

CODE OF FEDERAL REGULATIONS

Title 12 Banks and Banking

Parts 1 to 199

Revised as of January 1, 2014

Containing a codification of documents
of general applicability and future effect

As of January 1, 2014

Published by the Office of the Federal Register
National Archives and Records Administration
as a Special Edition of the Federal Register

U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0-16 ISBN prefix is for U.S. Government Printing Office Official Editions only. The Superintendent of Documents of the U.S. Government Printing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Title 12:	
Chapter I—Comptroller of the Currency, Department of the Treasury	3
Finding Aids:	
Table of CFR Titles and Chapters	1049
Alphabetical List of Agencies Appearing in the CFR	1069
List of CFR Sections Affected	1079

Cite this Code: CFR

*To cite the regulations in
this volume use title,
part and section num-
ber. Thus, 12 CFR 1.1
refers to title 12, part 1,
section 1.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....	as of January 1
Title 17 through Title 27.....	as of April 1
Title 28 through Title 41.....	as of July 1
Title 42 through Title 50.....	as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2014), consult the "List of CFR Sections Affected (LSA)," which is issued monthly, and the "Cumulative List of Parts Affected," which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a "List of CFR Sections Affected" is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

"[RESERVED]" TERMINOLOGY

The term "[Reserved]" is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a "[Reserved]" location at any time. Occasionally "[Reserved]" is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

- (a) The incorporation will substantially reduce the volume of material published in the Federal Register.
- (b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.
- (c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume. The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202–741–6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail fedreg.info@nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Printing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via www.ofr.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Printing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, ContactCenter@gpo.gov.

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.archives.gov/federal-register.

The e-CFR is a regularly updated, unofficial editorial compilation of CFR material and Federal Register amendments, produced by the Office of the Federal Register and the Government Printing Office. It is available at www.ecfr.gov.

CHARLES A. BARTH,
Director,
Office of the Federal Register.
January 1, 2014.

THIS TITLE

Title 12—BANKS AND BANKING is composed of eight volumes. The parts in these volumes are arranged in the following order: Parts 1–199, 200–219, 220–229, 230–299, 300–499, 500–599, part 600–899, and 900–end. The first volume containing parts 1–199 is comprised of chapter I—Comptroller of the Currency, Department of the Treasury. The second, third and fourth volumes containing parts 200–299 are comprised of chapter II—Federal Reserve System. The fifth volume containing parts 300–499 is comprised of chapter III—Federal Deposit Insurance Corporation and chapter IV—Export-Import Bank of the United States. The sixth volume containing parts 500–599 is comprised of chapter V—Office of Thrift Supervision, Department of the Treasury. The seventh volume containing parts 600–899 is comprised of chapter VI—Farm Credit Administration, chapter VII—National Credit Union Administration, chapter VIII—Federal Financing Bank. The eighth volume containing part 900–end is comprised of chapter IX—Federal Housing Finance Board, chapter XI—Federal Financial Institutions Examination Council, chapter XIV—Farm Credit System Insurance Corporation, chapter XV—Department of the Treasury, chapter XVII—Office of Federal Housing Enterprise Oversight, Department of Housing and Urban Development and chapter XVIII—Community Development Financial Institutions Fund, Department of the Treasury. The contents of these volumes represent all of the current regulations codified under this title of the CFR as of January 1, 2014.

For this volume, Jonn V. Lilyea was Chief Editor. The Code of Federal Regulations publication program is under the direction of the Managing Editor, assisted by Ann Worley.

PART 1—INVESTMENT SECURITIES

Sec.

- 1.1 Authority, purpose, scope, and reservation of authority.
- 1.2 Definitions.
- 1.3 Limitations on dealing in, underwriting, and purchase and sale of securities.
- 1.4 Calculation of limits.
- 1.5 Safe and sound banking practices; credit information required.
- 1.6 Convertible securities.
- 1.7 Securities held in satisfaction of debts previously contracted; holding period; disposal; accounting treatment; non-speculative purpose.
- 1.8 Nonconforming investments.

INTERPRETATIONS

- 1.100 Indirect general obligations.
- 1.110 Taxing powers of a State or political subdivision.
- 1.120 Prerefunded or escrowed bonds and obligations secured by Type I securities.
- 1.130 Type II securities; guidelines for obligations issued for university and housing purposes.

AUTHORITY: 12 U.S.C. 1 *et seq.*, 24 (Seventh), and 93a.

SOURCE: 61 FR 63982, Dec. 2, 1996, unless otherwise noted.

§ 1.1 Authority, purpose, scope, and reservation of authority.

(a) *Authority.* This part is issued pursuant to 12 U.S.C. 1 *et seq.*, 12 U.S.C. 24 (Seventh), and 12 U.S.C. 93a.

(b) *Purpose.* This part prescribes standards under which national banks may purchase, sell, deal in, underwrite, and hold securities, consistent with the authority contained in 12 U.S.C. 24 (Seventh) and safe and sound banking practices.

(c) *Scope.* The standards set forth in this part apply to national banks and Federal branches of foreign banks. Further, pursuant to 12 U.S.C. 335, State banks that are members of the Federal Reserve System are subject to the same limitations and conditions that apply to national banks in connection with purchasing, selling, dealing in, and underwriting securities and stock. In addition to activities authorized under this part, foreign branches of national banks are authorized to conduct international activities and invest in securities pursuant to 12 CFR part 211.

(d) *Reservation of authority.* The OCC may determine, on a case-by-case basis, that a national bank may acquire an investment security other than an investment security of a type set forth in this part, provided the OCC determines that the bank's investment is consistent with 12 U.S.C. section 24 (Seventh) and with safe and sound banking practices. The OCC will consider all relevant factors, including the risk characteristics of the particular investment in comparison with the risk characteristics of investments that the OCC has previously authorized, and the bank's ability effectively to manage such risks. The OCC may impose limits or conditions in connection with approval of an investment security under this subsection. Investment securities that the OCC determines are permissible in accordance with this paragraph constitute eligible investments for purposes of 12 U.S.C. 24.

[61 FR 63982, Dec. 2, 1996, as amended at 73 FR 22235, Apr. 24, 2008]

§ 1.2 Definitions.

(a) *Capital and surplus* means:

(1) A bank's Tier 1 and Tier 2 capital calculated under the OCC's risk-based capital standards set forth in appendix A to 12 CFR part 3 (or comparable capital guidelines of the appropriate Federal banking agency) as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161 (or under 12 U.S.C. 1817 in the case of a state member bank); plus

(2) The balance of a bank's allowance for loan and lease losses not included in the bank's Tier 2 capital, for purposes of the calculation of risk-based capital described in paragraph (a)(1) of this section, as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161 (or under 12 U.S.C. 1817 in the case of a state member bank).

(b) *General obligation of a State or political subdivision* means:

(1) An obligation supported by the full faith and credit of an obligor possessing general powers of taxation, including property taxation; or

(2) An obligation payable from a special fund or by an obligor not possessing general powers of taxation,

§ 1.2

12 CFR Ch. I (1–1–14 Edition)

when an obligor possessing general powers of taxation, including property taxation, has unconditionally promised to make payments into the fund or otherwise provide funds to cover all required payments on the obligation.

(c) *Investment company* means an investment company, including a mutual fund, registered under section 8 of the Investment Company Act of 1940, 15 U.S.C. 80a–8.

(d) *Investment grade* means the issuer of a security has an adequate capacity to meet financial commitments under the security for the projected life of the asset or exposure. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely repayment of principal and interest is expected.

(e) *Investment security* means a marketable debt obligation that is investment grade and not predominately speculative in nature.

(f) *Marketable* means that the security:

(1) Is registered under the Securities Act of 1933, 15 U.S.C. 77a *et seq.*;

(2) Is a municipal revenue bond exempt from registration under the Securities Act of 1933, 15 U.S.C. 77c(a)(2);

(3) Is offered and sold pursuant to Securities and Exchange Commission Rule 144A, 17 CFR 230.144A, and investment grade; or

(4) Can be sold with reasonable promptness at a price that corresponds reasonably to its fair value.

(g) *Municipal bonds* means obligations of a State or political subdivision other than general obligations, and includes limited obligation bonds, revenue bonds, and obligations that satisfy the requirements of section 142(b)(1) of the Internal Revenue Code of 1986 issued by or on behalf of any State or political subdivision of a State, including any municipal corporate instrumentality of 1 or more States, or any public agency or authority of any State or political subdivision of a State.

(h) [Reserved]

(i) *Political subdivision* means a county, city, town, or other municipal corporation, a public authority, and generally any publicly-owned entity that is an instrumentality of a State or of a municipal corporation.

(j) *Type I security* means:

(1) Obligations of the United States;

(2) Obligations issued, insured, or guaranteed by a department or an agency of the United States Government, if the obligation, insurance, or guarantee commits the full faith and credit of the United States for the repayment of the obligation;

(3) Obligations issued by a department or agency of the United States, or an agency or political subdivision of a State of the United States, that represent an interest in a loan or a pool of loans made to third parties, if the full faith and credit of the United States has been validly pledged for the full and timely payment of interest on, and principal of, the loans in the event of non-payment by the third party obligor(s);

(4) General obligations of a State of the United States or any political subdivision thereof; and municipal bonds if the national bank is well capitalized as defined in 12 CFR 6.4(b)(1);

(5) Obligations authorized under 12 U.S.C. 24 (Seventh) as permissible for a national bank to deal in, underwrite, purchase, and sell for the bank's own account, including qualified Canadian government obligations; and

(6) Other securities the OCC determines to be eligible as Type I securities under 12 U.S.C. 24 (Seventh).

(k) *Type II security* means an investment security that represents:

(1) Obligations issued by a State, or a political subdivision or agency of a State, for housing, university, or dormitory purposes that would not satisfy the definition of Type I securities pursuant to paragraph (j) of § 1.2;

(2) Obligations of international and multilateral development banks and organizations listed in 12 U.S.C. 24 (Seventh);

(3) Other obligations listed in 12 U.S.C. 24 (Seventh) as permissible for a bank to deal in, underwrite, purchase, and sell for the bank's own account, subject to a limitation per obligor of 10 percent of the bank's capital and surplus; and

(4) Other securities the OCC determines to be eligible as Type II securities under 12 U.S.C. 24 (Seventh).

(l) *Type III security* means an investment security that does not qualify as

a Type I, II, IV, or V security. Examples of Type III securities include corporate bonds and municipal bonds that do not satisfy the definition of Type I securities pursuant to paragraph (j) of § 1.2 or the definition of Type II securities pursuant to paragraph (k) of § 1.2.

(m) *Type IV security* means:

(1) A small business-related security as defined in section 3(a)(53)(A) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(53)(A), that is fully secured by interests in a pool of loans to numerous obligors.

(2) A commercial mortgage-related security that is offered or sold pursuant to section 4(5) of the Securities Act of 1933, 15 U.S.C. 77d(5), that is investment grade, or a commercial mortgage-related security as described in section 3(a)(41) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(41), that represents ownership of a promissory note or certificate of interest or participation that is directly secured by a first lien on one or more parcels of real estate upon which one or more commercial structures are located and that is fully secured by interests in a pool of loans to numerous obligors.

(3) A residential mortgage-related security that is offered and sold pursuant to section 4(5) of the Securities Act of 1933, 15 U.S.C. 77d(5), that is investment grade, or a residential mortgage-related security as described in section 3(a)(41) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(41)) that does not otherwise qualify as a Type I security.

(n) *Type V security* means a security that is:

- (1) Investment grade;
- (2) Marketable;
- (3) Not a Type IV security; and

(4) Fully secured by interests in a pool of loans to numerous obligors and in which a national bank could invest directly.

[61 FR 63982, Dec. 2, 1996, as amended at 66 FR 34791, July 2, 2001; 77 FR 35257, June 13, 2012]

§ 1.3 Limitations on dealing in, underwriting, and purchase and sale of securities.

(a) *Type I securities*. A national bank may deal in, underwrite, purchase, and sell Type I securities for its own ac-

count. The amount of Type I securities that the bank may deal in, underwrite, purchase, and sell is not limited to a specified percentage of the bank's capital and surplus.

(b) *Type II securities*. A national bank may deal in, underwrite, purchase, and sell Type II securities for its own account, provided the aggregate par value of Type II securities issued by any one obligor held by the bank does not exceed 10 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type II securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(c) *Type III securities*. A national bank may purchase and sell Type III securities for its own account, provided the aggregate par value of Type III securities issued by any one obligor held by the bank does not exceed 10 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type III securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(d) *Type II and III securities; other investment securities limitations*. A national bank may not hold Type II and III securities issued by any one obligor with an aggregate par value exceeding 10 percent of the bank's capital and surplus. However, if the proceeds of each issue are to be used to acquire and lease real estate and related facilities to economically and legally separate industrial tenants, and if each issue is payable solely from and secured by a first lien on the revenues to be derived from rentals paid by the lessee under net noncancellable leases, the bank may apply the 10 percent investment limitation separately to each issue of a single obligor.

(e) *Type IV securities*. A national bank may purchase and sell Type IV securities for its own account. The amount of the Type IV securities that a bank may purchase and sell is not limited to a specified percentage of the bank's capital and surplus.

(f) *Type V securities*. A national bank may purchase and sell Type V securities for its own account provided that

§ 1.4

the aggregate par value of Type V securities issued by any one issuer held by the bank does not exceed 25 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type V securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(g) *Securitization.* A national bank may securitize and sell assets that it holds, as a part of its banking business. The amount of securitized loans and obligations that a bank may sell is not limited to a specified percentage of the bank's capital and surplus.

(h) *Pooled investments*—(1) *General.* A national bank may purchase and sell for its own account investment company shares provided that:

(i) The portfolio of the investment company consists exclusively of assets that the national bank may purchase and sell for its own account; and

(ii) The bank's holdings of investment company shares do not exceed the limitations in § 1.4(e).

(2) *Other issuers.* The OCC may determine that a national bank may invest in an entity that is exempt from registration as an investment company under section 3(c)(1) of the Investment Company Act of 1940, provided that the portfolio of the entity consists exclusively of assets that a national bank may purchase and sell for its own account.

(3) Investments made under this paragraph (h) must comply with § 1.5 of this part, conform with applicable published OCC precedent, and must be:

(i) Marketable and investment grade, or

(ii) Satisfy the requirements of § 1.3(i).

(i) *Securities held based on estimates of obligor's performance.* (1) Notwithstanding §§ 1.2(d) and (e), a national bank may treat a debt security as an investment security for purposes of this part if the security is marketable and the bank concludes, on the basis of estimates that the bank reasonably believes are reliable, that the obligor will be able to satisfy its obligations under that security.

(2) The aggregate par value of securities treated as investment securities under paragraph (i)(1) of this section

12 CFR Ch. I (1–1–14 Edition)

may not exceed 5 percent of the bank's capital and surplus.

[61 FR 63982, Dec. 2, 1996, as amended at 64 FR 60098, Nov. 4, 1999; 73 FR 22235, Apr. 24, 2008; 77 FR 35257, June 13, 2012]

§ 1.4 Calculation of limits.

(a) *Calculation date.* For purposes of determining compliance with 12 U.S.C. 24 (Seventh) and this part, a bank shall determine its investment limitations as of the most recent of the following dates:

(1) The last day of the preceding calendar quarter; or

(2) The date on which there is a change in the bank's capital category for purposes of 12 U.S.C. 1831o and 12 CFR 6.3.

(b) *Effective date.* (1) A bank's investment limit calculated in accordance with paragraph (a)(1) of this section will be effective on the earlier of the following dates:

(i) The date on which the bank's Consolidated Report of Condition and Income (Call Report) is submitted; or

(ii) The date on which the bank's Consolidated Report of Condition and Income is required to be submitted.

(2) A bank's investment limit calculated in accordance with paragraph (a)(2) of this section will be effective on the date that the limit is to be calculated.

(c) *Authority of OCC to require more frequent calculations.* If the OCC determines for safety and soundness reasons that a bank should calculate its investment limits more frequently than required by paragraph (a) of this section, the OCC may provide written notice to the bank directing the bank to calculate its investment limitations at a more frequent interval. The bank shall thereafter calculate its investment limits at that interval until further notice.

(d) *Calculation of Type III and Type V securities holdings*—(1) *General.* In calculating the amount of its investment in Type III or Type V securities issued by any one obligor, a bank shall aggregate:

(i) Obligations issued by obligors that are related directly or indirectly through common control; and

(ii) Securities that are credit enhanced by the same entity.

(2) *Aggregation by type.* The aggregation requirement in paragraph (d)(1) of this section applies separately to the Type III and Type V securities held by a bank.

(e) *Limit on investment company holdings—(1) General.* In calculating the amount of its investment in investment company shares under this part, a bank shall use reasonable efforts to calculate and combine its pro rata share of a particular security in the portfolio of each investment company with the bank's direct holdings of that security. The bank's direct holdings of the particular security and the bank's pro rata interest in the same security in the investment company's portfolio may not, in the aggregate, exceed the investment limitation that would apply to that security.

(2) *Alternate limit for diversified investment companies.* A national bank may elect not to combine its pro rata interest in a particular security in an investment company with the bank's direct holdings of that security if:

(i) The investment company's holdings of the securities of any one issuer do not exceed 5 percent of its total portfolio; and

(ii) The bank's total holdings of the investment company's shares do not exceed the most stringent investment limitation that would apply to any of the securities in the company's portfolio if those securities were purchased directly by the bank.

§ 1.5 Safe and sound banking practices; credit information required.

(a) A national bank shall adhere to safe and sound banking practices and the specific requirements of this part in conducting the activities described in § 1.3. The bank shall consider, as appropriate, the interest rate, credit, liquidity, price, foreign exchange, transaction, compliance, strategic, and reputation risks presented by a proposed activity, and the particular activities undertaken by the bank must be appropriate for that bank.

(b) In conducting these activities, the bank shall determine that there is adequate evidence that an obligor possesses resources sufficient to provide for all required payments on its obligations, or, in the case of securities

deemed to be investment securities on the basis of reliable estimates of an obligor's performance, that the bank reasonably believes that the obligor will be able to satisfy the obligation.

(c) Each bank shall maintain records available for examination purposes adequate to demonstrate that it meets the requirements of this part. The bank may store the information in any manner that can be readily retrieved and reproduced in a readable form.

§ 1.6 Convertible securities.

A national bank may not purchase securities convertible into stock at the option of the issuer.

§ 1.7 Securities held in satisfaction of debts previously contracted; holding period; disposal; accounting treatment; non-speculative purpose.

(a) *Securities held in satisfaction of debts previously contracted.* The restrictions and limitations of this part, other than those set forth in paragraphs (b),(c), and (d) of this section, do not apply to securities acquired:

(1) Through foreclosure on collateral;

(2) In good faith by way of compromise of a doubtful claim; or

(3) To avoid loss in connection with a debt previously contracted.

(b) *Holding period.* A national bank holding securities pursuant to paragraph (a) of this section may do so for a period not to exceed five years from the date that ownership of the securities was originally transferred to the bank. The OCC may extend the holding period for up to an additional five years if a bank provides a clearly convincing demonstration as to why an additional holding period is needed.

(c) *Accounting treatment.* A bank shall account for securities held pursuant to paragraph (a) of this section in accordance with Generally Accepted Accounting Principles.

(d) *Non-speculative purpose.* A bank may not hold securities pursuant to paragraph (a) of this section for speculative purposes.

§ 1.8 Nonconforming investments.

(a) A national bank's investment in securities that no longer conform to this part but conformed when made

§ 1.100

12 CFR Ch. I (1–1–14 Edition)

will not be deemed in violation but instead will be treated as nonconforming if the reason why the investment no longer conforms to this part is because:

- (1) The bank's capital declines;
- (2) Issuers, obligors, or credit-enhancers merge;
- (3) Issuers become related directly or indirectly through common control;
- (4) The investment securities rules change;
- (5) The security no longer qualifies as an investment security; or
- (6) Other events identified by the OCC occur.

(b) A bank shall exercise reasonable efforts to bring an investment that is nonconforming as a result of events described in paragraph (a) of this section into conformity with this part unless to do so would be inconsistent with safe and sound banking practices.

INTERPRETATIONS

§ 1.100 Indirect general obligations.

(a) *Obligation issued by an obligor not possessing general powers of taxation.* Pursuant to § 1.2(b), an obligation issued by an obligor not possessing general powers of taxation qualifies as a general obligation of a State or political subdivision for the purposes of 12 U.S.C. 24 (Seventh), if a party possessing general powers of taxation unconditionally promises to make sufficient funds available for all required payments in connection with the obligation.

(b) *Indirect commitment of full faith and credit.* The indirect commitment of the full faith and credit of a State or political subdivision (that possesses general powers of taxation) in support of an obligation may be demonstrated by any of the following methods, alone or in combination, when the State or political subdivision pledges its full faith and credit in support of the obligation.

(1) *Lease/rental agreement.* The lease agreement must be valid and binding on the State or the political subdivision, and the State or political subdivision must unconditionally promise to pay rentals that, together with any other available funds, are sufficient for the timely payment of interest on, and principal of, the obligation. These

lease/rental agreement may, for instance, provide support for obligations financing the acquisition or operation of public projects in the areas of education, medical care, transportation, recreation, public buildings, and facilities.

(2) *Service/purchase agreement.* The agreement must be valid and binding on the State or the political subdivision, and the State or political subdivision must unconditionally promise in the agreement to make payments for services or resources provided through or by the issuer of the obligation. These payments, together with any other available funds, must be sufficient for the timely payment of interest on, and principal of, the obligation. An agreement to purchase municipal sewer, water, waste disposal, or electric services may, for instance, provide support for obligations financing the construction or acquisition of facilities supplying those services.

(3) *Refillable debt service reserve fund.* The reserve fund must at least equal the amount necessary to meet the annual payment of interest on, and principal of, the obligation as required by applicable law. The maintenance of a refillable reserve fund may be provided, for instance, by statutory direction for an appropriation, or by statutory automatic apportionment and payment from the State funds of amounts necessary to restore the fund to the required level.

(4) *Other grants or support.* A statutory provision or agreement must unconditionally commit the State or the political subdivision to provide funds which, together with other available funds, are sufficient for the timely payment of interest on, and principal of, the obligation. Those funds may, for instance, be supplied in the form of annual grants or may be advanced whenever the other available revenues are not sufficient for the payment of principal and interest.

§ 1.110 Taxing powers of a State or political subdivision.

(a) An obligation is considered supported by the full faith and credit of a State or political subdivision possessing general powers of taxation

when the promise or other commitment of the State or the political subdivision will produce funds, which (together with any other funds available for the purpose) will be sufficient to provide for all required payments on the obligation. In order to evaluate whether a commitment of a State or political subdivision is likely to generate sufficient funds, a bank shall consider the impact of any possible limitations regarding the State's or political subdivision's taxing powers, as well as the availability of funds in view of the projected revenues and expenditures. Quantitative restrictions on the general powers of taxation of the State or political subdivision do not necessarily mean that an obligation is not supported by the full faith and credit of the State or political subdivision. In such case, the bank shall determine the eligibility of obligations by reviewing, on a case-by-case basis, whether tax revenues available under the limited taxing powers are sufficient for the full and timely payment of interest on, and principal of, the obligation. The bank shall use current and reasonable financial projections in calculating the availability of the revenues. An obligation expressly or implicitly dependent upon voter or legislative authorization of appropriations may be considered supported by the full faith and credit of a State or political subdivision if the bank determines, on the basis of past actions by the voters or legislative body in similar situations involving similar types of projects, that it is reasonably probable that the obligor will obtain all necessary appropriations.

(b) An obligation supported exclusively by excise taxes or license fees is not a general obligation for the purposes of 12 U.S.C. 24 (Seventh). Nevertheless, an obligation that is primarily payable from a fund consisting of excise taxes or other pledged revenues qualifies as a "general obligation," if, in the event of a deficiency of those revenues, the obligation is also supported by the general revenues of a State or a political subdivision possessing general powers of taxation.

§ 1.120 Prerefunded or escrowed bonds and obligations secured by Type I securities.

(a) An obligation qualifies as a Type I security if it is secured by an escrow fund consisting of obligations of the United States or general obligations of a State or a political subdivision, and the escrowed obligations produce interest earnings sufficient for the full and timely payment of interest on, and principal of, the obligation.

(b) If the interest earnings from the escrowed Type I securities alone are not sufficient to guarantee the full repayment of an obligation, a promise of a State or a political subdivision possessing general powers of taxation to maintain a reserve fund for the timely payment of interest on, and principal of, the obligation may further support a guarantee of the full repayment of an obligation.

(c) An obligation issued to refund an indirect general obligation may be supported in a number of ways that, in combination, are sufficient at all times to support the obligation with the full faith and credit of the United States or a State or a political subdivision possessing general powers of taxation. During the period following its issuance, the proceeds of the refunding obligation may be invested in U.S. obligations or municipal general obligations that will produce sufficient interest income for payment of principal and interest. Upon the retirement of the outstanding indirect general obligation bonds, the same indirect commitment, such as a lease agreement or a reserve fund, that supported the prior issue, may support the refunding obligation.

§ 1.130 Type II securities; guidelines for obligations issued for university and housing purposes.

(a) *Investment quality.* An obligation issued for housing, university, or dormitory purposes is a Type II security only if it:

(1) Qualifies as an investment security, as defined in § 1.2(e); and

(2) Is issued for the appropriate purpose and by a qualifying issuer.

(b) *Obligation issued for university purposes.* (1) An obligation issued by a State or political subdivision or agency

of a State or political subdivision for the purpose of financing the construction or improvement of facilities at or used by a university or a degree-granting college-level institution, or financing loans for studies at such institutions, qualifies as a Type II security. Facilities financed in this manner may include student buildings, classrooms, university utility buildings, cafeterias, stadiums, and university parking lots.

(2) An obligation that finances the construction or improvement of facilities used by a hospital may be eligible as a Type II security, if the hospital is a department or a division of a university, or otherwise provides a nexus with university purposes, such as an affiliation agreement between the university and the hospital, faculty positions of the hospital staff, and training of medical students, interns, residents, and nurses (e.g., a “teaching hospital”).

(c) *Obligation issued for housing purposes.* An obligation issued for housing purposes may qualify as a Type II security if the security otherwise meets the criteria for a Type II security.

PART 2—SALES OF CREDIT LIFE INSURANCE

Sec.

- 2.1 Authority, purpose, and scope.
- 2.2 Definitions.
- 2.3 Distribution of credit life insurance income.
- 2.4 Bonus and incentive plans.
- 2.5 Bank compensation.

AUTHORITY: 12 U.S.C. 24 (Seventh), 93a, and 1818(n).

SOURCE: 61 FR 51781, Oct. 4, 1996, unless otherwise noted.

§ 2.1 Authority, purpose, and scope.

(a) *Authority.* A national bank may provide credit life insurance to loan customers pursuant to 12 U.S.C. 24 (Seventh).

(b) *Purpose.* The purpose of this part is to set forth the principles and standards that apply to a national bank’s provision of credit life insurance and the limitations that apply to the receipt of income from those sales by certain individuals and entities associated with the bank.

(c) *Scope.* This part applies to the provision of credit life insurance by

any national bank employee, officer, director, or principal shareholder, and certain entities in which such persons own an interest of more than ten percent.

§ 2.2 Definitions.

(a) *Bank* means a national banking association.

(b) *Credit life insurance* means credit life, health, and accident insurance, sometimes referred to as credit life and disability insurance, and mortgage life and disability insurance.

(c) *Owning an interest* includes:

(1) Ownership through a spouse or minor child;

(2) Ownership through a broker, nominee, or other agent; or

(3) Ownership through any corporation, partnership, association, joint venture, or proprietorship, that is controlled by the director, officer, employee, or principal shareholder of the bank.

(d) *Officer, director, employee, or principal shareholder* includes the spouse and minor children of an officer, director, employee, or principal shareholder.

(e) *Principal shareholder* means any shareholder who directly or indirectly owns or controls an interest of more than ten percent of the bank’s outstanding voting securities.

[61 FR 51781, Oct. 4, 1996, as amended at 73 FR 22235, Apr. 24, 2008]

§ 2.3 Distribution of credit life insurance income.

(a) Distribution of credit life insurance income by a national bank must be consistent with the requirements and principles of this section.

(b) It is an unsafe and unsound practice for any director, officer, employee, or principal shareholder of a national bank (including any entity in which this person owns an interest of more than ten percent), who is involved in the sale of credit life insurance to loan customers of the national bank, to take advantage of that business opportunity for personal profit. Recommendations to customers to buy insurance should be based on the benefits of the policy, not the commissions received from the sale.

(c) Except as provided in §§2.4 and 2.5(b), and paragraph (d) of this section, a director, officer, employee, or principal shareholder of a national bank, or an entity in which such person owns an interest of more than ten percent, may not retain commissions or other income from the sale of credit life insurance in connection with any loan made by that bank, and income from credit life insurance sales to loan customers must be credited to the income accounts of the bank.

(d) The requirements of paragraph (c) of this section do not apply to a director, officer, employee, or principal shareholder if:

(1) The person is employed by a third party that has contracted with the bank on an arm's-length basis to sell financial products on bank premises; and

(2) The person is not involved in the bank's credit decision process.

§ 2.4 Bonus and incentive plans.

A bank employee or officer may participate in a bonus or incentive plan based on the sale of credit life insurance if payments to the employee or officer in any one year do not exceed the greater of:

(a) Five percent of the recipient's annual salary; or

(b) Five percent of the average salary of all loan officers participating in the plan.

§ 2.5 Bank compensation.

(a) Nothing contained in this part prohibits a bank employee, officer, director, or principal shareholder who holds an insurance agent's license from agreeing to compensate the bank for the use of its premises, employees, or good will. However, the employee, officer, director, or principal shareholder shall turn over to the bank as compensation all income received from the sale of the credit life insurance to the bank's loan customers.

(b) Income derived from credit life insurance sales to loan customers may be credited to an affiliate operating under the Bank Holding Company Act of 1956, 12 U.S.C. 1841 *et seq.*, or to a trust for the benefit of all shareholders, provided that the bank receives reasonable compensation in recognition of the role

played by its personnel, premises, and good will in credit life insurance sales. Reasonable compensation generally means an amount equivalent to at least 20 percent of the affiliate's net income attributable to the bank's credit life insurance sales.

PART 3—CAPITAL ADEQUACY STANDARDS

Subpart A—General Provisions

Sec.

3.1 Purpose, applicability, reservations of authority, and timing.

3.2 Definitions.

3.3 Operational requirements for certain exposures.

3.4-3.9 [Reserved]

- 3.701 Capital and surplus.

APPENDIX A TO PART 3—RISK-BASED CAPITAL GUIDELINES

APPENDIX B TO PART 3—RISK-BASED CAPITAL GUIDELINES; MARKET RISK

AUTHORITY: 12 U.S.C. 93a, 161, 1462, 1462a, 1463, 1464, 1818, 1828(n), 1828 note, 1831n note, 1835, 3907, 3909, and 5412(b)(2)(B).

SOURCE: 50 FR 10216, Mar. 14, 1985, unless otherwise noted.

Subpart A—General Provisions

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.1 Purpose, applicability, reservations of authority, and timing.

(a) *Purpose.* This part establishes minimum capital requirements and overall capital adequacy standards for national banks or Federal savings associations. This part includes methodologies for calculating minimum capital requirements, public disclosure requirements related to the capital requirements, and transition provisions for the application of this part.

(b) *Limitation of authority.* Nothing in this part shall be read to limit the authority of the OCC to take action under other provisions of law, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law or regulation, under section 8 of the Federal Deposit Insurance Act.

(c) *Applicability.* Subject to the requirements in paragraphs (d) and (f) of this section:

(1) *Minimum capital requirements and overall capital adequacy standards.* Each national bank or Federal savings association must calculate its minimum capital requirements and meet the overall capital adequacy standards in subpart B of this part.

(2) *Regulatory capital.* Each national bank or Federal savings association must calculate its regulatory capital in accordance with subpart C of this part.

(3) *Risk-weighted assets.* (i) Each national bank or Federal savings association must use the methodologies in subpart D of this part (and subpart F of this part for a market risk national bank or Federal savings association) to calculate standardized total risk-weighted assets.

(ii) Each advanced approaches national bank or Federal savings association must use the methodologies in subpart E (and subpart F of this part for a market risk national bank or Federal savings association) to calculate advanced approaches total risk-weighted assets.

(4) *Disclosures.* (i) Except for an advanced approaches national bank or Federal savings association that is making public disclosures pursuant to the requirements in subpart E of this part, each national bank or Federal savings association with total consolidated assets of \$50 billion or more must make the public disclosures described in subpart D of this part.

(ii) Each market risk national bank or Federal savings association must make the public disclosures described in subpart F of this part.

(iii) Each advanced approaches national bank or Federal savings association must make the public disclosures described in subpart E of this part.

(d) *Reservation of authority—(1) Additional capital in the aggregate.* The OCC may require a national bank or Federal savings association to hold an amount of regulatory capital greater than otherwise required under this part if the OCC determines that the national bank's or Federal savings association's capital requirements under this part

are not commensurate with the national bank's or Federal savings association's credit, market, operational, or other risks.

(2) *Regulatory capital elements.* (i) If the OCC determines that a particular common equity tier 1, additional tier 1, or tier 2 capital element has characteristics or terms that diminish its ability to absorb losses, or otherwise present safety and soundness concerns, the OCC may require the national bank or Federal savings association to exclude all or a portion of such element from common equity tier 1 capital, additional tier 1 capital, or tier 2 capital, as appropriate.

(ii) Notwithstanding the criteria for regulatory capital instruments set forth in subpart C of this part, the OCC may find that a capital element may be included in a national bank's or Federal savings association's common equity tier 1 capital, additional tier 1 capital, or tier 2 capital on a permanent or temporary basis consistent with the loss absorption capacity of the element and in accordance with § 3.20(e).

(3) *Risk-weighted asset amounts.* If the OCC determines that the risk-weighted asset amount calculated under this part by the national bank or Federal savings association for one or more exposures is not commensurate with the risks associated with those exposures, the OCC may require the national bank or Federal savings association to assign a different risk-weighted asset amount to the exposure(s) or to deduct the amount of the exposure(s) from its regulatory capital.

(4) *Total leverage.* If the OCC determines that the leverage exposure amount, or the amount reflected in the national bank's or Federal savings association's reported average total consolidated assets, for an on- or off-balance sheet exposure calculated by a national bank or Federal savings association under § 3.10 is inappropriate for the exposure(s) or the circumstances of the national bank or Federal savings association, the OCC may require the national bank or Federal savings association to adjust this exposure amount in the numerator and the denominator for purposes of the leverage ratio calculations.

(5) *Consolidation of certain exposures.* The OCC may determine that the risk-based capital treatment for an exposure or the treatment provided to an entity that is not consolidated on the national bank's or Federal savings association's balance sheet is not commensurate with the risk of the exposure and the relationship of the national bank or Federal savings association to the entity. Upon making this determination, the OCC may require the national bank or Federal savings association to treat the exposure or entity as if it were consolidated on the balance sheet of the national bank or Federal savings association for purposes of determining the national bank's or Federal savings association's risk-based capital requirements and calculating the national bank's or Federal savings association's risk-based capital ratios accordingly. The OCC will look to the substance of, and risk associated with, the transaction, as well as other relevant factors the OCC deems appropriate in determining whether to require such treatment.

(6) *Other reservation of authority.* With respect to any deduction or limitation required under this part, the OCC may require a different deduction or limitation, provided that such alternative deduction or limitation is commensurate with the national bank's or Federal savings association's risk and consistent with safety and soundness.

(e) *Notice and response procedures.* In making a determination under this section, the OCC will apply notice and response procedures in the same manner as the notice and response procedures in § 3.404.

(f) *Timing.* (1) Subject to the transition provisions in subpart G of this part, an advanced approaches national bank or Federal savings association that is not a savings and loan holding company must:

(i) Except as described in paragraph (f)(1)(ii) of this section, beginning on January 1, 2014, calculate advanced approaches total risk-weighted assets in accordance with subpart E and, if applicable, subpart F of this part and, beginning on January 1, 2015, calculate standardized total risk-weighted assets in accordance with subpart D and, if applicable, subpart F of this part;

(ii) From January 1, 2014 to December 31, 2014:

(A) Calculate risk-weighted assets in accordance with the general risk-based capital rules under appendix A to this part and, if applicable, subpart F of this part (national banks), or 12 CFR part 167 and, if applicable, subpart F of this part (Federal savings associations)¹ and substitute such risk-weighted assets for standardized total risk-weighted assets for purposes of § 3.10;

(B) If applicable, calculate general market risk equivalent assets in accordance with appendix B to this part, section 4(a)(3) (national banks) and substitute such general market risk equivalent assets for standardized market risk-weighted assets for purposes of § 3.20(d)(3); and

(C) Substitute the corresponding provision or provisions of appendix A to this part, and, if applicable, appendix B to this part (national banks), or 12 CFR part 167 (Federal savings associations) for any reference to subpart D of this part in: § 3.121(c); § 3.124(a) and (b); § 3.144(b); § 3.154(c) and (d); § 3.202(b) (definition of covered position in paragraph (b)(3)(iv)); and § 3.211(b);²

(iii) Beginning on January 1, 2014, calculate and maintain minimum cap-

¹For the purpose of calculating its general risk-based capital ratios from January 1, 2014 to December 31, 2014, an advanced approaches national bank or Federal savings association shall adjust, as appropriate, its risk-weighted asset measure (as that amount is calculated under appendix A to this part, Sec. 3 and, if applicable, subpart F of this part (national banks), or 12 CFR part 167 and, if applicable, subpart F of this part (Federal savings associations) in the general risk-based capital rules) by excluding those assets that are deducted from its regulatory capital under § 3.22.

²In addition, for purposes of § 3.201(c)(3), from January 1, 2014 to December 31, 2014, for any circumstance in which the OCC may require a national bank or Federal savings association to calculate risk-based capital requirements for specific positions or portfolios under subpart D of this part, the OCC will instead require the national bank or Federal savings association to make such calculations according to appendix A to this part and, if applicable, subpart F of this part (national banks), or 12 CFR part 167 and, if applicable, subpart F of this part (Federal savings associations).

ital ratios in accordance with subparts A, B, and C of this part, provided, however, that such national bank or Federal savings association must:

(A) From January 1, 2014 to December 31, 2014, maintain a minimum common equity tier 1 capital ratio of 4 percent, a minimum tier 1 capital ratio of 5.5 percent, a minimum total capital ratio of 8 percent, and a minimum leverage ratio of 4 percent; and

(B) From January 1, 2015 to December 31, 2017, an advanced approaches national bank or Federal savings association:

(1) Is not required to maintain a supplementary leverage ratio; and

(2) Must calculate a supplementary leverage ratio in accordance with § 3.10(c), and must report the calculated supplementary leverage ratio on any applicable regulatory reports.

(2) Subject to the transition provisions in subpart G of this part, a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association or a savings and loan holding company that is an advanced approaches national bank or Federal savings association must:

(i) Beginning on January 1, 2015, calculate standardized total risk-weighted assets in accordance with subpart D, and if applicable, subpart F of this part; and

(ii) Beginning on January 1, 2015, calculate and maintain minimum capital ratios in accordance with subparts A, B and C of this part, provided, however, that from January 1, 2015 to December 31, 2017, a savings and loan holding company that is an advanced approaches national bank or Federal savings association:

(A) Is not required to maintain a supplementary leverage ratio; and

(B) Must calculate a supplementary leverage ratio in accordance with § 3.10(c), and must report the calculated supplementary leverage ratio on any applicable regulatory reports.

(3) Beginning on January 1, 2016, and subject to the transition provisions in subpart G of this part, a national bank or Federal savings association is subject to limitations on distributions and discretionary bonus payments with respect to its capital conservation buffer

§ 3.2

12 CFR Ch. I (1–1–14 Edition)

and any applicable countercyclical capital buffer amount, in accordance with subpart B of this part.

(4) No national bank or Federal savings association that is not an advanced approaches bank or advanced approaches savings association is subject to this part 3 until January 1, 2015.

§ 3.2 Definitions.

As used in this part:

Additional tier 1 capital is defined in § 3.20(c).

Advanced approaches national bank or Federal savings association means a national bank or Federal savings association that is described in § 3.100(b)(1).

Advanced approaches total risk-weighted assets means:

- (1) The sum of:
 - (i) Credit-risk-weighted assets;
 - (ii) Credit valuation adjustment (CVA) risk-weighted assets;
 - (iii) Risk-weighted assets for operational risk; and
 - (iv) For a market risk national bank or Federal savings association only, advanced market risk-weighted assets; minus
- (2) Excess eligible credit reserves not included in the national bank's or Federal savings association's tier 2 capital.

Advanced market risk-weighted assets means the advanced measure for market risk calculated under § 3.204 multiplied by 12.5.

Affiliate with respect to a company, means any company that controls, is controlled by, or is under common control with, the company.

Allocated transfer risk reserves means reserves that have been established in accordance with section 905(a) of the International Lending Supervision Act, against certain assets whose value U.S. supervisory authorities have found to be significantly impaired by protracted transfer risk problems.

Allowances for loan and lease losses (ALLL) means valuation allowances that have been established through a charge against earnings to cover estimated credit losses on loans, lease financing receivables or other extensions of credit as determined in accordance with GAAP. ALLL excludes "allocated transfer risk reserves." For purposes of this part, ALLL includes allowances that have been established through a

charge against earnings to cover estimated credit losses associated with off-balance sheet credit exposures as determined in accordance with GAAP.

Asset-backed commercial paper (ABCP) program means a program established primarily for the purpose of issuing commercial paper that is investment grade and backed by underlying exposures held in a bankruptcy-remote special purpose entity (SPE).

Asset-backed commercial paper (ABCP) program sponsor means a national bank or Federal savings association that:

- (1) Establishes an ABCP program;
- (2) Approves the sellers permitted to participate in an ABCP program;
- (3) Approves the exposures to be purchased by an ABCP program; or
- (4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program's credit and investment policy.

Bank holding company means a bank holding company as defined in section 2 of the Bank Holding Company Act.

Bank Holding Company Act means the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841 *et seq.*).

Bankruptcy remote means, with respect to an entity or asset, that the entity or asset would be excluded from an insolvent entity's estate in receivership, insolvency, liquidation, or similar proceeding.

Call Report means Consolidated Reports of Condition and Income.

Carrying value means, with respect to an asset, the value of the asset on the balance sheet of the national bank or Federal savings association, determined in accordance with GAAP.

Central counterparty (CCP) means a counterparty (for example, a clearing house) that facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts.

CFTC means the U.S. Commodity Futures Trading Commission.

Clean-up call means a contractual provision that permits an originating national bank or Federal savings association or servicer to call

securitization exposures before their stated maturity or call date.

Cleared transaction means an exposure associated with an outstanding derivative contract or repo-style transaction that a national bank or Federal savings association or clearing member has entered into with a central counterparty (that is, a transaction that a central counterparty has accepted).

(1) The following transactions are cleared transactions:

(i) A transaction between a CCP and a national bank or Federal savings association that is a clearing member of the CCP where the national bank or Federal savings association enters into the transaction with the CCP for the national bank's or Federal savings association's own account;

(ii) A transaction between a CCP and a national bank or Federal savings association that is a clearing member of the CCP where the national bank or Federal savings association is acting as a financial intermediary on behalf of a clearing member client and the transaction offsets another transaction that satisfies the requirements set forth in § 3.3(a);

(iii) A transaction between a clearing member client national bank or Federal savings association and a clearing member where the clearing member acts as a financial intermediary on behalf of the clearing member client and enters into an offsetting transaction with a CCP, provided that the requirements set forth in § 3.3(a) are met; or

(iv) A transaction between a clearing member client national bank or Federal savings association and a CCP where a clearing member guarantees the performance of the clearing member client national bank or Federal savings association to the CCP and the transaction meets the requirements of § 3.3(a)(2) and (3).

(2) The exposure of a national bank or Federal savings association that is a clearing member to its clearing member client is not a cleared transaction where the national bank or Federal savings association is either acting as a financial intermediary and enters into an offsetting transaction with a CCP or where the national bank or Federal savings association provides a

guarantee to the CCP on the performance of the client.³

Clearing member means a member of, or direct participant in, a CCP that is entitled to enter into transactions with the CCP.

Clearing member client means a party to a cleared transaction associated with a CCP in which a clearing member acts either as a financial intermediary with respect to the party or guarantees the performance of the party to the CCP.

Collateral agreement means a legal contract that specifies the time when, and circumstances under which, a counterparty is required to pledge collateral to a national bank or Federal savings association for a single financial contract or for all financial contracts in a netting set and confers upon the national bank or Federal savings association a perfected, first-priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof, in the collateral posted by the counterparty under the agreement. This security interest must provide the national bank or Federal savings association with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the national bank's or Federal savings association's exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs.

³For the standardized approach treatment of these exposures, see § 3.34(e) (OTC derivative contracts) or § 3.37(c) (repo-style transactions). For the advanced approaches treatment of these exposures, see §§ 3.132(c)(8) and (d) (OTC derivative contracts) or §§ 3.132(b) and 3.132(d) (repo-style transactions) and for calculation of the margin period of risk, see §§ 3.132(d)(5)(iii)(C) (OTC derivative contracts) and § 3.132(d)(5)(iii)(A) (repo-style transactions).

§ 3.2

12 CFR Ch. I (1–1–14 Edition)

Commitment means any legally binding arrangement that obligates a national bank or Federal savings association to extend credit or to purchase assets.

Commodity derivative contract means a commodity-linked swap, purchased commodity-linked option, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Commodity Exchange Act means the Commodity Exchange Act of 1936 (7 U.S.C. 1 *et seq.*)

Common equity tier 1 capital is defined in § 3.20(b).

Common equity tier 1 minority interest means the common equity tier 1 capital of a depository institution or foreign bank that is:

- (1) A consolidated subsidiary of a national bank or Federal savings association; and
- (2) Not owned by the national bank or Federal savings association.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control. A person or company *controls* a company if it:

- (1) Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or
- (2) Consolidates the company for financial reporting purposes.

Core capital means tier 1 capital, as calculated in accordance with subpart B of this part.

Corporate exposure means an exposure to a company that is not:

- (1) An exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multi-lateral development bank (MDB), a depository institution, a foreign bank, a credit union, or a public sector entity (PSE);
- (2) An exposure to a GSE;
- (3) A residential mortgage exposure;
- (4) A pre-sold construction loan;
- (5) A statutory multifamily mortgage;
- (6) A high volatility commercial real estate (HVCRE) exposure;

- (7) A cleared transaction;
- (8) A default fund contribution;
- (9) A securitization exposure;
- (10) An equity exposure; or
- (11) An unsettled transaction.

Country risk classification (CRC) with respect to a sovereign, means the most recent consensus CRC published by the Organization for Economic Cooperation and Development (OECD) as of December 31st of the prior calendar year that provides a view of the likelihood that the sovereign will service its external debt.

Covered savings and loan holding company means a top-tier savings and loan holding company other than:

- (1) A top-tier savings and loan holding company that is:

- (i) A grandfathered unitary savings and loan holding company as defined in section 10(c)(9)(A) of HOLA; and

- (ii) As of June 30 of the previous calendar year, derived 50 percent or more of its total consolidated assets or 50 percent of its total revenues on an enterprise-wide basis (as calculated under GAAP) from activities that are not financial in nature under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1842(k));

- (2) A top-tier savings and loan holding company that is an insurance underwriting company; or

- (3)(i) A top-tier savings and loan holding company that, as of June 30 of the previous calendar year, held 25 percent or more of its total consolidated assets in subsidiaries that are insurance underwriting companies (other than assets associated with insurance for credit risk); and

- (ii) For purposes of paragraph (3)(i) of this definition, the company must calculate its total consolidated assets in accordance with GAAP, or if the company does not calculate its total consolidated assets under GAAP for any regulatory purpose (including compliance with applicable securities laws), the company may estimate its total consolidated assets, subject to review and adjustment by the Board.

Credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of

one or more exposures (reference exposure(s)) to another party (the protection provider) for a certain period of time.

Credit-enhancing interest-only strip (CEIO) means an on-balance sheet asset that, in form or in substance:

(1) Represents a contractual right to receive some or all of the interest and no more than a minimal amount of principal due on the underlying exposures of a securitization; and

(2) Exposes the holder of the CEIO to credit risk directly or indirectly associated with the underlying exposures that exceeds a pro rata share of the holder's claim on the underlying exposures, whether through subordination provisions or other credit-enhancement techniques.

Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of underlying exposures (including loan servicing assets) and that obligate a national bank or Federal savings association to protect another party from losses arising from the credit risk of the underlying exposures. Credit-enhancing representations and warranties include provisions to protect a party from losses resulting from the default or nonperformance of the counterparties of the underlying exposures or from an insufficiency in the value of the collateral backing the underlying exposures. Credit-enhancing representations and warranties do not include:

(1) Early default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1-4 family residential first mortgage loans that qualify for a 50 percent risk weight for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;

(2) Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency or a GSE, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or

(3) Warranties that permit the return of underlying exposures in instances of

misrepresentation, fraud, or incomplete documentation.

Credit risk mitigant means collateral, a credit derivative, or a guarantee.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

(1) Total wholesale and retail risk-weighted assets as calculated under § 3.131;

(2) Risk-weighted assets for securitization exposures as calculated under § 3.142; and

(3) Risk-weighted assets for equity exposures as calculated under § 3.151.

Credit union means an insured credit union as defined under the Federal Credit Union Act (12 U.S.C. 1752 *et seq.*).

Current exposure means, with respect to a netting set, the larger of zero or the fair value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the transactions. Current exposure is also called replacement cost.

Current exposure methodology means the method of calculating the exposure amount for over-the-counter derivative contracts in § 3.34(a) and exposure at default (EAD) in § 3.132(c)(5) or (6), as applicable.

Custodian means a financial institution that has legal custody of collateral provided to a CCP.

Default fund contribution means the funds contributed or commitments made by a clearing member to a CCP's mutualized loss sharing arrangement.

Depository institution means a depository institution as defined in section 3 of the Federal Deposit Insurance Act.

Depository institution holding company means a bank holding company or savings and loan holding company.

Derivative contract means a financial contract whose value is derived from the values of one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts include interest rate derivative contracts, exchange rate derivative contracts, equity derivative contracts, commodity derivative contracts, credit derivative contracts, and any other instrument that poses similar counterparty credit risks. Derivative contracts also include unsettled securities, commodities, and foreign

§3.2

12 CFR Ch. I (1–1–14 Edition)

exchange transactions with a contractual settlement or delivery lag that is longer than the lesser of the market standard for the particular instrument or five business days.

Discretionary bonus payment means a payment made to an executive officer of a national bank or Federal savings association, where:

(1) The national bank or Federal savings association retains discretion as to whether to make, and the amount of, the payment until the payment is awarded to the executive officer;

(2) The amount paid is determined by the national bank or Federal savings association without prior promise to, or agreement with, the executive officer; and

(3) The executive officer has no contractual right, whether express or implied, to the bonus payment.

Distribution means:

(1) A reduction of tier 1 capital through the repurchase of a tier 1 capital instrument or by other means, except when a national bank or Federal savings association, within the same quarter when the repurchase is announced, fully replaces a tier 1 capital instrument it has repurchased by issuing another capital instrument that meets the eligibility criteria for:

(i) A common equity tier 1 capital instrument if the instrument being repurchased was part of the national bank's or Federal savings association's common equity tier 1 capital, or

(ii) A common equity tier 1 or additional tier 1 capital instrument if the instrument being repurchased was part of the national bank's or Federal savings association's tier 1 capital;

(2) A reduction of tier 2 capital through the repurchase, or redemption prior to maturity, of a tier 2 capital instrument or by other means, except when a national bank or Federal savings association, within the same quarter when the repurchase or redemption is announced, fully replaces a tier 2 capital instrument it has repurchased by issuing another capital instrument that meets the eligibility criteria for a tier 1 or tier 2 capital instrument;

(3) A dividend declaration or payment on any tier 1 capital instrument;

(4) A dividend declaration or interest payment on any tier 2 capital instru-

ment if the national bank or Federal savings association has full discretion to permanently or temporarily suspend such payments without triggering an event of default; or

(5) Any similar transaction that the OCC determines to be in substance a distribution of capital.

Dodd-Frank Act means the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (Pub. L. 111–203, 124 Stat. 1376).

Early amortization provision means a provision in the documentation governing a securitization that, when triggered, causes investors in the securitization exposures to be repaid before the original stated maturity of the securitization exposures, unless the provision:

(1) Is triggered solely by events not directly related to the performance of the underlying exposures or the originating national bank or Federal savings association (such as material changes in tax laws or regulations); or

(2) Leaves investors fully exposed to future draws by borrowers on the underlying exposures even after the provision is triggered.

Effective notional amount means for an eligible guarantee or eligible credit derivative, the lesser of the contractual notional amount of the credit risk mitigant and the exposure amount (or EAD for purposes of subpart E of this part) of the hedged exposure, multiplied by the percentage coverage of the credit risk mitigant.

Eligible ABCP liquidity facility means a liquidity facility supporting ABCP, in form or in substance, that is subject to an asset quality test at the time of draw that precludes funding against assets that are 90 days or more past due or in default. Notwithstanding the preceding sentence, a liquidity facility is an eligible ABCP liquidity facility if the assets or exposures funded under the liquidity facility that do not meet the eligibility requirements are guaranteed by a sovereign that qualifies for a 20 percent risk weight or lower.

Eligible clean-up call means a clean-up call that:

(1) Is exercisable solely at the discretion of the originating national bank or Federal savings association or servicer;

(2) Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and

(3)(i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the underlying exposures or securitization exposures (determined as of the inception of the securitization) is outstanding; or

(ii) For a synthetic securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, nth-to-default swap, total return swap, or any other form of credit derivative approved by the OCC, provided that:

(1) The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider;

(2) Any assignment of the contract has been confirmed by all relevant parties;

(3) If the credit derivative is a credit default swap or nth-to-default swap, the contract includes the following credit events:

(i) Failure to pay any amount due under the terms of the reference exposure, subject to any applicable minimal payment threshold that is consistent with standard market practice and with a grace period that is closely in line with the grace period of the reference exposure; and

(ii) Receivership, insolvency, liquidation, conservatorship or inability of the reference exposure issuer to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and similar events;

(4) The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;

(5) If the contract allows for cash settlement, the contract incorporates a robust valuation process to estimate loss reliably and specifies a reasonable period for obtaining post-credit event valuations of the reference exposure;

(6) If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the terms of at least one of the exposures that is permitted to be transferred under the contract provide that any required consent to transfer may not be unreasonably withheld;

(7) If the credit derivative is a credit default swap or nth-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and

(8) If the credit derivative is a total return swap and the national bank or Federal savings association records net payments received on the swap as net income, the national bank or Federal savings association records offsetting deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to cover estimated credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the ALLL associated with such exposures, but excluding allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and other specific reserves created against recognized losses.

Eligible guarantee means a guarantee from an eligible guarantor that:

(1) Is written;

(2) Is either:

(i) Unconditional, or

(ii) A contingent obligation of the U.S. government or its agencies, the enforceability of which is dependent upon some affirmative action on the part of the beneficiary of the guarantee or a third party (for example, meeting servicing requirements);

(3) Covers all or a pro rata portion of all contractual payments of the obligated party on the reference exposure;

(4) Gives the beneficiary a direct claim against the protection provider;

§ 3.2

12 CFR Ch. I (1–1–14 Edition)

(5) Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;

(6) Except for a guarantee by a sovereign, is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;

(7) Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantee) of the obligated party on the reference exposure in a timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;

(8) Does not increase the beneficiary's cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure; and

(9) Is not provided by an affiliate of the national bank or Federal savings association, unless the affiliate is an insured depository institution, foreign bank, securities broker or dealer, or insurance company that:

(i) Does not control the national bank or Federal savings association; and

(ii) Is subject to consolidated supervision and regulation comparable to that imposed on depository institutions, U.S. securities broker-dealers, or U.S. insurance companies (as the case may be).

Eligible guarantor means:

(1) A sovereign, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank (MDB), a depository institution, a bank holding company, a savings and loan holding company, a credit union, a foreign bank, or a qualifying central counterparty; or

(2) An entity (other than a special purpose entity):

(i) That at the time the guarantee is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade;

(ii) Whose creditworthiness is not positively correlated with the credit risk of the exposures for which it has provided guarantees; and

(iii) That is not an insurance company engaged predominately in the business of providing credit protection (such as a monoline bond insurer or reinsurer).

Eligible margin loan means:

(1) An extension of credit where:

(i) The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, or gold;

(ii) The collateral is marked-to-fair value daily, and the transaction is subject to daily margin maintenance requirements; and

(iii) The extension of credit is conducted under an agreement that provides the national bank or Federal savings association the right to accelerate and terminate the extension of credit and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, insolvency, liquidation, conservatorship, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs.⁴

(2) In order to recognize an exposure as an eligible margin loan for purposes of this subpart, a national bank or Federal savings association must comply with the requirements of § 3.3(b) with respect to that exposure.

⁴This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute "securities contracts" under section 555 of the Bankruptcy Code (11 U.S.C. 555), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act, or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act or the Federal Reserve Board's Regulation EE (12 CFR part 231).

Eligible servicer cash advance facility means a servicer cash advance facility in which:

(1) The servicer is entitled to full reimbursement of advances, except that a servicer may be obligated to make non-reimbursable advances for a particular underlying exposure if any such advance is contractually limited to an insignificant amount of the outstanding principal balance of that exposure;

(2) The servicer's right to reimbursement is senior in right of payment to all other claims on the cash flows from the underlying exposures of the securitization; and

(3) The servicer has no legal obligation to, and does not make advances to the securitization if the servicer concludes the advances are unlikely to be repaid.

Employee stock ownership plan has the same meaning as in 29 CFR 2550.407d-6.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Equity exposure means:

(1) A security or instrument (whether voting or non-voting) that represents a direct or an indirect ownership interest in, and is a residual claim on, the assets and income of a company, unless:

(i) The issuing company is consolidated with the national bank or Federal savings association under GAAP;

(ii) The national bank or Federal savings association is required to deduct the ownership interest from tier 1 or tier 2 capital under this part;

(iii) The ownership interest incorporates a payment or other similar obligation on the part of the issuing company (such as an obligation to make periodic payments); or

(iv) The ownership interest is a securitization exposure;

(2) A security or instrument that is mandatorily convertible into a security or instrument described in paragraph (1) of this definition;

(3) An option or warrant that is exercisable for a security or instrument described in paragraph (1) of this definition; or

(4) Any other security or instrument (other than a securitization exposure) to the extent the return on the security or instrument is based on the performance of a security or instrument described in paragraph (1) of this definition.

ERISA means the Employee Retirement Income and Security Act of 1974 (29 U.S.C. 1001 *et seq.*).

Exchange rate derivative contract means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Executive officer means a person who holds the title or, without regard to title, salary, or compensation, performs the function of one or more of the following positions: President, chief executive officer, executive chairman, chief operating officer, chief financial officer, chief investment officer, chief legal officer, chief lending officer, chief risk officer, or head of a major business line, and other staff that the board of directors of the national bank or Federal savings association deems to have equivalent responsibility.

Expected credit loss (ECL) means:

(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero.

(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of the probability of default (PD) times the loss given default (LGD) times the exposure at default (EAD) for the exposure or segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the national bank's or Federal savings association's impairment estimate for allowance purposes for the exposure or segment.

(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the national bank or Federal

§3.2

12 CFR Ch. I (1–1–14 Edition)

savings association has applied the double default treatment in §3.135.

Exposure amount means:

(1) For the on-balance sheet component of an exposure (other than an available-for-sale or held-to-maturity security, if the national bank or Federal savings association has made an AOCI opt-out election (as defined in §3.22(b)(2)); an OTC derivative contract; a repo-style transaction or an eligible margin loan for which the national bank or Federal savings association determines the exposure amount under §3.37; a cleared transaction; a default fund contribution; or a securitization exposure), the national bank's or Federal savings association's carrying value of the exposure.

(2) For a security (that is not a securitization exposure, equity exposure, or preferred stock classified as an equity security under GAAP) classified as available-for-sale or held-to-maturity if the national bank or Federal savings association has made an AOCI opt-out election (as defined in §3.22(b)(2)), the national bank's or Federal savings association's carrying value (including net accrued but unpaid interest and fees) for the exposure less any net unrealized gains on the exposure and plus any net unrealized losses on the exposure.

(3) For available-for-sale preferred stock classified as an equity security under GAAP if the national bank or Federal savings association has made an AOCI opt-out election (as defined in §3.22(b)(2)), the national bank's or Federal savings association's carrying value of the exposure less any net unrealized gains on the exposure that are reflected in such carrying value but excluded from the national bank's or Federal savings association's regulatory capital components.

(4) For the off-balance sheet component of an exposure (other than an OTC derivative contract; a repo-style transaction or an eligible margin loan for which the national bank or Federal savings association calculates the exposure amount under §3.37; a cleared transaction; a default fund contribution; or a securitization exposure), the notional amount of the off-balance sheet component multiplied by the ap-

propriate credit conversion factor (CCF) in §3.33.

(5) For an exposure that is an OTC derivative contract, the exposure amount determined under §3.34.

(6) For an exposure that is a cleared transaction, the exposure amount determined under §3.35.

(7) For an exposure that is an eligible margin loan or repo-style transaction for which the bank calculates the exposure amount as provided in §3.37, the exposure amount determined under §3.37.

(8) For an exposure that is a securitization exposure, the exposure amount determined under §3.42.

Federal Deposit Insurance Act means the Federal Deposit Insurance Act (12 U.S.C. 1813).

Federal Deposit Insurance Corporation Improvement Act means the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401).

Financial collateral means collateral:

(1) In the form of:

(i) Cash on deposit with the national bank or Federal savings association (including cash held for the national bank or Federal savings association by a third-party custodian or trustee);

(ii) Gold bullion;

(iii) Long-term debt securities that are not resecuritization exposures and that are investment grade;

(iv) Short-term debt instruments that are not resecuritization exposures and that are investment grade;

(v) Equity securities that are publicly traded;

(vi) Convertible bonds that are publicly traded; or

(vii) Money market fund shares and other mutual fund shares if a price for the shares is publicly quoted daily; and

(2) In which the national bank or Federal savings association has a perfected, first-priority security interest or, outside of the United States, the legal equivalent thereof (with the exception of cash on deposit and notwithstanding the prior security interest of any custodial agent).

Federal savings association means an insured Federal savings association or an insured Federal savings bank chartered under section 5 of the Home Owners' Loan Act of 1933.

Financial institution means:

Comptroller of the Currency, Treasury

§ 3.2

(1) A bank holding company; savings and loan holding company; nonbank financial institution supervised by the Board under Title I of the Dodd-Frank Act; depository institution; foreign bank; credit union; industrial loan company, industrial bank, or other similar institution described in section 2 of the Bank Holding Company Act; national association, state member bank, or state non-member bank that is not a depository institution; insurance company; securities holding company as defined in section 618 of the Dodd-Frank Act; broker or dealer registered with the SEC under section 15 of the Securities Exchange Act; futures commission merchant as defined in section 1a of the Commodity Exchange Act; swap dealer as defined in section 1a of the Commodity Exchange Act; or security-based swap dealer as defined in section 3 of the Securities Exchange Act;

(2) Any designated financial market utility, as defined in section 803 of the Dodd-Frank Act;

(3) Any entity not domiciled in the United States (or a political subdivision thereof) that is supervised and regulated in a manner similar to entities described in paragraphs (1) or (2) of this definition; or

(4) Any other company:

(i) Of which the national bank or Federal savings association owns:

(A) An investment in GAAP equity instruments of the company with an adjusted carrying value or exposure amount equal to or greater than \$10 million; or

(B) More than 10 percent of the company's issued and outstanding common shares (or similar equity interest), and

(ii) Which is predominantly engaged in the following activities:

(A) Lending money, securities or other financial instruments, including servicing loans;

(B) Insuring, guaranteeing, indemnifying against loss, harm, damage, illness, disability, or death, or issuing annuities;

(C) Underwriting, dealing in, making a market in, or investing as principal in securities or other financial instruments; or

(D) Asset management activities (not including investment or financial advisory activities).

(5) For the purposes of this definition, a company is "predominantly engaged" in an activity or activities if:

(i) 85 percent or more of the total consolidated annual gross revenues (as determined in accordance with applicable accounting standards) of the company is either of the two most recent calendar years were derived, directly or indirectly, by the company on a consolidated basis from the activities; or

(ii) 85 percent or more of the company's consolidated total assets (as determined in accordance with applicable accounting standards) as of the end of either of the two most recent calendar years were related to the activities.

(6) Any other company that the OCC may determine is a financial institution based on activities similar in scope, nature, or operation to those of the entities included in paragraphs (1) through (4) of this definition.

(7) For purposes of this part, "financial institution" does not include the following entities:

(i) GSEs;

(ii) Small business investment companies, as defined in section 102 of the Small Business Investment Act of 1958 (15 U.S.C. 662);

(iii) Entities designated as Community Development Financial Institutions (CDFIs) under 12 U.S.C. 4701 *et seq.* and 12 CFR part 1805;

(iv) Entities registered with the SEC under the Investment Company Act of 1940 (15 U.S.C. 80a-1) or foreign equivalents thereof;

(v) Entities to the extent that the national bank's or Federal savings association's investment in such entities would qualify as a community development investment under section 24 (Eleventh) of the National Bank Act; and

(vi) An employee benefit plan as defined in paragraphs (3) and (32) of section 3 of ERISA, a "governmental plan" (as defined in 29 U.S.C. 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any similar employee benefit plan established under the laws of a foreign jurisdiction.

§3.2

12 CFR Ch. I (1–1–14 Edition)

First-lien residential mortgage exposure means a residential mortgage exposure secured by a first lien.

Foreign bank means a foreign bank as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2) (other than a depository institution).

Forward agreement means a legally binding contractual obligation to purchase assets with certain drawdown at a specified future date, not including commitments to make residential mortgage loans or forward foreign exchange contracts.

GAAP means generally accepted accounting principles as used in the United States.

Gain-on-sale means an increase in the equity capital of a national bank or Federal savings association (as reported on [Schedule RC of the Call Report or Schedule HC of the FR Y–9C]) resulting from a traditional securitization (other than an increase in equity capital resulting from the national bank’s or Federal savings association’s receipt of cash in connection with the securitization or reporting of a mortgage servicing asset on [Schedule RC of the Call Report or Schedule HC of the FRY–9C]).

General obligation means a bond or similar obligation that is backed by the full faith and credit of a public sector entity (PSE).

Government-sponsored enterprise (GSE) means an entity established or chartered by the U.S. government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. government.

Guarantee means a financial guarantee, letter of credit, insurance, or other similar financial instrument (other than a credit derivative) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider).

High volatility commercial real estate (HVCRE) exposure means a credit facility that, prior to conversion to permanent financing, finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:

(1) One- to four-family residential properties;

(2) Real property that:

(i) Would qualify as an investment in community development under 12 U.S.C. 338a or 12 U.S.C. 24 (Eleventh), as applicable, or as a “qualified investment” under 12 CFR parts 25 (national banks) and 195 (Federal savings associations), and

(ii) Is not an ADC loan to any entity described in 12 CFR 25.12(g)(3) (national banks) and 12 CFR 195.12(g)(3) (Federal savings associations), unless it is otherwise described in paragraph (1), (2)(i), (3) or (4) of this definition;

(3) The purchase or development of agricultural land, which includes all land known to be used or usable for agricultural purposes (such as crop and livestock production), provided that the valuation of the agricultural land is based on its value for agricultural purposes and the valuation does not take into consideration any potential use of the land for non-agricultural commercial development or residential development; or

(4) Commercial real estate projects in which:

(i) The loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio in the OCC’s real estate lending standards at 12 CFR part 34, subpart D (national banks) and 12 CFR part 160, subparts A and B (Federal savings associations);

(ii) The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised “as completed” value; and

(iii) The borrower contributed the amount of capital required by paragraph (4)(ii) of this definition before the national bank or Federal savings association advances funds under the credit facility, and the capital contributed by the borrower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to permanent financing or is

sold or paid in full. Permanent financing may be provided by the national bank or Federal savings association that provided the ADC facility as long as the permanent financing is subject to the national bank's or Federal savings association's underwriting criteria for long-term mortgage loans.

Home country means the country where an entity is incorporated, chartered, or similarly established.

Indirect exposure means an exposure that arises from the national bank's or Federal savings association's investment in an investment fund which holds an investment in the national bank's or Federal savings association's own capital instrument or an investment in the capital of an unconsolidated financial institution.

Insurance company means an insurance company as defined in section 201 of the Dodd-Frank Act (12 U.S.C. 5381).

Insurance underwriting company means an insurance company as defined in section 201 of the Dodd-Frank Act (12 U.S.C. 5381) that engages in insurance underwriting activities.

Insured depository institution means an insured depository institution as defined in section 3 of the Federal Deposit Insurance Act.

Interest rate derivative contract means a single-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates that gives rise to similar counterparty credit risks.

International Lending Supervision Act means the International Lending Supervision Act of 1983 (12 U.S.C. 3907).

Investing bank means, with respect to a securitization, a national bank or Federal savings association that assumes the credit risk of a securitization exposure (other than an originating national bank or Federal savings association of the securitization). In the typical synthetic securitization, the investing national bank or Federal savings association sells credit protection on a pool of underlying exposures to the originating national bank or Federal savings association.

Investment fund means a company:

(1) Where all or substantially all of the assets of the company are financial assets; and

(2) That has no material liabilities.

Investment grade means that the entity to which the national bank or Federal savings association is exposed through a loan or security, or the reference entity with respect to a credit derivative, has adequate capacity to meet financial commitments for the projected life of the asset or exposure. Such an entity or reference entity has adequate capacity to meet financial commitments if the risk of its default is low and the full and timely repayment of principal and interest is expected.

Investment in the capital of an unconsolidated financial institution means a net long position calculated in accordance with § 3.22(h) in an instrument that is recognized as capital for regulatory purposes by the primary supervisor of an unconsolidated regulated financial institution and is an instrument that is part of the GAAP equity of an unconsolidated unregulated financial institution, including direct, indirect, and synthetic exposures to capital instruments, excluding underwriting positions held by the national bank or Federal savings association for five or fewer business days.

Investment in the national bank's or Federal savings association's own capital instrument means a net long position calculated in accordance with § 3.22(h) in the national bank's or Federal savings association's own common stock instrument, own additional tier 1 capital instrument or own tier 2 capital instrument, including direct, indirect, or synthetic exposures to such capital instruments. An investment in the national bank's or Federal savings association's own capital instrument includes any contractual obligation to purchase such capital instrument.

Junior-lien residential mortgage exposure means a residential mortgage exposure that is not a first-lien residential mortgage exposure.

Main index means the Standard & Poor's 500 Index, the FTSE All-World Index, and any other index for which the national bank or Federal savings association can demonstrate to the satisfaction of the OCC that the equities

represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor's 500 Index and FTSE All-World Index.

Market risk [BANK] means a national bank or Federal savings association that is described in §3.201(b).

Money market fund means an investment fund that is subject to 17 CFR 270.2a-7 or any foreign equivalent thereof.

Mortgage servicing assets (MSAs) means the contractual rights owned by a national bank or Federal savings association to service for a fee mortgage loans that are owned by others.

Multilateral development bank (MDB) means the International Bank for Reconstruction and Development, the Multilateral Investment Guarantee Agency, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the OCC determines poses comparable credit risk.

National Bank Act means the National Bank Act (12 U.S.C. 24).

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or a qualifying cross-product master netting agreement. For purposes of calculating risk-based capital requirements using the internal models methodology in subpart E of this part, this term does not cover a transaction:

(1) That is not subject to such a master netting agreement; or

(2) Where the national bank or Federal savings association has identified specific wrong-way risk.

Non-significant investment in the capital of an unconsolidated financial institution means an investment in the capital of an unconsolidated financial in-

stitution where the national bank or Federal savings association owns 10 percent or less of the issued and outstanding common stock of the unconsolidated financial institution.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Operating entity means a company established to conduct business with clients with the intention of earning a profit in its own right.

Original maturity with respect to an off-balance sheet commitment means the length of time between the date a commitment is issued and:

(1) For a commitment that is not subject to extension or renewal, the stated expiration date of the commitment; or

(2) For a commitment that is subject to extension or renewal, the earliest date on which the national bank or Federal savings association can, at its option, unconditionally cancel the commitment.

Originating national bank or Federal savings association, with respect to a securitization, means a national bank or Federal savings association that:

(1) Directly or indirectly originated or securitized the underlying exposures included in the securitization; or

(2) Serves as an ABCP program sponsor to the securitization.

Over-the-counter (OTC) derivative contract means a derivative contract that is not a cleared transaction. An OTC derivative includes a transaction:

(1) Between a national bank or Federal savings association that is a clearing member and a counterparty where the national bank or Federal savings association is acting as a financial intermediary and enters into a cleared transaction with a CCP that offsets the transaction with the counterparty; or

(2) In which a national bank or Federal savings association that is a clearing member provides a CCP a guarantee on the performance of the counterparty to the transaction.

Performance standby letter of credit (or performance bond) means an irrevocable obligation of a national bank or Federal savings association to pay a third-

party beneficiary when a customer (account party) fails to perform on any contractual nonfinancial or commercial obligation. To the extent permitted by law or regulation, performance standby letters of credit include arrangements backing, among other things, subcontractors' and suppliers' performance, labor and materials contracts, and construction bids.

Pre-sold construction loan means any one-to-four family residential construction loan to a builder that meets the requirements of section 618(a)(1) or (2) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 (12 U.S.C. 1831n note) and the following criteria:

(1) The loan is made in accordance with prudent underwriting standards, meaning that the national bank or Federal savings association has obtained sufficient documentation that the buyer of the home has a legally binding written sales contract and has a firm written commitment for permanent financing of the home upon completion;

(2) The purchaser is an individual(s) that intends to occupy the residence and is not a partnership, joint venture, trust, corporation, or any other entity (including an entity acting as a sole proprietorship) that is purchasing one or more of the residences for speculative purposes;

(3) The purchaser has entered into a legally binding written sales contract for the residence;

(4) The purchaser has not terminated the contract;

(5) The purchaser has made a substantial earnest money deposit of no less than 3 percent of the sales price, which is subject to forfeiture if the purchaser terminates the sales contract; provided that, the earnest money deposit shall not be subject to forfeiture by reason of breach or termination of the sales contract on the part of the builder;

(6) The earnest money deposit must be held in escrow by the national bank or Federal savings association or an independent party in a fiduciary capacity, and the escrow agreement must provide that in an event of default arising from the cancellation of the sales contract by the purchaser of the resi-

dence, the escrow funds shall be used to defray any cost incurred by the national bank or Federal savings association;

(7) The builder must incur at least the first 10 percent of the direct costs of construction of the residence (that is, actual costs of the land, labor, and material) before any drawdown is made under the loan;

(8) The loan may not exceed 80 percent of the sales price of the presold residence; and

(9) The loan is not more than 90 days past due, or on nonaccrual.

Protection amount (P) means, with respect to an exposure hedged by an eligible guarantee or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in §§ 3.36 or 3.134, as appropriate).

Publicly-traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act; or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question.

Public sector entity (PSE) means a state, local authority, or other governmental subdivision below the sovereign level.

Qualifying central counterparty (QCCP) means a central counterparty that:

(1)(i) Is a designated financial market utility (FMU) under Title VIII of the Dodd-Frank Act;

(ii) If not located in the United States, is regulated and supervised in a manner equivalent to a designated FMU; or

(iii) Meets the following standards:

(A) The central counterparty requires all parties to contracts cleared by the counterparty to be fully collateralized on a daily basis;

(B) The national bank or Federal savings association demonstrates to the satisfaction of the OCC that the central counterparty:

§3.2

12 CFR Ch. I (1–1–14 Edition)

- (1) Is in sound financial condition;
 - (2) Is subject to supervision by the Board, the CFTC, or the Securities Exchange Commission (SEC), or, if the central counterparty is not located in the United States, is subject to effective oversight by a national supervisory authority in its home country; and
 - (3) Meets or exceeds the risk-management standards for central counterparties set forth in regulations established by the Board, the CFTC, or the SEC under Title VII or Title VIII of the Dodd-Frank Act; or if the central counterparty is not located in the United States, meets or exceeds similar risk-management standards established under the law of its home country that are consistent with international standards for central counterparty risk management as established by the relevant standard setting body of the Bank of International Settlements; and
- (2)(i) Provides the national bank or Federal savings association with the central counterparty's hypothetical capital requirement or the information necessary to calculate such hypothetical capital requirement, and other information the national bank or Federal savings association is required to obtain under §§ 3.35(d)(3) and 3.133(d)(3);
 - (ii) Makes available to the OCC and the CCP's regulator the information described in paragraph (2)(i) of this definition; and
 - (iii) Has not otherwise been determined by the OCC to not be a QCCP due to its financial condition, risk profile, failure to meet supervisory risk management standards, or other weaknesses or supervisory concerns that are inconsistent with the risk weight assigned to qualifying central counterparties under §§ 3.35 and 3.133.
- (3) Exception. A QCCP that fails to meet the requirements of a QCCP in the future may still be treated as a QCCP under the conditions specified in § 3.3(f).

Qualifying master netting agreement means a written, legally enforceable agreement provided that:

- (1) The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default, including

upon an event of receivership, insolvency, liquidation, or similar proceeding, of the counterparty;

- (2) The agreement provides the national bank or Federal savings association the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, insolvency, liquidation, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs;

- (3) The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it otherwise would make under the agreement, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the agreement); and

- (4) In order to recognize an agreement as a qualifying master netting agreement for purposes of this subpart, a national bank or Federal savings association must comply with the requirements of § 3.3(d) with respect to that agreement.

Regulated financial institution means a financial institution subject to consolidated supervision and regulation comparable to that imposed on the following U.S. financial institutions: Depository institutions, depository institution holding companies, nonbank financial companies supervised by the Board, designated financial market utilities, securities broker-dealers, credit unions, or insurance companies.

Repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the national bank or Federal savings association acts as agent for a customer and indemnifies the customer against loss, provided that:

(1) The transaction is based solely on liquid and readily marketable securities, cash, or gold;

(2) The transaction is marked-to-fair value daily and subject to daily margin maintenance requirements;

(3)(i) The transaction is a “securities contract” or “repurchase agreement” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act, or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act or the Federal Reserve Board’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:

(A) The transaction is executed under an agreement that provides the national bank or Federal savings association the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, insolvency, liquidation, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs; or

(B) The transaction is:

(1) Either overnight or unconditionally cancelable at any time by the national bank or Federal savings association; and

(2) Executed under an agreement that provides the national bank or Federal savings association the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set-off collateral promptly upon an event of counterparty default; and

(4) In order to recognize an exposure as a repo-style transaction for purposes of this subpart, a national bank or Federal savings association must comply

with the requirements of § 3.3(e) of this part with respect to that exposure.

Resecuritization means a securitization which has more than one underlying exposure and in which one or more of the underlying exposures is a securitization exposure.

Resecuritization exposure means:

(1) An on- or off-balance sheet exposure to a resecuritization;

(2) An exposure that directly or indirectly references a resecuritization exposure.

(3) An exposure to an asset-backed commercial paper program is not a resecuritization exposure if either:

(i) The program-wide credit enhancement does not meet the definition of a resecuritization exposure; or

(ii) The entity sponsoring the program fully supports the commercial paper through the provision of liquidity so that the commercial paper holders effectively are exposed to the default risk of the sponsor instead of the underlying exposures.

Residential mortgage exposure means an exposure (other than a securitization exposure, equity exposure, statutory multifamily mortgage, or presold construction loan) that is:

(1) An exposure that is primarily secured by a first or subsequent lien on one-to-four family residential property; or

(2)(i) An exposure with an original and outstanding amount of \$1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one-to-four family; and

(ii) For purposes of calculating capital requirements under subpart E of this part, is managed as part of a segment of exposures with homogeneous risk characteristics and not on an individual-exposure basis.

Revenue obligation means a bond or similar obligation that is an obligation of a PSE, but which the PSE is committed to repay with revenues from the specific project financed rather than general tax funds.

Savings and loan holding company means a savings and loan holding company as defined in section 10 of the Home Owners’ Loan Act (12 U.S.C. 1467a).

§3.2

12 CFR Ch. I (1–14 Edition)

Securities and Exchange Commission (SEC) means the U.S. Securities and Exchange Commission.

Securities Exchange Act means the Securities Exchange Act of 1934 (15 U.S.C. 78).

Securitization exposure means:

(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a traditional securitization or synthetic securitization (including a resecuritization), or

(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of which is intended to isolate the underlying exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Separate account means a legally segregated pool of assets owned and held by an insurance company and maintained separately from the insurance company's general account assets for the benefit of an individual contract holder. To be a separate account:

(1) The account must be legally recognized as a separate account under applicable law;

(2) The assets in the account must be insulated from general liabilities of the insurance company under applicable law in the event of the insurance company's insolvency;

(3) The insurance company must invest the funds within the account as directed by the contract holder in designated investment alternatives or in accordance with specific investment objectives or policies; and

(4) All investment gains and losses, net of contract fees and assessments, must be passed through to the contract holder, provided that the contract may specify conditions under which there may be a minimum guarantee but must not include contract terms that limit

the maximum investment return available to the policyholder.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the underlying exposures.

Significant investment in the capital of an unconsolidated financial institution means an investment in the capital of an unconsolidated financial institution where the national bank or Federal savings association owns more than 10 percent of the issued and outstanding common stock of the unconsolidated financial institution.

Small Business Act means the Small Business Act (15 U.S.C. 632).

Small Business Investment Act means the Small Business Investment Act of 1958 (15 U.S.C. 682).

Sovereign means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign default means noncompliance by a sovereign with its external debt service obligations or the inability or unwillingness of a sovereign government to service an existing loan according to its original terms, as evidenced by failure to pay principal and interest timely and fully, arrearages, or restructuring.

Sovereign exposure means:

(1) A direct exposure to a sovereign; or

(2) An exposure directly and unconditionally backed by the full faith and credit of a sovereign.

Specific wrong-way risk means wrong-way risk that arises when either:

(1) The counterparty and issuer of the collateral supporting the transaction; or

(2) The counterparty and the reference asset of the transaction, are affiliates or are the same entity.

Standardized market risk-weighted assets means the standardized measure for market risk calculated under §3.204 multiplied by 12.5.

Standardized total risk-weighted assets means:

(1) The sum of:

(i) Total risk-weighted assets for general credit risk as calculated under § 3.31;

(ii) Total risk-weighted assets for cleared transactions and default fund contributions as calculated under § 3.35;

(iii) Total risk-weighted assets for unsettled transactions as calculated under § 3.38;

(iv) Total risk-weighted assets for securitization exposures as calculated under § 3.42;

(v) Total risk-weighted assets for equity exposures as calculated under §§ 3.52 and 3.53; and

(vi) For a market risk national bank or Federal savings association only, standardized market risk-weighted assets; minus

(2) Any amount of the national bank's or Federal savings association's allowance for loan and lease losses that is not included in tier 2 capital and any amount of allocated transfer risk reserves.

Statutory multifamily mortgage means a loan secured by a multifamily residential property that meets the requirements under section 618(b)(1) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991, and that meets the following criteria:⁵

(1) The loan is made in accordance with prudent underwriting standards;

(2) The principal amount of the loan at origination does not exceed 80 percent of the value of the property (or 75 percent of the value of the property if the loan is based on an interest rate that changes over the term of the loan) where the value of the property is the lower of the acquisition cost of the property or the appraised (or, if appropriate, evaluated) value of the property;

(3) All principal and interest payments on the loan must have been made on a timely basis in accordance with the terms of the loan for at least one year prior to applying a 50 percent risk weight to the loan, or in the case where an existing owner is refinancing a loan on the property, all principal

and interest payments on the loan being refinanced must have been made on a timely basis in accordance with the terms of the loan for at least one year prior to applying a 50 percent risk weight to the loan;

(4) Amortization of principal and interest on the loan must occur over a period of not more than 30 years and the minimum original maturity for repayment of principal must not be less than 7 years;

(5) Annual net operating income (before making any payment on the loan) generated by the property securing the loan during its most recent fiscal year must not be less than 120 percent of the loan's current annual debt service (or 115 percent of current annual debt service if the loan is based on an interest rate that changes over the term of the loan) or, in the case of a cooperative or other not-for-profit housing project, the property must generate sufficient cash flow to provide comparable protection to the national bank or Federal savings association; and

(6) The loan is not more than 90 days past due, or on nonaccrual.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic exposure means an exposure whose value is linked to the value of an investment in the national bank's or Federal savings association's own capital instrument or to the value of an investment in the capital of an unconsolidated financial institution.

Synthetic securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is retained or transferred to one or more third parties through the use of one or more credit derivatives or guarantees (other than a guarantee that transfers only the credit risk of an individual retail exposure);

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures; and

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments,

⁵The types of loans that qualify as loans secured by multifamily residential properties are listed in the instructions for preparation of the Call Report.

§3.2

12 CFR Ch. I (1–1–14 Edition)

credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tangible capital means the amount of core capital (tier 1 capital), as calculated in accordance with subpart B of this part, plus the amount of outstanding perpetual preferred stock (including related surplus) not included in tier 1 capital.

Tier 1 capital means the sum of common equity tier 1 capital and additional tier 1 capital.

Tier 1 minority interest means the tier 1 capital of a consolidated subsidiary of a national bank or Federal savings association that is not owned by the national bank or Federal savings association.

Tier 2 capital is defined in §3.20(d).

Total capital means the sum of tier 1 capital and tier 2 capital.

Total capital minority interest means the total capital of a consolidated subsidiary of a national bank or Federal savings association that is not owned by the national bank or Federal savings association.

Total leverage exposure means the sum of the following:

(1) The balance sheet carrying value of all of the national bank's or Federal savings association's on-balance sheet assets, less amounts deducted from tier 1 capital under §3.22(a), (c), and (d);

(2) The potential future credit exposure (PFE) amount for each derivative contract to which the national bank or Federal savings association is a counterparty (or each single-product netting set of such transactions) determined in accordance with §3.34, but without regard to §3.34(b);

(3) 10 percent of the notional amount of unconditionally cancellable commitments made by the national bank or Federal savings association; and

(4) The notional amount of all other off-balance sheet exposures of the national bank or Federal savings association (excluding securities lending, securities borrowing, reverse repurchase transactions, derivatives and unconditionally cancellable commitments).

Traditional securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is

transferred to one or more third parties other than through the use of credit derivatives or guarantees;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) The underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company defined in section 302 of the Small Business Investment Act;

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under section 24(Eleventh) of the National Bank Act;

(8) The OCC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a traditional securitization based on the transaction's leverage, risk profile, or economic substance;

(9) The OCC may deem a transaction that meets the definition of a traditional securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a traditional securitization based on the transaction's leverage, risk profile, or economic substance; and

(10) The transaction is not:

(i) An investment fund;

(ii) A collective investment fund (as defined in 12 CFR 9.18 (national banks), 12 CFR 151.40 (Federal saving associations));

(iii) An employee benefit plan (as defined in paragraphs (3) and (32) of section 3 of ERISA), a "governmental plan" (as defined in 29 U.S.C. 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any

similar employee benefit plan established under the laws of a foreign jurisdiction;

(iv) A synthetic exposure to the capital of a financial institution to the extent deducted from capital under § 3.22; or

(v) Registered with the SEC under the Investment Company Act of 1940 (15 U.S.C. 80a-1) or foreign equivalents thereof.

Tranche means all securitization exposures associated with a securitization that have the same seniority level.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Unconditionally cancelable means with respect to a commitment, that a national bank or Federal savings association may, at any time, with or without cause, refuse to extend credit under the commitment (to the extent permitted under applicable law).

Underlying exposures means one or more exposures that have been securitized in a securitization transaction.

Unregulated financial institution means, for purposes of § 3.131, a financial institution that is not a regulated financial institution, including any financial institution that would meet the definition of “financial institution” under this section but for the ownership interest thresholds set forth in paragraph (4)(i) of that definition.

U.S. Government agency means an instrumentality of the U.S. Government whose obligations are fully and explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the U.S. Government.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more exposures could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Wrong-way risk means the risk that arises when an exposure to a particular counterparty is positively correlated with the probability of default of such counterparty itself.

§ 3.3 Operational requirements for counterparty credit risk.

For purposes of calculating risk-weighted assets under subparts D and E of this part:

(a) *Cleared transaction*. In order to recognize certain exposures as cleared transactions pursuant to paragraphs (1)(ii), (iii) or (iv) of the definition of “cleared transaction” in § 3.2, the exposures must meet the applicable requirements set forth in this paragraph (a).

(1) The offsetting transaction must be identified by the CCP as a transaction for the clearing member client.

(2) The collateral supporting the transaction must be held in a manner that prevents the national bank or Federal savings association from facing any loss due to an event of default, including from a liquidation, receivership, insolvency, or similar proceeding of either the clearing member or the clearing member’s other clients. Omnibus accounts established under 17 CFR parts 190 and 300 satisfy the requirements of this paragraph (a).

(3) The national bank or Federal savings association must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from a default or receivership, insolvency, liquidation, or similar proceeding) the relevant court and administrative authorities would find the arrangements of paragraph (a)(2) of this section to be legal, valid, binding and enforceable under the law of the relevant jurisdictions.

(4) The offsetting transaction with a clearing member must be transferable under the transaction documents and applicable laws in the relevant jurisdiction(s) to another clearing member should the clearing member default, become insolvent, or enter receivership, insolvency, liquidation, or similar proceedings.

§§ 3.4–3.9

12 CFR Ch. I (1–1–14 Edition)

(b) *Eligible margin loan.* In order to recognize an exposure as an eligible margin loan as defined in §3.2, a national bank or Federal savings association must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that the agreement underlying the exposure:

(1) Meets the requirements of paragraph (1)(iii) of the definition of eligible margin loan in §3.2, and

(2) Is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

(c) *Qualifying cross-product master netting agreement.* In order to recognize an agreement as a qualifying cross-product master netting agreement as defined in §3.101, a national bank or Federal savings association must obtain a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon receivership, insolvency, liquidation, or similar proceeding.

(d) *Qualifying master netting agreement.* In order to recognize an agreement as a qualifying master netting agreement as defined in §3.2, a national bank or Federal savings association must:

(1) Conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that:

(i) The agreement meets the requirements of paragraph (2) of the definition of qualifying master netting agreement in §3.2; and

(ii) In the event of a legal challenge (including one resulting from default or from receivership, insolvency, liquidation, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions; and

(2) Establish and maintain written procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of the definition of qualifying master netting agreement in §3.2.

(e) *Repo-style transaction.* In order to recognize an exposure as a repo-style transaction as defined in §3.2, a national bank or Federal savings association must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that the agreement underlying the exposure:

(1) Meets the requirements of paragraph (3) of the definition of repo-style transaction in §3.2, and

(2) Is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

(f) *Failure of a QCCP to satisfy the rule's requirements.* If a national bank or Federal savings association determines that a CCP ceases to be a QCCP due to the failure of the CCP to satisfy one or more of the requirements set forth in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP in §3.2, the national bank or Federal savings association may continue to treat the CCP as a QCCP for up to three months following the determination. If the CCP fails to remedy the relevant deficiency within three months after the initial determination, or the CCP fails to satisfy the requirements set forth in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP continuously for a three-month period after remedying the relevant deficiency, a national bank or Federal savings association may not treat the CCP as a QCCP for the purposes of this part until after the national bank or Federal savings association has determined that the CCP has satisfied the requirements in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP for three continuous months.

§§ 3.4–3.9 [Reserved]

Subpart B—Capital Ratio Requirements and Buffers

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§3.10 Minimum capital requirements.

(a) *Minimum capital requirements.* A national bank or Federal savings association must maintain the following minimum capital ratios:

Comptroller of the Currency, Treasury

§ 3.10

(1) A common equity tier 1 capital ratio of 4.5 percent.

(2) A tier 1 capital ratio of 6 percent.

(3) A total capital ratio of 8 percent.

(4) A leverage ratio of 4 percent.

(5) For advanced approaches national banks or Federal savings associations, a supplementary leverage ratio of 3 percent.

(6) For Federal savings associations, a tangible capital ratio of 1.5 percent.

(b) *Standardized capital ratio calculations.* Other than as provided in paragraph (c) of this section:

(1) *Common equity tier 1 capital ratio.* A national bank's or Federal savings association's common equity tier 1 capital ratio is the ratio of the national bank's or Federal savings association's common equity tier 1 capital to standardized total risk-weighted assets;

(2) *Tier 1 capital ratio.* A national bank's or Federal savings association's tier 1 capital ratio is the ratio of the national bank's or Federal savings association's tier 1 capital to standardized total risk-weighted assets;

(3) *Total capital ratio.* A national bank's or Federal savings association's total capital ratio is the ratio of the national bank's or Federal savings association's total capital to standardized total risk-weighted assets; and

(4) *Leverage ratio.* A national bank's or Federal savings association's leverage ratio is the ratio of the national bank's or Federal savings association's tier 1 capital to the national bank's or Federal savings association's average total consolidated assets as reported on the national bank's or Federal savings association's Call Report minus amounts deducted from tier 1 capital under § 3.22(a), (c) and (d).

(5) *Federal savings association tangible capital ratio.* A Federal savings association's tangible capital ratio is the ratio of the Federal savings association's core capital (tier 1 capital) to average total assets as calculated under this subpart B. For purposes of this paragraph (b)(5), the term "total assets" means "total assets" as defined in part 6, subpart A of this chapter, subject to subpart G of this part.

(c) *Advanced approaches capital ratio calculations.* An advanced approaches national bank or Federal savings association that has completed the parallel

run process and received notification from the OCC pursuant to § 3.121(d) must determine its regulatory capital ratios as described in this paragraph (c).

(1) *Common equity tier 1 capital ratio.* The national bank's or Federal savings association's common equity tier 1 capital ratio is the lower of:

(i) The ratio of the national bank's or Federal savings association's common equity tier 1 capital to standardized total risk-weighted assets; and

(ii) The ratio of the national bank's or Federal savings association's common equity tier 1 capital to advanced approaches total risk-weighted assets.

(2) *Tier 1 capital ratio.* The national bank's or Federal savings association's tier 1 capital ratio is the lower of:

(i) The ratio of the national bank's or Federal savings association's tier 1 capital to standardized total risk-weighted assets; and

(ii) The ratio of the national bank's or Federal savings association's tier 1 capital to advanced approaches total risk-weighted assets.

(3) *Total capital ratio.* The national bank's or Federal savings association's total capital ratio is the lower of:

(i) The ratio of the national bank's or Federal savings association's total capital to standardized total risk-weighted assets; and

(ii) The ratio of the national bank's or Federal savings association's advanced-approaches-adjusted total capital to advanced approaches total risk-weighted assets. A national bank's or Federal savings association's advanced-approaches-adjusted total capital is the national bank's or Federal savings association's total capital after being adjusted as follows:

(A) An advanced approaches national bank or Federal savings association must deduct from its total capital any allowance for loan and lease losses included in its tier 2 capital in accordance with § 3.20(d)(3); and

(B) An advanced approaches national bank or Federal savings association must add to its total capital any eligible credit reserves that exceed the national bank's or Federal savings association's total expected credit losses to the extent that the excess reserve amount does not exceed 0.6 percent of

§3.11

12 CFR Ch. I (1–1–14 Edition)

the national bank's or Federal savings association's credit risk-weighted assets.

(4) *Supplementary leverage ratio.* An advanced approaches national bank's or Federal savings association's supplementary leverage ratio is the simple arithmetic mean of the ratio of its tier 1 capital to total leverage exposure calculated as of the last day of each month in the reporting quarter.

(5) *Federal savings association tangible capital ratio.* A Federal savings association's tangible capital ratio is the ratio of the Federal savings association's core capital (tier 1 capital) to average total assets as calculated under this subpart B. For purposes of this paragraph (c)(5), the term "total assets" means "total assets" as defined in part 6, subpart A of this chapter, subject to subpart G of this part.

(d) *Capital adequacy.* (1) Notwithstanding the minimum requirements in this part, a national bank or Federal savings association must maintain capital commensurate with the level and nature of all risks to which the national bank or Federal savings association is exposed. The supervisory evaluation of a national bank's or Federal savings association's capital adequacy is based on an individual assessment of numerous factors, including those listed at this section (national banks), 12 CFR 167.3(c) (Federal savings associations).

(2) A national bank or Federal savings association must have a process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

§3.11 Capital conservation buffer and countercyclical capital buffer amount.

(a) *Capital conservation buffer.* (1) *Composition of the capital conservation buffer.* The capital conservation buffer is composed solely of common equity tier 1 capital.

(2) *Definitions.* For purposes of this section, the following definitions apply:

(i) *Eligible retained income.* The eligible retained income of a national bank or Federal savings association is the national bank's or Federal savings as-

sociation's net income for the four calendar quarters preceding the current calendar quarter, based on the national bank's or Federal savings association's quarterly Call Reports, net of any distributions and associated tax effects not already reflected in net income.

(ii) *Maximum payout ratio.* The maximum payout ratio is the percentage of eligible retained income that a national bank or Federal savings association can pay out in the form of distributions and discretionary bonus payments during the current calendar quarter. The maximum payout ratio is based on the national bank's or Federal savings association's capital conservation buffer, calculated as of the last day of the previous calendar quarter, as set forth in Table 1 to §3.11.

(iii) *Maximum payout amount.* A national bank's or Federal savings association's maximum payout amount for the current calendar quarter is equal to the national bank's or Federal savings association's eligible retained income, multiplied by the applicable maximum payout ratio, as set forth in Table 1 to §3.11.

(iv) *Private sector credit exposure.* Private sector credit exposure means an exposure to a company or an individual that is not an exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a MDB, a PSE, or a GSE.

(3) *Calculation of capital conservation buffer.* (i) A national bank's or Federal savings association's capital conservation buffer is equal to the lowest of the following ratios, calculated as of the last day of the previous calendar quarter based on the national bank's or Federal savings association's most recent Call Report:

(A) The national bank's or Federal savings association's common equity tier 1 capital ratio minus the national bank's or Federal savings association's minimum common equity tier 1 capital ratio requirement under §3.10;

(B) The national bank's or Federal savings association's tier 1 capital ratio minus the national bank's or Federal savings association's minimum tier 1 capital ratio requirement under §3.10; and

Comptroller of the Currency, Treasury

§3.11

(C) The national bank's or Federal savings association's total capital ratio minus the national bank's or Federal savings association's minimum total capital ratio requirement under §3.10; or

(ii) Notwithstanding paragraphs (a)(3)(i)(A)–(C) of this section, if the national bank's or Federal savings association's common equity tier 1, tier 1 or total capital ratio is less than or equal to the national bank's or Federal savings association's minimum common equity tier 1, tier 1 or total capital ratio requirement under §3.10, respectively, the national bank's or Federal savings association's capital conservation buffer is zero.

(4) *Limits on distributions and discretionary bonus payments.* (i) A national bank or Federal savings association shall not make distributions or discretionary bonus payments or create an obligation to make such distributions or payments during the current calendar quarter that, in the aggregate, exceed the maximum payout amount.

(ii) A national bank or Federal savings association with a capital conservation buffer that is greater than 2.5 percent plus 100 percent of its applicable countercyclical capital buffer, in accordance with paragraph (b) of this

section, is not subject to a maximum payout amount under this section.

(iii) *Negative eligible retained income.* Except as provided in paragraph (a)(4)(iv) of this section, a national bank or Federal savings association may not make distributions or discretionary bonus payments during the current calendar quarter if the national bank's or Federal savings association's:

(A) Eligible retained income is negative; and

(B) Capital conservation buffer was less than 2.5 percent as of the end of the previous calendar quarter.

(iv) *Prior approval.* Notwithstanding the limitations in paragraphs (a)(4)(i) through (iii) of this section, the OCC may permit a national bank or Federal savings association to make a distribution or discretionary bonus payment upon a request of the national bank or Federal savings association, if the OCC determines that the distribution or discretionary bonus payment would not be contrary to the purposes of this section, or to the safety and soundness of the national bank or Federal savings association. In making such a determination, the OCC will consider the nature and extent of the request and the particular circumstances giving rise to the request.

TABLE 1 TO §3.11—CALCULATION OF MAXIMUM PAYOUT AMOUNT

Capital conservation buffer	Maximum payout ratio (as a percentage of eligible retained income)
Greater than 2.5 percent plus 100 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount.	No payout ratio limitation applies.
Less than or equal to 2.5 percent plus 100 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount, and greater than 1.875 percent plus 75 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount.	60 percent.
Less than or equal to 1.875 percent plus 75 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount, and greater than 1.25 percent plus 50 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount.	40 percent.
Less than or equal to 1.25 percent plus 50 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount, and greater than 0.625 percent plus 25 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount.	20 percent.
Less than or equal to 0.625 percent plus 25 percent of the national bank's or Federal savings association's applicable countercyclical capital buffer amount.	0 percent.

(v) *Other limitations on distributions.* Additional limitations on distributions may apply to a national bank or Federal savings association under subparts

H and I of this part; 12 CFR 5.46, 12 CFR part 5, subpart E; 12 CFR part 6.

(b) *Countercyclical capital buffer amount.* (1) *General.* An advanced approaches national bank or Federal savings association must calculate a countercyclical capital buffer amount in accordance with the following paragraphs for purposes of determining its maximum payout ratio under Table 1 to §3.11.

(i) *Extension of capital conservation buffer.* The countercyclical capital buffer amount is an extension of the capital conservation buffer as described in paragraph (a) of this section.

(ii) *Amount.* An advanced approaches national bank or Federal savings association has a countercyclical capital buffer amount determined by calculating the weighted average of the countercyclical capital buffer amounts established for the national jurisdictions where the national bank's or Federal savings association's private sector credit exposures are located, as specified in paragraphs (b)(2) and (3) of this section.

(iii) *Weighting.* The weight assigned to a jurisdiction's countercyclical capital buffer amount is calculated by dividing the total risk-weighted assets for the national bank's or Federal savings association's private sector credit exposures located in the jurisdiction by the total risk-weighted assets for all of the national bank's or Federal savings association's private sector credit exposures. The methodology a national bank or Federal savings association uses for determining risk-weighted assets for purposes of this paragraph (b) must be the methodology that determines its risk-based capital ratios under §3.10. Notwithstanding the previous sentence, the risk-weighted asset amount for a private sector credit exposure that is a covered position under subpart F of this part is its specific risk add-on as determined under §3.210 multiplied by 12.5.

(iv) *Location.* (A) Except as provided in paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(C) of this section, the location of a private sector credit exposure is the national jurisdiction where the borrower is located (that is, where it is incorporated, chartered, or similarly established or, if the borrower is an individual, where the borrower resides).

(B) If, in accordance with subparts D or E of this part, the national bank or Federal savings association has assigned to a private sector credit exposure a risk weight associated with a protection provider on a guarantee or credit derivative, the location of the exposure is the national jurisdiction where the protection provider is located.

(C) The location of a securitization exposure is the location of the underlying exposures, or, if the underlying exposures are located in more than one national jurisdiction, the national jurisdiction where the underlying exposures with the largest aggregate unpaid principal balance are located. For purposes of this paragraph (b), the location of an underlying exposure shall be the location of the borrower, determined consistent with paragraph (b)(1)(iv)(A) of this section.

(2) *Countercyclical capital buffer amount for credit exposures in the United States—(i) Initial countercyclical capital buffer amount with respect to credit exposures in the United States.* The initial countercyclical capital buffer amount in the United States is zero.

(ii) *Adjustment of the countercyclical capital buffer amount.* The OCC will adjust the countercyclical capital buffer amount for credit exposures in the United States in accordance with applicable law.⁶

(iii) *Range of countercyclical capital buffer amount.* The OCC will adjust the countercyclical capital buffer amount for credit exposures in the United States between zero percent and 2.5 percent of risk-weighted assets.

(iv) *Adjustment determination.* The OCC will base its decision to adjust the countercyclical capital buffer amount under this section on a range of macroeconomic, financial, and supervisory information indicating an increase in systemic risk including, but not limited to, the ratio of credit to gross domestic product, a variety of asset prices, other factors indicative of relative credit and liquidity expansion or contraction, funding spreads, credit condition surveys, indices based on

⁶The OCC expects that any adjustment will be based on a determination made jointly by the Board, OCC, and FDIC.

credit default swap spreads, options implied volatility, and measures of systemic risk.

(v) *Effective date of adjusted countercyclical capital buffer amount.* (A) *Increase adjustment.* A determination by the OCC under paragraph (b)(2)(ii) of this section to increase the countercyclical capital buffer amount will be effective 12 months from the date of announcement, unless the OCC establishes an earlier effective date and includes a statement articulating the reasons for the earlier effective date.

(B) *Decrease adjustment.* A determination by the OCC to decrease the established countercyclical capital buffer amount under paragraph (b)(2)(ii) of this section will be effective on the day following announcement of the final determination or the earliest date permissible under applicable law or regulation, whichever is later.

(vi) *Twelve month sunset.* The countercyclical capital buffer amount will return to zero percent 12 months after the effective date that the adjusted countercyclical capital buffer amount is announced, unless the OCC announces a decision to maintain the adjusted countercyclical capital buffer amount or adjust it again before the expiration of the 12-month period.

(3) *Countercyclical capital buffer amount for foreign jurisdictions.* The OCC will adjust the countercyclical capital buffer amount for private sector credit exposures to reflect decisions made by foreign jurisdictions consistent with due process requirements described in paragraph (b)(2) of this section.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§§ 3.12–3.19 [Reserved]

Subpart C—Definition of Capital

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.20 Capital components and eligibility criteria for regulatory capital instruments.

(a) *Regulatory capital components.* A national bank's or Federal savings association's regulatory capital components are:

- (1) Common equity tier 1 capital;
- (2) Additional tier 1 capital; and

(3) Tier 2 capital.

(b) *Common equity tier 1 capital.* Common equity tier 1 capital is the sum of the common equity tier 1 capital elements in this paragraph (b), minus regulatory adjustments and deductions in § 3.22. The common equity tier 1 capital elements are:

(1) Any common stock instruments (plus any related surplus) issued by the national bank or Federal savings association, net of treasury stock, and any capital instruments issued by mutual banking organizations, that meet all the following criteria:

(i) The instrument is paid-in, issued directly by the national bank or Federal savings association, and represents the most subordinated claim in a receivership, insolvency, liquidation, or similar proceeding of the national bank or Federal savings association;

(ii) The holder of the instrument is entitled to a claim on the residual assets of the national bank or Federal savings association that is proportional with the holder's share of the national bank's or Federal savings association's issued capital after all senior claims have been satisfied in a receivership, insolvency, liquidation, or similar proceeding;

(iii) The instrument has no maturity date, can only be redeemed via discretionary repurchases with the prior approval of the OCC, and does not contain any term or feature that creates an incentive to redeem;

(iv) The national bank or Federal savings association did not create at issuance of the instrument through any action or communication an expectation that it will buy back, cancel, or redeem the instrument, and the instrument does not include any term or feature that might give rise to such an expectation;

(v) Any cash dividend payments on the instrument are paid out of the national bank's or Federal savings association's net income or retained earnings and are not subject to a limit imposed by the contractual terms governing the instrument.

(vi) The national bank or Federal savings association has full discretion at all times to refrain from paying any dividends and making any other distributions on the instrument without

§ 3.20

12 CFR Ch. I (1–1–14 Edition)

triggering an event of default, a requirement to make a payment-in-kind, or an imposition of any other restrictions on the national bank or Federal savings association;

(vii) Dividend payments and any other distributions on the instrument may be paid only after all legal and contractual obligations of the national bank or Federal savings association have been satisfied, including payments due on more senior claims;

(viii) The holders of the instrument bear losses as they occur equally, proportionately, and simultaneously with the holders of all other common stock instruments before any losses are borne by holders of claims on the national bank or Federal savings association with greater priority in a receivership, insolvency, liquidation, or similar proceeding;

(ix) The paid-in amount is classified as equity under GAAP;

(x) The national bank or Federal savings association, or an entity that the national bank or Federal savings association controls, did not purchase or directly or indirectly fund the purchase of the instrument;

(xi) The instrument is not secured, not covered by a guarantee of the national bank or Federal savings association or of an affiliate of the national bank or Federal savings association, and is not subject to any other arrangement that legally or economically enhances the seniority of the instrument;

(xii) The instrument has been issued in accordance with applicable laws and regulations; and

(xiii) The instrument is reported on the national bank's or Federal savings association's regulatory financial statements separately from other capital instruments.

(2) Retained earnings.

(3) Accumulated other comprehensive income (AOCI) as reported under GAAP.⁷

(4) Any common equity tier 1 minority interest, subject to the limitations in § 3.21(c).

(5) Notwithstanding the criteria for common stock instruments referenced

above, a national bank's or Federal savings association's common stock issued and held in trust for the benefit of its employees as part of an employee stock ownership plan does not violate any of the criteria in paragraph (b)(1)(iii), paragraph (b)(1)(iv) or paragraph (b)(1)(xi) of this section, provided that any repurchase of the stock is required solely by virtue of ERISA for an instrument of a national bank or Federal savings association that is not publicly-traded. In addition, an instrument issued by a national bank or Federal savings association to its employee stock ownership plan does not violate the criterion in paragraph (b)(1)(x) of this section.

(c) *Additional tier 1 capital.* Additional tier 1 capital is the sum of additional tier 1 capital elements and any related surplus, minus the regulatory adjustments and deductions in § 3.22. Additional tier 1 capital elements are:

(1) Instruments (plus any related surplus) that meet the following criteria:

(i) The instrument is issued and paid-in;

(ii) The instrument is subordinated to depositors, general creditors, and subordinated debt holders of the national bank or Federal savings association in a receivership, insolvency, liquidation, or similar proceeding;

(iii) The instrument is not secured, not covered by a guarantee of the national bank or Federal savings association or of an affiliate of the national bank or Federal savings association, and not subject to any other arrangement that legally or economically enhances the seniority of the instrument;

(iv) The instrument has no maturity date and does not contain a dividend step-up or any other term or feature that creates an incentive to redeem; and

(v) If callable by its terms, the instrument may be called by the national bank or Federal savings association only after a minimum of five years following issuance, except that the terms of the instrument may allow it to be called earlier than five years upon the occurrence of a regulatory event that precludes the instrument from being included in additional tier 1 capital, a tax event, or if the issuing entity is required to register as an investment

⁷See § 3.22 for specific adjustments related to AOCI.

company pursuant to the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*). In addition:

(A) The national bank or Federal savings association must receive prior approval from the OCC to exercise a call option on the instrument.

(B) The national bank or Federal savings association does not create at issuance of the instrument, through any action or communication, an expectation that the call option will be exercised.

(C) Prior to exercising the call option, or immediately thereafter, the national bank or Federal savings association must either: Replace the instrument to be called with an equal amount of instruments that meet the criteria under paragraph (b) of this section or this paragraph (c);⁸ or demonstrate to the satisfaction of the OCC that following redemption, the national bank or Federal savings association will continue to hold capital commensurate with its risk.

(vi) Redemption or repurchase of the instrument requires prior approval from the OCC.

(vii) The national bank or Federal savings association has full discretion at all times to cancel dividends or other distributions on the instrument without triggering an event of default, a requirement to make a payment-in-kind, or an imposition of other restrictions on the national bank or Federal savings association except in relation to any distributions to holders of common stock or instruments that are *pari passu* with the instrument.

(viii) Any cash dividend payments on the instrument are paid out of the national bank's or Federal savings association's net income or retained earnings and are not subject to a limit imposed by the contractual terms governing the instrument.

(ix) The instrument does not have a credit-sensitive feature, such as a dividend rate that is reset periodically based in whole or in part on the national bank's or Federal savings association's credit quality, but may have a dividend rate that is adjusted periodically independent of the national bank's or Federal savings association's credit quality, in relation to general market interest rates or similar adjustments.

(x) The paid-in amount is classified as equity under GAAP.

(xi) The national bank or Federal savings association, or an entity that the national bank or Federal savings association controls, did not purchase or directly or indirectly fund the purchase of the instrument.

(xii) The instrument does not have any features that would limit or discourage additional issuance of capital by the national bank or Federal savings association, such as provisions that require the national bank or Federal savings association to compensate holders of the instrument if a new instrument is issued at a lower price during a specified time frame.

(xiii) If the instrument is not issued directly by the national bank or Federal savings association or by a subsidiary of the national bank or Federal savings association that is an operating entity, the only asset of the issuing entity is its investment in the capital of the national bank or Federal savings association, and proceeds must be immediately available without limitation to the national bank or Federal savings association or to the national bank's or Federal savings association's top-tier holding company in a form which meets or exceeds all of the other criteria for additional tier 1 capital instruments.⁹

(xiv) For an advanced approach national bank or Federal savings association, the governing agreement, offering circular, or prospectus of an instrument issued after the date upon which the national bank or Federal savings association becomes subject to this part as set forth in § 3.1(f) must disclose that the holders of the instrument may be fully subordinated to interests held by the U.S. government in the event that the national bank or Federal savings association enters into a receivership, insolvency, liquidation, or similar proceeding.

⁸Replacement can be concurrent with redemption of existing additional tier 1 capital instruments.

⁹*De minimis* assets related to the operation of the issuing entity can be disregarded for purposes of this criterion.

(2) Tier 1 minority interest, subject to the limitations in §3.21(d), that is not included in the national bank's or Federal savings association's common equity tier 1 capital.

(3) Any and all instruments that qualified as tier 1 capital under the OCC's general risk-based capital rules under appendix A to this part (national banks), 12 CFR part 167 (Federal savings associations) as then in effect, that were issued under the Small Business Jobs Act of 2010¹⁰ or prior to October 4, 2010, under the Emergency Economic Stabilization Act of 2008.¹¹

(4) Notwithstanding the criteria for additional tier 1 capital instruments referenced above:

(i) An instrument issued by a national bank or Federal savings association and held in trust for the benefit of its employees as part of an employee stock ownership plan does not violate any of the criteria in paragraph (c)(1)(iii) of this section, provided that any repurchase is required solely by virtue of ERISA for an instrument of a national bank or Federal savings association that is not publicly-traded. In addition, an instrument issued by a national bank or Federal savings association to its employee stock ownership plan does not violate the criteria in paragraph (c)(1)(v) or paragraph (c)(1)(xi) of this section; and

(ii) An instrument with terms that provide that the instrument may be called earlier than five years upon the occurrence of a rating agency event does not violate the criterion in paragraph (c)(1)(v) of this section provided that the instrument was issued and included in a national bank's or Federal savings association's tier 1 capital prior to January 1, 2014, and that such instrument satisfies all other criteria under this §3.20(c).

(d) *Tier 2 Capital.* Tier 2 capital is the sum of tier 2 capital elements and any related surplus, minus regulatory adjustments and deductions in §3.22. Tier 2 capital elements are:

(1) Instruments (plus related surplus) that meet the following criteria:

(i) The instrument is issued and paid-in;

(ii) The instrument is subordinated to depositors and general creditors of the national bank or Federal savings association;

(iii) The instrument is not secured, not covered by a guarantee of the national bank or Federal savings association or of an affiliate of the national bank or Federal savings association, and not subject to any other arrangement that legally or economically enhances the seniority of the instrument in relation to more senior claims;

(iv) The instrument has a minimum original maturity of at least five years. At the beginning of each of the last five years of the life of the instrument, the amount that is eligible to be included in tier 2 capital is reduced by 20 percent of the original amount of the instrument (net of redemptions) and is excluded from regulatory capital when the remaining maturity is less than one year. In addition, the instrument must not have any terms or features that require, or create significant incentives for, the national bank or Federal savings association to redeem the instrument prior to maturity;¹² and

(v) The instrument, by its terms, may be called by the national bank or Federal savings association only after a minimum of five years following issuance, except that the terms of the instrument may allow it to be called sooner upon the occurrence of an event that would preclude the instrument from being included in tier 2 capital, a tax event, or if the issuing entity is required to register as an investment company pursuant to the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*). In addition:

(A) The national bank or Federal savings association must receive the prior approval of the OCC to exercise a call option on the instrument.

(B) The national bank or Federal savings association does not create at issuance, through action or communication, an expectation the call option will be exercised.

(C) Prior to exercising the call option, or immediately thereafter, the

¹²An instrument that by its terms automatically converts into a tier 1 capital instrument prior to five years after issuance complies with the five-year maturity requirement of this criterion.

¹⁰Public Law 111-240; 124 Stat. 2504 (2010).

¹¹Public Law 110-343, 122 Stat. 3765 (2008).

national bank or Federal savings association must either: Replace any amount called with an equivalent amount of an instrument that meets the criteria for regulatory capital under this section;¹³ or demonstrate to the satisfaction of the OCC that following redemption, the national bank or Federal savings association would continue to hold an amount of capital that is commensurate with its risk.

(vi) The holder of the instrument must have no contractual right to accelerate payment of principal or interest on the instrument, except in the event of a receivership, insolvency, liquidation, or similar proceeding of the national bank or Federal savings association.

(vii) The instrument has no credit-sensitive feature, such as a dividend or interest rate that is reset periodically based in whole or in part on the national bank's or Federal savings association's credit standing, but may have a dividend rate that is adjusted periodically independent of the national bank's or Federal savings association's credit standing, in relation to general market interest rates or similar adjustments.

(viii) The national bank or Federal savings association, or an entity that the national bank or Federal savings association controls, has not purchased and has not directly or indirectly funded the purchase of the instrument.

(ix) If the instrument is not issued directly by the national bank or Federal savings association or by a subsidiary of the national bank or Federal savings association that is an operating entity, the only asset of the issuing entity is its investment in the capital of the national bank or Federal savings association, and proceeds must be immediately available without limitation to the national bank or Federal savings association or the national bank's or Federal savings association's top-tier holding company in a form that meets or exceeds all the other criteria for tier

2 capital instruments under this section.¹⁴

(x) Redemption of the instrument prior to maturity or repurchase requires the prior approval of the OCC.

(xi) For an advanced approaches national bank or Federal savings association, the governing agreement, offering circular, or prospectus of an instrument issued after the date on which the advanced approaches national bank or Federal savings association becomes subject to this part under § 3.1(f) must disclose that the holders of the instrument may be fully subordinated to interests held by the U.S. government in the event that the national bank or Federal savings association enters into a receivership, insolvency, liquidation, or similar proceeding.

(2) Total capital minority interest, subject to the limitations set forth in § 3.21(e), that is not included in the national bank's or Federal savings association's tier 1 capital.

(3) ALLL up to 1.25 percent of the national bank's or Federal savings association's standardized total risk-weighted assets not including any amount of the ALLL (and excluding in the case of a market risk national bank or Federal savings association, its standardized market risk-weighted assets).

(4) Any instrument that qualified as tier 2 capital under the OCC's general risk-based capital rules under appendix A to this part, 12 CFR part 167 as then in effect, that were issued under the Small Business Jobs Act of 2010,¹⁵ or prior to October 4, 2010, under the Emergency Economic Stabilization Act of 2008.¹⁶

(5) For a national bank or Federal savings association that makes an AOCI opt-out election (as defined in paragraph (b)(2) of this section), 45 percent of pretax net unrealized gains on available-for-sale preferred stock classified as an equity security under GAAP and available-for-sale equity exposures.

¹³A national bank or Federal savings association may replace tier 2 capital instruments concurrent with the redemption of existing tier 2 capital instruments.

¹⁴A national bank or Federal savings association may disregard *de minimis* assets related to the operation of the issuing entity for purposes of this criterion.

¹⁵Public Law 111-240; 124 Stat. 2504 (2010).

¹⁶Public Law 110-343; 122 Stat. 3765 (2008).

(6) Notwithstanding the criteria for tier 2 capital instruments referenced above, an instrument with terms that provide that the instrument may be called earlier than five years upon the occurrence of a rating agency event does not violate the criterion in paragraph (d)(1)(v) of this section provided that the instrument was issued and included in a national bank's or Federal savings association's tier 1 or tier 2 capital prior to January 1, 2014, and that such instrument satisfies all other criteria under this paragraph (d).

(e) *OCC approval of a capital element.*

(1) A national bank or Federal savings association must receive OCC prior approval to include a capital element (as listed in this section) in its common equity tier 1 capital, additional tier 1 capital, or tier 2 capital unless the element:

(i) Was included in a national bank's or Federal savings association's tier 1 capital or tier 2 capital prior to May 19, 2010 in accordance with the OCC's risk-based capital rules that were effective as of that date and the underlying instrument may continue to be included under the criteria set forth in this section; or

(ii) Is equivalent, in terms of capital quality and ability to absorb losses with respect to all material terms, to a regulatory capital element the OCC determined may be included in regulatory capital pursuant to paragraph (e)(3) of this section.

(2) When considering whether a national bank or Federal savings association may include a regulatory capital element in its common equity tier 1 capital, additional tier 1 capital, or tier 2 capital, the OCC will consult with the Federal Deposit Insurance Corporation and Federal Reserve Board.

(3) After determining that a regulatory capital element may be included in a national bank's or Federal savings association's common equity tier 1 capital, additional tier 1 capital, or tier 2 capital, the OCC will make its decision publicly available, including a brief description of the material terms of the regulatory capital element and the rationale for the determination.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§ 3.21 Minority interest.

(a) *Applicability.* For purposes of § 3.20, a national bank or Federal savings association is subject to the minority interest limitations in this section if:

(1) A consolidated subsidiary of the national bank or Federal savings association has issued regulatory capital that is not owned by the national bank or Federal savings association; and

(2) For each relevant regulatory capital ratio of the consolidated subsidiary, the ratio exceeds the sum of the subsidiary's minimum regulatory capital requirements plus its capital conservation buffer.

(b) *Difference in capital adequacy standards at the subsidiary level.* For purposes of the minority interest calculations in this section, if the consolidated subsidiary issuing the capital is not subject to capital adequacy standards similar to those of the national bank or Federal savings association, the national bank or Federal savings association must assume that the capital adequacy standards of the national bank or Federal savings association apply to the subsidiary.

(c) *Common equity tier 1 minority interest includable in the common equity tier 1 capital of the national bank or Federal savings association.* For each consolidated subsidiary of a national bank or Federal savings association, the amount of common equity tier 1 minority interest the national bank or Federal savings association may include in common equity tier 1 capital is equal to:

(1) The common equity tier 1 minority interest of the subsidiary; minus

(2) The percentage of the subsidiary's common equity tier 1 capital that is not owned by the national bank or Federal savings association, multiplied by the difference between the common equity tier 1 capital of the subsidiary and the lower of:

(i) The amount of common equity tier 1 capital the subsidiary must hold, or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under § 3.11 or equivalent standards established by the subsidiary's home country supervisor; or

(ii)(A) The standardized total risk-weighted assets of the national bank or Federal savings association that relate to the subsidiary multiplied by

(B) The common equity tier 1 capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §3.11 or equivalent standards established by the subsidiary's home country supervisor.

(d) *Tier 1 minority interest includable in the tier 1 capital of the national bank or Federal savings association.* For each consolidated subsidiary of the national bank or Federal savings association, the amount of tier 1 minority interest the national bank or Federal savings association may include in tier 1 capital is equal to:

(1) The tier 1 minority interest of the subsidiary; minus

(2) The percentage of the subsidiary's tier 1 capital that is not owned by the national bank or Federal savings association multiplied by the difference between the tier 1 capital of the subsidiary and the lower of:

(i) The amount of tier 1 capital the subsidiary must hold, or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under §3.11 or equivalent standards established by the subsidiary's home country supervisor, or

(ii)(A) The standardized total risk-weighted assets of the national bank or Federal savings association that relate to the subsidiary multiplied by

(B) The tier 1 capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §3.11 or equivalent standards established by the subsidiary's home country supervisor.

(e) *Total capital minority interest includable in the total capital of the national bank or Federal savings association.* For each consolidated subsidiary of the national bank or Federal savings association, the amount of total capital minority interest the national bank or Federal savings association may include in total capital is equal to:

(1) The total capital minority interest of the subsidiary; minus

(2) The percentage of the subsidiary's total capital that is not owned by the national bank or Federal savings association multiplied by the difference between the total capital of the subsidiary and the lower of:

(i) The amount of total capital the subsidiary must hold, or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under §3.11 or equivalent standards established by the subsidiary's home country supervisor, or

(ii)(A) The standardized total risk-weighted assets of the national bank or Federal savings association that relate to the subsidiary multiplied by

(B) The total capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §3.11 or equivalent standards established by the subsidiary's home country supervisor.

§ 3.22 Regulatory capital adjustments and deductions.

(a) *Regulatory capital deductions from common equity tier 1 capital.* A national bank or Federal savings association must deduct from the sum of its common equity tier 1 capital elements the items set forth in this paragraph (a):

(1) Goodwill, net of associated deferred tax liabilities (DTLs) in accordance with paragraph (e) of this section, including goodwill that is embedded in the valuation of a significant investment in the capital of an unconsolidated financial institution in the form of common stock (and that is reflected in the consolidated financial statements of the national bank or Federal savings association), in accordance with paragraph (d) of this section;

(2) Intangible assets, other than MSAs, net of associated DTLs in accordance with paragraph (e) of this section;

(3) Deferred tax assets (DTAs) that arise from net operating loss and tax credit carryforwards net of any related valuation allowances and net of DTLs in accordance with paragraph (e) of this section;

(4) Any gain-on-sale in connection with a securitization exposure;

(5)(i) Any defined benefit pension fund net asset, net of any associated

§ 3.22

12 CFR Ch. I (1–14 Edition)

DTL in accordance with paragraph (e) of this section, held by a depository institution holding company. With the prior approval of the OCC, this deduction is not required for any defined benefit pension fund net asset to the extent the depository institution holding company has unrestricted and unfettered access to the assets in that fund.

(ii) For an insured depository institution, no deduction is required.

(iii) A national bank or Federal savings association must risk weight any portion of the defined benefit pension fund asset that is not deducted under paragraphs (a)(5)(i) or (a)(5)(ii) of this section as if the national bank or Federal savings association directly holds a proportional ownership share of each exposure in the defined benefit pension fund.

(6) For an advanced approaches national bank or Federal savings association that has completed the parallel run process and that has received notification from the OCC pursuant to § 3.121(d), the amount of expected credit loss that exceeds its eligible credit reserves; and

(7) With respect to a financial subsidiary, the aggregate amount of the national bank's or Federal savings association's outstanding equity investment, including retained earnings, in its financial subsidiaries (as defined in [12 CFR 5.39 (OCC); 12 CFR 208.77 (Board)]). A national bank or Federal savings association must not consolidate the assets and liabilities of a financial subsidiary with those of the parent bank, and no other deduction is required under paragraph (c) of this section for investments in the capital instruments of financial subsidiaries.

(8)(i) A Federal savings association must deduct the aggregate amount of its outstanding investments (both equity and debt) in, and extensions of credit to, subsidiaries that are not includable subsidiaries as defined in paragraph (a)(8)(iv) of this section and may not consolidate the assets and liabilities of the subsidiary with those of the Federal savings association. Any such deductions shall be deducted from assets and common equity tier 1 except as provided in paragraphs (a)(8)(ii) and (iii) of this section.

(ii) If a Federal savings association has any investments (both debt and equity) in, or extensions or credit to, one or more subsidiaries engaged in any activity that would not fall within the scope of activities in which includable subsidiaries as defined in paragraph (a)(8)(iv) of this section may engage, it must deduct such investments and extensions of credit from assets and, thus, common equity tier 1 in accordance with paragraph (a)(8)(i) of this section.

(iii) If a Federal savings association holds a subsidiary (either directly or through a subsidiary) that is itself a domestic depository institution, the OCC may, in its sole discretion upon determining that the amount of common equity tier 1 that would be required would be higher if the assets and liabilities of such subsidiary were consolidated with those of the parent Federal savings association than the amount that would be required if the parent Federal savings association's investment were deducted pursuant to paragraphs (a)(8)(i) and (ii) of this section, consolidate the assets and liabilities of that subsidiary with those of the parent Federal savings association in calculating the capital adequacy of the parent Federal savings association, regardless of whether the subsidiary would otherwise be an includable subsidiary as defined in paragraph (a)(8)(iv) of this section.

(iv) For purposes of this section, the term includable subsidiary means a subsidiary of a Federal savings association that:

(A) Is engaged solely in activities not impermissible for a national bank;

(B) Is engaged in activities not permissible for a national bank, but only if acting solely as agent for its customers and such agency position is clearly documented in the Federal savings association's files;

(C) Is engaged solely in mortgage-banking activities;

(D)(1) Is itself an insured depository institution or a company the sole investment of which is an insured depository institution; and

(2) Was acquired by the parent Federal savings association prior to May 1, 1989; or

(E) Was a subsidiary of any Federal savings association existing as a Federal savings association on August 9, 1989:

(1) That was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under state law; or

(2) That acquired its principal assets from an association that was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under state law.

(b) *Regulatory adjustments to common equity tier 1 capital.* (1) A national bank or Federal savings association must adjust the sum of common equity tier 1 capital elements pursuant to the requirements set forth in this paragraph (b). Such adjustments to common equity tier 1 capital must be made net of the associated deferred tax effects.

(i) A national bank or Federal savings association that makes an AOCI opt-out election (as defined in paragraph (b)(2) of this section), must make the adjustments required under § 3.22(b)(2)(i).

(ii) A national bank or Federal savings association that is an advanced approaches national bank or Federal savings association, and a national bank or Federal savings association that has not made an AOCI opt-out election (as defined in paragraph (b)(2) of this section), must deduct any accumulated net gains and add any accumulated net losses on cash flow hedges included in AOCI that relate to the hedging of items that are not recognized at fair value on the balance sheet.

(iii) A national bank or Federal savings association must deduct any net gain and add any net loss related to changes in the fair value of liabilities that are due to changes in the national bank's or Federal savings association's own credit risk. An advanced approaches national bank or Federal savings association also must deduct the credit spread premium over the risk free rate for derivatives that are liabilities.

(2) *AOCI opt-out election.* (i) A national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association may make a one-time election to opt out of the requirement

to include all components of AOCI (with the exception of accumulated net gains and losses on cash flow hedges related to items that are not fair-valued on the balance sheet) in common equity tier 1 capital (AOCI opt-out election). A national bank or Federal savings association that makes an AOCI opt-out election in accordance with this paragraph (b)(2) must adjust common equity tier 1 capital as follows:

(A) Subtract any net unrealized gains and add any net unrealized losses on available-for-sale securities;

(B) Subtract any net unrealized losses on available-for-sale preferred stock classified as an equity security under GAAP and available-for-sale equity exposures;

(C) Subtract any accumulated net gains and add any accumulated net losses on cash flow hedges;

(D) Subtract any amounts recorded in AOCI attributed to defined benefit postretirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (excluding, at the national bank's or Federal savings association's option, the portion relating to pension assets deducted under paragraph (a)(5) of this section); and

(E) Subtract any net unrealized gains and add any net unrealized losses on held-to-maturity securities that are included in AOCI.

(ii) A national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association must make its AOCI opt-out election in its Call Report filed for the first regulatory reporting period after the date required for such national bank or Federal savings association to comply with subpart A of this part as set forth in § 3.1(f).

(iii) With respect to a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, each of its subsidiary banking organizations that is subject to regulatory capital requirements issued by the Board of Governors of the Federal Reserve, the Federal Deposit Insurance

Corporation, or the Office of the Comptroller of the Currency¹⁷ must elect the same option as the national bank or Federal savings association pursuant to this paragraph (b)(2).

(iv) With prior notice to the OCC, a national bank or Federal savings association resulting from a merger, acquisition, or purchase transaction and that is not an advanced approaches national bank or Federal savings association may change its AOCI opt-out election in its Call Report filed for the first reporting period after the date required for such national bank or Federal savings association to comply with subpart A of this part as set forth in §3.1(f) if:

(A) Other than as set forth in paragraph (b)(2)(iv)(C) of this section, the merger, acquisition, or purchase transaction involved the acquisition or purchase of all or substantially all of either the assets or voting stock of another banking organization that is subject to regulatory capital requirements issued by the Board of Governors of the Federal Reserve, the Federal Deposit Insurance Corporation, or the Office of the Comptroller of the Currency;¹⁸

(B) Prior to the merger, acquisition, or purchase transaction, only one of the banking organizations involved in the transaction made an AOCI opt-out election under this section; and

(C) A national bank or Federal savings association may, with the prior approval of the OCC, change its AOCI opt-out election under this paragraph (b) in the case of a merger, acquisition, or purchase transaction that meets the requirements set forth at paragraph (b)(2)(iv)(B) of this section, but does not meet the requirements of paragraph (b)(2)(iv)(A). In making such a determination, the OCC may consider the terms of the merger, acquisition, or purchase transaction, as well as the extent of any changes to the risk profile, complexity, and scope of operations of the national bank or Federal savings

association resulting from the merger, acquisition, or purchase transaction.

(c) *Deductions from regulatory capital related to investments in capital instruments*¹⁹—(1) *Investment in the national bank's or Federal savings association's own capital instruments.* A national bank or Federal savings association must deduct an investment in the national bank's or Federal savings association's own capital instruments as follows:

(i) A national bank or Federal savings association must deduct an investment in the national bank's or Federal savings association's own common stock instruments from its common equity tier 1 capital elements to the extent such instruments are not excluded from regulatory capital under §3.20(b)(1);

(ii) A national bank or Federal savings association must deduct an investment in the national bank's or Federal savings association's own additional tier 1 capital instruments from its additional tier 1 capital elements; and

(iii) A national bank or Federal savings association must deduct an investment in the national bank's or Federal savings association's own tier 2 capital instruments from its tier 2 capital elements.

(2) *Corresponding deduction approach.* For purposes of subpart C of this part, the corresponding deduction approach is the methodology used for the deductions from regulatory capital related to reciprocal cross holdings (as described in paragraph (c)(3) of this section), non-significant investments in the capital of unconsolidated financial institutions (as described in paragraph (c)(4) of this section), and non-common stock significant investments in the capital of unconsolidated financial institutions (as described in paragraph (c)(5) of this section). Under the corresponding deduction approach, a national bank or Federal savings association must make deductions from the component of capital for which the underlying instrument would qualify if it were issued by the national bank or

¹⁷These rules include the regulatory capital requirements set forth at 12 CFR part 3 (OCC); 12 CFR part 225 (Board); 12 CFR part 325, and 12 CFR part 390 (FDIC).

¹⁸These rules include the regulatory capital requirements set forth at 12 CFR part 3 (OCC); 12 CFR part 225 (Board); 12 CFR part 325, and 12 CFR part 390 (FDIC).

¹⁹The national bank or Federal savings association must calculate amounts deducted under paragraphs (c) through (f) of this section after it calculates the amount of ALLL includable in tier 2 capital under §3.20(d)(3).

Comptroller of the Currency, Treasury

§ 3.22

Federal savings association itself, as described in paragraphs (c)(2)(i)-(iii) of this section. If the national bank or Federal savings association does not have a sufficient amount of a specific component of capital to effect the required deduction, the shortfall must be deducted according to paragraph (f) of this section.

(i) If an investment is in the form of an instrument issued by a financial institution that is not a regulated financial institution, the national bank or Federal savings association must treat the instrument as:

(A) A common equity tier 1 capital instrument if it is common stock or represents the most subordinated claim in liquidation of the financial institution; and

(B) An additional tier 1 capital instrument if it is subordinated to all creditors of the financial institution and is senior in liquidation only to common shareholders.

(ii) If an investment is in the form of an instrument issued by a regulated financial institution and the instrument does not meet the criteria for common equity tier 1, additional tier 1 or tier 2 capital instruments under § 3.20, the national bank or Federal savings association must treat the instrument as:

(A) A common equity tier 1 capital instrument if it is common stock included in GAAP equity or represents the most subordinated claim in liquidation of the financial institution;

(B) An additional tier 1 capital instrument if it is included in GAAP equity, subordinated to all creditors of the financial institution, and senior in a receivership, insolvency, liquidation, or similar proceeding only to common shareholders; and

(C) A tier 2 capital instrument if it is not included in GAAP equity but considered regulatory capital by the primary supervisor of the financial institution.

(iii) If an investment is in the form of a non-qualifying capital instrument (as defined in § 3.300(c)), the national bank or Federal savings association must treat the instrument as:

(A) An additional tier 1 capital instrument if such instrument was included in the issuer's tier 1 capital prior to May 19, 2010; or

(B) A tier 2 capital instrument if such instrument was included in the issuer's tier 2 capital (but not includable in tier 1 capital) prior to May 19, 2010.

(3) *Reciprocal cross holdings in the capital of financial institutions.* A national bank or Federal savings association must deduct investments in the capital of other financial institutions it holds reciprocally, where such reciprocal cross holdings result from a formal or informal arrangement to swap, exchange, or otherwise intend to hold each other's capital instruments, by applying the corresponding deduction approach.

(4) *Non-significant investments in the capital of unconsolidated financial institutions.* (i) A national bank or Federal savings association must deduct its non-significant investments in the capital of unconsolidated financial institutions (as defined in § 3.2) that, in the aggregate, exceed 10 percent of the sum of the national bank's or Federal savings association's common equity tier 1 capital elements minus all deductions from and adjustments to common equity tier 1 capital elements required under paragraphs (a) through (c)(3) of this section (the 10 percent threshold for non-significant investments) by applying the corresponding deduction approach.²⁰ The deductions described in this section are net of associated DTLs in accordance with paragraph (e) of this section. In addition, a national bank or Federal savings association that underwrites a failed underwriting, with the prior written approval of the OCC, for the period of time stipulated by the OCC, is not required to deduct a non-significant investment in the capital of an unconsolidated financial institution pursuant to this paragraph

²⁰With the prior written approval of the OCC, for the period of time stipulated by the OCC, a national bank or Federal savings association is not required to deduct a non-significant investment in the capital instrument of an unconsolidated financial institution pursuant to this paragraph if the financial institution is in distress and if such investment is made for the purpose of providing financial support to the financial institution, as determined by the OCC.

(c) to the extent the investment is related to the failed underwriting.²¹

(ii) The amount to be deducted under this section from a specific capital component is equal to:

(A) The national bank's or Federal savings association's non-significant investments in the capital of unconsolidated financial institutions exceeding the 10 percent threshold for non-significant investments, multiplied by

(B) The ratio of the national bank's or Federal savings association's non-significant investments in the capital of unconsolidated financial institutions in the form of such capital component to the national bank's or Federal savings association's total non-significant investments in unconsolidated financial institutions.

(5) *Significant investments in the capital of unconsolidated financial institutions that are not in the form of common stock.* A national bank or Federal savings association must deduct its significant investments in the capital of unconsolidated financial institutions that are not in the form of common stock by applying the corresponding deduction approach.²² The deductions described in this section are net of associated DTLs in accordance with paragraph (e) of this section. In addition, with the prior written approval of the OCC, for the period of time stipulated by the OCC, a national bank or Federal savings association that underwrites a failed underwriting is not required to deduct a significant investment in the capital of an unconsolidated financial institution pursuant to this paragraph

²¹ Any non-significant investments in the capital of unconsolidated financial institutions that do not exceed the 10 percent threshold for non-significant investments under this section must be assigned the appropriate risk weight under subparts D, E, or F of this part, as applicable.

²² With prior written approval of the OCC, for the period of time stipulated by the OCC, a national bank or Federal savings association is not required to deduct a significant investment in the capital instrument of an unconsolidated financial institution in distress which is not in the form of common stock pursuant to this section if such investment is made for the purpose of providing financial support to the financial institution as determined by the OCC.

(c) if such investment is related to such failed underwriting.

(d) *Items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds.* (1) A national bank or Federal savings association must deduct from common equity tier 1 capital elements the amount of each of the items set forth in this paragraph (d) that, individually, exceeds 10 percent of the sum of the national bank's or Federal savings association's common equity tier 1 capital elements, less adjustments to and deductions from common equity tier 1 capital required under paragraphs (a) through (c) of this section (the 10 percent common equity tier 1 capital deduction threshold).

(i) DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, net of any related valuation allowances and net of DTLs, in accordance with paragraph (e) of this section. A national bank or Federal savings association is not required to deduct from the sum of its common equity tier 1 capital elements DTAs (net of any related valuation allowances and net of DTLs, in accordance with § 3.22(e)) arising from timing differences that the national bank or Federal savings association could realize through net operating loss carrybacks. The national bank or Federal savings association must risk weight these assets at 100 percent. For a national bank or Federal savings association that is a member of a consolidated group for tax purposes, the amount of DTAs that could be realized through net operating loss carrybacks may not exceed the amount that the national bank or Federal savings association could reasonably expect to have refunded by its parent holding company.

(ii) MSAs net of associated DTLs, in accordance with paragraph (e) of this section.

(iii) Significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs in accordance with paragraph (e) of this section.²³ Significant investments in the

²³ With the prior written approval of the OCC, for the period of time stipulated by the

capital of unconsolidated financial institutions in the form of common stock subject to the 10 percent common equity tier 1 capital deduction threshold may be reduced by any goodwill embedded in the valuation of such investments deducted by the national bank or Federal savings association pursuant to paragraph (a)(1) of this section. In addition, with the prior written approval of the OCC, for the period of time stipulated by the OCC, a national bank or Federal savings association that underwrites a failed underwriting is not required to deduct a significant investment in the capital of an unconsolidated financial institution in the form of common stock pursuant to this paragraph (d) if such investment is related to such failed underwriting.

(2) A national bank or Federal savings association must deduct from common equity tier 1 capital elements the items listed in paragraph (d)(1) of this section that are not deducted as a result of the application of the 10 percent common equity tier 1 capital deduction threshold, and that, in aggregate, exceed 17.65 percent of the sum of the national bank's or Federal savings association's common equity tier 1 capital elements, minus adjustments to and deductions from common equity tier 1 capital required under paragraphs (a) through (c) of this section, minus the items listed in paragraph (d)(1) of this section (the 15 percent common equity tier 1 capital deduction threshold). Any goodwill that has been deducted under paragraph (a)(1) of this section can be excluded from the significant investments in the capital of unconsolidated financial institutions in the form of common stock.²⁴

OCC, a national bank or Federal savings association is not required to deduct a significant investment in the capital instrument of an unconsolidated financial institution in distress in the form of common stock pursuant to this section if such investment is made for the purpose of providing financial support to the financial institution as determined by the OCC.

²⁴The amount of the items in paragraph (d) of this section that is not deducted from common equity tier 1 capital pursuant to this section must be included in the risk-weighted assets of the national bank or Federal savings association and assigned a 250 percent risk weight.

(3) For purposes of calculating the amount of DTAs subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds, a national bank or Federal savings association may exclude DTAs and DTLs relating to adjustments made to common equity tier 1 capital under paragraph (b) of this section. A national bank or Federal savings association that elects to exclude DTAs relating to adjustments under paragraph (b) of this section also must exclude DTLs and must do so consistently in all future calculations. A national bank or Federal savings association may change its exclusion preference only after obtaining the prior approval of the OCC.

(e) *Netting of DTLs against assets subject to deduction.* (1) Except as described in paragraph (e)(3) of this section, netting of DTLs against assets that are subject to deduction under this section is permitted, but not required, if the following conditions are met:

(i) The DTL is associated with the asset; and

(ii) The DTL would be extinguished if the associated asset becomes impaired or is derecognized under GAAP.

(2) A DTL may only be netted against a single asset.

(3) For purposes of calculating the amount of DTAs subject to the threshold deduction in paragraph (d) of this section, the amount of DTAs that arise from net operating loss and tax credit carryforwards, net of any related valuation allowances, and of DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, net of any related valuation allowances, may be offset by DTLs (that have not been netted against assets subject to deduction pursuant to paragraph (e)(1) of this section) subject to the conditions set forth in this paragraph (e).

(i) Only the DTAs and DTLs that relate to taxes levied by the same taxation authority and that are eligible for offsetting by that authority may be offset for purposes of this deduction.

(ii) The amount of DTLs that the national bank or Federal savings association nets against DTAs that arise from net operating loss and tax credit

carryforwards, net of any related valuation allowances, and against DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, net of any related valuation allowances, must be allocated in proportion to the amount of DTAs that arise from net operating loss and tax credit carryforwards (net of any related valuation allowances, but before any offsetting of DTLs) and of DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks (net of any related valuation allowances, but before any offsetting of DTLs), respectively.

(4) A national bank or Federal savings association may offset DTLs embedded in the carrying value of a leveraged lease portfolio acquired in a business combination that are not recognized under GAAP against DTAs that are subject to paragraph (d) of this section in accordance with this paragraph (e).

(5) A national bank or Federal savings association must net DTLs against assets subject to deduction under this section in a consistent manner from reporting period to reporting period. A national bank or Federal savings association may change its preference regarding the manner in which it nets DTLs against specific assets subject to deduction under this section only after obtaining the prior approval of the OCC.

(f) *Insufficient amounts of a specific regulatory capital component to effect deductions.* Under the corresponding deduction approach, if a national bank or Federal savings association does not have a sufficient amount of a specific component of capital to effect the required deduction after completing the deductions required under paragraph (d) of this section, the national bank or Federal savings association must deduct the shortfall from the next higher (that is, more subordinated) component of regulatory capital.

(g) *Treatment of assets that are deducted.* A national bank or Federal savings association must exclude from standardized total risk-weighted assets and, as applicable, advanced ap-

proaches total risk-weighted assets any item deducted from regulatory capital under paragraphs (a), (c), and (d) of this section.

(h) *Net long position.* (1) For purposes of calculating an investment in the national bank's or Federal savings association's own capital instrument and an investment in the capital of an unconsolidated financial institution under this section, the net long position is the gross long position in the underlying instrument determined in accordance with paragraph (h)(2) of this section, as adjusted to recognize a short position in the same instrument calculated in accordance with paragraph (h)(3) of this section.

(2) *Gross long position.* The gross long position is determined as follows:

(i) For an equity exposure that is held directly, the adjusted carrying value as that term is defined in § 3.51(b);

(ii) For an exposure that is held directly and is not an equity exposure or a securitization exposure, the exposure amount as that term is defined in § 3.2;

(iii) For an indirect exposure, the national bank's or Federal savings association's carrying value of the investment in the investment fund, provided that, alternatively:

(A) A national bank or Federal savings association may, with the prior approval of the OCC, use a conservative estimate of the amount of its investment in its own capital instruments or the capital of an unconsolidated financial institution held through a position in an index; or

(B) A national bank or Federal savings association may calculate the gross long position for the national bank's or Federal savings association's own capital instruments or the capital of an unconsolidated financial institution by multiplying the national bank's or Federal savings association's carrying value of its investment in the investment fund by either:

(1) The highest stated investment limit (in percent) for investments in the national bank's or Federal savings association's own capital instruments or the capital of unconsolidated financial institutions as stated in the prospectus, partnership agreement, or

similar contract defining permissible investments of the investment fund; or

(2) The investment fund's actual holdings of own capital instruments or the capital of unconsolidated financial institutions.

(iv) For a synthetic exposure, the amount of the national bank's or Federal savings association's loss on the exposure if the reference capital instrument were to have a value of zero.

(3) *Adjustments to reflect a short position.* In order to adjust the gross long position to recognize a short position in the same instrument, the following criteria must be met:

(i) The maturity of the short position must match the maturity of the long position, or the short position has a residual maturity of at least one year (maturity requirement); or

(ii) For a position that is a trading asset or trading liability (whether on- or off-balance sheet) as reported on the national bank's or Federal savings association's Call Report, if the national bank or Federal savings association has a contractual right or obligation to sell the long position at a specific point in time and the counterparty to the contract has an obligation to purchase the long position if the national bank or Federal savings association exercises its right to sell, this point in time may be treated as the maturity of the long position such that the maturity of the long position and short position are deemed to match for purposes of the maturity requirement, even if the maturity of the short position is less than one year; and

(iii) For an investment in the national bank's or Federal savings association's own capital instrument under paragraph (c)(1) of this section or an investment in a capital of an unconsolidated financial institution under paragraphs (c)(4), (c)(5), and (d)(1)(iii) of this section.

(A) A national bank or Federal savings association may only net a short position against a long position in the national bank's or Federal savings association's own capital instrument under paragraph (c)(1) of this section if the short position involves no counterparty credit risk.

(B) A gross long position in a national bank's or Federal savings asso-

ciation's own capital instrument or in a capital instrument of an unconsolidated financial institution resulting from a position in an index may be netted against a short position in the same index. Long and short positions in the same index without maturity dates are considered to have matching maturities.

(C) A short position in an index that is hedging a long cash or synthetic position in a national bank's or Federal savings association's own capital instrument or in a capital instrument of an unconsolidated financial institution can be decomposed to provide recognition of the hedge. More specifically, the portion of the index that is composed of the same underlying instrument that is being hedged may be used to offset the long position if both the long position being hedged and the short position in the index are reported as a trading asset or trading liability (whether on- or off-balance sheet) on the national bank's or Federal savings association's Call Report, and the hedge is deemed effective by the national bank's or Federal savings association's internal control processes, which have not been found to be inadequate by the OCC.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§§ 3.23–3.29 [Reserved]

Subpart D—Risk-Weighted Assets—Standardized Approach

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.30 Applicability.

(a) This subpart sets forth methodologies for determining risk-weighted assets for purposes of the generally applicable risk-based capital requirements for all national banks or Federal savings associations.

(b) Notwithstanding paragraph (a) of this section, a market risk national bank or Federal savings association must exclude from its calculation of risk-weighted assets under this subpart the risk-weighted asset amounts of all covered positions, as defined in subpart F of this part (except foreign exchange

§ 3.31

positions that are not trading positions, OTC derivative positions, cleared transactions, and unsettled transactions).

RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK

§ 3.31 Mechanics for calculating risk-weighted assets for general credit risk.

(a) *General risk-weighting requirements.* A national bank or Federal savings association must apply risk weights to its exposures as follows:

(1) A national bank or Federal savings association must determine the exposure amount of each on-balance sheet exposure, each OTC derivative contract, and each off-balance sheet commitment, trade and transaction-related contingency, guarantee, repo-style transaction, financial standby letter of credit, forward agreement, or other similar transaction that is not:

- (i) An unsettled transaction subject to § 3.38;
- (ii) A cleared transaction subject to § 3.35;
- (iii) A default fund contribution subject to § 3.35;
- (iv) A securitization exposure subject to §§ 3.41 through 3.45; or
- (v) An equity exposure (other than an equity OTC derivative contract) subject to §§ 3.51 through 3.53.

(2) The national bank or Federal savings association must multiply each exposure amount by the risk weight appropriate to the exposure based on the exposure type or counterparty, eligible guarantor, or financial collateral to determine the risk-weighted asset amount for each exposure.

(b) Total risk-weighted assets for general credit risk equals the sum of the risk-weighted asset amounts calculated under this section.

§ 3.32 General risk weights.

(a) *Sovereign exposures*—(1) *Exposures to the U.S. government.* (i) Notwithstanding any other requirement in this subpart, a national bank or Federal savings association must assign a zero percent risk weight to:

(A) An exposure to the U.S. government, its central bank, or a U.S. government agency; and

(B) The portion of an exposure that is directly and unconditionally guaranteed by the U.S. government, its central bank, or a U.S. government agency. This includes a deposit or other exposure, or the portion of a deposit or other exposure, that is insured or otherwise unconditionally guaranteed by the FDIC or National Credit Union Administration.

(ii) A national bank or Federal savings association must assign a 20 percent risk weight to the portion of an exposure that is conditionally guaranteed by the U.S. government, its central bank, or a U.S. government agency. This includes an exposure, or the portion of an exposure, that is conditionally guaranteed by the FDIC or National Credit Union Administration.

(2) *Other sovereign exposures.* In accordance with Table 1 to § 3.32, a national bank or Federal savings association must assign a risk weight to a sovereign exposure based on the CRC applicable to the sovereign or the sovereign’s OECD membership status if there is no CRC applicable to the sovereign.

TABLE 1 TO § 3.32—RISK WEIGHTS FOR SOVEREIGN EXPOSURES

	Risk weight (in percent)
CRC:	
0–1	0
2	20
3	50
4–6	100
7	150
OECD Member with No CRC	0
Non-OECD Member with No CRC	100
Sovereign Default	150

(3) *Certain sovereign exposures.* Notwithstanding paragraph (a)(2) of this section, a national bank or Federal savings association may assign to a sovereign exposure a risk weight that is lower than the applicable risk weight in Table 1 to § 3.32 if:

- (i) The exposure is denominated in the sovereign’s currency;
- (ii) The national bank or Federal savings association has at least an equivalent amount of liabilities in that currency; and
- (iii) The risk weight is not lower than the risk weight that the home country supervisor allows national banks or Federal savings associations

Comptroller of the Currency, Treasury

§ 3.32

under its jurisdiction to assign to the same exposures to the sovereign.

(4) *Exposures to a non-OECD member sovereign with no CRC.* Except as provided in paragraphs (a)(3), (a)(5) and (a)(6) of this section, a national bank or Federal savings association must assign a 100 percent risk weight to an exposure to a sovereign if the sovereign does not have a CRC.

(5) *Exposures to an OECD member sovereign with no CRC.* Except as provided in paragraph (a)(6) of this section, a national bank or Federal savings association must assign a 0 percent risk weight to an exposure to a sovereign that is a member of the OECD if the sovereign does not have a CRC.

(6) *Sovereign default.* A national bank or Federal savings association must assign a 150 percent risk weight to a sovereign exposure immediately upon determining that an event of sovereign default has occurred, or if an event of sovereign default has occurred during the previous five years.

(b) *Certain supranational entities and multilateral development banks (MDBs).* A national bank or Federal savings association must assign a zero percent risk weight to an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(c) *Exposures to GSEs.* (1) A national bank or Federal savings association must assign a 20 percent risk weight to an exposure to a GSE other than an equity exposure or preferred stock.

(2) A national bank or Federal savings association must assign a 100 percent risk weight to preferred stock issued by a GSE.

(d) *Exposures to depository institutions, foreign banks, and credit unions—*(1) *Exposures to U.S. depository institutions and credit unions.* A national bank or Federal savings association must assign a 20 percent risk weight to an exposure to a depository institution or credit union that is organized under the laws of the United States or any state thereof, except as otherwise provided under paragraph (d)(3) of this section.

(2) *Exposures to foreign banks.* (i) Except as otherwise provided under paragraphs (d)(2)(iv) and (d)(3) of this sec-

tion, a national bank or Federal savings association must assign a risk weight to an exposure to a foreign bank, in accordance with Table 2 to § 3.32, based on the CRC that corresponds to the foreign bank's home country or the OECD membership status of the foreign bank's home country if there is no CRC applicable to the foreign bank's home country.

TABLE 2 TO § 3.32—RISK WEIGHTS FOR EXPOSURES TO FOREIGN BANKS

	Risk weight (in percent)
CRC:	
0-1	20
2	50
3	100
4-7	150
OECD Member with No CRC	20
Non-OECD Member with No CRC	100
Sovereign Default	150

(ii) A national bank or Federal savings association must assign a 20 percent risk weight to an exposure to a foreign bank whose home country is a member of the OECD and does not have a CRC.

(iii) A national bank or Federal savings association must assign a 100 percent risk weight to an exposure to a foreign bank whose home country is not a member of the OECD and does not have a CRC, with the exception of self-liquidating, trade-related contingent items that arise from the movement of goods, and that have a maturity of three months or less, which may be assigned a 20 percent risk weight.

(iv) A national bank or Federal savings association must assign a 150 percent risk weight to an exposure to a foreign bank immediately upon determining that an event of sovereign default has occurred in the bank's home country, or if an event of sovereign default has occurred in the foreign bank's home country during the previous five years.

(3) A national bank or Federal savings association must assign a 100 percent risk weight to an exposure to a financial institution if the exposure may be included in that financial institution's capital unless the exposure is:

- (i) An equity exposure;
- (ii) A significant investment in the capital of an unconsolidated financial

§ 3.32

institution in the form of common stock pursuant to § 3.22(d)(iii);

(iii) Deducted from regulatory capital under § 3.22; or

(iv) Subject to a 150 percent risk weight under paragraph (d)(2)(iv) or Table 2 of paragraph (d)(2) of this section.

(e) *Exposures to public sector entities (PSEs)*—(1) *Exposures to U.S. PSEs.* (i) A national bank or Federal savings association must assign a 20 percent risk weight to a general obligation exposure to a PSE that is organized under the laws of the United States or any state or political subdivision thereof.

(ii) A national bank or Federal savings association must assign a 50 percent risk weight to a revenue obligation exposure to a PSE that is organized under the laws of the United States or any state or political subdivision thereof.

(2) *Exposures to foreign PSEs.* (i) Except as provided in paragraphs (e)(1) and (e)(3) of this section, a national bank or Federal savings association must assign a risk weight to a general obligation exposure to a PSE, in accordance with Table 3 to § 3.32, based on the CRC that corresponds to the PSE's home country or the OECD membership status of the PSE's home country if there is no CRC applicable to the PSE's home country.

(ii) Except as provided in paragraphs (e)(1) and (e)(3) of this section, a national bank or Federal savings association must assign a risk weight to a revenue obligation exposure to a PSE, in accordance with Table 4 to § 3.32, based on the CRC that corresponds to the PSE's home country; or the OECD membership status of the PSE's home country if there is no CRC applicable to the PSE's home country.

(3) A national bank or Federal savings association may assign a lower risk weight than would otherwise apply under Tables 3 or 4 to § 3.32 to an exposure to a foreign PSE if:

(i) The PSE's home country supervisor allows banks under its jurisdiction to assign a lower risk weight to such exposures; and

(ii) The risk weight is not lower than the risk weight that corresponds to the PSE's home country in accordance with Table 1 to § 3.32.

	Risk weight (in percent)
CRC:	
0–1	50
2–3	100
4–7	150
OECD Member with No CRC	50
Non-OECD Member with No CRC	100
Sovereign Default	150

(4) *Exposures to PSEs from an OECD member sovereign with no CRC.* (i) A national bank or Federal savings association must assign a 20 percent risk weight to a general obligation exposure to a PSE whose home country is an OECD member sovereign with no CRC.

(ii) A national bank or Federal savings association must assign a 50 percent risk weight to a revenue obligation exposure to a PSE whose home country is an OECD member sovereign with no CRC.

(5) *Exposures to PSEs whose home country is not an OECD member sovereign with no CRC.* A national bank or Federal savings association must assign a 100 percent risk weight to an exposure to a PSE whose home country is not a member of the OECD and does not have a CRC.

(6) A national bank or Federal savings association must assign a 150 percent risk weight to a PSE exposure immediately upon determining that an event of sovereign default has occurred in a PSE's home country or if an event of sovereign default has occurred in the PSE's home country during the previous five years.

(f) *Corporate exposures.* A national bank or Federal savings association must assign a 100 percent risk weight to all its corporate exposures.

(g) *Residential mortgage exposures.* (1) A national bank or Federal savings association must assign a 50 percent risk weight to a first-lien residential mortgage exposure that:

- (i) Is secured by a property that is either owner-occupied or rented;
- (ii) Is made in accordance with prudent underwriting standards, including standards relating to the loan amount as a percent of the appraised value of the property;
- (iii) Is not 90 days or more past due or carried in nonaccrual status; and
- (iv) Is not restructured or modified.

(2) A national bank or Federal savings association must assign a 100 percent risk weight to a first-lien residential mortgage exposure that does not meet the criteria in paragraph (g)(1) of this section, and to junior-lien residential mortgage exposures.

(3) For the purpose of this paragraph (g), if a national bank or Federal savings association holds the first-lien and junior-lien(s) residential mortgage exposures, and no other party holds an intervening lien, the national bank or Federal savings association must combine the exposures and treat them as a single first-lien residential mortgage exposure.

(4) A loan modified or restructured solely pursuant to the U.S. Treasury's Home Affordable Mortgage Program is not modified or restructured for purposes of this section.

(h) *Pre-sold construction loans.* A national bank or Federal savings association must assign a 50 percent risk weight to a pre-sold construction loan unless the purchase contract is cancelled, in which case a national bank or Federal savings association must assign a 100 percent risk weight.

(i) *Statutory multifamily mortgages.* A national bank or Federal savings association must assign a 50 percent risk weight to a statutory multifamily mortgage.

(j) *High-volatility commercial real estate (HVCRE) exposures.* A national bank or Federal savings association must assign a 150 percent risk weight to an HVCRE exposure.

(k) *Past due exposures.* Except for a sovereign exposure or a residential mortgage exposure, a national bank or Federal savings association must de-

termine a risk weight for an exposure that is 90 days or more past due or on nonaccrual according to the requirements set forth in this paragraph (k).

(1) A national bank or Federal savings association must assign a 150 percent risk weight to the portion of the exposure that is not guaranteed or that is unsecured.

(2) A national bank or Federal savings association may assign a risk weight to the guaranteed portion of a past due exposure based on the risk weight that applies under § 3.36 if the guarantee or credit derivative meets the requirements of that section.

(3) A national bank or Federal savings association may assign a risk weight to the collateralized portion of a past due exposure based on the risk weight that applies under § 3.37 if the collateral meets the requirements of that section.

(1) *Other assets.* (1) A national bank or Federal savings association must assign a zero percent risk weight to cash owned and held in all offices of the national bank or Federal savings association or in transit; to gold bullion held in the national bank's or Federal savings association's own vaults or held in another depository institution's vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities; and to exposures that arise from the settlement of cash transactions (such as equities, fixed income, spot foreign exchange and spot commodities) with a central counterparty where there is no assumption of ongoing counterparty credit risk by the central counterparty after settlement of the trade and associated default fund contributions.

(2) A national bank or Federal savings association must assign a 20 percent risk weight to cash items in the process of collection.

(3) A national bank or Federal savings association must assign a 100 percent risk weight to DTAs arising from temporary differences that the national bank or Federal savings association could realize through net operating loss carrybacks.

(4) A national bank or Federal savings association must assign a 250 percent risk weight to the portion of each

§ 3.33

12 CFR Ch. I (1–1–14 Edition)

of the following items that is not deducted from common equity tier 1 capital pursuant to § 3.22(d):

(i) MSAs; and

(ii) DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks.

(5) A national bank or Federal savings association must assign a 100 percent risk weight to all assets not specifically assigned a different risk weight under this subpart and that are not deducted from tier 1 or tier 2 capital pursuant to § 3.22.

(6) Notwithstanding the requirements of this section, a national bank or Federal savings association may assign an asset that is not included in one of the categories provided in this section to the risk weight category applicable under the capital rules applicable to bank holding companies and savings and loan holding companies at 12 CFR part 217, provided that all of the following conditions apply:

(i) The national bank or Federal savings association is not authorized to hold the asset under applicable law other than debt previously contracted or similar authority; and

(ii) The risks associated with the asset are substantially similar to the risks of assets that are otherwise assigned to a risk weight category of less than 100 percent under this subpart.

§ 3.33 Off-balance sheet exposures.

(a) *General.* (1) A national bank or Federal savings association must calculate the exposure amount of an off-balance sheet exposure using the credit conversion factors (CCFs) in paragraph (b) of this section.

(2) Where a national bank or Federal savings association commits to provide a commitment, the national bank or Federal savings association may apply the lower of the two applicable CCFs.

(3) Where a national bank or Federal savings association provides a commitment structured as a syndication or participation, the national bank or Federal savings association is only required to calculate the exposure amount for its pro rata share of the commitment.

(4) Where a national bank or Federal savings association provides a commitment, enters into a repurchase agreement, or provides a credit-enhancing representation and warranty, and such commitment, repurchase agreement, or credit-enhancing representation and warranty is not a securitization exposure, the exposure amount shall be no greater than the maximum contractual amount of the commitment, repurchase agreement, or credit-enhancing representation and warranty, as applicable.

(b) *Credit conversion factors*—(1) *Zero percent CCF.* A national bank or Federal savings association must apply a zero percent CCF to the unused portion of a commitment that is unconditionally cancelable by the national bank or Federal savings association.

(2) *20 percent CCF.* A national bank or Federal savings association must apply a 20 percent CCF to the amount of:

(i) Commitments with an original maturity of one year or less that are not unconditionally cancelable by the national bank or Federal savings association; and

(ii) Self-liquidating, trade-related contingent items that arise from the movement of goods, with an original maturity of one year or less.

(3) *50 percent CCF.* A national bank or Federal savings association must apply a 50 percent CCF to the amount of:

(i) Commitments with an original maturity of more than one year that are not unconditionally cancelable by the national bank or Federal savings association; and

(ii) Transaction-related contingent items, including performance bonds, bid bonds, warranties, and performance standby letters of credit.

(4) *100 percent CCF.* A national bank or Federal savings association must apply a 100 percent CCF to the amount of the following off-balance-sheet items and other similar transactions:

(i) Guarantees;

(ii) Repurchase agreements (the off-balance sheet component of which equals the sum of the current fair values of all positions the national bank or Federal savings association has sold subject to repurchase);

Comptroller of the Currency, Treasury

§ 3.34

(iii) Credit-enhancing representations and warranties that are not securitization exposures;

(iv) Off-balance sheet securities lending transactions (the off-balance sheet component of which equals the sum of the current fair values of all positions the national bank or Federal savings association has lent under the transaction);

(v) Off-balance sheet securities borrowing transactions (the off-balance sheet component of which equals the sum of the current fair values of all non-cash positions the national bank or Federal savings association has posted as collateral under the transaction);

(vi) Financial standby letters of credit; and

(vii) Forward agreements.

§ 3.34 OTC derivative contracts.

(a) *Exposure amount*—(1) *Single OTC derivative contract*. Except as modified by paragraph (b) of this section, the exposure amount for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the national bank’s or Federal savings association’s current credit exposure and potential future credit exposure (PFE) on the OTC derivative contract.

(i) *Current credit exposure*. The current credit exposure for a single OTC derivative contract is the greater of

the mark-to-fair value of the OTC derivative contract or zero.

(ii) *PFE*. (A) The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-fair value, is calculated by multiplying the notional principal amount of the OTC derivative contract by the appropriate conversion factor in Table 1 to § 3.34.

(B) For purposes of calculating either the PFE under this paragraph (a) or the gross PFE under paragraph (a)(2) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each value date in each currency.

(C) For an OTC derivative contract that does not fall within one of the specified categories in Table 1 to § 3.34, the PFE must be calculated using the appropriate “other” conversion factor.

(D) A national bank or Federal savings association must use an OTC derivative contract’s effective notional principal amount (that is, the apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than the apparent or stated notional principal amount in calculating PFE.

(E) The PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

TABLE 1 TO § 3.34—CONVERSION FACTOR MATRIX FOR DERIVATIVE CONTRACTS ¹

Remaining maturity ²	Interest rate	Foreign exchange rate and gold	Credit (investment grade reference asset) ³	Credit (non-investment-grade reference asset)	Equity	Precious metals (except gold)	Other
One year or less	0.00	0.01	0.05	0.10	0.06	0.07	0.10
Greater than one year and less than or equal to five years	0.005	0.05	0.05	0.10	0.08	0.07	0.12
Greater than five years	0.015	0.075	0.05	0.10	0.10	0.08	0.15

¹ For a derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.

² For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity equals the time until the next reset date. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.

³ A national bank or Federal savings association must use the column labeled “Credit (investment-grade reference asset)” for a credit derivative whose reference asset is an outstanding unsecured long-term debt security without credit enhancement that is investment grade. A national bank or Federal savings association must use the column labeled “Credit (non-investment-grade reference asset)” for all other credit derivatives.

(2) *Multiple OTC derivative contracts subject to a qualifying master netting agreement.* Except as modified by paragraph (b) of this section, the exposure amount for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE amounts for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) *Net current credit exposure.* The net current credit exposure is the greater of the net sum of all positive and negative mark-to-fair values of the individual OTC derivative contracts subject to the qualifying master netting agreement or zero.

(ii) *Adjusted sum of the PFE amounts.* The adjusted sum of the PFE amounts, A_{net} , is calculated as $A_{net} = (0.4 \times A_{gross}) + (0.6 \times NGR \times A_{gross})$,

where:

(A) A_{gross} = the gross PFE (that is, the sum of the PFE amounts as determined under paragraph (a)(1)(ii) of this section for each individual derivative contract subject to the qualifying master netting agreement); and

(B) Net-to-gross Ratio (NGR) = the ratio of the net current credit exposure to the gross current credit exposure. In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (a)(1)(i) of this section) of all individual derivative contracts subject to the qualifying master netting agreement.

(b) *Recognition of credit risk mitigation of collateralized OTC derivative contracts:*

(1) A national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or multiple OTC derivative contracts subject to a qualifying master netting agreement (netting set) by using the simple approach in § 3.37(b).

(2) As an alternative to the simple approach, a national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set if the financial collateral is marked-to-fair value on a daily basis and subject to a daily mar-

gin maintenance requirement by applying a risk weight to the exposure as if it were uncollateralized and adjusting the exposure amount calculated under paragraph (a)(1) or (2) of this section using the collateral haircut approach in § 3.37(c). The national bank or Federal savings association must substitute the exposure amount calculated under paragraph (a)(1) or (2) of this section for ΣE in the equation in § 3.37(c)(2).

(c) *Counterparty credit risk for OTC credit derivatives.* (1) *Protection purchasers.* A national bank or Federal savings association that purchases an OTC credit derivative that is recognized under § 3.36 as a credit risk mitigant for an exposure that is not a covered position under subpart F is not required to compute a separate counterparty credit risk capital requirement under § 3.32 provided that the national bank or Federal savings association does so consistently for all such credit derivatives. The national bank or Federal savings association must either include all or exclude all such credit derivatives that are subject to a qualifying master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(2) *Protection providers.* (i) A national bank or Federal savings association that is the protection provider under an OTC credit derivative must treat the OTC credit derivative as an exposure to the underlying reference asset. The national bank or Federal savings association is not required to compute a counterparty credit risk capital requirement for the OTC credit derivative under § 3.32, provided that this treatment is applied consistently for all such OTC credit derivatives. The national bank or Federal savings association must either include all or exclude all such OTC credit derivatives that are subject to a qualifying master netting agreement from any measure used to determine counterparty credit risk exposure.

(ii) The provisions of this paragraph (c)(2) apply to all relevant counterparties for risk-based capital purposes unless the national bank or Federal savings association is treating the OTC

credit derivative as a covered position under subpart F, in which case the national bank or Federal savings association must compute a supplemental counterparty credit risk capital requirement under this section.

(d) *Counterparty credit risk for OTC equity derivatives.* (1) A national bank or Federal savings association must treat an OTC equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the OTC equity derivative contract under §§ 3.51 through 3.53 (unless the national bank or Federal savings association is treating the contract as a covered position under subpart F of this part).

(2) In addition, the national bank or Federal savings association must also calculate a risk-based capital requirement for the counterparty credit risk of an OTC equity derivative contract under this section if the national bank or Federal savings association is treating the contract as a covered position under subpart F of this part.

(3) If the national bank or Federal savings association risk weights the contract under the Simple Risk-Weight Approach (SRWA) in § 3.52, the national bank or Federal savings association may choose not to hold risk-based capital against the counterparty credit risk of the OTC equity derivative con-

tract, as long as it does so for all such contracts. Where the OTC equity derivative contracts are subject to a qualified master netting agreement, a national bank or Federal savings association using the SRWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

(e) *Clearing member national bank's or Federal savings association's exposure amount.* A clearing member national bank's or Federal savings association's exposure amount for an OTC derivative contract or netting set of OTC derivative contracts where the national bank or Federal savings association is either acting as a financial intermediary and enters into an offsetting transaction with a QCCP or where the national bank or Federal savings association provides a guarantee to the QCCP on the performance of the client equals the exposure amount calculated according to paragraph (a)(1) or (2) of this section multiplied by the scaling factor 0.71. If the national bank or Federal savings association determines that a longer period is appropriate, the national bank or Federal savings association must use a larger scaling factor to adjust for a longer holding period as follows:

$$\text{Scaling factor} = \sqrt{\frac{H}{10}}$$

where

H = the holding period greater than five days. Additionally, the OCC may require the national bank or Federal savings association to set a longer holding period if the OCC determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.

§ 3.35 Cleared transactions.

(a) *General requirements*—(1) *Clearing member clients.* A national bank or Federal savings association that is a clearing member client must use the methodologies described in paragraph (b) of

this section to calculate risk-weighted assets for a cleared transaction.

(2) *Clearing members.* A national bank or Federal savings association that is a clearing member must use the methodologies described in paragraph (c) of this section to calculate its risk-weighted assets for a cleared transaction and paragraph (d) of this section to calculate its risk-weighted assets for its default fund contribution to a CCP.

(b) *Clearing member client national banks or Federal savings associations*—(1) *Risk-weighted assets for cleared transactions.* (i) To determine the risk-weighted asset amount for a cleared transaction, a national bank or Federal

§ 3.35

12 CFR Ch. I (1–1–14 Edition)

savings association that is a clearing member client must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (b)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (b)(3) of this section.

(ii) A clearing member client national bank's or Federal savings association's total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all its cleared transactions.

(2) *Trade exposure amount.* (i) For a cleared transaction that is either a derivative contract or a netting set of derivative contracts, the trade exposure amount equals:

(A) The exposure amount for the derivative contract or netting set of derivative contracts, calculated using the methodology used to calculate exposure amount for OTC derivative contracts under § 3.34; plus

(B) The fair value of the collateral posted by the clearing member client national bank or Federal savings association and held by the CCP, clearing member, or custodian in a manner that is not bankruptcy remote.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, the trade exposure amount equals:

(A) The exposure amount for the repo-style transaction calculated using the methodologies under § 3.37(c); plus

(B) The fair value of the collateral posted by the clearing member client national bank or Federal savings association and held by the CCP, clearing member, or custodian in a manner that is not bankruptcy remote.

(3) *Cleared transaction risk weights.* (i) For a cleared transaction with a QCCP, a clearing member client national bank or Federal savings association must apply a risk weight of:

(A) 2 percent if the collateral posted by the national bank or Federal savings association to the QCCP or clearing member is subject to an arrangement that prevents any losses to the clearing member client national bank or Federal savings association due to the joint default or a concurrent insolvency, liquidation, or receivership proceeding of the clearing member and

any other clearing member clients of the clearing member; and the clearing member client national bank or Federal savings association has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from an event of default or from liquidation, insolvency, or receivership proceedings) the relevant court and administrative authorities would find the arrangements to be legal, valid, binding and enforceable under the law of the relevant jurisdictions; or

(B) 4 percent if the requirements of § 3.35(b)(3)(A) are not met.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member client national bank or Federal savings association must apply the risk weight appropriate for the CCP according to § 3.32.

(4) *Collateral.* (i) Notwithstanding any other requirements in this section, collateral posted by a clearing member client national bank or Federal savings association that is held by a custodian (in its capacity as custodian) in a manner that is bankruptcy remote from the CCP, the custodian, clearing member and other clearing member clients of the clearing member, is not subject to a capital requirement under this section.

(ii) A clearing member client national bank or Federal savings association must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member, or custodian in connection with a cleared transaction in accordance with the requirements under § 3.32.

(c) *Clearing member national banks or Federal savings associations—(1) Risk-weighted assets for cleared transactions.*

(i) To determine the risk-weighted asset amount for a cleared transaction, a clearing member national bank or Federal savings association must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (c)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (c)(3) of this section.

Comptroller of the Currency, Treasury

§ 3.35

(ii) A clearing member national bank's or Federal savings association's total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) *Trade exposure amount.* A clearing member national bank or Federal savings association must calculate its trade exposure amount for a cleared transaction as follows:

(i) For a cleared transaction that is either a derivative contract or a netting set of derivative contracts, the trade exposure amount equals:

(A) The exposure amount for the derivative contract, calculated using the methodology to calculate exposure amount for OTC derivative contracts under § 3.34; plus

(B) The fair value of the collateral posted by the clearing member national bank or Federal savings association and held by the CCP in a manner that is not bankruptcy remote.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals:

(A) The exposure amount for repo-style transactions calculated using methodologies under § 3.37(c); plus

(B) The fair value of the collateral posted by the clearing member national bank or Federal savings association and held by the CCP in a manner that is not bankruptcy remote.

(3) *Cleared transaction risk weight.* (i) A clearing member national bank or Federal savings association must apply a risk weight of 2 percent to the trade exposure amount for a cleared transaction with a QCCP.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member national bank or Federal savings association must apply the risk weight appropriate for the CCP according to § 3.32.

(4) *Collateral.* (i) Notwithstanding any other requirement in this section, collateral posted by a clearing member national bank or Federal savings asso-

ciation that is held by a custodian in a manner that is bankruptcy remote from the CCP is not subject to a capital requirement under this section.

(ii) A clearing member national bank or Federal savings association must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member, or a custodian in connection with a cleared transaction in accordance with requirements under § 3.32.

(d) *Default fund contributions.* (1) *General requirement.* A clearing member national bank or Federal savings association must determine the risk-weighted asset amount for a default fund contribution to a CCP at least quarterly, or more frequently if, in the opinion of the national bank or Federal savings association or the OCC, there is a material change in the financial condition of the CCP.

(2) *Risk-weighted asset amount for default fund contributions to non-qualifying CCPs.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for default fund contributions to CCPs that are not QCCPs equals the sum of such default fund contributions multiplied by 1,250 percent, or an amount determined by the OCC, based on factors such as size, structure and membership characteristics of the CCP and riskiness of its transactions, in cases where such default fund contributions may be unlimited.

(3) *Risk-weighted asset amount for default fund contributions to QCCPs.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for default fund contributions to QCCPs equals the sum of its capital requirement, K_{CM} for each QCCP, as calculated under the methodology set forth in paragraphs (d)(3)(i) through (iii) of this section (Method 1), multiplied by 1,250 percent or in paragraphs (d)(3)(iv) of this section (Method 2).

(i) *Method 1.* The hypothetical capital requirement of a QCCP (K_{CCP}) equals:

$$K_{CCP} = \sum_{\text{clearing member } i} \max (EBRM_i - VM_i - IM_i - DF_i; 0) \times RW \times 0.08$$

§ 3.35

12 CFR Ch. I (1–1–14 Edition)

(A) E_{BRM_i} = the exposure amount for each transaction cleared through the QCCP by clearing member i , calculated in accordance with § 3.34 for OTC derivative contracts and § 3.37(c)(2) for repo-style transactions, provided that:

(1) For purposes of this section, in calculating the exposure amount the national bank or Federal savings association may replace the formula provided in § 3.34(a)(2)(ii) with the following: $A_{net} = (0.15 \times A_{gross}) + (0.85 \times NGR \times A_{gross})$; and

(2) For option derivative contracts that are cleared transactions, the PFE described in § 3.34(a)(1)(ii) must be adjusted by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 1 to § 3.34 and the absolute value of the option's delta, that is, the ratio of the change in the value of the derivative contract to the corresponding change in the price of the underlying asset.

(3) For repo-style transactions, when applying § 3.37(c)(2), the national bank or Federal savings association must use the methodology in § 3.37(c)(3);

(B) VM_i = any collateral posted by clearing member i to the QCCP that it is entitled to receive from the QCCP,

but has not yet received, and any collateral that the QCCP has actually received from clearing member i ;

(C) IM_i = the collateral posted as initial margin by clearing member i to the QCCP;

(D) DF_i = the funded portion of clearing member i 's default fund contribution that will be applied to reduce the QCCP's loss upon a default by clearing member i ;

(E) RW = 20 percent, except when the OCC has determined that a higher risk weight is more appropriate based on the specific characteristics of the QCCP and its clearing members; and

(F) Where a QCCP has provided its K_{CCP} , a national bank or Federal savings association must rely on such disclosed figure instead of calculating K_{CCP} under this paragraph (d), unless the national bank or Federal savings association determines that a more conservative figure is appropriate based on the nature, structure, or characteristics of the QCCP.

(ii) For a national bank or Federal savings association that is a clearing member of a QCCP with a default fund supported by funded commitments, K_{CM} equals:

$$K_{CM_i} = \left(1 + \beta \cdot \frac{N}{N-2}\right) \cdot \frac{DF_i}{DF_{CM}} \cdot K_{CM}^*$$

$$K_{CM}^* = \begin{cases} c_2 \cdot \mu \cdot (K_{CCP} - DF') + c_2 \cdot DF'_{CM} & \text{if } DF' < K_{CCP} & (i) \\ c_2 \cdot (K_{CCP} - DF_{CCP}) + c_1 \cdot (DF' - K_{CCP}) & \text{if } DF_{CCP} < K_{CCP} \leq DF' & (ii) \\ c_1 \cdot DF'_{CM} & \text{if } K_{CCP} \leq DF_{CCP} & (iii) \end{cases}$$

Where

$$(A) \beta = \frac{A_{Net,1} + A_{Net,2}}{\sum_i A_{Net,i}}$$

Subscripts 1 and 2 denote the clearing members with the two largest A_{Net} values. For purposes of this paragraph (d), for derivatives A_{Net} is defined in

§ 3.34(a)(2)(ii) and for repo-style transactions, A_{Net} means the exposure amount as defined in § 3.37(c)(2) using the methodology in § 3.37(c)(3);

Comptroller of the Currency, Treasury

§ 3.35

(B) N = the number of clearing members in the QCCP;

(C) DF_{CCP} = the QCCP's own funds and other financial resources that would be used to cover its losses before clearing members' default fund contributions are used to cover losses;

(D) DF_{CM} = funded default fund contributions from all clearing members and any other clearing member contributed financial resources that are available to absorb mutualized QCCP losses;

(E) $DF = DF_{CCP} + DF_{CM}$ (that is, the total funded default fund contribution);

(F) \overline{DF}_i = average \overline{DF}_i = the average funded default fund contribution from an individual clearing member;

(G) $DF'_{CM} = DF_{CM} - 2 \cdot \overline{DF}_i = \sum_i DF_i - 2 \cdot \overline{DF}_i$ (that is, the funded default fund contribution from surviving clearing members assuming that two average clearing members have defaulted and their default fund contributions and initial margins have been used to absorb the resulting losses);

$$(H) DF' = DF_{CCP} + DF'_{CM} = DF - 2 \cdot \overline{DF}_i$$

(that is, the total funded default fund contributions from the QCCP and the surviving clearing members that are available to mutualize losses, assuming that two average clearing members have defaulted);

$$(I) c_1 = \text{Max} \left\{ \frac{1.6\%}{(DF'/K_{CCP})^{0.3}}; 0.16\% \right\}$$

(that is, a decreasing capital factor, between 1.6 percent and 0.16 percent, applied to the excess funded default funds provided by clearing members);

(J) $c_2 = 100$ percent; and

(K) $\mu = 1.2$;

(iii) (A) For a [BANK] that is a clearing member of a QCCP with a default fund supported by unfunded commitments, K_{CM} equals:

$$K_{CM_i} = \frac{DF_i}{DF_{CM}} \cdot K_{CM}^*$$

§ 3.36

12 CFR Ch. I (1–1–14 Edition)

Where:

(1) DF_i = the national bank's or Federal savings association's unfunded commitment to the default fund;

(2) DF_{CM} = the total of all clearing members' unfunded commitment to the default fund; and

(3) K^*_{CM} as defined in paragraph (d)(3)(ii) of this section.

(B) For a national bank or Federal savings association that is a clearing member of a QCCP with a default fund supported by unfunded commitments and is unable to calculate K_{CM} using the methodology described in paragraph (d)(3)(iii) of this section, K_{CM} equals:

$$K_{CM_i} = \frac{IM_i}{IM_{CM}} \cdot K^*_{CM}$$

Where:

(1) IM_i = the national bank's or Federal savings association's initial margin posted to the QCCP;

(2) IM_{CM} = the total of initial margin posted to the QCCP; and

(3) K^*_{CM} as defined in paragraph (d)(3)(ii) of this section.

(iv) *Method 2.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for its default fund contribution to a QCCP, RWA_{DF} , equals:

$$RWA_{DF} = \text{Min} \{12.5 * DF; 0.18 * TE\}$$

Where:

(A) TE = the national bank's or Federal savings association's trade exposure amount to the QCCP, calculated according to section 35(c)(2);

(B) DF = the funded portion of the national bank's or Federal savings association's default fund contribution to the QCCP.

(4) *Total risk-weighted assets for default fund contributions.* Total risk-weighted assets for default fund contributions is the sum of a clearing member national bank's or Federal savings association's risk-weighted assets for all of its default fund contributions to all CCPs of which the national bank or Federal savings association is a clearing member.

§ 3.36 Guarantees and credit derivatives: substitution treatment.

(a) *Scope—(1) General.* A national bank or Federal savings association may recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative by sub-

stituting the risk weight associated with the protection provider for the risk weight assigned to an exposure, as provided under this section.

(2) This section applies to exposures for which:

(i) Credit risk is fully covered by an eligible guarantee or eligible credit derivative; or

(ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the national bank or Federal savings association and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(3) Exposures on which there is a tranching of credit risk (reflecting at least two different levels of seniority) generally are securitization exposures subject to §§ 3.41 through 3.45.

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in this section, a national bank or Federal savings association may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-weighted asset amount for each separate exposure as described in paragraph (c) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged exposures described in paragraph (a)(2) of this section, a national bank or Federal savings association must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and

must calculate a separate risk-weighted asset amount for each exposure as described in paragraph (c) of this section.

(b) *Rules of recognition.* (1) A national bank or Federal savings association may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A national bank or Federal savings association may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative's reference exposure used for determining the derivative's cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks *pari passu* with, or is subordinated to, the hedged exposure; and

(ii) The reference exposure and the hedged exposure are to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to ensure payments under the credit derivative are triggered when the obligated party of the hedged exposure fails to pay under the terms of the hedged exposure.

(c) *Substitution approach*—(1) *Full coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the exposure amount of the hedged exposure, a national bank or Federal savings association may recognize the guarantee or credit derivative in determining the risk-weighted asset amount for the hedged exposure by substituting the risk weight applicable to the guarantor or credit derivative protection provider under § 3.32 for the risk weight assigned to the exposure.

(2) *Partial coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in §§ 3.36(a) and 3.37(b) and the protection amount (P) of the guarantee or credit derivative is less than the exposure amount of the hedged exposure, the national bank or Federal savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk

mitigation benefit of the guarantee or credit derivative.

(i) The national bank or Federal savings association may calculate the risk-weighted asset amount for the protected exposure under § 3.32, where the applicable risk weight is the risk weight applicable to the guarantor or credit derivative protection provider.

(ii) The national bank or Federal savings association must calculate the risk-weighted asset amount for the unprotected exposure under § 3.32, where the applicable risk weight is that of the unprotected portion of the hedged exposure.

(iii) The treatment provided in this section is applicable when the credit risk of an exposure is covered on a partial pro rata basis and may be applicable when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraphs (d), (e), or (f) of this section.

(d) *Maturity mismatch adjustment.* (1) A national bank or Federal savings association that recognizes an eligible guarantee or eligible credit derivative in determining the risk-weighted asset amount for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligated party of the hedged exposure is scheduled to fulfil its obligation on the hedged exposure. If a credit risk mitigant has embedded options that may reduce its term, the national bank or Federal savings association (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the national bank or Federal savings association (protection purchaser), but the terms of the arrangement at origination of

§ 3.36

12 CFR Ch. I (1–1–14 Edition)

the credit risk mitigant contain a positive incentive for the national bank or Federal savings association to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the national bank or Federal savings association must apply the following adjustment to reduce the effective notional amount of the credit risk mitigant: $P_m = E \times (t - 0.25) / (T - 0.25)$, where:

(i) P_m = effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) E = effective notional amount of the credit risk mitigant;

(iii) t = the lesser of T or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) T = the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) *Adjustment for credit derivatives without restructuring as a credit event.* If a national bank or Federal savings association recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the national bank or Federal savings association must apply the following adjustment to reduce the effective notional amount of the credit derivative: $P_r = P_m \times 0.60$, where:

(1) P_r = effective notional amount of the credit risk mitigant, adjusted for

lack of restructuring event (and maturity mismatch, if applicable); and

(2) P_m = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch, if applicable).

(f) *Currency mismatch adjustment.* (1) If a national bank or Federal savings association recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the national bank or Federal savings association must apply the following formula to the effective notional amount of the guarantee or credit derivative: $P_c = P_r \times (1 - H_{FX})$, where:

(i) P_c = effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);

(ii) P_r = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(iii) H_{FX} = haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A national bank or Federal savings association must set H_{FX} equal to eight percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period. A national bank or Federal savings association qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for the use of its own-estimates haircuts in § 3.37(c)(4).

(3) A national bank or Federal savings association must adjust H_{FX} calculated in paragraph (f)(2) of this section upward if the national bank or Federal savings association revalues the guarantee or credit derivative less frequently than once every 10 business days using the following square root of time formula:

$$H_{FX} = 8\% \sqrt{\frac{T_M}{10}}, \text{ where } T_M \text{ equals the greater of 10 or the number of days between}$$

revaluation.

§ 3.37 Collateralized transactions.

(a) *General.* (1) To recognize the risk-mitigating effects of financial collateral, a national bank or Federal savings association may use:

(i) The simple approach in paragraph (b) of this section for any exposure; or

(ii) The collateral haircut approach in paragraph (c) of this section for repo-style transactions, eligible margin loans, collateralized derivative contracts, and single-product netting sets of such transactions.

(2) A national bank or Federal savings association may use any approach described in this section that is valid for a particular type of exposure or transaction; however, it must use the same approach for similar exposures or transactions.

(b) *The simple approach—(1) General requirements.* (i) A national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures any exposure.

(ii) To qualify for the simple approach, the financial collateral must meet the following requirements:

(A) The collateral must be subject to a collateral agreement for at least the life of the exposure;

(B) The collateral must be revalued at least every six months; and

(C) The collateral (other than gold) and the exposure must be denominated in the same currency.

(2) *Risk weight substitution.* (i) A national bank or Federal savings association may apply a risk weight to the portion of an exposure that is secured by the fair value of financial collateral (that meets the requirements of paragraph (b)(1) of this section) based on the risk weight assigned to the collateral under § 3.32. For repurchase agreements, reverse repurchase agreements, and securities lending and borrowing transactions, the collateral is the instruments, gold, and cash the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction. Except as provided in paragraph (b)(3) of this section, the risk weight assigned to the collateralized portion of the exposure may not be less than 20 percent.

(ii) A national bank or Federal savings association must apply a risk weight to the unsecured portion of the exposure based on the risk weight applicable to the exposure under this subpart.

(3) *Exceptions to the 20 percent risk-weight floor and other requirements.* Notwithstanding paragraph (b)(2)(i) of this section:

(i) A national bank or Federal savings association may assign a zero percent risk weight to an exposure to an OTC derivative contract that is marked-to-market on a daily basis and subject to a daily margin maintenance requirement, to the extent the contract is collateralized by cash on deposit.

(ii) A national bank or Federal savings association may assign a 10 percent risk weight to an exposure to an OTC derivative contract that is marked-to-market daily and subject to a daily margin maintenance requirement, to the extent that the contract is collateralized by an exposure to a sovereign that qualifies for a zero percent risk weight under § 3.32.

(iii) A national bank or Federal savings association may assign a zero percent risk weight to the collateralized portion of an exposure where:

(A) The financial collateral is cash on deposit; or

(B) The financial collateral is an exposure to a sovereign that qualifies for a zero percent risk weight under § 3.32, and the national bank or Federal savings association has discounted the fair value of the collateral by 20 percent.

(c) *Collateral haircut approach—(1) General.* A national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, collateralized derivative contract, or single-product netting set of such transactions, and of any collateral that secures a repo-style transaction that is included in the national bank's or Federal savings association's VaR-based measure under subpart F of this part by using the collateral haircut approach in this section. A national bank or Federal savings association may use the standard supervisory haircuts in paragraph (c)(3) of this section or, with

§ 3.37

12 CFR Ch. I (1–14 Edition)

prior written approval of the OCC, its own estimates of haircuts according to paragraph (c)(4) of this section.

(2) *Exposure amount equation.* A national bank or Federal savings association must determine the exposure amount for an eligible margin loan, repo-style transaction, collateralized derivative contract, or a single-product netting set of such transactions by setting the exposure amount equal to $\max\{0, [(\Sigma E - \Sigma C) + \Sigma(Es \times Hs) + \Sigma(Efx \times Hfx)]\}$, where:

(i)(A) For eligible margin loans and repo-style transactions and netting sets thereof, ΣE equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set)); and

(B) For collateralized derivative contracts and netting sets thereof, ΣE equals the exposure amount of the OTC derivative contract (or netting set) calculated under § 3.34 (a)(1) or (2).

(ii) ΣC equals the value of the collateral (the sum of the current fair values of all instruments, gold and cash the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction (or netting set));

(iii) Es equals the absolute value of the net position in a given instrument or in gold (where the net position in the instrument or gold equals the sum of the current fair values of the instrument or gold the national bank or Fed-

eral savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of that same instrument or gold the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty);

(iv) Hs equals the market price volatility haircut appropriate to the instrument or gold referenced in Es;

(v) Efx equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current fair values of any instruments or cash in the currency the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of any instruments or cash in the currency the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and

(vi) Hfx equals the haircut appropriate to the mismatch between the currency referenced in Efx and the settlement currency.

(3) *Standard supervisory haircuts.* (i) A national bank or Federal savings association must use the haircuts for market price volatility (Hs) provided in Table 1 to § 3.37, as adjusted in certain circumstances in accordance with the requirements of paragraphs (c)(3)(iii) and (iv) of this section.

TABLE 1 TO § 3.37—STANDARD SUPERVISORY MARKET PRICE VOLATILITY HAIRCUTS ¹

Residual maturity	Haircut (in percent) assigned based on:						Investment grade securitization exposures (in percent)
	Sovereign issuers risk weight under § 3.32 (in percent) ²			Non-sovereign issuers risk weight under § 3.32 (in percent)			
	Zero	20 or 50	100	20	50	100	
Less than or equal to 1 year	0.5	1.0	15.0	1.0	2.0	4.0	4.0
Greater than 1 year and less than or equal to 5 years	2.0	3.0	15.0	4.0	6.0	8.0	12.0
Greater than 5 years	4.0	6.0	15.0	8.0	12.0	16.0	24.0
Main index equities (including convertible bonds) and gold	15.0						
Other publicly traded equities (including convertible bonds)	25.0						
Mutual funds	Highest haircut applicable to any security in which the fund can invest.						

TABLE 1 TO § 3.37—STANDARD SUPERVISORY MARKET PRICE VOLATILITY HAIRCUTS¹—Continued

Residual maturity	Haircut (in percent) assigned based on:						Investment grade securitization exposures (in percent)
	Sovereign issuers risk weight under § 3.32 (in percent) ²			Non-sovereign issuers risk weight under § 3.32 (in percent)			
	Zero	20 or 50	100	20	50	100	
Cash collateral held	Zero.						
Other exposure types	25.0						

¹ The market price volatility haircuts in Table 1 to § 3.37 are based on a 10 business-day holding period.
² Includes a foreign PSE that receives a zero percent risk weight.

(ii) For currency mismatches, a national bank or Federal savings association must use a haircut for foreign exchange rate volatility (Hfx) of 8.0 percent, as adjusted in certain circumstances under paragraphs (c)(3)(iii) and (iv) of this section.

(iii) For repo-style transactions, a national bank or Federal savings association may multiply the standard supervisory haircuts provided in paragraphs (c)(3)(i) and (ii) of this section by the square root of ½ (which equals 0.707107).

(iv) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, a national bank or Federal savings association must adjust the supervisory haircuts provided in paragraphs (c)(3)(i) and (ii) of this section upward on the basis of a holding period of twenty business days for the following quarter except in the calculation of the exposure amount for purposes of § 3.35. If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, a national bank or Federal savings association must adjust the supervisory haircuts upward on the basis of a holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the national bank or Federal savings association must adjust the supervisory haircuts upward for that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set. A national bank or Federal savings association must adjust the standard supervisory haircuts upward using the following formula:

$$H_A = H_S \sqrt{\frac{T_M}{T_S}}, \text{ where}$$

(A) T_M equals a holding period of longer than 10 business days for eligible margin loans and derivative contracts or longer than 5 business days for repo-style transactions;

(B) H_S equals the standard supervisory haircut; and

(C) T_S equals 10 business days for eligible margin loans and derivative contracts or 5 business days for repo-style transactions.

(v) If the instrument a national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral does not meet the definition

of financial collateral, the national bank or Federal savings association must use a 25.0 percent haircut for market price volatility (H_S).

(4) *Own internal estimates for haircuts.* With the prior written approval of the OCC, a national bank or Federal savings association may calculate haircuts (H_S and H_{fx}) using its own internal estimates of the volatilities of market prices and foreign exchange rates:

(i) To receive OCC approval to use its own internal estimates, a national bank or Federal savings association

§ 3.37**12 CFR Ch. I (1–1–14 Edition)**

must satisfy the following minimum standards:

(A) A national bank or Federal savings association must use a 99th percentile one-tailed confidence interval.

(B) The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days except for transactions or netting sets for which para-

graph (c)(4)(i)(C) of this section applies. When a national bank or Federal savings association calculates an own-estimates haircut on a T_N -day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (H_M) is calculated using the following square root of time formula:

$$H_M = H_N \sqrt{\frac{T_M}{T_N}}, \text{ where}$$

(1) T_M equals 5 for repo-style transactions and 10 for eligible margin loans;

(2) T_N equals the holding period used by the national bank or Federal savings association to derive H_N ; and

(3) H_N equals the haircut based on the holding period T_N .

(C) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, a national bank or Federal savings association must calculate the haircut using a minimum holding period of twenty business days for the following quarter except in the calculation of the exposure amount for purposes of § 3.35. If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, a national bank or Federal savings association must calculate the haircut using a minimum holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the national bank or Federal savings association must calculate the haircut for transactions in that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set.

(D) A national bank or Federal savings association is required to calculate its own internal estimates with inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the security or category of securities.

(E) A national bank or Federal savings association must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the national bank's or Federal savings association's own internal estimates for haircuts under this section and must be able to provide empirical support for the period used. The national bank or Federal savings association must obtain the prior approval of the OCC for, and notify the OCC if the national bank or Federal savings association makes any material changes to, these policies and procedures.

(F) Nothing in this section prevents the OCC from requiring a national bank or Federal savings association to use a different period of significant financial stress in the calculation of own internal estimates for haircuts.

(G) A national bank or Federal savings association must update its data sets and calculate haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(ii) With respect to debt securities that are investment grade, a national bank or Federal savings association may calculate haircuts for categories of securities. For a category of securities, the national bank or Federal savings association must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the

securities in that category that the national bank or Federal savings association has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the national bank or Federal savings association must at a minimum take into account:

- (A) The type of issuer of the security;
- (B) The credit quality of the security;
- (C) The maturity of the security; and
- (D) The interest rate sensitivity of the security.

(iii) With respect to debt securities that are not investment grade and equity securities, a national bank or Federal savings association must calculate a separate haircut for each individual security.

(iv) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the national bank or Federal savings association must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(v) A national bank's or Federal savings association's own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

RISK-WEIGHTED ASSETS FOR UNSETTLED TRANSACTIONS

§ 3.38 Unsettled transactions.

(a) *Definitions.* For purposes of this section:

(1) *Delivery-versus-payment (DvP) transaction* means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securi-

ties or commodities only if the buyer has made payment.

(2) *Payment-versus-payment (PvP) transaction* means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.

(3) A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.

(4) Positive current exposure of a national bank or Federal savings association for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the national bank or Federal savings association to the counterparty.

(b) *Scope.* This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

(1) Cleared transactions that are marked-to-market daily and subject to daily receipt and payment of variation margin;

(2) Repo-style transactions, including unsettled repo-style transactions;

(3) One-way cash payments on OTC derivative contracts; or

(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts as provided in § 3.34).

(c) *System-wide failures.* In the case of a system-wide failure of a settlement, clearing system or central counterparty, the OCC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) *Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions.* A national bank or Federal savings association must hold risk-based capital against any DvP or PvP transaction with a normal settlement

§§ 3.39–3.40

12 CFR Ch. I (1–1–14 Edition)

period if the national bank’s or Federal savings association’s counterparty has not made delivery or payment within five business days after the settlement date. The national bank or Federal savings association must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the national bank or Federal savings association by the appropriate risk weight in Table 1 to § 3.38.

after counterparty delivery was due, the national bank or Federal savings association must assign a 1,250 percent risk weight to the current fair value of the deliverables owed to the national bank or Federal savings association.

(f) *Total risk-weighted assets for unsettled transactions.* Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

TABLE 1 TO § 3.38—RISK WEIGHTS FOR UNSETTLED DVP AND PVP TRANSACTIONS

Number of business days after contractual settlement date	Risk weight to be applied to positive current exposure (in percent)
From 5 to 15	100.0
From 16 to 30	625.0
From 31 to 45	937.5
46 or more	1,250.0

(e) *Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions.* (1) A national bank or Federal savings association must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the national bank or Federal savings association has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The national bank or Federal savings association must continue to hold risk-based capital against the transaction until the national bank or Federal savings association has received its corresponding deliverables.

§§ 3.39–3.40 [Reserved]

RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

§ 3.41 Operational requirements for securitization exposures.

(a) *Operational criteria for traditional securitizations.* A national bank or Federal savings association that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each condition in this section is satisfied. A national bank or Federal savings association that meets these conditions must hold risk-based capital against any credit risk it retains in connection with the securitization. A national bank or Federal savings association that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(2) From the business day after the national bank or Federal savings association has made its delivery until five business days after the counterparty delivery is due, the national bank or Federal savings association must calculate the risk-weighted asset amount for the transaction by treating the current fair value of the deliverables owed to the national bank or Federal savings association as an exposure to the counterparty and using the applicable counterparty risk weight under § 3.32.

(3) If the national bank or Federal savings association has not received its deliverables by the fifth business day

(1) The exposures are not reported on the national bank’s or Federal savings association’s consolidated balance sheet under GAAP;

(2) The national bank or Federal savings association has transferred to one or more third parties credit risk associated with the underlying exposures;

(3) Any clean-up calls relating to the securitization are eligible clean-up calls; and

(4) The securitization does not:

(1) Include one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contain an early amortization provision.

(b) *Operational criteria for synthetic securitizations.* For synthetic securitizations, a national bank or Federal savings association may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each condition in this paragraph (b) is satisfied. A national bank or Federal savings association that meets these conditions must hold risk-based capital against any credit risk of the exposures it retains in connection with the synthetic securitization. A national bank or Federal savings association that fails to meet these conditions or chooses not to recognize the credit risk mitigant for purposes of this section must instead hold risk-based capital against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is:

(i) Financial collateral;

(ii) A guarantee that meets all criteria as set forth in the definition of “eligible guarantee” in § 3.2, except for the criteria in paragraph (3) of that definition; or

(iii) A credit derivative that meets all criteria as set forth in the definition of “eligible credit derivative” in § 3.2, except for the criteria in paragraph (3) of the definition of “eligible guarantee” in § 3.2.

(2) The national bank or Federal savings association transfers credit risk associated with the underlying exposures to one or more third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:

(i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;

(ii) Require the national bank or Federal savings association to alter or replace the underlying exposures to improve the credit quality of the underlying exposures;

(iii) Increase the national bank’s or Federal savings association’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;

(iv) Increase the yield payable to parties other than the national bank or Federal savings association in response to a deterioration in the credit quality of the underlying exposures; or

(v) Provide for increases in a retained first loss position or credit enhancement provided by the national bank or Federal savings association after the inception of the securitization;

(3) The national bank or Federal savings association obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and

(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

(c) *Due diligence requirements for securitization exposures.* (1) Except for exposures that are deducted from common equity tier 1 capital and exposures subject to § 3.42(h), if a national bank or Federal savings association is unable to demonstrate to the satisfaction of the OCC a comprehensive understanding of the features of a securitization exposure that would materially affect the performance of the exposure, the national bank or Federal savings association must assign the securitization exposure a risk weight of 1,250 percent. The national bank’s or Federal savings association’s analysis must be commensurate with the complexity of the securitization exposure and the materiality of the exposure in relation to its capital.

(2) A national bank or Federal savings association must demonstrate its comprehensive understanding of a securitization exposure under paragraph (c)(1) of this section, for each securitization exposure by:

(i) Conducting an analysis of the risk characteristics of a securitization exposure prior to acquiring the exposure, and documenting such analysis within three business days after acquiring the exposure, considering:

(A) Structural features of the securitization that would materially impact the performance of the exposure, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, fair value triggers, the

performance of organizations that service the exposure, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average LTV ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spread, most recent sales price and historic price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For rescuitization exposures, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under paragraph (c)(1) of this section for each securitization exposure.

§ 3.42 Risk-weighted assets for securitization exposures.

(a) *Securitization risk weight approaches.* Except as provided elsewhere in this section or in § 3.41:

(1) A national bank or Federal savings association must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from a securitization and apply a 1,250 percent risk weight to the portion of a CEIO that does not constitute after-tax gain-on-sale.

(2) If a securitization exposure does not require deduction under paragraph (a)(1) of this section, a national bank or Federal savings association may assign a risk weight to the securitization exposure using the simplified supervisory formula approach (SSFA) in accordance with §§ 3.43(a) through 3.43(d) and subject to the limitation under paragraph (e) of this section. Alternatively, a national bank or Federal

savings association that is not subject to subpart F of this part may assign a risk weight to the securitization exposure using the gross-up approach in accordance with § 3.43(e), provided, however, that such national bank or Federal savings association must apply either the SSFA or the gross-up approach consistently across all of its securitization exposures, except as provided in paragraphs (a)(1), (a)(3), and (a)(4) of this section.

(3) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and the national bank or Federal savings association cannot, or chooses not to apply the SSFA or the gross-up approach to the exposure, the national bank or Federal savings association must assign a risk weight to the exposure as described in § 3.44.

(4) If a securitization exposure is a derivative contract (other than protection provided by a national bank or Federal savings association in the form of a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), a national bank or Federal savings association may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (c) of this section.

(b) *Total risk-weighted assets for securitization exposures.* A national bank's or Federal savings association's total risk-weighted assets for securitization exposures equals the sum of the risk-weighted asset amount for securitization exposures that the national bank or Federal savings association risk weights under §§ 3.41(c), 3.42(a)(1), and 3.43, 3.44, or 3.45, and paragraphs (e) through (j) of this section, as applicable.

(c) *Exposure amount of a securitization exposure—(1) On-balance sheet securitization exposures.* The exposure amount of an on-balance sheet securitization exposure (excluding an available-for-sale or held-to-maturity security where the national bank or Federal savings association has made an AOCI opt-out election under

§ 3.22(b)(2), a repo-style transaction, eligible margin loan, OTC derivative contract, or cleared transaction) is equal to the carrying value of the exposure.

(2) *On-balance sheet securitization exposures held by a national bank or Federal savings association that has made an AOCI opt-out election.* The exposure amount of an on-balance sheet securitization exposure that is an available-for-sale or held-to-maturity security held by a national bank or Federal savings association that has made an AOCI opt-out election under § 3.22(b)(2) is the national bank's or Federal savings association's carrying value (including net accrued but unpaid interest and fees), less any net unrealized gains on the exposure and plus any net unrealized losses on the exposure.

(3) *Off-balance sheet securitization exposures.* (i) Except as provided in paragraph (j) of this section, the exposure amount of an off-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, cleared transaction (other than a credit derivative), or an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance sheet securitization exposure to an ABCP program, such as an eligible ABCP liquidity facility, the notional amount may be reduced to the maximum potential amount that the national bank or Federal savings association could be required to fund given the ABCP program's current underlying assets (calculated without regard to the current credit quality of those assets).

(ii) A national bank or Federal savings association must determine the exposure amount of an eligible ABCP liquidity facility for which the SSFA does not apply by multiplying the notional amount of the exposure by a CCF of 50 percent.

(iii) A national bank or Federal savings association must determine the exposure amount of an eligible ABCP liquidity facility for which the SSFA applies by multiplying the notional amount of the exposure by a CCF of 100 percent.

(4) *Repo-style transactions, eligible margin loans, and derivative contracts.* The exposure amount of a securitization ex-

posure that is a repo-style transaction, eligible margin loan, or derivative contract (other than a credit derivative) is the exposure amount of the transaction as calculated under § 3.34 or § 3.37, as applicable.

(d) *Overlapping exposures.* If a national bank or Federal savings association has multiple securitization exposures that provide duplicative coverage to the underlying exposures of a securitization (such as when a national bank or Federal savings association provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the national bank or Federal savings association is not required to hold duplicative risk-based capital against the overlapping position. Instead, the national bank or Federal savings association may apply to the overlapping position the applicable risk-based capital treatment that results in the highest risk-based capital requirement.

(e) *Implicit support.* If a national bank or Federal savings association provides support to a securitization in excess of the national bank's or Federal savings association's contractual obligation to provide credit support to the securitization (implicit support):

(1) The national bank or Federal savings association must include in risk-weighted assets all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(2) The national bank or Federal savings association must disclose publicly:

(i) That it has provided implicit support to the securitization; and

(ii) The risk-based capital impact to the national bank or Federal savings association of providing such implicit support.

(f) *Undrawn portion of a servicer cash advance facility.* (1) Notwithstanding any other provision of this subpart, a national bank or Federal savings association that is a servicer under an eligible servicer cash advance facility is not required to hold risk-based capital against potential future cash advance payments that it may be required to

§3.42

12 CFR Ch. I (1–1–14 Edition)

provide under the contract governing the facility.

(2) For a national bank or Federal savings association that acts as a servicer, the exposure amount for a servicer cash advance facility that is not an eligible servicer cash advance facility is equal to the amount of all potential future cash advance payments that the national bank or Federal savings association may be contractually required to provide during the subsequent 12 month period under the contract governing the facility.

(g) *Interest-only mortgage-backed securities.* Regardless of any other provisions in this subpart, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(h) *Small-business loans and leases on personal property transferred with retained contractual exposure.* (1) Regardless of any other provision of this subpart, a national bank or Federal savings association that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only its contractual exposure to the small-business obligations if all the following conditions are met:

(i) The transaction must be treated as a sale under GAAP.

(ii) The national bank or Federal savings association establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the national bank's or Federal savings association's reasonably estimated liability under the contractual obligation.

(iii) The small-business obligations are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632 et seq.).

(iv) The national bank or Federal savings association is well capitalized, as defined in 12 CFR 6.4. For purposes of determining whether a national bank or Federal savings association is well capitalized for purposes of this paragraph (h), the national bank's or Federal savings association's capital ratios must be calculated without regard to the capital treatment for trans-

fers of small-business obligations under this paragraph (h).

(2) The total outstanding amount of contractual exposure retained by a national bank or Federal savings association on transfers of small-business obligations receiving the capital treatment specified in paragraph (h)(1) of this section cannot exceed 15 percent of the national bank's or Federal savings association's total capital.

(3) If a national bank or Federal savings association ceases to be well capitalized under 12 CFR 6.4 or exceeds the 15 percent capital limitation provided in paragraph (h)(2) of this section, the capital treatment under paragraph (h)(1) of this section will continue to apply to any transfers of small-business obligations with retained contractual exposure that occurred during the time that the national bank or Federal savings association was well capitalized and did not exceed the capital limit.

(4) The risk-based capital ratios of the national bank or Federal savings association must be calculated without regard to the capital treatment for transfers of small-business obligations specified in paragraph (h)(1) of this section for purposes of:

(i) Determining whether a national bank or Federal savings association is adequately capitalized, undercapitalized, significantly undercapitalized, or critically undercapitalized under the OCC's prompt corrective action regulations; and

(ii) Reclassifying a well-capitalized national bank or Federal savings association to adequately capitalized and requiring an adequately capitalized national bank or Federal savings association to comply with certain mandatory or discretionary supervisory actions as if the national bank or Federal savings association were in the next lower prompt-corrective-action category.

(i) *Nth-to-default credit derivatives*—(1) *Protection provider.* A national bank or Federal savings association may assign a risk weight using the SSFA in §3.43 to an nth-to-default credit derivative in accordance with this paragraph (i). A national bank or Federal savings association must determine its exposure in the nth-to-default credit derivative as

the largest notional amount of all the underlying exposures.

(2) For purposes of determining the risk weight for an n^{th} -to-default credit derivative using the SSFA, the national bank or Federal savings association must calculate the attachment point and detachment point of its exposure as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the national bank's or Federal savings association's exposure to the total notional amount of all underlying exposures. The ratio is expressed as a decimal value between zero and one. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the national bank's or Federal savings association's exposure. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) notional amounts of the underlying exposure(s) are subordinated to the national bank's or Federal savings association's exposure.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the national bank's or Federal savings association's exposure in the n^{th} -to-default credit derivative to the total notional amount of all underlying exposures. The ratio is expressed as a decimal value between zero and one.

(3) A national bank or Federal savings association that does not use the SSFA to determine a risk weight for its n^{th} -to-default credit derivative must assign a risk weight of 1,250 percent to the exposure.

(4) *Protection purchaser*—(i) *First-to-default credit derivatives*. A national bank or Federal savings association that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative that meets the rules of recognition of § 3.36(b) must determine its risk-based capital requirement for the underlying exposures as if the national bank or Federal savings association synthetically securitized the underlying exposure with the smallest risk-weighted asset amount and had obtained no credit risk mitigant on the other underlying exposures. A national

bank or Federal savings association must calculate a risk-based capital requirement for counterparty credit risk according to § 3.34 for a first-to-default credit derivative that does not meet the rules of recognition of § 3.36(b).

(ii) *Second-or-subsequent-to-default credit derivatives*. (A) A national bank or Federal savings association that obtains credit protection on a group of underlying exposures through a n^{th} -to-default credit derivative that meets the rules of recognition of § 3.36(b) (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

(1) The national bank or Federal savings association also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or

(2) If n-1 of the underlying exposures have already defaulted.

(B) If a national bank or Federal savings association satisfies the requirements of paragraph (i)(4)(ii)(A) of this section, the national bank or Federal savings association must determine its risk-based capital requirement for the underlying exposures as if the national bank or Federal savings association had only synthetically securitized the underlying exposure with the n^{th} smallest risk-weighted asset amount and had obtained no credit risk mitigant on the other underlying exposures.

(C) A national bank or Federal savings association must calculate a risk-based capital requirement for counterparty credit risk according to § 3.34 for a n^{th} -to-default credit derivative that does not meet the rules of recognition of § 3.36(b).

(j) *Guarantees and credit derivatives other than n^{th} -to-default credit derivatives*—(1) *Protection provider*. For a guarantee or credit derivative (other than an n^{th} -to-default credit derivative) provided by a national bank or Federal savings association that covers the full amount or a pro rata share of a securitization exposure's principal and interest, the national bank or Federal savings association must risk weight the guarantee or credit derivative as if it holds the portion of the reference exposure covered by the guarantee or credit derivative.

§ 3.43

12 CFR Ch. I (1–1–14 Edition)

(2) *Protection purchaser.* (i) A national bank or Federal savings association that purchases a guarantee or OTC credit derivative (other than an nth-to-default credit derivative) that is recognized under § 3.45 as a credit risk mitigant (including via collateral recognized under § 3.37) is not required to compute a separate counterparty credit risk capital requirement under § 3.31, in accordance with 34(c).

(ii) If a national bank or Federal savings association cannot, or chooses not to, recognize a purchased credit derivative as a credit risk mitigant under § 3.45, the national bank or Federal savings association must determine the exposure amount of the credit derivative under § 3.34.

(A) If the national bank or Federal savings association purchases credit protection from a counterparty that is not a securitization SPE, the national bank or Federal savings association must determine the risk weight for the exposure according to general risk weights under § 3.32.

(B) If the national bank or Federal savings association purchases the credit protection from a counterparty that is a securitization SPE, the national bank or Federal savings association must determine the risk weight for the exposure according to section § 3.42, including § 3.42(a)(4) for a credit derivative that has a first priority claim on the cash flows from the underlying exposures of the securitization SPE (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments).

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§ 3.43 Simplified supervisory formula approach (SSFA) and the gross-up approach.

(a) *General requirements for the SSFA.* To use the SSFA to determine the risk weight for a securitization exposure, a national bank or Federal savings association must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data; if the contracts governing the underlying exposures of the securitization

require payments on a monthly or quarterly basis, the data used to assign the parameters described in paragraph (b) of this section must be no more than 91 calendar days old. A national bank or Federal savings association that does not have the appropriate data to assign the parameters described in paragraph (b) of this section must assign a risk weight of 1,250 percent to the exposure.

(b) *SSFA parameters.* To calculate the risk weight for a securitization exposure using the SSFA, a national bank or Federal savings association must have accurate information on the following five inputs to the SSFA calculation:

(1) K_G is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using this subpart. K_G is expressed as a decimal value between zero and one (that is, an average risk weight of 100 percent represents a value of K_G equal to 0.08).

(2) Parameter W is expressed as a decimal value between zero and one. Parameter W is the ratio of the sum of the dollar amounts of any underlying exposures of the securitization that meet any of the criteria as set forth in paragraphs (b)(2)(i) through (vi) of this section to the balance, measured in dollars, of underlying exposures:

- (i) Ninety days or more past due;
- (ii) Subject to a bankruptcy or insolvency proceeding;
- (iii) In the process of foreclosure;
- (iv) Held as real estate owned;
- (v) Has contractually deferred payments for 90 days or more, other than principal or interest payments deferred on:

(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or

(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or

- (vi) Is in default.

(3) Parameter A is the attachment point for the exposure, which represents the threshold at which credit losses will first be allocated to the exposure. Except as provided in § 3.42(i) for n^{th} -to-default credit derivatives, parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the exposure of the national bank or Federal savings association to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the national bank's or Federal savings association's securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the exposure, which represents the threshold at which credit losses of principal allocated to the exposure would result in a total loss of principal. Except as provided in section 42(i) for n^{th} -to-default credit derivatives, parameter D equals parameter A plus the ratio of the current dollar amount of the securitization exposures that are *pari passu* with the exposure (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p , is equal to 0.5 for securitization

exposures that are not resecuritization exposures and equal to 1.5 for resecuritization exposures.

(c) *Mechanics of the SSFA.* K_G and W are used to calculate K_A , the augmented value of K_G , which reflects the observed credit quality of the underlying exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the risk weight assigned to a securitization exposure as described in paragraph (d) of this section. The risk weight assigned to a securitization exposure, or portion of a securitization exposure, as appropriate, is the larger of the risk weight determined in accordance with this paragraph (c) or paragraph (d) of this section and a risk weight of 20 percent.

(1) When the detachment point, parameter D, for a securitization exposure is less than or equal to K_A , the exposure must be assigned a risk weight of 1,250 percent.

(2) When the attachment point, parameter A, for a securitization exposure is greater than or equal to K_A , the national bank or Federal savings association must calculate the risk weight in accordance with paragraph (d) of this section.

(3) When A is less than K_A and D is greater than K_A , the risk weight is a weighted-average of 1,250 percent and 1,250 percent times K_{SSFA} calculated in accordance with paragraph (d) of this section. For the purpose of this weighted-average calculation:

(i) The weight assigned to 1,250 percent equals $\frac{K_A - A}{D - A}$.

(ii) The weight assigned to 1,250 percent times K_{SSFA} equals $\frac{D - K_A}{D - A}$.

(iii) The risk weight will be set equal to:

$$RW = \left[\left(\frac{K_A - A}{D - A} \right) \cdot 1,250 \text{ percent} \right] + \left[\left(\frac{D - K_A}{D - A} \right) \cdot 1,250 \text{ percent} \cdot K_{SSFA} \right]$$

(d) SSFA equation. (1) The [BANK] must define the following parameters:

$$K_A = (1 - W) \cdot K_G + (0.5 \cdot W)$$

$$a = -\frac{1}{p \cdot K_A}$$

$$u = D - K_A$$

$$l = \max(A - K_A, 0)$$

$e = 2.71828$, the base of the natural logarithms.

(2) Then the [BANK] must calculate K_{SSFA} according to the following equation:

$$K_{SSFA} = \frac{e^{a \cdot u} - e^{a \cdot l}}{a(u - l)}$$

(3) The risk weight for the exposure (expressed as a percent) is equal to

$$K_{SSFA} \times 1,250.$$

(e) *Gross-up approach*—(1) *Applicability.* A national bank or Federal savings association that is not subject to subpart F of this part may apply the gross-up approach set forth in this section instead of the SSFA to determine the risk weight of its securitization exposures, provided that it applies the gross-up approach to all of its securitization exposures, except as oth-

erwise provided for certain securitization exposures in §§3.44 and 3.45.

(2) To use the gross-up approach, a national bank or Federal savings association must calculate the following four inputs:

(i) Pro rata share, which is the par value of the national bank's or Federal

savings association's securitization exposure as a percent of the par value of the tranche in which the securitization exposure resides;

(ii) Enhanced amount, which is the par value of tranches that are more senior to the tranche in which the national bank's or Federal savings association's securitization resides;

(iii) Exposure amount of the national bank's or Federal savings association's securitization exposure calculated under § 3.42(c); and

(iv) Risk weight, which is the weighted-average risk weight of underlying exposures of the securitization as calculated under this subpart.

(3) *Credit equivalent amount.* The credit equivalent amount of a securitization exposure under this section equals the sum of:

(i) The exposure amount of the national bank's or Federal savings association's securitization exposure; and

(ii) The pro rata share multiplied by the enhanced amount, each calculated in accordance with paragraph (e)(2) of this section.

(4) *Risk-weighted assets.* To calculate risk-weighted assets for a securitization exposure under the gross-up approach, a national bank or Federal savings association must apply the risk weight required under paragraph (e)(2) of this section to the credit equivalent amount calculated in paragraph (e)(3) of this section.

(f) *Limitations.* Notwithstanding any other provision of this section, a national bank or Federal savings association must assign a risk weight of not less than 20 percent to a securitization exposure.

§ 3.44 Securitization exposures to which the SSFA and gross-up approach do not apply.

(a) *General requirement.* A national bank or Federal savings association must assign a 1,250 percent risk weight to all securitization exposures to which the national bank or Federal savings association does not apply the SSFA or the gross-up approach under § 3.43, except as set forth in this section.

(b) *Eligible ABCP liquidity facilities.* A national bank or Federal savings association may determine the risk-weighted asset amount of an eligible ABCP li-

quidity facility by multiplying the exposure amount by the highest risk weight applicable to any of the individual underlying exposures covered by the facility.

(c) *A securitization exposure in a second loss position or better to an ABCP program—(1) Risk weighting.* A national bank or Federal savings association may determine the risk-weighted asset amount of a securitization exposure that is in a second loss position or better to an ABCP program that meets the requirements of paragraph (c)(2) of this section by multiplying the exposure amount by the higher of the following risk weights:

(i) 100 percent; and

(ii) The highest risk weight applicable to any of the individual underlying exposures of the ABCP program.

(2) *Requirements.* (i) The exposure is not an eligible ABCP liquidity facility;

(ii) The exposure must be economically in a second loss position or better, and the first loss position must provide significant credit protection to the second loss position;

(iii) The exposure qualifies as investment grade; and

(iv) The national bank or Federal savings association holding the exposure must not retain or provide protection to the first loss position.

§ 3.45 Recognition of credit risk mitigants for securitization exposures.

(a) *General.* (1) An originating national bank or Federal savings association that has obtained a credit risk mitigant to hedge its exposure to a synthetic or traditional securitization that satisfies the operational criteria provided in § 3.41 may recognize the credit risk mitigant under §§ 3.36 or 3.37, but only as provided in this section.

(2) An investing national bank or Federal savings association that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant under §§ 3.36 or 3.37, but only as provided in this section.

(b) *Mismatches.* A national bank or Federal savings association must make

any applicable adjustment to the protection amount of an eligible guarantee or credit derivative as required in §3.36(d), (e), and (f) for any hedged securitization exposure. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the national bank or Federal savings association must use the longest residual maturity of any of the hedged exposures as the residual maturity of all hedged exposures.

§§ 3.46–3.50 [Reserved]

RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

§ 3.51 Introduction and exposure measurement.

(a) *General.* (1) To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to an investment fund, a national bank or Federal savings association must use the Simple Risk-Weight Approach (SRWA) provided in 3.52. A national bank or Federal savings association must use the look-through approaches provided in §3.53 to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(2) A national bank or Federal savings association must treat an investment in a separate account (as defined in §3.2) as if it were an equity exposure to an investment fund as provided in §3.53.

(3) *Stable value protection.* (i) Stable value protection means a contract where the provider of the contract is obligated to pay:

(A) The policy owner of a separate account an amount equal to the shortfall between the fair value and cost basis of the separate account when the policy owner of the separate account surrenders the policy; or

(B) The beneficiary of the contract an amount equal to the shortfall between the fair value and book value of a specified portfolio of assets.

(ii) A national bank or Federal savings association that purchases stable value protection on its investment in a separate account must treat the portion of the carrying value of its investment in the separate account attrib-

utable to the stable value protection as an exposure to the provider of the protection and the remaining portion of the carrying value of its separate account as an equity exposure to an investment fund.

(iii) A national bank or Federal savings association that provides stable value protection must treat the exposure as an equity derivative with an adjusted carrying value determined as the sum of paragraphs (b)(1) and (3) of this section.

(b) *Adjusted carrying value.* For purposes of §§3.51 through 3.53, the adjusted carrying value of an equity exposure is:

(1) For the on-balance sheet component of an equity exposure (other than an equity exposure that is classified as available-for-sale where the national bank or Federal savings association has made an AOCI opt-out election under §3.22(b)(2)), the national bank's or Federal savings association's carrying value of the exposure;

(2) For the on-balance sheet component of an equity exposure that is classified as available-for-sale where the national bank or Federal savings association has made an AOCI opt-out election under §3.22(b)(2), the national bank's or Federal savings association's carrying value of the exposure less any net unrealized gains on the exposure that are reflected in such carrying value but excluded from the national bank's or Federal savings association's regulatory capital components;

(3) For the off-balance sheet component of an equity exposure that is not an equity commitment, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) given a small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet component of the exposure as calculated in paragraph (b)(1) of this section; and

(4) For a commitment to acquire an equity exposure (an equity commitment), the effective notional principal amount of the exposure is multiplied

by the following conversion factors (CFs):

- (i) Conditional equity commitments with an original maturity of one year or less receive a CF of 20 percent.
- (ii) Conditional equity commitments with an original maturity of over one year receive a CF of 50 percent.
- (iii) Unconditional equity commitments receive a CF of 100 percent.

§3.52 Simple risk-weight approach (SRWA).

(a) *General.* Under the SRWA, a national bank's or Federal savings association's total risk-weighted assets for equity exposures equals the sum of the risk-weighted asset amounts for each of the national bank's or Federal savings association's individual equity exposures (other than equity exposures to an investment fund) as determined under this section and the risk-weighted asset amounts for each of the national bank's or Federal savings association's individual equity exposures to an investment fund as determined under §3.53.

(b) *SRWA computation for individual equity exposures.* A national bank or Federal savings association must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this paragraph (b).

(1) *Zero percent risk weight equity exposures.* An equity exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, an MDB, and any other entity whose credit exposures receive a zero percent risk weight under §3.32 may be assigned a zero percent risk weight.

(2) *20 percent risk weight equity exposures.* An equity exposure to a PSE, Federal Home Loan Bank or the Federal Agricultural Mortgage Corporation (Farmer Mac) must be assigned a 20 percent risk weight.

(3) *100 percent risk weight equity exposures.* The equity exposures set forth in

this paragraph (b)(3) must be assigned a 100 percent risk weight.

(i) *Community development equity exposures.* An equity exposure that qualifies as a community development investment under section 24 (Eleventh) of the National Bank Act, excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act.

(ii) *Effective portion of hedge pairs.* The effective portion of a hedge pair.

(iii) *Non-significant equity exposures.* Equity exposures, excluding significant investments in the capital of an unconsolidated financial institution in the form of common stock and exposures to an investment firm that would meet the definition of a traditional securitization were it not for the application of paragraph (8) of that definition in §3.2 and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the national bank's or Federal savings association's total capital.

(A) To compute the aggregate adjusted carrying value of a national bank's or Federal savings association's equity exposures for purposes of this section, the national bank or Federal savings association may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a national bank or Federal savings association does not know the actual holdings of the investment fund, the national bank or Federal savings association may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund's permissible investments. If the sum of the investment limits for all exposure classes within

the fund exceeds 100 percent, the national bank or Federal savings association must assume for purposes of this section that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a national bank's or Federal savings association's equity exposures qualify for a 100 percent risk weight under this paragraph (b), a national bank or Federal savings association first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act, then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) *250 percent risk weight equity exposures.* Significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted from capital pursuant to § 3.22(d) are assigned a 250 percent risk weight.

(5) *300 percent risk weight equity exposures.* A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(7) of this section and including the ineffective portion of a hedge pair) must be assigned a 300 percent risk weight.

(6) *400 percent risk weight equity exposures.* An equity exposure (other than an equity exposure described in paragraph (b)(7)) of this section that is not publicly traded must be assigned a 400 percent risk weight.

(7) *600 percent risk weight equity exposures.* An equity exposure to an investment firm must be assigned a 600 percent risk weight, provided that the investment firm:

(i) Would meet the definition of a traditional securitization were it not

for the application of paragraph (8) of that definition; and

(ii) Has greater than immaterial leverage.

(c) *Hedge transactions*—(1) *Hedge pair.* A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) *Effective hedge.* Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the national bank or Federal savings association acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the national bank or Federal savings association will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. A national bank or Federal savings association must measure E at least quarterly and must use one of three alternative measures of E as set forth in this paragraph (c).

(i) Under the dollar-offset method of measuring effectiveness, the national bank or Federal savings association must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the changes in value of one equity exposure to the cumulative sum of the changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and E equals 0. If RVC is negative and greater than or equal to -1 (that is, between zero and -1), then E equals the absolute value of RVC. If RVC is negative and less than -1 , then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:

$$E = 1 - \frac{\sum_{t=1}^T (X_t - X_{t-1})^2}{\sum_{t=1}^T (A_t - A_{t-1})^2}, \text{ where}$$

- (A) $X_t = A_t - B_t$;
- (B) $A_t =$ the value at time t of one exposure in a hedge pair; and
- (C) $B_t =$ the value at time t of the other exposure in a hedge pair.

(iii) Under the regression method of measuring effectiveness, E equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then E equals zero.

(3) The effective portion of a hedge pair is E multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is (1-E) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

§ 3.53 Equity exposures to investment funds.

(a) *Available approaches.* (1) Unless the exposure meets the requirements for a community development equity exposure under § 3.52(b)(3)(i), a national bank or Federal savings association must determine the risk-weighted asset amount of an equity exposure to an investment fund under the full look-through approach described in paragraph (b) of this section, the simple modified look-through approach described in paragraph (c) of this section, or the alternative modified look-through approach described paragraph (d) of this section, provided, however, that the minimum risk weight that may be assigned to an equity exposure under this section is 20 percent.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in § 3.52(b)(3)(i) is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the national bank or Federal savings association does not use the full look-through approach, the national bank or Federal savings association must use the ineffective portion of the hedge pair as determined under § 3.52(c) as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) *Full look-through approach.* A national bank or Federal savings association that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this subpart as if the proportional ownership share of the adjusted carrying value of each exposure were held directly by the national bank or Federal savings association) may set the risk-weighted asset amount of the national bank's or Federal savings association's exposure to the fund equal to the product of:

(1) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by

§§ 3.54–3.60

the national bank or Federal savings association; and

(2) The national bank's or Federal savings association's proportional ownership share of the fund.

(c) *Simple modified look-through approach.* Under the simple modified look-through approach, the risk-weighted asset amount for a national bank's or Federal savings association's equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight that applies to any exposure the fund is permitted to hold under the prospectus, partnership agreement, or similar agreement that defines the fund's permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund's exposures).

(d) *Alternative modified look-through approach.* Under the alternative modified look-through approach, a national bank or Federal savings association may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories under this subpart based on the investment limits in the fund's prospectus, partnership agreement, or similar contract that defines the fund's permissible investments. The risk-weighted asset amount for the national bank's or Federal savings association's equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure type multiplied by the applicable risk weight under this subpart. If the sum of the investment limits for all exposure types within the fund exceeds 100 percent, the national bank or Federal savings association must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure type with the highest applicable risk weight under this subpart and continues to make investments in order of the exposure type with the next highest applicable risk weight under this subpart until the maximum total investment level is reached. If more than one exposure type applies to an exposure, the national bank or Federal savings associa-

12 CFR Ch. I (1–1–14 Edition)

tion must use the highest applicable risk weight. A national bank or Federal savings association may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund's exposures.

§§ 3.54–3.60 [Reserved]

DISCLOSURES

§ 3.61 Purpose and scope.

Sections 3.61–3.63 of this subpart establish public disclosure requirements related to the capital requirements described in subpart B of this part for a national bank or Federal savings association with total consolidated assets of \$50 billion or more as reported on the national bank's or Federal savings association's most recent year-end Call Report that is not an advanced approaches national bank or Federal savings association making public disclosures pursuant to §3.172. An advanced approaches national bank or Federal savings association that has not received approval from the OCC to exit parallel run pursuant to §3.121(d) is subject to the disclosure requirements described in §§3.62 and 3.63. Such a national bank or Federal savings association must comply with §3.62 unless it is a consolidated subsidiary of a bank holding company, savings and loan holding company, or depository institution that is subject to these disclosure requirements or a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. For purposes of this section, total consolidated assets are determined based on the average of the national bank's or Federal savings association's total consolidated assets in the four most recent quarters as reported on the Call Report; or the average of the national bank's or Federal savings association's total consolidated assets in the most recent consecutive quarters as reported quarterly on the national bank's or Federal savings association's Call Report if the national bank or Federal savings association has not filed such a report for each of the most recent four quarters.

§ 3.62 Disclosure requirements.

(a) A national bank or Federal savings association described in § 3.61 must provide timely public disclosures each calendar quarter of the information in the applicable tables in § 3.63. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the national bank's or Federal savings association's capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be disclosed as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the national bank's or Federal savings association's risk management objectives and policies, reporting system, and definitions) may be disclosed annually after the end of the fourth calendar quarter, provided that any significant changes are disclosed in the interim. The national bank's or Federal savings association's management may provide all of the disclosures required by §§ 3.61 through 3.63 in one place on the national bank's or Federal savings association's public Web site or may provide the disclosures in more than one public financial report or other regulatory reports, provided that the national bank or Federal savings association publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(b) A national bank or Federal savings association described in § 3.61 must have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this subpart, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the national bank or Federal savings association must attest that the disclosures meet the requirements of this subpart.

(c) If a national bank or Federal savings association described in § 3.61 concludes that specific commercial or financial information that it would otherwise be required to disclose under this section would be exempt from disclosure by the OCC under the Freedom of Information Act (5 U.S.C. 552), then the national bank or Federal savings association is not required to disclose that specific information pursuant to this section, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

§ 3.63 Disclosures by national banks or Federal savings associations described in § 3.61.

(a) Except as provided in § 3.62, a national bank or Federal savings association described in § 3.61 must make the disclosures described in Tables 1 through 10 of this section. The national bank or Federal savings association must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period beginning on January 1, 2015.

(b) A national bank or Federal savings association must publicly disclose each quarter the following:

(1) Common equity tier 1 capital, additional tier 1 capital, tier 2 capital, tier 1 and total capital ratios, including the regulatory capital elements and all the regulatory adjustments and deductions needed to calculate the numerator of such ratios;

(2) Total risk-weighted assets, including the different regulatory adjustments and deductions needed to calculate total risk-weighted assets;

(3) Regulatory capital ratios during any transition periods, including a description of all the regulatory capital elements and all regulatory adjustments and deductions needed to calculate the numerator and denominator of each capital ratio during any transition period; and

(4) A reconciliation of regulatory capital elements as they relate to its balance sheet in any audited consolidated financial statements.

TABLE 1 TO § 3.63—SCOPE OF APPLICATION

Qualitative Disclosures	(a)	The name of the top corporate entity in the group to which subpart D of this part applies.
	(b)	A brief description of the differences in the basis for consolidating entities ¹ for accounting and regulatory purposes, with a description of those entities: (1) That are fully consolidated; (2) That are deconsolidated and deducted from total capital; (3) For which the total capital requirement is deducted; and (4) That are neither consolidated nor deducted (for example, where the investment in the entity is assigned a risk weight in accordance with this subpart).
	(c)	Any restrictions, or other major impediments, on transfer of funds or total capital within the group.
	(d)	The aggregate amount of surplus capital of insurance subsidiaries included in the total capital of the consolidated group.
	(e)	The aggregate amount by which actual total capital is less than the minimum total capital requirement in all subsidiaries, with total capital requirements and the name(s) of the subsidiaries with such deficiencies.

¹ Entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

TABLE 2 TO § 3.63—CAPITAL STRUCTURE

Qualitative Disclosures	(a)	Summary information on the terms and conditions of the main features of all regulatory capital instruments.
Quantitative Disclosures	(b)	The amount of common equity tier 1 capital, with separate disclosure of: (1) Common stock and related surplus; (2) Retained earnings; (3) Common equity minority interest; (4) AOCI; and (5) Regulatory adjustments and deductions made to common equity tier 1 capital.
	(c)	The amount of tier 1 capital, with separate disclosure of: (1) Additional tier 1 capital elements, including additional tier 1 capital instruments and tier 1 minority interest not included in common equity tier 1 capital; and (2) Regulatory adjustments and deductions made to tier 1 capital.
	(d)	The amount of total capital, with separate disclosure of: (1) Tier 2 capital elements, including tier 2 capital instruments and total capital minority interest not included in tier 1 capital; and (2) Regulatory adjustments and deductions made to total capital.

TABLE 3 TO § 3.63—CAPITAL ADEQUACY

Qualitative disclosures	(a)	A summary discussion of the national bank's or Federal savings association's approach to assessing the adequacy of its capital to support current and future activities.
Quantitative disclosures	(b)	Risk-weighted assets for: (1) Exposures to sovereign entities; (2) Exposures to certain supranational entities and MDBs; (3) Exposures to depository institutions, foreign banks, and credit unions; (4) Exposures to PSEs; (5) Corporate exposures; (6) Residential mortgage exposures; (7) Statutory multifamily mortgages and pre-sold construction loans; (8) HVCRE loans; (9) Past due loans; (10) Other assets; (11) Cleared transactions; (12) Default fund contributions; (13) Unsettled transactions; (14) Securitization exposures; and (15) Equity exposures.
	(c)	Standardized market risk-weighted assets as calculated under subpart F of this part.
	(d)	Common equity tier 1, tier 1 and total risk-based capital ratios: (1) For the top consolidated group; and (2) For each depository institution subsidiary.
	(e)	Total standardized risk-weighted assets.

TABLE 4 TO § 3.63—CAPITAL CONSERVATION BUFFER

Quantitative Disclosures	(a)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the capital conservation buffer as described under § 3.11.
	(b)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the eligible retained income of the national bank or Federal savings association, as described under § 3.11.
	(c)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose any limitations it has on distributions and discretionary bonus payments resulting from the capital conservation buffer framework described under § 3.11, including the maximum payout amount for the quarter.

(c) *General qualitative disclosure requirement.* For each separate risk area described in Tables 5 through 10, the national bank or Federal savings association must describe its risk management objectives and policies, including: Strategies and processes; the structure and organization of the relevant risk

management function; the scope and nature of risk reporting and/or measurement systems; policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.

TABLE 5 TO § 3.63¹—CREDIT RISK: GENERAL DISCLOSURES

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 6), including the: (1) Policy for determining past due or delinquency status; (2) Policy for placing loans on nonaccrual; (3) Policy for returning loans to accrual status; (4) Definition of and policy for identifying impaired loans (for financial accounting purposes); (5) Description of the methodology that the national bank or Federal savings association uses to estimate its allowance for loan and lease losses, including statistical methods used where applicable; (6) Policy for charging-off uncollectible amounts; and (7) Discussion of the national bank's or Federal savings association's credit risk management policy.
Quantitative Disclosures	(b)	Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP, without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting not permitted under GAAP), over the period categorized by major types of credit exposure. For example, national banks or Federal savings associations could use categories similar to that used for financial statement purposes. Such categories might include, for instance (1) Loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures; (2) Debt securities; and (3) OTC derivatives. ²
	(c)	Geographic distribution of exposures, categorized in significant areas by major types of credit exposure. ³
	(d)	Industry or counterparty type distribution of exposures, categorized by major types of credit exposure.
	(e)	By major industry or counterparty type: (1) Amount of impaired loans for which there was a related allowance under GAAP; (2) Amount of impaired loans for which there was no related allowance under GAAP; (3) Amount of loans past due 90 days and on nonaccrual; (4) Amount of loans past due 90 days and still accruing; ⁴ (5) The balance in the allowance for loan and lease losses at the end of each period, disaggregated on the basis of the national bank's or Federal savings association's impairment method. To disaggregate the information required on the basis of impairment methodology, an entity shall separately disclose the amounts based on the requirements in GAAP; and (6) Charge-offs during the period.

TABLE 5 TO § 3.63¹—CREDIT RISK: GENERAL DISCLOSURES—Continued

	(f)	Amount of impaired loans and, if available, the amount of past due loans categorized by significant geographic areas including, if practical, the amounts of allowances related to each geographical area, ⁵ further categorized as required by GAAP.
	(g)	Reconciliation of changes in ALLL. ⁶
	(h)	Remaining contractual maturity delineation (for example, one year or less) of the whole portfolio, categorized by credit exposure.

¹ Table 5 does not cover equity exposures, which should be reported in Table 9.
² See, for example, ASC Topic 815–10 and 210, as they may be amended from time to time.
³ Geographical areas may consist of individual countries, groups of countries, or regions within countries. A national bank or Federal savings association might choose to define the geographical areas based on the way the national bank's or Federal savings association's portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.
⁴ A national bank or Federal savings association is encouraged also to provide an analysis of the aging of past-due loans.
⁵ The portion of the general allowance that is not allocated to a geographical area should be disclosed separately.
⁶ The reconciliation should include the following: A description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

TABLE 6 TO § 3.63—GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK-RELATED EXPOSURES

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including a discussion of: (1) The methodology used to assign credit limits for counterparty credit exposures; (2) Policies for securing collateral, valuing and managing collateral, and establishing credit reserves; (3) The primary types of collateral taken; and (4) The impact of the amount of collateral the national bank or Federal savings association would have to provide given a deterioration in the national bank's or Federal savings association's own creditworthiness.
Quantitative Disclosures	(b)	Gross positive fair value of contracts, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure. ¹ A national bank or Federal savings association also must disclose the notional value of credit derivative hedges purchased for counterparty credit risk protection and the distribution of current credit exposure by exposure type. ²
	(c)	Notional amount of purchased and sold credit derivatives, segregated between use for the national bank's or Federal savings association's own credit portfolio and in its intermediation activities, including the distribution of the credit derivative products used, categorized further by protection bought and sold within each product group.

¹ Net unsecured credit exposure is the credit exposure after considering both the benefits from legally enforceable netting agreements and collateral arrangements without taking into account haircuts for price volatility, liquidity, etc.
² This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

TABLE 7 TO § 3.63—CREDIT RISK MITIGATION^{1 2}

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to credit risk mitigation, including: (1) Policies and processes for collateral valuation and management; (2) A description of the main types of collateral taken by the national bank or Federal savings association; (3) The main types of guarantors/credit derivative counterparties and their creditworthiness; and (4) Information about (market or credit) risk concentrations with respect to credit risk mitigation.
Quantitative Disclosures	(b)	For each separately disclosed credit risk portfolio, the total exposure that is covered by eligible financial collateral, and after the application of haircuts.
	(c)	For each separately disclosed portfolio, the total exposure that is covered by guarantees/credit derivatives and the risk-weighted asset amount associated with that exposure.

¹ At a minimum, a national bank or Federal savings association must provide the disclosures in Table 7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this subpart. Where relevant, national banks or Federal savings associations are encouraged to give further information about mitigants that have not been recognized for that purpose.
² Credit derivatives that are treated, for the purposes of this subpart, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization (Table 8).

TABLE 8 TO § 3.63—SECURITIZATION

Qualitative Disclosures	(a)	<p>The general qualitative disclosure requirement with respect to a securitization (including synthetic securitizations), including a discussion of:</p> <ol style="list-style-type: none"> (1) The national bank's or Federal savings association's objectives for securitizing assets, including the extent to which these activities transfer credit risk of the underlying exposures away from the national bank or Federal savings association to other entities and including the type of risks assumed and retained with resecuritization activity;¹ (2) The nature of the risks (e.g. liquidity risk) inherent in the securitized assets; (3) The roles played by the national bank or Federal savings association in the securitization process² and an indication of the extent of the national bank's or Federal savings association's involvement in each of them; (4) The processes in place to monitor changes in the credit and market risk of securitization exposures including how those processes differ for resecuritization exposures; (5) The national bank's or Federal savings association's policy for mitigating the credit risk retained through securitization and resecuritization exposures; and (6) The risk-based capital approaches that the national bank or Federal savings association follows for its securitization exposures including the type of securitization exposure to which each approach applies.
	(b)	<p>A list of:</p> <ol style="list-style-type: none"> (1) The type of securitization SPEs that the national bank or Federal savings association, as sponsor, uses to securitize third-party exposures. The national bank or Federal savings association must indicate whether it has exposure to these SPEs, either on- or off-balance sheet; and (2) Affiliated entities: <ol style="list-style-type: none"> (i) That the national bank or Federal savings association manages or advises; and (ii) That invest either in the securitization exposures that the national bank or Federal savings association has securitized or in securitization SPEs that the national bank or Federal savings association sponsors.³
	(c)	<p>Summary of the national bank's or Federal savings association's accounting policies for securitization activities, including:</p> <ol style="list-style-type: none"> (1) Whether the transactions are treated as sales or financings; (2) Recognition of gain-on-sale; (3) Methods and key assumptions applied in valuing retained or purchased interests; (4) Changes in methods and key assumptions from the previous period for valuing retained interests and impact of the changes; (5) Treatment of synthetic securitizations; (6) How exposures intended to be securitized are valued and whether they are recorded under subpart D of this part; and (7) Policies for recognizing liabilities on the balance sheet for arrangements that could require the national bank or Federal savings association to provide financial support for securitized assets.
	(d)	<p>An explanation of significant changes to any quantitative information since the last reporting period.</p>
Quantitative Disclosures	(e)	<p>The total outstanding exposures securitized by the national bank or Federal savings association in securitizations that meet the operational criteria provided in § 3.41 (categorized into traditional and synthetic securitizations), by exposure type, separately for securitizations of third-party exposures for which the bank acts only as sponsor.⁴</p>
	(f)	<p>For exposures securitized by the national bank or Federal savings association in securitizations that meet the operational criteria in § 3.41:</p> <ol style="list-style-type: none"> (1) Amount of securitized assets that are impaired/past due categorized by exposure type;⁵ and (2) Losses recognized by the national bank or Federal savings association during the current period categorized by exposure type.⁶
	(g)	<p>The total amount of outstanding exposures intended to be securitized categorized by exposure type.</p>
	(h)	<p>Aggregate amount of:</p> <ol style="list-style-type: none"> (1) On-balance sheet securitization exposures retained or purchased categorized by exposure type; and (2) Off-balance sheet securitization exposures categorized by exposure type.

TABLE 8 TO § 3.63—SECURITIZATION—Continued

(i)		(1) Aggregate amount of securitization exposures retained or purchased and the associated capital requirements for these exposures, categorized between securitization and resecuritization exposures, further categorized into a meaningful number of risk weight bands and by risk-based capital approach (e.g., SSFA); and (2) Exposures that have been deducted entirely from tier 1 capital, CEIOs deducted from total capital (as described in § 3.42(a)(1)), and other exposures deducted from total capital should be disclosed separately by exposure type.
(j)		Summary of current year's securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by exposure type.
(k)		Aggregate amount of resecuritization exposures retained or purchased categorized according to: (1) Exposures to which credit risk mitigation is applied and those not applied; and (2) Exposures to guarantors categorized according to guarantor creditworthiness categories or guarantor name.

¹The national bank or Federal savings association should describe the structure of resecuritizations in which it participates; this description should be provided for the main categories of resecuritization products in which the national bank or Federal savings association is active.

²For example, these roles may include originator, investor, servicer, provider of credit enhancement, sponsor, liquidity provider, or swap provider.

³Such affiliated entities may include, for example, money market funds, to be listed individually, and personal and private trusts, to be noted collectively.

⁴"Exposures securitized" include underlying exposures originated by the bank, whether generated by them or purchased, and recognized in the balance sheet, from third parties, and third-party exposures included in sponsored transactions. Securitization transactions (including underlying exposures originally on the bank's balance sheet and underlying exposures acquired by the bank from third-party entities) in which the originating bank does not retain any securitization exposure should be shown separately but need only be reported for the year of inception. Banks are required to disclose exposures regardless of whether there is a capital charge under this part.

⁵Include credit-related other than temporary impairment (OTTI).

⁶For example, charge-offs/allowances (if the assets remain on the bank's balance sheet) or credit-related OTTI of interest-only strips and other retained residual interests, as well as recognition of liabilities for probable future financial support required of the bank with respect to securitized assets.

TABLE 9 TO § 3.63—EQUITIES NOT SUBJECT TO SUBPART F OF THIS PART

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to equity risk for equities not subject to subpart F of this part, including: (1) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons; and (2) Discussion of important policies covering the valuation of and accounting for equity holdings not subject to subpart F of this part. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.
Quantitative Disclosures	(b)	Value disclosed on the balance sheet of investments, as well as the fair value of those investments; for securities that are publicly traded, a comparison to publicly-quoted share values where the share price is materially different from fair value.
	(c)	The types and nature of investments, including the amount that is: (1) Publicly traded; and (2) Non publicly traded.
	(d)	The cumulative realized gains (losses) arising from sales and liquidations in the reporting period.
	(e)	(1) Total unrealized gains (losses). ¹ (2) Total latent revaluation gains (losses). ² (3) Any amounts of the above included in tier 1 or tier 2 capital.
	(f)	Capital requirements categorized by appropriate equity groupings, consistent with the national bank's or Federal savings association's methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory transition regarding regulatory capital requirements.

¹Unrealized gains (losses) recognized on the balance sheet but not through earnings.

²Unrealized gains (losses) not recognized either on the balance sheet or through earnings.

TABLE 10 TO § 3.63—INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

Qualitative disclosures	(a)	The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities.
Quantitative disclosures	(b)	The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring interest rate risk for non-trading activities, categorized by currency (as appropriate).

§§ 3.64–3.99 [Reserved]

**Subpart E—Risk-Weighted Assets—
Internal Ratings-Based and
Advanced Measurement Ap-
proaches**

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.100 Purpose, applicability, and principle of conservatism.

(a) *Purpose.* This subpart E establishes:

(1) Minimum qualifying criteria for national banks or Federal savings associations using institution-specific internal risk measurement and management processes for calculating risk-based capital requirements; and

(2) Methodologies for such national banks or Federal savings associations to calculate their total risk-weighted assets.

(b) *Applicability.* (1) This subpart applies to a national bank or Federal savings association that:

(i) Has consolidated total assets, as reported on its most recent year-end Call Report equal to \$250 billion or more;

(ii) Has consolidated total on-balance sheet foreign exposure on its most recent year-end Call Report equal to \$10 billion or more (where total on-balance sheet foreign exposure equals total cross-border claims less claims with a head office or guarantor located in another country plus redistributed guaranteed amounts to the country of head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Insti-

tutions Examination Council (FFIEC) 009 Country Exposure Report);

(iii) Is a subsidiary of a depository institution that uses the advanced approaches pursuant to subpart E of 12 CFR part 3 (OCC), 12 CFR part 217 (Board), or 12 CFR part 325 (FDIC) to calculate its total risk-weighted assets;

(iv) Is a subsidiary of a bank holding company or savings and loan holding company that uses the advanced approaches pursuant to 12 CFR part 217 to calculate its total risk-weighted assets; or

(v) Elects to use this subpart to calculate its total risk-weighted assets.

(2) A national bank or Federal savings association that is subject to this subpart shall remain subject to this subpart unless the OCC determines in writing that application of this subpart is not appropriate in light of the national bank's or Federal savings association's asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph (b), the OCC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 3.404.

(3) A market risk national bank or Federal savings association must exclude from its calculation of risk-weighted assets under this subpart the risk-weighted asset amounts of all covered positions, as defined in subpart F of this part (except foreign exchange positions that are not trading positions, over-the-counter derivative positions, cleared transactions, and unsettled transactions).

(c) *Principle of conservatism.* Notwithstanding the requirements of this subpart, a national bank or Federal savings association may choose not to

§ 3.101

12 CFR Ch. I (1–1–14 Edition)

apply a provision of this subpart to one or more exposures provided that:

(1) The national bank or Federal savings association can demonstrate on an ongoing basis to the satisfaction of the OCC that not applying the provision would, in all circumstances, unambiguously generate a risk-based capital requirement for each such exposure greater than that which would otherwise be required under this subpart;

(2) The national bank or Federal savings association appropriately manages the risk of each such exposure;

(3) The national bank or Federal savings association notifies the OCC in writing prior to applying this principle to each such exposure; and

(4) The exposures to which the national bank or Federal savings association applies this principle are not, in the aggregate, material to the national bank or Federal savings association.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§ 3.101 Definitions.

(a) Terms that are set forth in § 3.2 and used in this subpart have the definitions assigned thereto in § 3.2.

(b) For the purposes of this subpart, the following terms are defined as follows:

Advanced internal ratings-based (IRB) systems means an advanced approaches national bank's or Federal savings association's internal risk rating and segmentation system; risk parameter quantification system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures.

Advanced systems means an advanced approaches national bank's or Federal savings association's advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent used by the national bank or Federal savings association, the internal models methodology, advanced CVA approach, double default excessive correlation detection process, and internal models approach (IMA) for equity exposures.

Backtesting means the comparison of a national bank's or Federal savings association's internal estimates with

actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.

Benchmarking means the comparison of a national bank's or Federal savings association's internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

Bond option contract means a bond option, bond future, or any other instrument linked to a bond that gives rise to similar counterparty credit risk.

Business environment and internal control factors means the indicators of a national bank's or Federal savings association's operational risk profile that reflect a current and forward-looking assessment of the national bank's or Federal savings association's underlying business risk factors and internal control environment.

Credit default swap (CDS) means a financial contract executed under standard industry documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider) for a certain period of time.

Credit valuation adjustment (CVA) means the fair value adjustment to reflect counterparty credit risk in valuation of OTC derivative contracts.

Default—For the purposes of calculating capital requirements under this subpart:

(1) *Retail.* (i) A retail exposure of a national bank or Federal savings association is in default if:

(A) The exposure is 180 days past due, in the case of a residential mortgage exposure or revolving exposure;

(B) The exposure is 120 days past due, in the case of retail exposures that are not residential mortgage exposures or revolving exposures; or

(C) The national bank or Federal savings association has taken a full or partial charge-off, write-down of principal, or material negative fair value adjustment of principal on the exposure for credit-related reasons.

(ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure

held by a non-U.S. subsidiary of the national bank or Federal savings association that is subject to an internal ratings-based approach to capital adequacy consistent with the Basel Committee on Banking Supervision's "International Convergence of Capital Measurement and Capital Standards: A Revised Framework" in a non-U.S. jurisdiction, the national bank or Federal savings association may elect to use the definition of default that is used in that jurisdiction, provided that the national bank or Federal savings association has obtained prior approval from the OCC to use the definition of default in that jurisdiction.

(iii) A retail exposure in default remains in default until the national bank or Federal savings association has reasonable assurance of repayment and performance for all contractual principal and interest payments on the exposure.

(2) *Wholesale.* (i) A national bank's or Federal savings association's wholesale obligor is in default if:

(A) The national bank or Federal savings association determines that the obligor is unlikely to pay its credit obligations to the national bank or Federal savings association in full, without recourse by the national bank or Federal savings association to actions such as realizing collateral (if held); or

(B) The obligor is past due more than 90 days on any material credit obligation(s) to the national bank or Federal savings association.²⁵

(ii) An obligor in default remains in default until the national bank or Federal savings association has reasonable assurance of repayment and performance for all contractual principal and interest payments on all exposures of the national bank or Federal savings association to the obligor (other than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and within units of measure.

Economic downturn conditions means, with respect to an exposure held by the

national bank or Federal savings association, those conditions in which the aggregate default rates for that exposure's wholesale or retail exposure subcategory (or subdivision of such subcategory selected by the national bank or Federal savings association) in the exposure's national jurisdiction (or subdivision of such jurisdiction selected by the national bank or Federal savings association) are significantly higher than average.

Effective maturity (M) of a wholesale exposure means:

(1) For wholesale exposures other than repo-style transactions, eligible margin loans, and OTC derivative contracts described in paragraph (2) or (3) of this definition:

(i) The weighted-average remaining maturity (measured in years, whole or fractional) of the expected contractual cash flows from the exposure, using the undiscounted amounts of the cash flows as weights; or

(ii) The nominal remaining maturity (measured in years, whole or fractional) of the exposure.

(2) For repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement for which the national bank or Federal savings association does not apply the internal models approach in section 132(d), the weighted-average remaining maturity (measured in years, whole or fractional) of the individual transactions subject to the qualifying master netting agreement, with the weight of each individual transaction set equal to the notional amount of the transaction.

(3) For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the national bank or Federal savings association applies the internal models approach in § 3.132(d), the value determined in § 3.132(d)(4).

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by a national bank or Federal savings association, means:

(1) *U.S.-based entities.* A depository institution, a bank holding company, a savings and loan holding company, or a securities broker or dealer registered

²⁵Overdrafts are past due once the obligor has breached an advised limit or been advised of a limit smaller than the current outstanding balance.

with the SEC under the Securities Exchange Act, if at the time the guarantee is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade.

(2) *Non-U.S.-based entities.* A foreign bank, or a non-U.S.-based securities firm if the national bank or Federal savings association demonstrates that the guarantor is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, or securities broker-dealers) if at the time the guarantee is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

(1) Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and

(2) Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

(1) The national bank or Federal savings association or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;

(2) Was generated on an arm's-length basis between the seller and the obligor (intercompany accounts receivable and receivables subject to contra-accounts between firms that buy and sell to each other do not satisfy this criterion);

(3) Provides the national bank or Federal savings association or securitization SPE with a claim on all proceeds from the exposure or a pro rata interest in the proceeds from the exposure;

(4) Has an M of less than one year; and

(5) When consolidated by obligor, does not represent a concentrated exposure relative to the portfolio of purchased wholesale exposures.

Expected exposure (EE) means the expected value of the probability distribution of non-negative credit risk

exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative fair values in the probability distribution of fair values to a counterparty at a specified future date are set to zero to convert the probability distribution of fair values to the probability distribution of credit risk exposures.

Expected operational loss (EOL) means the expected value of the distribution of potential aggregate operational losses, as generated by the national bank's or Federal savings association's operational risk quantification system using a one-year horizon.

Expected positive exposure (EPE) means the weighted average over time of expected (non-negative) exposures to a counterparty where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

Exposure at default (EAD) means:

(1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction or eligible margin loan for which the national bank or Federal savings association determines EAD under §3.132, a cleared transaction, or default fund contribution), EAD means the national bank's or Federal savings association's carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction or eligible margin loan for which the national bank or Federal savings association determines EAD under §3.132, cleared transaction, or default fund contribution) in the form of a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the national bank's or Federal savings association's best estimate of net additions to the outstanding

amount owed the national bank or Federal savings association, including estimated future additional draws of principal and accrued but unpaid interest and fees, that are likely to occur over a one-year horizon assuming the wholesale exposure or the retail exposures in the segment were to go into default. This estimate of net additions must reflect what would be expected during economic downturn conditions. For the purposes of this definition:

(i) Trade-related letters of credit are short-term, self-liquidating instruments that are used to finance the movement of goods and are collateralized by the underlying goods.

(ii) Transaction-related contingencies relate to a particular transaction and include, among other things, performance bonds and performance-based letters of credit.

(3) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction, or eligible margin loan for which the national bank or Federal savings association determines EAD under §3.132, cleared transaction, or default fund contribution) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the notional amount of the exposure or segment.

(4) EAD for OTC derivative contracts is calculated as described in §3.132. A national bank or Federal savings association also may determine EAD for repo-style transactions and eligible margin loans as described in §3.132.

Exposure category means any of the wholesale, retail, securitization, or equity exposure categories.

External operational loss event data means, with respect to a national bank or Federal savings association, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at organizations other than the national bank or Federal savings association.

IMM exposure means a repo-style transaction, eligible margin loan, or OTC derivative for which a national bank or Federal savings association calculates its EAD using the internal models methodology of §3.132(d).

Internal operational loss event data means, with respect to a national bank or Federal savings association, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at the national bank or Federal savings association.

Loss given default (LGD) means:

(1) For a wholesale exposure, the greatest of:

(i) Zero;

(ii) The national bank's or Federal savings association's empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the national bank or Federal savings association would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the national bank or Federal savings association to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or

(iii) The national bank's or Federal savings association's empirically based best estimate of the economic loss, per dollar of EAD, the national bank or Federal savings association would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the national bank or Federal savings association to the exposure) were to default within a one-year horizon during economic downturn conditions.

(2) For a segment of retail exposures, the greatest of:

(i) Zero;

(ii) The national bank's or Federal savings association's empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the national bank or Federal savings association would expect to incur if the exposures in the segment were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or

(iii) The national bank's or Federal savings association's empirically based best estimate of the economic loss, per dollar of EAD, the national bank or Federal savings association would expect to incur if the exposures in the segment were to default within a one-

year horizon during economic downturn conditions.

(3) The economic loss on an exposure in the event of default is all material credit-related losses on the exposure (including accrued but unpaid interest or fees, losses on the sale of collateral, direct workout costs, and an appropriate allocation of indirect workout costs). Where positive or negative cash flows on a wholesale exposure to a defaulted obligor or a defaulted retail exposure (including proceeds from the sale of collateral, workout costs, additional extensions of credit to facilitate repayment of the exposure, and draw-downs of unused credit lines) occur after the date of default, the economic loss must reflect the net present value of cash flows as of the default date using a discount rate appropriate to the risk of the defaulted exposure.

Obligor means the legal entity or natural person contractually obligated on a wholesale exposure, except that a national bank or Federal savings association may treat the following exposures as having separate obligors:

(1) Exposures to the same legal entity or natural person denominated in different currencies;

(2)(i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on the cash flows of the real estate serving as collateral for the exposure; the national bank or Federal savings association, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses obtained solely out of an abundance of caution; and

(ii) Other credit exposures to the same legal entity or natural person; and

(3)(i) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and

(ii) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an operational loss event. Operational loss includes all expenses asso-

ciated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management and control enhancements implemented to prevent future operational losses.

Operational loss event means an event that results in loss and is associated with any of the following seven operational loss event type categories:

(1) Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent regulations, the law, or company policy excluding diversity- and discrimination-type events.

(2) External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party-initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party-initiated credit losses are to be treated as credit risk losses.

(3) Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from diversity- and discrimination-type events.

(4) Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

(5) Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

(6) Business disruption and system failures, which means the operational

loss event type category that comprises operational losses resulting from disruption of business or system failures.

(7) Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the national bank's or Federal savings association's operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Other retail exposure means an exposure (other than a securitization exposure, an equity exposure, a residential mortgage exposure, a pre-sold construction loan, a qualifying revolving exposure, or the residual value portion of a lease exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

(1) An exposure to an individual for non-business purposes; or

(2) An exposure to an individual or company for business purposes if the national bank's or Federal savings association's consolidated business credit exposure to the individual or company is \$1 million or less.

Probability of default (PD) means:

(1) For a wholesale exposure to a non-defaulted obligor, the national bank's or Federal savings association's empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the national bank or Federal savings association to the obligor, capturing the average default experience for obligors in the rating grade over a mix of economic conditions (including economic

downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the rating grade.

(2) For a segment of non-defaulted retail exposures, the national bank's or Federal savings association's empirically based best estimate of the long-run average one-year default rate for the exposures in the segment, capturing the average default experience for exposures in the segment over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, 100 percent.

Qualifying cross-product master netting agreement means a qualifying master netting agreement that provides for termination and close-out netting across multiple types of financial transactions or qualifying master netting agreements in the event of a counterparty's default, provided that the underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions. In order to treat an agreement as a qualifying cross-product master netting agreement for purposes of this subpart, a national bank or Federal savings association must comply with the requirements of §3.3(c) of this part with respect to that agreement.

Qualifying revolving exposure (QRE) means an exposure (other than a securitization exposure or equity exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

(1) Is revolving (that is, the amount outstanding fluctuates, determined largely by a borrower's decision to borrow and repay up to a pre-established maximum amount, except for an outstanding amount that the borrower is required to pay in full every month);

(2) Is unsecured and unconditionally cancelable by the national bank or Federal savings association to the fullest extent permitted by Federal law; and

§ 3.121

12 CFR Ch. I (1–1–14 Edition)

(3)(i) Has a maximum contractual exposure amount (drawn plus undrawn) of up to \$100,000; or

(ii) With respect to a product with an outstanding amount that the borrower is required to pay in full every month, the total outstanding amount does not in practice exceed \$100,000.

(4) A segment of exposures that contains one or more exposures that fails to meet paragraph (3)(ii) of this definition must be treated as a segment of other retail exposures for the 24 month period following the month in which the total outstanding amount of one or more exposures individually exceeds \$100,000.

Retail exposure means a residential mortgage exposure, a qualifying revolving exposure, or an other retail exposure.

Retail exposure subcategory means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

Risk parameter means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

Scenario analysis means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to a national bank's or Federal savings association's operational risk profile and control structure.

Total wholesale and retail risk-weighted assets means the sum of:

(1) Risk-weighted assets for wholesale exposures that are not IMM exposures, cleared transactions, or default fund contributions to non-defaulted obligors and segments of non-defaulted retail exposures;

(2) Risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures;

(3) Risk-weighted assets for assets not defined by an exposure category;

(4) Risk-weighted assets for non-material portfolios of exposures;

(5) Risk-weighted assets for IMM exposures (as determined in § 3.132(d));

(6) Risk-weighted assets for cleared transactions and risk-weighted assets for default fund contributions (as determined in § 3.133); and

(7) Risk-weighted assets for unsettled transactions (as determined in § 3.136).

Unexpected operational loss (UOL) means the difference between the national bank's or Federal savings association's operational risk exposure and the national bank's or Federal savings association's expected operational loss.

Unit of measure means the level (for example, organizational unit or operational loss event type) at which the national bank's or Federal savings association's operational risk quantification system generates a separate distribution of potential operational losses.

Wholesale exposure means a credit exposure to a company, natural person, sovereign, or governmental entity (other than a securitization exposure, retail exposure, pre-sold construction loan, or equity exposure).

Wholesale exposure subcategory means the HVCRE or non-HVCRE wholesale exposure subcategory.

QUALIFICATION

§ 3.121 Qualification process.

(a) *Timing.* (1) A national bank or Federal savings association that is described in § 3.100(b)(1)(i) through (iv) must adopt a written implementation plan no later than six months after the date the national bank or Federal savings association meets a criterion in that section. The implementation plan must incorporate an explicit start date no later than 36 months after the date the national bank or Federal savings association meets at least one criterion under § 3.100(b)(1)(i) through (iv). The OCC may extend the start date.

(2) A national bank or Federal savings association that elects to be subject to this appendix under § 3.100(b)(1)(v) must adopt a written implementation plan.

(b) *Implementation plan.* (1) The national bank's or Federal savings association's implementation plan must address in detail how the national bank or Federal savings association complies, or plans to comply, with the qualification requirements in §3.122. The national bank or Federal savings association also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in §3.122 for the national bank or Federal savings association and each consolidated subsidiary (U.S. and foreign-based) of the national bank or Federal savings association with respect to all portfolios and exposures of the national bank or Federal savings association and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from the application of the advanced approaches in this subpart (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the national bank or Federal savings association);

(iii) Include the national bank's or Federal savings association's self-assessment of:

(A) The national bank's or Federal savings association's current status in meeting the qualification requirements in §3.122; and

(B) The consistency of the national bank's or Federal savings association's current practices with the OCC's supervisory guidance on the qualification requirements;

(iv) Based on the national bank's or Federal savings association's self-assessment, identify and describe the areas in which the national bank or Federal savings association proposes to undertake additional work to comply with the qualification requirements in §3.122 or to improve the consistency of the national bank's or Federal savings association's current practices with the OCC's supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the national bank or Federal savings asso-

ciation will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;

(vi) Identify objective, measurable milestones, including delivery dates and a date when the national bank's or Federal savings association's implementation of the methodologies described in this subpart will be fully operational;

(vii) Describe resources that have been budgeted and are available to implement the plan; and

(viii) Receive approval of the national bank's or Federal savings association's board of directors.

(2) The national bank or Federal savings association must submit the implementation plan, together with a copy of the minutes of the board of directors' approval, to the OCC at least 60 days before the national bank or Federal savings association proposes to begin its parallel run, unless the OCC waives prior notice.

(c) *Parallel run.* Before determining its risk-weighted assets under this subpart and following adoption of the implementation plan, the national bank or Federal savings association must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the national bank or Federal savings association complies with the qualification requirements in §3.122 to the satisfaction of the OCC. During the parallel run, the national bank or Federal savings association must report to the OCC on a calendar quarterly basis its risk-based capital ratios determined in accordance with §3.10(b)(1) through (3) and §??10.(c)(1) through (3). During this period, the national bank's or Federal savings association's minimum risk-based capital ratios are determined as set forth in subpart D of this part.

(d) *Approval to calculate risk-based capital requirements under this subpart.* The OCC will notify the national bank or Federal savings association of the date that the national bank or Federal savings association must begin to use this subpart for purposes of §3.10 if the OCC determines that:

(1) The national bank or Federal savings association fully complies with all

§ 3.122

12 CFR Ch. I (1–1–14 Edition)

the qualification requirements in § 3.122;

(2) The national bank or Federal savings association has conducted a satisfactory parallel run under paragraph (c) of this section; and

(3) The national bank or Federal savings association has an adequate process to ensure ongoing compliance with the qualification requirements in § 3.122.

§ 3.122 Qualification requirements.

(a) *Process and systems requirements.*

(1) A national bank or Federal savings association must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(2) The systems and processes used by a national bank or Federal savings association for risk-based capital purposes under this subpart must be consistent with the national bank's or Federal savings association's internal risk management processes and management information reporting systems.

(3) Each national bank or Federal savings association must have an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the national bank's or Federal savings association's size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a national bank's or Federal savings association's risk-based capital requirements are located at any affiliate of the national bank or Federal savings association, the national bank or Federal savings association itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) *Risk rating and segmentation systems for wholesale and retail exposures.*

(1) A national bank or Federal savings association must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the na-

tional bank's or Federal savings association's wholesale and retail exposures.

(2) For wholesale exposures:

(i) A national bank or Federal savings association must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor's likelihood of default). A national bank or Federal savings association may elect, however, not to assign to a rating grade an obligor to whom the national bank or Federal savings association extends credit based solely on the financial strength of a guarantor, provided that all of the national bank's or Federal savings association's exposures to the obligor are fully covered by eligible guarantees, the national bank or Federal savings association applies the PD substitution approach in § 3.134(c)(1) to all exposures to that obligor, and the national bank or Federal savings association immediately assigns the obligor to a rating grade if a guarantee can no longer be recognized under this part. The national bank's or Federal savings association's wholesale obligor rating system must have at least seven discrete rating grades for non-defaulted obligors and at least one rating grade for defaulted obligors.

(ii) Unless the national bank or Federal savings association has chosen to directly assign LGD estimates to each wholesale exposure, the national bank or Federal savings association must have an internal risk rating system that accurately and reliably assigns each wholesale exposure to a loss severity rating grade (reflecting the national bank's or Federal savings association's estimate of the LGD of the exposure). A national bank or Federal savings association employing loss severity rating grades must have a sufficiently granular loss severity grading system to avoid grouping together exposures with widely ranging LGDs.

(3) For retail exposures, a national bank or Federal savings association must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and

reliable PD and LGD estimates for each segment on a consistent basis. The national bank's or Federal savings association's system must identify and group in separate segments by subcategories exposures identified in § 3.131(c)(2)(ii) and (iii).

(4) The national bank's or Federal savings association's internal risk rating policy for wholesale exposures must describe the national bank's or Federal savings association's rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the national bank's or Federal savings association's choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The national bank's or Federal savings association's internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the national bank or Federal savings association receives new material information, but no less frequently than annually. The national bank's or Federal savings association's retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the national bank or Federal savings association receives new material information, but generally no less frequently than quarterly.

(c) *Quantification of risk parameters for wholesale and retail exposures.* (1) The national bank or Federal savings association must have a comprehensive risk parameter quantification process that produces accurate, timely, and reliable estimates of the risk parameters for the national bank's or Federal savings association's wholesale and retail exposures.

(2) Data used to estimate the risk parameters must be relevant to the national bank's or Federal savings association's actual wholesale and retail exposures, and of sufficient quality to support the determination of risk-based capital requirements for the exposures.

(3) The national bank's or Federal savings association's risk parameter quantification process must produce

appropriately conservative risk parameter estimates where the national bank or Federal savings association has limited relevant data, and any adjustments that are part of the quantification process must not result in a pattern of bias toward lower risk parameter estimates.

(4) The national bank's or Federal savings association's risk parameter estimation process should not rely on the possibility of U.S. government financial assistance, except for the financial assistance that the U.S. government has a legally binding commitment to provide.

(5) Where the national bank's or Federal savings association's quantifications of LGD directly or indirectly incorporate estimates of the effectiveness of its credit risk management practices in reducing its exposure to troubled obligors prior to default, the national bank or Federal savings association must support such estimates with empirical analysis showing that the estimates are consistent with its historical experience in dealing with such exposures during economic downturn conditions.

(6) PD estimates for wholesale obligors and retail segments must be based on at least five years of default data. LGD estimates for wholesale exposures must be based on at least seven years of loss severity data, and LGD estimates for retail segments must be based on at least five years of loss severity data. EAD estimates for wholesale exposures must be based on at least seven years of exposure amount data, and EAD estimates for retail segments must be based on at least five years of exposure amount data.

(7) Default, loss severity, and exposure amount data must include periods of economic downturn conditions, or the national bank or Federal savings association must adjust its estimates of risk parameters to compensate for the lack of data from periods of economic downturn conditions.

(8) The national bank's or Federal savings association's PD, LGD, and EAD estimates must be based on the definition of default in § 3.101.

(9) The national bank or Federal savings association must review and update (as appropriate) its risk parameters and its risk parameter quantification process at least annually.

(10) The national bank or Federal savings association must, at least annually, conduct a comprehensive review and analysis of reference data to determine relevance of reference data to the national bank's or Federal savings association's exposures, quality of reference data to support PD, LGD, and EAD estimates, and consistency of reference data to the definition of default in § 3.101.

(d) *Counterparty credit risk model.* A national bank or Federal savings association must obtain the prior written approval of the OCC under § 3.132 to use the internal models methodology for counterparty credit risk and the advanced CVA approach for the CVA capital requirement.

(e) *Double default treatment.* A national bank or Federal savings association must obtain the prior written approval of the OCC under § 3.135 to use the double default treatment.

(f) *Equity exposures model.* A national bank or Federal savings association must obtain the prior written approval of the OCC under § 3.153 to use the internal models approach for equity exposures.

(g) *Operational risk.* (1) Operational risk management processes. A national bank or Federal savings association must:

(i) Have an operational risk management function that:

(A) Is independent of business line management; and

(B) Is responsible for designing, implementing, and overseeing the national bank's or Federal savings association's operational risk data and assessment systems, operational risk quantification systems, and related processes;

(ii) Have and document a process (which must capture business environment and internal control factors affecting the national bank's or Federal savings association's operational risk profile) to identify, measure, monitor, and control operational risk in the national bank's or Federal savings asso-

ciation's products, activities, processes, and systems; and

(iii) Report operational risk exposures, operational loss events, and other relevant operational risk information to business unit management, senior management, and the board of directors (or a designated committee of the board).

(2) *Operational risk data and assessment systems.* A national bank or Federal savings association must have operational risk data and assessment systems that capture operational risks to which the national bank or Federal savings association is exposed. The national bank's or Federal savings association's operational risk data and assessment systems must:

(i) Be structured in a manner consistent with the national bank's or Federal savings association's current business activities, risk profile, technological processes, and risk management processes; and

(ii) Include credible, transparent, systematic, and verifiable processes that incorporate the following elements on an ongoing basis:

(A) *Internal operational loss event data.* The national bank or Federal savings association must have a systematic process for capturing and using internal operational loss event data in its operational risk data and assessment systems.

(1) The national bank's or Federal savings association's operational risk data and assessment systems must include a historical observation period of at least five years for internal operational loss event data (or such shorter period approved by the OCC to address transitional situations, such as integrating a new business line).

(2) The national bank or Federal savings association must be able to map its internal operational loss event data into the seven operational loss event type categories.

(3) The national bank or Federal savings association may refrain from collecting internal operational loss event data for individual operational losses below established dollar threshold amounts if the national bank or Federal savings association can demonstrate to the satisfaction of the OCC that the thresholds are reasonable, do

not exclude important internal operational loss event data, and permit the national bank or Federal savings association to capture substantially all the dollar value of the national bank's or Federal savings association's operational losses.

(B) *External operational loss event data.* The national bank or Federal savings association must have a systematic process for determining its methodologies for incorporating external operational loss event data into its operational risk data and assessment systems.

(C) *Scenario analysis.* The national bank or Federal savings association must have a systematic process for determining its methodologies for incorporating scenario analysis into its operational risk data and assessment systems.

(D) *Business environment and internal control factors.* The national bank or Federal savings association must incorporate business environment and internal control factors into its operational risk data and assessment systems. The national bank or Federal savings association must also periodically compare the results of its prior business environment and internal control factor assessments against its actual operational losses incurred in the intervening period.

(3) *Operational risk quantification systems.* (i) The national bank's or Federal savings association's operational risk quantification systems:

(A) Must generate estimates of the national bank's or Federal savings association's operational risk exposure using its operational risk data and assessment systems;

(B) Must employ a unit of measure that is appropriate for the national bank's or Federal savings association's range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;

(C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (g)(2)(ii) of this section, that a national

bank or Federal savings association is required to incorporate into its operational risk data and assessment systems;

(D) May use internal estimates of dependence among operational losses across and within units of measure if the national bank or Federal savings association can demonstrate to the satisfaction of the OCC that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with integrity, and allows for uncertainty surrounding the estimates. If the national bank or Federal savings association has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and

(E) Must be reviewed and updated (as appropriate) whenever the national bank or Federal savings association becomes aware of information that may have a material effect on the national bank's or Federal savings association's estimate of operational risk exposure, but the review and update must occur no less frequently than annually.

(ii) With the prior written approval of the OCC, a national bank or Federal savings association may generate an estimate of its operational risk exposure using an alternative approach to that specified in paragraph (g)(3)(i) of this section. A national bank or Federal savings association proposing to use such an alternative operational risk quantification system must submit a proposal to the OCC. In determining whether to approve a national bank's or Federal savings association's proposal to use an alternative operational risk quantification system, the OCC will consider the following principles:

(A) Use of the alternative operational risk quantification system will be allowed only on an exception basis, considering the size, complexity, and risk profile of the national bank or Federal savings association;

(B) The national bank or Federal savings association must demonstrate that its estimate of its operational risk exposure generated under the alternative operational risk quantification system is appropriate and can be supported empirically; and

§ 3.123

12 CFR Ch. I (1–1–14 Edition)

(C) A national bank or Federal savings association must not use an allocation of operational risk capital requirements that includes entities other than depository institutions or the benefits of diversification across entities.

(h) *Data management and maintenance.*

(1) A national bank or Federal savings association must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.

(2) A national bank or Federal savings association must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.

(3) A national bank or Federal savings association must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.

(i) *Control, oversight, and validation mechanisms.* (1) The national bank's or Federal savings association's senior management must ensure that all components of the national bank's or Federal savings association's advanced systems function effectively and comply with the qualification requirements in this section.

(2) The national bank's or Federal savings association's board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the national bank's or Federal savings association's advanced systems.

(3) A national bank or Federal savings association must have an effective system of controls and oversight that:

(i) Ensures ongoing compliance with the qualification requirements in this section;

(ii) Maintains the integrity, reliability, and accuracy of the national bank's or Federal savings association's advanced systems; and

(iii) Includes adequate governance and project management processes.

(4) The national bank or Federal savings association must validate, on an ongoing basis, its advanced systems. The national bank's or Federal savings

association's validation process must be independent of the advanced systems' development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the advanced systems;

(ii) An ongoing monitoring process that includes verification of processes and benchmarking; and

(iii) An outcomes analysis process that includes backtesting.

(5) The national bank or Federal savings association must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the national bank's or Federal savings association's advanced systems and reports its findings to the national bank's or Federal savings association's board of directors (or a committee thereof).

(6) The national bank or Federal savings association must periodically stress test its advanced systems. The stress testing must include a consideration of how economic cycles, especially downturns, affect risk-based capital requirements (including migration across rating grades and segments and the credit risk mitigation benefits of double default treatment).

(j) *Documentation.* The national bank or Federal savings association must adequately document all material aspects of its advanced systems.

§ 3.123 Ongoing qualification.

(a) *Changes to advanced systems.* A national bank or Federal savings association must meet all the qualification requirements in § 3.122 on an ongoing basis. A national bank or Federal savings association must notify the OCC when the national bank or Federal savings association makes any change to an advanced system that would result in a material change in the national bank's or Federal savings association's advanced approaches total risk-weighted asset amount for an exposure type or when the national bank or Federal

savings association makes any significant change to its modeling assumptions.

(b) *Failure to comply with qualification requirements.* (1) If the OCC determines that a national bank or Federal savings association that uses this subpart and that has conducted a satisfactory parallel run fails to comply with the qualification requirements in § 3.122, the OCC will notify the national bank or Federal savings association in writing of the national bank's or Federal savings association's failure to comply.

(2) The national bank or Federal savings association must establish and submit a plan satisfactory to the OCC to return to compliance with the qualification requirements.

(3) In addition, if the OCC determines that the national bank's or Federal savings association's advanced approaches total risk-weighted assets are not commensurate with the national bank's or Federal savings association's credit, market, operational, or other risks, the OCC may require such a national bank or Federal savings association to calculate its advanced approaches total risk-weighted assets with any modifications provided by the OCC.

§ 3.124 Merger and acquisition transitional arrangements.

(a) *Mergers and acquisitions of companies without advanced systems.* If a national bank or Federal savings association merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the national bank or Federal savings association may use subpart D of this part to determine the risk-weighted asset amounts for the merged or acquired company's exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The OCC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the national bank or Federal savings association must submit to the OCC an implementation plan for using its advanced systems for the acquired company. During the period in which subpart D of this part applies to the merged or acquired company, any

ALLL, net of allocated transfer risk reserves established pursuant to 12 U.S.C. 3904, associated with the merged or acquired company's exposures may be included in the acquiring national bank's or Federal savings association's tier 2 capital up to 1.25 percent of the acquired company's risk-weighted assets. All general allowances of the merged or acquired company must be excluded from the national bank's or Federal savings association's eligible credit reserves. In addition, the risk-weighted assets of the merged or acquired company are not included in the national bank's or Federal savings association's credit-risk-weighted assets but are included in total risk-weighted assets. If a national bank or Federal savings association relies on this paragraph (a), the national bank or Federal savings association must disclose publicly the amounts of risk-weighted assets and qualifying capital calculated under this subpart for the acquiring national bank or Federal savings association and under subpart D of this part for the acquired company.

(b) *Mergers and acquisitions of companies with advanced systems.* (1) If a national bank or Federal savings association merges with or acquires a company that calculates its risk-based capital requirements using advanced systems, the national bank or Federal savings association may use the acquired company's advanced systems to determine total risk-weighted assets for the merged or acquired company's exposures for up to 24 months after the calendar quarter during which the acquisition or merger consummates. The OCC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the national bank or Federal savings association must submit to the OCC an implementation plan for using its advanced systems for the merged or acquired company.

(2) If the acquiring national bank or Federal savings association is not subject to the advanced approaches in this subpart at the time of acquisition or merger, during the period when subpart D of this part applies to the acquiring national bank or Federal savings association, the ALLL associated with the

exposures of the merged or acquired company may not be directly included in tier 2 capital. Rather, any excess eligible credit reserves associated with the merged or acquired company's exposures may be included in the national bank's or Federal savings association's tier 2 capital up to 0.6 percent of the credit-risk-weighted assets associated with those exposures.

§§ 3.125–3.130 [Reserved]

RISK-WEIGHTED ASSETS FOR GENERAL
CREDIT RISK

**§ 3.131 Mechanics for calculating total
wholesale and retail risk-weighted
assets.**

(a) *Overview.* A national bank or Federal savings association must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

- (1) Phase 1—categorization of exposures;
- (2) Phase 2—assignment of wholesale obligors and exposures to rating grades and segmentation of retail exposures;
- (3) Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and
- (4) Phase 4—calculation of risk-weighted asset amounts.

(b) *Phase 1—Categorization.* The national bank or Federal savings association must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The national bank or Federal savings association must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The national bank or Federal savings association must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, cleared transactions, default fund contributions, unsettled transactions to which § 3.136 applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The national bank or Federal savings association must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization expo-

sure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

(c) *Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments—(1) Assignment of wholesale obligors and exposures to rating grades.*

(i) The national bank or Federal savings association must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD estimate to a loss severity rating grade.

(ii) The national bank or Federal savings association must identify which of its wholesale obligors are in default.

(2) *Segmentation of retail exposures.* (i) The national bank or Federal savings association must group the retail exposures in each retail subcategory into segments that have homogeneous risk characteristics.

(ii) The national bank or Federal savings association must identify which of its retail exposures are in default. The national bank or Federal savings association must segment defaulted retail exposures separately from non-defaulted retail exposures.

(iii) If the national bank or Federal savings association determines the EAD for eligible margin loans using the approach in § 3.132(b), the national bank or Federal savings association must identify which of its retail exposures are eligible margin loans for which the national bank or Federal savings association uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

(3) *Eligible purchased wholesale exposures.* A national bank or Federal savings association may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. A national bank or Federal savings association must use the wholesale exposure formula in Table 1 of this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

(d) *Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures.* (1) *Quantification process.* Subject to the limitations in

this paragraph (d), the national bank or Federal savings association must:

- (i) Associate a PD with each wholesale obligor rating grade;
- (ii) Associate an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure;
- (iii) Assign an EAD and M to each wholesale exposure; and
- (iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

(2) *Floor on PD assignment.* The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the national bank or Federal savings association assigns a rating grade associated with a PD of less than 0.03 percent.

(3) *Floor on LGD estimation.* The LGD for each segment of residential mortgage exposures may not be less than 10 percent, except for segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is either:

- (i) Directly and unconditionally guaranteed by the full faith and credit of a sovereign entity; or
- (ii) Guaranteed by a contingent obligation of the U.S. government or its agencies, the enforceability of which is dependent upon some affirmative action on the part of the beneficiary of the guarantee or a third party (for example, meeting servicing requirements).

(4) *Eligible purchased wholesale exposures.* A national bank or Federal savings association must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the national bank or Federal savings association can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the national bank or Federal savings association must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals ECL divided by EAD. The estimated ECL must be calculated for the exposures

without regard to any assumption of recourse or guarantees from the seller or other parties.

(5) *Credit risk mitigation: credit derivatives, guarantees, and collateral.* (i) A national bank or Federal savings association may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure by applying the PD substitution or LGD adjustment treatment to the exposure as provided in §3.134 or, if applicable, applying double default treatment to the exposure as provided in §3.135. A national bank or Federal savings association may decide separately for each wholesale exposure that qualifies for the double default treatment under §3.135 whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.

(ii) A national bank or Federal savings association may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment.

(iii) Except as provided in paragraph (d)(6) of this section, a national bank or Federal savings association may take into account the risk reducing effects of collateral in support of a wholesale exposure when quantifying the LGD of the exposure, and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment.

(6) *EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans.* A national bank or Federal savings association must calculate its EAD for an OTC derivative contract as provided in §3.132 (c) and (d). A national bank or Federal savings association may take into account the risk-reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction that is included in the national bank's or Federal savings association's VaR-based measure under subpart F of this part through an adjustment to EAD as provided in §3.132(b) and (d). A

§ 3.131

12 CFR Ch. I (1–1–14 Edition)

national bank or Federal savings association that takes collateral into account through such an adjustment to EAD under § 3.132 may not reflect such collateral in LGD.

(7) *Effective maturity.* An exposure's M must be no greater than five years and no less than one year, except that an exposure's M must be no less than one day if the exposure is a trade related letter of credit, or if the exposure has an original maturity of less than one year and is not part of a national bank's or Federal savings association's ongoing financing of the obligor. An exposure is not part of a national bank's or Federal savings association's ongoing financing of the obligor if the national bank or Federal savings association:

- (i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;
- (ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and
- (iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(8) *EAD for exposures to certain central counterparties.* A national bank or Federal savings association may attribute an EAD of zero to exposures that arise from the settlement of cash transactions (such as equities, fixed income, spot foreign exchange, and spot com-

modities) with a central counterparty where there is no assumption of ongoing counterparty credit risk by the central counterparty after settlement of the trade and associated default fund contributions.

(e) *Phase 4—Calculation of risk-weighted assets—(1) Non-defaulted exposures.* (i) A national bank or Federal savings association must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except for eligible guarantees and eligible credit derivatives that hedge another wholesale exposure, IMM exposures, cleared transactions, default fund contributions, unsettled transactions, and exposures to which the national bank or Federal savings association applies the double default treatment in § 3.135) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 1 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, a national bank or Federal savings association may apply a 300 percent risk weight to the EAD of an eligible margin loan if the national bank or Federal savings association is not able to meet the OCC's requirements for estimation of PD and LGD for the margin loan.

TABLE 1 TO §__.131 – IRB RISK-BASED CAPITAL FORMULAS FOR WHOLESALE EXPOSURES TO NON-DEFAULTED OBLIGORS AND SEGMENTS OF NON-DEFAULTED RETAIL EXPOSURES¹

Retail	<p>Capital Requirement (K)</p> <p>Non-Defaulted Exposures</p>	$K = \left[LGD \times N \left(\frac{N^{-1}(PD) + \sqrt{R} \times N^{-1}(0.999)}{\sqrt{1-R}} \right) - (LGD \times PD) \right]$
	<p>Correlation Factor (R)</p>	<p>For residential mortgage exposures: $R = 0.15$</p> <p>For qualifying revolving exposures: $R = 0.04$</p> <p>For other retail exposures: $R = 0.03 + 0.13 \times e^{-35 \times PD}$</p>
	<p>Capital Requirement (K)</p> <p>Non-Defaulted Exposures</p>	$K = \left[LGD \times N \left(\frac{N^{-1}(PD) + \sqrt{R} \times N^{-1}(0.999)}{\sqrt{1-R}} \right) - (LGD \times PD) \right] \times \left(\frac{1 + (M - 2.5) \times b}{1 - 1.5 \times b} \right)$
	<p>Correlation Factor (R)</p>	<p>For HVCRE exposures:</p> $R = 0.12 + 0.18 \times e^{-50 \times PD}$ <p>For wholesale exposures to unregulated financial institutions:</p>

$$R = 1.25 \times (0.12 + 0.12 \times e^{-50 \times PD})$$

For wholesale exposures to regulated financial institutions with total assets greater than or equal to \$100 billion:

$$R = 1.25 \times (0.12 + 0.12 \times e^{-50 \times PD})$$

For wholesale exposures other than HVCRE exposures, unregulated financial institutions, and regulated financial institutions with total assets greater than or equal to \$100 billion:

$$R = 0.12 + 0.12 \times e^{-50 \times PD}$$

Maturity

$$b = (0.11852 - 0.05478 \times \ln(PD))^2$$

Adjustment

(b)

¹N(.) means the cumulative distribution function for a standard normal random variable. N⁻¹(.) means the inverse cumulative distribution function for a standard normal random variable. The symbol e refers to the base of the natural logarithms, and the function ln(.) refers to the natural logarithm of the expression within parentheses.

The formulas apply when PD is greater than zero. If PD equals zero, the capital requirement K is set equal to zero.

(ii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in § 3.135(e) equals the total dollar risk-based capital requirement for those exposures and segments.

(iii) The aggregate risk-weighted asset amount for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures equals the total dollar risk-based capital requirement in paragraph (e)(1)(ii) of this section multiplied by 12.5.

(2) *Wholesale exposures to defaulted obligors and segments of defaulted retail exposures*—(i) *Not covered by an eligible*

U.S. government guarantee: The dollar risk-based capital requirement for each wholesale exposure not covered by an eligible guarantee from the U.S. government to a defaulted obligor and each segment of defaulted retail exposures not covered by an eligible guarantee from the U.S. government equals 0.08 multiplied by the EAD of the exposure or segment.

(ii) *Covered by an eligible U.S. government guarantee:* The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor covered by an eligible guarantee from the U.S. government and each segment of defaulted retail exposures covered by an eligible guarantee from the U.S. government equals the sum of:

(A) The sum of the EAD of the portion of each wholesale exposure to a defaulted obligor covered by an eligible guarantee from the U.S. government plus the EAD of the portion of each segment of defaulted retail exposures that is covered by an eligible guarantee from the U.S. government and the resulting sum is multiplied by 0.016, and

(B) The sum of the EAD of the portion of each wholesale exposure to a defaulted obligor not covered by an eligible guarantee from the U.S. government plus the EAD of the portion of each segment of defaulted retail exposures that is not covered by an eligible guarantee from the U.S. government and the resulting sum is multiplied by 0.08.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor and each segment of defaulted retail exposures calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements each wholesale exposure to a defaulted obligor and for each segment of defaulted retail exposures calculated in paragraph (e)(2)(ii) of this section equals the total dollar risk-based capital requirement for those exposures and segments.

(iv) The aggregate risk-weighted asset amount for wholesale exposures to defaulted obligors and segments of defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(2)(iii) of this section multiplied by 12.5.

(3) *Assets not included in a defined exposure category.* (i) A national bank or Federal savings association may assign a risk-weighted asset amount of zero to cash owned and held in all offices of the national bank or Federal savings association or in transit and for gold bullion held in the national bank's or Federal savings association's own vaults, or held in another national bank's or Federal savings association's vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities.

(ii) A national bank or Federal savings association must assign a risk-weighted asset amount equal to 20 percent of the carrying value of cash items in the process of collection.

(iii) A national bank or Federal savings association must assign a risk-weighted asset amount equal to 50 percent of the carrying value to a pre-sold construction loan unless the purchase contract is cancelled, in which case a national bank or Federal savings association must assign a risk-weighted asset amount equal to a 100 percent of the carrying value of the pre-sold construction loan.

(iv) The risk-weighted asset amount for the residual value of a retail lease exposure equals such residual value.

(v) The risk-weighted asset amount for DTAs arising from temporary differences that the national bank or Federal savings association could realize through net operating loss carrybacks equals the carrying value, netted in accordance with §3.22.

(vi) The risk-weighted asset amount for MSAs, DTAs arising from temporary timing differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted pursuant to §3.22(a)(7) equals the amount not subject to deduction multiplied by 250 percent.

(vii) The risk-weighted asset amount for any other on-balance-sheet asset that does not meet the definition of a wholesale, retail, securitization, IMM, or equity exposure, cleared transaction, or default fund contribution and is not subject to deduction under §3.22(a), (c), or (d) equals the carrying value of the asset.

(4) *Non-material portfolios of exposures.* The risk-weighted asset amount of a portfolio of exposures for which the national bank or Federal savings association has demonstrated to the OCC's satisfaction that the portfolio (when combined with all other portfolios of exposures that the national bank or Federal savings association seeks to treat under this paragraph (e)) is not material to the national bank or Federal savings association is the sum of the carrying values of on-balance sheet exposures plus the notional amounts of off-balance sheet exposures in the portfolio. For purposes of this paragraph (e)(4), the notional amount of an OTC

§ 3.132

12 CFR Ch. I (1–1–14 Edition)

derivative contract that is not a credit derivative is the EAD of the derivative as calculated in § 3.132.

§ 3.132 Counterparty credit risk of repo-style transactions, eligible margin loans, and OTC derivative contracts.

(a) *Methodologies for collateral recognition.* (1) Instead of an LGD estimation methodology, a national bank or Federal savings association may use the following methodologies to recognize the benefits of financial collateral in mitigating the counterparty credit risk of repo-style transactions, eligible margin loans, collateralized OTC derivative contracts and single product netting sets of such transactions, and to recognize the benefits of any collateral in mitigating the counterparty credit risk of repo-style transactions that are included in a national bank's or Federal savings association's VaR-based measure under subpart F of this part:

(i) The collateral haircut approach set forth in paragraph (b)(2) of this section;

(ii) The internal models methodology set forth in paragraph (d) of this section; and

(iii) For single product netting sets of repo-style transactions and eligible margin loans, the simple VaR methodology set forth in paragraph (b)(3) of this section.

(2) A national bank or Federal savings association may use any combination of the three methodologies for collateral recognition; however, it must use the same methodology for transactions in the same category.

(3) A national bank or Federal savings association must use the methodology in paragraph (c) of this section, or with prior written approval of the OCC, the internal model methodology in paragraph (d) of this section, to calculate EAD for an OTC derivative contract or a set of OTC derivative contracts subject to a qualifying master netting agreement. To estimate EAD for qualifying cross-product master netting agreements, a national bank or Federal savings association may only use the internal models methodology in paragraph (d) of this section.

(4) A national bank or Federal savings association must also use the

methodology in paragraph (e) of this section to calculate the risk-weighted asset amounts for CVA for OTC derivatives.

(b) *EAD for eligible margin loans and repo-style transactions*—(1) *General.* A national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, or single-product netting set of such transactions by factoring the collateral into its LGD estimates for the exposure. Alternatively, a national bank or Federal savings association may estimate an unsecured LGD for the exposure, as well as for any repo-style transaction that is included in the national bank's or Federal savings association's VaR-based measure under subpart F of this part, and determine the EAD of the exposure using:

(i) The collateral haircut approach described in paragraph (b)(2) of this section;

(ii) For netting sets only, the simple VaR methodology described in paragraph (b)(3) of this section; or

(iii) The internal models methodology described in paragraph (d) of this section.

(2) *Collateral haircut approach*—(i) *EAD equation.* A national bank or Federal savings association may determine EAD for an eligible margin loan, repo-style transaction, or netting set by setting EAD equal to max

$$\{0, [(\Sigma E - \Sigma C) + \Sigma(E_s \times H_s) + \Sigma(E_{fx} \times H_{fx})]\},$$

where:

(A) ΣE equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set));

(B) ΣC equals the value of the collateral (the sum of the current fair values of all instruments, gold, and cash the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction (or netting set));

(C) E_s equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the sum of the current fair values of the instrument or gold the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of that same instrument or gold the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty);

(D) H_s equals the market price volatility haircut appropriate to the instrument or gold referenced in E_s ;

(E) E_{fx} equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current fair values of any instruments or cash in the

currency the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of any instruments or cash in the currency the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and

(F) H_{fx} equals the haircut appropriate to the mismatch between the currency referenced in E_{fx} and the settlement currency.

(ii) *Standard supervisory haircuts.* (A) Under the standard supervisory haircuts approach:

(1) A national bank or Federal savings association must use the haircuts for market price volatility (H_s) in Table 1 to § 3.132, as adjusted in certain circumstances as provided in paragraphs (b)(2)(ii)(A)(3) and (4) of this section;

TABLE 1 TO § 3.132—STANDARD SUPERVISORY MARKET PRICE VOLATILITY HAIRCUTS ¹

Residual maturity	Haircut (in percent) assigned based on:						Investment grade securitization exposures (in percent)
	Sovereign issuers risk weight under this section ² (in percent)			Non-sovereign issuers risk weight under this section (in percent)			
	Zero	20 or 50	100	20	50	100	
Less than or equal to 1 year	0.5	1.0	15.0	1.0	2.0	4.0	4.0
Greater than 1 year and less than or equal to 5 years	2.0	3.0	15.0	4.0	6.0	8.0	12.0
Greater than 5 years	4.0	6.0	15.0	8.0	12.0	16.0	24.0
Main index equities (including convertible bonds) and gold	15.0						
Other publicly traded equities (including convertible bonds)	25.0						
Mutual funds	Highest haircut applicable to any security in which the fund can invest. ROW RUL= s● ≤						
Cash collateral held	Zero						
Other exposure types	25.0						

¹ The market price volatility haircuts in Table 1 to § 3.132 are based on a 10 business-day holding period.

² Includes a foreign PSE that receives a zero percent risk weight.

(2) For currency mismatches, a national bank or Federal savings association must use a haircut for foreign exchange rate volatility (H_{fx}) of 8 percent, as adjusted in certain circumstances as provided in paragraphs (b)(2)(ii)(A)(3) and (4) of this section.

(3) For repo-style transactions, a national bank or Federal savings association may multiply the supervisory

haircuts provided in paragraphs (b)(2)(ii)(A)(1) and (2) of this section by the square root of $\frac{1}{2}$ (which equals 0.707107).

(4) A national bank or Federal savings association must adjust the supervisory haircuts upward on the basis of a holding period longer than ten business days (for eligible margin loans) or

five business days (for repo-style transactions) where the following conditions apply. If the number of trades in a netting set exceeds 5,000 at any time during a quarter, a national bank or Federal savings association must adjust the supervisory haircuts upward on the basis of a holding period of twenty business days for the following quarter (except when a national bank or Federal savings association is calculating EAD for a cleared transaction under § 3.133). If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, a national bank or Federal savings association must ad-

just the supervisory haircuts upward on the basis of a holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the national bank or Federal savings association must adjust the supervisory haircuts upward for that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set. A national bank or Federal savings association must adjust the standard supervisory haircuts upward using the following formula:

$$H_A = H_S \sqrt{\frac{T_M}{T_S}}, \text{ where,}$$

(i) T_M equals a holding period of longer than 10 business days for eligible margin loans and derivative contracts or longer than 5 business days for repo-style transactions;

(ii) H_S equals the standard supervisory haircut; and

(iii) T_S equals 10 business days for eligible margin loans and derivative contracts or 5 business days for repo-style transactions.

(5) If the instrument a national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral does not meet the definition of financial collateral, the national bank or Federal savings association must use a 25.0 percent haircut for market price volatility (H_S).

(iii) *Own internal estimates for haircuts.* With the prior written approval of the OCC, a national bank or Federal savings association may calculate haircuts (H_S and H_{fx}) using its own internal

estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive OCC approval to use its own internal estimates, a national bank or Federal savings association must satisfy the following minimum quantitative standards:

(1) A national bank or Federal savings association must use a 99th percentile one-tailed confidence interval.

(2) The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days except for transactions or netting sets for which paragraph (b)(2)(iii)(A)(3) of this section applies. When a national bank or Federal savings association calculates an own-estimates haircut on a T_N -day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (H_M) is calculated using the following square root of time formula:

$$H_M = H_N \sqrt{\frac{T_M}{T_N}}, \text{ where}$$

(i) T_M equals 5 for repo-style transactions and 10 for eligible margin loans;

(ii) T_N equals the holding period used by the national bank or Federal savings association to derive H_N ; and

(iii) H_N equals the haircut based on the holding period T_N

(3) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, a national bank or Federal savings association must calculate the haircut using a minimum holding period of twenty business days for the following quarter (except when a national bank or Federal savings association is calculating EAD for a cleared transaction under § 3.133). If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, a national bank or Federal savings association must calculate the haircut using a minimum holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the national bank or Federal savings association must calculate the haircut for transactions in that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set.

(4) A national bank or Federal savings association is required to calculate its own internal estimates with inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the security or category of securities.

(5) A national bank or Federal savings association must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the national bank's or Federal savings association's own internal estimates for haircuts under this section and must be able to provide empirical support for the period used. The national bank or Federal savings association must obtain the prior approval of the OCC for, and notify the OCC if the national bank or Federal savings association makes any material changes to, these policies and procedures.

(6) Nothing in this section prevents the OCC from requiring a national bank or Federal savings association to use a different period of significant financial stress in the calculation of own internal estimates for haircuts.

(7) A national bank or Federal savings association must update its data sets and calculate haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(B) With respect to debt securities that are investment grade, a national bank or Federal savings association may calculate haircuts for categories of securities. For a category of securities, the national bank or Federal savings association must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the national bank or Federal savings association has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the national bank or Federal savings association must at a minimum take into account:

- (1) The type of issuer of the security;
- (2) The credit quality of the security;
- (3) The maturity of the security; and
- (4) The interest rate sensitivity of the security.

(C) With respect to debt securities that are not investment grade and equity securities, a national bank or Federal savings association must calculate a separate haircut for each individual security.

(D) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the national bank or Federal savings association must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(E) A national bank's or Federal savings association's own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and

foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

(3) *Simple VaR methodology.* With the prior written approval of the OCC, a national bank or Federal savings association may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(3)(iii) of this section. In such event, the national bank or Federal savings association must set EAD equal to $\max\{0, [(\Sigma E - \Sigma C) + PFE]\}$, where:

(i) ΣE equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the national bank or Federal savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set);

(ii) ΣC equals the value of the collateral (the sum of the current fair values of all instruments, gold, and cash the national bank or Federal savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the netting set); and

(iii) PFE (potential future exposure) equals the national bank's or Federal savings association's empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of $(\Sigma E - \Sigma C)$ over a five-business-day holding period for repo-style transactions, or over a ten-business-day holding period for eligible margin loans except for netting sets for which paragraph (b)(3)(iv) of this section applies using a minimum one-year historical observation period of price data representing the instruments that the national bank or Federal savings association has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. The national bank or Federal savings association must validate its VaR model by establishing and maintaining a rigorous and regular backtesting regime.

(iv) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, a national bank or Federal savings association must use a

twenty-business-day holding period for the following quarter (except when a national bank or Federal savings association is calculating EAD for a cleared transaction under § 3.133). If a netting set contains one or more trades involving illiquid collateral, a national bank or Federal savings association must use a twenty-business-day holding period. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the national bank or Federal savings association must set its PFE for that netting set equal to an estimate over a holding period that is at least two times the minimum holding period for that netting set.

(c) *EAD for OTC derivative contracts—*
(1) *OTC derivative contracts not subject to a qualifying master netting agreement.* A national bank or Federal savings association must determine the EAD for an OTC derivative contract that is not subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(2) *OTC derivative contracts subject to a qualifying master netting agreement.* A national bank or Federal savings association must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology described in paragraph (d) of this section.

(3) *Credit derivatives.* Notwithstanding paragraphs (c)(1) and (c)(2) of this section:

(i) A national bank or Federal savings association that purchases a credit derivative that is recognized under § 3.134 or § 3.135 as a credit risk mitigant for an exposure that is not a covered position under subpart F of this part is not required to calculate a separate counterparty credit risk capital requirement under this section so long as the national bank or Federal savings association does so consistently for all such credit derivatives and either includes or excludes all such credit derivatives that are subject to a

master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) A national bank or Federal savings association that is the protection provider in a credit derivative must treat the credit derivative as a wholesale exposure to the reference obligor and is not required to calculate a counterparty credit risk capital requirement for the credit derivative under this section, so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the national bank or Federal savings association is treating the credit derivative as a covered position under subpart F of this part, in which case the national bank or Federal savings association must calculate a supplemental counterparty credit risk capital requirement under this section).

(4) *Equity derivatives.* A national bank or Federal savings association must treat an equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the equity derivative contract under §§3.151–3.155 (unless the national bank or Federal savings association is treating the contract as a covered position under subpart F of this part). In addition, if the national bank or Federal savings association is treating the contract as a covered position under subpart F of this part, and under certain other circumstances described in §3.155, the national bank or Federal savings association must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this section.

(5) *Single OTC derivative contract.* Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the national bank’s or Federal savings association’s current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) *Current credit exposure.* The current credit exposure for a single OTC derivative contract is the greater of the mark-to-fair value of the derivative contract or zero; and

(ii) *PFE.* The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-fair value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 2 to §3.132. For purposes of calculating either the PFE under paragraph (c)(5) of this section or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, the notional principal amount is the net receipts to each party falling due on each value date in each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 2 to §3.132, the PFE must be calculated using the “other” conversion factors. A national bank or Federal savings association must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

TABLE 2 TO § 3.132—CONVERSION FACTOR MATRIX FOR OTC DERIVATIVE CONTRACTS ¹

Remaining maturity ²	Interest rate	Foreign exchange rate and gold	Credit (investment-grade reference asset) ³	Credit (non-investment-grade reference asset)	Equity	Precious metals (except gold)	Other
One year or less	0.00	0.01	0.05	0.10	0.06	0.07	0.10
Over one to five years ..	0.005	0.05	0.05	0.10	0.08	0.07	0.12

TABLE 2 TO § 3.132—CONVERSION FACTOR MATRIX FOR OTC DERIVATIVE CONTRACTS¹—
Continued

Remaining maturity ²	Interest rate	Foreign exchange rate and gold	Credit (investment-grade reference asset) ³	Credit (non-investment-grade reference asset)	Equity	Precious metals (except gold)	Other
Over five years	0.015	0.075	0.05	0.10	0.10	0.08	0.15

¹For an OTC derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.

²For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity equals the time until the next reset date. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.

³A national bank or Federal savings association must use the column labeled “Credit (investment-grade reference asset)” for a credit derivative whose reference asset is an outstanding unsecured long-term debt security without credit enhancement that is investment grade. A national bank or Federal savings association must use the column labeled “Credit (non-investment-grade reference asset)” for all other credit derivatives.

(6) *Multiple OTC derivative contracts subject to a qualifying master netting agreement.* Except as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) *Net current credit exposure.* The net current credit exposure is the greater of:

(A) The net sum of all positive and negative fair values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) Zero; and

(ii) *Adjusted sum of the PFE.* The adjusted sum of the PFE, A_{net} , is calculated as

$$A_{net} = (0.4 \times A_{gross}) + (0.6 \times NGR \times A_{gross}),$$

where:

(A) A_{gross} = the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual derivative contract subject to the qualifying master netting agreement); and

(B) NGR = the net to gross ratio (that is, the ratio of the net current credit exposure to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (c)(6)(i) of this section) of all individual derivative contracts subject to

the qualifying master netting agreement.

(7) *Collateralized OTC derivative contracts.* A national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, a national bank or Federal savings association may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked-to-market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The national bank or Federal savings association must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for ΣE in the equation in paragraph (b)(2)(i) of this section and must use a ten-business day minimum holding period ($T_M = 10$) unless a longer holding period is required by paragraph (b)(2)(iii)(A)(3) of this section.

(8) *Clearing member national bank’s or Federal savings association’s EAD.* A clearing member national bank’s or Federal savings association’s EAD for an OTC derivative contract or netting set of OTC derivative contracts where the national bank or Federal savings association is either acting as a financial intermediary and enters into an

offsetting transaction with a QCCP or where the national bank or Federal savings association provides a guarantee to the QCCP on the performance of the client equals the exposure amount calculated according to paragraph (c)(5) or (6) of this section multi-

plied by the scaling factor 0.71. If the national bank or Federal savings association determines that a longer period is appropriate, it must use a larger scaling factor to adjust for a longer holding period as follows:

$$\text{Scaling factor} = \sqrt{\frac{H}{10}}$$

where

H = the holding period greater than five days. Additionally, the OCC may require the national bank or Federal savings association to set a longer holding period if the OCC determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.

(d) *Internal models methodology.* (1)(i) With prior written approval from the OCC, a national bank or Federal savings association may use the internal models methodology in this paragraph (d) to determine EAD for counterparty credit risk for derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof.

(ii) A national bank or Federal savings association that uses the internal models methodology for a particular transaction type (derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type. A national bank or Federal savings association may choose to use the internal models methodology for one or two of these three types of exposures and not the other types.

(iii) A national bank or Federal savings association may also use the internal models methodology for derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(A) The national bank or Federal savings association effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(B) The national bank or Federal savings association obtains the prior written approval of the OCC.

(iv) A national bank or Federal savings association that uses the internal models methodology for a transaction type must receive approval from the OCC to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) *Risk-weighted assets using IMM.* Under the IMM, a national bank or Federal savings association uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE. A national bank or Federal savings association must calculate two EEs and two EADs (one stressed and one unstressed) for each netting set as follows:

(i) $EAD_{\text{unstressed}}$ is calculated using an EE estimate based on the most recent data meeting the requirements of paragraph (d)(3)(vii) of this section;

(ii) EAD_{stressed} is calculated using an EE estimate based on a historical period that includes a period of stress to the credit default spreads of the national bank's or Federal savings association's counterparties according to paragraph (d)(3)(viii) of this section;

(iii) The national bank or Federal savings association must use its internal model's probability distribution for changes in the fair value of a netting set that are attributable to changes in market variables to determine EE; and

(iv) Under the internal models methodology, $EAD = \text{Max}(0, \alpha \times \text{effective EPE} - \text{CVA})$, or, subject to the prior written approval of OCC as provided in paragraph (d)(10) of this section, a more conservative measure of EAD.

(A) CVA equals the credit valuation adjustment that the national bank or Federal savings association has recognized in its balance sheet valuation of

any OTC derivative contracts in the netting set. For purposes of this paragraph (d), CVA does not include any adjustments to common equity tier 1 capital attributable to changes in the fair value of the national bank's or Federal savings association's liabilities that are due to changes in its own credit risk since the inception of the transaction with the counterparty.

$$(B) \text{ Effective EPE}_{t_k} = \sum_{k=1}^n \text{ Effective EE}_k \times \Delta t_k$$

(that is, effective EPE is the time-weighted average of effective EE where the weights are the proportion that an individual effective EE represents in a one-year time interval)

where:

$$(1) \text{ Effective EE}_{t_k} = \max(\text{Effective EE}_{t_{k-1}}, \text{EE}_{t_k}) \text{ (that is, for a specific date } t_k,$$

effective EE is the greater of EE at that date or the effective EE at the previous date); and

$$(2) t_k \text{ represents the } k^{\text{th}} \text{ future time period in the model and there are } n \text{ time periods}$$

represented in the model over the first year, and

(C) $\alpha = 1.4$ except as provided in paragraph (d)(5) of this section, or when the OCC has determined that the national bank or Federal savings association must set α higher based on the national bank's or Federal savings association's specific characteristics of counterparty credit risk or model performance.

(v) A national bank or Federal savings association may include financial collateral currently posted by the counterparty as collateral (but may not include other forms of collateral) when calculating EE.

(vi) If a national bank or Federal savings association hedges some or all of the counterparty credit risk associated with a netting set using an eligible credit derivative, the national bank or Federal savings association may take the reduction in exposure to the counterparty into account when estimating EE. If the national bank or Federal savings association recognizes this reduction in exposure to the

counterparty in its estimate of EE, it must also use its internal model to estimate a separate EAD for the national bank's or Federal savings association's exposure to the protection provider of the credit derivative.

(3) *Prior approval relating to EAD calculation.* To obtain OCC approval to calculate the distributions of exposures upon which the EAD calculation is based, the national bank or Federal savings association must demonstrate to the satisfaction of the OCC that it has been using for at least one year an internal model that broadly meets the following minimum standards, with which the national bank or Federal savings association must maintain compliance:

(i) The model must have the systems capability to estimate the expected exposure to the counterparty on a daily basis (but is not expected to estimate or report expected exposure on a daily basis);

(ii) The model must estimate expected exposure at enough future dates to reflect accurately all the future cash flows of contracts in the netting set;

(iii) The model must account for the possible non-normality of the exposure distribution, where appropriate;

(iv) The national bank or Federal savings association must measure, monitor, and control current counterparty exposure and the exposure to the counterparty over the whole life of all contracts in the netting set;

(v) The national bank or Federal savings association must be able to measure and manage current exposures gross and net of collateral held, where appropriate. The national bank or Federal savings association must estimate expected exposures for OTC derivative contracts both with and without the effect of collateral agreements;

(vi) The national bank or Federal savings association must have procedures to identify, monitor, and control wrong-way risk throughout the life of an exposure. The procedures must include stress testing and scenario analysis;

(vii) The model must use current market data to compute current exposures. The national bank or Federal savings association must estimate model parameters using historical data from the most recent three-year period and update the data quarterly or more frequently if market conditions warrant. The national bank or Federal savings association should consider using model parameters based on forward-looking measures, where appropriate;

(viii) When estimating model parameters based on a stress period, the national bank or Federal savings association must use at least three years of historical data that include a period of stress to the credit default spreads of the national bank's or Federal savings association's counterparties. The national bank or Federal savings association must review the data set and update the data as necessary, particularly for any material changes in its

counterparties. The national bank or Federal savings association must demonstrate, at least quarterly, and maintain documentation of such demonstration, that the stress period coincides with increased CDS or other credit spreads of the national bank's or Federal savings association's counterparties. The national bank or Federal savings association must have procedures to evaluate the effectiveness of its stress calibration that include a process for using benchmark portfolios that are vulnerable to the same risk factors as the national bank's or Federal savings association's portfolio. The OCC may require the national bank or Federal savings association to modify its stress calibration to better reflect actual historic losses of the portfolio;

(ix) A national bank or Federal savings association must subject its internal model to an initial validation and annual model review process. The model review should consider whether the inputs and risk factors, as well as the model outputs, are appropriate. As part of the model review process, the national bank or Federal savings association must have a backtesting program for its model that includes a process by which unacceptable model performance will be determined and remedied;

(x) A national bank or Federal savings association must have policies for the measurement, management and control of collateral and margin amounts; and

(xi) A national bank or Federal savings association must have a comprehensive stress testing program that captures all credit exposures to counterparties, and incorporates stress testing of principal market risk factors and creditworthiness of counterparties.

(4) *Calculating the maturity of exposures.* (i) If the remaining maturity of the exposure or the longest-dated contract in the netting set is greater than one year, the national bank or Federal savings association must set M for the exposure or netting set equal to the lower of five years or $M(EPE)$, where:

$$(A) \quad M(EPE) = 1 + \frac{\sum_{t_k > 1 \text{ year}}^{\text{maturity}} EE_k \times \Delta t_k \times df_k}{\sum_{k=1}^{t_k \leq 1 \text{ year}} \text{effective} EE_k \times \Delta t_k \times df_k};$$

(B) df_k is the risk-free discount factor for future time period t_k ; and

(C) $\Delta t_k = t_k - t_{k-1}$.

(ii) If the remaining maturity of the exposure or the longest-dated contract in the netting set is one year or less, the national bank or Federal savings association must set M for the exposure or netting set equal to one year, except as provided in § 3.131(d)(7).

(iii) Alternatively, a national bank or Federal savings association that uses an internal model to calculate a one-sided credit valuation adjustment may use the effective credit duration estimated by the model as M(EPE) in place of the formula in paragraph (d)(4)(i) of this section.

(5) *Effects of collateral agreements on EAD.* A national bank or Federal savings association may capture the effect on EAD of a collateral agreement that requires receipt of collateral when exposure to the counterparty increases, but may not capture the effect on EAD of a collateral agreement that requires receipt of collateral when counterparty credit quality deteriorates. Two methods are available to capture the effect of a collateral agreement, as set forth in paragraphs (d)(5)(i) and (ii) of this section:

(i) With prior written approval from the OCC, a national bank or Federal savings association may include the effect of a collateral agreement within its internal model used to calculate EAD. The national bank or Federal savings association may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next re-

quired exchange of collateral, plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where applicable, the period of time required to re-hedge the resulting market risk upon the default of the counterparty. The minimum margin period of risk is set according to paragraph (d)(5)(iii) of this section; or

(ii) As an alternative to paragraph (d)(5)(i) of this section, a national bank or Federal savings association that can model EPE without collateral agreements but cannot achieve the higher level of modeling sophistication to model EPE with collateral agreements can set effective EPE for a collateralized netting set equal to the lesser of:

(A) An add-on that reflects the potential increase in exposure of the netting set over the margin period of risk, plus the larger of:

(1) The current exposure of the netting set reflecting all collateral held or posted by the national bank or Federal savings association excluding any collateral called or in dispute; or

(2) The largest net exposure including all collateral held or posted under the margin agreement that would not trigger a collateral call. For purposes of this section, the add-on is computed as the expected increase in the netting set's exposure over the margin period of risk (set in accordance with paragraph (d)(5)(iii) of this section); or

(B) Effective EPE without a collateral agreement plus any collateral the

national bank or Federal savings association posts to the counterparty that exceeds the required margin amount.

(iii) For purposes of this part, including paragraphs (d)(5)(i) and (ii) of this section, the margin period of risk for a netting set subject to a collateral agreement is:

(A) Five business days for repo-style transactions subject to daily remarking and daily marking-to-market, and ten business days for other transactions when liquid financial collateral is posted under a daily margin maintenance requirement, or

(B) Twenty business days if the number of trades in a netting set exceeds 5,000 at any time during the previous quarter or contains one or more trades involving illiquid collateral or any derivative contract that cannot be easily replaced (except if the national bank or Federal savings association is calculating EAD for a cleared transaction under § 3.133). If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the margin period of risk, then the national bank or Federal savings association must use a margin period of risk for that netting set that is at least two times the minimum margin period of risk for that netting set. If the periodicity of the receipt of collateral is N-days, the minimum margin period of risk is the minimum margin period of risk under this paragraph (d) plus N minus 1. This period should be extended to cover any impediments to prompt re-hedging of any market risk.

(C) Five business days for an OTC derivative contract or netting set of OTC derivative contracts where the national bank or Federal savings association is either acting as a financial intermediary and enters into an offsetting transaction with a CCP or where the national bank or Federal savings association provides a guarantee to the CCP on the performance of the client. A national bank or Federal savings association must use a longer holding period if the national bank or Federal savings association determines that a longer period is appropriate. Additionally, the OCC may require the national bank or Federal savings association to set a longer holding period if the OCC

determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.

(6) *Own estimate of alpha.* With prior written approval of the OCC, a national bank or Federal savings association may calculate alpha as the ratio of economic capital from a full simulation of counterparty exposure across counterparties that incorporates a joint simulation of market and credit risk factors (numerator) and economic capital based on EPE (denominator), subject to a floor of 1.2. For purposes of this calculation, economic capital is the unexpected losses for all counterparty credit risks measured at a 99.9 percent confidence level over a one-year horizon. To receive approval, the national bank or Federal savings association must meet the following minimum standards to the satisfaction of the OCC:

(i) The national bank's or Federal savings association's own estimate of alpha must capture in the numerator the effects of:

(A) The material sources of stochastic dependency of distributions of fair values of transactions or portfolios of transactions across counterparties;

(B) Volatilities and correlations of market risk factors used in the joint simulation, which must be related to the credit risk factor used in the simulation to reflect potential increases in volatility or correlation in an economic downturn, where appropriate; and

(C) The granularity of exposures (that is, the effect of a concentration in the proportion of each counterparty's exposure that is driven by a particular risk factor).

(ii) The national bank or Federal savings association must assess the potential model uncertainty in its estimates of alpha.

(iii) The national bank or Federal savings association must calculate the numerator and denominator of alpha in a consistent fashion with respect to modeling methodology, parameter specifications, and portfolio composition.

(iv) The national bank or Federal savings association must review and

adjust as appropriate its estimates of the numerator and denominator of alpha on at least a quarterly basis and more frequently when the composition of the portfolio varies over time.

(7) *Risk-based capital requirements for transactions with specific wrong-way risk.* A national bank or Federal savings association must determine if a repo-style transaction, eligible margin loan, bond option, or equity derivative contract or purchased credit derivative to which the national bank or Federal savings association applies the internal models methodology under this paragraph (d) has specific wrong-way risk. If a transaction has specific wrong-way risk, the national bank or Federal savings association must treat the transaction as its own netting set and exclude it from the model described in § 3.132(d)(2) and instead calculate the risk-based capital requirement for the transaction as follows:

(i) For an equity derivative contract, by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of § 3.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The maximum amount the national bank or Federal savings association could lose on the equity derivative.

(ii) For a purchased credit derivative by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of § 3.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The fair value of the reference asset of the credit derivative.

(iii) For a bond option, by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of § 3.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The smaller of the notional amount of the underlying reference asset and the maximum potential loss under the bond option contract.

(iv) For a repo-style transaction or eligible margin loan by multiplying:

(A) K, calculated using the appropriate risk-based capital formula speci-

fied in Table 1 of § 3.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The EAD of the transaction determined according to the EAD equation in § 3.131(b)(2), substituting the estimated value of the collateral assuming a default of the counterparty for the value of the collateral in Σc of the equation.

(8) *Risk-weighted asset amount for IMM exposures with specific wrong-way risk.* The aggregate risk-weighted asset amount for IMM exposures with specific wrong-way risk is the sum of a national bank's or Federal savings association's risk-based capital requirement for purchased credit derivatives that are not bond options with specific wrong-way risk as calculated under paragraph (d)(7)(ii) of this section, a national bank's or Federal savings association's risk-based capital requirement for equity derivatives with specific wrong-way risk as calculated under paragraph (d)(7)(i) of this section, a national bank's or Federal savings association's risk-based capital requirement for bond options with specific wrong-way risk as calculated under paragraph (d)(7)(iii) of this section, and a national bank's or Federal savings association's risk-based capital requirement for repo-style transactions and eligible margin loans with specific wrong-way risk as calculated under paragraph (d)(7)(iv) of this section, multiplied by 12.5.

(9) *Risk-weighted assets for IMM exposures.* (i) The national bank or Federal savings association must insert the assigned risk parameters for each counterparty and netting set into the appropriate formula specified in Table 1 of § 3.131 and multiply the output of the formula by the $EAD_{\text{unstressed}}$ of the netting set to obtain the unstressed capital requirement for each netting set. A national bank or Federal savings association that uses an advanced CVA approach that captures migrations in credit spreads under paragraph (e)(3) of this section must set the maturity adjustment (b) in the formula equal to zero. The sum of the unstressed capital requirement calculated for each netting set equals $K_{\text{unstressed}}$.

(ii) The national bank or Federal savings association must insert the assigned risk parameters for each wholesale obligor and netting set into the appropriate formula specified in Table 1 of § 3.131 and multiply the output of the formula by the EAD_{stressed} of the netting set to obtain the stressed capital requirement for each netting set. A national bank or Federal savings association that uses an advanced CVA approach that captures migrations in credit spreads under paragraph (e)(3) of this section must set the maturity adjustment (b) in the formula equal to zero. The sum of the stressed capital requirement calculated for each netting set equals K_{stressed} .

(iii) The national bank's or Federal savings association's dollar risk-based capital requirement under the internal models methodology equals the larger of $K_{\text{unstressed}}$ and K_{stressed} . A national bank's or Federal savings association's risk-weighted assets amount for IMM exposures is equal to the capital requirement multiplied by 12.5, plus risk-weighted assets for IMM exposures with specific wrong-way risk in paragraph (d)(8) of this section and those in paragraph (d)(10) of this section.

(10) *Other measures of counterparty exposure.* (i) With prior written approval of the OCC, a national bank or Federal savings association may set EAD equal to a measure of counterparty credit risk exposure, such as peak EAD, that is more conservative than an alpha of 1.4 (or higher under the terms of paragraph (d)(7)(iv)(C) of this section) times the larger of $EPE_{\text{unstressed}}$ and EPE_{stressed} for every counterparty whose EAD will be measured under the alternative measure of counterparty exposure. The national bank or Federal savings association must demonstrate the conservatism of the measure of counterparty credit risk exposure used for EAD. With respect to paragraph (d)(10)(i) of this section:

(A) For material portfolios of new OTC derivative products, the national bank or Federal savings association may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this section for a period not to exceed 180 days.

(B) For immaterial portfolios of OTC derivative contracts, the national bank or Federal savings association generally may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this section.

(ii) To calculate risk-weighted assets for purposes of the approach in paragraph (d)(10)(i) of this section, the national bank or Federal savings association must insert the assigned risk parameters for each counterparty and netting set into the appropriate formula specified in Table 1 of § 3.131, multiply the output of the formula by the EAD for the exposure as specified above, and multiply by 12.5.

(e) *Credit valuation adjustment (CVA) risk-weighted assets—(1) In general.* With respect to its OTC derivative contracts, a national bank or Federal savings association must calculate a CVA risk-weighted asset amount for its portfolio of OTC derivative transactions that are subject to the CVA capital requirement using the simple CVA approach described in paragraph (e)(5) of this section or, with prior written approval of the OCC, the advanced CVA approach described in paragraph (e)(6) of this section. A national bank or Federal savings association that receives prior OCC approval to calculate its CVA risk-weighted asset amounts for a class of counterparties using the advanced CVA approach must continue to use that approach for that class of counterparties until it notifies the OCC in writing that the national bank or Federal savings association expects to begin calculating its CVA risk-weighted asset amount using the simple CVA approach. Such notice must include an explanation of the national bank's or Federal savings association's rationale and the date upon which the national bank or Federal savings association will begin to calculate its CVA risk-weighted asset amount using the simple CVA approach.

(2) *Market risk national banks or Federal savings associations.* Notwithstanding the prior approval requirement in paragraph (e)(1) of this section, a market risk national bank or Federal savings association may calculate its CVA risk-weighted asset amount using

§ 3.132

12 CFR Ch. I (1–1–14 Edition)

the advanced CVA approach if the national bank or Federal savings association has OCC approval to:

(i) Determine EAD for OTC derivative contracts using the internal models methodology described in paragraph (d) of this section; and

(ii) Determine its specific risk add-on for debt positions issued by the counterparty using a specific risk model described in § 3.207(b).

(3) *Recognition of hedges.* (i) A national bank or Federal savings association may recognize a single name CDS, single name contingent CDS, any other equivalent hedging instrument that references the counterparty directly, and index credit default swaps (CDS_{ind}) as a CVA hedge under paragraph (e)(5)(ii) of this section or paragraph (e)(6) of this section, provided that the

position is managed as a CVA hedge in accordance with the national bank's or Federal savings association's hedging policies.

(ii) A national bank or Federal savings association shall not recognize as a CVA hedge any tranching or nth-to-default credit derivative.

(4) *Total CVA risk-weighted assets.* Total CVA risk-weighted assets is the CVA capital requirement, K_{CVA}, calculated for a national bank's or Federal savings association's entire portfolio of OTC derivative counterparties that are subject to the CVA capital requirement, multiplied by 12.5.

(5) *Simple CVA approach.* (i) Under the simple CVA approach, the CVA capital requirement, K_{CVA}, is calculated according to the following formula:

$$K_{CVA} = 2.33 \times \sqrt{\left(\sum_i 0.5 \times w_i \times (M_i \times EAD_i^{total} - M_i^{hedge} \times B_i) - \sum_{ind} w_{ind} \times M_{ind} \times B_{ind} \right)^2 + A}$$

Where:

$$A = \sum_i 0.75 \times w_i^2 \times (M_i \times EAD_i^{total} - M_i^{hedge} \times B_i)^2$$

(A) w_i = the weight applicable to counterparty i under Table 3 to § 3.132;

(B) M_i = the EAD-weighted average of the effective maturity of each netting set with counterparty i (where each netting set's effective maturity can be no less than one year.)

(C) EAD_i^{total} = the sum of the EAD for all netting sets of OTC derivative contracts with counterparty i calculated using the current exposure methodology described in paragraph (c) of this section or the internal models methodology described in paragraph (d) of this section. When the national bank or Federal savings association calculates EAD under paragraph (c) of this section, such EAD may be adjusted for purposes of calculating EAD_i^{total} by multiplying EAD by $(1 - \exp(-0.05 \times M_i)) / (0.05 \times M_i)$, where "exp" is the exponential function. When the national bank or Federal savings association calculates EAD under paragraph (d) of this section, EAD_i^{total} equals $EAD_{unstressed}$.

(D) M_i^{hedge} = the notional weighted average maturity of the hedge instrument.

(E) B_i = the sum of the notional amounts of any purchased single name CDS referencing counterparty i that is used to hedge CVA risk to counterparty i multiplied by $(1 - \exp(-0.05 \times M_i^{hedge})) / (0.05 \times M_i^{hedge})$.

(F) M_{ind} = the maturity of the CDS_{ind} or the notional weighted average maturity of any CDS_{ind} purchased to hedge CVA risk of counterparty i .

(G) B_{ind} = the notional amount of one or more CDS_{ind} purchased to hedge CVA risk for counterparty i multiplied by $(1 - \exp(-0.05 \times M_{ind})) / (0.05 \times M_{ind})$.

(H) w_{ind} = the weight applicable to the CDS_{ind} based on the average weight of the underlying reference names that comprise the index under Table 3 to § 3.132.

(ii) The national bank or Federal savings association may treat the notional amount of the index attributable to a

counterparty as a single name hedge of counterparty i (B_i) when calculating K_{CVA} , and subtract the notional amount of B_i from the notional amount of the CDS_{ind} . A national bank or Federal savings association must treat the CDS_{ind} hedge with the notional amount reduced by B_i as a CVA hedge.

TABLE 3 TO § 3.132—ASSIGNMENT OF COUNTERPARTY WEIGHT

Internal PD (in percent)	Weight w_i (in percent)
0.00–0.07	0.70
>0.070–0.15	0.80
>0.15–0.40	1.00
>0.40–2.00	2.00
>2.00–6.00	3.00
>6.00	10.00

(6) *Advanced CVA approach.* (i) A national bank or Federal savings association may use the VaR model that it uses to determine specific risk under § 3.207(b) or another VaR model that meets the quantitative requirements of § 3.205(b) and § 3.207(b)(1) to calculate its CVA capital requirement for a counterparty by modeling the impact of changes in the counterparties' credit

spreads, together with any recognized CVA hedges, on the CVA for the counterparties, subject to the following requirements:

(A) The VaR model must incorporate only changes in the counterparties' credit spreads, not changes in other risk factors. The VaR model does not need to capture jump-to-default risk;

(B) A national bank or Federal savings association that qualifies to use the advanced CVA approach must include in that approach any immaterial OTC derivative portfolios for which it uses the current exposure methodology in paragraph (c) of this section according to paragraph (e)(6)(viii) of this section; and

(C) A national bank or Federal savings association must have the systems capability to calculate the CVA capital requirement for a counterparty on a daily basis (but is not required to calculate the CVA capital requirement on a daily basis).

(ii) Under the advanced CVA approach, the CVA capital requirement, K_{CVA} , is calculated according to the following formulas:

$$K_{CVA} = 3 \times (VaR_{Unstressed}^{CVA} + VaR_{Stressed}^{CVA})$$

where VaR_j^{CVA} is the 99% VaR reflecting changes of CVA_j and fair value of eligible

hedges (aggregated across all counterparties and eligible hedges) resulting from simulated

changes of credit spreads over a 10-day time horizon. CVA_j for a given counterparty must be

calculated according to

$$CVA_j = (LGD_{MKT}) \times \sum_{i=1}^T \text{Max} \left(0; \exp \left(-\frac{s_{i-1} \times t_{i-1}}{LGD_{MKT}} \right) - \exp \left(-\frac{s_i \times t_i}{LGD_{MKT}} \right) \right) \times \left(\frac{EE_{i-1} \times D_{i-1} + EE_i \times D_i}{2} \right)$$

Where

(A) t_i = the time of the i -th revaluation time bucket starting from $t_0 = 0$.

(B) t_T = the longest contractual maturity across the OTC derivative contracts with the counterparty.

(C) s_i = the CDS spread for the counterparty at tenor t_i used to calculate the CVA for the counterparty. If

a CDS spread is not available, the national bank or Federal savings association must use a proxy spread based on the credit quality, industry and region of the counterparty.

(D) LGD_{MKT} = the loss given default of the counterparty based on the spread of a publicly traded debt instrument of the counterparty, or, where a publicly

§ 3.132

12 CFR Ch. I (1–14 Edition)

traded debt instrument spread is not available, a proxy spread based on the credit quality, industry, and region of the counterparty. Where no market information and no reliable proxy based on the credit quality, industry, and region of the counterparty are available to determine LGD_{MKT} , a national bank or Federal savings association may use a conservative estimate when determining LGD_{MKT} , subject to approval by the OCC.

(E) EE_i = the sum of the expected exposures for all netting sets with the counterparty at revaluation time t_i , calculated according to paragraphs (e)(6)(iv)(A) and (e)(6)(v)(A) of this section.

(F) D_i = the risk-free discount factor at time t_i , where $D_0 = 1$.

(G) Exp is the exponential function.

(H) The subscript j refers either to a stressed or an unstressed calibration as described in paragraphs (e)(6)(iv) and (v) of this section.

(iii) Notwithstanding paragraphs (e)(6)(i) and (e)(6)(ii) of this section, a national bank or Federal savings association must use the formulas in paragraphs (e)(6)(iii)(A) or (e)(6)(iii)(B) of this section to calculate credit spread sensitivities if its VaR model is not based on full repricing.

(A) If the VaR model is based on credit spread sensitivities for specific tenors, the national bank or Federal savings association must calculate each credit spread sensitivity according to the following formula:

Regulatory CS01 =

$$0.0001 \times t_i \times \exp\left(-\frac{s_i \times t_i}{LGD_{MKT}}\right) \times \left(\frac{EE_{i-1} \times D_{i-1} - EE_{i+1} \times D_{i+1}}{2}\right)$$

For the final time bucket $i = T$, the corresponding formula is

$$\text{Regulatory CS01} = 0.0001 \times t_i \times \exp\left(-\frac{s_i \times t_i}{LGD_{MKT}}\right) \times \left(\frac{EE_{i-1} \times D_{i-1} + EE_T \times D_T}{2}\right)$$

(B) If the VaR model uses credit spread sensitivities to parallel shifts in credit spreads,

the [BANK] must calculate each credit spread sensitivity according to the following formula:

Regulatory CS01 =

$$0.0001 \times \sum_{i=1}^T \left(t_i \times \exp\left(-\frac{s_i \times t_i}{LGD_{MKT}}\right) - t_{i-1} \times \exp\left(-\frac{s_{i-1} \times t_{i-1}}{LGD_{MKT}}\right) \right) \times \left(\frac{EE_{i-1} \times D_{i-1} + EE_i \times D_i}{2}\right)$$

(iv) To calculate the $CVA_{Unstressed}$ measure for purposes of paragraph (e)(6)(ii) of this section, the national bank or Federal savings association must:

(A) Use the EE_i calculated using the calibration of paragraph (d)(3)(vii) of this section, except as provided in § 3.132(e)(6)(vi), and

(B) Use the historical observation period required under § 3.205(b)(2).

(v) To calculate the $CVA_{Stressed}$ measure for purposes of paragraph (e)(6)(ii)

of this section, the national bank or Federal savings association must:

(A) Use the EE_i calculated using the stress calibration in paragraph (d)(3)(viii) of this section except as provided in paragraph (e)(6)(vi) of this section.

(B) Calibrate VaR model inputs to historical data from the most severe twelve-month stress period contained within the three-year stress period

used to calculate EE_i . The OCC may require a national bank or Federal savings association to use a different period of significant financial stress in the calculation of the CVA_{Stressed} measure.

(vi) If a national bank or Federal savings association captures the effect of a collateral agreement on EAD using the method described in paragraph (d)(5)(ii) of this section, for purposes of paragraph (e)(6)(ii) of this section, the national bank or Federal savings association must calculate EE_i using the method in paragraph (d)(5)(ii) of this section and keep that EE constant with the maturity equal to the maximum of:

(A) Half of the longest maturity of a transaction in the netting set, and

(B) The notional weighted average maturity of all transactions in the netting set.

(vii) For purposes of paragraph (e)(6) of this section, the national bank's or Federal savings association's VaR model must capture the basis between the spreads of any CDS_{ind} that is used as the hedging instrument and the hedged counterparty exposure over various time periods, including benign and stressed environments. If the VaR model does not capture that basis, the national bank or Federal savings association must reflect only 50 percent of the notional amount of the CDS_{ind} hedge in the VaR model.

(viii) If a national bank or Federal savings association uses the current exposure methodology described in paragraphs (c)(5) and (c)(6) of this section to calculate the EAD for any immaterial portfolios of OTC derivative contracts, the national bank or Federal savings association must use that EAD as a constant EE in the formula for the calculation of CVA with the maturity equal to the maximum of:

(A) Half of the longest maturity of a transaction in the netting set, and

(B) The notional weighted average maturity of all transactions in the netting set.

§ 3.133 Cleared transactions.

(a) *General requirements.* (1) A national bank or Federal savings association that is a clearing member client must use the methodologies described

in paragraph (b) of this section to calculate risk-weighted assets for a cleared transaction.

(2) A national bank or Federal savings association that is a clearing member must use the methodologies described in paragraph (c) of this section to calculate its risk-weighted assets for cleared transactions and paragraph (d) of this section to calculate its risk-weighted assets for its default fund contribution to a CCP.

(b) *Clearing member client national banks or Federal savings associations—(1) Risk-weighted assets for cleared transactions.* (i) To determine the risk-weighted asset amount for a cleared transaction, a national bank or Federal savings association that is a clearing member client must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (b)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (b)(3) of this section.

(ii) A clearing member client national bank's or Federal savings association's total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) *Trade exposure amount.* (i) For a cleared transaction that is a derivative contract or a netting set of derivative contracts, trade exposure amount equals the EAD for the derivative contract or netting set of derivative contracts calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in § 3.132(c) or (d), plus the fair value of the collateral posted by the clearing member client national bank or Federal savings association and held by the CCP or a clearing member in a manner that is not bankruptcy remote. When the national bank or Federal savings association calculates EAD for the cleared transaction using the methodology in § 3.132(d), EAD equals $EAD_{\text{unstressed}}$.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals the EAD for the repo-style transaction calculated using the methodology set forth in § 3.132(b)(2), (b)(3), or (d), plus the fair

§ 3.133

12 CFR Ch. I (1–1–14 Edition)

value of the collateral posted by the clearing member client national bank or Federal savings association and held by the CCP or a clearing member in a manner that is not bankruptcy remote. When the national bank or Federal savings association calculates EAD for the cleared transaction under § 3.132(d), EAD equals EAD_{unstressed}.

(3) *Cleared transaction risk weights.* (i) For a cleared transaction with a QCCP, a clearing member client national bank or Federal savings association must apply a risk weight of:

(A) 2 percent if the collateral posted by the national bank or Federal savings association to the QCCP or clearing member is subject to an arrangement that prevents any loss to the clearing member client national bank or Federal savings association due to the joint default or a concurrent insolvency, liquidation, or receivership proceeding of the clearing member and any other clearing member clients of the clearing member; and the clearing member client national bank or Federal savings association has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from an event of default or from liquidation, insolvency or receivership proceedings) the relevant court and administrative authorities would find the arrangements to be legal, valid, binding and enforceable under the law of the relevant jurisdictions.

(B) 4 percent, if the requirements of § 3.132(b)(3)(i)(A) are not met.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member client national bank or Federal savings association must apply the risk weight applicable to the CCP under § 3.32.

(4) *Collateral.* (i) Notwithstanding any other requirement of this section, collateral posted by a clearing member client national bank or Federal savings association that is held by a custodian (in its capacity as custodian) in a manner that is bankruptcy remote from the CCP, the custodian, clearing member, and other clearing member clients of the clearing member, is not subject

to a capital requirement under this section.

(ii) A clearing member client national bank or Federal savings association must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member or a custodian in connection with a cleared transaction in accordance with requirements under § 3.131.

(c) *Clearing member national bank or Federal savings association—(1) Risk-weighted assets for cleared transactions.*

(i) To determine the risk-weighted asset amount for a cleared transaction, a clearing member national bank or Federal savings association must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (c)(2) of this section by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (c)(3) of this section.

(ii) A clearing member national bank's or Federal savings association's total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) *Trade exposure amount.* A clearing member national bank or Federal savings association must calculate its trade exposure amount for a cleared transaction as follows:

(i) For a cleared transaction that is a derivative contract or a netting set of derivative contracts, trade exposure amount equals the EAD calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in § 3.132(c) or § 3.132(d), plus the fair value of the collateral posted by the clearing member national bank or Federal savings association and held by the CCP in a manner that is not bankruptcy remote. When the clearing member national bank or Federal savings association calculates EAD for the cleared transaction using the methodology in § 3.132(d), EAD equals EAD_{unstressed}.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals the EAD calculated under §§ 3.132(b)(2), (b)(3), or (d), plus the fair value of the collateral posted by the clearing member national bank

or Federal savings association and held by the CCP in a manner that is not bankruptcy remote. When the clearing member national bank or Federal savings association calculates EAD for the cleared transaction under § 3.132(d), EAD equals EAD_{unstressed}.

(3) *Cleared transaction risk weights.* (i) A clearing member national bank or Federal savings association must apply a risk weight of 2 percent to the trade exposure amount for a cleared transaction with a QCCP.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member national bank or Federal savings association must apply the risk weight applicable to the CCP according to § 3.32.

(4) *Collateral.* (i) Notwithstanding any other requirement of this section, collateral posted by a clearing member national bank or Federal savings association that is held by a custodian in a manner that is bankruptcy remote from the CCP is not subject to a capital requirement under this section.

(ii) A clearing member national bank or Federal savings association must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member or a custodian in connection with a cleared transaction in accordance with requirements under § 3.131.

(d) *Default fund contributions—(1) General requirement.* A clearing member national bank or Federal savings associa-

tion must determine the risk-weighted asset amount for a default fund contribution to a CCP at least quarterly, or more frequently if, in the opinion of the national bank or Federal savings association or the OCC, there is a material change in the financial condition of the CCP.

(2) *Risk-weighted asset amount for default fund contributions to non-qualifying CCPs.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for default fund contributions to CCPs that are not QCCPs equals the sum of such default fund contributions multiplied by 1,250 percent or an amount determined by the OCC, based on factors such as size, structure and membership characteristics of the CCP and riskiness of its transactions, in cases where such default fund contributions may be unlimited.

(3) *Risk-weighted asset amount for default fund contributions to QCCPs.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for default fund contributions to QCCPs equals the sum of its capital requirement, K_{CM} for each QCCP, as calculated under the methodology set forth in paragraph (d)(3)(i) of this section (Method 1), multiplied by 1,250 percent or paragraph (d)(3)(iv) of this section (Method 2).

(i) *Method 1.* The hypothetical capital requirement of a QCCP (K_{CCP}) equals:

$$K_{CCP} = \sum_{\text{clearing member } i} \max (EBRM_i - VM_i - IM_i - DF_i; 0) \times RW \times 0.08$$

Where

(A) $EBRM_i$ = the EAD for each transaction cleared through the QCCP by clearing member i , calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in § 3.132(c)(5) and § 3.132(c)(6) or the methodology used to calculate EAD for repo-style transactions set forth in § 3.132(b)(2) for repo-style transactions, provided that:

(1) For purposes of this section, when calculating the EAD, the national bank or Federal savings association may re-

place the formula provided in § 3.132(c)(6)(ii) with the following formula:

$Anet = (0.15 \times A_{\text{gross}}) + (0.85 \times NGR \times A_{\text{gross}})$; and

(2) For option derivative contracts that are cleared transactions, the PFE described in § 3.132(c)(5) must be adjusted by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 2 to § 3.132 and the absolute value of the option's delta, that is, the ratio of the change in the value of

§ 3.133**12 CFR Ch. I (1–1–14 Edition)**

the derivative contract to the corresponding change in the price of the underlying asset.

(3) For repo-style transactions, when applying § 3.132(b)(2), the national bank or Federal savings association must use the methodology in § 3.132(b)(2)(ii).

(B) VM_i = any collateral posted by clearing member i to the QCCP that it is entitled to receive from the QCCP but has not yet received, and any collateral that the QCCP has actually received from clearing member i ;

(C) IM_i = the collateral posted as initial margin by clearing member i to the QCCP;

(D) DF_i = the funded portion of clearing member i 's default fund contribution that will be applied to reduce the QCCP's loss upon a default by clearing member i ; and

(E) RW = 20 percent, except when the OCC has determined that a higher risk weight is more appropriate based on the specific characteristics of the QCCP and its clearing members; and

(F) Where a QCCP has provided its K_{CCP} , a national bank or Federal savings association must rely on such disclosed figure instead of calculating K_{CCP} under this paragraph (d), unless the national bank or Federal savings association determines that a more conservative figure is appropriate based on the nature, structure, or characteristics of the QCCP.

(ii) For a national bank or Federal savings association that is a clearing member of a QCCP with a default fund supported by funded commitments, K_{CM} equals:

$$K_{CM_i} = \left(1 + \beta \cdot \frac{N}{N-2}\right) \cdot \frac{DF_i}{DF_{CM}} \cdot K_{CM}^*$$

$$K_{CM}^* = \begin{cases} c_2 \cdot \mu \cdot (K_{CCP} - DF') + c_2 \cdot DF_{CM}' & \text{if } DF' < K_{CCP} \quad (i) \\ c_2 \cdot (K_{CCP} - DF_{CCP}') + c_1 \cdot (DF' - K_{CCP}') & \text{if } DF_{CCP}' < K_{CCP}' \leq DF' \quad (ii) \\ c_1 \cdot DF_{CM}' & \text{if } K_{CCP}' \leq DF_{CCP}' \quad (iii) \end{cases}$$

Where

$$(A) \beta = \frac{A_{Net,1} + A_{Net,2}}{\sum_i A_{Net,i}}$$

Subscripts 1 and 2 denote the clearing members with the two largest A_{Net} values.

For purposes of this section, for cleared transactions that are derivatives, A_{Net} is defined using the definition set forth in § ____.132(c)(6)(ii) and for cleared transactions that are repo-style transactions, A_{Net} is the EAD equation $\max \{0, [(\sum E - \sum C) + \sum (E_s \times H_s) + \sum (E_{fx})]\}$ from § ____.132(b)(2)(i) using the methodology in § ____.132(b)(2)(ii);

(B) N = the number of clearing members in the QCCP;

(C) DF_{CCP} = the QCCP's own funds and other financial resources that would be used to cover its losses before clearing members' default fund contributions are used to cover losses;

(D) DF_{CM} = Funded default fund contributions from all clearing members and any other clearing member contributed financial resources that are available to absorb mutualized QCCP losses;

(E) DF = $DF_{CCP} + DF_{CM}$ (that is, the total funded default fund contribution);

(F) \overline{DF}_i = Average \overline{DF}_i = the average funded default fund contribution from an individual clearing member;

§ 3.133

12 CFR Ch. I (1–1–14 Edition)

$$(G) \quad DF'_{CM} = DF_{CM} - 2 \cdot \overline{DF}_i = \sum_i DF_i - 2 \cdot \overline{DF}_i \quad (\text{that is, the funded default fund}$$

contribution from surviving clearing members assuming that two average clearing members have defaulted and their default fund contributions and initial margins have been used to absorb the resulting losses);

$$(H) \quad DF' = DF_{CCP} + DF'_{CM} = DF - 2 \cdot \overline{DF}_i$$

(that is, the total funded default fund contributions from the QCCP and the surviving clearing members that are available to mutualize losses, assuming that two average clearing members have defaulted);

$$(I) \quad c_1 = \text{Max} \left\{ \frac{1.6\%}{(DF'/K_{CCP})^{0.3}}; 0.16\% \right\}$$

(that is, a decreasing capital factor, between 1.6 percent and .16 percent, applied to the excess funded default funds provided by clearing members);

$$(J) \quad c_2 = 100 \text{ percent; and}$$

$$(K) \quad \mu = 1.2;$$

(iii) For a [BANK] that is a clearing member of a QCCP with a default fund supported by unfunded commitments, K_{CM} equals:

$$K_{CM_i} = \frac{DF_i}{DF_{CM}} \cdot K_{CM}^*$$

Where:

(A) DF_i = the national bank's or Federal savings association's unfunded commitment to the default fund;

(B) DF_{CM} = the total of all clearing members' unfunded commitments to the default fund; and

(C) K_{CM}^* as defined in paragraph (d)(3)(ii) of this section.

(D) For a national bank or Federal savings association that is a clearing member of a QCCP with a default fund supported by unfunded commitments and that is unable to calculate K_{CM} using the methodology described above in this paragraph (d)(3)(iii), K_{CM} equals:

$$K_{CM_i} = \frac{IM_i}{IM_{CM}} \cdot K_{CM}^*$$

Where:

(1) IM_i = the national bank's or Federal savings association's initial margin posted to the QCCP;

(2) IM_{CM} = the total of initial margin posted to the QCCP; and

(3) K^*_{CM} as defined above in this paragraph (d)(3)(iii).

(iv) *Method 2.* A clearing member national bank's or Federal savings association's risk-weighted asset amount for its default fund contribution to a QCCP, RWA_{DF} , equals:

$$RWA_{DF} = \text{Min} \{12.5 * DF; 0.18 * TE\}$$

Where:

(A) TE = the national bank's or Federal savings association's trade exposure amount to the QCCP calculated according to section 133(c)(2);

(B) DF = the funded portion of the national bank's or Federal savings association's default fund contribution to the QCCP.

(v) *Total risk-weighted assets for default fund contributions.* Total risk-weighted assets for default fund contributions is the sum of a clearing member national bank's or Federal savings association's risk-weighted assets for all of its default fund contributions to all CCPs of which the national bank or Federal savings association is a clearing member.

§3.134 Guarantees and credit derivatives: PD substitution and LGD adjustment approaches.

(a) *Scope.* (1) This section applies to wholesale exposures for which:

(i) Credit risk is fully covered by an eligible guarantee or eligible credit derivative; or

(ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the national bank or Federal savings association and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Wholesale exposures on which there is a tranching of credit risk (reflecting at least two different levels of seniority) are securitization exposures subject to §3.141 through §3.145.

(3) A national bank or Federal savings association may elect to recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit

derivative covering an exposure described in paragraph (a)(1) of this section by using the PD substitution approach or the LGD adjustment approach in paragraph (c) of this section or, if the transaction qualifies, using the double default treatment in §3.135. A national bank's or Federal savings association's PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in §3.131(d)(2) and (d)(3).

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in paragraph (a)(1) of this section, a national bank or Federal savings association may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-based capital requirement for each separate exposure as described in paragraph (a)(3) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged wholesale exposures described in paragraph (a)(1) of this section, a national bank or Federal savings association must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and must calculate a separate risk-based capital requirement for each exposure as described in paragraph (a)(3) of this section.

(6) A national bank or Federal savings association must use the same risk parameters for calculating ECL as it uses for calculating the risk-based capital requirement for the exposure.

(b) *Rules of recognition.* (1) A national bank or Federal savings association may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A national bank or Federal savings association may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative's reference exposure used for determining the derivative's cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks *pari passu* (that is, equally) with or is junior to the hedged exposure; and

(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) *Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, a national bank or Federal savings association may recognize the guarantee or credit derivative in determining the national bank's or Federal savings association's risk-based capital requirement for the hedged exposure by substituting the PD associated with the rating grade of the protection provider for the PD associated with the rating grade of the obligor in the risk-based capital formula applicable to the guarantee or credit derivative in Table 1 of § 3.131 and using the appropriate LGD as described in paragraph (c)(1)(iii) of this section. If the national bank or Federal savings association determines that full substitution of the protection provider's PD leads to an inappropriate degree of risk mitigation, the national bank or Federal savings association may substitute a higher PD than that of the protection provider.

(ii) *Partial coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and P of the guarantee or credit derivative is less than the EAD of the hedged exposure, the national bank or Federal savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The national bank or Federal savings association must calculate its risk-based capital requirement for the

protected exposure under § 3.131, where PD is the protection provider's PD, LGD is determined under paragraph (c)(1)(iii) of this section, and EAD is P. If the national bank or Federal savings association determines that full substitution leads to an inappropriate degree of risk mitigation, the national bank or Federal savings association may use a higher PD than that of the protection provider.

(B) The national bank or Federal savings association must calculate its risk-based capital requirement for the unprotected exposure under § 3.131, where PD is the obligor's PD, LGD is the hedged exposure's LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in paragraph (c)(1)(ii) of this section is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraphs (d), (e), or (f) of this section.

(iii) *LGD of hedged exposures.* The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the national bank or Federal savings association with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the national bank or Federal savings association with the option to receive immediate payout upon triggering the protection.

(2) *LGD adjustment approach.* (i) *Full coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, the national bank's or Federal savings association's risk-

based capital requirement for the hedged exposure is the greater of:

(A) The risk-based capital requirement for the exposure as calculated under § 3.131, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative; or

(B) The risk-based capital requirement for a direct exposure to the protection provider as calculated under § 3.131, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD equal to the EAD of the hedged exposure.

(ii) *Partial coverage.* If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the national bank or Federal savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The national bank's or Federal savings association's risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under § 3.131, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under § 3.131, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The national bank or Federal savings association must calculate its risk-based capital requirement for the unprotected exposure under § 3.131, where PD is the obligor's PD, LGD is the hedged exposure's LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(3) *M of hedged exposures.* For purposes of this paragraph (c), the M of the hedged exposure is the same as the M of the exposure if it were unhedged.

(d) *Maturity mismatch.* (1) A national bank or Federal savings association that recognizes an eligible guarantee

or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfil its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the national bank or Federal savings association (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the national bank or Federal savings association (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the national bank or Federal savings association to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant.²⁶

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the national bank or Federal savings association must apply the following adjustment to the effective notional amount of the credit risk mitigant:

$$P_m = E \times (t - 0.25) / (T - 0.25),$$

where:

²⁶For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.

§ 3.135

12 CFR Ch. I (1–14 Edition)

(i) P_m = effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) E = effective notional amount of the credit risk mitigant;

(iii) t = the lesser of T or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) T = the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) *Credit derivatives without restructuring as a credit event.* If a national bank or Federal savings association recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the national bank or Federal savings association must apply the following adjustment to the effective notional amount of the credit derivative:

$$P_r = P_m \times 0.60,$$

where:

(1) P_r = effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable); and

(2) P_m = effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) *Currency mismatch.* (1) If a national bank or Federal savings association recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the national bank or Federal savings association must apply the following formula to the effective notional amount of the guarantee or credit derivative:

$$P_c = P_r \times (1 - H_{FX}),$$

where:

(i) P_c = effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);

(ii) P_r = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(iii) H_{FX} = haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A national bank or Federal savings association must set H_{FX} equal to 8 percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remarking. A national bank or Federal savings association qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircuts in § 3.132(b)(2)(iii);

(ii) The simple VaR methodology in § 3.132(b)(3); or

(iii) The internal models methodology in § 3.132(d).

(3) A national bank or Federal savings association must adjust H_{FX} calculated in paragraph (f)(2) of this section upward if the national bank or Federal savings association revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in § 3.132(b)(2)(iii)(A)(2).

§ 3.135 Guarantees and credit derivatives: double default treatment.

(a) *Eligibility and operational criteria for double default treatment.* A national bank or Federal savings association may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in § 3.134(a)(1) by applying the double default treatment in this section if all the following criteria are satisfied:

(1) The hedged exposure is fully covered or covered on a pro rata basis by:

(i) An eligible guarantee issued by an eligible double default guarantor; or

(ii) An eligible credit derivative that meets the requirements of § 3.134(b)(2) and that is issued by an eligible double default guarantor.

(2) The guarantee or credit derivative is:

(i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or

(ii) An nth-to-default credit derivative (subject to the requirements of § 3.142(m).

(3) The hedged exposure is a whole-sale exposure (other than a sovereign exposure).

(4) The obligor of the hedged exposure is not:

(i) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or

(ii) An affiliate of the guarantor.

(5) The national bank or Federal savings association does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the hedged exposure other than through application of the double default treatment as provided in this section.

(6) The national bank or Federal savings association has implemented a process (which has received the prior, written approval of the OCC) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the national bank or Federal savings association may not use the double default treatment for the hedged exposure.

(b) *Full coverage.* If a transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the national bank or Federal savings association may determine its risk-weighted asset amount for the hedged exposure under paragraph (e) of this section.

(c) *Partial coverage.* If a transaction meets the criteria in paragraph (a) of

this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the national bank or Federal savings association must treat the hedged exposure as two separate asset exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure:

(1) For the protected exposure, the national bank or Federal savings association must set EAD equal to P and calculate its risk-weighted asset amount as provided in paragraph (e) of this section; and

(2) For the unprotected exposure, the national bank or Federal savings association must set EAD equal to the EAD of the original exposure minus P and then calculate its risk-weighted asset amount as provided in § 3.131.

(d) *Mismatches.* For any hedged exposure to which a national bank or Federal savings association applies double default treatment under this part, the national bank or Federal savings association must make applicable adjustments to the protection amount as required in § 3.134(d), (e), and (f).

(e) *The double default dollar risk-based capital requirement.* The dollar risk-based capital requirement for a hedged exposure to which a national bank or Federal savings association has applied double default treatment is K_{DD} multiplied by the EAD of the exposure. K_{DD} is calculated according to the following formula:

$$K_{DD} = K_o \times (0.15 + 160 \times PD_g),$$

Where:

(1)

$$K_o = LGD_g \times \left[N \left(\frac{N^{-1}(PD_o) + N^{-1}(0.999)\sqrt{\rho_{os}}}{\sqrt{1 - \rho_{os}}} \right) - PD_o \right] \times \left[\frac{1 + (M - 2.5) \times b}{1 - 1.5 \times b} \right]$$

(2) PD_g = PD of the protection provider.

(3) PD_o = PD of the obligor of the hedged exposure.

(4) LGD_g =

(i) The lower of the LGD of the hedged exposure (not adjusted to re-

fect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the national bank or Federal savings association with the option to receive immediate payout on triggering the protection; or

§ 3.136

12 CFR Ch. I (1–1–14 Edition)

(ii) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the national bank or Federal savings association with the option to receive immediate payout on triggering the protection; and

(5) ρ_{os} (asset value correlation of the obligor) is calculated according to the appropriate formula for (R) provided in Table 1 in § 3.131, with PD equal to PD_o.

(6) b (maturity adjustment coefficient) is calculated according to the formula for b provided in Table 1 in § 3.131, with PD equal to the lesser of PD_o and PD_g; and

(7) M (maturity) is the effective maturity of the guarantee or credit derivative, which may not be less than one year or greater than five years.

§ 3.136 Unsettled transactions.

(a) *Definitions.* For purposes of this section:

(1) Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.

(2) Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.

(3) A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.

(4) The positive current exposure of a national bank or Federal savings association for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the national bank or Federal savings association to the counterparty.

(b) *Scope.* This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

(1) Cleared transactions that are subject to daily marking-to-market and daily receipt and payment of variation margin;

(2) Repo-style transactions, including unsettled repo-style transactions (which are addressed in §§ 3.131 and 132);

(3) One-way cash payments on OTC derivative contracts (which are addressed in §§ 3.131 and 132); or

(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in §§ 3.131 and 132).

(c) *System-wide failures.* In the case of a system-wide failure of a settlement or clearing system, or a central counterparty, the OCC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) *Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions.* A national bank or Federal savings association must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the national bank's or Federal savings association's counterparty has not made delivery or payment within five business days after the settlement date. The national bank or Federal savings association must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the national bank or Federal savings association by the appropriate risk weight in Table 1 to § 3.136.

TABLE 1 TO § 3.136—RISK WEIGHTS FOR UNSETTLED DVP AND PVP TRANSACTIONS

Number of business days after contractual settlement date	Risk weight to be applied to positive current exposure (in percent)
From 5 to 15	100
From 16 to 30	625
From 31 to 45	937.5
46 or more	1,250

(e) *Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions.* (1) A national bank or Federal savings association must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the national bank or Federal savings association has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The national bank or Federal savings association must continue to hold risk-based capital against the transaction until the national bank or Federal savings association has received its corresponding deliverables.

(2) From the business day after the national bank or Federal savings association has made its delivery until five business days after the counterparty delivery is due, the national bank or Federal savings association must calculate its risk-based capital requirement for the transaction by treating the current fair value of the deliverables owed to the national bank or Federal savings association as a wholesale exposure.

(i) A national bank or Federal savings association may use a 45 percent LGD for the transaction rather than estimating LGD for the transaction provided the national bank or Federal savings association uses the 45 percent LGD for all transactions described in § 3.135(e)(1) and (e)(2).

(ii) A national bank or Federal savings association may use a 100 percent risk weight for the transaction provided the national bank or Federal savings association uses this risk weight for all transactions described in §§ 3.135(e)(1) and (e)(2).

(3) If the national bank or Federal savings association has not received its deliverables by the fifth business day after the counterparty delivery was due, the national bank or Federal savings association must apply a 1,250 percent risk weight to the current fair value of the deliverables owed to the national bank or Federal savings association.

(f) *Total risk-weighted assets for unsettled transactions.* Total risk-weighted assets for unsettled transactions is the

sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

§§ 3.137–3.140 [Reserved]

RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

§ 3.141 Operational criteria for recognizing the transfer of risk.

(a) *Operational criteria for traditional securitizations.* A national bank or Federal savings association that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. A national bank or Federal savings association that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A national bank or Federal savings association that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(1) The exposures are not reported on the national bank's or Federal savings association's consolidated balance sheet under GAAP;

(2) The national bank or Federal savings association has transferred to one or more third parties credit risk associated with the underlying exposures;

(3) Any clean-up calls relating to the securitization are eligible clean-up calls; and

(4) The securitization does not:

(i) Include one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contain an early amortization provision.

(b) *Operational criteria for synthetic securitizations.* For synthetic securitizations, a national bank or Federal savings association may recognize for risk-based capital purposes under this subpart the use of a credit

risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. A national bank or Federal savings association that meets these conditions must hold risk-based capital against any credit risk of the exposures it retains in connection with the synthetic securitization. A national bank or Federal savings association that fails to meet these conditions or chooses not to recognize the credit risk mitigant for purposes of this section must hold risk-based capital under this subpart against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is:

(i) Financial collateral; or

(ii) A guarantee that meets all of the requirements of an eligible guarantee in § 3.2 except for paragraph (3) of the definition; or

(iii) A credit derivative that meets all of the requirements of an eligible credit derivative except for paragraph (3) of the definition of eligible guarantee in § 3.2.

(2) The national bank or Federal savings association transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:

(i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;

(ii) Require the national bank or Federal savings association to alter or replace the underlying exposures to improve the credit quality of the underlying exposures;

(iii) Increase the national bank's or Federal savings association's cost of credit protection in response to deterioration in the credit quality of the underlying exposures;

(iv) Increase the yield payable to parties other than the national bank or Federal savings association in response to a deterioration in the credit quality of the underlying exposures; or

(v) Provide for increases in a retained first loss position or credit enhancement provided by the national bank or Federal savings association after the inception of the securitization;

(3) The national bank or Federal savings association obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and

(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

(c) *Due diligence requirements for securitization exposures.* (1) Except for exposures that are deducted from common equity tier 1 capital and exposures subject to § 3.142(k), if a national bank or Federal savings association is unable to demonstrate to the satisfaction of the OCC a comprehensive understanding of the features of a securitization exposure that would materially affect the performance of the exposure, the national bank or Federal savings association must assign a 1,250 percent risk weight to the securitization exposure. The national bank's or Federal savings association's analysis must be commensurate with the complexity of the securitization exposure and the materiality of the position in relation to regulatory capital according to this part.

(2) A national bank or Federal savings association must demonstrate its comprehensive understanding of a securitization exposure under paragraph (c)(1) of this section, for each securitization exposure by:

(i) Conducting an analysis of the risk characteristics of a securitization exposure prior to acquiring the exposure and document such analysis within three business days after acquiring the exposure, considering:

(A) Structural features of the securitization that would materially impact the performance of the exposure, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, fair value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score

or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For resecuritization exposures, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under this section for each securitization exposure.

§ 3.142 Risk-weighted assets for securitization exposures.

(a) *Hierarchy of approaches.* Except as provided elsewhere in this section and in § 3.141:

(1) A national bank or Federal savings association must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from a securitization and must apply a 1,250 percent risk weight to the portion of any CEIO that does not constitute after tax gain-on-sale;

(2) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section, the national bank or Federal savings association must apply the supervisory formula approach in § 3.143 to the exposure if the national bank or Federal savings association and the exposure qualify for the supervisory formula approach according to § 3.143(a);

(3) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section and does not qualify for the supervisory formula approach, the national bank or Federal savings association may apply the simplified supervisory formula approach under § 3.144;

(4) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section, does not qualify for the

supervisory formula approach in § 3.143, and the national bank or Federal savings association does not apply the simplified supervisory formula approach in § 3.144, the national bank or Federal savings association must apply a 1,250 percent risk weight to the exposure; and

(5) If a securitization exposure is a derivative contract (other than protection provided by a national bank or Federal savings association in the form of a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), a national bank or Federal savings association may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(1) through (4) of this section.

(b) *Total risk-weighted assets for securitization exposures.* A national bank's or Federal savings association's total risk-weighted assets for securitization exposures is equal to the sum of its risk-weighted assets calculated using §§ 3.141 through 146.

(c) *Deductions.* A national bank or Federal savings association may calculate any deduction from common equity tier 1 capital for a securitization exposure net of any DTLs associated with the securitization exposure.

(d) *Maximum risk-based capital requirement.* Except as provided in § 3.141(c), unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single national bank or Federal savings association associated with a single securitization (excluding any risk-based capital requirements that relate to the national bank's or Federal savings association's gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

(1) The national bank's or Federal savings association's total risk-based capital requirement for the underlying

§ 3.142

12 CFR Ch. I (1–1–14 Edition)

exposures calculated under this subpart as if the national bank or Federal savings association directly held the underlying exposures; and

(2) The total ECL of the underlying exposures calculated under this subpart.

(e) *Exposure amount of a securitization exposure.* (1) The exposure amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, OTC derivative contract, or cleared transaction is the national bank's or Federal savings association's carrying value.

(2) Except as provided in paragraph (m) of this section, the exposure amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative), repo-style transaction, eligible margin loan, or cleared transaction (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as an eligible ABCP liquidity facility, the notional amount may be reduced to the maximum potential amount that the national bank or Federal savings association could be required to fund given the ABCP program's current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The exposure amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) or cleared transaction (other than a credit derivative) is the EAD of the exposure as calculated in § 3.132 or § 3.133.

(f) *Overlapping exposures.* If a national bank or Federal savings association has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when a national bank or Federal savings association provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the national bank or Federal savings association is not required to hold duplicative risk-based capital against the overlapping position. Instead, the national bank or Federal

savings association may assign to the overlapping securitization exposure the applicable risk-based capital treatment under this subpart that results in the highest risk-based capital requirement.

(g) *Securitized non-IRB exposures.* Except as provided in § 3.141(c), if a national bank or Federal savings association has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the national bank or Federal savings association:

(1) Must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization and apply a 1,250 percent risk weight to the portion of any CEIO that does not constitute gain-on-sale, if the national bank or Federal savings association is an originating national bank or Federal savings association;

(2) May apply the simplified supervisory formula approach in § 3.144 to the exposure, if the securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (g)(1) of this section;

(3) Must assign a 1,250 percent risk weight to the exposure if the securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (g)(1) of this section, does not qualify for the supervisory formula approach in § 3.143, and the national bank or Federal savings association does not apply the simplified supervisory formula approach in § 3.144 to the exposure.

(h) *Implicit support.* If a national bank or Federal savings association provides support to a securitization in excess of the national bank's or Federal savings association's contractual obligation to provide credit support to the securitization (implicit support):

(1) The national bank or Federal savings association must calculate a risk-weighted asset amount for underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(2) The national bank or Federal savings association must disclose publicly:

(i) That it has provided implicit support to the securitization; and

(ii) The regulatory capital impact to the national bank or Federal savings association of providing such implicit support.

(i) *Undrawn portion of a servicer cash advance facility.* (1) Notwithstanding any other provision of this subpart, a national bank or Federal savings association that is a servicer under an eligible servicer cash advance facility is not required to hold risk-based capital against potential future cash advance payments that it may be required to provide under the contract governing the facility.

(2) For a national bank or Federal savings association that acts as a servicer, the exposure amount for a servicer cash advance facility that is not an eligible servicer cash advance facility is equal to the amount of all potential future cash advance payments that the national bank or Federal savings association may be contractually required to provide during the subsequent 12 month period under the contract governing the facility.

(j) *Interest-only mortgage-backed securities.* Regardless of any other provisions in this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(k) *Small-business loans and leases on personal property transferred with recourse.* (1) Notwithstanding any other provisions of this subpart E, a national bank or Federal savings association that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:

(i) The transaction is a sale under GAAP.

(ii) The national bank or Federal savings association establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the national bank's or Federal savings association's reasonably estimated liability under the recourse arrangement.

(iii) The loans and leases are to businesses that meet the criteria for a small-business concern established by

the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632 *et seq.*); and

(iv) The national bank or Federal savings association is well-capitalized, as defined in 12 CFR 6.4. For purposes of determining whether a national bank or Federal savings association is well capitalized for purposes of this paragraph (k), the national bank's or Federal savings association's capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(2) The total outstanding amount of recourse retained by a national bank or Federal savings association on transfers of small-business obligations subject to paragraph (k)(1) of this section cannot exceed 15 percent of the national bank's or Federal savings association's total capital.

(3) If a national bank or Federal savings association ceases to be well capitalized or exceeds the 15 percent capital limitation in paragraph (k)(2) of this section, the preferential capital treatment specified in paragraph (k)(1) of this section will continue to apply to any transfers of small-business obligations with recourse that occurred during the time that the national bank or Federal savings association was well capitalized and did not exceed the capital limit.

(4) The risk-based capital ratios of a national bank or Federal savings association must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(1) *Nth-to-default credit derivatives—*
 (1) *Protection provider.* A national bank or Federal savings association must determine a risk weight using the supervisory formula approach (SFA) pursuant to § 3.143 or the simplified supervisory formula approach (SSFA) pursuant to § 3.144 for an nth-to-default credit derivative in accordance with this paragraph (1). In the case of credit protection sold, a national bank or Federal savings association must determine its exposure in the nth-to-default

credit derivative as the largest notional amount of all the underlying exposures.

(2) For purposes of determining the risk weight for an n^{th} -to-default credit derivative using the SFA or the SSFA, the national bank or Federal savings association must calculate the attachment point and detachment point of its exposure as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the national bank's or Federal savings association's exposure to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter A is expressed as a decimal value between zero and one. For purposes of using the SFA to calculate the risk weight for its exposure in an n^{th} -to-default credit derivative, parameter A must be set equal to the credit enhancement level (L) input to the SFA formula. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the national bank's or Federal savings association's exposure. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) risk-weighted asset amounts of the underlying exposure(s) are subordinated to the national bank's or Federal savings association's exposure.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the national bank's or Federal savings association's exposure in the n^{th} -to-default credit derivative to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter W is expressed as a decimal value between zero and one. For purposes of the SFA, parameter D must be set to equal L plus the thickness of tranche T input to the SFA formula.

(3) A national bank or Federal savings association that does not use the SFA or the SSFA to determine a risk weight for its exposure in an n^{th} -to-default credit derivative must assign a risk weight of 1,250 percent to the exposure.

(4) *Protection purchaser*—(i) *First-to-default credit derivatives*. A national bank or Federal savings association

that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative that meets the rules of recognition of § 3.134(b) must determine its risk-based capital requirement under this subpart for the underlying exposures as if the national bank or Federal savings association synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures. A national bank or Federal savings association must calculate a risk-based capital requirement for counterparty credit risk according to § 3.132 for a first-to-default credit derivative that does not meet the rules of recognition of § 3.134(b).

(ii) *Second-or-subsequent-to-default credit derivatives*. (A) A national bank or Federal savings association that obtains credit protection on a group of underlying exposures through a n^{th} -to-default credit derivative that meets the rules of recognition of § 3.134(b) (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

(1) The national bank or Federal savings association also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or

(2) If n-1 of the underlying exposures have already defaulted.

(B) If a national bank or Federal savings association satisfies the requirements of paragraph (1)(3)(ii)(A) of this section, the national bank or Federal savings association must determine its risk-based capital requirement for the underlying exposures as if the bank had only synthetically securitized the underlying exposure with the n^{th} smallest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

(C) A national bank or Federal savings association must calculate a risk-based capital requirement for counterparty credit risk according to § 3.132 for a n^{th} -to-default credit derivative that does not meet the rules of recognition of § 3.134(b).

(m) *Guarantees and credit derivatives other than nth-to-default credit derivatives*—(1) *Protection provider*. For a guarantee or credit derivative (other than an nth-to-default credit derivative) provided by a national bank or Federal savings association that covers the full amount or a pro rata share of a securitization exposure's principal and interest, the national bank or Federal savings association must risk weight the guarantee or credit derivative as if it holds the portion of the reference exposure covered by the guarantee or credit derivative.

(2) *Protection purchaser*. (i) A national bank or Federal savings association that purchases an OTC credit derivative (other than an nth-to-default credit derivative) that is recognized under § 3.145 as a credit risk mitigant (including via recognized collateral) is not required to compute a separate counterparty credit risk capital requirement under § 3.131 in accordance with § 3.132(c)(3).

(ii) If a national bank or Federal savings association cannot, or chooses not to, recognize a purchased credit derivative as a credit risk mitigant under § 3.145, the national bank or Federal savings association must determine the exposure amount of the credit derivative under § 3.132(c).

(A) If the national bank or Federal savings association purchases credit protection from a counterparty that is not a securitization SPE, the national bank or Federal savings association must determine the risk weight for the exposure according § 3.131.

(B) If the national bank or Federal savings association purchases the credit protection from a counterparty that is a securitization SPE, the national bank or Federal savings association must determine the risk weight for the exposure according to this section, including paragraph (a)(5) of this section for a credit derivative that has a first priority claim on the cash flows from

the underlying exposures of the securitization SPE (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§ 3.143 Supervisory formula approach (SFA).

(a) *Eligibility requirements*. A national bank or Federal savings association must use the SFA to determine its risk-weighted asset amount for a securitization exposure if the national bank or Federal savings association can calculate on an ongoing basis each of the SFA parameters in paragraph (e) of this section.

(b) *Mechanics*. The risk-weighted asset amount for a securitization exposure equals its SFA risk-based capital requirement as calculated under paragraph (c) and (d) of this section, multiplied by 12.5.

(c) *The SFA risk-based capital requirement*. (1) If K_{IRB} is greater than or equal to $L + T$, an exposure's SFA risk-based capital requirement equals the exposure amount.

(2) If K_{IRB} is less than or equal to L , an exposure's SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

(i) $F \cdot T$ (where F is 0.016 for all securitization exposures); or

(ii) $S[L + T] - S[L]$.

(3) If K_{IRB} is greater than L and less than $L + T$, the national bank or Federal savings association must apply a 1,250 percent risk weight to an amount equal to $UE \cdot TP (K_{IRB} - L)$, and the exposure's SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

(i) $F \cdot (T - (K_{IRB} - L))$ (where F is 0.016 for all other securitization exposures); or

(ii) $S[L + T] - S[K_{IRB}]$.

(d) *The supervisory formula*:

$$(1) S[Y] = \begin{cases} Y & \text{when } Y \leq K_{IRB} \\ K_{IRB} + K[Y] - K[K_{IRB}] + \frac{d \cdot K_{IRB}}{20} \left(1 - e^{-\frac{20(K_{IRB}-Y)}{K_{IRB}}}\right) & \text{when } Y > K_{IRB} \end{cases}$$

$$(2) K[Y] = (1-h) \cdot [(1-\beta[Y; a, b]) \cdot Y + \beta[Y; a+1, b] \cdot c]$$

$$(3) h = \left(1 - \frac{K_{IRB}}{EWALGD}\right)^N$$

$$(4) a = g \cdot c$$

$$(5) b = g \cdot (1-c)$$

$$(6) c = \frac{K_{IRB}}{1-h}$$

$$(7) g = \frac{(1-c) \cdot c}{f} - 1$$

$$(8) f = \frac{v + K_{IRB}^2}{1-h} - c^2 + \frac{(1-K_{IRB}) \cdot K_{IRB} - v}{(1-h) \cdot 1000}$$

$$(9) v = K_{IRB} \cdot \frac{(EWALGD - K_{IRB}) + .25 \cdot (1 - EWALGD)}{N}$$

$$(10) d = 1 - (1-h) \cdot (1 - \beta[K_{IRB}; a, b]).$$

(11) In these expressions, $\beta [Y; a, b]$ refers to the cumulative beta distribution with parameters a and b evaluated at Y. In the case where N = 1 and EWALGD = 100 percent, S[Y] in formula (1) must be calculated with K[Y] set equal to the product of K_{IRB} and Y, and d set equal to $1 - K_{IRB}$.

(e) *SFA parameters.* For purposes of the calculations in paragraphs (c) and (d) of this section:

(1) *Amount of the underlying exposures (UE).* UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in §3.142(e)) plus the adjusted carrying value of any underlying exposures that

are equity exposures (as defined in §3.151(b)).

(2) *Tranche percentage (TP).* TP is the ratio of the amount of the national bank's or Federal savings association's securitization exposure to the amount of the tranche that contains the securitization exposure.

(3) *Capital requirement on underlying exposures (K_{IRB}).* (i) K_{IRB} is the ratio of:

(A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of

the underlying exposures (as determined under this subpart E as if the underlying exposures were directly held by the national bank or Federal savings association); to

(B) UE.

(ii) The calculation of K_{IRB} must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to all of the underlying exposures).

(iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(4) *Credit enhancement level (L)*. (i) L is the ratio of:

(A) The amount of all securitization exposures subordinated to the tranche that contains the national bank's or Federal savings association's securitization exposure; to

(B) UE.

(ii) A national bank or Federal savings association must determine L before considering the effects of any tranche-specific credit enhancements.

(iii) Any gain-on-sale or CEIO associated with the securitization may not be included in L.

(iv) Any reserve account funded by accumulated cash flows from the un-

derlying exposures that is subordinated to the tranche that contains the national bank's or Federal savings association's securitization exposure may be included in the numerator and denominator of L to the extent cash has accumulated in the account. Unfunded reserve accounts (that is, reserve accounts that are to be funded from future cash flows from the underlying exposures) may not be included in the calculation of L.

(v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, L should be calculated inclusive of this discount if the discount provides credit enhancement for the securitization exposure.

(5) *Thickness of tranche (T)*. T is the ratio of:

(i) The amount of the tranche that contains the national bank's or Federal savings association's securitization exposure; to

(ii) UE.

(6) *Effective number of exposures (N)*.

(i) Unless the national bank or Federal savings association elects to use the formula provided in paragraph (f) of this section,

$$N = \frac{(\sum_i EAD_i)^2}{\sum_i EAD_i^2}$$

where EAD_i represents the EAD associated with the i th instrument in the underlying exposures.

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.

(iii) In the case of a resecuritization, the national bank or Federal savings

association must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) *Exposure-weighted average loss given default (EWALGD)*. EWALGD is calculated as:

$$EWALGD = \frac{\sum_i LGD_i \cdot EAD_i}{\sum_i EAD_i}$$

where LGD_i represents the average LGD associated with all exposures to the i th obligor. In the case of a resecuritization, an LGD of 100 percent must be assumed for the underlying exposures that are themselves securitization exposures.

(f) *Simplified method for computing N and EWALGD.* (1) If all underlying exposures of a securitization are retail exposures, a national bank or Federal savings association may apply the SFA using the following simplifications:

- (i) $h = 0$; and
- (ii) $v = 0$.

(2) Under the conditions in §§ 3.143(f)(3) and (f)(4), a national bank or Federal savings association may employ a simplified method for calculating N and EWALGD.

(3) If C_1 is no more than 0.03, a national bank or Federal savings association may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure, or may set $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure, and may set N equal to the following amount:

$$N = \frac{1}{C_1 C_m + \left(\frac{C_m - C_1}{m - 1} \right) \max(1 - m C_1, 0)}$$

where:

(i) C_m is the ratio of the sum of the amounts of the 'm' largest underlying exposures to UE; and

(ii) The level of m is to be selected by the national bank or Federal savings association.

(4) Alternatively, if only C_1 is available and C_1 is no more than 0.03, the national bank or Federal savings association may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure, or may set $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure and may set $N = 1/C_1$.

§ 3.144 Simplified supervisory formula approach (SSFA).

(a) *General requirements for the SSFA.* To use the SSFA to determine the risk weight for a securitization exposure, a national bank or Federal savings association must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters de-

scribed in paragraph (b) of this section must be the most currently available data; if the contracts governing the underlying exposures of the securitization require payments on a monthly or quarterly basis, the data used to assign the parameters described in paragraph (b) of this section must be no more than 91 calendar days old. A national bank or Federal savings association that does not have the appropriate data to assign the parameters described in paragraph (b) of this section must assign a risk weight of 1,250 percent to the exposure.

(b) *SSFA parameters.* To calculate the risk weight for a securitization exposure using the SSFA, a national bank or Federal savings association must have accurate information on the following five inputs to the SSFA calculation:

(1) K_G is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using subpart D of this part. K_G

is expressed as a decimal value between zero and one (that is, an average risk weight of 100 percent represents a value of K_G equal to 0.08).

(2) Parameter W is expressed as a decimal value between zero and one. Parameter W is the ratio of the sum of the dollar amounts of any underlying exposures of the securitization that meet any of the criteria as set forth in paragraphs (b)(2)(i) through (vi) of this section to the balance, measured in dollars, of underlying exposures:

- (i) Ninety days or more past due;
- (ii) Subject to a bankruptcy or insolvency proceeding;
- (iii) In the process of foreclosure;
- (iv) Held as real estate owned;
- (v) Has contractually deferred payments for 90 days or more, other than principal or interest payments deferred on:

(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or

(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or

(vi) Is in default.

(3) Parameter A is the attachment point for the exposure, which represents the threshold at which credit losses will first be allocated to the exposure. Except as provided in section 142(l) for n^{th} -to-default credit derivatives, parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the exposure of the national bank or Federal savings association to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the national bank's or Federal savings association's securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the exposure, which represents the threshold at which credit losses of principal allocated to the exposure would result in a total loss of principal. Except as provided in section 142(l) for n^{th} -to-default credit derivatives, parameter D equals parameter A plus the ratio of the current dollar amount of the securitization exposures that are *pari passu* with the exposure (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p , is equal to 0.5 for securitization exposures that are not resecuritization exposures and equal to 1.5 for resecuritization exposures.

(c) *Mechanics of the SSFA.* K_G and W are used to calculate K_A , the augmented value of K_G , which reflects the observed credit quality of the underlying exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the risk weight assigned to a securitization exposure as described in paragraph (d) of this section. The risk weight assigned to a securitization exposure, or portion of a securitization exposure, as appropriate, is the larger of the risk weight determined in accordance with this paragraph (c), paragraph (d) of this section, and a risk weight of 20 percent.

(1) When the detachment point, parameter D, for a securitization exposure is less than or equal to K_A , the exposure must be assigned a risk weight of 1,250 percent;

(2) When the attachment point, parameter A, for a securitization exposure is greater than or equal to K_A , the national bank or Federal savings association must calculate the risk weight in accordance with paragraph (d) of this section;

(3) When A is less than K_A and D is greater than K_A , the risk weight is a weighted-average of 1,250 percent and 1,250 percent times K_{SSFA} calculated in accordance with paragraph (d) of this section. For the purpose of this weighted-average calculation:

- (i) The weight assigned to 1,250 percent equals $\frac{K_A - A}{D - A}$; and
- (ii) The weight assigned to 1,250 percent times K_{SSFA} equals $\frac{D - K_A}{D - A}$. The risk weight

will be set equal to:

$$Risk\ Weight = \left[\left(\frac{K_A - A}{D - A} \right) \cdot 1,250\ percent \right] + \left[\left(\frac{D - K_A}{D - A} \right) \cdot 1,250\ percent \cdot K_{SSFA} \right]$$

- (d) SSFA equation. (1) The [BANK] must define the following parameters:

$$K_A = (1 - W) \cdot K_G + (0.5 \cdot W)$$

$$a = - \frac{1}{p \cdot K_A}$$

$$u = D - K_A$$

$$l = \max(A - K_A, 0)$$

$e = 2.71828$, the base of the natural logarithms.

- (2) Then the [BANK] must calculate K_{SSFA} according to the following equation:

$$K_{SSFA} = \frac{e^{a \cdot u} - e^{a \cdot l}}{a(u - l)}$$

- (3) The risk weight for the exposure (expressed as a percent) is equal to $K_{SSFA} \times 1,250$.

§ 3.145 Recognition of credit risk mitigants for securitization exposures.

(a) *General.* An originating national bank or Federal savings association that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in § 3.141 may recognize the credit risk mitigant, but only as provided in this section. An investing national bank or Federal savings association that has obtained a credit risk mitigant to hedge a securitization ex-

posure may recognize the credit risk mitigant, but only as provided in this section.

(b) *Collateral.* (1) *Rules of recognition.* A national bank or Federal savings association may recognize financial collateral in determining the national bank's or Federal savings association's risk-weighted asset amount for a securitization exposure (other than a repo-style transaction, an eligible margin loan, or an OTC derivative contract for which the national bank or Federal savings association has reflected collateral in its determination of exposure

Comptroller of the Currency, Treasury

§ 3.145

amount under § 3.132) as follows. The national bank's or Federal savings association's risk-weighted asset amount for the collateralized securitization exposure is equal to the risk-weighted asset amount for the securitization exposure as calculated under the SSFA in § 3.144 or under the SFA in § 3.143 multiplied by the ratio of adjusted exposure amount (SE*) to original exposure amount (SE),

Where:

(i) $SE^* = \max \{0, [SE - C \times (1 - H_s - H_{fx})]\}$;

(ii) SE = the amount of the securitization exposure calculated under § 3.142(e);

(iii) C = the current fair value of the collateral;

(iv) H_s = the haircut appropriate to the collateral type; and

(v) H_{fx} = the haircut appropriate for any currency mismatch between the collateral and the exposure.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket

of assets denominated in different currencies, the haircut on the basket will be $H = \sum_i a_i H_i$,

where a_i is the current fair value of the asset in the basket divided by the current fair value of all assets in the basket and H_i is the haircut applicable to that asset.

(3) *Standard supervisory haircuts*. Unless a national bank or Federal savings association qualifies for use of and uses own-estimates haircuts in paragraph (b)(4) of this section:

(i) A national bank or Federal savings association must use the collateral type haircuts (H_s) in Table 1 to § 3.132 of this subpart;

(ii) A national bank or Federal savings association must use a currency mismatch haircut (H_{fx}) of 8 percent if the exposure and the collateral are denominated in different currencies;

(iii) A national bank or Federal savings association must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) of this section by the square root of 6.5 (which equals 2.549510); and

(iv) A national bank or Federal savings association must adjust the supervisory haircuts upward on the basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) *Own estimates for haircuts*. With the prior written approval of the OCC, a national bank or Federal savings association may calculate haircuts using its own internal estimates of market price volatility and foreign exchange

volatility, subject to § 3.132(b)(2)(iii). The minimum holding period (T_M) for securitization exposures is 65 business days.

(c) *Guarantees and credit derivatives*—

(1) *Limitations on recognition*. A national bank or Federal savings association may only recognize an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the national bank's or Federal savings association's risk-weighted asset amount for a securitization exposure.

(2) *ECL for securitization exposures*. When a national bank or Federal savings association recognizes an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the national bank's or Federal savings association's risk-weighted asset amount for a securitization exposure, the national bank or Federal savings association must also:

(i) Calculate ECL for the protected portion of the exposure using the same risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and

(ii) Add the exposure's ECL to the national bank's or Federal savings association's total ECL.

(3) *Rules of recognition.* A national bank or Federal savings association may recognize an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the national bank's or Federal savings association's risk-weighted asset amount for the securitization exposure as follows:

(i) *Full coverage.* If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the national bank or Federal savings association may set the risk-weighted asset amount for the securitization exposure equal to the risk-weighted asset amount for a direct exposure to the eligible guarantor (as determined in the wholesale risk weight function described in §3.131), using the national bank's or Federal savings association's PD for the guarantor, the national bank's or Federal savings association's LGD for the guarantee or credit derivative, and an EAD equal to the amount of the securitization exposure (as determined in §3.142(e)).

(ii) *Partial coverage.* If the protection amount of the eligible guarantee or eligible credit derivative is less than the amount of the securitization exposure, the national bank or Federal savings association may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) *Covered portion.* The risk-weighted asset amount for a direct exposure to the eligible guarantor (as determined in the wholesale risk weight function described in §3.131), using the national bank's or Federal savings association's PD for the guarantor, the national bank's or Federal savings association's LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) *Uncovered portion.* (1) 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure; multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in §§ 3.142 through 146).

(4) *Mismatches.* The national bank or Federal savings association must make applicable adjustments to the protection amount as required in §3.134(d), (e), and (f) for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the national bank or Federal savings association must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

§§ 3.146–3.150 [Reserved]

RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

§ 3.151 Introduction and exposure measurement.

(a) *General.* (1) To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to investment funds, a national bank or Federal savings association may apply either the Simple Risk Weight Approach (SRWA) in §3.152 or, if it qualifies to do so, the Internal Models Approach (IMA) in §3.153. A national bank or Federal savings association must use the look-through approaches provided in §3.154 to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(2) A national bank or Federal savings association must treat an investment in a separate account (as defined in §3.2), as if it were an equity exposure to an investment fund as provided in §3.154.

(3) *Stable value protection.* (i) Stable value protection means a contract where the provider of the contract is obligated to pay:

(A) The policy owner of a separate account an amount equal to the shortfall between the fair value and cost basis of the separate account when the policy owner of the separate account surrenders the policy, or

(B) The beneficiary of the contract an amount equal to the shortfall between the fair value and book value of a specified portfolio of assets.

(ii) A national bank or Federal savings association that purchases stable value protection on its investment in a separate account must treat the portion of the carrying value of its investment in the separate account attributable to the stable value protection as an exposure to the provider of the protection and the remaining portion of the carrying value of its separate account as an equity exposure to an investment fund.

(iii) A national bank or Federal savings association that provides stable value protection must treat the exposure as an equity derivative with an adjusted carrying value determined as the sum of §3.151(b)(1) and (2).

(b) *Adjusted carrying value.* For purposes of this subpart, the adjusted carrying value of an equity exposure is:

(1) For the on-balance sheet component of an equity exposure, the national bank's or Federal savings association's carrying value of the exposure;

(2) For the off-balance sheet component of an equity exposure, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) for a given small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet component of the exposure as calculated in paragraph (b)(1) of this section.

(3) For unfunded equity commitments that are unconditional, the effective notional principal amount is the notional amount of the commitment. For unfunded equity commitments that are conditional, the effective notional principal amount is the national bank's or Federal savings association's best estimate of the amount that would be funded under economic downturn conditions.

§3.152 Simple risk weight approach (SRWA).

(a) *General.* Under the SRWA, a national bank's or Federal savings association's aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted

asset amounts for each of the national bank's or Federal savings association's individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the national bank's or Federal savings association's individual equity exposures to an investment fund as determined in §3.154.

(b) *SRWA computation for individual equity exposures.* A national bank or Federal savings association must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this section.

(1) *Zero percent risk weight equity exposures.* An equity exposure to an entity whose credit exposures are exempt from the 0.03 percent PD floor in §3.131(d)(2) is assigned a zero percent risk weight.

(2) *20 percent risk weight equity exposures.* An equity exposure to a Federal Home Loan Bank or the Federal Agricultural Mortgage Corporation (Farmer Mac) is assigned a 20 percent risk weight.

(3) *100 percent risk weight equity exposures.* The following equity exposures are assigned a 100 percent risk weight:

(i) *Community development equity exposures.* An equity exposure that qualifies as a community development investment under section 24 (Eleventh) of the National Bank Act, excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act.

(ii) *Effective portion of hedge pairs.* The effective portion of a hedge pair.

(iii) *Non-significant equity exposures.* Equity exposures, excluding significant investments in the capital of an unconsolidated institution in the form of common stock and exposures to an investment firm that would meet the definition of a traditional securitization were it not for the OCC's application of

paragraph (8) of that definition in § 3.2 and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the national bank's or Federal savings association's total capital.

(A) To compute the aggregate adjusted carrying value of a national bank's or Federal savings association's equity exposures for purposes of this section, the national bank or Federal savings association may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a national bank or Federal savings association does not know the actual holdings of the investment fund, the national bank or Federal savings association may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund's permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the national bank or Federal savings association must assume for purposes of this section that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a national bank's or Federal savings association's equity exposures qualifies for a 100 percent risk weight under this section, a national bank or Federal savings association first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act, then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) *250 percent risk weight equity exposures.* Significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted from capital pursuant to § 3.22(b)(4) are assigned a 250 percent risk weight.

(5) *300 percent risk weight equity exposures.* A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

(6) *400 percent risk weight equity exposures.* An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

(7) *600 percent risk weight equity exposures.* An equity exposure to an investment firm that:

(i) Would meet the definition of a traditional securitization were it not for the OCC's application of paragraph (8) of that definition in § 3.2; and

(ii) Has greater than immaterial leverage is assigned a 600 percent risk weight.

(c) *Hedge transactions—(1) Hedge pair.* A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) *Effective hedge.* Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the national bank or Federal savings association acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the national bank or Federal savings association will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. A national bank or Federal savings association must measure E at least quarterly and must use one of three alternative measures of E:

(i) Under the dollar-offset method of measuring effectiveness, the national bank or Federal savings association

must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and E equals

zero. If RVC is negative and greater than or equal to -1 (that is, between zero and -1), then E equals the absolute value of RVC. If RVC is negative and less than -1, then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:

$$E = 1 - \frac{\sum_{t=1}^T (X_t - X_{t-1})^2}{\sum_{t=1}^T (A_t - A_{t-1})^2}, \text{ where}$$

(A) $X_t = A_t - B_t$;

(B) A_t = the value at time t of one exposure in a hedge pair; and

(C) B_t = the value at time t of the other exposure in a hedge pair.

(iii) Under the regression method of measuring effectiveness, E equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then the value of E is zero.

(3) The effective portion of a hedge pair is E multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is (1-E) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

§ 3.153 Internal models approach (IMA).

(a) *General.* A national bank or Federal savings association may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or

by modeling only publicly traded equity exposures (in accordance with paragraphs (c) and (d) of this section).

(b) *Qualifying criteria.* To qualify to use the IMA to calculate risk-weighted assets for equity exposures, a national bank or Federal savings association must receive prior written approval from the OCC. To receive such approval, the national bank or Federal savings association must demonstrate to the OCC's satisfaction that the national bank or Federal savings association meets the following criteria:

(1) The national bank or Federal savings association must have one or more models that:

(i) Assess the potential decline in value of its modeled equity exposures;

(ii) Are commensurate with the size, complexity, and composition of the national bank's or Federal savings association's modeled equity exposures; and

(iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The national bank's or Federal savings association's model must produce an estimate of potential losses

for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99th percentile one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the national bank's or Federal savings association's modeled equity exposures using a long-term sample period.

(3) The number of risk factors and exposures in the sample and the data period used for quantification in the national bank's or Federal savings association's model and benchmarking exercise must be sufficient to provide confidence in the accuracy and robustness of the national bank's or Federal savings association's estimates.

(4) The national bank's or Federal savings association's model and benchmarking process must incorporate data that are relevant in representing the risk profile of the national bank's or Federal savings association's modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the national bank's or Federal savings association's modeled equity exposures. In addition, the national bank's or Federal savings association's benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the national bank's or Federal savings association's model uses a scenario methodology, the national bank or Federal savings association must demonstrate that the model produces a conservative estimate of potential losses on the national bank's or Federal savings association's modeled equity exposures over a relevant long-term market cycle. If the national bank or Federal savings association employs risk factor models, the national bank or Federal savings association must demonstrate through empirical analysis the appropriateness of the risk factors used.

(5) The national bank or Federal savings association must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the national bank's or

Federal savings association's modeled equity exposures and that the national bank or Federal savings association has made appropriate adjustments for differences. The national bank or Federal savings association must derive any proxies for its modeled equity exposures and benchmark portfolio using historical market data that are relevant to the national bank's or Federal savings association's modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the national bank's or Federal savings association's modeled equity exposures.

(c) *Risk-weighted assets calculation for a national bank or Federal savings association using the IMA for publicly traded and non-publicly traded equity exposures.* If a national bank or Federal savings association models publicly traded and non-publicly traded equity exposures, the national bank's or Federal savings association's aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under § 3.152(b)(1) through (b)(3)(i) (as determined under § 3.152) and each equity exposure to an investment fund (as determined under § 3.154); and

(2) The greater of:

(i) The estimate of potential losses on the national bank's or Federal savings association's equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the national bank's or Federal savings association's internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the national bank's or Federal savings association's publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 3.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund;

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and

(C) 300 percent multiplied by the aggregate adjusted carrying value of the national bank's or Federal savings association's equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 3.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund.

(d) *Risk-weighted assets calculation for a national bank or Federal savings association using the IMA only for publicly traded equity exposures.* If a national bank or Federal savings association models only publicly traded equity exposures, the national bank's or Federal savings association's aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under §§ 3.152(b)(1) through (b)(3)(i) (as determined under § 3.152), each equity exposure that qualifies for a 400 percent risk weight under § 3.152(b)(5) or a 600 percent risk weight under § 3.152(b)(6) (as determined under § 3.152), and each equity exposure to an investment fund (as determined under § 3.154); and

(2) The greater of:

(i) The estimate of potential losses on the national bank's or Federal savings association's equity exposures (other than equity exposures referenced in paragraph (d)(1) of this section) generated by the national bank's or Federal savings association's internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the national bank's or Federal savings association's publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 3.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund; and

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs.

§ 3.154 Equity exposures to investment funds.

(a) *Available approaches.* (1) Unless the exposure meets the requirements for a community development equity exposure in § 3.152(b)(3)(i), a national bank or Federal savings association must determine the risk-weighted asset amount of an equity exposure to an investment fund under the full look-through approach in paragraph (b) of this section, the simple modified look-through approach in paragraph (c) of this section, or the alternative modified look-through approach in paragraph (d) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in § 3.152(b)(3)(i) is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the national bank or Federal savings association does not use the full look-through approach, the national bank or Federal savings association may use the ineffective portion of the hedge pair as determined under § 3.152(c) as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) *Full look-through approach.* A national bank or Federal savings association that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this subpart E of this part as if the proportional ownership share of each exposure were held directly by the national bank or Federal savings association) may either:

(1) Set the risk-weighted asset amount of the national bank's or Federal savings association's exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the national bank or Federal savings association; and

(ii) The national bank's or Federal savings association's proportional ownership share of the fund; or

§ 3.155

(2) Include the national bank's or Federal savings association's proportional ownership share of each exposure held by the fund in the national bank's or Federal savings association's IMA.

(c) *Simple modified look-through approach.* Under this approach, the risk-weighted asset amount for a national bank's or Federal savings association's equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight assigned according to subpart D of this part that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund's permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund's exposures).

(d) *Alternative modified look-through approach.* Under this approach, a national bank or Federal savings association may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories assigned according to subpart D of this part based on the investment limits in the fund's prospectus, partnership agreement, or similar contract that defines the fund's permissible investments. The risk-weighted asset amount for the national bank's or Federal savings association's equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure class multiplied by the applicable risk weight. If the sum of the investment limits for all exposure types within the fund exceeds 100 percent, the national bank or Federal savings association must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure type with the highest risk weight under subpart D of this part, and continues to make investments in order of the exposure type with the next highest risk weight under subpart D of this part until the maximum total investment level is reached. If more than one exposure type applies to an exposure, the national bank or Federal savings

12 CFR Ch. I (1–1–14 Edition)

association must use the highest applicable risk weight. A national bank or Federal savings association may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund's exposures.

§ 3.155 Equity derivative contracts.

(a) Under the IMA, in addition to holding risk-based capital against an equity derivative contract under this part, a national bank or Federal savings association must hold risk-based capital against the counterparty credit risk in the equity derivative contract by also treating the equity derivative contract as a wholesale exposure and computing a supplemental risk-weighted asset amount for the contract under § 3.132.

(b) Under the SRWA, a national bank or Federal savings association may choose not to hold risk-based capital against the counterparty credit risk of equity derivative contracts, as long as it does so for all such contracts. Where the equity derivative contracts are subject to a qualified master netting agreement, a national bank or Federal savings association using the SRWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

§§ 3.166–3.160 [Reserved]

RISK-WEIGHTED ASSETS FOR OPERATIONAL RISK

§ 3.161 Qualification requirements for incorporation of operational risk mitigants.

(a) *Qualification to use operational risk mitigants.* A national bank or Federal savings association may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(1) The national bank's or Federal savings association's operational risk quantification system is able to generate an estimate of the national bank's or Federal savings association's operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of the

national bank's or Federal savings association's operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(2) The national bank's or Federal savings association's methodology for incorporating the effects of insurance, if the national bank or Federal savings association uses insurance as an operational risk mitigant, captures through appropriate discounts to the amount of risk mitigation:

(i) The residual term of the policy, where less than one year;

(ii) The cancellation terms of the policy, where less than one year;

(iii) The policy's timeliness of payment;

(iv) The uncertainty of payment by the provider of the policy; and

(v) Mismatches in coverage between the policy and the hedged operational loss event.

(b) *Qualifying operational risk mitigants.* Qualifying operational risk mitigants are:

(1) Insurance that:

(i) Is provided by an unaffiliated company that the national bank or Federal savings association deems to have strong capacity to meet its claims payment obligations and the obligor rating category to which the national bank or Federal savings association assigns the company is assigned a PD equal to or less than 10 basis points;

(ii) Has an initial term of at least one year and a residual term of more than 90 days;

(iii) Has a minimum notice period for cancellation by the provider of 90 days;

(iv) Has no exclusions or limitations based upon regulatory action or for the receiver or liquidator of a failed depository institution; and

(v) Is explicitly mapped to a potential operational loss event;

(2) Operational risk mitigants other than insurance for which the OCC has given prior written approval. In evaluating an operational risk mitigant other than insurance, the OCC will consider whether the operational risk mitigant covers potential operational losses in a manner equivalent to holding total capital.

§ 3.162 Mechanics of risk-weighted asset calculation.

(a) If a national bank or Federal savings association does not qualify to use or does not have qualifying operational risk mitigants, the national bank's or Federal savings association's dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any).

(b) If a national bank or Federal savings association qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the national bank's or Federal savings association's dollar risk-based capital requirement for operational risk is the greater of:

(1) The national bank's or Federal savings association's operational risk exposure adjusted for qualifying operational risk mitigants minus eligible operational risk offsets (if any); or

(2) 0.8 multiplied by the difference between:

(i) The national bank's or Federal savings association's operational risk exposure; and

(ii) Eligible operational risk offsets (if any).

(c) The national bank's or Federal savings association's risk-weighted asset amount for operational risk equals the national bank's or Federal savings association's dollar risk-based capital requirement for operational risk determined under sections 162(a) or (b) multiplied by 12.5.

§§ 3.163–3.170 [Reserved]

DISCLOSURES

§ 3.171 Purpose and scope.

§§ 3.171 through 3.173 establish public disclosure requirements related to the capital requirements of a national bank or Federal savings association that is an advanced approaches national bank or Federal savings association.

§ 3.172 Disclosure requirements.

(a) A national bank or Federal savings association that is an advanced approaches national bank or Federal savings association that has completed the parallel run process and that has

§3.173

12 CFR Ch. I (1–1–14 Edition)

received notification from the OCC pursuant to section 121(d) of subpart E of this part must publicly disclose each quarter its total and tier 1 risk-based capital ratios and their components as calculated under this subpart (that is, common equity tier 1 capital, additional tier 1 capital, tier 2 capital, total qualifying capital, and total risk-weighted assets).

(b) A national bank or Federal savings association that is an advanced approaches national bank or Federal savings association that has completed the parallel run process and that has received notification from the OCC pursuant to section 121(d) of subpart E of this part must comply with paragraph (c) of this section unless it is a consolidated subsidiary of a bank holding company, savings and loan holding company, or depository institution that is subject to these disclosure requirements or a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction.

(c)(1) A national bank or Federal savings association described in paragraph (b) of this section must provide timely public disclosures each calendar quarter of the information in the applicable tables in §3.173. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the national bank's or Federal savings association's capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be disclosed as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the national bank's or Federal savings association's risk management objectives and policies, reporting system, and definitions) may be disclosed annually after the end of the fourth calendar quarter, provided that any significant changes to these are disclosed in the interim. Management may provide all of the disclosures required by this subpart in one place on the national bank's or Federal savings association's public Web site or may provide the disclosures in more than one public financial report or other regulatory reports,

provided that the national bank or Federal savings association publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(2) A national bank or Federal savings association described in paragraph (b) of this section must have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this subpart, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the national bank or Federal savings association must attest that the disclosures meet the requirements of this subpart.

(3) If a national bank or Federal savings association described in paragraph (b) of this section believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public information that is either proprietary or confidential in nature, the national bank or Federal savings association is not required to disclose those specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

§3.173 Disclosures by certain advanced approaches national banks or Federal savings associations.

(a) Except as provided in §3.172(b), a national bank or Federal savings association described in §3.172(b) must make the disclosures described in Tables 1 through 12 to §3.173. The national bank or Federal savings association must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period beginning on January 1, 2014.

TABLE 1 TO § 3.173—SCOPE OF APPLICATION

Qualitative disclosures	(a)	The name of the top corporate entity in the group to which subpart E of this part applies.
	(b)	A brief description of the differences in the basis for consolidating entities ¹ for accounting and regulatory purposes, with a description of those entities: (1) That are fully consolidated; (2) That are deconsolidated and deducted from total capital; (3) For which the total capital requirement is deducted; and (4) That are neither consolidated nor deducted (for example, where the investment in the entity is assigned a risk weight in accordance with this subpart).
	(c)	Any restrictions, or other major impediments, on transfer of funds or total capital within the group.
Quantitative disclosures	(d)	The aggregate amount of surplus capital of insurance subsidiaries included in the total capital of the consolidated group.
	(e)	The aggregate amount by which actual total capital is less than the minimum total capital requirement in all subsidiaries, with total capital requirements and the name(s) of the subsidiaries with such deficiencies.

¹ Such entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

TABLE 2 TO § 3.173—CAPITAL STRUCTURE

Qualitative disclosures	(a)	Summary information on the terms and conditions of the main features of all regulatory capital instruments.
Quantitative disclosures	(b)	The amount of common equity tier 1 capital, with separate disclosure of: (1) Common stock and related surplus; (2) Retained earnings; (3) Common equity minority interest; (4) AOCI (net of tax) and other reserves; and (5) Regulatory adjustments and deductions made to common equity tier 1 capital.
	(c)	The amount of tier 1 capital, with separate disclosure of: (1) Additional tier 1 capital elements, including additional tier 1 capital instruments and tier 1 minority interest not included in common equity tier 1 capital; and (2) Regulatory adjustments and deductions made to tier 1 capital.
	(d)	The amount of total capital, with separate disclosure of: (1) Tier 2 capital elements, including tier 2 capital instruments and total capital minority interest not included in tier 1 capital; and (2) Regulatory adjustments and deductions made to total capital.

TABLE 3 TO § 3.173—CAPITAL ADEQUACY

Qualitative disclosures	(a)	A summary discussion of the national bank's or Federal savings association's approach to assessing the adequacy of its capital to support current and future activities.
Quantitative disclosures	(b)	Risk-weighted assets for credit risk from: (1) Wholesale exposures; (2) Residential mortgage exposures; (3) Qualifying revolving exposures; (4) Other retail exposures; (5) Securitization exposures; (6) Equity exposures; (7) Equity exposures subject to the simple risk weight approach; and (8) Equity exposures subject to the internal models approach.
	(c)	Standardized market risk-weighted assets and advanced market risk-weighted assets as calculated under subpart F of this part: (1) Standardized approach for specific risk; and (2) Internal models approach for specific risk.
	(d)	Risk-weighted assets for operational risk.
	(e)	Common equity tier 1, tier 1 and total risk-based capital ratios: (1) For the top consolidated group; and (2) For each depository institution subsidiary.
	(f)	Total risk-weighted assets.

TABLE 4 TO § 3.173—CAPITAL CONSERVATION AND COUNTERCYCLICAL CAPITAL BUFFERS

Qualitative disclosures	(a)	The national bank or Federal savings association must publicly disclose the geographic breakdown of its private sector credit exposures used in the calculation of the countercyclical capital buffer.
Quantitative disclosures	(b)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the capital conservation buffer and the countercyclical capital buffer as described under § 3.11 of subpart B.
	(c)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the buffer retained income of the national bank or Federal savings association, as described under § 3.11 of subpart B.
	(d)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose any limitations it has on distributions and discretionary bonus payments resulting from the capital conservation buffer and the countercyclical capital buffer framework described under § 3.11 of subpart B, including the maximum payout amount for the quarter.

(b) *General qualitative disclosure requirement.* For each separate risk area described in Tables 5 through 12 to § 3.173, the national bank or Federal savings association must describe its risk management objectives and policies, including:

(1) Strategies and processes;

(2) The structure and organization of the relevant risk management function;

(3) The scope and nature of risk reporting and/or measurement systems; and

(4) Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.

TABLE 5¹ TO § 3.173—CREDIT RISK: GENERAL DISCLOSURES

Qualitative disclosures	(a)	The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 7 to § 3.173), including: (1) Policy for determining past due or delinquency status; (2) Policy for placing loans on nonaccrual; (3) Policy for returning loans to accrual status; (4) Definition of and policy for identifying impaired loans (for financial accounting purposes). (5) Description of the methodology that the entity uses to estimate its allowance for loan and lease losses, including statistical methods used where applicable; (6) Policy for charging-off uncollectible amounts; and (7) Discussion of the national bank's or Federal savings association's credit risk management policy
Quantitative disclosures	(b)	Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP, ² without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting not permitted under GAAP), over the period categorized by major types of credit exposure. For example, national banks or Federal savings associations could use categories similar to that used for financial statement purposes. Such categories might include, for instance: (1) Loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures; (2) Debt securities; and (3) OTC derivatives.
	(c)	Geographic ³ distribution of exposures, categorized in significant areas by major types of credit exposure.
	(d)	Industry or counterparty type distribution of exposures, categorized by major types of credit exposure.
	(e)	By major industry or counterparty type: (1) Amount of impaired loans for which there was a related allowance under GAAP; (2) Amount of impaired loans for which there was no related allowance under GAAP; (3) Amount of loans past due 90 days and on nonaccrual; (4) Amount of loans past due 90 days and still accruing; ⁴

TABLE 5¹ TO § 3.173—CREDIT RISK: GENERAL DISCLOSURES—Continued

		(5) The balance in the allowance for loan and lease losses at the end of each period, disaggregated on the basis of the entity's impairment method. To disaggregate the information required on the basis of impairment methodology, an entity shall separately disclose the amounts based on the requirements in GAAP; and
		(6) Charge-offs during the period.
(f)		Amount of impaired loans and, if available, the amount of past due loans categorized by significant geographic areas including, if practical, the amounts of allowances related to each geographical area, ⁵ further categorized as required by GAAP.
(g)		Reconciliation of changes in ALLL. ⁶
(h)		Remaining contractual maturity breakdown (for example, one year or less) of the whole portfolio, categorized by credit exposure.

¹ Table 5 to § 3.173 does not cover equity exposures, which should be reported in Table 9.

² See, for example, ASC Topic 815–10 and 210–20 as they may be amended from time to time.

³ Geographical areas may comprise individual countries, groups of countries, or regions within countries. A national bank or Federal savings association might choose to define the geographical areas based on the way the company's portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.

⁴ A national bank or Federal savings association is encouraged also to provide an analysis of the aging of past-due loans.

⁵ The portion of the general allowance that is not allocated to a geographical area should be disclosed separately.

⁶ The reconciliation should include the following: A description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

TABLE 6 TO § 3.173—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS

Qualitative disclosures	(a)	Explanation and review of the: (1) Structure of internal rating systems and relation between internal and external ratings; (2) Use of risk parameter estimates other than for regulatory capital purposes; (3) Process for managing and recognizing credit risk mitigation (see Table 8 to § 3.173); and (4) Control mechanisms for the rating system, including discussion of independence, accountability, and rating systems review.
	(b)	Description of the internal ratings process, provided separately for the following: (1) Wholesale category; (2) Retail subcategories; (i) Residential mortgage exposures; (ii) Qualifying revolving exposures; and (iii) Other retail exposures. For each category and subcategory above the description should include: (A) The types of exposure included in the category/subcategories; and (B) The definitions, methods and data for estimation and validation of PD, LGD, and EAD, including assumptions employed in the derivation of these variables. ¹
Quantitative disclosures: risk assessment.	(c)	(1) For wholesale exposures, present the following information across a sufficient number of PD grades (including default) to allow for a meaningful differentiation of credit risk: ² (i) Total EAD; ³ (ii) Exposure-weighted average LGD (percentage); (iii) Exposure-weighted average risk weight; and (iv) Amount of undrawn commitments and exposure-weighted average EAD including average drawdowns prior to default for wholesale exposures. (2) For each retail subcategory, present the disclosures outlined above across a sufficient number of segments to allow for a meaningful differentiation of credit risk.
Quantitative disclosures: historical results.	(d)	Actual losses in the preceding period for each category and subcategory and how this differs from past experience. A discussion of the factors that impacted the loss experience in the preceding period—for example, has the national bank or Federal savings association experienced higher than average default rates, loss rates or EADs.

TABLE 6 TO § 3.173—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS—Continued

	(e)	The national bank's or Federal savings association's estimates compared against actual outcomes over a longer period. ⁴ At a minimum, this should include information on estimates of losses against actual losses in the wholesale category and each retail subcategory over a period sufficient to allow for a meaningful assessment of the performance of the internal rating processes for each category/subcategory. ⁵ Where appropriate, the national bank or Federal savings association should further decompose this to provide analysis of PD, LGD, and EAD outcomes against estimates provided in the quantitative risk assessment disclosures above. ⁶
--	-----------	---

¹ This disclosure item does not require a detailed description of the model in full—it should provide the reader with a broad overview of the model approach, describing definitions of the variables and methods for estimating and validating those variables set out in the quantitative risk disclosures below. This should be done for each of the four category/subcategories. The national bank or Federal savings association must disclose any significant differences in approach to estimating these variables within each category/subcategories.

² The PD, LGD and EAD disclosures in Table 6 (c) to § 3.173 should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined under this part. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where a national bank or Federal savings association aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes.

³ Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

⁴ These disclosures are a way of further informing the reader about the reliability of the information provided in the "quantitative disclosures: Risk assessment" over the long run. The disclosures are requirements from year-end 2010; in the meantime, early adoption is encouraged. The phased implementation is to allow a national bank or Federal savings association sufficient time to build up a longer run of data that will make these disclosures meaningful.

⁵ This disclosure item is not intended to be prescriptive about the period used for this assessment. Upon implementation, it is expected that a national bank or Federal savings association would provide these disclosures for as long a set of data as possible—for example, if a national bank or Federal savings association has 10 years of data, it might choose to disclose the average default rates for each PD grade over that 10-year period. Annual amounts need not be disclosed.

⁶ A national bank or Federal savings association must provide this further decomposition where it will allow users greater insight into the reliability of the estimates provided in the "quantitative disclosures: Risk assessment." In particular, it must provide this information where there are material differences between its estimates of PD, LGD or EAD compared to actual outcomes over the long run. The national bank or Federal savings association must also provide explanations for such differences.

TABLE 7 TO § 3.173—GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK OF OTC DERIVATIVE CONTRACTS, REPO-STYLE TRANSACTIONS, AND ELIGIBLE MARGIN LOANS

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including: (1) Discussion of methodology used to assign economic capital and credit limits for counterparty credit exposures; (2) Discussion of policies for securing collateral, valuing and managing collateral, and establishing credit reserves; (3) Discussion of the primary types of collateral taken; (4) Discussion of policies with respect to wrong-way risk exposures; and (5) Discussion of the impact of the amount of collateral the national bank or Federal savings association would have to provide if the national bank or Federal savings association were to receive a credit rating downgrade.
Quantitative Disclosures	(b)	Gross positive fair value of contracts, netting benefits, netted current credit exposure, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure. ¹ Also report measures for EAD used for regulatory capital for these transactions, the notional value of credit derivative hedges purchased for counterparty credit risk protection, and, for national banks or Federal savings associations not using the internal models methodology in § 3.132(d), the distribution of current credit exposure by types of credit exposure. ²
	(c)	Notional amount of purchased and sold credit derivatives, segregated between use for the national bank's or Federal savings association's own credit portfolio and for its intermediation activities, including the distribution of the credit derivative products used, categorized further by protection bought and sold within each product group.
	(d)	The estimate of alpha if the national bank or Federal savings association has received supervisory approval to estimate alpha.

¹ Net unsecured credit exposure is the credit exposure after considering the benefits from legally enforceable netting agreements and collateral arrangements, without taking into account haircuts for price volatility, liquidity, etc.

² This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

TABLE 8 TO § 3.173—CREDIT RISK MITIGATION ^{1 2}

Qualitative disclosures	(a)	<p>The general qualitative disclosure requirement with respect to credit risk mitigation, including:</p> <ul style="list-style-type: none"> (1) Policies and processes for, and an indication of the extent to which the national bank or Federal savings association uses, on- or off-balance sheet netting; (2) Policies and processes for collateral valuation and management; (3) A description of the main types of collateral taken by the national bank or Federal savings association; (4) The main types of guarantors/credit derivative counterparties and their creditworthiness; and (5) Information about (market or credit) risk concentrations within the mitigation taken.
Quantitative disclosures ..	(b)	<p>For each separately disclosed portfolio, the total exposure (after, where applicable, on- or off-balance sheet netting) that is covered by guarantees/credit derivatives.</p>

¹At a minimum, a national bank or Federal savings association must provide the disclosures in Table 8 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this subpart. Where relevant, national banks or Federal savings associations are encouraged to give further information about mitigants that have not been recognized for that purpose.

²Credit derivatives and other credit mitigation that are treated for the purposes of this subpart as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures (in Table 8 to § 3.173) and included within those relating to securitization (in Table 9 to § 3.173).

TABLE 9 TO § 3.173—SECURITIZATION

Qualitative disclosures	(a)	<p>The general qualitative disclosure requirement with respect to securitization (including synthetic securitizations), including a discussion of:</p> <ul style="list-style-type: none"> (1) The national bank's or Federal savings association's objectives for securitizing assets, including the extent to which these activities transfer credit risk of the underlying exposures away from the national bank or Federal savings association to other entities and including the type of risks assumed and retained with resecuritization activity;¹ (2) The nature of the risks (e.g. liquidity risk) inherent in the securitized assets; (3) The roles played by the national bank or Federal savings association in the securitization process² and an indication of the extent of the national bank's or Federal savings association's involvement in each of them; (4) The processes in place to monitor changes in the credit and market risk of securitization exposures including how those processes differ for resecuritization exposures; (5) The national bank's or Federal savings association's policy for mitigating the credit risk retained through securitization and resecuritization exposures; and (6) The risk-based capital approaches that the national bank or Federal savings association follows for its securitization exposures including the type of securitization exposure to which each approach applies.
	(b)	<p>A list of:</p> <ul style="list-style-type: none"> (1) The type of securitization SPEs that the national bank or Federal savings association, as sponsor, uses to securitize third-party exposures. The national bank or Federal savings association must indicate whether it has exposure to these SPEs, either on- or off-balance sheet; and (2) Affiliated entities: <ul style="list-style-type: none"> (i) That the national bank or Federal savings association manages or advises; and (ii) That invest either in the securitization exposures that the national bank or Federal savings association has securitized or in securitization SPEs that the national bank or Federal savings association sponsors.³

TABLE 9 TO § 3.173—SECURITIZATION—Continued

Quantitative disclosures	(c)	Summary of the national bank's or Federal savings association's accounting policies for securitization activities, including: (1) Whether the transactions are treated as sales or financings; (2) Recognition of gain-on-sale; (3) Methods and key assumptions and inputs applied in valuing retained or purchased interests; (4) Changes in methods and key assumptions and inputs from the previous period for valuing retained interests and impact of the changes; (5) Treatment of synthetic securitizations; (6) How exposures intended to be securitized are valued and whether they are recorded under subpart E of this part; and (7) Policies for recognizing liabilities on the balance sheet for arrangements that could require the national bank or Federal savings association to provide financial support for securitized assets.
	(d)	An explanation of significant changes to any of the quantitative information set forth below since the last reporting period.
	(e)	The total outstanding exposures securitized ⁴ by the national bank or Federal savings association in securitizations that meet the operational criteria in § 3.141 (categorized into traditional/synthetic), by underlying exposure type ⁵ separately for securitizations of third-party exposures for which the bank acts only as sponsor.
	(f)	For exposures securitized by the national bank or Federal savings association in securitizations that meet the operational criteria in § 3.141: (1) Amount of securitized assets that are impaired ⁶ /past due categorized by exposure type; and (2) Losses recognized by the national bank or Federal savings association during the current period categorized by exposure type. ⁷
	(g)	The total amount of outstanding exposures intended to be securitized categorized by exposure type.
	(h)	Aggregate amount of: (1) On-balance sheet securitization exposures retained or purchased categorized by exposure type; and (2) Off-balance sheet securitization exposures categorized by exposure type.
	(i)	(1) Aggregate amount of securitization exposures retained or purchased and the associated capital requirements for these exposures, categorized between securitization and resecuritization exposures, further categorized into a meaningful number of risk weight bands and by risk-based capital approach (e.g. SA, SFA, or SSFA). (2) Exposures that have been deducted entirely from tier 1 capital, CEIOs deducted from total capital (as described in § 3.42(a)(1)), and other exposures deducted from total capital should be disclosed separately by exposure type.
	(j)	Summary of current year's securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by asset type.
	(k)	Aggregate amount of resecuritization exposures retained or purchased categorized according to: (1) Exposures to which credit risk mitigation is applied and those not applied; and (2) Exposures to guarantors categorized according to guarantor creditworthiness categories or guarantor name.

¹ The national bank or Federal savings association must describe the structure of resecuritizations in which it participates; this description must be provided for the main categories of resecuritization products in which the national bank or Federal savings association is active.

² For example, these roles would include originator, investor, servicer, provider of credit enhancement, sponsor, liquidity provider, or swap provider.

³ For example, money market mutual funds should be listed individually, and personal and private trusts, should be noted collectively.

⁴ "Exposures securitized" include underlying exposures originated by the bank, whether generated by them or purchased, and recognized in the balance sheet, from third parties, and third-party exposures included in sponsored transactions. Securitization transactions (including underlying exposures originally on the bank's balance sheet and underlying exposures acquired by the bank from third-party entities) in which the originating bank does not retain any securitization exposure should be shown separately but need only be reported for the year of inception.

⁵ A national bank or Federal savings association is required to disclose exposures regardless of whether there is a capital charge under this part.

⁶ A national bank or Federal savings association must include credit-related other than temporary impairment (OTTI).

⁷ For example, charge-offs/allowances (if the assets remain on the bank's balance sheet) or credit-related OTTI of I/O strips and other retained residual interests, as well as recognition of liabilities for probable future financial support required of the bank with respect to securitized assets.

TABLE 10 TO § 3.173—OPERATIONAL RISK

Qualitative disclosures	(a)	The general qualitative disclosure requirement for operational risk.
	(b)	Description of the AMA, including a discussion of relevant internal and external factors considered in the national bank's or Federal savings association's measurement approach.
	(c)	A description of the use of insurance for the purpose of mitigating operational risk.

TABLE 11 TO § 3.173—EQUITIES NOT SUBJECT TO SUBPART F OF THIS PART

Qualitative disclosures	(a)	The general qualitative disclosure requirement with respect to the equity risk of equity holdings not subject to subpart F of this part, including: (1) Differentiation between holdings on which capital gains are expected and those held for other objectives, including for relationship and strategic reasons; and (2) Discussion of important policies covering the valuation of and accounting for equity holdings not subject to subpart F of this part. This includes the accounting methodology and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.
	(b)	Carrying value on the balance sheet of equity investments, as well as the fair value of those investments.
Quantitative disclosures	(c)	The types and nature of investments, including the amount that is: (1) Publicly traded; and (2) Non-publicly traded.
	(d)	The cumulative realized gains (losses) arising from sales and liquidations in the reporting period.
	(e)	(1) Total unrealized gains (losses) ¹ (2) Total latent revaluation gains (losses) ²
	(f)	(3) Any amounts of the above included in tier 1 and/or tier 2 capital.
		Capital requirements categorized by appropriate equity groupings, consistent with the national bank's or Federal savings association's methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory transition regarding total capital requirements. ³

¹ Unrealized gains (losses) recognized in the balance sheet but not through earnings.
² Unrealized gains (losses) not recognized either in the balance sheet or through earnings.
³ This disclosure must include a breakdown of equities that are subject to the 0 percent, 20 percent, 100 percent, 300 percent, 400 percent, and 600 percent risk weights, as applicable.

TABLE 12 TO § 3.173—INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

Qualitative disclosures	(a)	The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities.
Quantitative disclosures	(b)	The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring interest rate risk for non-trading activities, categorized by currency (as appropriate).

§§3.174–3.200 [Reserved]

Subpart F—Risk-Weighted Assets—Market Risk

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.201 Purpose, applicability, and reservation of authority.

(a) *Purpose.* This subpart F establishes risk-based capital requirements for national banks or Federal savings

associations with significant exposure to market risk, provides methods for these national banks or Federal savings associations to calculate their standardized measure for market risk and, if applicable, advanced measure for market risk, and establishes public disclosure requirements.

(b) *Applicability.* (1) This subpart F applies to any national bank or Federal savings association with aggregate trading assets and trading liabilities (as reported in the national bank's or

§ 3.202

12 CFR Ch. I (1–1–14 Edition)

Federal savings association's most recent quarterly [regulatory report]), equal to:

(i) 10 percent or more of quarter-end total assets as reported on the most recent quarterly [Call Report or FR Y-9C]; or

(ii) \$1 billion or more.

(2) The OCC may apply this subpart to any national bank or Federal savings association if the OCC deems it necessary or appropriate because of the level of market risk of the national bank or Federal savings association or to ensure safe and sound banking practices.

(3) The OCC may exclude a national bank or Federal savings association that meets the criteria of paragraph (b)(1) of this section from application of this subpart if the OCC determines that the exclusion is appropriate based on the level of market risk of the national bank or Federal savings association and is consistent with safe and sound banking practices.

(c) *Reservation of authority* (1) The OCC may require a national bank or Federal savings association to hold an amount of capital greater than otherwise required under this subpart if the OCC determines that the national bank's or Federal savings association's capital requirement for market risk as calculated under this subpart is not commensurate with the market risk of the national bank's or Federal savings association's covered positions. In making determinations under paragraphs (c)(1) through (c)(3) of this section, the OCC will apply notice and response procedures generally in the same manner as the notice and response procedures set forth in 12 CFR 3.404.

(2) If the OCC determines that the risk-based capital requirement calculated under this subpart by the national bank or Federal savings association for one or more covered positions or portfolios of covered positions is not commensurate with the risks associated with those positions or portfolios, the OCC may require the national bank or Federal savings association to assign a different risk-based capital requirement to the positions or portfolios that more accurately reflects the risk of the positions or portfolios.

(3) The OCC may also require a national bank or Federal savings association to calculate risk-based capital requirements for specific positions or portfolios under this subpart, or under subpart D or subpart E of this part, as appropriate, to more accurately reflect the risks of the positions.

(4) Nothing in this subpart limits the authority of the OCC under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

§ 3.202 Definitions.

(a) Terms set forth in § 3.202 and used in this subpart have the definitions assigned thereto in § 3.2.

(b) For the purposes of this subpart, the following terms are defined as follows:

Backtesting means the comparison of a national bank's or Federal savings association's internal estimates with actual outcomes during a sample period not used in model development. For purposes of this subpart, backtesting is one form of out-of-sample testing.

Commodity position means a position for which price risk arises from changes in the price of a commodity.

Corporate debt position means a debt position that is an exposure to a company that is not a sovereign entity, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multilateral development bank, a depository institution, a foreign bank, a credit union, a public sector entity, a GSE, or a securitization.

Correlation trading position means:

(1) A securitization position for which all or substantially all of the value of the underlying exposures is based on the credit quality of a single company for which a two-way market exists, or on commonly traded indices based on such exposures for which a two-way market exists on the indices; or

(2) A position that is not a securitization position and that hedges

a position described in paragraph (1) of this definition; and

(3) A correlation trading position does not include:

- (i) A resecuritization position;
- (ii) A derivative of a securitization position that does not provide a pro rata share in the proceeds of a securitization tranche; or
- (iii) A securitization position for which the underlying assets or reference exposures are retail exposures, residential mortgage exposures, or commercial mortgage exposures.

Covered position means the following positions:

(1) A trading asset or trading liability (whether on- or off-balance sheet),²⁷ as reported on Call Report, that meets the following conditions:

(i) The position is a trading position or hedges another covered position;²⁸ and

(ii) The position is free of any restrictive covenants on its tradability or the national bank or Federal savings association is able to hedge the material risk elements of the position in a two-way market;

(2) A foreign exchange or commodity position, regardless of whether the position is a trading asset or trading liability (excluding any structural foreign currency positions that the national bank or Federal savings association chooses to exclude with prior supervisory approval); and

(3) Notwithstanding paragraphs (1) and (2) of this definition, a covered position does not include:

(i) An intangible asset, including any servicing asset;

(ii) Any hedge of a trading position that the OCC determines to be outside the scope of the national bank's or Federal savings association's hedging strategy required in paragraph (a)(2) of § 3.203;

(iii) Any position that, in form or substance, acts as a liquidity facility that provides support to asset-backed commercial paper;

(iv) A credit derivative the national bank or Federal savings association recognizes as a guarantee for risk-weighted asset amount calculation purposes under subpart D or subpart E of this part;

(v) Any position that is recognized as a credit valuation adjustment hedge under § 3.132(e)(5) or § 3.132(e)(6), except as provided in § 3.132(e)(6)(vii);

(vi) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity and other than a position in an investment company as defined in and registered with the SEC under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*), provided that all the underlying equities held by the investment company are publicly traded;

(vii) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity and other than a position in an entity not domiciled in the United States (or a political subdivision thereof) that is supervised and regulated in a manner similar to entities described in paragraph (3)(vi) of this definition;

(viii) Any position a national bank or Federal savings association holds with the intent to securitize; or

(ix) Any direct real estate holding.

Debt position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in interest rates or credit spreads.

Default by a sovereign entity has the same meaning as the term sovereign default under § 3.2.

Equity position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in equity prices.

Event risk means the risk of loss on equity or hybrid equity positions as a result of a financial event, such as the announcement or occurrence of a company merger, acquisition, spin-off, or dissolution.

Foreign exchange position means a position for which price risk arises from changes in foreign exchange rates.

General market risk means the risk of loss that could result from broad market movements, such as changes in the

²⁷Securities subject to repurchase and lending agreements are included as if they are still owned by the lender.

²⁸A position that hedges a trading position must be within the scope of the bank's hedging strategy as described in paragraph (a)(2) of section 203 of this subpart.

general level of interest rates, credit spreads, equity prices, foreign exchange rates, or commodity prices.

Hedge means a position or positions that offset all, or substantially all, of one or more material risk factors of another position.

Idiosyncratic risk means the risk of loss in the value of a position that arises from changes in risk factors unique to that position.

Incremental risk means the default risk and credit migration risk of a position. Default risk means the risk of loss on a position that could result from the failure of an obligor to make timely payments of principal or interest on its debt obligation, and the risk of loss that could result from bankruptcy, insolvency, or similar proceeding. Credit migration risk means the price risk that arises from significant changes in the underlying credit quality of the position.

Market risk means the risk of loss on a position that could result from movements in market prices.

Resecuritization position means a covered position that is:

(1) An on- or off-balance sheet exposure to a resecuritization; or

(2) An exposure that directly or indirectly references a resecuritization exposure in paragraph (1) of this definition.

Securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches that reflect different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) For non-synthetic securitizations, the underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act;

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under section 24(Eleventh) of the National Bank Act;

(8) The OCC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a securitization based on the transaction's leverage, risk profile, or economic substance;

(9) The OCC may deem an exposure to a transaction that meets the definition of a securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a securitization based on the transaction's leverage, risk profile, or economic substance; and

(10) The transaction is not:

(i) An investment fund;

(ii) A collective investment fund (as defined in [12 CFR 208.34 (Board), 12 CFR 9.18 (OCC)]);

(iii) An employee benefit plan as defined in paragraphs (3) and (32) of section 3 of ERISA, a "governmental plan" (as defined in 29 U.S.C. 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any similar employee benefit plan established under the laws of a foreign jurisdiction; or

(iv) Registered with the SEC under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*) or foreign equivalents thereof.

Securitization position means a covered position that is:

(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a securitization (including a resecuritization); or

(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Sovereign debt position means a direct exposure to a sovereign entity.

Specific risk means the risk of loss on a position that could result from factors other than broad market movements and includes event risk, default risk, and idiosyncratic risk.

Structural position in a foreign currency means a position that is not a trading position and that is:

(1) Subordinated debt, equity, or minority interest in a consolidated subsidiary that is denominated in a foreign currency;

(2) Capital assigned to foreign branches that is denominated in a foreign currency;

(3) A position related to an unconsolidated subsidiary or another item that is denominated in a foreign currency and that is deducted from the national bank's or Federal savings association's tier 1 or tier 2 capital; or

(4) A position designed to hedge a national bank's or Federal savings association's capital ratios or earnings against the effect on paragraphs (1), (2), or (3) of this definition of adverse exchange rate movements.

Term repo-style transaction means a repo-style transaction that has an original maturity in excess of one business day.

Trading position means a position that is held by the national bank or Federal savings association for the purpose of short-term resale or with the intent of benefiting from actual or expected short-term price movements, or to lock in arbitrage profits.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more positions could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

§ 3.203 Requirements for application of this subpart F.

(a) *Trading positions*—(1) *Identification of trading positions.* A national bank or Federal savings association must have clearly defined policies and procedures for determining which of its trading assets and trading liabilities are trading positions and which of its trading positions are correlation trading positions. These policies and procedures must take into account:

(i) The extent to which a position, or a hedge of its material risks, can be marked-to-market daily by reference to a two-way market; and

(ii) Possible impairments to the liquidity of a position or its hedge.

(2) *Trading and hedging strategies.* A national bank or Federal savings association must have clearly defined trading and hedging strategies for its trading positions that are approved by senior management of the national bank or Federal savings association.

(i) The trading strategy must articulate the expected holding period of, and the market risk associated with, each portfolio of trading positions.

(ii) The hedging strategy must articulate for each portfolio of trading positions the level of market risk the national bank or Federal savings association is willing to accept and must detail the instruments, techniques, and strategies the national bank or Federal savings association will use to hedge the risk of the portfolio.

(b) *Management of covered positions*—

(1) *Active management.* A national bank or Federal savings association must have clearly defined policies and procedures for actively managing all covered positions. At a minimum, these policies and procedures must require:

(i) Marking positions to market or to model on a daily basis;

(ii) Daily assessment of the national bank's or Federal savings association's ability to hedge position and portfolio risks, and of the extent of market liquidity;

(iii) Establishment and daily monitoring of limits on positions by a risk control unit independent of the trading business unit;

(iv) Daily monitoring by senior management of information described in

§ 3.203

12 CFR Ch. I (1–1–14 Edition)

paragraphs (b)(1)(i) through (b)(1)(iii) of this section;

(v) At least annual reassessment of established limits on positions by senior management; and

(vi) At least annual assessments by qualified personnel of the quality of market inputs to the valuation process, the soundness of key assumptions, the reliability of parameter estimation in pricing models, and the stability and accuracy of model calibration under alternative market scenarios.

(2) *Valuation of covered positions.* The national bank or Federal savings association must have a process for prudent valuation of its covered positions that includes policies and procedures on the valuation of positions, marking positions to market or to model, independent price verification, and valuation adjustments or reserves. The valuation process must consider, as appropriate, unearned credit spreads, close-out costs, early termination costs, investing and funding costs, liquidity, and model risk.

(c) *Requirements for internal models.* (1) A national bank or Federal savings association must obtain the prior written approval of the OCC before using any internal model to calculate its risk-based capital requirement under this subpart.

(2) A national bank or Federal savings association must meet all of the requirements of this section on an ongoing basis. The national bank or Federal savings association must promptly notify the OCC when:

(i) The national bank or Federal savings association plans to extend the use of a model that the OCC has approved under this subpart to an additional business line or product type;

(ii) The national bank or Federal savings association makes any change to an internal model approved by the OCC under this subpart that would result in a material change in the national bank's or Federal savings association's risk-weighted asset amount for a portfolio of covered positions; or

(iii) The national bank or Federal savings association makes any material change to its modeling assumptions.

(3) The OCC may rescind its approval of the use of any internal model (in

whole or in part) or of the determination of the approach under § 3.209(a)(2)(ii) for a national bank's or Federal savings association's modeled correlation trading positions and determine an appropriate capital requirement for the covered positions to which the model would apply, if the OCC determines that the model no longer complies with this subpart or fails to reflect accurately the risks of the national bank's or Federal savings association's covered positions.

(4) The national bank or Federal savings association must periodically, but no less frequently than annually, review its internal models in light of developments in financial markets and modeling technologies, and enhance those models as appropriate to ensure that they continue to meet the OCC's standards for model approval and employ risk measurement methodologies that are most appropriate for the national bank's or Federal savings association's covered positions.

(5) The national bank or Federal savings association must incorporate its internal models into its risk management process and integrate the internal models used for calculating its VaR-based measure into its daily risk management process.

(6) The level of sophistication of a national bank's or Federal savings association's internal models must be commensurate with the complexity and amount of its covered positions. A national bank's or Federal savings association's internal models may use any of the generally accepted approaches, including but not limited to variance-covariance models, historical simulations, or Monte Carlo simulations, to measure market risk.

(7) The national bank's or Federal savings association's internal models must properly measure all the material risks in the covered positions to which they are applied.

(8) The national bank's or Federal savings association's internal models must conservatively assess the risks arising from less liquid positions and positions with limited price transparency under realistic market scenarios.

(9) The national bank or Federal savings association must have a rigorous

and well-defined process for re-estimating, re-evaluating, and updating its internal models to ensure continued applicability and relevance.

(10) If a national bank or Federal savings association uses internal models to measure specific risk, the internal models must also satisfy the requirements in paragraph (b)(1) of § 3.207.

(d) *Control, oversight, and validation mechanisms.* (1) The national bank or Federal savings association must have a risk control unit that reports directly to senior management and is independent from the business trading units.

(2) The national bank or Federal savings association must validate its internal models initially and on an ongoing basis. The national bank's or Federal savings association's validation process must be independent of the internal models' development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the internal models;

(ii) An ongoing monitoring process that includes verification of processes and the comparison of the national bank's or Federal savings association's model outputs with relevant internal and external data sources or estimation techniques; and

(iii) An outcomes analysis process that includes backtesting. For internal models used to calculate the VaR-based measure, this process must include a comparison of the changes in the national bank's or Federal savings association's portfolio value that would have occurred were end-of-day positions to remain unchanged (therefore, excluding fees, commissions, reserves, net interest income, and intraday trading) with VaR-based measures during a sample period not used in model development.

(3) The national bank or Federal savings association must stress test the market risk of its covered positions at a frequency appropriate to each portfolio, and in no case less frequently than quarterly. The stress tests must take into account concentration risk

(including but not limited to concentrations in single issuers, industries, sectors, or markets), illiquidity under stressed market conditions, and risks arising from the national bank's or Federal savings association's trading activities that may not be adequately captured in its internal models.

(4) The national bank or Federal savings association must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the national bank's or Federal savings association's market risk measurement systems, including the activities of the business trading units and independent risk control unit, compliance with policies and procedures, and calculation of the national bank's or Federal savings association's measures for market risk under this subpart. At least annually, the internal audit function must report its findings to the national bank's or Federal savings association's board of directors (or a committee thereof).

(e) *Internal assessment of capital adequacy.* The national bank or Federal savings association must have a rigorous process for assessing its overall capital adequacy in relation to its market risk. The assessment must take into account risks that may not be captured fully in the VaR-based measure, including concentration and liquidity risk under stressed market conditions.

(f) *Documentation.* The national bank or Federal savings association must adequately document all material aspects of its internal models, management and valuation of covered positions, control, oversight, validation and review processes and results, and internal assessment of capital adequacy.

§ 3.204 Measure for market risk.

(a) *General requirement.* (1) A national bank or Federal savings association must calculate its standardized measure for market risk by following the steps described in paragraph (a)(2) of this section. An advanced approaches

§ 3.204

12 CFR Ch. I (1–1–14 Edition)

national bank or Federal savings association also must calculate an advanced measure for market risk by following the steps in paragraph (a)(2) of this section.

(2) *Measure for market risk.* A national bank or Federal savings association must calculate the standardized measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for *de minimis* exposures all as defined under this paragraph (a)(2), (except, that the national bank or Federal savings association may not use the SFA in section 210(b)(2)(vii)(B) of this subpart for purposes of this calculation)[, plus any additional capital requirement established by the OCC]. An advanced approaches national bank or Federal savings association that has completed the parallel run process and that has received notifications from the OCC pursuant to § 3.121(d) also must calculate the advanced measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for *de minimis* exposures as defined under this paragraph (a)(2) [, plus any additional capital requirement established by the OCC].

(i) *VaR-based capital requirement.* A national bank's or Federal savings association's VaR-based capital requirement equals the greater of:

(A) The previous day's VaR-based measure as calculated under § 3.205; or

(B) The average of the daily VaR-based measures as calculated under § 3.205 for each of the preceding 60 business days multiplied by three, except as provided in paragraph (b) of this section.

(ii) *Stressed VaR-based capital requirement.* A national bank's or Federal savings association's stressed VaR-based capital requirement equals the greater of:

(A) The most recent stressed VaR-based measure as calculated under § 3.206; or

(B) The average of the stressed VaR-based measures as calculated under § 3.206 for each of the preceding 12 weeks multiplied by three, except as provided in paragraph (b) of this section.

(iii) *Specific risk add-ons.* A national bank's or Federal savings association's specific risk add-ons equal any specific risk add-ons that are required under § 3.207 and are calculated in accordance with § 3.210.

(iv) *Incremental risk capital requirement.* A national bank's or Federal savings association's incremental risk capital requirement equals any incremental risk capital requirement as calculated under section 208 of this subpart.

(v) *Comprehensive risk capital requirement.* A national bank's or Federal savings association's comprehensive risk capital requirement equals any comprehensive risk capital requirement as calculated under section 209 of this subpart.

(vi) *Capital requirement for de minimis exposures.* A national bank's or Federal savings association's capital requirement for *de minimis* exposures equals:

(A) The absolute value of the fair value of those *de minimis* exposures that are not captured in the national bank's or Federal savings association's VaR-based measure or under paragraph (a)(2)(vi)(B) of this section; and

(B) With the prior written approval of the OCC, the capital requirement for any *de minimis* exposures using alternative techniques that appropriately measure the market risk associated with those exposures.

(b) *Backtesting.* A national bank or Federal savings association must compare each of its most recent 250 business days' trading losses (excluding fees, commissions, reserves, net interest income, and intraday trading) with the corresponding daily VaR-based measures calibrated to a one-day holding period and at a one-tail, 99.0 percent confidence level. A national bank or Federal savings association must begin backtesting as required by this paragraph (b) no later than one year after the later of January 1, 2014 and

the date on which the national bank or Federal savings association becomes subject to this subpart. In the interim, consistent with safety and soundness principles, a national bank or Federal savings association subject to this subpart as of January 1, 2014 should continue to follow backtesting procedures in accordance with the OCC’s supervisory expectations.

(1) Once each quarter, the national bank or Federal savings association must identify the number of exceptions (that is, the number of business days for which the actual daily net trading loss, if any, exceeds the corresponding daily VaR-based measure) that have occurred over the preceding 250 business days.

(2) A national bank or Federal savings association must use the multiplication factor in Table 1 to § 3.204 that corresponds to the number of exceptions identified in paragraph (b)(1) of this section to determine its VaR-based capital requirement for market risk under paragraph (a)(2)(i) of this section and to determine its stressed VaR-based capital requirement for market risk under paragraph (a)(2)(ii) of this section until it obtains the next quarter’s backtesting results, unless the OCC notifies the national bank or Federal savings association in writing that a different adjustment or other action is appropriate.

TABLE 1 TO § 3.204—MULTIPLICATION FACTORS BASED ON RESULTS OF BACKTESTING

Number of exceptions	Multiplication factor
4 or fewer	3.00
5	3.40
6	3.50
7	3.65
8	3.75
9	3.85
10 or more	4.00

§ 3.205 VaR-based measure.

(a) *General requirement.* A national bank or Federal savings association must use one or more internal models to calculate daily a VaR-based measure of the general market risk of all covered positions. The daily VaR-based measure also may reflect the national bank’s or Federal savings association’s specific risk for one or more portfolios

of debt and equity positions, if the internal models meet the requirements of paragraph (b)(1) of § 3.207. The daily VaR-based measure must also reflect the national bank’s or Federal savings association’s specific risk for any portfolio of correlation trading positions that is modeled under § 3.209. A national bank or Federal savings association may elect to include term repo-style transactions in its VaR-based measure, provided that the national bank or Federal savings association includes all such term repo-style transactions consistently over time.

(1) The national bank’s or Federal savings association’s internal models for calculating its VaR-based measure must use risk factors sufficient to measure the market risk inherent in all covered positions. The market risk categories must include, as appropriate, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk. For material positions in the major currencies and markets, modeling techniques must incorporate enough segments of the yield curve—in no case less than six—to capture differences in volatility and less than perfect correlation of rates along the yield curve.

(2) The VaR-based measure may incorporate empirical correlations within and across risk categories, provided the national bank or Federal savings association validates and demonstrates the reasonableness of its process for measuring correlations. If the VaR-based measure does not incorporate empirical correlations across risk categories, the national bank or Federal savings association must add the separate measures from its internal models used to calculate the VaR-based measure for the appropriate market risk categories (interest rate risk, credit spread risk, equity price risk, foreign exchange rate risk, and/or commodity price risk) to determine its aggregate VaR-based measure.

(3) The VaR-based measure must include the risks arising from the non-linear price characteristics of options positions or positions with embedded optionality and the sensitivity of the fair value of the positions to changes in the volatility of the underlying rates, prices, or other material risk factors. A

national bank or Federal savings association with a large or complex options portfolio must measure the volatility of options positions or positions with embedded optionality by different maturities and/or strike prices, where material.

(4) The national bank or Federal savings association must be able to justify to the satisfaction of the OCC the omission of any risk factors from the calculation of its VaR-based measure that the national bank or Federal savings association uses in its pricing models.

(5) The national bank or Federal savings association must demonstrate to the satisfaction of the OCC the appropriateness of any proxies used to capture the risks of the national bank's or Federal savings association's actual positions for which such proxies are used.

(b) *Quantitative requirements for VaR-based measure.* (1) The VaR-based measure must be calculated on a daily basis using a one-tail, 99.0 percent confidence level, and a holding period equivalent to a 10-business-day movement in underlying risk factors, such as rates, spreads, and prices. To calculate VaR-based measures using a 10-business-day holding period, the national bank or Federal savings association may calculate 10-business-day measures directly or may convert VaR-based measures using holding periods other than 10 business days to the equivalent of a 10-business-day holding period. A national bank or Federal savings association that converts its VaR-based measure in such a manner must be able to justify the reasonableness of its approach to the satisfaction of the OCC.

(2) The VaR-based measure must be based on a historical observation period of at least one year. Data used to determine the VaR-based measure must be relevant to the national bank's or Federal savings association's actual exposures and of sufficient quality to support the calculation of risk-based capital requirements. The national bank or Federal savings association must update data sets at least monthly or more frequently as changes in market conditions or portfolio composition warrant. For a national bank or Federal savings association that

uses a weighting scheme or other method for the historical observation period, the national bank or Federal savings association must either:

(i) Use an effective observation period of at least one year in which the average time lag of the observations is at least six months; or

(ii) Demonstrate to the OCC that its weighting scheme is more effective than a weighting scheme with an average time lag of at least six months representing the volatility of the national bank's or Federal savings association's trading portfolio over a full business cycle. A national bank or Federal savings association using this option must update its data more frequently than monthly and in a manner appropriate for the type of weighting scheme.

(c) A national bank or Federal savings association must divide its portfolio into a number of significant subportfolios approved by the OCC for subportfolio backtesting purposes. These subportfolios must be sufficient to allow the national bank or Federal savings association and the OCC to assess the adequacy of the VaR model at the risk factor level; the OCC will evaluate the appropriateness of these subportfolios relative to the value and composition of the national bank's or Federal savings association's covered positions. The national bank or Federal savings association must retain and make available to the OCC the following information for each subportfolio for each business day over the previous two years (500 business days), with no more than a 60-day lag:

(1) A daily VaR-based measure for the subportfolio calibrated to a one-tail, 99.0 percent confidence level;

(2) The daily profit or loss for the subportfolio (that is, the net change in price of the positions held in the portfolio at the end of the previous business day); and

(3) The p-value of the profit or loss on each day (that is, the probability of observing a profit that is less than, or a loss that is greater than, the amount reported for purposes of paragraph (c)(2) of this section based on the model used to calculate the VaR-based measure described in paragraph (c)(1) of this section).

§ 3.206 Stressed VaR-based measure.

(a) *General requirement.* At least weekly, a national bank or Federal savings association must use the same internal model(s) used to calculate its VaR-based measure to calculate a stressed VaR-based measure.

(b) *Quantitative requirements for stressed VaR-based measure.* (1) A national bank or Federal savings association must calculate a stressed VaR-based measure for its covered positions using the same model(s) used to calculate the VaR-based measure, subject to the same confidence level and holding period applicable to the VaR-based measure under § 3.205, but with model inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the national bank's or Federal savings association's current portfolio.

(2) The stressed VaR-based measure must be calculated at least weekly and be no less than the national bank's or Federal savings association's VaR-based measure.

(3) A national bank or Federal savings association must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the national bank's or Federal savings association's stressed VaR-based measure under this section and must be able to provide empirical support for the period used. The national bank or Federal savings association must obtain the prior approval of the OCC for, and notify the OCC if the national bank or Federal savings association makes any material changes to, these policies and procedures. The policies and procedures must address:

(i) How the national bank or Federal savings association links the period of significant financial stress used to calculate the stressed VaR-based measure to the composition and directional bias of its current portfolio; and

(ii) The national bank's or Federal savings association's process for selecting, reviewing, and updating the period of significant financial stress used to calculate the stressed VaR-based measure and for monitoring the appropriateness of the period to the national

bank's or Federal savings association's current portfolio.

(4) Nothing in this section prevents the OCC from requiring a national bank or Federal savings association to use a different period of significant financial stress in the calculation of the stressed VaR-based measure.

§ 3.207 Specific risk.

(a) *General requirement.* A national bank or Federal savings association must use one of the methods in this section to measure the specific risk for each of its debt, equity, and securitization positions with specific risk.

(b) *Modeled specific risk.* A national bank or Federal savings association may use models to measure the specific risk of covered positions as provided in paragraph (a) of section 205 of this subpart (therefore, excluding securitization positions that are not modeled under section 209 of this subpart). A national bank or Federal savings association must use models to measure the specific risk of correlation trading positions that are modeled under § 3.209.

(1) *Requirements for specific risk modeling.* (i) If a national bank or Federal savings association uses internal models to measure the specific risk of a portfolio, the internal models must:

(A) Explain the historical price variation in the portfolio;

(B) Be responsive to changes in market conditions;

(C) Be robust to an adverse environment, including signaling rising risk in an adverse environment; and

(D) Capture all material components of specific risk for the debt and equity positions in the portfolio. Specifically, the internal models must:

(1) Capture event risk and idiosyncratic risk; and

(2) Capture and demonstrate sensitivity to material differences between positions that are similar but not identical and to changes in portfolio composition and concentrations.

(ii) If a national bank or Federal savings association calculates an incremental risk measure for a portfolio of debt or equity positions under section 208 of this subpart, the national bank or Federal savings association is not

required to capture default and credit migration risks in its internal models used to measure the specific risk of those portfolios.

(2) *Specific risk fully modeled for one or more portfolios.* If the national bank's or Federal savings association's VaR-based measure captures all material aspects of specific risk for one or more of its portfolios of debt, equity, or correlation trading positions, the national bank or Federal savings association has no specific risk add-on for those portfolios for purposes of paragraph (a)(2)(iii) of § 3.204.

(c) *Specific risk not modeled.* (1) If the national bank's or Federal savings association's VaR-based measure does not capture all material aspects of specific risk for a portfolio of debt, equity, or correlation trading positions, the national bank or Federal savings association must calculate a specific-risk add-on for the portfolio under the standardized measurement method as described in § 3.210.

(2) A national bank or Federal savings association must calculate a specific risk add-on under the standardized measurement method as described in § 3.210 for all of its securitization positions that are not modeled under § 3.209.

§ 3.208 Incremental risk.

(a) *General requirement.* A national bank or Federal savings association that measures the specific risk of a portfolio of debt positions under § 3.207(b) using internal models must calculate at least weekly an incremental risk measure for that portfolio according to the requirements in this section. The incremental risk measure is the national bank's or Federal savings association's measure of potential losses due to incremental risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions. With the prior approval of the OCC, a national bank or Federal savings association may choose to include portfolios of equity positions in its incremental risk model, provided that it consistently includes such equity positions in a manner that is consistent with how the na-

tional bank or Federal savings association internally measures and manages the incremental risk of such positions at the portfolio level. If equity positions are included in the model, for modeling purposes default is considered to have occurred upon the default of any debt of the issuer of the equity position. A national bank or Federal savings association may not include correlation trading positions or securitization positions in its incremental risk measure.

(b) *Requirements for incremental risk modeling.* For purposes of calculating the incremental risk measure, the incremental risk model must:

(1) Measure incremental risk over a one-year time horizon and at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(i) A constant level of risk assumption means that the national bank or Federal savings association rebalances, or rolls over, its trading positions at the beginning of each liquidity horizon over the one-year horizon in a manner that maintains the national bank's or Federal savings association's initial risk level. The national bank or Federal savings association must determine the frequency of rebalancing in a manner consistent with the liquidity horizons of the positions in the portfolio. The liquidity horizon of a position or set of positions is the time required for a national bank or Federal savings association to reduce its exposure to, or hedge all of its material risks of, the position(s) in a stressed market. The liquidity horizon for a position or set of positions may not be less than the shorter of three months or the contractual maturity of the position.

(ii) A constant position assumption means that the national bank or Federal savings association maintains the same set of positions throughout the one-year horizon. If a national bank or Federal savings association uses this assumption, it must do so consistently across all portfolios.

(iii) A national bank's or Federal savings association's selection of a constant position or a constant risk assumption must be consistent between

the national bank's or Federal savings association's incremental risk model and its comprehensive risk model described in section 209 of this subpart, if applicable.

(iv) A national bank's or Federal savings association's treatment of liquidity horizons must be consistent between the national bank's or Federal savings association's incremental risk model and its comprehensive risk model described in section 209, if applicable.

(2) Recognize the impact of correlations between default and migration events among obligors.

(3) Reflect the effect of issuer and market concentrations, as well as concentrations that can arise within and across product classes during stressed conditions.

(4) Reflect netting only of long and short positions that reference the same financial instrument.

(5) Reflect any material mismatch between a position and its hedge.

(6) Recognize the effect that liquidity horizons have on dynamic hedging strategies. In such cases, a national bank or Federal savings association must:

(i) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(ii) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(iii) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(iv) Capture in the incremental risk model any residual risks arising from such hedging strategies.

(7) Reflect the nonlinear impact of options and other positions with material nonlinear behavior with respect to default and migration changes.

(8) Maintain consistency with the national bank's or Federal savings association's internal risk management methodologies for identifying, measuring, and managing risk.

(c) *Calculation of incremental risk capital requirement.* The incremental risk capital requirement is the greater of:

(1) The average of the incremental risk measures over the previous 12 weeks; or

(2) The most recent incremental risk measure.

§ 3.209 Comprehensive risk.

(a) *General requirement.* (1) Subject to the prior approval of the OCC, a national bank or Federal savings association may use the method in this section to measure comprehensive risk, that is, all price risk, for one or more portfolios of correlation trading positions.

(2) A national bank or Federal savings association that measures the price risk of a portfolio of correlation trading positions using internal models must calculate at least weekly a comprehensive risk measure that captures all price risk according to the requirements of this section. The comprehensive risk measure is either:

(i) The sum of:

(A) The national bank's or Federal savings association's modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; and

(B) A surcharge for the national bank's or Federal savings association's modeled correlation trading positions equal to the total specific risk add-on for such positions as calculated under section 210 of this subpart multiplied by 8.0 percent; or

(ii) With approval of the OCC and provided the national bank or Federal savings association has met the requirements of this section for a period of at least one year and can demonstrate the effectiveness of the model through the results of ongoing model validation efforts including robust benchmarking, the greater of:

(A) The national bank's or Federal savings association's modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; or

(B) The total specific risk add-on that would apply to the bank's modeled correlation trading positions as calculated under section 210 of this subpart multiplied by 8.0 percent.

(b) *Requirements for modeling all price risk.* If a national bank or Federal savings association uses an internal model to measure the price risk of a portfolio of correlation trading positions:

§ 3.210

12 CFR Ch. I (1–1–14 Edition)

(1) The internal model must measure comprehensive risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(2) The model must capture all material price risk, including but not limited to the following:

(i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures;

(ii) Credit spread risk, including nonlinear price risks;

(iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations;

(iv) Basis risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a national bank or Federal savings association must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies;

(3) The national bank or Federal savings association must use market data that are relevant in representing the risk profile of the national bank's or Federal savings association's correlation trading positions in order to ensure that the national bank or Federal savings association fully captures the material risks of the correlation trading positions in its comprehensive risk measure in accordance with this section; and

(4) The national bank or Federal savings association must be able to demonstrate that its model is an appro-

priate representation of comprehensive risk in light of the historical price variation of its correlation trading positions.

(c) *Requirements for stress testing.* (1) A national bank or Federal savings association must at least weekly apply specific, supervisory stress scenarios to its portfolio of correlation trading positions that capture changes in:

(i) Default rates;

(ii) Recovery rates;

(iii) Credit spreads;

(iv) Correlations of underlying exposures; and

(v) Correlations of a correlation trading position and its hedge.

(2) *Other requirements.* (i) A national bank or Federal savings association must retain and make available to the OCC the results of the supervisory stress testing, including comparisons with the capital requirements generated by the national bank's or Federal savings association's comprehensive risk model.

(ii) A national bank or Federal savings association must report to the OCC promptly any instances where the stress tests indicate any material deficiencies in the comprehensive risk model.

(d) *Calculation of comprehensive risk capital requirement.* The comprehensive risk capital requirement is the greater of:

(1) The average of the comprehensive risk measures over the previous 12 weeks; or

(2) The most recent comprehensive risk measure.

§ 3.210 Standardized measurement method for specific risk

(a) *General requirement.* A national bank or Federal savings association must calculate a total specific risk add-on for each portfolio of debt and equity positions for which the national bank's or Federal savings association's VaR-based measure does not capture all material aspects of specific risk and for all securitization positions that are not modeled under § 3.209. A national bank or Federal savings association must calculate each specific risk add-on in accordance with the requirements of this section. Notwithstanding any other definition or requirement in

this subpart, a position that would have qualified as a debt position or an equity position but for the fact that it qualifies as a correlation trading position under paragraph (2) of the definition of correlation trading position in §3.202, shall be considered a debt position or an equity position, respectively, for purposes of this section 210 of this subpart.

(1) The specific risk add-on for an individual debt or securitization position that represents sold credit protection is capped at the notional amount of the credit derivative contract. The specific risk add-on for an individual debt or securitization position that represents purchased credit protection is capped at the current fair value of the transaction plus the absolute value of the present value of all remaining payments to the protection seller under the transaction. This sum is equal to the value of the protection leg of the transaction.

(2) For debt, equity, or securitization positions that are derivatives with linear payoffs, a national bank or Federal savings association must assign a specific risk-weighting factor to the fair value of the effective notional amount of the underlying instrument or index portfolio, except for a securitization position for which the national bank or Federal savings association directly calculates a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section. A swap must be included as an effective notional position in the underlying instrument or portfolio, with the receiving side treated as a long position and the paying side treated as a short position. For debt, equity, or securitization positions that are derivatives with nonlinear payoffs, a national bank or Federal savings association must risk weight the fair value of the effective notional amount of the underlying instrument or portfolio multiplied by the derivative's delta.

(3) For debt, equity, or securitization positions, a national bank or Federal savings association may net long and short positions (including derivatives) in identical issues or identical indices. A national bank or Federal savings association may also net positions in depositary receipts against an opposite position in an identical equity in dif-

ferent markets, provided that the national bank or Federal savings association includes the costs of conversion.

(4) A set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge has a specific risk add-on of zero if:

(i) The debt or securitization position is fully hedged by a total return swap (or similar instrument where there is a matching of swap payments and changes in fair value of the debt or securitization position);

(ii) There is an exact match between the reference obligation of the swap and the debt or securitization position;

(iii) There is an exact match between the currency of the swap and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the swap and the maturity date of the debt or securitization position; or, in cases where a total return swap references a portfolio of positions with different maturity dates, the total return swap maturity date must match the maturity date of the underlying asset in that portfolio that has the latest maturity date.

(5) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of paragraph (a)(4) of this section is equal to 20.0 percent of the capital requirement for the side of the transaction with the higher specific risk add-on when:

(i) The credit risk of the position is fully hedged by a credit default swap or similar instrument;

(ii) There is an exact match between the reference obligation of the credit derivative hedge and the debt or securitization position;

(iii) There is an exact match between the currency of the credit derivative hedge and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the credit derivative hedge and the maturity date of the debt or securitization position; or, in the case where the credit derivative hedge has a standard maturity date:

§3.210

12 CFR Ch. I (1–1–14 Edition)

(A) The maturity date of the credit derivative hedge is within 30 business days of the maturity date of the debt or securitization position; or

(B) For purchased credit protection, the maturity date of the credit derivative hedge is later than the maturity date of the debt or securitization position, but is no later than the standard maturity date for that instrument that immediately follows the maturity date of the debt or securitization position. The maturity date of the credit derivative hedge may not exceed the maturity date of the debt or securitization position by more than 90 calendar days.

(6) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of either paragraph (a)(4) or (a)(5) of this section, but in which all or substantially all of the price risk has been hedged, is equal to the specific risk add-on for the side of the transaction with the higher specific risk add-on.

(b) *Debt and securitization positions.* (1) The total specific risk add-on for a portfolio of debt or securitization positions is the sum of the specific risk

add-ons for individual debt or securitization positions, as computed under this section. To determine the specific risk add-on for individual debt or securitization positions, a national bank or Federal savings association must multiply the absolute value of the current fair value of each net long or net short debt or securitization position in the portfolio by the appropriate specific risk-weighting factor as set forth in paragraphs (b)(2)(i) through (b)(2)(vii) of this section.

(2) For the purpose of this section, the appropriate specific risk-weighting factors include:

(i) *Sovereign debt positions.* (A) In accordance with Table 1 to §3.210, a national bank or Federal savings association must assign a specific risk-weighting factor to a sovereign debt position based on the CRC applicable to the sovereign, and, as applicable, the remaining contractual maturity of the position, or if there is no CRC applicable to the sovereign, based on whether the sovereign entity is a member of the OECD. Notwithstanding any other provision in this subpart, sovereign debt positions that are backed by the full faith and credit of the United States are treated as having a CRC of 0.

TABLE 1 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR SOVEREIGN DEBT POSITIONS

	Specific risk-weighting factor (in percent)	
CRC:		
0-1	0.0	
2-3	Remaining contractual maturity of 6 months or less ..	0.25
	Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
	Remaining contractual maturity exceeds 24 months	1.6
4-6	8.0	
7	12.0	
OECD Member with No CRC	0.0	
Non-OECD Member with No CRC	8.0	
Sovereign Default	12.0	

(B) Notwithstanding paragraph (b)(2)(i)(A) of this section, a national bank or Federal savings association may assign to a sovereign debt position a specific risk-weighting factor that is lower than the applicable specific risk-weighting factor in Table 1 to §3.210 if:

(1) The position is denominated in the sovereign entity’s currency;

(2) The national bank or Federal savings association has at least an equivalent amount of liabilities in that currency; and

Comptroller of the Currency, Treasury

§3.210

(3) The sovereign entity allows banks under its jurisdiction to assign the lower specific risk-weighting factor to the same exposures to the sovereign entity.

(C) A national bank or Federal savings association must assign a 12.0 percent specific risk-weighting factor to a sovereign debt position immediately upon determination a default has occurred; or if a default has occurred within the previous five years.

(D) A national bank or Federal savings association must assign a 0.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign entity is a member of the OECD and does not have a CRC assigned to it, except as provided in paragraph (b)(2)(i)(C) of this section.

(E) A national bank or Federal savings association must assign an 8.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign is not a member of the OECD and does not have a CRC assigned to it, except as provided in paragraph (b)(2)(i)(C) of this section.

(ii) *Certain supranational entity and multilateral development bank debt positions.* A national bank or Federal savings association may assign a 0.0 percent specific risk-weighting factor to a

debt position that is an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(iii) *GSE debt positions.* A national bank or Federal savings association must assign a 1.6 percent specific risk-weighting factor to a debt position that is an exposure to a GSE. Notwithstanding the foregoing, a national bank or Federal savings association must assign an 8.0 percent specific risk-weighting factor to preferred stock issued by a GSE.

(iv) *Depository institution, foreign bank, and credit union debt positions.* (A) Except as provided in paragraph (b)(2)(iv)(B) of this section, a national bank or Federal savings association must assign a specific risk-weighting factor to a debt position that is an exposure to a depository institution, a foreign bank, or a credit union, in accordance with Table 2 to §3.210, based on the CRC that corresponds to that entity's home country or the OECD membership status of that entity's home country if there is no CRC applicable to the entity's home country, and, as applicable, the remaining contractual maturity of the position.

TABLE 2 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR DEPOSITORY INSTITUTION, FOREIGN BANK, AND CREDIT UNION DEBT POSITIONS

	Specific risk-weighting factor (in percent)	
CRC 0–2 or OECD Member with No CRC	Remaining contractual maturity of 6 months or less	0.25
	Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
	Remaining contractual maturity exceeds 24 months	1.6
CRC 3	8.0	
CRC 4–7	12.0	
Non-OECD Member with No CRC	8.0	
Sovereign Default	12.0	

(B) A national bank or Federal savings association must assign a specific risk-weighting factor of 8.0 percent to a debt position that is an exposure to a depository institution or a foreign bank that is includable in the depository institution's or foreign bank's regulatory capital and that is not subject

to deduction as a reciprocal holding under §3.22.

(C) A national bank or Federal savings association must assign a 12.0 percent specific risk-weighting factor to a debt position that is an exposure to a foreign bank immediately upon determination that a default by the foreign bank's home country has occurred or if

§3.210

12 CFR Ch. I (1–1–14 Edition)

a default by the foreign bank’s home country has occurred within the previous five years.

(v) *PSE debt positions.* (A) Except as provided in paragraph (b)(2)(v)(B) of this section, a national bank or Federal savings association must assign a specific risk-weighting factor to a debt position that is an exposure to a PSE in accordance with Tables 3 and 4 to §3.210 depending on the position’s categorization as a general obligation or revenue obligation based on the CRC that corresponds to the PSE’s home country or the OECD membership status of the PSE’s home country if there is no CRC applicable to the PSE’s home country, and, as applicable, the remaining contractual maturity of the position, as set forth in Tables 3 and 4 of this section.

(B) A national bank or Federal savings association may assign a lower

specific risk-weighting factor than would otherwise apply under Tables 3 and 4 of this section to a debt position that is an exposure to a foreign PSE if:

(1) The PSE’s home country allows banks under its jurisdiction to assign a lower specific risk-weighting factor to such position; and

(2) The specific risk-weighting factor is not lower than the risk weight that corresponds to the PSE’s home country in accordance with Tables 3 and 4 of this section.

(C) A national bank or Federal savings association must assign a 12.0 percent specific risk-weighting factor to a PSE debt position immediately upon determination that a default by the PSE’s home country has occurred or if a default by the PSE’s home country has occurred within the previous five years.

TABLE 3 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE GENERAL OBLIGATION DEBT POSITIONS

	General obligation specific risk-weighting factor (in percent)	
CRC 0–2 or OECD Member with No CRC.	Remaining contractual maturity of 6 months or less.	0.25
	Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
	Remaining contractual maturity exceeds 24 months.	1.6
CRC 3	8.0	
CRC 4–7	12.0	
Non-OECD Member with No CRC	8.0	
Sovereign Default	12.0	

TABLE 4 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE REVENUE OBLIGATION DEBT POSITIONS

	Revenue obligation specific risk-weighting factor (in percent)	
CRC 0–1 or OECD Member with No CRC	Remaining contractual maturity of 6 months or less	0.25
	Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
	Remaining contractual maturity exceeds 24 months	1.6
CRC 2–3	8.0	
CRC 4–7	12.0	
Non-OECD Member with No CRC	8.0	

TABLE 4 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE REVENUE OBLIGATION DEBT POSITIONS—Continued

Sovereign Default	12.0
-------------------------	------

(vi) *Corporate debt positions.* Except as otherwise provided in paragraph (b)(2)(vi)(B) of this section, a national bank or Federal savings association must assign a specific risk-weighting factor to a corporate debt position in accordance with the investment grade methodology in paragraph (b)(2)(vi)(A) of this section.

(A) *Investment grade methodology.* (1) For corporate debt positions that are exposures to entities that have issued

and outstanding publicly traded instruments, a national bank or Federal savings association must assign a specific risk-weighting factor based on the category and remaining contractual maturity of the position, in accordance with Table 5 to §3.210. For purposes of this paragraph (b)(2)(vi)(A)(1), the national bank or Federal savings association must determine whether the position is in the investment grade or not investment grade category.

TABLE 5 TO §3.210—SPECIFIC RISK-WEIGHTING FACTORS FOR CORPORATE DEBT POSITIONS UNDER THE INVESTMENT GRADE METHODOLOGY

Category	Remaining contractual maturity	Specific risk-weighting factor (in percent)
Investment Grade	6 months or less	0.50
	Greater than 6 and up to and including 24 months ...	2.00
	Greater than 24 months	4.00
Non-investment Grade		12.00

(2) A national bank or Federal savings association must assign an 8.0 percent specific risk-weighting factor for corporate debt positions that are exposures to entities that do not have publicly traded instruments outstanding.

(B) *Limitations.* (1) A national bank or Federal savings association must assign a specific risk-weighting factor of at least 8.0 percent to an interest-only mortgage-backed security that is not a securitization position.

(2) A national bank or Federal savings association shall not assign a corporate debt position a specific risk-weighting factor that is lower than the specific risk-weighting factor that corresponds to the CRC of the issuer's home country, if applicable, in table 1 of this section.

(vii) *Securitization positions.* (A) *General requirements.* (1) A national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association must assign a specific risk-weighting factor to a securitization position using either the simplified supervisory formula approach (SSFA) in paragraph

(b)(2)(vii)(C) of this section (and §3.211) or assign a specific risk-weighting factor of 100 percent to the position.

(2) A national bank or Federal savings association that is an advanced approaches national bank or Federal savings association must calculate a specific risk add-on for a securitization position in accordance with paragraph (b)(2)(vii)(B) of this section if the national bank or Federal savings association and the securitization position each qualifies to use the SFA in §3.143. A national bank or Federal savings association that is an advanced approaches national bank or Federal savings association with a securitization position that does not qualify for the SFA under paragraph (b)(2)(vii)(B) of this section may assign a specific risk-weighting factor to the securitization position using the SSFA in accordance with paragraph (b)(2)(vii)(C) of this section or assign a specific risk-weighting factor of 100 percent to the position.

(3) A national bank or Federal savings association must treat a short securitization position as if it is a long

securitization position solely for calculation purposes when using the SFA in paragraph (b)(2)(vii)(B) of this section or the SSFA in paragraph (b)(2)(vii)(C) of this section.

(B) *SFA*. To calculate the specific risk add-on for a securitization position using the SFA, a national bank or Federal savings association that is an advanced approaches national bank or Federal savings association must set the specific risk add-on for the position equal to the risk-based capital requirement as calculated under §3.143.

(C) *SSFA*. To use the SSFA to determine the specific risk-weighting factor for a securitization position, a national bank or Federal savings association must calculate the specific risk-weighting factor in accordance with §3.211.

(D) *Nth-to-default credit derivatives*. A national bank or Federal savings association must determine a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section, or assign a specific risk-weighting factor using the SSFA in paragraph (b)(2)(vii)(C) of this section to an nth-to-default credit derivative in accordance with this paragraph (b)(2)(vii)(D), regardless of whether the national bank or Federal savings association is a net protection buyer or net protection seller. A national bank or Federal savings association must determine its position in the nth-to-default credit derivative as the largest notional amount of all the underlying exposures.

(I) For purposes of determining the specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section or the specific risk-weighting factor for an nth-to-default credit derivative using the SSFA in paragraph (b)(2)(vii)(C) of this section the national bank or Federal savings association must calculate the attachment point and detachment point of its position as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the national bank's or Federal savings association's position to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter A is expressed as a decimal value between zero and one. For purposes of using the

SFA in paragraph (b)(2)(vii)(B) of this section to calculate the specific add-on for its position in an nth-to-default credit derivative, parameter A must be set equal to the credit enhancement level (L) input to the SFA formula in section 143 of this subpart. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the national bank's or Federal savings association's position. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) notional amounts of the underlying exposure(s) are subordinated to the national bank's or Federal savings association's position.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the national bank's or Federal savings association's position in the nth-to-default credit derivative to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter A is expressed as a decimal value between zero and one. For purposes of using the SFA in paragraph (b)(2)(vii)(B) of this section to calculate the specific risk add-on for its position in an nth-to-default credit derivative, parameter D must be set to equal the L input plus the thickness of tranche T input to the SFA formula in §3.143 of this subpart.

(2) A national bank or Federal savings association that does not use the SFA in paragraph (b)(2)(vii)(B) of this section to determine a specific risk add-on, or the SSFA in paragraph (b)(2)(vii)(C) of this section to determine a specific risk-weighting factor for its position in an nth-to-default credit derivative must assign a specific risk-weighting factor of 100 percent to the position.

(c) *Modeled correlation trading positions*. For purposes of calculating the comprehensive risk measure for modeled correlation trading positions under either paragraph (a)(2)(i) or (a)(2)(ii) of §3.209, the total specific risk add-on is the greater of:

(1) The sum of the national bank's or Federal savings association's specific risk add-ons for each net long correlation trading position calculated under this section; or

(2) The sum of the national bank's or Federal savings association's specific risk add-ons for each net short correlation trading position calculated under this section.

(d) *Non-modeled securitization positions.* For securitization positions that are not correlation trading positions and for securitizations that are correlation trading positions not modeled under § 3.209, the total specific risk add-on is the greater of:

(1) The sum of the national bank's or Federal savings association's specific risk add-ons for each net long securitization position calculated under this section; or

(2) The sum of the national bank's or Federal savings association's specific risk add-ons for each net short securitization position calculated under this section.

(e) *Equity positions.* The total specific risk add-on for a portfolio of equity positions is the sum of the specific risk add-ons of the individual equity positions, as computed under this section. To determine the specific risk add-on of individual equity positions, a national bank or Federal savings association must multiply the absolute value of the current fair value of each net long or net short equity position by the appropriate specific risk-weighting factor as determined under this paragraph (e):

(1) The national bank or Federal savings association must multiply the absolute value of the current fair value of each net long or net short equity position by a specific risk-weighting factor of 8.0 percent. For equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the absolute value of the current fair value of each net long or net short position is multiplied by a specific risk-weighting factor of 2.0 percent.²⁹

(2) For equity positions arising from the following futures-related arbitrage strategies, a national bank or Federal savings association may apply a 2.0 percent specific risk-weighting factor

to one side (long or short) of each position with the opposite side exempt from an additional capital requirement:

(i) Long and short positions in exactly the same index at different dates or in different market centers; or

(ii) Long and short positions in index contracts at the same date in different, but similar indices.

(3) For futures contracts on main indices that are matched by offsetting positions in a basket of stocks comprising the index, a national bank or Federal savings association may apply a 2.0 percent specific risk-weighting factor to the futures and stock basket positions (long and short), provided that such trades are deliberately entered into and separately controlled, and that the basket of stocks is comprised of stocks representing at least 90.0 percent of the capitalization of the index. A main index refers to the Standard & Poor's 500 Index, the FTSE All-World Index, and any other index for which the national bank or Federal savings association can demonstrate to the satisfaction of the OCC that the equities represented in the index have liquidity, depth of market, and size of bid-ask spreads comparable to equities in the Standard & Poor's 500 Index and FTSE All-World Index.

(f) *Due diligence requirements for securitization positions.* (1) A national bank or Federal savings association must demonstrate to the satisfaction of the OCC a comprehensive understanding of the features of a securitization position that would materially affect the performance of the position by conducting and documenting the analysis set forth in paragraph (f)(2) of this section. The national bank's or Federal savings association's analysis must be commensurate with the complexity of the securitization position and the materiality of the position in relation to capital.

(2) A national bank or Federal savings association must demonstrate its comprehensive understanding for each securitization position by:

(i) Conducting an analysis of the risk characteristics of a securitization position prior to acquiring the position and document such analysis within three

²⁹ A portfolio is well-diversified if it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio's total fair value.

§3.211

12 CFR Ch. I (1–1–14 Edition)

business days after acquiring position, considering:

(A) Structural features of the securitization that would materially impact the performance of the position, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, fair value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For resecuritization positions, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures.

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under paragraph (f)(1) of this section for each securitization position.

§3.211 Simplified supervisory formula approach (SSFA).

(a) *General requirements.* To use the SSFA to determine the specific risk-weighting factor for a securitization position, a national bank or Federal savings association must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data; if the contracts governing the underlying exposures of the securitization require payments on

a monthly or quarterly basis, the data used to assign the parameters described in paragraph (b) of this section must be no more than 91 calendar days old. A national bank or Federal savings association that does not have the appropriate data to assign the parameters described in paragraph (b) of this section must assign a specific risk-weighting factor of 100 percent to the position.

(b) *SSFA parameters.* To calculate the specific risk-weighting factor for a securitization position using the SSFA, a national bank or Federal savings association must have accurate information on the five inputs to the SSFA calculation described in paragraphs (b)(1) through (b)(5) of this section.

(1) K_G is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using subpart D. K_G is expressed as a decimal value between zero and one (that is, an average risk weight of 100 percent represents a value of K_G equal to 0.08).

(2) Parameter W is expressed as a decimal value between zero and one. Parameter W is the ratio of the sum of the dollar amounts of any underlying exposures of the securitization that meet any of the criteria as set forth in paragraphs (b)(2)(i) through (vi) of this section to the balance, measured in dollars, of underlying exposures:

- (i) Ninety days or more past due;
- (ii) Subject to a bankruptcy or insolvency proceeding;
- (iii) In the process of foreclosure;
- (iv) Held as real estate owned;
- (v) Has contractually deferred payments for 90 days or more, other than principal or interest payments deferred on;

(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or

(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or

- (vi) Is in default.

(3) Parameter A is the attachment point for the position, which represents the threshold at which credit losses will first be allocated to the position. Except as provided in §3.210(b)(2)(vii)(D) for *nth*-to-default credit derivatives, parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the position of the national bank or Federal savings association to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the position that contains the national bank's or Federal savings association's securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the position, which represents the threshold at which credit losses of principal allocated to the position would result in a total loss of principal. Except as provided in §3.210(b)(2)(vii)(D) for *nth*-to-default credit derivatives, parameter D equals parameter A plus the ratio of the current dollar amount of the securitization positions that are *pari passu* with the position (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, *p*, is equal to 0.5 for securitization

positions that are not resecuritization positions and equal to 1.5 for resecuritization positions.

(c) *Mechanics of the SSFA.* K_G and W are used to calculate K_A , the augmented value of K_G , which reflects the observed credit quality of the underlying exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the specific risk-weighting factor assigned to a position as described in this paragraph (c) and paragraph (d) of this section. The specific risk-weighting factor assigned to a securitization position, or portion of a position, as appropriate, is the larger of the specific risk-weighting factor determined in accordance with this paragraph (c), paragraph (d) of this section, and a specific risk-weighting factor of 1.6 percent.

(1) When the detachment point, parameter D, for a securitization position is less than or equal to K_A , the position must be assigned a specific risk-weighting factor of 100 percent.

(2) When the attachment point, parameter A, for a securitization position is greater than or equal to K_A , the national bank or Federal savings association must calculate the specific risk-weighting factor in accordance with paragraph (d) of this section.

(3) When A is less than K_A and D is greater than K_A , the specific risk-weighting factor is a weighted-average of 1.00 and K_{SSFA} calculated under paragraphs (c)(3)(i) and (c)(3)(ii) of this section. For the purpose of this calculation:

(i) The weight assigned to 1.00 equals

(ii) The weight assigned to K_{SSFA} equals $\frac{D - K_A}{D - A}$. The specific risk-weighting factor is

equal to:

$$SRWF = 100 \cdot \left[\left(\frac{K_A - A}{D - A} \right) \cdot 1.00 \right] + \left[\left(\frac{D - K_A}{D - A} \right) \cdot K_{SSFA} \right]$$

(d) SSFA equation. (1) The [BANK] must define the following parameters:

$$K_A = (1 - W) \cdot K_C + (0.5 \cdot W)$$

$$a = -\frac{1}{p \cdot K_A}$$

$$u = D - K_A$$

$$l = \max(A - K_A, 0)$$

$e = 2.71828$, the base of the natural logarithms.

(2) Then the [BANK] must calculate K_{SSFA} according to the following formula:

$$K_{SSFA} = \frac{e^{a \cdot u} - e^{a \cdot l}}{a(u - l)}$$

(3) The specific risk-weighting factor for the position (expressed as a percent) is equal to $K_{SSFA} \times 100$.

§ 3.212 Market risk disclosures.

(a) *Scope.* A national bank or Federal savings association must comply with this section unless it is a consolidated subsidiary of a bank holding company or a depository institution that is subject to these requirements or of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. A national bank or Federal savings association must make timely public disclosures each calendar quarter. If a significant change occurs, such that the most recent reporting amounts are no longer reflective of the national bank's or Federal savings association's capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as

practicable thereafter. Qualitative disclosures that typically do not change each quarter may be disclosed annually, provided any significant changes are disclosed in the interim. If a national bank or Federal savings association believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public certain information that is either proprietary or confidential in nature, the national bank or Federal savings association is not required to disclose these specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed. The national bank's or Federal

savings association's management may provide all of the disclosures required by this section in one place on the national bank's or Federal savings association's public Web site or may provide the disclosures in more than one public financial report or other regulatory reports, provided that the national bank or Federal savings association publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(b) *Disclosure policy.* The national bank or Federal savings association must have a formal disclosure policy approved by the board of directors that addresses the national bank's or Federal savings association's approach for determining its market risk disclosures. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management must ensure that appropriate verification of the disclosures takes place and that effective internal controls and disclosure controls and procedures are maintained. One or more senior officers of the national bank or Federal savings association must attest that the disclosures meet the requirements of this subpart, and the board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this section.

(c) *Quantitative disclosures.* (1) For each material portfolio of covered positions, the national bank or Federal savings association must provide timely public disclosures of the following information at least quarterly:

(i) The high, low, and mean VaR-based measures over the reporting period and the VaR-based measure at period-end;

(ii) The high, low, and mean stressed VaR-based measures over the reporting period and the stressed VaR-based measure at period-end;

(iii) The high, low, and mean incremental risk capital requirements over the reporting period and the incremental risk capital requirement at period-end;

(iv) The high, low, and mean comprehensive risk capital requirements

over the reporting period and the comprehensive risk capital requirement at period-end, with the period-end requirement broken down into appropriate risk classifications (for example, default risk, migration risk, correlation risk);

(v) Separate measures for interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk used to calculate the VaR-based measure; and

(vi) A comparison of VaR-based estimates with actual gains or losses experienced by the national bank or Federal savings association, with an analysis of important outliers.

(2) In addition, the national bank or Federal savings association must disclose publicly the following information at least quarterly:

(i) The aggregate amount of on-balance sheet and off-balance sheet securitization positions by exposure type; and

(ii) The aggregate amount of correlation trading positions.

(d) *Qualitative disclosures.* For each material portfolio of covered positions, the national bank or Federal savings association must provide timely public disclosures of the following information at least annually after the end of the fourth calendar quarter, or more frequently in the event of material changes for each portfolio:

(1) The composition of material portfolios of covered positions;

(2) The national bank's or Federal savings association's valuation policies, procedures, and methodologies for covered positions including, for securitization positions, the methods and key assumptions used for valuing such positions, any significant changes since the last reporting period, and the impact of such change;

(3) The characteristics of the internal models used for purposes of this subpart. For the incremental risk capital requirement and the comprehensive risk capital requirement, this must include:

(i) The approach used by the national bank or Federal savings association to determine liquidity horizons;

(ii) The methodologies used to achieve a capital assessment that is

consistent with the required soundness standard; and

(iii) The specific approaches used in the validation of these models;

(4) A description of the approaches used for validating and evaluating the accuracy of internal models and modeling processes for purposes of this subpart;

(5) For each market risk category (that is, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk), a description of the stress tests applied to the positions subject to the factor;

(6) The results of the comparison of the national bank’s or Federal savings association’s internal estimates for purposes of this subpart with actual outcomes during a sample period not used in model development;

(7) The soundness standard on which the national bank’s or Federal savings association’s internal capital adequacy assessment under this subpart is based, including a description of the methodologies used to achieve a capital adequacy assessment that is consistent with the soundness standard;

(8) A description of the national bank’s or Federal savings association’s processes for monitoring changes in the credit and market risk of

securitization positions, including how those processes differ for resecuritization positions; and

(9) A description of the national bank’s or Federal savings association’s policy governing the use of credit risk mitigation to mitigate the risks of securitization and resecuritization positions.

§§ 3.213–3.299 [Reserved]

Subpart G—Transition Provisions

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.300 Transitions.

(a) *Capital conservation and countercyclical capital buffer.* (1) From January 1, 2014 through December 31, 2015, a national bank or Federal savings association is not subject to limits on distributions and discretionary bonus payments under § 3.11 of subpart B of this part notwithstanding the amount of its capital conservation buffer or any applicable countercyclical capital buffer amount.

(2) Beginning January 1, 2016 through December 31, 2018 a national bank’s or Federal savings association’s maximum payout ratio shall be determined as set forth in Table 1 to § 3.300.

TABLE 1 TO § 3.300

Transition period	Capital conservation buffer	Maximum payout ratio (as a percentage of eligible retained income)
Calendar year 2016.	Greater than 0.625 percent (plus 25 percent of any applicable countercyclical capital buffer amount).	No payout ratio limitation applies under this section.
	Less than or equal to 0.625 percent (plus 25 percent of any applicable countercyclical capital buffer amount), and greater than 0.469 percent (plus 17.25 percent of any applicable countercyclical capital buffer amount).	60 percent.
	Less than or equal to 0.469 percent (plus 17.25 percent of any applicable countercyclical capital buffer amount), and greater than 0.313 percent (plus 12.5 percent of any applicable countercyclical capital buffer amount).	40 percent.
	Less than or equal to 0.313 percent (plus 12.5 percent of any applicable countercyclical capital buffer amount), and greater than 0.156 percent (plus 6.25 percent of any applicable countercyclical capital buffer amount).	20 percent.
	Less than or equal to 0.156 percent (plus 6.25 percent of any applicable countercyclical capital buffer amount).	0 percent.
Calendar year 2017.	Greater than 1.25 percent (plus 50 percent of any applicable countercyclical capital buffer amount).	No payout ratio limitation applies under this section.
	Less than or equal to 1.25 percent (plus 50 percent of any applicable countercyclical capital buffer amount), and greater than 0.938 percent (plus 37.5 percent of any applicable countercyclical capital buffer amount).	60 percent.
	Less than or equal to 0.938 percent (plus 37.5 percent of any applicable countercyclical capital buffer amount), and greater than 0.625 percent (plus 25 percent of any applicable countercyclical capital buffer amount).	40 percent.

TABLE 1 TO § 3.300—Continued

Transition period	Capital conservation buffer	Maximum payout ratio (as a percentage of eligible retained income)
Calendar year 2018.	Less than or equal to 0.625 percent (plus 25 percent of any applicable countercyclical capital buffer amount), and greater than 0.313 percent (plus 12.5 percent of any applicable countercyclical capital buffer amount).	20 percent.
	Less than or equal to 0.313 percent (plus 12.5 percent of any applicable countercyclical capital buffer amount).	0 percent.
	Greater than 1.875 percent (plus 75 percent of any applicable countercyclical capital buffer amount).	No payout ratio limitation applies under this section.
	Less than or equal to 1.875 percent (plus 75 percent of any applicable countercyclical capital buffer amount), and greater than 1.406 percent (plus 56.25 percent of any applicable countercyclical capital buffer amount).	60 percent.
	Less than or equal to 1.406 percent (plus 56.25 percent of any applicable countercyclical capital buffer amount), and greater than 0.938 percent (plus 37.5 percent of any applicable countercyclical capital buffer amount).	40 percent.
	Less than or equal to 0.938 percent (plus 37.5 percent of any applicable countercyclical capital buffer amount), and greater than 0.469 percent (plus 18.75 percent of any applicable countercyclical capital buffer amount).	20 percent.
	Less than or equal to 0.469 percent (plus 18.75 percent of any applicable countercyclical capital buffer amount).	0 percent.

(b) *Regulatory capital adjustments and deductions.* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association must make the capital adjustments and deductions in § 3.22 in accordance with the transition requirements in this paragraph (b). Beginning January 1, 2018, a national bank or Federal savings association must make all regulatory capital adjustments and deductions in accordance with § 3.22.

(1) *Transition deductions from common equity tier 1 capital.* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national

bank or Federal savings association, must make the deductions required under § 3.22(a)(1)–(8) from common equity tier 1 or tier 1 capital elements in accordance with the percentages set forth in Table 2 and Table 3 to § 3.300.

(i) A national bank or Federal savings association must deduct the following items from common equity tier 1 and additional tier 1 capital in accordance with the percentages set forth in Table 2 to § 3.300: goodwill (§ 3.22(a)(1)), DTAs that arise from net operating loss and tax credit carryforwards (§ 3.22(a)(3)), a gain-on-sale in connection with a securitization exposure (§ 3.22(a)(4)), defined benefit pension fund assets (§ 3.22(a)(5)), expected credit loss that exceeds eligible credit reserves (for advanced approaches national banks or Federal savings associations that have completed the parallel run process and that have received notifications from the OCC pursuant to § 3.121(d) of subpart E) and financial subsidiaries (§ 3.22(a)(7)), and nonincludable subsidiaries of a Federal savings association (§ 3.22(a)(8)).

§ 3.300

12 CFR Ch. I (1–1–14 Edition)

TABLE 2 TO § 3.300

Transition period	Transition deductions under § 3.22(a)(1) and (7)	Transition deductions under § 3.22(a)(3)–(6) and (8)	
	Percentage of the deductions from common equity tier 1 capital	Percentage of the deductions from common equity tier 1 capital	Percentage of the deductions from tier 1 capital
Calendar year 2014	100	20	80
Calendar year 2015	100	40	60
Calendar year 2016	100	60	40
Calendar year 2017	100	80	20
Calendar year 2018, and thereafter	100	100	0

(ii) A national bank or Federal savings association must deduct from common equity tier 1 capital any intangible assets other than goodwill and MSAs in accordance with the percentages set forth in Table 3 to § 3.300.

(iii) A national bank or Federal savings association must apply a 100 percent risk-weight to the aggregate amount of intangible assets other than goodwill and MSAs that are not required to be deducted from common equity tier 1 capital under this section.

TABLE 3 TO § 3.300

Transition period	Transition deductions under § 3.22(a)(2)—percentage of the deductions from common equity tier 1 capital
Calendar year 2014	20
Calendar year 2015	40
Calendar year 2016	60
Calendar year 2017	80
Calendar year 2018, and thereafter	100

(2) *Transition adjustments to common equity tier 1 capital.* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association, must allocate the regulatory adjustments related to changes in the fair value of liabilities due to changes in the national bank’s or Federal savings association’s own credit risk (§ 3.22(b)(1)(iii)) between common equity tier 1 capital and tier 1 capital in accordance with the percentages set forth in Table 4 to § 3.300.

(i) If the aggregate amount of the adjustment is positive, the national bank or Federal savings association must allocate the deduction between common equity tier 1 and tier 1 capital in accordance with Table 4 to § 3.300.

(ii) If the aggregate amount of the adjustment is negative, the national bank or Federal savings association must add back the adjustment to common equity tier 1 capital or to tier 1 capital, in accordance with Table 4 to § 3.300.

TABLE 4 TO § 3.300

Transition period	Transition adjustments under § 3.22(b)(2)	
	Percentage of the adjustment applied to common equity tier 1 capital	Percentage of the adjustment applied to tier 1 capital
Calendar year 2014	20	80

Calendar year 2016	60	40
Calendar year 2017	80	20
Calendar year 2018, and thereafter	100	0

Comptroller of the Currency, Treasury

§ 3.300

(3) *Transition adjustments to AOCI for an advanced approaches national bank or Federal savings association and a national bank or Federal savings association that has not made an AOCI opt-out election under § 3.22(b)(2).* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association that has not made an AOCI opt-out election under § 3.22(b)(2), and in each case through December 31, 2017, a national bank or Federal savings association must adjust common equity tier 1 capital with respect to the transition AOCI adjustment amount (transition AOCI adjustment amount):

(i) The transition AOCI adjustment amount is the aggregate amount of a national bank's or Federal savings association's:

(A) Unrealized gains on available-for-sale securities that are preferred stock classified as an equity security under GAAP or available-for-sale equity exposures, plus

(B) Net unrealized gains or losses on available-for-sale securities that are not preferred stock classified as an equity security under GAAP or available-for-sale equity exposures, plus

uity security under GAAP or available-for-sale equity exposures, plus

(C) Any amounts recorded in AOCI attributed to defined benefit post-retirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (excluding, at the national bank's or Federal savings association's option, the portion relating to pension assets deducted under section 22(a)(5)), plus

(D) Accumulated net gains or losses on cash flow hedges related to items that are reported on the balance sheet at fair value included in AOCI, plus

(E) Net unrealized gains or losses on held-to-maturity securities that are included in AOCI.

(ii) A national bank or Federal savings association must make the following adjustment to its common equity tier 1 capital:

(A) If the transition AOCI adjustment amount is positive, the appropriate amount must be deducted from common equity tier 1 capital in accordance with Table 5 to § 3.300.

(B) If the transition AOCI adjustment amount is negative, the appropriate amount must be added back to common equity tier 1 capital in accordance with Table 5 to § 3.300.

TABLE 5 TO § 3.300

Transition period	Percentage of the transition AOCI adjustment amount to be applied to common equity tier 1 capital
Calendar year 2014	80
Calendar year 2015	60
Calendar year 2016	40
Calendar year 2017	20
Calendar year 2018 and thereafter	0

(iii) A national bank or Federal savings association may include in tier 2 capital the percentage of unrealized gains on available-for-sale preferred

stock classified as an equity security under GAAP and available-for-sale equity exposures as set forth in Table 6 to § 3.300.

TABLE 6 TO § 3.300

Transition period	Percentage of unrealized gains on available-for-sale preferred stock classified as an equity security under GAAP and available-for-sale equity exposures that may be included in tier 2 capital
Calendar year 2014	36
Calendar year 2015	27
Calendar year 2016	18
Calendar year 2017	9

TABLE 6 TO § 3.300—Continued

Transition period	Percentage of unrealized gains on available-for-sale preferred stock classified as an equity security under GAAP and available-for-sale equity exposures that may be included in tier 2 capital
Calendar year 2018 and thereafter	0

(4) *Additional transition deductions from regulatory capital.* (i) Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association, must use Table 7 to § 3.300 to determine the amount of investments in capital instruments and the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds (§ 3.22(d)) (that is, MSAs, DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock) that must be deducted from common equity tier 1 capital.

(ii) Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association must apply a 100 percent risk-weight to the aggregate amount of the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds that are not deducted under this section. As set forth in § 3.22(d)(2), beginning January 1, 2018, a national bank or Federal savings association must apply a 250 percent risk-weight to the aggregate amount of the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds that are not deducted from common equity tier 1 capital.

TABLE 7 TO § 3.300

Transition period	Transitions for deductions under § 3.22(c) and (d)—Percentage of additional deductions from regulatory capital
Calendar year 2014	20
Calendar year 2015	40
Calendar year 2016	60
Calendar year 2017	80
Calendar year 2018 and thereafter	100

(iii) For purposes of calculating the transition deductions in this paragraph (b)(4) beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank's or Federal savings association's 15 percent

common equity tier 1 capital deduction threshold for MSAs, DTAs arising from temporary differences that the national bank or Federal savings association could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock is equal to 15 percent of the sum of the national bank's or Federal savings association's common equity tier 1 elements, after

Comptroller of the Currency, Treasury

§ 3.300

regulatory adjustments and deductions required under § 3.22(a) through (c) (transition 15 percent common equity tier 1 capital deduction threshold).

(iv) Beginning January 1, 2018, a national bank or Federal savings association must calculate the 15 percent common equity tier 1 capital deduction threshold in accordance with § 3.22(d).

(c) *Non-qualifying capital instruments* (1)—(3) [Reserved]

(4) *Depository institutions.* (i) Beginning on January 1, 2014, a depository institution that is an advanced approaches national bank or Federal savings association, and beginning on January 1, 2015, all other depository institutions, may include in regulatory capital debt or equity instruments issued prior to September 12, 2010 that do not meet the criteria for additional tier 1

or tier 2 capital instruments in § 3.20 but that were included in tier 1 or tier 2 capital respectively as of September 12, 2010 (non-qualifying capital instruments issued prior to September 12, 2010) up to the percentage of the outstanding principal amount of such non-qualifying capital instruments as of January 1, 2014 in accordance with Table 9 to § 3.300.

(ii) Table 9 to § 3.300 applies separately to tier 1 and tier 2 non-qualifying capital instruments.

(iii) The amount of non-qualifying capital instruments that cannot be included in additional tier 1 capital under this section may be included in tier 2 capital without limitation, provided that the instruments meet the criteria for tier 2 capital instruments under § 3.20(d).

TABLE 9 TO § 3.300

Transition period (calendar year)	Percentage of non-qualifying capital instruments includable in additional tier 1 or tier 2 capital

(d) *Minority interest*—(1) *Surplus minority interest.* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association may include in common equity tier 1 capital, tier 1 capital, or total capital the percentage of the common equity tier 1 minority interest, tier 1 minority interest and total capital minority interest outstanding as of January 1, 2014 that exceeds any common equity tier 1 minority interest, tier 1 minority interest or total capital minority interest includable under § 3.21 (surplus mi-

nority interest), respectively, as set forth in Table 10 to § 3.300.

(2) *Non-qualifying minority interest.* Beginning January 1, 2014 for an advanced approaches national bank or Federal savings association, and beginning January 1, 2015 for a national bank or Federal savings association that is not an advanced approaches national bank or Federal savings association, and in each case through December 31, 2017, a national bank or Federal savings association may include in tier 1 capital or total capital the percentage of the tier 1 minority interest and total capital minority interest outstanding as of January 1, 2014 that does not meet the criteria for additional tier 1 or tier 2 capital instruments in § 3.20 (non-qualifying minority interest), as set forth in Table 10 to § 3.300.

TABLE 10 TO § 3.300

Transition period	Percentage of the amount of surplus or non-qualifying minority interest that can be included in regulatory capital during the transition period

Calendar year 2017	20
Calendar year 2018 and thereafter	0

(e) *Prompt corrective action.* For purposes of 12 CFR part 6, a national bank or Federal savings association must calculate its capital measures and tangible equity ratio in accordance with the transition provisions in this section.

[78 FR 62157, 62273, 62274, Oct. 11, 2013]

Subpart H—Establishment of Minimum Capital Ratios for an Individual Bank or Individual Federal Savings Association

SOURCE: 78 FR 62269, Oct. 11, 2013, unless otherwise noted.

§ 3.401 Purpose and scope.

The rules and procedures specified in this subpart are applicable to a proceeding to establish required minimum capital ratios that would otherwise be applicable to a national bank or Federal savings association under subpart B of this part. The OCC is authorized under 12 U.S.C. 1464(s)(2) and 3907(a)(2) to establish such minimum capital requirements for a national bank or Federal savings association as the OCC, in its discretion, deems appropriate in light of the particular circumstances at that national bank or Federal savings association. Proceedings under this subpart also may be initiated to require a national bank or Federal savings association having capital ratios above those set forth in subpart B of this part, or other legal authority to continue to maintain those higher ratios.

§ 3.402 Applicability.

The OCC may require higher minimum capital ratios for an individual national bank or Federal savings association in view of its circumstances.

For example, higher capital ratios may be appropriate for:

- (a) A newly chartered national bank or Federal savings association;
- (b) A national bank or Federal savings association receiving special supervisory attention;
- (c) A national bank or Federal savings association that has, or is expected to have, losses resulting in capital inadequacy;
- (d) A national bank or Federal savings association with significant exposure due to the risks from concentrations of credit, certain risks arising from nontraditional activities, or management’s overall inability to monitor and control financial and operating risks presented by concentrations of credit and nontraditional activities;
- (e) A national bank or Federal savings association with significant exposure to declines in the economic value of its capital due to changes in interest rates;
- (f) A national bank or Federal savings association with significant exposure due to fiduciary or operational risk;
- (g) A national bank or Federal savings association exposed to a high degree of asset depreciation, or a low level of liquid assets in relation to short term liabilities;
- (h) A national bank or Federal savings association exposed to a high volume of, or particularly severe, problem loans;
- (i) A national bank or Federal savings association that is growing rapidly, either internally or through acquisitions; or
- (j) A national bank or Federal savings association that may be adversely affected by the activities or condition of its holding company, affiliate(s), or other persons or institutions, including chain banking organizations, with

which it has significant business relationships.

§ 3.403 Standards for determination of appropriate individual minimum capital ratios.

The appropriate minimum capital ratios for an individual national bank or Federal savings association cannot be determined solely through the application of a rigid mathematical formula or wholly objective criteria. The decision is necessarily based in part on subjective judgment grounded in agency expertise. The factors to be considered in the determination will vary in each case and may include, for example:

- (a) The conditions or circumstances leading to the OCC's determination that higher minimum capital ratios are appropriate or necessary for the national bank or Federal savings association;
- (b) The exigency of those circumstances or potential problems;
- (c) The overall condition, management strength, and future prospects of the national bank or Federal savings association and, if applicable, its holding company and/or affiliate(s);
- (d) The national bank's or Federal savings association's liquidity, capital, risk asset and other ratios compared to the ratios of its peer group; and
- (e) The views of the national bank's or Federal savings association's directors and senior management.

§ 3.404 Procedures.

(a) *Notice.* When the OCC determines that minimum capital ratios above those set forth in subpart B of this part or other legal authority are necessary or appropriate for a particular national bank or Federal savings association, the OCC will notify the national bank or Federal savings association in writing of the proposed minimum capital ratios and the date by which they should be reached (if applicable) and will provide an explanation of why the ratios proposed are considered necessary or appropriate for the national bank or Federal savings association.

(b) *Response.* (1) The national bank or Federal savings association may respond to any or all of the items in the notice. The response should include any matters which the national bank

or Federal savings association would have the OCC consider in deciding whether individual minimum capital ratios should be established for the national bank or Federal savings association, what those capital ratios should be, and, if applicable, when they should be achieved. The response must be in writing and delivered to the designated OCC official within 30 days after the date on which the national bank or Federal savings association received the notice. The OCC may shorten the time period when, in the opinion of the OCC, the condition of the national bank or Federal savings association so requires, provided that the national bank or Federal savings association is informed promptly of the new time period, or with the consent of the national bank or Federal savings association. In its discretion, the OCC may extend the time period for good cause.

(2) Failure to respond within 30 days or such other time period as may be specified by the OCC shall constitute a waiver of any objections to the proposed minimum capital ratios or the deadline for their achievement.

(c) *Decision.* After the close of the national bank's or Federal savings association's response period, the OCC will decide, based on a review of the national bank's or Federal savings association's response and other information concerning the national bank or Federal savings association, whether individual minimum capital ratios should be established for the national bank or Federal savings association and, if so, the ratios and the date the requirements will become effective. The national bank or Federal savings association will be notified of the decision in writing. The notice will include an explanation of the decision, except for a decision not to establish individual minimum capital requirements for the national bank or Federal savings association.

(d) *Submission of plan.* The decision may require the national bank or Federal savings association to develop and submit to the OCC, within a time period specified, an acceptable plan to reach the minimum capital ratios established for the national bank or Federal savings association by the date required.

§ 3.405

(e) *Change in circumstances.* If, after the OCC's decision in paragraph (c) of this section, there is a change in the circumstances affecting the national bank's or Federal savings association's capital adequacy or its ability to reach the required minimum capital ratios by the specified date, the national bank or Federal savings association may propose to the OCC, or the OCC may propose to the national bank or Federal savings association, a change in the minimum capital ratios for the national bank or Federal savings association, the date when the minimums must be achieved, or the national bank's or Federal savings association's plan (if applicable). The OCC may decline to consider proposals that are not based on a significant change in circumstances or are repetitive or frivolous. Pending a decision on reconsideration, the OCC's original decision and any plan required under that decision shall continue in full force and effect.

§ 3.405 Relation to other actions.

In lieu of, or in addition to, the procedures in this subpart, the required minimum capital ratios for a national bank or Federal savings association may be established or revised through a written agreement or cease and desist proceedings under 12 U.S.C. 1818 (b) or (c) (12 CFR 19.0 through 19.21 for national banks and 12 CFR part 109 for Federal savings associations) or as a condition for approval of an application.

Subpart I—Enforcement

SOURCE: 78 FR 62269, Oct. 11, 2013, unless otherwise noted.

§ 3.501 Remedies.

A national bank or Federal savings association that does not have or maintain the minimum capital ratios applicable to it, whether required in subpart B of this part, in a decision pursuant to subpart H of this part, in a written agreement or temporary or final order under 12 U.S.C. 1818 (b) or (c), or in a condition for approval of an application, or a national bank or Federal savings association that has failed to submit or comply with an acceptable plan to attain those ratios, will be subject

12 CFR Ch. I (1–1–14 Edition)

to such administrative action or sanctions as the OCC considers appropriate. These sanctions may include the issuance of a Directive pursuant to subpart J of this part or other enforcement action, assessment of civil money penalties, and/or the denial, conditioning, or revocation of applications. A national bank's or Federal savings association's failure to achieve or maintain minimum capital ratios in subpart B of this part may also be the basis for an action by the Federal Deposit Insurance Corporation

Subpart J—Issuance of a Directive

SOURCE: 78 FR 62269, Oct. 11, 2013, unless otherwise noted.

§ 3.601 Purpose and scope.

(a) This subpart is applicable to proceedings by the OCC to issue a directive under 12 U.S.C. 3907(b)(2) or 12 U.S.C. 1464(s), as appropriate. A directive is an order issued to a national bank or Federal savings association that does not have or maintain capital at or above the minimum ratios set forth in subpart B of this part, or established for the national bank or Federal savings association under subpart H of this part, by a written agreement under 12 U.S.C. 1818(b), or as a condition for approval of an application. A directive may order the national bank or Federal savings association to:

- (1) Achieve the minimum capital ratios applicable to it by a specified date;
- (2) Adhere to a previously submitted plan to achieve the applicable capital ratios;
- (3) Submit and adhere to a plan acceptable to the OCC describing the means and time schedule by which the national bank or Federal savings association shall achieve the applicable capital ratios;
- (4) Take other action, such as reduction of assets or the rate of growth of assets, or restrictions on the payment of dividends, to achieve the applicable capital ratios; or
- (5) A combination of any of these or similar actions.

(b) A directive issued under this rule, including a plan submitted under a directive, is enforceable in the same manner and to the same extent as an

Comptroller of the Currency, Treasury

§ 3.607

effective and outstanding cease and desist order which has become final as defined in 12 U.S.C. 1818(k). Violation of a directive may result in assessment of civil money penalties in accordance with 12 U.S.C. 3909(d).

§ 3.602 Notice of intent to issue a directive.

The OCC will notify a national bank or Federal savings association in writing of its intention to issue a directive. The notice will state:

(a) Reasons for issuance of the directive; and

(b) The proposed contents of the directive.

§ 3.603 Response to notice.

(a) A national bank or Federal savings association may respond to the notice by stating why a directive should not be issued and/or by proposing alternative contents for the directive. The response should include any matters which the national bank or Federal savings association would have the OCC consider in deciding whether to issue a directive and/or what the contents of the directive should be. The response may include a plan for achieving the minimum capital ratios applicable to the national bank or Federal savings association. The response must be in writing and delivered to the designated OCC official within 30 days after the date on which the national bank or Federal savings association received the notice. The OCC may shorten the 30-day time period:

(1) When, in the opinion of the OCC, the condition of the national bank or Federal savings association so requires, provided that the national bank or Federal savings association shall be informed promptly of the new time period;

(2) With the consent of the national bank or Federal savings association; or

(3) When the national bank or Federal savings association already has advised the OCC that it cannot or will not achieve its applicable minimum capital ratios.

(b) In its discretion, the OCC may extend the time period for good cause.

(c) Failure to respond within 30 days or such other time period as may be

specified by the OCC shall constitute a waiver of any objections to the proposed directive.

§ 3.604 Decision.

After the closing date of the national bank's or Federal savings association's response period, or receipt of the national bank's or Federal savings association's response, if earlier, the OCC will consider the national bank's or Federal savings association's response, and may seek additional information or clarification of the response. Thereafter, the OCC will determine whether or not to issue a directive, and if one is to be issued, whether it should be as originally proposed or in modified form.

§ 3.605 Issuance of a directive.

(a) A directive will be served by delivery to the national bank or Federal savings association. It will include or be accompanied by a statement of reasons for its issuance.

(b) A directive is effective immediately upon its receipt by the national bank or Federal savings association, or upon such later date as may be specified therein, and shall remain effective and enforceable until it is stayed, modified, or terminated by the OCC.

§ 3.606 Change in circumstances.

Upon a change in circumstances, a national bank or Federal savings association may request the OCC to reconsider the terms of its directive or may propose changes in the plan to achieve the national bank's or Federal savings association's applicable minimum capital ratios. The OCC also may take such action on its own motion. The OCC may decline to consider requests or proposals that are not based on a significant change in circumstances or are repetitive or frivolous. Pending a decision on reconsideration, the directive and plan shall continue in full force and effect.

§ 3.607 Relation to other administrative actions.

A directive may be issued in addition to, or in lieu of, any other action authorized by law, including cease and desist proceedings, civil money penalties, or the conditioning or denial of

applications. The OCC also may, in its discretion, take any action authorized by law, in lieu of a directive, in response to a national bank's or Federal savings association's failure to achieve or maintain the applicable minimum capital ratios.

Subpart K—Interpretations

SOURCE: 78 FR 62272, Oct. 11, 2013, unless otherwise noted.

§ 3.701 Capital and surplus.

For purposes of determining statutory limits that are based on the amount of a national bank's *capital* and/or *surplus*, the provisions of this section are to be used, rather than the definitions of capital contained in subparts A through J of this part.

(a) *Capital*. The term *capital* as used in provisions of law relating to the capital of national banks shall include the amount of common stock outstanding and unimpaired plus the amount of perpetual preferred stock outstanding and unimpaired.

(b) *Capital Stock*. The term *capital stock* as used in provisions of law relating to the capital stock of national banks, other than 12 U.S.C. 101, 177, and 178 shall have the same meaning as the term *capital* set forth in paragraph (a) of this section.

(c) *Surplus*. The term *surplus* as used in provisions of law relating to the surplus of national banks means the sum of paragraphs (c)(1), (2), (3), and (4) of this section:

(1) Capital surplus; undivided profits; reserves for contingencies and other capital reserves (excluding accrued dividends on perpetual and limited life preferred stock); net worth certificates issued pursuant to 12 U.S.C. 1823(i); minority interests in consolidated subsidiaries; and allowances for loan and lease losses; minus intangible assets;

(2) Mortgage servicing assets;

(3) Mandatory convertible debt to the extent of 20 percent of the sum of paragraphs (a) and (c) (1) and (2) of this section;

(4) Other mandatory convertible debt, limited life preferred stock and subordinated notes and debentures to the extent set forth in paragraph (f)(2) of this section.

(d) *Unimpaired surplus fund*. The term *unimpaired surplus fund* as used in provisions of law relating to the unimpaired surplus fund of national banks shall have the same meaning as the term *surplus* set forth in paragraph (c) of this section.

(e) *Definitions*. (1) *Allowance for loan and lease losses* means the balance of the valuation reserve on December 31, 1968, plus additions to the reserve charged to operations since that date, less losses charged against the allowance net of recoveries.

(2) *Capital surplus* means the total of those accounts reflecting:

(i) Amounts paid in in excess of the par or stated value of capital stock;

(ii) Amounts contributed to the national bank other than for capital stock;

(iii) Amounts transferred from undivided profits pursuant to 12 U.S.C. 60; and

(iv) Other amounts transferred from undivided profits.

(3) *Intangible assets* means those purchased assets that are to be reported as intangible assets in accordance with the *Instructions—Consolidated Reports of Condition and Income* (Call Report).

(4) *Limited life preferred stock* means preferred stock which has a maturity or which may be redeemed at the option of the holder.

(5) *Mandatory convertible debt* means subordinated debt instruments which unqualifiedly require the issuer to exchange either common or perpetual preferred stock for such instruments by a date at or before the maturity of the instrument. The maturity of these instruments must be 12 years or less. In addition, the instrument must meet the requirements of paragraphs (f)(1)(i) through (v) of this section for subordinated notes and debentures or other requirements published by the OCC.

(6) *Minority interest in consolidated subsidiaries* means the portion of equity capital accounts of all consolidated subsidiaries of the national bank that is allocated to minority shareholders of such subsidiaries.

(7) *Mortgage servicing assets* means the national bank-owned rights to service for a fee mortgage loans that are owned by others.

(8) *Perpetual preferred stock* means preferred stock that does not have a stated maturity date and cannot be redeemed at the option of the holder.

(f) *Requirements and restrictions: Limited life preferred stock, mandatory convertible debt, and other subordinated debt*—(1) *Requirements.* Issues of limited life preferred stock and subordinated notes and debentures (except mandatory convertible debt) shall have original weighted average maturities of at least five years to be included in the definition of *surplus*. In addition, a subordinated note or debenture must also:

(i) Be subordinated to the claims of depositors;

(ii) State on the instrument that it is not a deposit and is not insured by the FDIC;

(iii) Be unsecured;

(iv) Be ineligible as collateral for a loan by the issuing national bank;

(v) Provide that once any scheduled payments of principal begin, all scheduled payments shall be made at least annually and the amount repaid in each year shall be no less than in the prior year; and

(vi) Provide that no prepayment (including payment pursuant to an acceleration clause or redemption prior to maturity) shall be made without prior OCC approval unless the national bank remains an eligible bank, as defined in 12 CFR 5.3(g), after the prepayment.

(2) *Restrictions.* The total amount of mandatory convertible debt not included in paragraph (c)(3) of this section, limited life preferred stock, and subordinated notes and debentures considered as surplus is limited to 50 percent of the sum of paragraphs (a) and (c) (1), (2) and (3) of this section.

(3) *Reservation of authority.* The OCC expressly reserves the authority to waive the requirements and restrictions set forth in paragraphs (f)(1) and (2) of this section, in order to allow the inclusion of other limited life preferred stock, mandatory convertible notes and subordinated notes and debentures in the capital base of any national bank for capital adequacy purposes or for purposes of determining statutory limits. The OCC further expressly reserves the authority to impose more stringent conditions than those set forth in paragraphs (f)(1) and (2) of this

section to exclude any component of tier 1 or tier 2 capital, in whole or in part, as part of a national bank's capital and surplus for any purpose.

(g) *Transitional rules.* (1) Equity commitment notes approved by the OCC as capital and issued prior to April 15, 1985, may continue to be included in paragraph (c)(3) of this section. All other instruments approved by the OCC as capital and issued prior to April 15, 1985, are to be included in paragraph (c)(4) of this section.

(2) Intangible assets (other than mortgage servicing assets) purchased prior to April 15, 1985, and accounted for in accordance with OCC instructions, may continue to be included as surplus up to 25 percent of the sum of paragraphs (a) and (c)(1) of this section.

APPENDIX A TO PART 3—RISK-BASED CAPITAL GUIDELINES

Section 1. Purpose, Applicability of Guidelines, and Definitions.

(a) *Purpose.* (1) An important function of the Office of the Comptroller of the Currency (OCC) is to evaluate the adequacy of capital maintained by each national bank. Such an evaluation involves the consideration of numerous factors, including the riskiness of a bank's assets and off-balance sheet items. This appendix A implements the OCC's risk-based capital guidelines. The risk-based capital ratio derived from those guidelines is more systematically sensitive to the credit risk associated with various bank activities than is a capital ratio based strictly on a bank's total balance sheet assets. A bank's risk-based capital ratio is obtained by dividing its capital base (as defined in section 2 of this appendix A) by its risk-weighted assets (as calculated pursuant to section 3 of this appendix A). These guidelines were created within the framework established by the report issued by the Committee on Banking Regulations and Supervisory Practices in July 1988. The OCC believes that the risk-based capital ratio is a useful tool in evaluating the capital adequacy of all national banks, not just those that are active in the international banking system.

(2) The purpose of this appendix A is to explain precisely (i) how a national bank's risk-based capital ratio is determined and (ii) how these risk-based capital guidelines are applied to national banks. The OCC will review these guidelines periodically for possible adjustments commensurate with its experience with the risk-based capital ratio and with changes in the economy, financial markets and domestic and international banking practices.

(b) *Applicability.* (1) The risk-based capital ratio derived from these guidelines is an important factor in the OCC's evaluation of a bank's capital adequacy. However, since this measure addresses only credit risk, the 8% minimum ratio should not be viewed as the level to be targeted, but rather as a floor. The final supervisory judgment on a bank's capital adequacy is based on an individualized assessment of numerous factors, including those listed in 12 CFR 3.10. With respect to the consideration of these factors, the OCC will give particular attention to any bank with significant exposure to declines in the economic value of its capital due to changes in interest rates. As a result, it may differ from the conclusion drawn from an isolated comparison of a bank's risk-based capital ratio to the 8% minimum specified in these guidelines. In addition to the standards established by these risk-based capital guidelines, all national banks must maintain a minimum capital-to-total assets ratio in accordance with the provisions of 12 CFR part 3.

(2) Effective December 31, 1990, these risk-based capital guidelines will apply to all national banks. In the interim, banks must maintain minimum capital-to-total assets ratios as required by 12 CFR part 3, and should begin preparing for the implementation of these risk-based capital guidelines. In this regard, each national bank that does not currently meet the final minimum ratio established in section 4(b)(1) of this appendix A should begin planning for achieving that standard.

(3) These risk-based capital guidelines will not be applied to federal branches and agencies of foreign banks.

(c) *Definitions.* For purposes of this appendix A, the following definitions apply:

(1) *Adjusted carrying value* means, for purposes of section 2(c)(5) of this appendix A, the aggregate value that investments are carried on the balance sheet of the bank reduced by any unrealized gains on the investments that are reflected in such carrying value but excluded from the bank's Tier 1 capital and reduced by any associated deferred tax liabilities. For example, for investments held as available-for-sale (AFS), the adjusted carrying value of the investments would be the aggregate carrying value of the investments (as reflected on the consolidated balance sheet of the bank) less any unrealized gains on those investments that are included in other comprehensive income and that are not reflected in Tier 1 capital, and less any associated deferred tax liabilities. Unrealized losses on AFS nonfinancial equity investments must be deducted from Tier 1 capital in accordance with section 1(c)(10) of this appendix A. The treatment of small business investment companies that are consolidated for accounting purposes under generally accepted accounting prin-

ciples is discussed in section 2(c)(5)(ii) of this appendix A. For investments in a nonfinancial company that is consolidated for accounting purposes, the bank's adjusted carrying value of the investment is determined under the equity method of accounting (net of any intangibles associated with the investment that are deducted from the bank's Tier 1 capital in accordance with section 2(c)(2) of this appendix A). Even though the assets of the nonfinancial company are consolidated for accounting purposes, these assets (as well as the credit equivalent amounts of the company's off-balance sheet items) are excluded from the bank's risk-weighted assets.

(2) *Allowances for loan and lease losses* means the balance of the valuation reserve on December 31, 1968, plus additions to the reserve charged to operations since that date, less losses charged against the allowance net of recoveries.

(3) *Asset-backed commercial paper program* means a program that primarily issues externally rated commercial paper backed by assets or other exposures held in a bankruptcy-remote, special-purpose entity.

(4) *Asset-backed commercial paper sponsor* means a bank that:

(i) Establishes an asset-backed commercial paper program;

(ii) Approves the sellers permitted to participate in an asset-backed commercial paper program;

(iii) Approves the asset pools to be purchased by an asset-backed commercial paper program; or

(iv) Administers the asset-backed commercial paper program by monitoring the assets, arranging for debt placement, compiling monthly reports, or ensuring compliance with the program documents and with the program's credit and investment policy.

(5) *Associated company* means any corporation, partnership, business trust, joint venture, association or similar organization in which a national bank directly or indirectly holds a 20 to 50 percent ownership interest.

(6) *Banking and finance subsidiary* means any subsidiary of a national bank that engages in banking- and finance-related activities.

(7) *Cash items in the process of collection* means checks or drafts in the process of collection that are drawn on another depository institution, including a central bank, and that are payable immediately upon presentation in the country in which the reporting bank's office that is clearing or collecting the check or draft is located; U.S. Government checks that are drawn on the United States Treasury or any other U.S. Government or Government-sponsored agency and that are payable immediately upon presentation; broker's security drafts and commodity or bill-of-lading drafts payable immediately upon presentation in the United

States or the country in which the reporting bank's office that is handling the drafts is located; and unposted debits.

(8) *Central government* means the national governing authority of a country; it includes the departments, ministries and agencies of the central government and the central bank. The U.S. Central Bank includes the 12 Federal Reserve Banks. The definition of central government does not include the following: State, provincial, or local governments; commercial enterprises owned by the central government, which are entities engaged in activities involving trade, commerce, or profit that are generally conducted or performed in the private sector of the United States economy; and non-central government entities whose obligations are guaranteed by the central government.

(9) *Commitment* means any arrangement that obligates a national bank to: (i) Purchase loans or securities; or (ii) extend credit in the form of loans or leases, participations in loans or leases, overdraft facilities, revolving credit facilities, home equity lines of credit, liquidity facilities, or similar transactions.

(10) *Common stockholders' equity* means common stock, common stock surplus, undivided profits, capital reserves, and adjustments for the cumulative effect of foreign currency translation, less net unrealized holding losses on available-for-sale equity securities with readily determinable fair values.

(11) *Conditional guarantee* means a contingent obligation of the United States Government or its agencies, or the central government of an OECD country, the validity of which to the beneficiary is dependent upon some affirmative action—*e.g.*, servicing requirements—on the part of the beneficiary of the guarantee or a third party.

(12) *Deferred tax assets* means the tax consequences attributable to tax carryforwards and deductible temporary differences. Tax carryforwards are deductions or credits that cannot be used for tax purposes during the current period, but can be carried forward to reduce taxable income or taxes payable in a future period or periods. Temporary differences are financial events or transactions that are recognized in one period for financial statement purposes, but are recognized in another period or periods for income tax purposes. Deductible temporary differences are temporary differences that result in a reduction of taxable income in a future period or periods.

(13) *Derivative contract* means generally a financial contract whose value is derived from the values of one or more underlying assets, reference rates or indexes of asset values. Derivative contracts include interest rate, foreign exchange rate, equity, precious metals and commodity contracts, or any

other instrument that poses similar credit risks.

(14) *Depository institution* means a financial institution that engages in the business of banking; that is recognized as a bank by the bank supervisory or monetary authorities of the country of its incorporation and the country of its principal banking operations; that receives deposits to a substantial extent in the regular course of business; and that has the power to accept demand deposits. In the U.S., this definition encompasses all federally insured offices of commercial banks, mutual and stock savings banks, savings or building and loan associations (stock and mutual), cooperative banks, credit unions, and international banking facilities of domestic depository institution. Bank holding companies are excluded from this definition. For the purposes of assigning risk weights, the differentiation between OECD depository institutions and non-OECD depository institutions is based on the country of incorporation. Claims on branches and agencies of foreign banks located in the United States are to be categorized on the basis of the parent bank's country of incorporation.

(15) *Equity investment* means, for purposes of section 1(c)(19) and section 2(c)(5) of this appendix A, any equity instrument including warrants and call options that give the holder the right to purchase an equity instrument, any equity feature of a debt instrument (such as a warrant or call option), and any debt instrument that is convertible into equity. An investment in any other instrument, including subordinated debt or other types of debt instruments, may be treated as an equity investment if the OCC determines that the instrument is the functional equivalent of equity or exposes the bank to essentially the same risks as an equity instrument.

(16) *Exchange rate contracts* include: Cross-currency interest rate swaps; forward foreign exchange rate contracts; currency options purchased; and any similar instrument that, in the opinion of the OCC, gives rise to similar risks.

(17) *Goodwill* is an intangible asset that represents the excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed.

(18) *Intangible assets* include mortgage and non-mortgage servicing assets (but exclude any interest only (IO) strips receivable related to these mortgage and nonmortgage servicing assets), purchased credit card relationships, goodwill, favorable leaseholds, and core deposit value.

(19) *Interest rate contracts* include: Single currency interest rate swaps; basis swaps; forward rate agreements; interest rate options purchased; forward deposits accepted; and any similar instrument that, in

the opinion of the OCC, gives rise to similar risks, including when-issued securities.

(20) *Liquidity facility* means a legally binding commitment to provide liquidity to various types of transactions, structures or programs. A liquidity facility that supports asset-backed commercial paper, in any amount, by lending to, or purchasing assets from any structure, program, or conduit constitutes an *asset-backed commercial paper liquidity facility*.

(21) *Multifamily residential property* means any residential property consisting of five or more dwelling units including apartment buildings, condominiums, cooperatives, and other similar structures primarily for residential use, but not including hospitals, nursing homes, or other similar facilities.

(22) *Nationally recognized statistical rating organization (NRSRO)* means an entity recognized by the Division of Market Regulation of the Securities and Exchange Commission (or any successor Division) (Commission or SEC) as a nationally recognized statistical rating organization for various purposes, including the Commission's uniform net capital requirements for brokers and dealers.

(23) *Nonfinancial equity investment* means any equity investment held by a bank in a nonfinancial company through a small business investment company (SBIC) under section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) or under the portfolio investment provisions of Regulation K (12 CFR 211.8(c)(3)). An equity investment made under section 302(b) of the Small Business Investment Act of 1958 in a SBIC that is not consolidated with the bank is treated as a nonfinancial equity investment in the manner provided in section 2(c)(5)(ii)(C) of this appendix A. A nonfinancial company is an entity that engages in any activity that has not been determined to be permissible for a bank to conduct directly or to be financial in nature or incidental to financial activities under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1843(k)).

(24) The *OECD-based group of countries* comprises all full members of the Organization for Economic Cooperation and Development (OECD) regardless of entry date, as well as countries that have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the IMF's General Arrangements to Borrow,¹

¹As of November 1995, the OECD included the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States; and Saudi Arabia had concluded special lending

but excludes any country that has rescheduled its external sovereign debt within the previous five years. These countries are hereinafter referred to as *OECD countries*. A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country's inability or unwillingness to meet its external debt service obligations, but generally would not include renegotiations of debt in the normal course of business, such as a renegotiation to allow the borrower to take advantage of a decline in interest rates or other change in market conditions.

(25) *Original maturity* means, with respect to a commitment, the earliest possible date after a commitment is made on which the commitment is scheduled to expire (*i.e.*, it will reach its stated maturity and cease to be binding on either party), *provided that* either:

(i) The commitment is not subject to extension or renewal and will actually expire on its stated expiration date; or

(ii) If the commitment is subject to extension or renewal beyond its stated expiration date, the stated expiration date will be deemed the original maturity only if the extension or renewal must be based upon terms and conditions independently negotiated in good faith with the customer at the time of the extension or renewal and upon a new, *bona fide* credit analysis utilizing current information on financial condition and trends.

(26) *Preferred stock* includes the following instruments: (i) *Convertible preferred stock*, which means preferred stock that is mandatorily convertible into either common or perpetual preferred stock; (ii) *Intermediate-term preferred stock*, which means preferred stock with an original maturity of at least five years, but less than 20 years; (iii) *Long-term preferred stock*, which means preferred stock with an original maturity of 20 years or more; and (iv) *Perpetual preferred stock*, which means preferred stock without a fixed maturity date that cannot be redeemed at the option of the holder, and that has no other provisions that will require future redemption of the issue. For purposes of these instruments, preferred stock that can be redeemed at the option of the holder is deemed to have an *original maturity* of the earliest possible date on which it may be so redeemed.

(27) *Public-sector entities* include states, local authorities and governmental subdivisions below the central government level in an OECD country. In the United States, this definition encompasses a state, county, city, town, or other municipal corporation, a public authority, and generally any publicly-owned entity that is an instrumentality of a

arrangements with the IMF associated with the IMF's General Arrangements to Borrow.

state or municipal corporation. This definition does not include commercial companies owned by the public sector.^{1a}

(28) *Reciprocal holdings of bank capital instruments* means cross-holdings or other formal or informal arrangements in which two or more banking organizations swap, exchange, or otherwise agree to hold each other's capital instruments. This definition does not include holdings of capital instruments issued by other banking organizations that were taken in satisfaction of debts previously contracted, provided that the reporting national bank has not held such instruments for more than five years or a longer period approved by the OCC.

(29) *Replacement cost* means, with respect to interest rate and exchange rate contracts, the loss that would be incurred in the event of a counterparty default, as measured by the net cost of replacing the contract at the current market value. If default would result in a theoretical profit, the replacement value is considered to be zero. The mark-to-market process should incorporate changes in both interest rates and counterparty credit quality.

(30) *Residential properties* means houses, condominiums, cooperative units, and manufactured homes. This definition does not include boats or motor homes, even if used as a primary residence.

(31) *Risk-weighted assets* means the sum of total risk-weighted balance sheet assets and the total of risk-weighted off-balance sheet credit equivalent amounts. Risk-weighted balance sheet and off-balance sheet assets are calculated in accordance with section 3 of this appendix A.

(32) *State* means any one of the several states of the United States of America, the District of Columbia, Puerto Rico, and the territories and possessions of the United States.

(33) *Subsidiary* means any corporation, partnership, business trust, joint venture, association or similar organization in which a national bank directly or indirectly holds more than a 50% ownership interest. This definition does not include ownership interests that were taken in satisfaction of debts previously contracted, provided that the reporting bank has not held the interest for more than five years or a longer period approved by the OCC.

(34) *Total capital* means the sum of a national bank's core (Tier 1) and qualifying supplementary (Tier 2) capital elements.

(35) *Unconditionally cancelable* means, with respect to a commitment-type lending arrangement, that the bank may, at any time, with or without cause, refuse to advance

funds or extend credit under the facility. In the case of home equity lines of credit, the bank is deemed able to unconditionally cancel the commitment if it can, at its option, prohibit additional extensions of credit, reduce the line, and terminate the commitment to the full extent permitted by relevant Federal law.

(36) *United States Government or its agencies* means an instrumentality of the U.S. Government whose debt obligations are fully and explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the United States Government.

(37) *United States Government-sponsored agency* means an agency originally established or chartered to serve public purposes specified by the United States Congress, but whose obligations are not explicitly guaranteed by the full faith and credit of the United States Government.

(38) *Walkaway clause* means a provision in a bilateral netting contract that permits a nondefaulting counterparty to make a lower payment than it would make otherwise under the bilateral netting contract, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the bilateral netting contract.

Section 2. Components of Capital.

A national bank's qualifying capital base consists of two types of capital—core (Tier 1) and supplementary (Tier 2).

(a) *Tier 1 Capital*. The following elements comprise a national bank's Tier 1 capital:

- (1) Common stockholders' equity;
- (2) Noncumulative perpetual preferred stock and related surplus; and²
- (3) Minority interests in the equity accounts of consolidated subsidiaries, except that the following are not included in Tier 1 capital or total capital:

- (i) Minority interests in a small business investment company or investment fund that holds nonfinancial equity investments and minority interests in a subsidiary that is engaged in a nonfinancial activities and is held under one of the legal authorities listed in section 1(c)(23) of this appendix A.
- (ii) [Reserved]

(b) *Tier 2 Capital*. The following elements comprise a national bank's Tier 2 capital:

²Preferred stock issues where the dividend is reset periodically based upon current market conditions and the bank's current credit rating, including but not limited to, auction rate, money market or remarketable preferred stock, are assigned to Tier 2 capital, regardless of whether the dividends are cumulative or noncumulative.

^{1a}See Definition (5), *Central government*, for further explanation of commercial companies owned by the public sector.

(1) Allowance for loan and lease losses, up to a maximum of 1.25% of risk-weighted assets,³ subject to the transition rules in section 4(a)(2) of this appendix A;

(2) Cumulative perpetual preferred stock, long-term preferred stock, convertible preferred stock, and any related surplus, without limit, if the issuing national bank has the option to defer payment of dividends on these instruments. For long-term preferred stock, the amount that is eligible to be included as Tier 2 capital is reduced by 20% of the original amount of the instrument (net of redemptions) at the beginning of each of the last five years of the life of the instrument;

(3) Hybrid capital instruments, without limit. Hybrid capital instruments are those instruments that combine certain characteristics of debt and equity, such as perpetual debt. To be included as Tier 2 capital, these instruments must meet the following criteria:⁴

(i) The instrument must be unsecured, subordinated to the claims of depositors and general creditors, and fully paid-up;

(ii) The instrument must not be redeemable at the option of the holder prior to maturity, except with the prior approval of the OCC;

(iii) The instrument must be available to participate in losses while the issuer is operating as a going concern (in this regard, the instrument must automatically convert to common stock or perpetual preferred stock, if the sum of the retained earnings and capital surplus accounts of the issuer shows a negative balance); and

(iv) The instrument must provide the option for the issuer to defer principal and interest payments, if

³The amount of the allowance for loan and lease losses that may be included in capital is based on a percentage of risk-weighted assets. The gross sum of risk-weighted assets used in this calculation includes all risk-weighted assets, with the exception of the assets required to be deducted under section 3 in establishing risk-weighted assets (*i.e.*, the assets required to be deducted from capital under section 2(c)) of this appendix. A banking organization may deduct reserves for loan and lease losses in excess of the amount permitted to be included as capital, as well as allocated transfer risk reserves and reserves held against other real estate owned, from the gross sum of risk-weighted assets in computing the denominator of the risk-based capital ratio.

⁴Mandatory convertible debt instruments that meet the requirements of 12 CFR 3.100(e)(5), or that have been previously approved as capital by the OCC, are treated as qualifying hybrid capital instruments.

(A) The issuer does not report a net profit for the most recent combined four quarters, and

(B) The issuer eliminates cash dividends on its common and preferred stock.

(4) Term subordinated debt instruments, and intermediate-term preferred stock and related surplus are included in Tier 2 capital, but only to a maximum of 50% of Tier 1 capital as calculated after deductions pursuant to section 2(c) of this appendix. To be considered capital, term subordinated debt instruments shall meet the requirements of §3.100(f)(1). However, pursuant to 12 CFR 5.47, the OCC may, in some cases, require that the subordinated debt be approved by the OCC before the subordinated debt may qualify as Tier 2 capital or may require prior approval for any prepayment (including payment pursuant to an acceleration clause or redemption prior to maturity) of the subordinated debt. Also, at the beginning of each of the last five years for the life of either type of instrument, the amount that is eligible to be included as Tier 2 capital is reduced by 20% of the original amount of that instrument (net of redemptions).

(5) Up to 45 percent of the pretax net unrealized holding gains (that is, the excess, if any, of the fair value over historical cost) on available-for-sale equity securities with readily determinable fair values,⁵ Unrealized gains (losses) on other types of assets, such as bank premises and available-for-sale debt securities, are not included in Tier 2 capital, but the OCC may take these unrealized gains (losses) into account as additional factors when assessing a bank's overall capital adequacy.

(c) *Deductions from Capital.* The following items are deducted from the appropriate portion of a national bank's capital base when calculating its risk-based capital ratio:

(1) *Deductions from Tier 1 Capital.* The following items are deducted from Tier 1 capital before the Tier 2 portion of the calculation is made:

(i) Goodwill;

(ii) Other intangible assets, except as provided in section 2(c)(2) of this appendix A;

(iii) Deferred tax assets, except as provided in section 2(c)(3) and (2)(c)(6) of this appendix A, that are dependent upon future taxable income, which exceed the lesser of either:

(A) The amount of deferred tax assets that the bank could reasonably expect to realize within one year of the quarter-end Call Report, based on its estimate of future taxable income for that year; or

⁵The OCC reserves the authority to exclude all or a portion of unrealized gains from Tier 2 capital if the OCC determines that the equity securities are not prudently valued.

(B) 10% of Tier 1 capital, net of goodwill and all intangible assets other than purchased credit card relationships, mortgage servicing assets and non-mortgage servicing assets; and

(iv) Credit-enhancing interest-only strips (as defined in section 4(a)(2) of this appendix A), as provided in section 2(c)(4).

(v) Nonfinancial equity investments as provided by section 2(c)(5) of this appendix A.

(2) *Qualifying intangible assets.* Subject to the following conditions, mortgage servicing assets, nonmortgage servicing assets⁶ and purchased credit card relationships need not be deducted from Tier 1 capital:

(i) The total of all intangible assets that are included in Tier 1 capital is limited to 100 percent of Tier 1 capital, of which no more than 25 percent of Tier 1 capital can consist of purchased credit card relationships and non-mortgage servicing assets in the aggregate. Calculation of these limitations must be based on Tier 1 capital net of goodwill and all other identifiable intangibles, other than purchased credit card relationships, mortgage servicing assets and non-mortgage servicing assets.

(ii) Banks must value each intangible asset included in Tier 1 capital at least quarterly at the lesser of:

(A) 90 percent of the fair value of each intangible asset, determined in accordance with section 2(c)(2)(iii) of this appendix A; or
(B) 100 percent of the remaining unamortized book value.

(iii) The quarterly determination of the current fair value of the intangible asset must include adjustments for any significant changes in original valuation assumptions, including changes in prepayment estimates.

(3) *Deferred tax assets—(i) Net unrealized gains and losses on available-for-sale securities.* Net unrealized gains and losses on available-for-sale securities. Before calculating the amount of deferred tax assets subject to the limit in section 2(c)(1)(iii) of this appendix A, a bank may eliminate the deferred tax effects of any net unrealized holding gains and losses on available-for-sale debt securities. Banks report these net unrealized holding

gains and losses in their Call Reports as a separate component of equity capital, but exclude them from the definition of common stockholders' equity for regulatory capital purposes. A bank that adopts a policy to deduct these amounts must apply that approach consistently in all future calculations of the amount of disallowed deferred tax assets under section 2(c)(1)(iii) of this appendix A.

(ii) *Consolidated groups.* The amount of deferred tax assets that a bank can realize from taxes paid in prior carryback years and from reversals of existing taxable temporary differences generally would not be deducted from capital. However, for a bank that is a member of a consolidated group (for tax purposes), the amount of carryback potential a bank may consider in calculating the limit on deferred tax assets under section 2(c)(1)(iii) of this appendix A, may not exceed the amount that the bank could reasonably expect to have refunded by its parent holding company.

(iii) *Estimated future taxable income.* Estimated future taxable income does not include net operating loss carryforwards to be used during that year or the amount of existing temporary differences expected to reverse within the year. A bank may use future taxable income projections for their closest fiscal year, provided it adjusts the projections for any significant changes that occur or that it expects to occur. Such projections must include the estimated effect of tax planning strategies that the bank expects to implement to realize net operating losses or tax credit carryforwards that will otherwise expire during the year.

(4) *Credit-enhancing interest-only strips.* Credit-enhancing interest-only strips, whether purchased or retained, that exceed 25% of Tier 1 capital must be deducted from Tier 1 capital. Purchased and retained credit-enhancing interest-only strips, on a non-tax adjusted basis, are included in the total amount that is used for purposes of determining whether a bank exceeds its Tier 1 capital.

(i) The 25% limitation on credit-enhancing interest-only strips will be based on Tier 1 capital net of goodwill and all identifiable intangibles, other than purchased credit card relationships, mortgage servicing assets and non-mortgage servicing assets.

(ii) Banks must value each credit-enhancing interest-only strip included in Tier 1 capital at least quarterly. The quarterly determination of the current fair value of the credit-enhancing interest-only strip must include adjustments for any significant changes in original valuation assumptions, including changes in prepayment estimates.

(5) *Nonfinancial equity investments—(i) General.* (A) A bank must deduct from its Tier 1

⁶Intangible assets are defined to exclude IO strips receivable related to these mortgage and non-mortgage servicing assets. See section 1(c)(18) of this appendix A. Consequently, IO strips receivable related to mortgage and non-mortgage servicing assets are not required to be deducted under section 2(c)(2) of this appendix A. However, credit-enhancing interest-only strips as defined in section 4(a)(2) are deducted from Tier 1 capital in accordance with section 2(c)(4) of this appendix A. Any non credit-enhancing IO strips receivable are subject to a 100% risk weight under section 3(a)(4) of this appendix A.

capital the appropriate percentage, as determined in accordance with Table A, of the adjusted carrying value of all nonfinancial equity

investments held by the bank and its subsidiaries.

TABLE A—DEDUCTION FOR NONFINANCIAL EQUITY INVESTMENTS

Aggregate adjusted carrying value of all nonfinancial equity investments held directly or indirectly by banks (as a percentage of the Tier 1 capital of the bank) ¹	Deduction from Tier 1 Capital (as a percentage of the adjusted carrying value of the investment)
Less than 15 percent	8.0 percent.
Greater than or equal to 15 percent but less than 25 percent	12.0 percent.
Greater than or equal to 25 percent	25.0 percent.

¹For purposes of calculating the adjusted carrying value of nonfinancial equity investments as a percentage of Tier 1 capital, Tier 1 capital is defined as the sum of the Tier 1 capital elements net of goodwill and net of all identifiable intangible assets other than mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships, but prior to the deduction for disallowed mortgage servicing assets, disallowed nonmortgage servicing assets, disallowed purchased credit card relationships, disallowed credit-enhancing interest only strips (both purchased and retained), disallowed deferred tax assets, and nonfinancial equity investments.

(B) Deductions for nonfinancial equity investments must be applied on a marginal basis to the portions of the adjusted carrying value of nonfinancial equity investments that fall within the specified ranges of the bank's Tier 1 capital. For example, if the adjusted carrying value of all nonfinancial equity investments held by a bank equals 20 percent of the Tier 1 capital of the bank, then the amount of the deduction would be 8 percent of the adjusted carrying value of all investments up to 15 percent of the bank's Tier 1 capital, and 12 percent of the adjusted carrying value of all investments equal to, or in excess of, 15 percent of the bank's Tier 1 capital.

(C) The total adjusted carrying value of any nonfinancial equity investment that is subject to deduction under section 2(c)(5) of this appendix A is excluded from the bank's weighted risk assets for purposes of computing the denominator of the bank's risk-based capital ratio. For example, if 8 percent of the adjusted carrying value of a nonfinancial equity investment is deducted from Tier 1 capital, the entire adjusted carrying value of the investment will be excluded from risk-weighted assets in calculating the denominator of the risk-based capital ratio.

(D) Banks engaged in equity investment activities, including those banks with a high concentration in nonfinancial equity investments (e.g., in excess of 50 percent of Tier 1 capital), will be monitored and may be subject to heightened supervision, as appropriate, by the OCC to ensure that such banks maintain capital levels that are appropriate in light of their equity investment activities, and the OCC may impose a higher capital charge in any case where the circumstances, such as the level of risk of the particular investment or portfolio of investments, the risk management systems of the bank, or other information, indicate that a higher minimum capital requirement is appropriate.

(ii) *Small business investment company investments.* (A) Notwithstanding section 2(c)(5)(i) of this appendix A, no deduction is required for nonfinancial equity investments that are made by a bank or its subsidiary through a SBIC that is consolidated with the bank, or in a SBIC that is not consolidated with the bank, to the extent that such investments, in the aggregate, do not exceed 15 percent of the Tier 1 capital of the bank. Except as provided in paragraph (c)(5)(ii)(B) of this section, any nonfinancial equity investment that is held through or in a SBIC and not deducted from Tier 1 capital will be assigned to the 100 percent risk-weight category and included in the bank's consolidated risk-weighted assets.

(B) If a bank has an investment in a SBIC that is consolidated for accounting purposes but the SBIC is not wholly owned by the bank, the adjusted carrying value of the bank's nonfinancial equity investments held through the SBIC is equal to the bank's proportionate share of the SBIC's adjusted carrying value of its equity investments in nonfinancial companies. The remainder of the SBIC's adjusted carrying value (i.e., the minority interest holders' proportionate share) is excluded from the risk-weighted assets of the bank.

(C) If a bank has an investment in a SBIC that is not consolidated for accounting purposes and has current information that identifies the percentage of the SBIC's assets that are equity investments in nonfinancial companies, the bank may reduce the adjusted carrying value of its investment in the SBIC proportionately to reflect the percentage of the adjusted carrying value of the SBIC's assets that are not equity investments in nonfinancial companies. The amount by which the adjusted carrying value of the bank's investment in the SBIC is reduced under this paragraph will be risk weighted at 100 percent and included in the bank's risk-weighted assets.

(D) To the extent the adjusted carrying value of all nonfinancial equity investments that the bank holds through a consolidated SBIC or in a nonconsolidated SBIC equals or exceeds, in the aggregate, 15 percent of the Tier 1 capital of the bank, the appropriate percentage of such amounts, as set forth in Table A, must be deducted from the bank's Tier 1 capital. In addition, the aggregate adjusted carrying value of all nonfinancial equity investments held through a consolidated SBIC and in a nonconsolidated SBIC (including any nonfinancial equity investments for which no deduction is required) must be included in determining, for purposes of Table A the total amount of nonfinancial equity investments held by the bank in relation to its Tier 1 capital.

(iii) *Nonfinancial equity investments excluded.* (A) Notwithstanding section 2(c)(5)(i) and (ii) of this appendix A, no deduction from Tier 1 capital is required for the following:

(1) Nonfinancial equity investments (or portion of such investments) made by the bank prior to March 13, 2000, and continuously held by the bank since March 13, 2000.

(2) Nonfinancial equity investments made on or after March 13, 2000, pursuant to a legally binding written commitment that was entered into by the bank prior to March 13, 2000, and that required the bank to make the investment, if the bank has continuously held the investment since the date the investment was acquired.

(3) Nonfinancial equity investments received by the bank through a stock split or stock dividend on a nonfinancial equity investment made prior to March 13, 2000, provided that the bank provides no consideration for the shares or interests received, and the transaction does not materially increase the bank's proportional interest in the nonfinancial company.

(4) Nonfinancial equity investments received by the bank through the exercise on or after March 13, 2000, of an option, warrant, or other agreement that provides the bank with the right, but not the obligation, to acquire equity or make an investment in a nonfinancial company, if the option, warrant, or other agreement was acquired by the bank prior to March 13, 2000, and the bank provides no consideration for the nonfinancial equity investments.

(B) Any excluded nonfinancial equity investments described in section 2(c)(5)(iii)(A) of this appendix A must be included in determining the total amount of nonfinancial equity investments held by the bank in relation to its Tier 1 capital for purposes of Table A. In addition, any excluded nonfinancial equity investments will be risk weighted at 100 percent and included in the bank's risk-weighted assets.

(6) *Netting of Deferred Tax Liability.* (i) Banks may elect to deduct the following as-

sets from Tier 1 capital on a basis that is net of any associated deferred tax liability:

(A) Goodwill;

(B) Intangible assets acquired due to a non-taxable purchase business combination, except banks may not elect to deduct from Tier 1 capital on a basis that is net of any associated deferred tax liability, regardless of the method by which they were acquired:

(1) Purchased credit card relationships; and

(2) Servicing assets that are includable in Tier 1 capital;

(C) Disallowed servicing assets;

(D) Disallowed credit-enhancing interest-only strips; and

(E) Nonfinancial equity investments, as defined in section 1(c)(1) of this appendix A.

(ii) Deferred tax liabilities netted in this manner cannot also be netted against deferred tax assets when determining the amount of deferred tax assets that are dependent upon future taxable income as calculated under section 2(c)(1)(iii) of this appendix A.

(7) *Deductions from total capital.* The following assets are deducted from total capital:

(i) Investments, both equity and debt, in unconsolidated banking and finance subsidiaries that are deemed to be capital of the subsidiary;⁷ and

(ii) Reciprocal holdings of bank capital instruments.

Section 3. Risk Categories/Weights for On-Balance Sheet Assets and Off-Balance Sheet Items

The denominator of the risk-based capital ratio, *i.e.*, a national bank's risk-weighted assets,⁸ is derived by assigning that bank's assets and off-balance sheet items to one of the four risk categories detailed in section 3(a) of this appendix A. Each category has a specific risk weight. Before an off-balance sheet item is assigned a risk weight, it is converted to an on-balance sheet credit equivalent amount in accordance with section 3(b) of this appendix A. The risk weight assigned to a particular asset or on-balance sheet credit equivalent amount determines the percentage of that asset/credit equivalent that is included in the denominator of the bank's risk-based capital ratio. Any

⁷The OCC may require deduction of investments in other subsidiaries and associated companies, on a case-by-case basis.

⁸The OCC reserves the right to require a bank to compute its risk-based capital ratio on the basis of average, rather than period-end, risk-weighted assets when necessary to carry out the purposes of these guidelines.

asset deducted from a bank's capital in computing the numerator of the risk-based capital ratio is not included as part of the bank's risk-weighted assets.

Some of the assets on a bank's balance sheet may represent an indirect holding of a pool of assets, *e.g.*, mutual funds, that encompasses more than one risk weight within the pool. In those situations, the bank may assign the asset to the risk category applicable to the highest risk-weighted asset that pool is permitted to hold pursuant to its stated investment objectives in the fund's prospectus. Alternatively, the bank may assign the asset on a pro rata basis to different risk categories according to the investment limits in the fund's prospectus. In either case, the minimum risk weight that may be assigned to such a pool is 20%. If a bank assigns the asset on a pro rata basis, and the sum of the investment limits in the fund's prospectus exceeds 100%, the bank must assign the highest pro rata amounts of its total investment to the higher risk category. If, in order to maintain a necessary degree of liquidity, the fund is permitted to hold an insignificant amount of its assets in short-term, highly-liquid securities of superior credit quality (that do not qualify for a preferential risk weight), such securities generally will not be taken into account in determining the risk category into which the bank's holding in the overall pool should be assigned. The prudent use of hedging instruments by a fund to reduce the risk of its assets will not increase the risk weighting of the investment in that fund above the 20% category. However, if a fund engages in any activities that are deemed to be speculative in nature or has any other characteristics that are inconsistent with the preferential risk weighting assigned to the fund's assets, the bank's investment in the fund will be assigned to the 100% risk category. More detail on the treatment of mortgage-backed securities is provided in section 3(a)(3)(vi) of this appendix A.

(a) *On-Balance Sheet Assets.* The following are the risk categories/weights for on-balance sheet assets.

(1) *Zero percent risk weight.* (i) Cash, including domestic and foreign currency owned and held in all offices of a national bank or in transit. Any foreign currency held by a national bank should be converted into U.S. dollar equivalents.

(ii) Deposit reserves and other balances at Federal Reserve Banks.

(iii) Securities issued by, and other direct claims on, the United States Government or its agencies, or the central government of an OECD country.

(iv) That portion of assets directly and unconditionally guaranteed by the United

States Government or its agencies, or the central government of an OECD country.⁹

(v) That portion of local currency claims on, or unconditionally guaranteed by, central governments of non-OECD countries, to the extent the bank has liabilities in that currency. Any amount of such claims that exceeds the amount of the bank's liabilities in that currency is assigned to the 100% risk category of section 3(a)(4) of this appendix.

(vi) Gold bullion held in the bank's own vaults or in another bank's vaults on an allocated basis, to the extent it is backed by gold bullion liabilities.

(vii) The book value of paid-in Federal Reserve Bank stock.

(viii) That portion of assets and off-balance sheet transactions^{9a} collateralized by cash or securities issued or directly and unconditionally guaranteed by the United States Government or its agencies, or the central government of an OECD country, provided that:^{9b}

(A) The bank maintains control over the collateral:

(1) If the collateral consists of cash, the cash must be held on deposit by the bank or by a third-party for the account of the bank;

(2) If the collateral consists of OECD government securities, then the OECD government securities must be held by the bank or by a third-party acting on behalf of the bank;

(B) The bank maintains a daily positive margin of collateral fully taking into account any change in the market value of the collateral held as security;

(C) Where the bank is acting as a customer's agent in a transaction involving the loan or sale of securities that is collateralized by cash or OECD government

⁹For the treatment of privately-issued mortgage-backed securities where the underlying pool is comprised solely of mortgage-related securities issued by GNMA, *see infra* note 10.

^{9a}See footnote 22 in section 3(b)(5)(iii) of this appendix A (collateral held against derivative contracts).

^{9b}Assets and off-balance sheet transactions collateralized by securities issued or guaranteed by the United States Government or its agencies, or the central government of an OECD country include, but are not limited to, securities lending transactions, repurchase agreements, collateralized letters of credit, such as reinsurance letters of credit, and other similar financial guarantees. Swaps, forwards, futures, and options transactions are also eligible, if they meet the collateral requirements. However, the OCC may at its discretion require that certain collateralized transactions be risk weighted at 20 percent if they involve more than a minimal risk.

securities delivered to the bank, any obligation by the bank to indemnify the customer is limited to no more than the difference between the market value of the securities lent and the market value of the collateral received, and any reinvestment risk associated with the collateral is borne by the customer; and

(D) The transaction involves no more than minimal risk.

(ix) Asset-backed commercial paper (ABCP) that is:

(A) Purchased by the bank on or after September 19, 2008, from a Securities and Exchange Commission (SEC)-registered open-end investment company that holds itself out as a money market mutual fund under SEC Rule 2a-7 (17 CFR 270.2a-7); and

(B) Pledged by the bank to a Federal Reserve Bank to secure financing from the ABCP lending facility (AMLF) established by the Federal Reserve Board on September 19, 2008.

(2) *20 percent risk weight.* (i) All claims on depository institutions incorporated in an OECD country, and all assets backed by the full faith and credit of depository institutions incorporated in an OECD country. This includes the credit equivalent amount of participations in commitments and standby letters of credit sold to other depository institutions incorporated in an OECD country, but only if the originating bank remains liable to the customer or beneficiary for the full amount of the commitment or standby letter of credit. Also included in this category are the credit equivalent amounts of risk participations in bankers' acceptances conveyed to other depository institutions incorporated in an OECD country. However, bank-issued securities that qualify as capital of the issuing bank are not included in this risk category, but are assigned to the 100% risk category of section 3(a)(4) of this appendix A.

(ii) Claims on, or guaranteed by depository institutions, other than the central bank, incorporated in a non-OECD country, with a residual maturity of one year or less.

(iii) Cash items in the process of collection.

(iv) That portion of assets collateralized by cash or by securities issued or directly and unconditionally guaranteed by the United States Government or its agencies, or the central government of an OECD country, that does not qualify for the zero percent risk-weight category.

(v) That portion of assets conditionally guaranteed by the United States Government or its agencies, or the central government of an OECD country.

(vi) Securities issued by, or other direct claims on, United States Government-sponsored agencies.

(vii) That portion of assets guaranteed by United States Government-sponsored agencies.¹⁰

(viii) That portion of assets collateralized by the current market value of securities issued or guaranteed by United States Government-sponsored agencies.

(ix) Claims representing general obligations of any public-sector entity in an OECD country, and that portion of any claims guaranteed by any such public-sector entity. In the U.S., these obligations must meet the requirements of 12 CFR 1.2(b).

(x) Claims on, or guaranteed by, official multilateral lending institutions or regional development institutions in which the United States Government is a shareholder or contributing member.¹¹

(xi) That portion of assets collateralized by the current market value of securities issued by official multilateral lending institutions or regional development institutions in which the United States Government is a shareholder or contributing member.

(xii) That portion of local currency claims conditionally guaranteed by central governments of non-OECD countries, to the extent the bank has local currency liabilities in

¹⁰Privately issued mortgage-backed securities, *e.g.*, CMOs and REMICs, where the underlying pool is comprised solely of mortgage-related securities issued by GNMA, FNMA and FHLMC, will be treated as an indirect holding of the underlying assets and assigned to the 20% risk category of this section 3(a)(2). If the underlying pool is comprised of assets which attract different risk weights, *e.g.*, FNMA securities and conventional mortgages, the bank should generally assign the security to the highest risk category appropriate for any asset in the pool. However, on a case-by-case basis, the OCC may allow the bank to assign the security proportionately to the various risk categories based on the proportion in which the risk categories are represented by the composition cash flows of the underlying pool of assets. Before the OCC will consider a request to proportionately risk-weight such a security, the bank must have current information for the reporting date that details the composition and cash flows of the underlying pool of assets. Furthermore, before a mortgage-related security will receive a risk weight lower than 100%, it must meet the criteria set forth in section 3(a)(3)(vi) of this appendix A.

¹¹These institutions include, but are not limited to, the International Bank for Reconstruction and Development (World Bank), the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Investments Bank, the International Monetary Fund and the Bank for International Settlements.

that country. Any amount of such claims that exceeds the amount of the bank's local currency liabilities is assigned to the 100% risk category of section 3(a)(4) of this appendix.

(xiii) Claims on, or guaranteed by, a securities firm incorporated in an OECD country, that satisfies the following conditions:

(A) If the securities firm is incorporated in the United States, then the firm must be a broker-dealer that is registered with the SEC and must be in compliance with the SEC's net capital regulation (17 CFR 240.15c3(1)).

(B) If the securities firm is incorporated in any other OECD country, then the bank must be able to demonstrate that the firm is subject to consolidated supervision and regulation, including its subsidiaries, comparable to that imposed on depository institutions in OECD countries; such regulation must include risk-based capital standards comparable to those applied to depository institutions under the Basel Capital Accord.^{11a}

(C) The securities firm, whether incorporated in the United States or another OECD country, must also have a long-term credit rating in accordance with section 3(a)(2)(xiii)(C)(1) of this appendix A; a parent company guarantee in accordance with section 3(a)(2)(xiii)(C)(2) of this appendix A; or a collateralized claim in accordance with section 3(a)(2)(xiii)(C)(3) of this appendix A. Claims representing capital of a securities firm must be risk weighted at 100 percent in accordance with section 3(a)(4) of this appendix A.

(1) *Credit rating.* The securities firm must have either a long-term issuer credit rating or a credit rating on at least one issue of long-term unsecured debt, from a NRSRO that is in one of the three highest investment-grade categories used by the NRSRO. If the securities firm has a credit rating from more than one NRSRO, the lowest credit rating must be used to determine the credit rating under this paragraph.

(2) *Parent company guarantee.* The claim on, or guaranteed by, the securities firm must be guaranteed by the firm's parent company, and the parent company must have either a long-term issuer credit rating or a credit rating on at least one issue of long-term unsecured debt, from a NRSRO that is in one of the three highest investment-grade categories used by the NRSRO.

(3) *Collateralized claim.* The claim on the securities firm must be collateralized subject to all of the following requirements:

(i) The claim must arise from a reverse repurchase/repurchase agreement or securities lending/borrowing contract executed using standard industry documentation.

(ii) The collateral must consist of debt or equity securities that are liquid and readily marketable.

(iii) The claim and collateral must be marked-to-market daily.

(iv) The claim must be subject to daily margin maintenance requirements under standard industry documentation.

(v) The contract from which the claim arises can be liquidated, terminated, or accelerated immediately in bankruptcy or similar proceedings, and the security or collateral agreement will not be stayed or avoided under the applicable law of the relevant jurisdiction. To be exempt from the automatic stay in bankruptcy in the United States, the claim must arise from a securities contract or a repurchase agreement under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (912 U.S.C. 4407), or the Regulation EE (12 CFR part 231).

(3) *50 percent risk weight.* (i) Revenue obligations of any public-sector entity in an OECD country for which the underlying obligor is the public-sector entity, but which are repayable solely from the revenues generated by the project financed through the issuance of the obligations.

(ii) The credit equivalent amount of derivative contracts, calculated in accordance with section 3(b)(5) of this appendix A, that do not qualify for inclusion in a lower risk category.

(iii) Loans secured by first mortgages on one-to-four family residential properties, either owner occupied or rented, provided that such loans are not otherwise 90 days or more past due, or on nonaccrual or restructured. It is presumed that such loans will meet the prudent underwriting standards. For the purposes of the risk-based capital guidelines, a loan modified on a permanent or trial basis solely pursuant to the U.S. Department of Treasury's Home Affordable Mortgage Program will not be considered to have been restructured. If a bank holds a first lien and junior lien on a one-to-four family residential property and no other party holds an intervening lien, the transaction is treated as a single loan secured by a first lien for the purposes of both determining the loan-to-value ratio and assigning a risk weight to the transaction. Furthermore, residential property loans made for the purpose of construction financing are assigned to the 100%

^{11a} See Accord on International Convergence of Capital Measurement and Capital Standards as adopted by the Basle Committee on Banking Regulations and Supervisory Practices (renamed as the Basle Committee on Banking Supervision), dated July 1988 (amended 1998).

risk category of section 3(a)(4) of this appendix A; however, these loans may be included in the 50% risk category of this section 3(a)(3) of this appendix A if they are subject to a legally binding sales contract and satisfy the requirements of section 3(a)(3)(iv) of this appendix A.

(iv) Loans to residential real estate builders for one-to-four family residential property construction, if the bank obtains sufficient documentation demonstrating that the buyer of the home intends to purchase the home (*i.e.*, a legally binding written sales contract) and has the ability to obtain a mortgage loan sufficient to purchase the home (*i.e.*, a firm written commitment for permanent financing of the home upon completion), subject to the following additional criteria:

(A) The builder must incur at least the first 10% of the direct costs (*i.e.*, actual costs of the land, labor, and material) before any drawdown is made under the construction loan and the construction loan may not exceed 80% of the sales price of the resold home;

(B) The individual purchaser has made a substantial "earnest money deposit" of no less than 3% of the sales price of the home that must be subject to forfeiture by the individual purchaser if the sales contract is terminated by the individual purchaser; however, the earnest money deposit shall not be subject to forfeiture by reason of breach or termination of the sales contract on the part of the builder;

(C) The earnest money deposit must be held in escrow by the bank financing the builder or by an independent party in a fiduciary capacity; the escrow agreement must provide that in the event of default the escrow funds must be used to defray any cost incurred relating to any cancellation of the sales contract by the buyer;

(D) If the individual purchaser terminates the contract or if the loan fails to satisfy any other criterion under this section, then the bank must immediately recategorize the loan at a 100% risk weight and must accurately report the loan in the bank's next quarterly Consolidated Reports of Condition and Income (Call Report);

(E) The individual purchaser must intend that the home will be owner-occupied;

(F) The loan is made by the bank in accordance with prudent underwriting standards;

(G) The loan is not more than 90 days past due, or on nonaccrual; and

(H) The purchaser is an individual(s) and not a partnership, joint venture, trust, corporation, or any other entity (including an entity acting as a sole proprietorship) that is purchasing one or more of the homes for speculative purposes.

(v) Loans secured by a first mortgage on multifamily residential properties:^{11b}

(A) The amortization of principal and interest occurs in not more than 30 years;

(B) The minimum original maturity for repayment of principal is not less than 7 years;

(C) All principal and interest payments have been made on a timely basis in accordance with the terms of the loan for at least one year immediately preceding the risk weighting of the loan in the 50% risk weight category, and the loan is not otherwise 90 days or more past due, or on nonaccrual status;

(D) The loan is made in accordance with all applicable requirements and prudent underwriting standards;

(E) If the rate of interest does not change over the term of the loan:

(I) The current loan amount outstanding does not exceed 80% of the current value of the property, as measured by either the value of the property at origination of the loan (which is the lower of the purchase price or the value as determined by the initial appraisal, or if appropriate, the initial evaluation) or the most current appraisal, or if appropriate, the most current evaluation; and

(II) In the most recent fiscal year, the ratio of annual net operating income generated by the property (before payment of any debt service on the loan) to annual debt service on the loan is not less than 120%;^{11c}

^{11b}The portion of multifamily residential property loans that is sold subject to a pro rata loss sharing arrangement may be treated by the selling bank as sold to the extent that the sales agreement provides for the purchaser of the loan to share in any loss incurred on the loan on a pro rata basis with the selling bank. The portion of multifamily residential property loans sold subject to any loss sharing arrangement other than *pro rata* sharing of the loss shall be accorded the same treatment as any other asset sold under an agreement to repurchase or sold with recourse under section 4(b) of this appendix A.

^{11c}For the purposes of the debt service requirements in sections 3(a)(3)(v)(E)(II) and 3(a)(3)(v)(F)(II) of this appendix A, other forms of debt service coverage that generate sufficient cash flows to provide comparable protection to the institution may be considered for (a) a loan secured by cooperative housing or (b) a multifamily residential property loan if the purpose of the loan is for the development or purchase of multifamily residential property primarily intended to provide low- to moderate-income housing, including special operating reserve accounts or special operating subsidies provided by

Continued

(F) If the rate of interest changes over the term of the loan:

(I) The current loan amount outstanding does not exceed 75% of the current value of the property, as measured by either the value of the property at origination of the loan (which is the lower of the purchase price or the value as determined by the initial appraisal, or if appropriate, the initial evaluation) or the most current appraisal, or if appropriate, the most current evaluation; and

(II) In the most recent fiscal year, the ratio of annual net operating income generated by the property (before payment of any debt service on the loan) to annual debt service on the loan is not less than 115%; and

(G) If the loan was refinanced by the borrower:

(I) All principal and interest payments on the loan being refinanced which were made in the preceding year prior to refinancing shall apply in determining the one-year timely payment requirement under paragraph (a)(3)(v)(C) of this section; and

(II) The net operating income generated by the property in the preceding year prior to refinancing shall apply in determining the applicable debt service requirements under paragraphs (a)(3)(v)(E) and (a)(3)(v)(F) of this section.

(vi) Privately-issued mortgage-backed securities, *i.e.* those that do not carry the guarantee of a government or government-sponsored agency, if the privately-issued mortgage-backed securities are at the time the mortgage-backed securities are originated fully secured by or otherwise represent a sufficiently secure interest in mortgages that qualify for the 50% risk weight under paragraphs (a)(3) (iii), (iv) and (v) of this section,¹² provided that they meet the following criteria:

federal, state, local or private sources. However, the OCC reserves the right, on a case-by-case basis, to review the adequacy of any other forms of comparable debt service coverage relied on by the bank.

¹²If all of the underlying mortgages in the pool do not qualify for the 50% risk weight, the bank should generally assign the entire value of the security to the 100% risk category of section 3(a)(4) of this appendix A; however, on a case-by-case basis, the OCC may allow the bank to assign only the portion of the security which represents an interest in, and the cash flows of, nonqualifying mortgages to the 100% risk category, with the remainder being assigned a risk weight of 50%. Before the OCC will consider a request to risk weight a mortgage-backed security on a proportionate basis, the bank must have current information for the reporting date that details the composition

(A) The underlying assets must be held by an independent trustee that has a first priority, perfected security interest in the underlying assets for the benefit of the holders of the security;

(B) The holder of the security must have an undivided pro rata ownership interest in the underlying assets or the trust that issues the security must have no liabilities unrelated to the issued securities;

(C) The trust that issues the security must be structured such that the cash flows from the underlying assets fully meet the cash flows requirements of the security without undue reliance on any reinvestment income; and

(D) There must not be any material reinvestment risk associated with any funds awaiting distribution to the holder of the security.

(4) *100 percent risk weight.* All other assets not specified above,^{12a} including:

(i) Claims on or guaranteed by depository institutions incorporated in a non-OECD country, as well as claims on the central bank of a non-OECD country, with a residual maturity exceeding one year.

(ii) All non-local currency claims on non-OECD central governments, as well as local currency claims on non-OECD central governments that are not included in section 3(a)(1)(v) of this appendix A.

(iii) Asset-or mortgage backed securities that are externally rated are risk weighted in accordance with section 4(d) of this appendix A.

(iv) All stripped mortgage-backed securities, including interest only portions (IOs), principal only portions (POs) and other similar instruments, regardless of the issuer or guarantor.

(v) Obligations issued by any state or any political subdivision thereof for the benefit of a private party or enterprise where that party or enterprise, rather than the issuing state or political subdivision, is responsible for the timely payment of principal and interest on the obligation, *e.g.*, industrial development bonds.

(vi) Claims on commercial enterprises owned by non-OECD and OECD central governments.

(vii) Any investment in an unconsolidated subsidiary that is not required to be deducted from total capital pursuant to section 2(c)(3) of this appendix A.

(viii) Instruments issued by depository institutions incorporated in OECD and non-

and cash flows of the underlying pool of mortgages.

^{12a}A bank subject to the market risk capital requirements pursuant to appendix B of this part 3 may calculate the capital requirement for qualifying securities borrowing transactions pursuant to section 3(a)(1)(ii) of appendix B of this part 3.

OECD countries that qualify as capital of the issuer.

(ix) Investments in fixed assets, premises, and other real estate owned.

(x) Claims representing capital of a securities firm notwithstanding section 3(a)(2)(xiii) of this appendix A. [Reserved]

(xi) Subject to the requirements below, a bank may assign an asset not included in the categories above to the risk weight category applicable under the capital guidelines for bank holding companies (see 12 CFR part 225, appendix A), provided that all of the following conditions apply:

(A) The bank is not authorized to hold the asset under applicable law other than debt previously contracted or similar authority; and

(B) The risks associated with the asset are substantially similar to the risks of assets that are otherwise assigned to a risk weight category less than 100 percent under this appendix.

(6) *Other variable interest entities subject to consolidation.* If a bank is required to consolidate the assets of a variable interest entity under generally accepted accounting principles, the bank must assess a risk-based capital charge based on the appropriate risk weight of the consolidated assets in accordance with sections 3(a) and 4 of this appendix A. Any direct credit substitutes and recourse obligations (including residual interests), and loans that a bank may provide to such a variable interest entity are not subject to a capital charge under section 4 of this appendix A.

(b) *Off-Balance Sheet Activities.* The risk weight assigned to an off-balance sheet item is determined by a two-step process. First, the face amount of the off-balance sheet item is multiplied by the appropriate credit conversion factor specified in this section. This calculation translates the face amount of an off-balance sheet item into an on-balance sheet credit equivalent amount. Second, the resulting credit equivalent amount is then assigned to the proper risk category using the criteria regarding obligors, guarantors, and collateral listed in section 3(a) of this appendix A, or external credit rating in accordance with section 4(d), if applicable. Collateral and guarantees are applied to the face amount of an off-balance sheet item; however, with respect to derivative contracts under section 3(b)(5) of this appendix A, collateral and guarantees are applied to the credit equivalent amounts of such derivative contracts. The following are the credit conversion factors and the off-balance sheet items to which they apply. However, direct credit substitutes, recourse obligations, and securities issued in connection with asset securitizations are treated as described in section 4 of this appendix A.

(1) *100 percent credit conversion factor.* (i) [Reserved]¹³

(ii) Risk participations purchased in bankers' acceptances;

(iii) [Reserved]¹⁴

(iv) Contingent obligations with a certain draw down, *e.g.*, legally binding agreements to purchase assets as a specified future date.

(v) Indemnification of customers whose securities the bank has lent as agent. If the customer is not indemnified against loss by the bank, the transaction is excluded from the risk-based capital calculation.¹⁵

(2) *50 percent credit conversion factor.* (i) Transaction-related contingencies including, among other things, performance bonds and performance-based standby letters of credit related to a particular transaction.¹⁶ To the extent permitted by law or regulation, performance-based standby letters of credit include such things as arrangements backing subcontractors' and suppliers' performance, labor and materials contracts, and construction bids;

(ii) Unused portion of commitments with an original maturity exceeding one-year;¹⁷ however, commitments that are asset-backed commercial paper liquidity facilities must satisfy the eligibility requirements under section 3(b)(6)(ii) of this appendix A;

(iii) Revolving underwriting facilities, note issuance facilities, and similar arrangements pursuant to which the bank's customer can issue short-term debt obligations in its own name, but for which the bank has a legally binding commitment to either:

(A) Purchase the obligations the customer is unable to sell by a stated date; or

(B) Advance funds to its customer, if the obligations cannot be sold.

¹³ [Reserved]

¹⁴ [Reserved]

¹⁵ When a bank lends its own securities, the transaction is treated as a loan. When a bank lends its own securities or, acting as agent, agrees to indemnify a customer, the transaction is assigned to the risk weight appropriate to the obligor or collateral that is delivered to the lending or indemnifying institution or to an independent custodian acting on their behalf.

¹⁶ For purposes of this section 3(b)(2)(i), a "performance-based standby letter of credit" is any letter of credit, or similar arrangement, however named or described, which represents an irrevocable obligation to the beneficiary on the part of the issuer to make payment on account of any default by the account party in the performance of a non-financial or commercial obligation. Participations in performance-based standby letters of credit are treated in accordance with section 4 of this appendix A.

¹⁷ Participations in commitments are treated in accordance with section 4 of this appendix A.

(3) *20 percent credit conversion factor.* (i) Trade-related contingencies. These are short-term self-liquidating instruments used to finance the movement of goods and are collateralized by the underlying shipment. A commercial letter of credit is an example of such an instrument.

(4) *10 percent credit conversion factor.* Unused portion of asset-backed commercial paper liquidity facilities with an original maturity of one year or less that satisfy the eligibility requirements under section 3(b)(6)(ii) of this appendix A.

(5) *Zero percent credit conversion factor.* (i) Unused portion of commitments with an original maturity of one year or less, but excluding any asset-backed commercial paper liquidity facilities;

(ii) Unused portion of commitments with an original maturity of greater than one year, if they are unconditionally cancelable¹⁸ at any time at the option of the bank and the bank has the contractual right to make, and in fact does make, either—

(A) A separate credit decision based upon the borrower's current financial condition, before each drawing under the lending facility; or

(B) An annual (or more frequent) credit review based upon the borrower's current financial condition to determine whether or not the lending facility should be continued; and

(iii) The unused portion of retail credit card lines or other related plans that are unconditionally cancelable by the bank in accordance with applicable law.

(6) *Liquidity facility provided to asset-backed commercial paper.* (i) *Noneligible asset-backed commercial paper liquidity facilities treated as recourse or direct credit substitute.* Unused portion of asset-backed commercial paper liquidity facilities that do not meet the criteria for an eligible liquidity facility provided to asset-backed commercial paper in accordance with section 3(b)(6)(ii) of this appendix A must be treated as recourse or as a direct credit substitute, and assessed the appropriate risk-based capital charge in accordance with section 4 of this appendix A.

(ii) *Eligible asset-backed commercial paper liquidity facility.* Except as provided in section 3(b)(6)(iii) of this appendix A, in order for the unused portion of an asset-backed commercial paper liquidity facility to be eligible for either the 50 percent or 10 percent credit conversion factors under section 3(b)(2)(ii) or 3(b)(4) of this appendix A, the asset-backed commercial paper liquidity facility must satisfy the following criteria:

(A) At the time of draw, the asset-backed commercial paper liquidity facility must be subject to an asset quality test that:

(1) Precludes funding of assets that are 90 days or more past due or in default; and

(2) If the assets that an asset-backed commercial paper liquidity facility is required to fund are externally rated securities at the time they are transferred into the program, the asset-backed commercial paper liquidity facility must be used to fund only securities that are externally rated investment grade at the time of funding. If the assets are not externally rated at the time they are transferred into the program, then they are not subject to this investment grade requirement.

(B) The asset-backed commercial paper liquidity facility must provide that, prior to any draws, the bank's funding obligation is reduced to cover only those assets that satisfy the funding criteria under the asset quality test as provided in section 3(b)(6)(ii)(A) of this appendix A.

(iii) *Exception to eligibility requirements for assets guaranteed by the United States Government or its agencies, or the central government of an OECD country.* Notwithstanding the eligibility requirements for asset-backed commercial paper program liquidity facilities in section 3(b)(6)(ii), the unused portion of an asset-backed commercial paper liquidity facility may still qualify for either the 50 percent or 10 percent credit conversion factors under section 3(b)(2)(ii) or 3(b)(4) of this appendix A, if the assets required to be funded by the asset-back commercial paper liquidity facility are guaranteed, either conditionally or unconditionally, by the United States Government or its agencies, or the central government of an OECD country.

(iv) *Transition period for asset-backed commercial paper liquidity facilities.* Notwithstanding the eligibility requirements for asset-backed commercial paper program liquidity facilities in section 3(b)(6)(i) of this appendix A, the unused portion of an asset-backed commercial paper liquidity will be treated as eligible liquidity facilities pursuant to section 3(b)(6)(ii) of this appendix A regardless of their compliance with the definition of eligible liquidity facilities until September 30, 2005. On that date and thereafter, the unused portions of asset-backed commercial paper liquidity facilities that do not meet the eligibility requirements in section 3(b)(6)(i) of this appendix A will be treated as recourse obligations or direct credit substitutes.

(7) *Derivative contracts—(i) Calculation of credit equivalent amounts.* The credit equivalent amount of a derivative contract equals the sum of the current credit exposure and the potential future credit exposure of the derivative contract. The calculation of credit equivalent amounts must be measured in U.S. dollars, regardless of the currency or currencies specified in the derivative contract.

¹⁸ See section 1(c)(26) of appendix A to this part.

(A) *Current credit exposure.* The current credit exposure for a single derivative contract is determined by the mark-to-market value of the derivative contract. If the mark-to-market value is positive, then the current credit exposure equals that mark-to-market value. If the mark-to-market is zero or negative, then the current credit exposure is zero. The current credit exposure for multiple derivative contracts executed with a single counterparty and subject to a qualifying bilateral netting contract is determined as provided by section 3(b)(5)(ii)(A) of this appendix A.

(B) *Potential future credit exposure.* The potential future credit exposure for a single derivative contract, including a derivative contract with negative mark-to-market value, is calculated by multiplying the notional principal¹⁹ of the derivative contract by one of the credit conversion factors in Table A—

Conversion Factor Matrix of this appendix A, for the appropriate category.²⁰ The potential future credit exposure for gold contracts shall be calculated using the foreign exchange rate conversion factors. For any derivative contract that does not fall within one of the specified categories in Table A—Conversion Factor Matrix of this appendix A, the potential future credit exposure shall be calculated using the other commodity conversion factors. Subject to examiner review, banks should use the effective rather than the apparent or stated notional amount in calculating the potential future credit exposure. The potential future credit exposure for multiple derivatives contracts executed with a single counterparty and subject to a qualifying bilateral netting contract is determined as provided by section 3(b)(5)(ii)(A) of this appendix A.

TABLE B—CONVERSION FACTOR MATRIX¹

Remaining maturity ²	Interest rate	Foreign exchange rate and gold	Equity ²	Precious metals	Other commodity
One year or less	0.0	1.0	6.0	7.0	10.0
Over one to five years	0.5	5.0	8.0	7.0	12.0
Over five years	1.5	7.5	10.0	8.0	15.0

¹For derivative contracts with multiple exchanges of principal, the conversion factors are multiplied by the number of remaining payments in the derivative contract.

²For derivative contracts that automatically reset to zero value following a payment, the remaining maturity equals the time until the next payment. However, interest rate contracts with remaining maturities of greater than one year shall be subject to a minimum conversion factor of 0.5 percent.

(ii) *Derivative contracts subject to a qualifying bilateral netting contract—(A) Netting calculation.* The credit equivalent amount for multiple derivative contracts executed with a single counterparty and subject to a qualifying bilateral netting contract as provided by section (3)(b)(5)(ii)(B) of this appendix A is calculated by adding the net current credit exposure and the adjusted sum of the potential future credit exposure for all derivative contracts subject to the qualifying bilateral netting contract.

(1) *Net current credit exposure.* The net current credit exposure is the net sum of all positive and negative mark-to-market values of the individual derivative contracts subject to a qualifying bilateral netting contract. If the net sum of the mark-to-market value is positive, then the net current credit exposure equals that net sum of the mark-to-

market value. If the net sum of the mark-to-market value is zero or negative, then the net current credit exposure is zero.

(2) *Adjusted sum of the potential future credit exposure.* The adjusted sum of the potential future credit exposure is calculated as:

$$A_{\text{net}} = 0.4 \times A_{\text{gross}} + (0.6 \times \text{NGR} \times A_{\text{gross}})$$

A_{net} is the adjusted sum of the potential future credit exposure, A_{gross} is the gross potential future credit exposure, and NGR is the net to gross ratio. A_{gross} is the sum of the potential future credit exposure (as determined under section 3(b)(5)(i)(B) of this appendix A) for each individual derivative contract subject to the qualifying bilateral netting contract. The NGR is the ratio of the net current credit exposure to the gross current credit exposure. In calculating the NGR, the gross current credit exposure equals the sum

¹⁹For purposes of calculating either the potential future credit exposure under section 3(b)(5)(i)(B) of this appendix A or the gross potential future credit exposure under section 3(b)(5)(ii)(A)(2) of this appendix A for foreign exchange contracts and other similar contracts in which the notional principal is equivalent to the cash flows, total notional principal is the net receipts to each party

falling due on each value date in each currency.

²⁰No potential future credit exposure is calculated for single currency interest rate swaps in which payments are made based upon two floating indices, so-called floating/floating or basis swaps; the credit equivalent amount is measured solely on the basis of the current credit exposure.

of the positive current credit exposures (as determined under section 3(b)(5)(i)(A) of this appendix A) of all individual derivative contracts subject to the qualifying bilateral netting contract.

(B) *Qualifying bilateral netting contract.* In determining the current credit exposure for multiple derivative contracts executed with a single counterparty, a bank may net derivative contracts subject to a qualifying bilateral netting contract by offsetting positive and negative mark-to-market values, provided that:

(1) The qualifying bilateral netting contract is in writing.

(2) The qualifying bilateral netting contract is not subject to a walkaway clause.

(3) The qualifying bilateral netting contract creates a single legal obligation for all individual derivative contracts covered by the qualifying bilateral netting contract. In effect, the qualifying bilateral netting contract must provide that the bank would have a single claim or obligation either to receive or to pay only the net amount of the sum of the positive and negative mark-to-market values on the individual derivative contracts covered by the qualifying bilateral netting contract. The single legal obligation for the net amount is operative in the event that a counterparty, or a counterparty to whom the qualifying bilateral netting contract has been assigned, fails to perform due to any of the following events: default, insolvency, bankruptcy, or other similar circumstances.

(4) The bank obtains a written and reasoned legal opinion(s) that represents, with a high degree of certainty, that in the event of a legal challenge, including one resulting from default, insolvency, bankruptcy, or similar circumstances, the relevant court and administrative authorities would find the bank's exposure to be the net amount under:

(i) The law of the jurisdiction in which the counterparty is chartered or the equivalent location in the case of noncorporate entities, and if a branch of the counterparty is involved, then also under the law of the jurisdiction in which the branch is located;

(ii) The law of the jurisdiction that governs the individual derivative contracts covered by the bilateral netting contract; and

(iii) The law of the jurisdiction that governs the qualifying bilateral netting contract.

(5) The bank establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the qualifying bilateral netting contract continues to satisfy the requirement of this section.

(6) The bank maintains in its files documentation adequate to support the netting of a derivative contract.²¹

(iii) *Risk weighting.* Once the bank determines the credit equivalent amount for a derivative contract or a set of derivative contracts subject to a qualifying bilateral netting contract, the bank assigns that amount to the risk weight category appropriate to the counterparty, or, if relevant, the nature of any collateral or guarantee.²² However, the maximum weight that will be applied to the credit equivalent amount of such derivative contract(s) is 50 percent.

(iv) *Exceptions.* The following derivative contracts are not subject to the above calculation, and therefore, are not part of the denominator of a national bank's risk-based capital ratio:

(A) An exchange rate contract with an original maturity of 14 calendar days or less;²³ and

(B) A derivative contract that is traded on an exchange requiring the daily payment of any variations in the market value of the contract.

Section 4. Recourse, Direct Credit Substitutes and Positions in Securitizations

(a) *Definitions.* For purposes of this section 4 of this appendix A, the following definitions apply:

(1) *Credit derivative* means a contract that allows one party (the protection purchaser) to transfer the credit risk of an asset or off-

²¹By netting individual derivative contracts for the purpose of calculating its credit equivalent amount, a bank represents that documentation adequate to support the netting of a set of derivative contract is in the bank's files and available for inspection by the OCC. Upon determination by the OCC that a bank's files are inadequate or that a qualifying bilateral netting contract may not be legally enforceable in any one of the bodies of law described in section 3(b)(5)(ii)(B)(3)(i) through (iii) of this appendix A, the underlying derivative contracts may not be netted for the purposes of this section.

²²Derivative contracts are an exception to the general rule of applying collateral and guarantees to the face value of off-balance sheet items. The sufficiency of collateral and guarantees is determined on the basis of the credit equivalent amount of derivative contracts. However, collateral and guarantees held against a qualifying bilateral netting contract is not recognized for capital purposes unless it is legally available for all contracts included in the qualifying bilateral netting contract.

²³Notwithstanding section 3(b)(5)(B) of this appendix A, gold contracts do not qualify for this exception.

balance sheet credit exposure to another party (the protection provider). The value of a credit derivative is dependent, at least in part, on the credit performance of a "reference asset."

(2) *Credit-enhancing interest-only strip* means an on-balance sheet asset that, in form or in substance:

(i) Represents the contractual right to receive some or all of the interest due on transferred assets; and

(ii) Exposes the bank to credit risk directly or indirectly associated with the transferred assets that exceeds its *pro rata* claim on the assets whether through subordination provisions or other credit enhancing techniques.

(3) *Credit-enhancing representations and warranties* means representations and warranties that are made or assumed in connection with a transfer of assets (including loan servicing assets) and that obligate a bank to protect investors from losses arising from credit risk in the assets transferred or the loans serviced. Credit-enhancing representations and warranties include promises to protect a party from losses resulting from the default or nonperformance of another party or from an insufficiency in the value of the collateral. Credit-enhancing representations and warranties do not include:

(i) Early-default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1-4 family residential first mortgage loans (as described in section 3(a)(3)(iii) of this appendix A) for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;

(ii) Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency, or a U.S. Government-sponsored enterprise, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or

(iii) Warranties that permit the return of assets in instances of fraud, misrepresentation or incomplete documentation.

(4) *Direct credit substitute* means an arrangement in which a bank assumes, in form or in substance, credit risk associated with an on- or off-balance sheet asset or exposure that was not previously owned by the bank (third-party asset) and the risk assumed by the bank exceeds the *pro rata* share of the bank's interest in the third-party asset. If a bank has no claim on the third-party asset, then the bank's assumption of any credit risk is a direct credit substitute. Direct credit substitutes include:

(i) Financial standby letters of credit that support financial claims on a third party that exceed a bank's *pro rata* share in the financial claim;

(ii) Guarantees, surety arrangements, credit derivatives and similar instruments back-

ing financial claims that exceed a bank's *pro rata* share in the financial claim;

(iii) Purchased subordinated interests that absorb more than their *pro rata* share of losses from the underlying assets;

(iv) Credit derivative contracts under which the bank assumes more than its *pro rata* share of credit risk on a third-party asset or exposure;

(v) Loans or lines of credit that provide credit enhancement for the financial obligations of a third party;

(vi) Purchased loan servicing assets if the servicer is responsible for credit losses or if the servicer makes or assumes credit-enhancing representations and warranties with respect to the loans serviced. Mortgage servicer case advances that meet the conditions of section 4(a)(8)(i) and (ii) of this appendix A, are not direct credit substitutes;

(vii) Clean-up calls on third-party assets. Clean-up calls that are 10% or less of the original pool balance and that are exercisable at the option of the bank are not direct credit substitutes; and

(viii) Unused portion of noneligible asset-backed commercial paper liquidity facilities.

(5) *Externally rated* means that an instrument or obligation has received a credit rating from at least one nationally recognized statistical rating organization.

(6) *Face amount* means the notional principal, or face value, amount of an off-balance sheet item; the amortized cost of an asset not held for trading purposes; and the fair value of a trading asset.

(7) *Financial asset* means cash or other monetary instrument, evidence of debt, evidence of an ownership interest in an entity, or a contract that conveys a right to receive or exchange cash or another financial instrument from another party.

(8) *Financial standby letter of credit* means a letter of credit or similar arrangement that represents an irrevocable obligation to a third-party beneficiary:

(i) To repay money borrowed by, or advanced to, or for the account of, a second party (the account party); or

(ii) To make payment on behalf of the account party, in the event that the account party fails to fulfill its obligation to the beneficiary.

(9) *Mortgage servicer cash advance* means funds that a residential mortgage servicer advances to ensure an uninterrupted flow of payments, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the loan. A mortgage servicer cash advance is not a recourse obligation or a direct credit substitute if:

(i) The servicer is entitled to full reimbursement and this right is not subordinated to other claims on the cash flows from the underlying asset pool; or

(ii) For any one loan, the servicer's obligation to make nonreimbursable advances is contractually limited to an insignificant amount of the outstanding principal amount of that loan.

(10) *Nationally recognized statistical rating organization (NRSRO)* means an entity recognized by the Division of Market Regulation of the Securities and Exchange Commission (or any successor Division) (Commission) as a nationally recognized statistical rating organization for various purposes, including the Commission's uniform net capital requirements for brokers and dealers.

(11) *Recourse* means a bank's retention, in form or in substance, of any credit risk directly or indirectly associated with an asset it has sold that exceeds a *pro rata* share of that bank's claim on the asset. If a bank has no claim on a sold asset, then the retention of any credit risk is recourse. A recourse obligation typically arises when a bank transfers assets and retains an explicit obligation to repurchase assets or to absorb losses due to a default on the payment of principal or interest or any other deficiency in the performance of the underlying obligor or some other party. Recourse may also exist implicitly if a bank provides credit enhancement beyond any contractual obligation to support assets it has sold. The following are examples of recourse arrangements:

(i) Credit-enhancing representations and warranties made on transferred assets;

(ii) Loan servicing assets retained pursuant to an agreement under which the bank will be responsible for losses associated with the loans serviced. Mortgage servicer cash advances that meet the conditions of section 4(a)(9)(i) and (ii) of this appendix A, are not recourse arrangements;

(iii) Retained subordinated interests that absorb more than their *pro rata* share of losses from the underlying assets;

(iv) Assets sold under an agreement to repurchase, if the assets are not already included on the balance sheet;

(v) Loan strips sold without contractual recourse where the maturity of the transferred portion of the loan is shorter than the maturity of the commitment under which the loan is drawn;

(vi) Credit derivatives issued that absorb more than the bank's *pro rata* share of losses from the transferred assets;

(vii) Clean-up calls. Clean-up calls that are 10% or less of the original pool balance and that are exercisable at the option of the bank are not recourse arrangements; and

(viii) Noneligible asset-backed commercial paper liquidity facilities.

(12) *Residual interest* means any on-balance sheet asset that represents an interest (including a beneficial interest) created by a transfer that qualifies as a sale (in accordance with generally accepted accounting principles) of financial assets, whether

through a securitization or otherwise, and that exposes a bank to any credit risk directly or indirectly associated with the transferred asset that exceeds a *pro rata* share of that bank's claim on the asset, whether through subordination provisions or other credit enhancement techniques. Residual interests generally include credit-enhancing interest-only strips, spread accounts, cash collateral accounts, retained subordinated interests (and other forms of overcollateralization) and similar assets that function as a credit enhancement. Residual interests further include those exposures that, in substance, cause the bank to retain the credit risk of an asset or exposure that had qualified as a residual interest before it was sold. Residual interests generally do not include interests purchased from a third party.

(13) *Risk participation* means a participation in which the originating party remains liable to the beneficiary for the full amount of an obligation (*e.g.* a direct credit substitute) notwithstanding that another party has acquired a participation in that obligation.

(14) *Securitization* means the pooling and repackaging by a special purpose entity of assets or other credit exposures that can be sold to investors. Securitization includes transactions that create stratified credit risk positions whose performance is dependent upon an underlying pool of credit exposures, including loans and commitments.

(15) *Structured finance program* means a program where receivable interests and asset-backed securities issued by multiple participants are purchased by a special purpose entity that repackages those exposures into securities that can be sold to investors. Structured finance programs allocate credit risks, generally, between the participants and credit enhancement provided to the program.

(16) *Traded position* means a position retained, assumed or issued in connection with a securitization that is externally rated, where there is a reasonable expectation that, in the near future, the rating will be relied upon by:

(i) Unaffiliated investors to purchase the position; or

(ii) An unaffiliated third party to enter into a transaction involving the position, such as a purchase, loan or repurchase agreement.

(b) *Credit equivalent amounts and risk weights of recourse obligations and direct credit substitutes*—(1) *Credit-equivalent amount*. Except as otherwise provided, the credit-equivalent amount for a recourse obligation or direct credit substitute is the full amount of the credit-enhanced assets for which the bank directly or indirectly retains or assumes credit risk multiplied by a 100% conversion factor.

(2) *Risk-weight factor*. To determine the bank's risk-weighted assets for off-balance

sheet recourse obligations and direct credit substitutes, the credit equivalent amount is assigned to the risk category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral. For a direct credit substitute that is an on-balance sheet asset (e.g., a purchased subordinated security), a bank must calculate risk-weighted assets using the amount of the direct credit substitute and the full amount of the assets it supports, i.e., all the more senior positions in the structure.

(c) *Credit equivalent amount and risk weight of participations in, and syndications of, direct credit substitutes.* The credit equivalent amount for a participation interest in, or syndication of, a direct credit substitute is calculated and risk weighted as follows:

(1) In the case of a direct credit substitute in which a bank has conveyed a risk participation, the full amount of the assets that are supported by the direct credit substitute is converted to a credit equivalent amount using a 100% conversion factor. The *pro rata* share of the credit equivalent amount that has been conveyed through a risk participation is then assigned to whichever risk-weight category is lower: the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral, or the risk-weight category appropriate to the party acquiring the participation. The *pro rata* share of the credit equivalent amount that has not been participated out is assigned to the risk-weight category appropriate to the obligor after considering any associated guarantees or collateral.

(2) In the case of a direct credit substitute in which the bank has acquired a risk par-

ticipation, the acquiring bank's *pro rata* share of the direct credit substitute is multiplied by the full amount of the assets that are supported by the direct credit substitute and converted using a 100% credit conversion factor. The resulting credit equivalent amount is then assigned to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral.

(3) In the case of a direct credit substitute that takes the form of a syndication where each bank or participating entity is obligated only for its *pro rata* share of the risk and there is no recourse to the originating entity, each bank's credit equivalent amount will be calculated by multiplying only its *pro rata* share of the assets supported by the direct credit substitute by a 100% conversion factor. The resulting credit equivalent amount is then assigned to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral.

(d) *Externally rated positions: credit-equivalent amounts and risk weights—(1) Traded positions.* With respect to a recourse obligation, direct credit substitute, residual interest (other than a credit-enhancing interest-only strip) or asset- or mortgage-backed security that is a "traded position" and that has received an external rating on a long-term position that is one grade below investment grade or better or a short-term position that is investment grade, the bank may multiply the face amount of the position by the appropriate risk weight, determined in accordance with Tables C or D of this appendix A.²⁴ If a traded position receives more than one external rating, the lowest single rating will apply.

TABLE C

Long-term rating category	Examples	Risk weight (In percent)
Highest or second highest investment grade	AAA, AA	20
Third highest investment grade	A	50
Lowest investment grade	BBB	100
One category below investment grade	BB	200

TABLE D

Short-term rating category	Examples	Risk weight (In percent)
Highest investment grade	A-1, P-1	20
Second highest investment grade	A-2, P-2	50
Lowest investment grade	A-3, P-3	100

²⁴ Stripped mortgage-backed securities or other similar instruments, such as interest-only or principal-only strips, that are not

credit enhancing must be assigned to the 100% risk category.

(2) *Non-traded positions.* A recourse obligation, direct credit substitute, residual interest (but not a credit-enhancing interest-only strip) or asset- or mortgage-backed security extended in connection with a securitization that is not a “traded position” may be assigned a risk weight in accordance with section 4(d)(1) of this appendix A if:

- (i) It has been externally rated by more than one NRSRO;
- (ii) It has received an external rating on a long-term position that is one category below investment grade or better or a short-term position that is investment grade by all NRSROs providing a rating;
- (iii) The ratings are publicly available; and
- (iv) The ratings are based on the same criteria used to rate traded positions.

If the ratings are different, the lowest rating will determine the risk category to which the recourse obligation, residual interest or direct credit substitute will be assigned.

(e) *Senior positions not externally rated.* For a recourse obligation, direct credit substitute, residual interest or asset- or mortgage-backed security that is not externally rated but is senior or preferred in all features to a traded position (including collateralization and maturity), a bank may apply a risk weight to the face amount of the senior position in accordance with section 4(d)(1) of this appendix A, based upon the traded position, subject to any current or prospective supervisory guidance and the bank satisfying the OCC that this treatment is appropriate. This section will apply only if the traded position provides substantive credit support to the unrated position until the unrated position matures.

(f) *Residual Interests—(1) Concentration limit on credit-enhancing interest-only strips.* In addition to the capital requirement provided by section 4(f)(2) of this appendix A, a bank must deduct from Tier 1 capital all credit-enhancing interest-only strips in excess of 25 percent of Tier 1 capital in accordance with section 2(c)(2)(iv) of this appendix A.

(2) *Credit-enhancing interest-only strip capital requirement.* After applying the concentration limit to credit-enhancing interest-only strips in accordance with section (f)(1), a bank must maintain risk-based capital for a credit-enhancing interest-only strip equal to the remaining amount of the

credit-enhancing interest-only strip (net of any existing associated deferred tax liability), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred credit-enhancing interest-only strip will be treated as if the credit-enhancing interest-only strip was retained by the bank and not transferred.

(3) *Other residual interests capital requirement.* Except as provided in sections (d) or (e) of this section, a bank must maintain risk-based capital for a residual interest (excluding a credit-enhancing interest-only strip) equal to the face amount of the residual interest that is retained on the balance sheet (net of any existing associated deferred tax liability), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred residual interest will be treated as if the residual interest was retained by the bank and not transferred.

(4) *Residual interests and other recourse obligations.* Where the aggregate capital requirement for residual interests (including credit-enhancing interest-only strips) and recourse obligations arising from the same transfer of assets exceed the full risk-based capital requirement for those assets, a bank must maintain risk-based capital equal to the greater of the risk-based capital requirement for the residual interest as calculated under sections 4(f)(1) through (3) of this appendix A or the full risk-based capital requirement for the assets transferred.

(g) *Positions that are not rated by an NRSRO.* A position (but not a residual interest) extended in connection with a securitization and that is not rated by an NRSRO may be risk-weighted based on the bank’s determination of the credit rating of the position, as specified in Table E of this appendix A, multiplied by the face amount of the position. In order to qualify for this treatment, the bank’s system for determining the credit rating of the position must meet one of the three alternative standards set out in section 4(g)(1)through (3) of this appendix A.

TABLE E

Rating category	Examples	Risk weight (In percent)
Investment grade	BBB, or better	100
One category below investment grade	BB	200

(1) *Internal risk rating used for asset-backed programs.* A direct credit substitute (but not

a purchased credit-enhancing interest-only strip) is assumed by a bank in connection

with an asset-backed commercial paper program sponsored by the bank and the bank is able to demonstrate to the satisfaction of the OCC, prior to relying upon its use, that the bank's internal credit risk rating system is adequate. Adequate internal credit risk rating systems usually contain the following criteria:

(i) The internal credit risk system is an integral part of the bank's risk management system that explicitly incorporates the full range of risks arising from a bank's participation in securitization activities;

(ii) Internal credit ratings are linked to measurable outcomes, such as the probability that the position will experience any loss, the position's expected loss given default, and the degree of variance in losses given default on that position;

(iii) The bank's internal credit risk system must separately consider the risk associated with the underlying loans or borrowers, and the risk associated with the structure of a particular securitization transaction;

(iv) The bank's internal credit risk system must identify gradations of risk among "pass" assets and other risk positions;

(v) The bank must have clear, explicit criteria that are used to classify assets into each internal risk grade, including subjective factors;

(vi) The bank must have independent credit risk management or loan review personnel assigning or reviewing the credit risk ratings;

(vii) An internal audit procedure should periodically verify that internal risk ratings are assigned in accordance with the bank's established criteria.

(viii) The bank must monitor the performance of the internal credit risk ratings assigned to nonrated, nontraded direct credit substitutes over time to determine the appropriateness of the initial credit risk rating assignment and adjust individual credit risk ratings, or the overall internal credit risk ratings system, as needed; and

(ix) The internal credit risk system must make credit risk rating assumptions that are consistent with, or more conservative than, the credit risk rating assumptions and methodologies of NRSROs.

(2) *Program Ratings.* A direct credit substitute or recourse obligation (but not a residual interest) is assumed or retained by a bank in connection with a structured finance program and a NRSRO has reviewed the terms of the program and stated a rating for positions associated with the program. If the program has options for different combinations of assets, standards, internal credit enhancements and other relevant factors, and the NRSRO specifies ranges of rating categories to them, the bank may apply the rating category applicable to the option that corresponds to the bank's position. In order to rely on a program rating, the bank must

demonstrate to the OCC's satisfaction that the credit risk rating assigned to the program meets the same standards generally used by NRSROs for rating traded positions. The bank must also demonstrate to the OCC's satisfaction that the criteria underlying the NRSRO's assignment of ratings for the program are satisfied for the particular position. If a bank participates in a securitization sponsored by another party, the OCC may authorize the bank to use this approach based on a program rating obtained by the sponsor of the program.

(3) *Computer Program.* The bank is using an acceptable credit assessment computer program to determine the rating of a direct credit substitute or recourse obligation (but not a residual interest) extended in connection with a structured finance program. A NRSRO must have developed the computer program and the bank must demonstrate to the OCC's satisfaction that ratings under the program correspond credibly and reliably with the rating of traded positions.

(h) *Limitations on risk-based capital requirements—(1) Low-level exposure rule.* If the maximum contractual exposure to loss retained or assumed by a bank is less than the effective risk-based capital requirement, as determined in accordance with section 4(b) of this appendix A, for the asset supported by the bank's position, the risk based capital required under this appendix A is limited to the bank's contractual exposure, less any recourse liability account established in accordance with generally accepted accounting principles. This limitation does not apply when a bank provides credit enhancement beyond any contractual obligation to support assets that it has sold.

(2) *Related on-balance sheet assets.* If an asset is included in the calculation of the risk-based capital requirement under this section 4 of this appendix A and also appears as an asset on a bank's balance sheet, the asset is risk-weighted only under this section 4 of this appendix A, except in the case of loan servicing assets and similar arrangements with embedded recourse obligations or direct credit substitutes. In that case, both the on-balance sheet servicing assets and the related recourse obligations or direct credit substitutes must both be separately risk weighted and incorporated into the risk-based capital calculation.

(i) *Alternative Capital Calculation for Small Business Obligations—(1) Definitions.* For purposes of this section 4(i):

(i) *Qualified bank* means a bank that:

(A) Is well capitalized as defined in 12 CFR 6.4 without applying the capital treatment described in this section 4(i), or

(B) Is adequately capitalized as defined in 12 CFR 6.4 without applying the capital treatment described in this section 4(i) and has received written permission from the appropriate district office of the OCC to apply

Pt. 3, App. A

12 CFR Ch. I (1–14 Edition)

the capital treatment described in this section 4(i).

(ii) *Recourse* has the meaning given to such term under generally accepted accounting principles.

(iii) *Small business* means a business that meets the criteria for a small business concern established by the Small Business Administration in 13 CFR part 121 pursuant to 15 U.S.C. 632.

(2) *Capital and reserve requirements.* Notwithstanding the risk-based capital treatment outlined in section 2(c)(4) and any other subsection (other than subsection (i)) of this section 4, with respect to a transfer of a small business loan or a lease of personal property with recourse that is a sale under generally accepted accounting principles, a qualified bank may elect to apply the following treatment:

(i) The bank establishes and maintains a non-capital reserve under generally accepted accounting principles sufficient to meet the reasonable estimated liability of the bank under the recourse arrangement; and

(ii) For purposes of calculating the bank's risk-based capital ratio, the bank includes only the face amount of its recourse in its risk-weighted assets.

(3) *Limit on aggregate amount of recourse.* The total outstanding amount of recourse retained by a qualified bank with respect to transfers of small business loans and leases of personal property and included in the risk-weighted assets of the bank as described in section 4(i)(2) of this appendix A may not exceed 15 percent of the bank's total capital after adjustments and deductions, unless the OCC specifies a greater amount by order.

(4) *Bank that ceases to be qualified or that exceeds aggregate limit.* If a bank ceases to be a qualified bank or exceeds the aggregate limit in section 4(i)(3) of this appendix A, the bank may continue to apply the capital treatment described in section 4(i)(2) of this appendix A to transfers of small business loans and leases of personal property that occurred when the bank was qualified and did not exceed the limit.

(5) *Prompt Corrective Action not affected.* (i) A bank shall compute its capital without regard to this section 4(i) for purposes of prompt corrective action (12 U.S.C. 1831o and 12 CFR part 6) unless the bank is an adequately or well capitalized bank (without applying the capital treatment described in this section 4(i)) and, after applying the capital treatment described in this section 4(i), the bank would be well capitalized.

(ii) A bank shall compute its capital without regard to this section 4(i) for purposes of 12 U.S.C. 1831o(g) regardless of the bank's capital level.

Section 5. Optional transition provisions related to the implementation of consolidation requirements under FAS 167.

(a) This section 5 provides optional transition provisions for a national bank that is required for financial and regulatory reporting purposes, as a result of its implementation of Statement of Financial Accounting Standards No. 167, *Amendments to FASB Interpretation No. 46(R)* (FAS 167), to consolidate certain variable interest entities (VIEs) as defined under United States generally accepted accounting principles (GAAP). These transition provisions apply through the end of the fourth quarter following the date of a bank's implementation of FAS 167 (implementation date).

(b) *Exclusion period.* (1) *Exclusion of risk-weighted assets for the first and second quarters.* For the first two quarters after the implementation date (exclusion period), including for the two calendar quarter-end regulatory report dates within those quarters, a bank may exclude from risk-weighted assets:

(i) Subject to the limitations in paragraph (d) of this section 5, assets held by a VIE, provided that the following conditions are met:

(A) The VIE existed prior to the implementation date;

(B) The bank did not consolidate the VIE on its balance sheet for calendar quarter-end regulatory report dates prior to the implementation date;

(C) The bank must consolidate the VIE on its balance sheet beginning as of the implementation date as a result of its implementation of FAS 167; and

(D) The bank excludes all assets held by VIEs described in paragraphs (b)(1)(i)(A) through (C) of this section 5; and

(ii) Subject to the limitations of paragraph (d) of this section 5, assets held by a VIE that is a consolidated asset-backed commercial paper (ABCP) program, provided that the following conditions are met:

(A) The bank is the sponsor of the ABCP program;

(B) Prior to the implementation date, the bank consolidated the VIE onto its balance sheet under GAAP and excluded the VIE's assets from the bank's risk-weighted assets; and

(C) The bank chooses to exclude all assets held by ABCP program VIEs described in paragraphs (b)(1)(ii)(A) and (B) of this section 5.

(2) *Risk-weighted assets during exclusion period.* During the exclusion period, including the two calendar quarter-end regulatory report dates within the exclusion period, a bank adopting the optional provisions of this paragraph (b) of this section 5 must calculate risk-weighted assets for its contractual exposures to the VIEs referenced in paragraph (b)(1) of this section 5 on the implementation

date and include this calculated amount in its risk-weighted assets. Such contractual exposures may include direct-credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans.

(3) *Inclusion of ALLL in Tier 2 capital for the first and second quarters.* During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a bank that excludes VIE assets from risk-weighted assets pursuant to paragraph (b)(1) of this section may include in Tier 2 capital the full amount of the allowance for loan and lease losses (ALLL) calculated as of the implementation date that is attributable to the assets it excludes pursuant to paragraph (b)(1) of this section 5 (inclusion amount). The amount of ALLL includable in Tier 2 capital in accordance with this paragraph shall not be subject to the limitations set forth in section 2(b)(1) of this appendix A.

(c) *Phase-in period.* (1) *Exclusion amount.* For purposes of this paragraph (c), exclusion amount is defined as the amount of risk-weighted assets excluded in paragraph (b)(1) of this section as of the implementation date.

(2) *Risk-weighted assets during the third and fourth quarters.* A bank that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (b)(1) of this section may, for the third and fourth quarters after the implementation date (phase-in period), including for the two calendar quarter-end regulatory report dates within those quarters, exclude from risk-weighted assets 50 percent of the exclusion amount, provided that the bank may not include in risk-weighted assets pursuant to this paragraph an amount less than the aggregate risk-weighted assets calculated pursuant to paragraph (b)(2) of this section.

(3) *Inclusion of ALLL in Tier 2 capital during the third and fourth quarters.* A bank that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (c)(2) of this section may, for the phase-in period, include in Tier 2 capital 50 percent of the inclusion amount it included in Tier 2 capital during the exclusion period, notwithstanding the limit on including ALLL in Tier 2 capital in section 2(b)(1) of this appendix A.

(d) *Implicit recourse limitation.* Notwithstanding any other provision in this section 5, assets held by a VIE to which the bank has provided recourse through credit enhancement beyond any contractual obligation to support assets it has sold may not be excluded from risk-weighted assets.

[54 FR 4177, Jan. 27, 1989]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting appendix A to part 3 of title 12, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

APPENDIX B TO PART 3—RISK-BASED CAPITAL GUIDELINES; MARKET RISK

Section 1	Purpose, Applicability, and Reservation of Authority
Section 2	Definitions
Section 3	Requirements for Application of the Market Risk Capital Rule
Section 4	Adjustments to the Risk-Based Capital Ratio Calculations
Section 5	VaR-based Measure
Section 6	Stressed VaR-based Measure
Section 7	Specific Risk
Section 8	Incremental Risk
Section 9	Comprehensive Risk
Section 10	Standardized Measurement Method for Specific Risk
Section 11	Simplified Supervisory Formula Approach
Section 12	Market Risk Disclosures

Section 1. Purpose, Applicability, and Reservation of Authority

(a) *Purpose.* This appendix establishes risk-based capital requirements for banks with significant exposure to market risk and provides methods for these banks to calculate their risk-based capital requirements for market risk. This appendix supplements and adjusts the risk-based capital calculations under appendix A to this part and appendix C to this part and establishes public disclosure requirements.

(b) *Applicability.* (1) This appendix applies to any bank with aggregate trading assets and trading liabilities (as reported in the bank's most recent quarterly Consolidated Reports of Condition and Income (Call Report)), equal to:

- (i) 10 percent or more of quarter-end total assets as reported on the most recent quarterly Call Report; or
- (ii) \$1 billion or more.

(2) The OCC may apply this appendix to any bank if the OCC deems it necessary or appropriate because of the level of market risk of the bank or to ensure safe and sound banking practices.

(3) The OCC may exclude a bank that meets the criteria of paragraph (b)(1) of this section from application of this appendix if the OCC determines that the exclusion is appropriate based on the level of market risk of the bank and is consistent with safe and sound banking practices.

(c) *Reservation of authority.* (1) The OCC may require a bank to hold an amount of capital greater than otherwise required under this appendix if the OCC determines that the bank's capital requirement for market risk as calculated under this appendix is not commensurate with the market risk of the bank's covered positions. In making determinations under paragraphs (c)(1) through (c)(3) of this section, the OCC will apply notice and response procedures generally in the

same manner as the notice and response procedures set forth in [12 CFR 3.12, 12 CFR 263.202, 12 CFR 325.6(c), 12 CFR 567.3(d)].

(2) If the OCC determines that the risk-based capital requirement calculated under this appendix by the bank for one or more covered positions or portfolios of covered positions is not commensurate with the risks associated with those positions or portfolios, the OCC may require the bank to assign a different risk-based capital requirement to the positions or portfolios that more accurately reflects the risk of the positions or portfolios.

(3) The OCC may also require a bank to calculate risk-based capital requirements for specific positions or portfolios under this appendix, or under appendix C to this part or appendix A to this part, as appropriate, to more accurately reflect the risks of the positions.

(4) Nothing in this appendix limits the authority of the OCC under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

Section 2. Definitions

For purposes of this appendix, the following definitions apply:

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Backtesting means the comparison of a bank's internal estimates with actual outcomes during a sample period not used in model development. For purposes of this appendix, backtesting is one form of out-of-sample testing.

Bank holding company is defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)).

Commodity position means a position for which price risk arises from changes in the price of a commodity.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control A person or company controls a company if it:

(1) Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or

(2) Consolidates the company for financial reporting purposes.

Corporate debt position means a debt position that is an exposure to a company that is not a sovereign entity, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multilateral development bank, a depository institution, a foreign bank, a credit union, a public sector

entity, a government-sponsored entity, or a securitization.

Correlation trading position means:

(1) A securitization position for which all or substantially all of the value of the underlying exposures is based on the credit quality of a single company for which a two-way market exists, or on commonly traded indices based on such exposures for which a two-way market exists on the indices; or

(2) A position that is not a securitization position and that hedges a position described in paragraph (1) of this definition; and

(3) A correlation trading position does not include:

(i) A resecuritization position;

(ii) A derivative of a securitization position that does not provide a pro rata share in the proceeds of a securitization tranche; or

(iii) A securitization position for which the underlying assets or reference exposures are retail exposures, residential mortgage exposures, or commercial mortgage exposures.

Country risk classification (CRC) for a sovereign entity means the consensus CRC published from time to time by the Organization for Economic Cooperation and Development that provides a view of the likelihood that the sovereign entity will service its external debt.

Covered position means the following positions:

(1) A trading asset or trading liability (whether on- or off-balance sheet),⁴³ as reported on Schedule RC-D of the Call Report or Schedule HC-D of the FR Y-9C, that meets the following conditions:

(i) The position is a trading position or hedges another covered position;⁴⁴ and

(ii) The position is free of any restrictive covenants on its tradability or the bank is able to hedge the material risk elements of the position in a two-way market;

(2) A foreign exchange or commodity position, regardless of whether the position is a trading asset or trading liability (excluding any structural foreign currency positions that the bank chooses to exclude with prior supervisory approval); and

(3) Notwithstanding paragraphs (1) and (2) of this definition, a covered position does not include:

(i) An intangible asset, including any servicing asset;

(ii) Any hedge of a trading position that the OCC determines to be outside the scope of the bank's hedging strategy required in paragraph (a)(2) of section 3 of this appendix;

⁴³Securities subject to repurchase and lending agreements are included as if they are still owned by the lender.

⁴⁴A position that hedges a trading position must be within the scope of the bank's hedging strategy as described in paragraph (a)(2) of section 3 of this appendix.

(iii) Any position that, in form or substance, acts as a liquidity facility that provides support to asset-backed commercial paper;

(iv) A credit derivative the bank recognizes as a guarantee for risk-weighted asset amount calculation purposes under appendix C to this part or appendix A to this part;

(v) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity;

(vi) Any position a bank holds with the intent to securitize; or

(vii) Any direct real estate holding.

Credit derivative means a financial contract executed under standard industry documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider).

Credit union means an insured credit union as defined under the Federal Credit Union Act (12 U.S.C. 1752).

Default by a sovereign entity means non-compliance by the sovereign entity with its external debt service obligations or the inability or unwillingness of a sovereign entity to service an existing obligation according to its original contractual terms, as evidenced by failure to pay principal and interest timely and fully, arrearages, or restructuring.

Debt position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in interest rates or credit spreads.

Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

Equity position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in equity prices.

Event risk means the risk of loss on equity or hybrid equity positions as a result of a financial event, such as the announcement or occurrence of a company merger, acquisition, spin-off, or dissolution.

Foreign bank means a foreign bank as defined in §211.2 of the Federal Reserve Board's Regulation K (12 CFR 211.2), other than a depository institution.

Foreign exchange position means a position for which price risk arises from changes in foreign exchange rates.

General market risk means the risk of loss that could result from broad market movements, such as changes in the general level of interest rates, credit spreads, equity prices, foreign exchange rates, or commodity prices.

General obligation means a bond or similar obligation that is guaranteed by the full

faith and credit of states or other political subdivisions of a sovereign entity.

Government-sponsored entity (GSE) means an entity established or chartered by the U.S. government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. government.

Hedge means a position or positions that offset all, or substantially all, of one or more material risk factors of another position.

Idiosyncratic risk means the risk of loss in the value of a position that arises from changes in risk factors unique to that position.

Incremental risk means the default risk and credit migration risk of a position. Default risk means the risk of loss on a position that could result from the failure of an obligor to make timely payments of principal or interest on its debt obligation, and the risk of loss that could result from bankruptcy, insolvency, or similar proceeding. Credit migration risk means the price risk that arises from significant changes in the underlying credit quality of the position.

Investment grade means that the entity to which the bank is exposed through a loan or security, or the reference entity with respect to a credit derivative, has adequate capacity to meet financial commitments for the projected life of the asset or exposure. Such an entity or reference entity has adequate capacity to meet financial commitments if the risk of its default is low and the full and timely repayment of principal and interest is expected.

Market risk means the risk of loss on a position that could result from movements in market prices.

Multilateral development bank means the International Bank for Reconstruction and Development, the Multilateral Investment Guarantee Agency, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the OCC determines poses comparable credit risk.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Over-the-counter (OTC) derivative means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.

Public sector entity (PSE) means a state, local authority, or other governmental subdivision below the sovereign entity level.

Publicly traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question.

Qualifying securities borrowing transaction means a cash-collateralized securities borrowing transaction that meets the following conditions:

(1) The transaction is based on liquid and readily marketable securities;

(2) The transaction is marked-to-market daily;

(3) The transaction is subject to daily margin maintenance requirements; and

(4)(i) The transaction is a securities contract for the purposes of section 555 of the Bankruptcy Code (11 U.S.C. 555), a qualified financial contract for the purposes of section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions for the purposes of sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Board's Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria in paragraph (4)(i) of this definition, either:

(A) The bank has conducted sufficient legal review to reach a well-founded conclusion that:

(1) The securities borrowing agreement executed in connection with the transaction provides the bank the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default, including in a bankruptcy, insolvency, or other similar proceeding of the counterparty; and

(2) Under applicable law of the relevant jurisdiction, its rights under the agreement are legal, valid, binding, and enforceable and any exercise of rights under the agreement will not be stayed or avoided; or

(B) The transaction is either overnight or unconditionally cancelable at any time by the bank, and the bank has conducted sufficient legal review to reach a well-founded conclusion that:

(1) The securities borrowing agreement executed in connection with the transaction provides the bank the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default; and

(2) Under the law governing the agreement, its rights under the agreement are legal, valid, binding, and enforceable.

Resecuritization means a securitization in which one or more of the underlying exposures is a securitization position.

Resecuritization position means a covered position that is:

(1) An on- or off-balance sheet exposure to a resecuritization; or

(2) An exposure that directly or indirectly references a resecuritization exposure in paragraph (1) of this definition.

Revenue obligation means a bond or similar obligation, including loans and leases, that is an obligation of a state or other political subdivision of a sovereign entity, but for which the government entity is committed to repay with revenues from the specific project financed rather than with general tax funds.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches that reflect different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) For non-synthetic securitizations, the underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682); and

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24 (Eleventh).

(8) The OCC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a securitization based on the transaction's leverage, risk profile, or economic substance.

(9) The OCC may deem an exposure to a transaction that meets the definition of a securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a securitization based on the transaction's leverage, risk profile, or economic substance.

Comptroller of the Currency, Treasury

Pt. 3, App. B

Securitization position means a covered position that is:

(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a securitization (including a resecuritization); or

(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Sovereign debt position means a direct exposure to a sovereign entity.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign of incorporation means the country where an entity is incorporated, chartered, or similarly established.

Specific risk means the risk of loss on a position that could result from factors other than broad market movements and includes event risk, default risk, and idiosyncratic risk.

Structural position in a foreign currency means a position that is not a trading position and that is:

(1) Subordinated debt, equity, or minority interest in a consolidated subsidiary that is denominated in a foreign currency;

(2) Capital assigned to foreign branches that is denominated in a foreign currency;

(3) A position related to an unconsolidated subsidiary or another item that is denominated in a foreign currency and that is deducted from the bank's tier 1 and tier 2 capital; or

(4) A position designed to hedge a bank's capital ratios or earnings against the effect on paragraphs (1), (2), or (3) of this definition of adverse exchange rate movements.

Term repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the bank acts as agent for a customer and indemnifies the customer against loss, that has an original maturity in excess of one business day, provided that:

(1) The transaction is based solely on liquid and readily marketable securities or cash;

(2) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;

(3) The transaction is executed under an agreement that provides the bank the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of default (including bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be

stayed or avoided under applicable law in the relevant jurisdictions;⁴⁵ and

(4) The bank has conducted and documented sufficient legal review to conclude with a well-founded basis that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Tier 1 capital is defined in appendix A to this part or appendix C to this part, as applicable.

Tier 2 capital is defined in appendix A to this part or appendix C to this part, as applicable.

Trading position means a position that is held by the bank for the purpose of short-term resale or with the intent of benefiting from actual or expected short-term price movements, or to lock in arbitrage profits.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Underlying exposure means one or more exposures that have been securitized in a securitization transaction.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more positions could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Section 3. Requirements for Application of the Market Risk Capital Rule

(a) *Trading positions.* (1) *Identification of trading positions.* A bank must have clearly defined policies and procedures for determining which of its trading assets and trading liabilities are trading positions and which of its trading positions are correlation trading positions. These policies and procedures must take into account:

(i) The extent to which a position, or a hedge of its material risks, can be marked-

⁴⁵This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute "securities contracts" or "repurchase agreements" under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or netting contracts between or among financial institutions under sections 401-407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4407), or the Federal Reserve Board's Regulation EE (12 CFR part 231).

to-market daily by reference to a two-way market; and

(i) Possible impairments to the liquidity of a position or its hedge.

(2) *Trading and hedging strategies.* A bank must have clearly defined trading and hedging strategies for its trading positions that are approved by senior management of the bank.

(i) The trading strategy must articulate the expected holding period of, and the market risk associated with, each portfolio of trading positions.

(ii) The hedging strategy must articulate for each portfolio of trading positions the level of market risk the bank is willing to accept and must detail the instruments, techniques, and strategies the bank will use to hedge the risk of the portfolio.

(b) *Management of covered positions.* (1) *Active management.* A bank must have clearly defined policies and procedures for actively managing all covered positions. At a minimum, these policies and procedures must require:

(i) Marking positions to market or to model on a daily basis;

(ii) Daily assessment of the bank's ability to hedge position and portfolio risks, and of the extent of market liquidity;

(iii) Establishment and daily monitoring of limits on positions by a risk control unit independent of the trading business unit;

(iv) Daily monitoring by senior management of information described in paragraphs (b)(1)(i) through (b)(1)(iii) of this section;

(v) At least annual reassessment of established limits on positions by senior management; and

(vi) At least annual assessments by qualified personnel of the quality of market inputs to the valuation process, the soundness of key assumptions, the reliability of parameter estimation in pricing models, and the stability and accuracy of model calibration under alternative market scenarios.

(2) *Valuation of covered positions.* The bank must have a process for prudent valuation of its covered positions that includes policies and procedures on the valuation of positions, marking positions to market or to model, independent price verification, and valuation adjustments or reserves. The valuation process must consider, as appropriate, unearned credit spreads, close-out costs, early termination costs, investing and funding costs, liquidity, and model risk.

(c) *Requirements for internal models.* (1) A bank must obtain the prior written approval of the OCC before using any internal model to calculate its risk-based capital requirement under this appendix.

(2) A bank must meet all of the requirements of this section on an ongoing basis. The bank must promptly notify the OCC when:

(i) The bank plans to extend the use of a model that the OCC has approved under this appendix to an additional business line or product type;

(ii) The bank makes any change to an internal model approved by the OCC under this appendix that would result in a material change in the bank's risk-weighted asset amount for a portfolio of covered positions; or

(iii) The bank makes any material change to its modeling assumptions.

(3) The OCC may rescind its approval of the use of any internal model (in whole or in part) or of the determination of the approach under section 9(a)(2)(ii) of this appendix for a bank's modeled correlation trading positions and determine an appropriate capital requirement for the covered positions to which the model would apply, if the OCC determines that the model no longer complies with this appendix or fails to reflect accurately the risks of the bank's covered positions.

(4) The bank must periodically, but no less frequently than annually, review its internal models in light of developments in financial markets and modeling technologies, and enhance those models as appropriate to ensure that they continue to meet the OCC's standards for model approval and employ risk measurement methodologies that are most appropriate for the bank's covered positions.

(5) The bank must incorporate its internal models into its risk management process and integrate the internal models used for calculating its VaR-based measure into its daily risk management process.

(6) The level of sophistication of a bank's internal models must be commensurate with the complexity and amount of its covered positions. A bank's internal models may use any of the generally accepted approaches, including but not limited to variance-covariance models, historical simulations, or Monte Carlo simulations, to measure market risk.

(7) The bank's internal models must properly measure all the material risks in the covered positions to which they are applied.

(8) The bank's internal models must conservatively assess the risks arising from less liquid positions and positions with limited price transparency under realistic market scenarios.

(9) The bank must have a rigorous and well-defined process for re-estimating, re-evaluating, and updating its internal models to ensure continued applicability and relevance.

(10) If a bank uses internal models to measure specific risk, the internal models must also satisfy the requirements in paragraph (b)(1) of section 7 of this appendix.

(d) *Control, oversight, and validation mechanisms.* (1) The bank must have a risk control

unit that reports directly to senior management and is independent from the business trading units.

(2) The bank must validate its internal models initially and on an ongoing basis. The bank's validation process must be independent of the internal models' development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the internal models;

(ii) An ongoing monitoring process that includes verification of processes and the comparison of the bank's model outputs with relevant internal and external data sources or estimation techniques; and

(iii) An outcomes analysis process that includes backtesting. For internal models used to calculate the VaR-based measure, this process must include a comparison of the changes in the bank's portfolio value that would have occurred were end-of-day positions to remain unchanged (therefore, excluding fees, commissions, reserves, net interest income, and intraday trading) with VaR-based measures during a sample period not used in model development.

(3) The bank must stress test the market risk of its covered positions at a frequency appropriate to each portfolio, and in no case less frequently than quarterly. The stress tests must take into account concentration risk (including but not limited to concentrations in single issuers, industries, sectors, or markets), illiquidity under stressed market conditions, and risks arising from the bank's trading activities that may not be adequately captured in its internal models.

(4) The bank must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the bank's market risk measurement systems, including the activities of the business trading units and independent risk control unit, compliance with policies and procedures, and calculation of the bank's measures for market risk under this appendix. At least annually, the internal audit function must report its findings to the bank's board of directors (or a committee thereof).

(e) *Internal assessment of capital adequacy.* The bank must have a rigorous process for assessing its overall capital adequacy in relation to its market risk. The assessment must take into account risks that may not be captured fully in the VaR-based measure, including concentration and liquidity risk under stressed market conditions.

(f) *Documentation.* The bank must adequately document all material aspects of its internal models, management and valuation of covered positions, control, oversight, vali-

dation and review processes and results, and internal assessment of capital adequacy.

Section 4. Adjustments to the Risk-Based Capital Ratio Calculations

(a) *Risk-based capital ratio denominators.* A bank must calculate its general risk-based capital ratio denominator by following the steps described in paragraphs (a)(1) through (a)(4) of this section. A bank subject to appendix C to this part must use its general risk-based capital ratio denominator for purposes of determining its total risk-based capital ratio and its tier 1 risk-based capital ratio under section 3(a)(2)(ii) and section 3(a)(3)(ii), respectively, of appendix C to this part, provided that the bank may not use the supervisory formula approach (SFA) in section 10(b)(2)(vii)(B) of this appendix for purposes of this calculation. A bank subject to appendix C to this part also must calculate an advanced risk-based capital ratio denominator by following the steps in paragraphs (a)(1) through (a)(4) of this section for purposes of determining its total risk-based capital ratio and its tier 1 risk-based capital ratio under sections 3(a)(2)(i) and section 3(a)(3)(i), respectively, of appendix C to this part.

(1) *Adjusted risk-weighted assets.* (i) The bank must calculate:

(A) General adjusted risk-weighted assets, which equals risk-weighted assets as determined in accordance with appendix A to this part with the adjustments in paragraphs (a)(1)(ii) and, if applicable, (a)(1)(iii) of this section; and

(B) For a bank subject to appendix C to this part, advanced adjusted risk-weighted assets, which equal risk-weighted assets as determined in accordance with appendix C to this part with the adjustments in paragraph (a)(1)(ii) of this section.

(ii) For purposes of calculating its general and advanced adjusted risk-weighted assets under paragraphs (a)(1)(i)(A) and (a)(1)(i)(B) of this section, respectively, the bank must exclude the risk-weighted asset amounts of all covered positions (except foreign exchange positions that are not trading positions and over-the-counter derivative positions).

(iii) For purposes of calculating its general adjusted risk-weighted assets under paragraph (a)(1)(i)(A) of this section, a bank may exclude receivables that arise from the posting of cash collateral and are associated with qualifying securities borrowing transactions to the extent the receivable is collateralized by the market value of the borrowed securities.

(2) *Measure for market risk.* The bank must calculate the general measure for market risk (except, as provided in paragraph (a) of this section, that the bank may not use the SFA in section 10(b)(2)(vii)(B) of this appendix for purposes of this calculation), which

equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for *de minimis* exposures all as defined under this paragraph (a)(2). A bank subject to appendix C to this part also must calculate the advanced measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for *de minimis* exposures as defined under this paragraph (a)(2).

(i) *VaR-based capital requirement.* A bank's VaR-based capital requirement equals the greater of:

(A) The previous day's VaR-based measure as calculated under section 5 of this appendix; or

(B) The average of the daily VaR-based measures as calculated under section 5 of this appendix for each of the preceding 60 business days multiplied by three, except as provided in paragraph (b) of this section.

(ii) *Stressed VaR-based capital requirement.* A bank's stressed VaR-based capital requirement equals the greater of:

(A) The most recent stressed VaR-based measure as calculated under section 6 of this appendix; or

(B) The average of the stressed VaR-based measures as calculated under section 6 of this appendix for each of the preceding 12 weeks multiplied by three, except as provided in paragraph (b) of this section.

(iii) *Specific risk add-ons.* A bank's specific risk add-ons equal any specific risk add-ons that are required under section 7 of this appendix and are calculated in accordance with section 10 of this appendix.

(iv) *Incremental risk capital requirement.* A bank's incremental risk capital requirement equals any incremental risk capital requirement as calculated under section 8 of this appendix.

(v) *Comprehensive risk capital requirement.* A bank's comprehensive risk capital requirement equals any comprehensive risk capital requirement as calculated under section 9 of this appendix.

(vi) *Capital requirement for de minimis exposures.* A bank's capital requirement for *de minimis* exposures equals:

(A) The absolute value of the market value of those *de minimis* exposures that are not captured in the bank's VaR-based measure or under paragraph (a)(2)(vi)(B) of this section; and

(B) With the prior written approval of the OCC, the capital requirement for any *de minimis* exposures using alternative techniques that appropriately measure the market risk associated with those exposures.

(3) *Market risk equivalent assets.* The bank must calculate general market risk equivalent assets as the general measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5. A bank subject to appendix C to this part also must calculate advanced market risk equivalent assets as the advanced measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5.

(4) *Denominator calculation.* (i) The bank must add general market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to general adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank's general risk-based capital ratio denominator.

(ii) A bank subject to appendix C to this part must add advanced market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to advanced adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank's advanced risk-based capital ratio denominator.

(b) *Backtesting.* A bank must compare each of its most recent 250 business days' trading losses (excluding fees, commissions, reserves, net interest income, and intraday trading) with the corresponding daily VaR-based measures calibrated to a one-day holding period and at a one-tail, 99.0 percent confidence level. A bank must begin backtesting as required by this paragraph no later than one year after the later of January 1, 2013, and the date on which the bank becomes subject to this appendix. In the interim, consistent with safety and soundness principles, a bank subject to this appendix as of its effective date should continue to follow backtesting procedures in accordance with the OCC's supervisory expectations.

(1) Once each quarter, the bank must identify the number of exceptions (that is, the number of business days for which the actual daily net trading loss, if any, exceeds the corresponding daily VaR-based measure) that have occurred over the preceding 250 business days.

(2) A bank must use the multiplication factor in table 1 of this appendix that corresponds to the number of exceptions identified in paragraph (b)(1) of this section to determine its VaR-based capital requirement for market risk under paragraph (a)(2)(i) of this section and to determine its stressed VaR-based capital requirement for market risk under paragraph (a)(2)(ii) of this section until it obtains the next quarter's backtesting results, unless the OCC notifies the bank in writing that a different adjustment or other action is appropriate.

TABLE 1—MULTIPLICATION FACTORS BASED ON RESULTS OF BACKTESTING

Number of exceptions	Multiplication factor
4 or fewer	3.00
5	3.40
6	3.50
7	3.65
8	3.75
9	3.85
10 or more	4.00

Section 5. VaR-Based Measure

(a) *General requirement.* A bank must use one or more internal models to calculate daily a VaR-based measure of the general market risk of all covered positions. The daily VaR-based measure also may reflect the bank's specific risk for one or more portfolios of debt and equity positions, if the internal models meet the requirements of paragraph (b)(1) of section 7 of this appendix. The daily VaR-based measure must also reflect the bank's specific risk for any portfolio of correlation trading positions that is modeled under section 9 of this appendix. A bank may elect to include term repo-style transactions in its VaR-based measure, provided that the bank includes all such term repo-style transactions consistently over time.

(1) The bank's internal models for calculating its VaR-based measure must use risk factors sufficient to measure the market risk inherent in all covered positions. The market risk categories must include, as appropriate, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk. For material positions in the major currencies and markets, modeling techniques must incorporate enough segments of the yield curve—in no case less than six—to capture differences in volatility and less than perfect correlation of rates along the yield curve.

(2) The VaR-based measure may incorporate empirical correlations within and across risk categories, provided the bank validates and demonstrates the reasonableness of its process for measuring correlations. If the VaR-based measure does not incorporate empirical correlations across risk categories, the bank must add the separate measures from its internal models used to calculate the VaR-based measure for the appropriate market risk categories (interest rate risk, credit spread risk, equity price risk, foreign exchange rate risk, and/or commodity price risk) to determine its aggregate VaR-based measure.

(3) The VaR-based measure must include the risks arising from the nonlinear price characteristics of options positions or positions with embedded optionality and the sensitivity of the market value of the positions

to changes in the volatility of the underlying rates, prices, or other material risk factors. A bank with a large or complex options portfolio must measure the volatility of options positions or positions with embedded optionality by different maturities and/or strike prices, where material.

(4) The bank must be able to justify to the satisfaction of the OCC the omission of any risk factors from the calculation of its VaR-based measure that the bank uses in its pricing models.

(5) The bank must demonstrate to the satisfaction of the OCC the appropriateness of any proxies used to capture the risks of the bank's actual positions for which such proxies are used.

(b) *Quantitative requirements for VaR-based measure.* (1) The VaR-based measure must be calculated on a daily basis using a one-tail, 99.0 percent confidence level, and a holding period equivalent to a 10-business-day movement in underlying risk factors, such as rates, spreads, and prices. To calculate VaR-based measures using a 10-business-day holding period, the bank may calculate 10-business-day measures directly or may convert VaR-based measures using holding periods other than 10 business days to the equivalent of a 10-business-day holding period. A bank that converts its VaR-based measure in such a manner must be able to justify the reasonableness of its approach to the satisfaction of the OCC.

(2) The VaR-based measure must be based on a historical observation period of at least one year. Data used to determine the VaR-based measure must be relevant to the bank's actual exposures and of sufficient quality to support the calculation of risk-based capital requirements. The bank must update data sets at least monthly or more frequently as changes in market conditions or portfolio composition warrant. For a bank that uses a weighting scheme or other method for the historical observation period, the bank must either:

(i) Use an effective observation period of at least one year in which the average time lag of the observations is at least six months; or

(ii) Demonstrate to the OCC that its weighting scheme is more effective than a weighting scheme with an average time lag of at least six months representing the volatility of the bank's trading portfolio over a full business cycle. A bank using this option must update its data more frequently than monthly and in a manner appropriate for the type of weighting scheme.

(c) A bank must divide its portfolio into a number of significant subportfolios approved by the OCC for subportfolio backtesting purposes. These subportfolios must be sufficient to allow the bank and the OCC to assess the adequacy of the VaR model at the risk factor level; the OCC will evaluate the appropriateness of these subportfolios relative to the

value and composition of the bank's covered positions. The bank must retain and make available to the OCC the following information for each subportfolio for each business day over the previous two years (500 business days), with no more than a 60-day lag:

- (1) A daily VaR-based measure for the subportfolio calibrated to a one-tail, 99.0 percent confidence level;
- (2) The daily profit or loss for the subportfolio (that is, the net change in price of the positions held in the portfolio at the end of the previous business day); and
- (3) The p-value of the profit or loss on each day (that is, the probability of observing a profit that is less than, or a loss that is greater than, the amount reported for purposes of paragraph (c)(2) of this section based on the model used to calculate the VaR-based measure described in paragraph (c)(1) of this section).

Section 6. Stressed VaR-Based Measure

(a) *General requirement.* At least weekly, a bank must use the same internal model(s) used to calculate its VaR-based measure to calculate a stressed VaR-based measure.

(b) *Quantitative requirements for stressed VaR-based measure.* (1) A bank must calculate a stressed VaR-based measure for its covered positions using the same model(s) used to calculate the VaR-based measure, subject to the same confidence level and holding period applicable to the VaR-based measure under section 5 of this appendix, but with model inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the bank's current portfolio.

(2) The stressed VaR-based measure must be calculated at least weekly and be no less than the bank's VaR-based measure.

(3) A bank must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the bank's stressed VaR-based measure under this section and must be able to provide empirical support for the period used. The bank must obtain the prior approval of the OCC for, and notify the OCC if the bank makes any material changes to, these policies and procedures. The policies and procedures must address:

(i) How the bank links the period of significant financial stress used to calculate the stressed VaR-based measure to the composition and directional bias of its current portfolio; and

(ii) The bank's process for selecting, reviewing, and updating the period of significant financial stress used to calculate the stressed VaR-based measure and for monitoring the appropriateness of the period to the bank's current portfolio.

(4) Nothing in this section prevents the OCC from requiring a bank to use a different period of significant financial stress in the

calculation of the stressed VaR-based measure.

Section 7. Specific Risk

(a) *General requirement.* A bank must use one of the methods in this section to measure the specific risk for each of its debt, equity, and securitization positions with specific risk.

(b) *Modeled specific risk.* A bank may use models to measure the specific risk of covered positions as provided in paragraph (a) of section 5 of this appendix (therefore, excluding securitization positions that are not modeled under section 9 of this appendix). A bank must use models to measure the specific risk of correlation trading positions that are modeled under section 9 of this appendix.

(1) *Requirements for specific risk modeling.* (i) If a bank uses internal models to measure the specific risk of a portfolio, the internal models must:

(A) Explain the historical price variation in the portfolio;

(B) Be responsive to changes in market conditions;

(C) Be robust to an adverse environment, including signaling rising risk in an adverse environment; and

(D) Capture all material components of specific risk for the debt and equity positions in the portfolio. Specifically, the internal models must:

(1) Capture event risk and idiosyncratic risk;

(2) Capture and demonstrate sensitivity to material differences between positions that are similar but not identical and to changes in portfolio composition and concentrations.

(ii) If a bank calculates an incremental risk measure for a portfolio of debt or equity positions under section 8 of this appendix, the bank is not required to capture default and credit migration risks in its internal models used to measure the specific risk of those portfolios.

(2) *Specific risk fully modeled for one or more portfolios.* If the bank's VaR-based measure captures all material aspects of specific risk for one or more of its portfolios of debt, equity, or correlation trading positions, the bank has no specific risk add-on for those portfolios for purposes of paragraph (a)(2)(iii) of section 4 of this appendix.

(c) *Specific risk not modeled.*

(1) If the bank's VaR-based measure does not capture all material aspects of specific risk for a portfolio of debt, equity, or correlation trading positions, the bank must calculate a specific-risk add-on for the portfolio under the standardized measurement method as described in section 10 of this appendix.

(2) A bank must calculate a specific risk add-on under the standardized measurement

method as described in section 10 of this appendix for all of its securitization positions that are not modeled under section 9 of this appendix.

Section 8. Incremental Risk

(a) *General requirement.* A bank that measures the specific risk of a portfolio of debt positions under section 7(b) of this appendix using internal models must calculate at least weekly an incremental risk measure for that portfolio according to the requirements in this section. The incremental risk measure is the bank's measure of potential losses due to incremental risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions. With the prior approval of the OCC, a bank may choose to include portfolios of equity positions in its incremental risk model, provided that it consistently includes such equity positions in a manner that is consistent with how the bank internally measures and manages the incremental risk of such positions at the portfolio level. If equity positions are included in the model, for modeling purposes default is considered to have occurred upon the default of any debt of the issuer of the equity position. A bank may not include correlation trading positions or securitization positions in its incremental risk measure.

(b) *Requirements for incremental risk modeling.* For purposes of calculating the incremental risk measure, the incremental risk model must:

(1) Measure incremental risk over a one-year time horizon and at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(i) A constant level of risk assumption means that the bank rebalances, or rolls over, its trading positions at the beginning of each liquidity horizon over the one-year horizon in a manner that maintains the bank's initial risk level. The bank must determine the frequency of rebalancing in a manner consistent with the liquidity horizons of the positions in the portfolio. The liquidity horizon of a position or set of positions is the time required for a bank to reduce its exposure to, or hedge all of its material risks of, the position(s) in a stressed market. The liquidity horizon for a position or set of positions may not be less than the shorter of three months or the contractual maturity of the position.

(ii) A constant position assumption means that the bank maintains the same set of positions throughout the one-year horizon. If a bank uses this assumption, it must do so consistently across all portfolios.

(iii) A bank's selection of a constant position or a constant risk assumption must be consistent between the bank's incremental

risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(iv) A bank's treatment of liquidity horizons must be consistent between the bank's incremental risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(2) Recognize the impact of correlations between default and migration events among obligors.

(3) Reflect the effect of issuer and market concentrations, as well as concentrations that can arise within and across product classes during stressed conditions.

(4) Reflect netting only of long and short positions that reference the same financial instrument.

(5) Reflect any material mismatch between a position and its hedge.

(6) Recognize the effect that liquidity horizons have on dynamic hedging strategies. In such cases, a bank must:

(i) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(ii) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(iii) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(iv) Capture in the incremental risk model any residual risks arising from such hedging strategies.

(7) Reflect the nonlinear impact of options and other positions with material nonlinear behavior with respect to default and migration changes.

(8) Maintain consistency with the bank's internal risk management methodologies for identifying, measuring, and managing risk.

(c) *Calculation of incremental risk capital requirement.* The incremental risk capital requirement is the greater of:

(1) The average of the incremental risk measures over the previous 12 weeks; or

(2) The most recent incremental risk measure.

Section 9. Comprehensive Risk

(a) *General requirement.* (1) Subject to the prior approval of the OCC, a bank may use the method in this section to measure comprehensive risk, that is, all price risk, for one or more portfolios of correlation trading positions.

(2) A bank that measures the price risk of a portfolio of correlation trading positions using internal models must calculate at least weekly a comprehensive risk measure that captures all price risk according to the requirements of this section. The comprehensive risk measure is either:

(i) The sum of:

(A) The bank's modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; and

(B) A surcharge for the bank's modeled correlation trading positions equal to the total specific risk add-on for such positions as calculated under section 10 of this appendix multiplied by 8.0 percent; or

(i) With approval of the OCC and provided the bank has met the requirements of this section for a period of at least one year and can demonstrate the effectiveness of the model through the results of ongoing model validation efforts including robust benchmarking, the greater of:

(A) The bank's modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; or

(B) The total specific risk add-on that would apply to the bank's modeled correlation trading positions as calculated under section 10 of this appendix multiplied by 8.0 percent.

(b) *Requirements for modeling all price risk.* If a bank uses an internal model to measure the price risk of a portfolio of correlation trading positions:

(1) The internal model must measure comprehensive risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(2) The model must capture all material price risk, including but not limited to the following:

(i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures;

(ii) Credit spread risk, including nonlinear price risks;

(iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations;

(iv) Basis risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a bank must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies;

(3) The bank must use market data that are relevant in representing the risk profile of the bank's correlation trading positions in order to ensure that the bank fully captures the material risks of the correlation trading positions in its comprehensive risk measure in accordance with this section; and

(4) The bank must be able to demonstrate that its model is an appropriate representation of comprehensive risk in light of the historical price variation of its correlation trading positions.

(c) *Requirements for stress testing.*

(1) A bank must at least weekly apply specific, supervisory stress scenarios to its portfolio of correlation trading positions that capture changes in:

(i) Default rates;

(ii) Recovery rates;

(iii) Credit spreads;

(iv) Correlations of underlying exposures; and

(v) Correlations of a correlation trading position and its hedge.

(2) Other requirements. (i) A bank must retain and make available to the OCC the results of the supervisory stress testing, including comparisons with the capital requirements generated by the bank's comprehensive risk model.

(ii) A bank must report to the OCC promptly any instances where the stress tests indicate any material deficiencies in the comprehensive risk model.

(d) *Calculation of comprehensive risk capital requirement.* The comprehensive risk capital requirement is the greater of:

(1) The average of the comprehensive risk measures over the previous 12 weeks; or

(2) The most recent comprehensive risk measure.

Section 10. Standardized Measurement Method for Specific Risk

(a) *General requirement.* A bank must calculate a total specific risk add-on for each portfolio of debt and equity positions for which the bank's VaR-based measure does not capture all material aspects of specific risk and for all securitization positions that are not modeled under section 9 of this appendix. A bank must calculate each specific risk add-on in accordance with the requirements of this section. Notwithstanding any other definition or requirement in this appendix, a position that would have qualified as a debt position or an equity position but for the fact that it qualifies as a correlation trading position under paragraph (2) of the definition of correlation trading position, shall be considered a debt position or an equity position, respectively, for purposes of this section 10.

(1) The specific risk add-on for an individual debt or securitization position that represents sold credit protection is capped at the notional amount of the credit derivative contract. The specific risk add-on for an individual debt or securitization position that represents purchased credit protection is capped at the current market value of the transaction plus the absolute value of the present value of all remaining payments to the protection seller under the transaction. This sum is equal to the value of the protection leg of the transaction.

(2) For debt, equity, or securitization positions that are derivatives with linear payoffs, a bank must assign a specific risk-weighting factor to the market value of the effective notional amount of the underlying instrument or index portfolio, except for a securitization position for which the bank directly calculates a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section. A swap must be included as an effective notional position in the underlying instrument or portfolio, with the receiving side treated as a long position and the paying side treated as a short position. For debt, equity, or securitization positions that are derivatives with nonlinear payoffs, a bank must risk weight the market value of the effective notional amount of the underlying instrument or portfolio multiplied by the derivative's delta.

(3) For debt, equity, or securitization positions, a bank may net long and short positions (including derivatives) in identical issues or identical indices. A bank may also net positions in depository receipts against an opposite position in an identical equity in different markets, provided that the bank includes the costs of conversion.

(4) A set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge has a specific risk add-on of zero if:

(i) The debt or securitization position is fully hedged by a total return swap (or similar instrument where there is a matching of swap payments and changes in market value of the debt or securitization position);

(ii) There is an exact match between the reference obligation of the swap and the debt or securitization position;

(iii) There is an exact match between the currency of the swap and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the swap and the maturity date of the debt or securitization position; or, in cases where a total return swap references a portfolio of positions with different maturity dates, the total return swap maturity date must match the maturity date of the underlying asset in that portfolio that has the latest maturity date.

(5) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of paragraph (a)(4) of this section is equal to 20.0 percent of the capital requirement for the side of the transaction with the higher specific risk add-on when:

(i) The credit risk of the position is fully hedged by a credit default swap or similar instrument;

(ii) There is an exact match between the reference obligation of the credit derivative hedge and the debt or securitization position;

(iii) There is an exact match between the currency of the credit derivative hedge and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the credit derivative hedge and the maturity date of the debt or securitization position; or, in the case where the credit derivative hedge has a standard maturity date:

(A) The maturity date of the credit derivative hedge is within 30 business days of the maturity date of the debt or securitization position; or

(B) For purchased credit protection, the maturity date of the credit derivative hedge is later than the maturity date of the debt or securitization position, but is no later than the standard maturity date for that instrument that immediately follows the maturity date of the debt or securitization position. The maturity date of the credit derivative hedge may not exceed the maturity date of the debt or securitization position by more than 90 calendar days.

(6) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of either paragraph (a)(4) or (a)(5) of this section, but in which all or substantially all of the price risk has been hedged, is equal to the specific risk add-on for the side of the transaction with the higher specific risk add-on.

(b) *Debt and securitization positions.* (1) The total specific risk add-on for a portfolio of debt or securitization positions is the sum of the specific risk add-ons for individual debt or securitization positions, as computed under this section. To determine the specific risk add-on for individual debt or securitization positions, a bank must multiply the absolute value of the current market value of each net long or net short debt or securitization position in the portfolio by the appropriate specific risk-weighting factor as set forth in paragraphs (b)(2)(i) through (b)(2)(vii) of this section.

(2) For the purpose of this section, the appropriate specific risk-weighting factors include:

(i) *Sovereign debt positions.* (A) *In general.* A bank must assign a specific risk-weighting factor to a sovereign debt position based on the CRC applicable to the sovereign entity

and, as applicable, the remaining contractual maturity of the position, in accordance with table 2. Sovereign debt positions that are backed by the full faith and credit of the United States are treated as having a CRC of 0.

TABLE 2—SPECIFIC RISK-WEIGHTING FACTORS FOR SOVEREIGN DEBT POSITIONS

		Specific risk-weighting factor	Percent
CRC of Sovereign	0–1		0.0
	2–3	Remaining contractual maturity of 6 months or less.	0.25
		Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
		Remaining contractual maturity exceeds 24 months.	1.6
	4–6		8.0
7		12.0	
No CRC			8.0
Default by the Sovereign Entity			12.0

(B) Notwithstanding paragraph (b)(2)(i)(A) of this section, a bank may assign to a sovereign debt position a specific risk-weighting factor that is lower than the applicable specific risk-weighting factor in table 2 if:

(1) The position is denominated in the sovereign entity’s currency;

(2) The bank has at least an equivalent amount of liabilities in that currency; and

(3) The sovereign entity allows banks under its jurisdiction to assign the lower specific risk-weighting factor to the same exposures to the sovereign entity.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a sovereign debt position immediately upon determination that a default has occurred; or if a default has occurred within the previous five years.

(D) A bank must assign an 8.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign entity does not have a CRC assigned to it, unless the sovereign debt position must be assigned a higher specific risk-weighting factor under paragraph (b)(2)(i)(C) of this section.

(ii) *Certain supranational entity and multilateral development bank debt positions.* A bank may assign a 0.0 percent specific risk-weighting factor to a debt position that is an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(iii) *GSE debt positions.* A bank must assign a 1.6 percent specific risk-weighting factor to a debt position that is an exposure to a GSE. Notwithstanding the foregoing, a bank must assign an 8.0 percent specific risk-weighting factor to preferred stock issued by a GSE.

(iv) *Depository institution, foreign bank, and credit union debt positions.* (A) Except as provided in paragraph (b)(2)(iv)(B) of this section, a bank must assign a specific risk-weighting factor to a debt position that is an exposure to a depository institution, a foreign bank, or a credit union using the specific risk-weighting factor that corresponds to that entity’s sovereign of incorporation and, as applicable, the remaining contractual maturity of the position, in accordance with table 3.

TABLE 3—SPECIFIC RISK-WEIGHTING FACTORS FOR DEPOSITORY INSTITUTION, FOREIGN BANK, AND CREDIT UNION DEBT POSITIONS

		Specific risk-weighting factor	Percent
CRC of Sovereign	0–2	Remaining contractual maturity of 6 months or less.	0.25
		Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0

TABLE 3—SPECIFIC RISK-WEIGHTING FACTORS FOR DEPOSITORY INSTITUTION, FOREIGN BANK, AND CREDIT UNION DEBT POSITIONS—Continued

		Remaining contractual maturity exceeds 24 months.	1.6
	3		8.0
	4-7		12.0
No CRC			8.0
Default by the Sovereign Entity			12.0

(B) A bank must assign a specific risk-weighting factor of 8.0 percent to a debt position that is an exposure to a depository institution or a foreign bank that is includable in the depository institution's or foreign bank's regulatory capital and that is not subject to deduction as a reciprocal holding under the appendix A to this part.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a debt position that is an exposure to a foreign bank immediately upon determination that a default by the foreign bank's sovereign of incorporation has occurred or if a default by the foreign bank's sovereign of incorporation has occurred within the previous five years.

(v) *PSE debt positions.* (A) Except as provided in paragraph (b)(2)(v)(B) of this section, a bank must assign a specific risk-weighting factor to a debt position that is an exposure to a PSE based on the specific risk-weighting factor that corresponds to the PSE's sovereign of incorporation and to the

position's categorization as a general obligation or revenue obligation and, as applicable, the remaining contractual maturity of the position, as set forth in tables 4 and 5.

(B) A bank may assign a lower specific risk-weighting factor than would otherwise apply under tables 4 and 5 to a debt position that is an exposure to a foreign PSE if:

(1) The PSE's sovereign of incorporation allows banks under its jurisdiction to assign a lower specific risk-weighting factor to such position; and

(2) The specific risk-weighting factor is not lower than the risk weight that corresponds to the PSE's sovereign of incorporation in accordance with tables 4 and 5.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a PSE debt position immediately upon determination that a default by the PSE's sovereign of incorporation has occurred or if a default by the PSE's sovereign of incorporation has occurred within the previous five years.

TABLE 4—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE GENERAL OBLIGATION DEBT POSITIONS

		General obligation specific risk-weighting factor (in percent)	Percent
CRC of Sovereign	0-2	Remaining contractual maturity of 6 months or less.	0.25
		Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
		Remaining contractual maturity exceeds 24 months.	1.6
	3		8.0
	4-7		12.0
No CRC			8.0
Default by the Sovereign Entity			12.0

TABLE 5—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE REVENUE OBLIGATION DEBT POSITIONS

		Revenue obligation specific risk-weighting factor	Percent
		Remaining contractual maturity of 6 months or less.	0.25

TABLE 5—SPECIFIC RISK-WEIGHTING FACTORS FOR PSE REVENUE OBLIGATION DEBT POSITIONS—Continued

CRC of Sovereign	0–1	Remaining contractual maturity of greater than 6 and up to and including 24 months.	1.0
		Remaining contractual maturity exceeds 24 months.	1.6
	2–3		8.0
	4–7		12.0
No CRC			8.0
Default by the Sovereign Entity			12.0

(vi) *Corporate debt positions.* Except as otherwise provided in paragraph (b)(2)(vi)(B), a bank must assign a specific risk-weighting factor to a corporate debt position in accordance with the investment grade methodology in paragraph (b)(2)(vi)(A) of this section.

(A) *Investment grade methodology.* (1) For corporate debt positions that are exposures to entities that have issued and outstanding

publicly traded instruments, a bank must assign a specific risk-weighting factor based on the category and remaining contractual maturity of the position, in accordance with table 6. For purposes of this paragraph (A), the bank must determine whether the position is in the investment grade or not investment grade category.

TABLE 6—SPECIFIC RISK-WEIGHTING FACTORS FOR CORPORATE DEBT POSITIONS UNDER THE INVESTMENT GRADE METHODOLOGY

Category	Remaining contractual maturity	Specific risk-weighting factor (in percent)
Investment Grade	6 months or less	0.50
	Greater than 6 and up to and including 24 months	2.00
	Greater than 24 months	4.00
Not-investment Grade		12.00

(2) A bank must assign an 8.0 percent specific risk-weighting factor for corporate debt positions that are exposures to entities that do not have publicly traded instruments outstanding.

(B) *Limitations.* (1) A bank must assign a specific risk-weighting factor of at least 8.0 percent to an interest-only mortgage-backed security that is not a securitization position.

(2) A bank shall not assign a corporate debt position a specific risk-weighting factor that is lower than the specific risk-weighting factor that corresponds to the CRC of the issuer's sovereign of incorporation in table 1.

(vii) *Securitization positions.* (A) *General requirements.* (1) A bank that does not use the appendix C to this part must assign a specific risk-weighting factor to a securitization position using either the simplified supervisory formula approach (SSFA) in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(2) A bank that uses appendix C to this part must calculate a specific risk add-on for a securitization position using the SFA in

section 45 of appendix C to this part and in accordance with paragraph (b)(2)(vii)(B) of this section if the bank and the securitization position each qualifies to use the SFA under appendix C to this part. A bank that uses appendix C to this part and that has a securitization position that does not qualify for the SFA may assign a specific risk-weighting factor to the securitization position using the SSFA in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(3) A bank must treat a short securitization position as if it is a long securitization position solely for calculation purposes when using the SFA in paragraph (b)(2)(vii)(B) or the SSFA in section 11 of this appendix.

(B) *SFA.* To calculate the specific risk add-on for a securitization position using the SFA, a bank that is subject to appendix C to this part must set the specific risk add-on for the position equal to the risk-based capital requirement, calculated under section 45 of appendix C to this part.

(C) *SSFA*. To use the SSFA to determine the specific risk-weighting factor for a securitization position, a bank must calculate the specific risk-weighting factor in accordance with section 11 of this appendix.

(D) *Nth-to-default credit derivatives*. A bank must determine a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B), or assign a specific risk-weighting factor using the SSFA in section 11 of this appendix to an nth-to-default credit derivative in accordance with this paragraph (D), irrespective of whether the bank is a net protection buyer or net protection seller. A bank must determine its position in the nth-to-default credit derivative as the largest notional dollar amount of all the underlying exposures.

(1) For purposes of determining the specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) or the specific risk-weighting factor for an nth-to-default credit derivative using the SSFA in section 11 of this appendix, the bank must calculate the attachment point and detachment point of its position as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the bank's position to the total notional amount of all underlying exposures. For purposes of using the SFA to calculate the specific add-on for its position in an nth-to-default credit derivative, parameter A must be set equal to the *credit enhancement level (L)* input to the SFA formula. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the bank's position. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) notional amounts of the underlying exposure(s) are subordinated to the bank's position.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the bank's position in the nth-to-default credit derivative to the total notional amount of all underlying exposures. For purposes of using the SFA to calculate the specific risk add-on for its position in an nth-to-default credit derivative, parameter D must be set to equal L plus the *thickness of tranche (T)* input to the SFA formula.

(2) A bank that does not use the SFA to determine a specific risk-add on, or the SSFA to determine a specific risk-weighting factor for its position in an nth-to-default credit derivative must assign a specific risk-weighting factor of 100 percent to the position.

(c) *Modeled correlation trading positions*. For purposes of calculating the comprehensive risk measure for modeled correlation trading positions under either paragraph (a)(2)(i) or (a)(2)(ii) of section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank's specific risk add-ons for each net long correlation trading position calculated under this section; or

(2) The sum of the bank's specific risk add-ons for each net short correlation trading position calculated under this section.

(d) *Non-modeled securitization positions*. For securitization positions that are not correlation trading positions and for securitizations that are correlation trading positions not modeled under section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank's specific risk add-ons for each net long securitization position calculated under this section; or

(2) The sum of the bank's specific risk add-ons for each net short securitization position calculated under this section.

(e) *Equity positions*. The total specific risk add-on for a portfolio of equity positions is the sum of the specific risk add-ons of the individual equity positions, as computed under this section. To determine the specific risk add-on of individual equity positions, a bank must multiply the absolute value of the current market value of each net long or net short equity position by the appropriate specific risk-weighting factor as determined under this paragraph:

(1) The bank must multiply the absolute value of the current market value of each net long or net short equity position by a specific risk-weighting factor of 8.0 percent. For equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the absolute value of the current market value of each net long or net short position is multiplied by a specific risk-weighting factor of 2.0 percent.⁴⁶

(2) For equity positions arising from the following futures-related arbitrage strategies, a bank may apply a 2.0 percent specific risk-weighting factor to one side (long or short) of each position with the opposite side exempt from an additional capital requirement:

(i) Long and short positions in exactly the same index at different dates or in different market centers; or

(ii) Long and short positions in index contracts at the same date in different, but similar indices.

(3) For futures contracts on main indices that are matched by offsetting positions in a basket of stocks comprising the index, a bank may apply a 2.0 percent specific risk-weighting factor to the futures and stock basket positions (long and short), provided that such trades are deliberately entered into and separately controlled, and that the

⁴⁶ A portfolio is well-diversified if it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio's total market value.

basket of stocks is comprised of stocks representing at least 90.0 percent of the capitalization of the index. A main index refers to the Standard & Poor's 500 Index, the FTSE All-World Index, and any other index for which the bank can demonstrate to the satisfaction of the OCC that the equities represented in the index have liquidity, depth of market, and size of bid-ask spreads comparable to equities in the Standard & Poor's 500 Index and FTSE All-World Index.

(f) *Due diligence requirements.* (1) A bank must demonstrate to the satisfaction of the OCC a comprehensive understanding of the features of a securitization position that would materially affect the performance of the position by conducting and documenting the analysis set forth in paragraph (f)(2) of this section. The bank's analysis must be commensurate with the complexity of the securitization position and the materiality of the position in relation to capital.

(2) To support the demonstration of its comprehensive understanding, for each securitization position a bank must:

(i) Conduct an analysis of the risk characteristics of a securitization position prior to acquiring the position and document such analysis within three business days after acquiring the position, considering:

(A) Structural features of the securitization that would materially impact the performance of the position, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, market value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For resecuritization positions, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an on-going basis (no less frequently than quarterly), evaluate, review, and update as appropriate the analysis required under paragraph (f)(1) of this section for each securitization position.

Section 11. Simplified Supervisory Formula Approach

(a) *General requirements.* To use the SSFA to determine the specific risk-weighting factor for a securitization position, a bank must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data and no more than 91 calendar days old. A bank that does not have the appropriate data to assign the parameters described and defined, for purposes of this section, in paragraph (b) of this section must assign a specific risk-weighting factor of 100 percent to the position.

(b) *SSFA parameters.* To calculate the specific risk-weighting factor for a securitization position using the SSFA, a bank must have accurate information on the five inputs to the SSFA calculation described in paragraphs (b)(1) through (b)(5) of this section:

(1) K_G is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using appendix A to this part. K_G is expressed as a decimal value between zero and 1 (that is, an average risk weight of 100 percent represents a value of K_G equal to .08).

(2) Parameter W is expressed as a decimal value between zero and one. Parameter W is the ratio of the sum of the dollar amounts of any underlying exposures within the securitized pool that meet any of the criteria as set forth in paragraphs (i) through (vi) of this paragraph (b)(2) to the ending balance, measured in dollars, of underlying exposures:

- (i) Ninety days or more past due;
- (ii) Subject to a bankruptcy or insolvency proceeding;
- (iii) In the process of foreclosure;
- (iv) Held as real estate owned;
- (v) Has contractually deferred interest payments for 90 days or more; or
- (vi) Is in default.

(3) Parameter A is the attachment point for the position, which represents the threshold at which credit losses will first be allocated to the position. Parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the position of the bank to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the position that contains the bank's securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the position, which represents the threshold at which credit losses of principal allocated to the position would result in a total loss of principal. Parameter D equals parameter A plus the ratio of the current dollar amount of the securitization positions that are *pari passu* with the position (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p , is equal to 0.5 for securitization positions that are not resecuritization positions and equal to 1.5 for resecuritization positions.

(c) *Mechanics of the SSFA.* K_G and W are used to calculate K_A , the augmented value of K_G , which reflects the observed credit quality of the underlying pool of exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the specific risk-weighting factor assigned to a position as described in this paragraph and paragraph (d) of this section.

The specific risk-weighting factor assigned to a securitization position, or portion of a position, as appropriate, is the larger of the specific risk-weighting factor determined in accordance with this paragraph and paragraph (d) of this section and a specific risk-weighting factor of 1.6 percent.

(1) When the detachment point, parameter D, for a securitization position is less than or equal to K_A , the position must be assigned a specific risk-weighting factor of 100 percent.

(2) When the attachment point, parameter A, for a securitization position is greater than or equal to K_A , the bank must calculate the specific risk-weighting factor in accordance with paragraph (d) of this section.

(3) When A is less than K_A and D is greater than K_A , the specific risk-weighting factor is a weighted-average of 1.00 and K_{SSFA} calculated in accordance with paragraph (d) of this section, but with the parameter A revised to be set equal to K_A . For the purpose of this weighted-average calculation:

(i) The weight assigned to 1.00 equals $\frac{K_A - A}{D - A}$.

(ii) The weight assigned to K_{SSFA} equals $\frac{D - K_A}{D - A}$. The specific risk-weighting

factor will be set equal to:

$$SRWF = 100 \times \left[\left(\frac{K_A - A}{D - A} \right) \times 1.00 \right] + \left[\left(\frac{D - K_A}{D - A} \right) \times K_{SSFA} \right]$$

(d) SSFA equation. (1) The [bank] must define the following parameters:

$$K_A = (1 - W) \cdot K_G + (0.5 \cdot W)$$

$$a = -\frac{1}{p \cdot K_A}$$

$$u = D - K_A$$

$$l = A - K_A$$

$e = 2.71828$, the base of the natural logarithms.

(2) Then the [bank] must calculate K_{SSFA} according to the following equation:

$$K_{SSFA} = \frac{e^{au} - e^{al}}{a(u-l)}$$

(3) The specific risk-weighting factor for the position (expressed as a percent) is

equal to $K_{SSFA} \times 100$.

Section 12. Market Risk Disclosures

(a) *Scope.* A bank must comply with this section unless it is a consolidated subsidiary of a bank holding company or a depository institution that is subject to these requirements or of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. A bank must make quantitative disclosures publicly each calendar quarter. If a significant change occurs, such that the most recent reporting amounts are no longer reflective of the bank's capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each

quarter may be disclosed annually, provided any significant changes are disclosed in the interim. If a bank believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public certain information that is either proprietary or confidential in nature, the bank is not required to disclose these specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

(b) *Disclosure policy.* The bank must have a formal disclosure policy approved by the board of directors that addresses the bank's approach for determining its market risk

disclosures. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management must ensure that appropriate verification of the disclosures takes place and that effective internal controls and disclosure controls and procedures are maintained. One or more senior officers of the bank must attest that the disclosures meet the requirements of this appendix, and the board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this section.

(c) *Quantitative disclosures.*

(1) For each material portfolio of covered positions, the bank must disclose publicly the following information at least quarterly:

(i) The high, low, and mean VaR-based measures over the reporting period and the VaR-based measure at period-end;

(ii) The high, low, and mean stressed VaR-based measures over the reporting period and the stressed VaR-based measure at period-end;

(iii) The high, low, and mean incremental risk capital requirements over the reporting period and the incremental risk capital requirement at period-end;

(iv) The high, low, and mean comprehensive risk capital requirements over the reporting period and the comprehensive risk capital requirement at period-end, with the period-end requirement broken down into appropriate risk classifications (for example, default risk, migration risk, correlation risk);

(v) Separate measures for interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk used to calculate the VaR-based measure; and

(vi) A comparison of VaR-based estimates with actual gains or losses experienced by the bank, with an analysis of important outliers.

(2) In addition, the bank must disclose publicly the following information at least quarterly:

(i) The aggregate amount of on-balance sheet and off-balance sheet securitization positions by exposure type; and

(ii) The aggregate amount of correlation trading positions.

(d) *Qualitative disclosures.* For each material portfolio of covered positions, the bank must disclose publicly the following information at least annually, or more frequently in the event of material changes for each portfolio:

(1) The composition of material portfolios of covered positions;

(2) The bank's valuation policies, procedures, and methodologies for covered positions including, for securitization positions,

the methods and key assumptions used for valuing such positions, any significant changes since the last reporting period, and the impact of such change;

(3) The characteristics of the internal models used for purposes of this appendix. For the incremental risk capital requirement and the comprehensive risk capital requirement, this must include:

(i) The approach used by the bank to determine liquidity horizons;

(ii) The methodologies used to achieve a capital assessment that is consistent with the required soundness standard; and

(iii) The specific approaches used in the validation of these models;

(4) A description of the approaches used for validating and evaluating the accuracy of internal models and modeling processes for purposes of this appendix;

(5) For each market risk category (that is, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk), a description of the stress tests applied to the positions subject to the factor;

(6) The results of the comparison of the bank's internal estimates for purposes of this appendix with actual outcomes during a sample period not used in model development;

(7) The soundness standard on which the bank's internal capital adequacy assessment under this appendix is based, including a description of the methodologies used to achieve a capital adequacy assessment that is consistent with the soundness standard;

(8) A description of the bank's processes for monitoring changes in the credit and market risk of securitization positions, including how those processes differ for resecuritization positions; and

(8) A description of the bank's policy governing the use of credit risk mitigation to mitigate the risks of securitization and resecuritization positions.

Subpart A—Organization and Functions

§ 4.1 Purpose.

This subpart describes the organization and functions of the Office of the Comptroller of the Currency (OCC), and provides the OCC's principal addresses.

§ 4.2 Office of the Comptroller of the Currency.

The OCC is charged with assuring the safety and soundness of, and compliance with laws and regulations, fair access to financial services, and fair treatment of customers by, the institutions and other persons subject to its jurisdiction. The OCC examines, supervises, and regulates national banks, Federal branches and agencies of foreign banks, and Federal savings associations to carry out this mission. The OCC also issues rules and regulations applicable to state savings associations.

[76 FR 43561, July 21, 2011]

§ 4.3 Comptroller of the Currency.

The Comptroller of the Currency (Comptroller), as head of the OCC, is responsible for all OCC programs and functions. The Comptroller is appointed by the President, by and with the advice and consent of the Senate, for a term of five years. The Comptroller serves as a member of the board of the Federal Deposit Insurance Corporation, a member of the Financial Stability Oversight Council, a member of the Federal Financial Institutions Examination Council, and a member of

Comptroller of the Currency, Treasury

§ 4.6

the board of the Neighborhood Reinvestment Corporation. The Comptroller is advised and assisted by OCC staff, who perform the duties and functions that the Comptroller directs.

[60 FR 57322, Nov. 15, 1995, as amended at 76 FR 43561, July 21, 2011]

§ 4.4 Washington office and web site.

The Washington office of the OCC is the main office and headquarters of the OCC. The Washington office directs OCC policy, oversees OCC operations, and is responsible for the direct supervision of certain national banks and Federal savings associations, including the largest national banks and the largest Federal savings associations (through the Large Bank Supervision Department); other national banks and Federal savings associations requiring special supervision; and Federal

branches and agencies of foreign banks (through the Large Bank Supervision Department). The Washington office is located at 250 E Street, SW., Washington, DC 20219. The OCC's Web site is at <http://www.occ.gov>.

[76 FR 43561, July 21, 2011]

§ 4.5 District and field offices.

(a) *District offices.* Each district office of the OCC is responsible for the direct supervision of the national banks and Federal savings associations in its district, with the exception of the national banks and Federal savings associations supervised by the Washington office. The four district offices cover the United States, Puerto Rico, the Virgin Islands, Guam, and the Northern Mariana Islands. The office address and the geographical composition of each district follows:

District	Office address	Geographical composition
North-eastern District.	Office of the Comptroller of the Currency, 340 Madison Avenue, 5th Floor, New York, NY 10173-0002.	Connecticut, Delaware, District of Columbia, northeast Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, Vermont, the Virgin Islands, Virginia, and West Virginia.
Central District.	Office of the Comptroller of the Currency, One Financial Place, Suite 2700, 440 South LaSalle Street, Chicago, IL 60605.	Illinois, Indiana, central and southern Kentucky, Michigan, Minnesota, eastern Missouri, North Dakota, Ohio, and Wisconsin.
Southern District.	Office of the Comptroller of the Currency, 500 North Akard Street, Suite 1600, Dallas, TX 75201.	Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, Tennessee, and Texas.
Western District.	Office of the Comptroller of the Currency, 1225 17th Street, Suite 300, Denver, CO 80202.	Alaska, Arizona, California, Colorado, Hawaii, Idaho, Iowa, Kansas, western Missouri, Montana, Nebraska, Nevada, New Mexico, Northern Mariana Islands, Oregon, South Dakota, Utah, Washington, Wyoming, and Guam.

(b) *Field offices and duty stations.* Field offices and duty stations support the bank and savings association supervisory responsibilities of the district offices.

[60 FR 57322, Nov. 15, 1995, as amended at 73 FR 22236, Apr. 24, 2008; 76 FR 43561, July 21, 2011]

§ 4.6 Frequency of examination of national banks and Federal savings associations.

(a) *General.* The OCC examines national banks and Federal savings associations pursuant to authority conferred by 12 U.S.C. 481 (with respect to national banks) and 1463(a)(1) and 1464 (with respect to Federal savings associations) and the requirements of 12

U.S.C. 1820(d) (with respect to national banks and Federal savings associations). The OCC is required to conduct a full-scope, on-site examination of every national bank and Federal savings association at least once during each 12-month period.

(b) *18-month rule for certain small institutions.* The OCC may conduct a full-scope, on-site examination of a national bank or a Federal savings association at least once during each 18-month period, rather than each 12-month period as provided in paragraph (a) of this section, if the following conditions are satisfied:

(1) The bank or Federal savings association has total assets of less than \$500 million;

§ 4.7

12 CFR Ch. I (1–14 Edition)

(2) The bank or Federal savings association is well capitalized as defined in part 6 of this chapter;

(3) At the most recent examination,:

(i) The bank or Federal savings association was assigned a rating of 1 or 2 for management as part of the bank's or association's rating under the Uniform Financial Institutions Rating System; and

(ii) The bank or Federal savings association was assigned a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System.

(4) The bank or Federal savings association currently is not subject to a formal enforcement proceeding or order by the FDIC, OCC, OTS or the Federal Reserve System; and

(5) No person acquired control of the bank or Federal savings association during the preceding 12-month period in which a full-scope, on-site examination would have been required but for this section.

(c) *Authority to conduct more frequent examinations.* This section does not limit the authority of the OCC to examine any national bank or Federal savings association as frequently as the agency deems necessary.

[63 FR 16380, Apr. 2, 1998, as amended at 72 FR 17802, Apr. 10, 2007; 76 FR 43561, July 21, 2011]

§ 4.7 Frequency of examination of Federal agencies and branches.

(a) *General.* The OCC examines Federal agencies and Federal branches (as these entities are defined in § 28.11 (g) and (h), respectively, of this chapter) pursuant to the authority conferred by 12 U.S.C. 3105(c)(1)(C). Except as noted in paragraph (b) of this section, the OCC will conduct a full-scope, on-site examination of every Federal branch and agency at least once during each 12-month period.

(b) *18-month rule for certain small institutions—(1) Mandatory standards.* The OCC may conduct a full-scope, on-site examination at least once during each 18-month period, rather than each 12-month period as provided in paragraph (a) of this section, if the Federal branch or agency:

(i) Has total assets of less than \$500 million;

(ii) Has received a composite ROCA supervisory rating (which rates risk management, operational controls, compliance, and asset quality) of 1 or 2 at its most recent examination;

(iii) Satisfies the requirements of either the following paragraph (b)(1)(iii) (A) or (B):

(A) The foreign bank's most recently reported capital adequacy position consists of, or is equivalent to, Tier 1 and total risk-based capital ratios of at least 6 percent and 10 percent, respectively, on a consolidated basis; or

(B) The branch or agency has maintained on a daily basis, over the past three quarters, eligible assets in an amount not less than 108 percent of the preceding quarter's average third party liabilities (determined consistent with applicable federal and state law), and sufficient liquidity is currently available to meet its obligations to third parties;

(iv) Is not subject to a formal enforcement action or order by the Federal Reserve Board, the Federal Deposit Insurance Corporation, or the OCC; and

(v) Has not experienced a change in control during the preceding 12-month period in which a full-scope, on-site examination would have been required but for this section.

(2) *Discretionary standards.* In determining whether a Federal branch or agency that meets the standards of paragraph (b)(1) of this section should not be eligible for an 18-month examination cycle pursuant to this paragraph (b), the OCC may consider additional factors, including whether:

(i) Any of the individual components of the ROCA rating of the Federal branch or agency is rated "3" or worse;

(ii) The results of any off-site supervision indicate a deterioration in the condition of the Federal branch or agency;

(iii) The size, relative importance, and role of a particular office when reviewed in the context of the foreign bank's entire U.S. operations otherwise necessitate an annual examination; and

(iv) The condition of the foreign bank gives rise to such a need.

(c) *Authority to conduct more frequent examinations.* Nothing in paragraph (a)

Comptroller of the Currency, Treasury

§ 4.12

or (b) of this section limits the authority of the OCC to examine any Federal branch or agency as frequently as the OCC deems necessary.

[63 FR 46120, Aug. 28, 1998, as amended at 64 FR 56952, Oct. 22, 1999; 72 FR 17802, Apr. 10, 2007; 76 FR 43561, July 21, 2011]

Subpart B—Availability of Information Under the Freedom of Information Act

§ 4.11 Purpose and scope.

(a) *Purpose.* This subpart sets forth the standards, policies, and procedures that the OCC applies in administering the Freedom of Information Act (FOIA) (5 U.S.C. 552) to facilitate the OCC's interaction with the banking and savings association industries and the public.

(b) *Scope.* (1) This subpart describes the information that the FOIA requires the OCC to disclose to the public (§ 4.12), and the three methods by which the OCC discloses that information under the FOIA (§§ 4.13, 4.14, and 4.15).

(2) This subpart also sets forth predisclosure notice procedures that the OCC follows, in accordance with Executive Order 12600 (3 CFR, 1987 Comp., p. 235), when the OCC receives a request under § 4.15 for disclosure of records that arguably are exempt from disclosure as confidential commercial information (§ 4.16). Finally, this subpart describes the fees that the OCC assesses for the services it renders in providing information under the FOIA (§ 4.17).

(3) This subpart does not apply to a request for records pursuant to the Privacy Act (5 U.S.C. 552a). A person requesting records from the OCC pursuant to the Privacy Act should refer to 31 CFR part 1, subpart C, and appendix J of subpart C.

(4) This subpart does not apply to FOIA requests filed with the Office of Thrift Supervision (OTS) before July 21, 2011. These requests are subject to the rules of the OTS in effect on July 20, 2011.

[60 FR 57322, Nov. 15, 1995, as amended at 76 FR 43561, July 21, 2011]

§ 4.12 Information available under the FOIA.

(a) *General.* In accordance with the FOIA, OCC records are available to the public, except the exempt records described in paragraph (b) of this section.

(b) *Exemptions from availability.* The following records, or portions thereof, are exempt from disclosure under the FOIA:

(1) A record that is specifically authorized, under criteria established by an Executive order, to be kept secret in the interest of national defense or foreign policy, and that is properly classified pursuant to that Executive order;

(2) A record relating solely to the internal personnel rules and practices of an agency;

(3) A record specifically exempted from disclosure by statute (other than 5 U.S.C. 552b), provided that the statute requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, establishes particular criteria for withholding, or refers to particular types of matters to be withheld;

(4) A record that is privileged or contains trade secrets, or commercial or financial information, furnished in confidence, that relates to the business, personal, or financial affairs of any person (see § 4.16 for notice requirements regarding disclosure of confidential commercial information);

(5) An intra-agency or interagency memorandum or letter not routinely available by law to a private party in litigation, including memoranda, reports, and other documents prepared by OCC employees, and records of deliberations and discussions at meetings of OCC employees;

(6) A personnel, medical, or similar record, including a financial record, or any portion thereof, where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) A record or information compiled for law enforcement purposes, but only to the extent that the OCC reasonably believes that producing the record or information may:

(i) Interfere with enforcement proceedings;

(ii) Deprive a person of the right to a fair trial or an impartial adjudication;

§ 4.13

(iii) Constitute an unwarranted invasion of personal privacy;

(iv) Disclose the identity of a confidential source, including a State, local, or foreign agency or authority, or any private institution that furnished information on a confidential basis;

(v) Disclose information furnished by a confidential source, in the case of a record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation;

(vi) Disclose techniques and procedures for law enforcement investigations or prosecutions, or disclose guidelines for law enforcement investigations or prosecutions if such disclosure reasonably could be expected to risk circumvention of the law; or

(vii) Endanger the life or physical safety of any individual;

(8) A record contained in or related to an examination, operating, or condition report prepared by, on behalf of, or for the use of the OCC or any other agency responsible for regulating or supervising financial institutions;

(9) A record containing or relating to geological and geophysical information and data, including maps, concerning wells; and

(10) Any OTS information similar to that listed in paragraphs (b)(1) through (9) of this section, to the extent this information is in the possession of the OCC.

(c) *Discretionary disclosure of exempt records.* Even if a record is exempt under paragraph (b) of this section, the OCC may elect, on a case-by-case basis, not to apply the exemption to the requested record. The OCC's election not to apply an exemption to a requested record has no precedential significance as to the application or nonapplication of the exemption to any other requested record, regardless of who requests the record or when the OCC receives the request. The OCC will provide predisclosure notice to submitters of confidential commercial information in accordance with § 4.16.

(d) *Segregability.* The OCC provides copies of reasonably segregable portions of a record to any person properly

12 CFR Ch. I (1–1–14 Edition)

requesting the record pursuant to § 4.15, after redacting any portion that is exempt under paragraph (b) of this section. The OCC will note the location and extent of any deletion, and identify the FOIA exemption under which material has been deleted, on the released portion of the material, unless doing so would harm an interest protected by the exemption under paragraph (b) of this section pursuant to which the deletion was made. Where technically feasible, the amount of information redacted and the exemption pursuant to which the redaction was made will be indicated at the site(s) of the deletion.

[60 FR 57322, Nov. 15, 1995, as amended at 75 FR 17850, Apr. 8, 2010; 76 FR 43561, July 21, 2011]

§ 4.13 Publication in the Federal Register.

The OCC publishes certain documents in the FEDERAL REGISTER for the guidance of the public, including the following:

(a) Proposed and final rules; and

(b) Certain notices and policy statements of concern to the general public.

§ 4.14 Public inspection and copying.

(a) *Available information.* Subject to the exemptions listed in § 4.12(b), the OCC makes the following information readily available for public inspection and copying:

(1) Any final order, agreement, or other enforceable document issued in the adjudication of an OCC enforcement case, including a final order published pursuant to 12 U.S.C. 1818(u);

(2) Any final opinion issued in the adjudication of an OCC enforcement case;

(3) Any statement of general policy or interpretation of general applicability not published in the FEDERAL REGISTER;

(4) Any administrative staff manual or instruction to staff that may affect a member of the public as such;

(5) A current index identifying the information referred to in paragraphs (a)(1) through (a)(4) of this section issued, adopted, or promulgated after July 4, 1967;

(6) A list of available OCC publications;

(7) A list of forms available from the OCC, and specific forms and instructions;¹

(8) Any public Community Reinvestment Act performance evaluation;

(9) Any public securities-related filing required under parts 11, 16, 194 or 197 of this chapter;

(10) Any public comment letter regarding a proposed rule;

(11) The public file (as defined in 12 CFR 5.9) with respect to a pending application described in part 5 of this chapter; and

(12) Any OTS information similar to that listed in paragraphs (a)(1) through (a)(12) of this section, to the extent this information is in the possession of the OCC.

(b) *Redaction of identifying details.* To the extent necessary to prevent an invasion of personal privacy, the OCC may redact identifying details from any information described in paragraph (a) of this section before making the information available for public inspection and copying.

(c) *Addresses.* The information described in paragraphs (a)(1) through (10) and (a)(11) of this section is available from the Disclosure Officer, Communications Division, Office of the Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219. The information described in paragraph (a)(11) of this section in the case of both banks and Federal savings associations is available from the Licensing Manager at the appropriate district office at the address listed in § 4.5(a), or in the case of banks and savings associations supervised by Large Bank Supervision, from the Large Bank Licensing Expert, Licensing Department, Office of the Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219.

[60 FR 57322, Nov. 15, 1995, as amended at 76 FR 43561, July 21, 2011]

¹Some forms and instructions that national banks and Federal savings associations use, are not available from the OCC. The OCC will provide information on where persons may obtain these forms and instructions upon request.

§ 4.15 How to request records.

(a) *Available information.* Subject to the exemptions described in § 4.12(b), any OCC record is available to any person upon specific request in accordance with this section.

(b) *Where to submit request or appeal—*
(1) *General.* Except as provided in paragraph (b)(2) of this section, a person requesting a record or filing an administrative appeal must submit the request or appeal through the OCC's FOIA Web portal at <https://appsec.occ.gov/publicaccesslink/palMain.aspx> or under this section to the Disclosure Officer, Communications Division, Office of the Comptroller of the Currency, 250 E Street, SW, Washington, DC 20219.

(2) *Exceptions—*(i) *Records at the Federal Deposit Insurance Corporation.* A person requesting any of the following records, other than blank forms (see § 4.14(a)(7)), must submit the request to the Disclosure Group, Federal Deposit Insurance Corporation, 550-17th Street, NW, Washington, DC 20429, (800) 945-2186:

(A) Consolidated Report of Condition and Income (FFIEC 031, 032, 033, 034);

(B) Annual Report of Trust Assets (FFIEC 001);

(C) Uniform Bank Performance Report; and

(D) Special Report.

(ii) *Records of another agency.* When the OCC receives a request for records in its possession that another Federal agency either generated or provided to the OCC, the OCC promptly informs the requester and immediately forwards the request to that agency for processing in accordance with that agency's regulations.

(c) *Request for records—*(1) *Contact information and what the request for records must include.* A person requesting records under this section must state, in writing:

(i) The requester's full name, address, telephone number and, at the requester's option, electronic mail address.

(ii) A reasonable description of the records sought (including sufficient detail to enable OCC employees who are familiar with the subject matter of the request to locate the records with a reasonable amount of effort);

(iii) A statement agreeing to pay all fees that the OCC assesses under § 4.17;

(iv) A description of how the requester intends to use the records, if a requester seeks placement in a lower fee category (i.e., a fee category other than “commercial use requester”) under §4.17; and

(v) Whether the requester prefers the OCC to deliver a copy of the records or to allow the requester to inspect the records at the appropriate OCC office.

(2) *Initial determination.* The Comptroller or the Comptroller’s delegate initially determines whether to grant a request for OCC records.

(3) *If request is granted.* If the OCC grants a request for records, in whole or in part, the OCC promptly discloses the records in one of two ways, depending on the requester’s stated preference:

(i) The OCC may deliver a copy of the records to the requester. If the OCC delivers a copy of the records to the requester, the OCC duplicates the records at reasonable and proper times that do not interfere with their use by the OCC or preclude other persons from making inspections; or

(ii) The OCC may allow the requester to inspect the records at reasonable and proper times that do not interfere with their use by the OCC or preclude other persons from making inspections. If the OCC allows the requester to inspect the records, the OCC may place a reasonable limit on the number of records that a person may inspect during a day.

(4) *If request is denied.* If the OCC denies a request for records, in whole or in part, the OCC notifies the requester by mail. The notification is dated and contains a brief statement of the reasons for the denial, sets forth the name and title or position of the official making the decision, and advises the requester of the right to an administrative appeal in accordance with paragraph (d) of this section.

(d) *Administrative appeal of a denial—*
(1) *Procedure.* A requester must submit an administrative appeal of denial of a request for records in writing within 35 days of the date of the initial determination. The appeal must include the circumstances and arguments supporting disclosure of the requested records.

(2) *Appellate determination.* The Comptroller or the Comptroller’s delegate determines whether to grant an appeal of a denial of a request for OCC records.

(3) *If appeal is granted.* If the OCC grants an appeal, in whole or in part, the OCC treats the request as if it were originally granted, in whole or in part, by the OCC in accordance with paragraph (c)(3) of this section.

(4) *If appeal is denied.* If the OCC denies an appeal, in whole or in part, the OCC notifies the requester by mail. The notification contains a brief statement of the reasons for the denial, sets forth the name and title or position of the official making the decision, and advises the requester of the right to judicial review of the denial under 5 U.S.C. 552(a)(4)(B).

(e) *Judicial review—*(1) *General.* If the OCC denies an appeal pursuant to paragraph (d) of this section, or if the OCC fails to make a determination within the time limits specified in paragraph (f) of this section, the requester may commence an action to compel disclosure of records, pursuant to 5 U.S.C. 552(a)(4)(B), in the United States district court in:

(i) The district where the requester resides;

(ii) The district where the requester’s principal place of business is located;

(iii) The district where the records are located; or

(iv) The District of Columbia.

(2) *Service of process.* In commencing an action described in paragraph (e)(1) of this section, the requester, in addition to complying with the Federal Rules of Civil Procedure (28 U.S.C. appendix) for service upon the United States or agencies thereof, must serve process on the Chief Counsel or the Chief Counsel’s delegate at the following location: Office of the Comptroller of the Currency, 250 E Street, SW, Washington, DC 20219.

(f) *Time limits for responding to FOIA requests.* (1) The OCC makes an initial determination to grant or deny a request for records within 20 days (excluding Saturday, Sundays, and holidays) after the date of receipt of the request, as described in paragraph (g) of this section, except as stated in paragraph (f)(3) of this section.

Comptroller of the Currency, Treasury

§ 4.16

(2) *Appeal.* The OCC makes a determination to grant or deny an administrative appeal within 20 business days after the date of receipt of the appeal, as described in paragraph (g) of this section, except as stated in paragraph (f)(3) of this section.

(3) *Extension of time.* The time limits set forth in paragraphs (f)(1) and (2) of this section may be extended as follows:

(i) *In unusual circumstances.* The OCC may extend the time limits in unusual circumstances for a maximum of 10 business days. If the OCC extends the time limits, the OCC provides written notice to the person making the request or appeal, containing the reason for the extension and the date on which the OCC expects to make a determination. Unusual circumstances exist when the OCC requires additional time to:

(A) Search for and collect the requested records from field facilities or other buildings that are separate from the office processing the request or appeal;

(B) Search for, collect, and appropriately examine a voluminous amount of requested records;

(C) Consult with another agency that has a substantial interest in the determination of the request; or

(D) Allow two or more components of the OCC that have substantial interest in the determination of the request to consult with each other;

(ii) *By agreement.* A requester may agree to extend the time limits for any amount of time;

(iii) *By judicial action.* If a requester commences an action pursuant to paragraph (e) of this section for failure to comply with the time limits set forth in this paragraph (f), a court with jurisdiction may, pursuant to 5 U.S.C. 552(a)(6)(C), allow the OCC additional time to complete the review of the records requested, or

(iv) *Tolling of time limits.* (A) The OCC may toll the 20-day time period to:

(1) Make one request for additional information from the requester; or

(2) Clarify the applicability or amount of any fees, if necessary, with the requester.

(B) The tolling period ends upon the OCC's receipt of requested information

from the requester or resolution of the fee issue.

(g) *Date of receipt of request or appeal.* The date of receipt of a request for records or an appeal is the date that OCC Communications Division receives a request that satisfies the requirements of paragraph (c)(1) or (d)(1) of this section, except as provided in § 4.17(d).

[60 FR 57322, Nov. 15, 1995, as amended at 75 FR 17850, Apr. 8, 2010; 76 FR 43562, July 21, 2011]

§ 4.16 Predisdisclosure notice for confidential commercial information.

(a) *Definitions.* For purposes of this section, the following definitions apply:

(1) *Confidential commercial information* means records that arguably contain material exempt from release under Exemption 4 of the FOIA (5 U.S.C. 552(b)(4); § 4.12(b)(4)), because disclosure reasonably could cause substantial competitive harm to the submitter.

(2) *Submitter* means any person or entity that provides confidential commercial information to the OCC. This term includes corporations, State governments, foreign governments, and banks and their employees, officers, directors, and principal shareholders.

(b) *Notice to submitter*—(1) *When provided.* In accordance with Executive Order 12600 (3 CFR, 1987 Comp., p. 235), when the OCC receives a request under § 4.15(c) or, where appropriate, an appeal under § 4.15(d) for disclosure of confidential commercial information, the OCC provides a submitter with prompt written notice of the receipt of that request (except as provided in paragraph (b)(2) of this section) in the following circumstances:

(i) With respect to confidential commercial information submitted to the OCC or to the Federal Home Loan Bank Board, the predecessor of the OTS, prior to January 1, 1988, if:

(A) The records are less than 10 years old and the submitter designated the information as confidential commercial information;

(B) The OCC reasonably believes that disclosure of the information may cause substantial competitive harm to the submitter; or

§4.16

12 CFR Ch. I (1–1–14 Edition)

(C) The information is subject to a prior express commitment of confidentiality from the OCC or the Federal Home Loan Bank Board, the predecessor of the OTS; and

(ii) With respect to confidential commercial information submitted to the OCC or to the OTS (or the Federal Home Loan Bank Board, its predecessor agency) on or after January 1, 1988, if:

(A) The submitter in good faith designated the information as confidential commercial information;

(B) The OCC or the OTS (or the Federal Home Loan Bank Board, its predecessor agency) designated the class of information to which the requested information belongs as confidential commercial information; or

(C) The OCC reasonably believes that disclosure of the information may cause substantial competitive harm to the submitter.

(2) *Exceptions.* The OCC generally does not provide notice under paragraph (b)(1) of this section if the OCC determines that:

(i) It will not disclose the information;

(ii) The information already has been disclosed officially to the public;

(iii) The OCC is required by law (other than 5 U.S.C. 552) to disclose the information;

(iv) The OCC or the OTS (or the Federal Home Loan Bank Board, its predecessor agency) acquired the information in the course of a lawful investigation of a possible violation of criminal law;

(v) The submitter had an opportunity to designate the requested information as confidential commercial information at the time of submission of the information or a reasonable time thereafter and did not do so, unless the OCC has substantial reason to believe that disclosure of the information would result in competitive harm; or

(vi) The OCC determines that the submitter's designation under paragraph (b)(1)(ii)(A) of this section is frivolous; in such case, however, the OCC will provide the submitter with written notice of any final administrative determination to disclose the information at least 10 business days prior to

the date that the OCC intends to disclose the information.

(3) *Content of notice.* The OCC either describes in the notice the exact nature of the confidential commercial information requested or includes with the notice copies of the records or portions of records containing that information.

(4) *Expiration of notice period.* The OCC provides notice under this paragraph (b) with respect to information that the submitter designated under paragraph (b)(1)(ii)(A) of this section only for a period of 10 years after the date of the submitter's designation, unless the submitter requests and justifies to the OCC's satisfaction a specific notice period of greater duration.

(5) *Certification of confidentiality.* If possible, the submitter should support the claim of confidentiality with a statement or certification that the requested information is confidential commercial information that the submitter has not disclosed to the public. This statement should be prepared by an officer or authorized representative if the submitter is a corporation or other entity.

(c) *Notice to requester.* If the OCC provides notice to a submitter under paragraph (b) of this section, the OCC notifies the person requesting confidential commercial information (requester) that it has provided notice to the submitter. The OCC also advises the requester that if there is a delay in its decision whether to grant or deny access to the information sought, the delay may be considered a denial of access to the information, and that the requester may proceed with an administrative appeal or seek judicial review. However, the requester may agree to a voluntary extension of time to allow the OCC to review the submitter's objection to disclosure (see §4.15(f)(3)(ii)).

(d) *Opportunity to object to disclosure.* Within 10 days after receiving notice under paragraph (b) of this section, the submitter may provide the OCC with a detailed statement of objection to disclosure of the information. That statement must specify the grounds for withholding any of the information under any exemption of the FOIA. Any statement that the submitter provides under this paragraph (d) may be subject to disclosure under the FOIA.

(e) *Notice of intent to disclose.* The OCC considers carefully a submitter's objection and specific grounds for nondisclosure prior to determining whether to disclose the requested information. If the OCC decides to disclose information over the objection of the submitter, the OCC provides to the submitter, with a copy to the requester, a written notice that includes:

(1) A statement of the OCC's reasons for not sustaining the submitter's objections to disclosure;

(2) A description of the information to be disclosed;

(3) The anticipated disclosure date, which is not less than 10 business days after the OCC mails the written notice required under this paragraph (e); and

(4) A statement that the submitter must notify the OCC immediately if the submitter intends to seek injunctive relief.

(f) *Notice of requester's lawsuit.* Whenever the OCC receives service of process indicating that a requester has brought suit seeking to compel the OCC to disclose information covered by paragraph (b)(1) of this section, the OCC promptly notifies the submitter.

[60 FR 57322, Nov. 15, 1995, as amended at 76 FR 43561, July 21, 2011]

§ 4.17 FOIA request fees.

(a) *Definitions.* For purposes of this section, the following definitions apply:

(1) *Actual costs* means those expenditures that the OCC incurs in providing services (including searching for, reviewing, and duplicating records) in response to a request for records under § 4.15.

(2) *Search* means the process of locating a record in response to a request, including page-by-page or line-by-line identification of material within a record. The OCC may perform a search manually or by electronic means.

(3) *Review* means the process of examining a record located in response to a request to determine which portions of that record should be released. It also includes processing a record for disclosure.

(4) *Duplication* means the process of copying a record in response to a request. A copy may take the form of a paper copy, microform, audiovisual

materials, or machine readable material (e.g., magnetic tape or disk), among others.

(5) *Commercial use requester* means a person who seeks records for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made.

(6) *Educational institution requester* means a person who seeks records on behalf of a public or private educational institution, including a preschool, an elementary or secondary school, an institution of undergraduate or graduate higher education, an institution of professional education, or an institution of vocational education that operates a program of scholarly research.

(7) *Noncommercial scientific institution requester* means a person who is not a "commercial use requester," as that term is defined in paragraph (a)(5) of this section, and who seeks records on behalf of an institution operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(8) *Requester who is a representative of the news media* means any person who, or entity that, gathers information of potential interest to a segment of the public, uses editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. A freelance journalist shall be regarded as working for a news media entity if the person can demonstrate a solid basis for expecting publication through that entity, whether or not the journalist is actually employed by that entity. A publication contract is one example of a basis for expecting publication that ordinarily would satisfy this standard. The OCC also may consider the past publication record of the requester in determining whether she or he qualifies as a "representative of the news media."

(b) *Fees*—(1) *General.* The hourly and per page rate that the OCC generally charges requesters is set forth in the "Notice of Comptroller of the Currency Fees" (Notice) described in 12 CFR 8.8. Any interested person may request a copy of the Notice from the OCC by

mail or may obtain a copy at the location described in §4.14(c). The OCC may contract with a commercial service to search for, duplicate, or disseminate records, provided that the OCC determines that the fee assessed upon a requester is no greater than if the OCC performed the tasks itself. The OCC does not contract out responsibilities that the FOIA provides that the OCC alone may discharge, such as determining the applicability of an exemption or whether to waive or reduce a fee.

(2) *Fee categories.* The OCC assesses a fee based on the fee category in which the OCC places the requester. If the request states how the requester intends to use the requested records (see §4.15(c)(1)(iv)), the OCC may place the requester in a lower fee category; otherwise, the OCC categorizes the requester as a “commercial use requester.” If the OCC reasonably doubts the requester’s stated intended use, or if that use is not clear from the request, the OCC may place the requester in the “commercial use” category or may seek additional clarification. The fee categories are as follows:

(i) *Commercial use requesters.* The OCC assesses a fee for a requester in this category for the actual cost of search, review, and duplication. A requester in this category does not receive any free search, review, or duplication services.

(ii) *Educational institution requesters, noncommercial scientific institution requesters, and requesters who are representatives of the news media.* The OCC assesses a fee for a requester in this category for the actual cost of duplication. A requester in this category receives 100 free pages.

(iii) *All other requesters.* The OCC assesses a fee for a requester who does not fit into either of the above categories for the actual cost of search and duplication. A requester in this category receives 100 free pages and two hours of free search time.

(3) *Special services.* The OCC may, in its discretion, accommodate a request for special services. The OCC may recover the actual cost of providing any special services.

(4) *Waiving or reducing a fee.* The OCC may waive or reduce a fee under this section whenever, in its opinion, disclo-

sure of records is in the public interest because the disclosure:

(i) Is likely to contribute significantly to public understanding of the operations or activities of the government; and

(ii) Is not primarily in the commercial interest of the requester.

(5) *Fee for unsuccessful search.* The OCC may assess a fee for time spent searching for records, even if the OCC does not locate the records requested.

(6) *No fee if the time limit passes and the OCC has not responded to the request.* The OCC will not assess search or duplication fees, as applicable, if it fails to respond to a requester’s FOIA request within the time limits specified under 12 CFR 4.15, and no “unusual” circumstances (as defined in 5 U.S.C. 552(a)(6)(B) and §4.15(f)(3)(i)) or “exceptional” circumstances (as defined in 5 U.S.C. 552(a)(6)(C)) apply to the processing of the request.

(c) *Payment of fees—(1) General.* The OCC generally assesses a fee when it delivers the records in response to the request, if any. A requester must send payment within 30 calendar days of the billing date to the Communications Division, Office of the Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219.

(2) *Fee likely to exceed \$25.* If the OCC estimates that a fee is likely to exceed \$25, the OCC notifies the requester of the estimated fee, unless the requester has indicated in advance a willingness to pay a fee as high as the estimated fee. If so notified by the OCC, the requester may confer with OCC employees to revise the request to reflect a lower fee.

(3) *Fee likely to exceed \$250.* If the OCC estimates that a fee is likely to exceed \$250, the OCC notifies the requester of the estimated fee. In this circumstance, the OCC may require, as a condition to processing the request, that the requester:

(i) Provide satisfactory assurance of full payment, if the requester has a history of prompt payment; or

(ii) Pay the estimated fee in full, if the requester does not have a history of prompt payment.

(4) *Failure to pay a fee.* If the requester fails to pay a fee within 30 days of the date of the billing, the OCC may

Comptroller of the Currency, Treasury

§ 4.31

require, as a condition to processing any further request, that the requester pay any unpaid fee, plus interest (as provided in paragraph (c)(5) of this section), and any estimated fee in full for that further request.

(5) *Interest on unpaid fee.* The OCC may assess interest charges on an unpaid fee beginning on the 31st day following the billing date. The OCC charges interest at the rate prescribed in 31 U.S.C. 3717.

(d) *Tolling of time limits.* Under the circumstances described in paragraphs (c) (2), (3), and (4) of this section, the time limits set forth in § 4.15(f) (*i.e.*, 20 business days from the receipt of a request for records and 20 business days from the receipt of an administrative appeal, plus any permissible extension) begin only after the OCC receives a revised request under paragraph (c)(2) of this section, an assurance of payment under paragraph (c)(3)(i) of this section, or the required payments under paragraph (c)(3)(i) or (c)(4) of this section.

(e) *Aggregating requests.* When the OCC reasonably believes that a requester or group of requesters is attempting to break a request into a series of requests for the purpose of evading the assessment of a fee, the OCC may aggregate the requests and assess a fee accordingly.

[60 FR 57322, Nov. 15, 1995, as amended at 75 FR 17850, Apr. 8, 2010]

§ 4.18 How to track a FOIA request.

(a) *Tracking number.* (1) *Internet requests.* The OCC will issue a tracking number to all FOIA requesters automatically upon receipt of the request (as described in § 4.15(g)) by the OCC's Communications Department via the OCC's Freedom of Information Request Portal, <https://appsec.occ.gov/publicaccesslink/palMain.aspx>. The tracking number will be sent via electronic mail to the requester.

(2) *If a requester does not have Internet access.* The OCC will issue a tracking number to FOIA requesters without Internet access within 5 days of the receipt of the request (as described in § 4.15(g)) in the OCC's Communications Department. The OCC will mail the tracking number to the requester's

physical address, as provided in the FOIA request.

(b) *Status of request.* FOIA requesters may track the progress of their requests via the OCC's Freedom of Information Request Portal, <https://appsec.occ.gov/publicaccesslink/palMain.aspx>. Requesters without Internet access may continue to contact the Disclosure Officer, Communications Division, Office of the Comptroller of the Currency, at (202) 874-4700 to check the status of their FOIA request(s).

[76 FR 43562, July 21, 2011]

Subpart C—Release of Non-Public OCC Information

§ 4.31 Purpose and scope.

(a) *Purpose.* The purposes of this subpart are to:

(1) Afford an orderly mechanism for the OCC to process expeditiously requests for non-public OCC information; to address the release of non-public OCC information without a request; and, when appropriate, for the OCC to assert evidentiary privileges in litigation;

(2) Recognize the public's interest in obtaining access to relevant and necessary information and the countervailing public interest of maintaining the effectiveness of the OCC supervisory process and appropriate confidentiality of OCC supervisory information;

(3) Ensure that the OCC's information is used in a manner that supports the public interest and the interests of the OCC;

(4) Ensure that OCC resources are used in the most efficient manner consistent with the OCC's statutory mission;

(5) Minimize burden on national banks, Federal savings associations, the public, and the OCC;

(6) Limit the expenditure of government resources for private purposes; and

(7) Maintain the OCC's impartiality among private litigants.

(b) *Scope.* (1) This subpart applies to requests for, and dissemination of, non-public OCC information, including requests for records or testimony arising

§ 4.32

12 CFR Ch. I (1–14 Edition)

out of civil lawsuits and administrative proceedings to which the OCC is not a party and the release of non-public OCC information without a specific request. Lawsuits and administrative proceedings to which the OCC is not a party include proceedings in which a Federal agency is a party in opposition to the private requester.

(2) This subpart does not apply to:

(i) A request for a record or testimony in a proceeding in which the OCC is a party; or

(ii) A request for a record that is required to be disclosed under the Freedom of Information Act (FOIA) (5 U.S.C. 552), as described in § 4.12.

(3) A request for a record or testimony made by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, a government agency of the United States or a foreign government, a state agency with authority to investigate violations of criminal law, or a state bank or state savings association regulatory agency is governed solely by § 4.37(c).

(4) For purposes of §§ 4.35(a)(1), 4.36(a) and 4.37(c) of this part, the OCC's decision to disclose records or testimony involving a Suspicious Activity Report (SAR) filed pursuant to the regulations implementing 12 U.S.C. 5318(g), or any information that would reveal the existence of a SAR, is governed by 12 CFR 21.11(k).

(5) This subpart does not apply to requests for non-public information filed with the Office of Thrift Supervision (OTS) before July 21, 2011. These requests are subject to the rules of the OTS in effect on July 20, 2011.

[60 FR 57322, Nov. 15, 1995, as amended at 63 FR 62929, Nov. 10, 1998; 64 FR 29216, June 1, 1999; 75 FR 75576, Dec. 3, 2010; 76 FR 43562, July 21, 2011]

§ 4.32 Definitions.

(a) *Complete request* means a request containing sufficient information to allow the OCC to make an informed decision.

(b) *Non-public OCC information*. Non-public OCC information:

(1) Means information that the OCC is not required to release under the FOIA (5 U.S.C. 552) or that the OCC has not yet published or made available

pursuant to 12 U.S.C. 1818(u) and includes:

(i) A record created or obtained:

(A) By the OCC in connection with the OCC's performance of its responsibilities, such as a record concerning supervision, licensing, regulation, and examination of a national bank, a Federal savings association, a bank holding company, a savings and loan holding company, or an affiliate; or

(B) By the OTS in connection with the OTS's performance of its responsibilities, such as a record concerning supervision, licensing, regulation, and examination of a Federal savings association, a savings and loan holding company, or an affiliate;

(ii) A record compiled by the OCC or the OTS in connection with either agency's enforcement responsibilities;

(iii) A report of examination, supervisory correspondence, an investigatory file compiled by the OCC or OTS in connection with an investigation, and any internal agency memorandum, whether the information is in the possession of the OCC or some other individual or entity;

(iv) Confidential OCC information obtained by a third party or otherwise incorporated in the records of a third party, including another government agency;

(v) Testimony from, or an interview with, a current or former OCC employee, officer, or agent or a former OTS employee, officer, or agent concerning information acquired by that person in the course of his or her performance of official duties with the OCC or OTS or due to that person's official status at the OCC or OTS; and

(vi) Confidential information relating to operating and no longer operating national banks, Federal savings associations, and savings and loan holding companies as well as their subsidiaries and their affiliates.

(2) Is the property of the Comptroller.

(c) *Relevant* means could contribute substantially to the resolution of one or more specifically identified issues in the case.

(d) *Show a compelling need* means, in support of a request for testimony, demonstrate with as much detail as is necessary under the circumstances,

that the requested information is relevant and that the relevant material contained in the testimony is not available from any other source. Sources, without limitation, include the books and records of other persons or entities and non-public OCC records that have been, or might be, released.

(e) *Supervised entity* includes a national bank or Federal savings association, a subsidiary of a national bank or Federal savings association, or a Federal branch or agency of a foreign bank licensed by the OCC as defined under 12 CFR 28.11(g) and (h), or any other entity supervised by the OCC.

(f) *Testimony* means an interview or sworn testimony on the record.

[60 FR 57322, Nov. 15, 1995, as amended at 63 FR 62929, Nov. 10, 1998; 64 FR 29216, June 1, 1999; 75 FR 75576, Dec. 3, 2010; 76 FR 43562, July 21, 2011]

§ 4.33 Requirements for a request of records or testimony.

(a) *Generally*—(1) *Form of request*. A person seeking non-public OCC information must submit a request in writing to the OCC. The requester must explain, in as detailed a description as is necessary under the circumstances, the bases for the request and how the requested non-public OCC information relates to the issues in the lawsuit or matter.

(2) *Expedited request*. A requester seeking a response in less than 60 days must explain why the request was not submitted earlier and why the OCC should expedite the request.

(3) *Request arising from adversarial matters*. Where the requested information is to be used in connection with an adversarial matter:

(i) The OCC generally will require that the lawsuit or administrative action has been filed before it will consider the request;

(ii) The request must include:

(A) A copy of the complaint or other pleading setting forth the assertions in the case;

(B) The caption and docket number of the case;

(C) The name, address, and phone number of counsel to each party in the case; and

(D) A description of any prior judicial decisions or pending motions in the

case that may bear on the asserted relevance of the requested information;

(iii) The request must also:

(A) Show that the information is relevant to the purpose for which it is sought;

(B) Show that other evidence reasonably suited to the requester's needs is not available from any other source;

(C) Show that the need for the information outweighs the public interest considerations in maintaining the confidentiality of the OCC information and outweighs the burden on the OCC to produce the information;

(D) Explain how the issues in the case and the status of the case warrant that the OCC allow disclosure; and

(E) Identify any other issue that may bear on the question of waiver of privilege by the OCC.

(b) *Request for records*. If the request is for a record, the requester must adequately describe the record or records sought by type and date.

(c) *Request for testimony*—(1) *Generally*. A requester seeking testimony:

(i) Must show a compelling need for the requested information; and

(ii) Should request OCC testimony with sufficient time to obtain the testimony in deposition form.

(2) *Trial or hearing testimony*. A requester seeking testimony at a trial or hearing must show that a deposition would not suffice.

§ 4.34 Where to submit a request.

(a) *A request for non-public OCC information*. A person requesting information under this subpart, requesting authentication of a record under § 4.39(d), or submitting a notification of the issuance of a subpoena or compulsory process under § 4.37, shall send the request or notification to: Office of the Comptroller of the Currency, 250 E Street, SW, Washington, DC 20219, Attention: Director, Litigation Division.

(b) *Combined requests for non-public and other OCC information*. A person requesting public OCC information and non-public OCC information under this subpart may submit a combined request for both to the address in paragraph (a) of this section. If a requester decides to submit a combined request under this section, the OCC will process the combined request under this

§ 4.35

12 CFR Ch. I (1–14 Edition)

subpart and not under subpart B of this part (FOIA).

(c) *Request by government agencies.* A request made pursuant to § 4.37(c) must be submitted:

(1) In a civil action, to the Director of the OCC's Litigation Division at the Washington office; or

(2) In a criminal action, to the appropriate district counsel or the Director of the OCC's Enforcement and Compliance Division at the Washington office.

[60 FR 57322, Nov. 15, 1995, as amended at 64 FR 29216, June 1, 1999]

§ 4.35 Consideration of requests.

(a) *In general*—(1) *OCC discretion.* The OCC decides whether to release non-public OCC information based on its weighing of all appropriate factors including the requestor's fulfilling of the requirements enumerated in § 4.33. Each decision is at the sole discretion of the Comptroller or the Comptroller's delegate and is a final agency decision. OCC action on a request for non-public OCC information exhausts administrative remedies for discovery of the information.

(2) *Bases for denial.* The OCC may deny a request for non-public OCC information for reasons that include the following:

(i) The requester was unsuccessful in showing that the information is relevant to the pending matter;

(ii) The requester seeks testimony and the requestor did not show a compelling need for the information;

(iii) The request arises from an adversarial matter and other evidence reasonably suited to the requester's need is available from another source;

(iv) A lawsuit or administrative action has not yet been filed and the request was made in connection with potential litigation;

(v) The production of the information would be contrary to the public interest or unduly burdensome to the OCC; or

(vi) When prohibited by law.

(3) *Additional information.* A requester must submit a complete request. The OCC may require the requester to provide additional information to complete a request. Consistent with the purposes stated in § 4.31, the OCC may inquire into the circumstances of any

case underlying the request and rely on sources of information other than the requester, including other parties.

(4) *Time required by the OCC to respond.* The OCC generally will process requests in the order in which they are received. The OCC will notify the requester in writing of the final decision. Absent exigent or unusual circumstances, the OCC will respond to a request within 60 days from the date that the OCC receives a request that it deems a complete request. Consistent with § 4.33(a)(2), the OCC weighs a request to respond to provide information in less than 60 days against the unfairness to other requesters whose pending requests may be delayed and the burden imposed on the OCC by the expedited processing.

(5) *Notice to subject national banks and Federal savings associations.* Following receipt of a request for non-public OCC information, the OCC generally notifies the national bank or Federal savings association that is the subject of the requested information, unless the OCC, in its discretion, determines that to do so would advantage or prejudice any of the parties in the matter at issue.

(b) *Testimony.* (1) The OCC generally will not authorize a current OCC employee to provide expert or opinion evidence for a private party.

(2) The OCC may restrict the scope of any authorized testimony and may act to ensure that the scope of testimony given by the OCC employee adheres to the scope authorized by the OCC.

(3) Once a request for testimony has been submitted, and before the requested testimony occurs, a party to the relevant case, who did not join in the request and who wishes to question the witness beyond the scope of testimony sought by the request, shall timely submit the party's own request for OCC information pursuant to this subpart.

(4) The OCC may offer the requester the employee's written declaration in lieu of testimony.

(c) *Release of non-public OCC information by others.* In appropriate cases, the OCC may respond to a request for information by authorizing a party to the case who is in possession of non-public OCC information to release the

information to the requester. An OCC authorization to release records does not preclude the party in possession from asserting its own privilege, arguing that the records are not relevant, or asserting any other argument for which it has standing to protect the records from release.

[60 FR 57322, Nov. 15, 1995, 75 FR 75576, Dec. 3, 2010; 76 FR 43563, July 21, 2011]

§ 4.36 Disclosure of non-public OCC information.

(a) *Discretionary disclosure of non-public OCC information.* The OCC may make non-public OCC information available to a supervised entity and to other persons, that in the sole discretion of the Comptroller may be necessary or appropriate, without a request for records or testimony.

(b) *OCC policy.* It is the OCC's policy regarding non-public OCC information that such information is confidential and privileged. Accordingly, the OCC will not normally disclose this information to third parties.

(c) *Conditions and limitations.* The OCC may impose any conditions or limitations on disclosures under this section, including the restrictions on dissemination contained in § 4.38, that it determines are necessary to effect the purposes of this section.

(d) *Unauthorized disclosures prohibited.* All non-public OCC information remains the property of the OCC. No supervised entity, government agency, person, or other party to whom the information is made available, or any officer, director, employee, or agent thereof, may disclose non-public OCC information without the prior written permission of the OCC, except in published statistical material that does not disclose, either directly or when used in conjunction with other publicly available information, the affairs of any individual, corporation, or other entity. Except as authorized by the OCC, no person obtaining access to non-public OCC information under this section may make a copy of the information and no person may remove non-public OCC information from the premises of the institution, agency, or other

party in authorized possession of the information.

[63 FR 62929, Nov. 10, 1998, as amended at 64 FR 29216, June 1, 1999]

§ 4.37 Persons and entities with access to OCC information; prohibition on dissemination.

(a) *Current and former OCC employees or agents; former OTS employees or agents—(1) Generally.* Except as authorized by this subpart or otherwise by the OCC, no current or former OCC employee or agent or former OTS employee or agent, may, in any manner, disclose or permit the disclosure of any non-public OCC information to anyone other than an employee or agent of the Comptroller for use in the performance of OCC duties.

(2) *Duty of person served.* Any current or former OCC employee or agent or former OTS employee or agent, subpoenaed or otherwise requested to provide information covered by this subpart must immediately notify the OCC as provided in this paragraph. The OCC may intervene, attempt to have the compulsory process withdrawn, and register appropriate objections when a current or former OCC employee or agent or former OTS employee or agent, receives a subpoena and the subpoena requires the current or former employee or agent to appear or produce OCC information. If necessary, the current or former employee or agent must appear as required and respectfully decline to produce the information sought, citing this subpart as authority and *United States ex rel. Touhy v. Ragen*, 340 U.S. 462 (1951). The current or former OCC employee or agent or former OTS employee or agent, must immediately notify the OCC if subpoenaed or otherwise asked for non-public OCC information:

(i) In a civil action, by notifying the Director of the OCC's Litigation Division at the Washington office; or

(ii) In a criminal action, by notifying the appropriate district counsel for current and former district employees or agents; or the Director of the OCC's Enforcement and Compliance Division at the Washington office, for current and former Washington employees or agents and former OTS employees or agents.

(b) *Non-OCC employees or entities*—(1) *Generally.* (i) Without OCC approval, no person, national bank, Federal savings association, or other entity, including one in lawful possession of non-public OCC information under paragraph (b)(2) of this section, may disclose information covered by this subpart in any manner, except:

(A) After the requester has sought the information from the OCC pursuant to the procedures set forth in this subpart; and

(B) As ordered by a Federal court in a judicial proceeding in which the OCC has had the opportunity to appear and oppose discovery.

(ii) Any person who discloses or uses non-public OCC information except as expressly permitted by the Comptroller of the Currency or as ordered by a Federal court, under paragraph (b)(1)(i) of this section, may be subject to the penalties provided in 18 U.S.C. 641.

(2) *Exception for national banks and Federal savings associations.* When necessary or appropriate for business purposes, a national bank, Federal savings association, or holding company, or any director, officer, or employee thereof, may disclose non-public OCC information, including information contained in, or related to, OCC reports of examination, to a person or organization officially connected with the bank or Federal savings association as officer, director, employee, attorney, auditor, or independent auditor. A national bank, Federal savings association, or holding company or a director, officer, or employee thereof, may also release non-public OCC information to a consultant under this paragraph if the consultant is under a written contract to provide services to the bank or Federal savings association and the consultant has a written agreement with the bank or Federal savings association in which the consultant:

(i) States its awareness of, and agreement to abide by, the prohibition on the dissemination of non-public OCC information contained in paragraph (b)(1) of this section; and

(ii) Agrees not to use the non-public OCC information for any purpose other than as provided under its contract to provide services to the bank or Federal savings association.

(3) *Duty of person or entity served.* Any person, national bank, Federal savings association, or other entity served with a request, subpoena, order, motion to compel, or other judicial or administrative process to provide non-public OCC information shall:

(i) Immediately notify the Director of the OCC's Litigation Division at the Washington, DC office and inform the Director of all relevant facts, including the documents and information requested, so that the OCC may intervene in the judicial or administrative action if appropriate;

(ii) Inform the requester of the substance of these rules and, in particular, of the obligation to follow the request procedures in §§ 4.33 and 4.34; and

(iii) At the appropriate time, inform the court or tribunal that issued the process of the substance of these rules.

(4) *Actions of the OCC following notice of service.* Following receipt of notice pursuant to paragraph (b)(3) of this section, the OCC may direct the requester to comply with §§ 4.33 and 4.34, intervene in the judicial or administrative action, attempt to have the compulsory process withdrawn, or register other appropriate objections.

(5) *Return of records.* The OCC may require any person in possession of OCC records to return the records to the OCC.

(c) *Disclosure to government agencies.* When not prohibited by law, the Comptroller may make available to the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and, in the Comptroller's sole discretion, to certain other government agencies of the United States and foreign governments, state agencies with authority to investigate violations of criminal law, and state bank and state savings association regulatory agencies, a copy of a report of examination, testimony, or other non-public OCC information for their use, when necessary, in the performance of their official duties. All non-public OCC information made available pursuant to this paragraph is OCC property, and the OCC may condition its use on appropriate confidentiality protections, including the mechanisms identified in § 4.38.

Comptroller of the Currency, Treasury

§ 4.40

(d) *Intention of OCC not to waive rights.* The possession by any of the entities or individuals described in paragraphs (a), (b), and (c) of this section of non-public OCC information does not constitute a waiver by the OCC of its right to control, or impose limitations on, the subsequent use and dissemination of the information.

[60 FR 57322, Nov. 15, 1995. Redesignated and amended at 63 FR 62929, Nov. 10, 1998; 64 FR 29217, June 1, 1999; 75 FR 75576, Dec. 3, 2010; 76 FR 43563, July 21, 2011]

§ 4.38 Restrictions on dissemination of released information.

(a) *Records.* The OCC may condition a decision to release non-public OCC information on entry of a protective order by the court or administrative tribunal presiding in the particular case or, in non-adversarial matters, on a written agreement of confidentiality. In a case in which a protective order has already been entered, the OCC may condition approval for release of non-public OCC information upon the inclusion of additional or amended provisions in the protective order. The OCC may authorize a party who obtained records for use in one case to provide them to another party in another case.

(b) *Testimony.* The OCC may condition its authorization of deposition testimony on an agreement of the parties to appropriate limitations, such as an agreement to keep the transcript of the testimony under seal or to make the transcript available only to the parties, the court, and the jury. Upon request or on its own initiative, the OCC may allow use of a transcript in other litigation. The OCC may require the requester, at the requester's expense, to furnish the OCC with a copy of the transcript. The OCC employee whose deposition was transcribed does not waive his or her right to review the transcript and to note errors.

[60 FR 57322, Nov. 15, 1995. Redesignated at 63 FR 62929, Nov. 10, 1998]

§ 4.39 Notification of parties and procedures for sharing and using OCC records in litigation.

(a) *Responsibility of litigants to notify parties of a request for testimony.* Upon submitting a request to the OCC for the testimony of an OCC employee or

former OCC or OTS employee, the requester shall notify all other parties to the case that a request has been submitted.

(b) *Responsibility of litigants to share released records.* The requester shall promptly notify other parties to a case of the release of non-public OCC information obtained pursuant to this subpart, and, upon entry of a protective order, shall provide copies of OCC information, including OCC information obtained pursuant to § 4.15, to the other parties.

(c) *Retrieval and destruction of released records.* At the conclusion of an action:

(1) The requester shall retrieve any non-public OCC information from the court's file as soon as the court no longer requires the information;

(2) Each party shall destroy the non-public OCC information covered by the protective order; and

(3) Each party shall certify to the OCC that the non-public OCC information covered by the protective order has been destroyed.

(d) *Authentication for use as evidence.* Upon request, the OCC authenticates released records to facilitate their use as evidence. Requesters who require authenticated records or certificates of nonexistence of records should, as early as possible, request certificates from the OCC's Litigation Division pursuant to § 4.34(a).

[60 FR 57322, Nov. 15, 1995. Redesignated at 63 FR 62929, Nov. 10, 1998; 76 FR 43563, July 21, 2011]

§ 4.40 Fees for services.

(a) *Fees for records search, copying, and certification.* The requester shall pay a fee to the OCC, or to a commercial copier under contract to the OCC, for any records search, copying, or certification in accordance with the standards specified in § 4.17. The OCC may require a requester to remit payment prior to providing the requested information.

(b) *Witness fees and mileage.* A person whose request for testimony of a current OCC employee is approved shall, upon completion of the testimonial appearance, tender promptly to the OCC payment for the witness fees and mileage. The litigant shall compute these amounts in accordance with 28 U.S.C.

1821. A litigant whose request for testimony of a former OCC employee is approved shall tender promptly to the witness any witness fees or mileage due in accordance with 28 U.S.C. 1821.

[60 FR 57322, Nov. 15, 1995. Redesignated at 63 FR 62929, Nov. 10, 1998]

APPENDIX A TO SUBPART C OF PART 4—
MODEL STIPULATION FOR PROTECTIVE ORDER AND MODEL PROTECTIVE ORDER

I. MODEL STIPULATION

CASE CAPTION

Model Stipulation for Protective Order

Whereas, counsel for _____ have applied to the Comptroller of the Currency (hereinafter “Comptroller”) pursuant to 12 CFR part 4, Subpart C, for permission to have made available, in connection with the captioned action, certain records; and

Whereas, such records are deemed by the Comptroller to be confidential and privileged, pursuant to 12 U.S.C. 481, 1463(a)(1), 1464(a)(1) and 1464(d)(1)(B)(i); 5 U.S.C. 552(b)(8); 18 U.S.C. 641, 1906; and 12 CFR 4.12, and part 4, Subpart C; and

Whereas, following consideration by the Comptroller of the application of the above described party, the Comptroller has determined that the particular circumstances of the captioned action warrant making certain possibly relevant records as denoted in appendix “A” to this Stipulation [records to be specified by type and date] available to the parties in this action, provided that appropriate protection of their confidentiality can be secured;

Therefore, it is hereby stipulated by and between the parties hereto, through their respective attorneys that they will be bound by the following protective order which may be entered by the Court without further notice.

Dated this _____ day of _____, 19____.

Attorney for Plaintiff

Attorney for Defendant

II. MODEL PROTECTIVE ORDER

CASE CAPTION

Model Protective Order

Whereas, counsel for _____ have applied to the Comptroller of the Currency (hereinafter “Comptroller”) pursuant to 12 CFR part 4, Subpart C, for permission to have made available, in connection with the captioned action, certain records; and

Whereas, such records are deemed by the Comptroller to be confidential and privileged, pursuant to 12 U.S.C. 481, 1463(a)(1), 1464(a)(1) and 1464(d)(1)(B)(i); 5 U.S.C. 552(b)(8); 18 U.S.C. 641, 1906; and 12 CFR 4.12, and part 4, Subpart C;

Whereas, following consideration by the Comptroller of the application of the above described party, the Comptroller has determined that the particular circumstances of the captioned action warrant making certain possibly relevant records available to the parties in this action, provided that appropriate protection of their confidentiality can be secured;

Now, Therefore, it is Ordered That:

1. The records, as denoted in appendix “A” to the Stipulation for this Protective Order, upon being furnished [or released for use] by the Comptroller, shall be disclosed only to the parties to this action, their counsel, and the court [and the jury].

2. The parties to this action and their counsel shall keep such records and any information contained in such records confidential and shall in no way divulge the same to any person or entity, except to such experts, consultants and non-party witnesses to whom the records and their contents shall be disclosed, solely for the purpose of properly preparing for and trying the action.

3. No person to whom information and records covered by this Order are disclosed shall make any copies or otherwise use such information or records or their contents for any purpose whatsoever, except in connection with this action.

4. Any party or other person who wishes to use the information or records or their contents in any other action shall make a separate application to the Comptroller pursuant to 12 CFR part 4, Subpart C.

5. Should any records covered by this Order be filed with the Court or utilized as exhibits at depositions in the captioned action, or should information or records or their contents covered by this Order be disclosed in the transcripts of depositions or the trial in the captioned action, such records, exhibits and transcripts shall be filed in sealed envelopes or other sealed containers marked with the title of this action, identifying each document and article therein and bearing a statement substantially in the following form:

CONFIDENTIAL

Pursuant to the Order of the Court dated _____ this envelope containing the above-identified papers filed by (the name of the party) is not to be opened nor the contents thereof displayed or revealed except to the parties to this action or their counsel or by further Order of the Court.

6. FOR JURY TRIAL: Any party offering any of the records into evidence shall offer only those pages, or portions thereof, that

Comptroller of the Currency, Treasury

§ 4.62

are relevant and material to the issues to be decided in the action and shall block out any portion of any page that contains information not relevant or material. Furthermore, the name of any person or entity contained on any page of the records who is not a party to this action, or whose name is not otherwise relevant or material to the action, shall be blocked out prior to the admission of such page into evidence. Any disagreement regarding what portion of any page that should be blocked out in this manner shall be resolved by the Court *in camera*, and the Court shall decide its admissibility into evidence.

7. At the conclusion of this action, all parties shall certify to the Comptroller that the records covered by this Order have been destroyed. Furthermore, counsel for _____, pursuant to 12 CFR 4.39(c), shall retrieve any records covered by this Order that may have been filed with the Court.

So Ordered:

Judge

Date

[60 FR 57322, Nov. 15, 1995, as amended at 64 FR 29217, June 1, 1999]

Subpart D—Minority-, Women-, and Individuals With Disabilities-Owned Business Contracting Outreach Program; Contracting for Goods and Services

§ 4.61 Purpose.

Pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, Sec. 1216(c), Pub. L. 101-73, 103 Stat. 183, 529 (12 U.S.C. 1833e(c)) and consistent with the Rehabilitation Act of 1973, as amended (29 U.S.C. 701 *et seq.*), this subpart establishes the OCC Minority-, Women-, and Individuals with Disabilities-Owned Business Contracting Outreach Program (Outreach Program). The Outreach Program is intended to ensure that firms owned and operated by minorities, women, and individuals with disabilities have the opportunity to participate, to the maximum extent possible, in all contracting activities of the OCC.

§ 4.62 Definitions.

(a) *Minority- and/or women-owned (small and large) businesses and entities owned by minorities and women (MWOB)* means firms at least 51 percent uncon-

ditionally-owned by one or more members of a minority group or by one or more women who are citizens of the United States. In the case of publicly-owned companies, at least 51 percent of each class of voting stock must be unconditionally-owned by one or more members of a minority group or by one or more women who are citizens of the United States. In the case of a partnership, at least 51 percent of the partnership interest must be unconditionally-owned by one or more members of a minority group or by one or more women who are citizens of the United States. Additionally, for the foregoing cases, the management and daily business operations must be controlled by one or more such individuals.

(b) *Minority* means any African American, Native American (*i.e.*, American Indian, Eskimo, Aleut and Native Hawaiian), Hispanic American, Asian-Pacific American, or Subcontinent-Asian American.

(c) *Individual with disabilities-owned (small and large) businesses and entities owned by individuals with disabilities (IDOB)* means firms at least 51 percent unconditionally-owned by one or more members who are individuals with disabilities and citizens of the United States. In the case of publicly-owned companies, at least 51 percent of each class of voting stock must be unconditionally-owned by one or more members who are individuals with disabilities and who are citizens of the United States. In the case of a partnership, at least 51 percent of the partnership interest must be unconditionally-owned by one or more members who are individuals with disabilities and citizens of the United States. Additionally, for the foregoing cases, the management and daily business operations must be controlled by one or more such individuals.

(d) *Individual with disabilities* means any person who has a physical or mental impairment that substantially limits one or more of such person's major life activities, has a record of such an impairment, or is regarded as having such an impairment. For purposes of this part, it does not include an individual who is currently engaging in the illegal use of drugs nor an individual who has a currently contagious disease

§ 4.63

or infection and who, by reason of such disease or infection, would constitute a direct threat to the health or safety of other individuals or who, by reason of the currently contagious disease or infection, is unable to perform the duties of the job as defined by the IDOB.

(e) *Unconditional ownership* means ownership that is not subject to conditions or similar arrangements which cause the benefits of the Outreach Program to accrue to persons other than the participating MWOB or IDOB.

§ 4.63 Policy.

The OCC's policy is to ensure that MWOBs and IDOBs have the opportunity to participate, to the maximum extent possible, in contracts awarded by the OCC. The OCC awards contracts consistent with the principles of full and open competition and best value acquisition, and with the concept of contracting for agency needs at the lowest practicable cost. The OCC ensures that MWOBs and IDOBs have the opportunity to participate fully in all contracting activities that the OCC enters into for goods and services, whether generated by the headquarters office in Washington, DC, or any other office of the OCC. Contracting opportunities may include small purchase awards, contracts above the small purchase threshold, and delivery orders issued against other governmental agency contracts.

§ 4.64 Promotion.

(a) *Scope.* The OCC, under the direction of the Deputy Comptroller for Resource Management, engages in promotion and outreach activities designed to identify MWOBs and IDOBs capable of providing goods and services needed by the OCC, to facilitate interaction between the OCC and the MWOBs and IDOBs community, and to indicate the OCC's commitment to doing business with that community. The Outreach Program is designed to facilitate OCC's participation in business promotion events sponsored by other government agencies and attended by minorities, women and individuals with disabilities. Once the OCC has identified a prospective participant, it will assist the minority- or women-owned business or individual

12 CFR Ch. I (1-1-14 Edition)

with disabilities-owned business in understanding the OCC's needs and contracting process.

(b) *Outreach activities.* OCC's Outreach Program includes the following:

(1) Obtaining various lists and directories of MWOBs and IDOBs maintained by government agencies;

(2) Contacting appropriate firms for participation in the OCC's Outreach Program;

(3) Participating in business promotion events comprised of or attended by MWOBs and IDOBs to explain OCC contracting opportunities and to obtain names of potential MWOBs and IDOBs;

(4) Ensuring that the OCC contracting staff understands and actively promotes this Outreach Program; and

(5) Registering MWOBs and IDOBs in the Department of the Treasury's database to facilitate their participation in the competitive procurement process for OCC contracts. This database is used by OCC procurement staff to identify firms to be solicited for OCC procurements.

§ 4.65 Certification.

(a) *Objective.* To preserve the integrity and foster the Outreach Program's objectives, each prospective MWOB or IDOB must demonstrate that it meets the ownership and control requirements for participation in the Outreach Program.

(b) *MWOB.* A prospective MWOB may demonstrate its eligibility for participation in the Outreach Program by:

(1) Submitting a valid MWOB certification received from another government agency whose definition of MWOB is substantially similar to that specified in § 4.62(a);

(2) Self-certifying MWOB ownership status by filing with the OCC a completed and signed certification form as prescribed by the Federal Acquisition Regulation, 48 CFR 53.301-129; or

(3) Submitting a valid MWOB certification received from the Small Business Administration.

(c) *IDOB.* A prospective IDOB may demonstrate its eligibility for participation in the Outreach Program by:

(1) Submitting a valid IDOB certification received from another government agency whose definition of IDOB

Comptroller of the Currency, Treasury

§ 4.73

is substantially similar to that specified in § 4.62(c); or

(2) Self-certifying IDOB ownership status by filing with the OCC a completed and signed certification as prescribed in the Federal Acquisition Regulation, 48 CFR 53.301-129, and adding an additional certifying statement to read as follows:

I certify that I am an individual with disabilities as defined in 12 CFR 4.62(d), and that my firm, (Name of Firm) qualifies as an individual with disabilities-owned business as defined in 12 CFR 4.62(c).

§ 4.66 Oversight and monitoring.

The Deputy Comptroller for Resource Management shall appoint an Outreach Program Manager, who shall appoint an Outreach Program Specialist. The Outreach Program Manager is primarily responsible for program advocacy, oversight and monitoring.

Subpart E—One-Year Restrictions on Post-Employment Activities of Senior Examiners

SOURCE: 70 FR 69637, Nov. 17, 2005, unless otherwise noted.

§ 4.72 Scope and purpose.

This subpart describes those OCC examiners who are subject to the post-employment restrictions set forth in section 10(k) of the Federal Deposit Insurance Act (FDI Act) (12 U.S.C. 1820(k)) and implements those restrictions for officers and employees of the OCC.

§ 4.73 Definitions.

For purposes of this subpart:

Bank holding company means any company that controls a bank (as provided in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*)).

Consultant. For purposes of this subpart, a consultant for a national bank, savings association, bank holding company, savings and loan holding company, or other company shall include only an individual who works directly on matters for, or on behalf of, such bank, savings association, bank holding company, savings and loan holding company, or other company.

Control has the meaning given in section 2 of the Bank Holding Company Act (12 U.S.C. 1841(a)) or in section 10 of the Home Owners' Loan Act (12 U.S.C. 1467a), as applicable under the circumstances. For purposes of this subpart, a foreign bank shall be deemed to control any branch or agency of the foreign bank.

Depository institution has the meaning given in section 3 of the FDI Act (12 U.S.C. 1813(c)). For purposes of this subpart, a depository institution includes an uninsured branch or agency of a foreign bank, if such branch or agency is located in any State.

Federal Reserve means the Board of Governors of the Federal Reserve System and the Federal Reserve Banks.

Foreign bank means any foreign bank or company described in section 8(a) of the International Banking Act of 1978 (12 U.S.C. 3106(a)).

Insured depository institution has the meaning given in section 3 of the FDI Act (12 U.S.C. 1813(c)(2)).

National bank means a national banking association or a Federal branch or agency of a foreign bank.

Savings association has the meaning given in section 3 of the FDI Act (12 U.S.C. 1813(b)(1)).

Savings and loan holding company means any company that controls a savings association or any other company that is a savings and loan holding company (as provided in section 10 of the Home Owners' Loan Act (12 U.S.C. 1467a)).

Senior examiner. For purposes of this subpart, an officer or employee of the OCC is considered to be the "senior examiner" for a particular national bank or savings association if—

(1) The officer or employee has been authorized by the OCC to conduct examinations on behalf of the OCC;

(2) The officer or employee has been assigned continuing, broad, and lead responsibility for examining the national bank or savings association; and

(3) The officer's or employee's responsibilities for examining the national bank or savings association—

(i) Represent a substantial portion of the officer's or employee's assigned responsibilities; and

(ii) Require the officer or employee to interact routinely with officers or

§ 4.74

12 CFR Ch. I (1–1–14 Edition)

employees of the national bank or savings association, or its affiliates.”

[70 FR 69637, Nov. 17, 2005, as amended at 76 FR 43563, July 21, 2011]

§ 4.74 One-year post-employment restrictions.

An officer or employee of the OCC who serves as the senior examiner of a national bank or savings association for two or more months during the last twelve months of such individual’s employment with the OCC may not, within one year after leaving the employment of the OCC, knowingly accept compensation as an employee, officer, director or consultant from the national bank, savings association, or any company (including a bank holding company or savings and loan holding company) that controls the national bank or savings association.

[76 FR 43564, July 21, 2011]

§ 4.75 Waivers.

The post-employment restrictions set forth in section 10(k) of the FDI Act (12 U.S.C. 1820(k)) and § 4.74 do not apply to any officer or employee of the OCC, or any former officer or employee of the OCC, if the Comptroller of the Currency certifies, in writing and on a case-by-case basis, that granting the individual a waiver of the restrictions would not affect the integrity of the OCC’s supervisory program.

[76 FR 43564, July 21, 2011]

§ 4.76 Penalties.

(a) *Penalties under section 10(k) of FDI Act (12 U.S.C. 1820(k)).* If a senior examiner of a national bank or savings association, after leaving the employment of the OCC, accepts compensation as an employee, officer, director, or consultant from that bank, savings association, or any company (including a bank holding company or savings and loan holding company) that controls that bank or savings association in violation of § 4.74, then the examiner shall, in accordance with section 10(k)(6) of the FDI Act (12 U.S.C. 1820(k)(6)), be subject to one of the following penalties—

(1) An order—

(i) Removing the individual from office or prohibiting the individual from

further participation in the affairs of the relevant national bank, savings association, bank holding company, savings and loan holding company, or other company that controls such institution for a period of up to five years; and

(ii) Prohibiting the individual from participating in the affairs of any insured depository institution for a period of up to five years; or

(2) A civil monetary penalty of not more than \$250,000.

(b) *Enforcement by appropriate Federal banking agency.* Violations of § 4.74 shall be administered or enforced by the appropriate Federal banking agency for the depository institution or depository institution holding company that provided compensation to the former senior examiner. For purposes of this paragraph, the appropriate Federal banking agency for a company that is not a depository institution or depository institution holding company shall be the Federal banking agency that formerly employed the senior examiner.

(c) *Scope of prohibition orders.* Any senior examiner who is subject to an order issued under paragraph (a) of this section shall, as required by 12 U.S.C. 1820(k)(6)(B), be subject to paragraphs (6) and (7) of section 8(e) of the FDI Act (12 U.S.C. 1818(e)(6)–(7)) in the same manner and to the same extent as a person subject to an order issued under section 8(e).

(d) *Procedures.* The procedures applicable to actions under paragraph (a) of this section are provided in section 10(k)(6) of the FDI Act (12 U.S.C. 1820(k)(6)) and in 12 CFR part 19.

(e) *Remedies not exclusive.* The OCC may seek both of the penalties described in paragraph (a) of this section. In addition, a senior examiner who accepts compensation as described in § 4.74 may be subject to other administrative, civil or criminal remedies or penalties as provided in law.

SOURCE: 61 FR 60363, Nov. 27, 1996, unless otherwise noted.

§ 5.1 Scope.

This part establishes rules, policies and procedures of the Office of the Comptroller of the Currency (OCC) for corporate activities and transactions involving national banks. It contains information on rules of general and specific applicability, where and how to file, and requirements and policies applicable to filings. This part also establishes the corporate filing procedures for Federal branches and agencies of foreign banks.

Subpart A—Rules of General Applicability

§ 5.2 Rules of general applicability.

(a) *General.* The rules in this subpart apply to all sections in this part unless otherwise stated.

(b) *Exceptions.* The OCC may adopt materially different procedures for a particular filing, or class of filings, in exceptional circumstances or for unusual transactions, after providing notice of the change to the applicant and to any other party that the OCC determines should receive notice.

(c) *Additional information.* The “Comptroller’s Licensing Manual” (Manual) provides additional guidance, including policies, procedures, and sample forms. The Manual is available on the OCC’s Internet Web page at <http://www.occ.treas.gov>. Printed copies are available for a fee from Publications, Communications Division, Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219-0001.

(d) *Electronic filing.* The OCC may permit electronic filing for any class of filings. The Manual identifies filings that may be made electronically and

§ 5.3

12 CFR Ch. I (1–14 Edition)

describes the procedures that the OCC requires in those cases.

[61 FR 60363, Nov. 27, 1996, as amended at 68 FR 17892, Apr. 14, 2003]

§ 5.3 Definitions.

(a) *Applicant* means a person or entity that submits a notice or application to the OCC under this part.

(b) *Application* means a submission requesting OCC approval to engage in various corporate activities and transactions.

(c) *Appropriate district office* means:

(1) The Licensing Department for all national bank subsidiaries of those holding companies assigned to the Washington, DC, licensing unit;

(2) The appropriate OCC district office for all national bank subsidiaries of certain holding companies assigned to a district office licensing unit;

(3) The OCC's district office where the national bank's supervisory office is located for all other banks; or

(4) The licensing unit in the Northeastern District Office for Federal branches and agencies of foreign banks.

(d) *Capital and surplus* means:

(1) A bank's Tier 1 and Tier 2 capital calculated under the OCC's risk-based capital standards set forth in appendix A to 12 CFR part 3 as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161; plus

(2) The balance of a bank's allowance for loan and lease losses not included in the bank's Tier 2 capital, for purposes of the calculation of risk-based capital described in paragraph (d)(1) of this section, as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161.

(e) *Central city* means the city or cities identified as central cities by the Director of the Office of Management and Budget.

(f) *Depository institution* means any bank or savings association.

(g) *Eligible bank* means a national bank that:

(1) Is well capitalized as defined in 12 CFR 6.4(b)(1);

(2) Has a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System (CAMELS);

(3) Has a Community Reinvestment Act (CRA), 12 U.S.C. 2901 *et seq.*, rating

of "Outstanding" or "Satisfactory"; and

(4) Is not subject to a cease and desist order, consent order, formal written agreement, or Prompt Corrective Action directive (*see* 12 CFR part 6, subpart B) or, if subject to any such order, agreement, or directive, is informed in writing by the OCC that the bank may be treated as an "eligible bank" for purposes of this part.

(h) *Eligible depository institution* means a state bank or a Federal or state savings association that meets the criteria for an "eligible bank" under § 5.3(g) and is FDIC-insured.

(i) *Filing* means an application or notice submitted to the OCC under this part.

(j) *Notice* means a submission notifying the OCC that a national bank intends to engage in or has commenced certain corporate activities or transactions.

(k) *Short-distance relocation* means moving the premises of a branch or main office within a:

(1) One thousand foot-radius of the site if the branch is located within a central city of an MSA;

(2) One-mile radius of the site if the branch is not located within a central city, but is located within an MSA; or

(3) Two-mile radius of the site if the branch is not located within an MSA.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999; 68 FR 70698, Dec. 19, 2003; 73 FR 22236, Apr. 24, 2008]

§ 5.4 Filing required.

(a) *Filing*. A depository institution shall file an application or notice with the OCC to engage in corporate activities and transactions as described in this part.

(b) *Availability of forms*. Individual sample forms and instructions for filings are available in the Manual and from each district office.

(c) *Other applications accepted*. At the request of the applicant, the OCC may accept an application form or other filing submitted to another Federal agency that covers the proposed action or transaction and contains substantially the same information as required by the OCC. The OCC may also require the applicant to submit supplemental information.

(d) *Where to file.* An applicant should address a filing or other submission under this part to the attention of the Director for District Licensing at the appropriate district office. However, the OCC may advise an applicant through a pre-filing communication to send the filing or submission directly to the Licensing Department or elsewhere as otherwise directed by the OCC. Relevant addresses are listed in the Manual.

(e) *Incorporation of other material.* An applicant may incorporate any material contained in any other application or filing filed with the OCC or other Federal agency by reference, provided that the material is attached to the application and is current and responsive to the information requested by the OCC. The filing must clearly indicate that the information is so incorporated and include a cross-reference to the information incorporated.

[61 FR 60363, Nov. 27, 1996, as amended at 73 FR 22236, Apr. 24, 2008]

§ 5.5 Fees.

An applicant shall submit the appropriate filing fee, if any, in connection with its filing. An applicant shall pay the fee by check payable to the Comptroller of the Currency or by other means acceptable to the OCC. The OCC publishes a fee schedule annually in the "Notice of Comptroller of the Currency fees," described in 12 CFR 8.8. The OCC generally does not refund the filing fees.

§ 5.6 [Reserved]

§ 5.7 Investigations.

(a) *Authority.* The OCC may examine or investigate and evaluate facts related to a filing to the extent necessary to reach an informed decision.

(b) *Fees.* The OCC may assess fees for investigations or examinations conducted under paragraph (a) of this section. The OCC publishes the rates, described in 12 CFR 8.6, annually in the "Notice of Comptroller of the Currency fees."

§ 5.8 Public notice.

(a) *General.* An applicant shall publish a public notice of its filing in a newspaper of general circulation in the

community in which the applicant proposes to engage in business, on the date of filing, or as soon as practicable before or after the date of filing.

(b) *Contents of the public notice.* The public notice shall state that a filing is being made, the date of the filing, the name of the applicant, the subject matter of the filing, that the public may submit comments to the OCC, the address of the appropriate office(s) where comments should be sent, the closing date of the public comment period, and any other information that the OCC requires.

(c) *Confirmation of public notice.* The applicant shall mail or otherwise deliver a statement containing the date of publication, the name and address of the newspaper that published the public notice, a copy of the public notice, and any other information that the OCC requires, to the appropriate district office promptly following publication.

(d) *Multiple transactions.* The OCC may consider more than one transaction, or a series of transactions, to be a single filing for purposes of the publication requirements of this section. When filing a single public notice for multiple transactions, the applicant shall explain in the notice how the transactions are related.

(e) *Joint public notices accepted.* Upon the request of an applicant for a transaction subject to the OCC's public notice requirements and public notice required by another Federal agency, the OCC may accept publication of a single joint notice containing the information required by both the OCC and the other Federal agency, provided that the notice states that comments must be submitted to both the OCC and, if applicable, the other Federal agency.

(f) *Public notice by the OCC.* In addition to the foregoing, the OCC may require or give public notice and request comment on any filing and in any manner the OCC determines appropriate for the particular filing.

§ 5.9 Public availability.

(a) *General.* The OCC provides a copy of the public file to any person who requests it. A requestor should submit a request for the public file concerning a pending application to the appropriate

§5.10

12 CFR Ch. I (1–1–14 Edition)

district office. A requestor should submit a request for the public file concerning a decided or closed application to the Disclosure Officer, Communications Division, at the address listed in the Manual. Requests should be in writing. The OCC may impose a fee in accordance with 12 CFR 4.17 and with the rates the OCC publishes annually in the “Notice of Comptroller of the Currency Fees” described in 12 CFR 8.8.

(b) *Public file.* A public file consists of the portions of the filing, supporting data, supplementary information, and information submitted by interested persons, to the extent that those documents have not been afforded confidential treatment. Applicants and other interested persons may request that confidential treatment be afforded information submitted to the OCC pursuant to paragraph (c) of this section.

(c) *Confidential treatment.* The applicant or an interested person submitting information may request that specific information be treated as confidential under the Freedom of Information Act, 5 U.S.C. 552 (see 12 CFR 4.12(b)). A submitter should draft its request for confidential treatment narrowly to extend only to those portions of a document it considers to be confidential. If a submitter requests confidential treatment for information that the OCC does not consider to be confidential, the OCC may include that information in the public file after providing notice to the submitter. Moreover, at its own initiative, the OCC may determine that certain information should be treated as confidential and withhold that information from the public file. A person requesting information withheld from the public file should submit the request to the Disclosure Officer, Communications Division, under the procedures described in 12 CFR part 4, subpart B. That request may be subject to the predisclosure notice procedures of 12 CFR 4.16.

§5.10 Comments.

(a) *Submission of comments.* During the comment period, any person may submit written comments on a filing to the appropriate district office.

(b) *Comment period—(1) General.* Unless otherwise stated, the comment pe-

riod is 30 days after publication of the public notice required by §5.8(a).

(2) *Extension.* The OCC may extend the comment period if:

(i) The applicant fails to file all required publicly available information on a timely basis to permit review by interested persons or makes a request for confidential treatment not granted by the OCC that delays the public availability of that information;

(ii) Any person requesting an extension of time satisfactorily demonstrates to the OCC that additional time is necessary to develop factual information that the OCC determines is necessary to consider the application; or

(iii) The OCC determines that other extenuating circumstances exist.

(3) *Applicant response.* The OCC may give the applicant an opportunity to respond to comments received.

§5.11 Hearings and other meetings.

(a) *Hearing requests.* Prior to the end of the comment period, any person may submit to the appropriate district office a written request for a hearing on a filing. The request must describe the nature of the issues or facts to be presented and the reasons why written submissions would be insufficient to make an adequate presentation of those issues or facts to the OCC. A person requesting a hearing shall simultaneously submit a copy of the request to the applicant.

(b) *Action on a hearing request.* The OCC may grant or deny a request for a hearing and may limit the issues to those it deems relevant or material. The OCC generally grants a hearing request only if the OCC determines that written submissions would be insufficient or that a hearing would otherwise benefit the decisionmaking process. The OCC also may order a hearing if it concludes that a hearing would be in the public interest.

(c) *Denial of a hearing request.* If the OCC denies a hearing request, it shall notify the person requesting the hearing of the reason for the denial.

(d) *OCC procedures prior to the hearing—(1) Notice of Hearing.* The OCC issues a Notice of Hearing if it grants a request for a hearing or orders a hearing because it is in the public interest.

Comptroller of the Currency, Treasury

§5.13

The OCC sends a copy of the Notice of Hearing to the applicant, to the person requesting the hearing, and anyone else requesting a copy. The Notice of Hearing states the subject and date of the filing, the time and place of the hearing, and the issues to be addressed.

(2) *Presiding officer.* The OCC appoints a presiding officer to conduct the hearing. The presiding officer is responsible for all procedural questions not governed by this section.

(e) *Participation in the hearing.* Any person who wishes to appear (participant) shall notify the appropriate district office of his or her intent to participate in the hearing within ten days from the date the OCC issues the Notice of Hearing. At least five days before the hearing, each participant shall submit to the appropriate district office, the applicant, and any other person the OCC requires, the names of witnesses, and one copy of each exhibit the participant intends to present.

(f) *Transcripts.* The OCC arranges for a hearing transcript. The person requesting the hearing generally bears the cost of one copy of the transcript for his or her use.

(g) *Conduct of the hearing—(1) Presentations.* Subject to the rulings of the presiding officer, the applicant and participants may make opening statements and present witnesses, material, and data.

(2) *Information submitted.* A person presenting documentary material shall furnish one copy to the OCC, and one copy to the applicant and each participant.

(3) *Laws not applicable to hearings.* The Administrative Procedure Act (5 U.S.C. 551 *et seq.*), the Federal Rules of Evidence (28 U.S.C. appendix), the Federal Rules of Civil Procedure (28 U.S.C. Rule 1 *et seq.*), and the OCC's Rules of Practice and Procedure (12 CFR part 19) do not apply to hearings under this section.

(h) *Closing the hearing record.* At the applicant's or participant's request, the OCC may keep the hearing record open for up to 14 days following the OCC's receipt of the transcript. The OCC resumes processing the filing after the record closes.

(i) *Other meetings—(1) Public meetings.* The OCC may arrange for a public

meeting in connection with an application, either upon receipt of a written request for such a meeting which is made during the comment period, or upon the OCC's own initiative. Public meetings will be arranged and presided over by a presiding officer.

(2) *Private meetings.* The OCC may arrange a meeting with an applicant or other interested parties to an application, or with an applicant and other interested parties to an application, to clarify and narrow the issues and to facilitate the resolution of the issues.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§5.12 Computation of time.

In computing the period of days, the OCC includes the day of the act (*e.g.*, the date an application is received by the OCC) from which the period begins to run and the last day of the period, regardless of whether it is a Saturday, Sunday, or legal holiday.

§5.13 Decisions.

(a) *General.* The OCC may approve, conditionally approve, or deny a filing after appropriate review and consideration of the record. In deciding an application under this part, the OCC may consider the activities, resources, or condition of an affiliate of the applicant that may reasonably reflect on or affect the applicant.

(1) *Conditional approval.* The OCC may impose conditions on any approval, including to address a significant supervisory, CRA (if applicable), or compliance concern, if the OCC determines that the conditions are necessary or appropriate to ensure that approval is consistent with relevant statutory and regulatory standards and OCC policies thereunder and safe and sound banking practices.

(2) *Expedited review.* The OCC grants eligible banks expedited review within a specified time after filing or commencement of the public comment period, including any extension of the comment period granted pursuant to §5.10, as described in applicable sections of this part.

(i) The OCC may extend the expedited review process for a filing subject to the CRA up to an additional 10 days

§5.13

12 CFR Ch. I (1–14 Edition)

if a comment contains specific assertions concerning a bank's CRA performance that, if true, would indicate a reasonable possibility that:

(A) A bank's CRA rating would be less than satisfactory, institution-wide, or, where applicable, in a state or multistate MSA; or

(B) A bank's CRA performance would be less than satisfactory in an MSA, or in the non-MSA portion of a state, in which it seeks to expand through approval of an application for a deposit facility as defined in 12 U.S.C. 2902(3).

(ii) The OCC will remove a filing from expedited review procedures, if the OCC concludes that the filing, or an adverse comment regarding the filing, presents a significant supervisory, CRA (if applicable), or compliance concern, or raises a significant legal or policy issue, requiring additional OCC review. The OCC will provide the applicant with a written explanation if it decides not to process an application from an eligible bank under expedited review pursuant to this paragraph (a)(2)(ii). For purposes of this section, a significant CRA concern exists if the OCC concludes that:

(A) A bank's CRA rating is less than satisfactory, institution-wide, or, where applicable, in a state or multistate MSA; or

(B) A bank's CRA performance is less than satisfactory in an MSA, or in the non-MSA portion of a state, in which it seeks to expand through approval of an application for a deposit facility as defined in 12 U.S.C. 2902(3).

(iii) Adverse comments that the OCC determines do not raise a significant supervisory, CRA (if applicable), or compliance concern, or a significant legal or policy issue, or are frivolous, filed primarily as a means of delaying action on the filing, or that raise a CRA concern that the OCC determines has been satisfactorily resolved, do not affect the OCC's decision under paragraphs (a)(2)(i) or (a)(2)(ii) of this section. The OCC considers a CRA concern to have been satisfactorily resolved if the OCC previously reviewed (*e.g.*, in an examination or an application) a concern presenting substantially the same issue in substantially the same assessment area during substantially the same time, and the OCC determines

that the concern would not warrant denial or imposition of a condition on approval of the application.

(iv) If a bank files an application for any activity or transaction that is dependent upon the approval of another application under this part, or if requests for approval for more than one activity or transaction are combined in a single application under applicable sections of this part, none of the subject applications may be deemed approved upon expiration of the applicable time periods, unless all of the applications are subject to expedited review procedures and the longest of the time periods expires without the OCC issuing a decision or notifying the bank that the filings are not eligible for expedited review under the standards in paragraph (a)(2)(ii) of this section.

(b) *Denial.* The OCC may deny a filing if:

(1) A significant supervisory, CRA (if applicable), or compliance concern exists with respect to the applicant;

(2) Approval of the filing is inconsistent with applicable law, regulation, or OCC policy thereunder; or

(3) The applicant fails to provide information requested by the OCC that is necessary for the OCC to make an informed decision.

(c) *Required information and abandonment of filing.* A filing must contain information required by the applicable section set forth in this part. To the extent necessary to evaluate an application, the OCC may require an applicant to provide additional information. The OCC may deem a filing abandoned if information required or requested by the OCC in connection with the filing is not furnished within the time period specified by the OCC. The OCC may return an application without a decision if it finds the filing to be materially deficient. A filing is materially deficient if it lacks sufficient information for the OCC to make a determination under the applicable statutory or regulatory criteria.

(d) *Notification of final disposition.* The OCC notifies the applicant, and any person who makes a written request, of the final disposition of a filing, including confirmation of an expedited review under this part. If the OCC denies

Comptroller of the Currency, Treasury

§ 5.20

a filing, the OCC notifies the applicant in writing of the reasons for the denial.

(e) *Publication of decision.* The OCC will issue a public decision when a decision represents a new or changed policy or presents issues of general interest to the public or the banking industry. In rendering its decisions, the OCC may elect not to disclose information that the OCC deems to be private or confidential.

(f) *Appeal.* An applicant may file an appeal of an OCC decision with the Deputy Comptroller for Licensing or with the Ombudsman. Relevant addresses and telephone numbers are located in the Manual. In the event the Deputy Comptroller for Licensing was the deciding official of the matter appealed, or was involved personally and substantially in the matter, the appeal may be referred instead to the Chief Counsel.

(g) *Extension of time.* When the OCC approves or conditionally approves a filing, the OCC generally gives the applicant a specified period of time to commence that new or expanded activity. The OCC does not generally grant an extension of the time specified to commence a new or expanded corporate activity approved under this part, unless the OCC determines that the delay is beyond the applicant's control.

(h) *Nullifying a decision*—(1) *Material misrepresentation or omission.* An applicant shall certify that any filing or supporting material submitted to the OCC contains no material misrepresentations or omissions. The OCC may review and verify any information filed in connection with a notice or an application. If the OCC discovers a material misrepresentation or omission after the OCC has rendered a decision on the filing, the OCC may nullify its decision. Any person responsible for any material misrepresentation or omission in a filing or supporting materials may be subject to enforcement action and other penalties, including criminal penalties provided in 18 U.S.C. 1001.

(2) *Other nullifications.* The OCC may nullify any decision on a filing that is:

(i) Contrary to law, regulation, or OCC policy thereunder; or

(ii) Granted due to clerical or administrative error, or a material mistake of law or fact.

[61 FR 60363, Nov. 27, 1996, as amended at 73 FR 22236, Apr. 24, 2008]

Subpart B—Initial Activities

§ 5.20 Organizing a bank.

(a) *Authority.* 12 U.S.C. 21, 22, 24(Seventh), 26, 27, 92a, 93a, 1814(b), 1816, and 2903.

(b) *Licensing requirements.* Any person desiring to establish a national bank shall submit an application and obtain prior OCC approval.

(c) *Scope.* This section describes the procedures and requirements governing OCC review and approval of an application to establish a national bank, including a national bank with a special purpose. Information regarding an application to establish an interim national bank solely to facilitate a business combination is set forth in § 5.33.

(d) *Definitions.* For purposes of this section:

(1) *Bankers' bank* means a bank owned exclusively (except to the extent directors' qualifying shares are required by law) by other depository institutions or depository institution holding companies (as that term is defined in section 3 of the Federal Deposit Insurance Act, 12 U.S.C. 1813), the activities of which are limited by its articles of association exclusively to providing services to or for other depository institutions, their holding companies, and the officers, directors, and employees of such institutions and companies, and to providing correspondent banking services at the request of other depository institutions or their holding companies.

(2) *Control* means control as used in section 2 of the Bank Holding Company Act, 12 U.S.C. 1841(a)(2).

(3) *Final approval* means the OCC action issuing a charter certificate and authorizing a national bank to open for business.

(4) *Holding company* means any company that controls or proposes to control a national bank whether or not the company is a bank holding company under section 2 of the Bank Holding Company Act, 12 U.S.C. 1841(a)(1).

(5) *Lead depository institution* means the largest depository institution controlled by a bank holding company based on a comparison of the average total assets controlled by each depository institution as reported in its Consolidated Report of Condition and Income required to be filed for the immediately preceding four calendar quarters.

(6) *Organizing group* means five or more persons acting on their own behalf, or serving as representatives of a sponsoring holding company, who apply to the OCC for a national bank charter.

(7) *Preliminary approval* means a decision by the OCC permitting an organizing group to go forward with the organization of the proposed national bank. A preliminary approval generally is subject to certain conditions that an applicant must satisfy before the OCC will grant final approval.

(e) *Statutory requirements—(1) General.* The OCC charters a national bank under the authority of the National Bank Act of 1864, as amended, 12 U.S.C. 1 *et seq.* The bank may be a special purpose bank that limits its activities to fiduciary activities or to any other activities within the business of banking. A special purpose bank that conducts activities other than fiduciary activities must conduct at least one of the following three core banking functions: receiving deposits; paying checks; or lending money. The name of a proposed bank must include the word “national.” In determining whether to approve an application to establish a national bank, the OCC verifies that the proposed national bank has complied with the following requirements of the National Bank Act. A national bank shall:

- (i) Draft and file articles of association with the OCC;
- (ii) Draft and file an organization certificate containing specified information with the OCC;
- (iii) Ensure that all capital stock is paid in; and
- (iv) Have at least five elected directors.

(2) *Community Reinvestment Act.* Twelve CFR part 25 requires the OCC to take into account a proposed in-

sured national bank’s description of how it will meet its CRA objectives.

(f) *Policy—(1) General.* The marketplace is normally the best regulator of economic activity, and competition within the marketplace promotes efficiency and better customer service. Accordingly, it is the OCC’s policy to approve proposals to establish national banks, including minority-owned institutions, that have a reasonable chance of success and that will be operated in a safe and sound manner. It is not the OCC’s policy to ensure that a proposal to establish a national bank is without risk to the organizers or to protect existing institutions from healthy competition from a new national bank.

(2) *Policy considerations.* (i) In evaluating an application to establish a national bank, the OCC considers whether the proposed bank:

(A) Has organizers who are familiar with national banking laws and regulations;

(B) Has competent management, including a board of directors, with ability and experience relevant to the types of services to be provided;

(C) Has capital that is sufficient to support the projected volume and type of business;

(D) Can reasonably be expected to achieve and maintain profitability; and

(E) Will be operated in a safe and sound manner.

(ii) The OCC may also consider additional factors listed in section 6 of the Federal Deposit Insurance Act, 12 U.S.C. 1816, including the risk to the Federal deposit insurance fund, and whether the proposed bank’s corporate powers are consistent with the purposes of the Federal Deposit Insurance Act and the National Bank Act.

(3) *OCC evaluation.* The OCC evaluates a proposed national bank’s organizing group and its business plan or operating plan together. The OCC’s judgment concerning one may affect the evaluation of the other. An organizing group and its business plan or operating plan must be stronger in markets where economic conditions are marginal or competition is intense.

(g) *Organizing group—(1) General.* Strong organizing groups generally include diverse business and financial interests and community involvement.

An organizing group must have the experience, competence, willingness, and ability to be active in directing the proposed national bank's affairs in a safe and sound manner. The bank's initial board of directors generally is comprised of many, if not all, of the organizers. The business plan or operating plan and other information supplied in the application must demonstrate an organizing group's collective ability to establish and operate a successful bank in the economic and competitive conditions of the market to be served. Each organizer should be knowledgeable about the business plan or business plan or operating plan. A poor business plan or operating plan reflects adversely on the organizing group's ability, and the OCC generally denies applications with poor business plans or operating plans.

(2) *Management selection.* The initial board of directors must select competent senior executive officers before the OCC grants final approval. Early selection of executive officers, especially the chief executive officer, contributes favorably to the preparation and review of a business plan or operating plan that is accurate, complete, and appropriate for the type of bank proposed and its market, and reflects favorably upon an application. As a condition of the charter approval, the OCC retains the right to object to and preclude the hiring of any officer, or the appointment or election of any director, for a two-year period from the date the bank commences business.

(3) *Financial resources.* (i) Each organizer must have a history of responsibility, personal honesty, and integrity. Personal wealth is not a prerequisite to become an organizer or director of a national bank. However, directors' stock purchases, individually and in the aggregate, should reflect a financial commitment to the success of the national bank that is reasonable in relation to their individual and collective financial strength. A director should not have to depend on bank dividends, fees, or other compensation to satisfy financial obligations.

(ii) Because directors are often the primary source of additional capital for a bank not affiliated with a holding company, it is desirable that an orga-

nizer who is also proposed as a director of the national bank be able to supply or have a realistic plan to enable the bank to obtain capital when needed.

(iii) Any financial or other business arrangement, direct or indirect, between the organizing group or other insider and the proposed national bank must be on nonpreferential terms.

(4) *Organizational expenses.* (i) Organizers are expected to contribute time and expertise to the organization of the bank. Organizers should not bill excessive charges to the bank for professional and consulting services or unduly rely upon these fees as a source of income.

(ii) A proposed national bank shall not pay any fee that is contingent upon an OCC decision. Such action generally is grounds for denial of the application or withdrawal of preliminary approval. Organizational expenses for denied applications are the sole responsibility of the organizing group.

(5) *Sponsor's experience and support.* A sponsor must be financially able to support the new bank's operations and to provide or locate capital when needed. The OCC primarily considers the financial and managerial resources of the sponsor and the sponsor's record of performance, rather than the financial and managerial resources of the organizing group, if an organizing group is sponsored by:

- (i) An existing holding company;
- (ii) Individuals currently affiliated with other depository institutions; or
- (iii) Individuals who, in the OCC's view, are otherwise collectively experienced in banking and have demonstrated the ability to work together effectively.

(h) *Business plan or Operating plan—*

(1) *General.* (i) Organizers of a proposed national bank shall submit a business plan or operating plan that adequately addresses the statutory and policy considerations set forth in paragraphs (e) and (f)(2) of this section. The plan must reflect sound banking principles and demonstrate realistic assessments of risk in light of economic and competitive conditions in the market to be served.

(ii) The OCC may offset deficiencies in one factor by strengths in one or

more other factors. However, deficiencies in some factors, such as unrealistic earnings prospects, may have a negative influence on the evaluation of other factors, such as capital adequacy, or may be serious enough by themselves to result in denial. The OCC considers inadequacies in a business plan or operating plan to reflect negatively on the organizing group's ability to operate a successful bank.

(2) *Earnings prospects.* The organizing group shall submit *pro forma* balance sheets and income statements as part of the business plan or operating plan. The OCC reviews all projections for reasonableness of assumptions and consistency with the business plan or operating plan.

(3) *Management.* (i) The organizing group shall include in the business plan or operating plan information sufficient to permit the OCC to evaluate the overall management ability of the organizing group. If the organizing group has limited banking experience or community involvement, the senior executive officers must be able to compensate for such deficiencies.

(ii) The organizing group may not hire an officer or elect or appoint a director if the OCC objects to that person at any time prior to the date the bank commences business.

(4) *Capital.* A proposed bank must have sufficient initial capital, net of any organizational expenses that will be charged to the bank's capital after it begins operations, to support the bank's projected volume and type of business.

(5) *Community service.* (i) The business plan or operating plan must indicate the organizing group's knowledge of and plans for serving the community. The organizing group shall evaluate the banking needs of the community, including its consumer, business, non-profit, and government sectors. The business plan or operating plan must demonstrate how the proposed bank responds to those needs consistent with the safe and sound operation of the bank. The provisions of this paragraph may not apply to an application to organize a bank for a special purpose.

(ii) As part of its business plan or operating plan, the organizing group shall submit a statement that dem-

onstrates its plans to achieve CRA objectives.

(iii) Because community support is important to the long-term success of a bank, the organizing group shall include plans for attracting and maintaining community support.

(6) *Safety and soundness.* The business plan or operating plan must demonstrate that the organizing group (and the sponsoring company, if any), is aware of, and understands, national banking laws and regulations, and safe and sound banking operations and practices. The OCC will deny an application that does not meet these safety and soundness requirements.

(7) *Fiduciary services.* The business plan or operating plan must indicate if the proposed bank intends to offer fiduciary services. The information required by § 5.26 shall be filed with the charter application. A separate application is not required.

(i) *Procedures—(1) Prefiling meeting.* The OCC normally requires a pre-filing meeting with the organizers of a proposed national bank before the organizers file an application. Organizers should be familiar with the OCC's chartering policy and procedural requirements in the Manual before the pre-filing meeting. The pre-filing meeting normally is held in the district office where the application will be filed but may be held at another location at the request of the applicant.

(2) *Business plan or operating plan.* An organizing group shall file a business plan or operating plan that addresses the subjects discussed in paragraph (h) of this section.

(3) *Contact person.* The organizing group shall designate a contact person to represent the organizing group in all contacts with the OCC. The contact person shall be an organizer and proposed director of the new bank, except a representative of the sponsor or sponsors may serve as contact person if an application is sponsored by an existing holding company, individuals currently affiliated with other depository institutions, or individuals who, in the OCC's view, are otherwise collectively experienced in banking and have demonstrated the ability to work together effectively.

(4) *Decision notification.* The OCC notifies the spokesperson and other interested persons in writing of its decision on an application.

(5) *Activities.* (i) Before the OCC grants final approval, a proposed national bank must be established as a legal entity. A national bank becomes a legal entity after it has filed its organization certificate and articles of association with the OCC as required by law. A proposed national bank may offer and sell securities prior to OCC preliminary approval of the proposed national bank's charter application, provided that the proposed national bank has filed articles of association, an organization certificate, and a completed charter application and the bank complies with the OCC's securities offering regulations, 12 CFR part 16.

(ii) In addition, the organizing group shall elect a board of directors. The proposed bank may not conduct the business of banking until the OCC grants final approval.

(iii) For all capital obtained through a public offering a proposed national bank shall use an offering circular that complies with the OCC's securities offering regulations, 12 CFR part 16.

(iv) A national bank in organization shall raise its capital before it commences business. Preliminary approval expires if a national bank in organization does not raise the required capital within 12 months from the date the OCC grants preliminary approval. Approval expires if the national bank does not commence business within 18 months from the date the OCC grants preliminary approval.

(j) *Expedited review.* An application to establish a full-service national bank that is sponsored by a bank holding company whose lead depository institution is an eligible bank or eligible depository institution is deemed preliminarily approved by the OCC as of the 15th day after the close of the public comment period or the 45th day after the filing is received by the OCC, whichever is later, unless the OCC:

(1) Notifies the applicant prior to that date that the filing is not eligible for expedited review, or the expedited review process is extended, under § 5.13(a)(2); or

(2) Notifies the applicant prior to that date that the OCC has determined that the proposed bank will offer banking services that are materially different than those offered by the lead depository institution.

(k) *National bankers' banks—(1) Activities and customers.* In addition to the other requirements of this section, when an organizing group seeks to organize a national bankers' bank, the organizing group shall list in the application the anticipated activities and customers or clients of the proposed national bankers' bank.

(2) *Waiver of requirements.* At the organizing group's request, the OCC may waive requirements that are applicable to national banks in general if those requirements are inappropriate for a national bankers' bank and would impede its ability to provide desired services to its market. An applicant must submit a request for a waiver with the application and must support the request with adequate justification and legal analysis. A national bankers' bank that is already in operation may also request a waiver. The OCC cannot waive statutory provisions that specifically apply to national bankers' banks pursuant to 12 U.S.C. 27(b)(1).

(3) *Investments.* A national bank may invest up to ten percent of its capital and surplus in a bankers' bank and may own five percent or less of any class of a bankers' bank's voting securities.

(1) *Special purpose banks.* An applicant for a national bank charter that will limit its activities to fiduciary activities, credit card operations, or another special purpose shall adhere to established charter procedures with modifications appropriate for the circumstances as determined by the OCC. An applicant for a national bank charter that will have a community development focus shall also adhere to established charter procedures with modifications appropriate for the circumstances as determined by the OCC. In addition to the other requirements in this section, a bank limited to fiduciary activities, credit card operations, or another special purpose may not conduct that business until the OCC grants final approval for the bank to commence operations. A national bank

§ 5.24

that seeks to invest in a bank with a community development focus must comply with applicable requirements of 12 CFR part 24.

[61 FR 60363, Nov. 27, 1996, as amended at 68 FR 70129, Dec. 17, 2003; 69 FR 50297, Aug. 16, 2004; 73 FR 22236, Apr. 24, 2008]

§ 5.24 Conversion.

(a) *Authority.* 12 U.S.C. 35, 93a, 214a, 214b, 214c, and 2903.

(b) *Licensing requirements.* A state bank (including a “state bank” as defined in 12 U.S.C. 214(a)) or a Federal savings association shall submit an application and obtain prior OCC approval to convert to a national bank charter. A national bank shall give notice to the OCC before converting to a state bank (including a “state bank” as defined in 12 U.S.C. 214(a)) or Federal savings association.

(c) *Scope.* This section describes procedures and standards governing OCC review and approval of an application by a state bank or Federal savings association to convert to a national bank charter. This section also describes notice procedures for a national bank seeking to convert to a state bank or Federal savings association.

(d) *Conversion of a state bank or Federal savings association to a national bank—(1) Policy.* Consistent with the OCC’s chartering policy, it is OCC policy to allow conversion to a national bank charter by another financial institution that can operate safely and soundly as a national bank in compliance with applicable laws, regulations, and policies. The OCC may deny an application by any state bank (including a “state bank” as defined in 12 U.S.C. 214(a)) and any Federal savings association to convert to a national bank charter on the basis of the standards for denial set forth in § 5.13(b), or when conversion would permit the applicant to escape supervisory action by its current regulator.

(2) *Procedures.* (i) Prefiling communications. The applicant should consult with the appropriate district office prior to filing if it anticipates that its application will raise unusual or complex issues. If a prefilling meeting is appropriate, it will normally be held in the district office where the application will be filed, but may be held at

12 CFR Ch. I (1–1–14 Edition)

another location at the request of the applicant.

(ii) A state bank (including a state bank as defined in 12 U.S.C. 214(a)) or Federal savings association shall submit its application to convert to a national bank to the appropriate district office. The application must:

(A) Be signed by the president or other duly authorized officer;

(B) Identify each branch that the resulting bank expects to operate after conversion;

(C) Include the institution’s most recent audited financial statements (if any);

(D) Include the latest report of condition and report of income (the most recent daily statement of condition will suffice if the institution does not file these reports);

(E) Unless otherwise advised by the OCC in a prefilling communication, include an opinion of counsel that, in the case of a state bank, the conversion is not in contravention of applicable state law, or in the case of a Federal savings association, the conversion is not in contravention of applicable Federal law;

(F) State whether the institution wishes to exercise fiduciary powers after the conversion;

(G) Identify all subsidiaries that will be retained following the conversion, and provide the information and analysis of the subsidiaries’ activities that would be required if the converting bank or savings association were a national bank establishing each subsidiary pursuant to §§ 5.34 or 5.39; and

(H) Identify any nonconforming assets (including nonconforming subsidiaries) and nonconforming activities that the institution engages in, and describe the plans to retain or divest those assets.

(iii) The OCC may permit a national bank to retain such nonconforming assets of a state bank, subject to conditions and an OCC determination of the carrying value of the retained assets, pursuant to 12 U.S.C. 35.

(iv) Approval for an institution to convert to a national bank expires if the conversion has not occurred within six months of the OCC’s preliminary approval of the application.

Comptroller of the Currency, Treasury

§ 5.26

(v) When the OCC determines that the applicant has satisfied all statutory and regulatory requirements, including those set forth in 12 U.S.C. 35, and any other conditions, the OCC issues a charter certificate. The certificate provides that the institution is authorized to begin conducting business as a national bank as of a specified date.

(3) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, and 5.11 do not apply to this section. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that any or all parts of §§ 5.8, 5.10, and 5.11 apply.

(4) *Expedited review.* An application by an eligible depository institution to convert to a national bank charter is deemed approved by the OCC as of the 30th day after the filing is received by the OCC, unless the OCC notifies the applicant prior to that date that the filing is not eligible for expedited review under § 5.13(a)(2).

(e) *Conversion of a national bank to a state bank—(1) Procedure.* A national bank may convert to a state bank, in accordance with 12 U.S.C. 214c, without prior OCC approval. Termination of the national bank's status as a national bank occurs upon the bank's completion of the requirements of 12 U.S.C. 214a, and upon the appropriate district office's receipt of the bank's national bank charter (or copy) in connection with the consummation of the transaction.

(2) *Notice of intent.* A national bank that desires to convert to a state bank shall submit to the appropriate district office a notice of its intent to convert. The national bank shall file this notice when it first submits a request to convert to the appropriate state authorities. The appropriate district office then provides instructions to the national bank for terminating its status as a national bank.

(3) *Exceptions to the rules of general applicability.* Sections 5.5 through 5.8, and 5.10 through 5.13, do not apply to the conversion of a national bank to a state bank.

(f) *Conversion of a national bank to a Federal savings association.* A national bank may convert to a Federal savings

association without prior OCC approval. The requirements and procedures set forth in paragraph (e) of this section and 12 U.S.C. 214a and 12 U.S.C. 214c apply to a conversion to a Federal savings association, except as follows:

(1) In paragraph (e) of this section references to "appropriate state authorities" mean "appropriate Federal authorities"; and

(2) References in 12 U.S.C. 214c to the "law of the State in which the national banking association is located" and "any State authority" mean "laws and regulations governing Federal savings associations" and "Office of Thrift Supervision," respectively.

[61 FR 60363, Nov. 27, 1996, as amended at 65 FR 12910, Mar. 10, 2000]

§ 5.26 Fiduciary powers.

(a) *Authority.* 12 U.S.C. 92a.

(b) *Licensing requirements.* A national bank must submit an application and obtain prior approval from, or in certain circumstances file a notice with, the OCC in order to exercise fiduciary powers. No approval or notice is required in the following circumstances:

(1) Where two or more national banks consolidate or merge, and any of the banks has, prior to the consolidation or merger, received OCC approval to exercise fiduciary powers and that approval is in force at the time of the consolidation or merger, the resulting bank may exercise fiduciary powers in the same manner and to the same extent as the national bank to which approval was originally granted; and

(2) Where a national bank with prior OCC approval to exercise fiduciary powers is the resulting bank in a merger or consolidation with a state bank.

(c) *Scope.* This section sets forth the procedures governing OCC review and approval of an application, and in certain cases the filing of a notice, by a national bank to exercise fiduciary powers. A national bank's fiduciary activities are subject to the provisions of 12 CFR part 9.

(d) *Policy.* The exercise of fiduciary powers is primarily a management decision of the national bank. The OCC generally permits a national bank to exercise fiduciary powers if the bank is operating in a satisfactory manner, the

proposed activities comply with applicable statutes and regulations, and the bank retains qualified fiduciary management.

(e) *Procedure*—(1) *General*. The following institutions must obtain approval from the OCC in order to offer fiduciary services to the public:

(i) A national bank without fiduciary powers;

(ii) A national bank without fiduciary powers that desires to exercise fiduciary powers after merging with a state bank or savings association with fiduciary powers; and

(iii) A national bank that results from the conversion of a state bank or a state or Federal savings association that was exercising fiduciary powers prior to the conversion.

(2) *Application*. (i) Except as provided in paragraph (e)(2)(ii) of this section, a national bank that desires to exercise fiduciary powers shall submit to the OCC an application requesting approval. The application must contain:

(A) A statement requesting full or limited powers (specifying which powers);

(B) A statement that the capital and surplus of the national bank is not less than the capital and surplus required by state law of state banks, trust companies, and other corporations exercising comparable fiduciary powers;

(C) Sufficient biographical information on proposed trust management personnel to enable the OCC to assess their qualifications;

(D) A description of the locations where the bank will conduct fiduciary activities; and

(E) If requested by the OCC, an opinion of counsel that the proposed activities do not violate applicable Federal or State law, including citations to applicable law.

(ii) If approval to exercise fiduciary powers is desired in connection with any other transaction subject to an application under this part, the applicant covered under paragraph (e)(1)(ii) or (e)(1)(iii) of this section may include a request for approval of fiduciary powers, including the information required by paragraph (e)(2)(i) of this section, as part of its other application. The OCC does not require a separate application requesting approval to exercise fidu-

ciary powers under these circumstances.

(3) *Expedited review*. An application by an eligible bank to exercise fiduciary powers is deemed approved by the OCC as of the 30th day after the application is received by the OCC, unless the OCC notifies the bank prior to that date that the filing is not eligible for expedited review under §5.13(a)(2).

(4) *Permit*. Approval of an application under this section constitutes a permit under 12 U.S.C. 92a to conduct the fiduciary powers requested in the application.

(5) *Notice of fiduciary activities in additional states*. No further application under this section is required when a national bank with existing OCC approval to exercise fiduciary powers plans to engage in any of the activities specified in §9.7(d) of this chapter or to conduct activities ancillary to its fiduciary business, in a state in addition to the state described in the application for fiduciary powers that the OCC has approved. Instead, unless the bank provides notice through other means (such as a merger application), the bank shall provide written notice to the OCC no later than ten days after it begins to engage in any of the activities specified in §9.7(d) of this chapter in the new state. The written notice must identify the new state or states involved, identify the fiduciary activities to be conducted, and describe the extent to which the activities differ materially from the fiduciary activities that the bank was previously authorized to conduct. No notice is required if the bank is conducting only activities ancillary to its fiduciary business through a trust representative office or otherwise.

(6) *Exceptions to rules of general applicability*. Sections 5.8, 5.10, and 5.11 do not apply to this section. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that any or all parts of §§5.8, 5.10, and 5.11 apply.

(7) *Expiration of approval*. Approval expires if a national bank does not

commence fiduciary activities within 18 months from the date of approval.

[61 FR 60363, Nov. 27, 1996, as amended at 66 FR 34797, July 2, 2001; 73 FR 22237, Apr. 24, 2008]

Subpart C—Expansion of Activities

§ 5.30 Establishment, acquisition, and relocation of a branch.

(a) *Authority.* 12 U.S.C. 1–42, and 2901–2907.

(b) *Licensing requirements.* A national bank shall submit an application and obtain prior OCC approval in order to establish or relocate a branch.

(c) *Scope.* This section describes the procedures and standards governing OCC review and approval of a national bank's application to establish a new branch or to relocate a branch. The standards of this section and, as applicable, 12 U.S.C. 36(b), but not the procedures set forth in this section, apply to a branch established as a result of a business combination approved under § 5.33. A branch established through a business combination is subject only to the procedures set forth in § 5.33.

(d) *Definitions*—(1) *Branch* includes any branch bank, branch office, branch agency, additional office, or any branch place of business established by a national bank in the United States or its territories at which deposits are received, checks paid, or money lent. A branch does not include an automated teller machine (ATM) or a remote service unit.

(i) A branch established by a national bank includes a mobile facility, temporary facility, intermittent facility, drop box or a seasonal agency, as described in 12 U.S.C. 36(c).

(ii) A facility otherwise described in this paragraph (d)(1) is not a branch if:

(A) The bank establishing the facility does not permit members of the public to have physical access to the facility for purposes of making deposits, paying checks, or borrowing money (*e.g.*, an office established by the bank that receives deposits only through the mail); or

(B) It is located at the site of, or is an extension of, an approved main or branch office of the national bank. The OCC determines whether a facility is

an extension of an existing main or branch office on a case-by-case basis.

(2) *Home state* means the state in which the national bank's main office is located.

(3) *Intermittent branch* means a branch that is operated for one or more limited periods of time to provide branch banking services at a specified recurring event, on the grounds or premises where the event is held or at a fixed site adjacent to the grounds or premises where the event is held, and exclusively during the occurrence of the event. Examples of an intermittent branch include the operation of a branch on the campus of, or at a fixed site adjacent to the campus of, a specific college during school registration periods; or the operation of a branch during a State fair on State fairgrounds or at a fixed site adjacent to the fairgrounds.

(4) *Messenger service* has the meaning set forth in 12 CFR 7.1012.

(5) *Mobile branch* is a branch, other than a messenger service branch, that does not have a single, permanent site, and includes a vehicle that travels to various public locations to enable customers to conduct their banking business. A mobile branch may provide services at various regularly scheduled locations or it may be open at irregular times and locations such as at county fairs, sporting events, or school registration periods. A branch license is needed for each mobile unit.

(6) *Temporary branch* means a branch that is located at a fixed site and which, from the time of its opening, is scheduled to, and will, permanently close no later than a certain date (not longer than one year after the branch is first opened) specified in the branch application and the public notice.

(e) *Policy.* In determining whether to approve an application to establish or relocate a branch, the OCC is guided by the following principles:

(1) Maintaining a sound banking system;

(2) Encouraging a national bank to help meet the credit needs of its entire community;

(3) Relying on the marketplace as generally the best regulator of economic activity; and

(4) Encouraging healthy competition to promote efficiency and better service to customers.

(f) *Procedures*—(1) *General*. Except as provided in paragraph (f)(2) of this section, each national bank proposing to establish a branch shall submit to the appropriate district office a separate application for each proposed branch.

(2) *Messenger services*. A national bank may request approval, through a single application, for multiple messenger services to serve the same general geographic area. (See 12 CFR 7.1012). Unless otherwise required by law, the bank need not list the specific locations to be served.

(3) *Jointly established branches*. If a national bank proposes to establish a branch jointly with one or more national banks or depository institutions, only one of the national banks must submit a branch application. The national bank submitting the application may act as agent for all national banks in the group of depository institutions proposing to share the branch. The application must include the name and main office address of each national bank in the group.

(4) *Intermittent branches*. Prior to operating an intermittent branch, a national bank shall file a branch application and publish notice in accordance with §5.8, both of which shall identify the event at which the branch will be operated; designate a location for operation of the branch which shall be on the grounds or premises at which the event is held or on a fixed site adjacent to those grounds or premises; and specify the approximate time period during which the event will be held and during which the branch will operate, including whether operation of the branch will be on an annual or otherwise recurring basis. If the branch is approved, then the bank need not obtain approval each time it seeks to operate the branch in accordance with the original application and approval.

(5) *Authorization*. The OCC authorizes operation of the branch when all requirements and conditions for opening are satisfied.

(6) *Expedited review*. An application submitted by an eligible bank to establish or relocate a branch is deemed approved by the OCC as of the 15th day

after the close of the applicable public comment period, or the 45th day after the filing is received by the OCC, whichever is later, unless the OCC notifies the bank prior to that date that the filing is not eligible for expedited review, or the expedited review process is extended, under §5.13(a)(2). An application to establish or relocate more than one branch is deemed approved by the OCC as of the 15th day after the close of the last public comment period.

(g) *Interstate branches*. A national bank that seeks to establish and operate a de novo branch in any state other than the bank's home state or a state in which the bank already has a branch shall satisfy the standards and requirements of 12 U.S.C. 36(g).

(h) *Exceptions to rules of general applicability*. (1) A national bank filing an application for a mobile branch or messenger service branch shall publish a public notice, as described in §5.8, in the communities in which the bank proposes to engage in business.

(2) The comment period on an application to engage in a short-distance branch relocation is 15 days.

(3) The OCC may waive or reduce the public notice and comment period, as appropriate, with respect to an application to establish a branch to restore banking services to a community affected by a disaster or to temporarily replace banking facilities where, because of an emergency, the bank cannot provide services or must curtail banking services.

(4) The OCC may waive or reduce the public notice and comment period, as appropriate, for an application by a national bank with a CRA rating of Satisfactory or better to establish a temporary branch which, if it were established by a state bank to operate in the manner proposed, would be permissible under state law without state approval.

(i) *Expiration of approval*. Approval expires if a branch has not commenced business within 18 months after the date of approval.

(j) *Branch closings*. A national bank shall comply with the requirements of 12 U.S.C. 1831r-1 with respect to procedures for branch closings.

[61 FR 60363, Nov. 27, 1996, as amended at 73 FR 22237, Apr. 24, 2008]

§ 5.32 Expedited procedures for certain reorganizations.

- (a) *Authority.* 12 U.S.C. 93a and 215a-2.
- (b) *Scope.* This section prescribes the procedures for OCC review and approval of a national bank's reorganization to become a subsidiary of a bank holding company or a company that will, upon consummation of such reorganization, become a bank holding company. For purposes of this section, a "bank holding company" means any company that owns or controls a national bank, or will own or control one as a result of the reorganization.
- (c) *Licensing requirements.* A national bank shall submit an application to, and obtain approval from, the OCC prior to participating in a reorganization described in paragraph (b) of this section.
- (d) *Procedures—(1) General.* An application filed in accordance with this section shall be deemed approved on the 30th day after the OCC receives the application, unless the OCC notifies the bank otherwise. Approval is subject to the condition that the bank provide the OCC with 60 days' prior notice of any significant deviation from the bank's business plan or any significant deviation from the proposed changes to the bank's business plan described in the bank's plan of reorganization.
- (2) *Reorganization plan.* The application must include a reorganization plan that:
- (i) Specifies the manner in which the reorganization shall be carried out;
 - (ii) Is approved by a majority of the entire board of directors of the national bank;
 - (iii) Specifies:
 - (A) The amount and type of consideration that the bank holding company will provide to the shareholders of the reorganizing bank for their shares of stock of the bank;
 - (B) The date as of which the rights of each shareholder to participate in that exchange will be determined; and
 - (C) The manner in which the exchange will be carried out;
 - (iv) Is submitted to the shareholders of the reorganizing bank at a meeting to be held at the call of the directors in accordance with the procedures prescribed in connection with a merger of a national bank under section 3 of the

National Bank Consolidation and Merger Act, 12 U.S.C. 215a(a)(2); and

- (v) Describes any changes to the bank's business plan resulting from the reorganization.
- (3) *Financial and managerial resources and future prospects.* In reviewing an application under this section, the OCC will consider the impact of the proposed affiliation on the financial and managerial resources and future prospects of the national bank.
- (e) *Rights of dissenting shareholders.* Any shareholder of a bank who has voted against an approved reorganization at the meeting referred to in paragraph (d)(2)(iv) of this section, or who has given notice of dissent in writing to the presiding officer at or prior to that meeting, is entitled to receive the value of his or her shares by providing a written request to the bank within 30 days after the consummation of the reorganization, as provided by section 3 of the National Bank Consolidation and Merger Act, 12 U.S.C. 215a(b) and (c), for the merger of a national bank.
- (f) *Approval under the Bank Holding Company Act.* This section does not affect the applicability of the Bank Holding Company Act of 1956. Applicants shall indicate in their application the status of any application required to be filed with the Board of Governors of the Federal Reserve System.
- (g) *Expiration of approval.* Approval expires if a national bank has not completed the reorganization within one year of the date of approval.
- (h) *Adequacy of disclosure.* (1) An applicant shall inform shareholders of all material aspects of a reorganization and comply with applicable requirements of the Federal securities laws, including the OCC's securities regulations at 12 CFR part 11.
- (2) Any applicant not subject to the registration provisions of the Securities Exchange Act of 1934 shall submit the proxy materials or information statements it uses in connection with the reorganization to the appropriate district office no later than when the materials are sent to the shareholders.
- [68 FR 70129, Dec. 17, 2003]
- § 5.33 Business combinations.**
- (a) *Authority.* 12 U.S.C. 24(Seventh), 93a, 181, 214a, 214b, 215, 215a, 215a-1,

§ 5.33

12 CFR Ch. I (1–14 Edition)

215a-3, 215c, 1815(d)(3), 1828(c), 1831u, and 2903.

(b) *Scope.* This section sets forth the provisions governing business combinations and the standards for:

(1) OCC review and approval of an application for a business combination between a national bank and another depository institution resulting in a national bank or between a national bank and one of its nonbank affiliates; and

(2) Requirements of notices and other procedures for national banks involved in other combinations with depository institutions.

(c) *Licensing requirements.* A national bank shall submit an application and obtain prior OCC approval for a business combination between the national bank and another depository institution when the resulting institution is a national bank. A national bank shall give notice to the OCC prior to engaging in a combination where the resulting institution will not be a national bank. A national bank shall submit an application and obtain prior OCC approval for any merger between the national bank and one or more of its nonbank affiliates.

(d) *Definitions*—For purposes of this § 5.33:

(1) *Bank* means any national bank or any state bank.

(2) *Business combination* means any merger or consolidation between a national bank and one or more depository institutions in which the resulting institution is a national bank, the acquisition by a national bank of all, or substantially all, of the assets of another depository institution, the assumption by a national bank of deposit liabilities of another depository institution, or a merger between a national bank and one or more of its nonbank affiliates.

(3) *Business reorganization means either:*

(i) A business combination between eligible banks, or between an eligible bank and an eligible depository institution, that are controlled by the same holding company or that will be controlled by the same holding company prior to the combination; or

(ii) A business combination between an eligible bank and an interim bank chartered in a transaction in which a

person or group of persons exchanges its shares of the eligible bank for shares of a newly formed holding company and receives after the transaction substantially the same proportional share interest in the holding company as it held in the eligible bank (except for changes in interests resulting from the exercise of dissenters' rights), and the reorganization involves no other transactions involving the bank.

(4) *Company* means a corporation, limited liability company, partnership, business trust, association, or similar organization.

(5) For business combinations under § 5.33(g)(4) and (5), a company or shareholder is deemed to *control* another company if:

(i) Such company or shareholder, directly or indirectly, or acting through one or more other persons owns, controls, or has power to vote 25 percent or more of any class of voting securities of the other company, or

(ii) Such company or shareholder controls in any manner the election of a majority of the directors or trustees of the other company. No company shall be deemed to own or control another company by virtue of its ownership or control of shares in a fiduciary capacity.

(6) *Home state* means, with respect to a national bank, the state in which the main office of the bank is located and, with respect to a state bank, the state by which the bank is chartered.

(7) *Interim bank* means a national bank that does not operate independently but exists solely as a vehicle to accomplish a business combination.

(8) *Nonbank affiliate* of a national bank means any company (other than a bank or Federal savings association) that controls, is controlled by, or is under common control with the national bank.

(e) *Policy*—(1) *Factors*—(i) *Bank Merger Act.* When the OCC evaluates an application for a business combination under the Bank Merger Act, the OCC considers the following factors:

(A) *Competition.* (1) The OCC considers the effect of a proposed business combination on competition. The applicant shall provide a competitive analysis of the transaction, including a definition of the relevant geographic market or

markets. An applicant may refer to the Manual for procedures to expedite its competitive analysis.

(2) The OCC will deny an application for a business combination if the combination would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or attempt to monopolize the business of banking in any part of the United States. The OCC also will deny any proposed business combination whose effect in any section of the United States may be substantially to lessen competition, or tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the probable effects of the transaction in meeting the convenience and needs of the community clearly outweigh the anticompetitive effects of the transaction. For purposes of weighing against anticompetitive effects, a business combination may have favorable effects in meeting the convenience and needs of the community if the depository institution being acquired has limited long-term prospects, or if the resulting national bank will provide significantly improved, additional, or less costly services to the community.

(B) *Financial and managerial resources and future prospects.* The OCC considers the financial and managerial resources and future prospects of the existing or proposed institutions.

(C) *Convenience and needs of community.* The OCC considers the probable effects of the business combination on the convenience and needs of the community served. The applicant shall describe these effects in its application, including any planned office closings or reductions in services following the business combination and the likely impact on the community. The OCC also considers additional relevant factors, including the resulting national bank's ability and plans to provide expanded or less costly services to the community.

(ii) *Community Reinvestment Act.* When the OCC evaluates an application for a business combination under the Community Reinvestment Act, the OCC considers the performance of the applicant and the other depository institutions involved in the business combination in helping to meet the

credit needs of the relevant communities, including low- and moderate-income neighborhoods, consistent with safe and sound banking practices.

(iii) *Money laundering.* The OCC considers the effectiveness of any insured depository institution involved in the business combination in combating money laundering activities, including in overseas branches.

(2) *Acquisition and retention of branches.* An applicant shall disclose the location of any branch it will acquire and retain in a business combination. The OCC considers the acquisition and retention of a branch under the standards set out in § 5.30, but it does not require a separate application under § 5.30.

(3) *Subsidiaries.* (i) An applicant must identify any subsidiary to be acquired in a business combination and state the activities of each subsidiary. The OCC does not require a separate application under § 5.34 or a separate notice under § 5.39.

(ii) An applicant proposing to acquire, through a business combination, a subsidiary of any entity other than a national bank must provide the same information and analysis of the subsidiary's activities that would be required if the applicant were establishing the subsidiary pursuant to §§ 5.34 or 5.39.

(4) *Interim bank—(i) Application.* An applicant for a business combination that plans to use an interim bank to accomplish the transaction shall file an application to organize an interim bank as part of the application for the related business combination.

(ii) *Conditional approval.* The OCC grants conditional approval to form an interim bank when it acknowledges receipt of the application for the related business combination.

(iii) *Corporate status.* An interim bank becomes a legal entity and may enter into legally valid agreements when it has filed, and the OCC has accepted, the interim bank's duly executed articles of association and organization certificate. OCC acceptance occurs:

(A) On the date the OCC advises the interim bank that its articles of association and organization certificate are acceptable; or

(B) On the date the interim bank files articles of association and an organization certificate that conform to the form for those documents provided by the OCC in the Manual.

(iv) *Other corporate procedures.* An applicant should consult the Manual to determine what other information is necessary to complete the chartering of the interim bank as a national bank.

(5) *Nonconforming assets.* An applicant shall identify any nonconforming activities and assets, including nonconforming subsidiaries, of other institutions involved in the business combination, that will not be disposed of or discontinued prior to consummation of the transaction. The OCC generally requires a national bank to divest or conform nonconforming assets, or discontinue nonconforming activities, within a reasonable time following the business combination.

(6) *Fiduciary powers.* An applicant shall state whether the resulting bank intends to exercise fiduciary powers pursuant to §5.26(b) (1) or (2).

(7) *Expiration of approval.* Approval of a business combination, and conditional approval to form an interim bank charter, if applicable, expires if the business combination is not consummated within one year after the date of OCC approval.

(8) *Adequacy of disclosure.* (i) An applicant shall inform shareholders of all material aspects of a business combination and shall comply with any applicable requirements of the Federal securities laws and securities regulations of the OCC. Accordingly, an applicant shall ensure that all proxy and information statements prepared in connection with a business combination do not contain any untrue or misleading statement of a material fact, or omit to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading.

(ii) A national bank applicant with one or more classes of securities subject to the registration provisions of section 12 (b) or (g) of the Securities Exchange Act of 1934, 15 U.S.C. 78l(b) or 78l(g), shall file preliminary proxy material or information statements for review with the Director, Securities and

Corporate Practices Division, OCC, Washington, DC 20219. Any other applicant shall submit the proxy materials or information statements it uses in connection with the combination to the appropriate district office no later than when the materials are sent to the shareholders.

(f) *Exceptions to rules of general applicability*—(1) *National bank applicant.* Section 5.8 (a) through (c) does not apply to a national bank applicant that is subject to specific statutory notice requirements for a business combination. A national bank applicant shall follow, as applicable, the public notice requirements contained in 12 U.S.C. 1828(c)(3) (business combinations), 12 U.S.C. 215(a) (consolidation under a national bank charter), 12 U.S.C. 215a(a)(2) (merger under a national bank charter), paragraph (g)(2) of this section (merger or consolidation with a Federal savings association resulting in a national bank), paragraph (g)(4) of this section (merger with a nonbank affiliate under a national bank charter), and paragraph (g)(5) of this section (merger with nonbank affiliate not under national bank charter). Sections 5.10 and 5.11 do not apply to mergers of a national bank with its nonbank affiliate. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that some or all provisions in §§5.10 and 5.11 apply.

(2) *Interim bank.* Sections 5.8, 5.10, and 5.11 do not apply to an application to organize an interim bank. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that any or all parts of §§5.8, 5.10, and 5.11 apply. The OCC treats an application to organize an interim bank as part of the related application to engage in a business combination and does not require a separate public notice and public comment process.

(3) *State bank or Federal savings association as resulting institution.* Sections 5.2 and 5.5 through 5.13 do not apply to transactions covered by paragraph (g)(3) of this section.

(g) *Provisions governing consolidations and mergers with different types of entities.* (1) *Consolidations and mergers under 12 U.S.C. 215 or 215a of a national bank with other national banks and State banks as defined in 12 U.S.C. 215b(1) resulting in a national bank.* A national bank entering into a consolidation or merger authorized pursuant to 12 U.S.C. 215 or 215a, respectively, is subject to the approval procedures and requirements with respect to treatment of dissenting shareholders set forth in those provisions.

(2) *Consolidations and mergers with Federal savings associations under 12 U.S.C. 215c resulting in a national bank.*

(i) With the approval of the OCC, any national bank and any Federal savings association may consolidate or merge with a national bank as the resulting institution by complying with the following procedures:

(A) A national bank entering into the consolidation or merger shall follow the procedures of 12 U.S.C. 215 or 215a, respectively, as if the Federal savings association were a state or national bank.

(B) A Federal savings association entering into the consolidation or merger also shall follow the procedures of 12 U.S.C. 215 or 215a, respectively, as if the Federal savings association were a state bank or national bank, except where the laws or regulations governing Federal savings associations specifically provide otherwise.

(ii) The OCC may conduct an appraisal or reappraisal of dissenters' shares of stock in a national bank involved in a consolidation with a Federal savings association if all parties agree that the determination is final and binding on each party.

(3) *Consolidation or merger of a national bank resulting in a State bank as defined in 12 U.S.C. 214(a) under 12 U.S.C. 214a or a Federal savings association under 12 U.S.C. 215c—(i) Policy.* Prior OCC approval is not required for the merger or consolidation of a national bank with a state bank or Federal savings association when the resulting institution will be a state bank or Federal savings association. Termination of a national bank's status as a national banking association is automatic upon completion of the require-

ments of 12 U.S.C. 214a, in accordance with 12 U.S.C. 214b, in the case of a merger or consolidation when the resulting institution is a state bank, or paragraph (g)(3)(iii) of this section, in the case of a merger or consolidation when the resulting institution is a Federal savings association, and consummation of the transaction.

(ii) *Procedures.* A national bank desiring to merge or consolidate with a state bank or a Federal savings association when the resulting institution will be a state bank or Federal savings association shall submit a notice to the appropriate district office advising of its intention. The national bank shall submit this notice at the time the application to merge or consolidate is filed with the responsible agency under the Bank Merger Act, 12 U.S.C. 1828(c). The OCC then provides instructions to the national bank for terminating its status as a national bank, including requiring the bank to provide the appropriate district office with the bank's charter (or a copy) in connection with the consummation of the transaction.

(iii) *Special procedures for merger or consolidation into a Federal savings association.* (A) With the exception of the procedures in paragraph (g)(3)(iii)(B) of this section, a national bank entering into a merger or consolidation with a Federal savings association when the resulting institution will be a Federal savings association shall comply with the requirements of 12 U.S.C. 214a and 12 U.S.C. 214c as if the Federal savings association were a state bank. However, for these purposes the references in 12 U.S.C. 214c to "law of the State in which such national banking association is located" and "any State authority" mean "laws and regulations governing Federal savings associations" and "Office of Thrift Supervision," respectively.

(B) National bank shareholders who dissent from a plan to merge or consolidate may receive in cash the value of their national bank shares if they comply with the requirements of 12 U.S.C. 214a as if the Federal savings association were a state bank. The OCC conducts an appraisal or reappraisal of the value of the national bank shares held by dissenting shareholders only if

all parties agree that the determination will be final and binding. The parties shall also agree on how the total expenses of the OCC in making the appraisal will be divided among the parties and paid to the OCC. The plan of merger or consolidation must provide, consistent with the requirements of the Office of Thrift Supervision, the manner of disposing of the shares of the resulting Federal savings association not taken by the dissenting shareholders of the national bank.

(4) *Mergers of a national bank with its nonbank affiliates under 12 U.S.C. 215a–3 resulting in a national bank.* (i) With the approval of the OCC, a national bank may merge with one or more of its nonbank affiliates, with the national bank as the resulting institution, in accordance with the provisions of this paragraph, provided that the law of the state or other jurisdiction under which the nonbank affiliate is organized allows the nonbank affiliate to engage in such mergers. The transaction is also subject to approval by the FDIC under the Bank Merger Act, 12 U.S.C. 1828(c). In determining whether to approve the merger, the OCC shall consider the purpose of the transaction, its impact on the safety and soundness of the bank, and any effect on the bank's customers, and may deny the merger if it would have a negative effect in any such respect.

(ii) A national bank entering into the merger shall follow the procedures of 12 U.S.C. 215a as if the nonbank affiliate were a state bank, except as otherwise provided herein.

(iii) A nonbank affiliate entering into the merger shall follow the procedures for such mergers set out in the law of the state or other jurisdiction under which the nonbank affiliate is organized.

(iv) The rights of dissenting shareholders and appraisal of dissenters' shares of stock in the nonbank affiliate entering into the merger shall be determined in the manner prescribed by the law of the state or other jurisdiction under which the nonbank affiliate is organized.

(v) The corporate existence of each institution participating in the merger shall be continued in the resulting national bank, and all the rights, fran-

chises, property, appointments, liabilities, and other interests of the participating institutions shall be transferred to the resulting national bank, as set forth in 12 U.S.C. 215a(a), (e), and (f) in the same manner and to the same extent as in a merger between a national bank and a state bank under 12 U.S.C. 215a(a), as if the nonbank affiliate were a state bank.

(5) *Mergers of an uninsured national bank with its nonbank affiliates under 12 U.S.C. 215a–3 resulting in a nonbank affiliate.* (i) With the approval of the OCC, a national bank that is not an insured bank as defined in 12 U.S.C. 1813(h) may merge with one or more of its nonbank affiliates, with the nonbank affiliate as the resulting entity, in accordance with the provisions of this paragraph, provided that the law of the state or other jurisdiction under which the nonbank affiliate is organized allows the nonbank affiliate to engage in such mergers. In determining whether to approve the merger, the OCC shall consider the purpose of the transaction, its impact on the safety and soundness of the bank, and any effect on the bank's customers, and may deny the merger if it would have a negative effect in any such respect.

(ii) A national bank entering into the merger shall follow the procedures of 12 U.S.C. 214a, as if the nonbank affiliate were a state bank, except as otherwise provided in this section.

(iii) A nonbank affiliate entering into the merger shall follow the procedures for such mergers set out in the law of the state or other jurisdiction under which the nonbank affiliate is organized.

(iv) (A) National bank shareholders who dissent from an approved plan to merge may receive in cash the value of their national bank shares if they comply with the requirements of 12 U.S.C. 214a as if the nonbank affiliate were a state bank. The OCC may conduct an appraisal or reappraisal of dissenters' shares of stock in a national bank involved in the merger if all parties agree that the determination is final and binding on each party and agree on how the total expenses of the OCC in making the appraisal will be divided among the parties and paid to the OCC.

(B) The rights of dissenting shareholders and appraisal of dissenters' shares of stock in the nonbank affiliate involved in the merger shall be determined in the manner prescribed by the law of the state or other jurisdiction under which the nonbank affiliate is organized.

(v) The corporate existence of each entity participating in the merger shall be continued in the resulting nonbank affiliate, and all the rights, franchises, property, appointments, liabilities, and other interests of the participating national bank shall be transferred to the resulting nonbank affiliate as set forth in 12 U.S.C. 214b, in the same manner and to the same extent as in a merger between a national bank and a state bank under 12 U.S.C. 214a, as if the nonbank affiliate were a state bank.

(h) *Interstate combinations under 12 U.S.C. 1831u.* A business combination between insured banks with different home States under the authority of 12 U.S.C. 1831u must satisfy the standards and requirements and comply with the procedures of 12 U.S.C. 1831u and either 12 U.S.C. 215, 215a, and 215a-1, as applicable, if the resulting bank is a national bank, or 12 U.S.C. 214a, 214b, and 214c if the resulting bank is a State bank. For purposes of 12 U.S.C. 1831u, the acquisition of a branch without the acquisition of all or substantially all of the assets of a bank is treated as the acquisition of a bank whose home State is the State in which the branch is located.

(i) *Expedited review for business reorganizations and streamlined applications.* A filing that qualifies as a business reorganization as defined in paragraph (d)(2) of this section, or a filing that qualifies as a streamlined application as described in paragraph (j) of this section, is deemed approved by the OCC as of the 45th day after the application is received by the OCC, or the 15th day after the close of the comment period, whichever is later, unless the OCC notifies the applicant that the filing is not eligible for expedited review, or the expedited review process is extended, under § 5.13(a)(2). An application under this paragraph must contain all necessary information for the OCC to determine if it qualifies as a business re-

organization or streamlined application.

(j) *Streamlined applications.* (1) An applicant may qualify for a streamlined business combination application in the following situations:

(i) At least one party to the transaction is an eligible bank, and all other parties to the transaction are eligible banks or eligible depository institutions, the resulting national bank will be well capitalized immediately following consummation of the transaction, and the total assets of the target institution are no more than 50 percent of the total assets of the acquiring bank, as reported in each institution's Consolidated Report of Condition and Income filed for the quarter immediately preceding the filing of the application;

(ii) The acquiring bank is an eligible bank, the target bank is not an eligible bank or an eligible depository institution, the resulting national bank will be well capitalized immediately following consummation of the transaction, and the applicants in a pre-filing communication request and obtain approval from the appropriate district office to use the streamlined application;

(iii) The acquiring bank is an eligible bank, the target bank is not an eligible bank or an eligible depository institution, the resulting bank will be well capitalized immediately following consummation of the transaction, and the total assets acquired do not exceed 10 percent of the total assets of the acquiring national bank, as reported in each institution's Consolidated Report of Condition and Income filed for the quarter immediately preceding the filing of the application; or

(iv) In the case of a transaction under paragraph (g)(4) of this section, the acquiring bank is an eligible bank, the resulting national bank will be well capitalized immediately following consummation of the transaction, the applicants in a pre-filing communication request and obtain approval from the appropriate district office to use the streamlined application, and the total assets acquired do not exceed 10 percent of the total assets of the acquiring national bank, as reported in the bank's Consolidated Report of Condition and Income filed for the quarter

§ 5.34

12 CFR Ch. I (1–1–14 Edition)

immediately preceding the filing of the application.

(2) When a business combination qualifies for a streamlined application, the applicant should consult the Manual to determine the abbreviated application information required by the OCC. The OCC encourages pre-filing communications between the applicants and the appropriate district office before filing under paragraph (j) of this section.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999; 65 FR 12911, Mar. 10, 2000; 68 FR 70129, Dec. 17, 2003; 73 FR 22237, Apr. 24, 2008]

§ 5.34 Operating subsidiaries.

(a) *Authority.* 12 U.S.C. 24 (Seventh), 24a, 25b, 93a, 3101 *et seq.*

(b) *Licensing requirements.* A national bank must file a notice or application as prescribed in this section to acquire or establish an operating subsidiary, or to commence a new activity in an existing operating subsidiary.

(c) *Scope.* This section sets forth authorized activities and application or notice procedures for national banks engaging in activities through an operating subsidiary. The procedures in this section do not apply to financial subsidiaries authorized under § 5.39. Unless provided otherwise, this section applies to a Federal branch or agency that acquires, establishes, or maintains any subsidiary that a national bank is authorized to acquire or establish under this section in the same manner and to the same extent as if the Federal branch or agency were a national bank, except that the ownership interest required in paragraphs (e)(2) and (e)(5)(i)(B) of this section shall apply to the parent foreign bank of the Federal branch or agency and not to the Federal branch or agency.

(d) *Definitions.* For purposes of this § 5.34:

(1) *Authorized product* means a product that would be defined as insurance under section 302(c) of the Gramm-Leach-Bliley Act (Public Law 106–102, 113 Stat. 1338, 1407) (GLBA) (15 U.S.C. 6712) that, as of January 1, 1999, the OCC had determined in writing that national banks may provide as principal or national banks were in fact lawfully providing the product as prin-

cipal, and as of that date no court of relevant jurisdiction had, by final judgment, overturned a determination by the OCC that national banks may provide the product as principal. An authorized product does not include title insurance, or an annuity contract the income of which is subject to treatment under section 72 of the Internal Revenue Code of 1986 (26 U.S.C. 72).

(2) *Well capitalized* means the capital level described in 12 CFR 6.4(b)(1) or, in the case of a Federal branch or agency, the capital level described in 12 CFR 4.7(b)(1)(iii).

(3) *Well managed* means, unless otherwise determined in writing by the OCC:

(i) In the case of a national bank:

(A) The national bank has received a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System in connection with its most recent examination; or

(B) In the case of any national bank that has not been examined, the existence and use of managerial resources that the OCC determines are satisfactory.

(ii) In the case of a Federal branch or agency:

(A) The Federal branch or agency has received a composite ROCA supervisory rating (which rates risk management, operational controls, compliance, and asset quality) of 1 or 2 at its most recent examination; or

(B) In the case of a Federal branch or agency that has not been examined, the existence and use of managerial resources that the OCC determines are satisfactory.

(e) *Standards and requirements—(1) Authorized activities.* A national bank may conduct in an operating subsidiary activities that are permissible for a national bank to engage in directly either as part of, or incidental to, the business of banking, as determined by the OCC, or otherwise under other statutory authority, including:

(i) Providing authorized products as principal; and

(ii) Providing title insurance as principal if the national bank or subsidiary thereof was actively and lawfully underwriting title insurance before November 12, 1999, and no affiliate of the national bank (other than a subsidiary)

provides insurance as principal. A subsidiary may not provide title insurance as principal if the state had in effect before November 12, 1999, a law which prohibits any person from underwriting title insurance with respect to real property in that state.

(2) *Qualifying subsidiaries.* (i) An operating subsidiary in which a national bank may invest includes a corporation, limited liability company, limited partnership, or similar entity if:

(A) The bank has the ability to control the management and operations of the subsidiary;

(B) The parent bank owns and controls more than 50 percent of the voting (or similar type of controlling) interest of the operating subsidiary, or the parent bank otherwise controls the operating subsidiary and no other party controls more than 50 percent of the voting (or similar type of controlling) interest of the operating subsidiary; and

(C) The operating subsidiary is consolidated with the bank under Generally Accepted Accounting Principles (GAAP).

(ii) However, the following subsidiaries are not operating subsidiaries subject to this section:

(A) A subsidiary in which the bank's investment is made pursuant to specific authorization in a statute or OCC regulation (*e.g.*, a bank service company under 12 U.S.C. 1861 *et seq.* or a financial subsidiary under section 5136A of the Revised Statutes (12 U.S.C. 24a)); and

(B) A subsidiary in which the bank has acquired, in good faith, shares through foreclosure on collateral, by way of compromise of a doubtful claim, or to avoid a loss in connection with a debt previously contracted.

(3) *Examination and supervision.* An operating subsidiary conducts activities authorized under this section pursuant to the same authorization, terms and conditions that apply to the conduct of such activities by its parent national bank, except as otherwise provided with respect to the application of state law under sections 1044(e) and 1045 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 25b). If, upon examination, the OCC determines that the operating

subsidiary is operating in violation of law, regulation, or written condition, or in an unsafe or unsound manner or otherwise threatens the safety or soundness of the bank, the OCC will direct the bank or operating subsidiary to take appropriate remedial action, which may include requiring the bank to divest or liquidate the operating subsidiary, or discontinue specified activities. OCC authority under this paragraph is subject to the limitations and requirements of section 45 of the Federal Deposit Insurance Act (12 U.S.C. 1831v) and section 115 of the Gramm-Leach-Bliley Act (12 U.S.C. 1820a).

(4) *Consolidation of figures—(i) National banks.* Pertinent book figures of the parent national bank and its operating subsidiary shall be combined for the purpose of applying statutory or regulatory limitations when combination is needed to effect the intent of the statute or regulation, *e.g.*, for purposes of 12 U.S.C. 56, 60, 84, and 371d.

(ii) *Federal branch or agencies.* Transactions conducted by all of a foreign bank's Federal branches and agencies and State branches and agencies, and their operating subsidiaries, shall be combined for the purpose of applying any limitation or restriction as provided in 12 CFR 28.14.

(5) *Procedures—(i) Notice required.* (A) Except for operating subsidiaries subject to the application procedures set forth in paragraph (e)(5)(ii) of this section or exempt from notice or application procedures under paragraph (e)(5)(vi) of this section, a national bank that is "well capitalized" and "well managed" may establish or acquire an operating subsidiary, or perform a new activity in an existing operating subsidiary, by providing the appropriate district office written notice within 10 days after acquiring or establishing the subsidiary, or commencing the new activity, if:

(1) The activity is listed in paragraph (e)(5)(v) of this section;

(2) The entity is a corporation, limited liability company, or limited partnership; and

(3) The bank:

(i) Has the ability to control the management and operations of the subsidiary by holding voting interests sufficient to select the number of directors needed to control the subsidiary's board and to select and terminate senior management (or, in the case of a limited partnership, has the ability to control the management and operations of the subsidiary by controlling the selection and termination of senior management);

(ii) Holds more than 50 percent of the voting, or equivalent, interests in the subsidiary, and, in the case of a limited partnership, the bank or an operating subsidiary thereof is the sole general partner of the limited partnership, provided that under the partnership agreement, limited partners have no authority to bind the partnership by virtue solely of their status as limited partners; and

(iii) Is required to consolidate its financial statements with those of the subsidiary under Generally Accepted Accounting Principles.

(B) The written notice must include a complete description of the bank's investment in the subsidiary and of the activity conducted and a representation and undertaking that the activity will be conducted in accordance with OCC policies contained in guidance issued by the OCC regarding the activity. To the extent that the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity in which the company is engaged and has present plans to conduct. The bank also must list for each State the lines of business for which the company holds, or will hold, an insurance license, indicating the State where the company holds a resident license or charter, as applicable. Any bank receiving approval under this paragraph is deemed to have agreed that the subsidiary will conduct the activity in a manner consistent with published OCC guidance.

(ii) *Application required.* (A) Except where the operating subsidiary is exempt from notice or application requirements under paragraph (e)(5)(vi) of this section, or subject to the notice procedures in paragraph (e)(5)(i), a na-

tional bank must first submit an application to, and receive approval from, the OCC with respect to the establishment or acquisition of an operating subsidiary, or the performance of a new activity in an existing operating subsidiary.

(B) The application must explain, as appropriate, how the bank "controls" the enterprise, describing in full detail structural arrangements where control is based on factors other than bank ownership of more than 50 percent of the voting interest of the subsidiary and the ability to control the management and operations of the subsidiary by holding voting interests sufficient to select the number of directors needed to control the subsidiary's board and to select and terminate senior management. In the case of a limited partnership that does not qualify for the notice procedures set forth in paragraph (e)(5)(i), the bank should provide a statement explaining why it is not eligible. The application also must include a complete description of the bank's investment in the subsidiary, the proposed activities of the subsidiary, the organizational structure and management of the subsidiary, the relations between the bank and the subsidiary, and other information necessary to adequately describe the proposal. To the extent that the application relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity in which the company is engaged and has present plans to conduct. The bank must also list for each State the lines of business for which the company holds, or will hold, an insurance license, indicating the State where the company holds a resident license or charter, as applicable. The application must state whether the operating subsidiary will conduct any activity at a location other than the main office or a previously approved branch of the bank. The OCC may require an applicant to submit a legal analysis if the proposal is novel, unusually complex, or raises substantial unresolved legal issues. In these cases, the OCC encourages applicants to have a pre-filing meeting with the OCC. Any bank receiving approval under this paragraph

is deemed to have agreed that the subsidiary will conduct the activity in a manner consistent with published OCC guidance.

(iii) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, and 5.11 do not apply to this section. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that some or all provisions in §§ 5.8, 5.10, and 5.11 apply.

(iv) *OCC review and approval.* The OCC reviews a national bank's application to determine whether the proposed activities are legally permissible and to ensure that the proposal is consistent with safe and sound banking practices and OCC policy and does not endanger the safety or soundness of the parent national bank. As part of this process, the OCC may request additional information and analysis from the applicant.

(v) *Activities eligible for notice.* The following activities qualify for the notice procedures, provided the activity is conducted pursuant to the same terms and conditions as would be applicable if the activity were conducted directly by a national bank:

(A) Holding and managing assets acquired by the parent bank, including investment assets and property acquired by the bank through foreclosure or otherwise in good faith to compromise a doubtful claim, or in the ordinary course of collecting a debt previously contracted;

(B) Providing services to or for the bank or its affiliates, including accounting, auditing, appraising, advertising and public relations, and financial advice and consulting;

(C) Making loans or other extensions of credit, and selling money orders, savings bonds, and travelers checks;

(D) Purchasing, selling, servicing, or warehousing loans or other extensions of credit, or interests therein;

(E) Providing courier services between financial institutions;

(F) Providing management consulting, operational advice, and services for other financial institutions;

(G) Providing check guaranty, verification and payment services;

(H) Providing data processing, data warehousing and data transmission

products, services, and related activities and facilities, including associated equipment and technology, for the bank or its affiliates;

(I) Acting as investment adviser (including an adviser with investment discretion) or financial adviser or counselor to governmental entities or instrumentalities, businesses, or individuals, including advising registered investment companies and mortgage or real estate investment trusts, furnishing economic forecasts or other economic information, providing investment advice related to futures and options on futures, and providing consumer financial counseling;

(J) Providing tax planning and preparation services;

(K) Providing financial and transactional advice and assistance, including advice and assistance for customers in structuring, arranging, and executing mergers and acquisitions, divestitures, joint ventures, leveraged buyouts, swaps, foreign exchange, derivative transactions, coin and bullion, and capital restructurings;

(L) Underwriting and reinsuring credit related insurance to the extent permitted under section 302 of the GLBA (15 U.S.C. 6712);

(M) Leasing of personal property and acting as an agent or adviser in leases for others;

(N) Providing securities brokerage or acting as a futures commission merchant, and providing related credit and other related services;

(O) Underwriting and dealing, including making a market, in bank permissible securities and purchasing and selling as principal, asset backed obligations;

(P) Acting as an insurance agent or broker, including title insurance to the extent permitted under section 303 of the GLBA (15 U.S.C. 6713);

(Q) Reinsuring mortgage insurance on loans originated, purchased, or serviced by the bank, its subsidiaries, or its affiliates, provided that if the subsidiary enters into a quota share agreement, the subsidiary assumes less than 50 percent of the aggregate insured risk covered by the quota share agreement. A "quota share agreement" is an agreement under which the reinsurer is

§ 5.34

12 CFR Ch. I (1–1–14 Edition)

liable to the primary insurance underwriter for an agreed upon percentage of every claim arising out of the covered book of business ceded by the primary insurance underwriter to the reinsurer;

(R) Acting as a finder pursuant to 12 CFR 7.1002 to the extent permitted by published OCC precedent;¹

(S) Offering correspondent services to the extent permitted by published OCC precedent;

(T) Acting as agent or broker in the sale of fixed or variable annuities;

(U) Offering debt cancellation or debt suspension agreements;

(V) Providing real estate settlement, closing, escrow, and related services; and real estate appraisal services for the subsidiary, parent bank, or other financial institutions;

(W) Acting as a transfer or fiscal agent;

(X) Acting as a digital certification authority to the extent permitted by published OCC precedent, subject to the terms and conditions contained in that precedent;

(Y) Providing or selling public transportation tickets, event and attraction tickets, gift certificates, prepaid phone cards, promotional and advertising material, postage stamps, and Electronic Benefits Transfer (EBT) script, and similar media, to the extent permitted by published OCC precedent, subject to the terms and conditions contained in that precedent;

(Z) Providing data processing, and data transmission services, facilities (including equipment, technology, and personnel), databases, advice and access to such services, facilities, databases and advice, for the parent bank and for others, pursuant to 12 CFR 7.5006 to the extent permitted by published OCC precedent;

(AA) Providing bill presentment, billing, collection, and claims-processing services;

(BB) Providing safekeeping for personal information or valuable confidential trade or business information, such

as encryption keys, to the extent permitted by published OCC precedent;

(CC) Providing payroll processing;

(DD) Providing branch management services;

(EE) Providing merchant processing services except when the activity involves the use of third parties to solicit or underwrite merchants; and

(FF) Performing administrative tasks involved in benefits administration.

(vi) *No application or notice required.* A national bank may acquire or establish an operating subsidiary, or engage in the performance of a new activity in an existing operating subsidiary, without filing an application or providing notice to the OCC, if the bank is well managed and adequately capitalized or well capitalized and the:

(A) Activities of the new subsidiary are limited to those activities previously reported by the bank in connection with the establishment or acquisition of a prior operating subsidiary;

(B) Activities in which the new subsidiary will engage continue to be legally permissible for the subsidiary;

(C) Activities of the new subsidiary will be conducted in accordance with any conditions imposed by the OCC in approving the conduct of these activities for any prior operating subsidiary of the bank;

(D) The standards set forth in paragraphs (e)(5)(i)(A)(2) and (3) of this section are satisfied.

(vii) *Fiduciary powers.* If an operating subsidiary proposes to exercise investment discretion on behalf of customers or provide investment advice for a fee, the national bank must have prior OCC approval to exercise fiduciary powers pursuant to § 5.26.

(6) *Grandfathered operating subsidiaries.* Notwithstanding the requirements for a qualifying operating subsidiary in § 5.34(e)(2) and unless otherwise notified by the OCC with respect to a particular operating subsidiary, an entity that a national bank lawfully acquired or established as an operating subsidiary before April 24, 2008 may continue to operate as a national bank operating subsidiary under this section, provided that the bank and the

¹See, e.g., the OCC's monthly publication "Interpretations and Actions." Beginning with the May 1996 issue, the OCC's Web site provides access to electronic versions of "Interpretations and Actions" (www.occ.treas.gov).

Comptroller of the Currency, Treasury

§ 5.35

operating subsidiary were, and continue to be, conducting authorized activities in compliance with the standards and requirements applicable when the bank established or acquired the operating subsidiary.

(7) *Annual Report on Operating Subsidiaries*—(i) *Filing requirement.* Each national bank shall prepare and file with the OCC an Annual Report on Operating Subsidiaries containing the information set forth in paragraph (e)(6)(ii) of this section for each of its operating subsidiaries that:

(A) Is not functionally regulated within the meaning of section 5(c)(5) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1844(c)(5)); and

(B) Does business directly with consumers in the United States. For purposes of paragraph (e)(6) of this section, an operating subsidiary, or any subsidiary thereof, does business directly with consumers if, in the ordinary course of its business, it provides products or services to individuals to be used primarily for personal, family, or household purposes.

(ii) *Information required.* The Annual Report on Operating Subsidiaries must contain the following information for each covered operating subsidiary listed:

(A) The name and charter number of the parent national bank;

(B) The name (include any “dba” (doing business as), abbreviated names, or trade names used to identify the operating subsidiary when it does business directly with consumers), mailing address (include the street address or post office box, city, state, and zip code), e-mail address (if any), and telephone number of the operating subsidiary;

(C) The principal place of business of the operating subsidiary, if different from the address provided pursuant to paragraph (e)(6)(ii)(B) of this section; and

(D) The lines of business in which the operating subsidiary is doing business directly with consumers by designating the appropriate code contained in appendix B (NAICS Activity Codes for Commonly Reported Activities) to the Instructions for Preparation of Report of Changes in Organizational Structure, Form FR Y-10, a copy of which is

set forth on the OCC’s Web site at <http://www.occ.gov>. If the operating subsidiary is engaged in an activity not set forth in this list, a national bank shall report the code 0000 and provide a brief description of the activity.

(iii) *Filing time frames and availability of information.* Each national bank’s Annual Report on Operating Subsidiaries shall contain information current as of December 31st for the year prior to the year the report is filed. The national bank shall submit its first Annual Report on Operating Subsidiaries (for information as of December 31, 2004) to the OCC on or before January 31, 2005, and on or before January 31st each year thereafter. The national bank may submit the Annual Report on Operating Subsidiaries electronically or in another format prescribed by the OCC. The OCC will make available to the public the information contained in the Annual Report on Operating Subsidiaries on its Web site at <http://www.occ.gov>.

[65 FR 12911, Mar. 10, 2000, as amended at 66 FR 49097, Sept. 26, 2001; 66 FR 62914, Dec. 4, 2001; 68 FR 70131, Dec. 17, 2003; 69 FR 64481, Nov. 5, 2004; 73 FR 22238, Apr. 24, 2008; 76 FR 43564, July 21, 2011]

§ 5.35 Bank service companies.

(a) *Authority.* 12 U.S.C. 93a and 1861–1867.

(b) *Licensing requirements.* Except where otherwise provided, a national bank shall submit a notice and obtain prior OCC approval to invest in the equity of a bank service company or to perform new activities in an existing bank service company.

(c) *Scope.* This section describes the procedures and requirements regarding OCC review and approval of a notice to invest in a bank service company.

(d) *Definitions*—(1) *Bank service company* means a corporation or limited liability company organized to provide services authorized by the Bank Service Company Act, 12 U.S.C. 1861 *et seq.*, all of whose capital stock is owned by one or more insured depository institutions in the case of a corporation, or all of the members of which are one or more insured depository institutions in the case of a limited liability company.

(2) *Limited liability company* means any non-corporate company, partnership, trust, or similar business entity organized under the law of a State (as defined in section 3 of the Federal Deposit Insurance Act) which provides that a member or manager of such company is not personally liable for a debt, obligation, or liability of the company solely by reason of being, or acting as, a member or manager of such company.

(3) *Depository institution* for purposes of this section, means, except when such term appears in connection with the term ‘insured depository institution’ an insured bank, a financial institution subject to examination by the Office of Thrift Supervision, or the National Credit Union Administration Board, or a financial institution whose accounts or deposits are insured or guaranteed under state law and eligible to be insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration Board.

(4) *Insured depository institution*, for purposes of this section, has the same meaning as in section 3 of the Federal Deposit Insurance Act.

(5) *Invest* includes making any advance of funds to a bank service company, whether by the purchase of stock, the making of a loan, or otherwise, except a payment for rent earned, goods sold and delivered, or services rendered before the payment was made.

(6) *Principal investor* means the insured depository institution that has the largest amount invested in the equity of a bank service company. In any case where two or more insured depository institutions have equal amounts invested, the bank service company shall designate one of the insured depository institutions as its principal investor.

(e) *Standards and requirements.* A national bank may invest in a bank service company that conducts activities described in paragraphs (f)(3) and (f)(4) of this section, and activities (other than taking deposits) permissible for the national bank and other state and national bank shareholders or members in the bank service company.

(f) *Procedures*—(1) *OCC notice and approval required.* Except as provided in paragraphs (f)(2) and (f)(4) of this sec-

tion, a national bank that intends to make an investment in a bank service company, or to perform new activities in an existing bank service company, must submit a notice to and receive prior approval from the OCC. The OCC approves or denies a proposed investment within 60 days after the filing is received by the OCC, unless the OCC notifies the bank prior to that date that the filing presents a significant supervisory or compliance concern, or raises a significant legal or policy issue. The notice must include the information required by paragraph (g) of this section.

(2) *Notice process only for certain activities.* A national bank that is “well capitalized” and “well managed” as defined in §5.34(d) may invest in a bank service company, or perform a new activity in an existing bank service company, by providing the appropriate district office written notice within 10 days after the investment, if the bank service company engages only in the activities listed in §5.34(e)(5)(v). No prior OCC approval is required. The written notice must include a complete description of the bank’s investment in the bank service company and of the activity conducted and a representation and undertaking that the activity will be conducted in accordance with OCC guidance. To the extent the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity that the company is engaged in and has present plans to conduct. The bank must also list for each state the lines of business for which the company holds, or will hold, an insurance license, indicating the state where the company holds a resident license or charter, as applicable. Any bank receiving approval under this paragraph is deemed to have agreed that the bank service company will conduct the activity in a manner consistent with the published OCC guidance.

(3) *Investments requiring no approval.* A national bank does not need OCC approval to invest in a bank service company, or to perform a new activity in an existing bank service company, if the bank service company will provide

the following services only for depository institutions: check and deposit posting and sorting; computation and posting of interest and other credits and charges; preparation and mailing of checks, statements, notices, and similar items; or any other clerical, bookkeeping, accounting, statistical, or similar function.

(4) *Federal Reserve approval.* A national bank also may, with the approval of the Board of Governors of the Federal Reserve System (Federal Reserve Board), invest in the equity of a bank service company that provides any other service (except deposit taking) that the Federal Reserve Board has determined, by regulation, to be permissible for a bank holding company under 12 U.S.C. 1843(c)(8).

(5) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, and 5.11 do not apply to a request for approval to invest in a bank service corporation. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that any or all parts of §§ 5.8, 5.10, and 5.11 apply.

(g) *Required information.* A notice required under paragraph (f)(1), of this section must contain the following:

(1) The name and location of the bank service company;

(2) A complete description of the activities the bank service company will conduct. To the extent the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity that the company is engaged in and has present plans to conduct. The bank must also list for each state the lines of business for which the company holds, or will hold, an insurance license, indicating the state where the company holds a resident license or charter, as applicable;

(3) Information demonstrating that the bank will comply with the investment limitations of paragraph (i) of this section; and

(4) Information demonstrating that the bank service company will perform only those services that each insured depository institution shareholder or member is authorized to perform under

applicable Federal or State law and will perform such services only at locations in a State in which each such shareholder or member is authorized to perform such services unless performing services that are authorized by the Federal Reserve Board under the authority of 12 U.S.C. 1865(b).

(h) *Examination and supervision.* Each bank service company in which a national bank is the principal investor is subject to examination and supervision by the OCC in the same manner and to the same extent as that national bank. OCC authority under this paragraph is subject to the limitations and requirements of section 45 of the Federal Deposit Insurance Act (12 U.S.C. 1831v) and section 115 of the Gramm-Leach-Bliley Act (12 U.S.C. 1820a).

(i) *Investment limitations.* A bank may not invest more than ten percent of its capital and surplus in a bank service company. In addition, the bank's total investments in all bank service companies may not exceed five percent of the bank's total assets.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999; 65 FR 12913, Mar. 10, 2000; 73 FR 22239, Apr. 24, 2008]

§ 5.36 Other equity investments.

(a) *Authority.* 12 U.S.C. 1 *et seq.*, 24(Seventh), and 93a.

(b) *Scope.* National banks are permitted to make various types of equity investments pursuant to 12 U.S.C. 24(Seventh) and other statutes. These investments are in addition to those subject to §§ 5.34, 5.35, and 5.37. This section describes the procedure governing the filing of the application or notice that the OCC requires in connection with certain of these investments. Other permissible equity investments may be reviewed on a case-by-case basis by the OCC.

(c) *Definitions.* For purposes of this § 5.36:

(1) *Enterprise* means any corporation, limited liability company, partnership, trust, or similar business entity.

(2) *Well capitalized* means the capital level described in 12 CFR 6.4(b)(1).

(3) *Well managed* has the meaning set forth in § 5.34(d)(3).

(d) *Procedure.* (1) A national bank must provide the appropriate district office with written notice within ten

§5.36

12 CFR Ch. I (1–1–14 Edition)

days after making an equity investment in the following:

(i) An agricultural credit corporation;

(ii) A savings association eligible to be acquired under section 13 of the Federal Deposit Insurance Act (12 U.S.C. 1823); and

(iii) Any other equity investment that may be authorized by statute after February 12, 1990, if not covered by other applicable OCC regulation.

(2) The written notice required by paragraph (c)(1) of this section must include a description, and the amount, of the bank's investment.

(3) The OCC reserves the right to require additional information as necessary.

(e) *Non-controlling investments; notice procedure.* Unless the procedures governing a national bank's non-controlling investment are prescribed by OCC rules implementing a separate legal authorization of the investment and except as provided in paragraphs (f) and (g) of this section, a national bank may make a non-controlling investment, directly or through its operating subsidiary, in an enterprise that engages in the activities described in paragraph (e)(2) of this section by filing a written notice. The bank must file this written notice with the appropriate district office no later than 10 days after making the investment. The written notice must:

(1) Describe the structure of the investment and the activity or activities conducted by the enterprise in which the bank is investing. To the extent the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity that the company is engaged in and has present plans to conduct. The bank must also list for each state the lines of business for which the company holds, or will hold, an insurance license, indicating the state where the company holds a resident license or charter, as applicable;

(2) State which paragraphs of §5.34(e)(5)(v) describe the activity or activities, or state that, and describe how, the activity is substantively the same as that contained in published OCC precedent approving a non-con-

trolling investment by a national bank or its operating subsidiary, state that the activity will be conducted in accordance with the same terms and conditions applicable to the activity covered by the precedent, and provide the citation to the applicable precedent;

(3) Certify that the bank is well managed and well capitalized at the time of the investment;

(4) Describe how the bank has the ability to prevent the enterprise from engaging in activities that are not set forth in §5.34(e)(5)(v) or not contained in published OCC precedent approving a non-controlling investment by a national bank or its operating subsidiary, or how the bank otherwise has the ability to withdraw its investment;

(5) Describe how the investment is convenient and useful to the bank in carrying out its business and not a mere passive investment unrelated to the bank's banking business;

(6) Certify that the bank's loss exposure is limited as a legal matter and that the bank does not have unlimited liability for the obligations of the enterprise; and

(7) Certify that the enterprise in which the bank is investing agrees to be subject to OCC supervision and examination, subject to the limitations and requirements of section 45 of the Federal Deposit Insurance Act (12 U.S.C. 1831v) and section 115 of the Gramm-Leach-Bliley Act (12 U.S.C. 1820a).

(f) *Non-controlling investment; application procedure.* Unless the procedures governing a national bank's non-controlling investment are prescribed by OCC rules implementing a separate legal authorization of the investment, a national bank must file an application and obtain prior approval before making or acquiring, either directly or through an operating subsidiary, a non-controlling investment in an enterprise if the non-controlling investment does not qualify for the notice procedure set forth in paragraph (e) of this section because the bank is unable to make the representation required by paragraph (e)(2) or the certification required by paragraph (e)(3) of this section. The application must include the information required in paragraphs (e)(1) and (e)(4) through (e)(7) of this

section and (e)(2) or (e)(3), as appropriate. If the bank is unable to make the representation set forth in paragraph (e)(2) of this section, the bank's application must explain why the activity in which the enterprise engages is a permissible activity for a national bank and why the applicant should be permitted to hold a non-controlling investment in an enterprise engaged in that activity. A bank may not make a non-controlling investment if it is unable to make the representations and certifications specified in paragraphs (e)(1) and (e)(4) through (e)(7) of this section.

(g) *Non-controlling investments in entities holding assets in satisfaction of debts previously contracted.* Certain non-controlling investments may be eligible for expedited treatment where the bank's investment is in an entity holding assets in satisfaction of debts previously contracted or the bank acquires shares of a company in satisfaction of debts previously contracted.

(1) *Notice required.* A national bank that is well capitalized and well managed may acquire a non-controlling investment, directly or through its operating subsidiary, in an enterprise that engages in the activities of holding and managing assets acquired by the parent bank through foreclosure or otherwise in good faith to compromise a doubtful claim, or in the ordinary course of collecting a debt previously contracted, by filing a written notice in accordance with this paragraph (g)(i). The activities of the enterprise must be conducted pursuant to the same terms and conditions as would be applicable if the activity were conducted directly by a national bank. The bank must file the written notice with the appropriate district office no later than 10 days after making the non-controlling investment. This notice must include a complete description of the bank's investment in the enterprise and the activities conducted, a description of how the bank plans to divest the non-controlling investment or the underlying assets within applicable statutory time frames, and a representation and undertaking that the bank will conduct the activities in accordance with OCC policies contained in guidance issued

by the OCC regarding the activities. Any national bank receiving approval under this paragraph (g)(i) is deemed to have agreed that the enterprise will conduct the activity in a manner consistent with published OCC guidance.

(2) *No notice or application required.* A national bank is not required to file a notice or application under this § 5.36 if it acquires a non-controlling investment in shares of a company through foreclosure or otherwise in good faith to compromise a doubtful claim, or in the ordinary course of collecting a debt previously contracted.

(h) *Non-controlling investments by Federal branches.* A Federal branch that satisfies the well capitalized and well managed standards in 12 CFR 4.7(b)(1)(iii) and § 5.34(d)(3)(ii) may make a non-controlling investment in accordance with paragraph (e) of this section in the same manner and subject to the same conditions and requirements as a national bank, and subject to any additional requirements that may apply under 12 CFR 28.10(c).

(i) *Exceptions to rules of general applicability.* Sections 5.8, 5.9, 5.10, and 5.11 of this part do not apply to filings for other equity investments.

[61 FR 60363, Nov. 27, 1996, as amended at 65 FR 12913, Mar. 10, 2000; 65 FR 41560, July 6, 2000; 68 FR 70698, Dec. 19, 2003; 73 FR 22239, Apr. 24, 2008]

§ 5.37 Investment in bank premises.

(a) *Authority.* 12 U.S.C. 29, 93a, and 371d.

(b) *Scope.* This section sets forth the procedures governing OCC review and approval of applications by national banks to invest in bank premises or in certain bank premises related investments, loans, or indebtedness, as described in paragraph (d)(1)(i) of this section.

(c) *Definition—Bank premises* for purposes of this section includes the following:

(1) Premises that are owned and occupied (or to be occupied, if under construction) by the bank, its branches, or its consolidated subsidiaries;

(2) Capitalized leases and leasehold improvements, vaults, and fixed machinery and equipment;

(3) Remodeling costs to existing premises;

§ 5.39

(4) Real estate acquired and intended, in good faith, for use in future expansion; or

(5) Parking facilities that are used by customers or employees of the bank, its branches, and its consolidated subsidiaries.

(d) *Procedure*—(1) *Application*. (i) A national bank shall submit an application to the appropriate supervisory office to invest in bank premises, or in the stock, bonds, debentures, or other such obligations of any corporation holding the premises of the bank, or to make loans to or upon the security of the stock of such corporation, if the aggregate of all such investments and loans, together with the indebtedness incurred by any such corporation that is an affiliate of the bank, as defined in 12 U.S.C. 221a, will exceed the amount of the capital stock of the bank.

(ii) The application must include:

(A) A description of the bank's present investment in bank premises;

(B) The investment in bank premises that the bank intends to make, and the business reason for making the investment; and

(C) The amount by which the bank's aggregate investment will exceed the amount of the bank's capital stock.

(2) *Approval*. An application for national bank investment in bank premises or in certain bank premises' related investments, loans or indebtedness, as described in paragraph (d)(1)(i) of this section, is deemed approved as of the 30th day after the filing is received by the OCC, unless the OCC notifies the bank prior to that date that the filing presents a significant supervisory, or compliance concern, or raises a significant legal or policy issue. An approval for a specified amount under this section remains valid up to that amount until the OCC notifies the bank otherwise.

(3) *Notice process*. Notwithstanding paragraph (d)(1)(i) of this section, a bank that is rated 1 or 2 under the Uniform Financial Institutions Rating System (CAMELS) may make an aggregate investment in bank premises up to 150 percent of the bank's capital and surplus without the OCC's prior approval, provided that the bank is well capitalized as defined in 12 CFR part 6 and will continue to be well capitalized

12 CFR Ch. I (1–1–14 Edition)

after the investment or loan is made. However, the bank shall notify the appropriate supervisory office in writing of the investment within 30 days after the investment or loan is made. The written notice must include a description of the bank's investment.

(4) *Exceptions to rules of general applicability*. Sections 5.8, 5.10, and 5.11 do not apply to this section. However, if the OCC concludes that an application presents significant and novel policy, supervisory, or legal issues, the OCC may determine that any or all parts of §§ 5.8, 5.10, and 5.11 apply.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§ 5.39 Financial subsidiaries.

(a) *Authority*. 12 U.S.C. 93a and section 121 of Public Law 106–102, 113 Stat. 1338, 1373.

(b) *Approval requirements*. A national bank must file a notice as prescribed in this section prior to acquiring a financial subsidiary or engaging in activities authorized pursuant to section 5136A(a)(2)(A)(i) of the Revised Statutes (12 U.S.C. 24a) through a financial subsidiary. When a financial subsidiary proposes to conduct a new activity permitted under § 5.34, the bank shall follow the procedures in § 5.34(e)(5) instead of paragraph (i) of this section.

(c) *Scope*. This section sets forth authorized activities, approval procedures, and, where applicable, conditions for national banks engaging in activities through a financial subsidiary.

(d) *Definitions*. For purposes of this § 5.39:

(1) *Affiliate* has the meaning set forth in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841), except that the term “affiliate” for purposes of paragraph (h)(5) of this section shall have the meaning set forth in sections 23A or 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c–1), as implemented by Regulation W, 12 CFR part 223, as applicable.

(2) *Appropriate Federal banking agency* has the meaning set forth in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(3) *Company* has the meaning set forth in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841),

and includes a limited liability company (LLC).

(4) *Control* has the meaning set forth in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(5) *Eligible debt* means unsecured long-term debt that is:

(i) Not supported by any form of credit enhancement, including a guaranty or standby letter of credit; and

(ii) Not held in whole or in any significant part by any affiliate, officer, director, principal shareholder, or employee of the bank or any other person acting on behalf of or with funds from the bank or an affiliate of the bank.

(6) *Financial subsidiary* means any company that is controlled by one or more insured depository institutions, other than a subsidiary that:

(i) Engages solely in activities that national banks may engage in directly and that are conducted subject to the same terms and conditions that govern the conduct of these activities by national banks; or

(ii) A national bank is specifically authorized to control by the express terms of a Federal statute (other than section 5136A of the Revised Statutes), and not by implication or interpretation, such as by section 25 of the Federal Reserve Act (12 U.S.C. 601-604a), section 25A of the Federal Reserve Act (12 U.S.C. 611-631), or the Bank Service Company Act (12 U.S.C. 1861 *et seq.*)

(7) *Insured depository institution* has the meaning set forth in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

(8) *Long term debt* means any debt obligation with an initial maturity of 360 days or more.

(9) *Subsidiary* has the meaning set forth in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(10) *Tangible equity* has the meaning set forth in 12 CFR 6.2(g).

(11) *Well capitalized* with respect to a depository institution means the capital level designated as “well capitalized” by the institution’s appropriate Federal banking agency pursuant to section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o).

(12) *Well managed* means:

(i) Unless otherwise determined in writing by the appropriate Federal banking agency, the institution has re-

ceived a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System (or an equivalent rating under an equivalent rating system) in connection with the most recent examination or subsequent review of the depository institution and, at least a rating of 2 for management, if such a rating is given; or

(ii) In the case of any depository institution that has not been examined by its appropriate Federal banking agency, the existence and use of managerial resources that the appropriate Federal banking agency determines are satisfactory.

(e) *Authorized activities*. A financial subsidiary may engage only in the following activities:

(1) Activities that are financial in nature and activities incidental to a financial activity, authorized pursuant to 5136A(a)(2)(A)(i) of the Revised Statutes (12 U.S.C. 24a) (to the extent not otherwise permitted under paragraph (e)(2) of this section), including:

(i) Lending, exchanging, transferring, investing for others, or safeguarding money or securities;

(ii) Engaging as agent or broker in any state for purposes of insuring, guaranteeing, or indemnifying against loss, harm, damage, illness, disability, death, defects in title, or providing annuities as agent or broker;

(iii) Providing financial, investment, or economic advisory services, including advising an investment company as defined in section 3 of the Investment Company Act (15 U.S.C. 80a-3);

(iv) Issuing or selling instruments representing interests in pools of assets permissible for a bank to hold directly;

(v) Underwriting, dealing in, or making a market in securities;

(vi) Engaging in any activity that the Board of Governors of the Federal Reserve System has determined, by order or regulation in effect on November 12, 1999, to be so closely related to banking or managing or controlling banks as to be a proper incident thereto (subject to the same terms and conditions contained in the order or regulation, unless the order or regulation is modified by the Board of Governors of the Federal Reserve System);

(vii) Engaging, in the United States, in any activity that a bank holding

company may engage in outside the United States and the Board of Governors of the Federal Reserve System has determined, under regulations prescribed or interpretations issued pursuant to section 4(c)(13) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(c)(13)) as in effect on November 11, 1999, to be usual in connection with the transaction of banking or other financial operations abroad; and

(viii) Activities that the Secretary of the Treasury in consultation with the Board of Governors of the Federal Reserve System, as provided in section 5136A of the Revised Statutes, determines to be financial in nature or incidental to a financial activity; and

(2) Activities that may be conducted by an operating subsidiary pursuant to § 5.34.

(f) *Impermissible activities.* A financial subsidiary may not engage as principal in the following activities:

(1) Insuring, guaranteeing, or indemnifying against loss, harm, damage, illness, disability or death, or defects in title (except to the extent permitted under sections 302 or 303(c) of the Gramm-Leach-Bliley Act (GLBA)), 113 Stat. 1407–1409, (15 U.S.C. 6712 or 15 U.S.C. 6713) or providing or issuing annuities the income of which is subject to tax treatment under section 72 of the Internal Revenue Code (26 U.S.C. 72);

(2) Real estate development or real estate investment, unless otherwise expressly authorized by law; and

(3) Activities authorized for bank holding companies by section 4(k)(4)(H) or (I) (12 U.S.C. 1843) of the Bank Holding Company Act, except activities authorized under section 4(k)(4)(H) that may be permitted in accordance with section 122 of the GLBA, 113 Stat. 1381.

(g) *Qualifications.* A national bank may, directly or indirectly, control a financial subsidiary or hold an interest in a financial subsidiary only if:

(1) The national bank and each depository institution affiliate of the national bank are well capitalized and well managed;

(2) The aggregate consolidated total assets of all financial subsidiaries of the national bank do not exceed the lesser of 45 percent of the consolidated total assets of the parent bank or \$50

billion (or such greater amount as is determined according to an indexing mechanism jointly established by regulation by the Secretary of the Treasury and the Board of Governors of the Federal Reserve System); and

(3) If the national bank is one of the 100 largest insured banks, determined on the basis of the bank's consolidated total assets at the end of the calendar year, the bank has not fewer than one issue of outstanding debt that meets such standards of creditworthiness or other criteria as the Secretary of the Treasury and the Federal Reserve Board may jointly establish pursuant to Section 5136A of title LXII of the Revised Statutes (12 U.S.C. 24a).

(4) Paragraph (g)(3) of this section does not apply if the financial subsidiary is engaged solely in activities in an agency capacity.

(h) *Safeguards.* The following safeguards apply to a national bank that establishes or maintains a financial subsidiary:

(1) For purposes of determining regulatory capital the national bank may not consolidate the assets and liabilities of a financial subsidiary with those of the bank and must deduct the aggregate amount of its outstanding equity investment, including retained earnings, in its financial subsidiaries from regulatory capital as provided by § 3.22(a)(7) of this chapter;

(2) Any published financial statement of the national bank shall, in addition to providing information prepared in accordance with generally accepted accounting principles, separately present financial information for the bank in the manner provided in paragraph (h)(1) of this section;

(3) The national bank must have reasonable policies and procedures to preserve the separate corporate identity and limited liability of the bank and the financial subsidiaries of the bank;

(4) The national bank must have procedures for identifying and managing financial and operational risks within the bank and the financial subsidiary that adequately protect the national bank from such risks;

(5) Except for a subsidiary of a bank that is considered a financial subsidiary under paragraph (a)(6) of this section solely because the subsidiary

engages in the sale of insurance as agent or broker in a manner that is not permitted for national banks, sections 23A and 23B of the Federal Reserve Act (12 U.S.C. 371c and 371c-1), as implemented by Regulation W, 12 CFR part 223, apply to transactions involving a financial subsidiary in the following manner:

(i) A financial subsidiary shall be deemed to be an affiliate of the bank and shall not be deemed to be a subsidiary of the bank;

(ii) The restrictions contained in section 23A(a)(1)(A) of the Federal Reserve Act shall not apply with respect to covered transactions between a bank and any individual financial subsidiary of the bank;

(iii) A bank's purchase of or investment in a security issued by a financial subsidiary of the bank must be valued at the greater of:

(A) The total amount of consideration given (including liabilities assumed) by the bank, reduced to reflect amortization of the security to the extent consistent with GAAP, or

(B) The carrying value of the security (adjusted so as not to reflect the bank's *pro rata* portion of any earnings retained or losses incurred by the financial subsidiary after the bank's acquisition of the security).

(iv) Any purchase of, or investment in, the securities of a financial subsidiary of a bank by an affiliate of the bank will be considered to be a purchase of or investment in such securities by the bank;

(v) Any extension of credit to a financial subsidiary of a bank by an affiliate of the bank is treated as an extension of credit by the bank to the financial subsidiary if the extension of credit is treated as capital of the financial subsidiary under any Federal or State law, regulation, or interpretation applicable to the subsidiary; and

(vi) Any other extension of credit by an affiliate of a bank to a financial subsidiary of the bank may be considered an extension of credit by the bank to the financial subsidiary if the Board of Governors of the Federal Reserve System determines that such treatment is necessary or appropriate to prevent evasions of the Federal Reserve Act and the GLBA.

(6) A financial subsidiary shall be deemed a subsidiary of a bank holding company and not a subsidiary of the bank for purposes of the anti-tying prohibitions set forth in 12 U.S.C. 1971 *et seq.*

(i) *Procedures to engage in activities through a financial subsidiary.* A national bank that intends, directly or indirectly, to acquire control of, or hold an interest in, a financial subsidiary, or to commence a new activity in an existing financial subsidiary, must obtain OCC approval through the procedures set forth in paragraph (i)(1) or (i)(2) of this section.

(1) *Certification with subsequent notice.*

(i) At any time, a national bank may file a "Financial Subsidiary Certification" with the appropriate district office listing the bank's depository institution affiliates and certifying that the bank and each of those affiliates is well capitalized and well managed.

(ii) Thereafter, at such time as the bank seeks OCC approval to acquire control of, or hold an interest in, a new financial subsidiary, or commence a new activity authorized under section 5136A(a)(2)(A)(i) of the Revised Statutes (12 U.S.C. 24a) in an existing subsidiary, the bank may file a written notice with the appropriate district office at the time of acquiring control of, or holding an interest in, a financial subsidiary, or commencing such activity in an existing subsidiary. The written notice must be labeled "Financial Subsidiary Notice" and must:

(A) State that the bank's Certification remains valid;

(B) Describe the activity or activities conducted by the financial subsidiary. To the extent the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity that the company is engaged in and has present plans to conduct. The bank must also list for each state the lines of business for which the company holds, or will hold, an insurance license, indicating the state where the company holds a resident license or charter, as applicable;

(C) Cite the specific authority permitting the activity to be conducted by the financial subsidiary. (Where the authority relied on is an agency order or

§ 5.39

12 CFR Ch. I (1–1–14 Edition)

interpretation under section 4(c)(8) or 4(c)(13), respectively, of the Bank Holding Company Act of 1956, a copy of the order or interpretation should be attached);

(D) Certify that the bank will be well capitalized after making adjustments required by paragraph (h)(1) of this section;

(E) Demonstrate the aggregate consolidated total assets of all financial subsidiaries of the national bank do not exceed the lesser of 45 percent of the bank's consolidated total assets or \$50 billion (or the increased level established by the indexing mechanism); and

(F) If applicable, certify that the bank meets the eligible debt requirement in paragraph (g)(3) of this section.

(2) *Combined certification and notice.* A national bank may file a combined certification and notice with the appropriate district office at least five business days prior to acquiring control of, or holding an interest in, a financial subsidiary, or commencing a new activity authorized pursuant to section 5136A(a)(2)(A)(i) of the Revised Statutes in an existing subsidiary. The written notice must be labeled "Financial Subsidiary Certification and Notice" and must:

(i) List the bank's depository institution affiliates and certify that the bank and each depository institution affiliate of the bank is well capitalized and well managed;

(ii) Describe the activity or activities to be conducted in the financial subsidiary. To the extent the notice relates to the initial affiliation of the bank with a company engaged in insurance activities, the bank should describe the type of insurance activity that the company is engaged in and has present plans to conduct. The bank must also list for each state the lines of business for which the company holds, or will hold, an insurance license, indicating the state where the company holds a resident license or charter, as applicable;

(iii) Cite the specific authority permitting the activity to be conducted by the financial subsidiary. (Where the authority relied on is an agency order or interpretation under section 4(c)(8) or 4(c)(13), respectively, of the Bank Hold-

ing Company Act of 1956, a copy of the order or interpretation should be attached);

(iv) Certify that the bank will remain well capitalized after making the adjustments required by paragraph (h)(1) of this section;

(v) Demonstrate the aggregate consolidated total assets of all financial subsidiaries of the national bank do not exceed the lesser of 45% of the bank's consolidated total assets or \$50 billion (or the increased level established by the indexing mechanism); and

(vi) If applicable, certify that the bank meets the eligible debt requirement in paragraph (g)(3) of this section.

(3) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, 5.11, and 5.13 do not apply to activities authorized under this section.

(4) *Community Reinvestment Act (CRA).* A national bank may not apply under this paragraph (i) to commence a new activity authorized under section 5136A(a)(2)(A)(i) of the Revised Statutes (12 U.S.C. 24a), or directly or indirectly acquire control of a company engaged in any such activity, if the bank or any of its insured depository institution affiliates received a CRA rating of less than "satisfactory record of meeting community credit needs" on its most recent CRA examination prior to when the bank would file a notice under this section.

(j) *Failure to continue to meet certain qualification requirements—(1) Qualifications and safeguards.* A national bank, or, as applicable, its affiliated depository institutions, must continue to satisfy the qualification requirements set forth in paragraphs (g)(1) and (2) of this section and the safeguards in paragraphs (h)(1), (2), (3) and (4) of this section following its acquisition of control of, or an interest in, a financial subsidiary. A national bank that fails to continue to satisfy these requirements will be subject to the following procedures and requirements:

(i) The OCC shall give notice to the national bank and, in the case of an affiliated depository institution to that depository institution's appropriate Federal banking agency, promptly upon determining that the national bank, or, as applicable, its affiliated

depository institution, does not continue to meet the requirements in paragraph (g)(1) or (2) of this section or the safeguards in paragraph (h)(1), (2), (3), or (4) of this section. The bank shall be deemed to have received such notice three business days after mailing of the letter by the OCC;

(ii) Not later than 45 days after receipt of the notice under paragraph (j)(1)(i) of this section, or any additional time as the OCC may permit, the national bank shall execute an agreement with the OCC to comply with the requirements in paragraphs (g)(1) and (2) and (h)(1), (2), (3), and (4) of this section;

(iii) The OCC may impose limitations on the conduct or activities of the national bank or any subsidiary of the national bank as the OCC determines appropriate under the circumstances and consistent with the purposes of section 5136A of the Revised Statutes; and

(iv) The OCC may require a national bank to divest control of a financial subsidiary if the national bank does not correct the conditions giving rise to the notice within 180 days after receipt of the notice provided under paragraph (j)(1)(i) of this section.

(2) *Eligible debt requirement.* A national bank that does not continue to meet the qualification requirement set forth in paragraph (g)(3) of this section, applicable where the bank's financial subsidiary is engaged in activities other than solely in an agency capacity, may not directly or through a subsidiary, purchase or acquire any additional equity capital of any such financial subsidiary until the bank meets the requirement in paragraph (g)(3) of this section. For purposes of this paragraph (j)(2), the term "equity capital" includes, in addition to any equity investment, any debt instrument issued by the financial subsidiary if the instrument qualifies as capital of the subsidiary under Federal or state law, regulation, or interpretation applicable to the subsidiary.

(k) *Examination and supervision.* A financial subsidiary is subject to examination and supervision by the OCC, subject to the limitations and requirements of section 45 of the Federal Deposit Insurance Act (12 U.S.C. 1831v)

and section 115 of the GLBA (12 U.S.C. 1820a).

[65 FR 12914, Mar. 10, 2000, as amended at 73 FR 22240, Apr. 24, 2008; 77 FR 35258, June 13, 2012; 78 FR 62275, Oct. 11, 2013]

Subpart D—Other Changes in Activities and Operations

§ 5.40 Change in location of main office.

(a) *Authority* 12 U.S.C. 30, 93a, and 2901 through 2907.

(b) *Licensing requirements.* A national bank shall give prior notice to the OCC to relocate its main office within city, town, or village limits to an authorized branch location. A national bank shall submit an application and obtain prior OCC approval to relocate its main office to any other location in the city, town, or village, or within 30 miles of the limits of the city, town, or village in which the main office of the bank is located.

(c) *Scope.* This section describes OCC procedures and approval standards for an application or a notice by a national bank to change the location of its main office.

(d) *Procedure—(1) Main office relocation to an authorized branch location within city, town, or village limits.* A national bank may change the location of its main office to an authorized branch location (approved or existing branch site) within the limits of the same city, town, or village. The national bank shall submit a notice to the appropriate district office before the relocation. The notice must include the new address of the main office and the effective date of the relocation.

(2) *To any other location.* To relocate its main office to any other location, a national bank shall file an application to relocate with the appropriate district office. If relocating the main office outside the limits of its city, town, or village, a national bank shall also:

(i) Obtain the approval of shareholders owning two-thirds of the voting stock of the bank; and

(ii) Amend its articles of association.

(3) *Establishment of a branch at site of former main office.* A national bank desiring to establish a branch at its

§ 5.42

former main office location shall obtain OCC approval pursuant to the standards of § 5.30.

(4) *Expedited review.* A main office relocation application submitted by an eligible bank under paragraph (d)(2) of this section is deemed approved by the OCC as of the 15th day after the close of the public comment period or the 45th day after the filing is received by the OCC, whichever is later, unless the OCC notifies the bank prior to that time that the filing is not eligible for expedited review, or the expedited review period is extended, under § 5.13(a)(2).

(5) *Exceptions to rules of general applicability.* (i) Sections 5.8, 5.9, 5.10, and 5.11 do not apply to a main office relocation to an authorized branch location within the limits of the city, town, or village as described in paragraph (d)(1) of this section. However, if the OCC concludes that the notice under paragraph (d)(1) of this section presents a significant and novel policy, supervisory, or legal issue, the OCC may determine that any or all parts of §§ 5.8, 5.9, 5.10, and 5.11 apply.

(ii) The comment period on any application filed under paragraph (d)(2) of this section to engage in a short-distance relocation of a main office is 15 days.

(e) *Expiration of approval.* Approval expires if the national bank has not opened its main office at the relocated site within 18 months of the date of approval.

§ 5.42 Corporate title.

(a) *Authority.* 12 U.S.C. 21a, 30, and 93a.

(b) *Scope.* This section describes the method by which a national bank may change its corporate title.

(c) *Standards.* A national bank may change its corporate title provided that the new title includes the word “national” and complies with other applicable Federal laws, including 18 U.S.C. 709, regarding false advertising and the misuse of names to indicate a Federal agency, and any applicable OCC guidance.

(d) *Procedures—(1) Notice process.* A national bank shall promptly notify the appropriate district office if it changes its corporate title. The notice

12 CFR Ch. I (1–1–14 Edition)

must contain the old and new titles and the effective date of the change.

(2) *Amendment to articles of association.* A national bank whose corporate title is specified in its articles of association shall amend its articles, in accordance with the procedures of 12 U.S.C. 21a, to change its title.

(3) *Exceptions to rules of general applicability.* Sections 5.8, 5.9, 5.10, 5.11, and 5.13(a) do not apply to a national bank’s change of corporate title. However, if the OCC concludes that the application presents a significant and novel policy, supervisory, or legal issue, the OCC may determine that any or all parts of §§ 5.8, 5.9, 5.10, 5.11, and 5.13(a) apply.

§ 5.46 Changes in permanent capital.

(a) *Authority.* 12 U.S.C. 21a, 51, 51a, 51b, 51b–1, 52, 56, 57, 59, 60, and 93a.

(b) *Licensing requirements.* A national bank shall submit an application and obtain OCC approval to decrease its permanent capital. Generally, a national bank need only submit a notice to increase its permanent capital, although, in certain circumstances, a national bank shall be required to submit an application and obtain OCC approval.

(c) *Scope.* This section describes procedures and standards relating to a transaction resulting in a change in a national bank’s permanent capital.

(d) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, and 5.11 do not apply to changes in a national bank’s permanent capital.

(e) *Definitions.* For the purposes of this section the following definitions apply:

(1) *Capital plan* means a plan describing the manner and schedule by which a national bank will attain specified capital levels or ratios, including a plan to achieve minimum capital ratios filed with the appropriate district office under 12 CFR 3.7 and a capital restoration plan filed with the OCC under 12 U.S.C. 1831o and 12 CFR 6.5.

(2) *Capital stock* means the total amount of common stock and preferred stock.

(3) *Capital surplus* means the total of:
(i) The amount paid in on capital stock in excess of the par or stated value;

(ii) Direct capital contributions representing the amounts paid in to the national bank other than for capital stock;

(iii) The amount transferred from undivided profits; and

(iv) The amount transferred from undivided profits reflecting stock dividends.

(4) *Permanent capital* means the sum of capital stock and capital surplus.

(f) *Policy*. In determining whether to approve a proposed change to a national bank's permanent capital, the OCC considers whether the change is:

(1) Consistent with law, regulation, and OCC policy thereunder;

(2) Provides an adequate capital structure; and

(3) If appropriate, complies with the bank's capital plan.

(g) *Increases in permanent capital—(1) Prior approval—(i) Criteria*. A national bank need not obtain prior OCC approval to increase its permanent capital unless the bank is:

(A) Required to receive OCC approval pursuant to letter, order, directive, written agreement or otherwise;

(B) Selling common or preferred stock for consideration other than cash; or

(C) Receiving a material noncash contribution to capital surplus.

(ii) *Application and notice*. A national bank that proposes to increase its permanent capital and that must receive OCC approval under paragraph (g)(1)(i) of this section shall file an application under paragraph (i)(1) of this section and a notice under paragraph (i)(3) of this section. A national bank not required to obtain prior approval under paragraph (g)(1)(i) of this section for an increase in capital shall file only the notice under paragraph (i)(3) of this section.

(2) *Preferred stock*. Notwithstanding paragraph (g)(1)(i) of this section, in the case of a sale of preferred stock, the national bank shall also submit provisions in the articles of association concerning preferred stock dividends, voting and conversion rights, retirement of the stock, and rights to exercise control over management to the appropriate district office prior to the sale of the preferred stock. The provisions will be deemed approved by the

OCC within 15 days of its receipt, unless the OCC notifies the applicant otherwise, including a statement of the reason for the delay.

(h) *Decreases in permanent capital*. A national bank shall submit an application and obtain prior approval under paragraph (i)(1) or (i)(2) of this section for any reduction of its permanent capital.

(i) *Procedures—(1) Prior approval*. A national bank proposing to make a change in its permanent capital that requires prior OCC approval under paragraphs (g) or (h) of this section shall submit an application to the appropriate district office. The application must:

(i) Describe the type and amount of the proposed change in permanent capital and explain the reason for the change;

(ii) In the case of a reduction in capital, provide a schedule detailing the present and proposed capital structure;

(iii) In the case of a material noncash contribution to capital, provide a description of the method of valuing the contribution; and

(iv) State if the bank is subject to a capital plan with the OCC and how the proposed change would conform to a capital plan or if a capital plan is otherwise required in connection with the proposed change in permanent capital.

(2) *Expedited review*. An eligible bank's application is deemed approved by the OCC 15 days after the date the OCC receives the application described in paragraph (i)(1) of this section, unless the OCC notifies the bank prior to that date that the application is not eligible for expedited review under § 5.13(a)(2). A bank seeking to decrease its capital may request OCC approval for up to four consecutive quarters. An eligible bank may decrease its capital pursuant to such a plan only if the bank maintains its eligible bank status before and after each decrease in its capital.

(3) *Notice*. After a bank completes an increase in capital it shall submit a notice to the appropriate district office. The proposed change is deemed approved by the OCC and certified seven days after the date on which the OCC receives the notice. The notice must be acknowledged before a notary public by

§5.47

12 CFR Ch. I (1–1–14 Edition)

the bank's president, vice president, or cashier and contain:

(i) A description of the transaction, unless already provided pursuant to paragraph (i)(1) of this section;

(ii) The amount, including the par value of the stock, and effective date of the increase;

(iii) A certification that the funds have been paid in, if applicable;

(iv) A certified copy of the amendment to the articles of association, if required; and

(v) A statement that the bank has complied with all laws, regulations and conditions imposed by the OCC.

(4) *Notice process.* A national bank that decreases its capital in accordance with paragraphs (i)(1) or (i)(2) of this section shall notify the appropriate district office following the completion of the transaction.

(5) *Expiration of approval.* Approval expires if a national bank has not completed its change in permanent capital within one year of the date of approval.

(j) *Offers and sales of stock.* A national bank shall comply with the Securities Offering Disclosure Rules in 12 CFR part 16 for offers and sales of common and preferred stock.

(k) *Shareholder approval.* A national bank shall obtain the necessary shareholder approval required by statute for any change in its permanent capital.

[61 FR 60363, Nov. 27, 1996, as amended at 73 FR 22240, Apr. 24, 2008]

§5.47 Subordinated debt as capital.

(a) *Authority.* 12 U.S.C. 93a.

(b) *Licensing requirements.* A national bank does not need prior OCC approval to issue subordinated debt, or to prepay subordinated debt (including payment pursuant to an acceleration clause or redemption prior to maturity) provided the bank remains an eligible bank after the transaction, unless the OCC has previously notified the bank that prior approval is required, or unless prior approval is required by law. No prior approval is required for the bank to count the subordinated debt as Tier 2 or Tier 3 capital. However, a bank issuing subordinated debt shall notify the OCC after issuance if the debt is to be counted as Tier 2 or Tier 3 capital.

(c) *Scope.* This section sets forth the procedures for OCC review and approval of an application to issue or prepay subordinated debt.

(d) *Definitions*—(1) *Capital plan* means a plan describing the means and schedule by which a national bank will attain specified capital levels or ratios, including a plan to achieve minimum capital ratios filed with the appropriate district office under 12 CFR 3.7 and a capital restoration plan filed with the OCC under 12 U.S.C. 1831o and 12 CFR 6.5.

(2) *Tier 2 capital* has the same meaning as set forth in 12 CFR 3.2(d).

(3) *Tier 3 capital* has the same meaning as set forth in 12 CFR part 3, appendix B, section 2(d).

(e) *Qualification as regulatory capital.* (1) A national bank's subordinated debt qualifies as Tier 2 capital if the subordinated debt meets the requirements in 12 CFR part 3, appendix A, section 2(b)(4), and complies with the "OCC Guidelines for Subordinated Debt" in the Manual.

(2) A national bank's subordinated debt qualifies as Tier 3 capital if the subordinated debt meets the requirements in 12 CFR part 3, section 2(d) of appendix B.

(3) If the OCC notifies a national bank that it must obtain OCC approval before issuing subordinated debt, the subordinated debt will not qualify as Tier 2 or Tier 3 capital until the bank obtains OCC approval for its inclusion in capital.

(f) *Prior approval procedure*—(1) *Application.* A national bank required to obtain OCC approval before issuing or prepaying subordinated debt shall submit an application to the appropriate district office. The application must include:

(i) A description of the terms and amount of the proposed issuance or prepayment;

(ii) A statement of whether the bank is subject to a capital plan or required to file a capital plan with the OCC and, if so, how the proposed change conforms to the capital plan;

(iii) A copy of the proposed subordinated note format and note agreement; and

(iv) A statement of whether the subordinated debt issue complies with all

laws, regulations, and the “OCC Guidelines for Subordinated Debt” in the Manual.

(2) *Approval*—(i) *General*. The application is deemed approved by the OCC as of the 30th day after the filing is received by the OCC, unless the OCC notifies the bank prior to that date that the filing presents a significant supervisory, or compliance concern, or raises a significant legal or policy issue.

(ii) *Tier 2 and Tier 3 capital*. When the OCC notifies the bank that the OCC approves the bank’s application to issue or prepay the subordinated debt, it also notifies the bank whether the subordinated debt qualifies as Tier 2 or Tier 3 capital.

(iii) *Expiration of approval*. Approval expires if a national bank does not complete the sale of the subordinated debt within one year of approval.

(g) *Notice procedure*. If a national bank is not required to obtain approval before issuing subordinated debt, the bank shall notify the appropriate district office in writing within ten days after issuing subordinated debt that is to be counted as Tier 2 or Tier 3 capital. The notice must include:

- (1) The terms of the issuance;
- (2) The amount and date of receipt of funds;
- (3) A copy of the final subordinated note format and note agreement; and
- (4) A statement that the issue complies with all laws, regulations, and the “OCC Guidelines for Subordinated Debt Instruments” in the Manual.

(h) *Exceptions to rules of general applicability*. Sections 5.8, 5.10, and 5.11 do not apply to the issuance of subordinated debt.

(i) *Issuance of subordinated debt*. A national bank shall comply with the Securities Offering Disclosure Rules in 12 CFR part 16 when issuing subordinated debt even if the bank is not required to obtain prior approval to issue subordinated debt.

§ 5.48 Voluntary liquidation.

(a) *Authority*. 12 U.S.C. 93a, 181, and 182.

(b) *Licensing requirements*. A national bank considering going into voluntary liquidation shall notify the OCC. The

bank shall also file a notice with the OCC once a liquidation plan is definite.

(c) *Exceptions to rules of general applicability*. Sections 5.8, 5.10, and 5.11 do not apply to a voluntary liquidation. However, if the OCC concludes that the notice presents significant and novel policy, supervisory or legal issues, the OCC may determine that any or all parts of §§ 5.8, 5.10, and 5.11 apply.

(d) *Standards*. A national bank may liquidate in accordance with the terms of 12 U.S.C. 181 and 182.

(e) *Procedure*—(1) *Notice of voluntary liquidation*. When the shareholders of a solvent national bank have voted to voluntarily liquidate, the bank shall file a notice with the appropriate district office and publish public notice in accordance with 12 U.S.C. 182.

(2) *Report of condition*. The liquidating bank shall submit reports of the condition of its commercial, trust, and other departments to the appropriate district office by filing the quarterly Consolidated Reports of Condition and Income (Call Reports).

(3) *Report of progress*. The liquidating agent or committee shall submit a “Report of Progress of Liquidation” annually to the appropriate district office until the liquidation is complete.

(f) *Expedited liquidations in connection with acquisitions*—(1) *General*. When an acquiring depository institution in a business combination purchases all the assets, and assumes all the liabilities, including contingent liabilities, of a target national bank, the acquiring depository institution may dissolve the target national bank immediately after the combination. However, if any liabilities will remain in the target national bank, then the standard liquidation procedures apply.

(2) *Procedure*. After its shareholders have voted to liquidate and the national bank has notified the appropriate district office of its plans, the bank may surrender its charter and dissolve immediately, if:

- (i) The acquiring depository institution certifies to the OCC that it has purchased all the assets and assumed all the liabilities, including contingent liabilities, of the national bank in liquidation; and

§5.50

12 CFR Ch. I (1-1-14 Edition)

(ii) The acquiring depository institution and the national bank in liquidation have published notice that the bank will dissolve after the purchase and assumption to the acquiror. This is included in the notice and publication for the purchase and assumption required under the Bank Merger Act, 12 U.S.C. 1828(c).

(g) *National bank as acquiror.* If another national bank plans to acquire a national bank in liquidation through merger or through the purchase of the assets and the assumption of the liabilities of the bank in liquidation, the acquiring bank shall comply with the Bank Merger Act, 12 U.S.C. 1828(c), and §5.33.

§5.50 Change in bank control; reporting of stock loans.

(a) *Authority.* 12 U.S.C. 93a, 1817(j), and 12 U.S.C. 1831aa.

(b) *Licensing requirements.* Any person seeking to acquire control of a national bank shall provide 60 days prior written notice of a change in control to the OCC, except where otherwise provided in this section.

(c) *Scope—(1) General.* This section describes the procedures and standards governing OCC review of notices for a change in control of a national bank and reports of stock loans.

(2) *Exempt transactions.* The following transactions are not subject to the requirements of this section:

(i) The acquisition of additional shares of a national bank by a person who:

(A) Has, continuously since March 9, 1979, (or since that institution commenced business, if later) held power to vote 25 percent or more of the voting securities of that bank; or

(B) Under paragraph (f)(2)(ii) of this section, would be presumed to have controlled that bank continuously since March 9, 1979, if the transaction will not result in that person's direct or indirect ownership or power to vote 25 percent or more of any class of voting securities of the national bank; or, in other cases, where the OCC determines that the person has controlled the bank continuously since March 9, 1979;

(ii) Unless the OCC otherwise provides in writing, the acquisition of ad-

ditional shares of a national bank by a person who has lawfully acquired and maintained continuous control of the bank under paragraph (f) of this section after complying with the procedures and filing the notice required by this section;

(iii) A transaction subject to approval under section 3 of the Bank Holding Company Act, 12 U.S.C. 1842, section 18 of Federal Deposit Insurance Act, 12 U.S.C. 1828, or section 10 of the Home Owners' Loan Act, 12 U.S.C. 1467a;

(iv) Any transaction described in section 2(a)(5) or 3(a) (A) or (B) of the Bank Holding Company Act, 12 U.S.C. 1841(a)(5) and 1842(a) (A) and (B), by a person described in those provisions;

(v) A customary one-time proxy solicitation or receipt of *pro rata* stock dividends; and

(vi) The acquisition of shares of a foreign bank that has a Federally licensed branch in the United States. This exemption does not extend to the reports and information required under paragraph (h) of this section.

(3) *Prior notice exemption.* The following transactions are not subject to the prior notice requirements of this section but are otherwise subject to this section, including filing a notice and paying the appropriate filing fee, within 90 calendar days after the transaction occurs:

(i) The acquisition of control as a result of acquisition of voting shares of a national bank through testate or intestate succession;

(ii) The acquisition of control as a result of acquisition of voting shares of a national bank as a bona fide gift;

(iii) The acquisition of voting shares of a national bank resulting from a redemption of voting securities;

(iv) The acquisition of control of a national bank as a result of actions by third parties (including the sale of securities) that are not within the control of the acquiror; and

(v) The acquisition of control as a result of the acquisition of voting shares of a national bank in satisfaction of a debt previously contracted in good faith.

(A) "Good faith" means that a person must either make or acquire a loan secured by voting securities of a national

bank in advance of any known default. A person who purchases a previously defaulted loan secured by voting securities of a national bank may not rely on this paragraph (c)(3)(v) to foreclose on that loan, seize or purchase the underlying collateral, and acquire control of the national bank without complying with the prior notice requirements of this section.

(B) To ensure compliance with this section, the acquiror of a defaulted loan secured by a controlling amount of a national bank's voting securities shall file a notice prior to the time the loan is acquired unless the acquiror can demonstrate to the satisfaction of the OCC that the voting securities are not the anticipated source of repayment for the loan.

(d) *Definitions.* As used in this section:

(1) *Acquisition* includes a purchase, assignment, transfer, or pledge of voting securities, or an increase in percentage ownership of a national bank resulting from a redemption of voting securities.

(2) *Acting in concert* means:

(i) Knowing participation in a joint activity or parallel action towards a common goal of acquiring control whether or not pursuant to an express agreement; or

(ii) A combination or pooling of voting or other interests in the securities of an issuer for a common purpose pursuant to any contract, understanding, relationship, agreement, or other arrangement, whether written or otherwise.

(3) *Control* means the power, directly or indirectly, to direct the management or policies of a national bank or to vote 25 percent or more of any class of voting securities of a national bank.

(4) *Immediate family* includes a person's spouse, father, mother, stepfather, stepmother, brother, sister, stepbrother, stepsister, children, stepchildren, grandparent, grandchildren, father-in-law, mother-in-law, brother-in-law, sister-in-law, son-in-law, daughter-in-law, and the spouse of any of the foregoing.

(5) *Notice* means a filing by a person in accordance with paragraph (f) of this section.

(6) *Person* means an individual or a corporation, partnership, trust, association, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, or any other form of entity, and includes voting trusts and voting agreements and any group of persons acting in concert.

(7) *Voting securities* means:

(i) Shares of common or preferred stock, or similar interests, if the shares or interests, by statute, charter, or in any manner, allow the holder to vote for or select directors (or persons exercising similar functions) of the issuing national bank, or to vote on or to direct the conduct of the operations or other significant policies of the issuing national bank. However, preferred stock or similar interests are not voting securities if:

(A) Any voting rights associated with the shares or interests are limited solely to voting rights customarily provided by statute regarding matters that would significantly affect the rights or preference of the security or other interest. This includes the issuance of additional amounts of classes of senior securities, the modification of the terms of the security or interest, the dissolution of the issuing national bank, or the payment of dividends by the issuing national bank when preferred dividends are in arrears;

(B) The shares or interests are a passive investment or financing device and do not otherwise provide the holder with control over the issuing national bank; and

(C) The shares or interests do not allow the holder by statute, charter, or in any manner, to select or to vote for the selection of directors (or persons exercising similar functions) of the issuing national bank.

(ii) Securities, other instruments, or similar interests that are immediately convertible, at the option of the owner or holder thereof, into voting securities.

(e) *Policy*—(1) *General.* The OCC seeks to enhance and maintain public confidence in the banking system by preventing a change in control of a national bank that could have serious adverse effects on a bank's financial stability or management resources, the

interests of the bank's customers, the Federal deposit insurance fund, or competition.

(2) *Acquisitions subject to the Bank Holding Company Act.* (i) If corporations, partnerships, certain trusts, associations, and similar organizations, that are not already bank holding companies, are not required to secure prior Federal Reserve Board approval to acquire control of a bank under section 3 of the Bank Holding Company Act, 12 U.S.C. 1842, they are subject to the notice requirements of this section.

(ii) Certain transactions, including foreclosures by depository institutions and other institutional lenders, fiduciary acquisitions by depository institutions, and increases of majority holdings by bank holding companies, are described in sections 2(a)(5)(D) and 3(a)(A) and (B) of the Bank Holding Company Act, 12 U.S.C. 1841(a)(5)(D) and 12 U.S.C. 1842(a)(A) and (B), but do not require the Federal Reserve Board's prior approval. For purposes of this section, they are considered subject to section 3 of the Bank Holding Company Act, 12 U.S.C. 1842, and do not require either a prior or subsequent notice to the OCC under this section.

(3) *Assessing financial condition.* In assessing the financial condition of the acquiring person, the OCC weighs any debt servicing requirements in light of the acquiring person's overall financial strength; the institution's earnings performance, asset condition, capital adequacy, and future prospects; and the likelihood of the acquiring party making unreasonable demands on the resources of the institution.

(f) *Procedures—(1) Exceptions to rules of general applicability.* Sections 5.8(a), 5.9, 5.10, 5.11, and 5.13(a) through (f) do not apply to filings under this section.

(2) *Who must file.* (i) Any person seeking to acquire the power, directly or indirectly, to direct the management or policies, or to vote 25 percent or more of a class of voting securities of a national bank, shall file a notice with the OCC 60 days prior to the proposed acquisition, unless the acquisition is exempt under paragraph (c)(2) of this section.

(ii) The OCC presumes, unless rebutted, that a person is acting in concert with his or her immediate family.

(iii) The OCC presumes, unless rebutted, that an acquisition or other disposition of voting securities through which any person proposes to acquire ownership of, or the power to vote, ten percent or more of a class of voting securities of a national bank is an acquisition by a person of the power to direct the bank's management or policies if:

(A) The securities to be acquired or voted are subject to the registration requirements of section 12 of the Securities Exchange Act of 1934, 15 U.S.C. 78l; or

(B) Immediately after the transaction no other person will own or have the power to vote a greater proportion of that class of voting securities.

(iv) Other transactions resulting in a person's control of less than 25 percent of a class of voting securities of a national bank are not deemed by the OCC to result in control for purposes of this section.

(v) If two or more persons, not acting in concert, each propose to acquire simultaneously equal percentages of ten percent or more of a class of a national bank's voting securities, and either the acquisitions are of a class of securities subject to the registration requirements of section 12 of the Securities Exchange Act of 1934, 15 U.S.C. 78l, or immediately after the transaction no other shareholder of the national bank would own or have the power to vote a greater percentage of the class, each of the acquiring persons shall either file a notice or rebut the presumption of control.

(vi) An acquiring person may seek to rebut the presumption established in paragraph (f)(2)(ii) and (iii) of this section by presenting relevant information in writing to the appropriate district office. The OCC shall respond in writing to any person that seeks to rebut the presumption of control. No rebuttal filing is effective unless the OCC indicates in writing that the information submitted has been found to be sufficient to rebut the presumption of control.

(3) *Filings.* (i) The OCC does not accept a notice of a change in control unless it is technically complete, i.e., the information provided is responsive to every item listed in the notice form

and is accompanied by the appropriate fee.

(A) The notice must contain personal and biographical information, detailed financial information, information regarding the future prospects of the institution, details of the proposed change in control, information on any structural or managerial changes contemplated for the institution, and other relevant information required by the OCC. The OCC may waive any of the informational requirements of the notice if the OCC determines that it is in the public interest.

(B) When the acquiring person is an individual, or group of individuals acting in concert, the requirement to provide personal financial data may be satisfied with a current statement of assets and liabilities and an income summary, together with a statement of any material changes since the date of the statement or summary. However, the OCC may require additional information, if appropriate.

(ii) The OCC has 60 days from the date it declares the notice to be technically complete to review the notice.

(A) When the OCC declares a notice technically complete, the appropriate district office sends a letter of acknowledgment to the applicant indicating the technically complete date.

(B) As set forth in paragraph (g) of this section, the applicant shall publish an announcement within 10 days of filing the notice with the OCC. The publication of the announcement triggers a 20-day public comment period. The OCC may waive or shorten the public comment period if an emergency exists. The OCC also may shorten the comment period for other good cause. The OCC may act on a proposed change in control prior to the expiration of the public comment period if the OCC makes a written determination that an emergency exists.

(C) An applicant shall notify the OCC immediately of any material changes in a notice submitted to the OCC, including changes in financial or other conditions, that may affect the OCC's decision on the filing.

(iii) Within the 60-day period, the OCC may inform the applicant that the acquisition has been disapproved, has not been disapproved, or that the OCC

will extend the 60-day review period. The applicant may request a hearing by the OCC within 10 days of receipt of a disapproval (see 12 CFR part 19, subpart H, for hearing initiation procedures). Following final agency action under 12 CFR part 19, further review by the courts is available.

(4) *Conditional actions.* The OCC may impose conditions on its action not to disapprove a notice to assure satisfaction of the relevant statutory criteria for non-objection to a notice.

(5) *Disapproval of notice.* The OCC may disapprove a notice if it finds that any of the following factors exist:

(i) The proposed acquisition of control would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States;

(ii) The effect of the proposed acquisition of control in any section of the country may be substantially to lessen competition or to tend to create a monopoly or the proposed acquisition of control would in any other manner be in restraint of trade, and the anti-competitive effects of the proposed acquisition of control are not clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served;

(iii) Either the financial condition of any acquiring person or the future prospects of the institution is such as might jeopardize the financial stability of the bank or prejudice the interests of the depositors of the bank;

(iv) The competence, experience, or integrity of any acquiring person, or of any of the proposed management personnel, indicates that it would not be in the interest of the depositors of the bank, or in the interest of the public, to permit that person to control the bank;

(v) An acquiring person neglects, fails, or refuses to furnish the OCC all the information it requires; or

(vi) The OCC determines that the proposed transaction would result in an adverse effect on the Bank Insurance Fund or the Savings Association Insurance Fund.

(6) *Disapproval notification.* If the OCC disapproves a notice, it mails a written notification to the proposed acquiring person within three days after the decision containing a statement of the basis for disapproval.

(g) *Disclosure—(1) Announcement.* The applicant shall publish an announcement in a newspaper of general circulation in the community where the affected national bank is located within ten days of filing. The OCC may authorize a delayed announcement if an immediate announcement would not be in the public interest.

(i) In addition to the information required by §5.8(b), the announcement must include the name of the national bank named in the notice and the comment period (*i.e.*, 20 days from the date of the announcement). The announcement also must state that the public portion of the notice is available upon request.

(ii) Notwithstanding any other provisions of this paragraph (g), if the OCC determines in writing that an emergency exists and that the announcement requirements of this paragraph (g) would seriously threaten the safety and soundness of the national bank to be acquired, including situations where the OCC must act immediately in order to prevent the probable failure of a national bank, the OCC may waive or shorten the publication requirement.

(2) *Release of information.* (i) Upon the request of any person, the OCC releases the information provided in the public portion of the notice and makes it available for public inspection and copying as soon as possible after a notice has been filed. In certain circumstances the OCC may determine that the release of the information would not be in the public interest. In addition, the OCC makes a public announcement of a technically complete notice, the disposition of the notice, and the consummation date of the transaction, if applicable, in the OCC's "Weekly Bulletin."

(ii) The OCC handles requests for the non-public portion of the notice as requests under the Freedom of Information Act, 5 U.S.C. 552, and other applicable law.

(h) *Reporting requirement.* After the consummation of the change in con-

trol, the national bank shall notify the OCC in writing of any changes or replacements of its chief executive officer or of any director occurring during the 12-month period beginning on the date of consummation. This notice must be filed within 10 days of such change or replacement and must include a statement of the past and current business and professional affiliations of the new chief executive officers or directors.

(i) *Reporting of stock loans—(1) Requirements.* (i) Any foreign bank, or any affiliate thereof, shall file a consolidated report with the appropriate district office of the national bank if the foreign bank or any affiliate thereof, has credit outstanding to any person or group of persons that, in the aggregate, is secured, directly or indirectly, by 25 percent or more of any class of voting securities of the same national bank.

(ii) The foreign bank, or any affiliate thereof, shall also file a copy of the report with its appropriate district office if that office is different from the national bank's appropriate district office. If the foreign bank, or any affiliate thereof, is not supervised by the OCC, it shall file a copy of the report filed with the OCC with its appropriate Federal banking agency.

(iii) Any shares of the national bank held by the foreign bank, or any affiliate thereof, as principal must be included in the calculation of the number of shares in which the foreign bank or any affiliate thereof has a security interest for purposes of paragraph (h)(1)(i) of this section.

(2) *Definitions.* For purposes of this paragraph (h):

(i) *Foreign bank and affiliate* have the same meanings as in section 1 of the International Banking Act of 1978, 12 U.S.C. 3101.

(ii) *Credit outstanding* includes any loan or extension of credit; the issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit; and any other type of transaction that extends credit or financing to a person or group of persons.

(iii) *Group of persons* includes any number of persons that a foreign bank, or an affiliate thereof, has reason to believe:

(A) Are acting together, in concert, or with one another to acquire or control shares of the same insured national bank, including an acquisition of shares of the same national bank at approximately the same time under substantially the same terms; or

(B) Have made, or propose to make, a joint filing under 15 U.S.C. 78m regarding ownership of the shares of the same depository institution.

(3) *Exceptions.* Compliance with paragraph (h)(1) of this section is not required if:

(i) The person or group of persons referred to in paragraph (h)(1) of this section has disclosed the amount borrowed and the security interest therein to the appropriate district office in connection with a notice filed under this section or any other application filed with the appropriate district office as a substitute for a notice under this section, such as for a national bank charter; or

(ii) The transaction involves a person or group of persons that has been the owner or owners of record of the stock for a period of one year or more or, if the transaction involves stock issued by a newly chartered bank, before the bank's opening.

(4) *Report requirements.* (i) The consolidated report must indicate the number and percentage of shares securing each applicable extension of credit, the identity of the borrower, and the number of shares held as principal by the foreign bank and any affiliate thereof.

(ii) The foreign bank and all affiliates thereof shall file the consolidated report in writing within 30 days of the date on which the foreign bank or affiliate thereof first believes that the security for any outstanding credit consists of 25 percent or more of any class of voting securities of a national bank.

(5) *Other reporting requirements.* A foreign bank or any affiliate thereof, supervised by the OCC and required to report credit outstanding secured by the shares of a depository institution to another Federal banking agency also shall file a copy of the report with its appropriate district office.

[61 FR 60363, Nov. 27, 1996, as amended at 73 FR 22240, Apr. 24, 2008; 76 FR 43564, July 21, 2011]

§ 5.51 Changes in directors and senior executive officers.

(a) *Authority.* 12 U.S.C. 1831i.

(b) *Scope.* This section describes the circumstances when a national bank must notify the OCC of a change in its directors and senior executive officers, and the OCC's authority to disapprove those notices.

(c) *Definitions*—(1) *Director* means a person who serves on the board of directors of a national bank except:

(i) A director of a foreign bank that operates a Federal branch; and

(ii) An advisory director who does not have the authority to vote on matters before the board of directors and provides solely general policy advice to the board of directors.

(2) *National bank*, as defined in § 5.3(j), includes a Federal branch for purposes of this section only.

(3) *Senior executive officer* means the chief executive officer, chief operating officer, chief financial officer, chief lending officer, chief investment officer, and any other individual the OCC identifies to the national bank who exercises significant influence over, or participates in, major policy making decisions of the bank without regard to title, salary, or compensation. The term also includes employees of entities retained by a national bank to perform such functions in lieu of directly hiring the individuals, and, with respect to a Federal branch operated by a foreign bank, the individual functioning as the chief managing official of the Federal branch.

(4) *Technically complete notice* means a notice that provides all the information requested in paragraph (e)(2) of this section, including complete explanations where material issues arise regarding the competence, experience, character, or integrity of proposed directors or senior executive officers, and any additional information that the OCC may request following a determination that the original submission of the notice was not technically complete.

(5) *Technically complete notice date* means the date on which the OCC has received a technically complete notice.

(6) *Troubled condition* means a national bank that:

§5.51

12 CFR Ch. I (1–1–14 Edition)

(i) Has a composite rating of 4 or 5 under the Uniform Financial Institutions Rating System (CAMELS);

(ii) Is subject to a cease and desist order, a consent order, or a formal written agreement, unless otherwise informed in writing by the OCC; or

(iii) Is informed in writing by the OCC that as a result of an examination it has been designated in “troubled condition” for purposes of this section.

(d) *Prior notice.* A national bank shall provide written notice to the OCC at least 90 days before adding or replacing any member of its board of directors, employing any person as a senior executive officer of the national bank, or changing the responsibilities of any senior executive officer so that the person would assume a different executive officer position, if:

(1) The national bank is not in compliance with minimum capital requirements applicable to such institution, as prescribed in 12 CFR part 3, or is otherwise in troubled condition; or

(2) The OCC determines, in connection with the review by the agency of the plan required under section 38 of the Federal Deposit Insurance Act, 12 U.S.C. 1831o, or otherwise, that such prior notice is appropriate.

(e) *Procedures*—(1) *Filing notice.* A national bank shall file a notice with its appropriate supervisory office. When a national bank files a notice, the individual to whom the filing pertains shall attest to the validity of the information pertaining to that individual. The 90-day review period begins on the technically complete notice date.

(2) *Content of notice.* A notice must contain the identity, personal history, business background, and experience of each person whose designation as a director or senior executive officer is subject to this section. The notice must include:

(i) A description of his or her material business activities and affiliations during the five years preceding the date of the notice;

(ii) A description of any material pending legal or administrative proceedings to which he or she is a party;

(iii) Any criminal indictment or conviction by a state or Federal court; and

(iv) Legible fingerprints of the person, except that fingerprints are not

required for any person who, within the three years immediately preceding the date of the present notice, has been subject to a notice filed with the OCC pursuant to section 32 of the FDIA, 12 U.S.C. 1831i, or this section and has previously submitted fingerprints.

(3) *Requests for additional information.* Following receipt of a technically complete notice, the OCC may request additional information, in writing where feasible, and may specify a time period during which the information must be provided.

(4) *Notice of disapproval.* The OCC may disapprove an individual proposed as a member of the board of directors or as a senior executive officer if the OCC determines on the basis of the individual’s competence, experience, character, or integrity that it would not be in the best interests of the depositors of the national bank or the public to permit the individual to be employed by, or associated with, the national bank. The OCC sends a notice of disapproval to both the national bank and the disapproved individual stating the basis for disapproval.

(5) *Notice of intent not to disapprove.* An individual proposed as a member of the board of directors or as a senior executive officer may begin service before the expiration of the review period if the OCC notifies the national bank that the OCC does not disapprove the proposed director or senior executive officer.

(6) *Waiver of prior notice.* (i) A national bank may send a letter to the appropriate supervisory office requesting a waiver of the prior notice requirement. The OCC may waive the prior notice requirement but not the filing required under this section. The OCC may grant a waiver if it finds that delay could harm the national bank or the public interest, or that other extraordinary circumstances justify waiving the prior notice requirement. The length of any waiver depends on the circumstances in each case. If the OCC grants a waiver, the national bank shall file the required notice within the time period specified in the waiver, and the proposed individual may assume the position on an interim basis until the individual and the national bank receive a notice of disapproval or, if an

Comptroller of the Currency, Treasury

§ 5.52

appeal has been filed, until a notice of disapproval has been upheld on appeal as set forth in paragraph (f) of this section. If the required notice is not filed within the time period specified in the waiver, the proposed individual shall resign his or her position. Thereafter, the individual may assume the position on a permanent basis only after the national bank receives a notice of intent not to disapprove, after the review period elapses, or after a notice of disapproval has been overturned on appeal as set forth in paragraph (f) of this section. A waiver does not affect the OCC's authority to issue a notice of disapproval within 30 days of the expiration of such waiver.

(ii) In the case of the election at a meeting of the shareholders of a new director not proposed by management, a waiver is granted automatically and the elected individual may begin service as a director. However, under these circumstances, the national bank shall file the required notice with the appropriate supervisory office as soon as practical, but not later than seven days from the date the individual is notified of the election. The individual's continued service is subject to the conditions specified in paragraph (e)(6)(i) of this section.

(7) *Commencement of service.* An individual proposed as a member of the board of directors or as a senior executive officer may assume the office following the end of the review period, which begins on the technically complete notice date, unless:

(i) The OCC issues a notice of disapproval during the review period; or

(ii) The national bank does not provide additional information within the time period required by the OCC pursuant to paragraph (e)(3) of this section and the OCC deems the notice to be abandoned pursuant to § 5.13(c).

(8) *Exceptions to rules of general applicability.* Sections 5.8, 5.10, 5.11, and 5.13 (a) through (f) do not apply to a notice for a change in directors and senior executive officers.

(f) *Appeal*—(1) If the national bank, the proposed individual, or both, disagree with a disapproval, they may seek review by appealing the disapproval to the Comptroller, or an authorized delegate, within 15 days of the

receipt of the notice of disapproval. The national bank or the individual may appeal on the grounds that the reasons for disapproval are contrary to fact or insufficient to justify disapproval. The appellant shall submit all documents and written arguments that the appellant wishes to be considered in support of the appeal.

(2) The Comptroller, or an authorized delegate, may designate an appellate official who was not previously involved in the decision leading to the appeal at issue. The Comptroller, an authorized delegate, or the appellate official considers all information submitted with the original notice, the material before the OCC official who made the initial decision, and any information submitted by the appellant at the time of the appeal.

(3) The Comptroller, an authorized delegate, or the appellate official shall independently determine whether the reasons given for the disapproval are contrary to fact or insufficient to justify the disapproval. If either is determined to be the case, the Comptroller, an authorized delegate, or the appellate official may reverse the disapproval.

(4) Upon completion of the review, the Comptroller, an authorized delegate, or the appellate official shall notify the appellant in writing of the decision. If the original decision is reversed, the individual may assume the position in the bank for which he or she was proposed.

[61 FR 60363, Nov. 27, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§ 5.52 Change of address.

(a) *Authority.* 12 U.S.C. 93a, 161, and 481.

(b) *Scope.* This section describes the obligation of a national bank to notify the OCC of any change in its address. However, no notice is required if the change in address results from a transaction approved under this part.

(c) *Notice process.* Any national bank with a change in the address of its main office or in its post office box shall send a written notice to the appropriate district office.

(d) *Exceptions to rules of general applicability.* Sections 5.8, 5.9, 5.10, 5.11, and

§ 5.53

5.13 do not apply to changes in a national bank's address.

§ 5.53 Change in asset composition.

(a) *Authority.* 12 U.S.C. 93a, 1818.

(b) *Scope.* This section requires a national bank to obtain the approval of the OCC before changing the composition of all, or substantially all, of its assets through sales or other dispositions, or, having sold or disposed of all, or substantially all, of its assets, through subsequent purchases or other acquisitions or other expansions of its operations. This section does not apply to a change in composition of all, or substantially all, of a bank's assets that the bank undertakes in response to direction from the OCC (*e.g.*, in an enforcement action pursuant to 12 U.S.C. 1818) or as part of a voluntary liquidation pursuant to 12 U.S.C. 181 and 182 and 12 CFR 5.48, if the liquidating bank has stipulated in its notice of liquidation to the OCC that its liquidation will be completed, the bank dissolved and its charter returned to the OCC within one year of the date it filed this notice, unless the OCC extends the time period. This section does not apply to changes in asset composition that occur as a result of a bank's ordinary and ongoing business of originating and securitizing loans.

(c) *Approval requirement.* (1) A national bank must file an application and obtain the prior written approval of the OCC before changing the composition of all, or substantially all, of its assets (i) through sales or other dispositions, or, (ii) having sold or disposed of all or substantially all of its assets, through subsequent purchases or other acquisitions or other expansions of its operations.

(2) In determining whether to approve an application under paragraph (c)(1) of this section, the OCC will consider the purpose of the transaction, its impact on the safety and soundness of the bank, and any effect on the bank's customers. The OCC may deny the application if the transaction would have a negative effect in any of these respects. The OCC's review of any change in asset composition through purchase or other acquisition or other expansions of its operations under paragraph (c)(1)(ii) of this section will include, in

12 CFR Ch. I (1–1–14 Edition)

addition to the foregoing factors, the factors governing the organization of a bank under § 5.20.

(d) *Exceptions to Rules of General Applicability.* Sections 5.8, 5.10, and 5.11 do not apply with respect to applications filed pursuant to this section. However, if the OCC concludes that an application presents significant or novel policy, supervisory, or legal issues, the OCC may determine that some or all of the provisions of §§ 5.8, 5.10, and 5.11 apply.

[69 FR 50297, Aug. 16, 2004]

Subpart E—Payment of Dividends

§ 5.60 Authority, scope, and exceptions to rules of general applicability.

(a) *Authority.* 12 U.S.C. 56, 60, and 93a.

(b) *Scope.* Except as otherwise provided, the restrictions in this subpart apply to the declaration and payment of all dividends by a national bank, including dividends paid in property. However, the provisions contained in § 5.64 do not apply to dividends paid in stock of the bank.

(c) *Exceptions to the rules of general applicability.* Sections 5.8, 5.10, and 5.11 do not apply to this subpart.

§ 5.61 Definitions.

For the purposes of subpart E, the following definitions apply:

(a) *Capital stock, capital surplus, and permanent capital* have the same meaning as set forth in § 5.46.

(b) *Retained net income* means the net income of a specified period less the total amount of all dividends declared in that period.

§ 5.62 Date of declaration of dividend.

A national bank shall use the date a dividend is declared for the purposes of determining compliance with this subpart.

§ 5.63 Capital limitation under 12 U.S.C. 56.

(a) *General limitation.* Except as provided by 12 U.S.C. 59 and § 5.46, a national bank may not withdraw, or permit to be withdrawn, either in the form of a dividend or otherwise, any portion

of its permanent capital. Further, a national bank may not declare a dividend in excess of undivided profits.

(b) *Preferred stock.* The provisions of 12 U.S.C. 56 do not apply to dividends on preferred stock. However, if the undivided profits of the national bank are not sufficient to cover a proposed dividend on preferred stock, the proposed dividend constitutes a reduction in capital subject to 12 U.S.C. 59 and § 5.46.

§ 5.64 Earnings limitation under 12 U.S.C. 60.

(a) *Definitions.* As used in this section, the term “current year” means the calendar year in which a national bank declared, or proposes to declare, a dividend. The term “current year minus one” means the year immediately preceding the current year. The term “current year minus two” means the year that is two years prior to the current year. The term “current year minus three” means the year that is three years prior to the current year. The term “current year minus four” means the year that is four years prior to the current year.

(b) *Dividends from undivided profits.* Subject to 12 U.S.C. 56 and this subpart, the directors of a national bank may declare and pay dividends of so much of the undivided profits as they judge to be expedient.

(c) *Earnings limitations under 12 U.S.C. 60—(1) General rule.* For purposes of 12 U.S.C. 60, unless approved by the OCC in accordance with paragraph (c)(3) of this section, a national bank may not declare a dividend if the total amount of all dividends (common and preferred), including the proposed dividend, declared by the national bank in any current year exceeds the total of the national bank’s net income for the current year to date, combined with its retained net income of current year minus one and current year minus two, less the sum of any transfers required by the OCC and any transfers required to be made to a fund for the retirement of any preferred stock.

(2) *Excess dividends in prior periods.* (i) If in current year minus one or current year minus two the bank declared dividends in excess of that year’s net income, the excess shall not reduce retained net income for the three-year

period specified in paragraph (c)(1) of this section, provided that the amount of excess dividends can be offset by retained net income in current year minus three or current year minus four. If the bank declared dividends in excess of net income in current year minus one, the excess is offset by retained net income in current year minus three and then by retained net income in current year minus two. If the bank declared dividends in excess of net income in current year minus two, the excess is first offset by retained net income in current year minus four and then by retained net income in current year minus three.

(ii) If the bank’s retained net income in current year minus three and current year minus four was insufficient to offset the full amount of the excess dividends declared, as calculated in accordance with paragraph (c)(2)(i) of this section, then the amount that is not offset will reduce the retained net income available to pay dividends in the current year.

(iii) The calculation in paragraph (c)(2) of this section shall apply only to retained net loss that results from dividends declared in excess of a single year’s net income and does not apply to other types of current earnings deficits.

(3) *Prior approval required.* A national bank may declare a dividend in excess of the amount described in paragraph (c) of this section, provided that the dividend is approved by the OCC. A national bank shall submit a request for prior approval of a dividend under 12 U.S.C. 60 to the appropriate district office.

(d) *Surplus surplus.* Any amount in capital surplus in excess of capital stock (referred to as “surplus surplus”) may be transferred to undivided profits and available as dividends, provided:

(1) The bank can demonstrate that the amount came from earnings in prior periods, excluding the effect of any stock dividend; and

(2) The board of directors of the bank approves the transfer of the amount from capital surplus to undivided profits.

[73 FR 22241, Apr. 24, 2008]

§ 5.65

§ 5.65 Restrictions on undercapitalized institutions.

Notwithstanding any other provision in this subpart, a national bank may not declare or pay any dividend if, after making the dividend, the national bank would be "undercapitalized" as defined in 12 CFR part 6.

§ 5.66 Dividends payable in property other than cash.

In addition to cash dividends, directors of a national bank may declare dividends payable in property, with the approval of the OCC. Even though the property distributed has been previously charged down or written off entirely, the dividend is equivalent to a cash dividend in an amount equal to the actual current value of the property. Before the dividend is declared, the bank should show the excess of the actual value over book value on the books of the national bank as a recovery, and the dividend should then be declared in the amount of the full book value (equivalent to the actual current value) of the property being distributed.

§ 5.67 Fractional shares.

To avoid complicated recordkeeping in connection with fractional shares, a national bank issuing additional stock by stock dividend, upon consolidation or merger, or otherwise, may adopt arrangements such as the following to preclude the issuance of fractional shares. The bank may:

- (a) Issue scripts or warrants for trading;
- (b) Make reasonable arrangements to provide those to whom fractional shares would otherwise be issued an opportunity to realize at a fair price upon the fraction not being issued through its sale, or the purchase of the additional fraction required for a full share, if there is an established and active market in the national bank's stock;
- (c) Remit the cash equivalent of the fraction not being issued to those to whom fractional shares would otherwise be issued. The cash equivalent is based on the market value of the stock, if there is an established and active market in the national bank's stock. In the absence of such a market, the cash equivalent is based on a reliable and

12 CFR Ch. I (1-1-14 Edition)

disinterested determination as to the fair market value of the stock if such stock is available; or

- (d) Sell full shares representing all the fractions at public auction, or to the highest bidder after having solicited and received sealed bids from at least three licensed stock brokers. The national bank shall distribute the proceeds of the sale *pro rata* to shareholders who otherwise would be entitled to the fractional shares.

Subpart F—Federal Branches and Agencies

§ 5.70 Federal branches and agencies.

(a) *Authority.* 12 U.S.C. 93a and 3101 *et seq.*

(b) *Scope.* This subpart describes the filing requirements for corporate activities and transactions involving Federal branches and agencies of foreign banks. Substantive rules and policies for specific applications are contained in 12 CFR part 28.

(c) *Definitions.* For purposes of this subpart:

(1) To *establish* a Federal branch or agency means to:

- (i) Open and conduct business through an initial or additional Federal branch or agency;
- (ii) Acquire directly, through merger, consolidation, or similar transaction with another foreign bank, the operations of a Federal branch or agency that is open and conducting business;
- (iii) Acquire a Federal branch or agency through the acquisition of a foreign bank subsidiary that will cease to operate in the same corporate form following the acquisition;
- (iv) Convert a state branch or state agency operated by a foreign bank, or a commercial lending company controlled by a foreign bank, into a Federal branch or agency;
- (v) Relocate a Federal branch or agency within a state or from one state to another; or
- (vi) Convert a Federal agency or a limited Federal branch into a Federal branch.

(2) *Federal branch* includes a limited Federal branch unless otherwise provided.

(d) *Filing requirements*—(1) *General.* Unless otherwise provided in 12 CFR

part 28, a Federal branch or agency shall comply with the applicable requirements of this part.

(2) *Applications.* A foreign bank shall submit an application and obtain prior approval from the OCC before it:

(i) Establishes a Federal branch or agency; or

(ii) Exercises fiduciary powers at a Federal branch. A foreign bank may submit an application to exercise fiduciary powers at the time of filing an application for a Federal branch license or at any subsequent date.

[61 FR 60363, Nov. 27, 1996, as amended at 68 FR 70698, Dec. 19, 2003]

PART 6—PROMPT CORRECTIVE ACTION

Subpart A—Capital Categories

Sec.

6.1 Authority, purpose, scope, other supervisory authority, disclosure of capital categories, and transition procedures.

6.2 Definitions.

6.3 Notice of capital category.

6.4 Capital measures and capital category definition.

6.5 Capital restoration plan.

6.6 Mandatory and discretionary supervisory actions.

Subpart B—Directives To Take Prompt Corrective Action

6.20 Scope.

6.21 Notice of intent to issue a directive.

6.22 Response to notice.

6.23 Decision and issuance of a prompt corrective action directive.

6.24 Request for modification or rescission of directive.

6.25 Enforcement of directive.

AUTHORITY: 12 U.S.C. 93a, 1831o, 5412(b)(2)(B).

SOURCE: 78 FR 62275, Oct. 11, 2013, unless otherwise noted.

Subpart A—Capital Categories

§ 6.1 Authority, purpose, scope, other supervisory authority, disclosure of capital categories, and transition procedures.

(a) *Authority.* This part is issued by the Office of the Comptroller of the Currency (OCC) pursuant to section 38 (section 38) of the Federal Deposit Insurance Act (FDI Act) as added by sec-

tion 131 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (Pub. L. 102-242, 105 Stat. 2236 (1991)) (12 U.S.C. 1831o).

(b) *Purpose.* Section 38 of the FDI Act establishes a framework of supervisory actions for insured depository institutions that are not adequately capitalized. The principal purpose of this subpart is to define, for insured national banks and insured Federal savings associations, the capital measures and capital levels, and for insured Federal branches, comparable asset-based measures and levels, that are used for determining the supervisory actions authorized under section 38 of the FDI Act. This part 6 also establishes procedures for submission and review of capital restoration plans and for issuance and review of directives and orders pursuant to section 38.

(c) *Scope.* This subpart implements the provisions of section 38 of the FDI Act as they apply to insured national banks, insured Federal branches, and insured Federal savings associations. Certain of these provisions also apply to officers, directors, and employees of these insured institutions. Other provisions apply to any company that controls an insured national bank, insured Federal branch, or insured Federal savings association and to the affiliates of an insured national bank, insured Federal branch, or insured Federal savings association.

(d) *Other supervisory authority.* Neither section 38 nor this part in any way limits the authority of the OCC under any other provision of law to take supervisory actions to address unsafe or unsound practices, deficient capital levels, violations of law, unsafe or unsound conditions, or other practices. Action under section 38 of the FDI Act and this part may be taken independently of, in conjunction with, or in addition to any other enforcement action available to the OCC, including issuance of cease and desist orders, capital directives, approval or denial of applications or notices, assessment of civil money penalties, or any other actions authorized by law.

(e) *Disclosure of capital categories.* The assignment of an insured national bank, insured Federal branch, or insured Federal savings association

under this subpart within a particular capital category is for purposes of implementing and applying the provisions of section 38. Unless permitted by the OCC or otherwise required by law, no national bank or Federal savings association may state in any advertisement or promotional material its capital category under this subpart or that the OCC or any other Federal banking agency has assigned the national bank or Federal savings association to a particular capital category.

(f) *Transition procedures*—(1) *Definitions applicable before January 1, 2015, for certain national banks and Federal savings associations.* Before January 1, 2015, notwithstanding any other requirement in this subpart and with respect to any national bank that is not an advanced approaches bank and any Federal savings association that is not an advanced approaches Federal savings association:

(i) The definitions of leverage ratio, tangible equity, tier 1 capital, tier 1 risk-based capital, and total risk-based capital as calculated or defined under appendix A to part 3 of this chapter, remain in effect for purposes of this subpart; and

(ii) The definition of total assets means quarterly average total assets as reported in a national bank's or Federal savings association's Consolidated Reports of Condition and Income (Call Report), minus intangible assets except mortgage servicing assets as provided in the definition of tangible equity. The OCC reserves the right to require a national bank or Federal savings association to compute and maintain its capital ratios on the basis of actual, rather than average, total assets when computing tangible equity.

(2) *Timing.* On January 1, 2015 and thereafter, the calculation of the definitions of common equity tier 1 capital, the common equity tier 1 risk-based capital ratio, the leverage ratio, the supplementary leverage ratio, tangible equity, tier 1 capital, the tier 1 risk-based capital ratio, total assets, total leverage exposure, the total risk-based capital ratio, and total risk-weighted assets under this subpart is subject to the timing provisions at 12 CFR § 3.1(f) and the transitions at 12 CFR part 3, subpart G.

§ 6.2 Definitions.

For purposes of this subpart, except as modified in this section or unless the context otherwise requires, the terms used have the same meanings as set forth in section 38 and section 3 of the FDI Act.

Advanced approaches national bank or advanced approaches Federal savings association means a national bank or Federal savings association that is subject to subpart E of part 3 of this chapter.

Common equity tier 1 capital means common equity tier 1 capital, as defined in accordance with the OCC's definition in subpart A of part 3 of this chapter.

Common equity tier 1 risk-based capital ratio means the ratio of common equity tier 1 capital to total risk-weighted assets, as calculated in accordance with subpart B of part 3 of this chapter, as applicable.

Control. (1) *Control* has the same meaning assigned to it in section 2 of the Bank Holding Company Act (12 U.S.C. 1841), and the term controlled shall be construed consistently with the term control.

(2) *Exclusion for fiduciary ownership.* No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of shares in a fiduciary capacity. Shares shall not be deemed to have been acquired in a fiduciary capacity if the acquiring insured depository institution or company has sole discretionary authority to exercise voting rights with respect thereto.

(3) *Exclusion for debts previously contracted.* No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of shares acquired in securing or collecting a debt previously contracted in good faith, until two years after the date of acquisition. The two-year period may be extended at the discretion of the appropriate Federal banking agency for up to three one-year periods.

Controlling person means any person having control of an insured depository institution and any company controlled by that person.

Federal savings association means an insured Federal savings association or an insured Federal savings bank chartered under section 5 of the Home Owners' Loan Act of 1933.

Leverage ratio means the ratio of tier 1 capital to average total consolidated assets, as calculated in accordance with subpart B of part 3 of this chapter.³⁰

Management fee means any payment of money or provision of any other thing of value to a company or individual for the provision of management services or advice to the national bank or Federal savings association or related overhead expenses, including payments related to supervisory, executive, managerial, or policymaking functions, other than compensation to an individual in the individual's capacity as an officer or employee of the national bank or Federal savings association.

National bank means all insured national banks and all insured Federal branches, except where otherwise provided in this subpart.

Supplementary leverage ratio means the ratio of tier 1 capital to total leverage exposure, as calculated in accordance with subpart B of part 3 of this chapter.

Tangible equity means the amount of tier 1 capital, as calculated in accordance with subpart B of part 3 of this chapter, plus the amount of outstanding perpetual preferred stock (including related surplus) not included in tier 1 capital.³¹

³⁰ Before January 1, 2015, the leverage ratio of a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association is the ratio of tier 1 capital to average total consolidated assets, as calculated in accordance with appendix A to part 3 of this chapter.

³¹ Before January 1, 2015, the tangible equity of a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association is the amount of tier 1 capital elements as defined in appendix A to part 3 of this chapter, plus the amount of outstanding cumulative perpetual preferred stock (including related surplus) minus all intangible assets except mortgage servicing assets to the extent permitted in tier 1 capital, as calculated in ac-

Tier 1 capital means the amount of tier 1 capital as defined in subpart B of part 3 of this chapter.³²

Tier 1 risk-based capital ratio means the ratio of tier 1 capital to risk-weighted assets, as calculated in accordance with subpart B of part 3 of this chapter.³³

Total assets means quarterly average total assets as reported in a national bank's or Federal savings association's Consolidated Reports of Condition and Income (Call Report), minus any deductions as provided in § 3.22(a), (c), and (d) of this chapter. The OCC reserves the right to require a national bank or Federal savings association to compute and maintain its capital ratios on the basis of actual, rather than average, total assets when computing tangible equity.³⁴

cordance with appendix A to part 3 of this chapter. The OCC reserves the right to require a national bank or Federal savings association to compute and maintain its capital ratios on the basis of actual, rather than average, total assets when computing tangible equity.

³² Before January 1, 2015, the tier 1 capital of a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association (as an advanced approaches national bank or advanced approaches Federal savings association is defined in this § 6.2) is calculated in accordance with appendix A to part 3 of this chapter.

³³ Before January 1, 2015, the tier 1 risk-based capital ratio of a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association (as an advanced approaches national bank or advanced approaches Federal savings association is defined in this § 6.2) is calculated in accordance with appendix A to part 3 of this chapter.

³⁴ Before January 1, 2015, total assets means, for a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association (as an advanced approaches national bank or advanced approaches Federal savings association is defined in this § 6.2), quarterly average total assets as reported in a bank's or savings association's Call Report, minus all intangible assets except mortgage servicing assets to the extent permitted in tier 1 capital, as calculated in accordance with appendix A to part 3 of this chapter. The OCC reserves the right to require a national bank

Continued

§6.3

12 CFR Ch. I (1–1–14 Edition)

Total leverage exposure means the total leverage exposure, as calculated in accordance with subpart B of part 3 of this chapter.

Total risk-based capital ratio means the ratio of total capital to total risk-weighted assets, as calculated in accordance with subpart B of part 3 of this chapter.³⁵

Total risk-weighted assets means standardized total risk-weighted assets, and for an advanced approaches national bank or advanced approaches Federal savings association also includes advanced approaches total risk-weighted assets, as defined in subpart B of part 3 of this chapter.

§6.3 Notice of capital category.

(a) *Effective date of determination of capital category.* A national bank or Federal savings association shall be deemed to be within a given capital category for purposes of section 38 of the FDI Act and this part as of the date the national bank or Federal savings association is notified of, or is deemed to have notice of, its capital category pursuant to paragraph (b) of this section.

(b) *Notice of capital category.* A national bank or Federal savings association shall be deemed to have been notified of its capital levels and its capital category as of the most recent date:

(1) A Consolidated Reports of Condition and Income (Call Report) is required to be filed with the OCC;

(2) A final report of examination is delivered to the national bank or Federal savings association; or

(3) Written notice is provided by the OCC to the national bank or Federal savings association of its capital category for purposes of section 38 of the FDI Act and this part or that the na-

or Federal savings association to compute and maintain its capital ratios on the basis of actual, rather than average, total assets when computing tangible equity.

³⁵Before January 1, 2015, the total risk-based capital ratio of a national bank or Federal savings association that is not an advanced approaches national bank or advanced approaches Federal savings association (as an advanced approaches national bank or advanced approaches Federal savings association is defined in this §6.2) is calculated in accordance with appendix A to part 3 of this chapter.

tional bank's or Federal savings association's capital category has changed pursuant to paragraph (c) of this section, or §6.4(e) and with respect to national banks, subpart M of part 19 of this chapter, and with respect to Federal savings associations §165.8 of this chapter.

(c) *Adjustments to reported capital levels and capital category*—(1) *Notice of adjustment by national bank or Federal savings association.* A national bank or Federal savings association shall provide the OCC with written notice that an adjustment to the national bank's or Federal savings association's capital category may have occurred no later than 15 calendar days following the date that any material event has occurred that would cause the national bank or Federal savings association to be placed in a lower capital category from the category assigned to the national bank or Federal savings association for purposes of section 38 and this part on the basis of the national bank's or Federal savings association's most recent Call Report or report of examination.

(2) *Determination to change capital category.* After receiving notice pursuant to paragraph (c)(1) of this section, the OCC shall determine whether to change the capital category of the national bank or Federal savings association and shall notify the national bank or Federal savings association of the OCC's determination.

§6.4 Capital measures and capital category definition.

(a) *Capital measures*—(1) *Capital measures applicable before January 1, 2015.* On or before December 31, 2014, for purposes of section 38 and this part, the relevant capital measures for all national banks and Federal savings associations are:

(i) Total Risk-Based Capital Measure: the total risk-based capital ratio;

(ii) Tier 1 Risk-Based Capital Measure: the tier 1 risk-based capital ratio; and

(iii) Leverage Measure: the leverage ratio.

(2) *Capital measures applicable on and after January 1, 2015.* On January 1, 2015 and thereafter, for purposes of section

38 and this part, the relevant capital measures are:

(i) Total Risk-Based Capital Measure: the total risk-based capital ratio;

(ii) Tier 1 Risk-Based Capital Measure: the tier 1 risk-based capital ratio;

(iii) Common Equity Tier 1 Capital Measure: the common equity tier 1 risk-based capital ratio; and

(iv) The Leverage Measure:

(A) The leverage ratio; and

(B) With respect to an advanced approaches national bank or advanced approaches Federal savings association, on January 1, 2018, and thereafter, the supplementary leverage ratio.

(b) *Capital categories applicable before January 1, 2015.* On or before December 31, 2014, for purposes of the provisions of section 38 and this part, a national bank or Federal savings association shall be deemed to be:

(1) *Well capitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of 10.0 percent or greater;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of 6.0 percent or greater;

(iii) Leverage Ratio: the national bank or Federal savings association has a leverage ratio of 5.0 percent or greater; and

(iv) The national bank or Federal savings association is not subject to any written agreement, order or capital directive, or prompt corrective action directive issued by the OCC or the former OTS pursuant to section 8 of the FDI Act, the International Lending Supervision Act of 1983 (12 U.S.C. 3907), the Home Owners' Loan Act (12 U.S.C. 1464(t)(6)(A)(ii)), or section 38 of the FDI Act, or any regulation thereunder, to meet and maintain a specific capital level for any capital measure.

(2) *Adequately capitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of 8.0 percent or greater;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of 4.0 percent or greater;

(iii) Leverage Ratio:

(A) The national bank or Federal savings association has a leverage ratio of 4.0 percent or greater; or

(B) The national bank or Federal savings association has a leverage ratio of 3.0 percent or greater if the national bank or Federal savings association is rated composite 1 under the CAMELS rating system in the most recent examination of the national bank and or Federal savings association; and

(iv) Does not meet the definition of a "well capitalized" national bank or Federal savings association.

(3) *Undercapitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of less than 8.0 percent; or

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of less than 4.0 percent; or

(iii) Leverage Ratio:

(A) Except as provided in paragraph (b)(2)(iii)(B) of this section, the national bank or Federal savings association has a leverage ratio of less than 4.0 percent; or

(B) The national bank or Federal savings association has a leverage ratio of less than 3.0 percent, if the national bank or Federal savings association is rated composite 1 under the CAMELS rating system in the most recent examination of the national bank or Federal savings association.

(4) *Significantly undercapitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of less than 6.0 percent; or

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of less than 3.0 percent; or

(iii) Leverage Ratio: the national bank or Federal savings association has a leverage ratio of less than 3.0 percent.

(5) *Critically undercapitalized* if the national bank or Federal savings association has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) *Capital categories applicable on and after January 1, 2015.* On January 1, 2015,

§6.4

12 CFR Ch. I (1–14 Edition)

and thereafter, for purposes of the provisions of section 38 and this part, a national bank or Federal savings association shall be deemed to be:

(1) *Well capitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of 10.0 percent or greater;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of 8.0 percent or greater;

(iii) Common Equity Tier 1 Capital Measure: the national bank or Federal savings association has a common equity tier 1 risk-based capital ratio of 6.5 percent or greater;

(iv) Leverage Ratio: the national bank or Federal savings association has a leverage ratio of 5.0 or greater; and

(v) The national bank or Federal savings association is not subject to any written agreement, order or capital directive, or prompt corrective action directive issued by the OCC pursuant to section 8 of the FDI Act, the International Lending Supervision Act of 1983 (12 U.S.C. 3907), the Home Owners' Loan Act (12 U.S.C. 1464(t)(6)(A)(ii)), or section 38 of the FDI Act, or any regulation thereunder, to meet and maintain a specific capital level for any capital measure.

(2) *Adequately capitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of 8.0 percent or greater;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of 6.0 percent or greater;

(iii) Common Equity Tier 1 Capital Measure: the national bank or Federal savings association has a common equity tier 1 risk-based capital ratio of 4.5 percent or greater;

(iv) Leverage Measure:

(A) The national bank or Federal savings association has a leverage ratio of 4.0 percent or greater; and

(B) With respect to an advanced approaches national bank or advanced approaches Federal savings association, on January 1, 2018 and thereafter, the national bank or Federal savings asso-

ciation has an supplementary leverage ratio of 3.0 percent or greater; and

(v) The national bank or Federal savings association does not meet the definition of a “well capitalized” national bank or Federal savings association.

(3) *Undercapitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of less than 8.0 percent;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of less than 6.0 percent;

(iii) Common Equity Tier 1 Capital Measure: the national bank or Federal savings association has a common equity tier 1 risk-based capital ratio of less than 4.5 percent; or

(iv) Leverage Measure:

(A) The national bank or Federal savings association has a leverage ratio of less than 4.0 percent; or

(B) With respect to an advanced approaches national bank or advanced approaches Federal savings association, on January 1, 2018, and thereafter, the national bank or Federal savings association has a supplementary leverage ratio of less than 3.0 percent.

(4) *Significantly undercapitalized* if:

(i) Total Risk-Based Capital Measure: the national bank or Federal savings association has a total risk-based capital ratio of less than 6.0 percent;

(ii) Tier 1 Risk-Based Capital Measure: the national bank or Federal savings association has a tier 1 risk-based capital ratio of less than 4.0 percent;

(iii) Common Equity Tier 1 Capital Measure: the national bank or Federal savings association has a common equity tier 1 risk-based capital ratio of less than 3.0 percent; or

(iv) Leverage Ratio: the national bank or Federal savings association has a leverage ratio of less than 3.0 percent.

(5) *Critically undercapitalized* if the national bank or Federal savings association has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(d) *Capital categories for insured Federal branches.* For purposes of the provisions of section 38 of the FDI Act and this part, an insured Federal branch shall be deemed to be:

(1) *Well capitalized* if the insured Federal branch:

(i) Maintains the pledge of assets required under 12 CFR 347.209; and

(ii) Maintains the eligible assets prescribed under 12 CFR 347.210 at 108 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to § 28.15 of this chapter, or to comply with asset maintenance requirements pursuant to § 28.20 of this chapter; or

(B) The FDIC to pledge additional assets pursuant to 12 CFR 347.209 or to maintain a higher ratio of eligible assets pursuant to 12 CFR 347.210.

(2) *Adequately capitalized* if the insured Federal branch:

(i) Maintains the pledge of assets prescribed under 12 CFR 347.209;

(ii) Maintains the eligible assets prescribed under 12 CFR 347.210 at 106 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities; and

(iii) Does not meet the definition of a well capitalized insured Federal branch.

(3) *Undercapitalized* if the insured Federal branch:

(i) Fails to maintain the pledge of assets required under 12 CFR 347.209; or

(ii) Fails to maintain the eligible assets prescribed under 12 CFR 347.210 at 106 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities.

(4) *Significantly undercapitalized* if it fails to maintain the eligible assets prescribed under 12 CFR 347.210 at 104 percent or more of the preceding quarter's average book value of the insured Federal branch's third-party liabilities.

(5) *Critically undercapitalized* if it fails to maintain the eligible assets prescribed under 12 CFR 347.210 at 102 percent or more of the preceding quarter's average book value of the insured Federal branch's third-party liabilities.

(e) *Reclassification based on supervisory criteria other than capital.* The OCC may reclassify a well capitalized national bank or Federal savings association as adequately capitalized and may require an adequately capitalized

or an undercapitalized national bank or Federal savings association to comply with certain mandatory or discretionary supervisory actions as if the national bank or Federal savings association were in the next lower capital category (except that the OCC may not reclassify a significantly undercapitalized national bank or Federal savings association as critically undercapitalized) (each of these actions are hereinafter referred to generally as reclassifications) in the following circumstances:

(1) *Unsafe or unsound condition.* The OCC has determined, after notice and opportunity for hearing pursuant to subpart M of part 19 of this chapter with respect to national banks and § 165.8 of this chapter with respect to Federal savings associations, that the national bank or Federal savings association is in unsafe or unsound condition; or

(2) *Unsafe or unsound practice.* The OCC has determined, after notice and opportunity for hearing pursuant to subpart M of part 19 of this chapter with respect to national banks and § 165.8 of this chapter with respect to Federal savings associations, that in the most recent examination of the national bank or Federal savings association, the national bank or Federal savings association received, and has not corrected a less-than-satisfactory rating for any of the categories of asset quality, management, earnings, or liquidity.

§ 6.5 Capital restoration plan.

(a) *Schedule for filing plan—(1) In general.* A national bank or Federal savings association shall file a written capital restoration plan with the OCC within 45 days of the date that the national bank or Federal savings association receives notice or is deemed to have notice that the national bank or Federal savings association is undercapitalized, significantly undercapitalized, or critically undercapitalized, unless the OCC notifies the national bank or Federal savings association in writing that the plan is to be filed within a different period. An adequately capitalized national bank or Federal savings association that has been required, pursuant to § 6.4 and subpart M of part

§6.5

12 CFR Ch. I (1–1–14 Edition)

19 of this chapter with respect to national banks, and §§6.4 and 165.8 of this chapter with respect to Federal savings associations, to comply with supervisory actions as if the national bank or Federal savings association were undercapitalized is not required to submit a capital restoration plan solely by virtue of the reclassification.

(2) *Additional capital restoration plans.* Notwithstanding paragraph (a)(1) of this section, a national bank or Federal savings association that has already submitted and is operating under a capital restoration plan approved under section 38 and this subpart is not required to submit an additional capital restoration plan based on a revised calculation of its capital measures or a reclassification of the institution pursuant to §6.4 and subpart M of part 19 of this chapter with respect to national banks and §§6.4 and 165.8 of this chapter with respect to Federal savings associations, unless the OCC notifies the national bank or Federal savings association that it must submit a new or revised capital plan. A national bank or Federal savings association that is notified that it must submit a new or revised capital restoration plan shall file the plan in writing with the OCC within 45 days of receiving such notice, unless the OCC notifies the national bank or Federal savings association in writing that the plan must be filed within a different period.

(b) *Contents of plan.* All financial data submitted in connection with a capital restoration plan shall be prepared in accordance with the instructions provided on the Call Report, unless the OCC instructs otherwise. The capital restoration plan shall include all of the information required to be filed under section 38(e)(2) of the FDI Act. A national bank or Federal savings association that is required to submit a capital restoration plan as the result of a reclassification of the national bank or Federal savings association, pursuant to §6.4 and subpart M of part 19 of this chapter with respect to national banks, and §§6.4 and 165.8 of this chapter with respect to Federal savings associations, shall include a description of the steps the national bank or Federal savings association will take to correct the unsafe or unsound condition or practice.

No plan shall be accepted unless it includes any performance guarantee described in section 38(e)(2)(C) of that Act by each company that controls the national bank or Federal savings association.

(c) *Review of capital restoration plans.* Within 60 days after receiving a capital restoration plan under this subpart, the OCC shall provide written notice to the national bank or Federal savings association of whether the plan has been approved. The OCC may extend the time within which notice regarding approval of a plan shall be provided.

(d) *Disapproval of capital restoration plan.* If a capital restoration plan is not approved by the OCC, the national bank or Federal savings association shall submit a revised capital restoration plan within the time specified by the OCC. Upon receiving notice that its capital restoration plan has not been approved, any undercapitalized national bank or Federal savings association (as defined in §6.4) shall be subject to all of the provisions of section 38 and this part applicable to significantly undercapitalized institutions. These provisions shall be applicable until such time as a new or revised capital restoration plan submitted by the national bank or Federal savings association has been approved by the OCC.

(e) *Failure to submit a capital restoration plan.* A national bank or Federal savings association that is undercapitalized (as defined in §6.4) and that fails to submit a written capital restoration plan within the period provided in this section shall, upon the expiration of that period, be subject to all of the provisions of section 38 and this part applicable to significantly undercapitalized national banks or Federal savings associations.

(f) *Failure to implement a capital restoration plan.* Any undercapitalized national bank or Federal savings association that fails, in any material respect, to implement a capital restoration plan shall be subject to all of the provisions of section 38 and this part applicable to significantly undercapitalized national banks or Federal savings associations.

(g) *Amendment of capital restoration plan.* A national bank or Federal savings association that has submitted an

approved capital restoration plan may, after prior written notice to and approval by the OCC, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the national bank or Federal savings association shall implement the capital restoration plan as approved prior to the proposed amendment.

(h) *Notice to FDIC.* Within 45 days of the effective date of OCC approval of a capital restoration plan, or any amendment to a capital restoration plan, the OCC shall provide a copy of the plan or amendment to the Federal Deposit Insurance Corporation.

(i) *Performance guarantee by companies that control a national bank or Federal savings association—(1) Limitation on liability—(i) Amount limitation.* The aggregate liability under the guarantee provided under section 38 and this subpart for all companies that control a specific national bank or Federal savings association that is required to submit a capital restoration plan under this subpart shall be limited to the lesser of:

(A) An amount equal to 5.0 percent of the national bank's or Federal savings association's total assets at the time the national bank or Federal savings association was notified or deemed to have notice that the national bank or Federal savings association was undercapitalized; or

(B) The amount necessary to restore the relevant capital measures of the national bank or Federal savings association to the levels required for the national bank or Federal savings association to be classified as adequately capitalized, as those capital measures and levels are defined at the time that the national bank or Federal savings association initially fails to comply with a capital restoration plan under this subpart.

(ii) *Limit on duration.* The guarantee and limit of liability under section 38 and this subpart shall expire after the OCC notifies the national bank or Federal savings association that it has remained adequately capitalized for each of four consecutive calendar quarters. The expiration or fulfillment by a company of a guarantee of a capital restoration plan shall not limit the liability

of the company under any guarantee required or provided in connection with any capital restoration plan filed by the same national bank or Federal savings association after expiration of the first guarantee.

(iii) *Collection on guarantee.* Each company that controls a given national bank or Federal savings association shall be jointly and severally liable for the guarantee for such national bank or Federal savings association as required under section 38 and this subpart, and the OCC may require payment of the full amount of that guarantee from any or all of the companies issuing the guarantee.

(2) *Failure to provide guarantee.* In the event that a national bank or Federal savings association that is controlled by any company submits a capital restoration plan that does not contain the guarantee required under section 38(e)(2) of the FDI Act, the national bank or Federal savings association shall, upon submission of the plan, be subject to the provisions of section 38 and this part that are applicable to national banks or Federal savings associations that have not submitted an acceptable capital restoration plan.

(3) *Failure to perform guarantee.* Failure by any company that controls a national bank or Federal savings association to perform fully its guarantee of any capital plan shall constitute a material failure to implement the plan for purposes of section 38(f) of the FDI Act. Upon such failure, the national bank or Federal savings association shall be subject to the provisions of section 38 and this part that are applicable to national banks or Federal savings associations that have failed in a material respect to implement a capital restoration plan.

(j) *Enforcement of capital restoration plan.* The failure of a national bank or Federal savings association to implement, in any material respect, a capital restoration plan required under section 38 and this section shall subject the national bank or Federal savings association to the assessment of civil money penalties pursuant to section 8(i)(2)(A) of the FDI Act.

§ 6.6 Mandatory and discretionary supervisory actions.

(a) *Mandatory supervisory actions*—(1) *Provisions applicable to all national banks and Federal savings associations.* All national banks and Federal savings associations are subject to the restrictions contained in section 38(d) of the FDI Act on payment of distributions and management fees.

(2) *Provisions applicable to undercapitalized, significantly undercapitalized, and critically undercapitalized national banks or Federal savings associations.* Immediately upon receiving notice or being deemed to have notice, as provided in § 6.3, that the national bank or Federal savings association is undercapitalized, significantly undercapitalized, or critically undercapitalized, the national bank or Federal savings association shall become subject to the provisions of section 38 of the FDI Act:

(i) Restricting payment of distributions and management fees (section 38(d));

(ii) Requiring that the OCC monitor the condition of the national bank or Federal savings association (section 38(e)(1));

(iii) Requiring submission of a capital restoration plan within the schedule established in this subpart (section 38(e)(2));

(iv) Restricting the growth of the national bank's or Federal savings association's assets (section 38(e)(3)); and

(v) Requiring prior approval of certain expansion proposals (section 38(e)(4)).

(3) *Additional provisions applicable to significantly undercapitalized, and critically undercapitalized national banks or Federal savings associations.* In addition to the provisions of section 38 of the FDI Act described in paragraph (a)(2) of this section, immediately upon receiving notice or being deemed to have notice, as provided in this subpart, that the national bank or Federal savings association is significantly undercapitalized, or critically undercapitalized, or that the national bank or Federal savings association is subject to the provisions applicable to institutions that are significantly undercapitalized because it has failed to submit or implement, in any material respect, an acceptable capital restoration

plan, the national bank or Federal savings association shall become subject to the provisions of section 38 of the FDI Act that restrict compensation paid to senior executive officers of the institution (section 38(f)(4)).

(4) *Additional provisions applicable to critically undercapitalized national banks or Federal savings associations.* In addition to the provisions of section 38 of the FDI Act described in paragraphs (a)(2) and (3) of this section, immediately upon receiving notice or being deemed to have notice, as provided in § 6.3, that the national bank or Federal savings association is critically undercapitalized, the national bank or Federal savings association shall become subject to the provisions of section 38 of the FDI Act:

(i) Restricting the activities of the national bank or Federal savings association (section 38 (h)(1)); and

(ii) Restricting payments on subordinated debt of the national bank or Federal savings association (section 38 (h)(2)).

(b) *Discretionary supervisory actions.* In taking any action under section 38 that is within the OCC's discretion to take in connection with a national bank or Federal savings association that is deemed to be undercapitalized, significantly undercapitalized, or critically undercapitalized, or has been reclassified as undercapitalized or significantly undercapitalized; an officer or director of such national bank or Federal savings association; or a company that controls such national bank or Federal savings association, the OCC shall follow the procedures for issuing directives under subpart B of this part and subpart N of part 19 of this chapter with respect to national banks and subpart B of this part and § 165.9 of this chapter with respect to Federal savings associations, unless otherwise provided in section 38 of the FDI Act or this part.

Subpart B—Directives To Take Prompt Corrective Action

§ 6.20 Scope.

The rules and procedures set forth in this subpart apply to insured national banks, insured Federal branches, Federal savings associations, and senior

Comptroller of the Currency, Treasury

§ 6.23

executive officers and directors of national banks and Federal savings associations that are subject to the provisions of section 38 of the Federal Deposit Insurance Act (section 38) and subpart A of this part.

§ 6.21 Notice of intent to issue a directive.

(a) *Notice of intent to issue a directive—*
(1) *In general.* The OCC shall provide an undercapitalized, significantly undercapitalized, or critically undercapitalized national bank or Federal savings association prior written notice of the OCC's intention to issue a directive requiring such national bank, Federal savings association, or company to take actions or to follow proscriptions described in section 38 that are within the OCC's discretion to require or impose under section 38 of the FDI Act, including section 38(e)(5), (f)(2), (f)(3), or (f)(5). The national bank or Federal savings association shall have such time to respond to a proposed directive as provided under § 6.22.

(2) *Immediate issuance of final directive.* If the OCC finds it necessary in order to carry out the purposes of section 38 of the FDI Act, the OCC may, without providing the notice prescribed in paragraph (a)(1) of this section, issue a directive requiring a national bank or Federal savings association immediately to take actions or to follow proscriptions described in section 38 that are within the OCC's discretion to require or impose under section 38 of the FDI Act, including section 38(e)(5), (f)(2), (f)(3), or (f)(5). A national bank or Federal savings association that is subject to such an immediately effective directive may submit a written appeal of the directive to the OCC. Such an appeal must be received by the OCC within 14 calendar days of the issuance of the directive, unless the OCC permits a longer period. The OCC shall consider any such appeal, if filed in a timely matter, within 60 days of receiving the appeal. During such period of review, the directive shall remain in effect unless the OCC, in its sole discretion, stays the effectiveness of the directive.

(b) *Contents of notice.* A notice of intention to issue a directive shall include:

(1) A statement of the national bank's or Federal savings association's capital measures and capital levels;

(2) A description of the restrictions, prohibitions or affirmative actions that the OCC proposes to impose or require;

(3) The proposed date when such restrictions or prohibitions would be effective or the proposed date for completion of such affirmative actions; and

(4) The date by which the national bank or Federal savings association subject to the directive may file with the OCC a written response to the notice.

§ 6.22 Response to notice.

(a) *Time for response.* A national bank or Federal savings association may file a written response to a notice of intent to issue a directive within the time period set by the OCC. The date shall be at least 14 calendar days from the date of the notice unless the OCC determines that a shorter period is appropriate in light of the financial condition of the national bank or Federal savings association or other relevant circumstances.

(b) *Content of response.* The response should include:

(1) An explanation why the action proposed by the OCC is not an appropriate exercise of discretion under section 38;

(2) Any recommended modification of the proposed directive; and

(3) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the national bank or Federal savings association regarding the proposed directive.

(c) *Failure to file response.* Failure by a national bank or Federal savings association to file with the OCC, within the specified time period, a written response to a proposed directive shall constitute a waiver of the opportunity to respond and shall constitute consent to the issuance of the directive.

§ 6.23 Decision and issuance of a prompt corrective action directive.

(a) *OCC consideration of response.* After considering the response, the OCC may:

§6.24

(1) Issue the directive as proposed or in modified form;

(2) Determine not to issue the directive and so notify the national bank or Federal savings association; or

(3) Seek additional information or clarification of the response from the national bank or Federal savings association, or any other relevant source.

(b) [Reserved]

§6.24 Request for modification or reissuance of directive.

Any national bank or Federal savings association that is subject to a directive under this subpart may, upon a change in circumstances, request in writing that the OCC reconsider the terms of the directive, and may propose that the directive be rescinded or modified. Unless otherwise ordered by the OCC, the directive shall continue in place while such request is pending before the OCC.

§6.25 Enforcement of directive.

(a) *Judicial remedies.* Whenever a national bank or Federal savings association fails to comply with a directive issued under section 38, the OCC may seek enforcement of the directive in the appropriate United States district court pursuant to section 8(i)(1) of the FDI Act.

(b) *Administrative remedies.* Pursuant to section 8(i)(2)(A) of the FDI Act, the OCC may assess a civil money penalty against any national bank or Federal savings association that violates or otherwise fails to comply with any final directive issued under section 38 and against any institution-affiliated party who participates in such violation or noncompliance.

(c) *Other enforcement action.* In addition to the actions described in paragraphs (a) and (b) of this section, the OCC may seek enforcement of the provisions of section 38 or this part through any other judicial or administrative proceeding authorized by law.

PART 7—BANK ACTIVITIES AND OPERATIONS

Subpart A—Bank Powers

Sec.

7.1000 National bank ownership of property.

12 CFR Ch. I (1–1–14 Edition)

7.1001 National bank acting as general insurance agent.

7.1002 National bank acting as finder.

7.1003 Money lent at banking offices or at other than banking offices.

7.1004 Loans originating at other than banking offices.

7.1005 Credit decisions at other than banking offices.

7.1006 Loan agreement providing for a share in profits, income, or earnings or for stock warrants.

7.1007 Acceptances.

7.1008 Preparing income tax returns for customers or public.

7.1009 National bank holding collateral stock as nominee.

7.1010 Postal service by national bank.

7.1011 National bank acting as payroll issuer.

7.1012 Messenger service.

7.1014 Sale of money orders at nonbanking outlets.

7.1015 Receipt of stock from a small business investment company.

7.1016 Independent undertakings to pay against documents.

7.1017 National bank as guarantor or surety on indemnity bond.

7.1018 Automatic payment plan account.

7.1020 Purchase of open accounts.

7.1021 National bank participation in financial literacy programs.

Subpart B—Corporate Practices

7.2000 Corporate governance procedures.

7.2001 Notice of shareholders' meetings.

7.2002 Director or attorney as proxy.

7.2003 Annual meeting for election of directors.

7.2004 Honorary directors or advisory boards.

7.2005 Ownership of stock necessary to qualify as director.

7.2006 Cumulative voting in election of directors.

7.2007 Filling vacancies and increasing board of directors other than by shareholder action.

7.2008 Oath of directors.

7.2009 Quorum of the board of directors; proxies not permissible.

7.2010 Directors' responsibilities.

7.2011 Compensation plans.

7.2012 President as director; chief executive officer.

7.2013 Fidelity bonds covering officers and employees.

7.2014 Indemnification of institution-affiliated parties.

7.2015 Cashier.

7.2016 Restricting transfer of stock and record dates.

7.2017 Facsimile signatures on bank stock certificates.

7.2018 Lost stock certificates.

SOURCE: 61 FR 4862, Feb. 9, 1996, unless otherwise noted.

Subpart A—Bank Powers

§ 7.1000 National bank ownership of property.

(a) *Investment in real estate necessary for the transaction of business*—(1) *General*. Under 12 U.S.C. 29(First), a national bank may invest in real estate that is necessary for the transaction of its business.

(2) *Type of real estate*. For purposes of 12 U.S.C. 29(First), this real estate includes:

(i) Premises that are owned and occupied (or to be occupied, if under construction) by the bank, its branches, or its consolidated subsidiaries;

(ii) Real estate acquired and intended, in good faith, for use in future expansion;

(iii) Parking facilities that are used by customers or employees of the bank, its branches, and its consolidated subsidiaries;

(iv) Residential property for the use of bank officers or employees who are:

(A) Located in remote areas where suitable housing at a reasonable price is not readily available; or

(B) Temporarily assigned to a foreign country, including foreign nationals temporarily assigned to the United States; and

(v) Property for the use of bank officers, employees, or customers, or for the temporary lodging of such persons in areas where suitable commercial lodging is not readily available, provided that the purchase and operation of the property qualifies as a deductible business expense for Federal tax purposes.

(3) *Permissible means of holding*. A national bank may acquire and hold real estate under this paragraph (a) by any reasonable and prudent means, including ownership in fee, a leasehold estate, or in an interest in a cooperative. The bank may hold this real estate directly or through one or more subsidiaries. The bank may organize a bank premises subsidiary as a corporation, partnership, or similar entity (*e.g.*, a limited liability company).

(b) *Fixed assets*. A national bank may own fixed assets necessary for the transaction of its business, such as fixtures, furniture, and data processing equipment.

§ 7.1001

(c) *Investment in bank premises*—(1) *Investment limitation; approval.* 12 U.S.C. 371d governs when OCC approval is required for national bank investment in bank premises. A bank may seek approval from the OCC in accordance with the procedures set forth in 12 CFR 5.37.

(2) *Option to purchase.* An unexercised option to purchase bank premises or stock in a corporation holding bank premises is not an investment in bank premises. A national bank must receive OCC approval to exercise the option if the price of the option and the bank's other investments in bank premises exceed the amount of the bank's capital stock.

(d) *Other real property*—(1) *Lease financing of public facilities.* A national bank may purchase or construct a municipal building, school building, or other similar public facility and, as holder of legal title, lease the facility to a municipality or other public authority having resources sufficient to make all rental payments as they become due. The lease agreement must provide that the lessee will become the owner of the building or facility upon the expiration of the lease.

(2) *Purchase of employee's residence.* To facilitate the efficient use of bank personnel, a national bank may purchase the residence of an employee who has been transferred to another area in order to spare the employee a loss in the prevailing real estate market. The bank must arrange for early divestment of title to such property.

[61 FR 4862, Feb. 9, 1996, as amended at 61 FR 60387, Nov. 27, 1996]

§ 7.1001 National bank acting as general insurance agent.

Pursuant to 12 U.S.C. 92, a national bank may act as an agent for any fire, life, or other insurance company in any place the population of which does not exceed 5,000 inhabitants. This provision is applicable to any office of a national bank when the office is located in a community having a population of less than 5,000, even though the principal office of such bank is located in a community whose population exceeds 5,000.

12 CFR Ch. I (1–1–14 Edition)

§ 7.1002 National bank acting as finder.

(a) *General.* It is part of the business of banking under 12 U.S.C. 24(Seventh) for a national bank to act as a finder, bringing together interested parties to a transaction.

(b) *Permissible finder activities.* A national bank that acts as a finder may identify potential parties, make inquiries as to interest, introduce or arrange contacts or meetings of interested parties, act as an intermediary between interested parties, and otherwise bring parties together for a transaction that the parties themselves negotiate and consummate. The following list provides examples of permissible finder activities. This list is illustrative and not exclusive; the OCC may determine that other activities are permissible pursuant to a national bank's authority to act as a finder.

(1) Communicating information about providers of products and services, and proposed offering prices and terms to potential markets for these products and services;

(2) Communicating to the seller an offer to purchase or a request for information, including forwarding completed applications, application fees, and requests for information to third-party providers;

(3) Arranging for third-party providers to offer reduced rates to those customers referred by the bank;

(4) Providing administrative, clerical, and record keeping functions related to the bank's finder activity, including retaining copies of documents, instructing and assisting individuals in the completion of documents, scheduling sales calls on behalf of sellers, and conducting market research to identify potential new customers for retailers;

(5) Conveying between interested parties expressions of interest, bids, offers, orders, and confirmations relating to a transaction;

(6) Conveying other types of information between potential buyers, sellers, and other interested parties; and

(7) Establishing rules of general applicability governing the use and operation of the finder service, including rules that:

(i) Govern the submission of bids and offers by buyers, sellers, and other interested parties that use the finder service and the circumstances under which the finder service will pair bids and offers submitted by buyers, sellers, and other interested parties; and

(ii) Govern the manner in which buyers, sellers, and other interested parties may bind themselves to the terms of a specific transaction.

(c) *Limitation.* The authority to act as a finder does not enable a national bank to engage in brokerage activities that have not been found to be permissible for national banks.

(d) *Advertisement and fee.* Unless otherwise prohibited by Federal law, a national bank may advertise the availability of, and accept a fee for, the services provided pursuant to this section.

[67 FR 35004, May 17, 2002]

§ 7.1003 Money lent at banking offices or at other than banking offices.

(a) *General.* For purposes of what constitutes a branch within the meaning of 12 U.S.C. 36(j) and 12 CFR 5.30, “money” is deemed to be “lent” only at the place, if any, where the borrower in-person receives loan proceeds directly from bank funds:

(1) From the lending bank or its operating subsidiary; or

(2) At a facility that is established by the lending bank or its operating subsidiary.

(b) *Receipt of bank funds representing loan proceeds.* Loan proceeds directly from bank funds may be received by a borrower in person at a place that is not the bank’s main office and is not licensed as a branch without violating 12 U.S.C. 36, 12 U.S.C. 81 and 12 CFR 5.30, provided that a third party is used to deliver the funds and the place is not established by the lending bank or its operating subsidiary. A third party includes a person who satisfies the requirements of § 7.1012(c)(2), or one who customarily delivers loan proceeds directly from bank funds under accepted industry practice, such as an attorney or escrow agent at a real estate closing.

§ 7.1004 Loans originating at other than banking offices.

(a) *General.* A national bank may use the services of, and compensate persons not employed by, the bank for originating loans.

(b) *Approval.* An employee or agent of a national bank or of its operating subsidiary may originate a loan at a site other than the main office or a branch office of the bank. This action does not violate 12 U.S.C. 36 and 12 U.S.C. 81 if the loan is approved and made at the main office or a branch office of the bank or at an office of the operating subsidiary located on the premises of, or contiguous to, the main office or branch office of the bank.

§ 7.1005 Credit decisions at other than banking offices.

A national bank and its operating subsidiary may make a credit decision regarding a loan application at a site other than the main office or a branch office of the bank without violating 12 U.S.C. 36 and 12 U.S.C. 81, provided that “money” is not deemed to be “lent” at those other sites within the meaning of § 7.1003.

§ 7.1006 Loan agreement providing for a share in profits, income, or earnings or for stock warrants.

A national bank may take as consideration for a loan a share in the profit, income, or earnings from a business enterprise of a borrower. A national bank also may take as consideration for a loan a stock warrant issued by a business enterprise of a borrower, provided that the bank does not exercise the warrant. The share or stock warrant may be taken in addition to, or in lieu of, interest. The borrower’s obligation to repay principal, however, may not be conditioned upon the value of the profit, income, or earnings of the business enterprise or upon the value of the warrant received.

§ 7.1007 Acceptances.

A national bank is not limited in the character of acceptances it may make in financing credit transactions. Bankers’ acceptances may be used for such purpose, since the making of acceptances is an essential part of banking authorized by 12 U.S.C. 24.

§ 7.1008

§ 7.1008 Preparing income tax returns for customers or public.

A national bank may assist its customers in preparing their tax returns, either gratuitously or for a fee.

[68 FR 70131, Dec. 17, 2003]

§ 7.1009 National bank holding collateral stock as nominee.

A national bank that accepts stock as collateral for a loan may have such stock transferred to the bank's name as nominee.

§ 7.1010 Postal service by national bank.

(a) *General.* A national bank may maintain and operate a postal substation on banking premises and receive income from it. The services performed by the substation are those permitted under applicable rules of the United States Postal Service and may include meter stamping of letters and packages, and the sale of related insurance. The bank may advertise, develop, and extend the services of the substation for the purpose of attracting customers to the bank.

(b) *Postal regulations.* A national bank operating a postal substation shall do so in accordance with the rules and regulations of the United States Postal Service. The national bank shall keep the books and records of the substation separate from those of other banking operations. Under 39 U.S.C. 404 and any regulations issued pursuant thereto, the United States Postal Service may inspect the books and records of the substation.

§ 7.1011 National bank acting as payroll issuer.

A national bank may disburse to an employee of a customer payroll funds deposited with the bank by that customer. The bank may disburse those funds by direct payment to the employee, by crediting an account in the employee's name at the disbursing bank, or by forwarding funds to another institution in which an employee maintains an account.

§ 7.1012 Messenger service.

(a) *Definition.* For purposes of this section, a "messenger service" means

12 CFR Ch. I (1-1-14 Edition)

any service, such as a courier service or armored car service, used by a national bank and its customers to pick up from, and deliver to, specific customers at locations such as their homes or offices, items relating to transactions between the bank and those customers.

(b) *Pick-up and delivery of items constituting nonbranching activities.* Pursuant to 12 U.S.C. 24 (Seventh), a national bank may establish and operate a messenger service, or use, with its customers, a third party messenger service. The bank may use the messenger service to transport items relevant to the bank's transactions with its customers without regard to the branching limitations set forth in 12 U.S.C. 36, provided the service does not engage in branching functions within the meaning of 12 U.S.C. 36(j). In establishing or using such a facility, the national bank may establish terms, conditions, and limitations consistent with this section and appropriate to assure compliance with safe and sound banking practices.

(c) *Pick-up and delivery of items constituting branching functions by a messenger service established by a third party.* (1) Pursuant to 12 U.S.C. 24 (Seventh), a national bank and its customers may use a messenger service to pick up from, and deliver to customers items that relate to branching functions within the meaning of 12 U.S.C. 36, provided the messenger service is established and operated by a third party. In using such a facility, a national bank may establish terms, conditions, and limitations, consistent with this section and appropriate to assure compliance with safe and sound banking practices.

(2) The OCC reviews whether a messenger service is established by a third party on a case-by-case basis, considering all of the circumstances. However, a messenger service is clearly established by a third party if:

(i) A party other than the national bank owns or rents the messenger service and its facilities and employs the persons who provide the service;

(ii)(A) The messenger service retains the discretion to determine in its own business judgment which customers and geographic areas it will serve; or

Comptroller of the Currency, Treasury

§7.1016

(B) If the messenger service and the bank are under common ownership or control, the messenger service actually provides its services to the general public, including other depository institutions, and retains the discretion to determine in its own business judgment which customers and geographic areas it will serve;

(iii) The messenger service maintains ultimate responsibility for scheduling, movement, and routing;

(iv) The messenger service does not operate under the name of the bank, and the bank and the messenger service do not advertise, or otherwise represent, that the bank itself is providing the service, although the bank may advertise that its customers may use one or more third party messenger services to transact business with the bank;

(v) The messenger service assumes responsibility for the items during transit and for maintaining adequate insurance covering thefts, employee fidelity, and other in-transit losses; and

(vi) The messenger service acts as the agent for the customer when the items are in transit. The bank deems items intended for deposit to be deposited when credited to the customer's account at the bank's main office, one of its branches, or another permissible facility, such as a back office facility that is not a branch. The bank deems items representing withdrawals to be paid when the items are given to the messenger service.

(3) A national bank may defray all or part of the costs incurred by a customer in transporting items through a messenger service. Payment of those costs may only cover expenses associated with each transaction involving the customer and the messenger service. The national bank may impose terms, conditions, and limitations that it deems appropriate with respect to the payment of such costs.

(d) *Pickup and delivery of items pertaining to branching activities where the messenger service is established by the national bank.* A national bank may establish and operate a messenger service to transport items relevant to the bank's transactions with its customers if such transactions constitute one or more branching functions within the meaning of 12 U.S.C. 36(j), provided the

bank receives approval to establish a branch pursuant to 12 CFR 5.30.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§7.1014 Sale of money orders at nonbanking outlets.

A national bank may designate bonded agents to sell the bank's money orders at nonbanking outlets. The responsibility of both the bank and its agent should be defined in a written agreement setting forth the duties of both parties and providing for remuneration of the agent. The bank's agents need not report on sales and transmit funds from the nonbanking outlets more frequently than at the end of the third business day following receipt of the funds.

§7.1015 Receipt of stock from a small business investment company.

A national bank may purchase the stock of a small business investment company (SBIC) (*see* 15 U.S.C. 682(b)), and may receive the benefits of such stock ownership (*e.g.*, stock dividends). The receipt and retention of a dividend by a national bank from an SBIC in the form of stock of a corporate borrower of the SBIC is not a purchase of stock within the meaning of 12 U.S.C. 24 (Seventh).

§7.1016 Independent undertakings to pay against documents.

(a) *General authority.* A national bank may issue and commit to issue letters of credit and other independent undertakings within the scope of the applicable laws or rules of practice recognized by law.¹ Under such letters of credit

¹Examples of such laws or rules of practice include: The applicable version of Article 5 of the Uniform Commercial Code (UCC) (1962, as amended 1990) or revised Article 5 of the UCC (as amended 1995) (available from West Publishing Co., 1/800/328-4880); the Uniform Customs and Practice for Documentary Credits (International Chamber of Commerce (ICC) Publication No. 600 or any applicable prior version) (available from ICC Publishing, Inc., 212/206-1150; <http://www.iccwbo.org>); the Supplements to UCP 500 & 600 for Electronic Presentation (eUCP v. 1.0 & 1.1) (Supplements to the Uniform Customs and Practices for Documentary Credits for Electronic Presentation) (available from

Continued

and other independent undertakings, the bank's obligation to honor depends upon the presentation of specified documents and not upon nondocumentary conditions or resolution of questions of fact or law at issue between the applicant and the beneficiary. A national bank may also confirm or otherwise undertake to honor or purchase specified documents upon their presentation under another person's independent undertaking within the scope of such laws or rules.

(b) *Safety and soundness considerations*—(1) *Terms*. As a matter of safe and sound banking practice, banks that issue independent undertakings should not be exposed to undue risk. At a minimum, banks should consider the following:

(i) The independent character of the undertaking should be apparent from its terms (such as terms that subject it to laws or rules providing for its independent character);

(ii) The undertaking should be limited in amount;

(iii) The undertaking should:

(A) Be limited in duration; or

(B) Permit the bank to terminate the undertaking either on a periodic basis (consistent with the bank's ability to make any necessary credit assessments) or at will upon either notice or payment to the beneficiary; or

(C) Entitle the bank to cash collateral from the applicant on demand (with a right to accelerate the applicant's obligations, as appropriate); and

(iv) The bank either should be fully collateralized or have a post-honor right of reimbursement from the applicant or from another issuer of an inde-

pendent undertaking. Alternatively, if the bank's undertaking is to purchase documents of title, securities, or other valuable documents, the bank should obtain a first priority right to realize on the documents if the bank is not otherwise to be reimbursed.

(2) *Additional considerations in special circumstances*. Certain undertakings require particular protections against credit, operational, and market risk:

(i) In the event that the undertaking is to honor by delivery of an item of value other than money, the bank should ensure that market fluctuations that affect the value of the item will not cause the bank to assume undue market risk;

(ii) In the event that the undertaking provides for automatic renewal, the terms for renewal should be consistent with the bank's ability to make any necessary credit assessments prior to renewal;

(iii) In the event that a bank issues an undertaking for its own account, the underlying transaction for which it is issued must be within the bank's authority and comply with any safety and soundness requirements applicable to that transaction.

(3) *Operational expertise*. The bank should possess operational expertise that is commensurate with the sophistication of its independent undertaking activities.

(4) *Documentation*. The bank must accurately reflect the bank's undertakings in its records, including any acceptance or deferred payment or other absolute obligation arising out of its contingent undertaking.

(c) *Coverage*. An independent undertaking within the meaning of this section is not subject to the provisions of §7.1017.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60099, Nov. 4, 1999; 68 FR 70131, Dec. 17, 2003; 73 FR 22241, Apr. 24, 2008]

§7.1017 National bank as guarantor or surety on indemnity bond.

(a) A national bank may lend its credit, bind itself as a surety to indemnify another, or otherwise become a guarantor (including, pursuant to 12 CFR 28.4, guaranteeing the deposits and other liabilities of its Edge corporations and Agreement corporations

ICC Publishing, Inc., 212/206-1150; <http://www.iccwbo.org>) International Standby Practices (ISP98) (ICC Publication No. 590) (available from the Institute of International Banking Law & Practice, 301/869-9840; <http://www.iiblp.org>); the United Nations Convention on Independent Guarantees and Standby Letters of Credit (adopted by the U.N. General Assembly in 1995 and signed by the U.S. in 1997) (available from the U.N. Commission on International Trade Law, 212/963-5353); and the Uniform Rules for Bank-to-Bank Reimbursements Under Documentary Credits (ICC Publication No. 525) (available from ICC Publishing, Inc., 212/206-1150; <http://www.iccwbo.org>); as any of the foregoing may be amended from time to time.

Comptroller of the Currency, Treasury

§ 7.2000

and of its corporate instrumentalities in foreign countries), if:

(1) The bank has a substantial interest in the performance of the transaction involved (for example, a bank, as fiduciary, has a sufficient interest in the faithful performance by a cofiduciary of its duties to act as surety on the bond of such cofiduciary); or

(2) The transaction is for the benefit of a customer and the bank obtains from the customer a segregated deposit that is sufficient in amount to cover the bank's total potential liability. A segregated deposit under this section includes collateral:

(i) In which the bank has perfected its security interest (for example, if the collateral is a printed security, the bank must have obtained physical control of the security, and, if the collateral is a book entry security, the bank must have properly recorded its security interest); and

(ii) That has a market value, at the close of each business day, equal to the bank's total potential liability and is composed of:

(A) Cash;

(B) Obligations of the United States or its agencies;

(C) Obligations fully guaranteed by the United States or its agencies as to principal and interest; or

(D) Notes, drafts, or bills of exchange or bankers' acceptances that are eligible for rediscount or purchase by a Federal Reserve Bank; or

(iii) That has a market value, at the close of each business day, equal to 110 percent of the bank's total potential liability and is composed of obligations of a State or political subdivision of a State.

(b) In addition to paragraph (a) of this section, a national bank may guarantee obligations of a customer, subsidiary or affiliate that are financial in character, provided the amount of the bank's financial obligation is reasonably ascertainable and otherwise consistent with applicable law.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60099, Nov. 4, 1999; 73 FR 22241, Apr. 24, 2008]

§ 7.1018 Automatic payment plan account.

A national bank may, for the benefit and convenience of its savings deposi-

tors, adopt an automatic payment plan under which a savings account will earn dividends at the current rate paid on regular savings accounts. The depositor, upon reaching a previously designated age, receives his or her accumulated savings and earned interest in installments of equal amounts over a specified period.

§ 7.1020 Purchase of open accounts.

(a) *General.* The purchase of open accounts is a part of the business of banking and within the power of a national bank.

(b) *Export transactions.* A national bank may purchase open accounts in connection with export transactions; the accounts should be protected by insurance such as that provided by the Foreign Credit Insurance Association and the Export-Import Bank.

§ 7.1021 National bank participation in financial literacy programs.

A national bank may participate in a financial literacy program on the premises of, or at a facility used by, a school. The school premises or facility will not be considered a branch of the bank if:

(a) The bank does not establish and operate the school premises or facility on which the financial literacy program is conducted; and

(b) The principal purpose of the financial literacy program is educational. For example, a program is educational if it is designed to teach students the principles of personal economics or the benefits of saving for the future, and is not designed for the purpose of profit-making.

[66 FR 34791, July 2, 2001]

Subpart B—Corporate Practices

§ 7.2000 Corporate governance procedures.

(a) *General.* A national bank proposing to engage in a corporate governance procedure shall comply with applicable Federal banking statutes and regulations, and safe and sound banking practices.

(b) *Other sources of guidance.* To the extent not inconsistent with applicable

§7.2001

Federal banking statutes or regulations, or bank safety and soundness, a national bank may elect to follow the corporate governance procedures of the law of the state in which the main office of the bank is located, the law of the state in which the holding company of the bank is incorporated, the Delaware General Corporation Law, Del. Code Ann. tit. 8 (1991, as amended 1994, and as amended thereafter), or the Model Business Corporation Act (1984, as amended 1994, and as amended thereafter). A national bank shall designate in its bylaws the body of law selected for its corporate governance procedures.

(c) *No-objection procedures.* The OCC also considers requests for its staff's position on the ability of a national bank to engage in a particular corporate governance procedure in accordance with the no-objection procedures set forth in Banking Circular 205 or any subsequently published agency procedures.² Requests should demonstrate how the proposed practice is not inconsistent with applicable Federal statutes or regulations, and is consistent with safe and sound banking practices.

§7.2001 Notice of shareholders' meetings.

A national bank must mail shareholders notice of the time, place, and purpose of all shareholders' meetings at least 10 days prior to the meeting by first class mail, unless the OCC determines that an emergency circumstance exists. Where a national bank is a wholly-owned subsidiary, the sole shareholder is permitted to waive notice of the shareholder's meeting. The articles of association, bylaws, or law applicable to a national bank may require a longer period of notice.

§7.2002 Director or attorney as proxy.

Any person or group of persons, except the bank's officers, clerks, tellers, or bookkeepers, may be designated to act as proxy. The bank's directors or attorneys may act as proxy if they are

² Available upon request from the OCC Communications Division, 250 E Street, SW., Washington, DC 20219, (202) 874-4700.

12 CFR Ch. I (1-1-14 Edition)

not also employed as an officer, clerk, teller or bookkeeper of the bank.

§7.2003 Annual meeting for election of directors.

When the day fixed for the regular annual meeting of the shareholders falls on a legal holiday in the state in which the bank is located, the shareholders' meeting shall be held, and the directors elected, on the next following banking day.

§7.2004 Honorary directors or advisory boards.

A national bank may appoint honorary or advisory members of a board of directors to act in advisory capacities without voting power or power of final decision in matters concerning the business of the bank. Any listing of honorary or advisory directors must distinguish between them and the bank's board of directors or indicate their advisory status.

§7.2005 Ownership of stock necessary to qualify as director.

(a) *General.* A national bank director must own a qualifying equity interest in a national bank or a company that has control of a national bank. The director must own the qualifying equity interest in his or her own right and meet a certain minimum threshold ownership.

(b) *Qualifying equity interest*—(1) *Minimum required equity interest.* For purposes of this section, a qualifying equity interest includes common or preferred stock of the bank or of a company that controls the bank that has not less than an aggregate par value of \$1,000, an aggregate shareholders' equity of \$1,000, or an aggregate fair market value of \$1,000.

(i) The value of the common or preferred stock held by a national bank director is valued as of the date purchased or the date on which the individual became a director, whichever value is greater.

(ii) In the case of a company that owns more than one national bank, a director may use his or her equity interest in the controlling company to satisfy, in whole or in part, the equity interest requirement for any or all of the controlled national banks.

Comptroller of the Currency, Treasury

§ 7.2007

(iii) Upon request, the OCC may consider whether other interests in a company controlling a national bank constitute an interest equivalent to \$1,000 par value of national bank stock.

(2) *Joint ownership and tenancy in common.* Shares held jointly or as a tenant in common are qualifying shares held by a director in his or her own right only to the extent of the aggregate value of the shares which the director would be entitled to receive on dissolution of the joint tenancy or tenancy in common.

(3) *Shares in a living trust.* Shares deposited by a person in a living trust (inter vivos trust) as to which the person is a trustee and retains an absolute power of revocation are shares owned by the person in his or her own right.

(4) *Other arrangements—(i) Shares held through retirement plans and similar arrangements.* A director may hold his or her qualifying interest through a profit-sharing plan, individual retirement account, retirement plan, or similar arrangement, if the director retains beneficial ownership and legal control over the shares.

(ii) *Shares held subject to buyback agreements.* A director may acquire and hold his or her qualifying interest pursuant to a stock repurchase or buyback agreement with a transferring shareholder under which the director purchases the qualifying shares subject to an agreement that the transferring shareholder will repurchase the shares when, for any reason, the director ceases to serve in that capacity. The agreement may give the transferring shareholder a right of first refusal to repurchase the qualifying shares if the director seeks to transfer ownership of the shares to a third person.

(iii) *Assignment of right to dividends or distributions.* A director may assign the right to receive all dividends or distributions on his or her qualifying shares to another, including a transferring shareholder, if the director retains beneficial ownership and legal control over the shares.

(iv) *Execution of proxy.* A director may execute a revocable or irrevocable proxy authorizing another, including a transferring shareholder, to vote his or her qualifying shares, provided the di-

rector retains beneficial ownership and legal control over the shares.

(c) *Non-qualifying ownership.* The following are not shares held by a director in his or her own right:

(1) Shares pledged by the holder to secure a loan. However, all or part of the funds used to purchase the required qualifying equity interest may be borrowed from any party, including the bank or its affiliates;

(2) Shares purchased subject to an absolute option vested in the seller to repurchase the shares within a specified period; and

(3) Shares deposited in a voting trust where the depositor surrenders:

(i) Legal ownership (depositor ceases to be registered owner of the stock);

(ii) Power to vote the stock or to direct how it shall be voted; or

(iii) Power to transfer legal title to the stock.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60099, Nov. 4, 1999]

§ 7.2006 Cumulative voting in election of directors.

When electing directors, a shareholder shall have as many votes as the number of directors to be elected multiplied by the number of the shareholder's shares. If permitted by the national bank's articles of association, the shareholder may cast all these votes for one candidate or distribute the votes among as many candidates as the shareholder chooses. If, after the first ballot, subsequent ballots are necessary to elect directors, a shareholder may not vote shares that he or she has already fully cumulated and voted in favor of a successful candidate.

[61 FR 4862, Feb. 9, 1996, as amended at 73 FR 22241, Apr. 24, 2008]

§ 7.2007 Filling vacancies and increasing board of directors other than by shareholder action.

(a) *Increasing board of directors.* If authorized by the bank's articles of association, between shareholder meetings a majority of the board of directors may increase the number of the bank's directors within the limits specified in 12 U.S.C. 71a. The board of directors may increase the number of directors only by up to two directors, when the number of directors last elected by

§ 7.2008

shareholders was 15 or fewer, and by up to four directors, when the number of directors last elected by shareholders was 16 or more.

(b) *Vacancies*. If a vacancy occurs on the board of directors, including a vacancy resulting from an increase in the number of directors, the vacancy may be filled by the shareholders, a majority of the board of directors remaining in office, or, if the directors remaining in office constitute fewer than a quorum, by an affirmative vote of a majority of all the directors remaining in office.

§ 7.2008 Oath of directors.

(a) *Administration of the oath*. A notary public, including one who is a director but not an officer of the national bank, may administer the oath of directors. Any person, other than an officer of the bank, having an official seal and authorized by the state to administer oaths, may also administer the oath.

(b) *Execution of the oath*. Each director attending the organization meeting shall execute either a joint or individual oath. A director not attending the organization meeting (the first meeting after the election of the directors) shall execute the individual oath. A director shall take another oath upon re-election, notwithstanding uninterrupted service. Appropriate sample oaths are located in the “Comptroller’s Corporate Manual”.

(c) *Filing and recordkeeping*. A national bank must file the original executed oaths of directors with the OCC and retain a copy in the bank’s records in accordance with the Comptroller’s Corporate Manual filing and recordkeeping instructions for executed oaths of directors.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60099, Nov. 4, 1999]

§ 7.2009 Quorum of the board of directors; proxies not permissible.

A national bank shall provide in its articles of association or bylaws that for the transaction of business, a quorum of the board of directors is at least a majority of the entire board then in office. A national bank director may not vote by proxy.

12 CFR Ch. I (1–1–14 Edition)

§ 7.2010 Directors’ responsibilities.

The business and affairs of the bank shall be managed by or under the direction of the board of directors. The board of directors should refer to OCC published guidance for additional information regarding responsibilities of directors.

§ 7.2011 Compensation plans.

Consistent with safe and sound banking practices and the compensation provisions of 12 CFR part 30, a national bank may adopt compensation plans, including, among others, the following:

(a) *Bonus and profit-sharing plans*. A national bank may adopt a bonus or profit-sharing plan designed to ensure adequate remuneration of bank officers and employees.

(b) *Pension plans*. A national bank may provide employee pension plans and make reasonable contributions to the cost of the pension plan.

(c) *Employee stock option and stock purchase plans*. A national bank may provide employee stock option and stock purchase plans.

§ 7.2012 President as director; chief executive officer.

Pursuant to 12 U.S.C. 76, the president of a national bank must be a member of the board of directors, but a director other than the president may be elected chairman of the board. A person other than the president may serve as chief executive officer, and this person is not required to be a director of the bank.

§ 7.2013 Fidelity bonds covering officers and employees.

(a) *Adequate coverage*. All officers and employees of a national bank must have adequate fidelity coverage. The failure of directors to require bonds with adequate sureties and in sufficient amount may make the directors liable for any losses that the bank sustains because of the absence of such bonds. Directors should not serve as sureties on such bonds.

(b) *Factors*. The board of directors should determine the amount of such coverage, premised upon a consideration of factors, including:

(1) Internal auditing safeguards employed;

Comptroller of the Currency, Treasury

§ 7.2019

- (2) Number of employees;
- (3) Amount of deposit liabilities; and
- (4) Amount of cash and securities normally held by the bank.

§ 7.2014 Indemnification of institution-affiliated parties.

(a) *Administrative proceedings or civil actions initiated by Federal banking agencies.* A national bank may only make or agree to make indemnification payments to an institution-affiliated party with respect to an administrative proceeding or civil action initiated by any Federal banking agency, that are reasonable and consistent with the requirements of 12 U.S.C. 1828(k) and the implementing regulations thereunder. The term “institution-affiliated party” has the same meaning as set forth at 12 U.S.C. 1813(u).

(b) *Administrative proceeding or civil actions not initiated by a Federal banking agency—(1) General.* In cases involving an administrative proceeding or civil action not initiated by a Federal banking agency, a national bank may indemnify an institution-affiliated party for damages and expenses, including the advancement of expenses and legal fees, in accordance with the law of the state in which the main office of the bank is located, the law of the state in which the bank’s holding company is incorporated, or the relevant provisions of the Model Business Corporation Act (1984, as amended 1994, and as amended thereafter), or Delaware General Corporation Law, Del. Code Ann. tit. 8 (1991, as amended 1994, and as amended thereafter), provided such payments are consistent with safe and sound banking practices. A national bank shall designate in its bylaws the body of law selected for making indemnification payments under this paragraph.

(2) *Insurance premiums.* A national bank may provide for the payment of reasonable premiums for insurance covering the expenses, legal fees, and liability of institution-affiliated parties to the extent that the expenses, fees, or liability could be indemnified under paragraph (b)(1) of this section.

§ 7.2015 Cashier.

A national bank’s bylaws, board of directors, or a duly designated officer may assign some or all of the duties previously performed by the bank’s cashier to its president, chief executive officer, or any other officer.

§ 7.2016 Restricting transfer of stock and record dates.

(a) *Conditions for stock transfer.* Under 12 U.S.C. 52, a national bank may impose conditions upon the transfer of its stock reasonably calculated to simplify the work of the bank with respect to stock transfers, voting at shareholders’ meetings, and related matters and to protect it against fraudulent transfers.

(b) *Record dates.* A national bank may close its stock records for a reasonable period to ascertain shareholders for voting purposes. The board of directors may fix a record date for determining the shareholders entitled to notice of, and to vote at, any meeting of shareholders. The record date should be in reasonable proximity to the date that notice is given to the shareholders of the meeting.

§ 7.2017 Facsimile signatures on bank stock certificates.

The president and cashier, or other officers authorized by the bank’s bylaws, shall sign each national bank stock certificate. The signatures may be manual or facsimile, including electronic means of signature. Each certificate must be sealed with the seal of the association.

§ 7.2018 Lost stock certificates.

If a national bank does not provide for replacing lost, stolen, or destroyed stock certificates in its articles of association or bylaws, the bank may adopt procedures in accordance with § 7.2000.

§ 7.2019 Loans secured by a bank’s own shares.

(a) *Permitted agreements, relating to bank shares.* A national bank may require a borrower holding shares of the bank to execute agreements:

- (1) Not to pledge, give away, transfer, or otherwise assign such shares;

§ 7.2020

(2) To pledge such shares at the request of the bank when necessary to prevent loss; and

(3) To leave such shares in the bank's custody.

(b) *Use of capital notes and debentures.* A national bank may not make loans secured by a pledge of the bank's own capital notes and debentures. Such notes and debentures must be subordinated to the claims of depositors and other creditors of the issuing bank, and are, therefore, capital instruments within the purview of 12 U.S.C. 83.

§ 7.2020 Acquisition and holding of shares as treasury stock.

(a) *Acquisition of outstanding shares.* Pursuant to 12 U.S.C. 59, including the requirements for prior approval by the bank's shareholders and the OCC imposed by that statute, a national bank may acquire its outstanding shares and hold them as treasury stock, if the acquisition and retention of the shares is, and continues to be, for a legitimate corporate purpose.

(b) *Legitimate corporate purpose.* Examples of legitimate corporate purposes include the acquisition and holding of treasury stock to:

(1) Have shares available for use in connection with employee stock option, bonus, purchase, or similar plans;

(2) Sell to a director for the purpose of acquiring qualifying shares;

(3) Purchase a director's qualifying shares upon the cessation of the director's service in that capacity if there is no ready market for the shares;

(4) Reduce the number of shareholders in order to qualify as a Subchapter S corporation; and

(5) Reduce costs associated with shareholder communications and meetings.

(c) *Prohibition.* It is not a legitimate corporate purpose to acquire or hold treasury stock on speculation about changes in its value.

[64 FR 60099, Nov. 4, 1999]

§ 7.2021 Preemptive rights.

A national bank in its articles of association must grant or deny preemptive rights to the bank's shareholders. Any amendment to a national bank's articles of association which modifies such preemptive rights must be ap-

12 CFR Ch. I (1-1-14 Edition)

proved by a vote of the holders of two-thirds of the bank's outstanding voting shares.

§ 7.2022 Voting trusts.

The shareholders of a national bank may establish a voting trust under the applicable law of a state selected by the participants and designated in the trust agreement, provided the implementation of the trust is consistent with safe and sound banking practices.

§ 7.2023 Reverse stock splits.

(a) *Authority to engage in reverse stock splits.* A national bank may engage in a reverse stock split if the transaction serves a legitimate corporate purpose and provides adequate dissenting shareholders' rights.

(b) *Legitimate corporate purpose.* Examples of legitimate corporate purposes include a reverse stock split to:

(1) Reduce the number of shareholders in order to qualify as a Subchapter S corporation; and

(2) Reduce costs associated with shareholder communications and meetings.

[64 FR 60099, Nov. 4, 1999]

§ 7.2024 Staggered terms for national bank directors and size of bank board.

(a) *Staggered terms.* Any national bank may adopt bylaws that provide for staggering the terms of its directors. National banks shall provide the OCC with copies of any bylaws so amended.

(b) *Maximum term.* Any national bank director may hold office for a term that does not exceed three years.

(c) *Number of directors.* A national bank's board of directors shall consist of no fewer than 5 and no more than 25 members. A national bank may, after notice to the OCC, increase the size of its board of directors above the 25 member limit. A national bank seeking to increase the number of its directors must notify the OCC any time the proposed size would exceed 25 directors. The bank's notice shall specify the reason(s) for the increase in the size of the board of directors beyond the statutory limit.

[68 FR 70131, Dec. 17, 2003]

Subpart C—Bank Operations**§ 7.3000 Bank hours and closings.**

(a) *Bank hours.* A national bank's board of directors should review its banking hours, and, independently of any other bank, take appropriate action to establish a schedule of banking hours.

(b) *Emergency closings.* Pursuant to 12 U.S.C. 95(b)(1), the Comptroller of the Currency (Comptroller), a state, or a legally authorized state official may declare a day a legal holiday if emergency conditions exist. That day is a legal holiday for national banks or their offices in the affected geographic area (*i.e.*, throughout the country, in a state, or in part of a state). Emergency conditions include natural disasters and civil and municipal emergencies (*e.g.*, severe flooding, or a power emergency declared by a local power company or government requesting that businesses in the affected area close). The Comptroller issues a proclamation authorizing the emergency closing in accordance with 12 U.S.C. 95 at the time of the emergency condition, or soon thereafter. When the Comptroller, a State, or a legally authorized State official declares a legal holiday due to emergency conditions, a national bank may temporarily limit or suspend operations at its affected offices. Alternatively, the national bank may continue its operations unless the Comptroller by written order directs otherwise.

(c) *Ceremonial closings.* A state or a legally authorized state official may declare a day a legal holiday for ceremonial reasons. When a state or a legally authorized state official declares a day to be a legal holiday for ceremonial reasons, a national bank may choose to remain open or to close.

(d) *Liability.* A national bank should assure that all liabilities or other obligations under the applicable law due to the bank's closing are satisfied.

[61 FR 4862, Feb. 9, 1996, as amended at 66 FR 34791, July 2, 2001]

§ 7.3001 Sharing space and employees.

(a) *Sharing space.* A national bank may:

(1) Lease excess space on bank premises to one or more other businesses (including other banks and financial institutions);

(2) Share space jointly held with one or more other businesses; or

(3) Offer its services in space owned or leased to other businesses.

(b) *Sharing employees.* When sharing space with other businesses as described in paragraph (a) of this section, a national bank may provide, under one or more written agreements among the bank, the other businesses, and their employees, that:

(1) A bank employee may act as agent for the other business; or

(2) An employee of the other business may act as agent for the bank.

(c) *Supervisory conditions.* When a national bank engages in arrangements of the types listed in paragraphs (a) and (b) of this section, the bank shall ensure that:

(1) The other business is conspicuously, accurately, and separately identified;

(2) Shared employees clearly and fully disclose the nature of their agency relationship to customers of the bank and of the other businesses so that customers will know the identity of the bank or business that is providing the product or service;

(3) The arrangement does not constitute a joint venture or partnership with the other business under applicable state law;

(4) All aspects of the relationship between the bank and the other business are conducted at arm's length, unless a special arrangement is warranted because the other business is a subsidiary of the bank;

(5) Security issues arising from the activities of the other business on the premises are addressed;

(6) The activities of the other business do not adversely affect the safety and soundness of the bank;

(7) The shared employees or the entity for which they perform services are duly licensed or meet qualification requirements of applicable statutes and regulations pertaining to agents or employees of such other business; and

(8) The assets and records of the parties are segregated.

(d) *Other legal requirements.* When entering into arrangements, of the types described in paragraphs (a) and (b) of this section, and in conducting operations pursuant to those arrangements the bank must ensure that each arrangement complies with 12 U.S.C. 29 and 36 and with any other applicable laws and regulations. If the arrangement involves an affiliate or a shareholder, director, officer or employee of the bank:

(1) The bank must ensure compliance with all applicable statutory and regulatory provisions governing bank transactions with these persons or entities;

(2) The parties must comply with all applicable fiduciary duties; and

(3) The parties, if they are in competition with each other, must consider limitations, if any, imposed by applicable antitrust laws.

Subpart D—Preemption

§ 7.4000 Visitorial powers.

(a) *General rule.* (1) Under 12 U.S.C. 484, only the OCC or an authorized representative of the OCC may exercise visitorial powers with respect to national banks. State officials may not exercise visitorial powers with respect to national banks, such as conducting examinations, inspecting or requiring the production of books or records of national banks, or prosecuting enforcement actions, except in limited circumstances authorized by federal law. However, production of a bank's records (other than non-public OCC information under 12 CFR part 4, subpart C) may be required under normal judicial procedures.

(2) For purposes of this section, visitorial powers include:

(i) Examination of a bank;

(ii) Inspection of a bank's books and records;

(iii) Regulation and supervision of activities authorized or permitted pursuant to federal banking law; and

(iv) Enforcing compliance with any applicable Federal or state laws concerning those activities, including through investigations that seek to ascertain compliance through production of non-public information by the bank,

except as otherwise provided in paragraphs (a), (b), and (c) of this section.

(3) Unless otherwise provided by Federal law, the OCC has exclusive visitorial authority with respect to the content and conduct of activities authorized for national banks under Federal law.

(b) *Exclusion.* In accordance with the decision of the Supreme Court in *Cuomo v. Clearing House Assn., L. L. C.*, 129 S. Ct. 2710 (2009), an action against a national bank in a court of appropriate jurisdiction brought by a state attorney general (or other chief law enforcement officer) to enforce an applicable law against a national bank and to seek relief as authorized by such law is not an exercise of visitorial powers under 12 U.S.C. 484.

(c) *Exceptions to the general rule.* Under 12 U.S.C. 484, the OCC's exclusive visitorial powers are subject to the following exceptions:

(1) *Exceptions authorized by Federal law.* National banks are subject to such visitorial powers as are provided by Federal law. Examples of laws vesting visitorial power in other governmental entities include laws authorizing state or other Federal officials to:

(i) Inspect the list of shareholders, provided that the official is authorized to assess taxes under state authority (12 U.S.C. 62; this section also authorizes inspection of the shareholder list by shareholders and creditors of a national bank);

(ii) Review, at reasonable times and upon reasonable notice to a bank, the bank's records solely to ensure compliance with applicable state unclaimed property or escheat laws upon reasonable cause to believe that the bank has failed to comply with those laws (12 U.S.C. 484(b));

(iii) Verify payroll records for unemployment compensation purposes (26 U.S.C. 3305(c));

(iv) Ascertain the correctness of Federal tax returns (26 U.S.C. 7602);

(v) Enforce the Fair Labor Standards Act (29 U.S.C. 211); and

(vi) Functionally regulate certain activities, as provided under the Gramm-Leach-Bliley Act, Pub. L. 106–102, 113 Stat. 1338 (Nov. 12, 1999).

(2) *Exception for courts of justice.* National banks are subject to such

visitorial powers as are vested in the courts of justice. This exception pertains to the powers inherent in the judiciary.

(3) *Exception for Congress.* National banks are subject to such visitorial powers as shall be, or have been, exercised or directed by Congress or by either House thereof or by any committee of Congress or of either House duly authorized.

(d) *Report of examination.* The report of examination made by an OCC examiner is designated solely for use in the supervision of the bank. The bank's copy of the report is the property of the OCC and is loaned to the bank and any holding company thereof solely for its confidential use. The bank's directors, in keeping with their responsibilities both to depositors and to shareholders, should thoroughly review the report. The report may be made available to other persons only in accordance with the rules on disclosure in 12 CFR part 4.

[61 FR 4862, Feb. 9, 1996, as amended at 64 FR 60100, Nov. 4, 1999; 69 FR 1904, Jan. 13, 2004; 76 FR 43565, July 21, 2011]

§ 7.4001 Charging interest at rates permitted competing institutions; charging interest to corporate borrowers.

(a) *Definition.* The term "interest" as used in 12 U.S.C. 85 includes any payment compensating a creditor or prospective creditor for an extension of credit, making available of a line of credit, or any default or breach by a borrower of a condition upon which credit was extended. It includes, among other things, the following fees connected with credit extension or availability: numerical periodic rates, late fees, creditor-imposed not sufficient funds (NSF) fees charged when a borrower tenders payment on a debt with a check drawn on insufficient funds, overlimit fees, annual fees, cash advance fees, and membership fees. It does not ordinarily include appraisal fees, premiums and commissions attributable to insurance guaranteeing repayment of any extension of credit, finders' fees, fees for document preparation or notarization, or fees incurred to obtain credit reports.

(b) *Authority.* A national bank located in a state may charge interest at the maximum rate permitted to any state-chartered or licensed lending institution by the law of that state. If state law permits different interest charges on specified classes of loans, a national bank making such loans is subject only to the provisions of state law relating to that class of loans that are material to the determination of the permitted interest. For example, a national bank may lawfully charge the highest rate permitted to be charged by a state-licensed small loan company, without being so licensed, but subject to state law limitations on the size of loans made by small loan companies.

(c) *Effect on state definitions of interest.* The Federal definition of the term "interest" in paragraph (a) of this section does not change how interest is defined by the individual states (nor how the state definition of interest is used) solely for purposes of state law. For example, if late fees are not "interest" under state law where a national bank is located but state law permits its most favored lender to charge late fees, then a national bank located in that state may charge late fees to its intrastate customers. The national bank may also charge late fees to its interstate customers because the fees are interest under the Federal definition of interest and an allowable charge under state law where the national bank is located. However, the late fees would not be treated as interest for purposes of evaluating compliance with state usury limitations because state law excludes late fees when calculating the maximum interest that lending institutions may charge under those limitations.

(d) *Usury.* A national bank located in a state the law of which denies the defense of usury to a corporate borrower may charge a corporate borrower any rate of interest agreed upon by a corporate borrower.

[61 FR 4862, Feb. 9, 1996, as amended at 66 FR 34791, July 2, 2001]

§ 7.4002 National bank charges.

(a) *Authority to impose charges and fees.* A national bank may charge its customers non-interest charges and

§ 7.4003

fees, including deposit account service charges.

(b) *Considerations.* (1) All charges and fees should be arrived at by each bank on a competitive basis and not on the basis of any agreement, arrangement, undertaking, understanding, or discussion with other banks or their officers.

(2) The establishment of non-interest charges and fees, their amounts, and the method of calculating them are business decisions to be made by each bank, in its discretion, according to sound banking judgment and safe and sound banking principles. A national bank establishes non-interest charges and fees in accordance with safe and sound banking principles if the bank employs a decision-making process through which it considers the following factors, among others:

(i) The cost incurred by the bank in providing the service;

(ii) The deterrence of misuse by customers of banking services;

(iii) The enhancement of the competitive position of the bank in accordance with the bank's business plan and marketing strategy; and

(iv) The maintenance of the safety and soundness of the institution.

(c) *Interest.* Charges and fees that are "interest" within the meaning of 12 U.S.C. 85 are governed by § 7.4001 and not by this section.

(d) *State law.* The OCC applies pre-emption principles derived from the United States Constitution, as interpreted through judicial precedent, when determining whether State laws apply that purport to limit or prohibit charges and fees described in this section.

(e) *National bank as fiduciary.* This section does not apply to charges imposed by a national bank in its capacity as a fiduciary, which are governed by 12 CFR part 9.

[66 FR 34791, July 2, 2001]

§ 7.4003 Establishment and operation of a remote service unit by a national bank.

A remote service unit (RSU) is an automated facility, operated by a customer of a bank, that conducts banking functions, such as receiving deposits, paying withdrawals, or lending money. A national bank may establish

12 CFR Ch. I (1-1-14 Edition)

and operate an RSU pursuant to 12 U.S.C. 24(Seventh). An RSU includes an automated teller machine, automated loan machine, and automated device for receiving deposits. An RSU may be equipped with a telephone or televideo device that allows contact with bank personnel. An RSU is not a "branch" within the meaning of 12 U.S.C. 36(j), and is not subject to state geographic or operational restrictions or licensing laws.

[64 FR 60100, Nov. 4, 1999]

§ 7.4004 Establishment and operation of a deposit production office by a national bank.

(a) *General rule.* A national bank or its operating subsidiary may engage in deposit production activities at a site other than the main office or a branch of the bank. A deposit production office (DPO) may solicit deposits, provide information about deposit products, and assist persons in completing application forms and related documents to open a deposit account. A DPO is not a branch within the meaning of 12 U.S.C. 36(j) and 12 CFR 5.30(d)(1) so long as it does not receive deposits, pay withdrawals, or make loans. All deposit and withdrawal transactions of a bank customer using a DPO must be performed by the customer, either in person at the main office or a branch office of the bank, or by mail, electronic transfer, or a similar method of transfer.

(b) *Services of other persons.* A national bank may use the services of, and compensate, persons not employed by the bank in its deposit production activities.

[64 FR 60100, Nov. 4, 1999]

§ 7.4005 Combination of loan production office, deposit production office, and remote service unit.

A location at which a national bank operates a loan production office (LPO), a deposit production office (DPO), and a remote service unit (RSU) is not a "branch" within the meaning of 12 U.S.C. 36(j) by virtue of that combination. Since an LPO, DPO, or RSU is not, individually, a branch under 12 U.S.C. 36(j), any combination of these

Comptroller of the Currency, Treasury

§ 7.4008

facilities at one location does not create a branch.

[64 FR 60100, Nov. 4, 1999]

§ 7.4006 [Reserved]

§ 7.4007 Deposit-taking.

(a) *Authority of national banks.* A national bank may receive deposits and engage in any activity incidental to receiving deposits, including issuing evidence of accounts, subject to such terms, conditions, and limitations prescribed by the Comptroller of the Currency and any other applicable Federal law.

(b) *Applicability of state law.* A national bank may exercise its deposit-taking powers without regard to state law limitations concerning:

(1) Abandoned and dormant accounts;³

(2) Checking accounts;

(3) Disclosure requirements;

(4) Funds availability;

(5) Savings account orders of withdrawal;

(6) State licensing or registration requirements (except for purposes of service of process); and

(7) Special purpose savings services;⁴

(c) *State laws that are not preempted.* State laws on the following subjects are not inconsistent with the deposit-taking powers of national banks and apply to national banks to the extent consistent with the decision of the Supreme Court in *Barnett Bank of Marion County, N.A. v. Nelson, Florida Insurance Commissioner, et al.* 517 U.S. 25 (1996):

(1) Contracts;

(2) Torts;

(3) Criminal law;⁵

³This does not apply to state laws of the type upheld by the United States Supreme Court in *Anderson Nat'l Bank v. Lockett*, 321 U.S. 233 (1944), which obligate a national bank to "pay [deposits] to the persons entitled to demand payment according to the law of the state where it does business." *Id.* at 248-249.

⁴State laws purporting to regulate national bank fees and charges are addressed in 12 CFR 7.4002.

⁵But see the distinction drawn by the Supreme Court in *Easton v. Iowa*, 188 U.S. 220, 238 (1903), where the Court stated that "[u]ndoubtedly a state has the legitimate power to define and punish crimes by general

(4) Rights to collect debts;

(5) Acquisition and transfer of property;

(6) Taxation;

(7) Zoning; and

(8) Any other law that the OCC determines to be applicable to national banks in accordance with the decision of the Supreme Court in *Barnett Bank of Marion County, N.A. v. Nelson, Florida Insurance Commissioner, et al.* 517 U.S. 25 (1996), or that is made applicable by Federal law.

[69 FR 1916, Jan. 13, 2004, as amended at 76 FR 43565, July 21, 2011]

§ 7.4008 Lending.

(a) *Authority of national banks.* A national bank may make, sell, purchase, participate in, or otherwise deal in loans and interests in loans that are not secured by liens on, or interests in, real estate, subject to such terms, conditions, and limitations prescribed by the Comptroller of the Currency and any other applicable Federal law.

(b) *Standards for loans.* A national bank shall not make a consumer loan subject to this § 7.4008 based predominantly on the bank's realization of the foreclosure or liquidation value of the borrower's collateral, without regard to the borrower's ability to repay the loan according to its terms. A bank may use any reasonable method to determine a borrower's ability to repay, including, for example, the borrower's current and expected income, current and expected cash flows, net worth, other relevant financial resources, current financial obligations, employment status, credit history, or other relevant factors.

(c) *Unfair and deceptive practices.* A national bank shall not engage in unfair or deceptive practices within the meaning of section 5 of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1), and regulations promulgated

laws applicable to all persons within its jurisdiction * * *. But it is without lawful power to make such special laws applicable to banks organized and operating under the laws of the United States." *Id.* at 239 (holding that Federal law governing the operations of national banks preempted a state criminal law prohibiting insolvent banks from accepting deposits).

§ 7.4009

thereunder in connection with loans made under this § 7.4008.

(d) *Applicability of state law.* A national bank may make non-real estate loans without regard to state law limitations concerning:

(1) Licensing, registration (except for purposes of service of process), filings, or reports by creditors;

(2) The ability of a creditor to require or obtain insurance for collateral or other credit enhancements or risk mitigants, in furtherance of safe and sound banking practices;

(3) Loan-to-value ratios;

(4) The terms of credit, including the schedule for repayment of principal and interest, amortization of loans, balance, payments due, minimum payments, or term to maturity of the loan, including the circumstances under which a loan may be called due and payable upon the passage of time or a specified event external to the loan;

(5) Escrow accounts, impound accounts, and similar accounts;

(6) Security property, including leaseholds;

(7) Access to, and use of, credit reports;

(8) Disclosure and advertising, including laws requiring specific statements, information, or other content to be included in credit application forms, credit solicitations, billing statements, credit contracts, or other credit-related documents;

(9) Disbursements and repayments; and

(10) Rates of interest on loans.⁶

(e) *State laws that are not preempted.* State laws on the following subjects are not inconsistent with the non-real estate lending powers of national banks and apply to national banks to the extent consistent with the decision of the Supreme Court in *Barnett Bank of Marion County, N.A. v. Nelson, Florida Insurance Commissioner, et al.*, 517 U.S. 25 (1996):

(1) Contracts;

(2) Torts;

⁶The limitations on charges that comprise rates of interest on loans by national banks are determined under Federal law. See 12 U.S.C. 85; 12 CFR 7.4001. State laws purporting to regulate national bank fees and charges that do not constitute interest are addressed in 12 CFR 7.4002.

12 CFR Ch. I (1–1–14 Edition)

(3) Criminal law;⁷

(4) Rights to collect debts;

(5) Acquisition and transfer of property;

(6) Taxation;

(7) Zoning; and

(8) Any other law that the OCC determines to be applicable to national banks in accordance with the decision of the Supreme Court in *Barnett Bank of Marion County, N.A. v. Nelson, Florida Insurance Commissioner, et al.*, 517 U.S. 25 (1996) or that is made applicable by Federal law.

[69 FR 1916, Jan. 13, 2004, as amended at 76 FR 43565, July 21, 2011]

§ 7.4009 [Reserved]

§ 7.4010 Applicability of state law and visitorial powers to Federal savings associations and subsidiaries.

(a) In accordance with section 1046 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 25b), Federal savings associations and their subsidiaries shall be subject to the same laws and legal standards, including regulations of the OCC, as are applicable to national banks and their subsidiaries, regarding the preemption of state law.

(b) In accordance with section 1047 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 1465), the provisions of section 5136C(i) of the Revised Statutes regarding visitorial powers apply to Federal savings associations and their subsidiaries to the same extent and in the same manner as if they were national banks or national bank subsidiaries.

[76 FR 43566, July 21, 2011]

Subpart E—Electronic Activities

SOURCE: 67 FR 35004, May 17, 2002, unless otherwise noted.

§ 7.5000 Scope.

This subpart applies to a national bank's use of technology to deliver services and products consistent with safety and soundness.

⁷See *supra* note 5 regarding the distinction drawn by the Supreme Court in *Easton v. Iowa*, 188 U.S. 220, 238 (1903).

Comptroller of the Currency, Treasury

§ 7.5002

§ 7.5001 **Electronic activities that are part of, or incidental to, the business of banking.**

(a) *Purpose.* This section identifies the criteria that the OCC uses to determine whether an electronic activity is authorized as part of, or incidental to, the business of banking under 12 U.S.C. 24 (Seventh) or other statutory authority.

(b) *Restrictions and conditions on electronic activities.* The OCC may determine that activities are permissible under 12 U.S.C. 24 (Seventh) or other statutory authority only if they are subject to standards or conditions designed to provide that the activities function as intended and are conducted safely and soundly, in accordance with other applicable statutes, regulations, or supervisory policies.

(c) *Activities that are part of the business of banking.* (1) An activity is authorized for national banks as part of the business of banking if the activity is described in 12 U.S.C. 24 (Seventh) or other statutory authority. In determining whether an electronic activity is part of the business of banking, the OCC considers the following factors:

(i) Whether the activity is the functional equivalent to, or a logical outgrowth of, a recognized banking activity;

(ii) Whether the activity strengthens the bank by benefiting its customers or its business;

(iii) Whether the activity involves risks similar in nature to those already assumed by banks; and

(iv) Whether the activity is authorized for state-chartered banks.

(2) The weight accorded each factor set out in paragraph (c)(1) of this section depends on the facts and circumstances of each case.

(d) *Activities that are incidental to the business of banking.* (1) An electronic banking activity is authorized for a national bank as incidental to the business of banking if it is convenient or useful to an activity that is specifically authorized for national banks or to an activity that is otherwise part of the business of banking. In determining whether an activity is convenient or useful to such activities, the OCC considers the following factors:

(i) Whether the activity facilitates the production or delivery of a bank's products or services, enhances the bank's ability to sell or market its products or services, or improves the effectiveness or efficiency of the bank's operations, in light of risks presented, innovations, strategies, techniques and new technologies for producing and delivering financial products and services; and

(ii) Whether the activity enables the bank to use capacity acquired for its banking operations or otherwise avoid economic loss or waste.

(2) The weight accorded each factor set out in paragraph (d)(1) of this section depends on the facts and circumstances of each case.

(3) In addition to the electronic activities specifically permitted in § 7.5004 (sale of excess electronic capacity and by-products) and § 7.5006 (incidental non-financial data processing), the OCC has determined that the following electronic activities are incidental to the business of banking, pursuant to this section. This list of activities is illustrative and not exclusive; the OCC may determine that other activities are permissible pursuant to this authority.

(i) Web site development where incidental to other banking services;

(ii) Internet access and e-mail provided on a non-profit basis as a promotional activity;

(iii) Advisory and consulting services on electronic activities where the services are incidental to customer use of electronic banking services; and

(iv) Sale of equipment that is convenient or useful to customer's use of related electronic banking services, such as specialized terminals for scanning checks that will be deposited electronically by wholesale customers of banks under the Check Clearing for the 21st Century Act, Public Law 108-100 (12 U.S.C. 5001-5018) (the Check 21 Act).

[61 FR 4862, Feb. 9, 1996, as amended at 73 FR 22242, Apr. 24, 2008]

§ 7.5002 **Furnishing of products and services by electronic means and facilities.**

(a) *Use of electronic means and facilities.* A national bank may perform, provide, or deliver through electronic

§ 7.5003

12 CFR Ch. I (1–1–14 Edition)

means and facilities any activity, function, product, or service that it is otherwise authorized to perform, provide, or deliver, subject to § 7.5001(b) and applicable OCC guidance. The following list provides examples of permissible activities under this authority. This list is illustrative and not exclusive; the OCC may determine that other activities are permissible pursuant to this authority.

(1) Acting as an electronic finder by:

(i) Establishing, registering, and hosting commercially enabled web sites in the name of sellers;

(ii) Establishing hyperlinks between the bank's site and a third-party site, including acting as a "virtual mall" by providing a collection of links to web sites of third-party vendors, organized by-product type and made available to bank customers;

(iii) Hosting an electronic marketplace on the bank's Internet web site by providing links to the web sites of third-party buyers or sellers through the use of hypertext or other similar means;

(iv) Hosting on the bank's servers the Internet web site of:

(A) A buyer or seller that provides information concerning the hosted party and the products or services offered or sought and allows the submission of interest, bids, offers, orders and confirmations relating to such products or services; or

(B) A governmental entity that provides information concerning the services or benefits made available by the governmental entity, assists persons in completing applications to receive such services or benefits and permits persons to transmit their applications for such services or benefits;

(v) Operating an Internet web site that permits numerous buyers and sellers to exchange information concerning the products and services that they are willing to purchase or sell, locate potential counter-parties for transactions, aggregate orders for goods or services with those made by other parties, and enter into transactions between themselves;

(vi) Operating a telephone call center that provides permissible finder services; and

(vii) Providing electronic communications services relating to all aspects of transactions between buyers and sellers;

(2) Providing electronic bill presentment services;

(3) Offering electronic stored value systems;

(4) Safekeeping for personal information or valuable confidential trade or business information, such as encryption keys; and

(5) Issuing electronic letters of credit within the scope of 12 CFR 7.1016.

(b) *Applicability of guidance and requirements not affected.* When a national bank performs, provides, or delivers through electronic means and facilities an activity, function, product, or service that it is otherwise authorized to perform, provide, or deliver, the electronic activity is not exempt from the regulatory requirements and supervisory guidance that the OCC would apply if the activity were conducted by non-electronic means or facilities.

(c) *State laws.* As a general rule, and except as provided by Federal law, State law is not applicable to a national bank's conduct of an authorized activity through electronic means or facilities if the State law, as applied to the activity, would be preempted pursuant to traditional principles of Federal preemption derived from the Supremacy Clause of the U.S. Constitution and applicable judicial precedent. Accordingly, State laws that stand as an obstacle to the ability of national banks to exercise uniformly their Federally authorized powers through electronic means or facilities, are not applicable to national banks.

[61 FR 4862, Feb. 9, 1996, as amended at 73 FR 22242, Apr. 24, 2008]

§ 7.5003 Composite authority to engage in electronic activities.

Unless otherwise prohibited by Federal law, a national bank may engage in an electronic activity that is comprised of several component activities if each of the component activities is itself part of or incidental to the business of banking or is otherwise permissible under Federal law.

§ 7.5004 Sale of excess electronic capacity and by-products.

(a) A national bank may, in order to optimize the use of the bank's resources or avoid economic loss or waste, market and sell to third parties electronic capacities legitimately acquired or developed by the bank for its banking business.

(b) With respect to acquired equipment or facilities, legitimate excess electronic capacity that may be sold to others can arise in a variety of situations, including the following:

(1) Due to the characteristics of the desired equipment or facilities available in the market, the capacity of the most practical optimal equipment or facilities available to meet the bank's requirements exceeds its present needs;

(2) The acquisition and retention of additional capacity, beyond present needs, reasonably may be necessary for planned future expansion or to meet the expected future banking needs during the useful life of the equipment;

(3) Requirements for capacity fluctuate because a bank engages in batch processing of banking transactions or because a bank must have capacity to meet peak period demand with the result that the bank has periods when its capacity is underutilized; and

(4) After the initial acquisition of capacity thought to be fully needed for banking operations, the bank experiences either a decline in level of the banking operations or an increase in the efficiency of the banking operations using that capacity.

(c) Types of electronic capacity in equipment or facilities that banks may have legitimately acquired and that may be sold to third parties if excess to the bank's needs for banking purposes include:

- (1) Data processing services;
- (2) Production and distribution of non-financial software;
- (3) Providing periodic back-up call answering services;
- (4) Providing full Internet access;
- (5) Providing electronic security system support services;
- (6) Providing long line communications services; and
- (7) Electronic imaging and storage.

(d) A national bank may sell to third parties electronic by-products legiti-

mately acquired or developed by the bank for its banking business. Examples of electronic by-products that banks may have legitimately acquired that may be sold to third parties if excess to the bank's needs include:

(1) Software acquired (not merely licensed) or developed by the bank for banking purposes or to support its banking business; and

(2) Electronic databases, records, or media (such as electronic images) developed by the bank for or during the performance of its permissible data processing activities.

§ 7.5005 National bank acting as digital certification authority.

(a) It is part of the business of banking under 12 U.S.C. 24(Seventh) for a national bank to act as a certificate authority and to issue digital certificates verifying the identity of persons associated with a particular public/private key pair. As part of this service, the bank may also maintain a listing or repository of public keys.

(b) A national bank may issue digital certificates verifying attributes in addition to identity of persons associated with a particular public/private key pair where the attribute is one for which verification is part of or incidental to the business of banking. For example, national banks may issue digital certificates verifying certain financial attributes of a customer as of the current or a previous date, such as account balance as of a particular date, lines of credit as of a particular date, past financial performance of the customer, and verification of customer relationship with the bank as of a particular date.

(c) When a national bank issues a digital certificate relating to financial capacity under this section, the bank shall include in that certificate an express disclaimer stating that the bank does not thereby promise or represent that funds will be available or will be advanced for any particular transaction.

§ 7.5006 Data processing.

(a) *Eligible activities.* It is part of the business of banking under 12 U.S.C.

§ 7.5007

24(Seventh) for a national bank to provide data processing, and data transmission services, facilities (including equipment, technology, and personnel), data bases, advice and access to such services, facilities, data bases and advice, for itself and for others, where the data is banking, financial, or economic data, and other types of data if the derivative or resultant product is banking, financial, or economic data. For this purpose, economic data includes anything of value in banking and financial decisions.

(b) *Other data.* A national bank also may perform the activities described in paragraph (a) of this section for itself and others with respect to additional types of data to the extent convenient or useful to provide the data processing services described in paragraph (a), including where reasonably necessary to conduct those activities on a competitive basis. The total revenue attributable to the bank's data processing activities under this section must be derived predominantly from processing the activities described in paragraph (a) of this section.

(c) *Software for performance of authorized banking functions.* A national bank may produce, market, or sell software that performs services or functions that the bank could perform directly, as part of the business of banking.

[61 FR 4862, Feb. 9, 1996, as amended at 73 FR 22242, Apr. 24, 2008]

§ 7.5007 Correspondent services.

It is part of the business of banking for a national bank to offer as a correspondent service to any of its affiliates or to other financial institutions any service it may perform for itself. The following list provides examples of electronic activities that banks may offer correspondents under this authority. This list is illustrative and not exclusive; the OCC may determine that other activities are permissible pursuant to this authority.

(a) The provision of computer networking packages and related hardware;

(b) Data processing services;

(c) The sale of software that performs data processing functions;

(d) The development, operation, management, and marketing of products

12 CFR Ch. I (1–1–14 Edition)

and processing services for transactions conducted at electronic terminal devices;

(e) Item processing services and related software;

(f) Document control and record keeping through the use of electronic imaging technology;

(g) The provision of Internet merchant hosting services for resale to merchant customers;

(h) The provision of communication support services through electronic means; and

(i) Digital certification authority services.

§ 7.5008 Location of a national bank conducting electronic activities.

A national bank shall not be considered located in a State solely because it physically maintains technology, such as a server or automated loan center, in that state, or because the bank's products or services are accessed through electronic means by customers located in the state.

§ 7.5009 Location under 12 U.S.C. 85 of national banks operating exclusively through the Internet.

For purposes of 12 U.S.C. 85, the main office of a national bank that operates exclusively through the Internet is the office identified by the bank under 12 U.S.C. 22(Second) or as relocated under 12 U.S.C. 30 or other appropriate authority.

§ 7.5010 Shared electronic space.

National banks that share electronic space, including a co-branded web site, with a bank subsidiary, affiliate, or another third-party must take reasonable steps to clearly, conspicuously, and understandably distinguish between products and services offered by the bank and those offered by the bank's subsidiary, affiliate, or the third-party.

PART 8—ASSESSMENT OF FEES

Sec.

8.1 Scope and application.

8.2 Semiannual assessment.

8.6 Fees for special examinations and investigations.

8.7 Payment of interest on delinquent assessments and examination and investigation fees.

Comptroller of the Currency, Treasury

§ 8.2

8.8 Notice of Comptroller of the Currency fees.

AUTHORITY: 12 U.S.C. 16, 93a, 481, 482, 1467, 1831c, 1867, 3102, 3108, and 5412(b)(1)(B); and 15 U.S.C. 78c and 78l.

§ 8.1 Scope and application.

The assessments contained in this part are made pursuant to the authority contained in 12 U.S.C. 16, 93a, 481, 482, 1467, 1831c, 1867, 3102, and 3108; and 15 U.S.C. 78c and 78l.

[76 FR 43566, July 21, 2011]

§ 8.2 Semiannual assessment.

(a) Each national bank and each Federal savings association shall pay to

the Comptroller of the Currency a semiannual assessment fee, due by March 31 and September 30 of each year, for the six month period beginning on January 1 and July 1 before each payment date. The Comptroller of the Currency will calculate the amount due under this section and provide a notice of assessments to each national bank and each Federal savings association no later than 7 business days prior to March 31 and September 30 of each year. The semiannual assessment will be calculated as follows:

If the bank's or Federal savings association's total assets (consolidated domestic and foreign subsidiaries) are:		The semiannual assessment is:		
Over—	But not over—	This amount—base amount	Plus marginal rates	Of excess over—
Column A	Column B	Column C	Column D	Column E
Million (dollars)	Million (dollars)	(dollars)		Million (dollars)
0	2	X1	0	
2	20	X2	Y1	2
20	100	X3	Y2	20
100	200	X4	Y3	100
200	1,000	X5	Y4	200
1,000	2,000	X6	Y5	1,000
2,000	6,000	X7	Y6	2,000
6,000	20,000	X8	Y7	6,000
20,000	40,000	X9	Y8	20,000
40,000	250,000	X10	Y9	40,000
250,000	X11	Y10	250,000

(1) Every national bank and every Federal savings association falls into one of the asset-size brackets denoted by Columns A and B. A bank's or Federal savings association's semiannual assessment is composed of two parts. The first part is the calculation of a base amount of the assessment, which is computed on the assets of the bank or Federal savings association up to the lower endpoint (Column A) of the bracket in which it falls. This base amount of the assessment is calculated by the OCC in Column C.

(2) The second part is the calculation of assessments due on the remaining assets of the bank or Federal savings association in excess of Column E. The excess is assessed at the marginal rate shown in Column D.

(3) The total semiannual assessment is the amount in Column C, plus the

amount of the bank's or Federal savings association's assets in excess of Column E times the marginal rate in Column D:

$$\text{Assessments} = C + [(Assets - E) \times D].$$

(4) Each year, the OCC may index the marginal rates in Column D to adjust for the percent change in the level of prices, as measured by changes in the Gross Domestic Product Implicit Price Deflator (GDIPIPD) for each June-to-June period. The OCC may at its discretion adjust marginal rates by amounts less than the percentage change in the GDIPIPD. The OCC will also adjust the amounts in Column C to reflect any change made to the marginal rate.

(5) The specific marginal rates and complete assessment schedule will be

§ 8.2

12 CFR Ch. I (1–1–14 Edition)

published in the “Notice of Comptroller of the Currency Fees,” provided for at § 8.8 of this part. Each semiannual assessment is based upon the total assets shown in the national bank’s or Federal savings association’s most recent “Consolidated Reports of Condition and Income” (Call Report) or “Thrift Financial Report,” as appropriate, preceding the payment date. Each bank or Federal savings association subject to the jurisdiction of the Comptroller of the Currency on the date of the second or fourth quarterly Call Report or Thrift Financial Report, as appropriate, required by the Office under 12 U.S.C. 161 and 12 U.S.C. 1464(v) is subject to the full assessment for the next six month period.

(6)(i) Notwithstanding any other provision of this part, the OCC may reduce the semiannual assessment for each non-lead bank or non-lead Federal savings association by a percentage that it will specify in the “Notice of Comptroller of the Currency Fees” described in § 8.8.

(ii) For purposes of this paragraph (a)(6):

(A) *Lead bank or lead Federal savings association* means the largest national bank or Federal savings association controlled by a company, based on a comparison of the total assets held by each national bank or Federal savings association controlled by that company as reported in each bank’s or Federal savings association’s Call Report or Thrift Financial Report, as appropriate, filed for the quarter immediately preceding the payment of a semiannual assessment.

(B) *Non-lead bank or non-lead Federal savings association* means a national bank or Federal savings association that is not the lead bank or lead Federal savings association controlled by a company that controls two or more national banks or Federal savings associations.

(C) *Control and company* with respect to national banks have the same meanings as these terms have in sections 2(a)(2) and 2(b), respectively, of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)(2) and (b)).

(D) *Control and company* with respect to Federal savings associations have the same meanings as these terms have

in section 10(a) of the Home Owners’ Loan Act (12 U.S.C. 1467a(a)).

(b)(1) Each Federal branch and each Federal agency shall pay to the Comptroller of the Currency a semiannual assessment fee, due by March 31 and September 30 of each year, for the six month period beginning on January 1 and July 1 before each payment date. The Comptroller of the Currency will calculate the amount due under this section and provide a notice of assessments to each national bank no later than 7 business days prior to March 31 and September 30 of each year.

(2) The amount of the semiannual assessment paid by each Federal branch and Federal agency shall be computed at the same rate as provided in the Table in 12 CFR 8.2(a); however, only the total domestic assets of the Federal branch or agency shall be subject to assessment.

(3) Each semiannual assessment of each Federal branch or agency is based upon the total assets shown in the Federal branch’s or agency’s Call Report most recently preceding the payment date. Each Federal branch or agency subject to the jurisdiction of the OCC on the date of the second and fourth Call Reports is subject to the full assessment for the next six-month period.

(4)(i) Notwithstanding any other provision of this part, the OCC may reduce the semiannual assessment for each non-lead Federal branch or agency by an amount that it will specify in the “Notice of Comptroller of the Currency Fees” described in § 8.8.

(ii) For purposes of this paragraph (b)(4):

(A) *Lead Federal branch or agency* means the largest Federal branch or agency of a foreign bank, based on a comparison of the total assets held by each Federal branch or agency of that foreign bank as reported in each Federal branch’s or agency’s Call Report filed for the quarter immediately preceding the payment of a semiannual assessment.

(B) *Non-lead Federal branch or agency* means a Federal branch or agency that is not the lead Federal branch or agency of a foreign bank that controls two or more Federal branches or agencies.

(c) *Additional assessment for independent credit card banks and independent credit card Federal savings associations*—(1) *General rule.* In addition to the assessment calculated according to paragraph (a) of this section, each independent credit card bank and independent credit card Federal savings association will pay an assessment based on receivables attributable to credit card accounts owned by the bank or Federal savings association. This assessment will be computed by adding to its asset-based assessment an additional amount determined by its level of receivables attributable. The dollar amount of the additional assessment will be published in the “Notice of Comptroller of the Currency of Fees,” described at § 8.8.

(2) *Independent credit card banks and independent credit card Federal savings associations affiliated with full-service national banks or Federal savings associations.* The OCC will assess an independent credit card bank and an independent credit card Federal savings association in accordance with paragraph (c)(1) of this section, notwithstanding that the bank or Federal savings association is affiliated with a full-service national bank or full service Federal savings association, if the OCC concludes that the affiliation is intended to evade this part.

(3) *Definitions.* For purposes of this paragraph (c), the following definitions apply:

(i) *Affiliate*, with respect to national banks, has the same meaning as this term has in 12 U.S.C. 221a(b).

(ii) *Affiliate*, with respect to Federal savings associations, has the same meaning as in 12 U.S.C. 1462(9).

(iii) *Engaged primarily in card operations* means a bank described in section 2(c)(2)(F) of the Bank Holding Company Act (12 U.S.C. 1841(c)(2)(F)) or a bank or a Federal savings association whose ratio of total gross receivables attributable to the bank’s or Federal savings association’s balance sheet assets exceeds 50%.

(iv) *Full-service national bank* is a national bank that generates more than 50% of its interest and non-interest income from activities other than credit card operations or trust activities and is authorized according to its charter

to engage in all types of permissible banking activities.

(v) *Full-service Federal savings association* is a Federal savings association that generates more than 50% of its interest and non-interest income from activities other than credit card operations or trust activities and is authorized according to its charter to engage in all types of activities permissible for Federal savings associations.

(vi) *Independent credit card bank* is a national bank that engages primarily in credit card operations and is not affiliated with a full-service national bank.

(vii) *Independent credit card Federal savings association* is a Federal savings association that engages primarily in credit card operations and is not affiliated with a full-service Federal savings association.

(viii) *Receivables attributable* is the total amount of outstanding balances due on credit card accounts owned by an independent credit card bank or an independent credit card Federal savings association (the receivables attributable to those accounts) on the last day of the assessment period, minus receivables retained on the bank’s or Federal savings association’s balance sheet as of that day.

(4) *Reports of receivables attributable.* Independent credit card banks and independent credit card Federal savings associations will report receivables attributable data to the OCC semiannually at a time specified by the OCC.

(d) *Surcharge based on the condition of the bank or Federal savings association.* Subject to any limit that the OCC prescribes in the “Notice of Comptroller of the Currency Fees,” the OCC shall apply a surcharge to the semiannual assessment computed in accordance with paragraphs (a) through (c) of this section. This surcharge will be determined by multiplying the semiannual assessment computed in accordance with paragraphs (a) through (c) of this section by—

(1) 1.5, in the case of any bank or Federal savings association that receives a composite rating of 3 under the Uniform Financial Institutions Rating System (UFIRS) and any Federal branch or agency that receives a

§ 8.6

12 CFR Ch. I (1–1–14 Edition)

composite rating of 3 under the ROCA rating system (which rates risk management, operational controls, compliance, and asset quality) at its most recent examination; and

(2) 2.0, in the case of any bank or Federal savings association that receives a composite UFIRS rating of 4 or 5 and any Federal branch or agency that receives a composite rating of 4 or 5 under the ROCA rating system at its most recent examination.

[76 FR 43566, July 21, 2011]

§ 8.6 Fees for special examinations and investigations.

(a) *Fees.* Pursuant to the authority contained in 12 U.S.C. 16, 481, 482, 1467, and 1831c, the Office of the Comptroller of the Currency may assess a fee for:

(1) Examining the fiduciary activities of national banks and Federal savings associations and related entities;

(2) Conducting special examinations and investigations of national banks, Federal branches or agencies of foreign banks, and Federal savings associations;

(3) Conducting special examinations and investigations of an entity with respect to its performance of activities described in section 7(c) of the Bank Service Company Act (12 U.S.C. 1867(c)) if the OCC determines that assessment of the fee is warranted with regard to a particular bank or Federal savings association because of the high risk or unusual nature of the activities performed; the significance to the bank's or Federal saving association's operations and income of the activities performed; or the extent to which the bank or Federal savings association has sufficient systems, controls, and personnel to adequately monitor, measure, and control risks arising from such activities;

(4) Conducting special examinations and investigations of affiliates of national banks, Federal savings associations, and Federal branches or agencies of foreign banks;

(5) Conducting examinations and investigations made pursuant to 12 CFR part 5, Rules, Policies, and Procedures for Corporate Activities; and

(6) Conducting examinations of depository-institution permissible activities of nondepository institution sub-

sidiaries of depository institution holding companies pursuant to section 605(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 1831c).

(b) *Notice of Comptroller of the Currency fees.* The OCC publishes the fee schedule for fiduciary activities, special examinations and investigations, examinations of affiliates and examinations related to corporate activities in the "Notice of Comptroller of the Currency Fees" described in § 8.8.

(c) *Additional assessments on trust banks and trust Federal savings associations—*(1) *Independent trust banks and independent trust Federal savings associations.* The assessment of independent trust banks and independent trust Federal savings associations will include a fiduciary and related asset component, in addition to the assessment calculated according to § 8.2 of this part, as follows:

(i) *Minimum fee.* All independent trust banks and independent trust Federal savings associations will pay a minimum fee, to be provided in the "Notice of Comptroller of the Currency Fees."

(ii) *Additional amount for independent trust banks and independent trust Federal savings associations with fiduciary and related assets in excess of \$1 billion.* Independent trust banks and independent trust Federal savings associations with fiduciary and related assets in excess of \$1 billion will pay an amount that exceeds the minimum fee. The amount to be paid will be calculated by multiplying the amount of fiduciary and related assets by a rate or rates provided by the OCC in the "Notice of Comptroller of the Currency Fees."

(iii) *Surcharge based on the condition of the bank or of the Federal savings association.* Subject to any limit that the OCC prescribes in the "Notice of Comptroller of the Currency Fees," the OCC shall adjust the semiannual assessment computed in accordance with paragraphs (c)(1)(i) and (ii) of this section by multiplying that figure by 1.5 for each independent trust bank and independent trust Federal savings association that receives a composite rating of 3 under the Uniform Financial Institutions Rating System (UFIRS) at its most recent examination and by 2.0 for each bank that receives a composite

UFIRS rating of 4 or 5 at such examination.

(2) *Trust banks affiliated with full-service national banks and trust Federal savings associations affiliated with full-service Federal savings associations.* The OCC will assess a trust bank and a trust Federal savings association in accordance with paragraph (c)(1) of this section, notwithstanding that the bank is affiliated with a full-service national bank, or that the Federal savings association is affiliated with a full-service Federal savings association, if the OCC concludes that the affiliation is intended to evade the assessment regulation.

(3) *Definitions.* For purposes of this paragraph (c) of this section, the following definitions apply:

(i) *Affiliate*, with respect to a national bank, has the same meaning as this term has in 12 U.S.C. 221a(b);

(ii) *Affiliate*, with respect to Federal savings associations, has the same meaning as in 12 U.S.C. 1462(9).

(iii) *Full-service national bank* is a national bank that generates more than 50% of its interest and non-interest income from activities other than credit card operations or trust activities and is authorized according to its charter to engage in all types of permissible banking activities.

(iv) *Full-service trust Federal savings association* is a Federal savings association that generates more than 50% of its interest and non-interest income from activities other than credit card operations or trust activities and is authorized according to its charter to engage in all types of activities permissible for Federal savings associations.

(v) *Independent trust bank* is a national bank that has trust powers, does not primarily offer full-service banking, and is not affiliated with a full-service national bank;

(vi) *Independent trust Federal savings association* is a Federal savings association that has trust powers, does not primarily offer full-service banking, and is not affiliated with a full-service Federal savings association; and

(vii) *Fiduciary and related assets* are those assets reported on Schedule RC-T of FFIEC Forms 031 and 041, Line 10 (columns A and B) and Line 11 (column B), any successor form issued by the

FFIEC, and any other fiduciary and related assets defined in the "Notice of Comptroller of the Currency Fees."

[76 FR 43568, July 21, 2011, as amended at 76 FR 43568, July 7, 2011]

§ 8.7 Payment of interest on delinquent assessments and examination and investigation fees.

(a) Each national bank, each Federal branch, each Federal agency, and each Federal savings association shall pay to the Comptroller of the Currency interest on its delinquent payments of semiannual assessments. In addition, each national bank, each Federal savings association, and each entity with a trust department examined by the Comptroller of the Currency and each institution that is the subject of a special examination or investigation conducted by the Comptroller of the Currency shall pay to the Comptroller of the Currency interest on its delinquent payments of examination and investigation fees. Semiannual assessment payments will be considered delinquent if they are received after the time for payment specified in § 8.2. Examination and investigation fees will be considered delinquent if not received by the Comptroller of the Currency within 30 calendar days of the invoice date.

(b) In the event that an entity that is required to make semiannual assessment payments or trust examination fee payments believes that the notice of assessments prepared by the Comptroller of the Currency contains an error of miscalculation, the entity may provide the Comptroller of the Currency with a written request for a revised assessment notice and a refund of any overpayments. Any such request for a revised notice and refund must be made after timely payment of the semiannual assessment under the dates specified in § 8.2.

(1) Refund the amount of the overpayment or

(2) Provide notice of its unwillingness to accept the request for a revised notice of assessments. In the latter instance, the Comptroller of the Currency and the entity claiming the overpayment shall thereafter attempt to reach agreement on the amount, if any, to be refunded; the Comptroller of the Currency shall refund this amount

§ 8.8

12 CFR Ch. I (1-1-14 Edition)

within 30 calendar days of such agreement.

The Comptroller of the Currency shall be considered delinquent if it fails to return an overpayment in accordance with the time limitations specified in this paragraph (b). The Comptroller of the Currency shall pay interest on any such delinquent payments.

(c) Interest on delinquent payments, as described in paragraphs (a) and (b) of this section, will be assessed beginning the first calendar day on which payment is considered delinquent, and on each calendar day thereafter up to and including the day payment is received. Interest will be simple interest, calculated for each day payment is delinquent by multiplying the daily equivalent of the applicable interest rate by the amount delinquent. The rate of interest will be the United States Treasury Department's current value of funds rate (the "TFRM rate"); that rate is issued under the Treasury Fiscal Requirements Manual and is published quarterly in the FEDERAL REGISTER. The interest rates applicable to a delinquent payment will be determined as follows:

(1) For delinquent days occurring from January 1 to March 31, the rate will be the TFRM rate that is published the preceding December for the first quarter of the ensuing year.

(2) For delinquent days occurring from April 1 to June 30, the rate will be the TFRM rate that is published the preceding March for the second quarter of that year.

(3) For delinquent days occurring from July 1 to September 30, the rate will be the TFRM rate that is published the preceding June for the third quarter of that year.

(4) For delinquent days occurring from October 1 to December 31, the rate will be the TFRM rate that is published the preceding September for the fourth quarter of that year.

[48 FR 30599, July 1, 1983. Redesignated and amended at 49 FR 50605, Dec. 31, 1984; 70 FR 69643, Nov. 17, 2005; 76 FR 43568, July 21, 2011]

§ 8.8 Notice of Comptroller of the Currency fees.

(a) *December notice of fees.* A "Notice of Comptroller of the Currency Fees" shall be published no later than the

first business day in December of each year for fees to be charged by the Office during the upcoming year. These fees will be effective January 1 of that upcoming year.

(b) *Interim notice of Comptroller of the Currency fees.* The OCC may issue an "Interim Notice of Comptroller of the Currency Fees" or issue an amended "Notice of Comptroller of the Currency Fees" from time to time throughout the year as necessary. Interim or amended notices will be effective 30 days after issuance.

[55 FR 49842, Nov. 30, 1990, as amended at 70 FR 69644, Nov. 17, 2005]

SOURCE: 61 FR 68554, Dec. 30, 1996, unless otherwise noted.

REGULATIONS

§ 9.1 Authority, purpose, and scope.

(a) *Authority.* The Office of the Comptroller of the Currency (OCC) issues this part pursuant to its authority

under 12 U.S.C. 24 (Seventh), 92a, and 93a, and 15 U.S.C. 78q, 78q-1, and 78w.

(b) *Purpose.* The purpose of this part is to set forth the standards that apply to the fiduciary activities of national banks.

(c) *Scope.* This part applies to all national banks that act in a fiduciary capacity, as defined in § 9.2(e). This part also applies to all Federal branches of foreign banks to the same extent as it applies to national banks.

§ 9.2 Definitions.

For the purposes of this part, the following definitions apply:

(a) *Affiliate* has the same meaning as in 12 U.S.C. 221a(b).

(b) *Applicable law* means the law of a state or other jurisdiction governing a national bank's fiduciary relationships, any applicable Federal law governing those relationships, the terms of the instrument governing a fiduciary relationship, or any court order pertaining to the relationship.

(c) *Custodian under a uniform gifts to minors act* means a fiduciary relationship established pursuant to a state law substantially similar to the Uniform Gifts to Minors Act or the Uniform Transfers to Minors Act as published by the American Law Institute.

(d) *Fiduciary account* means an account administered by a national bank acting in a fiduciary capacity.

(e) *Fiduciary capacity* means: trustee, executor, administrator, registrar of stocks and bonds, transfer agent, guardian, assignee, receiver, or custodian under a uniform gifts to minors act; investment adviser, if the bank receives a fee for its investment advice; any capacity in which the bank possesses investment discretion on behalf of another; or any other similar capacity that the OCC authorizes pursuant to 12 U.S.C. 92a.

(f) *Fiduciary officers and employees* means all officers and employees of a national bank to whom the board of directors or its designee has assigned functions involving the exercise of the bank's fiduciary powers.

(g) *Fiduciary powers* means the authority the OCC permits a national bank to exercise pursuant to 12 U.S.C. 92a.

(h) *Guardian* means the guardian or conservator, by whatever name used by state law, of the estate of a minor, an incompetent person, an absent person, or a person over whose estate a court has taken jurisdiction, other than under bankruptcy or insolvency laws.

(i) *Investment discretion* means, with respect to an account, the sole or shared authority (whether or not that authority is exercised) to determine what securities or other assets to purchase or sell on behalf of the account. A bank that delegates its authority over investments and a bank that receives delegated authority over investments are both deemed to have investment discretion.

(j) *Trust office* means an office of a national bank, other than a main office or a branch, at which the bank engages in one or more of the activities specified in § 9.7(d). Pursuant to 12 U.S.C. 36(j), a trust office is not a "branch" for purposes of 12 U.S.C. 36, unless it is also an office at which deposits are received, or checks paid, or money lent.

(k) *Trust representative office* means an office of a national bank, other than a main office, branch, or trust office, at which the bank performs activities ancillary to its fiduciary business, but does not engage in any of the activities specified in § 9.7(d). Examples of ancillary activities include advertising, marketing, and soliciting for fiduciary business; contacting existing or potential customers, answering questions, and providing information about matters related to their accounts; acting as a liaison between the trust office and the customer (*e.g.*, forwarding requests for distribution or changes in investment objectives, or forwarding forms and funds received from the customer); inspecting or maintaining custody of fiduciary assets or holding title to real property. This list is illustrative and not comprehensive. Other activities may also be "ancillary activities" for the purposes of this definition. Pursuant to 12 U.S.C. 36(j), a trust representative office is not a "branch" for purposes of 12 U.S.C. 36, unless it is also an office at which deposits are received, or checks paid, or money lent.

[61 FR 68554, Dec. 30, 1996, as amended at 66 FR 34797, July 2, 2001]

§ 9.3 Approval requirements.

(a) A national bank may not exercise fiduciary powers unless it obtains prior approval from the OCC to the extent required under 12 CFR 5.26.

(b) A national bank that has obtained the OCC's approval to exercise fiduciary powers is not required to obtain the OCC's prior approval to engage in any of the activities specified in § 9.7(d) in a new state or to conduct, in a new state, activities that are ancillary to its fiduciary business. Instead, the national bank must follow the notice procedures prescribed by 12 CFR 5.26(e).

(c) A person seeking approval to organize a special-purpose national bank limited to fiduciary powers shall file an application with the OCC pursuant to 12 CFR 5.20.

[61 FR 68554, Dec. 30, 1996, as amended at 66 FR 34798, July 2, 2001]

§ 9.4 Administration of fiduciary powers.

(a) *Responsibilities of the board of directors.* A national bank's fiduciary activities shall be managed by or under the direction of its board of directors. In discharging its responsibilities, the board may assign any function related to the exercise of fiduciary powers to any director, officer, employee, or committee thereof.

(b) *Use of other personnel.* The national bank may use any qualified personnel and facilities of the bank or its affiliates to perform services related to the exercise of its fiduciary powers, and any department of the bank or its affiliates may use fiduciary officers, employees, and facilities to perform services unrelated to the exercise of fiduciary powers, to the extent not prohibited by applicable law.

(c) *Agency agreements.* Pursuant to a written agreement, a national bank exercising fiduciary powers may perform services related to the exercise of fiduciary powers for another bank or other entity, and may purchase services related to the exercise of fiduciary powers from another bank or other entity.

(d) *Bond requirement.* A national bank shall ensure that all fiduciary officers and employees are adequately bonded.

§ 9.5 Policies and procedures.

A national bank exercising fiduciary powers shall adopt and follow written policies and procedures adequate to maintain its fiduciary activities in compliance with applicable law. Among other relevant matters, the policies and procedures should address, where appropriate, the bank's:

(a) Brokerage placement practices;

(b) Methods for ensuring that fiduciary officers and employees do not use material inside information in connection with any decision or recommendation to purchase or sell any security;

(c) Methods for preventing self-dealing and conflicts of interest;

(d) Selection and retention of legal counsel who is readily available to advise the bank and its fiduciary officers and employees on fiduciary matters; and

(e) Investment of funds held as fiduciary, including short-term investments and the treatment of fiduciary funds awaiting investment or distribution.

§ 9.6 Review of fiduciary accounts.

(a) *Pre-acceptance review.* Before accepting a fiduciary account, a national bank shall review the prospective account to determine whether it can properly administer the account.

(b) *Initial post-acceptance review.* Upon the acceptance of a fiduciary account for which a national bank has investment discretion, the bank shall conduct a prompt review of all assets of the account to evaluate whether they are appropriate for the account.

(c) *Annual review.* At least once during every calendar year, a bank shall conduct a review of all assets of each fiduciary account for which the bank has investment discretion to evaluate whether they are appropriate, individually and collectively, for the account.

§ 9.7 Multi-state fiduciary operations.

(a) *Acting in a fiduciary capacity in more than one state.* Pursuant to 12 U.S.C. 92a and this section, a national bank may act in a fiduciary capacity in any state. If a national bank acts, or proposes to act, in a fiduciary capacity in a particular state, the bank may act in the following specific capacities:

(1) Any of the eight fiduciary capacities expressly listed in 12 U.S.C. 92a(a), unless the state prohibits its own state banks, trust companies, and other corporations that compete with national banks in that state from acting in that capacity; and

(2) Any other fiduciary capacity the state permits for its own state banks, trust companies, or other corporations that compete with national banks in that state.

(b) *Serving customers in other states.* While acting in a fiduciary capacity in one state, a national bank may market its fiduciary services to, and act as fiduciary for, customers located in any state, and it may act as fiduciary for relationships that include property located in other states. The bank may use a trust representative office for this purpose.

(c) *Offices in more than one state.* A national bank with fiduciary powers may establish trust offices or trust representative offices in any state.

(d) *Determination of the state referred to in 12 U.S.C. 92a.* For each fiduciary relationship, the state referred to in section 92a is the state in which the bank acts in a fiduciary capacity for that relationship. A national bank acts in a fiduciary capacity in the state in which it accepts the fiduciary appointment, executes the documents that create the fiduciary relationship, and makes discretionary decisions regarding the investment or distribution of fiduciary assets. If these activities take place in more than one state, then the state in which the bank acts in a fiduciary capacity for section 92a purposes is the state that the bank designates from among those states.

(e) *Application of state law—(1) State laws used in section 92a.* The state laws that apply to a national bank's fiduciary activities by virtue of 12 U.S.C. 92a are the laws of the state in which the bank acts in a fiduciary capacity.

(2) *Other state laws.* Except for the state laws made applicable to national banks by virtue of 12 U.S.C. 92a, state laws limiting or establishing preconditions on the exercise of fiduciary powers are not applicable to national banks.

[66 FR 34798, July 2, 2001]

§ 9.8 Recordkeeping.

(a) *Documentation of accounts.* A national bank shall adequately document the establishment and termination of each fiduciary account and shall maintain adequate records for all fiduciary accounts.

(b) *Retention of records.* A national bank shall retain records described in paragraph (a) of this section for a period of three years from the later of the termination of the account or the termination of any litigation relating to the account.

(c) *Separation of records.* A national bank shall ensure that records described in paragraph (a) of this section are separate and distinct from other records of the bank.

§ 9.9 Audit of fiduciary activities.

(a) *Annual audit.* At least once during each calendar year, a national bank shall arrange for a suitable audit (by internal or external auditors) of all significant fiduciary activities, under the direction of its fiduciary audit committee, unless the bank adopts a continuous audit system in accordance with paragraph (b) of this section. The bank shall note the results of the audit (including significant actions taken as a result of the audit) in the minutes of the board of directors.

(b) *Continuous audit.* In lieu of performing annual audits under paragraph (a) of this section, a national bank may adopt a continuous audit system under which the bank arranges for a discrete audit (by internal or external auditors) of each significant fiduciary activity (*i.e.*, on an activity-by-activity basis), under the direction of its fiduciary audit committee, at an interval commensurate with the nature and risk of that activity. Thus, certain fiduciary activities may receive audits at intervals greater or less than one year, as appropriate. A bank that adopts a continuous audit system shall note the results of all discrete audits performed since the last audit report (including significant actions taken as a result of the audits) in the minutes of the board of directors at least once during each calendar year.

(c) *Fiduciary audit committee.* A national bank's fiduciary audit committee must consist of a committee of

§ 9.10

12 CFR Ch. I (1–1–14 Edition)

the bank's directors or an audit committee of an affiliate of the bank. However, in either case, the committee:

(1) Must not include any officers of the bank or an affiliate who participate significantly in the administration of the bank's fiduciary activities; and

(2) Must consist of a majority of members who are not also members of any committee to which the board of directors has delegated power to manage and control the fiduciary activities of the bank.

§ 9.10 Fiduciary funds awaiting investment or distribution.

(a) *In general.* With respect to a fiduciary account for which a national bank has investment discretion or discretion over distributions, the bank may not allow funds awaiting investment or distribution to remain uninvested and undistributed any longer than is reasonable for the proper management of the account and consistent with applicable law. With respect to a fiduciary account for which a national bank has investment discretion, the bank shall obtain for funds awaiting investment or distribution a rate of return that is consistent with applicable law.

(b) *Self-deposits*—(1) *In general.* A national bank may deposit funds of a fiduciary account that are awaiting investment or distribution in the commercial, savings, or another department of the bank, unless prohibited by applicable law. To the extent that the funds are not insured by the Federal Deposit Insurance Corporation, the bank shall set aside collateral as security, under the control of appropriate fiduciary officers and employees, in accordance with paragraph (b)(2) of this section. The market value of the collateral set aside must at all times equal or exceed the amount of the uninsured fiduciary funds.

(2) *Acceptable collateral.* A national bank may satisfy the collateral requirement of paragraph (b)(1) of this section with any of the following:

(i) Direct obligations of the United States, or other obligations fully guaranteed by the United States as to principal and interest;

(ii) Securities that qualify as eligible for investment by national banks pursuant to 12 CFR part 1;

(iii) Readily marketable securities of the classes in which state banks, trust companies, or other corporations exercising fiduciary powers are permitted to invest fiduciary funds under applicable state law;

(iv) Surety bonds, to the extent they provide adequate security, unless prohibited by applicable law; and

(v) Any other assets that qualify under applicable state law as appropriate security for deposits of fiduciary funds.

(c) *Affiliate deposits.* A national bank, acting in its fiduciary capacity, may deposit funds of a fiduciary account that are awaiting investment or distribution with an affiliated insured depository institution, unless prohibited by applicable law. A national bank may set aside collateral as security for a deposit by or with an affiliate of fiduciary funds awaiting investment or distribution, unless prohibited by applicable law.

§ 9.11 Investment of fiduciary funds.

A national bank shall invest funds of a fiduciary account in a manner consistent with applicable law.

§ 9.12 Self-dealing and conflicts of interest.

(a) *Investments for fiduciary accounts*—(1) *In general.* Unless authorized by applicable law, a national bank may not invest funds of a fiduciary account for which a national bank has investment discretion in the stock or obligations of, or in assets acquired from: the bank or any of its directors, officers, or employees; affiliates of the bank or any of their directors, officers, or employees; or individuals or organizations with whom there exists an interest that might affect the exercise of the best judgment of the bank.

(2) *Additional securities investments.* If retention of stock or obligations of the bank or its affiliates in a fiduciary account is consistent with applicable law, the bank may:

(i) Exercise rights to purchase additional stock (or securities convertible into additional stock) when offered pro rata to stockholders; and

(ii) Purchase fractional shares to complement fractional shares acquired through the exercise of rights or the receipt of a stock dividend resulting in fractional share holdings.

(b) *Loans, sales, or other transfers from fiduciary accounts*—(1) *In general.* A national bank may not lend, sell, or otherwise transfer assets of a fiduciary account for which a national bank has investment discretion to the bank or any of its directors, officers, or employees, or to affiliates of the bank or any of their directors, officers, or employees, or to individuals or organizations with whom there exists an interest that might affect the exercise of the best judgment of the bank, unless:

(i) The transaction is authorized by applicable law;

(ii) Legal counsel advises the bank in writing that the bank has incurred, in its fiduciary capacity, a contingent or potential liability, in which case the bank, upon the sale or transfer of assets, shall reimburse the fiduciary account in cash at the greater of book or market value of the assets;

(iii) As provided in § 9.18(b)(8)(iii) for defaulted investments; or

(iv) Required in writing by the OCC.

(2) *Loans of funds held as trustee.* Notwithstanding paragraph (b)(1) of this section, a national bank may not lend to any of its directors, officers, or employees any funds held in trust, except with respect to employee benefit plans in accordance with the exemptions found in section 408 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1108).

(c) *Loans to fiduciary accounts.* A national bank may make a loan to a fiduciary account and may hold a security interest in assets of the account if the transaction is fair to the account and is not prohibited by applicable law.

(d) *Sales between fiduciary accounts.* A national bank may sell assets between any of its fiduciary accounts if the transaction is fair to both accounts and is not prohibited by applicable law.

(e) *Loans between fiduciary accounts.* A national bank may make a loan between any of its fiduciary accounts if the transaction is fair to both accounts and is not prohibited by applicable law.

§ 9.13 Custody of fiduciary assets.

(a) *Control of fiduciary assets.* A national bank shall place assets of fiduciary accounts in the joint custody or control of not fewer than two of the fiduciary officers or employees designated for that purpose by the board of directors. A national bank may maintain the investments of a fiduciary account off-premises, if consistent with applicable law and if the bank maintains adequate safeguards and controls.

(b) *Separation of fiduciary assets.* A national bank shall keep the assets of fiduciary accounts separate from the assets of the bank. A national bank shall keep the assets of each fiduciary account separate from all other accounts or shall identify the investments as the property of a particular account, except as provided in § 9.18.

§ 9.14 Deposit of securities with state authorities.

(a) *In general.* If state law requires corporations acting in a fiduciary capacity to deposit securities with state authorities for the protection of private or court trusts, then before a national bank acts as a private or court-appointed trustee in that state, it shall make a similar deposit with state authorities. If the state authorities refuse to accept the deposit, the bank shall deposit the securities with the Federal Reserve Bank of the district in which the national bank is located, to be held for the protection of private or court trusts to the same extent as if the securities had been deposited with state authorities.

(b) *Acting in a fiduciary capacity in more than one state.* If a national bank acts in a fiduciary capacity in more than one state, the bank may compute the amount of securities that are required to be deposited for each state on the basis of the amount of assets for which the bank is acting in a fiduciary capacity at offices located in that state. If state law requires a deposit of securities on a basis other than assets (*e.g.*, a requirement to deposit a fixed amount or an amount equal to a percentage of capital), the bank may compute the amount of deposit required in

§9.15

that state on a pro-rated basis, according to the proportion of fiduciary assets for which the bank is acting in a fiduciary capacity at offices located in that state.

[61 FR 68554, Dec. 30, 1996, as amended at 66 FR 34798, July 2, 2001]

§9.15 Fiduciary compensation.

(a) *Compensation of bank.* If the amount of a national bank's compensation for acting in a fiduciary capacity is not set or governed by applicable law, the bank may charge a reasonable fee for its services.

(b) *Compensation of co-fiduciary officers and employees.* A national bank may not permit any officer or employee to retain any compensation for acting as a co-fiduciary with the bank in the administration of a fiduciary account, except with the specific approval of the bank's board of directors.

§9.16 Receivership or voluntary liquidation of bank.

If the OCC appoints a receiver for an uninsured national bank, or if a national bank places itself in voluntary liquidation, the receiver or liquidating agent shall promptly close or transfer to a substitute fiduciary all fiduciary accounts, in accordance with OCC instructions and the orders of the court having jurisdiction.

§9.17 Surrender or revocation of fiduciary powers.

(a) *Surrender.* In accordance with 12 U.S.C. 92a(j), a national bank seeking to surrender its fiduciary powers shall file with the OCC a certified copy of the resolution of its board of directors evidencing that intent. If, after appropriate investigation, the OCC is satisfied that the bank has been discharged from all fiduciary duties, the OCC will provide written notice that the bank is no longer authorized to exercise fiduciary powers.

(b) *Revocation.* If the OCC determines that a national bank has unlawfully or unsoundly exercised, or has failed for a period of five consecutive years to exercise its fiduciary powers, the Comptroller may, in accordance with the provisions of 12 U.S.C. 92a(k), revoke the bank's fiduciary powers.

12 CFR Ch. I (1-1-14 Edition)

§9.18 Collective investment funds.

(a) *In general.* Where consistent with applicable law, a national bank may invest assets that it holds as fiduciary in the following collective investment funds:¹

(1) A fund maintained by the bank, or by one or more affiliated banks,² exclusively for the collective investment and reinvestment of money contributed to the fund by the bank, or by one or more affiliated banks, in its capacity as trustee, executor, administrator, guardian, or custodian under a uniform gifts to minors act.

(2) A fund consisting solely of assets of retirement, pension, profit sharing, stock bonus or other trusts that are exempt from Federal income tax.

(i) A national bank may invest assets of retirement, pension, profit sharing, stock bonus, or other trusts exempt from Federal income tax and that the bank holds in its capacity as trustee in a collective investment fund established under paragraph (a)(1) or (a)(2) of this section.

(ii) A national bank may invest assets of retirement, pension, profit sharing, stock bonus, or other employee benefit trusts exempt from Federal income tax and that the bank holds in any capacity (including agent), in a collective investment fund established under this paragraph (a)(2) if the fund itself qualifies for exemption from Federal income tax.

(b) *Requirements.* A national bank administering a collective investment fund authorized under paragraph (a) of this section shall comply with the following requirements:

¹In determining whether investing fiduciary assets in a collective investment fund is proper, the bank may consider the fund as a whole and, for example, shall not be prohibited from making that investment because any particular asset is nonincome producing.

²A fund established pursuant to this paragraph (a)(1) that includes money contributed by entities that are affiliates under 12 U.S.C. 221a(b), but are not members of the same affiliated group, as defined at 26 U.S.C. 1504, may fail to qualify for tax-exempt status under the Internal Revenue Code. See 26 U.S.C. 584.

(1) *Written plan.* The bank shall establish and maintain each collective investment fund in accordance with a written plan (Plan) approved by a resolution of the bank's board of directors or by a committee authorized by the board. The bank shall make a copy of the Plan available for public inspection at its main office during all banking hours, and shall provide a copy of the Plan to any person who requests it. The Plan must contain appropriate provisions, not inconsistent with this part, regarding the manner in which the bank will operate the fund, including provisions relating to:

- (i) Investment powers and policies with respect to the fund;
- (ii) Allocation of income, profits, and losses;
- (iii) Fees and expenses that will be charged to the fund and to participating accounts;
- (iv) Terms and conditions governing the admission and withdrawal of participating accounts;
- (v) Audits of participating accounts;
- (vi) Basis and method of valuing assets in the fund;
- (vii) Expected frequency for income distribution to participating accounts;
- (viii) Minimum frequency for valuation of fund assets;
- (ix) Amount of time following a valuation date during which the valuation must be made;
- (x) Bases upon which the bank may terminate the fund; and
- (xi) Any other matters necessary to define clearly the rights of participating accounts.

(2) *Fund management.* A bank administering a collective investment fund shall have exclusive management thereof, except as a prudent person might delegate responsibilities to others.³

(3) *Proportionate interests.* Each participating account in a collective in-

vestment fund must have a proportionate interest in all the fund's assets.

(4) *Valuation—(i) Frequency of valuation.* A bank administering a collective investment fund shall determine the value of the fund's readily marketable assets at least once every three months. A bank shall determine the value of the fund's assets that are not readily marketable at least once a year.

(ii) *General method of valuation.* Except as provided in paragraph (b)(4)(iii) of this section, a bank shall value each fund asset at mark-to-market value as of the date set for valuation, unless the bank cannot readily ascertain mark-to-market value, in which case the bank shall use a fair value determined in good faith.

(iii) *Short-term investment funds (STIFs) method of valuation.* A bank may value a STIF's assets on a cost basis, rather than mark-to-market value as provided in paragraph (b)(4)(ii) of this section, for purposes of admissions and withdrawals, if the Plan includes appropriate provisions, consistent with this part, requiring the STIF to:

(A) Operate with a stable net asset value of \$1.00 per participating interest as a primary fund objective;

(B) Maintain a dollar-weighted average portfolio maturity of 60 days or less and a dollar-weighted average portfolio life maturity of 120 days or less as determined in the same manner as is required by the Securities and Exchange Commission pursuant to Rule 2a-7 for money market mutual funds (17 CFR 270.2a-7);

(C) Accrue on a straight-line or amortized basis the difference between the cost and anticipated principal receipt on maturity;

(D) Hold the STIF's assets until maturity under usual circumstances;

(E) Adopt portfolio and issuer qualitative standards and concentration restrictions;

(F) Adopt liquidity standards that include provisions to address contingency funding needs;

(G) Adopt shadow pricing procedures that:

(1) Require the bank to calculate the extent of difference, if any, of the mark-to-market net asset value per

³If a fund, the assets of which consist solely of Individual Retirement Accounts, Keogh Accounts, or other employee benefit accounts that are exempt from taxation, is registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*), the fund will not be deemed in violation of this paragraph (b)(2) as a result of its compliance with section 10(c) of the Investment Company Act of 1940 (15 U.S.C. 80a-10(c)).

§9.18

12 CFR Ch. I (1-1-14 Edition)

participating interest using available market quotations (or an appropriate substitute that reflects current market conditions) from the STIF's amortized cost price per participating interest, at least on a calendar week basis and more frequently as determined by the bank when market conditions warrant; and

(2) Require the bank, in the event the difference calculated pursuant to this subparagraph exceeds \$0.005 per participating interest, to take action to reduce dilution of participating interests or other unfair results to participating accounts in the STIF;

(H) Adopt procedures for stress testing the STIF's ability to maintain a stable net asset value per participating interest that shall provide for:

(1) The periodic stress testing, at least on a calendar month basis and at such intervals as an independent risk manager or a committee responsible for the STIF's oversight that consists of members independent from the STIF's investment management determines appropriate and reasonable in light of current market conditions;

(2) Stress testing based upon hypothetical events that include, but are not limited to, a change in short-term interest rates, an increase in participant account withdrawals, a downgrade of or default on portfolio securities, and the widening or narrowing of spreads between yields on an appropriate benchmark the STIF has selected for overnight interest rates and commercial paper and other types of securities held by the STIF;

(3) A stress testing report on the results of such testing to be provided to the independent risk manager or the committee responsible for the STIF's oversight that consists of members independent from the STIF's investment management that shall include: the date(s) on which the testing was performed; the magnitude of each hypothetical event that would cause the difference between the STIF's mark-to-market net asset value calculated using available market quotations (or appropriate substitutes which reflect current market conditions) and its net asset value per participating interest calculated using amortized cost to exceed \$0.005; and an assessment by the

bank of the STIF's ability to withstand the events (and concurrent occurrences of those events) that are reasonably likely to occur within the following year; and

(4) Reporting adverse stress testing results to the bank's senior risk management that is independent from the STIF's investment management.

(I) Adopt procedures that require a bank to disclose to STIF participants and to the OCC's Asset Management Group, Credit & Market Risk Division, within five business days after each calendar month-end, the fund's total assets under management (securities and other assets including cash, minus liabilities); the fund's mark-to-market and amortized cost net asset values both with and without capital support agreements; the dollar-weighted average portfolio maturity; the dollar-weighted average portfolio life maturity of the STIF as of the last business day of the prior calendar month; and for each security held by the STIF as of the last business day of the prior calendar month:

(1) The name of the issuer;

(2) The category of investment;

(3) The Committee on Uniform Securities Identification Procedures (CUSIP) number or other standard identifier;

(4) The principal amount;

(5) The maturity date for purposes of calculating dollar-weighted average portfolio maturity;

(6) The final legal maturity date (taking into account any maturity date extensions that may be effected at the option of the issuer) if different from the maturity date for purposes of calculating dollar-weighted average portfolio maturity;

(7) The coupon or yield; and

(8) The amortized cost value;

(J) Adopt procedures that require a bank that administers a STIF to notify the OCC's Asset Management Group, Credit & Market Risk Division, prior to or within one business day thereafter of the following:

(1) Any difference exceeding \$0.0025 between the net asset value and the mark-to-market value of a STIF participating interest as calculated using the method set forth in paragraph (b)(4)(iii)(G)(1) of this section;

(2) When a STIF has re-priced its net asset value below \$0.995 per participating interest;

(3) Any withdrawal distribution-in-kind of the STIF's participating interests or segregation of portfolio participants;

(4) Any delays or suspensions in honoring STIF participating interest withdrawal requests;

(5) Any decision to formally approve the liquidation, segregation of assets or portfolios, or some other liquidation of the STIF; or

(6) In those situations when a bank, its affiliate, or any other entity provides a STIF financial support, including a cash infusion, a credit extension, a purchase of a defaulted or illiquid asset, or any other form of financial support in order to maintain a stable net asset value per participating interest;

(K) Adopt procedures that in the event a STIF has re-priced its net asset value below \$0.995 per participating interest, the bank administering the STIF shall calculate, admit, and withdraw the STIF's participating interests at a price based on the mark-to-market net asset value; and

(L) Adopt procedures that, in the event a bank suspends or limits withdrawals and initiates liquidation of the STIF as a result of redemptions, require the bank to:

(1) Determine that the extent of the difference between the STIF's amortized cost per participating interest and its mark-to-market net asset value per participating interest may result in material dilution of participating interests or other unfair results to participating accounts;

(2) Formally approve the liquidation of the STIF; and

(3) Facilitate the fair and orderly liquidation of the STIF to the benefit of all STIF participants.

(5) *Admission and withdrawal of accounts*—(i) *In general*. A bank administering a collective investment fund shall admit an account to or withdraw an account from the fund only on the basis of the valuation described in paragraph (b)(4) of this section.

(ii) *Prior request or notice*. A bank administering a collective investment fund may admit an account to or with-

draw an account from a collective investment fund only if the bank has approved a request for or a notice of intention of taking that action on or before the valuation date on which the admission or withdrawal is based. No requests or notices may be canceled or countermanded after the valuation date.

(iii) *Prior notice period for withdrawals from funds with assets not readily marketable*. A bank administering a collective investment fund described in paragraph (a)(2) of this section that is invested primarily in real estate or other assets that are not readily marketable, may require a prior notice period, not to exceed one year, for withdrawals.

(iv) *Method of distributions*. A bank administering a collective investment fund shall make distributions to accounts withdrawing from the fund in cash, ratably in kind, a combination of cash and ratably in kind, or in any other manner consistent with applicable law in the state in which the bank maintains the fund.

(v) *Segregation of investments*. If an investment is withdrawn in kind from a collective investment fund for the benefit of all participants in the fund at the time of the withdrawal but the investment is not distributed ratably in kind, the bank shall segregate and administer it for the benefit ratably of all participants in the collective investment fund at the time of withdrawal.

(6) *Audits and financial reports*—(i) *Annual audit*. At least once during each 12-month period, a bank administering a collective investment fund shall arrange for an audit of the collective investment fund by auditors responsible only to the board of directors of the bank.⁴

(ii) *Financial report*. At least once during each 12-month period, a bank administering a collective investment

⁴If a fund, the assets of which consist solely of Individual Retirement Accounts, Keogh Accounts, or other employee benefit accounts that are exempt from taxation, is registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*), the fund will not be deemed in violation of this paragraph (b)(6)(i) as a result of its compliance with section 10(c) of the Investment Company Act of 1940 (15 U.S.C. 80a-10(c)), if the bank has access to the audit reports of the fund.

fund shall prepare a financial report of the fund based on the audit required by paragraph (b)(6)(i) of this section. The report must disclose the fund's fees and expenses in a manner consistent with applicable law in the state in which the bank maintains the fund. This report must contain a list of investments in the fund showing the cost and current market value of each investment, and a statement covering the period after the previous report showing the following (organized by type of investment):

- (A) A summary of purchases (with costs);
- (B) A summary of sales (with profit or loss and any other investment changes);
- (C) Income and disbursements; and
- (D) An appropriate notation of any investments in default.

(iii) *Limitation on representations.* A bank may include in the financial report a description of the fund's value on previous dates, as well as its income and disbursements during previous accounting periods. A bank may not publish in the financial report any predictions or representations as to future performance. In addition, with respect to funds described in paragraph (a)(1) of this section, a bank may not publish the performance of individual funds other than those administered by the bank or its affiliates.

(iv) *Availability of the report.* A bank administering a collective investment fund shall provide a copy of the financial report, or shall provide notice that a copy of the report is available upon request without charge, to each person who ordinarily would receive a regular periodic accounting with respect to each participating account. The bank may provide a copy of the financial report to prospective customers. In addition, the bank shall provide a copy of the report upon request to any person for a reasonable charge.

(7) *Advertising restriction.* A bank may not advertise or publicize any fund authorized under paragraph (a)(1) of this section, except in connection with the advertisement of the general fiduciary services of the bank.

(8) *Self-dealing and conflicts of interest.* A national bank administering a collective investment fund must comply

with the following (in addition to §9.12):

(i) *Bank interests.* A bank administering a collective investment fund may not have an interest in that fund other than in its fiduciary capacity. If, because of a creditor relationship or otherwise, the bank acquires an interest in a participating account, the participating account must be withdrawn on the next withdrawal date. However, a bank may invest assets that it holds as fiduciary for its own employees in a collective investment fund.

(ii) *Loans to participating accounts.* A bank administering a collective investment fund may not make any loan on the security of a participant's interest in the fund. An unsecured advance to a fiduciary account participating in the fund until the time of the next valuation date does not constitute the acquisition of an interest in a participating account by the bank.

(iii) *Purchase of defaulted investments.* A bank administering a collective investment fund may purchase for its own account any defaulted investment held by the fund (in lieu of segregating the investment in accordance with paragraph (b)(5)(v) of this section) if, in the judgment of the bank, the cost of segregating the investment is excessive in light of the market value of the investment. If a bank elects to purchase a defaulted investment, it shall do so at the greater of market value or the sum of cost and accrued unpaid interest.

(9) *Management fees.* A bank administering a collective investment fund may charge a reasonable fund management fee only if:

(i) The fee is permitted under applicable law (and complies with fee disclosure requirements, if any) in the state in which the bank maintains the fund; and

(ii) The amount of the fee does not exceed an amount commensurate with the value of legitimate services of tangible benefit to the participating fiduciary accounts that would not have been provided to the accounts were they not invested in the fund.

(10) *Expenses.* A bank administering a collective investment fund may charge reasonable expenses incurred in operating the collective investment fund,

to the extent not prohibited by applicable law in the state in which the bank maintains the fund. However, a bank shall absorb the expenses of establishing or reorganizing a collective investment fund.

(11) *Prohibition against certificates.* A bank administering a collective investment fund may not issue any certificate or other document representing a direct or indirect interest in the fund, except to provide a withdrawing account with an interest in a segregated investment.

(12) *Good faith mistakes.* The OCC will not deem a bank's mistake made in good faith and in the exercise of due care in connection with the administration of a collective investment fund to be a violation of this part if, promptly after the discovery of the mistake, the bank takes whatever action is practicable under the circumstances to remedy the mistake.

(c) *Other collective investments.* In addition to the collective investment funds authorized under paragraph (a) of this section, a national bank may collectively invest assets that it holds as fiduciary, to the extent not prohibited by applicable law, as follows:

(1) *Single loans or obligations.* In the following loans or obligations, if the bank's only interest in the loans or obligations is its capacity as fiduciary:

(i) A single real estate loan, a direct obligation of the United States, or an obligation fully guaranteed by the United States, or a single fixed amount security, obligation, or other property, either real, personal, or mixed, of a single issuer; or

(ii) A variable amount note of a borrower of prime credit, if the bank uses the note solely for investment of funds held in its fiduciary accounts.

(2) *Mini-funds.* In a fund maintained by the bank for the collective investment of cash balances received or held by a bank in its capacity as trustee, executor, administrator, guardian, or custodian under a uniform gifts to minors act, that the bank considers too small to be invested separately to advantage. The total assets in the fund must not exceed \$1,000,000 and the number of participating accounts must not exceed 100.

(3) *Trust funds of corporations and closely-related settlors.* In any investment specifically authorized by the instrument creating the fiduciary account or a court order, in the case of trusts created by a corporation, including its affiliates and subsidiaries, or by several individual settlors who are closely related.

(4) *Other authorized funds.* In any collective investment authorized by applicable law, such as investments pursuant to a state pre-need funeral statute.

(5) *Special exemption funds.* In any other manner described by the bank in a written plan approved by the OCC.⁵ In order to obtain a special exemption, a bank shall submit to the OCC a written plan that sets forth:

(i) The reason that the proposed fund requires a special exemption;

(ii) The provisions of the proposed fund that are inconsistent with paragraphs (a) and (b) of this section;

(iii) The provisions of paragraph (b) of this section for which the bank seeks an exemption; and

(iv) The manner in which the proposed fund addresses the rights and interests of participating accounts.

[61 FR 68554, Dec. 30, 1996, as amended at 68 FR 70131, Dec. 17, 2003; 77 FR 61237, Oct. 9, 2012]

§ 9.20 Transfer agents.

(a)(1) *Registration.* An application for registration under Section 17A(c) of the Securities Exchange Act of 1934 of a transfer agent for which the OCC is the appropriate regulatory agency, as defined in section 3(a)(34)(B) of the Securities Exchange Act of 1934, shall be filed with the OCC on FFIEC Form TA-1, in accordance with the instructions contained therein. Registration shall become effective 30 days after the date an application on Form TA-1 is filed unless the OCC accelerates, denies, or postpones such registration in accordance with section 17A(c) of the Securities Exchange Act of 1934.

⁵ Any institution that must comply with this section in order to receive favorable tax treatment under 26 U.S.C. 584 (namely, any corporate fiduciary) may seek OCC approval of special exemption funds in accordance with this paragraph (c)(5).

§ 9.100

(2) *Amendments to registration.* Within 60 days following the date on which any information reported on Form TA-1 becomes inaccurate, misleading, or incomplete, the registrant shall file an amendment on FFIEC Form TA-1 correcting the inaccurate, misleading, or incomplete information. The filing of an amendment to an application for registration as a transfer agent under this section, which registration has not become effective, shall postpone the effective date of the registration for 30 days following the date on which the amendment is filed unless the OCC accelerates, denies, or postpones the registration in accordance with Section 17A(c) of the Securities Exchange Act of 1934.

(3) *Withdrawal from registration.* Any registered national bank transfer agent that ceases to engage in activities that require registration under Section 17A(c) of the Securities Exchange Act of 1934 may file a written notice of withdrawal from registration with the OCC. Deregistration shall be effective 60 days after filing.

(4) *Reports.* Every registration or amendment filed under this section shall constitute a report or application within the meaning of Sections 17, 17A(c), and 32(a) of the Securities Exchange Act of 1934.

(b) *Operational and reporting requirements.* The rules adopted by the Securities and Exchange Commission pursuant to Section 17A of the Securities Exchange Act of 1934 prescribing operational and reporting requirements for transfer agents apply to the domestic activities of registered national bank transfer agents.

[73 FR 22242, Apr. 24, 2008]

INTERPRETATIONS

§ 9.100 Acting as indenture trustee and creditor.

With respect to a debt securities issuance, a national bank may act both as indenture trustee and as creditor until 90 days after default, if the bank maintains adequate controls to manage the potential conflicts of interest.

12 CFR Ch. I (1-1-14 Edition)

§ 9.101 Providing investment advice for a fee.

(a) *In general.* The term “fiduciary capacity” at § 9.2(e) is defined to include “investment adviser, if the bank receives a fee for its investment advice.” In other words, if a bank is providing investment advice for a fee, then it is acting in a fiduciary capacity. For purposes of that definition, “investment adviser” generally means a national bank that provides advice or recommendations concerning the purchase or sale of specific securities, such as a national bank engaged in portfolio advisory and management activities (including acting as investment adviser to a mutual fund). Additionally, the qualifying phrase “if the bank receives a fee for its investment advice” excludes those activities in which the investment advice is merely incidental to other services.

(b) *Specific activities—(1) Full-service brokerage.* Engaging in full-service brokerage may entail providing investment advice for a fee, depending upon the commission structure and specific facts. Full-service brokerage involves investment advice for a fee if a non-bank broker engaged in that activity is considered an investment adviser under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 *et seq.*).

(2) *Activities not involving investment advice for a fee.* The following activities generally do not entail providing investment advice for a fee:

(i) Financial advisory and counseling activities, including strategic planning of a financial nature, merger and acquisition advisory services, advisory and structuring services related to project finance transactions, and providing market economic information to customers in general;

(ii) Client-directed investment activities (*i.e.*, the bank has no investment discretion) where investment advice and research may be made available to the client, but the fee does not depend on the provision of investment advice;

(iii) Investment advisory activities incidental to acting as a municipal securities dealer;

(iv) Real estate management services provided to other financial institutions;

Comptroller of the Currency, Treasury

§ 11.1

(v) Real estate consulting services, including acting as a finder in locating, analyzing, and making recommendations regarding the purchase of property, and making recommendations concerning the sale of property;

(vi) Advisory activities concerning bridge loans;

(vii) Advisory activities for homeowners' associations;

(viii) Advisory activities concerning tax planning and structuring; and

(ix) Investment advisory activities authorized by the OCC under 12 U.S.C. 24(Seventh) as incidental to the business of banking.

[63 FR 6473, Feb. 9, 1998]

PART 10—MUNICIPAL SECURITIES DEALERS

Sec.

10.1 Scope.

10.2 Filing requirements.

AUTHORITY: 12 U.S.C. 93a, 481, and 1818; 15 U.S.C. 78o-4(c)(5) and 78q-78w.

SOURCE: 63 FR 29094, May 28, 1998, unless otherwise noted.

§ 10.1 Scope.

This part applies to:

(a) Any national bank and separately identifiable department or division of a national bank (collectively, a national bank) that acts as a municipal securities dealer, as that term is defined in section 3(a)(30) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(30)); and

(b) Any person who is associated or to be associated with a national bank in the capacity of a municipal securities principal or a municipal securities representative, as those terms are defined in Rule G-3 of the Municipal Securities Rulemaking Board (MSRB).¹

[63 FR 29094, May 28, 1998, as amended at 73 FR 22242, Apr. 24, 2008]

§ 10.2 Filing requirements.

(a) A national bank shall use Form MSD-4 (Uniform Application for Municipal Securities Principal or Munic-

¹The MSRB rules may be obtained by contacting the Municipal Securities Rulemaking Board at 1150 18th Street, NW., Suite 400, Washington, DC 20036-3816.

ipal Securities Representative Associated with a Bank Municipal Securities Dealer) for obtaining the information required by MSRB Rule G-7(b)(i)-(x) from a person identified in § 10.1(b). A national bank receiving a completed MSD-4 form from a person identified in § 10.1(b) must submit this form to the OCC before permitting the person to be associated with it as a municipal securities principal or a municipal securities representative.

(b) A national bank must submit Form MSD-5 (Uniform Termination Notice for Municipal Securities Principal or Municipal Securities Representative Associated with a Bank Municipal Securities Dealer) to the OCC within 30 days of terminating a person's association with the bank as a municipal securities principal or municipal securities representative.

(c) Forms MSD-4 and MSD-5, with instructions, may be obtained by contacting the OCC at 250 E Street, SW., Washington, DC 20219, Attention: Bank Dealer Activities.

PART 11—SECURITIES EXCHANGE ACT DISCLOSURE RULES

Sec.

11.1 Authority and OMB control number.

11.2 Reporting requirements for registered national banks.

11.3 Filing requirements and inspection of documents.

11.4 Filing fees.

AUTHORITY: 12 U.S.C. 93a; 15 U.S.C. 78l, 78m, 78n, 78p, 78w, 7241, 7242, 7243, 7244, 7261, 7262, 7264, and 7265.

SOURCE: 57 FR 46084, Oct. 7, 1992; 57 FR 54499, Nov. 19, 1992.

§ 11.1 Authority and OMB control number.

(a) *Authority.* The Office of the Comptroller of the Currency (OCC) is vested with the powers, functions, and duties otherwise vested in the Securities and Exchange Commission (Commission) to administer and enforce the provisions of sections 12, 13, 14(a), 14(c), 14(d), 14(f), and 16 of the Securities Exchange Act of 1934, as amended (1934 Act) (15 U.S.C. 78l, 78m, 78n(a), 78n(c), 78n(d), 78n(f), and 78p), regarding national banks with

§ 11.2

12 CFR Ch. I (1–1–14 Edition)

one or more classes of securities subject to the registration provisions of sections 12(b) and (g) of the 1934 Act (registered national banks). Further, the OCC has general rulemaking authority under 12 U.S.C. 93a, to promulgate rules and regulations concerning the activities of national banks.

(b) *OMB control number.* The collection of information contained in this part was approved by the Office of Management and Budget under OMB control number 1557–0106.

[57 FR 46084, Oct. 7, 1992; 57 FR 54499, Nov. 19, 1992, as amended at 60 FR 57332, Nov. 15, 1995; 73 FR 22242, Apr. 24, 2008]

§ 11.2 Reporting requirements for registered national banks.

(a) *Filing, disclosure and other requirements*—(1) *General.* Except as otherwise provided in this section, a national bank whose securities are subject to registration pursuant to section 12(b) or section 12(g) of the 1934 Act (15 U.S.C. 781(b) and (g)) shall comply with the rules, regulations, and forms adopted by the Securities and Exchange Commission (Commission) pursuant to:

(i) Sections 10A(m), 12, 13, 14(a), 14(c), 14(d), 14(f), and 16 of the 1934 Act (15 U.S.C. 78f(m), 781, 78m, 78n(a), (c), (d) and (f), and 78p); and

(ii) Sections 302, 303, 304, 306, 401(b), 404, 406, and 407 of the Sarbanes-Oxley Act of 2002 (codified at 15 U.S.C. 7241, 7242, 7243, 7244, 7261, 7262, 7264, and 7265).

(2) [Reserved]

(b) *References to the Commission.* Any references to the “Securities and Exchange Commission” or the “Commission” in the rules, regulations and forms described in paragraph (a)(1) of this section shall with respect to securities issued by registered national banks be deemed to refer to the OCC unless the context otherwise requires.

[68 FR 68492, Dec. 9, 2003]

§ 11.3 Filing requirements and inspection of documents.

(a) *Filing requirements*—(1) *General.* Except as otherwise provided in this section, all papers required to be filed with the OCC pursuant to the 1934 Act or regulations thereunder shall be submitted in quadruplicate to the Securities and Corporate Practices Division, Office of the Comptroller of the Cur-

rency, 250 E Street, SW., Washington, DC 20219. Material may be filed by delivery to the OCC through the mail, by fax (202–874–5279), or otherwise.

(2) *Statements filed pursuant to section 16(a) of the 1934 Act.* Statements required under section 16(a) of the 1934 Act shall be filed electronically, as directed by the OCC.

(3) *Date of filing.* (i) *General.* The date on which papers are actually received by the OCC shall be the date of filing, if the person or bank filing the papers has complied with all applicable requirements.

(ii) *Electronic filings.* An electronic filing of a statement required under section 16(a) of the 1934 Act that is submitted by direct transmission on or before 10 p.m. Eastern Standard Time or Eastern Daylight Savings Time, whichever is currently in effect, shall be deemed filed on the same business day.

(4) *Mandatory compliance date.* Compliance with paragraph (a)(2) of this section and any applicable requirements that such statements must be posted on a registered national bank’s Web site are mandatory for statements required to be filed on or after January 1, 2004.

(b) Copies of registration statements, definitive proxy solicitation materials, reports, and annual reports to shareholders required by this part (exclusive of exhibits) are available from the Disclosure Officer, Communications Division, Office of the Comptroller of the Currency, at the address listed in paragraph (a) of this section.

[60 FR 57332, Nov. 15, 1995, as amended at 68 FR 54984, Sept. 22, 2003; 70 FR 46404, Aug. 10, 2005]

§ 11.4 Filing fees.

(a) The OCC may require filing fees to accompany certain filings made under this part before it will accept the filing. The OCC provides an applicable fee schedule for such filings in the “Notice of Comptroller of the Currency Fees” described in 12 CFR 8.8.

(b) Fees must be paid by check payable to the Comptroller of the Currency.

[57 FR 46084, Oct. 7, 1992; 57 FR 54499, Nov. 19, 1992, as amended at 60 FR 57332, Nov. 15, 1995]

**PART 12—RECORDKEEPING AND
CONFIRMATION REQUIREMENTS
FOR SECURITIES TRANSACTIONS**

Sec.

- 12.1 Authority, purpose, and scope.
- 12.2 Definitions.
- 12.3 Recordkeeping.
- 12.4 Content and time of notification.
- 12.5 Notification by agreement; alternative forms and times of notification.
- 12.6 Fees.
- 12.7 Securities trading policies and procedures.
- 12.8 Waivers.
- 12.9 Settlement of securities transactions.

INTERPRETATIONS

- 12.101 National bank disclosure of remuneration for mutual fund transactions.
- 12.102 National bank use of electronic communications as customer notifications.

AUTHORITY: 12 U.S.C. 24, 92a, and 93a.

SOURCE: 61 FR 63965, Dec. 2, 1996, unless otherwise noted.

§ 12.1 Authority, purpose, and scope.

(a) *Authority.* This part is issued pursuant to 12 U.S.C. 24, 92a, and 93a.

(b) *Purpose.* This part establishes rules, policies, and procedures applicable to recordkeeping and confirmation requirements for certain securities transactions effected by national banks for customers.

(c) *Scope*—(1) *General.* Any security transaction effected for a customer by a national bank is subject to this part, except as provided by paragraph (c)(2) of this section. This part applies to a national bank effecting transactions in government securities. This part also applies to municipal securities transactions by a national bank that is not registered as a “municipal securities dealer” with the Securities and Exchange Commission. See 15 U.S.C. 78c(a)(30) and 78o-4. This part, as well as 12 CFR part 9, applies to securities transactions effected by a national bank as fiduciary.

(2) *Exceptions*—(i) *Small number of transactions.* The requirements of §§ 12.3(a)(2) through (4) and 12.7(a)(1) through (3) do not apply to a national bank having an average of fewer than 200 securities transactions per year for customers over the prior three calendar year period. The calculation of

this average does not include transactions in government securities.

(ii) *Government securities.* The recordkeeping requirements of § 12.3 do not apply to national banks effecting fewer than 500 government securities brokerage transactions per year. This exception does not apply to government securities dealer transactions by national banks. See 17 CFR 404.4(a).

(iii) *Municipal securities.* This part does not apply to transactions in municipal securities conducted by a national bank registered with the Securities and Exchange Commission as a “municipal securities dealer” as defined in title 15 U.S.C. 78c(a)(30). See 15 U.S.C. 78o-4.

(iv) *Foreign branches.* This part does not apply to securities transactions conducted by a foreign branch of a national bank.

(v) *Transactions effected by registered broker/dealers.* This part does not apply to securities transactions effected by a broker or dealer registered with the Securities and Exchange Commission (SEC) where the SEC-registered broker or dealer directly provides the customer a confirmation; including, transactions effected by a national bank employee when acting as an employee of an SEC-registered broker/dealer.

(3) *Safe and sound operations.* Notwithstanding paragraph (c)(2) of this section, every national bank conducting securities transactions for customers shall maintain effective systems of records and controls regarding their customer securities transactions to ensure safe and sound operations. The systems maintained must clearly and accurately reflect appropriate information and provide an adequate basis for an audit.

§ 12.2 Definitions.

(a) *Asset-backed security* means a security that is primarily serviced by the cashflows of a discrete pool of receivables or other financial assets, either fixed or revolving, that by their terms convert into cash within a finite time period plus any rights or other assets designed to assure the servicing or timely distribution of proceeds to the security holders.

§ 12.2

12 CFR Ch. I (1-1-14 Edition)

(b) *Collective investment fund* means any fund established pursuant to 12 CFR 9.18.

(c) *Completion of the transaction* means:

(1) In the case of a customer who purchases a security through or from a national bank, except as provided in paragraph (c)(2) of this section, the time when the customer pays the bank any part of the purchase price, or, if payment is made by a bookkeeping entry, the time when the bank makes the bookkeeping entry for any part of the purchase price;

(2) In the case of a customer who purchases a security through or from a national bank and who makes payment for the security prior to the time when payment is requested or notification is given that payment is due, the time when the bank delivers the security to or into the account of the customer;

(3) In the case of a customer who sells a security through or to a national bank, except as provided in paragraph (c)(4) of this section, if the security is not in the custody of the bank at the time of sale, the time when the security is delivered to the bank, and if the security is in the custody of the bank at the time of sale, the time when the bank transfers the security from the account of the customer;

(4) In the case of a customer who sells a security through or to a national bank and who delivers the security to the bank prior to the time when delivery is requested or notification is given that delivery is due, the time when the bank makes payment to or into the account of the customer.

(d) *Crossing of buy and sell orders* means a security transaction in which the same bank acts as agent for both the buyer and the seller.

(e) *Customer* means any person or account, including any agency, trust, estate, guardianship, or other fiduciary account for which a national bank makes or participates in making the purchase or sale of securities, but does not include a broker, dealer, bank acting as a broker or dealer, bank acting as the fiduciary of an account, bank as trustee acting as shareholder of record for the purchase or sale of securities, or issuer of securities that are the subject of the transaction.

(f) *Debt security* means any security, such as a bond, debenture, note, or any other similar instrument that evidences a liability of the issuer (including any security of this type that is convertible into stock or a similar security) and fractional or participation interests in one or more of any of the foregoing. This definition does not include securities issued by an investment company registered under the Investment Company Act of 1940, 15 U.S.C. 80a-1 *et seq.*

(g) *Government security* means:

(1) A security that is a direct obligation of, or obligation guaranteed as to principal and interest by, the United States;

(2) A security that is issued or guaranteed by a corporation in which the United States has a direct or indirect interest and which is designated by the Secretary of the Treasury for exemption as necessary or appropriate in the public interest or for the protection of investors;

(3) A security issued or guaranteed as to principal and interest by any corporation whose securities are designated, by statute specifically naming the corporation, to constitute exempt securities within the meaning of the laws administered by the Securities and Exchange Commission; or

(4) Any put, call, straddle, option, or privilege on a security described in paragraph (g)(1), (2), or (3) of this section, other than a put, call, straddle, option, or privilege:

(i) That is traded on one or more national securities exchanges; or

(ii) For which quotations are disseminated through an automated quotation system operated by a registered securities association.

(h) *Investment discretion* means that, with respect to an account, a bank directly or indirectly:

(1) Is authorized to determine what securities or other property shall be purchased or sold by or for the account; or

(2) Makes decisions as to what securities or other property shall be purchased or sold by or for the account even though some other person may have responsibility for these investment decisions.

(i) *Municipal security* means:

(1) A security that is a direct obligation of, or an obligation guaranteed as to principal or interest by, a State or any political subdivision, or any agency or instrumentality of a State or any political subdivision;

(2) A security that is a direct obligation of, or an obligation guaranteed as to principal or interest by, any municipal corporate instrumentality of one or more States; or

(3) A security that is an industrial development bond (as defined in section 103(c)(2) of the Internal Revenue Code of 1954 (26 U.S.C. 103(c)(2) (1970)) (Code)) the interest on which is excludable from gross income under section 103(a)(1) of the Code (26 U.S.C. 103(a)(1)) if, by reason of the application of paragraph (4) or (6) of section 103(c) of the Code (26 U.S.C. 103(c)) (determined as if paragraphs (4)(A), (5), and (7) were not included in section 103(c) (26 U.S.C. 103(c)), paragraph (1) of section 103(c) (26 U.S.C. 103(c)) does not apply to the security.

(j) *Periodic plan* means:

(1) A written authorization for a national bank to act as agent to purchase or sell for a customer a specific security or securities, in a specific amount (calculated in security units or dollars) or to the extent of dividends and funds available, at specific time intervals, and setting forth the commission or charges to be paid by the customer or the manner of calculating them. These plans include dividend reinvestment plans, automatic investment plans, and employee stock purchase plans.

(2) Any prearranged, automatic transfer or "sweep" of funds from a deposit account to purchase a security, or any prearranged, automatic redemption or sale of a security with the funds being transferred into a deposit account (including cash management sweep services).

(k) *Security*: (1) Means any note, stock, treasury stock, bond, debenture, certificate of interest or participation in any profit-sharing agreement or in any oil, gas, or other mineral royalty or lease, any collateral-trust certificate, preorganization certificate or subscription, transferable share, investment contract, voting-trust certificate, and any put, call, straddle, option, or privilege on any security or

group or index of securities (including any interest therein or based on the value thereof), or, in general, any instrument commonly known as a "security"; or any certificate of interest or participation in, temporary or interim certificate for, receipt for, or warrant or right to subscribe to or purchase, any of the foregoing;

(2) Does not mean currency; any note, draft, bill of exchange, or banker's acceptance which has a maturity at the time of issuance not exceeding nine months, exclusive of days of grace, or any renewal thereof, the maturity of which is likewise limited; a deposit or share account in a Federal or State chartered depository institution; a loan participation; a letter of credit or other form of bank indebtedness incurred in the ordinary course of business; units of a collective investment fund; interests in a variable amount note in accordance with 12 CFR 9.18; U.S. Savings Bonds; or any other instrument the OCC determines does not constitute a security for purposes of this part.

§ 12.3 Recordkeeping.

(a) *General rule*. A national bank effecting securities transactions for customers shall maintain the following records for at least three years:

(1) *Chronological records*. An itemized daily record of each purchase and sale of securities maintained in chronological order, and including:

- (i) Account or customer name for which each transaction was effected;
- (ii) Description of the securities;
- (iii) Unit and aggregate purchase or sale price;
- (iv) Trade date; and
- (v) Name or other designation of the broker/dealer or other person from whom the securities were purchased or to whom the securities were sold;

(2) *Account records*. Account records for each customer, reflecting:

- (i) Purchases and sales of securities;
- (ii) Receipts and deliveries of securities;
- (iii) Receipts and disbursements of cash; and
- (iv) Other debits and credits pertaining to transactions in securities;

(3) *Memorandum order*. A separate memorandum (order ticket) of each

§ 12.4

12 CFR Ch. I (1–14 Edition)

order to purchase or sell securities (whether executed or canceled), including:

- (i) Account or customer name for which the transaction was effected;
- (ii) Type of order (market order, limit order, or subject to special instructions);
- (iii) Time the trader or other bank employee responsible for effecting the transaction received the order;
- (iv) Time the trader placed the order with the broker/dealer, or if there was no broker/dealer, time the order was executed or canceled;
- (v) Price at which the order was executed; and
- (vi) Name of the broker/dealer utilized;

(4) *Record of broker/dealers.* A record of all broker/dealers selected by the bank to effect securities transactions and the amount of commissions paid or allocated to each broker during the calendar year; and

(5) *Notifications.* A copy of the written notification required by §§ 12.4 and 12.5.

(b) *Manner of maintenance.* The records required by this section must clearly and accurately reflect the information required and provide an adequate basis for the audit of the information. Record maintenance may include the use of automated or electronic records provided the records are easily retrievable, readily available for inspection, and capable of being reproduced in a hard copy.

§ 12.4 Content and time of notification.

Unless a national bank elects to provide notification by one of the means specified in § 12.5, a national bank effecting a securities transaction for a customer shall give or send to the customer either of the following types of notifications at or before completion of the transaction or, if the bank uses a registered broker/dealer's confirmation, within one business day from the bank's receipt of the registered broker/dealer's confirmation:

(a) *Written notification.* A written notification disclosing:

- (1) Name of the bank;
- (2) Name of the customer;
- (3) Capacity in which the bank acts (i.e., as agent for the customer, as agent for both the customer and some

other person, as principal for its own account, or in any other capacity);

(4) Date and time of execution, or a statement that the bank will furnish the time of execution within a reasonable time upon written request of the customer, and the identity, price, and number of shares or units (or principal amount in the case of debt securities) of the security purchased or sold by the customer;

(5) Amount of any remuneration that the customer has provided or is to provide any broker/dealer, directly or indirectly, in connection with the transaction;

(6) (i) Amount of any remuneration that the bank has received or will receive from the customer, and the source and amount of any other remuneration that the bank has received or will receive in connection with the transaction; unless:

(A) The bank and its customer have determined remuneration pursuant to a written agreement; or

(B) In the case of government securities and municipal securities, the bank received the remuneration in other than an agency transaction.

(ii) If the bank elects not to disclose the source and amount of remuneration it has or will receive from a party other than the customer pursuant to paragraph (a)(6)(i) of this section, the written notification must disclose whether the bank has received or will receive remuneration from a party other than the customer, and that the bank will furnish within a reasonable time the source and amount of this remuneration upon written request of the customer. This election is not available, however, if, with respect to a purchase, the bank was participating in a distribution of that security; or, with respect to a sale, the bank was participating in a tender offer for that security;

(7) Name of the registered broker/dealer utilized; or where there is no registered broker/dealer, the name of the person from whom the security was purchased or to whom the security was sold, or a statement that the bank will furnish this information within a reasonable time upon written request from the customer;

(8) In the case of any transaction in a debt security subject to redemption before maturity, a statement to the effect that the debt security may be redeemed in whole or in part before maturity, that the redemption could affect the yield represented and that additional information is available upon request;

(9) In the case of a transaction in a debt security effected exclusively on the basis of a dollar price:

(i) The dollar price at which the transaction was effected; and

(ii) The yield to maturity calculated from the dollar price, unless the transaction is for a debt security that either:

(A) Has a maturity date that may be extended by the issuer thereof, with a variable interest payable thereon; or

(B) Is an asset-backed security that represents an interest in or is secured by a pool of receivables or other financial assets that continuously are subject to prepayment;

(10) In the case of a transaction in a debt security effected on the basis of yield:

(i) The yield at which the transaction was effected, including the percentage amount and its characterization (e.g., current yield, yield to maturity, or yield to call) and if effected at yield to call, the type of call, the call date, and call price;

(ii) The dollar price calculated from the yield at which the transaction was effected; and

(iii) If effected on a basis other than yield to maturity and the yield to maturity is lower than the represented yield, the yield to maturity as well as the represented yield, unless the transaction is for a debt security that either:

(A) Has a maturity date that may be extended by the issuer thereof, with a variable interest rate payable thereon; or

(B) Is an asset-backed security that represents an interest in or is secured by a pool of receivables or other financial assets that continuously are subject to prepayment;

(11) In the case of a transaction in a debt security that is an asset-backed security, which represents an interest in or is secured by a pool of receivables

or other financial assets that continuously are subject to prepayment, a statement indicating that the actual yield of the asset-backed security may vary according to the rate at which the underlying receivables or other financial assets are prepaid and a statement that information concerning the factors that affect yield (including at a minimum estimated yield, weighted average life, and the prepayment assumptions underlying yield) will be furnished upon written request of the customer; and

(12) In the case of a transaction in a debt security, other than a government security, that the security is unrated by a nationally recognized statistical rating organization, if that is the case; or

(b) *Copy of the registered broker/dealer's confirmation.* A copy of the confirmation of a registered broker/dealer relating to the securities transaction and, if the customer or any other source will provide remuneration to the bank in connection with the transaction and a written agreement between the bank and the customer does not determine the remuneration, a statement of the source and amount of any remuneration that the customer or any other source is to provide the bank.

§ 12.5 Notification by agreement; alternative forms and times of notification.

A national bank may elect to use the following notification procedures as an alternative to complying with § 12.4:

(a) *Notification by agreement.* A national bank effecting a securities transaction for an account in which the bank does not exercise investment discretion shall give or send written notification at the time and in the form agreed to in writing by the bank and customer, provided that the agreement makes clear the customer's right to receive the written notification pursuant to § 12.4 (a) or (b) at no additional cost to the customer.

(b) *Trust transactions.* A national bank effecting a securities transaction for an account in which the bank exercises investment discretion other than in an agency capacity shall give or

§ 12.6

send written notification within a reasonable time if a person having the power to terminate the account, or, if there is no such person, any person holding a vested beneficial interest in the account, requests written notification pursuant to §12.4 (a) or (b). Otherwise, notification is not required.

(c) *Agency transactions.* (1) A national bank effecting a securities transaction for an account in which the bank exercises investment discretion in an agency capacity shall give or send, not less than once every three months, an itemized statement to each customer that specifies the funds and securities in the custody or possession of the bank at the end of the period and all debits, credits and transactions in the customer's account during the period.

(2) If requested by the customer, the bank shall give or send written notification to the customer pursuant to §12.4 (a) or (b) within a reasonable time.

(d) *Collective investment fund transactions.* A national bank effecting a securities transaction for a collective investment fund shall follow 12 CFR 9.18.

(e) *Periodic plan transactions.* (1) A national bank effecting a securities transaction for a periodic plan (except for a cash management sweep service) shall give or send to its customer not less than once every three months, a written statement showing:

(i) The customer's funds and securities in the custody or possession of the bank;

(ii) All service charges and commissions paid by the customer in connection with the transaction; and

(iii) All other debits and credits of the customer's account involved in the transaction.

(2) A national bank effecting a securities transaction for a cash management sweep service or other periodic plan as defined in §12.2(j)(2) shall give or send its customer a written statement, in the same form as under paragraph (e)(1) of this section, for each month in which a purchase or sale of a security takes place in a deposit account and not less than once every three months if there are no securities transactions in the account, subject to any other applicable laws and regulations.

12 CFR Ch. I (1–1–14 Edition)

(3) Upon written request of the customer, the bank shall give or send the information described in §12.4 (a) or (b), except that the bank need not provide to the customer any information relating to remuneration paid in connection with the transaction when the remuneration is paid by a source other than the customer.

§ 12.6 Fees.

A national bank may charge a reasonable fee for providing notification pursuant to §12.5(b), (c), and (e). A national bank may not charge a fee for providing notification pursuant to §12.4 or §12.5 (a) and (d).

§ 12.7 Securities trading policies and procedures.

(a) *Policies and procedures; reports of securities trading.* A national bank effecting securities transactions for customers shall maintain and adhere to policies and procedures that:

(1) Assign responsibility for supervision of all officers or employees who:

(i) Transmit orders to or place orders with registered broker/dealers;

(ii) Execute transactions in securities for customers; or

(iii) Process orders for notification or settlement purposes, or perform other back office functions with respect to securities transactions effected for customers. Policies and procedures for personnel described in this paragraph (a)(1)(iii) must provide for supervision and reporting lines that are separate from supervision and reporting lines for personnel described in paragraphs (a)(1) (i) and (ii) of this section;

(2) Provide for the fair and equitable allocation of securities and prices to accounts when the bank receives orders for the same security at approximately the same time and places the orders for execution either individually or in combination;

(3) Provide for the crossing of buy and sell orders on a fair and equitable basis to the parties to the transaction, where permissible under applicable law; and

(4) Require bank officers and employees to report to the bank, within the deadline specified in SEC rule 17j-1 (17 CFR 270.17j-1) for quarterly transaction

Comptroller of the Currency, Treasury

§ 12.9

reports, all personal transactions in securities made by them or on their behalf in which they have a beneficial interest, if the officers and employees:

(i) Make investment recommendations or decisions for the accounts of customers;

(ii) Participate in the determination of the recommendations or decisions; or

(iii) In connection with their duties, obtain information concerning which securities are purchased, sold, or recommended for purchase or sale by the bank.

(b) *Required information.* The report required under paragraph (a)(4) of this section must contain the following information:

(1) The date of the transaction, the title and number of shares, and the principal amount of each security involved;

(2) The nature of the transaction (i.e. purchase, sale, or other type of acquisition or disposition);

(3) The price at which the transaction was effected; and

(4) The name of the registered broker, registered dealer, or bank with or through whom the transaction was effected.

(c) *Report not required.* This section does not require a bank officer or employee to report transactions if:

(1) The officer or employee has no direct or indirect influence or control over the transaction;

(2) The transaction is in mutual fund shares;

(3) The transaction is in government securities; or

(4) The transactions involve an aggregate amount of purchases and sales per officer or employee of \$10,000 or less during the calendar quarter.

(d) *Additional reporting requirement.* A national bank that acts as an investment adviser to an investment company is subject to the requirements of Securities and Exchange Commission (SEC) Rule 17j-1 (17 CFR 270.17j-1) issued under the Investment Company Act of 1940. SEC Rule 17j-1 requires an "access person" of the investment adviser to report certain personal securities transactions to the investment adviser for review by the Securities and Exchange Commission. "Access per-

son" includes directors, officers, and certain employees of the investment adviser. The reporting requirement under paragraph (a)(4) of this section is a separate requirement from any applicable requirements under SEC Rule 17j-1. However, an "access person" required to file a report with a national bank pursuant to SEC Rule 17j-1 need not file a separate report under paragraph (a)(4) of this section if the required information is the same.

[61 FR 63965, Dec. 2, 1996, as amended at 73 FR 22243, Apr. 24, 2008]

§ 12.8 Waivers.

A national bank may file a written request with the OCC for waiver of one or more of the requirements set forth in §§12.2 through 12.7, either in whole or in part. The OCC may grant a waiver from the requirements of this part to any national bank, or any class of national banks, with regard to a specific transaction or a specific class of transactions.

§ 12.9 Settlement of securities transactions.

(a) A national bank shall not effect or enter into a contract for the purchase or sale of a security (other than an exempted security as defined in 15 U.S.C. 78c(a)(12), government security, municipal security, commercial paper, bankers' acceptances, or commercial bills) that provides for payment of funds and delivery of securities later than the third business day after the date of the contract, unless otherwise expressly agreed to by the parties at the time of the transaction.

(b) Paragraphs (a) and (c) of this section do not apply to contracts:

(1) For the purchase or sale of limited partnership interests that are not listed on an exchange or for which quotations are not disseminated through an automated quotation system of a registered securities association;

(2) For the purchase or sale of securities that the Securities and Exchange Commission (SEC) may from time to time, taking into account then existing market practices, exempt by order from the requirements of paragraph (a) of SEC Rule 15c6-1, 17 CFR 240.15c6-

§ 12.101

1(a), either unconditionally or on specified terms and conditions, if the SEC determines that an exemption is consistent with the public interest and the protection of investors.

(c) Paragraph (a) of this section does not apply to contracts for the sale for cash of securities that are priced after 4:30 p.m. Eastern time on the date the securities are priced and that are sold by an issuer to an underwriter pursuant to a firm commitment underwritten offering registered under the Securities Act of 1933, 15 U.S.C. 77a *et seq.*, or sold to an initial purchaser by a national bank participating in the offering. A national bank shall not effect or enter into a contract for the purchase or sale of the securities that provides for payment of funds and delivery of securities later than the fourth business day after the date of the contract unless otherwise expressly agreed to by the parties at the time of the transaction.

(d) For purposes of paragraphs (a) and (c) of this section, the parties to a contract are deemed to have expressly agreed to an alternate date for payment of funds and delivery of securities at the time of the transaction for a contract for the sale for cash of securities pursuant to a firm commitment offering if the managing underwriter and the issuer have agreed to the date for all securities sold pursuant to the offering and the parties to the contract have not expressly agreed to another date for payment of funds and delivery of securities at the time of the transaction.

INTERPRETATIONS

§ 12.101 National bank disclosure of remuneration for mutual fund transactions.

A national bank may fulfill its obligation to disclose information on the source and amount of remuneration, required by §12.4, for mutual fund transactions by providing this information to the customer in a current prospectus, at or before completion of the securities transaction. The OCC's view is consistent with the position of the Securities and Exchange Commission (SEC) as provided in a no-action letter dated March 19, 1979, which permits confirmations for mutual funds to refer

12 CFR Ch. I (1-1-14 Edition)

to the sales load disclosed in the prospectus. *See* Letter to the Investment Company Institute, *reprinted in* [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) 82041 (Mar. 19, 1979). The OCC would reconsider its position upon any change in the SEC's practice.

§ 12.102 National bank use of electronic communications as customer notifications.

(a) In appropriate situations, a national bank may satisfy the "written" notification requirement under §§12.4 and 12.5 through electronic communications. Where a customer has a facsimile machine, a national bank may fulfill its notification delivery requirement by sending the notification by facsimile transmission. Similarly, a bank may satisfy the notification delivery requirement by other electronic communications when:

- (1) The parties agree to use electronic instead of hard-copy notifications;
 - (2) The parties have the ability to print or download the notification;
 - (3) The recipient affirms or rejects the trade through electronic notification;
 - (4) The system cannot automatically delete the electronic notification; and
 - (5) Both parties have the capacity to receive electronic messages.
- (b) The OCC would consider the permissibility of other situations using electronic notifications on a case-by-case basis.

PART 13—GOVERNMENT SECURITIES SALES PRACTICES

Sec.

- 13.1 Scope.
- 13.2 Definitions.
- 13.3 Business conduct.
- 13.4 Recommendations to customers.
- 13.5 Customer information.

INTERPRETATIONS

13.100 Obligations concerning institutional customers.

AUTHORITY: 12 U.S.C. 1 *et seq.*, and 93a; 15 U.S.C. 78o-5.

SOURCE: 62 FR 13283, Mar. 19, 1997, unless otherwise noted.

Comptroller of the Currency, Treasury

§ 13.100

§ 13.1 Scope.

This part applies to national banks that have filed notice as, or are required to file notice as, government securities brokers or dealers pursuant to section 15C of the Securities Exchange Act (15 U.S.C. 78o-5) and Department of the Treasury rules under section 15C (17 CFR 400.1(d) and part 401).

§ 13.2 Definitions.

(a) *Bank that is a government securities broker or dealer* means a national bank that has filed notice, or is required to file notice, as a government securities broker or dealer pursuant to section 15C of the Securities Exchange Act (15 U.S.C. 78o-5) and Department of the Treasury rules under section 15C (17 CFR 400.1(d) and part 401).

(b) *Customer* does not include a broker or dealer or a government securities broker or dealer.

(c) *Government security* has the same meaning as this term has in section 3(a)(42) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(42)).

(d) *Non-institutional customer* means any customer other than:

(1) A bank, savings association, insurance company, or registered investment company;

(2) An investment adviser registered under section 203 of the Investment Advisers Act of 1940 (15 U.S.C. 80b-3); or

(3) Any entity (whether a natural person, corporation, partnership, trust, or otherwise) with total assets of at least \$50 million.

§ 13.3 Business conduct.

A bank that is a government securities broker or dealer shall observe high standards of commercial honor and just and equitable principles of trade in the conduct of its business as a government securities broker or dealer.

§ 13.4 Recommendations to customers.

In recommending to a customer the purchase, sale or exchange of a government security, a bank that is a government securities broker or dealer shall have reasonable grounds for believing that the recommendation is suitable for the customer upon the basis of the facts, if any, disclosed by the customer as to the customer's other security

holdings and as to the customer's financial situation and needs.

§ 13.5 Customer information.

Prior to the execution of a transaction recommended to a non-institutional customer, a bank that is a government securities broker or dealer shall make reasonable efforts to obtain information concerning:

(a) The customer's financial status;

(b) The customer's tax status;

(c) The customer's investment objectives; and

(d) Such other information used or considered to be reasonable by the bank in making recommendations to the customer.

INTERPRETATIONS

§ 13.100 Obligations concerning institutional customers.

(a) As a result of broadened authority provided by the Government Securities Act Amendments of 1993 (15 U.S.C. 78o-3 and 78o-5), the OCC is adopting sales practice rules for the government securities market, a market with a particularly broad institutional component. Accordingly, the OCC believes it is appropriate to provide further guidance to banks on their suitability obligations when making recommendations to institutional customers.

(b) The OCC's suitability rule (§13.4) is fundamental to fair dealing and is intended to promote ethical sales practices and high standards of professional conduct. Banks' responsibilities include having a reasonable basis for recommending a particular security or strategy, as well as having reasonable grounds for believing the recommendation is suitable for the customer to whom it is made. Banks are expected to meet the same high standards of competence, professionalism, and good faith regardless of the financial circumstances of the customer.

(c) In recommending to a customer the purchase, sale, or exchange of any government security, the bank shall have reasonable grounds for believing that the recommendation is suitable for the customer upon the basis of the facts, if any, disclosed by the customer as to the customer's other security

holdings and financial situation and needs.

(d) The interpretation in this section concerns only the manner in which a bank determines that a recommendation is suitable for a particular institutional customer. The manner in which a bank fulfills this suitability obligation will vary, depending on the nature of the customer and the specific transaction. Accordingly, the interpretation in this section deals only with guidance regarding how a bank may fulfill customer-specific suitability obligations under §13.4.¹

(e) While it is difficult to define in advance the scope of a bank's suitability obligation with respect to a specific institutional customer transaction recommended by a bank, the OCC has identified certain factors that may be relevant when considering compliance with §13.4. These factors are not intended to be requirements or the only factors to be considered but are offered merely as guidance in determining the scope of a bank's suitability obligations.

(f) The two most important considerations in determining the scope of a bank's suitability obligations in making recommendations to an institutional customer are the customer's capability to evaluate investment risk independently and the extent to which the customer is exercising independent judgement in evaluating a bank's recommendation. A bank must determine, based on the information available to it, the customer's capability to evaluate investment risk. In some cases, the bank may conclude that the customer is not capable of making independent investment decisions in general. In other cases, the institutional customer may have general capability, but may not be able to understand a particular type of instrument or its risk. This is more likely to arise with relatively new types of instruments, or those

with significantly different risk or volatility characteristics than other investments generally made by the institution. If a customer is either generally not capable of evaluating investment risk or lacks sufficient capability to evaluate the particular product, the scope of a bank's customer-specific obligations under §13.4 would not be diminished by the fact that the bank was dealing with an institutional customer. On the other hand, the fact that a customer initially needed help understanding a potential investment need not necessarily imply that the customer did not ultimately develop an understanding and make an independent investment decision.

(g) A bank may conclude that a customer is exercising independent judgement if the customer's investment decision will be based on its own independent assessment of the opportunities and risks presented by a potential investment, market factors and other investment considerations. Where the bank has reasonable grounds for concluding that the institutional customer is making independent investment decisions and is capable of independently evaluating investment risk, then a bank's obligations under §13.4 for a particular customer are fulfilled.² Where a customer has delegated decision-making authority to an agent, such as an investment advisor or a bank trust department, the interpretation in this section shall be applied to the agent.

(h) A determination of capability to evaluate investment risk independently will depend on an examination of the customer's capability to make its own investment decisions, including the resources available to the customer to make informed decisions. Relevant considerations could include:

(1) The use of one or more consultants, investment advisers, or bank trust departments;

(2) The general level of experience of the institutional customer in financial markets and specific experience with the type of instruments under consideration;

¹The interpretation in this section does not address the obligation related to suitability that requires that a bank have " * * * a 'reasonable basis' to believe that the recommendation could be suitable for at least some customers." *In the Matter of the Application of F.J. Kaufman and Company of Virginia and Frederick J. Kaufman, Jr.*, 50 SEC 164 (1989).

²See footnote 1 in paragraph (d) of this section.

Comptroller of the Currency, Treasury

§ 14.20

(3) The customer's ability to understand the economic features of the security involved;

(4) The customer's ability to independently evaluate how market developments would affect the security; and

(5) The complexity of the security or securities involved.

(i) A determination that a customer is making independent investment decisions will depend on the nature of the relationship that exists between the bank and the customer.

Relevant considerations could include:

(1) Any written or oral understanding that exists between the bank and the customer regarding the nature of the relationship between the bank and the customer and the services to be rendered by the bank;

(2) The presence or absence of a pattern of acceptance of the bank's recommendations;

(3) The use by the customer of ideas, suggestions, market views and information obtained from other government securities brokers or dealers or market professionals, particularly those relating to the same type of securities; and

(4) The extent to which the bank has received from the customer current comprehensive portfolio information in connection with discussing recommended transactions or has not been provided important information regarding its portfolio or investment objectives.

(j) Banks are reminded that these factors are merely guidelines that will be utilized to determine whether a bank has fulfilled its suitability obligation with respect to a specific institutional customer transaction and that the inclusion or absence of any of these factors is not dispositive of the determination of suitability. Such a determination can only be made on a case-by-case basis taking into consideration all the facts and circumstances of a particular bank/customer relationship, assessed in the context of a particular transaction.

(k) For purposes of the interpretation in this section, an institutional customer shall be any entity other than a natural person. In determining the applicability of the interpretation in this

section to an institutional customer, the OCC will consider the dollar value of the securities that the institutional customer has in its portfolio and/or under management. While the interpretation in this section is potentially applicable to any institutional customer, the guidance contained in this section is more appropriately applied to an institutional customer with at least \$10 million invested in securities in the aggregate in its portfolio and/or under management.

PART 14—CONSUMER PROTECTION IN SALES OF INSURANCE

Sec.

14.10 Purpose and scope.

14.20 Definitions.

14.30 Prohibited practices.

14.40 What a covered person must disclose.

14.50 Where insurance activities may take place.

14.60 Qualification and licensing requirements for insurance sales personnel.

APPENDIX A TO PART 14—CONSUMER GRIEVANCE PROCESS

AUTHORITY: 12 U.S.C. 1 *et seq.*, 24(Seventh), 92, 93a, 1818, and 1831x.

SOURCE: 65 FR 75839, Dec. 4, 2000, unless otherwise noted.

§ 14.10 Purpose and scope.

(a) *General rule.* This part establishes consumer protections in connection with retail sales practices, solicitations, advertising, or offers of any insurance product or annuity to a consumer by:

(1) Any national bank; or

(2) Any other person that is engaged in such activities at an office of the bank or on behalf of the bank.

(b) *Application to operating subsidiaries.* For purposes of § 5.34(e)(3) of this chapter, an operating subsidiary is subject to this part only to the extent that it sells, solicits, advertises, or offers insurance products or annuities at an office of a bank or on behalf of a bank.

§ 14.20 Definitions.

As used in this part:

(a) *Affiliate* means a company that controls, is controlled by, or is under common control with another company.

§ 14.30

12 CFR Ch. I (1–1–14 Edition)

(b) *Bank* means a national bank or a Federal branch, or agency of a foreign bank as defined in section 1 of the International Banking Act of 1978 (12 U.S.C. 3101, *et seq.*)

(c) *Company* means any corporation, partnership, business trust, association or similar organization, or any other trust (unless by its terms the trust must terminate within twenty-five years or not later than twenty-one years and ten months after the death of individuals living on the effective date of the trust). It does not include any corporation the majority of the shares of which are owned by the United States or by any State, or a qualified family partnership, as defined in section 2(o)(10) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841(o)(10)).

(d) *Consumer* means an individual who purchases, applies to purchase, or is solicited to purchase from a covered person insurance products or annuities primarily for personal, family, or household purposes.

(e) *Control* of a company has the same meaning as in section 3(w)(5) of the Federal Deposit Insurance Act (12 U.S.C. 1813(w)(5)).

(f)(1) *Covered person* means:

(i) A bank; or

(ii) Any other person only when the person sells, solicits, advertises, or offers an insurance product or annuity to a consumer at an office of the bank or on behalf of a bank.

(2) For purposes of this definition, activities on behalf of a bank include activities where a person, whether at an office of the bank or at another location sells, solicits, advertises, or offers an insurance product or annuity and at least one of the following applies:

(i) The person represents to a consumer that the sale, solicitation, advertisement, or offer of any insurance product or annuity is by or on behalf of the bank;

(ii) The bank refers a consumer to a seller of insurance products or annuities and the bank has a contractual arrangement to receive commissions or fees derived from a sale of an insurance product or annuity resulting from that referral; or

(iii) Documents evidencing the sale, solicitation, advertising, or offer of an

insurance product or annuity identify or refer to the bank.

(g) *Domestic violence* means the occurrence of one or more of the following acts by a current or former family member, household member, intimate partner, or caretaker:

(1) Attempting to cause or causing or threatening another person physical harm, severe emotional distress, psychological trauma, rape, or sexual assault;

(2) Engaging in a course of conduct or repeatedly committing acts toward another person, including following the person without proper authority, under circumstances that place the person in reasonable fear of bodily injury or physical harm;

(3) Subjecting another person to false imprisonment; or

(4) Attempting to cause or causing damage to property so as to intimidate or attempt to control the behavior of another person.

(h) *Electronic media* includes any means for transmitting messages electronically between a covered person and a consumer in a format that allows visual text to be displayed on equipment, for example, a personal computer monitor.

(i) *Office* means the premises of a bank where retail deposits are accepted from the public.

(j) *Subsidiary* has the same meaning as in section 3(w)(4) of the Federal Deposit Insurance Act (12 U.S.C. 1813(w)(4)).

§ 14.30 Prohibited practices.

(a) *Anticoercion and antitying rules.* A covered person may not engage in any practice that would lead a consumer to believe that an extension of credit, in violation of section 106(b) of the Bank Holding Company Act Amendments of 1970 (12 U.S.C. 1972), is conditional upon either:

(1) The purchase of an insurance product or annuity from the bank or any of its affiliates; or

(2) An agreement by the consumer not to obtain, or a prohibition on the consumer from obtaining, an insurance product or annuity from an unaffiliated entity.

(b) *Prohibition on misrepresentations generally.* A covered person may not engage in any practice or use any advertisement at any office of, or on behalf of, the bank or a subsidiary of the bank that could mislead any person or otherwise cause a reasonable person to reach an erroneous belief with respect to:

(1) The fact that an insurance product or annuity sold or offered for sale by a covered person or any subsidiary of the bank is not backed by the Federal government or the bank, or the fact that the insurance product or annuity is not insured by the Federal Deposit Insurance Corporation;

(2) In the case of an insurance product or annuity that involves investment risk, the fact that there is an investment risk, including the potential that principal may be lost and that the product may decline in value; or

(3) In the case of a bank or subsidiary of the bank at which insurance products or annuities are sold or offered for sale, the fact that:

(i) The approval of an extension of credit to a consumer by the bank or subsidiary may not be conditioned on the purchase of an insurance product or annuity by the consumer from the bank or a subsidiary of the bank; and

(ii) The consumer is free to purchase the insurance product or annuity from another source.

(c) *Prohibition on domestic violence discrimination.* A covered person may not sell or offer for sale, as principal, agent, or broker, any life or health insurance product if the status of the applicant or insured as a victim of domestic violence or as a provider of services to victims of domestic violence is considered as a criterion in any decision with regard to insurance underwriting, pricing, renewal, or scope of coverage of such product, or with regard to the payment of insurance claims on such product, except as required or expressly permitted under State law.

§ 14.40 What a covered person must disclose.

(a) *Insurance disclosures.* In connection with the initial purchase of an insurance product or annuity by a consumer from a covered person, a covered person must disclose to the consumer,

except to the extent the disclosure would not be accurate, that:

(1) The insurance product or annuity is not a deposit or other obligation of, or guaranteed by, the bank or an affiliate of the bank;

(2) The insurance product or annuity is not insured by the Federal Deposit Insurance Corporation (FDIC) or any other agency of the United States, the bank, or (if applicable) an affiliate of the bank; and

(3) In the case of an insurance product or annuity that involves an investment risk, there is investment risk associated with the product, including the possible loss of value.

(b) *Credit disclosure.* In the case of an application for credit in connection with which an insurance product or annuity is solicited, offered, or sold, a covered person must disclose that the bank may not condition an extension of credit on either:

(1) The consumer's purchase of an insurance product or annuity from the bank or any of its affiliates; or

(2) The consumer's agreement not to obtain, or a prohibition on the consumer from obtaining, an insurance product or annuity from an unaffiliated entity.

(c) *Timing and method of disclosures—*

(1) *In general.* The disclosures required by paragraph (a) of this section must be provided orally and in writing before the completion of the initial sale of an insurance product or annuity to a consumer. The disclosure required by paragraph (b) of this section must be made orally and in writing at the time the consumer applies for an extension of credit in connection with which an insurance product or annuity is solicited, offered, or sold.

(2) *Exception for transactions by mail.* If a sale of an insurance product or annuity is conducted by mail, a covered person is not required to make the oral disclosures required by paragraph (a) of this section. If a covered person takes an application for credit by mail, the covered person is not required to make the oral disclosure required by paragraph (b).

(3) *Exception for transactions by telephone.* If a sale of an insurance product or annuity is conducted by telephone, a

§ 14.40

12 CFR Ch. I (1–1–14 Edition)

covered person may provide the written disclosures required by paragraph (a) of this section by mail within 3 business days beginning on the first business day after the sale, excluding Sundays and the legal public holidays specified in 5 U.S.C. 6103(a). If a covered person takes an application for credit by telephone, the covered person may provide the written disclosure required by paragraph (b) of this section by mail, provided the covered person mails it to the consumer within three days beginning the first business day after the application is taken, excluding Sundays and the legal public holidays specified in 5 U.S.C. 6103(a).

(4) *Electronic form of disclosures.* (i) Subject to the requirements of section 101(c) of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001(c)), a covered person may provide the written disclosures required by paragraph (a) and (b) of this section through electronic media instead of on paper, if the consumer affirmatively consents to receiving the disclosures electronically and if the disclosures are provided in a format that the consumer may retain or obtain later, for example, by printing or storing electronically (such as by downloading).

(ii) Any disclosures required by paragraphs (a) or (b) of this section that are provided by electronic media are not required to be provided orally.

(5) *Disclosures must be readily understandable.* The disclosures provided shall be conspicuous, simple, direct, readily understandable, and designed to call attention to the nature and significance of the information provided. For instance, a covered person may use the following disclosures in visual media, such as television broadcasting, ATM screens, billboards, signs, posters and written advertisements and promotional materials, as appropriate and consistent with paragraphs (a) and (b) of this section:

- NOT A DEPOSIT
- NOT FDIC-INSURED
- NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY
- NOT GUARANTEED BY THE BANK [OR SAVINGS ASSOCIATION]
- MAY GO DOWN IN VALUE

(6) *Disclosures must be meaningful.* (i) A covered person must provide the disclosures required by paragraphs (a) and (b) of this section in a meaningful form. Examples of the types of methods that could call attention to the nature and significance of the information provided include:

(A) A plain-language heading to call attention to the disclosures;

(B) A typeface and type size that are easy to read;

(C) Wide margins and ample line spacing;

(D) Boldface or italics for key words; and

(E) Distinctive type style, and graphic devices, such as shading or sidebars, when the disclosures are combined with other information.

(ii) A covered person has not provided the disclosures in a meaningful form if the covered person merely states to the consumer that the required disclosures are available in printed material, but does not provide the printed material when required and does not orally disclose the information to the consumer when required.

(iii) With respect to those disclosures made through electronic media for which paper or oral disclosures are not required, the disclosures are not meaningfully provided if the consumer may bypass the visual text of the disclosures before purchasing an insurance product or annuity.

(7) *Consumer acknowledgment.* A covered person must obtain from the consumer, at the time a consumer receives the disclosures required under paragraphs (a) or (b) of this section, or at the time of the initial purchase by the consumer of an insurance product or annuity, a written acknowledgment by the consumer that the consumer received the disclosures. A covered person may permit a consumer to acknowledge receipt of the disclosures electronically or in paper form. If the disclosures required under paragraphs (a) or (b) of this section are provided in connection with a transaction that is conducted by telephone, a covered person must:

(i) Obtain an oral acknowledgment of receipt of the disclosures and maintain sufficient documentation to show that the acknowledgment was given; and

Comptroller of the Currency, Treasury

§ 16.2

(ii) Make reasonable efforts to obtain a written acknowledgment from the consumer.

(d) *Advertisements and other promotional material for insurance products or annuities.* The disclosures described in paragraph (a) of this section are required in advertisements and promotional material for insurance products or annuities unless the advertisements and promotional materials are of a general nature describing or listing the services or products offered by the bank.

§ 14.50 Where insurance activities may take place.

(a) *General rule.* A bank must, to the extent practicable, keep the area where the bank conducts transactions involving insurance products or annuities physically segregated from areas where retail deposits are routinely accepted from the general public, identify the areas where insurance product or annuity sales activities occur, and clearly delineate and distinguish those areas from the areas where the bank's retail deposit-taking activities occur.

(b) *Referrals.* Any person who accepts deposits from the public in an area where such transactions are routinely conducted in the bank may refer a consumer who seeks to purchase an insurance product or annuity to a qualified person who sells that product only if the person making the referral receives no more than a one-time, nominal fee of a fixed dollar amount for each referral that does not depend on whether the referral results in a transaction.

§ 14.60 Qualification and licensing requirements for insurance sales personnel.

A bank may not permit any person to sell or offer for sale any insurance product or annuity in any part of its office or on its behalf, unless the person is at all times appropriately qualified and licensed under applicable State insurance licensing standards with regard to the specific products being sold or recommended.

APPENDIX A TO PART 14—CONSUMER GRIEVANCE PROCESS

Any consumer who believes that any bank or any other person selling, soliciting, adver-

tising, or offering insurance products or annuities to the consumer at an office of the bank or on behalf of the bank has violated the requirements of this part should contact the Customer Assistance Group, Office of the Comptroller of the Currency, (800) 613-6743, 1301 McKinney Street, Suite 3710, Houston, Texas 77010-3031.

AUTHORITY: 12 U.S.C. 1 *et seq.* and 93a.

SOURCE: 59 FR 54798, Nov. 2, 1994, unless otherwise noted.

§ 16.1 Authority, purpose, and scope.

(a) *Authority.* This part is issued under the general authority of the national banking laws, 12 U.S.C. 1 *et seq.*, and the OCC's general rulemaking authority in 12 U.S.C. 93a.

(b) *Purpose.* This part sets forth rules governing the offer and sale of securities issued by a bank.

(c) *Scope.* This part applies to offers and sales of bank securities by issuers, underwriters, and dealers.

§ 16.2 Definitions.

For purposes of this part, the following definitions apply:

(a) *Accredited investor* means the same as in Commission Rule 501(a) (17 CFR 230.501(a)).

§ 16.3

12 CFR Ch. I (1–14 Edition)

(b) *Bank* means an existing national bank, a national bank in organization, or a Federal branch or agency of a foreign bank.

(c) *Commission* means the Securities and Exchange Commission. When used in the rules, regulations, or forms of the Commission referred to in this part, the term “Commission” shall be deemed to refer to the OCC.

(d) *Dealer* means the same as in section 2(12) of the Securities Act (15 U.S.C. 77b(12)).

(e) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a through 78jj).

(f) *Insured depository institution* means the same as in section 3(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)(2)).

(g) *Investment grade* means the issuer of a security has an adequate capacity to meet financial commitments under the security for the projected life of the asset or exposure. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely repayment of principal and interest is expected.

(h) *Issuer* means a bank that issues or proposes to issue any security.

(i) *Nonconvertible debt* means a general obligation of the bank, whether senior or subordinated, that is not convertible into any class of common or preferred stock or any derivative thereof.

(j) *OCC* means the Office of the Comptroller of the Currency.

(k) *Person* means the same as in section 2(2) of the Securities Act (15 U.S.C. 77b(2)) and includes a bank.

(l) *Prospectus* means an offering document that includes the information required by section 10(a) of the Securities Act (15 U.S.C. 77j(a)).

(m) *Registration statement* means a filing that includes the prospectus and other information required by section 7 of the Securities Act (15 U.S.C. 77g).

(n) *Sale, sell, offer to sell, offer for sale,* and *offer* mean the same as in section 2(3) of the Securities Act (15 U.S.C. 77b(3)).

(o) *Securities Act* means the Securities Act of 1933 (15 U.S.C. 77a through 77aa).

(p) *Security* means the same as in section 2(1) of the Securities Act (15 U.S.C. 77b(1)).

(q) *Underwriter* means the same as in section 2(11) of the Securities Act (15 U.S.C. 77b(11)). Commission Rules 137, 140, 141, 142, and 144 (17 CFR 230.137, 230.140, 230.141, 230.142, and 230.144) (which apply to section 2(11) of the Securities Act) apply to this part.

[59 FR 54798, Nov. 2, 1994, as amended at 73 FR 22243, Apr. 24, 2008; 77 FR 35258, June 13, 2012]

§ 16.3 Registration statement and prospectus requirements.

(a) No person shall offer or sell, directly or indirectly, any bank issued security unless:

(1) A registration statement for the security meeting the requirements of § 16.15 of this part has been filed with and declared effective by the OCC pursuant to this part, and the offer or sale is accompanied or preceded by a prospectus that has been filed with and declared effective by the OCC as a part of that registration statement; or

(2) An exemption is available under § 16.5 of this part.

(b) Notwithstanding paragraph (a) of this section, securities of a bank may be offered through the use of a preliminary prospectus before a registration statement and prospectus for the securities have been declared effective by the OCC if:

(1) A registration statement including the preliminary prospectus has been filed with the OCC;

(2) The preliminary prospectus contains the information required by § 16.15 of this part except for the omission of information with respect to the offering price, underwriting discounts or commissions, discounts or commissions to dealers, amount of proceeds, conversion rates, call prices, or other matters dependent upon the offering price; and

(3) A copy of the prospectus as declared effective containing the information specified in paragraph (b)(2) of this section is furnished to each purchaser prior to or simultaneously with the sale of the security.

(c) Commission Rule 174 (17 CFR 230.174—Delivery of prospectus by dealers; Exemptions under section 4(3) of

the Act) applies to transactions by dealers in bank issued securities.

§ 16.4 Communications not deemed an offer.

(a) The OCC will not deem the following communications to be an offer under § 16.3 of this part:

(1) Prior to the filing of a registration statement, any notice of a proposed offering that satisfies the requirements of Commission Rule 135 (17 CFR 230.135);

(2) Subsequent to the filing of a registration statement, any notice, circular, advertisement, letter, or other communication published or transmitted to any person that satisfies the requirements of Commission Rule 134 (17 CFR 230.134);

(3) Subsequent to the filing of a registration statement, any oral offer of securities covered by that registration statement;

(4) Subsequent to the filing of a registration statement, any summary prospectus that is filed as a part of that registration statement and satisfies the requirements of Commission Rule 431 (17 CFR 230.431);

(5) Subsequent to the effective date of a registration statement, any written communication if it is proved that each recipient of the communication simultaneously or previously received a written prospectus meeting the requirements of section 10(a) of the Securities Act (15 U.S.C. 77j(a)) and § 16.15 of this part that was filed with and declared effective by the OCC;

(6) A notice of a proposed unregistered offering that satisfies the requirements of Commission Rule 135c (17 CFR 230.135c); and

(7) A communication that satisfies the requirements of Commission Rule 138 or 139 (17 CFR 230.138 or 230.139).

(b) The OCC may request that communications not deemed an offer under paragraph (a) of this section be submitted to the OCC.

(c) The OCC may prohibit the publication or distribution of any communication not deemed an offer under paragraph (a) of this section if necessary to protect the investing public.

§ 16.5 Exemptions.

The registration statement and prospectus requirements of § 16.3 of this part do not apply to an offer or sale of bank securities:

(a) If the securities are exempt from registration under section 3 of the Securities Act (15 U.S.C. 77c), but only by reason of an exemption other than section 3(a)(2) (exemption for bank securities), section 3(a)(11) (exemption for intrastate offerings), and section 3(a)(12) of the Securities Act (exemption for bank holding company formation).

(b) In a transaction exempt from registration under section 4 of the Securities Act (15 U.S.C. 77d). Commission Rules 152 and 152a (17 CFR 230.152 and 230.152a) (which apply to sections 4(2) and 4(1) of the Securities Act) apply to this part;

(c) In a transaction that satisfies the requirements of § 16.7 of this part;

(d) In a transaction that satisfies the requirements of § 16.8 of this part;

(e) In a transaction that satisfies the requirements of Commission Rule 144, 144A, 148, or 236 (17 CFR 230.144, 230.144A, 230.148, or 230.236);

(f) In a transaction that satisfies the requirements of Commission Rule 701 (17 CFR 230.701);

(g) In a transaction that is an offer or sale occurring outside the United States under Commission Regulation S (17 CFR part 230, Regulation S—Rules Governing Offers and Sales Made Outside the United States Without Registration Under the Securities Act of 1933); or

(h) In a transaction that satisfies the requirements of § 16.9 of this part.

[59 FR 54798, Nov. 2, 1994; 59 FR 67153, Dec. 29, 1994, as amended at 73 FR 22243, Apr. 24, 2008]

§ 16.6 Sales of nonconvertible debt.

(a) The OCC will deem offers or sales of bank issued nonconvertible debt to be in compliance with §§ 16.3 and 16.15(a) and (b) of this part if all of the following requirements are met:

(1) The bank issuing the debt has securities registered under the Exchange Act or is a subsidiary of a bank holding company that has securities registered under the Exchange Act;

§ 16.7

12 CFR Ch. I (1–1–14 Edition)

(2) The debt is offered and sold only to accredited investors;

(3) The debt is sold in minimum denominations of \$250,000 and each note or debenture, if issued in certificate form, is legended to provide that it cannot be exchanged for notes or debentures of the bank in smaller denominations;

(4) The debt is investment grade.

(5) Prior to or simultaneously with the sale of the debt, each purchaser receives an offering document that contains a description of the terms of the debt, the use of proceeds, and method of distribution, and incorporates the bank's latest Consolidated Reports of Condition and Income (Call Report) and the bank's or its bank holding company's Forms 10-K, 10-Q (or 10-KSB, 10-QSB), and 8-K (17 CFR part 249) filed under the Exchange Act; and

(6) The offering document and any amendments are filed with the OCC no later than the fifth business day after they are first used.

(b) Offers or sales of nonconvertible debt issued by a federal branch or agency of a foreign bank need not need comply with the requirements of paragraph (a)(1) of this section, if the federal branch or agency provides the OCC the information specified in Commission Rule 12g3-2(b) (17 CFR 240.12g3-2(b)) and provides purchasers the information specified in Commission Rule 144A(d)(4)(i) (17 CFR 230.144A(d)(4)(i)). A federal branch or agency that provides the OCC the information specified in Commission Rule 12g3-2(b) need not incorporate that information by reference into the offering document provided to purchasers pursuant to paragraph (a)(5) of this section. However, the federal branch or agency must make that information available to the potential purchasers upon request. The OCC will make the information available for public inspection.

[59 FR 54798, Nov. 2, 1994, as amended at 73 FR 22243, Apr. 24, 2008; 77 FR 35258, June 13, 2012]

§ 16.7 Nonpublic offerings.

(a) The OCC will deem offers and sales of bank issued securities that meet all of the following requirements to be exempt from the registration and

prospectus requirements of § 16.3 pursuant to § 16.5(c) of this part:

(1) All the securities are offered and sold in a transaction that satisfies the requirements of Commission Regulation D (17 CFR part 230, Regulation D—Rules Governing the Limited Offer and Sale of Securities Without Registration Under the Securities Act of 1933); and

(2) Each purchaser who is not an accredited investor either alone or with its purchaser representative(s) has the knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of the prospective investment, or the issuer reasonably believes immediately prior to making any sale that the purchaser comes within this description.

(b) All subsequent sales of bank issued securities subject to the limitations on resale of Commission Regulation D (17 CFR part 230, Regulation D—Rules Governing the Limited Offer and Sale of Securities Without Registration Under the Securities Act of 1933) must be made pursuant to Commission Rule 144 (17 CFR 230.144), Commission Rule 144A (17 CFR 230.144A), another exemption from registration under the Securities Act referenced in § 16.5 of this part, or in accordance with the registration and prospectus requirements of § 16.3 of this part.

(c) No offer or sale of bank issued securities shall be made in reliance on Commission Regulation D (17 CFR part 230, Regulation D—Rules Governing the Limited Offer and Sale of Securities Without Registration Under the Securities Act of 1933) without compliance with paragraphs (a)(1) and (a)(2) of this section.

[59 FR 54798, Nov. 2, 1994, as amended at 73 FR 22243, Apr. 24, 2008]

§ 16.8 Small issues.

(a) The OCC will deem offers and sales of bank issued securities that satisfy the requirements of Commission Regulation A (17 CFR part 230, Regulation A—Conditional Small Issues Exemption) to be exempt from the registration and prospectus requirements of § 16.3 pursuant to § 16.5(d) of this part.

(b) A filer should consult the Commission's Securities Act Industry

Comptroller of the Currency, Treasury

§ 16.16

Guide 3—Statistical Disclosure by Bank Holding Companies (17 CFR 229.801(c) and 231) and requirement 7 (Loans) of Rule 9-03 of Commission Regulation S-X (17 CFR 230.9-03) for guidance on appropriate disclosures when preparing offering documents to be filed with the OCC pursuant to Regulation A.

§ 16.9 Securities offered and sold in holding company dissolution.

Offers and sales of bank issued securities in connection with the dissolution of the holding company of the bank are exempt from the registration and prospectus requirements of § 16.3 pursuant to § 16.5(h), provided all of the following requirements are met:

(a) The offer and sale of bank-issued securities occurs solely as part of a dissolution in which the security holders exchange their shares of stock in a holding company that had no significant assets other than securities of the bank, for bank stock;

(b) The security holders receive, after the dissolution, substantially the same proportional share interests in the bank as they held in the holding company;

(c) The rights and interests of the security holders in the bank are substantially the same as those in the holding company prior to the transaction; and

(d) The bank has substantially the same assets and liabilities as the holding company had on a consolidated basis prior to the transaction.

[73 FR 22243, Apr. 24, 2008]

§ 16.15 Form and content.

(a) Any registration statement filed pursuant to this part must be on the form for registration (17 CFR part 239) that the bank would be eligible to use were it required to register the securities under the Securities Act and must meet the requirements of the Commission regulations referred to in the applicable form for registration. A filer should consult the Commission's Securities Act Industry Guide 3—Statistical Disclosure by Bank Holding Companies (17 CFR 229.801(c) and 231) for guidance on appropriate disclosures when preparing registration statements.

(b) Any registration statement or amendment filed pursuant to this part

must comply with the requirements of Commission Regulation C (17 CFR part 230, Regulation C—Registration), except to the extent those requirements conflict with specific requirements of this part.

(c) In addition to the information expressly required to be included in the registration statement by paragraphs (a) and (b) of this section, the registration statement must include any additional material information that is necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

(d) Notwithstanding paragraph (a) of this section, the registration statement for securities issued by a bank that is not in compliance with the regulatory capital requirements set forth in part 3 of this chapter must be on the Form S-1 (17 CFR part 239) registration statement under the Securities Act.

(e) Notwithstanding paragraph (a) of this section, a national bank in organization pursuant to § 5.20 of this chapter shall not be required to include audited financial statements as part of its registration statement for the offer and sale of its securities, unless the OCC determines that factors particular to the proposal indicate that inclusion of such statements would be in the interest of investors or would further the safe and sound operation of a national bank.

[59 FR 54798, Nov. 2, 1994, as amended at 73 FR 12010, Mar. 6, 2008]

§ 16.16 Effectiveness.

(a) Registration statements and amendments filed with the OCC pursuant to this part will become effective in accordance with sections 8(a) and (c) of the Securities Act (15 U.S.C. 77h(a) and (c)) and Commission Regulation C (17 CFR part 230, Regulation C—Registration).

(b) The OCC will deem registration statements and amendments that become effective pursuant to paragraph (a) of this section to be declared effective. If the OCC deems a registration statement to be declared effective, the OCC will also deem the prospectus that was filed as a part of that registration statement to be declared effective.

§ 16.17

12 CFR Ch. I (1–1–14 Edition)

§ 16.17 Filing requirements and inspection of documents.

(a) Except as provided in paragraph (b) of this section, all registration statements, offering documents, amendments, notices, or other documents must be filed with the Securities, Investments, and Fiduciary Practices Division, Office of the Comptroller of the Currency, 250 E Street, SW, Washington, DC 20219.

(b) All registration statements, offering documents, amendments, notices, or other documents relating to a bank in organization must be filed with the appropriate District office of the OCC.

(c) Where this part refers to a section of the Securities Act or the Exchange Act or a Commission rule that requires the filing of a notice or other document with the Commission, that notice or other document must be filed with the OCC.

(d) Unless otherwise requested by the OCC, any filing under this part must include four copies of any document filed. Material may be filed by delivery to the OCC through use of the mails or otherwise. The date on which documents are actually received by the OCC will be the date of filing of those documents, if the person filing the documents has complied with all requirements regarding the filing, including the submission of any fee required under § 16.33 of this part.

(e) Any filing of amendments or revisions must include at least four copies, two of which are marked to indicate clearly and precisely, by underlining or in some other appropriate manner, the changes made.

(f) The OCC will make available for public inspection copies of the registration statements, offering documents, amendments, exhibits, notices or reports filed pursuant to this part at the address identified in § 4.17(b) of this chapter.

§ 16.18 Use of prospectus.

(a) No person shall use a prospectus or amendment declared effective by the OCC more than nine months after the effective date unless the information contained in the prospectus or amendment is as of a date not more than 16 months prior to the date of use.

(b) If any event arises, or change in fact occurs, after the effective date and that event or change in fact, individually or in the aggregate, results in the prospectus containing any untrue statement of material fact, or omitting to state a material fact necessary in order to make statements made in the prospectus not misleading under the circumstances, then no person shall use the prospectus that has been declared effective under this part until an amendment reflecting the event or change has been filed with and declared effective by the OCC.

§ 16.19 Withdrawal or abandonment.

(a) Any registration statement, amendment, or exhibit may be withdrawn prior to the effective date. A withdrawal must be signed and state the grounds upon which it is made. The OCC will not remove any withdrawn document from its files, but will mark the document *Withdrawn upon the request of the registrant on (date)*.

(b) When a registration statement or amendment has been on file with the OCC for a period of nine months and has not become effective, the OCC may, in its discretion, determine whether the filing has been abandoned. Before determining that a filing has been abandoned, the OCC will notify the filer that the filing is out of date and must either be amended to comply with the applicable requirements of this part or be withdrawn within 30 days after the date of notice. When a filing is abandoned, the OCC will not remove the filing from its files but will mark the filing *Declared abandoned by the OCC on (date)*.

§ 16.30 Request for interpretive advice or no-objection letter.

Any person requesting interpretive advice or a no-objection letter from the OCC with respect to any provision of this part shall:

(a) File a copy of the request, including any supporting attachments with the Securities, Investments, and Fiduciary Practices Division at the address listed in § 16.17;

(b) Identify or describe the provisions of this part to which the request relates, the participants in the proposed

transaction, and the reasons for the request; and

(c) Include with the request a legal opinion as to each legal issue raised and an accounting opinion as to each accounting issue raised.

§ 16.31 Escrow requirement.

The OCC may require that any funds received in connection with an offer or sale of securities be held in an independent escrow account at an unrelated insured depository institution when the use of an escrow account is in the best interests of shareholders.

§ 16.32 Fraudulent transactions and unsafe and unsound practices.

(a) No person in the offer or sale of bank securities shall directly or indirectly:

(1) Employ any device, scheme or artifice to defraud;

(2) Make any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; or

(3) Engage in any act, practice, or course of business which operates as a fraud or deceit upon any person, in connection with the purchase or sale of any security of a bank.

(b) Nothing in this section limits the applicability of section 17 of the Securities Act (15 U.S.C. 77q) or section 10(b) of the Exchange Act (15 U.S.C. 78j) or Rule 10b-5 promulgated thereunder (17 CFR 240.10b-5).

(c) Any violation of this section also constitutes an unsafe or unsound practice under 12 U.S.C. 1818.

(d) Commission Rule 175 (17 CFR 230.175—Liability for certain statements by issuers) applies to this part.

§ 16.33 Filing fees.

(a) Filing fees must accompany certain filings made under the provisions of this part before the OCC will accept those filings. The applicable fee schedule is provided in the Notice of Comptroller of the Currency Fees published pursuant to § 8.8 of this chapter.

(b) Filing fees must be paid by check payable to the Comptroller of the Currency.

PART 18—DISCLOSURE OF FINANCIAL AND OTHER INFORMATION BY NATIONAL BANKS

Sec.

- 18.1 Purpose and OMB control number.
- 18.2 Definitions.

SOURCE: 53 FR 3866, Feb. 10, 1988, unless otherwise noted.

§ 18.1 Purpose and OMB control number.

(a) *Purpose.* The purpose of this part is to require all national banks and federal branches and agencies to prepare an annual financial disclosure statement, and to make this statement available to security holders, depositors, and anyone who requests it. The bank may, at its option, supplement this financial disclosure statement with narrative information management deems important. The availability of this information is expected to promote better public understanding of, and confidence in, individual national banks and the national banking system. The annual disclosure statement will serve to complement the supervisory efforts of the Office of the Comptroller of the Currency (OCC) to promote bank safety and soundness and public confidence in the national banking system.

(b) *OMB control number.* The collection of information requirements contained in this part were approved by the Office of Management and Budget under OMB control number 1557-0182.

[53 FR 3866, Feb. 10, 1988, as amended at 60 FR 57332, Nov. 15, 1995]

§ 18.2 Definitions.

Unless otherwise defined in this part, the terms used have the same meaning

§ 18.3

12 CFR Ch. I (1–1–14 Edition)

as in the instructions to the Consolidated Reports of Condition and Income (*Call Reports*).

§ 18.3 Preparation of annual disclosure statement.

(a) Beginning with calendar year 1987, each national bank and federal branch and agency shall prepare an annual disclosure statement as of December 31. The annual disclosure statement shall contain information required by § 18.4 (a), (b) and (d) may include other information that bank management believes important, as discussed in § 18.4(c).

(b) The annual disclosure statement shall be available by March 31 of each year, or by an earlier date as necessary to be made available to security holders in advance of the annual meeting of shareholders. A bank shall continually make its annual disclosure statement available until the annual disclosure statement for the succeeding year becomes available.

§ 18.4 Contents of annual disclosure statement.

(a) *Information concerning financial condition and results of operations.* The annual disclosure statement for any year shall reflect a fair presentation of the bank's financial condition at the end of that year and the preceding year. The annual disclosure statement may, at the option of bank management, consist of the bank's entire Call Reports, or applicable portions thereof, for the relevant periods. At a minimum, the statement must contain the same or comparable information as provided in the following Call Report schedules.

(1) For national banks:

- (i) Schedule RC (Balance Sheet);
- (ii) Schedule RC-N (Past Due and Nonaccrual Loans, Leases, and Other Assets—column A and memorandum Item #1 need not be included);
- (iii) Schedule RI (Income Statement);
- (iv) Schedule RI-A (Changes in Equity Capital); and
- (v) Schedule RI-B (Charge-Offs and Recoveries and Changes in Allowance for Loan and Lease Losses—part I may be omitted).

(2) For federal branches or agencies:

(i) Schedule RAL (Assets and Liabilities);

(ii) Schedule E (Deposit Liabilities and Credit Balances); and

(iii) Schedule P (Other Borrowed Money).

(b) *Other required information.* The annual disclosure statement shall include such other information as the OCC may require. This may include a discussion of enforcement actions when the OCC deems it in the public interest.

(c) *Optional narrative.* Bank management may, at its option, provide a narrative discussion to supplement the annual disclosure statement. This narrative may include information that bank management deems important in evaluating the overall condition of the bank. Information that bank management might present includes, but is not limited to, a discussion of the financial data; pertinent information relating to mergers and acquisitions; the existence and underlying causes of enforcement actions; business plans; material changes in balance sheet and income statement items; and future plans.

(d) *Disclaimer.* The following legend shall be included in the annual disclosure statement to advise the public that the OCC has not reviewed the information contained therein:

This statement has not been reviewed, or confirmed for accuracy or relevance by the Office of the Comptroller of the Currency.

[53 FR 3866, Feb. 10, 1988, as amended at 60 FR 57332, Nov. 15, 1995]

§ 18.5 Alternative annual disclosure statements.

The § 18.3(a) requirement to prepare an annual disclosure statement is satisfied:

(a) In the case of a national bank having a class of securities registered pursuant to section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l), by its annual report to security holders for meetings at which directors are to be elected;

(b) In the case of a national bank with audited financial statements, by those statements, provided all of the required information is included;

(c) In the case of a bank subsidiary of a one-bank holding company, by an annual report of the one-bank holding company prepared in conformity with

Comptroller of the Currency, Treasury

§ 18.10

the regulations of the Securities and Exchange Commission or by schedules from the holding company's consolidated financial statements on Form FR Y-9c pursuant to Regulation Y of the Federal Reserve Board (12 CFR part 225). Such schedules must be comparable to the Call Report schedules enumerated in § 18.4(a). In either case, not less than 95 percent of the holding company's consolidated total assets and total liabilities must be attributable to the bank and the bank's subsidiaries.

[53 FR 3866, Feb. 10, 1988, as amended at 60 FR 57332, Nov. 15, 1995]

§ 18.6 Signature and attestation.

A duly authorized officer of the bank shall sign the annual disclosure statement and shall attest to the correctness of the information contained in the statement if the financial reports are not accompanied by a report of an independent accountant.

§ 18.7 Notice of availability.

(a) *Shareholders*. In its notice of the annual meeting of shareholders, each national bank shall indicate that any person may obtain the annual disclosure statement from the bank, and shall include the address and telephone number of the person or office to be contacted for a copy. The first copy shall be provided without charge.

(b) *Depositors, Other Security Holders, and the General Public*. In the lobby of its main office and each branch, each national bank shall prominently display, at all times, a notice that any person may obtain the annual disclosure statement from the bank. The notice shall include the address and telephone number of the person or office to be contacted for a copy. The first copy shall be provided without charge.

§ 18.8 Delivery.

Each national bank shall, after receiving a request for an annual disclosure statement, promptly mail or otherwise furnish the statement to the requester.

§ 18.9 Disclosure of examination reports.

Except as permitted under part 4 of this chapter, a national bank may not

disclose any report of examination or report of supervisory activity, or any portion thereof, prepared by the OCC. The bank also shall not make any representation concerning such report or the findings therein.

[53 FR 3866, Feb. 10, 1988, as amended at 60 FR 57333, Nov. 15, 1995]

§ 18.10 Prohibited conduct and penalties.

(a) No national bank or institution-affiliated party shall, directly or indirectly:

(1) Disclose or cause to be disclosed false or misleading information in the annual disclosure statement, or omit or cause the omission of material or required information in the annual disclosure statement; or

(2) Represent that the OCC, or any employee thereof, has passed upon the accuracy or completeness of the annual disclosure statement.

(b) For purposes of this part, *institution-affiliated party* means:

(1) Any director, officer, employee, or controlling stockholder (other than a bank holding company) of, or agent for, a national bank;

(2) Any other person who has filed or is required to file a change-in-control notice with the OCC under 12 U.S.C. 1817(j);

(3) Any shareholder (other than a bank holding company), consultant, joint venture partner, and any other person as determined by the OCC (by regulation or case-by-case) who participates in the conduct of the affairs of a national bank; and

(4) Any independent contractor (including any attorney, appraiser, or accountant) who knowingly or recklessly participates in:

(i) Any violation of any law or regulation;

(ii) Any breach of fiduciary duty; or

(iii) Any unsafe or unsound practice, which caused or is likely to cause more than a minimal financial loss to, or a significant adverse effect on, the national bank.

(c) Conduct that violates paragraph (a) of this section also may constitute an unsafe or unsound banking practice or otherwise serve as a basis for enforcement action by the OCC including, but not limited to, the assessment of

§ 18.11

civil money penalties against the bank or any institution-affiliated party who violates this part.

[60 FR 57333, Nov. 15, 1995]

§ 18.11 Safe harbor provision.

The provisions of § 18.10(c) shall apply unless it is shown by the person or bank involved that the information disclosed was included with a reasonable basis or in good faith.

AUTHORITY: 5 U.S.C. 504, 554-557; 12 U.S.C. 93(b), 93a, 164, 505, 1817, 1818, 1820, 1831m, 1831o, 1972, 3102, 3108(a), 3909, and 4717; 15 U.S.C. 78(h) and (i), 78o-4(c), 78o-5, 78q-1, 78s,

Subpart A—Uniform Rules of Practice and Procedure

§ 19.1 Scope.

This subpart prescribes Uniform Rules of practice and procedure applicable to adjudicatory proceedings required to be conducted on the record after opportunity for a hearing under the following statutory provisions:

(a) Cease-and-desist proceedings under section 8(b) of the Federal Deposit Insurance Act (“FDIA”) (12 U.S.C. 1818(b));

(b) Removal and prohibition proceedings under section 8(e) of the FDIA (12 U.S.C. 1818(e));

(c) Change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)) to determine whether the Office of the Comptroller of the Currency (“OCC”) should issue an order to approve or disapprove a person’s proposed acquisition of an institution;

(d) Proceedings under section 15C(c)(2) of the Securities Exchange Act of 1934 (“Exchange Act”) (15 U.S.C. 78o-5), to impose sanctions upon any government securities broker or dealer or upon any person associated or seeking to become associated with a government securities broker or dealer for which the OCC is the appropriate agency;

(e) Assessment of civil money penalties by the OCC against institutions, institution-affiliated parties, and certain other persons for which it is the appropriate agency for any violation of:

(1) Any provision of law referenced in 12 U.S.C. 93, or any regulation issued thereunder, and certain unsafe or unsound practices and breaches of fiduciary duty, pursuant to 12 U.S.C. 93;

(2) Sections 22 and 23 of the Federal Reserve Act (“FRA”), or any regulation issued thereunder, and certain unsafe or unsound practices and breaches of fiduciary duty, pursuant to 12 U.S.C. 504 and 505;

§ 19.2

(3) Section 106(b) of the Bank Holding Company Amendments of 1970, pursuant to 12 U.S.C. 1972(2)(F);

(4) Any provision of the Change in Bank Control Act of 1978 or any regulation or order issued thereunder, and certain unsafe or unsound practices and breaches of fiduciary duty, pursuant to 12 U.S.C. 1817(j)(16);

(5) Any provision of the International Lending Supervision Act of 1983 (“ILSA”), or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3909;

(6) Any provision of the International Banking Act of 1978 (“IBA”), or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3108;

(7) Section 5211 of the Revised Statutes (12 U.S.C. 161), pursuant to 12 U.S.C. 164;

(8) Certain provisions of the Exchange Act, pursuant to section 21B of the Exchange Act (15 U.S.C. 78u-2);

(9) Section 1120 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (“FIRREA”) (12 U.S.C. 3349), or any order or regulation issued thereunder;

(10) The terms of any final or temporary order issued under section 8 of the FDIA or any written agreement executed by the OCC, the terms of any condition imposed in writing by the OCC in connection with the grant of an application or request, certain unsafe or unsound practices, breaches of fiduciary duty, or any law or regulation not otherwise provided herein, pursuant to 12 U.S.C. 1818(i)(2);

(11) Any provision of law referenced in section 102(f) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(f)) or any order or regulation issued thereunder; and

(12) Any provision of law referenced in 31 U.S.C. 5321 or any order or regulation issued thereunder;

(f) Remedial action under section 102(g) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(g));

(g) Removal, prohibition, and civil monetary penalty proceedings under section 10(k) of the FDI Act (12 U.S.C. 1820(k)) for violations of the post-employment restrictions imposed by that section; and

(h) This subpart also applies to all other adjudications required by statute

12 CFR Ch. I (1–1–14 Edition)

to be determined on the record after opportunity for an agency hearing, unless otherwise specifically provided for in the Local Rules.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20334, May 6, 1996; 70 FR 69638, Nov. 17, 2005]

§ 19.2 Rules of construction.

For purposes of this part:

(a) Any term in the singular includes the plural, and the plural includes the singular, if such use would be appropriate;

(b) Any use of a masculine, feminine, or neuter gender encompasses all three, if such use would be appropriate;

(c) The term *counsel* includes a non-attorney representative; and

(d) Unless the context requires otherwise, a party’s counsel of record, if any, may, on behalf of that party, take any action required to be taken by the party.

§ 19.3 Definitions.

For purposes of this part, unless explicitly stated to the contrary:

(a) *Administrative law judge* means one who presides at an administrative hearing under authority set forth at 5 U.S.C. 556.

(b) *Adjudicatory proceeding* means a proceeding conducted pursuant to these rules and leading to the formulation of a final order other than a regulation.

(c) *Comptroller* means the Comptroller of the Currency or a person delegated to perform the functions of the Comptroller of the Currency under this part.

(d) *Decisional employee* means any member of the Comptroller’s or administrative law judge’s staff who has not engaged in an investigative or prosecutorial role in a proceeding and who may assist the Comptroller or the administrative law judge, respectively, in preparing orders, recommended decisions, decisions, and other documents under the Uniform Rules.

(e) *Enforcement Counsel* means any individual who files a notice of appearance as counsel on behalf of the OCC in an adjudicatory proceeding.

(f) *Final order* means an order issued by the Comptroller with or without the consent of the affected institution or the institution-affiliated party, that

Comptroller of the Currency, Treasury

§ 19.5

has become final, without regard to the pendency of any petition for reconsideration or review.

(g) *Institution* includes any national bank or Federal branch or agency of a foreign bank.

(h) *Institution-affiliated party* means any institution-affiliated party as that term is defined in section 3(u) of the FDIA (12 U.S.C. 1813(u)).

(i) *Local Rules* means those rules promulgated by the OCC in the subparts of this part excluding subpart A.

(j) *OCC* means the Office of the Comptroller of the Currency.

(k) *OFIA* means the Office of Financial Institution Adjudication, the executive body charged with overseeing the administration of administrative enforcement proceedings for the OCC, the Board of Governors of the Federal Reserve System (“Board of Governors”), the Federal Deposit Insurance Corporation (“FDIC”), the Office of Thrift Supervision (“OTS”), and the National Credit Union Administration (“NCUA”).

(l) *Party* means the OCC and any person named as a party in any notice.

(m) *Person* means an individual, sole proprietor, partnership, corporation, unincorporated association, trust, joint venture, pool, syndicate, agency or other entity or organization, including an institution as defined in paragraph (g) of this section.

(n) *Respondent* means any party other than the OCC.

(o) *Uniform Rules* means those rules in subpart A of this part that are common to the OCC, the Board of Governors, the FDIC, the OTS, and the NCUA.

(p) *Violation* includes any action (alone or with another or others) for or toward causing, bringing about, participating in, counseling, or aiding or abetting a violation.

[56 FR 38028, Aug. 9, 1991, as amended at 73 FR 22243, Apr. 24, 2008]

§ 19.4 Authority of the Comptroller.

The Comptroller may, at any time during the pendency of a proceeding, perform, direct the performance of, or waive performance of, any act which could be done or ordered by the administrative law judge.

§ 19.5 Authority of the administrative law judge.

(a) *General rule.* All proceedings governed by this part shall be conducted in accordance with the provisions of chapter 5 of title 5 of the United States Code. The administrative law judge shall have all powers necessary to conduct a proceeding in a fair and impartial manner and to avoid unnecessary delay.

(b) *Powers.* The administrative law judge shall have all powers necessary to conduct the proceeding in accordance with paragraph (a) of this section, including the following powers:

(1) To administer oaths and affirmations;

(2) To issue subpoenas, subpoenas duces tecum, and protective orders, as authorized by this part, and to quash or modify any such subpoenas and orders;

(3) To receive relevant evidence and to rule upon the admission of evidence and offers of proof;

(4) To take or cause depositions to be taken as authorized by this subpart;

(5) To regulate the course of the hearing and the conduct of the parties and their counsel;

(6) To hold scheduling and/or pre-hearing conferences as set forth in § 19.31;

(7) To consider and rule upon all procedural and other motions appropriate in an adjudicatory proceeding, provided that only the Comptroller shall have the power to grant any motion to dismiss the proceeding or to decide any other motion that results in a final determination of the merits of the proceeding;

(8) To prepare and present to the Comptroller a recommended decision as provided herein;

(9) To recuse himself or herself by motion made by a party or on his or her own motion;

(10) To establish time, place and manner limitations on the attendance of the public and the media for any public hearing; and

(11) To do all other things necessary and appropriate to discharge the duties of a presiding officer.

[56 FR 38028, Aug. 9, 1991; 56 FR 41726, Aug. 22, 1991]

§ 19.6

§ 19.6 Appearance and practice in adjudicatory proceedings.

(a) *Appearance before the OCC or an administrative law judge*—(1) *By attorneys.* Any member in good standing of the bar of the highest court of any state, commonwealth, possession, territory of the United States, or the District of Columbia may represent others before the OCC if such attorney is not currently suspended or debarred from practice before the OCC.

(2) *By non-attorneys.* An individual may appear on his or her own behalf; a member of a partnership may represent the partnership; a duly authorized officer, director, or employee of any government unit, agency, institution, corporation or authority may represent that unit, agency, institution, corporation or authority if such officer, director, or employee is not currently suspended or debarred from practice before the OCC.

(3) *Notice of appearance.* Any individual acting as counsel on behalf of a party, including the Comptroller, shall file a notice of appearance with OFIA at or before the time that the individual submits papers or otherwise appears on behalf of a party in the adjudicatory proceeding. The notice of appearance must include a written declaration that the individual is currently qualified as provided in paragraph (a)(1) or (a)(2) of this section and is authorized to represent the particular party. By filing a notice of appearance on behalf of a party in an adjudicatory proceeding, the counsel agrees and represents that he or she is authorized to accept service on behalf of the represented party and that, in the event of withdrawal from representation, he or she will, if required by the administrative law judge, continue to accept service until new counsel has filed a notice of appearance or until the represented party indicates that he or she will proceed on a *pro se* basis.

(b) *Sanctions.* Dilatory, obstructive, egregious, contemptuous or contumacious conduct at any phase of any adjudicatory proceeding may be grounds for exclusion or suspension of counsel from the proceeding.

[56 FR 38028, Aug. 9, 1991; 56 FR 41726, Aug. 22, 1991; 56 FR 63551, Dec. 4, 1991; 61 FR 20334, May 6, 1996]

12 CFR Ch. I (1–1–14 Edition)

§ 19.7 Good faith certification.

(a) *General requirement.* Every filing or submission of record following the issuance of a notice shall be signed by at least one counsel of record in his or her individual name and shall state that counsel's address and telephone number. A party who acts as his or her own counsel shall sign his or her individual name and state his or her address and telephone number on every filing or submission of record.

(b) *Effect of signature.* (1) The signature of counsel or a party shall constitute a certification that: the counsel or party has read the filing or submission of record; to the best of his or her knowledge, information, and belief formed after reasonable inquiry, the filing or submission of record is well-grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and the filing or submission of record is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

(2) If a filing or submission of record is not signed, the administrative law judge shall strike the filing or submission of record, unless it is signed promptly after the omission is called to the attention of the pleader or movant.

(c) *Effect of making oral motion or argument.* The act of making any oral motion or oral argument by any counsel or party constitutes a certification that to the best of his or her knowledge, information, and belief formed after reasonable inquiry, his or her statements are well-grounded in fact and are warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, and are not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

§ 19.8 Conflicts of interest.

(a) *Conflict of interest in representation.* No person shall appear as counsel for another person in an adjudicatory proceeding if it reasonably appears

that such representation may be materially limited by that counsel's responsibilities to a third person or by the counsel's own interests. The administrative law judge may take corrective measures at any stage of a proceeding to cure a conflict of interest in representation, including the issuance of an order limiting the scope of representation or disqualifying an individual from appearing in a representative capacity for the duration of the proceeding.

(b) *Certification and waiver.* If any person appearing as counsel represents two or more parties to an adjudicatory proceeding or also represents a non-party on a matter relevant to an issue in the proceeding, counsel must certify in writing at the time of filing the notice of appearance required by § 19.6(a):

(1) That the counsel has personally and fully discussed the possibility of conflicts of interest with each such party and non-party; and

(2) That each such party and non-party waives any right it might otherwise have had to assert any known conflicts of interest or to assert any non-material conflicts of interest during the course of the proceeding.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20334, May 6, 1996]

§ 19.9 Ex parte communications.

(a) *Definition*—(1) *Ex parte communication* means any material oral or written communication relevant to the merits of an adjudicatory proceeding that was neither on the record nor on reasonable prior notice to all parties that takes place between:

(i) An interested person outside the OCC (including such person's counsel); and

(ii) The administrative law judge handling that proceeding, the Comptroller, or a decisional employee.

(2) *Exception.* A request for status of the proceeding does not constitute an ex parte communication.

(b) *Prohibition of ex parte communications.* From the time the notice is issued by the Comptroller until the date that the Comptroller issues his or her final decision pursuant to § 19.40(c):

(1) No interested person outside the OCC shall make or knowingly cause to be made an ex parte communication to

the Comptroller, the administrative law judge, or a decisional employee; and

(2) The Comptroller, administrative law judge, or decisional employee shall not make or knowingly cause to be made to any interested person outside the OCC any ex parte communication.

(c) *Procedure upon occurrence of ex parte communication.* If an ex parte communication is received by the administrative law judge, the Comptroller or any other person identified in paragraph (a) of this section, that person shall cause all such written communications (or, if the communication is oral, a memorandum stating the substance of the communication) to be placed on the record of the proceeding and served on all parties. All other parties to the proceeding shall have an opportunity, within ten days of receipt of service of the ex parte communication, to file responses thereto and to recommend any sanctions, in accordance with paragraph (d) of this section, that they believe to be appropriate under the circumstances.

(d) *Sanctions.* Any party or his or her counsel who makes a prohibited ex parte communication, or who encourages or solicits another to make any such communication, may be subject to any appropriate sanction or sanctions imposed by the Comptroller or the administrative law judge including, but not limited to, exclusion from the proceedings and an adverse ruling on the issue which is the subject of the prohibited communication.

(e) *Separation of functions.* Except to the extent required for the disposition of ex parte matters as authorized by law, the administrative law judge may not consult a person or party on any matter relevant to the merits of the adjudication, unless on notice and opportunity for all parties to participate. An employee or agent engaged in the performance of investigative or prosecuting functions for the OCC in a case may not, in that or a factually related case, participate or advise in the decision, recommended decision, or agency review of the recommended decision under § 19.40, except as witness or counsel in public proceedings.

[56 FR 38028, Aug. 9, 1991, as amended at 60 FR 30184, June 8, 1995]

§ 19.10

12 CFR Ch. I (1–1–14 Edition)

§ 19.10 Filing of papers.

(a) *Filing.* Any papers required to be filed, excluding documents produced in response to a discovery request pursuant to §§ 19.25 and 19.26, shall be filed with OFIA, except as otherwise provided.

(b) *Manner of filing.* Unless otherwise specified by the Comptroller or the administrative law judge, filing may be accomplished by:

- (1) Personal service;
- (2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;
- (3) Mailing the papers by first class, registered, or certified mail; or
- (4) Transmission by electronic media, only if expressly authorized, and upon any conditions specified, by the Comptroller or the administrative law judge. All papers filed by electronic media shall also concurrently be filed in accordance with paragraph (c) of this section.

(c) *Formal requirements as to papers filed*—(1) *Form.* All papers filed must set forth the name, address, and telephone number of the counsel or party making the filing and must be accompanied by a certification setting forth when and how service has been made on all other parties. All papers filed must be double-spaced and printed or typewritten on 8½ × 11 inch paper, and must be clear and legible.

(2) *Signature.* All papers must be dated and signed as provided in § 19.7.

(3) *Caption.* All papers filed must include at the head thereof, or on a title page, the name of the OCC and of the filing party, the title and docket number of the proceeding, and the subject of the particular paper.

(4) *Number of copies.* Unless otherwise specified by the Comptroller or the administrative law judge, an original and one copy of all documents and papers shall be filed, except that only one copy of transcripts of testimony and exhibits shall be filed.

§ 19.11 Service of papers.

(a) *By the parties.* Except as otherwise provided, a party filing papers shall serve a copy upon the counsel of record for all other parties to the proceeding

so represented, and upon any party not so represented.

(b) *Method of service.* Except as provided in paragraphs (c)(2) and (d) of this section, a serving party shall use one or more of the following methods of service:

- (1) Personal service;
- (2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;
- (3) Mailing the papers by first class, registered, or certified mail; or
- (4) Transmission by electronic media, only if the parties mutually agree. Any papers served by electronic media shall also concurrently be served in accordance with the requirements of § 19.10(c).

(c) *By the Comptroller or the administrative law judge.* (1) All papers required to be served by the Comptroller or the administrative law judge upon a party who has appeared in the proceeding in accordance with § 19.6 shall be served by any means specified in paragraph (b) of this section.

(2) If a party has not appeared in the proceeding in accordance with § 19.6, the Comptroller or the administrative law judge shall make service by any of the following methods:

- (i) By personal service;
- (ii) If the person to be served is an individual, by delivery to a person of suitable age and discretion at the physical location where the individual resides or works;
- (iii) If the person to be served is a corporation or other association, by delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service and the statute so requires, by also mailing a copy to the party;
- (iv) By registered or certified mail addressed to the person's last known address; or
- (v) By any other method reasonably calculated to give actual notice.

(d) *Subpoenas.* Service of a subpoena may be made:

- (1) By personal service;
- (2) If the person to be served is an individual, by delivery to a person of

Comptroller of the Currency, Treasury

§ 19.13

suitable age and discretion at the physical location where the individual resides or works;

(3) By delivery to an agent, which, in the case of a corporation or other association, is delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service and the statute so requires, by also mailing a copy to the party;

(4) By registered or certified mail addressed to the person's last known address; or

(5) By any other method reasonably calculated to give actual notice.

(e) *Area of service.* Service in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or on any person as otherwise provided by law, is effective without regard to the place where the hearing is held, provided that if service is made on a foreign bank in connection with an action or proceeding involving one or more of its branches or agencies located in any state, territory, possession of the United States, or the District of Columbia, service shall be made on at least one branch or agency so involved.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20334, May 6, 1996]

§ 19.12 Construction of time limits.

(a) *General rule.* In computing any period of time prescribed by this subpart, the date of the act or event that commences the designated period of time is not included. The last day so computed is included unless it is a Saturday, Sunday, or Federal holiday. When the last day is a Saturday, Sunday, or Federal holiday, the period runs until the end of the next day that is not a Saturday, Sunday, or Federal holiday. Intermediate Saturdays, Sundays, and Federal holidays are included in the computation of time. However, when the time period within which an act is to be performed is ten days or less, not including any additional time allowed for in paragraph (c) of this section, intermediate Saturdays, Sundays, and Federal holidays are not included.

(b) *When papers are deemed to be filed or served.* (1) Filing and service are deemed to be effective:

(i) In the case of personal service or same day commercial courier delivery, upon actual service;

(ii) In the case of overnight commercial delivery service, U.S. Express Mail delivery, or first class, registered, or certified mail, upon deposit in or delivery to an appropriate point of collection;

(iii) In the case of transmission by electronic media, as specified by the authority receiving the filing, in the case of filing, and as agreed among the parties, in the case of service.

(2) The effective filing and service dates specified in paragraph (b)(1) of this section may be modified by the Comptroller or administrative law judge in the case of filing or by agreement of the parties in the case of service.

(c) *Calculation of time for service and filing of responsive papers.* Whenever a time limit is measured by a prescribed period from the service of any notice or paper, the applicable time limits are calculated as follows:

(1) If service is made by first class, registered, or certified mail, add three calendar days to the prescribed period;

(2) If service is made by express mail or overnight delivery service, add one calendar day to the prescribed period; or

(3) If service is made by electronic media transmission, add one calendar day to the prescribed period, unless otherwise determined by the Comptroller or the administrative law judge in the case of filing, or by agreement among the parties in the case of service.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20335, May 6, 1996]

§ 19.13 Change of time limits.

Except as otherwise provided by law, the administrative law judge may, for good cause shown, extend the time limits prescribed by the Uniform Rules or by any notice or order issued in the proceedings. After the referral of the case to the Comptroller pursuant to § 19.38, the Comptroller may grant extensions of the time limits for good

§ 19.14

cause shown. Extensions may be granted at the motion of a party after notice and opportunity to respond is afforded all non-moving parties or on the Comptroller's or the administrative law judge's own motion.

§ 19.14 Witness fees and expenses.

Witnesses subpoenaed for testimony or depositions shall be paid the same fees for attendance and mileage as are paid in the United States district courts in proceedings in which the United States is a party, provided that, in the case of a discovery subpoena addressed to a party, no witness fees or mileage need be paid. Fees for witnesses shall be tendered in advance by the party requesting the subpoena, except that fees and mileage need not be tendered in advance where the OCC is the party requesting the subpoena. The OCC shall not be required to pay any fees to, or expenses of, any witness not subpoenaed by the OCC.

§ 19.15 Opportunity for informal settlement.

Any respondent may, at any time in the proceeding, unilaterally submit to Enforcement Counsel written offers or proposals for settlement of a proceeding, without prejudice to the rights of any of the parties. No such offer or proposal shall be made to any OCC representative other than Enforcement Counsel. Submission of a written settlement offer does not provide a basis for adjourning or otherwise delaying all or any portion of a proceeding under this part. No settlement offer or proposal, or any subsequent negotiation or resolution, is admissible as evidence in any proceeding.

§ 19.16 OCC's right to conduct examination.

Nothing contained in this subpart limits in any manner the right of the OCC to conduct any examination, inspection, or visitation of any institution or institution-affiliated party, or the right of the OCC to conduct or continue any form of investigation authorized by law.

12 CFR Ch. I (1-1-14 Edition)

§ 19.17 Collateral attacks on adjudicatory proceeding.

If an interlocutory appeal or collateral attack is brought in any court concerning all or any part of an adjudicatory proceeding, the challenged adjudicatory proceeding shall continue without regard to the pendency of that court proceeding. No default or other failure to act as directed in the adjudicatory proceeding within the times prescribed in this subpart shall be excused based on the pendency before any court of any interlocutory appeal or collateral attack.

[56 FR 38028, Aug. 9, 1991; 56 FR 41726, Aug. 22, 1991]

§ 19.18 Commencement of proceeding and contents of notice.

(a) *Commencement of proceeding.* (1)(i) Except for change-in-control proceedings under section 7(j)(4) of the FDIA, 12 U.S.C. 1817(j)(4), a proceeding governed by this subpart is commenced by issuance of a notice by the Comptroller.

(ii) The notice must be served by the Comptroller upon the respondent and given to any other appropriate financial institution supervisory authority where required by law.

(iii) The notice must be filed with OFIA.

(2) Change-in control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)) commence with the issuance of an order by the Comptroller.

(b) *Contents of notice.* The notice must set forth:

(1) The legal authority for the proceeding and for the OCC's jurisdiction over the proceeding;

(2) A statement of the matters of fact or law showing that the OCC is entitled to relief;

(3) A proposed order or prayer for an order granting the requested relief;

(4) The time, place, and nature of the hearing as required by law or regulation;

(5) The time within which to file an answer as required by law or regulation;

(6) The time within which to request a hearing as required by law or regulation; and

(7) That the answer and/or request for a hearing shall be filed with OFIA.

§ 19.19 Answer.

(a) *When.* Within 20 days of service of the notice, respondent shall file an answer as designated in the notice. In a civil money penalty proceeding, respondent shall also file a request for a hearing within 20 days of service of the notice.

(b) *Content of answer.* An answer must specifically respond to each paragraph or allegation of fact contained in the notice and must admit, deny, or state that the party lacks sufficient information to admit or deny each allegation of fact. A statement of lack of information has the effect of a denial. Denials must fairly meet the substance of each allegation of fact denied; general denials are not permitted. When a respondent denies part of an allegation, that part must be denied and the remainder specifically admitted. Any allegation of fact in the notice which is not denied in the answer must be deemed admitted for purposes of the proceeding. A respondent is not required to respond to the portion of a notice that constitutes the prayer for relief or proposed order. The answer must set forth affirmative defenses, if any, asserted by the respondent.

(c) *Default*—(1) *Effect of failure to answer.* Failure of a respondent to file an answer required by this section within the time provided constitutes a waiver of his or her right to appear and contest the allegations in the notice. If no timely answer is filed, Enforcement Counsel may file a motion for entry of an order of default. Upon a finding that no good cause has been shown for the failure to file a timely answer, the administrative law judge shall file with the Comptroller a recommended decision containing the findings and the relief sought in the notice. Any final order issued by the Comptroller based upon a respondent's failure to answer is deemed to be an order issued upon consent.

(2) *Effect of failure to request a hearing in civil money penalty proceedings.* If respondent fails to request a hearing as required by law within the time provided, the notice of assessment constitutes a final and unappealable order.

§ 19.20 Amended pleadings.

(a) *Amendments.* The notice or answer may be amended or supplemented at any stage of the proceeding. The respondent must answer an amended notice within the time remaining for the respondent's answer to the original notice, or within ten days after service of the amended notice, whichever period is longer, unless the Comptroller or administrative law judge orders otherwise for good cause.

(b) *Amendments to conform to the evidence.* When issues not raised in the notice or answer are tried at the hearing by express or implied consent of the parties, they will be treated in all respects as if they had been raised in the notice or answer, and no formal amendments are required. If evidence is objected to at the hearing on the ground that it is not within the issues raised by the notice or answer, the administrative law judge may admit the evidence when admission is likely to assist in adjudicating the merits of the action and the objecting party fails to satisfy the administrative law judge that the admission of such evidence would unfairly prejudice that party's action or defense upon the merits. The administrative law judge may grant a continuance to enable the objecting party to meet such evidence.

[61 FR 20335, May 6, 1996]

§ 19.21 Failure to appear.

Failure of a respondent to appear in person at the hearing or by a duly authorized counsel constitutes a waiver of respondent's right to a hearing and is deemed an admission of the facts as alleged and consent to the relief sought in the notice. Without further proceedings or notice to the respondent, the administrative law judge shall file with the Comptroller a recommended decision containing the findings and the relief sought in the notice.

§ 19.22 Consolidation and severance of actions.

(a) *Consolidation.* (1) On the motion of any party, or on the administrative law judge's own motion, the administrative law judge may consolidate, for some or all purposes, any two or more

§ 19.23

proceedings, if each such proceeding involves or arises out of the same transaction, occurrence or series of transactions or occurrences, or involves at least one common respondent or a material common question of law or fact, unless such consolidation would cause unreasonable delay or injustice.

(2) In the event of consolidation under paragraph (a)(1) of this section, appropriate adjustment to the prehearing schedule must be made to avoid unnecessary expense, inconvenience, or delay.

(b) *Severance.* The administrative law judge may, upon the motion of any party, sever the proceeding for separate resolution of the matter as to any respondent only if the administrative law judge finds that:

(1) Undue prejudice or injustice to the moving party would result from not severing the proceeding; and

(2) Such undue prejudice or injustice would outweigh the interests of judicial economy and expedition in the complete and final resolution of the proceeding.

§ 19.23 Motions.

(a) *In writing.* (1) Except as otherwise provided herein, an application or request for an order or ruling must be made by written motion.

(2) All written motions must state with particularity the relief sought and must be accompanied by a proposed order.

(3) No oral argument may be held on written motions except as otherwise directed by the administrative law judge. Written memoranda, briefs, affidavits or other relevant material or documents may be filed in support of or in opposition to a motion.

(b) *Oral motions.* A motion may be made orally on the record unless the administrative law judge directs that such motion be reduced to writing.

(c) *Filing of motions.* Motions must be filed with the administrative law judge, except that following the filing of the recommended decision, motions must be filed with the Comptroller.

(d) *Responses.* (1) Except as otherwise provided herein, within ten days after service of any written motion, or within such other period of time as may be established by the administrative law

12 CFR Ch. I (1-1-14 Edition)

judge or the Comptroller, any party may file a written response to a motion. The administrative law judge shall not rule on any oral or written motion before each party has had an opportunity to file a response.

(2) The failure of a party to oppose a written motion or an oral motion made on the record is deemed a consent by that party to the entry of an order substantially in the form of the order accompanying the motion.

(e) *Dilatory motions.* Frivolous, dilatory or repetitive motions are prohibited. The filing of such motions may form the basis for sanctions.

(f) *Dispositive motions.* Dispositive motions are governed by §§ 19.29 and 19.30.

§ 19.24 Scope of document discovery.

(a) *Limits on discovery.* (1) Subject to the limitations set out in paragraphs (b), (c), and (d) of this section, a party to a proceeding under this subpart may obtain document discovery by serving a written request to produce documents. For purposes of a request to produce documents, the term "documents" may be defined to include drawings, graphs, charts, photographs, recordings, data stored in electronic form, and other data compilations from which information can be obtained, or translated, if necessary, by the parties through detection devices into reasonably usable form, as well as written material of all kinds.

(2) Discovery by use of deposition is governed by subpart I of this part.

(3) Discovery by use of interrogatories is not permitted.

(b) *Relevance.* A party may obtain document discovery regarding any matter, not privileged, that has material relevance to the merits of the pending action. Any request to produce documents that calls for irrelevant material, that is unreasonable, oppressive, excessive in scope, unduly burdensome, or repetitive of previous requests, or that seeks to obtain privileged documents will be denied or modified. A request is unreasonable, oppressive, excessive in scope, or unduly burdensome if, among other things, it fails to include justifiable limitations on the time period covered and the geographic

locations to be searched, the time provided to respond in the request is inadequate, or the request calls for copies of documents to be delivered to the requesting party and fails to include the requestor's written agreement to pay in advance for the copying, in accordance with § 19.25.

(c) *Privileged matter.* Privileged documents are not discoverable. Privileges include the attorney-client privilege, work-product privilege, any government's or government agency's deliberative process privilege, and any other privileges the Constitution, any applicable act of Congress, or the principles of common law provide.

(d) *Time limits.* All discovery, including all responses to discovery requests, shall be completed at least 20 days prior to the date scheduled for the commencement of the hearing, except as provided in the Local Rules. No exceptions to this time limit shall be permitted, unless the administrative law judge finds on the record that good cause exists for waiving the requirements of this paragraph.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20335, May 6, 1996]

§ 19.25 Request for document discovery from parties.

(a) *General rule.* Any party may serve on any other party a request to produce for inspection any discoverable documents that are in the possession, custody, or control of the party upon whom the request is served. The request must identify the documents to be produced either by individual item or by category, and must describe each item and category with reasonable particularity. Documents must be produced as they are kept in the usual course of business or must be organized to correspond with the categories in the request.

(b) *Production or copying.* The request must specify a reasonable time, place, and manner for production and performing any related acts. In lieu of inspecting the documents, the requesting party may specify that all or some of the responsive documents be copied and the copies delivered to the requesting party. If copying of fewer than 250 pages is requested, the party to whom the request is addressed shall bear the

cost of copying and shipping charges. If a party requests 250 pages or more of copying, the requesting party shall pay for the copying and shipping charges. Copying charges are the current per-page copying rate imposed by 12 CFR part 4 implementing the Freedom of Information Act (5 U.S.C. 552). The party to whom the request is addressed may require payment in advance before producing the documents.

(c) *Obligation to update responses.* A party who has responded to a discovery request with a response that was complete when made is not required to supplement the response to include documents thereafter acquired, unless the responding party learns that:

(1) The response was materially incorrect when made; or

(2) The response, though correct when made, is no longer true and a failure to amend the response is, in substance, a knowing concealment.

(d) *Motions to limit discovery.* (1) Any party that objects to a discovery request may, within ten days of being served with such request, file a motion in accordance with the provisions of § 19.23 to strike or otherwise limit the request. If an objection is made to only a portion of an item or category in a request, the portion objected to shall be specified. Any objections not made in accordance with this paragraph and § 19.23 are waived.

(2) The party who served the request that is the subject of a motion to strike or limit may file a written response within five days of service of the motion. No other party may file a response.

(e) *Privilege.* At the time other documents are produced, the producing party must reasonably identify all documents withheld on the grounds of privilege and must produce a statement of the basis for the assertion of privilege. When similar documents that are protected by deliberative process, attorney work-product, or attorney-client privilege are voluminous, these documents may be identified by category instead of by individual document. The administrative law judge retains discretion to determine when the identification by category is insufficient.

§ 19.26

12 CFR Ch. I (1–1–14 Edition)

(f) *Motions to compel production.* (1) If a party withholds any documents as privileged or fails to comply fully with a discovery request, the requesting party may, within ten days of the assertion of privilege or of the time the failure to comply becomes known to the requesting party, file a motion in accordance with the provisions of § 19.23 for the issuance of a subpoena compelling production.

(2) The party who asserted the privilege or failed to comply with the request may file a written response to a motion to compel within five days of service of the motion. No other party may file a response.

(g) *Ruling on motions.* After the time for filing responses pursuant to this section has expired, the administrative law judge shall rule promptly on all motions filed pursuant to this section. If the administrative law judge determines that a discovery request, or any of its terms, calls for irrelevant material, is unreasonable, oppressive, excessive in scope, unduly burdensome, or repetitive of previous requests, or seeks to obtain privileged documents, he or she may deny or modify the request, and may issue appropriate protective orders, upon such conditions as justice may require. The pendency of a motion to strike or limit discovery or to compel production is not a basis for staying or continuing the proceeding, unless otherwise ordered by the administrative law judge. Notwithstanding any other provision in this part, the administrative law judge may not release, or order a party to produce, documents withheld on grounds of privilege if the party has stated to the administrative law judge its intention to file a timely motion for interlocutory review of the administrative law judge's order to produce the documents, and until the motion for interlocutory review has been decided.

(h) *Enforcing discovery subpoenas.* If the administrative law judge issues a subpoena compelling production of documents by a party, the subpoenaing party may, in the event of noncompliance and to the extent authorized by applicable law, apply to any appropriate United States district court for an order requiring compliance with the subpoena. A party's right to seek court

enforcement of a subpoena shall not in any manner limit the sanctions that may be imposed by the administrative law judge against a party who fails to produce subpoenaed documents.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20335, May 6, 1996]

§ 19.26 Document subpoenas to non-parties.

(a) *General rules.* (1) Any party may apply to the administrative law judge for the issuance of a document discovery subpoena addressed to any person who is not a party to the proceeding. The application must contain a proposed document subpoena and a brief statement showing the general relevance and reasonableness of the scope of documents sought. The subpoenaing party shall specify a reasonable time, place, and manner for making production in response to the document subpoena.

(2) A party shall only apply for a document subpoena under this section within the time period during which such party could serve a discovery request under § 19.24(d). The party obtaining the document subpoena is responsible for serving it on the subpoenaed person and for serving copies on all parties. Document subpoenas may be served in any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law.

(3) The administrative law judge shall promptly issue any document subpoena requested pursuant to this section. If the administrative law judge determines that the application does not set forth a valid basis for the issuance of the subpoena, or that any of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she may refuse to issue the subpoena or may issue it in a modified form upon such conditions as may be consistent with the Uniform Rules.

(b) *Motion to quash or modify.* (1) Any person to whom a document subpoena is directed may file a motion to quash or modify such subpoena, accompanied by a statement of the basis for quashing or modifying the subpoena. The movant shall serve the motion on all parties, and any party may respond to

such motion within ten days of service of the motion.

(2) Any motion to quash or modify a document subpoena must be filed on the same basis, including the assertion of privilege, upon which a party could object to a discovery request under §19.25(d), and during the same time limits during which such an objection could be filed.

(c) *Enforcing document subpoenas.* If a subpoenaed person fails to comply with any subpoena issued pursuant to this section or any order of the administrative law judge which directs compliance with all or any portion of a document subpoena, the subpoenaing party or any other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with so much of the document subpoena as the administrative law judge has not quashed or modified. A party's right to seek court enforcement of a document subpoena shall in no way limit the sanctions that may be imposed by the administrative law judge on a party who induces a failure to comply with subpoenas issued under this section.

§ 19.27 Deposition of witness unavailable for hearing.

(a) *General rules.* (1) If a witness will not be available for the hearing, a party desiring to preserve that witness' testimony for the record may apply in accordance with the procedures set forth in paragraph (a)(2) of this section, to the administrative law judge for the issuance of a subpoena, including a subpoena duces tecum, requiring the attendance of the witness at a deposition. The administrative law judge may issue a deposition subpoena under this section upon showing that:

(i) The witness will be unable to attend or may be prevented from attending the hearing because of age, sickness or infirmity, or will otherwise be unavailable;

(ii) The witness' unavailability was not procured or caused by the subpoenaing party;

(iii) The testimony is reasonably expected to be material; and

(iv) Taking the deposition will not result in any undue burden to any

other party and will not cause undue delay of the proceeding.

(2) The application must contain a proposed deposition subpoena and a brief statement of the reasons for the issuance of the subpoena. The subpoena must name the witness whose deposition is to be taken and specify the time and place for taking the deposition. A deposition subpoena may require the witness to be deposed at any place within the country in which that witness resides or has a regular place of employment or such other convenient place as the administrative law judge shall fix.

(3) Any requested subpoena that sets forth a valid basis for its issuance must be promptly issued, unless the administrative law judge on his or her own motion, requires a written response or requires attendance at a conference concerning whether the requested subpoena should be issued.

(4) The party obtaining a deposition subpoena is responsible for serving it on the witness and for serving copies on all parties. Unless the administrative law judge orders otherwise, no deposition under this section shall be taken on fewer than ten days' notice to the witness and all parties. Deposition subpoenas may be served in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or as otherwise permitted by law.

(b) *Objections to deposition subpoenas.*

(1) The witness and any party who has not had an opportunity to oppose a deposition subpoena issued under this section may file a motion with the administrative law judge to quash or modify the subpoena prior to the time for compliance specified in the subpoena, but not more than ten days after service of the subpoena.

(2) A statement of the basis for the motion to quash or modify a subpoena issued under this section must accompany the motion. The motion must be served on all parties.

(c) *Procedure upon deposition.* (1) Each witness testifying pursuant to a deposition subpoena must be duly sworn, and

§ 19.28

each party shall have the right to examine the witness. Objections to questions or documents must be in short form, stating the grounds for the objection. Failure to object to questions or documents is not deemed a waiver except where the ground for the objection might have been avoided if the objection had been timely presented. All questions, answers, and objections must be recorded.

(2) Any party may move before the administrative law judge for an order compelling the witness to answer any questions the witness has refused to answer or submit any evidence the witness has refused to submit during the deposition.

(3) The deposition must be subscribed by the witness, unless the parties and the witness, by stipulation, have waived the signing, or the witness is ill, cannot be found, or has refused to sign. If the deposition is not subscribed by the witness, the court reporter taking the deposition shall certify that the transcript is a true and complete transcript of the deposition.

(d) *Enforcing subpoenas.* If a subpoenaed person fails to comply with any order of the administrative law judge which directs compliance with all or any portion of a deposition subpoena under paragraph (b) or (c)(3) of this section, the subpoenaing party or other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with the portions of the subpoena that the administrative law judge has ordered enforced. A party's right to seek court enforcement of a deposition subpoena in no way limits the sanctions that may be imposed by the administrative law judge on a party who fails to comply with, or procures a failure to comply with, a subpoena issued under this section.

§ 19.28 Interlocutory review.

(a) *General rule.* The Comptroller may review a ruling of the administrative law judge prior to the certification of the record to the Comptroller only in accordance with the procedures set forth in this section and § 19.23.

(b) *Scope of review.* The Comptroller may exercise interlocutory review of a

12 CFR Ch. I (1-1-14 Edition)

ruling of the administrative law judge if the Comptroller finds that:

(1) The ruling involves a controlling question of law or policy as to which substantial grounds exist for a difference of opinion;

(2) Immediate review of the ruling may materially advance the ultimate termination of the proceeding;

(3) Subsequent modification of the ruling at the conclusion of the proceeding would be an inadequate remedy; or

(4) Subsequent modification of the ruling would cause unusual delay or expense.

(c) *Procedure.* Any request for interlocutory review shall be filed by a party with the administrative law judge within ten days of his or her ruling and shall otherwise comply with § 19.23. Any party may file a response to a request for interlocutory review in accordance with § 19.23(d). Upon the expiration of the time for filing all responses, the administrative law judge shall refer the matter to the Comptroller for final disposition.

(d) *Suspension of proceeding.* Neither a request for interlocutory review nor any disposition of such a request by the Comptroller under this section suspends or stays the proceeding unless otherwise ordered by the administrative law judge or the Comptroller.

§ 19.29 Summary disposition.

(a) *In general.* The administrative law judge shall recommend that the Comptroller issue a final order granting a motion for summary disposition if the undisputed pleaded facts, admissions, affidavits, stipulations, documentary evidence, matters as to which official notice may be taken, and any other evidentiary materials properly submitted in connection with a motion for summary disposition show that:

(1) There is no genuine issue as to any material fact; and

(2) The moving party is entitled to a decision in its favor as a matter of law.

(b) *Filing of motions and responses.* (1) Any party who believes there is no genuine issue of material fact to be determined and that he or she is entitled to a decision as a matter of law may move at any time for summary disposition in

its favor of all or any part of the proceeding. Any party, within 20 days after service of such a motion, or within such time period as allowed by the administrative law judge, may file a response to such motion.

(2) A motion for summary disposition must be accompanied by a statement of the material facts as to which the moving party contends there is no genuine issue. Such motion must be supported by documentary evidence, which may take the form of admissions in pleadings, stipulations, depositions, investigatory depositions, transcripts, affidavits and any other evidentiary materials that the moving party contends support his or her position. The motion must also be accompanied by a brief containing the points and authorities in support of the contention of the moving party. Any party opposing a motion for summary disposition must file a statement setting forth those material facts as to which he or she contends a genuine dispute exists. Such opposition must be supported by evidence of the same type as that submitted with the motion for summary disposition and a brief containing the points and authorities in support of the contention that summary disposition would be inappropriate.

(c) *Hearing on motion.* At the request of any party or on his or her own motion, the administrative law judge may hear oral argument on the motion for summary disposition.

(d) *Decision on motion.* Following receipt of a motion for summary disposition and all responses thereto, the administrative law judge shall determine whether the moving party is entitled to summary disposition. If the administrative law judge determines that summary disposition is warranted, the administrative law judge shall submit a recommended decision to that effect to the Comptroller. If the administrative law judge finds that no party is entitled to summary disposition, he or she shall make a ruling denying the motion.

§ 19.30 Partial summary disposition.

If the administrative law judge determines that a party is entitled to summary disposition as to certain claims only, he or she shall defer submitting a

recommended decision as to those claims. A hearing on the remaining issues must be ordered. Those claims for which the administrative law judge has determined that summary disposition is warranted will be addressed in the recommended decision filed at the conclusion of the hearing.

§ 19.31 Scheduling and prehearing conferences.

(a) *Scheduling conference.* Within 30 days of service of the notice or order commencing a proceeding or such other time as parties may agree, the administrative law judge shall direct counsel for all parties to meet with him or her in person at a specified time and place prior to the hearing or to confer by telephone for the purpose of scheduling the course and conduct of the proceeding. This meeting or telephone conference is called a "scheduling conference." The identification of potential witnesses, the time for and manner of discovery, and the exchange of any prehearing materials including witness lists, statements of issues, stipulations, exhibits and any other materials may also be determined at the scheduling conference.

(b) *Prehearing conferences.* The administrative law judge may, in addition to the scheduling conference, on his or her own motion or at the request of any party, direct counsel for the parties to meet with him or her (in person or by telephone) at a prehearing conference to address any or all of the following:

- (1) Simplification and clarification of the issues;
- (2) Stipulations, admissions of fact, and the contents, authenticity and admissibility into evidence of documents;
- (3) Matters of which official notice may be taken;
- (4) Limitation of the number of witnesses;
- (5) Summary disposition of any or all issues;
- (6) Resolution of discovery issues or disputes;
- (7) Amendments to pleadings; and
- (8) Such other matters as may aid in the orderly disposition of the proceeding.

§ 19.32

(c) *Transcript.* The administrative law judge, in his or her discretion, may require that a scheduling or prehearing conference be recorded by a court reporter. A transcript of the conference and any materials filed, including orders, becomes part of the record of the proceeding. A party may obtain a copy of the transcript at his or her expense.

(d) *Scheduling or prehearing orders.* At or within a reasonable time following the conclusion of the scheduling conference or any prehearing conference, the administrative law judge shall serve on each party an order setting forth any agreements reached and any procedural determinations made.

§ 19.32 Prehearing submissions.

(a) Within the time set by the administrative law judge, but in no case later than 14 days before the start of the hearing, each party shall serve on every other party, his or her:

(1) Prehearing statement;

(2) Final list of witnesses to be called to testify at the hearing, including name and address of each witness and a short summary of the expected testimony of each witness;

(3) List of the exhibits to be introduced at the hearing along with a copy of each exhibit; and

(4) Stipulations of fact, if any.

(b) Effect of failure to comply. No witness may testify and no exhibits may be introduced at the hearing if such witness or exhibit is not listed in the prehearing submissions pursuant to paragraph (a) of this section, except for good cause shown.

§ 19.33 Public hearings.

(a) *General rule.* All hearings shall be open to the public, unless the Comptroller, in the Comptroller's discretion, determines that holding an open hearing would be contrary to the public interest. Within 20 days of service of the notice or, in the case of change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)), within 20 days from service of the hearing order, any respondent may file with the Comptroller a request for a private hearing, and any party may file a reply to such a request. A party must serve on the administrative law judge a copy of any request or reply the party files

12 CFR Ch. I (1-1-14 Edition)

with the Comptroller. The form of, and procedure for, these requests and replies are governed by § 19.23. A party's failure to file a request or a reply constitutes a waiver of any objections regarding whether the hearing will be public or private.

(b) *Filing document under seal.* Enforcement Counsel, in his or her discretion, may file any document or part of a document under seal if disclosure of the document would be contrary to the public interest. The administrative law judge shall take all appropriate steps to preserve the confidentiality of such documents or parts thereof, including closing portions of the hearing to the public.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20336, May 6, 1996]

§ 19.34 Hearing subpoenas.

(a) *Issuance.* (1) Upon application of a party showing general relevance and reasonableness of scope of the testimony or other evidence sought, the administrative law judge may issue a subpoena or a subpoena *duces tecum* requiring the attendance of a witness at the hearing or the production of documentary or physical evidence at the hearing. The application for a hearing subpoena must also contain a proposed subpoena specifying the attendance of a witness or the production of evidence from any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law at any designated place where the hearing is being conducted. The party making the application shall serve a copy of the application and the proposed subpoena on every other party.

(2) A party may apply for a hearing subpoena at any time before the commencement of a hearing. During a hearing, a party may make an application for a subpoena orally on the record before the administrative law judge.

(3) The administrative law judge shall promptly issue any hearing subpoena requested pursuant to this section. If the administrative law judge determines that the application does not set forth a valid basis for the issuance of the subpoena, or that any

of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she may refuse to issue the subpoena or may issue it in a modified form upon any conditions consistent with this subpart. Upon issuance by the administrative law judge, the party making the application shall serve the subpoena on the person named in the subpoena and on each party.

(b) *Motion to quash or modify.* (1) Any person to whom a hearing subpoena is directed or any party may file a motion to quash or modify the subpoena, accompanied by a statement of the basis for quashing or modifying the subpoena. The movant must serve the motion on each party and on the person named in the subpoena. Any party may respond to the motion within ten days of service of the motion.

(2) Any motion to quash or modify a hearing subpoena must be filed prior to the time specified in the subpoena for compliance but not more than ten days after the date of service of the subpoena upon the movant.

(c) *Enforcing subpoenas.* If a subpoenaed person fails to comply with any subpoena issued pursuant to this section or any order of the administrative law judge which directs compliance with all or any portion of a document subpoena, the subpoenaing party or any other aggrieved party may seek enforcement of the subpoena pursuant to § 19.26(c).

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20336, May 6, 1996]

§ 19.35 Conduct of hearings.

(a) *General rules.* (1) Hearings shall be conducted so as to provide a fair and expeditious presentation of the relevant disputed issues. Each party has the right to present its case or defense by oral and documentary evidence and to conduct such cross examination as may be required for full disclosure of the facts.

(2) *Order of hearing.* Enforcement Counsel shall present its case-in-chief first, unless otherwise ordered by the administrative law judge, or unless otherwise expressly specified by law or regulation. Enforcement Counsel shall be the first party to present an opening statement and a closing statement, and

may make a rebuttal statement after the respondent's closing statement. If there are multiple respondents, respondents may agree among themselves as to their order of presentation of their cases, but if they do not agree, the administrative law judge shall fix the order.

(3) *Examination of witnesses.* Only one counsel for each party may conduct an examination of a witness, except that in the case of extensive direct examination, the administrative law judge may permit more than one counsel for the party presenting the witness to conduct the examination. A party may have one counsel conduct the direct examination and another counsel conduct re-direct examination of a witness, or may have one counsel conduct the cross examination of a witness and another counsel conduct the re-cross examination of a witness.

(4) *Stipulations.* Unless the administrative law judge directs otherwise, all stipulations of fact and law previously agreed upon by the parties, and all documents, the admissibility of which have been previously stipulated, will be admitted into evidence upon commencement of the hearing.

(b) *Transcript.* The hearing must be recorded and transcribed. The reporter will make the transcript available to any party upon payment by that party to the reporter of the cost of the transcript. The administrative law judge may order the record corrected, either upon motion to correct, upon stipulation of the parties, or following notice to the parties upon the administrative law judge's own motion.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20336, May 6, 1996]

§ 19.36 Evidence.

(a) *Admissibility.* (1) Except as is otherwise set forth in this section, relevant, material, and reliable evidence that is not unduly repetitive is admissible to the fullest extent authorized by the Administrative Procedure Act and other applicable law.

(2) Evidence that would be admissible under the Federal Rules of Evidence is admissible in a proceeding conducted pursuant to this subpart.

§ 19.37

12 CFR Ch. I (1–1–14 Edition)

(3) Evidence that would be inadmissible under the Federal Rules of Evidence may not be deemed or ruled to be inadmissible in a proceeding conducted pursuant to this subpart if such evidence is relevant, material, reliable and not unduly repetitive.

(b) *Official notice.* (1) Official notice may be taken of any material fact which may be judicially noticed by a United States district court and any material information in the official public records of any Federal or state government agency.

(2) All matters officially noticed by the administrative law judge or the Comptroller shall appear on the record.

(3) If official notice is requested or taken of any material fact, the parties, upon timely request, shall be afforded an opportunity to object.

(c) *Documents.* (1) A duplicate copy of a document is admissible to the same extent as the original, unless a genuine issue is raised as to whether the copy is in some material respect not a true and legible copy of the original.

(2) Subject to the requirements of paragraph (a) of this section, any document, including a report of examination, supervisory activity, inspection or visitation, prepared by an appropriate Federal financial institutions regulatory agency or by a state regulatory agency, is admissible either with or without a sponsoring witness.

(3) Witnesses may use existing or newly created charts, exhibits, calendars, calculations, outlines or other graphic material to summarize, illustrate, or simplify the presentation of testimony. Such materials may, subject to the administrative law judge's discretion, be used with or without being admitted into evidence.

(d) *Objections.* (1) Objections to the admissibility of evidence must be timely made and rulings on all objections must appear on the record.

(2) When an objection to a question or line of questioning propounded to a witness is sustained, the examining counsel may make a specific proffer on the record of what he or she expected to prove by the expected testimony of the witness either by representation of counsel or by direct interrogation of the witness.

(3) The administrative law judge shall retain rejected exhibits, adequately marked for identification, for the record, and transmit such exhibits to the Comptroller.

(4) Failure to object to admission of evidence or to any ruling constitutes a waiver of the objection.

(e) *Stipulations.* The parties may stipulate as to any relevant matters of fact or the authentication of any relevant documents. Such stipulations must be received in evidence at a hearing and are binding on the parties with respect to the matters therein stipulated.

(f) *Depositions of unavailable witnesses.*

(1) If a witness is unavailable to testify at a hearing, and that witness has testified in a deposition to which all parties in a proceeding had notice and an opportunity to participate, a party may offer as evidence all or any part of the transcript of the deposition, including deposition exhibits, if any.

(2) Such deposition transcript is admissible to the same extent that testimony would have been admissible had that person testified at the hearing, provided that if a witness refused to answer proper questions during the depositions, the administrative law judge may, on that basis, limit the admissibility of the deposition in any manner that justice requires.

(3) Only those portions of a deposition received in evidence at the hearing constitute a part of the record.

§ 19.37 Post-hearing filings.

(a) *Proposed findings and conclusions and supporting briefs.* (1) Using the same method of service for each party, the administrative law judge shall serve notice upon each party that the certified transcript, together with all hearing exhibits and exhibits introduced but not admitted into evidence at the hearing, has been filed. Any party may file with the administrative law judge proposed findings of fact, proposed conclusions of law, and a proposed order within 30 days following service of this notice by the administrative law judge or within such longer period as may be ordered by the administrative law judge.

(2) Proposed findings and conclusions must be supported by citation to any

relevant authorities and by page references to any relevant portions of the record. A post-hearing brief may be filed in support of proposed findings and conclusions, either as part of the same document or in a separate document. Any party who fails to file timely with the administrative law judge any proposed finding or conclusion is deemed to have waived the right to raise in any subsequent filing or submission any issue not addressed in such party's proposed finding or conclusion.

(b) *Reply briefs.* Reply briefs may be filed within 15 days after the date on which the parties' proposed findings, conclusions, and order are due. Reply briefs must be strictly limited to responding to new matters, issues, or arguments raised in another party's papers. A party who has not filed proposed findings of fact and conclusions of law or a post-hearing brief may not file a reply brief.

(c) *Simultaneous filing required.* The administrative law judge shall not order the filing by any party of any brief or reply brief in advance of the other party's filing of its brief.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20336, May 6, 1996]

§ 19.38 Recommended decision and filing of record.

(a) *Filing of recommended decision and record.* Within 45 days after expiration of the time allowed for filing reply briefs under § 19.37(b), the administrative law judge shall file with and certify to the Comptroller, for decision, the record of the proceeding. The record must include the administrative law judge's recommended decision, recommended findings of fact, recommended conclusions of law, and proposed order; all prehearing and hearing transcripts, exhibits, and rulings; and the motions, briefs, memoranda, and other supporting papers filed in connection with the hearing. The administrative law judge shall serve upon each party the recommended decision, findings, conclusions, and proposed order.

(b) *Filing of index.* At the same time the administrative law judge files with and certifies to the Comptroller for final determination the record of the proceeding, the administrative law judge shall furnish to the Comptroller

a certified index of the entire record of the proceeding. The certified index shall include, at a minimum, an entry for each paper, document or motion filed with the administrative law judge in the proceeding, the date of the filing, and the identity of the filer. The certified index shall also include an exhibit index containing, at a minimum, an entry consisting of exhibit number and title or description for: Each exhibit introduced and admitted into evidence at the hearing; each exhibit introduced but not admitted into evidence at the hearing; each exhibit introduced and admitted into evidence after the completion of the hearing; and each exhibit introduced but not admitted into evidence after the completion of the hearing.

[61 FR 20336, May 6, 1996]

§ 19.39 Exceptions to recommended decision.

(a) *Filing exceptions.* Within 30 days after service of the recommended decision, findings, conclusions, and proposed order under § 19.38, a party may file with the Comptroller written exceptions to the administrative law judge's recommended decision, findings, conclusions or proposed order, to the admission or exclusion of evidence, or to the failure of the administrative law judge to make a ruling proposed by a party. A supporting brief may be filed at the time the exceptions are filed, either as part of the same document or in a separate document.

(b) *Effect of failure to file or raise exceptions.* (1) Failure of a party to file exceptions to those matters specified in paragraph (a) of this section within the time prescribed is deemed a waiver of objection thereto.

(2) No exception need be considered by the Comptroller if the party taking exception had an opportunity to raise the same objection, issue, or argument before the administrative law judge and failed to do so.

(c) *Contents.* (1) All exceptions and briefs in support of such exceptions must be confined to the particular matters in, or omissions from, the administrative law judge's recommendations to which that party takes exception.

§ 19.40

(2) All exceptions and briefs in support of exceptions must set forth page or paragraph references to the specific parts of the administrative law judge's recommendations to which exception is taken, the page or paragraph references to those portions of the record relied upon to support each exception, and the legal authority relied upon to support each exception.

§ 19.40 Review by the Comptroller.

(a) *Notice of submission to the Comptroller.* When the Comptroller determines that the record in the proceeding is complete, the Comptroller shall serve notice upon the parties that the proceeding has been submitted to the Comptroller for final decision.

(b) *Oral argument before the Comptroller.* Upon the initiative of the Comptroller or on the written request of any party filed with the Comptroller within the time for filing exceptions, the Comptroller may order and hear oral argument on the recommended findings, conclusions, decision, and order of the administrative law judge. A written request by a party must show good cause for oral argument and state reasons why arguments cannot be presented adequately in writing. A denial of a request for oral argument may be set forth in the Comptroller's final decision. Oral argument before the Comptroller must be on the record.

(c) *Comptroller's final decision.* (1) Decisional employees may advise and assist the Comptroller in the consideration and disposition of the case. The final decision of the Comptroller will be based upon review of the entire record of the proceeding, except that the Comptroller may limit the issues to be reviewed to those findings and conclusions to which opposing arguments or exceptions have been filed by the parties.

(2) The Comptroller shall render a final decision within 90 days after notification of the parties that the case has been submitted for final decision, or 90 days after oral argument, whichever is later, unless the Comptroller orders that the action or any aspect thereof be remanded to the administrative law judge for further proceedings. Copies of the final decision and order of the Comptroller shall be served upon each

12 CFR Ch. I (1–1–14 Edition)

party to the proceeding, upon other persons required by statute, and, if directed by the Comptroller or required by statute, upon any appropriate state or Federal supervisory authority.

§ 19.41 Stays pending judicial review.

The commencement of proceedings for judicial review of a final decision and order of the Comptroller may not, unless specifically ordered by the Comptroller or a reviewing court, operate as a stay of any order issued by the Comptroller. The Comptroller may, in his or her discretion, and on such terms as he or she finds just, stay the effectiveness of all or any part of an order pending a final decision on a petition for review of that order.

Subpart B—Procedural Rules for OCC Adjudications

§ 19.100 Filing documents.

All materials required to be filed with or referred to the Comptroller or the administrative law judge in any proceeding under this part must be filed with the Hearing Clerk, Office of the Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219. Filings to be made with the Hearing Clerk include the notice and answer; motions and responses to motions; briefs; the record filed by the administrative law judge after the issuance of a recommended decision; the recommended decision filed by the administrative law judge following a motion for summary disposition; referrals by the administrative law judge of motions for interlocutory review; exceptions and requests for oral argument; and any other papers required to be filed with the Comptroller or the administrative law judge under this part.

[68 FR 48265, Aug. 13, 2002, as amended at 73 FR 22243, Apr. 24, 2008]

§ 19.101 Delegation to OFIA.

Unless otherwise ordered by the Comptroller, administrative adjudications subject to subpart A of this part shall be conducted by an administrative law judge assigned to OFIA.

Subpart C—Removals, Suspensions, and Prohibitions When a Crime Is Charged or a Conviction Is Obtained

§ 19.110 Scope.

This subpart applies to informal hearings afforded to any institution-affiliated party who has been suspended or removed from office or prohibited from further participation in the affairs of any depository institution pursuant to 12 U.S.C. 1818(g) by a notice or order issued by the Comptroller.

[56 FR 38028, Aug. 9, 1991, as amended at 73 FR 22243, Apr. 24, 2008]

§ 19.111 Suspension, removal, or prohibition.

The Comptroller may serve a notice of suspension or order of removal or prohibition pursuant to 12 U.S.C. 1818(g) on an institution-affiliated party. A copy of such notice or order will be served on any depository institution that the subject of the notice or order is affiliated with at the time the notice or order is issued, whereupon the institution-affiliated party involved must immediately cease service to, or participation in the affairs of, that depository institution and, if so determined by the OCC, any other depository institution. The notice or order will indicate the basis for suspension, removal or prohibition and will inform the institution-affiliated party of the right to request in writing, to be received by the OCC within 30 days from the date that the institution-affiliated party was served with such notice or order, an opportunity to show at an informal hearing that continued service to or participation in the conduct of the affairs of any depository institution has not posed, does not pose, or is not likely to pose a threat to the interests of the depositors of, or has not threatened, does not threaten, or is not likely to threaten to impair public confidence in, any relevant depository institution. The written request must be sent by certified mail to, or served personally with a signed receipt on, the District Deputy Comptroller in the OCC district in which the bank in question is located; if the bank is supervised by Large Bank Supervision, to

the Senior Deputy Comptroller for Large Bank Supervision for the Office of the Comptroller of the Currency; if the bank is supervised by Mid-Size/Community Bank Supervision, to the Senior Deputy Comptroller for Mid-Size/Community Bank Supervision for the Office of the Comptroller of the Currency; or if the institution-affiliated party is no longer affiliated with a particular national bank, to the Deputy Comptroller for Special Supervision, Washington, DC 20219. The request must state specifically the relief desired and the grounds on which that relief is based. For purposes of this section, the term *depository institution* means any depository institution of which the petitioner is or was an institution-affiliated party at the time at which the notice or order was issued by the Comptroller.

[73 FR 22243, Apr. 24, 2008]

§ 19.112 Informal hearing.

(a) *Issuance of hearing order.* After receipt of a request for hearing, the District Deputy Comptroller, the Senior Deputy Comptroller for Large Bank Supervision, the Senior Deputy Comptroller for Mid-Size/Community Bank Supervision, or the Deputy Comptroller for Special Supervision, as appropriate, must notify the petitioner requesting the hearing, the OCC's Enforcement and Compliance Division, and the appropriate OCC District Counsel of the date, time, and place fixed for the hearing. The hearing must be scheduled to be held not later than 30 days from the date when a request for hearing is received unless the time is extended in response to a written request of the petitioner. The District Deputy Comptroller, the Senior Deputy Comptroller for Large Bank Supervision, the Senior Deputy Comptroller for Mid-Size/Community Bank Supervision, or the Deputy Comptroller for Special Supervision, as appropriate, may extend the hearing date only for a specific period of time and must take appropriate action to ensure that the hearing is not unduly delayed.

(b) *Appointment of presiding officer.* the District Deputy Comptroller, the Senior Deputy Comptroller for Large Bank Supervision, the Senior Deputy Comptroller for Mid-Size/Community

Bank Supervision, or the Deputy Comptroller for Special Supervision, as appropriate, must appoint one or more OCC employees as the presiding officer to conduct the hearing. The presiding officer(s) may not have been involved in the proceeding, a factually related proceeding, or the underlying enforcement action in a prosecutorial or investigative role.

(c) *Waiver of oral hearing*—(1) *Petitioner*. When the petitioner requests a hearing, the petitioner may elect to have the matter determined by the presiding officer solely on the basis of written submissions by serving on the District Deputy Comptroller, the Senior Deputy Comptroller for Large Bank Supervision, the Senior Deputy Comptroller for Mid-Size/Community Bank Supervision, or the Deputy Comptroller for Special Supervision, as appropriate, and all parties, a signed document waiving the statutory right to appear and make oral argument. The petitioner must present the written submissions to the presiding officer, and serve the other parties, not later than ten days prior to the date fixed for the hearing, or within such shorter time period as the presiding officer may permit.

(2) *OCC*. The OCC may respond to the petitioner's submissions by presenting the presiding officer with a written response, and by serving the other parties, not later than the date fixed for the hearing, or within such other time period as the presiding officer may require.

(d) *Hearing procedures*—(1) *Conduct of hearing*. Hearings under this subpart are not subject to the provisions of subpart A of this part or the adjudicative provisions of the Administrative Procedure Act (5 U.S.C. 554–557).

(2) *Powers of the presiding officer*. The presiding officer shall determine all procedural issues that are governed by this subpart. The presiding officer may also permit or limit the number of witnesses and impose time limitations as he or she deems reasonable. The informal hearing will not be governed by the formal rules of evidence. All oral presentations, when permitted, and documents deemed by the presiding officer to be relevant and material to the proceeding and not unduly repetitious

will be considered. The presiding officer may ask questions of any person participating in the hearing and may make any rulings reasonably necessary to facilitate the effective and efficient operation of the hearing.

(3) *Presentation*. (i) The OCC may appear and the petitioner may appear personally or through counsel at the hearing to present relevant written materials and oral argument. Except as permitted in paragraph (c) of this section, each party, including the OCC, must file a copy of any affidavit, memorandum, or other written material to be presented at the hearing with the presiding officer and must serve the other parties not later than ten days prior to the hearing or within such shorter time period as permitted by the presiding officer.

(ii) If the petitioner or the appointed OCC attorney desires to present oral testimony or witnesses at the hearing, he or she must file a written request with the presiding officer not later than ten days prior to the hearing, or within a shorter time period as permitted by the presiding officer. The names of proposed witnesses should be included, along with the general nature of the expected testimony, and the reasons why oral testimony is necessary. The presiding officer generally will not admit oral testimony or witnesses unless a specific and compelling need is demonstrated. Witnesses, if admitted, shall be sworn.

(iii) In deciding on any suspension, the presiding officer shall not consider the ultimate question of the guilt or innocence of the individual with respect to the criminal charges which are outstanding. In deciding on any removal, the presiding officer shall not consider challenges to or efforts to impeach the validity of the conviction. The presiding officer may consider facts in either situation, however, which show the nature of the events on which the indictment or conviction was based.

(4) *Record*. A transcript of the proceedings may be taken if the petitioner requests a transcript and agrees to pay all expenses or if the presiding officer determines that the nature of the case warrants a transcript. The presiding officer may order the record to be kept

Comptroller of the Currency, Treasury

§ 19.121

open for a reasonable period following the hearing, not to exceed five business days, to permit the petitioner or the appointed OCC attorney to submit additional documents for the record. Thereafter, no further submissions may be accepted except for good cause shown.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20337, May 6, 1996; 73 FR 22244, Apr. 24, 2008]

§ 19.113 Recommended and final decisions.

(a) The presiding officer must issue a recommended decision to the Comptroller within 20 days of the conclusion of the hearing or, when the petitioner has waived an oral hearing, within 20 days of the date fixed for the hearing. The presiding officer must serve promptly a copy of the recommended decision on the parties to the proceeding. The decision must include a summary of the facts and arguments of the parties.

(b) Each party may, within ten days of being served with the presiding officer's recommended decision, submit to the Comptroller comments on the recommended decision.

(c) Within 60 days of the conclusion of the hearing or, when the petitioner has waived an oral hearing, within 60 days from the date fixed for the hearing, the Comptroller must notify the petitioner by registered mail whether the suspension or removal from office, and prohibition from participation in any manner in the affairs of any depository institution, will be affirmed, terminated, or modified. The Comptroller's decision must include a statement of reasons supporting the decision. The Comptroller's decision is a final and unappealable order.

(d) A finding of not guilty or other disposition of the charge on which a notice of suspension was based does not preclude the Comptroller from thereafter instituting removal proceedings pursuant to section 8(e) of the FDIA (12 U.S.C. 1818(e)) and subpart: A of this part.

(e) A removal or prohibition by order remains in effect until terminated by the Comptroller. A suspension or prohibition by notice remains in effect until

the criminal charge is disposed of or until terminated by the Comptroller.

(f) A suspended or removed individual may petition the Comptroller to reconsider the decision any time after the expiration of a 12-month period from the date of the decision, but no petition for reconsideration may be made within 12 months of a previous petition. The petition must state specifically the relief sought and the grounds therefor, and may be accompanied by a supporting memorandum and any other documentation the petitioner wishes to have considered. No hearing need be granted on the petition for reconsideration.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20337, May 6, 1996; 73 FR 22244, Apr. 24, 2008]

Subpart D—Exemption Hearings Under Section 12(h) of the Securities Exchange Act of 1934

§ 19.120 Scope.

The rules in this subpart apply to informal hearings that may be held by the Comptroller to determine whether, pursuant to authority in sections 12 (h) and (i) of the Exchange Act (15 U.S.C. 78l (h) and (i)), to exempt in whole or in part an issuer or a class of issuers from the provisions of section 12(g), or from section 13 or 14 of the Exchange Act (15 U.S.C. 78l(g), 78m or 78n), or whether to exempt from section 16 of the Exchange Act (15 U.S.C. 78p) any officer, director, or beneficial owner of securities of an issuer. The only issuers covered by this subpart are banks whose securities are registered pursuant to section 12(g) of the Exchange Act (15 U.S.C. 78l(g)). The Comptroller may deny an application for exemption without a hearing.

§ 19.121 Application for exemption.

An issuer or an individual (officer, director or shareholder) may submit a written application for an exemption order to the Securities and Corporate Practices Division, Office of the Comptroller of the Currency, Washington, DC 20219. The application must specify the type of exemption sought and the reasons therefor, including an explanation of why an exemption would not

§ 19.122

be inconsistent with the public interest or the protection of investors. The Securities and Corporate Practices Division shall inform the applicant in writing whether a hearing will be held to consider the matter.

§ 19.122 Newspaper notice.

Upon being informed that an application will be considered at a hearing, the applicant shall publish a notice one time in a newspaper of general circulation in the community where the issuer's main office is located. The notice must state: the name and title of any individual applicants; the type of exemption sought; the fact that a hearing will be held; and a statement that interested persons may submit to the Securities and Corporate Practices Division, Office of the Comptroller of the Currency, Washington, DC 20219, within 30 days from the date of the newspaper notice, written comments concerning the application and a written request for an opportunity to be heard. The applicant shall promptly furnish a copy of the notice to the Securities and Corporate Practices Division, and to bank shareholders.

§ 19.123 Informal hearing.

(a) *Conduct of proceeding.* The adjudicative provisions of the Administrative Procedure Act, formal rules of evidence and subpart A of this part do not apply to hearings conducted under this subpart, except as provided in § 19.100(b).

(b) *Notice of hearing.* Following the comment period, the Comptroller shall send a notice which fixes a date, time and place for hearing to each applicant and to any person who has requested an opportunity to be heard.

(c) *Presiding officer.* The Comptroller shall designate a presiding officer to conduct the hearing. The presiding officer shall determine all procedural questions not governed by this subpart and may limit the number of witnesses and impose time and presentation limitations as are deemed reasonable. At the conclusion of the informal hearing, the presiding officer shall issue a recommended decision to the Comptroller as to whether the exemption should issue. The decision shall include a sum-

12 CFR Ch. I (1-1-14 Edition)

mary of the facts and arguments of the parties.

(d) *Attendance.* The applicant and any person who has requested an opportunity to be heard may attend the hearing, with or without counsel. The hearing shall be open to the public. In addition, the applicant and any other hearing participant may introduce oral testimony through such witnesses as the presiding officer shall permit.

(e) *Order of presentation.* (1) The applicant may present an opening statement of a length decided by the presiding officer. Then each of the hearing participants, or one among them selected with the approval of the presiding officer, may present an opening statement. The opening statement should summarize concisely what the applicant and each participant intends to show.

(2) The applicant shall have an opportunity to make an oral presentation of facts and materials or submit written materials for the record. One or more of the hearing participants may make an oral presentation or a written submission.

(3) After the above presentations, the applicant, followed by one or more of the hearing participants, may make concise summary statements reviewing their position.

(f) *Witnesses.* The obtaining and use of witnesses is the responsibility of the parties afforded the hearing. All witnesses shall be present on their own volition, but any person appearing as a witness may be questioned by each applicant, any hearing participant, and the presiding officer. Witnesses shall be sworn unless otherwise directed by the presiding officer.

(g) *Evidence.* The presiding officer may exclude data or materials deemed to be improper or irrelevant. Formal rules of evidence do not apply. Documentary material must be of a size consistent with ease of handling and filing. The presiding officer may determine the number of copies that must be furnished for purposes of the hearing.

(h) *Transcript.* A transcript of each proceeding will be arranged by the OCC, with all expenses, including the furnishing of a copy to the presiding officer, being borne by the applicant.

§ 19.124 Decision of the Comptroller.

Following the conclusion of the hearing and the submission of the record and the presiding officer's recommended decision to the Comptroller for decision, the Comptroller shall notify the applicant and all persons who have so requested in writing of the final disposition of the application. Exemptions granted must be in the form of an order which specifies the type of exemption granted and its terms and conditions.

Subpart E—Disciplinary Proceedings Involving the Federal Securities Laws

§ 19.130 Scope.

(a) Except as provided in this subpart, subpart A of this part applies to proceedings by the Comptroller to determine whether, pursuant to authority contained in sections 15B(c)(5), 15C(c)(2)(A), 17A(c)(3), and 17A(c)(4)(C) of the Exchange Act (15 U.S.C. 78o-4(c)(5), 78o-5(c)(2)(A), 78q-1(c)(3)(A), and 78q-1(c)(4)(C)), to take disciplinary action against the following:

- (1) A bank which is a municipal securities dealer, or any person associated or seeking to become associated with such a municipal securities dealer;
- (2) A bank which is a government securities broker or dealer, or any person associated with such government securities broker or dealer; or
- (3) A bank which is a transfer agent, or any person associated or seeking to become associated with such transfer agent.

(b) In addition to the issuance of disciplinary orders after opportunity for hearing, the Comptroller or the Comptroller's delegate may issue and serve any notices and temporary or permanent cease-and-desist orders and take any actions that are authorized by section 8 of the FDIA (12 U.S.C. 1818), sections 15B(c)(5), 15C(c)(2)(B), and 17A(d)(2) of the Exchange Act, and other subparts of this part against the following:

- (1) The parties listed in paragraph (a) of this section; and
- (2) A bank which is a clearing agency.

(c) Nothing in this subpart impairs the powers conferred on the Comptroller by other provisions of law.

§ 19.131 Notice of charges and answer.

(a) Proceedings are commenced when the Comptroller serves a notice of charges on a bank or associated person. The notice must indicate the type of disciplinary action being contemplated and the grounds therefor, and fix a date, time and place for hearing. The hearing must be set for a date at least 30 days after service of the notice. A party served with a notice of charges may file an answer as prescribed in § 19.19. Any party who fails to appear at a hearing personally or by a duly authorized representative shall be deemed to have consented to the issuance of a disciplinary order.

(b) All proceedings under this subpart must be commenced, and the notice of charges must be filed, on a public basis, unless otherwise ordered by the Comptroller. Pursuant to § 19.33(a), a request for a private hearing may be filed within 20 days of service of the notice.

§ 19.132 Disciplinary orders.

(a) In the event of consent, or if on the record filed by the administrative law judge, the Comptroller finds that any act or omission or violation specified in the notice of charges has been established, the Comptroller may serve on the bank or persons concerned a disciplinary order, as provided in the Exchange Act. The order may:

- (1) Censure, limit the activities, functions or operations, or suspend or revoke the registration of a bank which is a municipal securities dealer;
- (2) Censure, suspend or bar any person associated or seeking to become associated with a municipal securities dealer;
- (3) Censure, limit the activities, functions or operations, or suspend or bar a bank which is a government securities broker or dealer;
- (4) Censure, limit the activities, functions or operations, or suspend or bar any person associated with a government securities broker or dealer;
- (5) Deny registration to, limit the activities, functions, or operations or suspend or revoke the registration of a bank which is a transfer agent; or

§ 19.135

(6) Censure or limit the activities or functions, or suspend or bar, any person associated or seeking to become associated with a transfer agent.

(b) A disciplinary order is effective when served on the party or parties involved and remains effective and enforceable until it is stayed, modified, terminated, or set aside by action of the Comptroller or a reviewing court.

§ 19.135 Applications for stay or review of disciplinary actions imposed by registered clearing agencies.

(a) *Stays.* The rules adopted by the Securities and Exchange Commission (SEC) pursuant to section 19 of the Securities Exchange Act of 1934 (15 U.S.C. 78s) regarding applications by persons for whom the SEC is the appropriate regulatory agency for stays of disciplinary sanctions or summary suspensions imposed by registered clearing agencies (17 CFR 240.19d-2) apply to applications by national banks. References to the "Commission" are deemed to refer to the "OCC."

(b) *Reviews.* The regulations adopted by the SEC pursuant to section 19 of the Securities Exchange Act of 1934 (15 U.S.C. 78s) regarding applications by persons for whom the SEC is the appropriate regulatory agency for reviews of final disciplinary sanctions, denials of participation, or prohibitions or limitations of access to services imposed by registered clearing agencies (17 CFR 240.19d-3(a)-(f)) apply to applications by national banks. References to the "Commission" are deemed to refer to the "OCC."

[61 FR 68559, Dec. 30, 1996]

Subpart F—Civil Money Penalty Authority Under the Securities Laws

§ 19.140 Scope.

(a) Except as provided in this subpart, subpart A of this part applies to proceedings by the Comptroller to determine whether, pursuant to authority contained in section 21B of the Exchange Act (15 U.S.C. 78u-2), in proceedings commenced pursuant to sections 15B, 15C, and 17A of the Exchange Act (15 U.S.C. 78o-4, 78o-5, or 78q-1) for

12 CFR Ch. I (1-1-14 Edition)

which the OCC is the appropriate regulatory agency under section 3(a)(34) of the Exchange Act (15 U.S.C. 78c(a)(34)), the Comptroller may impose a civil money penalty against the following:

(1) A bank which is a municipal securities dealer, or any person associated or seeking to become associated with such a municipal securities dealer;

(2) A bank which is a government securities broker or dealer, or any person associated with such government securities broker or dealer; or

(3) A bank which is a transfer agent, or any person associated or seeking to become associated with such transfer agent.

(b) All proceedings under this subpart must be commenced, and the notice of assessment must be filed, on a public basis, unless otherwise ordered by the Comptroller. Pursuant to § 19.33(a), any request for a private hearing must be filed within 20 days of service of the notice.

Subpart G—Cease-and-Desist Authority Under the Securities Laws

§ 19.150 Scope.

(a) Except as provided in this subpart, subpart A of this part applies to proceedings by the Comptroller to determine whether, pursuant to authority contained in sections 12(i) and 21C of the Exchange Act (15 U.S.C. 78l(i) and 78u-3), the Comptroller may initiate cease-and-desist proceedings against a national bank for violations of sections 12, 13, 14(a), 14(c), 14(d), 14(f), and 16 of the Exchange Act or regulations or rules issued thereunder (15 U.S.C. 78l, 78m, 78n(a), 78n(c), 78n(d), 78n(f), and 78p).

(b) All proceedings under this subpart must be commenced, and the notice of charges must be filed, on a public basis, unless otherwise ordered by the Comptroller. Pursuant to § 19.33(a), any request for a private hearing must be filed within 20 days of service of the notice.

Subpart H—Change in Bank Control

§ 19.160 Scope.

(a) Section 7(j) of the FDIA (12 U.S.C. 1817(j)) provides that no person may acquire control of an insured depository institution unless the appropriate Federal bank regulatory agency has been given prior written notice of the proposed acquisition. If, after investigating and soliciting comment on the proposed acquisition, the agency decides that the acquisition should be disapproved, the agency shall mail a written notification to the proposed acquiring person in writing within three days of the decision. The party can then request an agency hearing on the proposed acquisition. The OCC's procedures for reviewing notices of proposed acquisitions in change-in-control proceedings are set forth in § 5.50 of this chapter.

(b) Unless otherwise provided in this subpart, the rules in subpart A of this part set forth the procedures applicable to requests for OCC hearings.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20337, May 6, 1996]

§ 19.161 Notice of disapproval and hearing initiation.

(a) *Notice of disapproval.* The OCC's written disapproval of a proposed acquisition of control of a national bank must:

(1) Contain a statement of the basis for the disapproval; and

(2) Indicate that the filer may request a hearing.

(b) *Hearing request.* Following receipt of a notice of disapproval, a filer may request a hearing on the proposed acquisition. A hearing request must:

(1) Be in writing; and

(2) Be filed with the Hearing Clerk of the OCC within ten days after service on the filer of the notice of disapproval. If a filer fails to request a hearing with a timely written request, the notice of disapproval constitutes a final and unappealable order.

(c) *Hearing order.* Following receipt of a hearing request, the Comptroller shall issue, within 20 days, an order that sets forth:

(1) The legal authority for the proceeding and for the OCC's jurisdiction over the proceeding;

(2) The matters of fact or law upon which the disapproval is based; and

(3) The requirement for filing an answer to the hearing order with OFIA within 20 days after service of the hearing order.

(d) *Answer.* An answer to a hearing order must specifically deny those portions of the order that are disputed. Those portions of the order that the filer does not specifically deny are deemed admitted by the filer. Any hearing under this subpart is limited to those portions of the order that are specifically denied.

(e) *Effect of failure to answer.* Failure of a filer to file an answer within 20 days after service of the hearing order constitutes a waiver of the filer's right to appear and contest the allegations in the hearing order. If a filer does not file a timely answer, enforcement counsel may file a motion for entry of an order of default. Upon a finding that no good cause has been shown for the failure to file a timely answer, the administrative law judge shall file with the Comptroller a recommended decision containing the findings and the relief sought in the hearing order. Any final order issued by the Comptroller based upon a filer's failure to answer is deemed to be an order issued upon consent and is a final and unappealable order.

[61 FR 20337, May 6, 1996]

Subpart I—Discovery Depositions and Subpoenas

§ 19.170 Discovery depositions.

(a) *General rule.* In any proceeding instituted under or subject to the provisions of subpart A of this part, a party may take the deposition of an expert, or of a person, including another party, who has direct knowledge of matters that are non-privileged, relevant, and material to the proceeding, and where there is need for the deposition. The deposition of experts shall be limited to those experts who are expected to testify at the hearing.

(b) *Notice.* A party desiring to take a deposition shall give reasonable notice

§ 19.171

12 CFR Ch. I (1-1-14 Edition)

in writing to the deponent and to every other party to the proceeding. The notice must state the time and place for taking the deposition, and the name and address of the person to be deposed.

(c) *Time limits.* A party may take depositions at any time after the commencement of the proceeding, but no later than ten days before the scheduled hearing date, except with permission of the administrative law judge for good cause shown.

(d) *Conduct of the deposition.* The witness must be duly sworn, and each party will have the right to examine the witness with respect to all non-privileged, relevant, and material matters of which the witness has factual, direct, and personal knowledge. Objections to questions or exhibits must be in short form and must state the grounds for the objection. Failure to object to questions or exhibits is not a waiver except where the grounds for the objection might have been avoided if the objection had been timely presented.

(e) *Recording the testimony*—(1) *Generally.* The party taking the deposition must have a certified court reporter record the witness’s testimony:

- (i) By stenotype machine or electronic sound recording device;
- (ii) Upon agreement of the parties, by any other method; or
- (iii) For good cause and with leave of the administrative law judge, by any other method.

(2) *Cost.* The party taking the deposition must bear the cost of the recording and transcribing the witness’s testimony.

(3) *Transcript.* Unless the parties agree that a transcription is not necessary, the court reporter must provide a transcript of the witness’s testimony to the party taking the deposition and must make a copy of the transcript available to each party upon payment by that party of the cost of the copy.

(f) *Protective orders.* At any time after notice of a deposition has been given, a party may file a motion for the issuance of a protective order. Such protective order may prohibit, terminate, or limit the scope or manner of the taking of a deposition. The administrative law judge shall grant such

protective order upon a showing of sufficient grounds, including that the deposition:

- (1) Is unreasonable, oppressive, excessive in scope, or unduly burdensome;
- (2) Involves privileged, irrelevant, or immaterial matters;
- (3) Involves unwarranted attempts to pry into a party’s preparation for trial; or
- (4) Is being conducted in bad faith or in such manner as to unreasonably annoy, embarrass, or oppress the witness.

(g) *Fees.* Deposition witnesses, including expert witnesses, shall be paid the same expenses in the same manner as are paid witnesses in the district courts of the United States in proceedings in which the United States is a party. Expenses in accordance with this paragraph shall be paid by the party seeking to take the deposition.

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20338, May 6, 1996]

§ 19.171 Deposition subpoenas.

(a) *Issuance.* At the request of a party, the administrative law judge shall issue a subpoena requiring the attendance of a witness at a discovery deposition under paragraph (a) of this section. The attendance of a witness may be required from any place in any state or territory that is subject to the jurisdiction of the United States or as otherwise permitted by law.

(b) *Service*—(1) *Methods of service.* The party requesting the subpoena must serve it on the person named therein, or on that person’s counsel, by any of the methods identified in §19.11(d).

(2) *Proof of service.* The party serving the subpoena must file proof of service with the administrative law judge.

(c) *Motion to quash.* A person named in a subpoena may file a motion to quash or modify the subpoena. A statement of the reasons for the motion must accompany it and a copy of the motion must be served on the party which requested the subpoena. The motion must be made prior to the time for compliance specified in the subpoena and not more than ten days after the date of service of the subpoena, or if the subpoena is served within 15 days of the hearing, within five days after the date of service.

(d) *Enforcement of deposition subpoena.* Enforcement of a deposition subpoena shall be in accordance with the procedures of § 19.27(d).

[56 FR 38028, Aug. 9, 1991, as amended at 61 FR 20333, May 6, 1996]

Subpart J—Formal Investigations

§ 19.180 Scope.

This subpart and § 19.8 apply to formal investigations initiated by order of the Comptroller or the Comptroller's delegate and pertain to the exercise of powers specified in 12 U.S.C. 481, 1818(n) and 1820(c), and section 21 of the Exchange Act (15 U.S.C. 78u). This subpart does not restrict or in any way affect the authority of the Comptroller to conduct examinations into the affairs or ownership of banks and their affiliates.

§ 19.181 Confidentiality of formal investigations.

Information or documents obtained in the course of a formal investigation are confidential and may be disclosed only in accordance with the provisions of part 4 of this chapter.

§ 19.182 Order to conduct a formal investigation.

A formal investigation begins with the issuance of an order signed by the Comptroller or the Comptroller's delegate. The order must designate the person or persons who will conduct the investigation. Such persons are authorized, among other things, to issue subpoenas duces tecum, to administer oaths, and receive affirmations as to any matter under investigation by the Comptroller. Upon application and for good cause shown, the Comptroller may limit, modify, or withdraw the order at any stage of the proceedings.

§ 19.183 Rights of witnesses.

(a) Any person who is compelled or requested to furnish testimony, documentary evidence, or other information with respect to any matter under formal investigation shall, on request, be shown the order initiating the investigation.

(b) Any person who, in a formal investigation, is compelled to appear and

testify, or who appears and testifies by request or permission of the Comptroller, may be accompanied, represented, and advised by counsel. The right to be accompanied, represented, and advised by counsel means the right of a person testifying to have an attorney present at all times while testifying and to have the attorney—

(1) Advise the person before, during and after the conclusion of testimony;

(2) Question the person briefly at the conclusion of testimony to clarify any of the answers given; and

(3) Make summary notes during the testimony solely for the use of the person.

(c) Any person who has given or will give testimony and counsel representing the person may be excluded from the proceedings during the taking of testimony of any other witness.

(d) Any person who is compelled to give testimony is entitled to inspect any transcript that has been made of the testimony but may not obtain a copy if the Comptroller's representatives conducting the proceedings have cause to believe that the contents should not be disclosed pending completion of the investigation.

(e) Any designated representative conducting an investigative proceeding shall report to the Comptroller any instances where a person has been guilty of dilatory, obstructionist or insubordinate conduct during the course of the proceeding or any other instance involving a violation of this part. The Comptroller may take such action as the circumstances warrant, including exclusion of the offending individual or individuals from participation in the proceedings.

§ 19.184 Service of subpoena and payment of witness expenses.

(a) *Methods of service.* Service of a subpoena may be made by any of the methods identified in § 19.11(d).

(b) *Expenses.* A witness who is subpoenaed will be paid the same expenses in the same manner as witnesses in the district courts of the United States. The expenses need not be tendered at the time a subpoena is served.

[61 FR 20333, May 6, 1996]

Subpart K—Parties and Representational Practice Before the OCC; Standards of Conduct

§ 19.190 Scope.

This subpart contains rules relating to parties and representational practice before the OCC. This subpart includes the imposition of sanctions by the administrative law judge, any other presiding officer appointed pursuant to subparts C and D of this part, or the Comptroller against parties or their counsel in an adjudicatory proceeding under this part. This subpart also covers other disciplinary sanctions—censure, suspension or debarment—against individuals who appear before the OCC in a representational capacity either in an adjudicatory proceeding under this part or in any other matters connected with presentations to the OCC relating to a client's rights, privileges, or liabilities. This representation includes, but is not limited to, the practice of attorneys and accountants. Employees of the OCC are not subject to disciplinary proceedings under this subpart.

[56 FR 38023, Aug. 9, 1991; 56 FR 41726, Aug. 22, 1991]

§ 19.191 Definitions.

As used in §§ 19.190 through 19.201, the following terms shall have the meaning given in this section unless the context otherwise requires:

(a) *Practice before the OCC* includes any matters connected with presentations to the OCC or any of its officers or employees relating to a client's rights, privileges or liabilities under laws or regulations administered by the OCC. Such matters include, but are not limited to, representation of a client in an adjudicatory proceeding under this part; the preparation of any statement, opinion or other paper or document by an attorney, accountant, or other licensed professional which is filed with, or submitted to, the OCC, on behalf of another person in, or in connection with, any application, notification, report or document; the representation of a person at conferences, hearings and meetings; and the transaction of other business before the OCC on behalf of another person. The term

“practice before the OCC” does not include work prepared for a bank solely at its request for use in the ordinary course of its business.

(b) *Attorney* means any individual who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth, of the United States or the District of Columbia.

(c) *Accountant* means any individual who is duly qualified to practice as a certified public accountant or a public accountant in any state, possession, territory, commonwealth of the United States, or the District of Columbia.

§ 19.192 Sanctions relating to conduct in an adjudicatory proceeding.

(a) *General rule.* Appropriate sanctions may be imposed when any party or person representing a party in an adjudicatory proceeding under this part has failed to comply with an applicable statute, regulation, or order, and that failure to comply:

(1) Constitutes contemptuous conduct;

(2) Materially injures or prejudices another party in terms of substantive injury, incurring additional expenses including attorney's fees, prejudicial delay, or otherwise;

(3) Is a clear and unexcused violation of an applicable statute, regulation, or order; or

(4) Unduly delays the proceeding.

(b) *Sanctions.* Sanctions which may be imposed include any one or more of the following:

(1) Issuing an order against the party;

(2) Rejecting or striking any testimony or documentary evidence offered, or other papers filed, by the party;

(3) Precluding the party from contesting specific issues or findings;

(4) Precluding the party from offering certain evidence or from challenging or contesting certain evidence offered by another party;

(5) Precluding the party from making a late filing or conditioning a late filing on any terms that are just; and

(6) Assessing reasonable expenses, including attorney's fees, incurred by any other party as a result of the improper action or failure to act.

Comptroller of the Currency, Treasury

§ 19.196

(c) *Procedure for imposition of sanctions.* (1) Upon the motion of any party, or on his or her own motion, the administrative law judge or other presiding officer may impose sanctions in accordance with this section. The administrative law judge or other presiding officer shall submit to the Comptroller for final ruling any sanction entering a final order that determines the case on the merits.

(2) No sanction authorized by this section, other than refusal to accept late filings, shall be imposed without prior notice to all parties and an opportunity for any party against whom sanctions would be imposed to be heard. Such opportunity to be heard may be on such notice, and the response may be in such form as the administrative law judge or other presiding officer directs. The administrative law judge or other presiding officer may limit the opportunity to be heard to an opportunity of a party or a party's representative to respond orally immediately after the act or inaction covered by this section is noted by the administrative law judge or other presiding officer.

(3) Requests for the imposition of sanctions by any party, and the imposition of sanctions, are subject to interlocutory review pursuant to §19.25 in the same manner as any other ruling.

(d) *Section not exclusive.* Nothing in this section shall be read as precluding the administrative law judge or other presiding officer or the Comptroller from taking any other action, or imposing any restriction or sanction, authorized by applicable statute or regulation.

§ 19.193 Censure, suspension or debarment.

The Comptroller may censure an individual or suspend or debar such individual from practice before the OCC if he or she is incompetent in representing a client's rights or interest in a significant matter before the OCC; or engages, or has engaged, in disreputable conduct; or refuses to comply with the rules and regulations in this part; or with intent to defraud in any manner, willfully and knowingly deceives, misleads, or threatens any cli-

ent or prospective client. The suspension or debarment of an individual may be initiated only upon a finding by the Comptroller that the basis for the disciplinary action is sufficiently egregious.

§ 19.194 Eligibility of attorneys and accountants to practice.

(a) *Attorneys.* Any attorney who is qualified to practice as an attorney and is not currently under suspension or debarment pursuant to this subpart may practice before the OCC.

(b) *Accountants.* Any accountant who is qualified to practice as a certified public accountant or public accountant and is not currently under suspension or debarment by the OCC may practice before the OCC.

§ 19.195 Incompetence.

Incompetence in the representation of a client's rights and interests in a significant matter before the OCC is grounds for suspension or debarment. The term "incompetence" encompasses conduct that reflects a lack of the knowledge, judgment and skill that a professional would ordinarily and reasonably be expected to exercise in adequately representing the rights and interests of a client. Such conduct includes, but is not limited to:

(a) Handling a matter which the individual knows or should know that he or she is not competent to handle, without associating with a professional who is competent to handle such matter.

(b) Handling a matter without adequate preparation under the circumstances.

(c) Neglect in a matter entrusted to him or her.

§ 19.196 Disreputable conduct.

Disreputable conduct for which an individual may be censured, debarred, or suspended from practice before the OCC includes:

(a) Willfully or recklessly violating or willfully or recklessly aiding and abetting the violation of any provision of the Federal banking or applicable securities laws or the rules and regulations thereunder or conviction of any offense involving dishonesty or breach of trust;

(b) Knowingly or recklessly giving false or misleading information, or participating in any way in the giving of false information to the OCC or any officer or employee thereof, or to any tribunal authorized to pass upon matters administered by the OCC in connection with any matter pending or likely to be pending before it. The term “information” includes facts or other statements contained in testimony, financial statements, applications for enrollment, affidavits, declarations, or any other document or written or oral statement;

(c) Directly or indirectly attempting to influence, or offering or agreeing to attempt to influence, the official action of any officer or employee of the OCC by the use of threats, false accusations, duress or coercion, by the offer of any special inducement or promise of advantage or by the bestowing of any gift, favor, or thing of value.

(d) Disbarment or suspension from practice as an attorney, or debarment or suspension from practice as a certified public accountant or public accountant, by any duly constituted authority of any state, possession, or commonwealth of the United States, or the District of Columbia for the conviction of a felony or misdemeanor involving moral turpitude in matters relating to the supervisory responsibilities of the OCC, where the conviction has not been reversed on appeal.

(e) Knowingly aiding or abetting another individual to practice before the OCC during that individual’s period of suspension, debarment, or ineligibility.

(f) Contemptuous conduct in connection with practice before the OCC, and knowingly making false accusations and statements, or circulating or publishing malicious or libelous matter.

(g) Suspension, debarment or removal from practice before the Board of Governors, the FDIC, the OTS, the Securities and Exchange Commission, the Commodity Futures Trading Commission, or any other Federal or state agency; and

(h) Willful violation of any of the regulations contained in this part.

[56 FR 38028, Aug. 9, 1991, as amended at 68 FR 48265, Aug. 13, 2003]

§ 19.197 Initiation of disciplinary proceeding.

(a) *Receipt of information.* An individual, including any employee of the OCC, who has reason to believe that an individual practicing before the OCC in a representative capacity has engaged in any conduct that would serve as a basis for censure, suspension or debarment under § 19.192, may make a report thereof and forward it to the OCC or to such person as may be delegated responsibility for such matters by the Comptroller.

(b) *Censure without formal proceeding.* Upon receipt of information regarding an individual’s qualification to practice before the OCC, the Comptroller or the Comptroller’s delegate may, after giving the individual notice and opportunity to respond, censure such individual.

(c) *Institution of formal disciplinary proceeding.* When the Comptroller has reason to believe that any individual who practices before the OCC in a representative capacity has engaged in conduct that would serve as a basis for censure, suspension or debarment under § 19.192, the Comptroller may, after giving the individual notice and opportunity to respond, institute a formal disciplinary proceeding against such individual. The proceeding will be conducted pursuant to § 19.199 and initiated by a complaint which names the individual as a respondent and is signed by the Comptroller or the Comptroller’s delegate. Except in cases of willfulness, or when time, the nature of the proceeding, or the public interest do not permit, a proceeding under this section may not be commenced until the respondent has been informed, in writing, of the facts or conduct which warrant institution of a proceeding and the respondent has been accorded the opportunity to comply with all lawful requirements or take whatever action may be necessary to remedy the conduct that is the basis for the commencement of the proceeding.

[56 FR 38028, Aug. 9, 1991; 56 FR 46667, Sept. 13, 1991]

§ 19.198 Conferences.

(a) *General.* The Comptroller may confer with a proposed respondent concerning allegations of misconduct or other grounds for censure, debarment or suspension, regardless of whether a proceeding for debarment or suspension has been commenced. If a conference results in a stipulation in connection with a proceeding in which the individual is the respondent, the stipulation may be entered in the record at the request of either party to the proceeding.

(b) *Resignation or voluntary suspension.* In order to avoid the institution of, or a decision in, a debarment or suspension proceeding, a person who practices before the OCC may consent to suspension from practice. At the discretion of the Comptroller, the individual may be suspended or debarred in accordance with the consent offered.

§ 19.199 Proceedings under this subpart.

Any hearing held under this subpart is held before an administrative law judge pursuant to procedures set forth in subpart A of this part. The Comptroller or the Comptroller's delegate shall appoint a person to represent the OCC in the hearing. Any person having prior involvement in the matter which is the basis for the suspension or debarment proceeding is disqualified from representing the OCC in the hearing. The hearing will be closed to the public unless the Comptroller on his or her own initiative, or on the request of a party, otherwise directs. The administrative law judge shall issue a recommended decision to the Comptroller who shall issue the final decision and order. The Comptroller may censure, debar or suspend an individual, or take such other disciplinary action as the Comptroller deems appropriate.

§ 19.200 Effect of suspension, debarment or censure.

(a) *Debarment.* If the final order against the respondent is for debarment, the individual may not practice before the OCC unless otherwise permitted to do so by the Comptroller.

(b) *Suspension.* If the final order against the respondent is for suspension, the individual may not practice

before the OCC during the period of suspension.

(c) *Censure.* If the final order against the respondent is for censure, the individual may be permitted to practice before the OCC, but such individual's future representations may be subject to conditions designed to promote high standards of conduct. If a written letter of censure is issued, a copy will be maintained in the OCC's files.

(d) *Notice of debarment or suspension.* Upon the issuance of a final order for suspension or debarment, the Comptroller shall give notice of the order to appropriate officers and employees of the OCC and to interested departments and agencies of the Federal government. The Comptroller or the Comptroller's delegate shall also give notice to the appropriate authorities of the state in which any debarred or suspended individual is or was licensed to practice.

§ 19.201 Petition for reinstatement.

At the expiration of the period of time designated in the order of debarment, the Comptroller may entertain a petition for reinstatement from any person debarred from practice before the OCC. The Comptroller may grant reinstatement only if satisfied that the petitioner is likely to act in accordance with the regulations in this part, and that granting reinstatement would not be contrary to the public interest. Any request for reinstatement shall be limited to written submissions unless the Comptroller, in his or her discretion, affords the petitioner a hearing.

Subpart L—Equal Access to Justice Act**§ 19.210 Scope.**

The Equal Access to Justice Act regulations applicable to formal OCC adjudicatory proceedings under this part are set forth at 31 CFR part 6.

Subpart M—Procedures for Re-classifying a Bank Based on Criteria Other Than Capital

SOURCE: 57 FR 44895, Sept. 29, 1992, unless otherwise noted.

§ 19.220

12 CFR Ch. I (1–1–14 Edition)

§ 19.220 Scope.

This subpart applies to the procedures afforded to any bank that has been reclassified to a lower capital category by a notice or order issued by the OCC pursuant to section 38 of the Federal Deposit Insurance Act and this part.

§ 19.221 Reclassification of a bank based on unsafe or unsound condition or practice.

(a) *Issuance of notice of proposed reclassification*—(1) *Grounds for reclassification.* (i) Pursuant to §6.4 of this chapter, the OCC may reclassify a well capitalized bank as adequately capitalized or subject an adequately capitalized bank or undercapitalized bank to the supervisory actions applicable to the next lower capital category if:

(A) The OCC determines that the bank is in an unsafe or unsound condition; or

(B) The OCC deems the bank to be engaging in an unsafe or unsound practice and not to have corrected the deficiency.

(ii) Any action pursuant to this paragraph (a)(1) shall hereinafter be referred to as “reclassification.”

(2) *Prior notice to institution.* Prior to taking action pursuant to §6.4 of this chapter, the OCC shall issue and serve on the bank a written notice of the OCC’s intention to reclassify the bank.

(b) *Contents of notice.* A notice of intention to reclassify a bank based on unsafe or unsound condition will include:

(1) A statement of the bank’s capital measures and capital levels and the category to which the bank would be reclassified;

(2) The reasons for reclassification of the bank;

(3) The date by which the bank subject to the notice of reclassification may file with the OCC a written appeal of the proposed reclassification and a request for a hearing, which shall be at least 14 calendar days from the date of service of the notice unless the OCC determines that a shorter period is appropriate in light of the financial condition of the bank or other relevant circumstances.

(c) *Response to notice of proposed reclassification.* A bank may file a written

response to a notice of proposed reclassification within the time period set by the OCC. The response should include:

(1) An explanation of why the bank is not in unsafe or unsound condition or otherwise should not be reclassified;

(2) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the bank or company regarding the reclassification.

(d) *Failure to file response.* Failure by a bank to file, within the specified time period, a written response with the OCC to a notice of proposed reclassification shall constitute a waiver of the opportunity to respond and shall constitute consent to the reclassification.

(e) *Request for hearing and presentation of oral testimony or witnesses.* The response may include a request for an informal hearing before the OCC under this section. If the bank desires to present oral testimony or witnesses at the hearing, the bank shall include a request to do so with the request for an informal hearing. A request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing, and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right to present oral testimony or witnesses.

(f) *Order for informal hearing.* Upon receipt of a timely written request that includes a request for a hearing, the OCC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the OCC allows further time at the request of the bank. The hearing shall be held in Washington, DC or at such other place as may be designated by the OCC, before a presiding officer(s) designated by the OCC to conduct the hearing.

(g) *Hearing procedures.* (1) The bank shall have the right to introduce relevant written materials and to present oral argument at the hearing. The bank may introduce oral testimony and present witnesses only if expressly authorized by the OCC or the presiding officer(s). Neither the provisions of the

Comptroller of the Currency, Treasury

§ 19.231

Administrative Procedure Act (5 U.S.C. 554–557) governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in subpart A of this part apply to an informal hearing under this section unless the OCC orders that such procedures shall apply.

(2) The informal hearing shall be recorded, and a transcript furnished to the bank upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(3) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(h) *Recommendation of presiding officer(s).* Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the OCC on the reclassification.

(i) *Time for decision.* Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the OCC will decide whether to reclassify the bank and notify the bank of the OCC's decision.

§ 19.222 Request for rescission of reclassification.

Any bank that has been reclassified under part 6 of this chapter and this subpart, may, upon a change in circumstances, request in writing that the OCC reconsider the reclassification, and may propose that the reclassification be rescinded and that any directives issued in connection with the reclassification be modified, rescinded, or removed. Unless otherwise ordered by the OCC, the bank shall remain subject to the reclassification and to any directives issued in connection with that reclassification while such request is pending before the OCC.

Subpart N—Order To Dismiss a Director or Senior Executive Officer

SOURCE: 57 FR 44896, Sept. 29, 1992, unless otherwise noted.

§ 19.230 Scope.

This subpart applies to informal hearings afforded to any director or senior executive officer dismissed pursuant to an order issued under 12 U.S.C. 1831o and part 6 of this chapter.

§ 19.231 Order to dismiss a director or senior executive officer.

(a) *Service of notice.* When the OCC issues and serves a directive on a bank pursuant to subpart B of part 6 of this chapter requiring the bank to dismiss from office any director or senior executive officer under section 38(f)(2)(F)(ii) of the FDI Act, the OCC shall also serve a copy of the directive, or the relevant portions of the directive where appropriate, upon the person to be dismissed.

(b) *Response to directive*—(1) *Request for reinstatement.* A director or senior executive officer who has been served with a directive under paragraph (a) of this section (Respondent) may file a written request for reinstatement. The request for reinstatement shall be filed within 10 calendar days of the receipt of the directive by the Respondent, unless further time is allowed by the OCC at the request of the Respondent.

(2) *Contents of request; informal hearing.* The request for reinstatement shall include reasons why the Respondent should be reinstated, and may include a request for an informal hearing before the OCC or its designee under this section. If the Respondent desires to present oral testimony or witnesses at the hearing, the Respondent shall include a request to do so with the request for an informal hearing. The request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right

§ 19.240

12 CFR Ch. I (1–1–14 Edition)

or opportunity to present oral testimony or witnesses.

(3) *Effective date.* Unless otherwise ordered by the OCC, the dismissal shall remain in effect while a request for reinstatement is pending.

(c) *Order for informal hearing.* Upon receipt of a timely written request from a Respondent for an informal hearing on the portion of a directive requiring a bank to dismiss from office any director or senior executive officer, the OCC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the Respondent requests a later date. The hearing shall be held in Washington, DC, or at such other place as may be designated by the OCC, before a presiding officer(s) designated by the OCC to conduct the hearing.

(d) *Hearing procedures.* (1) A Respondent may appear at the hearing personally or through counsel. A Respondent shall have the right to introduce relevant written materials and to present oral argument. A Respondent may introduce oral testimony and present witnesses only if expressly authorized by the OCC or the presiding officer(s). Neither the provisions of the Administrative Procedure Act governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in subpart A of this part apply to an informal hearing under this section unless the OCC orders that such procedures shall apply.

(2) The informal hearing shall be recorded, and a transcript furnished to the Respondent upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(3) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral tes-

timony or argument to allow additional written submissions to the hearing record.

(e) *Standard for review.* A Respondent shall bear the burden of demonstrating that his or her continued employment by or service with the bank would materially strengthen the bank's ability:

(1) To become adequately capitalized, to the extent that the directive was issued as a result of the bank's capital level or failure to submit or implement a capital restoration plan; and

(2) To correct the unsafe or unsound condition or unsafe or unsound practice, to the extent that the directive was issued as a result of classification of the bank based on supervisory criteria other than capital, pursuant to section 38(g) of the FDI Act.

(f) *Recommendation of presiding officer.* Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the OCC concerning the Respondent's request for reinstatement with the bank.

(g) *Time for decision.* Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the OCC shall grant or deny the request for reinstatement and notify the Respondent of the OCC's decision. If the OCC denies the request for reinstatement, the OCC shall set forth in the notification the reasons for the OCC's action.

Subpart O—Civil Money Penalty Adjustments

SOURCE: 65 FR 77252, Dec. 11, 2000, unless otherwise noted.

§ 19.240 Civil money penalties.

(a) The maximum amount of each civil money penalty within the OCC's jurisdiction is set forth as follows:

U.S. Code Citation	Tier (if applicable)	Adjusted Maximum Penalty (in Dollars)	
12 U.S.C. 93(b)	Tier 1	\$7,500	
	Tier 2	37,500	
	Tier 3	1,425,000	
12 U.S.C. 164	Tier 1	3,200	
	Tier 2	32,000	
	Tier 3	1,425,000	
12 U.S.C. 504	Tier 1	7,500	
	Tier 2	37,500	
	Tier 3	1,425,000	
12 U.S.C. 1817(j)(16)	Tier 1	7,500	
	Tier 2	37,500	
	Tier 3	1,425,000	
12 U.S.C. 1818(i)(2)	Tier 1	7,500	
	Tier 2	37,500	
	Tier 3	1,425,000	
12 U.S.C. 1820(k)(6)(A)(ii)		275,000	
12 U.S.C. 1832(e)		1,100	
12 U.S.C. 1884		110	
12 U.S.C. 1972(2)(F)	Tier 1	7,500	
	Tier 2	37,500	
	Tier 3	1,425,000	
12 U.S.C. 3110(a)		37,500	
12 U.S.C. 3110(c)	Tier 1	3,200	
	Tier 2	32,000	
	Tier 3	1,425,000	
12 U.S.C. 3909(d)(1)		1,100	
15 U.S.C. 78u-2(b)	Tier 1 (natural person)	7,500	
	Tier 1 (other person)	70,000	
	Tier 2 (natural person)	70,000	
	Tier 2 (other person)	350,000	
	Tier 3 (natural person)	140,000	
	Tier 3 (other person)	700,000	
	42 U.S.C. 4012a(f)(5)	Per violation	2,000

(b) Except as provided in paragraph (c) of this section, the maximum amount of each civil money penalty set forth in the chart in paragraph (a) of this section, applies to violations that occurred on or after December 6, 2012.

§ 19.241

12 CFR Ch. I (1–1–14 Edition)

(c) The maximum amount of the civil money penalty prescribed by 42 U.S.C. 4012a(f)(5), set forth in the chart in paragraph (a) of this section, applies to violations that occurred on or after July 6, 2012.

[77 FR 66533, Nov. 6, 2012, as amended at 77 FR 76356, Dec. 28, 2012]

Subpart P—Removal, Suspension, and Debarment of Accountants From Performing Audit Services

SOURCE: 68 FR 48265, Aug. 13, 2003, unless otherwise noted.

§ 19.241 Scope.

This subpart, which implements section 36(g)(4) of the Federal Deposit Insurance Act (FDI Act) (12 U.S.C. 1831m(g)(4)), provides rules and procedures for the removal, suspension, or debarment of independent public accountants and their accounting firms from performing independent audit and attestation services required by section 36 of the FDI Act (12 U.S.C. 1831m) for insured national banks and Federal branches and agencies of foreign banks.

[73 FR 22244, Apr. 24, 2008]

§ 19.242 Definitions.

As used in this subpart, the following terms shall have the meaning given below unless the context requires otherwise:

(a) *Accounting firm* means a corporation, proprietorship, partnership, or other business firm providing audit services.

(b) *Audit services* means any service required to be performed by an independent public accountant by section 36 of the FDIA and 12 CFR part 363, including attestation services.

(c) *Independent public accountant (accountant)* means any individual who performs or participates in providing audit services.

§ 19.243 Removal, suspension, or debarment.

(a) *Good cause for removal, suspension, or debarment*—(1) *Individuals*. The Comptroller may remove, suspend, or debar an independent public accountant from performing audit services for

insured national banks that are subject to section 36 of the FDIA if, after service of a notice of intention and opportunity for hearing in the matter, the Comptroller finds that the accountant:

(i) Lacks the requisite qualifications to perform audit services;

(ii) Has knowingly or recklessly engaged in conduct that results in a violation of applicable professional standards, including those standards and conflicts of interest provisions applicable to accountants through the Sarbanes-Oxley Act of 2002, Pub. L. 107-204, 116 Stat. 745 (2002) (Sarbanes-Oxley Act), and developed by the Public Company Accounting Oversight Board and the Securities and Exchange Commission;

(iii) Has engaged in negligent conduct in the form of:

(A) A single instance of highly unreasonable conduct that results in a violation of applicable professional standards in circumstances in which an accountant knows, or should know, that heightened scrutiny is warranted; or

(B) Repeated instances of unreasonable conduct, each resulting in a violation of applicable professional standards, that indicate a lack of competence to perform audit services;

(iv) Has knowingly or recklessly given false or misleading information, or knowingly or recklessly participated in any way in the giving of false or misleading information, to the OCC or any officer or employee of the OCC;

(v) Has engaged in, or aided and abetted, a material and knowing or reckless violation of any provision of the Federal banking or securities laws or the rules and regulations thereunder, or any other law;

(vi) Has been removed, suspended, or debarred from practice before any Federal or state agency regulating the banking, insurance, or securities industries, other than by an action listed in § 19.244, on grounds relevant to the provision of audit services; or

(vii) Is suspended or debarred for cause from practice as an accountant by any duly constituted licensing authority of any state, possession, commonwealth, or the District of Columbia.

(2) *Accounting firms*. If the Comptroller determines that there is good

cause for the removal, suspension, or debarment of a member or employee of an accounting firm under paragraph (a)(1) of this section, the Comptroller also may remove, suspend, or debar such firm or one or more offices of such firm. In considering whether to remove, suspend, or debar a firm or an office thereof, and the term of any sanction against a firm under this section, the Comptroller may consider, for example:

(i) The gravity, scope, or repetition of the act or failure to act that constitutes good cause for the removal, suspension, or debarment;

(ii) The adequacy of, and adherence to, applicable policies, practices, or procedures for the accounting firm's conduct of its business and the performance of audit services;

(iii) The selection, training, supervision, and conduct of members or employees of the accounting firm involved in the performance of audit services;

(iv) The extent to which managing partners or senior officers of the accounting firm have participated, directly, or indirectly through oversight or review, in the act or failure to act; and

(v) The extent to which the accounting firm has, since the occurrence of the act or failure to act, implemented corrective internal controls to prevent its recurrence.

(3) *Limited scope orders.* An order of removal, suspension (including an immediate suspension), or debarment may, at the discretion of the Comptroller, be made applicable to a particular national bank or class of national banks.

(4) *Remedies not exclusive.* The remedies provided in this subpart are in addition to any other remedies the OCC may have under any other applicable provisions of law, rule, or regulation.

(b) *Proceedings to remove, suspend, or debar—(1) Initiation of formal removal, suspension, or debarment proceedings.* The Comptroller may initiate a proceeding to remove, suspend, or debar an accountant or accounting firm from performing audit services by issuing a written notice of intention to take such action that names the individual or firm as a respondent and describes

the nature of the conduct that constitutes good cause for such action.

(2) *Hearings under paragraph (b) of this section.* An accountant or firm named as a respondent in the notice issued under paragraph (b)(1) of this section may request a hearing on the allegations in the notice. Hearings conducted under this paragraph shall be conducted in the same manner as other hearings under the Uniform Rules of Practice and Procedure (12 CFR part 19, subpart A).

(c) *Immediate suspension from performing audit services—(1) In general.* If the Comptroller serves a written notice of intention to remove, suspend, or debar an accountant or accounting firm from performing audit services, the Comptroller may, with due regard for the public interest and without a preliminary hearing, immediately suspend such accountant or firm from performing audit services for insured national banks, if the Comptroller:

(i) Has a reasonable basis to believe that the accountant or firm has engaged in conduct (specified in the notice served on the accountant or firm under paragraph (b) of this section) that would constitute grounds for removal, suspension, or debarment under paragraph (a) of this section;

(ii) Determines that immediate suspension is necessary to avoid immediate harm to an insured depository institution or its depositors or to the depository system as a whole; and

(iii) Serves such respondent with written notice of the immediate suspension.

(2) *Procedures.* An immediate suspension notice issued under this paragraph will become effective upon service. Such suspension will remain in effect until the date the Comptroller dismisses the charges contained in the notice of intention, or the effective date of a final order of removal, suspension, or debarment issued by the Comptroller to the respondent.

(3) *Petition for stay.* Any accountant or firm immediately suspended from performing audit services in accordance with paragraph (c)(1) of this section may, within 10 calendar days after service of the notice of immediate suspension, file with the Office of the

§ 19.244

Comptroller of the Currency, Washington, DC 20219 for a stay of such immediate suspension. If no petition is filed within 10 calendar days, the immediate suspension shall remain in effect.

(4) *Hearing on petition.* Upon receipt of a stay petition, the Comptroller will designate a presiding officer who shall fix a place and time (not more than 10 calendar days after receipt of the petition, unless extended at the request of petitioner) at which the immediately suspended party may appear, personally or through counsel, to submit written materials and oral argument. Any OCC employee engaged in investigative or prosecuting functions for the OCC in a case may not, in that or a factually related case, serve as a presiding officer or participate or advise in the decision of the presiding officer or of the OCC, except as witness or counsel in the proceeding. In the sole discretion of the presiding officer, upon a specific showing of compelling need, oral testimony of witnesses may also be presented. In hearings held pursuant to this paragraph there shall be no discovery and the provisions of §§19.6 through 19.12, 19.16, and 19.21 of this part shall apply.

(5) *Decision on petition.* Within 30 calendar days after the hearing, the presiding officer shall issue a decision. The presiding officer will grant a stay upon a demonstration that a substantial likelihood exists of the respondent's success on the issues raised by the notice of intention and that, absent such relief, the respondent will suffer immediate and irreparable injury, loss, or damage. In the absence of such a demonstration, the presiding officer will notify the parties that the immediate suspension will be continued pending the completion of the administrative proceedings pursuant to the notice.

(6) *Review of presiding officer's decision.* The parties may seek review of the presiding officer's decision by filing a petition for review with the presiding officer within 10 calendar days after service of the decision. Replies must be filed within 10 calendar days after the petition filing date. Upon receipt of a petition for review and any reply, the presiding officer shall promptly certify

12 CFR Ch. I (1-1-14 Edition)

the entire record to the Comptroller. Within 60 calendar days of the presiding officer's certification, the Comptroller shall issue an order notifying the affected party whether or not the immediate suspension should be continued or reinstated. The order shall state the basis of the Comptroller's decision.

§ 19.244 Automatic removal, suspension, and debarment.

(a) An independent public accountant or accounting firm may not perform audit services for insured national banks if the accountant or firm:

(1) Is subject to a final order of removal, suspension, or debarment (other than a limited scope order) issued by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, or the Office of Thrift Supervision under section 36 of the FDIA.

(2) Is subject to a temporary suspension or permanent revocation of registration or a temporary or permanent suspension or bar from further association with any registered public accounting firm issued by the Public Company Accounting Oversight Board or the Securities and Exchange Commission under sections 105(c)(4)(A) or (B) of the Sarbanes-Oxley Act (15 U.S.C. 7215(c)(4)(A) or (B)); or

(3) Is subject to an order of suspension or denial of the privilege of appearing or practicing before the Securities and Exchange Commission.

(b) Upon written request, the Comptroller, for good cause shown, may grant written permission to such accountant or firm to perform audit services for national banks. The request shall contain a concise statement of the action requested. The Comptroller may require the applicant to submit additional information.

§ 19.245 Notice of removal, suspension or debarment.

(a) *Notice to the public.* Upon the issuance of a final order for removal, suspension, or debarment of an independent public accountant or accounting firm from providing audit services, the Comptroller shall make the order publicly available and provide notice of

Comptroller of the Currency, Treasury

§ 21.1

the order to the other Federal banking agencies.

(b) *Notice to the Comptroller by accountants and firms.* An accountant or accounting firm that provides audit services to a national bank must provide the Comptroller with written notice of:

(1) Any currently effective order or other action described in § 19.243(a)(1)(vi) through (a)(1)(vii) or § 19.244(a)(2) through (a)(3); and

(2) Any currently effective action by the Public Company Accounting Oversight Board under sections 105(c)(4)(C) or (G) of the Sarbanes-Oxley Act) (15 U.S.C. 7215(c)(4)(C) or (G)).

(c) *Timing of notice.* Written notice required by this paragraph shall be given no later than 15 calendar days following the effective date of an order or action, or 15 calendar days before an accountant or firm accepts an engagement to provide audit services, whichever date is earlier.

§ 19.246 Petition for reinstatement.

(a) *Form of petition.* Unless otherwise ordered by the Comptroller, a petition for reinstatement by an independent public accountant, an accounting firm, or an office of a firm that was removed, suspended, or debarred under § 19.243 may be made in writing at any time. The request shall contain a concise statement of the action requested. The Comptroller may require the applicant to submit additional information.

(b) *Procedure.* A petitioner for reinstatement under this section may, in the sole discretion of the Comptroller, be afforded a hearing. The accountant or firm shall bear the burden of going forward with a petition and proving the grounds asserted in support of the petition. In reinstatement proceedings, the person seeking reinstatement shall bear the burden of going forward with an application and proving the grounds asserted in support of the application. The Comptroller may, in his sole discretion, direct that any reinstatement proceeding be limited to written submissions. The removal, suspension, or debarment shall continue until the Comptroller, for good cause shown, has reinstated the petitioner or until the suspension period has expired. The filing of a petition for reinstatement

shall not stay the effectiveness of the removal, suspension, or debarment of an accountant or firm.

PART 21—MINIMUM SECURITY DEVICES AND PROCEDURES, REPORTS OF SUSPICIOUS ACTIVITIES, AND BANK SECRECY ACT COMPLIANCE PROGRAM

Subpart A—Minimum Security Devices and Procedures

Sec.

21.1 Purpose and scope of subpart A of this part.

21.2 Designation of security officer.

21.3 Security program.

21.4 Report.

Subpart B—Reports of Suspicious Activities

21.11 Suspicious Activity Report.

Subpart C—Procedures for Monitoring Bank Secrecy Act Compliance

21.21 Procedures for monitoring Bank Secrecy Act (BSA) compliance.

AUTHORITY: 12 U.S.C. 93a, 1818, 1881–1884, and 3401–3422; 31 U.S.C. 5318.

Subpart A—Minimum Security Devices and Procedures

SOURCE: 56 FR 29564, June 28, 1991, unless otherwise noted.

§ 21.1 Purpose and scope of subpart A of this part.

(a) This subpart is issued by the Comptroller of the Currency pursuant to section 3 of the Bank Protection Act of 1968 (12 U.S.C. 1882) and is applicable to all national banking associations. It requires each bank to adopt appropriate security procedures to discourage robberies, burglaries, and larcenies and to assist in identifying and apprehending persons who commit such acts.

(b) It is the responsibility of a bank's board of directors to comply with this regulation and ensure that a security program which equals or exceeds the standards prescribed by this part is developed and implemented for the bank's main office and branches (as the term "branch" is used in 12 U.S.C. 36).

[56 FR 29564, June 28, 1991, as amended at 73 FR 22244, Apr. 24, 2008]

§ 21.2

12 CFR Ch. I (1–1–14 Edition)

§ 21.2 Designation of security officer.

Within 30 days after the opening of a new bank, the Bank's board of directors shall designate a security officer who shall have the authority, subject to the approval of the board of directors, for immediately developing and administering a written security program to protect each banking office from robberies, burglaries, and larcenies and to assist in identifying and apprehending persons who commit such acts.

(Approval by the Office of Management and Budget under control number 1557–0180)

§ 21.3 Security program.

(a) *Contents of security program.* The security program shall:

(1) Establish procedures for opening and closing for business and for the safekeeping of all currency, negotiable securities, and similar valuables at all times;

(2) Establish procedures that will assist in identifying persons committing crimes against the institution and that will preserve evidence that may aid in their identification or conviction; such procedures may include, but are not limited to:

(i) Using identification devices, such as prerecorded serial-numbered bills, or chemical and electronic devices;

(ii) Maintaining a camera that records activity in the banking office; and

(iii) Retaining a record of any robbery, burglary or larceny committed or attempted against a banking office;

(3) Provide for initial and periodic training of employees in their responsibilities under the security program and in proper employee conduct during and after a robbery; and

(4) Provide for selecting, testing, operating and maintaining appropriate security devices, as specified in paragraph (b) of this section.

(b) *Security devices.* Each national bank shall have, at a minimum, the following security devices:

(1) A means of protecting cash or other liquid assets, such as a vault, safe, or other secure space;

(2) A lighting system for illuminating, during the hours of darkness, the area around the vault, if the

vault is visible from outside the banking office;

(3) Tamper-resistant locks on exterior doors and exterior windows designed to be opened;

(4) An alarm system or other appropriate device for promptly notifying the nearest responsible law enforcement officers of an attempted or perpetrated robbery, burglary or larceny; and

(5) Such other devices as the security officer determines to be appropriate, taking into consideration:

(i) The incidence of crimes against financial institutions in the area;

(ii) The amount of currency or other valuables exposed to robbery, burglary, or larceny;

(iii) The distance of the banking office from the nearest responsible law enforcement officers and the time required for such law enforcement officers ordinarily to arrive at the banking office;

(iv) The cost of the security devices;

(v) Other security measures in effect at the banking office; and

(vi) The physical characteristics of the banking office structure and its surroundings.

§ 21.4 Report.

The security officer for a national bank shall report at least annually to the bank's board of directors on the effectiveness of the security program. The substance of such report shall be reflected in the minutes of the Board meeting in which it is given.

(Approved by the Office of Management and Budget under control number 1557–0180)

Subpart B—Reports of Suspicious Activities

§ 21.11 Suspicious Activity Report.

(a) *Purpose and scope.* This section ensures that national banks file a Suspicious Activity Report when they detect a known or suspected violation of Federal law or a suspicious transaction related to a money laundering activity or a violation of the Bank Secrecy Act. This section applies to all national banks as well as any Federal branches and agencies of foreign banks licensed or chartered by the OCC.

Comptroller of the Currency, Treasury

§21.11

(b) *Definitions.* For the purposes of this section:

(1) *FinCEN* means the Financial Crimes Enforcement Network of the Department of the Treasury.

(2) *Institution-affiliated party* means any institution-affiliated party as that term is defined in sections 3(u) and 8(b)(5) of the Federal Deposit Insurance Act (12 U.S.C. 1813(u) and 1818(b)(5)).

(3) *SAR* means a Suspicious Activity Report.

(c) *SARs required.* A national bank shall file a SAR with the appropriate Federal law enforcement agencies and the Department of the Treasury on the form prescribed by the OCC and in accordance with the form's instructions. The bank shall send the completed SAR to FinCEN in the following circumstances:

(1) *Insider abuse involving any amount.* Whenever the national bank detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the bank or involving a transaction or transactions conducted through the bank, where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the bank was used to facilitate a criminal transaction, and the bank has a substantial basis for identifying one of its directors, officers, employees, agents or other institution-affiliated parties as having committed or aided in the commission of a criminal act, regardless of the amount involved in the violation.

(2) *Violations aggregating \$5,000 or more where a suspect can be identified.* Whenever the national bank detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the bank or involving a transaction or transactions conducted through the bank and involving or aggregating \$5,000 or more in funds or other assets where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations or that it was used to facilitate a criminal transaction, and the bank has a substantial basis for identifying a possible suspect or group of suspects. If it is determined prior to filing

this report that the identified suspect or group of suspects has used an alias, then information regarding the true identity of the suspect or group of suspects, as well as alias identifiers, such as drivers' license or social security numbers, addresses and telephone numbers, must be reported.

(3) *Violations aggregating \$25,000 or more regardless of potential suspects.* Whenever the national bank detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the bank or involving a transaction or transactions conducted through the bank and involving or aggregating \$25,000 or more in funds or other assets where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the bank was used to facilitate a criminal transaction, even though there is no substantial basis for identifying a possible suspect or group of suspects.

(4) *Transactions aggregating \$5,000 or more that involve potential money laundering or violate the Bank Secrecy Act.* Any transaction (which for purposes of this paragraph (c)(4) means a deposit, withdrawal, transfer between accounts, exchange of currency, loan, extension of credit, or purchase or sale of any stock, bond, certificate of deposit, or other monetary instrument or investment security, or any other payment, transfer, or delivery by, through, or to a financial institution, by whatever means effected) conducted or attempted by, at or through the national bank and involving or aggregating \$5,000 or more in funds or other assets, if the bank knows, suspects, or has reason to suspect that:

(i) The transaction involves funds derived from illegal activities or is intended or conducted in order to hide or disguise funds or assets derived from illegal activities (including, without limitation, the ownership, nature, source, location, or control of such funds or assets) as part of a plan to violate or evade any law or regulation or to avoid any transaction reporting requirement under Federal law;

(ii) The transaction is designed to evade any regulations promulgated under the Bank Secrecy Act; or

§21.11

12 CFR Ch. I (1–1–14 Edition)

(iii) The transaction has no business or apparent lawful purpose or is not the sort in which the particular customer would normally be expected to engage, and the institution knows of no reasonable explanation for the transaction after examining the available facts, including the background and possible purpose of the transaction.

(d) *Time for reporting.* A national bank is required to file a SAR no later than 30 calendar days after the date of the initial detection of facts that may constitute a basis for filing a SAR. If no suspect was identified on the date of detection of the incident requiring the filing, a national bank may delay filing a SAR for an additional 30 calendar days to identify a suspect. In no case shall reporting be delayed more than 60 calendar days after the date of initial detection of a reportable transaction. In situations involving violations requiring immediate attention, such as when a reportable violation is ongoing, the financial institution shall immediately notify, by telephone, an appropriate law enforcement authority and the OCC in addition to filing a timely SAR.

(e) *Reports to state and local authorities.* National banks are encouraged to file a copy of the SAR with state and local law enforcement agencies where appropriate.

(f) *Exceptions.* (1) A national bank need not file a SAR for a robbery or burglary committed or attempted that is reported to appropriate law enforcement authorities.

(2) A national bank need not file a SAR for lost, missing, counterfeit, or stolen securities if it files a report pursuant to the reporting requirements of 17 CFR 240.17f-1.

(g) *Retention of records.* A national bank shall maintain a copy of any SAR filed and the original or business record equivalent of any supporting documentation for a period of five years from the date of the filing of the SAR. Supporting documentation shall be identified and maintained by the bank as such, and shall be deemed to have been filed with the SAR. A national bank shall make all supporting documentation available to appro-

priate law enforcement agencies upon request.

(h) *Notification to board of directors—*
(1) *Generally.* Whenever a national bank files a SAR pursuant to this section, the management of the bank shall promptly notify its board of directors, or a committee of directors or executive officers designated by the board of directors to receive notice.

(2) *Suspect is a director or executive officer.* If the bank files a SAR pursuant to paragraph (c) of this section and the suspect is a director or executive officer, the bank may not notify the suspect, pursuant to 31 U.S.C. 5318(g)(2), but shall notify all directors who are not suspects.

(i) *Compliance.* Failure to file a SAR in accordance with this section and the instructions may subject the national bank, its directors, officers, employees, agents, or other institution-affiliated parties to supervisory action.

(j) *Obtaining SARs.* A national bank may obtain SARs and the Instructions from the appropriate OCC District Office listed in 12 CFR part 4.

(k) *Confidentiality of SARs.* A SAR, and any information that would reveal the existence of a SAR, are confidential, and shall not be disclosed except as authorized in this paragraph (k).

(1) *Prohibition on disclosure by national banks—*
(i) *General rule.* No national bank, and no director, officer, employee, or agent of a national bank, shall disclose a SAR or any information that would reveal the existence of a SAR. Any national bank, and any director, officer, employee, or agent of any national bank that is subpoenaed or otherwise requested to disclose a SAR, or any information that would reveal the existence of a SAR, shall decline to produce the SAR or such information, citing this section and 31 U.S.C. 5318(g)(2)(A)(i), and shall notify the following of any such request and the response thereto:

(A) Director, Litigation Division, Office of the Comptroller of the Currency; and

(B) The Financial Crimes Enforcement Network (FinCEN).

(ii) *Rules of construction.* Provided that no person involved in any reported suspicious transaction is notified that the transaction has been reported, this

Comptroller of the Currency, Treasury

§ 21.21

paragraph (k)(1) shall not be construed as prohibiting:

(A) The disclosure by a national bank, or any director, officer, employee or agent of a national bank of:

(i) A SAR, or any information that would reveal the existence of a SAR, to the OCC, FinCEN, or any Federal, State, or local law enforcement agency; or

(2) The underlying facts, transactions, and documents upon which a SAR is based, including, but not limited to, disclosures:

(i) To another financial institution, or any director, officer, employee or agent of a financial institution, for the preparation of a joint SAR; or

(ii) In connection with certain employment references or termination notices, to the full extent authorized in 31 U.S.C. 5318(g)(2)(B); or

(B) The sharing by a national bank, or any director, officer, employee, or agent of a national bank, of a SAR, or any information that would reveal the existence of a SAR, within the bank's corporate organizational structure for purposes consistent with title II of the Bank Secrecy Act as determined by regulation or in guidance.

(2) *Prohibition on disclosure by the OCC.* The OCC will not, and no officer, employee or agent of the OCC, shall disclose a SAR, or any information that would reveal the existence of a SAR, except as necessary to fulfill official duties consistent with title II of the Bank Secrecy Act. For purposes of this section, official duties shall not include the disclosure of a SAR, or any information that would reveal the existence of a SAR, in response to a request for use in a private legal proceeding or in response to a request for disclosure of non-public OCC information under 12 CFR 4.33.

(1) *Limitation on liability.* A national bank and any director, officer, employee or agent of a national bank that makes a voluntary disclosure of any possible violation of law or regulation to a government agency or makes a disclosure pursuant to this section or any other authority, including a disclosure made jointly with another financial institution, shall be protected from liability to any person for any such disclosure, or for failure to pro-

vide notice of such disclosure to any person identified in the disclosure, or both, to the full extent provided by 31 U.S.C. 5318(g)(3).

[61 FR 4337, Feb. 5, 1996, as amended at 75 FR 75583, Dec. 3, 2010]

Subpart C—Procedures for Monitoring Bank Secrecy Act Compliance

§ 21.21 Procedures for monitoring Bank Secrecy Act (BSA) compliance.

(a) *Purpose.* This subpart is issued to assure that all national banks establish and maintain procedures reasonably designed to assure and monitor their compliance with the requirements of subchapter II of chapter 53 of title 31, United States Code, and the implementing regulations promulgated thereunder by the Department of the Treasury at 31 CFR Chapter X.

(b) *Establishment of a BSA compliance program—(1) Program requirement.* Each bank shall develop and provide for the continued administration of a program reasonably designed to assure and monitor compliance with the recordkeeping and reporting requirements set forth in subchapter II of chapter 53 of title 31, United States Code and the implementing regulations issued by the Department of the Treasury at 31 CFR Chapter X. The compliance program must be written, approved by the bank's board of directors, and reflected in the minutes of the bank.

(2) *Customer identification program.* Each bank is subject to the requirements of 31 U.S.C. 5318(1) and the implementing regulations jointly promulgated by the OCC and the Department of the Treasury at 31 CFR 1020.220, which require a customer identification program to be implemented as part of the BSA compliance program required under this section.

(c) *Contents of compliance program.* The compliance program shall, at a minimum:

(1) Provide for a system of internal controls to assure ongoing compliance;

(2) Provide for independent testing for compliance to be conducted by bank personnel or by an outside party;

(3) Designate an individual or individuals responsible for coordinating

and monitoring day-to-day compliance; and

(4) Provide training for appropriate personnel.

(Approved by the Office of Management and Budget under control number 1557–0180)

22.3 Requirement to purchase flood insurance where available.

22.4 Exemptions.

22.5 Escrow requirement.

22.6 Required use of standard flood hazard determination form.

22.7 Forced placement of flood insurance.

22.8 Determination fees.

22.9 Notice of special flood hazards and availability of Federal disaster relief assistance.

22.10 Notice of servicer's identity.

APPENDIX A TO PART 22—SAMPLE FORM OF NOTICE OF SPECIAL FLOOD HAZARDS AND AVAILABILITY OF FEDERAL DISASTER RELIEF ASSISTANCE

AUTHORITY: 12 U.S.C. 93a; 42 U.S.C. 4012a, 4104a, 4104b, 4106, and 4128.

SOURCE: 61 FR 45702, Aug. 29, 1996, unless otherwise noted.

§ 22.1 Authority, purpose, and scope.

(a) *Authority*. This part is issued pursuant to 12 U.S.C. 93a and 42 U.S.C. 4012a, 4104a, 4104b, 4106, and 4128.

(b) *Purpose*. The purpose of this part is to implement the requirements of the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001–4129).

(c) *Scope*. This part, except for §§ 22.6 and 22.8, applies to loans secured by buildings or mobile homes located or to be located in areas determined by the Director of the Federal Emergency Management Agency to have special flood hazards. Sections 22.6 and 22.8 apply to loans secured by buildings or mobile homes, regardless of location.

§ 22.2 Definitions.

(a) *Act* means the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001–4129).

(b) *Bank* means a national bank.

(c) *Building* means a walled and roofed structure, other than a gas or liquid storage tank, that is principally above ground and affixed to a permanent site, and a walled and roofed structure while in the course of construction, alteration, or repair.

(d) *Community* means a State or a political subdivision of a State that has zoning and building code jurisdiction over a particular area having special flood hazards.

(e) *Designated loan* means a loan secured by a building or mobile home that is located or to be located in a special flood hazard area in which flood insurance is available under the Act.

(f) *Director of FEMA* means the Director of the Federal Emergency Management Agency.

(g) *Mobile home* means a structure, transportable in one or more sections, that is built on a permanent chassis and designed for use with or without a permanent foundation when attached to the required utilities. The term *mobile home* does not include a recreational vehicle. For purposes of this part, the term *mobile home* means a mobile home on a permanent foundation. The term *mobile home* includes a manufactured home as that term is used in the NFIP.

(h) *NFIP* means the National Flood Insurance Program authorized under the Act.

(i) *Residential improved real estate* means real estate upon which a home or other residential building is located or to be located.

(j) *Servicer* means the person responsible for:

(1) Receiving any scheduled, periodic payments from a borrower under the terms of a loan, including amounts for taxes, insurance premiums, and other charges with respect to the property securing the loan; and

(2) Making payments of principal and interest and any other payments from the amounts received from the borrower as may be required under the terms of the loan.

(k) *Special flood hazard area* means the land in the flood plain within a community having at least a one percent chance of flooding in any given

Comptroller of the Currency, Treasury

§ 22.7

year, as designated by the Director of FEMA.

(1) *Table funding* means a settlement at which a loan is funded by a contemporaneous advance of loan funds and an assignment of the loan to the person advancing the funds.

[61 FR 45702, Aug. 29, 1996, as amended at 73 FR 22244, Apr. 24, 2008]

§ 22.3 Requirement to purchase flood insurance where available.

(a) *In general.* A bank shall not make, increase, extend, or renew any designated loan unless the building or mobile home and any personal property securing the loan is covered by flood insurance for the term of the loan. The amount of insurance must be at least equal to the lesser of the outstanding principal balance of the designated loan or the maximum limit of coverage available for the particular type of property under the Act. Flood insurance coverage under the Act is limited to the overall value of the property securing the designated loan minus the value of the land on which the property is located.

(b) *Table funded loans.* A bank that acquires a loan from a mortgage broker or other entity through table funding shall be considered to be making a loan for the purposes of this part.

§ 22.4 Exemptions.

The flood insurance requirement prescribed by § 22.3 does not apply with respect to:

(a) Any State-owned property covered under a policy of self-insurance satisfactory to the Director of FEMA, who publishes and periodically revises the list of States falling within this exemption; or

(b) Property securing any loan with an original principal balance of \$5,000 or less and a repayment term of one year or less.

§ 22.5 Escrow requirement.

If a bank requires the escrow of taxes, insurance premiums, fees, or any other charges for a loan secured by residential improved real estate or a mobile home that is made, increased, extended, or renewed on or after October 1, 1996, the bank shall also require the escrow of all premiums and fees for any

flood insurance required under § 22.3. The bank, or a servicer acting on behalf of the bank, shall deposit the flood insurance premiums on behalf of the borrower in an escrow account. This escrow account will be subject to escrow requirements adopted pursuant to section 10 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2609) (RESPA), which generally limits the amount that may be maintained in escrow accounts for certain types of loans and requires escrow account statements for those accounts, only if the loan is otherwise subject to RESPA. Following receipt of a notice from the Director of FEMA or other provider of flood insurance that premiums are due, the bank, or a servicer acting on behalf of the bank, shall pay the amount owed to the insurance provider from the escrow account by the date when such premiums are due.

§ 22.6 Required use of standard flood hazard determination form.

(a) *Use of form.* A bank shall use the standard flood hazard determination form developed by the Director of FEMA when determining whether the building or mobile home offered as collateral security for a loan is or will be located in a special flood hazard area in which flood insurance is available under the Act. The standard flood hazard determination form may be used in a printed, computerized, or electronic manner. A bank may obtain the standard flood hazard determination form from FEMA, P.O. Box 2012, Jessup, MD 20794-2012.

(b) *Retention of form.* A bank shall retain a copy of the completed standard flood hazard determination form, in either hard copy or electronic form, for the period of time the bank owns the loan.

[61 FR 45702, Aug. 29, 1996, as amended at 64 FR 71273, Dec. 21, 1999]

§ 22.7 Forced placement of flood insurance.

If a bank, or a servicer acting on behalf of the bank, determines at any time during the term of a designated loan that the building or mobile home and any personal property securing the designated loan is not covered by flood

§ 22.8

insurance or is covered by flood insurance in an amount less than the amount required under § 22.3, then the bank or its servicer shall notify the borrower that the borrower should obtain flood insurance, at the borrower's expense, in an amount at least equal to the amount required under § 22.3, for the remaining term of the loan. If the borrower fails to obtain flood insurance within 45 days after notification, then the bank or its servicer shall purchase insurance on the borrower's behalf. The bank or its servicer may charge the borrower for the cost of premiums and fees incurred in purchasing the insurance.

§ 22.8 Determination fees.

(a) *General.* Notwithstanding any Federal or State law other than the Flood Disaster Protection Act of 1973 as amended (42 U.S.C. 4001-4129), any bank, or a servicer acting on behalf of the bank, may charge a reasonable fee for determining whether the building or mobile home securing the loan is located or will be located in a special flood hazard area. A determination fee may also include, but is not limited to, a fee for life-of-loan monitoring.

(b) *Borrower fee.* The determination fee authorized by paragraph (a) of this section may be charged to the borrower if the determination:

(1) Is made in connection with a making, increasing, extending, or renewing of the loan that is initiated by the borrower;

(2) Reflects the Director of FEMA's revision or updating of floodplain areas or flood-risk zones;

(3) Reflects the Director of FEMA's publication of a notice or compendium that:

(i) Affects the area in which the building or mobile home securing the loan is located; or

(ii) By determination of the Director of FEMA, may reasonably require a determination whether the building or mobile home securing the loan is located in a special flood hazard area; or

(4) Results in the purchase of flood insurance coverage by the bank or its servicer on behalf of the borrower under § 22.7.

(c) *Purchaser or transferee fee.* The determination fee authorized by para-

12 CFR Ch. I (1-1-14 Edition)

graph (a) of this section may be charged to the purchaser or transferee of a loan in the case of the sale or transfer of the loan.

§ 22.9 Notice of special flood hazards and availability of Federal disaster relief assistance.

(a) *Notice requirement.* When a bank makes, increases, extends, or renews a loan secured by a building or a mobile home located or to be located in a special flood hazard area, the bank shall mail or deliver a written notice to the borrower and to the servicer in all cases whether or not flood insurance is available under the Act for the collateral securing the loan.

(b) *Contents of notice.* The written notice must include the following information:

(1) A warning, in a form approved by the Director of FEMA, that the building or the mobile home is or will be located in a special flood hazard area;

(2) A description of the flood insurance purchase requirements set forth in section 102(b) of the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4012a(b));

(3) A statement, where applicable, that flood insurance coverage is available under the NFIP and may also be available from private insurers; and

(4) A statement whether Federal disaster relief assistance may be available in the event of damage to the building or mobile home caused by flooding in a Federally declared disaster.

(c) *Timing of notice.* The bank shall provide the notice required by paragraph (a) of this section to the borrower within a reasonable time before the completion of the transaction, and to the servicer as promptly as practicable after the bank provides notice to the borrower and in any event no later than the time the bank provides other similar notices to the servicer concerning hazard insurance and taxes. Notice to the servicer may be made electronically or may take the form of a copy of the notice to the borrower.

(d) *Record of receipt.* The bank shall retain a record of the receipt of the notices by the borrower and the servicer for the period of time the bank owns the loan.

(e) *Alternate method of notice.* Instead of providing the notice to the borrower required by paragraph (a) of this section, a bank may obtain satisfactory written assurance from a seller or lessor that, within a reasonable time before the completion of the sale or lease transaction, the seller or lessor has provided such notice to the purchaser or lessee. The bank shall retain a record of the written assurance from the seller or lessor for the period of time the bank owns the loan.

(f) *Use of prescribed form of notice.* A bank will be considered to be in compliance with the requirement for notice to the borrower of this section by providing written notice to the borrower containing the language presented in appendix A to this part within a reasonable time before the completion of the transaction. The notice presented in appendix A to this part satisfies the borrower notice requirements of the Act.

§ 22.10 Notice of servicer's identity.

(a) *Notice requirement.* When a bank makes, increases, extends, renews, sells, or transfers a loan secured by a building or mobile home located or to be located in a special flood hazard area, the bank shall notify the Director of FEMA (or the Director's designee) in writing of the identity of the servicer of the loan. The Director of FEMA has designated the insurance provider to receive the bank's notice of the servicer's identity. This notice may be provided electronically if electronic transmission is satisfactory to the Director of FEMA's designee.

(b) *Transfer of servicing rights.* The bank shall notify the Director of FEMA (or the Director's designee) of any change in the servicer of a loan described in paragraph (a) of this section within 60 days after the effective date of the change. This notice may be provided electronically if electronic transmission is satisfactory to the Director of FEMA's designee. Upon any change in the servicing of a loan described in paragraph (a) of this section, the duty to provide notice under this paragraph (b) shall transfer to the transferee servicer.

APPENDIX A TO PART 22—SAMPLE FORM OF NOTICE OF SPECIAL FLOOD HAZARDS AND AVAILABILITY OF FEDERAL DISASTER RELIEF ASSISTANCE

We are giving you this notice to inform you that:

The building or mobile home securing the loan for which you have applied is or will be located in an area with special flood hazards.

The area has been identified by the Director of the Federal Emergency Management Agency (FEMA) as a special flood hazard area using FEMA's *Flood Insurance Rate Map* or the *Flood Hazard Boundary Map* for the following community: _____.

This area has at least a one percent (1%) chance of a flood equal to or exceeding the base flood elevation (a 100-year flood) in any given year. During the life of a 30-year mortgage loan, the risk of a 100-year flood in a special flood hazard area is 26 percent (26%).

Federal law allows a lender and borrower jointly to request the Director of FEMA to review the determination of whether the property securing the loan is located in a special flood hazard area. If you would like to make such a request, please contact us for further information.

_____ The community in which the property securing the loan is located participates in the National Flood Insurance Program (NFIP). Federal law will not allow us to make you the loan that you have applied for if you do not purchase flood insurance. The flood insurance must be maintained for the life of the loan. If you fail to purchase or renew flood insurance on the property, Federal law authorizes and requires us to purchase the flood insurance for you at your expense.

- Flood insurance coverage under the NFIP may be purchased through an insurance agent who will obtain the policy either directly through the NFIP or through an insurance company that participates in the NFIP. Flood insurance also may be available from private insurers that do not participate in the NFIP.

- At a minimum, flood insurance purchased must cover *the lesser of*:

- (1) the outstanding principal balance of the loan; *or*

- (2) the maximum amount of coverage allowed for the type of property under the NFIP.

Flood insurance coverage under the NFIP is limited to the overall value of the property securing the loan minus the value of the land on which the property is located.

- Federal disaster relief assistance (usually in the form of a low-interest loan) may be available for damages incurred in excess of your flood insurance if your community's participation in the NFIP is in accordance with NFIP requirements.

_____ Flood insurance coverage under the NFIP is not available for the property securing the loan because the community in which the property is located does not participate in the NFIP. In addition, if the non-participating community has been identified for at least one year as containing a special flood hazard area, properties located in the community will not be eligible for Federal disaster relief assistance in the event of a Federally-declared flood disaster.

PART 23—LEASING

Subpart A—General Provisions

Sec.

- 23.1 Authority, purpose, and scope.
- 23.2 Definitions.
- 23.3 Lease requirements.
- 23.4 Investment in personal property.
- 23.5 Requirement for separate records.
- 23.6 Application of lending limits; restrictions on transactions with affiliates.

Subpart B—CEBA Leases

- 23.10 General rule.
- 23.11 Lease term.
- 23.12 Transition rule.

Subpart C—Section 24(Seventh) Leases

- 23.20 General rule.
- 23.21 Estimated residual value.
- 23.22 Transition rule.

AUTHORITY: 12 U.S.C. 1 *et seq.*, 24(Seventh), 24(Tenth), and 93a.

SOURCE: 61 FR 66560, Dec. 18, 1996, unless otherwise noted.

Subpart A—General Provisions

§ 23.1 Authority, purpose, and scope.

(a) *Authority.* A national bank may engage in personal property lease financing transactions pursuant to 12 U.S.C. 24(Seventh) or 12 U.S.C. 24(Tenth).

(b) *Purpose.* The purpose of this part is to set forth standards for personal property lease financing transactions authorized for national banks.

(c) *Scope.* This part applies to the acquisition of personal property by a national bank for the purpose of, or in connection with, the leasing of that property.

§ 23.2 Definitions.

(a) *Affiliate* means an affiliate as described in § 23.6.

(b) *Capital and surplus means:*

(1) A bank's Tier 1 and Tier 2 capital calculated under the OCC's risk-based capital standards set forth in appendix A to 12 CFR part 3 as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161; plus

(2) The balance of a bank's allowance for loan and lease losses not included in the bank's Tier 2 capital, for purposes of the calculation of risk-based capital described in paragraph (b)(1) of this section, as reported in the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161.

(c) *CEBA Lease* means a personal property lease authorized under 12 U.S.C. 24(Tenth).

(d) *Conforming lease* means:

(1) A CEBA Lease that conforms with the requirements of subparts A and B of this part; or

(2) A Section 24(Seventh) Lease that conforms with the requirements of subparts A and C of this part.

(e) *Full-payout lease* means a lease in which the national bank reasonably expects to realize the return of its full investment in the leased property, plus the estimated cost of financing the property over the term of the lease, from:

(1) Rentals;

(2) Estimated tax benefits; and

(3) The estimated residual value of the property at the expiration of the lease term.

(f) *Net lease* means a lease under which the national bank will not, directly or indirectly, provide or be obligated to provide for:

(1) Servicing, repair, or maintenance of the leased property during the lease term;

(2) Parts or accessories for the leased property;

(3) Loan of replacement or substitute property while the leased property is being serviced;

(4) Payment of insurance for the lessee, except where the lessee has failed in its contractual obligation to purchase or maintain required insurance; or

(5) Renewal of any license or registration for the property unless renewal by the bank is necessary to protect its interest as owner or financier of the property.

(g) *Off-lease property* means property that reverts to a national bank's possession or control upon the expiration of a lease or upon the default of the lessee.

(h) *Section 24(Seventh) Lease* means a personal property lease authorized under 12 U.S.C. 24(Seventh).

§ 23.3 Lease requirements.

(a) *General requirements.* A national bank may acquire personal property for the purpose of, or in connection with leasing that property, and may engage in activities incidental thereto, if the lease qualifies as a full-payout lease and a net lease.

(b) *Exceptions—(1) Change in condition.* If, in good faith, a national bank believes that there has been a change in condition that threatens its financial position by increasing its exposure to loss, then the bank may:

(i) Take reasonable and appropriate action, including the actions specified in § 23.2(f), to salvage or protect the value of the leased property or its interests arising under the lease; and

(ii) Acquire or perfect title to the leased property pursuant to any existing rights.

(2) *Provisions to protect the bank's interests.* A national bank may include any provision in a lease, or make any additional agreement, to protect its financial position or investment in the event of a change in conditions that would increase its exposure to loss.

(3) *Arranging for services by a third party.* A national bank may arrange for a third party to provide any of the services enumerated in § 23.2(f) to the lessee at the expense of the lessee.

§ 23.4 Investment in personal property.

(a) *General rule.* A national bank may acquire specific property to be leased only after the bank has entered into:

(1) A conforming lease;

(2) A legally binding written agreement that indemnifies the bank against loss in connection with its acquisition of the property; or

(3) A legally binding written commitment to enter into a conforming lease.

(b) *Exception.* A national bank may acquire property to be leased without complying with the requirements of paragraph (a) of this section, if:

(1) The acquisition of the property is consistent with the leasing business then conducted by the bank or is consistent with a business plan for expansion of the bank's existing leasing business or for entry into the leasing business; and

(2) The bank's aggregate investment in property held pursuant to this paragraph (b) does not exceed 15 percent of the bank's capital and surplus.

(c) *Holding period.* At the expiration of the lease (including any renewals or extensions with the same lessee), or in the event of a default on a lease agreement prior to the expiration of the lease term, a national bank shall either liquidate the off-lease property or re-lease it under a conforming lease as soon as practicable. Liquidation or re-lease must occur not later than five years from the date that the bank acquires the legal right to possession or control of the property, except the OCC may extend the period for up to an additional five years, if the bank provides a clearly convincing demonstration why any additional holding period is necessary. The bank must value off-lease property at the lower of current fair market value or book value promptly after the property becomes off-lease property.

(d) *Bridge or interim leases.* During the holding period allowed by paragraph (c) of this section, a national bank may enter into a short-term bridge or interim lease pending the liquidation of off-lease property or the re-lease of the property under a conforming lease. A short-term bridge or interim lease must be a net lease, but need not comply with any requirement of subpart B or C of this part.

§ 23.5 Requirement for separate records.

If a national bank enters into both CEBA Leases and Section 24(Seventh) Leases, the bank's records must distinguish the CEBA Leases from the Section 24(Seventh) Leases.

§ 23.6

§ 23.6 Application of lending limits; restrictions on transactions with affiliates.

All lease entered into pursuant to this part is subject to the lending limits prescribed by 12 U.S.C. 84, as implemented by 12 CFR part 32, or, if the lessee is an affiliate of the bank, to the restrictions on transactions with affiliates prescribed by 12 U.S.C. 371c and 371c-1. The OCC may also determine that other limits or restrictions apply. The term affiliate means an affiliate as defined in 12 U.S.C. 371c or 371c-1 and Regulation W, 12 CFR part 223, as implemented by Regulation W, 12 CFR part 223," before as applicable. For the purpose of measuring compliance with the lending limits prescribed by 12 U.S.C. 84 as implemented by part 32, a national bank records the investment in a lease net of any nonrecourse debt the bank has incurred to finance the acquisition of the leased asset.

[61 FR 66560, Dec. 18, 1996, as amended at 73 FR 22244, Apr. 24, 2008]

Subpart B—CEBA Leases

§ 23.10 General rule.

Pursuant to 12 U.S.C. 24(Tenth) a national bank may invest in tangible personal property, including vehicles, manufactured homes, machinery, equipment, or furniture, for the purpose of, or in connection with leasing that property, if the aggregate book value of the property does not exceed 10 percent of the bank's consolidated assets and the related lease is a conforming lease. For the purpose of measuring compliance with the 10 percent limit prescribed by this section, a national bank records the investment in a lease entered into pursuant to this subpart net of any nonrecourse debt the bank has incurred to finance the acquisition of the leased asset.

§ 23.11 Lease term.

A CEBA Lease must have an initial term of not less than 90 days. A national bank may acquire property subject to an existing lease with a remaining maturity of less than 90 days if, at its inception, the lease was a conforming lease.

12 CFR Ch. I (1-1-14 Edition)

§ 23.12 Transition rule.

(a) *General rule.* A CEBA Lease entered into prior to July 22, 1991, may continue to be administered in accordance with the lease terms in effect as of that date. For purposes of applying the lending limits and the restrictions on transactions with affiliates described in § 23.6, however, a national bank that enters into a new extension of credit to a customer, including a lease, on or after July 22, 1991, shall include all outstanding leases regardless of the date on which they were made.

(b) *Renewal of non-conforming leases.* A national bank may renew a CEBA Lease that was entered into prior to July 22, 1991, and that is not a conforming lease only if the following conditions are satisfied:

(1) The bank entered into the CEBA Lease in good faith;

(2) The expiring lease contains a binding agreement requiring that the bank renew the lease at the lessee's option, and the bank cannot reasonably avoid its commitment to do so; and

(3) The bank determines in good faith, and demonstrates by appropriate documentation, that renewal of the lease is necessary to avoid financial loss and to recover its investment in, and its cost of financing, the leased property.

Subpart C—Section 24(Seventh) Leases

§ 23.20 General rule.

Pursuant to 12 U.S.C. 24(Seventh) a national bank may invest in tangible or intangible personal property, including vehicles, manufactured homes, machinery, equipment, furniture, patents, copyrights, and other intellectual property, for the purpose of, or in connection with leasing that property, if the related lease is a conforming lease representing a noncancelable obligation of the lessee (notwithstanding the possible early termination of that lease).

§ 23.21 Estimated residual value.

(a) *Recovery of investment and costs.* A national bank's estimate of the residual value of the property that the bank relies upon to satisfy the requirements

Comptroller of the Currency, Treasury

§ 24.1

of a full-payout lease, for purposes of this subpart:

(1) Must be reasonable in light of the nature of the leased property and all circumstances relevant to the transaction; and

(2) Any unguaranteed amount must not exceed 25 percent of the original cost of the property to the bank or the percentage for a particular type of property specified in published OCC guidance.

(b) *Estimated residual value subject to guarantee.* The amount of any estimated residual value guaranteed by the manufacturer, the lessee, or other third party may exceed 25 percent of the original cost of the property if the bank determines, and demonstrates by appropriate documentation, that the guarantor has the resources to meet the guarantee and the guarantor is not an affiliate of the bank.

(c) *Leases to government entities.* A bank's calculations of estimated residual value in connection with leases of personal property to Federal, State, or local governmental entities may be based on future transactions or renewals that the bank reasonably anticipates will occur.

[61 FR 66560, Dec. 18, 1996, as amended at 66 FR 34792, July 2, 2001]

§ 23.22 Transition rule.

(a) *Exclusion.* A Section 24(Seventh) Lease entered into prior to June 12, 1979, may continue to be administered in accordance with the lease terms in effect as of that date. For purposes of applying the lending limits and the restrictions on transactions with affiliates described in § 23.6, however, a national bank that enters into a new extension of credit to a customer, including a lease, on or after June 12, 1979, shall include all outstanding leases regardless of the date on which they were made.

(b) *Renewal of non-conforming leases.* A national bank may renew a Section 24(Seventh) Lease that was entered into prior to June 12, 1979, and that is not a conforming lease only if the following conditions are satisfied:

(1) The bank entered into the Section 24(Seventh) Lease in good faith;

(2) The expiring lease contains a binding agreement requiring that the

bank renew the lease at the lessee's option, and the bank cannot reasonably avoid its commitment to do so; and

(3) The bank determines in good faith, and demonstrates by appropriate documentation, that renewal of the lease is necessary to avoid financial loss and to recover its investment in, and its cost of financing, the leased property.

PART 24—COMMUNITY AND ECONOMIC DEVELOPMENT ENTITIES, COMMUNITY DEVELOPMENT PROJECTS, AND OTHER PUBLIC WELFARE INVESTMENTS

Sec.

24.1 Authority, purpose, and OMB control number.

24.2 Definitions.

24.3 Public welfare investments.

24.4 Investment limits.

24.5 Public welfare investment after-the-fact notice and prior procedures.

24.6 Examples of qualifying public welfare investments.

24.7 Examination, records, and remedial action.

APPENDIX 1 TO PART 24—CD-1—NATIONAL BANK COMMUNITY DEVELOPMENT (PART 24) INVESTMENTS

AUTHORITY: 12 U.S.C. 24(Eleventh), 93a, 481 and 1818.

SOURCE: 61 FR 49660, Sept. 23, 1996, unless otherwise noted.

§ 24.1 Authority, purpose, and OMB control number.

(a) *Authority.* The Office of the Comptroller of the Currency (OCC) issues this part pursuant to its authority under 12 U.S.C. 24(Eleventh), 93a, and 481.

(b) *Purpose.* This part implements 12 U.S.C. 24 (Eleventh). It is the OCC's policy to encourage a national bank to make investments described in § 24.3, consistent with safety and soundness. This part provides the standards and procedures that apply to these investments.

(c) *OMB control number.* The collection of information requirements contained in this part were approved by the Office of Management and Budget under OMB control number 1557-0194.

(d) A national bank that makes loans or investments that are authorized under both 12 U.S.C. 24 (Eleventh) and

§ 24.2

12 CFR Ch. I (1–1–14 Edition)

other provisions of the Federal banking laws may do so under such other provisions without regard to the provisions of 12 U.S.C. 24 (Eleventh) or this part.

(e) Investments made, or written commitments to make investments made, prior to October 13, 2006, pursuant to 12 U.S.C. 24 (Eleventh) and this part, continue to be subject to the statutes and regulations in effect prior to the enactment of the Financial Services Regulatory Relief Act of 2006 (Pub. L. 109–351).

[61 FR 49660, Sept. 23, 1996, as amended at 64 FR 70990, Dec. 20, 1999; 68 FR 48775, Aug. 15, 2003; 73 FR 22244, Apr. 24, 2008]

§ 24.2 Definitions.

For purposes of this part, the following definitions apply:

(a) *Adequately capitalized* has the same meaning as adequately capitalized in 12 CFR 6.4.

(b) *Capital and surplus* means:

(1) A bank's Tier 1 and Tier 2 capital calculated under the OCC's risk-based capital standards set out in appendix A to 12 CFR part 3 as reported in the bank's Consolidated Report of Condition and Income as filed under 12 U.S.C. 161; plus

(2) The balance of a bank's allowance for loan and lease losses not included in the bank's Tier 2 capital, for purposes of the calculation of risk-based capital under appendix A to 12 CFR part 3, as reported in the bank's Consolidated Report of Condition and Income as filed under 12 U.S.C. 161.

(c) *Community and economic development entity* (CEDE) means an entity that makes investments or conducts activities that primarily benefit low- and moderate-income individuals, low- and moderate-income areas, or other areas targeted by a governmental entity for redevelopment, or would receive consideration as "qualified investments" under 12 CFR 25.23. The following is a non-exclusive list of examples of the types of entities that may be CEDEs:

(1) National bank community development corporation subsidiaries;

(2) Private or nonbank community development corporations;

(3) CDFI Fund-certified Community Development Financial Institutions or Community Development Entities;

(4) Limited liability companies or limited partnerships;

(5) Community development loan funds or lending consortia;

(6) Community development real estate investment trusts;

(7) Business development companies;

(8) Community development closed-end mutual funds;

(9) Non-diversified closed-end investment companies; and

(10) Community development venture or equity capital funds.

(d) *Community development Project* (CD Project) means a project to make an investment that meets the requirements of § 24.3.

(e) *Eligible bank* means, for purposes of § 24.5, a national bank that:

(1) Is well capitalized;

(2) Has a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System;

(3) Has a Community Reinvestment Act (CRA) rating of "Outstanding" or "Satisfactory"; and

(4) Is not subject to a cease and desist order, consent order, formal written agreement, or Prompt Corrective Action directive (see 12 CFR part 6, subpart B) or, if subject to any such order, agreement or directive, is informed in writing by the OCC that the bank may be treated as an "eligible bank" for purposes of this part.

(f) *Low-income and moderate-income* have the same meanings as "low-income" and "moderate-income" in 12 CFR 25.12(m).

(g) *Significant risk to the deposit insurance fund* means a substantial probability that any Federal deposit insurance fund could suffer a loss.

(h) *Small business* means a business, including a small farm or minority-owned small business, that meets the qualifications for Small Business Administration Development Company or Small Business Investment Company loan programs in 13 CFR 121.301.

(i) *Well capitalized* has the same meaning as well capitalized in 12 CFR 6.4.

[61 FR 49660, Sept. 23, 1996, as amended at 68 FR 48775, Aug. 15, 2003; 73 FR 22244, Apr. 24, 2008; 73 FR 46534, Aug. 11, 2008]

§ 24.3 Public welfare investments.

A national bank or national bank subsidiary may make an investment directly or indirectly under this part if the investment primarily benefits low- and moderate income individuals, low- and moderate income areas, or other areas targeted by a governmental entity for redevelopment, or the investment would receive consideration under 12 CFR 25.23 as a “qualified investment.”

[73 FR 46534, Aug. 11, 2008]

§ 24.4 Investment limits.

(a) *Limits on aggregate outstanding investments.* A national bank’s aggregate outstanding investments under this part may not exceed 5 percent of its capital and surplus, unless the bank is at least adequately capitalized and the OCC determines, by written approval of a written request by the bank to exceed the 5 percent limit, that a higher amount of investments will not pose a significant risk to the deposit insurance fund. In no case may a bank’s aggregate outstanding investments under this part exceed 15 percent of its capital and surplus. When calculating the aggregate amount of its aggregate outstanding investments under this part, a national bank should follow generally accepted accounting principles, unless otherwise directed or permitted in writing by the OCC for prudential or safety and soundness reasons.

(b) *Limited liability.* A national bank may not make an investment under this part that would expose the bank to unlimited liability.

[61 FR 49660, Sept. 23, 1996, as amended at 64 FR 70991, Dec. 20, 1999; 68 FR 48776, Aug. 15, 2003; 73 FR 22244, Apr. 24, 2008]

§ 24.5 Public welfare investment after-the-fact notice and prior approval procedures.

(a) *After-the-fact notice of public welfare investments.* (1) Subject to § 24.4(a), an eligible bank may make an investment authorized by 12 U.S.C. 24 (Eleventh) and this part without prior notification to, or approval by, the OCC if the bank follows the after-the-fact notice procedures described in this section.

(2) An eligible bank shall provide an after-the-fact notification of an investment, within 10 working days after it makes the investment, to the Community Affairs Department, Office of the Comptroller of the Currency, Washington, DC 20219. The after-the-fact notification may also be e-mailed to *CommunityAffairs@occ.treas.gov*, faxed to (202) 874-4652, or provided electronically via National BankNet at *http://www.occ.treas.gov*.

(3) The bank’s after-the-fact-notice must include:

(i) A description of the bank’s investment;

(ii) The amount of the investment;

(iii) The percentage of the bank’s capital and surplus represented by the investment that is the subject of the notice and by the bank’s aggregate outstanding public welfare investments and commitments, including the investment that is the subject of the notice; and

(iv) A statement certifying that the investment complies with the requirements of §§ 24.3 and 24.4.

(4) A bank may satisfy the notice requirements of paragraph (3) of this section by completing form CD-1, attached as appendix 1 to this part.

(5) A national bank that is not an eligible bank but that is at least adequately capitalized, and has a composite rating of at least 3 with improving trends under the Uniform Financial Institutions Rating System, may submit a letter to the Community Affairs Department requesting authority to submit after-the-fact notices of its investments. The Community Affairs Department considers these requests on a case-by-case basis.

(6) Notwithstanding the provisions of this section, a bank may not submit an after-the-fact notice of an investment if:

(i) The investment involves properties carried on the bank’s books as “other real estate owned”; or

(ii) The OCC determines, in published guidance, that the investment is inappropriate for after-the-fact notice.

(b) *Investments requiring prior approval.* (1) If a national bank does not meet the requirements for after-the-fact investment notification set forth in this part, the bank must submit an

§ 24.6

investment proposal to the Community Affairs Department, Office of the Comptroller of the Currency, Washington, DC 20219. The investment proposal may also be e-mailed to *CommunityAffairs@occ.treas.gov*, faxed to (202) 874-4652, or submitted electronically via National BankNet at <http://www.occ.treas.gov>. The bank may use form CD-1, attached to this part as appendix 1, to satisfy this requirement.

(2) The bank's investment proposal must include:

(i) A description of the bank's investment;

(ii) The amount of the investment;

(iii) The percentage of the bank's capital and surplus represented by the proposed investment and by the bank's aggregate outstanding public welfare investments and commitments, including the proposed investment; and

(iv) A statement certifying that the investment complies with the requirements of §§ 24.3 and 24.4.

(3) In reviewing a proposal, the OCC considers the following factors and other available information:

(i) Whether the investment satisfies the requirements of § 24.3 and § 24.4;

(ii) Whether the investment is consistent with the safe and sound operation of the bank; and

(iii) Whether the investment is consistent with the requirements of this part and the OCC's policies.

(4) Unless otherwise notified in writing by the OCC, and subject to § 24.4(a), the proposed investment is deemed approved after 30 calendar days from the date on which the OCC receives the bank's investment proposal.

(5) The OCC, by notifying the bank, may extend its period for reviewing the investment proposal. If so notified, the bank may make the investment only with the OCC's written approval.

(6) The OCC may impose one or more conditions in connection with its approval of an investment under this part. All approvals are subject to the condition that a national bank must conduct the approved activity in a manner consistent with any published guidance issued by the OCC regarding the activity.

[61 FR 49660, Sept. 23, 1996, as amended at 64 FR 70991, Dec. 20, 1999; 68 FR 48776, Aug. 15, 2003; 73 FR 22245, Apr. 24, 2008]

12 CFR Ch. I (1-1-14 Edition)

§ 24.6 Examples of qualifying public welfare investments.

Investments that primarily support the following types of activities are examples of investments that meet the requirements of § 24.3:

(a) Affordable housing activities, including:

(1) Investments in an entity that finances, acquires, develops, rehabilitates, manages, sells, or rents housing primarily for low- and moderate-income individuals;

(2) Investments in a project that develops or operates transitional housing for the homeless;

(3) Investments in a project that develops or operates special needs housing for disabled or elderly low- and moderate-income individuals; and

(4) Investments in a project that qualifies for the Federal low-income housing tax credit;

(b) Economic development and job creation investments, including:

(1) Investments that finance small businesses (including equity or debt financing and investments in an entity that provides loan guarantees) that are located in low- and moderate-income areas or other targeted redevelopment areas or that produce or retain permanent jobs, the majority of which are held by low- and moderate-income individuals;

(2) Investments that finance small businesses or small farms, including minority- and women-owned small businesses or small farms, that, although not located in low- and moderate-income areas or targeted redevelopment areas, create a significant number of permanent jobs for low- and moderate-income individuals;

(3) Investments in an entity that acquires, develops, rehabilitates, manages, sells, or rents commercial or industrial property that is located in a low- and moderate-income area or targeted redevelopment area and occupied primarily by small businesses, or that is occupied primarily by small businesses that produce or retain permanent jobs, the majority of which are held by low- and moderate-income individuals; and

(4) Investments in low- and moderate-income areas or targeted redevelopment areas that produce or retain

Comptroller of the Currency, Treasury

§ 24.7

permanent jobs, the majority of which are held by low- and moderate-income individuals;

(c) Investments in CEDEs, including:

(1) Investments in a national bank that has been approved by the OCC as a national bank with a community development focus;

(2) Investments in a community development financial institution, as defined in 12 U.S.C. 4742(5);

(3) Investments in a CEDE that is eligible to receive New Markets tax credits under 26 U.S.C. 45D; and

(d) Other public welfare investments, including:

(1) Investments that provide credit counseling, financial literacy, job training, community development research, and similar technical assistance for non-profit community development organizations, low- and moderate-income individuals or areas or targeted redevelopment areas, or small businesses, including minority- and women-owned small businesses, located in low- and moderate-income areas or that produce or retain permanent jobs, the majority of which are held by low- and moderate-income individuals;

(2) Investments of a type approved by the Federal Reserve Board under 12 CFR 208.22 for state member banks that are consistent with the requirements of § 24.3;

(3) Investments of a type determined by the OCC to be permissible under this part; and

(4) Investments in minority- and women-owned depository institutions that serve primarily low- and moderate-income individuals or low- and moderate-income areas or targeted redevelopment areas.

[68 FR 48776, Aug. 15, 2003, as amended at 73 FR 22245, Apr. 24, 2008; 73 FR 46534, Aug. 11, 2008]

§ 24.7 Examination, records, and remedial action.

(a) *Examination.* National bank investments under this part are subject to the examination provisions of 12 U.S.C. 481.

(b) *Records.* Each national bank shall maintain in its files information adequate to demonstrate that its investments meet the standards set out in § 24.3 of this part, including, where applicable, the criteria of 12 CFR 25.23, and that the bank is otherwise in compliance with the requirements of this part.

(c) *Remedial action.* If the OCC finds that an investment under this part is in violation of law or regulation, is inconsistent with the safe and sound operation of the bank, or poses a significant risk to a Federal deposit insurance fund, the national bank shall take appropriate remedial action as determined by the OCC.

[61 FR 49660, Sept. 23, 1996, as amended at 68 FR 48777, Aug. 15, 2003]

APPENDIX 1 TO PART 24—CD-1—NATIONAL BANK COMMUNITY DEVELOPMENT (PART 24) INVESTMENTS

 Comptroller of the Currency Administrator of National Banks	CD-1 – National Bank Community Development (Part 24) Investments	For Official Use Only
		OMB Number 1557-0194

A national bank or national bank subsidiary may make an investment directly or indirectly designed primarily to promote the public welfare under the community development investment authority in 12 USC 24(Eleventh) and its implementing regulation 12 CFR 24 (Part 24). Part 24 contains the OCC standards for determining whether an investment is designed to promote the public welfare and procedures that apply to those investments. National banks must submit the completed form to provide an after-the-fact notice or to request prior approval of a public welfare investment to the Community Affairs Department, Office of the Comptroller of the Currency, Washington, DC 20219. Please contact the Community Affairs Department at (202) 874-4930 or CommunityAffairs@occ.treas.gov for more information.

PLEASE PROVIDE THE FOLLOWING INFORMATION ABOUT THE INVESTING BANK.

Bank name:	Mailing address (<i>street or P.O. box</i>):
Bank charter number:	City, State, ZIP Code:
Telephone number:	Fax number:
E-mail address:	URL:

CONTACT FOR INFORMATION:

Name of bank contact responsible for form's information:	Name of bank contact responsible for CD investment (if different):
Mailing address (<i>street or P.O. box</i>):	Mailing address (<i>street or P.O. box</i>):
City, State, ZIP Code:	City, State, ZIP Code:
Telephone number:	Telephone number:
Fax number:	Fax number:
E-mail address:	E-mail address:

PLEASE INDICATE THE PROCESS THE BANK REQUESTS BY CHECKING THE APPROPRIATE BOX, BELOW.

- After-the-fact notice (12 CFR 24.5(a)) - complete sections 1 and 2.
- Prior approval (12 CFR 24.5(b)) - complete section 2.

Section 1 – After-The-Fact Notice Only (12 CFR 24.5(a))

A bank may provide an after-the-fact notice of its Part 24 investment if the bank responds affirmatively to all of the following requirements.

The bank is "well-capitalized," as defined in 12 CFR 24.2(i).

Yes No

The bank has a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System.

Yes No

The bank's most recent Community Reinvestment Act rating is satisfactory or outstanding.

Yes No

The bank is not under a cease and desist order, consent order, formal written agreement, or Prompt Corrective Action directive.

Yes No

Including this investment, the bank's aggregate outstanding investments and commitments under Part 24 do not exceed 5 percent of its capital and surplus, unless the OCC has provided written approval of a written request by the bank allowing the bank to provide after-the-fact notices for investments that would raise the aggregate amount of the bank's Part 24 investments beyond 5 percent of its capital and surplus.

Yes No

The investment does not involve properties carried on the bank's books as "other real estate owned."

Yes No

The OCC has not determined, in published guidance, that the investment is inappropriate for the after-the-fact notification.

Yes No

Has the bank responded affirmatively to all of the above requirements in order to provide an after-the-fact notice of its Part 24 investment? [The OCC may have provided written notification that the bank may submit Part 24 after-the-fact notices. If so, please provide the date or a copy of the OCC's written notification.]

Yes (The bank may make an investment authorized by 12 USC 24(Eleventh) and this part and notify the OCC within 10 working days by submitting a completed after-the-fact notice.)

No (The bank must seek prior OCC approval of its investment and submit a completed investment proposal before making the investment.)

(To complete the after-the-fact notice process or to request prior OCC approval, please proceed to section 2 of this form.)

Section 2 — All Requests

1. Please indicate how the bank's investment is consistent with Part 24 requirements for public welfare investments, under 12 CFR 24.3.
 - a. Check at least one of the following that applies to the bank's investment:

The investment primarily benefits low- and moderate-income individuals.	<input type="checkbox"/>
The investment primarily benefits low- and moderate-income areas.	<input type="checkbox"/>
The investment primarily benefits other areas targeted by a governmental entity for redevelopment.	<input type="checkbox"/>
The investment would receive consideration under 12 CFR 25.23 as a "qualified investment" for purposes of the Community Reinvestment Act.	<input type="checkbox"/>

2. Please indicate how the bank's investment is consistent with Part 24 requirements for investment limits under 12 CFR 24.4 by responding to the following questions.
 - a. Dollar amount of the bank's investment that is the subject of this submission: _____.
 - b. Percentage of the bank's capital and surplus represented by the bank's investment that is the subject of this submission: _____%.
 - c. Percentage of the bank's capital and surplus represented by the aggregate outstanding Part 24 investments and commitments, including this investment: _____%.
 - d. Does this investment expose the bank to unlimited liability?

Yes (This investment cannot be made under Part 24.)

No

3. Please attach a brief description of the bank's investment. (See 12 CFR 24.5(a)(3)(i) and (b)(2)(i)). Include the following information in the description.
 - a. The name of the community and economic development entity (CEDE) into which the bank's investment has been (or will be) made.
 - b. The type of bank investment (equity, debt, or other).
 - c. The activity or activities of the CEDE in which the bank has invested (or will invest). (See examples of qualifying investment activities described in 12 CFR 24.6 (a), (b), (c), and (d).)
 - d. How the investment is structured so that it does not expose the bank to unlimited liability, such as by describing the structure of the CEDE (e.g., CDC subsidiary, multi-bank CDC, multi-investor CDC, limited partnership, limited liability company, community development bank, community development financial institution, community development entity, community development venture capital fund, community development lending consortia, community development closed-end mutual funds, non-diversified closed-end investment companies, or any other CEDE) and by providing any other relevant information.
 - e. The geographic area served by the CEDE.
 - f. The total funding or other support by community development partners involved in the project (e.g., government or public agencies, nonprofits, other investors), if known.

g. Supplemental information (e.g., prospectus, annual report, Web address that contains information about the CEDE in which the investment is or will be made), if available

4. Evidence of qualification is readily available for examination purposes.

The bank maintains information concerning this investment in a form readily accessible and available for examination that supports the certifications contained in this form and demonstrates that the investment meets the standards set out in 12 CFR 24.3, including, where applicable, the criteria of 12 CFR 25.23.

Yes No

5. Certification

The undersigned hereby certifies that the foregoing information in this form is accurate and complete. It is further certified that the undersigned is authorized to file this form on Part 24 investments for the bank.

Name: _____

Title: _____

Signature: _____

Date: _____

THE SPACE BELOW MAY BE USED TO DESCRIBE THE BANK'S CD INVESTMENT AS REQUESTED IN SECTION 2, QUESTION 3.

APPENDIX A TO PART 25—RATINGS

APPENDIX B TO PART 25—CRA NOTICE

AUTHORITY: 12 U.S.C. 21, 22, 26, 27, 30, 36, 93a, 161, 215, 215a, 481, 1814, 1816, 1828(c), 1835a, 2901 through 2908, and 3101 through 3111.

SOURCE: 43 FR 47146, Oct. 12, 1978, unless otherwise noted.

Subpart A—General**§ 25.11 Authority, purposes, and scope.**

(a) *Authority and OMB control number*—(1) *Authority*. The authority for subparts A, B, C, D, and E is 12 U.S.C. 21, 22, 26, 27, 30, 36, 93a, 161, 215, 215a, 481, 1814, 1816, 1828(c), 1835a, 2901 through 2907, and 3101 through 3111.

(2) *OMB control number*. The information collection requirements contained in this part were approved by the Office of Management and Budget under the provisions of 44 U.S.C. 3501 *et seq.* and have been assigned OMB control number 1557-0160.

(b) *Purposes*. In enacting the Community Reinvestment Act (CRA), the Congress required each appropriate Federal financial supervisory agency to assess an institution's record of helping to meet the credit needs of the local communities in which the institution is chartered, consistent with the safe and sound operation of the institution, and to take this record into account in the agency's evaluation of an application for a deposit facility by the institution. This part is intended to carry out the purposes of the CRA by:

(1) Establishing the framework and criteria by which the Office of the Comptroller of the Currency (OCC) assesses a bank's record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank; and

(2) Providing that the OCC takes that record into account in considering certain applications.

(c) *Scope*—(1) *General*. This part applies to all banks except as provided in paragraphs (c)(2) and (c)(3) of this section.

(2) *Federal branches and agencies*. (i) This part applies to all insured Federal branches and to any Federal branch that is uninsured that results from an acquisition described in section 5(a)(8) of the International Banking Act of 1978 (12 U.S.C. 3103(a)(8)).

(ii) Except as provided in paragraph (c)(2)(i) of this section, this part does not apply to Federal branches that are uninsured, limited Federal branches, or

§ 25.12

12 CFR Ch. I (1–1–14 Edition)

Federal agencies, as those terms are defined in part 28 of this chapter.

(3) *Certain special purpose banks.* This part does not apply to special purpose banks that do not perform commercial or retail banking services by granting credit to the public in the ordinary course of business, other than as incident to their specialized operations. These banks include banker's banks, as defined in 12 U.S.C. 24 (Seventh), and banks that engage only in one or more of the following activities: providing cash management controlled disbursement services or serving as correspondent banks, trust companies, or clearing agents.

[60 FR 22178, May 4, 1995, as amended at 62 FR 47734, Sept. 10, 1997]

§ 25.12 Definitions.

For purposes of this part, the following definitions apply:

(a) *Affiliate* means any company that controls, is controlled by, or is under common control with another company. The term "control" has the meaning given to that term in 12 U.S.C. 1841(a)(2), and a company is under common control with another company if both companies are directly or indirectly controlled by the same company.

(b) *Area median income* means:

(1) The median family income for the MSA, if a person or geography is located in an MSA, or for the metropolitan division, if a person or geography is located in an MSA that has been subdivided into metropolitan divisions; or

(2) The statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

(c) *Assessment area* means a geographic area delineated in accordance with § 25.41.

(d) *Automated teller machine (ATM)* means an automated, unstaffed banking facility owned or operated by, or operated exclusively for, the bank at which deposits are received, cash dispersed, or money lent.

(e) *Bank* means a national bank (including a Federal branch as defined in part 28 of this chapter) with Federally insured deposits, except as provided in § 25.11(c).

(f) *Branch* means a staffed banking facility authorized as a branch, wheth-

er shared or unshared, including, for example, a mini-branch in a grocery store or a branch operated in conjunction with any other local business or nonprofit organization.

(g) *Community development* means:

(1) Affordable housing (including multifamily rental housing) for low- or moderate-income individuals;

(2) Community services targeted to low- or moderate-income individuals;

(3) Activities that promote economic development by financing businesses or farms that meet the size eligibility standards of the Small Business Administration's Development Company or Small Business Investment Company programs (13 CFR 121.301) or have gross annual revenues of \$1 million or less;

(4) Activities that revitalize or stabilize—

(i) Low- or moderate-income geographies;

(ii) Designated disaster areas; or

(iii) Distressed or underserved nonmetropolitan middle-income geographies designated by the Board of Governors of the Federal Reserve System, Federal Deposit Insurance Corporation, and OCC, based on—

(A) Rates of poverty, unemployment, and population loss; or

(B) Population size, density, and dispersion. Activities revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including needs of low- and moderate-income individuals; or

(5) Loans, investments, and services that—

(i) Support, enable or facilitate projects or activities that meet the "eligible uses" criteria described in Section 2301(c) of the Housing and Economic Recovery Act of 2008 (HERA), Public Law 110-289, 122 Stat. 2654, as amended, and are conducted in designated target areas identified in plans approved by the United States Department of Housing and Urban Development in accordance with the Neighborhood Stabilization Program (NSP);

(ii) Are provided no later than two years after the last date funds appropriated for the NSP are required to be spent by grantees; and

(iii) Benefit low-, moderate-, and middle-income individuals and geographies in the bank's assessment area(s) or areas outside the bank's assessment area(s) provided the bank has adequately addressed the community development needs of its assessment area(s).

(h) *Community development loan* means a loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in appendix A to part 203 of this title); and

(ii) Benefits the bank's assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s).

(i) *Community development service* means a service that:

(1) Has as its primary purpose community development;

(2) Is related to the provision of financial services; and

(3) Has not been considered in the evaluation of the bank's retail banking services under § 25.24(d).

(j) *Consumer loan* means a loan to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. Consumer loans include the following categories of loans:

(1) *Motor vehicle loan*, which is a consumer loan extended for the purchase of and secured by a motor vehicle;

(2) *Credit card loan*, which is a line of credit for household, family, or other personal expenditures that is accessed by a borrower's use of a "credit card," as this term is defined in § 226.2 of this title;

(3) *Home equity loan*, which is a consumer loan secured by a residence of the borrower;

(4) *Other secured consumer loan*, which is a secured consumer loan that is not included in one of the other categories of consumer loans; and

(5) *Other unsecured consumer loan*, which is an unsecured consumer loan that is not included in one of the other categories of consumer loans.

(k) *Geography* means a census tract delineated by the United States Bureau of the Census in the most recent decennial census.

(l) *Home mortgage loan* means a "home improvement loan," "home purchase loan," or a "refinancing" as defined in § 203.2 of this title.

(m) *Income level* includes:

(1) *Low-income*, which means an individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.

(2) *Moderate-income*, which means an individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent, in the case of a geography.

(3) *Middle-income*, which means an individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent, in the case of a geography.

(4) *Upper-income*, which means an individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.

(n) *Limited purpose bank* means a bank that offers only a narrow product line (such as credit card or motor vehicle loans) to a regional or broader market and for which a designation as a limited purpose bank is in effect, in accordance with § 25.25(b).

(o) *Loan location*. A loan is located as follows:

(1) A consumer loan is located in the geography where the borrower resides;

(2) A home mortgage loan is located in the geography where the property to which the loan relates is located; and

(3) A small business or small farm loan is located in the geography where the main business facility or farm is located or where the loan proceeds otherwise will be applied, as indicated by the borrower.

§ 25.21

12 CFR Ch. I (1–1–14 Edition)

(p) *Loan production office* means a staffed facility, other than a branch, that is open to the public and that provides lending-related services, such as loan information and applications.

(q) *Metropolitan division* means a metropolitan division as defined by the Director of the Office of Management and Budget.

(r) *MSA* means a metropolitan statistical area as defined by the Director of the Office of Management and Budget.

(s) *Nonmetropolitan area* means any area that is not located in an MSA.

(t) *Qualified investment* means a lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

(u) *Small bank*—(1) *Definition*. *Small bank* means a bank that, as of December 31 of either of the prior two calendar years, had assets of less than \$1.202 billion. *Intermediate small bank* means a small bank with assets of at least \$300 million as of December 31 of both of the prior two calendar years and less than \$1.202 billion as of December 31 of either of the prior two calendar years.

(2) *Adjustment*. The dollar figures in paragraph (u)(1) of this section shall be adjusted annually and published by the OCC, based on the year-to-year change in the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers, not seasonally adjusted, for each twelve-month period ending in November, with rounding to the nearest million.

(v) *Small business loan* means a loan included in “loans to small businesses” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(w) *Small farm loan* means a loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(x) *Wholesale bank* means a bank that is not in the business of extending home mortgage, small business, small farm, or consumer loans to retail customers, and for which a designation as

a wholesale bank is in effect, in accordance with § 25.25(b).

[60 FR 22178, May 4, 1995, as amended at 60 FR 66050, Dec. 20, 1995; 61 FR 21363, May 10, 1996; 69 FR 41186, July 8, 2004; 70 FR 44266, Aug. 2, 2005; 71 FR 78336, Dec. 29, 2006; 72 FR 72573, Dec. 21, 2007; 73 FR 78154, Dec. 22, 2008; 74 FR 68663, Dec. 29, 2009; 75 FR 79285, Dec. 20, 2010; 75 FR 82218, Dec. 30, 2010; 76 FR 79530, Dec. 22, 2011; 77 FR 75523, Dec. 21, 2012; 78 FR 79284, Dec. 30, 2013]

Subpart B—Standards for Assessing Performance

SOURCE: 60 FR 22180, May 4, 1995, unless otherwise noted.

§ 25.21 Performance tests, standards, and ratings, in general.

(a) *Performance tests and standards*. The OCC assesses the CRA performance of a bank in an examination as follows:

(1) *Lending, investment, and service tests*. The OCC applies the lending, investment, and service tests, as provided in §§ 25.22 through 25.24, in evaluating the performance of a bank, except as provided in paragraphs (a)(2), (a)(3), and (a)(4) of this section.

(2) *Community development test for wholesale or limited purpose banks*. The OCC applies the community development test for a wholesale or limited purpose bank, as provided in § 25.25, except as provided in paragraph (a)(4) of this section.

(3) *Small bank performance standards*. The OCC applies the small bank performance standards as provided in § 25.26 in evaluating the performance of a small bank or a bank that was a small bank during the prior calendar year, unless the bank elects to be assessed as provided in paragraphs (a)(1), (a)(2), or (a)(4) of this section. The bank may elect to be assessed as provided in paragraph (a)(1) of this section only if it collects and reports the data required for other banks under § 25.42.

(4) *Strategic plan*. The OCC evaluates the performance of a bank under a strategic plan if the bank submits, and the OCC approves, a strategic plan as provided in § 25.27.

(b) *Performance context.* The OCC applies the tests and standards in paragraph (a) of this section and also considers whether to approve a proposed strategic plan in the context of:

(1) Demographic data on median income levels, distribution of household income, nature of housing stock, housing costs, and other relevant data pertaining to a bank's assessment area(s);

(2) Any information about lending, investment, and service opportunities in the bank's assessment area(s) maintained by the bank or obtained from community organizations, state, local, and tribal governments, economic development agencies, or other sources;

(3) The bank's product offerings and business strategy as determined from data provided by the bank;

(4) Institutional capacity and constraints, including the size and financial condition of the bank, the economic climate (national, regional, and local), safety and soundness limitations, and any other factors that significantly affect the bank's ability to provide lending, investments, or services in its assessment area(s);

(5) The bank's past performance and the performance of similarly situated lenders;

(6) The bank's public file, as described in § 25.43, and any written comments about the bank's CRA performance submitted to the bank or the OCC; and

(7) Any other information deemed relevant by the OCC.

(c) *Assigned ratings.* The OCC assigns to a bank one of the following four ratings pursuant to § 25.28 and appendix A of this part: "outstanding"; "satisfactory"; "needs to improve"; or "substantial noncompliance" as provided in 12 U.S.C. 2906(b)(2). The rating assigned by the OCC reflects the bank's record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank.

(d) *Safe and sound operations.* This part and the CRA do not require a bank to make loans or investments or to provide services that are inconsistent with safe and sound operations. To the contrary, the OCC anticipates banks can meet the standards of this part

with safe and sound loans, investments, and services on which the banks expect to make a profit. Banks are permitted and encouraged to develop and apply flexible underwriting standards for loans that benefit low- or moderate-income geographies or individuals, only if consistent with safe and sound operations.

(e) *Low-cost education loans provided to low-income borrowers.* In assessing and taking into account the record of a bank under this part, the OCC considers, as a factor, low-cost education loans originated by the bank to borrowers, particularly in its assessment area(s), who have an individual income that is less than 50 percent of the area median income. For purposes of this paragraph, "low-cost education loans" means any education loan, as defined in section 140(a)(7) of the Truth in Lending Act (15 U.S.C. 1650(a)(7)) (including a loan under a state or local education loan program), originated by the bank for a student at an "institution of higher education," as that term is generally defined in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001 and 1002) and the implementing regulations published by the U.S. Department of Education, with interest rates and fees no greater than those of comparable education loans offered directly by the U.S. Department of Education. Such rates and fees are specified in section 455 of the Higher Education Act of 1965 (20 U.S.C. 1087e).

(f) *Activities in cooperation with minority- or women-owned financial institutions and low-income credit unions.* In assessing and taking into account the record of a nonminority-owned and nonwomen-owned bank under this part, the OCC considers as a factor capital investment, loan participation, and other ventures undertaken by the bank in cooperation with minority- and women-owned financial institutions and low-income credit unions. Such activities must help meet the credit needs of local communities in which the minority- and women-owned financial institutions and low-income credit unions are chartered. To be considered, such activities need not also benefit the bank's assessment area(s) or the

§ 25.22

12 CFR Ch. I (1–14 Edition)

broader statewide or regional area that includes the bank's assessment area(s).

[60 FR 22180, May 4, 1995, as amended at 75 FR 61044, Oct. 4, 2010]

§ 25.22 Lending test.

(a) *Scope of test.* (1) The lending test evaluates a bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the OCC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, home equity, other secured, and other unsecured loans. In addition, at a bank's option, the OCC will evaluate one or more categories of consumer lending, if the bank has collected and maintained, as required in § 25.42(c)(1), the data for each category that the bank elects to have the OCC evaluate.

(2) The OCC considers originations and purchases of loans. The OCC will also consider any other loan data the bank may choose to provide, including data on loans outstanding, commitments and letters of credit.

(3) A bank may ask the OCC to consider loans originated or purchased by consortia in which the bank participates or by third parties in which the bank has invested only if the loans meet the definition of community development loans and only in accordance with paragraph (d) of this section. The OCC will not consider these loans under any criterion of the lending test except the community development lending criterion.

(b) *Performance criteria.* The OCC evaluates a bank's lending performance pursuant to the following criteria:

(1) *Lending activity.* The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area(s);

(2) *Geographic distribution.* The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:

(i) The proportion of the bank's lending in the bank's assessment area(s);

(ii) The dispersion of lending in the bank's assessment area(s); and

(iii) The number and amount of loans in low-, moderate-, middle-, and upper-income geographies in the bank's assessment area(s);

(3) *Borrower characteristics.* The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:

(i) Home mortgage loans to low-, moderate-, middle-, and upper-income individuals;

(ii) Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;

(iii) Small business and small farm loans by loan amount at origination; and

(iv) Consumer loans, if applicable, to low-, moderate-, middle-, and upper-income individuals;

(4) *Community development lending.* The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and

(5) *Innovative or flexible lending practices.* The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies.

(c) *Affiliate lending.* (1) At a bank's option, the OCC will consider loans by an affiliate of the bank, if the bank provides data on the affiliate's loans pursuant to § 25.42.

(2) The OCC considers affiliate lending subject to the following constraints:

(i) No affiliate may claim a loan origination or loan purchase if another institution claims the same loan origination or purchase; and

(ii) If a bank elects to have the OCC consider loans within a particular lending category made by one or more of the bank's affiliates in a particular assessment area, the bank shall elect to have the OCC consider, in accordance with paragraph (c)(1) of this section, all

the loans within that lending category in that particular assessment area made by all of the bank's affiliates.

(3) The OCC does not consider affiliate lending in assessing a bank's performance under paragraph (b)(2)(i) of this section.

(d) *Lending by a consortium or a third party.* Community development loans originated or purchased by a consortium in which the bank participates or by a third party in which the bank has invested:

(1) Will be considered, at the bank's option, if the bank reports the data pertaining to these loans under § 25.42(b)(2); and

(2) May be allocated among participants or investors, as they choose, for purposes of the lending test, except that no participant or investor:

(i) May claim a loan origination or loan purchase if another participant or investor claims the same loan origination or purchase; or

(ii) May claim loans accounting for more than its percentage share (based on the level of its participation or investment) of the total loans originated by the consortium or third party.

(e) *Lending performance rating.* The OCC rates a bank's lending performance as provided in appendix A of this part.

§ 25.23 Investment test.

(a) *Scope of test.* The investment test evaluates a bank's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s).

(b) *Exclusion.* Activities considered under the lending or service tests may not be considered under the investment test.

(c) *Affiliate investment.* At a bank's option, the OCC will consider, in its assessment of a bank's investment performance, a qualified investment made by an affiliate of the bank, if the qualified investment is not claimed by any other institution.

(d) *Disposition of branch premises.* Donating, selling on favorable terms, or making available on a rent-free basis a branch of the bank that is located in a predominantly minority neighborhood

to a minority depository institution or women's depository institution (as these terms are defined in 12 U.S.C. 2907(b)) will be considered as a qualified investment.

(e) *Performance criteria.* The OCC evaluates the investment performance of a bank pursuant to the following criteria:

(1) The dollar amount of qualified investments;

(2) The innovativeness or complexity of qualified investments;

(3) The responsiveness of qualified investments to credit and community development needs; and

(4) The degree to which the qualified investments are not routinely provided by private investors.

(f) *Investment performance rating.* The OCC rates a bank's investment performance as provided in appendix A of this part.

§ 25.24 Service test.

(a) *Scope of test.* The service test evaluates a bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of a bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

(b) *Area(s) benefitted.* Community development services must benefit a bank's assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s).

(c) *Affiliate service.* At a bank's option, the OCC will consider, in its assessment of a bank's service performance, a community development service provided by an affiliate of the bank, if the community development service is not claimed by any other institution.

(d) *Performance criteria—retail banking services.* The OCC evaluates the availability and effectiveness of a bank's systems for delivering retail banking services, pursuant to the following criteria:

(1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;

(2) In the context of its current distribution of the bank's branches, the

bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;

(3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and

(4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

(e) *Performance criteria—community development services.* The OCC evaluates community development services pursuant to the following criteria:

(1) The extent to which the bank provides community development services; and

(2) The innovativeness and responsiveness of community development services.

(f) *Service performance rating.* The OCC rates a bank's service performance as provided in appendix A of this part.

§ 25.25 Community development test for wholesale or limited purpose banks.

(a) *Scope of test.* The OCC assesses a wholesale or limited purpose bank's record of helping to meet the credit needs of its assessment area(s) under the community development test through its community development lending, qualified investments, or community development services.

(b) *Designation as a wholesale or limited purpose bank.* In order to receive a designation as a wholesale or limited purpose bank, a bank shall file a request, in writing, with the OCC, at least three months prior to the proposed effective date of the designation. If the OCC approves the designation, it remains in effect until the bank requests revocation of the designation or until one year after the OCC notifies the bank that the OCC has revoked the designation on its own initiative.

(c) *Performance criteria.* The OCC evaluates the community development performance of a wholesale or limited purpose bank pursuant to the following criteria:

(1) The number and amount of community development loans (including originations and purchases of loans and other community development loan data provided by the bank, such as data on loans outstanding, commitments, and letters of credit), qualified investments, or community development services;

(2) The use of innovative or complex qualified investments, community development loans, or community development services and the extent to which the investments are not routinely provided by private investors; and

(3) The bank's responsiveness to credit and community development needs.

(d) *Indirect activities.* At a bank's option, the OCC will consider in its community development performance assessment:

(1) Qualified investments or community development services provided by an affiliate of the bank, if the investments or services are not claimed by any other institution; and

(2) Community development lending by affiliates, consortia and third parties, subject to the requirements and limitations in § 25.22(c) and (d).

(e) *Benefit to assessment area(s)—(1) Benefit inside assessment area(s).* The OCC considers all qualified investments, community development loans, and community development services that benefit areas within the bank's assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s).

(2) *Benefit outside assessment area(s).* The OCC considers the qualified investments, community development loans, and community development services that benefit areas outside the bank's assessment area(s), if the bank has adequately addressed the needs of its assessment area(s).

(f) *Community development performance rating.* The OCC rates a bank's community development performance as provided in appendix A of this part.

§ 25.26 Small bank performance standards.

(a) *Performance criteria*—(1) *Small banks that are not intermediate small banks.* The OCC evaluates the record of a small bank that is not, or that was not during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraph (b) of this section.

(2) *Intermediate small banks.* The OCC evaluates the record of a small bank that is, or that was during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraphs (b) and (c) of this section.

(b) *Lending test.* A small bank's lending performance is evaluated pursuant to the following criteria:

(1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;

(2) The percentage of loans and, as appropriate, other lending-related activities located in the bank's assessment area(s);

(3) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes;

(4) The geographic distribution of the bank's loans; and

(5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

(c) *Community development test.* An intermediate small bank's community development performance also is evaluated pursuant to the following criteria:

(1) The number and amount of community development loans;

(2) The number and amount of qualified investments;

(3) The extent to which the bank provides community development services; and

(4) The bank's responsiveness through such activities to community

development lending, investment, and services needs.

(d) *Small bank performance rating.* The OCC rates the performance of a bank evaluated under this section as provided in appendix A of this part.

[70 FR 44266, Aug. 2, 2005, as amended at 71 FR 78336, Dec. 29, 2006; 72 FR 72573, Dec. 21, 2007]

§ 25.27 Strategic plan.

(a) *Alternative election.* The OCC will assess a bank's record of helping to meet the credit needs of its assessment area(s) under a strategic plan if:

(1) The bank has submitted the plan to the OCC as provided for in this section;

(2) The OCC has approved the plan;

(3) The plan is in effect; and

(4) The bank has been operating under an approved plan for at least one year.

(b) *Data reporting.* The OCC's approval of a plan does not affect the bank's obligation, if any, to report data as required by § 25.42.

(c) *Plans in general*—(1) *Term.* A plan may have a term of no more than five years, and any multi-year plan must include annual interim measurable goals under which the OCC will evaluate the bank's performance.

(2) *Multiple assessment areas.* A bank with more than one assessment area may prepare a single plan for all of its assessment areas or one or more plans for one or more of its assessment areas.

(3) *Treatment of affiliates.* Affiliated institutions may prepare a joint plan if the plan provides measurable goals for each institution. Activities may be allocated among institutions at the institutions' option, provided that the same activities are not considered for more than one institution.

(d) *Public participation in plan development.* Before submitting a plan to the OCC for approval, a bank shall:

(1) Informally seek suggestions from members of the public in its assessment area(s) covered by the plan while developing the plan;

(2) Once the bank has developed a plan, formally solicit public comment on the plan for at least 30 days by publishing notice in at least one newspaper of general circulation in each assessment area covered by the plan; and

(3) During the period of formal public comment, make copies of the plan available for review by the public at no cost at all offices of the bank in any assessment area covered by the plan and provide copies of the plan upon request for a reasonable fee to cover copying and mailing, if applicable.

(e) *Submission of plan.* The bank shall submit its plan to the OCC at least three months prior to the proposed effective date of the plan. The bank shall also submit with its plan a description of its informal efforts to seek suggestions from members of the public, any written public comment received, and, if the plan was revised in light of the comment received, the initial plan as released for public comment.

(f) *Plan content—(1) Measurable goals.*

(i) A bank shall specify in its plan measurable goals for helping to meet the credit needs of each assessment area covered by the plan, particularly the needs of low- and moderate-income geographies and low- and moderate-income individuals, through lending, investment, and services, as appropriate.

(ii) A bank shall address in its plan all three performance categories and, unless the bank has been designated as a wholesale or limited purpose bank, shall emphasize lending and lending-related activities. Nevertheless, a different emphasis, including a focus on one or more performance categories, may be appropriate if responsive to the characteristics and credit needs of its assessment area(s), considering public comment and the bank's capacity and constraints, product offerings, and business strategy.

(2) *Confidential information.* A bank may submit additional information to the OCC on a confidential basis, but the goals stated in the plan must be sufficiently specific to enable the public and the OCC to judge the merits of the plan.

(3) *Satisfactory and outstanding goals.* A bank shall specify in its plan measurable goals that constitute "satisfactory" performance. A plan may specify measurable goals that constitute "outstanding" performance. If a bank submits, and the OCC approves, both "satisfactory" and "outstanding" performance goals, the OCC will consider

the bank eligible for an "outstanding" performance rating.

(4) *Election if satisfactory goals not substantially met.* A bank may elect in its plan that, if the bank fails to meet substantially its plan goals for a satisfactory rating, the OCC will evaluate the bank's performance under the lending, investment, and service tests, the community development test, or the small bank performance standards, as appropriate.

(g) *Plan approval—(1) Timing.* The OCC will act upon a plan within 60 calendar days after the OCC receives the complete plan and other material required under paragraph (e) of this section. If the OCC fails to act within this time period, the plan shall be deemed approved unless the OCC extends the review period for good cause.

(2) *Public participation.* In evaluating the plan's goals, the OCC considers the public's involvement in formulating the plan, written public comment on the plan, and any response by the bank to public comment on the plan.

(3) *Criteria for evaluating plan.* The OCC evaluates a plan's measurable goals using the following criteria, as appropriate:

(i) The extent and breadth of lending or lending-related activities, including, as appropriate, the distribution of loans among different geographies, businesses and farms of different sizes, and individuals of different income levels, the extent of community development lending, and the use of innovative or flexible lending practices to address credit needs;

(ii) The amount and innovativeness, complexity, and responsiveness of the bank's qualified investments; and

(iii) The availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of the bank's community development services.

(h) *Plan amendment.* During the term of a plan, a bank may request the OCC to approve an amendment to the plan on grounds that there has been a material change in circumstances. The bank shall develop an amendment to a previously approved plan in accordance with the public participation requirements of paragraph (d) of this section.

Comptroller of the Currency, Treasury

§ 25.29

(i) *Plan assessment.* The OCC approves the goals and assesses performance under a plan as provided for in appendix A of this part.

[60 FR 22180, May 4, 1995, as amended at 60 FR 66050, Dec. 20, 1995; 69 FR 41186, July 8, 2004]

§ 25.28 Assigned ratings.

(a) *Ratings in general.* Subject to paragraphs (b) and (c) of this section, the OCC assigns to a bank a rating of “outstanding,” “satisfactory,” “needs to improve,” or “substantial non-compliance” based on the bank’s performance under the lending, investment and service tests, the community development test, the small bank performance standards, or an approved strategic plan, as applicable.

(b) *Lending, investment, and service tests.* The OCC assigns a rating for a bank assessed under the lending, investment, and service tests in accordance with the following principles:

(1) A bank that receives an “outstanding” rating on the lending test receives an assigned rating of at least “satisfactory”;

(2) A bank that receives an “outstanding” rating on both the service test and the investment test and a rating of at least “high satisfactory” on the lending test receives an assigned rating of “outstanding”; and

(3) No bank may receive an assigned rating of “satisfactory” or higher unless it receives a rating of at least “low satisfactory” on the lending test.

(c) *Effect of evidence of discriminatory or other illegal credit practices.* (1) The OCC’s evaluation of a bank’s CRA performance is adversely affected by evidence of discriminatory or other illegal credit practices in any geography by the bank or in any assessment area by any affiliate whose loans have been considered as part of the bank’s lending performance. In connection with any type of lending activity described in § 25.22(a), evidence of discriminatory or other credit practices that violate an applicable law, rule, or regulation includes, but is not limited to:

(i) Discrimination against applicants on a prohibited basis in violation, for example, of the Equal Credit Opportunity Act or the Fair Housing Act;

(ii) Violations of the Home Ownership and Equity Protection Act;

(iii) Violations of section 5 of the Federal Trade Commission Act;

(iv) Violations of section 8 of the Real Estate Settlement Procedures Act; and

(v) Violations of the Truth in Lending Act provisions regarding a consumer’s right of rescission.

(2) In determining the effect of evidence of practices described in paragraph (c)(1) of this section on the bank’s assigned rating, the OCC considers the nature, extent, and strength of the evidence of the practices; the policies and procedures that the bank (or affiliate, as applicable) has in place to prevent the practices; any corrective action that the bank (or affiliate, as applicable) has taken or has committed to take, including voluntary corrective action resulting from self-assessment; and any other relevant information.

[43 FR 47146, Oct. 12, 1978, as amended at 70 FR 44266, Aug. 2, 2005]

§ 25.29 Effect of CRA performance on applications.

(a) *CRA performance.* Among other factors, the OCC takes into account the record of performance under the CRA of each applicant bank in considering an application for:

(1) The establishment of a domestic branch;

(2) The relocation of the main office or a branch;

(3) Under the Bank Merger Act (12 U.S.C. 1828(c)), the merger or consolidation with or the acquisition of assets or assumption of liabilities of an insured depository institution; and

(4) The conversion of an insured depository institution to a national bank charter.

(b) *Charter application.* An applicant (other than an insured depository institution) for a national bank charter shall submit with its application a description of how it will meet its CRA objectives. The OCC takes the description into account in considering the application and may deny or condition approval on that basis.

(c) *Interested parties.* The OCC takes into account any views expressed by interested parties that are submitted in accordance with the OCC’s procedures

§ 25.41

12 CFR Ch. I (1–1–14 Edition)

set forth in part 5 of this chapter in considering CRA performance in an application listed in paragraphs (a) and (b) of this section.

(d) *Denial or conditional approval of application.* A bank's record of performance may be the basis for denying or conditioning approval of an application listed in paragraph (a) of this section.

(e) *Insured depository institution.* For purposes of this section, the term "insured depository institution" has the meaning given to that term in 12 U.S.C. 1813.

Subpart C—Records, Reporting, and Disclosure Requirements

SOURCE: 60 FR 22184, May 4, 1995, unless otherwise noted.

§ 25.41 Assessment area delineation.

(a) *In general.* A bank shall delineate one or more assessment areas within which the OCC evaluates the bank's record of helping to meet the credit needs of its community. The OCC does not evaluate the bank's delineation of its assessment area(s) as a separate performance criterion, but the OCC reviews the delineation for compliance with the requirements of this section.

(b) *Geographic area(s) for wholesale or limited purpose banks.* The assessment area(s) for a wholesale or limited purpose bank must consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns, in which the bank has its main office, branches, and deposit-taking ATMs.

(c) *Geographic area(s) for other banks.* The assessment area(s) for a bank other than a wholesale or limited purpose bank must:

(1) Consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns; and

(2) Include the geographies in which the bank has its main office, its branches, and its deposit-taking ATMs, as well as the surrounding geographies in which the bank has originated or purchased a substantial portion of its loans (including home mortgage loans, small business and small farm loans, and any other loans the bank chooses, such as those consumer loans on which the bank elects to have its performance assessed).

(d) *Adjustments to geographic area(s).* A bank may adjust the boundaries of its assessment area(s) to include only the portion of a political subdivision that it reasonably can be expected to serve. An adjustment is particularly appropriate in the case of an assessment area that otherwise would be extremely large, of unusual configuration, or divided by significant geographic barriers.

(e) *Limitations on the delineation of an assessment area.* Each bank's assessment area(s):

(1) Must consist only of whole geographies;

(2) May not reflect illegal discrimination;

(3) May not arbitrarily exclude low- or moderate-income geographies, taking into account the bank's size and financial condition; and

(4) May not extend substantially beyond an MSA boundary or beyond a state boundary unless the assessment area is located in a multistate MSA. If a bank serves a geographic area that extends substantially beyond a state boundary, the bank shall delineate separate assessment areas for the areas in each state. If a bank serves a geographic area that extends substantially beyond an MSA boundary, the bank shall delineate separate assessment areas for the areas inside and outside the MSA.

(f) *Banks serving military personnel.* Notwithstanding the requirements of this section, a bank whose business predominantly consists of serving the needs of military personnel or their dependents who are not located within a defined geographic area may delineate its entire deposit customer base as its assessment area.

(g) *Use of assessment area(s).* The OCC uses the assessment area(s) delineated

by a bank in its evaluation of the bank's CRA performance unless the OCC determines that the assessment area(s) do not comply with the requirements of this section.

[60 FR 22184, May 4, 1995, as amended at 69 FR 41186, July 8, 2004]

§ 25.42 Data collection, reporting, and disclosure.

(a) *Loan information required to be collected and maintained.* A bank, except a small bank, shall collect, and maintain in machine readable form (as prescribed by the OCC) until the completion of its next CRA examination, the following data for each small business or small farm loan originated or purchased by the bank:

(1) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;

(2) The loan amount at origination;

(3) The loan location; and

(4) An indicator whether the loan was to a business or farm with gross annual revenues of \$1 million or less.

(b) *Loan information required to be reported.* A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall report annually by March 1 to the OCC in machine readable form (as prescribed by the OCC) the following data for the prior calendar year:

(1) *Small business and small farm loan data.* For each geography in which the bank originated or purchased a small business or small farm loan, the aggregate number and amount of loans:

(i) With an amount at origination of \$100,000 or less;

(ii) With amount at origination of more than \$100,000 but less than or equal to \$250,000;

(iii) With an amount at origination of more than \$250,000; and

(iv) To businesses and farms with gross annual revenues of \$1 million or less (using the revenues that the bank considered in making its credit decision);

(2) *Community development loan data.* The aggregate number and aggregate amount of community development loans originated or purchased; and

(3) *Home mortgage loans.* If the bank is subject to reporting under part 203 of this title, the location of each home

mortgage loan application, origination, or purchase outside the MSAs in which the bank has a home or branch office (or outside any MSA) in accordance with the requirements of part 203 of this title.

(c) *Optional data collection and maintenance—(1) Consumer loans.* A bank may collect and maintain in machine readable form (as prescribed by the OCC) data for consumer loans originated or purchased by the bank for consideration under the lending test. A bank may maintain data for one or more of the following categories of consumer loans: motor vehicle, credit card, home equity, other secured, and other unsecured. If the bank maintains data for loans in a certain category, it shall maintain data for all loans originated or purchased within that category. The bank shall maintain data separately for each category, including for each loan:

(i) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;

(ii) The loan amount at origination or purchase;

(iii) The loan location; and

(iv) The gross annual income of the borrower that the bank considered in making its credit decision.

(2) *Other loan data.* At its option, a bank may provide other information concerning its lending performance, including additional loan distribution data.

(d) *Data on affiliate lending.* A bank that elects to have the OCC consider loans by an affiliate, for purposes of the lending or community development test or an approved strategic plan, shall collect, maintain, and report for those loans the data that the bank would have collected, maintained, and reported pursuant to paragraphs (a), (b), and (c) of this section had the loans been originated or purchased by the bank. For home mortgage loans, the bank shall also be prepared to identify the home mortgage loans reported under part 203 of this title by the affiliate.

(e) *Data on lending by a consortium or a third party.* A bank that elects to have the OCC consider community development loans by a consortium or third party, for purposes of the lending

or community development tests or an approved strategic plan, shall report for those loans the data that the bank would have reported under paragraph (b)(2) of this section had the loans been originated or purchased by the bank.

(f) *Small banks electing evaluation under the lending, investment, and service tests.* A bank that qualifies for evaluation under the small bank performance standards but elects evaluation under the lending, investment, and service tests shall collect, maintain, and report the data required for other banks pursuant to paragraphs (a) and (b) of this section.

(g) *Assessment area data.* A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall collect and report to the OCC by March 1 of each year a list for each assessment area showing the geographies within the area.

(h) *CRA Disclosure Statement.* The OCC prepares annually for each bank that reports data pursuant to this section a CRA Disclosure Statement that contains, on a state-by-state basis:

(1) For each county (and for each assessment area smaller than a county) with a population of 500,000 persons or fewer in which the bank reported a small business or small farm loan:

(i) The number and amount of small business and small farm loans reported as originated or purchased located in low-, moderate-, middle-, and upper-income geographies;

(ii) A list grouping each geography according to whether the geography is low-, moderate-, middle-, or upper-income;

(iii) A list showing each geography in which the bank reported a small business or small farm loan; and

(iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;

(2) For each county (and for each assessment area smaller than a county) with a population in excess of 500,000 persons in which the bank reported a small business or small farm loan:

(i) The number and amount of small business and small farm loans reported as originated or purchased located in geographies with median income relative to the area median income of less

than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(ii) A list grouping each geography in the county or assessment area according to whether the median income in the geography relative to the area median income is less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(iii) A list showing each geography in which the bank reported a small business or small farm loan; and

(iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;

(3) The number and amount of small business and small farm loans located inside each assessment area reported by the bank and the number and amount of small business and small farm loans located outside the assessment area(s) reported by the bank; and

(4) The number and amount of community development loans reported as originated or purchased.

(i) *Aggregate disclosure statements.* The OCC, in conjunction with the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision, prepares annually, for each MSA or metropolitan division (including an MSA or metropolitan division that crosses a state boundary) and the nonmetropolitan portion of each state, an aggregate disclosure statement of small business and small farm

lending by all institutions subject to reporting under this part or parts 228, 345, or 563e of this title. These disclosure statements indicate, for each geography, the number and amount of all small business and small farm loans originated or purchased by reporting institutions, except that the OCC may adjust the form of the disclosure if necessary, because of special circumstances, to protect the privacy of a borrower or the competitive position of an institution.

(j) *Central data depositories.* The OCC makes the aggregate disclosure statements, described in paragraph (i) of this section, and the individual bank CRA Disclosure Statements, described in paragraph (h) of this section, available to the public at central data depositories. The OCC publishes a list of the depositories at which the statements are available.

[60 FR 22184, May 4, 1995, as amended at 69 FR 41186, July 8, 2004]

§ 25.43 Content and availability of public file.

(a) *Information available to the public.* A bank shall maintain a public file that includes the following information:

(1) All written comments received from the public for the current year and each of the prior two calendar years that specifically relate to the bank's performance in helping to meet community credit needs, and any response to the comments by the bank, if neither the comments nor the responses contain statements that reflect adversely on the good name or reputation of any persons other than the bank or publication of which would violate specific provisions of law;

(2) A copy of the public section of the bank's most recent CRA Performance Evaluation prepared by the OCC. The bank shall place this copy in the public file within 30 business days after its receipt from the OCC;

(3) A list of the bank's branches, their street addresses, and geographies;

(4) A list of branches opened or closed by the bank during the current year and each of the prior two calendar years, their street addresses, and geographies;

(5) A list of services (including hours of operation, available loan and deposit products, and transaction fees) generally offered at the bank's branches and descriptions of material differences in the availability or cost of services at particular branches, if any. At its option, a bank may include information regarding the availability of alternative systems for delivering retail banking services (*e.g.*, ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs);

(6) A map of each assessment area showing the boundaries of the area and identifying the geographies contained within the area, either on the map or in a separate list; and

(7) Any other information the bank chooses.

(b) *Additional information available to the public—*(1) *Banks other than small banks.* A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall include in its public file the following information pertaining to the bank and its affiliates, if applicable, for each of the prior two calendar years:

(i) If the bank has elected to have one or more categories of its consumer loans considered under the lending test, for each of these categories, the number and amount of loans:

(A) To low-, moderate-, middle-, and upper-income individuals;

(B) Located in low-, moderate-, middle-, and upper-income census tracts; and

(C) Located inside the bank's assessment area(s) and outside the bank's assessment area(s); and

(ii) The bank's CRA Disclosure Statement. The bank shall place the statement in the public file within three business days of its receipt from the OCC.

(2) *Banks required to report Home Mortgage Disclosure Act (HMDA) data.* A bank required to report home mortgage loan data pursuant part 203 of this title shall include in its public file a copy of the HMDA Disclosure Statement provided by the Federal Financial Institutions Examination Council pertaining to the bank for each of the prior two

§ 25.44

calendar years. In addition, a bank that elected to have the OCC consider the mortgage lending of an affiliate for any of these years shall include in its public file the affiliate's HMDA Disclosure Statement for those years. The bank shall place the statement(s) in the public file within three business days after its receipt.

(3) *Small banks.* A small bank or a bank that was a small bank during the prior calendar year shall include in its public file:

(i) The bank's loan-to-deposit ratio for each quarter of the prior calendar year and, at its option, additional data on its loan-to-deposit ratio; and

(ii) The information required for other banks by paragraph (b)(1) of this section, if the bank has elected to be evaluated under the lending, investment, and service tests.

(4) *Banks with strategic plans.* A bank that has been approved to be assessed under a strategic plan shall include in its public file a copy of that plan. A bank need not include information submitted to the OCC on a confidential basis in conjunction with the plan.

(5) *Banks with less than satisfactory ratings.* A bank that received a less than satisfactory rating during its most recent examination shall include in its public file a description of its current efforts to improve its performance in helping to meet the credit needs of its entire community. The bank shall update the description quarterly.

(c) *Location of public information.* A bank shall make available to the public for inspection upon request and at no cost the information required in this section as follows:

(1) At the main office and, if an interstate bank, at one branch office in each state, all information in the public file; and

(2) At each branch:

(i) A copy of the public section of the bank's most recent CRA Performance Evaluation and a list of services provided by the branch; and

(ii) Within five calendar days of the request, all the information in the public file relating to the assessment area in which the branch is located.

(d) *Copies.* Upon request, a bank shall provide copies, either on paper or in

12 CFR Ch. I (1-1-14 Edition)

another form acceptable to the person making the request, of the information in its public file. The bank may charge a reasonable fee not to exceed the cost of copying and mailing (if applicable).

(e) *Updating.* Except as otherwise provided in this section, a bank shall ensure that the information required by this section is current as of April 1 of each year.

§ 25.44 Public notice by banks.

A bank shall provide in the public lobby of its main office and each of its branches the appropriate public notice set forth in appendix B of this part. Only a branch of a bank having more than one assessment area shall include the bracketed material in the notice for branch offices. Only a bank that is an affiliate of a holding company shall include the next to the last sentence of the notices. A bank shall include the last sentence of the notices only if it is an affiliate of a holding company that is not prevented by statute from acquiring additional banks.

§ 25.45 Publication of planned examination schedule.

The OCC publishes at least 30 days in advance of the beginning of each calendar quarter a list of banks scheduled for CRA examinations in that quarter.

Subpart D [Reserved]

Subpart E—Prohibition Against Use of Interstate Branches Primarily for Deposit Production

SOURCE: 62 FR 47734, Sept. 10, 1997, unless otherwise noted.

§ 25.61 Purpose and scope.

(a) *Purpose.* The purpose of this subpart is to implement section 109 (12 U.S.C. 1835a) of the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (Interstate Act).

(b) *Scope.* (1) This subpart applies to any national bank that has operated a covered interstate branch for a period of at least one year, and any foreign bank that has operated a covered interstate branch that is a Federal branch for a period of at least one year.

(2) This subpart describes the requirements imposed under 12 U.S.C. 1835a, which requires the appropriate Federal banking agencies (the OCC, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation) to prescribe uniform rules that prohibit a bank from using any authority to engage in interstate branching pursuant to the Interstate Act, or any amendment made by the Interstate Act to any other provision of law, primarily for the purpose of deposit production.

§ 25.62 Definitions.

For purposes of this subpart, the following definitions apply:

(a) *Bank* means, unless the context indicates otherwise:

(1) A national bank; and

(2) A foreign bank as that term is defined in 12 U.S.C. 3101(7) and 12 CFR 28.11(j).

(b) *Covered interstate branch* means:

(1) Any branch of a national bank, and any Federal branch of a foreign bank, that:

(i) Is established or acquired outside the bank's home State pursuant to the interstate branching authority granted by the Interstate Act or by any amendment made by the Interstate Act to any other provision of law; or

(ii) Could not have been established or acquired outside of the bank's home State but for the establishment or acquisition of a branch described in paragraph (b)(1)(i) of this section; and

(2) Any bank or branch of a bank controlled by an out-of-State bank holding company.

(c) *Federal branch* means Federal branch as that term is defined in 12 U.S.C. 3101(6) and 12 CFR 28.11(i).

(d) *Home State* means:

(1) With respect to a State bank, the State that chartered the bank;

(2) With respect to a national bank, the State in which the main office of the bank is located;

(3) With respect to a bank holding company, the State in which the total deposits of all banking subsidiaries of such company are the largest on the later of:

(i) July 1, 1966; or

(ii) The date on which the company becomes a bank holding company under the Bank Holding Company Act;

(4) With respect to a foreign bank:

(i) For purposes of determining whether a U.S. branch of a foreign bank is a covered interstate branch, the home State of the foreign bank as determined in accordance with 12 U.S.C. 3103(c) and 12 CFR 28.11(o); and

(ii) For purposes of determining whether a branch of a U.S. bank controlled by a foreign bank is a covered interstate branch, the State in which the total deposits of all banking subsidiaries of such foreign bank are the largest on the later of:

(A) July 1, 1966; or

(B) The date on which the foreign bank becomes a bank holding company under the Bank Holding Company Act.

(e) *Host State* means a State in which a covered interstate branch is established or acquired.

(f) *Host state loan-to-deposit ratio* generally means, with respect to a particular host state, the ratio of total loans in the host state relative to total deposits from the host state for all banks (including institutions covered under the definition of "bank" in 12 U.S.C. 1813(a)(1)) that have that state as their home state, as determined and updated periodically by the appropriate Federal banking agencies and made available to the public.

(g) *Out-of-State bank holding company* means, with respect to any State, a bank holding company whose home State is another State.

(h) *State* means state as that term is defined in 12 U.S.C. 1813(a)(3).

(i) *Statewide loan-to-deposit ratio* means, with respect to a bank, the ratio of the bank's loans to its deposits in a state in which the bank has one or more covered interstate branches, as determined by the OCC.

[62 FR 47734, Sept. 10, 1997, as amended at 67 FR 38847, June 6, 2002; 67 FR 46842, July 17, 2002]

§ 25.63 Loan-to-deposit ratio screen.

(a) *Application of screen.* Beginning no earlier than one year after a covered interstate branch is acquired or established, the OCC will consider whether the bank's statewide loan-to-deposit

§ 25.64

ratio is less than 50 percent of the relevant host State loan-to-deposit ratio.

(b) *Results of screen.* (1) If the OCC determines that the bank's statewide loan-to-deposit ratio is 50 percent or more of the host state loan-to-deposit ratio, no further consideration under this subpart is required.

(2) If the OCC determines that the bank's statewide loan-to-deposit ratio is less than 50 percent of the host state loan-to-deposit ratio, or if reasonably available data are insufficient to calculate the bank's statewide loan-to-deposit ratio, the OCC will make a credit needs determination for the bank as provided in § 25.64.

[62 FR 47734, Sept. 10, 1997, as amended at 67 FR 38848, June 6, 2002]

§ 25.64 Credit needs determination.

(a) *In general.* The OCC will review the loan portfolio of the bank and determine whether the bank is reasonably helping to meet the credit needs of the communities in the host state that are served by the bank.

(b) *Guidelines.* The OCC will use the following considerations as guidelines when making the determination pursuant to paragraph (a) of this section:

(1) Whether covered interstate branches were formerly part of a failed or failing depository institution;

(2) Whether covered interstate branches were acquired under circumstances where there was a low loan-to-deposit ratio because of the nature of the acquired institution's business or loan portfolio;

(3) Whether covered interstate branches have a high concentration of commercial or credit card lending, trust services, or other specialized activities, including the extent to which the covered interstate branches accept deposits in the host state;

(4) The CRA ratings received by the bank, if any;

(5) Economic conditions, including the level of loan demand, within the communities served by the covered interstate branches;

(6) The safe and sound operation and condition of the bank; and

(7) The OCC's CRA regulations (subparts A through D of this part) and interpretations of those regulations.

12 CFR Ch. I (1-1-14 Edition)

§ 25.65 Sanctions.

(a) *In general.* If the OCC determines that a bank is not reasonably helping to meet the credit needs of the communities served by the bank in the host state, and that the bank's statewide loan-to-deposit ratio is less than 50 percent of the host state loan-to-deposit ratio, the OCC:

(1) May order that a bank's covered interstate branch or branches be closed unless the bank provides reasonable assurances to the satisfaction of the OCC, after an opportunity for public comment, that the bank has an acceptable plan under which the bank will reasonably help to meet the credit needs of the communities served by the bank in the host state; and

(2) Will not permit the bank to open a new branch in the host state that would be considered to be a covered interstate branch unless the bank provides reasonable assurances to the satisfaction of the OCC, after an opportunity for public comment, that the bank will reasonably help to meet the credit needs of the community that the new branch will serve.

(b) *Notice prior to closure of a covered interstate branch.* Before exercising the OCC's authority to order the bank to close a covered interstate branch, the OCC will issue to the bank a notice of the OCC's intent to order the closure and will schedule a hearing within 60 days of issuing the notice.

(c) *Hearing.* The OCC will conduct a hearing scheduled under paragraph (b) of this section in accordance with the provisions of 12 U.S.C. 1818(h) and 12 CFR part 19.

APPENDIX A TO PART 25—RATINGS

(a) *Ratings in general.* (1) In assigning a rating, the OCC evaluates a bank's performance under the applicable performance criteria in this part, in accordance with §§ 25.21 and 25.28. This includes consideration of low-cost education loans provided to low-income borrowers and activities in cooperation with minority- or women-owned financial institutions and low-income credit unions, as well as adjustments on the basis of evidence of discriminatory or other illegal credit practices.

(2) A bank's performance need not fit each aspect of a particular rating profile in order to receive that rating, and exceptionally

strong performance with respect to some aspects may compensate for weak performance in others. The bank's overall performance, however, must be consistent with safe and sound banking practices and generally with the appropriate rating profile as follows.

(b) *Banks evaluated under the lending, investment, and service tests*—(1) *Lending performance rating.* The OCC assigns each bank's lending performance one of the five following ratings.

(i) *Outstanding.* The OCC rates a bank's lending performance "outstanding" if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s);

(D) An excellent distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An excellent record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of \$1 million or less, consistent with safe and sound operations;

(F) Extensive use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It is a leader in making community development loans.

(ii) *High satisfactory.* The OCC rates a bank's lending performance "high satisfactory" if, in general, it demonstrates:

(A) Good responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A high percentage of its loans are made in its assessment area(s);

(C) A good geographic distribution of loans in its assessment area(s);

(D) A good distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A good record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of \$1 million or less, consistent with safe and sound operations;

(F) Use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made a relatively high level of community development loans.

(iii) *Low satisfactory.* The OCC rates a bank's lending performance "low satisfactory" if, in general, it demonstrates:

(A) Adequate responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) An adequate percentage of its loans are made in its assessment area(s);

(C) An adequate geographic distribution of loans in its assessment area(s);

(D) An adequate distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An adequate record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of \$1 million or less, consistent with safe and sound operations;

(F) Limited use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made an adequate level of community development loans.

(iv) *Needs to improve.* The OCC rates a bank's lending performance "needs to improve" if, in general, it demonstrates:

(A) Poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A small percentage of its loans are made in its assessment area(s);

(C) A poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);

(D) A poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of \$1 million or less, consistent with safe and sound operations;

(F) Little use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made a low level of community development loans.

(v) *Substantial noncompliance.* The OCC rates a bank's lending performance as being in "substantial noncompliance" if, in general, it demonstrates:

(A) A very poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A very small percentage of its loans are made in its assessment area(s);

(C) A very poor geographic distribution of loans, particularly to low- or moderate-income geographies, in its assessment area(s);

(D) A very poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A very poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of \$1 million or less, consistent with safe and sound operations;

(F) No use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made few, if any, community development loans.

(2) *Investment performance rating.* The OCC assigns each bank's investment performance one of the five following ratings.

(i) *Outstanding.* The OCC rates a bank's investment performance "outstanding" if, in general, it demonstrates:

(A) An excellent level of qualified investments, particularly those that are not routinely provided by private investors, often in a leadership position;

(B) Extensive use of innovative or complex qualified investments; and

(C) Excellent responsiveness to credit and community development needs.

(ii) *High satisfactory.* The OCC rates a bank's investment performance "high satisfactory" if, in general, it demonstrates:

(A) A significant level of qualified investments, particularly those that are not routinely provided by private investors, occasionally in a leadership position;

(B) Significant use of innovative or complex qualified investments; and

(C) Good responsiveness to credit and community development needs.

(iii) *Low satisfactory.* The OCC rates a bank's investment performance "low satisfactory" if, in general, it demonstrates:

(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, although rarely in a leadership position;

(B) Occasional use of innovative or complex qualified investments; and

(C) Adequate responsiveness to credit and community development needs.

(iv) *Needs to improve.* The OCC rates a bank's investment performance "needs to improve" if, in general, it demonstrates:

(A) A poor level of qualified investments, particularly those that are not routinely provided by private investors;

(B) Rare use of innovative or complex qualified investments; and

(C) Poor responsiveness to credit and community development needs.

(v) *Substantial noncompliance.* The OCC rates a bank's investment performance as being in "substantial noncompliance" if, in general, it demonstrates:

(A) Few, if any, qualified investments, particularly those that are not routinely provided by private investors;

(B) No use of innovative or complex qualified investments; and

(C) Very poor responsiveness to credit and community development needs.

(3) *Service performance rating.* The OCC assigns each bank's service performance one of the five following ratings.

(i) *Outstanding.* The OCC rates a bank's service performance "outstanding" if, in general, the bank demonstrates:

(A) Its service delivery systems are readily accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has improved the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) are tailored to the convenience and needs of its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It is a leader in providing community development services.

(ii) *High satisfactory.* The OCC rates a bank's service performance "high satisfactory" if, in general, the bank demonstrates:

(A) Its service delivery systems are accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s).

particularly low- and moderate-income geographies and low- and moderate-income individuals; and

(D) It provides a relatively high level of community development services.

(iii) *Low satisfactory.* The OCC rates a bank's service performance "low satisfactory" if, in general, the bank demonstrates:

(A) Its service delivery systems are reasonably accessible to geographies and individuals of different income levels in its assessment area(s);

(B) To the extent changes have been made, its record of opening and closing branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;

(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s), particularly low- and moderate-income geographies and low- and moderate-income individuals; and

(D) It provides an adequate level of community development services.

(iv) *Needs to improve.* The OCC rates a bank's service performance "needs to improve" if, in general, the bank demonstrates:

(A) Its service delivery systems are unreasonably inaccessible to portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has adversely affected the accessibility its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides a limited level of community development services.

(v) *Substantial noncompliance.* The OCC rates a bank's service performance as being in "substantial noncompliance" if, in general, the bank demonstrates:

(A) Its service delivery systems are unreasonably inaccessible to significant portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;

(B) To the extent changes have been made, its record of opening and closing branches has significantly adversely affected the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;

(C) Its services (including, where appropriate, business hours) vary in a way that significantly inconveniences its assessment

area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and

(D) It provides few, if any, community development services.
