(1) Is registered or licensed to practice as a public accountant, and is in good standing, under the laws of the state or other political subdivision of the United States in which the State savings association's or holding company's principal office is located;

(2) Agrees in the engagement letter to provide the FDIC with access to and copies of any work papers, policies, and procedures relating to the services performed;

(3)(i) Is in compliance with the American Institute of Certified Public Accountants' (AICPA) Code of Professional Conduct; and

(ii) Meets the independence requirements and interpretations of the Securities and Exchange Commission and its staff; and

(4) Has received, or is enrolled in, a peer review program that meets guidelines acceptable to the FDIC.
Federal Deposit Insurance Corporation

§ 390.332 Merger, consolidation, purchase or sale of assets, or assumption of liabilities.

(a) No State savings association may, without application to and approval by the FDIC:

(1) Combine with any insured depository institution, if the acquiring or resulting institution is to be a State savings association; or

(2) Assume liability to pay any deposit made in, any insured depository institution.

(b)(1) No State savings association may, without notifying the FDIC, as provided in paragraph (h)(1) of this section:

(1) Combine with another insured depository institution where a State savings association is not the resulting institution; or

(ii) In the case of a State savings association that meets the conditions for expedited treatment under §390.101, convert, directly or indirectly, to a national or state bank.

(2) A State savings association that does not meet the conditions for expedited treatment under §390.101 may not, directly or indirectly, convert to a national or state bank without prior application to and approval of FDIC, as provided in paragraph (h)(2)(ii) of this section.

(c) No State savings association may make any transfer (excluding transfers subject to paragraphs (a) or (b) of this section) without notice or application to the FDIC, as provided in paragraph (h)(2) of this section. For purposes of this paragraph, the term “transfer” means purchases or sales of assets or liabilities in bulk not made in the ordinary course of business including, but not limited to, transfers of assets or savings account liabilities, purchases of assets, and assumptions of deposit accounts or other liabilities, and combinations with a depository institution other than an insured depository institution.

(d)(1) In determining whether to confer approval for a transaction under paragraphs (a), (b)(2), or (c) of this section, the FDIC shall take into account the following:

(i) The capital level of any resulting State savings association;

(ii) The financial and managerial resources of the constituent institutions;

(iii) The future prospects of the constituent institutions;

(iv) The convenience and needs of the communities to be served;

(v) The conformity of the transaction to applicable law, regulation, and supervisory policies;

(vi) Factors relating to the fairness of and disclosure concerning the transaction, including, but not limited to:

(A) Equitable treatment. The transaction should be equitable to all concerned—savings account holders, borrowers, creditors and stockholders (if any) of each State savings association—giving proper recognition of and protection to their respective legal rights and interests. The transaction
§ 390.332

12 CFR Ch. III (1–1–14 Edition)

will be closely reviewed for fairness where the transaction does not appear to be the result of arms’ length bargaining or, in the case of a stock State savings association, where controlling stockholders are receiving different consideration from other stockholders. No finder’s or similar fee should be paid to any officer, director, or controlling person of a State savings association which is a party to the transaction.

(B) Full disclosure. The filing should make full disclosure of all written or oral agreements or understandings by which any person or company will receive, directly or indirectly, any money, property, service, release of pledges made, or other thing of value, whether tangible or intangible, in connection with the transaction.

(C) Compensation to officers. Compensation, including deferred compensation, to officers, directors and controlling persons of the disappearing State savings association by the resulting institution or an affiliate thereof should not be in excess of a reasonable amount, and should be commensurate with their duties and responsibilities. The filing should fully justify the compensation to be paid to such persons. The transaction will be particularly scrutinized where any of such persons is to receive a material increase in compensation above that paid by the disappearing State savings association prior to the commencement of negotiations regarding the proposed transaction. An increase in compensation in excess of the greater of 15% or $10,000 gives rise to presumptions of unreasonableness and sale of control. In the case of such an increase, evidence sufficient to rebut such presumptions should be submitted.

(D) Advisory boards. Advisory board members should be elected for a term not exceeding one year. No advisory board fees should be paid to salaried officers or employees of the resulting institution, or any advisory board fees should be paid to any advisory board of the resulting State savings association that consists of officers, directors or controlling persons of the disappearing institution, particularly if the disappearing institution experienced significant supervisory problems prior to the transaction. No advisory board fees should exceed the director fees paid by the resulting State savings association. Advisory board fees that are in excess of 115 percent of the director fees paid by the disappearing State savings association prior to commencement of negotiations regarding the transaction give rise to presumptions of unreasonableness and sale of control unless sufficient evidence to rebut such presumptions is submitted. Rebuttal evidence is not required if:

(1) The advisory board fees do not exceed the fee that advisory board members of the resulting institution receive for each monthly meeting attended or $150, whichever is greater; or

(2) The advisory board fees do not exceed $100 per meeting attended for disappearing State savings associations with assets greater than $10,000,000 or $50 per meeting attended for disappearing State savings associations with assets of $10,000,000 or less, based on a schedule of 12 meetings per year.

(E) The accounting and tax treatment of the transaction; and

(F) Fees paid and professional services rendered in connection with the transaction.

(2) In conferring approval of a transaction under paragraph (a) of this section, the FDIC also will consider the competitive impact of the transaction, including whether:

(i) The transaction would result in a monopoly, or would be in furtherance of any monopoly or conspiracy to monopolize or to attempt to monopolize the State savings association business in any part of the United States; or

(ii) The effect of the transaction on any section of the country may be substantially to lessen competition, or tend to create a monopoly, or in any other manner would be in restraint of trade, unless the FDIC finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the communities to be served.

(3) Applications and notices filed under this section shall be upon forms prescribed by the FDIC.
Applications filed under paragraph (a) of this section must be processed in accordance with the timeframes set forth in §§390.127 through 390.135, provided that the period for review may be extended only if the FDIC determines that the applicant has failed to furnish all requested information or that the information submitted is substantially inaccurate, in which case the review period may be extended for up to 30 days.

(e)(1) The following procedures apply to applications described in paragraph (a) of this section, unless the FDIC finds that it must act immediately to prevent the probable default of one of the depository institutions involved:

(i) The applicant must publish a public notice of the application in accordance with the procedures in §§390.111 through 390.115. In addition to the initial publication, the applicant must also publish on a weekly basis during the public comment period.

(ii) Commenters may submit comments on an application in accordance with the procedures in §§390.116 through 390.120. The public comment period is 30 calendar days after the date of publication of the initial public notice. However, if the FDIC has advised the Attorney General that an emergency exists requiring expeditious action, the public comment period is 10 calendar days after the date of publication of the initial public notice.

(iii) The FDIC may arrange a meeting in accordance with the procedures in §§390.121 through 390.125.

(iv) The FDIC will request the Attorney General, the Office of the Comptroller of the Currency, and the Board of Governors of the Federal Reserve System to provide reports on the competitive impacts involved in the transaction.

(v) The FDIC will immediately notify the Attorney General of the approval of the transaction. The applicant may not consummate the transaction before the date established under 12 U.S.C. 1828(c)(6).

(2) For applications described in §390.332, certain State savings associations described below must provide affected account holders with a notice of a proposed account transfer and an option of retaining the account in the transferring State savings association. The notice must allow affected account holders at least 30 days to consider whether to retain their accounts in the transferring State savings association. The following State savings associations must provide the notices:

(i) A State savings association transferring account liabilities to an institution the accounts of which are not insured by the Deposit Insurance Fund or the National Credit Union Share Insurance Fund; and

(ii) Any mutual State savings association transferring account liabilities to a stock form depository institution.

(f) Automatic approvals by the FDIC.

Applications filed pursuant to paragraph (a) of this section shall be deemed to be approved automatically by the FDIC 30 calendar days after the FDIC sends written notice to the applicant that the application is complete, unless:

(1) The acquiring State savings association does not meet the criteria for expedited treatment under §390.101;

(2) The FDIC recommends the imposition of non-standard conditions prior to approving the application;

(3) The FDIC suspends the applicable processing time frames under §390.125;

(4) The FDIC raises objections to the transaction;

(5) The resulting State savings association would be one of the 3 largest depository institutions competing in the relevant geographic area where before the transaction there were 5 or fewer depository institutions, the resulting State savings association would have 25 percent or more of the total deposits held by depositing institutions in the relevant geographic area, and the share of total deposits would have increased by 5 percent or more;

(6) The resulting State savings association would be one of the 2 largest depository institutions competing in the relevant geographic area where before the transaction there were 6 to 11 depository institutions the resulting State savings association would have 30 percent or more of the total deposits held by depositing institutions in the relevant geographic area, and the share of total deposits would have increased by 10 percent or more;
(7) The resulting State savings association would be one of the 2 largest depository institutions competing in the relevant geographic area where before the transaction there were 12 or more depository institutions, the resulting State savings association would have 35 percent or more of the total deposits held by the depository institutions in the relevant geographic area, and the share of total deposits would have increased by 15 percent or more;

(8) The Herfindahl-Hirschman Index (HHI) in the relevant geographic area was more than 1800 before the transaction, and the increase in the HHI used by the transaction would be 50 or more;

(9) In a transaction involving potential competition, the FDIC determines that the acquiring State savings association is one of three or fewer potential entrants into the relevant geographic area;

(10) The acquiring State savings association has assets of $1 billion or more and proposes to acquire assets of $1 billion or more;

(11) The State savings association that will be the resulting State savings association in the transaction has a composite Community Reinvestment Act rating of less than satisfactory, or is otherwise seriously deficient with respect to the FDIC’s nondiscrimination regulations and the deficiencies have not been resolved to the satisfaction of the FDIC;

(12) The transaction involves any supervisory or assistance agreement with the FDIC;

(13) The transaction is part of a conversion under 12 CFR part 192;

(14) The transaction raises a significant issue of law or policy;

(15) The transaction is opposed by any constituent institution or contested by a competing acquiror.

(g) Definitions. (1) The terms used in this subpart shall have the same meaning as set forth in 12 CFR 152.13(b).

(2) Insured depository institution. Insured depository institution has the same meaning as defined in section 3(c)(2) of the Federal Deposit Insurance Act.

(3) With regard to paragraph (f) of this section, the term relevant geographic area is used as a substitute for relevant geographic market, which means the area within which the competitive effects of a merger or other combination may be evaluated. The relevant geographic area shall be delineated as a county or similar political subdivision, an area smaller than a county, or an aggregation of counties within which the merging or combining insured depository institutions compete. In addition, the FDIC may consider commuting patterns, newspaper and other advertising activities, or other factors as the FDIC deems relevant.

(h) Special requirements and procedures for transactions under paragraphs (b) and (c) of this section—(1)(i) Certain transactions with no surviving State savings association. The FDIC must be notified of any transaction under paragraph (b)(1) of this section. Such notification must be submitted to the appropriate FDIC region, as defined in §303.2 of this chapter, at least 30 days prior to the effective date of the transaction, but not later than the date on which an application relating to the proposed transaction is filed with the primary regulator of the resulting institution; the FDIC may, upon request or on its own initiative, shorten the 30-day prior notification requirement. Notifications under this paragraph must demonstrate compliance with applicable stockholder or accountholder approval requirements. Where the State savings association submitting the notification maintains a liquidation account established pursuant to 12 CFR part 192, the notification must state that the resulting institution will assume such liquidation account.

(ii) The notification may be in the form of either a letter describing the material features of the transaction or a copy of a filing made with another Federal or state regulatory agency seeking approval from that agency for the transaction under the Bank Merger Act or other applicable statute. If the action contemplated by the notification is not completed within one year after the FDIC’s receipt of the notification, a new notification must be submitted to the FDIC.

(2) Other transfer transactions—(1) Expedited treatment. A notice in conformity with §390.135(a) may be submitted to the appropriate FDIC region, as defined in §303.2 of this chapter,
Federal Deposit Insurance Corporation

§ 390.336 Employment contracts.

(a) General. A State savings association may enter into an employment contract with its officers and other employees only in accordance with the requirements of this section. All employment contracts shall be in writing and shall be approved specifically by a State savings association's board of directors. A State savings association shall not enter into an employment contract with any of its officers or other employees if such contract would constitute an unsafe or unsound practice. The making of such an employment contract would be an unsafe or unsound practice if such contract could lead to material financial loss or damage to the State savings association or could interfere materially with the exercise by the members of its board of directors of their duty or discretion provided by law, charter, bylaw or regulation as to the employment or termination of employment of an officer or employee of the State savings association. This may occur, depending upon the circumstances of the case, where an employment contract provides for an excessive term.

(b) Required provisions. Each employment contract shall provide that:

(1) The State savings association's board of directors may terminate the officer or employee's employment at any time, but any termination by the

§ 390.335 Tying restriction exception.

For applicable rules, see the regulations issued by the Board of Governors of the Federal Reserve System.

§ 390.334 Directors, officers, and employees.

(a) Directors—(1) Requirements. The composition of the board of directors of a State savings association must be in accordance with the following requirements:

(i) A majority of the directors must not be salaried officers or employees of the State savings association or of any subsidiary or (except in the case of a State savings association having 80% or more of any class of voting shares owned by a holding company) any holding company affiliate thereof.

(ii) Not more than two of the directors may be members of the same immediate family.

(iii) Not more than one director may be an attorney with a particular law firm.

(2) Prospective application. In the case of an association whose board of directors does not conform with any requirement set forth in paragraph (a)(1) of this section as of October 5, 1983, this paragraph (a) shall not prohibit the uninterrupted service, including re-election and re-appointment, of any person serving on the board of directors at that date.

(b) [Reserved]
§ 390.337 Transactions with affiliates.

For applicable rules, see the regulations issued by the Board of Governors of the Federal Reserve System.

§ 390.338 Loans by State savings associations to their executive officers, directors, and principal shareholders.

For applicable rules, see the regulations issued by the Board of Governors of the Federal Reserve System.

§ 390.339 Pension plans.

(a) General. No State savings association shall sponsor an employee pension plan which, because of unreasonable costs or any other reason, could lead to material financial loss or damage to the sponsor. For purposes of this section, an employee pension plan is defined in section 3(2) of the Employee Retirement Income Security Act of 1974, as amended. The prospective obligation or liability of a plan sponsor to each plan participant shall be stated in or determinable from the plan, and, for a defined benefit plan, shall also be based upon an actuarial estimate of future experience under the plan.

Provided, that this paragraph (b)(4) need not be included in an employment contract if prior written approval is secured from the FDIC.

(5)(i) All obligations under the contract shall be terminated, except to the extent determined that continuation of the contract is necessary for the continued operation of the State savings association

(A) By the FDIC, at the time the FDIC enters into an agreement to provide assistance to or on behalf of the State savings association under the authority contained in 13(c) of the Federal Deposit Insurance Act; or

(B) By the FDIC, at the time the FDIC approves a supervisory merger to resolve problems related to operation of the State savings association or when the State savings association is determined by the FDIC to be in an unsafe or unsound condition.

(ii) Any rights of the parties that have already vested, however, shall not be affected by such action.
Federal Deposit Insurance Corporation

(b) **Funding.** Actuarial cost methods permitted under the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1954, as amended, shall be used to determine plan funding.

(c) **Plan amendment.** A plan may be amended to provide reasonable annual cost-of-living increases to retired participants: Provided, That:

1. Any such increase shall be for a period and amount determined by the sponsor’s board of directors, but in no event shall it exceed the annual increase in the Consumer Price Index published by the Bureau of Labor Statistics; and
2. No increase shall be granted unless:
   1) Anticipated charges to net income for future periods have first been found by such board of directors to be reasonable and are documented by appropriate resolution and supporting analysis; and
   2) The increase will not reduce the State savings association’s regulatory capital below its regulatory capital requirement.

(d) **Termination.** The plan shall permit the sponsor’s board of directors and its successors to terminate such plan. Notice of intent to terminate shall be filed with the FDIC at least 60 days prior to the proposed termination date.

(e) **Records.** Each State savings association maintaining a plan not subject to recordkeeping and reporting requirements of the Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1954, as amended, shall establish and maintain records containing the following:

1. Plan description;
2. Schedule of participants and beneficiaries;
3. Schedule of participants and beneficiaries’ rights and obligations;
4. Plan’s financial statements; and
5. Except for defined contribution plans, an opinion signed by an enrolled actuary (as defined by the Employee Retirement Income Security Act of 1974) affirming that actuarial assumptions in the aggregate are reasonable, take into account the plan’s experience and expectations, and represent the actuary’s best estimate of the plan’s projected experiences.

§ 390.340 Offers and sales of securities at an office of a State savings association.

(a) A State savings association may not offer or sell debt or equity securities issued by the State savings association or an affiliate of the State savings association at an office of the State savings association; except that equity securities issued by the State savings association or an affiliate in connection with the State savings association’s conversion from the mutual to stock form of organization in a conversion approved pursuant to 12 CFR part 192 may be offered and sold at the State savings association’s offices: Provided, That:

1. The FDIC does not object on supervisory grounds that the offer and sale of the securities at the offices of the State savings association;
2. No commissions, bonuses, or comparable payments are paid to any employee of the State savings association or its affiliates or to any other person in connection with the sale of securities at an office of a State savings association; except that compensation and commissions consistent with industry norms may be paid to securities personnel of registered broker-dealers;
3. No offers or sales are made by tellers or at the teller counter, or by comparable persons at comparable locations;
4. Sales activity is conducted in a segregated or separately identifiable area of the State savings association’s offices apart from the area accessible to the general public for the purposes of making or withdrawing deposits;
5. Offers and sales are made only by regular, full-time employees of the State savings association or by securities personnel who are subject to supervision by a registered broker-dealer;
6. An acknowledgment, in the form set forth in paragraph (c) of this section, is signed by any customer to whom the security is sold in the State savings association’s offices prior to the sale of any such securities;
7. A legend that the security is not a deposit or account and is not federally insured or guaranteed appears conspicuously on the security and in all offering documents and advertisements for the securities; the legend must

1087
§ 390.341 Inclusion of subordinated debt securities and mandatorily redeemable preferred stock as supplementary capital.

(a) Scope. A State savings association must comply with this section in order to include subordinated debt securities or mandatorily redeemable preferred stock ("covered securities") in supplementary capital (tier 2 capital) under subpart Z. If a State savings association does not include covered securities in supplementary capital, it is not required to comply with this section.

(b) Application and notice procedures.

(1) A State savings association must file an application or notice under §§390.103 through 390.110 seeking FDIC approval of, or non-objection to, the inclusion of covered securities in supplementary capital. The State savings association may file its application or notice before or after it issues covered securities, but may not include covered securities in supplementary capital until the FDIC approves the application or does not object to the notice.

(2) A State savings association must also comply with the securities offering rules at subpart W by filing an offering circular for a proposed issuance of covered securities, unless the offering qualifies for an exemption under that subpart.

(c) Securities requirements. To be included in supplementary capital, covered securities must meet the following requirements:

(1) Form. (i) Each certificate evidencing a covered security must:

(A) Bear the following legend on its face, in bold type: "This security is not a deposit or account and is not federally insured or guaranteed;"

(B) State that the security is subordinated on liquidation, as to principal, interest, and premium, to all claims against the State savings association that have the same priority as savings accounts or a higher priority;

(C) State that the security is not secured by the State savings association's assets or the assets of any affiliate of the State savings association.

For purposes of this subpart, the term affiliate means any person or company which controls, is controlled by, or is

§ 390.341 Inclusion of subordinated debt securities and mandatorily redeemable preferred stock as supplementary capital.

(a) Scope. A State savings association must comply with this section in order to include subordinated debt securities or mandatorily redeemable preferred stock ("covered securities") in supplementary capital (tier 2 capital) under subpart Z. If a State savings association does not include covered securities in supplementary capital, it is not required to comply with this section.

(b) Application and notice procedures.

(1) A State savings association must file an application or notice under §§390.103 through 390.110 seeking FDIC approval of, or non-objection to, the inclusion of covered securities in supplementary capital. The State savings association may file its application or notice before or after it issues covered securities, but may not include covered securities in supplementary capital until the FDIC approves the application or does not object to the notice.

(2) A State savings association must also comply with the securities offering rules at subpart W by filing an offering circular for a proposed issuance of covered securities, unless the offering qualifies for an exemption under that subpart.

(c) Securities requirements. To be included in supplementary capital, covered securities must meet the following requirements:

(1) Form. (i) Each certificate evidencing a covered security must:

(A) Bear the following legend on its face, in bold type: "This security is not a deposit or account and is not federally insured or guaranteed;"

(B) State that the security is subordinated on liquidation, as to principal, interest, and premium, to all claims against the State savings association that have the same priority as savings accounts or a higher priority;

(C) State that the security is not secured by the State savings association's assets or the assets of any affiliate of the State savings association.

For purposes of this subpart, the term affiliate means any person or company which controls, is controlled by, or is
under common control with such State savings association.

(D) State that the security is not eligible collateral for a loan by the State savings association;

(E) State the prohibition on the payment of dividends or interest at 12 U.S.C. 1828(b) and, in the case of subordinated debt securities, state the prohibition on the payment of principal and interest at 12 U.S.C. 1831o(h);

(F) For subordinated debt securities, state or refer to a document stating the terms under which the State savings association may prepay the obligation; and

(G) State or refer to a document stating that the State savings association must obtain FDIC approval before the voluntarily prepayment of principal on subordinated debt securities, the acceleration of payment of principal on subordinated debt securities, or the voluntarily redemption of mandatorily redeemable preferred stock (other than scheduled redemptions), if the State savings association is undercapitalized, significantly undercapitalized, or critically undercapitalized as described in §390.453(4)(b), fails to meet the regulatory capital requirements at subpart Z, or would fail to meet any of these standards following the payment.

(ii) A State savings association must include such additional statements as the FDIC may prescribe for certificates, purchase agreements, indentures, and other related documents.

(2) Maturity requirements. Covered securities must have an original weighted average maturity or original weighted average period to required redemption of at least five years.

(3) Mandatory prepayment. Subordinated debt securities and related documents may not provide events of default or contain other provisions that could result in a mandatory prepayment of principal, other than events of default that:

(i) Arise from the State savings association’s failure to make timely payment of interest or principal;

(ii) Arise from its failure to comply with reasonable financial, operating, and maintenance covenants of a type that are customarily included in indentures for publicly offered debt securities; or

(iii) Relate to bankruptcy, insolvency, receivership, or similar events.

(4) Indenture. (i) Except as provided in paragraph (c)(4)(ii) of this section, a State savings association must use an indenture for subordinated debt securities. If the aggregate amount of subordinated debt securities publicly offered (excluding sales in a non-public offering as defined in §390.413 and sold in any consecutive 12-month or 36-month period exceeds $5,000,000 or $10,000,000 respectively (or such lesser amount that the Securities and Exchange Commission shall establish by rule or regulation under 15 U.S.C. 77ddi), the indenture must provide for the appointment of a trustee other than the State savings association or an affiliate of the State savings association (as defined at §390.283) and for collective enforcement of the security holders’ rights and remedies.

(ii) A State savings association is not required to use an indenture if the subordinated debt securities are sold only to accredited investors, as that term is defined in 15 U.S.C. 77d(6). A State savings association must have an indenture that meets the requirements of paragraph (c)(4)(i) of this section in place before any debt securities for which an exemption from the indenture requirement is claimed, are transferred to any non-accredited investor. If a State savings association relies on this exemption from the indenture requirement, it must place a legend on the debt securities indicating that an indenture must be in place before the debt securities are transferred to any non-accredited investor.

(d) FDIC review. (1) The FDIC will review notices and applications under §§390.126 through 390.135.

(2) In reviewing notices and applications under this section, the FDIC will consider whether:

(i) The issuance of the covered securities is authorized under applicable laws and regulations and is consistent with the State savings association’s charter and bylaws.

(ii) The State savings association is at least adequately capitalized under §390.453(4)(b) and meets the regulatory capital requirements at subpart Z.
(iii) The State savings association is or will be able to service the covered securities.

(iv) The covered securities are consistent with the requirements of this section.

(v) The covered securities and related transactions sufficiently transfer risk from the Deposit Insurance Fund.

(vi) The FDIC has no objection to the issuance based on the State savings association’s overall policies, condition, and operations.

(3) The FDIC approval or non-objection is conditioned upon no material changes to the information disclosed in the application or notice submitted to the FDIC. The FDIC may impose such additional requirements or conditions as it may deem necessary to protect purchasers, the State savings association, or the Deposit Insurance Fund.

(e) Amendments. If a State savings association amends the covered securities or related documents following the completion of the FDIC’s review, it must obtain the FDIC’s approval or non-objection under this section before it may include the amended securities in supplementary capital.

(f) Sale of covered securities. The State savings association must complete the sale of covered securities within one year after the FDIC’s approval or non-objection under this section. A State savings association may request an extension of the offering period by filing a written request with the FDIC. The State savings association must demonstrate good cause for the extension and file the request at least 30 days before the expiration of the offering period or any extension of the offering period.

(g) Reports. A State savings association must file the following information with the FDIC within 30 days after the State savings association completes the sale of covered securities includable as supplementary capital. If the State savings association filed its application or notice following the completion of the sale, it must submit this information with its application or notice:

(1) A written report indicating the number of purchasers, the total dollar amount of securities sold, the net proceeds received by the State savings association from the issuance, and the amount of covered securities, net of all expenses, to be included as supplementary capital;

(2) Three copies of an executed form of the securities and a copy of any related documents governing the issuance or administration of the securities; and

(3) A certification by the appropriate executive officer indicating that the State savings association complied with all applicable laws and regulations in connection with the offering, issuance, and sale of the securities.

§ 390.343 What is a capital distribution?

A capital distribution is:

(a) A distribution of cash or other property to your owners made on account of their ownership, but excludes:

(1) Any dividend consisting only of your shares or rights to purchase your shares;

(2) If you are a mutual State savings association, any payment that you are required to make under the terms of a deposit instrument and any other amount paid on deposits that the FDIC determines is not a distribution for the purposes of this section;

(b) Your payment to repurchase, redeem, retire or otherwise acquire any of your shares or other ownership interests, any payment to repurchase, redeem, retire, or otherwise acquire debt instruments included in your total capital under subpart Z, and any extension of credit to finance an affiliate’s acquisition of your shares or interests;

(c) Any direct or indirect payment of cash or other property to owners or affiliates made in connection with a corporate restructuring. This includes your payment of cash or property to shareholders of another savings association or to shareholders of its holding company to acquire ownership in that savings association, other than by a distribution of shares;

(d) Any other distribution charged against your capital accounts if you
§ 390.346 How do I file with the FDIC?

(a) Contents. Your notice or application must:
(1) Be in narrative form.

(2) Include all relevant information concerning the proposed capital distribution, including the amount, timing, and type of distribution.

(3) Demonstrate compliance with §390.348.
(b) Schedules. Your notice or application may include a schedule proposing capital distributions over a specified period, not to exceed 12 months.

(c) Timing. You must file your notice or application at least 30 days before the proposed declaration of dividend or approval of the proposed capital distribution by your board of directors.

§ 390.347 May I combine my notice or application with other notices or applications?

You may combine the notice or application required under § 390.345 with any other notice or application, if the capital distribution is a part of, or is proposed in connection with, another transaction requiring a notice or application under Parts 390 and 391. If you submit a combined filing, you must:

(a) State that the related notice or application is intended to serve as a notice or application under §§ 390.342 through 390.348; and

(b) Submit the notice or application in a timely manner.

§ 390.348 Will the FDIC permit my capital distribution?

The FDIC will review your notice or application under the review procedures in §§ 390.126 through 390.135. The FDIC may disapprove your notice or deny your application filed under § 390.345 in whole or in part, if the FDIC makes any of the following determinations.

(a) You will be undercapitalized, significantly undercapitalized, or critically undercapitalized as set forth in § 390.433(b), following the capital distribution. If so, the FDIC will determine if your capital distribution is permitted under 12 U.S.C. 1831o(d)(1)(B).

(b) Your proposed capital distribution raises safety or soundness concerns.

(c) Your proposed capital distribution violates a prohibition contained in any statute, regulation, agreement between you and the FDIC or a condition imposed on you in an FDIC-approved application or notice. If so, the FDIC will determine whether it may permit your capital distribution notwithstanding the prohibition or condition.

§ 390.349 Management and financial policies.

(a)(1) For the protection of depositors and other State savings associations, each State savings association must be well managed and operate safely and soundly. Each also must pursue financial policies that are safe and consistent with economical home financing and the purposes of State savings associations.

(2) As part of meeting its requirements under paragraph (a)(1) of this section, each State savings association must maintain sufficient liquidity to ensure its safe and sound operation.

(b) Compensation to officers, directors, and employees of each State savings association shall not be in excess of that which is reasonable and commensurate with their duties and responsibilities. Former officers, directors, and employees of State savings association who regularly perform services therefor under consulting contracts are employees thereof for purposes of this paragraph (b).

§ 390.350 Examinations and audits; appraisals; establishment and maintenance of records.

(a) Examinations and audits. Each State savings association and affiliate thereof shall be examined periodically, and may be examined at any time, by the FDIC, with appraisals when deemed advisable, in accordance with general policies from time to time established by the FDIC.

(b) Appraisals. (1) Unless otherwise ordered by the FDIC, appraisal of real estate by the FDIC in connection with any examination or audit of a State savings association or its affiliate shall be made by an appraiser, or by appraisers, selected by the appropriate FDIC region, as that term is defined in § 303.2 of this chapter, in which such State savings association is located. The cost of such appraisal shall promptly be paid by such State savings association or its affiliate direct to such appraiser or appraisers upon receipt by the State savings association or its affiliate of a statement of such cost as approved by the appropriate regional director. A copy of the report of each appraisal made by the FDIC pursuant to any of the foregoing provisions of this section...
Federal Deposit Insurance Corporation

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations pursuant to authority conferred by 12 U.S.C. 1463 and the requirements of 12 U.S.C. 1820(d). The FDIC is required to conduct a full-scope, on-site examination of every State savings association at least once during each 12-month period.

(b) 18-month rule for certain small institutions. The FDIC may conduct a full-scope, on-site examination of a State savings association at least once during each 18-month period, rather than each 12-month period as provided in paragraph (a) of this section, if the following conditions are satisfied:

(1) The State savings association has total assets of less than $500 million;

(2) The State savings association is well capitalized as defined in §390.453;

(3) At its most recent examination, the FDIC—

(i) Assigned the State savings association a rating of 1 or 2 for management as part of the State savings association’s composite rating under the Uniform Financial Institutions Rating System (commonly referred to as CAMELS), and

(ii) Determined that the State savings association was in outstanding or good condition, that is, it received a composite rating, as defined in §390.101(c), of 1 or 2.

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations and its affiliates and audit State savings associations and its affiliates, pursuant to the provisions of paragraph (a) of this section, each State savings association, and its affiliate shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business it transacts. This includes, without limitation, establishing and maintaining such records as are required by statute or any other regulation to which the State savings association and its affiliate is subject. The documents, files, and other material or property comprising said records shall at all times be available for such examination and audit wherever any of said records, documents, files, material, or property may be.

(d) Change in location of records. A State savings association shall not transfer the location of any of its general accounting or control records, or the maintenance thereof, from its home office to a branch or service office, or from a branch or service office to its home office or to another branch or service office unless prior to the date of transfer its board of directors has:

(1) By resolution authorized the transfer or maintenance and;

(2) Sent a certified copy of the resolution to the appropriate regional director for the region in which the principal office of the State savings association is located.

(e) Use of data processing services for maintenance of records. A State savings association which determines to maintain any of its records by means of data processing services shall so notify the appropriate regional director for the region in which the principal office of such State savings association is located, in writing, at least 90 days prior to the date on which such maintenance of records will begin. Such notification shall include identification of the records to be maintained by data processing services and a statement as to the location at which such records will be maintained. Any contract, agreement, or arrangement made by a State savings association pursuant to which data processing services are to be performed for such State savings association shall be in writing and shall expressly provide that the records to be maintained by such services shall at all times be available for examination and audit.

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations and its affiliates and audit State savings associations and its affiliates, pursuant to the provisions of paragraph (a) of this section, each State savings association, and its affiliate shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business it transacts. This includes, without limitation, establishing and maintaining such records as are required by statute or any other regulation to which the State savings association and its affiliate is subject. The documents, files, and other material or property comprising said records shall at all times be available for such examination and audit wherever any of said records, documents, files, material, or property may be.

(d) Change in location of records. A State savings association shall not transfer the location of any of its general accounting or control records, or the maintenance thereof, from its home office to a branch or service office, or from a branch or service office to its home office or to another branch or service office unless prior to the date of transfer its board of directors has:

(1) By resolution authorized the transfer or maintenance and;

(2) Sent a certified copy of the resolution to the appropriate regional director for the region in which the principal office of the State savings association is located.

(e) Use of data processing services for maintenance of records. A State savings association which determines to maintain any of its records by means of data processing services shall so notify the appropriate regional director for the region in which the principal office of such State savings association is located, in writing, at least 90 days prior to the date on which such maintenance of records will begin. Such notification shall include identification of the records to be maintained by data processing services and a statement as to the location at which such records will be maintained. Any contract, agreement, or arrangement made by a State savings association pursuant to which data processing services are to be performed for such State savings association shall be in writing and shall expressly provide that the records to be maintained by such services shall at all times be available for examination and audit.

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations and its affiliates and audit State savings associations and its affiliates, pursuant to the provisions of paragraph (a) of this section, each State savings association, and its affiliate shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business it transacts. This includes, without limitation, establishing and maintaining such records as are required by statute or any other regulation to which the State savings association and its affiliate is subject. The documents, files, and other material or property comprising said records shall at all times be available for such examination and audit wherever any of said records, documents, files, material, or property may be.

(d) Change in location of records. A State savings association shall not transfer the location of any of its general accounting or control records, or the maintenance thereof, from its home office to a branch or service office, or from a branch or service office to its home office or to another branch or service office unless prior to the date of transfer its board of directors has:

(1) By resolution authorized the transfer or maintenance and;

(2) Sent a certified copy of the resolution to the appropriate regional director for the region in which the principal office of the State savings association is located.

(e) Use of data processing services for maintenance of records. A State savings association which determines to maintain any of its records by means of data processing services shall so notify the appropriate regional director for the region in which the principal office of such State savings association is located, in writing, at least 90 days prior to the date on which such maintenance of records will begin. Such notification shall include identification of the records to be maintained by data processing services and a statement as to the location at which such records will be maintained. Any contract, agreement, or arrangement made by a State savings association pursuant to which data processing services are to be performed for such State savings association shall be in writing and shall expressly provide that the records to be maintained by such services shall at all times be available for examination and audit.

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations and its affiliates and audit State savings associations and its affiliates, pursuant to the provisions of paragraph (a) of this section, each State savings association, and its affiliate shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business it transacts. This includes, without limitation, establishing and maintaining such records as are required by statute or any other regulation to which the State savings association and its affiliate is subject. The documents, files, and other material or property comprising said records shall at all times be available for such examination and audit wherever any of said records, documents, files, material, or property may be.

(d) Change in location of records. A State savings association shall not transfer the location of any of its general accounting or control records, or the maintenance thereof, from its home office to a branch or service office, or from a branch or service office to its home office or to another branch or service office unless prior to the date of transfer its board of directors has:

(1) By resolution authorized the transfer or maintenance and;

(2) Sent a certified copy of the resolution to the appropriate regional director for the region in which the principal office of the State savings association is located.

(e) Use of data processing services for maintenance of records. A State savings association which determines to maintain any of its records by means of data processing services shall so notify the appropriate regional director for the region in which the principal office of such State savings association is located, in writing, at least 90 days prior to the date on which such maintenance of records will begin. Such notification shall include identification of the records to be maintained by data processing services and a statement as to the location at which such records will be maintained. Any contract, agreement, or arrangement made by a State savings association pursuant to which data processing services are to be performed for such State savings association shall be in writing and shall expressly provide that the records to be maintained by such services shall at all times be available for examination and audit.

§ 390.351 Frequency of safety and soundness examination.

(a) General. The FDIC examines State savings associations and its affiliates and audit State savings associations and its affiliates, pursuant to the provisions of paragraph (a) of this section, each State savings association, and its affiliate shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business it transacts. This includes, without limitation, establishing and maintaining such records as are required by statute or any other regulation to which the State savings association and its affiliate is subject. The documents, files, and other material or property comprising said records shall at all times be available for such examination and audit wherever any of said records, documents, files, material, or property may be.

(d) Change in location of records. A State savings association shall not transfer the location of any of its general accounting or control records, or the maintenance thereof, from its home office to a branch or service office, or from a branch or service office to its home office or to another branch or service office unless prior to the date of transfer its board of directors has:

(1) By resolution authorized the transfer or maintenance and;

(2) Sent a certified copy of the resolution to the appropriate regional director for the region in which the principal office of the State savings association is located.

(e) Use of data processing services for maintenance of records. A State savings association which determines to maintain any of its records by means of data processing services shall so notify the appropriate regional director for the region in which the principal office of such State savings association is located, in writing, at least 90 days prior to the date on which such maintenance of records will begin. Such notification shall include identification of the records to be maintained by data processing services and a statement as to the location at which such records will be maintained. Any contract, agreement, or arrangement made by a State savings association pursuant to which data processing services are to be performed for such State savings association shall be in writing and shall expressly provide that the records to be maintained by such services shall at all times be available for examination and audit.
§ 390.352 Financial derivatives.

(a) What is a financial derivative? A financial derivative is a financial contract whose value depends on the value of one or more underlying assets, indices, or reference rates. The most common types of financial derivatives are futures, forward commitments, options, and swaps. A mortgage derivative security, such as a collateralized mortgage obligation or a real estate mortgage investment conduit, is not a financial derivative under this section.

(b) May I engage in transactions involving financial derivatives?

(2) If you are a State savings association, you may engage in a transaction involving a financial derivative if your charter or applicable State law authorizes you to engage in such transactions, the transaction is safe and sound, and you otherwise meet the requirements in this section.

(3) In general, if you engage in a transaction involving a financial derivative, you should do so to reduce your risk exposure.

(c) What are my board of directors’ responsibilities with respect to financial derivatives?

(1) Your board of directors is responsible for effective oversight of financial derivatives activities.

(2) Before you may engage in any transaction involving a financial derivative, your board of directors must establish written policies and procedures governing authorized financial derivatives. Your board of directors should review Thrift Bulletin 13a, “Management of Interest Rate Risk, Investment Securities, and Derivatives Activities,” and other applicable agency guidance on establishing a sound risk management program.

(3) Your board of directors must periodically review:

(i) Compliance with the policies and procedures established under paragraph (c)(2) of this section; and

(ii) The adequacy of these policies and procedures to ensure that they continue to be appropriate to the nature and scope of your operations and existing market conditions.

(4) Your board of directors must ensure that management establishes an adequate system of internal controls for transactions involving financial derivatives.

(d) What are management’s responsibilities with respect to financial derivatives?

(1) Management is responsible for daily oversight and management of financial derivatives activities. Management must implement the policies and procedures established by the board of directors and must establish a system of internal controls. This system of internal controls should, at a minimum, provide for periodic reporting to the board of directors and management, segregation of duties, and internal review procedures.

(2) Management must ensure that financial derivatives activities are conducted in a safe and sound manner and should review Thrift Bulletin 13a, “Management of Interest Rate Risk, Investment Securities, and Derivatives Activities,” and other applicable agency guidance on implementing a sound risk management program.

(e) What records must I keep on financial derivative transactions? You must maintain records adequate to demonstrate compliance with this section and with your board of directors’ policies and procedures on financial derivatives.

§ 390.353 Interest-rate-risk-management procedures.

State savings associations shall take the following actions:

(a) The board of directors or a committee thereof shall review the State savings association’s interest-rate-risk exposure and devise a policy for the State savings association’s management of that risk.
(b) The board of directors shall formerly adopt a policy for the management of interest-rate risk. The management of the State savings association shall establish guidelines and procedures to ensure that the board’s policy is successfully implemented.

(c) The management of the State savings association shall periodically report to the board of directors regarding implementation of the State savings association’s policy for interest-rate-risk management and shall make that information available upon request to the FDIC.

(d) The State savings association’s board of directors shall review the results of operations at least quarterly and shall make such adjustments as it considers necessary and appropriate to the policy for interest-rate-risk management, including adjustments to the authorized acceptable level of interest-rate risk.

§ 390.354 Procedures for monitoring Bank Secrecy Act (BSA) compliance.

(a) Purpose. The purpose of this regulation is to require State savings associations (as defined by § 390.308) to establish and maintain procedures reasonably designed to assure and monitor compliance with the requirements of subchapter II of chapter 53 of title 31, United States Code, and the implementing regulations promulgated thereunder by the U.S. Department of the Treasury, 31 CFR part 103.

(b) Establishment of a BSA compliance program—(1) Program requirement. Each State savings association shall develop and provide for the continued administration of a program reasonably designed to assure and monitor compliance with the requirements set forth in subchapter II of chapter 53 of title 31, United States Code and the implementing regulations issued by the Department of the Treasury at 31 CFR part 103. The compliance program must be written, approved by the State savings association’s board of directors, and reflected in the minutes of the State savings association.

(2) Customer identification program. Each State savings association is subject to the requirements of 31 U.S.C. 5318(1) and the implementing regulation promulgated at 31 CFR 103.122, which require a customer identification program to be implemented as part of the BSA compliance program required under this section.

(c) Contents of compliance program. The compliance program shall, at a minimum:

1. Provide for a system of internal controls to assure ongoing compliance;
2. Provide for independent testing for compliance to be conducted by a savings association’s in-house personnel or by an outside party;
3. Designate individual(s) responsible for coordinating and monitoring day-to-day compliance; and
4. Provide training for appropriate personnel.

§ 390.355 Suspicious Activity Reports and other reports and statements.

(a) Periodic reports. Each State savings association shall make such periodic or other reports of its affairs in such manner and on such forms as the FDIC may prescribe. The FDIC may provide that reports filed by State savings associations to meet the requirements of other regulations also satisfy requirements imposed under this section.

(b) False or misleading statements or omissions. No State savings association or director, officer, agent, employee, affiliated person, or other person participating in the conduct of the affairs of such State savings association nor any person filing or seeking approval of any application shall knowingly:

1. Make any written or oral statement to the FDIC or to an agent, representative or employee of the FDIC that is false or misleading with respect to any material fact or omits to state a material fact concerning any matter within the jurisdiction of the FDIC; or
2. Make any such statement or omission to a person or organization auditing a State savings association or otherwise preparing or reviewing its financial statements concerning the accounts, assets, management condition, ownership, safety, or soundness, or other affairs of the State savings association.

(c) Notifications of loss and reports of increase in deductible amount of bond. A
State savings association maintaining bond coverage as required by §390.356 shall promptly notify its bond company and file a proof of loss under the procedures provided by its bond, concerning any covered losses greater than twice the deductible amount.

(d) **Suspicious Activity Reports.—**

(1) **Purpose and scope.** This paragraph (d) ensures that State savings associations and service corporations file a Suspicious Activity Report when they detect a known or suspected violation of Federal law or a suspicious transaction related to a money laundering activity or a violation of the Bank Secrecy Act.

(2) **Definitions.** For the purposes of this paragraph (d):

(i) **FinCEN** means the Financial Crimes Enforcement Network of the Department of the Treasury.

(ii) **Institution-affiliated party** means any institution-affiliated party as that term is defined in sections 3(u) and 8(b)(9) of the Federal Deposit Insurance Act (12 U.S.C. 1813(u) and 1818(b)(9)).

(iii) **SAR** means a Suspicious Activity Report on the form prescribed by the FDIC.

(3) **SARs required.** A State savings association shall file a SAR with the appropriate Federal law enforcement agencies and the Department of the Treasury in accordance with the form’s instructions, by sending a completed SAR to FinCEN in the following circumstances:

(i) **Insider abuse involving any amount.** Whenever the State savings association detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the State savings association involving a transaction or transactions conducted through the State savings association where the State savings association believes that it was either an actual or potential victim of a criminal violation or series of criminal violations, or that it was used to facilitate a criminal transaction, and it has a substantial basis for identifying a possible suspect or group of suspects.

(ii) **Violations aggregating $5,000 or more where a suspect can be identified.** Whenever the State savings association detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the State savings association involving a transaction or transactions conducted through the State savings association and involving or aggregating $5,000 or more in funds or other assets, where the State savings association believes that it was either an actual or potential victim of a criminal violation or series of criminal violations, or that it was used to facilitate a criminal transaction, and it has a substantial basis for identifying a possible suspect or group of suspects. If it is determined prior to filing this report that the identified suspect or group of suspects has used an alias, then information regarding the true identity of the suspect or group of suspects, as well as alias identifiers, such as drivers’ license or social security numbers, addresses and telephone numbers, must be reported.

(iii) **Violations aggregating $25,000 or more regardless of potential suspects.** Whenever the State savings association detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the State savings association involving a transaction or transactions conducted through the State savings association and involving or aggregating $25,000 or more in funds or other assets, where the State savings association believes that it was either an actual or potential victim of a criminal violation or series of criminal violations, or that it was used to facilitate a criminal transaction, even though there is no substantial basis for identifying a possible suspect or group of suspects.

(iv) **Transactions aggregating $5,000 or more that involve potential money laundering or violations of the Bank Secrecy Act.** Any transaction (which for purposes of this paragraph (d)(3)(iv) means a deposit, withdrawal, transfer between accounts, exchange of currency, loan, extension of credit, purchase or sale of any stock, bond, certificate of deposit,
or other monetary instrument or investment security, or any other payment, transfer, or delivery by, through, or to a financial institution, by whatever means effected) conducted or attempted by, at or through the State savings association involving or aggregating $5,000 or more in funds or other assets, if the State savings association knows, suspects, or has reason to suspect that:

(A) The transaction involves funds derived from illegal activities or is intended or conducted in order to hide or disguise funds or assets derived from illegal activities (including, without limitation, the ownership, nature, source, location, or control of such funds or assets) as part of a plan to evade or evade any law or regulation or to avoid any transaction reporting requirement under Federal law;

(B) The transaction is designed to evade any regulations promulgated under the Bank Secrecy Act; or

(C) The transaction has no business or apparent lawful purpose or is not the sort in which the particular customer would normally be expected to engage, and the institution knows of no reasonable explanation for the transaction after examining the available facts, including the background and possible purpose of the transaction.

(4) [Reserved]

(5) Time for reporting. A State savings association is required to file a SAR no later than 30 calendar days after the date of initial detection of facts that may constitute a basis for filing a SAR. If no suspect was identified on the date of detection of the incident requiring the filing, a State savings association may delay filing a SAR for an additional 30 calendar days to identify a suspect. In no case shall reporting be delayed more than 60 calendar days after the date of initial detection of a reportable transaction. In situations involving violations requiring immediate attention, such as when a reportable violation is ongoing, the State savings association shall immediately notify, by telephone, an appropriate law enforcement authority and the FDIC in addition to filing a timely SAR.

(6) Reports to state and local authorities. A State savings association is encouraged to file a copy of the SAR with state and local law enforcement agencies where appropriate.

(7) Exception. A State savings association need not file a SAR for a robbery or burglary committed or attempted that is reported to appropriate law enforcement authorities.

(8) Retention of records. A State savings association shall maintain a copy of any SAR filed and the original or business record equivalent of any supporting documentation for a period of five years from the date of the filing of the SAR. Supporting documentation shall be identified and maintained by the State savings association as such, and shall be deemed to have been filed with the SAR. A State savings association shall make all supporting documentation available to appropriate law enforcement agencies upon request.

(9) Notification to board of directors—(i) Generally. Whenever a State savings association files a SAR pursuant to this paragraph (d), the management of the State savings association shall promptly notify its board of directors, or a committee of directors or executive officers designated by the board of directors to receive notice.

(ii) Suspect is a director or executive officer. If the State savings association files a SAR pursuant to this paragraph (d) and the suspect is a director or executive officer, the State savings association may not notify the suspect, pursuant to 31 U.S.C. 5318(g)(2), but shall notify all directors who are not suspects.

(10) Compliance. Failure to file a SAR in accordance with this section and the instructions may subject the State savings association, its directors, officers, employees, agents, or other institution-affiliated parties to supervisory action.

(11) Obtaining SARs. A State savings association may obtain SARs and the instructions from the appropriate FDIC region as defined in §303.2 of this chapter.

(12) Confidentiality of SARs. SARs are confidential. Any institution or person subpoenaed or otherwise requested to disclose a SAR or the information contained in a SAR shall decline to
produce the SAR or to provide any information that would disclose that a SAR has been prepared or filed, citing this paragraph (d), applicable law (e.g., 31 U.S.C. 5318(g)), or both, and shall notify the FDIC.

(13) Safe harbor. The safe harbor provision of 31 U.S.C. 5318(g), which exempts any financial institution that makes a disclosure of any possible violation of law or regulation from liability under any law or regulation of the United States, or any constitution, law or regulation of any state or political subdivision, covers all reports of suspected or known criminal violations and suspicious activities to law enforcement and financial institution supervisory authorities, including supporting documentation, regardless of whether such reports are filed pursuant to this paragraph (d), or are filed on a voluntary basis.

(e) Adjustable-rate mortgage indices—
(1) Reporting obligation. Upon the request of a Federal Home Loan Bank, all State savings associations within the jurisdiction of that Federal Home Loan Bank shall report the data items set forth in paragraph (e)(2) of this section for the Federal Home Loan Bank to use in calculating and publishing an adjustable-rate mortgage index.

(2) Data to be reported. For purposes of paragraph (e)(1) of this section, the term “data items” means the data items previously collected from the monthly Thrift Financial Report or Consolidated Reports of Condition or Income (“Call Report”), as applicable, and such data items as may be altered, amended, or substituted by the requesting Federal Home Loan Bank.

(3) Applicable indices. For the purpose of this reporting requirement, the term “adjustable-rate mortgage index” means any of the adjustable-rate mortgage indices calculated and published by a Federal Home Loan Bank or the Federal Home Loan Bank Board on or before August 9, 1989.

§ 390.356 Bonds for directors, officers, employees, and agents; form of and amount of bonds.

(a) Each State savings association shall maintain fidelity bond coverage. The bond shall cover each director, officer, employee, and agent who has control over or access to cash, securities, or other property of the State savings association.

(b) The amount of coverage to be required for each State savings association shall be determined by the association’s management, based on its assessment of the level that would be safe and sound in view of the association’s potential exposure to risk; provided, such determination shall be subject to approval by the association’s board of directors.

(c) Each State savings association may maintain bond coverage in addition to that provided by the insurance underwriter industry’s standard forms, through the use of endorsements, riders, or other forms of supplemental coverage, if, in the judgment of the State savings association’s board of directors, additional coverage is warranted.

(d) The board of directors of each State savings association shall formally approve the State savings association’s bond coverage. In deciding whether to approve the bond coverage, the board shall review the adequacy of the standard coverage and the need for supplemental coverage. Documentation of the board’s approval shall be included as a part of the minutes of the meeting at which the board approves coverage. Additionally, the board of directors shall review the State savings association’s bond coverage at least annually to assess the continuing adequacy of coverage.

§ 390.357 Bonds for agents.

In lieu of the bond provided in §390.356 in the case of agents appointed by a State savings association, a fidelity bond may be provided in an amount at least twice the average monthly collections of such agents, provided such agents shall be required to make settlement with the State savings association at least monthly, and provided such bond is approved by the board of directors of the State savings association. No bond need be obtained for any agent that is a financial institution insured by the FDIC.

§ 390.358 Conflicts of interest.

If you are a director, officer, or employee of a State savings association,
or have the power to direct its management or policies, or otherwise owe a fiduciary duty to a State savings association:

(a) You must not advance your own personal or business interests, or those of others with whom you have a personal or business relationship, at the expense of the State savings association; and

(b) You must, if you have an interest in a matter or transaction before the board of directors:

(1) Disclose to the board all material nonprivileged information relevant to the board’s decision on the matter or transaction, including:

(i) The existence, nature and extent of your interests; and

(ii) The facts known to you as to the matter or transaction under consideration;

(2) Refrain from participating in the board’s discussion of the matter or transaction; and

(3) Recuse yourself from voting on the matter or transaction (if you are a director).

§ 390.359 Corporate opportunity.

(a) If you are a director or officer of a State savings association, or have the power to direct its management or policies, or otherwise owe a fiduciary duty to a State savings association, you must not take advantage of corporate opportunities belonging to the State savings association.

(b) A corporate opportunity belongs to a State savings association if:

(1) The opportunity is within the corporate powers of the State savings association or a subsidiary of the State savings association; and

(2) The opportunity is of present or potential practical advantage to the State savings association, either directly or through its subsidiary.

(c) The FDIC will not deem you to have taken advantage of a corporate opportunity belonging to the State savings association if a disinterested and independent majority of the State savings association’s board of directors, after receiving a full and fair presentation of the matter, rejected the opportunity as a matter of sound business judgment.

§ 390.360 Change of director or senior executive officer.

Sections 390.360 through 390.368 implement 12 U.S.C. 1831i, which requires certain State savings associations to notify the FDIC before appointing or employing directors and senior executive officers.

§ 390.361 Applicable definitions.

The following definitions apply to §§390.360 through 390.368:

Director means an individual who serves on the board of directors of a State savings association. This term does not include an advisory director who:

(1) Is not elected by the shareholders;

(2) Is not authorized to vote on any matters before the board of directors or any committee of the board of directors;

(3) Provides only general policy advice to the board of directors or any committee of the board of directors; and

(4) Has not been identified by the FDIC in writing as an individual who performs the functions of a director, or who exercises significant influence over, or participates in, major policymaking decisions of the board of directors.

Senior executive officer means an individual who holds the title or performs the function of one or more of the following positions (without regard to title, salary, or compensation): president, chief executive officer, chief operating officer, chief financial officer, chief lending officer, or chief investment officer. Senior executive officer also includes any other person identified by the FDIC in writing as an individual who exercises significant influence over, or participates in, major policymaking decisions, whether or not hired as an employee.

Troubled condition means:

(1) A State savings association that has a composite rating of 4 or 5, as composite rating is defined in §390.101(c).

(2) [Reserved]

(3) A State savings association that is subject to a capital directive, a cease-and-desist order, a consent order, a formal written agreement, or a
prompt corrective action directive relating to the safety and soundness or financial viability of the State savings association, unless otherwise informed in writing by the FDIC; or

(4) A State savings association that is informed in writing by the FDIC that it is in troubled condition based on information available to the FDIC.

§ 390.362 Who must give prior notice?

(a) State savings association. Except as provided under §390.368, you must notify the FDIC at least 30 days before adding or replacing any member of your board of directors, employing any person as a senior executive officer, or changing the responsibilities of any senior executive officer so that the person would assume a different senior executive position if:

(1) You are a State savings association and at least one of the following circumstances apply:

(i) You do not comply with all minimum capital requirements under subpart Z;

(ii) You are in troubled condition; or

(iii) The FDIC has notified you, in connection with its review of a capital restoration plan required under section 38 of the Federal Deposit Insurance Act or subpart Y or otherwise, that a notice is required under §§390.360 through 390.368; or

(2) [Reserved]

(b) Notice by individual. If you are an individual seeking election to the board of directors of a State savings association described in paragraph (a) of this section, and have not been nominated by management, you must either provide the prior notice required under paragraph (a) of this section or follow the process under §390.368(b).

§ 390.363 What procedures govern the filing of my notice?

The procedures found in §§390.103 through 390.110 govern the filing of your notice under §390.362.

§ 390.364 What information must I include in my notice?

(a) Content requirements. Your notice must include:

(1) The information required under 12 U.S.C. 1817(j)(6)(A), and the information prescribed in the Interagency Notice of Change in Director or Senior Executive Officer and the Interagency Biographical and Financial Report which are available from the appropriate FDIC regions as defined in §383.2 of this chapter;

(2) Legible fingerprints of the proposed director or senior executive officer. You are not required to file fingerprints if, within three years prior to the date of submission of the notice, the proposed director or senior executive officer provided legible fingerprints as part of a notice filed with the FDIC under 12 U.S.C. 1831i; and

(3) Such other information required by the FDIC.

(b) Modification of content requirements. The FDIC may require or accept other information in place of the content requirements in paragraph (a) of this section.

§ 390.365 What procedures govern the FDIC's review of my notice for completeness?

The FDIC will first review your notice to determine whether it is complete.

(a) If your notice is complete, the FDIC will notify you in writing of the date that the FDIC received the complete notice.

(b) If your notice is not complete, the FDIC will notify you in writing what additional information you need to submit, why we need the information, and when you must submit it. You must, within the specified time period, provide additional information or request that the FDIC suspend processing of the notice. If you fail to act within the specified time period, the FDIC may treat the notice as withdrawn or may review the application based on the information provided.

§ 390.366 What standards and procedures will govern the FDIC review of the substance of my notice?

The FDIC will disapprove a notice if, pursuant to the standard set forth in 12 U.S.C. 1831i(e), the FDIC finds that the competence, experience, character, or integrity of the proposed FDIC or senior executive officer indicates that it would not be in the best interests of the depositors of the State savings association or of the public to permit the
individual to be employed by, or associated with, the State savings association. If the FDIC disapproves a notice, it will issue a written notice that explains why the FDIC disapproved the notice. The FDIC will send the notice to the State savings association and the individual.

§ 390.367 When may a proposed director or senior executive officer begin service?

(a) A proposed director or senior executive officer may begin service 30 days after the date the FDIC receives all required information, unless:
   (1) The FDIC notifies you that it has disapproved the notice; or
   (2) The FDIC extends the 30-day period for an additional period not to exceed 60 days. If the FDIC extends the 30-day period, it will notify you in writing that the period has been extended, and will state the reason for the extension. The proposed director or senior executive officer may begin service upon expiration of the extended period, unless the FDIC notifies you that it has disapproved the notice during the extended period.

(b) Notwithstanding paragraph (a) of this section, a proposed or senior executive officer may begin service after the FDIC notifies you, in writing, of its intention not to disapprove the notice.

§ 390.368 When will the FDIC waive the prior notice requirement?

(a) Waiver request. (1) An individual may serve as a director or senior executive officer before filing a notice as described in §§ 390.360 through 390.368 if the FDIC issues a written finding that:
   (i) Delay would threaten the safety or soundness of the State savings association;
   (ii) Delay would not be in the public interest; or
   (iii) Other extraordinary circumstances exist that justify waiver of prior notice.

   (2) If the FDIC grants a waiver, you must file a notice as described in §§ 390.360–390.368 within the time period specified by the FDIC.

   (b) Automatic waiver. An individual may serve as a director before filing a notice as described in §§ 390.360 through 390.368, if the individual was not nominated by management and the individual submits a notice as described in §§ 390.360 through 390.368 within seven days after election as a director.

   (c) Subsequent FDIC action. The FDIC may disapprove a notice within 30 days after the FDIC issues a waiver under paragraph (a) of this section or within 30 days after the election of an individual who has filed a notice and is serving pursuant to an automatic waiver under paragraph (b) of this section.

Subpart T—Accounting Requirements

§ 390.380 Form and content of financial statements.

(a) This section states the requirements as to form and content of financial statements included by a State savings association in the following documents. However, the FDIC’s regulations governing the applicable documents specify the actual financial statements that are to be included in that document.

   (1) Any proxy statement or offering circular required to be used in connection with a conversion under 12 CFR part 192.

   (2) Any offering circular or nonpublic offering materials required to be used in connection with an offer or sale of securities under subpart W.

   (3) Any filing under the Securities Exchange Act of 1934, 15 U.S.C. 78a et seq., made pursuant to the requirements of subpart U.

   (b) Except as otherwise provided by the FDIC by rule, regulation, or order made specifically applicable to financial statements governed by this section, financial statements shall:

   (1) Be prepared and presented in accordance with generally accepted accounting principles;

   (2) Comply with § 390.384;

   (3) Consistent with the provisions of this subpart, comply with articles 1, 2, 3, 4, 10, and 11 of Regulation S-X adopted by the Securities and Exchange Commission (17 CFR 210.1 through 210.4, 210.10, and 210.11).

   (4) Be audited, when required, by an independent auditor in accordance with the standards imposed by the American Institute of Certified Public Accountants.
§ 390.381 Definitions.
(See also 17 CFR 210.1–02.)
(a) Registrant. The term “registrant” means an applicant, a State savings association, or any other person required to prepare financial statements in accordance with this subpart.
(b) Significant subsidiary. The term “significant subsidiary” means a subsidiary, including its subsidiaries, which meets any of the following conditions:
(1) The State savings association’s and its other subsidiaries’ investments and advances to the subsidiary exceed 10 percent of the total assets of the association and its subsidiaries consolidated as of the end of the most recently completed fiscal year (for purposes of determining whether financial statements of a business acquired or to be acquired in a business combination accounted for as a pooling of interests are required pursuant to 17 CFR 210.3–05, this condition is also met when the number of common shares exchanged by the State savings association exceeds 10 percent of its total common shares outstanding at the date the combination is initiated); or
(2) The State savings association’s and its other subsidiaries’ proportionate share of the total assets (after intercompany eliminations) of the subsidiary exceeds 10 percent of the total assets of the State savings association and its subsidiaries consolidated as of the end of the most recently completed fiscal year; or
(3) The State savings association’s and its other subsidiaries’ equity in the income from continuing operations before income taxes, extraordinary items, and cumulative effect of a change in accounting principle of the subsidiary exceeds 10 percent of such income of the State savings association and its subsidiaries consolidated for the most recently completed fiscal year.
(4) Computational note: For purposes of making the prescribed income test the following guidance should be applied:
(i) When a loss has been incurred by either the parent or its consolidated subsidiaries or the tested subsidiary, but not both, the equity in the income or loss of the tested subsidiary should be excluded from the income of the State savings association and its subsidiaries consolidated for purposes of the computation.
(ii) If income of the State savings association and its subsidiaries consolidated for the most recent fiscal year is at least 10 percent lower than the average of the income for the last five fiscal years, such average income should be substituted for purposes of the computation. Any loss years should be omitted for purposes of computing average income.

§ 390.382 Qualification of public accountant. (See also 17 CFR 210.2–01.)
The term “qualified public accountant” means a certified public accountant or licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the United States who is in good standing as such under the laws of the jurisdiction where the home office of the registrant to be audited is located. Any person or firm who is suspended from practice before the Securities and Exchange Commission or other governmental agency is not a “qualified public accountant” for purposes of this section.

§ 390.383 Condensed financial information [Parent only].
(a) The information prescribed by Schedule III required by section IV of the appendix to § 390.384 shall be presented in a note to the financial statements when the restricted net assets (17 CFR 210.4–08(e)(3)) of consolidated subsidiaries exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year. The investment in and indebtedness of and to State savings association subsidiaries shall be stated separately in the condensed balance sheet from amounts for other subsidiaries; and the amount of cash dividends paid to the parent State savings association for each of the last three years by the State savings association subsidiaries.
shall be stated separately in the condensed income statement from amounts for other subsidiaries. 

(b) For purposes of the above test, restricted net assets of consolidated subsidiaries shall mean that amount of the State savings association’s proportionate share of net assets of consolidated subsidiaries (after intercompany eliminations) which as of the end of the most recent year may not be transferred to the parent company by subsidiaries in the form of loans, advances, or cash dividends without the consent of a third party (i.e., lender, regulatory agency, foreign government, etc.).

(c) Where restrictions on the amount of funds which may be loaned or advanced differ from the amount restrictive to the subsidiary shall be used. Redeemable preferred stocks (See item I (22) in the appendix to §390.384) and minority interest (See item I (21) in the appendix to §390.384) shall be deducted in computing net assets for purposes of this test.

§ 390.384 Financial statements for conversions, SEC filings, and offering circulars.

This section and its appendix pertain to the form and content of financial statements included as part of:

(a) A conversion application under 12 CFR part 192 including financial statements in proxy statements and offering circulars,

(b) A filing under the Securities Exchange Act of 1934, 15 U.S.C. 78a et seq., and

(c) Any offering circular required to be used in connection with the issuance of mutual capital certificates under 12 CFR 163.74 and debt securities under §390.341.

APPENDIX TO §390.384—FINANCIAL STATEMENT PRESENTATION.

This appendix specifies the various line items which should appear on the face of the financial statements governed by §390.384 and additional disclosures which should be included with the financial statements in related notes.

I. BALANCE SHEET

Balance sheets shall comply with the following provisions:

1. Cash and amounts due from depository institutions. (a) The amounts in this caption should include noninterest-bearing deposits with depository institutions.

(b) State in a note the amount and terms of any deposits in depository institutions held as compensating balances against long- or short-term borrowing arrangements. This disclosure should include the provisions of any restrictions as to withdrawal or usage. Restrictions may include legally restricted deposits held as compensating balances against short-term borrowing arrangements, contracts entered into with others, or company statements of intention with regard to particular deposits; however, time deposits and short-term certificates of deposits are not generally included in legally restricted deposits. In cases where compensating balance arrangements exist but are not agreements which legally restrict the use of cash amounts shown on the balance sheet, describe in the notes to the financial statements these arrangements and the amount involved, if determinable, for the most recent audited balance sheet required and for any subsequent unaudited balance sheet required. Compensating balances that are maintained under an agreement to ensure future credit availability shall be disclosed in the notes to the financial statements along with the amount and terms of the agreement.

(c) Checks outstanding in excess of an applicant’s book balance in a demand deposit account shall be shown as a liability.

2. Interest-bearing deposits in other banks.

3. Federal funds sold and securities purchased under resale agreements or similar arrangements. These amounts should be presented, i.e., gross and not netted against Federal funds purchased and securities sold under agreement to repurchase, as reported in caption 15.

4. Trading account assets. Include securities considered to be held for trading purposes.

5. Other short-term investments.

6. Investment securities. (a) Include securities considered to be held for investment purposes. Disclose the aggregate book value of investment securities as the line item on the balance sheet; and also show on the face of the balance sheet the aggregate market value at the balance sheet date. The aggregate amounts should include securities pledged, loaned, or sold under repurchase agreements and similar arrangements. Borrowed securities and securities purchased under resale agreements or similar arrangements should be excluded.

(b) Disclose in a note the carrying value and market value of securities of (i) the U.S. Treasury and other U.S. Government agencies and corporations; (ii) states of the U.S.
§ 390.384

12 CFR Ch. III (1–1–14 Edition)

and political subdivisions thereof; and (iii) other securities.

7. Assets held for sale. Investments in assets considered to be held for sale purposes should be reported separately in the statement of financial condition.

8. Loans. (a) Disclose separately: (i) Total loans (including financing type leases), (ii) allowance for loan losses, (iii) unearned income on installment loans, (iv) discount on loans purchased, and (v) loans in process.

(b) State on the balance sheet or in a note the amount of loans in each of the following categories: (i) Real estate mortgage; (ii) real estate construction; (iii) installment; and (iv) commercial, financial, and agricultural.

(c) Include under the real estate mortgage category loans payable in monthly, quarterly, or other periodic installments and secured by developed income property and/or personal residences.

(ii) Include under the real estate construction category loans secured by real estate which are made for the purpose of financing construction of real estate and land development projects.

(ii) Include under the installment category loans secured by real estate which are made for the purpose of financing construction of real estate and land development projects.

(c) Include under the real estate mortgage category loans payable in monthly, quarterly, or other periodic installments and secured by developed income property and/or personal residences.

(d) State separately any other loan category regardless of relative size if necessary to reflect any unusual risk concentration.

(e) Unearned income on installment loans shall be shown and deducted separately from total loans.

(f) Unamortized discounts on purchased loans shall be deducted separately from total loans.

(g) Loans in process shall be deducted separately from total loans.

(h) A series of categories other than those specified in item (b) of paragraph 8. may be used to present details of loans if considered a more appropriate presentation. The categories specified in item (b) of paragraph 8. should be considered the minimum categories that may be presented.

(i) For each period for which an income statement is presented, disclose in a note the total dollar amount of loans being serviced by the State savings association for the benefit of others.

(j)(1)(A) As of each balance sheet date, disclose in a note the aggregate dollar amount of loans (exclusive of loans to any such persons which in the aggregate do not exceed $60,000 during the last year) made by the State savings association or any of its subsidiaries to directors, executive officers, or principal holders of equity securities (17 CFR 210.1–02) of the State savings association or any of its significant subsidiaries (17 CFR 210.1–02) or to any associate of such persons.

For the latest fiscal year, an analysis of activity with respect to such aggregate loans to related parties should be provided. The analysis should include at the beginning of the period new loans, repayments, and other changes. (Other changes, if significant, should be explained.)

(B) This disclosure need not be furnished when the aggregate amount of such loans at the balance sheet date (or with respect to the latest fiscal year, the maximum amount outstanding during the period) does not exceed 5 percent of stockholders’ equity at the balance sheet date.

(ii) If a significant portion of the aggregate amount of loans outstanding at the end of the fiscal year disclosed pursuant to item (1)(A) of this paragraph (j) relates to non-accrual, past due, restructured, and potential problem loans (see Securities and Exchange Commission’s Securities Act Industry Guide 3, section III.C.), the state and disclose the aggregate amount of such loans along with such other information necessary to an understanding of the effects of the transactions on the financial statements.

(iii) Notwithstanding the aggregate disclosure called for by paragraph (j)(i) of this balance sheet caption 8, if any loans were not made in the ordinary course of business during any period for which an income statement is required to be filed, provide an appropriate description of each such loan (see 17 CFR 210.9–03.7(e)(3)).

(iv) For purposes only of Balance Sheet item 8(i), the following definitions shall apply:

(A) Associate used to indicate a relationship with any person means (1) any corporation, venture, or organization of which such person is a general partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities; (2) any trust or other estate in which such person has a substantial beneficial interest for which such person serves as trustee or in a similar capacity; and (3) any member of the immediate family of any of the foregoing persons.

(B) Executive officer means the president, any vice president in charge of a principal business unit, division, or function (such as loans, investments, operations, administration, or finance), and any other officer or person who performs similar policy-making functions.
(C) Immediate family with regard to a person means such person's spouse, parents, children, siblings, mother- and father-in-law, sons- and daughters-in-law, and brothers- and sisters-in-law.

(D) Ordinary course of business with regard to loans means those loans which were made on substantially the same terms, including interest rate and collateral, as those prevailing at the same time for comparable transactions with unrelated persons and did not involve more than the normal risk of collectibility or present other unfavorable features.

(k) For each period for which an income statement is presented, furnish in a note a statement of changes in the allowance for loan losses, showing balances at beginning and end of the period, provision charged to income, recoveries of amounts previously charged off, and losses charged to the allowance.

9. Premises and equipment.
10. Real estate owned. State, parenthetically or otherwise:
   (a) The amount of real estate owned by class as described in item (b) of paragraph 10, and the basis for determining that amount; and
   (b) A description of each class of real estate owned (i) acquired by foreclosure or by deed in lieu of foreclosure, (ii) in judgment and subject to redemption, or (iii) acquired for development or resale. Show separately any accumulated depreciation or valuation allowances. Disclose the policies regarding, and amounts of, capitalized costs, including interest.

11. Investment in joint ventures. In a note, present summarized aggregate financial statements for investments in real estate or other joint ventures which individually (a) are 20 percent or more owned by the State savings association or any of its subsidiaries, or (b) have liabilities (including contingent liabilities) to the parent exceeding 10 percent of the parent's regulatory capital. If an allowance for real estate losses subsequent to acquisition is maintained, the amount shall be disclosed, deducted from the other real estate owned, and a statement of changes in the allowance showing balances at beginning and end of period should be included. Provision charged to income and losses charged to the allowance account shall be furnished for each period for which an income statement is filed.

12. Other assets. (a) Disclose separately on the balance sheet or in a note thereto any of the following assets or any other asset the amount of which exceeds 30 percent of stockholders' equity. The remaining assets may be shown as one amount.
   (i) Accrued interest receivable. State separately those amounts relating to loans and those amounts relating to investments.
   (ii) Excess of cost over assets acquired (net of amortization).
   (b) State in a note (i) amounts representing investments in affiliates and investments in other persons which are accounted for by the equity method, and (ii) indebtedness of affiliates and other persons, the investments in which are accounted for by the equity method. State the basis of determining the amounts reported under paragraph (b)(1).

13. Total assets.

Liabilities, and Stockholders' Equity

14. Deposits. (a) Disclose separately on the balance sheet or in a note the amounts in the following categories of interest-bearing and noninterest-bearing deposits: (i) NOW account and MMDA deposits, (ii) savings deposits, and (iii) time deposits.
   (b) Include under the savings-deposits category interest-bearing deposits without specified maturity or contractual provisions requiring advance notice of intention to withdraw funds. Include deposits for which a State savings association may require at its option written notice of intended withdrawal not less than 14 days in advance.
   (c) Include under the time-deposits category deposits subject to provisions specifying maturity or other withdrawal conditions such as time certificates of deposits, open account time deposits, and deposits accumulated for the payment of personal loans.
   (d) Include accrued interest or dividends, if appropriate.

15. Short-term borrowings. (a) State separately, here or in a note, the amounts payable for (i) Federal funds purchased and securities sold under agreements to repurchase, (ii) commercial paper, and (iii) other short-term borrowings.
   (b) Federal funds purchased and sales of securities under repurchase agreements shall be reported gross and not netted against sales of Federal funds and purchase of securities under resale agreements.
   (c) Include as securities sold under agreements to repurchase all transactions of this type regardless of (i) whether they are called simultaneous purchases and sales, buybacks, turnarounds, overnight transactions, delayed deliveries, or other terms signifying the same substantive transaction, and (ii) whether the transactions are with the same or different institutions, if the purpose of the transactions is to repurchase identical or similar securities.
   (d) The amount and terms (including commitment fees and the conditions under which lines may be withdrawn) of unused lines of credit for short-term financing shall be disclosed, if significant, in the notes to the financial statements. The amount of these lines of credit which support a commercial
paper borrowing arrangement or similar arrangements shall be separately identified.

16. **Advance payments by borrowers for taxes and insurance.**

17. **Other liabilities.** Disclose separately on the balance sheet or in a note any of the following liabilities or any other items which are individually in excess of 30 percent of stockholders' equity (except that amounts in excess of 5 percent of stockholders' equity should be disclosed with respect to item (d)).

The remaining items may be shown as one amount.

(a) Income taxes payable.

(b) Deferred income taxes.

(c) Indebtedness to affiliate and other persons the investment in which is accounted for by the equity method.

(d) Indebtedness to directors, executive officers, and principal holders of equity securities of the registrant or any of its significant subsidiaries. (The guidance in balance sheet caption "8(c)" shall be used to identify related parties for purposes of this disclosure.)

18. **Bonds, mortgages, and similar debt.** (a) Include bonds, Federal Home Loan Bank advances, capital notes, debentures, mortgages, and similar debt.

(b) For each issue or type of obligation state in a note:

(i) The general character of each type of debt, including: (A) The rate of interest, (B) the date of maturity, or, if maturing serially, a brief indication of the serial maturities, such as "maturing serially from 1980 to 1990." (C) If the payment of principal or interest is contingent, an appropriate indication of such contingency, (D) A brief indication of priority, and (E) If convertible, the basis. For amounts owed to related parties see 17 CFR 210.4–04(c).

(ii) The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of unused commitments for long-term financing arrangements that, if used, would be disclosed under this caption shall be disclosed in the notes to the financial statements, if significant.

(c) State in the notes with appropriate explanations (i) the title and amount of each issue of debt of a subsidiary included in item (a) of paragraph 18 which has not been assumed or guaranteed by the State savings association, and (ii) any liens on premises of a subsidiary or its consolidated subsidiaries which have not been assumed by the subsidiary or its consolidated subsidiaries.

19. **Deferred credits.** State separately those items which exceed 30 percent of stockholders' equity.

20. **Commitments and contingent liabilities.** Total commitments to fund loans should be disclosed. The dollar amounts and terms of other than floating market-rate commitments should also be disclosed.

21. **Minority interest in consolidated subsidiaries.**

22. **Preferred stock subject to mandatory redemption requirements or the redemption of which is outside the control of the issuer** shall be included under this caption amounts applicable to any class of stock which has any of the following characteristics: (i) It is redeemable at a fixed or determinable price on a fixed or determinable date or dates, whether by operation of a sinking fund or otherwise; (ii) It is redeemable at the option of the holder; or (iii) It has conditions for redemption which are not solely within the control of the issuer, such as stock which must be redeemed out of future earnings. Amounts attributable to preferred stock which is not redeemable or is redeemable solely at the option of the issuer shall be included under caption 23 unless it meets one or more of the above criteria.

(b) State on the face of the balance sheet the title, carrying amount, and redemption amount of each issue. (If there is more than one issue, these amounts may be aggregated on the face of the balance sheet and details concerning each issue may be presented in the note required by item (c) of paragraph 22.) Show also the dollar amount of any shares subscribed for but unissued, and show the deduction of subscriptions receivable therefrom. If the carrying value is different from the redemption amount, describe the accounting treatment for such difference in the note required by item (c) of paragraph 22.

Also state in this note or on the face of the balance sheet, for each issue, the number of shares authorized and the number of shares issued or outstanding, as appropriate. (See 17 CFR 210.4–07.)

(c) State in a separate note captioned "Redeemable Preferred Stock" (i) a general description of each issue, including its redemption features (e.g., sinking fund, at option of holders, out of future earnings) and the rights, if any, of holders in the event of default, including the effect, if any, on junior securities in the event a required dividend, sinking fund, or other redemption payments is not made, (ii) the combined aggregate amount of redemption requirements for all issues each year for the five years following the date of the latest balance sheet, and (iii) the changes in each issue for each period for which an income statement is required to be presented. (See also 17 CFR 210.4–08(d).)

(d) Securities reported under this caption are not to be included under a general heading "stockholders' equity" or combined in a total with items described in captions 23, 24 or 25, which follow.

23. **Preferred stock which is not redeemable or is redeemed solely at the option of the issuer.** State on the face of the balance sheet, or, if more than one issue is outstanding, state in a note, the title of each issue and the dollar
amount thereof. Show also the dollar amount of any shares subscribed for but unissued, and show the deduction of subscriptions receivable. State on the face of the balance sheet or in a note, for each issue, the number of shares authorized and the number of shares issued or outstanding, as appropriate. (See 17 CFR 210.4-07.) Show in a note or separate statement the changes in each class of preferred shares reported under this caption for each period for which an income statement is required to be presented. (See also 17 CFR 210.4-08(d).)

24. Common stock. For each class of common shares state, on the face of the balance sheet, the number of shares issued or outstanding, as appropriate (see 17 CFR 210.4-07), and the dollar amount thereof. If convertible, this fact should be indicated on the face of the balance sheet. For each class of common stock state, on the face of the balance sheet or in a note, the title of the issue, the number of shares authorized, and, if convertible, the basis for conversion (see also 17 CFR 210.4-08(d)). Show also the dollar amount of any common stock subscribed for but unissued, and show the deduction of subscriptions receivable. Show in a note or statement the changes in each class of common stock for each period for which an income statement is required to be presented.

25. Other stockholders' equity. (a) Separate captions shall be shown on the face of the balance sheet for (i) additional paid-in capital, (ii) other additional capital, and (iii) retained earnings, both (A) restricted and (B) unrestricted. (See 17 CFR 210.4-08(e).) Additional paid-in capital and other additional capital may be combined with the stock caption to which it applies, if appropriate. State whether or not the State savings association is in compliance with the Federal regulatory capital requirements (and state requirements where applicable). Also include the dollar amount of those regulatory capital requirements and the amount by which the State savings association exceeds or fails to meet those requirements.

(b) For a period of at least 10 years subsequent to the effective date of a quasi-reorganization, any description of retained earnings shall indicate the point in time from which the new retained earnings dates, and for a period of at least three years shall indicate, on the face of the balance sheet, the total amount of the deficit eliminated.

(c) Changes in stockholders' equity shall be disclosed in accordance with the requirements of 17 CFR 210.3-04.

26. Total liabilities and stockholders' equity.

II. INCOME STATEMENT

Income statements shall comply with the following provisions:

1. Interest and fees on loans. (a) Include interest, service charges, and fees which are related to or are an adjustment of the loan interest yield.

(b) Current amortization of premiums on mortgages or other loans shall be deducted from interest on loans, and current accretion of discount on such items shall be added to interest on loans.

(c) Discounts and other deferred amounts which are related to or are an adjustment of the loan interest yield shall be amortized into income using the interest (level yield) method.

2. Interest and dividends on investment securities. Include accretion of discount on securities and deduct amortization of premiums on securities.

3. Trading account interest. Include interest from securities carried in a dealer trading account or accounts that are held principally for resale to customers.

4. Other interest income. Include interest on short-term investments (Federal funds sold and securities purchased under agreements to resell) and interest on bank deposits.

5. Total interest income.

6. Interest on deposits. Include interest on all deposits. On the income statement or in a note, state separately, in the same categories as those specified for deposits at balance sheet caption 14(a), the interest on those deposits. Early withdrawal penalties should be netted against interest on deposits and, if material, disclosed on the income statement.

7. Interest on short-term borrowings. Include interest on borrowed funds, including Federal funds purchased, securities sold under agreements to repurchase, commercial paper, and other short-term borrowings.

8. Interest on long-term borrowings. Include interest on bonds, capital notes, debentures, mortgages on State savings association premises, capitalized leases, and similar debt.

9. Total interest expense.

10. Net interest income.

11. Provision for loan losses.

12. Net interest income after provision for loan losses.

13. Other income. Disclose separately any of the following amounts, or any other item of other income, which exceeds 1 percent of the aggregate of total interest income and other income. The remaining amount may be shown as one amount, except for investment securities gains or losses which shall be shown separately regardless of size.

(a) Commissions and fees from fiduciary activities.

(b) Fees for other services to customers.

(c) Commissions, fees, and markups on securities underwriting and other securities activities.

(d) Profit or loss on transactions in investment securities.

1107
§ 390.384 12 CFR Ch. III (1–1–14 Edition)

(e) Equity in earnings of unconsolidated subsidiaries and 50-percent- or less-owned persons.

(f) Gains or losses on disposition of investments in securities of subsidiaries and 50-percent- or less-owned persons.

(g) Profit or loss from real estate operations.

(h) Other fees related to loan originations or commitments not included in income statement caption 1.

The remaining other income may be shown in one amount:

(i) Investment securities gains or losses. The method followed in determining the cost of investments sold (e.g., “average cost,” “first-in, first-out,” or “identified certificate”) and related income taxes shall be disclosed.

14. Other expenses. Disclose separately any of the following amounts, or any other item of other expense, which exceeds 1 percent of the aggregate of total interest income and other income. The remaining amounts may be shown as one amount.

(a) Salaries and employee benefits.

(b) Net occupancy expense of premises.

(c) Net cost of operations of other real estate (including provisions for real estate losses, rental income, and gains and losses on sales of real estate).

(d) Minority interest in income of consolidated subsidiaries.

(e) Goodwill amortization.

15. Other income and expenses. State separately material events or transactions that are unusual in nature or occur infrequently, but not both, and therefore do not meet both criteria for classification as an extraordinary item. Examples of items which would be reported separately are gain or loss from the sale of premises and equipment, provision for loss on real estate owned, or provision for gain or loss on the sale of loans.

16. Income or losses before income tax expense.

17. Income tax expense. The information required by 17 CFR 210.4-88(h) should be disclosed.

18. Income or loss before extraordinary items. The effects of changes in accounting principles.

19. Extraordinary items, less applicable tax.

20. Cumulative effects of changes in accounting principles.

21. Net income or loss.

22. Earnings-per-share data.

23. Conversion footnote. If the State savings association is an applicant for conversion from a mutual to a stock association or has converted within the last three years, describe in a note the general terms of the conversion and restrictions on the operations of the State savings association imposed by the conversion. Also, state the amount of net proceeds received from the conversion and costs associated with the conversion.

24. Mergers and acquisitions. For the period in which a business combination occurs and is accounted for by the purchase method of accounting, in addition to those disclosures required by Accounting Principles Board Opinion No. 16, the State savings association shall make those disclosures as noted below for all combinations involving significant acquisitions. (A significant acquisition is defined for this purpose to be one in which the assets of the acquired State savings association, or group of State savings associations, exceed 10 percent of the assets of the consolidated State savings association at the end of the most recent period being reported upon).

(a) Amounts and descriptions of discounts and premiums related to recording the aggregate interest-bearing assets and liabilities at their fair market value. The disclosure should also include the methods of amortization or accretion and the estimated remaining lives.

(b) The net effect on net income before taxes of the amortization and accretion of discounts, premiums, and intangible assets related to the purchase accounting transaction(s). For subsequent periods, the State savings association shall disclose the remaining total unamortized or unaccreted amounts of discounts, premiums, and intangible assets as of the date of the most recent balance sheet presented. In addition, the State savings association shall disclose the net effect on net income before taxes of the amortization and accretion of discounts, premiums, and intangible assets related to prior business combinations accounted for by the purchase method of accounting. Such disclosures need not be made if the total amounts of discounts, premiums, or intangible assets do not exceed 30 percent of stockholders’ equity as of the date of the most recent balance sheet presented.

III. STATEMENT OF CASH FLOWS

The amounts shown in this statement should be those items which materially enhance the reader’s understanding of the State savings association’s business. For example, gains from sales of loans should be segregated from sales of mortgage-backed securities and other securities, if material, proceeds from principal repayments and maturities from loans and mortgage-backed securities should be segregated from proceeds from sales of loans and mortgage-backed securities, purchases of loans, mortgage-backed securities and other securities should be segregated, if material. Additional guidance may be found in the FASB’s Statement of Financial Accounting Standards No. 95 Statement of Cash Flows.

IV. SCHEDULES REQUIRED TO BE FILED

The following schedules, which should be examined by an independent accountant, shall be filed unless the required information
Federal Deposit Insurance Corporation § 390.384

is not applicable or is presented in the related financial statements:

(1) Schedule I—Indebtedness of and to related parties—Not Current. For each period for which an income statement is required, the following schedule should be filed in support of the amounts required to be reported by balance sheet items 8(j) and 17(c) unless such aggregate amount does not exceed 5 percent of stockholders' equity at either the beginning or the end of the period:

**INDEBTEDNESS OF AND TO RELATED PARTIES—NOT CURRENT**

<table>
<thead>
<tr>
<th>Name of person</th>
<th>Balance at beginning</th>
<th>Additions</th>
<th>Deductions</th>
<th>Balance at end</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>B</td>
<td>C</td>
<td>D</td>
<td>E</td>
</tr>
</tbody>
</table>

1. The persons named shall be grouped as in the related schedule required for investments in related parties. The information called for shall be shown separately for any persons whose investments were shown separately in such related schedule.

2. For each person named in column A, explain in a note the nature and purpose of any increase during the period that is in excess of 10 percent of the related balance at either the beginning or end of the period.

3. If deduction was other than a receipt or disbursement of cash, explain.

(2) Schedule II—Guarantees of securities of other issuers. The following schedule should be filed as of the date of the most recently audited balance sheet with respect to any guarantees of securities of other issuers by the person for which the statements are being filed:

**GUARANTEES OF SECURITIES OF OTHER ISSUERS**

<table>
<thead>
<tr>
<th>Col. A. Name of issuer of securities guaranteed by person for which statement is filed</th>
<th>Col. B. Title of issue of each class of securities guaranteed</th>
<th>Col. C. Total amount guaranteed and outstanding</th>
<th>Col. D. Amount owned by person or persons for which statement is filed</th>
</tr>
</thead>
</table>

4. Indicate in a note to the most recent schedule being filed for a particular person or group any significant changes since the date of the related balance sheet. If this schedule is filed in support of consolidated or combined statements, there shall be set forth guarantees by any person included in the consolidation or combination, except that such guarantees of securities which are included in the consolidated or combined balance sheet need not be set forth.

5. Indicate any amounts included in column C which are included also in column D or E.

(3) Schedule III—Condensed financial information. The following schedule shall be filed as of the dates and for the periods specified in the schedule.
§ 390.390 Condensed Financial Information

Parent only

[The State savings association may determine disclosure based on information provided in footnotes below]

(a) Provide condensed financial information as to financial position, changes in financial position, and results of operations of the State savings association as of the same dates and for the same periods for which audited consolidated financial statements are required. The financial information required need not be presented in greater detail than is required for condensed statement by 17 CFR 210.10–01(a) (2), (3), (4). Detailed footnote disclosure which would normally be included with complete financial statements may be omitted with the exception of disclosure regarding material contingencies, long-term obligations, and guarantees. Description of significant provisions of the State savings association’s long-term obligations, mandatory dividend, or redemption requirements of redeemable stocks, and guarantees of the State savings association shall be provided along with a 5-year schedule of maturities of debt. If the material contingencies, long-term obligations, redeemable stock requirements, and guarantees of the State savings association have been separately disclosed in the consolidated statements, they need not be repeated in this schedule.

(b) Disclose separately the amount of cash dividends paid to the State savings association for each of the last three fiscal years by consolidated subsidiaries, unconsolidated subsidiaries, and 50-percent- or less-owned persons accounted for by the equity method, respectively.

Subpart U—Securities of State Savings Associations

In respect to any securities issued by State savings associations, the powers, functions, and duties vested in the Securities and Exchange Commission (the “Commission”) to administer and enforce sections 10A(m), 12, 13, 14(a), 14(c), 14(d), 14(f), and 16 of the Securities Exchange Act of 1934, as amended (the “Act”)(15 U.S.C. 78l, 78m, 78n(a), 78n(c), 78n(d), 78n(f), and 78p), and sections 302, 303, 304, 306, 401(b), 404, 406, and 407 of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7241, 7242, 7243, 7244, 7261, 7262, 7264, and 7265) are vested in the FDIC. The rules, regulations and forms prescribed by the Commission pursuant to those sections or applicable in connection with obligations imposed by those sections, shall apply to securities issued by State savings associations, except as otherwise provided. The term “Commission” as used in those rules and regulations shall, with respect to securities issued by State savings associations, be deemed to refer to the FDIC unless the context otherwise requires.

All filings with respect to securities issued by State savings associations required by those rules and regulations to be made with the Commission shall be made with the FDIC, ATTN: Accounting and Securities Disclosure Section, 550 17th Street, NW, Washington, DC 20429, by submitting such filings to the above address, except as noted in § 390.391.

§ 390.391 [Reserved]

§ 390.392 Liability for certain statements by State savings associations.

This section replaces adherence to 17 CFR 240.3b–6 and applies as follows:

(a) A statement within the coverage of paragraph (b) of this section which is made by or on behalf of an issuer or by an outside reviewer retained by the issuer shall be deemed not to be a fraudulent statement (as defined in paragraph (d) of this section), unless it is shown that such statement was made or reaffirmed without a reasonable basis or was disclosed other than in good faith.

(b) This section applies to the following statements:

(1) A forward-looking statement (as defined in paragraph (c) of this section) made in a proxy statement or offering circular filed with the OCC under 12 CFR part 192; in a registration statement filed with the FDIC under the Act on Form 10 (17 CFR 249.210); in part I of a quarterly report filed with the FDIC on Form 10–Q (17 CFR 249.308a); in an annual report to shareholders meeting the requirements of § 390.390, particularly 17 CFR 240.14a–3(b) and (c) or 17 CFR 240.14c–3(a) and (b) under the Act; in a statement reaffirming such forward-looking statement subsequent to the date the document was filed or the annual report was made publicly available; or a forward-looking statement made prior to the date the document was filed or the date the annual report...
was made publicly available if such statement is reaffirmed in a filed document or annual report made publicly available within a reasonable time after the making of such forward-looking statement: Provided, that

(i) At the time such statements are made or reaffirmed, either:

(A) The issuer is subject to the reporting requirements of section 13(a) or 15(d) of the Act and has complied with the requirements of 17 CFR 240.13a–1 or 240.15d–1 thereunder, if applicable, to file its most recent annual report on Form 10–K; or

(B) If the issuer is not subject to the reporting requirements of section 13(a) or 15(d) of the Act, the statements are made either in a registration statement filed under the Securities Act of 1933 or pursuant to section 12(b) or (g) of the Act, or in a proxy statement or offering circular filed with the OCC under 12 CFR part 192 if such statements are reaffirmed in a registration statement under the Act on Form 10, filed with the FDIC within 180 days of the State savings association’s conversion, and

(ii) The statements are not made by or on behalf of an issuer that is an investment company registered under the Investment Company Act of 1940;

(2) Information—

(i) Relating to the effects of changing prices on the business enterprise presented voluntarily or pursuant to item 303 of Regulation S–K (17 CFR 229.303), management’s discussion and analysis of financial condition and results of operations, or item 302 of Regulation S–K (17 CFR 229.302), supplementary financial information; and

(ii) Disclosed in a document filed with the FDIC or in an annual report to shareholders meeting the requirements of 17 CFR 240.14a–3(b) and (c) or 17 CFR 240.14c–3(a) and (b) under the Act: Provided, that such information included in a proxy statement or offering circular filed pursuant to 12 CFR part 192 shall be reaffirmed in a registration statement under the Act on Form 10 filed with the OCC within 180 days of the association’s conversion.

(c) For purposes of this section, the term “forward-looking statement” shall mean and shall be limited to:

1. A statement containing a projection of revenues, income (loss), earnings (loss) per share, capital expenditures, dividends, capital structure, or other financial items;

2. A statement of management’s plans and objectives for future operations;

3. A statement of future economic performance contained in management’s discussion and analysis of financial condition and results of operations pursuant to item 303 of Regulation S–K; or

4. A statement of the assumptions underlying or relating to any of the statements described in paragraph (c)(1), (2), or (3) of this section.

(d) For purposes of this section, the term “fraudulent statement” shall mean a statement which is an untrue statement of a material fact, a statement false or misleading with respect to any material fact, an omission to state a material fact necessary to make a statement not misleading, or which constitutes the employment of a manipulative, deceptive, or fraudulent device, contrivance, scheme, transaction, act, practice, course of business, or an artifice to defraud, as those terms are used in the Securities Act of 1933 or the rules or regulations promulgated thereunder.

§ 390.393 Form and content of financial statements.

The financial statements required to be contained in filings with the FDIC under the Act are as set out in the applicable form and Regulation S–X, 17 CFR part 210. Those financial statements, however, shall conform as to form and content to the requirements of § 390.380.

§ 390.394 Interpretations related to SEC filings.

Sections 390.394 and 390.395 contain interpretations pertaining to the requirements of the Act and the rules and regulations thereunder as applied to State savings associations by the FDIC.

§ 390.395 Description of business.

(a) This section applies to the description-of-business portion of:
§ 390.400 Authority, purpose, and scope.

(a) Authority. This subpart is issued under the provisions of the Federal Deposit Insurance Act, 12 U.S.C. 1819 (Tenth) and the Depository Institution Management Interlocks Act (Interlocks Act) (12 U.S.C. 3201 et seq.), as amended.

(b) Purpose. The purpose of the Interlocks Act and this subpart is to foster competition by generally prohibiting a management official from serving two nonaffiliated depository organizations in situations where the management interlock likely would have an anti-competitive effect.

(c) Scope. This part applies to management officials of State savings associations and their affiliates.

§ 390.401 Definitions.

For purposes of this subpart, the following definitions apply:

(a) Affiliate. (1) The term affiliate has the meaning given in section 202 of the Interlocks Act (12 U.S.C. 3201). For purposes of that section 202, shares held by an individual include shares held by members of his or her immediate family. “Immediate family” means spouse, mother, father, child, grandchild, sister, brother, or any of their spouses, whether or not any of their shares are held in trust.

(2) For purposes of section 202(3)(B) of the Interlocks Act (12 U.S.C. 3201(3)(B)), an affiliate relationship involving a State savings association based on common ownership does not exist if the FDIC determines, after giving the affected persons the opportunity to respond, that the asserted affiliation was established in order to avoid the prohibitions of the Interlocks Act and does not represent a true commonality of interest between the depository organizations. In making this determination, the FDIC considers, among other things, whether a person, including members of his or her immediate family, whose shares are necessary to constitute the group owns a nominal percentage of the shares of one of the organizations and the percentage is substantially disproportionate to that person’s ownership of shares in the other organization.

(b) Area median income means:

(1) The median family income for the metropolitan statistical area (MSA), if a depository organization is located in an MSA; or

(2) The statewide nonmetropolitan median family income, if a depository organization is located outside an MSA.

(c) Community means a city, town, or village, and contiguous or adjacent cities, towns, or villages.

(d) Contiguous or adjacent cities, towns, or villages means cities, towns, or villages whose borders touch each other or whose borders are within 10 road miles of each other at their closest points. The property line of an office located in an unincorporated city, town, or village is the boundary line of that city, town, or village for the purpose of this definition.

(e) Depository holding company means a bank holding company or a savings and loan holding company (as more fully defined in section 202 of the Interlocks Act (12 U.S.C. 3201)) having its
principal office located in the United States.

(f) Depository institution means a commercial bank (including a private bank), a savings bank, a trust company, a State savings association, a building and loan association, a homestead association, a cooperative bank, an industrial bank, or a credit union, chartered under the laws of the United States and having a principal office located in the United States. Additionally, a United States office, including a branch or agency, of a foreign commercial bank is a depository institution.

(g) Depository institution affiliate means a depository institution that is an affiliate of a depository organization.

(h) Depository organization means a depository institution or a depository holding company.

(i) Low- and moderate-income areas means census tracts (or, if an area is not in a census tract, block numbering areas delineated by the United States Bureau of the Census) where the median family income is less than 100 percent of the area median income.

(j) Management official. (1) The term management official means:

(i) A director;

(ii) An advisory or honorary director of a depository institution with total assets of $100 million or more;

(iii) A senior executive officer as that term is defined in § 390.361;

(iv) A branch manager;

(v) A trustee of a depository organization under the control of trustees; and

(vi) Any person who has a representative or nominee serving in any of the capacities in this paragraph (j)(1).

(2) The term management official does not include:

(i) A person whose management functions relate exclusively to the business of retail merchandising or manufacturing;

(ii) A person whose management functions relate principally to the business outside the United States of a foreign commercial bank; or

(iii) A person described in the provisions of section 202(4) of the Interlocks Act (12 U.S.C. 3301(4)) (referring to an officer of a State-chartered savings bank, cooperative bank, or trust company that neither makes real estate mortgage loans nor accepts savings).

(k) Office means a principal or branch office of a depository institution located in the United States. Office does not include a representative office of a foreign commercial bank, an electronic terminal, or a loan production office.

(l) Person means a natural person, corporation, or other business entity.

(m) Relevant metropolitan statistical area (RMSA) means an MSA, a primary MSA, or a consolidated MSA that is not comprised of designated Primary MSAs to the extent that these terms are defined and applied by the Office of Management and Budget.

(n) Representative or nominee means a natural person who serves as a management official and has an obligation to act on behalf of another person with respect to management responsibilities. The FDIC will find that a person has an obligation to act on behalf of another person only if the first person has an agreement, express or implied, to act on behalf of the second person with respect to management responsibilities. The FDIC will determine, after giving the affected persons an opportunity to respond, whether a person is a representative or nominee.

(o) State savings association means:

(1) [Reserved]

(2) Any State savings association (as defined in section 3(b)(3) of the Federal Deposit Insurance Act (12 U.S.C. 1813(b)(3)) the deposits of which are insured by the Federal Deposit Insurance Corporation; and

(3) Any corporation (other than a bank as defined in section 3(a)(1) of the Federal Deposit Insurance Act (12 U.S.C. 1813(a)(1)) the deposits of which are insured by the Federal Deposit Insurance Corporation, that the Board of Directors of the Federal Deposit Insurance Corporation determines to be operating in substantially the same manner as a State savings association.

(p) Total assets. (1) The term total assets means assets measured on a consolidated basis and reported in the most recent fiscal year-end Consolidated Report of Condition and Income.

(2) The term total assets does not include:

(i) Assets of a diversified savings and loan holding company as defined by
§ 390.402 Prohibitions.

(a) **Community.** A management official of a depository organization may not serve at the same time as a management official of an unaffiliated depository organization if the depository organizations in question (or a depository institution affiliate thereof) have offices in the same community.

(b) **RMSA.** A management official of a depository organization may not serve at the same time as a management official of an unaffiliated depository organization if the depository organizations in question (or a depository institution affiliate thereof) have offices in the same RMSA and each depository organization has total assets of $50 million or more.

(c) **Major assets.** A management official of a depository organization with total assets exceeding $2.5 billion (or any affiliate of such an organization) may not serve at the same time as a management official of an unaffiliated depository organization with total assets exceeding $1.5 billion (or any affiliate of such an organization), regardless of the location of the two depository organizations. The FDIC will adjust these thresholds, as necessary, based on the year-to-year change in the average of the Consumer Price Index for the Urban Wage Earners and Clerical Workers, not seasonally adjusted, with rounding to the nearest $100 million. The FDIC will announce the revised thresholds by publishing a final rule without notice and comment in the Federal Register.

§ 390.403 Interlocking relationships permitted by statute.

The prohibitions of §390.402 do not apply in the case of any one or more of the following organizations or to a subsidiary thereof:

(a) A depository organization that has been placed formally in liquidation, or which is in the hands of a receiver, conservator, or other official exercising a similar function;

(b) A corporation operating under section 25 or section 25A of the Federal Reserve Act (12 U.S.C. 601 et seq. and 12 U.S.C. 611 et seq., respectively) (Edge Corporations and Agreement Corporations);

(c) A credit union being served by a management official of another credit union;

(d) A depository organization that does not do business within the United States except as an incident to its activities outside the United States;

(e) A State-chartered savings and loan guaranty corporation;

(f) A Federal Home Loan Bank or any other bank organized solely to serve depository institutions (a bankers' bank) or solely for the purpose of providing securities clearing services and services related thereto for depository institutions and securities companies;

(g) A depository organization that is closed or is in danger of closing as determined by the appropriate Federal depository institutions regulatory agency and is acquired by another depository organization. This exemption lasts for five years, beginning on the date the depository organization is acquired;

(h)(1) A diversified savings and loan holding company (as defined in section 10(a)(1)(F) of the Home Owners’ Loan Act (12 U.S.C. 1467a(a)(1)(F)) with respect to the service of a director of such company who also is a director of an unaffiliated depository organization if:

(i) Both the diversified savings and loan holding company and the unaffiliated depository organization notify their appropriate Federal depository institutions regulatory agency at least
§ 390.405 General exemption.

(a) Exemption. The FDIC may exempt an interlock from the prohibitions in §390.402 if the FDIC finds that the interlock would not result in a monopoly or substantial lessening of competition and would not present safety and soundness concerns. A depository organization may apply to FDIC for an exemption under §§390.126 through 390.135.

(b) Presumptions. In reviewing an application for an exemption under this section, the FDIC will apply a rebuttable presumption that an interlock will not result in a monopoly or substantial lessening of competition if the depository organization seeking to add a management official:

(1) Primarily serves low- and moderate-income areas;

(2) Is controlled or managed by persons who are members of a minority group, or women;

(3) Is a depository institution that or has been chartered for less than two years; or

(4) Is deemed to be in “troubled condition” as defined in §390.361.

(c) Duration. Unless a shorter expiration period is provided in the FDIC approval, an exemption permitted by paragraph (a) of this section may continue so long as it does not result in a monopoly or substantial lessening of competition, or is unsafe or unsound. If the FDIC grants an interlock exemption in reliance upon a presumption under paragraph (b) of this section, the interlock may continue for three years, unless otherwise provided by the FDIC in writing.

§ 390.406 Change in circumstances.

(a) Termination. A management official shall terminate his or her service or apply for an exemption if a change in circumstances causes the service to be prohibited by reference to the most recent annual Summary of Deposits published by the FDIC for the RMSA or community.

(b) Confirmation and records. Each depository organization must maintain records sufficient to support its determination of eligibility for the exemption under paragraph (a) of this section, and must reconfirm that determination on an annual basis.
(1) Accredited investor means the same as in Commission Rule 501(a) (17 CFR 230.501(a)) under the Securities Act, and includes any State savings association.

(2) Commission means the Securities and Exchange Commission.

(3) Dividend or interest reinvestment plan means a plan which is offered solely to existing security holders of the State savings association which allows such persons to reinvest dividends or interest paid to them on securities issued by the State savings association, and which also may allow additional cash amounts to be contributed by the participants in the plan, provided that the securities to be issued are newly issued, or are purchased for the account of plan participants, at prices not in excess of current market prices at the time of purchase, or at prices not in excess of an amount determined in accordance with a pricing formula specified in the plan and based upon average or current market prices at the time of purchase.

(4) Employee benefit plan means any purchase, savings, option, rights, bonus, ownership, appreciation, profit sharing, thrift, incentive, pension or similar plan solely for officers, directors or employees.

(6) Filing date means the date on which a document is actually received during business hours, 9 a.m. to 5 p.m., Eastern Standard Time, by the FDIC, 550 17th Street, NW., Washington, DC 20429. However if the last date on which a document can be accepted falls on a Saturday, Sunday, or holiday, such document may be filed on the next business day.

(7) Issuer means a State savings association which issues or proposes to issue any security.

(8) Offer; Sale or sell. For purposes of this subpart, the term offer, offer to sell, or offer for sale shall include every attempt or offer to dispose of, or solicitation of an offer to buy, a security or interest in a security, for value. However, these terms shall not include preliminary negotiations or agreements between an issuer and any underwriter or among underwriters who are or are
§ 390.410

to be in privity of contract with the issuer. Sale and sell includes every contract to sell or otherwise dispose of a security or interest in a security for value. Every offer or sale of a warrant or right to purchase or subscribe to another security of the same or another issuer, as well as every sale or offer of a security which gives the holder a present or future right or privilege to convert the security into another security of the same or another issuer, includes an offer and sale of the other security only at the time of the offer or sale of the warrant or right or convertible security; but neither the exercise of the right to purchase or subscribe or to convert nor the issuance of securities pursuant thereto is an offer or sale.

(9) Person means the same as in 12 CFR 192.25, and includes a State savings association.

(10) Purchase and buy mean the same as in 12 CFR 192.25.

(11) State savings association means the same as in section 3(b) of the Federal Deposit Insurance Act (12 U.S.C. 1813(b)), and includes a state-chartered savings association in organization which is granted conditional approval of insurance of accounts by the Federal Deposit Insurance Corporation. In addition, for purposes of §390.411, State savings association includes any underwriter participating in the distribution of securities of a State savings association.

(13) Security means any non-withdrawable account, note, stock, treasury stock, bond, debenture, evidence of indebtedness, certificate of interest or participation in any profit-sharing agreement, collateral-trust certificate, preorganization or subscription, transferable share, investment contract, voting trust certificate or, in general, any interest or instrument commonly known as a security, or any certificate of interest or participation in, temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase any of the foregoing, except that a security shall not include an account insured, in whole or in part, by the Federal Deposit Insurance Corporation.

(14) Underwriter means any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security, or participates or has a participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors’ or sellers’ commission and such term shall also not include any person who has continually held the securities being transferred for a period of two (2) consecutive years provided that the securities sold in any one (1) transaction shall be less than ten percent (10%) of the issued and outstanding securities of the same class. The following shall apply for the purpose of determining the period securities have been held:

(i) Stock dividends, splits and recapitalizations. Securities acquired from the issuer as a dividend or pursuant to a stock split, reverse split or recapitalization shall be deemed to have been acquired at the same time as the securities on which the dividend or, if more than one, the initial dividend was paid, the securities involved in the split or reverse split, or the securities surrendered in connection with the recapitalization.

(ii) Conversions. If the securities sold were acquired from the issuer for consideration consisting solely of other securities of the same issuer surrendered for conversion, the securities so acquired shall be deemed to have been acquired at the same time as the securities surrendered for conversion.

(iii) Contingent issuance of securities. Securities acquired as a contingent payment of the purchase price of an equity interest in a business, or the assets of a business, sold to the issuer or an affiliate of the issuer shall be deemed to have been acquired at the time of such sale if the issuer was then committed to issue the securities subject only to conditions other than the payment of further consideration for such securities. An agreement entered into in connection with any such purchase to remain in the employment of, or not to compete with, the issuer or affiliate or the rendering of services
§ 390.411 Offering circular requirement.

(a) General. No State savings association shall offer or sell, directly or indirectly, any security issued by it unless:

(1) The offer or sale is accompanied or preceded by an offering circular which includes the information required by this subpart and which has been filed and declared effective pursuant to this subpart; or

(2) An exemption is available under this subpart.

(b) Communications not deemed an offer. The following communications shall not be deemed an offer under this subpart:

(1) Prior to filing an offering circular, any notice of a proposed offering which satisfies the requirements of Commission Rule 135 (17 CFR 230.135) under the Securities Act;

(2) Subsequent to filing an offering circular, any notice circular, advertisement, letter, or other communication published or transmitted to any person which satisfies the requirements of Commission Rule 134 (17 CFR 230.134) under the Securities Act; and

(3) Oral offers of securities covered by an offering circular made after filing the offering circular with the FDIC.

(c) Preliminary offering circular. Notwithstanding paragraph (a) of this section, a preliminary offering circular may be used for an offer of any security prior to the effective date of the offering circular if:

(1) The preliminary offering circular has been filed pursuant to this subpart;

(2) The preliminary offering circular includes the information required by this subpart, except for the omission of information relating to offering price, discounts or commissions, amount of proceeds, conversion rates, call prices, or other matters dependent on the offering price; and

(3) The offering circular declared effective by the FDIC is furnished to the purchaser prior to, or simultaneously with, the sale of any such security.
§ 390.412 Exemptions.

The offering circular requirement of § 390.411 shall not apply to an issuer’s offer or sale of securities:

(a) [Reserved]

(b) Exempt from registration under either section 3(a) or section 4 of the Securities Act, but only by reason of an exemption other than section 3(a)(5) (for regulated State savings associations), and section 3(a)(11) (for intrastate offerings) of the Securities Act;

(c) In a conversion from the mutual to the stock form of organization pursuant to 12 CFR part 192, except for a supervisory conversion undertaken pursuant to subpart C of 12 CFR part 192;

(d) In a non-public offering which satisfies the requirements of § 390.413;

(e) That are debt securities issued in denominations of $100,000 or more, which are fully collateralized by cash, any security issued, or guaranteed as to principal and interest, by the United States, the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Government National Mortgage Association or by interests in mortgage notes secured by real property;

(f) Distributed exclusively abroad to foreign nationals: Provided, That—

(1) The offering is made subject to safeguards reasonably designed to preclude distribution or redistribution of the securities within, or to nationals of, the United States; and

(2) Such safeguards include, without limitation, measures that would be sufficient to ensure that registration of the securities would not be required if the securities were not exempt under the Securities Act; or

(g) To its officers, directors or employees pursuant to an employee benefit plan or a dividend or interest reinvestment plan, and provided that any such plan has been approved by the majority of shareholders present in person or by proxy at an annual or special meeting of the shareholders of the State savings association.

§ 390.413 Non-public offering.

Offers and sales of securities by an issuer that satisfy the conditions of paragraphs (a) or (b) of this section and the requirements of paragraphs (c) and (d) of this section shall be deemed to be transactions not involving any public offering within the meaning of section 4(2) of the Securities Act and §§ 390.412(b) and 390.412(d). However, an issuer shall not be deemed to be not in compliance with the provisions of this subpart solely by reason of making an untimely filing of the notice required to be filed by paragraph (c) of this section so long as the notice is actually filed and all other conditions and requirements of this subpart are satisfied.

(a) Regulation D. The offer and sale of all securities in the transaction satisfies the Commission’s Regulation D (17 CFR 230.501–230.506), except for the notice requirements of Commission Rule 503 (17 CFR 230.503) and the limitations on resale in Commission Rule 502(d) (17 CFR 230.502(d)).

(b) Sales to 35 persons. The offer and sale of all securities in the transaction satisfies each of the following conditions:

(1) Sales of the security are not made to more than 35 persons during the offering period, as determined under the integration provisions of Commission Rule 502(a) (17 CFR 230.502(a)). The number of purchasers referred to above is exclusive of any accredited investor, officer, director or affiliate of the issuer. For purposes of paragraph (b) of this section, a husband and wife (together with any custodian or trustee acting for the account of their minor children) are counted as one person and a partnership, corporation or other organization which was not specifically formed for the purpose of purchasing the security offered in reliance upon this exemption, is counted as one person.

(2) All purchasers either have a preexisting personal or business relationship with the issuer or any of its officers, directors or controlling persons, or by reason of their business or financial experience or the business or financial experience of their professional advisors who are unaffiliated with and who are not compensated by the issuer or any affiliate or selling agent of the issuer, directly or indirectly, could reasonably be assumed to have the capacity to protect their own interests in connection with the transaction.
(3) Each purchaser represents that the purchaser is purchasing for the purchaser’s own account (or a trust account if the purchaser is a trustee) and not with a view to or for sale in connection with any distribution of the security.

(4) The offer and sale of the security is not accomplished by the publication of any advertisement.

(c) Filing of notice of sales. Within 30 days after the first sale of the securities, every six months after the first sale of the securities and not later than 30 days after the last sale of securities in an offering pursuant to this subpart, the issuer, shall file with the FDIC a report describing the results of the sale of securities as required by §390.421(b).

(d) Limitation on resale. The issuer shall exercise reasonable care to assure that the purchasers of the securities are not underwriters within the meaning of §390.410(a)(14), which reasonable care shall include, but not be limited to, the following:

(1) Reasonable inquiry to determine if the purchaser is acquiring the securities for the purchaser or for other persons;

(2) Written disclosure to each purchaser prior to the sale that the securities are not offered by an offering circular filed with, and declared effective by, the FDIC pursuant to §390.411, but instead are being sold in reliance upon the exemption from the offering circular requirement provided for by this subpart; and

(3) Placement of a legend on the certificate, or other document evidencing the securities, indicating that the securities have not been offered by an offering circular filed with, and declared effective by, the FDIC and that due care should be taken to ensure that the seller of the securities is not an underwriter within the meaning of §390.410(a)(14).

§390.414 Filing and signature requirements.

(a) Procedures. An offering circular, amendment, notice, report, or other document required by this subpart shall, unless otherwise indicated, be filed in accordance with the requirements of 12 CFR 192.115(a), 192.150(a)(6), 192.155, 192.180(b), and Form AC, General Instruction B, of this subpart.

(b) Number of copies. (1) Unless otherwise required, any filing under this subpart shall include nine copies of the document to be filed with the FDIC, as follows:

(i) Seven copies, which shall include one manually signed copy with exhibits, three conformed copies with exhibits, and three conformed copies without exhibits, to the FDIC, ATTN: Accounting and Securities Disclosure Section, 550 17th Street NW, Washington, DC 20429; and

(ii) Two copies, which shall include one manually signed copy with exhibits and one conformed copy, without exhibits, to the appropriate regional director.

(2) Within five days after the effective date of an offering circular or the commencement of a public offering after the effective date, whichever occurs later, nine copies of the offering circular used shall be filed with the FDIC as follows: Seven copies to the FDIC, 550 17th Street NW., ATTN: Accounting and Securities Disclosure Section, Washington, DC, and two copies to the appropriate Regional Director.

(3) After the effective date of an offering circular, an offering circular which varies from the form previously filed shall not be used, unless it includes only non-material supplemental or additional information and until 10 copies have been filed with the FDIC in the manner required.

(c) Signature. (1) Any offering circular, amendment, or consent filed with the FDIC pursuant to this subpart shall include an attached manually signed signature page which authorizes the filing and has been signed by:

(i) The issuer, by its duly authorized representative;

(ii) The issuer’s principal executive officer;

(iii) The issuer’s principal financial officer;

(iv) The issuer’s principal accounting officer; and

(v) At least a majority of the issuer’s directors.

(2) Any other document filed pursuant to this subpart shall be signed by a person authorized to do so.
(3) At least one copy of every document filed pursuant to this subpart shall be manually signed, and every copy of a document filed shall:

(i) Have the name of each person who signs typed or printed beneath the signature;

(ii) State the capacity or capacities in which the signature is provided;

(iii) Provide the name of each director of the issuer, if a majority of directors is required to sign the document; and

(iv) With regard to any copies not manually signed, bear typed or printed signatures.

§ 390.415 Effective date.

(a) Except as provided for in paragraph (d) of this section, an offering circular filed by a State savings association shall be deemed to be automatically declared effective by the FDIC on the twentieth day after filing or on such earlier date as the FDIC may determine for good cause shown.

(b) If any amendment is filed prior to the effective date, the offering circular shall be deemed to have been filed when such amendment was filed.

(c) The period until automatic effectiveness under this subpart shall be stated at the bottom of the facing page of the Form OC or any amendment.

(d) The effectiveness will be delayed if a duly authorized amendment, telegram confirmed in writing, or letter states that the effective date is delayed until a further amendment is filed specifically stating that the offering circular will become effective in accordance with this subpart.

(e) An amendment filed after the effective date of the offering circular shall become effective on such date as the FDIC may determine.

(f) If it appears to the FDIC at any time that the offering circular includes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein not misleading, then the FDIC may pursue any remedy it is authorized to pursue under section 8 of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1818), including, but not limited to, institution of cease-and-desist proceedings.

§ 390.416 Form, content, and accounting.

(a) Form and content. Any offering circular or amendment filed pursuant to this subpart shall:

(1) Be filed under cover of Form OC, which is under 12 CFR part 192;

(2) Comply with the requirements of Items 3 and 4 of Form OC and the requirements of all items of the form for registration (17 CFR part 239) that the issuer would be eligible to use were it required to register the securities under the Securities Act;

(3) Comply with all item requirements of the Form S–1 (17 CFR part 239) for registration under the Securities Act, if the association issuing the securities is not in compliance with the FDIC’s regulatory capital requirements during the time the offering is made;

(4) Where a form specifies that the information required by an item in the Commission’s Regulation S–K (17 CFR part 229) should be furnished, include such information and all of the information required by Item 7 of Form PS, which is under 12 CFR part 192;

(5) Include after the facing page of the Form OC a cross-reference sheet listing each item requirement of the form for registration under the Securities Act and indicate for each item the applicable heading or subheading in the offering circular under which the required information is disclosed;

(6) Include in part II of the Form OC the applicable undertakings required by the form for registration under the Securities Act;

(7) If the issuer has not previously been required to file reports pursuant to section 13(a) of the Exchange Act or §390.427, include in part II of Form OC the following undertaking: “The issuer hereby undertakes, in connection with any distribution of the offering circular, to have a preliminary or effective offering circular including the information required by this subpart distributed to all persons expected to be mailed confirmations of sale not less than 48 hours prior to the time such confirmations are expected to be mailed;”

(8) In offerings involving the issuance of options, warrants, subscription rights or conversion rights within the meaning of §390.410(a)(8), include in
part II of Form OC an undertaking to provide a copy of the issuer’s most recent audited financial statements to persons exercising such options, warrants or rights promptly upon receiving written notification of the exercise thereof;

(9) Include as supplemental information and not as part of the Form OC and only with respect to de novo offerings, a copy of the application for insurance of accounts as submitted to the Federal Deposit Insurance Corporation for state-chartered savings associations; and

(10) In addition to the information expressly required to be included by this subpart, there shall be added such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

(b) Accounting requirements. To be declared effective an offering circular or amendment shall satisfy the accounting requirements in subpart T.

§ 390.417 Use of the offering circular.

(a) An offering circular or amendment declared effective by the FDIC shall not be used more than nine months after the effective date, unless the information contained therein is as of a date not more than 16 months prior to such use.

(b) An offering circular filed under §390.414(b)(3) shall not extend the period for which an effective offering circular or amendment may be used under paragraph (c) of this section.

(c) If any event arises, or change in fact occurs, after the effective date and such event or change in fact, individually or in the aggregate, results in the offering circular containing any untrue statement of material fact, or omitting to state a material fact necessary in order to make statements made in the offering circular not misleading under the circumstances, then no offering circular, which has been declared effective under this subpart, shall be used until an amendment reflecting such event or change in fact has been filed with, and declared effective by, the FDIC.

§ 390.418 Escrow requirement.

(a) Any funds received in an offering which is offered and sold on a best efforts all-or-none condition or with a minimum-maximum amount to be sold shall be held in an escrow or similar separate account until such time as all of the securities are sold with respect to a best efforts all-or-none offering or the stated minimum amount of securities are sold in a minimum-maximum offering.

(b) If the amount of securities required to be sold under escrow conditions in paragraph (a) of this section are not sold within the time period for the offering as disclosed in the offering circular, all funds in the escrow account shall be promptly refunded unless the FDIC otherwise approves an extension of the offering period upon a showing of good cause and provided that the extension is consistent with the public interest and the protection of investors.

§ 390.419 Unsafe or unsound practices.

(a) No person shall directly or indirectly,

(1) Employ any device, scheme or artifice to defraud,

(2) Make any untrue statement of a material fact or omit to state a material fact necessary in order to make statements made, in light of the circumstances under which they were made, not misleading, or

(3) Engage in any act, practice, or course of business which operates as a fraud or deceit upon any person, in connection with the purchase or sale of any security of a State savings association.

(b) Violations of this subpart shall constitute an unsafe or unsound practice within the meaning of section 8 of the Federal Deposit Insurance Act, as amended, 12 U.S.C. 1818.

(c) Nothing in this subpart shall be construed as a limitation on the applicability of section 10(b) of the Exchange Act (15 U.S.C. 78j(b)) or Rule 10b–5 promulgated thereunder (17 CFR 240.10b–5).

§ 390.420 Withdrawal or abandonment.

(a) Any offering circular, amendment, or exhibit may be withdrawn
§ 390.424 Requests for interpretive advice or waiver.

Any requests to the FDIC for interpretive advice or a waiver with respect
§ 390.425 Delayed or continuous offering and sale of securities.

Any offer or sale of securities under § 390.411 may be made on a continuous or delayed basis in the future, if:

(a) The securities would satisfy all of the eligibility requirements of the Commission’s Rule 415, 17 CFR 230.415; and

(b) The association issuing the securities is in compliance with the FDIC’s regulatory capital requirements during the time the offering is made.

§ 390.426 Sales of securities at an office of a State savings association.

Sales of securities of a State savings association or its affiliates at an office of a State savings association may only be made in accordance with the provisions of § 390.340.

§ 390.427 Current and periodic reports.

(a) Each State savings association which files an offering circular which becomes effective pursuant to this subpart, after such effective date, shall file with the FDIC periodic and current reports on Forms 8–K, 10–Q and 10–K as may be required by section 13 of the Exchange Act (15 U.S.C. 78m) as if the securities sold by such offering circular were securities registered pursuant to section 12 of the Exchange Act (15 U.S.C. 78l). The duty to file periodic and current reports under this subpart shall be automatically suspended if and so long as any issue of securities of the State savings association is registered pursuant to section 12 of the Exchange Act (15 U.S.C. 78l). The duty to file under this subpart shall also be automatically suspended as to any fiscal year, other than the fiscal year within which such offering circular became effective, if, at the beginning of such fiscal year, the securities of each class to which the offering circular relates are held of record by less than three hundred persons and upon the filing of a Form 15.

(b) For purposes of registering securities under section 12(b) or 12(g) of the Exchange Act, an issuer subject to the reporting requirements of paragraph (a) of this section may use the Commission’s registration statement on Form 10 or Form 8–A or 8–B as applicable.

§ 390.428 Approval of the security.

Any securities of a State savings association which are not exempt under this subpart and are offered or sold pursuant to an offering circular which becomes effective under this subpart, are deemed to be approved as to form and terms for purposes of this subpart.

§ 390.429 Form for securities sale report.

FDIC, 550 17th Street, NW., Washington, DC 20429

[Form G–12]

Securities Sale Report Pursuant to § 390.12

FDIC No.

Issuer’s Name: ______________________

Address: ____________________________

If in organization, state the date of FDIC certification of insurance of accounts:

State the title, number, aggregate and per-unit offering price of the securities sold:

State the aggregate and per-unit dollar amounts of actual itemized offering expenses, discounts, commissions, and other fees:

State the aggregate and per-unit dollar amounts of the net proceeds raised:

Describe the use of proceeds. If unknown, provide reasonable estimates of the dollar amount allocated to each purpose for which the proceeds will be used:

State the number of purchasers of each class of securities sold and the number of owners of record of each class of the issuer’s equity securities at the close or termination of the offering: ________
Federal Deposit Insurance Corporation

§ 390.441 Filing of copies of offering circulars in certain exempt offerings.

A copy of the offering circular, or similar document, if any, used in connection with an offering exempt from the offering circular requirement of §390.411 by reason of §390.412(e) or §390.413 shall be mailed to the FDIC within 30 days after the first sale of such securities. Such copy of the offering circular, or similar document, is solely for the information of the FDIC and shall not be deemed to be “filed” with the FDIC pursuant to §390.411. The mailing to the FDIC of such offering circular, or similar document, shall not be a pre-condition of the applicable exemption from the offering circular requirements of §390.411.

Subpart X—Appraisals

§ 390.440 Authority, purpose, and scope.

(b) Purpose and scope. (1) title XI provides protection for federal financial and public policy interests in real estate related transactions by requiring real estate appraisals used in connection with federally related transactions to be performed in writing, in accordance with uniform standards, by appraisers whose competency has been demonstrated and whose professional conduct will be subject to effective supervision. This subpart implements the requirements of title XI and applies to all federally related transactions entered into by the FDIC or by institutions regulated by the FDIC ("regulated institutions").

(2) This subpart:

(i) Identifies which real estate related financial transactions require the services of an appraiser;

(ii) Prescribes which categories of federally related transactions shall be appraised by a State certified appraiser and which by a State licensed appraiser; and

(iii) Prescribes minimum standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of the FDIC.

§ 390.441 Definitions.

Appraisal means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market value of an adequately described property as of a specific date(s), supported by the presentation and analysis of relevant market information.

Appraisal Foundation means the Appraisal Foundation established on November 30, 1987, as a not-for-profit corporation under the laws of Illinois.

Appraisal Subcommittee means the Appraisal Subcommittee of the Federal Financial Institution Examination Council.

Business loan means a loan or extension of credit to any corporation, general or limited partnership, joint venture, pool, syndicate,
§ 390.441

12 CFR Ch. III (1–1–14 Edition)

sole proprietorship, or other business entity.

Complex 1-to-4 family residential property appraisal means one in which the property to be appraised, the form of ownership, or market conditions are atypical.

Federally related transaction means any real estate-related financial transaction entered into on or after August 9, 1990, that:

(1) The FDIC or any regulated institution engages in or contracts for; and

(2) Requires the services of an appraiser.

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

(1) Buyer and seller are typically motivated;

(2) Both parties are well informed or well advised, and acting in what they consider their own best interests;

(3) A reasonable time is allowed for exposure in the open market;

(4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

(5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Real estate or real property means an identified parcel or tract of land, with improvements, and includes easements, rights of way, undivided or future interests, or similar rights in a tract of land, but does not include mineral rights, timber rights, growing crops, water rights, or similar interests severable from the land when the transaction does not involve the associated parcel or tract of land.

Real estate-related financial transaction means any transaction involving:

(1) The sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof; or

(2) The refinancing of real property or interests in real property; or

(3) The use of real property or interests in property as security for a loan or investment, including mortgage-backed securities.

State certified appraiser means any individual who has satisfied the requirements for certification in a State or territory whose criteria for certification as a real estate appraiser currently meet the minimum criteria for certification issued by the Appraiser Qualifications Board of the Appraisal Foundation. No individual shall be a State certified appraiser unless such individual has achieved a passing grade upon a suitable examination administered by a State or territory that is consistent with and equivalent to the Uniform State Certification Examination issued or endorsed by the Appraiser Qualifications Board of the National Foundation. In addition, the Appraisal Subcommittee must not have issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI of FIRREA. The FDIC may, from time to time, impose additional qualification criteria for certified appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

State licensed appraiser means any individual who has satisfied the requirements for licensing in a State or territory where the licensing procedures comply with title XI of FIRREA and where the Appraisal Subcommittee has not issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI. The FDIC may, from time to time, impose additional qualification criteria for licensed appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

Tract development means a project of five units or more that is constructed or is to be constructed as a single development.

Transaction value means:

(1) For loans or other extensions of credit, the amount of the loan or extension of credit;

(2) For sales, leases, purchases, and investments in or exchanges of real
§ 390.442 Appraisals required; transactions requiring a State certified or licensed appraiser.

(a) Appraisals required. An appraisal performed by a State certified or licensed appraiser is required for all real estate-related financial transactions except those in which:

(1) The transaction value is $250,000 or less;
(2) A lien on real estate has been taken as collateral in an abundance of caution;
(3) The transaction is not secured by real estate;
(4) A lien on real estate has been taken for purposes other than the real estate’s value;
(5) The transaction is a business loan that:

(i) Has a transaction value of $1 million or less; and
(ii) Is not dependent on the sale of, or rental income derived from, real estate as the primary source of repayment;
(6) A lease of real estate is entered into, unless the lease is the economic equivalent of a purchase or sale of the leased real estate;
(7) The transaction involves an existing extension of credit at the lending institution, provided that:

(i) There has been no obvious and material change in market conditions or physical aspects of the property that threatens the adequacy of the institution’s real estate collateral protection after the transaction, even with the advancement of new monies; or
(ii) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs;
(8) The transaction involves the purchase, sale, investment in, exchange of, or extension of credit secured by, a loan or interest in a loan, pooled loans, or interests in real property, including mortgaged-backed securities, and each loan or interest in a loan, pooled loan, or real property interest met the FDIC’s regulatory requirements for appraisals at the time of origination;
(9) The transaction is wholly or partially insured or guaranteed by a United States government agency or United States government sponsored agency;
(10) The transaction either:

(i) Qualifies for sale to a United States government agency or United States government sponsored agency; or
(ii) Involves a residential real estate transaction in which the appraisal conforms to the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation appraisal standards applicable to that category of real estate;
(11) The regulated institution is acting in a fiduciary capacity and is not required to obtain an appraisal under other law; or
(12) The FDIC determines that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of the institution.

(b) Evaluations required. For a transaction that does not require the services of a State certified or licensed appraiser under paragraph (a)(1), (5), or (7) of this section, the institution shall obtain an appropriate evaluation of real property collateral that is consistent with safe and sound banking practices.

(c) Appraisals to address safety and soundness concerns. The FDIC reserves the right to require an appraisal under this subpart whenever the agency believes it is necessary to address safety and soundness concerns.

(d) Transactions requiring a State certified appraiser—(1) All transactions of $1,000,000 or more. All federally related transactions having a transaction value of $1,000,000 or more shall require an appraisal prepared by a State certified appraiser.

(2) Nonresidential and residential (other than 1-to-4 family) transactions of $250,000 or more. All federally related transactions having a transaction value of $250,000 or more, other than those involving appraisals of 1-to-4
§ 390.443 Minimum appraisal standards.

For federally related transactions, all appraisals shall, at a minimum:

(a) Conform to generally accepted appraisal standards as evidenced by the Uniform Standards of Professional Appraisal Practice (USPAP) promulgated by the Appraisal Standards Board of the Appraisal Foundation, 1029 Vermont Ave., NW., Washington, DC 20005, unless principles of safe and sound banking require compliance with stricter standards;

(b) Be written and contain sufficient information and analysis to support the institution’s decision to engage in the transaction;

(c) Analyze and report appropriate deductions and discounts for proposed construction or renovation, partially leased buildings, non-market lease terms, and tract developments with unsold units;

(d) Be based upon the definition of market value as set forth in this subpart; and

(e) Be performed by State licensed or certified appraisers in accordance with requirements set forth in this subpart.

§ 390.444 Appraiser independence.

(a) Staff appraisers. If an appraisal is prepared by a staff appraiser, that appraiser must be independent of the lending, investment, and collection functions and not involved, except as an appraiser, in the federally related transaction, and have no direct or indirect interest, financial or otherwise, in the property. If the only qualified persons available to perform an appraisal are involved in the lending, investment, or collection functions of the regulated institution, the regulated institution shall take appropriate steps to ensure that the appraisers exercise independent judgment and that the appraisal is adequate. Such steps include, but are not limited to, prohibiting an individual from performing an appraisal in connection with federally related transactions in which the appraiser is otherwise involved and prohibiting directors and officers from participating in any vote or approval involving assets on which they performed an appraisal.

(b) Fee appraisers. (1) If an appraisal is prepared by a fee appraiser, the appraiser shall be engaged directly by the regulated institution or its agent, and have no direct or indirect interest, financial or otherwise, in the property or the transaction.

(2) A regulated institution also may accept an appraisal that was prepared by an appraiser engaged directly by another financial services institution, if:

(i) The appraiser has no direct or indirect interest, financial or otherwise, in the property or the transaction; and
§ 390.447 Appraisal policies and practices of State savings associations and subsidiaries.

(a) **Introduction.** The soundness of a State savings association’s mortgage loans and real estate investments, and those of its subsidiary(ies), depends to a great extent upon the adequacy of the loan underwriting used to support these transactions. An appraisal standard is one of several critical components of a sound underwriting policy because appraisal reports contain estimates of the value of collateral held or assets owned. This section sets forth the responsibilities of management to develop, implement, and maintain appraisal standards in determining compliance with the appraisal requirements of §390.350.

(b) **Definition.** For purposes of this section, management means: the directors and officers of a State savings association or subsidiary(ies) of such State savings association as those terms are defined in §§390.291 and 390.302, respectively.

(c) **Responsibilities of management.** An appraisal is a critical component of the loan underwriting or real estate investment decision. Therefore, management shall develop, implement, and maintain appraisal policies to ensure that appraisals reflect professional competence and to facilitate the reporting of estimates of market value upon which State savings associations may rely to make lending decisions. To achieve these results:

1. Management shall develop written appraisal policies, subject to formal adoption by the State savings association’s board of directors, that it shall implement in consultation with other appropriate personnel. These policies shall ensure that adequate appraisals are obtained and proper appraisal procedures are followed consistent with the requirements of this subpart.

2. Management shall develop and adopt guidelines and institute procedures pertaining to the hiring of appraisers to perform appraisal services for the State savings association consistent with the requirements of this subpart. These guidelines shall set forth specific factors to be considered by management including, but not limited to, an appraiser’s State certification or licensing, professional education, and type of experience. An appraiser’s membership in professional appraisal organizations may be considered consistent with the requirements of subpart X.

3. Management shall review on an annual basis the performance of all approved appraisers used within the preceding 12-month period for compliance with:
   (i) The State savings association’s appraisal policies and procedures; and
   (ii) The reasonableness of the value estimates reported.

(d) **Exemptions.** The requirements of §390.443(b) through (d) shall not apply
with respect to appraisals on nonresidential properties prepared on form reports approved by the FDIC and completed in accordance with the applicable instructional booklet.

Subpart Y—Prompt Corrective Action

§ 390.450 Authority, purpose, scope, other supervisory authority, and disclosure of capital categories.

(a) Authority. This subpart is issued by the FDIC pursuant to section 38 of the Federal Deposit Insurance Act (FDI Act) as added by section 131 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (Pub. L. 102–242, 105 Stat. 2236 (1991)) (12 U.S.C. 1831o).

(b) Purpose. Section 38 of the FDI Act establishes a framework of supervisory actions for insured depository institutions that are not adequately capitalized. The principal purpose of this subpart is to define, for State savings associations, the capital measures and capital levels that are used for determining the supervisory actions authorized under section 38 of the FDI Act. This subpart also establishes procedures for submission and review of capital restoration plans and for issuance and review of directives and orders pursuant to section 38.

(c) Scope. This subpart implements the provisions of section 38 of the FDI Act as they apply to State savings associations. Certain of these provisions also apply to officers, directors and employees of State savings associations.

(d) Other supervisory authority. Neither section 38 nor this subpart in any way limits the authority of the FDIC under any other provision of law to take supervisory actions to address unsafe or unsound practices, deficient capital levels, violations of law, unsafe or unsound conditions, or other practices. Action under section 38 of the FDI Act and this subpart may be taken independently of, in conjunction with, or in addition to any other enforcement action available to the FDIC, including issuance of cease and desist orders, capital directives, approval or denial of applications or notices, assessment of civil money penalties, or any other actions authorized by law.

(e) Disclosure of capital categories. The assignment of a State savings association under this subpart within a particular capital category is for purposes of implementing and applying the provisions of section 38. Unless permitted by the FDIC or otherwise required by law, no State savings association may state in any advertisement or promotional material its capital category under this subpart or that the FDIC or any other federal banking agency has assigned the State savings association to a particular category.

§ 390.451 Definitions.

For purposes of this subpart, except as modified in this section or unless the context otherwise requires, the terms used in this subpart have the same meanings as set forth in sections 38 and 3 of the FDI Act.

(a)(1) Control has the same meaning assigned to it in section 2 of the Bank Holding Company Act (12 U.S.C. 1841), and the term “controlled” shall be construed consistently with the term “control.”

(2) Exclusion for fiduciary ownership. No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of shares in a fiduciary capacity. Shares shall not be deemed to have been acquired in a fiduciary capacity if the acquiring insured depository institution or company has sole discretionary authority to exercise voting rights with respect thereto.

(3) Exclusion for debts previously contracted. No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of shares acquired in securing or collecting a debt previously contracted in good faith, until two years after the date of acquisition. The two-year period may be extended at the discretion of the appropriate federal banking agency for up to three one-year periods.

(b) Controlling person means any person having control of an insured depository institution and any company controlled by that person.

(c) Leverage ratio means the ratio of Tier 1 capital to adjusted total assets,
§ 390.453 Capital measures and capital category definitions.

(a) Capital measures. For purposes of section 38 and this subpart, the relevant capital measures shall be:

(1) The total risk-based capital ratio;
(2) The Tier 1 risk-based capital ratio; and
(3) The leverage ratio.

(b) Capital categories. For purposes of section 38 and this subpart, a State savings association shall be deemed to have been notified of its capital levels and its capital category as of the most recent date:

(1) A Thrift Financial Report (TFR) or Consolidated Reports of Condition or Income ("Call Report"), as applicable, is required to be filed with the FDIC;
(2) A final report of examination is delivered to the State savings association; or
(3) Written notice is provided by the FDIC to the State savings association of its capital category for purposes of section 38 of the FDI Act and this subpart or that the State savings association's capital category has changed as provided in paragraph (c) of this section or §390.453(c).

(c) Adjustments to reported capital levels and category—(1) Notice of adjustment by State savings association. A State savings association shall provide the FDIC with written notice that an adjustment to the State savings association's capital category may have occurred no later than 15 calendar days following the date that any material event has occurred that would cause the State savings association to be placed in a lower capital category from the category assigned to the State savings association for purposes of section 38 and this section on the basis of the State savings association’s most recent report of examination.

(2) Determination by the FDIC to change capital category. After receiving notice pursuant to paragraph (c)(1) of this section, the FDIC shall determine whether to change the capital category of the State savings association and shall notify the State savings association of the FDIC’s determination.

§ 390.452 Notice of capital category.

(a) Effective date of determination of capital category. A State savings association shall be deemed to be within a given capital category for purposes of section 38 of the FDI Act and this subpart as of the date the State savings association is notified of, or is deemed to have notice of, its capital category, pursuant to paragraph (b) of this section.

(b) Notice of capital category. A State savings association shall be deemed to have been notified of its capital levels and its capital category as of the most recent date:

(1) A Thrift Financial Report (TFR) or Consolidated Reports of Condition or Income ("Call Report"), as applicable, is required to be filed with the FDIC;
(2) A final report of examination is delivered to the State savings association; or
(3) Written notice is provided by the FDIC to the State savings association of its capital category for purposes of section 38 of the FDI Act and this subpart or that the State savings association’s capital category has changed as provided in paragraph (c) of this section or §390.453(c).

(c) Adjustments to reported capital levels and category—(1) Notice of adjustment by State savings association. A State savings association shall provide the FDIC with written notice that an adjustment to the State savings association’s capital category may have occurred no later than 15 calendar days following the date that any material event has occurred that would cause the State savings association to be placed in a lower capital category from the category assigned to the State savings association for purposes of section 38 and this section on the basis of the State savings association’s most recent report of examination.

(2) Determination by the FDIC to change capital category. After receiving notice pursuant to paragraph (c)(1) of this section, the FDIC shall determine whether to change the capital category of the State savings association and shall notify the State savings association of the FDIC’s determination.
savings association shall be deemed to be:

(1) **Well capitalized** if the State savings association:
   
   (i) Has a total risk-based capital ratio of 10.0 percent or greater; and
   
   (ii) Has a Tier 1 risk-based capital ratio of 6.0 percent or greater; and
   
   (iii) Has a leverage ratio of 5.0 percent or greater; and
   
   (iv) Is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by FDIC under section 8 of the FDI Act, the International Lending Supervision Act of 1983 (12 U.S.C. 3907), the Home Owners’ Loan Act (12 U.S.C. 1464(t)(6)), or section 38 of the FDI Act, or any regulation thereunder, to meet and maintain a specific capital level for any capital measure.

(2) **Adequately capitalized** if the State savings association:
   
   (i) Has a total risk-based capital ratio of 8.0 percent or greater; and
   
   (ii) Has a Tier 1 risk-based capital ratio of 4.0 percent or greater; and
   
   (iii) Has:
       
       (A) A leverage ratio of 4.0 percent or greater; or
       
       (B) A leverage ratio of 3.0 percent or greater if the State savings association is assigned a composite rating of 1, as composite rating is defined in §390.101(c); and
   
   (iv) Does not meet the definition of a well capitalized State savings association.

(3) **Undercapitalized** if the State savings association:
   
   (i) Has a total risk-based capital ratio that is less than 8.0 percent; or
   
   (ii) Has a Tier 1 risk-based capital ratio that is less than 4.0 percent; or
   
   (iii) (A) Except as provided in paragraph (b)(3)(iii)(B) of this section, has a leverage ratio that is less than 4.0 percent; or
   
   (B) Has a leverage ratio that is less than 3.0 percent if the State savings association is assigned a composite rating of 1, as composite rating is defined in §390.101(c).

(4) **Significantly undercapitalized** if the State savings association has:
   
   (i) A total risk-based capital ratio that is less than 6.0 percent; or
   
   (ii) A Tier 1 risk-based capital ratio that is less than 3.0 percent; or
   
   (iii) A leverage ratio that is less than 3.0 percent.

(5) **Critically undercapitalized** if the State savings association has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) **Reclassification based on supervisory criteria other than capital.** The FDIC may reclassify a well capitalized State savings association as adequately capitalized and may require an adequately capitalized or undercapitalized State savings association to comply with certain mandatory or discretionary supervisory actions as if the State savings association were in the next lower capital category (except that the FDIC may not reclassify a significantly undercapitalized State savings association as critically undercapitalized) (each of these actions are hereinafter referred to generally as “reclassifications”) in the following circumstances:

(1) **Unsafe or unsound condition.** The FDIC has determined, after notice and opportunity for hearing pursuant to §390.457(a), that the State savings association is in an unsafe or unsound condition; or

(2) **Unsafe or unsound practice.** The FDIC has determined, after notice and an opportunity for hearing pursuant to §390.457(a) that the State savings association received a less-than-satisfactory rating for any rating category (other than in a rating category specifically addressing capital adequacy) under the Uniform Financial Institutions Rating System,1 or an equivalent rating under a comparable rating system adopted by the FDIC; and has not corrected the conditions that served as the basis for the less than satisfactory rating. Ratings under this paragraph (c)(2) refer to the most recent ratings (as determined either on-site or off-site by the most recent examination) of which the State savings association has been notified in writing.

§ 390.454 Capital restoration plans.

(a) **Schedule for filing plan—(1) In general.** A State savings association shall file a written capital restoration plan with the appropriate Regional Office

1Copies are available at the address specified in §390.108.
within 45 days of the date that the State savings association receives notice or is deemed to have notice that the State savings association is undercapitalized, significantly undercapitalized, or critically undercapitalized, unless the FDIC notifies the State savings association in writing that the plan is to be filed within a different period. An adequately capitalized State savings association that has been required pursuant to §390.453(c) to comply with supervisory actions as if the State savings association were undercapitalized is not required to submit a capital restoration plan solely by virtue of the reclassification.

(2) Additional capital restoration plans. Notwithstanding paragraph (a)(1) of this section, a State savings association that has already submitted and is operating under a capital restoration plan approved under section 38 and this subpart is not required to submit an additional capital restoration plan based on a revised calculation of its capital measures or a reclassification of the institution under §390.453(c) unless the FDIC notifies the State savings association that it must submit a new or revised capital plan. A State savings association that is notified that it must submit a new or revised capital restoration plan shall file the plan in writing with the appropriate Regional Office within 45 days of receiving such notice, unless the FDIC notifies the State savings association in writing that the plan is to be filed within a different period.

(b) Contents of plan. All financial data submitted in connection with a capital restoration plan shall be prepared in accordance with the instructions provided on the TFR, or Consolidated Reports of Condition or Income (“Call Report”), as applicable, unless the FDIC instructs otherwise. The capital restoration plan shall include all of the information required to be filed under section 38(e)(2) of the FDI Act. A State savings association that is required to submit a capital restoration plan as the result of a reclassification of the State savings association pursuant to §390.453(c) shall include a description of the steps the State savings association will take to correct the unsafe or unsound condition or practice. No plan shall be accepted unless it includes any performance guarantee described in section 38(e)(2)(C) of the FDI Act by each company that controls the State savings association.

(c) Review of capital restoration plans. Within 60 days after receiving a capital restoration plan under this subpart, the FDIC shall provide written notice to the State savings association of whether the plan has been approved. The FDIC may extend the time within which notice regarding approval of a plan shall be provided.

(d) Disapproval of capital plan. If a capital restoration plan is not approved by the FDIC, the State savings association shall submit a revised capital restoration plan, when directed to do so, within the time specified by the FDIC. Upon receiving notice that its capital restoration plan has not been approved, any undercapitalized State savings association (as defined in §390.453(b)(3)) shall be subject to all of the provisions of section 38 and this section applicable to significantly undercapitalized institutions. These provisions shall be applicable until such time as a new or revised capital restoration plan submitted by the State savings association has been approved by the FDIC.

(e) Failure to submit a capital restoration plan. A State savings association that is undercapitalized (as defined in §390.453(b)(3)) and that fails to submit a written capital restoration plan within the period provided in this section shall, upon the expiration of that period, be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions.

(f) Failure to implement a capital restoration plan. Any undercapitalized State savings association that fails in any material respect to implement a capital restoration plan shall be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions.

(g) Amendment of capital plan. A State savings association that has filed an approved capital restoration plan may, after prior written notice to and approval by the FDIC, amend the plan to reflect a change in circumstance. Until
such time as a proposed amendment has been approved, the State savings association shall implement the capital restoration plan as approved prior to the proposed amendment.

(h) [Reserved]

(i) Performance guarantee by companies that control a State savings association—

(1) Limitation on liability—(i) Amount limitation. The aggregate liability under the guarantee provided under section 38 and this subpart for all companies that control a specific State savings association that is required to submit a capital restoration plan under this subpart shall be limited to the lesser of:

(A) An amount equal to 5.0 percent of the State savings association’s total assets at the time the State savings association was notified or deemed to have notice that the State savings association was undercapitalized; or

(B) The amount necessary to restore the relevant capital measures of the State savings association to the levels required for the State savings association to be classified as adequately capitalized, as those capital measures and levels are defined at the time that the State savings association initially fails to comply with a capital restoration plan under this subpart.

(ii) Limit on duration. The guarantee and limit of liability under section 38 and this subpart shall expire after the FDIC notifies the State savings association that it has remained adequately capitalized for each of four consecutive calendar quarters. The expiration or fulfillment by a company of a guarantee of a capital restoration plan shall not limit the liability of the company under any guarantee required or provided in connection with any capital restoration plan filed by the same State savings association after expiration of the first guarantee.

(iii) Collection on guarantee. Each company that controls a given State savings association shall be jointly and severally liable for the guarantee for such State savings association as required under section 38 and this subpart, and the FDIC may require and collect payment of the full amount of that guarantee from any or all of the companies issuing the guarantee.

(2) Failure to provide guarantee. In the event that a State savings association that is controlled by any company submits a capital restoration plan that does not contain the guarantee required under section 38(e)(2) of the FDI Act, the State savings association shall, upon submission of the plan, be subject to the provisions of section 38 and this subpart are applicable to State savings associations that have not submitted an acceptable capital restoration plan.

(3) Failure to perform guarantee. Failure by any company that controls a State savings association to perform fully its guarantee of any capital plan shall constitute a material failure to implement the plan for purposes of section 38(f) of the FDI Act. Upon such failure, the State savings association shall be subject to the provisions of section 38 and this subpart that are applicable to State savings associations that have failed in a material respect to implement a capital restoration plan.

§ 390.455 Mandatory and discretionary supervisory actions under section 38.

(a) Mandatory supervisory actions—

(1) Provisions applicable to all State savings associations. All State savings associations are subject to the restrictions contained in section 38(d) of the FDI Act on payment of capital distributions and management fees.

(2) Provisions applicable to undercapitalized, significantly undercapitalized, and critically undercapitalized State savings associations. Immediately upon receiving notice or being deemed to have notice, as provided in §390.452 or §390.454, that the State savings association is undercapitalized, significantly undercapitalized, or critically undercapitalized, the State savings association shall become subject to the provisions of section 38 of the FDI Act:

(i) Restricting payment of capital distributions and management fees (section 38(d));

(ii) Requiring that the FDIC monitor the condition of the State savings association (section 38(e)(1));
(iii) Requiring submission of a capital restoration plan within the schedule established in this subpart (section 38(e)(2));

(iv) Restricting the growth of the State savings association’s assets (section 38(e)(3)); and

(v) Requiring prior approval of certain expansion proposals (section 38(e)(4)).

(3) Additional provisions applicable to significantly undercapitalized, and critically undercapitalized State savings associations. In addition to the provisions of section 38 of the FDI Act described in paragraph (a)(2) of this section, immediately upon receiving notice or being deemed to have notice, as provided in §390.452 or §390.454, that the State savings association is significantly undercapitalized, or critically undercapitalized, or that the State savings association is subject to the provisions applicable to institutions that are significantly undercapitalized because the State savings association failed to submit or implement in any material respect an acceptable capital restoration plan, the State savings association shall become subject to the provisions of section 38 of the FDI Act that restrict compensation paid to senior executive officers of the institution (section 38(f)(4)).

(4) Additional provisions applicable to critically undercapitalized State savings associations. In addition to the provisions of section 38 of the FDI Act described in paragraphs (a)(2) and (a)(3) of this section, immediately upon receiving notice or being deemed to have notice, as provided in §390.452 that the State savings association is critically undercapitalized, the State savings association shall become subject to the provisions of section 38 of the FDI Act:

(i) Restricting the activities of the State savings association (section 38(h)(1)); and

(ii) Restricting payments on subordinated debt of the State savings association (section 38(h)(2)).

(b) Discretionary supervisory actions. In taking any action under section 38 that is within the FDIC’s discretion to take in connection with: A State savings association that is deemed to be undercapitalized, significantly undercapitalized or critically undercapitalized, or has been reclassified as undercapitalized, or significantly undercapitalized; an officer or director of such State savings association; or a company that controls such State savings association, the FDIC shall follow the procedures for issuing directives under §§390.456 and 390.458 unless otherwise provided in section 38 or this subpart.

§ 390.456 Directives to take prompt corrective action.

(a) Notice of intent to issue a directive—

(1) In general. The FDIC shall provide an undercapitalized, significantly undercapitalized, or critically undercapitalized State savings association or, where appropriate, any company that controls the State savings association, prior written notice of the FDIC’s intention to issue a directive requiring such State savings association or company to take actions or to follow proscriptions described in section 38 that are within the FDIC’s discretion to require or impose under section 38 of the FDI Act, including sections 38(e)(5), (f)(2), (f)(3), or (f)(5). The State savings association or company that is subject to such an immediately effective directive may submit a written appeal of the directive to the FDIC. Such an appeal must be received by the FDIC within 14 calendar days of the issuance of the directive, unless the FDIC permits a longer period. The FDIC shall consider any such appeal, if filed in a timely matter, within 60 days of receiving the appeal. During such period of
§ 390.457 Procedures for reclassifying a State savings association based on criteria other than capital.

(a) Reclassification based on unsafe or unsound condition or practice—(1) Issuance of notice of proposed reclassification—(1) Grounds for reclassification. (A) Pursuant to §390.453(c), the FDIC may reclassify a well capitalized State savings association as adequately capitalized or subject an adequately capitalized or undercapitalized institution to the supervisory actions applicable to the next lower capital category if:

(1) The FDIC determines that the State savings association is in unsafe or unsound condition; or

(2) The FDIC deems the State savings association to be engaged in an unsafe or unsound practice and not to have corrected the deficiency.

(B) Any action pursuant to this paragraph (a)(1)(i) shall hereinafter be referred to as “reclassification.”

(ii) Prior notice to institution. Prior to taking action pursuant to §390.453(c)(1), the FDIC shall issue and serve on the State savings association a written notice of the FDIC’s intention to reclassify the State savings association.

(2) Contents of notice. A notice of intention to reclassify a State savings association based on unsafe or unsound condition shall include:

[Remaining text continues as per the original document]
(i) A statement of the State savings association’s capital measures and capital levels and the category to which the State savings association would be reclassified;

(ii) The reasons for reclassification of the State savings association;

(iii) The date by which the State savings association subject to the notice of reclassification may file with the FDIC a written appeal of the proposed reclassification and a request for a hearing, which shall be at least 14 calendar days from the date of service of the notice unless the FDIC determines that a shorter period is appropriate in light of the financial condition of the State savings association or other relevant circumstances.

(3) Response to notice of proposed reclassification. A State savings association may file a written response to a notice of proposed reclassification within the time period set by the FDIC. The response should include:

(i) An explanation of why the State savings association is not in unsafe or unsound condition or otherwise should not be reclassified; and

(ii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the State savings association or company regarding the reclassification.

(4) Failure to file response. Failure by a State savings association to file, within the specified time period, a written response with the FDIC to a notice of proposed reclassification shall constitute a waiver of the opportunity to respond and shall constitute consent to the reclassification.

(5) Request for hearing and presentation of oral testimony or witnesses. The response may include a request for an informal hearing before the FDIC or its designee under this section. If the State savings association desires to present oral testimony or witnesses at the hearing, the State savings association shall include a request to do so with the request for an informal hearing. A request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing, and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right to present oral testimony or witnesses.

(6) Order for informal hearing. Upon receipt of a timely written request that includes a request for a hearing, the FDIC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the FDIC allows further time at the request of the State savings association. The hearing shall be held in Washington, DC or at such other place as may be designated by the FDIC, before a presiding officer(s) designated by the FDIC to conduct the hearing.

(7) Hearing procedures. (i) The State savings association shall have the right to introduce relevant written materials and to present oral argument at the hearing. The State savings association may introduce oral testimony and present witnesses only if expressly authorized by the FDIC or the presiding officer(s). Neither the provisions of the Administrative Procedure Act (5 U.S.C. 554–557) governing adjudications required by statute to be determined on the record nor subpart C apply to an informal hearing under this section unless the FDIC orders that such procedures shall apply.

(ii) The informal hearing shall be recorded and a transcript furnished to the State savings association upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(iii) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(8) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the FDIC on the reclassification.
§ 390.458  

(9) **Time for decision.** Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the FDIC will decide whether to reclassify the State savings association and notify the State savings association of the FDIC’s decision.

(b) **Request for rescission of reclassification.** Any State savings association that has been reclassified under this section, may, upon a change in circumstances, request in writing that the FDIC reconsider the reclassification, and may propose that the reclassification be rescinded and that any directives issued in connection with the reclassification be modified, rescinded, or removed. Unless otherwise ordered by the FDIC, the State savings association shall remain subject to the reclassification and to any directives issued in connection with that reclassification while such request is pending before the FDIC.

§ 390.458  **Order to dismiss a director or senior executive officer.**

(a) **Service of notice.** When the FDIC issues and serves a directive on a State savings association pursuant to §390.456 requiring the State savings association to dismiss any director or senior executive officer under section 38(f)(2)(F)(ii) of the FDI Act, the FDIC shall also serve a copy of the directive, or the relevant portions of the directive where appropriate, upon the person to be dismissed.

(b) **Response to directive—(1) Request for reinstatement.** A director or senior executive officer who has been served with a directive under paragraph (a) of this section (Respondent) may file a written request for reinstatement. The request for reinstatement shall be filed within 10 calendar days of the receipt of the directive by the Respondent, unless further time is allowed by the FDIC at the request of the Respondent.

(2) **Contents of request: informal hearing.** The request for reinstatement should include reasons why the Respondent should be reinstated, and may include a request for an informal hearing before the FDIC or its designee under this section. If the Respondent desires to present oral testimony or witnesses at the hearing, the Respondent shall include a request to do so with the request for an informal hearing. The request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right or opportunity to present oral testimony or witnesses.

(3) **Effective date.** Unless otherwise ordered by the FDIC, the dismissal shall remain in effect while a request for reinstatement is pending.

(c) **Order for informal hearing.** Upon receipt of a timely written request for an informal hearing on the portion of a directive requiring a State savings association to dismiss from office any director or senior executive officer, the FDIC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the Respondent requests a later date. The hearing shall be held in Washington, DC, or at such other place as may be designated by the FDIC, before a presiding officer(s) designated by the FDIC to conduct the hearing.

(d) **Hearing procedures.** (1) A Respondent may appear at the hearing personally or through counsel. A Respondent shall have the right to introduce relevant written materials and to present oral argument. A Respondent may introduce oral testimony and present witnesses only if expressly authorized by the FDIC or the presiding officer(s). Neither the provisions of the Administrative Procedure Act governing adjudications required by statute to be determined on the record nor subpart C apply to an informal hearing under this section unless the FDIC orders that such procedures shall apply.

(2) The informal hearing shall be recorded and a transcript furnished to the Respondent upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.
(3) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(c) Standard for review. A Respondent shall bear the burden of demonstrating that his or her continued employment by or service with the State savings association would materially strengthen the State savings association’s ability:

(1) To become adequately capitalized, to the extent that the directive was issued as a result of the State savings association’s capital level or failure to submit or implement a capital restoration plan; and

(2) To correct the unsafe or unsound condition or unsafe or unsound practice, to the extent that the directive was issued as a result of classification of the State savings association based on supervisory criteria other than capital, pursuant to section 38(g) of the FDI Act.

(f) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the FDIC concerning the Respondent’s request for reinstatement with the State savings association.

(g) Time for decision. Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing has been requested, the FDIC shall grant or deny the request for reinstatement and notify the Respondent of the FDIC’s decision. If the FDIC denies the request for reinstatement, the FDIC shall set forth in the notification the reasons for the FDIC’s action.

§ 390.459 Enforcement of directives.

(a) Judicial remedies. Whenever a State savings association or company that controls a State savings association fails to comply with a directive issued under section 38, the FDIC may seek enforcement of the directive in the appropriate United States district court pursuant to section 8(i)(1) of the FDI Act.

(b) Administrative remedies—(1) Failure to comply with directive. Pursuant to section 8(i)(2)(A) of the FDI Act, the FDIC may assess a civil money penalty against any State savings association or company that controls a State savings association that violates or otherwise fails to comply with any final directive issued under section 38 and against any institution-affiliated party who participates in such violation or noncompliance.

(2) Failure to implement capital restoration plan. The failure of a State savings association to implement a capital restoration plan required under section 38, or this subpart, or the failure of a company having control of a State savings association to fulfill a guarantee of a capital restoration plan made pursuant to section 38(e)(2) of the FDI Act shall subject the State savings association or company to the assessment of civil money penalties pursuant to section 8(i)(2)(A) of the FDI Act.

(c) Other enforcement action. In addition to the actions described in paragraphs (a) and (b) of this section, the FDIC may seek enforcement of the provisions of section 38 or this subpart through any other judicial or administrative proceeding authorized by law.

Subpart Z—Capital

§ 390.460 Scope.

(a) This subpart prescribes the minimum regulatory capital requirements for State savings associations. The subpart applies to State savings associations, except as described in paragraph (b) of this section.

(b)(1) A State savings association that uses appendix A must comply with the minimum qualifying criteria for internal risk measurement and management processes for calculating risk-based capital requirements, utilize the methodologies for calculating risk-based capital requirements, and make the required disclosures described in that appendix.

(2) Sections 390.461 through 390.471 do not apply to the computation of risk-based capital requirements by a State savings association that uses appendix A of this subpart. However, these State savings associations:

(1) Must compute the components of capital under §390.465, subject to the
§ 390.461 Definitions.

For the purposes of this subpart:

Adjusted total assets. The term adjusted total assets means:

(1) A State savings association’s total assets as that term is defined in this section;

(2) Plus

(i) The prorated assets of any includable subsidiary in which the State savings association has a minority ownership interest that is not consolidated under generally accepted accounting principles; and

(ii) The remaining goodwill (FSLIC Capital Contributions) resulting from prior regulatory accounting practices as provided in the definition of qualifying supervisory goodwill in this section;

(3) Minus

(i) Assets not included in the applicable capital standard except for those subject to paragraphs (3)(ii) and (3)(iii) of this definition;

(ii) Investments in any includable subsidiary in which a State savings association has a minority interest;

(iii) Investments in any subsidiary subject to consolidation under paragraph (3)(ii) of this definition; and

(iv) For purposes of determining core capital, qualifying supervisory goodwill.

Asset-backed commercial paper program. The term asset-backed commercial paper program (ABCP program) means a program that primarily issues commercial paper that has received a credit rating from an NRSRO and that is backed by assets or other exposures held in a bankruptcy-remote special purpose entity. The term sponsor of an ABCP program means a State savings association that:

(1) Establishes an ABCP program;

(2) Approves the sellers permitted to participate in an ABCP program;

(3) Approves the asset pools to be purchased by an ABCP program; or

(4) Administers the ABCP program by monitoring the assets, arranging for debt placement, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Cash items in the process of collection. The term cash items in the process of collection means checks or drafts in the process of collection that are drawn on another depository institution, including a central bank, and that are payable immediately upon presentation; U.S. Government checks that are drawn on the United States Treasury or any other U.S. Government or Government-sponsored agency and that are payable immediately upon presentation; broker’s security drafts and commodity or bill-of-lading drafts payable immediately upon presentation; and unposted debits.

Commitment. The term commitment means any arrangement that obligates a State savings association to:

(1) Purchase loans or securities;

(2) Extend credit in the form of loans or leases, participations in loans or leases, overdraft facilities, revolving credit facilities, home equity lines of credit, eligible ABCP liquidity facilities, or similar transactions.

Common stockholders’ equity. The term common stockholders’ equity means common stock, common stock surplus, retained earnings, and adjustments for the cumulative effect of foreign currency translation, less net unrealized losses on available-for-sale equity securities with readily determinable fair values.

Conditional guarantee. The term conditional guarantee means a contingent obligation of the United States Government or its agencies, the validity of which to the beneficiary is dependent upon some affirmative action—e.g., servicing requirements—on the part of
the beneficiary of the guarantee or a third party.

Credit derivative. The term credit derivative means a contract that allows one party (the protection purchaser) to transfer the credit risk of an asset or off-balance sheet credit exposure to another party (the protection provider). The value of a credit derivative is dependent, at least in part, on the credit performance of a “referenced asset.”

Credit-enhancing interest-only strip. (1) The term credit-enhancing interest-only strip means an on-balance sheet asset that, in form or in substance:
   (i) Represents the contractual right to receive some or all of the interest due on transferred assets; and
   (ii) Exposes the State savings association to credit risk directly or indirectly associated with the transferred assets that exceeds its pro rata share of the State savings association’s claim on the assets whether through subordination provisions or other credit enhancement techniques.

(2) The FDIC reserves the right to identify other cash flows or related interests as a credit-enhancing interest-only strip. In determining whether a particular interest cash flow functions as a credit-enhancing interest-only strip, the FDIC will consider the economic substance of the transaction.

Credit-enhancing representations and warranties. (1) The term credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of assets (including loan servicing assets) and that obligate a State savings association to protect investors from losses arising from credit risk in the assets transferred or loans serviced.

(2) Credit-enhancing representations and warranties include promises to protect a party from losses resulting from the default or nonperformance of another party or from an insufficiency in the value of the collateral.

(3) Credit-enhancing representations and warranties do not include:
   (i) Early-default clauses and similar warranties that permit the return of, or premium refund clauses covering qualifying mortgage loans for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within one year of the date of the transfer;
   (ii) Premium refund clauses covering assets guaranteed, in whole or in part, by the United States government, a United States government agency, or a United States government-sponsored enterprise, provided the premium refund clause is for a period not to exceed 120 days from the date of transfer; or
   (iii) Warranties that permit the return of assets in instances of fraud, misrepresentation or incomplete documentation.

Depository institution. The term domestic depository institution means a financial institution that engages in the business of banking; that is recognized as a bank by the bank supervisory or monetary authorities of the country of its incorporation and the country of its principal banking operations; that receives deposits to a substantial extent in the regular course of business; and that has the power to accept demand deposits. In the United States, this definition encompasses all federally insured offices of commercial banks, mutual and stock savings banks, savings or building and loan associations (stock and mutual), cooperative banks, credit unions, and international banking facilities of domestic depository institutions. Bank holding companies and savings and loan holding companies are excluded from this definition. For the purposes of assigning risk weights, the differentiation between OECD depository institutions and non-OECD depository institutions is based on the country of incorporation. Claims on branches and agencies of foreign banks located in the United States are to be categorized on the basis of the parent bank’s country of incorporation.

Direct credit substitute. The term direct credit substitute means an arrangement in which a State savings association assumes, in form or in substance, credit risk associated with an on- or off-balance sheet asset or exposure that was not previously owned by the State savings association (third-party asset) and the risk assumed by the State savings association exceeds the pro rata share of the State savings association’s interest in the third-party asset. If a
State savings association has no claim on the third-party asset, then the State savings association’s assumption of any credit risk is a direct credit substitute. Direct credit substitutes include:

(1) Financial standby letters of credit that support financial claims on a third party that exceed a State savings association’s pro rata share in the financial claim;

(2) Guarantees, surety arrangements, credit derivatives, and similar instruments backing financial claims that exceed a State savings association’s pro rata share in the financial claim;

(3) Purchased subordinated interests that absorb more than their pro rata share of losses from the underlying assets;

(4) Credit derivative contracts under which the State savings association assumes more than its pro rata share of credit risk on a third-party asset or exposure;

(5) Loans or lines of credit that provide credit enhancement for the financial obligations of a third party;

(6) Purchased loan servicing assets if the servicer is responsible for credit losses or if the servicer makes or assumes credit-enhancing representations and warranties with respect to the loans serviced. Servicer cash advances as defined in this section are not direct credit substitutes;

(7) Clean-up calls on third-party assets. However, clean-up calls that are 10 percent or less of the original pool balance and that are exercisable at the option of the State savings association are not direct credit substitutes; and

(8) Liquidity facilities that provide support to asset-backed commercial paper (other than eligible ABCP liquidity facilities).

Eligible ABCP liquidity facility. The term eligible ABCP liquidity facility means a liquidity facility that supports asset-backed commercial paper, in form or in substance, and that meets the following criteria:

1. At the time of the draw, the liquidity facility must be subject to an asset quality test that precludes funding against assets that are 90 days or more past due or in default; and

2. If the assets that the liquidity facility is required to fund against are assets or exposures that have received a credit rating by a NRSRO at the time the inception of the facility, the facility can be used to fund only those assets or exposures that are rated investment grade by an NRSRO at the time of funding; or

Eligible State savings association. (1) The term eligible State savings association means a State savings association with respect to which the FDIC has determined, on the basis of information available at the time, that:

(i) The State savings association’s management appears to be competent;

(ii) The State savings association, as certified by its Board of Directors, is in substantial compliance with all applicable statutes, regulations, orders and written agreements and directives; and

(iii) The State savings association’s management, as certified by its Board of Directors, has not engaged in insider dealing, speculative practices, or any other activities that have or may jeopardize the association’s safety and soundness or contributed to impairing the association’s capital.

(2) State savings associations, for purposes of this paragraph, will be deemed to be eligible unless the FDIC makes a determination otherwise or notifies the State savings association of its intent to conduct either an informal or formal examination to determine eligibility and provides written notification thereof to the State savings association.

Equity investments. (1) The term equity investments includes investments in equity securities and real property that would be considered an equity investment under generally accepted accounting principles.

2. The term equity securities means any:

(A) Stock, certificate of interest of participation in any profit-sharing agreement, collateral trust certificate or subscription, preorganization certificate or subscription, transferable
share, investment contract, or voting trust certificate; or

(B) In general, any interest or instrument commonly known as an equity security; or

(C) Loans having profit sharing features which generally accepted accounting principles would reclassify as equity securities; or

(D) Any security immediately convertible at the option of the holder without payment of substantial additional consideration into such a security; or

(E) Any security carrying any warrant or right to subscribe to or purchase such a security; or

(F) Any certificate of interest or participation in, temporary or Interim certificate for, or receipt for any of the foregoing or any partnership interest; or

(G) Investments in equity securities and loans or advances to and guarantees issued on behalf of partnerships or joint ventures in which a State savings association holds an interest in real property under generally accepted accounting principles.

(ii) The term equity securities does not include investments in a subsidiary as that term is defined in this section, equity investments that are permissible for national banks, ownership interests in pools of assets that are risk-weighted in accordance with §390.466(a)(1)(vi), or the stock of Federal Home Loan Banks or Federal Reserve Banks.

(3) For purposes of this subpart, the term equity investments in real property does not include interests in real property that are primarily used or intended to be used by the State savings association, its subsidiaries, or its affiliates as offices or related facilities for the conduct of its business.

(4) In addition, for purposes of this part, the term equity investments in real property does not include interests in real property that are acquired in satisfaction of a debt previously contracted in good faith or acquired in sales under judgments, decrees, or mortgages held by the State savings association, provided that the property is not intended to be held for real estate investment purposes but is expected to be disposed of within five years or a longer period approved by the FDIC.

Exchange rate contracts. The term exchange rate contracts includes cross-currency interest rate swaps; forward foreign exchange rate contracts; currency options purchased; and any similar instrument that, in the opinion of the FDIC, may give rise to similar risks.

Face amount. The term face amount means the notational principal, or face value, amount of an off-balance sheet item or the amortized cost of an on-balance sheet asset.

Financial asset. The term financial asset means cash or other monetary instrument, evidence of debt, evidence of an ownership interest in an entity, or a contract that conveys a right to receive or exchange cash or another financial instrument from another party.

Financial standby letter of credit. The term financial standby letter of credit means a letter of credit or similar arrangement that represents an irrevocable obligation to a third-party beneficiary:

1. To repay money borrowed by, or advanced to, or for the account of, a second party (the account party); or

2. To make payment on behalf of the account party, in the event that the account party fails to fulfill its obligation to the beneficiary.

Includable subsidiary. The term includable subsidiary means a subsidiary of a State savings association that is:

1. Engaged solely in activities not impermissible for a national bank;

2. Engaged in activities not permissible for a national bank, but only if acting solely as agent for its customers and such agency position is clearly documented in the State savings association’s files;

3. Engaged solely in mortgage-banking activities;

4. (i) Itself an insured depository institution or a company the sole investment of which is an insured depository institution, and

(ii) Was acquired by the parent State savings association prior to May 1, 1989; or

5. A subsidiary of any Federal savings association existing as a Federal savings association on August 9, 1989 that
(i) Was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under State law, or
(ii) Acquired its principal assets from an association that was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under State law.

Intangible assets. The term **intangible assets** means assets considered to be intangible assets under generally accepted accounting principles. These assets include, but are not limited to, goodwill, core deposit premiums, purchased credit card relationships, favorable leaseholds, and servicing assets (mortgage and non-mortgage). Interest-only strips receivable and other nonsecurity financial instruments are not intangible assets under this definition.

Interest-rate contracts. The term **interest-rate contracts** includes single currency interest-rate swaps; basis swaps; forward rate agreements; interest-rate options purchased; forward deposits accepted; and any other instrument that, in the opinion of the FDIC, may give rise to similar risks, including when-issued securities.

Liquidity facility. The term **liquidity facility** means a legally binding commitment to provide liquidity support to asset-backed commercial paper by lending to, or purchasing assets from any structure, program or conduit in the event that funds are required to repay maturing asset-backed commercial paper.

Nationally recognized statistical rating organization (NRSRO). The term **nationally recognized statistical rating organization** means an entity recognized by the Division of Market Regulation of the Securities and Exchange Commission (Commission) as a nationally recognized statistical rating organization for various purposes, including the Commission’s uniform net capital requirements for brokers and dealers.

OECD-based country. The term **OECD-based country** means a member of that grouping of countries that are full members of the Organization for Economic Cooperation and Development (OECD) plus countries that have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the IMF’s General Arrangements to Borrow. This term excludes any country that has rescheduled its external sovereign debt within the previous five years. A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country’s inability or unwillingness to meet its external debt service obligations, but generally would not include renegotiations of debt in the normal course of business, such as a renegotiation to allow the borrower to take advantage of a decline in interest rates or other change in market conditions.

Original maturity. The term **original maturity** means, with respect to a commitment, the earliest date after a commitment is made on which the commitment is scheduled to expire (i.e., it will reach its stated maturity and cease to be binding on either party). Provided, That either:

(i) The commitment is not subject to extension or renewal and will actually expire on its stated expiration date; or
(ii) If the commitment is subject to extension or renewal beyond its stated expiration date, the stated expiration date will be deemed the original maturity only if the extension or renewal must be based upon terms and conditions independently negotiated in good faith with the customer at the time of the extension or renewal and upon a new, bona fide credit analysis utilizing current information on financial condition and trends.

Performance-based standby letter of credit. The term **performance-based standby letter of credit** means any letter of credit, or similar arrangement, however named or described, which represents an irrevocable obligation to the beneficiary on the part of the issuer to make payment on account of any default by a third party in the performance of a nonfinancial or commercial
obligation. Such letters of credit include arrangements backing subcontractors’ and suppliers’ performance, labor and materials contracts, and construction bids.

Perpetual preferred stock. The term perpetual preferred stock means preferred stock without a fixed maturity date that cannot be redeemed at the option of the holder, and that has no other provisions that will require future redemption of the issue. For purposes of these instruments, preferred stock that can be redeemed at the option of the holder is deemed to have an “original maturity” of the earliest possible date on which it may be so redeemed. Cumulative perpetual preferred stock is preferred stock where the dividends accumulate from one period to the next. Noncumulative perpetual preferred stock is preferred stock where the unpaid dividends are not carried over to subsequent dividend periods.

Problem institution. The term problem institution means a State savings association that, at the time of its acquisition, merger, purchase of assets or other business combination with or by another State savings association:

(1) Was subject to special regulatory controls by its primary Federal or state regulatory authority;

(2) Posed particular supervisory concerns to its primary Federal or state regulatory authority; or

(3) Failed to meet its regulatory capital requirement immediately before the transaction.

Prorated assets. The term prorated assets means the total assets (as determined in the most recently available GAAP report but in no event more than one year old) of a subsidiary (including those subsidiaries where the State savings association has a minority interest) multiplied by the State savings association’s percentage of ownership of that subsidiary.

Qualifying mortgage loan. (1) The term qualifying mortgage loan means a loan that:

(i) Is fully secured by a first lien on a one-to four-family residential property;

(ii) Is underwritten in accordance with prudent underwriting standards, including standards relating the ratio of the loan amount to the value of the property (LTV ratio). See Appendix to 12 CFR 390.265. A nonqualifying mortgage loan that is paid down to an appropriate LTV ratio (calculated using value at origination) may become a qualifying loan if it meets all other requirements of this definition;

(iii) Maintains an appropriate LTV ratio based on the amortized principal balance of the loan; and

(iv) Is performing and is not more than 90 days past due.

(2) If a State savings association holds the first and junior lien(s) on a residential property and no other party holds an intervening lien, the transaction is treated as a single loan secured by a first lien for the purposes of determining the LTV ratio and the appropriate risk weight under §390.466(a).

(3) A loan to an individual borrower for the construction of the borrower’s home may be included as a qualifying mortgage loan.

(4) A loan that meets the requirements of this section prior to modification on a permanent or trial basis under the U.S. Department of Treasury’s Home Affordable Mortgage Program may be included as a qualifying mortgage loan, so long as the loan is not 90 days or more past due.

Qualifying multifamily mortgage loan. (1) The term qualifying multifamily mortgage loan means a loan secured by a first lien on multifamily residential properties consisting of 5 or more dwelling units, provided that:

(i) The amortization of principal and interest occurs over a period of not more than 30 years;

(ii) The original minimum maturity for repayment of principal on the loan is not less than seven years;

(iii) When considering the loan for placement in a lower risk-weight category, all principal and interest payments have been made on a timely basis in accordance with its terms for the preceding year;

(iv) The loan is performing and not 90 days or more past due;

(v) The loan is made by the State savings association in accordance with prudent underwriting standards; and

(vi) If the interest rate on the loan does not change over the term of the loan:
(A) The current loan balance amount does not exceed 80 percent of the value of the property securing the loan; and

(B) For the property’s most recent fiscal year, the ratio of annual net operating income generated by the property (before payment of any debt service on the loan) to annual debt service on the loan is not less than 120 percent, or in the case of cooperative or other not-for-profit housing projects, the property generates sufficient cash flows to provide comparable protection to the institution; or

(vii) If the interest rate on the loan changes over the term of the loan:

(A) The current loan balance amount does not exceed 75 percent of the value of the property securing the loan; and

(B) For the property’s most recent fiscal year, the ratio of annual net operating income generated by the property (before payment of any debt service on the loan) to annual debt service on the loan is not less than 115 percent, or in the case of cooperative or other not-for-profit housing projects, the property generates sufficient cash flows to provide comparable protection to the institution.

(2) The term qualifying multifamily mortgage loan also includes a multifamily mortgage loan that on March 18, 1994 was a first mortgage loan on an existing property consisting of 5–36 dwelling units with an initial loan-to-value ratio of not more than 80% where an average annual occupancy rate of 80% or more of total units had existed for at least one year, and continues to meet these criteria.

(3) For purposes of paragraphs (1)(vi) and (vii) of this definition, the term value of the property means, at origination of a loan to purchase a multifamily property: the lower of the purchase price or the amount of the initial appraisal, or if appropriate, the initial evaluation. In cases not involving the purchase of a multifamily loan, the value of the property is determined by the most current appraisal, or if appropriate, the most current evaluation.

(4) In cases where a borrower refinances a loan on an existing property, as an alternative to paragraphs (1)(iii), (vi), and (vii) of this definition:

(i) All principal and interest payments on the loan being refinanced have been made on a timely basis in accordance with the terms of that loan for the preceding year; and

(ii) The net income on the property for the preceding year would support timely principal and interest payments on the new loan in accordance with the applicable debt service requirement.

Qualifying residential construction loan. (1) The term qualifying residential construction loan, also referred to as a residential bridge loan, means a loan made in accordance with sound lending principles satisfying the following criteria:

(i) The builder must have substantial project equity in the home construction project;

(ii) The residence being constructed must be a 1–4 family residence sold to a home purchaser;

(iii) The lending State savings association must obtain sufficient documentation from a permanent lender (which may be the construction lender) demonstrating that:

(A) The home buyer intends to purchase the residence; and

(B) Has the ability to obtain a permanent qualifying mortgage loan sufficient to purchase the residence;

(iv) The home purchaser must have made a substantial earnest money deposit;

(v) The construction loan must not exceed 80 percent of the sales price of the residence;

(vi) The construction loan must be secured by a first lien on the lot, residence under construction, and other improvements;

(vii) The lending State savings association must retain sufficient undisbursed loan funds throughout the construction period to ensure project completion;

(viii) The builder must incur a significant percentage of direct costs (i.e., the actual costs of land, labor, and material) before any drawdown on the loan;

(ix) If at any time during the life of the construction loan any of the criteria of this rule are no longer satisfied, the State savings association must immediately recategorize the loan at a 100 percent risk-weight and must accurately report the loan in the

§ 390.461
State savings association's next quarterly Thrift Financial Report or Consolidated Reports of Condition or Income ("Call Report"), as applicable;

(x) The home purchaser must intend that the home will be owner-occupied;

(xi) The home purchaser(s) must be an individual(s), not a partnership, joint venture, trust corporation, or any other entity (including an entity acting as a sole proprietorship) that is purchasing the home(s) for speculative purposes; and

(xii) The loan must be performing and not more than 90 days past due.

(2) The documentation for each loan and home sale must be sufficient to demonstrate compliance with the criteria in paragraph (1) of this definition. The FDIC retains the discretion to determine that any loans not meeting sound lending principles must be placed in a higher risk-weight category. The FDIC also reserves the discretion to modify these criteria on a case-by-case basis provided that any such modifications are not inconsistent with the safety and soundness objectives of this definition.

Qualifying securities firm. The term qualifying securities firm means:

(1) A securities firm incorporated in the United States that is a broker-dealer that is registered with the Securities and Exchange Commission (SEC) and that complies with the SEC’s net capital regulations (17 CFR 240.15c3(1)); and

(2) A securities firm incorporated in any other OECD-based country, if the State savings association is able to demonstrate that the securities firm is subject to consolidated supervision and regulation (covering its subsidiaries, but not necessarily its parent organization) comparable to that imposed on depository institutions in OECD countries. Such regulation must include risk-based capital requirements comparable to those imposed on depository institutions under the Accord on International Convergence of Capital Measurement and Capital Standards (1988, as amended in 1998).

Reciprocal holdings of depository institution instruments. The term reciprocal holdings of depository institution instruments means cross-holdings or other formal or informal arrangements in which two or more depository institutions swap, exchange, or otherwise agree to hold each other’s capital instruments. This definition does not include holdings of capital instruments issued by other depository institutions that were taken in satisfaction of debts previously contracted, provided that the reporting State savings association has not held such instruments for more than five years or a longer period approved by the FDIC.

Recourse. The term recourse means a State savings association’s retention, in form or in substance, of any credit risk directly or indirectly associated with an asset it has sold (in accordance with generally accepted accounting principles) that exceeds a pro rata share of that State savings association’s claim on the asset. If a State savings association has no claim on an asset it has sold, then the retention of any credit risk is recourse. A recourse obligation typically arises when a State savings association transfers assets in a sale and retains an explicit obligation to repurchase assets or to absorb losses due to a default on the payment of principal or interest or any other deficiency in the performance of the underlying obligor or some other party. Recourse may also exist implicitly if a State savings association provides credit enhancement beyond any contractual obligation to support assets it has sold. Recourse obligations include:

(1) Credit-enhancing representations and warranties made on transferred assets;

(2) Loan servicing assets retained pursuant to an agreement under which the State savings association will be responsible for losses associated with the loans serviced. Servicer cash advances as defined in this section are not recourse obligations;

(3) Retained subordinated interests that absorb more than their pro rata share of losses from the underlying assets;

(4) Assets sold under an agreement to repurchase, if the assets are not already included on the balance sheet;

(5) Loan strips sold without contractual recourse where the maturity of the transferred portion of the loan is
(i) Exposes a State savings association to credit risk directly or indirectly associated with the transferred asset that exceeds a pro rata share of that State savings association’s claim on the asset, whether through subordination provisions or other credit enhancement techniques.

(2) Residual interests generally include credit-enhancing interest-only strips, spread accounts, cash collateral accounts, retained subordinated interests (and other forms of overcollateralization), and similar assets that function as a credit enhancement.

(3) Residual interests further include those exposures that, in substance, cause the State savings association to retain the credit risk of an asset or exposure that had qualified as a residual interest before it was sold.

(4) Residual interests generally do not include assets purchased from a third party. However, a credit-enhancing interest-only strip that is acquired in any asset transfer is a residual interest.

Risk participation. The term risk participation means a participation in which the originating party remains liable to the beneficiary for the full amount of an obligation (e.g., a direct credit substitute), notwithstanding that another party has acquired a participation in that obligation.

Risk-weighted assets. The term risk-weighted assets means the sum total of risk-weighted on-balance sheet assets and the total of risk-weighted off-balance sheet credit equivalent amounts. These assets are calculated in accordance with §390.466.

Securitization. The term securitization means the pooling and repackaging by a special purpose entity of assets or other credit exposures that can be sold to investors. Securitization includes transactions that create stratified credit risk positions whose performance is dependent upon an underlying pool of credit exposures, including loans and commitments.

Servicer cash advance. The term servicer cash advance means funds that a residential mortgage servicer advances to ensure an uninterrupted flow of payments, including advances made shorter than the maturity of the commitment under which the loan is drawn;

(6) Credit derivatives that absorb more than the State savings association’s pro rata share of losses from the transferred assets;

(7) Clean-up calls on assets the State savings association has sold. However, clean-up calls that are 10 percent or less of the original pool balance and that are exercisable at the option of the State savings association are not recourse arrangements; and

(8) Liquidity facilities that provide support to asset-backed commercial paper (other than eligible ABCP liquidity facilities).

Replacement cost. The term replacement cost means, with respect to interest rate and exchange-rate contracts, the loss that would be incurred in the event of a counterparty default, as measured by the net cost of replacing the contract at the current market value. If default would result in a theoretical profit, the replacement value is considered to be zero. This mark-to-market process must incorporate changes in both interest rates and counterparty credit quality.

Residential properties. The term residential properties means houses, condominiums, cooperative units, and manufactured homes. This definition does not include boats or motor homes, even if used as a primary residence, or timeshare properties.

Residual characteristics. The term residual characteristics means interests similar to a multi-class pay-through obligation representing the excess cash flow generated from mortgage collateral over the amount required for the issue’s debt service and ongoing administrative expenses or interests presenting similar degrees of interest-rate/prepayment risk and principal loss risks.

Residual interest. (1) The term residual interest means any on-balance sheet asset that:

(i) Represents an interest (including a beneficial interest) created by a transfer that qualifies as a sale (in accordance with generally accepted accounting principles) of financial assets, whether through a securitization or otherwise; and

(ii) Exposes a State savings association to credit risk directly or indirectly associated with the transferred asset that exceeds a pro rata share of that State savings association’s claim on the asset, whether through subordination provisions or other credit enhancement techniques.
The FDIC reserves the right to review a State savings association’s investment in a subsidiary on a case-by-case basis. If the FDIC determines that such investment is more appropriately treated as an equity security or an ownership interest in a subsidiary, it will make such determination regardless of the percentage of ownership held by the State savings association.

1 Tier 1 capital. The term Tier 1 capital means core capital as computed in accordance with §390.465(a).

2 Tier 2 capital. The term Tier 2 capital means supplementary capital as computed in accordance with §390.465.

3 Total assets. The term total assets means total assets as would be required to be reported for consolidated entities on period-end reports filed with the FDIC in accordance with generally accepted accounting principles.

4 Traded position. The term traded position means a position retained, assumed, or issued in connection with a securitization that is rated by a NRSRO, where there is a reasonable expectation that, in the near future, the rating will be relied upon by:

(1) Unaffiliated investors to purchase the security; or

(2) An unaffiliated third party to enter into a transaction involving the position, such as a purchase, loan, or repurchase agreement.

5 Unconditionally cancelable. The term unconditionally cancelable means, with respect to a commitment-type lending arrangement, that the State savings association may, at any time, with or without cause, refuse to advance funds or extend credit under the facility. In the case of home equity lines of credit, the State savings association is deemed able to unconditionally cancel the commitment if it can, at its option, prohibit additional extensions of credit, reduce the line, and terminate the commitment to the full extent permitted by relevant Federal law.

6 United States Government or its agencies. The term United States Government or its agencies means an instrumentality of the U.S. Government whose debt obligations are fully and explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the United States Government.

7 United States Government-sponsored agency or corporation. The term United States Government-sponsored agency or corporation means an agency or corporation originally established or chartered to serve public purposes specified by the United States Congress but
§ 390.462 Minimum regulatory capital requirement.

(a) To meet its regulatory capital requirement a State savings association must satisfy each of the following capital standards:

(1) **Risk-based capital requirement.** (i) A State savings association’s minimum risk-based capital requirement shall be an amount equal to 8% of its risk-weighted assets as measured under §390.466.

(ii) A State savings association may not use supplementary capital to satisfy this requirement in an amount greater than 100% of its core capital as defined in §390.465.

(2) **Leverage ratio requirement.** (i) A State savings association’s minimum leverage ratio requirement shall be the amount set forth in §390.467.

(ii) A State savings association must satisfy this requirement with core capital as defined in §390.465(a).

(3) **Tangible capital requirement.** (i) A State savings association’s minimum tangible capital requirement shall be the amount set forth in §390.468.

(ii) A State savings association must satisfy this requirement with tangible capital as defined in §390.468 in an amount not less than 1.5% of its adjusted total assets.

(b) [Reserved]

(c) State savings associations are expected to maintain compliance with all of these standards at all times.

§ 390.463 Individual minimum capital requirements.

(a) **Purpose and scope.** The rules and procedures specified in this section apply to the establishment of an individual minimum capital requirement for a State savings association that varies from the risk-based capital requirement, the leverage ratio requirement or the tangible capital requirement that would otherwise apply to the State savings association under this subpart.

(b) **Appropriate considerations for establishing individual minimum capital requirements.** Minimum capital levels higher than the risk-based capital requirement, the leverage ratio requirement or the tangible capital requirement required under this subpart may be appropriate for individual State savings associations. Increased individual minimum capital requirements may be established upon a determination that the State savings association’s capital is or may become inadequate in view of its circumstances. For example, higher capital levels may be appropriate for:

(1) A State savings association receiving special supervisory attention;

(2) A State savings association that has or is expected to have losses resulting in capital inadequacy;

(3) A State savings association that has a high degree of exposure to interest rate risk, prepayment risk, credit risk, concentration of credit risk, certain risks arising from nontraditional activities, or similar risks; or a high proportion of off-balance sheet risk, especially standby letters of credit;

(4) A State savings association that has poor liquidity or cash flow;

(5) A State savings association growing, either internally or through acquisitions, at such a rate that supervisory problems are presented that are not dealt with adequately by other FDIC regulations or other guidance;

(6) A State savings association that may be adversely affected by the activities or condition of its holding company, affiliate(s), subsidiaries, or other persons or State savings associations with which it has significant business relationships, including concentrations of credit;

(7) A State savings association with a portfolio reflecting weak credit quality or a significant likelihood of financial loss, or that has loans in nonperforming status or on which borrowers fail to comply with repayment terms;

(8) A State savings association that has inadequate underwriting policies, standards, or procedures for its loans and investments; or

(9) A State savings association that has a record of operational losses that exceeds the average of other, similarly situated State savings associations; has management deficiencies, including failure to adequately monitor and control financial and operating risks, particularly the risks presented by...
concentrations of credit and nontraditional activities; or has a poor record of supervisory compliance.

(c) Standards for determination of appropriate individual minimum capital requirements. The appropriate minimum capital level for an individual State savings association cannot be determined solely through the application of a rigid mathematical formula or wholly objective criteria. The decision is necessarily based, in part, on subjective judgment grounded in agency expertise. The factors to be considered in the determination will vary in each case and may include, for example:

1. The conditions or circumstances leading to the determination that a higher minimum capital requirement is appropriate or necessary for the State savings association;
2. The exigency of those circumstances or potential problems;
3. The overall condition, management strength, and future prospects of the State savings association and, if applicable, its holding company, subsidiaries, and affiliates;
4. The State savings association’s liquidity, capital and other indicators of financial stability, particularly as compared with those of similarly situated State savings associations; and
5. The policies and practices of the State savings association’s directors, officers, and senior management as well as the internal control and internal audit systems for implementation of such adopted policies and practices.

(d) Procedures—(1) Notification. When the FDIC determines that a minimum capital requirement is necessary or appropriate for a particular State savings association, it shall notify the State savings association in writing of its proposed individual minimum capital requirement; the schedule for compliance with the new requirement; and the specific causes for determining that the higher individual minimum capital requirement is necessary or appropriate for the State savings association. The FDIC shall forward the notifying letter to the appropriate state supervisor if a state-chartered savings association would be subject to an individual minimum capital requirement.

(2) Response. (i) The response shall include any information that the State savings association wants the FDIC to consider in deciding whether to establish or to amend an individual minimum capital requirement for the State savings association, what the individual capital requirement should be, and, if applicable, what compliance schedule is appropriate for achieving the required capital level. The responses of the State savings association and appropriate state supervisor must be in writing and must be delivered to the FDIC within 30 days after the date on which the notification was received. Such response must be filed in accordance with §§390.106 and 390.108. The FDIC may extend the time period for good cause. The time period for response by the insured State savings association may be shortened for good cause:

(A) When, in the opinion of the FDIC, the condition of the State savings association so requires, and the FDIC informs the State savings association of the shortened response period in the notice;
(B) With the consent of the State savings association; or
(C) When the State savings association already has advised the FDIC that it cannot or will not achieve its applicable minimum capital requirement.

(ii) Failure to respond within 30 days, or such other time period as may be specified by the FDIC, may constitute a waiver of any objections to the proposed individual minimum capital requirement or to the schedule for complying with it, unless the FDIC has provided an extension of the response period for good cause.

(3) Decision. After expiration of the response period, the FDIC shall decide whether or not it believes the proposed individual minimum capital requirement should be established for the State savings association, or whether that proposed requirement should be adopted in modified form, based on a review of the State savings association’s response and other relevant information. The FDIC’s decision shall address comments received within the response period from the State savings association and the appropriate state supervisor and shall state the level of capital required, the schedule for compliance with this requirement, and any
§ 390.464 Capital directives.

(a) Issuance of a Capital Directive—(1) Purpose. In addition to any other action authorized by law, the FDIC, may issue a capital directive to a State savings association that does not have an amount of capital satisfying its minimum capital requirement. Issuance of such a capital directive may be based on a State savings association’s non-compliance with the risk-based capital requirement, the leverage ratio requirement, the tangible capital requirement, or individual minimum capital requirement established under this subpart, by a written agreement under 12 U.S.C. 1844(s), or as a condition for approval of an application. A capital directive may order a State savings association to:

(i) Achieve its minimum capital requirement by a specified date;

(ii) Adhere to the compliance schedule for achieving its individual minimum capital requirement;

(iii) Submit and adhere to a capital plan acceptable to the FDIC describing the means and a time schedule by which the State savings association shall reach its required capital level;

(iv) Take other action, including but not limited to, reducing the State savings association’s assets or its rate of liability growth, or imposing restrictions on the State savings association’s payment of dividends, in order to cause the State savings association to reach its required capital level;

(v) Take any action authorized under §390.469(e); or

(vi) Take a combination of any of these actions.

(2) Enforcement of capital directive. A capital directive issued under this section, including a plan submitted pursuant to §390.464, is enforceable under 12 U.S.C. 1818 in the same manner and to the same extent as an effective and outstanding cease and desist order which has become final under 12 U.S.C. 1818.

(3) Notice of intent to issue capital directive. The FDIC will determine whether to initiate the process of issuing a capital directive. The FDIC will notify a State savings association of its intention to issue a capital directive. The FDIC will also notify and solicit comment from the appropriate state supervisor. The notice will state:

(i) The reasons for issuance of the capital directive and

(ii) The proposed contents of the capital directive.

(3) Response to notice of intent. (1) A State savings association may respond...
to the notice of intent by submitting its own compliance plan, or may propose an alternative plan. The response should also include any information that the State savings association wishes the FDIC to consider in deciding whether to issue a capital directive. The appropriate state supervisor may also submit a response. These responses must be in writing and be delivered within 30 days after the receipt of the notices. Such responses must be filed in accordance with §§ 390.106 and 390.108. In its discretion, the FDIC may extend the time period for the response for good cause. The FDIC may, for good cause, shorten the 30-day time period for response by the insured State savings association:

(A) When, in the opinion of the FDIC, the condition of the State savings association so requires, and the FDIC informs the State savings association of the shortened response period in the notice;

(B) With the consent of the State savings association; or

(C) When the State savings association already has advised the FDIC that it cannot or will not achieve its applicable minimum capital requirement.

(ii) Failure to respond within 30 days of receipt, or such other time period as may be specified by the FDIC, may constitute a waiver of any objections to the capital directive unless the FDIC grants an extension of the time period for good cause.

(4) Decision. After the closing date of the State savings association’s response period, or upon receipt of the State savings association’s response, if earlier, the FDIC shall consider the State savings association’s response and may seek additional information or clarification of the response. Thereafter, the FDIC will determine whether or not to issue a capital directive and, if one is to be issued, whether it should be as originally proposed or in modified form.

(5) Service and effectiveness. (i) Upon issuance, a capital directive will be served upon the State savings association. It will include or be accompanied by a statement of reasons for its issuance and shall address the responses received during the response period.

(ii) A capital directive shall become effective upon the expiration of 30 days after service upon the State savings association, unless the FDIC determines that a shorter effective period is necessary either on account of the public interest or in order to achieve the capital directive’s purpose. If the State savings association has consented to issuance of the capital directive, it may become effective immediately. A capital directive shall remain in effect and enforceable unless, and then only to the extent that, it is stayed, modified, or terminated by the FDIC.

(6) Change in circumstances. Upon a change in circumstances, a State savings association may submit a request to the FDIC to reconsider the terms of the capital directive or consider changes in the State savings association’s capital plan issued under a directive for the State savings association to achieve its minimum capital requirement. If the FDIC believes such a change is warranted, the FDIC may modify the State savings association’s capital requirement or may refuse to make such modification if it determines that there are not significant changes in circumstances. Pending a decision on reconsideration, the capital directive and capital plan shall continue in full force and effect.

(b) Relation to other administrative actions. The FDIC—

(1) May consider a State savings association’s progress in adhering to any capital plan required under this section whenever such State savings association or any affiliate of such State savings association seeks approval for any proposal that would have the effect of diverting earnings, diminishing capital, or otherwise impeding such State savings association’s progress in meeting its minimum capital requirement; and

(2) May disapprove any proposal referred to in paragraph (b)(1) of this section if the FDIC determines that the proposal would adversely affect the ability of the State savings association on a current or pro forma basis to satisfy its capital requirement.
§ 390.465 Components of capital.

(a) Core Capital. (1) The following elements, less the amount of any deductions pursuant to paragraph (a)(2) of this section, comprise a State savings association’s core capital:

(i) Common stockholders’ equity (including retained earnings);

(ii) Noncumulative perpetual preferred stock and related surplus;

(iii) Minority interests in the equity accounts of the subsidiaries that are fully consolidated.

(iv) Nonwithdrawable accounts and pledged deposits of mutual State savings associations (excluding any treasury shares held by the State savings association) meeting the criteria of regulations and memoranda of the FDIC to the extent that such accounts or deposits have no fixed maturity date, cannot be withdrawn at the option of the accountholder, and do not earn interest that carries over to subsequent periods;

(2) Deductions from core capital. (i) Intangible assets, as defined in §390.461, are deducted from assets and capital in computing core capital, except as otherwise provided by §390.471.

(ii) Servicing assets that are not includable in core capital pursuant to §390.471 are deducted from assets and capital in computing core capital.

(iii) Credit-enhancing interest-only strips that are not includable in core capital under §390.471 are deducted from assets and capital in computing core capital.

(iv) Investments, both equity and debt, in subsidiaries that are not includable subsidiaries (including those subsidiaries where the State savings association has a minority ownership interest) are deducted from assets and, thus, core capital except as provided in paragraphs (a)(2)(v) and (vi) of this section.

(v) If a State savings association has any investments (both debt and equity) in one or more subsidiaries engaged in any activity that would not fall within the scope of activities in which includable subsidiaries may engage, it must deduct such investments from assets and, thus, core capital in accordance with this paragraph (a)(2)(v). The State savings association must first deduct from assets and, thus, core capital the amount by which any investments in such subsidiary(ies) exceed the amount of such investments held by the State savings association as of April 12, 1989. Next the State savings association must deduct from assets and, thus, core capital, the amount by which any investments in such subsidiary(ies) exceed the amount of such investments held by the State savings association as of April 12, 1989. Next the State savings association must deduct from assets and, thus, core capital, the State savings association’s investments in and extensions of credit to the subsidiary on the date as of which the State savings association’s capital is being determined.

(vi) If a State savings association holds a subsidiary (either directly or through a subsidiary) that is itself a domestic depository institution, the FDIC may, in its sole discretion upon determining that the amount of core capital that would be required would be higher if the assets and liabilities of such subsidiary were consolidated with those of the parent State savings association than the amount that would be required if the parent State savings association’s investment were deducted pursuant to paragraphs (a)(2)(iv) and (v) of this section, consolidate the assets and liabilities of that subsidiary with those of the parent State savings association in calculating the capital adequacy of the parent State savings association, regardless of whether the subsidiary would otherwise be an includable subsidiary as defined in §390.461.

(vii) Deferred tax assets that are not includable in core capital pursuant to §390.471 are deducted from assets and capital in computing core capital.

1Stock issues where the dividend is reset periodically based on current market conditions and the State savings association’s current credit rating, including but not limited to, auction rate, money market or re-marketable preferred stock, are assigned to supplementary capital, regardless of cumulative or noncumulative characteristics.

2Stock issued by subsidiaries that may not be counted by the parent State savings association on the Thrift Financial Report or Consolidated Reports of Condition or Income (“Call Report”), as applicable, likewise shall not be considered in calculating capital. For example, preferred stock issued by a State savings association or a subsidiary that is, in effect, collateralized by assets of the State savings association or one of its subsidiaries shall not be included in capital. Similarly, common stock with mandatorily redeemable provisions is not includable in core capital.
§ 390.465

(b) Supplementary Capital. Supplementary capital counts towards a State savings association’s total capital up to a maximum of 100% of the State savings association’s core capital. The following elements comprise a State savings association’s supplementary capital:

(1) Permanent Capital Instruments. (i) Cumulative perpetual preferred stock and other perpetual preferred stock\(^3\) issued pursuant to regulations and memoranda of the FDIC;

(ii) [Reserved]

(iii) Nonwithdrawable accounts and pledged deposits (excluding any treasury shares held by the State savings association) meeting the criteria of 12 CFR 390.307 to the extent that such instruments are not included in core capital under paragraph (a) of this section;

(iv) Perpetual subordinated debt issued pursuant to regulations and memoranda of the FDIC; and

(v) Mandatory convertible subordinated debt (capital notes) issued pursuant to regulations and memoranda of the FDIC.

(2) Maturing Capital Instruments. (i) Subordinated debt issued pursuant to regulations and memoranda of the FDIC;

(ii) Intermediate-term preferred stock issued pursuant to regulations and memoranda of the FDIC and any related surplus:

(iii) Mandatory convertible subordinated debt (commitment notes) issued pursuant to regulations and memoranda of the FDIC; and

(iv) Mandatorily redeemable preferred stock that was issued before July 23, 1985 or issued pursuant to regulations and memoranda of the Office of Thrift Supervision and approved in writing by the FSLIC for inclusion as regulatory capital before or after issuance.

(3) Transition rules for maturing capital instruments—A State savings association may include maturing capital instruments issued on or before November 7, 1989, in supplementary capital in accordance with the treatment set forth in paragraph (b)(3)(ii) of this section.

(A) At the beginning of each of the last five years of the life of the maturing capital instrument, the amount that is eligible to be included as supplementary capital is reduced by 20% of the original amount of that instrument (net of redemptions).\(^4\)

(B) Only the aggregate amount of maturing capital instruments that mature in any one year during the seven years immediately prior to an instrument’s maturity that does not exceed 20% of an institution’s capital will qualify as supplementary capital.

(C) Once a State savings association selects either paragraph (b)(3)(ii)(A) or (B) of this section for the issuance of a maturing capital instrument, it must continue to elect that option for all subsequent issuances of maturing capital instruments for as long as there is a balance outstanding of such post-November 7, 1989, issuances. Only when such issuances have all been repaid and the State savings association has no balance of such issuances outstanding may the State savings association elect the other option.

(4) Allowance for loan and lease losses. Allowance for loan and lease losses established under FDIC regulations and memoranda to a maximum of 1.25 percent of risk-weighted assets.\(^5\)

\(^3\)Preferred stock issued by subsidiaries that may not be counted by the parent State savings association on the Thrift Financial Report or Consolidated Reports of Condition or Income (“Call Report”), as applicable, likewise may not be considered in calculating capital. Preferred stock issued by a State savings association or a subsidiary that is, in effect, collateralized by assets of the State savings association or one of its subsidiaries may not be included in capital.

\(^4\)Capital instruments may be redeemed prior to maturity and without the prior approval of the FDIC, as long as the instruments are redeemed with the proceeds of, or replaced by, a like amount of a similar or higher quality capital instrument. However, the FDIC must be notified in writing at least 30 days in advance of such redemption.

\(^5\)The amount of the allowance for loan and lease losses that may be included in capital is based on a percentage of risk-weighted assets. The gross sum of risk-weighted assets used in this calculation includes all risk-weighted assets, with the exception of assets required to be deducted under §390.466 in establishing risk-weighted assets. “Excess reserves for loan and lease losses” is defined as assets required to be deducted from capital.
§ 390.466 Risk-based capital credit risk-weight categories.

(a) Risk-weighted assets. Risk-weighted assets equal risk-weighted on-balance sheet assets (computed under paragraph (a)(1) of this section), plus risk-weighted off-balance sheet activities (computed under paragraph (a)(2) of this section), plus risk-weighted recourse obligations, direct credit substitutes, and certain other positions (computed under paragraph (b) of this section). Assets not included (i.e., deducted from capital) for purposes of calculating capital under §390.465 are not included in calculating risk-weighted assets.

(5) Unrealized gains on equity securities. Up to 45 percent of unrealized gains on available-for-sale equity securities with readily determinable fair values may be included in supplementary capital. Unrealized gains are unrealized holding losses, net of unrealized holding losses, before income taxes, calculated as the amount, if any, by which fair value exceeds historical cost. The FDIC may disallow such inclusion in the calculation of supplementary capital if the FDIC determines that the equity securities are not prudently valued.

(c) Total capital. (1) A State savings association’s total capital equals the sum of its core capital and supplementary capital (to the extent that such supplementary capital does not exceed 100% of its core capital).

(2) The following assets, in addition to assets required to be deducted elsewhere in calculating core capital, are deducted from assets for purposes of determining total capital:

(i) Reciprocal holdings of depository institution capital instruments; and

(ii) All equity investments.

§ 390.466 Risk-based capital credit risk-weight categories.

(a) Risk-weighted assets. Risk-weighted assets equal risk-weighted on-balance sheet assets (computed under paragraph (a)(1) of this section), plus risk-weighted off-balance sheet activities (computed under paragraph (a)(2) of this section), plus risk-weighted recourse obligations, direct credit substitutes, and certain other positions (computed under paragraph (b) of this section). Assets not included (i.e., deducted from capital) for purposes of calculating capital under §390.465 are not included in calculating risk-weighted assets.

(1) On-balance sheet assets. Except as provided in paragraph (b) of this section, risk-weighted on-balance sheet assets are computed by multiplying the on-balance sheet asset amounts times the appropriate risk-weight categories. The risk-weight categories are:

(i) Zero percent Risk Weight (Category 1). (A) Cash, including domestic and foreign currency owned and held in all offices of a State savings association or in transit. Any foreign currency held by a State savings association must be converted into U.S. dollar equivalents;

(B) Securities issued by and other direct claims on the U.S. Government or its agencies (to the extent such securities or claims are unconditionally backed by the full faith and credit of the United States Government) or the central government of an OECD country;

(C) Notes and obligations issued by either the Federal Savings and Loan Insurance Corporation or the Federal Deposit Insurance Corporation and backed by the full faith and credit of the United States Government;

(D) Deposit reserves at, claims on, and balances due from Federal Reserve Banks;

(E) The book value of paid-in Federal Reserve Bank stock;

(F) That portion of assets that is fully covered against capital loss and/or yield maintenance agreements by the Federal Savings and Loan Insurance Corporation or any successor agency;

(G) That portion of assets directly and unconditionally guaranteed by the United States Government or its agencies, or the central government of an OECD country;

(H) Claims on, and claims guaranteed by, a qualifying securities firm that are collateralized by cash on deposit in the State savings association or by securities issued or guaranteed by the United States Government or its agencies, or the central government of an OECD country. To be eligible for this risk weight, the State savings association must maintain a positive margin of collateral on the claim on a daily basis, taking into account any change in a State savings association’s exposure to the obligor or counterparty.
Federal Deposit Insurance Corporation § 390.466

under the claim in relation to the market value of the collateral held in support of the claim.

(ii) 20 percent Risk Weight (Category 2).

(A) Cash items in the process of collection;

(B) That portion of assets collateralized by the current market value of securities issued or guaranteed by the United States government or its agencies, or the central government of an OECD country;

(C) That portion of assets conditionally guaranteed by the United States Government or its agencies, or the central government of an OECD country;

(D) Securities (not including equity securities) issued by or other direct claims on, United States Government-sponsored agencies;

(E) Securities (not including equity securities) issued by, or other direct claims on, United States Government-sponsored agencies;

(F) That portion of assets collateralized by the current market value of securities issued or guaranteed by United States Government-sponsored agencies;

(H) Claims on, and claims guaranteed by, a qualifying securities firm, subject to the following conditions:

(1) A qualifying securities firm must have a long-term issuer credit rating, or a rating on at least one issue of long-term unsecured debt, from a NRSRO. The rating must be in one of the three highest investment grade categories used by the NRSRO. If two or more NRSROs assign ratings to the qualifying securities firm, the State savings association must use the lowest rating to determine whether the rating requirement of this paragraph is met. A qualifying securities firm may rely on the rating of its parent consolidated company, if the parent consolidated company guarantees the claim.

(2) A collateralized claim on a qualifying securities firm does not have to comply with the rating requirements under paragraph (a)(1)(ii)(H)(1) of this section if the claim arises under a contract that:

(i) Is a reverse repurchase/repurchase agreement or securities lending/borrowing transaction executed using standard industry documentation;

(ii) Is collateralized by debt or equity securities that are liquid and readily marketable;

(iii) Is marked-to-market daily;

(iv) Is subject to a daily margin maintenance requirement under the standard industry documentation; and

(v) Can be liquidated, terminated or accelerated immediately in bankruptcy or similar proceeding, and the security or collateral agreement will not be stayed or avoided under applicable law of the relevant jurisdiction. For example, a claim is exempt from the automatic stay in bankruptcy in the United States if it arises under a securities contract or a repurchase agreement subject to section 555 or 559 of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407), or Regulation EE (12 CFR part 231).

(3) If the securities firm uses the claim to satisfy its applicable capital requirements, the claim is not eligible for a risk weight under this paragraph (a)(1)(ii)(H).

(I) Claims representing general obligations of any public-sector entity in an OECD country, and that portion of any claims guaranteed by any such public-sector entity;

(J) Bonds issued by the Financing Corporation or the Resolution Funding Corporation;

(K) Balances due from and all claims on domestic depository institutions. This includes demand deposits and other transaction accounts, savings deposits and time certificates of deposit, federal funds sold, loans to other depository institutions, including overdrafts and term federal funds, holdings of the State savings association’s own discounted acceptances for which the account party is a depository institution, holdings of bankers acceptances of
other institutions and securities issued by depository institutions, except those that qualify as capital;

(L) The book value of paid-in Federal Home Loan Bank stock;

(M) Deposit reserves at, claims on and balances due from the Federal Home Loan Banks;

(N) Assets collateralized by cash held in a segregated deposit account by the reporting State savings association;

(O) Claims on, or guaranteed by, official multilateral lending institutions or regional development institutions in which the United States Government is a shareholder or contributing member;¹

(P) That portion of assets collateralized by the current market value of securities issued by official multilateral lending institutions or regional development institutions in which the United States Government is a shareholder or contributing member;¹

(Q) All claims on depository institutions incorporated in an OECD country, and all assets backed by the full faith and credit of depository institutions incorporated in an OECD country. This includes the credit equivalent amount of participations in commitments and standby letters of credit sold to other depository institutions incorporated in an OECD country, but only if the originating bank remains liable to the customer or beneficiary for the full amount of the commitment or standby letter of credit. Also included in this category are the credit equivalent amounts of risk participations in bankers’ acceptances conveyed to other depository institutions incorporated in an OECD country. However, bank-issued securities that qualify as capital of the issuing bank are not included in this risk category;

(R) Claims on, or guaranteed by depository institutions other than the central bank, incorporated in a non-OECD country, with a remaining maturity of one year or less;

¹These institutions include, but are not limited to, the International Bank for Reconstruction and Development (World Bank), the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the International Monetary Fund and the Bank for International Settlements.

(S) That portion of local currency claims conditionally guaranteed by central governments of non-OECD countries, to the extent the State savings association has local currency liabilities in that country.

(iii) 50 percent Risk Weight (Category 3). (A) Revenue bonds issued by any public-sector entity in an OECD country for which the underlying obligor is a public-sector entity, but which are repayable solely from the revenues generated from the project financed through the issuance of the obligations;

(B) Qualifying mortgage loans and qualifying multifamily mortgage loans;

(C) Privately-issued mortgage-backed securities (i.e., those that do not carry the guarantee of a government or government sponsored entity) representing an interest in qualifying mortgage loans or qualifying multifamily mortgage loans. If the security is backed by qualifying multifamily mortgage loans, the State savings association must receive timely payments of principal and interest in accordance with the terms of the security. Payments will generally be considered timely if they are not 30 days past due;

(D) Qualifying residential construction loans as defined in §390.461.

(iv) 100 percent Risk Weight (Category 4). All assets not specified above or deducted from calculations of capital pursuant to §390.465, including, but not limited to:

(A) Consumer loans;

(B) Commercial loans;

(C) Home equity loans;

(D) Non-qualifying mortgage loans;

(E) Non-qualifying multifamily mortgage loans;

(F) Residential construction loans;

(G) Land loans;

(H) Nonresidential construction loans;

(I) Obligations issued by any state or any political subdivision thereof for the benefit of a private party or enterprise where that party or enterprise, rather than the issuing state or political subdivision, is responsible for the timely payment of principal and interest on the obligations, e.g., industrial development bonds.
(J) Debt securities not otherwise described in this section;
(K) Investments in fixed assets and premises;
(L) Certain nonsecurity financial instruments including servicing assets and intangible assets includable in core capital under §390.471;
(M) Interest-only strips receivable, other than credit-enhancing interest-only strips;
(N)-(O) [Reserved]
(P) That portion of equity investments not deducted pursuant to §390.465;
(Q) The prorated assets of subsidiaries (except for the assets of includable, fully consolidated subsidiaries) to the extent such assets are included in adjusted total assets;
(R) All repossessed assets or assets that are more than 90 days past due; and
(S) Equity investments that the FDIC determines have the same risk characteristics as foreclosed real estate by the State savings association;
(T) Equity investments permissible for a national bank.
(v) [Reserved]
(vi) Indirect ownership interests in pools of assets. Assets representing an indirect holding of a pool of assets, e.g., mutual funds, are assigned to risk-weight categories under this section based upon the risk weight that would be assigned to the assets in the portfolio of the pool. An investment in shares of a mutual fund whose portfolio consists primarily of various securities or money market instruments that, if held separately, would be assigned to different risk-weight categories, generally is assigned to the risk-weight category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the investment objectives set forth in its prospectus. The State savings association may, at its option, assign the investment on a pro rata basis to different risk-weight categories according to the investment limits in its prospectus. In no case will an investment in shares in any such fund be assigned to a total risk weight less than 20 percent. If the State savings association chooses to assign investments on a pro rata basis, and the sum of the investment limits of assets in the fund’s prospectus exceeds 100 percent, the State savings association must assign the highest pro rata amounts of its total investment to the higher risk categories. If, in order to maintain a necessary degree of short-term liquidity, a fund is permitted to hold an insignificant amount of its assets in short-term, highly liquid securities of superior credit quality that do not qualify for a preferential risk weight, such securities will generally be disregarded in determining the risk-weight category into which the State savings association’s holding in the overall fund should be assigned. The prudent use of hedging instruments by a mutual fund to reduce the risk of its assets will not increase the risk weighting of the mutual fund investment. For example, the use of hedging instruments by a mutual fund to reduce the interest rate risk of its government bond portfolio will not increase the risk weight of that fund above the 20 percent category. Nonetheless, if the fund engages in any activities that appear speculative in nature or has any other characteristics that are inconsistent with the preferential risk-weighting assigned to the fund’s assets, holdings in the fund will be assigned to the 100 percent risk-weight category.
(2) Off-balance sheet items. Except as provided in paragraph (b) of this section, risk-weighted off-balance sheet items are determined by the following two-step process. First, the face amount of the off-balance sheet item must be multiplied by the appropriate credit conversion factor listed in this paragraph (a)(2). This calculation translates the face amount of an off-balance sheet exposure into an on-balance sheet credit-equivalent amount. Second, the credit-equivalent amount must be assigned to the appropriate risk-weight category using the criteria regarding obligors, guarantors, and collateral listed in paragraph (a)(1) of this section, provided that the maximum risk weight assigned to the credit-equivalent amount of an interest-rate or exchange-rate contract is 50 percent. The following are the credit conversion factors and the off-balance sheet items to which they apply.
§ 390.466  
12 CFR Ch. III (1–1–14 Edition)

(i) 100 percent credit conversion factor (Group A).

(A) [Reserved]

(B) Risk participations purchased in bankers’ acceptances;

(C) [Reserved]

(D) Forward agreements and other contingent obligations with a certain draw down, e.g., legally binding agreements to purchase assets at a specified future date. On the date an institution enters into a forward agreement or similar obligation, it should convert the principal amount of the assets to be purchased at 100 percent as of that date and then assign this amount to the risk-weight category appropriate to the obligor or guarantor of the item, or the nature of the collateral;

(E) Indemnification of customers whose securities the State savings association has lent as agent. If the customer is not indemnified against loss by the State savings association, the transaction is excluded from the risk-based capital calculation. When a State savings association lends its own securities, the transaction is treated as a loan. When a State savings association lends its own securities or is acting as agent, agrees to indemnify a customer, the transaction is assigned to the risk weight appropriate to the obligor or collateral that is delivered to the lending or indemnifying institution or to an independent custodian acting on their behalf.

(ii) 50 percent credit conversion factor (Group B). (A) Transaction-related contingencies, including, among other things, performance bonds and performance-based standby letters of credit related to a particular transaction;

(B) Unused portions of commitments (including home equity lines of credit and eligible ABCP liquidity facilities) with an original maturity exceeding one year except those listed in paragraph (a)(2)(v) of this section. For eligible ABCP liquidity facilities, the resulting credit equivalent amount is assigned to the risk category appropriate to the assets to be funded by the liquidity facility based on the assets or the obligor, after considering any collateral or guarantees, or external credit ratings under paragraph (b)(3) of this section, if applicable;

(C) Revolving underwriting facilities, note issuance facilities, and similar arrangements pursuant to which the State savings association’s customer can issue short-term debt obligations in its own name, but for which the State savings association has a legally binding commitment to either:

(1) Purchase the obligations the customer is unable to sell by a stated date; or

(2) Advance funds to its customer, if the obligations cannot be sold.

(iii) 20 percent credit conversion factor (Group C). Trade-related contingencies, i.e., short-term, self-liquidating instruments used to finance the movement of goods and collateralized by the underlying shipment. A commercial letter of credit is an example of such an instrument.

(iv) 10 percent credit conversion factor (Group D). Unused portions of eligible ABCP liquidity facilities with an original maturity of one year or less. The resulting credit equivalent amount is assigned to the risk category appropriate to the assets to be funded by the liquidity facility based on the assets or the obligor, after considering any collateral or guarantees, or external credit ratings under paragraph (b)(3) of this section, if applicable;

(v) Zero percent credit conversion factor (Group E). (A) Unused portions of commitments with an original maturity of one year or less, except for eligible ABCP liquidity facilities;

(B) Unused commitments with an original maturity greater than one year, if they are unconditionally cancelable at any time at the option of the State savings association and the State savings association has the contractual right to make, and in fact does make, either:

(1) A separate credit decision based upon the borrower’s current financial condition before each drawing under the lending facility; or

(2) An annual (or more frequent) credit review based upon the borrower’s current financial condition to determine whether or not the lending facility should be continued; and

(C) The unused portion of retail credit card lines or other related plans that are unconditionally cancelable by the
State savings association in accordance with applicable law.

(vi) Off-balance sheet contracts; interest-rate and foreign exchange rate contracts (Group F)—(A) Calculation of credit equivalent amounts. The credit equivalent amount of an off-balance sheet interest rate or foreign exchange rate contract that is not subject to a qualifying bilateral netting contract in accordance with paragraph (a)(2)(vi)(B) of this section is equal to the sum of the current credit exposure, i.e., the replacement cost of the contract, and the potential future credit exposure of the off-balance sheet rate contract. The calculation of credit equivalent amounts is measured in U.S. dollars, regardless of the currency or currencies specified in the off-balance sheet rate contract.

(1) Current credit exposure. The current credit exposure of an off-balance sheet rate contract is determined by the mark-to-market value of the contract. If the mark-to-market value is positive, then the current credit exposure equals that mark-to-market value. If the mark-to-market value is zero or negative, then the current exposure is zero. In determining its current credit exposure for multiple off-balance sheet rate contracts executed with a single counterparty, a State savings association may net positive and negative mark-to-market values of off-balance sheet rate contracts if subject to a bilateral netting contract as provided in paragraph (a)(2)(vi)(B) of this section.

(2) Potential future credit exposure. The potential future credit exposure of an off-balance sheet rate contract, including a contract with a negative mark-to-market value, is estimated by multiplying the notional principal by a credit conversion factor. State savings associations, subject to examiner review, should use the effective rather than the apparent or stated notional amount in this calculation. The conversion factors are:

<table>
<thead>
<tr>
<th>Remaining maturity</th>
<th>Interest rate contracts (percents)</th>
<th>Foreign exchange rate contracts (percents)</th>
</tr>
</thead>
<tbody>
<tr>
<td>One year or less</td>
<td>0.0</td>
<td>1.0</td>
</tr>
<tr>
<td>Over one year</td>
<td>0.5</td>
<td>5.0</td>
</tr>
</tbody>
</table>

(B) Off-balance sheet rate contracts subject to bilateral netting contracts. In determining its current credit exposure for multiple off-balance sheet rate contracts executed with a single counterparty, a State savings association may net off-balance sheet rate contracts subject to a bilateral netting contract by offsetting positive and negative mark-to-market values, provided that:

(1) The bilateral netting contract is in writing;

(2) The bilateral netting contract creates a single legal obligation for all individual off-balance sheet rate contracts covered by the bilateral netting contract. In effect, the bilateral netting contract provides that the State savings association has a single claim or obligation either to receive or pay only the net amount of the sum of the positive and negative mark-to-market values on the individual off-balance sheet rate contracts covered by the bilateral netting contract. The single legal obligation for the net amount is operative in the event that a counterparty, or a counterparty to whom the bilateral netting contract has been validly assigned, fails to perform due to any of the following events: default, insolvency, bankruptcy, or other similar circumstances;

(3) The State savings association obtains a written and reasoned legal opinion(s) representing, with a high degree of certainty, that in the event of a legal challenge, including one resulting from default, insolvency, bankruptcy or similar circumstances, the relevant court and administrative authorities would find the State savings association entitled to enforce the bilateral netting contract.
§ 390.466

association's exposure to be the net amount under:

(i) The law of the jurisdiction in which the counterparty is chartered or the equivalent location in the case of noncorporate entities, and if a branch of the counterparty is involved, then also under the law of the jurisdiction in which the branch is located;

(ii) The law that governs the individual off-balance sheet rate contracts covered by the bilateral netting contract; and

(iii) The law that governs the bilateral netting contract;

(d) The State savings association establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the bilateral netting contract continues to satisfy the requirements of this section; and

(5) The State savings association maintains in its files documentation adequate to support the netting of an off-balance sheet rate contract.

(C) Walkaway clause. A bilateral netting contract that contains a walkaway clause is not eligible for netting for purposes of calculating the current credit exposure amount. The term "walkaway clause" means a provision in a bilateral netting contract that permits a nondefaulting counterparty to make a lower payment than it would make otherwise under the bilateral netting contract, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the bilateral netting contract.

(D) Risk weighting. Once the State savings association determines the credit equivalent amount for an off-balance sheet rate contract, that amount is assigned to the risk-weight category appropriate to the counterparty, or, if relevant, to the nature of any collateral or guarantee. Collateral held against a netting contract is not recognized for capital purposes unless it is legally available for all contracts included in the netting contract. However, the maximum risk weight for the credit equivalent amount of such off-balance sheet rate contracts is 50 percent.

(E) Exceptions. The following off-balance sheet rate contracts are not subject to the above calculation, and therefore, are not part of the denominator of a State savings association's risk-based capital ratio:

(1) A foreign exchange rate contract with an original maturity of 14 calendar days or less; and

(2) Any interest rate or foreign exchange rate contract that is traded on an exchange requiring the daily payment of any variations in the market value of the contract.

(3) If a State savings association has multiple overlapping exposures (such as a program-wide credit enhancement and a liquidity facility) to an ABCP program that is not consolidated for risk-based capital purposes, the State savings association is not required to hold duplicative risk-based capital under this subpart against the overlapping position. Instead, the State savings association should apply to the overlapping position the applicable risk-based capital treatment that results in the highest capital charge.

(b) Recourse obligations, direct credit substitutes, and certain other positions—

(1) In general. Except as otherwise permitted in this paragraph (b), to determine the risk-weighted asset amount for a recourse obligation or a direct credit substitute (but not a residual interest):

(i) Multiply the full amount of the credit-enhanced assets for which the State savings association directly or indirectly retains or assumes credit risk by a 100 percent conversion factor. (For a direct credit substitute that is an on-balance sheet asset (e.g., a purchased subordinated security), a State savings association must use the
amount of the direct credit substitute and the full amount of the asset its supports, i.e., all the more senior positions in the structure); and

(ii) Assign this credit equivalent amount to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral. Paragraph (a)(1) of this section lists the risk-weight categories.

(2) Residual interests. Except as otherwise permitted under this paragraph (b), a State savings association must maintain risk-based capital for residual interests as follows:

(i) Credit-enhancing interest-only strips. After applying the concentration limit under §390.471(e)(2), a state savings association must maintain risk-based capital for a credit-enhancing interest-only strip equal to the remaining amount of the strip (net of any existing associated deferred tax liability), even if the amount of risk-based capital that must be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred credit-enhancing interest-only strip are treated as if the strip was retained by the State savings association and was not transferred.

(ii) Other residual interests. A state savings association must maintain risk-based capital for a residual interest (excluding a credit-enhancing interest-only strip) equal to the face amount of the residual interest (net of any existing associated deferred tax liability), even if the amount of risk-based capital that must be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred residual interest are treated as if the residual interest was retained by the State savings association and was not transferred.

(iii) Residual interests and other recourse obligations. Where a State savings association holds a residual interest (including a credit-enhancing interest-only strip) and another recourse obligation in connection with the same transfer of assets, the State savings association must maintain risk-based capital equal to the greater of:

(A) The risk-based capital requirement for the residual interest as calculated under paragraph (b)(2)(i) and (ii) of this section; or

(B) The full risk-based capital requirement for the assets transferred, subject to the low-level recourse rules under paragraph (b)(7) of this section.

(3) Ratings-based approach—(i) Calculation. A State savings association may calculate the risk-weighted asset amount for an eligible position described in paragraph (b)(3)(ii) of this section by multiplying the face amount of the position by the appropriate risk weight determined in accordance with Table A or B of this section.

NOTE: Stripped mortgage-backed securities or other similar instruments, such as interest-only and principal-only strips, that are not credit enhancing must be assigned to the 100% risk-weight category.

(ii) Eligibility—(A) Traded positions. A position is eligible for the treatment described in paragraph (b)(3)(i) of this section, if:

(1) The position is a recourse obligation, direct credit substitute, residual interest, or asset- or mortgage-backed security and is not a credit-enhancing interest-only strip;

(2) The position is a traded position; and

(3) The NRSRO has rated a long term position as one grade below investment grade or better or a short term position as investment grade. If two or more NRSROs assign ratings to a traded position, the State savings association
must use the lowest rating to determine the appropriate risk-weight category under paragraph (b)(3)(i) of this section.

(B) Non-traded positions. A position that is not traded is eligible for the treatment described in paragraph (b)(3)(i) of this section if:

1. The position is a recourse obligation, direct credit substitute, residual interest, or asset- or mortgage-backed security extended in connection with a securitization and is not a credit-enhancing interest-only strip;
2. More than one NRSRO rate the position;
3. All of the NRSROs that provide a rating rate a long term position as one grade below investment grade or better or a short term position as investment grade. If the NRSROs assign different ratings to the position, the State savings association must use the lowest rating to determine the appropriate risk-weight category under paragraph (b)(3)(i) of this section;
4. The NRSROs base their ratings on the same criteria that they use to rate securities that are traded positions; and
5. The ratings are publicly available.

(C) Unrated senior positions. If a recourse obligation, direct credit substitute, residual interest, or asset- or mortgage-backed security is not rated by an NRSRO, but is senior or preferred in all features to a traded position (including collateralization and maturity), the State savings association may risk-weight the face amount of the senior position under paragraph (b)(3)(i) of this section, based on the rating of the traded position, subject to supervisory guidance. The State savings association must satisfy FDIC that this treatment is appropriate. This paragraph (b)(3)(i)(C) applies only if the traded position provides substantive credit support to the unrated position until the unrated position matures.

4. Certain positions that are not rated by NRSROs—(1) Calculation. A State savings association may calculate the risk-weighted asset amount for eligible position described in paragraph (b)(4)(i) of this section based on the State savings association’s determination of the credit rating of the position. To risk-weight the asset, the State savings association must multiply the face amount of the position by the appropriate risk weight determined in accordance with Table C of this section.

<table>
<thead>
<tr>
<th>Rating category</th>
<th>Risk weight (in percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Investment grade</td>
<td>100</td>
</tr>
<tr>
<td>One category below investment grade</td>
<td>200</td>
</tr>
</tbody>
</table>

(ii) Eligibility. A position extended in connection with a securitization is eligible for the treatment described in paragraph (b)(4)(i) of this section if it is not rated by an NRSRO, is not a residual interest, and meets one of the three alternative standards described in paragraph (b)(4)(i)(A), (B), or (C) of this section:

A) Position rated internally. A direct credit substitute, but not a purchased credit-enhancing interest-only strip, is eligible for the treatment described under paragraph (b)(4)(i) of this section, if the position is assumed in connection with an asset-backed commercial paper program sponsored by the State savings association. Before it may rely on an internal credit risk rating system, the state savings association must demonstrate to FDIC’s satisfaction that the system is adequate. Adequate internal credit risk rating systems typically:

1. Are an integral part of the State savings association’s risk management system that explicitly incorporates the full range of risks arising from the State savings association’s participation in securitization activities;
2. Link internal credit ratings to measurable outcomes, such as the probability that the position will experience any loss, the expected loss on the position in the event of default, and the degree of variance in losses in the event of default on that position;
3. Separately consider the risk associated with the underlying loans or borrowers, and the risk associated with the structure of the particular securitization transaction;
4. Identify gradations of risk among “pass” assets and other risk positions;
Federal Deposit Insurance Corporation § 390.466

(5) Use clear, explicit criteria to classify assets into each internal rating grade, including subjective factors;

(6) Employ independent credit risk management or loan review personnel to assign or review the credit risk ratings;

(7) Include an internal audit procedure to periodically verify that internal risk ratings are assigned in accordance with the State savings association’s established criteria;

(8) Monitor the performance of the assigned internal credit risk ratings over time to determine the appropriateness of the initial credit risk rating assignment, and adjust individual credit risk ratings or the overall internal credit risk rating system, as needed;

(9) Make credit risk rating assumptions that are consistent with, or more conservative than, the credit risk rating assumptions and methodologies of NRSROs.

(B) Program ratings. (1) A recourse obligation or direct credit substitute, but not a residual interest, is eligible for the treatment described in paragraph (b)(4)(i) of this section, if the position is retained or assumed in connection with a structured finance program and an NRSRO has reviewed the terms of the program and stated a rating for positions associated with the program. If the program has options for different combinations of assets, standards, internal or external credit enhancements and other relevant factors, and the NRSRO specifies ranges of rating categories to them, the State savings association may apply the rating category applicable to the option that corresponds to the State savings association’s position.

(2) To rely on a program rating, the State savings association must demonstrate to FDIC’s satisfaction that the credit risk rating assigned to the program meets the same standards generally used by NRSROs for rating traded positions. The State savings association must also demonstrate to FDIC’s satisfaction that the criteria underlying the assignments for the program are satisfied by the particular position.

(C) Computer program. A recourse obligation or direct credit substitute, but not a residual interest, is eligible for the treatment described in paragraph (b)(4)(i) of this section, if the position is retained or assumed in connection with a structured finance program and the State savings association uses an acceptable credit assessment computer program to determine the rating of the position. An NRSRO must have developed the computer program and the State savings association must demonstrate to FDIC’s satisfaction that the ratings under the program correspond credibly and reliably with the rating of traded positions.

(5) Alternative capital computation for small business obligations—(1) Definitions. For the purposes of this paragraph (b)(5):

(A) Qualified State savings association means a State savings association that:

(1) Is well capitalized as defined in §390.453 without applying the capital treatment described in this paragraph (b)(5); or

(2) Is adequately capitalized as defined in §390.453 without applying the capital treatment described in this paragraph (b)(5) and has received written permission from the FDIC to apply that capital treatment.

(B) Small business means a business that meets the criteria for a small business concern established by the Small Business Administration in 13 CFR 121 pursuant to 15 U.S.C. 632.

(ii) Capital requirement. Notwithstanding any other provision of this paragraph (b), with respect to a transfer of a small business loan or lease of personal property with recourse that is a sale under generally accepted accounting principles, a qualified State savings association may elect to include only the amount of its recourse in its risk-weighted assets. To qualify for this election, the State savings association must establish and maintain a reserve under generally accepted accounting principles sufficient to meet the reasonable estimated liability of
the State savings association under the recourse obligation.

(iii) Aggregate amount of recourse. The total outstanding amount of recourse retained by a qualified State savings association with respect to transfers of small business loans and leases of personal property and included in the risk-weighted assets of the State savings association as described in paragraph (b)(5)(ii) of this section, may not exceed 15 percent of the association’s total capital computed under §390.465(c).

(iv) State savings association that ceases to be a qualified State savings association or that exceeds aggregate limits. If a State savings association ceases to be a qualified State savings association or exceeds the aggregate limit described in paragraph (b)(5)(iii) of this section, the State savings association may continue to apply the capital treatment described in paragraph (b)(5)(ii) of this section to transfers of small business loans and leases of personal property that occurred when the association was a qualified State savings association and did not exceed the limit.

(v) Prompt corrective action not affected. (A) A State savings association shall compute its capital without regard to this paragraph (b)(5) of this section for purposes of prompt corrective action (12 U.S.C. 1831o), unless the State savings association is adequately or well capitalized without applying the capital treatment described in this paragraph (b)(5) and would be well capitalized after applying that capital treatment.

(B) A State savings association shall compute its capital requirement without regard to this paragraph (b)(5) for the purposes of applying 12 U.S.C. 1831o(g), regardless of the association’s capital level.

(6) Risk participations and syndications of direct credit substitutes. A State savings association must calculate the risk-weighted asset amount for a risk participation in, or syndication of, a direct credit substitute as follows:

(i) If a State savings association conveys a risk participation in a direct credit substitute, the State savings association must convert the full amount of the assets that are supported by the direct credit substitute to a credit equivalent amount using a 100 percent conversion factor. The State savings association must assign the pro rata share of the credit equivalent amount that was conveyed through the risk participation to the lower of: The risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral; or the risk-weight category appropriate to the party acquiring the participation. The State savings association must assign the pro rata share of the credit equivalent amount that was not participated out to the risk-weight category appropriate to the obligor, after considering any associated guarantees or collateral.

(ii) If a State savings association acquires a risk participation in a direct credit substitute, the State savings association must multiply its pro rata share of the direct credit substitute by the full amount of the assets that are supported by the direct credit substitute, and convert this amount to a credit equivalent amount using a 100 percent conversion factor. The State savings association must assign the resulting credit equivalent amount to the risk-weight category appropriate to the obligor in the underlying transaction after considering any associated guarantees or collateral.

(iii) If the State savings association holds a direct credit substitute in the form of a syndication where each State savings association or other participant is obligated only for its pro rata share of the risk and there is no recourse to the originating party, the State savings association must calculate the credit equivalent amount by multiplying only its pro rata share of the assets supported by the direct credit substitute by a 100 percent conversion factor. The State savings association must assign the resulting credit equivalent amount to the risk-weight category appropriate to the obligor in the underlying transaction after considering any associated guarantees or collateral.

(7) Limitations on risk-based capital requirements—(i) Low-level exposure rule. If the maximum contractual exposure to loss retained or assumed by a State
savings association is less than the effective risk-based capital requirement, as determined in accordance with this paragraph (b), for the assets supported by the State savings association’s position, the risk-based capital requirement is limited to the State savings association’s contractual exposure less any recourse liability account established in accordance with generally accepted accounting principles. This limitation does not apply when a State savings association provides credit enhancement beyond any contractual obligation to support assets it has sold.

(ii) Mortgage-related securities or participation certificates retained in a mortgage loan swap. If a State savings association holds a mortgage-related security or a participation certificate as a result of a mortgage loan swap with recourse, it must hold risk-based capital to support the recourse obligation and that percentage of the mortgage-related security or participation certificate that is not covered by the recourse obligation. The total amount of risk-based capital required for the security (or certificate) and the recourse obligation is limited to the risk-based capital requirement for the underlying loans, calculated as if the State savings association continued to hold these loans as an on-balance sheet asset.

(iii) Related on-balance sheet assets. If an asset is included in the calculation of the risk-based capital requirement under this paragraph (b) and also appears as an asset on the State savings association’s balance sheet, the State savings association must risk-weight the asset only under this paragraph (b), except in the case of loan servicing assets and similar arrangements with embedded recourse obligations or direct credit substitutes. In that case, the State savings association must separately risk-weight the on-balance sheet servicing asset and the related recourse obligations and direct credit substitutes under this section, and incorporate these amounts into the risk-based capital calculation.

§ 390.468 Tangible capital requirement.

(a) State savings associations shall have and maintain tangible capital in an amount equal to at least 1.5% of adjusted total assets.

(b) The following elements, less the amount of any deductions pursuant to paragraph (c) of this section, comprise a State savings association’s tangible capital:

§ 390.467 Leverage ratio.

(a) The minimum leverage capital requirement for a State savings association assigned a composite rating of 1, as defined in this subpart, shall consist of a ratio of core capital to adjusted total assets of 3 percent. These generally are strong State savings associations that are not anticipating or experiencing significant growth and have well-diversified risks, including no undue interest rate risk exposure, excellent asset quality, high liquidity, and good earnings.

(b) For all State savings associations not meeting the conditions set forth in paragraph (a) of this section, the minimum leverage capital requirement shall consist of a ratio of core capital to adjusted total assets of 4 percent. Higher capital ratios may be required if warranted by the particular circumstances or risk profiles of an individual State savings association. In all cases, State savings associations should hold capital commensurate with the level and nature of all risks, including the volume and severity of problem loans, to which they are exposed.
§ 390.469 Consequences of failure to meet capital requirements.

(a) Capital plans. (1) [Reserved]

(2) The FDIC shall require any State savings association not in compliance with capital standards to submit a capital plan that:

(i) Addresses the State savings association’s need for increased capital;

(ii) Describes the manner in which the State savings association will increase capital so as to achieve compliance with capital standards;

(iii) Specifies types and levels of activities in which the State savings association will engage;

(iv) Requires any increase in assets to be accompanied by increase in tangible capital not less in percentage amount than required under the risk-based capital standard then applicable; and

(v) Requires any increase in assets to be accompanied by increase in tangible capital not less in percentage amount than the leverage limit then applicable;

(vi) Is acceptable to the FDIC.

(3) To be acceptable to the FDIC under this section, a plan must, in addition to satisfying all of the requirements set forth in paragraphs (a)(2)(i) through (v) of this section, contain a certification that while the plan is under review by the FDIC, the State savings association will not, without the prior written approval of the appropriate Regional Director:

(i) Grow beyond net interest credited;

(ii) Increase assets, and, thus, from capital:

(b) Dedications from tangible capital.

(2) investments, both equity and debt, in subsidiaries that are not includable subsidiaries (including those subsidiaries where the State savings association has a minority ownership interest), except as provided in paragraphs (c)(3) and (4) of this section.

(3) If a State savings association has any investments (both debt and equity) in one or more subsidiary(ies) engaged as of April 12, 1989, and continuing to be engaged in any activity that would not fall within the scope of activities in which includable subsidiaries may engage, it must make such investments from assets and, thus, tangible capital in accordance with this paragraph (c)(3). The State savings association must first deduct from assets and, thus, tangible capital the lesser of:

(i) The amount by which any investments in such subsidiary(ies) exceed the amount of such investments held by the State savings association as of April 12, 1989.

(ii) The amount of such investments held by the State savings association as of April 12, 1989;

(4) If a State savings association holds a subsidiary (either directly or through a subsidiary) that is itself a domestic depository institution the FDIC may, in its sole discretion upon determining that the amount of tangible capital that would be required would be higher if the assets and liabilities of such subsidiary were consolidated with those of the parent State savings association than the amount that would be required if the parent State savings association’s investment were deducted pursuant to paragraphs (c)(2) and (3) of this section, consolidate the assets and liabilities of that subsidiary with those of the parent State savings association in calculating the capital adequacy of the parent State savings association, regardless of whether the subsidiary would otherwise be an includable subsidiary as defined in §390.461.

§ 390.469 Consequences of failure to meet capital requirements.

(a) Capital plans. (1) [Reserved]

(2) The FDIC shall require any State savings association not in compliance with capital standards to submit a capital plan that:

(i) Addresses the State savings association’s need for increased capital;

(ii) Describes the manner in which the State savings association will increase capital so as to achieve compliance with capital standards;

(iii) Specifies types and levels of activities in which the State savings association will engage;

(iv) Requires any increase in assets to be accompanied by increase in tangible capital not less in percentage amount than required under the risk-based capital standard then applicable; and

(v) Requires any increase in assets to be accompanied by increase in tangible capital not less in percentage amount than the leverage limit then applicable;

(vi) Is acceptable to the FDIC.

(3) To be acceptable to the FDIC under this section, a plan must, in addition to satisfying all of the requirements set forth in paragraphs (a)(2)(i) through (v) of this section, contain a certification that while the plan is under review by the FDIC, the State savings association will not, without the prior written approval of the appropriate Regional Director:

(i) Grow beyond net interest credited;
(ii) Make any capital distributions; or
(iii) Act inconsistently with any other limitations on activities established by statute, regulation or by the FDIC in supervisory guidance for State savings associations not meeting capital standards.

(4) If the plan submitted to the FDIC under paragraph (a)(2) of this section is not approved by the FDIC, the State savings association shall immediately and without any further action, be subject to the following restrictions:

(i) It may not increase its assets beyond the amount held on the day it receives written notice of the FDIC’s disapproval of the plan; and

(ii) It must comply with any other restrictions or limitations set forth in the written notice of the FDIC’s disapproval of the plan.

(b) On or after January 1, 1991, the FDIC shall:

(1) Prohibit any asset growth by any State savings association not in compliance with capital standards, except as provided in paragraph (d) of this section; and

(2) Require any State savings association not in compliance with capital standards to comply with a capital directive issued by the FDIC which may include the restrictions contained in paragraph (e) of this section and any other restrictions the FDIC determines appropriate.

(c) A State savings association that wishes to obtain an exemption from the sanctions provided in paragraph (b)(2) of this section must file a request for exemption with the appropriate Regional Director. Such request must include a capital plan that satisfies the requirements of paragraph (a)(2) of this section.

(d) The FDIC may permit any State savings association that is subject to paragraph (b) of this section to increase its assets in an amount not exceeding the amount of net interest credited to the State savings association’s deposit liabilities, if:

(1) The State savings association obtains the FDIC’s prior approval;

(2) Any increase in assets is accompanied by an increase in tangible capital in an amount not less than 3% of the increase in assets;

(3) Any increase in assets is accompanied by an increase in capital not less in percentage amount than required under the risk-based capital standards then applicable;

(4) Any increase in assets is invested in low-risk assets; and

(5) The State savings association’s ratio of core capital to total assets is not less than the ratio existing on January 1, 1991.

(e) If a State savings association fails to meet the risk-based capital requirement, the leverage ratio requirement, or the tangible capital requirement established under this subpart, the FDIC may, through enforcement proceedings or otherwise, require such State savings association to take one or more of the following corrective actions:

(1) Increase the amount of its regulatory capital to a specified level or levels;

(2) Convene a meeting or meetings with the FDIC for the purpose of accomplishing the objectives of this section;

(3) Reduce the rate of earnings that may be paid on savings accounts;

(4) Limit the receipt of deposits to those made to existing accounts;

(5) Cease or limit the issuance of new accounts of any or all classes or categories, except in exchange for existing accounts;

(6) Cease or limit lending or the making of a particular type or category of loan;

(7) Cease or limit the purchase of loans or the making of specified other investments;

(8) Limit operational expenditures to specified levels;

(9) Increase liquid assets and maintain such increased liquidity at specified levels; or

(10) Take such other action or actions as the FDIC may deem necessary or appropriate for the safety and soundness of the State savings association, or depositors or investors in the State savings association.

(f) The FDIC shall treat as an unsafe and unsound practice any material failure by a State savings association to comply with any plan, regulation, written agreement undertaken under this section or order or directive issued to
comply with the requirements of this subpart.

§ 390.470 Reservation of authority.

(a) Transactions for purposes of evasion. The FDIC may disregard any transaction entered into primarily for the purpose of reducing the minimum required amount of regulatory capital or otherwise evading the requirements of this subpart.

(b) Average versus period-end figures. The FDIC reserves the right to require a State savings association to compute its capital ratios on the basis of average, rather than period-end, assets when the FDIC determines appropriate to carry out the purposes of this subpart.

(c)(1) Reservation of authority. Notwithstanding the definitions of core and supplementary capital in §390.465, the FDIC may find that a particular type of purchased intangible asset or capital instrument constitutes or may constitute core or supplementary capital, and may permit one or more State savings associations to include all or a portion of such intangible asset or funds obtained through such capital instrument as core or supplementary capital, permanently or on a temporary basis, for the purposes of compliance with this subpart or for any other purposes. Similarly, the FDIC may find that a particular asset or core or supplementary capital component has characteristics or terms that diminish its contribution to a State savings association’s ability to absorb losses, and the FDIC may require the discounting or deduction of such asset or component from the computation of core, supplementary, or total capital.

(2) Notwithstanding §390.466, the FDIC will look to the substance of a transaction and may find that the assigned risk weight for any asset, or credit equivalent amount or credit conversion factor for any off-balance sheet item does not appropriately reflect the risks imposed on the State savings association. Accordingly, the FDIC may require the State savings association to treat the transaction as if it were consolidated on the State savings association’s balance sheet. The FDIC will look to the substance of and risk associated with the transaction as well as other relevant factors in determining whether to require such treatment and in calculating risk based capital as the FDIC deems appropriate.

(4) If this subpart does not specifically assign a risk weight, credit equivalent amount, or credit conversion factor, the FDIC may assign any risk weight, credit equivalent amount, or credit conversion factor that it deems appropriate. In making this determination, the FDIC will consider the risks associated with the asset or off-balance sheet item as well as other relevant factors.

(d) In making a determination under this paragraph (c) of this section, the FDIC will notify the State savings association of the determination and solicit a response from the State savings association. After review of the response by the State savings association, the FDIC shall issue a final supervisory decision regarding the determination made under paragraph (c) of this section.

§ 390.471 Purchased credit card relationships, servicing assets, intangible assets (other than purchased credit card relationships and servicing assets), credit-enhancing interest-only strips, and deferred tax assets.

(a) Scope. This section prescribes the maximum amount of purchased credit card relationships, serving assets, intangible assets (other than purchased credit card relationships and servicing assets), credit-enhancing interest-only strips, and deferred tax assets that State savings associations may include in calculating tangible and core capital.

(b) Computation of core and tangible capital. (1) Purchased credit card relationships may be included (that is, not deducted) in computing core capital in accordance with the restrictions in this
section, but must be deducted in computing tangible capital.

2. In accordance with the restrictions in this section, mortgage servicing assets may be included in computing core and tangible capital and nonmortgage servicing assets may be included in core capital.

3. Intangible assets, as defined in §390.461, other than purchased credit card relationships described in paragraph (b)(1) of this section, servicing assets described in paragraph (b)(2) of this section, and core deposit intangibles described in paragraph (g)(3) of this section, are deducted in computing tangible and core capital, subject to paragraph (e)(3)(ii) of this section.

4. Credit-enhancing interest-only strips may be included (that is not deducted) in computing core capital subject to the restrictions of this section, and may be included in tangible capital in the same amount.

5. Deferred tax assets may be included (that is not deducted) in computing core capital subject to the restrictions of paragraph (h) of this section, and may be included in tangible capital in the same amount.

(c) Market valuations. The FDIC reserves the authority to require any State savings association to perform an independent market valuation of assets subject to this section on a case-by-case basis or through the issuance of policy guidance. An independent market valuation, if required, shall be conducted in accordance with any policy guidance issued by the FDIC. A required valuation shall include adjustments for any significant changes in original valuation assumptions, including changes in prepayment estimates or attrition rates. The valuation shall determine the current fair value of assets subject to this section. This independent market valuation may be conducted by an independent valuation expert evaluating the reasonableness of the internal calculations and assumptions used by the State savings association in conducting its internal analysis. The State savings association shall calculate an estimated fair value for assets subject to this section at least quarterly regardless of whether an independent valuation expert is required to perform an independent market valuation.

(d) Value limitation. For purposes of calculating core capital under this subpart (but not for financial statement purposes), purchased credit card relationships and servicing assets must be valued at the lesser of:

1. Ninety (90) percent of their fair value determined in accordance with paragraph (c) of this section; or

2. One hundred (100) percent of their remaining unamortized book value determined in accordance with the instructions for the Thrift Financial Report or Consolidated Reports of Condition or Income ("Call Report."), as applicable.

(e) Core capital limitations

1. Servicing assets and purchased credit card relationships. (i) The maximum aggregate amount of servicing assets and purchased credit card relationships that may be included in core capital is limited to the lesser of:

(A) 100 percent of the amount of core capital; or

(B) The amount of servicing assets and purchased credit card relationships determined in accordance with paragraph (d) of this section.

(ii) In addition to the aggregate limitation in paragraph (e)(1)(i) of this section, a sublimit applies to purchased credit card relationships and non mortgage-related serving assets. The maximum allowable amount of these two types of assets combined is limited to the lesser of:

(A) 25 percent the amount of core capital; and

(B) The amount of purchased credit card relationships and non mortgage-related serving assets determined in accordance with paragraph (d) of this section.

2. Credit-enhancing interest-only strips. The maximum aggregate amount of credit-enhancing interest-only strips that may be included in core capital is limited to 25 percent of the amount of core capital. Purchased and retained credit-enhancing interest-only strips, on a non-tax adjusted basis, are included in the total amount that is used for purposes of determining whether a State savings association exceeds the core capital limit.
§ 390.471

(3) Computation. (i) For purposes of computing the limits and sublimits in paragraphs (e) and (h) of this section, core capital is computed before the deduction of disallowed servicing assets, disallowed purchased credit card relationships, disallowed credit-enhancing interest-only strips (purchased and retained), and disallowed deferred tax assets.

(ii) A State savings association may elect to deduct the following items on a basis net of deferred tax liabilities:

(A) Disallowed servicing assets;

(B) Goodwill such that only the net amount must be deducted from Tier 1 capital;

(C) Disallowed credit-enhancing interest-only strips (both purchased and retained); and

(D) Other intangible assets arising from non-taxable business combinations. A deferred tax liability that is specifically related to an intangible asset (other than purchased credit card relationships) arising from a non-taxable business combination may be netted against this intangible asset. The net amount of the intangible asset must be deducted from Tier 1 capital.

(iii) Deferred tax liabilities that are netted in accordance with paragraph (e)(3)(ii) of this section cannot also be netted against deferred tax assets when determining the amount of deferred tax assets that are dependent upon future taxable income.

(f) Tangible capital limitation. The maximum amount of mortgage servicing assets that may be included in tangible capital shall be the same amount includable in core capital in accordance with the limitations set by paragraph (e) of this section. All non-mortgage servicing assets are deducted in computing tangible capital.

(g) Exemption for certain subsidiaries—

(1) Exemption standard. A State savings association holding purchased mortgage servicing rights in separately capitalized, non-includable subsidiaries may submit an application for approval by the FDIC for an exemption from the deductions and limitations set forth in this section. The deductions and limitations will apply to such purchased mortgage servicing rights, however, if the FDIC determines that:

(i) The State savings association and subsidiary are not conducting activities on an arm’s length basis; or

(ii) The exemption is not consistent with the State savings association’s safe and sound operation.

(2) Applicable requirements. If the FDIC determines to grant or to permit the continuation of an exemption under paragraph (h)(1) of this section, the State savings association receiving the exemption must ensure the following:

(i) The State savings association’s investments in, and extensions of credit to, the subsidiary are deducted from capital when calculating capital under this subpart;

(ii) Extensions of credit and other transactions with the subsidiary are conducted in compliance with the rules for covered transactions with affiliates set forth in sections 23A and 23B of the Federal Reserve Act, as applied to State savings associations; and

(iii) Any contracts entered into by the subsidiary include a written disclosure indicating that the subsidiary is not a bank or State savings association; the subsidiary is an organization separate and apart from any bank or State savings association; and the obligations of the subsidiary are not backed or guaranteed by any bank or State savings association and are not insured by the FDIC.

(h) Treatment of deferred tax assets. For purposes of calculating Tier 1 capital under this subpart (but not for financial statement purposes) deferred tax assets are subject to the conditions, limitations, and restrictions described in this section.

(1) Tier 1 capital limitations. (i) The maximum allowable amount of deferred tax assets net of any valuation allowance that are dependent upon future taxable income will be limited to the lesser of:

(A) The amount of deferred tax assets that are dependent upon future taxable income that is expected to be realized within one year of the calendar quarter-end date, based on a projected future taxable income for that year; or

(B) Ten percent of the amount of Tier 1 capital that exists before the deduction of any disallowed servicing assets, any disallowed purchased credit card
relationships, any disallowed credit-enhancing interest-only strips, and any disallowed deferred tax assets.

(ii) For purposes of this limitation, all existing temporary differences should be assumed to fully reverse at the calendar quarter-end date. The recorded amount of deferred tax assets that are dependent upon future taxable income, net of any valuation allowance for deferred tax assets, in excess of this limitation will be deducted from assets and from equity capital for purposes of determining Tier 1 capital under this subpart. The amount of deferred tax assets that can be realized from taxes paid in prior carryback years and from the reversal of existing taxable temporary differences generally would not be deducted from assets and from equity capital.

(iii) Notwithstanding paragraph (h)(1)(B)(ii) of this section, the amount of carryback potential that may be considered in calculating the amount of deferred tax assets that a State savings association that is part of a consolidated group (for tax purposes) may include in Tier 1 capital may not exceed the amount which the association could reasonably expect to have refunded by its parent.

(2) Projected future taxable income. Projected future taxable income should not include net operating loss carryforwards to be used within one year of the most recent calendar quarter-end date or the amount of existing temporary differences expected to reverse within that year. Projected future taxable income should include the estimated effect of tax planning strategies that are expected to be implemented to realize tax carryforwards that will otherwise expire during that year. Future taxable income projections for the current fiscal year (adjusted for any significant changes that have occurred or are expected to occur) may be used when applying the capital limit at an interim calendar quarter-end date rather than preparing a new projection each quarter.

(3) Unrealized holding gains and losses on available-for-sale debt securities. The deferred tax effects of any unrealized holding gains and losses on available-for-sale debt securities may be excluded from the determination of the amount of deferred tax assets that are dependent upon future taxable income and the calculation of the maximum allowable amount of such assets. If these deferred tax effects are excluded, this treatment must be followed consistently over time.

APPENDIX A TO SUBPART Z OF PART 390—RISK-BASED CAPITAL REQUIREMENTS—INTERNAL-RATINGS-BASED AND ADVANCED MEASUREMENT APPROACHES

Part I General Provisions
Section 1 Purpose, Applicability, Reservations of Authority, and Principle of Conservatism
Section 2 Definitions
Section 3 Minimum Risk-Based Capital Requirements
Part II Qualifying Capital
Section 11 Additional Deductions
Section 12 Deductions and Limitations Not Required
Section 13 Eligible Credit Reserves
Part III Qualification

Part IX Transition Provisions
Section 81 Optional Transition Provisions Related to the Implementation of Consolidation Requirements Under FAS 167

PART I. GENERAL PROVISIONS

Section 1. Purpose, Applicability, Reservation of Authority, and Principle of Conservatism
(a) Purpose. This appendix establishes:
(1) Minimum qualifying criteria for State savings associations using State savings association-specific internal risk measurement and management processes for calculating risk-based capital requirements;
(2) Methodologies for such State savings associations to calculate their risk-based capital requirements; and
(3) Public disclosure requirements for such State savings associations.
(b) Applicability. (1) This appendix applies to a State savings association that:
(i) Has consolidated assets, as reported on the most recent year-end Thrift Financial Report (TFR) or Consolidated Reports of Condition or Income ("Call Report"), as applicable, equal to $250 billion or more;
(ii) Has consolidated total on-balance sheet foreign exposure at the most recent year-end equal to $10 billion or more (where total on-balance sheet foreign exposure equals total cross-border claims less claims with head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Institutions Examination Council (FFIEC) 009 Country Exposure Report);
(iii) Is a subsidiary of a depository institution that uses 12 CFR part 3, appendix C, 12 CFR part 208, appendix F, 12 CFR part 325, appendix D, or 12 CFR subpart Z of part 390, appendix A, to calculate its risk-based capital requirements; or
(iv) Is a subsidiary of a bank holding company that uses 12 CFR part 225, appendix G, to calculate its risk-based capital requirements.
(2) Any State savings association may elect to use this appendix to calculate its risk-based capital requirements.
(3) A State savings association that is subject to this appendix must use this appendix unless the FDIC determines in writing that application of this appendix is not appropriate in light of the State savings association’s asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph, the FDIC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in §390.463(d).
(c) Reservation of authority—(1) Additional capital in the aggregate. The FDIC may require a State savings association to hold an amount of capital greater than otherwise required under this appendix if the FDIC determines that the State savings association’s risk-based capital requirement under this appendix is not commensurate with the State savings association’s credit, market, operational, or other risks. In making a determination under this paragraph, the FDIC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in §390.463(d).
(2) Specific risk-weighted asset amounts. (i) If the FDIC determines that the risk-weighted asset amount calculated under this appendix by the State savings association for one or more exposures is not commensurate with the risks associated with those exposures, the FDIC may require the State savings association to assign a different risk-weighted asset amount to the exposures, to assign different risk parameters to the exposures (if the exposures are wholesale or retail exposures), or to use different model assumptions for the exposures (if relevant), all as specified by the FDIC.
(ii) If the FDIC determines that the risk-weighted asset amount for operational risk produced by the State savings association under this appendix is not commensurate with the operational risks of the State savings association, the FDIC may require the State savings association to assign a different risk-weighted asset amount for operational risk, to change elements of its operational risk analytical framework, including distributional and dependence assumptions, or to make other changes to the State savings association’s operational risk management processes, data and assessment systems, or quantification systems, all as specified by the FDIC.
(3) Regulatory capital treatment of unconsolidated entities. The FDIC may find that the capital treatment for an exposure to a transaction not subject to consolidation on the State savings association’s balance sheet...
Federal Deposit Insurance Corporation

Pt. 390, Subpt. Z, App. A

does not appropriately reflect the risks imposed on the State savings association. Accordingly, the FDIC may require the State savings association to treat the transaction as if it were consolidated on the State savings association’s balance sheet. The FDIC will look to the substance of and risk associated with the transaction as well as other relevant factors in determining whether to require such treatment and in calculating risk-based capital as the FDIC deems appropriate.

(4) Other supervisory authority. Nothing in this appendix limits the authority of the FDIC under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

(d) Principle of conservatism. Notwithstanding the requirements of this appendix, a State savings association may choose not to apply a provision of this appendix to one or more exposures, provided that:

(1) The State savings association can demonstrate on an ongoing basis to the satisfaction of the FDIC that not applying the provision would, in all circumstances, unambiguously generate a risk-based capital requirement for each such exposure greater than that which would otherwise be required under this appendix;

(2) The State savings association appropriately manages the risk of each such exposure;

(3) The State savings association notifies the FDIC in writing prior to applying this principle to each such exposure; and

(4) The exposures to which the State savings association applies this principle are not, in the aggregate, material to the State savings association.

Section 2. Definitions

Advanced internal ratings-based (IRB) systems means a State savings association’s internal risk rating and segmentation system; risk parameter quantification system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures.

Advanced systems means a State savings association’s advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent the State savings association uses the following systems, the internal models methodology, double default excessive correlation detection process, IMA for equity exposures, and IAA for securitization exposures to ABCP programs.

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Applicable external rating means:

(1) With respect to an exposure that has multiple external ratings assigned by NRSROs, the lowest solicited external rating assigned to the exposure by any NRSRO; and

(2) With respect to an exposure that has a single external rating assigned by an NRSRO, the external rating assigned to the exposure by the NRSRO.

Applicable inferred rating means:

(1) With respect to an exposure that has multiple inferred ratings, the lowest inferred rating based on a solicited external rating; and

(2) With respect to an exposure that has a single inferred rating, the inferred rating.

Asset-backed commercial paper (ABCP) program means a program that primarily issues commercial paper that:

(1) Has an external rating; and

(2) Is backed by underlying exposures held in a bankruptcy-remote SPE.

Asset-backed commercial paper (ABCP) program sponsor means a State savings association that:

(1) Establishes an ABCP program;

(2) Approves the sellers permitted to participate in an ABCP program;

(3) Approves the exposures to be purchased by an ABCP program; or

(4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Backtesting means the comparison of a State savings association’s internal estimates with actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.

Bank holding company is defined in section 2 of the Bank Holding Company Act (12 U.S.C. 1841).

Benchmarking means the comparison of a State savings association’s internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

Business environment and internal control factors means the indicators of a State savings association’s operational risk profile that reflect a current and forward-looking assessment of the State savings association’s underlying business risk factors and internal control environment.

Carrying value means, with respect to an asset, the value of the asset on the balance sheet of the State savings association, determined in accordance with GAAP.

Clean-up call means a contractual provision that permits an originating State savings association or servicer to call securitization exposures before their stated...
maturity or call date. See also eligible clean-up call.

Commodity derivative contract means a commodity-linked swap, purchased commodity-linked swap, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control. A person or company controls a company if it:

(1) Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or

(2) Consolidates the company for financial reporting purposes.

Controlled early amortization provision means an early amortization provision that meets all the following conditions:

(1) The originating State savings association has appropriate policies and procedures to ensure that it has sufficient capital and liquidity available in the event of an early amortization;

(2) Throughout the duration of the securitization (including the early amortization period), there is the same pro rata sharing of interest, principal, expenses, losses, fees, recoveries, and other cash flows from the underlying exposures based on the originating State savings association’s and the investors’ relative shares of the underlying exposures outstanding measured on a consistent monthly basis;

(3) The amortization period is sufficient for at least 90 percent of the total underlying exposures outstanding at the beginning of the early amortization period to be repaid or recognized as in default; and

(4) The schedule for repayment of investor principal is not more rapid than would be allowed by straight-line amortization over an 18-month period.

Credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure) to another party (the protection provider). See also eligible credit derivative.

Credit-enhancing interest-only strip (CEIO) means an on-balance sheet asset that, in form or in substance:

(1) Represents a contractual right to receive some or all of the interest and no more than a minimal amount of principal due on the underlying exposures of a securitization; and

(2) Exposes the holder to credit risk directly or indirectly associated with the underlying exposures that exceeds a pro rata share of the holder’s claim on the underlying exposures, whether through subordination provisions or other credit-enhancement techniques.

Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of underlying exposures (including loan servicing assets) and that obligate a State savings association to protect another party from losses arising from the credit risk of the underlying exposures. Credit-enhancing representations and warranties include provisions to protect a party from losses resulting from the default or nonperformance of the obligors of the underlying exposures or from an insufficiency in the value of the collateral backing the underlying exposures. Credit-enhancing representations and warranties do not include:

(1) Early default clauses and similar warranties that permit the return of, or premium refund clauses that cover, first-lien residential mortgage exposures for a period not to exceed 120 days from the date of transfer, provided that the date of transfer is within one year of origination of the residential mortgage exposure;

(2) Premium refund clauses that cover underlying exposures guaranteed, in whole or in part, by the U.S. government, a U.S. government agency, or a U.S. government sponsored enterprise, provided that the clauses are for a period not to exceed 120 days from the date of transfer; or

(3) Warranties that permit the return of underlying exposures in instances of misrepresentation, fraud, or incomplete documentation.

Credit risk mitigant means collateral, a credit derivative, or a guarantee.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

(1) Total wholesale and retail risk-weighted assets;

(2) Risk-weighted assets for securitization exposures; and

(3) Risk-weighted assets for equity exposures.

Current exposure means, with respect to a netting set, the larger of zero or the market value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the transactions. Current exposure is also called replacement cost.

Default—(1) Retail. (1) A retail exposure of a State savings association is in default if:

(A) The exposure is 180 days past due, in the case of a residential mortgage exposure or revolving exposure;

(B) The exposure is 120 days past due, in the case of all other retail exposures; or

(C) The State savings association has taken a full or partial charge-off, write-down of principal, or material negative fair value adjustment of principal on the exposure for credit-related reasons.
Federal Deposit Insurance Corporation

(ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure held by a non-U.S. subsidiary of the State savings association that is subject to an internal ratings-based approach to capital adequacy consistent with the Basel Committee on Banking Supervision's "International Convergence of Capital Measurement and Capital Standards: A Revised Framework" in a non-U.S. jurisdiction, the State savings association may elect to use the definition of default that is used in that jurisdiction, provided that the State savings association has obtained prior approval from the FDIC to use the definition of default in that jurisdiction.

(iii) A retail exposure in default remains in default until the State savings association has reasonable assurance of repayment and performance for all contractual principal and interest payments on the exposure.

(2) Wholesale. (i) A State savings association's wholesale obligor is in default if:

(A) The State savings association determines that the obligor is unlikely to pay its credit obligations to the State savings association in full, without recourse by the State savings association to actions such as realizing collateral (if held); or

(B) The obligor is past due more than 90 days on any material credit obligation(s) to the State savings association. 1

(ii) An obligor in default remains in default until the State savings association has reasonable assurance of repayment and performance for all contractual principal and interest payments on all exposures of the State savings association subject to the obligor (other than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and within units of measure.

Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

Derivative contract means a financial contract whose value is derived from the values of one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts include interest rate derivative contracts, exchange rate derivative contracts, equity derivative contracts, commodity derivative contracts, credit derivatives, and any other instrument that poses similar counterparty credit risks. Derivative contracts also include unsettled securities, commodities, and foreign exchange transactions with a contractual settlement or delivery lag that is longer than the lesser of the market standard for the particular instrument or five business days.

Effective maturity (M) of a wholesale exposure means:

(1) For wholesale exposures other than repo-style transactions, eligible margin loans, and OTC derivative contracts described in paragraph (d) or section 32 of this appendix, the weighted-average remaining maturity (measured in years, whole or fractional) of the expected contractual cash flows from the exposure, using the undiscounted amounts of the cash flows as weights; or

(ii) The nominal remaining maturity (measured in years, whole or fractional) of the exposure.

(2) For repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement for which the State savings association does not apply the internal models approach in paragraph (d) of section 32 of this appendix, the weighted-average remaining maturity (measured in years, whole or fractional) of the individual transactions subject to the qualifying master netting agreement, with the weight of each individual transaction set equal to the notional amount of the transaction.

(3) For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the State savings association applies the internal models approach in paragraph (d) of section 32 of this appendix, the value determined in paragraph (d)(4) of section 32 of this appendix.

Effective notional amount means, for an eligible guarantee or eligible credit derivative, the lesser of the contractual notional amount of the credit risk mitigant and the EAD of the hedged exposure, multiplied by the percentage coverage of the credit risk mitigation.

1 Overdrafts are past due once the obligor has breached an advised limit or been advised of a limit smaller than the current outstanding balance.
Eligible clean-up call means a clean-up call that:

1. Is exercisable solely at the discretion of the originating State savings association or servicer;
2. Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and
3. (i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding; or
(ii) For a synthetic securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, nth-to-default swap, total return swap, or any other form of credit derivative approved by the FDIC, provided that:

1. The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider;
2. Any assignment of the contract has been confirmed by all relevant parties;
3. If the credit derivative is a credit default swap or nth-to-default swap, the contract includes the following credit events:
   (i) Failure to pay any amount due under the terms of the reference exposure, subject to any applicable minimal payment threshold that is consistent with standard market practice and with a grace period that is closely in line with the grace period of the reference exposure; and
   (ii) Bankruptcy, insolvency, or inability of the obligor on the reference exposure to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and similar events;
4. The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;
5. If the contract allows for cash settlement, the contract incorporates a robust valuation process to estimate loss reliably and specifies a reasonable period for obtaining post-credit event valuations of the reference exposure;
6. If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the terms of at least one of the exposures that is permitted to be transferred under the contract provides that any required consent to transfer may not be unreasonably withheld;
7. If the credit derivative is a credit default swap or nth-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and
8. If the credit derivative is a total return swap and the State savings association records net payments received on the swap as net income, the State savings association records offsets of deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to absorb credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the allowance for loan and lease losses (ALLL) associated with such exposures but excluding specific reserves created against recognized losses.

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by a State savings association, means:

1. U.S.-based entities. A depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holdings of the bank or savings and loan holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1843(k), a securities broker or dealer registered with the SEC under the Securities Exchange Act of 1934 (15 U.S.C. 78o et seq.), or an insurance company in the business of providing credit protection (such as a monoline bond insurer or re-insurer) that is subject to supervision by a State insurance regulator, if:
   (i) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the State savings association assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and
   (ii) The State savings association currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category; or
2. Non-U.S.-based entities. A foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), a non-U.S.-based securities firm, or a non-U.S.-based insurance company in the business of providing credit protection, if.
Federal Deposit Insurance Corporation

(i) The State savings association demonstrates that the guarantor is subject to consolidated supervision and regulation comparable to that imposed on U.S. depositaries, banks, securities broker-dealers, or insurance companies (as the case may be), or has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating of at least investment grade;

(ii) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the State savings association assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and

(iii) The State savings association currently assigns a PD to the guarantor’s rating grade that is equal to or lower than the PD associated with a long-term external rating in the lowest investment-grade rating category.

Eligible guarantee means a guarantee that:

(1) Is written and unconditional;
(2) Covers all or a pro rata portion of all contractual payments of the obligor on the reference exposure;
(3) Gives the beneficiary a direct claim against the protection provider;
(4) Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;
(5) Is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;
(6) Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantee) of the obligor on the reference exposure in a timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;
(7) Does not increase the beneficiary’s cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure; and
(8) Is not provided by an affiliate of the State savings association, unless the affiliate is an insured depository institution, bank, securities broker or dealer, or insurance company that:

(i) Does not control the State savings association; and
(ii) Is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be).

Eligible margin loan means an extension of credit where:

(1) The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, gold, or conforming residential mortgages;
(2) The collateral is marked to market daily, and the transaction is subject to daily margin maintenance requirements;
(3) The extension of credit is conducted under an agreement that provides the State savings association the right to accelerate and terminate the extension of credit and to liquidate or set off collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions;
(4) The State savings association has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

(1) Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and
(2) Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

(1) The State savings association or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;
(2) Was generated on an arm’s-length basis between the seller and the obligor (intercompany accounts receivable and receivables subject to contra-accounts between firms that buy and sell to each other do not satisfy this criterion); and
(3) Provides the State savings association or securitization SPE with a claim on all

---

2 This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute “securities contracts” under section 555 of the Bankruptcy Code (11 U.S.C. 555), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation RR (12 CFR part 221).
Eligible securitization guarantor means:
(1) A sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank, a depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1462(c), a foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), or a securities firm;
(2) Any other entity (other than a securitization SPE that has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating in one of the three highest investment-grade rating categories; or
(3) Any other entity (other than a securitization SPE) that has a PD assigned by the State savings association that is lower than or equal to the PD associated with a long-term external rating in the third highest investment-grade rating category.

Eligible servicer cash advance facility means a servicer cash advance facility in which:
(1) The servicer is entitled to full reimbursement of advances, except that a servicer may be obligated to make non-reimbursable advances for a particular underlying exposure if any such advance is contractually limited to an insignificant amount of the outstanding principal balance of that exposure;
(2) The servicer’s right to reimbursement is senior in right of payment to all other claims on the cash flows from the underlying exposures of the securitization; and
(3) The servicer has no legal obligation to, and does not, make advances to the securitization if the servicer concludes the advances are unlikely to be repaid.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Excess spread for a period means:
(1) Gross finance charge collections and other income received by a securitization SPE (including market interchange fees) over a period minus interest paid to the holders of the securitization exposures, servicing fees, charge-offs, and other senior trust or similar expenses of the SPE over the period, divided by
(2) The principal balance of the underlying exposures at the end of the period.

Exchange rate derivative contract means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Excluded mortgage exposure means any one- to four-family residential pre-sold construction loan for a residence for which the purchase contract is cancelled that would receive a 10 percent risk weight under section 619(a)(2) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act and under 12 CFR 390.461 (definition of “qualifying residential construction loan”) and 12 CFR 390.46E(a)(1)(iv).

Expected credit loss (ECL) means:
(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero.
(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of PD times LGD times EAD for the exposure or segment.
Federal Deposit Insurance Corporation

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the State savings association’s impairment estimate for allowance purposes for the exposure or segment.

(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the State savings association has applied the double default treatment in section 34 of this appendix.

Expected exposure (EE) means the expected value of the probability distribution of non-negative credit risk exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative market values in the probability distribution of market values to a counterparty at a specified future date are set to zero to convert the probability distribution of market values to the probability distribution of credit risk exposures.

Expected operational loss (EOL) means the expected value of the distribution of potential aggregate operational losses, as generated by the State savings association’s operational risk quantification system using a one-year horizon.

Expected positive exposure (EPE) means the weighted average over time of expected (non-negative) exposures to a counterparty where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

Expected exposure at default (EAD). (1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the State savings association determines EAD under section 32 of this appendix) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means:

(i) If the exposure or segment is a security classified as available-for-sale, the State savings association’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any unrealized gains on the exposure or segment and plus any unrealized losses on the exposure or segment; or
(ii) If the exposure or segment is not a security classified as available-for-sale, the State savings association’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the State savings association determines EAD under section 32 of this appendix) in the form of a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the State savings association’s best estimate of net additions to the outstanding amount owed the State savings association, including estimated future additional draws of principal and accrued but unpaid interest and fees, that are likely to occur over a one-year horizon assuming the wholesale exposure or the retail exposures in the segment were to go into default. This estimate of net additions must reflect what would be expected during economic downturn conditions. Trade-related letters of credit are short-term, self-liquidating instruments that are used to finance the movement of goods and are collateralized by the underlying goods. Transaction-related contingencies relate to a particular transaction and include, among other things, performance bonds and performance-based letters of credit.

(3) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the State savings association determines EAD under section 32 of this appendix) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the notional amount of the exposure or segment.

(4) EAD for OTC derivative contracts is calculated as described in section 32 of this appendix. A State savings association also may determine EAD for repo-style transactions and eligible margin loans as described in section 32 of this appendix.

(5) For wholesale or retail exposures in which only the drawn balance has been securitized, the State savings association must reflect its share of the exposures’ undrawn balances in EAD. Undrawn balances of revolving exposures for which the drawn balances have been securitized must be allocated between the seller’s and investors’ interests on a pro rata basis, based on the proportional of the seller’s and investors’ shares of the securitized drawn balances.

Exposure category means any of the wholesale, retail, securitization, or equity exposure categories.

External operational loss event data means, with respect to a State savings association, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at organizations other than the State savings association.

External rating means a credit rating that is assigned by an NRSRO to an exposure, provided:

(1) The credit rating fully reflects the entire amount of credit risk with regard to all payments owed to the holder of the exposure. If a holder is owed principal and interest on an exposure, the credit rating must fully reflect the credit risk associated with timely
repayment of principal and interest. If a holder is owed only principal on an exposure, the credit rating must fully reflect only the credit risk associated with timely repayment of principal.

(2) The credit rating is published in an accessible form and is or will be included in the transition matrices made publicly available by the NRSRO that summarize the historical performance of positions rated by the NRSRO.

Financial collateral means collateral:

(1) In the form of:

(a) Cash on deposit with the State savings association (including cash held for the State savings association by a third-party custodian or trustee);

(b) Gold bullion;

(c) Long-term debt securities that have an applicable external rating of one category below investment grade or higher;

(d) Short-term debt instruments that have an applicable external rating of at least investment grade;

(e) Equity securities that are publicly traded;

(f) Convertible bonds that are publicly traded;

(g) Money market mutual fund shares and other mutual fund shares if a price for the shares is publicly quoted daily; or

(h) Conforming residential mortgages; and

(2) In which the State savings association has a perfected, first priority security interest or, outside of the United States, the legal equivalent thereof (with the exception of cash on deposit and notwithstanding the prior security interest of any custodial agent).

GAAP means generally accepted accounting principles as used in the United States.

Gain-on-sale means an increase in the equity capital (as reported on Schedule SC of the Thrift Financial Report or in the Consolidated Reports of Condition or Income ("Call Report"), as applicable, of a State savings association that results from a securitization (other than an increase in equity capital that results from the State savings association’s receipt of cash in connection with the securitization).

Guarantee means a financial guarantee, letter of credit, insurance, or other similar financial instrument (other than a credit derivative) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider). See also eligible guarantee.

High volatility commercial real estate (HVCRE) exposure means a credit facility that finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:

(1) One- to four-family residential properties; or

(2) Commercial real estate projects in which:

(a) The loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio in the PDCF’s real estate lending standards at 12 CFR 390.264–390.265;

(b) The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised "as completed" value; and

(c) The borrower contributed the amount of capital required by paragraph (2)(ii) of this definition before the State savings association advances funds under the credit facility, and the capital contributed by the borrower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to permanent financing or is sold or paid in full. Permanent financing may be provided by the State savings association that provided the ADC facility as long as the permanent financing is subject to the State savings association’s underwriting criteria for long-term mortgage loans.

Inferred rating. A securitization exposure has an inferred rating equal to the external rating referenced in paragraph (2)(i) of this definition if:

(1) The securitization exposure does not have an external rating; and

(2) Another securitization exposure issued by the same issuer and secured by the same underlying exposures:

(a) Has an external rating;

(b) Is subordinated in all respects to the unrated securitization exposure;

(c) Does not benefit from any credit enhancement that is not available to the unrated securitization exposure; and

(d) Has an effective remaining maturity that is equal to or longer than that of the unrated securitization exposure.

Interest rate derivative contract means a single-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates that give rise to similar counterparty credit risks.

Internal operational loss event data means, with respect to a State savings association, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at the State savings association.

Investing State savings association means, with respect to a securitization, a State savings association that assumes the credit risk of a securitization exposure (other than an originating State savings association of the securitization). In the typical synthetic
securitization, the investing State savings association sells credit protection on a pool of underlying exposures to the originating State savings association. 

Investment fund means a company: 
(1) All or substantially all of the assets of which are financial assets; and 
(2) That has no material liabilities. 

Investors’ interest EAD means, with respect to a securitization, the EAD of the underlying exposures multiplied by the ratio of: 
(1) The total amount of securitization exposures issued by the securitization SPE to investors; divided by 
(2) The outstanding principal amount of underlying exposures. 

Loss given default (LGD) means: 
(1) For a wholesale exposure, the greatest of: 
(i) Zero; 
(ii) The State savings association’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the State savings association would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the State savings association to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or 
(iii) The State savings association’s empirically based best estimate of the economic loss, per dollar of EAD, the State savings association would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the State savings association to the exposure) were to default within a one-year horizon during economic downturn conditions. 

(2) For a segment of retail exposures, the greatest of: 
(i) Zero; 
(ii) The State savings association’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the State savings association would expect to incur if the exposures in the segment were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or 
(iii) The State savings association’s empirically based best estimate of the economic loss, per dollar of EAD, the State savings association would expect to incur if the exposures in the segment were to default within a one-year horizon during economic downturn conditions. 

(3) The economic loss on an exposure in the event of default is all material credit-related losses on the exposure (including accrued but unpaid interest or fees, losses on the sale of collateral, direct workout costs, and an appropriate allocation of indirect workout costs). Where positive or negative cash flows on a wholesale exposure to a defaulted obligor or a defaulted retail exposure (including proceeds from the sale of collateral, workout costs, additional extensions of credit to facilitate repayment of the exposure, and draw-downs of unused credit lines) occur after the date of default, the economic loss must reflect the net present value of cash flows as of the default date using a discount rate appropriate to the risk of the defaulted exposure. 

Main index means the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the State savings association can demonstrate to the satisfaction of the FDIC that the equities represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor’s 500 Index and FTSE All-World Index. 

Multilateral development bank means the International Bank for Reconstruction and Development, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the FDIC determines poses comparable credit risk. 

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or qualifying cross-product master netting agreement. For purposes of the internal models methodology in paragraph (d) of section 32 of this appendix, each transaction that is not subject to such a master netting agreement is its own netting set. 

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures. 

Obliger means the legal entity or natural person contractually obligated on a wholesale exposure, except that a State savings association may treat the following exposures as having separate obligors: 
(1) Exposures to the same legal entity or natural person denominated in different currencies; 
(2)(i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on the cash flows of the real estate serving as collateral for the exposure; the State savings
association, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses solely out of an abundance of caution; and
   (ii) Other credit exposures to the same legal entity or natural person; and
   (iii) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and
   (iv) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an operational loss event. Operational loss includes all expenses associated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management and control enhancements implemented to prevent future operational losses.

Operational loss event means an event that results in loss and is associated with any of the following seven operational loss event type categories:

(1) Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent the law, and company policy, excluding diversity- and discrimination-type events.

(2) External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party initiated credit losses are to be treated as credit risk losses.

(3) Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from diversity- and discrimination-type events.

(4) Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

(5) Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

(6) Business disruption and system failures, which means the operational loss event type category that comprises operational losses resulting from disruption of business or system failures.

(7) Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the State savings association’s operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Originate State savings association, with respect to a securitization, means a State savings association that:

(1) Directly or indirectly originated or securitized the underlying exposures included in the securitization; or

(2) Serves as an ABCP program sponsor to the securitization.

Other retail exposure means an exposure (other than a securitization exposure, an equity exposure, a residential mortgage exposure, an excluded mortgage exposure, a qualifying revolving exposure, or the residual value portion of a lease exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

(1) An exposure to an individual for non-business purposes; or

(2) An exposure to an individual or company for business purposes if the State savings association’s consolidated business credit exposure to the individual or company is $1 million or less.

Over-the-counter (OTC) derivative contract means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.

Probability of default (PD) means:

(1) For a wholesale exposure to a non-defaulted obligor, the State savings association’s empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the State savings association to the obligor, capturing the average default experience for obligors in the
rating grade over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment and adjusted upward as appropriate for segments for which seasoning effects are material. For purposes of this definition, a segment for which seasoning effects are material is a segment where there is a material relationship between the time since origination of exposures within the segment and the State savings association’s best estimate of the long-run average one-year default rate for the exposures in the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, 100 percent.

**Protection amount (P)** means, with respect to an exposure hedged by an eligible guarantee or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in section 33 of this appendix).

**Publicly traded** means traded on:

1. Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or
2. Any non-U.S.-based securities exchange that:
   1. Is registered with, or approved by, a national securities regulatory authority; and
   2. Provides a liquid, two-way market for the instrument in question, meaning that there are enough independent bona fide offers to buy and sell so that a sales price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined promptly and a trade can be settled at such a price within five business days.

**Qualifying central counterparty** means a counterparty (for example, a clearinghouse) that:

1. Facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts;
2. Requires all participants in its arrangements to be fully collateralized on a daily basis; and
3. The State savings association demonstrates to the satisfaction of the FDIC is in sound financial condition and is subject to effective oversight by a national supervisory authority.

**Qualifying cross-product master netting agreement** means a qualifying master netting agreement that provides for termination and close-out netting across multiple types of financial transactions or qualifying master netting agreements in the event of a counterparty’s default, provided that:

1. The underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions; and
2. The State savings association obtains a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding.

**Qualifying master netting agreement** means any written, legally enforceable bilateral agreement, provided that:

1. The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default, including bankruptcy, insolvency, or similar proceeding, of the counterparty;
2. The agreement provides the State savings association the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions;
3. The State savings association has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that:
   1. The agreement meets the requirements of paragraph (2) of this definition; and
   2. In the event of a legal challenge (including one resulting from default or from bankruptcy, insolvency, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions;
4. The State savings association establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of this definition; and
5. The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it would make otherwise under the agreement, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate...
of the defaulter is a net creditor under the agreement).

Qualifying revolving exposure (QRE) means an exposure (other than a securitization exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

(1) Is revolving (that is, the amount outstanding fluctuates, determined largely by the borrower’s decision to borrow and repay, up to a pre-established maximum amount);

(2) Is unsecured and unconditionally cancelable by the State savings association to the fullest extent permitted by Federal law; and

(3) Has a maximum exposure amount (drawn plus undrawn) of up to $100,000.

*Repo-style transaction* means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the State savings association acts as agent for a customer and indemnifies the customer against loss, provided that:

(1) The transaction is based solely on liquid and readily marketable securities, cash, gold, or conforming residential mortgages;

(2) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;

(3)(i) The transaction is a “securities contract” or “repurchase agreement” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1829(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 481–487) or the Federal Reserve Board’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:

(A) The transaction is executed under an agreement that provides the State savings association the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and

(B) The transaction is:

(1) Either overnight or unconditionally cancelable at any time by the State savings association; and

(2) Executed under an agreement that provides the State savings association the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and

(4) The State savings association has conducted sufficient legal review to conclude with a well-founded basis (and maintaining sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Residential mortgage exposure means an exposure (other than a securitization exposure, equity exposure, or excluded mortgage exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is:

(1) An exposure that is primarily secured by a first or subsequent lien on one- to four-family residential property; or

(2) An exposure with an original and outstanding amount of $1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one to four family.

Retail exposure means a residential mortgage exposure, a qualifying revolving exposure, or another retail exposure.

Retail exposure subcategory means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

Risk parameter means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

Scenario analysis means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to a State savings association’s operational risk profile and control structure.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a traditional securitization or a synthetic securitization.

Securitization exposure means an on-balance sheet or off-balance sheet credit exposure that arises from a traditional or synthetic securitization (including credit-enhancing representations and warranties).

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of which is intended to isolate the underlying...
exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Senior securitization exposure means a securitization exposure that has a first priority claim on the cash flows from the underlying exposures. When determining whether a securitization exposure has a first priority claim on the cash flows from the underlying exposures, a State savings association is not required to consider amounts due under interest rate or currency derivative contracts, fees due, or other similar payments. Both the most senior commercial paper issued by an ABCP program and a liquidity facility that supports the ABCP program may be senior securitization exposures if the liquidity facility provider’s right to reimbursement of the drawn amounts is senior to all claims on the cash flows from the underlying exposures except amounts due under interest rate or currency derivative contracts, fees due, or other similar payments.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the underlying exposures. See also eligible servicer cash advance facility.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign exposure means:

(1) A direct exposure to a sovereign entity; or

(2) An exposure directly and unconditionally backed by the full faith and credit of a sovereign entity.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees; or

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures; and

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tier 1 capital is defined in §§390.461–390.471, as modified in part II of this appendix.

Tier 2 capital is defined in §§390.461–390.471, as modified in part II of this appendix.

Total qualifying capital means the sum of tier 1 capital and tier 2 capital, after all deductions required in this appendix.

Total risk-weighted assets means:

(1) The sum of:

(a) Credit risk-weighted assets; and

(b) Risk-weighted assets for operational risk; minus

(2) Excess eligible credit reserves not included in tier 2 capital.

Total wholesale and retail risk-weighted assets means the sum of risk-weighted assets for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures; risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures; risk-weighted assets for assets not defined by an exposure category; and risk-weighted assets for nonmaterial portfolios of exposures (all as determined in section 31 of this appendix) and risk-weighted assets for unsettled transactions (as determined in section 35 of this appendix) minus the amounts deducted from capital pursuant to §§390.461–390.471 (excluding those deductions reversed in section 12 of this appendix).

Traditional securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) The underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 662); and

(7) The underlying exposures are not owned by a firm an investment in which is designed primarily to promote community welfare, including the welfare of low- and moderate-income communities or families, such as by providing services or jobs.

(8) The FDIC may determine that a transaction in which the underlying exposures are
owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

(b) The FDIC may deem a transaction that meets the definition of a traditional securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

Tranche means all securitization exposures associated with a securitization that have the same seniority level.

Underlying exposures means one or more exposures that have been securitized in a securitization transaction.

Unexpected operational loss (UOL) means the difference between the State savings association’s operational risk exposure and the State savings association’s expected operational loss.

Unit of measure means the level (for example, organizational unit or operational loss event type) at which the State savings association’s operational risk quantification system generates a separate distribution of potential operational losses.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more exposures could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Wholesale exposure means a credit exposure to a company, natural person, sovereign entity, or governmental entity (other than a securitization exposure, retail exposure, excluded mortgage exposure, or equity exposure). Examples of a wholesale exposure include:

(a) A non-tranching guarantee issued by a State savings association on behalf of a company;

(b) A repo-style transaction entered into by a State savings association with a company and any other transaction in which a State savings association posts collateral to a company, natural person, sovereign entity, or governmental entity and faces counterparty credit risk;

(c) An exposure that a State savings association treats as a covered position under any applicable market risk rule for which there is a counterparty credit risk capital requirement;

(d) A sale of corporate loans by a State savings association to a third party in which the State savings association retains full recourse;

(e) An OTC derivative contract entered into by a State savings association with a company;

(f) An exposure to an individual that is not managed by a State savings association as part of a segment of exposures with homogeneous risk characteristics; and

(g) A commercial lease.

Wholesale exposure subcategory means the HVCRE or non-HVCRE wholesale exposure subcategory.

Section 3. Minimum Risk-Based Capital Requirements

(a) Except as modified by paragraph (c) of this section or by section 23 of this appendix, each State savings association must meet a minimum ratio of:

(1) Total qualifying capital to total risk-weighted assets of 8.0 percent; and

(2) Tier 1 capital to total risk-weighted assets of 4.0 percent.

(b) Each State savings association must hold capital commensurate with the level and nature of all risks to which the State savings association is exposed.

(c) When a State savings association subject to any applicable market risk rule calculates its risk-based capital requirements under this appendix, the State savings association must also refer to any applicable market risk rule for supplemental rules to calculate risk-based capital requirements adjusted for market risk.

Section 11. Additional Deductions

(a) General. A State savings association that uses this appendix must make the same deductions from its tier 1 capital and tier 2 capital required in §§390.461–390.471 except that:

(1) A State savings association is not required to deduct certain equity investments and CEIOs (as provided in section 12 of this appendix); and

(2) A State savings association also must make the deductions from capital required by paragraphs (b) and (c) of this section.

(b) Deductions from tier 1 capital. A State savings association must deduct from tier 1 capital any gain-on-sale associated with a securitization exposure as provided in paragraph (a) of section 41 and paragraphs (a)(1), (c), (g)(1), and (h)(1) of section 42 of this appendix.

(c) Deductions from tier 1 and tier 2 capital. A State savings association must deduct the exposures specified in paragraphs (c)(1) through (c)(7) in this section 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the State savings association’s actual tier 2 capital, however, the State savings association must deduct the excess from tier 1 capital.

(1) Credit-enhancing interest-only strips (CEIOs). In accordance with paragraphs (a)(1) and (c) of section 42 of this appendix, any CEIO that does not constitute gain-on-sale.
Federal Deposit Insurance Corporation

Section 20. Non-qualifying securitization exposures. In accordance with paragraphs (a)(4) and (c) of section 42 of this appendix, any securitization exposure that does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach under sections 43, 44, and 45 of this appendix, respectively.

(3) Securitizations of non-IRB exposures. In accordance with paragraphs (c) and (g)(4) of section 42 of this appendix, certain exposures to a securitization any underlying exposure of which is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure.

(4) Low-rated securitization exposures. In accordance with section 43 and paragraph (c) of section 42 of this appendix, any securitization exposure that qualifies for and must be deducted under the Ratings-Based Approach.

(5) High-risk securitization exposures subject to the Supervisory Formula Approach. In accordance with paragraphs (b) and (c) of section 46 of this appendix and paragraph (c) of section 42 of this appendix, certain high-risk securitization exposures (or portions thereof) that qualify for the Supervisory Formula Approach.

(6) Eligible credit reserves shortfall. In accordance with paragraph (a)(1) of section 13 of this appendix, any eligible credit reserves shortfall.

(7) Certain failed capital markets transactions. In accordance with paragraph (e)(3) of section 35 of this appendix, the State savings association’s exposure on certain failed capital markets transactions.

Section 13. Eligible Credit Reserves

(a) Comparison of eligible credit reserves to expected credit losses. (1) Shortfall of eligible credit reserves. If a State savings association’s eligible credit reserves are less than the State savings association’s total expected credit losses, the State savings association must deduct the shortfall amount.

(2) Excess eligible credit reserves. If a State savings association’s eligible credit reserves exceed the State savings association’s total expected credit losses, the State savings association may include the excess amount in tier 2 capital to the extent that the excess amount does not exceed 0.6 percent of the State savings association’s credit-risk-weighted assets.

(b) Treatment of allowance for loan and lease losses. Regardless of any provision in §§390.461 through 390.471, the ALLL is included in tier 2 capital only to the extent provided in paragraph (a)(2) of this section and in section 24 of this appendix.

PART III. QUALIFICATION

Section 21. Qualification Process

(a) Timing. (1) A State savings association that is described in paragraph (b)(1) of section 1 of this appendix must adopt a written implementation plan no later than six months after the later of April 1, 2008, or the date the State savings association meets a criterion in that section. The implementation plan must incorporate an explicit first floor period start date.

(2) A State savings association that elects to be subject to this appendix under paragraph (b)(2) of section 1 of this appendix must adopt a written implementation plan.

(b) Implementation plan. (1) The State savings association’s implementation plan must address in detail how the State savings association complies, or plans to comply, with the qualification requirements in section 22 of this appendix. The State savings association also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in section 22 of this appendix for the State savings association and each consolidated subsidiary (U.S. and foreign-based) of the State savings association with respect to all portfolios and exposures of the State savings association and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the State savings association);
To begin its parallel run, unless the FDIC before the State savings association proposes to the FDIC at least 60 days a copy of the minutes of the board of directors, to the FDIC at least 60 days an implementation plan, together with the FDIC’s supervisory guidance on the qualification requirements.

- (iii) Include the State savings association’s self-assessment of:
  - (A) The State savings association’s current status in meeting the qualification requirements in section 22 of this appendix; and
  - (B) The consistency of the State savings association’s current practices with theFDIC’s supervisory guidance on the qualification requirements;
- (iv) Based on the State savings association’s self-assessment, identify and describe the areas in which the State savings association proposes to undertake additional work to comply with the qualification requirements in section 22 of this appendix or to improve the consistency of the State savings association’s current practices with the FDIC’s supervisory guidance on the qualification requirements (gap analysis);
- (v) Describe what specific actions the State savings association will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;
- (vi) Identify objective, measurable milestones, including delivery dates and a date when the State savings association’s implementation of the methodologies described in this appendix will be fully operational;
- (vii) Describe resources that have been budgeted and are available to implement the plan; and
- (viii) Receive approval of the State savings association’s board of directors.

(2) The State savings association must submit the implementation plan, together with a copy of the minutes of the board of directors’ approval, to the FDIC at least 60 days before the State savings association proposes to begin its parallel run, unless the FDIC waives prior notice.

(c) Parallel run. Before determining its risk-based capital requirements under this appendix and following adoption of the implementation plan, the State savings association must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the State savings association complies with the qualification requirements in section 22 of this appendix to the satisfaction of the FDIC. During the parallel run, the State savings association must report to the FDIC on a calendar quarterly basis its risk-based capital ratios using §§390.461 through 390.471 and the risk-based capital requirements described in this appendix. During this period, the State savings association is subject to §§390.461 through 390.471.

(d) Approval to calculate risk-based capital requirements under this appendix. The FDIC will notify the State savings association of the date that the State savings association may begin its first floor period if the FDIC determines that:

(1) The State savings association fully complies with all the qualification requirements in section 22 of this appendix;
(2) The State savings association has conducted a satisfactory parallel run under paragraph (c) of this section; and
(3) The State savings association has an adequate process to ensure ongoing compliance with the qualification requirements in section 22 of this appendix.

(e) Transitional floor periods. Following a satisfactory parallel run, a State savings association is subject to three transitional floor periods.

1. Risk-based capital ratios during the transitional floor periods—(i) Tier 1 risk-based capital ratio. During a State savings association’s transitional floor periods, the State savings association’s tier 1 risk-based capital ratio is equal to the lower of:
   - (A) The State savings association’s floor-adjusted tier 1 risk-based capital ratio; or
   - (B) The appropriate transitional floor ratio.

(ii) Total risk-based capital ratio. During a State savings association’s transitional floor periods, the State savings association’s total risk-based capital ratio is equal to the lower of:
   - (A) The State savings association’s floor-adjusted total risk-based capital ratio; or
   - (B) The appropriate transitional floor ratio.

2. Floor-adjusted risk-based capital ratios. (i) A State savings association’s floor-adjusted tier 1 risk-based capital ratio during a transitional floor period is equal to the sum of the State savings association’s tier 1 capital as calculated under §§390.461 through 390.471, divided by the product of:
   - (A) The State savings association’s total risk-weighted assets as calculated under §§390.461 through 390.471; and
   - (B) The appropriate transitional floor percentage in Table 1.

(ii) A State savings association’s floor-adjusted total risk-based capital ratio during a transitional floor period is equal to the sum of the State savings association’s tier 1 capital as calculated under §§390.461 through 390.471, divided by the product of:
   - (A) The State savings association’s total risk-weighted assets as calculated under §§390.461 through 390.471; and
   - (B) The appropriate transitional floor percentage in Table 1.

(iii) A State savings association that meets the criteria in paragraph (b)(1) or (b)(2) of section 1 of this appendix as of April 1, 2008, must use §§390.461 through 390.471 during the parallel run and as the basis for its transitional floors.
A State savings association must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). A State savings association may elect, however, not to assign to an obligor a rating grade if the obligor is not fully covered by eligible guarantees.

(b) Risk rating and segmentation systems for wholesale and retail exposures. (1) A State savings association must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the State savings association’s wholesale and retail exposures.

(2) For wholesale exposures:

(i) A State savings association must have an internal rating system and models that reflect the obligor’s likelihood of default and its ability to meet its obligations based on the obligor’s financial strength. A State savings association must use an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the State savings association’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a State savings association’s risk-based capital requirements are located at any affiliate of the State savings association, the State savings association itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(ii) A State savings association may exit a transitional floor period if the State savings association has spent a minimum of four consecutive calendar quarters in the period and the FDIC has determined that the State savings association may exit the floor period. The FDIC’s determination will be based on an assessment of the State savings association’s ongoing compliance with the qualification requirements in section 22 of this appendix.

(b) Interagency study. After the end of the second transition year (2010), the Federal banking agencies will publish a study that evaluates the advanced approaches to determining the States savings association’s ongoing compliance with the qualification requirements of this section and are appropriate given the State savings association’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a State savings association’s risk-based capital requirements are located at any affiliate of the State savings association, the State savings association itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures. (1) A State savings association must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the State savings association’s wholesale and retail exposures.

(2) For wholesale exposures:

(i) A State savings association must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). A State savings association may elect, however, not to assign to an obligor a rating grade if the obligor is not fully covered by eligible guarantees.

(ii) A State savings association may exit a transitional floor period if the State savings association has spent a minimum of four consecutive calendar quarters in the period and the FDIC has determined that the State savings association may exit the floor period. The FDIC’s determination will be based on an assessment of the State savings association’s ongoing compliance with the qualification requirements in section 22 of this appendix.

(b) Interagency study. After the end of the second transition year (2010), the Federal banking agencies will publish a study that evaluates the advanced approaches to determining the States savings association’s ongoing compliance with the qualification requirements of this section and are appropriate given the State savings association’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a State savings association’s risk-based capital requirements are located at any affiliate of the State savings association, the State savings association itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures. (1) A State savings association must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the State savings association’s wholesale and retail exposures.

(2) For wholesale exposures:

(i) A State savings association must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). A State savings association may elect, however, not to assign to an obligor a rating grade if the obligor is not fully covered by eligible guarantees.

(ii) A State savings association may exit a transitional floor period if the State savings association has spent a minimum of four consecutive calendar quarters in the period and the FDIC has determined that the State savings association may exit the floor period. The FDIC’s determination will be based on an assessment of the State savings association’s ongoing compliance with the qualification requirements in section 22 of this appendix.

(b) Interagency study. After the end of the second transition year (2010), the Federal banking agencies will publish a study that evaluates the advanced approaches to determining the States savings association’s ongoing compliance with the qualification requirements of this section and are appropriate given the State savings association’s size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a State savings association’s risk-based capital requirements are located at any affiliate of the State savings association, the State savings association itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures. Section 22. Qualification Requirements

(a) Process and systems requirements. (1) A State savings association must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.
exposure). A State savings association employing loss severity rating grades must have a sufficiently granular loss severity grading system to avoid grouping together exposures with differing LGDs.

(3) For retail exposures, a State savings association must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The State savings association’s system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(ii) and (iii) of section 31 of this appendix.

(4) The State savings association’s internal risk rating policy for wholesale exposures must describe the State savings association’s rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the State savings association’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The State savings association’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the State savings association receives new material information, but no less frequently than annually. The State savings association’s retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the State savings association receives new material information, but generally no less frequently than quarterly.

(c) Quantification of risk parameters for wholesale and retail exposures. (1) The State savings association must have a comprehensive risk parameter quantification process that produces accurate, timely, and reliable estimates of the risk parameters for the State savings association’s wholesale and retail exposures.

(2) Data used to estimate the risk parameters must be relevant to the State savings association’s actual wholesale and retail exposures, and of sufficient quality to support the determination of risk-based capital requirements for the exposures.

(3) The State savings association’s risk parameter quantification process must produce appropriately conservative risk parameter estimates where the State savings association has limited relevant data, and any adjustments that are part of the quantification process must not result in a pattern of bias toward lower risk parameter estimates.

(4) The State savings association’s risk parameter estimation process should rely on the possibility of U.S. government financial assistance, except for the financial assistance that the U.S. government has a legally binding commitment to provide.

(5) Where the State savings association’s quantifications of LGD directly or indirectly incorporate estimates of the effectiveness of its credit risk management practices in reducing its exposure to troubled obligors prior to default, the State savings association must support such estimates with empirical analysis showing that the estimates are consistent with its historical experience in dealing with such exposures during economic downturn conditions.

(6) PD estimates for wholesale obligors and retail segments must be based on at least five years of default data. LGD estimates for wholesale exposures must be based on at least seven years of loss severity data, and LGD estimates for retail segments must be based on at least five years of loss severity data. EAD estimates for wholesale exposures must be based on at least seven years of exposure amount data, and EAD estimates for retail segments must be based on at least five years of exposure amount data.

(7) Default, loss severity, and exposure amount data must include periods of economic downturn conditions, or the State savings association must adjust its estimates of risk parameters to compensate for the lack of data from periods of economic downturn conditions.

(8) The State savings association’s PD, LGD, and EAD estimates must be based on the definition of default in this appendix.

(9) The State savings association must review and update (as appropriate) its risk parameters and its risk parameter quantification process at least annually.

(10) The State savings association must at least annually conduct a comprehensive review and analysis of reference data to determine relevance of reference data to the State savings association’s exposures, quality of reference data to support PD, LGD, and EAD estimates, and consistency of reference data to the definition of default contained in this appendix.

(d) Counterparty credit risk model. A State savings association must obtain the prior written approval of the FDIC under section 32 of this appendix to use the internal models methodology for counterparty credit risk.

(e) Double default treatment. A State savings association must obtain the prior written approval of the FDIC under section 34 of this appendix to use the double default treatment.

(f) Securitization exposures. A State savings association must obtain the prior written approval of the FDIC under section 44 of this appendix to use the Internal Assessment Approach for securitization exposures to ABCP programs.
Federal Deposit Insurance Corporation

(g) Equity exposures model. A State savings association must obtain the prior written approval of the FDIC under section 53 of this appendix to use the Internal Models Approach for equity exposures.

(h) Operational risk—(1) Operational risk management processes. A State savings association must:

(i) Have an operational risk management function that:

(A) Is independent of business line management; and

(B) Is responsible for designing, implementing, and overseeing the State savings association’s operational risk data and assessment systems, operational risk quantification systems, and related processes;

(ii) Have and document a process (which must capture business environment and internal control factors affecting the State savings association’s operational risk profile) to identify, measure, monitor, and control operational risk in State savings association products, activities, processes, and systems; and

(iii) Report operational risk exposures, operational loss events, and other relevant operational risk information to business unit management, senior management, and the board of directors (or a designated committee of the board).

(2) Operational risk data and assessment systems. A State savings association must have operational risk data and assessment systems that capture operational risks to which the State savings association is exposed. The State savings association’s operational risk data and assessment systems must:

(i) Be structured in a manner consistent with the State savings association’s current business activities, risk profile, technological processes, and risk management processes; and

(ii) Include credible, transparent, systematic, and verifiable processes that incorporate the following elements on an ongoing basis:

(A) Internal operational loss event data. The State savings association must have a systematic process for capturing and using internal operational loss event data in its operational risk data and assessment systems.

(B) External operational loss event data. The State savings association must incorporate business environment and internal control factors into its operational risk data and assessment systems.

(C) Scenario analysis. The State savings association must incorporate scenario analysis into its operational risk data and assessment systems.

(D) Business environment and internal control factors. The State savings association must incorporate business environment and internal control factors into its operational risk data and assessment systems.

(3) Operational risk quantification systems. (i) The State savings association’s operational risk quantification systems:

(A) Must generate estimates of the State savings association’s operational risk exposure using its operational risk data and assessment systems;

(B) Must employ a unit of measure that is appropriate for the State savings association’s range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;

(C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (h)(2)(ii) of this section, that a State savings association is required to incorporate into its operational risk data and assessment systems;

(D) May use internal estimates of dependence among operational losses across and within units of measure if the State savings association can demonstrate to the satisfaction of the FDIC that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with integrity, and allows for the uncertainty surrounding the estimates. If the State savings association has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and
(E) Must be reviewed and updated (as appropriate) whenever the State savings association becomes aware of information that may have a material effect on the State savings association’s estimate of operational risk exposure, but the review and update must occur no less frequently than annually.

(ii) With the prior written approval of the FDIC, a State savings association may generate an estimate of its operational risk exposure using an alternative approach to that specified in paragraph (h)(3)(i) of this section. A State savings association proposing to use such an alternative operational risk quantification system must submit a proposal to the FDIC. In determining whether to approve a State savings association’s proposal to use an alternative operational risk quantification system, the FDIC will consider the following principles:

(A) Use of the alternative operational risk quantification system will be allowed only on an exception basis, considering the size, complexity, and risk profile of the State savings association;

(B) The State savings association must demonstrate that its estimate of its operational risk exposure generated under the alternative operational risk quantification system is appropriate and can be supported empirically; and

(C) A State savings association must not use an allocation of operational risk capital requirements that includes entities other than depository institutions or the benefits of diversification across entities.

(i) Data management and maintenance. (1) A State savings association must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.

(2) A State savings association must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.

(3) A State savings association must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.

(ii) Control, oversight, and validation mechanisms. (1) The State savings association’s senior management must ensure that all components of the State savings association’s advanced systems function effectively and comply with the qualification requirements in this section.

(2) The State savings association’s board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the State savings association’s advanced systems.

(3) A State savings association must have an effective system of controls and oversight that:

(i) Ensures ongoing compliance with the qualification requirements in this section;

(ii) Maintains the integrity, reliability, and accuracy of the State savings association’s advanced systems; and

(iii) Includes adequate governance and project management processes.

(4) The State savings association must validate, on an ongoing basis, its advanced systems. The State savings association’s validation process must be independent of the advanced systems’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the advanced systems;

(ii) An ongoing monitoring process that includes verification of processes and benchmarking; and

(iii) An outcomes analysis process that includes back-testing.

(5) The State savings association must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the State savings association’s advanced systems and reports its findings to the State savings association’s board of directors (or a committee thereof).

(6) The State savings association must periodically stress test its advanced systems. The stress testing must include a consideration of how economic cycles, especially downturns, affect risk-based capital requirements (including migration across rating grades and segments and the credit risk mitigation benefits of double default treatment).

(k) Documentation. The State savings association must adequately document all material aspects of its advanced systems.

Section 23. Ongoing Qualification

(a) Changes to advanced systems. A State savings association must meet all the qualification requirements in section 22 of this appendix on an ongoing basis. A State savings association must notify the FDIC when the State savings association makes any change to an advanced system that would result in a material change in the State savings association’s risk-weighted asset amount for an exposure type, or when the State savings association makes any significant change to its modeling assumptions.

(b) Failure to comply with qualification requirements. (1) If the FDIC determines that a State savings association that uses this appendix and has conducted a satisfactory parallel run fails to comply with the qualification requirements in section 22 of this appendix, the FDIC will notify the State savings association in writing of the State savings association’s failure to comply.
(2) The State savings association must establish and submit a plan satisfactory to the FDIC to return to compliance with the qualification requirements.

(3) In addition, if the FDIC determines that the State savings association’s risk-based capital requirements are not commensurate with the State savings association’s credit, market, operational, or other risks, the FDIC may require such a State savings association to calculate its risk-based capital requirements:

   (i) Under §§390.461 through 390.471; or
   (ii) Under this appendix with any modifications provided by the FDIC.

Section 24. Merger and Acquisition Transitional Arrangements

(a) Mergers and acquisitions of companies without advanced systems. If a State savings association merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the State savings association may use §§390.461 through 390.471 to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The FDIC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the State savings association must submit to the FDIC an implementation plan for using its advanced systems for the merged or acquired company.

(2) If the acquiring State savings association relies on this paragraph, the acquiring State savings association must identify which wholesale and retail exposures are HVCRE exposures, sovereign exposures, securitization exposures, or equity exposures. The State savings association must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The State savings association must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The State savings association must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, unsettled transactions to which section 35 of this appendix applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The State savings association must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

PART IV. RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK

Section 31. Mechanics for Calculating Total Wholesale and Retail Risk-Weighted Assets

(a) Overview. A State savings association must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

   (1) Phase 1—categorization of exposures;
   (2) Phase 2—assignment of wholesale obligors and exposures to rating grades and segmentation of retail exposures;
   (3) Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and
   (4) Phase 4—calculation of risk-weighted asset amounts.

(b) Phase 1—Categorization. The State savings association must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The State savings association must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The State savings association must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, unsettled transactions to which section 35 of this appendix applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The State savings association must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.
(c) Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments—(1) Assignment of wholesale obligors and exposures to rating grades.

(i) The State savings association must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD to a loss severity rating grade.

(ii) The State savings association must identify which of its wholesale obligors are in default.

(2) Segmentation of retail exposures. (i) The State savings association must group the retail exposures in each retail subcategory into segments that have homogeneous risk characteristics.

(ii) The State savings association must identify which of its retail exposures are in default. The State savings association must segment defaulted retail exposures separately from non-defaulted retail exposures.

(iii) If the State savings association determines the EAD for eligible margin loans using the approach in paragraph (b) of section 32 of this appendix, the State savings association must identify which of its retail exposures are eligible margin loans for which the State savings association uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

(3) Eligible purchased wholesale exposures. A State savings association may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. A State savings association must use the wholesale exposure formula in Table 2 in this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

(4) Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures—(1) Quantification process. Subject to the limitations in this paragraph (d), the State savings association must:

(i) Associate a PD with each wholesale obligor rating grade;

(ii) Associate an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure;

(iii) Assign an EAD and M to each wholesale exposure; and

(iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

(2) Floor on PD assignment. The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the State savings association assigns a rating grade associated with a PD of less than 0.03 percent.

(3) Floor on LGD estimation. The LGD for each segment of residential mortgage exposures (other than segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is directly and unconditionally guaranteed by the full faith and credit of a sovereign entity) may not be less than 10 percent.

(4) Eligible purchased wholesale exposures. A State savings association must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the State savings association can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the State savings association must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals ECL divided by EAD. The estimated ECL must be calculated for the exposures without regard to any assumption of recourse or guarantees from the seller or other parties.

(5) Credit risk mitigation—credit derivatives, guarantees, and collateral. (i) A State savings association may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure by applying the PD substitution or LGD adjustment treatment to the exposure as provided in section 33 of this appendix or, if applicable, applying double default treatment to the exposure as provided in section 34 of this appendix. A State savings association may decide separately for each wholesale exposure that qualifies for the double default treatment under section 34 of this appendix whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.

(ii) A State savings association may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment.

(iii) Except as provided in paragraph (d)(6) of this section, a State savings association may take into account the risk reducing effects of collateral in support of a wholesale exposure when quantifying the LGD of the exposure and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment.

(6) EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans. (i) A State savings association may calculate its EAD for an OTC derivative contract as provided in paragraphs (c) and (d) of section 32 of this appendix. A State savings association may take into account the risk-reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction that is included in the...
State savings association’s VaR-based measure under any applicable market risk rule through an adjustment to EAD as provided in paragraphs (b) and (d) of section 32 of this appendix. A State savings association that takes collateral into account through such an adjustment to EAD under section 32 of this appendix may not reflect such collateral in LGD.

(ii) A State savings association may attribute an EAD of zero to:

(A) Derivative contracts that are publicly traded on an exchange that requires the daily receipt and payment of cash-variation margin;

(B) Derivative contracts and repo-style transactions that are outstanding with a qualifying central counterparty (but not for those transactions that a qualifying central counterparty has rejected); and

(C) Credit risk exposures to a qualifying central counterparty in the form of clearing deposits and posted collateral that arise from transactions described in paragraph (d)(6)(ii)(B) of this section.

(7) Effective maturity. An exposure’s M must be no greater than five years and no less than one year, except that an exposure’s M must be no less than one day if the exposure has an original maturity of less than one year and is not part of a State savings association’s ongoing financing of the obligor. An exposure is not part of a State savings association’s ongoing financing of the obligor if the State savings association:

(i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;

(ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and

(iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(e) Phase 4—Calculation of risk-weighted assets—(1) Non-defaulted exposures. (i) A State savings association must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except eligible guarantees and eligible credit derivatives that hedge another wholesale exposure and exposures to which the State savings association applies the double default treatment in section 34 of this appendix) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 2 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, a State savings association may apply a 300 percent risk weight to the EAD of an eligible margin loan if the State savings association is not able to meet the agencies’ requirements for estimation of PD and LGD for the margin loan.
(ii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in paragraph (e) of section 34 of this appendix equals the total dollar risk-based capital requirement for those exposures and segments.

(iii) The aggregate risk-weighted asset amount for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(2)(i) of this section multiplied by 12.5.

(ii) Wholesale exposures to defaulted obligors and segments of defaulted retail exposures.

(1) The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor equals 0.08 multiplied by the EAD of the exposure.

(2) The dollar risk-based capital requirement for a segment of defaulted retail exposures equals 0.08 multiplied by the EAD of the segment.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements for each segment of defaulted retail exposures
calculated in paragraph (e)(2)(ii) of this section equals the total dollar risk-based capital requirement for those exposures and segments.

(3) The aggregate risk-weighted asset amount for wholesale exposures to defaulted obligors and segments of defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(2)(ii) of this section multiplied by 12.5.

(3) Assets not included in a defined exposure category. (i) A State savings association may assign a risk-weighted asset amount of zero to cash owned and held in all offices of the State savings association or in transit and for gold bullion held in the State savings association’s own vaults, or held in another State savings association’s vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities.

(ii) The risk-weighted asset amount for the residual value of a retail lease exposure equals such residual value.

(iii) The risk-weighted asset amount for any other on-balance-sheet asset that does not meet the definition of a wholesale, retail, securitization, or equity exposure equals the carrying value of the asset.

(4) Non-material portfolios of exposures. The risk-weighted asset amount of a portfolio of exposures for which the State savings association has demonstrated to the FDIC’s satisfaction that the portfolio (when combined with all other portfolios of exposures that the State savings association seeks to treat under this paragraph) is not material to the State savings association is the sum of the carrying values of on-balance sheet exposures plus the notional amounts of off-balance sheet exposures in the portfolio. For purposes of this paragraph (e)(4), the notional amount of an OTC derivative contract that is not a credit derivative is the EAD of the derivative as calculated in section 32 of this appendix.

Section 32. Counterparty Credit Risk of Repo-Style Transactions, Eligible Margin Loans, and OTC Derivative Contracts

(a) In General. (1) This section describes the counterparty credit risk of repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement. A State savings association may use one or any combination of the three methodologies for collateral recognition; however, it must use the same methodology for similar exposures.

(ii) For netting sets only, the simple VaR methodology described in paragraph (b)(3) of this section;

(iii) The internal models methodology described in paragraph (b)(4) of this section.

(2) Collateral haircut approach—(i) EAD equation. A State savings association may determine EAD for an eligible margin loan, repo-style transaction, or netting set by setting EAD equal to $EAD = E \times H \times \left(1 - \left(\frac{SE - SC}{S_E} + \frac{H_E}{H_S} \times \frac{S_E - SC}{S_E}\right)\right)$, where:

(A) $SE$ equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the State savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set));

(B) $SC$ equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the State savings association has borrowed, purchased subject to resale, or taken as collateral from
the counterparty under the transaction (or netting set); (C) Es equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the sum of the current market values of the instrument or gold the State savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of that same instrument or gold the State savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty); (D) Hs equals the market price volatility haircut appropriate to the instrument or gold referenced in Es; (E) Hfx equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current market values of any instruments or cash in the currency the State savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of any instruments or cash in the currency the State savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and (F) Hfx equals the haircut appropriate to the mismatch between the currency referenced in Efx and the settlement currency.

(ii) Standard supervisory haircuts. (A) Under the standard supervisory haircuts approach:

(1) A State savings association must use the haircuts for market price volatility (Hs) in Table 3, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section:

*The market price volatility haircuts in Table 3 are based on a ten-business-day holding period.

(2) For currency mismatches, a State savings association must use a haircut for foreign exchange rate volatility (Hfx) of 8 percent, as adjusted in certain circumstances as provided in paragraph (b)(2)(ii)(A)(3) and (4) of this section.

(3) For repo-style transactions, a State savings association may multiply the supervisory haircuts upward on the basis of a holding period longer than ten business days (for eligible margin loans) or five business days (for repo-style transactions) where and as appropriate to take into account the illiquidity of an instrument.

(iii) Own internal estimates for haircuts. With the prior written approval of the FDIC, a State savings association may calculate haircuts (Hs and Hfx) using its own internal estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive FDIC approval to use its own internal estimates, a State savings association must satisfy the following minimum quantitative standards:

(1) A State savings association must use a 99th percentile one-tailed confidence interval.

(2) The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days. When a State savings association calculates an own-estimates haircut on a Td-day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (Hs) is calculated using the following square root of time formula:

\[ Hs = \frac{1}{\sqrt{Td}} \]

41200
(i) $T_m$ equals 5 for repo-style transactions and 10 for eligible margin loans;
(ii) $T_m$ equals the holding period used by the State savings association to derive $H_m$; and
(iii) $H_m$ equals the haircut based on the holding period $T_m$.

A State savings association must adjust holding periods upwards where and as appropriate to take into account the illiquidity of an instrument.

The historical observation period must be at least one year.

A State savings association must update its data sets and recompute haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

With respect to debt securities that have an applicable external rating of investment grade, a State savings association may calculate haircuts for categories of securities. For a category of securities, the State savings association must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the State savings association has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the State savings association must at a minimum take into account:

1. The type of issuer of the security;
2. The applicable external rating of the security;
3. The maturity of the security; and
4. The interest rate sensitivity of the security.

With respect to debt securities that have an applicable external rating of below investment grade and equity securities, a State savings association must calculate a separate haircut for each individual security.

Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the State savings association must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

A State savings association’s own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

Simple VaR methodology. With the prior written approval of the FDIC, a State savings association may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(3)(iii) of this section. In such event, the State savings association must set EAD equal to max \{0, (\Sigma E - \Sigma C + PFE)\}, where:

1. $\Sigma E$ equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the State savings association has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set);
2. $\Sigma C$ equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the State savings association has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the netting set); and
3. PFE (potential future exposure) equals the State savings association’s empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of $(\Sigma E - \Sigma C)$ over a five-business-day holding period for repo-style transactions or over a ten-business-day holding period for eligible margin loans using a minimum one-year historical observation period of price data representing the instruments that the State savings association has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. The State savings association must validate its VaR model, including by establishing and maintaining a rigorous and regular back-testing regime.

(c) EAD for OTC derivative contracts. (1) A State savings association must determine the EAD for an OTC derivative contract that is not subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(2) A State savings association must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology.
methodology described in paragraph (d) of this section.

(3) Counterparty credit risk for credit derivatives. Notwithstanding the above, (1) a State savings association that purchases a credit derivative that is recognized under section 33 or 34 of this appendix as a credit risk mitigant for an exposure that is not a covered position under any applicable market risk rule need not compute a separate counterparty credit risk capital requirement under this section so long as the State savings association does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) A State savings association that is the protection provider in a credit derivative must treat the credit derivative as a whole-sale exposure to the reference obligor and need not compute a counterparty credit risk capital requirement for the credit derivative under this section, so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(iii) A State savings association is treating the contract as a covered position under any applicable market risk rule and in certain other cases described in section 55 of this appendix, the State savings association must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this subpart.

(b) Single OTC derivative contract. Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the State savings association’s current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

(ii) PFE. The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-market value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 4. For purposes of calculating either the PFE under this paragraph or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each value date in each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 4, the PFE must be calculated using the “other” conversion factors. A State savings association must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

1. Conversion factors are based on the interest rates, foreign exchange rates, and credit ratings specified in Table 4. The conversion factor for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

2. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

3. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

4. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

5. For an OTC derivative contract with a minimum maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.
(6) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of:

(A) The net sum of all positive and negative mark-to-market values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) zero.

(ii) Adjusted sum of the PFE. The adjusted sum of the PFE, Anet, is calculated as Anet = (0.4 × Agross) + (0.6 × NGR × Agross), where:

(A) Agross = the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual OTC derivative contract subject to the qualifying master netting agreement); and

(B) NGR = the net to gross ratio (that is, the ratio of the net current credit exposure to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (c)(5)(i) of this section) of all individual OTC derivative contracts subject to the qualifying master netting agreement.

(7) Collateralized OTC derivative contracts. A State savings association may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, a State savings association may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked to market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The State savings association must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for EAD in the equation in paragraph (b)(2)(i) of this section and must use a ten-business-day minimum holding period (T_E = 10).

(d) Internal models methodology. (1) With prior written approval from the FDIC, a State savings association may use the internal models methodology in this paragraph (d) to determine EAD for counterparty credit risk for OTC derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof. A State savings association that uses the internal models methodology for a particular transaction type (OTC derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type.

A State savings association may choose to use the internal models methodology for one or two of these three types of exposures and not the other types. A State savings association may also use the internal models methodology for OTC derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(i) The State savings association effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(ii) The State savings association obtains the prior written approval of the FDIC. A State savings association that uses the internal models methodology for a transaction type must receive approval from the FDIC to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) Under the internal models methodology, a State savings association uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE.

(i) The State savings association must use its internal model’s probability distribution for changes in the market value of a netting set that are attributable to changes in market variables to determine EE.

(ii) Under the internal models methodology, EAD = a × effective EPE, or, subject to FDIC approval as provided in paragraph (d)(7), a more conservative measure of EAD.
Alternatively, a State savings association that uses an internal model to calculate a one-sided credit valuation adjustment may use the effective credit duration estimated by the model as M(EPE) in place of the formula in paragraph (d)(4).

\[
(A) \text{EffectiveEPE}_t = \sum_{k=1}^{M(EPE)} \text{EffectiveEE}_t \times \Delta t
\]
Collateral agreements. A State savings association may capture the effect on EAD of a collateral agreement that requires receipt of collateral when exposure to the counterparty increases but may not capture the effect on EAD of a collateral agreement that requires receipt of collateral when counterparty credit quality deteriorates. For this purpose, a collateral agreement means a legal contract that specifies the time when, and circumstances under which, the counterparty is required to pledge collateral to the State savings association for a single financial contract or for all financial contracts in a netting set and confers upon the State savings association a perfected, first priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof, in the collateral posted by the counterparty under the agreement. This security interest must provide the State savings association with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the State savings association’s exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions. Two methods are available to capture the effect of a collateral agreement:

(i) With prior written approval from the FDIC, a State savings association may include the effect of a collateral agreement within its internal model used to calculate EAD. The State savings association may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next required exchange of collateral plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where applicable, the period of time required to re-hedge the resulting market risk, upon the default of the counterparty. The minimum margin period of risk is five business days for repo-style transactions and ten business days for other transactions when liquid financial collateral is posted under a daily margin maintenance requirement. This period should be extended to cover any additional time between margin calls; any potential closeout difficulties; any delays in selling collateral, particularly if the collateral is illiquid; and any impediments to prompt re-hedging of any market risk.

(ii) A State savings association that can model EPE without collateral agreements but cannot achieve the higher level of modeling sophistication to model EPE with collateral agreements can set effective EPE for a collateralized netting set equal to the lesser of:

(A) The threshold, defined as the exposure amount at which the counterparty is required to post collateral under the collateral agreement, if the threshold is positive, plus an add-on that reflects the potential increase in exposure of the netting set over the margin period of risk. The add-on is computed as the expected increase in the netting set’s exposure beginning from current exposure of zero over the margin period of risk. The margin period of risk must be at least five business days for netting sets consisting only of repo-style transactions subject to daily re-margining and daily marking-to-market, and ten business days for all other netting sets; or

(B) Effective EPE without a collateral agreement.

(6) Own estimate of alpha. With prior written approval of the FDIC, a State savings association may calculate alpha as the ratio of economic capital from a full simulation of counterparty exposure across counterparties that incorporates a joint simulation of market and credit risk factors (numerator) and economic capital based on EPE (denominator), subject to a floor of 1.2. For purposes of this calculation, economic capital is the unexpected losses for all counterparty credit risks measured at a 99.9 percent confidence level over a one-year horizon. To receive approval, the State savings association must meet the following minimum standards to the satisfaction of the FDIC:
(i) The State savings association’s own estimate of alpha must capture in the numerator the effects of:

(A) The material sources of stochastic dependency of distributions of market values of transactions or portfolios of transactions across counterparties;

(B) Volatilities and correlations of market risk factors used in the joint simulation, which must be related to the credit risk factor used in the simulation to reflect potential increases in volatility or correlation in an economic downturn, where appropriate; and

(C) The granularity of exposures (that is, the effect of a concentration in the proportion of each counterparty’s exposure that is driven by a particular risk factor).

(ii) The State savings association must assess the potential model uncertainty in its estimates of alpha.

(iii) The State savings association must calculate the numerator and denominator of alpha in a consistent fashion with respect to modeling methodology, parameter specifications, and portfolio composition.

(iv) The State savings association must review and adjust as appropriate its estimates of the numerator and denominator of alpha on at least a quarterly basis and more frequently when the composition of the portfolio varies over time.

(7) Other measures of counterparty exposure. With prior written approval of the FDIC, a State savings association may set EAD equal to a measure of counterparty credit risk exposure, such as peak EAD, that is more conservative than an alpha of 1.4 (or higher under the terms of paragraph (d)(2)(ii)(B) of this section) times EPE for every counterparty whose EAD will be measured under the alternative measure of counterparty exposure. The State savings association must demonstrate the conservatism of the measure of counterparty credit risk exposure used for EAD. For material portfolios of new OTC derivative products, the State savings association may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this paragraph for a period not to exceed 180 days.

(8) PD Substitution and LGD Adjustment Approaches

(a) Scope. (1) This section applies to wholesale exposures for which:

(i) Credit risk is covered on a pro rata basis (that is, on a basis in which the State savings association and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Wholesale exposures on which there is a tranching of credit risk (reflecting at least two different levels of seniority) are secured by the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section.

(3) A State savings association may elect to recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative covering an exposure described in paragraph (a)(1) of this section by using the PD substitution approach or the LGD adjustment approach in paragraph (c) of this section or, if the transaction qualifies, using the double default treatment in section 34 of this appendix. A State savings association’s PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in paragraphs (d)(2) and (d)(3) of section 31 of this appendix.

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in paragraph (a)(1) of this section, a State savings association may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-based capital requirement for each separate exposure as described in paragraph (a)(3) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged wholesale exposures described in paragraph (a)(1) of this section, a State savings association must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and must calculate a separate risk-based capital requirement for each exposure as described in paragraph (a)(3) of this section.

(b) Rules of recognition. (1) A State savings association may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A State savings association may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative’s reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks pari passu (that is, equally) with or is junior to the hedged exposure; and

(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or
cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, a State savings association may substitute a higher PD than that of the protection provider.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the State savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The State savings association must calculate its risk-based capital requirement for the protected exposure under section 31 of this appendix, where PD is the protection provider’s PD, LGD is determined under paragraph (c)(1)(iii) of this section, and EAD is P. If the State savings association determines that full substitution leads to an inappropriate degree of risk mitigation, the State savings association may use a higher PD than that of the protection provider.

(B) The State savings association must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in this paragraph (c)(1)(ii) is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraph (d), (e), or (f) of this section.

(ii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the State savings association with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the State savings association with the option to receive immediate payout upon triggering the protection.

(2) LGD adjustment approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, the State savings association’s risk-based capital requirement for the hedged exposure is the greater of:

(A) The risk-based capital requirement for the exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative; or

(B) The risk-based capital requirement for a direct exposure to the protection provider as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD equal to the EAD of the hedged exposure.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the State savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The State savings association’s risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The State savings association must calculate its risk-based capital requirement for the unprotected exposure under section 31 of
this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(3) M of hedged exposures. The M of the hedged exposure is the same as the M of the exposure if it were unheded.

(d) Maturity mismatch. (1) A State savings association that recognizes an eligible guaranty or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfill its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the State savings association (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the State savings association (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the State savings association to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant. For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the State savings association must adjust the following amount of the credit risk mitigant: Pm = E × (1 - 0.5(T - 0.25)), where:

(i) Pm = effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) E = effective notional amount of the credit risk mitigant;

(iii) T = the lesser of T or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) T = the lesser of five or the remaining maturity of the hedged exposure, expressed in years.

(e) Credit derivatives without restructuring as a credit event. If a State savings association recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the State savings association must apply the following adjustment to the effective notional amount of the credit derivative: Pr = Pr × 1 - HFX, where:

(i) Pr = effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable); and

(2) Pm = effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) Currency mismatch. (1) If a State savings association recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the State savings association must apply the following formula to the effective notional amount of the guarantee or credit derivative: Pc = Pr × (1 - HFX), where:

(i) Pc = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(ii) HFX = haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A State savings association must set HFX equal to 8 percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remargining. A State savings association qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircuts in paragraph (b)(2)(iii) of section 32 of this appendix;

(ii) The simple VaR methodology in paragraph (b)(3) of section 32 of this appendix; or

(iii) The internal models methodology in paragraph (d) of section 32 of this appendix.

(3) A State savings association must adjust HFX calculated in paragraph (f)(2) of this section upward if the State savings association revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in paragraph (b)(2)(iii)(A)(ii) of section 32 of this appendix.
Section 34. Guarantees and Credit Derivatives: Double Default Treatment

(a) Eligibility and operational criteria for double default treatment. A State savings association may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in paragraph (a)(1) of section 33 of this appendix by applying the double default treatment in this section if all the following criteria are satisfied.

(1) The hedged exposure is fully covered or covered on a pro rata basis by:
   (i) An eligible guarantee issued by an eligible double default guarantor; or
   (ii) An eligible credit derivative that meets the requirements of paragraph (b)(2) of section 33 of this appendix and is issued by an eligible double default guarantor.

(2) The guarantee or credit derivative is:
   (i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or
   (ii) An nth-to-default credit derivative (subject to the requirements of paragraph (m) of section 42 of this appendix).

(3) The hedged exposure is a wholesale exposure (other than a sovereign exposure).

(4) The obligor of the hedged exposure is not:
   (i) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or
   (ii) An affiliate of the guarantor.

(5) The State savings association does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the hedged exposure other than through application of the double default treatment as provided in this section.

(6) The State savings association has implemented a process (which has received the prior, written approval of the FDIC) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the State savings association may not use the double default treatment for the hedged exposure.

(b) Full coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the State savings association may determine its risk-weighted asset amount for the hedged exposure under paragraph (e) of this section.

(c) Partial coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the State savings association must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure.

(1) For the protected exposure, the State savings association must set EAD equal to P and calculate its risk-weighted asset amount as provided in paragraph (e) of this section.

(2) For the unprotected exposure, the State savings association must set EAD equal to the EAD of the original exposure minus P and then calculate its risk-weighted asset amount as provided in section 31 of this appendix.

(d) Mismatches. For any hedged exposure to which a State savings association applies double default treatment, the State savings association must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix.

(e) The double default dollar risk-based capital requirement. The dollar risk-based capital requirement for a hedged exposure to which a State savings association has applied double default treatment is $K_{DD}$, multiplied by the EAD of the exposure. $K_{DD}$ is calculated according to the following formula:

$$K_{DD} = K_{O} \times (0.15 + 160 \times PD_{D})$$

Where:

$$K_{O} = \frac{\text{PD}_{D} \times \left[ N \left( \frac{N^{-1}(PD_{D}) + N^{-1}(0.999)\sqrt{1 - \rho_{DD}}} {\sqrt{1 - \rho_{DD}}} - PD_{D} \right) \right] \times \frac{1 + (M - 2.5) \times b} {1 - 1.5 \times b}}$$

(2) PD$_{D}$ = PD of the protection provider.

(3) PD$_{D}$ = PD of the obligor of the hedged exposure.

(4) LGD$_{D}$ = (i) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the State savings association with the option to receive immediate payout on triggering the protection; or

(ii) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the State savings association with the option to receive immediate payout on triggering the protection.

1209
Section 35. Risk-Based Capital Requirement for Unsettled Transactions

(a) Definitions. For purposes of this section:
(1) Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.
(2) Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.
(3) Normal settlement period. A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.
(4) Positive current exposure. The positive current exposure of a State savings association for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the State savings association to the counterparty.

(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:
(1) Transactions accepted by a qualifying central counterparty that are subject to daily marking-to-market and daily receipt and payment of variation margin;
(2) Repo-style transactions, including unsettled repo-style transactions (which are addressed in sections 31 and 32 of this appendix);
(3) One-way cash payments on OTC derivative contracts (which are addressed in sections 31 and 32 of this appendix); or
(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in sections 31 and 32 of this appendix).
(c) System-wide failures. In the case of a system-wide failure of a settlement or clearing system, the FDIC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. A State savings association must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the State savings association’s counterparty has not made delivery or payment within five business days after the settlement date. The State savings association must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the State savings association by the appropriate risk weight in Table 5.

</table>

(e) Non-DvP/Non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) A State savings association must hold risk-based capital against any non-DvP/Non-PvP transaction with a normal settlement period if the State savings association has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The State savings association must continue to hold risk-based capital against the transaction until the State savings association has received its corresponding deliverables.
(2) From the business day after the State savings association has made its delivery until five business days after the counterparty delivery is due, the State savings association may assign an obligor rating to a counterparty for which it is not otherwise required under this appendix to assign an obligor rating on the basis of the applicable external rating of any outstanding unsecured long-term debt security without credit enhancement issued by the counterparty.
(ii) A State savings association may use a 45 percent LGD for the transaction rather than estimating LGD for the transaction provided the State savings association uses the 45 percent LGD for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(ii) A State savings association may use a 100 percent risk weight for the transaction provided the State savings association uses this risk weight for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(iii) If the State savings association has not received its deliverables by the fifth business day after the counterparty delivery was due, the State savings association must deduct the current market value of the deliverables owed to the State savings association 50 percent from tier 1 capital and 50 percent from tier 2 capital.

(i) Total risk-weighted assets for unsettled transactions. Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

 PART V. RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

Section 41. Operational Criteria for Recognizing the Transfer of Risk

(a) Operational criteria for traditional securitizations. A State savings association that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. A State savings association that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A State savings association that fails to meet these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A State savings association that fails to meet these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization.

(i) The transfer is considered a sale under GAAP;

(ii) The State savings association has transferred to third parties credit risk associated with the underlying exposures; and

(iii) Any clean-up calls relating to the securitization are eligible clean-up calls.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, a State savings association may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. A State savings association that fails to meet these conditions must hold risk-based capital against the under-

derlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is financial collateral, an eligible credit derivative from an eligible securitization guarantor or an eligible guarantee from an eligible securitization guarantor;

(2) The State savings association transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:

(i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;

(ii) Require the State savings association to alter or replace the underlying exposures to improve the credit quality of the pool of underlying exposures;

(iii) Increase the State savings association’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;

(iv) Increase the yield payable to parties other than the State savings association in response to a deterioration in the credit quality of the underlying exposures; or

(v) Provide for increases in a retained first loss position or credit enhancement provided by the State savings association after the inception of the securitization;

(3) The State savings association obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and

(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

Section 42. Risk-Based Capital Requirement for Securitization Exposures

(a) Hierarchy of approaches. Except as provided elsewhere in this section:

(1) A State savings association must deduct from tier 1 capital any after-tax gain-on-sale resulting from a securitization and must deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale.

(2) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and qualifies for the Ratings-Based Approach in section 43 of this appendix, a State savings association must apply the Ratings-Based Approach to the exposure.

(3) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the State savings association may either apply the Internal Assessment Approach in section 44 of this appendix to the exposure (if the State savings association, the exposure, and the relevant ABCP program qualify for the Internal Assessment
Approach) or the Supervisory Formula Approach in section 45 of this appendix to the exposure (if the State savings association and the exposure qualify for the Supervisory
Formula Approach).

(4) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach, the State savings association must deduct the exposure from total capital in accordance with paragraph (c) of this section.

(5) If a securitization exposure is an OTC derivative contract (other than a credit derivative) that has a first priority claim on cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), with approval of the FDIC, a State savings association may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(1) through (4) of this section.

(b) Total risk-weighted assets for securitization exposures. A State savings association’s total risk-weighted assets for securitization exposures is equal to the sum of its risk-weighted assets calculated using the Ratings-Based Approach in section 43 of this appendix, the Internal Assessment Approach in section 44 of this appendix, and the Supervisory Formula Approach in section 45 of this appendix, and its risk-weighted assets amount for early amortization provisions calculated in section 47 of this appendix.

(c) Deductions. (1) If a State savings association must deduct the exposure from total capital, the State savings association must deduct 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the State savings association’s tier 2 capital, the State savings association must deduct the excess from tier 1 capital.

(2) A State savings association may calculate any deduction from tier 1 capital and tier 2 capital for a securitization exposure net of any deferred tax liabilities associated with the securitization exposure.

(d) Maximum risk-based capital requirement. Regardless of any other provisions of this subpart, unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single State savings association associated with a single securitization (including any risk-based capital requirements that relate to an early amortization provision of the securitization but excluding any risk-based capital requirements that relate to the State savings association’s gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

(1) The State savings association’s total risk-based capital requirement for the underlying exposures as if the State savings association directly held the underlying exposures; and

(2) The total ECL of the underlying exposures.

(e) Amount of a securitization exposure. (1) The amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is:

(i) The State savings association’s carrying value minus any unrealized gains and plus any unrealized losses on the exposure, if the exposure is a security classified as available-for-sale; or

(ii) The State savings association’s carrying value, if the exposure is not a security classified as available-for-sale.

(2) The amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as a liquidity facility, the notional amount may be reduced to the maximum potential amount that the State savings association could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is the EAD of the exposure as calculated in section 32 of this appendix.

(f) Overlapping exposures. If a State savings association has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when a State savings association provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the State savings association is not required to hold duplicative risk-based capital against the overlapping position. Instead, the State savings association may apply to the overlapping position the applicable risk-based capital treatment that results in the highest risk-based capital requirement.

(g) Securitizations of non-IRB exposures. If a State savings association has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the State savings association must:
(1) If the State savings association is an originating State savings association, deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization and deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale;

(2) If the securitization exposure does not require deduction under paragraph (g)(1), apply the RBA in section 43 of this appendix to the securitization exposure if the exposure qualifies for the RBA;

(3) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA, apply the IAA, in section 44 of this appendix to the exposure (if the State savings association, the exposure, and the relevant ABCP program qualify for the IAA);

(4) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA or the IAA, deduct the exposure from total capital in accordance with paragraph (c) of this section.

(h) Implicit support. If a State savings association provides support to a securitization in excess of the State savings association’s contractual obligation to provide credit support to the securitization (implicit support):

(i) The State savings association must hold regulatory capital against all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(ii) The State savings association must disclose publicly:

(1) That it has provided implicit support to the securitization; and

(2) The regulatory capital impact to the State savings association of providing such implicit support.

(i) Eligible servicer cash advance facilities. Regardless of any other provisions of this part, a State savings association is not required to hold risk-based capital against the undrawn portion of an eligible servicer cash advance facility.

(j) Interest-only mortgage-backed securities. Regardless of any other provisions of this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(k) Small-business loans and leases on personal property transferred with recourse. (1) Regardless of any other provisions of this part, a State savings association that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:

(i) The transaction is a sale under GAAP.

(ii) The State savings association establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the State savings association’s reasonably estimated liability under the recourse arrangement.

(iii) The loans and leases are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632).

(iv) The State savings association is well capitalized, as defined in the FDIC’s prompt corrective action regulation at Subpart Y of Part 390. For purposes of determining whether a State savings association is well capitalized for purposes of this paragraph, the State savings association’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(2) The total outstanding amount of recourse retained by a State savings association on transfers of small-business obligations receiving the capital treatment specified in paragraph (k)(1) of this section cannot exceed 15 percent of the State savings association’s total qualifying capital.

(l) Protection provider. A State savings association that receives credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-based capital requirement for the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

(1) Protection provider. A State savings association that provides credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-weighted asset amount for the derivative by applying the RBA in section 43 of this appendix (if the derivative qualifies for the RBA) or, if the derivative does not qualify for the RBA, by setting its risk-weighted asset amount for the derivative equal to the product of:

(A) The protection amount of the derivative;
Section 43. Ratings-Based Approach (RBA)

(a) Eligibility requirements for use of the RBA—(1) Originating State savings association.

An originating State savings association must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has two or more external ratings or inferred ratings (and may not use the RBA if the exposure has fewer than two external ratings or inferred ratings).

(2) Investing State savings association. An investing State savings association must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has one or more external or inferred ratings (and may not use the RBA if the exposure has no external or inferred rating).

(b) Ratings-based approach. (1) A State savings association must determine the risk-weighted asset amount for a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight provided in Table 6 and Table 7.

(2) A State savings association must apply the risk weights in Table 6 when the securitization exposure’s applicable external or applicable inferred rating represents a long-term credit rating, and must apply the risk weights in Table 7 when the securitization exposure’s applicable external or applicable inferred rating represents a short-term credit rating.

(i) A State savings association must apply the risk weights in column 1 of Table 6 or Table 7 to the securitization exposure if:

(A) N (as calculated under paragraph (e)(6) of section 45 of this appendix) is six or more (for purposes of this section only, if the notional number of underlying exposures is 25 or more or if all of the underlying exposures are retail exposures, a State savings association may assume that N is six or more unless the State savings association knows or has reason to know that N is less than six); and

(B) The securitization exposure is a senior securitization exposure.

(ii) A State savings association must apply the risk weights in column 3 of Table 6 or Table 7 to the securitization exposure if N is less than six, regardless of the seniority of the securitization exposure.

(iii) Otherwise, a State savings association must apply the risk weights in column 2 of Table 6 or Table 7.

### Section 44. Internal Assessment Approach (IAA)

(a) Eligibility requirements. A State savings association may apply the IAA to calculate the risk-weighted asset amount for a securitization exposure that the State savings association has to an ABCP program (such as a liquidity facility or credit enhancement) if the State savings association, the ABCP program, and the exposure qualify for use of the IAA.

1. **State savings association qualification criteria.** A State savings association qualifies for use of the IAA if the State savings association has received the prior written approval of the FDIC. To receive such approval, the State savings association must demonstrate to the FDIC’s satisfaction that the State savings association’s internal assessment process meets the following criteria:

   (i) The State savings association’s internal credit assessments of securitization exposures must be based on publicly available rating criteria used by an NRSRO.

   (ii) The State savings association’s internal credit assessments of securitization exposures used for risk-based capital purposes must be consistent with those used in the State savings association’s internal risk management process, management information reporting systems, and capital adequacy assessment process.

   (iii) The State savings association’s internal credit assessment process must have sufficient granularity to identify gradations of risk. Each of the State savings association’s internal credit assessment categories must correspond to an external rating of an NRSRO.

   (iv) The State savings association’s internal credit assessment process, particularly the stress test factors for determining credit enhancement requirements, must be at least as conservative as the most conservative of the publicly available rating criteria of the NRSROs that have provided external ratings to the commercial paper issued by the ABCP program.

</table>
(A) Where the commercial paper issued by an ABCP program has an external rating from two or more NRSROs and the different NRSROs’ benchmark stress factors require different levels of credit enhancement to achieve the same external rating equivalent, the State savings association must apply the NRSRO stress factor that requires the highest level of credit enhancement.

(B) If any NRSRO that provides an external rating to the ABCP program’s commercial paper changes its methodology (including stress factors), the State savings association must evaluate whether to revise its internal assessment process.

(v) The State savings association must have an effective system of controls and oversight that ensures compliance with these operational requirements and maintains the integrity and accuracy of the internal credit assessments. The State savings association must have an internal audit function independent from the ABCP program business line and internal credit assessment process that assesses at least annually whether the controls over the internal credit assessment process function as intended.

(vi) The State savings association must review and update each internal credit assessment whenever new material information is available, but no less frequently than annually.

(vii) The State savings association must validate its internal credit assessment process on an ongoing basis and at least annually.

(2) ABCP-program qualification criteria. An ABCP program qualifies for use of the IAA if all commercial paper issued by the ABCP program has an external rating.

(iii) The ABCP program performs a detailed credit analysis of the sellers of the exposures underlying the securitization exposure to mitigate potential credit deterioration of the underlying exposures. Such features may include wind-down triggers specific to a pool of underlying exposures.

(b) Mechanics. A State savings association that elects to use the IAA to calculate the risk-based capital requirement for any securitization exposure must use the IAA to calculate the risk-based capital requirements for all securitization exposures that qualify for the IAA approach. Under the IAA, a State savings association must map its internal assessment of such a securitization exposure to an equivalent external rating from an NRSRO. Under the IAA, a State savings association must determine the risk-weighted asset amount for such a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (b) of section 42 of this appendix) by the appropriate risk weight in Table 6 in paragraph (b) of section 43 of this appendix.

Section 45. Supervisory Formula Approach (SFA)

(a) Eligibility requirements. A State savings association may use the SFA to determine its risk-based capital requirement for a securitization exposure only if the State savings association can calculate on an ongoing basis each of the SFA parameters in paragraph (e) of this section.

(b) Mechanics. Under the SFA, a securitization exposure incurs a deduction from total capital (as described in paragraph (c) of section 42 of this appendix) and/or an SFA risk-based capital requirement, as determined in paragraph (c) of this section. The risk-weighted asset amount for the securitization exposure equals the SFA risk-based capital requirement for the exposure multiplied by 12.5.

(c) The SFA risk-based capital requirement.

(1) If $K_{SFA}$ is greater than or equal to $L + T$, the entire exposure must be deducted from total capital.

(2) If $K_{SFA}$ is less than or equal to $L$, the exposure’s SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

- (i) $0.0656 \times T$; or
- (ii) $S(L + T) - S[L]$.

(3) If $K_{SFA}$ is greater than $L$ and less than $L + T$, the State savings association must deduct from total capital an amount equal to

$$S[L + T] - S[L].$$
UE * TP * (K_{IRB} - L), and the exposure’s SFA risk-based capital requirement is UE multiplied by TP multiplied by the greater of:

(i) 0.0056 * (T - (K_{IRB} - L)); or

(ii) S(L + T) - S(K_{IRB}).

(d) The supervisory formula:

\[
\begin{align*}
(1) \quad S[Y] &= \begin{cases} 
Y & \text{when } Y \leq K_{IRB} \\
K_{IRB} + K[Y] - K[K_{IRB}] + \frac{d \cdot K_{IRB}}{20} (1 - e^{\frac{20(K_{IRB} - 1)}{K_{IRB}}}) & \text{when } Y > K_{IRB}
\end{cases} \\
(2) \quad K[Y] &= (1 - h) \cdot [\{1 - \beta(Y; a, b)\} \cdot Y + \beta(Y; a + 1, b) \cdot c] \\
(3) \quad h &= \left(1 - \frac{K_{IRB}}{EWALGD}\right)^N \\
(4) \quad a &= g \cdot c \\
(5) \quad b &= g \cdot (1 - c) \\
(6) \quad c &= \frac{K_{IRB}}{1 - h} \\
(7) \quad g &= \frac{(1 - c) \cdot c}{f} - 1 \\
(8) \quad f &= v + \frac{K_{IRB}^2}{1 - h} \cdot c^2 + \frac{(1 - K_{IRB}) \cdot K_{IRB} - v}{(1 - h) \cdot 1000} \\
(9) \quad v &= \frac{(EWALGD - K_{IRB}) + 0.25 \cdot (1 - EWALGD)}{N} \\
(10) \quad d &= 1 - (1 - h) \cdot (1 - \beta(K_{IRB}; a, b)).
\end{align*}
\]

(11) In these expressions, \( \beta(Y; a, b) \) refers to the cumulative beta distribution with parameters \( a \) and \( b \) evaluated at \( Y \). In the case where \( N = 1 \) and \( EWALGD = 100 \) percent, \( S[Y] \) in formula (1) must be calculated with \( K[Y] \) set equal to the product of \( K_{IRB} \) and \( Y \), and \( d \) set equal to \( 1 - K_{IRB} \).

(e) SFA parameters—

1. **Amount of the underlying exposures (UE).** UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in paragraph (e) of section 42 of this appendix) plus the adjusted carrying value of any underlying exposures that are equity exposures (as defined in paragraph (b) of section 51 of this appendix).

2. **Tranche percentage (TP).** TP is the ratio of the amount of the State savings association’s securitization exposure to the amount of the tranche that contains the securitization exposure.

3. **Capital requirement on underlying exposures (K_{IRB}).** (1) \( K_{IRB} \) is the ratio of:

   (A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of the underlying exposures (as determined under this appendix as if the underlying exposures were directly held by the State savings association); to
(B) UE.
(ii) The calculation of $K_{IRB}$ must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to the entire pool of underlying exposures).
(iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(A) Credit enhancement level ($L$). (i) $L$ is the ratio of:
(A) The amount of all securitization exposures subordinated to the tranche that contains the State savings association’s securitization exposure; to
(B) UE.
(ii) A State savings association must determine $L$ before considering the effects of any tranche-specific credit enhancements.
(iii) Any gain-on-sale or CEIO associated with the securitization may not be included in $L$.
(iv) Any reserve account funded by accumulated cash flows from the underlying exposures that is subordinated to the tranche that contains the State savings association’s securitization exposure may be included in the numerator and denominator of $L$ to the extent cash has accumulated in the account. Unfunded reserve accounts (that is, reserve accounts that are to be funded from future cash flows from the underlying exposures) may not be included in the calculation of $L$.
(v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, $L$ should be calculated inclusive of this discount if the discount provides credit enhancement for the securitization exposure.

(5) Thickness of tranche ($T$). $T$ is the ratio of:
(i) The amount of the tranche that contains the State savings association’s securitization exposure; to
(ii) UE.

(6) Effective number of exposures ($N$). (i) Unless the State savings association elects to use the formula provided in paragraph (f) of this section,

$$ N = \frac{\left( \sum EAD_i \right)^2}{\sum EAD_i^2} $$

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.
(iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are themselves securitization exposures), the State savings association must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) Exposure-weighted average loss given default (EWALGD). EWALGD is calculated as:

$$ EWALGD = \frac{\sum LGD_i \cdot EAD_i}{\sum EAD_i} $$

where $LGD_i$ represents the average LGD associated with the $i$th instrument in the pool of underlying exposures.

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.
(iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are themselves securitization exposures), the State savings association may apply the SFA using the following simplifications:

(i) $h = 0$; and
(ii) $v = 0$.

(2) Under the conditions in paragraphs (f)(3) and (f)(4) of this section, a State savings association may employ a simplified method for calculating $N$ and EWALGD.

(3) If $C_i$ is no more than 0.03, a State savings association may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure or $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure, and may set $N$ equal to the following amount:

$$ N = \left( \sum EAD_i \right)^2 $$

where $EAD_i$ represents the EAD associated with the $i$th instrument in the pool of underlying exposures.

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.
(iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are themselves securitization exposures), the State savings association may apply the SFA using the following simplifications:

(i) $h = 0$; and
(ii) $v = 0$. 

1218
Where:
(i) \( C_m \) is the ratio of the sum of the amounts of the ‘m’ largest underlying exposures to UE; and
(ii) The level of m is to be selected by the State savings association.

(4) Alternatively, if only \( C_1 \) is available and \( C_1 \) is no more than 0.03, the State savings association may set EWALGD = 0.50 if none of the underlying exposures is a securitization exposure or EWALGD = 1 if one or more of the underlying exposures is a securitization exposure and may set \( N = 1/C_1 \).

Section 46. Recognition of Credit Risk Mitigants for Securitization Exposures

(a) General. An originating State savings association that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in section 41 of this appendix may recognize the credit risk mitigant, but only as provided in this section. An investing State savings association that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant, but only as provided in this section. A State savings association that has used the RBA in section 43 of this appendix or the IAA in section 44 of this appendix to calculate its risk-based capital requirement for a securitization exposure whose external or inferred rating (or equivalent internal rating under the IAA) reflects the benefits of a credit risk mitigant provided to the associated securitization or that supports some or all of the underlying exposures may not use the credit risk mitigation rules in this section to further reduce its risk-based capital requirement for the exposure to reflect that credit risk mitigant.

(b) Collateral—(1) Rules of recognition. A State savings association may recognize financial collateral in determining the State savings association’s risk-based capital requirement for a securitization exposure (other than a repo-style transaction, an eligible margin loan, or an OTC derivative contract for which the State savings association has reflected collateral in its determination of exposure amount under section 32 of this appendix) as follows. The State savings association’s risk-based capital requirement for the collateralized securitization exposure is equal to the risk-based capital requirement for the securitization exposure as calculated under the RBA in section 43 of this appendix or under the SFA in section 45 of this appendix multiplied by the ratio of adjusted exposure amount (SE*) to original exposure amount (SE), where:
(i) \( SE^* = \max \{0, [SE - C \times (1 - H_s - H_fx)] \} \);
(ii) \( SE = \) the amount of the securitization exposure calculated under paragraph (e) of section 42 of this appendix;
(iii) \( C \) = the current market value of the collateral;
(iv) \( H_s \) = the haircut appropriate to the collateral type; and
(v) \( H_fx \) = the haircut applicable to that asset.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket of assets denominated in different currencies, the haircut on the basket will be

\[ H = \sum_{i} a_i H_i, \]

where \( a_i \) is the current market value of the asset in the basket divided by the current market value of all assets in the basket and \( H_i \) is the haircut applicable to that asset.

(3) Standard supervisory haircuts. Unless a State savings association qualifies for use of and uses own-estimates haircuts in paragraph (b)(4) of this section:
(i) A State savings association must use the collateral type haircuts (\( H_s \)) in Table 3;
(ii) A State savings association must use a currency mismatch haircut (\( H_fx \)) of 8 percent if the exposure and the collateral are denominated in different currencies;
(iii) A State savings association must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) by the square root of 6.5 (which equals 2.56810); and
(iv) A State savings association must adjust the supervisory haircuts upward on the
basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) Own estimates for haircuts. With the prior written approval of the FDIC, a State savings association may calculate haircuts using its own internal estimates of market price volatility and foreign exchange volatility, subject to paragraph (b)(2)(iii) of section 32 of this appendix. The minimum holding period (TM) for securitization exposures is 65 business days.

(c) Guarantees and credit derivatives—(1) Limitations on recognition. A State savings association may only recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the State savings association’s risk-based capital requirement for a securitization exposure.

(2) ECL for securitization exposures. When a State savings association recognizes an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the State savings association’s risk-based capital requirement for a securitization exposure, the State savings association must:

(i) Calculate ECL for the protected portion of the exposure using the same risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and

(ii) Add the exposure’s ECL to the State savings association’s total ECL.

(3) Rules of recognition. A State savings association may recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the State savings association’s risk-based capital requirement for the securitization exposure as follows:

(i) Full coverage. If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the State savings association may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) Covered portion. The risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the State savings association’s PD for the guarantor, the State savings association’s LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) Uncovered portion. (1) 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure; multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in sections 42 through 45 of this appendix).

(ii) Partial coverage. The State savings association must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the State savings association must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

Section 47. Risk-Based Capital Requirement for Early Amortization Provisions

(a) General. (1) An originating State savings association must hold risk-based capital against the sum of the originating State savings association’s interest and the investors’ interest in a securitization as the residual maturity of any of the securitization exposures. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the State savings association must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

(2) For securitizations described in paragraph (a)(1) of this section, an originating State savings association must calculate the risk-based capital requirement for the originating State savings association’s interest in a securitization as:

(i) Includes one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contains an early amortization provision.

(b) Risk-weighted asset amount for investors’ interest. The originating State savings association’s risk-weighted asset amount for the investors’ interest in the securitization is equal to the product of the following 5 quantities:

(1) The investors’ interest EAD;

(2) The appropriate conversion factor in paragraph (c) of this section;
(3) \(X_{IRB}\) (as defined in paragraph (e)(3) of section 45 of this appendix);
(4) 12.5; and
(5) The proportion of the underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit.

(c) Conversion factor. (1) Except as provided in paragraph (c)(2) of this section, to calculate the appropriate conversion factor, a State savings association must use Table 8 for a securitization that contains a controlled early amortization provision and must use Table 9 for a securitization that contains a non-controlled early amortization provision. In circumstances where a securitization contains a mix of retail and nonretail exposures or a mix of committed and uncommitted exposures, a State savings association may take a pro rata approach to determining the conversion factor for the securitization’s early amortization provision. If a pro rata approach is not feasible, a State savings association must treat the mixed securitization as a securitization of nonretail exposures if a single underlying exposure is a nonretail exposure and must treat the mixed securitization as a securitization of committed exposures if a single underlying exposure is a committed exposure.

(ii) To find the appropriate conversion factor in the tables, a State savings association must divide the three-month average annualized excess spread of the securitization by the excess spread trapping point in the securitization structure. In securitizations that do not require excess spread to be trapped, or that specify trapping points based primarily on performance measures other than the three-month average annualized excess spread, the excess spread trapping point is 4.5 percent.

(2) For a securitization for which all or substantially all of the underlying exposures are residential mortgage exposures, a State savings association may calculate the appropriate conversion factor using paragraph (c)(1) of this section or may use a conversion factor of 10 percent. If the State savings association chooses to use a conversion factor of 10 percent, it must use that conversion factor for all securitizations for which all or substantially all of the underlying exposures are residential mortgage exposures.

PART VI. RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

Section 51. Introduction and Exposure Measurement

(a) General. To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to investment funds, a State savings association may apply either the Simple Risk Weight Approach (SRWA) in section 52 of this appendix or, if it qualifies to do so, the Internal Models Approach (IMA) in section 53 of this appendix. A State savings association must use the look-through approaches in section 54 of this appendix to calculate its risk-weighted asset amounts for equity exposures to investment funds.
(b) Adjusted carrying value. For purposes of this part, the adjusted carrying value of an equity exposure is:

1. For the on-balance sheet component of an equity exposure, the State savings association’s carrying value of the exposure reduced by any unrealized gains on the exposure that are reflected in such carrying value but excluded from the State savings association’s tier 1 and tier 2 capital; and
2. For the off-balance sheet component of an equity exposure, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) for a given small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet component of the exposure as calculated in paragraph (b)(1) of this section. For unfunded equity commitments that are unconditional, the effective notional principal amount is the notional amount of the commitment. For unfunded equity commitments that are conditional, the effective notional principal amount is the State savings association’s best estimate of the amount that would be funded under economic downturn conditions.

Section 52. Simple Risk Weight Approach (SRWA)

(a) General. Under the SRWA, a State savings association’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted asset amounts for each of the State savings association’s individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the State savings association’s individual equity exposures to an investment fund as determined in section 54 of this appendix.

(b) SRWA computation for individual equity exposures. A State savings association must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure by a proportion of each equity exposure to an investment fund as determined in paragraph (c) of this section by the lowest applicable risk weight in this paragraph (b). (i) 0 percent risk weight equity exposures. An equity exposure to an entity whose credit exposures are exempt from the 0.03 percent PD floor in paragraph (d)(2) of section 31 of this appendix is assigned a 0 percent risk weight.

(ii) 20 percent risk weight equity exposures. An equity exposure to a Federal Home Loan Bank or Farmer Mac is assigned a 20 percent risk weight.

(iii) 100 percent risk weight equity exposures. The following equity exposures are assigned a 100 percent risk weight:

1. An equity exposure that is designed primarily to promote community welfare, in including the welfare of low- and moderate-income communities or families, such as by providing services or jobs, excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682).

2. Effective portion of hedge pairs. The effective portion of a hedge pair.

3. Non-significant equity exposures. Equity exposures, excluding exposures to an investment firm that would meet the definition of a traditional securitization were it not for the FDIC’s application of paragraph (8) of that definition and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the State savings association’s tier 1 capital plus tier 2 capital.

(A) To compute the aggregate adjusted carrying value of a State savings association’s equity exposures for purposes of this paragraph (b)(3)(iii), the State savings association may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a State savings association does not know the actual holdings of the investment fund, the State savings association may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the State savings association must adjust for purposes of this paragraph (b)(3)(iii) that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a State savings association’s equity exposures qualify for a 100 percent risk weight under this paragraph, a State savings association first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682), then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly
traded equity exposures (including those held indirectly through investment funds).

(4) **300 percent risk weight equity exposures.** A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

(5) **400 percent risk weight equity exposures.** An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

(6) **600 percent risk weight equity exposures.** An equity exposure to an investment firm that:

(i) Would meet the definition of a traditional securitization were it not for the FDIC’s application of paragraph (8) of that definition; and

(ii) Has greater than immaterial leverage is assigned a 600 percent risk weight.

**Hedge transactions**

—(1) **Hedge pair.** A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) **Effective hedge.** Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the State savings association acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness \( E \) the State savings association will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an \( E \) greater than or equal to 0.8. A State savings association must measure \( E \) at least quarterly and must use one of three alternative measures of \( E \):

(i) Under the dollar-offset method of measuring effectiveness, the State savings association must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and \( E \) equals 0. If RVC is negative and greater than or equal to \(-1\) (that is, between zero and \(-1\)), then \( E \) equals the absolute value of RVC. If RVC is negative and less than \(-1\), then \( E \) equals 2 plus RVC.

(ii) Under the variability-reduction method:

A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(3) The effective portion of a hedge pair is \( E \) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is \((1-E)\) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

**Section 53. Internal Models Approach (IMA)**

(a) **General.** A State savings association may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or by modeling only publicly traded equity exposures (in accordance with paragraph (d) of this section).

(b) **Qualifying criteria.** To qualify to use the IMA to calculate risk-based capital requirements for equity exposures, a State savings association must demonstrate to the FDIC’s satisfaction that the State savings association meets the following criteria:

(1) The State savings association must have one or more models that:

(i) Assess the potential decline in value of its modeled equity exposures;
(ii) Are commensurate with the size, complexity, and composition of the State savings association’s modeled equity exposures; and
(iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The State savings association’s model must produce an estimate of potential losses for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99.0 percent, one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the State savings association’s modeled equity exposures using a long-term sample period.

(3) The number of risk factors and exposures in the sample and the data period used for quantification in the State savings association’s model and benchmarking exercise must be sufficient to provide confidence in the accuracy and robustness of the State savings association’s estimates.

(4) The State savings association’s model and benchmarking process must incorporate data that are relevant in representing the risk profile of the State savings association’s modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the State savings association’s modeled equity exposures. In addition, the State savings association’s benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the State savings association’s model uses a scenario methodology, the State savings association must demonstrate that the model produces a conservative estimate of potential losses on the State savings association’s modeled equity exposures over a relevant long-term market cycle. If the State savings association employs risk factor models, the State savings association must demonstrate through empirical analysis the appropriateness of the risk factors used.

(5) The State savings association must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the State savings association’s modeled equity exposures and that the State savings association has made appropriate adjustments for differences. The State savings association must derive any proxies for its modeled equity exposures and benchmark portfolio using historical market data that are relevant to the State savings association’s modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the State savings association’s modeled equity exposures.

(c) Risk-weighted asset calculation for a State savings association modeling publicly traded and non-publicly traded equity exposures. If a State savings association models publicly traded and non-publicly traded equity exposures, the State savings association’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix) and each equity exposure to an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the State savings association’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the State savings association’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the State savings association’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund;

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and

(C) 300 percent multiplied by the aggregate adjusted carrying value of the State savings association’s equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund.

(d) Risk-weighted assets calculation for a State savings association using the IMA only for publicly traded equity exposures. If a State savings association models only publicly traded equity exposures, the State savings association’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(5) of section 52 or a 600 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the State savings association’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the State savings association’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the State savings association’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund;

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and

(C) 300 percent multiplied by the aggregate adjusted carrying value of the State savings association’s equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund.
Look-Through Approach, the State savings association does not use the Full adjusted carrying value.

(b)(3)(i) of section 52 of this appendix is its development equity exposure in paragraph (d) of this section, or, if the investment fund qualifies for the Money Market Fund Approach, the Money Market Fund Approach in paragraph (e) of this section, or, if the investment fund qualifies for the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, or, if the investment fund qualifies

Section 54. Equity Exposures to Investment Funds

(a) Available approaches. (1) Unless the exposure meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix, a State savings association must determine the risk-weighted asset amount of an equity exposure to an investment fund under the Full Look-Through Approach in paragraph (b) of this section, the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, or, if the investment fund qualifies for the Money Market Fund Approach, the Money Market Fund Approach in paragraph (e) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the State savings association does not use the Full Look-Through Approach, the State savings association may use the ineffective portion of the hedge pair as determined under paragraph (c) of section 52 of this appendix as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) Full Look-Through Approach. A State savings association that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this appendix as if the proportional ownership share of each exposure were held directly by the State savings association) may either:

(1) Set the risk-weighted asset amount of the State savings association's exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the State savings association; and

(ii) The State savings association's proportional ownership share of the fund; or

(2) Include the State savings association's proportional ownership share of each exposure held by the fund in the State savings association's IMA.

(c) Simple Modified Look-Through Approach. Under this approach, the risk-weighted asset amount for a State savings association's equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight in Table 10 that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund's permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund's exposures).

</tr>
</tbody>
</table>
(d) Alternative Modified Look-Through Approach. Under this approach, a State savings association may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories in Table 10 based on the investment limits in the fund’s prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. The risk-weighted asset amount for the State savings association’s equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure class multiplied by the applicable risk weight. If the sum of the investment limits for exposure classes within the fund exceeds 100 percent, the State savings association must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure class with the highest risk weight under Table 10, and continues to make investments in order of the exposure class with the next highest risk weight under Table 10 until the maximum total investment level is reached. If more than one exposure class applies to an exposure, the State savings association must use the highest applicable risk weight. A State savings association may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund’s exposures.

(e) Money Market Fund Approach. The risk-weighted asset amount for a State savings association’s equity exposure to an investment fund that is a money market fund subject to 17 CFR 270.2a–7 and that has an applicable external rating in the highest investment-grade rating category equals the adjusted carrying value of the equity exposure multiplied by 7 percent.

Section 55. Equity Derivative Contracts

Under the IMA, in addition to holding risk-based capital against an equity derivative contract under this part, a State savings association must hold risk-based capital against the counterparty credit risk in the equity derivative contract by also treating the equity derivative contract as a wholesale exposure and computing a supplemental risk-weighted asset amount for the contract under part IV. Under the SRWA, a State savings association may choose not to hold risk-based capital against the counterparty credit risk of equity derivative contracts, as long as it does so for all such contracts. Where the equity derivative contracts are subject to a qualified master netting agreement, a State savings association using the SRWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

PART VII. RISK-WEIGHTED ASSETS FOR OPERATIONAL RISK

Section 61. Qualification Requirements for Incorporation of Operational Risk Mitigants

(a) Qualification to use operational risk mitigants. A State savings association may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(1) The State savings association’s operational risk quantification system is able to generate an estimate of the State savings association’s operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of the State savings association’s operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(2) The State savings association’s methodology for incorporating the effects of insurance, if the State savings association uses insurance as an operational risk mitigant, captures through appropriate discounts to the amount of risk mitigation:

(i) The residual term of the policy, where less than one year;

(ii) The cancellation terms of the policy, where less than one year;

(iii) The policy’s timeliness of payment;

(iv) The uncertainty of payment by the provider of the policy; and

(v) Mismatches in coverage between the policy and the hedged operational loss event.

(b) Qualifying operational risk mitigants. Qualifying operational risk mitigants are:

(1) Insurance that:

(i) Is provided by an unaffiliated company that has a claims payment ability that is rated in one of the three highest rating categories by a NRSRO;

(ii) Has an initial term of at least one year and a residual term of more than 90 days;

(iii) Has a minimum notice period for cancellation by the provider of 90 days;

(iv) Has no exclusions or limitations based upon regulatory action or for the receiver or liquidator of a failed depository institution; and

(v) Is explicitly mapped to a potential operational loss event; and

(2) Operational risk mitigants other than insurance for which the FDIC has given prior written approval. In evaluating an operational risk mitigant other than insurance, the FDIC will consider whether the operational risk mitigant covers potential operational losses in a manner equivalent to holding regulatory capital.

Section 62. Mechanics of Risk-Weighted Asset Calculation

(a) If a State savings association does not qualify to use or does not have qualifying operational risk mitigants, the State savings association must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.
association’s dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any).

(b) If a State savings association qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the State savings association’s dollar risk-based capital requirement for operational risk is the greater of:

(1) The State savings association’s operational risk exposure adjusted for qualifying operational risk mitigants minus eligible operational risk offsets (if any); or

(2) 0.8 multiplied by the difference between:

(i) The State savings association’s operational risk exposure; and

(ii) Eligible operational risk offsets (if any).

(c) The State savings association’s risk-weighted asset amount for operational risk equals the State savings association’s dollar risk-based capital requirement for operational risk determined under paragraph (a) or (b) of this section multiplied by 12.5.

PART VIII. DISCLOSURE

Section 71. Disclosure Requirements

(a) Each State savings association must publicly disclose each quarter its total and tier 1 risk-based capital ratios and their components (that is, tier 1 capital, tier 2 capital, total qualifying capital, and total risk-weighted assets).8

(b) A State savings association must comply with paragraph (c) of section 71 of this appendix unless it is a consolidated subsidiary of a depository institution or bank holding company that is subject to these requirements.

(c)(1) Each consolidated State savings association described in paragraph (b) of this section that is not a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction and has successfully completed its parallel run must provide timely public disclosures each calendar quarter of the information in tables 11.1 through 11.11 of this appendix. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the State savings association’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the State savings association’s risk management objectives and policies, reporting system, and definitions) may be disclosed annually, provided any significant changes to these are disclosed in the interim.

Management is encouraged to provide all of the disclosures required by this appendix in one place on the State savings association’s public Web site.9 The State savings association must make these disclosures publicly available for each of the last three years (twelve quarters) or such shorter period since it began its first floor period.

(2) Each State savings association is required to have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this appendix, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the State savings association must attest that the disclosures required by this appendix meet the requirements of this appendix.

(3) If a State savings association believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public information that is either proprietary or confidential in nature, the State savings association need not disclose those specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

TABLE 11.1—SCOPE OF APPLICATION

<table>
<thead>
<tr>
<th>Qualitative Disclosures</th>
<th>(a) The name of the top corporate entity in the group to which the appendix applies.</th>
</tr>
</thead>
</table>

---

8 Other public disclosure requirements continue to apply—for example, Federal securities law and regulatory reporting requirements.

9 Alternatively, a State savings association may provide the disclosures in more than one place, as some of them may be included in public financial reports (for example, in Management’s Discussion and Analysis included in SEC filings) or other regulatory reports. The State savings association must provide a summary table on its public Web site that specifically indicates where all the disclosures may be found (for example, regulatory report schedules, page numbers in annual reports).
TABLE 11.1—SCOPE OF APPLICATION—Continued

(b) An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group that are fully consolidated; that are deconsolidated and deducted; for which the regulatory capital requirement is deducted; and that are neither consolidated nor deducted (for example, where the investment is risk-weighted).

(c) Any restrictions, or other major impediments, on transfer of funds or regulatory capital within the group.

Quantitative Disclosures

(d) The aggregate amount of surplus capital of insurance subsidiaries (whether deducted or subjected to an alternative method) included in the regulatory capital of the consolidated group.

(e) The aggregate amount by which actual regulatory capital is less than the minimum regulatory capital requirement in all subsidiaries with regulatory capital requirements and the name(s) of the subsidiaries with such deficiencies.

TABLE 11.2—CAPITAL STRUCTURE

Qualitative Disclosures

(a) Summary information on the terms and conditions of the main features of all capital instruments, especially in the case of innovative, complex or hybrid capital instruments.

Quantitative Disclosures

(b) The amount of tier 1 capital, with separate disclosure of:

- Common stock/surplus;
- Retained earnings;
- Minority interests in the equity of subsidiaries;
- Regulatory calculation differences deducted from tier 1 capital; and
- Other amounts deducted from tier 1 capital, including goodwill and certain intangibles.

(c) The total amount of tier 2 capital.

(d) Other deductions from capital.

(e) Total eligible capital.

TABLE 11.3—CAPITAL ADEQUACY

Qualitative Disclosures

(a) A summary discussion of the State savings association’s approach to assessing the adequacy of its capital to support current and future activities.

Quantitative Disclosures

(b) Risk-weighted assets for credit risk from:

- Wholesale exposures;
- Residential mortgage exposures;
- Qualifying revolving exposures;
- Other retail exposures;
- Securitization exposures;
- Equity exposures;
- Equity exposures subject to the simple risk weight approach; and
- Equity exposures subject to the internal models approach.

(c) Risk-weighted assets for market risk as calculated under any applicable market risk rule:

- Standardized approach for specific risk; and
- Internal models approach for specific risk.

(d) Risk-weighted assets for operational risk.

(e) Total and tier 1 risk-based capital ratios:

- For the top consolidated group; and
- For each DI subsidiary.

10 Entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

11 Representing 50 percent of the amount, if any, by which total expected credit losses as calculated within the IRB approach exceed eligible credit reserves, which must be deducted from tier 1 capital.

12 Including 50 percent of the amount, if any, by which total expected credit losses as calculated within the IRB approach exceed eligible credit reserves, which must be deducted from tier 2 capital.

13 Risk-weighted assets determined under any applicable market risk rule are to be disclosed only for the approaches used.

14 Total risk-weighted assets should also be disclosed.

General Qualitative Disclosure Requirement

For each separate risk area described in tables 11.4 through 11.11, the State savings association must describe its risk management objectives and policies, including:

- Strategies and processes;
- The structure and organization of the relevant risk management function;
- The scope and nature of risk reporting and/or measurement systems;
- Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.

TABLE 11.4—CREDIT RISK: GENERAL DISCLOSURES

Qualitative Disclosures

(a) The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 11.6), including:
TABLE 11.4—CREDIT RISK: GENERAL DISCLOSURES—Continued

- Definitions of past due and impaired (for accounting purposes);
- Description of approaches followed for allowances, including statistical methods used where applicable; and
- Discussion of the State savings association’s credit risk management policy.

Quantitative Disclosures ............

(b) Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP, and without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting), over the period broken down by major types of credit exposure.

(c) Geographic distribution of exposures, broken down in significant areas by major types of credit exposure.

(d) Industry or counterparty type distribution of exposures, broken down by major types of credit exposure.

(e) Remaining contractual maturity breakdown (for example, one year or less) of the whole portfolio, broken down by major types of credit exposure.

(f) By major industry or counterparty type:
   - Amount of impaired loans;
   - Amount of past due loans;
   - Allowances; and
   - Charge-offs during the period.

(g) Amount of impaired loans and, if available, the amount of past due loans broken down by significant geographic areas including, if practical, the amounts of allowances related to each geographical area.

(h) Reconciliation of changes in the allowance for loan and lease losses.

15 Table 4 does not include equity exposures.
16 For example, FASB Interpretations 39 and 41.
17 A State savings association is encouraged also to provide an analysis of the aging of past-due loans.
18 Geographical areas may comprise individual countries, groups of countries, or regions within countries.
19 The portion of general allowance that is not allocated to a geographical area should be disclosed separately.
20 The reconciliation should include the following: a description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and dispositions of subsidiaries); and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

Such a breakdown might, for instance, be (a) loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures, (b) debt securities, and (c) OTC derivatives.

A State savings association might choose to define the geographical areas based on the way the company’s portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.

TABLE 11.5—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS

Qualitative Disclosures 

(a) Explanation and review of the:
   - Structure of internal rating systems and relation between internal and external ratings;
   - Use of risk parameter estimates other than for regulatory capital purposes;
   - Process for managing and recognizing credit risk mitigation; and
   - Control mechanisms for the rating system, including discussion of independence, accountability, and rating systems review.

(b) Description of the internal ratings process, provided separately for the following:
   - Wholesale category;
   - Retail subcategories;
   - Residential mortgage exposures;
   - Qualifying revolving exposures; and
   - Other retail exposures.

For each category and subcategory the description should include:
   - The types of exposure included in the category/subcategories; and
   - The definitions, methods and data for estimation and validation of PD, LGD, and EAD, including assumptions employed in the derivation of these variables.

(c) For wholesale exposures, present the following information across a sufficient number of PD grades (including default) to allow for a meaningful differentiation of credit risk:
   - Total EAD;
   - Exposure-weighted average LGD (percentage);
   - Exposure-weighted average risk weight; and
   - Amount of undrawn commitments and exposure-weighted average EAD for wholesale exposures.

For each retail subcategory, present the disclosures outlined above across a sufficient number of segments to allow for a meaningful differentiation of credit risk.
TABLE 11.5—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS—Continued

<table>
<thead>
<tr>
<th>Quantitative Disclosures: Historical results.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(d) Actual losses in the preceding period for each category and subcategory and how this differs from past experience. A discussion of the factors that impacted the loss experience in the preceding period—for example, has the State savings association experienced higher than average default rates, loss rates or EADs.</td>
</tr>
<tr>
<td>(e) State savings association’s estimates compared against actual outcomes over a longer period. At a minimum, this should include information on estimates of losses against actual losses in the wholesale category and each retail subcategory over a period sufficient to allow for a meaningful assessment of the performance of the internal rating processes for each category/subcategory. Where appropriate, the State savings association should further decompose this to provide analysis of PD, LGD, and EAD outcomes against estimates provided in the quantitative risk assessment disclosures above.</td>
</tr>
</tbody>
</table>

22 This disclosure does not require a detailed description of the model in full—it should provide the reader with a broad overview of the model approach, describing definitions of the variables and methods for estimating and validating those variables set out in the quantitative risk disclosures below. This should be done for each of the four category/subcategories. The State savings association should disclose any significant differences in approach to estimating these variables within each category/subcategory.

23 The PD, LGD and EAD disclosures in Table 11.5(c) should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined in part I. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where a State savings association aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes.

24 Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

25 These disclosures are a way of further informing the reader about the reliability of the information provided in the “quantitative disclosures: risk assessment.” In particular, it should provide this information where there are material differences between its estimates of PD, LGD or EAD compared to actual outcomes over the long run. The State savings association should also provide explanations for such differences.

Qualitative Disclosures ............. (a) The general qualitative disclosure requirement with respect to operational risk.

(b) Description of the AMA, including a discussion of relevant internal and external factors considered in the State savings association’s measurement approach.

(c) A description of the use of insurance for the purpose of mitigating operational risk.

Qualitative Disclosures ............. (a) The general qualitative disclosure requirement with respect to securitization (including synthetics), including:

• The State savings association’s objectives relating to securitization activity, including the extent to which these activities transfer credit risk of the underlying exposures away from the State savings association to other entities;

• The roles played by the State savings association in the securitization process and an indication of the extent of the State savings association’s involvement in synthetic (and traditional) securitization structures and the regulatory capital approaches (for example, RAB, IAA and SFA) that the State savings association follows for its securitization activities.

(b) Summary of the State savings association’s accounting policies for securitization activities, including:

• Whether the transactions are treated as sales or financings;

• Recognition of gain-on-sale;

• Key assumptions for valuing retained interests, including any significant changes since the last reporting period and the impact of such changes; and

• Treatment of synthetic securitizations.

(c) Names of NRSROs used for securitizations and the types of securitization exposure for which each agency is used.

Quantitative Disclosures ............. (d) The total outstanding exposures securitized by the State savings association in securitizations that meet the operational criteria in section 41 of this appendix (broken down into traditional/synthetic), by underlying exposure type.

(e) For exposures securitized by the State savings association in securitizations that meet the operational criteria in Section 41 of this appendix:

• Amount of securitized assets that are impaired/past due; and

• Losses recognized by the State savings association during the current period broken down by exposure type.

(f) Aggregate amount of securitization exposures broken down by underlying exposure type.

(g) Aggregate amount of securitization exposures and the associated IRB capital requirements for these exposures broken down into a meaningful number of risk weight bands. Exposures that have been deducted from capital should be disclosed separately by type of underlying asset.

(h) For securitizations subject to the early amortization treatment, the following items by underlying asset type for securitized facilities:

• The aggregate exposure attributed to the seller’s and investors’ interests; and

• The aggregate IRB capital charges incurred by the State savings association against the investors’ shares of drawn balances and undrawn lines.

(i) Summary of current year’s securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by asset type.

Net unsecured credit exposure is the credit exposure after considering the benefits from legally enforceable netting agreements and collateral arrangements, without taking into account haircuts for price volatility, liquidity, etc.

At a minimum, a State savings association must provide the disclosures in Table 11.7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this appendix. Where relevant, State savings associations are encouraged to give further information about mitigants that have not been recognized for that purpose.

Credit derivatives that are treated, for the purposes of this appendix, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization.

Counterparty credit risk-related exposures disclosed pursuant to Table 11.6 should be excluded from the credit risk mitigation disclosures in Table 11.7.

Underlying exposure types may include, for example, one- to four-family residential loans, home equity lines, credit card receivables, and auto loans.

Securitization transactions in which the originating State savings association does not retain any securitization exposure should be shown separately but need only be reported for the year of inception.

Where relevant, a State savings association is encouraged to differentiate between exposures resulting from activities in which they act only as sponsors, and exposures that result from all other State savings association securitization activities.

For example, charge-offs/allowances (if the assets remain on the State savings association’s balance sheet) or write-downs of I/O strips and other residual interests.
TABLE 11.10—EQUITIES NOT SUBJECT TO MARKET RISK RULE—Continued

| Quantitative Disclosures | (b) Value disclosed in the balance sheet of investments, as well as the fair value of those investments, for quoted securities, a comparison to publicly-quoted share values where the share price is materially different from fair value. |
| (c) The types and nature of investments, including the amount that is: |
| (i) Publicly traded; and |
| (ii) Non-publicly traded. |
| (d) The cumulative realized gains (losses) arising from sales and liquidations in the reporting period. |
| (e) Total unrealized gains (losses) |
| Total latent revaluation gains (losses) |
| Any amounts of the above included in tier 1 and/or tier 2 capital. |
| (f) Capital requirements broken down by appropriate equity groupings, consistent with the State savings association’s methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisor transition regarding regulatory capital requirements. |

38 Unrealized gains (losses) not recognized either in the balance sheet or through earnings.
39 Unrealized gains (losses) recognized in the balance sheet but not through earnings.
40 This disclosure should include a breakdown of equities that are subject to the 0 percent, 20 percent, 100 percent, 300 percent, 400 percent, and 600 percent, risk weights, as applicable.

TABLE 11.11—INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

| Qualitative Disclosures | (a) The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayment behavior and risk of non-trading activities. |
| Quantitative Disclosures | (b) The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management’s method for measuring interest rate risk for non-trading activities, broken down by currency (as appropriate). |

PART IX—TRANSITION PROVISIONS

Section 81. Optional Transition Provisions Related to the Implementation of Consolidation Requirements Under FAS 167

(a) Scope, applicability, and purpose. This section 81 provides optional transition provisions for a State savings association that is required for financial and regulatory reporting purposes, as a result of its implementation of Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (FAS 167), to consolidate certain variable interest entities (VIEs) as defined under GAAP. These transition provisions apply through the end of the fourth quarter following the date of a State savings association’s implementation of FAS 167 (implementation date).

(b) Exclusion period. (1) Exclusion of risk-weighted assets for the first and second quarters. For the first two quarters after the implementation date (exclusion period), including for the two calendar quarter-end regulatory report dates within those quarters, a State savings association may exclude from risk-weighted assets:

(i) Subject to the limitations in paragraph (d) of section 81, assets held by a VIE, provided that the following conditions are met:

(A) The VIE existed prior to the implementation date.
(B) The VIE is a consolidated ABCP program.
(C) The State savings association chooses to exclude all assets held by VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81; and
(D) The State savings association excludes all assets held by VIEs described in paragraphs (b)(1)(i)(A) and (B) of this section 81.
Risk-weighted assets during exclusion period. During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a State savings association adopting the optional provisions in paragraph (b) of this section must calculate risk-weighted assets for its contractual exposures to the VIEs referenced in paragraph (b)(1) of this section 81 on the implementation date and include this calculated amount in risk-weighted assets. Such contractual exposures may include direct-credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans.

(d) Inclusion of ALLL in tier 2 capital for the first and second quarters. During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a State savings association that excludes VIE assets from risk-weighted assets pursuant to paragraph (b)(1) of this section 81 may include in tier 2 capital the full amount of the ALLL calculated as of the implementation date that is attributable to the assets it excludes pursuant to paragraph (b)(1) of this section 81 (inclusion amount). The amount of ALLL includable in tier 2 capital in accordance with this paragraph shall not be subject to the limitations set forth in section 13(A)(2) and 13(b) of this Appendix.

(c) Phase-in period. (1) Exclusion amount. For purposes of this paragraph (c), exclusion amount is defined as the amount of risk-weighted assets excluded in paragraph (b)(1) of this section as of the implementation date.

(2) Risk-weighted assets for the third and fourth quarters. A State savings association that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (b)(1) of this section may, for the third and fourth quarters after the implementation date (phase-in period), including for the two calendar quarter-end regulatory report dates within those quarters, exclude from risk-weighted assets pursuant to this paragraph an amount less than the aggregate risk-weighted assets calculated pursuant to paragraph (b)(2) of this section 81.

(3) Inclusion of ALLL in tier 2 capital for the third and fourth quarters. A State savings association that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph (c)(2) of this section may, for the phase-in period, include in tier 2 capital 50 percent of the inclusion amount it included in tier 2 capital, during the exclusion period, notwithstanding the limit on including ALLL in tier 2 capital in section 13(A)(2) and 13(b) of this Appendix.

(d) Implicit recourse limitation. Notwithstanding any other provision in this section 81, assets held by a VIE to which the State savings association has provided recourse through credit enhancement beyond any contractual obligation to support assets it has sold may not be excluded from risk-weighted assets.
391.38 Notice of special flood hazards and availability of Federal disaster relief assistance.
391.39 Notice of servicer’s identity.

Subpart A—Security Procedures

§ 391.1 Authority, purpose, and scope.

(a) This subpart is issued by the Federal Deposit Insurance Corporation (FDIC) under section 3 of the Bank Protection Act of 1968 (12 U.S.C. 1828), and sections 501 and 505(b)(1) of the Gramm-Leach-Bliley Act (15 U.S.C. 6801 and 6805(b)(1)), and section 628 of the Fair Credit Reporting Act (15 U.S.C. 1681w). This subpart is applicable to State savings associations. It requires each State savings association to adopt appropriate security procedures to discourage robberies, burglaries, and larcenies and to assist in the identification and prosecution of persons who commit such acts. Section 391.5 is applicable to State savings associations and their subsidiaries (except brokers, dealers, persons providing insurance, investment companies, and investment advisers). Section 391.5 requires covered institutions to establish and implement appropriate administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of customer information.

(b) It is the responsibility of a State savings association’s board of directors to comply with this regulation and ensure that a written security program for the State savings association’s main office and branches is developed and implemented.

§ 391.2 Designation of security officer.

Within 30 days after the effective date of insurance of accounts, the board of directors of each State savings association shall designate a security officer who shall have the authority, subject to the approval of the board of directors, to develop, within a reasonable time but no later than 180 days, and to administer a written security program for each of the State savings association’s offices.

§ 391.3 Security program.

(a) Contents of security program. The security program shall:

(1) Establish procedures for opening and closing for business and for the safekeeping of all currency, negotiable securities, and similar valuables at all times;

(2) Establish procedures that will assist in identifying persons committing crimes against the State savings association and that will preserve evidence that may aid in their identification and prosecution. Such procedures may include, but are not limited to:

(i) Maintaining a camera that records activity in the office;

(ii) Using identification devices, such as prerecorded serial-numbered bills, or chemical and electronic devices; and

(iii) Retaining a record of any robbery, burglary, or larceny committed against the State savings association;

(3) Provide for initial and periodic training of officers and employees in their responsibilities under the security program and in proper employee conduct during and after a burglary, robbery, or larceny; and

(4) Provide for selecting, testing, operating and maintaining appropriate security devices.

12 CFR Ch. III (1–1–14 Edition)
security devices, as specified in paragraph (b) of this section.

(b) Security devices. Each State savings association shall have, at a minimum, the following security devices:

(1) A means of protecting cash and other liquid assets, such as a vault, safe, or other secure space;

(2) A lighting system for illuminating, during the hours of darkness, the area around the vault, if the vault is visible from outside the office;

(3) Tamper-resistant locks on exterior doors and exterior windows that may be opened;

(4) An alarm system or other appropriate device for promptly notifying the nearest responsible law enforcement officers of an attempted or perpetrated robbery or burglary; and

(5) Such other devices as the security officer determines to be appropriate, taking into consideration:

(i) The incidence of crimes against financial institutions in the area;

(ii) The amount of currency and other valuables exposed to robbery, burglary, or larceny;

(iii) The distance of the office from the nearest responsible law enforcement officers;

(iv) The cost of the security devices;

(v) Other security measures in effect at the office; and

(vi) The physical characteristics of the structure of the office and its surroundings.

§ 391.4 Report.

The security officer for each State savings association shall report at least annually to the State savings association’s board of directors on the implementation, administration, and effectiveness of the security program.

§ 391.5 Protection of customer information.

State savings associations and their subsidiaries (except brokers, dealers, persons providing insurance, investment companies, and investment advisers) must comply with the Interagency Guidelines Establishing Information Security Standards set forth in appendix B to this subpart. Supplement A to appendix B to this subpart provides interpretive guidance.
§ 391.11 Determination and notification of failure to meet safety and soundness standards and request for compliance plan.

(a) Determination. The FDIC may, based upon an examination, inspection, or any other information that becomes available to the FDIC, determine that a State savings association has failed to satisfy the safety and soundness standards contained in the Interagency Guidelines Establishing Standards for Safety and Soundness as set forth in appendix A to this subpart or the Interagency Guidelines Establishing Information Security Standards as set forth in appendix B to this subpart.

(b) Request for compliance plan. If the FDIC determines that a State savings association has failed to meet a safety and soundness standard pursuant to paragraph (a) of this section, the FDIC may request by letter or through a report of examination, the submission of a compliance plan. The State savings association shall be deemed to have notice of the request three days after mailing or delivery of the letter or report of examination by the FDIC.

§ 391.12 Filing of safety and soundness compliance plan.

(a) Schedule for filing compliance plan—(1) In general. A State savings association shall file a written safety and soundness compliance plan with the FDIC within 30 days of receiving a request for a compliance plan pursuant to §391.11(b), unless the FDIC notifies the State savings association in writing that the plan is to be filed within a different period.

(2) Other plans. If a State savings association is obligated to file, or is currently operating under, a capital restoration plan submitted pursuant to section 38 of the FDI Act (12 U.S.C. 1831o), a cease-and-desist order entered into pursuant to section 8 of the FDI Act, a formal or informal agreement, or a response to a report of examination, it may, with the permission of the FDIC, submit a compliance plan under this section as part of that plan, order, agreement, or response, subject to the deadline provided in paragraph (a)(1) of this section.

(b) Contents of plan. The compliance plan shall include a description of the steps the State savings association will take to correct the deficiency and the time within which those steps will be taken.

(c) Review of safety and soundness compliance plans. Within 30 days after receiving a safety and soundness compliance plan under this subpart, the FDIC shall provide written notice to the State savings association of whether the plan has been approved or seek additional information from the State savings association regarding the plan. The FDIC may extend the time within which notice regarding approval of a plan will be provided.

(d) Failure to submit or implement a compliance plan. If a State savings association fails to submit an acceptable plan within the time specified by the FDIC or fails in any material respect to implement a compliance plan, then the FDIC shall, by order, require the State savings association to correct the deficiency and may take further actions provided in section 39(e)(2)(B) of the FDI Act. Pursuant to section 39(e)(3), the FDIC may be required to take certain actions if the State savings association commenced operations or experienced a change in control within the previous 24-month period, or the State savings association experienced extraordinary growth during the previous 18-month period.

(e) Amendment of compliance plan. A State savings association that has filed an approved compliance plan may.
after prior written notice to and approval by the FDIC, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the State savings association shall implement the compliance plan as previously approved.

§ 391.13 Issuance of orders to correct deficiencies and to take or refrain from taking other actions.

(a) Notice of intent to issue order—(1) In general. The FDIC shall provide a State savings association prior written notice of the FDIC's intention to issue an order requiring the State savings association to correct a safety and soundness deficiency or to take or refrain from taking other actions pursuant to section 39 of the FDI Act. The State savings association shall have such time to respond to a proposed order as provided by the FDIC under paragraph (c) of this section.

(2) Immediate issuance of final order. If the FDIC finds it necessary in order to carry out the purposes of section 39 of the FDI Act, the FDIC may, without providing the notice prescribed in paragraph (a)(1) of this section, issue an order requiring a State savings association immediately to take actions to correct a safety and soundness deficiency or to take or refrain from taking other actions pursuant to section 39. A State savings association that is subject to such an immediately effective order may submit a written appeal of the order to the FDIC. Such an appeal must be received by the FDIC within 14 calendar days from the date of the notice unless the FDIC determines that a different period is appropriate in light of the safety and soundness of the State savings association or other relevant circumstances.

(b) Contents of notice. A notice of intent to issue an order shall include:

(i) A statement of the safety and soundness deficiency or deficiencies that have been identified at the State savings association;

(ii) Any recommended modification of the proposed order; and

(iii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the State savings association regarding the proposed order.

(c) Response to notice—(1) Time for response. A State savings association may file a written response to a notice of intent to issue an order within the time period set by the FDIC. Such a response must be received by the FDIC within 14 calendar days from the date of the notice unless the FDIC determines that a different period is appropriate in light of the safety and soundness of the State savings association or other relevant circumstances.

(2) Contents of response. The response should include:

(i) An explanation why the action proposed by the FDIC is not an appropriate exercise of discretion under section 39 of the FDI Act;

(ii) Any recommended modification of the proposed order; and

(iii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the State savings association regarding the proposed order.

(d) The FDIC's consideration of response. After considering the response, the FDIC may:

(1) Issue the order as proposed or in modified form;

(2) Determine not to issue the order and so notify the State savings association; or

(3) Seek additional information or clarification of the response from the State savings association, or any other relevant source.

(e) Failure to file response. Failure by a State savings association to file with the FDIC, within the specified time period, a written response to a proposed order shall constitute a waiver of the opportunity to respond and shall constitute consent to the issuance of the order.

(f) Request for modification or rescission of order. Any State savings association that is subject to an order under this subpart may, upon a change in circumstances, request in writing that the FDIC reconsider the terms of the
order, and may propose that the order be rescinded or modified. Unless otherwise ordered by the FDIC, the order shall continue in place while such request is pending before the FDIC.

§ 391.14 Enforcement of orders.

(a) Judicial remedies. Whenever a State savings association fails to comply with an order issued under section 39 of the FDI Act, the FDIC may seek enforcement of the order in the appropriate United States district court pursuant to section 8(i)(1) of the FDI Act.

(b) Administrative remedies. Pursuant to section 8(i)(2)(A) of the FDI Act, the FDIC may assess a civil money penalty against any State savings association that violates or otherwise fails to comply with any final order issued under section 39 and against any State savings association-affiliated party who participates in such violation or noncompliance.

(c) Other enforcement action. In addition to the actions described in paragraphs (a) and (b) of this section, the FDIC may seek enforcement of the provisions of section 39 of the FDI Act or this part through any other judicial or administrative proceeding authorized by law.

APPENDIX A TO SUBPART B OF PART 391—INTERAGENCY GUIDELINES ESTABLISHING STANDARDS FOR SAFETY AND SOUNDNESS

I. Introduction

A. Preservation of existing authority.

B. Definitions.

II. Operational and Managerial Standards

A. Internal controls and information systems.

B. Internal audit system.

C. Loan documentation.

D. Credit underwriting.

E. Interest rate exposure.

F. Asset growth.

G. Asset quality.

H. Earnings.

I. Compensation, fees and benefits.

III. Prohibition on Compensation That Constitutes an Unsafe and Unsound Practice

A. Excessive compensation.

B. Compensation leading to material financial loss.
Federal Deposit Insurance Corporation

may, and in some cases must, take other supervisory actions until the deficiency has been corrected.

v. The agencies have adopted amendments to their rules and regulations to establish deadlines for submission and review of compliance plans.2

vi. The following Guidelines set out the safety and soundness standards that the agencies use to identify and address problems at insured depository institutions before capital becomes impaired. The agencies believe that the standards adopted in these Guidelines serve this end without dictating how institutions must be managed and operated. These standards are designed to identify potential safety and soundness concerns and ensure that action is taken to address those concerns before they pose a risk to the Deposit Insurance Fund.

A. Preservation of Existing Authority

Neither section 39 nor these Guidelines in any way limits the authority of the agencies to address unsafe or unsound practices, violations of law, unsafe or unsound conditions, or other practices. Action under section 39 and these Guidelines may be taken independently of, in conjunction with, or in addition to any other enforcement action available to the agencies. Nothing in these Guidelines limits the authority of the FDIC pursuant to section 38(i)(2)(F) of the FDI Act (12 U.S.C. 1831 and 1831p–1).

B. Definitions

1. In general. For purposes of these Guidelines, except as modified in the Guidelines or unless the context otherwise requires, the terms used have the same meanings as set forth in sections 3 and 39 of the FDI Act (12 U.S.C. 1813 and 181p–1).

2. Board of directors, in the case of a state-licensed insured branch of a foreign bank and in the case of a federal branch of a foreign bank, means the managing official in charge of the insured foreign branch.

3. Compensation means all direct and indirect payments or benefits, both cash and non-cash, granted to or for the benefit of any executive officer, employee, director, or principal shareholder, including but not limited to payments or benefits derived from an employment contract, compensation or benefit agreement, fee arrangement, perquisite, stock option plan, postemployment benefit, or other compensatory arrangement.

4. Director shall have the meaning described in 12 CFR 215.2(d).

5. Executive officer shall have the meaning described in 12 CFR 215.2(e).3

6. Principal shareholder shall have the meaning described in 12 CFR 215.2(m).5

II. OPERATIONAL AND MANAGERIAL STANDARDS

A. Internal controls and information systems.

An institution should have internal controls and information systems that are appropriate to the size of the institution and the nature, scope and risk of its activities and that provide for:

1. An organizational structure that establishes clear lines of authority and responsibility for monitoring adherence to established policies;

2. Effective risk assessment;

3. Timely and accurate financial, operational and regulatory reports;

4. Adequate procedures to safeguard and manage assets; and

5. Compliance with applicable laws and regulations.

B. Internal audit system.

An institution should have an internal audit system that is appropriate to the size of the institution and the nature and scope of its activities and that provides for:

1. Adequate monitoring of the system of internal controls through an internal audit function. For an institution whose size, complexity or scope of operations does not warrant a full scale internal audit function, a system of independent reviews of key internal controls may be used;

2. Independence and objectivity;

3. Qualified persons;

4. Adequate testing and review of information systems;

5. Adequate documentation of tests and findings and any corrective actions;

6. Verification and review of management actions to address material weaknesses; and

7. Review by the institution’s audit committee or board of directors of the effectiveness of the internal audit systems.

C. Loan documentation.

An institution should establish and maintain loan documentation practices that:

2For the Office of the Comptroller of the Currency, these regulations appear at 12 CFR part 30; for the Board of Governors of the Federal Reserve System, these regulations appear at 12 CFR part 263; for the Federal Deposit Insurance Corporation, these regulations appear at 12 CFR part 308, subpart R, and subpart B of part 391.

3In applying these definitions for State savings associations, State savings associations shall use the terms “State savings association” and “insured State savings association” in place of the terms “member bank” and “insured bank”.

4See footnote 3 in section I.B.4. of this appendix.

5See footnote 3 in section I.B.4. of this appendix.
1. Enable the institution to make an informed lending decision and to assess risk, as necessary, on an ongoing basis;
2. Identify the purpose of a loan and the source of repayment, and assess the ability of the borrower to repay the indebtedness in a timely manner;
3. Ensure that any claim against a borrower is legally enforceable;
4. Demonstrate appropriate administration and monitoring of a loan; and
5. Take account of the size and complexity of a loan.

D. Credit underwriting. An institution should establish and maintain prudent credit underwriting practices that:
1. Are commensurate with the types of loans the institution will make and consider the terms and conditions under which they will be made;
2. Consider the nature of the markets in which loans will be made;
3. Provide for consideration, prior to credit commitment, of the borrower’s overall financial condition and resources, the financial responsibility of any guarantor, the nature and value of any underlying collateral, and the borrower’s character and willingness to repay as agreed;
4. Establish a system of independent, ongoing credit review and appropriate communication to management and to the board of directors;
5. Take adequate account of concentration of credit risk; and
6. Are appropriate to the size of the institution and the nature and scope of its activities.

E. Interest rate exposure. An institution should:
1. Manage interest rate risk in a manner that is appropriate to the size of the institution and the complexity of its assets and liabilities; and
2. Provide for periodic reporting to management and the board of directors regarding interest rate risk with adequate information for management and the board of directors to assess the level of risk.

F. Asset growth. An institution’s asset growth should be prudent and consider:
1. The source, volatility and use of the funds that support asset growth;
2. Any increase in credit risk or interest rate risk as a result of growth; and
3. The effect of growth on the institution’s capital.

G. Asset quality. An insured depository institution should establish and maintain a system that is commensurate with the institution’s size and the nature and scope of its operations to identify problem assets and prevent deterioration in those assets. The institution should:
1. Conduct periodic asset quality reviews to identify problem assets;
2. Estimate the inherent losses in those assets and establish reserves that are sufficient to absorb estimated losses;
3. Compare problem asset totals to capital;
4. Take appropriate corrective action to resolve problem assets;
5. Consider the size and potential risks of material asset concentrations; and
6. Provide periodic asset reports with adequate information for management and the board of directors to assess the level of asset risk.

H. Earnings. An insured depository institution should establish and maintain a system that is commensurate with the institution’s size and the nature and scope of its operations to evaluate and monitor earnings and ensure that earnings are sufficient to maintain adequate capital and reserves. The institution should:
1. Compare recent earnings trends relative to equity, assets, or other commonly used benchmarks to the institution’s historical results and those of its peers;
2. Evaluate the adequacy of earnings given the size, complexity, and risk profile of the institution’s assets and operations;
3. Assess the source, volatility, and sustainability of earnings, including the effect of nonrecurring or extraordinary income or expense;
4. Take steps to ensure that earnings are sufficient to maintain adequate capital and reserves after considering the institution’s asset quality and growth rate; and
5. Provide periodic earnings reports with adequate information for management and the board of directors to assess earnings performance.

III. Prohibition on Compensation That Constitutes an Unsafe and Unsound Practice

A. Excessive Compensation

Excessive compensation is prohibited as an unsafe and unsound practice. Compensation shall be considered excessive when amounts paid are unreasonable or disproportionate to the services performed by an executive officer, employee, director, or principal shareholder, considering the following:
1. The combined value of all cash and non-cash benefits provided to the individual;
2. The compensation history of the individual and other individuals with comparable expertise at the institution;
3. The financial condition of the institution;
4. Comparable compensation practices at comparable institutions, based upon such factors as asset size, geographic location,

I. INTRODUCTION

The Interagency Guidelines Establishing Information Security Standards (Guidelines) set forth standards pursuant to section 39(a) of the Federal Deposit Insurance Act (12 U.S.C. 1831p–1), and sections 501 and 505(b) of the Gramm-Leach-Bliley Act (15 U.S.C. 6801 and 6805(b)). These Guidelines address standards for developing and implementing administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of customer information. These Guidelines also address standards with respect to the proper disposal of consumer information, pursuant to section 628 of the Fair Credit Reporting Act (15 U.S.C. 1681w).

A. Scope. The Guidelines apply to customer information maintained by or on behalf of entities over which FDIC has authority. For purposes of this appendix, these entities are State savings associations whose deposits are FDIC-insured and any subsidiaries of such State savings associations, except brokers, dealers, persons providing insurance, investment companies, and investment advisers. This appendix refers to such entities as "you". These Guidelines also apply to the proper disposal of consumer information by or on behalf of such entities.

B. Preservation of Existing Authority. Neither section 39 nor these Guidelines in any way limit FDIC's authority to address unsafe or unsound practices, violations of law, unsafe or unsound conditions, or other practices. FDIC may take action under section 39 and these Guidelines independently of, in conjunction with, or in addition to, any other enforcement action available to FDIC.

C. Definitions. I. Except as modified in the Guidelines, or unless the context otherwise requires, the terms used in these Guidelines have the same meanings as set forth in sections 3 and 39 of the Federal Deposit Insurance Act (12 U.S.C. 1813 and 1831p–1).

2. For purposes of the Guidelines, the following definitions apply:

a. Consumer information means any record about an individual, whether in paper, electronic, or other form, that is a consumer report or is derived from a consumer report and that is maintained or otherwise possessed by you or on your behalf for a business purpose. Consumer information also means a compilation of such records. The term does not include any record that does not identify an individual.

i. Examples. (1) Consumer information includes:

(A) A consumer report that a State savings association obtains;

(B) Information from a consumer report that you obtain from your affiliate after the consumer has been given a notice and has elected not to opt out of that sharing;

(C) Information from a consumer report that you obtain about an individual who applies for but does not receive a loan, including any loan sought by an individual for a business purpose;

(D) Information from a consumer report that you obtain about an individual who guarantees a loan (including a loan to a business entity); or

(E) Information from a consumer report that you obtain about an employee or prospective employee.

(2) Consumer information does not include:

(A) Aggregate information, such as the mean credit score, derived from a group of consumer reports; or

(B) Blind data, such as payment history on accounts that are not personally identifiable, that may be used for developing credit scoring models or for other purposes.

b. Consumer report has the same meaning as set forth in the Fair Credit Reporting Act, 15 U.S.C. 1681a(d).
III. DEVELOPMENT AND IMPLEMENTATION OF INFORMATION SECURITY PROGRAM

A. Insolve the Board of Directors. Your board of directors or an appropriate committee of the board shall:

1. Approve your written information security program; and
2. Oversee the development, implementation, and maintenance of your information security program, including assigning specific responsibility for its implementation and reviewing reports from management.

B. Assess Risk. You shall:

1. Identify reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or destruction of customer information or customer information systems.
2. Assess the likelihood and potential damage of these threats, taking into consideration the sensitivity of customer information.
3. Assess the sufficiency of policies, procedures, customer information systems, and other arrangements in place to control risks.

C. Manage and Control Risk. You shall:

1. Design your information security program to control the identified risks, commensurate with the sensitivity of the information as well as the complexity and scope of your activities. You must consider whether the following security measures are appropriate for you and, if so, adopt those measures you conclude are appropriate:
   a. Access controls on customer information systems, including controls to authenticate and permit access only to authorized individuals and controls to prevent employees from providing customer information to unauthorized individuals who may seek to obtain this information through fraudulent means.
   b. Access restrictions at physical locations containing customer information, such as buildings, computer facilities, and records storage facilities to permit access only to authorized individuals;
   c. Encryption of electronic customer information, including while in transit or in storage on networks or systems to which unauthorized individuals may have access;
   d. Procedures designed to ensure that customer information system modifications are consistent with your information security program;
   e. Dual control procedures, segregation of duties, and employee background checks for employees with responsibilities for or access to customer information;
   f. Monitoring systems and procedures to detect actual and attempted attacks on or intrusions into customer information systems;
   g. Response programs that specify actions for you to take when you suspect or detect that unauthorized individuals have gained access to customer information systems, including appropriate reports to regulatory and law enforcement agencies; and
   h. Measures to protect against destruction, loss, or damage of customer information due to potential environmental hazards, such as fire and water damage or technological failures.
2. Train staff to implement your information security program.
3. Regularly test the key controls, systems and procedures of the information security program. The frequency and nature of such tests should be determined by your risk assessment. Tests should be conducted or reviewed by independent third parties or staff independent of those that develop or maintain the security programs.
4. Develop, implement, and maintain, as part of your information security program, appropriate measures to properly dispose of customer information.

O. Customer means any consumer who has a customer relationship with you.

D. Customer information means any record containing nonpublic personal information about a customer, whether in paper, electronic, or other form, that you maintain or that is maintained on your behalf.

E. Customer information systems means any methods used to access, collect, store, use, transmit, protect, or dispose of customer information.

F. Service provider means any person or entity that maintains, processes, or otherwise is responsible for its implementation the following security measures are appropriate.
Federal Deposit Insurance Corporation

customer information and consumer information in accordance with each of the requirements in this paragraph III.

D. Oversee Service Provider Arrangements.

1. Exercise appropriate due diligence in selecting your service providers;

2. Require your service providers by contract to implement appropriate measures designed to meet the objectives of these Guidelines; and

3. Where indicated by your risk assessment, monitor your service providers to confirm that they have satisfied their obligations as required by paragraph D.2. As part of this monitoring, you should review audits, summaries of test results, or other equivalent evaluations of your service providers.

E. Adjust the Program. You shall monitor, evaluate, and adjust, as appropriate, the information security program in light of any relevant changes in technology, the sensitivity of your customer information, internal or external threats to information, and your own changing business arrangements, such as mergers and acquisitions, alliances and joint ventures, outsourcing arrangements, and changes to customer information systems.

F. Report to the Board. You shall report to your board or an appropriate committee of the board at least annually. This report should describe the overall status of the information security program and your compliance with these Guidelines. The reports should discuss material matters related to your program, addressing issues such as: risk assessment; risk management and control decisions; service provider arrangements; results of testing; security breaches or violations and management’s responses; and recommendations for changes in the information security program.

G. Implement the Standards. 1. Effective date. You must implement an information security program pursuant to these Guidelines by July 1, 2001.

2. Two-year grandfathering of agreements with service providers. Until July 1, 2003, a contract that you have entered into with a service provider to perform services for you or functions on your behalf satisfies the provisions of paragraph III.D., even if the contract does not include a requirement that the service provider maintain the security and confidentiality of customer information, as long as you entered into the contract on or before March 5, 2001.

3. Effective date for measures relating to the disposal of consumer information. You must satisfy these Guidelines with respect to the proper disposal of consumer information by July 1, 2005.

4. Exception for existing agreements with service providers relating to the disposal of consumer information. Notwithstanding the requirement in paragraph III.G.3., your contracts with service providers that have access to consumer information and that may dispose of consumer information, entered into before July 1, 2005, must comply with the provisions of the Guidelines relating to the proper disposal of consumer information by July 1, 2006.

Supplement to Appendix B of Part 391—Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice

I. BACKGROUND

This Guidance interprets section 501(b) of the Gramm-Leach-Bliley Act (“GLBA”) and the Interagency Guidelines Establishing Information Security Standards (the “Security Guidelines”) and describes response programs, including customer notification procedures, that a financial institution should develop and implement to address unauthorized access to or use of customer information that could result in substantial harm or inconvenience to a customer. The scope of, and definitions of terms used in, this Guidance are identical to those of the Security Guidelines. For example, the term “customer information” is the same term used in the Security Guidelines, and means any record containing nonpublic personal information about a customer, whether in paper, electronic, or other form, maintained by or on behalf of the institution.

A. Interagency Security Guidelines

Section 501(b) of the GLBA required the Agencies to establish appropriate standards for financial institutions subject to their jurisdiction that include administrative, technical, and physical safeguards, to protect the security and confidentiality of customer information. Accordingly, the Agencies issued Security Guidelines requiring every financial institution to have an information security program designed to:

1. Ensure the security and confidentiality of customer information;

---

This Guidance is being jointly issued by the Board of Governors of the Federal Reserve System (Board), the Federal Deposit Insurance Corporation (FDIC), and the Office of the Comptroller of the Currency (OCC).

1243
2. Protect against any anticipated threats or hazards to the security or integrity of such information; and
3. Protect against unauthorized access to or disclosure of information that could result in substantial harm or inconvenience to any customer.

B. Risk Assessment and Controls
1. The Security Guidelines direct every financial institution to assess the following risks, among others, when developing its information security program:
   a. Reasonably foreseeable internal and external threats that could result in unauthorized disclosure, misuse, alteration, or destruction of customer information or customer information systems;
   b. The likelihood and potential damage of threats, taking into consideration the sensitivity of customer information; and
   c. The sufficiency of policies, procedures, customer information systems, and other arrangements in place to control risks.3
2. Following the assessment of these risks, the Security Guidelines require a financial institution to design a program to address the identified risks. The particular security measures an institution should adopt will depend upon the risks presented by the complexity and scope of its business. At a minimum, the financial institution is required to consider the specific security measures enumerated in the Security Guidelines4 and adopt those that are appropriate for the institution, including:
   a. Access controls on customer information systems, including controls to authenticate and permit access only to authorized individuals and controls to prevent employees from obtaining customer information that could result in substantial harm or inconvenience to any customer.6
   b. Background checks for employees who are authorized to access customer information.8
   c. Response programs that specify actions to be taken when the financial institution suspects or detects that unauthorized individuals have gained access to customer information systems, including appropriate reports to regulatory and law enforcement agencies.5

C. Service Providers
The Security Guidelines direct every financial institution to require its service providers by contract to implement appropriate measures designed to protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer.6

II. RESPONSE PROGRAM
Millions of Americans, throughout the country, have been victims of identity theft.7 Identity thieves misuse personal information they obtain from a number of sources, including financial institutions, to perpetrate identity theft. Therefore, financial institutions should take preventative measures to safeguard customer information against attempts to gain unauthorized access to the information. For example, financial institutions should place access controls on customer information systems and conduct background checks for employees who are authorized to access customer information.8 However, every financial institution should also develop and implement a risk-based response program to address incidents of unauthorized access to customer information in customer information systems9 that occur nonetheless. A response program should be a key part of an institution’s information security program.10 The program should be appropriate to the size and complexity of the

---

3See Security Guidelines, III.B.
4See Security Guidelines, III.C.
5See Security Guidelines, III.C.
6See Security Guidelines, II.B. and III.D.
8Institutions should also conduct background checks of employees to ensure that the institution does not violate 12 U.S.C. 1829, which prohibits an institution from hiring an individual convicted of certain criminal offenses or who is subject to a prohibition order under 12 U.S.C. 1818(e)(6).
9Under the Guidelines, an institution’s customer information systems consist of all of the methods used to access, collect, store, use, transmit, protect, or dispose of customer information, including the systems maintained by its service providers. See Security Guidelines, I.C.2.d (I.C.2.c for FDIC).
institution and the nature and scope of its activities.

In addition, each institution should be able to address incidents of unauthorized access to customer information in customer information systems maintained by its domestic and foreign service providers. Therefore, consistent with the obligations in the Guidelines that relate to these arrangements, and with existing guidance on this topic issued by the Agencies, an institution’s contract with its service provider should require the service provider to take appropriate actions to address incidents of unauthorized access to the financial institution’s customer information, including notification to the institution as soon as possible of any such incident, to enable the institution to expeditiously implement its response program.

A. Components of a Response Program

1. At a minimum, an institution’s response program should contain procedures for the following:
   a. Assessing the nature and scope of an incident, and identifying what customer information systems and types of customer information have been accessed or misused;
   b. Notifying its primary Federal regulator as soon as possible when the institution becomes aware of an incident involving unauthorized access to or use of sensitive customer information, as defined below;
   c. Consistent with the Agencies’ Suspicious Activity Report (SAR) regulations, notifying appropriate law enforcement authorities, in addition to filing a timely SAR in situations involving Federal criminal violations requiring immediate attention, such as when a reportable violation is ongoing;
   d. Taking appropriate steps to contain and control the incident to prevent further unauthorized access to or use of customer information, for example, by monitoring, freezing, or closing affected accounts, while preserving records and other evidence; and
   e. Notifying customers when warranted.

2. Where an incident of unauthorized access to customer information involves customer information systems maintained by an institution’s service providers, it is the responsibility of the financial institution to notify the institution’s customers and regulator. However, an institution may authorize or contract with its service provider to notify the institution’s customers or regulator on its behalf.

III. CUSTOMER NOTICE

Financial institutions have an affirmative duty to protect their customers’ information against unauthorized access or use. Notifying customers of a security incident involving the unauthorized access or use of the customer’s information in accordance with the standard set forth below is a key part of that duty. Timely notification of customers is important to manage an institution’s reputation risk. Effective notice also may reduce an institution’s legal risk, assist in maintaining good customer relations, and enable the institution’s customers to take steps to protect themselves against the consequences of identity theft. When customer notification is warranted, an institution may not forgo notifying its customers of an incident because the institution believes that it may be potentially embarrassed or inconvenienced by doing so.

When a financial institution becomes aware of an incident of unauthorized access to sensitive customer information, the institution should conduct a reasonable investigation to promptly determine the likelihood that the information has been or will be misused. If the institution determines that misuse of its information about a customer has occurred or is reasonably possible, it should notify the affected customer as soon as possible. Customer notice may be delayed if an appropriate law enforcement agency determines that notification will interfere with a criminal investigation and provides the institution with a written request for the delay. However, the institution should notify its customers as soon as notification will no longer interfere with the investigation.

1. Sensitive Customer Information

Under the Guidelines, an institution must protect against unauthorized access to or use of customer information that could result in substantial harm or inconvenience to any customer. Substantial harm or inconvenience is most likely to result from improper access to sensitive customer information because this type of information is most likely to be misused, as in the commission of identity theft. For purposes of this Guidance, sensitive customer information means a customer’s name, address, or telephone number, in conjunction with the customer’s social security number, driver’s license number, account number, credit or debit card number, or a personal identification number or password that would allow someone to log onto or access the customer’s account, such as user name and password or password and account number.

2. Affected Customers

If a financial institution, based upon its investigation, can determine from its logs or other data precisely which customers’ information has been improperly accessed, it may limit notification to those customers with regard to whom the institution determines that misuse of their information has occurred or is reasonably possible. However, there may be situations where the institution determines that a group of files has been accessed improperly, but is unable to identify which specific customers’ information has been accessed. If the circumstances of the unauthorized access lead the institution to determine that misuse of the information is reasonably possible, it should notify all customers in the group.
contact information for the reporting agencies.

C. Delivery of Customer Notice

Customer notice should be delivered in any manner designed to ensure that a customer can reasonably be expected to receive it. For example, the institution may choose to contact all customers affected by telephone or by mail, or by electronic mail for those customers for whom it has a valid e-mail address and who have agreed to receive communications electronically.

Subpart C—Fair Credit Reporting

§ 391.20 Examples.

The examples in this subpart are not exclusive. Compliance with an example, to the extent applicable, constitutes compliance with this subpart. Examples in a section illustrate only the issue described in the section and do not illustrate any other issue that may arise in this subpart.

§ 391.21 Disposal of consumer information.

(a) Scope. This section applies to State savings associations whose deposits are insured by the Federal Deposit Insurance Corporation (defined as "you").

(b) In general. You must properly dispose of any consumer information that you maintain or otherwise possess in accordance with the Interagency Guidelines Establishing Information Security Standards, to the extent that you are covered by the scope of the Guidelines.

(c) Rule of construction. Nothing in this section shall be construed to:

(1) Require you to maintain or destroy any record pertaining to a consumer that is not imposed under any other law; or

(2) Alter or affect any requirement imposed under any other provision of law to maintain or destroy such a record.

§ 391.22 Duties regarding the detection, prevention, and mitigation of identity theft.

(a) Scope. This section applies to a financial institution or creditor that is a State savings association whose deposits are insured by the Federal Deposit Insurance Corporation.

(b) Definitions. For purposes of this section and the appendix to subpart C of part 391, the following definitions apply:

(1) Account means a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purposes. Account includes:

(i) An extension of credit, such as the purchase of property or services involving a deferred payment; and

(ii) A deposit account.

(2) The term board of directors includes:

(i) In the case of a branch or agency of a foreign bank, the managing official in charge of the branch or agency; and

(ii) In the case of any other creditor that does not have a board of directors, a designated employee at the level of senior management.

(3) Covered account means:

(i) An account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account; and

(ii) Any other account that the financial institution or creditor offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation risks.

(4) Credit has the same meaning as in 15 U.S.C. 1681a(r)(5).

(5) Creditor has the same meaning as in 15 U.S.C. 1681a(r)(5), and includes lenders such as banks, finance companies, automobile dealers, mortgage brokers, utility companies, and telecommunications companies.

(6) Customer means a person that has a covered account with a financial institution or creditor.

(7) Financial institution has the same meaning as in 15 U.S.C. 1681a(t).

(8) Identity theft has the same meaning as in 16 CFR 603.2(a).
§ 391.23 Duties of card issuers regarding changes of address.

(a) Scope. This section applies to an issuer of a debit or credit card (card issuer) that is a State savings association whose deposits are insured by the Federal Deposit Insurance Corporation.

(b) Definitions. For purposes of this section:

(1) Cardholder means a consumer who has been issued a credit or debit card.

(2) Clear and conspicuous means reasonably understandable and designed to call attention to the nature and significance of the information presented.

(c) Address validation requirements. A card issuer must establish and implement reasonable policies and procedures to assess the validity of a change of address if it receives notification of a change of address for a consumer’s debit or credit card account and, within a short period of time afterwards (during at least the first 30 days after it receives such notification), the card issuer receives a request for an additional or replacement card for the same account. Under these circumstances, the card issuer may not...
issue an additional or replacement card, until, in accordance with its reasonable policies and procedures and for the purpose of assessing the validity of the change of address, the card issuer:

(1)(i) Notifies the cardholder of the request:
(A) At the cardholder’s former address; or
(B) By any other means of communication that the card issuer and the cardholder have previously agreed to use; and
(ii) Provides to the cardholder a reasonable means of promptly reporting incorrect address changes; or
(2) Otherwise assesses the validity of the change of address in accordance with the policies and procedures the card issuer has established pursuant to §391.22.

(d) Alternative timing of address validation. A card issuer may satisfy the requirements of paragraph (c) of this section if it validates an address pursuant to the methods in paragraph (c)(1) or (c)(2) of this section when it receives an address change notification, before it receives a request for an additional or replacement card.

(e) Form of notice. Any written or electronic notice that the card issuer provides under this paragraph must be clear and conspicuous and provided separately from its regular correspondence with the cardholder.

APPENDIX TO SUBPART C OF PART 391—
INTERAGENCY GUIDELINES ON IDENTITY THEFT DETECTION, PREVENTION, AND MITIGATION

Section 391.22 requires each financial institution and creditor that offers or maintains one or more covered accounts, as defined in §391.22(b)(1), to develop and provide for the continued administration of a written Program to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or any existing covered account. These guidelines are intended to assist financial institutions and creditors in the formulation and maintenance of a Program that satisfies the requirements of §391.22.

I. THE PROGRAM

In designing its Program, a financial institution or creditor may incorporate, as appropriate, its existing policies, procedures, and other arrangements that control reasonably foreseeable risks to customers or to the safety and soundness of the financial institution or creditor from identity theft.

II. IDENTIFYING RELEVANT RED FLAGS

(a) Risk Factors. A financial institution or creditor should consider the following factors in identifying relevant Red Flags for covered accounts, as appropriate:
(1) The types of covered accounts it offers or maintains;
(2) The methods it provides to open its covered accounts;
(3) The methods it provides to access its covered accounts; and
(4) Its previous experiences with identity theft.

(b) Sources of Red Flags. Financial institutions and creditors should incorporate relevant Red Flags from sources such as:
(1) Incidents of identity theft that the financial institution or creditor has experienced;
(2) Methods of identity theft that the financial institution or creditor has identified that reflect changes in identity theft risks; and
(3) Applicable supervisory guidance.

(c) Categories of Red Flags. The Program should include relevant Red Flags from the following categories, as appropriate. Examples of Red Flags from each of these categories are appended as Supplement A to this Appendix.
(1) Alerts, notifications, or other warnings received from consumer reporting agencies or service providers, such as fraud detection services;
(2) The presentation of suspicious documents;
(3) The presentation of suspicious personal identifying information, such as a suspicious address change;
(4) The unusual use of, or other suspicious activity related to, a covered account; and
(5) Notice from customers, victims of identity theft, law enforcement authorities, or other persons regarding possible identity theft in connection with covered accounts held by the financial institution or creditor.

III. DETECTING RED FLAGS

The Program’s policies and procedures should address the detection of Red Flags in connection with the opening of covered accounts and existing covered accounts, such as by:
(a) Obtaining identifying information about, and verifying the identity of, a person opening a covered account, for example, using the policies and procedures regarding identification and verification set forth in the Customer Identification Program rules implementing 31 U.S.C. §5318(l) (31 CFR 103.121); and
(b) Authenticating customers, monitoring transactions, and verifying the validity of
change of address requests, in the case of existing covered accounts.

IV. PREVENTING AND MITIGATING IDENTITY THEFT

The Program’s policies and procedures should provide for appropriate responses to the Red Flags the financial institution or creditor has detected that are commensurate with the degree of risk posed. In determining an appropriate response, a financial institution or creditor should consider aggravating factors that may heighten the risk of identity theft, such as a data security incident that results in unauthorized access to a customer’s account records held by the financial institution, creditor, or third party, or notice that a customer has provided information related to a covered account held by the financial institution or creditor to someone fraudulently claiming to represent the financial institution or creditor or to a fraudulent Web site. Appropriate responses may include the following:

(a) Monitoring a covered account for evidence of identity theft;
(b) Contacting the customer;
(c) Changing any passwords, security codes, or other security devices that permit access to a covered account;
(d) Reopening a covered account with a new account number;
(e) Not opening a new covered account;
(f) Closing an existing covered account;
(g) Not attempting to collect on a covered account or not selling a covered account to a debt collector;
(h) Notifying law enforcement; or
(i) Determining that no response is warranted under the particular circumstances.

V. UPDATING THE PROGRAM

Financial institutions and creditors should update the Program (including the Red Flags determined to be relevant) periodically, to reflect changes in risks to customers or to the safety and soundness of the financial institution or creditor from identity theft, based on factors such as:

(a) The experiences of the financial institution or creditor with identity theft;
(b) Changes in methods of identity theft;
(c) Changes in methods to detect, prevent, and mitigate identity theft;
(d) Changes in the types of accounts that the financial institution or creditor offers or maintains; and
(e) Changes in the business arrangements of the financial institution or creditor, including mergers, acquisitions, alliances, joint ventures, and service provider arrangements.

VI. METHODS FOR ADMINISTERING THE PROGRAM

(a) Oversight of Program. Oversight by the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management should include:

(1) Assigning specific responsibility for the Program’s implementation;
(2) Reviewing reports prepared by staff regarding compliance by the financial institution or creditor with §391.22; and
(3) Approving material changes to the Program as necessary to address changing identity theft risks.

(b) Reports. (1) In general. Staff of the financial institution or creditor responsible for development, implementation, and administration of its Program should report to the board of directors, an appropriate committee of the board, or a designated employee at the level of senior management, at least annually, on compliance by the financial institution or creditor with §391.22.

(2) Contents of report. The report should address material matters related to the Program and evaluate issues such as: The effectiveness of the policies and procedures of the financial institution or creditor in addressing the risk of identity theft in connection with the opening of covered accounts and with respect to existing covered accounts; service provider arrangements; significant incidents involving identity theft and management’s response; and recommendations for material changes to the Program.

(c) Oversight of service provider arrangements. Whenever a financial institution or creditor engages a service provider to perform an activity in connection with one or more covered accounts the financial institution or creditor should take steps to ensure that the activity of the service provider is conducted in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of identity theft. For example, a financial institution or creditor could require the service provider by contract to have policies and procedures to detect relevant Red Flags that may arise in the performance of the service provider’s activities, and either report the Red Flags to the financial institution or creditor, or to take appropriate steps to prevent or mitigate identity theft.

VII. OTHER APPLICABLE LEGAL REQUIREMENTS

(a) For financial institutions and creditors that are subject to 31 U.S.C. §318(g), filing a Suspicious Activity Report in accordance with applicable law and regulation;
Federal Deposit Insurance Corporation

(b) Implementing any requirements under 15 U.S.C. 1681c-1(h) regarding the circumstances under which credit may be extended when the financial institution or creditor detects a fraud or active duty alert;

(c) Implementing any requirements for furnishers of information to consumer reporting agencies under 15 U.S.C. 1681e–2, for example, to correct or update inaccurate or incomplete information, and to not report information that the furnisher has reasonable cause to believe is inaccurate; and

(d) Complying with the prohibitions in 15 U.S.C. 1681m on the sale, transfer, and placement for collection of certain debts resulting from identity theft.

Supplement A to Appendix to Subpart C of Part 391

In addition to incorporating Red Flags from the sources recommended in section II.b. of the Guidelines in this Appendix, each financial institution or creditor may consider incorporating into its Program, whether singly or in combination, Red Flags from the following illustrative examples in connection with covered accounts:

Alerts, Notifications or Warnings from a Consumer Reporting Agency

1. A fraud or active duty alert is included with a consumer report.
2. A consumer reporting agency provides a notice of credit freeze in response to a request for a consumer report.
3. A consumer reporting agency provides a notice of address discrepancy.
4. A consumer report indicates a pattern of activity that is inconsistent with the history and usual pattern of activity of an applicant or customer, such as:
   a. A recent and significant increase in the volume of inquiries;
   b. An unusual number of recently established credit relationships;
   c. A material change in the use of credit, especially with respect to recently established credit relationships; or
   d. An account that was closed for cause or identified for abuse of account privileges by a financial institution or creditor.

Suspicious Personal Identifying Information

5. Documents provided for identification appear to have been altered or forged.
6. The photograph or physical description on the identification is not consistent with the appearance of the applicant or customer presenting the identification.
7. Other information on the identification is not consistent with information provided by the person opening a new covered account or customer presenting the identification.
8. Other information on the identification is not consistent with readily accessible information that is on file with the financial institution or creditor, such as a signature card or a recent check.

9. An application appears to have been altered or forged, or gives the appearance of having been destroyed and reassembled.

Suspicious Personal Identifying Information

10. Personal identifying information provided is inconsistent when compared against external information sources used by the financial institution or creditor. For example:
   a. The address does not match any address in the consumer report;
   b. The Social Security Number (SSN) has not been issued, or is listed on the Social Security Administration’s Death Master File.

11. Personal identifying information provided by the customer is not consistent with other personal identifying information provided by the customer. For example, there is a lack of correlation between the SSN range and date of birth.

12. Personal identifying information provided is associated with known fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:
   a. The address on an application is the same as the address provided on a fraudulent application; or
   b. The phone number on an application is the same as the number provided on a fraudulent application.

13. Personal identifying information provided is of a type commonly associated with fraudulent activity as indicated by internal or third-party sources used by the financial institution or creditor. For example:
   a. The address on an application is fictitious, a mail drop, or a prison; or
   b. The phone number is invalid, or is associated with a pager or answering service.

14. The SSN provided is the same as that submitted by other persons opening an account or other customers.

15. The address or telephone number provided is the same as or similar to the address or telephone number submitted by an unusually large number of other persons opening accounts or by other customers.

16. The person opening the covered account or the customer fails to provide all required personal identifying information on an application or in response to notification that the application is incomplete.

17. Personal identifying information provided is not consistent with personal identifying information that is on file with the financial institution or creditor.

18. For financial institutions and creditors that use challenge questions, the person opening the covered account or the customer cannot provide authenticating information beyond that which generally would be available from a wallet or consumer report.
§ 391.30

Unusual Use of, or Suspicious Activity Related to the Covered Account

19. Shortly following the notice of a change of address for a covered account, the institution or creditor receives a request for a new, additional, or replacement card or a cell phone, or for the addition of authorized users on the account.

20. A new revolving credit account is used in a manner commonly associated with known patterns of fraud. For example:
   a. The majority of available credit is used for cash advances or merchandise that is easily convertible to cash (e.g., electronics equipment or jewelry); or
   b. The customer fails to make the first payment or makes an initial payment but no subsequent payments.

21. A covered account is used in a manner that is not consistent with established patterns of activity on the account. There is, for example:
   a. Nonpayment when there is no history of late or missed payments;
   b. A material increase in the use of available credit;
   c. A material change in purchasing or spending patterns;
   d. A material change in electronic fund transfer patterns in connection with a deposit account; or
   e. A material change in telephone call patterns in connection with a cellular phone account.

22. A covered account that has been inactive for a reasonably lengthy period of time is used (taking into consideration the type of account, the expected pattern of usage and other relevant factors).

23. Mail sent to the customer is returned repeatedly as undeliverable although transactions continue to be conducted in connection with the customer’s covered account.

24. The financial institution or creditor is notified that the customer is not receiving paper account statements.

25. The financial institution or creditor is notified of unauthorized charges or transactions in connection with a customer’s covered account.

Notice from Customers, Victims of Identity Theft, Law Enforcement Authorities, or Other Persons Regarding Possible Identity Theft in Connection With Covered Accounts Held by the Financial Institution or Creditor

26. The financial institution or creditor is notified by a customer, a victim of identity theft, a law enforcement authority, or any other person that it has opened a fraudulent account for a person engaged in identity theft.

Subpart D—Loans in Areas Having Special Flood Hazards

§ 391.30 Authority, purpose, and scope.

(a) Authority. This subpart is issued pursuant to 12 U.S.C. 1462, 1462a, 1463, 1464, 1819 (Tenth) and 42 U.S.C. 4012a, 4104a, 4104b, 4106, 4128.

(b) Purpose. The purpose of this subpart is to implement the requirements of the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001-4129).

(c) Scope. This subpart, except for §§391.35 and 391.37, applies to loans secured by buildings or mobile homes located or to be located in areas determined by the Director of the Federal Emergency Management Agency to have special flood hazards. Sections 391.35 and 391.37 apply to loans secured by buildings or mobile homes, regardless of location.

§ 391.31 Definitions.

(b) State savings association means, for purposes of this subpart, a State savings association as that term is defined in 12 U.S.C. 1813(b)(3) and any subsidiaries thereof.

(c) Building means a walled and roofed structure, other than a gas or liquid storage tank, that is principally above ground and affixed to a permanent site, and a walled and roofed structure while in the course of construction, alteration, or repair.

(d) Community means a State or a political subdivision of a State that has zoning and building code jurisdiction over a particular area having special flood hazards.

(e) Designated loan means a loan secured by a building or mobile home that is located or to be located in a special flood hazard area in which flood insurance is available under the Act.

(f) Director of FEMA means the Director of the Federal Emergency Management Agency.

(g) Mobile home means a structure, transportable in one or more sections, that is built on a permanent chassis and designed for use with or without a
permanent foundation when attached to the required utilities. The term mobile home does not include a recreational vehicle. For purposes of this subpart, the term mobile home means a mobile home on a permanent foundation. The term mobile home includes a manufactured home as that term is used in the NFIP.

(h) NFIP means the National Flood Insurance Program authorized under the Act.

(i) Residential improved real estate means real estate upon which a home or other residential building is located or to be located.

(j) Servicer means the person responsible for:

1. Receiving any scheduled, periodic payments from a borrower under the terms of a loan, including amounts for taxes, insurance premiums, and other charges with respect to the property securing the loan; and
2. Making payments of principal and interest and any other payments from the amounts received from the borrower as may be required under the terms of the loan.

(k) Special flood hazard area means the land in the flood plain within a community having at least a one percent chance of flooding in any given year, as designated by the Director of FEMA.

(l) Table funding means a settlement at which a loan is funded by a contemporaneous advance of loan funds and an assignment of the loan to the person advancing the funds.

§ 391.32 Requirement to purchase flood insurance where available.

(a) In general. A State savings association shall not make, increase, extend, or renew any designated loan unless the building or mobile home and any personal property securing the loan is covered by flood insurance for the term of the loan. The amount of insurance must be at least equal to the lesser of the outstanding principal balance of the designated loan or the maximum limit of coverage available for the particular type of property under the Act. Flood insurance coverage under the Act is limited to the overall value of the property securing the designated loan minus the value of the land on which the property is located.

(b) Table funded loans. A State savings association that acquires a loan from a mortgage broker or other entity through table funding shall be considered to be making a loan for the purposes of this subpart.

§ 391.33 Exemptions.

The flood insurance requirement prescribed by §391.32 does not apply with respect to:

(a) Any State-owned property covered under a policy of self-insurance satisfactory to the Director of FEMA, who publishes and periodically revises the list of States falling within this exemption; or

(b) Property securing any loan with an original principal balance of $5,000 or less and a repayment term of one year or less.

§ 391.34 Escrow requirement.

If a State savings association requires the escrow of taxes, insurance premiums, fees, or any other charges for a loan secured by residential improved real estate or a mobile home that is made, increased, extended, or renewed on or after October 1, 1996, the State savings association shall also require the escrow of all premiums and fees for any flood insurance required under §391.32. The State savings association, or a servicer acting on behalf of the State savings association, shall deposit the flood insurance premiums on behalf of the borrower in an escrow account. This escrow account will be subject to escrow requirements adopted pursuant to section 10 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2609) (RESPA), which generally limits the amount that may be maintained in escrow accounts for certain types of loans and requires escrow account statements for those accounts, only if the loan is otherwise subject to RESPA. Following receipt of a notice from the Director of FEMA or other provider of flood insurance that premiums are due, the State savings association, or a servicer acting on behalf of the State savings association, shall pay the amount owed to the insurance provider from the escrow account by the date when such premiums are due.
§ 391.35 Required use of standard flood hazard determination form.

(a) Use of form. A State savings association shall use the standard flood hazard determination form developed by the Director of FEMA when determining whether the building or mobile home offered as collateral security for a loan is or will be located in a special flood hazard area in which flood insurance is available under the Act. The standard flood hazard determination form may be used in a printed, computerized, or electronic manner. A State savings association may obtain the standard flood hazard determination form from FEMA, P.O. Box 2012, Jessup, MD 20794-2012.

(b) Retention of form. A State savings association shall retain a copy of the completed standard flood hazard determination form, in either hard copy or electronic form, for the period of time the State savings association owns the loan.

§ 391.36 Forced placement of flood insurance.

If a State savings association, or a servicer acting on behalf of the State savings association, determines at any time during the term of a designated loan that the building or mobile home and any personal property securing the designated loan is not covered by flood insurance or is covered by flood insurance in an amount less than the amount required under §391.32, then the State savings association or its servicer shall notify the borrower that the borrower should obtain flood insurance, at the borrower’s expense, in an amount at least equal to the amount required under §391.32, for the remaining term of the loan. If the borrower fails to obtain flood insurance within 45 days after notification, then the State savings association or its servicer shall purchase insurance on the borrower’s behalf. The State savings association or its servicer may charge the borrower for the cost of premiums and fees incurred in purchasing the insurance.

§ 391.37 Determination fees.

(a) General. Notwithstanding any Federal or State law other than the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001–4129), any State savings association, or a servicer acting on behalf of the State savings association, may charge a reasonable fee for determining whether the building or mobile home securing the loan is located or will be located in a special flood hazard area. A determination fee may also include, but is not limited to, a fee for life-of-loan monitoring.

(b) Borrower fee. The determination fee authorized by paragraph (a) of this section may be charged to the borrower if the determination:

1. Is made in connection with a making, increasing, extending, or renewing of the loan that is initiated by the borrower;
2. Reflects the Director of FEMA’s revision or updating of floodplain areas or flood-risk zones;
3. Reflects the Director of FEMA’s publication of a notice or compendium that:
   (i) Affects the area in which the building or mobile home securing the loan is located; or
   (ii) By determination of the Director of FEMA, may reasonably require a determination whether the building or mobile home securing the loan is located in a special flood hazard area; or
4. Results in the purchase of flood insurance coverage by the lender or its servicer on behalf of the borrower under §391.36.

(c) Purchaser or transferee fee. The determination fee authorized by paragraph (a) of this section may be charged to the purchaser or transferee of a loan in the case of the sale or transfer of the loan.

§ 391.38 Notice of special flood hazards and availability of Federal disaster relief assistance.

(a) Notice requirement. When a State savings association makes, increases, extends, or renews a loan secured by a building or a mobile home located or to be located in a special flood hazard area, the State savings association shall mail or deliver a written notice to the borrower and to the servicer in all cases whether or not flood insurance is available under the Act for the collateral securing the loan.
(b) Contents of notice. The written notice must include the following information:

(1) A warning, in a form approved by the Director of FEMA, that the building or the mobile home is or will be located in a special flood hazard area;

(2) A description of the flood insurance purchase requirements set forth in section 102(b) of the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4012a(b));

(3) A statement, where applicable, that flood insurance coverage is available under the NFIP and may also be available from private insurers; and

(4) A statement whether Federal disaster relief assistance may be available in the event of damage to the building or mobile home caused by flooding in a Federally-declared disaster.

(c) Timing of notice. The State savings association shall provide the notice required by paragraph (a) of this section to the borrower within a reasonable time before the completion of the transaction, and to the servicer as promptly as practicable after the State savings association provides notice to the borrower and in any event no later than the State savings association provides other similar notices to the servicer concerning hazard insurance and taxes. Notice to the servicer may be made electronically or may take the form of a copy of the notice to the borrower.

(d) Record of receipt. The State savings association shall retain a record of the receipt of the notices by the borrower and the servicer for the period of time the State savings association owns the loan.

(e) Alternate method of notice. Instead of providing the notice to the borrower required by paragraph (a) of this section, a State savings association may obtain satisfactory written assurance from a seller or lessor that, within a reasonable time before the completion of the sale or lease transaction, the seller or lessor has provided such notice to the purchaser or lessee. The State savings association shall retain a record of the written assurance from the seller or lessor for the period of time the State savings association owns the loan.

(f) Use of prescribed form of notice. A State savings association will be considered to be in compliance with the requirement for notice to the borrower of this section by providing written notice to the borrower containing the language presented in appendix A to this subpart within a reasonable time before the completion of the transaction. The notice presented in appendix A to this subpart satisfies the borrower notice requirements of the Act.

§ 391.39 Notice of servicer's identity.

(a) Notice requirement. When a State savings association makes, increases, extends, renews, sells, or transfers a loan secured by a building or mobile home located or to be located in a special flood hazard area, the State savings association shall notify the Director of FEMA (or the Director's designee) in writing of the identity of the servicer of the loan. The Director of FEMA has designated the insurance provider to receive the State savings association's notice of the servicer's identity. This notice may be provided electronically if electronic transmission is satisfactory to the Director of FEMA's designee.

(b) Transfer of servicing rights. The State savings association shall notify the Director of FEMA (or the Director's designee) of any change in the servicer of a loan described in paragraph (a) of this section within 60 days after the effective date of the change. This notice may be provided electronically if electronic transmission is satisfactory to the Director of FEMA's designee. Upon any change in the servicing of a loan described in paragraph (a) of this section, the duty to provide notice under this paragraph (b) shall transfer to the transferee servicer.

APPENDIX TO SUBPART D OF PART 391—SAMPLE FORM OF NOTICE OF SPECIAL FLOOD HAZARDS AND AVAILABILITY OF FEDERAL DISASTER RELIEF ASSISTANCE

We are giving you this notice to inform you that:

(a) The building or mobile home securing the loan for which you have applied is or will be located in an area with special flood hazards.
(b) The area has been identified by the Director of the Federal Emergency Management Agency (FEMA) as a special flood hazard area using FEMA's Flood Insurance Rate Map or the Flood Hazard Boundary Map for the following community: ___. This area has at least a one percent (1%) chance of a flood equal to or exceeding the base flood elevation (100-year flood) in any given year. During the life of a 30-year mortgage loan, the risk of a 100-year flood in a special flood hazard area is 26 percent (26%).

(c) Federal law allows a lender and borrower jointly to request the Director of FEMA to review the determination of whether the property securing the loan is located in a special flood hazard area. If you would like to make such a request, please contact us for further information.

(d) The community in which the property securing the loan is located participates in the National Flood Insurance Program (NFIP). Federal law will not allow us to make you the loan that you have applied for if you do not purchase flood insurance. The flood insurance must be maintained for the life of the loan. If you fail to purchase or renew flood insurance on the property, Federal law authorizes and requires us to purchase the flood insurance for you at your expense.

- Flood insurance coverage under the NFIP may be purchased through an insurance agent who will obtain the policy either directly through the NFIP or through an insurance company that participates in the NFIP. Flood insurance also may be available from private insurers that do not participate in the NFIP.
- At a minimum, flood insurance purchased must cover the lesser of:
  1. The outstanding principal balance of the loan; or
  2. The maximum amount of coverage allowed for the type of property under the NFIP.

(e) Flood insurance coverage under the NFIP is limited to the overall value of the property securing the loan minus the value of the land on which the property is located.

- Federal disaster relief assistance (usually in the form of a low-interest loan) may be available for damages incurred in excess of your flood insurance if your community’s participation in the NFIP is in accordance with NFIP requirements.
- Federal disaster relief assistance in the event of a Federally-declared flood disaster.

### Subpart E—Acquisition of Control of State Savings Associations

#### § 391.40 Scope of subpart.

The purpose of this subpart is to implement the provisions of the Change in Bank Control Act, 12 U.S.C. 1817 (j) (“Control Act”), relating to acquisitions and changes in control of State savings associations that are organized in stock form.

#### § 391.41 Definitions.

As used in this subpart and in the forms under this subpart, the following definitions apply, unless the context otherwise requires:

- **Acquire** when used in connection with the acquisition of stock of a State savings association means obtaining ownership, control, power to vote, or sole power of disposition of stock, directly or indirectly or through one or more transactions or subsidiaries, through purchase, assignment, transfer, exchange, succession, or other means, including:
  1. An increase in percentage ownership resulting from a redemption, repurchase, reverse stock split or a similar transaction involving other securities of the same class, and
  2. The acquisition of stock by a group of persons and/or companies acting in concert which shall be deemed to occur upon formation of such group.

- **Provided,** That an investment advisor shall not be deemed to acquire the voting stock of its advisee if the advisor:
  1. Votes the stock only upon instruction from the beneficial owner, and
  2. Does not provide the beneficial owner with advice concerning the voting of such stock.

**Acquiror** means a person or company. **Acting in concert** means:

- (1) Knowing participation in a joint activity or interdependent conscious parallel action towards a common goal whether or not pursuant to an express agreement, or
- (2) A combination or pooling of voting or other interests in the securities of an issuer for a common purpose pursuant to any contract, understanding, relationship, agreement or other arrangement, whether written or otherwise.
§ 391.41

(3) A person or company which acts in concert with another person or company (“other party”) shall also be deemed to be acting in concert with any person or company who is also acting in concert with that other party, except that any tax-qualified employee stock benefit plan as defined in 12 CFR 192.25 will not be deemed to be acting in concert with its trustee or a person who serves in a similar capacity solely for the purpose of determining whether stock held by the trustee and stock held by the plan will be aggregated.

Affiliate means any person or company which controls, is controlled by or is under common control with a person, State savings association, or company.

Company means any corporation, partnership, trust, association, joint venture, pool, syndicate, unincorporated organization, joint-stock company or similar organization, as defined in the definition of similar organization in this section; but a company does not include:

(1) The FDIC or any Federal Home Loan Bank, or
(2) Any company the majority of shares of which is owned by:
   (i) The United States or any State;
   (ii) An officer of the United States or any State in his or her official capacity;
   (iii) An instrumentality of the United States or any State; or
   (iv) A savings and loan holding company registered under section 10(b) of the Home Owners’ Loan Act.

Controlling shareholder means any person who directly or indirectly or acting in concert with one or more persons or companies, or together with members of his or her immediate family, owns, controls, or holds with power to vote 10 percent or more of the voting stock of a company or controls in any manner the election or appointment of a majority of the company’s board of directors.

Immediate family means a person’s spouse, father, mother, children, brothers, sisters and grandchildren; the father, mother, brothers, and sisters of the person’s spouse; and the spouse of the person’s child, brother or sister.

Management official means any president, chief executive officer, chief operating officer, vice president, director, partner, or trustee, or any other person who performs or has a representative or nominee performing similar policymaking functions, for a State savings association or a company, whether or not incorporated.

Person means an individual or a group of individuals acting in concert who do not constitute a company as defined in this section.

Repealed Control Act means the Change in Savings and Loan Control Act, 12 U.S.C. 1730(q), as in effect immediately prior to its repeal by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

Similar organization for purposes company as defined in this section means a combination of parties with the potential for or practical likelihood of continuing rather than temporary existence, where the parties thereto have knowingly and voluntarily associated for a common purpose pursuant to identifiable and binding relationships which govern the parties with respect to either:

(1) The transferability and voting of any stock or other indicia of participation in another entity, or
(2) Achievement of a common or shared objective, such as to collectively manage or control another entity.

State savings association means a state-chartered savings association, building and loan, savings and loan or homestead association or a cooperative bank (other than a cooperative bank described in 12 U.S.C. 1813(a)(2)) the deposits of which are insured by the FDIC, and any corporation (other than a bank) the deposits of which are insured by the FDIC that the FDIC determines to be operating in substantially the same manner as a State savings association.

Stock means common or preferred stock, general or limited partnership shares or interests, or similar interests.

Uninsured institution means any financial institution the deposits of which are not insured by the FDIC.

Voting stock means:
§ 391.42 Acquisition of control of State savings associations.

(a) [Reserved]

(b) Acquisition by a person or company. Unless a transaction is exempt from prior notice under paragraph (d) of this section, no person or company (other than certain persons affiliated with a savings and loan holding company who are subject to §10(e)(4) of the Home Owners’ Loan Act), shall acquire control, as defined in §391.43 (a) and (b), of a State savings association until written notice has been provided to the FDIC and (1) the FDIC indicates in writing its intent not to disapprove the proposed acquisition or (2) 60 days (or such period of time as the FDIC may specify if the review period has been extended under §391.45(c)(3)) have passed since receipt of a notice deemed sufficient under §391.45(c)(2). Notwithstanding the forgoing, acquisitions by persons or companies by means of a merger with an interim association are not subject to this subpart, but shall be subject to approval under §390.332, and either 12 CFR 152.13 or applicable state law.

(c) Exempt transactions. (1) [Reserved]

(2) The following transactions are exempt from the notice requirements of paragraph (b) of this section:

(i)(A) Control of a State savings association acquired by a bank holding company that is registered under and subject to, the Bank Holding Company Act of 1933, as amended.

(ii)(A) Control of a State savings association acquired by a bank holding company that is registered under and subject to the Bank Holding Company Act of 1933, as amended, and which is a bank holding company whose securities are registered under the Securities Exchange Act of 1934 or such other bank holding company as the FDIC may designate in writing.

(iii)(A) Control of a State savings association acquired by a bank holding company that is registered under the Bank Holding Company Act of 1933, as amended, and which is not a bank holding company described in paragraph (c) (2)(i)(A) or (2)(i)(B).

(iv)(A) Control of a State savings association acquired by a bank holding company described in §10(e)(4) of the Home Owners’ Loan Act.

(3) [Reserved]
Federal Deposit Insurance Corporation

§ 391.42

Act of 1956, or any company controlled by such bank holding company:

(B) Control of a State savings association acquired solely as a result of a pledge or hypothecation of stock to secure a loan contracted for in good faith or the liquidation of a loan contracted for in good faith, in either case where such loan was made in the ordinary course of the business of the lender: Provided, further, That acquisition of control pursuant to such pledge, hypothecation or liquidation is reported to the FDIC within 30 days, and Provided, further, That the acquirer shall not retain such control for more than one year from the date on which such control was acquired; however, the FDIC may, upon application by an acquirer, extend such one-year period from year to year, for an additional period of time not exceeding three years, if the FDIC finds such extension is warranted and would not be detrimental to the public interest;

(C) Control of a State savings association acquired through a percentage increase in stock ownership following a pro rata stock dividend or stock split, if the proportional interests of the recipients remain substantially the same;

(D) Acquisition of additional stock after a non-disapproval under § 391.46, or any predecessor provision, has been received: Provided, That such acquisition is consistent with any conditions imposed in connection with such approval and with the representations made by the acquirer in its application;

(E) Acquisitions of up to twenty-five percent (25%) of a class of stock by a tax-qualified employee stock benefit plan as defined in 12 CFR 192.25; and

(ii) Transactions for which approval is required under the Home Owners’ Loan Act;

(iii) Transactions for which approval is required under 12 CFR 152.13 and 390.332;

(iv) Transactions for which a change of control notice must be submitted to the Board of Governors of the Federal Reserve System pursuant to the Change in Bank Control Act, 12 U.S.C. 1817(j);

(v) Acquisition of additional stock of a State savings association by any person who:

(A) Has held power to vote 25 percent or more of any class of voting stock in such association continuously since March 9, 1979; or

(B) Has maintained control of the State savings association continuously since acquiring control in compliance with the Control Act (or the Repealed Control Act) and the regulations thereunder then in effect: Provided, That such acquisition is consistent with any conditions imposed in connection with such acquisition of control and with the representations made by the acquiror in its notice; and

(vi) [Reserved]

(3) An acquiror that would be considered to be in control of a State savings association pursuant to § 391.43 on December 26, 1985, shall not be subject to this § 391.42 unless the acquiror acquires additional stock of the State savings association or obtains a control factor with respect to such association after December 26, 1985: Provided, That an acquiror shall not be deemed to have acquired control of a State savings association on the basis of actions taken prior to December 26, 1985, or on the basis of actions taken after December 26, 1985, if such actions are pursuant to and consistent with a materially complete application under the Holding Company Act or notice under the Repealed Control Act filed prior to December 26, 1985, if such acquisition is made pursuant to an application approved under the Holding Company Act or a notice under the Repealed Control Act that was not disapproved.

(d) Transactions exempt from prior approval or notice. (1) Subject to the conditions set forth in paragraph (d)(2) of this section, the following transactions are exempt from prior approval and prior notice under § 391.42: Provided, That the timing of the transaction was not within the control of the acquiror.

(i) Control of a State savings association acquired through bona fide gift;

(ii) Control of a State savings association acquired through liquidation of a loan contracted in good faith where the loan was not made in the ordinary course of business of the lender;

(iii) Control of a State savings association acquired through a percentage increase in ownership following a stock
§ 391.43 Control.

(a) Conclusive control. (1) An acquiror shall be deemed to have acquired control of a State savings association, other than a savings and loan holding company, if the acquiror directly or indirectly, through one or more subsidiaries or transactions or acting in concert with one or more persons or companies:

   (i) Acquires 25 percent or more of any class of voting stock of the State savings association; or
   (ii) Acquires irrevocable proxies representing 25 percent or more of any class of voting stock of the State savings association; or
   (iii) Acquires any combination of voting stock and irrevocable proxies representing 25 percent or more of any class of voting stock of a State savings association; or
   (iv) [Reserved]
   (2) [Reserved]

(b) Rebuttable control determinations. (1) An acquiror shall be determined, subject to rebuttal, to have acquired control of a State savings association, if the acquiror directly or indirectly, or through one or more subsidiaries or transactions or acting in concert with one or more persons or companies:

   (i) Acquires more than 10 percent of any class of voting stock of the State savings association and is subject to any control factor, as defined in paragraph (c) of this section;
   (ii) Acquires 25 percent or more of any class of stock of the State savings association and is subject to any control factor, as defined in paragraph (c) of this section.

(2) An acquiror shall be determined, subject to rebuttal, to have acquired control of a State savings association, if the acquiror directly or indirectly, or through one or more subsidiaries or transactions or acting in concert with one or more persons or companies, holds any combination of voting stock and revocable and/or irrevocable proxies, representing 25 percent or more of any class of voting stock of a State savings association, excluding such proxies held in connection with a solicitation by, or in opposition to, a solicitation on behalf of management of the State savings association, but including a solicitation in connection with an election of directors, and such proxies would enable the acquiror to:

   (i) Acquires 25 percent or more of any class of voting stock of the State savings association; or
   (ii) Acquires irrevocable proxies representing 25 percent or more of any class of voting stock of the State savings association; or
   (iii) Acquires any combination of voting stock and irrevocable proxies representing 25 percent or more of any class of voting stock of a State savings association; or
   (iv) [Reserved]
§ 391.43

(i) Elect one-third or more of the State savings association’s board of directors, including nominees or representatives of the acquiror currently serving on such board;

(ii) Cause the State savings association’s stockholders to approve the acquisition or corporate reorganization of the State savings association; or

(iii) Exert a continuing influence on a material aspect of the business operations of the State savings association.

(c) Control factors. For purposes of paragraph (b)(1) of this section, the following constitute control factors. References to the acquiror include actions taken directly or indirectly, or through one or more subsidiaries or transactions or acting in concert with one or more persons or companies:

(1) The acquiror would be one of the two largest holders of any class of voting stock of the State savings association.

(2) The acquiror would hold 25 percent or more of the total stockholders’ equity of the State savings association.

(3) The acquiror would hold more than 35 percent of the combined debt securities and stockholders’ equity of the State savings association.

(4) The acquiror is party to any agreement:

(i) Pursuant to which the acquiror possesses a material economic stake in the State savings association resulting from a profit-sharing arrangement, use of common names, facilities or personnel, or the provision of essential services to the State savings association; or

(ii) That enables the acquiror to influence a material aspect of the management or policies of the State savings association, other than agreements to which the State savings association is a party where the restrictions are customary under the circumstances and in the case of an acquisition agreement, which apply only during the period when the acquiror is seeking the FDIC’s approval to acquire the State savings association, the agreement prohibits transactions between the acquiror and the State savings association and their respective affiliates without approval by the appropriate Regional Director during the pendency of the notice process, and the agreement contains no material forfeiture provisions applicable to the State savings association in the event the acquisition is not approved or not approved by a specified date.

(5) The acquiror would have the ability, other than through the holding of revocable proxies, to direct the votes of 25 percent or more of a class of the State savings association’s voting stock or to vote 25 percent or more of a class of the State savings association’s voting stock in the future upon the occurrence of a future event.

(6) The acquiror would have the power to direct the disposition of 25 percent or more of a class of the State savings association’s voting stock in a manner other than a widely dispersed or public offering.

(7) The acquiror and/or the acquiror’s representatives or nominees would constitute more than one member of the State savings association’s board of directors.

(8) The acquiror or a nominee or management official of the acquiror would serve as the chairman of the board of directors, chairman of the executive committee, chief executive officer, chief operating officer, chief financial officer or in any position with similar policymaking authority in the State savings association.

(d) Rebuttable presumptions of concerted action. An acquiror will be presumed to be acting in concert with the following persons and companies:

(1) A company will be presumed to be acting in concert with a controlling shareholder, partner, trustee or management official of such company with respect to the acquisition of stock of a State savings association, if

(i) Both the company and the person own stock in the State savings association,

(ii) The company provides credit to the person to purchase the State savings association’s stock, or

(iii) The company pledges its assets or otherwise is instrumental in obtaining financing for the person to acquire stock of the State savings association;

(2) A person will be presumed to be acting in concert with members of the person’s immediate family;
§ 391.43

(3) Persons will be presumed to be acting in concert with each other where

(i) Both own stock in a State savings association and both are also management officials, controlling shareholders, partners, or trustees of another company, or

(ii) One person provides credit to another person or is instrumental in obtaining financing for another person to purchase stock of the State savings association;

(4) A company controlling or controlled by another company and companies under common control will be presumed to be acting in concert;

(5) Persons or companies will be presumed to be acting in concert where they constitute a group under the beneficial ownership reporting rules under section 13 or the proxy rules under section 14 of the Securities Exchange Act of 1934, promulgated by the Securities and Exchange Commission.

(6) A person or company will be presumed to be acting in concert with any trust for which such person or company serves as trustee, except that a tax-qualified employee stock benefit plan as defined in 12 CFR 192.25 shall not be presumed to be acting in concert with its trustee or person acting in a similar fiduciary capacity solely for the purposes of determining whether to combine the holdings of a plan and its trustee or fiduciary.

(7) Persons or companies will be presumed to be acting in concert with each other and with any other person or company with which they also are presumed to act in concert.

(e) Procedures for rebuttal—(1) Rebuttal of control determination. An acquiror attempting to rebut a determination of control that would arise under paragraph (b) of this section shall submit to the FDIC an executed agreement materially conforming to the agreement set forth at §391.48. Unless agreed to by the FDIC in writing, no other agreement or filing shall be deemed to rebut the determination of control arising under paragraph (b)(1) of this section. If accepted by the FDIC the acquiror shall furnish a copy of the executed agreement to the association to which the rebuttal pertains.

(ii) An acquiror seeking to rebut the determination of control arising under paragraph (e)(1) of this section, except that in the case of a rebuttal of the presumption of control arising under paragraph (b)(2) of this section, the FDIC may require the acquiror to furnish information in response to a specific request for information and depending upon the particular facts and circumstances, to provide an executed rebuttal agreement materially conforming to the agreement set forth at §391.48, with any modifications deemed necessary by the FDIC.

(2) Presumptions of concerted action. An acquiror attempting to rebut the presumption of concerted action arising under paragraph (d) of this section shall file a submission with the FDIC setting forth facts and circumstances which clearly and convincingly demonstrate the acquiror’s contention that no action in concert exists. Such a statement must be accompanied by an affidavit, in form and content satisfactory to the FDIC, executed by each person or company presumed to be acting in concert, stating that such person or company does not and shall not, without having made necessary filings and obtained approval or clearance thereof under the Holding Company Act or the Control Act, as applicable, have any agreements or understandings, written or tacit, with respect to the exercise of control, directly or indirectly, over the management or policies of the State savings association, including agreements relating to voting, acquisition or disposition of the State savings association’s stock. The affidavit shall also recite that the signatory is aware that the filing of a false affidavit may
subject the person or company to criminal sanctions, would constitute a violation of the FDIC's regulations at §390.355(b) and would be considered a "presumptive disqualifier" under 12 CFR 391.46(g)(1)(v).

(3) Determination. A rebuttal filed pursuant to paragraph (e) of this section shall not be deemed sufficient unless it includes all the information, agreements, and affidavits required by the FDIC and this subpart, as well as any additional relevant information as the FDIC may require by written request to the acquiror. Within 20 calendar days after proper filing of a rebuttal submission, the FDIC will provide written notification of its determination to accept or reject the submission; request additional information in connection with the submission; or return the submission to the acquiror as materially deficient. Within 15 calendar days after proper filing of any additional information furnished in response to a specific request by the FDIC, the FDIC shall notify the acquiror in writing as to whether the rebuttal is thereby deemed to be sufficient. If the FDIC fails to notify an acquiror within such time, the rebuttal shall be deemed to be accepted. The FDIC may reject any rebuttal which is inconsistent with facts and circumstances known to it or where the rebuttal does not clearly and convincingly refute the rebuttable determination of control or presumption of action in concert, and may determine to reject a submission solely on such bases.

(f) Safe harbor. Notwithstanding any other provision of this section, where an acquiror has no intention to participate in or to seek to exercise control over a State savings association’s management or policies, the acquiror may seek to qualify for a safe harbor with respect to its ownership of stock of a State savings association.

(1) In order to qualify for the safe harbor, an acquiror must submit a certification to the FDIC that shall be signed by the acquiror or an authorized representative thereof and shall read as follows:

The undersigned makes this submission pursuant to §391.43(f) with respect to [name of State savings association] and hereby certifies to the FDIC the following:

The undersigned is not in control of [name of State savings association] under §391.43(a);

The undersigned is not subject to any control factor as enumerated in §391.43(c) with respect to the [name of State savings association];

The undersigned will not solicit proxies relating to the voting stock of [name of State savings association];

Before any change in status occurs that would bring the undersigned within the scope of §391.43(a) or (b), the undersigned will file and obtain approval of a rebuttal, or non-disapproval of a notice, enabling company application, as appropriate.

The undersigned has not acquired stock of [name of State savings association] for the purpose or effect of changing or influencing the control of [name of State savings association] or in connection with or as a participant in any transaction having such purpose or effect.

(2) An acquiror claiming safe-harbor status may vote freely and dissent with respect to its own stock. Certifications provided for in this paragraph must be filed with FDIC in accordance with §§390.106 and 390.108.

§391.44 Certifications of ownership.

(a) Acquisition of stock. (1) Upon the acquisition of beneficial ownership that exceeds, in the aggregate, 10 percent of any class of stock of a State savings association or additional stock above 10 percent of the stock of a State savings association occurring after December 26, 1985, an acquiror shall file with the FDIC a certification as described in this section.

(2) The certification filed pursuant to this section shall be signed by the acquiror or an authorized representative thereof and shall read as follows:

The undersigned is the beneficial owner of 10 percent or more of a class of stock of [name of State savings association], and is not in control of such association, as defined in 12 CFR 391.43(a), and is not subject to a rebuttable determination of control under §391.43(b), and will take no action that would result in a determination of control or a rebuttable determination of control without first filing and obtaining approval of an application under the Savings and Loan Holding Company Act, 12 U.S.C. 1467a, or a notice under the Change in Bank Control Act, 12 U.S.C. 1817(j), or filing and obtaining acceptance by the FDIC of a rebuttal of the rebuttable determination of control.
§ 391.45 Procedural requirements.

(a) Form of application or notice. A notice required by §391.42 shall be filed on the form indicated below. An acquiror may request confidential treatment of portions of a notice only by complying with the requirements of paragraph (f) of this section.

(a)(1)–(5) [Reserved]

(a)(6) Notice Form 1393, parts A and B. This form shall be used for all notices filed under §391.42(b) regarding the acquisition of control of a State savings association by any person or persons not constituting a company.

(b) Filing requirements—(1) Notices and rebuttals. (i) Complete copies including exhibits and all other pertinent documents of notices, and rebuttal submissions shall be filed with the appropriate Regional Director in the region in which the State savings association or associations involved in the transaction have their home office or offices. Unsigned copies shall be conformed. Each copy shall include a summary of the proposed transaction.

(ii) Any person or company may amend a notice or rebuttal submission, or file additional information, upon request of the FDIC or, in the case of the party filing a notice or rebuttal, upon such party’s own initiative.

(2) [Reserved]

(c) Sufficiency and waiver. (1) Except as provided in §391.45(c)(5), a notice filed pursuant to §391.42(b) shall not be deemed sufficient unless it includes all of the information required by the form prescribed by the FDIC and this section, including a description of the acquiror’s proposed plan for acquisition of control whether pursuant to one or more transactions, and any additional relevant information as the FDIC may require by written request to the acquiror. Unless a notice specifically indicates otherwise, the notice shall be considered to pertain to acquisition of 100 percent of a State savings association’s voting stock. Where a notice pertains to a lesser amount of stock, the FDIC may condition its non-disapproval to apply only to such amount, in which case additional acquisitions may be made only by amendment to the acquiror’s notice and the FDIC’s approval or non-disapproval thereof. Failure by an applicant to respond completely to a written request by the FDIC for additional information within 30 calendar days of the date of such request may be deemed to constitute withdrawal of the notice or rebuttal filing or may be treated as grounds for issuance of a notice of disapproval of a notice or rejection of a rebuttal.

(2) The period for the FDIC’s review of any proposed acquisition will commence upon receipt by the FDIC of a notice deemed sufficient under paragraph (c)(1) of this section. The FDIC shall notify an acquiror in writing within 30 calendar days after proper filing of a notice as to whether the notice—

(i) Is sufficient;

(ii) Is insufficient, and what additional information is requested in order to render the application or notice sufficient; or

(iii) Is materially deficient and will not be processed. The FDIC shall also notify an acquiror in writing within 15 calendar days after proper filing of any additional information furnished in response to a specific request by the FDIC as to whether the notice is thereby deemed to be sufficient. If the FDIC fails to so notify an acquiror within such time, the application or notice shall be deemed to be sufficient as of the expiration of the applicable period.

(3) After additional information has been requested and supplied, the FDIC may request additional information only with respect to matters derived from or prompted by information already furnished, or information of a
material nature that was not reasonably available from the acquiror, was concealed, or pertains to developments subsequent to the time of the FDIC’s initial request for additional information. With regard to information of a material nature that was not reasonably available from the acquiror, or was concealed at the time a notice was deemed to be sufficient or which pertains to developments subsequent to the time a notice was deemed to be sufficient, the FDIC, at its option, may request such additional information as it considers necessary, or may deem the notice not to be sufficient until such additional information is furnished and cause the review period to commence again in its entirety upon receipt of such additional information.

(i) The 60-day period for the FDIC’s review of a notice deemed to be sufficient also may be extended by the FDIC for up to an additional 30 days.

(ii) The period for the FDIC’s review of a notice may be further extended not to exceed two additional times for not more than 45 days each time if—

(A) The FDIC determines that any acquiring party has not furnished all the information required under this subpart;

(B) In the FDIC’s judgment, any material information submitted is substantially inaccurate;

(C) The FDIC has been unable to complete an investigation of each acquiror because of any delay caused by, or the inadequate cooperation of, such acquiror; or

(D) The FDIC determines that additional time is needed to investigate and determine that no acquiring party has a record of failing to comply with the requirements of subchapter IV of chapter 53 of title 31 of the United States Code.

(4) [Reserved]

(5) The FDIC may waive any requirements of this paragraph (c) determined to be unnecessary by the FDIC, upon its own initiative, upon the written request of an acquiring person, or in a supervisory case.

(d) Public notice. (1) The acquirer must publish a public notice of a notice under §391.42(b), in accordance with the procedures in §§390.111 through 390.115. Promptly after publication, the acquirer must transmit copies of the public notice and the publisher’s affidavit to FDIC.

(2) The acquirer must provide a copy of the public notice to the State savings association whose stock is sought to be acquired, and may provide a copy of the public notice to any other person who may have an interest in the notice.

(3) The FDIC will notify the appropriate state supervisor and will notify persons whose requests for announcements, as described in 12 CFR 163e, appendix B, have been received in time for the notification. The FDIC may also notify any other persons who may have an interest in the notice.

(e) Submission of comments. Commenters may submit comments on the notice in accordance with the procedures in §§390.116 through 390.120.

(f) Disclosure. (1) Any notice, other filings, public comment, or portion thereof, made pursuant to this subpart for which confidential treatment is not requested in accordance with this paragraph (f), shall be immediately available to the public and not subject to the procedures set forth herein. Public disclosure shall be made of other portions of a notice, other filing or public comment in accordance with paragraph (f)(2) of this section, the provisions of the Freedom of Information Act (5 U.S.C. 552a) and parts 309 and 310. Applicants and other submitters should provide confidential and non-confidential versions of their filings, as described in §391.45(f)(2) and (3) in order to facilitate this process.

(2) Any person who submits any information or causes or permits any information to be submitted to the FDIC pursuant to this subpart may request that the FDIC afford confidential treatment under the Freedom of Information Act to such information for reasons of personal privacy or business confidentiality, which shall include such information that would be deemed to result in the commencement of a tender offer under §240.14d–2 of title 17 of the Code of Federal Regulations, or for any other reason permitted by Federal law. Such request for confidentiality must be made and justified in accordance with paragraph (f)(5) of this section at the time of filing, and must,
to the extent practicable, identify with specificity the information for which confidential treatment may be available and not merely indicate portions of documents or entire documents in which such information is contained. Failure to specifically identify information for which confidential treatment is requested, failure to specifically justify the bases upon which confidentiality is claimed in accordance with paragraph (f)(5) of this section, or overbroad and indiscriminate claims for confidential treatment, may be bases for denial of the request. In addition, the filing party should take all steps reasonably necessary to ensure, as nearly as practicable, that at the time the information is first received by the FDIC it is supplied segregated from information for which confidential treatment is not being requested, it is appropriately marked as confidential, and it is accompanied by a written request for confidential treatment which identifies with specificity the information as to which confidential treatment is requested. Any such request must be substantiated in accordance with paragraph (f)(5) of this section.

(3) All documents which contain information for which a request for confidential treatment is made or the appropriate segregable portions thereof shall be marked by the person submitting the records with a prominent stamp, typed legend, or other suitable form of notice on each page or segregable portion of each page, stating "Confidential Treatment Requested by [name]." If such marking is impracticable under the circumstances, a cover sheet prominently marked "Confidential Treatment Requested by [name]" should be securely attached to each group of records submitted for which confidential treatment is requested. Each of the records transmitted in this manner should be individually marked with an identifying number and code so that they are separately identifiable.

(4) A determination as to the validity of any request for confidential treatment may be made when a request for disclosure of the information under the Freedom of Information Act is received, or at any time prior thereto. If the FDIC receives a request for the information under the Freedom of Information Act, FDIC will advise the filing party before it discloses material for which confidential treatment has been requested.

(5) Substantiation of a request for confidential treatment shall consist of a statement setting forth, to the extent appropriate or necessary for the determination of the request for confidential treatment, the following information regarding the request:

(i) The reasons, concisely stated and referring to specific exemptive provisions of the Freedom of Information Act, why the information should be withheld from access under the Freedom of Information Act;

(ii) The applicability of any specific statutory or regulatory provisions which govern or may govern the treatment of the information;

(iii) The existence and applicability of any prior determination by the FDIC, other Federal agencies, or a court, concerning confidential treatment of the information;

(iv) The adverse consequences to a business enterprise, financial or otherwise, that would result from disclosure of confidential commercial or financial information, including any adverse effect on the business' competitive position;

(v) The measures taken by the business to protect the confidentiality of the commercial or financial information in question and of similar information, prior to, and after, its submission to the FDIC;

(vi) The ease or difficulty of a competitor's obtaining or compiling the commercial or financial information;

(vii) Whether commercial or financial information was voluntarily submitted to the FDIC, and, if so, whether and how disclosure of the information would tend to impede the availability of similar information to the FDIC;

(viii) The extent, if any, to which portions of the substantiation of the request for confidential treatment should be afforded confidential treatment;

(ix) The amount of time after the consummation of the proposed acquisition for which the information should remain confidential and a justification thereof;
(x) Such additional facts and such legal and other authorities as the requesting person may consider appropriate.

(6) Any person requesting access to a notice, other filing, or public comment made pursuant to this subpart for purposes of commenting on a pending submission may prominently label such request: "Request for Disclosure of Filing(s) Made Under Subpart E of Part 391/Priority Treatment Requested."

(g) Supervisory cases. The provisions of paragraphs (d), (e), and (f) of this section may be waived by the FDIC in connection with a transaction approved by the FDIC for supervisory reasons.

(h) Notification of State supervisor. Upon receiving a notice relating to an acquisition of control of a State savings association, the FDIC shall forward a copy of the notice to the appropriate state savings and loan association supervisory agency, and shall allow 30 days within which the views and recommendations of such state supervisory agency may be submitted. The FDIC shall give due consideration to the views and recommendations of such state agency in determining whether to disapprove any proposed acquisition. Notwithstanding the provisions of this paragraph (h), if the FDIC determines that it must act immediately upon any notice of a proposed acquisition in order to prevent the default of the association involved in the proposed acquisition, the FDIC may dispense with the requirement of this paragraph (h) or, if a copy of the notice is forwarded to the state supervisory agency, the FDIC may request that the views and recommendations of such state supervisory agency be submitted immediately in any form or by any means acceptable to the FDIC.

(i) Additional procedures for acquisitions involving mergers. Acquisitions of control involving mergers (including mergers with an interim association) shall also be subject to the procedures set forth in §390.332 to the extent applicable, except as provided in paragraph (a) of this section.

(j) Additional procedures for acquisitions of recently converted State savings associations. Notices and rebuttals involving acquisitions of the stock of a recently converted State savings association under 12 CFR 192.3(1)(3) shall also address the criteria for approval set forth at 12 CFR 192.3(1)(5).

§ 391.46 Determination by the FDIC.

(a)–(c) [Reserved]

(d) Notice criteria. In making its determination whether to disapprove a notice, the FDIC may disapprove any proposed acquisition, if the FDIC determines that:

(1) The proposed acquisition of control would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the banking business in any part of the United States;

(2) The effect of the proposed acquisition of control in any section of the country may be substantially to lessen competition or to tend to create a monopoly or the proposed acquisition of control would in any other manner be in restraint of trade, and the anti-competitive effects of the proposed acquisition of control are not clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served;

(3) The financial condition of the acquiring person is such as might jeopardize the financial stability of the association or prejudice the interests of the depositors of the State savings association;

(4) The competence, experience, or integrity of the acquiring person or any of the proposed management personnel indicates that it would not be in the interests of the depositors of the State savings association, the FDIC, or the public to permit such person to control the State savings association;

(5) The acquiring person fails or refuses to furnish information requested by the FDIC; or

(6) The FDIC determines that the proposed acquisition would have an adverse effect on the Deposit Insurance Fund.

(e) Failure to disapprove a notice. If, upon expiration of the 60-day review period of any notice deemed to be sufficient filed pursuant to §391.45(c), or extension thereof, the FDIC has failed to disapprove such notice, the proposed
acquisition may take place: Provided, That it is consummated within one year and in accordance with the terms and representations in the notice and that there is no material change in circumstances prior to the acquisition.

(f) [Reserved]

(g) Presumptive disqualifiers—(1) Integrity factors. The following factors shall give rise to a rebuttable presumption that an acquiror may fail to satisfy the integrity test of paragraph (d)(4) of this section:

(i) During the 10-year period immediately preceding filing the notice, criminal, civil or administrative judgments, consents or orders, and any indictments, formal investigations, examinations, or civil or administrative proceedings (excluding routine or customary audits, inspections and investigations) that terminated in any agreements, undertakings, consents or orders, issued against, entered into by, or involving the acquiror or affiliates of the acquiror by any federal or state court, any department, agency, or commission of the U.S. Government, any state or municipality, any Federal Home Loan Bank, any self-regulatory trade or professional organization, or any foreign government or governmental entity, which involve:

(A) Fraud, moral turpitude, dishonesty, breach of trust or fiduciary duties, organized crime or racketeering;

(B) Violation of securities or commodities laws or regulations;

(C) Violation of depository institution laws or regulations;

(D) Violation of housing authority laws or regulations;

(ii) Denial, or withdrawal after receipt of formal or informal notice of an intent to deny, by the acquiror or affiliates of the acquiror, of

(A) Any application relating to the organization of a financial institution,

(B) An application to acquire any financial institution or holding company thereof under the Holding Company Act or the Bank Holding Company Act or otherwise;

(C) A notice relating to a change in control of any of the foregoing under the Control Act or the Repealed Control Act; or

(D) An application or notice under a state holding company or change in control statute;

(iii) The acquiror or affiliates of the acquiror were placed in receivership or conservatorship during the preceding 10 years, or any management official of the acquiror was a management official or director (other than an official or director serving at the request of the FDIC, the former Resolution Trust Corporation, or the former Federal Savings and Loan Insurance Corporation) or controlling shareholder of a company or savings association that was placed into receivership, conservatorship, or a management consignment program, or was liquidated during his or her tenure or control or within two years thereafter;

(iv) Felony conviction of the acquiror, an affiliate of the acquiror or a management official of the acquiror or an affiliate of the acquiror;

(v) Knowingly making any written or oral statement to the FDIC or any predecessor agency (or its delegate) in connection with a notice or other filing under this subpart that is false or misleading with respect to a material fact or omits to state a material fact with respect to information furnished or requested in connection with such notice or other filing;

(vi) Acquisition and retention at the time of submission of a notice, of stock in the State savings association by the acquiror in violation of §391.42 or its predecessor sections.

(2) Financial factors. The following shall give rise to a rebuttable presumption that an acquiror may fail to satisfy the financial condition test of paragraph (d)(3) of this section:

(i) Liability for amounts of debt which, in the opinion of the FDIC, create excessive risks of default and pressure on the State savings association to be acquired; or

(ii) Failure to furnish a business plan or furnishing a business plan projecting activities which are inconsistent with economical home financing.

1268
§ 391.48 Rebuttal of control agreement.

Agreement

Rebuttal of Rebuttable Determination Of Control Under Subpart A

I. WHEREAS

A. [ ] is the owner of [ ] shares (the “Shares”) of the [ ] stock (the “Stock”) of [name and address of State savings association], which Shares represent [ ] percent of a class of “voting stock” of [ ] as defined under the Acquisition of Control Regulations (“Regulations”) of the FDIC, Subpart A of Part 391 (“Voting Stock”).

B. [ ] is a “State savings association” within the meaning of the Regulations;

C. [ ] seeks to acquire additional shares of stock (as proposed [ ] to acquire [ ] additional Shares or Control Factor], such that [ ]’s ownership thereof will represent 10 percent or more of a class of Voting Stock but will not represent 25 percent or more of any class of Voting Stock of [ ]; [and/or] [ ] seeks to [ ], which would constitute the acquisition of a “control factor” as defined in the Regulations (“Control Factor”);

D. [ ] does not seek to acquire the [Additional Shares or Control Factor] for the purpose or effect of changing the control of [ ] or in connection with or as a participant in any transaction having such purpose or effect;

E. The Regulations require a company or a person who intends to hold 10 percent or more but not 25 percent or more of any class of Voting Stock of a State savings association or holding company thereof and that also would possess any of the Control Factors specified in the Regulations, to file and obtain clearance of a notice (“Notice”) under the Change in Control Act (“Control Act”), 12 U.S.C. 1847(j), prior to acquiring such amount of stock and a Control Factor unless the rebuttable determination of control has been rebutted.

F. Under the Regulations, [ ] would be determined to be in control, subject to rebuttal, of [ ] upon acquisition of the [Additional Shares or Control Factor];

G. [ ] has no intention to manage or control, directly or indirectly, [ ];

H. [ ] has filed on [ ], a written statement seeking to rebut the determination of control, attached hereto and incorporated by reference herein, (this submission referred to as the “Rebuttal”);

I. In order to rebut the rebuttable determination of control, [ ] agrees to offer this Agreement as evidence that the acquisition of the [Additional Shares or Control Factor] as proposed would not constitute an acquisition of control under the Regulations.

II. The FDIC has determined, and hereby agrees, to act favorably on the Rebuttal, and in consideration of such a determination and agreement by the FDIC to act favorably on the Rebuttal, [ ] and any other existing, resulting or successor entities of [ ] agree with the FDIC that:

A. Unless [ ] shall have filed a Notice under the Control Act, or an Application under the Holding Company Act, as appropriate, and shall have obtained notice of the Notice in accordance with the Regulations, [ ] will not, except as expressly permitted otherwise herein or pursuant to an amendment to this Rebuttal Agreement:

1. Seek or accept representation of more than one member of the board of directors of [insert name of State savings association and any holding company thereof];

2. Have or seek to have any representative serve as the chairman of the board of directors, or chairman of an executive or similar committee of [insert name of State savings association and any holding company thereof]’s board of directors or as president or chief executive officer of [insert name of State savings association and any holding company thereof];

3. Engage in any intercompany transaction with [ ] or [ ]’s affiliates;

4. Propose a director in opposition to nominees proposed by the management of [insert name of State savings association and any holding company thereof] for the board of directors of [insert name of State savings association and any holding company thereof] other than as permitted in paragraph A–1;

5. Solicit proxies or participate in any solicitation of proxies with respect to any matter presented to the stockholders [ ] other than in support of, or in opposition to, a solicitation conducted on behalf of management of [ ];

6. Do any of the following, except as necessary solely in connection with [ ]’s performance of duties as a member of [ ]’s board of directors:

(a) Influence or attempt to influence in any respect the loan and credit decisions or policies of [ ], the pricing of services, any personnel decisions, the location of any offices, branching, the hours of operation or similar activities of [ ];

(b) Influence or attempt to influence the dividend policies and practices of [ ] or any decisions or policies of [ ] as to the offering or exchange of any securities;

(c) Seek to amend, or otherwise take action to change, the bylaws, articles of incorporation, or charter of [ ];

(d) Exercise, or attempt to exercise, directly or indirectly, control or a controlling influence over the management, policies or business operations of [ ]; or

(e) Seek or accept access to any non-public information concerning [ ].

B. [ ] is not a party to any agreement with [ ].

II. The FDIC has determined, and hereby agrees, to act favorably on the Rebuttal, and in consideration of such a determination and agreement by the FDIC to act favorably on the Rebuttal, [ ] and any other existing, resulting or successor entities of [ ] agree with the FDIC that:
§ 391.48 12 CFR Ch. III (1–1–14 Edition)

C. [ ] shall not assist, aid or abet any of [ ]'s affiliates or associates that are not parties to this Agreement to act, or act in concert with any person or company, in a manner which is inconsistent with the terms hereof or which constitutes an attempt to evade the requirements of this Agreement.

D. Any amendment to this Agreement shall be effective in connection with an amended rebuttal filed by [ ] with the FDIC for its determination;

E. Prior to acquisition of any shares of “Voting Stock” of [ ] as defined in the Regulations in excess of the Additional Shares, any required filing will be made by [ ] under the Control Act or the Holding Company Act and either approval of the acquisition under the Holding Company Act shall be obtained or any Notice filed under the Control Act shall be cleared in accordance with the Regulations;

F. At any time during which 10 percent or more of any class of Voting Stock of [ ] is owned or controlled by [ ], no action which is inconsistent with the provisions of this Agreement shall be taken by [ ] until [ ] files and either obtains from the FDIC a favorable determination with respect to either an amended rebuttal or clearance of a Notice under the Control Act, in accordance with the Regulations;

G. Where any amended rebuttal filed by [ ] is denied or disapproved, [ ] shall take no action which is inconsistent with the terms of this Agreement, except after either (1) reducing the amount of shares of Voting Stock of [ ] owned or controlled by [ ] to an amount under 10 percent of a class of Voting Stock, or immediately ceasing any other actions that give rise to a conclusive or rebuttable determination of control under the Regulations; or (2) filing a Notice under the Control Act, or an Application under the Holding Company Act, as appropriate, and either obtaining approval of the Application or clearance of the Notice, in accordance with the Regulations;

H. Where any Notice filed by [ ] is disapproved, [ ] shall take no action which is inconsistent with the terms of this Agreement, except after either (1) reducing the amount of shares of Voting Stock of [ ] owned or controlled by [ ] to an amount under 10 percent of any class of Voting Stock, or immediately ceasing any other actions that give rise to a conclusive or rebuttable determination of control under the Regulations;

I. Should circumstances beyond [ ]'s control result in [ ] being placed in a position to direct the management or policies of [ ], then [ ] shall either (1) promptly file a Notice under the Control Act or an Application under the Holding Company Act, as appropriate, and take no affirmative steps to enlarge that control pending either a final determination with respect to the Application or Notice, or (2) promptly reduce the amount of shares of [ ] Voting Stock owned or controlled by [ ] to an amount under 10 percent of any class of Voting Stock or immediately cease any actions that give rise to a conclusive or rebuttable determination of control under the Regulations;

J. By entering into this Agreement and by offering it for reliance in reaching a decision on the request to rebut the presumption of control under the Regulations, as long as 10 percent or more of any class of Voting Stock of [ ] is owned or controlled, directly or indirectly, by [ ], and [ ] possesses any Control Factor as defined in the Regulations, [ ] will submit to the jurisdiction of the Regulations, including (1) the filing of an amended rebuttal or Notice for any proposed action which is prohibited by this Agreement, and (2) the provisions relating to a penalty for any person who willfully violates or with reckless disregard for the safety or soundness of a State savings association participates in a violation of the Control Act and the Regulations thereunder, and any regulation or order issued by the FDIC.

K. Any violation of this Agreement shall be deemed to be a violation of the [Control Act or Holding Company Act] and the Regulations, and shall be subject to subject to such remedies and procedures as are provided in the [Control Act or Holding Company Act] and the Regulations for a violation thereunder and in addition shall be subject to any such additional remedies and procedures as are provided under any other applicable statutes or regulations for a violation, willful or otherwise, of any agreement entered into with the FDIC.

L. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which counterparts collectively shall constitute one instrument representing the Agreement among the parties thereto. It shall not be necessary that any one counterpart be signed by all of the parties hereto as long as each of the parties has signed at least one counterpart.

M. This Agreement shall be interpreted in a manner consistent with the provisions of the Rules and Regulations of the FDIC.

N. This Agreement shall terminate upon (i) clearance by the FDIC of [ ]'s Notice under the Control Act to acquire [ ], and consummation of the transaction as described in Notice; (ii) in the disposition by [ ] of a sufficient number of shares of [ ], or (iii) the taking of such other action that there is [ ] is not in control and would not be determined to be in control of [ ] under the Control Act or the Regulations of the FDIC as in effect at that time.

VI. In Witness Whereof, the parties thereto have executed this Agreement by their duly authorized officer.

PART 400—EMPLOYEE FINANCIAL DISCLOSURE AND ETHICAL CONDUCT STANDARDS REGULATIONS

§ 400.101 Cross-reference to employee financial disclosure and ethical conduct standards regulations.

Employees of the Export-Import Bank of the United States (Bank) should refer to:
(a) The executive branch-wide financial disclosure regulations at 5 CFR part 2634;
(b) The executive branch-wide Standards of Ethical Conduct at 5 CFR part 2635; and
(c) The Bank regulations at 5 CFR part 6201 which supplement the executive branch-wide standards.

[60 FR 17628, Apr. 7, 1995]

PART 403—CLASSIFICATION, DECLASSIFICATION, AND SAFEGUARDING OF NATIONAL SECURITY INFORMATION

Sec.
403.1 General policies and definitions.
403.2 Responsibilities.
403.3 Classification principles and authority.
403.4 Derivative classification.
403.5 Declassification and downgrading.
403.6 Systematic review for declassification.
403.7 Mandatory review for declassification.
403.8 Appeals.
403.9 Fees.
403.10 Safeguarding.
403.11 Enforcement and investigation procedures.

AUTHORITY: E.O. 12356, National Security Information, April 2, 1982 (3 CFR, 1982 Comp. p. 166) (hereafter referred to as the Order), Information Security Oversight Directive No. 1, June 25, 1982 (32 CFR part 2001) (hereafter referred to as the Directive), and National Security Decision Directive 84, “Safeguarding National Security Information,” signed by the President on March 11, 1983 (hereafter referred to as NSDD 84). Violation of the provisions of part 403 may result in the imposition of administrative penalties, and civil and criminal penalties under applicable law. Executive Order 12356 prescribes a uniform system for classifying, declassifying, and safeguarding national security information. It recognizes that it is essential that the public be informed concerning the activities of the Government, but that the interests of the United States and its citizens require that certain information concerning the national defense and foreign relations be protected against unauthorized disclosure. Information may not be classified under the Order unless its disclosure reasonably could be expected to cause damage to the national security.

(a) For the purposes of the Order, the Directive and these guidelines, the following terms shall have the meanings specified below:
(1) Information means any information or material, regardless of its physical form or characteristics, that is owned by, produced by or for, or is under the control of the United States Government.
(2) National security information means information that has been determined pursuant to this Order or any predecessor order to require protection against unauthorized disclosure and that is so designated.
(3) Foreign government information means: (i) Information provided by a foreign government or governments, an international organization of governments, or any element thereof with the expectation, expressed or implied, that
§ 403.2 Responsibilities.

In the carrying out of security procedures, responsibility falls on all personnel generally and on certain personnel in a more particular manner.

(a) Individual. Each employee of the Bank having access to classified material has an individual responsibility to protect such information. Classified information should be secured in approved equipment or facilities whenever it is not under the direct control of the employee.

(b) Office and Division Heads. These officials have the additional responsibility of a continuing review for ascertaining that security procedures are properly observed by the personnel comprising their respective offices.

(c) Security Officer. The Security Officer has the responsibility for developing, inspecting, and advising on procedures and controls for safeguarding classified material originating in, received by, in transit through, or in custody of the Bank; the training and orientation of employees; the carrying out of inspections; and the destruction of obsolete and non-record material.

(2) The Security Officer shall be responsible for disseminating written material and conducting oral briefings to inform Bank personnel of the Order, Directive, and regulations. An explanation of the practical application of these procedures and the underlying policy objectives thereof shall be emphasized.

(d) Security Committee. (1) This Committee consists of the General Counsel, as Chairperson, the Security Officer, and other Bank employees, as designated by the President and Chairman (hereinafter referred to as the Chairman) and is responsible for the implementation and enforcement of the Order and the Directive. This Committee will act on all matters with respect to the Bank’s administration of these regulations.

(2) All suggestions and complaints regarding the Bank’s Information Security Program, including those regarding over-classification, failure to declassify, or delay in declassifying, not otherwise provided for herein, shall be referred to the Security Committee for review.

(3) The Security Committee shall have responsibility for recommending to the Chairman appropriate administrative action to correct abuse or violation of these regulations or of any provision of the Order or Directive thereunder, including but not limited to notification by warning letter, formal suspension without pay, and removal. Upon receipt of such a recommendation, the Chairman shall make a decision and advise the Security Committee of this action.

§ 403.3 Classification principles and authority.

(a) Classification Principles. Except as provided in the Atomic Energy Act of 1954, as amended, the Order provides the only basis for classifying national security information. Information held by the Bank will be made available to the public to the extent possible consistent with the need to protect the national defense or foreign relations, as required by the interests of the United States. Confidental source means any individual or organization that has provided, or that may reasonably be expected to provide, information to the United States on matters pertaining to the national security with the expectation, expressed or implied, that the information or relationship, or both, be held in confidence.

(4) Original classification means an initial determination that information requires, in the interest of national security, protection against unauthorized disclosure, together with a classification designation signifying the level of protection required.
States and its citizens. Accordingly, security classification shall be applied only to protect the national security.

(2) Before a classification determination is made, each item of information that may require protection shall be identified exactly. This requires identification of that specific information, disclosure of which could affect the national security. When there is reasonable doubt about the need to classify, the information should be safeguarded as if it were confidential until a final determination is made by an authorized classifier as to its classification. The final determination must be made within thirty (30) days.

(b) Classification Designations. Information which requires protection against unauthorized disclosure in the interest of national security (classified information) shall be classified at one of the following three levels:

(1) TOP SECRET shall be applied only to information, the unauthorized disclosure of which reasonably could be expected to cause exceptionally grave damage to the national security.

(2) SECRET shall be applied only to information, the unauthorized disclosure of which reasonably could be expected to cause serious damage to the national security.

(3) CONFIDENTIAL shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause damage to the national security.

Except as provided by statute, no other terms, such as SENSITIVE, OFFICIAL BUSINESS ONLY, AGENCY, BUSINESS, ADMINISTRATIVELY, etc., shall be used within the Bank in conjunction with any of the three classification levels defined above.

(c) Original Classification Authority and Criteria. (1) The Bank’s authority to assign original classification to any document is limited as follows and is nondelegable:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Classifier</th>
</tr>
</thead>
<tbody>
<tr>
<td>CONFIDENTIAL</td>
<td>President and Chairman, First Vice President and Vice Chairman, General Counsel, Senior Vice Presidents, Security Officer.</td>
</tr>
</tbody>
</table>

(2) A determination to classify information shall be made by an original classification authority when the information concerns one or more of categories (i) through (x) of this paragraph, and when the unauthorized disclosure of the information, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security. Information shall be considered for classification if it concerns:

(i) Military plans, weapons, or operations;

(ii) The vulnerabilities or capabilities of systems, installations, projects, or plans relating to the national security;

(iii) Foreign government information;

(iv) Intelligence activities (including special activities), or intelligence sources or methods;

(v) Foreign relations or foreign activities of the United States;

(vi) Scientific, technological, or economic matters relating to the national security;

(vii) United States Government programs for safeguarding nuclear materials or facilities;

(viii) Cryptology;

(ix) A confidential source; or

(x) Other categories of information that are related to the national security and that require protection against unauthorized disclosure as determined by the President of the United States, by the Chairman or by other officials who have been delegated original classification authority by the President. Recommendations concerning the need to designate additional categories of information that may be considered for classification shall be forwarded through the Security Officer to the Chairman for determination. Such a determination shall be reported to the Director of the Information Security Oversight Office.

(3) Information that is determined to concern one or more of the above categories shall be classified when an original classification authority also determines that its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to
§ 403.3 12 CFR Ch. IV (1–1–14 Edition)

the national security. Accordingly, certain information which would otherwise be unclassified may require classification when associated with other unclassified or classified information. Classification on this basis shall be supported by a written explanation that, at a minimum, shall be maintained with the file or reference on the recent copy of the information.

(4) Unauthorized disclosure of foreign government information, the identity of a confidential foreign source, or disclosure of intelligence sources or methods is presumed to cause damage to the national security.

(5) Information classified in accordance with the above classification categories shall not be declassified automatically as a result of any unofficial publication or inadvertent or unauthorized disclosure in the United States or abroad of identical or similar information.

(d) Duration of Original Classification.

(1) Information shall be classified as long as required by national security considerations. When it can be determined, a specific date or event for declassification shall be set by the original classification authority at the time the information is originally classified. If the date or event for declassification cannot be determined at the time of classification, the standard notation “Originating Agency’s Determination Required”, or its abbreviation “OADR”, should be entered on the “Declassify on” line.

(2) Automatic declassification determinations under predecessor orders shall remain valid unless the classification is extended by an authorized declassification authority. These extensions may be by individual documents or categories of information, provided, however, that any extension of classification on other than an individual document basis shall be reported to the Director of the Information Security Oversight Office. The declassification authority shall be responsible for notifying holders of the information of such extensions.

(3) Information classified under predecessor orders and marked for declassification review shall remain classified until reviewed for declassification under the provisions of the Order.

(e) Marking and Identification.

(1) Classified information must be marked, or otherwise identified, to inform and warn the holder of the information of its sensitivity. The classifier is responsible for ensuring that proper classification markings are applied. At the time of classification, the following information shall be shown on the face of all classified documents, or clearly associated with other forms of classified information in a manner appropriate to the medium involved, unless this information itself would reveal a confidential source or relationship not otherwise evident in the document or information:

(i) One of the three classification levels defined in §403.3(b); “(TS)” for Top Secret, “(S)” for Secret, “(C)” for Confidential, and “(U)” for Unclassified; with each page marked at top and bottom according to the highest level of classified information on each page.

(ii) The identity of the original classification authority if other than the person whose name appears as the approving or signing official;

(iii) The agency and office of origin; and

(iv) The date or event for declassification, or the notation “Originating Agency’s Determination Required”.

(2) Each classified document shall, by marking or other means, indicate which portions are classified, with the applicable classification level, and which portions are not classified. The Chairman may, for good cause, grant and revoke waivers of this requirement for specified classes of documents or information. The Director of the Information Security Oversight Office shall be notified of any waivers.

(3) Marking designations implementing the provisions of the Order, including abbreviations, shall conform to the standards prescribed in implementing directives issued by the Information Security Oversight Office. All authorized classifiers shall be issued a uniform stamp that has a “Classified by” line and a “Declassify on” line.

(4) Documents that contain foreign government information shall include either the marking, “FOREIGN GOVERNMENT INFORMATION”, or a marking that otherwise indicates that the information is foreign government information.
information. If that fact must be concealed, the document will be marked as if it were of U.S. origin. Foreign government information shall either retain its original classification or be assigned a United States classification that shall ensure a degree of protection at least equivalent to that required by the entity that furnished the information. (5) Documents that contain information relating to intelligence sources or methods shall include the following marking unless prescribed by the Director of the Central Intelligence: WARNING NOTICE—INTELLIGENCE SOURCES OR METHODS INVOLVED. (6) Information assigned a level of classification under predecessor orders shall be considered as classified at that level of classification despite the omission of other required markings. Omitted markings may be inserted on a document by the General Counsel or the Security Officer. (f) Limitations on Classification. (1) In no case shall information be classified in order to conceal violations of law, inefficiency, or administrative error; to prevent embarrassment to a person, organization, or agency; to restrain competition; or to prevent or delay the release of information that does not require protection in the interest of national security. (2) Basic scientific research information not clearly related to the national security may not be classified. (3) The Chairman or other authorized original classifiers may reclassify information previously declassified and disclosed if it is determined in writing that— (i) The information requires protection in the interest of national security, and (ii) The information may reasonably be recovered. In making such determination, the Chairman or any other authorized original classifier shall consider the following factors: The lapse of time following disclosure; the nature and extent of disclosure; the ability to bring the fact of reclassification to the attention of persons to whom the information was disclosed; the ability to prevent further disclosure; and the ability to retrieve the information voluntarily from persons not authorized access to its reclassified state. These reclassification actions shall be reported promptly to the Director of the Information Security Oversight Office. (4) Information may be classified or reclassified after an agency has received a request for it under the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act of 1974 (5 U.S.C. 552a), or the mandatory review provisions of the Order and these regulations, if such classification meets the requirements of the Order and is accomplished personally and on a document-by-document basis by the Chairman, the Vice Chairman, or the Security Officer. § 403.4 Derivative classification. (a) Use of derivative classification. (1) Unlike original classification which is an initial determination, derivative classification is an incorporation, paraphrasing, restatement, or generation in new form of information that is already classified. Derivative classification is the responsibility of those who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or as directed by a classification guide. Original classification authority is not required for derivative classification. (2) Persons who apply such derivative classification markings shall: (i) Respect original classification decisions; (ii) Verify the information’s current level of classification so far as practicable before applying the markings; and (iii) Carry forward to any newly created documents the assigned dates or events for declassification or review. The latest date for declassification should be entered in the case of multiple source documents. (b) New Material. (1) New material that derives its classification from information classified on or after the effective date of the Order, April 2, 1982, shall be marked with the declassification date or event, or the date for review, as assigned to the source information.
(2) New material that derives its classification under prior orders shall be treated as follows:

(i) If the source material bears a classification date or event 20 years or less from the date or origin, that date or event shall be carried forward on the new material.

(ii) If the source material bears no declassification date or event or is marked for declassification beyond 20 years, the new material shall be marked with a date for review for declassification at 20 years from the date of original classification of the source material.

(iii) If the source material is foreign government information bearing no date or event for declassification or is marked for declassification beyond 30 years, the new material shall be marked for review for declassification at 30 years from the date of original classification of the source materials.

(iv) A copy of the source document or documents should be maintained with the file copy of the new document or documents which have been derivatively classified.

§ 403.5 Declassification and downgrading.

(a) Authority and policy for declassification and downgrading. Information that continues to meet the classification requirements prescribed in §403.3(c) despite the passage of time will continue to be safeguarded. However, information which is properly classified at the time it is developed may not necessarily require protection indefinitely. National security information over which the Bank exercises final classification jurisdiction shall be declassified or downgraded as soon as national security considerations permit. Information shall be declassified or downgraded by:

(1) The official who authorized the original classification, if that official is still serving in the same position, by a successor, or by a supervisory official of either; or

(2) Officials specifically delegated this authority in writing by the Chairman or by the Security Officer. A list of those who may be so delegated shall be maintained by the Security Officer.

(b) Declassification Procedure. Information marked with a specific declassification date or event shall be declassified on that date or upon occurrence of that event. The overall classification markings shall be lined through a statement placed on the cover or first page to indicate the declassification authority, by name and title, and the date of declassification. If practicable, the classification markings on each page shall be cancelled; otherwise, the statement on the cover or first page shall indicate that the declassification applies to the entire document.

(c) Notification to Holders. When classified information has been properly marked with specific dates or events for declassification it is not necessary to issue notices of declassification to any holders. However, when declassification action is taken earlier than originally scheduled, or the duration of classification is extended, the authority making such changes shall promptly notify all holders to whom the information was originally transmitted. This notification shall include the marking action to be taken, the authority for the change (name and title), and the effective date of the change. Upon receipt of notification, recipients shall make the proper changes and shall notify holders to whom they have transmitted the classified information.

(d) Downgrading. Information designated a particular level of classification may be assigned a lower classification level by the original classifier or by an official authorized to declassify the same information. Prompt notice of such downgrading shall be provided to known holders of the information. Classified information marked for automatic downgrading under previous Executive Orders shall be reviewed to determine that it no longer continues to meet classification requirements despite the passage of time.
(e) **Transferred Information.** Classified information transferred from one agency to another in conjunction with a transfer of functions, and not merely for storage purposes, shall be considered under the control of the receiving agency for purposes of downgrading and declassification, subject to consultation with any other agency that has an interest in the subject matter of the information. Prior to forwarding classified information to an approved storage facility of the Bank, to a Federal records center, or to the National Archives for permanent preservation, the information shall be reviewed for downgrading or declassification.

§ 403.6 Systematic review for declassification.

Classified information determined by the Archivist of the United States to be of sufficient value to warrant permanent retention will be subject to systematic declassification review by the Archivist in accordance with guidelines provided by the Bank, as originator of the information. These guidelines shall be developed by the Security Officer who is designated by the Bank to assist the Archivist in the review process. The guidelines shall be reviewed every five years or as requested by the Archivist of the United States.

§ 403.7 Mandatory review for declassification.

(a) Classified information under the jurisdiction of the Bank shall be reviewed for declassification upon receipt of a request by a United States citizen or permanent resident alien, a Federal agency, or a State or local government. A request for mandatory review of classified information shall be submitted in writing and describe the information with sufficient particularity to locate it with a reasonable amount of effort. Requests may be addressed to the:

General Counsel, Export-Import Bank of the U.S., 811 Vermont Avenue, NW., Washington, DC 20571

(b) The Bank’s response to mandatory review requests will be governed by the amount of search and review time required to process the request. The Bank will acknowledge receipt of all requests, and will inform the requester if additional time is needed to process the request. Except in unusual circumstances, the Bank will make a final determination within one year from the date of receipt of the request.

(c) When information cannot be declassified in its entirety, the Bank will make a reasonable effort to release, consistent with other applicable laws, those declassified portions that constitute a coherent segment.

(d) The bank shall determine whether information under the classification jurisdiction of the Bank or any reasonably segregable portion of it no longer requires protection. If so, the General Counsel shall promptly make such information available to the requester, and shall inform the requester of any fees due before releasing the document. If the information may not be released, in whole or in part, the General Counsel shall give the requester a brief statement of the reasons, and a notice, mailed with return receipt requested, of the right to appeal the determination within 60 days of the denial letter’s receipt.

(e) The agency that initially received or classified records containing foreign government information shall be responsible for making a declassification determination on review requests for classified records which contain such foreign government information. Such requests shall be referred to the appropriate agency for action.

(f) When the Bank receives a mandatory declassification review request for records in its possession that were originated by another agency, it shall forward the request to that agency. The Bank may request notification of the declassification determination.

(g) Information originated by a President, the White House staff, by committees, commissions, or boards appointed by the President, or other specifically providing advice and counsel to a President or acting on behalf of a President is exempted from the provisions of mandatory review for declassification, except as consistent with applicable laws that pertain to presidential papers or records.

(h) The bank shall process requests for declassification that are submitted under the provisions of the Freedom of Information Act, as amended, or the
§ 403.8 Appeals.

(a) The Vice Chairman is designated to receive appeals on requests for declassification which have been denied by the Bank. Such appeals shall be addressed to:

First Vice President & Vice Chairman, Export-Import Bank of the United States, 811 Vermont Avenue NW., Washington, DC 20571

The appeal must be received within 60 days after receipt by appellant of the denial letter. Appeals shall be decided within 30 days of their receipt by the Vice Chairman.

(1) If the decision is to declassify the materials in their entirety, the Vice Chairman shall promptly make such information available to the requester, and inform the requester of any fees due before releasing the documents.

(2) If the decision is to deny declassification of a portion of the material, the Vice Chairman shall promptly make the part which was declassified available to the requester, and shall advise the requester, in writing, of the reasons for the partial denial of declassification.

(3) If the decision is to deny declassification of all the material, the Vice Chairman shall promptly advise the requester, in writing, of the reasons for such denial.

§ 403.9 Fees.

The following specific fees shall be applicable with respect to services rendered to members of the public under these regulations, by the Bank, except that the search fee will normally be waived when the search involves less than one-half hour of clerical time.

(a) Search for records, per hour or fraction thereof:

(i) Professional .................................. $11.00

(ii) Clerical ........................................ 6.00

(b) Computer service charges per second for actual use of computer central processing unit................... .25

(c) Copies made by photostat or otherwise (per page): maximum of 5 copies will be provided.................... .10

(d) Certification of each record as a true copy .................. 1.00

(e) Certification of each record as a true copy under official seal........... 1.50

(f) Duplication of architectural photographs and drawings............... 2.00

Fees must be paid in full prior to issuance of requested copies. Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or postal money order. Remittances shall be made payable to the order of the Export-Import Bank of the United States, and mailed to:

General Counsel, Export-Import Bank of the United States, 811 Vermont Avenue NW., Washington, DC 20571

§ 403.10 Safeguarding.

(a) General Access Requirements. Except as provided in § 403.10(c), access to classified information shall be granted in accordance with the following:

(1) Determination of Trustworthiness. No person shall be given access to classified information or material unless a favorable determination has been made as to his trustworthiness. The determination of eligibility, referred to as a security clearance, shall be based on such investigations as the Bank may require in accordance with the standards and criteria of applicable law and Executive orders.

(2) Determination of Need to Know. In addition to a security clearance, a person must have a need for access to the particular classified information or material sought in connection with the performance of official duties or contractual obligations. The determination of that need shall be made by officials having responsibility for the classified information or material.

(b) Classified Information Nondisclosure Agreement. All persons with authorized access to classified information shall be required to sign a nondisclosure agreement, Standard Form 189, as a
condition of access. This form shall be retained in the security file of the individual for 50 years.

(c) Access by Historical Researchers and Former Presidential Appointees. The Bank shall obtain written agreements from requesters to safeguard the information to which they are given access as permitted by the Order and written consent to the Bank’s review of their notes and manuscripts for the purpose of determining that no classified information is contained therein. A determination of trustworthiness is a precondition to a requester’s access. If the access requested by historical researchers and former Presidential Appointees requires the rendering of services for which fair and equitable fees may be charged pursuant to title 5 of the Independent Offices Appropriations Act, 65 Stat. 290, 31 U.S.C. 483a (1976), the requester shall be so notified and the fees may be imposed.

(d) Media Contacts. All contacts by members of the media which concern classified information shall be directed to the attention of the Security Officer, Room 1031, Export-Import Bank of the United States, 811 Vermont Avenue NW., Washington, DC 20571.

(e) Dissemination. Except as otherwise provided by directives issued by the President through the National Security Council, classified information originating in another agency and in the possession of the Bank may not be disseminated outside the Bank without the consent of the originating agency.

(f) Accountability Procedures. Dissemination of various levels of classified information or material shall be within the control and responsibility of designated control officers. Particularly stringent controls shall be placed on information and material classified as TOP SECRET.

(i) To receive the material for the Bank;

(ii) To maintain registers which will reflect the routing of the material and the return thereof in a reasonable length of time for security storage;

(iii) To dispatch and make record of material disseminated to authorize persons outside the Bank;

(iv) To make a physical inventory of all material at least annually; and

(v) To maintain current access records.

(2) SECRET. Designated as SECRET control officers are the Security Officer and the Analysis, Records & Communications Manager, who have the responsibility with respect to all information classified in this category:

(i) To receive the material for the Bank;

(ii) To maintain registers which will reflect the routing of the material and the return thereof in a reasonable length of time for security storage;

(iii) To dispatch and make record of material disseminated to authorized persons outside the Bank;

(iv) To maintain current access records.

(3) CONFIDENTIAL. Designated as CONFIDENTIAL control officers are the Security Officer and the Analysis, Records & Communications Manager who have responsibility with respect to all information classified in this category:

(i) To review material for the Bank;

(ii) To route the material to proper Bank offices;

(iii) To dispatch and make record of material disseminated to authorized persons outside the Bank;

(iv) To maintain current access records.

(g) Storage. Classified information shall be stored only in facilities or under conditions adequate to prevent unauthorized persons from gaining access to it and in accordance with the Directive as well as General Services Administration standards and specifications. Reference may be made to 32 CFR 2001.41, 2001.43 for preliminary guidance regarding these standards and specifications.

(h) Coversheets. Department of State (DSC) classified incoming cables are to
§ 403.10

be logged in and routed to the appropriate offices in double envelopes. When these cables are being used in various offices, classified coversheets must be used to protect the documents. This practice eliminates the possibility of inadvertently mixing classified with non-classified material, and promotes security awareness. Coversheets are obtainable from the Office of the Security Director.

(i) Transmittal. (1) To be transmitted outside the Bank, all classified documents must be sent through the Security Office and have attached EIB Form 71–2, approved by one of the following: the President and Chairman, First Vice President and Vice Chairman, a Senior Vice President, General Counsel, Vice President or Security Officer.

(2) Preparation and Receipting. Classified information shall be enclosed in opaque inner and outer covers before transmitting. The inner cover shall be a sealed wrapper or envelope plainly marked with the assigned classification and addresses of both sender and addressee. Transmittal documents shall indicate on their face the highest level of any information transmitted, and must clearly state whether or not the transmittal document itself is classified after removal of enclosures and attachments. The outer cover shall be sealed and addressed with no identification of the classification of its contents. A receipt shall be attached to or enclosed in the inner cover, except that CONFIDENTIAL information shall require a receipt only if the sender deems it necessary. The receipt shall identify the sender, addressee, and the document but shall contain no classified information. It shall be immediately signed by the recipient and returned to the sender. Any of these wrapping and receipting requirements may be waived by agency heads under conditions that will provide adequate protection and prevent access by unauthorized persons.

(3) Transmittal of CONFIDENTIAL information. CONFIDENTIAL information shall be transmitted within and between the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, and U.S. territories or possessions by one of the means established for higher classifications, or by United States Postal Service, certified first class, or express mail service, when prescribed by an agency head. Outside these areas, CONFIDENTIAL information shall be transmitted only as is authorized for higher classification levels.

(4) Transmittal of TOP SECRET and SECRET information shall be in accordance with the Directive. Reference may be made to 32 CFR 2001.44 for preliminary guidance.

(j) Destruction. Classified information no longer needed in working files or for record or reference purposes shall be processed for appropriate disposition in accordance with Chapters 21 and 33 of title 44 U.S.C., when govern disposition of Federal Records. All classified information approved for destruction must be torn and placed in containers designated as burnbags which are available through the Office Services Section of the Bank. Destruction of such information will be carried out by the Security Officer or a designee by use of a disintegrator or by burning. The method of destruction selected must preclude recognition or reconstruction of the classified information or material. Records of destruction will be maintained by the Security Office for TOP SECRET information and material with serialized markings or material for which there is a special need to record its destruction.

(k) Reproduction controls. (1) Reproduction of classified documents is prohibited, except by personnel authorized in writing by the Chairman or Security Officer.

(2) TOP SECRET documents may not be reproduced without the consent of the originating agency unless otherwise marked by the originating office.

(3) Reproduction of SECRET and CONFIDENTIAL documents may be restricted by the originating agency.

(4) Reproduced copies of classified documents are subject to the same accountability and controls as the original documents.

(5) Records shall be maintained by the Security Officer to show the number and distribution or reproduced copies of all TOP SECRET documents, of all documents covered by special access programs distributed outside the
§ 403.11 Enforcement and investigation procedures.

(a) Loss or Possible Compromise. Any person who has knowledge of the loss or possible compromise of classified information shall immediately report the circumstances to the Security Officer of the Bank. In turn, the originating agency shall be notified about the loss or compromise in order that a damage assessment may be conducted and appropriate measures taken to negate or minimize any adverse effect, and prevent further such loss or compromise. An immediate inquiry shall be initiated by the Bank for the purpose of determining cause and responsibility and taking corrective measures and appropriate administrative, disciplinary, or legal action.

(b) Reporting and Investigating Unauthorized Disclosures. (1) Employees who have reason to believe that an unauthorized disclosure of classified information has occurred shall report the disclosure to their supervisor, who shall inform the Security Officer.

(2) The Bank shall promptly notify the Information Security Oversight Office at the General Services Administration, Washington, DC 20405, of all unauthorized disclosures of classified information.

(3) If the Bank believes that it is the source of an unauthorized disclosure of classified information that it originated, it shall evaluate the disclosure under paragraph (b)(7) of this section. If the disclosure is serious, the Bank shall report the disclosure and the results of the evaluation to the Department of Justice together with notification that it is conducting an internal investigation.

(4) If the Bank believes that it is the source of an unauthorized disclosure of classified information that it handled but did not originate, it shall report the disclosure to the Department of Justice and to the originating agency(ies) or department(s) for evaluation under paragraph (b)(7) of this section. If the Bank cannot determine the identity of the originating agency(ies) or department(s), it shall report the disclosure to the Department of Justice together with any information or reasonable inferences as to the identity of the originating agency(ies) or department(s).

(5) If the Bank receives a request for an evaluation of information it originated, it shall, if the evaluation shows the disclosure was serious, inform the agency(ies) or department(s) from which the disclosure occurred of this conclusion and request that the agency(ies) or department(s) conduct an internal investigation.

(6) If the Bank determines that an unauthorized disclosure of classified information has occurred but that it neither originated, handled nor disclosed the information, it shall report the disclosure to the likely originating agency(ies) or department(s).

(7) In determining whether an disclosure is sufficiently serious to warrant reporting to the Department of Justice, the Bank, if it is the originating agency, shall ascertain the nature of the disclosed information, determine the extent to which it disseminated the information and evaluate the disclosure to determine whether it seriously damages its mission and responsibilities. In evaluating the damage caused by the disclosure, the Bank shall consider such matters as whether the disclosure jeopardizes an ongoing project, operation or source of information and to what extent the policy goals underlying the project or operation must be altered.

(8) In any instance where the Bank is determined to be the source of an unauthorized disclosure and an evaluation by the Bank or the originating agency(ies) or department(s) determines the disclosure to be of a serious nature, an internal investigation will be initiated and an investigation report, containing such information as may be required by the Department of Justice, will be submitted to the Department of Justice within 15 days after notification from the originating agency or Department of Justice, but in any case no later than 30 days. If the investigation report is not completed within 15 days, the Bank shall submit as much of the required information as is available at that time and furnish
additional information as it is developed.

(9) Whenever the Bank determines during the course of an investigation that it is necessary to compel or induce the cooperation of an employee, the Bank shall first consult with the Department of Justice. The Department of Justice will coordinate with the Bank to determine the procedures the Bank may use to compel an employee's participation without foreclosing possible criminal proceedings.

(10) The Bank shall maintain records of all disclosures that have been reported or investigated.

(11) All employees shall cooperate fully with officials of the Bank or other agencies who are conducting investigations of unauthorized disclosures of classified information.

(12) Employees determined by the Bank to have knowingly participated in an unauthorized disclosure of classified information or who have refused to cooperate with an investigation of such a disclosure shall be denied further access to classified information and shall be subject to other appropriate administrative sanctions. Prior to taking action against an employee in connection with the unauthorized disclosure or classified information, the Bank shall consult with the Department of Justice, National Security Division.

[50 FR 27215, July 2, 1985, as amended at 72 FR 66043, Nov. 27, 2007]

PART 404—INFORMATION DISCLOSURE

Sec.
404.1 General provisions.
404.2 Definitions.
404.3 Public reference facilities.
404.4 Request requirements.
404.5 Time for processing.
404.6 Release of records under the Freedom of Information Act.
404.7 Confidential business information.
404.8 Initial determination.
404.9 Schedule of fees.
404.10 Fee waivers or reductions.
404.11 Administrative appeal.

Subpart B—Protection of Privacy and Access to Records Under the Privacy Act of 1974

404.12 General provisions.
404.13 Definitions.
404.14 Requirements of request for access.
404.15 Initial determination.
404.16 Schedule of fees.
404.17 Appeal of denials of access.
404.18 Requests for correction of records.
404.19 Request for accounting of record disclosures.
404.20 Notice of court-ordered and emergency disclosures.
404.21 Submission of social security and passport numbers.
404.22 Government contracts.
404.23 Other rights and services.

Subpart C—Demands for Testimony of Current and Former Ex-Im Bank Personnel and for Production of Ex-Im Bank Records

404.25 Applicability.
404.26 Definitions.
404.27 Demand requirements.
404.28 Notification of General Counsel required.
404.29 Restrictions on testimony and production of records.
404.30 Factors General Counsel may consider in determining whether to authorize testimony and/or the production of records.
404.31 Procedure for declining to testify and/or produce records.
404.32 Procedure in the event a decision concerning a demand is not made prior to the time a response to the demand is required.
404.33 Procedure in the event of an adverse ruling.
404.34 Procedure for demands for testimony or production of documents regarding confidential information.
404.35 Procedure for requests for Ex-Im Bank employees to provide expert or opinion testimony.
404.36 No private right of action.

Subparts D–E [Reserved]

AUTHORITY: 5 U.S.C. 552 and 552a.

Section 404.7 also issued under E.O. 12600, 52 FR 25781, 3 CFR, 1987 Comp., p. 235.

Section 404.21 also issued under 5 U.S.C. 552a note.

Subpart C also issued under 5 U.S.C. 301, 12 U.S.C. 635.
§ 404.1 General provisions.

(a) Purpose. This subpart establishes policy, procedures, requirements, and responsibilities for administration of the Freedom of Information Act (FOIA), 5 U.S.C. 552, at the Export-Import Bank of the United States (Ex-Im Bank).

(b) Policy. It is Ex-Im Bank’s policy to honor all requests for the disclosure of its records, provided that disclosure would not adversely affect a legitimate public or private interest and would not impose an unreasonable burden on Ex-Im Bank. However, this subpart also recognizes that the soundness of many Ex-Im Bank programs depends upon the receipt of reliable commercial, technical, financial, and business information relating to applicants for Ex-Im Bank assistance and that receipt of such information depends on Ex-Im Bank’s ability to hold such information in confidence. Consequently, except as provided by applicable law and this regulation, information provided to Ex-Im Bank in confidence will not be disclosed without the submitter’s consent.

(c) Scope. All record requests made to Ex-Im Bank shall be processed under this subpart, except that information customarily furnished to the public in the regular course of the performance of official duties may continue to be furnished to the public without complying with this subpart. Requests made by individuals under the Privacy Act of 1974 which are processed under subpart B of this part also shall be processed under this subpart A.

(d) Ex-Im Bank Internet site. Ex-Im Bank maintains an Internet site at http://www.exim.gov. The site contains information on Ex-Im Bank functions, activities, programs, and transactions. Web site visitors have access to Board of Directors and Loan Committee meeting minutes, country information, and Ex-Im Bank press releases, among other information. Ex-Im Bank encourages all prospective FOIA requesters to visit the site prior to submission of a FOIA request.

§ 404.2 Definitions.

For purposes of this subpart, the following definitions shall apply:

All other requesters—Requesters other than commercial use requesters, educational and non-commercial scientific requesters, or representatives of the news media.

Appeal—A written request to the Ex-Im Bank Assistant General Counsel for Administration for reversal of an adverse initial determination.

Business information—Potentially confidential commercial or financial information that is provided to Ex-Im Bank.

Business submitter—Any person who provides business information to Ex-Im Bank.

Commercial use request—A request for a use or purpose that furthers the commercial, trade or profit interest of the requester.

Direct costs—Expenditures incurred in the search, review, and duplication of records in response to a FOIA request.

Educational institution—A preschool, a public or private elementary or secondary school, an institution of undergraduate or graduate higher education, or an institution of professional or vocational education.

Final determination—The written decision by the Assistant General Counsel for Administration on an appeal.

Initial determination—The initial written determination by Ex-Im Bank regarding disclosure of requested records.

Non-commercial scientific institution—An institution that is operated for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry and that is not operated solely for purposes of furthering a business, trade or profit interest.
§ 404.3 Public reference facilities.

Ex-Im Bank maintains a public reading room which contains the Ex-Im Bank records that the FOIA requires to be made available for public inspection and copying. The records available under this section include copies of records released pursuant to the FOIA that Ex-Im Bank determines have, or are likely to, become the subject of subsequent requests for substantially the same records. Requesters shall be responsible for the cost of duplicating such material in accordance with the provisions of § 404.9(e). Persons desiring to use the reading room should contact the Ex-Im Bank Freedom of Information and Privacy Office, either in writing at the address at § 404.1(f) or by telephone at (202) 565–3946 or (800) 565–3946, to arrange a time to inspect the available records.

§ 404.4 Request requirements.

(a) Form. Requests must be made in writing and must be signed by, or on behalf of, the requester. Requests should be addressed to the Freedom of Information and Privacy Office at the address in § 404.1(f) and should contain both the return address and telephone number of the requester.

(b) Description of records requested. Each request must describe the records sought in sufficient detail so as to enable a professional employee of Ex-Im Bank familiar with the subject matter of the request to locate the record with a reasonable amount of effort. A request shall not be deemed to have been received until such time as the request adequately identifies the records sought. To the extent practicable, a description should include relevant dates, format, subject matter, and the name of any person to whom the record is known to relate. A general request for records with no accompanying date restriction, either express or implied, shall be deemed to be a request for records created within the preceding twelve months.
(c) **Fee statement.** The request must contain a statement expressing willingness to pay fees for the requested records or a request for a fee waiver (see §404.10) before the request shall be deemed to have been received. A fee statement may specify the maximum amount a requester is willing to pay for processing the request.

(1) Whenever a requester submits a FOIA request that does not contain a fee statement or a request for a fee waiver, Ex-Im Bank shall advise the requester of the requirements of this paragraph. If the requester fails to respond within ten working days of such notification, then the Freedom of Information and Privacy Office shall notify the requester, in writing, that Ex-Im Bank will not process the request.

(2) A general statement by the requester expressing willingness to pay all applicable fees under §404.9 shall be deemed an agreement to pay up to $50.00. If Ex-Im Bank estimates that the fees for a request will exceed $50.00, then Ex-Im Bank shall offer the requester the opportunity to agree, in writing, either to pay a greater fee or to modify the request as a means of limiting the cost.

(d) **Written notice of amendment.** The requester should provide any amendment to the original request in writing to Ex-Im Bank.

(e) **Requester assistance.** Ex-Im Bank shall make reasonable efforts to assist a requester in complying with the requirements of this section.

§ 404.5 **Time for processing.**

(a) **General.** Ex-Im Bank shall respond to requests within twenty working days of the date of receipt of the request unless unusual circumstances exist. Ex-Im Bank shall provide written notice to the requester whenever such unusual circumstances necessitate an extension. If the extension is expected to exceed ten working days, then Ex-Im Bank shall offer the requester the opportunity to:

(1) Alter the request so that it may be processed within the time limit; or

(2) Propose an alternative, feasible time frame for processing the request.

(b) **Date of receipt.** A request shall be deemed to have been received on the date that the request is received in the Freedom of Information and Privacy Office, provided that the requester has met all the requirements of §404.4. Ex-Im Bank shall notify the requester of the date on which a request was officially received.

(c) **Order of processing.** Ex-Im Bank ordinarily shall process requests according to their order of receipt.

(d) ** Expedited processing.** A request for expedited processing must be included in the original request for records and may be granted at the discretion of Ex-Im Bank based upon the requester's demonstration of:

(1) An imminent threat to the life or physical safety of an individual; or

(2) In the case of a requester who is a representative of the news media, an urgency to inform the public concerning actual or alleged Federal Government activity. Ex-Im Bank shall provide notice of its determination on expedited processing to the requester. A requester may file an administrative appeal, as set forth at §404.11, based on a denial of a request for expedited processing. Ex-Im Bank shall grant expeditious consideration to any such appeal.

§ 404.6 **Release of records under the Freedom of Information Act.**

(a) **Creation of records.** A reasonable request for material not in existence may be honored at Ex-Im Bank’s discretion when tabulation or compilation will not significantly burden Ex-Im Bank, its programs or its activities.

(b) **Discretionary release.** Consistent with federal government policy, material technically qualifying for exemption from disclosure under 5 U.S.C. 552(b)(5) may be made available when disclosure would not adversely affect legitimate public or private interests, violate law or impose an unreasonable burden on Ex-Im Bank. This policy does not, however, create any right enforceable in a court of law.

(c) **Segregable records.** Whenever it is determined that a portion of a record is exempt from disclosure, any reasonably segregable portion of the record shall be provided to the requester after redaction of the exempt material. If segregation would render the document meaningless, Ex-Im Bank shall withhold the entire record.
§ 404.7 Confidential business information.

(a) Scope. This section applies to all business information, as defined in § 404.2. Such information shall only be disclosed pursuant to a FOIA request in accordance with this section.

(b) Submitter designation. All business submitters should designate, by appropriate markings, either at the time of submission or at a reasonable time thereafter, any portion of any submission that they consider to be exempt from disclosure under 5 U.S.C. 552(b)(4).

(c) Pre-disclosure notice to the business submitter. Whenever Ex-Im Bank receives a FOIA request seeking disclosure of business information, Ex-Im Bank shall provide prompt written notice to the submitter of such information. This notice shall include a description or a copy of the records containing the business information. Such notice shall not be required, however, if:

(1) Ex-Im Bank determines that the records shall not be disclosed;
(2) The records have been published or otherwise made available to the public; or
(3) disclosure of the records is required by law.

(d) Opportunity to object to disclosure. The business submitter shall have ten working days from and including the date of the notification letter to provide Ex-Im Bank with a detailed statement of any objection to disclosure of the records. A submitter located outside the United States shall have twenty working days to object to disclosure. Ex-Im Bank may extend the time for objection upon timely request from the submitter and for good cause shown. A statement of objection must specify all grounds under the FOIA for withholding the information.

(e) Notice to the requester. The Freedom of Information and Privacy Office shall notify the requester in writing whenever a business submitter is afforded the opportunity to object to disclosure of records pursuant to paragraph (c) of this section.

(f) Disclosure of confidential business information. Ex-Im Bank shall consider any objections raised by the business submitter prior to making its disclosure decision.

(g) Notice of intent to disclose. Whenever Ex-Im Bank determines to disclose business information over the objection of a business submitter, Ex-Im Bank shall notify the business submitter, in writing, of such determination, the reasons for the decision, and the expected disclosure date. This notification—which shall be provided at least ten days prior to the planned disclosure date and which shall include a copy or description of the records at issue—is intended to afford the submitter the opportunity to seek judicial review.

(h) Notice to requester of disclosure date. If Ex-Im Bank determines to disclose records over a business submitter’s objection, then Ex-Im Bank shall notify the requester of the expected disclosure date.

(i) Appeal. Whenever Ex-Im Bank determines to disclose, pursuant to an administrative appeal, business information that initially was withheld from disclosure under 5 U.S.C. 552(b)(4), Ex-Im Bank shall notify the business submitter. Such notice shall be in writing and shall be provided ten working days prior to the proposed disclosure date. It shall include a copy or description of the records at issue and a statement of Ex-Im Bank’s reasons for disclosure.

(j) Notice of FOIA lawsuit. Ex-Im Bank shall promptly notify the submitter whenever a requester brings suit against Ex-Im Bank seeking to compel the release of business information covered by this section. Ex-Im Bank shall promptly notify the requester when a submitter brings suit against Ex-Im Bank seeking to restrict the release of business information that is covered by this section.

(k) Exception. Notwithstanding the foregoing provisions of this part, Ex-Im Bank may, upon request or on its own initiative, publicly disclose the parties to transactions for which Ex-Im Bank approves support, the amount of such
§ 404.8 Initial determination.

(a) Authority to grant or deny requests. The Freedom of Information and Privacy Office shall be responsible for search, review, and the initial determination.

(b) Referrals to other government agencies. A requested record in Ex-Im Bank's possession that was created or classified by another Federal agency shall be referred to such agency for direct response to the requester. The Freedom of Information and Privacy Office shall notify the requester of any such referral, the number of documents so referred, and the name and address of each agency to which the request has been referred.

(c) Notification of Ex-Im Bank action. The Freedom of Information and Privacy Office shall notify the requester in writing of its decision to grant or deny the request.

(1) If the decision is made to grant a request, then Ex-Im Bank shall promptly disclose the requested records and shall inform the requester of any fee payable under § 404.9.

(2) A denial is a determination to withhold any requested record in whole or in part, a determination that a requested record does not exist or cannot be located or a determination that what has been requested is not a record subject to the FOIA. Whenever Ex-Im Bank withholds information, such notice shall include:

(i) The name, title, and signature of the person responsible for the determination;

(ii) The statutory basis for non-disclosure; and

(iii) A statement that any denial may be appealed under § 404.11 and a brief description of the requirements of that section.

(d) Material withheld. Ex-Im Bank shall make reasonable efforts to inform the requester of the volume of material withheld pursuant to a full or partial denial and the extent of any redaction. Ex-Im Bank shall not, however, indicate the extent of any denial when doing so could harm an interest protected by an applicable exemption.

§ 404.9 Schedule of fees.

(a) General. Ex-Im Bank shall charge fees to recover the full allowable direct costs it incurs in processing requests. Ex-Im Bank shall attempt to conduct searches in the most efficient manner to minimize costs for both Ex-Im Bank and the requester.

(b) Categories of requesters. Fees shall be assessed according to the status of the requester. The specific schedule of fees for each requester category (each as defined in § 404.2) is prescribed as follows:

(1) Commercial use requesters. Ex-Im Bank shall charge the full costs for search, review, and duplication.

(2) Educational and non-commercial scientific institution requesters. Ex-Im Bank shall charge only for the cost of duplication in excess of 100 pages. No fee will be charged for search or review.

(3) Representatives of the news media. Ex-Im Bank shall charge only for the cost of duplication in excess of 100 pages. No fee will be charged for search or review.

(4) All other requesters. Ex-Im Bank shall charge for the cost of search, review, and duplication, except that 100 pages of duplication and two hours of professional search time shall be furnished without charge.

(c) Search and review fees. Ex-Im Bank shall charge the following fees for search and review:

(1) Clerical. Hourly rate—$16.00.

(2) Professional. Hourly rate—$32.00.

(3) Computer Searches. Hourly rate—based upon the salary of the employee performing the work and the cost of operating any equipment.

(d) Administrative appeals. Ex-Im Bank shall not charge for administrative review of an exemption applied in an initial determination. Ex-Im Bank shall charge, however, for search and review pursuant to an administrative appeal if the appeal is based on a claim other than the application of an exemption in the initial determination.

(e) Duplication. Ex-Im Bank shall charge $.10 per page for paper copy duplication. Ex-Im Bank shall charge the actual or estimated cost of copies prepared by computer, such as tape or
printouts, or for other methods of duplication. When duplication charges are expected to exceed $50.00, Ex-Im Bank shall seek the requester’s consent to be responsible for the estimated charges unless a requester has already expressed a willingness to pay duplication fees in excess of $50.00. Ex-Im Bank shall also offer the requester the opportunity to alter the request in order to reduce duplication costs.

(f) Fees for searches that produce no records. Fees shall be payable as provided in this section even though searches and review do not generate any disclosable records.

(g) Aggregating requests. A requester, or a group of requesters acting in concert, shall not file multiple requests, seeking portions of a record or similar or related records, in order to avoid payment of fees. Ex-Im Bank shall aggregate any such requests and charge as if the requests were a single request.

(h) Special services charges. Complying with requests for special services such as those listed in this paragraph is entirely at the discretion of Ex-Im Bank. Ex-Im Bank shall recover the full costs of providing such services to the extent that it elects to provide them.

(i) Certifications. Ex-Im Bank shall charge $25.00 to certify the authenticity of any Ex-Im Bank record or any copy of such record.

(j) Special shipping. Ex-Im Bank may ship by special means (e.g., express mail) if the requester so desires, provided that the requester has paid or has expressly undertaken to pay all costs of such special services. Ex-Im Bank shall not charge for ordinary packaging and mailing.

(k) Minimum fee. Ex-Im Bank shall waive a final fee of $5.00 or less.

(l) Advance payment. Whenever Ex-Im Bank estimates that the fees are likely to exceed $250.00, Ex-Im Bank shall notify the requester of the likely cost and shall require an advance payment of an amount up to the full estimated charges.

(m) Failure to pay fee. Ex-Im Bank shall not process a request by a requester who has failed to pay a fee for a previous request unless and until such a requester has paid the full amount owed and also has paid, in advance, the total estimated charges for the new request. The administrative time limits for the new request—set forth in §404.5—shall begin to run only after Ex-Im Bank has received the payments described in this section.

§ 404.10 Fee waivers or reductions.

(a) General. Upon request, Ex-Im Bank shall consider a discretionary fee waiver or reduction of the fees chargeable under §404.9.

(b) Form of request for fee waiver. Ex-Im Bank shall deny a request for a waiver or reduction of fees that does not clearly address each of the following:

(1) The proposed use of the records and whether the requester will derive income or other benefit from such use;

(2) An explanation of the reasons why the public will benefit from such use; and

(3) If specialized use of the records is contemplated, a statement of the requester’s qualifications that are relevant to the specialized use.

(d) Burden of proof. In all cases, the requester has the burden of presenting sufficient evidence or information to justify the fee waiver or reduction. The requester may use the procedures set forth in §404.11 to appeal a denial of a fee waiver request.

(e) Employee requests. Fees of less than $50.00 shall be waived in connection with any request by an employee, former employee, or applicant for employment, related to a grievance or complaint of discrimination against Ex-Im Bank.

§ 404.11 Administrative appeal.

(a) General. Whenever a request for records, a fee waiver or expedited processing has been denied, the requester may appeal the denial within thirty days of the date of Ex-Im Bank’s issuance of notice of such action. Any denial under this subpart must be appealed according to this section before a requester is eligible to seek judicial review.

(b) Form. Appeals must be made in writing and must be signed by the appellant. Appeals should be addressed to the Assistant General Counsel for Administration at the address at §404.1(f). Both the envelope and the appeal letter
should be clearly marked in capital letters: “FREEDOM OF INFORMATION ACT APPEAL.” Failure to properly mark or address the appeal may slow its processing. The letter should include:

1. A copy of the denied request or a description of the records requested;
2. The name and title of the Ex-Im Bank employee who denied the request;
3. The date on which the request was denied;
4. The Ex-Im Bank identification number assigned to the request; and
5. The return address and telephone number of the appellant.

(c) **Processing schedule.** Appeals shall not be deemed to have been received until the Assistant General Counsel for Administration receives the appeal. Ex-Im Bank shall notify the requester of the date on which an appeal was officially received. The disposition of an appeal shall be made in writing within twenty working days after the date of receipt of an appeal. The Assistant General Counsel for Administration may extend the time for response an additional ten working days if unusual circumstances exist, provided that the Assistant General Counsel notifies the requester in writing.

(d) **Ex-Im Bank decision.** A final determination which affirms an adverse initial determination shall set forth the reasons for affirming the denial and shall advise the requester of the right to seek judicial review. If the initial determination is reversed on appeal, the request shall be remanded to the Freedom of Information and Privacy Office to be processed promptly in accordance with the decision on appeal, subject to §404.7(i).

Subpart B—Access to Records Under the Privacy Act of 1974

§ 404.12 **General provisions.**

(a) **Purpose.** This subpart establishes policies, procedures, requirements, and responsibilities for administration of the Privacy Act of 1974, 5 U.S.C. 552a, at the Export-Import Bank of the United States (Ex-Im Bank).

(b) **Relationship to the Freedom of Information Act.** The Privacy Act applies to records contained in a systems of records, as defined in §404.13. If an individual submits a request for access to records and cites the Privacy Act, but the records sought are not contained in a Privacy Act system of records, then the request shall be processed only under subpart A of this part. Procedures for Disclosure of Records Under the Freedom of Information Act. All requests properly processed under this subpart B shall also be processed under subpart A of this part.

(c) **Appeal authority.** The Ex-Im Bank Assistant General Counsel for Administration is the appellate authority for all Privacy Act requests.

(d) **Delegation.** Any action or determination in this subpart which is the responsibility of a specific Ex-Im Bank employee may be delegated to a duly designated alternate.

(e) **Ex-Im Bank address.** The Export-Import Bank of the United States is located at 811 Vermont Avenue, NW, Washington, DC 20571.

§ 404.13 **Definitions.**

For purposes of this subpart, the following definitions shall apply:

**Appeal**—A written request to the Ex-Im Bank Assistant General Counsel for Administration for reversal of an adverse initial determination.

**Final determination**—The written decision by the Assistant General Counsel for Administration on an appeal.

**Individual**—A citizen of the United States or an alien lawfully admitted for permanent residence.

**Initial determination**—The initial written determination in response to a Privacy Act request.

**Record**—Any item, collection or grouping of information about an individual that is maintained within a system of records and that contains the individual’s name or an identifying number, symbol or other identifying particular assigned to the individual.

**Redaction**—The process of removing non-disclosable material from a record so that the remainder may be released.

**Request for access**—A request to view a record.

**Request for accounting**—A request for a list of all disclosures of a record.

**Request for correction**—A request to modify a record.
§ 404.14 Requirements of request for access.

(a) Form. Requests for access must be made in writing and must be signed by the requester. Requests should be addressed to the Freedom of Information and Privacy Office at the address in §404.12(e) and should contain both the return address and telephone number of the requester.

(b) Description of records sought. A request for access must describe the records sought in sufficient detail so as to enable Ex-Im Bank personnel to locate the system of records containing the records with a reasonable amount of effort. To the extent practicable, such description should include the nature of the record sought, the date of the record or the period in which the record was compiled, and the name or identifying number of the system of records in which the requester believes the record is kept. A requester may include his or her social security number in the request in order to facilitate the identification and location of the requested records.

(c) Fee statement. The request must contain a statement expressing willingness to pay fees for processing the request or a request for a fee waiver (see §404.16(d)).

(1) Whenever a requester submits a request for access that does not contain a fee statement or a request for a fee waiver, Ex-Im Bank shall advise the requester of the requirements of this section. If the requester fails to respond within ten working days of such notification, then the Freedom of Information and Privacy Office shall notify the requester, in writing, that Ex-Im Bank will not process the request.

(2) A general statement by the requester expressing willingness to pay all applicable fees shall be deemed an agreement to pay up to $25.00. If Ex-Im Bank estimates that the fees for a request will exceed $25.00, then Ex-Im Bank shall notify the requester. Ex-Im Bank shall offer the requester the opportunity to agree, in writing, either to pay a greater fee or to modify the request as a means of limiting the cost.

(3) Whenever the estimated fee chargeable under this section exceeds $25.00, Ex-Im Bank reserves the right to require a requester to make an advance payment prior to processing the request.

(4) Ex-Im Bank shall not process a request by a requester who has failed to pay a fee for a previous request unless and until such requester had paid the full amount owed and also has paid, in advance, the total estimated charges for the new request.

(d) Verification of identity. An individual who submits a request for access must verify his or her identity. The request must include the requester’s full name, current address, and date and place of birth. In addition, such requester must provide a notarized statement attesting to his or her identity.

(e) Verification of guardianship. When a parent or guardian of a minor or the guardian of a person judicially determined to be incompetent submits a request for access to records that relate to the minor or incompetent, such parent or guardian must establish:

(1) His or her own identity and the identity of the subject of the record in accordance with paragraph (d) of this section; and

(2) Parentage or guardianship of the subject of the record, either by providing a copy of the subject’s birth certificate showing parentage or by providing a court order establishing guardianship.

(f) Written notice of amendment. The requester must provide any amendment to the original request in writing to Ex-Im Bank.

(g) Requester assistance. Ex-Im Bank shall make reasonable efforts to assist
§ 404.17 Appeal of denials of access.

(a) Appeals to the Assistant General Counsel for Administration. Whenever a requester in complying with the requirements of this section.

(h) Date of receipt. Requests for access shall be deemed to have been received on the date that the request is received by the Freedom of Information and Privacy Office, provided that all the requirements of this section have been met. Ex-Im Bank shall notify the requester of the date on which it officially received a request.

§ 404.15 Initial determination.

(a) Time for processing. The Freedom of Information and Privacy Office shall respond to valid requests for access within twenty working days of the date of receipt of the request letter. The time for response may be extended an additional ten working days for good cause, provided that the Freedom of Information and Privacy Office notifies the requester in writing.

(b) Notice regarding request for access. The Freedom of Information and Privacy Office shall notify the requester in writing of its decision to grant or deny a request for access.

(1) If the request is granted, then the notice shall include the requested records, in releasable form, or shall describe the manner in which access to the record will be granted. The notice also shall inform the requester of any processing fee.

(2) A denial is a determination to withhold any requested record in whole or in part or a determination that the requested record does not exist or cannot be located. If the request is denied, then the denial notice shall state:

(i) The name, signature, and title or position of the person responsible for the denial;

(ii) The reasons for the denial; and

(iii) The procedure for appeal of the denial under § 404.17 and a brief description of the requirements of that section.

(c) Form of record disclosure. Ex-Im Bank shall grant access to the requested records either by providing the requester with a copy of the record or, at the requester’s option, by making the record available for inspection at a reasonable time and place. If Ex-Im Bank makes the record available for inspection, such inspection shall not unreasonably disrupt Ex-Im Bank operations. In addition, the requester must provide a form of official photographic identification—such as a passport, driver’s license or identification badge—and any other form of identification bearing his or her name and address prior to inspection of the requested records. Records may be inspected by the requester in the presence of another individual, provided that the requester signs a form stating that Ex-Im Bank is authorized to disclose the record in the presence of both individuals.

§ 404.16 Schedule of fees.

(a) Search and review. Ex-Im Bank shall not charge for search and review.

(b) Duplication. Ex-Im Bank shall charge $.10 per page for paper copy duplication. Ex-Im Bank shall charge the actual or estimated cost of copies prepared by computer, such as tape or printouts, or for other methods of reproduction or duplication.

(c) Minimum fee. Ex-Im Bank shall waive final fees of $5.00 or less.

(d) Fee waivers. Ex-Im Bank may waive fees whenever it is determined to be in the public interest. Fees of less than $50.00 shall be waived in connection with any request by an employee, former employee or applicant for employment, related to a grievance or complaint of discrimination against Ex-Im Bank.

(e) Special services charges. Complying with requests for special services such as those listed in this paragraph is entirely at the discretion of Ex-Im Bank. Ex-Im Bank shall recover the full costs of providing such services to the extent that it elects to provide them.

(1) Certifications. Ex-Im Bank shall charge $25.00 to certify the authenticity of any Ex-Im Bank record or any copy of such record.

(2) Special shipping. Ex-Im Bank may ship by special means (e.g., express mail) if the requester so desires, provided that the requester has paid or has expressly undertaken to pay all costs of such special services. Ex-Im Bank shall not charge for ordinary packaging and mailing.

§ 404.17 Appeal of denials of access.

(a) Appeals to the Assistant General Counsel for Administration. Whenever
§ 404.18 Requests for correction of records.

(a) Form. Requests for correction must be made in writing and must be signed by the requester. Requests should be addressed to the Freedom of Information and Privacy Office at the address in § 404.12(e) and should contain both the return address and telephone number of the requester. The request must identify the particular record in question, state the correction sought, and set forth the justification for the correction. The requester also must verify his or her identity in accordance with the procedures set forth at § 404.14(d) and (e). Both the envelope and the request for correction itself should be clearly marked in capital letters: “PRIVACY ACT CORRECTION REQUEST.”

(b) Initial determination. The Freedom of Information and Privacy Office shall respond to valid correction requests within ten working days of receipt of the request letter. If Ex-Im Bank grants the request for correction, then the Freedom of Information and Privacy Office shall advise the requester of his or her right to obtain a copy, in releasable form, of the corrected record. A denial notice shall state the reasons for the denial and shall advise the requester of the right to appeal. Ex-Im Bank shall not charge for processing requests for correction.

(c) Appeal of denial of request for correction. Whenever Ex-Im Bank denies a request for correction, the requester may appeal the denial to the Assistant General Counsel for Administration within thirty working days of Ex-Im Bank’s issuance of notice of such action. Appeals must be made in writing and must be signed by the appellant. Appeals should be addressed to the Assistant General Counsel for Administration at the address in § 404.12(e). Both the envelope and the appeal letter should be clearly marked in capital letters: “PRIVACY ACT CORRECTION APPEAL.” Failure to properly mark or address the appeal may slow its processing. An appeal shall not be deemed to have been received by Ex-Im Bank until the Assistant General Counsel for Administration receives the appeal letter. The letter should include:

(1) A copy of the denied request or a description of the correction sought;
(2) The name and title of the Ex-Im Bank employee who denied the request;
(3) The date on which the request was denied; and
(4) The Ex-Im Bank identification number assigned to the request.

(5) Any information said to justify the correction.
(d) Final determination on correction appeal. (1) The disposition of an appeal shall be made in writing within twenty working days after the date of receipt of an appeal. The Assistant General Counsel for Administration may extend the time for response an additional ten working days for good cause, provided that the requester is notified in writing.

(2) A decision affirming the denial of a request for access shall advise the appellant of the:

(i) Reasons for affirming the denial;

(ii) Right to seek judicial review; and

(iii) Right to file a statement of disagreement, as provided in paragraph (e) of this section.

(3) If the initial determination is reversed, then the request shall be remanded to the Freedom of Information and Privacy Office to be processed in accordance with the decision on appeal.

(e) Statement of disagreement. Upon denial of a correction appeal, the appellant shall have the right to file a statement of disagreement with Ex-Im Bank, setting forth his or her reasons for disagreeing with the Agency’s action. The statement should be addressed to the Freedom of Information and Privacy Office at the address in §404.12(e) and must be received within thirty working days of Ex-Im Bank’s issuance of the denial notice. A statement of disagreement must not exceed one typed page per fact disputed. Statements exceeding this limit shall be returned to the requester for editing. Upon receipt of a statement of disagreement under this section, the Freedom of Information and Privacy Office shall have the statement included in the system of records in which the disputed record is maintained and shall have the disputed record marked so as to indicate that a Statement of Disagreement has been filed. Ex-Im Bank may also append to the disputed record a written statement regarding Ex-Im Bank’s reasons for denying the request to correct the record.

(f) Notices of correction or disagreement. In any disclosure of a record for which Ex-Im Bank has received a statement of disagreement, Ex-Im Bank shall clearly note any portion of the record which is disputed and shall provide a copy of the statement of disagreement.

Ex-Im Bank also may provide its own statement regarding the disputed record. In addition, whenever Ex-Im Bank corrects a record or receives a statement of disagreement, Ex-Im Bank shall, as is reasonable under the circumstances, advise any person or agency to which it previously disclosed such record of the correction or statement, provided that an accounting of such disclosure exists.

§404.19 Request for accounting of record disclosures.

(a) Required information. With respect to each system of records under Ex-Im Bank control, Ex-Im Bank shall maintain an accurate accounting of the date, nature, and purpose of each external disclosure of a record and the name and address of all persons, organizations, and agencies to which disclosure has been made. Ex-Im Bank shall retain this accounting for at least five years or the life of the record, whichever is longer.

(b) Form. An individual may obtain an accounting of all disclosures of a record, provided that such individual establishes his or her identity as the subject of such record in accordance with the procedures set forth at §404.14(d) and (e). A request for an accounting must be made in writing and must be signed by the requester. The request should be addressed to the Freedom of Information and Privacy Office at the address in §404.12(e) and should contain both the return address and telephone number of the requester. Both the envelope and the request itself should be clearly be marked in capital letters: “PRIVACY ACT ACCOUNTING REQUEST.” Failure to properly mark or address the request may slow its processing. The request shall not be deemed to have been received by Ex-Im Bank until the Freedom of Information and Privacy Office receives the request. The letter must clearly identify the particular record for which the accounting is requested.

(c) Initial determination. The Freedom of Information and Privacy Office shall notify the requester whether the request will be granted or denied within ten working days of receipt of a valid request for an accounting. Ex-Im Bank
shall not charge for processing such a request.

(d) Exceptions. Ex-Im Bank shall not be required to provide an accounting to an individual when the accounting relates to a disclosure made:

(1) To an employee within the agency;
(2) Under the FOIA; or
(3) To a law enforcement agency for an authorized law enforcement activity in response to a written request from such agency which specified the law enforcement activity for which the disclosure was sought.

§ 404.20 Notice of court-ordered and emergency disclosures.

(a) Court-ordered disclosures. When a record pertaining to an individual is required to be disclosed by a court order, the Assistant General Counsel for Administration shall make reasonable efforts to provide notice to the subject individual. Notice shall be given within a reasonable time after Ex-Im Bank’s receipt of the order, except that in a case in which the order is not a matter of public record, notice shall be given only after the order becomes public. Such notice shall be mailed to the individual’s last known address and shall contain a copy of the order and a description of the information disclosed.

(b) Emergency disclosures. If a record has been disclosed by Ex-Im Bank under compelling circumstances affecting the health or safety of any person, then, within ten working days, the Assistant General Counsel for Administration shall notify the subject individual of the disclosure at his or her last known address. The notice of such disclosure shall be in writing and shall state the:

(1) Nature of the information disclosed;
(2) Person, organization or agency to which it was disclosed;
(3) Date of disclosure; and
(4) Compelling circumstances justifying the disclosure.

§ 404.21 Submission of social security and passport numbers.

(a) Policy. Ex-Im Bank recognizes the importance of assessing, to the extent reasonably possible, the risks associated with transactions supported by Ex-Im Bank. It is often difficult to assess risks related to individuals and non-publicly trade entities. Therefore, when an individual or a non-publicly traded entity applies for participation in an Ex-Im Bank program or is proposed as a guarantor for an Ex-Im Bank transaction, Ex-Im Bank may request social security and/or U.S. passport numbers from such individual or from the principals of such entity. Ex-Im Bank shall not require submission of this information, and unwillingness or inability to provide a social security or passport number shall not affect Ex-Im Bank’s decision on an application for Ex-Im Bank assistance.

(b) Use. Ex-Im Bank shall use social security and passport numbers to assess the creditworthiness of Ex-Im Bank program participants and as a mechanism for enforcing agreements with Ex-Im Bank. Such information shall not be disclosed, except as warranted by law and regulation.

(c) Notice. Whenever Ex-Im Bank requests a social security or passport number, Ex-Im Bank shall place an appropriate Privacy Act notification on the form used to collect the information.

§ 404.22 Government contracts.

(a) Approval by Assistant General Counsel for Administration. Ex-Im Bank shall not contract for the operation of a system of records or for an activity that requires access to a system of records without the express, written approval of the Assistant General Counsel for Administration.

(b) Contract clauses. Any contract authorized under paragraph (a) of this section shall contain the standard contract clauses required by the Federal Acquisition Regulation (48 CFR 24.104) to ensure compliance with the requirements imposed by the Privacy Act. The division within Ex-Im Bank that is responsible for technical supervision of the contractor shall be responsible for ensuring that the contractor complies with the Privacy Act contract requirements.

(c) Contractor status. Any contractor that operates an Ex-Im Bank system of records or engages in an activity that requires access to an Ex-Im Bank system of records shall be considered an
Ex-Im Bank employee for purposes of this subpart. Ex-Im Bank shall supply any such contractor with a copy of the regulations in this subpart upon entering into a contract with Ex-Im Bank.

§ 404.23 Other rights and services.

Nothing in this subpart shall be construed to entitle any person to any service or to the disclosure of any record to which such person is not entitled under the Privacy Act.

Subpart C—Demands for Testimony of Current and Former Ex-Im Bank Personnel and for Production of Ex-Im Bank Records

SOURCE: 71 FR 14361, Mar. 22, 2006, unless otherwise noted.

(a) Criminal Law Enforcement—(1) Exemption. Under the authority granted by 5 U.S.C. 552a(j)(2), Ex-Im Bank hereby exempts the system of records entitled “EIB–35—Office of Inspector General Investigative Records” from the provisions of 5 U.S.C. 552a(c)(3), (c)(4), (d)(1) through (4), (e)(1) through (3), (e)(4)(G) and (H), (e)(5), (e)(8), (f), and (g) because the system contains information pertaining to the enforcement of criminal laws. “EIB–35—Office of Inspector General Investigative Records” is maintained by the Ex-Im Bank Office of Inspector General (“OIG” or “Ex-Im Bank OIG.”)

(2) Reasons for exemption. The reasons for asserting this exemption are:

(i) Disclosure to the individual named in the record pursuant to 5 U.S.C. 552a(c)(3), (c)(4), or (d)(1) through (4) could seriously impede or compromise the investigation by alerting the target(s), subjecting a potential witness or witnesses to intimidation or improper influence, and leading to destruction of evidence. Disclosure could enable suspects to take action to prevent detection of criminal activities, conceal evidence, or escape prosecution.

(ii) Application of 5 U.S.C. 552a(e)(1) is impractical because the relevance of specific information might be established only after considerable analysis and as the investigation progresses. Effective law enforcement requires the OIG to keep information that may not be relevant to a specific OIG investigation, but which may provide leads for appropriate law enforcement and to establish patterns of activity that might relate to the jurisdiction of the OIG and/or other agencies.

(iii) Application of 5 U.S.C. 552a(e)(2) would be counterproductive to the performance of a criminal investigation because it would alert the individual to the existence of an investigation. In any investigation, it is necessary to obtain evidence from a variety of sources other than the subject of the investigation in order to verify the evidence necessary for successful litigation or prosecution.

(iv) Application of 5 U.S.C. 552a(e)(3) could discourage the free flow of information in a criminal law enforcement inquiry.

(v) The requirements of 5 U.S.C. 552a(e)(4)(G) and (H) and (f) would be counterproductive to the performance of a criminal investigation. To notify an individual at the individual’s request of the existence of records in an investigative file pertaining to such individual, or to grant access to an investigative file could interfere with investigative and enforcement proceedings, deprive co-defendants of a right to a fair trial or other impartial adjudication, constitute an unwarranted invasion of personal privacy of others, disclose the identity or confidential sources, reveal confidential information supplied by these sources and disclose investigative techniques and procedures. Nevertheless, Ex-Im Bank OIG has published notice of its notification, access, and contest procedures because access may be appropriate in some cases.

(vi) Although the OIG endeavors to maintain accurate records, application of 5 U.S.C. 552a(e)(5) is impractical because maintaining only those records that are accurate, relevant, timely, and complete and that assure fairness
§ 404.25 Applicability.

This subpart applies exclusively to demands for testimony and/or production of records issued to Ex-Im Bank personnel, in connection with legal proceedings to which Ex-Im Bank is not a party, regarding information acquired in the course of the performance of official duties or due to their official status. Nothing in this subpart shall be construed to waive the sovereign immunity of the United States. This subpart shall not apply to the following:

(a) Demands for testimony and/or production of records pursuant to a legal proceeding to which Ex-Im Bank is a party:

(b) Demands for testimony and/or production of records in those instances in which Ex-Im Bank personnel are asked to disclose information wholly unrelated to their official duties; and

(c) Congressional demands and requests for testimony or records.

§ 404.26 Definitions.

For purposes of this subpart, the following definitions shall apply—

Demand—includes an order, subpoena, or other compulsory process issued by a party in litigation or a court of competent jurisdiction, requiring the production or release of Ex-Im Bank information or records, or requiring the testimony of Ex-Im Bank personnel.

Ex-Im Bank personnel—includes any current or former officer or employee of Ex-Im Bank, including all individuals who have been appointed by, or subject to, the official supervision, jurisdiction, or control of any Ex-Im Bank employees. This definition encompasses all individuals hired through contractual agreements with Ex-Im Bank, such as: consultants, contractors, sub-contractors, and their employees.
Legal proceeding—a case or controversy pending before any federal, state, or local court, including a grand jury proceeding; a proceeding before a federal, state, or local administrative judge, board, or other similar body with adjudicative powers; or a legislative proceeding before a state or local legislative body.

Records—all documentary materials that Ex-Im Bank creates or receives in connection with the transaction of official business, including any materials classified as “Federal records” under 44 U.S.C. 3301 and its implementing regulations.

Testimony—written or oral statements, including, but not limited to, depositions, answers to interrogatories, affidavits, declarations, and any other statements made in a legal proceeding, including any expert or opinion testimony.

§ 404.27 Demand requirements.

A party’s demand for testimony and/or production of records by Ex-Im Bank personnel regarding information acquired in the course of their performance of official duties or due to their official status shall be set forth in, or accompanied by, a signed affidavit or other written statement. Such affidavit or written statement must be submitted at least 30 days prior to the date such testimony and/or production of records is requested to be taken and/or produced. A copy of the affidavit or written statement shall be served on the other parties to the legal proceeding. The affidavit or written statement must:

(a) Be addressed to the Export-Import Bank of the United States, Office of the General Counsel, 811 Vermont Ave., NW., Washington, DC 20571;

(b) State the nature of the legal proceeding, including any docket number, title of the case, and the name of the administrative or adjudicative body before which the proceedings are to be heard;

(c) State the nature of the testimony or records sought;

(d) State the relevance of the information sought to the legal proceedings;

(e) State why such information can only be obtained through testimony or production of records by Ex-Im Bank personnel; and

(f) Comply with all procedures governing valid service of process.

§ 404.28 Notification of General Counsel required.

Ex-Im Bank personnel receiving a demand for testimony and/or production of records regarding information acquired in the course of their performance of official duties, or due to their official status, shall immediately notify the General Counsel of Ex-Im Bank (“General Counsel”) upon receipt of such demand. The General Counsel maintains the exclusive authority to waive the requirements of any or all sections of this subpart and reserves the right to delegate his or her authority under this subpart to other appropriate Ex-Im Bank personnel.

§ 404.29 Restrictions on testimony and production of records.

Ex-Im Bank personnel may not provide testimony and/or produce records regarding information acquired in the course of their performance of official duties, or due to their official status, in connection with any legal proceeding to which this subpart applies, without authorization by the General Counsel. Such authorization must be in writing, unless the General Counsel determines that circumstances warrant an oral authorization, and such oral authorization is subsequently documented.

§ 404.30 Factors General Counsel may consider in determining whether to authorize testimony and/or the production of records.

In determining whether to authorize Ex-Im Bank personnel to provide testimony and/or produce records regarding information acquired in the course of their performance of official duties, or due to their official status, the General Counsel may consider factors including, but not limited to, the following:

(a) Efficiency—the conservation of the time and resources of Ex-Im Bank personnel for the conduct of official business;

(b) Undue burden—whether the demand creates an undue burden upon
§ 404.31 Procedure for declining to testify and/or produce records.

Ex-Im Bank personnel receiving a demand to provide testimony and/or production of records regarding information acquired in the course of their performance of official duties, or due to their official status, and who have not received written authorization from the General Counsel to provide such information, shall:

(a) Respectfully decline to answer or appear for examination on the grounds that such testimony is forbidden by this subpart;

(b) Request the opportunity to consult with the General Counsel;

(c) Explain that only upon consultation may they be granted approval to provide such testimony;

(d) Explain that providing such testimony or production of records absent approval may subject the individual to criminal liability under 18 U.S.C. 641, as well as other applicable laws, and other disciplinary action; and

(e) Request a stay of the request or demand pending a determination by the General Counsel.

§ 404.32 Procedure in the event a decision concerning a demand is not made prior to the time a response to the demand is required.

If response to a demand is required before a determination has been rendered by the General Counsel, the U.S. Attorney or such other attorney as may be designated for the purpose will appear with the Ex-Im Bank personnel upon whom the demand has been made, and will furnish the court or other authority with a copy of the regulations contained in this subpart and inform the court or other authority that the demand has been or is being, as the case may be, referred for prompt consideration of the General Counsel. The court or other authority shall be requested respectfully to stay the demand pending determination by the General Counsel.

§ 404.33 Procedure in the event of an adverse ruling.

If the court or other authority declines to stay the effect of the demand in response to a request made in accordance with § 404.32 pending a determination by the General Counsel, or if the court or other authority rules that the demand must be complied with irrespective of the instructions from the General Counsel not to produce the material or disclose the information...
sought, the Ex-Im Bank personnel upon whom the demand has been made shall respectfully decline to comply with the demand (United States ex rel. Touhy v. Ragen, 340 U.S. 462).

§ 404.34 Procedure for demands for testimony or production of documents regarding confidential information.

In addition to compliance with the requirements of this subpart, demands to provide testimony and/or produce records that concern information protected by the Privacy Act, 5 U.S.C. 552a, or any other authority mandating confidentiality of certain classes of records or information, must also satisfy the requirements for disclosure imposed by such authority before records may be produced or testimony given.

§ 404.35 Procedures for requests for Ex-Im Bank employees to provide expert or opinion testimony.

No Ex-Im Bank personnel may, unless specifically authorized by the General Counsel, testify in any legal proceeding as an expert or opinion witness as to any matter related to his or her duties or the functions of the Ex-Im Bank, including the meaning of Ex-Im Bank documents. Any demand for expert or opinion testimony shall comply with the policies and procedures outlined in this subpart.

§ 404.36 No private right of action.

Nothing in this subpart shall be construed as creating any right, substantive or procedural, enforceable at law or equity by a party against Ex-Im Bank or the United States.

Subparts D–E [Reserved]

PART 405 [RESERVED]

PART 407—REGULATIONS GOVERNING PUBLIC OBSERVATION OF EXIMBANK MEETINGS

§ 407.1 Purpose, scope and definitions.

§ 407.2 Closing meetings.

(a) Except where Eximbank finds that the public interest requires otherwise, a meeting, or any portion thereof, may be closed to the public, where the Board of Directors determines that such meetings, or any portion thereof, or information pertaining to such meeting, or any portion thereof, is likely to:

407.4 Procedures applicable to other meetings.
407.5 Certification by General Counsel.
407.6 Transcripts, recordings and minutes of closed meetings.
407.7 Relationship to Freedom of Information Act.

AUTHORITY: Sec. (g) Government in the Sunshine Act, 5 U.S.C. 552b(g); secs. (b) through (f), 5 U.S.C. 552b.

SOURCE: 42 FR 12417, Mar. 4, 1977, unless otherwise noted.

§ 407.1 Purpose, scope and definitions.

(a) Consistent with the principles that: (1) The public is entitled to the fullest practicable information regarding the decision-making processes of the Federal Government, and (2) the rights of individuals and the ability of the Export-Import Bank of the United States to carry out its statutory responsibilities should be protected, this part is promulgated pursuant to the directive of section (g) of the Government in the Sunshine Act, 5 U.S.C. 552b, and specifically implements sections (b) through (f) of said Act, 5 U.S.C. 552b (b) through (f).

(b) The term meeting means any meeting of the Board of Directors of Eximbank at which a quorum is present and where deliberations determine or result in the joint conduct or disposition of official Eximbank business.

(c) The term regularly scheduled meeting means meetings of the Board of Directors or the Executive Committee which are held at 9:30 a.m. on Thursday of each week.

(d) The term General Counsel means the General Counsel and his or her designees.

§ 407.2

(1) Disclose matters that are: (i) Specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy and (ii) in fact properly classified pursuant to such Executive order;

(2) Relate solely to the internal personnel rules and practices of Eximbank or any other agency;

(3) Disclose matters specifically exempted from disclosure by statute (other than section 552 of title 5 U.S.C.), provided that such statute: (i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (ii) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Involve accusing any person of a crime, or formally censuring any person;

(6) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) Disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would:

(i) Interfere with enforcement proceedings,

(ii) Deprive a person of a right to a fair trial or an impartial adjudication,

(iii) Constitute an unwarranted invasion of personal privacy,

(iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source,

(v) Disclose investigative techniques and procedures or

(vi) Endanger the life or physical safety of law enforcement personnel;

(8) Disclose information contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions;

(9) Disclose information the premature disclosure of which would:

(i) In the case of an agency which regulates currencies, securities, commodities, or financial institutions, be likely to: (A) Lead to significant financial speculation in currencies, securities, or commodities, or (B) significantly endanger the stability of any financial institution; or

(ii) In the case of Eximbank or any other agency, be likely to significantly frustrate implementation of a proposed agency action;

except that paragraph (a)(9)(ii) of this section shall not apply in any instance where the agency has already disclosed to the public the content or nature of its proposed action, or where the agency is required by law to make such disclosure on its own initiative prior to taking final agency on such proposal; or

(10) Specifically concern Eximbank’s issuance of a subpoena, or Eximbank’s participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration.

(b) Inasmuch as opening any regularly scheduled meeting, or any portion thereof, to public observation will be likely to result in the disclosure of the kind of information set forth in paragraph (a) (4), (8), (9)(i) or (a)(10) of this section, or any combination thereof, of paragraph (a) of this section, the Board of Directors expects to close all regularly scheduled meetings to the public.

(c) Any other meeting of Eximbank, or any portion thereof, will be open to public observation except where the Board of Directors determines that such meeting, or any portion thereof, is likely to disclose information of the kind set forth in any paragraph of § 407.2(a). In the event that the Board of Directors closes such meeting, or any portion thereof, by virtue of paragraph (a)(4), (8), (9)(i)(A) or (a)(10) of this section, or any combination thereof, the procedure set forth in § 407.3 below will apply, and in the event that the Board of Directors closes such meeting, or any portion thereof, by virtue of any of the remaining paragraphs of § 407.2(a),
or any combination thereof, the procedures set forth in § 407.4 will apply.

[42 FR 12417, Mar. 4, 1977, as amended at 72 FR 66043, Nov. 27, 2007]

§ 407.3 Procedures applicable to regularly scheduled meetings.

(a) Announcements. Regularly scheduled meetings of the Board of Directors will be held at 9:30 a.m. every Thursday in the Board Room (Room 1141) of the Bank’s headquarters. In the event that a regularly scheduled meeting is rescheduled, public announcement of the time, date and place of such meeting will be made at the earliest practicable time in the form of a notice posted in the Office of the Secretary. An agenda setting forth the subject matter of each regularly scheduled meeting will be made available in the Office of the Secretary (Room 935), telephone number (202) (566–8871) at the earliest practicable time. Provided, That individual items may be added to or deleted from any agenda at any time. Inquiries from the public regarding any regularly scheduled meeting shall be directed to the Office of the Secretary.

(b) Voting. At the beginning of each regularly scheduled meeting, the Board of Directors will vote by recorded vote on whether to close such meeting. No proxy vote will be permitted. A record of such vote indicating the vote of each Director will be posted in the Office of the Secretary immediately following the conclusion of such meeting.

§ 407.4 Procedures applicable to other meetings.

(a) Amendments. (1) For every meeting which is to be open to public observation or which is to be closed pursuant to any paragraph of § 407.2(a) other than paragraphs (a) (4), (6), (9)(i) or (10), or any combination thereof, public announcement will be made at least one week before the meeting of the time, place, and the agenda setting forth the subject matter of such meeting, and whether the meeting, or any portion thereof, is to be open or closed to the public.

(2) Inquiries from the public regarding any such meeting shall be directed to the Office of the Secretary.

(3) The one-week period for the announcement required by paragraph (a)(1) of this section may be reduced if the Board of Directors determines by a recorded vote that Eximbank business requires such meeting to be called at an earlier date. Public announcement of the time, place, and subject matter of such meeting, and whether open or closed to the public, will be made at the earliest practicable time.

(4) The time or place of a meeting may be changed following the announcement required by paragraph (a)(1) of this section only if public announcement is made of such change at the earliest practicable time.

(5) The subject matter of a meeting or the determination of the Board of Directors to open or close a meeting, or any portion thereof, to the public, may be changed following the announcement required by paragraph (a)(1) of this section only if:

(i) A majority of the entire voting membership of the Board of Directors determines by a recorded vote that Eximbank business so requires and that no earlier announcement of the change was possible; and

(ii) The Board of Directors announces such change and the vote of each Director upon such change at the earliest practicable time.

(6) Individual items may be added to or deleted from any agenda at any time.

(7) The announcements required pursuant to this section shall be made in the form of a notice posted in the Office of the Secretary. In addition, immediately following each announcement required by this section, notice of: (i) The time, place and subject matter of a meeting which is to be open to public observation or which is to be closed pursuant to any section of § 407.2(a) other than paragraphs (a) (4), (6), (9)(i) or (10), or any combination thereof, (ii) the decision to open or close such meeting, or any portion thereof, or (iii) any change in any announcement previously made shall be submitted for publication in the Federal Register.

§ 407.5 Certification by General Counsel.

For every meeting closed pursuant to any paragraph of §407.2(a), the General Counsel of Eximbank will be asked to certify prior to such meeting that in his or her opinion such meeting may properly be closed to the public, and to state which of the exemptions set forth in §407.2(a) he or she has relied upon. A copy of such certification will be posted in the Office of the Secretary. The original certification together with a statement from the presiding officer of such meeting setting forth the time, date and place of such meeting and the persons present will be retained by Eximbank as part of the transcript, recording or minutes of such meeting described below.

§ 407.6 Transcripts, recordings and minutes of closed meetings.

Eximbank will maintain a complete transcript or electronic recording of the proceedings of every meeting or portion thereof closed to the public, Provided, however, That if any meeting or portion thereof is closed pursuant to paragraphs (8), (9)(i) or (10) of §407.2(a), Eximbank may maintain a set of detailed minutes for such meetings in lieu of a transcript or electronic recording. The entire transcript, electronic recording or set of minutes of a meeting will be made promptly available to the public for inspection and copying in the Office of the Secretary. Copies of such transcript or minutes, as well as copies of the transcription of such recording disclosing the identity of each speaker, will be furnished to any person at the actual cost of duplication or transcription. However, Eximbank will not make available for inspection or copying the transcript, electronic recording or minutes of the discussions of any item on the agenda.
of such meeting which contains information of the kind described in §407.2(a). Requests to inspect or to have copies made of any transcript, electronic recording or set of minutes of any meeting or item(s) on the agenda, thereof should be made in writing to the General Counsel and if possible, identify the time, date and place of such meeting and briefly describe the item(s) being sought. Eximbank will maintain a complete verbatim copy of the transcript, a complete electronic recording or a complete copy of the minutes of each meeting, or portion thereof, closed to the public for two years after such meeting or one year from the date of final action of the Board of Directors on all items on the agenda of such meeting, whichever occurs later.

[42 FR 12417, Mar. 4, 1977, as amended at 72 FR 66043, Nov. 27, 2007]

§ 407.7 Relationship to Freedom of Information Act.
Nothing in this part expands or limits the present rights of any person under part 404, except that the exemptions contained in §407.2 shall govern in the case of any request made pursuant to part 404 to copy or inspect the transcripts, recordings or minutes described in §407.6.

PART 408—PROCEDURES FOR COMPLIANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT

Subpart A—General

§ 408.1 Background.

(a) The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 et seq.) establishes national policies and goals for the protection of the environment. Section 102(2) of NEPA contains certain procedural requirements directed toward the attainment of such goals. In particular, all Federal agencies are required to give appropriate consideration to the environmental effects of their proposed actions in their decision-making and to prepare detailed environmental statements on recommendations or reports on proposals for legislation and other major Federal Actions significantly affecting the quality of the human environment.

(b) Executive Order 11991 of May 24, 1977, directed the Council on Environmental Quality (CEQ) to issue regulations to implement the procedural provisions of NEPA (NEPA Regulations). Accordingly, CEQ issued final NEPA Regulations which are binding on all Federal agencies as of July 30, 1979 (40 CFR parts 1500 through 1508) on November 29, 1979. These Regulations provide that each Federal agency shall as necessary adopt implementing procedures to supplement the NEPA Regulations. Section 1507.3(b) of the NEPA Regulations identifies those sections of the NEPA Regulations which must be addressed in agency procedures.

§ 408.2 Purpose.

The purpose of this part is to establish procedures which supplement the NEPA Regulations and provide for the implementation of those provisions identified in §1507.3(b) of the NEPA Regulations.

§ 408.3 Applicability.

Historically, virtually all financing provided by Eximbank has been in aid of U.S. exports which involve no effects on the quality of the environment within the United States, its territories or possessions. Eximbank has
separate procedures for conducting environmental reviews where such reviews are required by E.O. 12114 (January 4, 1979) because of potential effects on the environment of global commons areas or on the environment of foreign nations. The procedures set forth in this part apply to the relatively rare cases where Eximbank financing of U.S. exports may affect environmental quality in the United States, its territories or possessions.

Subpart B—Eximbank Implementing Procedures

§ 408.4 Early involvement in foreign activities for which Eximbank financing may be requested.

(a) Section 1501.2(d) of the NEPA Regulations requires agencies to provide for early involvement in actions which, while planned by private applicants or other non-Federal entities, require some form of Federal approval. Pursuant to the Export-Import Bank Act of 1945, as amended, Eximbank is asked to provide financing for transactions involving exports of U.S. goods and services for projects in foreign countries which are planned by non-U.S. entities (Transactions).

(b) To implement the requirements of §1501.2(d) with respect to these Transactions, Eximbank:

(1) Will provide on a project-by-project basis to applicant seeking financing from Eximbank guidance as to the scope and level of environmental information to be used in evaluating a proposed Transaction where: (i) The proposed Eximbank financing would be a major action and (ii) a Transaction may significantly affect the quality of the human environment in the United States, its territories or possessions.

(2) Upon receipt of an application for Eximbank financing or notification that an application will be filed, will consult as required with other appropriate parties to initiate and coordinate the necessary environmental analyses.

These responsibilities will be performed by the General Counsel and the Engineers of Eximbank.

(c) To facilitate Eximbank review of Transactions for which positive determinations have been made under paragraphs (b)(1)(i) and (ii) of this section, applicants should:

(1) Consult with the Engineer as early as possible in the planning process for guidance on the scope and level of environmental information required to be submitted in support of their application;

(2) Conduct any studies which are deemed necessary and appropriate by Eximbank to determine the impact of the proposed action on the quality of the human environment;

(3) Consult with appropriate U.S. (Federal, regional, State and local) agencies and other potentially interested parties during preliminary planning stages to ensure that all environmental factors are identified;

(4) Submit applications for all U.S. (Federal, regional, State and local) approvals as early as possible in the planning process;

(5) Notify Eximbank as early as possible of all other applicable legal requirements for project completion so that all applicable Federal environmental reviews may be coordinated; and

(6) Notify Eximbank of all known parties potentially affected by or interested in the proposed action.

§ 408.5 Ensuring environmental documents are actually considered in Agency decision-making.

Section 1505.1 of the NEPA Regulations contains requirements to ensure adequate consideration of environmental documents in agency decision-making. To implement these requirements, Eximbank officials will:

(a) Consider all relevant environmental documents in evaluating applications for Eximbank financing;

(b) Ensure that all relevant environmental documents, comments and responses accompany the application through Eximbank’s review processes;

(c) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating an application which is the subject of an EIS.
Export-Import Bank of the U.S. § 410.101

Eximbank actions | Start of NEPA process | Completion of NEPA process | Key officials or offices required to consider environmental documents
--- | --- | --- | ---
Issuance of Preliminary Commitment (P.C.) | When application is received. | When the Board of Directors meets to consider application. | Under §408.4(b)(1)(i) and (ii), General Counsel to determine whether requested Eximbank financing is a major action and Engineer to determine whether proposed Transaction may significantly affect the quality of the human environment in the United States, its territories or possessions.
Issuance of Final Commitment | When application is received. | When the Board of Directors meets to consider application. | (If no P.C. has been issued, key offices will make determinations mentioned above.) Engineer to collect, prepare or arrange for preparation of all environmental documents.

§ 408.6 Typical classes of action.
(a) Section 1507.3(c)(2) of the NEPA Regulations in conjunction with §1508.4 thereof requires agencies to establish three typical classes of action for similar treatment under NEPA. These typical classes of action are set forth below:

<table>
<thead>
<tr>
<th>Actions normally requiring EIS’s</th>
<th>Actions normally requiring assessments but not necessarily EIS’s</th>

(b) Eximbank will independently determine whether an EIS or an environmental assessment is required where:
(1) A proposal for agency action is not covered by one of the typical classes of action above; or
(2) For actions which are covered, the presence of extraordinary circumstances indicates that some other level of environmental review may be appropriate.

§ 408.7 Environmental information.
Interested persons may contact the General Counsel regarding Eximbank’s compliance with NEPA.

PART 410—ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS OR ACTIVITIES CONDUCTED BY EXPORT-IMPORT BANK OF THE UNITED STATES

§ 410.101 Purpose.
This part effectuates section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by Executive agencies or the United States Postal Service.

SOURCE: 51 FR 4575, 4579, Feb. 5, 1986, unless otherwise noted.
§ 410.102 Application.

This part applies to all programs or activities conducted by the agency.

§ 410.103 Definitions.

For purposes of this part, the term—

Assistant Attorney General means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the agency. For example, auxiliary aids useful for persons with impaired vision include readers, Braille materials, audio recordings, telecommunications devices and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD’s), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant’s name and address and describes the agency’s alleged discriminatory action in sufficient detail to inform the agency of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Handicapped person means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(i) Physical or mental impairment includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one of more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term physical or mental impairment includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism.

(2) Major life activities includes functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) Is regarded as having an impairment means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the agency as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in paragraph (1) of this definition but is treated by the agency as having such an impairment.

Qualified handicapped person means—

(1) With respect to any agency program or activity under which a person is required to perform services or to achieve a level of accomplishment, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or
Export-Import Bank of the U.S. § 410.130

(2) With respect to any other program or activity, a handicapped person who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity.

(3) Qualified handicapped person is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this part by § 410.140.

[51 FR 4575, 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]

§§ 410.104–410.109 [Reserved]

§ 410.110 Self-evaluation.

(a) The agency shall, by April 9, 1987, evaluate its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the agency shall proceed to make the necessary modifications.

(b) The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The agency shall, until three years following the completion of the self-evaluation, maintain on file and make available for public inspections:

(1) A description of areas examined and any problems identified, and

(2) A description of any modifications made.

§ 410.111 Notice.

The agency shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

§§ 410.112–410.129 [Reserved]

§ 410.130 General prohibitions against discrimination.

(a) No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

(b)(1) The agency, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap—

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons than is provided to others unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards;

(vi) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.
(2) The agency may not deny a qualified handicapped person the opportunity to participate in programs or activities that are not separate or different, despite the existence of permissibly separate or different programs or activities.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—
   (i) Subject qualified handicapped persons to discrimination on the basis of handicap; or
   (ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to handicapped persons.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—
   (i) Exclude handicapped persons from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or
   (ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.

(5) The agency, in the selection of procurement contractors, may not use criteria that subject qualified handicapped persons to discrimination on the basis of handicap.

(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or Executive order to a different class of handicapped persons is not prohibited by this part.

(d) The agency shall administer programs and activities in the most integrated setting appropriate to the needs of qualified handicapped persons.

§§ 410.141–410.148 [Reserved]

§ 410.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §410.150, no qualified handicapped person shall, because the agency’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 410.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §410.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or
such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) Methods. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151 through 4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by June 6, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by April 7, 1989, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by October 7, 1986, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

1. Identify physical obstacles in the agency’s facilities that limit the accessibility of its programs or activities to handicapped persons;
2. Describe in detail the methods that will be used to make the facilities accessible;
3. Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and
4. Indicate the official responsible for implementation of the plan.

§ 410.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151 through 4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

§§ 410.152–410.159 [Reserved]

§ 410.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(i) In determining what type of auxiliary aid is necessary, the agency shall give primary consideration to the requests of the handicapped person.

(1) The agency need not provide individually prescribed devices, readers for
personal use or study, or other devices of a personal nature.

(2) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD’s) or equally effective telecommunication systems shall be used.

(b) The agency shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §410.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 410.161–410.169 [Reserved]

§ 410.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) General Counsel, Export-Import Bank of the United States shall be responsible for coordinating implementation of this section. Complaints may be sent to General Counsel, Export-Import Bank of the United States, 811 Vermont Avenue, NW., Room 947, Washington, DC 20571.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151 through 4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation found;

(3) A notice of the right to appeal.
(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §410.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant, he or she shall have 60 days from the date of receipt of the additional information to make his or her determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

§§ 410.171–410.999 [Reserved]

PART 411—NEW RESTRICTIONS ON LOBBYING

Subpart A—General

§ 411.100 Conditions on use of funds.

(a) No appropriated funds may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(b) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(c) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(d) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(e) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(f) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(g) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(h) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(i) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(j) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(k) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(l) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

which would be prohibited under paragraph (a) of this section if paid for with appropriated funds.

(d) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a statement, set forth in appendix A, whether that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

(e) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a disclosure form, set forth in appendix B, if that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

§ 411.105 Definitions.

For purposes of this part:

(a) **Agency**, as defined in 5 U.S.C. 552(f), includes Federal executive departments and agencies as well as independent regulatory commissions and Government corporations, as defined in 31 U.S.C. 9101(1).

(b) **Covered Federal action** means any of the following Federal actions:

(1) The awarding of any Federal contract;
(2) The making of any Federal grant;
(3) The making of any Federal loan;
(4) The entering into of any cooperative agreement; and,
(5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Covered Federal action does not include receiving from an agency a commitment providing for the United States to insure or guarantee a loan. Loan guarantees and loan insurance are addressed independently within this part.

(c) **Federal contract** means an acquisition contract awarded by an agency, including those subject to the Federal Acquisition Regulation (FAR), and any other acquisition contract for real or personal property or services not subject to the FAR.

(d) **Federal cooperative agreement** means a cooperative agreement entered into by an agency.

(e) **Federal grant** means an award of financial assistance in the form of money, or property in lieu of money, by the Federal Government or a direct appropriation made by law to any person. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, loan insurance, interest subsidies, insurance, or direct United States cash assistance to an individual.

(f) **Federal loan** means a loan made by an agency. The term does not include loan guarantee or loan insurance.

(g) **Indian tribe and tribal organization** have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B). Alaskan Natives are included under the definitions of Indian tribes in that Act.

(h) **Influencing or attempting to influence** means making, with the intent to influence, any communication to or appearance before an officer or employee or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

(i) **Loan guarantee and loan insurance** means an agency’s guarantee or insurance of a loan made by a person.

(j) **Local government** means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

(k) **Officer or employee of an agency** includes the following individuals who are employed by an agency:
§ 411.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

(c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person.

for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract, grant, loan, cooperative agreement, loan insurance commitment, or loan guarantee commitment. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

State means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and a multi-State, regional, or interstate entity having governmental duties and powers.

§ 411.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

(c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person.
§ 411.200 Agency and legislative liaison.

(a) The prohibition on the use of appropriated funds, in §411.100(a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(b) For purposes of paragraph (a) of this section, providing any information specifically requested by an agency or Congress is allowable at any time.

(c) For purposes of paragraph (a) of this section, the following agency and legislative liaison activities are allowable at any time only where they are not related to a specific solicitation for any covered Federal action:

(1) Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person’s products or services, conditions or terms of sale, and service capabilities; and,

(2) Technical discussions and other activities regarding the application or adaptation of the person’s products or services for an agency’s use.

(d) For purposes of paragraph (a) of this section, the following agencies and
legislative liaison activities are allowable only where they are prior to formal solicitation of any covered Federal action:

(1) Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

(2) Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

(3) Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Pub. L. 95–507 and other subsequent amendments.

e) Only those activities expressly authorized by this section are allowable under this section.

§ 411.205 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §411.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or an extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) For purposes of paragraph (a) of this section, professional and technical services shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(c) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(d) Only those services expressly authorized by this section are allowable under this section.

§ 411.210 Reporting.

No reporting is required with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

Subpart C—Activities by Other Than Own Employees

§ 411.300 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §411.100 (a), does not apply in the case of any reasonable
payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) The reporting requirements in §411.110 (a) and (b) regarding filing a disclosure form by each person, if required, shall not apply with respect to professional or technical services rendered directly in the preparation, submission, or negotiation of any commitment providing for the United States to insure or guarantee a loan.

(c) For purposes of paragraph (a) of this section, professional and technical services shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting or a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(d) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(e) Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(f) Only those services expressly authorized by this section are allowable under this section.

Subpart D—Penalties and Enforcement

§411.400 Penalties.

(a) Any person who makes an expenditure prohibited herein shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such expenditure.

(b) Any person who fails to file or amend the disclosure form (see appendix B) to be filed or amended if required herein, shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(c) A filing or amended filing on or after the date on which an administrative action for the imposition of a civil penalty is commenced does not prevent the imposition of such civil penalty for a failure occurring before that date. An administrative action is commenced with respect to a failure when an investigating official determines in writing to commence an investigation of an allegation of such failure.

(d) In determining whether to impose a civil penalty, and the amount of any such penalty, by reason of a violation by any person, the agency shall consider the nature, circumstances, extent, and gravity of the violation, the effect on the ability of such person to...
continue in business, any prior violations by such person, the degree of culpability of such person, the ability of the person to pay the penalty, and such other matters as may be appropriate.

(e) First offenders under paragraph (a) or (b) of this section shall be subject to a civil penalty of $10,000, absent aggravating circumstances. Second and subsequent offenses by persons shall be subject to an appropriate civil penalty between $10,000 and $100,000, as determined by the agency head or his or her designee.

(f) An imposition of a civil penalty under this section does not prevent the United States from seeking any other remedy that may apply to the same conduct that is the basis for the imposition of such civil penalty.

§ 411.405 Penalty procedures.

Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. sections 3803 (except subsection (c)), 3804, 3805, 3806, 3807, 3808, and 3812, insofar as these provisions are not inconsistent with the requirements herein.

§ 411.410 Enforcement.

The head of each agency shall take such actions as are necessary to ensure that the provisions herein are vigorously implemented and enforced in that agency.

Subpart E—Exemptions

§ 411.500 Secretary of Defense.

(a) The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibition whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of each such written exemption to Congress immediately after making such a determination.

(b) The Department of Defense may issue supplemental regulations to implement paragraph (a) of this section.

Subpart F—Agency Reports

§ 411.600 Semi-annual compilation.

(a) The head of each agency shall collect and compile the disclosure reports (see appendix B) and, on May 31 and November 30 of each year, submit to the Secretary of the Senate and the Clerk of the House of Representatives a report containing a compilation of the information contained in the disclosure reports received during the six-month period ending on March 31 or September 30, respectively, of that year.

(b) The report, including the compilation, shall be available for public inspection 30 days after receipt of the report by the Secretary and the Clerk.

(c) Information that involves intelligence matters shall be reported only to the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.

(d) Information that is classified under Executive Order 12356 or any successor order shall be reported only to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives or the Committees on Armed Services of the Senate and the House of Representatives (whichever such committees have jurisdiction of matters involving such information) and to the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.

(e) The first semi-annual compilation shall be submitted on May 31, 1990, and shall contain a compilation of the disclosure reports received from December 23, 1989 to March 31, 1990.

(f) Major agencies, designated by the Office of Management and Budget (OMB), are required to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives no
later than with the compilations due on May 31, 1991. OMB shall provide detailed specifications in a memorandum to these agencies.

(g) Non-major agencies are requested to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives.

(h) Agencies shall keep the originals of all disclosure reports in the official files of the agency.

§ 411.605 Inspector General report.

(a) The Inspector General, or other official as specified in paragraph (b) of this section, of each agency shall prepare and submit to Congress each year, commencing with submission of the President’s Budget in 1991, an evaluation of the compliance of that agency with, and the effectiveness of, the requirements herein. The evaluation may include any recommended changes that may be necessary to strengthen or improve the requirements.

(b) In the case of an agency that does not have an Inspector General, the agency official comparable to an Inspector General shall prepare and submit the annual report, or, if there is no such comparable official, the head of the agency shall prepare and submit the annual report.

(c) The annual report shall be submitted at the same time the agency submits its annual budget justifications to Congress.

(d) The annual report shall include the following: All alleged violations relating to the agency’s covered Federal actions during the year covered by the report, the actions taken by the head of the agency in the year covered by the report with respect to those alleged violations and alleged violations in previous years, and the amounts of civil penalties imposed by the agency in the year covered by the report.

§ 411.605 Inspector General report.

APPENDIX A TO PART 411—
Certification Regarding Lobbying

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction as provided by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

(1) If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction as provided by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
APPENDIX B TO PART 411—DISCLOSURE FORM TO REPORT LOBBYING

DISCLOSURE OF LOBBYING ACTIVITIES

Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1352
(See reverse for public burden disclosure.)

1. Type of Federal Action:
   □ a. contract
   □ b. grant
   □ c. cooperative agreement
   □ d. loan
   □ e. loan guarantee
   □ f. loan insurance

2. Status of Federal Action:
   □ a. bid or offer/application
   □ b. initial award
   □ c. post-award

3. Report Type:
   □ a. initial filing
   □ b. material change
   For Material Change Only:
   year ___, quarter ___, date of last report ___,

4. Name and Address of Reporting Entity:
   □ Prime
   □ Subrecipient
   Tier ___, if known:
   Congressional District, if known:

5. If Reporting Entity in No. 4 is Subawardee, Enter Name and Address of Prime:
   Congressional District, if known:

6. Federal Department/Agency:

7. Federal Program Name/Description:
   CFDA Number, if applicable: ____________

8. Federal Action Number, if known:

9. Award Amount, if known:
   $ ____________

10. a. Name and Address of Lobbying Entity
    of individual, last name, first name, M/L:
    (attach Continuation sheet(s) SF-LLL-A if necessary)

11. Amount of Payment (check all that apply):
    $ ____________ □ actual □ planned

12. Form of Payment (check all that apply):
    □ a. cash
    □ b. in-kind; specify: nature ____________
    value ____________

13. Type of Payment (check all that apply):
    □ a. retainer
    □ b. one-time fee
    □ c. commission
    □ d. contingent fee
    □ e. deferred
    □ f. other; specify: ____________

14. Brief Description of Services Performed or to be Performed and Date(s) of Service, including officer(s), employee(s), or Member(s) contacted, for Payment Indicated in Item 11:
    (attach Continuation sheet(s) SF-LLL-A if necessary)

15. Continuation sheet(s) SF-LLL-A attached:
    □ Yes □ No

16. Information required through this form is authorized by title 31 U.S.C.
    section 1352. This disclosure of lobbying activities is a material representation
    of fact upon which reliance was placed by the Office when this
    transaction was made or entered into. This disclosure is required pursuant to
    31 U.S.C. 1352. This information will be reported to the Congress semi-annually and
    will be available to public inspection. Any person who fails to
    file the required disclosure shall be subject to a civil penalty of not less than
    $1,000 and not more than $10,000 for each such failure.

Standard Form - LLL.

1323
INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.
   (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a).

11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503.
PART 412—ACCEPTANCE OF PAYMENT FROM A NON-FEDERAL SOURCE FOR TRAVEL EXPENSES

Sec.
412.1 Authority.
412.3 General.
412.5 Policy.
412.7 Conditions for acceptance.
412.9 Conflict of interest analysis.
412.11 Payment guidelines.
412.13 Limitations and penalties.

SOURCE: 59 FR 31316, June 17, 1994, unless otherwise noted.

§ 412.1 Authority.

§ 412.3 General.
(a) Applicability. This part applies to acceptance by the Export-Import Bank of the United States (Eximbank) of payment from a non-Federal source for travel, subsistence, and related expenses with respect to the attendance of an employee in a travel status at any meeting or similar event relating to the official duties of the employee, other than those described in 41 CFR 304–1.2. This part does not authorize acceptance of such payments by an employee in his/her personal capacity.
(b) Solicitation prohibited. An employee shall not solicit payment for travel, subsistence and related expenses from a non-Federal source. However, after receipt of an invitation from a non-Federal source to attend a meeting or similar event, Eximbank or the employee may inform the non-Federal source of this authority.
(c) Definitions. As used in this part, the following definitions apply:
(1) Conflicting non-Federal source. Conflicting non-Federal source means any person who, or entity other than the Government of the United States which, has interests that may be substantially affected by the performance or nonperformance of the employee’s duties.
(2) Employee. Employee means any director, officer or other employee of Eximbank.

(3) Meeting or similar event. Meeting or similar event means a meeting, formal gathering, site visit, negotiation session or similar event that takes place away from the employee’s official station and which is directly related to the mission of Eximbank. This term does not include any meeting or similar function described in 41 CFR 304–1.2 or sponsored by Eximbank. A meeting or similar event need not be widely attended for purposes of this definition.
(4) Non-Federal source. Non-Federal source means any person or entity other than the Government of the United States. The term includes any individual, private or commercial entity, nonprofit organization or association, state, local, or foreign government, or international or multinational organization.
(5) Payment. Payment means funds paid or reimbursed to Eximbank by a non-Federal source for travel, subsistence, and related expenses by check or similar instrument, or payment in kind.
(6) Payment in kind. Payment in kind means goods, services or other benefits provided by a non-Federal source for travel, subsistence, and related expenses in lieu of funds paid to Eximbank by check or similar instrument for the same purpose.
(7) Travel, subsistence and related expenses. Travel, subsistence and related expenses means the same types of expenses payable under 41 CFR chapter 301.

§ 412.5 Policy.
As provided in this part, Eximbank may accept payment from a non-Federal source (or authorize an employee to receive such payment on its behalf) with respect to attendance of the employee at a meeting or similar event which the employee has been authorized to attend in an official capacity on behalf of Eximbank. The employee’s immediate supervisor and Eximbank’s designated agency ethics official or his/her designee (DAEO) must approve any offer and acceptance of payment under this part in accordance with the procedures described below. If the employee is a member of Eximbank’s Board of Directors, only the DAEO’s approval is required. Any employee authorized to
travel in accordance with this part is subject to the maximum per diem or actual subsistence expense rates and transportation class of service limitations prescribed in 41 CFR chapter 301.

§ 412.7 Conditions for acceptance.

(a) Eximbank may accept payment for employee travel from a non-Federal source when a written authorization to accept payment is issued in advance of the travel following a determination by the employee’s supervisor (except in the case of Board members) and the DAEO that the payment is:

(1) For travel relating to an employee’s official duties under an official travel authorization issued to the employee;

(2) For attendance at a meeting or similar event as defined in §412.3(c)(3):

(i) In which the employee’s participation is necessary in order to further the mission of Eximbank;

(ii) Which cannot be held at the offices of Eximbank for justifiable business reasons in light of the location and number of participants and the purpose of the meeting or similar event; and

(iii) Which is taking place at a location and for a period of time that is appropriate for the purpose of the meeting or similar event;

(3) From a non-Federal source that is not a conflicting non-Federal source or from a conflicting non-Federal source that has been approved under §412.9; and

(4) In an amount which does not exceed the maximum per diem or actual subsistence expense rates and transportation class of service limitations prescribed in 41 CFR chapter 301.

(b) An employee requesting approval of payment of travel expenses by a non-Federal source under this part shall submit to the employee’s supervisor (except in the case of Board members) and the DAEO a written description of the following: the nature of the meeting or similar event and the reason that it cannot be held at Eximbank, the date(s) and location of the meeting or similar event, the identities of all participants in the meeting or similar event, the name of the non-Federal source offering to make the payment, the amount and method of the proposed payment, and the nature of the expenses.

(c) Payments may be accepted from multiple sources under paragraph (a) of this section.

§ 412.9 Conflict of interest analysis.

Eximbank may accept payment from a conflicting non-Federal source if the conditions of §412.7 are met and the employee’s supervisor (except in the case of Board members) and the DAEO determine that Eximbank’s interest in the employee’s attendance at or participation in the meeting or similar event outweighs concern that acceptance of the payment by Eximbank may cause a reasonable person to question the integrity of Eximbank’s programs and operations. In determining whether to accept payment, Eximbank shall consider all relevant factors, including the purpose of the meeting or similar event, the importance of the travel for Eximbank, the nature and sensitivity of any pending matter affecting the interests of the conflicting non-Federal source, the significance of the employee’s role in any such matter, the identity of other expected participants, and the location and duration of the meeting or similar event.

§ 412.11 Payment guidelines.

(a) Payments from a non-Federal source, other than payments in kind, shall be by check or similar instrument made payable to Eximbank. Payments from a non-Federal source, including payments in kind, are subject to the maximum per diem or actual subsistence expense rates and transportation class of service limitations prescribed in 41 CFR chapter 301.

(b) If Eximbank determines in advance of the travel that a payment covers some but not all of the per diem costs to be incurred by the employee, Eximbank shall authorize a reduced per diem rate, in accordance with 41 CFR part 301–7.12.

§ 412.13 Limitations and penalties.

(a) This part is in addition to and not in place of any other authority under which Eximbank may accept payment from a non-Federal source or authorize an employee to accept such payment on behalf of Eximbank. This part shall
not be applied in connection with the acceptance by Eximbank of payment for travel, subsistence, and related expenses incurred by an employee to attend a meeting or similar function described in and authorized by 41 CFR part 304–1.

(b) An employee who accepts any payment in violation of this part is subject to the following:

(1) The employee may be required, in addition to any penalty provided by law and applicable regulations, to repay for deposit to the general fund of the Treasury, an amount equal to the amount of the payment so accepted; and

(2) When repayment is required under paragraph (b)(1) of this section, the employee shall not be entitled to any payment or reimbursement from Eximbank for such expenses.

Part 414—Conference and Other Fees

§ 414.1 Collection of conference and other fees.

Ex-Im Bank may impose and collect reasonable fees to cover the costs of conferences and seminars sponsored by, and publications provided by Ex-Im Bank. Amounts received under the preceding sentence shall be credited to the fund which initially paid for such activities and shall be offset against the expenses of Ex-Im Bank for such activities.

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations (CFR) that were made by documents published in the Federal Register since January 1, 2009 are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to Federal Register pages. The user should consult the entries for chapters, parts and subparts as well as sections for revisions.

2009

12 CFR

Chapter III

308 Technical correction.............40478
308.604 (c) revised....................32245
326 Appendix A amended; interim........31166
Appendix A amended..................60143
327.3 (a)(1) revised ....................9550
327.6 (b)(1) revised ....................9551
327.9 Revised ..........................9552
327.10 Revised ..........................9553
327.12 Added ...........................9554
327.1—327.10 (Subpart A) Appendix A revised........9557
Appendix B revised ........................9559
Appendix C revised ........................9560
332.2 Revised ..........................62935
332.6 (b) and (f) revised; (g) added;
(g) removed eff. 1–1–12..............62936
332.7 (i) added..........................62936

12 CFR—Continued

Chapter III—Continued

332 Appendix A redesignated as Appendix B; new Appendix A added.................................62936
Appendix B amended; Appendix B removed eff. 1–1–12..............62945
334 Authority citation revised........31517
334.40—334.43 (Subpart E) Added..........................31517
334.82 (a), (b), (c)(2)(i)(A), (d)(1) and (3) amended..................22643
334 Appendices C and J amended....22643
Appendix E added........................31518
337 Revised.............................26530
337.6 (b)(2)(ii)(B) revised; (b)(4) removed; (e) added..................26530
Regulation at 74 FR 26520 withdrawn..........27683
(b)(2)(ii)(B) revised; (b)(4) removed; (e) added..................27683
345.12 (u)(1) revised ....................68664
347.202 (e) revised; (v), (w) and (x)
redesignated as (w), (x) and (y);
new (v) added..........................47718
