

§ 36.605

(2) After considering the information received in response to the notice described in paragraph (a) of this section, and after publishing a separate notice in the FEDERAL REGISTER, hold an informal hearing, in the State or local jurisdiction charged with administration and enforcement of the code, at which interested individuals, including individuals with disabilities, are provided an opportunity to express their views with respect to the preliminary determination of equivalency; and

(b) The Assistant Attorney General, after consultation with the Architectural and Transportation Barriers Compliance Board and consideration of the materials and information submitted pursuant to this section, as well as information provided previously by the submitting official, shall issue either a certification of equivalency or a final determination to deny the request for certification. The Assistant Attorney General shall publish notice of the certification of equivalency or denial of certification in the FEDERAL REGISTER.

[Order No. 1513-91, 56 FR 35592, July 26, 1991, redesignated and amended by AG Order No. 3181-2010, 75 FR 56257, Sept. 15, 2010]

§ 36.605 Procedure following preliminary denial of certification.

(a) If the Assistant Attorney General makes a preliminary determination to deny certification of a code under § 36.603, he or she shall notify the submitting official of the determination. The notification may include specification of the manner in which the code could be amended in order to qualify for certification.

(b) The Assistant Attorney General shall allow the submitting official not less than 15 days to submit data, views, and arguments in opposition to the preliminary determination to deny certification. If the submitting official does not submit materials, the Assistant Attorney General shall not be required to take any further action. If the submitting official submits materials, the Assistant Attorney General shall evaluate those materials and any other relevant information. After evaluation of any newly submitted materials, the Assistant Attorney General shall make either a final denial of cer-

28 CFR Ch. I (7-1-13 Edition)

tification or a preliminary determination of equivalency.

[Order No. 1513-91, 56 FR 35592, July 26, 1991, redesignated and amended by AG Order No. 3181-2010, 75 FR 56258, Sept. 15, 2010]

§ 36.606 Effect of certification.

(a)(1) A certification shall be considered a certification of equivalency only with respect to those features or elements that are both covered by the certified code and addressed by the standards against which equivalency is measured.

(2) For example, if certain equipment is not covered by the code, the determination of equivalency cannot be used as evidence with respect to the question of whether equipment in a building built according to the code satisfies the Act's requirements with respect to such equipment. By the same token, certification would not be relevant to construction of a facility for children, if the regulations against which equivalency is measured do not address children's facilities.

(b) A certification of equivalency is effective only with respect to the particular edition of the code for which certification is granted. Any amendments or other changes to the code after the date of the certified edition are not considered part of the certification.

(c) A submitting official may reapply for certification of amendments or other changes to a code that has already received certification.

(d) When the standards of the Act against which a code is deemed equivalent are revised or amended substantially, a certification of equivalency issued under the preexisting standards is no longer effective, as of the date the revised standards take effect. However, construction in compliance with a certified code during the period when a certification of equivalency was effective shall be considered rebuttable evidence of compliance with the Standards then in effect as to those elements of buildings and facilities that comply with the certified code. A submitting official may reapply for certification

pursuant to the Act's revised standards, and, to the extent possible, priority will be afforded the request in the review process.

[Order No. 1513-91, 56 FR 35592, July 26, 1991, redesignated and amended by AG Order No. 3181-2010, 75 FR 56258, Sept. 15, 2010]

§ 36.607 Guidance concerning model codes.

Upon application by an authorized representative of a private entity responsible for developing a model code, the Assistant Attorney General may review the relevant model code and issue guidance concerning whether and in what respects the model code is consistent with the minimum requirements of the Act for the accessibility and usability of places of public accommodation and commercial facilities under this part.

[Order No. 1513-91, 56 FR 35592, July 26, 1991, redesignated by AG Order No. 3181-2010, 75 FR 56258, Sept. 15, 2010]

APPENDIX A TO PART 36—GUIDANCE ON REVISIONS TO ADA REGULATION ON NONDISCRIMINATION ON THE BASIS OF DISABILITY BY PUBLIC ACCOMMODATIONS AND COMMERCIAL FACILITIES

NOTE: This Appendix contains guidance providing a section-by-section analysis of the revisions to 28 CFR part 36 published on September 15, 2010.

SECTION-BY-SECTION ANALYSIS AND RESPONSE TO PUBLIC COMMENTS

This section provides a detailed description of the Department's changes to the title III regulation, the reasoning behind those changes, and responses to public comments received on these topics. The Section-by-Section Analysis follows the order of the title III regulation itself, except that if the Department has not changed a regulatory section, the unchanged section has not been mentioned.

SUBPART A—GENERAL

SECTION 36.104 DEFINITIONS

“1991 Standards” and “2004 ADAAG”

The Department has included in the final rule new definitions of both the “1991 Standards” and the “2004 ADAAG.” The term “1991 Standards” refers to the ADA Standards for Accessible Design, originally published on July 26, 1991, and republished as Appendix D to 28 CFR part 36. The term “2004 ADAAG” refers to ADA Chapter 1, ADA Chapter 2, and

Chapters 3 through 10 of the Americans with Disabilities Act and the Architectural Barriers Act Accessibility Guidelines, which were issued by the Access Board on July 23, 2004, codified at 36 CFR 1191, app. B and D (2009), and which the Department has adopted in this final rule. These terms are included in the definitions section for ease of reference.

“2010 Standards”

The Department has added to the final rule a definition of the term “2010 Standards.” The term “2010 Standards” refers to the 2010 ADA Standards for Accessible Design, which consist of the 2004 ADAAG and the requirements contained in subpart D of 28 CFR part 36.

“Direct Threat”

The final rule moves the definition of direct threat from § 36.208(b) to the definitions section at § 36.104. This is an editorial change. Consequently, § 36.208(c) becomes § 36.208(b) in the final rule.

“Existing Facility”

The 1991 title III regulation provided definitions for “new construction” at § 36.401(a) and “alterations” at § 36.402(b). In contrast, the term “existing facility” was not explicitly defined, although it is used in the statute and regulations for titles II and III. *See, e.g.,* 42 U.S.C. 12182(b)(2)(A)(iv); 28 CFR 35.150. It has been the Department's view that newly constructed or altered facilities are also existing facilities subject to title III's continuing barrier removal obligation, and that view is made explicit in this rule.

The classification of facilities under the ADA is neither static nor mutually exclusive. Newly constructed or altered facilities are also existing facilities. A newly constructed facility remains subject to the accessibility standards in effect at the time of design and construction, with respect to those elements for which, at that time, there were applicable ADA Standards. That same facility, however, after construction, is *also* an existing facility, and subject to the public accommodation's continuing obligation to remove barriers where it is readily achievable to do so. The fact that the facility is also an existing facility does not relieve the public accommodation of its obligations under the new construction requirements of this part. Rather, it means that in addition to the new construction requirements, the public accommodation has a continuing obligation to remove barriers that arise, or are deemed barriers, only after construction. Such barriers include but are not limited to the elements that are first covered in the 2010 Standards, as that term is defined in § 36.104.
