Food and Drug Administration, HHS

§ 111.130

(rev 6/30/2014)

modifications to the master manufacturing records;
(2) Reviewing and approving all batch production-related records;
(3) Reviewing all monitoring required under subpart E;
(4) Conducting any required material review and making any required disposition decision;
(5) Approving or rejecting any reprocessing;
(6) Determining whether all in-process specifications established in accordance with §111.70(c) are met;
(7) Determining whether each finished batch conforms to product specifications established in accordance with §111.70(e); and
(8) Approving and releasing, or rejecting, each finished batch for distribution, including any reprocessed finished batch.

(b) Quality control personnel must not approve and release for distribution:
(1) Any batch of dietary supplement for which any component in the batch does not meet its identity specification;
(2) Any batch of dietary supplement, including any reprocessed batch, that does not meet all product specifications established in accordance with §111.70(e);
(3) Any batch of dietary supplement, including any reprocessed batch, that has not been manufactured, packaged, labeled, and held under conditions to prevent adulteration under section 402(a)(1), (a)(2), (a)(3), and (a)(4) of the act; and
(4) Any product received from a supplier for packaging or labeling as a dietary supplement (and for distribution rather than for return to the supplier) for which sufficient assurance is not provided to adequately identify the product and to determine that the product is consistent with your purchase order.

§ 111.127 What quality control operations are required for packaging and labeling operations?

Quality control operations for packaging and labeling operations must include:
(a) Reviewing the results of any visual examination and documentation to ensure that specifications established under §111.70(f) are met for all products that you receive for packaging and labeling as a dietary supplement (and for distribution rather than for return to the supplier);
(b) Approving, and releasing from quarantine, all products that you receive for packaging or labeling as a dietary supplement (and for distribution rather than for return to the supplier) before they are used for packaging or labeling;
(c) Reviewing and approving all records for packaging and label operations;
(d) Determining whether the finished packaged and labeled dietary supplement conforms to specifications established in accordance with §111.70(g);
(e) Conducting any required material review and making any required disposition decision;
(f) Approving or rejecting any repackaging of a packaged dietary supplement;
(g) Approving or rejecting any relabeling of a packaged and labeled dietary supplement; and
(h) Approving for release, or rejecting, any packaged and labeled dietary supplement (including a repackaged or relabeled dietary supplement) for distribution.

§ 111.130 What quality control operations are required for returned dietary supplements?

Quality control operations for returned dietary supplements must include:
(a) Conducting any required material review and making any required disposition decision; including:
(1) Determining whether tests or examination are necessary to determine compliance with product specifications established in accordance with §111.70(e); and
(2) Reviewing the results of any tests or examinations that are conducted to determine compliance with product specifications established in accordance with §111.70(e);
(b) Approving or rejecting any salvage and redistribution of any returned dietary supplement;
