

§3.315

38 CFR Ch. I (7-1-13 Edition)

regular aid and attendance may be entitled to increased pension based on 100 percent permanent disability together with independent disability of 60 percent or more or by reason of being permanently housebound as provided in §3.351 (d).

(Authority: 38 U.S.C. 1502 (b), (c), 512)

(b) *Mexican border period and later war periods.* Non-service-connected disability and death pension may be paid based on service in the Mexican border period, World War I, World War II, the Korean conflict and the Vietnam era. Rating determinations in such claims will be required in the following situations:

(1) Claims based on service of less than 90 days may require a determination as to whether the veteran was discharged or released from service for a service-connected disability or had at the time of separation from service a service-connected disability, shown by official service records, which in medical judgment would have warranted a discharge for disability. Eligibility in such cases requires a finding that the disability was incurred in or aggravated by service in line of duty without benefit of presumptive provisions of law or Department of Veterans Affairs regulations (38 U.S.C. 1521(g)(2)) unless, in the case of death pension, the veteran was, at the time of death, receiving (or entitled to receive) compensation or retirement pay based upon a wartime service-connected disability.

(Authority: 38 U.S.C. 1541(a) and 1542(a))

(2) Determinations of permanent total disability for pension purposes will be based on non-service-connected disability or combined non-service-connected and service-connected disabilities not the result of willful misconduct. However, for pension under Pub. L. 86-211 (73 Stat. 432), permanent and total disability will be presumed where the veteran has attained age 65 or effective January 1, 1977, where the veteran became unemployable after age 65.

(Authority: 38 U.S.C. 1502(a), 1523(a))

(3) Veterans entitled to nonservice-connected disability pension may be

entitled to an increased rate of pension if rated as being in need of regular aid and attendance. Veterans entitled to protected pension or pension under Pub. L. 86-211 (73 Stat. 432) who are not rated as being in need of regular aid and attendance may be entitled to increased pension based on a 100 percent permanent disability together with independent disability of 60 percent or more or by reason of being permanently housebound as provided in §3.351 (d) or (e).

(Authority: 38 U.S.C. 1502 (b), (c), 1521)

[31 FR 4680, Mar. 19, 1966, as amended at 32 FR 13224, Sept. 19, 1967; 36 FR 8446, May 6, 1971; 40 FR 56434, Dec. 3, 1975; 41 FR 56804, Dec. 30, 1976; 61 FR 20438, May 7, 1996]

§3.315 Basic eligibility determinations; dependents, loans, education.

(a) *Child over 18 years.* A child of a veteran may be considered a "child" after age 18 for purposes of benefits under title 38, United States Code (except ch. 19 and sec. 8502(b) of ch. 85), if found by a rating determination to have become, prior to age 18, permanently incapable of self-support.

(Authority: 38 U.S.C. 101(4)(B))

(b) *Loans.* If a veteran of World War II the Korean conflict or the Vietnam era had less than 90 days of service, or if a veteran who served after July 25, 1947, and prior to June 27, 1950, or after January 31, 1955, and prior to August 5, 1964, or after May 7, 1975, has less than 181 days of service on active duty as defined in §§36.4301 and 36.4501, eligibility of the veteran for a loan under 38 U.S.C. ch. 37 requires a determination that the veteran was discharged or released because of a service-connected disability or that the official service department records show that he or she had at the time of separation from service a service-connected disability which in medical judgment would have warranted a discharge for disability. These determinations are subject to the presumption of incurrence under §3.304(b). Determinations based on World War II, Korean conflict and Vietnam era service are also subject to the presumption of aggravation under §3.306(b) while determination based on service on or after February 1, 1955, and

Department of Veterans Affairs

§3.316

before August 5, 1964, or after May 7, 1975, are subject to the presumption of aggravation under §3.306 (a) and (c). The provisions of this paragraph are also applicable, regardless of length of service, in determining eligibility to the maximum period of entitlement based on discharge or release for a service-connected disability. (See also the minimum service requirements of §3.12a.)

(Authority: 38 U.S.C. 3702, 3707)

(c) *Veterans' educational assistance.* (1) A determination is required as to whether a veteran was discharged or released from active duty service because of a service-connected disability (or whether the official service department records show that the veteran had at time of separation from service a service-connected disability which in medical judgment would have warranted discharge for disability) whenever any of the following circumstances exist:

(i) The veteran applies for benefits under 38 U.S.C. chapter 32, the minimum active duty service requirements of 38 U.S.C. 5303A apply to him or her, and the veteran would be eligible for such benefits only if—

(A) He or she was discharged or released from active duty for a disability incurred or aggravated in line of duty, or

(B) He or she has a disability that VA has determined to be compensable under 38 U.S.C. chapter 11; or

(ii) The veteran applies for benefits under 38 U.S.C. chapter 30 and—

(A) The evidence of record does not clearly show either that the veteran was discharged or released from active duty for disability or that the veteran's discharge or release from active duty was unrelated to disability, and

(B) The veteran is eligible for basic educational assistance except for the minimum length of active duty service requirements of §21.7042(a) or §21.7044(a) of this chapter.

(2) A determination is required as to whether a veteran was discharged or released from service in the Selected Reserve for a service-connected disability or for a medical condition which preexisted the veteran's having become a member of the Selected Re-

serve and which VA determines is not service connected when the veteran applies for benefits under 38 U.S.C. chapter 30 and—

(i) Either the veteran would be eligible for basic educational assistance under that chapter only if he or she was discharged from the Selected Reserve for a service-connected disability, or for a medical condition which preexisted the veteran's having become a member of the Selected Reserve and which VA finds is not service connected, or

(ii) The veteran is entitled to basic educational assistance and would be entitled to receive it at the rates stated in §21.7136(a) or §21.7137(a) of this chapter only if he or she was discharged from the Selected Reserve for a service-connected disability or for a medical condition which preexisted the veteran's having become a member of the Selected Reserve and which VA finds is not service connected.

(3) A determination is required as to whether a reservist has been unable to pursue a program of education due to a disability which has been incurred in or aggravated by service in the Selected Reserve when—

(i) The reservist is otherwise entitled to educational assistance under 10 U.S.C. chapter 1606, and

(ii) He or she applies for an extension of his or her eligibility period.

(4) The determinations required by paragraphs (c)(1) through (c)(3) of this section are subject to the presumptions of incurrence under §3.304(b) and aggravation under §3.306 (a) and (c) of this part, based on service rendered after May 7, 1975.

(Authority: 38 U.S.C. 3011(a)(1)(A)(ii), 3012(b)(1), 3202(1)(A), 10 U.S.C. 16133(b))

[38 FR 871, Jan. 5, 1973, as amended at 42 FR 22869, May 5, 1977; 50 FR 53315, Dec. 31, 1985; 51 FR 1510, Jan. 14, 1986; 55 FR 25974, June 26, 1990; 61 FR 67950, Dec. 26, 1996]

§3.316 Claims based on chronic effects of exposure to mustard gas and Lewisite.

(a) Except as provided in paragraph (b) of this section, exposure to the specified vesicant agents during active military service under the circumstances described below together with the subsequent development of
