*Interest rate contracts—*

(1) Means single currency interest rate swaps, basis swaps, forward rate agreements, interest rate options purchased (including caps, collars, and floors purchased), over-the-counter options purchased, and any other instrument that gives rise to similar credit risks (including when-issued securities and forward deposits accepted); and

(2) Does not mean such instruments traded on exchanges that require daily payment of variation margins.

*Mortgage-backed security* means a security, investment, or substantially equivalent instrument that represents an interest in a pool of loans secured by mortgages or deeds of trust where the principal or interest payments to the investor in the security or substantially equivalent instrument are guaranteed or effectively guaranteed by an Enterprise.

*Multifamily credit enhancement* means any guarantee, pledge, purchase arrangement, or other obligation or commitment provided or entered into by an Enterprise with respect to multifamily mortgages to provide credit enhancement, liquidity, interest rate support, and other guarantees and enhancements for revenue bonds issued by a state or local governmental unit (including a housing finance agency) or other bond issuer.

A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country's mobility or unwillingness to meet its external debt service obligations, but generally not include any renegotiation to allow the borrower to take advantage of a decline in interest rate or other change in market conditions. As of November 1995, the OECD countries included the following countries:
