[70 FR 29627, May 24, 2005]

§ 17.49 Priorities for outpatient medical services and inpatient hospital care.

In scheduling appointments for outpatient medical services and admissions for inpatient hospital care, the Under Secretary for Health shall give priority to:

(a) Veterans with service-connected disabilities rated 50 percent or greater based on one or more disabilities or unemployability; and

(b) Veterans needing care for a service-connected disability.

(Authority: 38 U.S.C. 101, 501, 1705, 1710)  

[67 FR 58529, Sept. 17, 2002]

§ 17.50 Use of Department of Defense, Public Health Service or other Federal hospitals with beds allocated to the Department of Veterans Affairs.

Hospital facilities operated by the Department of Defense or the Public Health Service (or any other agency of the United States Government) may be used for the care of Department of Veterans Affairs patients pursuant to agreements between the Department of Veterans Affairs and the department or agency operating the facility. When such an agreement has been entered into and a bed allocation for Department of Veterans Affairs patients has been provided for in a specific hospital covered by the agreement, care may be authorized within the bed allocation for any veteran eligible under 38 U.S.C. 1710 or 38 CFR 17.46. Care in public or private facilities, however, subject to the provisions of §§17.53, 17.54, 17.55 and 17.56, will only be authorized, whether under a contract or an individual authorization, for—

(1) Hospital care or medical services to a veteran for the treatment of—

(a) A service-connected disability; or

(b) A disability for which a veteran was discharged or released from the active military, naval, or air service; or

(c) A disability of a veteran who has a total disability permanent in nature from a service-connected disability, or

(d) For a disability associated with and held to be aggravating a service-connected disability, or

(e) For a disability associated with and held to be aggravating a disability, or

38 CFR Ch. I (7–1–13 Edition)

have dual eligibility under other provisions of §17.47.

§ 17.51 Emergency use of Department of Defense, Public Health Service or other Federal hospitals.

Hospital care in facilities operated by the Department of Defense or the Public Health Service (or any other agency of the U.S. Government) which do not have beds allocated for the care of Department of Veterans Affairs patients may be authorized subject to the limitations enumerated in §17.50 only in emergency circumstances for any veteran otherwise eligible for hospital care under 38 U.S.C. 1710 or 38 CFR 17.46.

§ 17.52 Hospital care and medical services in non-VA facilities.

(a) When VA facilities or other government facilities are not capable of furnishing economical hospital care or medical services because of geographic inaccessibility or are not capable of furnishing care or services required, VA may contract with non-VA facilities for care in accordance with the provisions of this section. When demand is only for infrequent use, individual authorizations may be used. Care in public or private facilities, however, subject to the provisions of §§17.53, 17.54, 17.55 and 17.56, will only be authorized, whether under a contract or an individual authorization, for—

(i) Hospital care or medical services to a veteran for the treatment of—

(ii) A disability for which a veteran was discharged or released from the active military, naval, or air service; or

(iii) A disability of a veteran who has a total disability permanent in nature from a service-connected disability, or

(iv) For a disability associated with and held to be aggravating a service-connected disability, or
(v) For any disability of a veteran participating in a rehabilitation program under 38 U.S.C. ch. 31 and when there is a need for hospital care or medical services for any of the reasons enumerated in §17.48(j).

(2) Medical services for the treatment of any disability of—

(i) A veteran who has a service-connected disability rated at 50 percent or more,

(ii) A veteran who has been furnished hospital care, nursing home care, domiciliary care, or medical services, and requires medical services to complete treatment incident to such care or services (each authorization for non-VA treatment needed to complete treatment may continue for up to 12 months, and new authorizations may be issued by VA as needed), and

(iii) A veteran of the Mexican border period or World War I or who is in receipt of increased pension or additional compensation based on the need for aid and attendance or housebound benefits when it has been determined based on an examination by a physician employed by VA (or, in areas where no such physician is available, by a physician carrying out such function under a contract or fee arrangement), that the medical condition of such veteran precludes appropriate treatment in VA facilities;

(3) Hospital care or medical services for the treatment of medical emergencies which pose a serious threat to the life or health of a veteran receiving hospital care or medical services in a facility over which the Secretary has direct jurisdiction or government facility with which the Secretary contracts, and for which the facility is not staffed or equipped to perform, and transfer to a public or private hospital which has the necessary staff or equipment is the only feasible means of providing the necessary treatment, until such time following the furnishing of care in the non-VA facility as the veteran can be safely transferred to a VA facility;

(4) Hospital care for women veterans;

(5) Through September 30, 1988, hospital care or medical services that will obviate the need for hospital admission for veterans in the Commonwealth of Puerto Rico, except that the dollar expenditure in Fiscal year 1986 cannot exceed 85% of the Fiscal year 1985 obligations, in Fiscal year 1987 the dollar expenditure cannot exceed 50% of the Fiscal year 1985 obligations and in Fiscal year 1988 the dollar expenditure cannot exceed 25% of the Fiscal year 1985 obligations.

(6) Hospital care or medical services that will obviate the need for hospital admission for veterans in Alaska, Hawaii, Virgin Islands and other territories of the United States except that the annually determined hospital patient load and incidence of the furnishing of medical services to veterans hospitalized or treated at the expense of VA in government and non-VA facilities in each such State or territory shall be consistent with the patient load or incidence of the provision of medical services for veterans hospitalized or treated by VA within the 48 contiguous States.

(7) Outpatient dental services and treatment, and related dental appliances, for a veteran who is a former prisoner of war and was detained or interned for a period of not less than 181 days.

(8) Hospital care or medical services for the treatment of medical emergencies which pose a serious threat to the life or health of a veteran which developed during authorized travel to the
§ 17.53 Limitations on use of public or private hospitals.

The admission of any patient to a private or public hospital at Department of Veterans Affairs expense will only be authorized if a Department of Veterans Affairs medical center or other Federal facility to which the patient would otherwise be eligible for admission is not feasibly available. A Department of Veterans Affairs facility may be considered as not feasibly available when the urgency of the applicant’s medical condition, the relative distance of the travel involved, or the nature of the treatment required makes it necessary or economically advisable to use public or private facilities. In those instances where care in public or private hospitals at Department of Veterans Affairs expense is authorized because a Department of Veterans Affairs or other Federal facility was not feasibly available, as defined in this section, the authorization will be continued after admission only for the period of time required to stabilize or improve the patient’s condition to the extent that further care is no longer required to satisfy the purpose for which it was initiated.

§ 17.54 Necessity for prior authorization.

(a) The admission of a veteran to a non-Department of Veterans Affairs hospital at Department of Veterans Affairs expense must be authorized in advance. In the case of an emergency which existed at the time of admission, an authorization may be deemed a prior authorization if an application, whether formal or informal, by telephone, telegraph or other communication, made by the veteran or by others in his or her behalf is dispatched to the Department of Veterans Affairs (1) for veterans in the 48 contiguous States and Puerto Rico, within 72 hours after the hour of admission, including in the computation of time Saturday, Sunday and holidays, or (2) for veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) if facilities for dispatch of application as described in
