7.102 Policy.

(a) Agencies shall perform acquisition planning and conduct market research (see part 10) for all acquisitions in order to promote and provide for—

(1) Acquisition of commercial items or, to the extent that commercial items suitable to meet the agency's needs are not available, nondevelopmental items, to the maximum extent practicable (10 U.S.C. 2377 and 41 U.S.C. 251, *et seq.*); and

(2) Full and open competition (see part 6) or, when full and open competition is not required in accordance with part 6, to obtain competition to the maximum extent practicable, with due regard to the nature of the supplies or services to be acquired (10 U.S.C. 2301(a)(5) and 41 U.S.C. 253a(a)(1)).

(3) Selection of appropriate contract type in accordance with part 16.

(b) This planning shall integrate the efforts of all personnel responsible for significant aspects of the acquisition. The purpose of this planning is to ensure that the Government meets its needs in the most effective, economical, and timely manner. Agencies that have a detailed acquisition planning system in place that generally meets the requirements of 7.104 and 7.105 need not revise their system to specifically meet all of these requirements.

7.103 Agency-head responsibilities.

The agency head or a designee shall prescribe procedures for—

(a) Promoting and providing for full and open competition (see part 6) or, when full and open competition is not required in accordance with part 6, for obtaining competition to the maximum extent practicable, with due regard to the nature of the supplies and services to be acquired (41 U.S.C. 253a(a)(1)).

that commercial items suitable to meet the agency needs are not available, nondevelopmental items in response to agency solicitations (10 U.S.C. 2377 and 41 U.S.C. 251, *et seq.*); and

(c) Ensuring that acquisition planners address the requirement to specify needs, develop specifications, and to solicit offers in such a manner to promote and provide for full and open competition with due regard to the nature of the supplies and services to be acquired (10 U.S.C. 2305(a)(1)(A) and 41 U.S.C. 253A(a)(1)). (See part 6 and 10.002.)

(d) Ensuring that acquisition planners document the file to support the selection of the contract type in accordance with subpart 16.1.

(e) Establishing criteria and thresholds at which increasingly greater detail and formality in the planning process is required as the acquisition becomes more complex and costly, including for cost-reimbursement and other high-risk contracts (*e.g.*, other than firm-fixed-price contracts) requiring a written acquisition plan. A written plan shall be prepared for cost reimbursement and other high-risk contracts other than firm-fixed-price contracts, although written plans may be required for firm-fixed-price contracts as appropriate.

(f) Ensuring that the statement of work is closely aligned with performance outcomes and cost estimates.

(g) Writing plans either on a systems basis, on an individual contract basis, or on an individual order basis, depending upon the acquisition.

(h) Ensuring that the principles of this subpart are used, as appropriate, for those acquisitions that do not require a written plan as well as for those that do;

(i) Designating planners for acquisitions;

(j) Reviewing and approving acquisition plans and revisions to these plans to ensure compliance with FAR requirements including 7.104 and part 16. For other than firm-fixed-price contracts, ensuring that the plan is approved and signed at least one level above the contracting officer.
