default provider to remit to the Fund an amount equal to 100% of all payments the unauthorized default provider received from the Fund for minutes attributable to the iTRS user after the unauthorized change occurred. The remedies provided in this section are in addition to any other remedies available by law.

[78 FR 40609, July 5, 2013]

§ 64.636 Prohibition of default provider freezes.

(a) A default provider freeze prevents a change in an iTRS user’s default provider selection unless the iTRS user gives the provider from whom the freeze was requested his or her express consent.

(b) Default provider freezes shall be prohibited.

[78 FR 40609, July 5, 2013]

Subpart G—Furnishing of Enhanced Services and Customer-Premises Equipment by Bell Operating Companies; Telephone Operator Services

§ 64.702 Furnishing of enhanced services and customer-premises equipment.

(a) For the purpose of this subpart, the term enhanced service shall refer to services, offered over common carrier transmission facilities used in interstate communications, which employ computer processing applications that act on the format, content, code, protocol or similar aspects of the subscriber’s transmitted information; provide the subscriber additional, different, or restructured information; or involve subscriber interaction with stored information. Enhanced services are not regulated under title II of the Act.

(b) Bell Operating Companies common carriers subject, in whole or in part, to the Communications Act may directly provide enhanced services and customer-premises equipment; provided, however, that the Commission may prohibit any such common carrier from engaging directly or indirectly in furnishing enhanced services or customer-premises equipment to others except as provided for in paragraph (c) of this section, or as otherwise authorized by the Commission.

(c) A Bell Operating Company common carrier prohibited by the Commission pursuant to paragraph (b) of this section from engaging in the furnishing of enhanced services or customer-premises equipment may, subject to other provisions of law, have a controlling or lesser interest in, or be under common control with, a separate corporate entity that furnishes enhanced services or customer-premises equipment to others provided the following conditions are met:

(1) Each such separate corporation shall obtain all transmission facilities necessary for the provision of enhanced services pursuant to tariff, and may not own any network or local distribution transmission facilities or equipment.

(2) Each such separate corporation shall operate independently in the furnishing of enhanced services and customer-premises equipment. It shall maintain its own books of account, have separate officers, utilize separate operating, marketing, installation, and maintenance personnel, and utilize separate computer facilities in the provision of enhanced services.

(3) Each such separate corporation which provides customer-premises equipment or enhanced services shall deal with any affiliated manufacturing entity only on an arm’s length basis.

(4) Any research or development performed on a joint or separate basis for the subsidiary must be done on a compensatory basis. Except for generic software within equipment, manufactured by an affiliate, that is sold “off the shelf” to any interested purchaser, the separate corporation must develop its own software, or contract with non-affiliated vendors.

(5) All transactions between the separate corporation and the carrier or its affiliates which involve the transfer, whether direct or by accounting or other record entries, of money, personnel, resources, other assets or anything of value, shall be reduced to writing. A copy of any contract, agreement, or other arrangement entered into between such entities shall be filed with the Commission within 30 days after
