§ 2524.6 Desert-land entryman may proceed independently of Government irrigation.

Special attention is called to the fact that nothing contained in the Act of June 27, 1906 (34 Stat. 520; 43 U.S.C. 448), or amended by the Act of June 6, 1930 (46 Stat. 502; 43 U.S.C. 448), shall be construed to mean that a desert-land entryman who owns a water right and reclaims the land embraced in his entry must accept the conditions of the reclamation law, but he may proceed independently of the Government’s plan of irrigation and acquire title to the land embraced in his desert-land entry by means of his own system of irrigation.

§ 2524.7 Disposal of lands in excess of 160 acres.

Desert-land entrymen within exterior boundaries of a reclamation project who expect to secure water from the Government must relinquish or assign all of the lands embraced in their entries in excess of one farm unit in not less than 2 years after notice through the land office, must reclaim one-half of the irrigable area covered by their water right in the same manner as private owners of land irrigated under a reclamation project, and also comply with the regulations of the Department applicable to the remainder of the irrigable land of the project.

§ 2524.8 Cancellation of entries for nonpayment of water-right charges.

All homestead and desert-land entrymen holding land under the reclamation law must, in addition to paying the water-right charges, reclaim the land as required by the reclamation law. Homestead entrymen must reside upon, cultivate, and improve the lands embraced in their entries for not less than the period required by the homestead laws. Desert-land entrymen must comply with the provisions of the desert-land laws as amended by the reclamation law. Failure to make payment of any water-right charges due for more than 1 year, will render the entry subject to cancellation and the money paid subject to forfeiture, whether water-tight application has been made or not.
