(d) If the new entrant is a for-hire carrier subject to the registration provisions under 49 U.S.C. 13901 and also has had its operating authority revoked, it must reapply for operating authority as set forth in § 390.201(b) and part 365 of this subchapter.

**§ 385.715 Duration of safety monitoring system.**

(a) Each non-North America-domiciled carrier subject to this subpart will remain in the safety monitoring system for at least 18 months from the date FMCSA issues its new entrant registration, except as provided in paragraphs (c) and (d) of this section.

(b) If, at the end of this 18-month period, the carrier's most recent safety rating was Satisfactory and no additional enforcement or safety improvement actions are pending under this subpart, the non-North America-domiciled carrier's new entrant registration will become permanent.

(c) If, at the end of this 18-month period, FMCSA has not been able to conduct a compliance review, the carrier will remain in the safety monitoring system until a compliance review is conducted. If the results of the compliance review are satisfactory, the carrier's new entrant registration will become permanent.

(d) If, at the end of this 18-month period, the carrier's new entrant registration is suspended under § 385.709(a) of

**49 CFR Ch. III (10–1–13 Edition)**

this subpart, the carrier will remain in the safety monitoring system until FMCSA either:

(1) Determines that the carrier has taken corrective action; or

(2) Completes measures to revoke the carrier's new entrant registration under § 385.709(c) of this subpart.

**§ 385.717 Applicability of safety fitness and enforcement procedures.**

At all times during which a non-North America-domiciled motor carrier is subject to the safety monitoring system in this subpart, it is also subject to the general safety fitness procedures established in subpart A of this part and to compliance and enforcement procedures applicable to all carriers regulated by the FMCSA.

**Subpart J [Reserved]**

**APPENDIX A TO PART 385—EXPLANATION OF SAFETY AUDIT EVALUATION CRITERIA**

**I. GENERAL**

(a) Section 210 of the Motor Carrier Safety Improvement Act (49 U.S.C. 31144) directed the Secretary to establish a procedure whereby each owner and each operator granted new authority must undergo a safety review within 12 months after receipt of its US DOT number for motor carriers of property and 120 days for motor carriers of passengers. The Secretary was also required to establish the elements of this safety review, including basic safety management controls. The Secretary, in turn, delegated this to the FMCSA.

(b) To meet the safety standard, a motor carrier must demonstrate to the FMCSA that it has basic safety management controls in place which function adequately to ensure minimum acceptable compliance with the applicable safety requirements. A "safety audit evaluation criteria" was developed by the FMCSA, which uses data from the safety audit and roadside inspections to determine that each owner and each operator applicant for new entrant registration, provisional operating authority, or provisional Certificate of Registration has basic safety management controls in place. The term "safety audit" is the equivalent to the "safety review" required by Sec. 210. Using "safety audit" avoids any possible confusion with the safety reviews previously conducted by the agency that were discontinued on September 30, 1994.

(c) The safety audit evaluation process developed by the FMCSA is used to:
