

(c) For the first month in which retrospective budgeting is used, a State shall not consider income received by the recipient before the date of application. When a person reapplies during the same month in which a termination became effective, the State may consider income received before the date of application.

**§ 233.26 Retrospective budgeting; determining eligibility after the initial one or two months.**

(a) Under retrospective budgeting, there are three options for determining eligibility. The State plan shall specify that eligibility, following the initial one or two months under § 233.24, shall be determined by one of the following methods:

(1) A State may consider all factors, including income retrospectively, i.e., only from the budget month. For example, if a change in circumstances occurs which affects eligibility, e.g., deprivation ceases, the change may be reported at the end of the budget month and assistance shall be terminated for the corresponding payment month. Thus, even if the agency could have terminated assistance earlier than the corresponding payment month, it shall not do so under retrospective determination of eligibility.

(2) A State may consider all factors, including income, prospectively. For example, if deprivation ceases, and the family becomes ineligible, the agency shall immediately take steps to terminate assistance.

(3) A State may use a combination of the options in paragraphs (a) and (b) of this section by considering factors related to earned and unearned income retrospectively and all other factors prospectively. For example, if a change in income makes the family ineligible, the agency shall wait until the corresponding payment month to terminate assistance. On the other hand, if a change of circumstances other than income makes the family ineligible, the agency shall immediately take steps to terminate assistance.

**§ 233.27 Supplemental payments under retrospective budgeting.**

(a) *General requirements.* A State plan which provides for payments between 25 and 45 days from the close of a budget month, shall provide for supplemental payments to eligible recipients who request them. A State plan which provides for payments within 25 days may provide for supplemental payments:

(1) The supplemental payment shall be paid for the month in which it was requested.

(2) The recipient family is eligible for a supplemental payment if its income for the month is less than 80 percent of the amount the State would pay for a similar family with no income. However, this percentage of the amount the State would pay for a similar family with no income may be set between 80 and 100 percent, as specified in the State plan. The supplemental payment equals the difference between the family's income in the payment month and that percentage.

(3) Supplemental payments shall be issued within 5 working days of request.

(b) *How income is treated.* For purposes of supplemental payments, income includes that month's assistance payment and any income received or expected to be received by the recipient, but does not include work-related expenses.

(1) The amount used for the assistance payment shall be the monthly assistance payment without regard to any recoupments made for prior overpayments or adjustments for prior underpayments.

(2) The agency may include as income cash in hand or available in bank accounts. It may also include as income any cash disregarded in determining need or the amount of the assistance payment, but not cash payments that are disregarded by § 233.20(a)(4)(ii), paragraphs (c) on relocation assistance, (d) on educational grants or loans and (g) on payments for certain services.
