(5) “Colossal”—3¾ inches or larger in diameter.

(6) Tolerances for size in the U.S. onion standards shall apply except that for “repacker” and “medium” sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply.

(c) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraphs (d), (e)(1), or (e)(2) of this section unless an inspection certificate has been issued by the Federal or Federal-State Inspection Service, Texas Cooperative Inspection Program, covering them and the certificate is valid at the time of shipment. (4) Handlers shall pay assessment on all assessable onions according to the provisions of § 959.42.

(d) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 110 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 110 pounds of onions.

(e) *Special purpose shipments.* (1) The minimum grade, size, quality, and inspection requirements set forth in paragraphs (a) through (c) of this section shall not be applicable to shipments of onions for charity, relief, export, and processing if handled in accordance with paragraph (f) of this section.

(2) *Experimental shipments.* Upon approval by the committee, onions may be shipped for experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52 and 959.60, provided they are handled in accordance with the safeguard provisions of paragraph (f) of this section.

(3) *Onions failing to meet requirements.* Onions failing to meet the grade and size requirements of this section, and not exempt under paragraphs (d) or (e) of this section, may be handled only pursuant to § 959.126. Such onions not handled in accordance with paragraph (f) of this section shall be mechanically mutilated at the packing shed rendering them unsuitable for fresh market.

(f) *Safeguards.* Each handler making shipments of onions for charity, relief, export, processing, or experimental purposes shall:

(1) Apply to the committee for and obtain a Certificate of Privilege to make such shipments;

(2) Furnish reports of each shipment made under the applicable Certificate of Privilege;

(3) Such reports, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms and at such times as it may prescribe. Each handler shall maintain records of such shipments pursuant to § 959.80(c), and the records shall be subject to review and audit by the committee to verify reports thereon.

(4) In addition to provisions in the preceding paragraphs, each handler making shipments for processing shall:

(i) Weigh or cause to be weighed each shipment prior to, or upon arrival at, the processor.

(v) Each processor who receives cull onions shall make available at its business office at any reasonable time during business hours, copies of all applicable purchase orders, sales contracts, or disposition documents for examination by the Department or by the committee, together with any other information which the committee or the Department may deem necessary to enable it to determine the disposition of the onions.

(vi) If a processor employs a subcontractor for any stage of processing, such processor shall be responsible for ensuring that the subcontractor accounts for all quantities of onions received and processed or otherwise disposed of, and that the subcontractor reports to the committee in the same manner and frequently as the processor.

(5) Cull onions transported in bags shall be transported in unlabelled bags,

or shall have labelled bags reversed so that the label is not visible.

The term *U.S. No. 1* shall have the same meaning as set forth in these standards. *Processing* means cooking or freezing the onions in such a way, or with such other food components, that the consistency of the product is changed.
