

Federal Emergency Management Agency, DHS

§ 152.4

designed and equipped for water and/or ice rescue, rather than basic fire-fighting operations. Generally, these vessels will be equipped with water rescue equipment, flotation devices, and other basic medical and rescue equipment and their primary function will be rescue activities.

§ 152.3 Availability of funds.

(a) Fire departments that have received funding under the Assistance to Firefighter Grant Program in previous years are eligible to apply for funding in the current year. However, due to our responsibilities under this program to assure adequate distribution of awards amongst certain types of departments (career, combination and volunteer) and certain types of communities (urban, suburban or rural) as well as an equitable geographic distribution, we reserve the right to fund or not to fund previous recipients of grants under this program in order for us to fulfill these responsibilities.

(b) No applicant can receive more than \$750,000 in Federal grant funds under this program in any fiscal year.

(c) No applicant can submit more than one application per fiscal year. Applicants that submit multiple applications will have each of their applications deemed ineligible.

(d) The scoring of the applications will determine the distribution of the funding across the eligible programs. Notwithstanding anything in this part, no more than twenty-five (25) percent of the funds appropriated for grants shall be used to assist grant recipients to purchase firefighting vehicles and not less than five (5) percent of the funds shall be used for fire prevention programs.

(e) We will not provide assistance under this part for activities for which another Federal agency has more specific or primary authority to provide assistance for the same purpose. We may disallow or recoup amounts that fall within other Federal agency's authority.

§ 152.4 Roles and responsibilities.

(a) Applicants must:

(1) Complete the application and certify to the accuracy of all the information contained therein;

(2) Certify that they are an eligible applicant, *i.e.*, a fire department, as defined in this part;

(3) Certify that the person submitting the application is duly authorized to do so, and

(b) Recipients (Grantees) must agree to:

(1) Share in the costs of the projects funded under this grant program. Fire departments in areas serving populations over 50,000 must agree to match the Federal grant funds with an amount of non-Federal funds equal to thirty (30) percent of the total project cost. Fire departments serving areas with a population of 50,000 or less will have to match the Federal grant funds with an amount of non-Federal funds equal to ten (10) percent of the total project cost. No waivers of this requirement will be granted except for fire departments of Insular Areas as provided for in 48 U.S.C. 1469a.

(2) Maintain operating expenditures during the grant's period of performance in the areas funded by a grant at a level equal to or greater than the average of their operating expenditures in the two years preceding the year in which this assistance is received.

(3) Obtain the appropriate Federal, State, or local permits necessary to fulfill the grant's scope of work including historical and/or environmental clearances as required.

(4) Retain grant files and supporting documentation for three years after the official closeout of the grant.

(5) Report to FEMA on the progress made on the grant and financial status of the grant. The award documents will detail the specific period of performance for each grantee and provide instructions on the frequency and timing of the required performance reports.

(6) Maintain documentation to support the expenditure of grant funds as well as pertinent grant decisions.

(7) Make their grant files and other books and records related to the grant, available if requested for an audit to ensure compliance with any requirement of the grant program.

(8) Agree to provide information to the U.S. Fire Administration's National Fire Incident Reporting System (NFIRS) for the period covered by the grant. If a grantee does not currently

§ 152.5

participate in the incident reporting system and does not have the capacity to report at the time of the award, that grantee must agree to provide information to the system for a twelve-month period commencing as soon as they develop the capacity to report. Capacity to report to the NFIRS must be established prior to the termination of the one-year performance period.

(c) FEMA activities:

(1) We will ensure that the funds are awarded based on the priorities and expected benefits articulated in the statute, this part, USFA's strategic plan, and the Notice of Funds Availability.

(2) We will ensure that not more than twenty-five (25) percent of the appropriated funding will be used to purchase firefighting vehicles.

(3) We will ensure that not less than five (5) percent of the funds are made available to national, State, local, or community organizations, including fire departments, for the purpose of carrying out fire prevention programs.

(4) We will ensure that fire departments with volunteer staff, or staff comprised of a combination of career fire fighters and volunteers, receive a proportion of the total grant funding that is not less than the proportion of the United States population that those firefighting departments protect.

(5) We will ensure that grants are made to fire departments located in urban, suburban, and rural communities.

(6) We will strive to ensure geographic diversity of awards as stipulated in §152.6.

(7) We will strive to ensure that activities funded under this grant program are consistent with the programs goals and intent, and generally in the government's best interest.

(8) We will provide the chief executives of the States with information concerning the total number and dollar amount of awards made to fire departments in their States; the program areas and activities supported by these grants; and other information about specific awards when generated and available.

[68 FR 12547, Mar. 14, 2003, as amended at 74 FR 15344, Apr. 3, 2009]

44 CFR Ch. I (10–1–13 Edition)

§ 152.5 Review process and evaluation criteria.

(a) Every application will be evaluated based on the answers to the activity-specific questions during our initial screening. The applications that are determined to best address the Assistance to Firefighters Grant Program's established priorities during this initial screening will be in the "competitive range" and subject to a second level of review. We will use the narratives/supplemental information provided by the applicants in their grant applications to evaluate, on a competitive basis, the merits and benefits of each request for funding. In selecting applications for award, we will evaluate each application for assistance independently based on established eligibility criteria and the program priorities. Eligible applicants that best address the priorities will advance to a second level of review. The second level of review involves an assessment of the financial needs of the applicant, and an analysis of the benefits that would result from the grant award.

(b) In order to be successful at this second level of the evaluation, an applicant must complete the narrative section of the application package. The narrative should include a detailed description of the planned program, uses for the grant funds including details of each budget line item. For example, if personnel costs are included in the budget, please provide a break down of what those costs are for. The narrative should explain why the grant funds are needed and why the department has not been able to obtain funding for the planned activities on its own. A discussion of financial need should include a discussion of any Federal funding received for similar activities. Finally, the applicant's narrative should detail the benefits the department or community will realize as a result of the grant award.

(c) This second level of review will be conducted using a panel of technical evaluation panelists. These panelists are largely made up of non-Federal experts with a fire service background. The panelists will assess the application's merits with respect to the clarity and detail provided in the narrative
