§ 1402.2 Background.

As a result of numerous electrocutions which have occurred when consumers contacted powerlines with CB base station antennas and outside TV antennas while putting these antennas up or taking them down, the Consumer Product Safety Commission has determined that it is necessary to require that warnings and instructions be furnished with these antennas and their supporting structures so that consumers can be made aware of the hazards involved and of safe ways to put up and take down these antennas. The Commission anticipates that this regulation will help protect the public against the unreasonable risk of injury associated with CB base station antennas, outside TV antennas, and supporting structures due to contact with overhead powerlines.

§ 1402.3 Definitions.

(a) The definitions in section 3 of the Consumer Product Safety Act (15 U.S.C. 2052) apply to this part 1402.

(b) Antenna supporting structures, CB base station antennas, and TV antennas are defined in § 1402.1(b)(1) through (3).

§ 1402.4 Requirements to provide performance and technical data by labeling and instructions.

(a) Notice to purchasers. Manufacturers of CB base station antennas, TV antennas, and antenna supporting structures shall give notification of performance and technical data related to performance and safety to prospective purchasers of such products at the time of original purchase and to the first purchaser of such product for purposes other than resale, in the manner set forth below.

(1) Antennas. CB base station antennas and TV antennas shall be provided with the following:
