

causes for the changes in regulatory capital ratios and any other information required by the Corporation.

(2) The description of aggregate losses and net income must include the cumulative losses and cumulative net income over the planning horizon, and the description of each regulatory capital ratio must include the beginning value, ending value, and minimum value of each ratio over the planning horizon.

(c) *Confidential treatment of information submitted.* The confidentiality of information submitted to the Corporation under this subpart and related materials will be determined in accordance with applicable law including any available exemptions under the Freedom of Information Act (5 U.S.C. 552(b)) and the FDIC's Rules and Regulations regarding the Disclosure of Information (12 CFR Part 309).

**§ 325.207 Publication of stress test results.**

(a) *Publication date.* (1) A \$10 billion to \$50 billion covered bank must publish a summary of the results of its annual stress test in the period starting June 15 and ending June 30.

(2) An over \$50 billion covered bank must publish a summary of the results of its annual stress tests in the period starting March 15 and ending March 31.

(b) *Publication method.* The summary required under this section may be published on the covered bank's Web site or in any other forum that is reasonably accessible to the public. A covered bank that is a consolidated subsidiary of a bank holding company or savings and loan holding company that is required to conduct an annual company-run stress test under applicable regulations of the Board of Governors of the Federal Reserve System will be deemed to have satisfied the public disclosure requirements under this subpart if it publishes a summary of its stress test results with its parent bank holding company's or savings and loan holding company's summary of stress test results. Subsidiary covered banks electing to satisfy their public disclosure requirement in this manner must include a summary of changes in regulatory capital ratios of such covered bank over the planning horizon, and an

explanation of the most significant causes for the changes in regulatory capital ratios.

(c) *Information to be disclosed in the summary.* A covered bank must disclose the following information regarding the severely adverse scenario if it is not a consolidated subsidiary of a parent bank holding company or savings and loan holding company that has elected to make its disclosure under section 203(d):

(1) A description of the types of risks included in the stress test;

(2) A summary description of the methodologies used in the stress test;

(3) Estimates of aggregate losses, pre-provision net revenue, provision for loan and lease losses, net income, and pro forma capital ratios (including regulatory and any other capital ratios specified by the FDIC); and

(4) An explanation of the most significant causes for the changes in the regulatory capital ratios.

(d) *Content of results.* (1) The disclosure of aggregate losses, pre-provision net revenue, provisions for loan and lease losses, and net income under this section must be on a cumulative basis over the planning horizon.

(2) The disclosure of regulatory capital ratios and any other capital ratios specified by the Corporation under this section must include the beginning value, ending value, and minimum value of each ratio over the planning horizon.

APPENDIX A TO PART 325—STATEMENT OF POLICY ON RISK-BASED CAPITAL

Capital adequacy is one of the critical factors that the FDIC is required to analyze when taking action on various types of applications and when conducting supervisory activities related to the safety and soundness of individual banks and the banking system. In view of this, the FDIC's Board of Directors has adopted part 325 of its regulations, which sets forth (1) minimum standards of capital adequacy for insured state non-member banks and (2) standards for determining when an insured bank is in an unsafe or unsound condition by reason of the amount of its capital.

This capital maintenance regulation was designed to establish, in conjunction with other Federal bank regulatory agencies, uniform capital standards for all federally-regulated banking organizations, regardless of size. The uniform capital standards were
