

be explored for accomplishing a portion of the work.

(iv) The DoD Components may propose to the ASD (P&L) other criteria for exempting CAs for national defense reasons.

(2) *No satisfactory commercial source available.* A DoD commercial activity may be performed by DoD personnel when it can be demonstrated that:

(i) There is no satisfactory commercial source capable of providing the product or service that is needed. Before concluding that there is no satisfactory commercial source available, the DoD Component shall make all reasonable efforts to identify available sources.

(A) DoD Components' efforts to find satisfactory commercial sources shall be carried out in accordance with the FAR and Defense FAR Supplement (DFAS) including review of bidders lists and inventories of contractors, consideration of preferential procurement programs, and requests for help from Government agencies such as the Small Business Administration.

(B) Where the availability of commercial sources is uncertain, the DoD Component will place up to three notices of the requirement in the *Commerce Business Daily* (CBD) over a 90-day period. (Notices will be in the format specified in FAR, 48 CFR part 5 and part 7, subpart 7.3) When a bona fide urgent requirement occurs, the publication period in the CBD may be reduced to two notices, 15 days apart. Specifications and requirements in the notice will not be unduly restrictive and will not exceed those required of Government personnel or operations.

(ii) Use of a commercial source would cause an unacceptable delay or disruption of an essential program. In-house operation of a commercial activity on the basis that use of a commercial source would cause an unacceptable delay or disrupt an essential DoD program requires a specific documented explanation.

(A) The delay or disruption must be specific as to cost, time, and performance measures.

(B) The disruption must be shown to be a lasting or unacceptable nature. Temporary disruption caused by con-

version to contract is not sufficient support for the use of this criteria.

(C) The fact that a DoD commercial activity involves a classified program, or is part of a DoD Component's basic mission, or that there is the possibility of a strike by contract employees is not adequate reason for Government performance of that activity. Further, urgency alone is not an adequate reason to continue Government operation of a commercial activity. It must be shown that commercial sources are not able, and the Government is able, to provide the product or service when needed.

(D) Use of an exemption due to an unacceptable delay or disruption of an essential program shall be approved by the DoD Component's central point of contact office. This authority may be redelegated.

(3) *Patient Care.* Commercial activities at DoD hospitals may be performed by DoD personnel when it is determined by the head of the DoD Component or his designee, in consultation with the DoD Component's chief medical director, that performance by DoD personnel would be in the best interest of direct patient care.

[50 FR 40805, Oct. 7, 1985, as amended at 57 FR 29208, July 1, 1992]

§ 169a.10 Contracts.

When contract cost becomes unreasonable or performance becomes unsatisfactory, the requirement must be resolicited. If the DoD Component competes in the resolicitation, then a cost comparison of a contracted CA shall be performed in accordance with part III of the Supplement to OMB Circular A-76 (Office of Federal Procurement Policy pamphlet No. 4)⁶, part II of the Supplement to OMB Circular A-76 (Management Study Guide)⁷, part IV of the Supplement to OMB Circular A-76 (Cost Comparison Handbook)⁸, if in-house performance is feasible. When contracted CAs are justified for conversion to in-house performance, the contract will be allowed to expire (options

⁶ See footnote 3 to § 169a.1(a).

⁷ See footnote 3 to § 169a.1(a).

⁸ See footnote 3 to § 169a.1(a).

will not be exercised) once in-house capability is established.

[57 FR 29208, July 1, 1992]

§ 169a.11 Expansions.

In cases where expansion of an in-house commercial activity is anticipated, a review of the entire commercial activity, including the proposed expansion, shall be conducted to determine if performance by DoD personnel is authorized for national defense reasons, because no commercial source is available, or because it is in the best interest of direct patient care. If performance by DoD personnel is not justified under these criteria, a cost comparison of the entire activity shall be performed. Government facilities and equipment normally will not be expanded to accommodate expansions if adequate and cost effective contractor facilities and equipment are available.

[50 FR 40805, Oct. 7, 1985, as amended at 57 FR 29208, July 1, 1992]

§ 169a.12 New requirements.

(a) In cases where a new requirement for a commercial product or service is anticipated, a review shall be conducted to determine if performance by DoD personnel is authorized for national defense reasons, because no commercial source is available, or because it is in the best interest of direct patient care. If performance by DoD personnel is not justified under these criteria, then the new requirement normally shall be performed by contract.

(b) If there is reason to believe that commercial prices may be unreasonable, a preliminary cost analysis shall be conducted to determine whether it is likely that the work can be performed in-house at a cost that is less than anticipated for contract performance. If in-house performance appears to be more economical, a cost comparison shall be scheduled. The appropriate conversion differentials will be added to the preliminary in-house cost before it is determined that in-house performance is likely to be more economical.

(c) Government facilities and equipment normally will not be expanded to accommodate new requirements if adequate and cost-effective contractor facilities are available. The requirement

for Government ownership of facilities does not obviate the possibility of contract operation. If justification for in-house operation is dependent on relative cost, the cost comparison may be delayed to accommodate the lead time necessary for acquiring the facilities.

(d) Approval or disapproval of in-house performance of new requirements involving a capital investment of \$500,000 or more will not be redelegated below the level of DAS or equivalent.

(e) Approval to budget for a major capital investment associated with a new requirement will not constitute OSD approval to perform the new requirement with DoD personnel. Government performance shall be determined in accordance with this part.

§ 169a.13 CAs involving forty-five or fewer DoD civilian employees.

(a) When adequately justified under the criteria required in Appendix C to this part, CAs involving 11 to 45 DoD civilian employees may be competed based on simplified cost comparison procedures and 10 or fewer DoD civilian employees may be directly converted to contract without the use of a simplified cost comparison. Such conversion shall be approved by the DoD Component's central point of contact office having the responsibility for implementation of this part. Part IV of the Supplement to OMB Circular A-76 and Appendix C to this part shall be utilized to define the specific elements of costs to be estimated in the simplified cost comparison.

(b) In no case shall any CA involving more than forty-five employees be modified, reorganized, divided, or in any way changed for the purpose of circumventing the requirement to perform a full cost comparison.

(c) The decision to perform a simplified cost comparison on a CA involving military personnel and 11 to 45 DoD Civilian employees reflects a management decision that the work need not be performed in-house. Therefore, all direct military personnel costs will be estimated in the simplified cost comparison (see Appendix C to this part) on the basis of civilian performance.

(d) A most efficient and cost-effective organization analysis certification is
