

§ 1430.305

7 CFR Ch. XIV (1-1-13 Edition)

(c) Producers associated with a dairy operation must submit a timely application and comply with terms and conditions of this subpart, instructions issued by CCC and instructions contained in the Application to be eligible for benefits under this subpart.

(d) As a condition to receive benefits under this part, a producer must have been in compliance with the Highly Erodible Land Conservation and Wetland Conservation provisions of 7 CFR part 12 for the 2004 calendar year, as applicable, and must not otherwise be barred from receiving benefits under 7 CFR part 12 or any other law or regulation.

(e) Payments are limited to losses in eligible counties in eligible months.

(f) All payments under this part are subject to the availability of funds.

§ 1430.305 Proof of production.

(a) Evidence of production is required to establish the commercial marketing and production history of the dairy operation so that production and spoilage losses can be computed in accordance with §1430.306.

(b) A dairy producer must, based on the instructions issued by the Deputy Administrator, provide adequate proof of the dairy operation's commercial production, including any dumped production and dairy cow purchases, for each month of the period July 2004 through October 2004, and must specifically identify any dumped production for August through October 2004. If a month other than July 2004 is used for base creation purposes records for that month must be provided.

(1) A producer must certify and provide such proof as requested that losses for which compensation is claimed were hurricane-related and occurred in an eligible county in an eligible month.

(2) Additional supporting documentation may be requested by FSA as necessary to verify production or spoilage losses and dairy herd increases or decreases to the satisfaction of FSA.

(c) Adequate proof of production history of the dairy operation under paragraph (b) of this section must be based on milk marketing statements obtained from the dairy operation's milk handler or marketing cooperative. Supporting documents may include, but

are not limited to: tank records, milk handler records, daily milk marketings, copies of any payments received from other sources for production or spoilage losses, or any other documents available to confirm the production history and losses incurred by the dairy operation.

(d) Adequate proof of dairy cow additions to the milking herd during the eligible months can include, but are not limited to sales receipts, invoices, State health certificates, or any other documents available to confirm the cow purchases.

(e) All information provided to FSA by a producer is subject to verification, spot-check and audit by FSA. Also, FSA or another CCC representative may examine the dairy operation's production or spoilage claims.

(f) If adequate proof of commercially-marketed production and supporting documentation is not presented to the satisfaction of CCC or FSA, the request for benefits will be rejected. In the case of a new producer that had no verifiable, actual, commercial production marketed by the dairy operation during the month of July 2004, but which suffered eligible losses, an alternate base period may be established by the Deputy Administrator.

§ 1430.306 Determination of losses incurred.

(a) Eligible payable losses are calculated on a dairy operation by dairy operation basis and are limited to those occurring in August through October 2004. Specifically, dairy production and spoilage losses incurred by producers under this subpart are determined on the established history of the dairy operation's actual commercial production marketed from August through October 2004, and actual production dumped or otherwise not marketed from August through October 2004, as provided by the dairy operation consistent with §1430.305. Except as otherwise provided in these regulations, the starting base production, as defined in §1430.302, is adjusted downward by a percentage determined by CCC to determine the base production for the months of August through October 2004. These adjustments are made to account for the seasonal declines
