AUTHORITY: E.O. 12114, 44 FR 1957, 3 CFR 1979 Comp., p. 356.

SOURCE: 57 FR 40339, Sept. 3, 1992, unless otherwise noted.

§ 641.10 Purpose.

These procedures are designed to elicit and evaluate information that will inform the National Science Foundation (NSF) of the potential environmental consequences of proposed U.S. Antarctic Program (USAP) actions, so that relevant environmental considerations are taken into account by decisionmakers before reaching final decisions on whether or how to proceed with proposed actions. These procedures are consistent with and implement the requirements of:

- (a) Executive Order 12114 as it relates to NSF's Antarctic activities, and
- (b) the environmental assessment provisions of the Protocol on Environmental Protection to the Antarctic Treaty.

§ 641.11 Policy.

It is the policy of NSF to use all practicable means, consistent with its authority, to ensure that potential environmental effects of actions under-

taken by NSF in Antarctica, either independently or in cooperation with another country, are appropriately identified and considered during the decisionmaking process, and that appropriate environmental safeguards which would limit, mitigate or prevent adverse impacts on the Antarctic environment are identified.

§ 641.12 Applicability.

The requirements set forth in this part apply to all proposed projects, programs and actions authorized or approved by, or subject to the control and responsibility of NSF that may have an impact on the Antarctic environment.

§ 641.13 Right of action

The procedures set forth in this part establish internal procedures to be followed by NSF in considering the potential environmental effects of actions taken in Antarctica. Nothing in this part shall be construed to create a cause of action.

§ 641.14 Definitions.

As used in these procedures, the term:

- (a) *Action* means a project, program or other activity, including the adoption of an official policy or formal plan, that is undertaken, authorized, adopted or approved by, or subject to the control or responsibility of NSF, the decommissioning of a physical plant or facility, and any change in the scope or intensity of a project, program or action.

- (b) *Antarctica* means the area south of 60 degrees south latitude.

- (c) *Antarctic environment* means the natural and physical environment of Antarctica and its dependent and associated ecosystems, but excludes social, economic and other environments.

- (d) *Antarctic Treaty Consultative Meeting* means a meeting of the Parties to the Antarctic Treaty, held pursuant to Article IX(1) of the Treaty.

- (e) *Comprehensive Environmental Evaluation* or *CEE* means a study of the reasonably foreseeable potential effects of a proposed action on the antarctic environment, prepared in accordance with the provisions of § 641.18, and includes all comments thereon received during the comment period described
