#### § 600.705

decision to the Secretary. If the Secretary, upon consideration of the state's application or any response to notice published under 600.630(a)(2), the hearing record, the recommended decision, and any other relevant materials finds that the reasons for regulation of the fishery within the boundaries of the state no longer prevail, the Secretary will promptly terminate such regulation and publish in the FEDERAL REGISTER any regulatory amendments necessary to accomplish that end.

### Subpart H—General Provisions for Domestic Fisheries

#### § 600.705 Relation to other laws.

- (a) General. Persons affected by these regulations should be aware that other Federal and state statutes and regulations may apply to their activities. Vessel operators may wish to refer to USCG regulations found in the Code of Federal Regulations title 33—Navigation and Navigable Waters and 46—Shipping; 15 CFR part 904, subpart D—Permit Sanctions and Denials; and title 43—Public Lands (in regard to marine sanctuaries).
- (b) State responsibilities. Certain responsibilities relating to data collection and enforcement may be performed by authorized state personnel under a state/Federal agreement for data collection and a tripartite agreement among the state, the USCG, and the Secretary for enforcement.
- (c) Submarine cables. Fishing vessel operators must exercise due care in the conduct of fishing activities near submarine cables. Damage to the submarine cables resulting from intentional acts or from the failure to exercise due care in the conduct of fishing operations subjects the fishing vessel operator to the criminal penalties prescribed by the Submarine Cable Act (47 U.S.C. 21) which implements the International Convention for the Protection of Submarine Cables. Fishing vessel operators also should be aware that the Submarine Cable Act prohibits fishing operations at a distance of less than 1 nautical mile (1.85 km) from a vessel engaged in laying or repairing a submarine cable; or at a distance of less than 0.25 nautical mile (0.46 km) from a

buoy or buoys intended to mark the position of a cable when being laid or when out of order or broken.

- (d) Marine mammals. Regulations governing exemption permits and the recordkeeping and reporting of the incidental take of marine mammals are set forth in part 229 of this title.
- (e) *Halibut fishing*. Fishing for halibut is governed by regulations of the International Pacific Halibut Commission set forth at part 300 of this title.
- (f) Marine sanctuaries. All fishing activity, regardless of species sought, is prohibited under 15 CFR part 924 in the U.S.S. Monitor Marine Sanctuary, which is located approximately 15 miles southwest of Cape Hatteras off the coast of North Carolina.

#### § 600.710 Permits.

Regulations pertaining to permits required for certain fisheries are set forth in the parts of this chapter governing those fisheries.

# \$ 600.715 Recordkeeping and reporting.

Regulations pertaining to records and reports required for certain fisheries are set forth in the parts of this chapter governing those fisheries.

# § 600.720 Vessel and gear identification.

Regulations pertaining to special vessel and gear markings required for certain fisheries are set forth in the parts of this chapter governing those fisheries.

### § 600.725 General prohibitions.

- It is unlawful for any person to do any of the following:
- (a) Possess, have custody or control of, ship, transport, offer for sale, sell, purchase, land, import, or export, any fish or parts thereof taken or retained in violation of the Magnuson-Stevens Act or any other statute administered by NOAA and/or any regulation or permit issued under the Magnuson-Stevens Act.
- (b) Transfer or attempt to transfer, directly or indirectly, any U.S.-harvested fish to any foreign fishing vessel, while such vessel is in the EEZ, unless the foreign fishing vessel has been issued a permit under section 204 of the

Magnuson-Stevens Act, which authorizes the receipt by such vessel of U.S.-harvested fish.

- (c) Fail to comply immediately with enforcement and boarding procedures specified in §600.730.
- (d) Refuse to allow an authorized officer to board a fishing vessel or to enter areas of custody for purposes of conducting any search, inspection, or seizure in connection with the enforcement of the Magnuson-Stevens Act or any other statute administered by NOAA.
- (e) Dispose of fish or parts thereof or other matter in any manner, after any communication or signal from an authorized officer, or after the approach by an authorized officer or an enforcement vessel or aircraft.
- (f) Assault, resist, oppose, impede, intimidate, threaten, or interfere with any authorized officer in the conduct of any search, inspection, or seizure in connection with enforcement of the Magnuson-Stevens Act or any other statute administered by NOAA.
- (g) Interfere with, delay, or prevent by any means, the apprehension of another person, knowing that such person has committed any act prohibited by the Magnuson-Stevens Act or any other statute administered by NOAA.
- (h) Resist a lawful arrest for any act prohibited under the Magnuson-Stevens Act or any other statute administered by NOAA.
- (i) Make any false statement, oral or written, to an authorized officer concerning the taking, catching, harvesting, landing, purchase, sale, offer of sale, possession, transport, import, export, or transfer of any fish, or attempts to do any of the above.
- (j) Interfere with, obstruct, delay, or prevent by any means an investigation, search, seizure, or disposition of seized property in connection with enforcement of the Magnuson-Stevens Act or any other statute administered by NOAA.
- (k) Fish in violation of the terms or conditions of any permit or authorization issued under the Magnuson-Stevens Act or any other statute administered by NOAA.
- (1) Fail to report catches as required while fishing pursuant to an exempted fishing permit.

- (m) On a scientific research vessel, engage in fishing other than recreational fishing authorized by applicable state or Federal regulations.
- (n) Trade, barter, or sell; or attempt to trade, barter, or sell fish possessed or retained while fishing pursuant to an authorization for an exempted educational activity.
- (o) Harass or sexually harass an authorized officer or an observer.
- (p) Fail to show proof of passing the USCG Commercial Fishing Vessel Safety Examination or the alternate NMFS safety equipment examination, or fail to maintain the vessel safety conditions necessary to pass the examination, when required by NMFS pursuant to §600.746.
- (q) Fail to display a Commercial Fishing Vessel Safety Examination decal or a valid certificate of compliance or inspection pursuant to §600.746.
- (r) Fail to provide to an observer, a NMFS employee, or a designated observer provider information that has been requested pursuant to §600.746, or fail to allow an observer, a NMFS employee, or a designated observer provider to inspect any item described at §600.746.
- (s) Fish without an observer when the vessel is required to carry an observer.
- (t) Assault, oppose, impede, intimidate, or interfere with a NMFS-approved observer.
- (u)(1) Prohibit or bar by command, impediment, threat, coercion, interference, or refusal of reasonable assistance, an observer from conducting his or her duties as an observer; or
- (2) Tamper with or destroy samples or equipment.
- (v) The use of any gear or participation in a fishery not on the following list of authorized fisheries and gear is prohibited after December 1, 1999. A fish, regardless whether targeted, may be retained only if it is taken within a listed fishery, is taken with a gear authorized for that fishery, and is taken in conformance with all other applicable regulations. Listed gear can only be used in a manner that is consistent with existing laws and regulations. The list of fisheries and authorized gear does not, in any way, alter or supersede

### §600.725

any definitions or regulations contained elsewhere in this chapter. A person or vessel is prohibited from engaging in fishing or employing fishing gear when such fishing gear is prohibited or restricted by regulation under an FMP or other applicable law. However, after December 1, 1999, an individual fisherman may notify the appropriate Council, or the Director, in the case of Atlantic highly migratory species, of the

intent to use a gear or participate in a fishery not already on the list. Ninety days after such notification, the individual may use the gear or participate in that fishery unless regulatory action is taken to prohibit the use of the gear or participate in the fishery (e.g., through emergency or interim regulations). The list of authorized fisheries and gear is as follows:

Fishery	Authorized gear types
I. New England Fishery Managemen	nt Council (NEFMC)
Atlantic Sea Scallop Fishery (FMP):	
A. Dredge fishery	A. Dredge.
B. Trawl fishery	
C. Hand harvest fishery	
D. Recreational fishery	
2. Iceland Scallop Fishery (Non-FMP):	Di Hara Harvoor
A. Dredge fishery	A. Dredge.
B. Trawl fishery	
Atlantic Salmon Fishery (FMP)	
Striped Bass Fishery (Non-FMP)	
5. Northeast (NE) Multispecies Fishery (FMP):	140 that vest of possession in the LLZ.
A. NE multispecies sink gillnet fishery	A. Gillnet.
B. North Atlantic bottom trawl fishery	
C. Groundfish hook and line fishery	
D. Mixed species trap and pot fishery	
E. Dredge fishery	
F. Seine fishery	
G. Recreational fishery	G. Rod and reel, handline, spear.
American Lobster Fishery (FMP):	
A. Lobster pot and trap fishery	
B. North Atlantic bottom trawl fishery	
C. Dredge fishery	C. Dredge.
D. Hand harvest fishery	D. Hand harvest.
E. Gillnet fishery	E. Gillnet.
F. Recreational fishery	F. Pot, trap, hand harvest.
7. Atlantic Herring Fishery (FMP):	,
A. Trawl fishery	A. Trawl.
B. Purse seine fishery	
C. Gillnet fishery	
D. Herring pair trawl fishery	
E. Dredge fishery	
F. Recreational fishery	
Spiny Dogfish Fishery (FMP jointly managed by MAFMC and	
NEFMC):	
A. Gillnet fishery	A. Gillnet.
B. Trawl fishery	
C. Hook and line fishery	
D. Dredge fishery	
E. Longline fishery	
F. Recreational fishery	F. Hook and line, rod and reel, spear.
Atlantic Bluefish Fishery (FMP managed by MAFMC):	
A. Pelagic longline and hook and line fishery	
B. Seine fishery	
C. Mixed species pot and trap fishery	
D. Bluefish, croaker, flounder trawl fishery	
E. Gillnet fishery	
F. Dredge fishery	F. Dredge.
G. Recreational fishery	G. Rod and reel, handline, trap, pot, spear.
10. Atlantic Mackerel, Squid and Butterfish Fishery (FMP managed by	
the MAFMC):	
A. Mackerel, squid, and butterfish trawl fishery	A. Trawl.
B. Gillnet fishery	
C. Longline and hook-and-line fishery	
D. Purse seine fishery	
E. Mixed species pot and trap fishery	
F. Dredge fishery	
G. Dip net fishery	
а. Dip нег напету	. a. pip liet.

14. Commercial Fishery (Non-FMP)	Trawl, gillnet, hook and line, longline, handline, rod and reel, bandit gear, cast net, spear.
VIII. Western Pacific Fishery Man	agement Council
1. Western Pacific Crustacean Fishery (FMP) (Fishery Ecosystem Plan, FEP).	Trap, hand harvest, hoop net.
2. Western Pacific Crustacean Fishery (Non-FEP):	
A. Commercial fishery	A. Gillnet, hand harvest, hoop net, spear, snare, trap,
B. Recreational fishery	trawl.  B. Gillnet, hand harvest, hoop net, spear, snare, trap.
C. Charter fishery	C. Hand harvest, spear.
Western Pacific Precious Corals Fishery (FEP):	O. Hand Harvoor, opean
A. Tangle net dredge fishery	A. Tangle net dredge.
B. Submersible fishery	
C. Dive fishery	
D. Recreational fishery	D. Hand harvest. Hand harvest, submersible, tangle net dredge.
Western Pacific Bottomfish and Seamount Groundfish Fishery (FEP)	Tialid flatvest, submersible, tarigle flet dredge.
A. Bottomfish hook-and-line fishery	A. Bandit gear, buoy gear, handline, hook and line
,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	rod and reel, hand harvest.
B. Seamount groundfish fishery	B. Longline, trawl.
C. Bottom longline fishery	C. Longline, hook and line.
D. Trap fishery	
E. Spear fishery	E. Spear, powerhead.
FEP):	
A. Commercial fishery	A. Bandit gear, buoy gear, gillnet, handline, hook-
·	and-line, longline, rod and reel, spear, trap.
B. Recreational fishery	B. Bandit gear, buoy gear, Gillnet, handline, hook and line, longline, rod and reel, spear, trap, slurp gun, hand harvest.
C. Charter fishery	C. Bandit gear, buoy gear, handline, hook-and-line,
	rod and reel, spear.
Western Pacific Pelagics Fishery (FEP):     A. Longline Fishery	A Longline
B. Hook and line fishery	
b. Hook and line honory	rod and reel.
C. Purse seine fishery	C. Lampara net, purse seine.
D. Spear fishery	D. Spear, powerhead.
E. Squid jig fishery	E. Squid jig.
Western Pacific Pelagics Fishery (Non-FEP):  A Page of the large	A Dendit was been alleged to be a bounding back
A. Recreational fishery	A. Bandit gear, buoy gear, dip net, handline, hook and line, hoop net, powerhead, rod and real, spear.
B. Commercial fishery	B. Bandit gear, buoy gear, dip net, handline, hook
D. Commordia noncry	and line, hoop net, powerhead, rod and reel, spear.
C. Charter fishery	C. Bandit gear, buoy gear, dip net, handline, hook
·	and line, hoop net, powerhead, rod and reel, spear.
Western Pacific Coastal Pelagics Fishery (Non-FEP)	Bandit gear, buoy gear, dip net, gillnet, handline, hook and line, hoop net, lampara net, purse seine,
10. Western Pacific Squid and Octopus Fishery (Non-FEP)	rod and reel, spear.  Bandit gear, hand harvest, hook and line, rod and reel, spear, trap.
11. Western Pacific Coral Reef Fishery (Non-FEP)	Allowable chemical, barrier net, dip net, gillnet, hand harvest, seine, slurp gun, trap, spear, rod and reel, hook and line.
12. Recreational Fishery (Non-FEP)	Rod and reel, hook and line, handline, hand harvest
10 Commercial Fishers (Non FED)	spear.
13. Commercial Fishery (Non-FEP)	Trawl, gillnet, hook and line, longline, handline, roc and reel, bandit gear, cast net, spear.

Commercial Fisheries (Non-FMP)	turias), green-stack gear (nins charter/neadboar Category only).  J. Rod and reel, harpoon, handline, bandit gear.  K. Harpoon.  L. Rod and reel.  M. Green-stick gear.  N. Rod and reel, handline, harpoon, bandit gear, green-stick gear, buoy gear.  Rod and reel, handline, longline, gillnet, harpoon, bandit gear, purse seine, green-stick gear.

(w) Fail to maintain safe conditions for the protection of observers including compliance with all U.S. Coast Guard and other applicable rules, regulations, or statutes applicable to the vessel and which pertain to safe operation of the vessel.

[61 FR 32540, June 24, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 600.725, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

#### § 600.730 Facilitation of enforcement.

(a) General. The operator of, or any other person aboard, any fishing vessel subject to parts 622 through 699 of this chapter must immediately comply with instructions and signals issued by an authorized officer to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record (where applicable), and catch for purposes of enforcing the Magnuson-Stevens Act or any other statute administered by NOAA and this chapter.

(1) For the purposes of this section "freeboard" means the working distance between the top rail of the gunwale of a vessel and the water's surface. Where cut-outs are provided in the bulwarks for the purpose of boarding personnel, freeboard means the dis-

tance between the threshold of the bulwark cut-out and the water's surface.

- (2) For the purposes of this section, "pilot ladder" means a flexible ladder constructed and approved to meet the U.S. Coast Guard standards for pilot ladders at 46 CFR subpart 163.003 entitled Pilot Ladder.
- (b) Communications. (1) Upon being approached by a USCG vessel or aircraft, or other vessel or aircraft with an authorized officer aboard, the operator of a fishing vessel must be alert for communications conveying enforcement instructions.
- (2) VHF-FM radiotelephone is the preferred method for communicating between vessels. If the size of the vessel and the wind, sea, and visibility conditions allow, a loudhailer may be used instead of the radio. Hand signals, placards, high frequency radiotelephone, or voice may be employed by an authorized officer, and message blocks may be dropped from an aircraft.
- (3) If other communications are not practicable, visual signals may be transmitted by flashing light directed at the vessel signaled. USCG units will normally use the flashing light signal "L" as the signal to stop. In the International Code of Signals, "L" (.-..) means "you should stop your vessel instantly." (Period (.) means a short flash of light; dash (-) means a long flash of light.)
