(iv) *Report date*. The format is YYYYMMDD, where YYYY is the year, MM is the month, and DD is the day of the month.

(v) *Exchange*. This is a two-character field approved by the Commission to identify the exchange on which a position is held.

(vii) *Commodity (1)*. An exchange-assigned commodity code for the futures or options contract.

(viii) *Expiration date (1)*. The date format is YYYYMMDD and represents the expiration date or delivery date of the reported futures or options contract. For date-specific instruments such as flexible products, the full date must be reported. For other options and futures, this field is used to report the expiration year and month for an options contract or a delivery year and month for a futures contract. The day portion of the field for these contracts contains spaces.

(ix) *Strike price*. This is a signed numeric field for reporting options strike prices. The strike prices should be right-justified and the field zero-filled. Strike prices must be reported in the same formats that are used by an exchange. For futures, the field is left blank.

(x) *Exercise style*. Position data are reported on a net or gross basis in accordance with paragraphs (d) and (e) of this section.

(xii) *Commodity (2)*. The exchange assigned commodity code for a futures contract or other instrument that a position is exercised into from a date-specific or flexible option.

(xiii) *Expiration date (2)*. Similar to other dates, the format is YYYYMMDD and represents the expiration date or delivery month and year of the future or other instrument that a position is exercised into from a date-specific or flexible option.

(xiv) *Record type (1)*. Record type is used to correct errors or delete records that have previously been submitted. Valid values are “A”, “C”, “D” or “blank”. An A or “blank” is used in this field for all new records. If the record corrects information for a previously provided record, this field must contain a “C” or “blank” and the record must contain all information on the previously transmitted record. If the record deletes information on a previously provided record, this field must contain a “D” and all information on the previously transmitted record.

(h) *Correction of errors and omissions*. Unless otherwise approved by the Commission or its designee, corrections to errors and omissions in data provided pursuant to §17.00(a) shall be filed on series ‘01 forms or in the format, coding structure and data transmission procedures approved in writing by the Commission or its designee.
