

Bureau of Reclamation, Interior

§ 426.19

is included in all certification and reporting forms:

Under the provisions of 18 U.S.C. 1001, it is a crime punishable by 5 years imprisonment or a fine of up to \$10,000, or both, for any person knowingly and willfully to submit or cause to be submitted to any agency of the United States any false or fraudulent statement(s) as to any matter within the agency's jurisdiction. False statements by the landowner or lessee will also result in loss of eligibility. Eligibility can only be regained upon the approval of the Commissioner.

(o) *Information requirements and Office of Management and Budget approval.* The information collection requirements contained in this section have been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned control numbers 1006-0005 and 1006-0006. The information is being collected to comply with Sections 206, 224(c), and 228 of the RRA. These sections require that, as a condition to the receipt of irrigation water, each landholder in a district which is subject to the acreage limitation provisions of Federal reclamation law, as amended and supplemented by the RRA, will furnish to his or her district annually a certificate/report which indicates that he or she is in compliance with the provisions of Federal reclamation law. Completion of these forms is required to obtain the benefit of irrigation water. The information collected on each landholding will be summarized by the district and submitted to Reclamation in a form prescribed by Reclamation.

(p) *Protection of forms pursuant to the Privacy Act of 1974.* The Privacy Act of 1974 (5 U.S.C. 552) protects the information submitted in accordance with certification and reporting requirements. As a condition to execution of a contract, Reclamation requires the inclusion of a standard contract article which provides for district compliance with the Privacy Act of 1974 and 43 CFR part 2, subpart D, in maintaining the landholder certification and reporting forms.

§ 426.19 District responsibilities.

A district that delivers irrigation water to nonexempt land under a contract with the United States must:

(a) Provide information to landholders concerning the requirements of Federal reclamation law and these regulations;

(b) Provide Reclamation, as required by these regulations or upon request, and in a form suitable to Reclamation, records and information as Reclamation may deem reasonably necessary to implement the RRA and other provisions of Federal reclamation law;

(c) Be responsible for payments to Reclamation of all appropriate charges specified in these regulations. Districts must collect the appropriate charges from each landholder based on the landholder's acreage limitation status, landholdings, and entitlements, and must not average the costs over the entire district, unless the charges prove uncollectible from the responsible landholders;

(d) Distribute, collect, and review landholder certification and reporting forms;

(e) File and retain landholder certification and reporting forms. Districts must retain superseded landholder certification and reporting forms for 6 years; thereafter, districts may destroy such superseded forms, except:

(1) Districts must keep on file the last fully completed standard certification or reporting form, in addition to the current verification form; or

(2) If Reclamation specifically requests a district to retain superseded forms beyond 6 years.

(f) Comply with the requirements of the Privacy Act of 1974, with respect to landholder certification and reporting forms;

(g) Annually summarize information provided on landholder certification and reporting forms on separate summary forms provided by Reclamation and submit these forms to Reclamation on or before the date established by the appropriate regional director;

(h) Withhold deliveries of irrigation water to any landholder not eligible to receive irrigation water under the certification or reporting requirements or any other provision of Federal reclamation law and these regulations; and

(i) Return to Reclamation, for deposit as a general credit to the Reclamation fund, all revenues received

§ 426.20

from the delivery of water to ineligible land. For purposes of these regulations only, this does not include revenues from any charges that may be assessed by the district to cover district operation, maintenance, and administrative expenses.

§ 426.20 Assessment of administrative costs.

(a) *Assessment of administrative costs for delivery of water to ineligible land.* Reclamation will assess a district administrative costs as described in paragraph (e) of this section if the district delivers irrigation water to land that was ineligible because the landholders did not submit certification or reporting forms prior to the receipt of irrigation water in accordance with § 426.18; or to ineligible excess land as provided in § 426.12.

(1) Reclamation will apply the assessment on a yearly basis in each district for each landholder that received irrigation water in violation of § 426.18, or for each landholder that received irrigation water on ineligible land as specified above.

(2) In applying the assessment to legal entities, compliance by an entity will be treated independently from compliance by its part owners or beneficiaries.

(3) The assessment in paragraph (a) of this section will be applied independently of the assessment specified in paragraph (b) of this section.

(b) *Assessment of administrative costs when form corrections are not made.* Reclamation will assess a district for the administrative costs described in paragraph (e) of this section, unless the district provides Reclamation with requested reporting or certification form corrections within 60-calendar days of the date of Reclamation's written request. If Reclamation receives the required corrections within this 60-calendar day time period, Reclamation will consider the requirements of § 426.18 satisfied.

(1) Reclamation will apply the assessment on a yearly basis in each district for each landholder that received irrigation water and for whom the district does not provide corrected forms within the applicable 60-calendar day time period.

43 CFR, Subtitle B, Ch. I (10–1–13 Edition)

(2) In applying the assessment to legal entities, compliance by an entity will be treated independently from compliance by its part owners or beneficiaries.

(3) The assessment in paragraph (b) of this section will be applied independently of the assessment specified in paragraph (a) of this section.

(c) *Party responsible for paying assessments.* Districts are responsible for payment of Reclamation assessments described under paragraphs (a) and (b) of this section.

(d) *Disposition of assessments.* Reclamation will deposit to the general fund of the United States Treasury, as miscellaneous receipts, administrative costs assessed and collected under paragraphs (a) and (b) of this section.

(e) *Amount of the assessment.* The administrative costs assessment required under paragraphs (a) and (b) of this section is set at \$260. Reclamation will review the associated costs at least once every 5 years, and will adjust the assessment amount, if needed, to reflect new cost data. Notice of the revised assessment for administrative costs will be published in the FEDERAL REGISTER in December of the year the data are reviewed.

§ 426.21 Interest on underpayments.

(a) *Definition of underpayment.* For the purposes of this section *underpayment* means the difference between what a landholder owed for the delivery of irrigation water under Federal reclamation law and what that landholder paid.

(b) *Collection of interest on underpayments.* If a landholder has incurred an underpayment, Reclamation will collect from the appropriate district such underpayment with interest. Interest accrues from the original payment due date until the district pays the amount due. The original payment due date is the date the district should have paid the United States for water delivered to the landholder.

(c) *Underpayment interest rate.* The Secretary of the Treasury determines the interest rate charged the district based on the weighted average yield of all interest-bearing marketable issues sold by the Department of the Treasury during the period of underpayment.
