

**§ 150.532**

**§ 150.532 What are the requirements for connection and stowage of fire hoses?**

(a) At least one length of fire hose, with a combination nozzle, must be connected to each fire hydrant at all times. If it is exposed to the weather, the fire hose may be removed from the hydrant during freezing weather.

(b) When not in use, a fire hose connected to a fire hydrant must be stowed on a hose rack.

(c) The hydrant nearest the edge of a deck must have enough fire hose length connected to it to allow 10 feet of hose, when pressurized, to curve over the edge.

**§ 150.540 What are the restrictions on fueling aircraft?**

If the deepwater port is not equipped with a permanent fueling facility, the Sector Commander, or the MSU Commander with COTP and OCMI authority's approval is necessary before aircraft may be fueled at the port.

[USCG-1998-3884, 71 FR 57651, Sept. 29, 2006, as amended by USCG-2013-0397, 78 FR 39182, July 1, 2013]

**§ 150.550 What are the requirements for the muster list?**

(a) A muster list must be posted on each pumping platform complex.

(b) The muster list must:

(1) List the name and title of each person, in order of succession, who is the person in charge of the pumping platform complex for purposes of supervision during an emergency;

(2) List the special duties and duty stations for each person on the pumping platform complex, in the event of an emergency that requires the use of equipment covered by part 149 of this chapter; and

(3) Identify the signals for calling persons to their emergency stations and for abandoning the pumping platform complex.

**§ 150.555 How must cranes be maintained?**

Cranes must be operated, maintained, and tested in accordance with 46 CFR part 109, subpart F.

**33 CFR Ch. I (7-1-13 Edition)**

**Subpart G—Workplace Safety and Health**

**§ 150.600 What does this subpart do?**

This subpart sets safety and health requirements for the workplace on a deepwater port.

**SAFETY AND HEALTH (GENERAL)**

**§ 150.601 What are the safety and health requirements for the workplace on a deepwater port?**

(a) Each operator of a deepwater port must ensure that the port complies with the requirements of this subpart, and must ensure that all places of employment within the port are:

(1) Maintained in compliance with workplace safety and health regulations of this subpart; and

(2) Free from recognized hazardous conditions.

(b) Persons responsible for actual operations, including owners, operators, contractors, and subcontractors must ensure that those operations subject to their control are:

(1) Conducted in compliance with workplace safety and health regulations of this subpart; and

(2) Free from recognized hazardous conditions.

(c) The term “recognized hazardous conditions,” as used in this subpart, means conditions that are:

(1) Generally known among persons in the affected industry as causing, or likely to cause, death or serious physical harm to persons exposed to those conditions; and

(2) Routinely controlled in the affected industry.

**§ 150.602 What occupational awareness training is required?**

(a) Each deepwater port operator must ensure that all deepwater port personnel are provided with information and training on recognized hazardous conditions in their workplace, including, but not limited to, electrical, mechanical, and chemical hazards. Specific required training topics are outlined in § 150.15(w) of this part.

(b) As an alternative to compliance with the specific provisions of this subpart, an operator may provide, for

workplace safety and health, the implementation of an approved, port-specific safety and environmental management program (SEMP). Operators should consult with the Commandant (CG-5P) in preparing an SEMP. Five copies of a proposed SEMP must be submitted to the Commandant for evaluation. The Commandant may consult with the local Sector Commander, or with the local MSU Commander, with COTP and OCMI authority, and will approve the SEMP if he or she finds that the SEMP provides at least as much protection of workplace safety and health as do the specific provisions of this subpart.

[USCG-1998-3884, 71 FR 57651, Sept. 29, 2006, as amended by USCG-2013-0397, 78 FR 39182, July 1, 2013]

**§ 150.603 What emergency response training is required?**

The requirements for emergency response training must be outlined in the deepwater port operations manual.

[USCG-1998-3884, 71 FR 57651, Sept. 29, 2006, as amended by USCG-2013-0397, 78 FR 39183, July 1, 2013]

**§ 150.604 Who controls access to medical monitoring and exposure records?**

If medical monitoring is performed or exposure records are maintained by an employer, the owner, operator, or person in charge must establish procedures for access to these records by personnel.

**§ 150.605 What are the procedures for reporting a possible workplace safety or health violation at a deepwater port?**

Any person may notify the Sector Commander, or the MSU Commander, with COTP and OCMI authority verbally or in writing of:

- (a) A possible violation of a regulation in this part; or
- (b) A hazardous or unsafe working condition on any deepwater port.

[USCG-1998-3884, 71 FR 57651, Sept. 29, 2006, as amended by USCG-2013-0397, 78 FR 39183, July 1, 2013]

**§ 150.606 After learning of a possible violation, what does the Sector Commander, or the MSU Commander, with COTP and OCMI authority do?**

After reviewing the information received under §150.605 of this part, and conducting any necessary investigation, the Sector Commander, or the MSU Commander, with COTP and OCMI authority notifies the owner or operator of any deficiency or hazard and initiates enforcement measures as the circumstances warrant. The identity of any person making a report of a violation will remain confidential, except to the extent necessary for the performance of official duties or as agreed to by the person.

[USCG-1998-3884, 71 FR 57651, Sept. 29, 2006, as amended by USCG-2013-0397, 78 FR 39183, July 1, 2013]

GENERAL WORKPLACE CONDITIONS

**§ 150.607 What are the general safe working requirements?**

(a) All equipment, including machinery, cranes, derricks, portable power tools, and, most importantly, safety gear must be used in a safe manner and in accordance with the manufacturer's recommended practice, unless otherwise stated in this subchapter.

(b) All machinery and equipment must be maintained in proper working order or removed.

PERSONAL PROTECTIVE EQUIPMENT

**§ 150.608 Who is responsible for ensuring that the personnel use or wear protective equipment and are trained in its use?**

(a) Each deepwater port operator must ensure that all personnel wear personal protective equipment when within designated work areas.

(b) Each deepwater port operator must ensure that:

(1) All personnel engaged in the operation are trained in the proper use, limitations, and maintenance of the personal protective equipment specified by this subpart;

(2) The equipment is maintained and used or worn as required by this subpart; and
