§ 9.1 Purpose and scope.

These regulations control all activities within units of the National Park System resulting from the exercise of valid existing mineral rights on pat-

ented or unpatented mining claims without regard to the means or route by which the operator gains access to the claim. The purpose of these regulations is to insure that such activities are conducted in a manner consistent with the purposes for which the National Park System and each unit thereof were created, to prevent or minimize damage to the environment or other resource values, and to insure that the pristine beauty of the units is preserved for the benefit of present and future generations. These regulations apply to all operations, as defined herein, conducted within the boundaries of any unit of the National Park System.

[53 FR 25162, July 2, 1988]

§ 9.2 Definitions.

The terms used in this part shall have the following meanings:

(a) *Secretary*. The Secretary of the Interior.

(b) *Operations*. All functions, work and activities in connection with mining on claims, including: prospecting, exploration, surveying, development and extraction; dumping mine wastes and stockpiling ore; transport or processing of mineral commodities; reclamation of the surface disturbed by such activities; and all activities and uses reasonably incident thereto, including construction or use of roads or other means of access on National Park System lands, regardless of whether such activities and uses take place on Federal, State, or private lands.

(c) *Operator*. A person conducting or proposing to conduct operations.

(d) *Person*. Any individual, partnership, corporation, association, or other entity.

(e) *Superintendent*. The Superintendent, or his designee, of the unit of the National Park System containing claims subject to these regulations.

(f) *Surface mining*. Mining in surface excavations, including placer mining, mining in open glory-holes or mining pits, mining and removing ore from open cuts, and the removal of capping or overburden to uncover ore.

(g) *The Act*. The Act of September 28, 1976, 90 Stat. 1342, 16 U.S.C. 1901 *et seq.*

§9.3

(h) *Commercial vehicle.* Any motorized equipment used for transporting the product being mined or excavated, or for transporting heavy equipment used in mining operations.

(i) *Unit.* Any National Park System area containing a claim or claims subject to these regulations.

(j) *Claimant.* The owner, or his legal representative, of any claim lying within the boundaries of a unit.

(k) *Claim.* Any valid, patented or unpatented mining claim, mill site, or tunnel site.

(l) *Significantly disturbed for purposes of mineral extraction.* Land will be considered significantly disturbed for purposes of mineral extraction when there has been surface extraction of commercial amounts of a mineral, or significant amounts of overburden or spoil have been displaced due to the extraction of commercial amounts of a mineral. Extraction of commercial amounts is defined as the removal of ore from a claim in the normal course of business of extraction for processing or marketing. It does not encompass the removal of ore for purposes of testing, experimentation, examination or preproduction activities.

(m) *Designated roads.* Those existing roads determined by the Superintendent in accordance with 36 CFR 1.5 to be open for the use of the public or an operator.

(n) *Production.* Number of tons of a marketable mineral extracted from a given operation.

[42 FR 4835, Jan. 26, 1977, as amended at 60 FR 55791, Nov. 3, 1995; 62 FR 30234, June 3, 1997]

§9.3 Access permits.

(a) All special use or other permits dealing with access to and from claims within any unit are automatically revoked 120 days after January 26, 1977. All operators seeking new or continued access to and from a claim after that date must file for new access permits in accordance with these regulations, unless access to a mining claim is by pack animal or foot. (See §9.7 for restrictions on assessment work and §9.9(d) and §9.10(g) for extensions of permits.)

(b) Prior to the issuance of a permit for access to any claim or claims, the

36 CFR Ch. I (7-1-13 Edition)

operator must file with the Superintendent a plan of operations pursuant to §9.9. No permit shall be issued until the plan of operations has been approved in accordance with §9.10.

(c) No access to claims outside a unit will be permitted across unit lands unless such access is by foot, pack animal, or designated road. Persons using such roads for access to such claims must comply with the terms of §9.15 where applicable.

(d) In units of the National Park System in Alaska, regulations at 43 CFR part 36 govern access to claims, and the provisions of 36 CFR 9.3 (a), (b) and (c) are inapplicable.

[42 FR 4835, Jan. 26, 1977, as amended at 53 FR 25162, July 5, 1988]

§9.4 Surface disturbance moratorium.

(a) For a period of four years after September 28, 1976, no operator of a claim located within the boundaries of Death Valley National Monument, Mount McKinley National Park, or Organ Pipe Cactus National Monument (see also claims subject to §9.10(a)(3)) shall disturb for purposes of mineral exploration or development the surface of any lands which had not been significantly disturbed for purposes of mineral extraction prior to February 29, 1976, except as provided in this section. However, where a claim is subject, for a period of four years after September 28, 1976, to this section solely by virtue of §9.10(a)(3), the date before which there must have been significant disturbance for purposes of mineral extraction is January 26, 1977.

(b) An operator of a claim in one of these units seeking to enlarge an existing excavation or otherwise disturb the surface for purposes of mineral exploration or development shall file with the Superintendent an application stating his need to disturb additional surface in order to maintain production at an annual rate not to exceed an average annual production level of said operations for the three calendar years 1973, 1974, and 1975. Accompanying the application shall be a plan of operations which complies with §9.9 and verified copies of production records for the years 1973, 1974, and 1975.
