

(3) Actions taken to remedy any failures to meet goals; and

(4) Construction projects must also include a list of equipment purchased during the reporting period compared with the equipment authorized. This information must include manufacturer, make and model number, brief description, number and date of the items purchased, and cost.

§ 2301.21 Payment of Federal funds.

(a) The Department will not make any payment under an award, unless and until the recipient complies with all relevant requirements imposed by this Part. Additionally:

(1) The Department will not make any payment until it receives confirmation that the FCC has granted any necessary authorization;

(2) The Department may not make any payment under an award unless and until all special award conditions stated in the award documents that condition the release of Federal funds are met; and

(3) An agreement to share ownership of the grant equipment (e.g., a joint venture for a tower) must be approved by the Agency before any funds for the project will be released.

(b) As a general matter, the Agency expects grantees to expend local matching funds at a rate at least equal to the ratio of the local match to the Federal grant as stipulated in the grant award.

§ 2301.22 Protection, acquisition, and substitution of equipment.

(a) To assure that the Federal investment in public telecommunications facilities funded under the Act will continue to be used to provide public telecommunications services to the public during the Federal interest period, the Agency may require a grantee to:

(1) Execute and record a document establishing that the Federal government has a priority lien on any facilities purchased with funds under the Act during the period of continuing Federal interest. The document shall be recorded where liens are normally recorded in the community where the facility is located and in the community where the grantee's headquarters are located; and

(2) File a certified copy of the recorded lien with the Administrator ninety (90) days after the grant award is received.

(b) The grantee shall maintain protection against common hazards through adequate insurance coverage or other equivalent undertakings, except that, to the extent the applicant follows a different policy of protection with respect to its other property, the applicant may extend such policy to apparatus acquired and installed under the project. The grantee shall purchase flood insurance (in communities where such insurance is available) if the facilities will be constructed in any area that has been identified by the Federal Emergency Management Agency as having special flood hazards.

(c) The grantee shall not dispose of or encumber its title or other interests in the equipment acquired under this grant during the Federal interest period.

(d) The grantee shall demonstrate that the grantee has obtained appropriate title or lease satisfactory to protect the Federal interest to the site or sites on which apparatus proposed in the project will be operated. The grantee must have the right to occupy, construct, maintain, operate, inspect, and remove the project equipment without impediment to assure the sufficient continuity of operation of the facility; and nothing must prevent the Federal government from entering the property and reclaiming or securing PTFP-funded property.

(e) The Agency will allow the acquisition of facilities by lease; however, the following requirements apply:

(1) The lease must be of benefit to the Federal government;

(2) The actual amount of the lease must not be more than the outright purchase price would be; and

(3) The lease agreement must state that in the event of anticipated or actual termination of the lease, the Federal government has the right to transfer and assign the leasehold to a new grantee for the duration of the lease contract.

(f) *Transfer of equipment.* Where the grant equipment is no longer needed for the original purposes of the project, the Department may transfer the

§ 2301.23

equipment to the Federal government or an eligible third party, in accordance with Office of Management and Budget guidelines.

(g) *Transfer of Federal interest to different equipment.* The Department may transfer the Federal interest in PTFP-funded equipment to other eligible equipment presently owned or to be purchased by the grantee with non-Federal monies, provided the following conditions are met:

(1) If the Federal interest is to be transferred to other equipment presently owned or to be purchased by a grantee, the Federal interest in the new equipment must be at least equal to the Federal interest in the original equipment.

(2) Equipment previously funded by PTFP that is within the Federal interest period may not be used in a transfer request as the designated equipment to which the Federal interest is to be transferred.

(3) The same item can be used only once to substitute for the Federal interest. However, the Federal interest in several items of equipment from different grants may be transferred to a single item if the request for all such transfers is submitted at the same time.

(4) A lien on equipment transferred to the Federal interest may be required by PTFP and must be recorded in accordance with § 2301.23(b)(8). A copy of the lien document must be filed with the PTFP within sixty (60) days of the date of approval of the transfer of Federal interest.

(h) *Termination by buy-out.* A grantee may terminate the Federal revisionary interest in a PTFP grant by buying out the Federal interest with non-Federal monies. Buy-outs may be requested at any time.

Subpart E—Completion of Projects

§ 2301.23 Completion of projects.

(a) Upon completion of a *planning* project, the grantee must promptly provide to the Agency two copies of any report or study conducted in whole or in part with funds provided under this program.

(1) This report shall meet the goals and objectives for which the grant is

15 CFR Ch. XXIII (1–1–14 Edition)

awarded and shall follow the written instructions and guidance provided by the Agency. The grant award goals and objectives are stated in the planning narrative as amended and are incorporated by reference into the award agreement.

(2) The Agency shall review this report for the extent to which those goals and objectives are addressed and met, for evidence that the work contracted for under the grant award was in fact performed, and to determine whether the written instructions and guidance provided by the Agency, if any, were followed.

(3) If the Agency determines that the report fails to address or meet any grant award goals or objectives, or if there is no evidence that the work contracted for was in fact performed, or if this report clearly indicates that the written instructions and guidance provided by the Agency, if any, were disregarded, then the Agency may pursue remedial action.

(4) An unacceptable final report may result in the disallowance of claimed costs and the establishment of an account receivable by the Department.

(b) Upon completion of a *construction* project, the grantee must:

(1) Certify that the grantee has acquired, installed, and begun operating the project equipment in accordance with the project as approved by the Agency, and has complied with all terms and conditions of the grant as specified in the Grant Award document;

(2) Certify that the grantee has obtained any necessary FCC authorizations to operate the project apparatus following the acquisition and installation of the apparatus and document the same;

(3) Certify and document that the facilities have been acquired, that they are in operating order, and that the grantee is using the facilities to provide public telecommunications services in accordance with the project as approved by the Agency;

(4) Certify that the grantee has obtained adequate insurance to protect the Federal interest in the project in the event of loss through casualty;
