

Farm Credit Administration

§615.5361

§615.5356 Notice of intent to issue a capital directive.

The Farm Credit Administration will notify an institution in writing of its intention to issue a capital directive. The notice will state:

(a) The reasons for issuance of the capital directive;

(b) The proposed contents of the capital directive, including the proposed date for achieving the minimum capital requirement; and

(c) Any other relevant information concerning the decision to issue a capital directive.

§615.5357 Response to notice.

(a) An institution may respond to the notice by stating why a capital directive should not be issued and/or by proposing alternative contents for the capital directive or seeking other appropriate relief. The response shall include any information, mitigating circumstances, documentation, or other relevant evidence that supports its position. The response may include a plan for achieving the minimum capital ratios applicable to the institution. The response must be in writing and delivered to the Farm Credit Administration within 30 days after the date on which the institution received the notice. In its discretion, the Farm Credit Administration may extend the time period for good cause. The Farm Credit Administration may shorten the 30-day time period:

(1) When, in the opinion of the Farm Credit Administration, the condition of the institution so requires, provided that the institution shall be informed promptly of the new time period;

(2) With the consent of the institution; or

(3) When the institution already has advised the Farm Credit Administration that it cannot or will not achieve its applicable minimum capital ratios.

(b) Failure to respond within 30 days or such other time period as may be specified by the Farm Credit Administration shall constitute a waiver of any objections to the proposed capital directive.

§615.5358 Decision.

After the closing date of the institution's response period, or receipt of the

institution's response, if earlier, the Farm Credit Administration may seek additional information or clarification of the response. Thereafter, the Farm Credit Administration will determine whether or not to issue a capital directive, and if one is to be issued, whether it should be as originally proposed or in modified form.

§615.5359 Issuance of a capital directive.

(a) A capital directive will be served by delivery to the institution. It will include or be accompanied by a statement of reasons for its issuance.

(b) A capital directive is effective immediately upon its receipt by the institution, or upon such later date as may be specified therein, and shall remain effective and enforceable until it is stayed, modified, or terminated by the Farm Credit Administration.

§615.5360 Reconsideration based on change in circumstances.

Upon a change in circumstances, an institution may request the Farm Credit Administration to reconsider the terms of its capital directive or may propose changes in the plan to achieve the institution's applicable minimum capital ratios. The Farm Credit Administration also may take such action on its own motion. The Farm Credit Administration may decline to consider requests or proposals that are not based on a significant change in circumstances or are repetitive or frivolous. Pending a decision on reconsideration, the capital directive and plan shall continue in full force and effect.

§615.5361 Relation to other administrative actions.

A capital directive may be issued in addition to, or in lieu of, any other action authorized by law, including cease and desist proceedings, civil money penalties, or the conditioning or denial of applications. The Farm Credit Administration also may, in its discretion, take any action authorized by law, in lieu of a capital directive, in response to an institution's failure to achieve or maintain the applicable minimum capital ratios.
