

(b) The Fund may supplement a draft or final EIS at any time. The Fund shall prepare or have prepared a supplement to either the draft or final EIS when:

(1) Substantial changes are proposed to an action contained in the draft or final EIS that are relevant to environmental concerns or there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts; or

(2) Actions are proposed which relate or are similar to other action(s) taken or proposed and that together have a cumulatively significant impact on the environment.

§ 1815.110 Categorical exclusion.

The CEQ regulations provide for the categorical exclusion of actions that do not individually or cumulatively have a significant effect on the human environment (40 CFR 1508.4). Therefore, neither an environmental assessment nor an EIS is required for such actions. An action which falls into one of the categories below may still require the preparation of an EIS or environmental assessment if the designated Fund official determines it meets the criteria stated in § 1815.109 or involves extraordinary circumstances that may have a significant environmental effect. The Fund has determined the following categorical exclusions:

(a) Actions directly related to the administration or operation of the Fund (e.g. personnel actions, including, but not limited to, staff recruitment and training; purchase of goods and services for the Fund, including, but not limited to, furnishings, equipment, supplies and services; space acquisition; property management; and security);

(b) Actions directly related to and implementing proposals for which an environmental assessment or an environmental assessment and EIS have been prepared;

(c) Actions directly related to the granting or receipt of Bank Enterprise Act awards pursuant to part 1806 of this chapter;

(d) Actions directly related to training and/or technical assistance;

(e) Projects for the acquisition, disposition, rehabilitation and/or modernization of 500 existing housing units or less when all the following conditions are met:

(1) Unit density is not increased more than 20 percent;

(2) The Project does not involve changes in land use from nonresidential to residential;

(3) The estimated cost of rehabilitation is less than 75 percent of the total estimated cost of replacement after rehabilitation; and

(4) The Project does not involve the demolition of one or more buildings containing the primary use served by the project that, together, have more than 20 percent of the square footage of the Project;

(f) Projects for the construction of 200 housing units or less when all the following conditions are met:

(1) The Project does not involve changes in existing land use from non-residential to residential; and

(2) The Project does not involve the demolition of one or more buildings containing the primary use served by the project that, together, have more than 20 percent of the square footage of the Project;

(g) Projects for the acquisition, disposition, rehabilitation and/or modernization of 200,000 square feet or less of existing commercial space when all the following conditions are met:

(1) The Project does not involve changes in existing land use from residential to nonresidential;

(2) The estimated cost of rehabilitation is less than 75 percent of the total estimated cost of replacement after rehabilitation; and

(3) The Project does not involve the demolition of more than 10,000 square feet of commercial space containing the primary use served by the Project;

(h) Projects for the construction of 100,000 square feet or less of commercial space when all the following conditions are met:

(1) The Project does not involve changes in existing land use from residential to nonresidential; and

(2) The Project does not involve the demolition of more than 10,000 square feet of commercial space containing the primary use served by the Project;

§ 1815.111

12 CFR Ch. XVIII (1–1–14 Edition)

(i) Projects for the acquisition of an existing structure, provided that the property to be acquired is in place and will be retained in the same use;

(j) Projects involving Fund financial assistance of \$1,000,000 or less;

(k) Actions directly related to the provision of residential tenant-based rental assistance, Consumer Loans, health care, child care, educational, cultural and/or social services;

(l) Actions involving Fund financial assistance that is used to increase the permanent capital and/or liquidity of an applicant;

(m) Actions where no use of Federal funds is involved in the activity or Project; and

(n) Actions directly related to the provision of working capital, the acquisition of machinery and equipment or the purchase of inventory, raw materials or supplies.

§ 1815.111 Actions that require an environmental assessment.

If a Project or action is not one that normally requires an EIS and does not qualify for categorical exclusion, the Fund shall prepare, or have prepared, an environmental assessment.

§ 1815.112 Preparation of an environmental assessment.

(a) The Fund shall begin the preparation of an environmental assessment as early as possible after the designated Fund official has determined that it is required. The Fund may prepare an environmental assessment at any time to assist planning and decisionmaking.

(b) An environmental assessment is a concise public document used to determine whether to prepare an EIS. An environmental assessment aids in complying with the NEPA when no EIS is necessary, and it facilitates the preparation of an EIS, if one is necessary. The environmental assessment shall contain brief discussions of the following topics:

(1) Purpose and need for the proposed action;

(2) Description of the proposed action;

(3) Alternatives considered, including the no action alternative;

(4) Environmental effects of the proposed action and alternative actions; and

(5) Listing of agencies, organizations or persons consulted.

(c) The most important or significant environmental consequences and effects on the areas listed below should be addressed in the environmental assessment. Only those areas which are specifically relevant to the particular proposal should be addressed. Those areas should be addressed in as much detail as is necessary to allow an analysis of the alternatives and the proposal. The areas to be considered are the following:

(1) Natural/ecological features (such as floodplain, wetlands, coastal zones, wildlife refuges, and endangered species);

(2) Air quality;

(3) Sound levels;

(4) Water supply, wastewater treatment and water runoff;

(5) Energy requirements and conservation;

(6) Solid waste;

(7) Transportation;

(8) Community facilities and services;

(9) Social and economic;

(10) Historic and aesthetic; and

(11) Other relevant factors.

(d) If the Fund completes an environmental assessment and determines that an EIS is not required, then the Fund shall prepare a finding of no significant impact. The finding of no significant impact shall be made available to the public by the Fund as specified in 40 CFR 1506.6 of the CEQ regulations.

§ 1815.113 Public involvement.

All information collected by the Fund pursuant to this part shall be available to the public consistent with the CEQ regulations. Interested persons may obtain information concerning any pending EIS or any other element of the environmental review process of the Fund by contacting the Community Development Financial Institutions Fund, Department of the Treasury, 1500 Pennsylvania Avenue NW., room 5116, Washington, DC 20220, or such other contact entity designated by the Fund.
