

§ 63.17

47 CFR Ch. I (10–1–13 Edition)

agreeing to accept special concessions in the future.

NOTE TO PARAGRAPH (a): Carriers may rely on the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points for purposes of determining which foreign carriers are the subject of the prohibitions contained in this section. The Commission's list of foreign carriers that do not qualify for the presumption that they lack market power is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(b) A special concession is defined as an exclusive arrangement involving services, facilities, or functions on the foreign end of a U.S. international route that are necessary for the provision of basic telecommunications services where the arrangement is not offered to similarly situated U.S.-licensed carriers and involves:

(1) Operating agreements for the provision of basic services;

(2) Distribution arrangements or interconnection arrangements, including pricing, technical specifications, functional capabilities, or other quality and operational characteristics, such as provisioning and maintenance times; or

(3) Any information, prior to public disclosure, about a foreign carrier's basic network services that affects either the provision of basic or enhanced services or interconnection to the foreign country's domestic network by U.S. carriers or their U.S. customers.

(c) This section shall not apply to the rates, terms and conditions in an agreement between a U.S. carrier and a foreign carrier that govern the settlement of U.S. international traffic, including the method for allocating return traffic.

[62 FR 64754, Dec. 9, 1997, as amended at 64 FR 19063, Apr. 19, 1999; 64 FR 34741, June 29, 1999; 66 FR 16881, Mar. 28, 2001; 69 FR 23154, Apr. 28, 2004; 78 FR 11112, Feb. 15, 2013]

§ 63.17 Special provisions for U.S. international common carriers.

(a) Unless otherwise prohibited by the terms of its Section 214 certificate, a U.S. common carrier authorized under this part to provide international private line service, whether as a reseller or facilities-based carrier,

may interconnect its authorized private lines to the public switched network on behalf of an end user customer for the end user customer's own use.

(b) Except as provided in paragraph (b)(4) of this section, a U.S. common carrier, whether a reseller or facilities-based carrier, may engage in "switched hubbing" to countries provided the carrier complies with the following conditions:

(1) U.S.-outbound switched traffic shall be routed over the carrier's authorized U.S. international circuits extending between the United States and a country that is exempt from the international settlements policy (*i.e.*, the "hub" country), and then forwarded to the third country only by taking at published rates and reselling the international message telephone service (IMTS) of a carrier in the hub country;

(2) U.S.-inbound switched traffic shall be carried to a country that is exempt from the international settlements policy (*i.e.*, the "hub" country) as part of the IMTS traffic flow from a third country and then terminated in the United States over the carrier's authorized U.S. international circuits extending between the United States and the hub country.

NOTE TO PARAGRAPH (b): The Commission's list of international routes exempted from the international settlements policy is available on the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(3) Authorized carriers filing tariffs pursuant to §§ 61.19 or 61.28 of this chapter that route U.S.-billed traffic via switched hubbing shall tariff their service on a "through" basis between the United States and the ultimate point of origination or termination;

(4) No U.S. common carrier may engage in switched hubbing to or from a third country where it has an affiliation with a foreign carrier unless and until it has received authority to serve that country under § 63.18(e)(1), (e)(2), or (e)(3).
