

(vi) If applicable, an indication that the market participant will elect the clearing requirement exception in CEA section (2)(h)(7) for any swap resulting from the order.

(vii) If the swap will be allocated:

(A) An indication that the swap will be allocated.

(B) The legal entity identifier of the agent.

(C) An indication of whether the swap is a post-allocation swap.

(D) If the swap is a post-allocation swap, the unique swap identifier of the original transaction between the reporting counterparty and the agent.

(2) To achieve this, the swap execution facility or designated contract market must use the information obtained pursuant to paragraph (h)(1) of this section to identify the counterparty that is the reporting counterparty pursuant to the CEA and this section, wherever possible. If the swap execution facility or designated contract market cannot identify the reporting counterparty from the information available to it as specified in paragraph (h) of this section, the swap execution facility or designated contract market shall:

(i) Notify each counterparty, as soon as technologically practicable after execution of the swap, that it cannot identify whether that counterparty is the reporting counterparty, and, if applicable, that neither counterparty is a U.S. person; and

(ii) Transmit to each counterparty the LEI (or substitute identifier as provided in this section) of the other counterparty.

#### **§ 45.9 Third-party facilitation of data reporting.**

Registered entities and swap counterparties required by this part to report required swap creation data or required swap continuation data, while remaining fully responsible for reporting as required by this part, may contract with third-party service providers to facilitate reporting.

#### **§ 45.10 Reporting to a single swap data repository.**

All swap data for a given swap must be reported to a single swap data repository, which shall be the swap data re-

pository to which the first report of required swap creation data is made pursuant to this part.

(a) *Swaps executed on a swap execution facility or designated contract market.* To ensure that all swap data for a swap executed on or pursuant to the rules of a swap execution facility or designated contract market is reported to a single swap data repository:

(1) The swap execution facility or designated contract market that reports required swap creation data as required by § 45.3 shall report all such data to a single swap data repository. As soon as technologically practicable after execution, the swap execution facility or designated contract market shall transmit to both counterparties to the swap, and to the derivatives clearing organization, if any, that will clear the swap, both:

(i) The identity of the swap data repository to which required swap creation data is reported by the swap execution facility or designated contract market; and

(ii) The unique swap identifier for the swap, created pursuant to § 45.5.

(2) Thereafter, all required swap creation data and all required swap continuation data reported for the swap reported by any registered entity or counterparty shall be reported to that same swap data repository (or to its successor in the event that it ceases to operate, as provided in part 49 of this chapter).

(b) *Off-facility swaps with a swap dealer or major swap participant reporting counterparty.* To ensure that all swap data for such swaps is reported to a single swap data repository:

(1) If the reporting counterparty reports primary economic terms data to a swap data repository as required by § 45.3:

(i) The reporting counterparty shall report primary economic terms data to a single swap data repository.

(ii) As soon as technologically practicable after execution, but no later than as required pursuant to § 45.3, the reporting counterparty shall transmit to the other counterparty to the swap both the identity of the swap data repository to which primary economic terms data is reported by the reporting counterparty, and the unique swap

## 17 CFR Ch. I (4–1–13 Edition)

identifier for the swap created pursuant to § 45.5.

(iii) If the swap will be cleared, the reporting counterparty shall transmit to the derivatives clearing organization at the time the swap is submitted for clearing both the identity of the swap data repository to which primary economic terms data is reported by the reporting counterparty, and the unique swap identifier for the swap created pursuant to § 45.5.

(2) If the reporting counterparty is excused from reporting primary economic terms data as provided in § 45.3(b) or (c):

(i) Paragraph (b)(1) of this section shall not apply.

(ii) At the time the swap is submitted for clearing, the reporting counterparty shall transmit to the derivatives clearing organization the unique swap identifier for the swap created pursuant to § 45.5, and notify the derivatives clearing organization that the reporting counterparty has not reported any required swap creation data for the swap to a swap data repository.

(iii) The derivatives clearing organization shall report all required swap creation data for the swap to a single swap data repository. As soon as technologically practicable after clearing, the derivatives clearing organization shall transmit to both counterparties to the swap the identity of the swap data repository to which required swap creation data is reported by the derivatives clearing organization, and shall transmit to the non-reporting counterparty the unique swap identifier for the swap.

(3) Thereafter, all required swap creation data and all required swap continuation data reported for the swap, by any registered entity or counterparty, shall be reported to the swap data repository to which swap data has been reported pursuant to paragraph (b)(1) or (b)(2) of this section (or to its successor in the event that it ceases to operate, as provided in part 49 of this chapter).

(c) *Off-facility swaps with a non-SD/MSP reporting counterparty.* To ensure that all swap data for such swaps is reported to a single swap data repository:

(1) If the reporting counterparty reports primary economic terms data to

a swap data repository as required by § 45.3:

(i) The reporting counterparty shall report primary economic terms data to a single swap data repository.

(ii) As soon as technologically practicable after execution, but no later than as required pursuant to § 45.3, the reporting counterparty shall transmit to the other counterparty to the swap the identity of the swap data repository to which primary economic terms data was reported by the reporting counterparty.

(iii) If the swap will be cleared, the reporting counterparty shall transmit to the derivatives clearing organization at the time the swap is submitted for clearing the identity of the swap data repository to which primary economic terms data was reported by the reporting counterparty.

(2) If the reporting counterparty will be excused from reporting primary economic terms data as provided in § 45.3(b) or (c):

(i) Paragraph (c)(1) of this section shall not apply.

(ii) At the time the swap is submitted for clearing, the reporting counterparty shall notify the derivatives clearing organization that the reporting counterparty has not reported any required swap creation data for the swap to a swap data repository.

(iii) The derivatives clearing organization shall report all required swap creation data for the swap to a single swap data repository. As soon as technologically practicable after clearing, the derivatives clearing organization shall transmit to both counterparties to the swap the identity of the swap data repository to which required swap creation data is reported by the derivatives clearing organization.

(3) The swap data repository to which the swap is reported as provided in paragraph (c) of this section shall transmit the unique swap identifier created pursuant to § 45.5 to both counterparties and to the derivatives clearing organization, if any, as soon as technologically practicable after creation of the unique swap identifier.

(4) Thereafter, all required swap creation data and all required swap continuation data reported for the swap, by any registered entity or

counterparty, shall be reported to the swap data repository to which swap data has been reported pursuant to paragraph (c)(1) or (2) of this section (or to its successor in the event that it ceases to operate, as provided in part 49 of this chapter).

**§ 45.11 Data reporting for swaps in a swap asset class not accepted by any swap data repository.**

(a) Should there be a swap asset class for which no swap data repository registered with the Commission currently accepts swap data, each registered entity or counterparty required by this part to report any required swap creation data or required swap continuation data with respect to a swap in that asset class must report that same data to the Commission.

(b) Data reported to the Commission pursuant to this section shall be reported at times announced by the Commission and in an electronic file in a format acceptable to the Commission.

(c) Delegation of authority to the Chief Information Officer: The Commission hereby delegates to its Chief Information Officer, until the Commission orders otherwise, the authority set forth in paragraph (c) of this section, to be exercised by the Chief Information Officer or by such other employee or employees of the Commission as may be designated from time to time by the Chief Information Officer. The Chief Information Officer may submit to the Commission for its consideration any matter which has been delegated in this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph. The authority delegated to the Chief Information Officer by paragraph (c) of this section shall include:

(1) The authority to determine the manner, format, coding structure, and electronic data transmission standards and procedures acceptable to the Commission for the purposes of paragraphs (a) and (b) of this section.

(2) The authority to determine whether the Commission may permit or require use by reporting entities or counterparties in reporting pursuant to this section of one or more particular data standards (such as FIX, FpML,

ISO 20022, or some other standard), in order to accommodate the needs of different communities of users.

(3) The dates and times at which required swap creation data or required swap continuation data shall be reported pursuant to this section.

(d) The Chief Information Officer shall publish from time to time in the FEDERAL REGISTER and on the Web site of the Commission the format, data schema, electronic data transmission methods and procedures, and dates and times for reporting acceptable to the Commission with respect to swap data reporting pursuant to this section.

**§ 45.12 Voluntary supplemental reporting**

(a) For purposes of this section, the term *voluntary, supplemental report* means any report of swap data to a swap data repository that is not required to be made pursuant to this part or any other part in this chapter.

(b) A voluntary, supplemental report may be made only by a counterparty to the swap in connection with which the voluntary, supplemental report is made, or by a third-party service provider acting on behalf of a counterparty to the swap.

(c) A voluntary, supplemental report may be made either to the swap data repository to which all required swap creation data and all required swap continuation data is reported for the swap pursuant to §§ 45.3 and 45.10, or to a different swap data repository.

(d) A voluntary, supplemental report must contain:

(1) An indication that the report is a voluntary, supplemental report.

(2) The unique swap identifier created pursuant to §§ 45.5 and 45.9. Therefore, no voluntary, supplemental report may be made until after the unique swap identifier has been created pursuant to §§ 45.5 and 45.9 and has been transmitted to the counterparty making the voluntary, supplemental report.

(3) The identity of the swap data repository to which all required swap creation data and all required swap continuation data is reported for the swap pursuant to §§ 45.3 and 45.10, if the voluntary supplemental report is made to a different swap data repository.
