§ 303.44 Products not intended for uses subject to the act.

Textile fiber products intended for uses not within the scope of the Act and regulations or intended for uses in other textile fiber products which are exempted or excluded from the Act shall not be subject to the labeling and invoicing requirements of the Act and regulations: Provided, An invoice or other paper covering the marketing or handling of such products is given, which indicates that the products are not intended for uses subject to the Textile Fiber Products Identification Act.

§ 303.43 Fiber content tolerances.

(a) A textile fiber product which contains more than one fiber shall not be deemed to be misbranded as to fiber content percentages if the percentages by weight of any fibers present in the total fiber content of the product, exclusive of permissive ornamentation, do not deviate or vary from the percentages stated on the label in excess of 3 percent of the total fiber weight of the product. For example, where the label indicates that a particular fiber is present in the amount of 40 percent, the amount of such fiber present may vary from a minimum of 37 percent of the total fiber weight of such product to a maximum of 43 percent of the total fiber weight of such product.

(b) Where the percentage of any fiber or fibers contained in a textile fiber product deviates or varies from the percentage stated on the label by more than the tolerance or variation provided in paragraph (a) of this section, such product shall be misbranded unless the person charged proves that the entire deviation or variation from the fiber content percentages stated on the label resulted from unavoidable variations in manufacture and despite the exercise of due care.

(c) Where representations are made to the effect that a textile fiber product is composed wholly of one fiber, the tolerance provided in section 4(b)(2) of the Act and paragraph (a) of this section shall not apply, except as to permissive ornamentation where the textile fiber product is represented to be composed of one fiber “exclusive of ornamentation.”

§ 303.42 Arrangement of information in advertising textile fiber products.

(a) Where a textile fiber product is advertised in such manner as to require disclosure of the information required by the Act and regulations, all parts of the required information shall be stated in immediate conjunction with each other in legible and conspicuous type or lettering of equal size and prominence. In making the required disclosure of the fiber content of the product, the generic names of fibers present in an amount 5 percent or more of the total fiber weight of the product, together with any fibers disclosed in accordance with §303.3(a), shall appear in order of predominance by weight, to be followed by the designation “other fiber” or “other fibers” if a fiber or fibers required to be so designated are present.

(b) Non-required information or representations shall in no way be false, deceptive, or misleading as to fiber content and shall not include any names, terms, or representations prohibited by the Act and regulations. Such non-required information or representations shall not be set forth or so used as to interfere with, minimize, or detract from the required information.

(c) Non-deceptive terms which are properly and truthfully descriptive of a fiber may be used in conjunction with the generic name of such fiber; as for example: “cross-linked rayon,” “solution dyed acetate,” “combed cotton,” “nylon 66,” etc.
