off-balance sheet item that does not fit wholly within the terms of one of the credit conversion factors set forth below or that imposes risks on a banking organization that are incommensurate with the credit conversion factors otherwise specified below for the off-balance sheet item. In making such a determination, the Federal Reserve will consider the similarity of the asset or off-balance sheet item to assets or off-balance sheet items explicitly treated in the guidelines, as well as other relevant factors.

B. Collateral, Guarantees, and Other Considerations

1. Collateral. The only forms of collateral that are formally recognized by the risk-based capital framework are: Cash on deposit in a subsidiary lending institution; securities issued or guaranteed by the central governments of the OECD-based group of countries,35 U.S. Government agencies, or U.S. Government-sponsored agencies; and securities issued by multilateral lending institutions or regional development banks. Claims fully secured by such collateral generally are assigned to the 20 percent risk-weight category. Collateralized transactions meeting all the conditions described in section III.C.1. may be assigned a zero percent risk weight.

With regard to collateralized claims that may be assigned to the 20 percent risk-weight category, the extent to which qualifying securities are recognized as collateral is determined by their current market value. If such a claim is only partially secured, that is, the market value of the pledged securities is less than the face amount of a balance-sheet asset or an off-balance-sheet item, the

34 An investment in shares of a fund whose portfolio consists primarily of various securities or money market instruments that, if held separately, would be assigned to different risk categories, generally is assigned to the risk category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the stated investment objectives set forth in the prospectus. An organization may, at its option, assign a fund investment on a pro rata basis to different risk categories according to the investment limits in the fund’s prospectus. In no case will an investment in shares in any fund be assigned to a total risk weight of less than 20 percent. If an organization chooses to assign a fund investment on a pro rata basis, and the sum of the investment limits of assets in the fund’s prospectus exceeds 100 percent, the organization must assign risk weights in denoting order. If, in order to maintain a necessary degree of short-term liquidity, a fund is permitted to hold an insignificant amount of its assets in short-term, highly liquid securities of superior credit quality that do not qualify for a preferential risk weight, such securities generally will be disregarded when determining the risk category into which the organization’s holding in the overall fund should be assigned. The prudent use of hedging instruments by a fund to reduce the risk of its assets generally will not increase the risk weight of the fund above the 20 percent category. Nonetheless, if a fund engages in any activities that appear speculative in nature or has any other characteristics that are inconsistent with the preferential risk weighting assigned to the fund’s assets, holdings in the fund will be assigned to the 100 percent risk category.

35 The OECD-based group of countries comprises all full members of the Organization for Economic Cooperation and Development (OECD) regardless of entry date, as well as countries that have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the IMF’s General Arrangements to Borrow, but excludes any country that has rescheduled its external sovereign debt within the previous five years. As of November 1995, the OECD included the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States; and Saudi Arabia had concluded special lending arrangements with the IMF associated with the IMF’s General Arrangements to Borrow. A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country’s inability or unwillingness to meet its external debt service obligations, but generally would not include renegotiations of debt in the normal course of business, such as a renegotiation to allow the borrower to take advantage of a decline in interest rates or other change in market conditions.
portion that is covered by the market value of the qualifying collateral is assigned to the 20 percent risk category, and the portion of the claim that is not covered by collateral in the form of the qualifying security is assigned to the risk category appropriate to the obligor or, if relevant, the guarantor. For example, to the extent that a claim on a privately placed asset or a bank holding company is collateralized by the current market value of U.S. Government securities, it would be placed in the 20 percent risk category and the balance would be assigned to the 100 percent risk category.

2. Guarantees. Guarantees of the OECD and non-OECD central governments, U.S. Government agencies, U.S. Government-sponsored agencies, state and local governments of the OECD-based group of countries, multilateral lending institutions and regional development banks, U.S. depository institutions, and foreign banks are also recognized. If a claim is partially guaranteed, that is, coverage of the guarantee is less than the face amount of a balance sheet asset or an off-balance sheet item, the portion that is not fully covered by the guarantee is assigned to the risk category appropriate to the obligor or, if relevant, to any collateral. The face amount of a claim covered by two types of guarantees that have different risk weights, such as a U.S. Government guarantee and a state guarantee, is to be apportioned between the two risk categories appropriate to the guarantors.

The existence of other forms of collateral or guarantees that the risk-based capital framework does not formally recognize may be taken into consideration in evaluating the risks inherent in an organization’s loan portfolio—which, in turn, would affect the overall supervisory assessment of the organization’s capital adequacy.

3. Recourse obligations, direct credit substitutes, residual interests, and asset- and mortgage-backed securities. Direct credit substitutes, assets transferred with recourse, and securities issued in connection with asset securitizations and structured financings are treated as described below. The term “asset securitizations” or “securitizations” in this rule includes structured financings, as well as asset securitization transactions.

a. Definitions—i. Credit derivative means a contract that allows one party (the “protection purchaser”) to transfer the credit risk of an asset or off-balance sheet credit exposure to another party (the “protection provider”). The value of a credit derivative is dependent, at least in part, on the credit performance of the “reference asset.”

ii. Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of assets (including loan servicing assets) and that obligate the bank holding company to protect investors from losses arising from credit risk in the assets transferred or the loans serviced. Credit-enhancing representations and warranties include promises to protect a party from losses resulting from the default of another party or from an insufficiency in the value of the collateral. Credit-enhancing representations and warranties do not include:

1. Early default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1–4 family residential first mortgage loans that qualify for a 50 percent risk weight for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;
2. Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency or a government-sponsored enterprise, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or
3. Warranties that permit the return of assets in instances of misrepresentation, fraud or incomplete documentation.

iii. Direct credit substitute means an arrangement in which a bank holding company assumes, in form or in substance, credit risk associated with an on- or off-balance sheet credit exposure that was not previously owned by the bank holding company (third-party asset) and the risk assumed by the bank holding company exceeds the pro rata share of the bank holding company’s interest in the third-party asset. If the bank holding company has no claim on the third-party asset, then the bank holding company’s assumption of any credit risk with respect to the third party asset is a direct credit substitute. Direct credit substitutes include, but are not limited to:

1. Financial standby letters of credit that support financial claims on a third party that exceed a bank holding company’s pro rata share of losses in the financial claim;
2. Guarantees, surety arrangements, credit derivatives, and similar instruments backing financial claims that exceed a bank holding company’s pro rata share in the financial claim;
3. Purchased subordinated interests or securities that absorb more than their pro rata share of losses from the underlying assets;
4. Credit derivative contracts under which the bank holding company assumes more than its pro rata share of credit risk on a third party exposure;
5. Loans or lines of credit that provide credit enhancement for the financial obligations of an account party;
6. Purchased loan servicing assets if the servicer is responsible for credit losses or if the servicer makes or assumes credit-enhancing representations and warranties with
respect to the loans serviced. Mortgage
servicer cash advances that meet the con-
ditions of section III.B.3.a.viii. of this appendix
are not direct credit substitutes.
7. Clean-up calls on third party assets.
Clean-up calls that are 10 percent or less of
the original pool balance that are exor-
cisable at the option of the bank holding
company are not direct credit substitutes; and
8. Liquidity facilities that provide liquid-
sity support to ABCP (other than eligible
ABCP liquidity facilities).
iv. Eligible ABCP liquidity facility means a
liquidity facility supporting ABCP, in form
or in substance, that is subject to an asset
quality test at the time of draw that pre-
cludes funding against assets that are 90
days or more past due or in default. In addi-
tion, if the assets that an eligible ABCP li-
quidity facility is required to fund against
are externally rated assets or exposures at
the inception of the facility, the facility can
be used to fund only those assets or expo-
sures that are externally rated investment
grade at the time of funding. Notwith-
standing the eligibility requirements set
forth in the two preceding sentences, a li-
quidity facility will be considered an eligible
ABCP liquidity facility if the assets that are
funded under the liquidity facility and which
do not meet the eligibility requirements are
guaranteed, either conditionally or uncondi-
tionally, by the U.S. government or its agen-
cies, or by the central government of an
OECD country.
v. Externally rated means that an instru-
ment or obligation has received a credit rat-
ing from a nationally recognized statistical
rating organization.
vi. Face amount means the notional prin-
cipal, or face value, amount of an off-balance
sheet item; the amortized cost of an asset
not held for trading purposes; and the fair
value of a trading asset.
vii. Financial asset means cash or other
monetary instrument, evidence of debt, evi-
dence of an ownership interest in an entity,
or a contract that conveys a right to receive
or exchange cash or another financial instru-
ment from another party.
viii. Financial standby letter of credit means
a letter of credit or similar arrangement that
represents an irrevocable obligation to a
third-party beneficiary:
1. To repay money borrowed by, or ad-
vanced to, or for the account of, a second
party (the account party), or
2. To make payment on behalf of the ac-
count party, in the event that the account
party fails to fulfill its obligation to the ben-
eficiary.
ix. Liquidity Facility means a legally bind-
ing commitment to provide liquidity support
to ABCP by lending to, or purchasing assets
from, any structure, program, or conduit in
the event that funds are required to repay
matur ing ABCP.
x. Mortgage servicer cash advance means
funds that a residential mortgage loan
servicer advances to ensure an uninterrupted
flow of payments, including advances made
to cover foreclosure costs or other expenses
to facilitate the timely collection of the
loan. A mortgage servicer cash advance is
not a recourse obligation or a direct credit
substitute if:
1. The servicer is entitled to full reim-
bursement and this right is not subordinated
to other claims on the cash flows from the
underlying asset pool; or
2. For any one loan, the servicer’s obli-
gation to make nonreimbursable advances is
contractually limited to an insignificant
amount of the outstanding principal balance
of that loan.
xi. Nationally recognized statistical rating or-
ganization (NRSRO) means an entity recog-
nized by the Division of Market Regulation of
the Securities and Exchange Commission
(or any successor Division) (Commission) as
a nationally recognized statistical rating or-
ganization for various purposes, including
the Commission’s uniform net capital re-
quirements for brokers and dealers.
xii. Recourse means the retention, by a
bank holding company, in form or in sub-
stance, of any credit risk directly or indi-
rectly associated with an asset it has trans-
ferred and sold that exceeds a pro rata share
of the banking organization’s claim on the
asset. If a banking organization has no claim
on a transferred asset, then the retention of
any risk of credit loss is recourse. A recourse
obligation typically arises when a bank hold-
ing company transfers assets and retains an
explicit obligation to repurchase the assets
or absorb losses due to a default on the pay-
ment of principal or interest or any other de-
ficiency in the performance of the under-
lying obligor or some other party. Recourse
may also exist implicitly if a bank holding
company provides credit enhancement be-
 yond any contractual obligation to support
assets it has sold. The following are exam-
 ples of recourse arrangements:
1. Credit-enhancing representations and
warranties made on the transferred assets;
2. Loan servicing assets retained pursuant
to an agreement under which the bank hold-
ing company will be responsible for credit
losses associated with the loans being serv-
iced. Mortgage servicer cash advances that
meet the conditions of section III.B.3.a.x. of
this appendix are not recourse arrangements;
3. Retained subordinated interests that ab-
sorb more than their pro rata share of losses
from the underlying assets;
4. Assets sold under an agreement to repur-
chase, if the assets are not already included
on the balance sheet;
5. Loan strips sold without contractual re-
course where the maturity of the transferred

294
loan is shorter than the maturity of the commitment under which the loan is drawn;  
6. Credit derivatives issued that absorb more than the bank holding company’s pro rata share of losses from the transferred assets;  
7. Clean-up calls at inception that are greater than 10 percent of the balance of the original pool of transferred loans. Clean-up calls that are 10 percent or less of the original pool balance that are exercisable at the option of the bank holding company are not recourse arrangements; and  
8. Liquidity facilities that provide liquidity support to ABCP (other than eligible ABCP liquidity facilities).

xiv. Residual interest means any on-balance sheet asset that represents an interest (including a beneficial interest) created by a transfer that qualifies as a sale (in accordance with generally accepted accounting principles) of financial assets, whether through a securitization or otherwise, and that exposes the bank holding company to credit risk directly or indirectly associated with the transferred assets that exceeds a pro rata share of the bank holding company’s claim on the assets, whether through subordination provisions or other credit enhancement techniques. Residual interests generally include credit-enhancing I/Os, spread accounts, cash collateral accounts, retained subordinated interests, other forms of over-collateralization, and similar assets that function as a credit enhancement. Residual interests further include those exposures that, in substance, cause the bank holding company to retain the credit risk of an asset or exposure that had qualified as a residual interest before it was sold. Residual interests generally do not include interests purchased from a third party, except that purchased credit-enhancing I/Os are residual interests for purposes of this appendix.

xv. Risk participation means a participation in which the originating party remains liable to the beneficiary for the full amount of an obligation (e.g., a direct credit substitute) notwithstanding that another party has acquired a participation in that obligation.

xvi. Securitization means the pooling and reprocessing by a special purpose entity of assets or other credit exposures into securities that can be sold to investors. Securitization includes transactions that create stratified credit risk positions whose performance is dependent upon an underlying pool of credit exposures, including loans and commitments.

xvii. Structured finance program means a program where receivable interests (other than a credit-enhancing I/O) and direct credit substitutes, the credit-equivalent amount for a recourse obligation or direct credit substitute is the full amount of the credit-enhanced assets for which the bank holding company directly or indirectly retains or assumes credit risk multiplied by a 100 percent conversion factor.

ii. Risk-weight factor. To determine the bank holding company’s risk-weight factor for off-balance sheet recourse obligations and direct credit substitutes, the credit-equivalent amount is assigned to the risk category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral. For a direct credit substitute that is an on-balance sheet asset (e.g., a purchased subordinated security), a bank holding company must calculate risk-weighted assets using the amount of the direct credit substitute and the full amount of the assets it supports, i.e., all the more senior positions in the structure. The treatment of direct credit substitutes that have been syndicated or in which risk participations have been conveyed or acquired is set forth in section III.D.1 of this appendix.

c. Externally-rated positions: credit-equivalent amounts and risk weights of recourse obligations, direct credit substitutes, residual interests, and asset- and mortgage-backed securities (including asset-backed commercial paper)—I. Traded positions. With respect to a recourse obligation, direct credit substitute, residual interest (other than a credit-enhancing I/O, Ostrip) or asset- and mortgage-backed security (including asset-backed commercial paper) that is a traded position and that has received an external rating on a long-term
position that is one grade below investment grade or better or a short-term rating that is investment grade, the bank holding company may multiply the face amount of the position by the appropriate risk weight, determined in accordance with the tables below. Stripped mortgage-backed securities and other similar instruments, such as interest-only or principal-only strips that are not credit enhancements, must be assigned to the 100 percent risk category. If a traded position has received more than one external rating, the lowest single rating will apply.

ii. Non-traded positions. A recourse obligation, direct credit substitute, or residual interest (but not a credit-enhancing I/O strip) extended in connection with a securitization that is not a traded position may be assigned a risk weight in accordance with section III.B.3.c.1. of this appendix if:

1. It has been externally rated by more than one NRSRO;

2. It has received an external rating on a long-term position that is one grade below investment grade or better or on a short-term position that is investment grade by all NRSROs providing a rating;

3. The ratings are publicly available; and

4. The ratings are based on the same criteria used to rate traded positions.

If the ratings are different, the lowest rating will determine the risk category to which the recourse obligation, direct credit substitute, or residual interest will be assigned.

d. Senior positions not externally rated. For a recourse obligation, direct credit substitute, residual interest, or asset-or mortgage-backed security that is not externally rated but is senior or preferred in all features to a traded position (including collateralization and maturity), a bank holding company may apply a risk weight to the face amount of the senior position in accordance with section III.B.3.c.1. of this appendix, based on the traded position, subject to any current or prospective supervisory guidance and the bank holding company satisfying the Federal Reserve that this treatment is appropriate. This section will apply only if the traded subordinated position provides substantive credit support to the unrated position until the unrated position matures.

e. Capital requirement for residual interests—

1. Capital requirement for credit-enhancing I/O strips. After applying the concentration limit to credit-enhancing I/O strips (both purchased and retained) in accordance with sections II.B.2.c. through e. of this appendix, a bank holding company must maintain risk-based capital for a credit-enhancing I/O strip (both purchased and retained), regardless of the external rating on that position, equal to the remaining amount of the credit-enhancing I/O (net of any existing associated deferred tax liability), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred credit-enhancing I/O strip will be treated as if the credit-enhancing I/O strip was retained by the bank holding company and not transferred.

2. Where the aggregate capital requirement for residual interests and other recourse obligations in connection with the same transfer of assets exceed the full risk-based capital requirement for those assets, a bank holding company must maintain risk-based capital equal to the greater of the risk-based capital requirement for the residual interest as calculated under section III.B.3.e.1.f. of
Federal Reserve System

This appendix or the full risk-based capital requirement for the assets transferred.

1. Positions that are not rated by an NRSRO. A position (but not a residual interest) maintained in connection with a securitization and that is not rated by a NRSRO may be risk-weighted based on the bank holding company’s determination of the credit rating of the position, as specified in the table below, multiplied by the face amount of the position. In order to obtain this treatment, the bank holding company’s system for determining the credit rating of the position must meet one of the three alternative standards set out in sections III.B.3.f.i. through III.B.3.f.iii. of this appendix.

1. Internal risk rating used for asset-backed programs. A direct credit substitute (other than a purchased credit-enhancing I/O) is assumed in connection with an asset-backed commercial paper program sponsored by the bank holding company and the bank holding company is able to demonstrate to the satisfaction of the Federal Reserve, prior to relying upon its use, that the bank holding company’s internal credit risk rating system is adequate. Adequate internal credit risk rating systems usually contain the following criteria:

i. The internal credit risk system is an integral part of the bank holding company’s risk management system, which explicitly incorporates the full range of risks arising from a bank holding company’s participation in securitization activities;

ii. Internal credit ratings are linked to measurable outcomes, such as the probability that the position will experience any loss, the position’s expected loss given default, and the degree of variance in losses given default on that position;

iii. The bank holding company’s internal credit risk system must separately consider the risk associated with the underlying loans or borrowers, and the risk associated with the structure of a particular securitization transaction;

iv. The bank holding company’s internal credit risk system must identify gradations of risk among “pass” assets and other risk positions;

v. The bank holding company must have clear, explicit criteria that are used to classify assets into each internal risk grade, including subjective factors;

vi. The bank holding company must have independent credit risk management or loan review personnel assigning or reviewing the credit risk ratings;

vii. The bank holding company must have an internal audit procedure that periodically verifies that the internal credit risk ratings are assigned in accordance with the established criteria;

8. The bank holding company must monitor the performance of the internal credit risk ratings assigned to nonrated, nontraded direct credit substitutes over time to determine the appropriateness of the initial credit risk rating assignment and adjust individual credit risk ratings, or the overall internal credit risk ratings system, as needed; and

9. The internal credit risk system must make credit risk rating assumptions that are consistent with, or more conservative than, the credit risk rating assumptions and methodologies of NRSROs.

ii. Program Ratings. A direct credit substitute or recourse obligation (other than a residual interest) is assumed or retained in connection with a structured finance program and a NRSRO has reviewed the terms of the program and stated a rating for positions associated with the program. If the program has options for different combinations of assets, standards, internal credit enhancements and other relevant factors, and the NRSRO specifies ranges of rating categories to them, the bank holding company may apply the rating category that corresponds to the bank holding company’s position. In order to rely on a program rating, the bank holding company must demonstrate to the Federal Reserve’s satisfaction that the credit risk rating assigned to the program meets the same standards generally used by NRSROs for rating traded positions. The bank holding company must also demonstrate to the Federal Reserve’s satisfaction that the criteria underlying the NRSRO’s assignment of ratings for the program are satisfied for the particular position. If a bank holding company participates in a securitization sponsored by another party, the Federal Reserve may authorize the bank holding company to use this approach based on a programmatic rating obtained by the sponsor of the program.

iii. Computer Program. The bank holding company is using an acceptable credit assessment computer program to determine the rating of a direct credit substitute or recourse obligation (but not residual interest).
issued in connection with a structured fi-
ance program. A NRSRO must have de-
veloped the computer program, and the bank
holding company must demonstrate to the
Federal Reserve’s satisfaction that ratings
under the program correspond credibly and
reliably with the rating of traded positions.

4. Maturity. Maturity is generally not a
factor in assigning items to risk categories
with the exception of claims on non-OECD
banks, commitments, and interest rate and
foreign exchange rate contracts. Except for
commitments, short-term is defined as one
year or less remaining maturity and long-
term is defined as over one year remaining
maturity. In the case of commitments,
short-term is defined as one year or less

5. Small Business Loans and Leases on Per-
sonal Property Transferred with Recourse. a.
Notwithstanding other provisions of this ap-
pendix A, a qualifying banking organization
that has transferred small business loans and
leases on personal property (small business
obligations) with recourse shall include in
the organization’s reasonably esti-
mated liability under the recourse arrange-
ment. Only loans and leases to businesses
that meet the criteria for a small business
concern established by the Small Business
Administration under section 3(a) of the
Small Business Loans and Leases on Per-
sonal Property Transferred with Recourse. a.

b. For purposes of this appendix A, a bank-
ing organization is qualifying if it meets the
criteria for well capitalized or, by order of
the Board, adequately capitalized, as those
criteria are set forth in the Board’s prompt
corrective action regulation for state mem-
ber banks (12 CFR 206.40). For purposes of de-
termining whether an organization meets
these criteria, its capital ratios must be cal-
culated without regard to the capital treat-
ment for transfers of small business obliga-
tions with recourse specified in section
III.B.5.a. of this appendix A. The total out-
standing amount of recourse retained by a
qualifying banking organization on transfers
of small business obligations receiving the
preferential capital treatment cannot exceed
15 percent of the organization’s total risk-
based capital. By order, the Board may ap-
prove a higher limit.

c. If a bank holding company ceases to be
qualifying or exceeds the 15 percent capital
limitation, the preferential capital treat-
ment will continue to apply to any transfers
of small business obligations with recourse
that were consummated during the time that
the organization was qualifying and did not
exceed the capital limit.

6. Asset-backed commercial paper programs. a.
An asset-backed commercial paper (ABCP)
program means a program that primarily
issues externally rated commercial paper
backed by assets or exposures held in a bank-
ruptcy-remote, special purpose entity.

b. If a bank holding company has multiple
overlapping exposures (such as a program-
wide credit enhancement and multiple pool-
specific liquidity facilities) to an ABCP pro-
gram that is not consolidated for risk-based
capital purposes, the bank holding company
is not required to hold duplicative risk-based
capital under this appendix against the over-
lapping position. Instead, the bank holding
company should apply to the overlapping position the applicable risk-based capital treatment that results in the highest capital charge.

C. Risk Weights

Attachment III contains a listing of the risk categories, a summary of the types of assets as measured by each category and the risk weight associated with each category, that is, 0 percent, 20 percent, 50 percent, and 100 percent. A brief explanation of the components of each category follows.

1. Category 1: zero percent. This category includes cash (domestic and foreign) owned and held in all offices of subsidiary depository institutions or in transit and gold bullion held in either a subsidiary depository institution’s own vaults or in another’s vaults on an allocated basis, to the extent it is offset by gold bullion liabilities. The category also includes all direct claims (including securities, loans, and leases) on, and the portions of claims that are directly and unconditionally guaranteed by the central governments40 of the OECD countries and U.S. Government agencies,41 as well as all direct local currency claims on, and the portions of local currency claims that are directly and unconditionally guaranteed by, the central governments of non-OECD countries, to the extent that subsidiary depository institutions have liabilities booked in that currency. A claim is not considered to be unconditionally guaranteed by a central government if the validity of the guarantee is dependent upon some affirmative action by the holder or a third party. Generally, securities guaranteed by the U.S. Government or its agencies that are actively traded in financial markets, such as GNMA securities, are considered to be unconditionally guaranteed.

This category also includes claims collateralized by cash on deposit in the subsidiary lending institution or by securities issued or guaranteed by OECD central governments or U.S. government agencies for which a positive margin of collateral is maintained on a daily basis, fully taking into account any change in the banking organization’s exposure to the obligor or counterparty under a claim in relation to the market value of the collateral held in support of that claim.

This category also includes ABCP (i) purchased by a bank holding company on or after September 19, 2008, from an SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7) and (ii) pledged by the bank holding company to a Federal Reserve Bank to secure financing from the ABCP lending facility (AMLF) established by the Board on September 19, 2008.

2. Category 2: 20 percent. a. This category includes cash items in the process of collection, both foreign and domestic; short-term claims (including demand deposits) on, and the portions of short-term claims that are guaranteed by,42 U.S. depository institutions43 and foreign banks44; and long-term Credit Corporation (CCC), and the Small Business Administration (SBA).

Claims guaranteed by U.S. depository institutions and foreign banks include risk participations in both bankers acceptances and standby letters of credit, as well as participations in commitments, that are conveyed to U.S. depository institutions or foreign banks.

See footnote 9 of this appendix for the definition of a U.S. depository institution. For this purpose, the definition also includes U.S.-chartered depository institutions owned by foreigners. However, branches and agencies of foreign banks located in the U.S., as well as all bank holding companies, are excluded.

See footnote 10 of this appendix for the definition of a foreign bank. Foreign banks

299
are distinguished as either OECD banks or non-OECD banks. OECD banks include banks and their branches (foreign and domestic) organized under the laws of countries (other than the United States) that belong to the OECD-based group of countries. Non-OECD banks include banks and their branches (foreign and domestic) organized under the laws of countries that do not belong to the OECD-based group of countries.

45 Long-term claims on, or guaranteed by, non-OECD banks and all claims on bank holding companies are assigned to the 100 percent risk category, as are holdings of bank-issued securities that qualify as capital of the issuing banks.

46 For this purpose, U.S. government-sponsored agencies are defined as agencies originally established or chartered by the Federal government to serve public purposes specified by the U.S. Congress but whose obligations are not explicitly guaranteed by the full faith and credit of the U.S. government. These agencies include the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), the Farm Credit System, the Federal Home Loan Bank System, and the Student Loan Marketing Association (SLMA). Claims on U.S. government-sponsored agencies include capital stock in a Federal Home Loan Bank that is held as a condition of membership in that Bank.

b. This category also includes the portions of claims that are conditionally guaranteed by OECD central governments and U.S. Government agencies, as well as the portions of local currency claims that are conditionally guaranteed by non-OECD central governments, to the extent that subsidiary depositary institutions have liabilities booked in that currency. In addition, this category also includes claims on, and the portions of claims that are guaranteed by, U.S. government-sponsored agencies and claims on, and the portions of claims guaranteed by, the International Bank for Reconstruction and Development (World Bank), the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member. General obligation claims on, or portions of claims guaranteed by the full faith and credit of, states or other political subdivisions of the U.S. or other countries of the OECD—based group are also assigned to this category.

c. This category also includes the portions of claims (including repurchase transactions) collateralized by cash on deposit in the subsidiary lending institution or by securities issued or guaranteed by OECD central governments or U.S. government agencies that do not qualify for the zero percent risk-weight category; collateralized by securities issued or guaranteed by U.S. government-sponsored agencies; or collateralized by securities issued by multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member.

d. This category also includes claims on, or guaranteed by, a qualifying securities firm incorporated in the United States or other member of the OECD-based group of countries provided that: the qualifying securities firm has a long-term issuer credit rating, or a rating on at least one issue of long-term debt, in one of the three highest investment grade rating categories from a nationally recognized statistical rating organization; or the claim is guaranteed by the firm’s parent company and the parent company has such a rating. If ratings are available from more than one rating agency, the lowest rating will be used to determine whether the rating requirement has been met. This category also includes a collateralized claim on

44 Claims on, or guaranteed by, states or other political subdivisions of countries that do not belong to the OECD-based group of countries are placed in the 100 percent risk category.

45 Claims on a qualifying securities firm that are instruments the firm, or its parent company, uses to satisfy its applicable capital requirement are not eligible for this risk weight.

46 With regard to securities firms incorporated in the United States, qualifying securities firms are those securities firms that are broker-dealers registered with the Securities and Exchange Commission and are in compliance with the SEC’s net capital rule, 17 CFR 240.15c3–1. With regard to securities firms incorporated in other countries in the OECD-based group of countries, qualifying securities firms are those securities firms that a banking organization is able to demonstrate are subject to consolidated supervision and regulation (covering their direct and indirect subsidiaries, but not necessarily their parent organizations) comparable to that imposed on banks in OECD countries. Such regulation must include risk-based capital requirements comparable to those applied to banks under the Accord on International Convergence of Capital Measurement and Capital Standards (1988, as amended in 1996) (Basel Accord).
a qualifying securities firm in such a country, without regard to satisfaction of the rating standard, provided the claim arises under a contract that:

1. Is a reverse repurchase/repurchase agreement or securities lending/borrowing transaction executed under standard industry documentation;
2. Is collateralized by debt or equity securities that are liquid and readily marketable;
3. Is marked-to-market daily;
4. Is subject to a daily margin maintenance requirement under the standard industry documentation; and
5. Can be liquidated, terminated, or accelerated immediately in bankruptcy or similar proceeding, and the security or collateral agreement will not be stayed or avoided, under applicable law of the relevant jurisdiction.

3. Category 3: 50 percent. This category includes loans fully secured by first liens on 1- to 4-family residential properties, either owner-occupied or rented, or on multifamily residential properties, that meet certain criteria. Loans included in this category must have been made in accordance with prudent underwriting standards; be performing in accordance with their original terms; and not be 90 days or more past due or carried in nonaccrual status. For purposes of this 50 percent risk weight category, a loan modified on a permanent or trial basis solely pursuant to the U.S. Department of Treasury’s Home Affordable Mortgage Program will be considered to be performing in accordance with its original terms. The following additional criteria must also be applied to a loan secured by a multifamily residential property that is included in this category: all principal and interest payments on the loan must have been made on time for at least the year preceding placement in this category, or in the case where the existing property owner is refinancing a loan on that property, all principal and interest payments on the loan being refinanced must have been made on time for at least the year preceding placement in this category; amortization of the principal and interest must occur over a period of not more than 30 years and the minimum original maturity for repayment of principal must not be less than 7 years; and the annual net operating income (before debt service) generated by the property during its most recent fiscal year must not be less than 120 percent of the loan’s current annual debt service (115 percent if the loan is obtained a mortgage loan sufficient to purchase the home (i.e., has a firm written commitment for permanent financing of the home upon completion).

50 Residential property loans that do not meet all the specified criteria or that are made for the purpose of speculative property development are placed in the 100 percent risk category.

51 Prudent underwriting standards include a conservative ratio of the current loan balance to the value of the property. In the case of a loan secured by multifamily residential property, the loan-to-value ratio is not conservative if it exceeds 80 percent (75 percent if the loan is based on a floating interest rate). Prudent underwriting standards also dictate that a loan-to-value ratio used in the case of originating a loan to acquire a property would not be deemed conservative unless the value is based on the lower of the acquisition cost of the property or appraised (or if appropriate, evaluated) value. Otherwise, the loan-to-value ratio generally would be based upon the value of the property as determined by the most current appraisal, or if appropriate, the most current evaluation. All appraisals must be made in a manner consistent with the Federal banking agencies’ real estate appraisal regulations and guidelines and with the banking organization’s own appraisal guidelines.
Based on a floating interest rate or, in the case of a cooperative or other not-for-profit housing project, the property must generate sufficient cash flow to provide comparable protection to the institution. Also included in this category are privately-issued mortgage-backed securities provided that:

1. The structure of the security meets the criteria described in section III(B)(3) above;
2. If the security is backed by a pool of conventional mortgages, on 1- to 4-family residential or multifamily residential properties, each underlying mortgage meets the criteria described above in this section for eligibility for the 50 percent risk category at the time the pool is originated;
3. If the security is backed by privately-issued mortgage-backed securities, each underlying security qualifies for the 50 percent risk category; and
4. If the security is backed by a pool of multifamily residential mortgages, principal and interest payments on the security are not 30 days or more past due. Privately-issued mortgage-backed securities, each underlying security qualifies for the 50 percent risk category, unless they are backed by collateral that do not meet these criteria or that do not qualify for a lower risk weight are generally assigned to the 100 percent risk category.

This category includes all claims on foreign and domestic private-sector obligors not included in the categories above (including loans to nondepository financial institutions and bank holding companies); claims on commercial firms owned by the public sector; customer liabilities to the organization on acceptances outstanding involving standard risk claims; investments in fixed assets, premises, and other real estate owned; common and preferred stock of corporations, including stock acquired for debts previously contracted; all stripped mortgage-backed securities and similar instruments; and commercial and consumer loans (except those assigned to lower risk categories due to recognized guarantees or collateral and loans secured by residential property that qualify for a lower risk weight). This category also includes claims representing capital of a qualifying securities firm.

Also included in this category are industry, labor, and social security claims, and claims on non-OECD central governments, such as claims on U.S. depository institutions or foreign banks, that are guaranteed by, non-OECD central governments or international financial institutions.

Also included in this category are contracts involving standard risk obligors (that is, obligors whose loans or debt securities would be assigned to the 100 percent risk category) are included in the 50 percent category, unless they are backed by collateral or guarantees that allow them to be placed in a lower risk category.

4. Category 4: 100 percent. a. All assets not included in the categories above are assigned to this category, which comprises standard risk assets. The bulk of the assets typically found in a loan portfolio would be assigned to the 100 percent category.

b. This category includes long-term claims on, and the portions of long-term claims that are guaranteed by, non-OECD central governments and those portions of local currency claims on, or guaranteed by, non-OECD central governments that exceed the local currency liabilities held by subsidiary depository institutions.

c. Also included in this category are industrial-development bonds and similar obligations issued under the auspices of states and political subdivisions of the OECD-based group of countries for the benefit of a private party or enterprise where that party or enterprise, not the government entity, is obligated to pay the principal and interest, and all obligations of states or political subdivisions of countries that do not belong to the OECD-based group.

d. The following assets also are assigned a risk weight of 100 percent if they have not been deducted from capital: investments in unconsolidated companies, joint ventures, or associated companies; instruments that qualify as capital issued by other banking organizations; and any intangibles, including those that may have been grandfathered into capital.

D. Off-Balance Sheet Items

The face amount of an off-balance sheet item is generally incorporated into risk-weighted assets in two steps. The face amount is first multiplied by a credit conversion factor, except for direct credit substitutes and recourse obligations as discussed in section III.D.1. of this appendix. The resultant credit equivalent amount is

52 Such assets include all nonlocal currency claims on, and the portions of claims that are guaranteed by, non-OECD central governments and those portions of local currency claims on, or guaranteed by, non-OECD central governments that exceed the local currency liabilities held by subsidiary depository institutions.
assigned to the appropriate risk category according to the obligor or, if relevant, the guarantor, the nature of any collateral, or external credit ratings.54

1. Items with a 100 percent conversion factor. a. Except as otherwise provided in section III.B.3. of this appendix, the full amount of an asset or transaction supported, in whole or in part, by a direct credit substitute or a recourse obligation. Direct credit substitutes and recourse obligations are defined in section III.B.3. of this appendix.

b. Sale and repurchase agreements and forward agreements. Forward agreements are legally binding contractual obligations to purchase assets with certain drawdown at a specified future date. Such obligations include forward purchases, forward forward deposits placed,55 and partly-paid shares and securities; they do not include commitments to make residential mortgage loans or forward foreign exchange contracts.

c. Securities lent by a banking organization are treated in one of two ways, depending upon whether the lender is at risk of loss. If a banking organization, as agent for a customer, lends the customer’s securities and does not indemnify the customer against loss, then the transaction is excluded from the risk-based capital calculation. If, alternatively, a banking organization lends its own securities or, acting as agent for a customer, lends the customer’s securities and indemnifies the customer against loss, the transaction is converted at 100 percent and assigned to the risk weight category appropriate to the obligor, or, if applicable, to any collateral delivered to the lending organization, or the independent custodian acting on the lending organization’s behalf. Where a banking organization is acting as agent for a customer in a transaction involving the lending or sale of securities that is collateralized by cash delivered to the banking organization, the transaction is deemed to be collateralized by cash on deposit in a subsidiary depository institution for purposes of determining the appropriate risk-weight category, provided that any indemnification is limited to no more than the difference between the market value of the securities and the cash collateral received and any reinvestment risk associated with that cash collateral is borne by the customer.

d. In the case of direct credit substitutes in which a risk participation56 has been conveyed, the full amount of the assets that are supported, in whole or in part, by the credit enhancement are converted to a credit equivalent amount at 100 percent. However, the pro rata share of the credit equivalent amount that has been conveyed through a risk participation is assigned to whichever risk category is lower: the risk category appropriate to the obligor, after considering any relevant guarantees or collateral, or the risk category appropriate to the institution acquiring the participation.57 Any remainder is assigned to the risk category appropriate to the obligor, guarantor, or collateral. For example, the pro rata share of the full amount of the assets supported, in whole or in part, by a direct credit substitute conveyed as a risk participation to a U.S. domestic depository institution or foreign bank is assigned to the 20 percent risk category.58

e. In the case of direct credit substitutes in which a risk participation has been acquired, the acquiring banking organization’s percentage share of the direct credit substitute is multiplied by the full amount of the assets that are supported, in whole or in part, by the credit enhancement and converted to a credit equivalent amount at 100 percent. The credit equivalent amount of an acquisition of a risk participation in a direct credit substitute is assigned to the risk category appropriate to the account party obligor or, if relevant, the nature of the collateral or guarantees.

f. In the case of direct credit substitutes that take the form of a syndication where each banking organization is obligated only for its pro rata share of the risk and there is no recourse to the originating banking organization, each banking organization will only include its pro rata share of the assets supported, in whole or in part, by the direct

54The sufficiency of collateral and guarantees for off-balance-sheet items is determined by the market value of the collateral or the amount of the guarantee in relation to the fair market value of the item, except for derivative contracts, for which this determination is generally made in relation to the credit equivalent amount. Collateral and guarantees are subject to the same provisions noted under section III.B of this appendix A.

55Forward forward deposits accepted are treated as interest rate contracts.

56That is, a participation in which the originating banking organization remains liable to the beneficiary for the full amount of the direct credit substitute if the party that has acquired the participation fails to pay when the instrument is drawn.

57A risk participation in bankers acceptances conveyed to other institutions is also assigned to the risk category appropriate to the institution acquiring the participation or, if relevant, the guarantor or nature of the collateral.

58Risk participations with a remaining maturity of over one year that are conveyed to non-OECD banks are to be assigned to the 100 percent risk category, unless a lower risk category is appropriate to the obligor, guarantor, or collateral.
credit substitute in its risk-based capital calculation.59

2. Items with a 50 percent conversion factor. a. Transaction-related contingencies are con-
verted at 50 percent. Such contingencies in-
clude bid bonds, performance bonds, war-
ranties, standby letters of credit related to par-
ticular transactions, and performance stand-
by letters of credit, as well as acquisitions of
risk participation in performance standby
letters of credit. Performance standby letters
of credit represent obligations backing the perfor-
mance of nonfinancial or commercial
contracts or undertakings. To the extent
permitted by law or regulation, performance
standby letters of credit include arrange-
ments backing, among other things, sub-
contractors' and suppliers' performance,
labor and materials contracts, and construc-
tion bids.
b. The unused portion of commitments
with an original maturity exceeding one
year, including underwriting commitments,
and commercial and consumer credit com-
mittments also are converted at 50 percent.
Original maturity is defined as the length of
time between the date the commitment is
issued and the earliest date on which: (1) The
banking organization can, at its option, un-
conditionally (without cause) cancel the
commitment,60 and (2) the banking organiza-
tion is scheduled to (and as a normal prac-
tice actually does) review the facility to de-
terminate whether or not it should be ex-
tended. Such reviews must continue to be
conducted at least annually for such a facili-
ty to qualify as a short-term commitment.
c.i. Commitments are defined as any le-
gally binding arrangements that obligate
a banking organization to extend credit in the
form of loans or leases; to purchase loans, se-
curities, or other assets; or to participate in
loans and leases. They also include overdraft
facilities, revolving credit, home equity and
mortgage lines of credit, eligible ABCP li-
quidity facilities, and similar transactions.
Normally, commitments involve a written
contract or agreement and a commitment
fee, or some other form of consideration.

Commitments are included in weighted-risk
assets regardless of whether they contain
“material adverse change” clauses or other
provisions that are intended to relieve the
issuer of its funding obligation under certain
conditions. In the case of commitments
structured as syndications, where the bank-
ing organization is obligated solely for its
pro rata share, only the organization’s pro-
portional share of the syndicated commit-
ment is taken into account in calculating
the risk-based capital ratio.

ii. Banking organizations that are subject
to the market risk rules are required to con-
vert the notional amount of eligible ABCP
liquidity facilities, in form or in substance,
with an original maturity of over one year
that are carried in the trading account at 50
percent to determine the appropriate credit
equivalent amount even though those facili-
ties are structured or characterized as de-
rivatives or other trading book assets. Li-
quidity facilities that support ABCP, in form
or in substance, (including those positions
to which the market risk rules may not be ap-
plied as set forth in section 2(a) of appendix
E of this part) that are not eligible ABCP li-
quidity facilities are to be considered re-
course obligations or direct credit sub-
stitutes, and assessed the appropriate risk-
based capital treatment in accordance with
section III.B.3. of this appendix.

d. Once a commitment has been converted
at 50 percent, any portion that has been con-
voyed to U.S. depository institutions or
OECD banks as participations in which the
originating banking organization retains the
full obligation to the borrower if the partici-
pating bank fails to pay when the instru-
ment is drawn, is assigned to the 20 percent
risk category. This treatment is analogous
to that accorded to conveyances of risk par-
ticipations in standby letters of credit. The
acquisition of a participation in a commit-
tment by a banking organization is converted
at 50 percent and assigned to the risk cat-
egory appropriate to the account party obli-
gor or, if relevant, the nature of the collat-
eral or guarantees.
e. Revolving underwriting facilities
(RUFs), note issuance facilities (NIFs), and
other similar arrangements also are con-
verted at 50 percent regardless of maturity.
These are facilities under which a borrower
can issue on a revolving basis short-term
paper in its own name, but for which the un-
derwriting organizations have a legally bind-
ing commitment either to purchase any
notes the borrower is unable to sell by the
roll-over date or to advance funds to the bor-
rower.

3. Items with a 20 percent conversion factor.
Short-term, self-liquidating trade-related
contingencies which arise from the move-
ment of goods are converted at 20 percent.

59 For example, if a banking organization
has a 10 percent share of a $10 syndicated di-
rect credit substitute that provides credit
support to a $100 loan, then the banking or-
ganization’s $1 pro rata share in the enhance-
ment means that a $10 pro rata share of the
loan is included in risk weighted assets.
60 In the case of consumer home equity or
mortgage lines of credit secured by liens on
1–4 family residential properties, the bank is
deemed to be unconditionally cancel the
commitment for the purpose of this criterion
if, at its option, it can prohibit additional
extensions of credit, reduce the credit line,
and terminate the commitment to the full
extent permitted by relevant Federal law.
Such contingencies generally include commercial letters of credit and other documentary letters of credit collateralized by the underlying shipments.

4. Items with a 10 percent conversion factor. a. Unused portions of eligible ABCP liquidity facilities with an original maturity of one year or less also are converted at 10 percent.

b. Banking organizations that are subject to the market risk rules are required to convert the notional amount of eligible ABCP liquidity facilities, in form or in substance, with an original maturity of one year or less that are carried in the trading account at 10 percent to determine the appropriate credit equivalent amount even though those facilities are structured or characterized as derivatives or other trading book assets. Liquidity facilities that support ABCP, in form or in substance, (including those positions to which the market risk rules may not be applied as set forth in section 2(a) of appendix E of this part) that are not eligible ABCP liquidity facilities are to be considered recourse obligations or direct credit substitutes and assessed the appropriate risk-based capital requirement in accordance with section III.B.3. of this appendix.

5. Items with a zero percent conversion factor. These include unused portions of commitments (with the exception of eligible ABCP liquidity facilities) with an original maturity of one year or less, or which are unconditionally cancelable at any time, provided a separate credit decision is made before each drawing under the facility. Unused portions of lines of credit for retail credit cards and related plans are deemed to be short-term commitments if the banking organization has the unconditional right to cancel the line of credit at any time, in accordance with applicable law.

E. Derivative Contracts (Interest Rate, Exchange Rate, Commodity- (including precious metals) and Equity-Linked Contracts)

1. Scope. Credit equivalent amounts are computed for each of the following off-balance-sheet derivative contracts:

a. Interest Rate Contracts. These include single currency interest rate swaps, basis swaps, forward rate agreements, interest rate options purchased (including caps, collars, and floors purchased), and any other instrument linked to interest rates that gives rise to similar credit risks.

b. Exchange Rate Contracts. These include cross-currency interest rate swaps, forward foreign exchange contracts, currency options purchased, and any other instrument linked to exchange rates that gives rise to similar credit risks.

c. Equity Derivative Contracts. These include equity-linked swaps, equity-linked options purchased, forward equity-linked contracts, and any other instrument linked to equities that gives rise to similar credit risks.

d. Commodity (including precious metal) Derivative Contracts. These include commodity-linked swaps, commodity-linked options purchased, forward commodity-linked contracts, and any other instrument linked to commodities that gives rise to similar credit risks.

e. Exceptions. Exchange rate contracts with an original maturity of fourteen or fewer calendar days and derivative contracts traded on exchanges that require daily receipt and payment of cash variation margin may be excluded from the risk-based ratio calculation. Gold contracts are accorded the same treatment as exchange rate contracts except that gold contracts with an original maturity of fourteen or fewer calendar days are included in the risk-based ratio calculation. Over-the-counter options purchased are included and treated in the same way as other derivative contracts.

2. Calculation of credit equivalent amounts. a. The credit equivalent amount of a derivative contract that is not subject to a qualifying bilateral netting contract in accordance with section III.E.3. of this appendix is equal to the sum of (i) the current exposure (sometimes referred to as the replacement cost) of the contract; and (ii) an estimate of the potential future credit exposure of the contract.

b. The current exposure is determined by the mark-to-market value of the contract. If the mark-to-market value is zero or negative, then the current exposure is zero. Mark-to-market values are measured in dollars, regardless of the currency or currencies specified in the contract and should reflect changes in underlying rates, prices, and indices, as well as counterparty credit quality.

c. The potential future credit exposure of a contract, including a contract with a negative mark-to-market value, is estimated by multiplying the notional principal amount of the contract by a credit conversion factor. Banking organizations should use, subject to examiner review, the effective rather than the apparent or stated notional amount in this calculation. The credit conversion factors are:

**Netting.**

a. For purposes of this appendix A, netting refers to the offsetting of positive and negative mark-to-market values when determining a current exposure to be used in the calculation of a credit equivalent amount. Any legally enforceable form of bilateral netting (that is, netting with a single counterparty) of derivative contracts is recognized for purposes of calculating the credit equivalent amount provided that:

1. The netting is accomplished under a written netting contract that creates a single legal obligation, covering all included individual contracts, with the effect that the banking organization would have a claim to receive, or obligation to pay, only the net amount of the sum of the positive and negative mark-to-market values on included individual contracts in the event that a counterparty, or a counterparty to whom the contract has been validly assigned, fails to perform due to any of the following events: default, insolvency, liquidation, or similar circumstances.

2. The law that governs the individual contracts covered by the netting contract; and

3. The law that governs the netting contract.

**d.** For a contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the market value of the contract is zero, the remaining maturity is equal to the time until the next reset date. For an interest rate contract with a remaining maturity of more than one year that meets these criteria, the minimum conversion factor is 0.5 percent.

e. For a contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the contract. A derivative contract not included in the definitions of interest rate, exchange rate, equity, or commodity contracts as set forth in section III.E.1 of this appendix A is subject to the same conversion factors as a commodity, excluding precious metals.

f. No potential future exposure is calculated for a single currency interest rate swap in which payments are made based upon two floating rate indices (a so called floating/floating or basis swap); the credit exposure on such a contract is evaluated solely on the basis of the mark-to-market value.

g. The Board notes that the conversion factors set forth above, which are based on observed volatilities of the particular types of instruments, are subject to review and modification in light of changing volatilities or market conditions.

3. **Netting.**

a. For purposes of this appendix A, netting refers to the offsetting of positive and negative mark-to-market values when determining a current exposure to be used in the calculation of a credit equivalent amount. Any legally enforceable form of bilateral netting (that is, netting with a single counterparty) of derivative contracts is recognized for purposes of calculating the credit equivalent amount provided that:

1. The netting is accomplished under a written netting contract that creates a single legal obligation, covering all included individual contracts, with the effect that the banking organization would have a claim to receive, or obligation to pay, only the net amount of the sum of the positive and negative mark-to-market values on included individual contracts in the event that a counterparty, or a counterparty to whom the contract has been validly assigned, fails to perform due to any of the following events: default, insolvency, liquidation, or similar circumstances.

ii. The banking organization obtains a written and reasoned legal opinion(s) representing that in the event of a legal challenge—including one resulting from default, insolvency, liquidation, or similar circumstances—the relevant court and administrative authorities would find the banking organization’s exposure to be the net amount under:

1. The law of the jurisdiction in which the counterparty is chartered or the equivalent location in the case of noncorporate entities, and if a branch of the counterparty is involved, then also under the law of the jurisdiction in which the branch is located;

2. The law that governs the individual contracts covered by the netting contract; and

3. The law that governs the netting contract.

ii. The banking organization establishes and maintains procedures to ensure that the legal characteristics of netting contracts are kept under review in the light of possible changes in relevant law.

iv. The banking organization maintains in its files documentation adequate to support the netting of derivative contracts, including a copy of the bilateral netting contract and necessary legal opinions.

b. A contract containing a walkaway clause is not eligible for netting for purposes of calculating the credit equivalent amount.

c. A banking organization netting individual contracts for the purpose of calculating credit equivalent amounts of derivative contracts represents that it has met the requirements of this appendix A and all the appropriate documents are in the banking

---

61 A walkaway clause is a provision in a netting contract that permits a non-defaulting counterparty to make lower payments than it would make otherwise under the contract, or no payment at all, to a defaulter or to the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the contract.
organization’s files and available for inspection by the Federal Reserve. The Federal Reserve may determine that a banking organization’s files are inadequate or that a netting contract, or any of its underlying individual contracts, may not be legally enforceable under any one of the bodies of law described in section III.E.3.a.ii. of this appendix A. If such a determination is made, the netting contract may be disqualified from recognition for risk-based capital purposes or underlying individual contracts may be treated as though they are not subject to the netting contract.

d. The credit equivalent amount of contracts that are subject to a qualifying bilateral netting contract is calculated by adding (i) the current exposure of the netting contract (net current exposure) and (ii) the sum of the estimates of potential future credit exposures on all individual contracts subject to the netting contract (gross potential future exposure) adjusted to reflect the effects of the netting contract.62

e. The net current exposure is the sum of all positive and negative mark-to-market values of the individual contracts included in the netting contract. If the net sum of the mark-to-market values is positive, then the net current exposure is equal to that sum. If the net sum of the mark-to-market values is zero or negative, then the net current exposure is zero. The Federal Reserve may determine that a netting contract qualifies for risk-based capital netting treatment even though certain individual contracts included under the netting contract may not qualify. In such instances, the nonqualifying contracts should be treated as individual contracts that are not subject to the netting contract.

f. Gross potential future exposure, or \( A_{\text{gross}} \), is calculated by summing the estimates of potential future exposure (determined in accordance with section III.E.2 of this appendix A) for each individual contract subject to the qualifying bilateral netting contract.

g. The effects of the bilateral netting contract on the gross potential future exposure are recognized through the application of a formula that results in an adjusted add-on amount (\( A_{\text{adj}} \)). The formula, which employs the ratio of net current exposure to gross current exposure (NGR), is expressed as:

\[
A_{\text{adj}} = (0.4 \times A_{\text{gross}}) + 0.6(\text{NGR} \times A_{\text{gross}})
\]

For purposes of calculating potential future credit exposure to a netting counterparty for foreign exchange contracts and other similar contracts in which notional principal is equivalent to cash flows, total notional principal is defined as the net receipts falling due on each value date in each currency.

h. The NGR may be calculated in accordance with either the counterparty-by-counterparty approach or the aggregate approach.

i. Under the counterparty-by-counterparty approach, the NGR is the ratio of the net current exposure for a netting contract to the gross current exposure of the netting contract. The gross current exposure is the sum of the current exposures of all individual contracts subject to the netting contract calculated in accordance with section III.E.2 of this appendix A. Net negative mark-to-market values for individual netting contracts with the same counterparty may not be used to offset net positive mark-to-market values for other netting contracts with the same counterparty.

ii. Under the aggregate approach, the NGR is the ratio of the sum of all of the net current exposures for qualifying bilateral netting contracts to the sum of all of the gross current exposures for those netting contracts (each gross current exposure is calculated in the same manner as in section III.E.3.h.i. of this appendix A). Net negative mark-to-market values for individual counterparties may not be used to offset net positive current exposures for other counterparties.

iii. A banking organization must use consistently either the counterparty-by-counterparty approach or the aggregate approach to calculate the NGR. Regardless of the approach used, the NGR should be applied individually to each qualifying bilateral netting contract to determine the adjusted add-on for that netting contract.

i. In the event a netting contract covers contracts that are normally excluded from the risk-based ratio calculation—for example, exchange rate contracts with an original maturity of fourteen or fewer calendar days or instruments traded on exchanges that require daily payment and receipt of cash variation margin—an institution may elect to either include or exclude all mark-to-market values of such contracts when determining net current exposure, provided the method chosen is applied consistently.

4. Risk Weights. Once the credit equivalent amount for a derivative contract, or a group of derivative contracts subject to a qualifying bilateral netting contract, has been determined, that amount is assigned to the risk category appropriate to the counterparty, or, if relevant, the guarantor or the nature of any collateral.63 However,
the maximum risk weight applicable to the credit equivalent amount of such contracts is 50 percent.

5. Avoidance of double counting. a. In certain cases, credit exposures arising from the derivative contracts covered by section III.E. of this appendix A may already be reflected, in part, on the balance sheet. To avoid double counting such exposures in the assessment of capital adequacy and, perhaps, assigning inappropriate risk weights, counterparty credit exposures arising from the derivative instruments covered by these guidelines may need to be excluded from balance sheet assets in calculating a banking organization’s risk-based capital ratios.

b. Examples of the calculation of credit equivalent amounts for contracts covered under this section III.E. are contained in Attachment V of this appendix A.

IV. MINIMUM SUPERVISORY RATIOS AND STANDARDS

The interim and final supervisory standards set forth below specify minimum supervisory ratios based primarily on broad credit risk considerations. As noted above, the risk-based ratio does not take explicit account of the quality of individual asset portfolios or the range of other types of risks to which banking organizations may be exposed, such as interest rate, liquidity, market or operational risks. For this reason, banking organizations are generally expected to operate with capital positions well above the minimum ratios.

Institutions with high or inordinate levels of risk are expected to operate well above minimum capital standards. Banking organizations experiencing or anticipating significant growth are also expected to maintain capital, including tangible capital positions, well above the minimum levels. For example, most such organizations generally have operated at capital levels ranging from 100 to 200 basis points above the stated minimums. Higher capital ratios could be required if warranted by the particular circumstances or risk profiles of individual banking organizations. In all cases, organizations should hold capital commensurate with the level and nature of all of the risks, including the volume and severity of problem loans, to which they are exposed.

Upon adoption of the risk-based framework, any organization that does not meet the interim or final supervisory ratios, or whose capital is otherwise considered inadequate, is expected to develop and implement a plan acceptable to the Federal Reserve for achieving an adequate level of capital consistent with the provisions of these guidelines or with the special circumstances affecting the individual organization. In addition, such organizations should avoid any actions, including increased risk-taking or unwarranted expansion, that would lower or further erode their capital positions.

A. Minimum Risk-Based Ratio After Transition Period

As reflected in Attachment VI, by year-end 1992, all bank holding companies64 should meet a minimum ratio of qualifying total capital to weighted risk assets of 8 percent, of which at least 4.0 percentage points should be in the form of Tier 1 capital. For purposes of section IV.A., Tier 1 capital is defined as the sum of core capital elements less goodwill and other intangible assets required to be deducted in accordance with section II.B.1.b. of this appendix. The maximum amount of supplementary capital elements that qualifies as Tier 2 capital is limited to 100 percent of Tier 1 capital. In addition, the combined maximum amount of subordinated debt and intermediate-term preferred stock that qualifies as Tier 2 capital is limited to 50 percent of Tier 1 capital. The maximum amount of the allowance for loan and lease losses that qualifies as Tier 2 capital is limited to 1.25 percent of gross weighted risk assets. Allowances for loan and lease losses in excess of this limit may, of course, be maintained, but would not be included in an organization’s total capital. The Federal Reserve will continue to require bank holding companies to maintain reserves at levels fully sufficient to cover losses inherent in their loan portfolios.

Qualifying total capital is calculated by adding Tier 1 capital and Tier 2 capital (limited to 100 percent of Tier 1 capital) and then deducting from this sum certain investments in banking or finance subsidiaries that are not consolidated for accounting or supervisory purposes, reciprocal holdings of banking organizations’ capital securities, or other items at the direction of the Federal Reserve. The conditions under which these deductions are to be made and the procedures for making the deductions are discussed above in section II(B).

B. Transition Arrangements

The transition period for implementing the risk-based capital standard ends on December 31, 1992. Initially, the risk-based capital guidelines do not establish a minimum level on |

64 As noted in section I, bank holding companies with less than $500 million in consolidated assets would generally be exempt from the calculation and analysis of risk-based ratios on a consolidated holding company basis, subject to certain terms and conditions.
Federal Reserve System

of capital. However, by year-end 1990, banking organizations are expected to meet a minimum interim target ratio for qualifying total capital to weighted risk assets of 7.25 percent, at least one-half of which should be in the form of Tier 1 capital. For purposes of meeting the 1990 interim target, the amount of loan loss reserves that may be included in capital is limited to 1.5 percent of weighted risk assets and up to 10 percent of an organization's Tier 1 capital may consist of supplementary capital elements. Thus, the 7.25 percent interim target ratio implies a minimum ratio of Tier 1 capital to weighted risk assets of 3.6 percent (one-half of 7.25) and a minimum ratio of core capital elements to weighted risk assets ratio of 3.25 percent (nine-tenths of the Tier 1 capital ratio).

Through year-end 1990, banking organizations have the option of complying with the minimum 7.25 percent year-end 1990 risk-based capital standard, in lieu of the minimum 5.5 percent primary and 6 percent total capital to total assets ratios set forth in appendix B of this part. In addition, as more fully set forth in appendix D to this part, banking organizations are expected to maintain a minimum ratio of Tier 1 capital to total assets during this transition period.

### ATTACHMENT I—SAMPLE CALCULATION OF RISK-BASED CAPITAL RATIO FOR BANK HOLDING COMPANIES

Example of a banking organization with $6,000 in total capital and the following assets and off-balance sheet items:

**Balance Sheet Assets:**
- Cash ........................................................... $5,000
- U.S. Treasuries ........................................... 20,000
- Balances at domestic banks ...................... 5,000
- Loans secured by first liens on 1–4 family residential properties ............... 5,000
- Loans to private corporations .............. 65,000

**Total Balance Sheet Assets** ........................ $100,000

**Off-Balance Sheet Items:**
- Standby letters of credit ("SLCs") backing general obligation debt issues of U.S. municipalities ("GOs") ........................................... $10,000
- Long-term legally binding commitments to private corporations ................ 20,000

**Total Off/Balance Sheet Items** ................ $30,000

This bank holding company’s total capital to total assets (leverage) ratio would be: \((\frac{6,000}{100,000}) = 6.00\%\).

To compute the bank holding company's weighted risk assets:

1. Compute the credit equivalent amount of each off-balance sheet ("OBS") item.

<table>
<thead>
<tr>
<th>OBS item</th>
<th>Face value</th>
<th>Conversion factor</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLCs backing municipal GOs</td>
<td>$10,000</td>
<td>1.00</td>
<td>$10,000</td>
</tr>
<tr>
<td>Long-term commitments to private corporations</td>
<td>$20,000</td>
<td>0.50</td>
<td>$10,000</td>
</tr>
</tbody>
</table>

2. Multiply each balance sheet asset and the credit equivalent amount of each OBS item by the appropriate risk weight.

<table>
<thead>
<tr>
<th>Category</th>
<th>Asset</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>0% Category:</td>
<td>Cash</td>
<td>$5,000</td>
</tr>
<tr>
<td></td>
<td>U.S. Treasuries</td>
<td>$20,000</td>
</tr>
<tr>
<td></td>
<td>Balances at domestic banks</td>
<td>$5,000</td>
</tr>
<tr>
<td></td>
<td>Credit equivalent amounts of SLCs backing GOs of U.S. municipalities</td>
<td>$10,000</td>
</tr>
<tr>
<td></td>
<td>Total</td>
<td>$25,000</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>

<th>Asset</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>20% Category:</td>
<td>Balances at domestic banks</td>
<td>$5,000</td>
</tr>
<tr>
<td></td>
<td>Credit equivalent amounts of SLCs backing GOs of U.S. municipalities</td>
<td>$10,000</td>
</tr>
<tr>
<td></td>
<td>Total</td>
<td>$15,000</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Category</th>
<th>Asset</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>50% Category:</td>
<td>Loans secured by first liens on 1–4 family residential properties</td>
<td>$5,000</td>
</tr>
<tr>
<td></td>
<td>Total</td>
<td>$10,000</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Category</th>
<th>Asset</th>
<th>Credit equivalent amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>100% Category:</td>
<td>Loans to private corporations</td>
<td>$65,000</td>
</tr>
<tr>
<td></td>
<td>Credit equivalent amounts of long-term commitments to private corporations</td>
<td>$10,000</td>
</tr>
<tr>
<td></td>
<td>Total</td>
<td>$75,000</td>
</tr>
</tbody>
</table>

**Total Risk-weighted Assets** .......................................................... 80,500

This bank holding company’s ratio of total capital to weighted risk assets (risk-based capital ratio) would be: \((\frac{6,000}{80,500}) = 7.45\%\).

### C. Optional Transition Provisions Related to the Implementation of Consolidation Requirements under FAS 167

This section IV.C. provides optional transition provisions for a banking organization that is required for financial and regulatory reporting purposes, as a result of its implementation of Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (FAS 167), to consolidate certain variable interest entities.
(VIEs) as defined under United States generally accepted accounting principles (GAAP). These transition provisions apply through the end of the fourth quarter following the date of a banking organization's implementation of FAS 167 (implementation date).

1. Exclusion Period

a. Exclusion of risk-weighted assets for the first and second quarters. For the first two quarters after the implementation date (exclusion period), including for the two calendar quarter-end regulatory report dates within those quarters, a banking organization may exclude from risk-weighted assets:

1. Subject to the limitations in section IV.C.3, assets held by a VIE, provided that the following conditions are met:

   (i) The VIE existed prior to the implementation date.
   (ii) The banking organization did not consolidate the VIE on its balance sheet for calendar quarter-end regulatory report dates prior to the implementation date.
   (iii) The banking organization must consolidate the VIE on its balance sheet beginning as of the implementation date as a result of its implementation of FAS 167, and
   (iv) The banking organization excludes all assets held by VIEs described in paragraphs C.1.a.i through (3) of this section IV.C.1.a.1; and

ii. Subject to the limitations in section IV.C.3, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

   (i) The banking organization is the sponsor of the ABCP program.
   (ii) Prior to the implementation date, the banking organization consolidated the VIE onto its balance sheet under GAAP and excluded the VIE's assets from the banking organization's risk-weighted assets, and
   (iii) The banking organization chooses to exclude all assets held by ABCP program VIEs described in paragraphs (1) and (2) of this section IV.C.1.a.ii.

b. Risk-weighted assets during exclusion period. During the exclusion period, including the two calendar quarter-end regulatory report dates during the exclusion period, a banking organization adopting the optional provisions in section IV.C.1.a must calculate risk-weighted assets for its contractual exposures to the VIEs referenced in section IV.C.1.a. on the implementation date and include this calculated amount in its risk-weighted assets. Such contractual exposures may include direct-credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans.

c. Inclusion of allowance for loan and lease losses in tier 2 capital for the first and second quarters. During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a banking organization that excludes VIE assets from risk-weighted assets pursuant to section IV.C.1.a may include in tier 2 capital the full amount of the allowance for loan and lease losses (ALLL) calculated as of the implementation date that is attributable to the assets it excludes pursuant to section IV.C.1.a (inclusion amount). The amount of ALLL includable in tier 2 capital in accordance with this paragraph shall not be subject to the limitations set forth in section II.A.2.a of this Appendix.

2. Phase-In Period

a. Exclusion amount. For purposes of this section IV.C., exclusion amount is defined as the amount of risk-weighted assets excluded in section IV.C.1.a as of the implementation date.

b. Risk-weighted assets for the third and fourth quarters. A banking organization that excludes assets of consolidated VIEs from risk-weighted assets pursuant to section IV.C.1.a. may, for the third and fourth quarters after the implementation date (phase-in period), including for the two calendar quarter-end regulatory report dates within those quarters,exclude from risk-weighted assets 50 percent of the exclusion amount, provided that the banking organization may not include in risk-weighted assets pursuant to this paragraph an amount less than the aggregate risk-weighted assets calculated pursuant to section IV.C.1.b.

c. Inclusion of ALLL in tier 2 capital for the third and fourth quarters. A banking organization that excludes assets of consolidated VIEs from risk-weighted assets pursuant to section IV.C.2.b. may, for the phase-in period, include in tier 2 capital 50 percent of the inclusion amount it included in tier 2 capital during the exclusion period, notwithstanding the limit on including ALLL in tier 2 capital in section II.A.2.a. of this Appendix.

3. Implicit recourse limitation. Notwithstanding any other provision in this section IV.C., assets held by a VIE to which the banking organization has provided recourse through credit enhancement beyond any contractual obligation to support assets it has sold may not be excluded from risk-weighted assets.

[Reg. Y, 54 FR 4299, Jan. 27, 1989]

EDITORIAL NOTE: For Federal Register citations affecting appendix A to part 225, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.
APPENDIX B TO PART 225—CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES AND STATE MEMBER BANKS: LEVERAGE MEASURE

The Board of Governors of the Federal Reserve System has adopted minimum capital ratios and guidelines to provide a framework for assessing the adequacy of the capital of all banking organizations (collectively “banking organizations”). The guidelines generally apply to all state member banks and bank holding companies regardless of size and are to be used in the examination and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. The Board of Governors will review the guidelines from time to time for possible adjustment commensurate with changes in the economy, financial markets, and banking practices. In this regard, the Board has determined that during the transition period through year-end 1990 for implementation of the risk-based capital guidelines contained in appendix B to this part and appendix A to part 208, a banking organization may choose to fulfill the requirements of the guidelines relating capital to total assets contained in this appendix in one of two manners. Until year-end 1990, a banking organization may choose to conform to either the 5.5 percent and 6 percent minimum primary and total capital standards set forth in this appendix, or the 7.25 percent year-end 1990 minimum risk-based capital standard set forth in appendix A to this part and appendix A to part 208. Those organizations that choose to conform during this period to the 7.25 percent year-end 1990 risk-based capital standard will be deemed to be in compliance with both the capital adequacy guidelines contained in appendix B to this part and appendix A to part 208.1

The capital guidelines assume adequate liquidity and a moderate amount of risk in the loan and investment portfolios and in off-balance sheet activities. The Federal Reserve will review the relationship of all on- and off-balance sheet risks to capital and will require those institutions with high or inordinate levels of risk to hold additional primary capital. In addition, the Federal Reserve will continue to review the need for more explicit procedures for factoring on- and off-balance sheet risks into the assessment of capital adequacy.

The capital guidelines apply to both banks and bank holding companies on a consolidated basis.2 Some banking organizations are engaged in significant nonbanking activities that typically require capital ratios higher than those of commercial banks alone. The Board believes that, as a matter of both safety and soundness and competitive equity, the degree of leverage common in banking should not automatically extend to nonbanking activities. Consequently, in evaluating the consolidated capital positions

---

1 The guidelines will apply to bank holding companies with less than $150 million in consolidated assets on a bank-only basis unless:

(1) The holding company or any nonbank subsidiary is engaged directly or indirectly in any nonbank activity involving significant leverage or

(2) The holding company or any nonbank subsidiary has outstanding significant debt held by the general public. Debt held by the general public is defined to mean debt held by parties other than financial institutions, officers, directors, and controlling shareholders of the banking organization or their related interests.

---
of banking organizations, the Board is placing greater weight on the building-block approach for assessing capital requirements. This approach generally provides that nonbank subsidiaries of a banking organization should maintain levels of capital consistent with the levels that have been established by industry norms or standards, by Federal or State regulatory agencies for similar firms that are not affiliated with banking organizations, or that may be established by the Board after taking into account risk factors of a particular industry. The assessment of an organization’s consolidated capital adequacy must take into account the amount and nature of all nonbank activities, and an institution’s consolidated capital position should at least equal the sum of the capital requirements of the organization’s bank and nonbank subsidiaries as well as those of the parent company.

**SUPERVISORY ACTION**

The nature and intensity of supervisory action will be determined by an organization’s compliance with the required minimum primary capital ratio as well as by the zone in which the company’s total capital ratio falls. Banks and bank holding companies with primary capital ratios below the 5.5 percent minimum will be considered undercapitalized unless they can demonstrate clear extenuating circumstances. Such banking organizations will be required to submit an acceptable plan for achieving compliance with the capital guidelines and will be subject to denial of applications and appropriate supervisory enforcement actions.

The zone in which an organization’s total capital ratio falls will normally trigger the following supervisory responses, subject to qualitative analysis:

- Consider that capital is generally adequate if the primary capital ratio is acceptable to the Federal Reserve and is above the 5.5 percent minimum.

- Pay particular attention to financial factors, such as asset quality, liquidity, off-balance sheet risk, and interest rate risk, as they relate to the adequacy of capital. If these areas are deficient and the Federal Reserve concludes capital is not fully adequate, the Federal Reserve will intensify its monitoring and take appropriate supervisory action.

- Consider that the institution is undercapitalized, absent clear extenuating circumstances.

- Require the institution to submit a comprehensive capital plan, acceptable to the Federal Reserve, that includes a program for achieving compliance with the required minimum ratios within a reasonable time period; and

- Institute appropriate supervisory and/or administrative enforcement action, which may include the issuance of a capital directive or denial of applications, unless a capital plan acceptable to the Federal Reserve has been adopted by the institution.

**TREATMENT OF INTANGIBLE ASSETS FOR THE PURPOSE OF ASSESSING THE CAPITAL ADEQUACY OF BANK HOLDING COMPANIES AND STATE MEMBER BANKS**

In considering the treatment of intangible assets for the purpose of assessing capital adequacy, the Federal Reserve recognizes that the determination of the future benefits and useful lives of certain intangible assets may involve a degree of uncertainty that is not normally associated with other banking assets. Supervisory concern over intangible assets derives from this uncertainty and from the possibility that, in the event an organization experiences financial difficulties, such assets may not provide the degree of support generally associated with other assets. For this reason, the Federal Reserve will carefully review the level and specific character of intangible assets in evaluating the capital adequacy of state member banks and bank holding companies.

The Federal Reserve recognizes that intangible assets may differ with respect to predictability of any income stream directly associated with a particular asset, the existence of a market for the asset, the ability to sell the asset, or the reliability of any estimate of the asset’s useful life. Certain intangible assets have predictable income streams and objectively verifiable values and may contribute to an organization’s profitability and overall financial strength. The value of other intangibles, such as goodwill, may involve a number of assumptions and may be more subject to changes in general economic circumstances or to changes in an individual institution’s future prospects. Consequently, the value of such intangible assets may be difficult to ascertain. Consistent with prudent banking practices and the principle of the diversification of risks, banking organizations should avoid excessive balance sheet concentration in any category or related categories of intangible assets.

**Bank Holding Companies**

While the Federal Reserve will consider the amount and nature of all intangible assets, those holding companies with aggregate intangible assets in excess of 25 percent of tangible primary capital (i.e., stated primary
capital less all intangible assets) or those institutions with lesser, although still significant, amounts of goodwill will be subject to close scrutiny. For the purpose of assessing capital adequacy, the Federal Reserve may, on a case-by-case basis, make adjustments to an organization’s capital ratios based upon the amount of intangible assets in excess of the 25 percent threshold level or upon the specific character of the organization’s intangible assets in relation to its overall financial condition. Such adjustments may require some organizations to raise additional capital.

The Board expects banking organizations (including state member banks) contemplating expansion proposals to ensure that pro forma capital ratios exceed the minimum capital levels without significant reliance on intangibles, particularly goodwill. Consequently, in reviewing acquisition proposals, the Board will take into consideration both the stated primary capital ratio (that is, the ratio without any adjustment for intangible assets) and the primary capital ratio after deducting intangibles. In acting on applications, the Board will take into account the nature and amount of intangible assets and will, as appropriate, adjust capital ratios to include certain intangible assets on a case-by-case basis.

State Member Banks

State member banks with intangible assets in excess of 25 percent of intangible primary capital will be subject to close scrutiny. In addition, for the purpose of calculating capital ratios of state member banks, the Federal Reserve will deduct goodwill from primary capital and total capital. The Federal Reserve may, on a case-by-case basis, make further adjustments to a bank’s capital ratios based on the amount of intangible assets (aside from goodwill) in excess of the 25 percent threshold level or on the specific character of the bank’s intangible assets in relation to its overall financial condition. Such adjustments may require some banks to raise additional capital.

In addition, state member banks and bank holding companies are expected to review periodically the value at which intangible assets are carried on their balance sheets to determine whether there has been any impairment of value or whether changing circumstances warrant a shortening of amortization periods. Institutions should make appropriate reductions in carrying values and amortization periods in light of this review, and examiners will evaluate the treatment of intangible assets during on-site examinations.

DEFINITION OF CAPITAL TO BE USED IN DETERMINING CAPITAL ADEQUACY OF BANK HOLDING COMPANIES AND STATE MEMBER BANKS

Primary Capital Components

The components of primary capital are:

—Common stock,
—Perpetual preferred stock (preferred stock that does not have a stated maturity date and that may not be redeemed at the option of the holder),
—Surplus (excluding surplus relating to limited-life preferred stock),
—Undivided profits,
—Contingency and other capital reserves,
—Mandatory convertible instruments,\(^2\)
—Allowance for possible loan and lease losses (exclusive of allocated transfer risk reserves),
—Minority interest in equity accounts of consolidated subsidiaries,
—Perpetual debt instruments (for bank holding companies but not for state member banks).

Limits on Certain Forms of Primary Capital

Bank Holding Companies. The maximum composite amount of mandatory convertible securities, perpetual debt, and perpetual preferred stock that may be counted as primary capital for bank holding companies is limited to 33.3 percent of all primary capital, including these instruments. Perpetual preferred stock issued prior to November 20, 1985 (or determined by the Federal Reserve to be in the process of being issued prior to that date), shall continue to be included as primary capital.

The maximum composite amount of mandatory convertible securities and perpetual debt that may be counted as primary capital for bank holding companies is limited to 20 percent of all primary capital, including these instruments. The maximum amount of equity commitment notes (a form of mandatory convertible securities) that may be counted as primary capital for a bank holding company is limited to 10 percent of all primary capital, including mandatory convertible securities. Amounts outstanding in excess of these limitations may be counted as secondary capital provided they meet the requirements of secondary capital instruments.

State Member Banks. The composite limitations on the amount of mandatory convertible securities and perpetual preferred stock (perpetual debt is not primary capital for state member banks) that may serve as primary capital for bank holding companies

\(^2\)See the definitional section below that lists the criteria for mandatory convertible instruments to qualify as primary capital.
shall not be applied formally to state member banks, although the Board shall determine appropriate limits for these forms of primary capital on a case-by-case basis.

The maximum amount of mandatory convertible securities that may be counted as primary capital for state member banks is limited to 16 percent of all primary capital, including any convertible securities and equity commitment notes, one form of mandatory convertible securities, shall not be included as primary capital for state member banks, except that notes issued by state member banks prior to May 15, 1983, will continue to be included in primary capital. Amounts of mandatory convertible securities in excess of these limitations may be counted as secondary capital if they meet the requirements of secondary capital instruments.

Secondary Capital Components

The components of secondary capital are:

—Limited-life preferred stock (including related surplus) and
—Bank subordinated notes and debentures and unsecured long-term debt of the parent company and its nonbank subsidiaries.

Restrictions Relating to Capital Components

To qualify as primary or secondary capital, a capital instrument should not contain or be covered by any convenants, terms, or restrictions that are inconsistent with safe and sound banking practices. Examples of such terms are those regarded as unduly interfering with the ability of the bank or holding company to conduct normal banking operations or those resulting in significantly higher dividends or interest payments in the event of a deterioration in the financial condition of the issuer.

The secondary components must meet the following conditions to qualify as capital:

—The instrument must have an original weighted-average maturity of at least seven years.
—The instrument must be unsecured.
—The instrument must clearly state on its face that it is not a deposit and is not insured by a Federal agency.
—Bank debt instruments must be subordinated to claims of depositors.
—For banks only, the aggregate amount of limited-life preferred stock and subordinated debt qualifying as capital may not exceed 50 percent of the amount of the bank’s primary capital.

As secondary capital components approach maturity, the banking organization must plan to redeem or replace the instruments while maintaining an adequate overall capital position. Thus, the remaining maturity of secondary capital components will be an important consideration in assessing the adequacy of total capital.

12 CFR Ch. II (1–1–13 Edition)

Capital Ratios

The primary and total capital ratios for bank holding companies are computed as follows:

Primary capital ratio:

Primary capital components/Total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)

Total capital ratio:

Primary capital components + Secondary capital components/Total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)

The primary and total capital ratios for state member banks are computed as follows:

Primary capital ratio:

Primary capital components—Goodwill/Average total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)—Goodwill

Total capital ratio:

Primary capital components + Secondary capital components—Goodwill/Average total assets + Allowance for loan and lease losses (exclusive of allocated transfer risk reserves)—Goodwill

Generally, period-end amounts will be used to calculate bank holding company ratios. However, the Federal Reserve will discourage temporary balance sheet adjustments or any other “window dressing” practices designed to achieve transitory compliance with the guidelines. Banking organizations are expected to maintain adequate capital positions at all times. Thus, the Federal Reserve will, on a case-by-case basis, use average total assets in the calculation of bank holding company capital ratios whenever this approach provides a more meaningful indication of an individual holding company’s capital position.

For the calculation of bank capital ratios, “average total assets” will generally be defined as the quarterly average total assets figure reported on the bank’s Report of Condition. If warranted, however, the Federal Reserve may calculate bank capital ratios based upon total assets as of period-end. All other components of the bank’s capital ratios will be based upon period-end balances.

Criteria for Determining the Primary Capital Status of Mandatory Convertible Securities of Bank Holding Companies and State Member Banks

Mandatory convertible securities are subordinated debt instruments that are eventually transformed into common or perpetual preferred stock within a specified period of time, not to exceed 12 years. To be counted as primary capital, mandatory convertible securities must meet the criteria set forth below. These criteria cover the two basic types of mandatory convertible securities:
“equity contract notes”—securities that obligate the holder to take common or perpetual preferred stock of the issuer in lieu of cash for repayment of principal, and “equity commitment notes”—securities that are redeemable only with the proceeds from the sale of common or perpetual preferred stock. Both equity commitment notes and equity contract notes qualify as primary capital for bank holding companies, but only equity contract notes qualify as primary capital for banks.

Criteria Applicable to Both Types of Mandatory Convertible Securities

a. The securities must mature in 12 years or less.
b. The issuer may redeem securities prior to maturity only with the proceeds from the sale of common or perpetual preferred stock of the bank or bank holding company. Any exception to this rule must be approved by the Federal Reserve. The securities may not be redeemed with the proceeds of another issue of mandatory convertible securities. Nor may the issuer repurchase or acquire its own mandatory convertible securities for resale or reissuance.
c. Holders of the securities may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.
d. The securities must be subordinate in right of payment to all senior indebtedness of the issuer. In the event that the proceeds of the securities are reloaned to an affiliate, the loan must be subordinated to the same degree as the original issue.
e. An issuer that intends to dedicate the proceeds of an issue of common or perpetual preferred stock to satisfy the funding requirements of an issue of mandatory convertible securities (i.e., the requirement to retire or redeem the notes with the proceeds from the issuance of common or perpetual preferred stock) generally must make such a dedication during the quarter in which the new common or preferred stock is issued.3

As a general rule, if the dedication is not made within the prescribed period, the securities issued may not at a later date be dedicated to the retirement or redemption of the mandatory convertible securities.4

Additional Criteria Applicable to Equity Contract Notes

a. The note must contain a contractual provision (or must be issued with a mandatory stock purchase contract) that requires the holder of the instrument to take the common or perpetual stock of the issuer in lieu of cash in satisfaction of the claim for principal repayment. The obligation of the holder to take the common or perpetual preferred stock of the issuer may be waived if, and to the extent that, prior to the maturity date of the obligation, the issuer sells new common or perpetual preferred stock and dedicates the proceeds to the retirement or redemption of the notes. The dedication generally must be made during the quarter in which the new common or preferred stock is issued.
b. A stock purchase contract may be separated from a security only if: (1) The holder of the contract provides sufficient collateral5 to the issuer, or to an independent trustee for the benefit of the issuer, to assure performance under the contract and (2) the stock purchase contract requires the purchase of common or perpetual preferred stock.

3 Common or perpetual preferred stock issued under dividend reinvestment plans or issued to finance acquisitions, including acquisitions of business entities, may be dedicated to the retirement or redemption of the mandatory convertible securities. Documentation certified by an authorized agent of the issuer showing the amount of common stock or perpetual preferred stock issued, the dates of issue, and amounts of such issues dedicated to the retirement or redemption of mandatory convertible securities will satisfy the dedication requirement.

4 The dedication procedure is necessary to ensure that the primary capital of the issuer is not overstated. For each dollar of common or perpetual preferred proceeds dedicated to the retirement or redemption of the notes, there is a corresponding reduction in the amount of outstanding mandatory securities that may qualify as primary capital. De minimis amounts (in relation to primary capital) of common or perpetual preferred stock issued under arrangements in which the amount of stock issued is not predictable, such as dividend reinvestment plans and employee stock option plans (but excluding public stock offerings and stock issued in connection with acquisitions), should be dedicated by no later than the company’s fiscal year end.

5 Collateral is defined as: (1) Cash or certificates of deposit; (2) U.S. government securities that will mature prior to or simultaneous with the maturity of the equity contract and that have a par or maturity value at least equal to the amount of the holder’s obligation under the stock purchase contract; (3) standby letters of credit issued by an insured U.S. bank that is not an affiliate of the issuer; or (4) other collateral as may be designated from time to time by the Federal Reserve.
CRITERIA FOR DETERMINING THE PRIMARY SECURITY AT ITS FINAL MATURITY

To repayment of the principal amount of the security issued by the subsidiary and limited to be subordinate to the same degree as the security of the parent bank or bank holding company must be an absolute assurance of the principal by that subsidiary's agreement certified by an authorized agent of the parent company.

If a security is issued by a subsidiary of a bank holding company, any guarantee of the principal by the subsidiary's parent bank or bank holding company shall be subordinate to the same degree as the parent company's common and preferred stock of the subsidiary or one formed to issue securities, the deferral of interest payments must be triggered by elimination of dividends by the parent company.

5. If issued by a bank holding company or a subsidiary with substantial operations, the instrument must contain a provision that allows the issuer to defer interest payments on the perpetual debt in the event of, and at the same time as, the elimination of dividends on all outstanding common or preferred stock of the issuer (or in the case of a guarantee by a parent company at the same time as the elimination of the dividends of the parent company's common and preferred stock). In the case of a nonoperating subsidiary (a funding subsidiary or one formed to issue securities), the deferral of interest payments must be triggered by elimination of dividends by the parent company.

6. The funded portions of the securities will be deducted from primary capital to avoid double counting.

---

APPENDIX C TO PART 225—SMALL BANK HOLDING COMPANY POLICY STATEMENT

Policy Statement on Assessment of Financial and Managerial Factors

In acting on applications filed under the Bank Holding Company Act, the Board has adopted, and continues to follow, the principle that bank holding companies should serve as a source of strength for their subsidiary banks. When bank holding companies incur debt and rely upon the earnings of their subsidiary banks as the means of repaying such debt, a question arises as to the
probable effect upon the financial condition of the holding company and its subsidiary bank or banks.

The Board believes that a high level of debt at the parent holding company impairs the ability of a bank holding company to provide financial assistance to its subsidiary bank(s) and, in some cases, the servicing requirements on such debt may be a significant drain on the resources of the bank(s).

For these reasons, the Board has not favored the use of acquisition debt in the formation of bank holding companies or in the acquisition of additional banks. Nevertheless, the Board has recognized that the transfer of ownership of small banks often requires the use of acquisition debt. The Board, therefore, has permitted the formation and expansion of small bank holding companies with debt levels higher than would be permitted for larger holding companies. Approval of these applications has been given on the condition that small bank holding companies demonstrate the ability to service acquisition debt without straining the capital of their subsidiary banks and, further, that such companies restore their ability to serve as a source of strength for their subsidiary banks within a relatively short period of time.

In the interest of continuing its policy of facilitating the transfer of ownership in banks without compromising bank safety and soundness, the Board has, as described below, adopted the following procedures and standards for the formation and expansion of small bank holding companies subject to this policy statement.

1. APPLICABILITY OF POLICY STATEMENT

This policy statement applies only to bank holding companies with pro forma consolidated assets of less than $500 million that (i) are not engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) do not conduct significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; and (iii) do not have a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission. The Board may in its discretion exclude any bank holding company, regardless of asset size, from the policy statement if such action is warranted for supervisory purposes.1

While this policy statement primarily applies to the formation of small bank holding companies, it also applies to existing small bank holding companies that wish to acquire an additional bank or company and to transactions involving changes in control, stock redemptions, or other shareholder transactions.2

2. ONGOING REQUIREMENTS

The following guidelines must be followed on an ongoing basis for all organizations operating under this policy statement.

A. Reduction in parent company leverage: Small bank holding companies approved under this policy statement may exclude from their parent company debt consistent with the requirement that all debt be retired within 25 years of being incurred. The Board also expects that these bank holding companies restore their ability to serve as a source of strength for their subsidiary banks and, further, that such companies demonstrate the ability to service acquisition debt at the parent holding company impairs the ability of a bank holding company that are the functional equivalent of borrowed funds.

Subordinated debt associated with trust preferred securities generally would be treated as debt for purposes of paragraphs 2.C., 3.A., 4.A.i, and 4.B.i. of this policy statement. A bank holding company, however, may exclude from debt an amount of subordinated debt associated with trust preferred securities up to 25 percent of the holding company’s equity (as defined below) less goodwill on the parent company’s balance sheet in determining compliance with the requirements of such paragraphs of the policy statement. In addition, a bank holding company subject to this policy statement that has not issued subordinated debt associated with a new issuance of trust preferred securities may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Bank holding companies subject to this policy statement also may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Bank holding companies subject to this policy statement also may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Bank holding companies subject to this policy statement also may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Bank holding companies subject to this policy statement also may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010. Bank holding companies subject to this policy statement also may exclude from debt any subordinated debt associated with trust preferred securities until December 31, 2010.

1 [Reserved]
comply with debt servicing and other requirements imposed by its creditors.

B. Capital adequacy: Each insured depository subsidiary of a small bank holding company, except to be well-capitalized. Any institution that is not well-capitalized is expected to become well-capitalized within a brief period of time.

C. Dividend restrictions: A small bank holding company whose debt to equity ratio is greater than 1.0:1 is not expected to pay corporate dividends until such time as it reduces its debt to equity ratio to 1.0:1 or less and otherwise meets the criteria set forth in §§225.14(c)(1)(i), 225.14(c)(2), and 225.14(c)(7) of Regulation Y. 4

Ordinarily the Board does not view redeemable preferred stock as equity, as used in the ratio of debt to equity, means the total stockholders' equity of the bank holding company as defined in accordance with generally accepted accounting principles. In determining the total amount of stockholders' equity, the bank holding company should account for its investments in the common stock of subsidiaries by the equity method of accounting.

Ordinarily the Board does not view redeemable preferred stock as a substitute for common stock in a small bank holding company. Nevertheless, to a limited degree and under certain circumstances, the Board will consider redeemable preferred stock as equity in the capital accounts of the holding company if the following conditions are met: (1) The preferred stock is redeemable only at the option of the issuer; and (2) the debt to equity ratio of the holding company would be at or remain below .30:1 following the redemption or retirement of any preferred stock. Preferred stock that is convertible into common stock of the holding company may be treated as equity.

Small bank holding companies formed before the effective date of this policy statement may switch to a plan that adheres to the intent of this statement provided they comply with the requirements set forth above.

3. CORE REQUIREMENTS FOR ALL APPLICANTS

In assessing applications or notices by organizations subject to this policy statement, the Board will continue to take into account a full range of financial and other information about the applicant, and its current and proposed subsidiaries, including the recent trend and stability of earnings, past and prospective growth, asset quality, the ability to meet debt servicing requirements without placing an undue strain on the resources of the bank(s), and the record and competency of management. In addition, the Board will require applicants to meet the following requirements:

A. Minimum down payment: The amount of acquisition debt should not exceed 75 percent of the purchase price of the bank(s) or company to be acquired. When the owner(s) of the holding company incurs debt to finance the purchase of the bank(s) or company, such debt will be considered acquisition debt even though it does not represent an obligation of the bank holding company, unless the owner(s) can demonstrate that such debt can be serviced without reliance on the resources of the bank(s) or bank holding company.

B. Ability to reduce parent company leverage: The bank holding company must clearly be able to reduce its debt to equity ratio and comply with its loan agreement(s) as set forth in paragraph 2A above.

Failure to meet the criteria in this section would normally result in denial of an application.

4. ADDITIONAL APPLICATION REQUIREMENTS FOR EXPEDITED/WAIVED PROCESSING

A. Expedited notices under §§225.14 and 225.23 of Regulation Y: A small bank holding company proposal will be eligible for the expedited processing procedures set forth in §§225.14 and 225.23 of Regulation Y if the bank holding company is in compliance with the ongoing requirements of this policy statement, the bank holding company meets the core requirements for all applicants noted above, and the following requirements are met:

banks to be well-capitalized. It is expected that dividends will be eliminated if the holding company is (1) not reducing its debt consistent with the requirement that the debt to equity ratio be reduced to .30:1 within 12 years of consummation of the proposal or (2) not meeting the requirements of its loan agreement(s).
Federal Reserve System

Pt. 225, App. D

I. OVERVIEW

a. The Board of Governors of the Federal Reserve System has adopted a minimum ratio of tier 1 capital to total assets to assist in the assessment of the capital adequacy of bank holding companies (banking organizations). The principal objectives of this measure is to place a constraint on the maximum degree to which a banking organization can leverage its equity capital base. It is intended to be used as a supplement to the risk-based capital measure.

b. The tier 1 leverage guidelines apply on a consolidated basis to any bank holding company with consolidated assets of $500 million or more. The tier 1 leverage guidelines also apply on a consolidated basis to any bank holding company with consolidated assets of less than $500 million if the holding company (i) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (ii) conducts significant off-balance sheet activities (including securitization and asset management or administration) either directly or through a nonbank subsidiary; or (iii) has a material amount of debt or equity securities outstanding (other than trust preferred securities) that are registered with the Securities and Exchange Commission. The Federal Reserve may apply the tier 1 leverage guidelines at its discretion to any bank holding company, regardless of asset size, if such action is warranted for supervisory purposes.

c. The tier 1 leverage guidelines are to be used in the inspection and supervisory process as well as in the analysis of applications acted upon by the Federal Reserve. The Board will review the guidelines from time to time and will consider the need for possible adjustments in light of any significant changes in the economy, financial markets, and banking practices.

II. THE TIER 1 LEVERAGE RATIO

a. The Board has established a minimum ratio of tier 1 capital to total assets of 3.0 percent for strong bank holding companies (rated composite “1” under the BOPEC rating system of bank holding companies), and for bank holding companies that have implemented the Board’s risk-based capital measure for market risk as set forth in appendices A and E of this part. For all other bank holding companies, the minimum ratio of tier 1 capital to total assets is 4.0 percent. Banking organizations with supervisory, financial, operational, or managerial weaknesses, as well as organizations that are anticipating or experiencing significant growth, are expected to maintain capital ratios well above the minimum levels. Moreover, higher capital ratios may be required for any bank holding company if warranted by its particular circumstances or risk profile. In all cases, bank holding companies should hold capital commensurate with the level and nature of the risks, including the volume and severity of problem loans, to which they are exposed.

b. A banking organization’s tier 1 leverage ratio is calculated by dividing its tier 1 capital (the numerator of the ratio) by its average total consolidated assets (the denominator of the ratio). The ratio will also be calculated using period-end assets whenever necessary, on a case-by-case basis. For the purpose of this leverage ratio, the definition of tier 1 capital as set forth in the risk-based capital guidelines contained in appendix A of this part will be used. As a general matter, average total consolidated assets are defined as the quarterly average total assets (defined net of the allowance for loan and lease losses) reported on the organization’s Consolidated Financial Statements (PR Y–9C Report), less goodwill; amounts of mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships that, in the aggregate, are in excess of 100 percent of Tier 1 capital; amounts of nonmortgage servicing assets and purchased credit card relationships that, in the aggregate, are in excess of 25 percent of Tier 1 capital; amounts of credit-enhancing interest-only strips that are in excess of 25 percent of...
Tier 1 capital; all other identifiable intangible assets; any investments in subsidiaries or associated companies that the Federal Reserve determines should be deducted from Tier 1 capital; deferred tax assets that are dependent upon future taxable income, net of their valuation allowance, in excess of the limitation set forth in section II.B.4 of appendix A of this part; and the amount of the total adjusted carrying value of nonfinancial equity investments that is subject to a deduction from Tier 1 capital.3

c. Whenever appropriate, including when an organization is undertaking expansion, seeking to engage in new activities or otherwise facing unusual or abnormal risks, the Board will continue to consider the level of an individual organization’s tangible tier 1 leverage ratio (after deducting all intangibles) in making an overall assessment of capital adequacy. This is consistent with the Federal Reserve’s risk-based capital guidelines and long-standing Federal Reserve policy and practice with regard to leverage guidelines. Organizations experiencing growth, whether internally or by acquisition, are expected to maintain strong capital position substantially above minimum supervisory levels, without significant reliance on intangible assets.

d. Notwithstanding anything in this appendix to the contrary, a bank holding company may deduct from its average total consolidated assets the amount of any asset-backed commercial paper (i) purchased by the bank holding company on or after September 19, 2008, from an SEC-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a–7 (17 CFR 270.2a–7) and (ii) pledged by the bank holding company to a Federal Reserve Bank to secure financing from the ABCP lending facility (AMLF) established by the Board on September 19, 2008.

3 Deductions from Tier 1 capital and other adjustments are discussed more fully in section II.B.4 of appendix A of this part.
Federal Reserve System

(2) If the Board determines that the risk-based capital requirement calculated under this appendix by the bank holding company for one or more covered positions or portfolios of covered positions is not commensurate with the risks associated with those positions or portfolios, the Board may require the bank holding company to assign a different risk-based capital requirement to the positions or portfolios that more accurately reflects the risk of the positions or portfolios.

(3) The Board may also require a bank holding company to calculate risk-based capital requirements for specific positions or portfolios under this appendix, or under Appendix G to this part or Appendix A to this part, as appropriate, to more accurately reflect the risks of the positions.

(4) Nothing in this appendix limits the authority of the Board under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

Section 2. Definitions

For purposes of this appendix, the following definitions apply:

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Backtesting means the comparison of a bank holding company’s internal estimates with actual outcomes during a sample period not used in model development. For purposes of this appendix, backtesting is one form of out-of-sample testing.

Bank holding company means a corporation, partnership, limited liability company, depositary institution, business trust, special purpose entity, association, or similar organization.

Control A person or company controls a company if it:

(1) Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or
(2) Consolidates the company for financial reporting purposes.

Corporate debt position means a debt position that is an exposure to a company that is not a sovereign entity, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multilateral development bank, a depositary institution, a foreign bank, a credit union, a public sector entity, a government-sponsored entity, or a securitization.

Correlation trading position means:

(1) A securitization position for which all or substantially all of the value of the underlying exposures is based on the credit quality of a single company for which a two-way market exists, or on commonly traded indices based on such exposures for which a two-way market exists on the indices; or
(2) A position that is not a securitization position and that hedges a position described in paragraph (1) of this definition; and
(3) A correlation trading position does not include:

(i) A resecuritization position;
(ii) A derivative of a securitization position that does not provide a pro rata share in the proceeds of a securitization tranche; or
(iii) A securitization position for which the underlying assets or reference exposures are retail exposures, residential mortgage exposures, or commercial mortgage exposures.

Country risk classification (CRC) for a sovereign entity means the consensus CRC published from time to time by the Organization for Economic Cooperation and Development that provides a view of the likelihood that the sovereign entity will service its external debt.

Covered position means the following positions:

(1) A trading asset or trading liability (whether on- or off-balance sheet), 43 as reported on Schedule RC-D of the Call Report or Schedule HC-D of the FR Y-9C, that meets the following conditions:

(i) The position is a trading position or hedges another covered position; 44 and
(ii) The position is free of any restrictive covenants on its tradability or the bank holding company is able to hedge the material risk elements of the position in a two-way market;
(2) A foreign exchange or commodity position, regardless of whether the position is a trading asset or trading liability (excluding any structural foreign currency positions that the bank holding company chooses to exclude with prior supervisory approval); and
(3) Notwithstanding paragraphs (1) and (2) of this definition, a covered position does not include:

(i) An intangible asset, including any servicing asset;
(ii) Any hedge of a trading position that the Board or the appropriate Reserve Bank, with concurrence of the Board determines to be outside the scope of the bank holding company’s hedging strategy required in paragraph (a)(2) of section 3 of this appendix;

43Securities subject to repurchase and lending agreements are included as if they are still owned by the lender.

44A position that hedges a trading position must be within the scope of the bank’s hedging strategy as described in paragraph (a)(2) of section 3 of this appendix.
(i) Any position that, in form or substance, acts as a liquidity facility that provides support to asset-backed commercial paper.

(ii) A credit derivative the bank holding company recognizes as a guarantee for risk-weighted asset amount calculation purposes under Appendix G to this part or Appendix A to this part.

(v) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity.

(vi) Any position a bank holding company holds with the intent to securitize; or

(vii) Any direct real estate holding.

Credit derivative means a financial contract executed under standard industry documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider).

Credit union means an insured credit union as defined under the Federal Credit Union Act (12 U.S.C. 1752).

Default by a sovereign entity means non-compliance by the sovereign entity with its external debt service obligations or the inability or unwillingness of a sovereign entity to service an existing obligation according to its original contractual terms, as evidenced by failure to pay principal and interest timely and fully, arrearages, or restructuring.

Debt position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in interest rates or credit spreads.

Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

Equity position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in equity prices.

Event risk means the risk of loss on equity or hybrid equity positions as a result of a financial event, such as the announcement or occurrence of a company merger, acquisition, spin-off, or dissolution.

Foreign bank means a foreign bank as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2), other than a depository institution.

Foreign exchange position means a position for which price risk arises from changes in foreign exchange rates.

General market risk means the risk of loss that could result from broad market movements, such as changes in the general level of interest rates, credit spreads, equity prices, foreign exchange rates, or commodity prices.

General obligation means a bond or similar obligation that is guaranteed by the full faith and credit of states or other political subdivisions of a sovereign entity.

Government-sponsored entity (GSE) means an entity established or chartered by the U.S. government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. government.

Hedge means a position or positions that offset all, or substantially all, of one or more material risk factors of another position.

Idiosyncratic risk means the risk of loss in the value of a position that arises from changes in risk factors unique to that position.

Incremental risk means the default risk and credit migration risk of a position. Default risk means the risk of loss on a position that could result from the failure of an obligor to make timely payments of principal or interest on its debt obligation, and the risk of loss that could result from bankruptcy, insolvency, or similar proceeding. Credit migration risk means the price risk that arises from significant changes in the underlying credit quality of the position.

Investment grade means that the entity to which the bank holding company is exposed through a loan or security, or the reference entity with respect to a credit derivative, has adequate capacity to meet financial commitments for the projected life of the asset or exposure. Such an entity or reference entity has adequate capacity to meet financial commitments if the risk of its default is low and the full and timely repayment of principal and interest is expected.

Market risk means the risk of loss on a position that could result from movements in market prices.

Multilateral development bank means the International Bank for Reconstruction and Development, the Multilateral Investment Guarantee Agency, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the Board determines poses comparable credit risk.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Over-the-counter (OTC) derivative means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.
Public sector entity (PSE) means a state, local authority, or other governmental subdivision below the sovereign entity level.

Publicly traded means traded on:

(1) Any exchange registered with, or approved by, the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or

(2) Any non-U.S.-based securities exchange that:

(A) The bank holding company has conducted sufficient legal review to reach a well-founded conclusion that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question.

Qualifying securities borrowing transaction means a cash-collateralized securities borrowing transaction that meets the following conditions:

(1) The transaction is based on liquid and readily marketable securities;

(2) The transaction is marked-to-market daily;

(3) The transaction is subject to daily margin maintenance requirements; and

(4)(i) The transaction is a securities contract for the purposes of section 555 of the Bankruptcy Code (11 U.S.C. 555), a qualified financial contract for the purposes of section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions for the purposes of sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Board’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria in paragraph (4)(i) of this definition, either:

(A) The bank holding company has conducted sufficient legal review to reach a well-founded conclusion that:

(i) The securities borrowing agreement executed in connection with the transaction provides the bank holding company the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default; and

(ii) Under applicable law of the relevant jurisdiction, its rights under the agreement are legal, valid, binding, and enforceable and any exercise of rights under the agreement will not be stayed or avoided; or

(B) The transaction is either overnight or unconditionally cancelable at any time by the bank holding company, and the bank holding company has conducted sufficient legal review to reach a well-founded conclusion that:

(i) The securities borrowing agreement executed in connection with the transaction provides the bank holding company the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default; and

(ii) Under the law governing the agreement, its rights under the agreement are legal, valid, binding, and enforceable.

Resecuritization means a securitization in which one or more of the underlying exposures is a securitization position.

Resecuritization position means a covered position that is:

(1) An on- or off-balance sheet exposure to a resecuritization; or

(2) An exposure that directly or indirectly references a securitization exposure in paragraph (1) of this definition.

Revenue obligation means a bond or similar obligation, including loans and leases, that is an obligation of a state or other political subdivision of a sovereign entity, but for which the government entity is committed to repay with revenues from the specific project financed rather than with general tax funds.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches that reflect different levels of seniority; and

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) For non-synthetic securitizations, the underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company described in section 362 of the Small Business Investment Act of 1958 (15 U.S.C. 692); and

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24 (Eleventh).

(8) The Board may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a securitization based on the transaction’s leverage, risk profile, or economic substance.

(9) The Board may deem an exposure to a transaction that meets the definition of a securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a
securitization based on the transaction’s leverage, risk profile, or economic substance.

Securitization position means a covered position that is:

(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a securitization (including a reverse securitization) or

(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Sovereign debt position means a direct exposure to a sovereign entity.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign of incorporation means the country where an entity is incorporated, chartered, or similarly established.

Specific risk means the risk of loss on a position that could result from factors other than broad market movements and includes event risk, default risk, and idiosyncratic risk.

Structural position in a foreign currency means a position that is not a trading position and that is:

(1) Subordinated debt, equity, or minority interest in a consolidated subsidiary that is denominated in a foreign currency;

(2) Capital assigned to foreign branches that is denominated in a foreign currency;

(3) A position related to an unconsolidated subsidiary or another item that is denominated in a foreign currency and that is deducted from the bank holding company’s tier 1 and tier 2 capital; or

(4) A position designed to hedge a bank holding company’s capital ratios or earnings against the effect on paragraphs (1), (2), or (3) of this definition of adverse exchange rate movements.

Term repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the bank holding company acts as agent for a customer and indemnifies the customer against loss, that has an original maturity in excess of one business day, provided that:

(1) The transaction is based solely on liquid and readily marketable securities or cash;

(2) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;

(3) The transaction is executed under an agreement that provides the bank holding company the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of default (including bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; and

(4) The bank holding company has conducted and documented sufficient legal review to conclude with a well-founded basis that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Tier 1 capital is defined in Appendix A to this part or Appendix G to this part, as applicable.

Tier 2 capital is defined in Appendix A to this part or Appendix G to this part, as applicable.

Trading position means a position that is held by the bank holding company for the purpose of short-term resale or with the intent of benefiting from actual or expected short-term price movements, or to lock in arbitrage profits.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Underlying exposure means one or more exposures that have been securitized in a securitization transaction.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more positions could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Section 3. Requirements for Application of the Market Risk Capital Rule

(a) Trading positions. (1) Identification of trading positions. A bank holding company must have clearly defined policies and procedures for determining which of its trading assets and trading liabilities are trading positions and which of its trading positions are correlation trading positions. These policies and procedures must take into account:

This requirement is met where all transactions under the agreement are (1) executed under U.S. law and (ii) constitute “securities contracts” or “repurchase agreements” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4407), or the Federal Reserve Board’s Regulation EB (12 CFR part 211).
Federal Reserve System

(1) The extent to which a position, or a hedge of its material risks, can be marked-to-market daily by reference to a two-way market; and

(2) Possible impairments to the liquidity of a position or its hedge.

(2) Trading and hedging strategies. A bank holding company must have clearly defined trading and hedging strategies for its trading positions that are approved by senior management of the bank holding company.

(i) The trading strategy must articulate the expected holding period of, and the market risk associated with, each portfolio of trading positions.

(ii) The hedging strategy must articulate for each portfolio of trading positions the level of market risk the bank holding company is willing to accept and must detail the instruments, techniques, and strategies the bank holding company will use to hedge the risk of the portfolio.

(b) Management of covered positions. (1) Active management. A bank holding company must have clearly defined policies and procedures for actively managing all covered positions. At a minimum, these policies and procedures must require:

(i) Marking positions to market or to model on a daily basis;

(ii) Daily assessment of the bank holding company’s ability to hedge position and portfolio risks, and of the extent of market liquidity;

(iii) Establishment and daily monitoring of limits on positions by a risk control unit independent of the trading business unit;

(iv) Daily monitoring by senior management of information described in paragraphs (b)(1)(i) through (b)(1)(iii) of this section;

(v) At least annual reassessment of established limits on positions by senior management; and

(vi) At least annual assessments by qualified personnel of the quality of market inputs to the valuation process, the soundness of key assumptions, the reliability of parameter estimation in pricing models, and the stability and accuracy of model calibration under alternative market scenarios.

(2) Valuation of covered positions. The bank holding company must have a process for prudent valuation of its covered positions that includes policies and procedures on the valuation of positions, marking positions to market or to model, independent price verification, and valuation adjustments or reserves. The valuation process must consider, as appropriate, unearned credit spreads, close-out costs, early termination costs, investing and funding costs, liquidity, and model risk.

(c) Requirements for internal models. (1) A bank holding company must obtain the prior written approval of the Board or the appropriate Reserve Bank, with concurrence of the Board, before using any internal model to calculate its risk-based capital requirement under this appendix.

(2) A bank holding company must meet all of the requirements of this section on an ongoing basis. The bank holding company promptly notify the Board and the appropriate Reserve Bank when:

(i) The bank holding company plans to extend the use of a model that the Board or the appropriate Reserve Bank, with concurrence of the Board, has approved under this appendix to an additional business line or product type;

(ii) The bank holding company makes any change to an internal model approved by the Board or the appropriate Reserve Bank, with concurrence of the Board, under this appendix that would result in a material change in the bank holding company’s risk-weighted asset amount for a portfolio of covered positions; or

(iii) The bank holding company makes any material change to its modeling assumptions.

(3) The Board or the appropriate Reserve Bank, with concurrence of the Board, may rescind its approval of the use of any internal model (in whole or in part) or of the determination of the approach under section 9(a)(2)(ii) of this appendix for a bank holding company’s modeled correlation trading positions and determine an appropriate capital requirement for the covered positions to which the model would apply, if the Board or the appropriate Reserve Bank, with concurrence of the Board, determines that the model no longer complies with this appendix or fails to reflect accurately the risks of the bank holding company’s covered positions.

(d) Control, oversight, and validation mechanisms. (1) The bank holding company must have a risk control unit that reports directly to senior management and is independent from the business trading units.

(2) The bank holding company must validate its internal models initially and on an ongoing basis. The bank holding company’s validation process must be independent of the internal models’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the internal models;

(ii) An ongoing monitoring process that includes verification of processes and the comparison of the bank holding company’s model outputs with relevant internal and external data sources or estimation techniques; and

(iii) An outcomes analysis process that includes backtesting. For internal models used to calculate the VaR-based measure, this process must include a comparison of the changes in the bank holding company’s portfolio value that would have occurred were
end-of-day positions to remain unchanged (therefore, excluding fees, commissions, reserves, net interest income, and intraday trading) with VaR-based measures during a sample period not used in model development.

(3) The bank holding company must stress test the market risk of its covered positions at a frequency appropriate to each portfolio, and in no case less frequently than quarterly. The stress tests must take into account concentration risk (including but not limited to concentrations in single issuers, industries, sectors, or markets), illiquidity under stressed market conditions, and risks arising from the bank holding company’s trading activities that may not be adequately captured in its internal models.

(4) The bank holding company must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the bank holding company’s market risk measurement systems, including the activities of the business trading units and independent risk control unit, compliance with policies and procedures, and calculation of the bank holding company’s measures for market risk under this appendix. At least annually, the internal audit function must report its findings to the bank holding company’s board of directors (or a committee thereof).

(e) Internal assessment of capital adequacy. The bank holding company must have a rigorous process for assessing its overall capital adequacy in relation to its market risk. The assessment must take into account risks that may not be captured fully in the VaR-based measure, including concentration and liquidity risk under stressed market conditions.

(f) Documentation. The bank holding company must adequately document all material aspects of its internal models, management and valuation of covered positions, control, oversight, validation and review processes and results, and internal assessment of capital adequacy.

Section 4. Adjustments to the Risk-Based Capital Ratio Calculations

(a) Risk-based capital ratio denominators. A bank holding company must calculate its general risk-based capital ratio denominator by following the steps described in paragraphs (a)(1) through (a)(4) of this section. A bank holding company subject to Appendix G to this part must use its general risk-based capital ratio denominator for purposes of determining its total risk-based capital ratio and its tier 1 risk-based capital ratio under sections 3(a)(2)(ii) and section 3(a)(3)(ii), respectively, of Appendix G to this part.

(i) Adjusted risk-weighted assets. (i) The bank holding company must calculate:

(A) General adjusted risk-weighted assets, which equals risk-weighted assets as determined in accordance with Appendix A to this part with the adjustments in paragraphs (a)(1)(ii) and, if applicable, (a)(1)(iii) of this section; and

(B) For a bank holding company subject to Appendix G to this part, advanced adjusted risk-weighted assets, which equals risk-weighted assets as determined in accordance with Appendix G to this part with the adjustments in paragraph (a)(1)(ii) of this section.

(ii) For purposes of calculating its general adjusted risk-weighted assets under paragraph (a)(1)(i)(A) and (a)(1)(i)(B) of this section, respectively, the bank holding company must exclude the risk-weighted asset amounts of all covered positions (except foreign exchange positions that are not trading positions and over-the-counter derivative positions).

(iii) For purposes of calculating its general adjusted risk-weighted assets under paragraph (a)(1)(i)(A) of this section, a bank holding company may exclude receivables that arise from the posting of cash collateral and are associated with qualifying securities borrowing transactions to the extent the receivable is collateralized by the market value of the borrowed securities.

(2) Measure for market risk. The bank holding company must calculate the general measure for market risk (except, as provided in paragraph (a) of this section, that the bank holding company may not use the SFA in section 10(b)(2)(vii)(B) of this appendix for purposes of this calculation), which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for de minimis exposures all as defined under this paragraph (a)(2). A bank holding company subject to Appendix G to this part also must calculate the advanced measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for de minimis exposures as defined under this paragraph (a)(2).
Federal Reserve System
Pt. 225, App. E

(i) VARe-based capital requirement. A bank holding company’s VARe-based capital requirement equals the greater of:

(A) The previous day’s VARe-based measure as calculated under section 5 of this appendix; or

(B) The average of the daily VARe-based measures as calculated under section 5 of this appendix for each of the preceding 60 business days multiplied by three, except as provided in paragraph (b) of this section.

(ii) Stressed VARe-based capital requirement. A bank holding company’s stressed VARe-based capital requirement equals the greater of:

(A) The most recent stressed VARe-based measure as calculated under section 6 of this appendix; or

(B) The average of the stressed VARe-based measures as calculated under section 6 of this appendix for each of the preceding 12 weeks multiplied by three, except as provided in paragraph (b) of this section.

(iii) Specific risk add-ons. A bank holding company’s specific risk add-ons equal any specific risk add-ons that are required under section 7 of this appendix and are calculated in accordance with section 10 of this appendix.

(iv) Incremental risk capital requirement. A bank holding company’s incremental risk capital requirement equals any incremental risk capital requirement as calculated under section 8 of this appendix.

(v) Comprehensive risk capital requirement. A bank holding company’s comprehensive risk capital requirement equals any comprehensive risk capital requirement as calculated under section 9 of this appendix.

(vi) Capital requirement for de minimis exposures. A bank holding company’s capital requirement for de minimis exposures equals:

(A) The absolute value of the market value of those de minimis exposures that are not captured in the bank holding company’s VARe-based measure or under paragraph (a)(2)(vi)(B) of this section; and

(B) With the prior written approval of the Board or the appropriate Reserve Bank, with concurrence of the Board, the capital requirement for any de minimis exposures using alternative techniques that appropriately measure the market risk associated with those exposures.

(3) Market risk equivalent assets. The bank holding company must calculate general market risk equivalent assets as the general measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5. A bank holding company subject to Appendix G to this part also must calculate advanced market risk equivalent assets as the advanced measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5.

(4) Denominator calculation. (i) The bank holding company must add general market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to general adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank holding company’s general risk-based capital ratio denominator.

(ii) A bank holding company subject to Appendix G to this part must add advanced market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to advanced adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank holding company’s advanced risk-based capital ratio denominator.

(b) Backtesting. A bank holding company must compare each of its most recent 250 business days’ trading losses (excluding fees, commissions, reserves, net interest income, and intraday trading) with the corresponding daily VARe-based measures calibrated to a one-day holding period and at a one-tail, 99.0 percent confidence level. A bank holding company must begin backtesting as required by this paragraph no later than one year after the later of January 1, 2013 and the date on which the bank holding company becomes subject to this appendix. In the interim, consistent with safety and soundness principles, a bank holding company subject to this appendix as of its effective date should continue to follow backtesting procedures in accordance with the supervisory expectations of the Board or the appropriate Reserve Bank.

(1) Once each quarter, the bank holding company must identify the number of exceptions (that is, the number of business days for which the actual daily net trading loss, if any, exceeds the corresponding daily VARe-based measure) that have occurred over the preceding 250 business days.

(2) A bank holding company must use the multiplication factor in table 1 of this appendix that corresponds to the number of exceptions identified in paragraph (b)(1) of this section to determine its VARe-based capital requirement for market risk under paragraph (a)(2)(i) of this section and to determine its stressed VARe-based capital requirement for market risk under paragraph (a)(2)(ii) of this section until it obtains the next quarter’s backtesting results, unless the Board or the appropriate Reserve Bank, with the concurrence of the Board notifies the bank holding company in writing that a different adjustment or other action is appropriate.

TABLE 1—MULTIPLICATION FACTORS BASED ON RESULTS OF BACKTESTING
Section 5. VaR-Based Measure

(a) General requirement. A bank holding company must use one or more internal models to calculate daily a VaR-based measure of the general market risk of all covered positions. The daily VaR-based measure also may reflect the bank holding company’s specific risk for one or more portfolios of debt and equity positions, if the internal models meet the requirements of paragraph (b)(1) of section 7 of this appendix. The daily VaR-based measure must also reflect the bank holding company’s specific risk for any portfolio of correlation trading positions that is modeled under section 9 of this appendix. A bank holding company may elect to include term repo-style transactions in its VaR-based measure, provided that the bank holding company includes all such term repo-style transactions consistently over time.

(1) The bank holding company’s internal models for calculating its VaR-based measure must use risk factors sufficient to measure the market risk inherent in all covered positions. The market risk categories must include, as appropriate, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk. For material positions in the major currencies and markets, modeling techniques must incorporate enough segments of the yield curve—in no case less than six—to capture differences in volatility and less than perfect correlation of rates along the yield curve.

(2) The VaR-based measure may incorporate empirical correlations within and across risk categories, provided the bank holding company validates and demonstrates the reasonableness of its process for measuring correlations. If the VaR-based measure does not incorporate empirical correlations across risk categories, the bank holding company must add the separate measures from its internal models used to calculate the VaR-based measure for the appropriate market risk categories (interest rate risk, credit spread risk, equity price risk, foreign exchange rate risk, and/or commodity price risk) to determine its aggregate VaR-based measure.

(3) The VaR-based measure must include the risks arising from the nonlinear price characteristics of options positions or positions with embedded optionality and the sensitivity of the market value of the positions to changes in the volatility of the underlying rates, prices, or other material risk factors. A bank holding company with a large or complex options portfolio must measure the volatility of options positions or positions with embedded optionality by different maturities and/or strike prices, where material.

(b) Quantitative requirements for VaR-based measure. (1) The VaR-based measure must be calculated on a daily basis using a one-tail, 99.0 percent confidence level, and a holding period equivalent to a 10-business-day movement in underlying risk factors, such as rates, spreads, and prices. To calculate VaR-based measures using a 10-business-day holding period, the bank holding company may calculate 10-business-day measures directly or may convert VaR-based measures using holding periods other than 10 business days to the equivalent of a 10-business-day holding period. A bank holding company that converts its VaR-based measure in such a manner must be able to justify the reasonableness of its approach to the satisfaction of the Board or the appropriate Reserve Bank, with the concurrence of the Board.

(2) The VaR-based measure must be based on a historical observation period of at least one year. Data used to determine the VaR-based measure must be relevant to the bank holding company’s actual exposures and of sufficient quality to support the calculation of risk-based capital requirements. The bank holding company must update data sets at least monthly or more frequently as changes in market conditions or portfolio composition warrant. For a bank holding company that uses a weighting scheme or other method for the historical observation period, the bank holding company must either:

(i) Use an effective observation period of at least one year in which the average time lag of the observations is at least six months; or

(ii) Demonstrate to the Board or the appropriate Reserve Bank, with the concurrence of the Board that its weighting scheme is more effective than a weighting scheme with an average time lag of at least six months representing the volatility of the bank holding company’s trading portfolio over a full business cycle. A bank holding company using

</tbody>
</table>
this option must update its data more frequently than monthly and in a manner appropriate for the type of weighting scheme.

(c) A bank holding company must divide its portfolio into a number of significant subportfolios approved by the Board or the appropriate Reserve Bank, with concurrence of the Board, for subportfolio backtesting purposes. The subportfolios must be sufficient to allow the bank holding company and the Board or the appropriate Reserve Bank, with concurrence of the Board, to assess the adequacy of the VaR model at the risk factor level; the Board or the appropriate Reserve Bank, with concurrence of the Board, will evaluate the appropriateness of these subportfolios relative to the value and composition of the bank holding company’s covered positions. The bank holding company must retain and make available to the Board and the appropriate Reserve Bank the following information for each subportfolio for each business day over the previous two years (500 business days), with no more than a 60-day lag:

1. A daily VaR-based measure for the subportfolio calibrated to a one-tail, 99.0 percent confidence level;
2. The daily profit or loss for the subportfolio (that is, the net change in price of the positions held in the portfolio at the end of the previous business day); and
3. The p-value of the profit or loss on each day (that is, the probability of observing a profit that is less than, or a loss that is greater than, the amount reported for purposes of paragraph (c)(2) of this section based on the model used to calculate the VaR-based measure described in paragraph (c)(1) of this section).

Section 6. Stressed VaR-Based Measure

(a) General requirement. At least weekly, a bank holding company must use the same internal model(s) used to calculate its VaR-based measure to calculate a stressed VaR-based measure.

(b) Quantitative requirements for stressed VaR-based measure. (1) A bank holding company must calculate a stressed VaR-based measure for its covered positions using the same model(s) used to calculate the VaR-based measure, subject to the same confidence level and holding period applicable to the VaR-based measure under section 5 of this appendix, but with model inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the bank holding company’s current portfolio.

(2) The stressed VaR-based measure must be calculated at least weekly and be no less than the bank holding company’s VaR-based measure.

(3) A bank holding company must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the bank holding company’s stressed VaR-based measure under this section and must be able to provide empirical support for the period used. The bank holding company must obtain the prior approval of the Board or the appropriate Reserve Bank, with concurrence of the Board, for, and notify the Board and the appropriate Reserve Bank if the bank holding company makes any material changes to, these policies and procedures. The policies and procedures must address:

(i) How the bank holding company links the period of significant financial stress used to calculate the stressed VaR-based measure to the composition and directional bias of its current portfolio; and

(ii) The bank holding company’s process for selecting, reviewing, and updating the period of significant financial stress used to calculate the stressed VaR-based measure and for monitoring the appropriateness of the period to the bank holding company’s current portfolio.

(4) Nothing in this section prevents the Board or the appropriate Reserve Bank, with concurrence of the Board from requiring a bank holding company to use a different period of significant financial stress in the calculation of the stressed VaR-based measure.

Section 7. Specific Risk

(a) General requirement. A bank holding company must use one of the methods in this section to measure the specific risk for each of its debt, equity, and securitization positions with specific risk.

(b) Modeled specific risk. A bank holding company may use models to measure the specific risk of covered positions as provided in paragraph (a) of section 5 of this appendix (therefore, excluding securitization positions that are not modeled under section 9 of this appendix). A bank holding company must use models to measure the specific risk of correlation trading positions that are modeled under section 9 of this appendix.

(1) Requirements for specific risk modeling. (1) If a bank holding company uses internal models to measure the specific risk of a portfolio, the internal models must:

(A) Explain the historical price variation in the portfolio;
(B) Be responsive to changes in market conditions;
(C) Be robust to an adverse environment, including signaling rising risk in an adverse environment; and
(D) Capture all material components of specific risk for the debt and equity positions in the portfolio. Specifically, the internal models must:

(I) Capture event risk and idiosyncratic risk;
(II) Capture and demonstrate sensitivity to material differences between positions that
are similar but not identical and to changes in portfolio composition and concentrations. 

(ii) If a bank holding company calculates an incremental risk measure for a portfolio of debt or equity positions under section 8 of this appendix, the bank holding company is not required to capture default and credit migration risks in its internal models used to measure the specific risk of those portfolios.

(2) Specific risk fully modeled for one or more portfolios. If the bank holding company’s VaR-based measure captures all material aspects of specific risk for one or more of its portfolios of debt, equity, or correlation trading positions, the bank holding company has no specific risk add-on for those portfolios for purposes of paragraph (a)(2)(iii) of section 4 of this appendix.

(c) Specific risk not modeled.

(i) If the bank holding company’s VaR-based measure does not capture all material aspects of specific risk for a portfolio of debt, equity, or correlation trading positions, the bank holding company must calculate a specific-risk add-on for the portfolio under the standardized measurement method as described in section 10 of this appendix.

(ii) A bank holding company must calculate a specific risk add-on under the standardized measurement method as described in section 10 of this appendix for all of its securitization positions that are not modeled under section 9 of this appendix.

Section 8. Incremental Risk

(a) General requirement. A bank holding company that measures the specific risk of a portfolio of debt positions under section 7(b) of this appendix using internal models must calculate at least weekly an incremental risk measure for that portfolio according to the requirements in this section. The incremental risk measure is the bank holding company’s measure of potential losses due to incremental risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(i) Measure incremental risk over a one-year time horizon and at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(ii) A constant position assumption means that the bank holding company rebalances, or rolls over, its trading positions at the beginning of each liquidity horizon over the one-year horizon in a manner that maintains the bank holding company’s initial risk level. The bank holding company must determine the frequency of rebalancing in a manner consistent with the liquidity horizons of the positions in the portfolio. The liquidity horizon for a position or set of positions is the time required for a bank holding company to reduce its exposure to, or hedge all of its material risks of, the position(s) in a stressed market. The liquidity horizon for a position or set of positions may not be less than the shorter of three months or the contractual maturity of the position.

(iii) A bank holding company’s selection of a constant position or a constant risk assumption must be consistent between the bank holding company’s incremental risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(iv) A bank holding company’s treatment of liquidity horizons must be consistent between the bank holding company’s incremental risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(2) Recognize the impact of correlations between default and migration events among obligors.

(3) Reflect the effect of issuer and market concentrations, as well as concentrations that can arise within and across product classes during stressed conditions.

(4) Reflect netting only of long and short positions that reference the same financial instrument.

(5) Reflect any material mismatch between a position and its hedge.

(6) Recognize the effect that liquidity horizons have on dynamic hedging strategies. In such cases, a bank holding company must:

(i) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(ii) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;
Federal Reserve System

Section 9. Comprehensive Risk

(a) General requirement. (1) Subject to the prior approval of the Board or the appropriate Reserve Bank, with concurrence of the Board, a bank holding company may use the method in this section to measure comprehensive risk, that is, all price risk, for one or more portfolios of correlation trading positions.

(2) A bank holding company that measures the price risk of a portfolio of correlation trading positions using internal models must calculate at least weekly a comprehensive risk measure that captures all price risk according to the requirements of this section. The comprehensive risk measure is either:

(i) The sum of:

(A) The bank holding company’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; and

(B) A surcharge for the bank holding company’s modeled correlation trading positions equal to the total specific risk add-on for such positions as calculated under section 10 of this appendix multiplied by 8.0 percent; or

(ii) With approval of the Board or the appropriate Reserve Bank, with concurrence of the Board and provided the bank holding company has met the requirements of this section for a period of at least one year and can demonstrate the effectiveness of the model through the results of ongoing model validation efforts including robust benchmarking, the greater of:

(A) The bank holding company’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; or

(B) The total specific risk add-on that would apply to the bank’s modeled correlation trading positions as calculated under section 10 of this appendix multiplied by 8.0 percent.

(b) Requirements for modeling all price risk. If a bank holding company uses an internal model to measure the price risk of a portfolio of correlation trading positions:

(1) The internal model must measure comprehensive risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(2) The model must capture all material price risk, including but not limited to the following:

(i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures;

(ii) Credit spread risk, including nonlinear price risks;

(iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations;

(iv) Basis risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a bank holding company must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies;

(3) The bank holding company must use market data that are relevant in representing the risk profile of the bank holding company’s correlation trading positions in order to ensure that the bank holding company fully captures the material risks of the correlation trading positions in its comprehensive risk measure in accordance with this section; and

(4) The bank holding company must be able to demonstrate that its model is an appropriate representation of comprehensive risk in light of the historical price variation of its correlation trading positions.

(c) Requirements for stress testing.

(1) A bank holding company must at least weekly apply specific, supervisory stress scenarios to its portfolio of correlation trading positions that capture changes in:

(i) Default rates;

(ii) Recovery rates;

(iii) Credit spreads;

(iv) Credit spread risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a bank holding company must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies;

(2) The model must capture all material price risk, including but not limited to the following:

(i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures;

(ii) Credit spread risk, including nonlinear price risks;

(iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations;

(iv) Basis risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a bank holding company must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;
(iv) Correlations of underlying exposures; and

(v) Correlations of a correlation trading position and its hedge.

(2) Other requirements. (i) A bank holding company must retain and make available to the Board or the appropriate Reserve Bank, with concurrence of the Board the results of the supervisory stress testing, including comparisons with the capital requirements generated by the bank holding company’s comprehensive risk model.

(ii) A bank holding company must report to the Board or the appropriate Reserve Bank, with concurrence of the Board promptly any instances where the stress tests indicate any material deficiencies in the comprehensive risk model.

(d) Calculation of comprehensive risk capital requirement. The comprehensive risk capital requirement is the greater of:

(1) The average of the comprehensive risk measures over the previous 12 weeks; or

(2) The most recent comprehensive risk measure.

Section 10. Standardized Measurement Method for Specific Risk

(a) General requirement. A bank holding company must calculate a total specific risk add-on for each portfolio of debt and equity positions for which the bank holding company’s VaR-based measure does not capture all material aspects of specific risk and for all securitization positions that are not modeled under section 9 of this appendix. A bank holding company must calculate each specific risk add-on in accordance with the requirements of this section. Notwithstanding any other definition or requirement in this appendix, a position that would have qualified as a debt position or an equity position but for the fact that it qualifies as a correlation trading position under paragraph (2) of the definition of correlation trading position, shall be considered a debt position or an equity position, respectively, for purposes of this section 10.

(i) The specific risk add-on for an individual debt or securitization position that represents sold credit protection is capped at the notional amount of the credit derivative contract. The specific risk add-on for an individual debt or securitization position that represents purchased credit protection is capped at the current market value of the transaction plus the absolute value of the present value of all remaining payments to the protection seller under the transaction. This sum is equal to the value of the protection leg of the transaction.

(ii) For debt, equity, or securitization positions that are derivatives with linear payoffs, a bank holding company must assign a specific weight to the market value of the effective notional amount of the underlying instrument or index portfolio, except for a securitization position for which the bank holding company directly calculates a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section. A swap must be included as an effective notional position in the underlying instrument or portfolio, with the receiving side treated as a long position and the paying side treated as a short position. For debt, equity, or securitization positions that are derivatives with nonlinear payoffs, a bank holding company must risk weight the market value of the effective notional amount of the underlying instrument or portfolio multiplied by the derivative’s delta.

(3) For debt, equity, or securitization positions, a bank holding company may net long and short positions (including derivatives) in identical issues or identical indices. A bank holding company may also net positions in depositary receipts against an opposite position in an identical equity in different markets, provided that the bank holding company includes the costs of conversion.

(4) A set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge has a specific risk add-on of zero if:

(i) The debt or securitization position is fully hedged by a total return swap (or similar instrument where there is a matching of swap payments and changes in market value of the debt or securitization position);

(ii) There is an exact match between the reference obligation of the swap and the debt or securitization position;

(iii) There is an exact match between the currency of the swap and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the swap and the maturity date of the debt or securitization position; or, in cases where a total return swap references a portfolio of positions with different maturity dates, the total return swap maturity date must match the maturity date of the underlying asset in that portfolio that has the latest maturity date.

(5) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of paragraph (a)(4) of this section is equal to 20.0 percent of the capital requirement for the side of the transaction with the higher specific risk add-on when:

(i) The credit risk of the position is fully hedged by a credit default swap or similar instrument;

(ii) There is an exact match between the reference obligation of the credit derivative hedge and the debt or securitization position;
(iii) There is an exact match between the currency of the credit derivative hedge and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the credit derivative hedge and the maturity date of the debt or securitization position; or, in the case where the credit derivative hedge has a standard maturity date:

(A) The maturity date of the credit derivative hedge is within 30 business days of the maturity date of the debt or securitization position; or

(B) For purchased credit protection, the maturity date of the credit derivative hedge is later than the maturity date of the debt or securitization position, but is no later than the standard maturity date for that instrument that immediately follows the maturity date of the debt or securitization position. The maturity date of the credit derivative hedge may not exceed the maturity date of the debt or securitization position by more than 90 calendar days.

(6) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of either paragraph (a)(4) or (a)(5) of this section, but in which all or substantially all of the price risk has been hedged, is equal to the specific risk add-on for the side of the transaction with the higher specific risk add-on.

(b) Debt and securitization positions. (1) The total specific risk add-on for a portfolio of debt or securitization positions is the sum of the specific risk add-ones for individual debt or securitization positions, as computed under this section. To determine the specific risk add-on for individual debt or securitization positions, a bank holding company must multiply the absolute value of the current market value of each net long or net short debt or securitization position in the portfolio by the appropriate specific risk-weighting factor as set forth in paragraphs (b)(2)(i) through (b)(2)(vii) of this section.

(2) For the purpose of this section, the appropriate specific risk-weighting factors include:

(i) Sovereign debt positions. (A) In general. A bank holding company must assign a specific risk-weighting factor to a sovereign debt position based on the CRC applicable to the sovereign entity and, as applicable, the remaining contractual maturity of the position, in accordance with table 2. Sovereign debt positions that are backed by the full faith and credit of the United States are treated as having a CRC of 0.

</table>

(B) Notwithstanding paragraph (b)(2)(i)(A) of this section, a bank holding company may assign to a sovereign debt position a specific risk-weighting factor that is lower than the applicable specific risk-weighting factor in table 2 if:

(1) The position is denominated in the sovereign entity’s currency;

(2) The bank holding company has at least an equivalent amount of liabilities in that currency; and
(i) The sovereign entity allows banks under its jurisdiction to assign the lower specific risk-weighting factor to the same exposures to the sovereign entity.

(C) A bank holding company must assign a 12.0 percent specific risk-weighting factor to a sovereign debt position immediately upon determination that a default has occurred; or if a default has occurred within the previous five years.

(D) A bank holding company must assign an 8.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign entity does not have a CRC assigned to it, unless the sovereign debt position must be assigned a higher specific risk-weighting factor under paragraph (b)(2)(i)(C) of this section.

(ii) Certain supranational entity and multilateral development bank debt positions. A bank holding company may assign a 0.0 percent specific risk-weighting factor to a debt position that is an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(iii) GSE debt positions. A bank holding company must assign a 1.6 percent specific risk-weighting factor to a debt position that is an exposure to a GSE. Notwithstanding the foregoing, a bank holding company must assign an 8.0 percent specific risk-weighting factor to preferred stock issued by a GSE.

(iv) Depository institution, foreign bank, and credit union debt positions. (A) Except as provided in paragraph (b)(2)(iv)(B) of this section, a bank holding company must assign a specific risk-weighting factor to a debt position that is an exposure to a depository institution, a foreign bank, or a credit union using the specific risk-weighting factor that corresponds to that entity’s sovereign of incorporation and, as applicable, the remaining contractual maturity of the position, in accordance with table 3.

(B) A bank holding company must assign a specific risk-weighting factor of 8.0 percent to a debt position that is an exposure to a depository institution or a foreign bank that is includable in the depository institution’s or foreign bank’s regulatory capital and that is not subject to deduction as a reciprocal holding under the general risk-based capital rules.

(C) A bank holding company must assign a 12.0 percent specific risk-weighting factor to a debt position that is an exposure to a foreign bank immediately upon determination that a default by the foreign bank’s sovereign of incorporation has occurred or if a default by the foreign bank’s sovereign of incorporation has occurred within the previous five years.

(v) PSE debt positions. (A) Except as provided in paragraph (b)(2)(v)(B) of this section, a bank holding company must assign a specific risk-weighting factor to a debt position that is an exposure to a PSE based on the specific risk-weighting factor that corresponds to the PSE’s sovereign of incorporation and to the position’s categorization as a general obligation or revenue obligation and, as applicable, the remaining contractual maturity of the position, as set forth in tables 4 and 5.
Federal Reserve System

Pt. 225, App. E

(B) A bank holding company may assign a lower specific risk-weighting factor than would otherwise apply under tables 4 and 5 to a debt position that is an exposure to a foreign PSE if:
(1) The PSE’s sovereign of incorporation allows banks under its jurisdiction to assign a lower specific risk-weighting factor to such position; and
(2) The specific risk-weighting factor is not lower than the risk weight that corresponds to the PSE’s sovereign of incorporation in accordance with tables 4 and 5.

(C) A bank holding company must assign a 12.0 percent specific risk-weighting factor to a PSE debt position immediately upon determination that a default by the PSE’s sovereign of incorporation has occurred or if a default by the PSE’s sovereign of incorporation has occurred within the previous five years.

Corporate debt positions. Except as otherwise provided in paragraph (b)(2)(vi)(B), a bank holding company must assign a specific risk-weighting factor to a corporate debt position in accordance with the investment grade methodology in paragraph (b)(2)(vi)(A) of this section.

(A) Investment grade methodology. (1) For corporate debt positions that are exposures to entities that have issued and outstanding publicly traded instruments, a bank holding company must assign a specific risk-weighting factor based on the category and remaining contractual maturity of the position, in accordance with table 6. For purposes of this paragraph (A), the bank holding company must determine whether the position is in the investment grade or not investment grade category.

**TABLE 6—SPECIFIC RISK-WEIGHTING FACTORS FOR CORPORATE DEBT POSITIONS UNDER THE INVESTMENT GRADE METHODOLOGY**

</tbody>
</table>

(2) A bank holding company must assign a 8.0 percent specific risk-weighting factor for corporate debt positions that are exposures to entities that do not have publicly traded instruments outstanding.

(B) Limitations. (1) A bank holding company that uses the advanced capital adequacy framework must assign a specific risk-weighting factor of at least 8.0 percent to an interest-only mortgage-backed security that is not a securitization position.

(2) A bank holding company that uses the advanced capital adequacy framework shall not assign a corporate debt position a specific risk-weighting factor that is lower than the specific risk-weighting factor that corresponds to the CRC of the issuer’s sovereign of incorporation in table 1.

(vii) Securitization positions. (A) General requirements. (1) A bank holding company that does not use the advanced capital adequacy framework must assign a specific risk-weighting factor to a securitization position using either the simplified supervisory formula approach (SSFA) in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(2) A bank holding company that uses the advanced capital adequacy framework must calculate a specific risk add-on for a securitization position using the SSFA in section 45 of Appendix G to this part and in accordance with paragraph (b)(2)(vii)(B) of this section if the bank holding company and the securitization position each qualifies to use the SSFA under the advanced capital adequacy framework. A bank holding company that uses the advanced capital adequacy framework and that has a securitization position that does not qualify for the SSFA may assign a specific risk-weighting factor to the securitization position using the SSFA in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(3) A bank holding company must treat a short securitization position as if it is a long securitization position solely for calculation purposes when using the SSFA in paragraph (b)(2)(vii)(A) or the SSFA in section 11 of this appendix.

(B) SFA. To calculate the specific risk add-on for a securitization position using the SFA, a bank holding company that is subject to Appendix G to this part must set the specific risk add-on for the position equal to the risk-based capital requirement, calculated under section 45 of Appendix G to this part.

(C) SSFA. To use the SSFA to determine the specific risk-weighting factor for a securitization position, a bank holding company must calculate the specific risk-weighting factor in accordance with section 11 of this appendix.

(D) Nth-to-default credit derivatives. A bank holding company must determine a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B), or assign a specific risk-weighting factor using the SSFA in section 11 of this appendix to an nth-to-default credit derivative in accordance with this paragraph (D), irrespective of whether the bank holding company is a net protection buyer or net protection seller. A bank holding company must determine its position in the nth-to-default credit derivative as the largest notional dollar amount of all the underlying exposures.

(1) For purposes of determining the specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) or the specific risk-weighting factor for an nth-to-default credit derivative
using the SSFA in section 11 of this appendix, the bank holding company must calculate the attachment point and detachment point of its position as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the bank holding company’s position to the total notional amount of all underlying exposures. For purposes of using the SFA to calculate the specific add-on for its position in an nth-to-default credit derivative, parameter A must be set equal to the credit enhancement level \((L)\) input to the SFA formula. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the bank holding company’s position. In the case of a second-or-subsequent-to-default credit derivative, the smallest \((n-1)\) notional amounts of the underlying exposure(s) are subordinated to the bank holding company’s position.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the bank holding company’s position in the nth-to-default credit derivative to the total notional amount of all underlying exposures. For purposes of using the SFA to calculate the specific risk add-on for its position in an nth-to-default credit derivative, parameter D must be set equal to \(L\) plus the *thickness of tranche* \((T)\) input to the SFA formula.

(2) A bank holding company that does not use the SFA to determine a specific risk-add on, or the SSFA to determine a specific risk-weighting factor for its position in an nth-to-default credit derivative must assign a specific risk-weighting factor of 100 percent to the position.

(c) Modeled correlation trading positions. For purposes of calculating the comprehensive risk measure for modeled correlation trading positions under either paragraph (a)(2)(i) or (a)(2)(ii) of section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank holding company’s specific risk add-ons for each net long correlation trading position calculated under this section; or

(2) The sum of the bank holding company’s specific risk add-ons for each net short correlation trading position calculated under this section.

(d) Non-modeled securitization positions. For securitization positions that are not correlation trading positions and for securitizations that are correlation trading positions not modeled under section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank holding company’s specific risk add-ons for each net long securitization position calculated under this section; or

(2) The sum of the bank holding company’s specific risk add-ons for each net short securitization position calculated under this section.

(e) Equity positions. The total specific risk add-on for a portfolio of equity positions is the sum of the specific risk add-ons of the individual equity positions, as computed under this section. To determine the specific risk add-on of individual equity positions, a bank holding company must multiply the absolute value of the current market value of each net long or net short equity position by the appropriate specific risk-weighting factor as determined under this paragraph:

(1) The bank holding company must multiply the absolute value of the current market value of each net long or net short equity position by a specific risk-weighting factor of 8.0 percent. For equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the absolute value of the current market value of each net long or net short position is multiplied by a specific risk-weighting factor of 2.0 percent.46

(2) For equity positions arising from the following futures-related arbitrage strategies, a bank holding company may apply a 2.0 percent specific risk-weighting factor to one side (long or short) of each position with the opposite side exempt from an additional capital requirement:

(i) Long and short positions in exactly the same index at different dates or in different market centers; or

(ii) Long and short positions in index contracts at the same date in different, but similar indices.

(3) For futures contracts on main indices that are matched by offsetting positions in a basket of stocks comprising the index, a bank holding company may apply a 2.0 percent specific risk-weighting factor to the futures and stock basket positions (long and short), provided that such trades are deliberately entered into and separately controlled, and that the basket of stocks is comprised of stocks representing at least 90.0 percent of the capitalization of the index. A main index refers to the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the bank holding company can demonstrate to the satisfaction of the Board or the appropriate Reserve Bank, with concurrence of the Board that the equities represented in the index have liquidity, depth of market, and size of bid-ask spreads comparable to equities in the Standard & Poor’s 500 Index and FTSE All-World Index.

---

46 A portfolio is well-diversified if it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio’s total market value.
(f) Due diligence requirements. (1) A bank holding company must demonstrate to the satisfaction of the Board or the appropriate Reserve Bank, with concurrence of the Board a comprehensive understanding of the features of a securitization position that would materially affect the performance of the position by conducting and documenting the analysis set forth in paragraph (f)(2) of this section. The bank holding company’s analysis must be commensurate with the complexity of the securitization position and the materiality of the position in relation to capital.

(2) To support the demonstration of its comprehensive understanding of the characteristics of a securitization position prior to acquiring the position and document such analysis within three business days after acquiring the position, considering:

(A) Structural features of the securitization that would materially impact the performance of the position, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, market value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposures, for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposures;

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For securitization positions, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an ongoing basis (no less frequently than quarterly), evaluate, review, and update as appropriate the analysis required under paragraph (f)(1) of this section for each securitization position.

Section 11. Simplified Supervisory Formula Approach

(a) General requirements. To use the SSFA to determine the specific risk-weighting factor for a securitization position, a bank holding company must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data to assign the parameters described and defined, for purposes of this section, in paragraph (b) of this section must assign a specific risk-weighting factor of 100 percent to the position.

(b) SSFA parameters. To calculate the specific risk-weighting factor for a securitization position using the SSFA, a bank holding company must have accurate information on the five inputs to the SSFA calculation described in paragraphs (b)(1) through (b)(5) of this section:

(1) \( K_p \) is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using the [general risk-based capital rule]. \( K_p \) is expressed as a decimal value between zero and 1 (that is, an average risk weight of 100 percent represents a value of \( K_p \) equal to .80).

(2) Parameter \( W \) is expressed as a decimal value between zero and one. Parameter \( W \) is the ratio of the sum of the dollar amounts of any underlying exposures within the securitized pool that meet any of the criteria as set forth in paragraphs (i) through (vi) of this paragraph (b)(2) to the ending balance, measured in dollars, of underlying exposures:

(i) Ninety days or more past due;

(ii) Subject to a bankruptcy or insolvency proceeding;

(iii) In the process of foreclosure;

(iv) Held as real estate owned;

(v) Has contractually deferred interest payments for 90 days or more; or

(vi) Is in default.

(3) Parameter \( A \) is the attachment point for the position, which represents the threshold at which credit losses will first be allocated to the position. Parameter \( A \) equals the ratio of the current dollar amount of underlying exposures that are subordinated to the position of the bank holding company to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the position that contains the bank holding company’s securitization exposure may be included in the calculation of parameter \( A \) to the extent that cash is present in the account. Parameter \( A \) is expressed as a decimal value between zero and one.

(4) Parameter \( D \) is the detachment point for the position, which represents the threshold at which credit losses of principal allocated to the position would result in a total loss of principal. Parameter \( D \) equals parameter \( A \) plus the ratio of the current dollar amount of the securitization positions that
are pari passu with the position (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p, is equal to 0.5 for securitization positions that are not resecuritization positions and equal to 1.5 for resecuritization positions.

(c) Mechanics of the SSFA. $K_G$ and $W$ are used to calculate $K_A$, the augmented value of $K_G$, which reflects the observed credit quality of the underlying pool of exposures. $K_A$ is defined in paragraph (d) of this section. The values of parameters $A$ and $D$, relative to $K_A$ determine the specific risk-weighting factor assigned to a position as described in this paragraph and paragraph (d) of this section. The specific risk-weighting factor assigned to a securitization position, or portion of a position, as appropriate, is the larger of the specific risk-weighting factor determined in accordance with this paragraph and paragraph (d) of this section and a specific risk-weighting factor of 1.6 percent.

(1) When the detachment point, parameter $D$, for a securitization position is less than or equal to $K_A$, the position must be assigned a specific risk-weighting factor of 100 percent.

(2) When the attachment point, parameter $A$, for a securitization position is greater than or equal to $K_A$, the bank holding company must calculate the specific risk-weighting factor in accordance with paragraph (d) of this section.

(3) When $A$ is less than $K_A$ and $D$ is greater than $K_A$, the specific risk-weighting factor is a weighted-average of 1.00 and $K_{SSFA}$ calculated in accordance with paragraph (d) of this section, but with the parameter $A$ revised to be set equal to $K_A$. For the purpose of this weighted-average calculation:
(a) Scope. A bank holding company must comply with this section unless it is a consolidated subsidiary of a bank holding company or a depository institution that is subject to these requirements or of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. A bank holding company must make quantitative disclosures publicly each calendar quarter. If a significant change occurs, such that the most recent reporting amounts are no longer reflective of the bank holding company’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter may be disclosed annually, provided any significant changes are disclosed in the interim. If a bank holding company believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public certain information that is either proprietary or confidential in nature, the bank holding company is not required to disclose these specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

(b) Disclosure policy. The bank holding company must have a formal disclosure policy.
approved by the board of directors that addresses the bank holding company’s approach for determining its market risk disclosures. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management must ensure that appropriate verification of the disclosures takes place and that effective internal controls and disclosure controls and procedures are maintained. One or more senior officers of the bank holding company must attest that the disclosures meet the requirements of this appendix, and the board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this section.

(c) Quantitative disclosures.

(1) For each material portfolio of covered positions, the bank holding company must disclose publicly the following information at least quarterly:

(i) The high, low, and mean VaR-based measures over the reporting period and the VaR-based measure at period-end;

(ii) The high, low, and mean stressed VaR-based measures over the reporting period and the stressed VaR-based measure at period-end;

(iii) The high, low, and mean incremental risk capital requirements over the reporting period and the incremental risk capital requirement at period-end;

(iv) The high, low, and mean comprehensive risk capital requirements over the reporting period and the comprehensive risk capital requirement at period-end, with the period-end requirement broken down into appropriate risk classifications (for example, default risk, migration risk, correlation risk);

(v) Separate measures for interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk used to calculate the VaR-based measure; and

(vi) A comparison of VaR-based estimates with actual gains or losses experienced by the bank holding company, with an analysis of important outliers.

(2) In addition, the bank holding company must disclose publicly the following information at least quarterly:

(i) The aggregate amount of on-balance sheet and off-balance sheet securitization positions by exposure type; and

(ii) The aggregate amount of correlation trading positions.

(d) Qualitative disclosures. For each material portfolio of covered positions, the bank holding company must disclose publicly the following information at least annually, or more frequently in the event of material changes for each portfolio:

(1) The composition of material portfolios of covered positions;

(2) The bank holding company’s valuation policies, procedures, and methodologies for covered positions, including, for securitization positions, the methods and key assumptions used for valuing such positions, any significant changes since the last reporting period, and the impact of such change;

(3) The characteristics of the internal models used for purposes of this appendix. For the incremental risk capital requirement and the comprehensive risk capital requirement, this must include:

(i) The approach used by the bank holding company to determine liquidity horizons;

(ii) The methodologies used to achieve a capital assessment that is consistent with the required soundness standard; and

(iii) The specific approaches used in the validation of these models;

(4) A description of the approaches used for validating and evaluating the accuracy of internal models and modeling processes for purposes of this appendix;

(5) For each market risk category (that is, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk), a description of the stress tests applied to the positions subject to the factor;

(6) The results of the comparison of the bank holding company’s internal estimates for purposes of this appendix with actual outcomes during a sample period not used in model development;

(7) The soundness standard on which the bank holding company’s internal capital adequacy assessment under this appendix is based, including a description of the methodologies used to achieve a capital adequacy assessment that is consistent with the soundness standard;

(8) A description of the bank holding company’s processes for monitoring changes in the credit and market risk of securitization positions, including how those processes differ for resecuritization positions; and

(9) A description of the bank holding company’s policy governing the use of credit risk mitigation to mitigate the risks of securitization and resecuritization positions.
These Interagency Guidelines Establishing Information Security Standards (Guidelines) set forth standards pursuant to sections 501 and 39 of the Gramm-Leach-Bliley Act (15 U.S.C. 6801 and 6805). These Guidelines address standards for developing and implementing administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of customer information.

A. Scope. The Guidelines apply to customer information maintained by or on behalf of bank holding companies and their nonbank subsidiaries or affiliates (except brokers, dealers, persons providing insurance, investment companies, and investment advisors), for which the Board has supervisory authority.

B. Preservation of Existing Authority. These Guidelines do not in any way limit the authority of the Board to address unsafe or unsound practices, violations of law, unsafe or unsound conditions, or other practices. The Board may take action under these Guidelines independently of, in conjunction with, or in addition to, any other enforcement action available to the Board.

C. Definitions. 1. Except as modified in the Guidelines, or unless the context otherwise requires, the terms used in these Guidelines have the same meanings as set forth in sections 3 and 39 of the Federal Deposit Insurance Act (12 U.S.C. 1813 and 1831p–1).

2. For purposes of the Guidelines, the following definitions apply:

   a. Board of directors, in the case of a branch or agency of a foreign bank, means the managing official in charge of the branch or agency.

   b. Customer means any customer of the bank holding company as defined in §216.3(h) of this chapter.

   c. Customer information means any record containing nonpublic personal information, as defined in §216.3(n) of this chapter, about a customer, whether in paper, electronic, or other form, that is maintained by or on behalf of the bank holding company.

   d. Customer information systems means any methods used to access, collect, store, use, transmit, protect, or dispose of customer information.

   e. Service provider means any person or entity that maintains, processes, or otherwise

   is permitted access to customer information through its provision of services directly to the bank holding company.

   f. Subsidiary means any company controlled by a bank holding company, except a broker, dealer, person providing insurance, investment company, investment advisor, insured depository institution, or subsidiary of an insured depository institution.

II. STANDARDS FOR SAFEGUARDING CUSTOMER INFORMATION

A. Information Security Program. Each bank holding company shall implement a comprehensive written information security program that includes administrative, technical, and physical safeguards appropriate to the size and complexity of the bank holding company and the nature and scope of its activities. While all parts of the bank holding company are not required to implement a uniform set of policies, all elements of the information security program must be coordinated. A bank holding company also shall ensure that each of its subsidiaries is subject to a comprehensive information security program. The bank holding company may fulfill this requirement either by including a subsidiary within the scope of the bank holding company’s comprehensive information security program or by causing the subsidiary to implement a separate comprehensive information security program in accordance with the standards and procedures in sections II and III of this appendix that apply to bank holding companies.

B. Objectives. A bank holding company’s information security program shall be designed to:

1. Ensure the security and confidentiality of customer information;

2. Protect against any anticipated threats or hazards to the security or integrity of such information; and

3. Protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer.

III. DEVELOPMENT AND IMPLEMENTATION OF INFORMATION SECURITY PROGRAM

A. Invite the Board of Directors. The board of directors or an appropriate committee of the board of each bank holding company shall:

1. Approve the bank holding company’s written information security program; and

2. Oversee the development, implementation, and maintenance of the bank holding company’s information security program, including assigning specific responsibility for its implementation and reviewing reports from management.

B. Assess Risk. Each bank holding company shall:
Federal Reserve System

1. Identify reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or destruction of customer information or customer information systems.

2. Assess the likelihood and potential damage of these threats, taking into consideration the sensitivity of customer information.

3. Assess the sufficiency of policies, procedures, customer information systems, and other arrangements in place to control risks.

C. Manage and Control Risk. Each bank holding company shall:

1. Design its information security program to control the identified risks, commensurate with the sensitivity of the information as well as the complexity and scope of the bank holding company’s activities. Each bank holding company must consider whether the following security measures are appropriate for the bank holding company and, if so, adopt those measures the bank holding company concludes are appropriate:
   a. Access controls on customer information systems, including controls to authenticate and permit access only to authorized individuals and controls to prevent employees from providing customer information to unauthorized individuals who may seek to obtain this information through fraudulent means.
   b. Access restrictions at physical locations containing customer information, such as buildings, computer facilities, and records storage facilities to permit access only to authorized individuals;
   c. Encryption of electronic customer information, including while in transit or in storage on networks or systems to which unauthorized individuals may have access;
   d. Procedures designed to ensure that customer information system modifications are consistent with the bank holding company’s information security program;
   e. Dual control procedures, segregation of duties, and employee background checks for employees with responsibilities for or access to customer information;
   f. Monitoring systems and procedures to detect actual and attempted attacks on or intrusions into customer information systems;
   g. Response programs that specify actions to be taken when the bank holding company suspects or detects that unauthorized individuals have gained access to customer information systems, including appropriate reports to regulatory and law enforcement agencies; and
   h. Measures to protect against destruction, loss, or damage of customer information due to potential environmental hazards, such as fire and water damage or technological failures.

2. Train staff to implement the bank holding company’s information security program.

3. Regularly test the key controls, systems and procedures of the information security program. The frequency and nature of such tests should be determined by the bank holding company’s risk assessment. Tests should be conducted or reviewed by independent third parties or staff independent of those that develop or maintain the security programs.

D. Oversee Service Provider Arrangements. Each bank holding company shall:

1. Exercise appropriate due diligence in selecting its service providers;

2. Require its service providers by contract to implement appropriate measures designed to meet the objectives of these Guidelines; and

3. Where indicated by the bank holding company’s risk assessment, monitor its service providers to confirm that they have satisfied their obligations as required by paragraph D.2. As part of this monitoring, a bank holding company should review audits, summaries of test results, or other equivalent evaluations of its service providers.

E. Adjust the Program. Each bank holding company shall monitor, evaluate, and adjust, as appropriate, the information security program in light of any relevant changes in technology, the sensitivity of its customer information, internal or external threats to information, and the bank holding company’s own changing business arrangements, such as mergers and acquisitions, alliances and joint ventures, outsourcing arrangements, and changes to customer information systems.

F. Report to the Board. Each bank holding company shall report to its board or an appropriate committee of the board at least annually. This report should describe the overall status of the information security program and the bank holding company’s compliance with these Guidelines. The reports should discuss material matters related to its program, addressing issues such as: risk assessment; risk management and control decisions; service provider arrangements; results of testing; security breaches or violations and management’s responses; and recommendations for changes in the information security program.

G. Implement the Standards.

1. Effective date. Each bank holding company must implement an information security program pursuant to these Guidelines by July 1, 2001.

2. Two-year grandfathering of agreements with service providers. Until July 1, 2003, a contract that a bank holding company has entered into with a service provider to perform services for it or functions on its behalf satisfies the provisions of section III.D., even
if the contract does not include a requirement that the servicer maintain the security and confidentiality of customer information, as long as the bank holding company entered into the contract on or before March 5, 2001.

SUPPLEMENT A TO APPENDIX F TO PART 225—
INTERAGENCY GUIDANCE ON RESPONSE PROGRAMS FOR UNAUTHORIZED ACCESS TO CUS-
TOMER INFORMATION AND CUSTOMER NO-
TICE

I. BACKGROUND
This Guidance interprets section 501(b) of the Gramm-Leach-Bliley Act ("GLBA") and the Interagency Guidelines Establishing Information Security Standards (the "Security Guidelines") and describes response programs, including customer notification procedures, that a financial institution should develop and implement to address unauthorized access to or use of customer information that could result in substantial harm or inconvenience to a customer. The scope of, and definitions of terms used in, this Guidance are identical to those of the Security Guidelines. For example, the term "customer information" is the same term used in the Security Guidelines, and means any record containing nonpublic personal information about a customer, whether in paper, electronic, or other form, maintained by or on behalf of the institution.

A. Interagency Security Guidelines
Section 501(b) of the GLBA required the Agencies to establish appropriate standards for financial institutions subject to their jurisdiction that include administrative, technical, and physical safeguards, to protect the security and confidentiality of customer information. Accordingly, the Agencies issued Security Guidelines requiring every financial institution to have an information security program designed to:

1. Ensure the security and confidentiality of customer information;

2. Protect against any anticipated threats or hazards to the security or integrity of such information; and

3. Protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer.

B. Risk Assessment and Controls
1. The Security Guidelines direct every financial institution to assess the following risks, among others, when developing its information security program:

a. Reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or de-
struction of customer information or cus-
tomer information systems;

b. The likelihood and potential damage of threats, taking into consideration the sensi-
tivity of customer information; and

c. The sufficiency of policies, procedures, customer information systems, and other ar-
rangements in place to control risks.3

2. Following the assessment of these risks, the Security Guidelines require a financial institution to design a program to address the identified risks. The particular security measures an institution should adopt will depend upon the risks presented by the complexity and scope of its business. At a minimum, the financial institution is required to consider the specific security measures enumerated in the Security Guidelines, and adopt those that are appropriate for the institution, including:

a. Access controls on customer information systems, including controls to authen-
ticate and permit access only to authorized individuals and controls to prevent employ-
ees from providing customer information to unauthorized individuals who may seek to obtain this information through fraudulent means;

b. Background checks for employees with responsibilities for access to customer infor-
mation; and

c. Response programs that specify actions to be taken when the financial institution suspects or detects that unauthorized indi-
viduals have gained access to customer infor-
mation systems, including appropriate re-
ports to regulatory and law enforcement agencies.5

C. Service Providers
The Security Guidelines direct every financial institution to require its service pro-
viders by contract to implement appropriate measures designed to protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer.6

---

1 This Guidance is being jointly issued by the Board of Governors of the Federal Re-
serve System (Board), the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of the Currency (OCC), and the Office of Thrift Supervision (OTS).
2 12 CFR part 30, app. B (OCC); 12 CFR part 208, app. D–2 and part 225, app. F (Board); 12 CFR part 364, app. B (FDIC); and 12 CFR part 570, app. B (OTS). The "Interagency Guide-
lines Establishing Information Security Standards" were formerly known as "The Interagency Guidelines Establishing Information Security Standards."
3 See Security Guidelines, III.B.
4 See Security Guidelines, III.C.
5 See Security Guidelines, III.C.
6 See Security Guidelines, II.B. and III.D. Further, the Agencies note that, in addition
II. RESPONSE PROGRAM

Millions of Americans, throughout the country, have been victims of identity theft. Identity thieves misuse personal information they obtain from a number of sources, including financial institutions, to perpetrate identity theft. Therefore, financial institutions should take preventative measures to safeguard customer information against attempts to gain unauthorized access to the information. For example, financial institutions should place access controls on customer information systems and conduct background checks for employees who are authorized to access customer information. However, every financial institution should also develop and implement a risk-based response program to address incidents of unauthorized access to customer information in customer information systems that occur nonetheless. A response program should be a key part of an institution’s information security program. The program should be appropriate to the size and complexity of the institution and the nature and scope of its activities.

In addition, each institution should be able to address incidents of unauthorized access to customer information in customer information systems maintained by its domestic and foreign service providers. Therefore, consistent with the obligations in the Guidelines that relate to these arrangements, and with existing guidance on this topic issued by the Agencies, an institution’s contract with its service provider should require the service provider to take appropriate actions to address incidents of unauthorized access to the financial institution’s customer information, including notification to the institution as soon as possible of any such incident, to enable the institution to expeditiously implement its response program.

A. Components of a Response Program

1. At a minimum, an institution’s response program should contain procedures for the following:
   a. Assessing the nature and scope of an incident, and identifying what customer information systems and types of customer information have been accessed or misused;
   b. Notifying its primary Federal regulator as soon as possible when the institution becomes aware of an incident involving unauthorized access to or use of sensitive customer information, as defined below;
   c. Consistent with the Agencies’ Suspicious Activity Report (“SAR”) regulations, notifying appropriate law enforcement authorities, in addition to filing a timely SAR in

---

See Federal Reserve System Pt. 225, App. F
A. Standard for Providing Notice

When a financial institution becomes aware of an incident of unauthorized access to sensitive customer information, the institution should conduct a reasonable investigation to promptly determine the likelihood that the information has been or will be misused. If the institution determines that misuse of its information about a customer has occurred or is reasonably possible, it should notify the affected customer as soon as possible. Customer notice may be delayed if an appropriate law enforcement agency determines that notification will interfere with a criminal investigation and provides the institution with a written request for the delay. However, the institution should notify its customers as soon as notification will no longer interfere with the investigation.

III. CUSTOMER NOTICE

Financial institutions have an affirmative duty to protect their customers’ information against unauthorized access or use. Notifying customers of a security incident involving the unauthorized access or use of the customer’s information in accordance with the standard set forth below is a key part of that duty. Timely notification of customers is important to manage an institution’s reputation risk. Effective notice also may reduce an institution’s legal risk, assist in maintaining good customer relations, and enable the institution’s customers to take steps to protect themselves against the consequences of identity theft. When customer notification is warranted, an institution may not forgo notifying its customers of an incident because the institution believes that it may be potentially embarrassed or inconvenienced by doing so.

Federal Reserve System

B. Content of Customer Notice

1. Customer notice should be given in a clear and conspicuous manner. The notice should describe the incident in general terms and the type of customer information that was the subject of unauthorized access or use. It also should generally describe what the institution has done to protect the customers' information from further unauthorized access. In addition, it should include a telephone number that customers can call for further information and assistance. The notice also should remind customers of the need to remain vigilant over the next twelve to twenty-four months, and to promptly report incidents of suspected identity theft to the institution. The notice should include the following additional items, when appropriate:

   a. A recommendation that the customer review account statements and immediately report any suspicious activity to the institution;
   b. A description of fraud alerts and an explanation of how the customer may place a fraud alert in the customer's consumer reports to put the customer's creditors on notice that the customer may be a victim of fraud;
   c. A recommendation that the customer periodically obtain credit reports from each nationwide credit reporting agency and have information relating to fraudulent transactions deleted;
   d. An explanation of how the customer may obtain a credit report free of charge; and
   e. Information about the availability of the FTC's online guidance regarding steps a consumer can take to protect against identity theft. The notice should encourage the customer to report any incidents of identity theft to the FTC, and should provide the FTC's Web site address and toll-free telephone number that customers may use to obtain the identity theft guidance and report suspected incidents of identity theft.

2. The Agencies encourage financial institutions to notify the nationwide consumer reporting agencies prior to sending notices to a large number of customers that include contact information for the reporting agencies.

C. Delivery of Customer Notice

Customer notice should be delivered in any manner designed to ensure that a customer can reasonably be expected to receive it. For example, the institution may choose to contact all customers affected by telephone or by mail, or by electronic mail for those customers for whom it has a valid e-mail address and who have agreed to receive communications electronically.

Section 62 Mechanics of Risk-Weighted Asset Calculation
Part VIII Disclosure
Section 71 Disclosure Requirements

PART I. GENERAL PROVISIONS

Section 1. Purpose, Applicability, Reservation of Authority, and Principle of Conservatism

(a) Purpose. This appendix establishes:
(1) Minimum qualifying criteria for bank holding company using bank holding company-specific internal risk measurement and management processes for calculating risk-based capital requirements;
(2) Methodologies for such bank holding company to calculate their risk-based capital requirements; and
(3) Public disclosure requirements for such bank holding company.

(b) Applicability. (1) This appendix applies to a bank holding company that:
(i) Has consolidated total assets, as reported on the most recent year-end Consolidated Report of Condition and Income (Call Report) or Thrift Financial Report (TFR), equal to $250 billion or more;
(ii) Has consolidated total on-balance sheet foreign exposure at the most recent year-end equal to $10 billion or more (where total on-balance sheet foreign exposure equals total cross-border claims less claims with head office or guarantor located in another country plus redistributed guaranteed amounts to the country of head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Institutions Examination Council (FFIEC) 009 Country Exposure Report);
(iii) Is a subsidiary of a depository institution that uses 12 CFR part 3, appendix C, 12 CFR part 208, appendix F, 12 CFR part 325, appendix D, or 12 CFR part 567, appendix C, to calculate its risk-based capital requirements; or
(iv) Is a subsidiary of a bank holding company that uses 12 CFR part 225, appendix G, to calculate its risk-based capital requirements.

(2) Any bank holding company may elect to use this appendix to calculate its risk-based capital requirements.

(3) A bank holding company that is subject to this appendix must use this appendix unless the Federal Reserve determines in writing that application of this appendix is not appropriate in light of the bank holding company’s asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph, the Federal Reserve will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 263.202.

(c) Reservation of authority—(1) Additional capital in the aggregate. The Federal Reserve may require a bank holding company to hold an amount of capital greater than otherwise required under this appendix if the Federal Reserve determines that the bank holding company’s risk-based capital requirement under this appendix is not commensurate with the bank holding company’s credit, market, operational, or other risks. In making a determination under this paragraph, the Federal Reserve will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 263.202.

(2) Specific risk-weighted asset amounts. (i) If the Federal Reserve determines that the risk-weighted asset amount calculated under this appendix by the bank holding company for one or more exposures is not commensurate with the risks associated with those exposures, the Federal Reserve may require the bank holding company to assign a different risk-weighted asset amount to the exposures, to assign different risk parameters to the exposures (if the exposures are wholesale or retail exposures), or to use different model assumptions for the exposures (if relevant), all as specified by the Federal Reserve.

(ii) If the Federal Reserve determines that the risk-weighted asset amount for operational risk produced by the bank holding company under this appendix is not commensurate with the operational risks of the bank holding company, the Federal Reserve may require the bank holding company to assign a different risk-weighted asset amount for operational risk, to change elements of its operational risk analytical framework, including distributional and dependence assumptions, or to make other changes to the bank holding company’s operational risk management processes, data and assessment systems, or quantification systems, all as specified by the Federal Reserve.
(3) Regulatory capital treatment of unconsolidated entities. The Federal Reserve may determine that the regulatory capital treatment for a bank holding company’s exposure to or other relationship to an entity not consolidated on the bank holding company’s balance sheet is not commensurate with the actual risk relationship of the bank holding company to the entity. In making this determination, the Federal Reserve may require the bank holding company to treat the entity as if it were consolidated onto the balance sheet of the bank holding company for risk-based capital purposes and calculate the appropriate risk-based capital ratios accordingly, all as specified by the Federal Reserve.

(4) Other supervisory authority. Nothing in this appendix limits the authority of the Federal Reserve under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

(d) Principle of conservatism. Notwithstanding the requirements of this appendix, a bank holding company may choose not to apply a provision of this appendix to one or more exposures, provided that:

(1) The bank holding company can demonstrate on an ongoing basis to the satisfaction of the Federal Reserve that not applying the provision would, in all circumstances, unambiguously generate a risk-based capital requirement for each such exposure greater than that which would otherwise be required under this appendix;

(2) The bank holding company appropriately manages the risk of each such exposure;

(3) The bank holding company notifies the Federal Reserve in writing prior to applying this principle to each such exposure; and

(4) The exposures to which the bank holding company applies this principle are not, in the aggregate, material to the bank holding company.

Section 2. Definitions

Advanced internal ratings-based (IRB) systems means a bank holding company’s internal risk rating and segmentation system; risk assessment and segmentation system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures. Advanced systems means a bank holding company’s advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent the bank holding company uses the following systems, the internal models methodology, double default excessive correlation detection process, IMA for equity exposures, and IAA for securitization exposures to ABCP programs.

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Applicable external rating means:

(1) With respect to an exposure that has multiple external ratings assigned by NRSROS, the lowest solicited external rating assigned to the exposure by any NRSRO; and

(2) With respect to an exposure that has a single external rating assigned by an NRSRO, the external rating assigned to the exposure by the NRSRO.

Applicable inferred rating means:

(1) With respect to an exposure that has multiple inferred ratings, the lowest inferred rating based on a solicited external rating; and

(2) With respect to an exposure that has a single inferred rating, the inferred rating.

Asset-backed commercial paper (ABCP) program means a program that primarily issues commercial paper that:

(1) Has an external rating; and

(2) Is backed by underlying exposures held in a bankruptcy-remote SPE.

Asset-backed commercial paper (ABCP) program sponsor means a bank holding company that:

(1) Establishes an ABCP program;

(2) Approves the exposures to be purchased by an ABCP program; or

(4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Backtesting means the comparison of a bank holding company’s internal estimates with actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.

Bank holding company is defined in section 2 of the Bank Holding Company Act (12 U.S.C. 1841).

Benchmarking means the comparison of a bank holding company’s internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

Business environment and internal control factors means the indicators of a bank holding company’s operational risk profile that reflect a current and forward-looking assessment of the bank holding company’s underly-
Credit derivative contract means a commodity-linked swap, purchased commodity-linked option, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control means a contractual provision that permits an originating bank holding company or servicer to call securitization exposures before their stated maturity or call date. See also eligible clean-up call.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

1. Total wholesale and retail risk-weighted assets;
2. Risk-weighted assets for securitization exposures; and
3. Risk-weighted assets for equity exposures.

Current exposure means, with respect to a netting set, the larger of zero or the market value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the transactions. Current exposure is also called replacement cost.

Default—(1) Retail. (1) A retail exposure of a bank holding company is in default if:

(A) The exposure is 180 days past due, in the case of a residential mortgage exposure or revolving exposure.
Federal Reserve System

(B) The exposure is 120 days past due, in the case of all other retail exposures; or
(C) The bank holding company has taken a full or partial charge-off, write-down of principal, or material negative fair value adjustment of principal on the exposure for credit-related reasons.

(ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure held by a non-U.S. subsidiary of the bank holding company that is subject to an internal ratings-based approach to capital adequacy consistent with the Basel Committee on Banking Supervision’s “International Convergence of Capital Measurement and Capital Standards: A Revised Framework” in a non-U.S. jurisdiction, the bank holding company may elect to use the definition of default that is used in that jurisdiction, provided that the bank holding company has obtained prior approval from the Federal Reserve to use the definition of default in that jurisdiction.

(iii) A retail exposure in default remains in default until the bank holding company has reasonable assurance of repayment and performance for all contractual principal and interest payments on the exposure.

(2) Wholesale. (i) A bank holding company’s wholesale obligor is in default if:
(A) The bank holding company determines that the obligor is unlikely to pay its credit obligations to the bank holding company in full, without recourse by the bank holding company to actions such as realizing collateral (if held); or
(B) The obligor is past due more than 90 days on any material credit obligation(s) to the bank holding company.¹

(ii) An obligor in default remains in default until the bank holding company has reasonable assurance of repayment and performance for all contractual principal and interest payments on all exposures of the bank holding company to the obligor (other than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and within units of measure. Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

Derivative contract means a financial contract whose value is derived from the values of one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts include interest rate derivative contracts, exchange rate derivative contracts, equity derivative contracts, commodity derivative contracts, credit derivatives, and any other instrument that poses similar counterparty credit risks. Derivative contracts also include unsettled securities, commodities, and foreign exchange transactions with a contractual settlement or delivery lag that is longer than the lesser of the market standard for the particular instrument or five business days. Early amortization provision means a provision in the documentation governing a securitization that, when triggered, causes investors in the securitization exposures to be repaid before the original stated maturity of the securitization exposures, unless the provision:

(1) Is triggered solely by events not directly related to the performance of the underlying exposures or the originating bank holding company (such as material changes in tax laws or regulations); or
(2) Leaves investors fully exposed to future draws by obligors on the underlying exposures even after the provision is triggered.

Economic downturn conditions means, with respect to an exposure held by the bank holding company, those conditions in which the aggregate default rates for that exposure’s wholesale or retail exposure sub-category (or subdivision of such subcategory selected by the bank holding company) in the exposure's national jurisdiction (or subdivision of such jurisdiction selected by the bank holding company) are significantly higher than average. Effective maturity (M) of a wholesale exposure means:

(1) For wholesale exposures other than repo-style transactions, eligible margin loans, and OTC derivative contracts described in paragraph (2) or (3) of this definition:
(i) The weighted-average remaining maturity (measured in years, whole or fractional) of the expected contractual cash flows from the exposure, using the undiscounted amounts of the cash flows as weights; or
(ii) The nominal remaining maturity (measured in years, whole or fractional) of the exposure.

(2) For repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement for which the bank holding company does not apply the internal models approach in paragraph (d) of section 32 of this appendix, the weighted-average remaining maturity (measured in years, whole or fractional) of the individual transactions subject to the qualifying master netting agreement, with the weight of each individual transaction set equal to the notional amount of the transaction.

(3) For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the bank holding company applies the internal models approach in paragraph (d) of section 32 of this appendix, the value

¹Overdrafts are past due once the obligor has breached an advised limit or been advised of a limit smaller than the current outstanding balance.
and specifies a reasonable period for obtaining valuations process to estimate loss reliably. For example, the effective notional amount of an eligible guarantee that covers, on a pro rata basis, 40 percent of any losses on a $100 bond would be $40.

Eligible clean-up call means a clean-up call that:

(1) Is exercisable solely at the discretion of the originating bank holding company or servicer;

(2) Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and

(3) (i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the underlying exposures or securitization exposures (determined as of the inception of the securitization) is outstanding; or

(ii) For a synthetic securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, nth-to-default swap, total return swap, or any other form of credit derivative approved by the Federal Reserve, provided that:

(1) The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider;

(2) Any assignment of the contract has been confirmed by all relevant parties;

(3) If the credit derivative is a credit default swap or nth-to-default swap, the contract includes the following credit events:

(i) Failure to pay any amount due under the terms of the reference exposure, subject to any applicable minimal payment threshold that is consistent with standard market practice and with a grace period that is closely in line with the grace period of the reference exposure; and

(ii) Bankruptcy, insolvency, or inability of the obligor on the reference exposure to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and similar events;

(4) The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;

(5) If the contract allows for cash settlement, the contract incorporates a robust valuation process to estimate loss reliably and specifies a reasonable period for obtaining post-credit event valuations of the reference exposure;

(6) If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the contract provides that any required consent to transfer may not be unreasonably withheld; and

(7) If the credit derivative is a credit default swap or nth-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and

(8) If the credit derivative is a total return swap and the bank holding company records net payments received on the swap as net income, the bank holding company records offsetting deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to absorb credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the allowance for loan and lease losses (ALLL) associated with such exposures but excluding allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and other specific reserves created against recognized losses.

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by a bank holding company, means:

(1) U.S.-based entities. A depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1464(k), a securities broker or dealer registered with the SEC under the Securities Exchange Act of 1934 (15 U.S.C. 78o et seq.), or an insurance company in the business of providing credit protection (such as a monoline bond insurer or re-insurer) that is subject to supervision by a State insurance regulator, if:

(i) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the bank holding company assigns a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and

(ii) The bank holding company currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category; or
Federal Reserve System
Pt. 225, App. G

(2) Non-U.S.-based entities. A foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), a non-U.S.-based securities firm, or a non-U.S.-based insurance company in the business of providing credit protection, if:

(i) The bank holding company demonstrates that the guarantor is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be), or has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating of at least investment grade;

(ii) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the bank holding company assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and

(iii) The bank holding company currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category.

Eligible guarantee means a guarantee that:

(1) Is written and unconditional;

(2) Covers all or a pro rata portion of all contractual payments of the obligor on the reference exposure;

(3) Gives the beneficiary a direct claim against the protection provider;

(4) Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;

(5) Is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;

(6) Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantee) of the obligor on the reference exposure in a timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;

(7) Does not increase the beneficiary’s cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure; and

(8) Is not provided by an affiliate of the bank holding company, unless the affiliate is an insured depository institution, bank, securities broker or dealer, or insurance company that:

(1) Does not control the bank holding company; and

(ii) Is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be).

Eligible margin loan means an extension of credit where:

(1) The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, gold, or conforming residential mortgages;

(2) The collateral is marked to market daily, and the transaction is subject to daily margin maintenance requirements;

(3) The extension of credit is conducted under an agreement that provides the bank holding company the right to accelerate and terminate the extension of credit and to liquidate or sell collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; and

(4) The bank holding company has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

(1) Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and

(2) Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

(1) The bank holding company or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;

(2) Was generated on an arm’s-length basis between the seller and the obligor (intercompany accounts receivable and receivables

This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute “securities contracts” under section 555 of the Bankruptcy Code (11 U.S.C. 555), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation EE (12 CFR part 221).
subject to contra-accounts between firms that buy and sell to each other do not satisfy this criterion; (3) Provides the bank holding company or securitization SPE with a claim on all proceeds from the exposure or a pro rata interest in the proceeds from the exposure; (4) Has an M of less than one year; and
(5) When consolidated by obligor, does not represent a concentrated exposure relative to the portfolio of purchased wholesale exposures.

Eligible securitization guarantor means:
(1) A sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank, a depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1843(k), a foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), or a securities firm;
(2) Any other entity (other than a securitization SPE) that has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating in one of the three highest investment-grade rating categories; or
(3) Any other entity (other than a securitization SPE) that has a PD assigned by the bank holding company that is lower than or equal to the PD associated with a long-term external rating in the third highest investment-grade rating category.

Eligible servicer cash advance facility means a servicer cash advance facility in which:
(1) The servicer is entitled to full reimbursement of advances, except that a servicer may be obligated to make non-reimbursable advances for a particular underlying exposure if any such advance is contractually limited to an insignificant amount of the outstanding principal balance of that exposure;
(2) The servicer’s right to reimbursement is senior in right of payment to all other claims on the cash flows from the underlying exposures of the securitization; and
(3) The servicer has no legal obligation to, and does not, make advances to the securitization if the servicer concludes the advances are unlikely to be repaid.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Equity exposure means:
(1) A security or instrument (whether voting or non-voting) that represents a direct or indirect ownership interest in, and is a residual claim on, the assets and income of a company, unless:
(i) The issuing company is consolidated with the bank holding company under GAAP;
(ii) The bank holding company is required to deduct the ownership interest from tier 1 or tier 2 capital under this appendix;
(iii) The ownership interest incorporates a payment or other similar obligation on the part of the issuing company (such as an obligation to make periodic payments); or
(iv) The ownership interest is a securitization exposure;
(2) A security or instrument that is mandatorily convertible into a security or instrument described in paragraph (1) of this definition; or
(3) An option or warrant that is exercisable for a security or instrument described in paragraph (1) of this definition; or
(4) Any other security or instrument (other than a securitization exposure) to the extent the return on the security or instrument is based on the performance of a security or instrument described in paragraph (1) of this definition.

Expected credit loss (ECL) means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Excluded mortgage exposure means any one-to-four-family residential pre-sold construction loan for a residence for which the purchase contract is cancelled that would receive a 10 percent risk weight under section 619(a)2 of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act and under 12 CFR part 225, appendix A, section 11.C.3.

Expected credit loss (ECL) means:
(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero.
(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of PD times LGD times EAD for the exposure or segment.
(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the bank holding company’s impairment estimate for allowance purposes for the exposure or segment.

(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the bank holding company has applied the double default treatment in section 34 of this appendix.

Expected exposure (EE) means the expected value of the probability distribution of non-negative credit risk exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative market values in the probability distribution of market values to a counterparty at a specified future date are set to zero to convert the probability distribution of market values to the probability distribution of credit risk exposures.

Expected operational loss (EOL) means the expected value of the distribution of potential aggregate operational losses, as generated by the bank holding company’s operational risk quantification system using a one-year horizon.

Expected positive exposure (EPE) means the expected values of the probability distribution of market values to a counterparty at any specified future date, less any realized gains on the exposure or segment, where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

Exposure at default (EAD). (1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix), EAD means:

(i) If the exposure or segment is a security classified as available-for-sale, the bank holding company’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment, less any unrealized gains on the exposure or segment, and plus any unrealized losses on the exposure or segment; or

(ii) If the exposure or segment is not a security classified as available-for-sale, the bank holding company’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix) in the form of a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the bank holding company’s best estimate of net additions to the outstanding amount owed the bank holding company, including estimated future additional draws of principal and accrued but unpaid interest and fees, that are likely to occur over a one-year horizon assuming the wholesale exposure or the retail exposures in the segment were to go into default. This estimate of net additions must reflect what would be expected during economic downturn conditions. Trade-related letters of credit are short-term, self-liquidating instruments that are used to finance the movement of goods and are collateralized by the underlying goods. Transaction-related contingencies relate to a particular transaction and include, among other things, performance bonds and performance-based letters of credit.

(3) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank holding company determines EAD under section 32 of this appendix) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the notion amount of the exposure or segment.

(4) EAD for OTC derivative contracts is calculated as described in section 32 of this appendix. A bank holding company also may determine EAD for repo-style transactions and eligible margin loans as described in section 32 of this appendix.

(5) For wholesale or retail exposures in which only the drawn balance has been securitized, the bank holding company must reflect its share of the exposures’ undrawn balances in EAD. Undrawn balances of revolving exposures for which the drawn balances have been securitized must be allocated between the seller’s and investors’ interests on a pro rata basis, based on the proportions of the seller’s and investors’ shares of the securitized drawn balances.

Exposure category means any of the wholesale, retail, securitization, or equity exposure categories.

External operational loss event data means, with respect to a bank holding company, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at organizations other than the bank holding company.

External rating means a credit rating that is assigned by an NRRO to an exposure, provided:

(1) The credit rating fully reflects the entire amount of credit risk with regard to all payments owed to the holder of the exposure.

If a holder is owed principal and interest on
an exposure, the credit rating must fully reflect the credit risk associated with timely repayment of principal and interest. If a holder is owed only principal on an exposure, the credit rating must fully reflect only the credit risk associated with timely repayment of principal; and

(2) The credit rating is published in an accessible form and is or will be included in the transition matrices made publicly available by the NRSRO that summarize the historical performance of positions rated by the NRSRO.

Financial collateral means collateral:

(1) In the form of:
(i) Cash on deposit with the bank holding company (including cash held for the bank holding company by a third-party custodian or trustee);
(ii) Gold bullion;
(iii) Long-term debt securities that have an applicable external rating of one category below investment grade or higher;
(iv) Short-term debt instruments that have an applicable external rating of at least investment grade;
(v) Equity securities that are publicly traded;
(vi) Convertible bonds that are publicly traded;
(vii) Money market mutual fund shares and other mutual fund shares if a price for the shares is publicly quoted daily; or
(viii) Conforming residential mortgages; and
(2) In which the bank holding company has a perfected, first priority security interest that is equal to or longer than that of the unrated securitization exposure; and

GAAP means generally accepted accounting principles as used in the United States.

Gain-on-sale means an increase in the equity capital (as reported on Schedule HC of the FR Y–9C Report) of a bank holding company that results from a securitization (other than an increase in equity capital that results from the bank holding company’s receipt of cash in connection with the securitization).

Guarantee means a financial guarantee, letter of credit, insurance, or other similar fi-
nancial instrument (other than a credit de-
tratived contract) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider). See also eligi-
gible guarantee.

High volatility commercial real estate (HVCRE) exposure means a credit facility that finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:

(1) One- to four-family residential properties; or

(2) Commercial real estate projects in which:
(i) The loan-to-value ratio is less than or equal to the applicable maximum super-

visory loan-to-value ratio in the relevant agency’s real estate lending standards at 12 CFR part 34, Subpart D (OCC), 12 CFR part 208, appendix C (Federal Reserve); 12 CFR part 365, Subpart D (FDIC); and 12 CFR 560.100–560.101 (OTS).
(ii) The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised “as completed” value; and
(iii) The borrower contributed the amount of capital required by paragraph (2)(i) of this definition before the bank holding company advances funds under the credit facility, and the capital contributed by the bor-
rower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to per-
manent financing or is sold or paid in full. Permanent financing may be provided by the bank holding company that provided the ADC facility as long as the permanent fi-
nancing is subject to the bank holding company’s underwriting criteria for long-term mortgage loans.

Inferred rating. A securitization exposure has an inferred rating equal to the external rating referenced in paragraph (2)(i) of this definition if:

(1) The securitization exposure does not have an external rating; and
(2) Another securitization exposure issued by the same issuer and secured by the same underlying exposures:
(i) Has an external rating;
(ii) Is subordinated in all respects to the unrated securitization exposure; and
(iii) Does not benefit from any credit enhancement that is not available to the unrated securitization exposure; and
(iv) Has an effective remaining maturity that is equal to or longer than that of the unrated securitization exposure.

Interest rate derivative contract means a sin-
gle-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates that gives rise to similar counterparty credit risks.

Internal operational loss event data means, with respect to a bank holding company, gross operational loss amounts, dates, recov-
eries, and relevant causal information for operational loss events occurring at the bank holding company.

Investing bank holding company means, with respect to a securitization, a bank holding company that assumes the credit risk of a
securitization exposure (other than an originating bank holding company of the securitization). In the typical synthetic securitization, the investing bank holding company loses control of a pool of underlying exposures to the originating bank holding company.

Investment fund means a company:
(1) All or substantially all of the assets of which are financial assets; and
(2) That has no material liabilities.

Investors’ interest EAD means, with respect to a securitization, the EAD of the underlying exposures multiplied by the ratio of:
(1) The total amount of securitization exposures issued by the securitization SPE to investors; divided by
(2) The outstanding principal amount of underlying exposures.

Loss given default (LGD) means:
(1) For a wholesale exposure, the greatest of:
   (i) Zero;
   (ii) The bank holding company’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank holding company would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank holding company to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
   (iii) The bank holding company’s empirically based best estimate of the economic loss, per dollar of EAD, the bank holding company would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank holding company to the exposure) were to default within a one-year horizon during economic downturn conditions.
(2) For a segment of retail exposures, the greatest of:
   (i) Zero;
   (ii) The bank holding company’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank holding company would expect to incur if the exposures in the segment were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
   (iii) The bank holding company’s empirically based best estimate of the economic loss, per dollar of EAD, the bank holding company would expect to incur if the exposures in the segment were to default within a one-year horizon during economic downturn conditions.
(3) The economic loss on an exposure in the event of default is all material credit-related losses on the exposure (including accrued but unpaid interest or fees, losses on the sale of collateral, direct workout costs, and an appropriate allocation of indirect workout costs). Where positive or negative cash flows on a wholesale exposure to a defaulted obligor or a defaulted retail exposure (including proceeds from the sale of collateral, workout costs, additional extensions of credit to facilitate repayment of the exposure, and draw-downs of unused credit lines) occur after the date of default, the economic loss must reflect the net present value of cash flows as of the default date using a discount rate appropriate to the risk of the defaulted exposure.

Main index means the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the bank holding company can demonstrate to the satisfaction of the Federal Reserve that the equities represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor’s 500 Index and FTSE All-World Index.

Multilateral development bank means the International Bank for Reconstruction and Development, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the Federal Reserve determines posses comparable credit risk.

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or qualifying cross-product master netting agreement. For purposes of the internal models methodology in paragraph (d) of section 32 of this appendix, each transaction that is not subject to such a master netting agreement is its own netting set.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Obligor means the legal entity or natural person contractually obligated on a wholesale exposure, except that a bank holding company may treat the following exposures as having separate obligors:
(1) Exposures to the same legal entity or natural person, or
(2) (i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on

Federal Reserve System

Pt. 225, App. G
the cash flows of the real estate serving as collateral for the exposure; the bank holding company, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses obtained solely out of an abundance of caution; and

(3) (i) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and
(ii) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an operational loss event. Operational loss includes all expenses associated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management and control enhancements implemented to prevent future operational losses.

Operational loss event means an event that results in loss and is associated with any of the following seven operational loss event type categories:

(1) Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent the law, the company, or company policy, excluding diversity- and discrimination-type events.

(2) External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party initiated credit losses are to be treated as credit risk losses.

(3) Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from diversity- and discrimination-type events.

(4) Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

(5) Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

(6) Business disruption and system failures, which means the operational loss event type category that comprises operational losses resulting from disruption of business or system failures.

(7) Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the bank holding company’s operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Originating bank holding company, with respect to a securitization, means a bank holding company that:

(1) Directly or indirectly originated or securitized the underlying exposures included in the securitization; or
(2) Serves as an ABCP program sponsor to the securitization.

Other retail exposure means an exposure (other than a securitization exposure, an equity exposure, a residential mortgage exposure, an excluded mortgage exposure, a qualifying revolving exposure, or the residual value portion of a lease exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

(1) An exposure to an individual for non-business purposes; or
(2) An exposure to an individual or company for business purposes if the bank holding company’s consolidated business credit exposure to the individual or company is $1 million or less.

Over-the-counter (OTC) derivative contract means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.

Probability of default (PD) means:

(1) For a wholesale exposure to a non-defaulted obligor, the bank holding company’s empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the bank holding company to the obligor, capturing the average
default experience for obligors in the rating grade over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the rating grade.

(2) For a segment of non-defaulted retail exposures, the bank holding company’s empirically based best estimate of the long-run average one-year default rate for the exposures in the segment, capturing the average default experience for exposures in the segment over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment and adjusted upward as appropriate for segments for which seasoning effects are material. For purposes of this definition, a segment for which seasoning effects are material is a segment where there is a material relationship between the time since origination of exposures within the segment and the bank holding company’s best estimate of the long-run average one-year default rate for the exposures in the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, 100 percent.

Protection amount (P) means, with respect to an exposure hedged by an eligible guarantee or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in section 33 of this appendix).

Publicly traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question, meaning that there are enough independent bona fide offers to buy and sell so that a sales price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined promptly and a trade can be settled at such a price within five business days.

Qualifying central counterparty means a counterparty (for example, a clearinghouse) that:

(1) Facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts;

(2) Requires all participants in its arrangements to be fully collateralized on a daily basis; and

(3) The bank holding company demonstrates to the satisfaction of the Federal Reserve is in sound financial condition and is subject to effective oversight by a national supervisory authority.

Qualifying cross-product master netting agreement means a qualifying master netting agreement that provides for termination and close-out netting across all types of financial transactions or qualifying master netting agreements in the event of a counterparty’s default, provided that:

(1) The underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions; and

(2) The bank holding company obtains a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding.

Qualifying master netting agreement means any written, legally enforceable bilateral agreement, provided that:

(1) The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default, including bankruptcy, insolvency, or similar proceeding, of the counterparty;

(2) The agreement provides the bank holding company the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions;

(3) The bank holding company has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that:

(i) The agreement meets the requirements of paragraph (2) of this definition; and

(ii) In the event of a legal challenge (including one resulting from default or from bankruptcy, insolvency, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions;

(4) The bank holding company establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of this definition; and

(5) The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it would make otherwise under the agreement, or no payment at all, to a default or the estate of a
default, even if the defaulter or the estate of the defaulter is a net creditor under the agreement).

Qualifying revolving exposure (QRE) means an exposure (other than a securities contract, repo-style transaction, or securitization exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

(1) Is revolving (that is, the amount outstanding fluctuates, determined largely by the borrower’s decision to borrow and repay, up to a pre-established maximum amount);
(2) Is unsecured and unconditionally cancelable by the bank holding company to the fullest extent permitted by Federal law; and
(3) Has a maximum exposure amount (drawn plus undrawn) of up to $100,000.

Repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the bank holding company acts as agent for a customer and indemnifies the customer against loss, provided that:

(1) The transaction is based solely on liquid and readily marketable securities, cash, gold, or conforming residential mortgages;
(2) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;
(3)(i) The transaction is a “securities contract” or “repurchase agreement” under sections 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11a(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1831a(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation EE (12 CFR part 231); or
(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:
(A) The transaction is executed under an agreement that provides the bank holding company the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and
(B) The transaction is:
(1) Either overnight or unconditionally cancelable at any time by the bank holding company; and
(2) Executed under an agreement that provides the bank holding company the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and
(4) The bank holding company has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Residential mortgage exposure means an exposure (other than a securitization exposure, equity exposure, or excluded mortgage exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is:

(1) An exposure that is primarily secured by a first or subsequent lien on one- to four-family residential property; or
(2) An exposure with an original and outstanding amount of $1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one to four family.

Retail exposure means a residential mortgage exposure, a qualifying revolving exposure, or any other retail exposure.

Retail exposure subcategory means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

Risk parameter means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

Scenario analysis means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to a bank holding company’s operational risk profile and control structure.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a traditional securitization or a synthetic securitization.

Securitization exposure means an on-balance sheet or off-balance sheet credit exposure that arises from a traditional or synthetic securitization (including credit-enhancing representations and warranties).

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of
which is intended to isolate the underlying exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Senior securitization exposure means a securitization exposure that has a first priority claim on the cash flows from the underlying exposures. When determining whether a securitization exposure has a first priority claim on the cash flows from the underlying exposures, a bank holding company is not required to consider amounts due under interest rate or currency derivative contracts, fees due, or other similar payments. Both the most senior commercial paper issued by an ABCP program and a liquidity facility that supports the ABCP program may be senior securitization exposures if the liquidity facility provider’s right to reimbursement of the drawn amounts is senior to all claims on the cash flows from the underlying exposures except amounts due under interest rate or currency derivative contracts, fees due, or other similar payments.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the underlying exposures. See also eligible servicer cash advance facility.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign exposure means:

(1) A direct exposure to a sovereign entity; or

(2) An exposure directly and unconditionally backed by the full faith and credit of a sovereign entity.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties through the use of credit derivatives or guarantees (other than a guarantee that transfers only the credit risk of an individual retail exposure);

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures; and

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tier 1 capital as defined in 12 CFR part 225, appendix A, as modified in part II of this appendix.

Tier 2 capital as defined in 12 CFR part 225, appendix A, as modified in part II of this appendix.

Total qualifying capital means the sum of tier 1 capital and tier 2 capital, after all deductions required in this appendix.

Total risk-weighted assets means:

(1) The sum of:

(i) Credit risk-weighted assets; and

(ii) Risk-weighted assets for operational risk; minus

(2) Excess eligible credit reserves not included in tier 2 capital.

Total wholesale and retail risk-weighted assets means the sum of risk-weighted assets for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures; risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures; risk-weighted assets for assets not defined by an exposure category; and risk-weighted assets for non-material portfolios of exposures (all as determined in section 31 of this appendix) minus the amounts deducted from capital pursuant to 12 CFR part 225, appendix A (excluding those deductions reversed in section 12 of this appendix).

Traditional securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) The underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 662); and

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24(Eleventh).
General.

A bank holding company that uses this appendix must make the same deductions from its tier 1 capital and tier 2 capital required in 12 CFR part 225, appendix A, except that:

(1) A bank holding company is not required to deduct certain equity investments and CEIOs (as provided in section 12 of this appendix); and
Federal Reserve System

Pt. 225, App. G

(2) A bank holding company also must make the deductions from capital required by paragraphs (b) and (c) of this section.

(b) Deductions from tier 1 capital. A bank holding company must deduct from tier 1 capital any gain-on-sale associated with a securitization exposure as provided in paragraph (a) of section 41 and paragraphs (a)(1), (c), (g)(4), and (h)(1) of section 42 of this appendix.

(c) Deductions from tier 1 and tier 2 capital. A bank holding company must deduct the exposures specified in paragraphs (c)(1) through (c)(7) in this section 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s actual tier 2 capital, however, the bank holding company must deduct the excess from tier 1 capital.

(1) Credit-enhancing interest-only strips (CEIOs). In accordance with paragraphs (a)(1) and (c) of section 42 of this appendix, any CEIO that does not constitute gain-on-sale.

(2) Non-qualifying securitization exposures. In accordance with paragraphs (a)(4) and (c) of section 42 of this appendix, any securitization exposure that does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach under sections 43, 44, and 45 of this appendix, respectively.

(3) Securitizations of non-IRB exposures. In accordance with paragraphs (c) and (g)(4) of section 42 of this appendix, certain exposures to a securitization any underlying exposure of which is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure.

(4) Low-rated securitization exposures. In accordance with section 43 and paragraph (c) of section 42 of this appendix, any securitization exposure that qualifies for and must be deducted under the Ratings-Based Approach.

(5) High-risk securitization exposures subject to the Supervisory Formula Approach. In accordance with paragraphs (b) and (c) of section 45 of this appendix and paragraph (c) of section 42 of this appendix, certain high-risk securitization exposures (or portions thereof) that qualify for the Supervisory Formula Approach.

(6) Eligible credit reserves shortfall. In accordance with paragraph (a)(1) of section 13 of this appendix, any eligible credit reserves shortfall.

(7) Certain failed capital markets transactions. In accordance with paragraph (e)(3) of section 36 of this appendix, the bank holding company’s exposure on certain failed capital markets transactions.

(b) A bank holding company must also deduct an amount equal to the minimum regulatory capital requirement established by the regulator of any insurance underwriting subsidiary of the holding company. For U.S.-based insurance underwriting subsidiaries, this amount generally would be 200 percent of the subsidiary’s Authorized Control Level as established by the appropriate state regulator of the insurance company.

Section 12. Deductions and Limitations Not Required.

(a) Deduction of CEIOs. A bank holding company is not required to make the deductions from capital for CEIOs in 12 CFR part 225, appendix A, section II.B.1.e.

(b) Deduction for certain equity investments. A bank holding company is not required to make the deductions from capital for non-financial equity investments in 12 CFR part 225, appendix A, section II.B.5.

Section 13. Eligible Credit Reserves

(a) Comparison of eligible credit reserves to expected credit losses—(1) Shortfall of eligible credit reserves. If a bank holding company’s eligible credit reserves are less than the bank holding company’s total expected credit losses, the bank holding company must deduct the shortfall amount 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s actual tier 2 capital, the bank holding company must deduct the excess amount from tier 1 capital.

(2) Excess eligible credit reserves. If a bank holding company’s eligible credit reserves exceed the bank holding company’s total expected credit losses, the bank holding company may include the excess amount in tier 2 capital to the extent that the excess amount does not exceed 0.6 percent of the bank holding company’s credit-risk-weighted assets.

(b) Treatment of allowance for loan and lease losses. Regardless of any provision in 12 CFR part 225, appendix A, the ALLL is included in tier 2 capital only to the extent provided in paragraph (a)(2) of this section and in section 24 of this appendix.

PART III. QUALIFICATION

Section 21. Qualification Process

(a) Timing. (1) A bank holding company that is described in paragraph (b)(1) of section 1 of this appendix must adopt a written implementation plan no later than six months after the later of April 1, 2008, or the date the bank holding company meets a criterion in that section. The implementation plan must incorporate an explicit first floor period start date no later than 36 months after the later of April 1, 2008, or the date the bank holding company meets at least one criterion under paragraph (b)(1) of section 1 of this appendix. The Federal Reserve may extend the first floor period start date.
(2) A bank holding company that elects to be subject to this appendix under paragraph (b)(2) of section 1 of this appendix must adopt a written implementation plan.

(Implementing plan. (1) The bank holding company’s implementation plan must address in detail how the bank holding company complies, or plans to comply, with the qualification requirements under this appendix. The bank holding company also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in section 22 of this appendix for the bank holding company and each consolidated subsidiary (U.S. and foreign-based) of the bank holding company with respect to all portfolios and exposures of the bank holding company and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the bank holding company);

(iii) Include the bank holding company’s self-assessment of:

(A) The bank holding company’s current status in meeting the qualification requirements in section 22 of this appendix; and

(B) The consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements;

(iv) Based on the bank holding company’s self-assessment, identify and describe the areas in which the bank holding company proposes to undertake additional work to comply with the qualification requirements in section 22 of this appendix or to improve the consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the bank holding company will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;

(vi) Identify objective, measurable milestones, including delivery dates and a date when the bank holding company’s implementation of the methodologies described in this appendix will be fully operational;

(vii) Describe resources that have been budgeted and are available to implement the plan; and

(viii) Receive approval of the bank holding company’s board of directors.

(2) The bank holding company must submit the implementation plan, together with a copy of the minutes of the board of directors’ approval, to the Federal Reserve at least 60 days before the bank holding company proposes to begin its parallel run, unless the Federal Reserve waives prior notice.

(c) Parallel run. Before determining its risk-based capital requirements under this appendix and following adoption of the implementation plan, the bank holding company must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the bank holding company complies with the qualification requirements in section 22 of this appendix to the satisfaction of the Federal Reserve. During the parallel run, the bank holding company must report to the Federal Reserve on a calendar quarterly basis its risk-based capital ratios using 12 CFR part 225, appendix A and the risk-based capital requirements described in this appendix. During this period, the bank holding company is subject to 12 CFR part 225, appendix A.

(d) Approval to calculate risk-based capital requirements under this appendix. The Federal Reserve will notify the bank holding company of the date that the bank holding company may begin its first floor period if the Federal Reserve determines that:

(1) The bank holding company fully complies with all the qualification requirements in section 22 of this appendix;

(2) The bank holding company has conducted a satisfactory parallel run under paragraph (c) of this section; and

(3) The bank holding company has an adequate process to ensure ongoing compliance with the qualification requirements in section 22 of this appendix.

(e) Transitional floor periods. Following a satisfactory parallel run, a bank holding company is subject to three transitional floor periods.

(1) Risk-based capital ratios during the transitional floor periods—(i) Tier 1 risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s tier 1 risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted tier 1 risk-based capital ratio; or

(B) The bank holding company’s advanced approaches tier 1 risk-based capital ratio.

(ii) Total risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s total risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted total risk-based capital ratio; or

(B) The bank holding company’s advanced approaches total risk-based capital ratio.

(2) Floor-adjusted risk-based capital ratios. (1) A bank holding company’s floor-adjusted tier 1 risk-based capital ratio during a transitional floor period is equal to the bank holding company’s tier 1 capital as calculated under 12 CFR part 225, appendix A, divided by the product of:

(2) A bank holding company that elects to be subject to this appendix under paragraph (b)(2) of section 1 of this appendix must adopt a written implementation plan.

(Implementing plan. (1) The bank holding company’s implementation plan must address in detail how the bank holding company complies, or plans to comply, with the qualification requirements under this appendix. The bank holding company also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in section 22 of this appendix for the bank holding company and each consolidated subsidiary (U.S. and foreign-based) of the bank holding company with respect to all portfolios and exposures of the bank holding company and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the bank holding company);

(iii) Include the bank holding company’s self-assessment of:

(A) The bank holding company’s current status in meeting the qualification requirements in section 22 of this appendix; and

(B) The consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements;

(iv) Based on the bank holding company’s self-assessment, identify and describe the areas in which the bank holding company proposes to undertake additional work to comply with the qualification requirements in section 22 of this appendix or to improve the consistency of the bank holding company’s current practices with the Federal Reserve’s supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the bank holding company will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;

(vi) Identify objective, measurable milestones, including delivery dates and a date when the bank holding company’s implementation of the methodologies described in this appendix will be fully operational;

(vii) Describe resources that have been budgeted and are available to implement the plan; and

(viii) Receive approval of the bank holding company’s board of directors.

(2) The bank holding company must submit the implementation plan, together with a copy of the minutes of the board of directors’ approval, to the Federal Reserve at least 60 days before the bank holding company proposes to begin its parallel run, unless the Federal Reserve waives prior notice.

(c) Parallel run. Before determining its risk-based capital requirements under this appendix and following adoption of the implementation plan, the bank holding company must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the bank holding company complies with the qualification requirements in section 22 of this appendix to the satisfaction of the Federal Reserve. During the parallel run, the bank holding company must report to the Federal Reserve on a calendar quarterly basis its risk-based capital ratios using 12 CFR part 225, appendix A and the risk-based capital requirements described in this appendix. During this period, the bank holding company is subject to 12 CFR part 225, appendix A.

(d) Approval to calculate risk-based capital requirements under this appendix. The Federal Reserve will notify the bank holding company of the date that the bank holding company may begin its first floor period if the Federal Reserve determines that:

(1) The bank holding company fully complies with all the qualification requirements in section 22 of this appendix;

(2) The bank holding company has conducted a satisfactory parallel run under paragraph (c) of this section; and

(3) The bank holding company has an adequate process to ensure ongoing compliance with the qualification requirements in section 22 of this appendix.

(e) Transitional floor periods. Following a satisfactory parallel run, a bank holding company is subject to three transitional floor periods.

(1) Risk-based capital ratios during the transitional floor periods—(i) Tier 1 risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s tier 1 risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted tier 1 risk-based capital ratio; or

(B) The bank holding company’s advanced approaches tier 1 risk-based capital ratio.

(ii) Total risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s total risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted total risk-based capital ratio; or

(B) The bank holding company’s advanced approaches total risk-based capital ratio.

(2) Floor-adjusted risk-based capital ratios. (1) A bank holding company’s floor-adjusted tier 1 risk-based capital ratio during a transitional floor period is equal to the bank holding company’s tier 1 capital as calculated under 12 CFR part 225, appendix A, divided by the product of:

Transitional floor periods.

Total risk-based capital ratio.

(i) Tier 1 risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s tier 1 risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted tier 1 risk-based capital ratio; or

(B) The bank holding company’s advanced approaches tier 1 risk-based capital ratio.

(ii) Total risk-based capital ratio. During a bank holding company’s transitional floor periods, the bank holding company’s total risk-based capital ratio is equal to the lower of:

(A) The bank holding company’s floor-adjusted total risk-based capital ratio; or

(B) The bank holding company’s advanced approaches total risk-based capital ratio.

(2) Floor-adjusted risk-based capital ratios. (1) A bank holding company’s floor-adjusted tier 1 risk-based capital ratio during a transitional floor period is equal to the bank holding company’s tier 1 capital as calculated under 12 CFR part 225, appendix A, divided by the product of:
Federal Reserve System

(A) The bank holding company’s total risk-weighted assets as calculated under 12 CFR part 225, appendix A; and

(B) The appropriate transitional floor percentage in Table 1.

(ii) A bank holding company’s advanced approaches risk-based capital ratios.

(i) A bank holding company’s advanced approaches risk-based capital ratio equals the bank holding company’s tier 1 risk-based capital ratio as calculated under 12 CFR part 225, appendix A, divided by the product of:

(A) The bank holding company’s total risk-weighted assets as calculated under 12 CFR part 225, appendix A; and

(B) The appropriate transitional floor percentage in Table 1.

(iii) A bank holding company that meets the criteria in paragraph (b)(1) or (b)(2) of section 33 of this appendix and as the basis for its transitional floors.

TABLE 1—TRANSITIONAL FLOORS

<table>
<thead>
<tr>

</tr>
<tr>
<td>Third floor period</td>
<td>85 percent.</td>
</tr>
</tbody>
</table>

(3) Advanced approaches risk-based capital ratios.

(i) A bank holding company’s advanced approaches risk-based capital ratio equals the bank holding company’s tier 1 risk-based capital ratio as calculated under 12 CFR part 225, appendix A during the parallel run and as the basis for its transitional floors.

(ii) A bank holding company’s advanced approaches total risk-based capital ratio equals the bank holding company’s total risk-based capital ratio as calculated under this appendix (other than this section on transitional floor periods).

(4) Reporting.

During the transitional floor periods, a bank holding company must report to the Federal Reserve on a calendar quarterly basis both floor-adjusted risk-based capital ratios and both advanced approaches risk-based capital ratios.

(5) Exiting a transitional floor period.

A bank holding company may not exit a transitional floor period until the bank holding company has spent a minimum of four consecutive calendar quarters in the period and the Federal Reserve has determined that the bank holding company may exit the floor period. The Federal Reserve’s determination will be based on an assessment of the bank holding company’s ongoing compliance with the qualification requirements in section 22 of this appendix.

(6) Interagency study.

After the end of the second transition year (2010), the Federal banking agencies will publish a study that evaluates the advanced approaches to determine if there are any material deficiencies. For any primary Federal supervisor to authorize any institution to exit the third transitional floor period, the study must determine that there are no such material deficiencies that cannot be addressed by then-existing tools, or, if such deficiencies are found, they are first remedied by changes to this appendix. Notwithstanding the preceding sentence, a primary Federal supervisor that disagrees with the findings of material deficiency may not authorize any institution under its jurisdiction to exit the third transitional floor period unless it provides a public report explaining its reasoning.

Section 22. Qualification Requirements

(a) Process and systems requirements.

(1) A bank holding company must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(2) The systems and processes used by a bank holding company for risk-based capital purposes under this appendix must be consistent with the bank holding company’s internal risk management processes and management information reporting systems.

(3) Each bank holding company must have an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the bank holding company’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a bank holding company’s risk-based capital requirements are located at any affiliate of the bank holding company, the bank holding company itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures.

(1) A bank holding company must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the bank holding company’s wholesale and retail exposures.

(2) For wholesale exposures:

(i) A bank holding company must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). A bank holding company may elect, however, not to assign to a rating grade an obligor to whom the bank holding company extends credit based solely on the financial strength of a guarantor, provided that all of the bank holding company’s exposures to the obligor are fully covered by eligible guarantees, the bank holding company applies the PD substitution approach in paragraph (c)(1) of section 33 of this appendix.
to all exposures to that obligor, and the bank holding company immediately assigns the obligor to a rating grade if a guarantee can no longer be recognized under this appendix.

(ii) Unless the bank holding company has chosen to directly assign LGD estimates to each wholesale exposure, the bank holding company must have an internal risk rating system that accurately and reliably assigns each wholesale exposure to a loss severity rating grade (reflecting the bank holding company’s estimate of the LGD of the exposure). A bank holding company employing loss severity rating grades must have a sufficiently granular loss severity grading system to avoid grouping together exposures with widely ranging LGDs.

(3) For retail exposures, a bank holding company must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank holding company’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(ii) and (iii) of section 31 of this appendix.

(4) The bank holding company’s internal risk rating policy for wholesale exposures must describe the bank holding company’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank holding company’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank holding company’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank holding company receives new material information, but no less frequently than annually. The bank holding company’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank holding company receives new material information, but generally no less frequently than quarterly.

(c) Quantification of risk parameters for wholesale and retail exposures. (1) The bank holding company must have a comprehensive risk parameter quantification process that produces accurate, timely, and reliable estimates of the risk parameters for the bank holding company’s wholesale and retail exposures.

(2) Data used to estimate the risk parameters must be relevant to the bank holding company’s actual wholesale and retail exposures, and of sufficient quality to support the determination of risk-based capital requirements for the exposures.

(3) The bank holding company’s risk parameter quantification process must produce appropriately conservative risk parameter estimates where the bank holding company has limited relevant data, and any adjustments that are part of the quantification process must not result in a pattern of bias toward lower risk parameter estimates.

(4) The bank holding company’s risk parameter estimation process should not rely on the possibility of U.S. government financial assistance, except for the financial assistance that the U.S. government has a legally binding commitment to provide.

(5) Where the bank holding company’s quantifications of LGD directly or indirectly incorporate estimates of the effectiveness of its credit risk management practices in reducing its exposure to troubled obligors prior to default, the bank holding company must support such estimates with empirical analysis showing that the estimates are consistent with its historical experience in dealing with such exposures during economic downturn conditions.

(6) PD estimates for wholesale obligors and retail segments must be based on at least five years of default data. LGD estimates for wholesale exposures must be based on at least seven years of loss severity data, and LGD estimates for retail segments must be based on at least five years of loss severity data. EAD estimates for wholesale exposures must be based on at least seven years of exposure amount data, and EAD estimates for retail segments must be based on at least five years of exposure amount data.

(7) Default, loss severity, and exposure amount data must include periods of economic downturn conditions, or the bank holding company must adjust its estimates of risk parameters to compensate for the lack of data from periods of economic downturn conditions.

(8) The bank holding company’s PD, LGD, and EAD estimates must be based on the definition of default in this appendix.

(9) The bank holding company must review and update (as appropriate) its risk parameters and its risk parameter quantification process at least annually.

(10) The bank holding company must at least annually conduct a comprehensive review and analysis of reference data to determine relevance of reference data to the bank holding company’s exposures, quality of reference data to support PD, LGD, and EAD estimates, and consistency of reference data to the definition of default contained in this appendix.
Federal Reserve System

Pt. 225, App. G

(d) Counterparty credit risk model. A bank holding company must obtain the prior written approval of the Federal Reserve under section 32 of this appendix to use the internal models methodology for counterparty credit risk.

(e) Double default treatment. A bank holding company must obtain the prior written approval of the Federal Reserve under section 34 of this appendix to use the double default treatment.

(f) Securitization exposures. A bank holding company must obtain the prior written approval of the Federal Reserve under section 44 of this appendix to use the Internal Assessment Approach for securitization exposures to ABCP programs.

(g) Equity exposures model. A bank holding company must obtain the prior written approval of the Federal Reserve under section 53 of this appendix to use the Internal Models Approach for equity exposures.

(h) Operational risk—(1) Operational risk management processes. A bank holding company must:
   (i) Have an operational risk management function that:
      (A) Must be independent of business line management; and
      (B) Is responsible for designing, implementing, and overseeing the bank holding company’s operational risk data and assessment systems, operational risk quantification systems, and related processes;
   (ii) Have and document a process (which must capture business environment and internal control factors affecting the bank holding company’s operational risk profile) to identify, measure, monitor, and control operational risk in bank holding company products, activities, processes, and systems; and
   (iii) Report operational risk exposures, operational loss events, and other relevant operational risk information to business unit management, senior management, and the board of directors (or a designated committee of the board).

   (2) Operational risk data and assessment systems. A bank holding company must have operational risk data and assessment systems that capture operational risks to which the bank holding company is exposed. The bank holding company’s operational risk data and assessment systems must:
      (i) Be structured in a manner consistent with the bank holding company’s current business activities, risk profile, technological processes, and risk management processes; and
      (ii) Include credible, transparent, systematic, and verifiable processes that incorporate the following elements on an ongoing basis:
         (A) Internal operational loss event data. The bank holding company must have a systematic process for capturing and using internal operational loss event data in its operational risk data and assessment systems.

   (1) The bank holding company’s operational risk data and assessment systems must include a historical observation period of at least five years for internal operational loss event data (or such shorter period approved by the Federal Reserve to address transitional situations, such as integrating a new business line).

   (2) The bank holding company must be able to map its internal operational loss event data into the seven operational loss event type categories.

   (3) The bank holding company may refrain from collecting internal operational loss event data for individual operational losses below established dollar threshold amounts if the bank holding company can demonstrate to the satisfaction of the Federal Reserve that the thresholds are reasonable, do not exclude important internal operational loss event data, and permit the bank holding company to capture substantially all the dollar value of the bank holding company’s operational losses.

   (B) External operational loss event data. The bank holding company must have a systematic process for determining its methodologies for incorporating external operational loss event data into its operational risk data and assessment systems.

   (C) Scenario analysis. The bank holding company must have a systematic process for determining its methodologies for incorporating scenario analysis into its operational risk data and assessment systems.

   (D) Business environment and internal control factors. The bank holding company must incorporate business environment and internal control factors into its operational risk data and assessment systems. The bank holding company must also periodically compare the results of its prior business environment and internal control factor assessments against its actual operational losses incurred in the intervening period.

   (3) Operational risk quantification systems. (1) The bank holding company’s operational risk quantification systems:
      (A) Must generate estimates of the bank holding company’s operational risk exposure using its operational risk data and assessment systems;
      (B) Must employ a unit of measure that is appropriate for the bank holding company’s range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;
      (C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (b)(2)(ii) of this section, that a bank holding company is required to
incorporate into its operational risk data and assessment systems;
(D) May use internal estimates of dependence among operational losses across and within business lines as a measure if the bank holding company can demonstrate to the satisfaction of the Federal Reserve that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with integrity, and allows for the uncertainty surrounding the estimates. If the bank holding company has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and
(E) Must be reviewed and updated (as appropriate) whenever the bank holding company becomes aware of information that may have a material effect on the bank holding company’s estimate of operational risk exposure, but the review and update must occur no less frequently than annually.
(ii) [Reserved]
(i) Data management and maintenance. (1) A bank holding company must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.
(2) A bank holding company must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.
(3) A bank holding company must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.
(j) Control, oversight, and validation mechanisms. (1) The bank holding company’s senior management must ensure that all components of the bank holding company’s advanced systems function effectively and comply with the qualification requirements in this section.
(2) The bank holding company’s board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the bank holding company’s advanced systems.
(3) A bank holding company must have an effective system of controls and oversight that:
(i) Ensures ongoing compliance with the qualification requirements in this section;
(ii) Maintains the integrity, reliability, and accuracy of the bank holding company’s advanced systems; and
(iii) Includes adequate governance and project management processes.
(k) Documentation. The bank holding company must adequately document all material aspects of its advanced systems.

Section 23. Ongoing Qualification
(a) Changes to advanced systems. A bank holding company must meet all the qualification requirements in section 22 of this appendix on an ongoing basis. A bank holding company must notify the Federal Reserve when the bank holding company makes any change to an advanced system that would result in a material change in the bank holding company’s risk-weighted asset amount for an exposure type, or when the bank holding company makes any significant change to its modeling assumptions.
(b) Failure to comply with qualification requirements. (1) If the Federal Reserve determines that a bank holding company that uses this appendix and has conducted a satisfactory parallel run fails to comply with the qualification requirements in section 22 of this appendix, the Federal Reserve will notify the bank holding company in writing of the bank holding company’s failure to comply.
(2) The bank holding company must establish and submit a plan satisfactory to the Federal Reserve to return to compliance with the qualification requirements.
(3) In addition, if the Federal Reserve determines that the bank holding company’s risk-based capital requirements are not commensurate with the bank holding company’s credit, market, operational, or other risks, the Federal Reserve may require such a bank holding company to calculate its risk-based capital requirements.
Section 24. Merger and Acquisition Transitional Arrangements

(a) Mergers and acquisitions of companies without advanced systems. If a bank holding company merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the bank holding company may use 12 CFR part 225, appendix A to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The Federal Reserve may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the bank holding company must submit to the Federal Reserve an implementation plan for using its advanced systems for the merged or acquired company.

(b) Mergers and acquisitions of companies with advanced systems—(1) If a bank holding company merges with or acquires a company that does calculate its risk-based capital requirements using advanced systems, the Federal Reserve may extend during which the acquisition or merger consummates. The Federal Reserve may extend within 90 days of consummating this transition period for up to an additional 24 months after the calendar quarter during which the merger or acquisition consummates. The Federal Reserve may extend the period when 12 CFR part 225, appendix A apply to the acquiring bank holding company, the ALLL associated with the exposures of the merged or acquired company may not be directly included in tier 2 capital. Rather, any excess eligible credit reserves associated with the merged or acquired company’s exposures may be included in the bank holding company’s tier 2 capital up to 0.6 percent of the credit-risk-weighted assets associated with those exposures.

PART IV. RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK

Section 31. Mechanics for Calculating Total Wholesale and Retail Risk-Weighted Assets

(a) Overview. A bank holding company must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

(1) Phase 1—categorization of exposures;

(2) Phase 2—assignment of wholesale obligors and exposures to rating grades and segmentation of retail exposures;

(3) Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and

(4) Phase 4—calculation of risk-weighted asset amounts.

(b) Phase 1—Categorization. The bank holding company must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The bank holding company must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The bank holding company must identify which wholesale exposures are HCVRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, unsettled transactions to which section 35 of this appendix applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The bank holding company must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (c)(4) of this section.

(c) Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments—(1) Assignment of wholesale obligors and exposures to rating grades.

(i) The bank holding company must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not
Pt. 225, App. G

12 CFR Ch. II (1–1–13 Edition)

directly assign an LGD estimate to a loss severity rating grade.

(ii) The bank holding company must identify which of its wholesale obligors are in default.

(2) Segmentation of retail exposures. (i) The bank holding company must group the retail exposures in each retail subcategory into segments that have homogeneous risk characteristics.

(ii) The bank holding company must identify which of its retail exposures are in default. The bank holding company must segment defaulted retail exposures separately from non-defaulted retail exposures.

(iii) If the bank holding company determines the EAD for eligible margin loans using the approach in paragraph (b) of section 32 of this appendix, the bank holding company must identify which of its retail exposures are eligible margin loans for which the bank holding company uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

(3) Eligible purchased wholesale exposures. A bank holding company may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. A bank holding company must use the wholesale exposure formula in Table 2 in this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

(d) Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures—(1) Quantification process. Subject to the limitations in this paragraph (d), the bank holding company must:

(i) Associate a PD with each wholesale obligor or retail segment.

(ii) Associate an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure.

(iii) Assign an EAD and M to each wholesale exposure; and

(iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

(2) Floor on PD assignment. The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the bank holding company assigns a rating grade associated with a PD of less than 0.03 percent.

(3) Floor on LGD estimation. The LGD for each segment of residential mortgage exposures (other than segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is directly and unconditionally guaranteed by the full faith and credit of a sovereign entity) may not be less than 10 percent.

(4) Eligible purchased wholesale exposures. A bank holding company must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the bank holding company can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the bank holding company must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals ECL divided by EAD. The estimated ECL must be calculated for the exposures without regard to any assumption of recourse or guarantees from the seller or other parties.

(5) Credit risk mitigation—credit derivatives, guarantees, and collateral. (i) A bank holding company may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure by applying the PD substitution or LGD adjustment treatment to the exposure as provided in section 33 of this appendix or, if applicable, applying double default treatment to the exposure as provided in section 34 of this appendix. A bank holding company may decide separately for each wholesale exposure that qualifies for the double default treatment under section 34 of this appendix whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.

(ii) A bank holding company may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment.

(iii) Except as provided in paragraph (d)(6) of this section, a bank holding company may take into account the risk reducing effects of collateral in support of a wholesale exposure when quantifying the LGD of the exposure and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment.

(6) EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans. (i) A bank holding company must calculate its EAD for an OTC derivative contract as provided in paragraphs (c) and (d) of section 32 of this appendix. A bank holding company may take into account the risk reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction that is included in the bank holding company’s VaR-based measure under 12 CFR part 225, appendix E through an adjustment to EAD as provided in paragraphs (b) and (d) of section 32 of this appendix. A bank holding company that takes collateral into account through such an adjustment to EAD under section 32 of this appendix may not reflect such collateral in LGD.

370
(ii) A bank holding company may attribute an EAD of zero to:
(A) Derivative contracts that are publicly traded on an exchange that requires the daily receipt and payment of cash-variation margin;
(B) Derivative contracts and repo-style transactions that are outstanding with a qualifying central counterparty (but not for those transactions that a qualifying central counterparty has rejected); and
(C) Credit risk exposures to a qualifying central counterparty in the form of clearing deposits and posted collateral that arise from transactions described in paragraph (d)(6)(ii)(B) of this section.

(7) Effective maturity. An exposure’s M must be no greater than five years and no less than one year, except that an exposure’s M must be no less than one day if the exposure has an original maturity of less than one year and is not part of a bank holding company’s ongoing financing of the obligor. An exposure is not part of a bank holding company’s ongoing financing of the obligor if the bank holding company:
(i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;
(ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and
(iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(e) Phase 4—Calculation of risk-weighted assets—(1) Non-defaulted exposures. (i) A bank holding company must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except eligible guarantees and eligible credit derivatives that hedge another wholesale exposure and exposures to which the bank holding company applies the double default treatment in section 34 of this appendix) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 2 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, a bank holding company may apply a 300 percent risk weight to the EAD of an eligible margin loan if the bank holding company is not able to meet the agencies’ requirements for estimation of PD and LGD for the margin loan.

\(^1\text{N}(\cdot)\) means the cumulative distribution function for a standard normal random variable. \(N^{-1}(\cdot)\) means the inverse cumulative distribution function for a standard normal random variable. The symbol \(e\) refers to the base of the natural logarithms, and the function \(\ln(\cdot)\) refers to the natural logarithm of the expression within parentheses. The formulas apply when PD is greater than zero. If PD equals zero, the capital requirement \(K\) is set equal to zero.

(ii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in paragraph (e) of section 34 of this appendix equals the total dollar risk-based capital requirement for those exposures and segments.

(iii) The aggregate risk-weighted asset amount for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(1)(ii) of this section multiplied by 12.5.

(2) Wholesale exposures to defaulted obligors and segments of defaulted retail exposures. (i) The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor equals 0.08 multiplied by the EAD of the exposure.

(ii) The dollar risk-based capital requirement for a segment of defaulted retail exposures equals 0.08 multiplied by the EAD of the segment.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements for each segment of defaulted retail exposures...
12 CFR part 225, appendix E. A third method-
transactions that are included in a bank
the counterparty credit risk of repo-style
the benefits of any collateral in mitigating
sets of such transactions and to recognize
able for single product netting sets of repo-
style transactions and eligible margin loans.
(2) This section also describes the method-
ology for calculating EAD for an OTC deriva-
tive contract or a set of OTC derivative con-
tracts subject to a qualifying master netting
agreement. A bank holding company also
may use the internal models methodology to
estimate EAD for qualifying cross-product
master netting agreements.
(3) A bank holding company may only use
the standard supervisory haircut approach
with a minimum 10-business-day holding pe-
riod to recognize in EAD the benefits of con-
forming residential mortgage collateral that
secures repo-style transactions (other than
repo-style transactions included in the bank
holding company’s VaR-based measure under
12 CFR part 225, appendix E), eligible margin
loans, and OTC derivative contracts.
(4) A bank holding company may use any
combination of the three methodologies for
collateral recognition; however, it must use
the same methodology for similar exposures.
(b) EAD for eligible margin loans and repo-
style transactions—(1) General. A bank holding
company may recognize the credit risk miti-
gation benefits of financial collateral that
secures an eligible margin loan, repo-style
transaction, or single-product netting set of
such transactions by factoring the collateral
into its LGD estimates for the exposure. Al-
ternatively, a bank holding company may es-
imate an unsecured LGD for the exposure,
as well as for any repo-style transaction that
is included in the bank holding company’s
VaR-based measure under 12 CFR part 225,
appendix E, and determine the EAD of the
exposure using:
(i) The collateral haircut approach de-
scribed in paragraph (b)(2) of this section;
(ii) For netting sets only, the simple VaR
methodology described in paragraph (b)(3) of
this section; or
(iii) The internal models methodology de-
scribed in paragraph (d) of this section.
(2) Collateral haircut approach—(i) EAD equation. A bank holding company may
determine EAD for an eligible margin loan,
repo-style transaction, or netting set by set-
ting EAD equal to max \(0, \left[\Sigma E - \Sigma C \right] \times \sum \text{EAD}_i \times H_i\), where:
(A) \(\Sigma E\) equals the value of the exposure
the sum of the current market values of all
instruments, gold, and cash the bank holding
company has lent, sold subject to repur-
chase, or posted as collateral to the counterparty
under the transaction (or net-
ing set);
(B) \(\Sigma C\) equals the value of the collateral
the sum of the current market values of all
instruments, gold, and cash the bank holding
company has borrowed, purchased subject to
resale, or taken as collateral from the counterparty
under the transaction (or net-
ing set);
(C) Es equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the sum of the current market values of the instrument or gold the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of that same instrument or gold the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and

(D) Hs equals the market price volatility haircut appropriate to the instrument or gold referenced in Es;

(E) Efx equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current market values of any instruments or cash in the currency the bank holding company has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of any instruments or cash in the currency the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and

(F) Hfx equals the haircut appropriate to the mismatch between the currency referenced in Efx and the settlement currency.

(2) For currency mismatches, a bank holding company may use a haircut for foreign exchange rate volatility (Hfx) of 8 percent, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section.

(3) For repo-style transactions, a bank holding company may multiply the supervisory haircuts provided in paragraphs (b)(2)(i)(A)(3) and (4) of this section by the square root of \( \frac{9}{10} \) (which equals 0.707107).

(4) A bank holding company must adjust the supervisory haircuts upward on the basis of a holding period longer than ten business days (for eligible margin loans) or five business days (for repo-style transactions) where and as appropriate to take into account the illiquidity of an instrument.

(iii) Own internal estimates for haircuts. With the prior written approval of the Federal Reserve, a bank holding company may calculate haircuts (Hs and Hfx) using its own internal estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive Federal Reserve approval to use its own internal estimates, a bank holding company must satisfy the following minimum quantitative standards:

(i) A bank holding company must use its own internal estimates, a bank holding company must use the haircuts for market price volatility (Hs) in Table 3, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section;

*The market price volatility haircuts in Table 3 are based on a ten-business-day holding period.*
calculated using the following square root of time formula:

\[
H_M = H_N \sqrt{\frac{T_M}{T_N}}, \text{ where}
\]

(i) \(T_M\) equals 5 for repo-style transactions and 10 for eligible margin loans;
(ii) \(T_N\) equals the holding period used by the bank holding company to derive \(H_C\);
(iii) \(H_C\) equals the haircut based on the holding period \(T_N\).

A bank holding company must adjust holding periods upwards where and as appropriate to take into account the illiquidity of an instrument.

(d) The historical observation period must be at least one year.

(5) A bank holding company must update its data sets and recompute haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(B) With respect to debt securities that have an applicable external rating of investment grade, a bank holding company may calculate haircuts for categories of securities. For a category of securities, the bank holding company must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the bank holding company has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the bank holding company must at a minimum take into account:

(i) The type of issuer of the security;
(ii) The maturity of the security; and
(iii) The interest rate sensitivity of the security.

(C) With respect to debt securities that have an applicable external rating of below investment grade and equity securities, a bank holding company must calculate a separate haircut for each individual security.

(D) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the bank holding company must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(E) A bank holding company’s own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

(3) Simple VaR methodology. With the prior written approval of the Federal Reserve, a bank holding company may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(3)(ii) of this section. In such event, the bank holding company must set EAD equal to \([0, (E_\Sigma - C) + PFE]\), where:

(i) \(E_\Sigma\) equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the bank holding company has lent, sold subject to repurchase, posted as collateral to the counterparty under the netting set);

(ii) \(C\) equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the bank holding company has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the netting set); and

(iii) \(PFE\) (potential future exposure) equals the bank holding company’s empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of \((E_\Sigma - C)\) over a five-business-day holding period for repo-style transactions or over a ten-business-day holding period for eligible margin loans using a minimum one-year historical observation period for price data representing the instruments that the bank holding company has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. The bank holding company must validate its VaR model, including by establishing and maintaining a rigorous and regular back-testing regime.

(c) EAD for OTC derivative contracts. (1) A bank holding company must determine the EAD for an OTC derivative contract that is not subject to a qualifying master netting agreement using the current exposure methodology described in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(2) A bank holding company must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology described in paragraph (d) of this section.

(3) Counterparty credit risk for credit derivatives. Notwithstanding the above, (1) A bank holding company that purchases a credit derivative that is recognized under section 33 or 34 of this appendix as a credit risk mitigant for an exposure that is not a covered position under 12 CFR part 225, appendix E need not compute a separate counterparty credit risk capital requirement under this section so long as the bank holding company
does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) A bank holding company that is the protection provider in a credit derivative must treat the credit derivative as a wholesale exposure to the reference obligor and need not compute a counterparty credit risk capital requirement for the credit derivative under this section, so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the bank holding company is treating the credit derivative as a covered position under 12 CFR part 225, appendix E, in which case the bank holding company must compute a supplemental counterparty credit risk capital requirement under this section).

(4) Counterparty credit risk for equity derivatives. A bank holding company must treat an equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the equity derivative contract under part VI (unless the bank holding company is treating the contract as a covered position under 12 CFR part 225, appendix E). In addition, if the bank holding company is treating the contract as a covered position under 12 CFR part 225, appendix E and in certain other cases described in section 55 of this appendix, the bank holding company must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this part.

(5) Single OTC derivative contract. Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the bank holding company’s current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

(ii) PFE. The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-market value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 4. For purposes of calculating either the PFE under this paragraph or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each settlement date, and each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 4, the PFE must be calculated using the “other” conversion factors. A bank holding company must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider in a credit derivative is capped at the net present value of the amount of unpaid premiums.

1. For an OTC derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.
2. For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the market value of the contract is zero, the remaining maturity equals the time until the next reset date.
3. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the conversion factor is 0.9065.
4. A bank holding company must use the column labeled “Credit (investment-grade reference obligor)” for a credit derivative whose reference obligor has an outstanding unsecured long-term debt security without credit enhancement that has a long-term applicable external rating of at least investment grade. A bank holding company must use the column labeled “Credit (non-investment-grade reference obligor)” for all other credit derivatives.

(6) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is the sum of the EADs for each of the contracts.
contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of:

(A) The net sum of all positive and negative mark-to-market values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) zero.

(ii) Adjusted sum of the PFE. The adjusted sum of the PFE, Anet, is calculated as Anet = (0.6 × Agross) + (0.6 × NGR × Agross), where:

(A) Agross = the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual OTC derivative contract subject to the qualifying master netting agreement); and

(B) NGR = the net to gross ratio (that is, the ratio of the net current credit exposure to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (c)(5)(i) of this section) of all individual OTC derivative contracts subject to the qualifying master netting agreement.

(7) Collateralized OTC derivative contracts. A bank holding company may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, a bank holding company may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked to market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The bank holding company must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for ΔE in the equation in paragraph (b)(2)(i) of this section and must use a ten-business-day minimum holding period (T in Paragraph 377). If a more conservative measure of EAD.

(A) EffectiveEADtk = EffectiveEADtk × Δtk

(7) Internal models methodology. (1) With prior written approval from the Federal Reserve, a bank holding company may use the internal models methodology in this paragraph (d) to determine EAD for counterparty credit risk for OTC derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof. A bank holding company that uses the internal models methodology for a particular transaction type (OTC derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type. A bank holding company may choose to use the internal models methodology for one or two of these three types of exposures and not the other types. A bank holding company may also use the internal models methodology for OTC derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(i) The bank holding company effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(ii) The bank holding company obtains the prior written approval of the Federal Reserve. A bank holding company that uses the internal models methodology for a transaction type must receive approval from the Federal Reserve to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) Under the internal models methodology, a bank holding company uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE.

(i) The bank holding company must use its internal model’s probability distribution for changes in the market value of a netting set that are attributable to changes in market variables to determine EE.

(ii) Under the internal models methodology, EAD = α × effective EPE, or, subject to Federal Reserve approval as provided in paragraph (d)(7), a more conservative measure of EAD.

(A) EffectiveEPEtk = EffectiveEADtk × Δtk

(7) Federal Reserve System

Pt. 225, App. G
Alternatively, a bank holding company that uses an internal model to calculate a one-sided credit valuation adjustment may use the effective credit duration estimated by the model as \( M(EPE) \) in place of the formula in paragraph (d)(4).

378
receipt of collateral when counterparty credit quality deteriorates. For this purpose, a collateral agreement means a legal contract that specifies the time when, and circumstances under which, the counterparty is required to pledge collateral to the bank holding company for a single financial contract or for all financial contracts in a netting set. The agreement is effective only if it is a perfected, first priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof. In the collateral posted by the counterparty under the agreement. This security interest must provide the bank holding company with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the bank holding company’s exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions. Two methods are available to capture the effect of a collateral agreement:

(i) With prior written approval from the Federal Reserve, a bank holding company may include the effect of a collateral agreement within its internal model used to calculate EAD. The bank holding company may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next required exchange of collateral plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where applicable, the period of time required to re-hedge the resulting market risk, upon the default of the counterparty. The minimum margin period of risk is five business days for repo-style transactions and ten business days for other transactions when liquid financial collateral is posted under a daily margin maintenance requirement. This period should be extended to cover any additional time between margin calls; any potential closeout difficulties; any delays in selling collateral, particularly if the collateral is illiquid; and any impediments to prompt re-hedging of any market risk.

(ii) A bank holding company that can model EPE without collateral agreements but cannot achieve the higher level of modeling sophistication to model EPE with collateral agreements can set effective EPE for a collateralized netting set equal to the lesser of:

(A) The threshold, defined as the exposure amount at which the counterparty is required to post collateral under the collateral agreement, if the threshold is positive, plus an add-on that reflects the potential increase in exposure of the netting set over the margin period of risk. The add-on is computed as the expected increase in the netting set’s exposure beginning from current exposure of zero over the margin period of risk. The margin period of risk must be at least five business days for netting sets consisting only of repo-style transactions subject to daily re-margining and daily marking-to-market, and ten business days for all other netting sets; or

(B) Effective EPE without a collateral agreement.

(6) Own estimate of alpha. With prior written approval of the Federal Reserve, a bank holding company may calculate alpha as the ratio of economic capital from a full simulation of counterparty exposure across counterparties that incorporates a joint simulation of market and credit risk factors (numerator) and economic capital based on EPE (denominator), subject to a floor of 1.2. For purposes of this calculation, economic capital is the unexpected losses for all counterparty credit risks measured at a 99.9 percent confidence level over a one-year horizon. To receive approval, the bank holding company must meet the following minimum standards to the satisfaction of the Federal Reserve:

(i) The bank holding company’s own estimate of alpha must capture in the numerator the effects of:

(A) The material sources of stochastic dependency of distributions of market values of transactions or portfolios of transactions across counterparties;

(B) Effective EPE without a collateral agreement.

(ii) The bank holding company must assess the potential model uncertainty in its estimates of alpha.

(iii) The bank holding company must calculate the numerator and denominator of alpha in a consistent fashion with respect to modeling methodology, parameter specifications, and portfolio composition.

(iv) The bank holding company must review and adjust as appropriate its estimates of the numerator and denominator of alpha on at least a quarterly basis and more frequently when the composition of the portfolio varies over time.

(7) Other measures of counterparty exposure. With prior written approval of the Federal Reserve, a bank holding company may set EAD equal to a measure of counterparty
credit risk exposure, such as peak EAD, that is more conservative than an alpha of 1.4 (or higher under the terms of paragraph (d)(2)(i)(B) of this section) times EPE for every counterparty whose EAD will be measured under the alternative measure of counterparty exposure. The bank holding company must demonstrate the conservatism of the measure of counterparty credit risk exposure used for EAD. For material portfolios of new OTC derivative products, the bank holding company may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this paragraph for a period not to exceed 180 days. For immaterial portfolios of OTC derivative contracts, the bank holding company generally may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this paragraph.

Section 33. Guarantees and Credit Derivatives: PD Substitution and LGD Adjustment Approaches

(a) Scope. (1) This section applies to wholesale exposures for which:

(i) Credit risk is fully covered by an eligible guarantee or eligible credit derivative; or

(ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the bank holding company and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Wholesale exposures on which there is a triggering of credit risk (reflecting at least two different levels of seniority) are securitization exposures subject to the securitization framework in part V.

(3) A bank holding company may elect to recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative covering an exposure described in paragraph (a)(1) of this section by using the PD substitution approach or the LGD adjustment approach in paragraph (c) of this section or, if the transaction qualifies, using the double default treatment in section 34 of this appendix. A bank holding company’s PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in paragraphs (d)(2) and (d)(3) of section 31 of this appendix.

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in paragraph (a)(1) of this section, a bank holding company may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-based capital requirement for each separate exposure as described in paragraph (a)(3) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged wholesale exposures described in paragraph (a)(1) of this section, a bank holding company must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and must calculate a separate risk-based capital requirement for each exposure as described in paragraph (a)(3) of this section.

(b) Rules of recognition. (1) A bank holding company may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A bank holding company may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative’s reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks pari passu (that is, equally) with or is junior to the hedged exposure; and

(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, a bank holding company may recognize the guarantee or credit derivative in determining the bank holding company’s risk-based capital requirement for the hedged exposure by substituting the PD associated with the rating grade of the protection provider for the PD associated with the rating grade of the obligor in the risk-based capital formula applicable to the guarantee or credit derivative in Table 2 and using the appropriate LGD as described in paragraph (c)(1)(iii) of this section. If the bank holding company determines that full substitution of the protection provider’s PD leads to an inappropriate degree of risk mitigation, the bank holding company may substitute a higher PD than that of the protection provider.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.
risk mitigation benefit of the guarantee or credit derivative.

(A) The bank holding company must calculate its risk-based capital requirement for the protected exposure under section 31 of this appendix, where PD is the protection provider’s PD, LGD is determined under paragraph (c)(1)(iii) of this section, and EAD is P. If the bank holding company determines that full substitution leads to an inappropriate degree of risk mitigation, the bank holding company may use a higher PD than that of the protection provider.

(B) The bank holding company must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in this paragraph (c)(1)(ii) is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraph (d), (e), or (f) of this section.

(ii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank holding company with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank holding company with the option to receive immediate payout upon triggering the protection.

(iii) LGD adjustment approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank holding company’s risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The bank holding company must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(i) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank holding company’s risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The bank holding company must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(iii) M of hedged exposures. The M of the hedged exposure is the same as the M of the exposure if it were unhedged.

(d) Maturity mismatch. (1) A bank holding company that recognizes an eligible guarantee or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfill its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the bank holding company (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the bank holding company (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the bank holding company to call the transaction before contractual maturity, the remaining time to
the first call date is the residual maturity of the credit risk mitigant. For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the bank holding company must apply the following adjustment to the effective notional amount of the credit risk mitigant:

\[ P_m = E \times \left(1 - H_{FX}\right) \]

where:

(i) \( P_m \) = effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) \( E \) = effective notional amount of the credit risk mitigant;

(iii) \( t \) = the lesser of \( T \) or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) \( T \) = the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) Credit derivatives without restructuring as a credit event. If a bank holding company recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the bank holding company must apply the following adjustment to the effective notional amount of the credit derivative:

\[ P_r = P_m \times 0.60 \]

where:

(i) \( P_r \) = effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable); and

(2) \( P_m \) = effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) Currency mismatch. (1) If a bank holding company recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the bank holding company must apply the following formula to the effective notional amount of the guarantee or credit derivative:

\[ P_c = P_r \times (1 - H_{FX}) \]

where:

(i) \( P_c \) = effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);

(ii) \( P_r \) = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(iii) \( H_{FX} = \) haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A bank holding company must set \( H_{FX} \) equal to 8 percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remargining. A bank holding company qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircuts in paragraph (b)(2)(iii) of section 32 of this appendix;

(ii) The simple VaR methodology in paragraph (b)(3) of section 32 of this appendix; or

(iii) The internal models methodology in paragraph (d) of section 32 of this appendix.

(3) A bank holding company must adjust \( H_{FX} \) calculated in paragraph (f)(2) of this section upward if the bank holding company revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in paragraph (b)(2)(iii)(A)(2) of section 32 of this appendix.

Section 34. Guarantees and Credit Derivatives: Double Default Treatment

(a) Eligibility and operational criteria for double default treatment. A bank holding company may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in paragraph (a)(1) of section 33 of this appendix by applying the double default treatment in this section if all the following criteria are satisfied.

(1) The hedged exposure is fully covered or covered on a pro rata basis by:

(i) An eligible guarantee issued by an eligible double default guarantor; or

(ii) An eligible credit derivative that meets the requirements of paragraph (b)(2) of section 33 of this appendix and is issued by an eligible double default guarantor.

(2) The guarantee or credit derivative is:

(i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or

(ii) An nth-to-default credit derivative (subject to the requirements of paragraph (m) of section 42 of this appendix).

(3) The hedged exposure is a wholesale exposure (other than a sovereign exposure).

(4) The obligor of the hedged exposure is not:

(i) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or

(ii) An affiliate of the guarantor.

(5) The bank holding company does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the
hedged exposure other than through application of the double default treatment as provided in this section.

(b) The bank holding company has implemented a process (which has received the prior, written approval of the Federal Reserve) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the bank holding company may not use the double default treatment for the hedged exposure.

(b) Full coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount \(P\) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the bank holding company may determine its risk-weighted asset amount for the hedged exposure under paragraph (e) of this section.

(c) Partial coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount \(P\) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank holding company must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure.

(1) For the protected exposure, the bank holding company must set EAD equal to \(P\) and calculate its risk-weighted asset amount as provided in paragraph (e) of this section.

(2) For the unprotected exposure, the bank holding company must set EAD equal to the EAD of the original exposure minus \(P\) and then calculate its risk-weighted asset amount as provided in section 31 of this appendix.

(d) Mismatches. For any hedged exposure to which a bank holding company applies double default treatment, the bank holding company must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix.

(e) The double default dollar risk-based capital requirement. The dollar risk-based capital requirement for a hedged exposure to which a bank holding company has applied double default treatment is \(K_{DD}\) multiplied by the EAD of the exposure. \(K_{DD}\) is calculated according to the following formula:

\[
K_{DD} = K_0 \times (0.15 + 160 \times PD_g),
\]

Where:

(1) \(K_0\) is calculated according to the appropriate formula for \(K\) provided in Table 2 in section 31 of this appendix, with PD equal to \(PD_o\).

(2) \(PD_g\) is PD of the protection provider.

(3) \(PD_o\) is PD of the obligor of the hedged exposure.

(4) \(LGD_g\) is (i) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank holding company with the option to receive immediate payout on triggering the protection; or (ii) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank holding company with the option to receive immediate payout on triggering the protection.

(5) \(r_{OS}\) (asset value correlation of the obligor) is calculated according to the appropriate formula for \(R\) provided in Table 2 in section 31 of this appendix, with PD equal to \(PD_o\).

(6) \(b\) (maturity adjustment coefficient) is calculated according to the formula for \(b\) provided in Table 2 in section 31 of this appendix, with PD equal to the lesser of \(PD_o\) and \(PD_g\).

(7) \(M\) (maturity) is the effective maturity of the guarantee or credit derivative, which may not be less than one year or greater than five years.

Section 35. Risk-Based Capital Requirement for Unsettled Transactions

(a) Definitions. For purposes of this section:

(1) Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.

(2) Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.

(3) Normal settlement period. A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for
the instrument underlying the transaction and equal to or less than five business days.

(4) Positive current exposure. The positive current exposure of a bank holding company for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the bank holding company to the counterparty.

(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

(1) Transactions accepted by a qualifying central counterparty that are subject to daily marking-to-market and daily receipt and payment of variation margin;

(2) Repo-style transactions, including unsettled repo-style transactions (which are addressed in sections 31 and 32 of this appendix);

(3) One-way cash payments on OTC derivative contracts (which are addressed in sections 31 and 32 of this appendix); or

(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in sections 31 and 32 of this appendix).

(c) System-wide failures. In the case of a system-wide failure of a settlement or clearing system, the Federal Reserve may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. A bank holding company must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the bank holding company has received its corresponding deliverables by the end of the same business day. The bank holding company must continue to hold risk-based capital against the transaction until the bank holding company has received its corresponding deliverables.

(2) From the business day after the bank holding company has made its delivery until five business days after the counterparty delivery is due, the bank holding company must calculate its risk-based capital requirement for the transaction by treating the current market value of the deliverables owed to the bank holding company as a wholesale exposure.

(i) A bank holding company may assign an obligor rating to a counterparty for which it is not otherwise required under this appendix to assign an obligor rating on the basis of the applicable external rating of any outstanding unsecured long-term debt security without credit enhancement issued by the counterparty.

(ii) A bank holding company may use a 45 percent LGD for the transaction rather than estimating LGD for the transaction provided the bank holding company uses the 45 percent LGD for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(iii) A bank holding company may use a 100 percent risk weight for the transaction provided the bank holding company uses this risk weight for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(3) If the bank holding company has not received its deliverables by the fifth business day after the counterparty delivery was due, the bank holding company must deduct the current market value of the deliverables owed to the bank holding company 50 percent from tier 1 capital and 50 percent from tier 2 capital.

(f) Total risk-weighted assets for unsettled transactions. Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

</tr>
</tbody>
</table>

(e) Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) A bank holding company must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the bank holding company has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The bank holding company must continue to hold risk-based capital against the transaction until the bank holding company has received its corresponding deliverables.

Section 41. Operational Criteria for Recognizing the Transfer of Risk

(a) Operational criteria for traditional securitizations. A bank holding company that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. A bank holding
company that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A bank holding company that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(1) The transfer is considered a sale under GAAP;

(2) The bank holding company has transferred to third parties credit risk associated with the underlying exposures; and

(3) Any clean-up calls relating to the securitization are eligible clean-up calls.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, a bank holding company may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. A bank holding company that fails to meet these conditions must hold risk-based capital against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is financial collateral, an eligible credit derivative from an eligible securitization guarantor or an eligible guarantee from an eligible securitization guarantor;

(2) The bank holding company transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:

(i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;

(ii) Require the bank holding company to alter or replace the underlying exposures to improve the credit quality of the pool of underlying exposures;

(iii) Increase the bank holding company’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;

(iv) Increase the yield payable to parties other than the bank holding company in response to a deterioration in the credit quality of the underlying exposures; or

(v) Provide for increases in a retained first loss position or credit enhancement provided by the bank holding company after the inception of the securitization;

(3) The bank holding company obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and

(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

Section 42. Risk-Based Capital Requirement for Securitization Exposures

(a) Hierarchy of approaches. Except as provided elsewhere in this section:

(1) A bank holding company must deduct from tier 1 capital any after-tax gain-on-sale resulting from a securitization and must deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale.

(2) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and qualifies for the Ratings-Based Approach in section 43 of this appendix, a bank holding company must apply the Ratings-Based Approach to the exposure.

(3) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the bank holding company may apply the Internal Assessment Approach in section 44 of this appendix to the exposure (if the bank holding company, the exposure, and the relevant ABCP program qualify for the Internal Assessment Approach) or the Supervisory Formula Approach in section 45 of this appendix to the exposure (if the bank holding company and the exposure qualify for the Supervisory Formula Approach).

(4) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the bank holding company may either apply the Internal Assessment Approach or the Supervisory Formula Approach in section 44 of this appendix.

(5) If a securitization exposure is an OTC derivative contract (other than a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), with approval of the Federal Reserve, a bank holding company may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(1) through (4) of this section.

(b) Total risk-weighted assets for securitization exposures. A bank holding company’s total risk-weighted assets for securitization exposures is equal to the sum of its risk-weighted assets calculated using the Ratings-Based Approach in section 43 of this appendix, the Internal Assessment Approach in section 44 of this appendix, and the Supervisory Formula Approach in section 45 of this appendix, and its risk-weighted assets amount for early amortization provisions calculated in section 47 of this appendix.
(c) Deductions. (1) If a bank holding company must deduct a securitization exposure from total capital, the bank holding company must take the deduction 50 percent from total capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank holding company’s tier 2 capital, the bank holding company must deduct the excess from tier 1 capital.

(2) A bank holding company may calculate any deduction from tier 1 capital and tier 2 capital for a securitization exposure net of any deferred tax liabilities associated with the securitization exposure.

(d) Maximum risk-based capital requirement. Regardless of any other provisions of this part, unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single bank holding company associated with a single securitization (including any risk-based capital requirements that relate to an early amortization provision of the securitization but excluding any risk-based capital requirements that relate to the bank holding company’s gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

(1) The bank holding company’s total risk-based capital requirement for the underlying exposures as if the bank holding company directly held the underlying exposures; and

(2) The total ECL of the underlying exposures.

(e) Amount of a securitization exposure. (1) The amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is:

(i) The bank holding company’s carrying value minus any unrealized gains and plus any unrealized losses on the exposure, if the exposure is a security classified as available-for-sale; or

(ii) The bank holding company’s carrying value, if the exposure is not a security classified as available-for-sale.

(2) The amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as a liquidity facility, the notional amount may be reduced to the maximum potential amount that the bank holding company could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is the EAD of the exposure as calculated in section 32 of this appendix.

(f) Overlapping exposures. If a bank holding company has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when a bank holding company provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the bank holding company is not required to hold duplicative risk-based capital against the overlapping position. Instead, the bank holding company may apply to the overlapping position the applicable risk-based capital treatment that results in the highest risk-based capital requirement.

(g) Securitizations of non-IRB exposures. If a bank holding company has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the bank holding company must:

(1) If the bank holding company is an originating bank holding company, deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization and deduct capital any after-tax gain-on-sale resulting from the securitization as if the exposures had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization and deduct any deferred tax liabilities associated with the securitization exposure.

(2) If the securitization exposure does not require deduction under paragraph (g)(1), apply the RBA in section 33 of this appendix to the securitization exposure if the exposure qualifies for the RBA;

(3) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA, apply the IAA in section 44 of this appendix to the exposure (if the bank holding company, the exposure, and the relevant ABCP program qualify for the IAA); and

(4) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA or the IAA, deduct from total capital the exposure as calculated in section 32 of this appendix the portion of any CEIO that does not constitute gain-on-sale;

(5) If a bank holding company provides support to a securitization in excess of the bank holding company’s contractual obligation to provide credit support to the securitization (implicit support):

(1) The bank holding company must hold regulatory capital against all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(2) The bank holding company must disclose publicly:

(i) That it has provided implicit support to the securitization; and

(ii) The regulatory capital impact to the bank holding company of providing such implicit support.
Eligible servicer cash advance facilities. Regardless of any other provisions of this part, a bank holding company is not required to hold risk-based capital against the undrawn portion of an eligible servicer cash advance facility.

Interest-only mortgage-backed securities. Regardless of any other provisions of this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

Small-business loans and leases on personal property transferred with recourse. Regardless of any other provisions of this appendix, a bank holding company that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:

(i) The transaction is a sale under GAAP.
(ii) The bank holding company establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the bank holding company’s reasonably estimated liability under the recourse arrangement.
(iii) The loans and leases are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632).
(iv) The bank holding company is well capitalized, as defined in the Federal Reserve’s prompt corrective action regulation at 12 CFR part 208, Subpart D. For purposes of determining whether a bank holding company is well capitalized for purposes of this paragraph, the bank holding company’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

The total outstanding amount of recourse retained by a bank holding company on transfers of small-business obligations receiving the capital treatment specified in paragraph (k)(1) of this section cannot exceed 15 percent of the bank holding company’s total qualifying capital.

If a bank holding company ceases to be well capitalized or exceeds the 15 percent capital limitation, the preferential capital treatment specified in paragraph (k)(1) of this section will continue to apply to any transfers of small-business obligations with recourse that occurred during the time that the bank holding company was well capitalized and did not exceed the capital limit.

The risk-based capital ratios of the bank holding company must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section as provided in 12 CFR part 225, appendix A.

First-to-default credit derivatives. A bank holding company that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-based capital requirement for the underlying exposures as if the bank holding company synthetically securitized the underlying exposures with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

Protection provider. A bank holding company that provides credit protection on a group of underlying exposures through a first-to-default credit derivative may recognize the credit risk mitigation benefits of the derivative only if:

1. The bank holding company also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or
2. If n-1 of the underlying exposures have already defaulted.

If a bank holding company satisfies the requirements of paragraph (m)(2)(i)(A) of this section, the bank holding company must determine its risk-based capital requirement for the underlying exposures as if the bank holding company had only synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

Protection provider. A bank holding company that provides credit protection on a group of underlying exposures through a n-th-to-default credit derivative (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

1. The protection amount of the derivative;
2. 12.5; and
3. The sum of the risk-based capital requirements of the individual underlying exposures, up to a maximum of 100 percent.

Second-or-subsequent-to-default credit derivatives. A bank holding company that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

1. The bank holding company also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or
2. If n-1 of the underlying exposures have already defaulted.

If a bank holding company satisfies the requirements of paragraph (m)(2)(i)(A) of this section, the bank holding company must determine its risk-based capital requirement for the underlying exposures as if the bank holding company had only synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.
Section 43. Ratings-Based Approach (RBA)

(a) Eligibility requirements for use of the RBA—(1) Originating bank holding company. An originating bank holding company must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has two or more external ratings or inferred ratings (and may not use the RBA if the exposure has fewer than two external ratings or inferred ratings).

(2) Investing bank holding company. An investing bank holding company must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has one or more external or inferred ratings (and may not use the RBA if the exposure has no external or inferred rating).

(b) Ratings-based approach. (1) A bank holding company must determine the risk-weighted asset amount for a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight provided in Table 6 and Table 7.

(ii) A bank holding company must apply the risk weights in column 1 of Table 6 or Table 7 to the securitization exposure if:

(A) N (as calculated under paragraph (e)(6) of section 45 of this appendix) is six or more (for purposes of this section only, if the notional number of underlying exposures is 25 or more or if all of the underlying exposures are retail exposures, a bank holding company may assume that N is six or more unless the bank holding company knows or has reason to know that N is less than six); and

(B) The securitization exposure is a senior securitization exposure.

(2) A bank holding company must apply the risk weights in column 3 of Table 6 or Table 7 to the securitization exposure if:

(iii) Otherwise, a bank holding company must apply the risk weights in column 2 of Table 6 or Table 7.

Section 44. Internal Assessment Approach (IAA)

(a) Eligibility requirements. A bank holding company may apply the IAA to calculate the risk-weighted asset amount for a securitization exposure that the bank holding company has to an ABCP program (such as a liquidity facility or credit enhancement) if the bank holding company, the ABCP program, and the exposure qualify for use of the IAA.

(i) The bank holding company qualification criteria. A bank holding company qualifies for use of the IAA if the bank holding company has received the prior written approval of the Federal Reserve. To receive such approval, the bank holding company must demonstrate to the Federal Reserve’s satisfaction that the bank holding company’s internal credit assessment process meets the following criteria:

(i) The bank holding company’s internal credit assessments of securitization exposures must be based on publicly available rating criteria used by an NRSRO.

(ii) The bank holding company’s internal credit assessments of securitization exposures used for risk-based capital purposes must be consistent with those used in the bank holding company’s internal risk management process, management information reporting systems, and capital adequacy assessment process.

(iii) The bank holding company’s internal credit assessment process must have sufficient granularity to identify gradations of risk. Each of the bank holding company’s internal credit assessment categories must correspond to an external rating of an NRSRO.

(iv) The bank holding company’s internal credit assessment process, particularly the stress test factors for determining credit enhancement requirements, must be at least as conservative as the most conservative of the publicly available rating criteria of the NRSROs that have provided external ratings to the commercial paper issued by the ABCP program.

(B) If any NRSRO that provides an external rating to the ABCP program’s commercial paper changes its methodology (including stress factors), the bank holding company must evaluate whether to revise its internal assessment process.

(v) The bank holding company must have an effective system of controls and oversight that ensures compliance with these operational requirements and maintains the integrity and accuracy of the internal credit assessments. The bank holding company must have an internal audit function independent from the ABCP program business line and internal credit assessment process that assesses at least annually whether the controls over the internal credit assessment process function as intended.

(vi) The bank holding company must review and update each internal credit assessment whenever new material information is available, but no less frequently than annually.

(vii) The bank holding company must validate its internal credit assessment process on an ongoing basis and at least annually.

(2) ABCP-program qualification criteria. An ABCP program qualifies for use of the IAA if all commercial paper issued by the ABCP program has an external rating.

(3) Exposure qualification criteria. A securitization exposure qualifies for use of the IAA if the exposure meets the following criteria:

(i) The bank holding company initially rated the exposure at least the equivalent of investment grade.

(ii) The ABCP program has robust credit and investment guidelines (that is, underwriting standards) for the exposures underlying the securitization exposure.

...
(iii) The ABCP program performs a detailed credit analysis of the sellers of the exposures underlying the securitization exposure.

(iv) The ABCP program’s underwriting policy for the exposures underlying the securitization exposure establishes minimum asset eligibility criteria that include the prohibition of the purchase of assets that are significantly past due or of assets that are defaulted (that is, assets that have been charged off or written down by the seller prior to being placed into the ABCP program or assets that would be charged off or written down under the program’s governing contracts), as well as limitations on concentration to individual obligors or geographic areas and the tenor of the assets to be purchased.

(v) The aggregate estimate of loss on the exposures underlying the securitization exposure considers all sources of potential risk, such as credit and dilution risk.

(vi) Where relevant, the ABCP program incorporates structural features into each purchase of exposures underlying the securitization exposure to mitigate potential credit deterioration of the underlying exposures. Such features may include wind-down triggers specific to a pool of underlying exposures.

(b) Mechanics. A bank holding company that elects to use the IAA to calculate the risk-based capital requirement for any securitization exposure must use the IAA to calculate the risk-based capital requirement for any securitization exposure that qualifies for the IAA approach. Under the IAA, a bank holding company must map its internal assessment of such a securitization exposure to an equivalent external rating from an NRSRO. Under the IAA, a bank holding company must determine the risk-weighted asset amount for such a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight in Table 6 and Table 7 in paragraph (b) of section 43 of this appendix.

Section 45. Supervisory Formula Approach (SFA)

(a) Eligibility requirements. A bank holding company may use the SFA to determine its risk-based capital requirement for a securitization exposure only if the bank holding company can calculate on an ongoing basis each of the SFA parameters in paragraph (e) of this section.

(b) Mechanics. Under the SFA, a securitization exposure incurs a deduction from total capital (as described in paragraph (c) of section 42 of this appendix) and/or an SFA risk-based capital requirement, as determined in paragraph (c) of this section.

The risk-weighted asset amount for the securitization exposure equals the SFA risk-based capital requirement for the exposure multiplied by 12.5.

(c) The SFA risk-based capital requirement.

(1) If $K_{IRB}$ is greater than or equal to $L + T$, the entire exposure must be deducted from total capital.

(2) If $K_{IRB}$ is less than or equal to $L$, the exposure’s SFA risk-based capital requirement is $UE \times TP \times \max(0.0056 \times T, S[L + T], S[L])$.

(3) If $K_{IRB}$ is greater than $L$ and less than $L + T$, the bank holding company must deduct from total capital an amount equal to $UE \times TP \times (K_{IRB} - L)$, and the exposure’s SFA risk-based capital requirement is $UE \times TP \times (K_{IRB} - L)$.

(d) The supervisory formula:
(1) \[ S[Y] = \begin{cases} Y & \text{when } Y \leq K_{IRB} \\ K_{IRB} + K[Y] - K[K_{IRB}] + \frac{d \cdot K_{IRB}}{20} \left(1 - e^{\frac{20(K_{IRB} - Y)}{K_{IRB}}}\right) & \text{when } Y > K_{IRB} \end{cases} \]

(2) \[ K[Y] = (1 - h) \cdot \left[\left(1 - \beta[Y; a, b]\right) \cdot Y + \beta[Y; a + 1, b] \cdot c\right] \]

(3) \[ h = \left(1 - \frac{K_{IRB}}{EWALGD}\right)^N \]

(4) \[ a = g \cdot c \]

(5) \[ b = g \cdot (1 - c) \]

(6) \[ c = \frac{K_{IRB}}{1 - h} \]

(7) \[ g = \frac{(1 - c) \cdot c}{f} - 1 \]

(8) \[ f = \frac{v + K_{IRB}^2}{1 - h} - c^2 + \frac{(1 - K_{IRB}) \cdot K_{IRB} - v}{(1 - h) \cdot 1000} \]

(9) \[ v = K_{IRB} \cdot \frac{(EWALGD - K_{IRB}) + 0.25 \cdot (1 - EWALGD)}{N} \]

(10) \[ d = 1 - (1 - h) \cdot (1 - \beta[K_{IRB}; a, b]) \].

(11) In these expressions, \[ \beta[Y; a, b] \] refers to the cumulative beta distribution with parameters \(a\) and \(b\) evaluated at \(Y\). In the case where \(N = 1\) and \(EWALGD = 100\%\), \(S[Y]\) in formula (1) must be calculated with \(K[Y]\) set equal to the product of \(K_{IRB}\) and \(Y\), and \(d\) set equal to \(1 - K_{IRB}\).

(e) SFA parameters—(1) Amount of the underlying exposures (UE). UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in paragraph (e) of section 42 of this appendix) plus the adjusted carrying value of any underlying exposures that are equity exposures (as defined in paragraph (b) of section 51 of this appendix).
(2) **Tranche percentage (TP).** TP is the ratio of the amount of the bank holding company’s securitization exposure to the amount of the tranche that contains the securitization exposure.

(3) **Capital requirement on underlying exposures (K_{IRB}).** (i) $K_{IRB}$ is the ratio of:
   - (A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of the underlying exposures (as determined under this appendix if the underlying exposures were directly held by the bank holding company); to
   - (B) UE.

(ii) The calculation of $K_{IRB}$ must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to the entire pool of underlying exposures).

(iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(4) **Credit enhancement level (L).** (i) $L$ is the ratio of:
   - (A) The amount of all securitization exposures subordinated to the tranche that contains the bank holding company’s securitization exposure; to
   - (B) UE.

(ii) A bank holding company must determine $L$ before considering the effects of any tranche-specific credit enhancements.

(iii) Any gain-on-sale or CEIO associated with the securitization may not be included in $L$.

(iv) Any reserve account funded by accumulated cash flows from the underlying exposures that is subordinated to the tranche that contains the bank holding company’s securitization exposure may be included in the numerator and denominator of $L$ to the extent cash has accumulated in the account. Unfunded reserve accounts (that is, reserve accounts that are to be funded from future cash flows from the underlying exposures) may not be included in the calculation of $L$.

(v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, $L$ should be calculated inclusive of this discount if the discount provides credit enhancement for the securitization exposure.

(5) **Thickness of tranche (T).** T is the ratio of:
   - (i) The amount of the tranche that contains the bank holding company’s securitization exposure; to
   - (ii) UE.

(6) **Effective number of exposures (N).** (i) Unless the bank holding company elects to use the formula provided in paragraph (f) of this section,

\[
N = \frac{\sum L_{AD}^2}{\sum EAD_i^2}
\]

where $EAD_i$ represents the EAD associated with the $i$th instrument in the pool of underlying exposures.

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.

(iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are themselves securitization exposures, the bank holding company must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) **Exposure-weighted average loss given default (EWALGD).** EWALGD is calculated as:

\[
EWALGD = \frac{\sum LGD_{i} \cdot EAD_{i}}{\sum EAD_{i}}
\]

where $LGD_i$ represents the average LGD associated with all exposures to the $i$th obligor. In the case of a re-securitization, an LGD of 100 percent must be assumed for the underlying exposures that are themselves securitization exposures.

(f) **Simplified method for computing N and EWALGD.** (1) If all underlying exposures of a securitization are retail exposures, a bank holding company may apply the SFA using the following simplifications:

   (i) $h = 0$; and
   (ii) $v = 0$.

(2) Under the conditions in paragraphs (f)(3) and (f)(4) of this section, a bank holding company may employ a simplified method for calculating $N$ and EWALGD.

(3) If $C_1$ is no more than 0.03, a bank holding company may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure or $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure, and may set $N$ equal to the following amount:
Federal Reserve System
Pt. 225, App. G

\[ N = \frac{1}{C_1 C_m + \left( \frac{C_m - C_1}{m - 1} \right) \max(1 - m C_1, 0)} \]

where:

(i) \( C_m \) is the ratio of the sum of the amounts of the 'm' largest underlying exposures to UE and (ii) The level of m is to be selected by the bank holding company.

(4) Alternatively, if only \( C_1 \) is available and \( C_1 \) is no more than 0.03, the bank holding company may set EWALGD = 0.50 if none of the underlying exposures is a securitization exposure or EWALGD = 1 if one or more of the underlying exposures is a securitization exposure and may set \( N = 1/C_1 \).

Section 46. Recognition of Credit Risk Mitigants for Securitization Exposures

(a) General. An originating bank holding company that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in section 41 of this appendix may recognize the credit risk mitigant, but only as provided in this section. An investing bank holding company that has used the RBA in section 43 of this appendix or the IAA in section 44 of this appendix multiplied by the ratio of adjusted exposure amount (SE*) to original exposure amount (SE), where:

(i) \( SE^* = \max(0, (SE - C \times (1 - Hs - Hfx))) \); (ii) \( SE = \) the amount of the securitization exposure calculated under paragraph (e) of section 42 of this appendix; (iii) \( C = \) the current market value of the collateral; (iv) \( Hs = \) the haircut appropriate to the collateral type; and (v) \( Hfx = \) the haircut appropriate for any currency mismatch between the collateral and the exposure.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket of assets denominated in different currencies, the haircut on the basket will be

\[ H = \sum_i a_i H_i, \]

where \( a_i \) is the current market value of the asset in the basket divided by the current market value of all assets in the basket and \( H_i \) is the haircut applicable to that asset.

(3) Standard supervisory haircuts. Unless a bank holding company qualifies for use of and uses own-estimates haircuts in paragraph (b)(4) of this section:

(i) A bank holding company must use the collateral type haircut (Hs) in Table 3; (ii) A bank holding company must use a currency mismatch haircut (Hfx) of 8 percent if the exposure and the collateral are denominated in different currencies; (iii) A bank holding company must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) by the square root of 6.5 which equals 2.545510; and (iv) A bank holding company must adjust the supervisory haircuts upward on the basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) Own estimates for haircuts. With the prior written approval of the Federal Reserve, a bank holding company may calculate haircuts using its own internal estimates of market price volatility and foreign exchange volatility, subject to paragraph (b)(2)(ii) of section 32 of this appendix. The minimum holding period (TM) for securitization exposures is 65 business days.

(c) Guarantees and credit derivatives—(1) Limitations on recognition. A bank holding
company may only recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for a securitization exposure.

(2) ECL for securitization exposures. When a bank holding company recognizes an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for a securitization exposure, the bank holding company must also:

(i) Calculate ECL for the protected portion of the exposure using the same risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and

(ii) Add the exposure’s ECL to the bank holding company’s total ECL.

(3) Rules of recognition. A bank holding company may recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank holding company’s risk-based capital requirement for the securitization exposure as follows:

(i) Full coverage. If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the bank holding company may set the risk-weighted asset amount for the securitization exposure equal to the risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank holding company’s PD for the guarantor, the bank holding company’s LGD for the guarantee or credit derivative, and an EAD equal to the amount of the securitization exposure (as determined in paragraph (e) of section 42 of this appendix).

(ii) Partial coverage. If the protection amount of the eligible guarantee or eligible credit derivative is less than the amount of the securitization exposure, the bank holding company may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) Covered portion. The risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank holding company’s PD for the guarantor, the bank holding company’s LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) Uncovered portion. 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure; multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in sections 42–45 of this appendix).

(4) Mismatches. The bank holding company must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the bank holding company must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

Section 47. Risk-Based Capital Requirement for Early Amortization Provisions

(a) General. (1) An originating bank holding company must hold risk-based capital against the sum of the originating bank holding company’s interest and the investors’ interest in a securitization that:

(i) Includes one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contains an early amortization provision.

(2) For securitizations described in paragraph (a)(1) of this section, an originating bank holding company must calculate the risk-based capital requirement for the originating bank holding company’s interest under sections 42–45 of this appendix, and the risk-based capital requirement for the investors’ interest under paragraph (b) of this section.

(b) Risk-weighted asset amount for investors’ interest. The originating bank holding company’s risk-weighted asset amount for the investors’ interest in the securitization is equal to the product of the following 5 quantities:

(1) The investors’ interest EAD;

(2) The appropriate conversion factor in paragraph (c) of this section;

(3) K_{bas} (as defined in paragraph (e)(3) of section 45 of this appendix);

(4) 12.5; and

(5) The proportion of the underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit.

(c) Conversion factor. (1) (i) Except as provided in paragraph (c)(2) of this section, to calculate the appropriate conversion factor, a bank holding company must use Table 8 for a securitization that contains a controlled early amortization provision and must use Table 9 for a securitization that contains a
Federal Reserve System

in section 53 of this appendix. A bank holding company must use the look-through approaches in section 54 of this appendix to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(b) Adjusted carrying value. For purposes of this part, the adjusted carrying value of an equity exposure is:

(1) For the on-balance sheet component of an equity exposure, the bank holding company’s carrying value of the exposure reduced by any unrealized gains on the exposure that are reflected in such carrying value but excluded from the bank holding company’s tier 1 and tier 2 capital; and

(2) For the off-balance sheet component of an equity exposure, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) for a given small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet
component of the exposure as calculated in paragraph (b)(1) of this section. For unfunded equity commitments that are unconditional, the effective notional principal amount is the notional amount of the commitment. For unfunded equity commitments that are conditional, the effective notional principal amount is the bank holding company’s best estimate of the amount that would be funded under economic downturn conditions.

Section 52. Simple Risk Weight Approach (SRWA)

(a) General. Under the SRWA, a bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted asset amounts for each of the bank holding company’s individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the bank holding company’s individual equity exposures to an investment fund as determined in section 54 of this appendix.

(b) SRWA computation for individual equity exposures. A bank holding company must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this paragraph (b).

(1) 0 percent risk weight equity exposures. An equity exposure to an entity whose credit exposures are exempt from the 0.03 percent PD floor in paragraph (d)(2) of section 31 of this appendix is assigned a 0 percent risk weight.

(2) 20 percent risk weight equity exposures. An equity exposure to a Federal Home Loan Bank or Farmer Mac is assigned a 20 percent risk weight.

(3) 100 percent risk weight equity exposures. The following equity exposures are assigned a 100 percent risk weight:

(i) Community development equity exposures. An equity exposure that qualifies as a community development investment under 12 U.S.C. 24 (Eleventh), excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682), is assigned a 100 percent risk weight.

(ii) Effective portion of hedge pairs. The effective portion of a hedge pair.

(iii) Non-significant equity exposures. Equity exposures, excluding exposures to an investment firm that would meet the definition of a traditional securitization were it not for the Federal Reserve’s application of paragraph (b) of that definition and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the bank holding company’s tier 1 capital plus tier 2 capital.

(A) To compute the aggregate adjusted carrying value of a bank holding company’s equity exposures for purposes of this paragraph (b)(3)(i), the bank holding company may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a bank holding company does not know the actual holdings of the investment fund, the bank holding company may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the bank holding company must assume for purposes of this paragraph (b)(3)(i) that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a bank holding company’s equity exposures qualify for a 100 percent risk weight under this paragraph, a bank holding company first must include equity exposures to consolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682), then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) 300 percent risk weight equity exposures. A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

(5) 400 percent risk weight equity exposures. An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

(6) 600 percent risk weight equity exposures. An equity exposure to an investment firm that:

(i) Would meet the definition of a traditional securitization were it not for the Federal Reserve’s application of paragraph (b) of that definition; and

(ii) Has greater than immaterial leverage is assigned a 600 percent risk weight.

396
Federal Reserve System
Pt. 225, App. G

397

(c) Hedge transactions—(1) Hedge pair. A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) Effective hedge. Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the bank holding company acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the bank holding company will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. A bank holding company must measure E at least quarterly and must use one of three alternative measures of E:

(i) Under the dollar-offset method of measuring effectiveness, the bank holding company must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and E equals 0. If RVC is negative and greater than or equal to −1 (that is, between zero and −1), then E equals the absolute value of RVC. If RVC is negative and less than −1, then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:

\[ E = 1 - \frac{\sum_{t=1}^{T} \left( X_t - X_{t-1} \right)^2}{\sum_{t=1}^{T} \left( A_t - A_{t-1} \right)^2} \]

where

\[ (A) \ X_t = A_t - B_t; \]

\[ (B) \ A_t = the\ value\ at\ time\ t\ of\ one\ exposure\ in\ a\ hedge\ pair; \]

\[ (C) \ B_t = the\ value\ at\ time\ t\ of\ the\ other\ exposure\ in\ a\ hedge\ pair. \]

(iii) Under the regression method of measuring effectiveness, E equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then the value of E is zero.

3 The effective portion of a hedge pair is E multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

4 The ineffective portion of a hedge pair is (1−E) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

Section 53. Internal Models Approach (IMA)

(a) General. A bank holding company may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or by modeling only publicly traded equity exposures (in accordance with paragraph (d) of this section).

(b) Qualifying criteria. To qualify to use the IMA to calculate risk-based capital requirements for equity exposures, a bank holding company must receive prior written approval from the Federal Reserve. To receive such approval, the bank holding company must demonstrate to the Federal Reserve’s satisfaction that the bank holding company meets the following criteria:

(1) The bank holding company must have one or more models that:

(i) Assess the potential decline in value of its modeled equity exposures;

(ii) Are commensurate with the size, complexity, and composition of the bank holding company’s modeled equity exposures; and

(iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The bank holding company’s model must produce an estimate of potential losses for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99.0 percent, one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the bank holding company’s modeled equity exposures using a long-term sample period.

(3) The number of risk factors and exposures in the sample and the data period used for quantification in the bank holding company’s model and benchmarking exercise must be sufficient to provide confidence in
4. The bank holding company’s model and benchmarking process must incorporate data that are relevant in representing the risk profile of the bank holding company’s modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the bank holding company’s modeled equity exposures. In addition, the bank holding company’s benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the bank holding company’s model uses a scenario methodology, the bank holding company must demonstrate that the model produces a conservative estimate of potential losses on the bank holding company’s modeled equity exposures over a relevant long-term market cycle. If the bank holding company employs risk factor models, the bank holding company must demonstrate through empirical analysis the appropriateness of the risk factors used.

5. The bank holding company must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the bank holding company’s modeled equity exposures and that the bank holding company has made appropriate adjustments for differences. The bank holding company must derive any proxies for its modeled equity exposures and benchmark portfolio using historical market data that are relevant to the bank holding company’s modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the bank holding company’s modeled equity exposures.

(c) Risk-weighted assets calculation for a bank holding company modeling publicly traded and non-publicly traded equity exposures. If a bank holding company models publicly traded and non-publicly traded equity exposures, the bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

1. The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(5) of section 52 or a 600 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and
2. The greater of:
   1. The estimate of potential losses on the bank holding company’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the bank holding company’s internal equity exposure model multiplied by 12.5; or
   2. The sum of:
      1. The bank holding company’s aggregate equity exposure model multiplied by the aggregate adjusted carrying value of the bank holding company’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund; and
      2. The bank holding company’s aggregate equity exposure model multiplied by the aggregate ineffective portion of all hedge pairs and
      3. The estimate of potential losses on the bank holding company’s equity exposures to an investment fund (as determined under paragraph (d)(1) of this section) generated by the bank holding company’s internal equity exposure model multiplied by 12.5; or

(d) Risk-weighted assets calculation for a bank holding company using the IMA only for publicly traded equity exposures. If a bank holding company models only publicly traded equity exposures, the bank holding company’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

1. The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(5) of section 52 or a 600 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and
2. The greater of:
   1. The estimate of potential losses on the bank holding company’s equity exposures (other than equity exposures referenced in paragraph (d)(1) of this section) generated by the bank holding company’s internal equity exposure model multiplied by 12.5; or
   2. The sum of:
      1. The bank holding company’s aggregate equity exposure model multiplied by the aggregate adjusted carrying value of the bank holding company’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund; and
      2. The bank holding company’s aggregate equity exposure model multiplied by the aggregate ineffective portion of all hedge pairs.

Section 54. Equity Exposures to Investment Funds

(a) Available approaches. (1) Unless the exposure meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix, a bank holding company must determine the
Federal Reserve System

risk-weighted asset amount of an equity exposure to an investment fund under the Full Look-Through Approach in paragraph (b) of this section, the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, or, if the investment fund qualifies for the Money Market Fund Approach, the Money Market Fund Approach in paragraph (e) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the bank holding company does not use the Full Look-Through Approach, the bank holding company may use the ineffective portion of the hedge pair as determined under paragraph (c) of section 52 of this appendix as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) Full Look-Through Approach. A bank holding company that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this appendix as if the proportional ownership share of each exposure were held directly by the bank holding company) may either:

(1) Set the risk-weighted asset amount of the bank holding company’s exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the bank holding company; and

(ii) The bank holding company’s proportional ownership share of the fund; or

(2) Include the bank holding company’s proportional ownership share of each exposure held by the fund in the bank holding company’s IMA.

(c) Simple Modified Look-Through Approach. Under this approach, the risk-weighted asset amount for a bank holding company’s equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight in Table 10 that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund’s exposures).

Table 10—Modified Look-Through Approaches for Equity Exposures to Investment Funds

<table>
<thead>
<tr>
<th>Risk weight</th>
<th>Exposure class</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 percent</td>
<td>Sovereign exposures with a long-term applicable external rating in the highest investment-grade rating category and sovereign exposures of the United States.</td>
</tr>
<tr>
<td>20 percent</td>
<td>Non-sovereign exposures with a long-term applicable external rating in the highest or second-highest investment-grade rating category; exposures with a short-term applicable external rating in the highest investment-grade rating category; and exposures to, or guaranteed by, depository institutions, foreign banks (as defined in 12 CFR 211.2), or securities firms subject to consolidated supervision and regulation comparable to that imposed on U.S. securities broker-dealers that are repo-style transactions or bankers’ acceptances.</td>
</tr>
<tr>
<td>50 percent</td>
<td>Exposures with a long-term applicable external rating in the third-highest investment-grade rating category or a short-term applicable external rating in the second-highest investment-grade rating category.</td>
</tr>
<tr>
<td>100 percent</td>
<td>Exposures with a long-term or short-term applicable external rating in the lowest investment-grade rating category.</td>
</tr>
<tr>
<td>200 percent</td>
<td>Exposures with a long-term applicable external rating one rating category below investment grade.</td>
</tr>
<tr>
<td>300 percent</td>
<td>Publicly traded equity exposures.</td>
</tr>
<tr>
<td>400 percent</td>
<td>Non-publicly traded equity exposures; exposures with a long-term applicable external rating in two rating categories or more below investment grade; and exposures without an external rating (excluding publicly traded equity exposures).</td>
</tr>
<tr>
<td>1,250 percent</td>
<td>OTC derivative contracts and exposures that must be deducted from regulatory capital or receive a risk weight greater than 400 percent under this appendix.</td>
</tr>
</tbody>
</table>

(d) Alternative Modified Look-Through Approach. Under this approach, a bank holding company may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories in Table 10 based on the investment limits in the fund’s prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. The risk-weighted asset amount for the bank holding company’s equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure class multiplied by the applicable risk weight. If the sum of the
investment limits for exposure classes within the fund exceeds 100 percent, the bank holding company must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure class with the highest risk weight under Table 10, and continues to make investments in order of the exposure class with the next highest risk weight under Table 10 until the maximum total investment level is reached. If more than one exposure class applies to an exposure, the bank holding company must use the highest applicable risk weight. A bank holding company may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund’s exposures.

(e) Money Market Fund Approach. The risk-weighted asset amount for a bank holding company’s equity exposure to an investment fund that is a money market fund subject to 17 CFR 270.2a–7 and that has an applicable external rating in the highest investment-grade rating category equals the adjusted carrying value of the equity exposure multiplied by 7 percent.

Section 55. Equity Derivative Contracts

Under the IMA, in addition to holding risk-based capital against an equity derivative contract under this part, a bank holding company must hold risk-based capital against the counterparty credit risk in the equity derivative contract by also treating the equity derivative contract as a wholesale equity derivative contract by also treating the equity derivative contract as a wholesale risk-based capital against an equity derivative contract held by the fund that are used for hedging rather than for speculative purposes.

PART VII. RISK-WEIGHTED ASSETS FOR OPERATIONAL RISK

Section 61. Qualification Requirements for Incorporation of Operational Risk Mitigants

(a) Qualification to use operational risk mitigants. A bank holding company may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(1) The bank holding company’s operational risk quantification system is able to generate an estimate of the bank holding company’s operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of the bank holding company’s operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(2) The bank holding company's methodology for incorporating the effects of insurance, if the bank holding company uses insurance as an operational risk mitigant, captures through appropriate discounts to the dollar risk-based capital requirement for operational risk offsets (if any); or

(b) Qualifying operational risk mitigants. Qualifying operational risk mitigants are:

(1) Insurance that:

(i) Is provided by an unaffiliated company that has a claims payment ability that is rated in one of the three highest rating categories by a NRSRO;

(ii) Has an initial term of at least one year and a residual term of more than 90 days;

(iii) Has a minimum notice period for cancellation by the provider of 90 days;

(iv) Has no exclusions or limitations based upon regulatory action or for the receiver or liquidator of a failed depository institution; and

(v) Is explicitly mapped to a potential operational loss event; and

(2) Operational risk mitigants other than insurance for which the Federal Reserve has given prior written approval. In evaluating an operational risk mitigant other than insurance, the Federal Reserve will consider whether the operational risk mitigant covers potential operational losses in a manner equivalent to holding regulatory capital.

Section 62. Mechanics of Risk-Weighted Asset Calculation

(a) If a bank holding company does not qualify to use or does not have qualifying operational risk mitigants, the bank holding company’s dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any); or

(b) If a bank holding company qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the bank holding company’s dollar risk-based capital requirement for operational risk is the greater of:

(1) The bank holding company’s operational risk exposure adjusted for qualifying operational risk mitigants minus eligible operational risk offsets (if any); or

(2) 0.8 multiplied by the difference between:

(i) The bank holding company’s operational risk exposure; and
Federal Reserve System

(ii) Eligible operational risk offsets (if any).
(c) The bank holding company’s risk-weighted asset amount for operational risk equals the bank holding company’s dollar-risk-based capital requirement for operational risk determined under paragraph (a) or (b) of this section multiplied by 12.5.

PART VIII. DISCLOSURE

Section 71. Disclosure Requirements

(a) Each bank holding company must publicly disclose each quarter its total and tier 1 risk-based capital ratios and their components (that is, tier 1 capital, tier 2 capital, total qualifying capital, and total risk-weighted assets).

(b)(1) Each consolidated bank holding company that is not a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction and has successfully completed its parallel run must provide timely public disclosures each calendar quarter of the information in tables 11.1–11.11 below. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the bank holding company’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the bank holding company’s risk management objectives and policies, reporting system, and definitions) may be disclosed annually, provided any significant changes to these are disclosed in the interim. Management is encouraged to provide all of the disclosures required by this appendix in one place on the bank holding company’s public Web site. The bank holding company must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period since it began its first floor period.

(2) Each bank holding company is required to have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this appendix, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the bank holding company must attest that the disclosures meet the requirements of this appendix.

(3) If a bank holding company believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public information that is either proprietary or confidential in nature, the bank holding company need not disclose those specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

<table>

</tr>
<tr>
<td>(b) An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group that are fully consolidated; that are deconsolidated and deducted; for which the regulatory capital requirement is deducted; and that are neither consolidated nor deducted (for example, where the investment is risk-weighted).</td>
</tr>
<tr>
<td>(c) Any restrictions, or other major impediments, on transfer of funds or regulatory capital within the group.</td>
</tr>
<tr>
<td>(d) The aggregate amount of surplus capital of insurance subsidiaries (whether deducted or subjected to an alternative method) included in the regulatory capital of the consolidated group.</td>
</tr>
<tr>
<td>Quantitative Disclosures</td>
</tr>
</tbody>
</table>

4 Other public disclosure requirements continue to apply—for example, Federal securities law and regulatory reporting requirements.
5 Alternatively, a bank holding company may provide the disclosures in more than one place, as some of them may be included in public financial reports (for example, in Management’s Discussion and Analysis included in SEC filings) or other regulatory reports. The bank holding company must provide a summary table on its public Web site that specifically indicates where all the disclosures may be found (for example, regulatory report schedules, page numbers in annual reports).
TABLE 11.1—SCOPE OF APPLICATION—Continued

(e) The aggregate amount by which actual regulatory capital is less than the minimum regulatory capital requirement in all subsidiaries with regulatory capital requirements and the name(s) of the subsidiaries with such deficiencies.

6 Entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

9 Risk-weighted assets determined under [the market risk rule] are to be disclosed only for the approaches used.

10 Total risk-weighted assets should also be disclosed.

GENERAL QUALITATIVE DISCLOSURE REQUIREMENT

For each separate risk area described in tables 11.4 through 11.11, the bank holding company must describe its risk management objectives and policies, including:

• Strategies and processes;
• The structure and organization of the relevant risk management function;
• The scope and nature of risk reporting and/or measurement systems;
• Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.
### TABLE 11.4—CREDIT RISK: GENERAL DISCLOSURES

<tr>
<td></td>
<td>(g) Amount of impaired loans and, if available, the amount of past due loans broken down by significant geographic areas including, if practical, the amounts of allowances related to each geographical area.16</td>
</tr>
<tr>
<td></td>
<td>(h) Reconciliation of changes in the allowance for loan and lease losses.17</td>
</tr>
</tbody>
</table>

---

11 Table 4 does not include equity exposures.
12 For example, FASB Interpretations 39 and 41.
13 For example, bank holding companies could apply a breakdown similar to that used for accounting purposes. Such a breakdown might, for instance, be (a) loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures, (b) debt securities, and (c) OTC derivatives.
14 Geographical areas may comprise individual countries, groups of countries, or regions within countries. A bank holding company might choose to define the geographical areas based on the way the company’s portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.
15 A bank holding company is encouraged also to provide an analysis of the aging of past-due loans.
16 The portion of general allowance that is not allocated to a geographical area should be disclosed separately.
17 The reconciliation should include the following: A description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

TABLE 11.5—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS—Continued

<table>
<thead>
<tr>
<th>Quantitative Disclosures: Risk assessment</th>
<th>(c) For wholesale exposures, present the following information across a sufficient number of PD grades (including default) to allow for a meaningful differentiation of credit risk: 18</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• The definitions, methods and data for estimation and validation of PD, LGD, and EAD, including assumptions employed in the derivation of these variables. 18</td>
</tr>
<tr>
<td></td>
<td>• Total EAD; 20</td>
</tr>
<tr>
<td></td>
<td>• Exposure-weighted average LGD (percentage);</td>
</tr>
<tr>
<td></td>
<td>• Exposure-weighted average risk weight; and</td>
</tr>
<tr>
<td></td>
<td>• Amount of undrawn commitments and exposure-weighted average EAD for wholesale exposures.</td>
</tr>
<tr>
<td></td>
<td>For each retail subcategory, present the disclosures outlined above across a sufficient number of segments to allow for a meaningful differentiation of credit risk.</td>
</tr>
</tbody>
</table>

Quantitative Disclosures: Historical results

(d) Actual losses in the preceding period for each category and subcategory and how this differs from past experience. A discussion of the factors that impacted the loss experience in the preceding period—for example, has the bank holding company experienced higher than average default rates, loss rates or EADs.

(e) Bank holding company’s estimates compared against actual outcomes over a longer period. 21 At a minimum, this should include information on estimates of losses against actual losses in the wholesale category and each retail subcategory over a period sufficient to allow for a meaningful assessment of the performance of the internal rating processes for each category/subcategory. 22 Where appropriate, the bank holding company should further decompose this to provide analysis of PD, LGD, and EAD outcomes against estimates provided in the quantitative risk assessment disclosures above. 23

18 This disclosure does not require a detailed description of the model in full—it should provide the reader with a broad overview of the model approach, describing definitions of the variables and methods for estimating and validating those variables set out in the quantitative risk disclosures below. This should be done for each of the four category/subcategories. The bank holding company should disclose any significant differences in approach to estimating these variables within each category/subcategory.

19 The PD, LGD and EAD disclosures in Table 11.5(c) should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined in part I. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where a bank holding company aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes.

20 Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

21 These disclosures are a way of further informing the reader about the reliability of the information provided in the “quantitative disclosures: risk assessment” over the long run. The disclosures are requirements from year-end 2010; in the meantime, early adoption is encouraged. The phased implementation is to allow a bank holding company sufficient time to build up a longer run of data that will make these disclosures meaningful.

22 This regulation is not prescriptive about the period used for this assessment. Upon implementation, it might be expected that a bank holding company would provide these disclosures for as long run of data as possible—for example, if a bank holding company has 10 years of data, it might choose to disclose the average default rates for each PD grade over that 10-year period. Annual amounts need not be disclosed.

23 A bank holding company should provide this further decomposition where it will allow users greater insight into the reliability of the estimates provided in the “quantitative disclosures: risk assessment.” In particular, it should provide this information where there are material differences between its estimates of PD, LGD or EAD compared to actual outcomes over the long run. The bank holding company should also provide explanations for such differences.

TABLE 11.6—GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK OF OTC DERIVATIVE CONTRACTS, REPO-STYLE TRANSACTIONS, AND ELIGIBLE MARGIN LOANS—Continued

Quantitative Disclosures

- Discussion of the impact of the amount of collateral the bank holding company would have to provide if the bank holding company were to receive a credit rating downgrade.

(b) Gross positive fair value of contracts, netting benefits, netted current credit exposure, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure. Also report measures for EAD used for regulatory capital for these transactions, the notional value of credit derivative hedges purchased for counterparty credit risk protection, and, for bank holding companies not using the internal models methodology in section 32(d) of this appendix, the distribution of current credit exposure by types of credit exposure.

(c) Notional amount of purchased and sold credit derivatives, segregated between use for the bank holding company’s own credit portfolio and for its intermediation activities, including the distribution of the credit derivative products used, broken down further by protection bought and sold within each product group.

(d) The estimate of alpha if the bank holding company has received supervisory approval to estimate alpha.

24 Net unsecured credit exposure is the credit exposure after considering the benefits from legally enforceable netting agreements and collateral arrangements, without taking into account haircuts for price volatility, liquidity, etc.

25 This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

TABLE 11.7—CREDIT RISK MITIGATION

Qualitative Disclosures

(a) The general qualitative disclosure requirement with respect to credit risk mitigation including:

- Policies and processes for, and an indication of the extent to which the bank holding company uses, on- and off-balance sheet netting;
- Policies and processes for collateral valuation and management;
- A description of the main types of collateral taken by the bank holding company;
- The main types of guarantors/credit derivative counterparties and their creditworthiness; and
- Information about (market or credit) risk concentrations within the mitigation taken.

Quantitative Disclosures

(b) For each separately disclosed portfolio, the total exposure (after, where applicable, on- or off-balance sheet netting) that is covered by guarantees/credit derivatives.

26 At a minimum, a bank holding company must provide the disclosures in Table 11.7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this appendix. Where relevant, bank holding companies are encouraged to give further information about mitigants that have not been recognized for that purpose.

27 Credit derivatives that are treated, for the purposes of this appendix, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization.

28 Counterparty credit risk-related exposures disclosed pursuant to Table 11.6 should be excluded from the credit risk mitigation disclosures in Table 11.7.

TABLE 11.8—SECURITIZATION

Qualitative Disclosures

(a) The general qualitative disclosure requirement with respect to securitization (including synthetics), including a discussion of:

- The bank holding company’s objectives relating to securitization activity, including the extent to which these activities transfer credit risk of the underlying exposures away from the bank holding company to other entities;
- The roles played by the bank holding company in the securitization process and an indication of the extent of the bank holding company’s involvement in each of them; and
- The regulatory capital approaches (for example, RBA, IAA and SFA) that the bank holding company follows for its securitization activities.
TABLE 11.8—SEcuritization—Continued

</table>
| (b) Summary of the bank holding company’s accounting policies for securitization activities, including:  
  • Whether the transactions are treated as sales or financings;  
  • Recognition of gain-on-sale;  
  • Key assumptions for valuing retained interests, including any significant changes since the last reporting period and the impact of such changes; and  
  • Treatment of synthetic securitizations.  
|  
| (c) Names of NRSROs used for securitizations and the types of securitization exposure for which each agency is used.  
|  
| (d) The total outstanding exposures securitized by the bank holding company in securitizations that meet the operational criteria in section 41 of this appendix (broken down into traditional/synthetic), by underlying exposure type.  
|  
| (e) For exposures securitized by the bank holding company in securitizations that meet the operational criteria in Section 41 of this appendix:  
  • Amount of securitized assets that are impaired/past due; and  
  • Losses recognized by the bank holding company during the current period broken down by exposure type.  
|  
| (f) Aggregate amount of securitization exposures broken down by underlying exposure type.  
|  
| (g) Aggregate amount of securitization exposures and the associated IRB capital requirements for these exposures broken down into a meaningful number of risk weight bands. Exposures that have been deducted from capital should be disclosed separately by type of underlying asset.  
|  
| (h) For securitizations subject to the early amortization treatment, the following items by underlying asset type for securitized facilities:  
  • The aggregate drawn exposures attributed to the seller’s and investors’ interests; and  
  • The aggregate IRB capital charges incurred by the bank holding company against the investors’ shares of drawn balances and undrawn lines.  
|  
| (i) Summary of current year’s securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by asset type.  
|  

---

29 For example: originator, investor, servicer, provider of credit enhancement, sponsor of asset backed commercial paper facility, liquidity provider, or swap provider.  
30 Underlying exposure types may include, for example, one- to four-family residential loans, home equity lines, credit card receivables, and auto loans.  
31 Securitization transactions in which the originating bank holding company does not retain any securitization exposure should be shown separately but need only be reported for the year of inception.  
32 Where relevant, a bank holding company is encouraged to differentiate between exposures resulting from activities in which they act only as sponsors, and exposures that result from all other bank holding company securitization activities.  
33 For example, charge-offs/allowances (if the assets remain on the bank holding company’s balance sheet) or write-downs of I/O strips and other residual interests.

TABLE 11.11—INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

Qualitative Disclosures

(a) The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities.

Quantitative Disclosures

(b) The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring interest rate risk for non-trading activities, broken down by currency (as appropriate).

PART IX—TRANSITION PROVISIONS

Section 81—Optional Transition Provisions Related to the Implementation of, Consolidation Requirements Under FAS 167

(a) Scope, applicability, and purpose. This section 81 provides optional transition provisions for a bank holding company that is required for financial and regulatory reporting purposes, as a result of its implementation of Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (FAS 167), to consolidate certain variable interest entities (VIEs) as defined under GAAP. These transition provisions apply through the end of the fourth quarter following the date of a bank holding company's implementation of FAS 167 (implementation date).

(b) Exclusion period.

1. Exclusion of risk-weighted assets for the first and second quarters. For the first two quarters after the implementation date (exclusion period), including for the two calendar quarter-end regulatory report dates within those quarters, a bank holding company may exclude from risk-weighted assets:

(A) The VIE existed prior to the implementation date,

(B) The bank holding company did not consolidate the VIE on its balance sheet for calendar quarter-end regulatory report dates prior to the implementation date,

(C) The bank holding company must consolidate the VIE on its balance sheet beginning as of the implementation date as a result of its implementation of FAS 167, and

(D) The bank holding company excludes all assets held by VIEs described in paragraphs (b)(1)(i)(A) through (C) of this section 81; and

(ii) Subject to the limitations in paragraph (d) of this section 81, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

(A) The bank holding company is the sponsor of the ABCP program,

(B) Prior to the implementation date, the bank holding company consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank holding company’s risk-weighted assets, and

(C) The bank holding company chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.

(ii) Subject to the limitations in paragraph (d) of this section 81, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

(A) The bank holding company is the sponsor of the ABCP program,

(B) Prior to the implementation date, the bank holding company consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank holding company’s risk-weighted assets, and

(C) The bank holding company chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.

(ii) Subject to the limitations in paragraph (d) of this section 81, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

(A) The bank holding company is the sponsor of the ABCP program,

(B) Prior to the implementation date, the bank holding company consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank holding company’s risk-weighted assets, and

(C) The bank holding company chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.

(ii) Subject to the limitations in paragraph (d) of this section 81, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

(A) The bank holding company is the sponsor of the ABCP program,

(B) Prior to the implementation date, the bank holding company consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank holding company’s risk-weighted assets, and

(C) The bank holding company chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.

(ii) Subject to the limitations in paragraph (d) of this section 81, assets held by a VIE that is a consolidated ABCP program, provided that the following conditions are met:

(A) The bank holding company is the sponsor of the ABCP program,

(B) Prior to the implementation date, the bank holding company consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank holding company’s risk-weighted assets, and

(C) The bank holding company chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.
report dates within the exclusion period, a bank holding company adopting the optional provisions in paragraph (b) of this section must calculate risk-weighted assets for its contractual exposures to the VIEs referenced in paragraph (b)(1) of this section on the implementation date and include this calculated amount in risk-weighted assets. Such contractual exposures may include direct-credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans.

(3) Inclusion of ALLL in Tier 2 capital for the first and second quarters. During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a bank holding company that excludes VIE assets from risk-weighted assets pursuant to paragraph (b)(1) of this section may include in Tier 2 capital the full amount of the ALLL calculated as of the implementation date that is attributable to the assets it excludes pursuant to paragraph (b)(1) of this section (inclusion amount). The amount of ALLL includable in Tier 2 capital in accordance with this paragraph shall not be subject to the limitations set forth in section 13(a)(2) and (b) of this Appendix.

(c) Phase-in period.

(1) Exclusion amount. For purposes of this paragraph (c), exclusion amount is defined as the amount of risk-weighted assets excluded in paragraph (b)(1) of this section as of the implementation date.

(2) Risk-weighted assets for the third and fourth quarters. A bank holding company that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (b)(1) of this section may, for the third and fourth quarters after the implementation date (phase-in period), including for the two calendar quarter-end regulatory report dates within those quarters, exclude from risk-weighted assets 50 percent of the exclusion amount, provided that the bank holding company may not include in risk-weighted assets pursuant to this paragraph an amount less than the aggregate risk-weighted assets calculated pursuant to paragraph (b)(2) of this section.

(3) Inclusion of ALLL in Tier 2 capital for the third and fourth quarters. A bank holding company that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (c)(2) of this section may, for the phase-in period, include in Tier 2 capital 50 percent of the inclusion amount it included in Tier 2 capital during the exclusion period, notwithstanding the limit on including ALLL in Tier 2 capital in section 13(a)(2) and (b) of this Appendix.

(d) Implicit recourse limitation. Notwithstanding any other provision in this section, assets held by a VIE to which the bank holding company has provided recourse through credit enhancement beyond any contractual obligation to support assets it has sold may not be excluded from risk-weighted assets.

Federal Reserve System

226.32 Requirements for certain closed-end home mortgages.
226.33 Requirements for reverse mortgages.
226.34 Prohibited acts or practices in connection with credit subject to § 226.32.

SUPPLEMENT I TO PART 226—OFFICIAL STAFF INTERPRETATIONS

Subpart A—General

§ 226.1 Authority, purpose, coverage, organization, enforcement, and liability.

(a) Authority. This regulation, known as Regulation Z, is issued by the Board of Governors of the Federal Reserve System to implement the federal Truth in Lending Act, which is contained in title I of the Consumer Credit Protection Act, as amended (15 U.S.C. 1601 et seq.). This regulation also implements title XII, section 1204 of the Competitive Equality Banking Act of 1987 (Pub. L. 100–86, 101 Stat. 552). Information-collection requirements contained in this regulation have been approved by the Office of Management and Budget under the provisions of 44 U.S.C. 3501 et seq. and have been assigned OMB No. 7100–0199.

(b) Purpose. The purpose of this regulation is to promote the informed use of consumer credit by requiring disclosures about its terms and cost. The regulation also includes substantive protections. It gives consumers the right to cancel certain credit transactions that involve a lien on a consumer’s principal dwelling, regulates certain credit card practices, and provides a means for fair and timely resolution of credit billing disputes. The regulation does not generally govern charges for consumer credit, except that several provisions in Subpart G set forth special rules addressing certain charges applicable to credit card accounts under an open-end (not home-secured) consumer credit plan. The regulation requires a maximum interest
rate to be stated in variable-rate contracts secured by the consumer’s dwelling. It also imposes limitations on home-equity plans that are subject to the requirements of §226.5b and mortgages that are subject to the requirements of §226.32. The regulation prohibits certain acts or practices in connection with credit secured by a dwelling in §226.36, and credit secured by a consumer’s principal dwelling in §226.35. The regulation also regulates certain practices of creditors who extend private education loans as defined in §226.46(b)(5).

(c) Coverage. (1) In general, this regulation applies to each individual or business that offers or extends credit when four conditions are met:

(i) The credit is offered or extended to consumers;

(ii) The offering or extension of credit is done regularly; ¹

(iii) The credit is subject to a finance charge or is payable by a written agreement in more than four installments; and

(iv) The credit is primarily for personal, family, or household purposes.

(2) If a credit card is involved, however, certain provisions apply even if the credit is not subject to a finance charge, or is not payable by a written agreement in more than four installments, or if the credit card is to be used for business purposes.

(3) In addition, certain requirements of §226.5b apply to persons who are not creditors but who provide applications for home-equity plans to consumers.

(4) Furthermore, certain requirements of §226.57 apply to institutions of higher education.

(d) Organization. The regulation is divided into subparts and appendices as follows:

(1) Subpart A contains general information. It sets forth:

(i) The authority, purpose, coverage, and organization of the regulation;

(ii) The definitions of basic terms;

(iii) The transactions that are exempt from coverage; and

(iv) The method of determining the finance charge.

(2) Subpart B contains the rules for open-end credit. It requires that account-opening disclosures and periodic statements be provided, as well as additional disclosures for credit and charge card applications and solicitations and for home-equity plans subject to the requirements of §226.5a and §226.5b, respectively. It also describes special rules that apply to credit card transactions, treatment of payments and credit balances, procedures for resolving credit billing errors, annual percentage rate calculations, rescission requirements, and advertising.

(3) Subpart C relates to closed-end credit. It contains rules on disclosures, treatment of credit balances, annual percentages rate calculations, rescission requirements, and advertising.

(4) Subpart D contains rules on oral disclosures, disclosures in languages other than English, record retention, effect on state laws, state exemptions, and rate limitations.

(5) Subpart E contains special rules for mortgage transactions. Section 226.32 requires certain disclosures and provides limitations for closed-end loans that have rates or fees above specified amounts. Section 226.33 requires special disclosures, including the total annual loan cost rate, for reverse mortgage transactions. Section 226.34 prohibits specific acts and practices in connection with closed-end mortgage transactions that are subject to §226.32. Section 226.35 prohibits specific acts and practices in connection with closed-end higher-priced mortgage loans, as defined in §226.35(a). Section 226.36 prohibits specific acts and practices in connection with an extension of credit secured by a dwelling.

(6) Subpart F relates to private education loans. It contains rules on disclosures, limitations on changes in terms after approval, the right to cancel the loan, and limitations on co-branding in the marketing of private education loans.

(7) Subpart G relates to credit card accounts under an open-end (not home-secured) consumer credit plan (except for §226.57(c), which applies to all open-end credit plans). Section 226.51 contains rules on evaluation of a consumer’s ability to make the required payments under the terms of an account. Section 226.52 limits the fees that a consumer can be required to pay.

¹[Reserved]
with respect to an open-end (not home-secured) consumer credit plan during the first year after account opening. Section 226.53 contains rules on allocation of payments in excess of the minimum payment. Section 226.54 sets forth certain limitations on the imposition of finance charges as the result of a loss of a grace period. Section 226.55 contains limitations on increases in annual percentage rates, fees, and charges for credit card accounts. Section 226.56 prohibits the assessment of fees or charges for over-the-limit transactions unless the consumer affirmatively consents to the creditor’s payment of over-the-limit transactions. Section 226.57 sets forth rules for reporting and marketing of college student open-end credit. Section 226.58 sets forth requirements for the Internet posting of credit card accounts under an open-end (not home-secured) consumer credit plan.

(8) Several appendices contain information such as the procedures for determinations about state laws, state exemptions and issuance of staff interpretations, special rules for certain kinds of credit plans, a list of enforcement agencies, and the rules for computing annual percentage rates in closed-end credit transactions and total-annual-loan-cost rates for reverse mortgage transactions.

(e) Enforcement and liability. Section 108 of the act contains the administrative enforcement provisions. Sections 112, 113, 130, 131, and 134 contain provisions relating to liability for failure to comply with the requirements of the act and the regulation. Section 1204 (c) of title XII of the Competitive Equality Banking Act of 1987, Public Law 100–86, 101 Stat. 552, incorporates by reference administrative enforcement and civil liability provisions of sections 108 and 130 of the act.

§ 226.2 Definitions and rules of construction.

(a) Definitions. For purposes of this regulation, the following definitions apply:

(1) Act means the Truth in Lending Act (15 U.S.C. 1601 et seq.).

(2) Advertisement means a commercial message in any medium that promotes, directly or indirectly, a credit transaction.

(3) [Reserved]²

(4) Billing cycle or cycle means the interval between the days or dates of regular periodic statements. These intervals shall be equal and no longer than a quarter of a year. An interval will be considered equal if the number of days in the cycle does not vary more than four days from the regular day or date of the periodic statement.

(5) Board means the Board of Governors of the Federal Reserve System.

(6) Business day means a day on which the creditor’s offices are open to the public for carrying on substantially all of its business functions. However, for purposes of rescission under §§ 226.15 and 226.23, and for purposes of §§ 226.19(a)(1)(i), 226.19(a)(2), 226.31, and 226.46(d)(4), the term means all calendar days except Sundays and the legal public holidays specified in 5 U.S.C. 6103(a), such as New Year’s Day, the Birthday of Martin Luther King, Jr., Washington’s Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.

(7) Card issuer means a person that issues a credit card or that person’s agent with respect to the card.

(8) Cardholder means a natural person to whom a credit card is issued for consumer credit purposes, or a natural person who has agreed with the card issuer to pay consumer credit obligations arising from the issuance of a credit card to another natural person. For purposes of § 226.12(a) and (b), the term includes any person to whom a credit card is issued for any purpose, including business, commercial or agricultural use, or a person who has agreed with the card issuer to pay obligations arising from the issuance of such a credit card to another person.

(9) Cash price means the price at which a creditor, in the ordinary course of business, offers to sell for cash property or service that is the subject of the transaction. At the creditor’s option, the term may include

²[Reserved]
the price of accessories, services related to the sale, service contracts and taxes and fees for license, title, and registration. The term does not include any finance charge.

(10) **Closed-end credit** means consumer credit other than "open-end credit" as defined in this section.

(11) **Consumer** means a cardholder or natural person to whom consumer credit is offered or extended. However, for purposes of rescission under §§226.15 and 226.23, the term also includes a natural person in whose principal dwelling a security interest is or will be retained or acquired, if that person’s ownership interest in the dwelling is or will be subject to the security interest.

(12) **Consumer credit** means credit offered or extended to a consumer primarily for personal, family, or household purposes.

(13) **Consummation** means the time that a consumer becomes contractually obligated on a credit transaction.

(14) **Credit** means the right to defer payment of debt or to incur debt and defer its payment.

(15)(i) **Credit card** means any card, plate, or other single credit device that may be used from time to time to obtain credit.

(ii) **Credit card account under an open-end (not home-secured) consumer credit plan** means any open-end credit account that is accessed by a credit card, except:

(A) A home-equity plan subject to the requirements of §226.5b that is accessed by a credit card; or

(B) An overdraft line of credit that is accessed by a debit card or an account number.

(iii) **Charge card** means a credit card on an account for which no periodic rate is used to compute a finance charge.

(16) **Credit sale** means a sale in which the seller is a creditor. The term includes a bailment or lease (unless terminable without penalty at any time by the consumer) under which the consumer—

(i) Agrees to pay as compensation for use a sum substantially equivalent to, or in excess of, the total value of the property and service involved; and

(ii) Will become (or has the option to become), for no additional consider-

ation or for nominal consideration, the owner of the property upon compliance with the agreement.

(17) **Creditor** means:

(i) A person who regularly extends consumer credit that is subject to a finance charge or is payable by written agreement in more than four installments (not including a down payment), and to whom the obligation is initially payable, either on the face of the note or contract, or by agreement when there is no note or contract.

(ii) For purposes of §§226.4(c)(8) (Discounts), 226.9(d) (Finance charge imposed at time of transaction), and 226.12(e) (Prompt notification of returns and crediting of refunds), a person that honors a credit card.

(iii) For purposes of subpart B, any card issuer that extends either open-end credit or credit that is not subject to a finance charge and is not payable by written agreement in more than four installments.

(iv) For purposes of subpart B (except for the credit and charge card disclosures contained in §§226.5a and 226.9(e) and (f), the finance charge disclosures contained in §226.6(a)(1) and (b)(3)(i) and §226.7(a)(4) through (7) and (b)(4) through (6) and the right of rescission set forth in §226.15) and subpart C, any card issuer that extends closed-end credit that is subject to a finance charge or is payable by written agreement in more than four installments.

(v) A person regularly extends consumer credit only if it extended credit (other than credit subject to the requirements of §226.32) more than 25 times (or more than 5 times for transactions secured by a dwelling) in the preceding calendar year. If a person did not meet these numerical standards in the preceding calendar year, the numerical standards shall be applied to the current calendar year. A person regularly extends consumer credit if, in any 12-month period, the person originates more than one credit extension that is subject to the requirements of §226.32 or one or more such credit extensions through a mortgage broker.

(18) **Downpayment** means an amount, including the value of property used as a trade-in, paid to a seller to reduce
the cash price of goods or services purchased in a credit sale transaction. A deferred portion of a downpayment may be treated as part of the downpayment if it is payable not later than the due date of the second otherwise regularly scheduled payment and is not subject to a finance charge.

(19) **Dwelling** means a residential structure that contains one to four units, whether or not that structure is attached to real property. The term includes an individual condominium unit, cooperative unit, mobile home, and trailer, if it is used as a residence.

(20) **Open-end credit** means consumer credit extended by a creditor under a plan in which:

(i) The creditor reasonably contemplates repeated transactions;

(ii) The creditor may impose a finance charge from time to time on an outstanding unpaid balance; and

(iii) The amount of credit that may be extended to the consumer during the term of the plan (up to any limit set by the creditor) is generally made available to the extent that any outstanding balance is repaid.

(21) **Periodic rate** means a rate of finance charge that is or may be imposed by a creditor on a balance for a day, week, month, or other subdivision of a year.

(22) **Person** means a natural person or an organization, including a corporation, partnership, proprietorship, association, cooperative, estate, trust, or government unit.

(23) **Prepaid finance charge** means any finance charge paid separately in cash or by check before or at consummation of a transaction, or withheld from the proceeds of the credit at any time.

(24) **Residential mortgage transaction** means a transaction in which a mortgage, deed of trust, purchase money security interest arising under an installment sales contract, or equivalent consensual security interest is created or retained in the consumer’s principal dwelling to finance the acquisition or initial construction of that dwelling.

(25) **Security interest** means an interest in property that secures performance of a consumer credit obligation and that is recognized by state or federal law. It does not include incidental interests such as interests in proceeds, accessions, additions, fixtures, insurance proceeds (whether or not the creditor is a loss payee or beneficiary), premium rebates, or interests in after-acquired property. For purposes of disclosures under §§226.6 and 226.18, the term does not include an interest that arises solely by operation of law. However, for purposes of the right of rescission under §§226.15 and 226.23, the term does include interests that arise solely by operation of law.

(26) **State** means any state, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

(b) **Rules of construction.** For purposes of this regulation, the following rules of construction apply:

(1) Where appropriate, the singular form of a word includes the plural form and plural includes singular.

(2) Where the words obligation and transaction are used in the regulation, they refer to a consumer credit obligation or transaction, depending upon the context. Where the word credit is used in the regulation, it means consumer credit unless the context clearly indicates otherwise.

(3) Unless defined in this regulation, the words used have the meanings given to them by state law or contract.

(4) Footnotes have the same legal effect as the text of the regulation.

(5) Where the word amount is used in this regulation to describe disclosure requirements, it refers to a numerical amount.

§226.3 **Exempt transactions.**

This regulation does not apply to the following:

(a) **Business, commercial, agricultural, or organizational credit.**

(1) An extension of credit primarily for a business, commercial or agricultural purpose.

(2) An extension of credit to other than a natural person, including credit to government agencies or instrumentalities.

(b) **Credit over applicable threshold amount.**—(1) **Exemption.** An extension of credit in which

---

[4][Reserved]
the amount of credit extended exceeds the applicable threshold amount or in which there is an express written commitment to extend credit in excess of the applicable threshold amount, unless the extension of credit is:

(A) Secured by any real property, or by personal property used or expected to be used as the principal dwelling of the consumer; or

(B) A private education loan as defined in §226.46(b)(5).

(ii) Annual adjustments. The threshold amount in paragraph (b)(1)(i) of this section is adjusted annually to reflect increases in the Consumer Price Index for Urban Wage Earners and Clerical Workers, as applicable. See the official staff commentary to this paragraph (b) for the threshold amount applicable to a specific extension of credit or express written commitment to extend credit.

(2) Transition rule for open-end accounts exempt prior to July 21, 2011. An open-end account that is exempt on July 20, 2011 based on an express written commitment to extend credit in excess of $25,000 remains exempt until December 31, 2011 unless:

(i) The creditor takes a security interest in any real property, or in personal property used or expected to be used as the principal dwelling of the consumer; or

(ii) The creditor reduces the express written commitment to extend credit to $25,000 or less.

(c) Public utility credit. An extension of credit that involves public utility services provided through pipe, wire, other connected facilities, or radio or similar transmission (including extensions of such facilities), if the charges for service, delayed payment, or any discounts for prompt payment are filed with or regulated by any government unit. The financing of durable goods or home improvements by a public utility is not exempt.

(d) Securities or commodities accounts. Transactions in securities or commodities accounts in which credit is extended by a broker-dealer registered with the Securities and Exchange Commission or the Commodity Futures Trading Commission.

(e) Home fuel budget plans. An installment agreement for the purchase of home fuels in which no finance charge is imposed.

(f) Student loan programs. Loans made, insured, or guaranteed pursuant to a program authorized by title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.).

(g) Employer-sponsored retirement plans. An extension of credit to a participant in an employer-sponsored retirement plan qualified under Section 401(a) of the Internal Revenue Code, a tax-sheltered annuity under Section 403(b) of the Internal Revenue Code, or an eligible governmental deferred compensation plan under Section 457(b) of the Internal Revenue Code (26 U.S.C. 401(a); 26 U.S.C. 403(b); 26 U.S.C. 457(b)), provided that the extension of credit is comprised of fully vested funds from such participant’s account and is made in compliance with the Internal Revenue Code (26 U.S.C. 1 et seq.).

§ 226.4 Finance charge.

(a) Definition. The finance charge is the cost of consumer credit as a dollar amount. It includes any charge payable directly or indirectly by the consumer and imposed directly or indirectly by the creditor as an incident to or a condition of the extension of credit. It does not include any charge of a type payable in a comparable cash transaction.

(1) Charges by third parties. The finance charge includes fees and amounts charged by someone other than the creditor, unless otherwise excluded under this section, if the creditor:

(i) Requires the use of a third party as a condition of or an incident to the extension of credit, even if the consumer can choose the third party; or

(ii) Retains a portion of the third-party charge, to the extent of the portion retained.

(2) Special rule: closing agent charges. Fees charged by a third party that conducts the loan closing (such as a settlement agent, attorney, or escrow or title company) are finance charges only if the creditor—

(1) Requires the particular services for which the consumer is charged;
(ii) Requires the imposition of the charge; or
(iii) Retains a portion of the third-party charge, to the extent of the portion retained.

(3) **Special rule; mortgage broker fees.** Fees charged by a mortgage broker (including fees paid by the consumer directly to the broker or to the creditor for delivery to the broker) are finance charges even if the creditor does not require the consumer to use a mortgage broker and even if the creditor does not retain any portion of the charge.

(b) **Examples of finance charges.** The finance charge includes the following types of charges, except for charges specifically excluded by paragraphs (c) through (e) of this section:

(1) Interest, time price differential, and any amount payable under an add-on or discount system of additional charges.

(2) Service, transaction, activity, and carrying charges, including any charge imposed on a checking or other transaction account to the extent that the charge exceeds the charge for a similar account without a credit feature.

(3) Points, loan fees, assumption fees, finder’s fees, and similar charges.

(4) Appraisal, investigation, and credit report fees.

(5) Premiums or other charges for any guarantee or insurance protecting the creditor against the consumer’s default or other credit loss.

(6) Charges imposed on a creditor by another person for purchasing or accepting a consumer’s obligation, if the consumer is required to pay the charges in cash, as an addition to the obligation, or as a deduction from the proceeds of the obligation.

(7) Premiums or other charges for credit life, accident, health, or loss-of-income insurance, written in connection with a credit transaction.

(8) Premiums or other charges for insurance against loss of or damage to property, or against liability arising out of the ownership or use of property, written in connection with a credit transaction.

(9) Discounts for the purpose of inducing payment by a means other than the use of credit.

(10) Charges or premiums paid for debt cancellation or debt suspension coverage written in connection with a credit transaction, whether or not the coverage is insurance under applicable law.

(c) **Charges excluded from the finance charge.** The following charges are not finance charges:

(1) Application fees charged to all applicants for credit, whether or not credit is actually extended.

(2) Charges for actual unanticipated late payment, for exceeding a credit limit, or for delinquency, default, or a similar occurrence.

(3) Charges imposed by a financial institution for paying items that overdraw an account, unless the payment of such items and the imposition of the charge were previously agreed upon in writing.

(4) Fees charged for participation in a credit plan, whether assessed on an annual or other periodic basis.

(5) Seller’s points.

(6) Interest forfeited as a result of an interest reduction required by law on a time deposit used as security for an extension of credit.

(7) **Real-estate related fees.** The following fees in a transaction secured by real property or in a residential mortgage transaction, if the fees are bona fide and reasonable in amount:

(i) Fees for title examination, abstract of title, title insurance, property survey, and similar purposes.

(ii) Fees for preparing loan-related documents, such as deeds, mortgages, and reconveyance or settlement documents.

(iii) Notary and credit-report fees.

(iv) Property appraisal fees or fees for inspections to assess the value or condition of the property if the service is performed prior to closing, including fees related to pest-infestation or flood-hazard determinations.

(v) Amounts required to be paid into escrow or trustee accounts if the amounts would not otherwise be included in the finance charge.

(8) Discounts offered to induce payment for a purchase by cash, check, or other means, as provided in section 167(b) of the Act.

(d) **Insurance and debt cancellation and debt suspension coverage.** (1) Voluntary
credit insurance premiums. Premiums for credit life, accident, health, or loss-of-income insurance may be excluded from the finance charge if the following conditions are met:

(i) The insurance coverage is not required by the creditor, and this fact is disclosed in writing.

(ii) The premium for the initial term of insurance coverage is disclosed in writing. If the term of insurance is less than the term of the transaction, the term of insurance also shall be disclosed. The premium may be disclosed on a unit-cost basis only in open-end credit transactions, closed-end credit transactions by mail or telephone under §226.17(g), and certain closed-end credit transactions involving an insurance plan that limits the total amount of indebtedness subject to coverage.

(iii) The consumer signs or initials an affirmative written request for insurance after receiving the disclosures specified in this paragraph, except as provided in paragraph (d)(4) of this section. Any consumer in the transaction may sign or initial the request.

(2) Property insurance premiums. Premiums for insurance against loss of or damage to property, or against liability arising out of the ownership or use of property, including single interest insurance if the insurer waives all right of subrogation against the consumer, may be excluded from the finance charge if the following conditions are met:

(i) The insurance coverage may be obtained from a person of the consumer’s choice, and this fact is disclosed. (A creditor may reserve the right to refuse to accept, for reasonable cause, an insurer offered by the consumer.)

(ii) If the coverage is obtained from or through the creditor, the premium for the initial term of insurance coverage shall be disclosed. If the term of insurance is less than the term of the transaction, the term of insurance shall also be disclosed. The premium may be disclosed on a unit-cost basis only in open-end credit transactions, closed-end credit transactions by mail or telephone under §226.17(g), and certain closed-end credit transactions involving an insurance plan that limits the total amount of indebtedness subject to coverage.

(iii) The following are disclosed, as applicable, for debt suspension coverage: That the obligation to pay loan principal and interest is only suspended, and that interest will continue to accrue during the period of suspension.

(iv) The consumer signs or initials an affirmative written request for coverage after receiving the disclosures specified in this paragraph, except as provided in paragraph (d)(4) of this section. Any consumer in the transaction may sign or initial the request.

(4) Telephone purchases. If a consumer purchases credit insurance or debt cancellation or debt suspension coverage for an open-end (not home-secured) plan by telephone, the creditor must make the disclosures under paragraphs (d)(1)(i) and (ii) or (d)(3)(i) through (iii) of this section, as applicable, orally. In such a case, the creditor shall:
Federal Reserve System

§ 226.5

(i) Maintain evidence that the consumer, after being provided the disclosures orally, affirmatively elected to purchase the insurance or coverage; and

(ii) Mail the disclosures under paragraphs (d)(1)(i) and (ii) or (d)(3)(i) through (iii) of this section, as applicable, within three business days after the telephone purchase.

(e) Certain security interest charges. If itemized and disclosed, the following charges may be excluded from the finance charge:

(1) Taxes and fees prescribed by law that actually are or will be paid to public officials for determining the existence of or for perfecting, releasing, or satisfying a security interest.

(2) The premium for insurance in lieu of perfecting a security interest to the extent that the premium does not exceed the fees described in paragraph (e)(1) of this section that otherwise would be payable.

(3) Taxes on security instruments. Any tax levied on security instruments or on documents evidencing indebtedness if the payment of such taxes is a requirement for recording the instrument securing the evidence of indebtedness.

(f) Prohibited offsets. Interest, dividends, or other income received or to be received by the consumer on deposits or investments shall not be deducted in computing the finance charge.

[75 FR 7794, Feb. 22, 2010]

Subpart B—Open-End Credit

§ 226.5 General disclosure requirements.

(a) Form of disclosures. (1) General. (i) The creditor shall make the disclosures required by this subpart clearly and conspicuously.

(ii) The creditor shall make the disclosures required by this subpart in writing, in a form that the consumer may keep, except that:

(A) The following disclosures need not be written: Disclosures under §226.6(b)(3) of charges that are imposed as part of an open-end (not home-secured) plan that are not required to be disclosed under §226.6(b)(2) and related disclosures of charges under §226.9(c)(2)(iii)(B); disclosures under §226.9(c)(2)(viii); disclosures under §226.9(d) when a finance charge is imposed at the time of the transaction; and disclosures under §226.56(b)(1)(i).

(B) The following disclosures need not be in a retainable form: Disclosures that need not be written under paragraph (a)(1)(ii)(A) of this section; disclosures for credit and charge card applications and solicitations under §226.5a; home-equity disclosures under §226.5b(d); the alternative summary billing-rights statement under §226.9(a)(2); the credit and charge card renewal disclosures required under §226.9(e); and the payment requirements under §226.10(b), except as provided in §226.7(b)(13).

(iii) The disclosures required by this subpart may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.). The disclosures required by §§226.5a, 226.5b, and 226.16 may be provided to the consumer in electronic form without regard to the consumer consent or other provisions of the E-Sign Act in the circumstances set forth in those sections.

(2) Terminology. (i) Terminology used in providing the disclosures required by this subpart shall be consistent.

(ii) For home-equity plans subject to §226.5b, the terms finance charge and annual percentage rate, when required to be disclosed with a corresponding amount or percentage rate, shall be more conspicuous than any other required disclosure. The terms need not be more conspicuous when used for periodic statement disclosures under §226.7(a)(4) and for advertisements under §226.16.

(iii) If disclosures are required to be presented in a tabular format pursuant to paragraph (a)(3) of this section, the term penalty APR shall be used, as applicable. The term penalty APR need not be used in reference to the annual percentage rate that applies with the

1[Reserved]

8[Reserved]

417
loss of a promotional rate, assuming the annual percentage rate that applies is not greater than the annual percentage rate that would have applied at the end of the promotional period; or if the annual percentage rate that applies with the loss of a promotional rate is a variable rate, the annual percentage rate is calculated using the same index and margin as would have been used to calculate the annual percentage rate that would have applied at the end of the promotional period. If credit insurance or debt cancellation or debt suspension coverage is required as part of the plan, the term required shall be used and the program shall be identified by its name. If an annual percentage rate is required to be presented in a tabular format pursuant to paragraph (a)(3)(i) or (a)(3)(iii) of this section, the term fixed, or a similar term, may not be used to describe such rate unless the creditor also specifies a time period that the rate will be fixed and the rate will not increase during that period, or if no such time period is provided, the rate will not increase while the plan is open.

(3) Specific formats. (i) Certain disclosures for credit and charge card applications and solicitations must be provided in a tabular format in accordance with the requirements of §226.5(a)(2).

(ii) Certain disclosures for home-equity plans must precede other disclosures and must be given in accordance with the requirements of §226.5(b)(a).

(iii) Certain account-opening disclosures must be provided in a tabular format in accordance with the requirements of §226.5(b)(1).

(iv) Certain disclosures provided on periodic statements must be grouped together in accordance with the requirements of §226.7(b)(6) and (b)(13).

(v) Certain disclosures provided on periodic statements must be given in accordance with the requirements of §226.7(b)(12).

(vi) Certain disclosures accompanying checks that access a credit card account must be provided in a tabular format in accordance with the requirements of §226.9(b)(3).

(vii) Certain disclosures provided in a change-in-terms notice must be provided in a tabular format in accordance with the requirements of §226.9(c)(2)(iv)(D).

(viii) Certain disclosures provided when a rate is increased due to delinquency, default or as a penalty must be provided in a tabular format in accordance with the requirements of §226.9(c)(3)(i).

(b) Time of disclosures. (1) Account-opening disclosures. (i) General rule. The creditor shall furnish account-opening disclosures required by §226.6 before the first transaction is made under the plan.

(ii) Charges imposed as part of an open-end (not home-secured) plan. Charges that are imposed as part of an open-end (not home-secured) plan and are not required to be disclosed under §226.6(b)(2) may be disclosed after account opening but before the consumer agrees to pay or becomes obligated to pay for the charge, provided they are disclosed at a time and in a manner that a consumer would be likely to notice them. This provision does not apply to charges imposed as part of a home-equity plan subject to the requirements of §226.5b.

(iii) Telephone purchases. Disclosures required by §226.6 may be provided as soon as reasonably practicable after the first transaction if:

(A) The first transaction occurs when a consumer contacts a merchant by telephone to purchase goods and at the same time the consumer accepts an offer to finance the purchase by establishing an open-end plan with the merchant or third-party creditor;

(B) The merchant or third-party creditor permits consumers to return any goods financed under the plan and provides consumers with a sufficient time to reject the plan and return the goods free of cost after the merchant or third-party creditor has provided the written disclosures required by §226.6; and

(C) The consumer's right to reject the plan and return the goods is disclosed to the consumer as a part of the offer to finance the purchase.

(iv) Membership fees. (A) General. In general, a creditor may not collect any fee before account-opening disclosures are provided. A creditor may collect, or obtain the consumer's agreement to pay, membership fees, including application fees excludable from the finance
§ 226.5

charge under §226.4(c)(1), before providing account-opening disclosures if, after receiving the disclosures, the consumer may reject the plan and have no obligation to pay these fees (including application fees) or any other fee or charge. A membership fee for purposes of this paragraph has the same meaning as a fee for the issuance or availability of credit described in §226.5a(b)(2). If the consumer rejects the plan, the creditor must promptly refund the membership fee if it has been paid, or take other action necessary to ensure the consumer is not obligated to pay that fee or any other fee or charge.

(B) Home-equity plans. Creditors offering home-equity plans subject to the requirements of §226.5b are not subject to the requirements of paragraph (b)(1)(iv)(A) of this section.

(v) Application fees. A creditor may collect an application fee excludable from the finance charge under §226.4(c)(1) before providing account-opening disclosures. However, if a consumer rejects the plan after receiving account-opening disclosures, the consumer must have no obligation to pay such an application fee, or if the fee was paid, it must be refunded. See §226.5(b)(1)(iv)(A).

(2) Periodic statements. (i) Statement required. The creditor shall mail or deliver a periodic statement as required by §226.7 for each billing cycle at the end of which an account has a debit or credit balance of more than $1 or on which a finance charge has been imposed. A periodic statement need not be sent for an account if the creditor deems it uncollectible, if delinquency collection proceedings have been instituted, if the creditor has charged off the account in accordance with loan-loss provisions and will not charge any additional fees or interest on the account, or if furnishing the statement would violate federal law.

(A) Credit card accounts under an open-end (not home-secured) consumer credit plan. For credit card accounts under an open-end (not home-secured) consumer credit plan, a card issuer must adopt reasonable procedures designed to ensure that:

(1) Periodic statements are mailed or delivered at least 21 days prior to the payment due date disclosed on the statement pursuant to §226.7(b)(11)(i)(A); and

(2) The card issuer does not treat as late for any purpose a required minimum periodic payment received by the card issuer within 21 days after mailing or delivery of the periodic statement disclosing the due date for that payment.

(B) Open-end consumer credit plans. For accounts under an open-end consumer credit plan, a creditor must adopt reasonable procedures designed to ensure that:

(1) If a grace period applies to the account:

(i) Periodic statements are mailed or delivered at least 21 days prior to the date on which the grace period expires; and

(ii) The creditor does not impose finance charges as a result of the loss of the grace period if a payment that satisfies the terms of the grace period is received by the creditor within 21 days after mailing or delivery of the periodic statement.

(2) Regardless of whether a grace period applies to the account:

(i) Periodic statements are mailed or delivered at least 14 days prior to the date on which the required minimum periodic payment must be received in order to avoid being treated as late for any purpose; and

(ii) The creditor does not treat as late for any purpose a required minimum periodic payment received by the creditor within 14 days after mailing or delivery of the periodic statement.

(3) For purposes of paragraph (b)(2)(i)(B) of this section, “grace period” means a period within which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate.\(^\text{10}\)

(3) Credit and charge card application and solicitation disclosures. The card issuer shall furnish the disclosures for credit and charge card applications and solicitations in accordance with the timing requirements of §226.5a.

(4) Home-equity plans. Disclosures for home-equity plans shall be made in accordance with the timing requirements of §226.5b.

\(^{10}\)[Reserved]
§ 226.5a Credit and charge card applications and solicitations.

(a) General rules. The card issuer shall provide the disclosures required under this section on or with a solicitation or an application to open a credit or charge card account.

(1) Definition of solicitation. For purposes of this section, the term solicitation means an offer by the card issuer to open a credit or charge card account that does not require the consumer to complete an application. A “firm offer of credit” as defined in section 603(l) of the Fair Credit Reporting Act (15 U.S.C. 1681a(l)) for a credit or charge card is a solicitation for purposes of this section.

(2) Form of disclosures; tabular format. (i) The disclosures in paragraphs (b)(1) through (5) (except for (b)(1)(iv)(B)) and (b)(7) through (15) of this section made pursuant to paragraph (c), (d)(2), (e)(1) or (f) of this section generally shall be in the form of a table with headings, content, and format substantially similar to any of the applicable tables found in G–10 in appendix G to this part.

(ii) The table described in paragraph (a)(2)(i) of this section shall contain only the information required or permitted by this section. Other information may be presented on or with an application or solicitation, provided such information appears outside the required table.

(iii) Disclosures required by paragraphs (b)(1)(iv)(B), (b)(1)(iv)(C) and (b)(6) of this section must be placed directly beneath the table.

(iv) When a tabular format is required, any annual percentage rate required to be disclosed pursuant to paragraph (b)(1) of this section, any introductory rate required to be disclosed pursuant to paragraph (b)(1)(ii) of this section, any rate that will apply after a premium initial rate expires required to be disclosed under paragraph (b)(1)(iii) of this section, and any fee or percentage amounts or maximum limits on fee amounts disclosed pursuant to paragraphs (b)(2), (b)(4), (b)(8) through (b)(13) of this section must be disclosed in bold text. However, bold text shall not be used for: The amount of any periodic fee disclosed pursuant to paragraph (b)(2) of this section that is not an annualized amount; and other annual percentage rates or fee amounts disclosed in the table.

(v) For an application or a solicitation that is accessed by the consumer in electronic form, the disclosures required under this section may be provided to the consumer in electronic form on or with the application or solicitation.

(vi)(A) Except as provided in paragraph (a)(2)(vi)(B) of this section, the table described in paragraph (a)(2)(i) of this section must be provided in a prominent location on or with an application or solicitation.

(B) If the table described in paragraph (a)(2)(i) of this section is provided electronically, it must be provided in close proximity to the application or solicitation.
(3) **Fees based on a percentage.** If the amount of any fee required to be disclosed under this section is determined on the basis of a percentage of another amount, the percentage used and the identification of the amount against which the percentage is applied may be disclosed instead of the amount of the fee.

(4) **Fees that vary by state.** Card issuers that impose fees referred to in paragraphs (b)(8) through (12) of this section that vary by state may, at the issuer’s option, disclose in the table required by paragraph (a)(2)(i) of this section: the specific fee applicable to the consumer’s account; or the range of the fees, if the disclosure includes a statement that the amount of the fee varies by state and refers the consumer to a disclosure provided with the table where the amount of the fee applicable to the consumer’s account is disclosed. A card issuer may not list fees for multiple states in the table.

(5) **Exceptions.** This section does not apply to:

(i) Home-equity plans accessible by a credit or charge card that are subject to the requirements of §226.5b;

(ii) Overdraft lines of credit tied to asset accounts accessed by check-guarantee cards or by debit cards;

(iii) Lines of credit accessed by check-guarantee cards or by debit cards that can be used only at automated teller machines;

(iv) Lines of credit accessed solely by account numbers;

(v) Additions of a credit or charge card to an existing open-end plan;

(vi) General purpose applications unless the application, or material accompanying it, indicates that it can be used to open a credit or charge card account; or

(vii) Consumer-initiated requests for applications.

(b) **Required disclosures.** The card issuer shall disclose the items in this paragraph with an application or a solicitation in accordance with the requirements of paragraphs (c), (d), (e)(1) or (f) of this section. A credit card issuer shall disclose all applicable items in this paragraph except for paragraph (b)(7) of this section. A charge card issuer shall disclose the applicable items in paragraphs (b)(2), (4), (7) through (12), and (15) of this section.

(1) **Annual percentage rate.** Each periodic rate that may be used to compute the finance charge on an outstanding balance for purchases, a cash advance, or a balance transfer, expressed as an annual percentage rate (as determined by §226.14(b)). When more than one rate applies for a category of transactions, the range of balances to which each rate is applicable shall also be disclosed. The annual percentage rate for purchases disclosed pursuant to this paragraph shall be in at least 16-point type, except for the following: Oral disclosures of the annual percentage rate for purchases; or a penalty rate that may apply upon the occurrence of one or more specific events.

(i) **Variable rate information.** If a rate disclosed under paragraph (b)(1) of this section is a variable rate, the card issuer shall also disclose the fact that the rate may vary and how the rate is determined. In describing how the applicable rate will be determined, the card issuer must identify the type of index or formula that is used in setting the rate. The value of the index and the amount of the margin that are used to calculate the variable rate shall not be disclosed in the table. A disclosure of any applicable limitations on rate increases shall not be included in the table.

(ii) **Discounted initial rate.** If the initial rate is an introductory rate, as that term is defined in §226.16(g)(2)(ii), the card issuer must disclose in the table the introductory rate, the time period during which the introductory rate will remain in effect, and must use the term “introductory” or “intro” in immediate proximity to the introductory rate. The card issuer also must disclose the rate that would otherwise apply to the account pursuant to paragraph (b)(1) of this section. Where the rate is not tied to an index or formula, the card issuer must disclose the rate that will apply after the introductory rate expires. In a variable-rate account, the card issuer must disclose a rate based on the applicable index or formula in accordance with the accuracy requirements set forth in paragraphs (c)(2), (d)(3), or (e)(4) of this section, as applicable.
(iii) Premium initial rate. If the initial rate is temporary and is higher than the rate that will apply after the temporary rate expires, the card issuer must disclose the premium initial rate pursuant to paragraph (b)(1) of this section and the time period during which the premium initial rate will remain in effect. Consistent with paragraph (b)(1) of this section, the premium initial rate for purchases must be in at least 16-point type. The issuer must also disclose in the table the rate that will apply after the premium initial rate expires, in at least 16-point type.

(iv) Penalty rates. (A) In general. Except as provided in paragraph (b)(1)(iv)(B) and (C) of this section, if a rate may increase as a penalty for one or more events specified in the account agreement, such as a late payment or an extension of credit that exceeds the credit limit, the card issuer must disclose pursuant to this paragraph (b)(1) the increased rate that may apply, a brief description of the event or events that may result in the increased rate, and a brief description of how long the increased rate will remain in effect.

(B) Introductory rates. If the issuer discloses an introductory rate, as that term is defined in §226.16(g)(2)(ii), in the table or in any written or electronic promotional materials accompanying applications or solicitations subject to paragraph (c) or (e) of this section, the issuer must disclose directly beneath the table the circumstances, if any, under which the introductory rate may be revoked, and the type of rate that will apply after the introductory rate is revoked.

(C) Employee preferential rates. If a card issuer discloses in the table a preferential annual percentage rate for which only employees of the card issuer, employees of a third party, or other individuals with similar affiliations with the card issuer or third party, such as executive officers, directors, or principal shareholders are eligible, the card issuer must briefly disclose directly beneath the table the circumstances under which such preferential rate may be revoked, and the rate that will apply after such preferential rate is revoked.

(v) Rates that depend on consumer’s creditworthiness. If a rate cannot be determined at the time disclosures are given because the rate depends, at least in part, on a later determination of the consumer’s creditworthiness, the card issuer must disclose the specific rates or the range of rates that could apply and a statement that the rate for which the consumer may qualify at account opening will depend on the consumer’s creditworthiness, and other factors if applicable. If the rate that depends, at least in part, on a later determination of the consumer’s creditworthiness is a penalty rate, as described in paragraph (b)(1)(iv) of this section, the card issuer at its option may disclose the highest rate that could apply, instead of disclosing the specific rates or the range of rates that could apply.

(vi) APRs that vary by state. Issuers imposing annual percentage rates that vary by state may, at the issuer’s option, disclose in the table: the specific annual percentage rate applicable to the consumer’s account; or the range of the annual percentage rates, if the disclosure includes a statement that the annual percentage rate varies by state and refers the consumer to a disclosure provided with the table where the annual percentage rate applicable to the consumer’s account is disclosed. A card issuer may not list annual percentage rates for multiple states in the table.

(2) Fees for issuance or availability. (i) Any annual or other periodic fee that may be imposed for the issuance or availability of a credit or charge card, including any fee based on account activity or inactivity; how frequently it will be imposed; and the annualized amount of the fee.

(ii) Any non-periodic fee that relates to opening an account. A card issuer must disclose that the fee is a one-time fee.

(3) Fixed finance charge; minimum interest charge. Any fixed finance charge and a brief description of the charge. Any minimum interest charge if it exceeds $1.00 that could be imposed during a billing cycle, and a brief description of the charge. The $1.00 threshold amount shall be adjusted periodically by the Board to reflect changes in the Consumer Price Index. The Board shall calculate each year a price level adjusted minimum interest charge using
§226.5a

the Consumer Price Index in effect on June 1 of that year. When the cumulative change in the adjusted minimum value derived from applying the annual Consumer Price level to the current minimum interest charge threshold has risen by a whole dollar, the minimum interest charge will be increased by $1.00. The issuer may, at its option, disclose in the table minimum interest charges below this threshold.

(4) Transaction charges. Any transaction charge imposed by the card issuer for the use of the card for purchases.

(5) Grace period. The date by which or the period within which any credit extended for purchases may be repaid without incurring a finance charge due to a periodic interest rate and any conditions on the availability of the grace period. If no grace period is provided, that fact must be disclosed. If the length of the grace period varies, the card issuer may disclose the range of days, the minimum number of days, or the average number of days in the grace period, if the disclosure is identified as a range, minimum, or average. In disclosing in the tabular format a grace period that applies to all types of purchases, the phrase “How to Avoid Paying Interest on Purchases” shall be used as the heading for the row describing the grace period. If a grace period is not offered on all types of purchases, in disclosing this fact in the tabular format, the phrase “Paying Interest” shall be used as the heading for the row describing this fact.

(6) Balance computation method. The name of the balance computation method listed in paragraph (g) of this section that is used to determine the balance for purchases on which the finance charge is computed, or an explanation of the method used if it is not listed. In determining which balance computation method to disclose, the card issuer shall assume that credit extended for purchases will not be repaid within the grace period, if any.

(7) Statement on charge card payments. A statement that charges incurred by use of the charge card are due when the periodic statement is received.

(8) Cash advance fee. Any fee imposed for an extension of credit in the form of cash or its equivalent.

(9) Late payment fee. Any fee imposed for a late payment.

(10) Over-the-limit fee. Any fee imposed for exceeding a credit limit.

(11) Balance transfer fee. Any fee imposed to transfer an outstanding balance.

(12) Returned-payment fee. Any fee imposed by the card issuer for a returned payment.

(13) Required insurance, debt cancellation or debt suspension coverage. (1) A fee for insurance described in §226.4(b)(7) or debt cancellation or suspension coverage described in §226.4(b)(10), if the insurance or debt cancellation or suspension coverage is required as part of the plan; and

(ii) A cross reference to any additional information provided about the insurance or coverage accompanying the application or solicitation, as applicable.

(14) Available credit. If a card issuer requires fees for the issuance or availability of credit described in paragraph (b)(2) of this section, or requires a security deposit for such credit, and the total amount of those required fees and/or security deposit that will be imposed and charged to the account when the account is opened is 15 percent or more of the minimum credit limit for the card, a card issuer must disclose the available credit remaining after these fees or security deposit are debited to the account, assuming that the consumer receives the minimum credit limit. In determining whether the 15 percent threshold test is met, the issuer must only consider fees for issuance or availability of credit, or a security deposit, that are required. If fees for issuance or availability are optional, these fees should not be considered in determining whether the disclosure must be given. Nonetheless, if the 15 percent threshold test is met, the issuer in providing the disclosure must disclose the amount of available credit calculated by excluding those optional fees, and the available credit including those optional fees. This paragraph does not apply with respect to fees or security deposits that are not debited to the account.

(15) Web site reference. A reference to the Web site established by the Board and a statement that consumers may
obtain on the Web site information about shopping for and using credit cards.

(c) Direct mail and electronic applications and solicitations. (1) General. The card issuer shall disclose the applicable items in paragraph (b) of this section on or with an application or solicitation that is mailed to consumers or provided to consumers in electronic form.

(2) Accuracy. (i) Disclosures in direct mail applications and solicitations must be accurate as of the time the disclosures are mailed. An accurate variable annual percentage rate is one in effect within 60 days before mailing.

(ii) Disclosures provided in electronic form must be accurate as of the time they are viewed by the public, in the case of disclosures sent to a consumer’s e-mail address, or as of the time they are viewed by the public, in the case of disclosures made available at a location such as a card issuer’s Web site. An accurate variable annual percentage rate provided in electronic form is one in effect within 30 days before it is sent to a consumer’s e-mail address, or viewed by the public, as applicable.

(d) Telephone applications and solicitations. (1) Oral disclosure. The card issuer shall disclose orally the information in paragraphs (b)(1) through (7) and (b)(14) of this section, to the extent applicable, in a telephone application or solicitation initiated by the card issuer.

(2) Alternative disclosure. The oral disclosure under paragraph (d)(1) of this section need not be given if the card issuer either:

(i) (A) Does not impose a fee described in paragraph (b)(2) of this section; or

(B) Imposes such a fee but provides the consumer with a right to reject the plan consistent with §226.5(b)(1)(iv); and

(ii) The card issuer discloses in writing within 30 days after the consumer requests the card (but in no event later than the delivery of the card) the following:

(A) The applicable information in paragraph (b) of this section; and

(B) As applicable, the fact that the consumer has the right to reject the plan and not be obligated to pay fees described in paragraph (b)(2) or any other fees or charges until the consumer has used the account or made a payment on the account after receiving a billing statement.

(3) Accuracy. (i) The oral disclosures under paragraph (d)(1) of this section must be accurate as of the time they are given.

(ii) The alternative disclosures under paragraph (d)(2) of this section generally must be accurate as of the time they are mailed or delivered. A variable annual percentage rate is one that is accurate if it was:

(A) In effect at the time the disclosures are mailed or delivered; or

(B) In effect as of a specified date (which rate is then updated from time to time, but no less frequently than each calendar month).

(e) Applications and solicitations made available to general public. The card issuer shall provide disclosures, to the extent applicable, on or with an application or solicitation that is made available to the general public, including one contained in a catalog, magazine, or other generally available publication. The disclosures shall be provided in accordance with paragraph (e)(1) or (e)(2) of this section.

(1) Disclosure of required credit information. The card issuer may disclose in a prominent location on the application or solicitation the following:

(i) The applicable information in paragraph (b) of this section;

(ii) The date the required information was printed, including a statement that the required information was accurate as of that date and is subject to change after that date; and

(iii) A statement that the consumer should contact the card issuer for any change in the required information since it was printed, and a toll-free telephone number or a mailing address for that purpose.

(2) No disclosure of credit information. If none of the items in paragraph (b) of this section is provided on or with the application or solicitation, the card issuer may state in a prominent location on the application or solicitation the following:

(i) There are costs associated with the use of the card; and

(ii) The consumer may contact the card issuer to request specific information about the costs, along with a toll-
free telephone number and a mailing address for that purpose.

(3) Prompt response to requests for information. Upon receiving a request for any of the information referred to in this paragraph, the card issuer shall promptly and fully disclose the information requested.

(4) Accuracy. The disclosures given pursuant to paragraph (e)(1) of this section must be accurate as of the date of printing. A variable annual percentage rate is accurate if it was in effect within 30 days before printing.

(f) In-person applications and solicitations. A card issuer shall disclose the information in paragraph (b) of this section, to the extent applicable, on or with an application or solicitation that is initiated by the card issuer and given to the consumer in person. A card issuer complies with the requirements of this paragraph if the issuer provides disclosures in accordance with paragraph (c)(1) or (e)(1) of this section.

g) Balance computation methods defined. The following methods may be described by name. Methods that differ due to variations such as the allocation of payments, whether the finance charge begins to accrue on the transaction date or the date of posting the transaction, the existence or length of a grace period, and whether the balance is adjusted by charges such as late payment fees, annual fees and unpaid finance charges do not constitute separate balance computation methods.

(1)(i) Average daily balance (including new purchases). This balance is figured by adding the outstanding balance (including new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle.

(ii) Average daily balance (excluding new purchases). This balance is figured by adding the outstanding balance (excluding new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle.

(2) Adjusted balance. This balance is figured by deducting payments and credits made during the billing cycle from the outstanding balance at the beginning of the billing cycle.

(3) Previous balance. This balance is the outstanding balance at the beginning of the billing cycle.

(4) Daily balance. For each day in the billing cycle, this balance is figured by taking the beginning balance each day, adding any new purchases, and subtracting any payment and credits.

§ 226.5b Requirements for home equity plans.

The requirements of this section apply to open-end credit plans secured by the consumer's dwelling. For purposes of this section, an annual percentage rate is the annual percentage rate corresponding to the periodic rate as determined under § 226.14(b).

(a) Form of disclosures—(1) General. The disclosures required by paragraph (d) of this section shall be made clearly and conspicuously and shall be grouped together and segregated from all unrelated information. The disclosures may be provided on the application form or on a separate form. The disclosure described in paragraph (d)(4)(iii), the itemization of third-party fees described in paragraph (d)(8), and the variable-rate information described in paragraph (d)(12) of this section may be provided separately from the other required disclosures.

(2) Precedence of certain disclosures. The disclosures described in paragraph (d)(1) through (4)(ii) of this section shall precede the other required disclosures.

(3) For an application that is accessed by the consumer in electronic form, the disclosures required under this section may be provided to the consumer in electronic form on or with the application.

(b) Time of disclosures. The disclosures and brochure required by paragraphs (d) and (e) of this section shall be provided at the time an application is provided to the consumer. 16a

16a. The disclosures and the brochure may be delivered or placed in the mail not later than three business days following receipt of a consumer's application in the case of applications contained in magazines or other publications, or when the application is received Continued
§ 226.5b

(c) Duties of third parties—Persons other than the creditor who provide applications to consumers for home equity plans must provide the brochure required under paragraph (e) of this section at the time an application is provided. If such persons have the disclosures required under paragraph (d) of this section for a creditor’s home equity plan, they also shall provide the disclosures at such time. 10a

(d) Content of disclosures. The creditor shall provide the following disclosures, as applicable:

(1) Retention of information. A statement that the consumer should make or otherwise retain a copy of the disclosures.

(2) Conditions for disclosed terms. (i) A statement of the time by which the consumer must submit an application to obtain specific terms disclosed and an identification of any disclosed term that is subject to change prior to opening the plan.

(ii) A statement that, if a disclosed term changes (other than a change due to fluctuations in the index in a variable-rate plan) prior to opening the plan and the consumer therefore elects not to open the plan, the consumer may receive a refund of all fees paid in connection with the application.

(3) Security interest and risk to home. A statement that the creditor will acquire a security interest in the consumer’s dwelling and that loss of the dwelling may occur in the event of default.

(4) Possible actions by creditor. (i) A statement that, under certain conditions, the creditor may terminate the plan and require payment of the outstanding balance in full in a single payment and impose fees upon termination; prohibit additional extensions of credit or reduce the credit limit; and, as specified in the initial agreement, implement certain changes in the plan.

(ii) A statement that the consumer may receive, upon request, information about the conditions under which such actions may occur.

(iii) In lieu of the disclosure required under paragraph (d)(4)(ii) of this section, a statement of such conditions.

(5) Payment terms. The payment terms of the plan, including:

(i) The length of the draw period and any repayment period.

(ii) An explanation of how the minimum periodic payment will be determined and the timing of the payments. If paying only the minimum periodic payments may not repay any of the principal or may repay less than the outstanding balance, a statement of this fact, as well as a statement that a balloon payment may result. 10b

(iii) An example, based on a $10,000 outstanding balance and a recent annual percentage rate, 10c showing the minimum periodic payment, any balloon payment, and the time it would take to repay the $10,000 outstanding balance if the consumer made only those payments and obtained no additional extensions of credit.

If different payment terms may apply to the draw and any repayment period, or if different payment terms may apply within either period, the disclosures shall reflect the different payment terms.

(6) Annual percentage rate. For fixed-rate plans, a recent annual percentage rate, 10c imposed under the plan and a statement that the rate does not include costs other than interest.

(7) Fees imposed by creditor. An itemization of any fees imposed by the creditor to open, use, or maintain the plan, stated as a dollar amount or percentage, and when such fees are payable.

10b A balloon payment results if paying the minimum periodic payments does not fully amortize the outstanding balance by a specified date or time, and the consumer must repay the entire outstanding balance at such time.

10c For fixed-rate plans, a recent annual percentage rate is a rate that has been in effect under the plan within the twelve months preceding the date the disclosures are provided to the consumer. For variable-rate plans, a recent annual percentage rate is the most recent rate provided in the historical example described in paragraph (d)(12)(x) of this section or a rate that has been in effect under the plan since the date of the most recent rate in the table.
(8) Fees imposed by third parties to open a plan. A good faith estimate, stated as a single dollar amount or range, of any fees that may be imposed by persons other than the creditor to open the plan, as well as a statement that the consumer may receive, upon request, a good faith itemization of such fees. In lieu of the statement, the itemization of such fees may be provided.

(9) Negative amortization. A statement that negative amortization may occur and that negative amortization increases the principal balance and reduces the consumer’s equity in the dwelling.

(10) Transaction requirements. Any limitations on the number of extensions of credit and the amount of credit that may be obtained during any time period, as well as any minimum outstanding balance and minimum draw requirements, stated as dollar amounts or percentages.

(11) Tax implications. A statement that the consumer should consult a tax advisor regarding the deductibility of interest and charges under the plan.

(12) Disclosures for variable-rate plans. For a plan in which the annual percentage rate is variable, the following disclosures, as applicable:

(i) The fact that the annual percentage rate, payment, or term may change due to the variable-rate feature.

(ii) A statement that the annual percentage rate does not include costs other than interest.

(iii) The index used in making rate adjustments and a source of information about the index.

(iv) An explanation of how the annual percentage rate will be determined, including an explanation of how the index is adjusted, such as by the addition of a margin.

(v) A statement that the consumer should ask about the current index value, margin, discount or premium, and annual percentage rate.

(vi) A statement that the initial annual percentage rate is not based on the index and margin used to make later rate adjustments, and the period of time such initial rate will be in effect.

(vii) The frequency of changes in the annual percentage rate.

(viii) Any rules relating to changes in the index value and the annual percentage rate and resulting changes in the payment amount, including, for example, an explanation of payment limitations and rate carryover.

(ix) A statement of any annual or more frequent periodic limitations on changes in the annual percentage rate (or a statement that no annual limitation exists), as well as a statement of the maximum annual percentage rate that may be imposed under each payment option.

(x) The minimum periodic payment required when the maximum annual percentage rate for each payment option is in effect for a $10,000 outstanding balance, and a statement of the earliest date or time the maximum rate may be imposed.

(xi) An historical example, based on a $10,000 extension of credit, illustrating how annual percentage rates and payments would have been affected by index value changes implemented according to the terms of the plan. The historical example shall be based on the most recent 15 years of index values (selected for the same time period each year) and shall reflect all significant plan terms, such as negative amortization, rate carryover, rate discounts, and rate and payment limitations, that would have been affected by the index movement during the period.

(xii) A statement that rate information will be provided on or with each periodic statement.

(e) Brochure. The home equity brochure published by the Board or a suitable substitute shall be provided.

(f) Limitations on home equity plans. No creditor may, by contract or otherwise:

(1) Change the annual percentage rate unless:

(i) Such change is based on an index that is not under the creditor’s control; and

(ii) Such index is available to the general public.

(2) Terminate a plan and demand repayment of the entire outstanding balance in advance of the original term (except for reverse mortgage transactions that are subject to paragraph (f)(4) of this section) unless:
(i) There is fraud or material misrepresentation by the consumer in connection with the plan;

(ii) The consumer fails to meet the repayment terms of the agreement for any outstanding balance;

(iii) Any action or inaction by the consumer adversely affects the creditor’s security for the plan, or any right of the creditor in such security; or

(iv) Federal law dealing with credit extended by a depository institution to its executive officers specifically requires that as a condition of the plan the credit shall become due and payable on demand, provided that the creditor includes such a provision in the initial agreement.

(3) Change any term, except that a creditor may:

(i) Provide in the initial agreement that it may prohibit additional extensions of credit or reduce the credit limit during any period in which the maximum annual percentage rate is reached. A creditor also may provide in the initial agreement that specified changes will occur if a specified event takes place (for example, that the annual percentage rate will increase a specified amount if the consumer leaves the creditor’s employment).

(ii) Change the index and margin used under the plan if the original index is no longer available, the new index has an historical movement substantially similar to that of the original index, and the new index and margin would have resulted in an annual percentage rate substantially similar to the rate in effect at the time the original index became unavailable.

(iii) Make a specified change if the consumer specifically agrees to it in writing at that time.

(iv) Make a change that will unequivocally benefit the consumer throughout the remainder of the plan.

(v) Make an insignificant change to terms.

(vi) Prohibit additional extensions of credit or reduce the credit limit applicable to an agreement during any period in which:

(A) The value of the dwelling that secures the plan declines significantly below the dwelling’s appraised value for purposes of the plan;

(B) The creditor reasonably believes that the consumer will be unable to fulfill the repayment obligations under the plan because of a material change in the consumer’s financial circumstances;

(C) The consumer is in default of any material obligation under the agreement;

(D) The creditor is precluded by government action from imposing the annual percentage rate provided for in the agreement;

(E) The priority of the creditor’s security interest is adversely affected by government action to the extent that the value of the security interest is less than 120 percent of the credit line; or

(F) The creditor is notified by its regulatory agency that continued advances constitute an unsafe and unsound practice.

(4) For reverse mortgage transactions that are subject to §226.33, terminate a plan and demand repayment of the entire outstanding balance in advance of the original term except:

(i) In the case of default;

(ii) If the consumer transfers title to the property securing the note;

(iii) If the consumer ceases using the property securing the note as the primary dwelling; or

(iv) Upon the consumer’s death.

(g) Refund of fees. A creditor shall refund all fees paid by the consumer to anyone in connection with an application if any term required to be disclosed under paragraph (d) of this section changes (other than a change due to fluctuations in the index in a variable-rate plan) before the plan is opened and, as a result, the consumer elects not to open the plan.

(h) Imposition of nonrefundable fees. Neither a creditor nor any other person may impose a nonrefundable fee in connection with an application until three
business days after the consumer receives the disclosures and brochure required under this section.\textsuperscript{10d}

§ 226.6 Account-opening disclosures.

(a) Rules affecting home-equity plans. The requirements of this paragraph (a) apply only to home-equity plans subject to the requirements of § 226.5b. A creditor shall disclose the items in this section, to the extent applicable:

(1) Finance charge. The circumstances under which a finance charge will be imposed and an explanation of how it will be determined, as follows:

(i) A statement of when finance charges begin to accrue, including an explanation of whether or not any time period exists within which any credit extended may be repaid without incurring a finance charge. If such a time period is provided, a creditor may, at its option and without disclosure, impose no finance charge when payment is received after the time period’s expiration.

(ii) A disclosure of each periodic rate that may be used to compute the finance charge, the range of balances to which it is applicable,\textsuperscript{11} and the corresponding annual percentage rate.\textsuperscript{12} If a creditor offers a variable-rate plan, the creditor shall also disclose: the circumstances under which the rate(s) may increase; any limitations on the increase; and the effect(s) of an increase. When different periodic rates apply to different types of transactions, the types of transactions to which the periodic rates shall apply shall also be disclosed. A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

(iii) An explanation of the method used to determine the balance on which the finance charge may be computed.

(iv) An explanation of how the amount of any finance charge will be determined,\textsuperscript{13} including a description of how any finance charge other than the periodic rate will be determined.

(2) Other charges. The amount of any charge other than a finance charge that may be imposed as part of the plan, or an explanation of how the charge will be determined.

(3) Home-equity plan information. The following disclosures described in § 226.5b(d), as applicable:

(i) A statement of the conditions under which the creditor may take certain action, as described in § 226.5b(d)(4)(i), such as terminating the plan or changing the terms.

(ii) The payment information described in § 226.5b(d)(5)(i) and (ii) for both the draw period and any repayment period.

(iii) A statement that negative amortization may occur as described in § 226.5b(d)(9).

(iv) A statement of any transaction requirements as described in § 226.5b(d)(10).

(v) A statement regarding the tax implications as described in § 226.5b(d)(11).

(vi) A statement that the annual percentage rate imposed under the plan does not include costs other than interest as described in § 226.5b(d)(6) and (d)(12)(i).

(vii) The variable-rate disclosures described in § 226.5b(d)(12)(viii), (d)(12)(x), (d)(12)(xii), and (d)(12)(xiii), as well as the disclosure described in § 226.5b(d)(5)(ii), unless the disclosures provided with the application were in a form the consumer could keep and included a representative payment example for the category of payment option chosen by the consumer.

(4) Security interests. The fact that the creditor has or will acquire a security interest in the property purchased under the plan, or in other property identified by item or type.

(5) Statement of billing rights. A statement that outlines the consumer’s rights and the creditor’s responsibilities under §§ 226.12(c) and 226.13 and that is substantially similar to the statement found in Model Form G–3 or,
at the creditor's option, G–3(A), in appendix G to this part.

(b) Rules affecting open-end (not home-secured) plans. The requirements of paragraph (b) of this section apply to plans other than home-equity plans subject to the requirements of §226.5b.

(1) Form of disclosures; tabular format for open-end (not home-secured) plans. Creditors must provide the account-opening disclosures specified in paragraphs (b)(2)(i) through (b)(2)(v) (except for (b)(2)(i)(D)(2)) and (b)(2)(vii) through (b)(2)(xiv) of this section in the form of a table with the headings, content, and format substantially similar to any of the applicable tables in G–17 in appendix G.

(i) Highlighting. In the table, any annual percentage rate required to be disclosed pursuant to paragraph (b)(2)(i) of this section; any introductory rate permitted to be disclosed pursuant to paragraph (b)(2)(i)(B) or required to be disclosed under paragraph (b)(2)(i)(F) of this section, any rate that will apply after a premium initial rate expires permitted to be disclosed pursuant to paragraph (b)(2)(i)(C) or required to be disclosed pursuant to paragraph (b)(2)(i)(F), and any fee or percentage amounts or maximum limits on fee amounts disclosed pursuant to paragraphs (b)(2)(ii), (b)(2)(iv), (b)(2)(vii) through (b)(2)(xii) of this section must be disclosed in bold text. However, bold text shall not be used for: The amount of any periodic fee disclosed pursuant to paragraph (b)(2) of this section that is not an annualized amount; and other annual percentage rates or fee amounts disclosed in the table.

(ii) Location. Only the information required or permitted by paragraphs (b)(2)(ii) through (v) (except for (b)(2)(i)(D)(2)) and (b)(2)(vii) through (xiv) of this section shall be in the table. Disclosures required by paragraphs (b)(2)(i)(D)(2), (b)(2)(i)(D)(3), (b)(2)(vi), and (b)(2)(xv) of this section shall be placed directly below the table. Disclosures required by paragraphs (b)(3) through (5) of this section that are not otherwise required to be in the table and other information may be presented with the account agreement or account-opening disclosure statement, provided such information appears outside the required table.

(iii) Fees that vary by state. Creditors that impose fees referred to in paragraphs (b)(2)(vii) through (b)(2)(xi) of this section that vary by state and that provide the disclosures required by paragraph (b) of this section in person at the time the open-end (not home-secured) plan is established in connection with financing the purchase of goods or services may, at the creditor's option, disclose in the account-opening table the specific fee applicable to the consumer's account, or the range of the fees, if the disclosure includes a statement that the amount of the fee varies by state and refers the consumer to the account agreement or other disclosure provided with the account-opening table where the amount of the fee applicable to the consumer's account is disclosed. A creditor may not list fees for multiple states in the account-opening summary table.

(iv) Fees based on a percentage. If the amount of any fee required to be disclosed under this section is determined on the basis of a percentage of another amount, the percentage used and the identification of the amount against which the percentage is applied may be disclosed instead of the amount of the fee.

(2) Required disclosures for account-opening table for open-end (not home-secured) plans. A creditor shall disclose the items in this section, to the extent applicable:

(i) Annual percentage rate. Each periodic rate that may be used to compute the finance charge on an outstanding balance for purchases, a cash advance, or a balance transfer, expressed as an annual percentage rate (as determined by §226.14(b)). When more than one rate applies for a category of transactions, the range of balances to which each rate is applicable shall also be disclosed. The annual percentage rate for purchases disclosed pursuant to this paragraph shall be in at least 16-point type, except for the following: A penalty rate that may apply upon the occurrence of one or more specific events.

(A) Variable-rate information. If a rate disclosed under paragraph (b)(2)(i) of this section is a variable rate, the creditor shall also disclose the fact that the
rate may vary and how the rate is determined. In describing how the applica-
table rate will be determined, the credi-
tor must identify the type of index or formula that is used in setting the rate. The value of the index and the amount of the margin that are used to calculate the variable rate shall not be disclosed in the table. A disclosure of any applicable limitations on rate increases or decreases shall not be included in the table.

(B) **Discounted initial rates.** If the initial rate is an introductory rate, as that term is defined in §226.16(g)(2)(ii), the creditor must disclose the rate that would otherwise apply to the account pursuant to paragraph (b)(2)(i) of this section. Where the rate is not tied to an index or formula, the creditor must disclose the rate that will apply after the introductory rate expires. In a variable-rate account, the creditor must disclose a rate based on the applicable index or formula in accordance with the accuracy requirements of paragraph (b)(4)(ii)(G) of this section. Except as provided in paragraph (b)(2)(i)(F) of this section, the creditor is not required to, but may disclose in the table the introductory rate along with the rate that would otherwise apply to the account if the creditor also discloses the time period during which the introductory rate will remain in effect, and uses the term "intro" in immediate proximity to the introductory rate.

(C) **Premium initial rate.** If the initial rate is temporary and is higher than the rate that will apply after the temporary rate expires, the creditor must disclose the premium initial rate pursuant to paragraph (b)(2)(i) of this section. Consistent with paragraph (b)(2)(i) of this section, the premium initial rate for purchases must be in at least 16-point type. Except as provided in paragraph (b)(2)(i)(F) of this section, the creditor is not required to, but may disclose in the table the rate that will apply after the premium initial rate expires if the creditor also discloses the time period during which the premium initial rate will remain in effect. If the creditor also discloses in the table the rate that will apply after the premium initial rate for purchases expires, that rate also must be in at least 16-point type.

(D) **Penalty rates.** (1) In general. Except as provided in paragraph (b)(2)(i)(D)(2) and (b)(2)(i)(D)(3) of this section, if a rate may increase as a penalty for one or more events specified in the account agreement, such as a late payment or an extension of credit that exceeds the credit limit, the creditor must disclose pursuant to paragraph (b)(2)(i) of this section the increased rate that may apply, a brief description of the event or events that may result in the increased rate, and a brief description of how long the increased rate will remain in effect. If more than one penalty rate may apply, the creditor at its option may disclose the highest rate that could apply, instead of disclosing the specific rates or the range of rates that could apply.

(2) **Introductory rates.** If the creditor discloses in the table an introductory rate, as that term is defined in §226.16(g)(2)(ii), creditors must briefly disclose directly beneath the table the circumstances under which the introductory rate may be revoked, and the rate that will apply after the introductory rate is revoked.

(3) **Employee preferential rates.** If a creditor discloses in the table a preferential annual percentage rate for which only employees of the creditor, employees of a third party, or other individuals with similar affiliations with the creditor or third party, such as executive officers, directors, or principal shareholders are eligible, the creditor must briefly disclose directly beneath the table the circumstances under which such preferential rate may be revoked, and the rate that will apply after such preferential rate is revoked.

(E) **Point of sale where APRs vary by state or based on creditworthiness.** Credi-
tors imposing annual percentage rates that vary by state or based on the consumer’s creditworthiness and providing the disclosures required by paragraph (b) of this section in person at the time the open-end (not home-secured) plan is established in connection with financing the purchase of goods or services may, at the creditor’s option, disclose pursuant to paragraph (b)(2)(i) of this section in the account-opening table:
§ 226.6 12 CFR Ch. II (1–1–13 Edition)

(1) The specific annual percentage rate applicable to the consumer’s account; or
(2) The range of the annual percentage rates, if the disclosure includes a statement that the annual percentage rate varies by state or will be determined based on the consumer’s creditworthiness and refers the consumer to the account agreement or other disclosure provided with the account-opening table where the annual percentage rate applicable to the consumer’s account is disclosed. A creditor may not list annual percentage rates for multiple states in the account-opening table.

(F) Credit card accounts under an open-end (not home-secured) consumer credit plan. Notwithstanding paragraphs (b)(2)(i)(B) and (b)(2)(i)(C) of this section, for credit card accounts under an open-end (not home-secured) plan, issuers must disclose in the table—

(1) Any introductory rate as that term is defined in § 226.16(g)(2)(ii) that would apply to the account, consistent with the requirements of paragraph (b)(2)(i)(B) of this section, and
(2) Any rate that would apply upon the expiration of a premium initial rate, consistent with the requirements of paragraph (b)(2)(i)(C) of this section.

(ii) Fees for issuance or availability. (A) Any annual or other periodic fee that may be imposed for the issuance or availability of an open-end plan, including any fee based on account activity or inactivity; how frequently it will be imposed; and the annualized amount of the fee.

(B) Any non-periodic fee that relates to opening the plan. A creditor must disclose that the fee is a one-time fee.

(iii) Fixed finance charge; minimum interest charge. Any fixed finance charge and a brief description of the charge. Any minimum interest charge if it exceeds $1.00 that could be imposed during a billing cycle, and a brief description of the charge. The $1.00 threshold amount shall be adjusted periodically by the Board to reflect changes in the Consumer Price Index. The Board shall calculate each year a price level adjusted minimum interest charge using the Consumer Price Index in effect on the June 1 of that year. When the cumulative change in the adjusted minimum value derived from applying the current minimum interest charge threshold has risen by a whole dollar, the minimum interest charge will be increased by $1.00. The creditor may, at its option, disclose in the account minimum interest charges below this threshold.

(iv) Transaction charges. Any transaction charge imposed by the creditor for use of the open-end plan for purchases.

(v) Grace period. The date by which or the period within which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate and any conditions on the availability of the grace period. If no grace period is provided, that fact must be disclosed. If the length of the grace period varies, the creditor may disclose the range of days, the minimum number of days, or the average number of the days in the grace period, if the disclosure is identified as a range, minimum, or average. In disclosing in the tabular format a grace period that applies to all features on the account, the phrase “How to Avoid Paying Interest” shall be used as the heading for the row describing the grace period. If a grace period is not offered on all features of the account, in disclosing this fact in the tabular format, the phrase “Paying Interest” shall be used as the heading for the row describing this fact.

(vi) Balance computation method. The name of the balance computation method listed in § 226.5a(g) that is used to determine the balance on which the finance charge is computed for each feature, or an explanation of the method used if it is not listed, along with a statement that an explanation of the method(s) required by paragraph (b)(4)(i)(D) of this section is provided with the account-opening disclosures. In determining which balance computation method to disclose, the creditor shall assume that credit extended will not be repaid within any grace period, if any.

(vii) Cash advance fee. Any fee imposed for an extension of credit in the form of cash or its equivalent.

(viii) Late payment fee. Any fee imposed for a late payment.

(ix) Over-the-limit fee. Any fee imposed for exceeding a credit limit.
(x) Balance transfer fee. Any fee imposed to transfer an outstanding balance.

(xi) Returned-payment fee. Any fee imposed by the creditor for a returned payment.

(xii) Required insurance, debt cancellation or debt suspension coverage. (A) A fee for insurance described in §226.4(b)(7) or debt cancellation or suspension coverage described in §226.4(b)(10), if the insurance, or debt cancellation or suspension coverage is required as part of the plan; and (B) A cross reference to any additional information provided about the insurance or coverage, as applicable.

(xiii) Available credit. If a creditor requires fees for the issuance or availability of credit described in paragraph (b)(2)(ii) of this section, or requires a security deposit for such credit, and the total amount of those required fees and/or security deposit that will be imposed and charged to the account when the account is opened is 15 percent or more of the minimum credit limit for the plan, a creditor must disclose the available credit remaining after these fees or security deposit are debited to the account. The determination whether the 15 percent threshold is met must be based on the minimum credit limit for the plan. However, the disclosure provided under this paragraph must be based on the actual initial credit limit provided on the account. In determining whether the 15 percent threshold test is met, the creditor must only consider fees for issuance or availability of credit, or a security deposit, that are required. If fees for issuance or availability are optional, these fees should not be considered in determining whether the disclosure must be given. Nonetheless, if the 15 percent threshold test is met, the creditor in providing the disclosure must disclose the amount of available credit calculated by excluding those optional fees, and the available credit including those optional fees. The creditor shall also disclose that the consumer has the right to reject the plan and not be obligated to pay those fees or any other fee or charges until the consumer has used the account or made a payment on the account after receiving a periodic statement. This paragraph does not apply with respect to fees or security deposits that are not debited to the account.

(xiv) Web site reference. For issuers of credit cards that are not charge cards, a reference to the Web site established by the Board and a statement that consumers may obtain on the Web site information about shopping for and using credit cards.

(xv) Billing error rights reference. A statement that information about consumers' right to dispute transactions is included in the account-opening disclosures.

(3) Disclosure of charges imposed as part of open-end (not home-secured) plans. A creditor shall disclose, to the extent applicable:

(i) For charges imposed as part of an open-end (not home-secured) plan, the circumstances under which the charge may be imposed, including the amount of the charge or an explanation of how the charge is determined. For finance charges, a statement of when the charge begins to accrue and an explanation of whether or not any time period exists within which any credit that has been extended may be repaid without incurring the charge. If such a time period is provided, a creditor may, at its option and without disclosure, elect not to impose a finance charge when payment is received after the time period expires.

(ii) Charges imposed as part of the plan are:

(A) Finance charges identified under §226.4(a) and §226.4(b).

(B) Charges resulting from the consumer's failure to use the plan as agreed, except amounts payable for collection activity after default, attorney's fees whether or not automatically imposed, and post-judgment interest rates permitted by law.

(C) Taxes imposed on the credit transaction by a state or other governmental body, such as documentary stamp taxes on cash advances.

(D) Charges for which the payment, or nonpayment, affect the consumer's access to the plan, the duration of the plan, the amount of credit extended, the period for which credit is extended, or the timing or method of billing or payment.
§ 226.6 Charges imposed for terminating a plan.

(F) Charges for voluntary credit insurance, debt cancellation or debt suspension.

(iii) Charges that are not imposed as part of the plan include:

(A) Charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system.

(B) A charge for a package of services that includes an open-end credit feature, if the fee is required whether or not the open-end credit feature is included and the non-credit services are not merely incidental to the credit feature.

(C) Charges under § 226.4(e) disclosed as specified.

(4) Disclosure of rates for open-end (not home-secured) plans. A creditor shall disclose, to the extent applicable:

(i) For each periodic rate that may be used to calculate interest:

(A) Rates. The rate, expressed as a periodic rate and a corresponding annual percentage rate.

(B) Range of balances. The range of balances to which the rate is applicable; however, a creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

(C) Type of transaction. The type of transaction to which the rate applies, if different rates apply to different types of transactions.

(D) Balance computation method. An explanation of the method used to determine the balance to which the rate is applied.

(ii) Variable-rate accounts. For interest rate changes that are tied to increases in an index or formula (variable-rate accounts) specifically set forth in the account agreement:

(A) The fact that the annual percentage rate may increase.

(B) How the rate is determined, including the margin.

(C) The circumstances under which the rate may increase.

(D) The frequency with which the rate may increase.

(E) Any limitation on the amount the rate may change.

(F) The effect(s) of an increase.

(G) Except as specified in paragraph (b)(4)(ii)(H) of this section, a rate is accurate if it is a rate as of a specified date and this rate was in effect within the last 30 days before the disclosures are provided.

(H) Creditors imposing annual percentage rates that vary according to an index that is not under the creditor’s control that provide the disclosures required by paragraph (b) of this section in person at the time the open-end (not home-secured) plan is established in connection with financing the purchase of goods or services may disclose in the table a rate, or range of rates to the extent permitted by § 226.6(b)(2)(i)(E), that was in effect within the last 90 days before the disclosures are provided, along with a reference directing the consumer to the account agreement or other disclosure provided with the account-opening table where an annual percentage rate applicable to the consumer’s account in effect within the last 30 days before the disclosures are provided is disclosed.

(iii) Rate changes not due to index or formula. For interest rate changes that are specifically set forth in the account agreement and not tied to increases in an index or formula:

(A) The initial rate (expressed as a periodic rate and a corresponding annual percentage rate) required under paragraph (b)(4)(i)(A) of this section.

(B) How long the initial rate will remain in effect and the specific events that cause the initial rate to change.

(C) The rate (expressed as a periodic rate and a corresponding annual percentage rate) that will apply when the initial rate is no longer in effect and any limitation on the time period the new rate will remain in effect.

(D) The balances to which the new rate will apply.

(E) The balances to which the current rate at the time of the change will apply.

(5) Additional disclosures for open-end (not home-secured) plans. A creditor shall disclose, to the extent applicable:

(i) Voluntary credit insurance, debt cancellation or debt suspension. The disclosures in §§ 226.4(d)(1)(i) and (d)(1)(ii) and (d)(3)(i) through (d)(3)(iii) if the
creditor offers optional credit insurance or debt cancellation or debt suspension coverage that is identified in §226.4(b)(7) or (b)(10).

(ii) Security interests. The fact that the creditor has or will acquire a security interest in the property purchased under the plan, or in other property identified by item or type.

(iii) Statement of billing rights. A statement that outlines the consumer’s rights and the creditor’s responsibilities under §§226.12(c) and 226.13 and that is substantially similar to the statement found in Model Form G–3(A) in appendix G to this part.

§226.7 Periodic statement.

The creditor shall furnish the consumer with a periodic statement that discloses the following items, to the extent applicable:

(a) Rules affecting home-equity plans. The requirements of paragraph (a) of this section apply only to home-equity plans subject to the requirements of §226.5b. Alternatively, a creditor subject to this paragraph may, at its option, comply with any of the requirements of paragraph (b) of this section; however, any creditor that chooses not to provide a disclosure under paragraph (a)(7) of this section must comply with paragraph (b)(6) of this section.

(1) Previous balance. The account balance outstanding at the beginning of the billing cycle.

(2) Identification of transactions. An identification of each credit transaction in accordance with §226.8.

(3) Credits. Any credit to the account during the billing cycle, including the amount and the date of crediting. The date need not be provided if a delay in accounting does not result in any finance or other charge.

(4) Periodic rates. (i) Except as provided in paragraph (a)(4)(i) of this section, each periodic rate that may be used to compute the finance charge, the range of balances to which it is applicable, and the corresponding annual percentage rate. If no finance charge is imposed when the outstanding balance is less than a certain amount, the creditor is not required to disclose that fact, or the balance below which no finance charge will be imposed. If different periodic rates apply to different types of transactions, the types of transactions to which the periodic rates apply shall also be disclosed. For variable-rate plans, the fact that the periodic rate(s) may vary.

(ii) Exception. An annual percentage rate that differs from the rate that would otherwise apply and is offered only for a promotional period need not be disclosed except in periods in which the offered rate is actually applied.

(5) Balance on which finance charge computed. The amount of the balance to which a periodic rate was applied and an explanation of how that balance was determined. When a balance is determined without first deducting all credits and payments made during the billing cycle, the fact and the amount of the credits and payments shall be disclosed.

(6) Amount of finance charge and other charges. Creditors may comply with paragraphs (a)(6) of this section, or with paragraph (b)(6) of this section, at their option.

(1) Finance charges. The amount of any finance charge debited or added to the account during the billing cycle, using the term finance charge. The components of the finance charge shall be individually itemized and identified to show the amount(s) due to the application of any periodic rates and the amounts(s) of any other type of finance charge. If there is more than one periodic rate, the amount of the finance charge attributable to each rate need not be separately itemized and identified.

(ii) Other charges. The amounts, itemized and identified by type, of any charges other than finance charges debited to the account during the billing cycle.

(7) Annual percentage rate. At a creditor’s option, when a finance charge is imposed during the billing cycle, the annual percentage rate(s) determined under §226.14(c) using the term annual percentage rate.

(8) Grace period. The date by which or the time period within which the new
balance or any portion of the new balance must be paid to avoid additional finance charges. If such a time period is provided, a creditor may, at its option and without disclosure, impose no finance charge if payment is received after the time period’s expiration.

(9) Address for notice of billing errors. The address to be used for notice of billing errors. Alternatively, the address may be provided on the billing rights statement permitted by §226.9(a)(2).

(10) Closing date of billing cycle; new balance. The closing date of the billing cycle and the account balance outstanding on that date.

(b) Rules affecting open-end (not home-secured) plans. The requirements of paragraph (b) of this section apply only to plans other than home-equity plans subject to the requirements of §226.5b.

(1) Previous balance. The account balance outstanding at the beginning of the billing cycle.

(2) Identification of transactions. An identification of each credit transaction in accordance with §226.8.

(3) Credits. Any credit to the account during the billing cycle, including the amount and the date of crediting. The date need not be provided if a delay in crediting does not result in any finance or other charge.

(4) Periodic rates. (i) Except as provided in paragraph (b)(4)(ii) of this section, each periodic rate that may be used to compute the interest charge expressed as an annual percentage rate and using the term Annual Percentage Rate, along with the range of balances to which it is applicable. If no interest charge is imposed when the outstanding balance is less than a certain amount, the creditor is not required to disclose that fact, or the balance below which no interest charge will be imposed. The types of transactions to which the periodic rates apply shall also be disclosed. For variable-rate plans, the fact that the annual percentage rate may vary.

(ii) Exception. A promotional rate, as that term is defined in §226.16(g)(2)(i), is required to be disclosed only in periods in which the offered rate is actually applied.

(5) Balance on which finance charge computed. The amount of the balance to which a periodic rate was applied and an explanation of how that balance was determined, using the term Balance Subject to Interest Rate. When a balance is determined without first deducting all credits and payments made during the billing cycle, the fact and the amount of the credits and payments shall be disclosed. As an alternative to providing an explanation of how the balance was determined, a creditor that uses a balance computation method identified in §226.5a(g) may, at the creditor’s option, identify the name of the balance computation method and provide a toll-free telephone number where consumers may obtain from the creditor more information about the balance computation method and how resulting interest charges were determined. If the method used is not identified in §226.5a(g), the creditor shall provide a brief explanation of the method used.

(6) Charges imposed. (i) The amounts of any charges imposed as part of a plan as stated in §226.6(b)(3), grouped together, in proximity to transactions identified under paragraph (b)(2) of this section, substantially similar to Sample G–18(A) in appendix G to this part.

(ii) Interest. Finance charges attributable to periodic interest rates, using the term Interest Charge, must be grouped together under the heading Interest Charged, itemized and totaled by type of transaction, and a total of finance charges attributable to periodic interest rates, using the term Total Interest, must be disclosed for the statement period and calendar year to date, using a format substantially similar to Sample G–18(A) in appendix G to this part.

(iii) Fees. Charges imposed as part of the plan other than charges attributable to periodic interest rates must be grouped together under the heading Fees, identified consistent with the feature or type, and itemized, and a total of charges, using the term Fees, must be disclosed for the statement period and calendar year to date, using a format substantially similar to Sample G–18(A) in appendix G to this part.

(7) Change-in-terms and increased penalty rate summary for open-end (not home-secured) plans. Creditors that provide a change-in-terms notice required
by § 226.9(c), or a rate increase notice required by § 226.9(g), on or with the periodic statement, must disclose the information in § 226.9(c)(2)(iv)(A) and (c)(2)(iv)(B) (if applicable) or § 226.9(g)(3)(i) on the periodic statement in accordance with the format requirements in § 226.9(c)(2)(iv)(D), and § 226.9(g)(3)(ii). See Forms G–18(F) and G–18(G) in appendix G to this part.

(8) Grace period. The date by which or the time period within which the new balance or any portion of the new balance must be paid to avoid additional finance charges. If such a time period is provided, a creditor may, at its option and without disclosure, impose no finance charge if payment is received after the time period’s expiration.

(9) Address for notice of billing errors. The address to be used for notice of billing errors. Alternatively, the address may be provided on the billing rights statement permitted by § 226.9(a)(2).

(10) Closing date of billing cycle; new balance. The closing date of the billing cycle and the account balance outstanding on that date. The new balance must be disclosed in accordance with the format requirements of paragraph (b)(13) of this section.

(11) Due date; late payment costs. (i) Except as provided in paragraph (b)(11)(ii) of this section and in accordance with the format requirements in paragraph (b)(13) of this section, for a credit card account under an open-end (not home-secured) consumer credit plan, a card issuer must provide on each periodic statement:

(A) The following statement with a bold heading: “Minimum Payment Warning: If you make only the minimum payment each period, you will pay more in interest and it will take you longer to pay off your balance;”

(B) The minimum payment repayment estimate, as described in Appendix M1 to this part. If the minimum payment repayment estimate is less than 2 years, the card issuer must disclose the estimate in months. Otherwise, the estimate must be disclosed in years and rounded to the nearest whole year;

(C) The minimum payment total cost estimate, as described in Appendix M1 to this part. The minimum payment total cost estimate must be rounded either to the nearest whole dollar or to the nearest cent, at the card issuer’s option;

(D) A statement that the minimum payment repayment estimate and the minimum payment total cost estimate are based on the current outstanding balance shown on the periodic statement. A statement that the minimum payment repayment estimate and the minimum payment total cost estimate are based on the assumption that only minimum payments are made and no other amounts are added to the balance;

(E) A toll-free telephone number where the consumer may obtain from the card issuer information about credit counseling services consistent with paragraph (b)(13)(iv) of this section; and
(F)(1) Except as provided in paragraph (b)(12)(i)(F)(2) of this section, the following disclosures:

(i) The estimated monthly payment for repayment in 36 months, as described in Appendix M1 to this part. The estimated monthly payment for repayment in 36 months must be rounded either to the nearest whole dollar or to the nearest cent, at the card issuer’s option;

(ii) A statement that the card issuer estimates that the consumer will repay the outstanding balance shown on the periodic statement in 3 years if the consumer pays the estimated monthly payment each month for 3 years;

(iii) The total cost estimate for repayment in 36 months, as described in Appendix M1 to this part. The total cost estimate for repayment in 36 months must be rounded either to the nearest whole dollar or to the nearest cent, at the issuer’s option; and

(iv) The savings estimate for repayment in 36 months, as described in Appendix M1 to this part. The savings estimate for repayment in 36 months must be rounded either to the nearest whole dollar or to the nearest cent, at the issuer’s option.

(2) The requirements of paragraph (b)(12)(i)(F)(1) of this section do not apply to a periodic statement in any of the following circumstances:

(i) The minimum payment repayment estimate that is disclosed on the periodic statement pursuant to paragraph (b)(12)(i)(B) of this section after rounding is three years or less;

(ii) The estimated monthly payment for repayment in 36 months, as described in Appendix M1 to this part, after rounding as set forth in paragraph (b)(12)(f)(1)(i) of this section that is calculated for a particular billing cycle is less than the minimum payment required for the plan for that billing cycle; and

(iii) A billing cycle where an account has both a balance in a revolving feature where the required minimum payments for this feature will not amortize that balance in a fixed amount of time specified in the account agreement and a balance in a fixed repayment feature where the required minimum payment for this fixed repayment feature will amortize that balance in a fixed amount of time specified in the account agreement which is less than 36 months.

(ii) Negative or no amortization. If negative or no amortization occurs when calculating the minimum payment repayment estimate as described in Appendix M1 of this part, a card issuer must provide the following disclosures on the periodic statement instead of the disclosures set forth in paragraph (b)(12)(i) of this section:

(A) The following statement: “Minimum Payment Warning: Even if you make no more charges using this card, if you make only the minimum payment each month we estimate you will never pay off the balance shown on this statement because your payment will be less than the interest charged each month”;

(B) The following statement: “If you make more than the minimum payment each period, you will pay less in interest and pay off your balance sooner”;

(C) The estimated monthly payment for repayment in 36 months, as described in Appendix M1 to this part. The estimated monthly payment for repayment in 36 months must be rounded either to the nearest whole dollar or to the nearest cent, at the issuer’s option;

(D) A statement that the card issuer estimates that the consumer will repay the outstanding balance shown on the periodic statement in 3 years if the consumer pays the estimated monthly payment each month for 3 years; and

(E) A toll-free telephone number where the consumer may obtain from the card issuer information about credit counseling services consistent with paragraph (b)(12)(iv) of this section.

(13) Format requirements. The due date required by paragraph (b)(11) of this section shall be disclosed on the front of the first page of the periodic statement. The amount of the late payment fee and the annual percentage rate(s) required by paragraph (b)(11) of this section shall be stated in close proximity to the due date. The ending balance required by paragraph (b)(10) of this section and the disclosures required by paragraph (b)(12) of this section shall be disclosed closely proximate to the minimum payment due.
§ 226.8 Identifying transactions on periodic statements.

The creditor shall identify credit transactions on or with the first periodic statement that reflects the transaction by furnishing the following information, as applicable.16

(a) Sale credit. (1) Except as provided in paragraph (a)(2) of this section, for each credit transaction involving the sale of property or services, the creditor must disclose the amount and date of the transaction, and either:
   (i) A brief identification17 of the property or services purchased, for creditors and sellers that are the same or related,18 or
   (ii) The seller’s name; and the city and state or foreign country where the transaction took place.19 The creditor may omit the address or provide any suitable designation that helps the consumer to identify the transaction when the transaction took place at a location that is not fixed; took place in the consumer’s home; or was a mail, Internet, or telephone order.

   (2) Creditors need not comply with paragraph (a)(1) of this section if an actual copy of the receipt or other credit document is provided with the first periodic statement reflecting the transaction, and the amount of the transaction and either the date of the transaction to the consumer’s account or the date of debiting the transaction are disclosed on the copy or on the periodic statement.

   (b) Nonsale credit. For each credit transaction not involving the sale of property or services, the creditor must disclose a brief identification of the transaction,20 the amount of the transaction; and at least one of the following dates: The date of the transaction, the date the transaction was debited to the consumer’s account, or, if the consumer signed the credit document, the date appearing on the document. If an actual copy of the receipt or other credit document is provided and that copy shows the amount and at least one of the specified dates, the brief identification may be omitted.

   (c) Alternative creditor procedures; consumer inquiries for clarification or documentation. The following procedures apply to creditors that treat an inquiry for clarification or documentation as a notice of a billing error, including correcting the account in accordance with §226.13(e):

   (1) Failure to disclose the information required by paragraphs (a) and (b) of this section is not a failure to comply with the regulation, provided that the creditor also maintains procedures reasonably designed to obtain and provide the information. This applies to transactions that take place outside a state, as defined in §226.2(a)(26), whether or not the creditor maintains procedures reasonably adapted to obtain the required information.

   (2) As an alternative to the brief identification for sale or nonsale credit, the creditor may disclose a number or symbol that also appears on the receipt or other credit document given to the consumer, if the number or symbol

reasonably identifies that transaction with that creditor.

[75 FR 7806, Feb. 22, 2010]

§ 226.9 Subsequent disclosure requirements.

(a) Furnishing statement of billing rights. (1) Annual statement. The creditor shall mail or deliver the billing rights statement required by § 226.6(a)(5) and (b)(5)(iii) at least once per calendar year, at intervals of not less than 6 months nor more than 18 months, either to all consumers or to each consumer entitled to receive a periodic statement under § 226.5(b)(2) for any one billing cycle.

(2) Alternative summary statement. As an alternative to paragraph (a)(1) of this section, the creditor may mail or deliver, or with each periodic statement, a statement substantially similar to Model Form G–4 or Model Form G–4(A) in appendix G to this part, as applicable. Creditors offering home-equity plans subject to the requirements of § 226.5b may use either Model Form, at their option.

(b) Disclosures for supplemental credit access devices and additional features. (1) If a creditor, within 30 days after mailing or delivering the account-opening disclosures under § 226.6(a)(1) or (b)(3)(ii)(A), as applicable, adds a credit feature to the consumer’s account or mails or delivers to the consumer a credit access device, including but not limited to checks that access a credit card account, for which the finance charge terms are the same as those previously disclosed, no additional disclosures are necessary. Except as provided in paragraph (b)(3) of this section, after 30 days, if the creditor adds a credit feature or furnishes a credit access device (other than as a renewal, resupply, or the original issuance of a credit card) on the same finance charge terms, the creditor shall disclose, before the consumer uses the feature or device for the first time, that it is for use in obtaining credit under the terms previously disclosed.

(2) Except as provided in paragraph (b)(3) of this section, whenever a credit feature is added or a credit access device is mailed or delivered to the consumer, and the finance charge terms for the feature or device differ from disclosures previously given, the disclosures required by § 226.6(a)(1) or (b)(3)(ii)(A), as applicable, that are applicable to the added feature or device shall be given before the consumer uses the feature or device for the first time.

(3) Checks that access a credit card account. (i) Disclosures. For open-end plans not subject to the requirements of § 226.5b, if checks that can be used to access a credit card account are provided more than 30 days after account-opening disclosures under § 226.6(b) are mailed or delivered, or are provided within 30 days of the account-opening disclosures and the finance charge terms for the checks differ from the finance charge terms previously disclosed, the creditor shall disclose on the front of the page containing the checks the following terms in the form of a table with the headings, content, and form substantially similar to Sample G–19 in appendix G to this part:

(A) If a promotional rate, as that term is defined in § 226.16(g)(2)(i) applies to the checks:

(1) The promotional rate and the time period during which the promotional rate will remain in effect;

(2) The type of rate that will apply (such as whether the purchase or cash advance rate applies) after the promotional rate expires, and the annual percentage rate that will apply after the promotional rate expires. For a variable-rate account, a creditor must disclose an annual percentage rate based on the applicable index or formula in accordance with the accuracy requirements set forth in paragraph (b)(3)(ii) of this section; and

(3) The date, if any, by which the consumer must use the checks in order to qualify for the promotional rate. If the creditor will honor checks used after such date but will apply an annual percentage rate other than the promotional rate, the creditor must disclose this fact and the type of annual percentage rate that will apply if the consumer uses the checks after such date.

(B) If no promotional rate applies to the checks:

(1) The type of rate that will apply to the checks and the applicable annual
percentage rate. For a variable-rate account, a creditor must disclose an annual percentage rate based on the applicable index or formula in accordance with the accuracy requirements set forth in paragraph (b)(3)(i) of this section.

(2) [Reserved]

(C) Any transaction fees applicable to the checks disclosed under §226.6(b)(2)(iv); and

(D) Whether or not a grace period is given within which any credit extended by use of the checks may be repaid without incurring a finance charge due to a periodic interest rate. When disclosing whether there is a grace period, the phrase “How to Avoid Paying Interest on Check Transactions” shall be used as the row heading when a grace period applies to credit extended by the use of the checks. When disclosing the fact that no grace period exists for credit extended by use of the checks, the phrase “Paying Interest” shall be used as the row heading.

(ii) Accuracy. The disclosures in paragraph (b)(3)(i) of this section must be accurate as of the time the disclosures are mailed or delivered. A variable annual percentage rate is accurate if it was in effect within 60 days of when the disclosures are mailed or delivered.

(iii) Variable rates. If any annual percentage rate required to be disclosed pursuant to paragraph (b)(3)(i) of this section is a variable rate, the card issuer shall also disclose the fact that the rate may vary and how the rate is determined. In describing how the applicable rate will be determined, the card issuer must identify the type of index or formula that is used in setting the rate. The value of the index and the amount of the margin that are used to calculate the variable rate shall not be disclosed in the table. A disclosure of any applicable limitations on rate increases shall not be included in the table.

(c)(1) Rules affecting home-equity plans. (i) Written notice required. For home-equity plans subject to the requirements of §226.5b, whenever any term required to be disclosed under §226.6(a) is changed or the required minimum periodic payment is increased, the creditor shall mail or deliver written notice of the change to each consumer who may be affected. The notice shall be mailed or delivered at least 15 days prior to the effective date of the change. The 15-day timing requirement does not apply if the change has been agreed to by the consumer; the notice shall be given, however, before the effective date of the change.

(ii) Notice not required. For home-equity plans subject to the requirements of §226.5b, a creditor is not required to provide notice under this section when the change involves a reduction of any component of a finance or other charge or when the change results from an agreement involving a court proceeding.

(iii) Notice to restrict credit. For home-equity plans subject to the requirements of §226.5b, if the creditor prohibits additional extensions of credit or reduces the credit limit pursuant to §226.5b(f)(3)(i) or (f)(3)(vi), the creditor shall mail or deliver written notice of the action to each consumer who will be affected. The notice must be provided not later than three business days after the action is taken and shall contain specific reasons for the action. If the creditor requires the consumer to request reinstatement of credit privileges, the notice also shall state that fact.

(2) Rules affecting open-end (not home-secured) plans—(1) Changes where written advance notice is required— (A) General. For plans other than home-equity plans subject to the requirements of §226.5b, except as provided in paragraphs (c)(2)(i)(B), (c)(2)(iii) and (c)(2)(v) of this section, when a significant change in account terms as described in paragraph (c)(2)(i) of this section is made, a creditor must provide a written notice of the change at least 45 days prior to the effective date of the change to each consumer who may be affected. The 45-day timing requirement does not apply if the consumer has agreed to a particular change as described in paragraph (c)(2)(i)(B) of this section; for such changes, notice must be given in accordance with the timing requirements of paragraph (c)(2)(i)(B) of this section. Increases in the rate applicable to a
consumer's account due to delinquency, default or as a penalty described in paragraph (g) of this section that are not due to a change in the contractual terms of the consumer's account must be disclosed pursuant to paragraph (g) of this section instead of paragraph (c)(2) of this section.

(B) Changes agreed to by the consumer.

A notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change if the consumer agrees to the particular change. This paragraph (c)(2)(i)(B) applies only when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer’s providing additional security or paying an increased minimum payment amount. The following are not considered agreements between the consumer and the creditor for purposes of this paragraph (c)(2)(i)(B): The consumer’s general acceptance of the creditor’s contract reservation of the right to change terms; the consumer’s use of the account (which might imply acceptance of its terms under state law); the consumer’s acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account; and the consumer’s request to reopen a closed account or to upgrade an existing account to another account offered by the creditor with different credit or other features.

(ii) Significant changes in account terms. For purposes of this section, a “significant change in account terms” means a change to a term required to be disclosed under §226.6(b)(1) and (b)(2), an increase in the required minimum periodic payment, a change to a term required to be disclosed under §226.6(b)(4), or the acquisition of a security interest.

(iii) Charges not covered by §226.6(b)(1) and (b)(2). Except as provided in paragraph (c)(2)(vi) of this section, if a creditor increases any component of a charge, or introduces a new charge, required to be disclosed under §226.6(b)(3) that is not a significant change in account terms as described in paragraph (c)(2)(i) of this section, a creditor must either, at its option:

(A) Comply with the requirements of paragraph (c)(2)(i) of this section; or

(B) Provide notice of the amount of the charge before the consumer agrees to or becomes obligated to pay the charge, at a time and in a manner that a consumer would be likely to notice the disclosure of the charge. The notice may be provided orally or in writing.

(iv) Disclosure requirements—(A) Significant changes in account terms. If a creditor makes a significant change in account terms as described in paragraph (c)(2)(ii) of this section, the notice provided pursuant to paragraph (c)(2)(i) of this section must provide the following information:

(1) A summary of the changes made to terms required by §226.6(b)(1) and (b)(2) or §226.6(b)(4), a description of any increase in the required minimum periodic payment, and a description of any security interest being acquired by the creditor

(2) A statement that changes are being made to the account;

(3) For accounts other than credit card accounts under an open-end (not home-secured) consumer credit plan subject to §226.6(b)(2)(iv)(B), a statement indicating the consumer has the right to opt out of these changes, if applicable, and a reference to additional information describing the opt-out right provided in the notice, if applicable;

(4) The date the changes will become effective;

(5) If applicable, a statement that the consumer may find additional information about the summarized changes, and other changes to the account, in the notice;

(6) If the creditor is changing a rate on the account, other than a penalty rate, a statement that if a penalty rate currently applies to the consumer’s account, the new rate described in the notice will not apply to the consumer’s account until the consumer’s account balances are no longer subject to the penalty rate;

(7) If the change in terms being disclosed is an increase in an annual percentage rate, the balances to which the
increased rate will be applied. If applicable, a statement identifying the balances to which the current rate will continue to apply as of the effective date of the change in terms; and

(d) If the change in terms being disclosed is an increase in an annual percentage rate for a credit card account under an open-end (not home-secured) consumer credit plan, a statement of no more than four principal reasons for the rate increase, listed in their order of importance.

(B) Right to reject for credit card accounts under an open-end (not home-secured) consumer credit plan. In addition to the disclosures in paragraph (c)(2)(iv)(A) of this section, if a card issuer makes a significant change in account terms on a credit card account under an open-end (not home-secured) consumer credit plan, the creditor must generally provide the following information on the notice provided pursuant to paragraph (c)(2)(i) of this section. This information is not required to be provided in the case of an increase in the required minimum periodic payment, an increase in a fee as a result of a reevaluation of a determination made under §226.52(b)(1)(i) or an adjustment to the safe harbors in §226.52(b)(1)(ii) to reflect changes in the Consumer Price Index, a change in an annual percentage rate applicable to a consumer’s account, an increase in a fee previously reduced consistent with 50 U.S.C. app. 527 or a similar Federal or State statute or regulation if the amount of the increased fee does not exceed the amount of that fee prior to the reduction, or when the change results from the creditor not receiving the consumer’s required minimum periodic payment within 60 days after the due date for that payment:

(C) Changes resulting from failure to make minimum periodic payment within 60 days from due date for credit card accounts under an open-end (not home-secured) consumer credit plan. For a credit card account under an open-end (not home-secured) consumer credit plan:

(1) If the significant change required to be disclosed pursuant to paragraph (c)(2)(i) of this section is an increase in an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) based on the consumer’s failure to make a minimum periodic payment within 60 days from the due date for that payment, the notice provided pursuant to paragraph (c)(2)(i) of this section must state that the increase will cease to apply to transactions that occurred prior to or within 14 days of provision of the notice, if the creditor receives six consecutive required minimum periodic payments on or before the payment due date, beginning with the first payment due following the effective date of the increase.

(2) If the significant change required to be disclosed pursuant to paragraph (c)(2)(i) of this section is an increase in a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) based on the consumer’s failure to make a minimum periodic payment within 60 days from the due date for that payment, the notice provided pursuant to paragraph (c)(2)(i) of this section must also state the reason for the increase.

(D) Format requirements. (1) Tabular format. The summary of changes described in paragraph (c)(2)(iv)(A)(1) of this section must be in a tabular format (except for a summary of any increase in the required minimum periodic payment, a summary of a term required to be disclosed under §226.6(b)(4) that is not required to be disclosed under §226.6(b)(1) and (b)(2), or a description of any security interest being acquired by the creditor), with headings and format substantially similar to any of the account-opening tables found in G–17 in appendix G to this part. The table must disclose the changed term and information relevant to the change, if that relevant information is required by §226.6(b)(1) and (b)(2). The new terms shall be described in the same level of detail as required when disclosing the terms under §226.6(b)(2).

(v) Notice not required. For open-end plans (other than home equity plans subject to the requirements of §226.5b) a creditor is not required to provide notice under this section:

(A) When the change involves charges for documentary evidence; a reduction of any component of a finance or other charge; suspension of future credit
privileges (except as provided in paragraph (c)(2)(vi) of this section) or termination of an account or plan; when the change results from an agreement involving a court proceeding; when the change is an extension of the grace period; or if the change is applicable only to checks that access a credit card account and the changed terms are disclosed on or with the checks in accordance with paragraph (b)(3) of this section;

(B) When the change is an increase in an annual percentage rate or fee upon the expiration of a specified period of time, provided that:

(1) Prior to commencement of that period, the creditor disclosed in writing to the consumer, in a clear and conspicuous manner, the length of the period and the annual percentage rate or fee that would apply after expiration of the period;

(2) The disclosure of the length of the period and the annual percentage rate or fee that would apply after expiration of the period are set forth in close proximity and in equal prominence to the first listing of the disclosure of the rate or fee that applies during the specified period of time; and

(3) The annual percentage rate or fee that applies after that period does not exceed the rate or fee disclosed pursuant to paragraph (c)(2)(v)(B)(1) of this paragraph or, if the rate disclosed pursuant to paragraph (c)(2)(v)(B)(1) of this section was a variable rate, the rate following any such increase is a variable rate determined by the same formula (index and margin) that was used to calculate the variable rate disclosed pursuant to paragraph (c)(2)(v)(B)(1);

(C) When the change is an increase in a variable annual percentage rate in accordance with a credit card or other account agreement that provides for changes in the rate according to operation of an index that is not under the control of the creditor and is available to the general public; or

(D) When the change is an increase in an annual percentage rate, a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), (b)(2)(iii), (b)(2)(iv), (b)(2)(v), (b)(2)(vi), or the required minimum periodic payment due to the completion of a workout or temporary hardship arrangement by the consumer or the consumer’s failure to comply with the terms of

(vi) Reduction of the credit limit. For open-end plans that are not subject to the requirements of §226.5b, if a creditor decreases the credit limit on an account, advance notice of the decrease must be provided before an over-the-limit fee or a penalty rate can be imposed solely as a result of the consumer exceeding the newly decreased credit limit. Notice shall be provided in writing or orally at least 45 days prior to imposing the over-the-limit fee or penalty rate and shall state that the credit limit on the account has been or will be decreased.

(d) Finance charge imposed at time of transaction. (1) Any person, other than the card issuer, who imposes a finance charge at the time of honoring a consumer’s credit card, shall disclose the amount of that finance charge prior to its imposition.

(2) The card issuer, other than the person honoring the consumer’s credit card, shall have no responsibility for the disclosure required by paragraph (d)(1) of this section, and shall not consider any such charge for the purposes of §§226.5a, 226.6 and 226.7.

(e) Disclosures upon renewal of credit or charge card. (1) Notice prior to renewal. A card issuer that imposes any annual or other periodic fee to renew a credit or charge card account of the type subject to §226.5a, including any fee based on account activity or inactivity or any card issuer that has changed or amended any term of a cardholder’s account required to be disclosed under §226.5b and §226.6 that has not previously been disclosed to the consumer, shall mail or deliver written notice of the renewal to the cardholder. If the card issuer imposes any annual or other periodic fee for renewal, the notice shall be provided at least 30 days or one billing cycle, whichever is less, before the mailing or the delivery of the periodic statement on which any renewal fee is initially charged to the account. If the card issuer has changed or amended any term required to be disclosed under §226.6(b)(1) and (b)(2) and such changed or amended term has not previously
been disclosed to the consumer, the notice shall be provided at least 30 days prior to the scheduled renewal date of the consumer’s credit or charge card. The notice shall contain the following information:

(i) The disclosures contained in §226.5a(b)(1) through (b)(7) that would apply if the account were renewed; and

(ii) How and when the cardholder may terminate credit availability under the account to avoid paying the renewal fee, if applicable.

(2) Notification on periodic statements. The disclosures required by this paragraph may be made on or with a periodic statement. If any of the disclosures are provided on the back of a periodic statement, the card issuer shall include a reference to those disclosures on the front of the statement.

(f) Change in credit card account insurance provider. (1) Notice prior to change. If a credit card issuer plans to change the provider of insurance for repayment of all or part of the outstanding balance of an open-end credit card account of the type subject to §226.5a, the card issuer shall mail or deliver to the cardholder written notice of the change not less than 30 days before the change in provider occurs. The notice shall also include the following items, to the extent applicable:

(i) Any increase in the rate that will result from the change;

(ii) Any substantial decrease in coverage that will result from the change; and

(iii) A statement that the cardholder may discontinue the insurance.

(2) Notice when change in provider occurs. If a change described in paragraph (f)(1) of this section occurs, the card issuer shall provide the cardholder with a written notice no later than 30 days after the change, including the following items, to the extent applicable:

(i) The name and address of the new insurance provider;

(ii) A copy of the new policy or group certificate containing the basic terms of the insurance, including the rate to be charged; and

(iii) A statement that the cardholder may discontinue the insurance.

(3) Substantial decrease in coverage. For purposes of this paragraph, a substantial decrease in coverage is a decrease in a significant term of coverage that might reasonably be expected to affect the cardholder’s decision to continue the insurance. Significant terms of coverage include, for example, the following:

(i) Type of coverage provided;

(ii) Age at which coverage terminates or becomes more restrictive;

(iii) Maximum insurable loan balance, maximum periodic benefit payment, maximum number of payments, or other term affecting the dollar amount of coverage or benefits provided;

(iv) Eligibility requirements and number and identity of persons covered;

(v) Definition of a key term of coverage such as disability;

(vi) Exclusions from or limitations on coverage; and

(vii) Waiting periods and whether coverage is retroactive.

(4) Combined notification. The notices required by paragraph (f)(1) and (2) of this section may be combined provided the timing requirement of paragraph (f)(1) of this section is met. The notices may be provided on or with a periodic statement.

(g) Increase in rates due to delinquency or default or as a penalty—(1) Increases subject to this section. For plans other than home-equity plans subject to the requirements of §226.5b, except as provided in paragraph (g)(4) of this section, a creditor must provide a written notice to each consumer who may be affected when:

(i) A rate is increased due to the consumer’s delinquency or default; or

(ii) A rate is increased as a penalty for one or more events specified in the account agreement, such as making a late payment or obtaining an extension of credit that exceeds the credit limit.

(2) Timing of written notice. Whenever any notice is required to be given pursuant to paragraph (g)(1) of this section, the creditor shall provide written notice of the increase in rates at least 45 days prior to the effective date of
the increase. The notice must be provided after the occurrence of the events described in paragraphs (g)(1)(i) and (g)(1)(ii) of this section that trigger the imposition of the rate increase.

(3)(i) Disclosure requirements for rate increases—(A) General. If a creditor is increasing the rate due to delinquency or default or as a penalty, the creditor must provide the following information on the notice sent pursuant to paragraph (g)(1) of this section:

(1) A statement that the delinquency or default rate or penalty rate, as applicable, has been triggered;

(2) The date on which the delinquency or default rate or penalty rate will apply;

(3) The circumstances under which the delinquency or default rate or penalty rate, as applicable, will cease to apply to the consumer’s account, or that the delinquency or default rate or penalty rate will remain in effect for a potentially indefinite time period;

(4) A statement indicating to which balances the delinquency or default rate or penalty rate will be applied;

(5) If applicable, a description of any balances to which the current rate will continue to apply as of the effective date of the rate increase, unless a consumer fails to make a minimum periodic payment within 60 days from the due date for that payment; and

(6) For a credit card account under an open-end (not home-secured) consumer credit plan, a statement of no more than four principal reasons for the rate increase, listed in their order of importance.

(B) Rate increases resulting from failure to make minimum periodic payment within 60 days from due date. For a credit card account under an open-end (not home-secured) consumer credit plan, if the rate increase required to be disclosed pursuant to paragraph (g)(1) of this section is an increase pursuant to §226.55(b)(4) based on the consumer’s failure to make a minimum periodic payment within 60 days from the due date for that payment, the notice provided pursuant to paragraph (g)(1) of this section must also state that the increase will cease to apply to transactions that occurred prior to or within 14 days of provision of the notice, if the creditor receives six consecutive required minimum periodic payments on or before the payment due date, beginning with the first payment due following the effective date of the increase.

(ii) Format requirements. (A) If a notice required by paragraph (g)(1) of this section is included on or with a periodic statement, the information described in paragraph (g)(3)(i) of this section must be in the form of a table and provided on the front of any page of the periodic statement, above the notice described in paragraph (c)(2)(iv) of this section if that notice is provided on the same statement.

(B) If a notice required by paragraph (g)(1) of this section is not included on or with a periodic statement, the information described in paragraph (g)(3)(i) of this section may be included with the notice, except that this notice may be combined with a notice described in paragraph (c)(2)(iv) or (g)(4) of this section.

(4) Exception for decrease in credit limit. A creditor is not required to provide a notice pursuant to paragraph (g)(1) of this section prior to increasing the rate for obtaining an extension of credit that exceeds the credit limit, provided that:

(I) The creditor provides at least 45 days in advance of imposing the penalty rate a notice, in writing, that includes:

(A) A statement that the credit limit on the account has been or will be decreased;

(B) A statement indicating the date on which the penalty rate will apply, if the outstanding balance exceeds the credit limit as of that date;

(C) A statement that the penalty rate will not be imposed on the date specified in paragraph (g)(4)(i)(B) of this section, if the outstanding balance does not exceed the credit limit as of that date;

(D) The circumstances under which the penalty rate, if applied, will cease to apply to the account, or that the penalty rate, if applied, will remain in effect for a potentially indefinite time period;
§ 226.10 Payments.

(a) General rule. A creditor shall credit a payment to the consumer’s account as of the date of receipt, except when a delay in crediting does not result in a finance or other charge, except as provided in paragraph (b) of this section.

(b) Specific requirements for payments.

(1) General rule. A creditor may specify reasonable requirements for payments that enable most consumers to make conforming payments.

(2) Examples of reasonable requirements for payments. Reasonable requirements for making payment may include:

(i) Requiring that payments be accompanied by the account number or payment stub;

(ii) Setting reasonable cut-off times for payments to be received by mail, by electronic means, by telephone, and in person (except as provided in paragraph (b)(3) of this section), provided that such cut-off times shall be no earlier than 5 p.m. on the payment due date at the location specified by the creditor for the receipt of such payments;

(iii) Specifying that only checks or money orders should be sent by mail;

(iv) Specifying that payment is to be made in U.S. dollars; or

(v) Specifying one particular address for receiving payments, such as a post office box.

(3) In-person payments on credit card accounts.

(i) General. Notwithstanding §226.10(b), payments on a credit card account under an open-end (not home-secured) consumer credit plan made in person at a branch or office of a card issuer that is a financial institution prior to the close of business of that branch or office shall be considered received on the date on which the consumer makes the payment. A card issuer that is a financial institution shall not impose a cut-off time earlier than one of the methods listed in §226.55(c)(2).

(3) Exception. Section 226.9(h) does not apply when the creditor has not received the consumer’s required minimum periodic payment within 60 days after the due date for that payment.

than the close of business for any such payments made in person at any branch or office of the card issuer at which such payments are accepted. Notwithstanding §226.10(b)(2)(ii), a card issuer may impose a cut-off time earlier than 5 p.m. for such payments, if the close of business of the branch or office is earlier than 5 p.m.

(ii) Financial institution. For purposes of paragraph (b)(3) of this section, “financial institution” shall mean a bank, savings association, or credit union.

(4) Nonconforming payments. (i) In general. Except as provided in paragraph (b)(4)(ii) of this section, if a creditor specifies, on or with the periodic statement, requirements for the consumer to follow in making payments as permitted under this §226.10, but accepts a payment that does not conform to the requirements, the creditor shall credit the payment within five days of receipt.

(ii) Payment methods promoted by creditor. If a creditor promotes a method for making payments, such payments shall be considered conforming payments in accordance with this paragraph (b) and shall be credited to the consumer’s account as of the date of receipt, except when a delay in crediting does not result in a finance or other charge.

(c) Adjustment of account. If a creditor fails to credit a payment, as required by paragraphs (a) or (b) of this section, in time to avoid the imposition of finance or other charges, the creditor shall adjust the consumer’s account so that the charges imposed are credited to the consumer’s account during the next billing cycle.

(d) Crediting of payments when creditor does not receive or accept payments on due date. (1) General. Except as provided in paragraph (d)(2) of this section, if a creditor does not receive or accept payments by mail on the due date for payments, the creditor may generally not treat a payment received the next business day as late for any purpose. For purposes of this paragraph (d), the “next business day” means the next day on which the creditor accepts or receives payments by mail.

(2) Payments accepted or received other than by mail. If a creditor accepts or receives payments made on the due date by a method other than mail, such as electronic or telephone payments, the creditor is not required to treat a payment made by that method on the next business day as timely, even if it does not accept mailed payments on the due date.

(e) Limitations on fees related to method of payment. For credit card accounts under an open-end (not home-secured) consumer credit plan, a creditor may not impose a separate fee to allow consumers to make a payment by any method, such as mail, electronic, or telephone payments, unless such payment method involves an expedited service by a customer service representative of the creditor. For purposes of paragraph (e) of this section, the term “creditor” includes a third party that collects, receives, or processes payments on behalf of a creditor.

(f) Changes by card issuer. If a card issuer makes a material change in the address for receiving payments or procedures for handling payments, and such change causes a material delay in the crediting of a payment to the consumer’s account during the 60-day period following the date on which such change took effect, the card issuer may not impose any late fee or finance charge for a late payment on the credit card account during the 60-day period following the date on which the change took effect.

(3) Make a good faith effort to refund to the consumer by cash, check, or money order, or credit to a deposit account of the consumer, any part of the credit balance remaining in the account for more than six months. No further action is required if the consumer’s current location is not known to the creditor and cannot be traced through the consumer’s last known address or telephone number.

(b) Account termination. (1) A creditor shall not terminate an account prior to its expiration date solely because the consumer does not incur a finance charge.

(2) Nothing in paragraph (b)(1) of this section prohibits a creditor from terminating an account that is inactive for three or more consecutive months. An account is inactive for purposes of this paragraph if no credit has been extended (such as by purchase, cash advance or balance transfer) and if the account has no outstanding balance.

(c) Timely settlement of estate debts. (1) General rule. (i) Reasonable policies and procedures required. For credit card accounts under an open-end (not home-secured) consumer credit plan, card issuers must adopt reasonable written policies and procedures designed to ensure that an administrator of an estate of a deceased accountholder can determine the amount of and pay any balance on the account in a timely manner.

(ii) Application to joint accounts. Paragraph (c) of this section does not apply to the account of a deceased consumer if a joint accountholder remains on the account.

(2) Timely statement of balance. (i) Requirement. Upon request by the administrator of an estate, a card issuer must provide the administrator with the amount of the balance on a deceased consumer’s account in a timely manner.

(ii) Safe harbor. For purposes of paragraph (c)(2)(i) of this section providing the amount of the balance on the account within 30 days of receiving the request is deemed to be timely.

(3) Limitations after receipt of request from administrator. (i) Limitation on fees and increases in annual percentage rates. After receiving a request from the administrator of an estate for the amount of the balance on a deceased consumer’s account, a card issuer must not impose any fees on the account (such as a late fee, annual fee, or over-the-limit fee) or increase any annual percentage rate, except as provided by §226.55(b)(2).

(ii) Limitation on trailing or residual interest. A card issuer must waive or rebate any additional finance charge due to a periodic interest rate if payment in full of the balance disclosed pursuant to paragraph (c)(2) of this section is received within 30 days after disclosure.

[75 FR 7812, Feb. 22, 2010]
§ 226.12  
12 CFR Ch. II (1–1–13 Edition)  

by which the card issuer may be notified of loss or theft of the card. The notice shall state that the cardholder’s liability shall not exceed $50 (or any lesser amount) and that the cardholder may give oral or written notification, and shall describe a means of notification (for example, a telephone number, an address, or both); and

(iii) The card issuer has provided a means to identify the cardholder on the account or the authorized user of the card.

(3) Notification to card issuer. Notification to a card issuer is given when steps have been taken as may be reasonably required in the ordinary course of business to provide the card issuer with the pertinent information about the loss, theft, or possible unauthorized use of a credit card, regardless of whether any particular officer, employee, or agent of the card issuer does, in fact, receive the information. Notification may be given, at the option of the person giving it, in person, by telephone, or in writing. Notification in writing is considered given at the time of receipt or, whether or not received, at the expiration of the time ordinarily required for transmission, whichever is earlier.

(4) Effect of other applicable law or agreement. If state law or an agreement between a cardholder and the card issuer imposes lesser liability than that provided in this paragraph, the lesser liability shall govern.

(5) Business use of credit cards. If 10 or more credit cards are issued by one card issuer for use by the employees of an organization, this section does not prohibit the card issuer and the organization from agreeing to liability for unauthorized use without regard to this section. However, liability for unauthorized use may be imposed on an employee of the organization, by either the card issuer or the organization, only in accordance with this section.

(c) Right of cardholder to assert claims or defenses against card issuer.

(1) General rule. When a person who honors a credit card fails to resolve satisfactorily a dispute as to property or services purchased with the credit card in a consumer credit transaction, the cardholder may assert against the card issuer all claims (other than tort claims) and defenses arising out of the transaction and relating to the failure to resolve the dispute. The cardholder may withhold payment up to the amount of credit outstanding for the property or services that gave rise to the dispute and any finance or other charges imposed on that amount.

(2) Adverse credit reports prohibited. If, in accordance with paragraph (c)(1) of this section, the cardholder withholds payment of the amount of credit outstanding for the disputed transaction, the card issuer shall not report that amount as delinquent until the dispute is settled or judgment is rendered.

(3) Limitations.

(i) General. The rights stated in paragraphs (c)(1) and (c)(2) of this section apply only if:

(A) The cardholder has made a good faith attempt to resolve the dispute with the person honoring the credit card; and

(B) The amount of credit extended to obtain the property or services that result in the assertion of the claim or defense by the cardholder exceeds $50, and the disputed transaction occurred in the same state as the cardholder’s current designated address or, if not within the same state, within 100 miles from that address.

(ii) Exclusion. The limitations stated in paragraph (c)(3)(i)(B) of this section shall not apply when the person honoring the credit card:

(A) Is the same person as the card issuer;

(B) Is controlled by the card issuer directly or indirectly;

(C) Is under the direct or indirect control of a third person that also directly or indirectly controls the card issuer;

(D) Controls the card issuer directly or indirectly;

(E) Is a franchised dealer in the card issuer’s products or services; or

(F) Has obtained the order for the disputed transaction through a mail solicitation made or participated in by the card issuer.

(d) Offsets by card issuer prohibited. (1) A card issuer may not take any action,
either before or after termination of credit card privileges, to offset a cardholder’s indebtedness arising from a consumer credit transaction under the relevant credit card plan against funds of the cardholder held on deposit with the card issuer.

(2) This paragraph does not alter or affect the right of a card issuer acting under state or federal law to do any of the following with regard to funds of a cardholder if the same procedure is constitutionally available to creditors generally: Obtain or enforce a consensual security interest in the funds; attach or otherwise levy upon the funds; or obtain or enforce a court order relating to the funds.

(3) This paragraph does not prohibit a plan, if authorized in writing by the cardholder, under which the card issuer may periodically deduct all or part of the cardholder’s credit card debt from a deposit account held with the card issuer (subject to the limitations in §226.13(d)(1)).

(e) Prompt notification of returns and crediting of refunds.

(1) When a creditor other than the card issuer accepts the return of property or forgives a debt for services that is to be reflected as a credit to the consumer’s credit card account, that creditor shall, within 7 business days from accepting the return or forgiving the debt, transmit a credit statement to the card issuer through the card issuer’s normal channels for credit statements.

(2) The card issuer shall, within 3 business days from receipt of a credit statement, credit the consumer’s account with the amount of the refund.

(3) If a creditor other than a card issuer routinely gives cash refunds to consumers paying in cash, the creditor shall also give credit or cash refunds to consumers using credit cards, unless it discloses at the time the transaction is consummated that credit or cash refunds for returns are not given. This section does not require refunds for returns nor does it prohibit refunds in kind.

(f) Discounts; tie-in arrangements. No card issuer may, by contract or otherwise:

(1) Prohibit any person who honors a credit card from offering a discount to a consumer to induce the consumer to pay by cash, check, or similar means rather than by use of a credit card or its underlying account for the purchase of property or services; or

(2) Require any person who honors the card issuer’s credit card to open or maintain any account or obtain any other service not essential to the operation of the credit card plan from the card issuer or any other person, as a condition of participation in a credit card plan. If maintenance of an account for clearing purposes is determined to be essential to the operation of the credit card plan, it may be required only if no service charges or minimum balance requirements are imposed.

(g) Relation to Electronic Fund Transfer Act and Regulation E. For guidance on whether Regulation Z (12 CFR part 226) or Regulation E (12 CFR part 205) applies in instances involving both credit and electronic fund transfer aspects, refer to Regulation E, 12 CFR 205.12(a) regarding issuance and liability for unauthorized use. On matters other than issuance and liability, this section applies to the credit aspects of combined credit/electronic fund transfer transactions, as applicable.

§226.13 Billing error resolution.

(a) Definition of billing error. For purposes of this section, the term billing error means:

(1) A reflection on or with a periodic statement of an extension of credit that is not made to the consumer or to a person who has actual, implied, or apparent authority to use the consumer’s credit card or open-end credit plan.

(2) A reflection on or with a periodic statement of an extension of credit that is not identified in accordance with the requirements of §§226.7(a)(2) or (b)(2), as applicable, and 226.8.

(3) A reflection on or with a periodic statement of an extension of credit for property or services not accepted by the consumer or the consumer’s designee, or not delivered to the consumer or the consumer’s designee as agreed.

[Reserved]
(4) A reflection on a periodic statement of the creditor’s failure to credit properly a payment or other credit issued to the consumer’s account.

(5) A reflection on a periodic statement of a computational or similar error of an accounting nature that is made by the creditor.

(6) A reflection on a periodic statement of an extension of credit for which the consumer requests additional clarification, including documentary evidence.

(7) The creditor’s failure to mail or deliver a periodic statement to the consumer’s last known address if that address was received by the creditor, in writing, at least 20 days before the end of the billing cycle for which the statement was required.

(b) Billing error notice.28 A billing error notice is a written notice29 from a consumer that:

(1) Is received by a creditor at the address disclosed under § 226.7(a)(9) or (b)(9), as applicable, no later than 60 days after the creditor transmitted the first periodic statement that reflects the alleged billing error;

(2) Enables the creditor to identify the consumer’s name and account number; and

(3) To the extent possible, indicates the consumer’s belief and the reasons for the belief that a billing error exists, and the type, date, and amount of the error.

(c) Time for resolution; general procedures. (1) The creditor shall mail or deliver written acknowledgment to the consumer within 30 days of receiving a billing error notice, unless the creditor has complied with the appropriate resolution procedures of paragraphs (e) and (f) of this section, as applicable, within the 30-day period; and

(2) The creditor shall comply with the appropriate resolution procedures of paragraphs (e) and (f) of this section, as applicable, within 2 complete billing cycles (but in no event later than 90 days) after receiving a billing error notice.

(d) Rules pending resolution. Until a billing error is resolved under paragraph (e) or (f) of this section, the following rules apply:

(1) Consumer’s right to withhold disputed amount; collection action prohibited. The consumer need not pay (and the creditor may not try to collect) any portion of any required payment that the consumer believes is related to the disputed amount (including related finance or other charges).30 If the cardholder has enrolled in an automatic payment plan offered by the card issuer and has agreed to pay the credit card indebtedness by periodic deductions from the cardholder’s deposit account, the card issuer shall not deduct any part of the disputed amount or related finance or other charges if a billing error notice is received any time up to 3 business days before the scheduled payment date.

(2) Adverse credit reports prohibited. The creditor or its agent shall not (directly or indirectly) make or threaten to make an adverse report to any person about the consumer’s credit standing, or report that an amount or account is delinquent, because the consumer failed to pay the disputed amount or related finance or other charges.

(3) Acceleration of debt and restriction of account prohibited. A creditor shall not accelerate any part of the consumer’s indebtedness or restrict or close a consumer’s account solely because the consumer has exercised in good faith rights provided by this section. A creditor may be subject to the forfeiture penalty under 15 U.S.C. 1666(e) for failure to comply with any of the requirements of this section.

(4) Permitted creditor actions. A creditor is not prohibited from taking action to collect any undisputed portion of the item or bill; from deducting any disputed amount and related finance or other charges from the consumer’s credit limit on the account; or from reflecting a disputed amount and related finance or other charges on a periodic statement, provided that the creditor indicates on or with the periodic statement that payment of any disputed amount and related finance or other charges is not required pending the creditor’s compliance with this section.

28 [Reserved]
29 [Reserved]
30 [Reserved]
§ 226.14 Determination of annual percentage rate.

(a) General rule. The annual percentage rate is a measure of the cost of credit, expressed as a yearly rate. An annual percentage rate shall be considered accurate if it is not more than $\frac{1}{4}$th of 1 percentage point above or

(e) Procedures if billing error occurred as asserted. If a creditor determines that a billing error occurred as asserted, it shall within the time limits in paragraph (c)(2) of this section:

(1) Correct the billing error and credit the consumer’s account with any disputed amount and related finance or other charges, as applicable; and

(2) Mail or deliver a correction notice to the consumer.

(f) Procedures if different billing error or no billing error occurred. If, after conducting a reasonable investigation, a creditor determines that no billing error occurred or that a different billing error occurred from that asserted, the creditor shall within the time limits in paragraph (c)(2) of this section:

(1) Mail or deliver to the consumer an explanation that sets forth the reasons for the creditor’s belief that the billing error alleged by the consumer is incorrect in whole or in part;

(2) Furnish copies of documentary evidence of the consumer’s indebtedness, if the consumer so requests; and

(3) If a different billing error occurred, correct the billing error and credit the consumer’s account with any disputed amount and related finance or other charges, as applicable.

(g) Creditor’s rights and duties after resolution. If a creditor, after complying with all of the requirements of this section, determines that a consumer owes all or part of the disputed amount and related finance or other charges, the creditor:

(1) Shall promptly notify the consumer in writing of the time when payment is due and the portion of the disputed amount and related finance or other charges that the consumer still owes;

(2) Shall allow any time period disclosed under §226.6(a)(1) or (b)(2)(v), as applicable, and §226.7(a)(8) or (b)(8), as applicable, during which the consumer can pay the amount due under paragraph (g)(1) of this section without incurring additional finance or other charges;

(3) May report an account or amount as delinquent because the amount due under paragraph (g)(1) of this section remains unpaid after the creditor has

31 [Reserved]
below the annual percentage rate determined in accordance with this section.\textsuperscript{31a} An error in disclosure of the annual percentage rate or finance charge shall not, in itself, be considered a violation of this regulation if:

1. The error resulted from a corresponding error in a calculation tool used in good faith by the creditor; and

2. Upon discovery of the error, the creditor promptly discontinues use of that calculation tool for disclosure purposes, and notifies the Board in writing of the error in the calculation tool.

(b) Annual percentage rate—in general. Where one or more periodic rates may be used to compute the finance charge, the annual percentage rate(s) to be disclosed for purposes of \S\S 226.5a, 226.5b, 226.6, 226.7(a)(4) or (b)(4), 226.9, 226.15, 226.16, 226.26, 226.55, and 226.56 shall be computed by multiplying each periodic rate by the number of periods in a year.

(c) Optional effective annual percentage rate for periodic statements for creditors offering open-end plans subject to the requirements of \S 226.5b. A creditor offering an open-end plan subject to the requirements of \S 226.5b need not disclose an effective annual percentage rate. Such a creditor may, at its option, disclose an effective annual percentage rate(s) pursuant to \S 226.7(a)(7) and compute the effective annual percentage rate as follows:

1. Solely periodic rates imposed. If the finance charge is determined solely by applying one or more periodic rates, at the creditor’s option, either:

   (i) By multiplying each periodic rate by the number of periods in a year; or

   (ii) By dividing the total finance charge for the billing cycle by the sum of the balances to which the periodic rates were applied and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year.

2. Minimum or fixed charge, but not transaction charge, imposed. If the finance charge imposed during the billing cycle is or includes a charge relating to the opening, renewing, or continuing an account, the amount of such charge shall not be included in the calculation of the annual percentage rate.

3. Transaction charge imposed. If the finance charge imposed during the billing cycle is or includes a charge relating to a specific transaction during the billing cycle (even if the total finance charge also includes any other minimum, fixed, or other charge not due to the application of a periodic rate), by dividing the total finance charge imposed during the billing cycle by the total of all balances and other amounts on which a finance charge was imposed during the billing cycle without duplication, and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year, except that the annual percentage rate shall not be less than the largest rate determined by multiplying each periodic rate imposed during the billing cycle by the number of periods in a year. Where the finance charge imposed during the billing cycle is or includes a loan fee, points, or similar charge that relates to opening, renewing, or continuing an account, the amount of such charge shall not be included in the calculation of the annual percentage rate. See appendix F to this part regarding determination of the denominator of the fraction under this paragraph.

4. If the finance charge imposed during the billing cycle is or includes a minimum, fixed, or other charge not due to the application of a periodic rate.

\textsuperscript{31a} [Reserved]

\textsuperscript{32} [Reserved]

\textsuperscript{33} [Reserved]

\textsuperscript{34} [Reserved]

\textsuperscript{35} [Reserved]
rate and the total finance charge imposed during the billing cycle does not exceed 50 cents for a monthly or longer billing cycle, or the pro rata part of 50 cents for a billing cycle shorter than monthly, at the creditor’s option, by multiplying each applicable periodic rate by the number of periods in a year, notwithstanding the provisions of paragraphs (c)(2) and (c)(3) of this section.

(d) Calculations where daily periodic rate applied. If the provisions of paragraph (c)(1)(ii) or (c)(2) of this section apply and all or a portion of the finance charge is determined by the application of one or more daily periodic rates, the annual percentage rate may be determined either:

(1) By dividing the total finance charge by the average of the daily balances and multiplying the quotient by the number of billing cycles in a year; or

(2) By dividing the total finance charge by the sum of the daily balances and multiplying the quotient by 365.

[75 FR 7815, Feb. 22, 2010]

§ 226.15 Right of rescission.

(a) Consumer’s right to rescind. (1)(i) Except as provided in paragraph (a)(1)(ii) of this section, in a credit plan in which a security interest is or will be retained or acquired in a consumer’s principal dwelling, each consumer whose ownership interest is or will be subject to the security interest shall have the right to rescind: each credit extension made under the plan; the plan when the plan is opened; a security interest when added or increased to secure an existing plan; and the increase when a credit limit on the plan is increased.

(ii) As provided in section 125(e) of the Act, the consumer does not have the right to rescind each credit extension made under the plan if such extension is made in accordance with a previously established credit limit for the plan.

(b) Notice of right to rescind. In any transaction or occurrence subject to rescission, a creditor shall deliver two copies of the notice of the right to rescind to each consumer entitled to rescind (one copy to each if the notice is delivered in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act). The notice shall identify the transaction or occurrence and clearly and conspicuously disclose the following:

(1) The retention or acquisition of a security interest in the consumer’s principal dwelling.

(2) The consumer’s right to rescind, as described in paragraph (a)(1) of this section.

(3) How to exercise the right to rescind, with a form for that purpose.

36The term material disclosures means the information that must be provided to satisfy the requirements in §226.6 with regard to the method of determining the finance charge and the balance upon which a finance charge will be imposed, the annual percentage rate, the amount or method of determining the amount of any membership or participation fee that may be imposed as part of the plan, and the payment information described in §226.5(b)(1) and (ii) that is required under §226.8(e)(2).
§ 226.15  

12 CFR Ch. II (1–1–13 Edition)

designating the address of the creditor’s place of business.

(4) The effects of rescission, as described in paragraph (d) of this section.

(5) The date the rescission period expires.

c. Delay of creditor’s performance. Unless a consumer waives the right to rescind under paragraph (e) of this section, no money shall be disbursed other than in escrow, no services shall be performed, and no materials delivered until after the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded. A creditor does not violate this section if a third party with no knowledge of the event activating the rescission right does not delay in providing materials or services, as long as the debt incurred for those materials or services is not secured by the property subject to rescission.

d. Effects of rescission. (1) When a consumer rescinds a transaction, the security interest giving rise to the right of rescission becomes void, and the consumer shall not be liable for any amount, including any finance charge.

(2) Within 20 calendar days after receipt of a notice of rescission, the creditor shall return any money or property that has been given to anyone in connection with the transaction and shall take any action necessary to reflect the termination of the security interest.

(3) If the creditor has delivered any money or property, the consumer may retain possession until the creditor has met its obligation under paragraph (d)(2) of this section. When the creditor has complied with that paragraph, the consumer shall tender the money or property to the creditor or, where the latter would be impracticable or inequitable, tender its reasonable value. At the consumer’s option, tender of property may be made at the location of the property or at the consumer’s residence. Tender of money must be made at the creditor’s designated place of business. If the creditor does not take possession of the money or property within 20 calendar days after the consumer’s tender, the consumer may keep it without further obligation.

(4) The procedures outlined in paragraphs (d)(2) and (3) of this section may be modified by court order.

e. Consumer’s waiver of right to rescind. (1) The consumer may modify or waive the right to rescind if the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency. To modify or waive the right, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the right to rescind, and bears the signature of all the consumers entitled to rescind. A list of the affected areas will be maintained by the Board.36a A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.

(2) The need of the consumer to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1993, pursuant to 42 U.S.C. 5170, to be a major disaster area because of severe storms and flooding in the Midwest.36b In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(3) The consumer’s need to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in the South.36c In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(4) The consumer’s need to obtain funds immediately shall be regarded as
a bona fide personal financial emergency provided that the dwelling secur-
ing the extension of credit is located in an area declared during October 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in Texas. In this in-
stance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall ex-
pire one year from the date an area was declared a major disaster.

(f) Exempt transactions. The right to rescind does not apply to the following:

(1) A residential mortgage trans-
action.

(2) A credit plan in which a state agency is a creditor.

§ 226.16 Advertising.

(a) Actually available terms. If an ad-
vertisement for credit states specific credit terms, it shall state only those terms that actually are or will be ar-
 ranged or offered by the creditor.

(b) Advertisement of terms that require additional disclosures. (1) Any term re-
quired to be disclosed under §226.6(b)(3) set forth affirmatively or negatively in an advertisement for an open-end (not home-secured) credit plan triggers ad-
ditional disclosures under this section. Any term required to be disclosed under §226.6(a)(1) or (a)(2) set forth af-
firmatively or negatively in an ad-
vertisement for a home-equity plan subject to the requirements of §226.5b trig-
gers additional disclosures under this section. If any of the terms that trig-
gers additional disclosures under this paragraph is set forth in an advertise-
ment, the advertisement shall also
clearly and conspicuously set forth the following: (i) Any minimum, fixed, transaction, activity or similar charge that is a fi-
nance charge under §226.4 that could be imposed.

(ii) Any periodic rate that may be applied expressed as an annual percent-
age rate as determined under §226.14(b).

If the plan provides for a variable peri-
odic rate, that fact shall be disclosed.

(iii) Any membership or participa-
tion fee that could be imposed.

(2) If an advertisement for credit to finance the purchase of goods or serv-
ces specified in the advertisement states a periodic payment amount, the advertisement shall also state the total of payments and the time period to repay the obligation, assuming that the consumer pays only the periodic payment amount advertised. The disclosure of the total of payments and the time period to repay the obligation must be equally prominent to the statement of the periodic payment amount.

(c) Catalogs or other multiple-page ad-
vertisements; electronic advertisements. (1) If a catalog or other multiple-page ad-
vertisement, or an electronic advertise-
tment (such as an advertisement ap-
pearing on an Internet Web site), gives information in a table or schedule in sufficient detail to permit determina-
tion of the disclosures required by paragraph (b) of this section, it shall be con-
sidered a single advertisement if:

(i) The table or schedule is clearly
and conspicuously set forth; and

(ii) Any statement of terms set forth in §226.6 appearing anywhere else in the catalog or advertisement clearly refers to the page or location where the table or schedule begins.

(2) A catalog or other multiple-page advertisement or an electronic advertise-
tment (such as an advertisement ap-
pearing on an Internet Web site) com-
plies with this paragraph if the table or schedule of terms includes all appro-
priate disclosures for a representative scale of amounts up to the level of the more commonly sold higher-priced property or services offered.

(d) Additional requirements for home-
equity plans. (1) Advertisement of terms

363 [Reserved]
that require additional disclosures. If any of the terms required to be disclosed under §226.6(a)(1) or (a)(2) or the payment terms of the plan are set forth, affirmatively or negatively, in an advertisement for a home-equity plan subject to the requirements of §226.5b, the advertisement also shall clearly and conspicuously set forth the following:

(i) Any loan fee that is a percentage of the credit limit under the plan and an estimate of any other fees imposed for opening the plan, stated as a single dollar amount or a reasonable range.

(ii) Any periodic rate used to compute the finance charge, expressed as an annual percentage rate as determined under §226.14(b).

(iii) The maximum annual percentage rate that may be imposed in a variable-rate plan.

(2) Discounted and premium rates. If an advertisement states an initial annual percentage rate that is not based on the index and margin used to make later rate adjustments in a variable-rate plan, the advertisement also shall state with equal prominence and in close proximity to the initial rate:

(i) The period of time such initial rate will be in effect; and

(ii) A reasonably current annual percentage rate that would have been in effect using the index and margin.

(3) Balloon payment. If an advertisement contains a statement of any minimum periodic payment and a balloon payment may result if only the minimum payments are made, even if such a payment is uncertain or unlikely, the advertisement also shall state with equal prominence and in close proximity to the minimum periodic payment statement that a balloon payment may result, if applicable. A balloon payment results if paying the minimum periodic payments does not fully amortize the outstanding balance by a specified date or time, and the consumer is required to repay the entire outstanding balance at such time. If a balloon payment will occur when the consumer makes only the minimum payments required under the plan, an advertisement for such a program which contains any statement of any minimum periodic payment shall also state with equal prominence and in close proximity to the minimum periodic payment statement:

(i) That a balloon payment will result; and

(ii) The amount and timing of the balloon payment that will result if the consumer makes only the minimum payments for the maximum period of time that the consumer is permitted to make such payments.

(4) Tax implications. An advertisement that states that any interest expense incurred under the home-equity plan is or may be tax deductible may not be misleading in this regard. If an advertisement distributed in paper form or through the Internet (rather than by radio or television) is for a home-equity plan secured by the consumer’s principal dwelling, and the advertisement states that the advertised extension of credit may exceed the fair market value of the dwelling, the advertisement shall clearly and conspicuously state that:

(i) The interest on the portion of the credit extension that is greater than the fair market value of the dwelling is not tax deductible for Federal income tax purposes; and

(ii) The consumer should consult a tax adviser for further information regarding the deductibility of interest and charges.

(5) Misleading terms. An advertisement may not refer to a home-equity plan as “free money” or contain a similarly misleading term.

(6) Promotional rates and payments. (i) Definitions. The following definitions apply for purposes of paragraph (d)(6) of this section:

(A) Promotional rate. The term “promotional rate” means, in a variable-rate plan, any annual percentage rate that is not based on the index and margin that will be used to make rate adjustments under the plan, if that rate is less than a reasonably current annual percentage rate that would be in effect under the index and margin that will be used to make rate adjustments under the plan.

(B) Promotional payment. The term “promotional payment” means:
§ 226.16

(1) For a variable-rate plan, any minimum payment applicable for a promotional period that:
(i) Is not derived by applying the index and margin to the outstanding balance when such index and margin will be used to determine other minimum payments under the plan; and
(ii) Is less than other minimum payments under the plan derived by applying a reasonably current index and margin that will be used to determine the amount of such payments, given an assumed balance.

(2) For a plan other than a variable-rate plan, any minimum payment applicable for a promotional period if that payment is less than other payments required under the plan given an assumed balance.

(C) Promotional period. A “promotional period” means a period of time, less than the full term of the loan, that the promotional rate or promotional payment may be applicable.

(ii) Stating the promotional period and post-promotional rate or payments. If any annual percentage rate that may be applied to a plan is a promotional rate, or if any payment applicable to a plan is a promotional payment, the following must be disclosed in any advertisement, other than television or radio advertisements, in a clear and conspicuous manner with equal prominence and in close proximity to each listing of the promotional rate or payment:
(A) The period of time during which the promotional rate or promotional payment will apply;
(B) In the case of a promotional rate, any annual percentage rate that will apply under the plan. If such rate is variable, the annual percentage rate must be disclosed in accordance with the accuracy standards in §§ 226.5b or 226.16(b)(1)(ii) as applicable; and
(C) In the case of a promotional payment, the amounts and time periods of any payments that will apply under the plan. In variable-rate transactions, payments that will be determined based on application of an index and margin shall be disclosed based on a reasonably current index and margin.

(iii) Envelope excluded. The requirements in paragraph (d)(6)(ii) of this section do not apply to an envelope in which an application or solicitation is mailed, or to a banner advertisement or pop-up advertisement linked to an application or solicitation provided electronically.

(e) Alternative disclosures—television or radio advertisements. An advertisement made through television or radio stating any of the terms requiring additional disclosures under paragraphs (b)(1) or (d)(1) of this section may alternatively comply with paragraphs (b)(1) or (d)(1) of this section by stating the information required by paragraphs (b)(1)(ii) or (d)(1)(ii) of this section, as applicable, and listing a toll-free telephone number, or any telephone number that allows a consumer to reverse the phone charges when calling for information, along with a reference that such number may be used by consumers to obtain the additional cost information.

(f) Misleading terms. An advertisement may not refer to an annual percentage rate as “fixed,” or use a similar term, unless the advertisement also specifies a time period that the rate will be fixed and the rate will not increase during that period, or if no such time period is provided, the rate will not increase while the plan is open.

(g) Promotional rates and fees. (1) Scope. The requirements of this paragraph apply to any advertisement of an open-end (not home-secured) plan, including promotional materials accompanying applications or solicitations subject to §226.5a(c) or accompanying applications or solicitations subject to §226.5a(e).

(2) Definitions. (i) Promotional rate means any annual percentage rate applicable to one or more balances or transactions on an open-end (not home-secured) plan for a specified period of time that is lower than the annual percentage rate that will be in effect at the end of that period on such balances or transactions.

(ii) Introductory rate means a promotional rate offered in connection with the opening of an account.

(iii) Promotional period means the maximum time period for which a promotional rate or promotional fee may be applicable.

(iv) Promotional fee means a fee required to be disclosed under §226.6(b)(1)
and (2) applicable to an open-end (not home-secured) plan, or to one or more balances or transactions on an open-end (not home-secured) plan, for a specified period of time that is lower than the fee that will be in effect at the end of that period for such plan or types of balances or transactions.

(v) Introductory fee means a promotional fee offered in connection with the opening of an account.

(3) Stating the term “introductory”. If any annual percentage rate or fee that may be applied to the account is an introductory rate or introductory fee, the term introductory or intro must be in immediate proximity to each listing of the introductory rate or introductory fee in a written or electronic advertisement.

(4) Stating the promotional period and post-promotional rate or fee. If any annual percentage rate that may be applied to the account is a promotional rate under paragraph (g)(2)(i) of this section or any fee that may be applied to the account is a promotional fee under paragraph (g)(2)(iv) of this section, the information in paragraphs (g)(4)(i) and, as applicable, (g)(4)(ii) or (iii) of this section must be stated in a clear and conspicuous manner in the advertisement. If the rate or fee is stated in a written or electronic advertisement, the information in paragraphs (g)(4)(i) and, as applicable, (g)(4)(ii) or (iii) of this section must also be stated in a prominent location closely proximate to the first listing of the promotional rate or promotional fee.

(i) When the promotional rate or promotional fee will end;

(ii) The annual percentage rate that will apply after the end of the promotional period. If such rate is variable, the annual percentage rate must comply with the accuracy standards in §§226.5a(c)(2), 226.5a(d)(3), 226.5a(e)(4), or 226.16(b)(1)(ii), as applicable. If such rate cannot be determined at the time disclosures are given because the rate depends at least in part on a later determination of the consumer’s creditworthiness, the advertisement must disclose the specific rates or the range of rates that might apply; and

(iii) The fee that will apply after the end of the promotional period.

(5) Envelope excluded. The requirements in paragraph (g)(4) of this section do not apply to an envelope or other enclosure in which an application or solicitation is mailed, or to a banner advertisement or pop-up advertisement, linked to an application or solicitation provided electronically.

(h) Deferred interest or similar offers.

(1) Scope. The requirements of this paragraph apply to any advertisement of an open-end credit plan not subject to §226.5b, including promotional materials accompanying applications or solicitations subject to §226.5a(c) or accompanying applications or solicitations subject to §226.5a(e).

(2) Definitions. “Deferred interest” means finance charges, accrued on balances or transactions, that a consumer is not obligated to pay or that will be waived or refunded to a consumer if those balances or transactions are paid in full by a specified date. The maximum period from the date the consumer becomes obligated for the balance or transaction until the specified date by which the consumer must pay the balance or transaction in full in order to avoid finance charges, or receive a waiver or refund of finance charges, is the “deferred interest period.” “Deferred interest” does not include any finance charges the consumer avoids paying in connection with any recurring grace period.

(3) Stating the deferred interest period. If a deferred interest offer is advertised, the deferred interest period must be stated in a clear and conspicuous manner in the advertisement. If the phrase “no interest” or similar term regarding the possible avoidance of interest obligations under the deferred interest program is stated, the term “if paid in full” must also be stated in a clear and conspicuous manner preceding the disclosure of the deferred interest period in the advertisement. If the deferred interest offer is included in a written or electronic advertisement, the deferred interest period and, if applicable, the term “if paid in full” must also be stated in immediate proximity to each statement of “no interest,” “no payments,” “deferred interest,” “same as cash,” or similar term regarding interest or payments during the deferred interest period.
§ 226.17 General disclosure requirements.

(a) Form of disclosures. (1) The creditor shall make the disclosures required by this subpart clearly and conspicuously in writing, in a form that the consumer may keep. The disclosures required by this subpart may be provided to the consumer in electronic form without regard to the consumer consent or other provisions of the E-Sign Act in the circumstances set forth in those sections. The disclosures shall be grouped together, shall be segregated from everything else, and shall not contain any information not directly related to the disclosures required under §226.18 or §226.47. The itemization of the amount financed under §226.18(c)(1) must be separate from the other disclosures under §226.18, except for private education loan disclosures made in compliance with §226.47.

(2) Except for private education loan disclosures made in compliance with §226.47, the terms “finance charge” and “annual percentage rate,” when required to be disclosed under §226.18(d) and (e) together with a corresponding amount or percentage rate, shall be more conspicuous than any other disclosure, except the creditor’s identity under §226.18(a). For private education loan disclosures made in compliance with §226.47, the term “annual percentage rate,” and the corresponding percentage rate must be less conspicuous than the term “finance charge” and corresponding amount under §226.18(d), the interest rate under §§226.47(b)(1)(i) and (c)(1), and the notice of the right to cancel under §226.47(c)(4).

(b) Time of disclosures. The creditor shall make disclosures before consummation of the transaction. In certain residential mortgage transactions, special timing requirements are set forth in §226.19(a). In certain variable-rate transactions, special timing requirements for variable-rate disclosures are set forth in §226.19(b) and §226.20(c). For private education loan disclosures made in compliance with

---

461
§ 226.17 12 CFR Ch. II (1–1–13 Edition)

§ 226.47, special timing requirements are set forth in §226.46(d). In certain transactions involving mail or telephone orders or a series of sales, the timing of disclosures may be delayed in accordance with paragraphs (g) and (h) of this section.

(c) Basis of disclosures and use of estimates. (1) The disclosures shall reflect the terms of the legal obligation between the parties.

(2)(i) If any information necessary for an accurate disclosure is unknown to the creditor, the creditor shall make the disclosure based on the best information reasonably available at the time the disclosure is provided to the consumer, and shall state clearly that the disclosure is an estimate.

(ii) For a transaction in which a portion of the interest is determined on a per-diem basis and collected at consummation, any disclosure affected by the per-diem interest shall be considered accurate if the disclosure is based on the information known to the creditor at the time that the disclosure documents are prepared for consummation of the transaction.

(3) The creditor may disregard the effects of the following in making calculations and disclosures.

(i) That payments must be collected in whole cents.

(ii) That dates of scheduled payments and advances may be changed because the scheduled date is not a business day.

(iii) That months have different numbers of days.

(iv) The occurrence of leap year.

(4) In making calculations and disclosures, the creditor may disregard any irregularity in the first period that falls within the limits described below and any payment schedule irregularity that results from the irregular first period:

(i) For transactions in which the term is less than 1 year, a first period not more than 6 days shorter or 13 days longer than a regular period;

(ii) For transactions in which the term is at least 1 year and less than 10 years, a first period not more than 11 days shorter or 21 days longer than a regular period; and

(iii) For transactions in which the term is at least 10 years, a first period shorter than or not more than 32 days longer than a regular period.

(5) If an obligation is payable on demand, the creditor shall make the disclosures based on an assumed maturity of 1 year. If an alternate maturity date is stated in the legal obligation between the parties, the disclosures shall be based on that date.

(6)(i) A series of advances under an agreement to extend credit up to a certain amount may be considered as one transaction.

(ii) When a multiple-advance loan to finance the construction of a dwelling may be permanently financed by the same creditor, the construction phase and the permanent phase may be treated as either one transaction or more than one transaction.

(d) Multiple creditors; multiple consumers. If a transaction involves more than one creditor, only one set of disclosures shall be given and the creditors shall agree among themselves which creditor must comply with the requirements that this regulation imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who is primarily liable on the obligation. If the transaction is rescindable under §226.23, however, the disclosures shall be made to each consumer who has the right to rescind.

(e) Effect of subsequent events. If a disclosure becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of this regulation, although new disclosures may be required under paragraph (f) of this section, §226.19, §226.20, or §226.48(c)(4).

(f) Early disclosures. Except for private education loan disclosures made in compliance with §226.47, if disclosures required by this subpart are given before the date of consummation of a transaction and a subsequent event makes them inaccurate, the creditor shall disclose before consummation (subject to the provisions of §226.19(a)(2) and §226.19(a)(5)(iii)): 39

(1) Any changed term unless the term was based on an estimate in accordance

39[Reserved]
§ 226.18

Federal Reserve System

with § 226.17(c)(2) and was labelled an estimate;

(2) All changed terms, if the annual percentage rate at the time of consummation varies from the annual percentage rate disclosed earlier by more than ¼ of 1 percentage point in a regular transaction, or more than ¼ of 1 percentage point in an irregular transaction, as defined in § 226.22(a).

(g) Mail or telephone orders—delay in disclosures. Except for private education loan disclosures made in compliance with § 226.47, if a creditor receives a purchase order or a request for an extension of credit by mail, telephone, or facsimile machine without face-to-face or direct telephone solicitation, the creditor may delay the disclosures until the due date of the first payment, if the following information for representative amounts or ranges of credit is made available in written form or in electronic form to the consumer or to the public before the actual purchase order or request:

(1) The cash price or the principal loan amount.

(2) The total sale price.

(3) The finance charge.

(4) The annual percentage rate, and if the rate may increase after consummation, the following disclosures:

(i) The circumstances under which the rate may increase.

(ii) Any limitations on the increase.

(iii) The effect of an increase.

(5) The terms of repayment.

(h) Series of sales—delay in disclosures. If a credit sale is one of a series made under an agreement providing that subsequent sales may be added to an outstanding balance, the creditor may delay the required disclosures until the due date of the first payment for the current sale, if the following two conditions are met:

(1) The consumer has approved in writing the annual percentage rate or rates, the range of balances to which they apply, and the method of treating any unearned finance charge on an existing balance.

(2) The creditor retains no security interest in any property after the creditor has received payments equal to the cash price and any finance charge attributable to the sale of that property. For purposes of this provision, in the case of items purchased on different dates, the first purchased is deemed the first item paid for; in the case of items purchased on the same date, the lowest priced is deemed the first item paid for.

(1) Interim student credit extensions. For transactions involving an interim credit extension under a student credit program for which an application is received prior to the mandatory compliance date of §§ 226.46, 47, and 48, the creditor need not make the following disclosures: the finance charge under § 226.18(d), the payment schedule under § 226.18(g), the total of payments under § 226.18(h), or the total sale price under § 226.18(j) at the time the credit is actually extended. The creditor must make complete disclosures at the time the creditor and consumer agree upon the repayment schedule for the total obligation. At that time, a new set of disclosures must be made of all applicable items under § 226.18.

§ 226.18 Content of disclosures.

For each transaction, the creditor shall disclose the following information as applicable:

(a) Creditor. The identity of the creditor making the disclosures.

(b) Amount financed. The amount financed, using that term, and a brief description such as the amount of credit provided to you or on your behalf. The amount financed is calculated by:

(1) Determining the principal loan amount or the cash price (subtracting any downpayment);

(2) Adding any other amounts that are financed by the creditor and are not part of the finance charge; and

(3) Subtracting any prepaid finance charge.

(c) Itemization of amount financed. (1) A separate written itemization of the amount financed, including: 40

40Good faith estimates of settlement costs provided for transactions subject to the Real Estate Settlement Procedures Act (12 U.S.C. Continued
(i) The amount of any proceeds distributed directly to the consumer.
(ii) The amount credited to the consumer’s account with the creditor.
(iii) Any amounts paid to other persons by the creditor on the consumer’s behalf. The creditor shall identify those persons.
(iv) The prepaid finance charge.

(2) The creditor need not comply with paragraph (c)(1) of this section if the creditor provides a statement that the consumer has the right to receive a written itemization of the amount financed, together with a space for the consumer to indicate whether it is desired, and the consumer does not request it.

(d) Finance charge. The finance charge, using that term, and a brief description such as “the dollar amount the credit will cost you.”

(1) Mortgage loans. In a transaction secured by real property or a dwelling, the disclosed finance charge and other disclosures affected by the disclosed finance charge (including the amount financed and the annual percentage rate) shall be treated as accurate if the amount disclosed as the finance charge:
(i) is understated by no more than $100; or
(ii) is greater than the amount required to be disclosed.

(2) Other credit. In any other transaction, the amount disclosed as the finance charge shall be treated as accurate if, in a transaction involving an amount financed of $1,000 or less, it is not more than $5 above or below the amount required to be disclosed; or, in a transaction involving an amount financed of more than $1,000, it is not more than $10 above or below the amount required to be disclosed.

(e) Annual percentage rate. The annual percentage rate, using that term, and a brief description such as “the cost of your credit as a yearly rate.”

(f) Variable rate. (1) If the annual percentage rate may increase after consummation in a transaction not secured by the consumer’s principal dwelling or in a transaction secured by the consumer’s principal dwelling with a term of one year or less, the following disclosures:
(i) The circumstances under which the rate may increase.
(ii) Any limitations on the increase.
(iii) The effect of an increase.
(iv) An example of the payment terms that would result from an increase.

(2) If the annual percentage rate may increase after consummation in a transaction secured by the consumer’s principal dwelling with a term greater than one year, the following disclosures:
(i) The fact that the transaction contains a variable-rate feature.
(ii) A statement that variable-rate disclosures have been provided earlier.

(g) Payment schedule. Other than for a transaction that is subject to paragraph (s) of this section, the number, amounts, and timing of payments scheduled to repay the obligation.

(1) In a demand obligation with no alternate maturity date, the creditor may comply with this paragraph by disclosing the due dates or payment periods of any scheduled interest payments for the first year.

(2) In a transaction in which a series of payments varies because a finance charge is applied to the unpaid principal balance, the creditor may comply with this paragraph by disclosing the following information:
(i) The dollar amounts of the largest and smallest payments in the series.
(ii) A reference to the variations in the other payments in the series.

2601 et seq.) may be substituted for the disclosures required by paragraph (c) of this section.

The following payees may be described using generic or other general terms and need not be further identified: public officials or government agencies, credit reporting agencies, appraisers, and insurance companies.

42 For any transaction involving a finance charge of $5 or less on an amount financed of $75 or less, or a finance charge of $7.50 or less on an amount financed of more than $75, the creditor need not disclose the annual percentage rate.

43 Information provided in accordance with §§226.18(f)(2) and 226.19(b) may be substituted for the disclosures required by paragraph (f)(1) of this section.
(h) **Total of payments.** The *total of payments*, using that term, and a descriptive explanation such as “the amount you will have paid when you have made all scheduled payments.”

(i) **Demand feature.** If the obligation has a demand feature, that fact shall be disclosed. When the disclosures are based on an assumed maturity of 1 year as provided in §226.17(c)(5), that fact shall also be disclosed.

(j) **Total sale price.** In a credit sale, the *total sale price*, using that term, and a descriptive explanation (including the amount of any downpayment) such as “the total price of your purchase on credit, including your downpayment of $1,000.” The total sale price is the sum of the cash price, the items described in paragraph (b)(2), and the finance charge disclosed under paragraph (d) of this section.

(k) **Prepayment.** (1) When an obligation includes a finance charge computed from time to time by application of a rate to the unpaid principal balance, a statement indicating whether or not a penalty may be imposed if the obligation is prepaid in full.

(2) When an obligation includes a finance charge other than the finance charge described in paragraph (k)(1) of this section, a statement indicating whether or not the consumer is entitled to a rebate of any finance charge if the obligation is prepaid in full.

(l) **Late payment.** Any dollar or percentage charge that may be imposed before maturity due to a late payment, other than a deferral or extension charge.

(m) **Security interest.** The fact that the creditor has or will acquire a security interest in the property purchased as part of the transaction, or in other property identified by item or type.

(n) **Insurance and debt cancellation.** The items required by §226.4(d) in order to exclude certain insurance premiums and debt cancellation fees from the finance charge.

(o) **Certain security interest charges.** The disclosures required by §226.4(e) in order to exclude from the finance charge certain fees prescribed by law or certain premiums for insurance in lieu of perfecting a security interest.

(p) **Contract reference.** A statement that the consumer should refer to the appropriate contract document for information about nonpayment, default, the right to accelerate the maturity of the obligation, and prepayment rebates and penalties. At the creditor’s option, the statement may also include a reference to the contract for further information about security interests and, in a residential mortgage transaction, about the creditor’s policy regarding assumption of the obligation.

(q) **Assumption policy.** In a residential mortgage transaction, a statement whether or not a subsequent purchaser of the dwelling from the consumer may be permitted to assume the remaining obligation on its original terms.

(r) **Required deposit.** If the creditor requires the consumer to maintain a deposit as a condition of the specific transaction, a statement that the annual percentage rate does not reflect the effect of the required deposit.

(s) **Interest rate and payment summary for mortgage transactions.** For a closed-end transaction secured by real property or a dwelling, other than a transaction secured by a consumer’s interest in a timeshare plan described in 11 U.S.C. 101(53D), the creditor shall disclose the following information about the interest rate and payments:

(1) **Form of disclosures.** The information in paragraphs (s)(2)–(4) of this section shall be in the form of a table, with no more than five columns, with headings and format substantially similar to Model Clause H–4(E), H–4(F), H–4(G), or H–4(H) in Appendix H to this part. The table shall contain only the information required in paragraphs (s)(2)–(4) of this section, shall be placed in a prominent location, and shall be in a minimum 10-point font.

(2) **Interest rates—(i) Amortizing loans.**

(A) For a fixed-rate mortgage, the interest rate at consummation.

(B) For an adjustable-rate or step-rate mortgage—

---

46. A required deposit need not include, for example: (1) An escrow account for items such as taxes, insurance or repairs; (2) a deposit that earns not less than 5 percent per year; or (3) payments under a Morris Plan.
§ 226.18  

(1) The interest rate at consummation and the period of time until the first interest rate adjustment may occur, labeled as the “introductory rate and monthly payment”;  

(2) The maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due and the earliest date on which that rate may apply, labeled as “maximum during first five years”; and  

(3) The maximum interest rate that may apply during the life of the loan and the earliest date on which that rate may apply, labeled as “maximum ever.”  

(C) If the loan provides for payment increases as described in paragraph (s)(3)(i)(B) of this section, the interest rate in effect at the time the first such payment increase is scheduled to occur and the date on which the increase will occur, labeled as “first adjustment” if the loan is an adjustable-rate mortgage or, otherwise, labeled as “first increase.”  

(ii) Negative amortization loans. For a negative amortization loan—  

(A) The interest rate at consummation and, if it will adjust after consummation, the length of time until it will adjust, and the label “introductory” or “intro”;  

(B) The maximum interest rate that could apply when the consumer must begin making fully amortizing payments under the terms of the legal obligation;  

(C) If the minimum required payment will increase before the consumer must begin making fully amortizing payments under the terms of the legal obligation;  

(D) If the loan is an interest-only loan, for each interest rate disclosed under paragraph (s)(2)(i) of this section, the corresponding periodic payment and—  

(A) The amount applied to interest, labeled as “interest payment,” and a statement that none of the payment is being applied to principal;  

(B) If the payment will be applied to accrued interest and principal, an itemization of the amount of the first such payment applied to accrued interest and to principal, labeled as “interest payment” and “principal payment,” respectively;  

placed in a box directly beneath the table required by paragraph (s)(1) of this section, in a format substantially similar to Model Clause H–4(I) in Appendix H to this part—  

(A) The interest rate that applies at consummation and the period of time for which it applies;  

(B) A statement that, even if market rates do not change, the interest rate will increase at the first adjustment and a designation of the place in sequence of the month or year, as applicable, of such rate adjustment; and  

(C) The fully-indexed rate.  

(3) Payments for amortizing loans—(i) Principal and interest payments. If all periodic payments will be applied to accrued interest and principal, for each interest rate disclosed under paragraph (s)(2)(i) of this section—  

(A) The corresponding periodic principal and interest payment, labeled as “principal and interest;”  

(B) If the periodic payment may increase without regard to an interest rate adjustment, the payment that corresponds to the first such increase and the earliest date on which the increase could occur;  

(C) If an escrow account will be established, an estimate of the amount of taxes and insurance, including any mortgage insurance, payable with each periodic payment; and  

(D) The sum of the amounts disclosed under paragraphs (s)(3)(i)(A) and (B) of this section or (s)(3)(i)(B) and (C) of this section, as applicable, labeled as “total estimated monthly payment.”  

(ii) Interest-only payments. If the loan is an interest-only loan, for each interest rate disclosed under paragraph (s)(2)(i) of this section, the corresponding periodic payment and—  

(A) If the payment will be applied to only accrued interest, the amount applied to interest, labeled as “interest payment,” and a statement that none of the payment is being applied to principal;  

(B) If the payment will be applied to accrued interest and principal, an itemization of the amount of the first such payment applied to accrued interest and to principal, labeled as “interest payment” and “principal payment,” respectively;  

466
Federal Reserve System § 226.18

(C) The escrow information described in paragraph (s)(3)(i)(C) of this section; and

(D) The sum of all amounts required to be disclosed under paragraphs (s)(3)(ii)(A) and (C) of this section or (s)(3)(ii)(B) and (C) of this section, as applicable, labeled as “total estimated monthly payment.”

(4) Payments for negative amortization loans. For negative amortization loans:

(i)(A) The minimum periodic payment required until the first payment increase or interest rate increase, corresponding to the interest rate disclosed under paragraph (s)(2)(ii)(A) of this section;

(B) The minimum periodic payment that would be due at the first payment increase and the second, if any, corresponding to the interest rates described in paragraphs (s)(2)(ii)(C) and (D) of this section; and

(C) A statement that the minimum payment pays only some interest, does not repay any principal, and will cause the loan amount to increase;

(ii) The fully amortizing periodic payment amount at the earliest time when such a payment must be made, corresponding to the interest rate disclosed under paragraph (s)(2)(ii)(B) of this section; and

(iii) If applicable, in addition to the payments in paragraphs (s)(4)(i) and (ii) of this section, for each interest rate disclosed under paragraph (s)(2)(ii) of this section, the amount of the fully amortizing periodic payment, labeled as the “full payment option,” and a statement that these payments pay all principal and all accrued interest.

(5) Balloon payments. (i) Except as provided in paragraph (s)(5)(ii) of this section, if the transaction will require a balloon payment, defined as a payment that is more than two times a regular periodic payment, the balloon payment shall be disclosed separately from other periodic payments disclosed in the table under this paragraph (s), outside the table and in a manner substantially similar to Model Clause H–4(D) in Appendix H to this part.

(ii) If the balloon payment is scheduled to occur at the same time as another payment required to be disclosed in the table pursuant to paragraph (s)(3) or (s)(4) of this section, then the balloon payment must be disclosed in the table.

(6) Special disclosures for loans with negative amortization. For a negative amortization loan, the following information, in close proximity to the table required in paragraph (s)(1) of this section, with headings, content, and format substantially similar to Model Clause H–4(G) in Appendix H to this part:

(i) The maximum interest rate, the shortest period of time in which such interest rate could be reached, the amount of estimated taxes and insurance included in each payment disclosed, and a statement that the loan offers payment options, two of which are shown.

(ii) The dollar amount of the increase in the loan’s principal balance if the consumer makes only the minimum required payments for the maximum possible time and the earliest date on which the consumer must begin making fully amortizing payments, assuming that the maximum interest rate is reached at the earliest possible time.

(7) Definitions. For purposes of this § 226.18(s):

(i) The term “adjustable-rate mortgage” means a transaction secured by real property or a dwelling for which the annual percentage rate may increase after consummation.

(ii) The term “step-rate mortgage” means a transaction secured by real property or a dwelling for which the interest rate will change after consummation, and the rates that will apply and the periods for which they will apply are known at consummation.

(iii) The term “fixed-rate mortgage” means a transaction secured by real property or a dwelling that is not an adjustable-rate mortgage or a step-rate mortgage.

(iv) The term “interest-only” means that, under the terms of the legal obligation, one or more of the periodic payments may be applied solely to accrued interest and not to loan principal; an “interest-only loan” is a loan that permits interest-only payments.

(v) The term “amortizing loan” means a loan in which payment of the periodic payments does not result in an increase in the principal balance under
the terms of the legal obligation; the term “negative amortization” means payment of periodic payments that will result in an increase in the principal balance under the terms of the legal obligation; the term “negative amortization loan” means a loan, other than a reverse mortgage subject to §226.33, that provides for a minimum periodic payment that covers only a portion of the accrued interest, resulting in negative amortization.

(vi) The term “fully-indexed rate” means the interest rate calculated using the index value and margin at the time of consummation.

(t) “No-guarantee-to-refinance” statement.

(1) Disclosure. For a closed-end transaction secured by real property or a dwelling, other than a transaction secured by a consumer’s interest in a timeshare plan described in 11 U.S.C. 101(53D), the creditor shall disclose a statement that there is no guarantee the consumer can refinance the transaction to lower the interest rate or periodic payments.

(2) Format. The statement required by paragraph (t)(1) of this section must be in a form substantially similar to Model Clause H–4(K) in Appendix H to this part.

§226.19 Certain mortgage and variable-rate transactions.

(a) Mortgage transactions subject to RESPA—(1)(i) Time of disclosures. In a mortgage transaction subject to the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) that is secured by the consumer’s dwelling, other than a home equity line of credit subject to §226.5b or mortgage transaction subject to paragraph (a)(5) of this section, the creditor shall make good faith estimates of the disclosures required by §226.18 and shall deliver or place them in the mail not later than the third business day after the creditor receives the consumer’s written application.

(ii) Imposition of fees. Except as provided in paragraph (a)(1)(iii) of this section, neither a creditor nor any other person may impose a fee on a consumer in connection with the consumer’s application for a mortgage transaction subject to paragraph (a)(1)(i) of this section before the consumer has received the disclosures required by paragraph (a)(1)(i) of this section. If the disclosures are mailed to the consumer, the consumer is considered to have received them three business days after they are mailed.

(iii) Exception to fee restriction. A creditor or other person may impose a fee for obtaining the consumer’s credit history before the consumer has received the disclosures required by paragraph (a)(1)(i) of this section, provided the fee is bona fide and reasonable in amount.

(2) Waiting periods for early disclosures and corrected disclosures. (i) The creditor shall deliver or place in the mail the good faith estimates required by paragraph (a)(1)(i) of this section not later than the seventh business day before consummation of the transaction.

(ii) If the annual percentage rate disclosed under paragraph (a)(1)(i) of this section becomes inaccurate, as defined in §226.22, the creditor shall provide corrected disclosures with all changed terms. The consumer must receive the corrected disclosures no later than three business days before consummation. If the corrected disclosures are mailed to the consumer or delivered to the consumer by means other than delivery in person, the consumer is deemed to have received the corrected disclosures three business days after they are mailed or delivered.

(3) Consumer’s waiver of waiting period before consummation. If the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency, the consumer may modify or waive the seven-business-day waiting period or the three-business-day waiting period required by paragraph (a)(2) of this section, after receiving the disclosures required by §226.18. To modify or waive a waiting period, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the waiting period, and bears the signature of all the consumers who are primarily liable on the legal obligation. Printed forms for this purpose are prohibited.
Federal Reserve System § 226.19

(4) Notice. Disclosures made pursuant to paragraph (a)(1) or paragraph (a)(2) of this section shall contain the following statement: “You are not required to complete this agreement merely because you have received these disclosures or signed a loan application.” The disclosure required by this paragraph shall be grouped together with the disclosures required by paragraphs (a)(1) or (a)(2) of this section.

(5) Timeshare plans. In a mortgage transaction subject to the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) that is secured by a consumer’s interest in a timeshare plan described in 11 U.S.C. 101(53(D)):

(i) The requirements of paragraphs (a)(1) through (a)(4) of this section do not apply;

(ii) The creditor shall make good faith estimates of the disclosures required by § 226.18 before consummation, or shall deliver or place them in the mail not later than three business days after the creditor receives the consumer’s written application, whichever is earlier; and

(iii) If the annual percentage rate at the time of consummation varies from the annual percentage rate disclosed under paragraph (a)(5)(ii) of this section by more than 1⁄8 of 1 percentage point in a regular transaction or more than 1⁄4 of 1 percentage point in an irregular transaction, as defined in § 226.22, the creditor shall disclose all the changed terms no later than consummation or settlement.

(b) Certain variable-rate transactions. If the annual percentage rate may increase after consummation in a transaction secured by the consumer’s principal dwelling with a term greater than one year, the following disclosures must be provided at the time any application form is provided or before the consumer pays a non-refundable fee, whichever is earlier:

(1) The booklet titled Consumer Handbook on Adjustable Rate Mortgages published by the Board and the Federal Home Loan Bank Board, or a suitable substitute.

(2) A loan program disclosure for each variable-rate program in which the consumer expresses an interest. The following disclosures, as applicable, shall be provided:

(i) The fact that the interest rate, payment, or term of the loan can change.

(ii) The index or formula used in making adjustments, and a source of information about the index or formula.

(iii) An explanation of how the interest rate and payment will be determined, including an explanation of how the index is adjusted, such as by the addition of a margin.

(iv) A statement that the consumer should ask about the current margin value and current interest rate.

(v) The fact that the interest rate will be discounted, and a statement that the consumer should ask about the amount of the interest rate discount.

(vi) The frequency of interest rate and payment changes.

(vii) Any rules relating to changes in the index, interest rate, payment amount, and outstanding loan balance including, for example, an explanation of interest rate or payment limitations, negative amortization, and interest rate carryover.

(viii) At the option of the creditor, either of the following:

(A) A historical example, based on a $10,000 loan amount, illustrating how payments and the loan balance would have been affected by interest rate changes implemented according to the terms of the loan program disclosure. The example shall reflect the most recent 15 years of index values. The example shall reflect all significant loan program terms, such as negative amortization, interest rate carryover, interest rate discounts, and interest rate and payment limitations, that would have been affected by the index movement during the period.

Information provided in accordance with variable-rate regulations of other federal agencies may be substituted for the disclosures required by paragraph (b) of this section.

Disclosures may be delivered or placed in the mail not later than three business days following receipt of a consumer’s application when the application reaches the creditor by telephone, or through an intermediary agent or broker.
§ 226.20 Subsequent disclosure requirements.

(a) Refinancings. A refinancing occurs when an existing obligation that was subject to this subpart is satisfied and replaced by a new obligation undertaken by the same consumer. A refinancing is a new transaction requiring new disclosures to the consumer. The new finance charge shall include any unearned portion of the old finance charge that is not credited to the existing obligation. The following shall not be treated as a refinancing:

1. A renewal of a single payment obligation with no change in the original terms.

2. A reduction in the annual percentage rate with a corresponding change in the payment schedule.

3. An agreement involving a court proceeding.

4. A change in the payment schedule or a change in collateral requirements as a result of the consumer’s default or delinquency, unless the rate is increased, or the new amount financed exceeds the unpaid balance plus earned finance charge and premiums for continuation of insurance of the types described in §226.4(d).

5. The renewal of optional insurance purchased by the consumer and added to an existing transaction, if disclosures relating to the initial purchase were provided as required by this subpart.

(b) Assumptions. An assumption occurs when a creditor expressly agrees in writing with a subsequent consumer to accept that consumer as a primary obligor on an existing residential mortgage transaction. Before the assumption occurs, the creditor shall make new disclosures to the subsequent consumer, based on the remaining obligation. If the finance charge originally imposed on the existing obligation was an add-on or discount finance charge, the creditor need only disclose:

1. The unpaid balance of the obligation assumed.

2. The total charges imposed by the creditor in connection with the assumption.

3. The information required to be disclosed under §226.18(k), (l), (m), and (n).

4. The annual percentage rate originally imposed on the obligation.

5. The payment schedule under §226.18(g) and the total of payments under §226.18(h) based on the remaining obligation.

(c) Variable-rate adjustments. An adjustment to the interest rate with or without

\[45c\] Information provided in accordance with variable-rate subsequent disclosure regulations of other federal agencies may be substituted for the disclosure required by paragraph (c) of this section.
§ 226.22 Determination of annual percentage rate.

(a) Accuracy of annual percentage rate.

(1) The annual percentage rate is a measure of the cost of credit, expressed as a yearly rate, that relates the amount and timing of value received by the consumer to the amount and timing of payments made. The annual percentage rate shall be determined in accordance with either the actuarial method or the United States Rule method. Explanations, equations and instructions for determining the annual percentage rate in accordance with the actuarial method are set forth in appendix J to this regulation. 45d

(2) As a general rule, the annual percentage rate shall be considered accurate if it is not more than 1⁄8 of 1 percentage point above or below the annual percentage rate determined in accordance with paragraph (a)(1) of this section.

(3) In an irregular transaction, the annual percentage rate shall be considered accurate if it is not more than 1⁄4 of 1 percentage point above or below the annual percentage rate determined in accordance with paragraph (a)(1) of this section. 46

(4) Mortgage loans. If the annual percentage rate disclosed in a transaction secured by real property or a dwelling varies from the actual rate determined in accordance with paragraph (a)(1) of this section, in addition to the tolerances applicable under paragraphs (a)(2) and (3) of this section, the disclosed annual percentage rate shall also be considered accurate if:

(i) The rate results from the disclosed finance charge; and

(ii) The rate is determined in accordance with paragraph (a)(1) of this section.

45d An error in disclosure of the annual percentage rate or finance charge shall not, in itself, be considered a violation of this regulation if: (1) The error resulted from a corresponding error in a calculation tool used in good faith by the creditor; and (2) upon discovery of the error, the creditor promptly discontinues use of that calculation tool.

46 For purposes of paragraph (a)(3) of this section, an irregular transaction is one that includes one or more of the following features: multiple advances, irregular payment periods, or irregular payment amounts (other than an irregular first period or an irregular first or final payment).
(ii)(A) The disclosed finance charge would be considered accurate under §226.18(d)(1); or
(B) For purposes of rescission, if the disclosed finance charge would be considered accurate under §226.23(g) or (h), whichever applies.

(5) Additional tolerance for mortgage loans. In a transaction secured by real property or a dwelling, in addition to the tolerances applicable under paragraphs (a)(2) and (3) of this section, if the disclosed finance charge is calculated incorrectly but is considered accurate under §226.18(d)(1) or §226.23(g) or (h), the disclosed annual percentage rate shall be considered accurate:

(i) If the disclosed finance charge is understated, and the disclosed annual percentage rate is also understated but it is closer to the actual annual percentage rate than the rate that would be considered accurate under paragraph (a)(4) of this section;

(ii) If the disclosed finance charge is overstated, and the disclosed annual percentage rate is also overstated but it is closer to the actual annual percentage rate than the rate that would be considered accurate under paragraph (a)(4) of this section.

(b) Computation tools. (1) The Regulation Z Annual Percentage Rate Tables produced by the Board may be used to determine the annual percentage rate, and any rate determined from those tables in accordance with the accompanying instructions complies with the requirements of this section. Volume I of the tables applies to single advance transactions involving up to 480 monthly payments or 104 weekly payments. It may be used for regular transactions and for transactions with any of the following irregularities: an irregular first period, an irregular first payment, and an irregular final payment. Volume II of the tables applies to transactions involving multiple advances and any type of payment or period irregularity.

(2) Creditors may use any other computation tool in determining the annual percentage rate if the rate so determined equals the rate determined in accordance with appendix J, within the degree of accuracy set forth in paragraph (a) of this section.

(c) Single add-on rate transactions. If a single add-on rate is applied to all transactions with maturities up to 60 months and if all payments are equal in amount and period, a single annual percentage rate may be disclosed for all those transactions, so long as it is the highest annual percentage rate for any such transaction.

(d) Certain transactions involving ranges of balances. For purposes of disclosing the annual percentage rate referred to in §226.17(g)(4) (Mail or telephone orders—delay in disclosures) and (h) (Series of sales—delay in disclosures), if the same finance charge is imposed on all balances within a specified range of balances, the annual percentage rate computed for the median balance may be disclosed for all the balances. However, if the annual percentage rate computed for the median balance understates the annual percentage rate computed for the lowest balance by more than 8 percent of the latter rate, the annual percentage rate shall be computed on whatever lower balance will produce an annual percentage rate that does not result in an understatement of more than 8 percent of the rate determined on the lowest balance.

§ 226.23 Right of rescission.

(a) Consumer’s right to rescind. (1) In a credit transaction in which a security interest is or will be retained or acquired in a consumer’s principal dwelling, each consumer whose ownership interest is or will be subject to the security interest shall have the right to rescind the transaction, except for transactions described in paragraph (f) of this section. 47

47For purposes of this section, the addition to an existing obligation of a security interest in a consumer’s principal dwelling is a transaction. The right of rescission applies only to the addition of the security interest and not the existing obligation. The creditor shall deliver the notice required by paragraph (b) of this section but need not deliver new material disclosures. Delivery of the required notice shall begin the rescission period.
(2) To exercise the right to rescind, the consumer shall notify the creditor of the rescission by mail, telegram or other means of written communication. Notice is considered given when mailed, when filed for telegraphic transmission or, if sent by other means, when delivered to the creditor’s designated place of business.

(3) The consumer may exercise the right to rescind until midnight of the third business day following consummation, delivery of the notice required by paragraph (b) of this section, or delivery of all material disclosures, \(^{48}\) whichever occurs last. If the required notice or material disclosures are not delivered, the right to rescind shall expire 3 years after consummation, upon transfer of all of the consumer’s interest in the property, or upon sale of the property, whichever occurs first. In the case of certain administrative proceedings, the rescission period shall be extended in accordance with section 125(f) of the Act.

(4) When more than one consumer in a transaction has the right to rescind, the exercise of the right by one consumer shall be effective as to all consumers.

(b)(1) Notice of right to rescind. In a transaction subject to rescission, a creditor shall deliver two copies of the notice of the right to rescind to each consumer entitled to rescind (one copy to each if the notice is delivered in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act). The notice shall be on a separate document that identifies the transaction and shall clearly and conspicuously disclose the following:

(i) The retention or acquisition of a security interest in the consumer’s principal dwelling.

(ii) The consumer’s right to rescind the transaction.

(iii) How to exercise the right to rescind, with a form for that purpose, designating the address of the creditor’s place of business.

(iv) The effects of rescission, as described in paragraph (d) of this section.

(v) The date the rescission period expires.

(2) Proper form of notice. To satisfy the disclosure requirements of paragraph (b)(1) of this section, the creditor shall provide the appropriate model form in Appendix H of this part or a substantially similar notice.

(c) Delay of creditor’s performance. Unless a consumer waives the right of rescission under paragraph (e) of this section, no money shall be disbursed other than in escrow, no services shall be performed and no materials delivered until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded.

(d) Effects of rescission. (1) When a consumer rescinds a transaction, the security interest giving rise to the right of rescission becomes void and the consumer shall not be liable for any amount, including any finance charge.

(2) Within 20 calendar days after receipt of a notice of rescission, the creditor shall return any money or property that has been given to anyone in connection with the transaction and shall take any action necessary to reflect the termination of the security interest.

(3) If the creditor has delivered any money or property, the consumer may retain possession until the creditor has met its obligation under paragraph (d)(2) of this section. When the creditor has complied with that paragraph, the consumer shall tender the money or property to the creditor or, where the latter would be impracticable or inequitable, tender its reasonable value. At the consumer’s option, tender of property may be made at the location of the property or at the consumer’s residence. Tender of money must be made at the creditor’s designated place of business. If the creditor does not take possession of the money or property within 20 calendar days after the consumer’s tender, the consumer may keep it without further obligation.

(4) The procedures outlined in paragraphs (d) (2) and (3) of this section may be modified by court order.

\(^{48}\) The term ‘material disclosures’ means the required disclosures of the annual percentage rate, the finance charge, the amount financed, the total of payments, the payment schedule, and the disclosures and limitations referred to in §§226.32(c) and (d) and 226.35(b)(2).
(e) Consumer’s waiver of right to rescind. (1) The consumer may modify or waive the right to rescind if the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency. To modify or waive the right, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the right to rescind, and bears the signature of all the consumers entitled to rescind. Printed forms for this purpose are prohibited, except as provided in paragraph (e)(2) of this section.

(2) The need of the consumer to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1993, pursuant to 42 U.S.C. 5170, to be a major disaster area because of severe storms and flooding in the Midwest. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(3) The consumer’s need to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during June through September 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in the South. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(4) The consumer’s need to obtain funds immediately shall be regarded as a bona fide personal financial emergency provided that the dwelling securing the extension of credit is located in an area declared during October 1994 to be a major disaster area, pursuant to 42 U.S.C. 5170, because of severe storms and flooding in Texas. In this instance, creditors may use printed forms for the consumer to waive the right to rescind. This exemption to paragraph (e)(1) of this section shall expire one year from the date an area was declared a major disaster.

(f) Exempt transactions. The right to rescind does not apply to the following:

(1) A residential mortgage transaction.

(2) A refinancing or consolidation by the same creditor of an extension of credit already secured by the consumer’s principal dwelling. The right of rescission shall apply, however, to the extent the new amount financed exceeds the unpaid principal balance, any earned unpaid finance charge on the existing debt, and amounts attributed solely to the costs of the refinancing or consolidation.

(3) A transaction in which a state agency is a creditor.

(4) An advance, other than an initial advance, in a series of advances or in a series of single-payment obligations that is treated as a single transaction under §226.17(c)(6), if the notice required by paragraph (b) of this section and all material disclosures have been given to the consumer.

(5) A renewal of optional insurance premiums that is not considered a refinancing under §226.20(a)(5).

(g) Tolerances for accuracy—(1) One-half of 1 percent tolerance. Except as provided in paragraphs (g)(2) and (h)(2) of this section, the finance charge and other disclosures affected by the finance charge (such as the amount financed and the annual percentage rate) shall be considered accurate for purposes of this section if the disclosed finance charge:  

A list of the affected areas will be maintained and published by the Board. Such areas now include parts of Alabama, Florida, and Georgia.
§ 226.24 Advertising.

(a) Actually available terms. If an advertisement for credit states specific credit terms, it shall state only those terms that actually are or will be arranged or offered by the creditor.

(b) Clear and conspicuous standard. Disclosures required by this section shall be made clearly and conspicuously.

(c) Advertisement of rate of finance charge. If an advertisement states a rate of finance charge, it shall state the rate as an “annual percentage rate,” using that term. If the annual percentage rate may be increased after consummation, the advertisement shall state that fact. If an advertisement is for credit not secured by a dwelling, the advertisement shall not state any other rate, except that a simple annual rate or periodic rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate. If an advertisement is for credit secured by a dwelling, the advertisement shall not state any other rate, except that a simple annual rate that is applied to an unpaid balance may be stated in conjunction with, but not more conspicuously than, the annual percentage rate.

(d) Advertisement of terms that require additional disclosures—(1) Triggering terms. If any of the following terms is set forth in an advertisement, the advertisement shall meet the requirements of paragraph (d)(2) of this section:

(i) The amount or percentage of any downpayment.

(ii) The number of payments or period of repayment.

(iii) The amount of any payment.

(iv) The amount of any finance charge.

(2) Additional terms. An advertisement stating any of the terms in paragraph (d)(1) of this section shall state the following terms, as applicable (an example of one or more typical extensions of credit with a statement of all the terms applicable to each may be used):

(i) The amount or percentage of the downpayment.
§ 226.24

(ii) The terms of repayment, which reflect the repayment obligations over the full term of the loan, including any balloon payment.

(iii) The “annual percentage rate,” using that term, and, if the rate may be increased after consummation, that fact.

(e) Catalogs or other multiple-page advertisements; electronic advertisements—

(1) If a catalog or other multiple-page advertisement, or an electronic advertisement (such as an advertisement appearing on an Internet Web site), gives information in a table or schedule in sufficient detail to permit determination of the disclosures required by paragraph (d)(2) of this section, it shall be considered a single advertisement if—

(i) The table or schedule is clearly and conspicuously set forth; and

(ii) Any statement of the credit terms in paragraph (d)(1) of this section appearing anywhere else in the catalog or advertisement clearly refers to the page or location where the table or schedule begins.

(2) A catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site) complies with paragraph (d)(2) of this section if the table or schedule of terms includes all appropriate disclosures for a representative scale of amounts up to the level of the more commonly sold higher-priced property or services offered.

(f) Disclosure of Rates and Payments in Advertisements for Credit Secured by a Dwelling.

(1) Scope. The requirements of this paragraph apply to any advertisement for credit secured by a dwelling, other than television or radio advertisements, including promotional materials accompanying applications.

(2) Disclosure of rates—(i) In general. If an advertisement for credit secured by a dwelling states a simple annual rate of interest and more than one simple annual rate of interest will apply over the term of the advertised loan, the advertisement shall disclose in a clear and conspicuous manner:

(A) Each simple annual rate of interest that will apply. In variable-rate transactions, a rate determined by adding an index and margin shall be disclosed based on a reasonably current index and margin;

(B) The period of time during which each simple annual rate of interest will apply; and

(C) The annual percentage rate for the loan. If such rate is variable, the annual percentage rate shall comply with the accuracy standards in §§ 226.17(c) and 226.22.

(ii) Clear and conspicuous requirement. For purposes of paragraph (f)(2)(i) of this section, clearly and conspicuously disclosed means that the required information in paragraphs (f)(2)(i)(A) through (C) shall be disclosed with equal prominence and in close proximity to any advertised rate that triggered the required disclosures. The required information in paragraph (f)(2)(i)(C) may be disclosed with greater prominence than the other information.

(3) Disclosure of payments—(i) In general. In addition to the requirements of paragraph (c) of this section, if an advertisement for credit secured by a dwelling states the amount of any payment, the advertisement shall disclose in a clear and conspicuous manner:

(A) The amount of each payment that will apply over the term of the loan, including any balloon payment. In variable-rate transactions, payments that will be determined based on the application of the sum of an index and margin shall be disclosed based on a reasonably current index and margin;

(B) The period of time during which each payment will apply; and

(C) In an advertisement for credit secured by a first lien on a dwelling, the fact that the payments do not include amounts for taxes and insurance premiums, if applicable, and that the actual payment obligation will be greater.

(ii) Clear and conspicuous requirement. For purposes of paragraph (f)(3)(i) of this section, a clear and conspicuous disclosure means that the required information in paragraphs (f)(3)(i)(A) and (B) shall be disclosed with equal prominence and in close proximity to any advertised payment that triggered the required disclosures, and that the required information in paragraph
Federal Reserve System § 226.24

(f)(3)(i)(C) shall be disclosed with prominence and in close proximity to the advertised payments.

(4) Envelope excluded. The requirements in paragraphs (f)(2) and (f)(3) of this section do not apply to an envelope in which an application or solicitation is mailed, or to a banner advertisement or pop-up advertisement linked to an application or solicitation provided electronically.

(g) Alternative disclosures—television or radio advertisements. An advertisement made through television or radio stating any of the terms requiring additional disclosures under paragraph (d)(2) of this section may comply with paragraph (d)(2) of this section either by:

(1) Stating clearly and conspicuously each of the additional disclosures required under paragraph (d)(2) of this section; or

(2) Stating clearly and conspicuously the information required by paragraph (d)(2)(iii) of this section and listing a toll-free telephone number, or any telephone number that allows a consumer to reverse the phone charges when calling for information, along with a reference that such number may be used by consumers to obtain additional cost information.

(h) Tax implications. If an advertisement distributed in paper form or through the Internet (rather than by radio or television) is for a loan secured by the consumer’s principal dwelling, and the advertisement states that the advertised extension of credit may exceed the fair market value of the dwelling, the advertisement shall clearly and conspicuously state that:

(1) The interest on the portion of the credit extension that is greater than the fair market value of the dwelling is not tax deductible for Federal income tax purposes; and

(2) The consumer should consult a tax adviser for further information regarding the deductibility of interest and charges.

(i) Prohibited acts or practices in advertisements for credit secured by a dwelling. The following acts or practices are prohibited in advertisements for credit secured by a dwelling:

(1) Misleading advertising of “fixed” rates and payments. Using the word “fixed” to refer to rates, payments, or the credit transaction in an advertisement for variable-rate transactions or other transactions where the payment will increase, unless:

(i) In the case of an advertisement solely for one or more variable-rate transactions,

(A) The phrase “Adjustable-Rate Mortgage,” “Variable-Rate Mortgage,” or “ARM” appears in the advertisement before the first use of the word “fixed” and is as at least as conspicuous as any use of the word “fixed” in the advertisement; and

(B) Each use of the word “fixed” to refer to a rate or payment is accompanied by an equally prominent and closely proximate statement of the time period for which the rate or payment is fixed, and the fact that the rate may vary or the payment may increase after that period;

(ii) In the case of an advertisement solely for non-variable-rate transactions where the payment will increase (e.g., a stepped-rate mortgage transaction with an initial lower payment), each use of the word “fixed” to refer to the payment is accompanied by an equally prominent and closely proximate statement of the time period for which the payment is fixed, and the fact that the payment will increase after that period; or

(iii) In the case of an advertisement for both variable-rate transactions and non-variable-rate transactions,

(A) The phrase “Adjustable-Rate Mortgage,” “Variable-Rate Mortgage,” or “ARM” appears in the advertisement with equal prominence as any use of the term “fixed,” “Fixed-Rate Mortgage,” or similar terms; and

(B) Each use of the word “fixed” to refer to a rate, payment, or the credit transaction either refers solely to the transactions for which rates are fixed and complies with paragraph (i)(1)(ii) of this section, if applicable, or, if it refers to the variable-rate transactions, is accompanied by an equally prominent and closely proximate statement of the time period for which the rate or payment is fixed, and the fact that the rate may vary or the payment may increase after that period.

(2) Misleading comparisons in advertisements. Making any comparison in an
advertisement between actual or hypothetical credit payments or rates and any payment or simple annual rate that will be available under the advertised product for a period less than the full term of the loan, unless:

(i) In general. The advertisement includes a clear and conspicuous comparison to the information required to be disclosed under sections 226.24(f)(2) and (3); and

(ii) Application to variable-rate transactions. If the advertisement is for a variable-rate transaction, and the advertised payment or simple annual rate is based on the index and margin that will be used to make subsequent rate or payment adjustments over the term of the loan, the advertisement includes an equally prominent statement in close proximity to the payment or rate that the payment or rate is subject to adjustment and the time period when the first adjustment will occur.

(3) Misrepresentations about government endorsement. Making any statement in an advertisement that the product offered is a “government loan program”, “government-supported loan”, or is otherwise endorsed or sponsored by any federal, state, or local government entity, unless the advertisement is for an FHA loan, VA loan, or similar loan program that is, in fact, endorsed or sponsored by a federal, state, or local government entity.

(4) Misleading use of the current lender’s name. Using the name of the consumer’s current lender in an advertisement that is not sent by or on behalf of the consumer’s current lender, unless the advertisement:

(i) Discloses with equal prominence the name of the person or creditor making the advertisement; and

(ii) Includes a clear and conspicuous statement that the person making the advertisement is not associated with, or acting on behalf of, the consumer’s current lender.

(5) Misleading claims of debt elimination. Making any misleading claim in an advertisement that the mortgage product offered will eliminate debt or result in a waiver or forgiveness of a consumer’s existing loan terms with, or obligations to, another creditor.

(6) Misleading use of the term “counselor”. Using the term “counselor” in an advertisement to refer to a for-profit mortgage broker or mortgage creditor, its employees, or persons working for the broker or creditor that are involved in offering, originating or selling mortgages.

(7) Misleading foreign-language advertisements. Providing information about some trigger terms or required disclosures, such as an initial rate or payment, only in a foreign language in an advertisement, but providing information about other trigger terms or required disclosures, such as information about the fully-indexed rate or fully amortizing payment, only in English in the same advertisement.

Subpart D—Miscellaneous

§ 226.25 Record retention.

(a) General rule. A creditor shall retain evidence of compliance with this regulation (other than advertising requirements under §§ 226.16 and 226.24) for 2 years after the date disclosures are required to be made or action is required to be taken. The administrative agencies responsible for enforcing the regulation may require creditors under their jurisdictions to retain records for a longer period if necessary to carry out their enforcement responsibilities under section 108 of the act.

(b) Inspection of records. A creditor shall permit the agency responsible for enforcing this regulation with respect to that creditor to inspect its relevant records for compliance.

§ 226.26 Use of annual percentage rate in oral disclosures.

(a) Open-end credit. In an oral response to a consumer’s inquiry about the cost of open-end credit, only the annual percentage rate or rates shall be stated, except that the periodic rate or rates also may be stated. If the annual percentage rate cannot be determined in advance because there are finance charges other than a periodic rate, the corresponding annual percentage rate shall be stated, and other cost information may be given.

(b) Closed-end credit. In an oral response to a consumer’s inquiry about
the cost of closed-end credit, only the annual percentage rate shall be stated, except that a simple annual rate or periodic rate also may be stated if it is applied to an unpaid balance. If the annual percentage rate cannot be determined in advance, the annual percentage rate for a sample transaction shall be stated, and other cost information for the consumer's specific transaction may be given.

§ 226.28 Effect on State laws.

(a) Inconsistent disclosure requirements.

(1) Except as provided in paragraph (d) of this section, State law requirements that are inconsistent with the requirements contained in chapter 1 (General Provisions), chapter 2 (Credit Transactions), or chapter 3 (Credit Advertising) of the Act and the implementing provisions of this regulation are preempted to the extent of the inconsistency. A State law is inconsistent if it requires a creditor to make disclosures or take actions that contradict the requirements of the Federal law. A State law is contradictory if it requires the use of the same term to represent a different amount or a different meaning than the Federal law, or if it requires the use of a term different from that required in the Federal law to describe the same item. A creditor, State, or other interested party may request the Board to determine whether a State law requirement is inconsistent. After the Board determines that a State law requirement is inconsistent, a creditor, State, or other interested party may request the Board to determine whether a State law requirement is inconsistent.

(2)(i) State law requirements are inconsistent with the requirements contained in sections 161 (Correction of billing errors) or 162 (Regulation of credit reports) of the Act and the implementing provisions of this regulation and are preempted if they provide rights, responsibilities, or procedures for consumers or creditors that are different from those required by the Federal law. However, a State law that allows a consumer to inquire about an open-end credit account and imposes on the creditor an obligation to respond to such inquiry after the time allowed in the Federal law for the consumer to submit written notice of a billing error shall not be preempted in any situation where the time period for making written notice of a billing error under this regulation has expired. If a creditor gives written notice of a consumer's rights under such State law, the notice shall state that reliance on the longer time period available under State law may result in the loss of important rights that could be preserved by acting more promptly under Federal law; it shall also explain that the State law provisions apply only after expiration of the time period for submitting a proper written notice of a billing error under the Federal law. If the State disclosures are made on the same side of a page as the required Federal disclosures, the State disclosures shall appear under a demarcation line below the Federal disclosures, and the Federal disclosures shall be identified by a heading indicating that they are made in compliance with Federal law.

(ii) State law requirements are inconsistent with the requirements contained in chapter 4 (Credit billing) of the Act (other than section 161 or 162) and the implementing provisions of this regulation and are preempted if the creditor cannot comply with State law without violating Federal law.

(iii) A State may request the Board to determine whether its law is inconsistent with chapter 4 of the Act and its implementing provisions.

(b) Equivalent disclosure requirements. If the Board determines that a disclosure required by state law (other than a requirement relating to the finance charge, annual percentage rate, or the disclosures required under §226.32) is substantially the same in meaning as a disclosure required under the act or this regulation, creditors in that state may make the state disclosure in lieu of the federal disclosure. A creditor, State, or other interested party may
§ 226.29 State exemptions.

(a) General rule. Any State may apply to the Board to exempt a class of transactions within the State from the requirements of chapter 2 (Credit transactions) or chapter 4 (Credit billing) of the Act and the corresponding provisions of this regulation. The Board shall grant an exemption if it determines that:

(1) The State law is substantially similar to the Federal law or, in the case of chapter 4, affords the consumer greater protection than the Federal law; and

(2) There is adequate provision for enforcement.

(b) Civil liability. (1) No exemptions granted under this section shall extend to the civil liability provisions of sections 130 and 131 of the Act.

(2) If an exemption has been granted, the disclosures required by the applicable State law (except any additional requirements not imposed by Federal law) shall constitute the disclosures required by this Act.

(c) Applications. The procedures under which a State may apply for an exemption under this section are set forth in appendix B.

[46 FR 20892, Apr. 7, 1981; 46 FR 29246, June 1, 1981]

§ 226.30 Limitation on rates.

A creditor shall include in any consumer credit contract secured by a dwelling and subject to the Act and this regulation the maximum interest rate that may be imposed during the term of the obligation when:

(a) In the case of closed-end credit, the annual percentage rate may increase after consummation, or

(b) In the case of open-end credit, the annual percentage rate may increase during the plan.

Subpart E—Special Rules for Certain Home Mortgage Transactions

SOURCE: Reg. Z, 60 FR 15471, Mar. 24, 1995, unless otherwise noted.

§ 226.31 General rules.

(a) Relation to other subparts in this part. The requirements and limitations of this subpart are in addition to and not in lieu of those contained in other subparts of this part.

(b) Form of disclosures. The creditor shall make the disclosures required by this subpart clearly and conspicuously in writing, in a form that the consumer may keep. The disclosures required by this subpart may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. § 7001 et seq.).

(c) Timing of disclosure—(1) Disclosures for certain closed-end home mortgages. The creditor shall furnish the disclosures required by §226.32 at least three business days prior to consummation of a mortgage transaction covered by §226.32.

(i) Change in terms. After complying with paragraph (c)(1) of this section and prior to consummation, if the creditor changes any term that makes the
disclosures inaccurate, new disclosures shall be provided in accordance with the requirements of this subpart.

(ii) Telephone disclosures. A creditor may provide new disclosures by telephone if the consumer initiates the change and if, at consummation:

(A) The creditor provides new written disclosures; and

(B) The consumer and creditor sign a statement that the new disclosures were provided by telephone at least three days prior to consummation.

(iii) Consumer's waiver of waiting period before consummation. The consumer may, after receiving the disclosures required by paragraph (c)(1) of this section, modify or waive the three-day waiting period between delivery of those disclosures and consummation if the consumer determines that the extension of credit is needed to meet a bona fide personal financial emergency. To modify or waive the right, the consumer shall give the creditor a dated written statement that describes the emergency, specifically modifies or waives the waiting period, and bears the signature of all the consumers entitled to the waiting period. Printed forms for this purpose are prohibited, except when creditors are permitted to use printed forms pursuant to §226.23(e)(2).

(2) Disclosures for reverse mortgages. The creditor shall furnish the disclosures required by §226.33 at least three business days prior to:

(i) Consummation of a closed-end credit transaction; or

(ii) The first transaction under an open-end credit plan.

(d) Basis of disclosures and use of estimates—(1) Legal Obligation. Disclosures shall reflect the terms of the legal obligation between the parties.

(2) Estimates. If any information necessary for an accurate disclosure is unknown to the creditor, the creditor shall make the disclosure based on the best information reasonably available at the time the disclosure is provided, and shall state clearly that the disclosure is an estimate.

(3) Per-diem interest. For a transaction in which a portion of the interest is determined on a per-diem basis and collected at consummation, any disclosure affected by the per-diem interest shall be considered accurate if the disclosure is based on the information known to the creditor at the time that the disclosure documents are prepared.

(e) Multiple creditors; multiple consumers. If a transaction involves more than one creditor, only one set of disclosures shall be given and the creditors shall agree among themselves which creditor must comply with the requirements that this part imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who is primarily liable on the obligation. If the transaction is rescindable under §226.15 or §226.23, however, the disclosures shall be made to each consumer who has the right to rescind.

(f) Effect of subsequent events. If a disclosure becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of Regulation Z (12 CFR part 226), although new disclosures may be required for mortgages covered by §226.32 under paragraph (c) of this section, §226.9(c), §226.19, or §226.20.

(g) Accuracy of annual percentage rate. For purposes of §226.32, the annual percentage rate shall be considered accurate, and may be used in determining whether a transaction is covered by §226.32, if it is accurate according to the requirements and within the tolerances under §226.22. The finance charge tolerances for rescission under §226.23(g) or (h) shall not apply for this purpose.
comparable periods of maturity to the loan maturity as of the fifteenth day of the month immediately preceding the month in which the application for the extension of credit is received by the creditor; or

(ii) The total points and fees payable by the consumer at or before loan closing will exceed the greater of 8 percent of the total loan amount, or $400; the $400 figure shall be adjusted annually on January 1 by the annual percentage change in the Consumer Price Index that was reported on the preceding June 1.

(2) This section does not apply to the following:

(i) A residential mortgage transaction.

(ii) A reverse mortgage transaction subject to §226.33.

(iii) An open-end credit plan subject to subpart B of this part.

(b) Definitions. For purposes of this subpart, the following definitions apply:

(1) For purposes of paragraph (a)(1)(ii) of this section, points and fees means:

(i) All items required to be disclosed under §226.4(a) and 226.4(b), except interest or the time-price differential;

(ii) All compensation paid to mortgage brokers;

(iii) All items listed in §226.4(c)(7) (other than amounts held for future payment of taxes) unless the charge is reasonable, the creditor receives no direct or indirect compensation in connection with the charge, and the charge is not paid to an affiliate of the creditor; and

(iv) Premiums or other charges for credit life, accident, health, or loss-of-income insurance, or debt-cancellation coverage (whether or not the debt-cancellation coverage is insurance under applicable law) that provides for cancellation of all or part of the consumer’s liability in the event of the loss of life, health, or income or in the case of accident, written in connection with the credit transaction.

(2) Affiliate means any company that controls, is controlled by, or is under common control with another company, as set forth in the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.).

(c) Disclosures. In addition to other disclosures required by this part, in a mortgage subject to this section, the creditor shall disclose the following in conspicuous type size:

(1) Notices. The following statement: “You are not required to complete this agreement merely because you have received these disclosures or have signed a loan application. If you obtain this loan, the lender will have a mortgage on your home. You could lose your home, and any money you have put into it, if you do not meet your obligations under the loan.”

(2) Annual percentage rate. The annual percentage rate.

(3) Regular payment; balloon payment. The amount of the regular monthly (or other periodic) payment and the amount of any balloon payment. The regular payment disclosed under this paragraph shall be treated as accurate if it is based on an amount borrowed that is deemed accurate and is disclosed under paragraph (c)(5) of this section.

(4) Variable-rate. For variable-rate transactions, a statement that the interest rate and monthly payment may increase, and the amount of the single maximum monthly payment, based on the maximum interest rate required to be disclosed under §226.30.

(5) Amount borrowed. For a mortgage refinancing, the total amount the consumer will borrow, as reflected by the face amount of the note; and where the amount borrowed includes premiums or other charges for optional credit insurance or debt-cancellation coverage, that fact shall be stated, grouped together with the disclosure of the amount borrowed. The disclosure of the amount borrowed shall be treated as accurate if it is not more than $100 above or below the amount required to be disclosed.

(d) Limitations. A mortgage transaction subject to this section shall not include the following terms:

(1)(i) Balloon payment. For a loan with a term of less than five years, a payment schedule with regular periodic payments that when aggregated do not fully amortize the outstanding principal balance.

(ii) Exception. The limitations in paragraph (d)(1)(i) of this section do
Federal Reserve System

§ 226.33 Requirements for reverse mortgages.

(a) Definition. For purposes of this subpart, reverse mortgage transaction means a nonrecourse consumer credit obligation in which:

(1) A mortgage, deed of trust, or equivalent consensual security interest securing one or more advances is created in the consumer’s principal dwelling;

(2) Any principal, interest, or shared appreciation or equity is due and payable (other than in the case of default) only after:

(i) The consumer dies;

(ii) The dwelling is transferred; or

(iii) The consumer ceases to occupy the dwelling as a principal dwelling.

(b) Content of disclosures. In addition to other disclosures required by this part, in a reverse mortgage transaction the creditor shall provide the following disclosures in a form substantially similar to the model form found in paragraph (d) of appendix K of this part:

(1) Notice. A statement that the consumer is not obligated to complete the reverse mortgage transaction merely because the consumer has received the disclosures required by this section or has signed an application for a reverse mortgage loan.

(2) Negative amortization. A payment schedule with regular periodic payments that cause the principal balance to increase.

(3) Advance payments. A payment schedule that consolidates more than two periodic payments and pays them in advance from the proceeds.

(4) Increased interest rate. An increase in the interest rate after default.

(5) Rebates. A refund calculated by a method less favorable than the actuarial method (as defined by section 933(d) of the Housing and Community Development Act of 1992, 15 U.S.C. 1615(d)), for rebates of interest arising from a loan acceleration due to default.

(6) Prepayment penalties. Except as allowed under paragraph (d)(7) of this section, a penalty for paying all or part of the principal before the date on which the principal is due. A prepayment penalty includes computing a refund of unearned interest by a method that is less favorable to the consumer than the actuarial method, as defined by section 933(d) of the Housing and Community Development Act of 1992, 15 U.S.C. 1615(d).

(7) Prepayment penalty exception. A mortgage transaction subject to this section may provide for a prepayment penalty (including a refund calculated according to the rule of 78s) otherwise permitted by law if, under the terms of the loan:

(i) The penalty will not apply after the two-year period following consummation;

(ii) The penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or an affiliate of the creditor;

(iii) At consummation, the consumer’s total monthly debt payments (including amounts owed under the mortgage) do not exceed 50 percent of the consumer’s monthly gross income, as verified in accordance with § 226.34(a)(4)(ii); and

(iv) The amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation.

(8) Due-on-demand clause. A demand feature that permits the creditor to terminate the loan in advance of the original maturity date and to demand repayment of the entire outstanding balance, except in the following circumstances:

(i) There is fraud or material misrepresentation by the consumer in connection with the loan;

(ii) The consumer fails to meet the repayment terms of the agreement for any outstanding balance; or

(iii) There is any action or inaction by the consumer that adversely affects the creditor’s security for the loan, or any right of the creditor in such security.

§ 226.34 Prohibited acts or practices in connection with credit subject to § 226.32.

(a) Prohibited acts or practices for loans subject to § 226.32. A creditor extending mortgage credit subject to § 226.32 shall not—

1. Home improvement contracts. Pay a contractor under a home improvement contract from the proceeds of a mortgage covered by § 226.32, other than:

(i) By an instrument payable to the consumer or jointly to the consumer and the contractor;

(ii) At the election of the consumer, through a third-party escrow agent in accordance with terms established in a written agreement signed by the consumer, the creditor, and the contractor prior to the disbursement.

2. Notice to assignee. Sell or otherwise assign a mortgage subject to § 226.32 without furnishing the following statement to the purchaser or assignee: "Notice: This is a mortgage subject to special rules under the Federal Truth in Lending Act. Purchasers or assignees of this mortgage could be liable for all claims and defenses with respect to the mortgage that the borrower could assert against the creditor."

3. Refinancings within one-year period. Within one year of having extended credit subject to § 226.32, refinance any loan subject to § 226.32 to the same borrower into another loan subject to § 226.32, unless the refinancing is in the borrower's interest. An assignee holding or servicing an extension of mortgage credit subject to § 226.32, shall not, for the remainder of the one-year period following the date of origination of the credit, refinance any loan subject to § 226.32 to the same borrower into another loan subject to § 226.32,
unless the refinancing is in the borrower's interest. A creditor (or assignee) is prohibited from engaging in acts or practices to evade this provision, including a pattern or practice of arranging for the refinancing of its own loans by affiliated or unaffiliated creditors, or modifying a loan agreement (whether or not the existing loan is satisfied and replaced by the new loan) and charging a fee.

(4) Repayment ability. Extend credit subject to §226.32 to a consumer based on the value of the consumer's collateral without regard to the consumer's repayment ability as of consummation, including the consumer's current and reasonably expected income, employment, assets other than the collateral, current obligations, and mortgage-related obligations.

(i) Mortgage-related obligations. For purposes of this paragraph (a)(4), mortgage-related obligations are expected property taxes, premiums for mortgage-related insurance required by the creditor as set forth in §226.35(b)(3)(i), and similar expenses.

(ii) Verification of repayment ability. Under this paragraph (a)(4) a creditor must verify the consumer's repayment ability as follows:

(A) A creditor must verify amounts of income or assets that it relies on to determine repayment ability, including expected income or assets, by the consumer's Internal Revenue Service Form W–2, tax returns, payroll receipts, financial institution records, or other third-party documents that provide reasonably reliable evidence of the consumer’s income or assets.

(B) Notwithstanding paragraph (a)(4)(ii)(A), a creditor has not violated paragraph (a)(4)(ii) if the amounts of income and assets that the creditor relied upon in determining repayment ability are not materially greater than the amounts of the consumer's income or assets that the creditor could have verified pursuant to paragraph (a)(4)(ii)(A) at the time the loan was consummated.

(C) A creditor must verify the consumer’s current obligations.

(iii) Presumption of compliance. A creditor is presumed to have complied with this paragraph (a)(4) with respect to a transaction if the creditor:

(A) Verifies the consumer’s repayment ability as provided in paragraph (a)(4)(i); (B) Determines the consumer’s repayment ability using the largest payment of principal and interest scheduled in the first seven years following consummation and taking into account current obligations and mortgage-related obligations as defined in paragraph (a)(4)(i); and

(C) Assesses the consumer’s repayment ability taking into account at least one of the following: The ratio of total debt obligations to income, or the income the consumer will have after paying debt obligations.

(iv) Exclusions from presumption of compliance. Notwithstanding the previous paragraph, no presumption of compliance is available for a transaction for which:

(A) The regular periodic payments for the first seven years would cause the principal balance to increase; or

(B) The term of the loan is less than seven years and the regular periodic payments when aggregated do not fully amortize the outstanding principal balance.

(v) Exemption. This paragraph (a)(4) does not apply to temporary or "bridge" loans with terms of twelve months or less, such as a loan to purchase a new dwelling where the consumer plans to sell a current dwelling within twelve months.

(b) Prohibited acts or practices for dwelling-secured loans; open-end credit. In connection with credit secured by the consumer’s dwelling that does not meet the definition in §226.2(a)(20), a creditor shall not structure a home-secured loan as an open-end plan to evade the requirements of §226.32.

§226.35 Prohibited acts or practices in connection with higher-priced mortgage loans.

(a) Higher-priced mortgage loans—(1) For purposes of this section, except as provided in paragraph (b)(3)(v) of this section, a higher-priced mortgage loan is a consumer credit transaction secured by the consumer’s principal dwelling with an annual percentage rate that exceeds the average prime
offer rate for a comparable transaction as of the date the interest rate is set by
1.5 or more percentage points for loans secured by a first lien on a dwelling, or
by 3.5 or more percentage points for loans secured by a subordinate lien on a dwelling.

(2) “Average prime offer rate” means an annual percentage rate that is de-
derived from average interest rates, points, and other loan pricing terms
currently offered to consumers by a representative sample of creditors for
mortgage transactions that have low-risk pricing characteristics. The Board
publishes average prime offer rates for a broad range of types of transactions
in a table updated at least weekly as well as the methodology the Board uses
to derive these rates.

(3) Notwithstanding paragraph (a)(1) of this section, the term “higher-priced
mortgage loan” does not include a transaction to finance the initial con-
struction of a dwelling, a temporary or “bridge” loan with a term of twelve
months or less, such as a loan to pur-
chase a new dwelling where the con-
sumer plans to sell a current dwelling
within twelve months, a reverse-mort-
gage transaction subject to § 226.33, or a
home equity line of credit subject to
§ 226.3b.

(b) Rules for higher-priced mortgage
loans. Higher-priced mortgage loans are
subject to the following restrictions:

(1) Repayment ability. A creditor shall
not extend credit based on the value of
the consumer’s collateral without re-
gard to the consumer’s repayment abil-
ity as of consummation as provided in
§ 226.34(a)(4).

(2) Prepayment penalties. A loan may
not include a penalty described by § 226.32(d)(6) unless:

(i) The penalty is otherwise per-
mitted by law, including § 226.32(d)(7) if the loan is a mortgage transaction de-
scribed in § 226.32(a); and

(ii) Under the terms of the loan—
(A) The penalty will not apply after
the two-year period following con-
summation;

(B) The penalty will not apply if the
source of the prepayment funds is a re-
financing by the creditor or an affiliate
of the creditor; and

(C) The amount of the periodic pay-
ment of principal or interest or both
may not change during the four-year period following consummation.

(3) Escrows—(i) Failure to escrow for
property taxes and insurance. Except as
provided in paragraph (b)(3)(ii) of this
section, a creditor may not extend a
loan secured by a first lien on a prin-
cipal dwelling unless an escrow ac-
count is established before consumma-
tion for payment of property taxes and
premiums for mortgage-related insur-
ance required by the creditor, such as
insurance against loss of or damage to
property, or against liability arising
out of the ownership or use of the prop-
erty, or insurance protecting the cred-
itor against the consumer’s default or
other credit loss.

(ii) Exemptions for loans secured by
shares in a cooperative and for certain
condominium units—(A) Escrow ac-
counts need not be established for
loans secured by shares in a coopera-
tive; and

(B) Insurance premiums described in
paragraph (b)(3)(i) of this section need
not be included in escrow accounts for
loans secured by condominium units,
where the condominium association
has an obligation to the condominium
unit owners to maintain a master pol-
cy insuring condominium units.

(iii) Cancellation. A creditor or
servicer may permit a consumer to
cancel the escrow account required in
paragraph (b)(3)(i) of this section only
in response to a consumer’s dated writ-
ten request to cancel the escrow ac-
count that is received no earlier than
365 days after consummation.

(iv) Definition of escrow account. For
purposes of this section, “escrow ac-
count” shall have the same meaning as
in 24 CFR 3500.17(b) as amended.

(v) “Jumbo” loans. For purposes of
this § 226.35(b)(3), for a transaction with
a principal obligation at consumma-
tion that exceeds the limit in effect as
of the date the transaction’s interest
rate is set for the maximum principal
obligation eligible for purchase by
Freddie Mac, the coverage threshold
set forth in paragraph (a)(1) of this sec-
tion for loans secured by a first lien on
a dwelling shall be 2.5 or more per-
centage points greater than the applicable
average prime offer rate.
Federal Reserve System § 226.36

(4) Evasion; open-end credit. In connection with credit secured by a consumer’s principal dwelling that does not meet the definition of open-end credit in §226.2(a)(20), a creditor shall not structure a home-secured loan as an open-end plan to evade the requirements of this section.

§ 226.36 Prohibited acts or practices in connection with credit secured by a dwelling.

(a) Loan originator and mortgage broker defined. (1) Loan originator. For purposes of this section, the term “loan originator” means with respect to a particular transaction, a person who for compensation or other monetary gain, or in expectation of compensation or other monetary gain, arranges, negotiates, or otherwise obtains an extension of consumer credit for another person. The term “loan originator” includes an employee of the creditor if the employee meets this definition. The term “loan originator” includes the creditor only if the creditor does not provide the funds for the transaction at consummation out of the creditor’s own resources, including drawing on a bona fide warehouse line of credit, or out of deposits held by the creditor.

(2) Mortgage broker. For purposes of this section, a mortgage broker with respect to a particular transaction is any loan originator that is not an employee of the creditor.

(b) [Reserved]

(c) Servicing practices. (1) In connection with a consumer credit transaction secured by a consumer’s principal dwelling, no servicer shall—

(i) Fail to credit a payment to the consumer’s loan account as of the date of receipt, except when a delay in crediting does not result in any charge to the consumer or in the reporting of negative information to a consumer reporting agency, or except as provided in paragraph (c)(2) of this section;

(ii) Impose on the consumer any late fee or delinquency charge in connection with a payment, when the only delinquency is attributable to late fees or delinquency charges assessed on an earlier payment, and the payment is otherwise a full payment for the applicable period and is paid on its due date or within any applicable grace period; or

(iii) Fail to provide, within a reasonable time after receiving a request from the consumer or any person acting on behalf of the consumer, an accurate statement of the total outstanding balance that would be required to satisfy the consumer’s obligation in full as of a specified date.

(2) If a servicer specifies in writing requirements for the consumer to follow in making payments, but accepts a payment that does not conform to the requirements, the servicer shall credit the payment as of 5 days after receipt.

(3) For purposes of this paragraph (c), the terms “servicer” and “servicing” have the same meanings as provided in 24 CFR 3500.2(b), as amended.

(d) Prohibited payments to loan originators. (1) Payments based on transaction terms or conditions. (i) In connection with a consumer credit transaction secured by a dwelling, no loan originator shall receive and no person shall pay to a loan originator, directly or indirectly, compensation in an amount that is based on any of the transaction’s terms or conditions.

(ii) For purposes of this paragraph (d)(1), the amount of credit extended is not deemed to be a transaction term or condition, provided compensation received by or paid to a loan originator, directly or indirectly, is based on a fixed percentage of the amount of credit extended; however, such compensation may be subject to a minimum or maximum dollar amount.

(iii) This paragraph (d)(1) shall not apply to any transaction in which paragraph (d)(2) of this section applies.

(2) Payments by persons other than consumer. If any loan originator receives compensation directly from a consumer in a consumer credit transaction secured by a dwelling:

(i) No loan originator shall receive compensation, directly or indirectly, from any person other than the consumer in connection with the transaction; and

(ii) No person who knows or has reason to know of the consumer-paid compensation to the loan originator (other
than the consumer) shall pay any compensation to a loan originator, directly or indirectly, in connection with the transaction.

(3) Affiliates. For purposes of this paragraph (d), affiliates shall be treated as a single ‘‘person.’’

(e) Prohibition on steering. (1) General. In connection with a consumer credit transaction secured by a dwelling, a loan originator shall not direct or ‘‘steer’’ a consumer to consummate a transaction based on the fact that the originator will receive greater compensation from the creditor in that transaction than in other transactions the originator offered or could have offered to the consumer, unless the consummated transaction is in the consumer’s interest.

(2) Permissible transactions. A transaction does not violate paragraph (e)(1) of this section if the consumer is presented with loan options that meet the conditions in paragraph (e)(3) of this section for each type of transaction in which the consumer expressed an interest.

(3) Loan options presented. A transaction satisfies paragraph (e)(2) of this section only if the loan originator presents the loan options required by that paragraph and all of the following conditions are met:

(i) The loan originator must obtain loan options from a significant number of the creditors with which the originator regularly does business and, for each type of transaction in which the consumer expressed an interest, must present the consumer with loan options that include:

(A) The loan with the lowest interest rate;

(B) The loan with the lowest interest rate without negative amortization, a prepayment penalty, interest-only payments, a balloon payment in the first 7 years of the life of the loan, a demand feature, shared equity, or shared appreciation; and

(C) The loan with the lowest total dollar amount for origination points or fees and discount points.

(ii) The loan originator must have a good faith belief that the options presented to the consumer pursuant to paragraph (e)(3)(i) of this section are loans for which the consumer likely qualifies.

(iii) For each type of transaction, if the originator presents to the consumer more than three loans, the originator must highlight the loans that satisfy the criteria specified in paragraph (e)(3)(i) of this section.

(4) Number of loan options presented. The loan originator can present fewer than three loans and satisfy paragraphs (e)(2) and (e)(3)(i) of this section if the loan(s) presented to the consumer satisfy the criteria of the options in paragraph (e)(3)(i) of this section and the provisions of paragraph (e)(3) of this section are otherwise met.

(f) This section does not apply to a home-equity line of credit subject to §226.5b. Section 226.36(d) and (e) do not apply to a loan that is secured by a consumer’s interest in a timeshare plan described in 11 U.S.C. 101(53D).

§ 226.39

the administrative convenience of the servicer in servicing the obligation.

(2) A “mortgage loan” means any consumer credit transaction that is secured by the principal dwelling of a consumer.

(b) Disclosure required. Except as provided in paragraph (c) of this section, each covered person is subject to the requirements of this section and shall mail or deliver the disclosures required by this section to the consumer on or before the 30th calendar day following the date of transfer.

(1) Form of disclosures. The disclosures required by this section shall be provided clearly and conspicuously in writing, in a form that the consumer may keep. The disclosures required by this section may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.).

(2) The date of transfer. For purposes of this section, the date of transfer to the covered person may, at the covered person’s option, be either the date of acquisition recognized in the books and records of the acquiring party, or the date of transfer recognized in the books and records of the transferring party.

(3) Multiple consumers. If more than one consumer is liable on the obligation, a covered person may mail or deliver the disclosures to any consumer who is primarily liable.

(4) Multiple transfers. If a mortgage loan is acquired by a covered person and subsequently sold, assigned, or otherwise transferred to another covered person, a single disclosure may be provided on behalf of both covered persons if the disclosure satisfies the timing and content requirements applicable to each covered person.

(5) Multiple covered persons. If an acquisition involves multiple covered persons who jointly acquire the loan, a single disclosure must be provided on behalf of all covered persons.

(c) Exceptions. Notwithstanding paragraph (b) of this section, a covered person is not subject to the requirements of this section with respect to a particular mortgage loan if:

(1) The covered person sells, or otherwise transfers or assigns legal title to the mortgage loan on or before the 30th calendar day following the date that the covered person acquired the mortgage loan which shall be the date of transfer recognized for purposes of paragraph (b)(2) of this section;

(2) The mortgage loan is transferred to the covered person in connection with a repurchase agreement that obligates the transferor to repurchase the loan. However, if the transferor does not repurchase the loan, the covered person must provide the disclosures required by this section within 30 days after the date that the transaction is recognized as an acquisition on its books and records; or

(3) The covered person acquires only a partial interest in the loan and the party authorized to receive the consumer’s notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan does not change as a result of the transfer of the partial interest.

(d) Content of required disclosures. The disclosures required by this section shall identify the loan that was sold, assigned or otherwise transferred, and state the following:

(1) The name, address, and telephone number of the covered person.

(i) If a single disclosure is provided on behalf of more than one covered person, the information required by this paragraph shall be provided for each of them unless paragraph (d)(1)(ii) of this section applies.

(ii) If a single disclosure is provided on behalf of more than one covered person and one of them has been authorized in accordance with paragraph (d)(3) of this section to receive the consumer’s notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan, the information required by paragraph (d)(1) of this section may be provided only for that covered person.

(2) The date of transfer.

(3) The name, address and telephone number of an agent or party authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan. However, no information is required to be provided under this paragraph if the

consumer can use the information pro-
vided under paragraph (d)(1) of this sec-
tion for these purposes.
(4) Where transfer of ownership of the
debt to the covered person is or may be
recorded in public records, or, alter-
natively, that the transfer of owner-
ship has not been recorded in public
records at the time the disclosure is
provided.
(e) Optional disclosures. In addition to
the information required to be dis-
closed under paragraph (d) of this sec-
tion, a covered person may, at its op-
tion, provide any other information re-
garding the transaction.

[75 FR 58501, Sept. 24, 2010]

§§ 226.40–226.41 [Reserved]

§ 226.42 Valuation independence.
(a) Scope. This section applies to any
consumer credit transaction secured by
the consumer’s principal dwelling.
(b) Definitions. For purposes of this
section:
(1) “Covered person” means a cred-
itor with respect to a covered trans-
action or a person that provides “set-
tlement services,” as defined in 12
U.S.C. 2602(3) and implementing regu-
lations, in connection with a covered
transaction.
(2) “Covered transaction” means an
extension of consumer credit that is or
will be secured by the consumer’s prin-
cipal dwelling, as defined in
§ 226.2(a)(19).
(3) “Valuation” means an estimate of
the value of the consumer’s principal
dwelling in written or electronic form,
other than one produced solely by an
automated model or system.
(4) “Valuation management func-
tions” means:
(i) Recruiting, selecting, or retaining
a person to prepare a valuation;
(ii) Contracting with or employing a
person to prepare a valuation;
(iii) Managing or overseeing the proc-
ess of preparing a valuation, includ-
ing by providing administrative services
such as receiving orders for and receiv-
ing a valuation, submitting a com-
pleted valuation to creditors and un-
derwriters, collecting fees from credi-
tors and underwriters, and compensating
person that pre-
parations, or
(iv) Reviewing or verifying the work
of a person that prepares valuations.
(c) Valuation of consumer’s principal
dwelling—(1) Coercion. In connection
with a covered transaction, no covered
person shall or shall attempt to di-
rectly or indirectly cause the value as-
signed to the consumer’s principal
dwelling to be based on any factor
other than the independent judgment
of a person that prepares valuations,
through coercion, extortion, induce-
ment, bribery, or intimidation of, com-
pensation or instruction to, or collu-
sion with a person that prepares valu-
ations or performs valuation manage-
ment functions.
(i) Examples of actions that violate
paragraph (c)(1) include:
(A) Seeking to influence a person
that prepares a valuation to report a
minimum or maximum value for the
consumer’s principal dwelling;
(B) Withholding or threatening to
withhold timely payment to a person
that prepares a valuation or performs
valuation management functions be-
cause the person does not value
the consumer’s principal dwelling at or
above a certain amount;
(C) Implying to a person that pre-
pares valuations that current or future
retention of the person depends on the
amount at which the person estimates
the value of the consumer’s principal
dwelling;
(D) Excluding a person that prepares
a valuation from consideration for fu-
ture engagement because the person re-
ports a value for the consumer’s prin-
cipal dwelling that does not meet or
exceed a predetermined threshold; and
(E) Conditioning the compensation
paid to a person that prepares a valu-
ation on consummation of the covered
transaction.
(2) Mischaracterization of value—(1)
Misrepresentation. In connection with a
covered transaction, no person that
prepares valuations shall materially
misrepresent the value of the con-
sumer’s principal dwelling in a valu-
ation. A misrepresentation is material
for purposes of this paragraph (c)(2)(i)
if it is likely to significantly affect the
value assigned to the consumer’s principal dwelling. A *bona fide* error shall not be a misrepresentation.

(ii) *Falsification or alteration.* In connection with a covered transaction, no covered person shall falsify and no covered person other than a person that prepares valuations shall materially alter a valuation. An alteration is material for purposes of this paragraph (c)(2)(ii) if it is likely to significantly affect the value assigned to the consumer’s principal dwelling.

(iii) *Inducement of mischaracterization.* In connection with a covered transaction, no covered person shall induce a person to violate paragraph (c)(2)(i) or (ii) of this section.

(3) Permitted actions. Examples of actions that do not violate paragraph (c)(1) or (c)(2) include:

(i) Asking a person that prepares a valuation to consider additional, appropriate property information, including information about comparable properties, to make or support a valuation;

(ii) Requesting that a person that prepares a valuation provide further detail, substantiation, or explanation for the person’s conclusion about the value of the consumer’s principal dwelling;

(iii) Asking a person that prepares a valuation to correct errors in the valuation;

(iv) Obtaining multiple valuations for the consumer’s principal dwelling to select the most reliable valuation;

(v) Withholding compensation due to breach of contract or substandard performance of services; and

(vi) Taking action permitted or required by applicable federal or state statute, regulation, or agency guidance.

(d) Prohibition on conflicts of interest—

(1)(i) In general. No person preparing a valuation or performing valuation management functions for a covered transaction may have a direct or indirect interest, financial or otherwise, in the property or transaction for which the valuation is or will be performed.

(ii) *Employees and affiliates of creditors with assets of more than $250 million for both of the past two calendar years.* For any covered transaction in which the creditor had assets of more than $250 million as of December 31st for both of the past two calendar years, a person subject to paragraph (d)(1)(i) of this section who is employed by or affiliated with the creditor does not have a conflict of interest in violation of paragraph (d)(1)(i) of this section based solely on the fact that the person—

(A) Is an employee or affiliate of the creditor; or

(B) Provides a settlement service in addition to preparing valuations or performing valuation management functions, or based solely on the fact that the person’s affiliate performs another settlement service.

(2) *Employees and affiliates of creditors with assets of more than $250 million for both of the past two calendar years.* For any covered transaction in which the creditor had assets of more than $250 million as of December 31st for both of the past two calendar years, a person subject to paragraph (d)(1)(i) of this section who is employed by or affiliated with the creditor does not have a conflict of interest in violation of paragraph (d)(1)(i) of this section based solely on the fact that the person’s employment or affiliate relationship with the creditor if:

(i) The compensation of the person preparing a valuation or performing valuation management functions is not based on the value arrived at in any valuation;

(ii) The person preparing a valuation or performing valuation management functions reports to a person who is not part of the creditor’s loan production function, as defined in paragraph (d)(5)(i) of this section, and whose compensation is not based on the closing of the transaction to which the valuation relates; and

(iii) No employee, officer or director in the creditor’s loan production function, as defined in paragraph (d)(5)(i) of this section, is directly or indirectly involved in selecting, retaining, recommending or influencing the selection of the person to prepare a valuation or perform valuation management functions, or to be included in or excluded from a list of approved persons who prepare valuations or perform valuation management functions.

(3) *Employees and affiliates of creditors with assets of $250 million or less for either of the past two calendar years.* For any covered transaction in which the creditor had assets of $250 million or less as of December 31st for either of the past two calendar years, a person subject to paragraph (d)(1)(i) of this section based solely on the fact that the person—

(A) Is an employee or affiliate of the creditor; or

(B) Provides a settlement service in addition to preparing valuations or performing valuation management functions, or based solely on the fact that the person’s affiliate performs another settlement service.
section who is employed by or affiliated with the creditor does not have a conflict of interest in violation of paragraph (d)(1)(i) of this section based on the person’s employment or affiliate relationship with the creditor if:

(i) The compensation of the person preparing a valuation or performing valuation management functions is not based on the value arrived at in any valuation; and

(ii) The creditor requires that any employee, officer or director of the creditor who orders, performs, or reviews a valuation for a covered transaction abstain from participating in any decision to approve, not approve, or set the terms of that transaction.

(4) Providers of multiple settlement services. For any covered transaction, a person who prepares a valuation or performs valuation management functions in addition to performing another settlement service for the transaction, or whose affiliate performs another settlement service for the transaction, does not have a conflict of interest in violation of paragraph (d)(1)(i) of this section as a result of the person or the person’s affiliate performing another settlement service for the transaction if:

(i) The creditor had assets of more than $250 million as of December 31st for both of the past two calendar years and the conditions in paragraph (d)(2)(i)–(iii) are met; or

(ii) The creditor had assets of $250 million or less as of December 31st for either of the past two calendar years and the conditions in paragraph (d)(3)(i)–(ii) are met.

(5) Definitions. For purposes of this paragraph, the following definitions apply:

(i) Loan production function. The term “loan production function” means an employee, officer, director, department, division, or other unit of a creditor with responsibility for generating covered transactions, approving covered transactions, or both.

(ii) Settlement service. The term “settlement service” has the same meaning as in the Real Estate Settlement Procedures Act, 12 U.S.C. 2601 et seq.

(iii) Affiliate. The term “affiliate” has the same meaning as in Regulation Y, 12 CFR 225.2(a).

(e) When extension of credit prohibited. In connection with a covered transaction, a creditor that knows, at or before consummation, of a violation of paragraph (c) or (d) of this section in connection with a valuation shall not extend credit based on the valuation, unless the creditor documents that it has acted with reasonable diligence to determine that the valuation does not materially misstate or misrepresent the value of the consumer’s principal dwelling. For purposes of this paragraph (e), a valuation materially misstates or misrepresents the value of the consumer’s principal dwelling if the valuation contains a misstatement or misrepresentation that affects the credit decision or the terms on which credit is extended.

(f) Customary and reasonable compensation—(1) Requirement to provide customary and reasonable compensation to fee appraisers. In any covered transaction, the creditor and its agents shall compensate a fee appraiser for performing appraisal services at a rate that is customary and reasonable for comparable appraisal services performed in the geographic market of the property being appraised. For purposes of paragraph (f) of this section, “agents” of the creditor do not include any fee appraiser as defined in paragraph (f)(4)(i) of this section.

(2) Presumption of compliance. A creditor and its agents shall be presumed to comply with paragraph (f)(1) if—

(i) The creditor or its agents compensate the fee appraiser in an amount that is reasonably related to recent rates paid for comparable appraisal services performed in the geographic market of the property being appraised. In determining this amount, a creditor or its agents shall review the factors below and make any adjustments to recent rates paid in the relevant geographic market necessary to ensure that the amount of compensation is reasonable:

(A) The type of property,

(B) The scope of work,

(C) The time in which the appraisal services are required to be performed,

(D) Fee appraiser qualifications,

(E) Fee appraiser experience and professional record, and

(F) Fee appraiser work quality; and
(ii) The creditor and its agents do not engage in any anticompetitive acts in violation of state or federal law that affect the compensation paid to fee appraisers, including—

(A) Entering into any contracts or engaging in any conspiracies to restrain trade through methods such as price fixing or market allocation, as prohibited under section 1 of the Sherman Antitrust Act, 15 U.S.C. 1, or any other relevant antitrust laws; or

(B) Engaging in any acts of monopolization such as restricting any person from entering the relevant geographic market or causing any person to leave the relevant geographic market, as prohibited under section 2 of the Sherman Antitrust Act, 15 U.S.C. 2, or any other relevant antitrust laws.

(3) Alternative presumption of compliance. A creditor and its agents shall be presumed to comply with paragraph (f)(1) if the creditor or its agents determine the amount of compensation paid to the fee appraiser by relying on information about rates that:

(i) Is based on objective third-party information, including fee schedules, studies, and surveys prepared by independent third parties such as government agencies, academic institutions, and private research firms;

(ii) Is based on recent rates paid to a representative sample of providers of appraisal services in the geographic market of the property being appraised or the fee schedules of those providers; and

(iii) In the case of information based on fee schedules, studies, and surveys, such fee schedules, studies, or surveys, or the information derived therefrom, excludes compensation paid to fee appraisers for appraisals ordered by appraisal management companies, as defined in paragraph (f)(4)(iii) of this section.

(4) Definitions. For purposes of this paragraph (f), the following definitions apply:

(i) Fee appraiser. The term “fee appraiser” means—

(A) A natural person who is a state-licensed or state-certified appraiser and receives a fee for performing an appraisal, but who is not an employee of the person engaging the appraiser; or

(B) An organization that, in the ordinary course of business, employs state-licensed or state-certified appraisers to perform appraisals, receives a fee for performing appraisals, and is not subject to the requirements of section 1124 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3331 et seq.).

(ii) Appraisal services. The term “appraisal services” means the services required to perform an appraisal, including defining the scope of work, inspecting the property, reviewing necessary and appropriate public and private data sources (for example, multiple listing services, tax assessment records and public land records), developing and rendering an opinion of value, and preparing and submitting the appraisal report.

(iii) Appraisal management company. The term “appraisal management company” means any person authorized to perform one or more of the following actions on behalf of the creditor—

(A) Recruit, select, and retain fee appraisers;

(B) Contract with fee appraisers to perform appraisal services;

(C) Manage the process of having an appraisal performed, including providing administrative services such as receiving appraisal orders and appraisal reports, submitting completed appraisal reports to creditors and underwriters, collecting fees from creditors and underwriters for services provided, and compensating fee appraisers for services performed; or

(D) Review and verify the work of fee appraisers.

(g) Mandatory reporting—(1) Reporting required. Any covered person that reasonably believes an appraiser has not complied with the Uniform Standards of Professional Appraisal Practice or ethical or professional requirements for appraisers under applicable state or federal statutes or regulations shall refer the matter to the appropriate state agency if the failure to comply is material. For purposes of this paragraph (g)(1), a failure to comply is material if it is likely to significantly affect the value assigned to the consumer’s principal dwelling.

(2) Timing of reporting. A covered person shall notify the appropriate state
agency within a reasonable period of time after the person determines that there is a reasonable basis to believe that a failure to comply required to be reported under paragraph (g)(1) of this section has occurred.

(3) Definition. For purposes of this paragraph (g), “state agency” means “state appraiser certifying and licensing agency” under 12 U.S.C. 3350(1) and any implementing regulations. The appropriate state agency to which a covered person must refer a matter under paragraph (g)(1) of this section is the agency for the state in which the consumer’s principal dwelling is located.

§§ 226.43–226.45 [Reserved]

Subpart F—Special Rules for Private Education Loans

SOURCE: 74 FR 41232, Aug. 14, 2009, unless otherwise noted.

§ 226.46 Special disclosure requirements for private education loans.

(a) Coverage. The requirements of this subpart apply to private education loans as defined in §226.46(b)(5). A creditor may, at its option, comply with the requirements of this subpart for an extension of credit subject to §§226.17 and 226.18 that is extended to a consumer for expenses incurred after graduation from a law, medical, dental, veterinary, or other graduate school and related to relocation, study for a bar or other examination, participation in an internship or residency program, or similar purposes.

(1) Relation to other subparts in this part. Except as otherwise specifically provided, the requirements and limitations of this subpart are in addition to and not in lieu of those contained in other subparts of this Part.

(b) Definitions. For purposes of this subpart, the following definitions apply:

(1) Covered educational institution means:

(i) An educational institution that meets the definition of an institution of higher education, as defined in paragraph (b)(2) of this section, without regard to the institution’s accreditation status; and

(ii) Includes an agent, officer, or employee of the institution of higher education. An agent means an institution-affiliated organization as defined by section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019) or an officer or employee of an institution-affiliated organization.

(2) Institution of higher education has the same meaning as in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001–1002) and the implementing regulations published by the U.S. Department of Education.

(3) Postsecondary educational expenses means any of the expenses that are listed as part of the cost of attendance, as defined under section 472 of the Higher Education Act of 1965 (20 U.S.C. 1087ll), of a student at a covered educational institution. These expenses include tuition and fees, books, supplies, miscellaneous personal expenses, room and board, and an allowance for any loan fee, origination fee, or insurance premium charged to a student or parent for a loan incurred to cover the cost of the student’s attendance.

(4) Preferred lender arrangement has the same meaning as in section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019).

(5) Private education loan means an extension of credit that:

(i) Is not made, insured, or guaranteed under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.);

(ii) Is extended to a consumer expressly, in whole or in part, for postsecondary educational expenses, regardless of whether the loan is provided by the educational institution that the student attends;

(iii) Does not include open-end credit any loan that is secured by real property or a dwelling; and

(iv) Does not include an extension of credit in which the covered educational institution is the creditor if:

(A) The term of the extension of credit is 90 days or less; or

(B) an interest rate will not be applied to the credit balance and the term of the extension of credit is one year or less, even if the credit is payable in more than four installments.
(c) Form of disclosures—(1) Clear and conspicuous. The disclosures required by this subpart shall be made clearly and conspicuously.

(2) Transaction disclosures. (i) The disclosures required under §§ 226.47(b) and (c) shall be made in writing, in a form that the consumer may keep. The disclosures shall be grouped together, shall be segregated from everything else, and shall not contain any information not directly related to the disclosures required under §§ 226.47(b) and (c), which include the disclosures required under § 226.18.

(ii) The disclosures may include an acknowledgement of receipt, the date of the transaction, and the consumer’s name, address, and account number. The following disclosures may be made together with or separately from other required disclosures: the creditor’s identity under § 226.18(a), insurance or debt cancellation under § 226.18(n), and certain security interest charges under § 226.18(o).

(iii) The term “finance charge” and corresponding amount, when required to be disclosed under § 226.18(d), and the interest rate required to be disclosed under §§ 226.47(b)(1)(i) and (c)(1), shall be more conspicuous than any other disclosure, except the creditor’s identity under § 226.18(a).

(3) Electronic disclosures. The disclosures required under §§ 226.47(b) and (c) may be provided to the consumer in electronic form, subject to compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.). The disclosures required by § 226.47(a) may be provided to the consumer in electronic form on or with an application or solicitation that is accessed by the consumer in electronic form without regard to the consumer consent or other provisions of the E-Sign Act. The form required to be received under §226.48(e) may be accepted by the creditor in electronic form as provided for in that section.

(d) Timing of disclosures—(1) Application or solicitation disclosures.

(i) The disclosures required by §226.47(a) shall be provided on or with any application or solicitation. For purposes of this subpart, the term solicitation means an offer of credit that does not require the consumer to complete an application. A “firm offer of credit” as defined in section 603(l) of the Fair Credit Reporting Act (15 U.S.C. 1681a(l)) is a solicitation for purposes of this section.

(ii) The creditor may, at its option, disclose orally the information in §226.47(a) in a telephone application or solicitation. Alternatively, if the creditor does not disclose orally the information in §226.47(a), the creditor must provide the disclosures or place them in the mail no later than three business days after the consumer has applied for the credit, except that, if the creditor either denies the consumer’s application or provides or places in the mail the disclosures in §226.47(b) no later than three business days after the consumer requests the credit, the creditor need not also provide the §226.47(a) disclosures.

(iii) Notwithstanding paragraph (d)(1)(i), for a loan that the consumer may use for multiple purposes including, but not limited to, postsecondary educational expenses, the creditor need not provide the disclosures required by §226.47(a).

(2) Approval disclosures. The creditor shall provide the disclosures required by §226.47(b) before consummation on or with any notice of approval provided to the consumer. If the creditor mails notice of approval, the disclosures must be mailed with the notice. If the creditor communicates notice of approval by telephone, the creditor must mail the disclosures within three business days of providing the notice of approval. If the creditor communicates notice of approval electronically, the creditor may provide the disclosures in electronic form in accordance with §226.46(d)(3); otherwise the creditor must mail the disclosures within three business days of communicating the notice of approval. If the creditor communicates approval in person, the creditor must provide the disclosures to the consumer at that time.

(3) Final disclosures. The disclosures required by §226.47(c) shall be provided after the consumer accepts the loan in accordance with §226.48(c)(1).

(4) Receipt of mailed disclosures. If the disclosures under paragraphs (d)(1),
(d)(2) or (d)(3), are mailed to the consumer, the consumer is considered to have received them three business days after they are mailed.

(e) Basis of disclosures and use of estimates—(1) Legal obligation. Disclosures shall reflect the terms of the legal obligation between the parties.

(2) Estimates. If any information necessary for an accurate disclosure is unknown to the creditor, the creditor shall make the disclosure based on the best information reasonably available at the time the disclosure is provided, and shall state clearly that the disclosure is an estimate.

(f) Multiple creditors; multiple consumers. If a transaction involves more than one creditor, only one set of disclosures shall be given and the creditors shall agree among themselves which creditor will comply with the requirements that this part imposes on any or all of them. If there is more than one consumer, the disclosures may be made to any consumer who is primarily liable on the obligation.

(g) Effect of subsequent events—(1) Approval disclosures. If a disclosure under §226.47(b) becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of Regulation Z (12 CFR part 226), although new disclosures may be required under §226.48(c).

(2) Final disclosures. If a disclosure under §226.47(c) becomes inaccurate because of an event that occurs after the creditor delivers the required disclosures, the inaccuracy is not a violation of Regulation Z (12 CFR part 226).

§226.47 Content of disclosures.

(a) Application or solicitation disclosures. A creditor shall provide the disclosures required under paragraph (a) of this section on or with a solicitation or an application for a private education loan.

(1) Interest Rates.

(i) The interest rate or range of interest rates applicable to the loan and actually offered by the creditor at the time of application or solicitation. If the rate will depend, in part, on a later determination of the consumer’s creditworthiness or other factors, a statement that the rate for which the consumer may qualify will depend on the consumer’s creditworthiness and other factors, if applicable.

(ii) Whether the interest rates applicable to the loan are fixed or variable.

(iii) If the interest rate may increase after consummation of the transaction, any limitations on the interest rate adjustments, or lack thereof; a statement that the consumer’s actual rate could be higher or lower than the rates disclosed under paragraph (a)(1)(i) of this section, if applicable; and, if the limitation is determined by applicable law, that fact.

(iv) Whether the applicable interest rates typically will be higher if the loan is not co-signed or guaranteed.

(2) Fees and default or late payment costs.

(i) An itemization of the fees or range of fees required to obtain the private education loan.

(ii) Any fees, changes to the interest rate, and adjustments to principal based on the consumer’s defaults or late payments.

(3) Repayment terms.

(i) The term of the loan, which is the period during which regularly scheduled payments of principal and interest will be due.

(ii) A description of any payment deferral options, or, if the consumer does not have the option to defer payments, that fact.

(iii) For each payment deferral option applicable while the student is enrolled at a covered educational institution:

(A) Whether interest will accrue during the deferral period; and

(B) If interest accrues, whether payment of interest may be deferred and added to the principal balance.

(iv) A statement that if the consumer files for bankruptcy, the consumer may still be required to pay back the loan.

(4) Cost estimates. An example of the total cost of the loan calculated as the total of payments over the term of the loan:

(i) Using the highest rate of interest disclosed under paragraph (a)(1) of this section and including all finance charges applicable to loans at that rate;
Federal Reserve System § 226.47

(ii) Using an amount financed of $10,000, or $5000 if the creditor only offers loans of this type for less than $10,000; and
(iii) Calculated for each payment option.

(5) Eligibility. Any age or school enrollment eligibility requirements relating to the consumer or co-signer.

(6) Alternatives to private education loans.

(i) A statement that the consumer may qualify for Federal student financial assistance through a program under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.).

(ii) The interest rates available under each program under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.) and whether the rates are fixed or variable.

(iii) A statement that the consumer may obtain additional information concerning Federal student financial assistance from the institution of higher education that the student attends, or at the Web site of the U.S. Department of Education, including an appropriate Web site address.

(iv) A statement that a covered educational institution may have school-specific education loan benefits and terms not detailed on the disclosure form.

(7) Rights of the consumer. A statement that if the loan is approved, the terms of the loan will be available and will not change for 30 days except as a result of adjustments to the interest rate and other changes permitted by law.

(8) Self-certification information. A statement that, before the loan may be consummated, the consumer must complete the self-certification form and that the form may be obtained from the institution of higher education that the student attends.

(b) Approval disclosures. On or with any notice of approval provided to the consumer, the creditor shall disclose the information required under §226.18 and the following information:

(1) Interest rate.

(i) The interest rate applicable to the loan.

(ii) Whether the interest rate is fixed or variable.

(iii) If the interest rate may increase after consummation of the transaction, any limitations on the rate adjustments, or lack thereof.

(2) Fees and default or late payment costs.

(i) An itemization of the fees or range of fees required to obtain the private education loan.

(ii) Any fees, changes to the interest rate, and adjustments to principal based on the consumer’s defaults or late payments.

(3) Repayment terms.

(i) The principal amount of the loan for which the consumer has been approved.

(ii) The term of the loan, which is the period during which regularly scheduled payments of principal and interest will be due.

(iii) A description of the payment deferral option chosen by the consumer, if applicable, and any other payment deferral options that the consumer may elect at a later time.

(iv) Any payments required while the student is enrolled at a covered educational institution, based on the deferral option chosen by the consumer.

(v) The amount of any unpaid interest that will accrue while the student is enrolled at a covered educational institution, based on the deferral option chosen by the consumer.

(vi) A statement that if the consumer files for bankruptcy, the consumer may still be required to pay back the loan.

(vii) An estimate of the total amount of payments calculated based on:

(A) The interest rate applicable to the loan. Compliance with §226.18(h) constitutes compliance with this requirement.

(B) The maximum possible rate of interest for the loan or, if a maximum rate cannot be determined, a rate of 25%.

(C) If a maximum rate cannot be determined, the estimate of the total amount for repayment must include a statement that there is no maximum rate and that the total amount for repayment disclosed under paragraph (b)(3)(vii)(B) of this section is an estimate and will be higher if the applicable interest rate increases.
(viii) The maximum monthly payment based on the maximum rate of interest for the loan or, if a maximum rate cannot be determined, a rate of 25%. If a maximum cannot be determined, a statement that there is no maximum rate and that the monthly payment amount disclosed is an estimate and will be higher if the applicable interest rate increases.

(4) Alternatives to private education loans.
   (i) A statement that the consumer may qualify for Federal student financial assistance through a program under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.).
   (ii) The interest rates available under each program under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq.), and whether the rates are fixed or variable.
   (iii) A statement that the consumer may obtain additional information concerning Federal student financial assistance from the institution of higher education that the student attends, or at the Web site of the U.S. Department of Education, including an appropriate Web site address.

(5) Rights of the consumer.
   (i) A statement that the consumer may accept the terms of the loan until the acceptance period under §226.48(c)(1) has expired. The statement must include the specific date on which the acceptance period expires, based on the date upon which the consumer receives the disclosures required under this subsection for the loan. The disclosure must also specify the method or methods by which the consumer may communicate acceptance.
   (ii) A statement that, except for changes to the interest rate and other changes permitted by law, the rates and terms of the loan may not be changed by the creditor during the period described in paragraph (b)(5)(i) of this section.

(c) Final disclosures. After the consumer has accepted the loan in accordance with §226.48(c)(1), the creditor shall disclose to the consumer the information required by §226.18 and the following information:
   (1) Interest rate. Information required to be disclosed under §§226.47(b)(1).
   (2) Fees and default or late payment costs. Information required to be disclosed under §226.47(b)(2).
   (3) Repayment terms. Information required to be disclosed under §226.47(b)(3).
   (4) Cancellation right. A statement that:
      (i) the consumer has the right to cancel the loan, without penalty, at any time before the cancellation period under §226.48(d) expires, and
      (ii) loan proceeds will not be disbursed until after the cancellation period under §226.48(d) expires. The statement must include the specific date on which the cancellation period expires and state that the consumer may cancel by that date. The statement must also specify the method or methods by which the consumer may cancel. If the creditor permits cancellation by mail, the statement must specify that the consumer’s mailed request will be deemed timely if placed in the mail not later than the cancellation date specified on the disclosure. The disclosures required by this paragraph (c)(4) must be made more conspicuous than any other disclosure required under this section, except for the finance charge, the interest rate, and the creditor’s identity, which must be disclosed in accordance with the requirements of §226.46(c)(2)(iii).

§226.48 Limitations on private education loans.

(a) Co-branding prohibited. (1) Except as provided in paragraph (b) of this section, a creditor, other than the covered educational institution itself, shall not use the name, emblem, mascot, or logo of a covered educational institution, or other words, pictures, or symbols identified with a covered educational institution, in the marketing of private education loans in a way that implies that the covered education institution endorses the creditor’s loans.
   (2) A creditor’s marketing of private education loans does not imply that the covered education institution endorses the creditor’s loans if the marketing includes a clear and conspicuous disclosure that is equally prominent and closely proximate to the reference to the covered educational institution
that the covered educational institution does not endorse the creditor’s loans and that the creditor is not affiliated with the covered educational institution.

(b) Endorsed lender arrangements. If a creditor and a covered educational institution have entered into an arrangement where the covered educational institution agrees to endorse the creditor’s private education loans, and such arrangement is not prohibited by other applicable law or regulation, paragraph (a)(1) of this section does not apply if the private education loan marketing includes a clear and conspicuous disclosure that is equally prominent and closely proximate to the reference to the covered educational institution that the creditor’s loans are not offered or made by the covered educational institution, but are made by the creditor.

(c) Consumer’s right to accept. (1) The consumer has the right to accept the terms of a private education loan at any time within 30 calendar days following the date on which the consumer receives the disclosures required under §226.47(b).

(2) Except for changes permitted under paragraphs (c)(3) and (c)(4), the rate and terms of the private education loan that are required to be disclosed under §§226.47(b) and (c) may not be changed by the creditor prior to the earlier of:

(i) The date of disbursement of the loan; or

(ii) The expiration of the 30 calendar day period described in paragraph (c)(1) of this section if the consumer has not accepted the loan within that time.

(3) Exceptions not requiring re-disclosure. (i) Notwithstanding paragraphs (c)(2) of this section, nothing in this section prevents the creditor from:

(A) Withdrawing an offer before consummation of the transaction if the extension of credit would be prohibited by law or if the creditor has reason to believe that the consumer has committed fraud in connection with the loan application;

(B) Changing the interest rate based on adjustments to the index used for a loan;

(C) Changing the interest rate and terms if the change will unequivocally benefit the consumer; or

(D) Reducing the loan amount based upon a certification or other information received from the covered educational institution, or from the consumer, indicating that the student’s cost of attendance has decreased or the consumer’s other financial aid has increased. A creditor may make corresponding changes to the rate and other terms only to the extent that the consumer would have received the terms if the consumer had applied for the reduced loan amount.

(ii) If the creditor changes the rate or terms of the loan under this paragraph (c)(3), the creditor need not provide the disclosures required under §228.47(b) for the new loan terms, nor need the creditor provide an additional 30-day period to the consumer to accept the new terms of the loan under paragraph (c)(1) of this section.

(4) Exceptions requiring re-disclosure. (i) Notwithstanding paragraphs (c)(2) or (c)(3) of this section, nothing in this section prevents the creditor, at its option, from changing the rate or terms of the loan to accommodate a specific request by the consumer. For example, if the consumer requests a different repayment option, the creditor may, but need not, offer to provide the requested repayment option and make any other changes to the rate and terms.

(ii) If the creditor changes the rate or terms of the loan under this paragraph (c)(4), the creditor shall provide the disclosures required under §228.47(b) and shall provide the consumer the 30-day period to accept the loan under paragraph (c)(1) of this section. The creditor shall not make further changes to the rates and terms of the loan, except as specified in paragraphs (c)(3) and (4) of this section. Except as permitted under §226.48(c)(3), unless the consumer accepts the loan offered by the creditor in response to the consumer’s request, the creditor may not withdraw or change the rates or terms of the loan for which the consumer was approved prior to the consumer’s request for a change in loan terms.

(d) Consumer’s right to cancel. The consumer may cancel a private education loan, without penalty, until midnight of the third business day following the date on which the consumer receives the disclosures required by
§ 226.47(c). No funds may be disbursed for a private education loan until the three-business day period has expired.

(e) Self-certification form. For a private education loan intended to be used for the postsecondary educational expenses of a student while the student is attending an institution of higher education, the creditor shall obtain from the consumer or the institution of higher education the form developed by the Secretary of Education under section 155 of the Higher Education Act of 1965, signed by the consumer, in written or electronic form, before consummating the private education loan.

(f) Provision of information by preferred lenders. A creditor that has a preferred lender arrangement with a covered educational institution shall provide to the covered educational institution the information required under §§ 226.47(a)(1) through (5), for each type of private education loan that the lender plans to offer to consumers for students attending the covered educational institution for the period beginning July 1 of the current year and ending June 30 of the following year. The creditor shall provide the information annually by the later of the 1st day of April, or within 30 days after entering into, or learning the creditor is a party to, a preferred lender arrangement.

APPENDIX A TO PART 226—EFFECT ON STATE LAWS

REQUEST FOR DETERMINATION

A request for a determination that a State law is inconsistent or that a State law is substantially the same as the Act and regulation shall be in writing and addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551. The request shall be made pursuant to the procedures herein and the Board’s Rules of Procedure (12 CFR Part 262).

SUPPORTING DOCUMENTS

A request for a determination shall include the following items:

(1) The text of the State statute, regulation, or other document that is the subject of the request,

(2) Any other statute, regulation, or judicial or administrative opinion that implements, interprets, or applies the relevant provision,

(3) A comparison of the State law with the corresponding provision of the Federal law, including a full discussion of the basis for the requesting party’s belief that the State provision is either inconsistent or substantially the same.

(4) Any other information that the requesting party believes may assist the Board in its determination.

PUBLIC NOTICE OF DETERMINATION

Notice that the Board intends to make a determination (either on request or on its own motion) will be published in the Federal Register, with an opportunity for public comment, unless the Board finds that notice and opportunity for comment would be impracticable, unnecessary, or contrary to the public interest and publishes its reasons for such decision.

Subject to the Board’s Rules Regarding Availability of Information (12 CFR Part 261), all requests made, including any documents and other material submitted in support of the requests, will be made available for public inspection and copying.

NOTICE AFTER DETERMINATION

Notice of a final determination will be published in the Federal Register, and the Board will furnish a copy of such notice to the party who made the request and to the appropriate State official.

Reversal of Determination

The Board reserves the right to reverse a determination for any reason bearing on the coverage or effect of State or Federal law.

Notice of reversal of a determination will be published in the Federal Register and a copy furnished to the appropriate State official.

Subpart G—Special Rules Applicable to Credit Card Accounts and Open-End Credit Offered to College Students

SOURCE: 75 FR 7818, Feb. 22, 2010, unless otherwise noted.

§ 226.51 Ability to Pay.

(a) General rule. (1)(1) Consideration of ability to pay. A card issuer must not open a credit card account for a consumer under an open-end (not home-secured) consumer credit plan, or increase any credit limit applicable to such account, unless the card issuer considers the consumer’s independent ability to make the required minimum periodic payments under the terms of
Federal Reserve System

§ 226.52 Limitations on fees.

(a) Limitations prior to account opening and during first year after account opening. (1) General rule. Except as provided in paragraph (a)(2) of this section, the total amount of fees a consumer is required to pay with respect to a credit card account under an open-end (not home-secured) consumer credit plan prior to account opening and during the first year after account opening...
must not exceed 25 percent of the credit limit in effect when the account is opened. For purposes of this paragraph, an account is considered open no earlier than the date on which the account may first be used by the consumer to engage in transactions.

(2) Fees not subject to limitations. Paragraph (a) of this section does not apply to:

(i) Late payment fees, over-the-limit fees, and returned-payment fees; or

(ii) Fees that the consumer is not required to pay with respect to the account.

(3) Rule of construction. Paragraph (a) of this section does not authorize the imposition or payment of fees or charges otherwise prohibited by law.

(b) Limitations on penalty fees. A card issuer must not impose a fee for violating the terms or other requirements of a credit card account under an open-end (not home-secured) consumer credit plan unless the dollar amount of the fee is consistent with paragraphs (b)(1) and (b)(2) of this section.

(1) General rule. Except as provided in paragraph (b)(2) of this section, a card issuer may impose a fee for violating the terms or other requirements of a credit card account under an open-end (not home-secured) consumer credit plan if the dollar amount of the fee is consistent with either paragraph (b)(1)(i) or (b)(1)(ii) of this section.

(i) Fees based on costs. A card issuer may impose a fee for violating the terms or other requirements of an account if the card issuer has determined that the dollar amount of the fee represents a reasonable proportion of the total costs incurred by the card issuer as a result of that type of violation. A card issuer must reevaluate this determination at least once every twelve months. If as a result of the reevaluation the card issuer determines that a lower fee represents a reasonable proportion of the total costs incurred by the card issuer as a result of that type of violation, the card issuer may begin imposing the higher fee after complying with the notice requirements in §226.9.

(ii) Safe harbors. A card issuer may impose a fee for violating the terms or other requirements of an account if the dollar amount of the fee does not exceed, as applicable:

(A) $25.00;

(B) $35.00 if the card issuer previously imposed a fee pursuant to paragraph (b)(1)(ii)(A) of this section for a violation of the same type that occurred during the same billing cycle or one of the next six billing cycles; or

(C) Three percent of the delinquent balance on a charge card account that requires payment of outstanding balances in full at the end of each billing cycle if the card issuer has not received the required payment for two or more consecutive billing cycles.

(D) The amounts in paragraphs (b)(1)(ii)(A) and (b)(1)(ii)(B) of this section will be adjusted annually by the Board to reflect changes in the Consumer Price Index.

(2) Prohibited fees—(i) Fees that exceed dollar amount associated with violation. (A) Generally. A card issuer must not impose a fee for violating the terms or other requirements of a credit card account under an open-end (not home-secured) consumer credit plan when there is no dollar amount associated with the violation.

(B) No dollar amount associated with violation. A card issuer must not impose a fee for violating the terms or other requirements of a credit card account under an open-end (not home-secured) consumer credit plan when there is no dollar amount associated with the violation. For purposes of paragraph (b)(2)(i) of this section, there is no dollar amount associated with the following violations:

(1) Transactions that the card issuer declines to authorize;

(2) Account inactivity; and

(3) The closure or termination of an account.

(ii) Multiple fees based on a single event or transaction. A card issuer must not impose more than one fee for violating the terms or other requirements of a credit card account under an open-end (not home-secured) consumer credit
plan based on a single event or transaction. A card issuer may, at its option, comply with this prohibition by imposing no more than one fee for violating the terms or other requirements of an account during a billing cycle.

§ 226.53 Allocation of payments.

(a) General rule. Except as provided in paragraph (b) of this section, when a consumer makes a payment in excess of the required minimum periodic payment for a credit card account under an open-end (not home-secured) consumer credit plan, the card issuer must allocate the excess amount first to the balance with the highest annual percentage rate and any remaining portion to the other balances in descending order based on the applicable annual percentage rate.

(b) Special rules. (1) Accounts with balances subject to deferred interest or similar program. When a balance on a credit card account under an open-end (not home-secured) consumer credit plan is subject to a deferred interest or similar program that provides that a consumer will not be obligated to pay interest that accrues on the balance if the balance is paid in full prior to the expiration of a specified period of time:

(i) Last two billing cycles. The card issuer must allocate any amount paid by the consumer in excess of the required minimum periodic payment consistent with paragraph (a) of this section, except that, during the two billing cycles immediately preceding expiration of the specified period, the excess amount must be allocated first to the balance subject to the deferred interest or similar program and any remaining portion allocated to any other balances consistent with paragraph (a) of this section; or

(ii) Consumer request. The card issuer may at its option allocate any amount paid by the consumer in excess of the required minimum periodic payment among the balances on the account in the manner requested by the consumer.

(2) Accounts with secured balances. When a balance on a credit card account under an open-end (not home-secured) consumer credit plan is secured, the card issuer may at its option allocate any amount paid by the consumer in excess of the required minimum periodic payment to that balance if requested by the consumer.

§ 226.54 Limitations on the imposition of finance charges.

(a) Limitations on imposing finance charges as a result of the loss of a grace period. (1) General rule. Except as provided in paragraph (b) of this section, a card issuer must not impose finance charges as a result of the loss of a grace period on a credit card account under an open-end (not home-secured) consumer credit plan if those finance charges are based on:

(i) Balances for days in billing cycles that precede the most recent billing cycle; or

(ii) Any portion of a balance subject to a grace period that was repaid prior to the expiration of the grace period.

(2) Definition of grace period. For purposes of paragraph (a)(1) of this section, “grace period” has the same meaning as in §226.5(b)(2)(ii)(B)(3).

(b) Exceptions. Paragraph (a) of this section does not apply to:

(1) Adjustments to finance charges as a result of the resolution of a dispute under §226.12 or §226.13; or

(2) Adjustments to finance charges as a result of the return of a payment.

§ 226.55 Limitations on increasing annual percentage rates, fees, and charges.

(a) General rule. Except as provided in paragraph (b) of this section, a card issuer must not increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(1), (b)(2)(i), or (b)(2)(xii) on a credit card account under an open-end (not home-secured) consumer credit plan.

(b) Exceptions. A card issuer may increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(1), (b)(2)(i), (b)(2)(iii), or (b)(2)(xii) pursuant to an exception set forth in this paragraph even if that increase would not be permitted under a different exception.

(1) Temporary rate, fee, or charge exception. A card issuer may increase an
annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) upon the expiration of a specified period of six months or longer, provided that:

(i) Prior to the commencement of that period, the card issuer disclosed in writing to the consumer, in a clear and conspicuous manner, the length of the period and the annual percentage rate, fee, or charge that would apply after expiration of the period; and

(ii) Upon expiration of the specified period:

(A) The card issuer must not apply an annual percentage rate, fee, or charge to transactions that occurred prior to the period that exceeds the annual percentage rate, fee, or charge that applied to those transactions prior to the period;

(B) If the disclosures required by paragraph (b)(1)(i) of this section are provided pursuant to §226.9(c), the card issuer must not apply an annual percentage rate, fee, or charge to transactions that occurred during the period that exceeds the increased annual percentage rate, fee, or charge disclosed pursuant to paragraph (b)(1)(i) of this section.

(C) The card issuer must not apply an annual percentage rate, fee, or charge to transactions that occurred during the period that exceeds the increased annual percentage rate, fee, or charge disclosed pursuant to paragraph (b)(1)(i) of this section.

(2) Variable rate exception. A card issuer may increase an annual percentage rate when:

(i) The annual percentage rate varies according to an index that is not under the card issuer’s control and is available to the general public; and

(ii) The increase in the annual percentage rate is due to an increase in the index.

(3) Advance notice exception. A card issuer may increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) after complying with the applicable notice requirements in §226.9(b), (c), or (g), provided that:

(i) If a card issuer discloses an increased annual percentage rate, fee, or charge pursuant to §226.9(b), the card issuer must not apply that rate, fee, or charge to transactions that occurred prior to provision of the notice;

(ii) If a card issuer discloses an increased annual percentage rate, fee, or charge pursuant to §226.9(c) or (g), the card issuer must not apply that rate, fee, or charge to transactions that occurred prior to or within 14 days after provision of the notice; and

(iii) This exception does not permit a card issuer to increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) during the first year after the account is opened, while the account is closed, or while the card issuer does not permit the consumer to use the account for new transactions. For purposes of this paragraph, an account is considered open no earlier than the date on which the account may first be used by the consumer to engage in transactions.

(4) Delinquency exception. A card issuer may increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) due to the card issuer not receiving the consumer’s required minimum periodic payment within 60 days after the due date for that payment, provided that:

(i) The card issuer must disclose in a clear and conspicuous manner in the notice of the increase pursuant to §226.9(c) or (g):

(A) A statement of the reason for the increase; and

(B) That the increased annual percentage rate, fee, or charge will cease to apply if the card issuer receives six consecutive required minimum periodic payments on or before the payment due date beginning with the first payment due following the effective date of the increase; and

(ii) If the card issuer receives six consecutive required minimum periodic payments on or before the payment due date beginning with the first payment due following the effective date of the increase, the card issuer must reduce any annual percentage rate, fee, or charge increased pursuant to this exception to the annual percentage rate,
Federal Reserve System

§ 226.56

fee, or charge that applied prior to the increase with respect to transactions that occurred prior to or within 14 days after provision of the § 226.9(c) or (g) notice.

§ 226.56 Requirements for over-the-limit transactions.

(a) Definition. For purposes of this section, the term “over-the-limit

(b)2(11), or (b)2(11) cannot be applied after the annual percentage rate, fee, or charge for that category of transactions has been increased pursuant to paragraph (b)(3) of this section.

(2) Repayment of protected balance. The card issuer must not require repayment of the protected balance using a method that is less beneficial to the consumer than one of the following methods:

(i) The method of repayment for the account before the effective date of the increase;

(ii) An amortization period of not less than five years, beginning no earlier than the effective date of the increase; or

(iii) A required minimum periodic payment that includes a percentage of the balance that is equal to no more than twice the percentage required before the effective date of the increase.

(d) Continuing application. This section continues to apply to a balance on a credit card account under an open-end (not home-secured) consumer credit plan after:

(1) The account is closed or acquired by another creditor; or

(2) The balance is transferred from a credit card account under an open-end (not home-secured) consumer credit plan issued by a creditor to another creditor or its affiliate or subsidiary (unless the account to which the balance is transferred is subject to § 226.5b).

(e) Promotional waivers or rebates of interest, fees, and other charges. If a card issuer promotes the waiver or rebate of finance charges due to a periodic interest rate or fees or charges required to be disclosed under § 226.6(b)(2)(ii), (iii), or (xii) and applies the waiver or rebate to a credit card account under an open-end (not home-secured) consumer credit plan, any cessation of the waiver or rebate on that account constitutes an increase in an annual percentage rate, fee, or charge for purposes of this section.

transaction” means any extension of credit by a card issuer to complete a transaction that causes a consumer’s credit card account balance to exceed the credit limit.

(b) Opt-in requirement. (1) General. A card issuer shall not assess a fee or charge on a consumer’s credit card account under an open-end (not home-secured) consumer credit plan for an over-the-limit transaction unless the card issuer:

(i) Provides the consumer with an oral, written or electronic notice, segregated from all other information, describing the consumer’s right to affirmatively consent, or opt in, to the card issuer’s payment of an over-the-limit transaction;

(ii) Provides a reasonable opportunity for the consumer to affirmatively consent, or opt in, to the card issuer’s payment of over-the-limit transactions;

(iii) Obtains the consumer’s affirmative consent, or opt in, to the card issuer’s payment of such transactions;

(iv) Provides the consumer with confirmation of the consumer’s consent in writing, or if the consumer agrees, electronically; and

(v) Provides the consumer notice in writing of the right to revoke that consent following the assessment of an over-the-limit fee or charge.

(2) Completion of over-the-limit transactions without consumer consent. Notwithstanding the absence of a consumer’s affirmative consent under paragraph (b)(1)(iii) of this section, a card issuer may pay any over-the-limit transaction on a consumer’s account provided that the card issuer does not impose any fee or charge on the account for paying that over-the-limit transaction.

(c) Method of election. A card issuer may permit a consumer to consent to the card issuer’s payment of any over-the-limit transaction in writing, orally, or electronically, at the card issuer’s option. The card issuer must also permit the consumer to revoke his or her consent using the same methods available to the consumer for providing consent.

(d) Timing and placement of notices. (1) Initial notice. (i) General. The notice required by paragraph (b)(1)(i) of this section shall be provided prior to the assessment of any over-the-limit fee or charge on a consumer’s account.

(ii) Oral or electronic consent. If a consumer consents to the card issuer’s payment of any over-the-limit transaction by oral or electronic means, the card issuer must provide the notice required by paragraph (b)(1)(i) of this section immediately prior to obtaining that consent.

(2) Confirmation of opt-in. The notice required by paragraph (b)(1)(iv) of this section may be provided no later than the first periodic statement sent after the consumer has consented to the card issuer’s payment of over-the-limit transactions.

(3) Notice of right of revocation. The notice required by paragraph (b)(1)(v) of this section shall be provided on the front of any page of each periodic statement that reflects the assessment of an over-the-limit fee or charge on a consumer’s account.

(e) Content. (1) Initial notice. The notice required by paragraph (b)(1)(i) of this section shall include all applicable items in this paragraph (e)(1) and may not contain any information not specified in or otherwise permitted by this paragraph.

(i) Fees. The dollar amount of any fees or charges assessed by the card issuer on a consumer’s account for an over-the-limit transaction;

(ii) APRs. Any increased periodic rate(s) (expressed as an annual percentage rate(s)) that may be imposed on the account as a result of an over-the-limit transaction; and

(iii) Disclosure of opt-in right. An explanation of the consumer’s right to affirmatively consent to the card issuer’s payment of over-the-limit transactions, including the method(s) by which the consumer may consent.

(2) Subsequent notice. The notice required by paragraph (b)(1)(v) of this section shall describe the consumer’s right to revoke any consent provided under paragraph (b)(1)(iii) of this section, including the method(s) by which the consumer may revoke.

(3) Safe harbor. Use of Model Forms G–25(A) or G–25(B) of Appendix G to this part, or substantially similar notices, constitutes compliance with the
notice content requirements of paragraph (e) of this section.

(f) Joint relationships. If two or more consumers are jointly liable on a credit card account under an open-end (not home-secured) consumer credit plan, the card issuer shall treat the affirmative consent of any of the joint consumers as affirmative consent for that account. Similarly, the card issuer shall treat a revocation of consent by any of the joint consumers as revocation of consent for that account.

(g) Continuing right to opt in or revoke opt-in. A consumer may affirmatively consent to the card issuer’s payment of over-the-limit transactions at any time in the manner described in the notice required by paragraph (b)(1)(i) of this section. Similarly, the consumer may revoke the consent at any time in the manner described in the notice required by paragraph (b)(1)(v) of this section.

(h) Duration of opt-in. A consumer’s affirmative consent to the card issuer’s payment of over-the-limit transactions is effective until revoked by the consumer, or until the card issuer decides for any reason to cease paying over-the-limit transactions for the consumer.

(i) Time to comply with revocation request. A card issuer must comply with a consumer’s revocation request as soon as reasonably practicable after the card issuer receives it.

(j) Prohibited practices. Notwithstanding a consumer’s affirmative consent to a card issuer’s payment of over-the-limit transactions, a card issuer is prohibited from engaging in the following practices:

(1) Fees or charges imposed per cycle. (i) General rule. A card issuer may not impose more than one over-the-limit fee or charge on a consumer’s credit card account per billing cycle, and, in any event, only if the credit limit was exceeded during the billing cycle. In addition, except as provided in paragraph (j)(1)(ii) of this section, a card issuer may not impose an over-the-limit fee or charge on the consumer’s credit card account for more than three billing cycles for the same over-the-limit transaction where the consumer has not reduced the account balance below the credit limit by the payment due date for either of the last two billing cycles.

(ii) Exception. The prohibition in paragraph (j)(1)(i) of this section on imposing an over-the-limit fee or charge in more than three billing cycles for the same over-the-limit transaction(s) does not apply if another over-the-limit transaction(s) occurs during either of the last two billing cycles.

(2) Failure to promptly replenish. A card issuer may not impose an over-the-limit fee or charge solely because of the card issuer’s failure to promptly replenish the consumer’s available credit following the crediting of the consumer’s payment under §226.10.

(3) Conditioning. A card issuer may not condition the amount of a consumer’s credit limit on the consumer affirmatively consenting to the card issuer’s payment of over-the-limit transactions if the card issuer assesses a fee or charge for such service.

(4) Over-the-limit fees attributed to fees or interest. A card issuer may not impose an over-the-limit fee or charge for a billing cycle if a consumer exceeds a credit limit solely because of fees or interest charged by the card issuer to the consumer’s account during that billing cycle. For purposes of this paragraph (j)(4), the relevant fees or interest charges are charges imposed as part of the plan under §226.6(b)(3).

§226.57 Reporting and marketing rules for college student open-end credit.

(a) Definitions:

(1) College student credit card. The term “college student credit card” as used in this section means a credit card issued under a credit card account under an open-end (not home-secured) consumer credit plan to any college student.

(2) College student. The term “college student” as used in this section means a consumer who is a full-time or part-time student of an institution of higher education.

(3) Institution of higher education. The term “institution of higher education” as used in this section has the same meaning as in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001 and 1002).
§ 226.58 Internet posting of credit card agreements.

(a) Applicability. The requirements of this section apply to any card issuer that issues credit cards under a credit card account under an open-end (not home-secured) consumer credit plan.

(b) Definitions. (1) Agreement. For purposes of this section, “agreement” or “credit card agreement” means the written document or documents evidencing the terms of the legal obligation, or the prospective legal obligation, between a card issuer and a consumer for a credit card account under an open-end (not home-secured) consumer credit plan. “Agreement” or “credit card agreement” also includes the pricing information, as defined in §226.57(b)(7).
(2) **Amends.** For purposes of this section, an issuer “amends” an agreement if it makes a substantive change (an “amendment”) to the agreement. A change is substantive if it alters the rights or obligations of the card issuer or the consumer under the agreement. Any change in the pricing information, as defined in §226.58(b)(7), is deemed to be substantive.

(3) **Business day.** For purposes of this section, “business day” means a day on which the creditor’s offices are open to the public for carrying on substantially all of its business functions.

(4) **Card issuer.** For purposes of this section, “card issuer” or “issuer” means the entity to which a consumer is legally obligated, or would be legally obligated, under the terms of a credit card agreement.

(5) **Offers.** For purposes of this section, an issuer “offers” or “offers to the public” an agreement if the issuer is soliciting or accepting applications for accounts that would be subject to that agreement.

(6) **Open account.** For purposes of this section, an account is an “open account” or “open credit card account” if it is a credit card account under an open-end (not home-secured) consumer credit plan and either:
   (i) The cardholder can obtain extensions of credit on the account; or
   (ii) There is an outstanding balance on the account that has not been charged off. An account that has been suspended temporarily (for example, due to a report by the cardholder of unauthorized use of the card) is considered an “open account” or “open credit card account.”

(7) **Pricing information.** For purposes of this section, “pricing information” means the information listed in §226.6(b)(2)(i) through (b)(2)(xii) and (b)(4). Pricing information does not include temporary or promotional rates and terms or rates and terms that apply only to protected balances.

(B) **Private label credit card account and private label credit card plan.** For purposes of this section:
   (i) “private label credit card account” means a credit card account under an open-end (not home-secured) consumer credit plan with a credit card that can be used to make purchases only at a single merchant or an affiliated group of merchants; and
   (ii) “private label credit card plan” means all of the private label credit card accounts issued by a particular issuer with credit cards usable at the same single merchant or affiliated group of merchants.

(c) **Submission of agreements to Board.**

(1) **Quarterly submissions.** A card issuer must make quarterly submissions to the Board, in the form and manner specified by the Board. Quarterly submissions must be sent to the Board no later than the first business day on or after January 31, April 30, July 31, and October 31 of each year. Each submission must contain:
   (i) Identifying information about the card issuer and the agreements submitted, including the issuer’s name, address, and identifying number (such as an RSSD ID number or tax identification number);
   (ii) The credit card agreements that the card issuer offered to the public as of the last business day of the preceding calendar quarter that the card issuer has not previously submitted to the Board;
   (iii) Any credit card agreement previously submitted to the Board that was amended during the preceding calendar quarter and that the card issuer offered to the public as of the last business day of the preceding calendar quarter, as described in §226.58(c)(3); and
   (iv) Notification regarding any credit card agreement previously submitted to the Board that the issuer is withdrawing, as described in §226.58(c)(4), (c)(5), (c)(6), and (c)(7).

(2) [Reserved]

(3) **Amended agreements.** If a credit card agreement has been submitted to the Board, the agreement has not been amended and the card issuer continues to offer the agreement to the public, no additional submission regarding that agreement is required. If a credit card agreement that previously has been submitted to the Board is amended and the card issuer offers the amended agreement to the public as of the last business day of the calendar quarter in which the change became effective, the card issuer must submit the entire amended agreement to the Board, in
the form and manner specified by the Board, by the first quarterly submission deadline after the last day of the calendar quarter in which the change became effective.

(4) Withdrawal of agreements. If a card issuer no longer offers to the public a credit card agreement that previously has been submitted to the Board, the card issuer must notify the Board, in the form and manner specified by the Board, by the first quarterly submission deadline after the last day of the calendar quarter in which the change became effective.

(5) De minimis exception. (i) A card issuer is not required to submit any credit card agreements to the Board if the card issuer had fewer than 10,000 open credit card accounts as of the last business day of the calendar quarter.

(ii) If an issuer that previously qualified for the de minimis exception ceases to qualify, the card issuer must begin making quarterly submissions to the Board no later than the first quarterly submission deadline after the date as of which the issuer ceased to qualify.

(iii) If a card issuer that did not previously qualify for the de minimis exception qualifies for the exception, the card issuer must continue to make quarterly submissions to the Board until the issuer notifies the Board that the agreement is being withdrawn.

(6) Private label credit card exception. (i) A card issuer is not required to submit to the Board a credit card agreement if, as of the last business day of the calendar quarter, the agreement:

(A) is offered for accounts under one or more private label credit card plans each of which has fewer than 10,000 open accounts; and

(B) is not offered to the public other than for accounts under such a plan.

(ii) If an agreement that previously qualified for the private label credit card exception ceases to qualify, the card issuer must submit the agreement to the Board no later than the first quarterly submission deadline after the date as of which the agreement ceased to qualify.

(iii) If an agreement that did not previously qualify for the private label credit card exception qualifies for the exception, the card issuer must continue to make quarterly submissions to the Board with respect to that agreement until the issuer notifies the Board that the agreement is being withdrawn.

(7) Product testing exception. (i) A card issuer is not required to submit to the Board a credit card agreement if, as of the last business day of the calendar quarter, the agreement:

(A) is offered as part of a product test offered to only a limited group of consumers for a limited period of time;

(B) is used for fewer than 10,000 open accounts; and

(C) is not offered to the public other than in connection with such a product test.

(ii) If an agreement that previously qualified for the product testing exception ceases to qualify, the card issuer must submit the agreement to the Board no later than the first quarterly submission deadline after the date as of which the agreement ceased to qualify.

(iii) If an agreement that did not previously qualify for the product testing exception qualifies for the exception, the card issuer must continue to make quarterly submissions to the Board with respect to that agreement until the issuer notifies the Board that the agreement is being withdrawn.

(8) Form and content of agreements submitted to the Board. (i) Form and content generally. (A) Each agreement must contain the provisions of the agreement and the pricing information in effect as of the last business day of the preceding calendar quarter, the agreement:

(A) is offered for accounts under one or more private label credit card plans each of which has fewer than 10,000 open accounts; and

(B) is not offered to the public other than for accounts under such a plan.

(ii) If an agreement that previously qualified for the private label credit card exception ceases to qualify, the card issuer must submit the agreement to the Board no later than the first quarterly submission deadline after the date as of which the agreement ceased to qualify.

(iii) If an agreement that did not previously qualify for the private label credit card exception qualifies for the exception, the card issuer must continue to make quarterly submissions to the Board with respect to that agreement until the issuer notifies the Board that the agreement is being withdrawn.
Federal Reserve System § 226.58

(4) Ancillary agreements between the issuer and the consumer, such as debt cancellation contracts or debt suspension agreements;

(5) Offers for credit insurance or other optional products and other similar advertisements; and

(6) Documents that may be sent to the consumer along with the credit card or credit card agreement such as a cover letter, a validation sticker on the card, or other information about card security.

(D) Agreements must be presented in a clear and legible font.

(ii) Pricing information. (A) Pricing information must be set forth in a single addendum to the agreement. The addendum must contain all of the pricing information, as defined by §226.58(b)(7). The addendum may, but is not required to, contain any other information listed in §226.6(b), provided that information is complete and accurate as of the applicable date under §226.58. The addendum may not contain any other information.

(B) Pricing information that may vary from one cardholder to another depending on the cardholder’s creditworthiness or state of residence or other factors must be disclosed either by setting forth all the possible variations (such as purchase APRs of 13 percent, 15 percent, 17 percent, and 19 percent) or by providing a range of possible variations (such as purchase APRs ranging from 13 percent to 19 percent).

(C) If a rate included in the pricing information is a variable rate, the issuer must identify the index or formula used in setting the rate and the margin. Rates that may vary from one cardholder to another must be disclosed by providing the index and the possible margins (such as the prime rate plus 5 percent, 8 percent, 10 percent, or 12 percent) or range of margins (such as the prime rate plus from 5 to 12 percent). The value of the rate and the value of the index are not required to be disclosed.

(iii) Optional variable terms addendum. Provisions of the agreement other than the pricing information that may vary from one cardholder to another depending on the cardholder’s creditworthiness or state of residence or other factors may be set forth in a single addendum to the agreement separate from the pricing information addendum.

(iv) Integrated agreement. Issuers may not provide provisions of the agreement or pricing information in the form of change-in-terms notices or riders (other than the pricing information addendum and the optional variable terms addendum). Changes in provisions or pricing information must be integrated into the text of the agreement, the pricing information addendum or the optional variable terms addendum, as appropriate.

(d) Posting of agreements offered to the public. (1) Except as provided below, a card issuer must post and maintain on its publicly available Web site the credit card agreements that the issuer is required to submit to the Board under §226.58(c). With respect to an agreement offered solely for accounts under one or more private label credit card plans, an issuer may fulfill this requirement by posting and maintaining the agreement in accordance with the requirements of this section on the publicly available Web site of at least one of the merchants at which credit cards issued under each private label credit card plan with 10,000 or more open accounts may be used.

(2) Except as provided in §226.58(d), agreements posted pursuant to §226.58(d) must conform to the form and content requirements for agreements submitted to the Board specified in §226.58(c)(8).

(3) Agreements posted pursuant to §226.58(d) may be posted in any electronic format that is readily usable by the general public. Agreements must be placed in a location that is prominent and readily accessible by the public and must be accessible without submission of personally identifiable information.

(4) The card issuer must update the agreements posted on its Web site pursuant to §226.58(d) at least as frequently as the quarterly schedule required for submission of agreements to the Board under §226.58(c). If the issuer chooses to update the agreements on its Web site more frequently, the agreements posted on the issuer’s Web site may contain the provisions of the agreement and the pricing information
§ 226.59

in effect as of a date other than the last business day of the preceding calendar quarter.

(e) Agreements for all open accounts. (1) Availability of individual cardholder’s agreement. With respect to any open credit card account, a card issuer must either:

(i) Post and maintain the cardholder’s agreement on its Web site; or

(ii) Promptly provide a copy of the cardholder’s agreement to the cardholder upon the cardholder’s request. If the card issuer makes an agreement available upon request, the issuer must provide the cardholder with the ability to request a copy of the agreement both by using the issuer’s Web site (such as by clicking on a clearly identified box to make the request) and by calling a readily available telephone line the number for which is displayed on the issuer’s Web site and clearly identified as to purpose. The card issuer must send to the cardholder or otherwise make available to the cardholder a copy of the cardholder’s agreement in electronic or paper form no later than 30 days after the issuer receives the cardholder’s request.

(2) Special rule for issuers without interactive Web sites. An issuer that does not maintain a Web site from which cardholders can access specific information about their individual accounts, instead of complying with § 226.58(e)(1), may make agreements available upon request by providing the cardholder with the ability to request a copy of the agreement by calling a readily available telephone line, the number for which is displayed on the issuer’s Web site and clearly identified as to purpose. The card issuer must send to the cardholder or otherwise make available to the cardholder a copy of the cardholder’s agreement in electronic or paper form no later than 30 days after the issuer receives the cardholder’s request.

(3) Form and content of agreements. (i) Except as provided in § 226.58(e), agreements posted on the card issuer’s Web site pursuant to § 226.58(e)(1)(i) or made available upon the cardholder’s request pursuant to § 226.58(e)(1)(ii) or (e)(2) must conform to the form and content requirements for agreements submitted to the Board specified in § 226.58(c)(8).

(ii) If the card issuer posts an agreement on its Web site or otherwise provides an agreement to a cardholder electronically under § 226.58(e), the agreement may be posted or provided in any electronic format that is readily usable by the general public and must be placed in a location that is prominent and readily accessible to the cardholder.

(iii) Agreements posted or otherwise provided pursuant to § 226.58(e) may contain personally identifiable information relating to the cardholder, such as name, address, telephone number, or account number, provided that the issuer takes appropriate measures to make the agreement accessible only to the cardholder or other authorized persons.

(iv) Agreements posted or otherwise provided pursuant to § 226.58(e) must set forth the specific provisions and pricing information applicable to the particular cardholder. Provisions and pricing information must be complete and accurate as of a date no more than 60 days prior to: (1) the date on which the agreement is posted on the card issuer’s Web site under § 226.58(e)(1)(i); or (2) the date the cardholder’s request is received under § 226.58(e)(1)(ii) or (e)(2).

(v) Agreements provided upon cardholder request pursuant to § 226.58(e)(1)(ii) or (e)(2) may be provided by the issuer in either electronic or paper form, regardless of the form of the cardholder’s request.

(f) E-Sign Act requirements. Card issuers may provide credit card agreements in electronic form under § 226.58(d) and (e) without regard to the consumer notice and consent requirements of section 101(c) of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.).

§ 226.59 Reevaluation of rate increases.

(a) General rule—(1) Evaluation of increased rate. If a card issuer increases an annual percentage rate that applies
to a credit card account under an open-end (not home-secured) consumer credit plan, based on the credit risk of the consumer, market conditions, or other factors, or increased such a rate on or after January 1, 2009, and 45 days' advance notice of the rate increase is required pursuant to §226.9(c)(2) or (g), the card issuer must:

(i) Evaluate the factors described in paragraph (d) of this section; and

(ii) Based on its review of such factors, reduce the annual percentage rate applicable to the consumer's account, as appropriate.

(2) Rate reductions—(i) Timing. If a card issuer is required to reduce the rate applicable to an account pursuant to paragraph (a)(1) of this section, the card issuer must reduce the rate not later than 45 days after completion of the evaluation described in paragraph (a)(1).

(ii) Applicability of rate reduction. Any reduction in an annual percentage rate required pursuant to paragraph (a)(1) of this section shall apply to:

(A) Any outstanding balances to which the increased rate described in paragraph (a)(1) of this section has been applied; and

(B) New transactions that occur after the effective date of the rate reduction that would otherwise have been subject to the increased rate.

(b) Policies and procedures. A card issuer must have reasonable written policies and procedures in place to conduct the review described in paragraph (a) of this section.

(c) Timing. A card issuer that is subject to paragraph (a) of this section must conduct the review described in paragraph (a)(1) of this section not less frequently than once every six months after the rate increase.

(d) Factors—(1) In general. Except as provided in paragraph (d)(2) of this section, a card issuer must review either:

(i) The factors on which the increase in an annual percentage rate was originally based; or

(ii) The factors that the card issuer currently considers when determining the annual percentage rates applicable to similar new credit card accounts under an open-end (not home-secured) consumer credit plan.

(2) Rate increases imposed between January 1, 2009 and February 21, 2010. For rate increases imposed between January 1, 2009 and February 21, 2010, an issuer must consider the factors described in paragraph (d)(1)(ii) when conducting the first two reviews required under paragraph (a) of this section, unless the rate increase subject to paragraph (a) of this section was based solely upon factors specific to the consumer, such as a decline in the consumer's credit risk, the consumer's delinquency or default, or a violation of the terms of the account.

(e) Rate increases subject to §226.55(b)(4). If an issuer increases a rate applicable to a consumer's account pursuant to §226.55(b)(4) based on the card issuer not receiving the consumer's required minimum periodic payment within 60 days after the due date, the issuer is not required to perform the review described in paragraph (a) of this section prior to the sixth payment due date after the effective date of the increase. However, if the annual percentage rate applicable to the consumer's account is not reduced pursuant to §226.55(b)(4)(ii), the card issuer must perform the review described in paragraph (a) of this section. The first such review must occur no later than six months after the sixth payment due following the effective date of the rate increase.

(f) Termination of obligation to review factors. The obligation to review factors described in paragraph (a) and (d) of this section ceases to apply:

(1) If the issuer reduces the annual percentage rate applicable to a credit card account under an open-end (not home-secured) consumer credit plan to the rate applicable immediately prior to the increase, or, if the rate applicable immediately prior to the increase was a variable rate, to a variable rate determined by the same formula (index and margin) that was used to calculate the rate applicable immediately prior to the increase; or

(2) If the issuer reduces the annual percentage rate to a rate that is lower than the rate described in paragraph (f)(1) of this section.

(g) Acquired accounts—(1) General. Except as provided in paragraph (g)(2) of this section, this section applies to
credit card accounts that have been acquired by the card issuer from another card issuer. A card issuer that complies with this section by reviewing the factors described in paragraph (d)(1)(i) must review the factors considered by the card issuer from which it acquired the accounts in connection with the rate increase.

(2) Review of acquired portfolio. If, not later than six months after the acquisition of such accounts, a card issuer reviews all of the credit card accounts it acquires in accordance with the factors that it currently considers in determining the rates applicable to its similar new credit card accounts:

(i) Except as provided in paragraph (g)(2)(iii), the card issuer is required to conduct reviews described in paragraph (a) of this section only for rate increases that are imposed as a result of its review under this paragraph. See §§ 226.9 and 226.55 for additional requirements regarding rate increases on acquired accounts.

(ii) Except as provided in paragraph (g)(2)(iii) of this section, the card issuer is not required to conduct reviews in accordance with paragraph (a) of this section for any rate increases made prior to the card issuer’s acquisition of such accounts.

(iii) If as a result of the card issuer’s review, an account is subject to, or continues to be subject to, an increased rate as a penalty, or due to the consumer’s delinquency or default, the requirements of paragraph (a) of this section apply.

(h) Exceptions—(1) Servicemembers Civil Relief Act exception. The requirements of this section do not apply to increases in an annual percentage rate that was previously decreased pursuant to 50 U.S.C. app. 527, provided that such a rate increase is made in accordance with § 226.55(b)(6).

(2) Charged off accounts. The requirements of this section do not apply to accounts that the card issuer has charged off in accordance with loan-loss provisions.

[75 FR 37572, June 26, 2010]
Favorable Determination

If the Board determines on the basis of the information before it that an exemption should be granted, notice of the exemption will be published in the Federal Register, and a copy furnished to the applicant and to each Federal official responsible for administrative enforcement.

The appropriate State official shall inform the Board within 30 days of any change in its relevant law or regulations. The official shall file with the Board such periodic reports as the Board may require.

The Board will inform the appropriate State official of any subsequent amendments to the Federal law, regulation, interpretations, or enforcement policies that might require an amendment to State law, regulations, interpretations, or enforcement procedures.

Adverse Determination

If the Board makes an initial determination that an exemption should not be granted, the Board will afford the applicant a reasonable opportunity to demonstrate further that an exemption is proper. If the Board ultimately finds that an exemption should not be granted, notice of an adverse determination will be published in the Federal Register and a copy furnished to the applicant.

Revocation of Exemption

The Board reserves the right to revoke an exemption if at any time it determines that the standards required for an exemption are not met.

Before taking such action, the Board will notify the appropriate State official of its intention, and will afford the official such opportunity as it deems appropriate in the circumstances to demonstrate that revocation is improper. If the Board ultimately finds that revocation is proper, notice of the Board’s intention to revoke such exemption will be published in the Federal Register with a reasonable period of time for interested persons to comment.
