

equipment in which the medium is used. Once the label has been applied, it cannot be removed. When a classifier has made a determination of the specific level of classification of the information contained on the medium, either the SF 706, SF 707, or SF 708 shall be affixed on top of the SF 709 so that only the SF 706, SF 707, or SF 708 is visible. The national stock number of the SF 709 is 7540–01–207–5540.

(13) *SF 710, UNCLASSIFIED Label*: In a mixed environment in which classified and unclassified information are being processed or stored, the SF 710 is used to identify electronic media and other media that contain unclassified information. Its function is to aid in distinguishing among those media that contain either classified or unclassified information in a mixed environment. If an agency determines, as part of its risk management strategy, that an UNCLASSIFIED label is required, the SF 710 will be used. The SF 710 is affixed to the medium containing unclassified information in a manner that would not adversely affect operation of equipment in which the medium is used. Once the label has been applied, it cannot be removed. However, the label is small enough so that it can be wholly covered by a SF 706, SF 707, SF 708, or SF 709 if the medium subsequently contains classified information. The national stock number of the SF 710 is 7540–01–207–5539.

(14) *SF 711, DATA DESCRIPTOR Label*: The SF 711 is used to identify additional safeguarding controls that pertain to classified information that is stored or contained on electronic or other media. If an agency determines, as part of its risk management strategy, that a DATA DESCRIPTOR label is required, the SF 711 will be used. The SF 711 is affixed to the electronic medium containing classified information in a manner that would not adversely affect operation of equipment in which the medium is used. The SF 711 is ordinarily used in conjunction with the SF 706, SF 707, SF 708, or SF 709, as appropriate. Once the label has been applied, it cannot be removed. The SF 711 provides spaces for information that should be completed as required. The national stock number of the SF 711 is 7540–01–207–5541.

(15) *SF 714, Financial Disclosure Report*: When required by an agency head or by the Director of National Intelligence, as the Security Executive Agent, the SF 714 contains information that is used to make personnel security determinations, including whether to grant a security clearance; to allow access to classified information, sensitive areas, and equipment; or to permit assignment to sensitive national security positions. The data may later be used as a part of a review process to evaluate continued eligibility for access to classified information or as evidence in legal proceedings. The SF 714 assists law enforcement agencies in obtaining pertinent information in the preliminary stages of potential espionage and counter terrorism cases.

(16) *SF 715, Government Declassification Review Tab*: The SF 715 is used to record the status of classified national security information reviewed for declassification. The SF 715 shall be used in all situations that call for the use of a tab as part of the processing of records determined to be of permanent historical value. The national stock number for the SF 715 is 7540–01–537–4689.
