§ 115.116

(3) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
(4) Any other relevant factors.

(b) In circumstances where the staffing plan is not complied with, the lockup shall document and justify all deviations from the plan.

(c) Whenever necessary, but no less frequently than once each year, the lockup shall assess, determine, and document whether adjustments are needed to:
   (1) The staffing plan established pursuant to paragraph (a) of this section;
   (2) Prevailing staffing patterns;
   (3) The lockup’s deployment of video monitoring systems and other monitoring technologies; and
   (4) The resources the lockup has available to commit to ensure adequate staffing levels.

(d) If vulnerable detainees are identified pursuant to the screening required by § 115.141, security staff shall provide such detainees with heightened protection, to include continuous direct sight and sound supervision, single-cell housing, or placement in a cell actively monitored on video by a staff member sufficiently proximate to intervene, unless no such option is determined to be feasible.

§ 115.114 Juveniles and youthful detainees.

Juveniles and youthful detainees shall be held separately from adult detainees.

§ 115.115 Limits to cross-gender viewing and searches.

(a) The lockup shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

(b) The lockup shall document all cross-gender strip searches and cross-gender visual body cavity searches.

(c) The lockup shall implement policies and procedures that enable detainees to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an area where detainees are likely to be showering, performing bodily functions, or changing clothing.

(d) The lockup shall not search or physically examine a transgender or intersex detainee for the sole purpose of determining the detainee’s genital status. If the detainee’s genital status is unknown, it may be determined during conversations with the detainee, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

(e) The agency shall train law enforcement staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex detainees, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

§ 115.116 Detainees with disabilities and detainees who are limited English proficient.

(a) The agency shall take appropriate steps to ensure that detainees with disabilities (including, for example, detainees who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with detainees who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with detainees with disabilities, including detainees who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An
