

temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

Significant or Substantial foreign agreement (also referred to in this part as foreign agreement or agreement) means an agreement with a foreign nation, entity, consortium, or person that provides for one or more of the following:

(1) Administrative control which may include distributorship arrangements involving the routine receipt of high volumes of the system's unenhanced data;

(2) Participation in the operations of the system; including direct access to the system's unenhanced data; or

(3) An equity interest in the licensee held by a foreign nation and/or person, if such interest equals or exceeds or will equal or exceed twenty (20) percent of total outstanding shares, or entitles the foreign person to a position on the licensee's Board of Directors.

Subsidiary means a person over which the applicant or licensee may exercise administrative control.

Tasking means any action taken to command a remote sensing space system or its sensor to acquire data for transmission or storage on the satellite's recording subsystem. Such action can be in the form of commands sent to the system for execution or for storage in the satellite's memory for execution at a specified time or location within a given orbit.

Under Secretary means the Under Secretary of Commerce for Oceans and Atmosphere and Administrator of NOAA or his/her designee.

Unenhanced data means remote sensing signals or imagery products that are unprocessed or subject only to data preprocessing. Data preprocessing may include rectification of system and sensor distortions in remote sensing data as it is received directly from the satellite; registration of such data with respect to features of the Earth; and calibration of spectral response with respect to such data. It does not include conclusions, manipulations, or calculations derived from such data, or a combination of such data with other data. It also excludes phase history data for synthetic aperture radar sys-

tems or other space-based radar systems.

U.S. Policy means the policy(ies) announced by the President that specifically address U.S. commercial remote sensing space capabilities.

Subpart B—Licenses

§ 960.4 Application.

No person subject to the jurisdiction and/or control of the United States may operate a private remote sensing space system without a license issued pursuant to this part.

(a) Filing instructions, as well as a list of information to be included in the license application, are included in Appendix 1 of this part.

(b) If information in an application becomes inaccurate or incomplete prior to issuance of the license, the applicant must, within 14 days, file the new or corrected information with the Assistant Administrator. If new or revised information is filed during the application process, the Assistant Administrator shall, within fourteen (14) days, determine whether the deadline imposed by Section 201(c) of the Act and § 960.6(a) must be extended to allow adequate review of the revised application and, if so, for how long.

§ 960.5 Confidentiality of information.

(a) Any proprietary information related to a license application, application for amendment, foreign agreement, or any other supporting documentation submitted to NOAA will be treated as business confidential or proprietary information, if that information is explicitly designated and marked as such by the submitter. This does not preclude the United States Government from citing information in the public domain provided by the licensee in another venue (e.g., the licensee's Web site or a press release).

(b) Within thirty (30) days of the issuance of a license to operate a remote sensing space system, the licensee shall provide the Assistant Administrator with a publicly-releasable summary of the licensed system. The summary must be submitted in a readily reproducible form accompanied by a
