

### Subpart C—Pre-award: Application Review and Evaluation

#### § 3430.31 Guiding principles.

The guiding principle for Federal assistance application review and evaluation is to ensure that each proposal is treated in a consistent and fair manner regardless of regional and institutional affiliation. After the evaluation process by the review panel, NIFA, through the program officer, ensures that applicants receive appropriate feedback and comments on their proposals, and processes the awards in as timely a manner as possible.

#### § 3430.32 Preliminary application review.

Prior to technical examination, a preliminary review will be made of all applications for responsiveness to the administrative requirements set forth in the RFA. Applications that do not meet the administrative requirements may be eliminated from program competition. However, NIFA retains the right to conduct discussions with applicants to resolve technical and/or budget issues, as deemed necessary by NIFA.

#### § 3430.33 Selection of reviewers.

(a) *Requirement.* NIFA is responsible for performing a review of applications submitted to NIFA competitive award programs in accordance with section 103(a) of AREERA (7 U.S.C. 7613(a)). Reviews are undertaken to ensure that projects supported by NIFA are of high quality and are consistent with the goals and requirements of the funding program. Applications submitted to NIFA undergo a programmatic evaluation to determine the worthiness of Federal support. The scientific peer review or merit review is performed by peer or merit reviewers and also may entail an assessment by Federal employees.

(b) *NIFA Peer Review System.* The NIFA Application Review Process is accomplished through the use of the NIFA Peer Review System (PRS), a Web-based system which allows reviewers and potential reviewers to update personal information and to complete and submit reviews electronically to NIFA.

(c) *Relevant training and experience.* Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields taking into account the following factors:

(1) Level of relevant formal scientific, technical education, and extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities.

(2) Need to include as reviewers experts from various areas of specialization within relevant scientific, education, and extension fields.

(3) Need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs.

(4) Need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, State and Federal agencies, private profit and nonprofit organizations) and geographic locations.

(5) Need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution.

(6) Need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

(d) *Confidentiality.* The identities of reviewers will remain confidential to the maximum extent possible. Therefore, the names of reviewers will not be released to applicants. If it is possible to reveal the names of reviewers in such a way that they cannot be identified with the review of any particular application, this will be done at the end of the fiscal year or as requested. Names of submitting institutions and individuals, as well as application content and peer evaluations, will be kept confidential, except to those involved in the review process, to the extent permitted by law. Reviewers are expected to be in compliance with NIFA Confidentiality Guidelines. Reviewers provide this assurance through PRS.

(e) *Conflicts of interest.* During the evaluation process, extreme care will be taken to prevent any actual or perceived conflicts of interest that may

impact review or evaluation. For the purpose of determining conflicts of interest, the academic and administrative autonomy of an institution shall be determined. Reviewers are expected to be in compliance with NIFA Conflict-of-Interest Guidelines. Reviewers provide this assurance through PRS.

#### § 3430.34 Evaluation criteria.

(a) *General.* To ensure any project receiving funds from NIFA is consistent with the broad goals of the funding program, the content of each proposal/application submitted to NIFA will be evaluated based on a pre-determined set of review criteria. It is the responsibility of the Program Officer to develop, adopt, adapt, or otherwise establish the criteria by which proposals are to be evaluated. It may be appropriate for the Program Officer to involve other scientists or stakeholders in the development of criteria, or to extract criteria from legislative authority or appropriations language. The review criteria are described in the RFA and shall not include criteria concerning any cost sharing or matching requirements per section 103(a)(3) of AREERA (7 U.S.C. 7613(a)(3)).

(b) *Guidance for reviewers.* In order that all potential applicants for a program have similar opportunities to compete for funds, all reviewers will receive from the Program Officer a description of the review criteria. Reviewers are instructed to use those same evaluation criteria, and only those criteria, to judge the merit of the proposals they review.

#### § 3430.35 Review of noncompetitive applications.

(a) *General.* Some projects are directed by either authorizing legislation and/or appropriations to specifically support a designated institution or set of institutions for particular research, education, or extension topics of importance to the nation, a State, or a region. Although these projects may be awarded noncompetitively, these projects or activities are subject to the same application process, award terms and conditions, Federal assistance laws and regulations, reporting and monitoring requirements, and post-award administration and closeout policies

and procedures as competitive Federal assistance programs. The only difference is these applications are not subject to a competitive peer or merit review process at the Agency level.

(b) *Requirements.* All noncompetitive applications recommended for funding are required to be reviewed by the program officer and, as required, other Departmental and NIFA officials; and the review documented by the NIFA program officer. For awards recommended for funding at or greater than \$10,000, an independent review and a unit review by program officials are required.

#### § 3430.36 Procedures to minimize or eliminate duplication of effort.

NIFA may implement appropriate business processes to minimize or eliminate the awarding of NIFA Federal assistance that unnecessarily duplicates activities already being sponsored under other awards, including awards made by other Federal agencies. Business processes may include the review of the Current and Pending Support Form; documented CRIS searches prior to award; the conduct of PD workshops, conferences, meetings, and symposia; and agency participation in Federal Government-wide and other committees, taskforces, or groups that seek to solve problems related to agricultural research, education, and extension and other activities delegated to the NIFA Director.

#### § 3430.37 Feedback to applicants.

Copies of individual reviews and/or summary reviews, not including the identity of reviewers, will be sent to the applicant PDs after the review process has been completed.

### Subpart D—Award

#### § 3430.41 Administration.

(a) *General.* Within the limit of funds available for such purpose, the NIFA ADO shall make Federal assistance awards to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. The date specified by the NIFA ADO as the effective date of the award shall be no later
