§ 347.210 Asset maintenance.

(a) An insured branch of a foreign bank shall maintain on a daily basis eligible assets in an amount not less than 106 percent of the preceding quarter’s average book value of the insured branch’s liabilities or, in the case of a newly-established insured branch, the estimated book value of its liabilities at the end of the first full quarter of operation, exclusive of liabilities due to the foreign bank’s head office, other branches, agencies, offices, or wholly owned subsidiaries. The Director of the Division of Supervision and Consumer Protection or his designee may impose a computation of total liabilities on a daily basis in those instances where it is found necessary for supervisory purposes. The FDIC Board of Directors, after consulting with the insured branch’s primary regulator, may require that a higher ratio of eligible assets be maintained if the financial condition of the insured branch warrants such action. Among the factors which will be considered in requiring a higher ratio of eligible assets are the concentration of risk to any one borrower or group of related borrowers, the concentration of transfer risk to any one country, including the country in which the foreign bank’s head office is located or any other factor the FDIC determines is relevant. Eligible assets shall be payable in United States dollars.

(b) In determining eligible assets for the purposes of compliance with paragraph (a) of this section, the insured branch shall exclude the following:

(1) Any asset due from the foreign bank’s head office, or its other branches, agencies, offices or affiliates;

(2) Any asset classified “Value Impaired,” to the extent of the required Allocated Transfer Risk Reserves or equivalent write down, or “Loss” in the most recent state or federal examination report;

(3) Any deposit of the insured branch in a bank unless the bank has executed a valid waiver of offset agreement;

(4) Any asset not supported by sufficient credit information to allow a review of the asset’s credit quality, as determined at the most recent state or federal examination, as follows:

(i) Whether an asset has sufficient credit information will be a function of the size of the borrower and the location within the foreign bank of the responsibility for authorizing and monitoring extensions of credit to the borrower. For large, well known companies, when credit responsibility is located in an office of the foreign bank outside the insured branch, the insured branch must have adequate documentation to show that the asset is of good quality and is being supervised adequately by the foreign bank. In such cases, copies of periodic memoranda that include an analysis of the borrower’s recent financial statements and a report on recent developments in the borrower’s operations and borrowing relationships with the foreign bank generally would constitute sufficient information. For other borrowers, periodic memoranda must be supplemented by information such as copies of recent financial statements, recent correspondence concerning the borrower’s financial condition and repayment history, credit terms and collateral, data on any guarantors, and where necessary, the status of any corrective measures being employed;

(ii) Subsequent to the determination that an asset lacks sufficient credit information, an insured branch may not include the amount of that asset among eligible assets until the FDIC determines that sufficient documentation exists. Such a determination may be made either at the next federal examination, or upon request of the insured branch, by the appropriate regional director;

(5) Any asset not in the insured branch’s actual possession unless the insured branch holds title to such asset and the insured branch maintains records sufficient to enable independent verification of the insured branch’s ownership of the asset, as determined at the most recent state or federal examination;

(6) Any intangible asset;

(7) Any other asset not considered bankable by the FDIC.

(c) A foreign bank which has more than one insured branch in a state may treat all of its insured branches in the same state as one entity for purposes of compliance with paragraph (a) of
§ 347.211 Examination of branches of foreign banks.

(a) Frequency of on-site examination. Each branch or agency of a foreign bank shall be examined on-site at least once during each 12-month period (beginning on the date the most recent examination of the office ended) by:

(1) The FRB;
(2) The FDIC, if an insured branch;
(3) The OCC, if the branch or agency of the foreign bank is licensed by the OCC; or
(4) The state supervisor, if the office of the foreign bank is licensed or chartered by the state.

(b) 18-month cycle for certain small institutions—

(1) Mandatory standards. The FDIC may conduct a full-scope, on-site examination at least once during each 18-month period, rather than each 12-month period, as provided in paragraph (a) of this section, if the insured branch:

(i) Has total assets of less than $500 million;
(ii) Has received a composite ROCA supervisory rating (which rates risk management, operational controls, compliance, and asset quality) of 1 or 2 at its most recent examination;
(iii) Satisfies the requirement of either the following paragraph (b)(ii)(A) or (B):
(A) The foreign bank’s most recently reported capital adequacy position consists of, or is equivalent to, Tier 1 and total risk-based capital ratios of at least 6 percent and 10 percent, respectively, on a consolidated basis; or
(B) The insured branch has maintained on a daily basis, over the past three quarters, eligible assets in an amount not less than 108 percent of the preceding quarter’s average third party liabilities (determined consistent with applicable federal and state law) and sufficient liquidity is currently available to meet its obligations to third parties;
(iv) Is not subject to a formal enforcement action or order by the FRB, FDIC, or the OCC; and
(v) Has not experienced a change in control during the preceding 12-month period in which a full-scope, on-site examination would have been required but for this section.

(2) Discretionary standards. In determining whether an insured branch that meets the standards of paragraph (b)(1) of this section should not be eligible for an 18-month examination cycle pursuant to this paragraph (b), the FDIC may consider additional factors, including whether:

(i) Any of the individual components of the ROCA supervisory rating of an insured branch is rated “3” or worse;
(ii) The results of any off-site monitoring indicate a deterioration in the condition of the insured branch;
(iii) The size, relative importance, and role of a particular insured branch when reviewed in the context of the foreign bank’s entire U.S. operations otherwise necessitate an annual examination; and
(iv) The condition of the parent foreign bank gives rise to such a need.

(c) Authority to conduct more frequent examinations. Nothing in paragraphs (a) and (b) of this section limits the authority of the FDIC to examine any insured branch as frequently as it deems necessary.
