**§ 167.15 Control of livestock disease and introduction of livestock.**

(a) The District Grazing Committees with the approval of the Superintendent shall require livestock to be dipped, vaccinated, inspected and be restricted in movement when necessary to prevent the introduction and spread of contagious or infectious disease in the economic interest of the Navajo stock owners. Upon the recommendation of the District Grazing Committee livestock shall be dipped annually when such dipping is necessary to prevent the spread of contagious diseases. These annual dippings shall be completed on or before September 1st each year. Livestock, however, may be dipped at other times when necessary. The Superintendent or his authorized representative and the District Grazing Committee may also require the rounding up of cattle, horses, mules, etc., in each District for the purpose of inspection for disease, vaccinating, branding and other related operations.

(b) No livestock shall be brought onto the Reservation without a permit issued by the Superintendent or his authorized representative following inspection, in order to safeguard Indian livestock from infections and contagious disease and to insure the introduction of good quality sires and breeding stock.

(c) Any unusual disease conditions beyond the control measures provided herein shall be immediately reported by the District Grazing Committee to the Chairman of the Navajo Tribal Council and the Superintendent who shall attempt to obtain specialists and provide emergency funds to control and suppress the disease.

**§ 167.16 Fences.**

Favorable recommendation from the District Grazing Committee and a written authorization from the Superintendent or his authorized representative must be secured before any fences may be constructed in non-agricultural areas. The District Grazing Committee shall recommend to the Superintendent the removal of unauthorized

existing fences, or fences enclosing demonstration areas no longer used as such, if it is determined that such fences interfere with proper range management or an equitable distribution of range privileges. All enclosures fenced for the purpose of protecting agricultural land shall be kept to a size commensurate with the needs for protection of agricultural land and must be enclosed by legal four strand barbed wire fence or the equivalent.

**§ 167.17 Construction near permanent livestock water developments.**

(a) The District Grazing Committee shall regulate the construction of all dwellings, corrals and other structures within one-half mile of Government or Navajo Tribal developed permanent livestock waters such as springs, wells, and charcos or deep reservoirs.

(b) A written authorization from the District Grazing Committee must be secured before any dwellings, corrals, or other structures may be constructed within one-half mile of Government or Navajo Tribal developed springs, wells and charcos or deep reservoirs.

(c) No sewage disposal system shall be authorized to be built which will drain into springs or stream channels in such a manner that it would cause contamination of waters being used for livestock or human consumption.

### § 168.4 Establishment of range units.

The Area Director will use Soil and Range Inventory data to establish range units on the Hopi Partitioned Area to provide for a surface land management program to restore the land to its full grazing potential and maintain that potential to the maximum extent feasible. The establishment of range

### § 168.6 Grazing on range units authorized by permit.

Grazing use on range units is authorized only by permits granted under paragraph (a) or (b) of this section.

(a) *Grazing permits to Hopi tribal members on their partitioned lands.* The Area Director shall assign grazing privileges to the Hopi Tribe for lands within Hopi Partitioned Lands. The annual Hopi grazing fee shall be paid in full in advance of the annual effective date of the permit, prior to the issuance of a grazing permit. All interim permits will expire at the end of the period provided for completion of relocation, Pub. L. 99-190. Failure of the permittee to make payment in full in advance will be cause to deny issuance of the grazing permit.

Fencing of other areas in the former Joint Use Area will be required for a range recovery program in accordance with the range units established under § 168.4. Such fencing shall be erected at Government expense and ownership shall be clearly identified by appropriate posting on the fencing. Intentional destruction of Federal property will be treated as a violation of 18 U.S.C. 1164.

**§ 168.14 Livestock trespass.**

The owner of any livestock grazing in trespass on the Hopi Partitioned Lands Area is liable to a civil penalty of \$1 per head per day for each animal in trespass, together with the replacement value of the forage consumed and a reasonable value for damages to property injured or destroyed. (d) The grazing of livestock by permittees upon any land withdrawn from use for grazing purpose to protect it from damage, after the receipt of notice from the Area Director; and

(e) Grazing livestock in excess of those numbers and kinds authorized on a livestock grazing permit approved by the Area Director.

**§ 168.15 Control of livestock diseases and parasites.**

Whenever livestock within the Hopi Partitioned Lands become infected with contagious or infectious diseases or parasites or have been exposed thereto, such livestock must be treated and the movement thereof restricted in accordance with applicable laws.

**§ 168.16 Impoundment and disposal of unauthorized livestock.**

Unauthorized livestock within any range unit of the Hopi Partitioned Lands which are not removed therefrom within the periods prescribed by the regulation will be impounded and disposed of by the Superintendent as provided herein.

(a) When the Area Director determines that unauthorized livestock use is occurring and has definite knowledge of the kind of unauthorized livestock, and knows the name and address of the owners, such livestock may be impounded any time five days after written notice of intent to impound unauthorized livestock is mailed by certified mail or personally delivered to such owners or their agent.

(b) When the Area Director determines that unauthorized livestock use is occurring but does not have complete knowledge of the number and

§ 168.17

25 CFR Ch. I (4-1-13 Edition)

class of livestock or if the name and address of the owner thereof are unknown, such livestock will be impounded anytime 15 days after the date of a General Notice of Intent to Impound unauthorized livestock is first published in the local newspaper, posted at the nearest chapter house, and in one or more local trading posts.

(c) Unauthorized livestock on the Hopi Partitioned Lands which are owned by persons given notice under paragraph (a) of this section, and any unauthorized livestock in areas for which a notice has been posted and published under paragraph (b) of this section, will be impounded without further notice anytime within the twelve-month period immediately following the effective date of the notice.

(d) Following the impoundment of unauthorized livestock a notice of sale of impounded livestock will be published in the local newspaper, posted at the nearest chapter house, and in one or more local trading posts. The notice will describe the livestock and specify the date, time and place of sale. The date set shall be at least 5 days after the publication and posting of such notice.

(e) The owners or their agent may redeem the livestock anytime before the time set for the sale by submitting proof of ownership and paying for all expenses incurred in gathering, impounding and feeding or pasturing the livestock and any trespass fees and/or damages caused by the animals.

(f) Livestock erroneously impounded shall be returned to the rightful owner and all expenses accruing thereto shall be waived.

(g) If the livestock are not redeemed before the time fixed for their sale, they shall be sold at public sale to the highest bidder, provided his bid is at or above the minimum amount set by the Superintendent based upon U.S.D.A.'s current Agricultural Statistic's Report for Arizona. If a bid at or above the minimum is not received the livestock may be sold at private sale at or above the minimum amount, reoffered at public sale, condemned and destroyed, or otherwise disposed of. When livestock are sold pursuant to this regulation, the superintendent shall furnish

the buyer a bill of sale or other written instrument evidencing the sale.

(h) The proceeds of any sale of impounded livestock shall be applied as follows:

(1) To the payment of all expenses incurred by the United States in gathering, impounding, and feeding or pasturing the livestock;

(2) In payment of any penalties or damages assessed pursuant to §168.14 of this part which penalties or damages shall be credited to the Hopi tribe as provided in said section;

(3) Any remaining amount shall be paid over to the owner of said livestock upon his submitting proof of ownership.

Any proceeds remaining after payment of the first and second items noted above not claimed with one year from the date of sale, will be credited to the Hopi Tribe.

(5) *Conservation practice* is a program consisting of a series of acts in conformance with the Bureau's range management policies and procedures which

maintains or seeks to achieve the grazing potential of range lands on a continuing basis.

(6) *Range restoration activities* is a program consisting of a series of range management acts, including but not limited to procedures which increase range forage production, reduce erosion, improve range usability and reduce stocking by issuing grazing permits to persons residing on Hopi partitioned lands at rates which maximize the carrying capacity of the range lands on a continuing basis.

(7) *Grazing control* is a program consisting of a series of range management acts, including but not limited to procedures by which grazing permits are issued to persons residing on Hopi partitioned lands, which limit the grazing on range lands to its carrying capacity.

(b) The Area Director will seek the participation of the Hopi Tribe in his investigation, formulation and planning of conservation practices for Hopi partitioned lands. The Area Director will submit, in writing, the proposed plan to the Hopi Tribe.

(c) Upon receipt of the Area Director's proposed conservation practices, the Hopi Tribe will deliver, in writing, to the Area Director its concurrence or non-concurrence on all of the proposed conservation practices in a timely manner. The Area Director will continue to seek Hopi Tribal participation during the review process.

(d) Concurrence of the Hopi Tribe will be sought on all conservation practices, range restoration activities, and grazing control programs on the Hopi Partitioned Lands.

(1) If the Area Director and the Hopi Tribe concur on all or part of the proposed conservation practices in writing in a timely manner, those practices concurred upon may be immediately implemented.

(2) If the Hopi Tribe does not concur on all or part of the proposed conservation practices in a timely manner, the Area Director will submit in writing to the Hopi Tribe a declaration of non-concurrence. The Area Director will then notify the Hopi Tribe in writing of a formal hearing to be held not sooner than 15 days from the date of the non-concurrence declaration.

(i) The formal hearing on non-concurrence will permit the submission of written evidence and argument concerning the proposal. Minutes of the hearing will be taken. Following the hearing, the Area Director may amend, alter or otherwise change his proposed conservation practices. Except as provided in §168.17(d)(1) of this section, if following the hearing, the Area Director altered or amends portions of his proposed plan of action, he will submit those individual altered or amended portions of the plan to the Tribe in a timely manner for their concurrence.

(ii) In the event the Tribe fails or refuses to give its concurrence to the proposal at the hearing, then the implementation of such proposal may only be undertaken in those situations where the Area Director expressly determines in a written order, based upon findings of fact, that the proposed action is necessary to protect the rights and property of life tenants and/or persons awaiting relocation.
