

safeguarded by an insect-proof mesh screen or plastic tarpaulin while in transit from the production site to the packinghouse and while awaiting packing. The peppers must be packed in insect-proof cartons or containers, or covered with insect-proof mesh or plastic tarpaulin, for transit to the continental United States. These safeguards must remain intact until the arrival of the peppers in the United States or the consignment will not be allowed to enter the United States.

(e) Each consignment of peppers must be accompanied by a phytosanitary certificate of inspection issued by NPQS bearing the following additional declaration: “These peppers were grown in greenhouses in accordance with the conditions in 7 CFR 319.56–42 and were inspected and found free from *Agrotis segetum*, *Helicoverpa armigera*, *Helicoverpa assulta*, *Mamestra brassicae*, *Monilinia fructigena*, *Ostrinia furnacalis*, *Scirtothrips dorsalis*, *Spodoptera litura*, and *Thrips palmi*.”

(f) The peppers must be imported in commercial consignments only.

**§ 319.56–43 Baby corn and baby carrots from Zambia.**

(a) Immature, dehusked “baby” sweet corn (*Zea mays* L.) measuring 10 to 25 millimeters (0.39 to 0.98 inches) in diameter and 60 to 105 millimeters (2.36 to 4.13 inches) in length may be imported into the continental United States from Zambia only under the following conditions and in accordance with all other applicable provisions of this subpart:

(1) The production site, which is a field, where the corn has been grown must have been inspected at least once during the growing season and before harvest for the following pest: *Phomopsis jaczewskii*.

(2) After harvest, the corn must be inspected by Zambia’s national plant protection organization (NPPO) and found free of the pests listed in paragraph (a)(1) of this section before the corn may be shipped to the continental United States.

(3) The corn must be inspected at the port of first arrival as provided in § 319.56–3(d).

(4) Each consignment must be accompanied by a phytosanitary certificate issued by the NPPO of Zambia that includes an additional declaration stating that the corn has been inspected and found free of *Phomopsis jaczewskii* based on field and packinghouse inspections.

(5) The corn may be imported in commercial consignments only.

(b) Immature “baby” carrots (*Daucus carota* L. ssp. *sativus*) for consumption measuring 10 to 18 millimeters (0.39 to 0.71 inches) in diameter and 50 to 105 millimeters (1.97 to 4.13 inches) in length may be imported into the continental United States from Zambia only under the following conditions:

(1) The production site, which is a field, where the carrots have been grown must have been inspected at least once during the growing season and before harvest for the following pest: *Meloidogyne ethiopica*.

(2) After harvest, the carrots must be inspected by the NPPO of Zambia and found free of the pests listed in paragraph (b)(1) of this section before the carrots may be shipped to the continental United States.

(3) The carrots must be inspected at the port of first arrival as provided in § 319.56–3(d).

(4) Each consignment must be accompanied by a phytosanitary certificate issued by the NPPO of Zambia that includes an additional declaration stating that the carrots have been inspected and found free of *Meloidogyne ethiopica* based on field and packinghouse inspections.

(5) The carrots must be free from leaves and soil.

(6) The carrots may be imported in commercial consignments only.
