

§ 2.4

18 CFR Ch. I (4–1–13 Edition)

the Federal department having supervision over the lands or waterways involved.

[Order 141, 12 FR 8471, Dec. 19, 1947. Redesignated by Order 147, 13 FR 8259, Dec. 23, 1948]

§ 2.4 Suspension of rate schedules.

The Commission approved and adopted on May 29, 1945, the following conclusions as to its powers of suspension of rate schedules under section 205 of the act:

(a) The Commission cannot suspend a rate schedule after its effective date.

(b) The Commission can suspend any new schedule making any change in an existing filed rate schedule, including any rate, charge, classification, or service, or in any rule, regulation, or contract relating thereto, contained in the filed schedule.

(c) Included in such changes which may be suspended are:

- (1) Increases.
- (2) Reductions.
- (3) Discriminatory changes.
- (4) Cancellation or notice of termination.

(5) Changes in classification, service, rule, regulation or contract.

(d) Immaterial, unimportant or routine changes will not be suspended.

(e) During suspension, the prior existing rate schedule continues in effect and should not be changed during suspension.

(f) Changes under escalator clauses may be suspended as changes in existing filed schedules.

(g) Suspension of a rate schedule, within the ambit of the Commission's statutory authority is a matter within the discretion of the Commission.

(Natural Gas Act, 15 U.S.C. 717–717w (1976 & Supp. IV 1980); Federal Power Act, 16 U.S.C. 791a–828c (1976 & Supp. IV 1980); Dept. of Energy Organization Act, 42 U.S.C. 7101–7352 (Supp. IV 1980); E.O. 12009, 3 CFR part 142 (1978); 5 U.S.C. 553 (1976))

§ 2.7 Recreational development at licensed projects.

The Commission will evaluate the recreational resources of all projects under Federal license or applications

therefor and seek, within its authority, the ultimate development of these resources, consistent with the needs of the area to the extent that such development is not inconsistent with the primary purpose of the project. Reasonable expenditures by a licensee for public recreational development pursuant to an approved plan, including the purchase of land, will be included as part of the project cost. The Commission will not object to licensees and operators of recreational facilities within the boundaries of a project charging reasonable fees to users of such facilities in order to help defray the cost of constructing, operating, and maintaining such facilities. The Commission expects the licensee to assume the following responsibilities:

(a) To acquire in fee and include within the project boundary enough land to assure optimum development of the recreational resources afforded by the project. To the extent consistent with the other objectives of the license, such lands to be acquired in fee for recreational purposes shall include the lands adjacent to the exterior margin of any project reservoir plus all other project lands specified in any approved recreational use plan for the project.

(b) To develop suitable public recreational facilities upon project lands and waters and to make provisions for adequate public access to such project facilities and waters and to include therein consideration of the needs of persons with disabilities in the design and construction of such project facilities and access.

(c) To encourage and cooperate with appropriate local, State, and Federal agencies and other interested entities in the determination of public recreation needs and to cooperate in the preparation of plans to meet these needs, including those for sport fishing and hunting.

(d) To encourage governmental agencies and private interests, such as operators of user-fee facilities, to assist in carrying out plans for recreation, including operation and adequate maintenance of recreational areas and facilities.

(e) To cooperate with local, State, and Federal Government agencies in planning, providing, operating, and

Federal Energy Regulatory Commission

§ 2.12

maintaining facilities for recreational use of public lands administered by those agencies adjacent to the project area.

(f)(1) To comply with Federal, State and local regulations for health, sanitation, and public safety, and to cooperate with law enforcement authorities in the development of additional necessary regulations for such purposes.

(2) To provide either by itself or through arrangement with others for facilities to process adequately sewage, litter, and other wastes from recreation facilities including wastes from watercraft, at recreation facilities maintained and operated by the licensee or its concessionaires.

(g) To ensure public access and recreational use of project lands and waters without regard to race, color, sex, religious creed or national origin.

(h) To inform the public of the opportunities for recreation at licensed projects, as well as of rules governing the accessibility and use of recreational facilities.

[Order 313, 30 FR 16198, Dec. 29, 1965, as amended by Order 375-B, 35 FR 6315, Apr. 18, 1970; Order 508, 39 FR 16338, May 8, 1974; Order 2002, 68 FR 51115, Aug. 25, 2003]

§ 2.8 [Reserved]

§ 2.9 Conditions in preliminary permits and licenses—list of and citations to “P—” and “L—” forms.

(a) The Commission has approved several sets of standard conditions for normal inclusion in preliminary permits or licenses for hydroelectric developments. In a special situation, of course, the Commission in issuing a permit or license for a project will modify or eliminate a particular article (condition). For reference purposes the sets of conditions are designated as “Forms”—those for preliminary permits are published in Form P-1, and those for licenses are published in Form L’s. There are different Form L’s for different types of licenses, and the forms have been revised from time to time. Thus at any given time there will be several series of standard forms applicable to the various vintages of different types of licenses. The forms and their revisions are published on the

Commission’s Web site (www.ferc.gov/industries/hydropower/gen-info/comp-admin/l-forms.asp).

(b) Forms currently in use may be obtained on the Commission’s Web site or from Federal Energy Regulatory Commission, Washington, DC 20426.

(Secs. 3, 4, 15, 16, 301, 304, 308, and 309 (41 Stat. 1063–1066, 1068, 1072, 1075; 49 Stat. 838, 839, 840, 841, 854–856, 858–859; 82 Stat. 617; 16 U.S.C. 796, 797, 803, 808, 809, 816, 825, 825b, 825c, 825g, 825h, 826i), as amended, secs. 8, 10, and 16 (52 Stat. 825–826, 830; 15 U.S.C. 717g, 717i, 717o))

[Order 348, 32 FR 8521, June 14, 1967, as amended by Order 540, 40 FR 51998, Nov. 7, 1975; Order 567, 42 FR 30612, June 16, 1977; Order 699, 72 FR 45323, Aug. 14, 2007; Order 737, 75 FR 43402, July 26, 2010; Order 756, 77 FR 4893, Feb. 1, 2012]

§ 2.12 Calculation of taxes for property of public utilities and licensees constructed or acquired after January 1, 1970.

Pursuant to the provisions of section 441(a)(4)(A) of the Tax Reform Act of 1969, 83 Stat. 487, 625, public utilities and licensees regulated by the Commission under the Federal Power Act which have exercised the option provided by that section to change from flow through accounting will be permitted by the Commission, with respect to liberalized depreciation, to employ a normalization method for computing federal income taxes in their accounts and annual reports with respect to property constructed or acquired after January 1, 1970, to the extent with which such property increases the productive or operational capacity of the utility and is not a replacement of existing capacity. Such normalization will also be permitted for ratemaking purposes to the extent such rates are subject to the Commission’s ratemaking authority. As to balances in Account 282 of the Uniform System of Accounts, “Accumulated deferred income taxes—Other property,” it will remain the Commission’s policy
