

presently available alternative liquid automotive fuels are meant to serve as illustrations of compliance with this part, but do not limit the Rule's coverage to only the mentioned fuels:

- (1) "Methanol/Minimum _____% Methanol"
- (2) "Ethanol/Minimum _____% Ethanol"
- (3) "M-85/Minimum _____% Methanol"
- (4) "E-85/Minimum _____% Ethanol"
- (5) "LPG/Minimum _____% Propane" or
"LPG/Minimum _____% Propane and _____% Butane"
- (6) "LNG/Minimum _____% Methane"
- (7) "B-20 Biodiesel Blend/contains biomass-based diesel or biodiesel in quantities between 5 percent and 20 percent"
- (8) "20% Biomass-Based Diesel Blend/contains biomass-based diesel or biodiesel in quantities between 5 percent and 20 percent"
- (9) "B-100 Biodiesel/contains 100 percent biodiesel"
- (10) "100% Biomass-Based Diesel/contains 100 percent biomass-based diesel"
- (g) When you receive automotive fuel from a common carrier, you also must receive from the common carrier a certification of the automotive fuel rating of the automotive fuel, either by letter or on the delivery ticket or other paper.

[58 FR 41374, Aug. 3, 1993, as amended at 59 FR 48798, Sept. 23, 1994; 73 FR 40163, July 11, 2008]

§ 306.11 Recordkeeping.

You must keep for one year any delivery tickets or letters of certification on which you based your posting of automotive fuel ratings. You also must keep for one year records of any automotive fuel rating determinations you made according to § 306.5. These records may be kept at the retail outlet or at another, reasonably close location. They must be available for inspection by Federal Trade Commission and Environmental Protection Agency staff members or by persons authorized by FTC or EPA.

[58 FR 41374, Aug. 3, 1993]

LABEL SPECIFICATIONS

§ 306.12 Labels.

All labels must meet the following specifications:

(a) *Layout*—(1) *For gasoline labels.* The label is 3 inches (7.62 cm) wide × 2½ inches (6.35 cm) long. The illustrations appearing at the end of this rule are prototype labels that demonstrate the proper layout. "Helvetica Black" or equivalent type is used throughout except for the octane rating number on octane labels, which is in Franklin gothic type. All type is centered. Spacing of the label is ¼ inch (.64 cm) between the top border and the first line of text, ⅛ inch (.32 cm) between the first and second line of text, ¼ inch (.64 cm) between the octane rating and the line of text above it. All text and numerals are centered within the interior borders.

(2) *For alternative liquid automotive fuel labels (one principal component), other than biodiesel, biomass-based diesel, biodiesel blends, or biomass-based diesel blends.* The label is 3 inches (7.62 cm) wide × 2½ inches (6.35 cm) long. "Helvetica Black" or equivalent type is used throughout. All type is centered. The band at the top of the label contains the name of the fuel. This band should measure 1 inch (2.54 cm) deep. Spacing of the fuel name is ¼ inch (.64 cm) from the top of the label and ⅜ inch (.48 cm) from the bottom of the black band, centered horizontally within the black band. The first line of type beneath the black band is ⅛ inch (.32 cm) from the bottom of the black band. All type below the black band is centered horizontally, with ⅛ inch (.32 cm) between each line. The bottom line of type is ⅜ inch (.48 cm) from the bottom of the label. All type should fall no closer than ⅜ inch (.48 cm) from the side edges of the label. If you wish to change the dimensions of this one principal component label to accommodate a fuel descriptor that is longer than shown in the sample labels, you must petition the Federal Trade Commission. You can do this by writing to the Secretary of the Federal Trade Commission, Washington, DC 20580. You must state the size and contents of the label that you wish to use, and the reasons that you want to use it.
