

241.102 Applicability.

(a) This part applies to purchase of utility services from nonregulated and regulated utility suppliers. It includes the acquisition of liquefied petroleum gas as a utility service when purchased from regulated utility suppliers.

(b)(7) This part does not apply to third party financed projects. However, it may be used for any purchased utility services directly resulting from such projects, including those authorized by—

(A) 10 U.S.C. 2394 for energy, fuels, and energy production facilities for periods not to exceed 30 years;

(B) 10 U.S.C. 2394a for renewable energy for periods not to exceed 25 years;

(C) 10 U.S.C. 2689 for geothermal resources that result in energy production facilities;

(D) 10 U.S.C. 2809 for potable and waste water treatment plants for periods not to exceed 32 years; and

(E) 10 U.S.C. 2812 for lease/purchase of energy production facilities for periods not to exceed 32 years.

241.103 Statutory and delegated authority.

(1) The contracting officer may enter into a utility service contract related to the conveyance of a utility system for a period not to exceed 50 years (10 U.S.C. 2688(d)(2)).

(2) See 217.174 for authority to enter into multiyear contracts for electricity from renewable energy sources.

(3) See PGI 241.103 for statutory authorities and maximum contract periods for utility and energy contracts.

Subpart 241.2—Acquiring Utility Services

241.201 Policy.

(1) DoD, as a matter of comity, generally complies with the current regulations, practices, and decisions of independent regulatory bodies. This policy does not extend to nonindependent regulatory bodies.

(2) Purchases of utility services outside the United States may use—

(i) Formats and technical provisions consistent with local practice; and

(ii) Dual language forms and contracts.

(3) Rates established by an independent regulatory body—

(i) Are considered “prices set by law or regulation”;

(ii) Are sufficient to set prices without obtaining certified cost or pricing data (see FAR subpart 15.4); and

(iii) Are a valid basis on which prices can be determined fair and reasonable.

(4) Compliance with the regulations, practices, and decisions of independent regulatory bodies as a matter of comity is not a substitute for the procedures at FAR 41.202(a).

241.202 Procedures.

(1) *Connection and service charges.* The Government may pay a connection charge when required to cover the cost of the necessary connecting facilities. A connection charge based on the estimated labor cost of installing and removing the facility shall not include salvage cost. A lump-sum connection charge shall be no more than the agreed cost of the connecting facilities less net salvage. The order of precedence for contractual treatment of connection and service charges is—

(i) No connection charge.

(ii) Termination liability. Use when an obligation is necessary to secure the required services. The obligation must be not more than the agreed connection charge, less any net salvage material costs. Use of a termination liability instead of a connection charge requires the approval of the service power procurement officer or designee.

(iii) Connection charge, refundable. Use a refundable connection charge when the supplier refuses to provide the facilities based on lack of capital or published rules which prohibit providing up-front funding. The contract should provide for refund of the connection charge within five years unless a longer period or omission of the refund requirement is authorized by the service power procurement officer or designee.

(iv) Connection and service charges, nonrefundable. The Government may
