§ 17.901 Provision of health care.

(a) *Spina bifida*. VA will provide a Vietnam veteran or veteran with covered service in Korea's child who has been determined under § 3.814 or § 3.815 of this title to suffer from spina bifida with health care as the Secretary determines is needed. VA may inform spina bifida patients, parents, or guardians that health care may be available at not-for-profit charitable entities.

(b) *Covered birth defects*. VA will provide a woman Vietnam veteran's child who has been determined under § 3.815 of this title to suffer from covered birth defects (other than spina bifida) with such health care as the Secretary determines is needed by the child for the covered birth defects. However, if VA has determined for a particular covered birth defect that § 3.815(a)(2) of this title applies (concerning affirmative evidence of cause other than the mother's service during the Vietnam era), no benefits or assistance will be provided under this section with respect to that particular birth defect.

(c) *Providers of care*. Health care provided under this section will be provided directly by VA, by contract with an approved health care provider, or by other arrangement with an approved health care provider.

NOTE TO § 17.901: Under this program, beneficiaries with spina bifida will receive comprehensive care through the Department of Veterans Affairs. However, the health care benefits available under this section to children with other covered birth defects are not comprehensive, and VA will furnish them only health care services that are related to their covered birth defects. With respect to covered children suffering from spina bifida, VA is the exclusive payer for services paid under 17.900 through 17.905, regardless of any third party insurer, Medicare, Medicaid, health plan, or any other plan or program providing health care coverage. As to children with other covered birth defects, any third party insurer, Medicare, Medicaid, health plan, or any other plan or program providing health care coverage would be responsible according to its provisions for payment for health care not relating to the covered birth defects.
