

§ 1466.9 EQIP plan of operations.

(a) All conservation practices in the EQIP plan of operations must be approved by NRCS and developed and carried out in accordance with the applicable NRCS technical guidance.

(b) The participant is responsible for implementing the EQIP plan of operations.

(c) The EQIP plan of operations must include:

(1) A description of the participant's specific conservation and environmental objectives to be achieved;

(2) To the extent practicable, the quantitative or qualitative goals for achieving the participant's conservation, natural resource, and environmental objectives;

(3) A description of one or more conservation practices in the conservation management system, including conservation planning, design, or installation activities, to be implemented to achieve the conservation and environmental objectives;

(4) A description of the schedule for implementing the conservation practices, including timing, sequence, operation, and maintenance; and

(5) Information that will enable evaluation of the effectiveness of the plan in achieving the environmental objectives.

(d) If an EQIP plan of operations includes an animal waste storage or treatment facility, the participant must agree to develop and implement a CNMP or demonstrate to the satisfaction of the designated conservationist that a CNMP has been implemented.

(e) If an EQIP plan of operations addresses forestland, the participant must develop and implement a forest management plan.

(f) A participant may receive assistance to implement an EQIP plan of operations for water conservation only if the assistance will facilitate a reduction in ground and surface water use on the agricultural operation, unless the producer is participating in a watershed-wide project, as approved by the State Conservationist, which will effectively conserve water in accordance with § 1466.20.

Subpart B—Contracts and Payments**§ 1466.10 Conservation practices.**

(a) NRCS will determine the conservation practices for which participants may receive program payments. A list of eligible practices will be available to the public.

(b) Payments will not be made to a participant for a conservation practice that either the applicant or another producer has applied prior to application for the program. Payments will not be made for a conservation practice that has been initiated or implemented prior to contract approval, unless a waiver was granted by the State Conservationist or designated conservationist prior to the practice implementation.

(c) A participant will be eligible for payments for water conservation and irrigation related conservation practices only on land that has been irrigated for two of the last five years prior to application for assistance.

(d) Where new technologies or management approaches that provide a high potential for optimizing environmental benefits have been developed, NRCS may approve interim conservation practice standards that incorporate the new technologies and provide financial assistance for pilot work to evaluate and assess the performance, efficiency, and effectiveness of the new technology or management approach.

§ 1466.11 Technical services provided by qualified personnel not affiliated with USDA.

(a) NRCS may use the services of qualified TSPs in performing its responsibilities for technical assistance.

(b) Participants may use technical services from qualified personnel of other Federal, State, and local agencies, Indian Tribes, or individuals who are certified as TSPs by NRCS.

(c) Technical services provided by qualified personnel not affiliated with USDA may include, but are not limited
