

§ 993.59

quantity on which default occurred. Purchases shall be made from prunes with respect to which the reserve obligation has been met, and shall be of grades, varieties, or sizes and in such containers as the committee specifies in consideration of available reserve prune outlets. Purchases shall be at prices determined to be appropriate by the committee and if more prunes are offered than required by the committee, it shall make the purchases from various handlers as nearly as practicable in proportion to the quantity of their respective offerings at the same price. The committee shall dispose of the prunes acquired as soon as practicable in the most favorable reserve prune outlets and shall deposit the proceeds from such sales, less committee expenses in connection with such transaction, with reserve pool funds for distribution to equity holders.

(3) If for any reason the committee is unable to purchase a quantity of prunes as large as the quantity of reserve prunes in default by the handler, any remaining balance of funds received because of the default less expenses of the committee, shall be deposited with reserve pool funds for distribution to equity holders.

(c) A handler who has defaulted on his bond shall be credited on his reserve obligation with, and his holding requirement reduced by, that quantity of prunes represented by the sums collected but not more than the extent of his default.

PRODUCER DIVERSION

**§ 993.62 Diversion privileges.**

(a) *Prune plums.* The words *prune plums* as used in this section mean plums of a variety used in the production of prunes.

(b) *Voluntary principle.* No producer shall be required to divert all or any portion of the prune plums produced by him.

(c) *Authorization.* If, on the basis of a committee recommendation for diversion operations, the availability of governing rules and procedures established by the Secretary after recommendation of the committee, and other information, the Secretary concurs that diversion operations should be permitted, he shall authorize such operations.

(d) *Diversion certificates.* After diversion operations are authorized, and subject to the applicable rules and procedures, any producer may divert prune plums of his own production for eligible purposes and receive from the committee a diversion certificate therefor: *Provided*, That diversion certificates for prune plums diverted by producer members of a cooperative marketing association shall be issued by the committee to the association if it so requests. To the extent permitted by the rules and procedures, the certificate may be submitted to any handler in lieu of reserve prunes and to the same extent the certificate shall entitle the handler to satisfy his reserve obligation. Only to the extent permitted by the rules and procedures, diversion certificates may be transferable among producers and handlers.

(e) *Eligible diversions.* Within such restrictions as may be prescribed in rules and procedures, diversion may be authorized for such dispositions as are not competitive with the normal marketing of prunes and prune products. Such eligible diversions may include: (1) Disposal of prune plums for nonhuman use; (2) leaving prune plums unharvested; and (3) such other methods of diversion as may be authorized. No diversion certificate shall be issued by the committee for prune plums which would not, under normal producer practices, be dried and delivered to a handler.
