

§ 904.205

(i) An overload of information should be avoided in this phase since many of the subjects will be dealt with in greater depth after the family is in occupancy, and experience has shown that much of the information will be more relevant at that time.

(ii) This phase should be completed for each family before the beginning of its occupancy.

(2) *Move-in phase.* During this phase, the counseling and training staff should be available to the homebuyers on an individual basis. Services may include (i) inspecting the units, interior and exterior, with the homebuyers and a representative of the LHA, (ii) testing appliances and equipment, (iii) providing information on the moving process (packing, trucks, etc.), and (iv) assisting homebuyers in making adjustments occasioned by the move, serving as liaison among homebuyers, LHA, builder and other agencies, and assisting homebuyers in meeting new neighbors.

(3) *Post-occupancy phase.* Before this phase begins, a period (possibly one month) should elapse to allow homebuyers an opportunity to adjust to their new surroundings. This is a time when new questions and problems come to light that can be dealt with in further counseling and training. This phase should be designed to cover many of the same basic subjects as the pre-occupancy phase, both by review and refresher where necessary but in much greater depth.

(4) *Assistance to the HBA.* The parties responsible for the counseling and training program shall be responsible for the formation, incorporation, and development of the HBA, including the execution of the Recognition Agreement between the LHA and HBA, as provided in subpart D of this part.

§ 904.205 Training methodology.

Equal in importance to the content of the pre- and post-occupancy training is the training methodology. Because groups vary, there should be adaptability in the communication and learning experience. Methods to be utilized may include group presentations, small discussion groups, special classes, and workshops. Especially important to a successful program are indi-

vidual family home visits for discussion and instruction on unique problems and operation of equipment.

§ 904.206 Funding.

(a) *Source of funds.* For purpose of funding counseling and training pursuant to this subpart and for establishing the HBA, the LHA shall include an amount equal to \$500 per dwelling unit in the development cost budget. If additional funds should be needed for any of these purposes, the LHA with the assistance of the CPC, if any, shall explore all other possible sources of services and funds.

(b) *Planned use of \$500-per-unit funds.* These funds are to be used to pay for:

(1) Pre- and post-occupancy counseling and training;

(2) Establishment and initial operation of the HBA (for operation in the management phase, see § 904.305).

In planning the use of these funds, the LHA shall recognize that for a number of years after the initial counseling and training there is likely to be some turnover and follow-up counseling and training needs. Therefore, the LHA shall limit the amounts for the counseling and training of the initial homebuyers and shall reserve a reasonable amount for future counseling and training needs during the management phase of the development.

(c) *Period of availability of \$500-per-unit funds.* These funds shall be available during the development phase, and a specific amount shall be set aside, in accordance with paragraph (b) of this section, to be used for ongoing needs after the close of the development period.

(d) *Budgeting of \$500-per-unit funds.* (1) The Development Cost Budget submitted with the Development Program shall include an estimated amount for counseling and training program costs. However, such costs shall not be incurred until after HUD approval of the counseling and training program.

(2) Upon HUD approval of the counseling and training program, the LHA shall include the approved amount in its Contract Award Development Cost Budget. This amount shall constitute the maximum amount that may be included for such purposes in the project development cost; provided that, if the
